"Immediately send someone to see where Leviathan lost contact..."
"Quickly check the situation!"
At this time, everyone in the Lab of the Gods suddenly became stunned.
Although they couldn't think of how these people would eliminate Leviathan, they were still worried.
...
Although Leviathan lost contact with the Lab of the Gods.
But the command they got before was to follow the deserter ahead and not to attack.
So the Leviathan army has been following...
Levi Garrison, who followed behind, also noticed the weirdness of this place, not to mention the strong
energy, it was completely disordered.
They are all underwater vehicles, and Levi Garrison is following with pure body.
So the feeling is obvious...
After passing through this area, the next journey became more and more difficult.
Many underwater vehicles were obstructed and damaged a lot.
Leviathan's huge body forcibly destroyed all obstacles...
I don't know how long it will take.
The eyes suddenly opened up.
It also lights up...
The scene in front of them shocked everyone.
A super super large deep-sea base appeared in everyone's eyes.

These Leviathans seem very small…
Don't say three thousand.
Just 30,000 can be installed casually.
The scale here has already begun.
The magnificent architecture shocked the world.
If it is reported here.
I am afraid that the whole world will be shocked that another prehistoric civilization has been
discovered.
However, this is Daxia's Donghai Dragon Palace plan.
After coming here.
According to the instructions, Ye Qingtian and the others released a series of drones and continued to
enter the deep-sea base.
They left quickly in another secret passage.
This channel is the back of the East China Sea Dragon Palace Project, and is used for escape or secret
use.
Now Lu Xiong will mark this place.
Provide Ye Qingtian with them to escape.
When a large number of Leviathan came here, they had all disappeared.
Only a large number of drones are left in front.
The Leviathans have been unable to capture Ye Qingtian and others who are leaving, and can only
capture these drones.
Immediately all followed.
Shortly after.
All Leviathans entered this deep-sea base.
Start capturing these drones.
Levi Garrison has been following.
He was shocked by the deep sea kingdom in front of him…
If it weren't for Daxia's temperament and Daxia's modern characters on the architecture…
He must think that this is where the prehistoric civilization is…
"It seems that I have entered a certain secret base in Daxia? It seems that this place has been
abandoned for a long, long time!"
Levi Garrison began to observe here.
"Rumble…"
But at this moment.
The gates around the huge deep-sea base began to close.

This is made of special materials and surrounds the entire base to protect it.
not only.
There is also a huge dome soaring up.
Cover the entire base.
The Return of the God of War [The Protector] Chapter 2823
At this moment, Levi Garrison finally understood what their plan was.
Since they can't beat these Leviathans, they can be attracted to this place to trap them all.
Walked all the way since just now.
Levi Garrison understood that this is a place isolated from the world, and there is no special road map to
get here.
So now Leviathan has disconnected from the Lab of the Gods…
Otherwise, it won't be attracted by the drone.
Everyone else escaped!
Levi Garrison was happy.
Your plan is good.
But I was still inside, so you closed the door?
In fact, Lu Xiong from the outside world couldn't judge the situation inside.
He closed the door after determining the time when a Leviathan was introduced to the base after
precise calculations, and he was also betting.
Soon, Levi Garrison discovered that all the Leviathans were looking at him.After all, after entering this
base.
Leviathan couldn't find anyone else, those infinite machines were soon crushed by them.
Only Levi Garrison is alive!
They can only deal with him!
Levi Garrison looked helpless: "Look! You closed the door, this is the consequence! It's all against me!"
Levi Garrison was very depressed at first, but then he showed a deep smile.
"Before I was thinking about how to kill you quietly without revealing myself! I didn't have a chance for
a long time, but now…"
Levi Garrison smiled even more.
This kind of opportunity came by itself?
They all came to a place isolated from the world?
No one from the outside world knows what you are doing here.

Even the Lab of the Gods would not know.
This is easy to judge.
If the Lab of the Gods can continue to control Leviathan, they will not be caught and trapped here.
Therefore, Levi Garrison must have lost contact with Leviathan!
Never know the situation here!
Even if I kill them all, no one knows.
The Leviathans began to stare at Levi Garrison angrily, trying to tear him apart.
"court death!!!"
Levi Garrison didn't say anything, he pulled out the "Divine Tribulation" directly!
"You are the lackeys of the Lab of the Gods! Let's take your surgery first!"
"Buzzing…"
Shenjie trembled crazily, as if screaming excitedly.
"Rumble…"
Divine Tribulation exudes a surging weather, covering the entire base.
That is the coercion that opens up the world!
Directly suppressed all the Leviathans in front of you!
They have never felt such a strong presence!
This is the first time!
Unbelievably powerful!
All the Leviathans froze in place.
Although they are manipulated, they are also intelligent creatures with their own consciousness.
Now that the instructions of the Lab of the Gods have been "completed", they will judge affairs through
their own consciousness.
Now Levi Garrison made them feel the danger!
"kill!"
Levi Garrison's sacrifice!
This is the divine catastrophe he prepared for the laboratory of the gods!
Simply unmatched.
"Shit!"
Divine Tribulation shoots out like a missile.
"boom!"
Directly penetrate the front Leviathan through the middle!
First, the film, then the body, no matter what material, no matter what blood gene…
Will not work!
It can't stop the sharpness of Divine Tribulation!

It is as soft as a piece of tofu when it meets the sharp edge of the gods, and it can be easily cut!
Can't stop it at all!
It is no longer like all the attacks encountered before, it can only damage the epidermis, not Leviathan's
real body.
We can only rely on everyone to accumulate and continue to chisel…
But this time Leviathan encountered a divine calamity!
Divine Tribulation is not afraid of any defense, it just splits when encountered!
Soon, Divine Tribulation penetrated Leviathan's thick body with a sword penetrated.
"哢嚓!"
Under the power of the divine calamity, Leviathan's energy core was shattered!
"Wow!"
Leviathan let out a roar and fell to the ground with a thud.
But this is the beginning.
The sword aura of Divine Tribulation began to wreak havoc on its body.
"哢嚓!"
"哢嚓!"
…
Its huge body began to burst into pieces, falling apart, and instantly turning into powder…
The energy core has been destroyed again and cannot be recovered at all!
A Leviathan is dead!
…
"Shit!"
Divine Tribulation did not stop, and then penetrated the second Leviathan!
"Shit!"
The third Leviathan was cut through the middle by the gods.
The body next to it is divided into two!
"Shit!"
The fourth Leviathan had no reaction at all, and the divine calamity penetrated from the body.
…
The Return of the God of War [The Protector] Chapter 2824
Shenjie seems to be equipped with a missile lock tracking function, chasing Leviathan.
I won't let it go!

In front of God's Tribulation, Leviathan's indestructible body is indistinguishable from tofu!"Puff!"
This time, Divine Tribulation penetrated the bodies of eight Leviathans at once!
The Leviathan gathered together was penetrated in a straight line…
"Shit!"
…
Next, Shen Jie carried out an indiscriminate bombardment of these Leviathans!
They are not defensive at all, let alone offensive.
Even the energy shield supported by Leviathan, who had reacted later, was instantly shattered.
It's not useful at all!
No one can stop the majesty of God's Tribulation!
These Leviathans, who are raging outside, making everyone helpless, are so vulnerable in front of the
Divine Tribulation!
Just because this is Levi Garrison!
This is God's Tribulation!
…
One hundred!
…
Five hundred!
…
One thousand!
…
Three thousand!
…
With little effort, all Leviathans were massacred by Levi Garrison indiscriminately!
I don't know how much effort the Dark Doctor spent, how much resources and materials, and how much
manpower and financial resources he spent…
But in front of Levi Garrison, it took only a few minutes to kill!
After doing all this, Levi Garrison put away the divine calamity.
Looking at the closed door of the base, Levi Garrison smiled helplessly.
There is no way, he can only use his fist to open the gate of the base and leave.
For Levi Garrison, he could still leave easily.
After all, he knew the way before he came, which was equivalent to mastering the map.
Just don't know the path that Ye Qingtian and the others escaped from.

Finally solved a big worry!
Only the main priest is left.
He can wait for the chief priest with all his strength.
Daxia is still far from enough.
Leviathan left them at a loss.
…
now.
The Lab of the Gods went mad and wanted to contact Leviathan.
Someone has been sent to search where the Leviathans disappeared.
Thus.
It was all stared at by the Four King Kong.
They plus variant 13 are still looking for traces of the Gods' Laboratory…
Now they will send someone here.
Naturally, I was eyeing on.
…
The other side.
On the coastline of Daxia, everyone is anxiously waiting.
They need to know that Ye Qingtian has no success.
The representatives of various countries who came to support have already inquired many times.
I want to know where Ye Qingtian and the others attracted these Big Macs.
But after all, Atlantis is Daxia's top secret plan.
If we can't disclose it, we won't disclose it.
If not encountered this problem.
I'm afraid no one will know about the Atlantis plan…
The Eagle Nation also secretly sent a message back to the Sky Shield—there should be a secret place in a
certain sea area in Daxia, or what they discovered, it was able to temporarily trap these giant creatures…
For a while, Tianshield was very curious and began to inquire relevant information!
After waiting for a long time.
Finally Ye Qingtian returned with a large group of troops.
Although all of them are ashamed.
Even the aircraft was damaged.
At least it was successful.
"We succeeded! Those giant guys have all entered the reserved area! They must be trapped!"
Hearing Ye Qingtian's good news, the audience began to cheer.
Everyone is excited! ! !
The Return of the God of War [The Protector] Chapter 2825

The Eagle Nation and the major supporting forces were very surprised.
Daxia really succeeded?
How did they do it?
Where are these Big Macs trapped?
It's amazing!
"Comrades-in-arms! This group of giant creatures will be besieged next! At least a month! Even as long as a year!"
"Let's study them together and see how to eliminate them?"
Xiao Liejun laughed.
"Yes! It's a big deal, let's study it together! This is good for each of us in the future!"
Everyone agreed.
Soon, the representative of the War Eagle Nation couldn't help asking: "Head Xiao, dare to ask where you trapped these Big Macs? It's so amazing?"
The words came out.
Many people gathered around, wanting to know the answer, very curious.
…The key point is that everyone can't imagine any place under the sky that can trap three thousand such giant creatures at the same time…
So eagerly want to know where.
Xiao Liejun smiled: "Sorry! I can't tell you for the time being! After all, this involves too much! I say it, it is very likely that our efforts will be ruined!"
At this time, Li Chengmin stood up and said, "Yes, that's wrong! The fewer people who know, the better! We have spies or spies who don't know the enemy!"
"Yes, if this place leaks out! If it is used by someone who is interested, if it is released again! Who will bear the consequences?"
"The best thing is that the fewer people you know, the better!"
…
The powers of the countries that have good relations with Daxia have come forward to speak.
How dare you let more people know about this?
Non-my family, its heart must be different.
What's more, all the people present are aliens.
How can such a big secret be said.
And also to be afraid of the people behind Leviathan, it becomes more and more impossible to say it.

The representative of the War Eagle Nation immediately ended the battle:
"Yes! Don't ask anymore!
Since you are trapped, that's a good thing!"
This matter is not over.
In the end, everyone discussed and all countries sent experts to study how to deal with Leviathan.
The other side.
The Lab of the Gods searched for a long time where the Leviathans lost contact, and there was no clue
at all.
The journey to this base is too complicated, so no one has discovered it for so long.
They can't find it either.
There is no way to find where Leviathan disappeared.
Hearing the message of no results, Mr. X's face was really gloomy.
Don't get angry.
Three thousand Big Macs just disappeared like this…
Who will believe it?
"It just disappeared? Can't get in touch? I take it!"
Mr. X is really mad.
However, what they didn't expect was that not only had they disappeared, they had all been massacred.
None of them are left.
"Are you sure that Leviathan is trapped?"
Mr. X said solemnly.
Everyone bowed their heads.
To this.
There is no good explanation and answer.
I don't even know where Leviathan has gone.
"Report! The information just intercepted from Daxia—Leviathan was indeed drawn to a certain place
by Daxia! The details are unknown! Daxia guards this closely!"
"However, Daxia predicts that it can be trapped for at least a month! They are now jointly studying how
to solve Leviathan!"
…
Hearing the real hammer's message, everyone's expressions grew gloomy.
All of them were furious.
It was really calculated by Daxia!
What conspiracy does not work in front of absolute power!
Is it useful now?
And they overlooked one point.

Leviathan is not a human being after all, it was made…
More of a machine!
"What should I do now? Only Daxia and the gods in Forbidden Land No. 76 know the place, right?"
"I now suspect that this place has something to do with Forbidden Land No. 76! Maybe it is their base in
the sea!"
…
Everyone said one after another.
Mr. X is a sticky head.
The Return of the God of War [The Protector] Chapter 2826
Lucifer said: "We should send someone to investigate immediately, know where this place is from
Daxia…"
"Now we have basically all the spies and undercover agents in Daxia! How do we check? Daxia strictly
guards this place! No one will know about it!"
Mr. X roared.
"Then what to do? Isn't it Leviathan that we can't find it?"
Everyone's faces are full of haze.
"Immediately notify Doctor Dark about this matter! Leviathan was researched by him, and see if he can
get in touch!"
Mr. X calmed down.
"Sir, the decision of the chief priest is here!"
At this time, a message came from subordinates.
"What? Let me see!"
Mr. X received the message anxiously.
This is the first time the chief priest has released a decision…He eagerly wanted to know what decision
the chief priest would make at this critical moment?
Others also want to know.
After all, from the plan to the present.
The chief priest has never been in control.
Give it all to Mr. X and the others…
Now things are not right, they finally make a decision.
Moreover, the main gods that Levi Garrison has been thinking about are not at all with the major bases
of the Gods Laboratory.
They have other places.
It can even be said that he has never moved.
It's just that the large forces of the Gods Lab came to Daxia…

Mr. X looked at the decision of the chief priest, his eyes were deep, his brows furrowed, and his
complexion gradually became serious.
Others are puzzled!
"What is Mr. X's decision?"
The clown emperor finally couldn't help asking.
Everyone else came up too.
"The decision of the main divine division-let the laboratory of the gods return to the world! Renamed
the kingdom of the gods! Declare war on the world! Those who follow me prosper, and those who
oppose me perish!"
"No matter who, whoever does not surrender will be killed without mercy!"
"Those who belong to the kingdom of God must take it seriously!"
…
The language is not surprising and endless.
The words came out.
The Lab of the Gods is about to explode!
The Lab of the Gods wants to proclaim the whole world and stand on its own as the kingdom of God?
Declare war on every part of the world!
Self-reliant as the kingdom of God?
Unexpectedly!
Everyone in the Lab of the Gods didn't expect it!
Not including Mr. X.
The decision given by the chief priest turned out to be like this…
Want to declare war on the whole world? ? ?
Also announce Leviathan's message!
It's so arrogant!
silence!
Everyone fell into a long silence!
…
After a while.
Mr. X smiled and said: "Yeah! We are superpower today! No longer be afraid of the Great Xia Warhawks
and others! Why hide in hiding? We should directly declare the world that we are back!"
"We are the strongest force in the world, should we still call it a laboratory? We should stand on our
own as the kingdom of gods! The kingdom of gods! The whole world must obey the orders of our gods!"

“Anyone who obeys the kingdom of God is a slave of God! Disobedience is a demon. Kill them all!”
…
Some words made everyone excited.
Everyone was full of excitement.
I almost yelled.
They are gods!
To be above the whole world!
Everyone else should be crawling under their feet!
Worship them!
This group of humans also made a god list!
It feels ridiculous to think about it! ! !
Daxia should be occupied by them, and everyone is enslaved by them!
They are now superbly powerful!
Not afraid of everything!
Just Leviathan makes the world helpless!
“Yes! The matter is now! Our tactics are useless! It is better to suppress everything directly with pure
strength!”
“How about the God of Forbidden Land No. 76? Come on, right?”
“There are two types of existences in Daxia’s legend that have the ability, otherwise Daxia will be killed!”
“God blocks and kills gods, Buddha blocks and kills Buddha!”
Mr. X they are excited.
“Quickly, quickly! Send my order, everyone goes to the address designated by the main gods! We are
going to establish ourselves as the kingdom of God!”
soon.
The Lab of the Gods has acted collectively.
This time they didn’t hide it anymore.
Swaggering towards a certain place in the Western Continent.
Whoever takes the initiative will destroy whoever!
…
Just then.
No one thought that something happened.
The dark web, which has been silent for a long time, suddenly released a major message–
The giant creature that wreaked havoc on the world was named Leviathan, and it was actually made by
the laboratory of the gods that had disappeared for more than three years!
They want to use Leviathan to destroy Daxia in order to achieve the goal of dominating the world.

Secondly.
The Lab of the Gods will immediately announce their coming to the world, and it will also establish itself
as the kingdom of the gods and initiate a declaration of war on the whole world.
…
As soon as the message came out, the whole world exploded.
The Lab of the Gods also flew the pot…
They still haven't started, how did the dark web know?
The Return of the God of War [The Protector] Chapter 2827
Senseless!
Mr. X was dumbfounded.
Lucifer and the clown are going crazy.
They also just learned about the decision of the chief priest, and they haven't officially announced it…
How does this dark web know?
What kind of existence is the dark web?
Earlier, the Lab of the Gods had paid attention to the dark web.
After searching for a long time, nothing was found.
And the dark web will not hinder the plan to go to the laboratory of the gods.
Therefore, they no longer check the dark web.
But now it is really scared.
Actually know everything about them!
Even know this.
What about the others?
I guess you will know it too, right?
They hurriedly told the message to the chief priest.
The main priest was also taken aback.
Ready to investigate the dark web.
This is already threatening them.
Must be removed!
…
The message of the dark web spread quickly to every corner of the world.
It's really exploding.
so horrible!
Now, almost everyone knows the source of Leviathan.
Some people know Daxia, some people don't.
Even Xiao Liejun and the others are just guessing and don't know how it really is.
"Ah? Is Leviathan from the Lab of the Gods? I knew what Daxia I supported earlier, it would be good if I

didn't cut Daxia!"
"It turned out to be from the Lab of the Gods, I said earlier, I'm going to support Daxia!"
…
After knowing all this.
The hostile countries that came to support Daxia began to regret it.
The reason why they came to support is actually to protect themselves.
After all, I don't know who is behind Leviathan…
The unknown is the fear.
For fear that it will affect him in the future, it is better to clear this unknown danger with Daxia.
If it was known that Leviathan was in the laboratory of the gods.
Then they will definitely not come to help Daxia.
This is not only the case with hostile forces.
Even some neutral forces have this idea.
For them, it is good for Daxia to fall.
Knowing that it is the laboratory of the gods.
However, Daxia's friendly forces have the same attitude.
To advance and retreat with Daxia.
All of a sudden, the alliance formed by Daxia collapsed.
All reinforcements were withdrawn.
All experts withdrew.
Some hostile forces even wanted to tell all Daxia's secrets.
…
Daxia was also a little dumbfounded.
Unexpectedly, this is the result.
The alliance collapsed in half instantly!
But there are also benefits.
The Lab of the Gods must be clear and declare war on the whole world.
In this way everyone can still unite together.
As for those hostile forces, after knowing that Leviathan was in the laboratory of the gods, they were
frightened one by one.
Judging the current strength of the Gods Laboratory may be much more terrifying than imagined.
After all, such a Leviathan has left the world at a loss.
If the true power of the Lab of the Gods is shown, who can stop it?
What's more, the Lab of the Gods is now declaring war on the world.
Since they dare to be so arrogant, they dare to make such a declaration.
That shows that their hole card background is more terrifying than imagined.
They are very confident.

For a while, there are a lot of clerks, silently planning to take refuge in the laboratory of the gods…
If this continues.
There are more and more such countries and forces!
If you surrender now, you can still eat meat and soup together.
After the laboratories of the gods actually use force, then surrender at that time, they may not even
have bones!
Other countries are also discussing this matter.
Or preparing.
Next, the Lab of the Gods may have to attack directly.
After the announcement on the dark web.
The Lab of the Gods simply declared directly…
The world is shocked again!
The Return of the God of War [The Protector] Chapter 2828
After Levi Garrison came out, he was surprised when he heard this:
"Everyone is self-reliant? Who gave
me the courage?"But then his face became heavy.
Since the Lab of the Gods dared to stand up as a country, it declared war on the whole world with great
fanfare.
Then it shows that they are quite confident in their own strength.
I want to hit you!
I also tell you in advance!
Get you all ready!
I'll hit you again!
This seems arrogant and reckless!
In fact, I am confident of my own strength!
After all, Leviathan made everyone know how to do it.
Not to mention the core power of the Gods Laboratory.
The most frightening thing is that there is a main priest behind him.
It was a head-on collision.
But it may also be a good thing for Levi Garrison.
The Lab of the Gods is no longer hidden.
Believe that the main priest will be able to meet it soon!
But Levi Garrison was thinking about a question—Does the Lab of the Gods and the Eagle Nation not
cooperate?
After all, the relationship between the two parties was so close before that they were one.
But it doesn't seem to be right now!
Both want to eat each other's…

Even though Leviathan had been trapped at this time, the Gods Laboratory was also not attacking.
However, the defenses on the coastline of Daxia have not been withdrawn. Instead, they have been reinforced and then reinforced!
Even the Bible Organization and Mayan Industry are not going.
Especially now that I know it is the laboratory of the gods.
I'm afraid that they will suddenly get into trouble.
Must be guarded at all times.
The sea is calm and there is nothing.
But in fact, thousands of eyes are staring here.
When there is an unusual change coming.
They found out immediately.
"There is an enemy! There is an enemy…"
Discovery of changes in the sea.
For a time, the sirens sounded loudly.
Panicked again on the coastline.
Even the Underworld God and other powerhouses rushed to the forefront.
"What? Do you want to deal with me?"
A familiar voice sounded.
They can see clearly.
It's Levi Garrison!
"Huh? Are you out?"
Everyone was surprised.
But everyone was vociferous.
Brought Levi Garrison to the coastal defense line and met with Xiao Liejun and the others.
Seeing Levi Garrison again, their eyes were full of shame.
After all, they did a lot of stupid regrets!
Even ashamed that he couldn't face Levi Garrison.
Can't wait to find a seam to drill in!
Lu Xiong was even more tearful: "I'm sorry for the word side by side!!! I'm sorry! I don't keep it! The island is only half built! I will stop it! Not only that, but all the materials and machines are sold at low prices. Now! I'm sorry for your trust! Daxia suffered such a great loss! It's all my fault!"
…
Lu Xiong is really blaming himself.
Regardless of the current situation, the losses suffered by this wave are too great.
If I had listened to Levi Garrison earlier.

Where can there be such a big loss.
If the city wall was built at the beginning, Leviathan would not be able to attack.
That is nothing to lose.
Now if it's not for trapped.
I am afraid that the entire Daxia will suffer.
The safety island project was also unsuccessful.
Otherwise, many people can be spared.
…
I'm really sorry Levi Garrison entrusted him!
But Lu Xiong blamed himself so much, it was Xiao Liejun and Hong Qingcang that were the most
uncomfortable.
The more he said, the more uncomfortable everyone was and the more self-blaming.
Everyone really keeps their heads down.
The feeling of shame is so full that they can't wait to kneel down.
Because of these things Lu Xiong said.
In fact, Lu Xiong has been insisting.
In fact, they told Lu Xiong to give up, and they often used meetings or voting to suppress Lu Xiong.
A series of things is that they are persecuting at the source.
No matter how Lu Xiong persisted.
His power alone is not enough!
There is no way to control many things at all!
The safe island is what they advocate to stop;
The materials are sold by them;
They removed the line of defense;
…
Everything is them!
The Return of the God of War [The Protector] Chapter 2829
Now I see Lu Xiong taking care of everything alone.
They are actually very uncomfortable.Only I know the feeling of inner struggle…
"Hey, blame me too! If I were not in retreat, I would definitely look at you! I will definitely not let you
stop!"
Levi Garrison said helplessly.
Before the retreat, he really seriously told.
No matter what the situation is, don't stop.
"It's me who doesn't use it! It's all my fault!"
Lu Xiong was about to cry.

At this time, Xiao Liejun and the others couldn't help it finally.
Xiao Liejun said: "One word side by side, in fact, we blame us! How much does it have to do with Lao Lu?
We advocate stopping, and selling all the materials to reduce losses!"
"It's our fault! The line of defense was also removed by us! It was we who opened the gate of Daxia
country…"
"Blame us for not believing you, you told us so long ago!"
Hong Qingcang and Jiang Ye also spoke out one after another.
"Now that Daxia has suffered such a big loss, we can't get away from it! Take full responsibility! This is
our fault!"
Several people directly admitted it.
Xiao Liejun and the others shouted to Levi Garrison together: "We are wrong about the word side by
side king! We sincerely apologize to you!"
Levi Garrison quickly helped a few people up: "What are you guys saying… You can't be blamed for this!"
"But, you are too clingy to what you see! Don't think about it in the long run! This is somewhat
problematic!"
I heard Levi Garrison say so.
Everyone nodded: "It's really wrong! We are still too conservative and too careful. For fear that we can't
grasp it, we will bury everything on us! Let us not be bold enough to look forward and do it! On the
contrary, there will be major problems. , Like now!"
"This is indeed what we are! Lao Cao has long noticed the abnormality, and the brothers from the Bible
Organization have told me that there is a problem, and you have ignored it…"
"I want to thank Lao Cao, he also acted early and reduced a lot of losses!"
Lu Xiong shouted.
Hearing this, everyone lowered their heads and became more ashamed and blamed.
Levi Garrison smiled: "One more thing, you still don't trust me too much! I don't think I can get this kind
of information! I don't think I am strong enough, and I can't find this kind of information!
But tell you, my strength is there, and I am still at the ancestral level in intelligence! "

Xiao Liejun frowned, "I really blame us! I don't believe you… I don't think this kind of intelligence can be
obtained with your strength! But we forgot that you were once the best leader and the most powerful
agent. Intelligence is not necessarily The super strong can dig it!"
"It's our fault! I can't wait to slap myself!"
"We are all to blame! It's our fault!"
…
"Well, now is not the time to blame each other for finding problems, we have to consider the next
problems."
Levi Garrison hurriedly stopped.
Xiao Liejun was already going to smoke himself.
This is the head of Yanlongwei.
How can it work?
"Originally, we have discussed with all our allies how to deal with Leviathan… As a result, the
announcement of the Lab of the Gods came out! Our hostile forces and many neutral parties have
announced their withdrawal! The experts originally arranged have also been withdrawn. !"
"But we still gathered a lot of experts to study together! After all, we have scanned Leviathan, we have a
lot of data, and it is estimated that we can work out a solution!"
"We have trapped all Leviathans! The fastest they will break free after a month, they may not find their
way out! We have plenty of time!"
…
Several people talked about the next plan.
One by one seemed confident.
Levi Garrison was speechless.
Leviathan is still going on.
Doesn't he know?
Leviathan is dead, this is always a step slower.
"That's it?"
Levi Garrison asked."Otherwise! We don't know the strength of the Gods Lab! But Leviathan is the
biggest enemy right now!"
Everyone nodded.
Levi Garrison said directly: "Don't worry about Leviathan's affairs! This page is over! Don't mention
anyone!"

It's just that.
Everyone was dumbfounded.
Everyone stared at Levi Garrison suspiciously and curiously.
How did Leviathan reveal the past?
How can this reveal the past?
"No! You don't know the word side by side, we just temporarily trapped Leviathan! It is expected that it
will only take a few months!
And Leviathan is from the Lab of the Gods, they will find it faster! We must find a solution when
Leviathan reappears! "
…
Everyone thought that Levi Garrison didn't know the specific situation, and immediately explained to
him.
Levi Garrison gave a white glance and said: "I know! You have trapped them in a submarine waste base!
Don't worry about them! They are in the past tense, this page is over!"
When Levi Garrison finished speaking.
Everyone was shocked.
There was an incredible look on his face.
How did Levi Garrison know about the Atlantis plan?
Hearing what he said was so light, it seemed as if he had witnessed it with his own eyes.
How can it be possible?
Levi Garrison has just arrived!
I don't even know this plan at all!
The Return of the God of War [The Protector] Chapter 2830
They were all terrified.
"The word side by side king, do you even know this?"
The eyes of Xiao Liejun and the others were filled with inevitable shock.
"Plan Atlantis! What do I not know?"
Levi Garrison smiled.
Not long ago.
He walked around in the abandoned "Donghai Dragon Palace".
Field trips.
But it is clearer than what they know in their files.
I know why this plan stopped…
Know it better than anyone present.
After all, Levi Garrison was the only one among so many people who had been to the scene.
Hearing this, everyone is more different.

But then I thought about it and it was relieved.
Levi Garrison's control of intelligence is at the ancestral level!
This kind of top-secret file is not known to others as normal, but since the Leviathan incident happened.
They felt that Levi Garrison was omnipotent.
It is normal to know about the Atlantis plan.
"But……"
But some people still have objections.
I want to say something different.
Levi Garrison glared at the group of people: "I've said it all, this page is over! Leviathan doesn't need to
think about it, they can't come out, you guys think about it!"
Lu Xiong immediately stood up to support him: "Everyone listens to one word side by side! Don't you
believe him?"
"The Lab of the Gods may be about to attack in an all-round way! I think the king should be selected as
the commander in command, commanding all the forces of Daxia to defend and contend!"
"We listen to everything one word side by side!"
Lu Xiong's proposal was quickly responded.
"I agree!"
"I agree!"
"At this time, we should listen to the king! His advance judgment and intelligence are beyond ours!
There is no doubt about the commander's leadership ability! We will all obey him when he comes to be
the commander!"
…
Xiao Liejun, Hong Qingcang, Jiang Ye and others stood up.
"Okay, we also agree! Leave everything to the King of One Word! You will arrange it!"
"Yes, directly in the name of Yanlongwei, appoint the one-word side-by-side king as the commander-inchief
of this time! You can mobilize all the power of Daxia!"
"We will not interfere!"
…
Of course, Levi Garrison took over this task.
"The first point-everyone in Leviathan doesn't need to mention it, they won't come out again! Don't ask
how I know! I just know!"
Levi Garrison stated repeatedly.

“clear!”
“Then command you to make arrangements, and we will do our best to assist you!”
Everyone looked at Levi Garrison.
“Okay, the first thing next…”
After Levi Garrison finished speaking, everyone was dumbfounded.This… can this work?”
Everyone is trembling.
Showing an unbelievable look.
It was mainly the plan proposed by Levi Garrison, which shocked everyone!
The first step of the plan Levi Garrison just said was to expand the line of defense.
Not to mention directly crossing the waters of Daxia, a long and long defensive line must be extended.
It directly enveloped the adjacent East Island and the seas of the star country.
This maritime defense line is too broad.
The scope is too wide and too wide.
What’s more, the East Island and the star country have to be enveloped.
People might not agree.
Therefore, everyone is so shocked!
Lu Xiong and others immediately said: “Support the commander-in-chief! If our defense line does not
cover the neighboring countries and forces, if they surrender to the laboratory of the gods at that time!
When the time comes, the Lab of the Gods can use the nearby place as a pedal to attack us! Even the
nearby forces stabbed us in the back! At that time we will be in danger!
So no matter what, first expand the defensive line and cover it. Even if they surrender at that time, we
will be able to control the situation and react in time! “
“In addition, extending our defense line has many benefits! It can predict the situation in advance and
buy time for the rear!”
“This must be! Our previous strategy was to shrink the defense, so that the enemy has many ways…”
Everyone nodded approvingly.
“Next, I will assign tasks!”
Levi Garrison looked at Zoey Lopez and them: “All the members of Kunlun College?”

Although many people in Kunlun College were still dissatisfied with Levi Garrison's strength, at this time,
Levi Garrison was the commander in command and had to listen.
His marching and fighting is indeed invincible…
He can maximize the role of everyone and arrange them in the best position.
This is something no one else can do.
"exist!"
Everyone shouted.
"I want to arrange you in the front row of the new defense line. A group of five people can basically
cover all the positions in this sea area!
The Return of the God of War [The Protector] Chapter 2831
All you need to do is to monitor and prevent enemy surprise attacks. If you encounter an enemy
situation, you can resist it flexibly and adopt the form of harassment! "
Levi Garrison looked at the Azure Dragon (Qinglong) people again: "These people are my former
subordinates! They are very experienced in this regard! They will lead the team! You will assign the
details!"
Several people in Azure Dragon (Qinglong) nodded: "Okay, understand!"
"lets go!"
All Kunlun College set off.
And also brought that artifact crossbow!
"As for the defense line covering the East Island and the star country, I will trouble you! You are
originally from the star country! It is more convenient to do this!"
Levi Garrison entrusted this task to Li Chengmin.
It is not difficult to do this with the strength of the Samsung Group.
Levi Garrison looked at Xiao Liejun and others again: "Next, you will add the entire defensive line! You
don't have to resist! Harassment is enough!"
"As for Daxia's defense, hurry up! You are responsible for dealing with the enemy's modern
technological weapons.
As for the opponent's warrior superpower, the general defense system is not useful at all. I remember
that the Bible Organization and Maya Industry have corresponding targeting methods. There are no
questions for you, right? "
Levi Garrison said.

Ye Wudao and Ye Lingtian were just about to refuse.
The voice of the evil god sounded: "There is no problem, my master, the dark god, has ordered that
Maya Industry and the Bible organization follow Daxia's arrangements!"
"this……"
Ye Wudao and the others were very puzzled.
What is the relationship between Master Dark God and Daxia?
Why not spare no effort to help?
Take out all the hole cards?
It's incredible.
However, they did not dare to disobey Master's order.
Only obediently obedient.
"Next I will organize all the forces of the Bible Organization!"Although the Underworld God and the
others came to support this time, they were basically the core main force.
The broad advantages of the biblical organization have not been reflected.
So this time he has time to gather everything together.
Gather on Daxia's side!
"Thanks! Thank you so much!"
Xiao Liejun and the others were actually very puzzled.
Why would they help?
Still at all costs!
It's just that the god commander Tiance said that they are his own, and don't worry or doubt any of
their actions.
They have been wondering who is the God of Darkness?
How to help Daxia?
Can't figure it out!
"Well, if you gather all the forces together, you can have a greater grasp like this!"
"Next, give me all your strength! Listen to my dispatch at any time!"
Levi Garrison directly requested the authority of Tiance Mansion and Baolong clan.
Xiao Liejun several people hesitated: "We can't make a decision about this! We have to ask them!"
It's just that the Dragon Head God will wait for someone to immediately agree: "Okay, no problem!"
The major forces of the ancient Garrison clan also expressed their willingness to follow the unified
command of Levi Garrison.
This made Ye Wudao and the others even more surprised.

When did the ancient Garrison clan thorny heads, they would obey Levi Garrison's words.
Even if Levi Garrison is the commander-in-chief.
They felt something was wrong, but they couldn't tell the details.
…
The temporary deployment of Levi Garrison has been completed.
Next, he waited for the arrival of the laboratory of the gods.
At this time, Tiance Shenshuai also returned.
Condemned all over his face.
Because he lost a lot in Daxia.
It turned out that the great apprentice was taken away after the gods' laboratory proclaimed selfreliance
as a nation.
Otherwise, Tiance will not come back.
Subsequently, Levi Garrison gathered the strong men such as Tiance Shenshuai.
He took out a bottle of medicine.
This is made from the resources of Forbidden Land No. 76 and their blood.
Especially rare.
But the effect of a bottle can be said to be against the sky!
"These can bring your strength to a higher level, but it will affect your future path! That is to say, the
side effects may be huge!"
"It's up to you to choose!"
Levi Garrison wanted them to be stronger, but he didn't force it.
See if they are willing.
"The Lab of the Gods is coming fiercely! I must be strong!"
Tiance Shenshuai chose the potion.
After all, his last supreme magic drug is to be left to Levilia.
Therefore, he must choose this medicine.
"I'm coming too!"
The Return of the God of War [The Protector] Chapter 2832
Everyone chose one by one.
After everyone took it, their strength improved by leaps and bounds, and they came directly to a new
level.
Barely able to enter Levi Garrison's eyes.
At least it can be useful to the strong in the laboratory of the gods.
For example, Lucifer and the Great Clown, Levi Garrison had seen them with his own eyes.
Has made an estimate of their strength.

Now the upgraded Tiance God commanded them, and they were barely able to compete with Lucifer
and the others.
In terms of strength, Lucifer and the others should be considered in the middle of the laboratory of the
gods.
Now that someone can face them, Levi Garrison is a little bit certain.
One thing that made Levi Garrison gratified was in the genius plan of the Baolong clan.
Gemini, Valkyrie, these geniuses are progressing so fast, they can already be used a lot.
After all, they are all geniuses who were unearthed from the beginning, and their talents should be
higher than those of Kunlun Academy.
…
the other side.
The Great Troops of the Lab of the Gods have come to the largest desert in the Western Continent.
It's sparsely populated and the environment is harsh, and even animals can't be seen.
But after they came, a country full of technological sense rose from the ground.
Whether it's a building or various other configurations, everyone has never seen it before.
In other words, it is all the imagined world in the future.
It's all realized here in the Lab of the Gods.
Obviously a desert has instantly become a future country…
Shocked!
It was too shocking!he Lab of the Gods is here to establish itself as a country, called the Kingdom of
Gods.
The establishment of the Kingdom of God shocked the world.
The Lab of the Gods is too strong!
Everyone must express emotion!
From this country alone, everyone can know that the technology of the Gods Laboratory is far above the
world level.
Satisfy all countries' visions for the future world!
It's really shocking and terrifying!
Especially those upper-class people, isn't the kingdom of God the paradise they have always longed for?

There are even a few super-rich people who want to invest huge sums of money to build such a future
city.
When they live in this kind of future world, they are bound to be a level higher than the whole world.
This is how they live!
Someone else can never have…
They are still thinking about it.
I didn't expect to be built directly by others.
For a time, this place was the paradise in the eyes of these rich people!
They must do everything possible to live in!
…
All the concerns of the world at one time are on this future country!
The point is that this is just their building!
The scary thing is weapons or other technologies. Is it a big lead in the world?
Reached an unprecedented field!
No wonder the Lab of the Gods is so emboldened to declare war on the world!
Before, everyone was still guessing where the confidence of the Gods Lab came from…
When you see the construction of the future kingdom, everyone can guess it!
The Lab of the Gods doesn't need to be frontally shocked, just let the world know its horror!
Countless people are no longer in panic, no longer trembling!
In this case, how to fight?
Surrender directly, forget it directly!
…
People were panicked everywhere for a while.
Soon, all the equipment in the Lab of the Gods settled in the Kingdom of God.
Everything is ready.
In the central area of the Kingdom of God, the buildings towering into the sky are really going to heaven!
The world's first building will appear very small here.
In the laboratory of the future at the highest point of a building.
Through the glass in front of my eyes, I saw a scene of clouds and mist…
Surrounded by their high-tech aircraft!
It seems that you can travel directly into outer space…
high!
Too high!

This is the perspective of "God"!
Looking down on all living beings!
Mr. X they all settled in.
To carry out the next plan.
The Return of the God of War [The Protector] Chapter 2833
"What information is there?"
Mr. X asked.
"Intelligence is here! Two-thirds of the powers of the major countries that have allied with Daxia have
withdrawn! Many others are still waiting!"
Hearing the first piece of information, he sneered: "Don't worry, there will be more next!"
"But Daxia has responded quickly! Levi Garrison has been appointed as the commander in command!
Let him deploy all the defenses! The biggest change at present is that Levi Garrison has greatly extended
the defense line forward, even covering the neighboring Star Country, East Island, etc.! "
As soon as I heard the name Levi Garrison.
Lucifer who was present was touched again.
In terms of strength, the current Levi Garrison is a soft persimmon.
But if you want to talk about strategy, many people have praised Levi Garrison.
I used to fight against Richard, and later against them.
This aspect alone will not let the wind fall.
It is indeed a very good choice for Daxia to let him be the commander-in-chief!
"Levi Garrison did have two tricks! This defensive extension is a wonderful trick! It not only prevents
neighboring countries from surrendering to us, but also prevents us from using them as pedals…"
But then Mr. X changed his words: "But it's not useful! No matter how long the line of defense is
extended, it won't work. If you can't stop it, you can't stop it! It's too different from our strength!"
"So not to be afraid! What about other information?"
"This should be a bit scary! The Bible organization suddenly called forces scattered all over the world,
and they are all gathering in Daxia! They are moving quickly and are already beginning…"After hearing
this information, everyone's expressions still changed.

The intentions of the gods in Forbidden Land No. 76 are still unclear to them.
What does it have to do with Daxia?
Why don't you spare no effort to help Daxia?
Still give it all!
When dealing with Leviathan before, so many artifacts were taken out.
The Gods Lab does not know how many gods and equipment there are in the forbidden area No. 76.
I thought that those who came to support were almost all the main force.
Therefore, they will be so jealous.
"Are we going to block it?"
The man asked.
"No need! We are not afraid! But we just don't understand what the God of Forbidden Land 76 has to
do with Daxia? Where are the people like God of Darkness? How can they not take action?"
After mentioning these, everyone's faces became gloomy.
And there is no joy just now.
In any case, they felt that this was impossible.
Daxia and the Lab of the Gods.
Lucifer and the Great Clown suffocated their anger: "Don't worry, they will be forced out with absolute
crushing strength this time!"
"No matter who it is, we must crawl before us! No matter how strong they are! We have the dark doctor
behind us, and the chief priest!"
Everyone is completely fearless!
At this time, another decision of the chief priest came.
"Declare the world in the name of the Kingdom of God-all countries and forces are limited to surrender
or join within seven days! Those who join first will be called the citizens of the Kingdom of God and
enjoy the same conditions!
Those who surrender and join later will become ordinary people, and those who join later will become
servants! The number of places is limited, so it should be arranged according to time! "
"After more than seven days! All enemies! There will be no more surrender at that time! Either enslave
or kill without mercy!"
...
Soon, "the Kingdom of God" announced this decision to the world!

The whole world was shocked!
The seven-day period? ? ?
Talking long is not long, talking short is not short.
The key is that the sooner you surrender, the better the conditions you can enjoy.
If you surrender later, you will become a slave.
This is the most challenging one!
Seven days later, there is no chance of surrender!
Moreover, the Lab of the Gods does not show its strength first, just let you guess and make everyone
panic.
This hand psychology is played very hard.
And before Leviathan was so powerful, everyone knew it.
Speaking of Leviathan.
The Lab of the Gods is still looking for it here.
Exhausted all means, sent a lot of machines and manpower to frantically search where Leviathan lost
contact.
Almost telling the message to the chief priest, let the chief priest think of a solution.
But this is a trivial matter for the chief priest after all, and they dare not tell.
But where did Doctor Dark know.
He is always looking for.
The hope of the Gods Lab for Leviathan is also pinned on Doctor Dark.
He made this by himself, and he should have a way to find it.
"Mr. X! Doctor Dark, they are here!"
At this moment.
Suddenly a technologically-sound aircraft stopped on the platform outside the front window.
A few people walked down from above.
Came directly at the laboratory.
After hearing this, Mr. X immediately led everyone to greet him.
In terms of status, Doctor Dark is the chief priest.
Taller than him!
The Return of the God of War [The Protector] Chapter 2834
"Welcome to Doctor Dark!"
Everyone shouted.
When the door opens.
Doctor Dark walked in.
A decent suit, elegant and luxurious on him.

Wearing a ring on a pair of long and narrow hands and a famous watch on the wrist, both show their
temperament.
A handsome western side is eye-catching, wearing gold-rimmed glasses.
He exudes the temperament of a noble gentleman, which makes people feel illusory, as if unreal…
The whole person feels like a royal prince!
He is standing with Mr. X.
One is a suit thug, the other is a suit gentleman.
But who can think of such a gentleman as a prince.
He is a veritable butcher! ! !
He has been habitually holding a scalpel in his right hand!
A black scalpel!
A scalpel that can cut anything!
Every day I don't know that when I am dissecting a living thing, I am on the way to anatomy.
In other words.
He kills every day, and he kills many, many, many…
There is never a time to stop.
No one knows how many years he lived.
It would be even more shocking if you knew it!
You must know that Mr. X met Doctor Dark for the first time, he looked like this.
Seeing him 30 years ago still looks like this!
The Dark Doctor seemed to be frozen in this image.
Never changed…
So even Mr. X doesn't know how long Dark Doctor has lived…
The secret of his information is estimated to be controlled only by the main priest.
But what puzzles everyone the most is that Doctor Dark is just an ordinary person.
Really ordinary people!
Why can he freeze his appearance without getting old?
Why can we create projects beyond imagination?
Can't figure it out!
But the more ordinary people are, the more jealous Doctor Dark makes everyone!
Whose ordinary people can go deep into the No. 76 Forbidden Land and grab a few "gods" back?
Whose ordinary people can kill the second-generation blood ancestors of the blood clan alive for
anatomy…

There are too many legends about the Dark Doctor in the Lab of the Gods.
His legendary level is incomparable even by the chief priest.
It is the existence that most people admire most in the Lab of Gods!
It is also the one that Mr. X admires most!
The most terrifying thing is that Doctor Dark actually works in a hospital in the Eagle Nation.
No one knows his true identity at all.
"Doctor Dark, you can come. Could it be that Leviathan has the message?"
Mr. X asked.
The others also leaned in.
"Um!"
Doctor Dark nodded.
"How? Where is Leviathan?"
Everyone couldn't bear the excitement and looked at him one after another.
Doctor Dark shook his head: "I don't know where they are… But they are all dead!"
"What??? Dead???"
The language is not surprising and endless.
The words came out.
The audience was horrified.
Everyone's eyes are about to fly out.
Leviathan is dead?
How can it be?
This is absolutely impossible!
"Impossible! If Daxia and the others can really kill all the Leviathans, can they still use a conspiracy? To
attract all the Leviathans away and trap them in a mysterious place!"
"Yes! And the exact information we got-Daxia just trapped Leviathan! There is still a deadline, the
shortest one month!"
"Not to mention that Leviathan is so powerful, what do they use to destroy it? It is absolutely impossible
to die!"
…
Everyone began to argue with the Dark Doctor.
Everyone thinks that Leviathan can't be destroyed!
That's three thousand!
What to kill?
Don't say anything else!

If the Lab of the Gods did not control it, it would take a lot of effort to deal with Leviathan.
The loss is also quite heavy!
How could other people have a way to get rid of it?
This is impossible!
They don't believe it!
I didn't believe it if I was killed!
The Leviathan that others have seen is actually one-sided and incomplete.
But they are different.
Know all about Leviathan!
This made them understand that Leviathan could not be killed!
There is no one in Daxia who has this ability!
Leviathan is invincible!
"Doctor Dark guesses you made a mistake, and now we just can't contact Leviathan! We lost contact,
not that they were all killed."
Mr. X thought that Doctor Dark had no idea about Leviathan's disappearance.
Also a special reminder.
Doctor Dark nodded: "Well, I know! But they are indeed all dead!"
"what???"This time, it was everyone's turn to be surprised.
"Doctor Dark, really all the Leviathans are dead?"
Everyone's eyes are full of incredible.
Doctor Dark nodded: "Yes, wrong! As you know, each of Leviathan has an energy core! It is equivalent to
the fusion of key organs such as the human heart and brain!"
"Now I have noticed that the energy cores have stopped working, or have been shattered! So they are
all dead!"
"Huh? Really?"
Some people have been scared by Doctor Dark.
The Return of the God of War [The Protector] Chapter 2835
Face pale!
If Leviathan is dead, it will be a bad news for them!
"It's still impossible! At most, you can't sense it! Because Daxia introduced Leviathan into a mysterious
area, which is a place isolated from the world.
Can block any signal! Even the most advanced technology can't be used!
As for you, it must be because of being blocked, you can't calmly sense it!
"
"One more point-this mysterious area is likely to be related to Forbidden Land No. 76, but the group of

guys in Forbidden Land No. 76 can't kill Leviathan at all!
When you designed Leviathan, you specifically targeted Forbidden Area 76… Although their
supernatural powers or artifacts can hurt, they can't hurt the core of Leviathan!
Do not worry! The Leviathan Legion is so powerful! Within seven days, I will definitely get it back! "
What Mr. X said is reasonable and well-founded.
Everyone feels reasonable.
The Dark Doctor didn't speak anymore.
Instead, he asked: "Did those guys in Forbidden Area No. 76 unite with Da Xia?"
"Yes! So far, they will try their best to help Daxia!"
Lucifer nodded.
"Well, I will attack Daxia in seven days! I will take care of the No. 76 Forbidden Land personally!"
Doctor Darkness was cold.
"In addition, the main divine division will take appropriate action when you encounter obstacles!"
"clear!"
Everyone nodded.
The Dark Doctor looked at Mr. X again: "What do you think about the Eagle Nation?"
"Warhawk Nation is actually very powerful, but we all know each other too well! We all want to be the
overlord! I think it is unlikely that they will surrender!"
"Now our strategy is to level the world! Cooperation with the war eagle country is of little significance! It
is inevitable that we will go to war with the war eagle country!"
Mr. X said several people.
"In that case! Don't let War Eagle Nation and Daxia cooperate! Cut off the communication between
each other!"
Doctor Dark left a word.
He left here and went to his own laboratory.
In this future country, everyone's area has long been divided.
But this word came out.
Mr. X slapped his forehead sharply.
"Yes! I almost ignored this! Enemies can also become allies!"
"Come on…"
…

The announcement made by the Kingdom of God caused an uproar all over the world.
The message of surrender in seven days was like a fishbone, stuck in everyone's throat.
But when the message was announced.
Immediately there are the richest man in the Western Continent, the oil tycoon, the machinery tycoon,
and the major consortiums in the Northern Continent, Mr. Trillion, etc…
A large group of rich or upper-class people have chosen to join the "kingdom of God."
Selflessly dedicate all of his resources and money to the kingdom of God.
What these rich people yearn for is this kind of future technology city, plus the seven-day limit, why
don't they join?
For the first batch added.
"The Kingdom of God" provides them with generous treatment!
And promised to build future science and technology cities for them after they conquered the world in
the future, let them call the shots!
After the first group of people received preferential treatment, it greatly stimulated many people.
One by one began to join the kingdom of God.
The effect was better than what the Gods Lab had imagined.
Sure enough, after someone started, everyone went crazy, for fear that there would be no chance.
More and more people surrendered…
They have all received unprecedented benefits!
Next, are the major consortia and major forces.
Join crazy one by one.
It made everyone more and more panic…
Everything seems to be in chaos.
…
Finally, a country announced to join!
Basically, they are the hostile forces of Daxia.
The first one to announce to join is the Giant Elephant Kingdom!
This is what caused the biggest volatility…
Before individuals, consortia or forces, everyone was not so scared.
But when the giant elephant nation chose to join, this nature changed.
Great stimulus to all countries.
The Kingdom of God also gives preferential treatment to the Kingdom of Giant Elephants and is directly
called the first country under the Kingdom of God!

Given the name of the giant elephant kingdom!
The favorable conditions obtained are simply unimaginable.
The Giant Elephant Nation has even more weapons that have never been seen before.
Many people are greedy to death.
Immediately afterwards, the second country announced its accession.
War Leopard!
The Return of the God of War [The Protector] Chapter 2836
It was also Daxia's hostile forces, and at this moment he chose to join the kingdom of God.
…
Next, countries will join the Kingdom of God one after another.
Especially the forces around the kingdom of God…
Because they can feel the power and deterioration of the kingdom of God up close!
Working against them is a dead end.
It's better to join in early and have a meal.
Maybe you will get unexpected benefits!
…
worldwide.
In addition to the superpowers, Daxia, the war eagle country, and the war bear country and his like.
The rest of the world is just around the corner.
And Daxia was the only one to put on a defensive posture.
Therefore, it can also be seen that Da Xia is going to work against the Kingdom of God.
The rest are also on the sidelines.
Although the kingdom of God is coming menacingly.
But the specific strength is still not shown.
Plus all Leviathans are trapped by Daxia.
I haven't found it yet.
…
The situation all over the world has become more complicated.
At this moment.
The Black Hawk agent of the Sky Shield and Smith, the head of the bureau, were invited to the Kingdom
of God to open the future science and technology city for negotiations.
Mr. X clearly expressed his meaning and allowed the Kingdom of War Eagle to join the Kingdom of God.
The guarantee he can give is that the Eagle Nation will enjoy the highest treatment.
It means that other people surrendered in.

The Eagle Nation was invited in.
It is the relationship between the eldest brother and the second brother.
The others are masters and slaves.
Let Smith, the head of the game, think seriously and calmly.
"Ah? Do we have to join? Let's work together, isn't it good for us to dominate?"
Smith smiled.
The Black Hawk agent also echoed: "Yes, how good is it to work together! Do you want to get a boss?"
"What's more, it's very hard to eat all of you, right? Daxia is very strong and has a powerful help! If you
join with the War Bear Nation again! You are also afraid it will be difficult to deal with!
But we cooperate with you! The situation is very different! When the time comes, we will divide the
country equally. Wouldn't it be the most profitable? "
…
The Black Hawk agent deserves to be the trump card of the Sky Shield.
Can actually lobby in turn.
This shocked everyone.
"No! We won't cooperate with anyone! We only want you to absolutely surrender!"
The attitude of the Gods Lab is also firm.
"Then what if we don't…"
The head of the game, Smith, smiled.
He showed strong confidence all over him.
He didn't even look at the laboratory of the gods at all.
"Then you can only fight!"
"Of course you can unite Daxia to resist together! We are fearless!"
Everyone smiled.
At all, he didn't put Warhawk Nation in his eyes.
It's just that they are afraid of cooperating with Daxia…
Smith laughed after listening.
There was a deep smile on the corner of Agent Black Hawk's mouth: "You still underestimate Daxia!"
"Huh? What do you mean?"
Lucifer's face changed.
"That's Levi Garrison! The person who has made you lose countless times! This time it's him again! You
will suffer a big loss in his hands!"Agent Black Hawk looked at them very seriously.
He knew Levi Garrison's strength.

Maybe even stronger.
He is earnestly persuading.
But where can the other party hear it?
I don't even think of Levi Garrison as the same thing!
They are not afraid of everything now!
"We admit that Levi Garrison is resourceful and resourceful! I heard that this time he digs up a lot of
information in advance! But that was because we wanted to play tricks before, and wanted to win Daxia
without blood!"
"Now, we rely entirely on force! No matter how resourceful and resourceful Levi Garrison is, we can't
use it! Our weapon, our strong man will fight over and destroy everything!"
Lucifer and the others laughed.
…
Then the two sides continue to negotiate.
Both sides are master negotiators.
Push each other, push each other, talk to each other…
In the end, their respective goals were achieved.
The Eagle Nation wanted the Lab of the Gods to aggressively attack Daxia, resulting in a situation where
both sides would suffer.
What the Gods Lab needs is that the Eagle Nation cannot unite with Daxia.
…
After several hours of negotiations, the goals of both parties were actually achieved.
"The Lab of the Gods wants us to surrender? Are they worthy? I am not afraid of the Eagle Nation!"
In particular, the head of the game, Smith, looked at this future city, and he sneered: "Thinking that only
you can make this kind of city? Ho Ho…"
The Black Hawk agent next to him was horrified.
The Return of the God of War [The Protector] Chapter 2837
Listening to Smith's words, could it be that the Eagle Nation…
The Eagle Nation must have many big secrets.
He hasn't reached this level yet.
The position of the head of the Tianshield Bureau should have just been touched.
…
Agent Black Hawk after they left.

Several people in the Lab of the Gods were obviously disdainful.
"I don't believe it anymore! Levi Garrison will cause us a heavy loss! Can we still suffer a loss in Levi
Garrison's hands now?"
"I don't believe it either! I'm really angry to see him look determined!"
...
Everyone naturally disdains.
"But we can't ignore Levi Garrison. He has a lot of tactics. He can't beat us head-on, and if we don't keep
it together, we will be darkened in the dark!"
Mr. X said.
"Yes, he is too cunning! Maybe he will give us a knife in the back! I also found out that the whole world
is jointly supporting Da Xia, and he is the one who made trouble!"
"He is now an invisible threat, even greater than the threat of some superpowers!"
Several people also said.
If you re-examine it, Levi Garrison is indeed a big threat.
"If this is the case, then why don't we kill Levi Garrison directly?"
"I used to think that killing him was different from trampling on an ant. There was no interest in killing
him at all! But now he has a threat, you can kill it!"
"Yes! Assassinated him directly, wouldn't it be a hundred?"
...
Let's discuss it casually.
Feeling that Levi Garrison should be killed directly.
The idea hit it off.
"Then who will kill?"
Mr. X asked.
"Send someone to kill, anyway, his strength is weak!"
Everyone still despised Levi Garrison's strength.
Mr. X glanced around and said, "Let's do it, Lucifer, you go!"
"In order to be foolproof, the three of you, the Great Clown, the Sea Demon, and the Hell Witch, follow
Lucifer! You are also Levi Garrison's old enemies! You killed him once, and I hope you kill him again!"
Lucifer personally stood up: "Understood! Levi Garrison is afraid that this kind of thing will happen a
second time!"
"However, I hope that the first plot will not be staged again! Don't die with others again! Ask the Dark
Doctor to save you at that time, I can't take this face off!"

Mr. X exhorted.
“Don’t worry! We are no longer what we were a few years ago! We are as powerful as the gods!”
The four are full of confidence.
After locking the position of Levi Garrison.
The four set out to punish Levi Garrison.
Complete this “easiest” task!
Someone came to kill himself, it is probably what Levi Garrison didn’t even think of.
Of course it’s still an old friend.
The two died together.
I didn’t expect to see each other again in a few years.
What is Levi Garrison doing?
Of course not idle.
Attention is all on the laboratory of the gods.
Especially the Lab of the Gods now has a base camp, telling the world where they are.
This made Levi Garrison better check.
But his focus is still on the main priest.
Regardless of what future modern cities are, they are so shocking to the world.
But it was not useful for Levi Garrison.
He is still worried about the chief priest.
The main divine division will not show up for a day, and he will not reveal his strength for a day.
He is now in the command room dedicated to the commander, coordinating the globalization.
“I’m still going around the East Island Star Country… These two places must be different!”
Levi Garrison is going to visit these two places in person.
There is no one else with him, just a variant of No. 3 and King Kong No. 4.
In fact, it was for him.
The rest were sent out to work.
The most important thing is to stare at the future kingdom of the laboratory of the gods.
Came to the waters north of the East Island, just arrived, King Kong 4 sent a signal.
At the same time, Mutant No. 3 became vigilant and prepared for battle.
Apparently someone is coming.
Levi Garrison laughed immediately.
He also felt four terrifying auras flying fast from the bottom of the sea.
Approach yourself quickly.

The Return of the God of War [The Protector] Chapter 2838
In terms of strength, these four might not be inferior to the evolved Ye Zhantian and the others.
Especially in the sea, it seems that their combat effectiveness has been infinitely magnified.
It should be above Ye Zhantian and the others.
Super powerful!
This can only be from the Lab of the Gods!
Is this someone coming to kill himself? ? ?
Levi Garrison looked shocked!
He had never thought about someone coming to kill him…
I think there is no reason.
After all, in everyone's impression, he is like a weak chicken.
…
Until this moment.
Levi Garrison understood.
It should be that he became the commander-in-chief and began to line up troops. This is a threat to the
laboratory of the gods.
That's why I have to kill myself.
In addition, Levi Garrison could not find any reason.
Variant No. 3 and King Kong No. 4 sensed the danger, and they had to act immediately.
Levi Garrison waved his hand.
He wants to see who it is first?
It's not too late to do it again.
…
About ten minutes later.
Sudden changes occurred in this sea area.
A huge whirlpool began to appear under the ship that Levi Garrison was riding in, rolling the ship up.
The whole sea seemed to boil.
The vortex suddenly rose up from the sea and lifted Levi Garrison's ship into the air.
It is hundreds of meters high.
It's really scary.
If everyone else is supposed to be scared to death.
"Boom!"
Accompanied by a loud bang.
The vortex disappeared, the big wave disappeared.
The ship that Levi Garrison was on descended directly, exploding a big hole on the sea…

When the ship stabilized, four figures appeared on the deck.
Lucifer, the clown the great them.
"It's been a long time since my old friend!"
Lucifer laughed out loud.
The others also smiled excitedly, looking at Levi Garrison as if looking at a lamb waiting to be
slaughtered.
Of course it's nice to meet old friends.
Levi Garrison was also happy: "I thought it was you! What a coincidence!"
Although he found four people early.
But they are all speeding in the sea.
Enveloped by the sea monster's super power to control the sea.
The other three really couldn't tell who it was.
See real people now.
Levi Garrison was also very excited.
Unexpectedly, there are still a few old friends (enemies)!
What a coincidence!
"Ha ha ha ha……"
Levi Garrison laughed suddenly.
I didn't think it was fun.
At this moment, I suddenly felt interested in everything.
If anyone else saw this scene.
I thought that both sides are too good to be friends…From the first meeting, both sides were laughing.
"I heard that after you died with me, you were saved?"
Levi Garrison asked.
Lucifer looked arrogant: "To be exact, it is the resurrection! Not you mortals can understand! We are
gods! Understand?"
"Yes! The us you met before Levi Garrison were half-human and half-gods at best! Now we are gods!!!"
The clown emperor also said.
Their strength today has reached a terrible situation.
In other words, the blood of their race is becoming more and more pure, almost comparable to their
ancestors.
From the beginning of their birth, these races have the power to destroy the world and possess various
talents.
In the later period, it gradually degenerates, the blood is getting weaker and weaker, and the various

talents are getting weaker and weaker.
But now hell witches and sea monsters are gradually returning to their ancestors with the help of the
laboratory of the gods.
Their bloodline gradually moved closer to the first ancestors, so their strength became stronger and
stronger.
Now it's fast to be on the same level as the original ancestors.
Therefore, they dare to call themselves gods.
It is also the reason why the Lab of the Gods was renamed the Kingdom of God.
Because the people of the kingdom of God are all gods!
now.
The four of Lucifer were condescending and looked at Levi Garrison as if they were looking at an ant.
If it hadn't been for Levi Garrison to be the commander-in-chief.
They would never come to kill him.
Will lower the status!
The Return of the God of War [The Protector] Chapter 2839
Where are the little ordinary people qualified to let the gods kill them? impossible!
"God? Hahaha… I have never seen such a weak god!"
"You guys are really shameless too! Where do you call yourself a god when you lick your face!"
Levi Garrison smiled directly.
Why are people professing gods everywhere?
With a little bit of power, you feel lawless, above this world, and claiming to be a god?
Who recognized it?
So are the guys in Forbidden Area No. 76!
So is the Lab of the Gods now!
It's hilarious!
"Levi Garrison, do you know that you are blasphemy?"
"God is inviolable and blasphemy for human beings!"
"Soon our kingdom of God will level the whole world! Everyone is crawling on the ground, enshrining us
as gods!"
"We will kill you personally. It will be the most glorious thing in your life! You can die in the hands of
God!"
…
Levi Garrison's words seemed to hit their weakness.

One by one began to get excited.
He started roaring at Levi Garrison.
“Ha ha ha ha……”
Levi Garrison smiled happily.
This group of people seems to have that phantasy.
One by one thinks of themselves as gods all day long, where are they showing off.
Seeing where Levi Garrison was smiling.
The Great Clown felt they were insulted.
One by one became more and more angry.
He was so angry that he had a red face and a thick neck.
“Levi Garrison gives you a chance! Suicide yourself! Don’t force us to do it!”
Lucifer threw a knife to Levi Garrison.
Because in their fancy, Levi Garrison, an ordinary person, is not worthy of letting them take the
initiative.
Only by letting Levi Garrison commit suicide can they reveal their godly identity.
“Just you? You want me to commit suicide, are you worthy?”
Levi Garrison said coldly.
The variants No. 3 and King Kong No. 4 next to them have already felt Levi Garrison’s powerful anger.
I’m going to do it right away…
Levi Garrison stopped them: “If it’s the other ants, come and do it! But I’ll do it myself for the few ants in
front of me! I will draw a successful conclusion to a few years ago!”
Seeing Levi Garrison so arrogant.
The clown emperor was stunned.
He wants to fight by himself?
sure?
Ordinary humans want to fight with gods?
Are you crazy?
They couldn’t know Levi Garrison’s strength any more.
Is this looking for death?
“boom!”
Levi Garrison’s eyes suddenly locked on Lucifer: “Last time I let someone save you! But this time I won’t
give you any chance!”
At this moment, Lucifer felt the overwhelming coercion…
One can only struggle with pain!
Incompetent barking!

Levi Garrison loosened his hands slightly, and the two of them were able to talk.
"How dare you Levi Garrison?"
"Do you know the fate of your shot against God?"
...
The two shouted frantically.
"Not only will I shoot you, I will kill you!"
Levi Garrison sneered.
"Kill the gods? Do you dare to kill the gods? Do you have the courage? Do you have the strength?"
The two were in a hurry.
Feeling that Levi Garrison now kills them again, it is against the law!
Ordinary humans kill gods?
How can this be?
The Return of the God of War [The Protector] Chapter 2840
Levi Garrison laughed, "Sorry, you are not the first god I killed! There are hundreds of them!"
He really had no idea how many Levi Garrison killed in Forbidden Land No. 76.
"what???"
When the clown emperor and Lucifer heard this, their faces were full of horror.
They could see that Levi Garrison was absolutely flustered.
He is real!
Has he really done all this?
Two people are suspicious!
"The last time a group of guys who claimed to be gods were slaughtered by me, you are the next one!"
"what???"
I heard Levi Garrison say so.
The wise two seemed to understand something.
Is this the group of guys in Forbidden Area 76?
Doesn't it exist anymore?
They thought and saw Levi Garrison's subordinates!
Understood!
Only at this moment did they understand.
Many things and problems were solved immediately.
Everything is because of Levi Garrison!
They want to break their heads and can't think of it all because of him!
It's a pity that everything is too late.
"Goodbye! Old friend!"

Levi Garrison's voice fell, his hands exerted strength, and the power that could crush mountains, rivers
and stars poured into it.

"哢嚓!"

"哢嚓!"

The clown emperor and Lucifer's bodies exploded directly, dissipating between heaven and earth.
There is nothing left…
The clown emperor and Lucifer, the four of them, even dreamt that the seemingly "simplest" task would
have killed the four gods!
This is something that no one thinks of anyway!
Levi Garrison, who had no power to bind the chicken, would actually kill them!
Incredible!
The four of them thought that the easiest and most exciting journey would be the road to hell.
After getting rid of the four people.
Levi Garrison smiled and said, "How are you going to resurrect this time?"
"God? Can't you still kill it? Just blow it!"
"Hahaha……"
Mutant No. 3 and King Kong No. 4 both made bursts of laughter.
I was laughing at "this group of self-proclaimed gods."
In fact, they are still human!
Just a different race!
God?
Pull it down!
The Return of the God of War [The Protector] Chapter 2841
It is an individual who wants to be a god and accept the worship of all mankind!
"You are all gods, then what am I?"
Levi Garrison sneered.
Although he had to wait for the main divine division to come out to show his full strength.
But these few are here to kill him, of course he is going to make a move.
No one knows about this anyway.
Levi Garrison did not let them send out any information.
Kill it, kill it.
Secretly killing things.

But to kill honestly, the winner must come out!
After all this was done, Levi Garrison felt nothing like it.
Go and continue to stare at the East Island Country.
However, in the future science and technology city of the Kingdom of God.
But there was an exception.
"Huh? Are you not coming back?"
"How long has it been! It stands to reason that Levi Garrison had been killed and returned."
Everyone is waiting for Lucifer to come back.
It's just that I haven't come back after time has passed.
"Should there be no accident?"
Everyone looked worried.
Mr. X said coldly: "If I send one out, I might be worried. But I send out four at once. What can be done?
Who can be their opponent?"
Say it like this.
Everyone was relieved.
Everyone knows the strength of the four Lucifer.
However, with time, there is still no one to see.
One hour.
Two hours.
…
Five hours!The four of Lucifer still didn't come back.
And there is no message!
Everyone can't sit still now.
Together with Mr. X.
If you are one or two hours late, it is actually normal.
But if there is no return in five hours, and there is no message.
Then the problem is big.
It's likely something happened…
"No way, is there something wrong with killing Levi Garrison?"
"Is Levi Garrison too powerful to kill?"
Everyone began to doubt.
"How is it possible? Don't everyone know what Levi Garrison's strength is? Just send one out and you
can kill, let alone a full four!"
Someone immediately corrected it.
"Or our intelligence is wrong? Levi Garrison is not guarded by no one, but there are many strong
guards?"
Someone suggested another possibility.
The Return of the God of War [The Protector] Chapter 2842

That's not right! Even if Levi Garrison has strong guards by his side! Even to pull out the gods of the sky!
With the strength of the four clown emperors, no matter who guards, right? Levi Garrison can still be
killed, Retreat all over!"
This is everyone's affirmation of the strength of the four.
They are generally aware of all the strong in Daxia.
It is difficult to kill or trap these four people.
In other words, it is impossible at all.
"It should be that something else has happened. Go and find out what's going on! Go and see if Levi
Garrison is dead? Or is there chaos in Daxia?"
Mr. X immediately ordered.
The advanced intelligence system of the Kingdom of God went to investigate immediately.
After a few minutes.
The message came back.
"Huh? What's the situation? Daxia's side is calm, nothing happened. Nothing happened. Nothing
happened in their defense line!"
This information comes.
Everyone's complexion changed drastically.
"What? Nothing happened? If Lucifer's four had an accident, it would definitely cause an uproar in
Daxia. Now nothing happened?"
unusual!
Not normal at all!
"Levi Garrison is still patrolling around the East Island, as if he didn't meet Lucifer at all!"
Another piece of information came.
Everyone was stunned.
In this case, the four of Lucifer disappeared mysteriously.
There weren't even a chance to show up near Daxia, and even no one went to kill Levi Garrison…
The intelligence department of the Gods Laboratory confirmed again and again.
There are no traces or traces of the four of Lucifer.
Especially when they set off, they used the super powers of the sea monsters to walk under the sea.
No trace can be captured.
…
The series of evidence given now is that they disappeared after they set off.

It has not reached Daxia, and there is no way to kill Levi Garrison.
The only explanation is that they disappeared in the sea.
Seven or eight hours have passed.
There is still no contact.
This is Mr. X's capable man, and he naturally doesn't want to give up like this.
Immediately sent many people to search in the sea.
Even if you die or evaporate, you have to find the cause!
"So what about Levi Garrison?"
Someone asked.
Levi Garrison is still alive now.
The Return of the God of War [The Protector] Chapter 2843
After all, the initial purpose was to kill Levi Garrison.
"Yes, if you want to know that Lucifer and their disappearance have nothing to do with Levi Garrison,
you have to continue to send people to kill him! Killing him while seeing what happens is killing two
birds with one stone!"
Everyone said.
"Okay, Levi Garrison must die! Just to see if this matter has anything to do with him!"
Mr. X said.
"But who should I send?"
Now that the four of Lucifer disappeared, then they could not send anyone casually.
Send someone who is stronger than them, can control the situation, and can send back messages.
Gradually, Mr. X's eyes fell on a person in the corner.
He was wearing a black suit, and his whole person was wrapped in it.
Only a pair of dark eyes were revealed.
But it gives people a feeling of black stars.
It seems that the closer you get to him, the whole person will be sucked away.Dark Devourer!
It should now be called the Darkness Devouring God!
The Laboratories of the Gods now call themselves gods.
The Dark Devourer, from the moment of birth, all creatures close to him will be sucked out of life
essence and die.
Even swallowing everything, the surrounding flowers, plants, trees, insects, fish, birds and beasts, as
long as they get close, they will all be swallowed.
Over time, he became a great plague god.

Later, I met Doctor Dark and helped him improve, giving him the ability to control swallowing.
Able to control devouring!
*In fact, it is similar to Daxia's suction power**.*
But he is a natural talent.
The nature is the same.
Strengthen yourself by absorbing (devouring) the strength of other people.
It is precisely because of the existence of the Dark Devourer that he can bear no matter how much he
swallows because of the race bloodline problem.
This allowed the Lab of the Gods to transform Chen Kong's physique so that he could bear the side
effects (cannot bear too much power!)
It is because of the Dark Devourer that the biggest shortcoming of suction power is improved.
Today's Dark Devourer can be compared to the pinnacle of power absorption.
But definitely much stronger than Chen Kong before.
His strength is also higher than that of the four of Lucifer.
After all, against him, it is likely to be swallowed.
Even people who are stronger than him are not his opponents.
Devouring this talent is terrible.
I can't beat you, but I can swallow you…
Sending him to Mr. X is very relieved.
The Return of the God of War [The Protector] Chapter 2844
Not only that, they also installed some devices on the Dark Devourer.
It can send back information in time, and it can also locate it.
…
The Dark Devourer set off.
Go to the East Island.
The Lab of the Gods continued to send out in the sea to search for the whereabouts of the four Lucifer.
But there is no feedback.
Levi Garrison wandered around the East Island, checking some information to see if there was any idea
of surrendering on the East Island.
Now the attitude of the Kingdom of God is too strong and does not accept any cooperation.
Only accept surrender to join.
therefore.
The careful thinking of these countries can only surrender and join the kingdom of God.

There is no other choice.
Otherwise, they have more choices.
Star country, Dongdao, who have lots of intestines, are probably entangled.
If the kingdom of God opens up the option of cooperation, it is estimated that they will run faster than
anyone else.
I'm afraid it has already cooperated.
It would be great if the neighboring countries of Star Kingdom and Dongdao fight against the Lab of the
Gods together.
Levi Garrison had to lobby himself.
"Give my order, gather the leaders of the surrounding countries such as East Island, Star Country, etc.,
to this island for a meeting!"
Levi Garrison gave the order.
soon.
The persons in charge of all parties came to Xiaodao to meet with Levi Garrison.
This predicted Levi Garrison's idea.
They actually don't want to surrender. If they want to surrender, they won't come to the meeting at all.
At the meeting, all parties began to speak: "If you don't surrender, you have to have capital that doesn't
surrender!"
"Yes, it's okay to unite! But at least you have to have the strength to fight against others!"
"For example, the entire army is overthrown and it is crushed by others. It is better to surrender and
become a slave, at least you can save your life!"
…
Next, everyone found a unified direction.
"As long as we have the strength to fight against the kingdom of God, we are willing to unite! At least let
us see a little bit of hope, right?"
This is what everyone wants.
Levi Garrison couldn't help but smiled: "Don't worry, I have a way, and Daxia has a master who can
handle it!"
"you?"
Everyone cast hesitating glances.
The Return of the God of War [The Protector] Chapter 2845

“Do you think Daxia can let me be the commander-in-chief if I don’t have a hole card and hold on to it?”
Levi Garrison asked rhetorically.
The words came out.
Several people were stunned.
After thinking about it, that is indeed the case.
It seems that Levi Garrison must have a hole card.
Otherwise it won’t be so calm.
When everyone agreed, Levi Garrison’s expression changed.Someone is here again.
Levi Garrison had already noticed it.
The Lab of the Gods moves really fast, so soon the second round will come!
Variant No. 3 and King Kong No. 4 were also noticed.
Although the strong people around these responsible persons are like clouds, these strong people are
still a little worse after all.
They are still not aware of it.
“Levi Garrison’s time for your death has arrived!!!”
Soon, a sound seemed to come through the sky.
There was a thunderous movement on the island.
The majors responsible for the thousands of powerhouses around them immediately began to be
vigilant…
Soon, a black figure struck like lightning.
The Dark Devourer appeared.
He gives people a terrifying feeling.
Like a black hole in the universe, everything that meets him will be swallowed.
Encountered this movement, several responsible persons hurriedly evacuated from inside.
After coming outside, everyone saw the Dark Devourer.
“Stop him!”
The person in charge of Star Country made an order.
The powerhouses around him immediately went forward.
“Buzz…”
But when a terrible scene appeared, these strong men were swallowed by darkness in an instant.
Only one remains with bones.
Unbelievable.
Everyone was scared.
They all watched their companions be swallowed.

That scene was terrible!
"This is the powerhouse of the Lab of the Gods! Get out! Get out!"
Many people are resisting, but the end is miserable.
All were swallowed by the Dark Devourers.
The death was extremely disastrous.
It can't stop the Dark Devourer at all.
There are many strong men armed with advanced weapons, bombarding the devourers of darkness.
The Return of the God of War [The Protector] Chapter 2846
But the frightening thing is that the Dark Devourer can even swallow all the firepower of these weapons.
It didn't hurt him a little bit.
Let alone resist any attack, he can swallow it.
This is the most powerful.
Everyone panicked for a while.
They were also shocked when they saw the strong in the Lab of the Gods for the first time.
All were scared.
After all, just now everyone was still discussing how to target the Lab of the Gods…
After a second, the strong man came.
This is too fast.
It hurt everyone's self-confidence to a great extent.
Especially still so powerful.
Everyone is thinking about running away.
Several persons in charge looked at Levi Garrison, meaning it was obvious.
Let Levi Garrison solve this crisis.
It happened that Levi Garrison came to show off his strength.
They don't even want to withdraw.
Let's see how Levi Garrison dealt with this terrifying powerhouse.
But no one knew that Levi Garrison had run away.
After jumping directly into the sea, he boarded the boat and ran.
Everyone: "…".
Everyone was silent.
A moment ago, Levi Garrison was still clamoring that he had the cards and tricks to fight against the Lab
of the Gods.
How to.
As a result, in the next moment, the powerhouse of the Lab of the Gods really came.
Levi Garrison is the fastest one!

This stunned everyone present.
All of them were dumbfounded.
Even the Dark Devourer was dumbfounded.
Before coming, he was still worried, what if Levi Garrison was very strong?
Or are there top powerhouses around?
Maybe the disappearance of Lucifer's four had a great relationship with Levi Garrison.
So he was still a little worried.
Even if the strength is strong.
After arriving here, he was a little confused.
Levi Garrison ran away?
But after thinking about it, this is right.
A strong man who is too much stronger than himself will kill himself. Why don't you run?
Are you waiting to die?
This is right!
When the Dark Devourer sent the real-time picture back to the Lab of the Gods.
Everyone was shocked at first.
Then he was relieved.
Sure enough, Levi Garrison's performance was normal.
Running at this time is right!
"Darkness devours God, your task is to kill Levi Garrison! No matter the others!"
Mr. X ordered.
"Understand, my task is only Levi Garrison!"Levi Garrison ran away.
The variant No. 3 and King Kong No. 4 also ran away.
A group of people were left crying without tears.
*"Levi Garrison is here, you bastard! The f*ck left us and ran away! I really took it!"*
The Return of the God of War [The Protector] Chapter 2847
"Levi Garrison is what you call the confidence? I'm afraid it won't cheat us at that time! Let us go up!
You ran away by yourself!"
…
A group of people is going to explode.
They run slowly.
Next, it was up to them to face the fierce powerhouse in the laboratory of the gods.
The trouble is big.
It is likely that everyone will stay here.

Every one of them was about to scold Levi Garrison to death.
Blame him!
Looking at the mighty power of the Dark Devourer, one by one is desperate to death…
At this time.
I saw that the Dark Devourer couldn't even take a look at them, and chased up in the direction where
Levi Garrison disappeared.
"Um?"
This surprised everyone.
what's the situation?
Not deal with them?
Still don't put them in the eyes?
One by one was depressed.
"Maybe people just came to kill Levi Garrison! When we first appeared, we heard people calling Levi
Garrison's name!"
Someone explained.
"In that case, we are innocent disaster, but are we implicated?"
Everyone was relieved.
"But this Levi Garrison really doesn't pay attention to things. It was obviously his trouble, but he ran
away immediately and threw this mess to us!"
"All of us run quickly! lest something happens again later!"
…
They all ran away quickly.
At this time, the Devourer of Darkness was pursuing the "escaping" Levi Garrison.
"Levi Garrison, you can't escape the palm of my hand!"
The Dark Devourer shouted.
This made the Lab of the Gods also very excited. On the one hand, Levi Garrison's weakness made them
sure that their guess was wrong.
On the one hand, it was certain that the disappearance of Lucifer had nothing to do with Levi Garrison.
Soon, Levi Garrison was overtaken by the Dark Devourer.
But there is no waiting for him to take action.
Levi Garrison went directly into the sea.
"Chase!"
How can the meat that reaches the mouth let it run away?
The Dark Devourer immediately chased after him.
The speed of Levi Garrison in the sea is really not slow.

Always keep a certain distance from the Dark Devourer.
This annoys the Dark Devourer.
He is such a powerful existence, can't kill Levi Garrison?
The Return of the God of War [The Protector] Chapter 2848
Don't you want to be laughed at when you spread it out?
For a moment, the Dark Devourer came up.
Keep chasing!
"Be careful, Levi Garrison may be cheating!"
Can't catch up for a long time, still in the sea.
Mr. X has a bad feeling.
I am afraid that Levi Garrison will be deceived.
So remind the Dark Devourer.
It's just that the current Dark Devourer is completely on his head.
I can't listen to other people's dissuasion.
He wanted to catch up with Levi Garrison, and then kill him.
The speed is too fast.
As a result, the information sent back to the technological items he carried was slow.
I don't know how long it took.
Both sides have come to the realm of the deep sea.
The environment here has become extremely harsh.
But Levi Garrison continued to dive.
The Dark Devourer will naturally catch up.
While chasing, he swallowed creatures and obstacles in the sea, preparing for catching up with Levi
Garrison.
In the deep sea for a while, due to the devourers of darkness, everything was messed up.
The appearance is not formed anymore.
But in order to catch up with Levi Garrison, he must do everything possible.
Look at the scene that came back in the picture.
Mr. X was a little puzzled: "This place seems familiar? But I can't remember it! Where have you seen it?"
He frowned and began to think.
Others also said one after another: "Yes, I think it is very familiar, but I really can't remember it!"
"Yeah! I'm sure we have definitely seen it! It should have been explored while exploring!"
"Everyone take a closer look!"
...

Mr. X touched his chin and said: "In this way, immediately lock their current position!"
"Understood! Half a minute!"not good!"
"The big thing is not good!"
...
After half a minute.
Suddenly, the pan was exploded in the laboratory of the gods.
"Their place is..."
Mr. X couldn't help but think of something, and subconsciously said:
"Could it be the seas that attracted
Leviathan to disappear before Daxia?"
"Wrong! It's here!!!"
Said the positioning person.
At this time, everyone exclaimed again and again: "What? Levi Garrison attracted the Dark Devourer to
this place?"
"It's going to break now! Something is going to happen!"
...
Suddenly everyone showed an unbelievable look.
"No wonder we felt familiar just now! It turned out to be this place!"
"But why don't we recognize it at first sight?"
Someone voiced doubts.
"First, the speed of darkness devouring God is too fast, causing the picture to be different from the
previous one!"
"Second, wherever darkness swallows God, he will devour and destroy. Therefore, many places are in a
mess, just like, but not the same! We will feel familiar instead of recognizing it at first sight!"
The Return of the God of War [The Protector] Chapter 2849
Everyone understands the reason.
Mr. X suddenly realized: "I probably understand where the Lucifer four disappeared? It's impossible for
us to look for them like that, and we can't find the slightest trace of them!"
"You mean they are all attracted to this place, like Leviathan, are all trapped?"
Mr. X nodded: "Yes, it's wrong! This is Daxia's unique trick, controlling an unknown sea area. I can't beat
you, but I can trap you so that you can't get out anyway. !"
"It must be! How strong are the four Lucifer, now they have suddenly disappeared, and they can't be

contacted, and can't be found. There is not even a trace! Obviously they are trapped in the place where
Leviathan disappeared!"
…
Understood.
Everything is understood.
Why did Lucifer and the Clown the Great disappear?
That's because I was attracted to this sea by Levi Garrisonli and was trapped…
"It's over! Darkness devours God!"
"Hurry up and let the Dark Devouring God stop! This area should be where Leviathan will soon lose
contact, and then we will not be able to contact the Dark Devouring God!"
"Hurry up and send a message to stop him!"
Mr. X urged.
Send out the message here.
But soon, the man said: "Because of the impact, and the speed of the Dark Devourer is too fast. So the
messages and pictures sent to us are delayed! It's almost a minute, according to the time, he should We
have reached the area where Leviathan lost contact."
"Boom!"
This bad news is like a heavy hammer, hitting everyone's heart fiercely.
Everyone was shocked.
Sure enough, dozens of seconds later.
I can't get in touch anymore.
The equipment on the Dark Devouring God is no longer compatible with the Gods Laboratory.
That means losing contact.
The situation is exactly the same as when Leviathan disappeared…
"Something has happened! A big deal has happened now!"
You must know that the Darkness Swallowing God is the super general that was activated when the
Gods Lab attacked the world.
With his swallowing ability, he stands in the front, no one can beat him.
If so unclearly trapped.
It's maddening.
This is a huge loss.
If Lucifer was included, the loss would be too great.
"What should I do now?"
Everyone asked.

No idea.
“For today’s plan, we still have to find out where this location is! We must increase our efforts! This
place may become Daxia’s big killer!”
“Secondly, it is best to control this place! We can’t find a specific one, but Daxia don’t even want to use
it!”
“As for the darkness devouring God, he has to rely on himself. I hope he can break this place and come
out!”Mr. X told everyone.
This is also no way.
They can’t help anymore now.
“Well, well, I immediately send someone to take care of this place, and they don’t even want to use it!”
…
The Return of the God of War [The Protector] Chapter 2850
This is only what the Lab of the Gods can do.
…
now.
Levi Garrison really attracted the Dark Devouring God to the area planned by Atlantis.
After all, the Lab of the Gods came prepared this time, and must have made some preparations.
After all, there are lessons for the Lucifer four.
And there are still so many people together.
He will not shoot in person.
It’s not from the chief priest, he won’t shoot it face to face.
Therefore he will run away.
Attract the Dark Devourer to the dark to solve it.
If he finds this place, it’s nothing.
If you don’t find it, that would be great.
He can kill the Dark Devourer.
During the tracking journey, it is estimated to disturb the mentality of the Dark Devourer, let him come
up, and follow him tightly.
Sure enough, this guy was fooled.
After chasing himself, he traced all the way to the area where Leviathan disappeared.
Quickly followed in the passage.
I don’t know how long it has passed.
One after another, the two finally came to the base planned by Atlantis.
Levi Garrison stopped and couldn’t leave.

The Dark Devourer behind chased up.
He was quickly attracted by the magnificent base.
"this……"
Even if it is the existence of the laboratory of the gods, which is building a country of future science and
technology, seeing this scene is stunned.
Wherever I can think of it, there is a big world hidden here.
"Um?"
Soon, he saw another surprising scene.
The traces left by the Leviathans.
Although Levi Garrison pierced all Leviathans with a sword that day, causing their bodies to explode.
But finally there are still traces left.
In this base, it is even more obvious.
After all, the size is too big, there are more than three thousand…
"Could it be…could it be…"
At this moment, the Dark Devourer seemed to realize something.
Is it possible that this is where Leviathan is trapped?
Then all the Leviathans are dead?
No one left?
What Doctor Dark said is right!
The Return of the God of War [The Protector] Chapter 2851
Leviathan is all dead!
Now he especially wants to go back and tell everyone this message!
Not only was it trapped, but it was all killed.
Who made it?
Does Daxia really have this ability?
Can you kill Leviathan?
first timing.
What he thought of was the two types of existence in the Daxia legend mentioned by Mr. X!
Is it them?
Did they show up?
But when I came here now, I might not be able to go back.
It was too high just now.
I don't remember the way I came.
Now calm down and think about it. When I arrived, the road was super complicated. If there were no
map records, it would be impossible to go out.
This is a place isolated from the world!
But before this, Levi Garrison must be killed first!
The gaze of the Dark Devourer was locked on Levi Garrison.

Levi Garrison also slowly turned around.
The corner of his mouth looked at him with a smile.
"Levi Garrison, you run! Even if you run to the end of the world, you will never escape! I don't care
where it is, I will kill you first!"
The Dark Devourer doesn't talk nonsense at all.
Immediately kill Levi Garrison.
"boom!"
Shocked with a punch.
As a result, Levi Garrison easily blocked it with his hand and released all his strength.
This shocked the Dark Devourer.
"You… are you… you are so strong?"
The Dark Devourer quickly discovered the problem.
Levi Garrison is not such a weak chicken in the archives of the Gods Lab.
He is a strong man!
"But when you met me, there was still a dead end! Ah!!!"
I saw a shout from the Dark Devourer.
The whole person turned into a black whirlpool and began to devour Levi Garrison.
Levi Garrison just wanted to resist, but felt a terrifying suction, absorbing the power in his body.
Out of control!
"this……"
His face changed a lot!What made Levi Garrison think of was that this person's swallowing ability was
different from that of sucking power.
From the beginning when the Dark Devourer started.
Levi Garrison already knew his swallowing ability.
I thought it was about the same as the suction power.
Will suck away the power and skill in his body.
But just after the contact, he found that he was wrong.
Even his face changed drastically!
This person's devouring talent is simply terrifying.
He can swallow everything.
Your strength, your flesh and blood, everything in your body!
Even at this moment, even your spirit and consciousness have been swallowed up!
At this moment, Levi Garrison's biggest feeling was that his spiritual consciousness had also been
swallowed.
His mental consciousness is about to start to trance.

This is the most terrible place.
Devour everything!
Devour everything!
This is the most different place from suction power, and it is also a fatal and powerful existence.
The Return of the God of War [The Protector] Chapter 2852
For example, when the absorption power reaches the high level, all the energy here can be absorbed
cleanly.
But the Dark Devourer, if he swallows it, he can swallow the entire base of the Atlansti plan on the
seabed and everything around it.
As long as he can sustain it, the base planned by Atlantis can disappear instantly.
This is the difference.
Seeing Levi Garrison being swallowed by himself a little bit, the Dark Devourer laughed unscrupulously.
He wants to devour Levi Garrison's whole person!
Go back and tell everyone about Daxia's secrets and Levi Garrison's secrets. He will become the greatest
hero.
He can't wait to be low.
He increased his super power and accelerated the speed of devouring!
Can be the next second.
He was surprised to find that Levi Garrison was missing.
The whole person disappeared.
His first reaction was – Could it be that Levi Garrison had been swallowed by himself?
No way!
How can it take a while.
But at this moment, a voice rang behind him: "What do you think? You and I are far from the same level!
Want to swallow me? How is it possible?"
Wrong.
Levi Garrison was already behind him.
As he said, the Devourer of Darkness is not at the same level as him.
He was swallowed at first because he wanted to see the difference with sucking power.
Now that it is clear, there is no need to continue.
"Um?"
This time it was the turn of the Dark Devourer to be surprised.
what happened?

Is there anyone who is not swallowed by himself?
You know, if you want to, you can swallow everything in the entire base.
What's the matter with this one?
"I don't believe it!"
The Dark Devourer attacked Levi Garrison without believing in evil.
To swallow him.
"Don't believe me, I can abuse you if I play with you!"
"Buzzing…"
After a trembling sound, Levi Garrison's body had turned golden.
There are nine phantoms appearing.
King Kong will not be the highest state of the ninth level of magical power!
This time.
No matter how the Dark Devourer swallowed, Levi Garrison remained motionless.
The incorruptible body of King Kong wrapped him tightly.
shocked!
The Dark Devourer was stunned.
This is the first time such a problem has occurred in history.
Is there anything he can't swallow?
This this this…
It seems that King Kong is not bad magic!
"what!!!"
Darkness swallows and casts skills to reach the maximum state!
Want to devour Levi Garrison.
The Return of the God of War [The Protector] Chapter 2853
But Levi Garrison in front of him looked like a star, unmoving.
Where can he swallow it?
"Weak, or too weak, I hope the main god is stronger, don't let me be too disappointed!"
Levi Garrison shook his head helplessly.
He has had enough of it now.
*This dark devourer goes to play with other people, that is casual **oss.*
"Let me see if you can bear this kind of power?"
"Buzzing…"
"boom!"
Under the circumstances of disturbing the entire underwater world, Levi Garrison hit out with a
punch."what??"
Feeling Levi Garrison's devastating punch.
With that terrifying surging power, the Dark Devourer's scalp numb.
Feel the unprecedented threat.

He hurriedly used all his power to block this devastating punch.
…
But he could only watch the shield shattering layer by layer, and finally his body shattered and burst
open.
Leave no traces!
After killing the Devourer of Darkness, Levi Garrison smiled helplessly: "It seems that this is a good place
to fight. No one knows if it's dead."
Afterwards, he began to observe here and found another exit.
This is also to prevent the main channel from being locked in case this place is found.
In this way, Levi Garrison left without knowing it.
When I came to the entrance, I suddenly saw the people sent by the Gods Laboratory, dangling nearby,
as if to guard here.
It seems that the response is pretty fast?
Soon after, Levi Garrison swaggered back.
…
But the Lab of the Gods immediately exploded after discovering that Levi Garrison had appeared.
Levi Garrison appeared safe and sound from under the sea, but there was no trace of the Devourer of
Darkness.
Doesn't that mean…
The Dark Devourer was trapped along with Leviathan, and could not be found for the time being.
Mad!
Everyone in the laboratory of the gods was going crazy.
"Then our judgment was wrong, and the reason why the four Lucifer disappeared was the same. Levi
Garrison was attracted to a mysterious place that only Daxia knew. No one knew where he went.
Now the Dark Devourers also have the same fate, for the time being they can't break free! "
The conclusion comes out.
Everyone looked gloomy.
This is not good news for them.
"Does that mean that it is extremely difficult for us to kill Levi Garrison now! As long as we send
someone, he will run to that area! We have no way at all!"
The Return of the God of War [The Protector] Chapter 2854

“After all, we have sent two waves, he must be prepared!”
...
“The current threat to us is still a mysterious place like Daxia, so I must find out where it is!”
Mr. X has suffered a series of losses.
He was going to explode.
The only thing left to do was to suspend the plan to kill Levi Garrison.
Focus on investigating this area.
As far as possible, adjust all the instruments and so on.
“In the seven-day period, there are only two days left! It’s time to show our strength!”
The Lab of the Gods also started to do it.
Suddenly, a dozen super powers were eliminated.
Take out a weapon or a strong man that the world has never seen before.
A random shot caused a huge noise.
This was the first time they felt the power of the Lab of the Gods.
More and more people are scared.
Many hesitated to surrender.
Two days.
Basically, those who could surrender basically surrendered.
Including many small countries, or major financial groups.
All have joined the kingdom of God.
Most of them still don’t surrender and choose confrontation.
After all, the world surrendered to a laboratory of the gods, it sounds absurd, they simply can’t do it.
However, in order to fight against the Lab of the Gods, everyone united one after another.
Even moving closer to big countries like Daxia and Zhanxiong Nation.
The seven-day deadline is coming soon.
The atmosphere of the war is getting more and more enthusiastic.
Those who have not surrendered are preparing everywhere to build a line of defense.
Because it concerns the destiny of everyone.
No one wants to be sent under the fence.
Therefore, Dongdao and Xingguo chose to follow Daxia.
In the end, Lian Zhan Xiong Guo cooperated with Daxia.
Levi Garrison is tentatively appointed as the commander-in-chief of the coalition army.
After all, at the level of commanding warfare, his ability is unmatched.
So many forces joined together.
therefore.

The line of defense has been expanded again and again, and the scope is as broad as possible, covering
as much as possible.
Countries also take care of each other…This line of defense almost stuck directly in the nose of the
Kingdom of God.
The interesting point is that in this broad line of defense, the major forces that have surrendered to the
kingdom of God are divided into layers.
It means that they are all within the line of defense set up by Levi Garrison.
Just go to war.
The Return of the God of War [The Protector] Chapter 2855
All the forces that surrendered became Levi Garrison's lips.
It can be eaten at any time.
These surrendering forces are not connected from end to end, and they have no legal contact with the
laboratories of the gods.
After the war, their role is directly zero.
Levi Garrison's move to lay out the line of defense amazed the whole world.
In particular, the cooperating members of the War of the Bear Kingdom praised Levi Garrison.
I feel more and more that Levi Garrison is right to sit in the position of commander-in-chief!
This trick is really wonderful!
As soon as it came up, first abolish all these doglegs of the Kingdom of God.
When they reacted, they were all trapped.
Even the line of defense was directly on the nose of the Kingdom of God.
It's so subtle and scary.
at the same time.
Levi Garrison ordered people to bombard the entrance of the Atlantis plan.
At this time, members of the Lab of the Gods who were inquiring about this area were bombarded.
One by one, there were heavy casualties.
Greatly disrupted their plan!
Levi Garrison didn't harass them in the first place.
It's when they have a bit of a clue that they start harassing.
This disrupted all their efforts and made them have to start again.

After the beginning, Levi Garrison harassed again when it was about to be effective.
…
So repeatedly.
Make their plan impossible.
The Lab of the Gods was so angry that there was no way to do it.
Can only bear it silently.
Levi Garrison's sudden layout was also something that the Gods Lab hadn't thought of.
I thought that these forces in Daxia would take defense and actively reinforce the walls of their own
gates.
How did you know that Levi Garrison actually took the initiative to take the offensive, except for the fact
that there was no fight, it was equivalent to taking the initiative to attack.
No one thought of this trick!
Levi Garrison expanded the line of defense to four-fifths of the world.
Not to mention dividing all the surrendering forces, it also strangled the throat of the kingdom of God.
Wait for everyone to react.
Levi Garrison has completed all the deployments, and the speed is so fast that the Labs of the Gods are
unresponsive.
The forces following Daxia were all cheering and praising Levi Garrison for his resourcefulness.
All the gods' laboratory was furious.
"Did you see it?"
"This is the horror of Levi Garrison!"
"He has become like this now, and he is still our biggest threat!"
"We are all gods, he has become an ordinary human, and the person who is fighting with us is still him!"
…
One by one, they gritted their teeth at Levi Garrison.
This is just great.
The cannon fodder in front of them, the running dogs were all controlled by Levi Garrison.
The Return of the God of War [The Protector] Chapter 2856
It didn't work anymore.
And in accordance with the arrangement of this line of defense, it has been on their throats.
Next, it might not be them attacking, but Levi Garrison's attacking.
But they also went to kill Levi Garrison in advance, but they all failed.

What can they do?
...
After laying out all the lines of defense.
Levi Garrison gathered the responsible persons from various countries.
These persons in charge are all his lieutenants and follow his instructions.
"Next, we have to take action in front of the Lab of the Gods! This way we can take the initiative! We
won't fall into passiveness!"
"If you take the initiative first, you can test the approximate strength of the Gods Lab!"
Levi Garrison said.
Everyone agreed.
"What about offensive time?"
Someone asked.
"I think six hours later is the best time to attack! You can definitely get ahead of the Lab of the Gods!"
The person in charge of the Eagle Nation said.
Everyone nodded.
Levi Garrison also said: "Yes, not wrong. Six hours later is the best time to attack!"Just as everyone
looked hopeful and waited for Levi Garrison to announce that it was the total attack time in six hours,
Levi Garrison changed his mind and said, "But! It's not for me!"
"Um?"
Everyone was taken aback.
I don't know what Levi Garrison means.
"The best time to attack for me is now!"
Levi Garrison said this.
All were stunned.
"Pass my order! Launch a general attack on the Lab of the Gods! Immediately! Immediately!"
When Levi Garrison came to this order, the audience exploded even more.
immediately?
No time for any reaction!
Soon everyone understood.
Levi Garrison is slashing the chaos with a quick knife.
It will change later!
Although six hours later is the best time to attack.
It is guaranteed that there will be any changes during this period.
For example, there is an undercover agent here, secretly sending out messages.
Prepare the Lab of the Gods.

Or ambush or something.
Over time, there will be more problems.
Therefore, you have to act immediately.
In this way all problems are avoided.
Many people admire Levi Garrison's decision.
Many people's eyes are shining.
The Return of the God of War [The Protector] Chapter 2857
This is Levi Garrison's idea, he must take the initiative to attack, take the initiative to attack the
laboratory of the gods.
As soon as possible to force the main gods to come forward.
This is his purpose.
It's best to force the main divine division out in one fell swoop!
"action!"
"action!"
…
Levi Garrison's order.
The coalition army immediately launched an attack on the future science and technology country of the
Gods Laboratory.
"Rumble…"
Countless weapons poured out in an instant.
It's like rain showers on the future technology country.
The scene is spectacular!
Like thousands of stars falling!
Everyone in the future science and technology city saw it one after another and was shocked.
Caught off guard.
Because they are still holding all kinds of banquets or other high-class people.
Suddenly, there were terrible whistling noises.
Everyone was shocked.
"Dididi…"
For a time, the entire future science and technology country screamed loudly.
"An enemy invades! An enemy invades!"
The loud voice resounded in every corner.
It's messed up!
The gods' laboratory was in chaos.
"what's the situation?"
"what's the situation?"
…

They didn't even think of it.
I didn't expect that Levi Garrison would take the initiative to attack, and I didn't even think that Levi
Garrison would be so hasty, and would attack directly with a few words so soon.
It was completely beyond their expectations.
It's not ready at all.
Levi Garrison's attack had already come.
"We underestimated Levi Garrison again, it's absolutely amazing!"
"I didn't even dream of thinking that they took the initiative to attack!"
"Turn on the defense system immediately!!!"
…
Soon the future science and technology nation will open its defense system.
The energy mask quickly enveloped the entire country.
Protected from all attacks.
"boom!"
The Return of the God of War [The Protector] Chapter 2858
"boom!"
"boom!"
…
The terrifying weapon hit the shield and dissipated in an instant, making it impossible to penetrate the
shield.
Everyone in the future science and technology country saw this scene as if they were watching fireworks
all over the sky.
"Want to break into here?"
"impossible!"
Mr. X smiled and said, "Prepare to fight back!"
The original energy shield absorbed all these weapons.
"Boom boom boom…"
Then all the energy shields were returned.
"Rumble…"
Repeated bombardments above the sea.
All the weapons and equipment of the coalition army were destroyed.
…
But how could Levi Garrison not expect this?
The first round of attacks were scheduled to be fully automated weapons, so no personnel were injured.
"The air team, start bombarding!"
Next, Levi Garrison arranged air firepower to strike.
One aircraft began to make repeated strikes in the air.

After the attack, quickly evacuated.
“Rumble…”
Countless artillery weapons bombarded again.
At this time, Levi Garrison took out the artifact.
This scared everyone.
This is also OK? ? ?
After some operations, Levi Garrison aimed at the position of the Kingdom of God.
This is a giant crossbow!
It was cast by Levi Garrison from the residue left over when building the artifact.
These residues can’t be used even in the hands of high-tech biblical organizations.
But Levi Garrison has an ancient casting technique.
Use all these residues to cast this giant crossbow!
It is a hundred times that of ordinary crossbows!
Regardless of body shape or other aspects!
When this giant crossbow was taken out, the audience was shocked!
I was scared!
This is much larger than many heavy weapons.
Because it is all made of materials from Forbidden Land No. 76, this giant crossbow is dozens of times
heavier than imagined.
It is also extremely difficult to transport.
There are many strong people who rely on brute force to even be unable to lift this giant crossbow.
Let alone use it.
In order to exert the greatest power of the bow and crossbow, the strong players on the field must unite
before they can be activated.
The Return of the God of War [The Protector] Chapter 2858
Levi Garrison naturally couldn’t show his strength in front of so many people.
“Next, you are looking for ten top experts to urge the crossbow together!”
Soon, Zhan Xiong Nation waited out ten strong men who were good at strength.
“One or two, shoot!”
The ten powerhouses squeezed their strength and used their strength to pull the crossbow to its full
capacity.
“Boom!”

The giant arrow disappeared in an instant like a shooting star across the night sky.
Pulling out a long wave of air in mid-air, like tearing the stars!
At this moment, the future technological kingdom of the Kingdom of God is firmly guarded by the
energy shield.
No matter what kind of firepower, it was blocked by the energy shield and turned into a sky full of
fireworks for them to celebrate.
Those dignitaries who were having a banquet watched the sky full of fireworks and took out goblets to
congratulate each other.
Everyone in the Lab of the Gods is also relaxed.
It's like watching a joke.
"They don't know how powerful our technology is, right? We didn't use this kind of weapon a few years
ago, and attacking us now is like tickling it!"
Everyone looked disdainful.
Dare to take the initiative to attack even with this kind of firepower?
"Boom…"
But at this moment, suddenly the entire future science and technology city began to shake.
Shaking vigorously, and getting more and more violent!
As if the entire city had to be uprooted.
"this……"
All of a sudden, everyone panicked.
The dignitaries who held the party and the people in the laboratory of the gods.
What's wrong?
"Not good! Danger is coming! Danger is coming!"
At this time, the defensive system boiled water and issued a harsh alarm sound.
I saw a stream of air coming extremely fast ahead!
Can't see what it is!
Even the system can't detect it!
"boom!"
In the blink of an eye, a giant arrow shot.
Hit with the energy shield.
"哢嚓!"
The next moment, the giant arrow pierced the energy shield forcibly.
The energy shield shattered in an instant.

“Rumble…”
But the huge arrow shoots towards the city without any reduction in speed.
Suddenly caused huge losses!
Even if the material of this city is unprecedented, it can’t stand the ravages of giant arrows.
“Buzzing…”
However, everyone else reacted, and the movement of the earth and the mountains came again.
“Boom…”
Another giant arrow came.
Caused a huge loss again…
It’s messed up!
This time the kingdom of God is completely chaotic!
The flames of war are raging, and many areas have been affected.
This is not critical.
The most important thing is-this is the kingdom of God!
Where is the kingdom of God!
How dare ordinary people violate?
This is an infringement of God’s kingdom, this is an insult to God!
This is the most intolerable!
To cause such a great loss to the kingdom of God is an infringement of the majesty of the kingdom of
God!
“Looking for death!!!”
These “gods” in the Lab of the Gods were all angry.
They were all bullied to the door.
Who can bear this? ? ?
God is inviolable, let alone insulting!
“Give the order! The Kingdom of God begins to counterattack! Attack all parties in the world who have
not surrendered!”After the order.
The teams prepared in advance by the Lab of the Gods were dispatched.
Countless advanced aircraft and so on also flew out of buildings.
About to fully attack the front.
“Buzzing…”
But at this moment, the third giant arrow flew in.

“哢嚓!”

“哢嚓!”

“哢嚓!”

…

The army of the Gods Laboratory that had just been dispatched was hit by this giant arrow head on.
Suddenly, personnel, weapons, and various equipment suffered heavy losses.
At this time, the powerful and powerful people who surrendered were dumbfounded.
It turns out that these so-called "gods" are the same as them.
The same will be killed, the same will bleed, and the same will scream.
This is exactly the same as them.
God?
The Return of the God of War [The Protector] Chapter 2860
Is this a god?
Doubt!
All parties are beginning to doubt, have they all been deceived?
Is God a scam at all!
They are just a little stronger and call themselves gods!
I was dumbfounded for a while.
All began to doubt.
It was mostly a bloody scene that I saw with my own eyes.
This caused the kingdom of God to collapse directly in the eyes of the public, and it gained prestige.
In the beginning, these surrendered dignitaries and major forces began to wonder if their decision was
wrong?
This is the most embarrassing thing for the Kingdom of God!
It is also the last thing they want to happen!
They control the world by relying on the prestige of God.
As a result, the image of God now collapses.
Everyone began to doubt.
This is quite a wave of military sentiment and public opinion.
This is a shameful thing for the Lab of the Gods!
also.
The greater the loss they suffered, the more morale boosted the coalition forces.
At that time, Levi Garrison yelled-see, they are the same as us, carrying a head on two shoulders, they
will still fall off.
…
anyway.
The power of these three giant arrows is much greater than the substantial damage they cause.
"Offense! Offense! Don't let them live!"

The various departments of the Lab of the Gods went crazy.
The system of the future science and technology nation began to attack across the board, and all
terrifying advanced weapons were launched.
Launched a fierce attack on the front position.
Whether it is range, coverage, or power, it is rare in the world.
The world was shocked again.
Feel the confidence of the laboratory of the gods.
I saw that any place in the sea ahead was covered by the advanced weapons of the Kingdom of God.
The line of defense that Levi Garrison had set long ago was destroyed in an instant.
But at this time, Levi Garrison had already let the army retreat.
Therefore, the ground destroyed by the Lab of the Gods was completely empty.
"Huh? Commander, shouldn't we continue to attack? Your special weapon has already caused them so
much damage!"
"Yes, why did we retreat suddenly?"
...
Everyone didn't understand why Levi Garrison retreated.
Levi Garrison smiled: "You'll know later!"
"Give me an order-to eat all the major forces that surrendered to the kingdom of God! This is the best
time! We can't let them stab us in the back!"
Levi Garrison not only gave the order to retreat.
Now it is even more necessary to aim the offensive direction at those surrendering forces that have
been divided and turned into lip service.
Soon all parties launched an attack specifically to deal with these lackeys who surrendered.
Blitz wars broke out.
Under the command of Levi Garrison, the coalition forces almost swept these surrendering forces.
They simply have no power to fight back.
All were destroyed one by one.
At this time, the morale of the coalition forces was greatly boosted.
In one effort, one after another was taken.
As for the surrenders and followers of the Kingdom of God, they were all scared to death when they saw
the "bad news"!
I am afraid that the next one will find them.

Even the surrenders who are now in the kingdom of God are beginning to worry.
Soon, the chief mates will know.
Levi Garrison is not only attacking the kingdom of God, but also disintegrating their psychological
defenses and increasing the momentum of the coalition forces.And soon, they learned why Levi
Garrison's intention to retreat.
The vanguard team from the Lab of the Gods arrived.
powerful!
too strong!
Whether it is the strong, or equipped with weapons.
It's horrible.
If they had just stayed here, it is estimated that they have suffered heavy losses now.
At least half of the people will sacrifice…
not only.
There are also a series of beast teams and mechanical teams in the laboratory of the gods!
It feels like a fight with Leviathan!
These have been placed at the forefront, launching a rolling attack!
powerful!
Wrong!
The coalition is strong for all parties!
The three giant arrows completely forced out the anger of the gods' laboratory.
So that they sent all the powerful forces out.
Prepare to leave no hope for the coalition!
But for Levi Garrison, it's still weak!
It's not the chief priest!
What he has to wait for is the main priest!
All his plans are to use three giant arrows to bombard the kingdom of God.
The purpose is to push the Lab of the Gods in a hurry and let them release all their hole cards.
Including the main priest!
The Return of the God of War [The Protector] Chapter 2861
Levi Garrison always wanted to force the chief divine division out, and then he could release all his
strength to fight.
However, it was still not enough to force out the main priest.
It seems we have to continue…

“Pass my order and withdraw! Leave a small group of teams to harass!”
Levi Garrison is still an order-retreat.
Small groups of teams harassed, but the result was terrible.
One by one suffered heavy casualties!
The army that encountered the laboratory of the gods was completely defeated and defeated.
Not one level!
The Lab of the Gods vented their anger completely.
Use the strongest equipment and the strongest superpower to attack and crush in turn.
For a time, the coalition defense lines were breached one after another.
But Levi Garrison hadn’t had any good way to resist, he just kept retreating.
At present, all eight lines of defense have been lost.
Fortunately, Levi Garrison had set up a lot of defense lines in advance, otherwise, they would have
threatened the fundamentals.
However, behind the coalition forces led by Levi Garrison is an ally-the Giant Bull Nation.
If Levi Garrison retreats blindly.
Then it is equivalent to completely ceding the Giant Cow Kingdom to the Lab of the Gods.
The Lab of the Gods will swallow the Giant Cow Kingdom without hesitation…
“The commander-in-chief can’t retreat anymore! If he retreats again, it would be equivalent to
abandoning the giant cow country. We will fight anyway!”
“Yes! Once an accident occurs in the Giant Bull Country, I am afraid our federation will fall apart!”
“You must fight! You must fight anyway! I suggest, gather all the coalition forces here to fight the
Kingdom of God, right?”
…
The lieutenants of all parties began to persuade Levi Garrison.
Everyone’s suggestions are almost the same.
They are all required to gather all the forces to fight to the death with the laboratory of the gods on the
ninth line of defense.
Levi Garrison refused, “No! It’s not suitable for a decisive battle for the time being! I don’t think it will
come at that time!”
What is the final battle now?

Even if you are finished.
Even won.
What is the use.
The main priest is still there.
The more powerful ones are still there.
If he suddenly came out, Levi Garrison might not be able to take care of the overall situation.
At the moment, we have to fight steadily, and step by step to force the main gods out is the right way.
"what?"
The words came out.
The audience was in an uproar.
The lieutenants looked at Levi Garrison in disbelief.
"What do you mean by commander?"
Everyone asked.
"Withdraw! For the time being, we have to continue withdrawing!"
Levi Garrison ordered.
"Ah? In this case, wouldn't the Giant Cow Country be handed over to the Lab of the Gods? The place will
be destroyed and everyone will die! The Giant Cow Country is our ally!"
"I don't agree to retreat!"
"I also don't agree to retreat!"
...
Even the relevant personnel of the Giant Bull Nation in the coalition force strongly opposed Levi
Garrison.
After all, this involves their survival.Levi Garrison was happy: "That's not what I meant for you to
retreat!"
"First of all, we first adopt the tactics of harassment. Every moment, every place harass the laboratory of
the gods, disturbs their attention, and delays their progress!"
"Secondly, let's not withdraw! Let's guard here first! Even if the Gods' Laboratory comes, we have to
stop!"
"But all this is actually to cover the retreat of everyone in the giant cow country!"
"According to my order, everyone in the giant cow country will withdraw by the early hours of
tomorrow morning! All those who want to survive will withdraw!"
Regarding Levi Garrison's decision.
Everyone still has no obstacles.

At least he wants to keep the giant cow nation up and down.
Everyone can only listen to Levi Garrison.
All sorts of harassment began on the army of the Gods Laboratory from the front.
Even if the sacrifice is great, it must be harassed.
As for the giant cow country, it immediately began to retreat.
At this time everyone saw the benefits of Levi Garrison's deployment of defenses in advance.
Arrange most of the world as a defensive area in advance, so that most areas are under control.
It is like now that the giant cow country can flee to any area behind it.
It's all alliances anyway.
But if Levi Garrison hadn't arranged it in advance, now the left and right sides may be enemies.
There is no place for the giant cow country to withdraw.
Everyone once again admired Levi Garrison's brilliance.
The army of the Gods Laboratory was harassed by all kinds of harassment, which really slowed their
progress.
However, there are still many strong men who broke through everything and came to the ninth line of
defense ahead of time.
Levi Garrison was in charge and commanded the defense of the coalition forces.
The two sides fought extremely hard.
Especially on the coalition side, encountering the powerhouse of the Gods Laboratory, it was even more
defeated and suffered heavy casualties.
Fortunately, the commander is Levi Garrison, who arranges each party in the most reasonable position
to ensure that everyone's strength is maximized.
Otherwise, it might have been breached long ago.

The Return of the God of War [The Protector] Chapter 2863
Levi Garrison in the position of commander-in-chief frowned, he was also thinking of a way.
How to get the main priest out?
According to the current posture.
Unless it is to make the Lab of the Gods suffer a huge hit or make them fail.
It is possible for the chief priest to be dispatched.
But if you don't make a move, you don't show the ultimate hole card.
How easy is it to defeat the Lab of the Gods?
What if all the coalition forces are gathered?
Whoever is white, most of them will be cannon fodder. No effect.
Unless the war eagle nations also unite in.

Levi Garrison, the powerful of the Eagle Nation, understood it, even if he didn't know the details.
However, the Warhawk Nation has a clear stand, and will not form an alliance or surrender.
It is difficult to join forces.
Other ways.
Levi Garrison still didn't think about it.
Therefore, only after encountering the army of the Gods Laboratory will it steadily retreat.
He has much more consideration than everyone present.
But it is undeniable, if you want to defeat the laboratory of the gods.
You have to follow Levi Garrison's rhythm.
Others don't even know the composition of the Gods' Laboratory.
Everyone knows that the real power of the Gods Lab is the main gods.
"Commander, do you have a good way? Are you just waiting to withdraw?"
"Really! It's better than we gather all the strength to face them head-on!"
...
Everyone stared at Levi Garrison, waiting for their answers.
"Most of the coalition forces retreat!"
"Leave small teams to harass them and consume them as much as possible!"
"In addition, we lay down regular bombing weapons under our line of defense! When the army of the
Gods' Laboratory arrives, they will all be ignited!"
Levi Garrison immediately gave the order.
Everyone looked disappointed when they heard the word retreat.
They gave Levi Garrison opportunities again and again.
Now that he has the tenth line of defense, he still has no way of retreating.
Everyone's opinion of him also changed.
The lieutenants quickly gathered together in private.
"Are we all suggesting to change the coach? Levi Garrison can't do it!"The initial retreat was
understandable.
But it was still retreating later, which disappointed everyone.
Disappointment again and again.
They are all withdrawn to the "eleventh line of defense."
Except for retreat and harassment.
Levi Garrison had no choice.
This is what makes everyone disappointed!
There is no way, so what are you doing?
Who can solve the current dilemma?

This is the truth since ancient times.
Levi Garrison is a military adviser, and it's okay to support him, but he doesn't seem to be the coach at the moment.
"I think Levi Garrison is still suitable to join the think tank as a military adviser, and come up with ideas or something! As for the coach, let's change someone!"
"Well, let's report it first! It is estimated that it will take a while for everyone to make a decision! At that time, under the command of Levi Garrison, it is estimated that we have withdrawn several lines of defense!"
"Yes! Now he has no way to solve it, he can only retreat! The next thing is the same, we recommend changing the coach in advance!"
"Do you agree?"
"Agree!"
…
Where did Levi Garrison know that most of the lieutenants have jointly replaced the coach.
He was still figuring out how to lead the chief priest to come.
The tenth line of defense has been abandoned.
Soon, the army of the Gods' Laboratory was overwhelmed.
"Rumble…"
But Levi Garrison's presets all exploded at this moment.
Caused a lot of impact and damage to the Gods Laboratory.
But on the whole it is basically negligible.
That is, what a bunch of lieutenants said was useless.
There will be no substantial harm to the Lab of the Gods at all.
Next is the eleventh line of defense.
It is also a vital line of defense.
This line of defense fully connects seven countries.
If this line of defense is broken, seven countries will be in danger, which is equivalent to opening the door to the laboratories of the gods.
Suddenly, the Lab of the Gods will have seven more options.
At that time, we will go to defend one by one, and it is estimated that the defense will not be enough.
Seven countries will fall into disaster.
This is something you don't want to see.
The giant cow nation has all evacuated to these seven countries.
Can't we continue to evacuate, right?

Moreover, it took so much effort to withdraw a relatively small giant country.
If the seven major countries are withdrawn, I don't know how much it will cost.
Moreover, if the seven countries were to continue to evacuate, it would be equivalent to putting all the
dozens of countries in the rear to the laboratory of the gods to attack.
therefore.
The Return of the God of War [The Protector] Chapter 2864
The eleventh line of defense is crucial.
Never lose it!
You can say that.
The eleventh line of defense was lost.
The coalition lost a third!
If the seven countries after the eleventh line of defense fall again, it is equal to half of the loss.
Even in theory, it is undoubtedly a loser.
therefore.
All parties are more optimistic, fighting to the death on the eleventh line of defense!
The best to win.
There is no way to win.
In short, the eleventh line of defense must not be allowed!
But these lieutenants probably figured out Levi Garrison's routine.
He still has no idea, and there is a high probability that he has to give up the eleventh line of defense.
Then let the Seven Kingdoms retreat behind you!
The tenth line of defense is a routine.
He had no way at all, and he would not face the laboratory of the gods.
There is really no way except harassment.
Sure enough, after retreating to the eleventh line of defense, Levi Garrison didn't give the order to all be
stationed here.
Instead, everyone was on standby, waiting for his orders.
It seemed that Levi Garrison would probably give the order to retreat.
This is exactly the same as everyone expected.
While observing the movements of the Gods Lab, the lieutenants waited for the above decision-whether
to change the coach.
Levi Garrison was also hesitating.
Where did he not understand the importance of the eleventh line of defense.

What he thinks is to pull all the power over to fight frontally or other ways…
For example, continue to retreat, continue to think of ways…The army of the laboratory of the gods
quickly passed the giant cow country and pressed up.
Very close to the eleventh line of defense.
To say that Levi Garrison is testing, in fact, they are also testing.
Their purpose is similar to that of Levi Garrison.
Levi Garrison was thinking of a way to force the chief priest out.
And they attacked in an all-round way, in order to force the existence of Daxia's two types of legends, of
course, the premise is…
However, it is clear that the Lab of the Gods has the advantage.
Now they are aggressive and put the coalition forces into difficulties.
If this goes on, sooner or later, it will be forced out.
But Levi Garrison still had no choice.
"The main divine division ordered-the eleventh line of defense must be broken! This is very important!"
"They predict that the enemy will fight back frantically here! This is a big battle! The chief priest hopes
that we must win it! Under the premise that they don't make a move!"
The Lab of the Gods also received the order, ready to launch the most violent attack on the eleventh line
of defense!
This battle is the key!
After being played, the real hole cards may be forced to come.
therefore.
Mr. X personally came to supervise the battle.
The powerful power of the Lab of the Gods should be used here.
This battle is crucial.
Soon Mr. X came in person.
There is also a strong man and top weapons and so on…
In addition to the vanguard team in the laboratory of the gods, the subsequent army gathered one after
another.
The Lab of the Gods was also not anxious to attack, but gathered all the power.
Start a fight to the death!
The atmosphere of the war is permeated everywhere.
The coalition forces on the eleventh line of defense felt oppressed.
They are discussing one by one.
The enemy army on the other side is making drastic preparations.

There is no movement on their side, can they not panic one by one?
"What's the matter with the commander?"
"Are there any plans yet? Wait, the enemy will come over!"
"Should he continue to evacuate? Then are we all over!"
"I don't think he is suitable to be the commander-in-chief, so he should be replaced by someone else!"
"Now everyone is dissatisfied with him!"
...
The war was about to start, and now there are too many people who are dissatisfied with Levi Garrison.
This voice is everywhere in the coalition forces.
After all, the coalition forces are gathered from all sides. It's not Daxia.
They don't have the so-called feelings, and they don't know Levi Garrison's saving Daxia again and again.
They only saw Levi Garrison's ability to solve this matter.
Replace if there are any!
The soldiers are so, and the lieutenants are even more dissatisfied.
And the emotions are getting bigger and bigger.
I almost spoke in front of Levi Garrison.
"Believe it or not, Levi Garrison will still retreat next! Give up the eleventh line of defense and let all the
seven nations behind him withdraw!"
A lieutenant said.
The Return of the God of War [The Protector] Chapter 2865
"Yes, for sure! Anyway, these seven countries and the eleventh line of defense have nothing to do with
him, even if it is lost, it won't hurt him and Da Xia's vitals!"
"Yes, that's wrong. Levi Garrison is thinking about Daxia, experimenting with our country's land and
human lives. If Daxia is involved, do you think he can withdraw people? He will definitely fight!"
"Yes! Even if you lose, it is not Daxia's power that is lost! We are the ones who lose! He won't panic!"
"We can't take our country and people to give him time to think!"
"The eleventh line of defense must not be given up! If this is given up, we will be over!"
...
The lieutenants expressed their dissatisfaction strongly.
"Let's go, let's ask Levi Garrison now, what does he mean?"
"Yes! Even if he doesn't make a decision, he must be forced to make a decision!"
...

Soon, dozens of lieutenants reached a consensus.
Go to Levi Garrison's command post and ask him whether he has made a decision.Levi Garrison looked
at the dozens of lieutenants who ran together, all a little dazed.
He is still studying, still thinking of ways.
And he is also waiting for the message.
The Lab of the Gods must have arranged spies and the like on their side.
Levi Garrison would naturally also plant spies in the opponent's camp.
He was waiting for messages from these spies.
According to the actual situation, he has to make a decision.
Not thinking that these lieutenants were so impatient, they came to question him now.
"The commander-in-chief is on the other side-the army of the Kingdom of God is gathering. What we
met before was only their vanguard team! Now their army is gathering! It will be the strongest force!
Soon they will attack the eleventh line of defense!"
"Excuse me, what is your decision? We are all in a hurry. You make a decision quickly, and we quickly
prepare!"
Everyone stared at Levi Garrison and asked.
Levi Garrison frowned: "This…in fact, I still haven't decided yet! I need to wait!"
He is still waiting for information before making specific decisions.
After all, the action of the Gods Lab is so big.
There must be an inside story.
Maybe there is a message from the chief priest.
"Huh? Still undecided?"
Everyone was surprised.
"Everyone has hit the door, you still haven't decided yet?"
"Soon the Gods Lab will attack! In fact, we are already very late and very late to prepare at this time!
You haven't decided yet, it's really not very good!"
"Moreover, the eleventh line of defense is so important! The seven countries behind us have also
decided together, resolutely not to give in! Not to retreat!"
…
Everyone began to analyze the current situation to force Levi Garrison.
"The commander in accordance with the consensus of all of us-put all the forces of the coalition on the
eleventh line of defense, and fight to the death with the laboratory of the gods!

Everyone advances and retreats together! Even if you lose, no one complains! After all, there is a huge
disparity in power! "
"Yes! Everyone is united! We are not a single country, we are coalition forces! In this situation, we must
not give up the seven allies behind us!"
"Commander, right?"
"Commander-in-chief, right?"
...
Everyone is pressing Levi Garrison to make him make the decision to fight to the death.
Levi Garrison frowned.
"Wait!"
"Give me half an hour!"
Levi Garrison let everyone leave first.
Everyone exited first, but they surrounded Levi Garrison's command room.
Waiting for his final decision.
Time passed by every minute and every second.
Finally it was almost half an hour.
Levi Garrison received a message from the spy.
"Huh? The Lab of the Gods is afraid of Daxia's two special existences? So that the main divine division
has been reluctant to show up? It can even be said that the main divine division was prepared for
Daxia's two kinds of existence!"
Levi Garrison finally got the message.
He understood it all at once.
In fact, both sides are testing.
The Lab of the Gods is also testing.
Including the previous Leviathan is also testing the existence of the two legends of Daxia…
However, according to intelligence, these two types of existence may not exist at all.
However, the chief priest was still a little jealous.
If you have a clue, it will be fine.
Levi Garrison smiled.
Next, we must first find out with Yanlongwei and Tiancefu what these two types of existence are?
The Return of the God of War [The Protector] Chapter 2866
Does it exist?

Existence is the best, so that it will be more certain to deal with the gods laboratory and the main gods.
If it doesn't exist, you have to find a way to bring out the main divine division.
This is another way.
…
But then it's good to have ideas.
Therefore, it takes a certain amount of time to arrange.
The next battle still cannot be fought.
To reduce casualties!
"Pass my order!"
Soon all the lieutenants walked in.
Staring at Levi Garrison fiercely.
Waiting for Levi Garrison's decision.
"Give my order-give up the eleventh line of defense! The seven nations behind them collectively
retreat!"
Levi Garrison said this.
The audience is silent!
That's it?
Everyone waited for half an hour!
Thought Levi Garrison was going to organize a decisive battle.
Everyone was excited about screaming.
The result is really a retreat!
After the persecution, after thinking about it for half an hour, it turned out to be a retreat?
And let the seven countries behind them all withdraw like the giant cow country.
This this this…
Like a bolt from the blue sky, this is the result after waiting for a long time.
Dozens of lieutenants froze in place, like stone statues.
They didn't leave after a long time, but they all stared at Levi Garrison.
"Huh? What are you doing in a daze? Don't hurry up to perform the task, did I make it clear just now?"
Levi Garrison looked at them and said.
It's just that everyone didn't talk, they still stood there, their eyes widened.
"Huh? What's the matter?"
Levi Garrison asked.
No one speaks!
Silence in the field!
No one left, and no one to carry out Levi Garrison's orders!
"What are you doing? Talk!"

Levi Garrison shouted angrily.
“Sorry! We can’t accept this decision, commander of you!”
The lieutenant of Zhanxiong Nation was the first to stand up.
“Yes, we can’t accept it! The eleventh line of defense is very important! We must not give up! The seven
countries behind us cannot retreat!”
“We must fight on the eleventh line of defense! Fight to the death!”
Everyone looked at Levi Garrison: “Please order from the commander-in-chief to let the coalition fight a
decisive battle on the eleventh line of defense!”
“Please order the commander! A fight to the death!”
…
Dozens of people shouted one after another.
They weren’t asking at all, but forcing Levi Garrison to order a decisive battle.
Being persecuted, Levi Garrison also became angry.
“Do you not understand what I mean? I order you to retreat immediately!”
“Am I the commander, or are you the commander? Do you deny me the commander?”
Levi Garrison scolded.
“If you still treat me as the commander-in-chief! Just listen to my orders! Go and perform the tasks I
arranged! I promise to win the final victory with minimal casualties!”
Of course this is wrong.
Following Levi Garrison’s strategy of blindly retreating, casualties can be reduced to a minimum.
“I counted three times and got off to perform the task! Otherwise, I would disobey my orders! I want
military law to do it!”
Levi Garrison shouted.
But there was still no movement.
Everyone rushed and said: “If you give the order to fight to the death! Then we will treat you as the
commander in command! We will respect you, and everything is up to you! But if you give the order to
retreat, sorry! We can’t execute it! We too! I won’t take you as the commander-in-chief!”
The Return of the God of War [The Protector] Chapter 2867
“Yes, we think the commander-in-chief! It is useful at this most critical moment! It will take us to fight
the ultimate battle! Instead of retreating and retreating!”

“The enemy we are facing now is not only Daxia’s own business, but also the business of all our coalition
forces! You can’t take our losses to buy Daxia time!”
“The commander we want is fairness and justice! It will not be partial because it is a certain country. He
will treat each country as his own!”
“You can’t just retreat because of Daxia and dare not fight!”
...
Until now.
Everyone vented all the dissatisfaction in their hearts.
Levi Garrison smiled: “You sincerely don’t recognize me as the commander, do you? You are going the
other way, right?”
“But here I have the final say, Levi Garrison! I am the commander in command! You have to listen to me!
Even if I give any order, you have to implement it!”
“Once you disobey my order, you are breaking the rules, and I will punish you!”
“Yes! Wrong! The commander is the biggest here, everyone must listen to the commander!”
“But you won’t be the commander-in-chief soon!”
Everyone said.
Levi Garrison frowned: “What do you mean???”He had a foreboding feeling.
This bunch of idiots may be going wrong.
There must be something big.
If the commander is really replaced, then the problem will be big.
Now it seems that these idiots really did it.
“A long time ago, we jointly wrote a letter suggesting the replacement of the commander-in-chief!”
“But we have been watching your performance since then! If you perform well, command you to
continue to do it! But again and again we are disappointed!”
“You have always had no good way to face the enemy! You can only retreat and harass blindly! There is
no real way! We have all lost ten lines of defense, you still have no way!”
“Then prove that there is absolutely no way for you to go to the Lab of the Gods! In front of absolute
power, any conspiracy is useless! You can only do it with real swords and guns!”
...
Everyone said one after another.

It also talked about the replacement of the coach.
“We don’t deny your commanding ability! You made everyone amazed before! But at this critical
moment of life and death, you have no choice but to replace you. Change to someone with ability!”
…
Levi Garrison was anxious, and immediately said: “Everyone believe me, everything is under my control!
It’s just that I still need a while! But I can guarantee the least casualties! Try not to harm the vitality of
any country!”
“Really, everything is under my control! Anyone who knows me knows that I don’t fight unprepared!”
…
When Levi Garrison said so, many people got loose.
There are not a few people who have dealt with Levi Garrison, and many of them really know Levi
Garrison.
Hearing him say this, one by one hesitated.
Believe it or not Levi Garrison?
What if he really has a way?
If he rashly pulls his position as commander-in-chief.
Then the loss can be huge.
“I don’t care if you have a way? I want to ask if you can defend the eleventh line of defense and the
seven nations behind you?”
Someone asked directly.
He doesn’t care about so much!
Don’t talk so much!
Who can’t speak big words!
Whether it can solve the current dilemma is the first!
When these words came out, everyone stared at Levi Garrison.
As long as his plan can be kept, everyone still believes in him and follows him.
Levi Garrison shook his head: “Sorry, I can’t keep it! I still need a little bit of time!”
“Therefore, the eleventh line of defense and the seven nations behind you will still have to be
abandoned for the time being! But they will be retaken soon!”
The words came out.
Everyone was disappointed.
This kind of crisis.

Everyone can't wait.
This battle must be fought.
The Return of the God of War [The Protector] Chapter 2868
If Levi Garrison avoids the battle like this, everyone can't support it.
The information everyone received was that the Gods Laboratory would be attacked in five or six hours.
In fact, this time is very short.
After all, if the coalition forces are going to take a stand for a battle, it will take time to prepare.
Those super weapons have to be shipped here.
Levi Garrison looked at everyone and smiled and said, "But now, I am the commander in command! You
have to listen if you don't listen to me! Otherwise, the spoiler, just take it!"
As soon as Levi Garrison said this, the audience immediately became confused.
The lieutenants were scared.
Yes!
In any case, Levi Garrison is still in command now, he has the right to be in charge of everything.
It's definitely not good for everyone to go against his will.
"Come on!"
Levi Garrison gave an order, and all his body and soul came.
"Whoever doesn't obey my orders, just lock them up! I am the commander-in-chief, and I have this
right!"
"Yes!!!"
Levi Garrison looked at everyone: "If you listen to me or not, give me a reply!"
Just when everyone hesitated.
Levi Garrison suddenly received a video conference invitation from the headquarters!
The headquarters is Yanlongwei and the institutions of various countries together…
Video conference now.
Levi Garrison realized that something was wrong.
But he still accepted the video conference invitation!In the video, the leaders of all parties are there.
On Daxia's side, Xia Liejun is leading.
"Commander Ye pulls you into the video conference because you want to discuss the proposal to
replace the commander!"

“Now the army of the Kingdom of God is assembled and will attack soon! The coalition forces are now
guarding the most important line of defense, do you still have a way? Do you still want to retreat?”
Xiao Liejun asked on behalf of everyone.
Levi Garrison nodded: “Well, in my plan, I will retreat for the time being! It’s not the time to fight the
kingdom of God!”
“Well, I got it!”
The whole audience was in an uproar over the video, and various voices continued.
Obviously a look of disappointment appeared on everyone’s face.
After being replaced by so many lieutenants, everyone still didn’t believe it and wanted to ask Levi
Garrison personally.
The result is still the same.
There is no good solution to the kingdom of God, or there is no solution at all.
Repeated delays.
Everyone can’t afford it!
“If this is the case, it is recommended to change the coach! Change to a capable one! But for the sake of
fairness and justice! Everyone starts voting!”
“Okay, let’s start now! If you agree to change the coach, please raise your hand!”
“Huh!”
“Huh!”
“Huh!”
...
When the voice fell, the persons in charge of all parties raised their hands one by one.
Except for Xiao Liejun and a few responsible persons who had good acquaintances with Daxia in the
field, most of them raised their hands.
Agree to change the coach!
“The result is obvious! Levi Garrison will no longer be the commander-in-chief! But he can join the think
tank! Become a military division!”
Xiao Liejun announced the result.
“Yeah! Levi Garrison can join the think tank! This is the best for him! I agree!”
“I agree!”

...
Eventually a large number of people agreed that Levi Garrison would join the think tank as a strategist.
It's just that the coach has someone else to choose.
After seeing Levi Garrison being stepped down as the head coach, the lieutenants in the command room
almost cheered.
This is great! ! !
After being removed from the position of coach, Levi Garrison had a calm expression on his face.
When he was notified of the meeting, he had expected it.
Helpless!
It's so helpless!
These idiots!
I don't know how many casualties will be caused next!
The Return of the God of War [The Protector] Chapter 2869
The people in charge at the end of the video began to choose a new coach.
There are six candidates in total.
Still vote the same.
In the end, the Titan War God of War Bear Kingdom was selected as the coach!
He is also the best candidate to put aside Levi Garrison.
The most important thing is that he can play super!
The strength of a body can be called against the sky!
Only has the title of Titan God of War!
Soon the tall, two-meter-long Titan War God brought his troops to here.
The lieutenants began to salute.
The Titan God of War looked at Levi Garrison and said, "Don't be angry with the word "Daxia" side by
side! Next, you will be a member of my think tank! You will be the first military division! I will ask you
about many things, or discuss with you. !"
Levi Garrison smiled: "Then I suggest that you give up the eleventh line of defense, give up the seven
nations behind you, and retreat quickly!"
When the Titan God of War heard this, he laughed directly, and said with an annoyed voice: "It looks like
you are not aware of your mistakes and why you have been replaced!"
After that, the Titan War God no longer paid attention to Levi Garrison.
Instead, he said to the lieutenants: "Tell me to order-all parties of the coalition forces will gather all

combat power, all weapons, all equipment, and all hole cards to the eleventh line of defense at the
fastest speed!"
"We are running out of time left, hurry up! Everything must be deployed before the army of the
Kingdom of God is aggressively attacking!"
"My determination is to fight the kingdom of God on the eleventh line of defense! We have no retreat at
all! We can only fight head-on!!!"
After listening to the order of the Titan War God.
The lieutenants were all excited.
"Commander!"
"Commander!""Fight to the death!"
"Fight to the death!"
...
Everyone raised their fists high and shouted.
These lieutenants are brave and fierce warriors!
They are not afraid of death at all!
I hope to die on the battlefield!
One by one are the howling war wolves…
Levi Garrison's blind retreat made them go crazy.
Feeling that Levi Garrison was too conservative and playing too humiliating, so the complaints against
Levi Garrison grew.
The Titan War God belongs to the kind of bold and direct action.
A few words mobilized everyone.
One by one was convinced by the Titan God of War.
They were all overwhelmed by his charm.
This is the commander they want!
Although there is no direct solution at this moment.
But he can fight to the death!
The Kingdom of God is indeed powerful!
But the coalition forces are so strong!
Who is afraid of whom?
"We will execute it immediately!"
The lieutenants actively prepared one by one.
Before leaving, they all took a deep look at Levi Garrison.
I don't know what the intention is.
Perhaps with a hint of sarcasm: look at others, then look at you!
When the lieutenants told the soldiers about the battle to the death.
The soldiers also exploded.
One by one enthusiasm!

Following Levi Garrison, they were going crazy!
Now you can really do it with a real sword.
Everyone is chanting the title of Titan War God!
All of them are crazy.
Order it.
All parties in the coalition began to send the most elite fighters, weapons and so on.
Daxia is no exception.
I sent all the best and the strongest.
Many weapons were taken out without reservation.
After all, at the moment the coalition was established, everyone agreed with each other and no longer
hid them.
For a time, everything in dozens of countries was transporting to the eleventh line of defense.
The posture is also terrible.
Titan War God still has two tricks, thick and thin.
While analyzing the opponent's lineup, while arranging their own firepower and so on.
He also asked Levi Garrison to pay some attention, such as how to play a local battle, how to defend…
The Return of the God of War [The Protector] Chapter 2870
until now.
Levi Garrison also has no idea.
Can only assist the Titan God of War.
He deployed battle plans one by one, and also inserted the configuration of the Bible organization Maya
Industry and so on.
Doing so is to increase the odds a little and reduce the casualties a little.
Shortly after.
Levi Garrison, together with the think tank and Titan God of War, deployed the battle plan.
As soon as the corresponding soldiers or weapons of the coalition came, they were all placed in the
positions prepared in advance.
After Levi Garrison finished all this, he left.
Although there is no commander position.
But he still has to act.
Although it is not convenient to be the commander-in-chief.
The first step he needs to do is to quickly return to Daxia and ask Yanlongwei Tiance Mansion about
Daxia's two legendary existences.

Confirm authenticity.
...
Not long after Levi Garrison left.
"What? The First Army Division is gone?"
The Titan War God quickly learned this message.
"I think he is afraid of death, right? No matter if he continues to stay on the front line!"
"Well, it's possible! Otherwise, why would he keep retreating when he was the commander-in-chief?"
"Yes! I found out early, every time he ran the fastest! So far, Levi Garrison has never met the Gods Lab
head-on!"
...
Everyone said one after another.
He thought that Levi Garrison was afraid of death and didn't dare to stay on the front line.
The Titan War God sneered: "It doesn't matter! But he does have a set of combat! The four sets of
tactics arranged for us! It is amazing! He is relying on his tactics, and now that the tactics are there, it
doesn't matter if he is there! Anyway! He is not a conductor!"
"Yes, with you in control, we will definitely win!"
The speed of the coalition forces is very fast, and the cards of all parties have come one after another.
And was arranged in the corresponding position by the Titan War God.
Just waiting for the arrival of the army of the Kingdom of God, it's a fight to the death!In the beginning,
everyone heard how powerful the kingdom of God is.
If this battle fails.
Then the whole world will fall.
Everyone actually has a shadow on the kingdom of God.
After all, too strong, too strong.
Levi Garrison and the others have no way at all.
Those who came to support were afraid of the kingdom of God.
But after coming here.
Everyone found that the coalition forces were too strong.
When dozens of countries took out all their hole cards, it was a shocking thing.
There are too many soldiers, weapons and so on.
Especially this time, all parties have spared no effort.
Take out everything that should be taken!
All aspects are estimated to be more than a hundred times the opposite!

Maybe my quality is not as good as yours, but I can make it in quantity!
Seeing the eleventh line of defense strengthened dozens of positions, everyone felt very relieved and
safe.
All of a sudden the fear of the kingdom of God was all over.
All fear comes from lack of firepower.
The current situation is that the firepower is too sufficient.
Sufficiently scary.
The Titans were stunned.
I have never fought such a battle of wealth in my eight lifetimes!
With these, he is not afraid of anything.
He was still wondering – with such a powerful coalition force, what on earth was Levi Garrison afraid of?
Why didn't he put his posture on the ground?
I don't know if the strength of the coalition forces is gathered, this gathering is shocking.
All parties are scared.
I didn't even think it would be so powerful.
Soon the Gods Lab received the message.
Also taken aback by the coalition forces.
"These forces are usually hidden and tucked away, and they are all taken out at a moment of crisis! Now
the opposing coalition is unprecedentedly strong!"
"Especially the position of Levi Garrison's coach has been changed, and he has been replaced by the
Titan God of War of the Bear Kingdom!"
...
Seeing that the strength of the coalition forces is so terrible, all the gods' laboratory was shocked.
This is much stronger than they expected.
"Haha, good thing! Really good thing!"
Mr. X laughed suddenly.
"It's a great thing that Levi Garrison's commander has been replaced! Don't look at Levi Garrison's
retreat all the time, but his small share of harassment has caused us a lot of damage!
The key is that we didn't even see him, so we lost a lot! And I know there are many conspiracies waiting
behind him! Even if we could win in the end, Levi Garrison would definitely suffer a lot. The casualties
are not small! "

His eyes lit up: "We are afraid that the coalition forces will not fight us! We most hope that they will
gather all their strength to fight us! But it has not happened! But at the critical moment, Levi Garrison's
commander was replaced!"
"God helps me too! Lovesky is born warlike! He will definitely fight us at all costs! It's great!"
…
The Return of the God of War [The Protector] Chapter 2871
After learning to change the commander-in-chief, everyone started to laugh.
What they fear is that the coalition forces dare not fight them.
it's good now.
"Our strength is almost gathered, right?"
Mr. X asked.
"Well, it's all here!"
"Okay, waiting for my order to attack! I want to report to the chief priest and ask for their decision!"
…
Both parties are ready.
A big battle is on the horizon.
This battle is the battle of the century!
Rare in the world!
Except for a small number of forces in the Warhawk Nation, they are basically all involved.
the other side.
Levi Garrison quickly came to Daxia and gathered the four heads of Yanlongwei and the marshals of
Tiance Mansion.
"One word side by side, shouldn't you be a military division on the front line? Fighting is about to start
everywhere! Why are you still in the mood to run here?"
Everyone asked curiously.
"I don't need me anymore, I will do my own thing!"
Levi Garrison said.
Everyone looked at him puzzled.
Levi Garrison hurriedly said, "I gathered you all to ask a
question…""Huh? What's the problem?"
"Say it! I'm all curious!"
Everyone looked at Levi Garrison with curiosity on their faces.
"I heard that Daxia has two types of legendary existence? They are above all else! Super powerful!

Powerful enough to make the Lab of the Gods always jealous!"
Levi Garrison looked at the crowd and said, "So do you know the existence of these two types of
legends?"
"this……"
When it comes to this, the leaders of Yanlongwei are all blank.
Obviously they don't know.
After all, these leaders who came from the modern era are still different from those in the ancient
times.
If you don't deliberately go through some archives.
The existence of these two types of legends will definitely not be known.
However, a dignified look flashed across the faces of the Tiance Shenshuai people.
"I should have heard a little about these two types of existence! But not many! Only in legends!"
"It seems to be the pre-Qin qi practitioners, who practice qi training to the ultimate omnipotence! Just
like the gods! But they are all legends, and they don't know much!
But overall, it should be a legend! Not really! Otherwise, it's impossible not to leave any clues for so
long! "
Tiance Shenshuai murmured to himself.
Levi Garrison still believed in such legends.
Otherwise, how would your master explain it?
He should be one level stronger in the world, right?
Is he even one of these two types of existence?
There is no such possibility!
There are still!
The Return of the God of War [The Protector] Chapter 2872
"But the Heavenly Secret Pavilion should know a little more…we can go to the Heavenly Secret Pavilion
and ask!"
Tiance Shenshuai said.
right.
This aspect.
Tianji Pavilion should know a lot.
"Since it's important! We also read the dusty files immediately! See if there are any clues!"
The leaders of Yanlongwei were also willing to help.
Subsequently.

Levi Garrison went straight to Tiance Mansion's Tianji Pavilion with Tiance Superintendent.
Come to inquire about the existence of these two types of Daxia.
Tianji Pavilion heard the question asked by Levi Garrison, and immediately fell into deep thought.
There was no sound for a long time.
This made Levi Garrison stunned.
Obviously Tianji Pavilion knew about it.
"So they are afraid of this! They are also supernatural powers, and they even know this!"
After a while, a voice came from the Tianji Pavilion.
"Speaking of this legend, it has something to do with the secrets guarded by the Baolong clan! But it is
only a legend! But we have checked and there is no connection between them!"
The god commander Tiance was excited: "Ah? Is it related to the Daxia secret guarded by the Baolong
clan?"
"Well, the secret guarded by the Baolong clan exists! It is true that these two types of existing legends
have been hung up! But at the moment we have not found out what the connection is…"
"Is the legend true? Does it exist?"
Levi Garrison asked hurriedly.
A voice came from inside: "Sorry, we don't know! We can't find it either! But according to such a long
inspection, Daxia has not seen these two types of traces!"
"The result we gave is that these two types of existence are limited to legends! The truth does not
exist!"
"Or put it this way! It is impossible to tell that these two types of existence are not legends based on the
ability of Tianji Pavilion! Therefore, we conclude that they do not exist!"
Hear here.
Tiance Shenshuai looked disappointed.
Tianji Pavilion said so.
That's probably not there.
Sure enough, the legend is the legend!
And the Lab of the Gods couldn't determine whether it existed, so it seemed that it probably didn't exist
anymore.

The Tianji Pavilion and the Lab of the Gods are both unable to judge, so can anyone in the world be able
to judge?
No!
They all say there is no, that means there is no!
Then you have to rely on yourself.
He can start from this aspect to force out the main divine division.
Levi Garrison was already thinking about how to deal with the plan of the chief priest.
"Before I leave, I would like to ask what the existence of these two types of legends is? This should tell
me!"
The Return of the God of War [The Protector] Chapter 2873
Levi Garrison asked.
Even Tiance Shenshuai looked curiously.
He has only heard about the pre-Qin qimen.
He didn't know what it was.
"The existence of these two types of legends, in fact, we have also looked for. One is the Heavenly
Master's Mansion, and the legend is a group of heavenly masters with magic spells!
One is the Summoner. According to the legend, they are all pre-Qin Qi practitioners, and they are also
regarded as foreigners! "
Levi Garrison and Tiance Shenshuai were shocked.
"There is no specific information or something!"
Levi Garrison continued to inquire.
I saw an ancient book flying out of the Tianji Pavilion.
Levi Garrison opened it, and it was full of legends.
Tianji Pavilion didn't mention it any more.
Obviously it is a legend, which has not been verified.
After Levi Garrison took it down, he could only leave.
He actually didn't believe it.
And all the textual researches are legends.
The only point is his master.
Where does the master of magical power come from?
"What are you going to do next?"
Tiance asked the superintendent.
Levi Garrison looked solemn, and said, "The main divine dignity has always been whether the Heavenly
Master's Mansion and the Sword Demon Division exist or not! They have been forbearing and storing

their strength.
I even heard that all the power of the original Gods Laboratory was waiting for the Heavenly Master's
Mansion and the Summon Division… They only wanted Leviathan to attack Daxia! "
The superintendent Tiance probably understood what Levi Garrison meant.
"So you are going to use the Heavenly Master Mansion and the Summon Division to lead the main divine
division?"
Tiance asked the superintendent.
"Yes, it's wrong, so I must first determine what the two types of existence in the legend are, so that I can
make corresponding countermeasures!"
"Even if it is in the legend, then we have to act like the legend, so that it can attract the main god."
Levi Garrison said.
"Understood, so you and Tianji Pavilion have to be more specific so that you can dress them up!"
"but……"
Tiance Shenshuai hesitated.
"But to play the legendary Heavenly Master's Mansion and the Town Demon Division, apart from the
similar appearance in all aspects, I am afraid we have to be able to keep up? Even if we are collectively
strengthened now, we can still be far from meeting this requirement. !"
The meaning of Tiance Shenshuai is very simple.
There is no one under Levi Garrison who can play the role of the Heavenly Master's Mansion and the
Suppressor.
It's easy to detect.
Levi Garrison smiled: "Don't worry! You don't need to take action! I have my own arrangements!"
The variants on the 13th and the Four King Kong can come in handy at this time.
And Huoyun Cthulhu can also be used.
These temporary Tianshifu and Zhenmosi are completely unproblematic.
And Levi Garrison thought of a good point? to attract them.
It is the undersea base planned by Atlantis.
This area is an extremely mysterious existence to the Lab of the Gods.
They even imagined that this place had something to do with the Heavenly Master's Mansion and the

Devil Division.
Levi Garrison will use their psychology next to attract the chief priest.
The first thing Levi Garrison has to do now is to gather his super powers together.
"Don't be idle, go ahead and help!"
"The other one, pay special attention to the war Eagle Nation. I'm afraid they will take the opportunity
to act at this time!"
Levi Garrison made Tiance Shenshuai stare more at War Eagle Nation.
At this time, the War Eagle Nation still had no movement, which was extremely terrifying.
It and its little brothers remained on their feet and did not join the coalition forces.
It may just be waiting for the coalition forces and the kingdom of God to lose both.
Their strength is still unknown.
The Return of the God of War [The Protector] Chapter 2874
This was something that Levi Garrison was afraid of.
So I have to guard against.
now.
All coalition forces on the eleventh line of defense have been deployed.
The Titan War God took a group of lieutenants and stood on a high place to watch, waiting for the war
to begin.
"I really want to directly lead the army to crush it!"Because the coalition forces are too strong.
So that everyone was very energetic, and no one paid attention to it.
Even if the opposite is the laboratory of the gods.
I was scared at first.
But when everything came together, everyone swelled.
"Yeah, instead of waiting for defense here! How about proactively attacking?"
At this time a lieutenant suggested.
"Yes, there is no active attack in the combat plan brought out by the military division! This shows that
the active attack is beyond all expectations! The Kingdom of God would not think that we dare to
attack!"
"Yeah! We take the initiative and we will definitely catch them by surprise!"
...
The lieutenants were all excited.

I think this path is feasible.
The key is that it hasn't appeared before.
When the Titan War God heard this, he felt very reasonable.
I have never thought about taking the initiative to attack, can the other side ever think about it?
No!
"However, all units of the coalition are now deployed in corresponding positions. If they are mobilized,
they will be easily spotted!"
Someone asked a question.
"That's it, I personally take the pro-military and reserve team!"
The Titan God of War is ready to personally lead troops to attack.
This shocked the lieutenants.
Levi Garrison is coming to Bibi?
Can it be compared?
One will only retreat, for fear of encountering the enemy head-on.
The one who took the lead must be the first to rush up.
Incomparable!
"Well, we are willing to follow the commander in repelling the kingdom of God!"
The lieutenants began to express their views.
soon.
The Titan War God secretly assembled his own guards and one-third of the rear reserve team without
notifying the various ministries.
Walking quietly to the sea ahead.
After half an hour.
After a flare was launched.
The army led by the Titan War God actually launched a fierce attack on the Kingdom of God.
"Rumble…"
…
I was confused for a while.
The coalition positions were dumbfounded.
Who is this?
If he didn't defend well, he took the initiative to attack?
The kingdom of God is also dumbfounded.
what happened?
Take the initiative to attack again?
Indeed, this move was beyond their expectations.
The first time Levi Garrison took the initiative to attack, they shocked them, come again?

One by one is crazy!
Don't you really put the kingdom of God in your eyes?
Because it was unexpected, this wave of attacks by the Titan War God did cause a lot of casualties to the
kingdom of God.
The coalition positions are cheering everywhere!
They shouted the prestige of the Titan Commander!
The Titan God of War is too fierce, not only has to put up a posture to fight to the death.
Also take the initiative!
You have to have such a bright sword spirit!
The brave wins when we meet on a narrow road!
They all said that Levi Garrison lacked this courage!
Not as good as the Titan God of War!
"It's so cool! I have been squeezed and held back, and this breath has finally vented!"
The Return of the God of War [The Protector] Chapter 2875
Following the lieutenants of the Titan War God shouted one by one.
Following Levi Garrison, it was indeed suffocated by them.
All are waiting for this moment to vent.
"Haha, you are the most suitable commander position! Levi Garrison does not have this ability at all!"
"If you can't find a solution, then go to the kingdom of God! Defeat it from the front!"
...
Everyone is getting more and more excited.
The kingdom of God is becoming less and less important.
Regarding Levi Garrison's instructions to them, he had long been forgotten.
I have to say that Levi Garrison is too timid and too conservative.
Don't dare at all.
Now they not only fought, but also took the initiative to attack.
It also had a miraculous effect.
The Titan War God even raised his arms: "All press on!!! Don't give them any chance to breathe!"
The weapons were bombarded in turn.
The army behind was all overwhelmed.
The momentum of eating away the kingdom of God with a sigh of relief...
Excited!
Everyone is extremely excited!
Especially the coalition forces in the rear position can't wait to kill them too, they are waiting for orders!

At this time, the laboratory of the gods.
Mr. X was full of anger: "How can you repeatedly provoke the Kingdom of God? Attack! In thirty
seconds, I want everyone in front of me to disappear!""Without some real strength, do these people
really treat us as soft persimmons?"
Being despised once again made everyone in the Gods Lab angry.
One by one is going to explode.
Ready to use the real weapon hole cards!
"clear!!!"
When Mr. X gave the order, all parties immediately prepared.
In the Kingdom of God, five giant flying ships, similar to aerospace aircraft carriers, drove to the
forefront.
This huge flying ship is too big.
One boat can top a small town!
Five huge flying ships blocked the front, almost occupying this sea area.
Seeing the huge flying ship covering the sky, the Titans and the gods became more excited.
"Come on! The front is their base camp! If we capture here, we will be half the battle!"
"Let the rear army be ready at all times and listen to my orders to attack!"
The Titans and the Gods of War became more and more excited.
The soldiers who rushed ahead were even more crazy.
For fear of being one step behind.
One runs faster than one!
At this moment, the five huge flying ships suddenly shrank and opened layer by layer, and launching
devices came out from inside.
The launch ports are densely packed, and thousands of them are arranged together.
This is only one ship, the launch ports of five ships are arranged together, there are almost 100,000
launch ports.
"emission!!!"
Give an order.
Terrible red energy beams are ejected from one hundred thousand weapon launch ports!
Instantly swallowed all the places in the sea ahead.
As if the world was shrouded in red light beams.
It is overwhelming and dense, leaving no gaps.

It's the bombardment that covers indiscriminately.
And this red energy beam is dozens of times stronger than the previous Leviathan carried and launched.
After all, Leviathan can't drive such a strong energy beam, or its body can't bear it, and its energy core
can't hold so much energy.
But now the flying giant ship can!
The energy beam of Leviathan was unimaginable before!
Now this red energy beam is dozens of times stronger…
Whether it is the body of the strong, or weapons and equipment, or defensive equipment, such as
shields.
As long as the red light beam smashes and disappears immediately, it can't stop it at all!
What's more, the five giant flying ships have 100,000 launch ports, covering any position in the sea
ahead.
*"S*it!"*
*"S*it!"*
*"S*it!"*
…
Soon, the attacking army in front encountered a red beam.
But in an instant, everyone disappeared.
The moment I touched the red light beam, my body shattered and disappeared…
Shocked!
It was shocking!
Almost 200,000 people all shattered and disappeared at the same time.
He also brought weapons and equipment, as well as a ship and so on.
All the objects in the sea ahead are shattered and disappeared…
The energy of the red beam is too strong, contains the extreme high temperature, and instantly melts
and destroys everything.
Senseless!
Completely confused!
The most shocking was the commanders such as the Titans and the God of War.
They commanded the advance on a giant aircraft carrier in the rear.
But in an instant, the army in front disappeared collectively.
It's something in the blink of an eye.
A red light suddenly appeared, and everything in front was shattered and disappeared.

They witnessed all this with their own eyes.
Shocked!
It was shocking!
The Return of the God of War [The Protector] Chapter 2876
Leave an indelible scene in everyone's mind!
Is this the true power of the kingdom of God?
Don't know why?
Suddenly, everyone thought of Levi Garrison's advice.
You must stick to it, don't take the initiative to attack, and don't underestimate the enemy.
Can't beat it and retreat immediately.
Detecting the signs of something wrong, immediately retreat…
The Lab of the Gods is stronger than anyone thought.
Everything they showed before was tentative strength, not real strength.
But it's not serious!
After having absolute power, who would be afraid of the kingdom of God?
But at this moment…
Everyone is numb…
The real strength of the Lab of the Gods is here…Confused!
A moment ago, I was still clamoring to take it, but in the next moment everyone was gone.
It's alive and disappeared from the eyes!
This shocking scene is the first time everyone has seen it.
Obviously so many people died at once!
But it is not bloody!
Not bloody at all!
Because no blood was seen, no screams were heard, the bombed body was shattered, and the limbs
were not separated.
They just disappeared instantly after touching the red beam.
This is Tongtian's method!
Just erase all traces!
If it is used on a civilization, it is estimated that it will be destroyed in an instant.
…
It took more than thirty seconds before and after, and all obstacles in front of him disappeared and
cleared.
Mr. X's brows eased a little.
Everyone in the laboratory of the gods regained their coldness.
In their eyes, ordinary humans will have no good end to challenge God.
"Full offensive!!!"

The army of the Kingdom of God began to attack.
At the forefront are five giant flying ships, directly pressing up.
Behind it is the main force of the Kingdom of God, various advanced warship weapons and so on.
They attacked with everything.
This is the end of repeated provocations and contempt of them.
At this time, the Lab of the Gods no longer needs to be tested.
The opponent put on a posture to fight to the death.
It's time for them to show all their hole cards.
…
Rumble!
The entire sea area began to boil, and the sky began to tremble.
Seeing the surging army of the Kingdom of God, the Titans and the God of War panicked.
Every leg was shaking.
After all, the terrible scenes just now were seen by everyone.
"Boom boom boom…"
The red beam continues to fire, clearing all obstacles in front of you.
As long as everything in the range will be shattered and disappeared.
The several frigates in front of the aircraft carrier where the Titans were all hit.
Shattered and disappeared on the spot.
The other screens were smashed.
Nothing is left.
The Titans were even more panicked.
These were all his personal guards, as well as the reserve team, which disappeared in such an instant.
The loss is too great!
Everyone's legs are softer.
"withdraw!"
"Quickly retreat!"
The Titan God of War was scared into a cold sweat, and was about to run away immediately.
At this time, they probably understood why Levi Garrison avoided fighting. This was too strong.
It's a loss if you hit it.
The Return of the God of War [The Protector] Chapter 2877
And can't hurt the other party the slightest!
"Fight back while retreating!"
"Let the rear meet us and escape!"
The Titan God of War personally commanded and attacked the five giant spaceships behind.

All within range.
Various weapons take turns in battle.
But it does not cause substantial damage to the giant spaceship!
I don't know what material it is, the weapons are pouring on the surface of the spacecraft, like a punch
on cotton.
The aircraft carrier where the Titan Ares was evacuated quickly.
The surrounding frigates have been covering, in order to make them evacuate.
If the coach is destroyed at the beginning of this battle, how can we fight in the future?
Must desperately cover the evacuation of the Titans.
A frigate was smashed.
The Titans and the God of War looked in their eyes, each of them had their eyes open and they were
about to cry.
But there is no way!
I can only watch my guards die one by one!
Reckless!
Everything is too reckless!
The Titan God of War knew that he had to take the main responsibility for this matter!
The few lieutenants who offered to take the initiative to attack also lowered their heads and said
nothing.
Because of their cleverness, they paid such a heavy price!
They are all to blame!
Under the cover of the cost of death by all parties, they soon encountered the supporting team.
The Titans and War Gods finally got out of danger and temporarily came to the battlefield.
At this moment, the coalition forces in the entire position already knew the situation ahead.
Everyone looks numb and loses energy…Obviously, so many people, weapons and equipment were
dispatched at once.
They all disappeared.
Was beaten instantly.
How powerful is the kingdom of God?
Moreover, when the parties stationed in the position saw the Titan God of War and a group of
lieutenants, they were all trembling.

Some people even pee their pants in fright.
These commanders didn't even say a word.
See these.
Everyone understands.
The more so, it just shows how dangerous the front is.
Although everyone in the rear position hadn't seen it with their own eyes.
Seeing all this, I understand.
More serious than they thought!
"Think about it now that Junshi Ye is not afraid. He said earlier that the Lab of the Gods is super
powerful, much stronger than we thought! Let us avoid as we can, and try to harass! Don't attack
directly!"
"It seems that what he said is right! His retreat and harassment plan is also based on this! He knows the
power of the Lab of the Gods better than we do!"
"He is just thinking of a way to be more sure! If he is sure, can he not fight?"
…
Only then did a group of people realize how powerful Levi Garrison was.
It seems to retreat, but it is actually protecting everyone from sacrifice.
"If Levi Garrison is given time, maybe he can think of a good way!"
Many people began to miss Levi Garrison.
Only after hearing that Levi Garrison had devised several combat plans, he left.
I don't know where it went.
Why are they not like the Titans?
It's really wrong to blame Levi Garrison for coming!
Even after Levi Garrison was demoted to a military division, he deliberately discouraged them, not to
confront them head-on! Don't go head-to-head, you will die miserably!
Everyone didn't take Levi Garrison's advice on the spot.
The Return of the God of War [The Protector] Chapter 2878
Only now did they understand to underestimate the enemy.
Even if the coalition forces put out such a big battle.
The Kingdom of God is still powerful and invincible!
Many weapons and equipment have never been seen before!
You can't be brave!
Go up all dead.
What's the use of being brave?
Just the red beam coming, who can stop it?
Isn't it all going to die?

You think all the coalition forces are strong, but they are even stronger. Underestimate the enemy!
Still not listening to Levi Garrison's dissuasion!
"You have to cheer up, otherwise what will all the soldiers in the rear think if you see this look of yours?"
"And the enemy is coming right away! As commanders, you must start to command!"
The evil gods who were left here by Levi Garrison began to persuade them.
Soon, the Titan War God reacted immediately.
"Everyone is working hard! A fierce battle is coming! I won't lie to you! The enemy is very powerful,
even stronger than we thought!"
"Many of us will sacrifice! Even the entire army will be wiped out, and no one will be able to go out!"
"But behind us, is the land we guard, where are our family, love, and friends! We must fight this battle!
We will win with all our best!"
…
The Titan God of War still has the temperament of a leader and commander.
A few words infected the audience.
All the soldiers walked out of the haze, and started yelling one by one.
Fear that fear is already there.
Only the determination to fight to the death!
"However, we have to change our plan too! We can't go head-to-head, their weapons are too powerful.
We can't sacrifice in vain! We have to find a way!"
"Fortunately, the military divisions of our think tank have prepared four combat plans in advance! This
situation is also predicted!"
"Then all parties began to follow my instructions and act!"
The Titan War God ordered.
In fact, these four sets of plans did not take them seriously at the beginning.
After all, the Titan God of War is known for his toughness, and his battle must be a head-to-head
confrontation!
These four methods are equivalent to being abandoned…But now these four abandoned plans have
been picked up by him, and they have become life-saving magic weapons.
Not to mention that the implementation of these four plans will win.

But they won't lose so fast, they have time to continue to deploy and find the direction to win.
"Understand! We will execute it immediately!"
Soon, the Titan God of War came up with Levi Garrison's first plan.
Sure enough, he had anticipated what the enemy would do if he had such an indestructible weapon?
What if they use this invincible weapon to crush it all the way?
Isn't this problem exactly the same as the one you just encountered?
Is the kingdom of God now swept and crushed everything with the beam weapons of five giant
spaceships?
How can this be done?
The Titan War God and a group of lieutenants couldn't think of any way.
I was scared to pee my pants just now.
Faced with this situation at a loss!
But Levi Garrison's first plan has the answer.
He thought about this issue early on.
Incidentally, if the Lab of the Gods still attacked by a giant like Leviathan, how should we deal with it?
Naturally, it will not be a fight with a real sword.
That way, there are not enough people.
The Return of the God of War [The Protector] Chapter 2879
The Titan War God immediately deployed according to Levi Garrison's plan.
In the shortest time, everything will be deployed.
"Now go and bring me Junshi Ye back! Say I need him! Everyone needs him!"
The Titan War God shouted.
In the command room, a group of lieutenants bowed their heads.
In order to force Levi Garrison away, they did nothing to change the commander in command.
They felt that they were about to win if Levi Garrison was forced away.
Where to know.
Now is the moment when he is most needed!
I want to invite him back again!
Everyone looked ashamed and couldn't wait to find a place to get in.
The soldiers are the same.
Before, I felt that Levi Garrison was timid and fearful, even the enemy dared not encounter it head-on.
Only now did I understand his good intentions.
It's like Levi Garrison's own words are wrong.
He wants to reduce casualties!

Win the victory with the least loss!
“Rumble…”
In the waves of tsunami in the mountains.
The army of the Kingdom of God has been suppressed.
The five huge flying ships almost obscured the sky, making the sky dark all of a sudden.
Seeing the giant flying ship not far away from their respective positions, they were all shocked.
I know what kind of existence I am facing…
The eleventh line of defense has a natural advantage, with endless mountains on both sides and the sea
in between.
Only two giant flying ships can pass.
If the five huge flying ships go hand in hand, they will not be able to pass.
This is a natural barrier.
At this moment, on the first position ahead, the Titan God of War had deployed everything according to
Levi Garrison’s first plan.
Just wait for the army of the Kingdom of God to fight to the death.
Seeing the flying giant ship within range, the Titan War God immediately ordered.
“Boom boom boom…”
Numerous formidable weapons began to launch indiscriminate, covering bombardments on the flying
giant ship.
The secret weapons of various countries are used.
Many of them don’t even know about the Lab of the Gods…
The number of systems that fire weapons is around 200,000.
That scene is called a shock! ! !
It is almost to destroy everything!
“boom!”
“boom!”
“boom!”
…
When hitting a huge flying ship, most of the weapons are simply not useful!
But some secret weapons, or tricky weapons, are still useful for flying giant ships.
Damage to the hull.
If this continues, even the main body of the flying giant will be hurt.
Angry!
Completely angry!

“Destroy them! Destroy everything ahead!”
The Gods Lab immediately fought back.
The weapon launch ports on the five huge flying ships were all exposed, with a total of 100,000 weapon
launch ports.
“Boom boom boom…”
Initiate the most violent destruction to the front position for the first time!
The red light beam is directly flooded like a flame…
*In the command room, the Titans and the Gods of War cheered: “f*cked! They are fooled!”The Titan*
War God and a group of lieutenants shouted.
The command room was boiling.
The rear is also boiling.
Because the Lab of the Gods was fooled!
There is no other reason.
The front positions that are now bombarded by the five giant flying ships of the Gods Lab are simply
false positions!
This is the battle plan that Levi Garrison has set in advance!
How to deal with this invincible weapon?
It’s definitely not good to play head-on!
Have to think about it!
The Return of the God of War [The Protector] Chapter 2880
The weapons of the Lab of the Gods are powerful, but its ammunition is not unlimited, right?
It will always be used up, right?
Even new weapons use energy beams, but this kind of resource is even rarer.
Absolutely not unlimited supply!
When it’s definitely used up!
Levi Garrison’s expectation was wrong.
All weapons are not infinite!
But it will not be used up for the time being.
So this plan of Levi Garrison is how to finish the enemy’s weapons?
It is to continuously consume the weapon firepower of the Gods Lab!
In layman’s terms, it’s a lie!
Similar to the grass boat borrowing arrows!
It is to fool out all the firepower of the Gods Lab!
Therefore, Levi Garrison’s plan is to construct a false position!
The layout of the position is fake!
Soldiers, weapons, and various equipment are fake, and many of them are drawn on cardboard to make

up the number.
Many large weapons, etc. are also cut out of paper shells and painted with colors.
From a distance, it looks exactly like the real thing.
If you don't look closely, you can't tell it at all.
Of course, in order to prevent the opposite technical scan.
After all, with such a strong high-tech in the Lab of the Gods, a random scan will reveal that the positions
are fake and the people are fake.
But for this situation, Levi Garrison was also prepared to let the Titan War God launch a super fierce
attack.
In one fell swoop, the Lab of the Gods was angered, no matter what the three seven twenty one, first
destroy the opposing position.
I was so angry that I just wanted to destroy everything in front of me.
Therefore, the first round of the attack launched by the Titans is at all costs!
Can beat the lab of the gods to anger!
Sure enough, it worked.
The Lab of the Gods was angered.
Regardless of the three seven twenty one, destroy the front position first!
Let the other party know the cruelty of the Lab of the Gods!
Therefore, the 100,000 weapon launch ports of the flying giant ship have unlimited firepower!
Compared with the previous attack that defeated the Titan War God, the firepower was more than
dozens of times stronger.
The terrifying red beam turned directly in front of it into a sea of red light.
Everything in kind was shattered and disappeared immediately.
Even the sea water has evaporated one ton after another.
It really means erasing all traces!
What if you want to erase a civilization and a country?
We must rely on this weapon.
Erase everything instantly!
No trace will be left!
Therefore, within a few tens of seconds, the formed position was completely destroyed.
Nothing!
However, the Lab of the Gods never thought that this turned out to be fake!
Half of it is cut out of cardboard.

However, whether it is true or false, the red light beam disappears instantly.
The result is the same!
However, this time used dozens of times more energy than before!
“Report! Stars 1 to 5 have 60% energy left!”
The captains of the big flying giants report to Mr. X.
“Enough, sixty percent! Enough to flatten this place!”
Mr. X looked confident.
“Keep going!”
The Return of the God of War [The Protector] Chapter 2881
After clearing the obstacles, the flying giant ship moved on.
Facing the narrow strait ahead.
Flying giant ships still go hand in hand!
Did not line up one by one.
…
Seeing the giant flying ship press up.
Everyone awoke from the brief excitement.
“What to do? They are here! Although the fake position has consumed a wave! But it is not enough to consume all!”
Everyone is waiting for follow-up.The Titan God of War is calm:
“Continue to implement the plan!!!”
“emission!!!”
He gave an order, and suddenly tens of thousands of cannons fired from the endless mountains on both sides of the strait.
The hundreds of thousands of weapons placed here were launched at the same time…
A terrible attack on the mountains on both sides! ! !
Fortunately, the coalition forces are strong, with a lot of materials and equipment, so they can arrange everything.
Can rest assured to splurge boldly!
“Boom boom boom…”
The firepower this time is obviously ten times stronger than the offensive of the coalition forces just now!
“哢嚓!”
The flying giant ship is not invincible, it can only be said that the firepower can be blocked.

But there are some secret weapons that can be hurt by attacking fortified weapons.
Cause no small damage to the flying giant ship!
Even some are substantial damage!
This annoys the Lab of the Gods!
They are the kingdom of God!
All are gods!
These ordinary humans can actually hurt them!
This is a great shame!
"Mr. X, the group of monkeys relying on the advantage of the terrain to bombard us indiscriminately!
Both the Star No. 1 and No. 5 have been damaged!"
"Moreover, the entrance to the strait is limited, so it is impossible for the five Stars to pass through
together! What do you think we do now?"
At this time, the five captains of the Stars successively asked what to do.
Mr. X looked at the terrain of the mountains ahead, and he sneered:
"Since they have a geographical
advantage! Then we will blow them up!"
"Um?"
Everyone was taken aback.
I don't understand what Mr. X means.
"What I mean is very simple! Raze the mountains on both sides of the front directly to the ground!
Push all the front flat! The Star does not need to fly over, I want to watch the five Stars go hand in hand
and smash them directly!"
After hearing what Mr. X said, everyone gasped.
This posture is to directly flatten the mountains on both sides of the front, to the ground! ! !
Looking at the endless, towering mountains on both sides of the front.
Even the gods in the laboratory of the gods couldn't help but swallow!
This is too shocking!
The mountains on both sides have been razed to the ground. How much effort would it take?
So simple and rude?
Level the mountains on both sides directly?
Everyone can't even think about it!
But this is an order!
Can only be executed!
"Command-level the mountains ahead! Raze to the ground!"
After this order came out.

“Buzzing…”
Five huge flying ships gather energy.
“Boom!”
“Boom!”
“Boom!”
…
One hundred thousand weapon launch ports ejected red light beams, aiming at the mountains on both
sides for destruction.
The scene is simply terrible! ! !
*“f*cked! They are fooled again!”*
Cheers in the coalition command room.
The weapons placed in the mountains on both sides are fully automatic and unmanned, and no one
exists.
This is also one of Levi Garrison’s plans.
When encountering such invincible attack weapons, they can only attract firepower to the mountains on
both sides.
Enraged them and vented the fire on the mountains on both sides.
Levi Garrison knew very well the arrogance of the Lab of the Gods and knew that they would definitely
attack the mountains.
It will flatten the mountains on both sides!
So this plan was also successful…
The Return of the God of War [The Protector] Chapter 2882
And he knew he would be flattened.
Therefore, they have been avoiding and not fighting.
Everyone looked excited when they saw the gods in the laboratory bombarding the mountains on both
sides.
But gradually, the excitement on his face faded.
The expression freezes, and his face is puzzled.
Then it turned into shock and incredible…
It turned out to be under the continuous bombardment of five flying giant ships.
The red beam flooded the mountains on both sides.
To the naked eye, the mountains on both sides are being destroyed little by little.
The height keeps decreasing…
The towering and endless mountains on both sides gradually disappeared, and everyone was shocked.

The eyes are full of disbelief.
this……
this……I thought the enemy had been fooled!
Attracted the firepower!
Go to hit the mountains on both sides!
But what kind of weapon is this special?
Even the mountains on both sides have been flattened…
this……
It was shocking!
Unbelievable!
This weapon flattened such a long and high mountain…
powerful!
It's really too strong!
The weapons of the kingdom of God are terrible!
"Rumble…"
In the earth-shaking shock, the mountains on both sides were really flattened.
There was an open space in front of him.
Even the sea water directly hit the past and turned into the sea…
unimaginable!
Simply let the world worship!
They kind of understand why they call themselves gods!
Seeing that the mountains were leveled up and down in the laboratory of the gods, all of them were
excited.
"This is the power of God! It can destroy the world! It can create the world!"
This absolute power brings them full confidence.
Let them have the majesty of God again!
"Although the mountains have been flattened, only 10% of the energy of the Star is left! It can only be
used as transportation and defense! Cannot attack!"
Several captains of the Star could not help but say.
Although it was shocking to flatten the mountains on both sides, the energy loss was too serious.
Half of the energy was lost this time!
As a result, the flying giant can no longer attack.
"Nothing! The effect of the Star Attack is here! Originally, we didn't rely on the Star Attack!"
Mr. X has a calm face.
"Next attack! We will break this line of defense!"
The five stars stopped.

Countless powerful and equipped weapons came out from it.
Attack the front position.
…
the other side.
When seeing the five giant flying ships stop and some other flying vehicles move to the front.
Titan War God and the others already understood that Levi Garrison's tactical plan had already achieved
miraculous effects.
All the weapons of these five giant spaceships were consumed.
This is success.
On their side, except for some weapons and equipment.
There is no extra loss at all!
In particular, there is no loss in the false position.
One is cut out of cardboard…
If the laboratory of the gods knew it, it would be alive and well.
Dummy fake weapons cut out of cardboard paper shells fooled them so much weapon energy?
"Brothers! We have to go on it personally next! The positive encounter is still coming!"
"But I have arranged it in accordance with the tactical plan ahead of time! I won't start the fight blindly!"
…
The Titan God of War began to mobilize before the war, telling everyone to fight to the death.
The battle before him is extremely fierce.
"Start to meet the enemy!!!"
The Titan War God opened his posture to meet the enemy.
At this moment, the army of the Kingdom of God also came up.
The strong from both sides met in front and began to fight.
All kinds of weapons fired together to start the counterattack.
A war of the century has finally begun…
The Return of the God of War [The Protector] Chapter 2883
Killed so dimly, the sun and the moon reversed, and the blood flowed into rivers.
powerful!
The Kingdom of God is really strong here!
Whether it is weapons and equipment or the strength of the strong!
Better than the coalition forces here!
However, the coalition depends on the number of people, the number of weapons and equipment, and
the use of various tactics.

Hold on tightly! ! !
The two sides met head-on for only an hour…
The coalition forces suffered heavy losses to the extreme.
The number of casualties is hundreds of times the opposite.
In other words, hundreds of weapons and people may be lost in exchange for the opposite one!
It's too miserable and miserable.
Fortunately, the coalition forces are united by nearly a hundred forces, and they are extremely sufficient
in all aspects.
And aware of the severe situation, all parties continue to provide assistance.
All countries have brought out real combat power and secret weapons.
Take Daxia's side, for example, he took out the Tiance Mansion.
To block the opponent here!
Now it looks like the loss is big.
But someone constantly added…This is the benefit of large numbers!
No matter how strong the kingdom of God is!
It takes a long, long time to kill these people!
Therefore, ignore the heavy damage to the coalition in the first hour.
But on the basis of a large number, it is not worth mentioning.
They can hold it!
Coupled with the use of various tactics by Titan Ares, we strive to reduce casualties and maximize
results.
So the longer you hold it!
At least after taking a posture, he can deal with the kingdom of God.
…
"Kill! Kill me!!!"
Seeing obstacles in front of him, Mr. X personally commanded and stepped up the attack.
Want to break here as soon as possible!
He didn't want to be blamed by the main god.
The reckless attacks of the Kingdom of God have gradually increased the losses of the coalition forces.
Seven of the 37 positions that Titan War God arranged on the eleventh line of defense have already lost
seven positions.
It is still gradually increasing.
The Kingdom of God is too strong after all!
While the Titans are organizing the defense of the coalition forces, while organizing the death squad to

regain the position.
The death squads have adopted the method of dying with the power of the kingdom of God…
awful!
That's horrible!
The coalition is extremely miserable here!
It can't stop the powerful offensive of the Kingdom of God!
The strong of the kingdom of God is really as powerful as a god!
There is no better way for the coalition besides the crowded tactics.
Their super powers cannot compete with the gods powers at all.
Before the absolutely powerful power of the Kingdom of God, it was a miracle to be able to hold it all
the time.
…
Although the coalition is strong.
But hidden dangers pervade the hearts of everyone in the Titan God of War!
They understand!
There is no way to solve the problem if it continues like this.
Regardless of the number of people and weapons, it is actually delaying time!
To put it bluntly, it's all cannon fodder!
No matter how much the number is, there will be the moment of lighting up!
The Kingdom of God is too strong.
It's a completely crushing posture! ! !
"Finally understand why Levi Garrison didn't fight before! Even the opponent's vanguard team didn't
fight! There's a reason! The Kingdom of God is too powerful to be able to fight!"
"How many people are sent to death! There is no way to solve any problems!"
The Return of the God of War [The Protector] Chapter 2884
"Therefore, Levi Garrison just retreated from the war, and didn't reveal his strength!"
"What's the point of holding on like this now? What's the point of fighting to the death? Winning is easy
to say, but losing?"
"In fact, Levi Garrison's initial plan was to think about how to win, so that it would be like this! He
warned us very early that the kingdom of God is very powerful and cannot be won! Construct multiple

lines of defense!"
…
The more this is the time, the more people miss Levi Garrison.
Seeing that the defeat was set, the eleventh line of defense was simply unstoppable.
If this battle is defeated, what will be the outcome?
Following Levi Garrison's words, although he had to retreat and make more space, it was at least safe.
The situation can still be controlled, he might have thought of a way.
But now it's different!
After all, after fighting against the Kingdom of God, there is no future in sight.
The momentum is completely crushed.
No matter how many people there are, it is all cannon fodder, which can only stop delays and cannot
solve the root cause.
"Yes! There is still no message from Army Master Ye? If he is there, maybe there is any way!"
"We can't withdraw even if we want to withdraw in this situation! There is no way out!"
"Yes, if you retreat, the consequences will be even more serious! I can only stare at it abruptly!"
…
The command room was dark.
Everyone is thinking of a way.
Can't think of it at all!
The Titan God of War also had a gloomy face, his own violent and invincible tactics were useless at all.
The two sides are not at the same level at all.
Head-to-head equals death…
"What to do? What to do?"
…
Everyone is so nervous that they are sweating!
But there is no way.
The loss is getting bigger and bigger.
The offensive of the Kingdom of God became more and more fierce, and more and more positions were
lost.
…
And on the other side.
The faction of the War Eagle Nation has been paying attention since the start of this war.

“The situation is clearly one-sided, what should we do?”
Agent Black Hawk asked.
Wrong!
The third-party influence on the battle situation is the faction of the war eagle country.
It may even be the decisive factor.
It made Levi Garrison jealous, and also made the Lab of the Gods jealous.
Mr. X has never dared to expose all his powers. On the one hand, he is afraid of Daxia’s Heavenly
Master’s Mansion and the Suppressor.
But the other main aspect is the war eagle country!
After negotiations, the War Eagle Nation will not help Daxia, and will not unite with Daxia.
But after all, the Eagle Nation is the enemy of the Lab of the Gods!
If the Lab of the Gods wants to sweep the world, the Eagle Nation must also sweep.
Therefore, the Lab of the Gods is very worried about the problems of the Factions of the Eagle Nation in
the rear.
Especially Mr. X understands that once the war starts, showing his hole cards is equivalent to telling
others the weakness of the Eagle Nation faction.
In this way, the Hawk Nation faction can easily target them!
But before launching a full-scale attack, Mr. X applied to the chief priest for an inquiry.
The Return of the God of War [The Protector] Chapter 2885
The guarantee given by the main gods is that once the war eagle country also participates, they will
solve this problem!
In other words, the main divine division will be dispatched, and will eliminate the sneak attack and
sudden participation in the war from the rear war eagle nation!
Therefore, Mr. X will be relieved.
Use all your power to fight the coalition head-on!
However, the Hawk Nation faction, they have been watching the direction of the situation…
Now that the kingdom of God is unilaterally crushed, the representatives of the various major factions of
the Warhawk Nation are all ready to move.
Agent Black Hawk and several others said: “Now that the two sides are fighting, it is a good time for us
to enter the arena!”

“If we have to wait for both losers and lose, I’m afraid we can’t wait. The Kingdom of God is too strong.
If we don’t enter the arena again, the world coalition forces will be defeated! When we enter the arena
again, there will be no advantage at all!”
“Yes, now the main force of the world coalition forces is still there! Despite the heavy damage, at least it
has caused some obstacles and damage to the kingdom of God! It is a good time for us to enter!”
…
They analyze a lot.
Now the time of the melee is the best time for the Hawk Nation faction to enter the battlefield.
“Do you want to fight? Head of the game?”
Agent Black Hawk looked at Smith, the head of the bureau.
The head of the game, Smith, and a few men in suits looked at each other.
Although the Black Hawk Agents had never dealt with, they all knew each other.
The high-levels of the Eagle Nation who are no less than Smith.
“We have to discuss it first!”
Smith left.
Leave Smith’s group in the meeting room.
Everyone thought they were going to discuss it. After all, these people can definitely decide whether to
fight or not.
But wherever they wanted to, these people actually went to ask for instructions.
As for whom to ask for, the Black Hawk agents couldn’t guess at all.
do not know either……
“Can’t fight! Now is not the time!”
Soon after, the group returned.
Gives this result.
The Return of the God of War [The Protector] Chapter 2886
The Black Hawk agent noticed something and couldn’t help asking:
“What’s the reason?”
“There is no reason, just follow the order!”
Chief Smith sneered.
“Continue to observe the situation!”
…
The Eagle Nation did not join the warband at this critical juncture.
I don’t know who they asked for instructions, what they asked for, and what orders they gave.

…
The army of the Kingdom of God is raging, sweeping everything with an unrivaled posture.
They rely on their positions and various tactics to resist.
When the biblical organization army and the Baolong clan of Tiance House, and even the Siberian Star,
the strongest abilities of the war bear country, and the famous "Guard of Gods" in Jerusalem, all joined.
Temporarily controlled the situation!
After all, when these super masters come, they can temporarily compete with the powerhouses of the
Kingdom of God.
Especially after the supernatural commander Tiance and Ye Qingtian were strengthened by Levi
Garrison.
It is a huge increase in strength, and coming to the battlefield is to kill the existence of the Quartet!
Even the opposite is the "god" of the kingdom of God!Ye Qingtian and Ye Zhantian's strengths are
basically the same as those of Lucifer.
And Lucifer, these can exist in the upper reaches of the kingdom of God!
Therefore, even though Ye Qingtian and the others are not many in number, a few of them have been
killed indiscriminately after entering the army of the Kingdom of God.
Behind them are the Tiance Mansion, the Bible Organization, the Star of Siberia, and the strong guards
of the gods.
So they led the coalition forces to fight back against the Kingdom of God!
! !
For a while, it caused a big impact on the army of the Kingdom of God!
This boosted the morale of the coalition forces!
I saw hope!
Even the Titan War God himself ended up fighting…
For a time, the coalition forces were like a rainbow, not only holding the position, but also moving
forward…
The faction of the Hawk Nation who was observing the situation on the other side became excited when
they learned of the situation.
Is waiting for now?
Are you going to attack now?
But there is no order!

They have to continue to wait and see!
...
In the Star One behind the Army of the Kingdom of God.
Mr. X is sitting in distress.
Facing the opponent's counterattack, he was not at all anxious.
A smile appeared at the corner of his mouth.
"Finally! Finally the cards of all sides are roughly forced out!"
He smiled.
The Return of the God of War [The Protector] Chapter 2887
Seeing the Star of Siberia, the gods guarding these ultimate powers appeared.
Mr. X knew it was half done.
The ultimate power appeared.
It shows that victory is not far away.
If the two types of legends of Daxia's Town Demon Division and Heavenly Master Mansion existed, it
was about time to come out.
That's why he laughed.
It's completely different from other people's reactions.
"As long as these people are breached, nothing can stop us anymore!"
"To deal with them, I will do it myself!"
Mr. X said coldly.
soon.
He led many masters down from Star One.
It's time to fight back.
He missed the darkness devouring God very much now, if he were there.
Most of the masters in the front had to be swallowed by him.
The four powerhouses of Lucifer were not there, and they were all losses.
He has to do it himself.
This is Mr. X's first shot.
If Levi Garrison knew, he would definitely want to come and take a look.
As soon as Mr. X made his move, the audience was shocked.
He is really like a god, and his gestures are the power of overwhelming power.
It seems that he can control all the elements between heaven and earth.
He manipulates power, electromagnetics, and even everyone's brains.
"what!!!"
...
As soon as he shot, the coalition suffered heavy losses.
The powerhouses of the Siberian Star exploded one by one.
Many strong guards of the gods were all creeping on the ground, and they merged with the sea and

disappeared directly.
This is the power of Mr. X.
He is far beyond the crowd.
Basically belong to the strongest under the main gods.
And it's not just Mr. X.
The Return of the God of War [The Protector] Chapter 2888
There are more than a dozen others with similar strength.
And there are dozens of slightly weaker ones, almost this kind is comparable to the Darkness Devouring
God.
There are more than a hundred at the level of Lucifer.
This is the power of the Lab of the Gods!
Anyone who comes out is super strong!
Soon, Mr. X met Ye Qingtian, Ye Zhantian and others.
After Levi Garrison's strengthening, these people can stand alone!
But in front of Mr. X, it was really not enough.
After all, they are at most similar to Lucifer.
And Mr. X is beyond Lucifer two grades or more.
"Puff!"
"Puff!"
...
Soon, the coalition forces suffered heavy losses again.
These powerful people who came to support are not at all equal to Mr. X's level of gods.
After the encounter, there were heavy casualties.
However, not just Mr. X, there are more than a dozen such strong men.
These few god-level powerhouses shot together.
It's completely crushed.
...
"puff!"
Ye Qingtian and Ye Zhantian were injured one after another.
There are corpses under my feet…too strong!
Everyone finally realized what it's like to fight against the "God"!
Invincible crush!
The former powerhouses in the Lab of the Gods made everyone unable to experience this feeling!
But after Mr. X more than a dozen god-level powerhouses, and nearly a hundred powerhouses at the
same level as the Dark Devourer appeared.
That feels completely different!
Relentlessly crush the horizontal push!
No one can use any weapon!

Even the evil gods and their artifacts have no effect on Mr. X!
This is what annoys them the most!
This is the trump card of many strong people in the Bible Organization!
But no effect!
The Return of the God of War [The Protector] Chapter 2889
Now the Underworld Gods have no way at all!
All the cards are used!
Mr. X looked at the Underworld God and others with a sneer and said, "You are not a race of Forbidden
Land 76 at all! You have only obtained some of their talents and skills!"
Until this moment.
Mr. X just understands!
It turns out that the gods of Forbidden Land No. 76 that they have been afraid of are a bunch of fakes at
all!
It was only after direct contact that I found that none of them really existed!
All counterfeit goods!
Even the artifacts in their hands are different!
It can only be said that the materials and resources of No. 76 Forbidden Land were used, which is
different from the No. 76 Forbidden Land God himself.
After this contact.
He finally understood.
There is no god in Forbidden Land No. 76 at all.
Just used the resources of Forbidden Land No. 76!
They are all counterfeit goods at all!
This greatly shifted their focus and allowed them to establish imaginary enemies one by one.
It's a shame to say it!
No wonder it has something to do with Daxia!
This is mostly Daxia controlling the resources of Forbidden Land No. 76…
As for the Dark God, it is also very simple, in fact it is an image created by Daxia.
Actually it doesn't exist!
Most of the people who pretend to be Tiance superintendents and the like!
The new master of the ancient Garrison clan and Daxia Yizhi
Grandmaster are all images created by
Daxia.
The truth does not exist!
It definitely doesn't exist!

Otherwise they would have appeared long ago!
In such a moment of crisis, they have appeared long ago.
Don't hide in the present!
After understanding all this, Mr. X shouted: "Forbidden Land No. 76 does not exist at all!"
"Dark God, the new master of the ancient Garrison clan and Grand Master Daxia Yizhi are all fake! They
don't exist! Let's kill everyone!"
After shouting like this.
Everyone has nothing to fear.
Start crushing and killing the coalition forces…
For a while, the coalition forces suffered heavy damage, and all the positions they had just regained
were lost again.
The Return of the God of War [The Protector] Chapter 2890
Then the coalition forces were smashed to defeat and immediately retreated to the rear position.
The Titan God of War began to command the bombardment of the "gods" with modern weapons…
But the effect is minimal, basically the same as no effect.
Especially in the hands of Mr. X, he can manipulate many elements.
For example, the magnetic force can directly control the weapon, stop the weapon, or even make the
weapon turn and blast towards the coalition position.
The loss of this wave of coalition positions is getting more and more severe.
The Kingdom of God is too strong here!
This is the coercion of God!
Everyone understands!
Why does the Lab of the Gods have the confidence to claim the Kingdom of God and declare war on the
whole world!
Strong strength is confidence!
…
"So he is so strong? I thought he was an ordinary person?"
See Mr. X slaughter the Quartet.
The Black Hawk agents were stunned.
How can I think of him having such great combat power!
It's a god level!
I think that Tianshield has a hole card, but it can be matched with this one, but it is not of the same level.
Mr. X gave him a feeling of being at the same level as Levi Garrison.

However, the Black Hawk agent subconsciously glanced at the head of the game, Smith and others.
I saw these people calm down.
For the kingdom of God, he showed the momentum of ruthless crushing like a god, so he was so calm?
It seems commonplace!
this……
Agent Black Hawk is super shocked!
They are not pretending…It's true!
They are really calm and not surprised.
Could it be…
Agent Black Hawk knows from these days.
The Eagle Nation seems to be much stronger than everyone thought?
Didn't you put the kingdom of God in your eyes at all?
And what seems to be a giant behind them supporting the War Eagle Nation?
It's just that one's own status still can't touch this level.
The Return of the God of War [The Protector] Chapter 2891
Judging from the fact that they are calm now, they are mostly so.
Maybe they are so powerful that they don't need to be inserted during the battle between the Lab of
the Gods and the Allied Forces.
With great strength, it is absolutely unnecessary.
Because there is no fear at all!
Agent Black Hawk is now glad that Levi Garrison's true strength has not been revealed.
Otherwise, he might be dead.
This will be his life-saving bargaining chip in the future…
The water behind the Eagle Nation was deeper than he had imagined!
But because of his profession and curiosity, he wanted to check it out.
…
On the other side of the battlefield.
The coalition forces have been beaten to retreat and suffered extremely heavy losses.
Ye Qingtian and the others were all injured.
But fortunately, they have miraculous potions and various recovery methods that delay or heal
everyone's injuries.
The same is true for the Siberian Star.
Every member inside has a sacred stone, which is the source of their strength and energy. At this
moment, the sacred stone is also repairing their injuries.

The guards of the gods in Jerusalem are also recovering with their secret arts.
…
Soon, these super powers of the coalition army recovered one by one.
As long as they don't die, they will soon be healed.
Can continue to maintain combat effectiveness.
Under the blessings of various advanced weapons and armors from all sides.
The coalition forces are tenacious again! ! !
One by one, the powerhouses began to attack the kingdom of God ahead.
Mr. X smiled contemptuously: "It's very tenacious! If that's the case, then kill them all!"
The powerhouses of the Kingdom of God started killing.
The Return of the God of War [The Protector] Chapter 2892
One by one, like the gods, bombarded them indiscriminately.
The coalition forces are still crowded tactics.
Even if the strongest of the major forces in various countries emerge, they still pile up tactics.
It may be that hundreds of strong men can barely match up with a super strong man in the Kingdom of
God.
What if Mr. X is like this.
I am afraid that thousands of strong people will be able to resist for the time being…
But it is also equivalent to a slow killing.
Only half an hour.
The bones became mountains, blood flowed into rivers.
Knowing that this group of strong men can be healed and restored, so the kingdom of God strong men
will not give any chance at all this time.
Kill directly! ! !
See how you can heal and recover?
Sorrow is everywhere, like purgatory.
There is no way to deal with it!
Head-on head-on is death!
The Titan God of War was also scratched by Mr. X. If it weren't for many people desperately trying to
save him, he would be dead.
He was in a hurry.
Really anxious.
Except desperately, there is no feasible way out.

Moreover, the powerhouses of the Kingdom of God emerged, and Levi Garrison's several tactical plans
didn't work either.
After all, the crush of absolute strength…
"Hold it up! Hold it up, everyone! I must have a way to stand side by side with Daxia!"
"We just have to wait until he comes! There is absolutely a way to deal with everything!"
Ye Qingtian and others began to cheer up.
…
"Hahaha…Put your hopes on Levi Garrison? How ridiculous!"
After hearing this, the people of the Kingdom of God thought it was ridiculous.
None of these strongest ones!
Is Levi Garrison coming?
Especially pinning all hopes on Levi Garrison, that is ridiculous!
"Okay, let me see if Levi Garrison can save you?"
Mr. X screamed.
"Rumble…"
The Return of the God of War [The Protector] Chapter 2893
The terrible power gushes out and directly presses on it.
Other powers of the kingdom of God also used the most terrifying force to suppress.
"Puff!"
"Puff!"
…
Ye Qingtian and all the coalition powerhouses in front of them were all suppressed by terrible forces,
and fell to the ground one by one.
In an instant, all the strong in front of this position knelt down in front of the kingdom of God!
"Facing God! Do you surrender or not??"Mr. X's voice runs through the world.
Like the roar of thunder in the depths of the sky!
With the majesty and pressure of the gods!
They are the high gods!
All ordinary human beings in front of them can only kneel on the ground, surrender to God, as slaves,
and pray for God's forgiveness.
"In front of God, you are all ants!"
"Kneel down and surrender!! Become a slave to God!"
Other powerful people in the kingdom of God also shouted.

Stronger coercion is coming!
Everyone knelt on the ground, and their legs began to sink into the ground.
The weaker ones even plunged their entire body into the earth and merged with the soil.
God is inviolable!
The coercion is overthrown!
…
"what!!!"
Ye Qingtian and the others were struggling to get up like desperately.
It's just that everyone seems to be pressing against Mount Tai, or even the sky.
Can't get up at all.
I can't even move my legs…
This is the coercion of God!
No matter how hard you try, you can't survive their coercion.
Not to mention it!
Thousands of people are crawling on the ground in front of them.
The scene is too shocking!
The next position behind, in the command room.
See everything clearly.
It was shocking.
The impact on them is too great!
Is this the kingdom of God?
Are they gods?
If you say no!
How to explain this strength?
Not even the Great Summer Palace, the Siberian Star of the Eagle Nation, and the guards of the gods of
Jerusalem!
All kneel to the ground!
The Return of the God of War [The Protector] Chapter 2894
How strong are they?
Isn't this a god yet?
There is nothing to do!
They are going to kill them next!
Looking at the coalition forces on the ground behind him, they were densely packed with a terrifying
number.
But is it useful?
There is no use!
Unstoppable! ! !

These people in front can't stop it!
Don't even think about other people!
For the present…
Do you really have to wait for Levi Garrison?
Nothingness! ! !
If the army has been commanded by Levi Garrison, there is probably still some hope.
Now there is absolutely no hope at all!
"Hey!"
Many people have sighed softly.
They have imagined the scene of being defeated by the kingdom of God.
By then everyone will be a slave…
Unwilling!
But there is no way!
…
Ahead.
Mr. X looked at the thousands of people who were crawling in front of him, and he shouted: "Get up!
Look at you! There is no counterattack at all! I can only control it in my hands to ravage!"
"You have to understand a truth! Since ancient times, ordinary humans have been unable to contend
with Gods! Gods are above the world!"
…
Hear words of sarcasm.
The Underworld God and others sacrificed their lives one by one, trying to stand up.
After mobilizing the power of the whole body, I wanted to struggle.
Stand even if you die.
It's definitely not kneeling in front of these people!
"God??? You are not at all! You are human just like us!"
Ye Zhantian was the most violent, fighting for the price of exploding his whole body, he actually curled
up with his legs and stood up a little bit.
Shock!
Everyone was shocked!
The coalition forces were shocked here.
The blood boiled over one by one.
The people across the Kingdom of God were also shocked.
Does this work?
This is defying their supernatural power, this is ignoring them!
can not stand!

If Ye Zhantian really stood up, he would be insulting them and slap them in the face!
no!
This will definitely not work!
In any case, Ye Zhantian can't be allowed to stand up!
Pressure!
Their only way now is to put pressure on it!
In an instant, Ye Zhantian seemed to carry several mountains on his body.
The legs that were supposed to stand upright are bent again…
"what!!!!"
However, Ye Zhantian stood up amidst bursts of roars.
But bloodstains burst out on him…
He is fighting for his life!
The Return of the God of War [The Protector] Chapter 2895
Tell the kingdom of God your unyielding will!
Face them!
I will not kneel down!
I will stand up!
Face them face to face!
He and "God" are equal!
angry!
Shame!
Angry!
This is an insult to the majesty of God!
Taunting them fiercely!
It seemed that Ye Zhantian stood up alone, but in fact thousands of people stood up.
They don't even treat their kingdom of God as the same thing!
What a shame!
"Don't let him get up!!!"
Mr. X shouted.
The power of a strong man is pressing on Ye Zhantian's body, to crush him.
But Ye Zhantian desperately managed to withstand all the pressure.
It's just that the cracks on his body are getting bigger and bigger!
"Kneel! Kneel me down!"
Mr. X is also crazy.
Constant pressure!
Let Ye Zhantian kneel down in front of him!
"impossible!!!"
"what!!!"
Ye Zhantian roared in a rage, he really stood up.

No fear of any "god" coercion!
Look dumb!
Everyone looked at him incredulously.
The kingdom of God is also silent…
This is an extreme insult to them!
Everyone can't hold back their face.
*God Sh*t!*
"Boom boom…"
But in the next second, Ye Zhantian's body exploded.
A little bit burst…
Although he stood up.
But he has endured several times, even dozens of times the strength of his body!
I have already surpassed the greatest limit!
It is completely supported by willpower!
Now that the limit is exceeded, the body explodes naturally!
"Zhantian!!!"
Ye Qingtian and others shouted hysterically.
Thousands of allied troops behind him also cried!
Ye Zhantian set a good example for everyone!
I would rather die than succumb to others!
I would rather die than despise God at the sky!
At this moment, everyone was not so scared, and even said they were not scared anymore.
The Return of the God of War [The Protector] Chapter 2896
God?
*Sh*t!*
It's just a more powerful race!
What's terrible!
Shocked!
It was shocking!
Even if Ye Zhantian exploded directly.
But the "gods" of the kingdom of God are all numb, like walking dead.
Ye Zhantian is dead and wrong!
But everyone is unhappy, their hearts are blocked, and they are very depressed!
Ye Zhantian didn't seem to have died in their hands!
Even if Ye Zhantian died, he didn't look at them directly, but kept scorning them!
They really wanted to let Ye Zhantian come alive and suppress him with strength.
Kneel them down!

If they die like this, they are not happy!
Not good at all!
Mr. X fell into a violent state.
It's impossible to think that a small character would hurt him.
This is even more uncomfortable than hurting him!
what! ! !
He roared.
"Don't let them live! I don't want to see the second person stand up! I must absolutely surrender! If you
can't surrender, you will die!"
He no longer wants to be hurt by such a "second time"!
If this is the case, then everyone in front of you will die!
He has seen that many people on the ground are already trying to stand up.
I want to imitate Ye Zhantian.
Although there is no substantial harm!
Very insulting!
He would never allow this kind of thing to be discovered again!
"Kill! Kill all!"
All the strong in the Kingdom of God do not want to see an insulting scene staged again!
Simply not seeing is for the benefit.
Kill all!
"Boom…"
Mr. X, they started to do it one after another.
All terrifying ultimate moves fell.
To kill everyone who is crawling on the ground.
They don't want to see the scene of their surrender anymore.
That's it!
This time is completely over!
The Titans behind them could only watch.
But there is no ability to save it!
If these people in front are going to die!
That's it!
They can't stop it at all!
The next thing is really all cannon fodder, how many people die.
At this moment, what did the Titans and God of War see.
I couldn't help but ignite hope in my eyes!Giant crossbow! ! !
They saw someone move the giant crossbow out!
Originally thought that when Levi Garrison left, he took away all the giant crossbows.
Didn't think of staying.

It can be used at critical moments.
The Return of the God of War [The Protector] Chapter 2897
They remember that Levi Garrison said that giant crossbows are easy to use.
But there are too few bows and arrows, only ten!
After all, the bows and arrows required by the giant crossbow are also super large, and the amount of
materials required is too large.
Levi Garrison can only create ten expenditures with the resources discarded by scraps!
Three of them were used before, and only seven are left.
But this critical moment.
Get three bows and arrows at once! ! !
Everyone pulls the bowstring together!
"one two Three!"
"boom!"
"boom!"
"boom!"
…
Three super bows break through the sound barrier and shoot at unspeakable speed!
Just when the "gods" of Mr. X wanted to kill everyone.
Suddenly they noticed a change!
Three super bows and arrows were fired at once, tearing everything apart.
"Huh??? This…"
Mr. X immediately recognized that this was the super bow and arrow used by Levi Garrison to lead the
coalition to attack the kingdom of God.
The power is terrifying to the extreme!
He thought that the three super bows and arrows had already used up all of them.
Unexpectedly, there are more!
Also shoot three volleys of bows and arrows at once!
"careful!"
Mr. X couldn't help but reminded.
The gods must control immediately!
But the power of the super bow and arrow is too strong and the speed is too fast to control it.
Even Mr. X can't control it!
It's too strong after all.
After all, this giant crossbow was specially made by Levi Garrison, specifically for the laboratory of the

gods!
Design and power are beyond their control!
A group of strong people can only obstruct them abruptly!
"Um?"
"Boom…"
However, the three super bows abruptly disrupted their formation and temporarily suppressed them.
"Puff!"
"Puff!"
"Uh!"
…
The super bow and arrow directly penetrate the powerhouse of the kingdom of God who can't avoid it!
The three super bows and arrows have caused a lot of impact on the power of the kingdom of God!
This is also the only weapon of the coalition that can effectively injure or kill the power of the kingdom
of God!
But there are only four super bows left.
It's not enough!
Although the powerhouses of the Kingdom of God were all broken up.
However, with overwhelming power, he pressed down on the prostrate masters.
Although the three super bows came in time, they only blocked part of their power.
General power is still pouring down like a torrential rain, and many people will still die.
"Rumble…"
But a figure suddenly appeared at a critical time, with his own power, his hands blocked all the power!
The coalition was silent on the ground, looking forward in disbelief.
The people of the Kingdom of God who had just blocked the three super bows and arrows also looked
forward in shock.
Shock!
Everyone was shocked!
Child!
A little girl actually blocked all the power!
Let all the strong below creeping survive!
The three super bows can only save a part, and the little girl can also save a part.
The Return of the God of War [The Protector] Chapter 2898

But if both parties add up, they can save them all!
After seeing the little girl's face clearly.
Everyone was shocked!
There is no other reason.
Because this girl is the daughter of Levi Garrison-Levilia.
The most talented one in the legend!
Has always been the focus of training by Tiance Mansion!
They even recognized Mr. X on the opposite side.
They are dumbfounded.
Levi Garrison has been doing bad things about them and blocking them all the time.
Now even her daughter ran to stop him!
Nemesis! ! !
Mr. X, they are going to cry!
…
When everyone saw Levilia, they couldn't help being surprised.
Levilia has been living in the legend!
What everyone hears is just how high and high the talent is…
But her true strength has never been seen before!
Many people think it is bragging!
But at this moment, the most critical moment, Levilia has come to fulfill her talent! ! !There is no
difference between talent and poor talent before it becomes real strength.
It represents only potential!
Especially Levilia's talent is said to be unparalleled!
Everyone often hears people brag about how and how, but no one has ever heard of how strong Levilia
is.
On the contrary, I heard that a group of ancestors have been protecting.
Not at all!
Last time I went to the virgin forest to experience, I almost had an accident, and it was saved by the God
of Darkness!
In this way, it seems to be bragging at all, or shaped by operations.
There is no real ability at all.
At this kind of crisis, let alone the outside world, even the Tiance Mansion and Baolong clan had no hope
of the monarch at all.
But at this time, Levilia really came to fulfill his talent.
Just saving everyone is powerful enough.
Amazing!
hope!

Savior!
At this moment, Levilia stands up, it is the hope of the whole world.
The whole audience began to cheer!
This little baby with the strongest talent has finally fulfilled his talent! ! !
She can face the powerhouse of the "God" level in the Kingdom of God.
Gratified!
I'm so relieved!
Especially the elders of Tiance Mansion and Baolong clan looked at this little baby with satisfaction.
Levilia who was spoiled by them!
Finally grown up!
The Return of the God of War [The Protector] Chapter 2899
The ancestors who followed her were even more tearful, and finally waited for this moment.
Before, Levi Garrison gave Levilia the choice, either to continue to practice what was taught by a few
ancestors, or to practice his basic exercises.
But in the end Levilia chose his own way.
She wants to create her own way!
Don't take the path specified by anyone!
To create your own practice!
During this time, Levilia traveled through the most dangerous places in the world to temper himself.
How many times has this kid almost lost his life.
But she really went out of her own way!
Combining nine natural elements with the unique martial arts of the East, he creates a martial art that
destroys the world and destroys the earth.
She manipulates the natural elements differently from those superpowers.
It's not a class at all!
Now Levilia is considered to be a small success, but it is enough to kill the Quartet.
"It's ridiculous! So many of you want a child to guard!"
Mr. X sneered.
Although Levilia's appearance shocked everyone.
But the powerhouses in the kingdom of God did not put the king in their eyes at all.
"Take her down!"
Mr. X gave an order.
A dwarf strange creature next to it called Kill Xiang Levilia!
Just now, this dwarf alien even injured the god of underworld, god of wind and others.

“Boom!!!”
But the next scene is shocking.
Levilia displayed his own exercises, using the elements of heaven and earth, and a majestic force in the
air blasted from side to side.
It actually squashed this dwarf alien from both sides.
There was only a scream from the dwarf alien.
Finally hang up!
This is Levilia’s technique!
According to Levilia’s vision, when she practiced to the extreme, everything in the world could be used
by her.
Become a part of her practice!
It is so big that the thunder billows for her use, and it is so small that the vibration energy of mosquitoes
and butterflies inciting wings can be used…
Therefore, the current king is as powerful as a god!
When faced with the general powerhouse in the Lab of the Gods, it is directly a spike!
Shock!
The coalition forces began to cheer.
Levilia is the first person who can kill the powerhouse of the kingdom of God alone!
This is tantamount to injecting a powerful heart booster into everyone!
First Ye Zhantian’s sacrifice, and then Levilia’s single kill, for a time, the morale of the coalition forces
was greatly boosted.
They showed a terrible state one after another.
The Return of the God of War [The Protector] Chapter 2900
This is extremely unfavorable for the kingdom of God!
Furthermore, the kingdom of God was actually stopped by a child.
shame!
It is a great shame again!
The “god” of the kingdom of God was killed by a child.
This situation shouldn’t happen!
“I don’t like seeing her alive!”
Mr. X gave the order.
A god who is almost the same as him has made a move…This knot is on the bone.
They want to crush it directly.
All the gods shot at Levilia.
But he was alone, still a child.

So many people shot together, I'm afraid they will be laughed at.
They are gods!
God can't bully the less with more!
God can only be one enemy ten thousand!
A god crushes everything!
Therefore, you can only deal with Levilia one by one!
This time it's Robot Superman!
It is also the pinnacle of production of mechanical products in the Gods Laboratory!
Forcibly build the machinery to a state comparable to Mr. X!
Build all the machinery to the realm of the main gods!
No matter how strong it is, no matter how strong it is, you will not be able to control the machinery, but
it will control everyone in turn.
Reaching the position of Mr. X is already the limit…
Now Mechanical Superman directly kills Xiang Levilia…
Sure enough, the mechanical superman is not comparable to the dwarf aliens just now!
After fighting with Levilia, it was almost an overwhelming advantage.
But Levilia showed his talent.
Her self-created exercise method combines nine natural elements.
Such as wind!
Such as natural forces!
…
Under her control, it was simply invincible.
Hard-bodied and mechanical superman stood in a stalemate.
shocked!
Everyone is dumbfounded!
This is the only one on the coalition side that can rival the strongest of the kingdom of God.
Of course everyone in the coalition is excited!
This is a historic moment!
On the side of the Kingdom of God, every face was black.
The Return of the God of War [The
Protector] Chapter 3087
The "Sacred Tribulation" on Levi Garrison's body trembled with excitement.
It seems that it also foresees that it will start to kill the Quartet.
If someone dared to prevent Levi Garrison from getting the holy spring, it is
estimated that he would kill the sky and the earth.

I thought it was a bland and forbidden expedition, but I never thought that War
Bear Kingdom and Hydra would also be involved.
This made Levi Garrison a little excited: "I hope they will bring more people,
otherwise it will not be enough to kill!"
But the matter of Shengquan is not just the participation of the War Bear Country.
Even if the danger is extreme, someone will come.
High risk means high reward.
There are always people who are not afraid of death to try.
Therefore, there are still many people who come to compete for the holy spring.
Forces are gathering around the Amazon rainforest, ready to go deep and find
the holy spring.
However, a problem appeared in front of everyone, including the War Bear
Kingdom.
The Amazon rainforest is too big.
Where is the holy spring?
There is no specific location, even if there is a general location.
Can't everyone just bump around like headless flies?
Originally a first-level forbidden area, there are dangers everywhere.
The result of such a headless collision is that it is likely to encounter most of the
god-level beasts and dangers in the Amazon rainforest.
This is a situation that even the War Bear Kingdom is unwilling to face.
Not to mention others.
So it would be nice to have a rough map.
You can avoid any detours.
Now Levi Garrison and his party have also come to the outside of the Amazon
rainforest.
The Brain of God and the Doctor of Darkness are also worried about this.
Enter from that direction?
Where to look?
No clue at all.
Can't explore inch by inch?
Levi Garrison sneered: "I know where…"
Levi Garrison's powerful perception can perceive every inch of the Amazon

rainforest.
How many beasts are included, distributed in that place.
This holy spring is full of spiritual energy, and in Levi Garrison's perception, it is
as dazzling as the sun.
It's easy to spot!
"I already know where it is, but we're in an awkward position."
Levi Garrison quickly locked the location of this holy spring.
"Why are you embarrassed?"
The two asked in unison.
"We are at one end, and the holy spring is at the other end! The two most extreme positions!"
Levi Garrison smiled helplessly: "Let's go!"
The Brain of God and Doctor Dark were curious, but they still followed Levi
Garrison.
Not wrong.
Levi Garrison and their positions are awkward, in the farthest extreme position.
The location of the other major forces is much better, it is closer to the holy
spring, and even close to half of Levi Garrison's side.
They are also tangled in the map.
But soon their conundrum was solved – someone actually drew a map.
This map has the approximate location of the holy spring, as well as danger signs.
That is, an area where god-level beasts may appear…
Of course, this map is not for everyone.
Gotta go buy it!
Of course, buying is not with money, but with resources.
All kinds of heaven and earth treasures and the like.
Or a crystal that condenses a lot of aura.
Now that the environment has changed dramatically, spiritual energy is everywhere in the world, but the spiritual energy is thin and strong.
And some forbidden places, that is, places with strong spiritual energy, even
condensed spiritual energy into crystals.
This is a very rare treasure for today's powerhouses.
The aura of this crystal is almost comparable to the initial stage of aura recovery.
It's a huge increase in strength.
So this is a treasure of treasures.

But now in order to exchange for the map, one by one is willing to take out a few
pieces of aura crystals in exchange.
Thus……
The Return of the God of War [The
Protector] Chapter 3088
All the forces outside the Amazon rainforest got the map and entered it one by
one at full speed.
The War Bear Country is even more unique, directly detecting the location of the
Holy Spring.
They have too many gods.
The talents possessed are also varied.
Among them, the talent of the gods is to sense the place with abundant spiritual
energy such as the holy spring or the treasures of heaven and earth, and be able
to determine the location.
So War Bear Country doesn't need any map at all, they can determine it themselves.
Therefore, after the major powerhouses of the War Bear Country were grouped
together, they all entered the Amazon rainforest.
Their purpose is the same, first to win the spiritual spring, and then to experience
in the rainforest.
This is also the first time someone has explored the first-level forbidden area
since the aura recovered.
At this time, Levi Garrison and the others had already traveled through the
rainforest.
"Mr. Ye, according to the information, there are still many people coming in, and
there are many gods. All parties are determined to win this holy spring!"
"Although it may not threaten us, I'm afraid it will affect us!"
The mind of God is very worried.
This is exactly the same idea as Levi Garrison.
Are these gods a threat?
no!
But now Levi Garrison is anxious to find Shengquan to cure Levilia.

Don't want any obstacles along the way.
I just want to find the holy spring without anyone disturbing.
Levi Garrison looked calm: "It's easy!"
"Boom…"
Levi Garrison exuded an invisible aura, which stirred throughout the rainforest.
The vast rainforest was shrouded in the breath of Levi Garrison, and every detail
was not escaped.
Humans, not even gods, can feel this breath.
But all the beasts in the rain forest felt it.
From the moment when he felt Levi Garrison's killing breath.
Countless birds and beasts in the entire Amazon rainforest have gone mad…
Including those fierce beasts comparable to the gods, it seems that they have
been stimulated in some way, and they are directly crazy…
this moment.
The god-level beast was stimulated and began to bounce in the rainforest, with
no purpose and no direction.
just running around…
The same is true of countless other beasts, scurrying around in the rainforest.
messed up!
The Amazon Rainforest is in total chaos!
Birds and beasts ran, roaring and shaking the sky.
Flying, walking, roaring, mad…
Intertwined, it is simply terrifying to the extreme.
"Boom…"
next moment.
Doctor Dark and the others made an earthquake-like movement under their feet,
which almost made people unsteady.
Levi Garrison said calmly, "Let's go!"
The two followed suspiciously.
This earth-shaking movement is happening in every inch of the Amazon rainforest.
All the major forces and the powerhouses of War Bear Country felt it.
"This… what's the matter? Something's wrong!"
There was too much movement.
And it was accompanied by a terrifying aura and waves of fluctuations

comparable to those of the gods, making everyone tremble with fear.
Even the gods and powerhouses frowned.
How is this going?
It seems to have caused a riot.
But then came the pungent stench and smell of blood.
You don't need to think about it to know this kind of taste, it's just that the beast
has come out…
All the forces began to worry: "This… what's the matter?"
"Could it be that a vicious beast is attacking?"
Some young people began to ask.
"Don't worry, we can just follow the map!"
"Yes, follow the map to avoid all the beasts!"
They still trust the markings on the map.
Prepare to follow the directions of the map and avoid all the beasts.
But where can they get it.
At this moment, because Levi Garrison released his breath, the beasts in the
entire Amazon rainforest were in chaos.
All started to scramble…
Everywhere has…
The area marked on the map before is useless at all, those god-level beasts have
long gone to that place without knowing it…
Therefore, the only function of the map now is to find the location of the holy
spring.
All other functions are lost.
In particular, it is completely useless to mark the area where the beasts are not
seen.
The Return of the God of War [The
Protector] Chapter 3089
The War Bear Kingdom is huge and professional.
They have a god who has animal genes in his body, half-human, half-beast state.
Therefore, this god has a super sense of fierce beasts.
Especially after this spiritual recovery.
This became his talent.
When War Bear Nation invaded the forbidden area, he had to be present to sense
how many god-level beasts existed.

As soon as this situation appeared, the god immediately noticed it.
"It's messed up! It's messed up everywhere! I can feel thousands of beasts scurrying around, and they seem to be stimulated by something!"
"This… God-level beasts are among them… This… one, two, three…"
The god himself was stunned.
After the induction, he was terrified at the end.
Can't count.
"This… It's very likely that all the god-level beasts in the entire rainforest are
running around! They seem to be stimulated in some way, even life-threatening,
so they are running around…"
"what???"
When the others heard it, their faces changed wildly.
"There are expected to be hundreds of god-level beasts here. All of them are
running around? What are they stimulated by? What are they threatened?"
People were very puzzled.
The god with the blood of beasts carefully perceived: "No, I feel their fear! They
are all afraid, even god-level beasts. They flee because of fear and life-threatening! Their Restless because of fear…"
"What??? Fear?"
"What exactly exists here? Is it a treasure of heaven and earth? Or a more powerful beast?"
guess.
Everyone is guessing.
What the hell is going on here? ? ?
Analyzed for a while.
These leaders of the War Bear Kingdom think that there is a super beast in the
Amazon rainforest.
Stronger than everyone realizes…
After all, studies have shown that beasts absorb Reiki better than humans.
It is not impossible for a super terrifying existence to appear.
Because the gods of the War Bear Kingdom are so big.
It even came to a conclusion that after this spiritual qi recovery, there is no upper
limit.
This means that there will be existences that even "gods" cannot define.
Therefore, the people of War Bear Kingdom understand that there is an

extremely powerful existence in this rainforest.
“Be careful, all parties are careful! It’s better to evacuate on the spot!”
“If you are in danger, call for help as soon as possible, and everyone will help
each other to evacuate…”
Faced with this situation, the War Bear Kingdom has already formulated a plan to
retreat.
now.
Many forces have already encountered beasts, even god-level beasts.
These ferocious beasts directly entered a violent and bloodthirsty state, and
launched the most violent attack on these people.
Countless casualties at one time.
If you are lucky enough to encounter one or two god-level beasts, you can still
escape.
Unlucky, encountered a dozen or so god-level beasts at one time, and the entire
army was directly wiped out.
Even if there are no god-level vicious beasts, thousands of vicious beasts appear
directly, which can destroy the major forces…
Even with the guidance of the War Bear State, many teams still encountered
beasts.
Fight!
Fights are everywhere!
But it also worked wonders.
Levi Garrison and the others did not encounter any obstacles along the way.
These people may have met, but now they are entangled by fierce beasts.
And the fierce beasts took a detour when they smelled Levi Garrison’s breath…
In this way, Levi Garrison has no obstacles in front of him.
Occasionally, some fierce beasts did not stop the car, and when they encountered Levi Garrison, they panicked and ran away.
It was so miserable.
The Brain of God looked at Levi Garrison suspiciously: “Mr. Ye, can you control
these beasts?”
Doctor Dark smiled: “No, they are afraid of Mr. Ye!”

God's brain suddenly understood something, and looked at Levi Garrison in
disbelief: "Could it be that the rainforest has changed so much because…"
Halfway through, he was too shocked to speak.
Traveling through the entire rainforest, several people finally came to the location of this holy spring.
"Boom…"
They just arrived.
A powerful breath swept across.
Almost overturned the Dark Doctor and the others.
It turned out that there were seven powerful beasts around this holy spring.
No!
Is the most powerful overlord in this rainforest!
They forcibly occupied this holy spring to nourish themselves.
One of the pythons already has 70 to 80% of the strength of the one that Levi
Garrison encountered just after coming out of the Antarctic.
At first, Levi Garrison wondered why these beasts stayed where they were?
Can't you feel his breath?
Soon he found that the breath was isolated.
The spirit of this place is too strong.
As expected of a small super spiritual vein, it actually isolates the breath.
Otherwise, how could these beasts be the overlords here.
If you smell Levi Garrison's breath, you'll have to go crazy! ! !
"This……"
The Return of the God of War [The
Protector] Chapter 3090
The Dark Doctor and the Brain of God also saw so many beasts at one time.
Their scalps go numb with fear and their legs tremble.
This is much more powerful than ordinary god-level beasts.
Otherwise, there are so many god-level beasts in this rainforest, why do they
dominate here?
The reason is that they are the strongest.
This is what no one thought of.
Even if other people find it here, there is no way to get the holy spring.
As far as these seven beasts are concerned, Doctor Dark's preliminary prediction

is that at least 40 or 50 gods will be required to fight, and there is not necessarily
a complete victory.
They are the overlords of god-level beasts!
And nourished around the holy spring, making them stronger and stronger.
Even if others come, they can't take it away.
And all die here.
"What should we do now?"
Panic!
God's brain panicked.
Even the Dark Doctor panicked.
These overlord-level beasts are too terrifying.
Seeing them appear, they all opened their bloody mouths again, showing a powerful momentum.
Doctor Dark followed Levi Garrison in and out of many forbidden places, and he
had never seen such a terrifying one.
I feel like my soul has been ripped out.
If he encounters a god-level powerhouse, Doctor Dark feels that he can try his
best to fight.
But when he encountered these, he didn't even have the courage to do it…
Especially when he wondered, why didn't they flee before?
Even seeing Levi Garrison now, he still doesn't run away…
That's what scares him.
"roll!"
Levi Garrison glanced at them and said coldly.
"boom……"
A majestic breath permeated.
In an instant, these hegemonic beasts were under pressure from the sky.
They were terrified.
"Boom…"
One by one, they seemed to encounter the natural enemy nemesis, and they all
ran away in an instant!
Ok?
Both of the dark doctors are stunned…
Does this drive away?
Levi Garrison immediately came to the front of the holy spring, and he began to
inspect the holy spring.

This holy spring is actually not small, at least it can accommodate one person.
The spiritual energy below is still impacting the holy spring. Although this small
spiritual vein is broken, it has not been completely absorbed by the holy spring.
Expect it to take a while!
This also means that this holy spring can be stronger!
"It's amazing! It's just a mouthful of medicinal spring! All the treasures we have
found before have none of this medicinal spring's potent water!"
Levi Garrison screamed in shock.
Doctor Dark even took a sip of spring water, and when he fought against Hydra,
the side effects left by using special methods to stimulate the body to improve
its strength were directly eliminated.
The whole person is undergoing incredible changes to…
"my God……"
The brain of God just took a sip, and the whole body of the human body has
undergone a heaven-defying change.
In addition to his super-brain, he is actually an ordinary person.
No strength at all.
The Return of the God of War [The Protector] Chapter 2901
The strongest among them, can't even deal with a little girl?
This makes people laugh out loud!
shame!
What a shame! ! !
Mr. X was angry and shy at first.
But then he frowned and his expression became serious.
"This, this…"
Seeing Levilia using natural elements and superpowers are completely different.
Levilia's current practice is like transporting things with Qi (natural elements)…
this!
Boom!
What did Mr. X think of? This seems to be the method of practicing Qi in the pre-Qin Dynasty in Daxia
legend-the technique of Qi training!
Is she…

A terrible thought popped into my mind-Did Levi Garrison's daughter follow the legendary Summoner?
You must know that the legendary Summon Division is a pre-Qin qi-trainer…
This is the end of my thoughts.
Mr. X was startled in a cold sweat.
Putting this aside, it is impossible to explain how strong Levilia is.
Even if he is against Shang Levilia, he can't grasp it in a short time.
The daughters of ordinary humans are the same as their gods?
Do not!
In their view, Daxia two types of existence are also gods!
That's why I'm afraid!
Mr. X immediately sent this shocking message back to the chief priest.
Waiting for the decision of the main priest.
This time the main gods returned quickly.
The command is simple-capture this kid!
Because it's not sure whether.
therefore.
Let's take down Levilia first.
But Mr. X was embarrassed looking at the situation in front of him, and Superman and Levilia were
basically evenly matched.
It is impossible for a single player to win Levilia.
Unless at least two people!
But in this situation, if two people are dispatched.
That detracts from the majesty of their gods!
But soon, he thought of a way.
"Give me a full offense!!!"
He no longer asked other people to stop, but let the army of the Kingdom of God fully attack.
Thus.
Taking advantage of the chaos, they can target Levilia.
soon.
The army of the Kingdom of God fully attacked.
Fight with the coalition masters…
The two sides are extremely confused.
At this time.
Mr. X immediately joined the battle group and confronted Levilia with Superman.
Three more "gods" of almost the same level as Mr. X joined.
Siege Levilia together.
Now the situation is in chaos.

Where can anyone care about how much they bully the less…
Under the siege of five strong men from Mr. X.
Soon Levilia was in danger…
The Return of the God of War [The Protector] Chapter 2902
It's a bit unsupportable!One to one is fine!
One to five lost instantly!
This makes the "gods" very surprised. What kind of existence is this?
I can fight back and forth with their gods!
It's terrible!
Seeing that Levilia is in danger, the coalition forces want to take turns to help Levilia reduce the
pressure.
But it doesn't work at all.
The Kingdom of God is too strong here.
They didn't have any gaps to get in.
Besides, it's useless for them to rush over, it's too far away.
Far from being a level.
I can't help Levilia at all.
therefore.
You can only leave Levilia alone.
"Catch her alive! This is the order of the chief priest!"
Mr. X said coldly.
If they insist on killing Levilia, Levilia's life is already in danger at this moment.
Even though Levilia is strong against the sky, he walked out of his own way and created his own practice.
But after all, the time is too short, and she still has a very high state.
It's impossible to face five strong men who are no less than yourself!
Just when I was about to be taken down.
Levilia suddenly thought of something.
Hastily took out a wooden box from his body.
After the wooden box is broken.
A supreme pill came out inside.
This is the supreme pill given to him by the gods of Tiance!
There are three in total, and now only one remains.
It was already in Levilia's hands!
It is for life-saving!
The bigger one is to store what Tiance Mansion hopes to use in the future!
The Return of the God of War [The Protector] Chapter 2903
After all, in the eyes of the gods of Tiance, Levilia is the next master of Tiance Mansion!
At this moment, it is already Levilia's critical moment.

Although she could see that the other party was not trying to kill her, it was arresting her.
Not life-threatening.
But we must not let them be captured alive!
"Boom…"
When Levilia took this supreme pill, the whole momentum exploded.
At this moment, it seemed that a dragon that had been sleeping for a thousand years had awakened.
Swallow the mountains and rivers with anger, shock the world!
Both the coalition forces and the army of the Kingdom of God were shocked.
This aura is as if the true god of the nine heavens has descended…
Even the people in Tiance Mansion were stunned.
I know that the supreme pill is very powerful, but where can I think it will be so strong!
How do they know that only Levilia's level can exert the true power of the supreme pill.
At that time, Tiance Shenshuai was not enough to exert the true power of the pill, only a little
improvement.
This supreme pill is accompanied by strength.
At this moment, Levilia fully exerted the power of the supreme pill.
Her strength and momentum have soared!
Awe-inspiring aura to shock the five of Mr. X.
She was obviously going to be trapped just now, but she got rid of wherever she wanted to.
With terrible force, the five people were forced to retreat.
Shocked!
It was shocking!
At the same time, Levilia joined the chaos and forced the army of the Kingdom of God with his own
power.
This is the super super strong!
Can change the situation of the entire battlefield with one person!
Look dumb!
Look silly!
Levilia has come to a new round of realm with the help of the supreme pill.
In the eyes of the people of the Kingdom of God, the monarch is at the level of the main divine division
at this moment.
It's crazy!
Unleash the most powerful force wantonly!

With this kind of capital, Levilia uses various elements with his aura, making it even more terrifying.
There are a lot of powerhouses in the kingdom of God who have fallen under Levilia's hands.
The rest of the powers of the kingdom of God immediately avoided the edge of Levilia, and did not dare
to confront him head-on.
It seems that one person is about to reverse the whole battle.
"What kind of medicine she just swallowed, gave her a strong power temporarily! As long as we wait for
a period of time, once the power of the medicine has passed, we can take it smoothly!"
Mr. X has a clear analysis of the battlefield situation.
This supreme pill can only last for a while.
The Return of the God of War [The Protector] Chapter 2904
"Tell the message to the chief priest again!"
"At the same time, tell Doctor Dark that there are people and drugs he is interested in here!"
Now the battle seems to be controlled by Levilia alone.
But in fact, she was holding on, everything was an illusion.
It will be broken soon!If there is no real way to fight the kingdom of God!
In the end, Levilia will also fall, and sooner or later will be captured by the main god.
Others have no way of doing it.
Everything that can be taken out is taken out.
In addition to the human sea tactics cannon fodder tactics, there are no other methods.
Where is the hope?
Levilia is not anymore.
Levi Garrison?
Everyone looked forward to it before.
But after appreciating the power of the kingdom of God, everyone knew that this kind of strength
crushing could not be erased by strategy and tactics.
This is absolutely impossible!
Levi Garrison is not hope…
So where is the hope?
Can't find it!
Are you going to lose like this?
…
At this moment, a part of the forces led by the God Commander Tiance is staring at the dynamics of the

War Eagle Nation.
It's just that the faction of the Warhawk Nation has been very stable, and there has been no change.
After knowing the situation on the battlefield ahead, Tiance Superintendent was very anxious.
Can't wait to go to war right away!
Especially know that Levilia is on.
He was even more anxious.
But the order Levi Garrison gave him was nailed here, and he had no idea.
…
now.
Where is Levi Garrison?
He is near the base of the Atlantis project.
During this time he has been preparing…
Imitate the Heavenly Master's Mansion and the Town Demon Division.
I also have to prepare to face the main divine division.
Finally it took a long time and was ready.
It's time to fight.
As soon as he came out, he received a message.
Regarding the battle situation between the coalition forces and the Kingdom of God…
Levi Garrison sighed secretly.
He also had no way to stop it.
The Return of the God of War [The Protector] Chapter 2905
When they chose the Titan War God as their commander in chief, he was powerless.
He can only focus on the main divine division.
The message came again…
This is the spy he arranged in the army of the Kingdom of God.
I found out their decision with the chief priest.
"It turns out that the main priest is still afraid of the war eagle country? If the war eagle country attacks
from the rear, they will come out?"
"The Lord God Division seems to be afraid of the Summoners, the Heavenly Master's Mansion, and the
War Eagle Nation in the Daxia legend? If so, then persecute them in two ways! No! Persecute them in
three ways!"
…
Levi Garrison looked at the messages that came, and immediately formulated a plan.

When he saw Levilia appearing on the battlefield, he was stunned.
This was completely beyond his expectation!
Moreover, Levilia was so strong that it was beyond his expectation.
This huge battlefield is actually supported by Levilia alone? ? ?
no!
Levilia!
Dad is here!
"Huh? Another message came? Mr. X and the main gods suspect that Levilia belongs to the Suppression
Demon Division. The strategy given is to capture Levilia, not kill him!"
Levi Garrison received the message again.
But these messages are in his favor!
They are all developed in his direction!
This also means that Levilia is temporarily in danger!
"Send my order…"
Levi Garrison immediately conveyed his order.
Now Atlantis plans the sea area above.
In fact, there are many from the Kingdom of God.
Here is always their hidden danger.
They are frantically looking for the entrance, looking for the place where Leviathan, the Devourer of
Darkness, disappeared.
Under their frenzied searching, there is a real tendency to find them gradually.
And this time there are tens of thousands of teams looking for.
This is where the kingdom of God is powerful.
Obviously the world coalition forces have built a line of defense, blocking the army of the Kingdom of
God on the other side.
However, there are still tens of thousands of powerful people from the ten thousand gods who came
here quietly, carrying many equipment.
A series of explorations quietly…
And it won't take long to find it.
After all, this is one of their most feared places…
The order received must detect everything here!
This is a dead order!
The Return of the God of War [The Protector] Chapter 2906
They are as crazy!
Come and explore here!
"No, there are abnormal fluctuations! There seems to be something coming out of the deep ocean!"

At this time, the exploration team of the Kingdom of God discovered the warning of the instrument.They
immediately hid on both sides.
The team of tens of thousands of people disappeared without a trace.
Soon a number of figures appeared from the deep sea…
The instruments they placed around locked the scenes.
Some of these figures were dressed in robes of the Heavenly Master, some were dressed in ancient
Daxia costumes, and they were wearing masks one by one!
this……
So many "alien" suddenly came out of the deep sea!
Frightened them all!
And the danger warning is the top level!
It indicates that the people who come out are super powerful Z!
Aware of the seriousness of the problem.
They are about to send the picture back to the main priest immediately!
This is a special order from Mr. X.
If there is any change in this sea area, you can immediately notify the main god.
After all, Mr. X might be fighting and busy at that time!
Especially when such a big situation arises, the more it is necessary to transmit the information to the
chief priest as soon as possible.
After passing it to the chief priest, they then pass it to Mr. X.
When Mr. X saw the costumes of the figures in the picture, he was stunned.
The clothes of these figures are exactly the same as the Summoners and Heavenly Master's Mansion he
knows…
It came out of the place where Leviathan and the Devourer of Darkness disappeared!
Isn't this obvious yet?
***Inseparable ten!*
Daxia's two types of legends really exist!
In addition to the monarch in front of him, he used the legendary Qi training technique!
Thinking of this, he was shocked.
Knowing that the message had been sent to the Summon Division, he was relieved.
"Then we need to take down this child even more! As soon as possible, we will master the technique of
temporary qi training, and find the shortcomings of the Heavenly Master's Mansion and the Summon

Division! This will be more beneficial to deal with them!"
"Let the Dark Doctor come quickly!"
The Return of the God of War [The Protector] Chapter 2907
Doctor Dark is specialized in this matter.
Grab Levilia and hand it to him, you can find out the shortcomings.
…
The situation is very urgent.
In the kingdom of future science and technology of the Kingdom of God.
Those powerful people are still enjoying life, after all, they all know what the battle is going on.
It takes time for the kingdom of God to push the world horizontally.
At that time they will be the noblest group of people under the kingdom of God…
God will definitely give this place to their rule…
"Boom…"
But at this moment, suddenly the future technology country was attacked.
A strong man began to appear.
Especially the three or four powerhouses taking the lead.
It was terribly strong.
Even the powerhouse of the kingdom of God is like a chicken and dog in front of them, killing if you
want.
It's not a level at all!
…
For a while, the base camp of the Kingdom of God fell into chaos.
After all, the Kingdom of God does not leave many strong people here to guard.
The world coalition forces are guarding the line of defense and will not attack.
The most likely to attack the warhawk faction is impossible because of its geographical location. After
all, the position of the kingdom of God is divided by the defense line of the world coalition forces.
It is impossible for the war Eagle Nation to attack…
So who was the attacker?
For a while, everyone in God's country was thinking about this issue.
It was messed up for a while.
It's all messed up…
The guards of the base camp of the Kingdom of God simply can't stop it!
Was killed for a while and fled around.
But this is also a provocation!
Extremely provocative!

Defying the majesty of the kingdom of God!
I copied your house directly…
The message soon reached the army of the kingdom of God and the main gods.
All of them are going to explode…
"Who did it? Who did it?"
"According to the message from the rear, a few strangely dressed leaders did it!"
"Here are materials and video images…"
The Return of the God of War [The Protector] Chapter 2908
After seeing these strange costumes, Mr. X almost fainted.
The legendary Slayer's…
And they are invincible!
This force is the root of it!
This this this…
Are Daxia's two types of legends finally coming out?
At this time everyone is more excited!
Have you finally waited for this powerful existence?
if so.
Then the main priest is really going to come out…Various signals now show that the two types of
existence in Daxia, the Summon Division and the Heavenly Master Mansion, both exist and have
appeared.
The chief priest also received the information.
Mr. X believes that they will go out soon.
The messages came one after another.
"We lost a lot of weapons?"
Mr. X received another message.
"Hoho, now that the Town Demon Division and the Heavenly Master's Mansion have come out, it's a
fart to lose a weapon!"
"It's nothing but they stole our weapons and came to deal with us!"
…
Now Mr. X, they are all focused on the main priest.
Where can I get a weapon?
To put it bluntly, all are small things…
Levi Garrison naturally arranged the stealing of a large number of weapons.
As for what it will do, the Kingdom of God will never guess…
now.
On the western coastline of Warhawk Nation.

The wind is calm, everything is no different from before.
After all, now the Factions of the War Eagle Nation are not in a hurry to take action.
Although the people below don't know what the senior leaders are watching…
But they can only relax to cope.
The guards were still smoking and drinking whiskey, chatting about the girl who was in the bar the other
day, very leisurely.
There is no sense of defense before the war…
But after all, the flames of war have nothing to do with them.
So they don't need to be nervous.
It's not even their turn…
Not only them, but even the great powers of the Warhawk Nation are in the same state.
I don't even take this seriously.
One is easier than the other.
In particular, I heard that the base camp of the Kingdom of God was attacked just now.
They are more laid back.
The Return of the God of War [The Protector] Chapter 2909
All in the theater…
Both up and down are in such a laid-back state.
Although the Black Hawk agent and other high-level officials are watching the situation closely, they can
relax more and more.
After all, there is no chance to participate.
I don't know what the above means at all.
Except for the curiosity of the Black Hawk agents, many people stopped staring at the situation.
…
A group of guards from the War Eagle Nation was smoking and drinking in the corner. They looked at
the front of the coast and sneered: "The other side is fighting, but we are smoking cigars here! It's not
good!"
"I don't want to fight! It's not good for us!"
…
"Boom…"
But at this moment.
Suddenly a blue beam of light bombarded here.
Shatter this port in an instant.

Countless guards were all buried in it.
“Boom…”
Immediately after that, a series of weapons all poured out, carrying out the most violent bombardment
on the coastline of the Warhawk Nation.
One by one port, one line of defense was directly destroyed…
Caught off guard!
No one thought of this!
The Eagle Nation was attacked.
Still suffered such a fierce attack.
Soon, the entire Warhawk Nation was in chaos.
The rich and powerful, or the high-level people are in chaos.
They are in the theater.
I don’t even think of watching the show, seeing my home being bombed…
Messed up…
The command room where the Black Hawk agents were in was completely messed up.
“Alert! Alert! Our west coastline has encountered the most violent attack!”
“Alert! Our east coastline has been attacked fiercely!”
…
Urgent messages came one after another.
They are dumbfounded.
“Someone attacked my war eagle country?”
“Who? So bold?”
The Return of the God of War [The Protector] Chapter 2910
Everyone said one after another: “It must be the Kingdom of God! The world coalition forces are at stake
now, how can they have the time to attack us?
“Yes, besides the kingdom of God, who else would dare to beat us!”
“It’s definitely the kingdom of God!!!”
Everyone agreed that it was the kingdom of God.
The person that Agent Black Hawk thought of subconsciously was Levi Garrison!
After all, he knew Levi Garrison’s true strength.
Moreover, it has been fighting, but Levi Garrison has not been seen.
He must be making a big move!
And Black Hawk agents have been observing the situation. The Kingdom of God’s base camp has just
been attacked, so is it here to fight against the Eagle Kingdom? ? ?This must be problematic!
Mostly a tactic!

It's just that Agent Black Hawk didn't have time to interrupt.
Someone on the other side immediately heard the result.
"It is the weapon of the kingdom of God! I just found it! The weapons of the kingdom of God are all
bombarding us!"
"They lined up in all directions and bombarded us with advanced weapons!"
"At the moment when there is still no major offensive, it is estimated that we are testing us first!"
"What shall we do now at the head of the bureau?"
…
Everyone looked at Smith and other senior executives.
Waiting for their resolution.
Smith was even more certain that this was a conspiracy, and he did not dare to attack, but only
bombarded with weapons.
To be afraid is to intensify the contradiction between the Kingdom of War Eagle and the Kingdom of
God.
Let the Kingdom of War Eagle take action, and let's deal with the Kingdom of God together…
Several people in Smith looked gloomy and discussed a few words.
Leaving from this command room, I guess I went to contact it.
At this time, Agent Black Hawk received a message!
From Levi Garrison!
Scared him into a cold sweat!
Because Levi Garrison determined his position, he even knew where he stood in the command room.
The Return of the God of War [The Protector] Chapter 2911
Agent Black Hawk immediately found an excuse to leave, came to a remote place, and began to examine
Levi Garrison's message, which was an order to be exact.
The message is simple-let him encourage Warhawk Nation to dispatch troops immediately, saying that
the real behind the scenes of the Lab of Gods: the main gods are coming out.
Levi Garrison's meaning coincided with Agent Black Hawk's idea.
He had long wanted War Eagle Nation to get involved early, no matter it was to deal with that.
Anything!
As long as the final victory is the Eagle Nation!
Now the two sides are fighting!

No matter what kind of strength the Eagle Nation possesses, it is definitely the best time to enter the
arena now!
He approves of admission!
Agent Black Hawk is a smart man who seems to be controlled by Levi Garrison, but in his mind, he has to
control several parties, and he is the biggest beneficiary!
He is the biggest boss!
He rushed to the command room immediately.
Yelled loudly: "It was the hand of the kingdom of God! I began to think it was a conspiracy, someone
instigated discord!"
"But the coalition forces don't even care about themselves now, how can they have time to hit us? The
reason why the Kingdom of God attacked us is very simple…"
After the Black Hawk agent shouted so.
Even the head of the game, Smith and other high-level officials who had just left, all returned, all staring
at the Black Hawk agent: "What's the reason?"
"That's because the true leader of the Gods Lab-the main gods, has appeared! After they appear, they
will not be afraid of everything and will have a full impact on the world!"
"The reason for attacking us just now is to test our firepower and attitude! I think we will fight right
away!"
Agent Black Hawk was also a little nervous.
I don't know if they move out of the main director, Smith, the head of the bureau, can they agree?
He hopes to succeed!
Only then can he proceed with a three-way plan!
"You actually found the chief priest? Did they even know when they came out?"
Smith and other senior executives looked at him in confusion and shock.
"Yes, I found it! So we rule out the possibility of someone instigating discord!"
The Black Hawk agent bit the bullet and said.
"Well, that's the case! Send the order! Our Galaxy Guardian Alliance will attack! Attack the kingdom of
God!"
Nielsen, a high-level executive next to Smith, gave the order directly.
The so-called Galactic Guardian Alliance is a faction of the Warhawk Nation, an alliance composed of the

Warhawk Nation and its affiliated major forces and major countries that have been well-friended.
They are ambitious.
The Return of the God of War [The Protector] Chapter 2912
It can be seen from the name of the alliance.
Not only guarding the world, but also guarding the entire galaxy.
The Black Hawk agent was shocked.
When these people heard the appearance of the "main priest", they didn't need to discuss it, and they
didn't need to ask their superiors for instructions.
And I just asked for instructions, and I am waiting for the reply above.
Now they don't need all of them.
Just because I mentioned a sentence of "Lord God Division" to make a move…
Agent Black Hawk was taken aback.
Instantly understood why Levi Garrison told him to mention the "Lord Shensi".
Could it be that senior executives such as Smith are waiting for the appearance of the "Master God
Division".
Before the coalition forces and the Kingdom of God's army were in a melee, the situation was so good,
and the Eagle Nation did not enter the battlefield.
Dare to love is waiting for the entry of the main divine division.
As soon as the main divine division behind the kingdom of God appeared, the kingdom of war eagles
immediately entered.
They are afraid of the chief priest.
Understood!
Everything is understood.
I bet it right.
The Eagle Nation is waiting to defeat the Lord God…
At this time, the temptation attacks of the "Kingdom of God" continued.
Angry!
At this time, the "Galactic Guardian Alliance" was all angry.
"The kingdom of God doesn't put us in the eyes at all? They have to pay a painful price for it!"
"Attack! A full-scale attack!"
"All the Galaxy Guardians are attacking!"
…
The leaders of all parties in the alliance immediately arranged everything, and they are about to

aggressively attack the kingdom of God.
A group of high-level people such as Smith of the Eagle Nation faced each other and laughed at each
other and said: "Remember, bring the secret artifacts we prepared for the chief priest!"
Agent Black Hawk was shocked.
Sure enough, everything they have is preparing for the Lord God.
There is even a special secret artifact!
Agent Black Hawk quietly sent a message to Levi Garrison, asking him to withdraw.
He naturally knew that the harassment with God's weapon must be arranged by Levi Garrison.
Wrong!
In fact, this group of people has always been staring at the team led by the Tiance marshal of the War
Eagle Nation.
Not long ago, he finally waited for Levi Garrison's order.
The Return of the God of War [The Protector] Chapter 2913
Let him take people to the base camp of the Kingdom of God to steal weapons, and then use it to
bombard the Kingdom of Warhawks!
Then unite with Black Hawk agents inside and outside.
The purpose is simple.
The purpose is to force the Eagle Nation faction to take action.
Of course, they are not used to fight the kingdom of God.
Levi Garrison can't count on this!
Non-my family, its heart must be different.
It's not bad to stabb you.
In fact, this is used to force out the main divine division!
Levi Garrison used three aspects to persecute.
First, deliberately creating the illusion of the Palace of the Heavenly Master of the Sword Demon,
coupled with their suspicion of Levilia, strengthened the true existence of this legend.
Second, sneak attacks on the base camp of the Kingdom of God and provoke the Kingdom of God to the
utmost.
The third is that the war Eagle Nation made the move, and the Lord God Division had another fearful
existence.
…
Three-pronged approach.

It won't work if the chief priest doesn't come out.
In this way, Levi Garrison's goal was achieved.
…
About twenty minutes later.
The guards of the Galaxy Alliance set off together.
The advance team is even about to reach the battlefield…
The whole world is in an uproar again!
The Hawk Nation faction also participated.
A sensation!
It's so rare!
This time, I am afraid that the whole world is involved.
The Kingdom of God also learned the message.
"What, the Guardians of the Galaxy Alliance also participated in the war? Will soon reach behind us?"
"This, this… messed up! Completely messed up!"
Mr. X, they showed a trace of deep jealousy.
"Hurry up and notify the Lord God! The Galaxy Guard Alliance has taken action! They must come out!
Otherwise, this is not something we can handle!"
Anxious!
The Kingdom of God was so impatient for the first time.
Many signs show that their fears are coming.
The Return of the God of War [The Protector] Chapter 2914
The Heavenly Master Mansion of the Sword Demon Division is here, and even the Galactic Guardian
Alliance is here.
This battle is the real beginning for them…
Mr. X glanced at Levilia whose breath was weakening in front of him, and he shouted: "Her medicine is
not working! Take her down with me!"
They have to understand everything about the Summoner from the Lord before the main gods meets
the Summoner, knowing themselves and the enemy, so that they can survive a hundred battles.
And Doctor Dark is coming soon.
At this moment, if Levilia was taken down, the Dark Doctor came, and immediately began to research,
looking for the weakness of the Sword Demon Division.
After the main priest comes out, it can be used directly.For so long.
The supreme pill that Levilia took is losing its efficacy bit by bit.
Her strength is slowly declining accordingly.
It is no longer possible to control the situation.

It is already very difficult to deal with the power of the kingdom of God.
Hold it for a few more minutes at most.
And she looked up and realized that it was not good.
Because Mr. X is killing her!
There are mechanical superman and so on!
This time five strong men attacked.
Levilia knew that he couldn't stop him anymore, and had to be captured alive by others.
"boom!!!"
But at this moment, suddenly there were a few more figures in front of the giant crossbow in the rear.
Start the bow and crossbow directly, and all the remaining four super bows and arrows are activated.
It was too late for the men of the Titan War God to stop.
And they saw that this superbow crossbow was activated by one person.
And after pulling it, the electric lights flickered, and terrible energy surged.
"boom!"
"boom!"
"boom!"
...
In an instant, four super bows and arrows were shot, tearing the world apart...
*"Sh*t!"*
*"Sh*t!"*
...
The power of the super bow and arrow can be said to be against the sky this time!
The passing area tears everything.
Countless God Kingdom powerhouses were directly shattered on the spot, dripping with blood,
splashing everywhere.
Four super bows abruptly split the chaotic battlefield!
The power of these four arrows is too strong.
Even the area just passed through becomes a restricted area.
No creature can survive!
It's too fast!
Too much strength!
So that everyone has no time to react!
The Return of the God of War [The Protector] Chapter 2915
now.

Levilia has already faced the oncoming mechanical superman and other five powerhouses!
Mr. X is in the final position, ready to catch Levilia in one fell swoop…
"not good!!!"
At this moment, he felt an unprecedented pressure!
And terrible energy fluctuations!
At least it can be brought at the level of the main divine division…
this!
He just wanted to avoid it the first time!
But it was already too late.
"Swish swish…"
Accompanied by the terrible sound of breaking the sound barrier.
Four super bows have already been shot.
"Puff!"
Mechanical Superman bears the brunt, being directly pierced by the super bow and arrow.
Then the terrible energy exploded, and the mechanical superman shattered on the spot.
The super bow and arrow shoots from the rear with unabated speed, causing the greatest degree of
damage.
A crushing blow to the army of the Kingdom of God.
The remaining three super bows also penetrated the other three strong men who wanted to deal with
Levilia!
Although their strength is comparable to that of Mr. X, they can be directly penetrated in front of the
super bow and arrow!
Can't hide it at all!
And after being pierced, the body was directly shattered and exploded.
Like the three super bows and arrows, they shot at the army of the Kingdom of God at an unabated
speed, causing the greatest loss in the history of the army of the Kingdom of God!
There is no one!
Only four super bows caused the most damage!
unimaginable!
And Mr. X witnessed the scene where four companions were pierced by four super bows and arrows!
His face was pale with fright, and he was sweating.
If it was him who rushed to the front, he would be penetrated at this moment!

really!
Everything is true!
Isn't it the Demon Slayer who used the crossbow this time?
In order to save the child, they shot and killed four people directly.
Caused such a big damage!
shocked!
The army of the Kingdom of God wailed everywhere, with countless deaths and injuries!
Everyone was stunned!
They have experienced this super bow and arrow, it is very powerful.
It can even hurt them!
But it's definitely not the way it is now, to penetrate the four strongest players at once!
This is impossible!
Unscientific!
Beyond everyone's expectations!
The craziest thing is the coalition side!
They are going crazy!
When does the superbow crossbow have such power?
Are they all the same super bows and arrows?
And there is no news about the use of crossbows…
Except for the group of people who have witnessed it with their own eyes, most people don't know the
start of Super Bow and Arrow…
The Return of the God of War [The Protector] Chapter 2916
Titans, God of War, they are all dumbfounded!
Who moved the hand?
Who the hell is it?
The four super bows and arrows directly penetrate the four god-level powerhouses!
Not to mention that the army of the Kingdom of God is at a loss and does not know what the situation
is.
Even they don't know what's going on…
After all, they have all come into contact with giant crossbows.
With the strength of the coalition forces, where can anyone urge this super crossbow to shoot directly
at the strongest level of the Kingdom of God!
Full of four!
It also caused the greatest trauma to the army of the Kingdom of God!
Not even the strongest monarch among the coalition forces, let alone the others.

It's absolutely impossible!
Who is this person?
Wrong!
The person who uses bow and arrow is Levi Garrison!
He came to save his daughter!
The main priest is coming out soon.
But he still didn't come out completely. It would not be great if he rashly used his skills.
In case the main divine secretary knows that he is too strong, he deliberately hides his privates, leaving
some people behind.
This is the hidden danger.
All he wants is to catch it all!
All the powerhouses of the Lord God Division should appear!
therefore.
He would hide behind and shoot with a super crossbow.
Don't expose yourself for the first time!
Although he also wants to rush to kill the Quartet!
But there is no way, I can only endure it temporarily.
Although it is exactly the same crossbow, it depends on who uses it.
Levi Garrison at this level will maximize the use of the super crossbow, and can also bless his own
strength in.
He is pulling the bowstring of the giant crossbow to its fullest state!
With more strength, I am afraid that the bowstring will burst.
Therefore, I easily shot and killed four strong men, the strongest in the kingdom of God except for the
main divine division…
Unfortunately, there are too few bows and arrows.
Otherwise, Levi Garrison will shoot Mr. X on the spot!
Looking at Mr. X, he got angry!
This hatred can be traced back to Richard's dominance alliance.
Lucifer is Richard's immediate boss, and Mr. X is Lucifer's boss.
…
After Levi Garrison took the shot, the scene was immediately chaotic.
The coalition forces are also in chaos here.
Who is looking for the giant crossbow everywhere?
The army of the Kingdom of God is even more chaotic.
There are corpses and blood everywhere.
The sound of ghost crying wolf howling spread all over…
"They are here! They are here…"
"withdraw……"

“Quickly retreat!”
...
Mr. X turned pale and shouted subconsciously.
These four arrows directly knocked Mr. X into autism, so there was no idea to continue fighting.
Directly gave the order to retreat.
In his opinion, this is a matter for the chief priest.
He can’t handle it!
If he goes on, he will probably die here.
This is the fear of death!
What god?
Are you still afraid of death?
Isn’t it that you can’t control your own destiny?
God’s majesty disappeared at this moment.
Everyone’s embarrassed appearance was deeply imprinted in everyone’s eyes.
Is this still a god?
Isn’t this a person?
It’s exactly the same!
Will be afraid of death!
Can’t control their own life and death!
The so-called Kingdom of God seemed to be directly disintegrated at this moment.
Ran!
The army of the Kingdom of God ran at the fastest speed.
It didn’t even care about the injured, and all of them ran away.
After all, even the lead Mr. X ran away desperately.
Where can the rest be?
There was another bloody reality before his eyes, and of course he had to run away.
shocked!
Simply dumbfounded to the extreme!
Everyone in the coalition did not expect that the army of the Kingdom of God had fled directly.
Although these four arrows have caused a huge loss, don’t they have to go straight away, right?
Still so embarrassed?
In the Titan Wars, they guessed, whether the army of the Kingdom of God would feel that there are
many more such super bows.
The Return of the God of War [The Protector] Chapter 2917
That’s why it ran so fast?

But how do they know that this is not the root of the fear of the army of the Kingdom of God.
"What shall we do now?"
Someone asked.
"Of course it is pressing up! They ran away and proved that they were afraid of us!"
The Titan War God immediately ordered.
At the same time, he was looking for the person who just used the giant crossbow."We saw it! But I
can't see it clearly! There are about seven or eight people, one of whom used a giant crossbow and all
the super bows and arrows at once!"
"But we were so frightened that we couldn't see clearly, and when we looked again, the people were
gone!"
…
According to witnesses at the time, it was the same as the ghost incident.
Suddenly, several powerful beings descended from the sky, and they disappeared after they shot and
killed the powerhouse of the kingdom of God.
Bizarre!
Incredible!
Is it righteous from heaven?
Titan War God also asked the person in charge of each party, everyone was confused.
They all thought it belonged to Daxia.
As a result, when I asked everyone from Daxia, they were also confused.
Where is this person from?
Incredible!
Except for a very small number of people, most people don't even know.
This is Levi Garrison's arrival!
Underworld gods showed long-lost smiles on their faces.
Almost sacrificed just now.
The savior is finally here!
This is probably the person who Levi Garrison killed!
Since he has to do it, it means that he has a solution.
This is a great thing!
Although they were entangled with the Titans, they couldn't find it.
But the army of the Kingdom of God has retired.
The goal was achieved.
Especially Levilia let out a long sigh of relief, and he was almost captured alive.

“We continue to press on! They must be afraid to retreat! Not a tactic!”
“I also received information, the Galactic Guardian Alliance is also pressing up! At this time we are the
best to press up!”
The Titan God of War specially came to discuss with the strong like Levilia.
“Okay, let’s press it up!”
Levilia took the initiative to lead the team and directly chased him up.
The army of the Kingdom of God retreated very quickly, and soon reached the tenth line of defense.
But at this time, I encountered the advance team of the Guardian of the Galaxy Alliance.
The two sides played against each other directly.
And the real core of the Galaxy Guardian Alliance, after knowing the situation ahead, immediately
speeded up and came to support.
The coalition forces came back from behind.
The kingdom of God is facing the enemy…
Even if the Kingdom of God confronted the advance troops of the Galaxy Guardian Alliance, it was only
harassed a few times.
The Kingdom of God just took a detour, avoided it as much as possible, and didn’t love war at all.
For fear of being entangled.
They are now retreating as much as possible!
There is no momentum at all.
Mr. X has no feelings to fight anymore.
The four arrows just knocked his heart out, and all he had to do now was to retreat and then retreat.
Even if it encounters a small group of resistance, it will immediately detour.
Don’t fight at all.
But the more they were like this, the advance team of the Galactic Guardian League entangled them
tightly.
It is difficult for them to get away.
Don’t wait a while.
The rear coalition forces followed again.
Be entangled again.
The army of the Kingdom of God can only fight and retreat.
However, after tens of minutes.
The new force of the Galactic Guardian Alliance has caught up.

This time, the army of the Kingdom of God couldn't run away.
Can only be thrown into battle.
Fight with enemies before and after.
In particular, the main force of the Warhawk Nation of the Galaxy Guard Alliance is the most terrifying,
and all kinds of advanced weapons have been pulled out.
The forbearance of the past few years has caused the world to ignore the War Eagle Nation.
But it is still a super mountain.
When these weapons are all taken out.
The world is shocked!
In terms of weapon technology, the Galactic Guardian Alliance is the first!
Daxia and Zhan Xiong are incomparable.
Especially after three aerospace aircraft carriers similar to the Shen Guoxing Chen appeared in the rear.
Everyone is going crazy! ! !
However, the aerospace aircraft carrier has not been put into use all at once.
But waiting in the distance.
And it can be seen that these three aerospace aircraft carriers seem to be used for transportation and
not attack.
Everyone is guessing what the three aerospace aircraft carriers contain…
The Return of the God of War [The Protector] Chapter 2918
The Guardians of the Galaxy Alliance is here to kill.
The army of the Kingdom of God was killed directly at a loss.
"Request the Lord Shinji to come out of the mountain for support!!!"
"Quick, quick! The kingdom of God has encountered the most violent attack!"
Mr. X can only send out a distress signal.
"The main divine division is dispatched…"After Mr. X asked for help, the chief priest gave a message—
they have come.
This gives Mr. X a hint.
Then you can command the army of the Kingdom of God to start a counterattack.
As for the coalition and the Galaxy Guardian Alliance to fight first?
He decisively chose the Galactic Guardian Alliance…
Don't look at the coalition forces now that they are all old acquaintances he has just fought against.
But those people behind, who knows where?
Suddenly, a sudden emergence, giving you a fatal blow.

Just hiding in the back, he could shoot and kill four strong men with similar strengths.
If it came out directly, it would be fine…
Therefore, for the army of the Kingdom of God, the threat of coalition forces at this moment is the
greatest.
No one will follow suit.
After all, I want to live!
Fear of the coalition forces, dare not touch.
Then you can only pick soft persimmons.
The army of the Kingdom of God immediately targeted the Galactic Guardian Alliance.
Leave a small number of strong men and weapons to deal with the coalition forces.
Most of the forces directly face the Guardians of the Galaxy Alliance!
The war between the two sides is about to start.
Just now because of the illusion of escape created by the army of the Kingdom of God, the Guardian
Alliance of the Galaxy was pressed too tightly and too close.
It also gave them the illusion that the kingdom of God is very weak.
But the Kingdom of God suddenly came and hit the Galactic Guardian Alliance by surprise.
Numerous casualties…
For the first time, they experienced the power of the kingdom of God.
After all, I have been watching a movie before.
Now face it personally.
It feels completely different.
However, the Galactic Guardian Alliance is a new force, and any weapon is advanced, beyond
imagination, and can be comparable to the kingdom of God.
And the kingdom of God has never met before, nor is it in their plan.
For example, they control most of the weapons of the coalition forces.
Specialize in how to defend or target.
But now most of the weapons of the Galactic Guardian Alliance have never been seen before.
Therefore, it can only be head-on.
Although the army of the Kingdom of God killed them by surprise at first.
But soon the Galactic Guardian Alliance reacted and directly began to fight back.
Attack with their new weapons.
The army of the Kingdom of God has suffered a lot…

And everyone can see that the overall strength of the Galactic Guardian Alliance is stronger than the
coalition forces.
The Sky Shield of the Eagle Nation and other institutions also participated.
They used a variety of new equipment, such as the "Kisshen No. 1" that locked Levi Garrison at the time.
The sudden attack on the army of the Kingdom of God caused considerable losses to the army of the
Kingdom of God.
The Guardian of the Galaxy Alliance stepped up its attack on the army of the Kingdom of God.
Put your posture on the sea and attack in an all-round way!
All kinds of powerhouses and all kinds of weapons were taken out.
At the beginning, the army of the Kingdom of God was able to parry, using their weapons to blast.
But gradually there is no advantage.
And the duel between the two powerhouses gradually showed a one-sided situation.
"Huh? What's the situation?"
"It seems that they have studied our weapons and equipment. Our weapons can't harm them, but their
weapons against us are wave after wave…"
"Yes, not only that, but they seem to know our ability and talents! They are completely targeted to us!
We have killed and injured too many people!"
…
Soon, the army of the Kingdom of God discovered the problem.
It seems that the Eagle Nation knows everything about them.
The design of weapons and the talents of the strong or the execution of tactics and plans.
Everything is set up for them in advance.
Look like this!
The Eagle Nation is too familiar with them.
Know everything about them.
Especially the weapons and talents they are proud of.
They were all targeted.
The longer the time, the more obvious this feeling.
The deaths and injuries of the army of the Kingdom of God have also become more and more severe.
…
In less than an hour, a quarter of the forces of the Kingdom of God casualties!Now this loss is greater

than the damage of the four super bows just now!
Don't talk about rolling!
The Guardian of the Galaxy Alliance was able to compete with the army of the Kingdom of God five or
five times!
Shock!
This is too shocking!
They probably can understand why the main gods still fears the war Eagle Nation.
This is the reason!
And compared to other power countries, the Warhawk Nation is too familiar with them.
And there have been technical exchanges and so on three years ago.
At that time, the Lab of the Gods provided a lot of technology to the Eagle Nation.
The Return of the God of War [The Protector] Chapter 2919
Now think about it is to expose the hole cards to others!
Maybe people researched the latter based on which technology at the time, that is, the current
technology of the Kingdom of God.
Everything is too clear.
Know everything before you can target it!
Next, the Galaxy Guardian Alliance took out a new weapon and started bombarding!
This weapon is taken out.
The army of the Kingdom of God was injured again.
They were surprised to find that this weapon turned out to be a bit more advanced than that of the
Kingdom of God.
shocked!
This is unimaginable for everyone in the Kingdom of God!
There are even more advanced weapons than them…
You know, the Lab of the Gods controls the most powerful technology in the world!
There are even more people than they think!
This is unacceptable and unimaginable!
Coupled with the collapse of the current war, the mentality of the army of the Kingdom of God is about
to collapse.
"Kill! Kill directly from here!"
But at this time the army of the Kingdom of God was also thrown out.
Mr. X started to attack.

Lead the army of the Kingdom of God to start a fierce attack on the Galactic Guardian Alliance.
Although the weapons that the Eagle Nation took out were threatening. But still lag behind the kingdom of God in the number and level of the strong!
Otherwise, the Eagle Nation would be too strong to imagine.
All of a sudden, a super war broke out.
The injuries on both sides were extremely severe.
However, under the impact of strong men such as Mr. X, he quickly slammed into the front of the Galaxy
Guardian Alliance, blazing a trail.
Mr. X has waited for more than ten strong people, united, and crushed everything with an invincible
posture.
The strong match for the Galaxy Guardian Alliance.
They rely on advanced weapons and technology.
But once you encounter such a strong person, there is no way.
Numerous casualties!
Even they don't even have a strong man like Levilia, let alone stop him.
After a few minutes.
The army of the Kingdom of God has opened a bloody path in the middle of the Galactic Guardian
Alliance.
There is no matching powerhouse, it is impossible to stop Mr. X and the others.
"Do you want to use the secret artifact now?"
Someone is already asking.
"No need! The secret artifact is not used to deal with them!"
Chief Smith said coldly.
"Don't worry, none of them can escape, and neither can the chief priest!"
Smith, don't say anything meaningful.
This group of senior leaders is very calm and doesn't feel any sense of crisis at all.
Just looking at the direction in which the army of the Kingdom of God is fleeing, smiling.
It seems that everything is under their control.
This made the Black Hawk agent more and more curious.
What exactly does the Eagle Nation have to rely on?
Looking at the posture, can you play the kingdom of God between your hands?
What is behind the Eagle Nation?
This made Agent Black Hawk very anxious.

“Rumble…”
Just when Mr. X led the crowd to kill a bloody road, thinking that he could escape.
Suddenly, the sea in front of him rushed into mountain-like waves.
Then a super large vortex appeared in the sea, scaring them all.
Terrible energy is surging.
It is as if a volcano on the bottom of the sea erupted directly.
deterrence!
This moment.
In such a situation, everyone in the army of the Kingdom of God is afraid!
Now, their majesty as gods has long been lost.
They may die at any time and have to fear any situation that may happen.
Especially this huge vortex suddenly appeared, blocking their way.
This is for them.
Have to guard against…
“Wow…”
In the next moment, something appeared in the whirlpool!”His! Hiss! Hiss…”
Along with something appeared in the whirlpool.
The voices of the kingdom of God are endless.
Because a behemoth appeared from the whirlpool.
The shape is exactly the same as the Leviathan built by the Dark Doctor…
It’s just three times bigger!
It is a super giant creature with a height of 300 meters and a length of kilometers!
Shocked!
It was shocking!
Such a big guy suddenly appeared in front of him, and even everyone in the kingdom of God was
dumbfounded.
It’s too big!
Leviathan is shocking enough.
This turned out to be more than three times bigger.
The most important thing is exactly the same structure as Leviathan.
This is purely designed and manufactured with Leviathan!
*“f*cked!!! We were fooled!!!”*
Mr. X called out in surprise.
They didn’t understand until this moment.
The Return of the God of War [The Protector] Chapter 2920
It turned out that all the Leviathans were hidden under the energy power station of the Eagle Nation.
People know it at all!

Not only did he know, but he also acted on Leviathan.
I have at least thoroughly studied it, otherwise the giant creature that appeared in front of me could not
be explained.
But they are too strong, right?
How long did Leviathan appear?
It actually created a giant creature several times that of Leviathan, and in terms of its material, function
and even combat effectiveness, it was much stronger than Leviathan.
How did you do it?
This caused everyone in the Kingdom of God to have a cold sweat.
It's going to be numb.
crazy!
Another person was extremely shocked.
That is Agent Black Hawk.
He didn't know that the Eagle Nation still had this kind of hole cards?
What he thought for the first time was that the Eagle Nation had long known about Leviathan's hiding in
the energy power station.
He immediately understood.
No wonder the head of the game, Smith, was in such an attitude, not curious about everything, as if he
was in control.
Sure enough, they knew all this for a long time, and even analyzed Leviathan.
The major forces think they are in control of everything.
How do you know that the real behind-the-scenes man turned out to be the war eagle country.
Control everything in your own hands!
Looking at the giant creature much stronger than Leviathan in the distance, he was frightened.
How strong is the Eagle Nation?
How long is this?
Can they create giant creatures that are several times more powerful based on Leviathan?
He has been sweating…
The look in Smith's eyes changed, and the whole person was shaking.
indeed.
The Leviathan Super Edition appeared in the Guardians of the Galaxy League, shocking everyone.
"Wow…"
However, this giant creature is not simply one, but a dozen.

They all appeared in front of the army of the Kingdom of God, blocking their way to death.
No one is allowed to pass at all.
Panic.
Everyone panicked.
This is not their own Leviathan.
If the Leviathan of the Kingdom of God, they have a way to deal with it.
But this is the enemy's, and many changes have been made.
All aspects are completely different!
It can be seen by the naked eye, it is very difficult and difficult to deal with!
After scanning by Shen Guo's instrument, it was found that the giant creature in front of him had no
shortcomings at all.
But they have blocked their way!
Can only be killed abruptly.
Defeat this giant creature!
The army of the Kingdom of God will continue to attack, but this only Leviathan enhanced version all
rushed over.
Even though Bi Leviathan is only more than three times bigger in all aspects, the real threat and power
may be more than dozens of times.
Especially for the past ten years, they only rushed over together.
Block the army of the Kingdom of God.
This is a force that cannot be ignored!
soon.
The Kingdom of God and the enhanced version of Leviathan encounter.
Another big battle broke out.
After confronting these giant creatures, the army of the Kingdom of God is exactly the same as when
Daxia confronted Leviathan.
The defense cannot be prevented, and the offense has no effect.
There is no way to take Leviathan.
The same is true for the current Leviathan enhanced version.The army of the Kingdom of God is
helpless.
Only Mr. X is head-on head-to-head, praying for a solution!
But they are difficult to break through for a while.
Behind him, the galaxy guard alliance army pressed up again.
They can only fight blood.
There is no way!

“The rear coalition forces, are Daxia’s people catching up?”
Mr. X asked vigilantly.
“No! I don’t know if there is any conspiracy! The coalition forces behind us encountered the full
resistance of our small team, and they were stopped. Until now, they still haven’t broken through the
line of defense. How do you feel that they are deliberate?”
The subordinates said puzzledly.
Mr. X frowned and said: “They did it on purpose! Watching us fight the Galaxy Guardian League on
purpose! The hotter the fight, the better, it’s better to lose both!”
Others also said one after another: “Yes, not wrong! They are definitely watching a movie!”
“I want us and the Galactic Guardian Alliance to be greatly injured. In theory, we are all enemies of the
coalition!”
…
Everyone thinks that the coalition forces are now stagnant when they are attacked by a small group of
strong people in the Kingdom of God, because they want to watch the show and deliberately wait…
But they understand that it has nothing to do with conspiracy.
The Return of the God of War [The Protector] Chapter 2921
It’s just because the coalition forces are too savvy.
The strength is really limited!
The only Levilia who could fight was also injured, and everyone else was also injured.
The number is large and the momentum is big, but the ability is really limited, and it is impossible to
break through the defense line of the kingdom of God.
Even if the Kingdom of God only sent a small number of strong people.
But abruptly stopped the coalition…
Everyone suspected it was wrong.
It’s just lack of strength!
If you want to have the strength, you have already fought over.
“That’s good! They won’t come to join our war with the Galactic Guardian Alliance when they watch the
play! Even the Heavenly Master’s Mansion and the Sword Demon Division will not participate!”
“So we don’t have to worry about someone being killed behind! We just need to fight the Galactic
Guardian Alliance!”

Mr. X is very sure.
Other people think the same way.
therefore.
They went crazy next and began to fight frantically with the Galaxy Guardian League.
They no longer have a plan to escape and evacuate, but to kill and start the road to dominance.
Conquer all enemies in front of you and kill them all!
Angry!
Not everyone can bear the anger of the kingdom of God!
The advantage of the Galactic Guardian Alliance lies in its novel and targeted weapons.
And the familiarity with the laboratories of the gods.
But at present they are still too few strong, if the specific target is not in place.
The strong of the kingdom of God attacked, and few people could stop it.
After all, four strong men similar to Mr. X died, and the remaining ten were all there.
There are also a large number of powerhouses similar to the Dark Devourers.
This powerful force cannot be ignored.
kill!
This battle was fought so dimly!
It's too tragic!
Both sides have damages, but the Galaxy Guardian League damages a bit more.
But there are also threats to the kingdom of God, such as the enhanced version of Leviathan.
Rage in the army of the Kingdom of God.
Caused too much damage to them.
This is a problem they all want to solve immediately.
It's just that Mr. X's level doesn't work, let alone other people.
For a while, there is no way around the kingdom of God.
They can only bear this loss.
The Leviathan enhanced version continues to wreak havoc, and the Galactic Guardian Alliance attempts
to use these to defeat the Kingdom of God army.
"Wow!!!"
At this moment, a golden beam of light descended from the sky, passing by at an unspeakable speed.
It was shot from a golden bow and arrow!

When approaching the battlefield, the golden light is infinitely magnified, dazzling like a sun setting,
making everyone unable to open their eyes!
"Puff!"
An enhanced version of Leviathan was penetrated on the spot, and the golden light directly shattered
the body of the enhanced version of Leviathan.
The behemoth over three hundred meters high fell on the spot.
"It's the main priest who has arrived!!!"See this scene.
The whole kingdom of God is boiling.
For them, tears are literally bursting into their eyes!
Many people cried directly!
Even Mr. X is so excited that he wants to cry…
The main priest is finally here!
The grand blueprint of the Kingdom of God is finally about to come true…
As soon as the main gods appeared, everything was ants!
It can only be slaughtered!
Soon these people will die!
None of them will be alive!
This sudden scene shocked both sides, and all stopped subconsciously.
Look at the direction where the bow and arrow came just now!
Sure enough, in the sky not far away, there was a golden figure shining with golden holy light.
Holding a golden crossbow!
God!
God!
Compared to Mr. X from the Kingdom of God, this is what can really be called a god!
What now appears in front of everyone is like a god in myths and legends!
It was shocking!
*"SH*t!"*
Another golden bow and arrow came.
"Puff!"
Pierce a Leviathan enhanced version!
This time, everyone saw it clearly.
The moment it was penetrated, the golden light flourished, like a scorching sun, the light shattered the
Leviathan enhanced version.
too frightening!
This is completely invincible!
*"SH*t!"*

The next moment, everyone saw a golden figure like a shooting star across the night sky, holding a big
sword through a reinforced version of Leviathan.
The Return of the God of War [The Protector] Chapter 2922
"Boom…"
A whirlpool suddenly appeared in the sea, and a golden light of Leviathan's enhanced version shattered
from bottom to top.
A golden figure came out of the Leviathan enhanced version, holding a trident!
Immediately, the enhanced version of Leviathan burst open.
Received one after another golden figures appeared!
Basically every time one appears, the enhanced version of Leviathan will be killed.
…
Soon, all ten Leviathan enhanced versions were removed!
Although the Eagle Nation made an enhanced version of Leviathan, it also paid a very high price,
otherwise it would not only make ten!
Seeing all the ten behemoths fall, the entire army of the Kingdom of God is boiling and bursting!
They all prayed and worshiped in the air.
As if welcoming the advent of the true god…
The arrival of the main divine division means that everyone else is going to die.
As a result, the enhanced version of Leviathan was killed.
This is clearly above the strength of everyone present!
"Whoo!"
"Whoo!"
…
Golden figures are still appearing everywhere, and their appearance will inevitably inflict heavy injuries
on the Galactic Guardian Alliance, causing numerous casualties.
Finally, gather together eighteen figures!
The main divine division originally had only eighteen positions, and later joined Doctor Dark, the only
ordinary human being.
Except for Doctor Dark, all the other eighteen people appeared.
The "true gods" of the eighteen main gods shone like eighteen rounds of scorching sun, so that
everyone present couldn't open their eyes.
"The end of the world is here!!!"

Mr. X they shouted one after another.
One by one excitedly jumped wildly, seeing the arrival of hope.
Eighteen main gods appear, who can stop them?
Fear!
All the Galactic Guardians present were scared.
Even the coalition forces in the rear were scared.
The momentum is too strong.
These eighteen horrors are to the extreme!
Even if he took the Supreme Pill before, he was not an opponent of any of them.
But just now how powerful Levilia is, everyone sees it.
Now that there are eighteen stronger ones at once, that's horrible.
Even the strategizing leader Smith and the others were shocked when they suddenly saw the main priest
descending.
After all, too strong, too strong.
They are worthy of all the titles of God!
The Black Hawk agents were even more afraid.
This is also terrible.
The existence that can make the Galactic Guardian Alliance disappear at any time!
In the distance, Levi Garrison and the others were also waiting. When the true god of the chief priest
appeared, Levi Garrison immediately looked over.These guys of the main gods, all wearing golden
armor, one by one, are as majestic as a god.
He is all overbearing and unparalleled power.
Much stronger than the group of guys I saw in Forbidden Area No. 76.
But God?
Not so much!
To put it bluntly, it's still a powerful race.
This may be a group of races beyond the civilization of the world.
They have the strongest technology and the strongest racial blood talents…
This should be an advanced race that has existed for a long time in the world.
It's just that there are only a dozen people left.
Their purpose of establishing the Lab of the Gods is to restore the grandeur of the previous race, right?
As for the real main body of the Lab of the Gods, it is also a patchwork piece.

For example, Doctor Darkness is an ordinary human being, but because he is too powerful, he was
absorbed into the laboratories of the gods and even joined the main gods.
To put it bluntly, it is a group of powerful mobs.
However, this group of mobs are still developing in the direction of the dozen or so gods.
Levi Garrison understood that the plan to create a god was like the forbidden area No. 76.
But I didn't think it was the creation of the gods of the Lord God Division!
Levi Garrison immediately understood it after observing it.
All the talents and superpowers of the Gods Lab come from here.
It can be said.
All the tricks of these eighteen people in the Lab of Gods!
After all, I learned from them!
powerful!
Too strong!
Eighteen main gods appeared!
Power the audience!
Levi Garrison was all interested.
Unfathomable!
This is the opponent he wants!
Everything he prepared can be used.
He can really release himself.
Let the world see how powerful they are!
Only by gearing up to describe Levi Garrison at this moment!
"It's time to get ready!"
Levi Garrison had gathered Mutant No.13, King Kong No.4, and Fire Cloud Cthulhu.
This combat power seemed to him enough.
It can be compared with the main god Sby.
The Return of the God of War [The Protector] Chapter 2923
In the field, the army of the Kingdom of God successfully converged with the main God Division.
"Daxia is over there! The Town Demon Division and the Heavenly Master's Mansion are watching the
show behind! They are watching us fight the Galaxy Guardian League! They won't make a move for the
time being!"
Mr. X immediately informed the chief priest of the situation.
"In that case! Destroy the Galaxy Guard Alliance first! Then come to deal with the Heavenly Master's
Mansion and the Town Demon Division!"

The main gods made the same decision.
“kill!”
Just when Levi Garrison was approaching and they were about to do something.
The entire kingdom of God, together with the main gods, all slew to the Galactic Guardian Alliance.
They shocked.
The Guardians of the Galaxy Alliance is like paper.
Crash across the board!
The true god of the main divine division is too powerful.
Just one person caused the Galaxy Guardian Alliance to collapse, but this time there are 18 people!
“Retreat! Retreat!”
The Guardians of the Galaxy Alliance can only retreat back.
The loss is too great.
One quarter was killed or injured in one wave.
If you don’t withdraw, the whole army will be overthrown.
The eighteen chief priests are too strong and too strong.
And in the command room.
Agents Black Hawk looked at the decadent scene in front of them, their scalp numb.
How to solve these 18 people?
It can’t be solved at all!
Sure enough, the main priest is not easy to provoke!
However, the Black Hawk agent subconsciously went to look at the faces of the head of the game, Smith
and other high-level officials.
I saw their faces calm, just watching them quietly.
There is a hint of anxiety about the situation at hand.
Their brows were clustered, a little nervous, and they seemed to be expecting something.
But it is by no means nervous about the immediate crisis.
They seem to be waiting for something.
Agent Black Hawk was not nervous at all, and waited with them silently.
Soon most of the main force of the Galaxy Guardian Alliance withdrew to a very back position.
Three aerospace aircraft carriers are floating in the rear sky…
Finally the Lord God Division has chased here!
Suddenly, Smith and the others laughed: “Finally entered the range…”Laughed!
All the seniors including Smith laughed.
Seeing the main gods enter this range, they all laughed.

Where is the fun in the end?
Agent Black Hawk couldn't figure it out for a while.
He even couldn't figure out how the Galaxy Guardian Alliance could solve the main divine division in
front of him.
The key is that they are so calm and calm.
It seems that everything is under their control.
If the kingdom of God is in control, he still believes.
It can be seen that after knowing the power of the eighteen main gods, he became numb.
This can't be dealt with!
With the war Eagle Nation he knew, there should be no solution at all.
Don't know what they are excited about?
Especially when I saw that the main divine division was about to reach the position of the commander's
office!
Do they have any solutions?
"Then let's start!"
At this time.
Smith looked at each other at high levels and began to give orders.
"Start? What started?"
Agents Black Hawk were completely dumbfounded.
Is there really no solution?
The Return of the God of War [The Protector] Chapter 2924
Levi Garrison and the others have been following in the footsteps of the army of the Kingdom of God,
looking for an opportunity to take action.
Just as they were about to choose to shoot again, something unexpected happened to the Galactic
Guardian Alliance ahead.
The aerospace carrier in the mid-air ahead suddenly moved…
These three aerospace aircraft carriers were originally used for transportation.
Suddenly their transport device opened.
It is a technology panel with a height of kilometers on one side, just like a device that gathers solar
energy.
There are densely packed small devices on it.
There may be hundreds of thousands on a panel!
However, there are too many such panels that can be transported.
After all, all three aerospace aircraft carriers are used for transportation.
The number is too large.

That's hundreds of thousands of panels, and they are all merged together at this moment.
Line up directly in front!
It's like a heavenly gate descending from the sky, lying in front of you!
It extends from mid-air to the depths of the sky and sinks to sea level.
Envelop all this sea area.
Separate this world directly…
split into two!
You can imagine how terrible it is!
The enhanced version of Leviathan, just over 300 meters high, gave everyone enough shock.
Compared with the device raised and lowered on the aerospace carrier, the Leviathan is almost the size
of a bird.
Even ants.
It grows so long that you can't see your head at a glance, and you get deep into the deep space and the
deep sea. There are no specific numbers at all!
Divide the world directly into two!
The scene is too shocking and spectacular!
This "wall" that suddenly appeared before my eyes shocked everyone.
Even the eighteen true gods who rushed to the front were shocked.
Can't help but stop!
Stared at the wall that appeared!
Everyone's face is filled with inevitable shock…
Levi Garrison and the others were also shocked.
what is this?
Everyone's ideas are the same!
But such a shocking device is definitely useful!
Maybe it's here to deal with the kingdom of God…
Not only outsiders were shocked.
Together with everyone in the Galactic Guardian Alliance, they are stupefied!
Even the Black Hawk agents, who have a very high status in the Warhawk Nation, are equally shocking.
When did Warhawks have such a device?
Why don't they know?
Even unheard of!
It stands to reason that this device must use a lot of force.
The power of the whole country is impossible!
However, a large investment in scientific research and human resources is bound to leave many clues.

It's impossible to have it at all.
Especially in their status.
But this device appeared out of thin air.
They were all scared silly.
Anyone should be scared!
"This…what's this for?"
Agent Black Hawk couldn't help asking.
Several other people also came over.
Urgently want to know.
Only the head of the game, Smith just glanced at them: "Start the device immediately! Hurry up!"He did
not answer the Black Hawk agent's message.
Instead, he said faintly: "Look at it next and you'll know it!"
Shocked!
Everyone is still in shock!
The device in front of you is like a combination of solar power panels!
But to put it bluntly, it is really similar to a solar power generation device, and even related technologies
are exactly the same.
When everyone was stunned, the device suddenly started.
On this heavenly gate-like wall in front of him, countless small devices were activated.
"Noisy…"
The beams of light flowed between the various devices, fully activated!
Terrible energy is rippling!
The sea began to plop and boil.
Thunder and lightning flashed in the sky, and violent storms struck.
All unnatural phenomena appear.
"Rumble…"
Just heard a loud bang, as if the world was torn apart.
Everyone just feels that the "device" in front of them gushes out terrible energy fluctuations.
Everyone subconsciously hides and resists.
In particular, the eighteen strongest men of the main divine division lit up in front of the golden masks
to resist this power.
It's just that everyone quickly discovered that there was nothing at all.
The device in front of you just thundered, as if a strong wind swept past everyone's eyes.
"Huh? Suddenly my head is so heavy, like there is something giant in it, my head is about to explode!"

“I… are my legs still there? Why don’t they exist anymore, I feel my legs are light enough to float!”
“My head is very heavy, but my legs are very light, what’s the situation…”
“I’m going to faint, feeling my blood flowing back…”
…
Then everyone felt a top-heavy, spinning feeling.
As if everything is upside down…
The Return of the God of War [The Protector] Chapter 2925
It’s like the sky under your feet, and the solid earth above your head!
Everyone feels it!
The blood is really flowing backwards, everything in the body is reversed.
It’s unknown for what reason……
The most terrifying thing is the army of the Kingdom of God, they feel the strongest.
In addition to the basic feelings with everyone, they only feel that their blood and talent are suppressed.
For example, their superpowers and various tricks are no longer available.
Everything is going upstream.
The other way around!
They won’t use it anymore!
For example, there is a strong man who is similar to the Devourer of Darkness, who originally swallowed
and absorbed others.
But now he felt everything was upside down.
As soon as he activated his talent, he only felt that the power in his body was being absorbed outwards.
The whole person will be swallowed by the air.
And can’t control it at all!
There are many similar powerhouses who have encountered this situation and simply cannot cope with
this situation.
Everyone else is unavailable for talent tricks, and everything is going against the flow.
Shocked! It was shocking!
Of course, many people in the Galactic Guardian Alliance and the World Alliance are also affected in this
way.
Even the Black Hawk agents in the command room were also affected by this.
It was just a few people from Smith who came over and handed a box to Agent Black Hawk, which was

placed directly on him, after driving the button.
A set of battle suits flashing with blue light quickly enveloped the whole body!
moment.
Agent Black Hawk's feeling of reversing just now disappeared.
Everything is back to normal.
After other people put on this armor, they are all the same.
Everything is back to normal.
Everyone is shocked!
It seems that the Eagle Nation is well prepared for all this.
…
"This is……"
When Levi Garrison felt this change.
His face also changed drastically.
The variants on the 13th and the Four King Kong were completely restricted, and the energy in their
bodies was completely restricted to death, causing a counter-current situation, which could not be used
at all.
Was completely restricted to death.
There is nothing wrong with him and Huoyun Cthulhu!
It's just the same changes as ordinary people…
"They… they seem to have changed this area!"Levi Garrison frowned and muttered to himself.
"Does it affect the magnetic field?"
Huo Yun Cthulhu asked.
In his experience, this is indeed the case.
In the past, in order to target the super-powered people, various countries have specially manufactured
some devices that affect the magnetic field.
The stronger the magnetic field interference, the more powerful it can be.
Sora has superpowers and top talents, but he can't show them at all.
"No! It's not that simple, it changes the magnetic field! Even the geographical environment has been
changed!"
Levi Garrison said in surprise.
Today, this device of the War Eagle Nation is for Levi Garrison.
It's not just affecting the magnetic field.
It completely changed the magnetic field!
Reverse the two poles of the magnetic field, so the reverse will happen!
The stronger the person, the more he can feel that he enters another place where the magnetic poles

are reversed.
It feels too obvious.
The purpose of this device is naturally to deal with the main god!
Presumably, the Eagle Nation has been waiting.
After waiting for the main divine division and the kingdom of God to enter this area, immediately took
out the device.
But what Levi Garrison thought about was—this device actually separates this area (including the sea,
the sky, etc.) from the world abruptly and becomes an independent small world.
In the true sense of isolation!
This small world has become an area controlled by the Eagle Nation itself!
Magnetic field, gravity, etc., everything is controlled by the Eagle Nation.
In layman's terms-this area is controlled by the War Eagle Nation, they will let you do whatever they
want!
Do whatever you want, lawless!
This is the artifact prepared for the Lord God Division! Great gift!
…
In the command room of the Guardians of the Galaxy Alliance.
The Return of the God of War [The Protector] Chapter 2926
The head of the game, Smith, shouted: "Welcome to God's Forbidden Zone! This is a great gift specially
prepared for you!"
This exaggerated and shocking device is called "God's Forbidden Zone"!
It is a device that was developed by the War Eagle Nation after many years of time, and is specifically
used to target the laboratories of the gods and even the main gods!
God's forbidden zone, the meaning is obvious-control this area and become a forbidden zone where it is
difficult for gods to move!
Even the gods are completely controlled by the Eagle Nation!
This is used to deal with "God"!
The Black Hawk agents on the side saw this scene and fully understood it!
God's forbidden zone, this is used to deal with the Lord God!
horrible!
too frightening!
In the past, Black Hawk agents thought the Lab of the Gods was terrible, and Levi Garrison was terrible! !
But now it seems that the real horror is the War Eagle Nation! ! !

The others are younger brothers!
And the Black Hawk agent instinctively told him-this is only part of the Warhawk Nation, not all.
Behind this behemoth, there is no idea what is standing…
Horrible! ! !
No wonder this group of senior executives such as Smith are so calm, it turns out that they have the
cards, and they are so sure!
Agents Black Hawk they stopped talking, they just stared
See the device in front of you and the battlefield situation.
…
At this moment, everyone was shocked.
Everyone's body changes more and more drastically!
Although I don't know what this device is.
To be sure, this must be extremely threatening.
It was used to deal with them!
In particular, the chief priest also felt the physical changes, which seemed to be restricted to a certain
extent, although the feeling was not particularly strong.
But it will start slowly.
"Boom it!"
"Hurry up!"
…
The device in front of me resembled hundreds of millions of lenses refracting light, making every strong
master of the chief priest extremely annoyed.
The few true gods of the main divine division were about to smash subconsciously.
The sacred artifact in his hand was immediately bombarded!
But the power is greatly reduced.
In this area.
Not only are there restrictions on them, but the power of weapons is greatly weakened!
After all, the most powerful weapons are made of various materials such as metal.In the area controlled
by the Eagle Nation, it is simply too easy to restrict materials such as metals.
A slight influence on the magnetic field can achieve the goal.
However, their weapons are already strong, and they are still powerful!
I thought it was nothing to penetrate this device.
"Boom…"

When their sacred weapon hit the device in front of them, only a strange ripple was produced on the
surface of the panel, without any damage.
Then the ripple disappeared and everything returned to normal!
this……
All the eighteen members of the chief priest were dumbfounded.
"Is this material…"
"This, this…"
Suddenly, they seemed to have discovered something.
One by one, his face changed drastically.
Listening to the tone, it seems to recognize the material of this device.
Know what this panel is made of.
It was a great shock to them!
Every eyeball is about to fly out.
unimaginable!
What is it that makes these eighteen true gods of the main gods shocked to such a degree…
unimaginable!
What else are they shocked!
"Could it be… Behind them is…"
Seems to understand something, the eighteen chief divine divisions are already incoherent.
Looking at each other, the eyes are full of shock!
Immediately every one of them furrowed their brows tightly, their faces were solemn, and they looked
like they were facing an enemy.
Even two of them regard death as home.
The rest of the kingdom of God rushed up.
"Leave it to us here! We immediately smashed the wall in front of us!"
This group of powerful people simply ignored the device in front of them.
I want to break it easily.
It's just that the true god of the main gods said coldly: "You can't open it!
Even if you are not restricted,
it is impossible!"
"Don't talk about you, we can't open it in a short time!"
…
"hiss!"
Everyone gasped.
They all felt that all this was incredible.
There is no way for the main priest?
What to do then?
…

No one knows.
The Return of the God of War [The Protector] Chapter 2927
Now all members of the Kingdom of God have arrived.
Except for the dark doctor and his people.
But at this moment.
Mr. X received a heavy message from Doctor Dark.
To say that Daxia's Summon Division and Tianshi's Mansion are all fake!
Just pretending to look like the legendary Town Demon Division and Heavenly Master's Mansion, the
purpose of doing so is only to shock the kingdom of God.
The result of the Dark Doctor is that the existence of Daxia's two types of legends is legend, and it
doesn't exist at all.
It turned out that Doctor Dark returned immediately after hearing that the base camp had been
attacked.
After a series of investigations, there is this final result.
It's a fake at all!
It's not the real Summon Division and Heavenly Master's Mansion at all!
According to Doctor Darkness, Daxia had long known that the Lab of the Gods was afraid of the
Heavenly Master's Mansion and the Sword Demon Division.
So deliberately fake to deter!
And Doctor Darkness has already checked it out-Levilia's exercises are all created by his own creation,
not a disciple of a Qi practitioner…
What?
Daxia's Zhenmasi and Heavenly Master's Mansion are fake?
But among the coalition forces, did anyone use the giant crossbow to directly shoot and kill the four
Superman machines?
This can't be faked, right?
But after another thought, although the person was killed, in the end, even the shadow of the other
party has not been seen.
Was it really a human who shot his companion?
Is it really the Heavenly Master's Mansion and the Sword Demon Division?
uncertain!
It may also be a high-tech equipment that uses giant crossbows.
Or maybe it's another way.

If it is really the powerhouse of the Heavenly Master's Mansion and the Sword Demon Division, I'm
afraid it would have appeared long ago.
Why hide behind and put a cold arrow?
Then my own judgment is wrong.
It's not that people are waiting to watch the show, waiting for the Kingdom of God and the Galaxy
Guardian Alliance to lose both.
It's the dishes!
Can't attack at all!
There is a problem with this idea!
Now I hear Doctor Dark say so.
I got it right away-counterfeit! It doesn't exist at all!
They were fooled!
Being played around by Daxia!But they thought that Levi Garrison pretended to be the Sword Demon
Division and the Heavenly Master Mansion to frighten them.
In fact, Levi Garrison was trying to force the chief priest to come out!
I have to say that Doctor Dark still has two brushes.
I even found this.
However, after knowing this information, it was useless at all.
Mr. X, they both looked silent.
Especially in the current environment, it is of no use at all.
Now the enemy of the Kingdom of God and the Lord God Division is not Daxia at all.
But familiar with their war eagle country!
And this information was known too late, too late.
crucial moment.
Mr. X told: "Doctor Dark, you must hide, there may be an accident here! You must not come!"
The situation was severe, and at the beginning he hoped that Doctor Dark would bring reinforcements
to reinforce him.
However, the current scene made him aware of the sense of crisis.
Never come.
What if the whole army is overthrown?
The Dark Doctor must hide, this is their only hope!
The Dark Doctor agreed and would not show up.
Just observe in the dark.
Also kept the last trace of fire for the Lord God!
...
In the field.

The main gods and the powerhouses of the Kingdom of God tried to dig through the panels, but they
couldn't succeed at all.
And their restrictions are getting stronger.
Even the eighteen of the chief priests felt terrible restrictions.
If there is no solution at this time.
They knew what they were facing next.
And the eighteen main gods know more, such as the material of the panel and so on.
They know the consequences better.
"Retreat first!"
"Quickly evacuate!"
"Quick! Withdraw and withdraw!"
Someone gave the order to retreat.
The army of the Kingdom of God wants to withdraw.
Can be the next second.
They were surprised to find that, not to mention escaping, it is extremely difficult to even lift their feet!
It seems that a pair of legs weighs 10,000 tons, how can they be lifted!
The stronger the restriction is, the more terrible it is!
For example, Mr. X seems to have Mount Tai hanging on his feet.
You can't lift your feet at all, let alone move.
He couldn't even lift his arm.
The other parts of the body are the same, and they can't move at all.
It will not help to exert the greatest strength!
I tried my best to move my body, but even if my body exploded or torn, it couldn't move a bit.
not only.
Mr. X tried it.
The Return of the God of War [The Protector] Chapter 2928
His talents and various tricks and skills can not be displayed.
Under the control of this field, everything seems to be lost.
They were deprived of everything.
They are just ordinary people.
Even worse than ordinary people!
The real effect of the device "God's Forbidden Zone" is here!
This is an area (world) controlled by the Warhawk Nation. Here, they can control everything.
The device function is activated, so that all the talents and tricks of this group of strongest people can't
be used.
It is difficult for them to move, even to lift their feet.

The bloodlines of which powerful races are directly sealed!
Even the lives of many people are rapidly drying up, no matter what kind of physique or race you are.
In this domain controlled by the Eagle Nation, anything can happen.
"Boom…"
Suddenly, a strong man next to Mr. X was directly crushed by an invisible force that suddenly rose,
dripping with blood…
"what!!!"
Small blood holes began to appear in another person's body.
Until the whole body is…
"what!!!"
Along with the hysterical screams, another person's body was gradually corroded…
I don't know what substance it is!
…
The screams of killing pigs and miserable scenes are everywhere.
Everyone in the army of the Kingdom of God is controlled in place like a lamb to be slaughtered.
He couldn't move at all, and could only wait for death to come.
And everyone's death method is different.
They were all butchered in unexpected ways.
Everyone is watching their companions being killed!
miserable!
It's too miserable!he key is not knowing how you will die?
When will I die?
Especially when I saw all my surrounding companions fall down, it was time for me to come right away.
This countdown to death is the most terrifying!
Both those facing death and those waiting for death made the most terrifying screams!
Even Mr. X panicked to the extreme.
People around me died tragically in various ways one by one!
Can he not be afraid?
Think about how mighty the Kingdom of God is. It wants to unify the world and become an enemy of the
whole world.
But now?
One by one is like the lamb to be slaughtered.
Let others be slaughtered, and can't make any move to resist the struggle.
It's too miserable, too miserable!
How can it be?

How can it be?
This is the inner thought of everyone in the Kingdom of God!
Why can this device of War Eagle Nation easily target them!
They must be too familiar with us!
They know our strengths and weaknesses, so they can target them!
The Kingdom of God has never underestimated the enemy.
Even the war eagle country has always been regarded as a joke.
As long as the Eagle Nation does not dispatch, the chief priest will not come out.
But no matter what, for the main gods and the kingdom of gods, as long as the war eagle nation makes a
move.
They still won it easily.
But who could have imagined that the War Eagle Nation should be so fully prepared and have such an
artifact against them!
This is beyond everyone's expectations!
The technology of the Eagle Nation is above the laboratory of the gods!
Plus so familiar.
That's why it can be targeted like this!
All parties in the world coalition were stunned.
Controlled the army of the Kingdom of God so easily?
Even the strongest eighteen are the same?
So easy?
To know how miserable they were fighting, how many people were killed or injured, and how much they
lost…
Basically facing a situation of no fight.
But in the hands of the War Eagle Nation, it was so easy.
This is too shocking…
Levi Garrison was also very shocked!
Originally thought that he could fight against the powerhouse of the main divine division.
I don't know if I don't need it now!
The Eagle Nation is terrible.
He and Huoyun Evil God must hide far away.
To escape from the territory controlled by the Eagle Nation.
Otherwise, they will also be restricted, and if they are targeted again, the trouble will be great.
War Eagle Country? ? ?
Levi Garrison touched his nose, and it was only at this moment that he realized that the threat of the

War Eagle Nation was far greater than that of the Gods Lab.
They are the strongest!
If nothing else, just the setting in front of you is enough to explain everything.
What exactly does War Eagle Nation have?
Why is it so powerful?
Levi Garrison even remembered that he was arrested by Tianshield some time ago.
The weapons used by that group of agents, such as "Shen Shen No. 1", are extremely advanced, and can
even be said to be the strongest.
Seeing that the laboratory of the enemy gods was about to be taken away by a pot.
But Levi Garrison was not happy at all.
On the contrary, his complexion was extremely heavy.
He is also not clear.
Does the device in front of you limit yourself?
He dare not try!
Engaged for a long time.
The Return of the God of War [The Protector] Chapter 2929
The Eagle Nation is the one that hides the deepest and deepest!
too frightening.
Levi Garrison did not participate in the shot.
Just watching the scene in front of me quietly…
Now the army of the Kingdom of God and even the chief priest is under control.
The army of the Kingdom of God is dying one by one.
The eighteen strongest people of the main gods can clearly move around.
But at this moment.
A legion wearing a special armor appeared.
They are armed with special weapons and quickly walk through this area.
They are not affected by this area at all.
All of their equipment can completely offset all the negative effects of God's Forbidden Zone.
There is no restriction on them.
These legions were obviously used to deal with the chief priest.
Next, they will wipe out the eighteen strongest of the main gods in one fell swoop.
"Lord God Division, your end is here!!!"The eighteen members of the chief priest saw the attack of this
legion, and seemed to have understood something.
One by one showed solemn expressions.

As if to know their ending today.
In other words, from the moment when the panel was attacked, after knowing what material it was, I understood everything today.
I don't know what is their relationship with the warhawk country…
Under the control of the forbidden zone of the gods, the eighteen powerhouses of the main gods were greatly restricted.
Originally, they all had golden light on their bodies, but now they were affected by the control of the forbidden zone of the gods, and they had them directly.
Their weapons could not be used at all and were completely restricted to death.
In the realm of the Eagle Nation, they are like lambs to be slaughtered.
…
"Everyone, welcome to the forbidden zone of the gods! The next to greet you will be the God Killing Legion!"
The Sight God Legion wearing battle armor was all thrown into the battlefield.
Carried out a massacre against the army of the Kingdom of God.
Now the army of the Kingdom of God, one by one, is under control.
Can't move.
Let alone struggle with resistance.
Can only be slaughtered one by one.
one hundred!
…
one thousand!
…
Ten thousand!
The army of the Kingdom of God fell more and more, and all of them were slaughtered to death.
The main Shinji who the other party wanted to support was also tightly trapped.
In the forbidden zone of the gods, they are subject to too many restrictions.
Not only are the restrictions on the magnetic field, etc., but there are also many restrictions specifically aimed at them.
All strengths are difficult to play.
Moreover, the equipment and weapons of the God Killing Legion were used to target the Lord God Division.

…
The slaughter continues.
After a while.
Only a few people remain.
“no, I do not!!!”
Mr. X screamed in horror.
Just killed!
Levi Garrison also looked at it with regret.
He really wanted to touch him.
In the end, he died so tragically.
There is not even a chance!
It’s also funny!
Levi Garrison shook his head helplessly!
This is a real generation of heroes!
I don’t know how many levels higher than Richard!
“Hey!”
Levi Garrison let out a long sigh.
Soon, the army of the Kingdom of God was basically destroyed.
All were slaughtered.
One is left.
There are only eighteen of the chief priests.
Still struggling.
However, in the “God’s Forbidden Zone”, their abilities are completely restrained, and they can’t even
display one-thousandth of their true strength…
In the face of the nemesis “God Killing Army”, there is no power to parry.
The equipment and weapons owned by these people in the God Killing Legion were specifically aimed at
them.
Otherwise, relying on the body and blood of the eighteen strongest masters, even standing and letting
you kill, you won’t be able to kill them, you won’t be able to stab them at all, let alone kill them.
But the weapons in the hands of the God Killing Legion were specially used to deal with them.
“Puff!”
In an instant, it penetrated the body of the eighteen strongest masters of the main gods.
They looked at the weapons that penetrated their bodies, with unbelievable faces.
“this……”
Their eyes are about to fly out.

really……
Sure enough, the Eagle Nation knew them best.
Know everything about them.
All this is prepared for them!
“哢嚓…”
After the special weapon penetrated the body, their bodies split a little bit.
…
There is no time for them to display their extreme combat power.
It’s just a little bit of a sledgehammer when killing Leviathan Enhanced…
They were all targeted for death, and they were easily manipulated between the palms of their hands.
Killed all in this aggrieved way.
The Return of the God of War [The Protector] Chapter 2930
Levi Garrison was the most depressed.
There is no fight at all!
He has done so much preparation and hard work.
Isn’t it just to deal with them?
As a result, they were wiped out like this.
But in the end it is a good thing.
But Levi Garrison always feels regretful…
So far!
The laboratory of the gods and the main gods were all slaughtered by the Galactic Guardian Alliance.
No one is left.
The whole army is overthrown…The tragic ending of the Lab of the Gods in this way is something no one
would have imagined.
So easy?
Isn’t this a dream?
Or do you see a phantom?
Suspect!
Deep doubt!
The main reason is that the Galactic Guardian Alliance has solved the Lab of the Gods because it is too
simple.
This is hard to guard against!
It makes no sense at all!
Almost wiped out the entire world coalition army, but they solved it so easily.
Of course, it is not easy to solve. The device was first made, and I don’t know how much it cost.

It confirmed that sentence-one minute on stage, ten years of work off stage.
Perhaps for this short half-day, the Eagle Nation has been deployed for decades!
However, the Lab of the Gods was wiped out, and the coalition forces should worry about it next.
What if the Galaxy Guardian League suddenly attacked them?
What should they do if they are so strong?
Even the Lab of the Gods is not an opponent, even in this way.
But can they be sure about it?
Their device is also terrible.
But Levilia frowned.
This device should not restrict him.
Powerful people like the main gods rely on their own blood and talents, and rely on their innate abilities.
After knowing this, it is easy to be targeted!
And she has practiced it herself, her own exercises, and she can also use natural elements for her own
use.
Although this area is controlled by the War Eagle Nation, Levilia can use his own techniques to use the
natural elements in this environment for his own use.
So as to fight back…
She is ready to fight…
Even Levi Garrison in the dark had already turned to the other side of the device.
He was calculating how hard he used to smash the panel with a punch.
Once the war begins.
He will ransack his home from the rear.
I promise to let this device smash, it won't be useful…
"Rumble…"
But at this moment.
Accompanied by the movement of the earth and the mountains, this device actually shrank.
Under everyone's eyes, the device shrank to three aerospace aircraft carriers.
Retire!
do not fight!
The senior officials of the Galaxy Guardian Alliance shouted: "The war against the Kingdom of God is
over, and it is fully victorious!"
The Guardians of the Galaxy Alliance withdrew.

No action was taken against the coalition forces.
Everyone is a little confused.
According to their ideas, this time is the best time for the Guardian of the Galaxy Alliance.
The offense is the best at this time.
But no!
Even Levi Garrison was wondering.
If the Galactic Guardian Alliance has the heart to dominate, it will definitely attack at this time.
Swallow the coalition forces in one fell swoop.
After all, under the ravages of the Kingdom of God, it was already scarred.
The Guardian of the Galaxy Alliance is a new force and also possesses this kind of artifact.
The best time is not to shoot.
Unscientific!
unusual!
Are they afraid of something or thinking about it?
This made Levi Garrison and others puzzled.
It's incredible.
It's not just that they are puzzled.
Even the Black Hawk agents do not understand, shouldn't they take advantage of the momentum and
attack the world coalition forces in one fell swoop?
Let them have no chance at all!
Rumble in one fell swoop!
And for a long time, the war eagle nation has the heart to dominate.
And it is absolutely no less than the laboratory of the gods!
This kind of best opportunity.
give up?
It's too hard to imagine.
At this time, only Smith and a few high-level executives gave an order:
"All the Guardians of the Galaxy
Alliance retreat!"
Not only received all the equipment, but also withdrew it directly.
Confuse!
It's so confusing!
I saw that the Black Hawk agents were completely blank and unbelievable on their faces!
They are all ready to fight.
Even the Black Hawk agent wants to speak out about Levi Garrison's strength.

The result was withdrawn.
The Black Hawk agent couldn't help asking: "Head of the game, why do you want to withdraw this
excellent opportunity?"
"Yes, why?"
Others also looked at Smith one after another!From the standpoint of the War Eagle Nation, no one is
willing to give up this great opportunity!
Letting them go is tantamount to letting the tiger go back to the mountain.
Once the vitality of the countries is restored, it will not be so easy to deal with it again.
So we should attack the coalition immediately…
How can it be withdrawn?
Therefore, everyone looked at Smith and other high-level officials without blinking.
The head of the game, Smith, smiled and said: "I know what you are thinking! But I tell you, things are
much more complicated than you imagine! Do you really think we don't want to make a move?"
One sentence stunned everyone.
Everyone's face is incredible.
"The goal of the Galactic Guardian Alliance this time is very clear-it is to destroy the kingdom of God!
There are no other tasks! Now listen to my order to retreat!!!"
Smith gave an order.
The entire Galactic Guardian Alliance retreated.
Shocked!
It was shocking!
The Return of the God of War [The Protector] Chapter 2931
He actually retreated!
There is definitely a hidden secret in this!
Why doesn't the Galaxy Guardian Alliance do it?
What are the restrictions?
What are you afraid of?
For example, what does Daxia have?
But in the battle against the Kingdom of God, everyone didn't see anything.
They have already forced the Daxia countries to the point where the mountains and rivers are
exhausted, and it doesn't matter what cards they have?
Don't know what to fear?
If they have hole cards, it is estimated that they will all be taken out.

Why wait until the casualties are so heavy?
The first thing that came to mind of Agent Black Hawk was Levi Garrison!
Did Smith know about Levi Garrison?
But it's impossible!
He also tried specifically, Smith and the others didn't even look at Levi Garrison.
That kind of contempt is absolutely ignorant of Levi Garrison's strength!
So why exactly?
What is there in it?
It's just that the Black Hawk agents at their level are absolutely inaccessible.
A deep doubt was buried in their hearts.
Because of curiosity, Agent Black Hawk must find out the hidden information.
Withdrawn!
In the end, the Galaxy Guardians all retreated.
The remaining coalition forces breathed a sigh of relief.
At last there was no fight.
Otherwise, everyone may have to sacrifice.
But they withdrew, making everyone very puzzled.
Puzzled!
What everyone understood, but the Galaxy Guardian Alliance withdrew.
But it was a victory for everyone, and the homeland was kept.
The Guardians of the Galaxy Alliance does not attack, and it is a good thing again and again.
Cheers everywhere!
At this time, Levi Garrison also showed up with someone.
"dad……"
Levilia saw Levi Garrison and immediately jumped up.
"My Levilia has grown up! My Levilia has gone out of his own way!"
Levi Garrison comforted Levilia's head.
Even though he was still a child, Levi Garrison felt so proud to see Levi Garrison being proud.
Others gathered around.
Many lieutenants asked Levi Garrison directly: "Where have you been, Junshi Ye? We have been looking
for you and sending you messages back! Where are you?"
Because of the serious casualties on the front line, everyone's words carry a hint of blame.
"Where did my Daxia go? I tell you! It was him who attacked the base camp of the Kingdom of God, and

it was him who stole the weapons of the Kingdom of God to attack the Kingdom of Warhawks and
forced them to fight! Pretending to be the existence of my Daxia legend to shock He is still in the
kingdom of God…"
…
The talented commander of Tiance who rushed over told Levi Garrison's achievements bit by bit.
Now everyone knew that Levi Garrison had done so much.
Although there is no personal presence on the battlefield, the credit that can be made is greater than
anyone else.
At least ranked in the top three in terms of credit!
Everyone also realized the importance of strategy in this kind of war!
I admire Levi Garrison more and more.
…
the other side.
After the Galaxy Guardian League withdrew, Smith immediately called the Black Hawk agent to the
front.
"Next, arrange an important task! Any power of the Sky Shield can be mobilized!"Agent Black Hawk
became nervous immediately and looked at Smith without blinking.
"The laboratory of the gods is actually not completely wiped out! There are actually nineteen main gods,
and an ordinary person named Dark Doctor is added. He is the laboratory of the gods and most of the
biological transformation experiments are him!
There is another person known as the brain of the gods' laboratory-the brain of God. The technology of
the Gods Laboratory has an inseparable relationship with him! They and their party members did not
appear! "
Smith said with a solemn expression: "So you must find them! Don't look at the one or two people left,
the threat may be greater than the Lab of the Gods!"
"knowledge!"
Agent Black Hawk nodded.
"You must find him in the shortest time! Understand!"
Smith suddenly lowered his voice and said in a deep voice.
"Understand, I can do it!"
The Black Hawk agent assured.

There was also a hint of excitement.
For the first time, it can really mobilize the power of the entire Sky Shield.
Can he not get excited?
And he was wondering whether the withdrawal of the Guardian Alliance of the Galaxy was because of
Doctor Darkness and the others?
It should not be!
Despite the threat.
But it will not allow the Galactic Guardian Alliance to retreat.
"This time, I will equip you and the entire Sky Shield with the latest equipment! To prevent you from
being unable to get it when you meet the Dark Doctor!"
Smith said.
"good!"
After getting the information of the Dark Doctor and God's Brain and others, the Black Hawk agent
immediately led them to investigate.
Smith looked solemn: "Where will he hide?"
Obviously, the threat of the Dark Doctor is great, causing trouble to the Warhawk Nation.
...
Not only did they look for the Dark Doctor.
Even Levi Garrison is also looking for the Dark Doctor.
He has arranged for many people to start inquiring about the whereabouts of Doctor Dark, but the
information is not as complete as the Sky Shield Bureau.
Levi Garrison followed everyone back to Daxia and began to clean up all kinds of mess.
After all, this battle is full of losses, and everyone is seriously injured.
On the way back, everyone was still discussing who used the giant crossbow to shoot and kill the four
powerhouses of the Kingdom of God?
The Return of the God of War [The Protector] Chapter 2932
And the three characters of the Dark God never appear, are they fictional?
But there are on the list of gods, and the dark web admits…
There is a lot of discussion.
After all, victory, everyone's face is filled with the joy of victory.
The four chiefs of Yanlongwei couldn't be happy, they looked solemn and worried.
"What's the matter with you, Head Xiao?"
Tiance Shenshuai couldn't help asking.

“Yeah, we have won big battles, why are all of them unhappy. What are you afraid of?”
Everyone asked.
Xiao Liejun shook his head helplessly: “In fact, there is still a crisis…”
“for example?”
Everyone looked at him and asked.
“Remember those three thousand Leviathans?”
Xiao Liejun reminded this.
Everyone just remembered one after another.
Wrong.
Although the three thousand Leviathans were trapped, it was temporary.
Once let them break free.
That would be a disaster!
At that time, if the War Eagle Nation does not care, then Daxia will be difficult to deal with.
So far, there is no direct way to deal with it…
So this is a potential crisis!
If it is not resolved, it is likely to cause harm to everyone.
“That’s right, isn’t it the word side by side king said, don’t you care about this matter?”
“Why are you still struggling with this!”
Tiance Shenshuai couldn’t help but say.
“How can it not be entangled? This is a hidden danger after all, and even though the King of Side by Side
says that, he doesn’t even know where the Atlantis plan is? I just heard of it!”
“Three thousand Leviathans are just trapped, not wiped out!”
“Only when it is really eliminated, the hidden danger will be eliminated!”
“Yes! This is our current key problem!”
This time, Lu Xiong was also here.
After all, he proposed the plan.
Tiance superintendent believes what Levi Garrison said.
I don’t care about them anymore.
Leave from the crowd.
After Levi Garrison knew about this, he didn’t care about it anymore.
Anyway, the crisis is in contact, and nothing happens, so let them toss.
Then everyone began to discuss how to deal with Leviathan.
Regardless of how easy it is to deal with the enhanced version of Leviathan by the strongest of the main
gods, it is as difficult as heaven for them.
After returning to Daxia.
Yan Longwei announced several decisions–

First, Levi Garrison is still the king and has the right to mobilize. This battle convinced everyone.
The strategy is invincible!
The second is that the safe island project proposed by Levi Garrison will continue and increase
investment.
Not only that, even the national powers that have good relations with Daxia and neighboring countries
must join Daxia to carry out the safe island project together!
Originally, Levi Garrison planned to build 100 safe islands with Daxia, but Daxia is now investing heavily
and uniting countries.
A total of at least five hundred safe islands must be built.
If this is built, there is no need to be afraid of any crisis.
Then Levi Garrison's worries can be resolved.
He strongly supports this.
Let the biblical organization and all aspects be full support.
So the safe island project started immediately.
Coupled with previous experience, all parties will soon be in place…
The third matter, Yanlongwei, was not announced on the spot.
Instead, it became an internal meeting of Yanlongwei.
Even Levi Garrison and Tiance Superintendent were not able to participate.
The theme of this conference is naturally Leviathan trapped in the Atlantis base.
This is a secret in Daxia Secrets.
Of course others can't know.
The Yanlong Guardian will be on guard.
"Next, everyone will discuss how to deal with Leviathan?"
Xiao Liejun presided over the meeting.
Hong Qingcang said: "Why not, let's see what the status of the Leviathans are before deciding our plan!"
Jiang Ye echoed: "That's wrong! It depends on the degree of their trapping. If they are trapped deeply,
we can study it for a long time. If trapped shallowly, we have to think of a solution right away!"
Lu Xiong sighed: "But the base of the Atlantis project is isolated from the world. We don't know what's
going on inside! We can't send someone to see it in person, right?"
"This method is feasible! Let me personally lead the team to see the details?"
Xiao Liejun was the first to stand up.

“I am coming too!”
Lu Xiong also stood up.
The Return of the God of War [The Protector] Chapter 2933
“Several leaders, don’t you have my expertise in this kind of thing? Or I will lead the team myself!”
Cao Zhiguo of the intelligence department finally led the mission and went to the base of the Atlantis
plan.
However, he divided the people who went there into five teams to take care of each other.
In the end, even if you encounter danger, you must desperately send a small team to tell the situation.
Soon, everything was ready.
The five teams set off back and forth.
They are familiar with the road if they have a map.
But when I came to a place where the signal was blocked, I found that it was quite different, as if I had
encountered something here.
But isn’t it? The Lab of the Gods sent a large number of manpower to explore this place, and almost
completely hollowed out this sea area.
But they still go all the way if they have a map.
“Um?”
“Why is this passage different from the last time I came here? It seems that someone has fought before?
It’s destroyed very much!”
“Yes, not only is it different from the one on the map, it’s even different from the last time I came here,
the damage is too serious!”
There are many people in the team who have attracted Leviathan some time ago.
Found that this channel is completely different.
How do they know that the Dark Devourer has chased Levi Garrison here…
However, they came to the base of the Atlantis plan without risk all the way.
It’s too quiet.
Everyone goes deep all the way.
*“f*ck? This…”When someone talks about it, it is the “quintessence” of Daxia.*
After all, in this shocking situation, blurted out.
“Gosh, what did I see?”

“This, this…”
Cao Zhiguo and the others are crazy.
Because I saw traces of the fall of Leviathan in the base of the Atlantis Project…
Although Leviathan’s body was directly shattered at first, all the traces sank to the bottom of the sea.
The traces of this behemoth are too easy to discern.
Three thousand Leviathans!
Three thousand!
They are all killed!
No one left?
It was shocking!
All this is unimaginable!
The question is coming, who did it on earth?
Who has such great ability?
And looking at the battle scene, there was no damage to the seabed base planned by Atlantis.
Of course except for the door.
An obvious huge fist mark fell into the eyes of everyone!
But this must be left by the people or forces who killed Leviathan.
Maybe he was trapped inside, and he had to come out before he broke it with a punch.
Moreover, Cao Zhiguo knew from the information that the walls and gates around the Atlantis Project
base were indestructible.
Therefore, if Leviathan is trapped here, Yan Longwei will be relieved.
It was too exaggerated to smash with one punch.
The main reason is that there are no traces of battle inside.
That means that these Leviathans were all killed instantly!
No ability to fight back!
Don’t even struggle a bit.
You know that they are three thousand behemoths, they don’t even have traces of struggle!
This is no ordinary spike!
It may kill all Leviathans instantly!
How terrible is this? ? ?
Everyone was in a cold sweat, shaking uncontrollably!
Who did this?
who is it?
I can’t think of who…
From the Eagle Nation?
This is your first thought!

After all, the Galactic Guardian Alliance just defeated the Lab of the Gods!
They can all create an enhanced version of Leviathan, and it's definitely not a problem to deal with
Leviathan.
But the only thing that doesn't make sense-the war Eagle Nation can't know the plan of Atlantis of Great
Xia.
If it weren't for this emergency situation, the leaders of Lu Xiong would not have raised it.
If the Eagle Nation even knew this, it would be terrifying.
But I don't know, this idea can be ruled out.
"Who will it be? When is the Atlantis plan still hidden? This has not stopped! What strong people or
secrets are there to protect?"
Cao Zhiguo muttered to himself.
"It's very possible! In my opinion, half of such a huge project has not been repaired? It's just stranded?
The reason can't be that simple, right?"
"That's right! It took so many people to disappear for so long with the expense of financial resources
and materials, and the whole base was unfinished? It is unbelievable? I think there must be something
in it…"
…
Everyone looked at the magnificent base in front of them. Although it was quiet, it was terrifying to the
extreme, as if there was something in the depths.
Of course they suspected that Leviathan was eliminated by whom, they were all wrong.
That's what Levi Garrison did!
What's up with other people!
However, their doubts about the midway of the Atlantis plan are justified…
After all, such a magnificent project is half-finished?
Spent so much manpower, material resources and financial resources.
You know, this project was a long time ago.
At that time, it was hard in all aspects, and it was a far cry from the present!
Building this, to be honest, is thousands of times more difficult than it is now!
This plan shouldn't be abandoned…

But it was so abandoned.
The Return of the God of War [The Protector] Chapter 2934
Moreover, the location chosen is to isolate everything from the world, even modern technology, the
technology of the Gods Laboratory is not good!
These are enough to illustrate the unusualness of this place.
There is definitely a reason for the sudden suspension of the desertion!And this reason must make your
scalp numb, and once it comes out, it will shock the whole world!
Everyone looked ahead with solemn expressions.
Cao Zhiguo said silently: "Unfortunately, I only read a little bit of the top-secret files. I heard several
leaders say that they didn't mention the reason! I don't know what the reason is!"
"Let's leave as soon as possible! Tell the leaders of this message!"
…
Feel the fear in this place.
Cao Zhiguo immediately evacuated from this place with five teams.
"What? Leviathan was all wiped out? Isn't that impossible?"
When the leaders of Yanlongwei learned about this, their faces were unbelievable.
"Yes……"
After Cao Zhiguo explained everything in detail to everyone.
More and more shocked!
Kill three thousand Leviathans instantly, without any traces?
"Who did it?"
This is everyone's question.
"This time I seem to have heard that the king is playing the legendary Heavenly Master's Mansion and
the Summon Division to frighten the kingdom of God. However, it is said that the Heavenly Master's
Mansion and the Summon Division do not exist! It's fake!
Is it possible to be true? They do exist! Help us get rid of Leviathan! There is also the use of giant
crossbows to shoot and kill the generals of the Kingdom of God…"
Cao Zhiguo analyzed the way.
"Do not rule out this possibility! But for the time being, this matter is kept secret! Never mention the
destruction of Leviathan to anyone! Let others be suspicious, so that it can act as a deterrent!"
Under Xiao Liejun's suggestion, this matter was digested internally.
It has not been passed on.

Classified as confidential.
This makes everyone suspicious-where is Leviathan trapped? What is Leviathan now?
…
Levi Garrison's rare leisure time over there, reunited with his family.
But he also has doubts.
In addition to Doctor Darkness, there is also why the Galactic Guardian League retreats suddenly, which
also makes him feel a headache.
He couldn't figure it out, but he didn't think it was that easy.
It seems that I have to find an opportunity to go to War Eagle Nation to ask Black Hawk agents.
…
Since the kingdom of God was defeated.
The Guardian of the Galaxy Alliance immediately occupied the kingdom of God's future science and
technology.
People, kill them.
Things, carve up.
After all, the things of the Kingdom of God are good things!
In the end, this future science and technology city was taken over by the War Eagle Nation, and the
Black Hawk agents also brought a large number of agents from the Sky Shield.
The purpose is to check the whereabouts of the dark doctor and the brain of God.
It's just that I rummaged through the entire future science and technology country, and I didn't find the
whereabouts of Doctor Dark or the slightest clue.
In the Black Hawk agent's opinion, the Dark Doctor is likely to make a comeback using the equipment of
the Kingdom of God's base camp.
It now appears that he has completely abandoned this place.
And at this moment in an office of the Cancer Medical Center of the Xinjincheng General Hospital of the
War Eagle Country.
"Payton" was written at the door.
Apparently the owner of the office is Peyton.
This is a trump card of the medical center, with outstanding achievements in cancer treatment.
As for the people sitting in the office, no one thought it was Doctor Dark.
Who can think of it.

He was right under the nose of War Eagle Nation, in the best hospital in New Jincheng of War Eagle
Nation, and he was still a first-class expert.
On the surface, he is just a doctor, loved by others…
But who can think of his deep identity?
He is just an ordinary person, commuting to and from get off work normally in the hospital…
Who can think of it.
Doctor Dark is here.
He has just finished the treatment for the patient, and this patient has been treated with him for two
years.
Because of this, the Dark Doctor can hide.
No one would lean him against Doctor Dark!
There is no connection at all!
Many patients, and even many people in Xinjincheng, know Dr. Payton.
I have been conscientious and conscientious, where there is no time to do other things.
But no one knows.
This medical center is actually the private domain of Doctor Dark…The most frightening thing is that the
entrance to this private realm is in the morgue!
Only through the morgue with heavy corpses can you reach the entrance.
This is something no one thought of!
After all, except for some specialized personnel, who would dare to enter the morgue.
Let alone know the back
And when the new Jincheng General Hospital was built, the private territory below was repaired.
As a result, after so many years, no one knew that the deepest wall of the morgue was actually
connected to another place.
He is doing various experiments below and making a shocking scientific research project.
Otherwise, it would be too tired for him.
It is necessary to act as a good doctor, but also to undertake research in the laboratories of the gods.
The so-called big hidden in the city, the dark doctor hides it too well.
After an operation, Doctor Dark went straight to the morgue, opened the secret door and entered.
It's totally different inside.
There are many advanced facilities.

Among them, the brain of God is also there, analyzing something with equipment.
"The Eagle Nation has sent all the forces of the Sky Shield to look for us frantically all over the world.
They are so familiar with us!"
"Even if you hide to this extent, it's only a matter of time before I find you!"
Said the brain of God.
This time the laboratory of the gods was destroyed, letting them know how deep and terrifying the
water in the War Eagle Nation was.
First, the Eagle Nation is too familiar with them.
Second, there are forces or backers behind the Warhawk Nation.
It's scarier than anyone thought.
Even Doctor Dark showed a solemn expression: "Yes, I am so familiar with us! Even I have more detailed
information! This place will be found soon!"
"So what should we do? What should we do?"
God's brain and others looked at the dark doctor one after another.
"Whether it is the World Allied Forces or the Galactic Guardian Alliance! They are the murderers who
destroyed the Lab of the Gods! They destroyed everything we worked so hard to manage! Now there is
no place for us to hide!"
The Return of the God of War [The Protector] Chapter 2935
"Obviously we should dominate the whole world, and now we are all reduced to street rats! Hate!!!"
The Dark Doctor is really angry.
He didn't know how long he lived, but he dedicated everything to the laboratory of the gods.
Create one after another terrorist plan.
He really paid too much.
As a result, everything is now in a bubble.
Can he not be angry?
He ruined everything he built!
"Take revenge! I want to take revenge on them! Vengeance on everyone! Vengeance on the world!"
The Dark Doctor shouted.
If it's someone else who says things like revenge on the world, you might think he is a lunatic.
How can it be done?
One person still wants to retaliate against the world?

What do you want!
But he is the Dark Doctor!
He can definitely do it!
What's more, there is a top assistant like God's Brain nearby.
He wants to say revenge against the world is absolutely possible!
"Well, good! Let's go crazy again!"
God's brain is equally angry.
Follow the dark doctor.
"But how do you start?"
The other personnel looked at the dark doctor and asked.
easy to say, hard to do.
Even the brain of God stared at the dark doctor.
Suddenly Doctor Dark smiled.
"Although they are familiar with everything about the laboratory of the gods in the War Eagle Nation,
even the main gods can easily grasp it! But there are always things they don't know. The world is full of
changes and hides many, many secrets. Some are good for this world, It has a stimulating effect. But
some are catastrophic, and once they appear, they will be destroyed…"
With that, Doctor Dark showed a terrifying look on his face.
Over the centuries, they have explored too many places in this world, and they have controlled too
many secrets.
There are always some things that the war eagle nation does not know.
God's brain also understood something, and the body began to tremble.
Staring at Doctor Dark, he asked nervously, "Will this be too extreme? Is it really going to start?"
After knowing what Doctor Dark is referring to.
He became scared.
Certainly this incident exceeded his psychological expectations.
"At this time, what kind of extreme are you afraid of? If it is not extreme, do you think you can get
revenge on Warhawk Nation? You have seen the ability of Warhawk Nation this time. General revenge
does not work on them! Only in this way can revenge on them and revenge. worldwide!"
"I've decided on this matter before they find us! It must be implemented! So that we can die safely!"
"Next we have to prepare immediately! The speed of the Sky Shield will only be faster than we
thought!"

Doctor Dark looked solemn again.
“Understood! Let the world see the anger of Destroying the Gods Laboratory!!!”
Everyone in the brain of God began to shout.
…
The speed of the Sky Shield is indeed fast.
Under the leadership of the Black Hawk agent, all the previous bases of the Gods Laboratory and the
bases of Daxia in the later period were searched.
Strive not to miss any corner.
The power of the Sky Shield is too strong.
In a short time.
Just search all the locations related to the Gods Lab.
There are no clues.
Not to mention finding the Dark Doctor.
The Black Hawk agents gathered together and made an embarrassment.
“Even though we have the information, the information is still not detailed enough! Because the Dark
Doctor is hidden in a corner of the world, just like a normal person. How to find it?”
“Besides, these few photos of him can’t explain anything at all. Isn’t it too easy to make a facelift for an
existence that even Leviathan can create from an ancient creature?
It’s even an exaggeration to say that he can turn himself into an old man, or maybe a child! Both men
and women are fine in terms of gender! How do we find this? “
Agent Blade said.
The polar bear agent echoed: “Yes, it can be said that any person we have seen may be him! It may not
even be among us!”
Agent Black Hawk nodded: “Well, I know this too! Even if we control so much information, we are no
different from finding a needle in a haystack!”
“Too difficult! If he hides, there are too many ways!”
…
At first, Agent Black Hawk felt that it would be easy to mobilize the power of the entire Sky Shield.
It seems very difficult now.
These materials don’t have much effect at all!
After all, that is the only ordinary person who enters the main divine division!

If you can make the head of the game, Smith, be afraid of this, you can judge the threat of this person.
The key is that he is secretly, it is too easy to retaliate against War Eagle Nation.
Considering this situation, they must use the shortest possible time to get people out!
"It's difficult! What should I do now? You can't look for it blindly, right?"
"Yes, at least you have to determine a general direction, right? You can't bump into it like a headless
fly!"
…
Agent Black Hawk frowned, thinking about the method.
"It is said that Doctor Dark has always acted alone, not with the Lab of the Gods! Even though the Lab of
the Gods has disappeared in the past few years, he has been there! But if he is researching, he must
need a laboratory, right? A lot of human and financial resources, right?"
At this time, Agent Snow Leopard said.
"That's right! If he finds the source of his research, he might be a little hopeful! But where is the world
so big? Where to start? Or is there any specific direction…"
Agent Black Hawk's eyes lit up first.
Then sighed.
"Look for Doctor Dark, right? I can help you!"
At this time, a voice came.Several Black Hawk agents were taken aback.
The next second, Levi Garrison walked in.
God appeared unconsciously.
It really frightened them.
Fortunately, Agent Black Hawk and several henchmen knew Levi Garrison's skills.
He recovered soon.
"You are also looking for Doctor Dark?"
Agent Black Hawk asked.
"Of course, his existence is a threat! And it's big and big! If you don't find him, you can't sleep!"
Levi Garrison said.
Agent Black Hawk nodded: "Yes! But he is too hard to find! What can you do?"
"Yes, we have searched all over the world in the past two days! There are no clues!"
Agent Blade said.
The Return of the God of War [The Protector] Chapter 2936

The polar bear agent also handed the information to Levi Garrison: "Just this bit of information, what can I find!"
They all looked at Levi Garrison suspiciously.
I don't quite believe what he can do.
Levi Garrison took the information and looked at it. He smiled and said, "This information is indeed limited! Your Sky Shield is indeed powerful. In such a short period of time, the whole world has roughly found it!"
"But you also have overlooked points!"
Levi Garrison said this.
Everyone looked over.
"What do you mean? The point we overlooked?"
Agent Black Hawk asked anxiously.
Others are even more curious.
"Oh, yes!"
Levi Garrison looked at the people and said, "First, Doctor Dark is hidden among ordinary people. Have you ever thought about his life as? To be more specific, what is his profession…"
Levi Garrison reminded everyone that while everyone was shocked, they responded one by one.
The Black Hawk agent exclaimed, "Do you mean he is a doctor in reality?"
Levi Garrison smiled: "I heard that he loves to dissect all kinds of creatures and races! If he lives among ordinary people and can perform dissections at all times, then the profession of a doctor is the most suitable for him!"
"Yes, Doctor Dark was a doctor in his previous profession! In the lives of ordinary people, he is likely to be a doctor!"
Agent Black Hawk exclaimed.
Others also showed ecstasy.
Determined the direction!
Before, it was headless flies crashing and searching blindly and directionlessly.
But this time is different.
There is a direction!
Regardless of whether Doctor Dark can be found in the end, at least there is a direction now.

Just look for a doctor according to his profession!
This is the general direction is determined!
"anything else?"
Agent Black Hawk asked excitedly.
As soon as this direction came out, he was already excited.
Others also hurriedly looked at Levi Garrison and asked the second point.
"The second point, have you ever thought about which area the Dark Doctor is in? Specifically, in which
country?"
Levi Garrison asked.
"this……"
Agents Black Hawk and Agent Blade seemed to have all opened their minds at once.
There is a direction right away.
They are just looking for blindly all over the world!
I've been looking for the places where the gods' laboratories have been or the traces left by them.
I really haven't thought about where Doctor Dark is.
When Levi Garrison reminded them, they immediately reacted.
Start thinking in this direction.
"Could it be in Daxia? After all, the three-year-old Gods Laboratory that disappeared was in Daxia!"
The Polar Bear agent said.
"Impossible! If it were in Daxia, Mr. Ye must have noticed it!"
Agent Black Hawk said.
He looked at Levi Garrison and said, "Mr. Ye, just say it! Don't hang our appetite!"
"Let's put it this way, Doctor Dark is definitely not hidden temporarily! According to Da Xia's words-Da is
hidden in the city!
Doctor Dark has always lived among ordinary people, maybe decades or even hundreds of years! Or
longer! Everything about him may not have changed from beginning to end! This is the hardest thing to
find! "
After Levi Garrison reminded him.
The Black Hawk agent subconsciously said: "He is in the war eagle country!!!"
The Return of the God of War [The Protector] Chapter 2937
Agent Blade and others also blurted out: "He must have been working as a doctor in the Eagle Nation!"

“It is estimated that he is still a very well-known doctor with a considerable social background!”
…
After Levi Garrison’s on-demand broadcast, everyone responded one by one.
Now the direction is directly determined!
Search every doctor in the Eagle Nation.
“In fact, it is not necessarily the War Eagle Nation, but it must be around or related to the War Eagle
Nation!”
Agent Black Hawk added.
Levi Garrison nodded: “Follow this direction to find it, there is a high probability that you can find it!”
“Well, although it is difficult for doctors to distinguish one by one, and Doctor Dark is extremely vigilant,
he may be able to know our actions soon!
So we need to plan well and carry out this task in secret! “
Agent Black Hawk is very cautious, of course, based on the strength of Doctor Dark.
Must be cautious.
Otherwise, the Dark Doctor will react as soon as the investigation begins.
With a certain direction, everyone became excited.
I can’t wait to check it right away.
“I have to thank Mr. Ye!”
Agent Black Hawk smiled.
“I’m here, in addition to looking for Doctor Darkness, there is one more thing to look for you!”
When Levi Garrison said this, Agent Black Hawk’s face changed.
Bring Levi Garrison to the dark place.
I don’t want other people to hear it.
Even these people are confidants.
“I know what you want to ask… I don’t know, this is not something I can reach at my level!
I don’t know why. I also asked why they didn’t directly attack and destroy the world coalition forces to
dominate the world. But they retreated without telling me why! This is definitely not something I can
know…”
Agent Black Hawk spoke candidly.
Not just clinging to Levi Garrison.
Instead, he said his true thoughts-such as destroying the world coalition forces and dominating the

world.
Therefore, Levi Garrison believed what he said.
And he also understood that Agent Black Hawk was still at that level.
"You are very smart and did not reveal my message to others!"
Levi Garrison smiled.
"But you are right! No matter how strong the Warhawk country is, it is easy to kill you if I want to kill
you! You know this by yourself!"
Levi Garrison added another sentence.
Agent Black Hawk smiled: "I'm afraid of death! I dare not!"
"Okay, go to the Dark Doctor! If you need my help, let me know!"
…
After everyone leaves.
Levi Garrison looked at the Eagle Nation in confusion.
What does it have?
Why is it easy to solve the laboratory of the gods?
It's still so easy!
What kind of existence is this country?
What kind of power is behind…
Strange and familiar!
This is a free country, so there may be many similar to the laboratory of the gods.
It's just that the Lab of the Gods didn't know it, and then inflated, thinking that it was in control of
everything, and was in control of the Warhawk Nation.
As everyone knows that he is the clown!
I thought that to solve the laboratory of the gods, Levi Garrison's mission was completed.
Didn't think…
More powerful is coming.
Moreover, there are still remnants in the laboratory of the gods, and Levi Garrison's eyelids have been
jumping.
He knew that if he didn't get the Dark Doctor out as soon as possible.
Then the danger will come again.
What Levi Garrison can do is to urge the safe island project.
Fortunately, all parties are working together now, and the speed is very fast, day and night in progress.
And with a wealth of experience, the efficiency is very high.
It is expected that the construction of all safe island projects will be completed within one month.
In addition, it is an investigation into the war eagle country.

Investigate why it has become so powerful?
But this is definitely a long-term process, don't want to know the answer in a short time.
It seems that there are secrets in every place.
The Return of the God of War [The Protector] Chapter 2938
Not even Daxia.
Now that I think about it, I feel terrible…For example, Project Atlantis, what is the magnificent project?
If it weren't for such a critical moment, Levi Garrison wouldn't even know.
It made him want to know the reason now.
In the sensational 99 large sea project 15 years ago, 800,000 people were missing for six years! The
world has evaporated!
Why did it suddenly end when it was half built at the beginning.
What is the reason?
What happened?
Or something else?
As for the reason, someone said at that time that the technology was limited and the resources and
money were also scarce, so they gave up.
But Levi Garrison had personally visited this base.
technical problem?
Resource issues?
Money problem?
But the base of the Atlantis plan was completely completed, and it was not a rough structure. Ninety
percent of the bases were completed!
This is a complete base!
neither!
There must be other reasons!
…
On the other side, after being called by Levi Garrison, the Black Hawk agents and the others have
organized the major leaders of the Sky Shield, started a meeting, and deployed the next plan.
However, Agents Polar Bear and Agents Blade, but called Agent Black Hawk aside.
"Boss, really want to conceal Levi Garrison's strength temporarily?" Agent Blade asked.
The polar bear also said: "Yes, I think he is a bit more threatening! After all, we have different positions!

To put it bluntly, we are the enemy! Can no longer help him!"
Agent Black Hawk sneered: "Don't have this idea? Levi Garrison is probably around! If you want to die,
just say it!"
"At the head of the game, they will know everything about Levi Garrison, but we are all going to die!
Don't doubt his strength!"
After hearing the reminder, Agent Polar Bear and Agent Blade thought about the scene of Levi Garrison
shattering the locks of "Shen Shen No. 1" not long ago.
We must know that in the war that just ended, after they trapped the powerhouse of the Kingdom of
God with the God of God No. 1, there was no one who could break free.
But Levi Garrison can be so relaxed.
But the Eagle Nation so easily cleaned up the Kingdom of God, but also because of familiarity and
understanding of the Kingdom of God and the Lord God Division.
But Levi Garrison was a strong man, they didn't understand at all.
It's too easy to kill them.
"Then I want to live! Levi Garrison's strength must not be exposed!"
The two said.
The Black Hawk agent nodded: "Well, even at critical moments, this can be a bargaining chip for our
lives! We must not be exposed!"
"Do you think Levi Garrison is related to the mysterious place that trapped Leviathan in Daxia?"
"I don't know!"
And at the moment.
Yan Longwei is also discussing this issue.
The person who initiated the problem is Cao Zhiguo.
After he went to the Atlantis project base in person, he was full of doubts.
He took the initiative to meet the four leaders.
"Four leaders, can you tell me the reason for the termination of the Atlantis plan! It is definitely not a
technical resource issue? I saw it all completed!"
"There must be a reason for this, there must be a record in the file!? Satisfy my curiosity, I even suspect
that this has something to do with the collective destruction of the Leviathans!"
"this……"
Xiao Liejun showed a trace of surprise privately.
It's as if Cao Zhiguo got it right.

Cao Zhiguo caught the micro expressions of several people and immediately exclaimed: "Look, you must feel the same way!"
"There are no outsiders now, just the five of us, can you let me know?"
Cao Zhiguo looked at the four with pleading eyes.
The four of them looked at each other, and finally Lu Xiong sighed, "Okay, then I will open the file again!"
Soon Lu Xiong took out the dusty files again.
Open in front of everyone.
Lu Xiong explained: "Indeed, as you think! The Atlantis plan was not terminated because of technology or resources! It was something really happened!"
"The reason?"
Cao Zhiguo immediately took the file and looked at it.Cao Zhiguo was shocked when he saw the reason written on the file.
Sure enough, the base planned by Atlantis had an accident when it was finally digging into the depths of the seabed.
In fact, what is currently being built is the infrastructure.
The Return of the God of War [The Protector] Chapter 2939
However, the East China Sea Dragon Palace project is mainly highlighted on the Dragon Palace.
The construction of the "Dragon Palace" needs to go deeper into the deep sea and then dig deeper.
However, something went wrong with this excavation.
Digging to the point where it shouldn't be dug…
The "Atlantis Project" itself was in the deep sea and came to a very deep place.
It was deeper than the plan to penetrate the world that the War Bear Nation prepared to dig…
Completely isolated!
It should be the deepest position in the world with regard to the development of the sea so far.
Even modern technology can't dive so deep!
Even the depth that Atlantis plans to actually excavate is much deeper than the base Levi Garrison saw.
But this is Daxia's top secret, and no one else knows it.
So something went wrong in the process of further digging. Because the digging was too deep, it was too deep to dig it!

What is written on the file is-Dragon Vessel!
But this dragon vein is not what Feng Shui said, but the person in charge at that time called it dragon
vein!
But it's actually a spiritual vein!
Spirit veins is the collective name for vein mineral resources!
It contains all kinds of super new energy!
According to Daxia Powerhouse, it is spiritual energy, which can be cultivated!
After all, it is said that there were many ancient cultivators in Daxia, who cultivated by spiritual energy.
The specific point is that the legendary Qi-trainer Zhen Mosi and the celestial masters of the Heavenly
Master's Mansion rely on spiritual energy to practice.
If they really exist, then they must be practicing in a place full of spiritual energy.
Only places with strong spiritual energy are suitable for their existence.
The place where ordinary people live is exhausted, and there is no aura at all.
Many energy sources in the deep sea have never been seen before by humans!
It is also the direction of energy mining in various countries!
However, the difficulty is extremely high, and not much has been mined.
Not even a dime!
However, the spiritual veins discovered by Atlantis are terrifying!
The reason why it is called a dragon vein is because this spiritual vein is the strongest series!
It is definitely the scariest spiritual vein in this world!
There is no one!
How do you describe it?
It's like an artery of the earth!
The energy contained in it is too exaggerated!
A little bit of release can completely destroy the entire Atlantis project base.
When digging, only a small opening was opened by drilling.
As a result, between the drill hole and the gap between the small mouth, the spirit vein was released
with a little gas, directly smashing all the equipment and personnel of the Dragon Palace project.
There is no specific explanation, but the huge project of the Dragon Palace, manpower and material
resources, have all been destroyed, one can imagine how terrifying it is.

Just what pops out between the gaps is so powerful!
The scientific researchers immediately explored and discovered this spiritual vein in terror.
If it is really cracked open, the energy inside will burst out, which will directly be a devastating blow to
the world!
If this spiritual vein broke out completely, the consequences would be disastrous.
The amount measured with the equipment and technology at the time was enough to destroy the
world.
Then the facts may be ten times and hundreds of times more exaggerated than they predicted.
At that time, they probably also realized this.
Knowing that the actual amount of this spiritual pulse cannot be measured!
They understand that if this hole is opened a little bigger, let alone the base of the Atlantis plan, the
entire East China Sea will be destroyed in an instant, and then the whole world!
And the energy contained in this spiritual vein is definitely not controllable.
Not to mention the technology at the time, it won't be in a few hundred years.
Don't even think about mining and using it.
Because a little bit of mining may cause the entire spirit vein to burst open.
It can't be controlled at all!After digging, they immediately gave up and stopped the small hole
immediately. Then, the project planned by the Dragon Palace below the base was completely filled, and
then sealed.
Chained one after another!
I'm afraid that the spirit veins will burst open!
In order to completely seal the spirit veins, the Atlantis plan was completely abandoned.
This matter has also become a top-secret file.
Otherwise, if this spiritual vein bursts out, it can directly destroy this world, destroying this world from
the inside to the outside.
The Return of the God of War [The Protector] Chapter 2940
Human beings will be extinct, and all buildings will be wiped out.

Even the mountains, terrain, sea, and big rivers have been changed, either disappeared or reorganized.
In short, as long as this spiritual vein erupts.
Enough to destroy the world!
Humankind, the traces of civilization are wiped out on the spot!
It is even an exaggeration to say that this world will fall apart!
The world is ruined!
The lightest result is the extermination of human beings and erasing the traces of civilization!
Another point is that if the Atlantis project does not terminate, continue to send people to run it.
Even if you don't dig further, don't touch the spiritual veins.
But it also suffers from the radiation of the special substances in the spirit veins, and people will die over
time.
So here has become a forbidden zone for life!
Stay away from strangers!
Evacuate all!
The magnificent project is simply abandoned!
Regardless of the price paid before!
Daxia closed this place directly!
The radiation of the spiritual veins is really there!
How many people who participated in the Atlantis project had physical problems.
This makes Daxia more and more determined to seal this "life forbidden zone"!
Cao Zhiguo looked at the file and broke out in a cold sweat.
Although this is the archive fifteen years ago, you may think it is not applicable now.
What they could not solve fifteen years ago can now be easily solved.
But when Cao Zhiguo finished reading the specific data on the file, he took a deep breath.
This spirit vein is really too exaggerated.
According to conservative calculations at the time, if the energy in the spirit veins is converted into
explosive power, it is really impossible to control now, it can only be destroyed…
Lu Xiong looked at Cao Zhiguo's expression and couldn't help saying: "I felt terrible when I first knew it!
So I never told anyone about this secret!"
"I just don't want people to know all this, so as to generate curiosity to touch it!"

Xiao Liejun also said: "This matter is not even known to the Baolong clan of Tiance Mansion. Otherwise,
if these ancient warriors go on an expedition and look for the so-called spiritual energy, wouldn't it be a
big deal?"
"Yeah! Resolutely not let people know! If it weren't for this national disaster to deal with Leviathan, no
one would know this secret."
"This time Leviathan has all been wiped out, so we can rest assured! Finally, don't worry!"
Everyone said one after another.
Cao Zhiguo suddenly realized: "It turns out that you are so afraid of Leviathan, but it is only one aspect.
More importantly, you are afraid that Leviathan might touch the spiritual veins below!"
Understood!
Everything is understood!
Previously, the situation was urgently out of consideration.
But now it's different.
They must be worried.
No wonder the four leaders were so calm after hearing that Leviathan was eliminated, but they were
still very happy.
"Yes! Leviathan is certainly not as harmful as the spiritual veins below! We must be worried about this!"
"So we have to discuss how to deal with Leviathan at the first time, and don't hesitate to send someone
to see it!"
The four nodded.
Cao Zhiguo understood why he was so anxious.
"Now it seems that Leviathan was killed by the radiation from the spiritual veins below!"
Cao Zhiguo said.
"Definitely! Leviathan has a complex structure and incorporates too many substances and elements. It
has a high probability of reacting to the energy in the spiritual veins. The radiation received is more
serious. So it causes the body to split in an instant, which is what you call an instant. kill!"
Xia Liejun explained everything completely.After knowing this reason, Cao Zhiguo also let out a long sigh
of relief.

“Hope our future generations can master it! Let the spirit veins be a boost, not a disaster!”
Cao Zhiguo sighed.
In the age of their survival, this will surely become a secret to be kept firmly!
Resolutely not let know…
“The king is coming side by side…”
At this time, someone from outside came to report.
Lu Xiong also hurriedly put away the files and sealed them up.
“Okay, let him in!”
Soon Levi Garrison came to the meeting room.
“What’s the situation? You are all here side by side!”
Everyone was very surprised.
The Return of the God of War [The Protector] Chapter 2941
Levi Garrison smiled: “The remnants of the Gods Lab have already been found. I have nothing to do, so I
can only come back and have a look!”
Levi Garrison glanced around the crowd and found that the five faces were a bit wrong.
He smiled and asked: “I’m asking something, I see someone is still thinking about the Atlantis plan!”
“what???”
Whatever you are afraid of, this is what you hear.
Several people were terrified.
“I want to ask the reason for the termination of the Atlantis plan. It should be that simple? The project
should be stopped because of something dug outside, or something that stopped it?”
Levi Garrison asked casually.
He doesn’t have to know.
But just such a simple question scared a few people.
Isn’t this a coincidence?
Levi Garrison also came to ask.
Everyone looked at each other.
In the end, Xiao Liejun explained: “In fact, the reason is very simple. According to the purpose of the
project, it is necessary to go deeper. However, the technology at that time could not be carried out at all
and we had to give up. The current technology may work, but the mining value is not high, and it is more
difficult. , That place is a great test in all aspects…”
Xiao Liejun casually weaved a reason to prevaricate the past.

It just so happened that Levi Garrison just asked casually.
He didn't know much about it.
If it is more true, he is afraid that he will go to the base planned by Atlantis immediately.
However, it was they who had concealed this matter, and it would soon cause great trouble.
After Levi Garrison left.
Everyone breathed a sigh of relief.
They are not afraid of Levi Garrison's leak.
I'm afraid that if he is too curious to explore the secrets, it will be troublesome.
"Fortunately he didn't ask Leviathan questions…"
Cao Zhiguo patted his chest.
"But didn't he say that Leviathan shouldn't care about it? I think he knows something about the Atlantis
plan, so I can't tell him the truth!"
Xiao Liejun said.
This is the important reason for his weaving reason.
…
At this moment, the Tiandeng Bureau is collecting statistics on doctors in all hospitals in the War Eagle
Nation and surrounding areas. Including retired ones!
Statistical analysis is even carried out along with everything related to medicine.
This is actually very difficult!
Even if you know the general direction.
The area is locked.
But the Black Hawk agents all know that Doctor Dark is hidden in the city, hiding for decades and
hundreds of years.
How can it be so easy to find.
There is absolutely nothing wrong with his information!
So you have to be patient to identify them one by one.
The amount of tasks is really not small.
After statistics of all doctors.
There are seventy to eighty thousand people in question.
The next step is not as simple as filtering by criteria.
These people need to be checked one by one.
Not only the information, but also every detail of their lives.
Including where you have been and what you have bought.
Or the income and expenditure of money and so on.
It has to be compared a little bit.

Fortunately, the agents of the Tianshield were professionally doing this.
They have enough patience to inquire.
If I change to another person, I am afraid that I will give up early.
"Quick, quick, speed up! I'll call in if there is not enough manpower! Just now the head of the game
came again!"
The Black Hawk agent constantly put pressure on his men.Until now.
The head of the round, Smith's urging and Levi Garrison's urgency.
It was too big for Agent Black Hawk to understand the threat of Doctor Darkness.
If he retaliated, he might be more threatening to the war eagle country than the main gods.
And just heard what the head of the meeting Smith said-now there are many dark and ancient forces in
the world who are secretly looking for the dark doctor.
After all, there are many secrets and treasures in Doctor Dark.
May I ask who doesn't want to get it?
Although the Kingdom of God was destroyed, the Eagle Kingdom still got the Dark Doctor.
After all, this is the only ordinary human to enter the main divine division.
There are too many secrets and points worth studying in him.
Everyone wants it!
therefore.
The Return of the God of War [The Protector] Chapter 2942
The head of the game, Smith, means to find it as quickly as possible.
Even a corpse.
It is absolutely not allowed to let people get ahead quickly, or cause retaliation and threats.
Agent Black Hawk can only urge his men…
Wrong.
Many forces know about the remnants of the kingdom of God.
Especially after knowing how terrifying Doctor Dark is, he became more and more interested in him.
Want to find him.
Having a Doctor of Darkness, it is no exaggeration to say that it can compete with a country.
It can even reach the height of a superpower!
Who doesn't want to own it!
Moreover, the dark world became more and more exaggerated, and Doctor Dark was carrying the
ultimate secret of the Gods Laboratory, something that even the Eagle Nation could not control.

In this way, the value of the Dark Doctor is increasing.
The search forces have increased, and many ancient forces that have never appeared in this war have
also come out to find the whereabouts of Doctor Dark.
So he has a lot of dark doctors.
More than imagined.
Even Levi Garrison didn't even think of this.
How come the whole world is looking for Doctor Dark.
But when I thought about it, I understood.
The value of Doctor Dark is too great.
no!
Then you have to find it in advance.
Levi Garrison also moved with compassion.
If you find the Dark Doctor, use it for yourself.
Wouldn't it be better?
After understanding all this.
Levi Garrison also immediately went to War Eagle Nation to start looking for people.
He wants to find Doctor Dark in front of Agent Black Hawk.
Of course, this matter cannot be known to Agent Black Hawk.
But you can use him.
…
An abandoned area somewhere in Western Continent.
In the distance, halfway through the dim mountain, there is a gloomy old castle.
The crow kept screaming, which made people annoyed and heralded unknown.
All kinds of skeleton bones scattered around the castle, becoming more and more eerie and terrifying.
There is a round conference table in the castle.
The figure sitting around the table, wearing a black robe, even covered his face.
The atmosphere is serious and strange.
This is an ancient and mysterious organization.
It appeared very early.
But did not participate in any disputes.
Even if the kingdom of God and the world went to war, they did not participate, just quietly watching
from the side.
Knowing that the kingdom of God was destroyed, only the Dark Doctor remained.
Just focus on Doctor Dark.

The leaders of this ancient organization are holding round tables.
“Dark Doctor must be brought! This is an order from the president himself!”
“There are already many forces looking for Doctor Darkness, including the Warhawk Nation Sky Shield
and Daxia! We must rush to bring Doctor Darkness in front of everyone! Let him join us!”
One of them said somberly.
“clear!!!”
Everyone rushed.
This is an extremely ancient organization that specializes in the study of some ancient monks and
ancient species.
Obviously the Dark Doctor interested them.
Especially he is also carrying the secrets of the entire laboratory of the gods!
“Of course there is a second task…”
Another person on the round table said.
“Um?”
A surprised voice sounded.
Everyone looked at him blankly.
Obviously most of the people present did not know.
Unexpectedly, there is a second task.”what?”
Everyone looked over.
“Daxia, the daughter of King Levi Garrison, is in the war with the Kingdom of God! The trick she used
seems to be Daxia’s ancient Qi training technique that we are struggling to study!”
This person said this.
“hiss!”
The sound of chills from the audience was endless.
The whole audience is almost like an explosion.
Qi practice? ? ?
Upon hearing this, every member of this ancient organization was filled with light!
Their ancient organization studies ancient monks and ancient species…
Among them, the ancient monk is a general reference!
For example, the wizard priests of the West, the ancient warriors of the East (the ninjas of the East
Island, the pre-Qin Qi practitioners of Daxia, the masters of magic spells, and the heavenly masters) and
so on.

All this they are pursuing research.
The more ancient and legendary, the more interested they are!
Especially the most difficult pre-Qin Qi training men, they are struggling to pursue them.
After all, it exists in the legend.
In reality, it is difficult to find useful clues and evidence.
No one knew Daxia herself, let alone them.
Therefore, they are quite yearning for the pre-Qin qi training men and the skills of qi training.
They have to study, to prove whether this is true!
So even if there is only a little clue, they will go all out.
Even if they are false clues and messages, they have to personally verify them.
The Return of the God of War [The Protector] Chapter 2943
Ever since Levilia was exposed, he might be practicing Qi training, and Da Xia has frequently appeared in
the appearance of Summon Division and Tianshi Mansion…
This makes this mysterious and ancient organization salivate.
I caught sight of it all at once.
If it weren't for the existence of Doctor Dark, I'm afraid they would be the first to find Levilia.
"But this task has to be completed after finding the Dark Doctor! Although this task is very urgent, there
is no first one!"
"You must first go all out to complete the first task!"
After listening to the second task.
Everyone nodded.
At the same time, there is more expectation.
For some people who specialize in Qi training, studying Levilia is more valuable than studying Dark
Doctor.
…
"Snee!"
The dark doctor who was far away in the New Golden City of the Eagle Nation sneezed.
"Payton, look at a lot of people who are looking at you!"
The brain of God said from the side.
"Originally, I thought that the Sky Shield was looking for you with craziness all over the world! I didn't
expect that in the past two or three days, so many forces were looking for you."
Said the brain of God.

He now controls all the information and intelligence.
He knew even those people were looking for Doctor Dark.
He knew even what kind of way.
Of course, the real and effective search method of the Sky Shield was carried out in secret, and he could
not know.
Doctor Dark nodded: "Yes, I didn't expect so much! My value would be so great!"
But then he smiled grimly: "It's a pity, no one wants to get any benefits! No one wants to dig out secrets
from me!"
"Of course! Even if we all die, it is impossible to leave them anything! Of course, once our revenge
starts, everyone in the world will be crazy!"
God's brain is also full of madness.
The Dark Doctor stared at him and asked, "By the way, how many days can it be done?"
It turns out that the brain of God is studying what to make.
It is necessary in Doctor Dark's Revenge World Plan…
"According to the current speed! The fastest is ten days, and the slowest is fifteen days!"
There was a trace of worry in the mind of God.
"You don't need to speed up, just keep this speed!"
The Dark Doctor seemed to see the future.
He sneered: "As long as we find the spirit vein, we can retaliate!"
"Ha ha ha ha……"
The two looked at each other and smiled, all in the ultimate madness.If Cao Zhiguo and the four leaders
heard the conversation between the two.
I'm afraid I will be scared.
Because the revenge mentioned by Doctor Dark has something to do with Lingmai!
This is totally earth-shattering big news!
Is it the same as the spiritual vein they found in Atlantis?
If this spirit vein takes revenge, it's over!
And the things made by God's brain seem to be for finding spiritual veins.
It's just that now everyone doesn't understand what "Lingmai" is all about.
It may not even be known to War Eagle Nation.
They are just familiar with the laboratories of the gods.
But the secrets detected by the Lab of the Gods are not necessarily known.
After laughing, Doctor Dark's expression returned to seriousness.

“But we have to complete it within half a month. Now the whole world is looking for it. Don’t doubt
their speed! Especially the speed of the Sky Shield will be very fast!”
Doctor Dark understands that sooner or later he will be found.
The brain of God also echoed: “There are still some ancient forces that have been staring at the Lab of
the Gods for a long time! The Lab of the Gods has destroyed many forces in the past! There must be
many enemies, and there are many staring forces! They are not necessarily slow! Even faster!”
“I’ll stare at them, you make it with all your heart!”
…
After Levi Garrison came to War Eagle Nation.
I found Agent Black Hawk.
The Return of the God of War [The Protector] Chapter 2944
While inquiring about the progress, he directly expressed his idea of looking for the Dark Doctor
together.
“Mr. Ye should also listen to all the ancient forces looking for Doctor Darkness, right?”
Agent Black Hawk reacted immediately.
Levi Garrison should have heard of this, so he took the initiative to help find the Dark Doctor.
For them, finding the Dark Doctor is a task.
But for Levi Garrison, looking for Doctor Dark is to prevent him from bringing disaster to this world.
Now I must have heard that many ancient dark forces are looking for the Dark Doctor, and if they are
found, it may be another attack on the laboratory of the gods.
This is definitely something Levi Garrison doesn’t want to see…
Resolutely not allow anyone to use the Dark Doctor to create threats.
But no matter who has great motives or not.
The purpose of both parties is the same.
All to find the dark doctor.
In the eyes of Agent Black Hawk.
Rather than let other forces find Doctor Darkness, Levi Garrison might as well help himself and let the
Sky Shield Bureau take him.
But what he didn’t think was that Levi Garrison also wanted Doctor Dark to use it for himself.
“Well, I heard it! That’s why I came!”
Levi Garrison said.

“It’s great. With your help, we can definitely find the Dark Doctor before all the dark forces and control him!”
Agent Black Hawk exclaimed ecstasy.
“Report the information you found and the progress in all aspects to me at any time! I will also participate!”
Levi Garrison said.
Agent Black Hawk had no doubts at all.
All the information found was given to Levi Garrison.
In particular, all the seventy-eighty-thousand-eight thousand copies that were screened out with problems were given to Levi Garrison.
There are also the latest developments, and they will be notified in time.
“It’s inappropriate if I’ve been on the cow’s side, lest other people see it, I’ll leave first!”
Levi Garrison said.
Agent Black Hawk understood that Levi Garrison was afraid that others in the Sky Shield would know.
Quickly agreed.
He also found a place for Levi Garrison and gave him a lot of authority.
After coming to the dark.
Levi Garrison began to convene the Four King Kong and begin to analyze these data.
The variants No. 1, No. 3, No. 8, and No. 11 are also around to help.
Levi Garrison also invested himself.
Want to speed up.
After all, time is precious.
He directly analyzed the seventy to eighty thousand questionable data screened by the Tiandeng Bureau.
Only after analyzing it for a long time.
Levi Garrison suddenly murmured, “Huh? That’s wrong! The direction is wrong!”At present, the key direction of the Tiandeng Bureau is to conduct secret investigations of these seventy to eighty thousand pieces of information one by one.
Accurate to the interpersonal relationship of each person’s daily life.
Because of the need to beware of the dark doctors, their explorations are cautious.
The workload is very large and difficult.
…

But the direction is wrong!
If you continue to search in this way, you can throw away the ancestral graves of these seventy or eighty
thousand doctors.
Also useless!
Doctor Dark is not among them at all!
The direction is completely wrong!
Doctor Dark can hide from ordinary people for decades and hundreds of years. How can his information
be selected?
How can it be so easy to find a problem?
There is no problem with careful screening.
How can the problem be filtered out at once!
This is absolutely impossible! ! !
Like Doctor Dark, his information was so perfect that he couldn't find any problems.
Over the years, he must have honed this aspect to the point that there are no clues, no flaws.
Whether it is information or his life and work.
It must be perfect!
The Return of the God of War [The Protector] Chapter 2945
Even if he stands in front of you and asks you to check, you will not find any flaws!
Therefore, in Levi Garrison's opinion, the query direction should be the most perfect one!
No matter how you check it, you can't find something wrong!
On the contrary, this kind of approach is more likely to be closer to the Dark Doctor!
"Patter!"
Levi Garrison threw away all these seventy or eighty thousand pieces of information.
It's useless at all!
Levi Garrison will follow this direction next.
It is necessary to filter out those that are not problematic at all!
Then choose from these most perfect ones.
So repeatedly.
In the end, Doctor Dark will surely be found!
Of course, Levi Garrison did not tell Agent Black Hawk about this direction.
After all, he had to step out of the Sky Shield anyway before he could take Doctor Dark away one step in
advance.

And he also knew that, despite the difficulty and the amount of work, Tianshield was not a vegetarian.
Will catch up with his progress soon.
Next.
Based on the information, Levi Garrison began to search for those who were perfect enough to have no
problems.
The amount of this project is also super large.
It is bigger than the current analysis of the Sky Shield, and he can only use Maya Industry and the Bible
Organization to help.
And here is the war eagle country.
The data is not a problem, but it can be specific to a certain hospital in a certain city.
You have to visit on the spot.
This is not difficult for the Sky Shield, but it is difficult for them.
After all, this is on someone else's turf.
Therefore, it takes several days of progress!
…
Next, the major forces that were blindly looking for at the beginning also quickly locked their
approximate positions-the War Eagle Nation and its surroundings.
They also finally kept up with the speed of the Sky Shield Bureau and Levi Garrison.
from now on.
All parties are competing!
The time to find the Dark Doctor is getting closer.
The Dark Doctor himself understands this.
The brains of God are crazy building what they need.
"They are coming menacingly, faster than I thought!"
Doctor Dark sighed.
"It seems that I need to use a few doubles to disturb their sight and extend the time!"
A harsh look flashed in Doctor Dark's eyes.
"The location of the spirit vein has been determined! This spirit vein is really terrifying, it seems that
only the main priest has been there! But they can't use their terrible power! Otherwise, the war eagle
country is not an opponent!"
Said Doctor Dark.
This spiritual vein was actually discovered by the Gods Lab very early.
But for them this is catastrophic.

Can't use it!
More uncontrollable!
And the location is extremely dangerous, if there is no specific machine, it is impossible to reach.
Now what God's brain makes is the means of transportation that can reach this place.
crazy!
Now the Dark Doctor can't wait.Know that more and more people are approaching themselves.
The Dark Doctor immediately released several substitutes.
Temporarily can play a confusing effect.
Five days passed in a blink of an eye.
The Tianshield Bureau had abandoned the previous seventy or eighty thousand people with problems,
and then followed Levi Garrison's path to analyze and probe those perfect ones.
After all, Agent Black Hawk was also a particularly smart person, as Levi Garrison could think of.
He can certainly think of it.
It's just a matter of time.
They are fast, basically not much different from Levi Garrison.
Regardless of Levi Garrison and the Sky Shield Bureau possessing everything that is professional, the
ancient powers also have their own abilities to master the sky, and they are also further finding the Dark
Doctor.
The distance to find the Dark Doctor is getting closer.
Levi Garrison is the fastest here, and it is expected that he will definitely be able to find it in four or five
days.
Two days later.
Messages from Maya Industry and the Bible Organization at the same time, each found two people who
were likely to be targets.
All aspects of the information are consistent.
The Return of the God of War [The Protector] Chapter 2946
The people you are most likely to find are among these!
When the message reached Levi Garrison, everyone felt that these four target characters should be
thoroughly investigated in all directions!
There will definitely be gains!

It's just that Levi Garrison sneered after reading it: "These four are not! The dark doctor deliberately
released the target to attract our attention! Extend the time for him! This shows that his revenge
behavior is imminent!"
"Well, I also think it's a stand-in that Doctor Dark has found! Doctor Dark must be very vigilant. Even we
all know that many forces are looking for him. How could he not know?"
"He is now releasing a double to attract our attention! But the more this happens, the closer we are to
Doctor Darkness!"
"It is estimated that Doctor Dark is also in a hurry. Suddenly there are problems with these targets. It is
also very time. But it just shows that there is a problem!"
...
Several people of Underworld God also said.
Just now everyone was dazzled by the major information that was suddenly discovered, and they had to
investigate immediately.
Everyone reacted to Levi Garrison's reminder.
This is a guise at all!
"Then master, what should we do now?"
Everyone looked at Levi Garrison.
Levi Garrison instructed: "Those four goals are eliminated directly, these four are definitely not! Then
continue to investigate according to our pace! It should be almost in New Golden City, Golden State, and
Oakland! To the doctors in these target areas Make vigorous enquiries!"
"Okay, understand!"
Levi Garrison remembered something, and suddenly said: "Wait! Xiao Ming, you will sell the information
of these four target characters on the black market! It is estimated that many people will buy it!"
The evil god smiled: "Okay, understand! Master is fooling the many forces, slowing their speed, and
shifting their direction! Haha…"
Levi Garrison smiled: "Not only that! I have to pass this message to the Sky Shield!"
Everyone present laughed.
Levi Garrison's move will slow the speed of most people, and also let Doctor Dark achieve his goal.

But at the same time, it also covered Levi Garrison's search for the Dark Doctor.
He will be the first to find Doctor Dark.
Doctor Dark will not know, and other forces will not know.
Next, Levi Garrison contacted the Black Hawk agent: "Give you a message to catch up with my progress!
These four target characters have a high probability! I hope you don't fall behind too much!"
After obtaining the information of the four target persons, the intelligence department of the Tianshield
Bureau checked it and broke out in a cold sweat.
"Really! These four target characters have the most probabilities, and they are basically them!"
Agent Black Hawk was taken aback.
Originally, he believed in Levi Garrison, but now he believed even more.After all, these four target
people were reminded by Levi Garrison, and he naturally didn't doubt too much about his trust in Levi
Garrison.
If the four target characters were discovered by the Sky Shield first, he might suspect that they were
true or false.
But this was given to him by Levi Garrison.
It was found to be completely consistent. After all, this was a substitute specially found by the Dark
Doctor, and it was definitely consistent in all aspects.
Therefore, the Sky Shield Bureau will not doubt.
Next, we will try our best to trace these four target people.
…
And the other side.
When the Underworld God sold this information, a small area attracted looting.
I don't know how many people bought this message.
The major forces also started searching according to the four people.
After the Dark Doctor learned about the major forces and the actions of the Sky Shield, he was very
happy.
Several of his doubles worked.
This time delay for a few days is absolutely no problem.
When they find out that these four goals are not, it is estimated that it will be three days later.
At that time, it will take about four or five days to check again.

At that time, his plan had been completed.
What's more, everyone's attention is on themselves.
I don't know that there is still a brain of God.
When the time comes, attract everyone's attention by yourself.
God's brain does this.
Everything can be done without knowing it!
The plan is 100% successful!
Now, Doctor Dark finally breathed a sigh of relief.
It was only a high probability of success before.
But it's different now.
The stand-in worked and greatly extended the time.
It was almost 100% successful.
The Return of the God of War [The Protector] Chapter 2947
The next three days.
All parties are looking frantically.
Forensic Whiteside of Salt Lake City.

Golden State Luo orthopedic doctor Bert.
Professor Louis of Sin Chew International School of Medicine.
…
They were actually arranged by the Doctor of Darkness before, and arranged when the Lab of the Gods
existed.
In order to prevent accidents, come to be his substitute.
These goals can withstand queries and are problematic.
Very suitable as a stand-in.
I don't know how many people are targeting these four goals.
Everything about them was frantically inquired.
Including the eighteenth generation of our ancestors, I found it clear after peeing in that place when I
was young.
Since they were born, they have carefully checked every penny they have spent.
Where the flowers are, what they are doing, must be exact!
Let alone other.
People who have dealt with them are all being checked frantically.
…
The Sky Shield Bureau took even more effort.
Many people have complaints.
They think it is enough to just arrest these four people for interrogation?
Why bother?
It was ridiculous that people peeed when they were young.

But the head of the game, Smith, scolded when he learned about it.
Never use extreme methods.
Otherwise, Doctor Dark jumps over the wall in a hurry and will be unable to bear the consequences.
Resolutely cannot do this.
This makes everyone more aware of the threat of the Dark Doctor.
Can only continue to honestly investigate.
Other major forces are also carefully investigating.
Their goal is that Doctor Dark will either join in or be captured by them.
Anyway, they are going to be alive.
In the unlikely event that Doctor Dark is dead, it would be an empty basket.
therefore.
All parties are very cautious in their investigations.
Don't dare to have extreme behaviors.
The inquiries from all parties made Doctor Dark and Levi Garrison very satisfied.
I bought them time.
But Levi Garrison's speed here is very fast.
After some queries.
The cities of Golden State and Oakland are excluded.
Directly locked in the new golden city.
"If there is no accident, Doctor Dark is definitely in Xinjincheng. If there is no one, it proves that we are
all in the wrong direction from the beginning. He is not a doctor-related job at all! I hope there will be no
mistakes!"
Next, Levi Garrison and the others will search all hospitals in New Jincheng.At this time, Doctor Dark had
a calm expression, and he didn't think that someone would be here soon.
"Two days! I will finish manufacturing in two days!"
At this time, a good message came from the brain of God.
Doctor Dark smiled and said, "Okay, time is too late! It is estimated that they will find out that the target
of their query is wrong in two days!"
…
Wrong.
He predicted almost the same.
The speed of Sky Shield is not so fast.
Only one goal can be excluded a day.
After follow-up proficiency.
Two can be eliminated in one day.

Exclude four targets in three days.
One day has passed and the forensic Whiteside of Salt Lake City has been ruled out.
The speed of other major forces may be slower than that of the Sky Shield.
A goal cannot be ruled out in a day.
On the first day of Levi Garrison's progress, he roughly confirmed the possibility of several hospitals.
the next day.
The Sky Shield Bureau ruled out another target.
Levi Garrison has already moved from seven hospitals to one hospital-Xinjincheng General Hospital.
"According to the information we have found-there is a problem with the handling of corpses in this
hospital! There is still reselling of corpse organs in hospitals in all parts of the War Eagle Nation. Only the
New Jincheng General Hospital has no problems!"
This is the result of their investigation.
Levi Garrison smiled: "Who would have thought that not doing bad things would expose yourself! This
clearly means that this medical center is not enough by itself, let alone reselling!"
Everyone laughed.
The Return of the God of War [The Protector] Chapter 2948
The dark doctor counts, the hospital is too perfect, and instead of doing such a dirty transaction, he
exposes himself.
If you are not gregarious, you will expose yourself.
This is what no one thought of.
It is also one of the important factors in determining this hospital!
Levi Garrison watched the hospital with a smile: "It should be here if no accident! And I preliminarily
infer that there is a problem with the building of this hospital! It is estimated that there is a new building
under the hospital or inside the hospital! That is the private domain of Doctor Dark! Check in this
direction!"
"As for the goal, it's in these few!"
Levi Garrison has made a list.
Among them is the name of Dr. Payton.
The third day.
That is the last day.
All parties are still actively making inquiries.

Levi Garrison is here too.
Make an earth-shaking secret inquiry into this hospital.
People like Payton also checked carefully…
The third day passed quietly.
The Sky Shield Bureau eliminated the other two targets!
"No! These four targets are not Doctor Dark! This may be the smoke bomb that Doctor Dark discovered
us and released! It also proves that we are very close to him! Change direction to inquire!"
The Tiandeng Bureau quickly changed its direction and continued to investigate.
Agent Black Hawk also didn't doubt Levi Garrison at this time.
After all, he felt that Levi Garrison went to Dark Doctor for safety.
But wherever he can think of it, Levi Garrison, like those forces, wants Doctor Darkness to use it for
himself.
He also took the initiative to remind Levi Garrison: "Mr. Ye is a smoke bomb. We were all deceived! But
we are very close to Doctor Dark! We will find out soon!"
Levi Garrison also pretended to be surprised.
Realize that I have been "lied".
And told Agent Black Hawk that he wanted to help him continue to search.
But where does he not know?
He was all operating at the beginning!
The speed of other major forces was a little slower, but they were also sure that these four targets were
not Doctor Dark.
Finally reacted.
Restart the query.
But it was delayed for three days.
"Hahaha, it worked!"
At this moment, the joyous voice of God's brain came from below the Cancer Treatment Center of New
Jincheng General Hospital.
They have created a means of transportation that can go to the location of the "Lingmai".
Able to go immediately.
Dark doctors burst into ecstasy on their faces.
"Our chance to retaliate against them is finally here! Hahaha…"excited!
The whole secret research center was filled with joy.
They finally succeeded.
In this research center, all equipment is temporarily set up.

After all, the base research center left behind by the Lab of the Gods, or the future science and technology country, was controlled by the Eagle Nation.
They can't use the technology or equipment of the Gods Laboratory.
Can't even pick up a piece of it!
The research center of Doctor Darkness is only related to biological technologies.
There are no materials and equipment for manufacturing vehicles.
And this vehicle is definitely the most advanced level!
The road to Lingmai is too complicated, and you must get the best tools.
All aspects must be the best.
Therefore, we can only rely on God's brain to temporarily build equipment and then manufacture vehicles.
In this way, the time is greatly increased.
If there is equipment at the beginning, it may be three or four days for the brain of God.
This time it took so long, mainly because of the temporary construction of equipment.
The brain of God is already a genius among geniuses.
To be able to design and manufacture such a vehicle in a short period of time must be amazing to the world.
Looking at the aircraft in front of him, God's Brain smiled and said, "For double protection! I have set up an automatic program for it!
That is to say, even if we are caught, as long as I activate the automatic program, it can reach the position of the spiritual vein on its own, and then activate the weapon system to achieve the effect of destroying the spiritual vein…"
The faces of the Dark God are already beaming with joy.
Sure enough, it's very reliable.
The brain of God added: "I even set the route map to the Lingmai in the self-destructing program! Once it is attacked or destroyed to a certain extent, the self-destructing program will be opened, and directly follow the roadmap to go to the Lingmai. Self-destruct explosion at the location! It's a triple guarantee!"
Hearing this, Doctor Dark smiled in satisfaction.
The Return of the God of War [The Protector] Chapter 2949
"It's still your thoughtful consideration! This is basically foolproof!"

“But in order to be 100% successful, we should go personally! After all, machines are machines! And there are many uncertain factors!”
Said the brain of God.
“That’s for sure! We are ready to go now!”
Doctor Dark smiled.
“Master, they finally reacted! Four substitutes are now excluded!”
The subordinates immediately reported.
Hearing this, the Dark Doctor smiled indifferently.
“It’s too late to know now! If they find the right one, and then check it slowly, it will take at least three days, and it will take five days to find me at the earliest!”
Doctor Dark laughed and said, “Maybe this world no longer exists at that time? Has it already been revenge?”
God’s brain is also laughing.
They are simply crazy.
The revenge is so big.
“Okay, then let’s start! Transport the equipment from another exit! We gather in a secret place behind!”
The Dark Doctor ordered.
After all, this vehicle is not small in size.
The key is that the brain of God also made two vehicles at once.
The front cannot be transported out of the hospital.
It must be shipped out through other channels.
Others transported two vehicles from other channels.
The Dark Doctor and God’s brain came out from the front in a swagger.
At this time, it was already late at night.
There are very few people in the hospital.
Especially here in the morgue, there is no one.
There was a gloomy atmosphere.
“Rumble…”
Accompanied by sound.
The cabinet containing a corpse was opened from the middle, and the dark doctor and the brain of God walked out.
The two of them glowed red, and the corners of their mouths were full of smiles.
Their retaliation plan is about to succeed.
“Finally came out, waiting for you for a long time!”Suddenly, there was a voice in the gloomy and empty morgue.

This shocked both Doctor Dark and God's Brain.
Thought that corpse was resurrected.
The two screamed!
I saw a person sitting not far away on a shelf where the corpse was placed.
He was smiling, looking at them leisurely.
"Ye… Levi Garrison!"
The brain of God and Doctor Dark yelled out in unison.
Although this is not an important role anymore.
But they still heard of it.
Even checked Levi Garrison's information.
Now that I saw him, I recognized him.
"You…you…how did you find it?"
"Why are you here?"
The Dark Doctor and God's Brain were really frightened.
Full of doubts.
Unbelievable!
All this was completely beyond their expectations!
When you think you want to succeed, when you think you want to support everyone.
I didn't expect Levi Garrison to be here!
"Of course I'm waiting for you! It's really hard to find you!"
Levi Garrison smiled.
Accident!
What a surprise!
The Dark Doctor has countless calculations, but there is still Levi Garrison among those who are looking
for him!
Also found him!
This is incredible!
He didn't understand until this moment.
So many people are staring at him…
It's not just those of the Sky Shield.
Shock!
So shocked!
The Return of the God of War [The Protector] Chapter 2950
The key is how did Levi Garrison find them?
Even if it was as strong as the Sky Shield and those ancient forces, he played around in circles.
None of them can be found.
How did Levi Garrison do it?
This is so shocking.

“You are curious how I found it?”
Levi Garrison smiled: “You have to thank me. I discovered the four smoke bombs you got out first! Then
I revealed it to the Sky Shield Bureau and sold it on the black market, so that the Sky Shield Bureau and
the major forces would investigate. They are!”
Upon hearing this.
The two of Doctor Dark understood immediately.
In fact, he was nervous at first.
Although the four avatars thrown out had a good effect, he was an emergency method, and it was
inevitable that there would be flaws.
It is easy for the Tianshield Bureau to react to these things, and it will not be necessary to investigate
each target.
It is estimated that the investigation of two will have to find out.
But what he didn’t expect was that all four targets were checked one by one.
The same goes for other major forces.
He still finds it strange.
It turned out that the problem was here, there was a middleman.
After Levi Garrison’s dealings, they all believed.
Sometimes second-hand information is more convincing than first-hand information.
“So you were the first to find my four doubles? Suspicions too?”
The Dark Doctor looked directly at Levi Garrison.
“Yes! Throw this information to others and let them investigate! I simply ignore these four goals and
continue to investigate! Fortunately, before you act, I found you! Should your plan be implemented too?
“
Levi Garrison smiled.
Understood!
Now, Doctor Dark and the brain of God all understood.
It’s also Wanwanren’s thoughts.
It’s going to be successful.
The result was found by the most unlikely person.
The Dark Doctor stared at Levi Garrison fiercely: “So you are actually very strong! I even suspect that the
Heavenly Master’s Mansion and the Sword Demon Division were both made out a few days ago?”

“It’s actually very difficult to pretend to be them, at least you have to reach their strength to be
believed! Although it is fake! But your strength is really strong! You are the one hiding behind!”
Levi Garrison smiled: “I think you are the most terrifying!”
The brain of God is still suggesting the dark doctor, the consciousness is going to escape or something.
Doctor Dark smiled: “It’s impossible! We can’t escape when we are planted in his hands! Since he can
spot us and come alone, it means that his strength has overwhelmed us! Our struggle is useless! He at
least The main divine division is one level!”
The brain of God sighed.
But this is a signal from Doctor Dark.
He immediately activated the vehicle’s self-destructing program.Doctor Dark said that paragraph just
now.
It was to let the mind of God understand that they had no chance of surviving if they fell into Levi
Garrison’s hands.
When he came alone, he was ready to catch the sky and the earth.
It is also hinting that he wants to turn on the automatic program of the vehicle.
After the brain of God understands it, it immediately starts the automatic program.
Let the vehicle go to the location of Lingmai by itself.
…
Two aircraft in the other channel had just been transported out, and suddenly the program started.
“Rumble…”
Flew out immediately.
Disappeared instantly.
Started everyone.
The two aircraft are specially designed by the brain of God, and a series of anti-detection devices are
also installed in them.
In order to prevent the war Eagle Nation from being detected.
So he left almost silently from the sky over the Eagle Nation.
It was too late to find out.
Of course, it’s okay to be discovered or even hit.
The self-destruct program will be opened automatically at that time.

It will still follow the set route map and go directly to the location of the spiritual vein to self-destruct.
And there are still two aircraft, with an extra stand-in.
To ensure the success rate.
The Return of the God of War [The Protector] Chapter 2951
The most frightening thing is that once an automatic program or a self-destructing program is started,
no one can stop it.
Even the brain of God cannot stop it by itself.
This is unilateral!
It is also extreme!
Now they are equivalent to falling into Levi Garrison's net of heaven and earth, and it is no longer
possible to go to the spiritual veins in person.
The only way to start the automatic program.
After starting the automatic program, the brain of God breathed a long sigh of relief
Doctor Dark is also relieved.
Fortunately, God's brain is smart and has made several guarantees in advance.
Sure enough, they were not safe and were caught as soon as they left the house.
Otherwise, their plan will not be realized.
Thanks to his special design.
After a sigh of relief, Doctor Dark smiled at Levi Garrison: "Wan Wanren thought that you were the one
who hid the deepest! Even though the Galaxy Guardian Alliance had great magical powers, can you not
expect Daxia to have you?"
"Then all the dark gods are you? Otherwise, why do the Bible Organization and Maya Industry help
Daxia?"
The brain of God also reacted.
Levi Garrison hides the deepest, and everything about Daxia and the world coalition forces is planned by
him behind the scenes.
Levi Garrison smiled, admitting all this.
Doctor Dark frowned and said, "But there is one thing, I still don't figure it out."
Levi Garrison smiled and said, "You mean No. 76 Forbidden Land, right?"

“Yes, I feel that they exist, but I feel that they do not exist. What is the relationship between you and them?”
Doctor Dark stared at Levi Garrison.
A question they all wondered.
“Earlier, I entered the forbidden area No. 76 and wiped out this race!” Levi Garrison said.
“Understood! Everything is understood!”
This time Doctor Dark they suddenly realized.
Everything makes sense.
Especially the relationship between Daxia and Base 76, they understand.
“X, do you know the mystery you’ve been puzzled about is solved! Everything is your old opponent Levi Garrison!”
Doctor Dark laughed.
God’s brain also let out a long sigh of relief.
Before he died, he also knew the mystery that had been puzzled.
The Dark Doctor looked at Levi Garrison and said, “Why do I suddenly find things interesting!”
Before they agreed that the Galactic Guardian Alliance swept everything and there would be no rivals.
But now Levi Garrison suddenly appeared.
Let them know that the War Eagle Nation is not the only one, they still have opponents.
There is another one who hides so deeply.
From the perspective of Doctor Dark, I really hope to see the crazy game between the two sides.
That is, sitting on the mountain and watching the tigers fight.
It’s just too late.
He is going to die.
They have all fallen into Levi Garrison’s hands.
“Well, it’s up to you if you want to kill or slash!”
The Dark Doctor smiled.
The brain of God also gave up the struggle, waiting for the coming of death.
In their opinion, Levi Garrison killed them when he came to them.Levi Garrison looked at Doctor Dark with a smile: “Are you sure you give up?”
“For a long time, you have considered yourself as an ordinary person! But who ordinary person can live so long? Can capture the God of Forbidden Land No. 76 alive?”

“Even if you know my strength, you don’t put me in your eyes! What you are afraid of is the net of
heaven and earth laid out around me!”
…
Levi Garrison said this.
Doctor Dark’s face has changed.
Even the brain of God was taken aback.
“You seem to give up on the surface, but in fact you are desperate to kill me. At least you are holding the
idea of dying! Anyway, in your opinion, you are going to die. You can even get out of the siege!”
That’s right.
Levi Garrison got it all right.
Doctor Dark didn’t want to give up.
The Return of the God of War [The Protector] Chapter 2952
He is desperate!
Desperate is more than just letting God’s brain start an automatic program to unlock the spiritual veins.
He will also make a desperate move to kill Levi Garrison.
Regardless of how powerful he admitted that Levi Garrison was on the surface, he actually didn’t put
Levi Garrison in his eyes.
He was really jealous around.
He believed that Levi Garrison would not be alone, and there must be many strong people around him.
And when the time comes, when one is exposed, the Sky Shield and all the major forces will appear one
by one.
This is what he fears most.
But fight it in the end.
Kill Levi Garrison first, then kill him to see if he can escape.
Of course, once the spiritual veins are opened, no one will be alive.
Sooner or later, it’s dead, only to live longer.
But only when they can see all the pictures of destruction, they have a sense of accomplishment.
This is the thought of the two Doctors of Darkness.
Although not afraid of death.
But they are going to die in the end, it is a feeling of controlling all life and death!
He wanted to kill Levi Garrison in one fell swoop before Levi Garrison killed him.
It’s just that Levi Garrison’s thoughts were all right now.

“Your strength is very strong, at least I can’t see it now! When you enter the main divine division, it is
not only your research, but your strength!”
Levi Garrison told the truth.
Doctor Dark looked really like ordinary people.
Very similar to himself.
It’s a kind of people.
How can such people give up so easily?
impossible things!
Doctor Dark’s body tightened subconsciously, obviously he was nervous.
Levi Garrison said he was right.
Levi Garrison looked at him and continued: “Just as I can’t see through you, you can’t see through me at
all! But you will take the opportunity to attack me and give me a fatal blow! This can be done with your
strength, so you Don’t put me in the eye!”
Sweating!
Obviously you can see the dark doctor’s cold sweat!
Levi Garrison continued: “Although the laboratories of the gods are all gods, in fact, you, an ordinary
talent, are the most terrifying! It’s just that you should be innocent to fight! Otherwise, the eighteenth
master gods are not your opponents!”
Levi Garrison has met the eighteen “true gods” of the main gods.
Obviously their threat is not as big as this ordinary person.
God’s mind also didn’t think that in a short period of time, the two people could have so many
confrontations.
And he seemed to know Doctor Dark for the first time, he didn’t expect him to be so terrible!
Even the main god is not his opponent?
The Dark Doctor is powerful in the laboratory of the gods, but he hasn’t done anything.
The legends everyone hears are all kinds of anatomy or biological research.
No one knows his strength.
Now that Levi Garrison said this, he was really shocked.
The Dark Doctor turned out to be the strongest in this organization.
I’m afraid it is hiding everyone.
It may be that he is devoted to research and is unwilling to show his strength.
“Well, you are right! In that case, let’s fight!”

Doctor Dark stared at Levi Garrison.
In the small space, the raging atmosphere sparks everywhere!
A big battle between two ordinary people is about to begin…The brain of God has a very strange feeling.
These are obviously two ordinary people.
Why their aura is stronger than the "god" he knew.
And it's more than a little bit powerful.
The Return of the God of War [The Protector] Chapter 2953
The most important thing is to give them a feeling-if these two fight.
That is definitely the sky and the earth, and the mountains and rivers have lost their colors.
At this time he actually hoped that the two would fight.
Come to a peak showdown!
The rattling atmosphere is on the verge.
At this moment, Levi Garrison smiled: "But I never thought about killing you! I didn't find this for the
purpose of finding it!"
"Um?"
This made the Dark Doctor stunned.
The brain of God was also stunned.
"Otherwise, you think I've worked so hard to draw everyone away and find you before them? If it's just
to kill you, why don't I unite with the Sky Shield? Wouldn't it be easier?"
Levi Garrison explained.
Doctor Dark frowned and nodded subconsciously.
"The Sky Shield is definitely trying to kill me! The Lab of the Gods has no secrets to them! Indeed, if you
want to kill me, you should come together with them!"
Levi Garrison smiled: "Furthermore, you should feel it with your strength, in fact, there are no ambushes
around! How many people are better than you? Other people don't know it, don't you know it
yourself?"
With Levi Garrison's reminder, Doctor Dark realized that he was overly nervous.
He did not feel the presence of a person around him.
Can't it be better than Levi Garrison, right?
In that case, the chief priest would be a joke.
That is, Levi Garrison didn't really arrange to ambush.
"Then what's your purpose?"
Doctor Dark asked.
"Follow me first! At least not to let you die! Wait until you leave here!"

Levi Garrison said.
“Okay, then I’ll see what you are going to do?”
Anyway, now that the aircraft’s automatic program has been turned on, this task has nothing to do with them.
Why not follow Levi Garrison to see what is going on.
It is better to follow him than to wait here for the Shield.
The three people left the hospital just like that.
But at this moment, someone came secretly.
“Huh? Someone found here!”
Levi Garrison was surprised.
I thought he was the fastest, but I didn’t expect someone else to come up.
This group is the ancient organization that studies ancient monks.
Levi Garrison has his own way to find someone.
They also have their own solutions.
He found Doctor Dark at almost the same speed as Levi Garrison.
This speed is simply amazing.
The three left.
They also found out.
Immediately chased up.
“very powerful!”
Doctor Dark frowned.
Obviously this group of people are super powerful and can feel it!
“Go, let’s leave first!”
Levi Garrison said.
Levi Garrison did not stay with them, and left directly.
But a group of people in the back chased after him hardly.
The three of Levi Garrison didn’t get rid of them for the first time.
Moreover, the ancient forces in this place have already set up a net of heaven and earth, besieging the hospital around it.
Of course, these powerhouses had just arrived, and they met Levi Garrison who had left.
“It seems necessary to do it!”
The Return of the God of War [The Protector] Chapter 2954
A direction is selected.
Levi Garrison opened his way directly to show off his supernatural power.
While they were closing, the three of Levi Garrison had already rushed out.
Just about to catch up, a great force struck.
Drive everyone back.
It even caused a lot of casualties.

When chasing again, all the people were gone.
As long as there is a gap, with the strength of Levi Garrison and Doctor Dark, where can they catch up?
“What’s the situation? People? Is that the Dark Doctor?”
Others quickly caught up.
“It should be! We saw their true colors just now! They are exactly the same as Dr. Peyton! Two other
people are…””Look, this is the picture just captured!”
One of them took out his equipment.
Although they are ancient organizations.
Does it mean that they don’t know how to use modern equipment.
Everyone got together,
Start to view the captured frame.
Suddenly they were surprised to find that they knew one of the other two.
“Isn’t this Daxia’s word side by side with Wang Levi Garrison?”
Someone was surprised.
One of their next tasks is to catch Levi Garrison’s daughter Levilia.
How can they not know each other?
“He turned out to be the one who took Doctor Dark! Unbelievable!”
“Well, we don’t have to chase it anymore. Now that we know where the Dark Doctor is going, it’s easy!
Get out!”
“What we just said should have disturbed the War Eagle Nation, and the Sky Shield will be here soon!”
…
This ancient organization left soon.
Almost two or three minutes.
Agents of the Tiandeng Bureau and mechanical agents came to the New Jincheng General Hospital one
after another.
Five minutes later.
They are all here, Agent Black Hawk.
“what happened?”
Agent Black Hawk asked.
“There was an abnormality here just now, there are many strong people gathered, it seems that there is
still a battle…”
The people immediately told what had happened.
“Search! Search this hospital thoroughly first!”
The Black Hawk agent gave an order and immediately searched the area by digging three feet.
I have to say that Doctor Dark is hiding too deeply.

Just know that there is a problem with this hospital, so you can let it go.
It took a full three hours to find out.
"In the morgue!"
Agent Black Hawk led a large number of people to the morgue.
But the door was found, but it was difficult to open.
Dozens of mechanical agents were cutting the door.
It took a while before the door was opened.
After coming to the private world of Doctor Dark.
Everyone was amazed.
Various biological specimens from ancient times to the present, various seeds from ancient times,
various races…
It can be said that the private domain of Doctor Darkness is much richer than the sum of all the
museums of other countries.
Incredible!
"Move everything away intact! Please handle with care and never destroy a little bit!"
Agent Black Hawk ordered.
This is a good thing.
Nothing can be wasted.
"It seems that this is Doctor Dark's lair, it seems that he has already left!"
Coming out of the other passage, the Black Hawk agent said.
The Return of the God of War [The Protector] Chapter 2955
The blade agent next to him said: "I just can't figure it out, there are people who are faster than us!
Looking at the traces of the scene, there should be two groups of forces! They are even faster than us?"
The polar bear agent also said: "If the two forces were not in conflict, they would have nothing to say. It
would be impossible for us to know! It might take more than three days to find Doctor Dark at our
speed!"
The Black Hawk agent also frowned: "They should not be disturbed by the four targets, they came
directly to the Dark Doctor!"
"But now I want to know where is Doctor Dark? He is dead! He must have been taken away by these
two forces! The threat is even greater! Find me! Find it quickly!"
"Find it for me at all costs! Don't tell the head of the game for now!"
Agent Black Hawk was a little angry.

He also told Levi Garrison that he was taken away by other forces.
Levi Garrison doesn't know where, now the Dark Doctor is in his hand,
At this time they have come to Daxia.
Doctor Dark also breathed a sigh of relief.
If Levi Garrison wanted to kill him, he would have done it early.
There is no need to bring them here.
Taking advantage of Levi Garrison's effort to contact the Black Hawk agent.
The Dark Doctor began to inquire about the situation with God's Brain.
"Don't worry, the two aircraft have safely left the airspace of the Warhawk Nation! They are heading to
the location of the spirit vein! It is expected to arrive soon!"God's brain is full of smiles.
As long as you leave safely from the airspace of the Warhawk Nation, nothing will happen.
And there are still two ships, double protection.
"Well, great! Now we can rest assured!"
Doctor Dark smiled: "I'm just curious about what Levi Garrison is going to do? It's okay to play with
him!"
At this time, Levi Garrison came back.
"Not only will I not kill you, I will join me!"
Levi Garrison said this.
It surprised Doctor Dark.
Now many forces are looking for him just to join him and use him to know the secrets of the Lab of the
Gods.
But Wan Wanwan thought that Levi Garrison had the same idea.
This is beyond his expectation.
"Of course, joining me does not give in to me! You can continue to do your research! If I guess wrong,
you are not interested in the world of hegemony for power status!
Your interest and even your goal should be biological research! The reason why you joined the Lab of
the Gods is to provide a better environment and resources for your research, right? "
Doctor Dark was taken aback.
Levi Garrison continued: "I have seen a lot of your research! You should devote yourself to studying the
blood of all species in the world, and then create the most perfect species in your mind? The doomsday
seed bank of Kangaroo country was what you wanted, right? ..."

The more Levi Garrison said this, the more shocked Doctor Dark became.
I was guessed too thoroughly by Levi Garrison.
"After joining me, I will not restrict you! You can continue to do your research, and I can even help you!
Of course your position is mine!
And we still have a common enemy. If you want to take revenge, after all, it is the Warhawk Nation that
got rid of the Lab of the Gods! "
Levi Garrison said.
After seeing Doctor Dark, he felt more and more that this person could not be killed.
The value of leaving him is a little bit bigger.
Especially his strength is unfathomable!
This is a surprise to Levi Garrison!
He will have a super boost!
When Levi Garrison said something, both Doctor Dark were stunned.
sincere!
They Levi Garrison felt sincerity.
It's not about using them to get something.
And given equal status, let them choose their positions.
I thought it was a dead end to be discovered, but I thought there would be such a chance!
Hearing God's mind was moved.
The Dark Doctor smiled: "You are not afraid that I promised on the surface, but in fact I have two
hearts?"
"Fear, of course. But I still have to try, and I am confident that I can solve it!"
Levi Garrison said with a smile.
Even though Doctor Dark couldn't see through, Levi Garrison was still sure to hold him.
Even if he has two hearts, Levi Garrison will stop him.
The Return of the God of War [The Protector] Chapter 2956
"Really? You want me to join you, or even surrender you, show your strength!"
Doctor Dark smiled.
This is tantamount to agitating Levi Garrison.
Levi Garrison smiled.
Doctor Dark is asking what qualifications he has?
"Look up!"
Levi Garrison said this.
"Rumble…"

Suddenly, the aura on his body rose terribly and terribly, as if the heavens and the earth were drowned.
The overwhelming horror power is invisible suppressed!
"Puff!"
The mind of God knelt to the ground in an instant.
Doctor Dark only felt that the sky had fallen, and it was all on him.
I don't know how much it weighs!
And getting stronger!
"哢嚓哢嚓……"
The ground under Doctor Dark's feet was completely cracked, and bottomless pits appeared.
He gradually couldn't hold on anymore.
Withstand the force of the sky.
Gradually his waist bends and his legs bend, and the whole person is about to fall gradually.
He couldn't hold it at all.
"what!!!"
He tried his best to keep his balance.
But it's not useful at all.
He suffered more power!
Waves of invisible power follow.
It's like a mountain after a mountain.The constantly superimposed weight shocked the sky.
It seems that the earth will collapse at any time because it can't bear this power.
The sky will tear because of the squeezing of this force…
Only Doctor Dark knew what he had endured.
He was full of bruises and bruises, and his face was terrifying to the extreme.
He tried his best to fight!
But he felt that his body was about to split.
Can't hold it at all!
At this moment, Levi Garrison suddenly accepted the gift.
The coercion that fell from the sky on Doctor Dark suddenly disappeared!
Everything is back to normal.
But Levi Garrison was not far away, he seemed to be doing nothing.
Just looked at them with a smile.
Shocked!
It was shocking!
The Dark Doctor's complexion was numb, and his eyes were filled with unresolved shock.

Outrageously strong!
He now finally understands why Levi Garrison went alone!
Because of self-confidence!
With his strength alone, he can definitely catch himself!
Levi Garrison smiled and said, "You're not bad! A little better than I predicted!"
The highest rating!
Exceeding Levi Garrison's prediction!
"Isn't it a pity that I killed you like this? Why not follow me, you continue your research, I also need
your help!"
Levi Garrison looked at God's brain again: "You can too, you can continue your grand blueprint! There is
no need to fight and kill!"
By now.
Doctor Darkness and God's mind looked at each other. At this time, because of Levi Garrison's
performance, they had different thoughts.
There is a feeling that he has not gone to ruin.
They all name each other's thoughts.
It seems that the automatic program is a bit early…
right!
That's it!
If they knew this, they would not activate the automatic program the first time.
"Now, are you willing to follow me?"
Levi Garrison asked.
"this……"
The Return of the God of War [The Protector] Chapter 2957
The brain of God hesitated.
Doctor Dark smiled: "Accept us, you are not afraid of becoming a public enemy? We are the remnants of
the laboratory of the gods, the public enemy of the world! Accepting us will be targeted by the whole
world! Will you bear it?"
"Now anyway, no one knows that I took you away, and then I will place you secretly. Anyway, you don't
need to show up! Don't care about this issue!"
Levi Garrison answered with a smile.
"That's true! We ourselves are in the research center all year round!
There is no need for publicity!"
The two nodded.

“Don’t worry about this issue, I will take you to a place next!”
Levi Garrison leads the way.
Two people followed.
Shortly after.
The three came to the base of Yanlongwei in Beijing.
“Introduce you two people, Doctor Dark and Brain of God!”
Levi Garrison felt that this matter still had to be told to Yan Longwei.
Therefore, the two of them were brought to the Yanlongwei base.
“They were found by the King of Words Side by Side?”
Cao Zhiguo was surprised.
They are also paying attention to the situation, knowing that the major forces are fighting for the dark
doctor.
Even the War Bear Nation sent the Star of Siberia to find the Dark Doctor.
I didn’t expect to be boarded by Levi Garrison.
They had no doubt about Levi Garrison’s strength in finding someone.
If you let him find it, there will be no one who can’t find it.
“Next, the Sky Shield Bureau and the major forces will continue to look for it, as long as you know this.
These two have already followed me!”
Levi Garrison smiled.
After setting up the two Doctors of Darkness, Levi Garrison began to ask:
“The Lab of the Gods was
destroyed, you should be thinking about how to retaliate?”
The Dark Doctor smiled and said, “Of course! In this case, who is going to steal a life, and is not capable
of revenge!”
Levi Garrison had no doubt about this.
They have this ability!
Even the dark doctor can directly assassinate it.
“But how do you retaliate?”
Levi Garrison looked at the two curiously and asked.
Since he found these two people.
It seems that they didn’t make any big moves.
How to get revenge on this made him very curious.
God’s brain subconsciously said: “Actually we…”
Just as he was about to say it, he was interrupted by the Dark Doctor:
“You found it before you had time
to retaliate!”
“You also understand that it must be a huge project to retaliate to the Warhawk Nation! It will never be
that simple! This is only ten days, what can you do?”

Although Levi Garrison saw a hint.
The Dark Doctor must have deliberately concealed it, not willing to say it.
But he did not find any abnormalities at the scene.
According to their thoughts, if they want to retaliate, there will definitely be a huge wave.
But the two were empty-handed.
The Return of the God of War [The Protector] Chapter 2958
There are also no large laboratories or bases.
They did not produce anything, similar to Leviathan and the like.
So it seems.
They are really not ready.
Little did they know that their revenge did not create anything.
It is a hidden danger inherent in the world, but now they are going to pierce this hidden danger.
But Levi Garrison didn't know all this.
After all, there is nothing around these two people.
And all their secret bases and the like were all discovered by the Sky Shield Bureau.
There is no chance at all.
Therefore, Levi Garrison didn't care much.
After Levi Garrison left.
God's brain was a little nervous and said, "Are we doing it too early? It seems that other methods are
also possible!"
Doctor Dark nodded: "It's a bit early, but the automatic program has started! What can I do? I can only
wait for it to be destroyed!"
…
the other side.
The Sky Shield Bureau looked like crazy.
Even if the matter was concealed, Smith knew it soon.
While condemning the Black Hawk agent, he also sent additional manpower to find the Dark Doctor.
The Guardians of the Galaxy Alliance's search efforts are very large.
In just one hour, twenty-eight large forces that have tried to find the Dark Doctor have been wiped out.
All parties are at stake for a while.
This is their determination!
Because the Eagle Nation knew too much about the laboratories of the gods.
Knowing how much things would happen if the remnants of Doctor Darkness were left behind.

So they are as crazy as they are.
It must be found in the shortest time, or it will be over!
In that old castle in Western Continent.
All around the big round table are members of the organization, either sitting or standing.
"In fact, the Dark Doctor himself has research value, especially for us, his research value is even greater!
He is obviously an ordinary doctor, but he has entered the main priest!
The Return of the God of War [The Protector] Chapter 2959
Not only rely on his research, but also rely on his powerful strength! This is too valuable for research! "
"It's a pity that Levi Garrison got on the ground first! We can't bear this tone!"
"Everyone said what should be done?"
...
Everyone talked about each other.
"Anyway, we have to arrest Levi Garrison's daughter Levilia for research! In my opinion, it might as well
take a one-time action! Bring back the Dark Doctor and Levilia!"
One of them suggested.
"Yes! Grab one of them, and Levi Garrison panicked. Then tell him to ignore both of them!"
"Well, let's act early! Let's head to Daxia!"
...
His proposal was approved by everyone.
This ancient organization immediately summoned its staff to go to Daxia.
"Not enough, we have to continue to put pressure on Levi Garrison!"
...
Soon after.
Suddenly a message came out-Doctor Darkness and the Brain of God in the Lab of the Gods were taken
away by the word Daxia and Wang Levi Garrison.
Not only that, but also showed the scene at that time.
Levi Garrison was among the three.
All over the world exploded for a while."What? Levi Garrison took the person away? So it was him!"
"Levi Garrison didn't even think about it? This shot is not fake!"
"Doesn't that mean that Levi Garrison is actually a partner of the Gods Lab? He is a spy?"
...
All parties are discussing.

When the Black Hawk agent knew about it, he was completely dumbfounded.
Levi Garrison?
impossible!
Levi Garrison would only kill Doctor Dark!
wrong!
Levi Garrison used the Sky Shield.
Those four goals are deliberately pushed to myself…
Agent Black Hawk quickly understood everything.
He really didn't think that Doctor Dark would be useful to Levi Garrison, but he didn't even kill him and
took him away.
Although Doctor Dark was in Levi Garrison's hands, he was relieved.
At least the crisis that the Eagle Nation was worried about would not arise, after all, Levi Garrison would
stop him.
The Return of the God of War [The Protector] Chapter 2960
But Levi Garrison tricked them, it was unbearable.
Agent Blade and Agent Polar Bear are full of anger in their eyes!
Soon, the head of the bureau, Smith, called-to bring back Doctor Dark at all costs.
I'm not afraid of Daxia anymore, so I must bring it back.
"Then let's set off! I will contact Levi Garrison personally after arriving in Daxia!"
Agent Black Hawk immediately took a large number of powerful men to Daxia.
Among them are the mysterious powerhouses that Smith added again.
After all the major forces knew that Doctor Dark had been taken away by Levi Garrison, on the one hand
they all gathered in Daxia, on the other they began to fan the flames.
Everyone thinks of Levi Garrison as the laboratory of the gods!
Hide and protect the remnants of the Gods Lab!
Is the public enemy of the whole world!
The incitement of public opinion is getting bigger and bigger!
All kinds of negative influences are overwhelming!
Angry!
Everyone is angry!
Whether it is the Galaxy Guardian Alliance or the original coalition forces!
All of them madly accused Levi Garrison!
Even the powers of several countries that have good relations with Daxia are also criticizing!

Soon they have risen to the level of Daxia.
Everyone began to doubt Daxia.
I think it was Daxia who sneaked away the Dark Doctor, and wanted to get the secrets of the Gods'
Laboratory and the Dark Doctor's technology.
Everything is Daxia's conspiracy!
Daxia is about to become a new threat!
Same as the Lab of the Gods!
Things are getting worse!
In the end, it became Daxia's conspiracy.
Some people even said that Daxia had cooperated with the Lab of Gods before.
Because of this disappearance for three years, all the bases of the Gods Laboratory are in Daxia.
This is obviously the most dangerous place is the safest place.
But at this time, everyone used it as evidence.
It just happened to be in line.
So many places not to choose?
Choose a big summer?
What's more, Daxia is so powerful, hasn't there been any discovery during three years?
This is impossible!
Probably, it means that Daxia and the Lab of the Gods are in the same group!
Over time, more and more people think so!
Daxia was under tremendous pressure.
Become the goal of the whole world.
Even all parties in Daxia were confused.
What's the matter?
The Return of the God of War [The Protector] Chapter 2961
When did Levi Garrison bring people back?
No one knows!
Everyone criticized.
No matter what Levi Garrison's purpose was for, it was a disaster for Da Xia now.
Yan Longwei was also shocked when he learned about it.
How did this leak out?
Didn't Levi Garrison say that nobody knew it?
Just temporarily place Doctor Dark in this place.
Everybody knows how now.
When Levi Garrison knew, he was also very surprised.
Gathered with Doctor Dark.

He is definitely not what these two people said.
“It seems that it should be the group of forces that suddenly came up when we left!”
The Dark Doctor analyzed.
Levi Garrison was also shocked.
It was caught.
He underestimated this power.
“What should I do now? All major forces should be on their way to Daxia!”
Doctor Dark deliberately asked Levi Garrison.He wanted to see Levi Garrison’s attitude.
In this moment of crisis, will they be handed over? Or protect it?
Yanlongwei everyone immediately looked for Levi Garrison.
“Now all parties suspect that we are in the same group with the Lab of the Gods!”
“The base of the Gods Laboratory is in Daxia, and all Leviathan has disappeared. They suspect Daxia is
hiding!”
“The reason for their suspicion is very good, and there is reason! Plus, people are indeed here now! They
really can’t run away!”
…
Caught up.
Everything fits!
Daxia is now suspected for a reason!
Nowadays, public opinion in the world is getting bigger and bigger, and Daxiadu is listed as a public
enemy.
not only.
Everyone in Daxia strongly demanded that the two Doctors be handed over.
This is the scourge, we must not stay!
Kill it in front of everyone!
The pressure is getting bigger and bigger.
Yan Longwei couldn’t control them.
The pressure inside and outside is too great.
The major forces that have been acquainted with each other call one phone after another, asking if
there is such a thing, and asking Daxia to deal with it quickly.
The Return of the God of War [The Protector] Chapter 2962
Lian Zhan Xiong Country sent telegrams requesting Daxia to give an explanation.

After all, everyone was the original ally!
Now Daxia, an ally, has been found to be united with the Lab of the Gods!
It is tantamount to cheating all allies!
This way everyone won't agree!
No one can stand it!
All of them are talking about Daxia's betrayal, and they must give an explanation!
Yan Longwei is under great pressure now.
Don't know what to do?
And they understand that this is just the beginning.
The next pressure will be even greater.
The situation will be more difficult!
It is estimated that it will be out of control by then.
Levi Garrison also didn't expect this result.
I underestimate that group of people too much.
I found myself unexpectedly.
Everyone in Yan Longwei was watching Levi Garrison.
Waiting for his decision.
Doctor Dark is even more curious-how does Levi Garrison deal with this matter?
Everyone in Yanlongwei looked at Doctor Dark.
If you stand in their position, you must hand over Doctor Dark, or kill him in front of the whole world, to
wash away your innocence.
In addition, there is no other way.
Either it is against the world and admits to colluding with the Lab of the Gods.
"In order not to involve Da Xia, I still take them away! If you are pressed in a hurry at that time, you will
have nothing to do with me! Drive me out of Da Xia!"
Levi Garrison said.
He looked at the two Doctors of Darkness: "Since I have brought you both and promised you to stay
here. Then I must not hand you over at this moment!"
"Go, and evacuate from Daxia first with me! It is estimated that many people have already arrived! If
you want to fight, we will also go outside to fight!"
Levi Garrison's resoluteness caused the two Doctor Darkness to be taken aback.
Not thinking of this critical moment, Levi Garrison wanted to take them away from Daxia to save their
lives.

This moved them a bit.
I thought that at this moment, Levi Garrison would kill them to wash away his innocence!
But there is no one!
The Return of the God of War [The Protector] Chapter 2963
Xiao Liejun nodded: "Okay, since you have promised, you can't go back! You leave quickly! Leave the
rest to us!"
They still believe in Levi Garrison.
He should be able to solve it.
"Hurry up! Just now, I found out that dozens of powerful people are already coming here! And the Sky
Shield has also sent a large number of people here! It can be at most half an hour!"
Cao Zhiguo hurriedly urged.
Everyone looked at Levi Garrison.
Let him take someone away first.
Levi Garrison is not nonsense.
"Go, follow me and leave first, I'll take care of other things!"
Levi Garrison greeted the two dark doctors.
It's just that the Doctor Darkness isn't moved at all.
"Go, what are you doing in a daze?"
Levi Garrison urged.
"It's not necessary!"The Dark Doctor still sat motionless, but he said something inexplicably.
God's brain also sighed.
They just want to see how Levi Garrison chooses.
But it's really unnecessary.
"Huh? Why is it necessary!"
Levi Garrison asked subconsciously.
The others also leaned in.
Seeing the look of God's brain, Levi Garrison realized something even more: "Could it be that you have
already…"
Doctor Dark confessed: "Yes! You guessed it wrong! We have already started revenge!"
God's Brain sighed and said, "Hey, it's too early! Start your revenge plan as soon as you find us!"
"Mainly at that time we were afraid that we would die if we met you, and we had to start a revenge
plan! Didn't think you actually killed us! Give us such a chance!"
There was a trace of regret in the tone of God's mind.

Even Doctor Dark's face was ugly.
After a brief exchange just now and the decision that Levi Garrison made at a critical moment.
The dark doctors had a great change in Levi Garrison.
It seems that it's okay if you don't start the retaliation plan.
They can continue their unfulfilled series of dreams, and they can also take revenge. Slowly in other
ways.
Rather than desperately throwing all the money right now, it all ends up.
But everything is too late.
The Return of the God of War [The Protector] Chapter 2964
It's all already started.
Levi Garrison's complexion changed slightly, and he stared at them firmly: "How is it possible? In such a
short time! I also didn't find out what weapons or large things you made?"
He couldn't figure out what their revenge was besides these.
Doctor Dark replied: "That's because our revenge doesn't need these at all! Our revenge uses other
things!"
Hear here.
Levi Garrison and Xiao Liejun's expressions have changed drastically.
That's it!
Something is going to happen!
This time things are serious!
"With the help of others?"
Cao Zhiguo asked.
"You should also know that the Lab of the Gods has explored many places in the world and controlled or
discovered many secrets! Some secrets are beneficial and can be used and controlled. But some secrets
are harmful. In layman's terms, they are disasters!"
Said Doctor Dark.
"Could it be that you used these things to retaliate? So you just need to release these!"
Levi Garrison immediately understood.
"But it hasn't started yet, should I be able to stop it?"
Levi Garrison asked immediately.
God's brain shook his head: "No way! The two aircraft I made have already started the automatic
program. Once the program is turned on, even I can't stop it! Let alone other people!"

“Even if the destruction is prevented, it won’t work! I also set up self-destructing devices! They will selfdestruct
and explode at the designated destination! This will detonate!”
Levi Garrison understood it roughly: “So these two aircraft are meant to detonate a certain explosive
location? In order to destroy everything?”
“Yes, it’s wrong.”
Levi Garrison’s expression softened slightly: “But after detonation, the power is great, and at most one
area will be destroyed. Why do you look like the end of the world is coming?”
Levi Garrison still knows these things roughly.
That’s the power of the sky.
It is estimated that the Eagle Nation will be able to stop it if they encounter it.
Let alone spread to the whole world.
That is impossible!
How can there be such a power!
Therefore, Levi Garrison is not worried anymore.
Doctor Dark nodded and said: “Yes! Wrong! It is to destroy the whole world! You have not heard
anything wrong!”
God’s brain nodded fiercely.
The Return of the God of War [The Protector] Chapter 2965
Levi Garrison’s expression changed when he heard this.
“What the hell is it? Hurry up and make it clear!”
Levi Garrison urged.
“The Lab of the Gods discovered a super spiritual vein in the extreme depths of the Antarctic glacier
about nine years ago!”
Speaking of this, Levi Garrison had no reaction.
But Xiao Liejun’s expressions changed wildly one by one!Super spirit vein? ? ?
When they heard these four words, Xiao Liejun’s hearts were filled with turbulent waves.
The eyeballs almost flew out!
Is it the kind of super spiritual vein they think?
The bodies of the four people were already shaking violently.
As for Cao Zhiguo, if he hadn’t leaned on the table, he would have fallen directly to the ground.
It was shocking!

I thought that this secret would be hidden forever, and died with them, buried directly in the soil.
No one thought of it so quickly, someone would mention it!
It was shocking!
If it is the same!
That would be unimaginable!
Levi Garrison saw the faces of several people, and he also realized that something was wrong.
"What is a super spiritual vein?"
Levi Garrison asked immediately.
"This super spiritual vein contains the energy to destroy the world. According to your Da Xia's name, it
should be spiritual energy. The popular point is what those ancient monks in the ancient Da Xia need to
practice! Necessary! If the legend is true!"
"Since it is what they need for cultivation, that's what they can control! Even though the Gods Lab has
found this super spiritual vein, it can't control it at all, let alone use it, even the main divine division!"
"Because the energy contained in this super spiritual vein is too terrifying, once opened, it will be like a
Pandora's box opened. It will be a disaster to destroy the world!"
...
Hearing this, Xiao Liejun and others already knew.
This is the same thing!
It is the super spiritual vein they know!
"When they first found the Super Spirit Vessel, everyone thought they could find a resource to replace
the Sun Stone. They blindly tried, but after the Super Soul Vein opened a hole, disaster happened. All
the thousands of people who went to explore were all dead, and all the equipment fell apart. .
In the end, the Lord God Division came forward and gathered all the power of the Gods Lab and the
most advanced technology to seal the opening! He is a witness! Relying on his technology can barely do
it! "
Dr. Dark said, and glanced at God's brain.
The Return of the God of War [The Protector] Chapter 2966
God's brain nodded with lingering fear: "Yes! I personally experienced it at the time! Only with all the

metal extracted from a meteorite fragment, I barely sealed the hole! It was almost sealed at the time! If
it weren't for the help of the main god! It has happened!"
"This super spiritual vein has been accumulated for too long, too long time! Probably millions of years! I
have accurately calculated the energy of the super spiritual vein, enough to destroy this world from
beginning to end! No one can control it. !"
When God's brain said this, everyone took a mad breath.
It's exactly the same!
The four heads of Xiao Liejun and Cao Zhiguo have already understood.
This is the dragon vein found under Project Atlantis!
It's exactly the same!
This one is under the Antarctic glacier.
It may all be connected together!
And listening to the description of God's brain is the same as that of dragon veins!
At that time, the technology was limited and it was impossible to calculate it accurately.
Now the calculation is almost the same as the prediction!
Levi Garrison knew everything about it.
To put it plainly, this super spiritual vein contains energy that can destroy all super energy!
There is no way to control it!
Doctor Dark nodded: "Just what I said, some discoveries in the world are beneficial, but they may also
be disasters! See if you can control it!"
Levi Garrison immediately asked: "That means that the two aircrafts you made are to go to the location
of the spiritual veins, and then open the spiritual veins to release all the energy? To destroy the entire
world?"
God's brain nodded: "Yes, the weapons and self-destructing devices of the aircraft are all aimed at
destroying the spiritual veins! You must destroy the spiritual veins anyway!"
"That's it!"
"Completely finished!"
"Puff!"
Hear here.
Cao Zhiguo collapsed to the ground.Xiao Liejun and the others knew better than anyone else that once

the super spiritual vein was broken, the least consequence would be to wipe out human civilization from
this world!
Everything is erased!
The more serious point is to destroy the world in an improper way, directly changing from the inside
out…
But those have nothing to do with everyone.
It is estimated that by that time, everyone will no longer exist…
The Return of the God of War [The Protector] Chapter 2967
Doctor Dark nodded: "Well, it is necessary to destroy the Super Spirit Vessel anyway! So this is a mortal
game! Don't worry about it! Just wait for the destruction to come!"
The Dark Doctor and God's brain are already determined to die.
But Xiao Liejun and Levi Garrison didn't think so!
"Stop! Must stop!"
"Stop it at all costs! Once the super spirit vein is torn apart! It is a disaster!"
"Quickly, quickly, find a way to stop!"
…
Because Xiao Liejun and the others knew the super spirit veins were powerful, they were stronger than
Levi Garrison's performance, and they had to stop all of this.
Lu Xiong pulled Levi Garrison aside.
Tell him the real secret of the termination of the Atlantis plan.
"So that's it! Hey! What's the use of knowing now?"
Levi Garrison finally understood why the five had such a strong reaction…
It turns out that they have long known the existence of super spiritual veins!
"How long will it take for the aircraft to reach the Super Spirit Vessel?"
Levi Garrison looked at God's brain solemnly.
"There should be about three hours left!"
Said the brain of God.
"I should still be able to try it! So, I will immediately go to the position of Super Spirit Vessel! You come
with me!"
Levi Garrison pointed at God's brain.
Levi Garrison looked at Lu Xiong again: "Give me the fastest fighter! Hurry up!"
"clear!"
Lu Xiong immediately went to make arrangements.

Levi Garrison looked at the other people and said, "The probability of stopping it is too small! If it can't
be stopped, it is a disaster! So next, you must first tell the world about this matter, so that everyone can
prepare!
Second, open our safe island and protect everyone as much as possible! Others remind them to do it,
our island can only save our own people.
Third, start to defend if you can defend, reduce the loss as much as possible, or leave something!
In short, everything that can be started is started! Even if it is destroyed, you have to leave as much as
possible! Especially the safety island may really come in handy! "
Xiao Liejun nodded fiercely: "Don't worry! Let's take care of these things!"
"But maybe even if we tell the truth, others will not believe it! They may even think that this is Daxia's
conspiracy, which will cause trouble!"
Jiang Ye raised his own question.
The Return of the God of War [The Protector] Chapter 2968
"Yes, no one believes that it may cause trouble! By then, our safe island will not be activated!"
Hong Qingcang also agreed.
At this time, Doctor Dark stood up: "I will confess, right? At the last moment, it can be regarded as your
innocence! You go right away!"
Soon, Daxia's fastest Jinpeng fighter arrived.
This is Daxia's fastest fighter!
Abandoning the function of attack and transportation, all efforts are only for speed.
Levi Garrison and God's Brain set off immediately.
Disappeared instantly.
"Quick! Quick, quick! Give me the fastest speed! Don't be afraid of accidents! I will protect you!"
Levi Garrison immediately ordered.
The driver was aware of the seriousness of the matter, and was willing to fight it out.
Ignore all obstacles and come up with the fastest speed!
The brain of God hurriedly inspected the specific locations of the two aircraft.
"According to time, we still have a chance!"
The way of God's brain excited.

Levi Garrison breathed a sigh of relief.
That's good!
Just give him a little time, he can definitely stop it!
fine!
Everything has a chance!
The tense atmosphere spread among the fighters.No! I have to ask for help!"
Levi Garrison immediately contacted the Black Hawk agent.
Agent Black Hawk just wanted to ridicule Levi Garrison and asked why he secretly took Doctor Dark
away.
In the end, Levi Garrison said directly: "It's too late to explain! Their revenge has begun! It will be less
than three hours! I will give you the location! See if you can arrive faster! Stop it!"
Upon hearing Levi Garrison's words, Agent Black Hawk's face changed drastically.
He realized the seriousness of the matter!
"Okay, you send me all the information! I'll prepare it!"
Agent Black Hawk immediately said.
After Levi Garrison sent everything over.
The Black Hawk agent immediately asked: "Can it be locked with a super weapon? Just kill it?"
God's brain shook his head: "No! To prevent this situation from being discovered! I made the settings
specially! Not being tracked and locked! Tracking and locking is also a false target! And the route it walks
is erratic! Even I can't be specific. Catch! Not to mention other people!
The position you captured may also be false, or even delayed! I also blame my settings for being too
complicated. I racked my brains and imagined any way to block it, and then set it up the other way
around! "
The Return of the God of War [The Protector] Chapter 2969
Agent Black Hawk took a deep breath: "Well, for today's plan, the route cannot be determined! So we
can only rush to the destination to stop them before them!"
"Yes! Wrong! That's it! I can only know the approximate location, but the route I set is erratic! I can't
capture it at all!"
Agent Black Hawk seemed a little confident: "Well, then I will use the fastest aircraft of the Sky Shield!

There should be hope!"
Hearing this, Levi Garrison could catch his breath.
It is a double guarantee.
He can rest assured for the time being.
the other side.
Yanlongwei immediately organized a live broadcast of the emergency meeting for the whole world!
Doctor Dark appears as the protagonist!
This conference caused a sensation in the world from the beginning, and attracted everyone's attention!
After Doctor Dark entered the mirror, it attracted everyone even more.
Especially the head of the game,
Smith is watching everything.
"The situation is extremely urgent! I'll start!"
"I am the dark doctor you are looking for! As you can see, I am in Daxia! But Daxia is not in contact with
the Gods Laboratory!"
As soon as this was said, the audience was in an uproar.
This is because the person involved directly said that Da Xia has nothing to do with the Lab of the Gods!
"A lot of people are wondering why Levi Garrison brought us to Daxia? That's because my revenge
action has already begun! Levi Garrison brought me here, just wanting to ask what the method of
revenge is? Otherwise, he would have killed him. I'm…"
After Doctor Dark explained, Levi Garrison and Da Xia were all washed away.
Instead, praise and cheers everywhere.
They are all saying that Daxia must not be able to do such things.
However, the next word of Doctor Dark broke them.
"Don't be happy! The revenge has already begun! The next is the countdown to the doomsday! Human
civilization will be wiped out at that time, and the world will be greatly changed inside and out…"
Doctor Dark began to talk about his revenge.
Everyone was shocked to hear.
If this is true, it would be terrible!
After Doctor Dark said all this.
Representative Yan Longwei spoke-claiming that Levi Garrison had taken people to stop the
catastrophe.
But the success rate is not high.

Maybe catastrophe will happen…
Therefore, Daxia called on all parties to initiate an emergency response to prevent the ensuing
catastrophe.
The Return of the God of War [The Protector] Chapter 2970
Daxia has opened the safe island, and transferred people and some necessary items to the safe island as
much as possible.
It is to fight for the last time.
Keep as much as you can.
soon.
Several countries that have good relations with Daxia have also launched safe islands.After all, the safe
island project that we all assisted each other in the past was just completed.
It's all available now.
Upon hearing this.
All parties immediately started using it.
The number of safe islands is also sufficient to be used by Daxia and the parties involved in the
construction.
As for other people, they can only figure out their own solutions.
I can still remind you for now.
"It is estimated that there are less than ten hours left for the full outbreak of the catastrophe! This is a
conservative estimate! If the outbreak is fast and severe, then only six hours!"
Yan Longwei directly stated the remaining time in the meeting and asked everyone to prepare.
This is actually to see how big a hole the two aircraft can open the super soul vein.
If it is smaller, it is estimated that it will take ten hours to spread from the Antarctic glacier.
If it's big, it doesn't have to be. It will explode in an all-round way, and it will soon spread to the whole
world.
That's six hours.
Anyway, Yan Longwei is calling on the whole world to face this catastrophe together. Since we can't
avoid it, then hurry up. What can we save? What can I leave behind?
This live broadcast of Yan Longwei facing the world will be released as soon as it is released.

The whole world is in chaos.
…
And at the moment.
Levi Garrison on the Golden Eagle fighter suddenly noticed something abnormal.
"Boom!!!"
A light arrow actually shot towards here.
"Boom!"
Levi Garrison directly exploded a terrifying force in the air.
Shatter this light arrow!
"Who the hell! Come to harass this time!"
Levi Garrison was really going to explode.
If it's usually okay.
But now.
Hurry!
The Return of the God of War [The Protector] Chapter 2971
At this moment of adding fuel to the fire, there was interference.
He was going to drive Levi Garrison crazy!
Now time is the most precious time.
There must be no obstruction!
Now someone appears in front of you!
"Swish swish…"
Light arrows struck in mid-air, as if the Golden Eagle fighter jets were to be penetrated!
"Go away!!!"
Levi Garrison was angry.
I don't know who the person is, but the Golden Eagle fighter was temporarily blocked.
Time is also passing by one minute and one second.
On the other side, Agent Black Hawk after contacting Levi Garrison.
Just as it was about to activate the authority of the fastest aircraft of the Sky Shield, it was blocked by
others.
"Wait! It's Levi Garrison's strategy to prevent the inconsistency! Look at it before saying that he will kill
Doctor Dark and help us find it. The result? He deliberately disrupted our direction and took people
away secretly!"
"Yeah, this Levi Garrison is too cunning. This time it is inevitable that it is another strategy! We have to
figure it out later!"
…

Next, many people began to stop the Black Hawk agent.
Agent Black Hawk was actually very entangled.
It might really be Levi Garrison's conspiracy!
He is not sure!
It might really be a trick that Levi Garrison wanted to get rid of himself.
"I think we should lock Levi Garrison's position first to see where he went!"
Someone suggested.
But at this time they saw Yan Longwei's live conference!
Also saw the Dark Doctor.
The Return of the God of War [The Protector] Chapter 2972
It seemed that the matter was not Levi Garrison's strategy.
It's really the same!
Agent Black Hawk realized something was wrong.
He immediately said: "Well, let's lock Levi Garrison's position first! I'll catch up with you first! This thing
is rather believable than nothing!"
"Okay, I have locked on where Levi Garrison is! This is the Daxia Golden Eagle fighter!"
soon.
The Black Hawk agent drove the Sky Shield's Lightspeed One aircraft and began to catch up.
This speed is a bit stronger than the Golden Eagle fighter!
However, Levi Garrison could catch up.
But time was completely wasted.
Originally, if the Black Hawk agent set off directly, there was still a chance.
Now ran to find Levi Garrison, and with the blockade from the people before, dozens of minutes was
wasted again.
The first line of life is wasted directly…
But Levi Garrison actually encountered obstacles here.
It also greatly delayed time.
There was only a trace of time to save, but now it's all gone!
It means that Levi Garrison's double protection is no longer available.
"Fucking sick, right? Harassment at this time!"
Levi Garrison was really angry.
At this point, any harassment is harmful!
And it hurts the whole world!
And it was the ancient force who studied the ancient monks that blocked the Golden Eagle fighter!
They leaked the message of Levi Garrison.

When the information is known to the whole world, they have already come to Daxia.
Some people are staring at Levilia, and some are looking for Doctor Levi Garrison Darkness.
Now some people are following up.
But after ten or twenty minutes of harassment, they couldn't stop them, so they could only retreat.
It happened that Levi Garrison was going to kill and clear all obstacles.
See the enemy retreat.
It can only speed up the Golden Eagle fighter!
"We may not be able to catch up! The extra time is completely wasted!"
God's brain is full of sorrow.
Levi Garrison also frowned, "Fortunately, the Sky Shield has already gone! Fortunately, I notified Agent
Black Hawk in advance!"
But at this time, the driver's voice sounded: "There is an aircraft eight kilometers behind us, which is
faster than us! It is catching up with us!"
Hearing this, Levi Garrison understood.
The Sky Shield Bureau didn't believe him, and came to confirm it.
Now time is completely wasted.
That trace of vitality was lost!
"idiot!"
"moron!"
Levi Garrison scolded.
The Return of the God of War [The Protector] Chapter 2973
This is over!
Completely finished!
I can't catch up any time soon!
Levi Garrison immediately contacted the Black Hawk agent and told him all of the situation.
Immediately, they were asked to reach their destination as quickly as possible.
Although you can't keep up, you have to try.
Agent Black Hawk no longer doubted this time, and proceeded at full speed to the destination.
They carry the only hope.
…
Since Yanlongwei held an emergency meeting, he immediately joined a few allies to start a safe island.
All people and supplies, as well as some things that need to be preserved, are transported to the safe

island.
There are 500 safe islands, and there are natural areas similar to safe islands.
Together, it is just enough for Daxia and a few allies.
Within a few hours, everyone needs to be transported to a safe island.
On Daxia's side, Lu Xiong was the commander-in-chief, after all, he had previous experience in this area.
Under his command, all parties proceeded in an orderly manner.
Everyone began to sigh with gratitude, this safe island really came in handy.
And it was used so soon.
The safety island is really life-saving!
Despite the magnitude of this crisis, the island still has a certain chance of being able to stop it.
At least the chance of survival is 50%.
This is quite high.
Several other allies are also deeply grateful, but fortunately to cooperate with Daxia.
Otherwise, there is no place to hide at this time, right?
At present, Daxia can only protect itself, and other forces can't control it.
Time is running out.
However, most forces and regions, even after knowing this news, did not initiate any actions the first
time.
Many people think this is fake.
This is Daxia's conspiracy at all!
I want to use this as if to swallow the Dark Doctor alone, so as to get all the secrets of the Gods
Laboratory.
They don't even know about things like super spirit veins.
The Return of the God of War [The Protector] Chapter 2974
Just unheard of.
Still want to destroy the whole world from the inside out?
impossible!
indeed!
Except for the leaders of Daxia, no one knew about the super spiritual veins.
Even the Black Hawk agents of the Sky Shield Bureau didn't know this.
I have never heard of it before, let alone understand it.
Now some people suddenly say that this thing can destroy the whole world.
How and how…

How does this make everyone believe?
Let alone prepare!Don't talk about them.
Levi Garrison didn't even believe it at first.
I think this power is too exaggerated.
If it weren't for Xiao Liejun, they said the reason for the termination of the Atlantis plan.
Levi Garrison would not believe that either.
Levi Garrison didn't believe it.
Not to mention other people.
Even most people in Daxia who are moving to the safe island find it a bit absurd.
However, the reason they still went is that they would rather believe what they have, not trust them
without.
And I believe these decision makers are right.
Even if you don't believe it…
They are all dedicated to the people and will not let them suffer.
But others are different.
They couldn't believe it more and more.
Many people think that this is Daxia's trick to divert the things that brought the Dark Doctor.
Just want to swallow all the secrets of the Gods Lab!
What super spiritual vein?
Can it be so powerful?
It's so funny!
Since there is such a strong super spirit vein, why can he still lose to the Galactic Guardian Alliance?
I lost so badly!
With this trick, why did you go early?
And Weili described it too much.
Can destroy the world inside and out.
Do not believe!
So all parties are hesitating!
Even if some forces believe in Daxia's release meeting, there is no way.
They have no idea.
There are no safe islands.
There is no hiding place.
The emergency response will not respond much.
The Return of the God of War [The Protector] Chapter 2975
So there is no action.
This is basically 10% of the status quo.
Few people believe it.

What is the situation still waiting?
The smarter ones go to investigate.
However, the emergency response is in full swing in the relatively big summer.
They just didn't have any action.
In fact, another party is also in action.
That is the war eagle country.
After they learned about it, they didn't have the slightest suspicion.
Prepared for the next thing.
One side also asked the Black Hawk agent to organize as much as possible.
While organizing the entire Galactic Guardian Alliance to avoid danger, once disasters and catastrophes
occur, they have to figure out a way to deal with them.
So the Galaxy Guardians are acting secretly.
Unexpectedly, there are many secret bases in Warhawk State, which are equivalent to safe islands…
They didn't doubt the authenticity of this incident at all!
Immediately began to prepare.
Perhaps the people who know the Lab of the Gods best know how terrible the consequences of their
revenge on Doctor Dark.
They were more nervous than anyone else, and immediately started an emergency response.
Time lost every minute and every second.
Anyone feels terrible.
Xiao Liejun and the others looked at other countries at all, but they were actually very uncomfortable.
But there is nothing that can be done.
It doesn't work if it is reminded.
They still don't believe it!
…
now.
Levilia, who was with his mother, suddenly encountered a strong man from the ancient forces.
After they couldn't catch Doctor Darkness, they could only take Levilia away first.
They are also very simple.
Directly control Zoey Lopez to dye them.
Knowing that Levilia's strength was extraordinary, they didn't dare to attack Levilia head-on.
The Return of the God of War [The Protector] Chapter 2976

In order to take you away as quickly as possible, you can only use this despicable method.
Levilia was caught off guard.
Zoey Lopez and several relatives were caught.
She has no idea.
Can only follow each other.
This group of ancient forces used special locks to capture Levilia and quickly take him away.
Of course, these ancient powers are not vegetarian.
They can also win a face-to-face encounter with Levilia, but with a little effort.
The group just now even stopped Levi Garrison temporarily.
This was a painful blow to Zoey Lopez.
This kind of thing happened in the first place.
Everyone moved to the safe island, but Levilia was taken away secretly.
In a burst of crying, Zoey Lopez broke away from the transfer team.
Run to save Levilia.
Levilia has something, how dare she live?
No one thought of this, not even Levi Garrison.Levi Garrison and the others are going to the super spirit
vein position with all their strength!
Agents Black Hawk, too.
The head of the game, Smith, also opened up all the permissions.
Any base and any weapon in the war eagle nation in the world can be used.
Agent Black Hawk immediately activated these.
Although knowing that the possibility of tracking and interception is unlikely, all are enabled.
What if there is hope?
In addition, the Galaxy Guardian Alliance dispatched a fighter plane at all bases along the way.
Or all kinds of weapons fired for crazy blocking.
It is bound to intercept the two aircraft.
…
Everything that can be done is done.
The rest is all luck.
After some tossing.
There is more than an hour left.
The two aircraft have reached the sky above the Antarctic glacier.
About to enter the glacier.
The Return of the God of War [The Protector] Chapter 2977
Although countless weapons are pouring on the Antarctic glacier.

But both were deceived by the two aircraft.
Either it is a fake route.
Either it is a time delay.
…
After all, the brain of God makes a series of complicated reverse settings.
Able to fool all the tracking…
Therefore, the interception failed before entering the Antarctic glacier!
"哧嚓!哧嚓!"
The two aircraft directly penetrated the glacier at extremely fast speeds.
Penetrate below…
Although the super spiritual veins are deep in the glacier, super deep.
But according to the speed one and a half hours can definitely be achieved.
Whenever encounters any obstacles, it will directly sweep everything without affecting any speed at all.
"It's not good! There is no interception on my side! Two targets have entered the Antarctic glacier!"
Agent Black Hawk contacted Levi Garrison.
The brain of God also found the location of the two aircraft.
"We did not stop before reaching the Antarctic Glacier! We have already missed our best
opportunity!"
God's brain looked annoyed.
According to his plan, it is to reach the Antarctic glacier one step ahead of time at a very fast speed!
Then find a way to destroy it.
But now because of those people's obstruction, it has been too long, and it is impossible to arrive early.
Agent Black Hawk also missed the best time because of his stupid brain.
It is also impossible to reach the Antarctic glacier in advance.
And it was at least half an hour away.
This means that the best opportunity is missing.
"Now if we follow the regular route, we will definitely not be able to catch up!"
"The only hope is to find other channels to enter! See if there is a hint of life!"
Said the brain of God.
After the Black Hawk agents received the message, they immediately used long-range weapons to open
a channel at the location locked on the Antarctic glacier.
The Return of the God of War [The Protector] Chapter 2978

As for the Golden Eagle fighter, Levi Garrison also punched to open a channel by himself.
Both sides try their best.
Hope to catch up!
The next hour is the speed of life and death!
Catch up and resolve the crisis!
Can't catch up, the world catastrophe!
Daxia, his allies, and the Galactic Guardian Alliance are already preparing for the catastrophe.
For example, Daxia hides all the scarce things or seeds.
If it is really destroyed, I want to leave something.
Leave a little hope of rebirth!
Only a bunch of idiots still doubt this, doubt that.
There is no preparation at all!
Some people who are not afraid of death even threatened to wait for the catastrophe of the world to
come!
They don't believe Daxia's nonsense!
They just waited six hours to see if the world would be catastrophic or nothing.
They also planned how to retaliate against Daxia when there is nothing to do.
Just do not plan to escape in advance or preventive measures!
Daxia and the War Eagle Nation have been paying attention to the progress of Levi Garrison and Black
Eagle agents.
Knowing that there is no future for the greatest hope.
Everyone expected it!
That is the worst result!
"Speed up! Speed up!"
Daxia and the Galaxy Guardian Alliance can only speed up.Indeed, hope is almost zero.
What Levi Garrison did is to fight hard!
Fight for the last chance!
Basically don't hold any hope.
At this moment, Zoey Lopez and his party are looking for Levilia.
But after the power took away Levilia, he disappeared without a trace.
Where do you go to find this?
Don't know who took Levilia away?
Later, Zoey Lopez wanted to contact Levi Garrison, but Levi Garrison had already left.
Where can I get in touch!

And everyone is busy, where can I think about Zoey Lopez?
The Return of the God of War [The Protector] Chapter 2979
However, the dark doctor who knew about this immediately found Zoey Lopez and his party.
"I probably know who took Mr. Ye's daughter away!"
With a word of him, Zoey Lopez almost broke down.
"Ah? Do you know where it is? Say it!"
Everyone surrounded them nervously.
"As far as I know! There is an ancient organization in the West that specializes in ancient monks! For
example, I was on their list early! I have long wanted to study me as an ordinary person.
This time, it should be them!
When Mr. Ye and I left from the Eagle Nation, they found out. It was mostly them who exposed Mr. Ye
afterwards! Mr. Ye and their Golden Eagle fighters were attacked before, and it should be them too! "
"I was only skeptical, a little unsure! But they attacked Mr. Ye's daughter! I'm sure! In the previous
battle, Mr. Ye's daughter showed off, much like the Qi training technique of the Summoner in the
legend of Daxia! Daxia gas trainers have always been the target they want to study! It is estimated that
for this reason, Mr. Ye's daughter was taken away."
The Dark Doctor's guess was completely correct.
It was suspicion before.
Now that I learned about it.
It was affirmed immediately.
This ancient organization discovered them.
Now the soldiers are coming to Daxia in two ways.
The Dark Doctor immediately looked at Zoey Lopez: "Mrs. Ye, please don't worry! Your daughter is
temporarily in danger of life! They are just researching!"
"Then can you find them?"
Zoey Lopez asked excitedly.
"I don't know, but I will try it! It's just that there is too little time!"
Said Doctor Dark.
The longest is only ten hours.
It is estimated that it will take a long time to find this ancient organization.
"Forget it, let me give it a try! Give Mr. Ye a favor!"
"Mr. Ye is more nervous than us, so you don't have to bother!"
Said Doctor Dark.

Finally, he took Zoey Lopez and his party to search for this ancient organization.
Of course, the urgency of time is no less than that of Levi Garrison's side.
After Levi Garrison entered the new passage here, he tried to intercept the next two aircraft.
"Make up a little bit of time! But it's just a minute or two! It won't work at all!"
God's brain is gloomy.
"Agent Black Hawk may not be much faster there! I can't catch up!"
The Return of the God of War [The Protector] Chapter 2980
Neither side can catch up.
This is the most desperate thing.
Time is getting longer and longer.
The distance to the super spirit vein is getting closer and closer.
It means hope is getting smaller and smaller.
Time passed by every minute and every second.
half an hour!
One hour!
More than twenty minutes left!
There is still no catching up!
This makes everyone's heart sink to the bottom!
"No! I can't go on like this! I have to think of a way!"
Levi Garrison frowned.
"any solution?"
"Now my brain is blank, I can't think of any way! And the speed of the fighter has been increased to the
highest! What else can I do?"
Said the brain of God.
"Then I can only speed up the fighter! I hope I can bear it!"
Levi Garrison jumped.
Jump out of the fighter plane.
"Boom…"
He punched it out and tried his best to accelerate the Golden Eagle fighter!
The Golden Eagle fighter was launched at a speed that surpassed its own limit…Originally, the Golden
Eagle fighter was flying at the limit speed!
After basically flying this time, the fighter plane was absolutely scrapped.
In fact, all aspects are bearing the limit!
Now Levi Garrison's full urging has doubled the speed!
It has doubled again at the limit speed!
Can you imagine how close it is?

Cut the time in half.
There is still a chance!
“哢嚓!哢嚓!”
Soon the surface of the Golden Eagle fighter began to crack.
Even the top materials can’t withstand this terrifying pressure!
This speed is really beyond the limit of the Golden Eagle fighter!
Immediately after that, the structure inside the Golden Eagle fighter was shattered little by little.
This scared the driver to death.
The Return of the God of War [The Protector] Chapter 2981
The next step is the end of the plane crash!
But only in this way can it be possible to arrive before.
Soon, I saw a flash of fire rushing through the channel extremely fast!
That is the Golden Eagle fighter has already started to burn.
Bear the speed and strength it shouldn’t have!
“Fak! God! What did I see?”
On the other side, the Black Hawk agent’s fighter saw the Daxia Golden Eagle fighter suddenly speeding
up!
Also doubled the speed!
This is incredible!
However, seeing the Golden Eagle fighter plane burning at extreme speed, he understood.
Levi Garrison is desperate!
There is no way out!
Levi Garrison also caught up with him at his extreme speed!
Time passed by every minute and every second.
It’s getting closer and closer to the location of Super Spirit Vessel!
Two aircraft are about to arrive.
But at this moment.
Suddenly a golden eagle fighter plane that was braving in flames arrived one step ahead of schedule.
“The fighter can’t bear it! It’s about to explode!”
Shouted the driver.
Especially seeing the two aircraft that are about to rush.
“Destroy them! Use all weapons! Hurry, hurry!”
Shouted the brain of God.
You have to destroy the aircraft with a weapon at once, so that the self-destruct program can’t be
activated.
“Boom boom boom…”

The Golden Eagle took the risk of destroying the aircraft and launched all weapons together.
However, these two aircraft cannot be locked at all, so they can only be used for coverage strikes.
Spread out all the firepower…
However, among the programs set up by the God's Brain for the two aircraft, one is escort in nature,
and the other is to be protected.
Suddenly there were two aircraft, one in the front and the other in the back.
One protects the other!
See that the aircraft is automatically protected.
God's brain is also very troubled.
This is a dead program!
Since it started, there is no way to stop it!
They were too impulsive for revenge at the beginning!
Too absolute!
Everything is dead!
The Return of the God of War [The Protector] Chapter 2982
Not even he can do anything about it!
Can only watch!
"Rumble…"
Soon all weapons were bombarded on the first aircraft.
Of course, this aircraft is not all blocked.
A certain amount of resistance was also activated.
And under cover.
The second aircraft flew quickly from the other direction.
At the same time, the first aircraft that was attacked continued to cover…
Keep covering until he is hit hard!
Start the self-destructing program directly to hit the Super Lingmai!
"Stop it!"
Shouted the brain of God.
The weapon of the Golden Eagle fighter immediately destroyed the first aircraft, and it was also useless
to start the self-destruction program.
With all my efforts, the first aircraft was finally destroyed.
But at this time the Golden Eagle fighter was already in pieces.
It's malfunctioning everywhere.
Various systems are disordered and cannot operate normally at all.
"Go on! Destroy the second aircraft!"
Shouted the brain of God.
Seeing that the second aircraft passed through.

He was anxious to die.
“No, the weapon system is stuck! Can’t launch! Ah! Hurry up!”
The operator yelled.
It is true that the Golden Eagle fighter has been damaged too badly.
Not to mention the damage to the weapon system, the fighter jet will explode soon.Hurry up! Hurry
up!”
The brain of God operates by itself.
“Rumble…”
But at this time the Golden Eagle fighter itself exploded.
The system is completely paralyzed.
Not to mention that the weapon was fired.
Although the Golden Eagle fighter arrived one step earlier, it could only stop one aircraft in the end.
It didn’t work in the end.
Another fighter can’t stop it at all!
Moreover, the Golden Eagle fighter plane was about to blow up, and the lives of several people were
dying.
The Return of the God of War [The Protector] Chapter 2983
The position of the Super Spirit Vessel is below.
All the weapons carried by the other aircraft bombarded the opening of the super spirit vein.
Although the outer metal was used to seal it, it was indestructible.
But the brain of God they understand the structure of this metal and know how to destroy it.
Therefore, the weapons carried in the aircraft are specially designed to deal with sealing!
“Rumble…”
Amidst the shaking of the mountains.
All the metal sealing the opening was destroyed.
The hole in the super spiritual vein burst out.
However, the weapons carried in the aircraft continued to bombard, and the opening should continue
to expand!
Not only that.
Finally, the self-destructing program must be activated and directly hit the Super Spirit Vessel.
Destroy the hole of the super spirit vein to the largest one at one time!
Seeing the skyrocketing fire from the super spiritual vein position, they were all numb.
“It’s over! It’s really over all this time!”

“It fell short!!”
The brain of God cried directly.
After so much effort, I finally failed.
The same goes for everyone else.
Immediately the Golden Eagle fighter will be destroyed.
But there is no one who cares about their own life and death, they just regret that they will not be able
to save the world in the final moment!
“Rumble…”
At this time, Agent Black Hawk’s fighter plane arrived.
Seeing the flames in the distance, I understood everything.
It’s still late.
Can’t save!
After all, their speed is slow!
In the next moment, Levi Garrison, who relied on speed, also arrived.
But at this time, no one would be surprised that Levi Garrison’s own speed was almost comparable to
the fastest fighter.
Rather, he was immersed in the crisis of the super spiritual veins in front of him.
“Dididi…”
The Tianshield fighter group immediately issued the highest-level alert.
The Return of the God of War [The Protector] Chapter 2984
“Detected a powerful force and anomalous magnetic field ahead! It has gone beyond the detection of
the instrument! It will be released soon and will destroy all of us!”
Heard this.
Agent Black Hawk’s heart sank to the bottom.
Why is the head of the bureau, Smith, so afraid of Doctor Dark?
The reason is now known.
“Withdraw! Everyone quickly withdraw!”
“You transfer to the Black Hawk agent’s fighter plane!”
Levi Garrison quickly transferred several people from God’s Brain to the Black Hawk agent’s fighter
plane.
Give up the Golden Eagle fighter completely.
“Boom…”
However, the Golden Eagle fighter exploded immediately.
“You retreat first!”
Levi Garrison asked Agent Black Hawk to leave.
“how about you?”
Agent Black Hawk asked.

“Do not bother me!”
Levi Garrison looked resolute.
“Rumble…”
At this time, the location of the Super Spirit Vessel had been earthshaking, and the movement of the
earth and the mountains was spreading.
The entire Antarctic glacier is rumbling and shaking.
An unprecedented earthquake is underway.
But this is just the beginning.
The energy in the super spirit veins has to come out…
Agents of the Black Hawk would only leave the group of fighters immediately from this place.
Get rid of quickly at the limit speed.
I’m afraid I won’t be able to leave for a while.
The reason why Levi Garrison didn’t leave was that he still wanted to try it one last time.
I want to see if I can make some changes on my own!
“Rumble…”
The movement below is getting bigger and bigger.
Levi Garrison could feel the terrible energy.
Beyond everything!
And getting stronger!
It is indeed a force that can destroy the world inside and outside!
The opening of the super spirit vein is getting bigger and bigger.
The energy is about to burst out.
The Return of the God of War [The Protector] Chapter 2985
Levi Garrison’s face was firm, his fists clenched!”coming!”
Along with the movement of the mountain whistling and the tsunami, the super spirit veins completely
erupted from the rift.
Gush out directly! ! !
That is a kind of energy gas that destroys everything!
What’s in front of you can be shredded.
No matter how hard the metal is or how strong the defense is.
After being impacted by these energy gases, it instantly turned into nothingness!
The Lab of the Gods has already suffered.
This is beyond their control!
But looking at the energy gas emitted.
Levi Garrison didn’t back down even one step.
“bring it on!!!”
He roared wildly.

Use all your strength to create an invisible barrier!
No one had previously forced Levi Garrison to attack with all his strength.
But now Levi Garrison has truly made an all-out attack!
powerful!
too strong!
If the world sees Levi Garrison's powerful force, I am afraid that it will be exclaimed again and again, and
even kneel down to worship, as if seeing a god.
blocked!
No one thought that Levi Garrison would be blocked for the first time!
The energy gas that destroyed everything was abruptly blocked by Levi Garrison in this passage.
"Boom, boom…"
The energy gas exploded more and more fiercely, but it was blocked by Levi Garrison.
But the gap got bigger and bigger, and it started to expand around.
And the Antarctic glaciers are cracking everywhere, it's just a matter of time.
It will break out sooner or later…
now.
The Black Hawk agent's fighter group has fled from the Antarctic glacier.
He was watching from a distance what happened on the Antarctic glacier.
I don't see anything.
No one should have come.
He will understand.
"Madman! He is a madman!"
The Return of the God of War [The Protector] Chapter 2986
Agent Black Hawk had guessed what Levi Garrison was going to do.
Can't help shouting.
This is a human competition world!
What he wants to stop.
I'm afraid Levi Garrison will never come again!
But if it is serious.
Maybe the whole world has it.
"Interception failed! The super spirit vein has been knocked away! The world catastrophe is coming!"
"we lose!"
At the same time, the Black Hawk agent sent the final message to the Galaxy Guardian Alliance and
Daxia.
They failed to carry everyone's hopes.
Did not stop it!

Agent Blade and Agent Polar Bear lowered their heads and did not speak.
They blocked it in the first place.
It caused the time to be extended, and thus missed the blocking time!
They have a great responsibility!
There are also ancient forces that sneak attack halfway, slowing Levi Garrison's speed.
They also have to bear heavy responsibilities!
despair!
Daxia, his major allies and the Galaxy Guardian Alliance are all desperate!
There is no hope!
Can only hope that the safety island can block everything!
"Quick, quick! The super spiritual vein has been broken! It will soon sweep the world! We have to speed
up!"
"Quick, quick! Time is everything! Everyone!"
…
Daxia and the Galactic Guardian Alliance went crazy, shifting and guarding.
But most areas of influence are still the same.
Wait and see state.
They have to wait for the situation to really happen, until they see it with their own eyes, and then take
action.
Nothing can be seen now.
They still go their own way.
I don't even take it all into my eyes!
They don't know what they will endure next…
Once you see the outbreak, it is already too late to prepare.
Otherwise, Daxia's major allies and the Galaxy Guardian Alliance are rushing for time like crazy.
Yan Longwei made a decision even more.
"Are the super spiritual veins under the Antarctic glacier the same as our super spiritual veins in the
depths of the East China Sea?"
"Let's send a team to stare at it! If the super spirit vein of the East China Sea erupts, we may not have
enough time!"
The Return of the God of War [The Protector] Chapter 2987
In the end, Yan Longwei decided to send a team to stare at the super spirit veins under the Atlantis plan.

Cao Zhiguo once again served as the team leader.Mainly related to the transfer time may not be
enough.
Once the Atlantis plan under the super spirit veins also broke out.
Many things in Daxia were too late to transfer.
Only the second option can be started.
So you must stare!
In addition, Cao Zhiguo, after special arrangements, set up personnel everywhere in the passage to the
seabed.
If there is a message at that time, it will be transmitted through layers, and the following message will
be delivered as soon as possible to a great extent.
It's a bit of a beacon tower.
Pass each other quickly!
After all, this place isolates all signals.
Can only use this stupid way!
...
the other side.
They also got the message from Doctor Dark.
In the end, it was still not blocked.
But at this moment they have come to Western Continent.
Specializing in finding ancient forces.
It's still in the castle in Western Continent.
The crowd gathered.
Levilia has been brought here.
"Doctor Dark and their revenge have begun! They have broken the super spiritual vein they discovered!"
They also know all the information.
"Super spirit vein? Isn't that what the Daxia ancient monk needs?"
Obviously, this ancient organization knows the Super Soul Vessel better than many people.
"Then such a super spiritual vein, if it is to break out completely, it will be easy to destroy this world!"
"We have to withdraw too!"
...
This is a group of smart people, of course they don't choose to be tough.
"Report!!! The Dark Doctor is here!"
Someone came to report at this time.
That's because the information in the previous Gods' Laboratory was complete.
Know that there is an organization that studies ancient monks!

I probably know some.
therefore.
The Return of the God of War [The Protector] Chapter 2988
The Dark Doctor came here with Zoey Lopez and his party dangling.
"Time shouldn't be too late! Attract him here!"
The leader said.
"Be ready to ambush! All the people who come here are taken! Then the others are ready to evacuate!
Welcome the catastrophe!"
...
at this time.
Tiance Mansion and Baolong clan are also actively retreating.
Even Kunlun Academy withdrew unanimously.
But Levi Garrison's disciples are cultivating hard, and they have been forgotten.
Although they are in Kunlun College, no one knows where they are.
Therefore, they were forgotten in this great retreat.
Tiance Mansion and Baolong clan have too many secrets.
In particular, the rumors of the Baolong clan guarded Daxia's greatest secret.
They took everything that was taken away.
Everything that could not be taken was hidden.
The thing used was the dark cage that trapped Levi Garrison that day.
Hide all the important things that you can't take away one by one.
They believe in the sturdiness of the dark cage.
Even if everyone else is destroyed, the dark cage cannot be destroyed.
As long as they have nothing to do, they can survive.
Can be taken out.
All parties are racing against time!
but.
No one thought that Major Tiance did not retreat!
He wants to fight with the magical power of King Kong!
I also want to improve to the highest level!
crazy!
He is crazy too!
Practice martial arts to a crazy level!
...
the other side.
The Black Hawk agents flew to a safe area at a very fast speed.
"The Antarctic Glacier is still unsuccessful? Could it be him?"
The polar bear agent subconsciously said.
The Return of the God of War [The Protector] Chapter 2989

“hiss!!!”
Everyone sucked in cold air.
Stop the disaster by oneself?
What the hell is this horrible perverted existence?
In terms of time, half an hour has passed! ! !
abnormal!
It’s really the strongest pervert they have ever seen!
The brain of God even thinks that the chief priests are little scum.
It is fundamentally comparable to Levi Garrison!
“Can he come out alive?”
Agent Blade asked in a low voice.
“It is estimated that from the moment he let us leave, he didn’t intend to live out of it!”
“He is really crazy!”
…
Forty minutes later.
The entire Antarctic glacier was torn apart and exploded everywhere.
“Boom…”
A huge explosion…
The entire Antarctic glacier is completely shattered!
The terrifying energy in the super spiritual veins has completely exploded!
Go straight into the sky, cover the sky and cover the sun, and drown everything.
The sky turned into darkness directly.
right!
Everyone in the world felt this huge movement.
The earth is shaking and the mountains are shaking.
The Antarctic tremors were almost tearing the world apart.
Can’t be defined by earthquake level!
too strong!
Because there has never been an earthquake, so that every corner of the world can feel it!
The close ones are too strong.
The feeling is extremely strong even in the distance!
“Boom…”
The earth is shaking everywhere.
Even places far away are the movement of at least a magnitude seven or eight earthquake.
This is happening all over the world.
The Return of the God of War [The Protector] Chapter 2990
Everyone was scared.
Disasters such as tsunamis and earthquakes have all come everywhere.

Various strange images also began to appear.
Even rays of light similar to aurora appeared in the sky, colorful.
The world has become bizarre.
But the one who can observe the direction of the South Pole is to find that the sky over there is
completely black!
The night and the day are clearly distinguished in the naked eye.
And the night seems to be expanding?
This is clear to the naked eye!
not only.
Severe storms and howling, lightning and thunder in the air, and abnormal magnetic fields have led to
various situations.
at the same time.
Animals all over the world are starting to flee frantically.
Mainly all wild animals, all running from the deep mountains and forests.
All wild animals that everyone has never seen before.
They are actually already alert.
From the moment the super spirit veins erupted, they were aware of it.
Much faster than people.
At that time they were running.
It's only now that it enters everyone's eyes.
Until this time.
The forces from all sides that took a wait-and-see attitude finally realized that something was wrong.
This is unprecedented horror.
How can earthquakes spread all over the world?
too frightening?
"what!!!"
There were shouts everywhere, and countless people on the street were fleeing.
Are all looking for a refuge.
There are also many people fighting each other.
chaos!
It's messed up everywhere anyway!
Those on the sidelines panicked this time.
Right now there is no preparation…
Even these powerful people don't know where to flee?
You can't stop this posture no matter where you flee!
"Boom…"
The shaking posture of the earth is getting more and more fierce!
The storm is getting stronger and stronger!

Anything that is impacted directly shatters everything.
Who is not afraid of this? ? ?
Cao Zhiguo and his party have been observing at the Atlantis project base.
They really spared their lives to observe.
Because if the "dragon veins" underneath broke out with a little carelessness, they would be the first to
be shattered.
Just observed for a long time.
This is nothing at all.
When they arrived, they almost knew about the failure of the interception.
Then the spirit veins will definitely explode.
It's just that there is no movement here.
That can only show that this super spiritual vein is not the same as the super spiritual vein of Antarctica!
"Send the message right away!"
Cao Zhiguo ordered.
Send one by one, send the message out.
...
The message reached Yan Longwei soon after.
At this time, Daxia's various items are also coming to an end.
They accelerated again and again, plus the time Levi Garrison bought.
Enough for them to finish.
At most one more hour.
All finishing work can be done, and then the entire Daxia can be hidden in a safe island or other hidden
place.
All the major allies breathed a sigh of relief when they saw this movement.
Fortunately, I followed Daxia to build a safety island.
Otherwise, now that this catastrophe comes, there is no place to hide.
Not to mention whether the island can stop the catastrophe, but at least there is a place to hide.
Unlike other parties, now knowing that the catastrophe is coming, there is no place to hide.
This is the most desperate!Fortunately!
Everyone has at least half the probability of surviving!
Most people have taken refuge in the safe island.
The Return of the God of War [The Protector] Chapter 2991
The so-called safe island is to find some specific places, and then build a fort with special materials.
Once the island is opened, it will be completely sealed.
Isolate the inside from the outside world!
Cut off from the world!

This is the role of the safety island!
The key is that the materials for construction are carefully selected and can hold everything.
It was originally to prevent Leviathan from being attacked by giant creatures like Leviathan.
Just use it now.
As long as the energy impact of the super spiritual vein can be blocked, the people inside can survive.
Otherwise, it will definitely die!
At this time, many people began to ask Daxia for help, begging to help them.
But at this time, Da Xia could barely take care of herself.
Can you worry about other people?
There are also some powerful races who think this is the last gift!
I feel that I should not avoid it, but face it!
Among them is the powerful existence of the War Bear Kingdom!
They did not join forces with Daxia because of the island!
So at this kind of moment, they choose to face it!
…
At the moment, the other side.
The Kingdom of God's future technology kingdom has also been activated, with many people and
equipment hiding in it.
And the future science and technology kingdom is also activated, and a shield is formed to protect the
entire science and technology kingdom in it.
This can be regarded as a super large island.
Countless people from other countries fled around the future technological country in an attempt to
enter it.
However, the Galaxy Guardian Alliance is very unfeeling, and is determined not to open the future
science and technology city.
So that outside the future science and technology city, there are people everywhere, three circles inside
and three circles outside, densely packed, like a locust outbreak…
In the Science and Technology City, many people are holding red wine glasses and watching all this
indifferently!
The other major forces of the Galaxy Guard Alliance, at this moment, all hid in the territory of the Eagle
Nation.

The most shocking scene appeared!
There are devices on the border of the Eagle Nation!
It was the device used to get rid of the laboratory of the gods!
Pieces of devices rose from the ground, covering the entire Warhawk Nation!
Then the device started…
All devices started to work with each other.
There seems to be no change.
In fact, there is a force field covering the entire area.
It is equivalent to adding an invisible protective cover out of thin air.
Covered tightly from the inside to the outside.
Until this moment.
Many people understand.
It turns out that the Galaxy Guardian Alliance is also taking defensive measures.
Originally, they thought that the Galaxy Guardian Alliance was unprepared and unprepared.
After all, there is no large-scale personnel transfer.
Especially compared with Daxia's side, the gap is too big.
There is almost no action at all.
Therefore, many spectators think that the Galaxy Guardian Alliance has no actions.
As a result, they were preparing very early.
Now, so many devices are taken out at once.
Protect the entire Warhawk Nation!
shocked!
The spectators are completely dumbfounded!
Now it is too late to enter the Warhawk Nation!
It's too late to talk about following things!
However, many people still came, but they were crushed by invisible power and died from a distance.
It turned out that this special device of the War Eagle Nation actually had external forces aimed at the
outside.
Anyone who gets close to the range will be strangled!
It turned out that this device was already defending from a long distance.
It is equivalent to a double guarantee on the War Eagle Nation!
In the future, the country of science and technology can still be approached.
Now the area around the Eagle Nation has become a life restricted zone.
Anyone who gets close will have to die!
The Return of the God of War [The Protector] Chapter 2992

Everyone wants to live a little longer!
Naturally won't come close!
Several people from God's Brain followed the Black Hawk agent and hid in this safe area.
"Now the Antarctic Glacier has fully erupted! Doesn't that mean Levi Garrison is dead?"
"Well, that's for sure! How can this survive?"
Everyone said.
The Black Hawk agent nodded: "He wants to live, he has to continue! But now it's fully erupted…"Agent
Black Hawk did not continue.
But everyone understood what he meant.
It is impossible for Levi Garrison to be alive.
He wants to live and will continue to stop it!
Don't stop now.
Where can I survive?
And how can such a catastrophe be prevented by one person?
Levi Garrison blocked him for more than half an hour, and he was already a metamorphosis of
metamorphosis.
He also completed his mission!
Besides, who can resist this level of energy storm?
Levi Garrison is once again the energy center to fight against the super spirit burst alone!
Withstand the strongest energy impact!
How can it be possible to survive?
This is never possible!
Everyone mourned for Levi Garrison.
"The power of this super spiritual vein is even more terrifying than what I calculated! Next, it depends
on whether the shield can block it!"
Said the brain of God.
He had calculated the Super Soul Vessel before!
I thought that the value was accurately grasped.
It seems that there is no such thing.
The energy of the Super Spirit Vessel is much more terrifying than his accurate calculation!
The true power may be five or six times as much as he calculated!
Or even stronger!
Under this level of energy, it is actually twice as terrifying to the extreme!
The real is at least five or six times!
This is terrifying to the extreme!

It's scary!
It seems that the reserves and extension of this super spiritual vein are far beyond the detection of the
Gods Laboratory.
When it breaks out now, it just breaks out everything.
Including the ones that are stored in the deep, undetectable…
This power is simply terrifying!
"How lucky to be born in this country!"
The Black Hawk agents were all beginning to rejoice.
Everyone in the Eagle Nation began to laugh.
Similarly, Daxia is also fortunate.
Unlike other people, when this kind of catastrophe comes, there is no place to hide.
It's so miserable!
Knowing that disasters and catastrophes are coming, but can do anything, can only wait!
What a sadness that is!
Nowadays, except that most places are still messy.
The Great Summer Alliance and the Galaxy Guardian Alliance are ready.
All finishing work has been completed!
Waiting for the catastrophe to come!
now.
The Antarctic glacier is completely shattered!
The super spiritual veins have exploded madly!
Turning into a terrible energy storm, sweeping the world from all directions!
Wherever you go, crush everything.
Turn every area into the ultimate night!
Cause all abnormal phenomena to appear.
After all, the energy is too strong, it is too easy to disturb the magnetic field and so on.
Moreover, the opening of the spiritual veins in the depths was still expanding.
It also broke out from other areas.
It splits directly from the depths and hits the sky.
I can only say that this is just the beginning!
It will be more and more terrifying next!
Until the energy storm of the entire spirit vein broke out!
"Boom…"
The movement is really earth-shaking, destroying everything!
The dark part of the night quickly expands at a speed visible to the naked eye.

There was only a small part before, and now at least one-third of the field of vision is full of darkness.
The Return of the God of War [The Protector] Chapter 2993
You must know that the human eye can see such a wide range and such a fast speed!
In fact, this world is so big.
The rate of this outbreak is quite fast!
Especially when zooming in to the region, the speed is unimaginable!
Once the energy storm arrives, even the super strong cannot escape!
Wherever the energy storm went, it swept everything, and even this area turned into temporary
darkness.
Gradually, the energy storm generated by the super spiritual veins crossed the uninhabited areas and
large oceans.
It is about to sweep the area where humans gather.
The speed is incredible!
"Come! Coming!"
Soon after, the area of the Warhawk Nation will be attacked by an energy storm.
"Turn on the device! Turn on! Turn on!"
Seeing the energy storm came.
The Eagle Nation began to install devices across the board to block it.Their anti-sky device can change
the environment and turn the area into their domain after the device is turned on.
Great changes have taken place in this place.
Come to defend against all this!
"Boom…"
But after an exaggerated shock.
The energy storm swept the entire Warhawk Nation almost instantly!
The entire Warhawk Nation suddenly became an area wrapped in darkness.
As for their device to block the storm, no one can know.
There are also some technology companies or dignitaries who take aerospace vehicles and launch
directly one by one.
They tried to escape this catastrophe in space!
But only the top dignitaries can do this!
Or it is the power of a country to store some seeds of hope.
Only then will the spacecraft be launched to launch these into the air!
"I'm coming!"

soon.
The relics of the Kingdom of God-the future science and technology city was also quickly swept by an
energy storm!
Because the entire future technology city is transparent.
Can see outside.
So when the storm comes, everyone can clearly see the tragic death of the group of people outside!
As for the future science and technology city, it was quickly swept.
One area after another was swept by energy storms.
Terrible scenes are on!
Almost all Western Continents have fallen.
And at the moment.
The ancient force that captured Levilia has already met with the Dark Doctor group.
I wanted to take the Dark Doctor and them easily.
After all, the combat power of Zoey Lopez and others is not worth mentioning in their eyes.
But who can imagine that Doctor Dark will show a powerful and terrifying combat power!
No one would have thought that this ordinary person was terrifying to the extreme!
He is not only astonished by his research.
The strength is so terrifying!
Everyone understands.
He can enter the main divine division, but it is not just relying on other things.
The most important thing is strength!
A big battle began.
Under the leadership of Doctor Darkness, the crowd had to deal with the strong men of the ancient
forces.
Fight hard!
Although the ancient forces are strong, the Dark Doctor is too strong.
Really can't take it for a while!
"Stop fighting! Stop fighting! Coming! Coming soon! Shall we hide?"
At this time, someone rushed to come.
Everyone looked outside, and a terrible energy storm was about to swept.
"Hide first!"
Shouted the ancient forces.
He glanced at Doctor Dark again: "You follow along too!"
For Levilia, Doctor Dark and Zoey Lopez naturally agreed.

Follow the ancient forces to enter the secret room in the castle.
I don't know how far deep into the ground!
The energy storm swept all the way.
With a scream, swept every place!
The chain reaction caused is getting more and more terrifying!
Occidental fell.
The Return of the God of War [The Protector] Chapter 2994
Northern Continent has fallen!
In the end, Dongfangzhou also fell!
Five hundred safe islands and various emergency bases similar to safe islands have suffered the impact
of energy storms!
In the whole world, there is no local area that is spared.
The light was completely swallowed.
The whole world is enveloped in darkness.
The same goes for the images seen from the aircraft in space or the space station.
The world became pitch black, like a deserted dead planet.
Even the energy storm has hit the channel, and many aerospace instruments have been greatly
affected!
From this moment on, darkness completely enveloped the whole world.
The world seems to have stopped.
"It's over! It's over!"
"This is the end of the world! How could anyone stop this? The whole world is over!"
"Only we are left!"
In the space station, everyone saw what the world looked like and exclaimed.
Unexpectedly, the whole world would be destroyed so quickly.
Only them are left.
"This will be the heaviest stroke in human history! That is the ending!"The world has stopped!
Completely reduced to darkness!
Moreover, the energy storm in the super spirit veins is still erupting, and it has gathered in the sky,
unable to disperse at all.
This is also an important reason to obscure the sky and turn the world into darkness!
And because the energy is too strong.
Leading to frequent outbreaks of various abnormalities.
Phenomenon such as sea water intrusion has appeared.

It's just shrouded in darkness, no one can see.
Desperate!
Even the space station or the people who ascended to space are depressed.
They are alive and wrong now, but where do they go?
Stay in space for a lifetime?
Impossible!
All kinds of resources and food will be in short supply!
Just came to escape temporarily!
What should I do? ? ?
Desperate!
A group of people lie down and have nothing to love!
Numb to the point of walking corpses!
There is nothing more uncomfortable than seeing your home destroyed!
I thought they would be overjoyed to escape this catastrophe!
But I didn't expect it!
Not happy at all!
Even everyone regretted it.
Should not flee, but with home.
Death is better than now!
...
I don't know how long it took.
"Huh? Did we survive this?"
In the safe island.
Xiao Liejun and others opened their eyes in a daze, and found that everyone was still on the safe island
and not dead.
When receiving the energy storm, everyone can feel it.
Even if the safety island can achieve the effect of isolation from the world!
But when the energy storm came, everyone felt it.
That is an ultimate power.
Almost uprooted the safety island.
Almost cracked the ground!
When the energy storm hit, everyone was stunned.
No matter the strong or ordinary people.
Can not withstand the most violent impact!
This time they didn't know how long they had been asleep.
Now I wake up one by one.
"Survived! We all survived!"
"We are still alive! We are still alive!"
Everyone who woke up gradually began to cheer!
Everywhere is permeated with the feeling of aftermath!
The Return of the God of War [The Protector] Chapter 2995

“One word side by side, the king is the god!”
“And head of land!”
...
Everyone started to talk about Levi Garrison and Lu Xiong!
After all, they built the island with one hand!
It means that everyone’s life is now given by them!
They are their reborn parents!
“How long has it been?”
Xiao Liejun asked immediately.
“Um?”
As a result, at the next moment, everyone found that various instruments were malfunctioning.
Even the most common watches are messed up.
There is no accurate time at all!
Those high-techs are even more anomalous and cannot be activated at all.
After all, the energy storm hit the magnetic field and so on.
It is strange that these instruments are not messed up.
For a while, everyone doesn’t even know how long has passed!
Even the conscious perception of the strong has an impact!
“I feel it’s been a long time! I don’t know what’s going on outside?”
Someone raised a question that everyone wants to know.
There is nothing in the safety island.
But what about outside?
What is the outside world like now?
In order to maximize the effect of the island, it was completely blocked.
Leave no gaps.
Cut off from the world!
If you want to know the outside situation, you must use an instrument to detect the outside situation.
For example, leave a special detection device.
Send back the outside picture in real time!
It’s just that the magnetic field is completely disordered, and all the instruments are unusable.
Therefore, they cannot know the outside situation.
“Yes, I don’t know what’s going on outside?”
Everyone asked.
It’s impossible to live on the island for a lifetime, right?
“Should we send someone to take a look?”
Someone suggested.
“No!”
“I don’t know what’s going on outside now. If the island is opened rashly, it is likely to be in great

danger!”
Xiao Liejun thought for a while and couldn’t help saying.”Wait for a while! Can’t go out yet! What if
there is any danger?”
Others said one after another.
If the energy storm has not stopped.
Then the safe island only needs to open a small mouth, fearing that it will be destroyed instantly!
Even after this catastrophe comes, even if a long time has passed.
As a result, the outside environment makes people unable to survive.
Go out hastily, for fear of death.
So be careful!
Only after waiting for a while.
Only then can we go out to explore the outside situation.
…
the other side.
Galactic Guardian Alliance, War Eagle Nation.
They activated the sky-defying device at a critical moment, and even avoided this energy storm.
It’s just that everyone was stunned in the same situation as the Daxia Island.
However, after the anti-sky device was turned on, the transparent and invisible shield protected the
entire Warhawk Nation in it.
However, you can clearly see a lot of damage to the device.
Obviously, in the impact of this energy storm, even the device of the Eagle Nation almost could not
withstand it!
“Quickly, quickly! Repair! Repair!”
“If this continues, our device will not last for a few days! This energy storm continues to strike!”
Nelson, a senior officer of the Guardian of the Galaxy Alliance, gave the order immediately.
The Eagle Nation was still busy.
The Return of the God of War [The Protector] Chapter 2996
One after another began to repair it.
If the device is broken, the consequences can be imagined.
Everyone can still see the situation outside clearly——
It’s dark!
The terrible storm is devouring a little.
Thunder and lightning!
Various strange phenomena frequently appear.

There are even many strange and terrible sounds.
It's just that they were blocked and couldn't hear it.
Is this the end?
All looked outside, terrified!
As if there is something in the darkness outside?
"What's the situation outside?"
The Eagle Nation is not idle.
Continue to detect the situation outside.
"No way! All the instruments are malfunctioning! Now everything is abnormal outside! The magnetic
field is abnormal, all kinds of energy particles collide randomly, nothing can be detected!"
Even the high technology as strong as the Eagle Nation can't detect what's outside.
"Go on! Go on! Don't go out at this time!"
Smith ordered.
"Although I can't go out, I can still imagine the devastated scene outside! Nothing will be left! Everything
is extinct!"
The Polar Bear agent said.
"Blame me, blame me!"
The brain of God looked at all this, and it was caused by his own hands.
He couldn't wait to hit him to death.
"You can't die, you are still useful!"
Agent Black Hawk immediately sent someone to stop him.
The Eagle Nation is unimpeded.
The future of science and technology will be miserable.
In the end, the barrier of the future science and technology nation did not stop the energy storm from
attacking.
In the end it was destroyed.
This level of energy storm is definitely not something that the Lab of the Gods can contend.
Moreover, the future science and technology city is protruding, and it is facing the impact of energy
storms.
The safety islands in Daxia are built underground or in the sea, or even in depressions in the basin. Did
not accept the impact of the energy storm head-on.
Therefore, it will be spared.
Otherwise, the island would not be able to suffer the impact of such a violent energy storm.

On the other side.
The ancient forces that studied ancient monks also survived.
They took the Dark Doctor and a group of people, hiding in a pyramid-like building.
It is also embedded in a pyramid-like structure deep in the earth.
Therefore escaped this catastrophe.
But they dare not go out the first time.
…
There are survivors everywhere in the world…
Time passed by every minute and every second.
About ten days later.
The personnel in the space station are still lifeless.
Now they are just living.
There is no hope.
Home is gone.
Where is the hope?
But suddenly, they saw something abnormal appearing below.
"Look at it!!!"
One of them stared at the world stubbornly and screamed out in shock.
As if seeing something terrible!"what?"
Others also rushed forward.
Through the window, look down.
This look really frightens people.
Because the world in their eyes began to change drastically…
The world that was originally shrouded in darkness turned into a colorful beam of light to illuminate the
world!
Colorful rays of light fell from the sky, wrapping the world neatly and uniformly.
As if this is a whole new world!
Everyone sees the gas filled, the energy is abundant, and everything is reborn…
The Return of the God of War [The Protector] Chapter 2997
Gives a new feeling!
Is this destruction? ? ?
Question marks popped up in everyone's hearts!
This obviously changed the world, right?
Looking everywhere, it feels thriving!
newborn!
It is a new life for the whole world!
"The energy is still exploding! We still can't detect it! But I found one thing! Now the beams of light

seem to have radiation effect! It seems that humans or animals can get energy from radiation…"
Soon, the space station made a major discovery.
"What? There is radiation effect?"
"The light beam radiates people or animals, and even plants will transform them! In layman's terms,
after being radiated by this light beam, they will all mutate!"
"Look! Is the vegetation more lush?"
…
Although the energy is still exploding, everyone can't survey it.
But the general situation can be observed through the instrument.
After all, the darkness has been dispelled.
They can see clearly.
The result is this look.
Found that the world has changed a lot.
Even in a desolate and barren place, it is covered with vegetation, and huge trees are rising from the
ground!
All kinds of exotic flowers and grasses are densely covered, full of vitality.
It's an earthshaking difference from the previous desolation.
The change from the desert directly to the green ocean!
And the place itself is lush with vegetation, as a result, after this change, it becomes more and more
horrible!
The size of the big trees has increased several times!
The other flowers and plants have also mutated, and they are so big that they are terrifying!
For example, a small grass grows to two or three meters, which is bigger than a human body!
And it is so luxuriant that the gas lingers, the leaves are full, as if it contains jelly and jade dew.
Not to mention the size of the flowers, bright to the extreme, this is the watering of the top fertilizer.
Nowadays, the whole world is full of spirits and clouds, like a fairyland!
In today's world, even a breath of fresh air can cleanse the body and get rid of all diseases!
It's so exaggerated!
This is the change brought about by the explosive energy of the Super Spirit Vessel!
The "Aura" inside is too scary.
Enough to change the world!

However, due to the limited equipment, they can only observe the general situation.
You can also see the big changes in the original world.
But I can't see the details.
Therefore, they can only see the prosperity of the world today.
But the traces of the catastrophe impact are not visible at all.
I don't know if it was covered up or it didn't happen at all.
"This, this, this is not destroying! On the contrary, it has brought such changes to the world?"
Everyone was stunned.
The world has changed so much.
It's got a brand new look.
It was originally dilapidated, but now it is equivalent to wearing new clothes.
Even the barren lands of the desert have changed against the sky, which is incredible.
"Could it be that our homeland still exists? Can we go back?"
Many dignitaries are thinking about going back after seeing the changes in the world.
And the world environment has become so good again!
For a while, everyone wanted to go back as soon as possible.
"No! Maybe it was safe when the darkness was shrouded before! Now it looks bright and beautiful, and
there are often countless dangers hidden!"
Someone said.
After a reminder, everyone was shocked in a cold sweat.Looking at the world again, although it is
completely new, it is covered with flowers and vegetation everywhere.
The environment is countless times better than before.
But the more glamorous the surface, the more terrifying it feels, and there is something hidden behind
it.
This is no longer the world that everyone is familiar with.
It is equivalent to a strange planet.
Go back rashly, wondering if it will be dangerous?
No one can tell!
Another said: "Now plants have undergone such changes! Even humans or animals may have changed.
To put it bluntly, this is a dangerous and unfamiliar world! We must not go back!"
"Yes, let alone other things, that mutated flowers and plants may all eat you!"

Everyone couldn't help but fought a cold war.
The Return of the God of War [The Protector] Chapter 2998
Such earth-shaking changes have taken place in the world these days.
The Guardian of the Galaxy Alliance is in sight.
Especially they saw beams of light from the transparent dome.
Everyone is curious.
Even the high level of the Eagle Nation is no exception.
The world has changed a lot.
However, they dared not open the device's shield, for fear that it would still be dangerous.
"The energy outside is still exploding! Our instrument is in a malfunctioning state! It can't be detected at
all!"
"But it seems that the energy is getting weaker!"
...
The various ministries of the Warhawk Nation are still observing the situation outside.
Not letting go of a single detail.
They looked more closely at the outside than the space station.
Especially when you look outside at the desert border, it's a big change.
The desert has become an oasis!
The environment is beautiful to the extreme!
Even the mainland of Warhawk Nation does not have such a good environment.
All of them were dumbfounded.
It's still desert here.
Is there an oasis over there?
This has changed too much before and after, right?
It makes people feel unrealistic!
"The energy in this super spiritual vein is too strong? You can transform the desert into an oasis
casually? You can't create such an oasis without spending a lot of money?"
"You said, did we miss something?"
Some people began to doubt.
The defense before, actually blocked the great opportunity.
"Would you like to open it and take a look outside?"
Someone even suggested.
"No! In case of danger, trouble!"
"And this device is one piece! In order to withstand the energy storm, the whole device is one piece!

There is no regional problem! Opening a corner means that all the devices covering the War Eagle
Nation have failed!"
...
In the end, this idea was rejected.
"And look! Although the world has undergone earth-shaking changes outside! Is there anyone? Are
there animals? There are none? It means that the outside is still dangerous!"
Someone raised a terrible question.
indeed.
Although everyone has witnessed a series of changes outside.
Especially the changes in vegetation.
But people and animals have never been seen before.
And look quiet outside.
It's weird.
As a result, everyone is even more afraid to go out.
Can only continue to wait.
As for the details, they still need to wait and see!
The brain of God was also dumbfounded by the changes outside.
Judging from the vision of the Gods Laboratory, this is destroying the world!
How can there be a transformation? ? ?
why is that?
Can't figure it out!
Is the world a blessing in disguise?
the other side.
In Daxia Security Island, the concept of recovery time was finally restored.
But for the changes that have taken place in the outside world.
They still don't know anything.
After all, the islands are all sealed.
"Let's wait! Wait ten days to see!"
Daxia chose to continue to wait.
Time passed slowly.
The beam of light in the sky gradually weakened and darkened.
The world's energy has weakened slightly, but it has been lingering.
But all the abnormalities gradually disappeared.
In the blink of an eye.
The Return of the God of War [The Protector] Chapter 2999
Ten days passed.Earth-shaking changes have taken place in these ten days!

All the beams of light disappeared.
The sky is restored to the normal size of blue sky and white clouds!
But the environment has improved more than a hundred times!
Everything is like washed!
Gradually, all the abnormal phenomena disappeared, and the magnetic field stabilized.
Especially the natural situation has disappeared.
Energy also tends to be in a balanced state, spreading across every corner of the world. Nourish the
growth of everything!
The desert turned into an oasis before.
Ten days later.
More dense and expansive!
Both the number and the prosperity of flowers, plants and trees have skyrocketed again.
Coupled with the lingering spirit, nothingness is illusory.
It's really the same as the fairyland everyone imagined…
This is a whole new world!
No one knows that this will be the result.
Not destroying human civilization, but transforming it.
In these ten days.
The Guardians of the Galaxy Alliance has been observing the changes outside.
Especially from the beginning of the instrument malfunction and disorder, it can be detected now.
They have grasped all the changes!
At first I felt that it seemed too quiet and dangerous outside.
After ten days, nothing happened.
But the Eagle Nation still did not dare to go out.
After all, it is still unclear what is going on outside.
And once you go out to investigate, the device covering the entire Warhawk Nation has to be turned off.
They still dare not.
But after a long time.
The head of the game Smith and senior Nelson hurried over.
A decision was announced-the device was shut down! Moreover, the Guardian of the Galaxy Alliance
will organize an expedition to go out to inspect the situation.
Because this group of high-level leaders had the promise of the messenger behind the scenes, they
dared to do so!
soon.

The expedition team is formed.
Agent Black Hawk personally led the team, and even the brain of God was arranged in it.
“Boom…”
With everyone’s anxiety, the device was shut down along with the earth-shattering movement.
The transparent shield covering the War Eagle Nation disappeared in an instant.
“boom……”
At this moment.
It is as if the rain is falling from the sky.
Everyone just felt that a shower of moist rain fell, soaking the body and mind.
At this moment, everyone felt that their pores were relaxed, countless turbid impurities were excreted
from the body, and the invisible rain washed the body again.
A warm current spreads from the limbs and hundreds of skeletons all over the body, transforming all the
blood vessels, veins and veins of the human organs.
There was a popping sound coming from the body!
Everyone just feels like being reborn, full of strength all over,
Both ordinary people and martial arts superpowers have their bodies washed and promoted.
And it’s a big improvement! ! !
It is easier to use than the top laboratory medicines before!
Just this moment.
Everyone felt that any dark and major diseases were wiped out.
The physique has been changed against the sky!
Everyone was shocked!
too frightening!
The environment of the world today is so good!
Even if you just breathe casually like this, it’s like taking a panacea!
Has a magical effect!
Not to mention washing in this environment for a long time.
That will have an unimaginable miraculous effect!
The Return of the God of War [The Protector] Chapter 3000
Not to mention, just sleep in this environment.
Accepting the aura washing can create a generation of masters.
You can say that.
Under the long-term transformation of this environment, the body’s physique and blood vessels can
reach the best condition!

Many laboratories may research and create super humans, and spend a lot of money, but now it is
effective to accept the baptism of the environment!
“Is this the environment of the world now? Isn’t it great? It’s surprising!”
“Gosh, I feel like I’m going to fly! I have inexhaustible power all over!”
…
After everyone was washed by the environment, they all shouted to the sky in excitement.
The surrounding environment has also improved a lot.
Although there is no such exaggeration that the desert outside becomes an oasis.But just after the land
of the Eagle Nation was baptized, the vegetation became extremely luxuriant at a speed visible to the
naked eye.
Some seeds germinated immediately, biochemical results.
Although the law has not changed outside.
But this is also a change visible to the naked eye.
Where have you seen this before?
“I see! After the energy of the super spiritual veins has been thoroughly stimulated, it is now spreading
across every corner of the world, nourishing the entire world! It is more than tens of thousands of times
better than the previous environment!”
“According to the Eastern saying, it is aura! What we breathe is super pure aura, a small bite is enough
to change the human body! Eliminate all diseases! Achieve the best condition!”
Someone explained.
“Doesn’t that mean that we can use these auras? Now the auras are all over the world, everywhere! We
extract them at will?”
The head of the game, Smith, immediately thought of this.
“Of course! Such a powerful energy resource can be extracted and used at will! Weapons can be used in
all aspects! This is much stronger than the energy contained in the sun stone at the beginning! It is super
new energy according to our words! “
“Once we use the aura, all our previous energy resources can be discarded! This is totally tens of
millions!”
…
“Even we missed the peak of the strongest aura!”

Nelson said suddenly.
The head of the game, Smith realized what, and subconsciously asked:
"Do you mean that the darkness
has turned into colorful before, when the beams of light fell?"
"At that time, not to mention the peak time, it should be the time when the opportunity is greatest! The
pillars of light should contain the most aura! The real shape of the pillars of light is not like that, but
what we see is like that! In fact, they are still It's all aura!
I suspect that these beams of light directly radiate everything! Anything radiated by the beam of light
should have undergone mutation! "
"So our expedition team must be careful! Maybe people or animals, and even plants outside have been
mutated by the beam of light radiation! Everything can mutate, and there may be attacks!"
...
The Eagle Nation is still super powerful.
A rough analysis of all the problems after the catastrophe.
The analysis of the energy in the super spiritual veins all over the world is even more accurate!
They now feel that the Eagle Nation has missed a huge opportunity!
If you accept the radiation of those beams of light, the change for everyone may be hundreds of times
greater than it is now, or even more than that.
It was a mistake to even protect the war eagle nation.
Missed a great opportunity!
When the expedition left the territory of the war eagle country.
Come outside.
I feel the environment is too good.
The Eagle Nation had just received the baptism, and it was incomparable with the already fairyland-like
environment outside.
Outside, walking and breathing are all enjoyment.
But the more so.
Everyone becomes more nervous!
Hidden under this beautiful appearance is often the most dangerous!
"Man, maybe you have brought great opportunities to this world! Instead of destroying them!"
Someone looked at the outside world and said to the brain of God.
Heard this.
It feels better in God's mind.

“Opportunities are also the result of countless destructions! This is the opportunity brought by the later
stage! It was destroyed from the beginning!”
Agent Black Hawk said lightly.
“Where are we going now?”
After leaving.
The Return of the God of War [The Protector] Chapter 3001
The polar bear agent asked.
This is also an issue that everyone is concerned about.
Agent Black Hawk still didn’t speak, God’s Brain said: “I want to go to the South Pole to see! See if Mr.
Levi Garrison is still alive?”
“Impossible! Levi Garrison can’t live anymore! He has endured the central impact of the energy storm
alone!”
Agent Black Hawk said.
However, he changed his words: “You can take a few people to see!”
“good!”
In the end, the brain of God took an aircraft to the direction of the South Pole.
Finally waited another ten days later.
Daxia, who was hiding in the safe island, couldn’t bear it.
As the energy, magnetic field and other aspects stabilized, their testing equipment also returned to
normal.
The situation within a small area of the island can be captured.
The changes in the outside environment surprised everyone.
The appearance of the environment is completely changed!
The big trees feel towering into the clouds at this moment, as if they have grown for thousands of years.
A small flower grows bigger than a human head…
The various changes in the environment shocked everyone in Daxia.
They are not like the War Eagle Nation, who can observe the changes outside every day.
It took almost a month for them to observe the outside.
This is the earth-shaking change!
The gap between heaven and hell makes people crazy!
Looking at the images of the outside environment sent from the monitoring stations, everyone in Daxia
gasped.
This is incredible.
What’s going on outside?

Is this still in the original world?
Why did the homeland disappear in the blink of an eye? ? ?
be surprised!
Very surprised!
"Hurry up and check if there is any danger outside? For example, there is no toxin radiation in the
atmosphere? Is it harmful to the human body!"
The Return of the God of War [The Protector] Chapter 3002
"According to the usual practice! Generally, after this catastrophe, a series of radiation poisonous fog is
accompanied! Regardless of how bright and beautiful the environment is now, in fact, it is all hiding the
ultimate danger!"
"Yes, we only dare to go out if we detect that there is no danger outside!"
...
Daxia still didn't dare to attack rashly.
Wait until the outside environment is tested.
Shortly after.
The test result is out.
Except for the super energy, there are no other hazardous substances or other conditions in the external
environment.
"According to the analysis of our relevant personnel! The cause of the great change in the environment
is that after the explosion of the super spirit veins, the residual aura is spreading in every corner of the
world, transforming and nourishing the environment, so that the environment is greatly changed!"
At this time the most important analysis result came out.
Xiao Liejun understood the meaning, and couldn't help saying: "That is to say, what is pervading the
outside environment is all spiritual energy? Just taking a breath is spiritual energy? Is it the spiritual
energy that we understand the legendary ancient times that those strong people need?"
"right!"
"According to the test results, the current environment is not only harmful to the human body, but it is
also greatly beneficial! Just a breath of spiritual energy can transform the body!"
With this test result.

Daxia immediately organized a team to open up the safety islands, and then went out to personally
explore the outside environment.
After all, the instrument is still cold.
Not everything can be detected.
Almost five hundred safe islands have organized expedition teams.
After investigation by the expedition team.
Everyone can go out.
"Boom…"
Soon, the safety islands were opened.
A team of expeditions left.
The strongest expedition team is led by the gods of Tiance.
After coming outside.
The environment has changed drastically.
As if being in a fairyland.
Just take a breath and wash the limbs…
They also have the same changes as everyone in the War Eagle Nation.
Everyone was excited one by one.
But they resisted their excitement and moved on.
The Return of the God of War [The Protector] Chapter 3003
Shuttle through layers of deep forest.
I don't know why, everyone is a little scared looking at the surrounding plants.
The plants are all green and dripping, like living creatures.
The flowers that are bigger than the head seem to open the blood basin and swallow the human head in
the next second.
This is the reason for Reiki radiation.
Enough to change everything!
"Be careful, everyone! It's a bit weird! It's so quiet!"
Tiance Shenshuai reminded.
Everyone stared at the surrounding environment.
"Aw!!!"
Suddenly a long roar came.
This sound penetration is super powerful, and it hits the sky!
"Boom…"
More terrible sound waves came.
"puff!"
"puff!"
…
On the spot, many strong men were directly shocked to vomit blood, and most of them looked painful.

Only a man of this level can be safe and sound.
scared!
Everyone was scared!
“No! This should be a beast or something! But what kind of beast has this power in one voice?”
Tiance Shenshuai’s face changed.
“Be careful!”
Remind everyone to be careful.
And his heart also sank to the bottom.
Originally, this time I went out, on the one hand, it seemed to be to find out the outside environment.
On the one hand, I want to know if his son and Levi Garrison and others are alive.
But the sudden roar just now made his heart cold.
This shows that the world today is very different and full of dangers everywhere.
So even if Levi Garrison survived the energy storm, the probability of surviving in this world is equivalent
to low.
He could tell by just the roar of the fierce beast just now.
“A strong energy radiation was detected eighty kilometers ahead! As the distance gets closer, it gets
stronger and stronger!”
“It’s also the source of the sound wave just now!”
The expedition team quickly detected the location of the sound.
The Return of the God of War [The Protector] Chapter 3004
And has strong energy radiation and fluctuations.
“Everyone, be careful, go up and take a look!”
This time, everyone changed to flying.
Slowly approached to a position eighty kilometers ahead.
Soon after, they had reached the sky above the sound source.
“Dididi…”
The instrument made a rapid siren sound.
The energy radiation below has reached an explosive value.
To exceed the tolerance range of the instrument.
It is much stronger than the energy carried by Leviathan at the beginning!
“hiss!”
When they saw the specific beast below, everyone took a breath.
Because it was a tiger that caught the eye!
But this tiger is too big.
Like a mountain!
It is at least five or six times bigger than the tiger in your mind!

The size actually doesn't scare everyone much.
After all, I have seen an enhanced version of Leviathan.
The key is that the tiger's body has a faint halo, which is walking around like an electric current.
That is super strong energy radiation.
It was a few days ago that a beam of light was dropped from the air to baptize the beasts, allowing them
to mutate their bodies, psychically, and gain powerful energy!
"Boom…"
When one of the aircraft was observed in mid-air, the beast gathered energy and immediately
bombarded it.
"careful!"
Everyone immediately began to exclaim.
The evasive escaped.
The ones that couldn't be avoided were blasted to pieces.
Caused casualties.
There is also a low-flying tiger. This mutated tiger suddenly jumped up and grabbed the aircraft directly.
Torn in half in everyone's eyes.
You must know that the material of this aircraft is the top quality in Daxia, and it is easily torn as a piece
of paper.
"Evacuate! Evacuate!"
Everyone started to run around.
The other expedition teams in Daxia have encountered similar situations.
All encountered this fierce beast that mutated.
The Return of the God of War [The Protector] Chapter 3005
Even after some plants mutated, they became extremely violent.
It's not only Daxia's side.
The same is true for expedition teams like Guardians of the Galaxy Alliance.
Encountered many such situations.
Also saw a lot of fierce beast mutations.
Especially the group of Black Hawk agents encountered a super python.
After encountering the beam of energy radiation, it mutated into an existence similar to a dragon.
Simply sweeping everything.
But the imagination is too, just a breath can transform the human body.
Not to mention the baptism of light beam radiation.
But one thing that puzzles the Black Hawk agent and all the expeditions is-what about people?

Why can't you see humans?
Did it all disappear?It took most of the day.
Everyone has seen the general changes in this world.
All the mutated fierce beasts have been seen.
Sure enough, this new world is full of dangers!
But I really don't see anyone.
For a while, everyone wondered-is it possible for human beings to survive this catastrophe? All
disappeared in the end?
The major expeditions can only go deeper.
Came to the central city of the Lynx Nation next to the War Eagle Nation…
"Dididi…"
Suddenly, several teams of the expedition led by Agent Black Hawk all sounded a strong alarm.
This is a warning of energy radiation.
It just came out after encountering the mutated fierce beast.
But now there are red dots flickering everywhere on the screen of the expedition's instrument, densely
packed, and it feels like there are thousands of them.
This is true for the instruments of each group.
And it means that every red dot position is bursting with energy!
Not weaker than those mutated fierce beasts before!
Even stronger!
"Be careful! We may be in trouble!"
Agent Black Hawk reminded.
All enter the fighting state.
I met those fierce beasts earlier, and everyone suffered a lot.
It's everywhere now, and it's inevitable that people are scared.
"People! We see people!"
The Return of the God of War [The Protector] Chapter 3006
Suddenly the blade agent shouted.
Sure enough, everyone saw human figures in the front.
According to the detection of the instrument, the energy exploded one by one, exuding terrifying
power.
Everyone is like a star.
shining!
Unmatched energy!
And those little red dots detected are them!
Agents Black Hawk were shocked.
Humans still exist!

Sure enough, just like animals and plants, after absorbing the aura of super spiritual veins, a qualitative
leap has taken place one by one!
In the current environment, a single breath becomes super invincible.
And these people have experienced the energy storm from beginning to end, and passed through the
beams of light to radiate.
Their physique has not only been washed, it can even be said to be transformed.
Blood, internal organs and all aspects of physique have been changed to the extreme!
It can be said that it is completely different from before.
Even a single strand of hair today contains the ultimate energy!
Not to mention other places.
Everyone has changed from an ordinary human to a super powerful race!
It is much stronger than the race of the eighteen gods before the main gods!
The race that is stronger than No. 76 Forbidden Land does not know where it is stronger!
After all, after the super spirit pulse burst, the aura is too terrifying.
Can make the world environment change drastically.
Not to mention human animals.
After the nourishment and baptism of spiritual energy, one by one became extremely powerful!
They are powerful enough to explode!
Like a god descending!
Before, all of them claimed to be gods, but they were just powerful races.
But now these people can really be called gods!
Because it's too strong, too strong.
And the baptism of spiritual energy that suddenly rises is like a gift from heaven.
What is this not a god?
Just pick one out at random, none of them can handle the Black Hawk agents.
But everyone below is also strong and weak.
Of course, this is relatively weak.
They just mutated and possess powerful energy.
The Return of the God of War [The Protector] Chapter 3007
However, there are no gong methods or corresponding methods to use the energy of the body.
However, some people have their own exercises or method skills.

Can use all the potential energy in the body, possessing the ability to destroy the world.
Soon these people in the Lynx country discovered the footprints of the Black Hawk agents.
However, there is no such thing as those fierce beasts who attack immediately.
"It's from the War Eagle Nation!!!"
The gathered powerhouses of the Lynx country recognized this as the aircraft of the War Eagle country.
Agent Black Hawk ordered that all the aircraft landed.
"what happened?"
Agent Black Hawk asked what happened.
It can be seen that everyone in the Lynx country is also confused.They actually gathered here slowly.
When the catastrophe happened, they also found various shelters to hide.
Some people with bad luck disappeared and sacrificed in the energy storm.
But most people survived.
Behind it was darkness turning into a colorful world, and beams of light fell.
They find that everything in their bodies has changed.
Especially after being enveloped by the beam of light, the body has undergone earth-shaking changes!
"Your body has undergone earth-shaking changes, I can understand it!
But those strong energy storms
killed and injured a small number of people?"
After learning about the situation, Agent Black Hawk found something wrong.
Such a strong energy storm caused only such a small casualty?
Unscientific!
Take the Bobcat country as an example.
After the energy storm, it must have survived.
Ranging from dozens to hundreds, as many as thousands.
Thousands of people survived such a strong storm of abnormal energy, that is already quite a lot of
people.
But the current situation is that in such a large country, thousands of people may have been killed or
injured.
Tens of millions of people have nothing to do!
There are also great opportunities one by one!
The result is completely reversed!

impossible!
Is this possible?
Is such a strong super energy storm not lethal?
How can it be?
unbelievable!
They saw the energy storm hit with their own eyes.
Such a powerful device was almost destroyed.
No matter what happens to people?
The Return of the God of War [The Protector] Chapter 3008
Can the human body be stronger than this device?
impossible!
There must be something hidden in it!
The Black Hawk agent began to question the situation of the crowd after the energy storm.
"In fact, our bunkers are not useful at all! Basically we are facing the catastrophe of this storm directly!
But when we thought we were going to die at the time! We only felt the storm invade the body, without
harm, but like a potion, washing the body… "
Everyone began to tell what happened at the time.
It turned out that after the storm, it seemed to be warm in the body, which did not cause any
substantial damage at all.
It is a gift from heaven!
It's an opportunity from heaven!
The Black Hawk agents were even more surprised.
It can only be summed up temporarily—the aura in the super spiritual veins can be absorbed by the
human body!
Therefore, it did not cause the destruction of mankind!
After all, everyone's experience is like this!
A powerful and terrifying existence was born!
"My lynx has a god! There is more than one!"
The gathered senior officials of the Lynx country suddenly shouted.
Of course the gods did not come from heaven!
It's a strong man radiated by super spiritual veins!
In the concept of everyone, it has been so strong that it is heinous!
Strong enough to be the same as the gods in myths and legends!
So called a god!
Next, the major expeditions found the same situation in each country.
The catastrophe did not cause many casualties, and casualties were almost negligible.

And most people mutated after being radiated by the beam of light.
One became an incomparable strong man.
Almost every country and force has appeared as powerful as a god!
All of them are claiming that the gods have appeared.
Now every country compares the number of "gods".
Of course not a real god.
It's a name for someone who can't predict the strength!
After all, after receiving the baptism of the spiritual energy in the super spiritual veins, the existence is
so powerful that it cannot be explained by conventional methods.
I don't know how much stronger it is than the eighteen of the previous chief gods.
A blessing in disguise!
All countries and regions are a blessing in disguise!
The Return of the God of War [The Protector] Chapter 3009
In particular, the kingdom of the War Bear Kingdom, which takes the initiative to face everything, does
not find a cover, and does not hide, has almost the greatest opportunity.
The number of "gods" appearing is also the highest.
This situation also happened in Daxia, and the neighboring East Island and Star Country also benefited
the same.
Senseless!
The Great Summer Alliance and the Galactic Guardian Alliance are all dumbfounded.
They all hid and missed a great opportunity?
Originally thought they were the safest after this catastrophe came.
In the end, who would have thought that this was the case?
The catastrophe has become a great opportunity!
Not only are all human beings dead, but after being baptized with spiritual energy, one by one becomes
strong.
"Gods" even appeared!
It is unimaginably stronger than the laboratory of the gods before the catastrophe came!
Before, Daxia and War Eagle Nation were the top existences in the world.
However, the pattern changed drastically after this "catastrophe".
All countries and forces have become stronger.
The collective has become stronger!
Not a little bit strong!
Da Xia is as strong as a top powerhouse like Tiance Shenshuai, and now, if it is thrown into this group of

countries, it will only be unremarkable!
The aura in the super spirit veins is too tyrannical, after radiating the human body, it is directly
transformed into a strong one, surpassing Tiance Shenshuai casually!
Not to mention the existence of "gods".
In front of them, the god of Tiance was like an ant.
Let me put it this way.
If Leviathan appeared again now, this group of people would shout up and tear them all up with bare
hands, effortlessly!
"God" level!
Maybe the aura on his body was radiating casually, and it shattered all Leviathan.
Or take a casual look, there is a terrible light in the eyes that shatters everything.
The super spiritual vein exploded, causing the spiritual energy to recover, and everything was radiated!
Especially those who have been radiated by the beam of light are super powerful, and some have gained
some super talents.
That's how the "gods" came!
But the current situation is-the powerhouses of the Great Summer Alliance and the Galaxy Guardian
Alliance, not to mention the "gods".
Even the most ordinary people cannot be compared!
They have experienced aura radiation and can be called the strongest race in the world!
It is definitely not what the previous Daxia exercises and the technology of the Eagle Country can make
up.
shocked.
Completely dumbfounded.
It was originally the top superpower, but after this "reiki resurrection", it turned out to be the
countdown.
Not to mention what support is behind the Warhawk Nation. From the perspective of the current
Warhawk Nation's forces, it is absolutely no match for these countries in the catastrophe.
Even if the neighboring Lynx Nation, which has been suppressed by the Warhawk Nation before, rises in
one fell swoop, it can rub the Warhawk Nation on the ground.

In any case, these national forces that have escaped the catastrophe are directly counted down.
Seriously out of touch with the world today.
Let me put it this way.
It is the fierce beasts discovered by the expedition that have undergone radiation mutations, and people
from countries like Lynx can handle them perfectly.
The Return of the God of War [The Protector] Chapter 3010
The big deal is to let the "God" level shots.
However, if Daxia Alliance and Galaxy Guardian Alliance encounter them, they may be really helpless.
Among human beings, there are strong people who have become "gods".
Then, among these beasts, there is also a probability of appearing comparable to the "God" level.
This appeared.
Daxia may be really helpless.
At that time, you can only ask other forces for help from the strong "gods"!
The Eagle Nation does not know what will happen to the people behind it, and the technology that is
currently displayed is definitely not enough to deal with it.
As the powers of each country declared that there was nothing wrong, they announced the birth of the
number of "gods".
The Great Summer Alliance and the Galaxy Guardian Alliance were directly numb.
No one thought it would be such a result!
They worked so hard, thinking they were superior, thinking that they had done what everyone couldn't
do.
It was meant to prevent disasters and catastrophes!
As a result, a splash of wealth was blocked.
Senseless.
At a loss.
the other side.
The brains of God flying in the direction of the South Pole, along the way, they also roughly understood
the changes in the world now.
But coming to the Antarctic region is still different from other places.
This is still shrouded in darkness, forming a natural life forbidden zone.
"I have a strong hunch that Mr. Ye is still alive!"
This is a strong premonition of God's brain!

If the location of Antarctica is the same as other places, the environment is surprisingly good.
Anyway, it means that Levi Garrison will not live.
But in this area, the environment is extremely harsh at the moment.
Maybe Levi Garrison is still alive.
After all, this place is the specific location where the super spirit veins erupted.
Therefore, it is normal for darkness to be shrouded, accompanied by strong energy radiation and
abnormal fluctuations.
Everyone knows that the super spirit veins must not have completely burst out, and there will definitely
be leftovers.
Even a little bit of residue will cause the general existence of the forbidden zone of life!
An idea emerged from the mind of God.
Forces such as Daxia and the War Eagle Nation, who did not get the opportunity from the catastrophe,
can actually come to this place to get the opportunity.
"Dididi…"
At this time, the aircraft had issued an abnormal alarm sound.
After approaching this area, everything will fail.
"Let's evacuate, this place is so weird!"
Said the driver.
The brain of God insisted: "Go down and take a look! Don't worry! I will design a few more defense
systems! Make sure we can leave alive!"
After hearing this guarantee, everyone dived into the Antarctic glacier little by little.
This is where the darkness is now.
"Dididi…"
The Return of the God of War [The Protector] Chapter 3011
Sure enough, after going deep into this area, various abnormalities appeared.
The harsh sirens kept ringing.
The systems of the aircraft are all in disorder.
"I will come personally!"
The brain of God personally controls the system and keeps strengthening it.
Rao is so.
The aircraft is also in a state of destruction.
But all the way into the darkness without risk.

The general situation is observed by the brain of God-the Antarctic glacier has been completely torn
apart, part of the area is the sea, and part of the area is the sea, the glacier and seawater have been
evaporated, revealing the original terrain: various caves and other strange landforms.
And far ahead, they suddenly observed a supermajor vortex.
Even at this moment, the vortex is stirring up trouble.
This huge vortex is also the main emission point of the super spiritual energy.
It can be said that after the previous super spirit vein exploded, most of the energy came out from here.
This huge vortex may have been a small hole before.
Up to the present position, it is almost one-third of the area of Antarctica.
It can be seen how terrifying the final crack is!
"Evacuate!"
The others are a little panicked.
But a sentence from God's brain made their hearts feel ashamed: "It can't be withdrawn! We were
sucked by the whirlpool!"
The vortex is too big.
And it continues!
The terrible suction force can never be blocked by the aircraft!
Even if God's brain is repeatedly strengthened, it is useless at all.
Soon, the aircraft lost its balance.
He was sucked into the whirlpool while spinning around.
The closer you are, the greater the suction and influence you will receive.
All can't be controlled at all.
That's it!
This time it's all over!
It was a plane crash.
Soon, the aircraft came to the center of the whirlpool mouth.
It looks like the largest fan in the world, constantly replacing the airflow.
The spiritual energy in the super spiritual veins is still continuously being sent out.
But what is puzzling is why this is so?
It's as if some instrument is installed under the whirlpool, it's like filtering and replacing a little bit.
Waiting for the curiosity of God's brain, the aircraft was directly involved in the whirlpool.
At this moment, every defensive system was destroyed.
It's about to reach the point of plane crash and death.

“what!!!”
Everyone yelled frantically.
The body of the aircraft was already glowing.
It’s already burning.
It’s about to explode.
And the terrible power is directly sucked into the whirlpool.
Just when everyone thought it was going to be finished, the aircraft suddenly stopped.
It feels like being grabbed by one hand.
However, there is really a hand to hold it.stunned.
Everyone has an unbelievable face.
They suddenly saw a figure next to them!
There are no clothes on his body, and his body is perfect, like casting gold!
Like a god!
See it clearly!
Levi Garrison!
Alive!
He is still alive!
But how is it possible?
This is the center point of the spirit pulse eruption.
It is equivalent to Levi Garrison being sturdy, having suffered at least 78% of the spiritual energy impact
of the super spiritual vein…
This is unimaginable!
Just look at the world today to know how powerful aura is.
But Levi Garrison alone withstood most of the spiritual energy impact.
You are dead?
This is incredible!
The Return of the God of War [The Protector] Chapter 3012
But waiting for them to be surprised, only to feel that the aircraft moves quickly again.
Levi Garrison was dragged out of the whirlpool.
In a wave of shaking, everyone fainted.
When they woke up, they found that they were in a safe place.
But where is Levi Garrison?
“Did we have a dream just now? I seem to have seen Levi Garrison!”
Someone rubbed his head and said.
“Are you dreaming?”
God’s brain began to doubt.
Everything is so real and so illusory…

The truth is that they were originally involved in the center of the whirlpool, but now they have survived inexplicably.
But what is illusory is how could Levi Garrison still be alive?
Not sure.
Everyone is not sure!
Including the brain of God!
…
Is Levi Garrison alive?
Of course alive!
However, when the super spirit veins erupted, Levi Garrison used his own strength to resist the aura eruption.
At the beginning he was still flat.
But as the spirit veins erupted more and more terribly, the cracks opened bigger and bigger.
Levi Garrison couldn't hold it anymore.
After persisting for forty minutes, he could no longer contain the eruption of the spiritual veins.
Levi Garrison collapsed.
He was like a leaf, shaking feebly in the majestic aura.
Was scrubbed again and again.
There were wounds on his body.
Even his physique and strength can't stop the impact of aura!
He is about to be torn apart by spiritual energy, and there is nothing he can do.
But at this critical time.
It seemed that his body was suddenly injected with new strength, and his whole body was completely activated.
He is no longer afraid of the impact of this spiritual energy, but uses the impact of the spiritual energy to temper his body.
that's all.
Levi Garrison is at the center point, accepting the impact of aura over and over again.
It was equal to most of the aura that had exploded that hit Levi Garrison first, and then radiated after the change.
It was equivalent to the fact that the strongest side was blocked by Levi Garrison.

After the spiritual energy passed through his body, although the energy still exploded, it became able to
be absorbed by the human body.
This is why after the aura was revived, not only did human beings become extinct, and several people
were killed or injured, but one by one became extremely powerful after being baptized by the aura
radiation.
In layman's terms-Levi Garrison had already filtered the aura in the super spirit veins on the front line.
The aura that comes out again can already be absorbed by the human body.
There is no harm, but an opportunity!
This is how the world has changed!
It means that Levi Garrison saved the world in the end!
If there is no him standing in front, transform the aura again.
Then the whole world will undoubtedly be destroyed.
But Levi Garrison himself couldn't figure out how to have such a big energy?
The key is that the moment the spiritual energy exploded, he was going to die.
But suddenly, the body was activated again.
You don't even have to think about it to know that someone is helping yourself.
Who is this person who helped Levi Garrison?
Levi Garrison knew that this was his cheap master without even thinking about it!
The critical moment appeared.
Saved myself again…
And also saved the world by myself!
But after Levi Garrison passed through the quenching chain of spiritual energy, he became stronger…
How specific is it?
The Return of the God of War [The Protector] Chapter 3013
Levi Garrison didn't know either.
But compared to before, he completely improved one or two levels.How specific is it?
Levi Garrison didn't know either.
But compared to before, he completely improved one or two levels.
This is a completely different feeling!
Before, Levi Garrison felt that he was strong, so strong that he felt that he could destroy the stars in his

body.
But today's feeling is as if the body contains everything in the world, it is a feeling of transcendence.
As if everything is empty, Levi Garrison is above everything, observing everything from the perspective
of God.
It feels amazing.
Everything in the world is nothing but Levi Garrison's glance.
No one thought of this!
Not only was Levi Garrison alive, he also saved the world again.
Master must have saved himself!
I thought he was already dead at that moment.
After leaving from Antarctica.
Levi Garrison rushed to Daxia.
He wants to know whether his relatives, friends and compatriots have escaped this catastrophe.
Soon he also learned about the changes in the world environment.
But it was not much shocked.
After all, it has something to do with him.
And he faced the bursting point of the super spirit vein center, what had he seen?
What's this?
But the next moment, near the Antarctic waters.
He encountered a behemoth.
This is also the python mutated, and the mutated appearance is more like a dragon.
The scales formed on the whole body shone with a faint halo.
This is the sign of the "god" of mankind.
There is a faint halo on the body!
This is much stronger than what the Black Hawk agents and the Tiance masters have encountered.
Although they are all mutations.
But here is close to the explosion point of Antarctica, the corresponding aura is stronger, and the
opportunity is even greater.
So so many pythons mutated, but the one that Levi Garrison encountered most resembled a flood
dragon.
It is also the most powerful beast.
According to the current standards of various countries.
This is the existence comparable to the "god".

After it encounters Levi Garrison, it will open its blood basin and swallow it.
This is the instinctive reaction of the fierce beast.
"court death!!!"
Levi Garrison snorted coldly.
Take one step out, and the whole body fluctuates.
Levi Garrison didn't use any power or technique.
It's just that the pure breath spreads, and there will be fluctuations.
"Chichichichi…"
This mutant python was actually torn to pieces by the wave…
Levi Garrison took a few steps.
This hundred-meter-long mutant beast turned into a blood mist and disappeared…
Shocked!
It was shocking!
I don't know where Levi Garrison has come, anyway, this kind of fierce beast comparable to a god can't
even bear the breath of Levi Garrison.
After easily killing mutant fierce beasts of this level.
All the mutant fierce beasts in this area crawled on the ground, trembling to worship Ye Levi Garrison.
These fierce beasts mutate, and the corresponding intelligence will also change.
Everyone knows how powerful Levi Garrison is?
Where would you dare to provoke?
One can only kneel on the ground to show weakness.
And this is bloodline suppression!
This is the feeling in the subconscious of the fierce beasts, they are more able to perceive these things
than human beings.
Just because of Levi Garrison's breath, they knew how powerful this person was.
No one dared to mess with it!
Levi Garrison walked wildly all the way like this.
You know, the current environment.
All major countries are afraid of the danger of location, and fierce beasts after mutation are everywhere.
No one dared to go out easily.
Even human beings in all major countries are radiating and gain unprecedented power.
No one dares to swagger like this.

Even many countries have listed places where a large number of mutant beasts gather as restricted
areas, and they must not go there!
But where does Levi Garrison care so much?
Whoever stands in the way will do it!
Need to get used to these beasts?
Come this way.
Levi Garrison also knew about the situation in the world.
It turns out that the world has changed like this.
The key is that Daxia hid on the safety island but missed the great opportunity?
Now there is a saying-Daxia has no gods!
The Return of the God of War [The Protector] Chapter 3014
Levi Garrison sneered: "Who said Daxia had no gods?"
He has also seen a lot along the way.
Because of changes in the environment.
As a result, some places will either become permanently dark areas, or become permanent flames and
frost raging places.
The flames or frost here are transformed from spiritual energy, which is different from what everyone
thinks.
These places are the real restricted areas, terrifyingly terrifying.
Even these powerful people who have passed through the beam of light will die in nine deaths when
they enter here.
Those who claim to be gods can't say that they live here easily.
Although the environment of this world has improved, some places have become like purgatory.
One by one, they didn't know the specific situation outside, and they all dared to call themselves gods.
It's just that he only wants to see his relatives and friends now, and has no other interest.
The so-called gods are nothing more than a slap to death.
What's more, these gods appeared because of him.
Indirectly, he gave it.
When Levi Garrison returned to Daxia.
All the people in Daxia's major safe islands have all come out.
And Daxia has returned to normal order.
However, due to environmental changes, many areas have been classified as restricted areas.
There are powerful mutant fierce beasts and so on.

Da Xia currently has no one who can contend against these mutant fierce beasts.
Therefore, it can only be classified as a restricted area and surrounded by various protective devices to
prevent the beasts from coming out.
For most people, the impact is small and life is business as usual.
But the panic has been there.
Now everyone understands what has been lost.
Because of avoiding, missed the opportunity of splashing sky.
I thought that those who had no place to hide would all be extinct in this crisis.
But whoever wanted it, they didn't say anything, they also got a great opportunity.
Da Xia went straight from the top to the bottom of existence.
Needless to say the war of the bear country.
They are all facing the catastrophe, so they get the greatest degree of aura radiation impact.
Also born the most powerful "God" level.
The number and level of overall powerhouses are the highest in the world!
Put aside other things.
Fighting the bear country is now the world's first!
Sending out a god at random will easily destroy Da Xia.
This Daxia can't be compared at all!
Don't dare to compare!
But the Dongdao surrounding Daxia also benefited from this catastrophe.
Now the strength has completely crushed Daxia several times!
Yanlong Weizhong's high-level hearts are dripping blood.
The Return of the God of War [The Protector] Chapter 3015
Who would have thought that this is the case?
I forcibly blocked a huge opportunity!
wack?
But there is really no way to blame this thing!
I even have to thank Levi Garrison and Lu Xiong who built the safety island.
After all, the original intention was to save people!
It's just an accident.
No one can blame it.
Even if Daxia's allies had complaints, there was no way.
In any case, Daxia can be regarded as their "savior"!
I can only blame myself for bad luck.
Even the Eagle Nation did not expect this, and even the forces behind them did not expect this.

The eruption of super spiritual veins is not a catastrophe, but a great opportunity!
After Levi Garrison arrived in Daxia in a hurry, he was relieved to know that everyone in Daxia was alive
and there was no catastrophe.
Compared to one by one, become a peerless powerhouse.
Must survive first!
You have a chance if you are alive!
"Are you still alive? That's great! We thought you all…"
Tiance Shenshuai and a group of people were extremely excited when they saw Levi Garrison.
Levi Garrison went to the outbreak point to stop it.
It's a miracle to be alive.
Levi Garrison didn't have time to ask Zoey Levilia their whereabouts.
"Boom…"
At this time, roars came from the eastern sky.
A figure came in the air!
"God"!
Everyone's face in Daxia changed!
Sure enough, after Daxia was weak, the gods were bullied.
Although Daxia has no "gods", I have also heard of that.
Now this one came, and the breath enveloped the whole area.
It's like Tarzan is pressing on everyone!
I couldn't breathe at all.
"Puff!"
Everyone knelt down one by one.
It is impossible to withstand the coercion of the sky.
If this god wants to kill people.
Just because of the aura from his body, the hundreds of thousands of people in this area will instantly
become bloody, and none of them will survive.
After all, it's too much stronger!
Obviously, the god who suddenly visited was not here to kill, but to show off his might.
Of course, the main purpose is to find out-whether Da Xia really escaped this opportunity, whether
there was really no strong person born, especially a god.
After all, everyone is still afraid of Daxia.
Daxia stuff hides the gods, deliberately sending out messages to paralyze everyone.
So they have to find out exactly what is going on.

“Hahahaha… Has Da Xia really escaped this pompous wealth? Is there really no god!”
“Sweep it away, it’s full of chickens and dogs, there is almost no aura in the body! How is this different
from waste?”
“Yang Yang Da Xia actually fell to this point! Now as long as I want, I can easily destroy Da Xia!”
Only one person can utter such arrogant words.
But no one doubted the truth of what he said.
He can really do it.
The Return of the God of War [The Protector] Chapter 3016
This is a “god”!
Everyone couldn’t stop shaking!
Including the level of Tiance Shenshuai.
When encountering this kind of god, it was a thousand miles away, what is the difference from the ant?
Scared!
Who is not afraid?
This kind of god is unhappy, it is very possible to wipe Da Xia off the map and kill everyone.
But you have nothing to do.
Which god spoke again: “But killing you and erasing Da Xia from the map is actually meaningless at all!”
“Really too weak! No interest at all!”
“But Daxia is so weak, it will be difficult to survive in this world in the future!”
Suddenly, this person’s eyes lit up: “I thought of a way for you to survive!”
He glanced at everyone and said, “All of you are my slaves! Become my people, kneel down at my feet
and serve me forever! So that you can live!”
“I don’t need too many slaves, just everyone in this area! Follow me immediately! Otherwise I will kill
them all!”
The “god” from Toshima appointed a slave candidate.
“Boom!!!”
Everyone is going to explode.
Brains are buzzing…
Going to become a slave?
It’s still a lifetime!
For a moment everyone can think of the miserable end of the slave!
Their fate is no better than that of wild dogs…

Will suffer all kinds of humiliation!
And this is still in Daxia's land, so many people in Daxia are going to be taken away as slaves!
shame!
Great shame!
But there is no way!
The other party is a "god"!
What can you do?
One person was upset, and he could wipe out Daxia.
Can everyone resist?
It can even be said that being his slave is indeed a good way to survive.
Daxia is so weak now.
Now is the beginning.
I guess I will bully it from time to time…
Daxia's end will be miserable.
They are now slaves and at least they can save their lives.
But then the miserable experience began, how many people in Daxia can start and end well?
Being a slave is the best way out.
Everyone can already imagine.
Next, Daxia people will be the most humble crowd.
Slaves, coolies and all the bottom are Daxia people.
"Recognize it! If you don't recognize it, you die!"
The elder parent sighed.
"Let's go, my slaves! Give me everything!"
The gods of East Island scolded.
This sound was like a thunder rolling, and it could shatter everyone.
Everyone felt the fear from deep in their hearts.
This seems to be divine, no one dares to disobey.
There is no idea of resistance.
"Hahaha, there is a big fish in it! Tiance, the head of Tiance Mansion, is handsome!"
"But what is the difference between you and them now? They are all ants! Hahaha…"
…
Suddenly the god of the East Island spotted the gods and the others in the crowd.
His voice immediately became excited.
Less than a month ago, Tiance God Commander was still the planet's top powerhouse, a nightmare in
countless people's hearts.
But now what is different from the ants, they have to become slaves.

Things are wrong!
The Return of the God of War [The Protector] Chapter 3017
It was a hand-picking star, but now it is rolling in the quagmire.
It is not to be embarrassed!
“Very well, you will be my watchdog from now on! I will tie you a gold chain! This is your exclusive!”
The god of Dong Dao even wanted to regard the god commander Tiance as his own slave.
Thinking about it, I feel exciting and full of excitement.
“What are you doing in a daze? Let’s go! Go back with me! Don’t force me to kill!”
The power of the god of Dongdao came in the air, and everyone subconsciously gathered together and
left.
All of them seemed to be pushed away by an invisible big hand.
Can’t control his body at all.
I want to resist, but there is no way.
Besides, who is not afraid of death?
When a slave has a chance, when he dies, there is no chance at all.
“what!!!”
They naturally didn’t want to be slaves, they struggled desperately one by one.
But it doesn’t work at all.
He can’t even control his body, let alone other things.
Invisible forces controlled them to kneel and crawl.
The dense crowd on the ground all knelt to the ground, crawling little by little.
“Ok?”
Suddenly, the Dongdao god in mid-air was surprised to find that among the many people, there was
unexpectedly uncontrollable.
How is this going?
Impossible!
Why are ants not under their control?
Even ants like Tiance Shenshuai are controlled by themselves.
How can it be impossible for others?
“Ok?”
What was even more terrifying was his dazed kung fu, when he looked again, that person had
disappeared.
This……
shocked!

Kito Ichiro of Higashishima is going crazy.
He is a god!
There were people he couldn't control, and he could run away from under his nose.
How can this be?
Going crazy!
He hurriedly tried his best to find the disappeared person in this area.
He is now at the level of gods, and his consciousness can encompass everything in this area.
He will know any changes.
Even a fly that is too small to see can stir its wings…
He can even understand the process of seed germination.
After all, this is a god-like existence.
The perception of everything is too keen.
But why is such a big living person disappearing?
"Are you looking for me?"
At this moment, a voice sounded abruptly.
Hokkaido Ichiro was immediately shocked.
The whole person was panicked and his face changed wildly.
He is a "god"!
He didn't know someone disappeared, he didn't know someone suddenly appeared behind him.
He has an existence with the strength of a god!
How is this possible?
Besides, Daxia has no gods!
"Boom…"
Suddenly he suffered a strong breath penetrating his body.
At this moment, he felt his soul separated from his body.
Weird!
fear!
Beidao Ichiro's face changed drastically, cold sweat broke out!
It felt as if there was a pair of eyes staring at him from outside the sky.
His perception ability has come to a terrifying level.
Others can't perceive it, but he can.
"Daxia is where you can come?"
The Return of the God of War [The Protector] Chapter 3018
A voice rang like a divine thunder from Nine Heavens.
Hearing this voice, Beidaoichiro felt that his soul was about to explode.
Instantly rolled from the altar to hell.
"boom!"
Suddenly, a divine thunder came from the sky!

Hundreds of thousands of people raised their heads and looked towards the sky, only to see which god
on the East Island exploded directly.
It turned into a rain of blood!
Spectacular and miserable!
Was shocked to death by a sound!
That's a god!
It was shattered by the sound, who can imagine?
The blood rain fell, dripping on everyone's body, and it was absorbed in an instant.
Everyone feels like taking a panacea.
It's much more useful than inhaling aura.
The surrounding plants also changed wildly.
After all, a god's body is more aura, and blood is like a panacea.
But no one will be surprised by the changes now.
It's all scared silly.
A god suddenly blew himself up?
Died in the midair of Daxia?
Shocked!
It was shocking!
"The god of Dongdao has fallen??"
Everyone's surprised eyes flew out.
Does a god fall so easily?
What exactly happened?
That's a god!
Existence with the power of gods!
"Hahaha, could it be said that Daxia also has a god?"
"Yes, my Daxia may not have a god in this catastrophe, but we have a god-like existence before!"
"Could it be the two types of existence in the Daxia legend-the Heavenly Master's Mansion and the
Suppression Demon Division?"
"Probably so! Now my Daxia is declining, everyone wants to carve Daxia, and want to turn Daxia people
into slaves! Naturally they won't agree!"
…
After the last dispute, the Town Demon Division and the Heavenly Master's Mansion are no longer
secrets.
Almost everyone talks with gusto.
But now everyone believes this legend is true!
How else to explain?

That is a god!
Say no, no!
There must be a stronger figure to shoot!
But this catastrophe Daxia all escaped.
There are no strong people of this level at all…
In addition, Daxia's allies also avoided this great opportunity.
This means that there is no one on Daxia's side, and no one can help.
No one has this strength, and no one can help.
Now the god of Dongdao has fallen.
The Return of the God of War [The Protector] Chapter 3019
Then it can only show that the Heavenly Master's Mansion and the Sword Demon Division made the
move.
Almost everyone in Daxia was cheering.
Although they are not gods this time, they used to have the Summon Division and the Heavenly Master's
Mansion.
This is incomparable to no one.
Levi Garrison, who had solved Beidao Ichiro, came to Tiance Shenshuai.
No one found that he had disappeared.
Of course, even a god like Bei Dao Ichiro couldn't find Levi Garrison.
How could other people be?
It was easier to solve Beidaoichiro than to solve the mutant giant python before.
Levi Garrison didn't care about it at all.
He asked Zoey Lopez about their situation with Tiance, the superintendent.
The superintendent Tiance hesitated, and said, "Levilia was captured by a mysterious man! Miss Zoey
Lopez and Doctor Dark and they ran to find! In the Western Continent…
Finally, we didn't wait until they
came back…"
"What? Levilia was taken away? That means that this group of people are here for Levilia!"
Levi Garrison immediately thought of the group of people who stopped him.
Now it seems to be perfectly matched.
He thought the group was coming for Doctor Dark.
It seems that Levilia is of greater value.
"Yes, I heard Doctor Dark say that this is an organization that studies ancient cultivators! Doctor Dark is
on their list! Levilia must be on the list!"
Tiance Shenshuai said.

“Well, in Western Continent, right? I’m going to find it! Nothing happens, everything is easy to say!
Something happens, don’t think about peace in this world!”
Levi Garrison was extremely cold.
Accompanied by thunder in the sky.
Tiance Shenshuai was dumbfounded.This seems to be because of the word side by side?”
Suddenly a terrible thought came out of Tiance Shenshuai’s mind.
Could it be that the Toshima god just now…
He couldn’t help trembling when he thought of this.
soon.
The death of Higashishima god Kitoichiro in Daxia quickly spread.
The world is shocked!
The major forces have just listed Daxia and the countries of the alliance as having no “gods”.
It is also classified as one of the weakest countries in the world.
But the next second, something happened directly.
The gods of Dongdao ran to show off his might and were directly killed.
Everyone was confused now.
Daxia has no gods?
Is there any?
It is clear that everyone in Daxia hid on the safe island and missed this opportunity.
There can be no gods born!
But if there are no gods, who did Ichiro Hokudo get rid of?
Confuse!
Puzzled!
what happened?
Does Daxia really have a god?
Originally, many powerful people, including many gods, wanted to go to Daxia to personally explore, to
see the specific situation, and even to share Daxia’s resources and manpower.
But after hearing this message, they all stopped.
Even the Eagle Nation was dumbfounded.
The Return of the God of War [The Protector] Chapter 3020
Is there any hole in Daxia?
But is there any hole card that can get rid of the gods at once!
Shortly after.
The message from Daxia said-it was the two types of existences in Daxia’s legend that the Heavenly
Master’s Mansion and the Town Demon Division had acted.

This time the whole world was shocked.
Whether or not they are.
But something has happened.
Hokudo Ichiro is indeed dead.
For a time, everyone dare not act rashly.
…
Levi Garrison hurried to the Western Continent alone.
He swaggered along the way.
Now he has no fear.
Like before, he still feared the laboratory of the gods and feared the war eagle country.
Fearless now.
Who stop me, who do I do!
This way, always encounter obstacles.
Levi Garrison pushed all the way…
That old castle in Western Continent.
Under the impact of this energy storm, it was already torn apart.
However, the buildings under the ground of this ancient force protected them.
After hiding for so long.
The ancient forces still sent people to observe the situation outside.
After exploring the outside environment, everyone knew that the danger was lifted.
However, the dispute between the two sides recurred.
The Dark Doctor swears to take Levilia away.
The two sides began to fight again.
The ancient forces are like a cloud, one by one is extremely powerful.
Comparable to the previous laboratory of the gods.
In fact, there were a lot of ancient forces before, but they just didn't show up.
But Doctor Dark is also unmatched.
After all, Levi Garrison personally admired it before.
For a time, the two sides fought back and forth, turning this place upside down.
Of course Zoey Lopez can't help them.
But at least it can harass it.
at this time.
Levi Garrison has come to Western Continent.
"Ok???"
Levi Garrison felt that the entire Western Continent was in his own consciousness, and he could control
every move everywhere.

Especially the energy fluctuates.
Doctor Dark! ! !
Levi Garrison has locked the position of Doctor Dark.
He had fought against Doctor Dark before, and he could perceive it now as soon as the Doctor Dark shot.
Levi Garrison immediately went to the place where the Dark Doctor was.
…
The dark doctor at this moment is as crazy as he is.
Like the brain of God, he felt that he owed Levi Garrison, especially in the end Levi Garrison ran to save
the disaster.
It left an indelible impression in his mind.
He must save Levilia back!
Even if you die!
So Doctor Dark is crazy.
I don't know what's going on, his combat effectiveness suddenly increased, and he immediately
exploded.
Everyone understands that he used the method to improve his strength.
Soon, the ancient forces became unstoppable.
Seeing that Levilia was about to be rescued, one of them suddenly took out a medicine bottle, poured
out a pill, and stuffed it into Levilia's mouth.
The Return of the God of War [The Protector] Chapter 3021
"What are you doing???"
Dark Doctor and Zoey Lopez, their faces changed drastically, and they shouted frantically.
Anxious!
Everyone is in a hurry!
I don't know what medicine they are feeding Levilia!
Especially, Zoey Lopez is even more crazy.
"This is what you forced! No one wants to take it away!"
The man yelled frantically.
"What are you feeding??"
Zoey Lopez shouted.
"Hahahaha…This is the strongest poison we have researched since ancient times! We have collected
many poisons in the world since ancient times.
But in the end, I chose the 87 most powerful poisons in the world, and they blended together perfectly
to become the strongest poison in the world!

Because it is the strongest poison, no name can match it! This poison has no name! "
The man explained.
"Don't worry, no one can solve this strongest poison! We have been studying the ancient monks, and
these poisons are all related to the ancient monks of the East and the West.
For example, a kind of poison is related to Daxia's pre-Qin Qi practitioners. According to legends, Lian
Daxia Zhenmosi had nothing to do with this poison.
There is also a poison that the ancient gods of the West will lose all their supernatural powers when
they are caught.
...
Think about it, this kind of 87 kinds of poisons put together the strongest poison, who can solve it? "
After listening to the introduction.
Doctor Dark has a sullen face.
Because of what this person just said, he knew about seven or eight kinds of poisons.
And also studied.
They are all insoluble toxins!
He has been researching for more than ten years, and he has no way of dealing with these poisons.
Therefore, it is not used in the plan of the Gods Laboratory.
The dark doctor has a habit of research.
No matter what kind of research it is, how powerful things are made, first of all he needs to control it.
For example, Leviathan, so powerful.
He had to work out a way to deal with Leviathan before he was willing to make Leviathan.
These poisons are the same.
He had to study clearly and find a solution before he was willing to arrange these poisons in the plan.
But it has been studied for so long.
He couldn't find a solution to these poisons.
In his hands, this poison is insoluble.
You know he is the Dark Doctor.
Specialize in this kind of!
But now he can't even deal with seven or eight kinds of poisons.
Not to mention eighty-seven kinds.
too scary!
unimaginable!

The Dark Doctor was dumbfounded.
The Return of the God of War [The Protector] Chapter 3022
He understands these poisons, so he believes that the most powerful poison that Levilia has just taken.
No cure for poison!
"Do you have a solution?"
Doctor Dark is anxious.
The man shook his head: "Of course no! If we have the ability to deal with this poison. Do you think you
will still stand?"
Doctor Dark's body trembled.
That's it!
This time is completely over!
He couldn't even imagine the consequences of Levilia.
Zoey Lopez after they heard this.
Also dumbfounded.
"Are you as for?"
The Dark Doctor shouted angrily.
"If you didn't push too hard, how could we? Since we can't get it, don't even think about it!"
"And the world has undergone earth-shaking changes! We will soon be exposed. We are free!"
The man yelled frantically.
Doctor Dark was trembling with anger.
"what!!!"
Levilia, who was forced to take the strongest poison, suddenly let out a scream.
Zoey Lopez surrounded them all.
At this moment, everyone in this ancient force evacuated.
The Dark Doctor chased after him intentionally, but he stopped worrying about Levilia.
"Boom…"
In the next second, with the shaking of the earth and the mountains, Levi Garrison is here!
"What's the matter? Levilia, what's wrong with you? Levilia!!!"
Levi Garrison had already seen Levilia's abnormality.
The gang who just ran away gave her the strongest poison…"
While checking Levilia's physical condition, Doctor Dark explained to Levi Garrison what had just
happened.
Because the situation is too urgent.
Everyone didn't think much about Levi Garrison's sudden appearance.

All the attention of everyone is on Levilia.
The Return of the God of War [The Protector] Chapter 3023
Now Levilia made a painful voice, his body was covered with frost, and his whole person seemed to be
frozen.
But her legs are like raging fire, about to burn.
The most frightening thing is that colorful thin lines appeared on her face, as well as large black
shadows.
Moreover, Levilia's powerful strength is fading rapidly, and in an instant she has become an ordinary
person.
It shows how overbearing this poison is.
While Doctor Dark looked at it, his face changed drastically.
"The poison has completely invaded every corner of her body and is devouring her body. If it weren't for
her strength, she would die on the spot!"
Said Doctor Dark.
"Can you save people?"
Zoey Lopez cried.
After the dark doctor checked, he shook his head and said: "No, I need to study and solve any toxin
contained in this poison for ten years! Now there are 87 kinds of fusion! The effect is greater than 87!
Powerless! No one can solve this poison!"
"The exaggeration is that this poison is going to encroach on the human body, brain, and even
consciousness, etc.! It does not coexist with the human body! It first possesses the human body and
then destroys it!"
As soon as Doctor Dark said this, the sky collapsed.
Zoey Lopez passed out directly.
The others are not much better.
Just about to go up to see Levilia, he was stopped by the Dark Doctor.
"No! She is covered with the most powerful poison now! Whoever touches will die!"
"I just used special gloves to isolate the poison! None of you can approach her!"
Doctor Darkness blocked.
The others stopped one after another.
Doctor Dark also collapsed.
The whole person also collapsed to the ground.

The eyes are full of self-blame.
He couldn't shirk responsibility for this matter.
"Sorry, I won't save your daughter!"
Doctor Dark sighed.
Levi Garrison had a calm expression on his face.
No words.
Slowly walk towards Levilia.
Doctor Dark hurriedly shouted: "No! You can't touch her! She is the strongest poison now! If you touch
it, you will die too!"
He frantically prevented Levi Garrison.
But Levi Garrison didn't stop at all.
He stepped forward and straightly hugged Levilia.
He carefully felt the changes of Levilia.
At this moment, Levilia's body was full of holes, and the poison was too domineering and terrifying.
It has eroded every inch of Levilia's body.
Various problems followed one after another.
It really means that Levilia has the strongest talent, and he has walked out his own way, now he is
extremely powerful.
Otherwise, Levilia would have already died.
But Doctor Dark was wrong.
Levi Garrison could feel that this strongest poison was really the same as what he said.
After the fusion of the 87 strongest poisons, they really have the effects of first invading the
consciousness of the human brain.
He could clearly feel that Levilia's consciousness was weakening, and the poison continued to spread.
Now Levilia's body has become a "poisonous" body.
Even what Doctor Dark said-Levilia himself is the strongest poison.
This is no longer Levilia.
It's the strongest poison.
The Return of the God of War [The Protector] Chapter 3024
The poison has invaded Levilia and replaced Levilia.
But Levi Garrison is not afraid at all. If Levilia is in trouble, what poison is he afraid of?
Infection does not matter.
If you can save Levilia, you can save yourself.
If you can't save you, everything is meaningless.
"Dad, Levilia is so cold!"

Levilia Chuchu cried out pitifully.
“Levilia, don’t worry, Dad is here! Dad has a way!”
Levi Garrison didn’t believe it anymore.
With such a powerful strength, he can’t solve this poison?
“Levilia, Dad will save you right away!”
Levi Garrison put one hand on Levilia’s head.
He wants to use super powerful power to get rid of the toxins in Levilia’s body.
“Buzzing…”
On Levi Garrison’s one hand, a terrible suction penetrated.
The dark doctor’s expression on the side changed wildly.
Looking at Levi Garrison incredulously.
Eyeballs are about to fly out.
How could he be so strong? ? ?
This is even more powerful than Levi Garrison who had encountered before.
Before Levi Garrison, he couldn’t see how powerful he was.
But now he feels that Levi Garrison is stronger.
Especially when Levi Garrison sucked, he felt that his soul was sucked away.
Even Levi Garrison sucked, he felt as if the whole world was sucked up.
This is to suck out all the toxins in Levilia’s body!
so horrible!
The Dark Doctor was shocked.
“what!!!”
Levilia let out a scream.
She only felt that the whole person was going to be sucked and shattered by a huge force…
Levi Garrison’s inhalation was still quite effective.
“boom!”
A lot of terrible toxins have been sucked out.
This is absolutely impossible in the eyes of Doctor Dark.
But Levi Garrison’s violent actions actually sucked out a part of it.
As for the signs of freezing that Levilia just appeared, all the signs have disappeared.
The colorful lines and black shadows on the face were also dispersed.
This is how terrible Levi Garrison is!
Use violent methods to suck away the poison and disperse all the symptoms.
Levilia’s complexion suddenly became ruddy, and he seemed to be back to normal.
But the haze on Levi Garrison’s face did not dissipate slowly.

Doctor Dark knows the reason.
Levi Garrison still failed.
Wrong.
Although Levi Garrison sucked out some of the toxins, he controlled all the symptoms.
But most of the toxins have invaded every corner of Levilia's body, coexisting with Levilia.
It was what the Dark Doctor said-Levilia is now integrated with the strongest poison, Levilia is poison.
The Return of the God of War [The Protector] Chapter 3025
therefore.
What Levi Garrison sucked out in one breath was only a small part of the toxins that were still not fusing
with Levilia's body, or were fusing.
Most of the toxins have long been fused with Levilia, Levilia himself is highly toxic.
Can Levi Garrison suck out other toxins?
Can!
With his current power, it can be easily peeled off.
But in that case, Levilia will die too!
Doctor Dark also quickly got up to check Levilia's current situation.
He looked at Levi Garrison in surprise.
It's really scary.
Levilia was obviously bound to die, but he was saved by him abruptly.
But this is also temporarily suppressed.
It's not useful at all.
Most of the toxins have been fused with Levilia.
There is no way at all.
Especially not Levi Garrison's violent solution.
In fact, the result is the same!
Levilia will undoubtedly die if caught by this poison.
He will become a "poisonous body"!
Become a poison!
Next, Levi Garrison tried various methods to detoxify Levilia.
In particular, he used all the methods that Master had left him in the ancient books.
May be useful for other poisons.
But the strongest poison among Levilia has no use at all.
All methods are used up.
It's not useful at all.
The most effective method is Levi Garrison's violent methods.

At least some of the toxins were sucked away, and the onset of the toxins was suppressed.
At present, what Levi Garrison can do is continue to suppress the onset of toxins and delay the speed at
which Levilia can completely become "the strongest poison".
An atmosphere of despair has been spreading.
The Dark Doctor dare not speak anymore.
"There must be a way!"
Levi Garrison naturally did not admit defeat.
Levilia will never die.
No matter what method is available!
He is so strong now that he doesn't believe in saving the king?
As long as there is a suitable method, he can definitely! ! !Next, Levi Garrison will use the purest aura to
continuously wash Levilia's body.
One thing is to delay the onset of the poison.
Secondly, let's see if we can peel off the toxin from Levilia's body little by little.
In short, with him, Levilia will not be in danger for the time being.
Doctor Dark was also stunned.
If it were other people, Levilia would have died a long time ago, how can he be as safe as he is now?
This poison is overbearing to the extreme!
Even one of them is enough to destroy Levilia.
Not to mention the 87 kinds of perfect fusion.
Levi Garrison is abruptly robbing people on the head of Lord Yan!
The strongest poison is domineering!
But Levi Garrison was even more domineering.
The onset of the poison was stopped abruptly.
Now in Levilia's body, there is a strong air current circling the poison, suppressing the attack of the
poison.
The Return of the God of War [The Protector] Chapter 3026
But the strange thing about this kind of poison is that it merges into every part of Levilia's body, turning
Levilia into poison.
Otherwise, the airflow that Levi Garrison left in Levilia's body alone would be enough to get rid of the
poison.
It's just that it and Levilia are now in a community.
Fully grown together.
Levilia is poison.

Poison is also Levilia.
“I have time! Then I just need to find a way, I can definitely do it with my abilities!”
Levi Garrison said calmly.
Doctor Dark knows how serious the situation is.
I just wanted to pour cold water, but then I thought about it, it seems that Levi Garrison’s presence here
really has a miracle.
“I will be with you, as long as there is a way, we will try!”
Doctor Dark also looked firm.
Levi Garrison couldn’t help thinking of something, “Does that group have a solution just now?”
“There should be no one! This poison is said to be the strongest. They just studied and merged, and
there is no way to solve it!”
The Dark Doctor shook his head.
If anyone has a solution to this poison, that would be awesome.
“Okay, then their dogs won’t survive! Seeing me kill them all!”
“Wait, no matter you run to the ends of the world, I will kill them all!”
Levi Garrison’s eyes shot out a ray of cold light.
It’s important to save you now.
Otherwise, Levi Garrison would have already caught up.
Still wanting to live with his daughter who has slain him like this? impossible things!
“I’ll go back to Daxia first, and you will follow after yourself!”
Levi Garrison hugged Levilia and left immediately.
With Levi Garrison’s skills now, he arrived in Daxia within a short time.
After coming outside.
Full of aura.
Especially in some dangerous places, the aura is even more terrifying.
Levi Garrison suddenly thought of a way-Levilia save himself.
Didn’t Levilia create a path of his own?
People think it is the technique of Qi training.
She can control the natural elements in her own practice.
Now that the aura is so strong, it is the time for Levilia to give full play to his advantages.
She fits this era better than anyone.
Others are passively baptized by Reiki.
But Levilia’s self-created exercise law can actively absorb spiritual energy.
That is to maximize the benefits.
therefore.

Levi Garrison asked Levilia to try now.
If her own practice works, absorb the spiritual energy to wash herself.
There may be a glimmer of hope.
Levi Garrison stopped deliberately.
Let Levilia run the exercises on his own to absorb the aura and try.
Levilia also started to use exercises to absorb spiritual energy according to Levi Garrison's words.
"Boom!"
At the beginning, it was relatively smooth to absorb the aura, and the posture seemed to be used by the
king in the entire area.
She was continuously absorbed by her.
See this scene.
Levi Garrison smiled.
Hope ignited on his face.
Really useful? ? ?
The Return of the God of War [The Protector] Chapter 3027
It is impossible for others to clear it directly, but is it really possible for Levilia to run the exercises on his
own?
Even Levilia showed joy.
I thought it was really useful!
Soon.
Levilia stepped up his efforts to absorb more spiritual energy into his body.
Even want to get rid of toxins.
"puff!"
But suddenly something happened…Levilia opened his mouth and spurted blood, and the whole person
fell instantly.
"Levilia!!!"
Levi Garrison was dumbfounded.
He was anxious.
Yelled frantically.
The poison is attacking at a speed visible to the naked eye.
The toxins on Levilia's face were directly revealed, and all kinds of toxins spread all over his body like
tree roots.
This poison is like a living thing, it wants to completely occupy Levilia's body, this trend is like a
poisonous tree.
"Cough cough cough…"

Levilia kept coughing up blood.
In the end, Levilia passed out directly.
This is more violent than what happened just now!
Levi Garrison immediately hugged Levilia, put his hand on her, and immediately transported the airflow
into Levilia's body to suppress the onset of toxins.
Sure enough, the poison was even worse this time!
Levilia uses the exercises and uses the spiritual energy, but once he wants to get rid of the toxins, the
poison is directly stimulated and it bursts out.
After all, they are integrated with Levilia.
According to Doctor Dark, this poison is very cunning, so it is absolutely impossible for Levilia to remove
them.
After all, the current body also belongs to them.
Levilia wants to expel them forcibly, it will only damage his body.
It will also stimulate the onset of toxins…
As a result, Levilia had a serious attack this time.
Constantly coughing up blood…
The blood is red!
This is the most terrible!
If the blood is black, or other colors are fine.
After all, the toxins were brought out.
But now the blood that Levilia vomits is very red.
That is the essence of her life, the foundation of her body!
Every time he spit out, he was losing his vitality.
Levi Garrison can clearly feel the passing of Levilia's vitality…
Levi Garrison was in a hurry, and quickly suppressed the onset of the toxin.
That is, Levi Garrison is too domineering.
Otherwise, how could Levilia survive the second attack of the strongest poison.
This time.
Even Levi Garrison felt strenuous.
Sure enough, there were some things that couldn't be solved by pure power.
Now he can only suppress the toxin attack.
Infuse Levilia's body with powerful aura currents to fight against the poison that suppresses Levilia's
body.
That's it.
This time, it was obviously a lot harder than before.

Levi Garrison took a deep breath.
It seems that I can't just try it casually.
This hurt Levilia too much.
Now we can only wait to find a real solution.
In the unlikely event that he tries something that makes Levilia in danger and he can't control it, it will
be too late to regret it.
Although temporarily suppressed.
But Levi Garrison actually saw a dozen white hairs appearing on Levilia's head.
How old is Levilia.
There are signs of aging…
too frightening.
If Zoey Lopez saw it, he would cry to death, right?
This poison has started to consume the vitality of Levilia unexpectedly.
The Return of the God of War [The Protector] Chapter 3028
Sure enough, it was a cunning poison.
Can't be careless at all.
"Dad, I'm in trouble, you… don't worry about it…"
Levilia woke up, looked at Levi Garrison and said weakly.
Levi Garrison was terrified.
Tears almost came out.
However, Levi Garrison just vomited a few mouthfuls of life essence and blood, which was obviously a
fundamental loss to the body.
Even if he controlled the seizures, there were signs of aging.
This is also terrible.
A solution must be found as soon as possible.
Otherwise, this is just the beginning.
Poison will gradually gain the upper hand, eventually turning Levilia into the strongest poison.
"How to do how to do?"
Levi Garrison is now not only worried about the consequences of the final attack of the poison, but also
worried that Levilia will continue to age.
"Yes, yes! This method is fine!"
Suddenly Levi Garrison thought of a way.
May be able to cope for a while.
It won't make Levilia continue to age.
He didn't want to see that his daughter was full of silver hair at a young age.

Especially not let Levilia and Zoey Lopez see them!Levi Garrison's method is very simple.
Introduce the medicine with your own blood, and then give it to Levilia.
He is now unimaginably powerful.
Then there are treasures all over oneself.
Even a drop of blood has magical effects.
So he wants to use his own blood to replenish the life essence that Levilia has lost.
In this way, Levi Garrison immediately bled himself.
Then make pills according to the ancient method.
Give it to Levilia.
Sure enough, a magical scene appeared, and Levilia's dozens of white hairs turned black.
The medicine made from Levi Garrison's blood really worked.
In this way, Levi Garrison was relieved.
Next, Levilia's lost life essence, he will supplement.
But in the future, you will not be able to test it casually.
Something is going to happen!
Levi Garrison ran all the way and returned to Daxia.
Daxia might have this kind of detoxification method.
Soon, Levi Garrison found the gods of Tiance and them.
"What's wrong? Levilia, this is…"
Tiance Shenshuai and several people saw Levilia like this, they were all frightened.
Levi Garrison briefly talked about what was about to happen.
"What? The strongest poison???"
Everyone was stunned.
Hastily inspected Levilia's condition.
All of Levilia's masters (old ancestors) also rushed to inspect Levilia's situation.
Everyone looked at it, and their faces turned dark.
It shows how overbearing this strongest poison is.
"What kind of poison is this? Too overbearing, right? We have nothing to do! There is no use for any
panacea we can take out!"
Tiance Shenshuai shook his head again and again.
Levi Garrison sighed: "Normal! This is a perfect fusion of 87 kinds of poisons. Even if one of them is a
poison, it is estimated that we have nothing to do!"
After reading this, the ancestors also looked desperate.
Looking at Levilia, they almost cried.

Next, the genius doctors and poison masters of Tiance Mansion and Baolong clan.
The poisonous evil gods of the seven evil gods also all came.
Almost all the well-known detox masters are here.
Even doctors with modern technology came, carrying the most advanced equipment to scan.
…
This is the consultation of all masters.
A few hours later.
Everyone came out.
Everyone's expressions were somber, they didn't dare to look up at Levi Garrison.
Obviously, there is no one who can do it.
The Return of the God of War [The Protector] Chapter 3029
No one can solve the poison of Levilia.
"Don't worry about the word side by side! I will immediately go and read the ancient books of the
Tiance Mansion and Baolong clan! Maybe there is a solution!"
Tiance Shenshuai said.
"By the way, aren't there some seniors from Tianji Pavilion? They are very knowledgeable! Maybe there
is a way!"
Someone reminded.
Levi Garrison immediately hugged Levilia to find the seniors in Tianji Pavilion.
This time, Levi Garrison also saw the true faces of several seniors with his own eyes.
But they are not interested in what they look like.
Just want to see if you can cure Levilia.
The seniors of Tianji Pavilion were not idle, and immediately began to check Levilia's situation.
But after checking one side.
Everyone shook their heads.
"This poison is too overbearing! Conventional means are impossible! I have never heard of any way to
unlock this poison!"
"And now the poison and the child's body are in a state of coexistence, which is even more unsolvable!
This poison is too cunning! While depleting the child's energy, it takes the child's body as his own!"
…
No way!

Even Tianji Pavilion, the three old guys with hands and eyes open to the sky, had no idea what to do.
Levi Garrison's heart was cold for a while.
"Tiance Master has gone to read all the ancient books, but there should be no gain! This poison is not
something we can solve!"
Sure enough soon after.
Tiance Shenshuai returned with a tired look.
"I have read all the ancient books, there is no way!"
Levi Garrison slumped directly on the ground.
What should I do now?
His hope is gone!He hurried to Daxia.
In fact, hope is placed on the Tiance Mansion and Baolong clan.
They have the oldest books in their possession, including medicine and poison.
Now even they have no choice.
Levi Garrison was stunned.
What should I do next?
Hope it's all gone!
The key is to find no direction and method of treatment.
He can now alleviate Levilia's situation.
Only for a while, but not forever.
Cried!
Levi Garrison was holding back the tears.
What's the use of his strength? ? ?
He can stop the eruption of super spiritual veins, what is the use of saving the world?
He has the power to destroy the heavens and the earth, what is the use of being able to kill the gods
wantonly?
Isn't it that you can't keep Levilia?
For a while.
Doctor Dark brought a group of people back with Zoey Lopez.
When the results are known.
Zoey Lopez fainted directly.
Levi Garrison's mother and father-in-law and mother-in-law also fainted.
Desperate!
The Dark Doctor blamed himself.
"If you give me enough time, I might get rid of this poison! But at least decades!"
Doctor Dark sighed.
"Is there really any way?"

The Return of the God of War [The Protector] Chapter 3030
Everyone asked in unison.
The god commander Tiance suddenly sighed: "If the Sword Demon Division or the Heavenly Master
Mansion really exists, there may be a way, but these two types of existence are only in the legend…"
But Tiance Shenshuai understands.
These two types of existence are only in legends.
Won't exist!
The others immediately said excitedly: "That's right! The Demon Division and the Heavenly Master
Mansion exist! They killed the god North Daoichiro of the East Island!
Now the whole world is arrogant!
Daxia's Demon Division He Tianshi Mansion just exists!"
"You can immediately find the seniors of the Town Demon Division and the Heavenly Master's
Mansion!"
"Yes, look for it right away!"
…
The Town Demon Division and the Heavenly Master's Mansion came forward, and everyone seemed to
find hope.
Immediately urged everyone to look for it.
But Levi Garrison looked calm, because he knew Bei Dao Ichiro had killed it himself.
Where are the Town Devil Division and Tianshi Mansion from?
This is the legend!
So Levi Garrison was not excited at all.
There is no hope for this.
Because the Sword Demon Division and the Heavenly Master's Mansion do not exist.
What's the use of this illusory thing?
There is no hope at all.
"Can't find them! They still don't exist! It should be someone else who solved Kitajima Ichiro…"
Tiance Shenshuai took a deep look at Levi Garrison.
But now he dare not ask.
The atmosphere is too gloomy.
"We have no way to get rid of this poison! By the way, do you want to try the gods of other countries?
They are as powerful as gods, and these poisons shouldn't be too difficult for them?"

Someone suggested.
Now everyone doesn't understand it.
I really thought it was a god.
Can solve everything, this kind of poison is not a problem.
But after Levi Garrison heard it, he was almost mad.
He can't do it.
What use are those gods?
"What is a god?"
They didn't even know Doctor Dark, and immediately asked.
After knowing the powerful gods.
Some people think it's okay.
All gods.
That must be the god in everyone's imagination.
Didn't this poison solution come at your fingertips?
Doctor Dark just thought it was okay, but seeing Levi Garrison's reaction, he didn't speak.
He faintly felt that Levi Garrison was much stronger than any god.
Not long ago, he had felt the power of Levi Garrison.
That is even the whole world can be sucked up.
The gods are just bragging about these people.
No one knows the true strength.
When everyone was thinking about asking the gods of that country, Levi Garrison's voice suddenly
sounded: "It's not useful to find gods! They have this ability!"
Levi Garrison said so.
Doctor Dark is sure.
Gods can't do it!
"Mr. Ye, should we go to War Eagle Country to try our luck?"
The Dark Doctor reminded.Now the most promising Daxia can't do it, so looking at the whole world,
there may really be only the Warhawk Nation left.
Levi Garrison immediately agreed: "Okay, let's try it!"
Levi Garrison is not nonsense.
Directly hold Levilia and Doctor Dark and go directly to the War Eagle Nation.
Others are a little confused.
Why doesn't Levi Garrison believe in the existence of Daxia Town Demon Division and Tianshi Mansion?
Everyone now says that these two types of existence are not legends, but real existences.
It even got rid of Kitajima Ichiro.
Secondly, why don't you believe in gods?

The Return of the God of War [The Protector] Chapter 3031
That is a god-like existence.
Beyond the ordinary.
No matter how strong the poison is, it is also human.
How the gods can't figure it out.
Most people don't understand.
Obviously hope a lot.
Why is Levi Garrison so determined?
Don't go to the Town Demon Division and Heavenly Master's Mansion directly!
It's not enough to deny the gods directly…
Now he went to the war eagle country to try his luck?
In today's environment, War Eagle Nation and Daxia are both at the bottom.
It's ridiculous to go to the war eagle country to try your luck without looking for a god.
Especially seeing Levi Garrison holding Levilia so anxiously to leave.
Everyone didn't understand it more and more.
"I can't figure it out. Levi Garrison, logically, cares about his daughter's life and death! But it doesn't feel
like he cares! It seems that his daughter doesn't care about life or death!"
…
Everyone has such doubts.
In their understanding, Levi Garrison should immediately call for help from the gods or find the Sword
Demon Division and the Heavenly Master's Mansion.
But he went to War Eagle Nation…
Say he doesn't love his daughter, right?
More anxious than anyone!
"Who said that gods can't do it? He has personally contacted gods? Know what gods are like?"
Someone scolded.
Levilia's masters are also anxious.
"Regardless of whether the gods will work in the end, we all have to give it a try!"
"Yes, let's ask the gods to detoxify Levilia!"
"Yes, Levi Garrison will not ask the gods! Let's ask for it personally!"
…
Several ancestors are in a hurry.
They are going to ask the gods to detoxify Levilia.
"Yes, it is definitely the best way to find a god! I heard that gods contain divine powers, and they can do

everything! They can destroy the world and nourish all things. Detoxification shouldn't be a problem!"
The others are very supportive.
"Now that Daxia is declining, finding a god may not help! So this road is still difficult! But we have to try!"
"It is estimated that even if we find the help of gods, we will have to pay a very heavy price!"
Several ancestors said.
"In addition, I trouble you to find the traces of the Jinmaji and Tianshifu! The fall of the god Kitajima Ichiro must have something to do with them!"
They also urged others to find the Sword Demon Division and the Heavenly Master's Mansion.
"Well, let's try them all too!"
Others also acted.
Even the heads of Tiance and the leaders of Yanlongwei began to inquire about various materials and ancient books.
Come and try your luck.
Levi Garrison and Doctor Dark are very fast.
Soon after he arrived in the war eagle country.
"Hurry up and find Agent Black Hawk!"
Levi Garrison became anxious.
It just so happened that Levi Garrison came across a group of people who came back from God's Brain.
"Mr. Ye, are you really alive???"
Everyone was excited.
Especially the brain of God came up.
"No time to explain! Hurry up and find Agent Black Hawk!"
Levi Garrison immediately said.
The Dark Doctor also said: "By the way, this kid has a lot of information stored in his mind! Let him find some strange people and strangers!"
Levi Garrison hurriedly told the brain of God.
The brain of God quickly began to search.
After a while, Agent Black Hawk also came.
Too late to surprise him.
Levi Garrison told him the matter.
"If Doctor Darkness doesn't work, there is little hope! But I will ask the experts of the Sky Shield to see if there are any strangers in this area!"

Agent Black Hawk took a deep look at Doctor Dark.
The Return of the God of War [The Protector] Chapter 3032
The meaning is very simple.
If the existence of Doctor Darkness is so powerful, it is impossible.
Other people are even worse.
But Agent Black Hawk continued to do it.
not much hope.
But it means there is still hope.
After the Black Hawk agents contacted the Sky Shield, they even contacted Smith, the head of the
bureau, and Nelson.
See if they have any solutions.
After all, there are people behind them.
It's just that Agent Black Hawk didn't know.
"Would you like to invite some new gods to try?"
Agent Black Hawk suggested.
Levi Garrison refused directly.
If it was someone else's doorway, Levi Garrison could really come and try.
But Levi Garrison knew the origin of these gods better than them.
Their mutation is derived from the aura filtered by Levi Garrison's body.
Levi Garrison couldn't do it.
What can they do.
Agent Black Hawk was a bit strange.
Gods can't work?
Why is Levi Garrison so sure?
But he didn't go into it.
It is also more troublesome to invite a god now.
And for the time being, the Eagle Nation decided not to deal with the gods.
It is still out of reach for the time being.
He can only follow Levi Garrison's meaning.
The brain of God itself is equivalent to the super brain of human flesh.
He began to screen.
But it is extremely difficult.
Because the person needed is at least the level of the Dark Doctor (single-finger medical skills).
So it's very difficult.
It may be filtered to the end.
There is no suitable candidate!
The research experts at the Tiandeng Bureau began to use various equipment to examine Levilia's
specific situation.

Levi Garrison stayed beside Levilia just in case.
The instrument aspect.
Sure enough, the Sky Shield Bureau was a bit more powerful.
After all, the things they have been researching are advanced.
Such as dissecting some unknown creatures.
They have experience and various advanced instruments in this regard.
Heard how powerful this poison is.
The head of the game Smith and senior Nelson also sent some top experts and detox masters to
participate.
It even brought advanced equipment that Tianshield had never possessed.
Just by looking at it, you can notice that the materials, structures, etc. of these instruments are different
from what you have seen.
Obviously this kind of high technology is only known to the top.
Black Hawk agents of this level have never been able to contact.
But at this critical time, where does everyone care about other things.
Levi Garrison didn't have any thoughts about this.
The whole heart is on Levilia.
Shortly after.
Seven people selected by the brain of God were also found one by one.
Agent Black Hawk was very helpful, and took them one by one.
Even Doctor Dark is also involved.
The Return of the God of War [The Protector] Chapter 3033
Almost hundreds of top experts use the most advanced equipment to analyze and treat Levilia.
It is estimated that the poison in Levilia is special, so that so many powerful characters can be gathered
at once.
Levi Garrison saw a glimmer of hope.
Maybe it can!
Time passed by every minute and every second.
Five hours.
Ten hours.
…
In the end, fifty-seven hours passed…
Everyone finally negotiated a result.
Levi Garrison woke up immediately.
This time.
He is also thinking of a way.
See how to use your powerful strength to remove the poison from Levilia.
Even if it is transferred to yourself.

Let Levilia survive.
Take it for yourself.
It seems that if he is poisoned,
Just as he was fascinated by what he wanted, the Black Hawk agent on the side reminded him that there
was a result.
Levi Garrison woke up for a while, and immediately leaned forward.
Hundreds of top experts are already out of breath.
After all, they are highly concentrated.
Many people have excitement on their faces.
But Doctor Dark had a gloomy face.
"At present, this one method is feasible! It depends on whether you want it or not?"
The eyes of a group of experts all fell on Levi Garrison, all staring at him.
Levi Garrison was anxious, so he asked hurriedly, "What…what way?"
Many experts have joy on their faces.
"We really found a way!"
The reason for their excitement is that they have indeed found a cure.
Doctor Dark sighed.
Obviously not very satisfied with this method.
Levi Garrison captured everyone's expressions.
Seeing the look of Doctor Dark, his heart shook.
Realize that it's not good.
"The method is actually very simple-let this child coexist perfectly with the toxin on her body!"
Said one of the experts who studied ancient poisons.
"What? Coexistence? What do you mean?"
Levi Garrison didn't quite understand.
Isn't Levilia coexisting with this poison now?
How can we still coexist.
"It's me!" The Dark Doctor stood up and said to Levi Garrison: "The way they discussed and discussed is
to coexist, and coexistence means that toxins can completely occupy Levilia's body and turn Levilia into
a real one. Poison!"
The meaning of Doctor Dark Levi Garrison understood.
This is what Levilia is going through now.
Levilia will eventually become poison himself.
The Return of the God of War [The Protector] Chapter 3034
What he can do now is to slow down…
"Isn't this completely occupied? How could it be coexistence?"
Levi Garrison didn't understand this.

“Coexistence means that Levilia’s consciousness remains, but his body becomes poison, and Levilia
cannot control his body.”
Doctor Dark continued to explain.
Levi Garrison gradually understood.
He hurriedly said: “It means that Levilia will completely become poison, but her consciousness will
remain!
But you can’t control your body, so you can’t use your mouth, eyes, and nose. We can only sense the
existence of her consciousness through special instruments? “
Boom!
Levi Garrison had already staggered.
Doctor Dark nodded: “That’s true! In fact, this method is the same whether or not to retain her body!
Because the method adopted is to retain her consciousness, which can be separated out. It does not
have to be kept in the body. !”
What Doctor Dark said was actually very straightforward.
Levilia’s body will become poison, even the brain will become part of the poison.
Only the vague things like consciousness can be separated.
It doesn’t matter whether you have a body or not.
However, considering Levi Garrison’s eagerness, he kept his body.
The body is completely catalyzed into poison, a coexistence method where consciousness is preserved.
At least Levilia is still conscious, there is no death.
It’s almost like a vegetative.
Even stronger.
With powerful instruments, Levi Garrison can sense Levilia’s consciousness through instruments, and
even communicate.
And to ensure the integrity of the body, not enough to rot.
In fact, this is a method.
Otherwise, Levilia’s end will be a dead end.
At that time, even a little consciousness will be destroyed.
Now these experts can at least retain consciousness.
But think about it again.
Hundreds of experts are helpless with this poison.
This kind of coexistence of consciousness retention is actually a compromise with poison.
There is no way out.

no!
But this approach, Levi Garrison wanted to refuse.
How could he make his daughter become such a ghost?
Just residual consciousness!
This is absolutely impossible!
This is not a solution at all!
"I can't use this method! I want to keep my daughter's body and consciousness alive!"
Levi Garrison bowed to the crowd and said, "But thank you all! I, Levi Garrison, owe you a favor! If you
need a word, I will help!"
"It doesn't matter! Let's study it again, and you will find other ways by yourself!"
Everyone didn't worry about Levi Garrison's promise.
The Return of the God of War [The Protector] Chapter 3035
It's not the promise of the "gods" of the world.
What is the use?
Everyone takes it seriously.
Levi Garrison could only continue to look for it.
Somewhere in the war eagle country.
The head of the game Smith and senior Nelson gathered together.
"The poison in Levi Garrison's daughter is unheard of! Just now the divine envoy sent a message saying
that they are interested in this poison! Let's send the sample over!" Nelson said.
The head of the game, Smith, nodded repeatedly: "Okay, I'll post the sample soon!"
Smith smiled: "Levi Garrison's daughter's luck is really good! Even they are interested! Maybe this
poison can really be solved."
…
Obviously, these two are talking about the forces behind the War Eagle Nation.
Now I am interested in the poison in Levilia.
But Levi Garrison didn't know all of this.
now.
He gathered with the Dark Doctor and God's Brain.
Levi Garrison continues to refine the previous ideas.
If you are poisoned…
Levi Garrison asked Dr. Dark, "What if I got this kind of poison myself?"
The Dark Doctor checked Levi Garrison's body and swallowed fiercely: "With your strength, this poison

really seems unable to do anything to you… It can't even invade your body! Your body is full of steel and
iron. Bone, toxins cannot harm…"
This is definitely the most perfect body he has ever seen.
There is no one.
How could a pure human body be so strong?
And he knew this was just the tip of the iceberg.
Levi Garrison was like a round of sun before his eyes, making him unable to look directly.
you could put it that way.
This poison can hurt everyone.
It really doesn't necessarily hurt Levi Garrison.
too strong!
After hearing this, Levi Garrison said: "So I have an idea-let Levilia become stronger by himself, and try
to see if this poison will be removed.
Because I asked Levilia to use the exercise technique to absorb Reiki before. As long as I don't take the
initiative to remove the poison, it is safe to simply absorb Reiki.
That is to say, it is possible for you to become stronger and coexist with poison! "
Doctor Dark understood what Levi Garrison meant: "I understand what you mean—make Levilia strong
to a certain level! There is no other way for the poison."
"But… have you ever thought about it? In a short time, there is a problem with Levilia's absorption of
aura. But once it becomes stronger, it stimulates toxins? In other words, the aura absorbed by Levilia
can not be used by himself, but becomes the nutrient of poison? "
…
Doctor Dark asked a series of questions.
Levi Garrison is speechless.
He didn't know either.
The Return of the God of War [The Protector] Chapter 3036
All tried!
I think it's a little feasible, so I want to try it.
But Doctor Dark said so.
He was scared.
If there is a situation that stimulates Levilia again, he can't control it.
It would be dangerous.
So I still can't try.
There must be a sure way to try it.

“Then what should I do now? Have to keep looking?”
Doctor Dark asked.
“Let’s find it! After the great changes in the world’s environment this time, I think many strange people
and strangers who have hidden deep enough have appeared one after another…”
Said the brain of God.
The Dark Doctor immediately echoed: “Yes, the power that specializes in ancient monks is also
appearing on this kind of bones. Presumably there will be many powers appearing. We can look for it!”
“Okay, let’s find it! I can stabilize your situation for the time being!”
“By the way, that ancient power still has to find! I have to ask them one by one, what if there is a clue?
Can’t give up any opportunities!”
After Levi Garrison planned to cure the monarch, he would find this ancient power and kill them one by
one.
It now appears that this group of people may be useful.
Still catch it back first.
“Then God’s Brain, you start looking for the whereabouts of these guys, I will accompany Mr. Ye to
continue to find a way!”
Doctor Dark ordered.
immediately.
Doctor Dark accompanied Levi Garrison everywhere to look for it.
The first stop is the Lynx Kingdom near the War Eagle Kingdom.
But when the two arrived in the country of lynx, they were surrounded by others.
It seems that they have prepared well in advance.
The mountains and plains are full of strong men who have been radiated by aura.
Although there is no appearance of “God” level.
But Doctor Dark just glanced at it and felt horror.
Since Levilia’s accident, although he has understood the changes in the world today.
But these times, they are all in Daxia and War Eagle Nation.
There are only two places that escaped this day’s great opportunity.
Therefore, there has not been a strong person who has been radiated by aura.
This is the first time.
He saw it really.

He is quite confident of his own strength.
After all, before he and Levi Garrison fought, they could both carry it for a while.
When dealing with that ancient power earlier, he used special methods to improve his strength, and
forced the ancient power to be helpless, and only then gave Levilia the poison.
But now he was dumbfounded when he saw the strong man who had been radiated by the spiritual
energy.
His own strength is not worth mentioning at all.
too strong.
One by one aura burst!
He could barely be considered medium.
The Return of the God of War [The Protector] Chapter 3037
These people are so strong.
So what are the gods like?
How strong is it?
The Dark Doctor immediately understood why everyone said they were going to ask the gods to take
action.
*This is the f*cking god!*
He also really felt that the world had changed into this way in a short period of time.
so horrible!
This is only the lynx country.
It is said that the gods have several small powers.
Ranked low in the world!
What would it look like if it were a powerful country like the War Bear Kingdom?
It is said that there are so many gods…
However, Doctor Dark had no time to think about other things. He looked at the powerful people
around him and asked directly: "What are you going to do?"
The first instinct told him that this group of people were not kind.
If it's not against yourself, then it's against Levi Garrison.
A big battle seems inevitable.
He can't do it himself.
Hope can only be placed on Levi Garrison.
Levi Garrison never treated gods as the same thing.
He hopes that the real situation is the same-Levi Garrison has this capital.
Levi Garrison also felt strange.

I don't know what to do.
Just brought Levilia to find a way to detoxify.
No one knew that as soon as he entered the lynx country, he was surrounded by layers.
Levi Garrison glanced around the audience: "My daughter is poisoned, and I am in a particularly bad
mood. Get out of the way within three seconds, otherwise I will kill!"
In the past, Levi Garrison still gave way, but now he is extremely upset because of Levilia.
Just one point.
Who blocks and kills who!
"Ha ha ha ha……"
As a result, Levi Garrison's words drew everyone's laughter.
No one would think that Levi Garrison could kill in this realm.
Even said that any one of them can hang Levi Garrison.
This tremendous change of heaven and earth, after everyone has gotten their adventures, is actually
marked by them.
That is the aura around.
It's just a simple question.
The aura of the average person is looming, or relatively shallow.
The strong one is the strong spiritual energy.
Everyone can sense each other.
But Levi Garrison was still Doctor Dark, and they couldn't feel it.
On the contrary, there is a looming aura in Levilia's body.
After all, not long ago, Levilia used his exercises to absorb spiritual energy.
therefore.
It was easy for them to determine that Levi Garrison had not been radiated by aura.
Just like that, dare to speak big words and kill them?
Are you talking nonsense?
"I want to see who is going to kill?"
A cold voice came.
Several figures appeared.
They are stronger than those present.
It seems to be the top powerhouse in the Lynx country.
Of course there are no gods.
It is estimated that in their opinion, there is no need for a god level at all.
Can't be dispatched casually.
All the strong one step forward together.

Levi Garrison raised his fingers and began to count down: "Three, two, one…"
A big battle is on the horizon.
The Return of the God of War [The Protector] Chapter 3038
en Doctor Dark's blood was mobilized, and he was ready to fight.
In an instant, he can mobilize his strength to the point where he can fight against the strong on the
scene.
Doctor Dark has studied so many races and unknown creatures, it is very easy for him to instantly
improve combat effectiveness.
Unless it is Levi Garrison's crushing strength, no one can limit the improvement of Doctor Dark's
strength.
Levi Garrison was already angry to the extreme: "Those who stand in my way, die!!!"
At the moment when it was about to die, several high-level officials in the Lynx country actually said:
"Killing an ant, we are not interested at all. We are here to welcome the Dark Doctor!"
Everyone didn't even look at Levi Garrison.
Let alone care about his threats.
This made Levi Garrison a little confused.
Didn't come for yourself?
For the dark doctor?
Is the Doctor of Darkness still valuable?
I saw several senior executives directly passing by Levi Garrison.
The same is true for everyone else.
Everyone ignored Levi Garrison.
Everyone's eyes fell on Doctor Dark.
I saw everyone saluting the Doctor Dark: "All the lynx country welcomes the black angel! The lynx
country will receive the black angel with the highest courtesy!"
An executive next to him also added: "In Lynx Country, you can make any request! It's any request!"
This time, not only Levi Garrison was dumbfounded.
Even Doctor Dark himself was dumbfounded.
Black angel?
what happened?
It turns out that after this resurrection of spiritual energy, all countries have had great opportunities and
produced many gods.

Therefore, powerful forces such as the Zhanxiong Kingdom proposed to enshrine the creators of Reiki
Rejuvenation-Doctor Dark and the Brain of God, and build various sculptures for them.
The two are even more known as light angels and black angels!
This angel is still different from the angel in the western definition.
It means the messenger sent from heaven to tear up the darkness and bring light to the world!
It's exactly the same as the process of Reiki recovery!
The parties have promised to make them the guests of all major powers!
In this way, thank them for their outstanding contribution to the rejuvenation of Reiki!
It is true.
If they hadn't pierced the super spiritual veins, where would there be such a thing as aura recovery?
They are the root of this world's rebirth!
In fact, this resolution has just come out.
Except for the Daxia Alliance faction and the Galactic Guardian Alliance, all the other national forces that
got the adventure in the aura recovery agreed.
The Dark Doctor and God's Brain are the reproductive parents of the world.
They must be provided for.
Whoever wants to deal with them is an enemy of the whole world.
The Lynx country just got the message, the Dark Doctor is coming, and he will greet him immediately.
Or the power of the whole country, the highest etiquette!
"Black Angel, please forgive me! The gods of the Lynx country cannot personally greet you! After all,
now the gods are the greatest secret of every country's power!"
The Return of the God of War [The Protector] Chapter 3039
"But in private, the gods of my lynx country will see you one by one, and they will also thank you in
person!"
…
After some explanation.
Levi Garrison and Doctor Dark already understood what was going on.
Doctor Dark is glad to have escaped a great war.
After all, I don't know who wins and who loses.
No thought of being revered as a "black angel".
This is also a good thing.
He glanced at Levi Garrison.

With this identity, it seems that it will be much easier to do things next.
At least find a cure for Levilia.
Doctor Dark looked at everyone in the Lynx country and asked, "I can see the gods later?"
"Of course! They want to thank you!"
The others answered.
Doctor Dark was overjoyed: "Then can I ask them to do something?"
Everyone was stunned: "Black Angel, your business is everyone's business! How can I ask for it?"
"Well, take me to meet your gods!"
Doctor Dark is not talking nonsense, he just wants to treat Levilia.What else did Levi Garrison want to
say.
But finally held back.
Let's go and take a look.
What if there is a way?
The method here does not refer to the use of spiritual energy by the gods, but to use other methods.
The gods use aura means, it is definitely not effective.
The Dark Doctor did not place all hope on the gods, and began to inquire about strange people and
strangers with the senior officials of the Lynx Kingdom.
They all agreed to Doctor Dark's request, and immediately summoned strangers and strangers across
the country.
Shortly after.
Levi Garrison and his party were greeted to the secret station of Lynx Country.
The purpose is to isolate the situation from the outside world.
Now countries are afraid to announce the number and specific candidates of the gods.
Thinking of hiding one hand.
Of course, except for forces such as the War Bear Kingdom, which has a huge number of gods.
There are so many people, there is no need to hide it.
Only when the number of gods is not large, or the power of a country in a medium number will be
hidden.
This is beneficial to the future situation.
Otherwise, if you don't have many gods, it will be the flesh of people's lips.
So hide as much as possible.

After arriving at the secret base.
Levi Garrison was also blocked.
Obviously, Lynx will only announce the number of gods to Doctor Dark.
Naturally, Levi Garrison won't let Levi Garrison know.
Levi Garrison didn't say anything, just waiting.
Soon after, a number of gods appeared.
Salute and thank Dr. Dark.
The Return of the God of War [The Protector] Chapter 3040
Seven gods appeared on the bright surface.
But Doctor Dark himself understood that the Lynx country was still hiding in private.
Although the whole world regards him as a "black angel", treat him with the highest courtesy.
But it's still private.
But it is estimated that a few gods remained.
Probably the data can still be guessed.
The Dark Doctor didn't talk nonsense.
Quickly let these seven gods examine the situation of Levilia's poisoning.
Levi Garrison was still blocked outside, only Levilia was put in.
But Levi Garrison didn't care, the encrypted wall in front of him couldn't stop him.
For him, there is no difference from being transparent.
He still saw it clearly.
How could he hand over Levilia to others easily.
Only Levilia is in danger.
He would rush in and stop immediately.
The seven gods used the same methods as Levi Garrison's words to examine with powerful auras.
That is, the divine power of the gods said by the people.
The supernatural power that can solve everything.
However, after examining Levilia's situation in detail, everyone's expressions changed drastically.
This poison is too domineering.
Their aura cannot be removed at all.
Even if it is serious, they themselves will be infected with this poison.
If you get a little bit of it, they will also be scrapped.
There is no way to stop it.
"What? This poison doesn't even work with the power of the gods?"
The Dark Doctor was surprised.
But everyone in Lynx Country became more and more surprised.
In their eyes, the gods are omnipotent gods.
Can be created, can be destroyed.

Not to mention detoxification.
Isn't that easy?
Soon, one of the strongest gods said: "This poison is so strong that it is beyond our scope! I can say that,
but if the gods use their powers, they cannot be solved. After all, no matter how the gods change, the
essence is the same. Radiated by Reiki. Reiki does not work on it."
Doctor Dark understood what he meant, and immediately asked, "That is to say, this poison god has no
way to deal with it?"
"You can say that! But we also need to rule out some anti-existence, but it is almost impossible! You can
only try your luck!"
After listening, Doctor Dark was lifeless.
Levi Garrison had a calm expression on his face.
He was just trying his luck.
Knowing it was impossible already.
And all the gods can't do it.
As long as the "god" method is used, it is absolutely impossible.
Subsequently, strangers and strangers from the Bobcat country came one after another.
Start checking one by one.
But the result is the same-there is no way.
The Return of the God of War [The Protector] Chapter 3041
Levi Garrison can only hug Levilia back.
If you want to be cured, you have to go to great powers.At first, didn't everyone in the Lynx country
think it was just a poison?
How awesome is it!
The gods can take it casually.
But now everyone finally knows how terrifying this poison is.
Even the gods are helpless.
Levi Garrison's daughter could only wait to die.
"Mr. Ye, don't worry, the Bobcat country will not work, there will be other places! We searched all over
the world, and I won't believe it!"
"And there is a reason you have to understand. According to a conclusion I have drawn from my
research, everything in nature is in order, and substances are mutually reinforcing and restraining each
other!

For example, when a poison appears, there must be an antidote to restrain it! Isn't it just eighty-seven
poisons? Can we find out 87 kinds of antidote to restraint? I'm already analyzing these 87 poisons, and
finding the antidote is just around the corner!
During this period, you just need to stabilize your situation! "
Doctor Dark said excitedly.
Although he knew that Doctor Dark was comforting himself, he sounded his breath.
And the theory is right!
If there is a poison, there is an antidote.
Although that ancient force can only research poisons, but cannot develop poisons.
But hearing what Doctor Dark said, Levi Garrison believed that there must be a super power to detoxify!
Even if it can't be solved once.
Regional detoxification is also possible.
A kind of poisonous solution!
Nothing is unachievable.
For her daughter, Levi Garrison can do anything.
What's more, he is so powerful now!
There must be a way!
Levilia also nodded at Levi Garrison: "Dad, I believe you can do it!"
Subsequently, Levi Garrison and Doctor Dark left from the Lynx country.
Continue to "try your luck"!
Look for some holy medicine or strange people and so on!
Just left the lynx country.
Levi Garrison received a message from God's brain.
He found out the whereabouts of the ancient forces that poisoned Levilia…
"What? They took refuge in the War Bear Country? And they were treated as guests?"
When Doctor Dark saw the message, he was shocked.
"That's right! This ancient force has been studying ancient monks, even this kind of poison can be
studied. There must be many secrets and skills! Even if the environment suddenly changes like this, no
one will refuse! Even the war of the bear country!"
The Dark Doctor was relieved.
Levi Garrison looked indifferent.
The Dark Doctor continued: "This ancient force was directly canonized by the War Bear Nation as the
Holy See! Has the qualifications of the gods to protect the country?"

“That is to say, whoever dares to move them is an enemy of Zhanxiong Country!”
Doctor Dark’s face changed drastically.
The tone also became serious: “In this case, as long as they don’t leave the War Bear Nation and always
accept the asylum of the War Bear Nation, won’t we be unable to avenge?”
“Don’t worry, no matter who it is? No one can protect them in this world!”
Levi Garrison said lightly.
He might not dare to say this before.
Some people should also be feared.
But now he doesn’t need to be afraid of anyone at all.
Whoever dares to shelter them, Levi Garrison will kill them!
The Return of the God of War [The Protector] Chapter 3042
See who can protect it? ? ?
The Dark Doctor continued: “But, the War Bear Nation is different…it is the largest power today! They
are collectively facing this resurrection of spiritual energy! Therefore, they have the most number of
gods, and the overall master is the most powerful!”
“For example, there were only ten gods in the Lynx country just now, and it is already so terrifying! You
know that there are thousands of gods in the Zhanxiong Nation, who can be the opponent?”
It’s not that Doctor Dark doesn’t believe in Levi Garrison.
It is really too powerful for the war bear country.
He also sneered at the gods before.
But after seeing the power of the gods in the lynx country.
Only then did he know that thousands of gods in Zhanxiong Nation meant gods…
That can’t be challenged by one person!
“Wait! One day, I will kill everyone!”Levi Garrison’s icy voice sounded.
He didn’t put the War Bear Kingdom in his eyes at all!
Whoever dared to shield this ancient power in this world, Levi Garrison would kill anyone.
There are many gods in the war bear country?
Then kill as many as you want!
That force dared to pretend to be forceful with him, then Levi Garrison killed all the gods of that force!
The Dark Doctor asked: “Then what should we do now? Let’s go directly to the War Bear Country?”

In this regard, he is not very worried.
Self and the brain of God are now revered as distinguished guests.
Especially this was the first one proposed by the War Bear Nation.
If they talk to Zhan Xiong Nation, maybe Zhan Xiong Nation will release some people to Levi Garrison.
Even if Levi Garrison got into trouble, they were able to deal with it.
This is the benefit of being regarded as a black angel.
Therefore, Doctor Dark asked Levi Garrison, even if he went to fight the bear country.
You can also follow along.
Levi Garrison looked at Doctor Dark and asked, "How sure do you think they are?"
Doctor Dark thought for a while, and replied earnestly: "I'm not sure, I won't have anything! They have
no solution to this poison!"
Levi Garrison sighed: "Then it doesn't make much sense to find them, it can even be said to be futile!"
"Yes, to find them is to ask about the specific conditions of the 87 poisons!"
Doctor Dark looked at God's brain, and said, "Let's go to the country of the bear! With your own
identity, be sure to get the details of these 87 poisons back! If you have other relevant information, you
can also Take back!
Do not worry! You are now honored as an angel of light! Discuss with Zhanxiong Nation, there should be
no problems! "
The brain of God glanced at Levi Garrison and said, "Don't worry, Mr. Ye, I must bring good news!"
"In addition, I have searched for detoxification masters and panacea all over the world! As soon as I
have a message, I will notify you immediately!"
"Okay, thank you very much, I, Levi Garrison, owe you a favor!"
Levi Garrison nodded.
The brain of God then left quickly and headed to the War Bear Country.
the other side.
War bear country.
Siberian city.
It used to be almost the most difficult area in the War Bear Country.
Covered by ice and snow all the year round, the environment is harsh to the extreme, and resources are
scarce, making it difficult to survive.

Therefore, the war bear country has a terrible punishment-as long as it is a major mistake, it will be
exiled to the Siberian ice sheet, and it will not be taken a step for life.
The Siberian Ice Field has always been a nightmare for everyone in the War Bear Kingdom.
No one wants to come to this place.
But who would have thought that the environment in this place would change drastically in a short
period of time.
It has changed from the worst environment to an oasis.
Abundant resources, weird flowers and plants are everywhere.
It has also become the most aura in the territory of the war bear country.
It is now the number one holy land in the real battle against the bear country!
No one came here before.
But now, one by one is rushing to come here.
Siberia became the place with the largest number of war bearers.
Many people come here to learn spiritual energy for the next step of cultivation.
After the ancient force studying the ancient monks took refuge in the War Eagle Nation.
It was arranged in the Siberian ice field.
The Return of the God of War [The Protector] Chapter 3043
now.
Several members of this ancient force are gathering with the Titan War God and others.
The Titan God of War is already a god level.
And compared to the general gods, the Titan War God is much stronger.
After all, he is already very strong, and he knows all kinds of exercises and tactics.
After being radiated by aura, the use of aura is naturally much stronger than other gods.
"Even though we are here, we are still afraid! We have offended Levi Garrison, and he will definitely try
to kill us!"
Several people from the ancient forces are very worried.
In a disguised form, they are putting pressure on the War Bear Nation.
"Kill you? It's ridiculous! In the War Bear Country, on the Siberian Icefield! As long as I am here, no one
dares to move you!"
The Titan War God continued: "The land under your feet is now the undisputed strongest! The number

of gods we have is horrible! Thousands? That's just random rumors from the outside world! That's the
tip of the iceberg!"
"hiss!"
Everyone breathed a sigh of relief.
This is simply terrible.
One thousand gods is already terrifying to the extreme!
No. 1 in the world today.
There are also a dozen gods in the Lynx Country, all of which are so arrogant.
Thousands of gods don't walk sideways?
Now it is heard that the number of thousands of gods is just the tip of the iceberg.
How not to shock?
The number of true gods?
several thousand?
Thousands?
Everyone dare not think about it anymore!
This is also the fortitude of this country!
When everyone was avoiding disaster.
They went into battle shirtless, and greeted the "catastrophe" with their bare hands.
The people of this country also received the radiation baptism of the spiritual energy to the maximum.
Only then will there be the most powerful men and gods in the world!
The most and strongest are in the War Bear Country!
The Titan God of War was very satisfied with everyone's response.
What is needed is this effect.
"I put my words here! As long as you Hydra are on this land! I can protect you! Whoever dares to move
you is against the Zhanxiong Kingdom! There are countless gods behind you who are supporting you!"
"Here, no one in this world can kill you alone! Can't touch one of your hairs! I said it!"
"What's more, there are twenty gods to protect you at once! Who dares to move?"
The Titan War God shouted.
It's not that he is arrogant.
You really have this qualification!
And he almost knows how many gods there are in the War Bear Kingdom…
Who can move them?

Isn't one by one looking for death?
Thousands of gods!
Who dares to do it here!
What's more, a full twenty gods were sent to protect them.
Who can bear this? ? ?
The Hydra nodded: "Then we can rest assured, An Anxin will do things for you!"
This ancient force was originally called "Hydra."
It has existed for a long, long time.
Collected a group of evil dark people.
The Return of the God of War [The Protector] Chapter 3044
They will compare it to the nine-headed monster Hydra in Greek mythology!
The characteristic of this monster is that one head is cut off and two heads grow out of the original
place, meaning that it will never die.
From ancient times to the present, they have studied ancient monks, poisons, and so on.
Therefore their value is very high.
Otherwise, Zhanxiong Nation would not value them so much, let alone send twenty gods at once to
protect them.
"Furthermore, what is Levi Garrison using to kill you now? Daxia is already like a city! Many gods have
been discussing how to divide Daxia and go to Daxia to occupy their own resources and slaves!"
The Titan War God sneered.
Everyone in Hydra also laughed: "Yes! Levi Garrison can't come to kill us anyway!"
"He can only accompany her daughter to death! I don't know what happened to her daughter. She was
poisoned with the strongest poison and could live so long. It is a miracle!"
"Hahaha, I hope her daughter has become the strongest poison because of the poison, let me see it
with my own eyes!"
"At present, it is possible! Hahahaha…"
…
A crowd of people gave out perverted smiles to the extreme.
Almost everyone thought it was impossible for Levi Garrison to come and kill them.
I don't have this strength either.

They are the most terrifying backer on the most powerful land in the world.
Who dares to kill them?
Therefore, the Hydra is infinitely rampant and proactively releases a message-the entire Hydra
organization is fighting the bear country, and others are welcome to ask for trouble.
They don't hide and tuck.
Direct exposure of identity and whereabouts.
Wait for the enemy to come.
After all, Hydra has existed for so many years.
There have been many enemies all over the world.Levi Garrison is just one of them.
They have no less enemies than Levi Garrison.
They would hide in hiding before.
Now the location and whereabouts are directly exposed in a swaggering manner.
Just waiting for the enemy to retaliate!
When many of their opponents heard about this, they immediately wanted to act, and their teeth
tickled with hatred.
But after knowing that it was the kingdom of the war bear, instantly he became lifeless, and there was
no movement.
That's the War Bear Country!
Who dares to take revenge somewhere!
Especially Hydra is a guest of War Bear Nation!
The Titan War God directly released words to appoint the surname to be protected.
This way everyone is even more afraid.
Can only watch.
Of course most people are like this.
There are also a small group of people who hate Hydra.
They have been looking for their whereabouts all the time.
Now that I heard about their position, I would take a risk no matter how precarious it is.
After all, hatred is greater than life and death.
Even if you die, everyone has to take revenge!
It's just that I didn't have any information about them before.
The other side.
Levi Garrison and Doctor Dark have left the country of Bobcats.
Enter a deep forest.

The Dark Doctor also just received information about Hydra's initiative to expose its position and release
a message.
After much consideration, Doctor Dark still told Levi Garrison about the matter.
"Hahaha……"
Levi Garrison laughed suddenly.
"This is demonstrating to me! Good! Very good! I am more determined to kill you! When your situation
improves, I will personally go to Zhanxiong Country to kill you!"
The Return of the God of War [The Protector] Chapter 3045
Levi Garrison's tone was cold, as if a sharp sword was being shuttled.
"Let's keep going, I know there is a place, maybe I can try it!"
Levi Garrison didn't take this matter to heart anymore.
In any case, the lives of all Hydra are theirs.
Let them live a little longer!
After the two traveled for a while.
At this time, Doctor Dark said suddenly: "Mr. Ye, I have a chance to try. I can try it."
Levi Garrison became curious, looked at him and asked, "What can I do?"
"I also just heard about it! This time the environment has changed drastically, everything is baptized by
aura radiation! In this way, many places have grown out of aura because of the breeding of aura! The
more aura, the harsher the environment. , There will be more powerful treasures!"
Doctor Dark explained.
Levi Garrison nodded: "This is true!"
Although he didn't see it with his own eyes.
But I know that there are many treasures of heaven and earth where the super spiritual veins erupted
under the Antarctic glaciers.
Dr. Dark continued: "Above is a place with a very harsh environment, full of aura, which is more than
three times the general average level of the Lynx country! But it is also full of risks! It is listed as a
forbidden place by the Lynx country and the three surrounding countries! Inside! There are terrifying
beasts, and it may be necessary for the gods to take action!"
Levi Garrison asked, "Do you mean that there might be treasures of heaven and earth in it?"

“Anyway, just give it a try! What if…”
Said Doctor Dark.
“Okay, let’s try it out then!”
Levi Garrison approached the road.
The Dark Doctor revealed a hint of hesitation: “Don’t worry! I am not bad! The big deal is at the critical
moment, I ask the gods of the Lynx Kingdom for help!”
In this way, the two entered this deep forest.
Quiet!
Surprisingly quiet!
Logically speaking, this environment should nourish a lot of birds and beasts.
It should be very hot in the deep forest.
However, the reality is quiet.
It’s so quiet as if there is nothing in it!
“It’s kind of weird!”
Doctor Dark is also trying hard to feel everything.
Levi Garrison smiled: “What’s weird! It’s all in front!”
Doctor Dark was puzzled: “Huh? All in front?”
“Well, you’ll know when you get there!”
Levi Garrison and they continued to move forward.As expected, Doctor Dark heard the movement.
It was the sound of fierce fighting.
The battle atmosphere in front of him soared into the sky, and the terrible spiritual energy fluctuations
rushed out.
Such a shocking battle, it is estimated that other creatures in the deep forest have avoided far away.
Where would you dare to come out?
Far away Levi Garrison and Doctor Dark have seen that there are about a hundred young strong men
besieging three mutant wild wolves.
These three wild wolves mutated into powerful beasts after being radiated by spiritual energy.
Very powerful.
But at this moment, the three wild wolves are being besieged by hundreds of young powerful men.
They were so scarred and bleeding all over their bodies that they were dying.
And these young powerhouses gave out arrogant smiles.
Excited for their strong strength.
It will succeed soon.

Kill these three ferocious wild wolves!
After Levi Garrison saw it, his face changed slightly.
Seems to be wondering what they are doing?
Seeing Levi Garrison's doubts, Doctor Dark couldn't help explaining:
"This kind of beast is nourished by
the heavens and the earth, unlike humans! This time the spiritual energy radiation, they are more
receptive and more likely to become a powerful existence!"
The Return of the God of War [The Protector] Chapter 3046
"Therefore, there are treasures everywhere on them! Blood, animal skins, and animal horns are
treasures of heaven and earth. The animal skins and animal horns have been baptized by aura radiation
and become extremely tough. Blood becomes a panacea, which can enhance physical fitness. , Powerful
strength.
I heard that many forces have entered the forbidden areas to hunt down such fierce beasts! Get what's
on them. "
"Like their blood contains concentrated aura, it is easier for people to increase their strength! Their
animal skins can be made into armor, which is better than the mechanical armor of the war eagle
country. As for the animal horns, these can be made into weapons, and they are all indestructible! "
"So these fierce beasts are now hunted by many forces! Of course, they are limited to weaker beasts!
Now many beasts have mutated into existences comparable to gods, or even stronger! Human beings
have counted the strong gods, but these fierce beasts The beast still doesn't know it!"
Wrong.
When the world's environment has changed drastically, everyone has gained superpowers.
*But everyone's ** is endless.*
Where can these be satisfied just now?
I am afraid that I am a strong man, and I want to become a "god"!
The only way to become is to continuously strengthen oneself and absorb more aura.
But there are many shortcuts.
For example, hunting and killing fierce beasts, looking for some natural treasures.

therefore.
Many forces have sent young powerful men to hunt down the beasts and obtain more resources.
These young people in front of them are the potential powerhouses of the neighboring Julu country.
Soon, these people discovered Levi Garrison's trio.
They immediately became vigilant.
At least thirty people locked in Levi Garrison's three.
They subconsciously took Levi Garrison and the others as enemies who came to snatch the fierce beast
with them.
These three mutant wild wolves were shot down by them, and they are about to die.
Someone is here at this time, isn't it to grab the ready-made ones?
They will definitely not agree!
"These three wild wolves were shot down by us, you guys get out of here!"
"Dare to have other ideas, kill you!!!"
…
The crowd threatened.
If it weren't for the fear of the wild wolf running, the three of them would have already done it.
Levi Garrison ignored them.
Go straight away from them.
They are not interested in these three wild wolves…
This is far from the fierce beast that Levi Garrison killed when he first came out.
Levi Garrison and the three passed by.
This group of young strong men sneered: "It seems that they are not receiving the baptism of spiritual
energy, but I am interested in them!"
After all, everyone can have aura lingering, even if it is strong or weak.
Levi Garrison and Doctor Dark are not there.
That shows that they have not suffered spiritual baptism.
I don't know how far I have gone.
The three of Levi Garrison came to a cliff.
"Look there!"
Doctor Dark exclaimed.It turned out that there was a golden plant growing on the cliff 1000 meters high
in front, exuding strong spiritual fluctuations, accompanied by bursts of medicinal fragrance.
This is much stronger than the medicinal materials before the environmental change.

This is a treasure of heaven and earth born after the rejuvenation of spiritual energy, but it is too strong.
Even the gods who have been baptized by the aura radiation to the maximum can still be used.
Not to mention some ordinary powerhouses.
If you see this, you have to grab it like crazy.
…
In the rear, a group of young powerhouses from Julu Country finally killed the three wild wolves.
Quickly divided everything about the three wild wolves.
After everyone got the benefits, their faces were full of excitement.
Suddenly one of them, Ceauza, was the son of the gods of the Julu Kingdom.
Now he has a lofty identity in Julu country.
Known as the Son of God.
The Return of the God of War [The Protector] Chapter 3047
In addition, his own strength is also top-notch, and he is optimistic about the whole country of Lulu.
He just killed the three mutant wild wolves, he was the most credited.
Cioza looked at the place where Levi Garrison and the others went deep.
There was a trace of jealousy on his face, and a trace of curiosity.
"Why don't we follow up and have a look?"
Ceauza suggested.
"God son must not! There is a bobcat ahead, and the four kingdoms of Lulu are also listed as forbidden
places. The danger inside is unknown! People who are not gods cannot enter…"
Someone immediately said.
Now the major forces of various countries have listed many places as restricted areas.
As long as there is no place to be explored by the gods, it is a forbidden zone in the forbidden zone.
It is absolutely inaccessible to other people.
The place where Ceauza and the others are now is the place that the gods have explored.
Although there are still many dangers, Cioza and the others can barely deal with it, and they won't die as
soon as they enter.
But the place where the three of Levi Garrison had just disappeared was the restricted area in the
restricted area.
It is a place not explored by the gods, and there is an unknown danger.

And listed as a three-level forbidden area.
The third-level forbidden land means that there may be a god-level beast!
Julu Nation is determined not to let the star of hope like Ceauza go to such a three-level forbidden land.
If you die in distress, wouldn't it be a loss.
So even if everyone knows that there are many opportunities in the third-level forbidden area, no one
dares to go.
Ceauza also knew the dangers of the third-level forbidden area.
But now he has an idea.
They entered because of Levi Garrison.
If there is any risk, they must have assumed it in the first place.
They only need to act by ear, and if things are not right, get out immediately.
This is to take Levi Garrison and the others to test taking and even avoiding risks.
Levi Garrison and the others went deep, and there was no danger, and a group of Cioza chased them to
pick up the ready-made ones.
If there is a danger, they leave immediately, and then Levi Garrison and the three will stand in the
danger for them.
After Ceauza told everyone about this idea, everyone was tempted.
If it's just oneself and a group of people going deep, definitely not.
But now there is cannon fodder in front, you can give it a try.
"Then let's try it!"
"Remember, there will be danger when the time comes! Everyone protects the son of God and leaves
first, do you know?"
Several older people exhorted.
The others nodded.
The life of the Son of God is more important than anyone else.
After all, in everyone's eyes, gods are true gods.
Their offspring are different from ordinary people.
It must be guarded.
"Well, let's follow right away!"
Cioza's group followed up with their heels.
After going deep into the third-level forbidden ground, Ceauza and his party became vigilant.
After all, this is a three-level forbidden area, everyone should be afraid.
"Quiet? Too quiet? Why can't you see a beast?"
Everyone was surprised.

There were no beasts in the area where they were active in front, because they were all killed, or they
all ran away.
But the situation is different now.
This place is so weird.The person on the side said: "Two situations!"
"First, there are fierce beasts that are comparable to human gods in the third-level forbidden area.
Other weaker beasts cannot have room for survival, and they all ran away."
"Second, that is that there are no powerful beasts and dangers in this place! The assessment of this
place by the major countries is wrong, this is not a forbidden area! It will not be a third-level forbidden
area!"
"Yes, that's probably the case! Let's try it now and we'll know!"
Everyone nodded.
Ceauza nodded: "It's also normal! After all, the unknown doesn't necessarily exist! Let's be careful! Of
course it's the best thing!"
...
Everyone proceeded cautiously, ready to evacuate at any time.
But along the way.
They really didn't encounter any danger.
Quiet is really quiet.
The fierce beast comparable to the gods really does not exist.
Not only there are no fierce beasts of this level, but there are also no other beasts.
Everyone also gradually relaxed.
Follow the map to see.
They have almost finished stepping on the three-level forbidden ground.
There are also no powerful beasts and unknown dangers.
Then this place is evaluated incorrectly.
It's not dangerous at all.
"It seems that we are betting right! This place is evaluated incorrectly!
Next, we will carefully look for
the treasures of heaven, material and earth!"
"Go back and let my father know that these three-level forbidden grounds are attacked by us, and he
will definitely be proud of us!"
Ceauza laughed.
Others are also full of excitement.

Going back and bragging about it, they are free to come and go in the third-level forbidden area, what
glory is that?
It would be even more powerful if one could unearth any natural treasures in this place.
Become the existence that thousands of people admire!
Everyone is looking forward to the situation ahead.
But how do they know the reason why this place is so quiet.
That's all Levi Garrison!
Levi Garrison walked all the way, the aura on his body could not converge.
In particular, the residual breath of the python that had killed and killed the adult dragon was still there.
People may not be aware of this breath.
But those fierce beasts are extremely sensitive to this.
When Levi Garrison appeared, all the beasts also smelled the breath.
Knowing as their natural enemy is coming.
One by one either ran away or hid.
And this place is listed as a third-level forbidden land because there may be beasts comparable to the
gods.
They really predicted it right.
There is indeed a god-level beast in this place!
However, after knowing that Levi Garrison was here, he hurriedly hid in the old lair.
She was trembling now, praying not to be caught by Levi Garrison.
Of course, when Levi Garrison came, he found it.
It's just that this guy didn't come to trouble himself.
Levi Garrison didn't bother to kill it either!
Not necessary.
There is no difference between killing it and cutting down a tree for Levi Garrison.
Why bother?
It's just that they don't know the reason.
I really thought this place was safe, there were no fierce beasts, and even god-level fierce beasts.
They proceeded with confidence.
A group of Ceauza followed closely in the footsteps of Levi Garrison's trio.
They are also about to come to the cliff.
now.
Facing the golden plant on the cliff.

The Dark Doctor has shown joy.
The medicine is so powerful, it might be helpful to Levilia.
And he was basically certain that the plant was useful.
It shouldn't be a problem to suppress a toxin in Levilia's body.
Levi Garrison was also watching.
The Return of the God of War [The Protector] Chapter 3048
He can't say whether it is useful for Levilia specifically?
Anyway, this golden plant is really potent!
Just give it a try!
The Dark Doctor said to Levi Garrison, "Mr. Ye, I'll go take it off, right?"
"good!"
Levi Garrison nodded.
Doctor Dark was about to get up and pick it up, when suddenly a voice came: "That thing belongs to me!
You can't move it!"
Ceauza and his party appeared, staring at the three of Levi Garrison.
Serious warning!Cioza shouted with this voice, and all the strong men around him were blocked in front
of the dark doctor.
Prevent him from jumping to the cliff to take off the golden magic drug!
Everyone is energetic and ready to take action at all times.
As long as Doctor Dark has any changes, they will immediately do it.
Cioza looked at the golden yellow plants on the cliff and sneered: "You can't pick this thing! You can
even say that you can't pick any plants or trees here!"
"Why?"
Doctor Dark asked.
Ceauza smiled: "Looking at your faces are unfamiliar, there are Eastern and Western ones. You may not
know that this is our territory, and the things here are ours. You can't pick them!"
Others echoed: "Yes, this is our place!"
The Dark Doctor was amused: "What is your place? This area does not belong to any forces! I know it
very well!"
"Fart, this place is the closest to our country of Lulu, this is our place!"
Cioza said with certainty.
"right!"
The people behind him also shouted together: "This is where we are in the Huge Deer Country!
Everyone in the Huge Deer Country can prove it!"

Ceauza smiled and looked at Doctor Dark: "That is to say, every plant and tree in this place, even a grain of dust, belongs to my great deer country! Not to mention this treasure of heaven and earth!"
"Punch!" The Dark Doctor laughed on the spot: "It's ridiculous! Do you really think I don't know anything? This place doesn't belong to any country! On the contrary, it was listed as a third-level forbidden area by the Lulu and Lynx Four Kingdoms!"
Being exposed on the spot, Ceauza's face changed in an instant.
He blushed and argued with a thick neck: "What is the third-level forbidden land? This is the place of our Huge Deer Nation! You said the third-level forbidden land, then I ask you, what is the standard for the third-level forbidden land???"
After the drastic changes in the environment, the dark doctor knows very well about some things that the world has formulated.
He smiled and said: "The standard for the third-level forbidden area is naturally that there is a mutant beast comparable to a human god-level in this area!"
Ceauza nodded: "Well, that's good. Is there a mutant beast comparable to human gods in this place? Not to mention this level, even the other beasts can't be seen! This can be a third level. Forbidden area?"
"Yeah! You said the third-level forbidden land, so where is the beast comparable to the god-level? Can you find out and see?"
"Yes, if there are fierce beasts that are comparable to the gods, we think this is a third-level forbidden land!"
…
Others also said.
At this time, they would not admit that this place was a tertiary forbidden land, but would only say that this place was the territory of the Huge Deer Kingdom.
After all, it's this kind of juncture.
How could the treasure of heaven and earth be taken away.
"Ho ho…"
Suddenly Levi Garrison laughed.

“The reason why those beasts are not here is that I was scared! Now they are hiding! And not one, but
two!”
Levi Garrison said.
Wrong.
In fact, on the edge of this place, within the scope of the next restricted area, there was also a fierce
beast that was comparable to a god-level shivering.
Actually not counted in this area.
But it was discovered by Levi Garrison a long time ago.
So he said it was two beasts…
“What? Did I hear you wrong? Was you scared? Or two beasts comparable to gods?”
“Ha ha ha ha……”
Hear what Levi Garrison said.
Everyone burst into laughter.
The Return of the God of War [The Protector] Chapter 3049
Looking at Levi Garrison, it was like watching an idiot’s brain-dead.
“Did I say that I scared away?”
*“You f*cking brag! Don’t talk about you or me, even if the god son’s father, a god-level powerhouse,*
comes, you can’t say scare away! Are you scared away?”
Everyone naturally didn’t believe what Levi Garrison said.
Even Doctor Dark is dubious.
I want to think that Levi Garrison is fooling these people.After all, it was unimaginable to scare two
fierce beasts comparable to the powerhouses of the gods.
Doctor Dark has personally seen the seven gods of Lynx Kingdom and knows how strong they are.
Under the same circumstances, the fighting power of the fierce beast may be even stronger.
Everyone in Cioza no longer paid attention to Levi Garrison.
Instead, he looked at Doctor Dark: “That is to say, there are no such powerful beasts in this place! It’s
not a three-level forbidden land, but the territory of our Huge Deer Kingdom!”
“You leave quickly! Dare to move the things here, don’t blame us for killing you!”
“Get out!”
…
Make up your mind to swallow this treasure.
Where would they let the three of Levi Garrison intervene?

“you……”
For a moment, Doctor Dark really couldn’t explain it.
So many people say it together, they really call this place their own.
He can’t even explain it!
Ceausa sneered and looked at Levi Garrison’s three people: “I’ll count three! Get out quickly! Or kill
you!”
“three……”
Ceauza was interrupted as soon as he spoke.
“Pick medicine!!!”
Levi Garrison said two words coldly.
“what?”
The Dark Doctor was taken aback and looked at Levi Garrison with a little disbelief.
Does this mean to let him take the medicine and leave?
Not only him, but everyone on the other side was stunned.
So horizontal?
Grab it directly?
Levi Garrison saw the doubts of Doctor Dark and said directly: “Whether it is theirs or not, just take it
away!”
Everyone: “…”.
This is too horizontal, right?
Grab it directly?
Whether or not they have to be taken away?
“Oh, I see!”
Said Doctor Dark.
But he subconsciously glanced at Ceauza and others.
The meaning is obvious, these people are not easy to deal with.
“Just pick it! I’ll take care of these little bastards!”
Levi Garrison said lightly.
*“Who the f*ck are you? Dare to be so arrogant?”*
A person beside Cioza had just finished speaking.
“Snapped!”
Suddenly Levi Garrison appeared in front of him, slapped his face, and this person flew out directly.
The others are stupid.
Is this person so powerful? ? ?
He doesn’t even have aura to linger!
“Snapped!”
Don’t wait for them to react.
Levi Garrison is doing it!

“Snapped!”
“Snapped!”
“Snapped!”
…
The Return of the God of War [The Protector] Chapter 3050
Slap after slap on these people’s faces.
Flying out one by one.
When facing Levi Garrison, none of their auras were used.
It is enough that Levi Garrison is faster than them.
“Uhhh!!”
Along with the screams, all the people around Cioza fell to the ground and rolled in pain.
Cioza was stunned when he looked at the people all over the floor.
Is it so vulnerable?
When my group of companions just killed three wild wolves, they were all brave and invincible.
How to meet this person is like paper.
He fell down with a slap.
“Who is going to call? Who are you going to kill?”
Levi Garrison suddenly appeared in front of him and asked coldly.
“I……”
Ceauza stubbornly didn’t know what to say.
“Snapped!”
Levi Garrison slapped his face.
Cioza was beaten directly.
“I……”
He touched his face, showing an incredible look.
“I kill you!!!”
With a loud roar, Ceauza immediately slammed Levi Garrison.
“Papa…”
But Levi Garrison moved faster, and before he shot, a slap was already slapped on his face.
Ceauza didn’t have time to react, let alone hurt Levi Garrison.
“Do you dare to smoke me? Do you know who my dad is?”
Ceauza touched his bloody face and asked incredulously.
“Who is your dad?”
Levi Garrison asked.
“My dad is the god of the Julu Kingdom! I am a god son. If you dare to hit me, you are hitting the god in
the face! You are looking for death!”
Ceauza was about to cry.
Where did you experience this humiliation as a body?

Levi Garrison sneered: "What age is it, who is my dad?"Have gone through one era after another!
The result is the same in every age!
After being beaten, he yelled who he was and who was his father and grandfather?
It has always been this set.
Levi Garrison was tired of listening.
The other people who fell on the ground also endured the pain and shouted at Levi Garrison: "You are
over! No one in this world can save you! You have beaten the son of the gods!"
"Quickly kneel down and apologize, maybe the god son can spare your life! If the gods come, there will
be no one in the sky and the ground who can save you!"
...
clamor!
It's all like this, and it's still clamoring like this?
They might even think that Levi Garrison was afraid.
"How you beat the godson just now, you have to return it. Let's smoke yourself!"
Everyone shouted.
But Levi Garrison was not accustomed to this group of people's problems at all, slapped Ceauza's face
fiercely again with a slap.
Cioza let out a miserable cry.
not only.
Ceauza also felt the aura in his body was fading quickly.
Levi Garrison slapped Ceoza's aura like a flood.
"You wait! Looking for death!!!"
Others shouted.
"A bunch of bastards, do I need to get used to you?"
Just when Levi Garrison was about to kill all these people.
The Dark Doctor just took off the golden magic medicine of Ci Ning Palace from the cliff.
He gave up.
Forgive this group of people.
"I used a special picking method to ensure that the power of the medicine is not lost!"
Doctor Dark said excitedly.
"Well, then let's leave!"
Levi Garrison couldn't wait to find a quiet place to try this magical medicine for Levilia to be effective.

“Okay, let’s leave!”
Doctor Dark nodded.
The Return of the God of War [The Protector] Chapter 3051
Just when the three of them were about to leave, Cioza and others yelled frantically: “Dare you not
leave! When my father comes, you will all die!”
“Dare you not leave?”
“Leave it all to me, wait for me, I immediately notify my father!”
…
No matter how Ciaosha and the others shouted, Levi Garrison and the others didn’t even listen.
Just left.
“Hurry up and signal for help! Hurry up! Hurry up!”
Ceauza yelled quickly.
They used a special method to directly contact Julu Country and told them the situation here.
And asked Ceauza’s father, the gods, to help.
Tell them that Levi Garrison and the three have run away.
“Bring me back, wait for me!!!”
Looking at the direction where Levi Garrison’s trio disappeared, Ceausa shouted angrily.
“Son of God don’t shout, they won’t come back! They won’t dare to come back!”
“Yeah, I really think they don’t believe you are the son of a god? They believe it! They just beat you and
can’t save the situation anymore! They can only keep on pretending, in fact, they are afraid of the gods
to die!”
“Now that the treasures of heaven, material and earth are obtained, they are afraid that the gods will
die, so naturally they are going to escape! Are they waiting for the gods to kill them?”
“Hey, damn it, let them run!”
Someone shouted angrily.
A cold light flashed in Ceauza’s eyes: “Don’t worry! The power of the gods is unimaginable! They run
away, the gods can catch up in an instant!”
“A group of ghosts who are afraid of death, really think you have the backbone and are not afraid of
gods!”
Ceauza’s eyes were full of contempt.
…

In a castle in the country of Julu.
“That’s not good! The son of God Ceauza and the others went deep into the third-level forbidden area,
and they clashed with people and were beaten, and they were also robbed of the treasures of heaven
and earth!”
As soon as the message came, everyone was shocked.
“No, why do they break into the third-level forbidden land casually? Where can there be fierce beasts
comparable to the gods!”
“Yeah, isn’t this nonsense?”
Several senior executives shouted immediately.
“No, it is said in the help information! This three-level forbidden area evaluation failed. There are no
beasts comparable to the gods in it!”The gods and the others have not encountered this danger after
entering for so long, indicating that there are really no god-level fierce beasts!”
“Yeah, if there is, the fierce beast would have come out to make trouble. Everyone knows the fierce
beasts in other forbidden areas!”
After everyone said so.
Several high-level officials in the Julu Nation stopped talking.
“But……”
What else do they want to say.
Only one voice sounded: “What’s the matter! I will save my son myself!”
“God???”
I saw a tall body appear.
It was Ceauza’s father, Vannamek, who is now a god.
As soon as the god appeared, everyone stood up, half arched.
“Three-level forbidden land, right? I’m going!”
The god Vanamaker disappeared instantly.
Everyone marveled.
The gods do not lose are gods.
The means are amazing.
Three-level restricted area.
When the three of Levi Garrison left here.
This place seems to be alive.
Everything recovers, and all the beasts wake up together.
Of course this is a breath.
And there is no specific movement.
This group of fierce beasts are very clever.

Although he felt the aura on Levi Garrison's body disappeared.
But they didn't make a sound for the time being, what if they provoke Levi Garrison back again?
Isn't that just looking for death? ? ?
So they are cautiously, confirming little by little…
Confirm that Levi Garrison has not really left.
What is exaggerated is that this three-level forbidden area has thousands of beasts besides two fierce
beasts that are comparable to the god level.
The Return of the God of War [The Protector] Chapter 3052
At this moment, all are active.
It's just that there is no movement.
But their every move was caught by Levi Garrison.
Levi Garrison deliberately exposed his breath to let the group of fierce beasts perceive it.
He has completely left this area.
They can move with confidence.
Feeling that Levi Garrison's breath has been far away.
All the fierce beasts and other unknown creatures have all begun to move.
Especially for those who come to their turf to stray wildly, they will never be merciless.
They are just afraid of Levi Garrison, not others.
Looking for treasures of heaven and earth on their territory is an act of looking for death.
Before the cliff.
Ceauza and the others were waiting anxiously.
"Why haven't the gods come yet? If they don't come, the three will run away! Can't catch up!"
Others are anxious.
At first, Ceauza was not in a hurry.
But now he is also very anxious.
In case it really escaped.
That's not easy to find…
I can only pray for my father to come early.
"Boom…"
At this time, accompanied by huge movements, a tall body descended from the sky, like a god.
The god Vanamaker is here.
Subsequently, a large number of strong men followed.
They are all loyal followers of Wanamaker.
"Father!!!"
Ceauza shouted immediately.

Everyone else crawled on the ground, shouting: "God!!!"
Vannamek ignored them, but looked around…
Then he faintly said: "It seems that the assessment is really wrong. This place really cannot be called a
third-level forbidden area! There really is not even a beast comparable to the gods! The remaining group
of beasts is too weak. You can deal with it yourself!"
Because of this time.
Although the group of fierce beasts had recovered, they were still cautious at this time, and there was
no movement.
Vanamaker, the god may feel some of the weaker beasts.
Nothing else can be felt.
Especially the fierce beasts comparable to the gods.
They happened to be afraid of Levi Garrison too, and didn't exude a trace of breath.
In this way, Vannamek still couldn't notice it.
After observing here after.
Vannamek turned his gaze to Ceauza and others: "Can't even deal with three people? A bunch of trash!"
"Father, I admit that it is indeed not their opponent! But they don't put gods in their eyes! They don't
even put you in their eyes!"
Cioza said.
"what???"
Hear here.
Vanamaker's face changed drastically: "What? Doesn't the gods pay attention?"
"That's wrong! After I mentioned you, he played more fiercely! He did it all!"
Cioza pointed to the wound on his face.
Others also pointed to their wounds.
"court death!"
"What about people?"
Wanamaker was angry.
He is a god recognized by the country of Julu, and even the whole world!
Who doesn't admire?
Is there anyone else to provoke?
Even hit his son, isn't this looking for death?
"They fled in this direction!"
Ceauza pointed to the southwest.
"I will chase them! No one can escape!"

Hear the words.
Cioza laughed at them.
Now Levi Garrison and the others couldn't escape.
Are going to die.
The Return of the God of War [The Protector] Chapter 3053
But Vannamek's face changed, and he stood in place strangely, seeming to feel the changes around him.
The bizarre move left everyone in a daze.
Especially Cioza asked: "What's wrong with father? Is there any problem?"
"Hush!!!"
Vannamek motioned for everyone to calm down.
"Aw!!!"
Just listen to the next second, a beast roar tearing the sky spread throughout this area.
The terrible sound waves hit everything.
"puff!"
"puff!"
...
Many people were directly injured by the shock.
This roar is definitely not something they can bear!
"God-level fierce beast!!!"
Vannamek's followers exclaimed.
"Yes, it's a god-level fierce beast!"
Others also said one after another.
They followed Vannamek to explore the forbidden area, knowing what the posture of the god-level
beast was.
It's exactly the same as it is now!
"There is no evaluation error! This place is a third-level forbidden area! We have encountered a godlevel
beast!"
Vannamek also said.
It is equivalent to acknowledging the existence of a god-level beast.
"what???"
Hundreds of people including Ceausa were all dumbfounded.
It turns out that there is a god-level fierce beast in this area? impossible!
If so, why didn't they meet them for so long?
What's wrong with this?
Just as there were eyebrows in their minds, one after another roars of beasts rang out.

One after another mutated fierce beasts appeared, densely packed, overwhelming the sky.
Behind it is a huge black bear that is as big as a mountain!
It's just the huge roar of the beast!
A beast of god level!
This giant black bear is too powerful.
It moves as if the Shifang Mountains are moving.
Gives people a sense of oppression.
Everyone feels that breathing is not smooth, and the body is about to explode.
The spiritual energy in the body is fluttering indiscriminately…
Terrified.
This is the first time that Ceauza and others have seen a god-level beast.
All scared.
Even the loyal followers of Vanamaker, their faces changed drastically.
God-level fierce beasts have encountered it before, and such a strong one has never encountered it.
the first time.
However, Vannamek looked calm and looked at the giant bear in front of him coldly.
He calmly said: "Don't be afraid, everyone! I'll deal with it later! You take someone and run away!"
"What? Isn't even the gods its opponent?"
The followers were surprised.
Vannamek said: "Well, that's wrong, this is the strongest beast I have ever encountered! I can't help it,
but it can't help me! The best way is to block it, you evacuate first!"
"Okay, see! Let's withdraw first!"
Knowing the strength of this giant black bear, others dare not neglect.
Ready to evacuate.
The giant black bear led thousands of fierce beasts and pressed up little by little.
"The beast waits for me to return to bring the artifact, you will definitely die!"
Wanamaker sneered.
He didn't even put the giant black bear in his eyes.
The war between the two sides is about to break out.
But at this moment, an eagle chirp came.
Shocked in the sky!
Comparable to billowing thunder!
Another god-level beast appeared!
Everyone's face changed drastically…

The Return of the God of War [The Protector] Chapter 3054
Hundreds of people were dumbfounded by Ceauza.
The followers of the gods were also dumbfounded.
The most important thing is that the god Vanamaker is also completely dumbfounded.
Two fierce beasts of the god level? ? ?
Who said that the assessment of these three levels of forbidden ground was wrong?
Who said that there are not only god-level fierce beasts in this place, but also other fierce beasts?
Who said it?
So what are these now?
Not to mention the thousands of mutant beasts, there are actually two of the god-level beasts! ! !
Vannamek turned slowly and looked at his son Cioza and others.
This is the false message from them!
Now this situation is caused!
Cioza was anxious: "No…we came to this place, we really haven't encountered any fierce beasts!"
Others are also arguing.
They really haven't met a fierce beast.
Who is going to make sense?
Not only are there, there are more.
Even two gods.
"No…No, isn't it…"
Suddenly Ceauza realized something, what Levi Garrison said came into his mind——
The beast was just scared by me and didn't dare to come out, and there was more than one, but two.
The one in front might be bragging, but the two god-level fierce beasts now looked like Levi Garrison
knew that they were two.
And Ceauza thought about it carefully, Levi Garrison was much stronger than they thought.
With pure power, draw them at will.
Also slapped their spiritual energy away.
Ceauza thought that if Levi Garrison weren't worried about the little girl on his back, he might be going
to kill him.
Therefore, he roughly determined that Levi Garrison was super powerful, even stronger than the god of
his father.

Whether he is lingering or not, it is true.
When he was there, all the beasts came out.
As soon as he left, all the fierce beasts came out, and they were still two gods.
He was right.
No matter how he doesn't believe it, the general truth is true.
"I see……"
Ceauza understood everything.
Just about to speak out, another god-level beast appeared.
It lies in the sky and obscures the sky.
Everyone's eyes are dark.
This fierce beast is a giant eagle!
The size is like a mountain, twice as large as the giant black bear.
It turned out that this giant eagle was recovering in spirit, when the beam of light fell from the sky.
It flew to the highest level of the beam of light and received the maximum radiation baptism.
Therefore, the mutation is extremely powerful.
It is much stronger than the giant black bear below.
Therefore, it is better than Wanamaker!
This is also the strongest beast they have ever seen!
Cioza was also frightened.
It's too late to say anything now.
How about they are afraid of Levi Garrison?
It's all over!
Knowing the truth is useless!
"Boom…"
The giant eagle didn't speak much, and directly incited its wings to kill.
The earth shakes and the mountains shake.
At the same time, the giant black bear on the ground also came.
The other fierce beasts also rushed up.
Wanamaker and them were all overwhelmed.
Then came the screams…
Blood splattered, flesh and blood separated, and the area was razed continuously.
One body was torn to pieces.
The Return of the God of War [The Protector] Chapter 3055
It's not the corpse of a beast, but a human.
One after another was torn apart.
The screams gradually diminished.
There was no sound in the end.
Because it was gradually torn apart.

Even if Vanamek is a god, there is no way to face two beasts of god level.
Especially that giant eagle can kill him one-on-one.
Not to mention the two together.
…
"Puff!"
In the end, Vannamek himself fell to the ground.
He was torn to pieces by the giant eagle and the giant bear, and directly cannibalized him.
The flesh and blood of fierce beasts are treasures.
Isn't that the case with human gods?
In the end, Vannamek was stunned.
Cioza cried as he watched the scenes.
If it weren't for him, they wouldn't have died here.
My father will never come here…
Everything is their own fault…There are two fierce beasts that are comparable to the gods, so many
people are wild.
The entire group of people in the Julu Nation was overthrown.
Not even a complete body was left.
Tragic death! ! !
Still the same sentence-people are just afraid of Levi Garrison, not afraid of other people.
Levi Garrison can do whatever they want in their domain, they dare not come out, they can only hide.
But others can't.
You swaggered. Thousands of people came at once, shouting and hugging.
Who will not do you?
After the message reached the country of Julu, the country of Julu was shocked!
They didn't have any estimation errors at all. This is the third level of forbidden ground! ! !
This is a dangerous place!
Even the gods dare not enter easily!
There is more than one god-level fierce beast!
But now it's too late to say anything!
The Julu Nation was originally a middle-lower force, losing one god and a large group of powerful people
at once!
Still a group of potential young people.
It was a great injury to the country of Julu!
They want to cry without tears!

This is the second time a human god has fallen, and also the first time a god has been killed by a beast!
Soon this message spread all over the world!
Shock!
And this giant eagle is now the most dangerous beast in the world!
Of course this has nothing to do with Levi Garrison.
When Levi Garrison first came out, he encountered the python that turned into a flood, but he could
force the eagle too much.
But no one else has encountered it.
Everyone trembles when they see this giant eagle.
Even Zhan Xiong Nation is paying attention to this matter.
Therefore, this three-level forbidden land became famous and attracted the attention of the whole
world!
One of the forbidden places that must not be entered!
…
Inspired by the event of the fall of the gods of the Julu Kingdom, some people began to speculate that
Beidaoichiro, who fell in Daxia, was actually not killed by Daxia mysterious people, but by fierce beasts.
This statement, everyone thought about it carefully, it really makes sense.
It even makes sense than the illusory Summon Division and Heavenly Master's Mansion!
Because it has been noisy for a while.
Daxia's Suppressor and Heavenly Master's Mansion didn't even appear at all.
Many of Daxia's own people are wondering what's going on.
There is no such thing.
But this time after the Huge Deer Nation incident emerged.
Everyone really thinks that Kitajima Ichiro was actually killed by a fierce beast.
It's just that the level of the fierce beast is too high, so naturally everyone can't see it.
Soon, this suspicion spread quickly.
Originally, many people were afraid of Daxia, the legendary Summon Division and Tianshi Mansion!
Even if Daxia has no gods!
Everyone is afraid!
But after this guess was made, the situation was quite different.
Many are starting to move around and are about to take action against Daxia.

Of course, there are also national powers that have good relations with Daxia.
Even the Guardians of the Galaxy Alliance is listed as a target.
Everyone is actually stabilizing themselves.
The Return of the God of War [The Protector] Chapter 3056
Rumor has it that some powerful countries are capturing some powerful beasts for their own use in
order to improve their strength.
If you can control the gods
After the strength is stable and all aspects are stable, they will definitely start against these countries
that don't have the opportunity when their spiritual energy recovers.
It is even rumored that the Nation War Bear is already observing the Nation War Eagle, and is ready to
do it at any time.
After all, with the current strength of Zhanxiong Nation, it was simply invincible.
Holding thousands of god-level powerhouses and the most powerful masters.
It is a dimensionality reduction blow to the forces of that country!
However, the Warhawk Nation is special, and they have to examine it in many ways.
Can't fight unprepared battles!
No one would have thought that the death of Vannamek and his son would have caused such turmoil to
the world and changed many things.
At this time, the three of Levi Garrison had come to a quiet place.
The Dark Doctor was full of surprise.
He has studied this golden plant all the way.
"Hahaha, it really is a good thing!"
Doctor Dark laughed.
Levi Garrison also kindled hope: "What's wrong? Is it saved?"
The Dark Doctor smiled and said, "After all the research I have just done! I found that this plant is just
the nemesis of a toxin!"
"I have studied this toxin for more than ten years, and there is no substance to restrain it! Rejuvenation
is still too powerful. A plant growing on a cliff is a nemesis!"
"I think, as long as we search for the nemesis of all the toxins, we will be able to detoxify it perfectly!"
The dark doctor blushed.
There is nothing more exciting than seeing hope.

Levi Garrison also smiled.
But his face faded quickly.
That's 87 kinds!
It is too difficult to find the nemesis of all toxins.
It's all luck!
It's okay to be able to meet, but not to be able to?
You can't touch 87 kinds of luck, right?
What's more, some toxins may have no nemesis!
Among the 87 kinds, only a few have been studied by the Dark Doctor.
It's okay if you run into the nemesis by chance.
But what about other toxins?
Even if it is possible to encounter the nemesis of other toxins, because you do not know this toxin, you
may miss it…
Besides, Levilia's luck is against the sky.
Really found the nemesis of 87 kinds of toxins.
Can it really detoxify it?
Everything is unknown!
But although hope is slim, it is almost zero.
But there is hope, that is one way!
"I decided to give Levilia a try on this plant! This plant has mild medicinal power and should not be
stimulating."
After seeking Levi Garrison's consent, Dr. Dark took some plants for Levilia.
After Levilia took it down.
There is no response.
Doctor Dark was disappointed.
Doesn't it work at all?
But Levi Garrison showed a little joy.
He still felt a slight change in poison, or weakened it a bit.
Although it is almost zero.
But he still noticed it.
He felt that Levilia's condition had improved a lot.
At least the medicine is effective, enhancing the spirit of the king.
This shows that this magical medicine is okay!
It's not that this magical medicine is effective against that toxin, but that the magical medicine is so
simple that it is astonishing and is absorbed by Levilia…
Levi Garrison was thinking.
If you encounter a particularly strong magic drug!
Directly dissolve the antidote with terrible medicinal power!

It is not impossible!
Judging from this magical medicine alone, it is entirely possible!
And it is feasible!
Levi Garrison didn't think about this problem before.
He and Doctor Dark are looking for 87 nemesis.
But I had never thought of the possibility that one or several magical medicines could unlock this poison.
Now it seems that there is hope!
If there is hope, then continue to look for it!
Next.
Levi Garrison and Doctor Dark are looking for places that are listed as forbidden places by the major
forces of various countries.
For others, it is a forbidden land, but for Levi Garrison it is no man's land.
No matter what dangerous existence there is in this forbidden area, as long as he perceives the aura on
Levi Garrison's body, one by one will find a place to hide.
Where dare to come out.
Therefore, the journey of the two is very smooth, entering and leaving the forbidden areas and places
that may breed natural treasures.
Originally these forbidden lands, if it were explored by a big country or a big force.
It will cost a great price.
The Return of the God of War [The Protector] Chapter 3057
Must be able to get the powerhouse of the moving god level, and may even fall.
But in front of Levi Garrison, it was like going home.
They found a lot of treasures.
But the effects of these natural treasures are average.
Basically, it is not as good as the golden magic drug that I encountered for the first time.
It doesn't seem to be super luck every time.
Luck has to keep touching.
But this strongest poison is really overbearing.
Under Levi Garrison's suppression, it happened again.
Despite being suppressed again.
But Levilia's state is obviously declining.
Levi Garrison couldn't change this.
Can only pray to find a feasible solution as soon as possible.
Doctor Dark sighed: "I don't know what happened to God's brain?"

At this time, the brain of God had just expressed its meaning to Zhan Xiong Nation.
Ask Hydra to hand over all the information on the strongest poison and other information.
As his light angel!
I beg Zhanxiong Country for help…
However, the answer given by the Zhanxiong Nation was very firm-it involved the secrets of the
Zhanxiong Nation and could not be handed over.
Let the mind of God die this heart.
It's really wrong.
The Hydra now seeks refuge in the War Bear Nation, giving all their secrets and other things that they
have stored for a long time to the War Bear Nation.
In other words, everything about Hydra right now is not theirs.
It's from the War Bear Kingdom!
Especially this is the strongest poison!
Unforgettable!
How could the War Bear Nation easily hand it over?
Would you like to take out the detailed formula?
Impossible!
Even if the angel of light, the brain of God, brought it up personally, it was impossible.
After all, the Angel of Light and Darkness was actually the first one proposed by the War Bear Kingdom!
They benefited from the rejuvenation of spiritual energy and became the strongest power in the world
in one fell swoop.
Therefore, the two Doctors of Darkness were brought out and sought after.
In fact, the essential purpose is to control and embody status!
The black light angel they set is the most noble person in the world!
Every country must be regarded as a guest, and the highest etiquette must be shown!
Actually show their domineering!
Shock the world!
Let the whole world listen to them!
Follow their arrangements!
To put it bluntly, these two are chess pieces!
But, in fact, the two Doctors of Darkness don't even have any face…
The Nation of War Bear can make them the most noble guests, and it can abolish them instantly and kill

them directly.
Now God's brain relies on this identity to ask them for such confidential information.
The State of War Bear is actually very disgusted with this matter.
"Angel of Light, if there are other things we would help! But this involves our top secret! It really can't
help!"
"Also in this environment, it's good to be able to keep yourself, so don't think about other people!"
"Even though you are the creator of Reiki Resurrection, and the most honored guest in the world! But
that is what I think of Zhanxiong Nation and some allies, others may not recognize you!"
"If you want to be more stable, stay in the War Bear Country and enjoy the rest of your life! If you have
other ideas, we can't keep you!"
…
The receptionist of Zhan Xiong Nation sneered.
And these few words are weird.
Where does the brain of God do not understand?
The implication is not to shame on your face…
Your distinguished status is given by us, and we can take it back at any time!
Don't use this identity to help other people…
God's brain was also happy, and he sneered: "But don't you want to know who I want this information
for?"
"Of course I know! Daxia side by side Wang Levi Garrison! Her daughter has been poisoned!"
The receptionist answered calmly.
The brain of God asked: "That's good! Have you ever been allies? Now that his daughter has something
wrong, shouldn't you help?"
"Hahaha……"
Several receptionists laughed.
"Angel of Light, remember one sentence-there are no eternal enemies, only eternal benefits!"
The receptionist said.
God's brain also smiled: "Indeed! Now you have provoked Mr. Ye! Hydra is Mr. Ye's enemy!"
"You have accepted Hydra and you are an enemy of Mr. Ye! Wait, sooner or later, Mr. Ye will come to

War Bear Nation to find Hydra! At that time, I am afraid that the entire War Bear Nation will suffer! "
"Ah? The War Bear Nation will suffer? Just rely on him? Hahaha…"
The receptionists became more presumptuous, and their stomachs hurt when they laughed.
The Return of the God of War [The Protector] Chapter 3058
God's brain said coldly: "Really, I'm advising you! Get rid of the relationship with Hydra soon! Otherwise,
it will be a disaster!"
Now the brain of God is very certain-Levi Garrison is super powerful.
He now felt that Levi Garrison was the one who rescued them in that huge vortex in Antarctica!
A person who can survive at the super-spiritual burst point.
Can be worse than the gods?
impossible!
Absolutely much stronger than the gods!
He believed that Levi Garrison had come to an unimaginable realm!
No matter how many gods there are!
It can be seen from the strongest poison in Levilia, but he was abruptly restrained.
The brain of God continued: "Or, you take the initiative to hand over the Hydra to Mr. Ye! Instead, Mr.
Ye can owe you a favor. This is the best situation for the entire war bear country! Listen to me, quasi-no.
wrong!"
"Hahaha……"
laughing out loud!
Everyone present is laughing!
What the brain of God tells is a joke!
The most powerful force in the world, with countless gods in hand, has the most powerful people in the
world!
The recognized first overlord!
Take the initiative to hand over the Hydra?
Want to take the initiative to kneel and lick Levi Garrison?
Levi Garrison is a fart!
It's not a god at all!
There is no benefit in the rejuvenation of Reiki!
wrong!
What if Levi Garrison is a god?
There are thousands of rumors about the War of the Bear Kingdom, but in fact there are more than

10,000.
Would you care about a god?
Will go to please Levi Garrison?
Hand over the Hydra?
crazy? ? ?
Is this God's brain stupid?
Sick in your head?
Will you say this?
Can a single Levi Garrison threaten the future of the Zhanxiong Nation? how is this possible?
If you don't clarify the relationship between Xiong Country and Hydra, what will happen to you?
Will Levi Garrison come to settle accounts? ? ?
Who does not know Levi Garrison's strength?
In the previous battle against the Lab of the Gods, Levi Garrison was a military division.
How could it be possible to let the war bear country of tens of thousands of gods bow their heads?
Can't even think about it to threaten the War Bear Nation?
so.
Everyone is laughing crazy!
It seems to have heard the biggest joke in the world!
"Hahaha……"
There was a wild laugh not far away.
Next second.
The Titan God of War came to the court.
"It's ridiculous! It's ridiculous!"
"We still have to look at Levi Garrison's face to send people out?"
The Titan War God sneered.
He looked directly at the brain of God and said: "Since the moment Hydra took refuge in the War Bear
Kingdom, they have been a member of the War Bear Kingdom!"
"Whoever dares to move them is provoking the entire War Bear Nation! He is provoking all the gods
standing behind them!"
"To put it bluntly, the thousands of gods of the entire War Bear Nation stand behind them and support
them! Whoever moves them, step on the thousands of gods of the War Bear Nation first!"
The words were so shocking that they spread thousands of miles away.
It is tantamount to announcing to the world-Hydra is a war bear country, no one can move! ! !

Who moved and died!
After hearing this, Hydra became more arrogant.
They are willing to wait for any enemy to come.
The Return of the God of War [The Protector] Chapter 3059
The brain of God was also stunned.
Unexpectedly, the attitude of the Zhanxiong Nation was so determined!
Is this planning to protect the Hydra? ? ?
good!
very good!
They also didn't see Mr. Ye Fan in their eyes.
I think he is very weak.
Just did this.
It's ok.
Just wait!
Mr. Ye will come sooner or later!
The Titan God of War looked at the brain of God and said: "Tell you, how many enemies of Hydra! In just
three days, 17 batches have come to kill them! This is still not afraid of my war against the bear country
and dare to avenge. Yes, I'm afraid I'm more likely to be more!"
"What is Levi Garrison? Among these revenge forces, he is the weakest!
Why should I give him face?
Does he have face?"
"We respect you as a distinguished guest, but if we don't respect you, you are nothing! You have to give
you face! You have to give you face!"
The Titan God of War said frankly.
God's Brain also sneered: "Then you wait, there will be the day when you are trampled by Mr. Ye!"
"Hahaha……"
laugh!
Everyone laughed.
The more God's brain says this, the more ridiculous they find it.
But the facts are really ridiculous!
If they are afraid of people, you have a reason to say so.
But let Levi Garrison forget it, right?
Moreover, there are no people who are afraid of anything in the War Bear Nation today!
As strong as the Eagle Nation, none of these threaten the Nation War Bear anymore.
Just rely on Levi Garrison?
Isn't this just kidding?

In the ridicule of everyone, the brain of God left the war bear country!
Several heads of Hydra on the side walked out and said to the Titan God of War, "Hydra will die for the
Nation of the Bears in the future!"
"Yes! We will do our best to help Zhanxiong Nation!"
"According to some ancient methods that we have been researching, it seems that it can improve the
body's absorption of spiritual energy, thereby allowing more gods to appear!"
They are very courteous.
But this word came out.
Everyone's complexion changed drastically.
Is there a way to create more gods? ? ?
Mainly spread out, the whole world is a sensation!
The number of gods is too scarce!
There are only about ten gods in the country of Lynx and Huge Lu!
If you can now use other methods to create more gods, does that mean changing your fate against the
sky?
The creation of one has already shocked the world.
If you create dozens or hundreds, you can't imagine it.
If this way, Da Xia and the war Eagle Nation have no gods know.
What a crazy thing!
Even the war bear country can't refuse!
Although they may possess tens of thousands of gods.
Hearing this approach, I couldn't refuse it.
In this way, the value of Hydra is greater for the War Bear Nation, and it will not give up easily.
More and more to ensure.
Immediately, the gods of the War Bear Kingdom took the initiative to attack, and the enemies who
would seek revenge from the Hydra were beheaded one by one to warn the world.
The strength of the war bear country is also getting stronger and stronger.
There are constantly big forces joining in, and some gods who don't belong to join.
Just half a day.
Thirty-seven gods have already announced that they will join the War Bear Kingdom!
These gods are all alone and do not belong to any forces.
But now they have joined the war bear country.
It can be seen that the prestige of the war bear country now.

...
soon.
The Return of the God of War [The Protector] Chapter 3060
The dark doctor received a message from the brain of God.
"Mr. Ye! Zhan Xiong Nation intends to protect Hydra! Not only will it not hand over them, but it will not
even hand over the poison information! This is their secret!"
...
"Even the seventeen forces that went to avenge the Hydra slaughtered all of them!"
"This is to warn the whole world that no one can touch Hydra!"
...
Doctor Dark told Levi Garrison all the circumstances.
"In fact, the impact is not great, but we can't get the information about the poison! But it's okay! We
can still analyze it slowly! The experts of the Sky Shield of the War Eagle Nation have been studying, as
long as there is enough time, the composition of the poison It will be researched out!"
Doctor Dark comforted.
Levi Garrison looked calm: "Well, I know. It does have no influence, but it just allows them to live longer!
Zhan Xiong Nation will do its best to protect them!"
Levi Garrison looked at Doctor Dark and said, "Your light angels and dark angels are actually people's
chess pieces. It's just a fake name!"
"Hmm, I understand!"
"unimportant!"
"Hydra has no feasible way. I don't need to go directly to them. Let them live longer for the time being!
Their lives can be taken away at any time as long as I want them! No one can stop them!"
Levi Garrison said.
"Then shall we continue to look for it next?"
Doctor Dark asked.
"Let's go to the East Island Royal Family!"
Levi Garrison said.
Doctor Dark looked questioned: "Huh? Todoro Royale? They have a way?"
Levi Garrison said: "My people have found a long-lost poison scripture hidden by the Dongdao royal
family! It records all the poisons in the world!"

“Actually, this poison scripture came from Daxia! It just disappeared bizarrely afterwards! I didn’t even think of hiding it in the East Island imperial family!”
Doctor Dark’s eyes also lit up fiercely: “There is still such a thing? Covering all the poisons in the world? Isn’t the probability of detoxification high?”
“There should be a chance! This Poison Classic is what my poisonous evil god has always dreamed of! It is also his ultimate goal! He has been searching for the poison scriptures, and it has been fruitless for many years. With good luck this time, the Dongdao imperial family damaged many buildings due to the rejuvenation of spiritual energy, and accidentally leaked the poison scriptures. “
“If such poison scriptures really exist, then there must be a corresponding solution! Hope is great!”
Doctor Dark was also excited.
Now he is not only aiming at the need to heal Levilia.
There is also a desire to win, and this poison must be eliminated.
After examining Levilia’s physical condition, Levi Garrison put her to sleep, entering a state where all organs and body were stagnated.
In this way, the toxin will not continue to spread, and has a certain inhibitory effect.
After all this was done, the three went to the East Island.
East Island, like other places, suffered tremendous changes in the aura of rejuvenation.
Levi Garrison glanced at it, and it seemed that Dong Dao was much bigger.
The aura is gushing, like a fairy island.
However, many sea areas around the East Island have been isolated.
Obviously they are all restricted areas.
There are many mutant fierce beasts in the sea.
I dare not explore easily.
Levi Garrison glanced at it and said, “Dongdao has changed quite a bit!”
The Dark Doctor smiled and said, “Due to the small size of Dongdao, when the aura bursts, they can’t avoid it. Most people face the aura radiation directly! Therefore, they have born a lot of strong people! Especially the number of gods! Someone guessed it was around one hundred!”

Levi Garrison sneered: "That's really a lot! I really didn't think that the projectile land would be good?
Because there is no place to hide, I suffer the maximum aura radiation!"
"According to preliminary statistics! East Island is now ranked 11th in the world ranking!"
Said Doctor Dark.
Levi Garrison said calmly: "No matter how many gods they have, all those who stand in my way will be
killed!"
Soon the three came to the streets of East Island.
To make things easier.
Both Levi Garrison and Doctor Dark dressed up.
Don't let you recognize it as soon as you see it.
The Return of the God of War [The Protector] Chapter 3061
Especially Doctor Dark is the black angel that everyone respects today.
It's easy to be recognized.
Then it is inconvenient to act.
The streets of the Imperial City on the East Island are crowded with people and the heat is
extraordinary.
It is completely different from the previous cities.
The items that everyone trades are also animal skins and horns.
"Have you heard? The people from the Great Summer Policy House have come to the East Island!"
"You know, didn't they just come to ask my Dongdao god to take action to detoxify Levi Garrison's
daughter? This matter has spread all over!"
"They asked for help from the Zhanxiong Nation at first, but the Zhanxiong Nation disregarded the
feelings of the old allies and refused. They have no way to come here!"
"That's not right, the war bear country has tried to protect the poisonous Hydra, how can it be
detoxified?"
"Yeah, I heard that a group of people are kneeling down! Asking the gods to take action! If you want me
to say, Levi Garrison will come and kneel down and ask the gods to take action!"
"What he did on the East Island back then, he wants to return one by one!"
...
After Levi Garrison and Doctor Dark heard this, their expressions changed.

Sure enough, Zoey Lopez didn't listen to the group of people, asking gods everywhere.
Even Doctor Dark sighed.
That thing is useless at all.
"Go find them first!"
Levi Garrison said coldly.
He didn't want Zoey Lopez to kneel down for Dong Dao.
No way!
This is a matter of dignity!
"Where are the Daxia people you just said? We want to see it too?"
Levi Garrison asked the person next to him.
"Those people are in the Black Dragon Dojo! There are four gods in the Black Dragon Dojo! They have
gone to the right place!"
...
Later, Levi Garrison didn't want to listen to what these Dongdao people said.
Immediately go to the Black Dragon Dojo with Doctor Dark.
Black Dragon Dojo.
Originally the activity site of the East Island Black Dragon Group.
The Black Dragon Group has many ancient masters.
Benefiting from this aura recovery, four gods appeared at once.
Powers of other levels are like Chinese cabbage, everywhere.
at this time.
Zoey Lopez and his party were outside the Black Dragon Dojo.
Everyone is kneeling quietly!
There are so many people who come.
Several of Levilia's masters were also listed, and many other relatives of Zoey Lopez and Levi Garrison
and Li Zhao's family came.
After experiencing a wall in the War Bear Kingdom, they set their target on Dong Dao.
Pray for help from the gods.
They understand that the Zhanxiong Nation will never make a move because of its stake.
Dong Dao would probably take action, but he would inevitably be insulted and let them kneel down and
so on.
But they are willing to endure any shame in order to save the king.
As long as the gods of Dongdao are willing to take action, they will do everything.
Kneeling for help is just a routine operation.

A line of people are kneeling together, they have been kneeling for most of the day.
But in their eyes, it was a god who was kneeling.
It doesn't have much to do with Dongdao.
Even if there is any more humiliation, they will bear it for Levilia.
As long as Levilia's poison can be eliminated, they can do anything!
Kneeling for a long time without any response, but Zoey Lopez's faces were full of determination.
Must wait until the gods of the Black Dragon Dojo respond.
The people on the East Island who watched the heat from the back at least had a lot of fun.
The Return of the God of War [The Protector] Chapter 3062
After all, kneeling on the ground used to be a big figure in the shining world.
Especially the masters of Levilia, what kind of characters are they?
Now it is not about kneeling on the ground and begging the gods to take action.
The more they do this, the more excited and relieved the people of East Island.
For them, there is an ultimate goal-to surpass Daxia!
In every aspect, Daxia must be stepped on the ground!
This is the mission that everyone in East Island has been carrying for generations!
They are all motivated by this!
But the result is different-they have been suppressed by Da Xia.
Doesn't give any chance to breathe at all!
It's hard to get through now.
Daxia has no gods, and Dongdao ranks eleventh.
This opportunity is here.
They were thinking about how to deal with Daxia for the first time.
A lot of thinking is to enslave everyone in Daxia.
Kitajima Ichiro went directly to implement the plan.
The result was killed.
Now they don't know what's going on…
Therefore, it is still being investigated.
But now that the pedestrian Zoey Lopez is here, this is tantamount to humiliating them at the door.
After kneeling for a long time.
"boom!"
Suddenly the door opened.
Several people came out from inside.

Kneeling Zoey Lopez and others also suddenly raised their heads, their faces full of surprises.
Since they came here on their knees and begged, no one has ever come out.
Doesn't this mean there is hope now?
They all looked at the person who came out longingly.
The people who came out spoke fluent Daxia: "Master said it! It's not impossible to let them take action
to detoxify!"
"How do you say? We will agree to any conditions!"
Levilia's master and daughter ancestors immediately asked anxiously.
They are prepared to pay any price.
The man smirked inexplicably, "It depends on your sincerity?"
"We will agree to any conditions!"
Everyone shouted.
"Well, let's get the basics first! Since I'm asking the gods of the East Island! You have to ask the people of
the East Island first!"
"You kowtow to all the people of East Island present, kowtow as many people as there are!"
hiss!"
Hearing this condition, the people of Dongdao who were watching behind let out a burst of cold air.
There are tens of thousands of people here! ! !
And it's still increasing!
In other words, Zoey Lopez had to knock at least tens of thousands of heads!
The key is only the threshold.
Simply show sincerity!
This is pure bullying!
Put the plum dyeing them on the ground, insult and rub!
The man suddenly saw some pets and the like, and said: "By the way, these are also members of the
East Island, and you have to kowtow to them!"
It's a pure insult!
Kneel down not only for the people of Dongdao, but also for the dogs of Dongdao!
They obviously humiliated the disgusting plum to dye them!
"You don't have to do it! It depends on your sincerity. To ask the East Island gods to take action, you
must first obtain the consent of the East Island people!"
"Am I right?"

Yamada looked at the crowd and shouted.
“is true!”
Everyone started shouting.
They also want Zoey Lopez to dye these big summer people, and all the noble identities knelt in front of
them, and it was cool to think about it.
So now everyone agrees.
If you want Zoey Lopez to kowtow to them first!
“Knocking! Knocking all!”
Everyone shouted at everyone.
But there is still a problem-Zoey Lopez and the others knelt down, and the gods might not even take
action.
Maybe they are playing tricks!
But after Zoey Lopez and the others looked at each other, they all turned around without hesitation.
In the face of everyone, they will start to knock their heads.
More than ten thousand ringers!
Although they don’t know if they will eventually make a move, they see a glimmer of hope and they will
do it.
“Hahaha……”
There was crazy laughter from the crowd.
The corner of Yamada’s mouth standing at the entrance of the dojo also had a successful smile.
In fact, even if the people like Zoey Lopez knocked their heads for 10,000 times, the gods would not
make any moves, or even see them!
The message Yatoto Yamada got just now was-let him play with these big summer people.
So kowtow is not enough, there are more humiliating things waiting for them.
As for the gods, you can’t see it!
It is even more impossible to make a move!
The Return of the God of War [The Protector] Chapter 3063
“You all count a bit! You have to knock enough! Otherwise it won’t count!”
Yuto Yamada shouted.
Zoey Lopez didn’t dare to say anything. Everyone bowed their heads.
When the head falls slowly, it is necessary to make contact with the ground.

Yatoto Yamada, the people from Higashishima, all smile like chrysanthemums.
"Boom…"
At this moment, an invisible force swept over.
They actually held Zoey Lopez's heads and couldn't knock them down.
The invisible power was enveloped, and Zoey Lopez and the others couldn't even knock it down at the
last step.
Surprised!
Everyone showed an incredible look.
Everyone looked at each other, their faces full of doubts.
There seemed to be an invisible barrier on the ground, and they couldn't knock their heads off.
"Knock! What are you doing?"
Yuto Yamada urged.
The same goes for others.
Hastily shouted to let Zoey Lopez kowtow to them.
But no matter how hard Zoey Lopez they work hard, it won't work!
I can't knock my head down…
Soon, Yuto Yamada and the others also discovered the anomaly.
"What's the situation? Who is making trouble?"
Yamada shouted angrily.
next moment.
The three of Levi Garrison appeared.
But they have been dressed up, and everyone will not recognize them all at once.
With a force of strength, Zoey Lopez and all of them were abruptly pulled up.
Don't kneel down!
"How can you kneel and kowtow to these chores?"
Levi Garrison said coldly.
Yatoto Yamada stepped forward and pointed at Levi Garrison and said,
"Is that you doing the ghost?"
But Levi Garrison suddenly disappeared.
The reappearance has come to Yamada Yuto.
"Boom…"
Yuto Yamada flew out directly, smashing the gate of the Black Dragon Dojo…
There was a dead silence…
silence!
Everyone is silent!

Who would have thought that someone suddenly appeared, not only prevented Zoey Lopez from
kneeling.
In front of the Black Dragon Dojo, he blasted Yamada Yuto directly.
This is the Black Dragon Dojo!
There are four gods in it!
Four! ! !
Who dares to provoke Dongdao?
Only the gods can provoke the gods, and I want at least four!
Everyone looked at Levi Garrison in front of them, and they all thought he was crazy!
After landing, Yamada's body twitched for a while, and there was no movement.
The person next to him leaned forward and saw that Yamada's body was torn apart. As long as he
touched it, his flesh and blood would explode…
This huge movement also shocked the entire Black Dragon Dojo.
A group of people rushed out from inside.
"What's the matter? What's the matter?"
The strong people shouted.
When they saw that Yamada had become a corpse, everyone was angry.
"Who did it?"
They are all crazy.
But Levi Garrison was standing at the door of the dojo, and the result was obvious.
It must be his hand!
One of them stepped forward and pointed at Levi Garrison and shouted,
"Is that the one you killed?"
Suddenly the man's finger snapped into two pieces, and blood spattered.
The Return of the God of War [The Protector] Chapter 3064
"Don't point your finger at me!"
Levi Garrison said coldly.
"boom……"
At the same time the body flew out.
The body exploded in midair and turned into a cloud of blood…
Shock!
Extremely shocked!
Even said everyone is going crazy!
In the Black Dragon Dojo, the four gods sit down and kill people directly regardless of their concerns!
This is crazy!
"court death!!!"

Hundreds of masters in the Black Dragon Dojo rushed over, wanting to slash Levi Garrison with a
thousand swords.
Terrible aura agitated in the black dragon dojo.
Push the crowd to a hundred meters.
There are not only gods in the Black Dragon Dojo, but also many masters of other levels.
After all, they all received the baptism of Reiki radiation.
But Levi Garrison was not used to their problems when facing this group of people.
"boom!"
"boom!"
"boom!"
...
His slap kept dropping.
One after another, the East Island powerhouses were blasted out.
Under Levi Garrison's slap, one by one was pulled apart.
Even the ultimate body of spiritual energy quenching is not at all useful in front of Levi Garrison.
The slap still smashed.
...
As time goes by, more and more people fall.
"This… is this Levi Garrison?"
No one else knows.
But gradually Zoey Lopez recognized them.
After all, the characteristics are still obvious.
Especially Dark Doctor, and Levilia who Levi Garrison carried on his back.
"When is he so good??"
This is Zoey Lopez's question in all of them.
Levi Garrison hasn't been strong all the time.
And even if this time of spiritual energy recovery, he seems to have benefited.
Because the radiation baptized by the spiritual energy, at least the spiritual energy lingers.
But everyone didn't see this happening to Levi Garrison.
How did he become better?
Looking at him, he still relies on pure power.
That is the most basic exercise before him!
Although everyone couldn't explain it for a while, they always felt that it had something to do with the
rejuvenation of spiritual energy.

Levi Garrison should have received great benefits in this spiritual rejuvenation.
Levi Garrison in front of him is like the devil, who sees and kills whom.
In an instant, the ground was full of corpses.
And not one is complete!
Soon hundreds of people fell, and everyone else ran away, retreating into the dojo little by little.
One of the leaders, Oda Ichiro, immediately said to Levi Garrison: "Wait a minute…Boom…"
But it was accompanied by a dull sound.
Oda Ichiro's head exploded directly…
He was slapped and exploded by Levi Garrison.
"We can talk, we…boom…"
Another person was about to speak when he was bombed by Levi Garrison.
Levi Garrison said faintly: "There is so much nonsense!"
He just came here to kill.
It's not for these gods to take action!
What to talk about? ? ?
Levi Garrison was merciless and started to kill.
He directly entered the Black Dragon Dojo…
Everyone is going crazy!
Everyone looked silly from a distance.
Especially plums dye them.
They were all frightened by the sense of killing energy on Levi Garrison's body.
They also understand.
Levi Garrison was venting their anger…
These Dongdao gangsters are insulting them.
Levi Garrison was not used to this scene.
Others were even more shocked.
*Is this a f*cking lunatic?*
Does killing like this in the Black Dragon Dojo do not put the four gods in the eyes of others? ? ?
It's too extreme!
It's crazy!
"That's right, no! This offends the gods, not only can't save the king, but it puts all his lives in it!"
Only then did Zoey Lopez realize how terrible Levi Garrison's move was.
I was shocked by Levi Garrison's extraordinary combat power just now.
After recovering now, I immediately realized the seriousness of the problem.

They immediately wanted to stop Levi Garrison.
The Return of the God of War [The Protector] Chapter 3065
Everyone was about to rush up, but the Dark Doctor stopped them: "No! What he did is right! And me!"
The words of Doctor Dark are undoubtedly a reassurance for everyone.
Everyone calmed down quickly.
After all, everyone knows the identity of Doctor Dark.
The "black angel" proposed by Zhanxiong Kingdom himself!
The Maker of Reiki Recovery!
The most distinguished guest in the world!
Presumably he followed Levi Garrison's words, not to mention the four gods of the Black Dragon Dojo,
that is, the entire East Island must give a bit of face.
So they don't worry about it.
If Levi Garrison got into trouble, the Dark Doctor would also resolve it.
…
In the blink of an eye, Levi Garrison killed more than a hundred people.
"Slaying wild in my Black Dragon Dojo, looking for death!!!"
Suddenly a voice came, like a nine-day divine thunder descending.
The sky rumbling rumblingly, as if the whole world is spinning.
The most important thing is that there is an invisible coercion descending like the sky, pressing
everyone's body to explode, fearing in their hearts, and wanting to worship.
This is supernatural power!
The spirit of the gods surging down like a river of heaven!
The gods of the Black Dragon Dojo finally couldn't stand it anymore…
The people on Wandong Island who were watching outside all heaved a sigh of relief, and their faces
immediately became excited and proud.
They all crawled on the ground, shouting together: "Ask the gods to kill this Daxia thug!!!"
…
Is this mysterious person really uncontrollable?
This time the god appeared.
Just to kill him!
"So much nonsense!"
Levi Garrison let out a cold snort, and went in directly.
The Dark Doctor also followed suit.
Zoey Lopez and the others wanted to go in, but they were stopped by their ancestors.
"We still don't want to add chaos!"

…
After the three of Levi Garrison entered the Black Dragon Dojo.
There are densely packed people in front of me.
And there were four people sitting cross-legged not far away!
Like a god, it exudes a steady stream of terrifying aura.
"Presumptuous, dare to kill our disciples and grandchildren! You are looking for death!!!"
The four of them suddenly opened their eyes and stared at Levi Garrison.
"How come? There is no aura lingering! You also don't have a trace of aura in your body! How did you
kill so many powerful people?"
Unbelievable!
They are going crazy.
Levi Garrison didn't have aura in his body, how could he kill so many people? ? ?
Especially among them, there are quasi gods.
It seems to have been killed by Levi Garrison.
They looked at Doctor Dark again.
"This…this is the black angel…"
The faces of all four of them changed.
Obviously a little jealous.
But they stared at Levi Garrison firmly and said: "Don't think that there is a black angel, you can do
whatever you want! You still have to die!!!"
Obviously Levi Garrison killed so many people.
They won't look at Doctor Dark's face either-they won't act on Levi Garrison.
"Black Angel, this is our grievance with him, it has nothing to do with you! Please leave!"
In any case, they were still a little afraid of Doctor Dark.
Let the Dark Doctor take the initiative to stay away from their grievances.
One yard owned by a yard.
Doctor Dark cannot get involved.
Doctor Dark smiled: "I can't participate even if I want to participate!"
How can he be qualified to participate in Levi Garrison's affairs.
He cast sympathetic glances at the four gods.
Obviously these few have no idea what will happen next.
Still afraid of him getting involved.
See the attitude of Doctor Dark.
The gods in the Black Dragon Dojo were relieved.
The Return of the God of War [The Protector] Chapter 3066
It's easy now.

They can kill Levi Garrison with all their strength.
Levi Garrison sneered when he thought of something, "I have a gift for the royal family of Dongdao…"
The Dark Doctor also seemed to understand what Levi Garrison meant—the gifts were the heads of the
four gods in front of him.
"hiss!"
He breathed in subconsciously.
Taking the head of a god as a gift, in today's world, I am afraid that only Levi Garrison can do it, right?
The four gods looked at Levi Garrison together and asked, "Who are you? Why kill our disciples?"
Levi Garrison sneered and said, "Daxia people, because you insult Daxia, damn it!"
Levi Garrison said this.
Several gods are going to explode.
To kill people wantonly in their dojo is to provoke their majesty!
No matter what the reason, murder is impossible!
Even if it is their own fault!
In short, if Levi Garrison dared to do something here, he committed a heinous crime!
"Listen, you first kneel down and kowtow to apologize, and then tell your secrets, maybe we let you die
in a lighter way…"
"Yes! Dare to offend the majesty of the gods, you have been convicted of death! Telling your secrets can
make you less guilty!"
Although the four gods wanted Levi Garrison to die, they even wanted to know Levi Garrison's secret.
Why is it so powerful without aura?
Just rely on pure power to make such a terrifying punch?
There is definitely a big secret!
In this era, everyone is baptized by aura radiation.
The spiritual energy is no longer needed, and what I am fighting now is some exercises and combat
skills.
Can maximize the value of the spiritual energy in the body.
Even the gods are no exception.
They just reached a certain level of spiritual energy, but there is still a gap in strength.
Gods and gods are different.
They also have to improve as much as possible.

Now that they saw that Levi Garrison had a secret, they would naturally not let it go.
"As much nonsense!"
Suddenly Levi Garrison disappeared from everyone's eyes.
When he reappeared, he had already come before the four gods.
"Boom…"
Hit directly with a punch.
A god soaring to the sky Jiutai couldn't dodge, so he could only accept it abruptly.
Can be the next second.
A force that could be called breaking the sky spread, tearing the body of this god…
"Bang bang bang…"
The body of this god exploded irregularly.
shocked!
The whole audience was dumbfounded.
Killed a god!
Still a punch!
Unheard of!
Even the Dark Doctor, who knew Levi Garrison's skill for a long time, saw this scene and his scalp was
numb with surprise.
Killed the gods easily?
Now he finally understood why Levi Garrison looked down on the gods, and said in advance that the
gods were not good enough.
In front of Levi Garrison, it was like a chicken.
How can it work?
When the god Shunsuke Haga on the side saw his companion being killed, he immediately reacted.
Immediately mobilized the terrifying aura of the whole body, releasing the coercion like a god.
To kill Levi Garrison.
The other two gods also reacted one after another, and immediately gathered the strongest spiritual
energy to kill Levi Garrison.
The three gods shot together, it was terrifying.
The Return of the God of War [The Protector] Chapter 3067
Almost overturned this place directly.
The earth is shaking!
In particular, the earth made a rumbling movement, as if it was about to split a big rift valley.

The Dark Doctors were all frightened.
His combat power is very strong, but against these gods, it can be said that he has no power to fight
back.
If the three shot together, it was even more impossible.
Coercion!
The pressure is coming!
The powerful aura in their bodies is actually the power of heaven and earth, containing the pressure of
heaven and earth.
This is also the reason why such people are called "gods".
They have the coercion of heaven and earth.
Panic and divine power, the world bows down!
therefore.
The coercion struck.
Don't talk about ordinary people.
Below the gods, it is this coercion that can directly tear people apart.
Three gods shot together, it was even more terrifying.
Doctor Dark felt like he was going to be squeezed by this invisible coercion…
At this time.
Levi Garrison moved.
Ignoring the rolling coercion, he stepped out one step at a time.
He came directly to Shunsuke Hachiga, ignored his attack, and let him hit him.
Levi Garrison has nothing to do.
But he slapped Shunsuke Hachiga with a backhand.
"boom!"
Just like a watermelon, it cracks and explodes directly.
Shunsuke Yaga couldn't stop Levi Garrison's slap.
People are directly bombarded…
The other two gods were shocked.
This situation shouldn't happen!
"boom!"
"boom!"
Before the other two could react, Levi Garrison's fist came.
Directly flew the two gods out.
Like the frustrated ball, the spirits of the two disappeared instantly.
Shocked!
It was shocking!
Doctor Dark was stunned on the spot.

Thousands of people in the Black Dragon Dojo were also stunned, like walking corpses.
They would never think that such a situation would happen.
The four gods were easily shot to death by Levi Garrison.
Every god can't handle a trick…
This is too scary!
Since the resurrection of spiritual energy, it is the first time to hear of human beings with slaughter
gods…
This is nothing short of a miracle!
At this moment, they seemed to think of how Kitajima Ichiro had fallen in Daxia.
It wasn't the recent rumored killing of the beast.
He was killed by someone.
"The rest? Those who insult Daxia will die!!!"
Levi Garrison gradually looked at other people.
Thousands of people reacted immediately, just about to run.
"Buzzing…"
Levi Garrison suddenly exuded a powerful aura, and a strange wave swayed around him, as if distorting
the space.
Strange fluctuations spread out and enveloped the crowd.
"boom!"
"boom!"
"boom!"
…
One by one, the powerhouses of the Black Dragon Dojo burst into a cloud of blood.
Doctor Dark witnessed thousands of people exploding in front of him…
The entire army of the Black Dragon Dojo was overthrown.
No one stayed.
Including the four gods!
In fact, their ending was doomed from the beginning.
Levi Garrison wanted to see one kill the other.
The Return of the God of War [The Protector] Chapter 3068
This kind of result should be expected since Kitajima wanted to enslave Daxia.
Especially if he dares to humiliate his relatives and friends like this, how could Levi Garrison keep them?
Kill all!
Now he is not like he used to be, he needs to forbear, cannot expose his influence, and he is afraid of

which one.
It's completely different now.
See who is not pleasing to the eye, just kill it directly.
"Pack the presents, let's go to the East Island Royal Family!"
Levi Garrison said lightly.
...
The inside of the Black Dragon Dojo was turned upside down, and the people outside waited for it to be
anxious.
But no one dared to go inside.
Zoey Lopez dyed them in a cold sweat.
I don't know what's going on.
At this moment, Levi Garrison walked out carrying Levilia on his back.
The dark doctor behind him carried a big bag.
Seeing that the two came out safely, Zoey Lopez they immediately breathed a sigh of relief.
Fortunately, nothing happened!
It should be more fortunate that Doctor Dark has followed along.
Levi Garrison is powerful and wrong.
Maybe he came out unscathed, it must be because of Doctor Dark.
This is a black angel!
Rebirth parents all over the world!
Everyone has to give face!
It must be like this!
Otherwise this matter cannot be explained.
Apart from this explanation, Levi Garrison was able to leave unharmed, and there was only one reason
left-he killed everyone in the Black Dragon Dojo, including the four great gods.
Obviously, this is impossible!
Since the resurrection of spiritual energy, there has never been a deity being slaughtered.
The two gods Kitajima Ichiro and Wanamaker were killed by fierce beasts.
There are no incidents of slaughter of gods.
Therefore, they are determined not to believe it.
"From now on, I will figure out how to deal with Levilia, so you don't want to run around! It's useless to
find gods! Let's find you in Daxia!"
Levi Garrison looked at everyone and said.
He didn't want this group of people to mess up.
There is no specific solution at all.

But everyone looked at Levi Garrison unconvincedly: "Why? You haven't looked for a god, how can you
know if it's OK?"
"Yes, gods exist like gods, how can they fail?"
No one believes this.
crucial moment.
The Dark Doctor stood up: "We have all tried! It really can't! I have asked the seven gods of the Lynx
Kingdom to examine the situation of the king, and the power of the gods in your mouth is absolutely
useless for the poison of the king!"
Heard this.
Everyone believes in this.
After all, the words of Doctor Dark are more authoritative, and he has really been seen by a god.
It's not easy for everyone to say anything.
"You go back to Daxia first!"
Levi Garrison urged.
Zoey Lopez looked at Levi Garrison and said, "Is there a way for you to come to Dongdao?"
"Well, let's try it! Don't follow along! Don't worry, Levilia is the safest by my side!"
Levi Garrison approached the road.
What else did Zoey Lopez want to say, Doctor Dark said directly: "Don't worry, there is still me."
After sending off Zoey Lopez and his party.
Levi Garrison and the three are going to the royal family of East Island.
The crowd onlookers were definitely a little weird, did the Black Dragon Dojo just let go of the
murderer?
Doctor Dark is a shameless face.
The Return of the God of War [The Protector] Chapter 3069
But Levi Garrison has killed so many people, can he come out safe and sound?
This is a bit problematic.
What are the four gods doing?
Confuse!
Deeply confused!
They feel that the truth lies in the Black Dragon Dojo…
But no matter how puzzled everyone is, they still dare not go to the Black Dragon Dojo to find out.

They would never have thought that the four gods would have fallen all at once.
The East Island Royal Family has always existed, and it is a special existence.
It is not a power organization, but it is a symbol of the highest status in the East Island.
There are the oldest and most secret things in the East Island, as well as ancient masters.
He has always treated the world low-key and didn't participate in any disputes.
This is the reason why Levi Garrison never appeared in the East Island imperial family no matter how he
coaxed the sea in Nezha.
Of course, Levi Garrison didn't touch their interests.
Once touched, there is no reason not to kill you?
However, since the environment has changed drastically, half of the royal buildings on the East Island
have been destroyed.
They are no longer low-key.
It is said that there are the most gods in the East Island.
He also took out some ancient techniques to create more powerhouses.
Today, the royal family of Dongdao is quietly joining the network gods.
The four gods of the Black Dragon Dojo are also their targets.
It was not long after Levi Garrison and his party left.
The crowd of onlookers at the Black Dragon Dojo also gradually dispersed.
But two figures appeared immediately, with the pattern of sixteen chrysanthemums pierced on their
gorgeous clothes.
This is a symbol of the East Island imperial family.
Obviously these two people are from the royal family of East Island.
After all, the pattern of sixteen chrysanthemums is not something anyone can have.
It turns out that they have been in the crowd of onlookers.
Seeing Levi Garrison leaving safe and sound.
They were also very curious about why the Black Dragon Dojo would allow Levi Garrison to leave?
After all, killed so many people in the Black Dragon Dojo at once.
The Black Dragon Dojo also let them out!
Obviously abnormal!
The four gods in the Black Dragon Dojo are all ruthless masters!

The East Island Royal Family has been discussing Yi with them for a long time, and they can join, but they
have put forward a lot of conditions.
One is more demanding than the other.
Especially in this situation, how could the four great gods let Levi Garrison leave so easily?
impossible things!
In fact, many people have such doubts, but they dare not go in and find out.
Others dare not enter the Black Dragon Dojo, but they dare.
The two quietly entered the Black Dragon Dojo.
The pungent smell of blood…
Obviously there was a super battle in the dojo.
They touched it step by step.
When they saw the foreground, they were so scared that they almost fainted…
understood!
Finally know why they can leave safely.
Really killed everyone.
The two people were so frightened that they sat down on the ground, gasping for breath.
Really freaked out.
There are people who can slaughter the gods!
He doesn't even have the basic aura lingering!
They are very puzzled.
Where will Levi Garrison's group go next…
The royal family of East Island.
? Located in the center of the imperial city of East Island.
Although when the aura broke out, the building was half destroyed.
But it has already been built now.
The royal family is heavily guarded, and a strong man sits in front of it.
The most terrifying thing is that they have the most gods on the East Island.
Some people estimate that there are thirty gods.
They were all ancient powerhouses of the East Island imperial family, who were baptized by radiation in
this spiritual rejuvenation, and their strength was directly raised to the god level.
There are also some quasi-god-level powerhouses.
One step away from the gods.
The Dongdao royal family possessed many ancient techniques and methods.

After using these techniques, these quasi-gods can temporarily fight the gods.
They are just lack of aura.
These techniques and skills are far superior to other gods.
Levi Garrison quickly came to the front gate of the Dongdao imperial family with Levilia on his back.
The main gate is guarded by hundreds of strong men.
Seeing the three of Levi Garrison appeared, they immediately stopped.
"Who are you? What are you doing here?"
The guard asked immediately.
Levi Garrison suddenly disappeared from their eyes…
"Boom…"
In the next second, dozens of figures flew out directly.
"boom!"
There was even a figure flying out, smashing the front door of the royal family.
The remaining guards reacted.
Immediately rushed over.
But everyone flew out immediately.
Rumbling…
One by one kept falling to the ground.
"Come and get something!"
Levi Garrison didn't talk nonsense at all, just hit it.
The royal family on the East Island is the same as entering their own home.
Anyway, the poison scripture he took over the years was stolen from Daxia by the Dongdao gang.
What kind of greeting does Levi Garrison need to say when he takes things from his own home?
Just hit in and get it!
The Return of the God of War [The Protector] Chapter 3070
The movement created by Levi Garrison has already made a huge noise in the East Island imperial
family.
Experts rushed to the door one after another.
Those god-level powerhouses who lurked around the imperial family also opened their eyes.
Not because of how terrifying it feels.
It was mainly the first time someone hit the East Island imperial family directly.
They are more curious.

Can't figure out why someone can call the royal family of Dongdao directly and dislike their lives too much?
This may have happened before.
But now the Dongdao royal family is very high-profile, and many outsiders know that there are thirty gods.
Levi Garrison and the three had just entered, and a group of people immediately stopped him.
"Hand over the poison scripture, or you will be killed!"
You have heard this sentence three times.
But what's the use?
Still can't stop Levi Garrison!
So many people died!
Even now, most people don't know why Levi Garrison is here?
Why did you kill…
"Poison Ching…"
Many people reacted this time.
They still remember that the poison script was unintentionally revealed due to the damage of the royal building a few days ago.
He didn't think that the murderous existence in front of him was actually directed at the poisonous scriptures.
Just as an important member of the royal family was about to speak, a thunderous voice rang out from behind: "Death!!!"
The royal gods appeared.
"boom!"
"boom!"
…
Not only the rear, but also the front, the left and the right, and even mid-air.
There was an aura of silence.
As if the dragon came to the world, Shura was born again.
Gods!
The gods of the royal family appeared.
"boom!"
"boom!"
"boom!"
…
The powerful breath came after another.

More than one.
Judging from the current situation, at least seven or eight gods have appeared.
There are also hidden in the dark.
Not to mention that thirty gods appeared together.
At least half of them are here.
At first they were curious about Levi Garrison.
But behind it was anger and hatred.
Killed so many people.
Especially those people who had been beheaded by Shen Jie just now, many were their disciples and
heirs.
Now all have been killed.
How are they not angry?
There were already eight gods on the bright side that had trapped Levi Garrison around.
"You may be deaf, let me remind you again, hand over the poison scripture! Otherwise, you will be
killed!"
Levi Garrison kindly reminded.
He didn't want to fight, let alone kill.
He had already stated his purpose at the beginning.
It's just that none of these people listened.
What can he do?
Can only be killed.
"Poison Jing?????"
After hearing these gods, their expressions changed slightly.
"Presumptuous, the poison scripture is the supreme sacred artifact of my East Island royal family, how
can it be handed to you? Why are you???"
The Return of the God of War [The Protector] Chapter 3071
One of the gods lost Notian Hao and said coldly.
Levi Garrison didn't speak, but the corner of his mouth was curved.
"Boom…"
In the next moment, he disappeared from where he was.
Shiye Tian Hao felt that the danger was approaching, and a terrible air current was surging towards him.
He still has no way of catching it. The most frightening thing is that his aura is temporarily locked up,
unable to use it at all.
He seemed to be imprisoned.
Except for thoughts, nothing else can be used.

No, the ideology is imprisoned, the reaction is too slow, everything is vague.
Sure enough, Levi Garrison appeared before his eyes instantly.
Divine robbery crosscut in the hand.
The body of Lost Tian Hao was separated and blood splashed on the spot.
Silly!
Everyone present was dumbfounded once again!
The seven surrounding gods and the gods in the dark were also shocked.
A god was killed like this? ? ?
The key is still under their noses, no one can react.
This is the deadliest!
Let alone fight back, they can't save even if they want to.
How terrible is this person?
The point is that he is not a god!
And there is no spiritual lingering, what kind of existence is he?
After Levi Garrison easily killed a god, he said lightly: "Why do you ask me? Just rely on this!"
Shocked on the spot! ! !
Even if there are more than a dozen gods here and there!
But in such an environment, there is no one to do it, and no one to speak.
silence.
There was a long silence.
silence.
The silence of the needle falling.
At this time, Doctor Dark came out: "Don't get me wrong, we are just looking for the poisonous
scripture! I don't want to fight or kill people!"
Everyone: "...".
Everyone is vomiting blood.
You killed so many people and gods.
You said that you don't want to fight or kill people? ? ?
Our purpose is very simple, as long as you hand over the poison scriptures, we will leave immediately!"
The dark doctor smiled.
But this smile looks very strange to everyone.
It's that simple?
Just hand over the poison scripture?
Doubt!
There was a look of suspicion on everyone's faces.
Even the gods doubt the authenticity.
The Dark Doctor suddenly remembered something, and couldn't help smiling: "By the way, we didn't

come empty-handed either! We brought gifts, as if they were in exchange for the Poison Sutra!"
"puff!"
Doctor Dark finished speaking.
The more people want to vomit blood.
Since ancient times, it has always been courtesy before soldiers.
Levi Garrison and Doctor Dark are first soldiers and then salutes.
Let's kill indiscriminately first, and then slowly reason with you.
"There are still gifts???"
Finally someone couldn't help but ask.
"Yes indeed……"
The Dark Doctor threw out the bag he was holding.
The Return of the God of War [The Protector] Chapter 3072
Four chubby things scattered all over the place with blood…
"hiss!!!"
When everyone saw it clearly, they all gasped.
There was a look of horror on everyone's face.
Even these gods are the same.
So these gods are all talking about the calf. Where can they be gods?
Is God so scared?
"This…this is Hachiga Shunsuke…this this this…"
"Heh…this is the nine towers…my God…"
…
"The four gods of the Black Dragon Dojo!!!"
After seeing it clearly, many people distinguished it carefully and recognized it at a glance.
Who is this!
Take the heads of the four gods of the Black Dragon Dojo as a gift? ? ?
This is not a gift!
This is shocking! ! !
Everyone, including the gods, raised their heads to look at Levi Garrison.
In other cases, they will ask who killed these heads?
How did it come?
But after seeing the scene where Levi Garrison killed Ye Tianhao in a second, he naturally thought about
him.
It must be homicide!
He killed all the four gods in the Black Dragon Dojo, which shows that he is terrifying to the extreme.
Even if there are more than a dozen gods guarding him, they are all scared.
Who knows how strong his peak combat power is?

To fight him must be a desperate battle.
It is good to win, but what about losing?
The entire East Island royal family was destroyed.
Doctor Dark smiled and said: "I'm actually good for you, you should hand it over quickly! Otherwise, it
will be you who will be the trouble at that time!"
"If you don't hand it over, you will be beaten to death by him then!"
Now Doctor Dark believes in Levi Garrison's words.
If they can't get the poison scripture, they will really be beaten to death.
So Doctor Dark is really helping them.
Otherwise, if you provoke Levi Garrison, you will die.
Tangled.
Now these gods of the East Island royal family are extremely entangled.
Go ahead, the whole army may be overthrown.
Not on it, face problem.
East Island Royal Family?
God at that time?
Both of these aspects must be humiliated!
They really want to take a stand and kill Levi Garrison.
A dozen of them are not enough.
Just pull out all the thirty or so, and deal with Levi Garrison together.
Can only fight to the death.
They are fighting one by one, and they are preparing for the ultimate battle.
But at this moment, a voice came from behind: "Stop it all, hold on!"
Immediately, several people walked out quickly.
He also held a delicate wooden box in his hand.
The Return of the God of War [The Protector] Chapter 3073
Several people came to Levi Garrison and said, "Thank you for the gift, Mr. Dongdao Royal Family likes it
very much!"
"Now I have specially offered the poison scripture! The Dongdao royal family does not pray to befriend
her husband, but only asks that the husband does not treat the Dongdao royal family as an enemy!"
Be soft!
The royal suit of the East Island is soft.
He brought the poison scripture directly to Levi Garrison.
The four great gods in the Black Dragon Dojo and the scene of the death of Tianhao lost just now were
too shocking.
Let them have to subdue.

If this is a fight.
But it's a bet on the entire East Island royal family.
Although the poison is very important.
But the value is not so great…
Take the future of the Dongdao royal family to gamble on a drug book!
Can't pay!
Moreover, it has been forty to fifty years that no one has been affected by it.
It's just hidden in the royal family of Dongdao.
To put it bluntly, the value is not that great.
Now you can save the Dongdao imperial family, why not take it out?
After receiving the poison scripture, the wooden box broke and disappeared out of thin air.
The speed of that fragmentation can't even be seen by the gods…
Especially the person who handed the wooden box across from Levi Garrison was the most shocking-in
his perspective, the wooden box had disappeared directly.
Disappeared out of thin air! ! !
Is this a fairy-like method?
It seems that Levi Garrison is like a god compared to the dozens of gods around him!
Levi Garrison opened the Toxic Sutra and turned it over a few times, confirming that it was the Toxic
Sutra.
He just put it away.
"Isn't it enough to hand it in early? A lot of people will be killed!"
Levi Garrison turned and left.
If the goal is reached, there is no reason to stay.
Everyone in the East Island royal family watched Levi Garrison come and leave them.
How dare to stop it.
Today's shame, Levi Garrison was abruptly brought to the Dongdao imperial family.
When Levi Garrison left.
The royal interior of the East Island is deadly silent!
Everyone was silent.
Shame!
What a shame!
It is obvious that there are more than 30 gods in the royal family of Dongdao, why are they forced to do
this?

People have killed so many people and gods in front of you, but you dare not say a word.
Shame to the extreme!
This is the most humiliating day for the royal family on the East Island.
At this moment, two figures rushed in.
"No, a mysterious person just broke into the Black Dragon Dojo and killed everyone in the Black Dragon
Dojo, including the four gods!"
They shouted at the crowd.
But the next moment, when they saw the sights of the imperial house on the East Island, they all went
crazy.
It turns out that the mysterious man has also come here…
"What to do? This thing just passed?"
A god asked.
"Too aggrieved, too shameful!"
The other gods clenched their fists tightly.
What a shame.
Especially, they are all gods.
But who has suffered this level of humiliation, who is not aggrieved?
It's more uncomfortable than death.
At this time, a god came out from inside.
He has been hiding in the dark.
This is the presence of a prince of the royal family, he said coldly: "First of all, seal all information! My
Dongdao loses five gods at once. This is not a trivial matter! If the whole world knows it, it will cause
chaos. It will have an adverse effect on the East Island!"
"Yes, some small countries and small forces have a total of four or five gods. A bigger one is estimated to
be ten gods! So this incident will definitely cause an uproar! The message must be blocked."
Others also said one after another.
This message has to be locked!
Resolutely cannot pass it out.
The prince continued: "Secondly, this Chou Dongdao royal family is next! It must be reported!"
The others looked puzzled: "But they are all gone now, we don't even know who it is!"
The Return of the God of War [The Protector] Chapter 3074
The prince's eyes shot out a cold light: "Their identity is not difficult to determine! Which is the dark

doctor, that is, the black angel! The other is Levi Garrison of Daxia with his daughter on his back! Come
to find the poison scripture His daughter detoxifies!"
"What??? Levi Garrison? When did he become so strong?"
As soon as I heard of Levi Garrison, everyone seemed crazy.
Levi Garrison in my impression has long since been abandoned.
Where can I have the power to kill the gods at will?
What kind of alien is it?
"Actually I don't believe it, but the fact is like this! However, Levi Garrison will count the old and new
hatred together! Especially the shame you brought us this time, we will not forget! Wait, we will get
revenge!"
Hear here.
A terrible murderous aura emerged from everyone.
shame!
Levi Garrison repeatedly brought them shame!
Everyone hated Levi Garrison to their bones.
If it is said that the people before the East Island, the mission of living is to keep the Great Xia Bi down.
Then the mission of this generation must include one thing-get rid of Levi Garrison.
Now so.
It was the same in the past.
"But it's not easy to kill Levi Garrison now. Just how strong is he, everyone has seen it?"
"After the world's environment has changed drastically, everyone is saying that gods are the strongest!
But now, some people are killing gods at will! If this message goes out, I'm afraid it will cause an
uproar!"
The prince said coldly: "We can only unite! If he can kill ten gods, we will summon 20. If he can kill 20,
we will summon fifty! I don't believe it, there are hundreds of gods at once, he How to kill?"
"Yes, Levi Garrison must die! Let's take a long-term plan, summon enough powerhouses, and take action
together. I don't believe that Levi Garrison can stop…"
"Although we have hundreds of gods in Dongdao, we can't bet on Dongdao's future! We have to unite
with other forces, or borrow a knife to kill people! Use other people's hands to deal with Levi Garrison!"

“It can not only kill Levi Garrison, but also store our strength!”
They have set their mindset to create a shocking situation for Levi Garrison.
The three of Levi Garrison did not leave the East Island.
Instead, rest in a nearby place.
Levi Garrison directly picked up the poison scripture and studied it.
Doctor Dark is also watching.
After a while.
Doctor Dark praised: “It’s an ancient book of Daxia! The poisons I have searched for for many years have
been recorded! There are also 87 kinds of toxins in the strongest poison, I have seen at least six of them.
All have corresponding solutions.
The main reason is that I don’t know what the other toxins of the strongest poison are, maybe they
already have it. “
The Return of the God of War [The Protector] Chapter 3075
surprise.
Both Levi Garrison and Doctor Dark had smiles on their faces.
This poison scripture can bring hope.
Levi Garrison and Dr. Dark looked in different directions.
The Dark Doctor is detailed, the solution to each toxin.
But Levi Garrison was looking for a solution to the strongest poison at once.
For example, are there any drugs or methods that can solve all kinds of poisons.
No matter what kind of poison is okay.
…
Two people have been studying.
The two were even more careful not to miss a point.
A full day and night have passed for this research.
It was a pleasant surprise for Doctor Dark.
He has mastered too many poisons and solutions.
He is also very confident.
Even if these methods cannot directly detoxify Levilia, it is still possible to delay these.
You know, before he faced Levilia’s situation, he was helpless, and there was no way.
But after having a poisoning method.
He can at least control the onset of Levilia’s illness and delay the toxin.
He believes this is just the beginning.
Just after reading the poison scripture.

Levilia's situation may be resolved.
The two have been studying.
Soon came the end of the poison scripture.
After turning to the penultimate page at the end, Levi Garrison's eyes lit up fiercely.
The whole person was breathing quickly.
When Doctor Dark saw it, he was also stunned.
Does the poison scripture really have a way and things to unravel the poison? ? ?
The first part of the poison scripture is the collection record and solution of poison in the creator's life.
And later, this is the solution created by the creator of the poison scripture fusion of medicine and the
path of poison, and useful things and substances that have been tested.
All the things in the front of the co-author are pediatrics.
Finally is the real point!
Detoxification is too exciting.
Levi Garrison was short of breath, and he was about to suffocate.
As long as you master this method, wouldn't Levilia's poison be cured?
The answer is on the last page, as long as you turn it down, you can find a solution to Levilia's poison.
Levi Garrison shuddered and turned to the last page…
The Return of the God of War [The Protector] Chapter 3076
Doctor Dark's eyes are about to fly out.
In the end what is the method to unlock the poison?
And the most powerful poison in the world?
what exactly is it?
Can it compare to the strongest poison in Levilia?
Simply incredible.
But when Levi Garrison turned to the last page, both of them were disappointed.
Especially Levi Garrison almost exploded with anger.
There is a feeling of being tricked by fate.
It turns out that the last page of Poison Sutra has no content at all.
Its existence just means that the Poison Classic still has the second half of the volume.
The truly shocking things are hidden in the second half of the Poison Sutra.
The first half of the Book of Poison is just a record of all the poisons in the world, and the second half is
the core of the Book of Poison.

The methods and medicines that can solve all poisons at once are in the second half of the Poison Sutra.
Of course, the Poison Classic is definitely the most complete and powerful poison recorded.
The most powerful poison is also in the second half of the volume.
And the way to detoxify is to fight poison with poison.
The medical techniques in the Poison Sutra are actually poison techniques.
"Playing with me???"
Levi Garrison shouted angrily.
I thought that the Poison Sutra would be able to unravel the poison on Levilia.
Didn't think there was a second half volume.
Doctor Dark was also slumped on the ground.
It was a sense of gap between seeing hope and instant despair.
It's so huge that it's unbearable.
Levi Garrison was panting heavily, if Levilia hadn't woken up.
It is estimated that his violent outburst could destroy the entire Dongdao Imperial City.
"What to do? What's next?"
Doctor Dark is annoyed.
"Go to the Dongdao Royal Family again! Ask them for the second half!"
Levi Garrison said coldly.
"Okay, let's go together!"
...
In the East Island Royal Family.
The servant just cleaned up the mess.
More than a dozen gods are sitting together to discuss how to deal with Levi Garrison.
"boom……"
But in the next second, a powerful breath struck.
Levi Garrison appeared directly in front of everyone like a falling star.
"Pfft!"
"Pfft!"
With the sound, two heads fell to the ground.
The two gods fell on the spot…
Silly.
These gods, including the prince of the royal family, were also stunned.
He looked at Levi Garrison and the two fallen gods in disbelief.
stunned.
Everyone is shaking.
Everyone was about to freak out.

After all, they are discussing how to deal with Levi Garrison.
next second.
Levi Garrison appeared, and directly killed the two gods.
this this this…
They were found? ? ?
Then wouldn't the entire Dongdao royal family suffer?
Seeing that Levi Garrison quietly appeared to kill the two gods, his strength could not be stopped by
himself.
The purpose of Levi Garrison's direct murder is very simple.
If you smile and ask others for the second half of the poison scriptures, the Dongdao royal family may
have a flowery bowels.
*If you get some bullsh*t out of you, you won't necessarily come out with the real thing.*
It was very troublesome then.
The Return of the God of War [The Protector] Chapter 3077
It would be better for Levi Garrison to come up and kill directly, shocking the Dongdao royal family.
Let them do what they have to do?
That way they won't have sloppy guts.
If there is, it will be taken out directly.
After all, Levi Garrison's power is there.
…
The members of the East Island royal family in front of them are going crazy.
Kill anyone you see.
Looking at the posture, the Dongdao royal family can't keep it.
At this moment, Levi Garrison's voice sounded: "Hand over the second half of the Poison Sutra!"
"Ok?"
Everyone was stunned.
It turned out not because they planned revenge, but because of revenge.
Still come for the poison scriptures.
"His Royal Highness, side by side, didn't you take away the poison just now?"
which prince said.
The name has also changed.
They may not have been so afraid of Levi Garrison before.
But this time, Levi Garrison killed directly.
terrified them.

“The Poison Sutra has two volumes, the upper and lower volumes, you gave me the upper volume, take
out the lower volume! Otherwise…”
Levi Garrison’s voice was like a knife.
Everyone knows the consequences.
That is murder.
It is very likely that everyone will die.
However, Prince Dongdao looked depressed, looked at Levi Garrison timidly and said, “You may not
believe it when you say it, we don’t have the second half of the Poison Sutra at all!”
“Yes, the Dongdao Royal Family only collects the first half of the Poison Sutra, and the second half does
not exist at all!”
Others were also frightened.
For fear that Levi Garrison would kill them as soon as he opened his mouth.
This made Levi Garrison stunned.
After all, he killed the two gods as soon as he appeared, giving them enough shock.
They don’t lie.
The prince continued: “Short by word, His Royal Highness, I know this Poison Sutra! In fact, the
difference between the two volumes is too much! The first volume is very magical, but after all, it seems
that people collected it. But the second volume is amazing, it seems to be It’s the same thing created by
the gods! For a long time, the Dongdao royal family has also been looking for the next volume.”
“The first half volume was found from Daxia, but the second volume can’t be found no matter what, it
seems that it doesn’t exist at all…”
“If there was a second volume, we would have handed it over long ago. There is no need to gamble the
fate of our royal family with the poison scriptures!”
…
when they say these words.
Levi Garrison actually believed it.
At such times, they dare not lie.
After all, what was blocked was the fate of the entire Dongdao royal family.
Next, all the major members of the East Island Royal Family appeared.

All said that the second half of the Poison Classic does not exist in the Dongdao royal family, and it is
estimated that it is still in the summer.
Even the magical second half volume does not exist at all.
At this time, the message of the evil evil spirit also came.
The Poison Sutra called the Dongdao Royal Family is the first half of the book, and the second half has
disappeared.
No one knows where.
Levi Garrison nodded, and then looked at the royal family of Dongdao: "I ask you, where did you find
this half-volume Poison Sutra?"
The members of the Dongdao royal family shook their heads one after another: "I don't know, since we
can remember, this poison scripture has been in the royal family. The Dongdao royal family also collects
some precious items from all over the world. I don't know how they came from… Many things are very
rare. Got it a long time ago! We really don't know!"
Levi Garrison checked for a long time, but there was no result at all.
The second half of the Poison Sutra is not in the Dongdao Royal Family at all.
They also do not know whereabouts.
If you want to know the whereabouts, because of the character of Dongdao people, I am afraid that I
would have gone to grab it long ago.
There is no result, only to leave.
The dark doctor comforted: "Mr. Ye, don't be discouraged, at least this poison scripture records all the
poisons in the world! The poisons of the king's species should be able to correspond one by one, just
wait for the results of the Sky Shield Bureau to classify the specific toxins. Come out, the Poison Classic
still has a way to deal with it!"
Levi Garrison nodded: "Okay, at present, it can only be so."
Levi Garrison left as soon as they left.
The gods of the royal family of Dongdao continued to plan: "The plan has changed, Levi Garrison is
stronger than imagined! Pause the plan, observe and observe again!"
Another woman came out beside him.
"We can just watch the show! Levi Garrison is definitely a spoiler in this era! Especially he is definitely

going to War Bear Country!"
When the woman reminded her, everyone's eyes lit up.
"Yes, with Levi Garrison's current strength, he must go to Zhanxiong Country to kill Hydra!"
"When the time comes, we can cooperate with the War Bear Kingdom, and maybe we can take revenge
with our own hands!"
Everyone got excited.
Even looked at women with admiration.
Only she saw the form clearly.
…
Levi Garrison then asked Daxia's Tiance Shenshuai and the others to immediately search for the second
half of the Poison Sutra.
But hope is slim.
The Evil God of Poison searched for so long before he knew that the first half of the Book of Poison was
planted in the royal family of Dongdao.
Now to find a second half volume that disappeared or even did not exist, easier said than done? ? ?
Only to find another way.
But where is the hope?
Levi Garrison let out a long sigh…
Can you be in a hurry?
The Return of the God of War [The Protector] Chapter 3078
He knows Levilia's situation better than anyone else.
Don't watch yourself temporarily control it, but if the next outbreak occurs, who knows what the
consequences will be.
The current situation is – I don't even know where to go next.
There was no waiting for Levi Garrison and the others to leave.
A blasting message spread all over the world!
War Bear Kingdom announced – they have mastered the method of man-made gods.
As soon as this news came out, the whole world was really boiling.
After the environment has changed dramatically, what are the major forces in various countries lacking
now?
God!
The more gods, the stronger the country.
The gods represent competitiveness.

But the recovery of spiritual energy has passed, and how many gods have been determined.
There is no way for more gods to appear.
Therefore, many national forces are thinking about whether they can create more gods.
But man has no way.
This is only possible unless it is irradiated by the beam again.
According to the statistics.
All the gods are in the beam falling from the sky, the gods are bathed under the beam of light.
Especially those bathing at the top of the beam of light are more powerful.
It means that the spiritual energy in the beam of light is the most concentrated and the best to absorb.
It also shows that all gods are born from the bath of light beams.
When the beam of light fell, many people were afraid and did not dare to move forward.
Only a small number of people dared to bathe under the beam of light.
Therefore, there are so few gods.
If everyone knew that standing under the beam of light and bathing, they could become gods.
I am afraid that the whole world is now full of gods.
Of course, it is not possible to become a god after bathing in a beam of light, and it also depends on the
potential physique and so on.
Just more likely.
The gods are too important to the major powers and powers of the major countries now.
It's life!
But now that there is no beam of light, where is the birth of a god?
This is a headache for everyone.
But now in the War Bear Kingdom, someone has created a way to create a god.
How is this not shocking?
Some small countries and small forces only have three or four gods.
Now people want to create gods…
In theory, doesn't it say that the War Bear Kingdom has as many gods as it wants?
Red eyes!
Many national forces are going crazy!
Hungry!
If someone mastered this method, wouldn't it take off?
Don't make more, it's enough to make one or twenty gods.

However, the conditions for man-made gods are very harsh, and the requirements are relatively high in
all aspects.
It's not as everyone imagined, just build as many as you want.
Not even War Bear Country can do this.
But if there is a chance to create it, that's enough.
War Bear Kingdom also announced that this method was provided by Hydra…
The whole world was in an uproar again.
Sure enough, there is a reason to protect the Hydra.
Can provide such a powerful method, who can't guarantee it? ? ?
The point is that this method is too scary.
Can man make gods.
The Zhanxiong Kingdom itself is so strong that there are thousands of gods in the legend.
But everyone knows that this kind of data is completely concealed.
The real number is much more than that!
Now that you have mastered the artificial method of creating gods, how strong is that?
Even if this is an experiment, they have enough cards to experiment.
There are so many gods, just pull some, and they can do experiments.
fear!
The ultimate horror!
The Return of the God of War [The Protector] Chapter 3079
War Bear Kingdom also released a public announcement – these methods are not shared for the time
being, but they can be discussed.
The meaning of this is very simple. If other national forces have a hole card, they can come to discuss it.
Obviously, there is a huge price to pay, and other conditions must be exchanged for this method.
Other small countries don't even need to think about it.
There is no chance at all.
After this message came out.
There are many powerful countries that directly choose to join the War Bear Kingdom.
They will be sheltered by the War Bear Kingdom.
More and more gods are joining in.
According to the gossip, the method provided by Hydra – not only can artificially create gods, but also
strengthen the power of the original gods, and use the spiritual energy absorbed in the body to the

greatest extent.
This is as terrifying as man-made gods.
After all, in everyone's cognition, the gods have reached the highest level.
Where can I think that this can improve the strength…
Most people don't know.
But these gods do not know what their own strength is.
Although it is said that the body is full of spiritual energy, it has acquired various talents.
But it has never been able to maximize the power of the aura.
This is where the problem lies.
They can be even stronger.
And some gods who control advanced exercises, they can maximize the use of spiritual energy.
So they are stronger.
The gods are also divided into many stages, and not all gods are equally strong.
They are just more baptized with aura radiation than others.
Therefore, when Hydra has such means, it can not only become a guest of War Bear Kingdom, but also
become an existence supported by gods all over the world.
Now more and more people are protecting Hydra.
Even if they leave the War Bear Country, there are countless people who will protect them.
This leaves Hydra's enemies at a loss.
Now it's getting harder and harder to get rid of the Hydra…
…
After the dark doctor heard the news, he scolded: "These bastards really have two strokes! There are
ways to do this!"
"But they can't solve this strongest poison…"
"Looking at their appearance, I don't even want to untie it…"
Levi Garrison smiled: "That's not true! They are waiting for me to untie it!"
"Do you think they gave Levilia poison to simply destroy her? They actually want to know the solution,
let us know!
Whether or not they can detoxify is the same for them. "
The dark doctor immediately understood: "So that's the case, these bastards are waiting for our
solution."
"So I can't hide my whereabouts. Where we go is under their control!"
Levi Garrison said lightly.

Doctor Dark asked curiously: "Then we coax the Dongdao royal family and they also know?"
"I don't know the details. The Dongdao Royal Family will definitely seal the details! They don't want
others to know their cards, especially when the gods were slaughtered, and they won't let anyone
know."
Levi Garrison had long guessed that they had blocked all messages.
"Where are we going next?"
asked the Dark Doctor.
"Immediately, this kid of God's Brain will come. After meeting with him, let's see if he has a direction.
Let's wait!"
The brain of God stores a large amount of information, which is equivalent to the most powerful
intelligence organization.
He might have a direction.
Doctor Dark continued to study the Poison Sutra, and he waited for the Sky Shield Bureau to analyze all
the poisons.
The Return of the God of War [The Protector] Chapter 3080
At that time, he can use the Poison Sutra to come in handy to detoxify. temporary.
They live on East Island.
Levi Garrison also further maintained the vitality of Levilia's body and prevented toxins from attacking.
He found that the toxin was too cunning, pretending not to attack, but in fact slowly making small
moves.
After all, this poison contains too many toxins, some of which are very cunning, and it is even more
troublesome to adapt to Levilia's body.
Now Levilia is still showing a state – lethargy.
If she is awake, her vitality will be depleted, and her consciousness will be active, and it will easily
stimulate toxins.
Therefore, the state of lethargy is her body's subconscious protection of herself.
But it can't go on like this.
Levilia may have a situation where he will never wake up after drowsiness.

There will be the situation that Sky Shield experts say – consciousness exists, but people have become
poison.
Just when Levi Garrison was in a thousand thoughts, there was a sudden movement outside the door.
"It's all here, then come in!"
Levi Garrison said coldly.
The voice fell.
Five people have entered the room.
There are Eastern faces and Western faces.
All five are strong.
Although not god-level.
These people visited late at night without any hostility.
This made Levi Garrison very puzzled.
What are they here for?
"Tell me who you are? What are you coming for!"
Levi Garrison said.
"Our identity is very simple! Hydra is our enemy!"
"It's not just us, there are thousands of people! We have only one purpose – get rid of the Hydra!"
one of them said.
"Oh, those who hate Hydra!"
Levi Garrison nodded.
"Hydra has existed in the world for a long time. They are notorious and have done many, many evil
things! There are too many enemies in the world! Especially they have accumulated for too long!"
"Countless people have been looking for them, but Hydra has always been secretive! There is no way to
find them! If they hadn't taken refuge in the War Bear Kingdom this time, I'm afraid everyone would still
be unable to find them!"
"We have counted these days. According to the power of the Hydra's enemies, there are at least 50,000
or 60,000 people in the world! The number of people can't be calculated! Those who have been looking for Hydra to seek revenge, we count at least more than 4,800 forces
looking for them! "
…
As soon as this word came out.
Levi Garrison was also shocked.
It seems that Hydra is really notorious.

Offended so many people.
It can be seen that this bunch of bad things have been done.
This is only what they have counted, and there may be more that cannot be counted.
Maybe more forces and people were directly silenced by Hydra.
The Return of the God of War [The Protector] Chapter 3081
can no longer take revenge…
According to the extent of their bad deeds, these scumbags are more terrifying than the Lab of the Gods
and the Kingdom of War Eagles.
Take Levilia's strongest poison as an example, I don't know how many people and animals died in the
previous test.
At least tens of thousands of people, right?
Not to mention animals.
Especially this poison is composed of eighty-seven kinds of poison.
It is estimated that it will be difficult to experiment with fusion.
To test to perfection, you need a lot of "guinea pigs".
Really bad things done to the extreme!
If you count the people killed by Hydra, it is estimated that the number is too scary to count.
No wonder how many enemies they have!
In particular, it is estimated that everyone hates Hydra to the core.
I can't wait to slash everyone in the Hydra with a thousand knives, peel their skins and cramps, and drink
their blood…
Just like Levi Garrison!
Because Levilia was poisoned, he hated Hydra to the core.
Now is the person who has not encountered Hydra, otherwise he will kill in a daze.
Cut these people to pieces.
The five suddenly became angry and roared: "Now that we know the existence of the Hydra, we also
know where the Hydra is. Then we people will take revenge! Countless people want to take revenge!"
"Then go get revenge!"
Levi Garrison was a little speechless.
If you want to seek revenge from Hydra, then you should go boldly, what are you doing to find yourself?
? ?
He's not a Hydra!

“No, although everyone wants to take revenge! But the Hydra has taken refuge in the most powerful
force in the world today – the War Bear Kingdom!
And Zhanxiong Nation must protect them! There are at least thirty gods protecting the location of the
Hydra! And there are at least a thousand gods in the entire War Bear Country standing behind them! “
“Have you heard the news not long ago? Hydras have a way to create gods, which makes them guests!
It’s not just the War Bear Country that protects them, it’s the whole world!”
“How can we take revenge like this? Vengeance against the Hydra is equal to being the enemy of the
whole world!”
“Even if there are many enemies of Hydra, our strength is limited after all! I’m afraid that if we can’t
reach Zhanxiong Nation, we will die on the road!”
Several people explained.
Instead of stating the purpose directly, they explained a lot.
Levi Garrison looked up at the man and asked, “So what? The reason you came to me…”
He had already roughly guessed the group’s intentions.
“The reason for finding you is very simple! I want you to join us, unite, and take revenge on the Hydra!”
said the leader.
Others echoed: “We know your hatred with Hydra and gave your daughter the strongest poison! Don’t
you want to avenge this hatred?”
Levi Garrison sneered: “I definitely want to! If they can’t survive, I will kill them all!”
“That’s right, we are the same! We all want all Hydra to die!”
“However, it’s too difficult to get revenge on Hydra now! It’s simply impossible! The probability of
getting rid of Hydra is zero!”
“It’s even more impossible for one person and one force! Now many people understand this truth and
have given up their hatred. They don’t plan to take revenge against Hydra! They don’t even mention the
hatred of Hydra, for fear of being revengeful in the future. already.”
“And not a few! It should be said that 90% of the forces have given up this idea!”

“But how can we give up this undeniable hatred? We must take revenge! If we can’t do it alone, then we
all unite together! As long as our unity is strong enough, we can take revenge!”
…
Levi Garrison understood.
The enemies of the Hydra are gathering and uniting, trying to get revenge by twisting into a single rope.
It is clear.
myself is just one of them.
Not specifically to find their own dominant scene.
They also found a lot of people.
Maybe not one of them is important.
“Don’t worry, we have more than 30,000 people gathered now! There are still seven gods in charge!
They lead us to revenge!”
“Ok?”
Levi Garrison was stunned.
It never occurred to me that there are gods among the enemies.
Still seven!
But on second thought, it’s not surprising that this Hydra offended so many people.
“Our strength is still growing! There are all kinds of talents and strong people on the Internet!
I believe there will be more gods to join! We still have a great chance of revenge! “
The five looked at Levi Garrison solemnly: “Mr. Ye, although you are not a god, you can’t play a decisive
role. But you are a genius in strategy, and everyone knows it.”
The Return of the God of War [The Protector] Chapter 3082
“It’s too difficult to avenge the Hydra now. Not only does it require a large number of god-level
powerhouses to join in, but it also promises a foolproof plan! You are one of the planners the
organization needs!”
“We believe that you have a plan to maximize the combat power of our organization, most likely to
avenge the Hydra!”
…
Levi Garrison himself was happy.
It turned out that he wanted to join himself, because he saw his own ingenuity.

Indeed, if they were to avenge Hydra.
There must be an exact plan.
For example, how to enter the war bear country?
How to deal with the gods around Hydra?
How to deal with the support of the gods of the War Bear Kingdom?
…
This is of course a weak and incapable way of revenge.
But for Levi Garrison, it's very simple!
Appear directly in the War Bear Country, and the killing is over.
Whoever stops whoever dies!
Not to mention thirty gods.
That's three thousand, thirty thousand gods.
He couldn't stop Levi Garrison alone.
He wants to kill Hydra, and no one can stop him at this time.
Now it's just that the focus is on Levilia, so that the Hydra can live a little longer.
When he wants Hydra to be destroyed, he will let it be destroyed.
Very simple thing!
Just control the "God Tribulation" and kill it all the way.
"Join Mr. Ye! We need you!"
The five looked at Levi Garrison sincerely and asked.
But Levi Garrison smiled and said: "No need, I am enough to destroy the Hydra alone!"
The words are not surprising and die endlessly.
Levi Garrison said this.
All five were stunned.
Levi Garrison would refuse, they could expect it.
After all, Hydra is now protected by thousands of gods in the War Bear Kingdom, and seeking revenge
from them is tantamount to seeking death.
Everyone is afraid!
Therefore, more than 90% of Hydra's enemies have retreated and dare not take revenge.
They also specially invited many people, but they all refused.
He didn't dare to mention revenge at all, and he didn't even dare to mention hatred with Hydra.
Levi Garrison even though his daughter was given the strongest poison.
But it's normal for him to be afraid.
After all, Hydra is now the guest of honor, and the whole world may guard it.
Where can I get revenge.
Whoever takes revenge will die!

But he never thought that Levi Garrison would say this reason.
Is he enough to destroy Hydra alone? ? ?
*Totally bullsh*tting!*
In today's world, who can destroy the Hydra alone!
This is a total joke!
You are not even a god!
What about destroying the Hydra?
The organization that they have gathered at the moment has discussed it together.
If you want to completely take revenge on the Hydra, at least there must be nearly a hundred gods to
take action together, and then there is hope.
And hope is only 50%.
Hundreds of gods take action, only 50% of the hope.
Now Levi Garrison says that he alone is enough to destroy Hydra.
It's not like saying big things!
Is there a limit to bragging?
Don't say anything else!
One of the most difficult things in the world to accomplish right now is to seek revenge against Hydra.
It's recognized!
A hundred gods can't do it, can one person do it?
Just a joke!
Levi Garrison glanced at everyone: "What are you people doing, don't waste time on this matter!"
"It's enough for me to kill Hydra alone! Now I just let them live a little longer! I'll just take revenge for
everyone's revenge!"
"Disband your revenge alliance! If you can't do it, don't make fearless sacrifices."
What Levi Garrison said was an understatement.
But I heard that everyone was overwhelmed.
Is this Levi Garrison crazy?
He didn't take Hydra in the slightest.
It has taken refuge in the War Bear Country.
The revenge Hydra is to fight against the War Bear Country and even the whole world.
Everyone looked at Levi Garrison in disbelief.
Also called their revenge alliance to disband on the spot.
"Hoho, I never thought you could even say such a thing!"
"You're afraid, you're afraid! Why make a big deal out of it? Are you alone to avenge the Hydra? Do you

think you're the reincarnation of God?"
"I laughed so hard! I was obviously afraid of taking revenge on the Hydra, but I actually said this!"
...
Several people sneered.
"To be honest, your reason for refusing is too cowardly! You are a coward! Coward! Shrink your head
and turtle!"
Several people unabashedly used words to stimulate and insult Levi Garrison.
"We have invited many people to join, and many refused. Ninety-nine out of 100 people refused! But
their reasons are all telling the truth, that they are afraid and don't want to die!"
"Only you have given such a high-sounding reason!"
"We look down on you! Your daughter has been persecuted like this, yet you dare not seek revenge?
You are not worthy of being a father, let alone a man!"
"It's because of the existence of people like you that you can't survive! It makes the Hydra more and
more rampant! Provocatively provoking everything!"
"You don't even have the courage to take revenge! Are you worthy of your daughter?"
...
The five of them shouted at Levi Garrison with righteous indignation.
Levi Garrison said nothing.
But there was a flash of coldness in his eyes.
Killing intent.
"roll!!!"
shout out.
The five people were thrown high and flew out like a kite with a broken string.
"Bang bang bang bang..."
The five fell heavily to the ground, making a terrible sound.
After the five fell to the ground, their bodies curled up, gurgling blood.
suffered a terrible blow.
The Return of the God of War [The Protector] Chapter 3083
The key point is that they don't know how Levi Garrison made his move.
Is this guy so strong?
Although the five of them are not top-notch, they can be considered good players.

Otherwise, it would not be their turn to do something as important as a contact person.
But so what?
After all, it can't be compared to the gods!
And so timid.
In fact, how do they know?
Levi Garrison did not kill, otherwise all these people would die.
But the few people who fell to the ground looked stubborn: "Okay, if you have the energy and strength
to vent to Hydra, you are a coward!"
"Isn't this quite powerful? What? Are you afraid of Hydra? Don't dare to join the ranks of revenge?"
These five people's mouths were as hard as boiled ducks.
Although you have defeated us, we will not accept it.
Instead, you are still a coward!
We will scold you too!
"One more word, kill you!"
Levi Garrison exuded substantial murderous aura.
This made the five people tremble.
Really scared.
They felt that if they didn't leave, Levi Garrison would really kill.
"That's all you can do? You can only kill other people. If you have the ability to kill Hydra!"
"Among so many people in Levi Garrison, the one I despise the most is you!"
"Do you think we can't do it without you? We don't need a waste! Just wait, we will destroy the Hydra!"
…
Several people scolded and ran away.
He was afraid of death, and his mouth was hard.
Just because they were the enemies of Hydra, Levi Garrison didn't kill him.
Otherwise they would have died long ago.
Levi Garrison's voice also echoed in their ears: "The Hydra can only be killed by me, no one else!"
The group just left.
Levilia woke up, she looked at Levi Garrison and whispered: "Dad, I know not only that you are not
afraid, but you will really go to revenge alone! But Levilia hopes that Dad will not take revenge! Levilia
will get better… …"

Don't look at Levilia's sleepiness every day, but Levilia knows exactly how the situation is.
She also knew that Hydra was guarded now, and revenge was a dead end.
Especially Levi Garrison's stubborn temperament she knew, he would really go to revenge Hydra alone.
Of course this seems to be impossible anyway.
Levilia doesn't want Dad to be in danger.
Levi Garrison touched Levilia's little head: "Don't worry, Dad is looking for a way to cure you now. We'll
talk about the Hydra…"
Hearing this, Levilia was relieved, and then fell asleep.
Her narcolepsy is getting worse.
This is clearly a symptom of poison.
They are nibbling away Levilia, making Levilia sleepy as a last resort…
the next day.
The Brain of God has come.
First, he scolded Hydra and War Bear Kingdom.
"Actually, you and I are just tools used by others, but don't use our identities to do things, or you won't
know how to die!"
"I realize more and more that we are tools. It is estimated that the War Bear Congress will push us to a
dangerous place in the future. When someone kills us, the War Bear Congress will use this to start a
war! We are the most honorable guests, who moves? It is to be the enemy of the War Bear Country!"
…
The mind of God has analyzed a situation.
The War Bears will use their lives as a reason to go to war.
In fact, many forces now want to go to war, especially for places like Daxia where there is no god.
Countless people are watching.
There is no reason to go to war.
But the dark doctors can count them as reasons.
For example, the Dark Doctor and the Brain of God died innocently in Daxia.
The War Bear Kingdom went to war for this reason (Daxia killed the reborn parents all over the world,
and the guests of countless gods).
Levi Garrison sneered: "They sheltered Hydra, I have written down this hatred."
The Return of the God of War [The Protector] Chapter 3084

Don't know why.
The two doctors in the dark looked forward to the day when Levi Garrison set foot in the Zhanxiong
Kingdom.
"By the way, do you have any direction now?"
Levi Garrison and the two looked at the brain of God.
God's Brain took a breath and said, "There is still something to gain! I heard a rumor!"
"Huh? What rumors?"
Levi Garrison asked the two of them.
"It's about the strongest poison! Why did Hydra study the strongest poison? It must be unprofitable!
Rumors are that Hydra's purpose for researching this poison…"
When the brain of God said this, everyone reacted.
Hydra is full and has nothing to do?
Why study this poison?
And this poison must have cost a lot of money, material, energy, and time.
Doctor Dark knows these things best.
Although he said it was out of interest, the research on these poisons was actually to be used as a
weapon for the laboratory of the gods.
Thinking about it now, Hydra will not study this strongest poison for no reason.
This organization is famous for studying ancient monks, and they are certainly not a hobby.
There is definitely a purpose to this research.
The use of the strongest poison is estimated to be greater.
"They researched this strongest poison to deal with their enemies… But I don't know who it is, and I
didn't find out."
said the brain of God.
Levi Garrison and Doctor Dark looked at each other and said, "How terrifying is this person? It's worth
them to develop such a poison to deal with!"
The brain of God nodded: "I think so too! Therefore, I feel that there may be a way to find this enemy of
Hydra?"
"Theoretically, this is possible! If you can specialize in dealing with this kind of poison, it shows that this
person is not simple. But where can you find it?"
The words of the dark doctor are like pouring a basin of cold water on the brain of God.

It's just a rumor.
It is the same as Daxia's Town Demon Division and Tianshifu.
Nothing but hope.
"Hey! It's true! But I heard that the War Bear Kingdom asked Hydra to start researching the solution to
this poison!"
"After all, controlling this kind of poison is much more terrifying than simply using this kind of poison!"
...
All are hopeful.
But the hope is too slim.
Levi Garrison couldn't catch it at all.
He still believes in the poison scriptures a little more.
According to the records of the Poison Classic, the second half of the volume contains the strongest
poison and the way to solve the ten thousand poison once and for all, and even the treasure of heaven
and earth to solve the ten thousand poison.
Now Levi Garrison's goal is to find this kind of heaven and earth treasure, and there is some kind of
magic medicine that dissolves Levilia's poison at one time.
Have to start in this direction.
In the past, it was estimated that the probability of finding this magic medicine was small.
But now that the spiritual energy is recovering, there may be some kind of magic medicine that breeds
somewhere.
Levi Garrison was convinced of this.
After all, during the time he and Doctor Dark visited the forbidden land, the harvest was still not small.
Of course, there is no magic medicine that can unlock Levilia's poison at one time.
There is magic medicine, but the level is not enough to match the poison in Levilia.
But if you keep looking, there is still hope.
Next, Levi Garrison's team increased to four.
The goal of their search is still the same – continue to start in the forbidden area.
The forbidden places explored before were all on land, and none in the sea.
therefore.

The four of Levi Garrison began to explore the forbidden area around the East Island.
For seven consecutive days, he explored twelve forbidden areas in the sea area.
The gains are still not small.
Really found a lot of heaven and earth treasures.
Of course, he has also encountered beasts in the sea that are comparable to gods.
Don't know why.
The two doctors in the dark looked forward to the day when Levi Garrison set foot in the Zhanxiong
Kingdom.
"By the way, do you have any direction now?"
Levi Garrison and the two looked at the brain of God.
God's Brain took a breath and said, "There is still something to gain! I heard a rumor!"
"Huh? What rumors?"
Levi Garrison asked the two of them.
"It's about the strongest poison! Why did Hydra study the strongest poison? It must be unprofitable!
Rumors are that Hydra's purpose for researching this poison…"
When the brain of God said this, everyone reacted.
Hydra is full and has nothing to do?
Why study this poison?
And this poison must have cost a lot of money, material, energy, and time.
Doctor Dark knows these things best.
Although he said it was out of interest, the research on these poisons was actually to be used as a
weapon for the laboratory of the gods.
Thinking about it now, Hydra will not study this strongest poison for no reason.
This organization is famous for studying ancient monks, and they are certainly not a hobby.
There is definitely a purpose to this research.
The use of the strongest poison is estimated to be greater.
"They researched this strongest poison to deal with their enemies… But I don't know who it is, and I
didn't find out."
said the brain of God.
Levi Garrison and Doctor Dark looked at each other and said, "How terrifying is this person? It's worth
them to develop such a poison to deal with!"

The brain of God nodded: "I think so too! Therefore, I feel that there may be a way to find this enemy of
Hydra?"
"Theoretically, this is possible! If you can specialize in dealing with this kind of poison, it shows that this
person is not simple. But where can you find it?"
The words of the dark doctor are like pouring a basin of cold water on the brain of God.
It's just a rumor.
It is the same as Daxia's Town Demon Division and Tianshifu.
Nothing but hope.

Really found a lot of heaven and earth treasures.
Of course, he has also encountered beasts in the sea that are comparable to gods.
The Return of the God of War [The Protector] Chapter 3085
Levi Garrison killed a lot, and then the two doctors in the dark took away the "treasures" on the beasts
one by one.
Give them a boost in power.
However, there is still no solution for Levilia's situation.
No matter what the treasures are in the sea!
Levi Garrison was helpless and could only tell himself not to worry.
But when they were about to leave the East Island.
The intelligence of the God's Brain worked.
brought good news.
"I found a holy spring deep in the Amazon rainforest in southern China! It has a magical effect, and the
local people can drink it to cure all diseases. The local people have always lived a long life.
In fact, the real situation of this holy spring is exaggerated faster than this, and it is not too much to say
that it is coming back to life. But it's actually terrifying, and I couldn't explain it to this holy spring for a
while! "
"After the aura recovered this time, someone finally understood what happened to the holy spring.
Because there is a small spiritual vein under this holy spring! The aura inside is rich and rich, and it has
been nourishing the holy spring, making the holy spring have magical effects. .

After the spiritual qi was revived this time, the spiritual veins under this holy spring were also burst
open, and most of the spiritual veins melted into this holy spring! Now this holy spring is even more
terrifying than before, it should be able to achieve the effect of detoxifying!
“
When God’s Brain finished explaining, Levi Garrison couldn’t wait.
“What are you waiting for? Let’s go!”
The four set off in a hurry.
“Although there are many heaven and earth treasures absorbing or nourished by the spiritual energy,
this holy spring has been nourished by the spiritual veins for a long time before, and it has become a
medicinal spring. With this accident, it has completely become a magical medicine. Izumi! I feel
hopeful!”
Levi Garrison explained.
At the same time full of hope.
What he wants is this kind of heaven and earth treasure that dissolves all toxins at once.
Coupled with his support next to him, Levi Garrison believes that there is complete hope for Levilia to be
cured.
The four hurried to the Amazon rainforest.
But there are problems.
Today, the natural area of the Amazon rainforest has long been listed as a forbidden area by various
countries.
According to the regulations of each country-
The third-level forbidden area is an area that is at least comparable to god-level beasts.
The major forces of various countries are currently conducting expeditions and excavations in an orderly
manner. Of course, more than two gods must be assembled before they are willing to explore.
The second-level forbidden area is an area where there are at least ten animals comparable to the gods.
At present, apart from the War Bear Kingdom, no state forces dare to venture to the second-level
forbidden area.
The search was successful.
What if it fails?

How many gods have to lose to get in.
Many small countries do not even have the capital and cost of exploration.
The first-level forbidden area is the most terrifying. The standard is at least fifty to one hundred beasts
that are comparable to gods, and there are some unknown horrors.
For example, in natural dangers, such as the spiritual vortex of the Antarctic glacier, even if the gods
enter, they will die.
There are not many first-level prohibited areas marked by major countries in the world.
No more than twenty.
Not even the War Bear Kingdom has explored the first-level forbidden area.
After all, to explore the first-level forbidden area, at least hundreds of gods must be invested.
The price is too great.
Risks that even they are unwilling to take, let alone other forces.
The depths of the Amazon rainforest are now a first-class forbidden area.
Some people estimate that the number of god-level beasts in the deep Amazon rainforest is at least 100,
or even impossible.
This is not to mention other natural risks.
The Return of the God of War [The Protector] Chapter 3086
Some major forces have predicted that the Amazon rainforest has natural dangers, and even if the gods
enter, it will be difficult to escape.
Not to mention others.
So go to the Amazon rainforest to survive.
It was only halfway through that the mind of God remembered this question.
It's not that he is worried about Levi Garrison's strength, but this level of forbidden area is indeed a bit
scary.
Hundreds of beasts comparable to gods, who knows what it looks like.
He also understood, no wonder other people rarely know about Shengquan.
Or that it didn't spread at all.
There must be many people who know about the holy spring, but the holy spring is deep in the Amazon
rainforest. Who dares to go?
That's a first-class forbidden area!
You will go only if you are looking for death!

Not to mention ordinary people.
Even a god would not dare to go.
Therefore, even if someone knows about this holy spring, it is estimated that they will not take it to
heart and mention it.
After all, you can't do it yourself.
It has nothing to do with your own interests, so why bother.
If this holy spring was easy to find, this group of people would have gone crazy looking for it.
Not that there is no information yet.
However, this area was listed as a first-level forbidden area, and this holy spring was known.
But it's no use knowing.
Ten lives can't drink a sip of spring water, even for the gods.
Who else wants to go? ? ?
But there are people who really want to go!
In order to improve their own strength, some gods are willing to go here to accumulate combat
experience.
If you can enter and exit the first-level forbidden area without dying, your combat power will definitely
be greatly improved.
For example, there will be many god-level powerhouses coming to War Bear Kingdom this time.
Of course, they didn't want to level this first-level forbidden area.
That would be too expensive.
At least three or four hundred gods must come.
Now the purpose is to come to the first-level forbidden area to experience and improve their own
strength.
Not many gods came.
Forty or fifty or so.
Basically, they act alone, or in groups of two or three gods.
In addition to the gods, there are many masters who are about to become gods this time, and there are
many young masters with potential.
It is said that it has something to do with the Hydra people's plan to create a god…
This holy spring can play a vital role, so they are determined to get the holy spring.
After all, with this holy spring, everything else can be done with half the effort.

Not comparable to other resources.
It is estimated that they want to use the resources of this place to artificially create gods.
High profile!
Now Zhanxiong Nation is acting in a high profile and doesn't take anyone in the eye at all.
They announce everything in a high profile!
It's as if he's telling people – come and hit me!
The message was also quickly known to the Brain of God.
"Okay, very good! Whoever dares to attack Shengquan's idea, kill Wushe!"
Levi Garrison said coldly.
"Buzzing…"
The Return of the God of War [The Protector] Chapter 3091
…
But this holy spring transformed him.
"This effect is too good, right? It's much better than the heaven and earth treasures we encountered
before!"
Doctor Dark exclaimed.
surprise!
It was a big surprise for Levi Garrison!
Shengquan was unexpected, even better than he had imagined.
Completely a medicinal spring.
There is another piece of spiritual vein nourishment, which is simply against the sky.
It's possible to come back to life…
What's more, this holy spring is still being nourished by the spiritual veins, and it will be even better.
"What about Levilia? Is it delicious?"
asked the Brain of God.
"No, just soak it!"
"Your Majesty!"
After Levi Garrison awakened Levilia, he directly let Levilia enter the medicine spring.
In this way, the medicinal power can be absorbed too much.
Levilia's entire body was soaked in the medicinal spring.
"It might hurt, just bear with it…"
Levi Garrison reminded.
"Okay, Dad!"
Levilia gritted his teeth.

In an instant, the medicinal power of the holy spring penetrated into Levilia's limbs and bones.
Levilia immediately suffered extreme pain, and at this moment, the body she couldn't control came
back.
Every pain nerve in my body has returned…
This pain is more than anything Levilia has endured before.
When she practiced, she was actually tempering herself.
Endured unimaginable pain.
But compared with the current medicinal power entering the body, it is far worse.
Levilia was bubbling with gas all over his body.
Levilia even hurt to the dense bloodshot face, and the whole person was twisted.
But it was quickly replaced by colorful toxins…
It seems that the medicinal power is detoxifying…
Levi Garrison waited nervously beside him, and he would do anything when Levilia had something to do.
Seeing Levilia enduring this extreme pain, Levi Garrison felt distressed.
Tears could not stop falling.
Levilia is still a child…
Doctor Dark also saw his scalp tingling.
He has been dissecting his whole life and understands the stages of pain.
Now, Levilia endured almost the highest level of pain.
After all, every place on Levilia's body, every pore, is suffering extreme pain.
"Hold on! You must hold on!"
The three stood by Levilia.
Levilia has been enduring extreme pain.
But gradually Levi Garrison's brows relaxed.
effective!
Sure enough, the direction of the second half of the Poison Sutra was right!
There are treasures of heaven and earth that can solve all poisons at one time.
Now this holy spring is obviously…
I can clearly feel that the medicinal power of the holy spring is dissolving toxins…
Even if the effect is not particularly significant, it is indeed resolved little by little…
effective!
It really works!

The Return of the God of War [The Protector] Chapter 3092
The previous golden magic medicine had a little effect, and Levi Garrison had to feel it carefully.
But now it's really working.
Even the naked eye can see that the toxin is being forced out a little bit.
Faced with this situation, Levi Garrison began to be ecstatic.
Really useful!
At this rate, after a period of time, the poison on Levilia's body can't be solved at all, but at least half of
it can be solved.
Moreover, you must know that this medicinal spring is still absorbing the exploding spiritual veins. If it is
completely absorbed, the medicinal power will be even more different.
Even soaking for a long time does not necessarily remove the poison on Levilia's body.
"Puff puff……"
At this moment, this medicinal spring is also boiling, and small bubbles are emerging.
Everyone has also seen how terrifying this most powerful poison is…
Because the medicinal power is to dissolve toxins, the water in the medicinal spring is losing the
medicinal power of the essence…
In layman's terms, the essence of the spring water is being absorbed by Leviliazheng, and this spring is
turning into ordinary spring water.
After being absorbed by Levilia, I am afraid it will become an ordinary spring.
No effect at all.
Fortunately, this holy spring nourished for an unknown time.
According to information, it is said to have been nourished for at least a thousand years.
The medicinal power contained in the spring water is too amazing to be absorbed by Levilia quickly.
And there is also a burst of spiritual nourishment below.
It is estimated that this holy spring can last for a period of time and can remove most of Levilia's toxins.
Of course, it also shows how domineering this toxin is.
A sip of the medicinal spring that has nourished it for at least a thousand years is still nourished by the
spiritual veins, and it can't be dissolved.
It's going to be a long time…
But the current effect is much better for Levi Garrison.

This is the only hope that the naked eye has ever seen.
But Levilia was really in extreme pain, and let out a heart-piercing cry.
"Huh? Someone actually arrived early?"
Just then.
One after another figure appeared.
The strong teams of War Bear Country are slowly gathering.
The other "rabble crowds" couldn't predict where the beasts would appear, so they bumped around and
integrated the beasts to fight.
However, there is a small team commanded by the rear of Zhanxiongguo.
They have gods to detect holy
springs and gods to perceive beasts.
Although the journey was still difficult, at least they survived all the way and found the location of the
holy spring.
In their opinion, no matter how many people come in, only they can find the holy spring.
Can never imagine.
Someone got here one step ahead.
"Isn't this Levi Garrison? Why are they here?"
Everyone recognized Levi Garrison and his party at a glance.
When they saw Levilia soaking in the holy spring, these people reacted immediately.
"No, Levi Garrison brought his daughter to Shengquan to detoxify…"
Now Hydra is in War Bear Country.
Therefore, everyone in Zhanxiong Nation knew that Levilia was poisoned.
A group of people rushed up.
Seeing them, Levi Garrison said coldly, "Is everyone here? I want to kill them all!"
Dare to disturb my daughter's treatment.
Everyone will be killed!
Especially when they also shelter Hydra!
excited!
With so many powerhouses in the War Eagle Nation coming together, Levi Garrison's face was full of
excitement.
"Ok?"
The warriors of the War Eagle Nation who were rushing towards them were all stunned.
Let them all come together?
Then kill them all?
Why is this Levi Garrison?

What right do you have to say such a big thing?
However, the powerhouses of Zhanxiong Nation had to gather together, even the team that controlled
and dominated everything from the rear had to come.
Moreover, the speed of this group of people is very fast, and it is estimated that all of them will gather
within a few minutes.
The Return of the God of War [The Protector] Chapter 3093
"Levi Garrison, what are you doing??? Dare to let your daughter soak in the holy spring! Your daughter
has soiled the holy spring! Get out now!"
"Yes, the holy spring is so holy and supreme, your daughter can't even take a sip, let alone soak it in it!
This is a dirty holy spring! The holy spring does not allow any contamination with stolen goods!"
The two young strong men who stepped forward first shouted directly.
In the eyes of the people of War Bear Country, the holy spring is their own.
The others were determined not to move.
Levi Garrison said nothing, just looked at them.
next second.
He just disappeared in place.
When he reappeared, he directly slammed into the two young powerhouses.
"puff!"
"puff!"
Accompanied by the screams, the two threw them high and backward, like a kite with a broken string.
It's like being hit by a high-speed plane.
"Bang bang…"
After the two landed, they didn't move.
I saw their flesh and blood was blurred, and they had no appearance at all.
In layman's terms, two pools of flesh and blood…
People are already dead.
stunned.
No one thought that Levi Garrison would do something.
The key is that he is still very strong, these two geniuses just died.
A dozen young powerhouses in front of them watched their companions die, and immediately yelled at
Levi Garrison: "You are so brave, you…"

It's just that halfway through his words, he felt a pressure from the top of Mount Tai, and he seemed to
be locked up.
Except for a little consciousness, no other parts of the body can move.
"boom!"
Shadows appear on the retina.
Others have already flown out.
It feels like the soul and body are being ripped apart.
The same goes for other young strong men.
They still wanted to warn him, but Levi Garrison didn't talk nonsense at all, and hit him directly.
Suddenly, a dozen people flew out.
They didn't see clearly how Levi Garrison made his move.
"Bang bang bang…"
There were more than a dozen corpses on the ground, and the powerhouses of the War Bear Country
behind them reacted.
"I just said why you were able to find the holy spring before us, it turns out that you really have the
ability!"
Everyone reacted one by one.
Levi Garrison was not as weak as they thought.
Rather strong.
Although killing these dozen people had the element of a sneak attack, it was strong enough.
It seems that if you don't move the gods, you can't kill him.
The key point is that there is no aura lingering on him, indicating that he has not been baptized by aura
radiation.
He is so strong, he must have trained on his own.
But in front of them, killing so many geniuses is a shame!
Everyone was blushing and angry.
"Levi Garrison, you are finished!"
To dare to kill the genius of Zhanxiong Nation is to obliterate the future of Zhanxiong Nation.
How is it possible to live?
They even looked at the two doctors in the dark behind: "Don't look at you as the guests of honor, but
that is our decision! We can control your life and death! Since you choose to be with him, stay here
forever today. here!"
Not only did they want to kill Levi Garrison.

Also kill two dark doctors.
"Da da da……"
The sound of footsteps sounded, and more and more warriors from the War Bear Kingdom came here.
In the end, even the rear team came.
All the people who came to experience this time in War Bear Kingdom gathered together.
"We're all here, don't you want to kill them all?"
The Return of the God of War [The Protector] Chapter 3094
The people of Zhanxiong Nation looked at Levi Garrison grimly.
Arrogant!
The War Bear Kingdom has been arrogant to the extreme recently, ignoring anyone.
Especially one Levi Garrison.
Can you fight again?
To be able to compete with a god is already against the sky, right?
So far, I have never heard of anyone comparing the radiant energy of aura with the gods!
Even if Levi Garrison can fight now, what if he can compete with the gods?
Now all the teams in the War Bear Kingdom add up to fifty-five gods.
The other five or six hundred powerhouses are also full of talents, and some have high hopes. Many of
them can be artificially created into gods through the methods provided by Hydra.
With such a powerful team, what if Levi Garrison can fight again?
Not looking for death?
"Okay, I killed more than a dozen of us! Today you and your daughter are going to die!"
The gods who came later were furious when they found out about this.
Facing the fifty-five gods and hundreds of superpowers in front of him, Levi Garrison glanced at him and
said, "Are you all together?"
"All right, what's wrong? They're all here!"
Several people asked subconsciously.
"Okay, then I'll start killing, all have to die!"
Levi Garrison's voice fell.
"Divine Tribulation" was suspended in front of him, making a turbulent trembling sound.
"Can you kill a god with just one sword? Ridiculous…"
A god sneered disdainfully.
"Pfft!"

But he didn't finish laughing, a bloody arrow shot, and his head was gone.
The corpse is separated! ! !
This is what no one thought of.
A god was killed by a sword like this?
Without waiting for their reaction, Shen Jie continued to shuttle.
Too fast to capture…
"Pfft!"
"Pfft!"
"Pfft!"
…
The blood lines are rippling and intertwined, just like the lines of ink painting.
It can be accompanied by the separation of the body and the head, and the balls are thrown up and
down…
That is the picture that was passed through by the gods.
Everyone could not resist, and even said that they could not capture the trajectory of the divine calamity
at all.
Everyone didn't react, and their heads fell…
Divine Tribulation is an indiscriminate bombardment, shuttling through the crowd, unstoppable.
One;
two;
ten;
…
a hundred……
Some people in the War Bear Country team continued to fall.
Death is horrific!
But they didn't react at all.
Now that Levi Garrison controls the divine robbery, it is completely covered bombing.
They don't specifically pick people and deliberately avoid powerhouses such as gods.
But kill whoever is in front of you!
Not only other strong men, but also gods.
My god robbery directly kills!
Just a human head.
It doesn't matter.
Divine Tribulation continues to shuttle.
Finally, a stronger god began to react, displaying all kinds of tricks, mobilizing the most powerful aura,

and turning it into the strongest shield or ultimate move to block the divine calamity.
"Pfft!"
It's just that Shen Jie simply ignores their defenses, no matter how strong the shield and how strong the
ultimate move, Shen Jie directly pierces it with a sword.
Immediately take the god's head away.
Can't stop!
It can't stop the calamity at all!
All the gods started to resist, and other strong people who could react to it also joined the
counterattack."
The Return of the God of War [The
Protector] Chapter 3095
"Pfft!"
"Pfft!"
…
But you have thousands of changes, and the gods are still killed with one sword.
"Unite, unite…"
This group of gods tried to unite to deal with the calamity.
The top ten gods united together to hold up a protective cover.
"Pfft!"
But this time it was even worse.
Divine Tribulation penetrates ten gods at once!
Ten heads thrown up high…
Shocked!
So shocking!
Divine Tribulation continues to kill indiscriminately…
This group of people showed their best skills, but they were all to no avail.
It can't stop the power of God's Tribulation at all!
…
Three hundred fell:
Four hundred fell;
Five hundred fell:
…
Finally, under the beheading of Divine Tribulation, there is no one standing in
front of me…
Kill everyone with one sword!
Doctor Dark, they were all dumbfounded!
The whole army is wiped out!

There are a total of fifty-five gods in the War Bear Kingdom plus six or seven
hundred powerhouses (many of them still have the potential to become gods).
They were all killed by Levi Garrison's sword.
It took only a minute before and after this, and they all died.
Not a single one was left.
Whether it is a god or a strong man, all it takes is one sword in Levi Garrison.
Levi Garrison withdrew the calamity expressionlessly, as if he had done a very
common thing.
The two doctors in the dark were shaking.
That is fifty-five gods and hundreds of elite powerhouses!
There are about ten gods in the country of Lynx and the country of Julu.
It is equivalent to Levi Garrison beheading five lynx countries at one time.
Even if the eleventh-ranked Dongdao has a total of hundreds, it will be half of
them next time.
In fact, Levi Garrison has done a super big thing that caused a sensation in the
world.
But here he is so understated.
It's as simple as eating and drinking.
This time, they finally understood why Levi Garrison ignored Zhanxiong Kingdom.
This is capital.
Levi Garrison walked back to the holy spring step by step, and said lightly: "They
should have treasures and the like on them, and they can all be divided up."
Hearing Levi Garrison's reminder.
The two reacted immediately, ran up to search, and divided all the treasures on
them.
Now the War Bear Kingdom is extremely powerful, and it is also very rich.
All kinds of heaven and earth treasures, all kinds of equipment are available.
The two gained too much.
After the two searched.
Levi Garrison coughed lightly.

Those overlord-level beasts that disappeared before actually appeared in the
back.
The two doctors in the dark were puzzled for a while.
The next moment, they understood.
This group of overlord-level beasts understood what Levi Garrison meant, and
even swept away all the corpses.
In an instant, the field was much cleaner.
Apart from the blood, there was no other corpse left.
The body of the beast is a treasure to everyone, especially the god-level ones.
Then the corresponding human strong body is also a treasure to them.
This is Levi Garrison's gift to them.
The Return of the God of War [The
Protector] Chapter 3096
Seeing the doubts of God's Brain, Levi Garrison said lightly:
"Resurrection of
spiritual energy has also opened up their intelligence, and they are smarter than
some people!"
to this.
Doctors of Darkness are qualified to speak.
He has studied too many creatures, too many psychic ones.
What weird and shocking things have you seen?
This is nothing in front of me.
Levi Garrison returned to Shengquan to continue to protect Levilia.
At this moment, Levilia has passed out of pain.
Still in good condition.
The medicinal power of the holy spring continues to detoxify toxins…
Although the toxin is dissolved very slowly, the effect is still there.
In the end, no matter how much it resolves, it has always been beneficial to
Levilia.
According to the current effect.
At least it can defuse half of the poison on Levilia's body.
Doctor Dark also expected the same.
"This poison is too cruel! Such a mouthful of medicinal spring can only dissolve
half of it!"
Doctor Dark sighed.

Levi Garrison said: "But it also shows that it has an effect. If it can resolve half of
it, we can find other ways or treasures!"
The dark doctor nodded fiercely: "Yes, if I find another magical medicine similar
to this holy spring! Levilia can really recover!"
"Yes, in fact, according to the current situation! I am sure! At least in the short
term, I can control the situation of Levilia!"
Levi Garrison is very confident.
Then continue to search.
But soon his face changed.
Because the holy spring is a problem.
He can't dig it out.
The holy spring can only be in this place, and it must be continuously nourished
by the spiritual veins below.
This holy spring cannot be moved.
Levilia can only be soaked here all the time…
And Levi Garrison had to find other treasures.
This is how to do?
Difficult!
Levi Garrison looked at the dark doctor…
But he sighed, Doctor Dark couldn't keep Levilia.
He really had to keep it.
He can leave in a short time, and as soon as Levilia is in danger, he can come back
directly.
If he leaves for a long time or he is entangled in something and can't come back
at the first time, it will be troublesome.
Really have to find some strong people to guard here.
Levi Garrison was thinking carefully.
There are really suitable candidates.
Doctor Dark also understood this. He looked at Levi Garrison and asked, "Do you
already have a suitable candidate?"
"Well, next I need to go outside and find them!"
Levi Garrison said.
at this time.
There was a sparse noise in the deep forest behind.
someone is coming.

The next second, a group of more than 20 people appeared.
Bloodstained all over, embarrassed.
There are four god-level people in this group. Except for the nine old people who
are almost god-level, they are all young geniuses.
Apparently they had just come here after a tough battle.
Belong to the leader of the forces to come.
Don't look at the embarrassment of this group of people, but in fact, after the
war, everyone's combat power has been improved.
Even these four gods.
They are from the empire on which the sun never sets.
And these young people are members of the royal family, and they are the key
training objects of the empire on which the sun never sets.
In fact, there were eight gods who followed and protected them. In the battle
just now, four gods and more than 20 strong men were lost.
Now finally came to the location of the holy spring.
"This is ours! Hahaha…"
The crowd burst into arrogant smiles.
"The country as strong as the war bear didn't come early, and they must have
been trapped by these beasts!"
These people have acquiesced that the holy spring is theirs.
Completely ignored Levi Garrison and several others.
Just as they were about to rush over to carve up the holy spring, a group of
people in the jungle next to them also rushed out.
"Ok?"
"The Robben Empire???"
The Return of the God of War [The
Protector] Chapter 3097
Everyone in the Empire of the Sun Never Sets recognized it.
This gang belongs to the Robben Empire!
The strength is almost comparable to that of the empire on which the sun never
sets.
It is also one of the most powerful forces in the world today.
Ranked seventh and eighth respectively…
It is said that the number of gods in both countries is more than 200.
Otherwise, they wouldn't dare to explore the first-level forbidden area.

“You are here too…”
The strength of the Robben Empire’s team is also similar, and they are all four
gods, and the number of other powerhouses is similar.
They also all made a bloody way.
Come here.
In fact, it’s a matter of their choice.
Not long ago.
When they were attacked by the tide of beasts, they suffered heavy damage.
It can kill a bloody road, but the choice of direction is also an important issue.
Most forces chose to return and escape from the rainforest.
But after making such a choice, there are beasts everywhere.
The Sun Never Sets Empire and the Robben Empire are very few of them who
choose to go directly in the direction of the Holy Spring.
In fact, in theory, the most dangerous place was chosen.
But here is the safest place.
They walked all the way to the holy spring, and were surprised to find that the
further they went in the direction of the holy spring, the more there were no
beasts.
When they came to the neighborhood, they didn’t have one, which made them
very strange.
Is it this safe here?
But they were right.
It is right to come to the Holy Spring.
How did they know that because there was Levi Garrison’s aura around the holy
spring, that fierce beast dared to come?
Tired of living?
It’s actually not difficult for the two teams to come here…
The two teams looked at each other, and a god from the Never Sunset Empire
suggested, “Right now there are many dangers here, and those beasts are likely
to come here violently…”
“Why don’t I suggest that we two should stop fighting and enjoy this holy spring

together?”
“Those of us can drink as much as we can, and take as much as the rest of us can?”
“If the two of us fight, we will lose both, and the beasts will come here, and
neither of us will be able to survive!”
“What do you think?”
The sun never sets the gods of the Empire said so.
There was a commotion in the Robben Empire team.
Without any hesitation, the gods led by the Robben Empire agreed:
“Okay, let’s
enjoy the holy spring together! Then we will share the treasures around here!”
They are not fools.
Naturally know what the god of the Empire of the Sun Never Sets said.
As long as they both go to war.
Then there is a high probability that the entire army will be wiped out.
The possibility of eating the holy spring alone will be zero.
Cooperation between the two parties is a win-win situation.
What’s more, the holy spring is not something that one party can easily eat.
“Well, okay, after we divide everything up, let’s help escape together! There are
too many beasts outside!”
“Okay! We must escape together!”
The two sides hit it off.
but.
Doctor Dark: “…”.
Brain of God: “…”.
They were so speechless.
Are these people taking them purely as human beings?
Ignore them directly and divide up the holy spring on the spot…
They are still there.
Are they still alive?
Can breathe, can breathe…
Can not you see?
Divide like this?
And Levilia has been immersed in the holy spring, which is actually Levi Garrison’s.
It has nothing to do with other people.
The same is true on a first-come-first-served basis.
Even the few overlord-level beasts acquiesced.

As a result, two unfamiliar forces are now discussing how to divide up Levi Garrison's things…
Neither love nor reason.
The Return of the God of War [The Protector] Chapter 3098
After the Sun Never Sets Empire and the Robben Empire finished their discussions, they walked straight to the Holy Spring.
Still ignoring and ignoring Levi Garrison and several others.
In their opinion, it is estimated that Levi Garrison and the others were just lucky to come here one step ahead.
And Levi Garrison is too weak to even qualify as their opponents.
Therefore, they have been ignored from beginning to end, without even looking at them.
As they got closer and closer, a strong man in the Empire of Never Sunset was holding a sword, and he would kill Levi Garrison and several others without saying a word.
They didn't even give a chance to say a few words.
Just kill!
Like a few wild dogs in the way.
When he was about to start, Doctor Dark suddenly said: "I advise you to go back to where you came from! This place is not for you to come!"
The Brain of God also glanced at Levi Garrison and said, "Yes! Hurry up! I sincerely advise you! Hurry up and leave! Don't be a holy spring, don't take your life!"
"Isn't it right, run away, where are you still discussing how to distribute the holy spring! This is not something you can interfere with! Run quickly, it will be too late!"
…
The two doctors in the dark are sincerely trying to persuade this group of people.
I don't want them all to die here.
They were only a few gods, and they began to be allocated.
Just now, all fifty-five gods of the War Bear Kingdom died tragically.

However, after hearing the persuasion of the two, the people from the Sun Never
Sets Empire and the Robben Empire didn't take it seriously at all.
"Scare us? Are we fools? If this place is dangerous, why don't you run?"
"Want to scare us away and swallow the holy spring alone? It's ridiculous!"
...
No one would believe the persuasion of the two doctors of darkness.
They all feel that they are frightening themselves, so that they can swallow the
holy spring.
Doctor Dark was speechless for a while.
Why didn't they flee when they knew there was danger?
That's because they themselves are dangerous!
"I'm really good for you! Run away!"
The dark doctor shouted helplessly.
"Ha ha ha ha……"
Both sides of the empire on which the sun never sets burst into laughter.
The dark doctor raised his voice and shouted: "The position of your feet now…"
This made everyone stunned, stopped, and looked at them with a little doubt.
"What's wrong? What's wrong with our feet?"
Doctor Dark replied: "Just now, all seven hundred people in the War Bear
Kingdom under your feet died, including fifty-five gods!"
As soon as the words came out.
Everyone trembled.
This is too shocking!
Everyone looked at their feet subconsciously, but apart from blood, there was
nothing else.
"Blow! Keep blowing!"
"Everyone in the War Bear Country just died under our feet?"
someone asked.
Doctor Dark nodded: "Yes!"
"There are 700 people in the War Bear Kingdom, and there are more than 50 gods?
Why is there not a single corpse left? Not even half a finger is seen?"
"Yes, there are no traces of the corpse at all!"
"Besides, how come there is no trace of fighting in such a huge team of War Bear

Country?”
“Haha, I really don’t think about it, there is really no trace of fighting! If everyone
really died, it would be more like they were standing still, waiting for someone to
kill!”
“But how is this possible…”
In the face of everyone’s suspicion, Doctor Dark was speechless.
Don’t know how to explain it.
The main Levi Garrison is too perverted.
Killed them all with one sword.
Where are the signs of a fight…
“Look, I can’t make it up myself!”
The teams on both sides sneered and walked towards the holy spring in unison.
“Hey! Why bother? You! Why don’t you listen to people’s persuasion? Every one
of these stubborn people will die!”
Doctor Dark is going crazy.
God’s Brain sighed: “Hey, I hope you will listen to every advice in your next life!”
“Well, only pay attention in the next life!”
Doctor Dark agrees.
“Kill them!!!”
The powerhouses of the Sun Never Sets Empire and the Robben Empire have
moved.
To kill people.
Especially Levilia who soaked in the holy spring.
“Buzz!”
Suddenly, a hurricane came with the sound of a sword chirping.
At this moment, everyone felt the pressure of the sky.
Blood coagulated all over, spiritual energy was sealed, and even consciousness
was blank.
“laugh!”
“laugh!”
“laugh!”
…
I saw the divine robbery burst out, and a roundabout returned to Levi Garrison.
The sixty or seventy people from both the Sun Never Sets Empire and the

Robben Empire in the field were all stunned.
Everyone's eyes were unbelievable.
Subsequently.

A head was thrown high.
One after another, bloody arrows shot, several meters high like a fountain.
"thump!"
"thump!"
…
One by one they fell to the ground.
"Hey! I don't listen to advice!"
The dark doctor looked at the corpses all over the floor and shook his head.
Really think this is a good stubble!
Go to the Lord of Hell and regret it!
Soon, those tyrannical beasts appeared again.
All the corpses are gone.
"You guys stay here first! If there is any danger, look for me, I can come as soon
as possible!"
"Huh? Can we do it?"
The two doctors in the dark were a little worried.
If there are many strong people, they can't handle it.
After Levi Garrison and Doctor Dark finished their instructions.
And made some arrangements around the holy spring.
Then, he exuded a breath from top to bottom.
Next, in the entire rainforest, myriad beasts galloped.
All the beasts came here after feeling Levi Garrison's breath.
The few overlord-level beasts appeared first, crawling on the ground, shivering.
Obviously, he was extremely afraid of Levi Garrison.
Shortly after.
All the beasts gathered around the holy spring.
Doctor Dark understands.
Levi Garrison wants all the beasts to protect Levilia.
Not wrong.
Indeed it is.
With Levi Garrison's current strength, he showed a hint of breath, and these
beasts knew what to do…

Ferocious beasts are different from people.
There will be no fancy stuff.
Levi Garrison asked them to protect Levilia, and they had to protect him, and
nothing else would happen.
At this moment, the holy spring looks extremely quiet.
But there are countless beasts gathered around, and all the powerful ones are
here.
The holy spring is actually impregnable.
Doctor Dark was also shocked.
If you don't come to four or five hundred gods this time, it will be difficult to
encounter the holy spring.
Just like this, Levi Garrison was not at ease, and he had to find someone to watch.
After setting everything up, Levi Garrison stepped out and disappeared instantly.
Levi Garrison is strong right now, but sometimes the clone lacks skills. What if he
encounters a situation?
He didn't want this in case it happened.
Levilia's situation can't be tossed, just in case it doesn't work.
Therefore, he wants to find someone to watch Levilia.
Nothing can happen.
The person he was looking for was in Daxia.
Levi Garrison goes to Daxia…
It has been a while since the aura recovered.
No matter how hard Da Xia tried, he could not produce a god.
The overall strength is also incomparable to others.
Even the former Tiancefu Baolong clan could not stand on the stage in today's
environment.
If you meet the strong, you will be slaughtered.
Originally, the ending of the big summer had been decided, and there were already countless people discussing how to divide the big summer.
Now Ichiro Kitajima's fall abruptly diverted his attention.
Let everyone be patient.
But now everyone gradually understood that Ichiro Kitajima's death was definitely the cause of the beast.
It has nothing to do with Da Xia himself.

Daxia himself boasted about the Demon Suppression Division and the Tianshi
Mansion, which were all legends.
At the beginning, many people in Daxia believed that these two types of existence existed, but after that, there was no information.
Now even Da Xia himself doesn't believe it, let alone anyone else.
Those forces that are eyeing Daxia are already ready to act.
Although Daxia has no gods.
However, Daxia is a vast territory, and such a large land has undergone aura
recovery, so there must be many treasures and resources.
It has been tested that the content of aura crystals in Daxia is among the top
three in the world.
Not to mention other resources.
Moreover, Daxia has no gods, no strong people, so many resources cannot be
used.
This is a great opportunity for others.
As long as you enter the big summer, there must be a lot of harvest.
And according to rumors.
The first force, the War Bear Kingdom, is expected to launch a full-scale attack on
Daxia.
The resources that Daxia currently has are what they need most.
Because the Hydra man's plan to create a god requires a lot of resources.
*This kind of planning and s*x is endless.*
They don't just create hundreds of gods artificially.
If the method is right, they can create tens of thousands and hundreds of thousands of gods.
This accordingly requires too many resources.

Protector] Chapter 3100

The resources of War Bear Nation and its alliance alone are not enough.
They need to expand.
Among them, Daxia's resources are the most suitable.
Basically it can be done once and for all…
Therefore, dividing up the big summer is a crucial step in the plan of the gods of
the War Bear Kingdom…
Therefore, other forces should go to Daxia to divide up a little before the

full-scale attack of the War Bear Country.
Otherwise there is no chance.
Before that, someone had already tried to attack the powerful countries of the
previous alliances in Daxia.
To divide their resources, to enslave their people.
Like Daxia, these forces hid in the safe island and missed the great opportunity
perfectly.
Not only is there no god in charge, but it is even worse than Daxia.
After these guys entered, they searched everything unscrupulously.
And these forces frequently turned to Daxia for help.
But it's of no use at all.
Da Xia couldn't even protect himself.
Not to mention protecting others.
This made Daxia's alliance small forces and several surrounding countries to be
divided up.
Of course, this is also a prediction, whether Da Xia has the ability to protect
them.
Apparently there are none!
The Town Demon Division and the Tianshi Mansion are even more legendary!
Therefore, Xingguo decided to launch an attack on Daxia.
This is also a long-term decision for Xingguo, and such a choice was made after
repeated investigations and trials.
Toshima actually thinks so too.
However, Levi Garrison came here, which greatly damaged their vitality.
Now it is extremely low-key, and I dare not participate in any project or plan.
I don't even want to reveal something that hurts my vitality.
Therefore, they will not participate in the activities to divide up the big summer.
In case of revealing the trump card, it will put Dongdao in a situation of doom.
But the neighboring star country has been waiting for a long, long time.
After confirming that there is really no god in Daxia, and the Town Demon Division and Tianshifu are legends.
They just decided to do it.

In fact, Xingguo is also a great beneficiary of the recovery of spiritual energy,
ranking 13th, with nearly 100 gods.
And Xingguo Technology is notoriously powerful. They are actually researching
whether they can use modern technology to create gods…
At present, the overall strength is almost equal to that of Dongdao.
Even Levi Garrison's old acquaintance Li Chengmin became a god.
It is said that Li Chengmin is extremely powerful among the gods of Xingguo.
At least in the top five.
A god among gods!
In addition, Li Chengmin's previous status was very high.
Therefore, after this spiritual recovery, Li Chengmin was also included in the
royal family and became the star queen.
Bit high weight.
Has the right to mobilize the gods and the strong!
It is said that Li Chengmin's temperament has also changed drastically.
More like an invincible queen.
There is only war and the strong in the eyes.
The whole person killed decisively, and gradually became divine.
Ignore all living beings, ruthless without love.
The aura radiation should have affected her consciousness.
Or that her state of mind has reached a height.
This time, ten gods were sent together with 3,000 strong men to attack Daxia.
It is said that Xingguo made the move ahead of time, and it was Li Chengmin's
decision.
She decided to settle in Daxia first, in fact, to protect Daxia.
Don't let other people move Daxia in the slightest.
Let Daxia become a subsidiary of the Star Kingdom!
They only divide up resources and do not harm the people of Daxia.
Of course as long as you don't resist.
Once you resist, you will be killed without mercy!
Their star country only needs the resources of Daxia, and does not kill Daxia's
people.
Li Chengmin said that it was because of Levi Garrison's face that he gave Da Xia
such a favor.

indeed so.
if other countries.
Once the big summer is attacked.
Not only dividing up resources, but also killing and enslaving people…
Daxia is bound to become a purgatory on earth…
This way of Xingguo is good enough.
But this is equivalent to the surrender of Daxia, bringing in the people of the Star
Country.
Everyone can't do it this summer!

Protector] Chapter 3101

They would rather die in battle than foreign nations come in and divide up resources.
It's better than dying.
therefore.
The moment when Xingguo's team came.
Tiance Shenshuai and the others have already organized to resist, ready to fight
to the death.
Even if you know the consequences.
Even if you die in battle, you won't let the powerhouses of the star country step
into the summer!
If you want to go in, step over their corpses.
Everyone has an attitude of resignation.
The whole world is also paying attention to this war, even the War Bear Kingdom.
Because only in this way, can we directly detect whether there is a strong person
in Daxia?
Do those two legendary forces exist?
To put it bluntly, Xing Guo was the first person to eat apples.
See if apples are poisonous…
Soon the battle between the two sides began.
I have to say that Daxia is too weak here.
Can't stop it at all.
Not even close.
A random god on the side of Xingguo exerted a little strength, and Daxia's team
could no longer stop it.

Tiance Shenshuai and these people were all injured.
Not a level at all.
Incomparable in every way.
The star gods are preparing to slaughter the people of Daxia at a critical juncture.
A golden light rose from the ground in Daxia!
Daxia is fascinated!
Daxia also has a god!
No one thought of this…
Even the Daxia people themselves.
Where did the gods come from?
Who is this god? ? ?
Everyone couldn't help looking at it.
Want to know who?
this moment.
Even the whole world was shocked!
Daxia also has a god?
Didn't they all hide?
Everyone was stunned when they saw the figure in the sky.
It is really the god of Daxia!
Master Tian Ce! ! !
No one would have thought that the god who suddenly appeared in Daxia was
the young marshal of Tiance!
It turned out that when the aura exploded, Marshal Tian Ce was not hiding in the
safe island.
Instead, face the storm!
I want to pursue the pinnacle of martial arts and the pinnacle of King Kong's
indestructible magic in this desperate situation!
So he also got a chance.
But he's not like everyone else.
Others passively accept the baptism of Reiki radiation.
He made his own breakthrough in the recovery of spiritual energy, and constantly used powerful spiritual energy to quench his own physique, breaking
through his own limits.
In the end, he found that he could completely absorb the spiritual energy and
transform it into his own power, becoming the true energy of the King Kong

Indestructible Magic.
In one fell swoop, it broke through the highest realm of the Diamond Indestructible Magic, and even brought the Diamond Indestructible Magic to a
new level.
The highest level of the ninth level of the King Kong Indestructible Magic has
nine phantoms to protect the body, but he has directly practiced it into a substantial one.
In fact, he has been comprehending these days, otherwise he would have come
out earlier.
Just at this time, the foreign enemy came.
He realized it again, and immediately burst into the air.
Come and save Daxia.
"Dong dong dong…"
All of the god's ultimate moves hit the young marshal of Tian Ce, and they were
all blocked by his brand-new King Kong indestructible body.
The gods of the star country were stunned for a while, and looked at the young
commander Tian Ce, who was radiating golden rays of light, in disbelief.
If he came out one step later, Da Xia and the others would all suffer.
"My son, it's my son!!!"
Tiance Shenshuai shouted excitedly.
The eyes are full of pride!
His son became a god.
And from the perspective of momentum, Tian Ce is obviously stronger than the
gods of Xingguo.
The gods are also divided into strong and weak.
Young Marshal Tian Ce is undoubtedly one of the most powerful gods!
Others also shouted excitedly: "Young Master! It's Young Master!!!"
This is the first god in Daxia, how can you not be excited?
It could even be said to be a savior!
In the most critical time, save everyone from fire and water.
"I am here in Daxia! Foreign countries must not set foot in one step!"
Marshal Tian Ce said coldly.
He glanced at the strong men in the star country in front of him.
"kill him!"
Several gods in the star country looked at each other, and immediately killed

Young Commander Tian Ce.
The ten gods of the star kingdom also know that the young Marshal Tiance in
front of him is better than them in a one-on-one manner.
therefore.

Protector] Chapter 3102

In the beginning, Xingguo's side was the two gods who dealt with Tiance Young
Marshal together.
The two sides fought hard.
But soon the two gods of the star country fell behind.
Young Master Tian Ce is too strong.
The defensive power of the King Kong Indestructible Magic is astonishing. No
matter what the ultimate move of the two gods is, it is completely ineffective
and can't hurt.
If you hit him, he won't hurt or hurt, so how can you beat him.
Soon, Marshal Tiance started to fight back, and the two gods were slightly injured.
This made the Daxia people below exclaimed.
Not only does Daxia have gods, but it is also stronger than other gods.
What a surprise!
"superior!"
Two more gods enter the battle…
The situation of the four gods working together is slightly better.
Daxia people began to worry.
But when it hits.
There is no difference from the previous one.
Their attacks were completely useless to Marshal Tian Ce.
He could only be pressed and beaten by Young Marshal Tian Ce.
Soon, the other two gods were also injured.
"Go! Go on!"
Two more gods were dispatched from Xingguo's side.
The six gods fight a Tiance young marshal.
…
But after playing for a while, I didn't get any benefit.
"Go! Go! Kill him!"
In the end, the helpless Xingguo sent ten gods.
The ten gods joined forces to deal with one person.

This is the first time since the aura recovered.
Of course, no one knows about Levi Garrison's killing…
The whole world is watching this battle.
The ten gods joined forces, and the situation really changed.
Marshal Tian Ce immediately became exhausted.
Although his Vajra Indestructible Magic is able to resist damage and attacks.
But his attack is limited to ten people, and it is difficult to hurt them.
"boom!!!"
However, after some melee, Tian Ce Shaoshuo's momentum soared.
There was a tremor in the air.
Young Marshal Tian Ce also turned into a King Kong body.
"puff!"
"puff!"
…
Terrible power surged, and the gods of the star kingdom kept getting hurt.
Almost all the top ten gods were injured to varying degrees.
The situation suddenly changed.
Young Marshal Tian Ce actually suppressed the top ten gods by himself!
This is a miracle!
Shocked!
Everyone was so shocked!
The whole world was moved.
If you don't go out of your way, you're done, and when you come out, you will cry.
Seeing that the situation was not good, the other powerhouses in Xing Nation
immediately killed Young Marshal Xiang Tiance.
But at this moment, the young commander of Tian Ce is like that Vajra deity.
Who will kill who!
The gods are not opponents, let alone others.
a time.
Marshal Tian Ce killed the Quartet.
Not only did he fight against the top ten gods, but he also mixed into the group
of 3,000 strong men of the star country to fight.
Killing gods is not easy, but killing other people is easy.
"what!!!"
…
A scream rang out, and people kept falling.
These people were killed and injured countless times.

The gods have nothing to do with the young commander Tiance.
Not to mention others.
Kill as many as you want…
…
miserable!
These 3,000 strong men are just like ordinary people in the hands of Marshal
Tiance.
kill kill kill!
I can't kill your gods for a while, but it's easy to kill other people.
therefore.
Young Commander Tian Ce was mad.
The crowd in Xingguo was turned upside down, and there were fewer and fewer
people.
The ten gods can't stop it if they want to.
After all, after being blocked a few times just now, everyone's injuries are getting heavier and heavier.
If this goes on.
Not to mention other people, even they will all die.

fear!
Terrifying to the extreme!
Young Marshal Tian Ce actually killed the sky and the earth, blocking Xingguo's
team.
This is unprecedented.
This matter was quickly known by the stars in the rear.
Especially Lee Sung Min.
She is in charge of this project.
Faced with this situation, she said coldly: "I must not give him any chance! Give
him a chance, it may be our trouble in the future!"
"Send forty gods! Let me see if he can hold back?"
soon.
Star Nation sent forty gods at one time, plus the previous ten, it was equal to
fifty gods.
This is half the power of the Star Kingdom.
Use half of your power to kill Marshal Tiance.

This situation is really big.
However, the current form is also an arrow in the air for Xingguo.
Soon forty gods came to join forces with the previous ten gods to deal with the
young marshal of Tian Ce…
This time the format is really different.
According to the strength of Marshal Tian Ce, he could at most be able to fight
twenty-five to thirty gods.
Of course, if you can, you will be seriously injured.
But now there are fifty gods.
Marshal Tian Ce soon fell behind.
…
"puff!"
After a fierce battle, his indestructible body was broken, and the whole person
flew out.
Fifty gods are too powerful.
Young Marshal Tian Ce did everything he could…
…
Got knocked out three times in a row.
Young Marshal Tian Ce couldn't get up again, and the indestructible body of King
Kong was broken.
There's really nothing he can do now.
"Kill him! Enter Daxia directly!"
An order came from the rear of the star country.
At this time, Marshal Tiance sneered: "You call for the supporter, and I can also
call for the supporter!"
"Do you know who my master is?"
Young Marshal Tian Ce did not know that his master was Levi Garrison.
In his cognition, Master is a very mysterious existence.
Even the great power of Zhen Mosi or Tianshifu.
The main reason is that King Kong's Indestructible Magic is so amazing, and he is
more and more horrified when he has practiced it like this.
I remembered the ease when Master taught him the Vajra Indestructible Technique.
It gave him the illusion that the master was a terrifying existence that Daxia
could not hide.

Especially in the later period, there were rumors of Zhenmo Division and Tianshifu.
He decided that his master might be one of these two types of forces.
Therefore, he felt that in times of crisis, Master would definitely appear.
Tiance Shenshuai is in a hurry.
Where did you come from, master?
Isn't your master Levi Garrison?
Row!
Even if Levi Garrison really has an invincible appearance.
But at this moment he should be busy detoxifying his daughter, how can he come
here?
It will never appear in Daxia!
"Your master?"
However, a word from Young Commander Tian Ce scared the Xingguo group
enough.
After all, things are different now.
Daxia had no gods.
As soon as they came, such a strong one appeared directly.
Now that I hear this man say that there is a master behind him, who is not afraid? ? ?
He is so great.
Who knows how strong his master is?
What about Zhen Mosi and Tianshifu?
If only these two categories existed.
That star country is completely over!
Therefore, he looked at Marshal Tian Ce and questioned.
"That's right! My master! I can also call back!"
Marshal Tian Ce said coldly.
a time.
After hearing that Young Commander Tian Ce had a backer, all fifty gods were
afraid.
What if the terrifying existence behind Daxia really explodes?
so what should I do now?
At that time, they will all die, and Xingguo will be placed in a terrible situation.
They panic!
The message also quickly spread to the rear of the star country.
Everyone's idea is the same.

Everyone is discussing this matter, and they are all guessing whether there is a
god behind Daxia.
But Li Chengmin frowned and said lightly, "He does have a master! But his master
is Levi Garrison!"
Li Chengmin still knows about the previous things.
In particular, Daxia's one-fingered master, the new head of the Ye family's
ancient clan, no one else knows who it is.
She knows it all.
It was Levi Garrison.
That is, the master of Young Commander Tian Ce.
Everyone reacted when they heard this.

Protector] Chapter 3104

In particular, I heard that Levi Garrison was detoxifying his daughter recently,
and now he has no time to take it into account.
What's more, this master is not the master you imagined.
For a moment, everyone breathed a sigh of relief.
"Isn't Young Marshal Ce stupid today and scare people with Levi Garrison?"
Everyone in the star country behind sneered.
"Order, kill Marshal Tian Ce! Ignore everything!"
...
The fifty gods in front quickly received the message and knew what was going
on.
Everyone felt ashamed and was fooled by Young Marshal Tian Ce.
"kill him!"
This time, everyone didn't hold back.
Directly pressed towards the Young Commander Tiance.
I want to tear apart Marshal Tian Ce!
Done!
Tiance Shenshuai and the others snorted and closed their eyes subconsciously.
Everyone knows it's over.
Young Marshal Tian Ce doesn't even have a master to speak of!
"Master save me!!!"
At the time of the crisis, Marshal Tiance shouted at the sky.

But the god of the star country sneered: "Hoho, I want to see if there is a master
who came out to save you?"
The talking god rushed to the front and slapped it with a savage palm, less than
fifty meters away from Marshal Tian Ce.
This distance is negligible for the gods and is less than a few millimeters.
There was already a hideous smile on the face of the star god.
The scene in which Young Marshal Tian Ce was filmed was already expected.
"laugh!"
But then, a light flashed.
A line of blood ran across the god's neck…
His head was thrown up high…
The laughter on the side of Xingguo stopped abruptly.
Everyone was stunned.
Everyone was dumbfounded.
The big powerhouses in the star country are stupid.
Everyone here in Daxia is also stupid.
No one would have imagined such a situation.
Why did this god suddenly die?
"Master is here! Master is here! Master…"
After seeing this scene, Marshal Tian Ce couldn't help shouting.
At this moment, the god who was the second closest to Major General Tian Ce
suddenly had a flying sword shot in front of him.
"Pfft!"
straight through his neck.
A head flew up, blood was like a column…
Don't wait for people to react.
The sword glow was prosperous, exuding a terrifying sword energy, rippling in
this world.
"Pfft!"
Another god was beheaded!
"Whoosh!"
…
Feijian shuttled between heaven and earth, and the sword energy overflowed
and enveloped the audience.
The sword glow was prosperous, like the scorching sun, locking everyone in the

audience.
“Pfft!”
“Pfft!”
…
Feijian shuttled and chopped off one head after another.
The number of gods is drastically decreasing.
Ten:
Twenty:
Thirty:
…
Even if all the gods in the star country face this flying sword, there is nothing
they can do.
Block and can’t block, hide and can’t escape, escape and can’t escape.
They are like live targets.
It can only be killed by Feijian one by one.
Shocked!
So shocking!
This is definitely the most shocking scene the world has ever seen!
It was the first time I saw so many gods take action, but I even saw the picture of
flying swords beheading gods.
Simply stunning!
“Ha ha ha ha……”
Young Marshal Tian Ce burst out laughing with pride.

Feijian continued to shuttle, and continued to kill the gods…
“Pfft!”
With the last person falling.
All fifty gods of the star country were beheaded.
Not a single one was left.
…
numb!
Everyone’s scalp was numb, blood was flowing backwards, and a cold air rushed
to the sky from the soles of their feet.
They’re all going to freeze.
this this this…
what is this?
God!

That's a full fifty gods!
All gone?
They were all beheaded?
Where have you experienced this kind of thing?
In particular, Da Xia, who has no gods, was even more shocked.
In their minds, gods are like gods.
Now that I see it, everything is killed.
And what happened to that sword? ? ?
Stop talking about them.
The whole world, except for the two Dark Doctors.
No one else has seen such a scene.
The high-level executives of the Star Nation at the rear were greatly shocked!
Are all fifty of their gods gone?
Everyone breathed a sigh of relief and almost passed by.
Even Lee Sungmin is unbelievable…
Of course, the 3,000 strong men in the Xing Nation, other than the gods, were
killed by the Young Commander Tian Ce.
There are more than two thousand left.
The sword above their heads was levitating, trembling…
"Buzzing…"
There were bursts of sword cries.
Roll up the storm.
The terrifying sword energy has penetrated into the bodies of more than 2,000
strong men in the star country, and they have already felt the horror of death.
"Pfft!"
"Pfft!"
…
Everyone fell to the ground one by one.
He kowtowed to the floating sword and begged for mercy: "Please let it go!
Please let us go!"
too frightening!
This sword is suspended above the head, who is not afraid?
The gods are easily beheaded.
What about other people?
In the Xingguo base at the rear, Li Chengmin and the others ordered: "Withdraw!
All withdraw!"

The more than 2,000 strongmen who were kneeling received the order to retreat,
and they got up one by one, wanting to retreat.
"Come if you want, leave if you want?"
Marshal Tiance murmured.
It seemed that the sword suspended in the air understood what he meant and
shot out suddenly.
Go straight for the crowd.
Everyone's scalp was numb and their bodies trembled.
This……
The most terrifying scene happened!
This sword actually pierced through more than 2,000 people at an instant speed…
"Pfft!"
"Pfft!"
…
More than 2,000 people shot bloody arrows in front of them, and they all fell
down…
Those who offend my Daxia author will be punished even if they are far away!
Now that you have come to invade Daxia, do you still want to escape?
impossible!
All stay! ! !
must die!
All the powerhouses sent by Xingguo this time were all beheaded.
The Return of the God of War [The
Protector] Chapter 3106
Blood spilled on the summer border…
Just how did this sword penetrate more than 2,000 people in an instant? ? ?
The speed of this sword is so fast that no one can catch it, including all gods.
Of course think about it.
This flying sword can easily kill even the No. 50 gods, and it is no problem to
penetrate more than 2,000 people at one time.
This is definitely the most shocking thing everyone has seen…
Who said Daxia has no gods?
Didn't this come out?
It doesn't matter if Young Commander Tian Ce is so strong.

His backing master is so strong!
You must know that from the beginning to the end, everyone has never seen who
shot it.
He didn't seem to be there at all.
Controlling this sword in the dark will kill the Quartet!
Shocked!
No one would have thought that Daxia would have such a terrifying existence!
The legend is true! ! !
Daxia's Town Demon Division and Tianshi Mansion exist!
This way of manipulating swordsmanship is definitely something that exists in Qi
practice or the magic-suppressing division.
Someone has seen such a method in the records of the Suppression Division!
Daxia is a forbidden place!
No one can invade Daxia!
How about the recovery of spiritual energy?
What if there are gods?
Daxia is not a place you should break into!
What if Daxia collectively avoided the aura recovery? ? ?
Daxia has no gods!
But Daxia has the existence of beheading gods!
This battle shocked the world!
From now on, everyone will know that Daxia is a forbidden place.
Even if there is no god, no one will make Da Xia's idea again.
It is estimated that those forces that are just around the corner will all be dispelled.
Even the War Bear Kingdom has to weigh it up and make a new plan.
Even to scrap the plan.
It is estimated that it is necessary to re-examine Daxia.
Only when you have a clear picture of Daxia's situation can you dare to do
anything.
And Xingguo was really frightened.
To be the first to eat an apple is to take risks.
no doubt.
The situation now is that they have to take risks.
So many people died.
Especially when half of the gods in the country have fallen.
Greatly hurt!

This is irreparable…
They will be out of breath for a long time.
Originally ranked 13th in the world.
After this battle, it is estimated to be forty or fifty…
Everything this summer brings to the world is too shocking.
It is absolutely unstoppable!
Everyone in Daxia wept with joy.
It turns out that there really are guardians in the shadows of Daxia…
Young Marshal Tian Ce was the most excited, shouting to the sky:
"Master, please
show up and see… My disciple misses you. My disciple has already practiced the
King Kong Indestructible Skill to a new level…"
Tiance Shenshuai and everyone in Daxia also looked at the air curiously.
Of course, no one now wants to know what kind of existence this is.
The whole world is watching…
Just no response at all!
"Buzzing…"
The sword also flew into the air with a trembling sound, and disappeared before
everyone's eyes.
This sword is naturally a calamity!
When Marshal Tiance was in danger earlier, Levi Garrison just came to Daxia.
Because he was in a hurry, he went to find the strong man who guarded Levilia.
So he couldn't show up directly.
So while he was on his way, he manipulated the gods to kill the gods of the star
kingdom.
It's not that he has any sword skills…
Purely because he is powerful, pure power controls everything.
For him, the sword is just an auxiliary tool.
He is far away from where he was just now, where can he hear the call of Tian Ce
Young Commander.
He was also anxious to find someone to guard Levilia.
Shortly after.
Shen Jie caught up with Levi Garrison.
Levi Garrison found that Shen Jie seemed to be more powerful.
It seems that Divine Tribulation has to be nourished with battle and blood…

“Coming!”
The person Levi Garrison is looking for has arrived…
The Return of the God of War [The
Protector] Chapter 3107
The former site of Kunlun College.
after a super storm.
Kunlun Academy was also destroyed.
However, because Kunlun is a spiritual land, Kunlun is also a big change, with
abundant spiritual energy, especially many aura crystals.
The Kunlun Mountains and their areas in the rear are listed as a first-class
forbidden area…
Of course, even the location of Kunlun College is in the first-level forbidden area.
The first-level forbidden land means danger, and it also means heaven and earth
treasures.
But these Levi Garrison are not interested.
He just wanted to find someone.
Looking for no one else.
It was his students at that time.
He knew before that when danger came, everyone avoided it.
But his students were ignored.
All eighty people including Ning Jinye, Jiao Tianyu and others were hiding.
Instead, face the storm.
If the storm is devastating, the lives and deaths of these people are unknown.
But this Aura recovery is the result.
Therefore, Levi Garrison believes that they are all still alive, and there is a high
probability that they will all become strong.
Although the exercises he gave to everyone were not quick, they were basic
exercises that were slow to death.
But there are also many things with half the effort.
It is spiritual recovery.
The chain can be quenched in the aura, and the aura can be absorbed into its own
power.
As a result, their ascension rate is faster.

It's not that Levi Garrison has been practicing hard before.
Therefore, Levi Garrison believed that they had become strong one by one.
So when you think of someone to guard Levilia.
The first thing that came to his mind was the Evil God of Fire Cloud.
But think about the eighty people here…
After coming here.
Levi Garrison smiled.
"Come out! I'm here!"
Levi Garrison shouted.
"boom……"
"boom……"
One after another powerful breath burst out, and one after another silhouette
appeared.
Ning Jinye!
Jiao Tianyu!
Zheng Haobo!
……
Eighty people.
Not a lot of one.
When he saw the breath on them, Levi Garrison smiled gratified.
In his expectation, one by one became super strong.
Although there is a gap between him before, but the gap is not big.
Jiao Tianyu and several people were even more unexpected to him.
If you look at it in terms of individual combat power.
These people are comparable to the existence of Marshal Tiance.
Those gods are not opponents.
The key is that there are 80 people!
No wonder this forbidden area is so quiet, and there are so many 80 perverts.
Where can those beasts dare to run wild?
"Teacher Ye!!!"
Everyone saluted Levi Garrison.
"There's no time, let's talk to you on the way!"
Levi Garrison took eighty people directly and went to the Amazon rainforest.
Levi Garrison doesn't have to worry about Daxia's side.
He also understands that he controls the killing of the gods, and he doesn't know
what kind of shock it will cause to the whole world.
In a short period of time, no one dared to pay attention to Da Xia.

……
For Zhanxiong Nation and the whole world, they are immersed in the shock of the
mysterious powerhouse in Daxia.
But at this time, another message came…
Fifty-five gods and six or seven hundred masters from the War Bear Kingdom
went out to explore the entire army in the first-level forbidden area.
The whole world was shocked.
War Bear Kingdom is even more shocking to the extreme.
Originally thought that the fall of so many gods from the star country at one time
was enough to shock.
Where do you think that the War Bear Kingdom was also born here.
What's in the Amazon Rainforest?
You must know that there are so many gods in the War Bear Kingdom, and there
are all kinds of them.
In fact, they sent out all kinds of things, in order to ensure the safety to the greatest extent.
In the end, the whole army was wiped out…
Not even a single message was sent.
The Return of the God of War [The
Protector] Chapter 3108
This is the most terrifying.
The tentative conclusion is that there are immeasurable beasts in this first-level
forbidden area.
The existence of human gods that cannot be resisted at all.
But Zhanxiong Nation did not allow so many people to die inexplicably.
Therefore, they have to organize a team and enter the Amazon rainforest again
to check the specific situation…
Even if they knew what the danger was inside, they had to find out what it was.
After suffering such a big loss, how could they just let it go so easily.
This is the number one force in the world.
Otherwise, you won't be able to hang on to your face.
At this moment.
Levi Garrison brought Jiao Tianyu eighty people to the side of the holy spring.
Doctor Dark and they were all stunned.

Levi Garrison is so strong that he doesn't say anything like this.
There are actually 80 such powerful students…
Judging from the momentum just now, each of these 80 people is comparable to
the few overlord-level beasts next to the holy spring.
With so many strong people guarding Levilia together, Levi Garrison can really
worry about it.
No one can shake this at all, right?
Even if someone can shake it, it will take a while for so many people to pack up.
during this time.
Levi Garrison has already returned.
After making arrangements for Jiao Tianyu and others, Levi Garrison and the
others left.
……
Since Levi Garrison killed half of the gods of the star country with one sword, the
whole world has caused a sensation.
No one dares to touch Daxia.
Even Daxia's allies dare not touch them.
The goals of many forces have shifted.
Because not only did Daxia escape this crisis, the Guardians of the Galaxy also
escaped.
Now Daxia's attention can't be beat.
Then it can only be put on these people.
However, compared with Daxia, the War Eagle Country is of little significance,
and there is no comparison in terms of resources.
After all, when the aura recovered, everyone in Daxia hid in the safe island. But
the entire summer was exposed to spiritual energy, and the environment changed dramatically.
However, the War Eagle Country was different. After the recovery of the spiritual energy, the entire country was enveloped by an invisible shield and did
not receive the baptism of the spiritual energy.
Therefore, the environment of War Eagle Country has not changed much, and it is

even said that the environment has not changed at all, and the resources are the
worst.
Even the small countries next door can't compare.
Therefore, many forces are not interested in the War Eagle Kingdom.
First of all, it's summer and the like.
But now Daxia can't touch it.
The target can only be transferred to the Guardians of the Galaxy.
Although the environment of War Eagle Country has not changed, it is the first
force before, and there are still many good things.
In addition, the forces of other countries in the Guardians of the Galaxy have
experienced aura recovery, and the resources are still good.
A lot of people are starting to get excited.
Ready to attack the Guardians of the Galaxy League.
After knowing this information.
The Sky Shield Bureau panicked for the first time.
In particular, the Black Hawk agents and others immediately approached the
head of the game, Smith, to report the matter.
Although the War Eagle Nation is powerful, it is useless in today's environment.
The Return of the God of War [The
Protector] Chapter 3109
When a god comes out, it is enough to pierce the Sky Shield Bureau.
The head of the bureau, Smith, was not idle either, and immediately contacted
senior Nelson.
The two disappeared together for a moment.
Shortly after.
The two reappeared in the Sky Shield Bureau.
The Black Hawk agents excitedly surrounded them, wanting to know how to deal
with it.
They also understood what the two of them were doing just now.
It must be the forces behind the War Eagle Nation.
That is, the existence of truly controlling the Guardians of the Galaxy.
To put it bluntly, they got rid of the laboratory of the gods and the main gods at
the beginning.
"Don't be nervous!"

“In any case, my war eagle is still the most powerful force in the world! It was and
is now! Those gods are fearless!”
“Although the Guardians of the Galaxy has no gods, we can kill gods!”
……
Nelson said these two sentences.
The Black Hawk agents were shocked.
To say that the past is the strongest force, they have no doubts.
Can it be now?
Fearless of the gods?
Fearless of the Bear Country?
Now what is the strength of the War Bear Kingdom alone?
That’s it, don’t be afraid?
Everyone doubts.
But Nelson’s two sentences are full of confidence.
This made them wonder what the forces behind it were?
Why is it so powerful?
But this way.
They don’t have to worry about the safety of the Guardians of the Galaxy.
I even hope that someone will take action on the Guardians of the Galaxy as soon
as possible, then they will know what is behind the War Eagle Nation…
After the fall of the star gods this time, it is not only affected here.
Even Daxia was affected.
Since Levi Garrison controlled so many people with one sword.
It seems that there are mysterious figures in some places in Daxia.
There were roughly the same words that came out of their mouths——
“The spiritual energy outside is so strong?”
“What the hell is going on outside?”
“Is this sword too amazing?”
……
Some Taoist holy places in Daxia, some deep in the mountains.
It was even more lightning and thunder, and the majestic spiritual energy gathered around the mountain peak, which could not be dissipated for a long
time.
These deep mountains are located in “forbidden areas”.
As a result, all those beasts did not know where to hide.
Don’t dare to show up at all.
It was as if something extraordinary had appeared here.
……

“Hahaha, it’s finally out! Huh? This place is so rich in spiritual energy, it’s almost
the same as where we are!”
“Doesn’t that mean we can stay outside all the time?”
……
Somewhere in the north, a few figures shuttled and laughed from time to time.
Levi Garrison didn’t even think that his simple sword could cause such a big
movement.
It attracted some legendary existences.
He is now only focused on finding a way to save Levilia.
Return to the location of the holy spring every ten days to check the situation of
Levilia.
The holy spring is useful and can be washed every day to remove toxins, but after
all, it cannot completely remove Levilia’s poison.
Therefore, other methods or natural resources are needed.
They can only keep looking.
This is also a matter of chance, not every chance is that good.
Have to look for it slowly.
However, after gaining experience, they have a clear thinking and a clear direction.
At this time, the War Bear Kingdom also organized a team of thirteen people to
explore the rainforest.
All thirteen are gods.
And their attributes are speed and movement.
The Return of the God of War [The
Protector] Chapter 3110
Half of them are extremely fast and can escape in time.
The other half relies on the body technique to hide, like a ghost.
They are the most suitable to explore this dangerous place.
As soon as the situation arises, they will evacuate.
They didn’t come to fight, they just came to check the situation.
I have to say that Zhanxiong is rich and powerful.
Others are gods and can’t make up a few in total.
War Bear Kingdom is available in all categories.
It’s amazing how they can be classified in this way.
A group of thirteen people entered the rainforest.
Keep a certain distance, show your abilities, and explore the depths.

Several people are known for their speed and movement, and they came to the
vicinity of the holy spring without knowing it.
But found nothing.
Going further, they came to the location of the holy spring.
I saw Levilia.
This made a huge wave in their hearts.
How could I have thought that this matter had something to do with Levi Garrison.
But in the next second, they fell into the encirclement of beasts.
Several overlord-level beasts were dispatched directly.
After anticipating the danger, the thirteen people fled immediately by relying on
their movement skills and speed.
Although the beasts are numerous, they may not be able to stop them.
But at this time, figures suddenly appeared around.
more and more.
Stop thirteen people.
No matter how fast the speed of the thirteen people is, how ingenious their movements are.
Under the ambush of eighty strong men, it is also useless.
After Jiao Tianyu's 80 people appeared, there was no chance for them.
Kill them all on the spot.
If you dare to come to the Holy Land, you are the enemy.
This is an order from Levi Garrison.
They must protect Levilia well from being threatened and hurt a little bit.
War Bear Kingdom has been waiting.
But when you lose contact.
They also already understand.
This place is not to be broken into…
However, the War Bear Kingdom classified this matter as a secret.
Don't let anyone know.
Never let outsiders know that they have suffered losses here.
Even this place can be their weapon.
the next few days.
Levi Garrison and his party are exploring.
Specially find forbidden places to explore.
After all, Shengquan has tasted the sweetness here.
Even explored three first-level forbidden areas.
Although I found a lot of heaven and earth treasures, after all, it is a little worse
than the holy spring level.

As of now, it is of no use to Levilia's body.
This is also expected.
Originally, exploring in the forbidden area is just a matter of luck, luck is good
and bad.
But the things I found were not wasted.
Under the action of these treasures of heaven and earth, the strength of the dark
doctor and the brain of God has been continuously improved.
In particular, Doctor Dark easily became a god-level powerhouse.
Under the guidance of Levi Garrison and Doctor Dark, God's Brain also became a
strong man.
Although not god-level.
But he uses skills or exercises to maximize his own strength, and he can also fight
against the gods.
The number of natural treasures that Levi Garrison and the three of them now
possess is comparable to that of the top ten countries.
even more.
There are some things that even War Bear Country does not have.
After all, there is no one like them who wants to enter and leave the forbidden
area, even the first-level forbidden area is no exception.
In this way, the more dangerous places are, the easier it is to produce treasures.
They can be said to be rich and oily.
Many aura crystals could not be obtained, and a lot of them were given up.
"Mr. Ye, after this period of exploration, you must have discovered the pattern
too! In all parts of the world, those listed as forbidden places have a higher
chance of appearing natural treasures. The Earth Treasure will be even more
powerful!"
"Therefore, I think our next direction should be in the first-level forbidden area.
The second-level forbidden area and the third-level forbidden area are pure
waste!"

Dark Doctor suggested.
The Return of the God of War [The Protector] Chapter 3111
"Well, that's true. You should go to the first-level forbidden area, so the probability is higher!"
The mind of God agrees with the Word.
He also immediately took out the data: "There are currently 23 first-level forbidden areas listed in the world, and we have already explored four! Nineteen are left! The probability is still very high!
Of course, there are still some that are suspected to be first-level forbidden areas, but they have not been counted, and there are many! "
Doctor Dark has begun to pick: "Next, we will explore these first-level forbidden areas! The closest to us is…"
Levi Garrison was in deep thought, but did not speak.
After a while, Levi Garrison said slowly: "Then according to what you said – the most dangerous places breed the most powerful treasures!"
"Yes, it seems to be the rule now!"
The two nodded.
"Then let's go to the most dangerous place, where might the treasures of heaven and earth be nourished!"
Levi Garrison thought of a place.
The Brain of God also took out the information: "Is it in these first-level forbidden areas?"
Levi Garrison shook his head: "It's not!"
"You just come with me!"
At this time, in fact, the brain of God has built a large aircraft.
The main reason is that the capacity is large enough to hold a lot of treasures.
Rao is so, the cabin of the aircraft is also full.
This is a little more convenient.
Levi Garrison gave a direction, and the brain of God controlled the aircraft to fly at extreme speed.
A dark place was soon reached.
Here, it is still shrouded in darkness.
It looks like when the aura recovery just broke out…

After coming here, the magnetic field is abnormal, and all aspects are in a state
of disorder.
Affects the flying machines of the Brain of God.
almost crashed…
"It turned out to be here!!!"
After seeing this place.
God's brain subconsciously screamed.
Because they came to the sky over Antarctica.
The vortex below that covers most of the South Pole is terrifying.
Although the two doctors in the dark are now exceedingly powerful.
But looking at the huge vortex below makes people feel terrified.
This is where the spiritual energy erupts, and there is a super spiritual vein
below.
According to everyone's ideas, then this is definitely the easiest place to nourish
the treasures of heaven and earth.
The environment is so bad, so the treasures of heaven and earth that are nourished are the most terrifying.
If there is a treasure in this place, it will be more terrifying than the holy spring.
There is a high probability that you will be able to unlock Levilia's poison at one
time.
However, in such a short period of time when the aura erupted, there is still a
very small chance that the treasures of heaven and earth will appear, especially
the treasures of heaven and earth that can unlock the poison on Levilia.
Not much hope.
However, Levi Garrison pinned his hopes on that super spiritual vein.
He wants to go directly to the super spiritual vein.
Let's see if there are any treasures of heaven and earth that are nourished by
super spiritual veins all year round.
Just like the holy spring.
It has existed for a long time before the aura is revived.
Looking for something like this, all year round.
The super spiritual vein is so large, it is not impossible to nourish the treasures of
heaven and earth.

Look at the huge vortex below.
Doctor Dark and the others understood why Levi Garrison said this was not a
first-level forbidden area.
No one would dare to list this place as a first-class forbidden area.
No one dares to come here.
Now there are not many people who know this whirlpool.
Because he came to the Antarctic region, the front was completely shrouded in
darkness.
Everyone was terrified when they saw this.
What's more, the darkness in this area has been shrouded in such a long time.
It is different from the one that covered a large area of the world before.
That quickly dissipated, this long-lasting circle could not disperse for a long time.
Although this place is not listed as a first-level forbidden area.
Presumably, the major power countries still know what to do.
It must be far higher than the first-level forbidden area.
It's okay, no one dares to come here.
"We really want to…"
Doctor Dark just asked aloud.
Levi Garrison said: "I can go! This place is still a bit dangerous for you!"
This is the truth.
Even if the aura eruption is over, this is the explosion point.
Not to mention the vortex in front of him, there is still a terrifying storm of spiritual energy remaining at the position of the super spiritual meridian below.
Once involved, there must be casualties.
The aura storm of the super spirit veins is different from these auras outside.
These auras are "filtered" by Levi Garrison's body and are easily absorbed by the
human body.
But what's inside can really kill people.
To meet is to die.
The gods are no exception.
Then, Levi Garrison stepped out of the aircraft and fell directly into the huge
vortex.
God's brain shuddered.
He has experienced this whirlpool.

Even if he has changed from an ordinary person to an existence that is almost
comparable to a god, he is still a little scared in the face of this whirlpool.
Not to mention below the vortex.
The Return of the God of War [The
Protector] Chapter 3112
The huge vortex is still surrounded by spiritual energy, after all, the super spiritual veins below have not completely exploded.
There is even a lot of spiritual energy left.
Levi Garrison quickly sank from the vortex.
He prayed in his heart that he could find the treasures of heaven and earth.
Must!
If you can't find this place.
Then he would panic.
All the way down, the spiritual energy gradually became stronger and stronger,
like a wind blade, tearing and strangling.
Even the physique of the gods will collapse in an instant.
This super spirit vein is too strong.
Change the world like this.
Still have such a terrifying amount of storage.
It's even continuing to produce…
"boom!"
Finally, Levi Garrison came to the position where the super spiritual vein burst
out.
Instead of being pitch-dark, it's as bright as day.
This is naturally the role of aura.
Below is the location of the super spiritual vein.
It was also Levi Garrison's first visit…
When the outbreak was stopped in the first place, there was no time to get up
close and personal with this.
Coming here is like entering a cave.
On the rock wall outside the entrance, there are stalactites nourished by aura
and water droplets nourished by aura.
A drop of water is like a magic medicine!
Levi Garrison stood at the entrance, looking at the huge gap.
This gap is already a kilometer long…
It is surrounded by thick rock walls.

The thickness and hardness of this rock wall is terrifying.
It is estimated that it has accumulated little by little over thousands of years.
Otherwise, for such a long time, this spiritual vein will be stable.
It was later blown up by the flying machine of the Brain of God.
But in fact, it was just a small opening, and it was only expanded into a kilometer-long opening at the back.
Levi Garrison entered it.
This super spiritual vein can be compared to a mine that stretches for thousands
of miles.
The mine is sealed, and it is full of rich spiritual energy.
It's just that most of the aura has been exploded now.
But there was still a terrifying aura in it.
I just saw some water droplets nourished on the rock wall outside, which greatly
boosted Levi Garrison's confidence.
It's the same on the rock walls outside.
Wouldn't it be easier inside?
"boom!!!"
As soon as he entered, a terrifying aura storm swept over.
Even if most of the spiritual energy of this super spiritual vein is released.
But even the remaining one percent, one in ten million, cannot be stopped by
manpower.
It cannot be absorbed by the human body.
What's more, there's more than that left.
bad!
The environment in the super spiritual vein is extremely harsh!
After coming inside, Levi Garrison's face changed, and at the same time, his heart
was stunned.
With this level of aura, no creature will survive.
It's impossible now, let alone the super spiritual veins of the past.
He was wrong.
Originally, I thought that the richer the spiritual energy, the more nourishing the
treasures of heaven and earth.
But there is a limit.
If the aura is too wild, there is no room for these heavenly treasures to survive.
To grow a plant, it would be against the sky.

But basically that's not possible.
The environment is too harsh, the aura is too strong, and any creature is wiped
out.
It is impossible to have the appearance of heaven and earth treasures.
However, Levi Garrison kept going deep inside.
It's hard to come, he can't leave so soon.
The deeper you go into the spiritual veins, the stronger the spiritual energy.
That is, the current Levi Garrison can handle it, even if it was the previous he may
not be able to see it.
I don't know how long it will take.
A heat wave hit the sky inside.
Don't look at Levi Garrison's face and don't change his face, but with the horror
of this heat wave, he can melt a god into a chain.
It turned out that in this area where Levi Garrison came, the rich spiritual energy
has condensed into flames.
This is different from the flames outside, which is a powerful form of aura.
Everything can be burned.
If Levi Garrison could control these flames, no amount of gods could stop him.
But he doesn't need it.
Levi Garrison forcibly resisted the aura attack in the form of flames and continued to deepen.
Next, he encountered the aura in the form of ice, the power of which was the
same as the flame just now.

Anything can freeze.
They are all forms of aura that cannot be resisted.
But there was still nothing Levi Garrison was looking for.
He could only move on.
Even if he didn't have any treasures he was looking for, he would have to go all
over the location of the super spiritual veins.

What if?
The deeper you go, the more spiritual energy you accumulate.
It was not released in the spiritual recovery at all.
There are even many places in it that are closed, not all the super spiritual veins
are unblocked.
The form and appearance inside are also very complex, integrating various
mountain topography.
This may also be the reason for the many forms of Reiki.
Along the way.
Levi Garrison saw various forms of aura.
"Wait, what is that???"
Levi Garrison saw a tree in front of him!
There are trees in this place, it is definitely a treasure of heaven and earth.
Levi Garrison approached immediately.
But when I got closer, the tree turned into a fossil.
Don't know how long it's been around.
All turned into fossils.
Levi Garrison was familiar and unfamiliar with the appearance of this tree. He
always felt that he had seen it before, but he couldn't remember it.
It is estimated that this tree may even bear fruit in the past, right?
Next, Levi Garrison saw some fossils.
There are also animals.
The body is bigger…
The value of research is high.
But these are of no use to Levi Garrison.
He just wants to unlock Levilia's poison!
What does the rest have to do with him?
He has realized that there is no possibility of heaven and earth treasures appearing in the super spiritual veins.
This time it's a no-brainer.
At this moment, the two dark doctors outside the whirlpool are anxiously waiting.
"Huh? Why do I feel like I'm being watched?"
Suddenly, Doctor Dark said.
He felt a chill down his spine and his hair stood on end.
It felt like being stared at by a beast.
The brain of God on the side also felt the same after being reminded by the dark
doctor.

For a while, he was sweating profusely, his face was pale, and his whole body was
shaking.
Looking outside, there was no one there.
I don't even know where…
Not wrong.
There were indeed people watching them in the dark.
This is a team of one woman and three men.
They were wearing bronze armor all over their bodies, and there was a faint blue
halo.
There is either a sword hanging on his body, or a long knife and a bow and arrow
on his back.
One by one hidden in the dark, as if to hide.
Even the dark doctor's god-level strength can't feel it.
"Little Junior Sister, we are here! If nothing else, this is the flashpoint of the
world's great changes! Below is the location of the super spiritual vein! This
super spiritual vein is really scary! I don't know how much scarier than the one we
cultivated. !"
One of the men with a long gun said.
Obviously they also depend on the spiritual veins to live.
But it is by no means the giant super spiritual vein under the Antarctic glacier.
Another person with a knife on his back said: "This is it! This place has formed a
vortex of spiritual energy! The strength of the spiritual energy below is stronger
than our place!"
The man with the bow and crossbow looked at the three and asked, "Should we
go down and have a look?"
"Forget it, we can't afford this place! I'm afraid we have the ability to go back and
forth!"
The only female junior sister said coldly.
A cold face is suffocatingly beautiful.
The other three nodded.

At this time, the younger sister glanced at the flying machine of the brain of God
not far away, and she said coldly: "What? Do they want to explore here? They are
ignorant!"
"Yeah, it's just beyond our own power! We don't even dare to try it."
Others also sneered.
I mainly saw the aircraft hovering around the aura whirlpool, I really thought that
the dark doctor and the others would also explore here.
"Boom…"
But at this moment, the huge vortex covering half of the South Pole mutated.
All four of them were attracted.
At this time, they were surprised to find that this huge vortex actually rotated in
the opposite direction.
Suddenly, the Antarctic world trembled.
But it is said that the world changes color.
"This…what's the matter?"
"Why is it spinning in the opposite direction? How does it feel like it's human?"
These people were trembling.

"Impossible! How can there be manpower to change the direction of the whirlpool! Don't you know how strong this aura whirlpool is? Unless it is…"
The little junior sister said with a cold face, but she hesitated.
Several others understood.
In her cognition, it was impossible.
"Looks like something's coming out! Let's keep an eye on it!"
Someone started to remind.
The four of them stared closely at the movement of the vortex below.
They have been staring at the changes in the vortex.
Not a moment's slack.
But after a few minutes, the whirlpool returned to normal.
But they never saw anyone coming out.
"Huh? This is…"

“Is it a phenomenon? Is it the cause of the whirlpool?”
Everyone was a little confused.
“It should be the reason for the whirlpool! Let’s go, leave!”
The little sister said seriously.
immediately.
The four left with a bang.
Just after they left.
There is one more person here.
Levi Garrison.
After a round of search for the super spiritual veins was fruitless, he left.
As soon as I came out, I noticed someone in this direction.
He concealed his figure and came directly to this place.
“This is the Town Demon Division???”
Levi Garrison looked at the direction where the few people disappeared, frowning tightly.
Judging from the clothes of the few people just now.
This is the town magician.
He’d also been able to scare the Lab of the Gods by pretending to be the Sorceress before.
Now it seems that their clothing style is that of the Town Demon Division.
There is also the strength of these four.
strong.
This is the town magician.
And they came here specifically to find the flashpoint after the world’s great
changes.
Which means they are!
Levi Garrison still had a lot of horror in his heart.
Zhen Mosi really exists? ? ?
After coaxing for so long, it actually exists.
Incredible!
The legend is true!
These bastards really exist.
Where did you go when you needed them?
Hidden and tucked one by one without coming out?
Levi Garrison understood.
It is certain that the outbreak of the super spiritual vein will cause the world to
change dramatically.
Only let these legendary guys run out.
Since the Zhenmo Division exists, the Tianshi Mansion must also exist.

And according to Levi Garrison's observation just now, their armor, weapons and
internal strength are seen.
They use spiritual energy to cultivate.
Even Levi Garrison can judge that the reason why there is no trace of the Tianshi
Mansion in Zhenmo Sitianshifu is because there was no spiritual energy in this
world before. Not suitable for their cultivation!
The place where they are must have spiritual veins, and the spiritual energy is
abundant, which is suitable for their cultivation.
Not wrong.
Levi Garrison guessed right.
This group of people is the town magic department.
Some time ago, because of the great changes in the world, one by one ran out.
The four people just now were responsible for investigating the cause of the
great change, and they came here all the way to investigate.
And the place where they were before was hidden in some places in Daxia.
The characteristic of these places is that they have spiritual veins. Of course,
their spiritual veins are not as terrifying as Antarctic glaciers.
Their place is rich in spiritual energy, so they will not come to the outside world.
Now that the spiritual energy of the outside world is so strong, it attracts them
one by one.
Levi Garrison was happy.
No wonder the Lab of the Gods is so afraid of it.
This is real.
And a few young people are so strong.
Levi Garrison smiled.
It is said that Daxia has no gods.
But there is a group of people who can kill gods.
The four of them just now are basically stronger than today's Young Commander
Tian Ce.
It seems that they really use the technique of refining Qi, which is in line with
Levilia's own creation.

It's also a big secret.
If it spreads out, I am afraid the whole world will be shocked.
Levi Garrison returned to the aircraft.

Talk to the Dark Doctor about the following situation.
"I really don't think so!"
"That's right, the extreme is the opposite! Everything has a limit!"
The two exclaimed.
"But I just met a group of people…"
Levi Garrison began to talk about the Zhenmo Division.
Now he has no reservations about the two doctors in the dark.
"Zhenmosi and Tianshifu really exist?"
Both of them were from the Lab of the Gods, and they were very familiar with it.
They also understood why they were being watched a while ago.
"Mr. Ye, since the Demon Suppression Division exists, why not ask the Demon
Suppressing Division to relieve Levilia's poison?"
Doctor Dark suddenly said a word, reminding Levi Garrison.
Yes indeed!
Now that he has witnessed the existence of Zhen Mosi with his own eyes.
Then you can go to Zhen Mosi to detoxify Levilia.
Let's not say whether it can be solved, at least there is a great hope.
Then you shouldn't let them go just now, just grab them.
"I'll go out and see!"
Levi Garrison went out to look for a circle, and the person was long gone.
"Where are we going then?"
asked the Brain of God.
"Go to Shengquan to see Levilia first!"
Afterwards, the three returned to the Holy Spring.
Levi Garrison checked Levilia's situation and determined that there was nothing
wrong.
The forces protecting Levilia are too powerful now.
And Jiao Tianyu's 80 people are still being tempered.
Although the place where the students in Kunlun were before was forbidden, the
spiritual energy was abundant.

But it's not bad here.
And there is a small spiritual vein below it, which provides them with the best
cultivation conditions.
They can continue to practice Levi Garrison's basic exercises.
Continuous enhancement!
In the current environment, cultivating the basic exercises given by Levi Garrison
is simply the same every day.
In this regard, Levi Garrison is very relieved.
The three went to Daxia again.
After coming to Daxia.
Levi Garrison directly asked Tiance Shenshuai and the others to ask if there was
any whereabouts of Zhen Mosi.
But Tiance Shenshuai and the others were all at a loss.
Where is the town magician?
Isn't that a legend?
Everyone is dumbfounded.
Although there are many people who speculate that there is someone behind Da
Xia, that is, the master of Young Commander Tian Ce.
Everyone doesn't know, but Tiance Shenshuai and the others don't know that this
person is Levi Garrison.
"Isn't it you who started with the king that day?"
Tiance Shenshuai asked directly.
"it's me!"
Levi Garrison nodded.
"Well then, you are the person behind Da Xia, where are the other people from?"
"The Suppressing Demon Division and the Tianshi Mansion all exist in legends,
and they don't exist at all!"
……
This made Levi Garrison look depressed.
He also thought that Zhen Mosi had already appeared in Daxia.
Where can I get it, other people don't know about it at all.
"The Town Demon Division exists, I have seen it with my own eyes!"
Levi Garrison's words made Tiance Shenshuai and their hearts turn upside down.
"Does it really exist?"

Everyone's eyes are going to fly out.
Especially Tiance Shenshuai and several people were surprised to the point of
disbelief.
"I'm sure they're not wrong! The strength of the little brats is higher than your
son! Other clothing and the power in the body, etc.!"
Levi Garrison said.
"what?"
Levi Garrison said so.
That's what they believe it is.
Zhen Mosi actually exists!
"Then why didn't the ordeal of Da Xia appear before, why now… by the way, the
spiritual energy is recovering…"
Tiance Shenshuai immediately reacted.
Levi Garrison nodded: "They actually rely on spiritual veins to cultivate! Changes
in the outside world have attracted their attention, so they came!"
Understood.
Everything is clear.

Zhen Mosi and Tianshi Mansion really exist, and this is also a group of exquisite
selfish guys.
No interest is involved, it will never appear.
The life and death of Daxia has nothing to do with them at all.
"If that's the case, then we'll send a lot of people out to check and see if we can
find clues or something…"
Knowing that Levi Garrison is for his daughter.
Tiance Shenshuai and the others immediately sent someone to find the message
of Zhen Mosi.
"Forget it, I'll look for it myself, it's hard for you to find it!"
Levi Garrison thought for a while.
This group of people cannot even be detected by the god-level dark doctor.
Not to mention others.

He really had to find it himself.
at this time.
The evil evil spirit came hurriedly.
He came to Levi Garrison out of breath.
"Master, there is a major discovery…"
The evil evil spirit shouted.
"You take a breath and talk!!!"
Levi Garrison is also anxious.
After the Venomous God calmed down, he hurriedly said, "I have searched the
remnants of the division for so long, and found some clues!"
"First of all, there is a incomplete list of strange poisons! It records all kinds of
terrible poisons! Most of them are the same as those recorded in the poison
classics!
However, the third poison on the strange poison list is Wanwuku, which is not
recorded in the first half of the Poison Sutra, but when I checked it carefully, I
felt that the third poison Wanwanku was almost the same as the poison of the
little master species! As for the first and second, there are still many poisons that
are incomplete, I don't know. "
Levi Garrison looked at him seriously and asked, "What do you mean by these?"
"Because I found out that the records of the master's door said – this strange
poison list belongs to the town of magic!"
The words of the evil evil spirits are not astonishing, and they will die endlessly.
As soon as the words are spoken, the expressions of everyone in the audience
change wildly.
From the town magician?
Just confirmed the existence of the Town Demon Division.
Now there is another evidence to prove the existence of the Demon Squad.
How are you not shocked?
"However, I suspect that this strange poison list is also imaginary! Through this
strange poison list, I discovered another important thing.

My teacher's record also said that the second half of the Poison Sutra exists, and
it is in the hands of the Suppressing Magic Division! Because the first half volume
of the Poison Sutra is not necessary for the Zhenmo Division, so banishing the
world gives a chance to those who are destined…"
The words of the evil evil spirit made Levi Garrison excited again.
There is another message in the second half of the Poison Sutra.
*The Evil God of Poison sneered and said: "I think it's just bullsh*t! I never thought*
that my teacher would believe these legends! The Demon Suppression Division
and the Tianshi Mansion don't exist at all! The second half of the Poison Sutra is
such a miraculous thing, say no. Come out, it comes down to the illusory legend!"
Although Poison God has found a lot of clues.
But he never believed in the existence of Zhen Mosi.
Of course this is what everyone agrees on.
It's a legend.
where exists.
Levi Garrison looked at the poisonous evil spirit seriously: "Then let me tell you,
Zhen Mosi really exists!"
"What? The Town Demon Division exists? I don't believe it!"
The Poison God shook his head again and again.
"It really exists! The king side by side has confirmed it!"
Others said in succession.
The Evil God of Poison looked at Levi Garrison in disbelief.
Ask him if it's true.
Levi Garrison nodded.
"The little master has hope! Even if there is no poison scriptures, I feel that there
are so many strange people in the town of magic, and detoxification should not
be a problem!
The poison of all things dry is only ranked third, so the poison of Levilia may not
be as good as all things dry. "
The evil evil spirit also became excited.

At this moment, for Levi Garrison, the poison of Levilia must be solved when he
finds the Demon Suppression Division.
"Look for the town magician!"
Levi Garrison said a word, and almost everyone present began to look for it.
Just when he was about to set off to find someone, Zoey Lopez and the others
came.
They all want to ask how your situation is.
Levi Garrison told everyone that Levilia had temporarily stabilized.
Everyone is relieved.
As for the matter of Zhen Mosi, there is still nothing to say.
If Zoey Lopez and the others are impatient and reveal it, it will be bad to cause
turmoil.
What's more, they can't find it.
Levi Garrison and his party quietly began to search for clues of the Zhen Mosi in
Daxia.

But Daxia is too big.
Really hard to find.
unless directly encountered.
Originally, Zhen Mosi was hidden too deeply, maybe it was right in front of you,
you didn't know it at all.
I have no clue how to find it.
Even if Levi Garrison went to perceive it, there was no result.
Daxia's aura is too abundant.
After the spiritual qi recovery, the essence of the spiritual qi in the underground
of Daxia was stimulated.
So much so that Daxia has more aura than other places.
This greatly affected Levi Garrison's judgment.
hard to find.
Looking for a few days later.
Daxia also had a big problem.

Welcomed a group of unlikely guests.
Why is it impossible, because it is a team sent by the War Bear Kingdom.
This period is very sensitive.
Especially this is the first force.
Wherever they are now, people can be terrified.
They had also prepared a plan to swallow Da Xia before.
Who is not afraid now?
Everyone can guess the purpose of their coming.
I came to test Daxia.
Let's see what's going on in Daxia.
Not to mention the detection in the dark, now Daming is showing off to inspect
it.
But no matter who is behind Da Xia, the first force is still arrogant.
The several messengers sent were so arrogant that they almost engraved Laozi's
number one on his face.
On Daxia's side, although there was a sword from the master of the Tiance Young
Commander that day.
But exactly what happened, no one knows.
Moreover, there are rumors within Daxia that there is no Zhen Mosi and Tianshifu
at all.
Therefore, the people that Yan Longwei received were respectful to the delegation sent by the First Force and tried their best to meet all their conditions.
But this group of people intensified, I don't know what to do.
Repeatedly making rude demands.
For example, see Young Master Tian Ce! We have to let Young Commander Tian
Ce come running!
For example, to see the master of Young Commander Tian Ce!
…
A series of requirements are to test the bottom of Daxia.
In the end, he even put forward a request for Daxia to be attached to the War
Bear Country.
This made Yan Longwei angry, but there was nothing to do.
In the evening, Levi Garrison just came back from the clue of Zhen Mosi.
The two doctors in the dark came together.

“Mr. Ye, a delegation from Zhanxiong Nation is here. It seems that there is also a
request to see Master Tian Ce Young Commander!”
Doctor Dark told Levi Garrison about the arrival of the War Bear Country delegation.
“They still dare to come to Daxia? Who gave the courage?”
As soon as he heard these people, a cold light flashed in Levi Garrison’s eyes.
“There is a high probability that they don’t want to give up Daxia’s fat, all kinds
of temptations, and want to know Daxia’s bottom line!”
said the brain of God.
Levi Garrison sneered: “Okay, don’t they want to meet the master of the young
commander of Tiance? I am! I will go and see!”
soon.
Levi Garrison came to the place where the delegation was entertained.
in the conference room.
The delegation of the War Bear Country is making all kinds of rude demands.
One of the leaders, Taylor, put his legs on the table and looked arrogant.
The deputy next to Brook sneered again and again: “You must understand, I am
giving Da Xia a chance! As long as you are attached to the War Bear Kingdom, we
will provide methods and resources to artificially create gods! Make sure that Da
Xia will have more gods!”
“Otherwise, you all understand the situation of Da Xia! Although there was a
master who killed the star gods last time, but you don’t know who this powerhouse is?”

Protector] Chapter 3118

The group investigated carefully.
I know that although there was a strong man who killed the gods of the star
kingdom with a sword last time, everyone actually didn’t know who it was.
The members of Yan Longwei were stunned.
Confused for a while.
They don’t even know.

“You must know that it is not uncommon to kill so many gods in Zhanxiong Nation. We have many such powerhouses!”
“I hope we live in peace with you and help each other, you are attached to us, we cover you…”
Brooke laughed.
“boom!”
At this moment, the door of the conference room was kicked down with a dull sound.
Levi Garrison walked in slowly.
“Depend on your mother!”
He roared and rushed in.
“Snapped!”
A backhand slapped Brook’s face.
Make a crisp sound.
Everyone present was stunned.
Levi Garrison looked at Taylor again: “Put your legs down, if you don’t want it, you can give it to someone else!”
Taylor couldn’t react in time, and Levi Garrison slammed it down.
“Clapch!!!”
Tyler’s legs cracked, fractured on the spot, and he was kicked off abruptly.
“what!!!”
A pig-like scream resounded throughout the audience.
Senseless!
Everyone in the audience was dumbfounded!
Even the two doctors in the dark were shocked!
No one thought that Levi Garrison would fight if he said it.
Also shot so hard.
In an instant, only the screams of two people resounded throughout the conference room.
Tyler even curled up and rolled on the ground…
“Ye… Levi Garrison…”
The rest of the War Bear Country delegation recognized Levi Garrison.
“Do you know what you’re doing?”
“You are pushing Da Xia into the abyss of doom!”
“When you hit us, it’s like playing the face of Zhanxiong Nation! You are provocative!”
“What’s more, you are the king side by side, you represent Daxia! You are Daxia’s

behavior, which shows that Daxia looks down on us and is provoking us!"
"We are here to negotiate peacefully, to discuss the interests of Zhanxiong and
Daxia in the future. You hit people indiscriminately? Do you want to start a war
with us? Then we are very happy! I can't find a reason to start a war!"
…
The crowd yelled.
Buckle all the big hats on Levi Garrison's head.
It is also important to mention that Levi Garrison's identity represents Daxia.
He also bluntly stated that this will become the reason for the war!
"Snapped!"
"Snapped!"
"Snapped!"
"Snapped!"
Levi Garrison slapped the other four people in the face one by one.
*"I can f*ck you!"*

"What if I am the representative of Da Xia? What about starting a war? I'm afraid
of you?"
"Come on, you're awesome, you all come! I'll kill as many as you want!"
…
"Clap clap clap…"
Levi Garrison slapped his face fiercely on the other side.
Everyone was ripped apart and their flesh was blurred.
Of course, no one dared to force another word.
Where are all screaming.
Completely bewildered.
Especially the Yan Longwei who entertained this group of people.
They were all dumbfounded.
Just for fear of provoking conflicts, they are respectful to these people in Zhanxiong Country.
As a result, Levi Garrison came and beat everyone with violence.
"Levi Garrison, you…"
Zhanxiong Nation alone has to talk.

Just seeing Levi Garrison's terrifying eyes, he immediately shut his mouth in
fright.
Levi Garrison slapped him so hard that it almost cost him half his life.
He didn't dare to say a word to Levi Garrison at all.
Even Yan Longwei was frightened.
Feeling the evil spirit on Levi Garrison's body, they were also shivering.
Levi Garrison stepped forward and shouted at the group: "Go, stand in front of
me! Who told you to sit down?"
"Don't deceive people too much!!!"
Taylor, who had a broken leg, gritted his teeth.
Levi Garrison took a seat on the sofa and sneered: "What if I bullied you? Can you
do me? Come on, hit me!"
The people from Zhanxiong Nation looked at Levi Garrison, their faces were
hideous with anger, and their blue veins burst out.
But they have nothing to do.
If you keep your mouth shut, you will be beaten.
Can only give up.
"Go, go, all stand in front!"
Levi Garrison shouted.
Several people did not dare to disobey, so they could only drag Taylor to stand in
front of Levi Garrison.
"Who gave you the courage to come to Daxia to be wild?"
Levi Garrison said coldly.
"And have I warned you to quickly clear your relationship with Hydra and hand
them over?"
Taylor looked at Levi Garrison and sneered: "I heard it! So what? Are you teaching
us to do things? Are you teaching the gods in the War Bear Kingdom to do things?"
"That is to say, our strength is not good, and we were bullied by you! We
recognize it! But I hope that you will dare to be so arrogant when all the gods in
the War Bear Country set foot?"
Brook sneered: "Don't talk about ten thousand gods, even if there is a god, he
has to be silent!"

“Yes, that’s the case! Now I admit it, but I’m not convinced! Do you dare to ask me
to find someone?”
Taylor, who had a broken leg, said stubbornly.
He even looked at the others in Yan Longwei: “You just allow Levi Garrison to do
this! His behavior is to provoke us!
Although we are average in strength, we represent the War Bear Country! When
you hit us, you are fighting the Bear Country, forcing us to go to war!
Once my war bear country tens of thousands of gods are killed, I see how you will
end? “
Others immediately echoed: “Yes, we know that there are masters who kill gods
in Daxia! You can kill them, right? Tens of thousands, see if you can kill them?”
Seriously!
Instantly, Yan Longwei realized the seriousness of the problem!
These people are the representatives of the War Bear Kingdom!
Can’t touch it at all.
Not wrong.
There was a beheading god on Daxia’s side.
But who exactly is not known.
What if you can fight again?
Come to a hundred gods you can deal with!
But what about a thousand?
Even tens of thousands?
This is the largest force in the world!
There will be more and more artificial gods, they are too scary.
Nobody wants to meet them!
The key to Daxia is that he doesn’t even know what his hole cards are.
What are you fighting people for?
Annoying others, it just happened to be the reason for the war.
This consequence cannot be afforded.
No one dares to take it!
Seeing the people who frightened Yanlongwei, Taylor, Brook and others all
smiled.
“Do you know what to do?”
Taylor sneered.
“I... I apologize for the word side by side…”

“This is just a misunderstanding… I also ask you adults to have a lot of…”
…
Yan Longwei and the others immediately began to apologize.
Taylor looked dissatisfied. Just as he was about to speak, Levi Garrison’s voice
sounded: “It doesn’t matter what they said!”
Taylor stared at Levi Garrison: “Do you have the final say?”
“Yes, it’s me who has the final say!”
Levi Garrison nodded.
“But have you ever thought about the consequences? Can you afford it? Once the
war begins, we will dispatch thousands of gods, and then Daxia will be ruined!
Can you bear this? Can you have the final say?”
Taylor stared at Levi Garrison.
“Why so much nonsense! Let’s start a war? Come on me! Threat me with this,
right?”
Levi Garrison’s eyes flashed with ruthlessness: “Then I will kill you, and see if the
war bear has the kind of war?”
The words are not surprising and die endlessly.
As soon as the words came out.
Everyone present was terrified.
Especially when Taylor came into contact with Levi Garrison’s bloodthirsty eyes,
his whole body became soft, his face was pale, and his body trembled.
“You…you dare!!!”
Taylor shouted at Levi Garrison.
“What am I afraid of?”
Levi Garrison smiled.
Feeling murderous.
Several people in Yan Longwei panicked.
Levi Garrison can do what he says.
“Don’t, stand side by side with the king, for the overall situation! People must
not be killed! If you kill them, something will happen!”
“Yes, the king must consider the overall situation. We really can’t afford to
offend the War Bear Kingdom!”
“We really don’t have any cards to fight them!”

…
Yan Longwei stepped forward to persuade them, and even held Levi Garrison.
“Ha ha ha ha……”
Seeing this, Taylor and the others all laughed.
In their view.
In this case, Levi Garrison couldn’t kill them anymore.
A big picture restrained Levi Garrison.
Unless he’s a lunatic!
But Levi Garrison is known for being resourceful.
He was a strategist when he fought the Gods Lab.
He can’t be crazy!
He is very sensible!
“That’s right! Let him apologize again, I’ll just consider this matter!”
Taylor smiled.
Yan Longwei and the others still persuaded Levi Garrison to take the “big picture” and take the future of Da Xia…
These persuaded Levi Garrison.
“Really? I can take care of the overall situation by myself! Kill!”
A burst of power suddenly burst out of Levi Garrison.
Push Yan Longwei away.
“boom!”
A terrifying force blew Tyler’s head off…
No sign!
Taylor is blown away!

Hot blood splattered the faces of everyone around.
Senseless!
Kill it!
Show no mercy!
“It’s over!”
Yan Longwei’s heart sank, secretly saying that everything was over.
Completely forged Liangzi with the world’s first force.
Where did the remaining five Brooks stand, their bodies straightened, as if they
were dying.
Before they concluded that Levi Garrisonli, you dare not kill people for the sake
of the overall situation, unless he is crazy.
But I never thought that Levi Garrison was really crazy!

He really dared to kill!
After a while.
Levi Garrison looked at several people and said, "Who is the leader?"
The other four pointed to Brook with trembling bodies.
"It's up to you! Go back and bring three words to Zhanxiong Nation! First, don't
send people back to Daxia to be wild, and I will kill as many as you come!
Second, come when you want to fight! Who is afraid of whom? Third, hand over
the Hydra quickly, otherwise, when I kill myself, the War Bear Country will be
reduced to purgatory on earth! Consequences at your own risk! "
Levi Garrison pointed at Brook and said.
Brook was shocked: "You actually… bang…"
He was about to say a retort, but halfway through, he suffered a terrible impact.
The whole person exploded into a cloud of blood on the spot!
This……
Now everyone in the audience was even more confused.
He looked at Levi Garrison in disbelief.
Killed again? ? ?
Just to talk?
Yan Longwei's faces were extremely pale.
Levi Garrison is completely crazy.
This is to completely tear up the face of Zhanxiong Nation, and do it to the end.
"Then you will talk…"
Levi Garrison looked at the four trembling people again.
Some of the four people were about to speak, but they remembered something,
shut their mouths tightly, and then nodded frantically.
They don't want to repeat the same mistakes.
I don't want to die talking too much.
"Then why don't you go back? Wait for me to kill you?"
Levi Garrison said a word, and the four of them fled in fright.
Run as fast as you want.
It disappeared instantly.
Yan Longwei looked at Levi Garrison with complicated expressions and was about
to speak.
Levi Garrison's eyes changed: "Just clean this place, you don't have to say

anything else!”
“Hey!”
Several people sighed and could only clean up the tragedy.
The three of Levi Garrison left here.
Shortly after.
The four returned to War Bear Country and told everything to the top.
Thunder and fury up and down the War Bear Kingdom.
They were repeatedly provoked by Levi Garrison!
Now the delegate sent has been killed again!
Another sent a warning!
Still want to fight!
“Isn’t Levi Garrison crazy? Dare to provoke us?”
“Forcing us to fight??? He’s crazy!”
“In that case, should we attack Daxia directly?”
...
silent.
All of a sudden it was silent!
They naturally want to eat the fat meat of Daxia.
But after the incident of the beheading of fifty gods of the Star Kingdom, no one
is sure now.
Without a clear inspection, no one dares to act rashly.
What’s more, they suffered a loss in the Amazon rainforest, which was a wave of
damage to their vitality.
Although to them, it’s nothing.
However, some high-level officials have already planned to rest and let Hydra
grasp the matter of artificial gods.
As such.
They still do not do anything to Da Xia for the time being.
A war is definitely going to be fought, but not now.
As for Levi Garrison’s warning about Hydra, they didn’t listen to a word.
If Levi Garrison has a seed, he will come and trouble the Hydra.
They didn’t pay any attention to it.
“However, Levi Garrison has written it down more than hatred!!!”
The entire War Bear Kingdom was trembling with anger.
When the Hydra people knew that Levi Garrison sent such a warning, they also
laughed.
“This Levi Garrison is just scaring people. If he had this ability, he would have

come to avenge his daughter!"
"That's right, why is there so much nonsense! I'm sure that he would never dare
to come to Zhanxiong Country! We don't have to take him to heart!"
Not only Hydra and War Bear Country mocked Levi Garrison.
When the news spread, many people laughed at Levi Garrison.
Said he was simply incompetent and furious!
If you don't have the ability to take revenge, if you don't have the ability to take
revenge on the Hydra, you can only say some words of warning.
Basically Levi Garrison has become a joke all over the world.
Of course, except for some people who can't laugh.
Such as the East Island Royal Family…
But the people who laughed were the majority.
In particular, the revenge organization that once wooed Levi Garrison to join,
looked down on Levi Garrison the most.
mock him mercilessly.

"He's a coward! We saw it last time! He didn't dare to take revenge at all! It's just
a matter of lip service! My daughters are like that, and they don't dare to take
revenge! They don't deserve to be a father and a man! "
"Levi Garrison is optimistic, then we will act immediately! It is impossible to
completely destroy the entire organization of Hydra temporarily! But we can kill
a few of Hydra's people! Just give you a proof!"
…
It turned out that the organization found out that the five members of Hydra will
leave the War Bear Country and go to a restricted area to conduct experiments,
which are related to the artificial gods.
Therefore, they want to organize an assassination to kill the five people of Hydra.
This time they will dispatch thirteen top killers.
These are the major killers of the past.
Four killers are now gods.

A god-level killer, if you think about it, is stronger than ordinary gods. therefore.
They are very confident in killing these people.
This assassination was a small test.
The assassination began the next day.
But the results came out soon.
Assassination failed.
The thirteen master killers sent out all died without exception.
Including the four god-level killers.
And there is only one strong person protecting the small team of Hydra.
As soon as the news came out, everyone was shocked.
Marvel at the power of the War Bear Kingdom.
The War Bear Kingdom once again deterred the whole world – the Hydra was
guarded by them, and anyone who came to kill would have to die.
This caused heavy losses to the organization of the Revenge Hydra.
Originally, it was proofed for Levi Garrison, but he died so miserably.
This made them think long term.
The thirteen are all master killers, and the damage is too great.
Levi Garrison also received the message.
"It seems that the War Bear Country is taking this opportunity to demonstrate
against us!"
Doctor Dark said angrily.
Levi Garrison, who was looking for the trace of the Demon Suppression Division,
said coldly, "I don't have time to kill them now!"
What made him tired was that there was no trace of these people at all.
There is no way to find it this way.
"I guess they should have hidden their breath, so that it will be difficult for us to
find, even you. Unless we meet in person! Otherwise…"
said the dark doctor.
Others searched with no results.
Many people began to suspect that what Levi Garrison said was wrong at all.
This town magic division does not exist at all.
But Levi Garrison firmly believed that Zhen Mosi existed.
It's just that they don't have large-scale activities, or intervene in the daily life of
this world.
So it won't be so easy to find.

Now it's like looking for their nest.
It has become a legend for so many years, presumably their lair should be very
secret or cover up with some secret method.
No one else can find it.
"Since you said, Mr. Ye, that they need to use spiritual energy to cultivate, then
we have to find places that may have spiritual energy in themselves! Are these
places now nothing more than forbidden places?"
The Dark Doctor analyzed.
at this time.
The brain of God hurriedly came: "No, something happened!"
"They sent a message from Shengquan, saying that something happened to Levilia… Let's go back quickly!"
God's brain said this.
Levi Garrison was gone.
He walked in the air, heading straight for the Amazon rainforest.
They didn't bring the two Dark Doctors.
For fear of affecting his speed.
The two doctors in the dark could only catch up with the aircraft.
Shortly after.
Levi Garrison arrived at the location of the holy spring.
At first, he thought it was a powerful enemy attacking, but Jiao Tianyu and the
others couldn't stop him.
But after that.
Jiao Tianyu and these people are all fine.
"what's the situation???"
Levi Garrison asked with a cold face.
Levilia in the holy spring has already passed out, and his face is full of poisonous
lines of various colors emerging.
Seems to be struggling for a while.
The toxins have gone crazy.
"Little Junior Sister is fine, but suddenly she went mad, like a poison attack!"
Jiao Tianyu whispered beside him.
They were all terrified.
But nothing can be done.
Levi Garrison carefully examines Levilia's status…
That's right!

Poison strikes again!
Levilia's state returned to before liberation overnight.
It was almost the same as when I came to Shengquan before.
It means that it is useless for Levilia to soak in the holy spring these days.
All aspects are already in recession.
Levilia has fallen into a state of drowsiness for a long time.
what happened?
Looking at the holy spring water, it turned black, and Levi Garrison felt that the essence in the spring water seemed to be gone and absorbed.
When the holy spring purifies the toxins from Levilia's body before, the essence is not lost so fast.
What seems to be absorbing the essence of the holy spring?
He felt uneasy inside.
Levi Garrison carefully examines the reason.
Understood!
Or the problem of the poison!
This poison is so overbearing!
It can grow and become stronger by itself…
In the beginning, the spring water of the holy spring can suppress or even purify a little bit of toxins.
But at the back, after the toxin adapts.
This poison actually used the holy spring as nourishment, and it has grown itself since it was absorbed.
Especially through the carrier of Levilia.
Easier to absorb nutrients!
After all, this poison will turn Levilia into poison!
The strongest poison really lives up to its reputation.
It can still evolve and grow by itself.
This was unexpected by Levi Garrison.
This poison is so ruthless that Shengquan can't bear it.
Fortunately, Levilia was soaked in the holy spring before and accumulated a lot of medicinal power in his body.
Otherwise, this poison attack would be life-threatening.
Shortly after.

The two doctors in the dark came.
After knowing what happened, the two were also stunned.
"Doesn't that mean that the holy spring is useless now? If you continue to soak it,
I am afraid that the holy spring will become the nutrients of the poison!"
Doctor Dark got to the point.
Levi Garrison was very frustrated and finally found a solution.
Never thought it would turn out like this.
Is this poison too strong?
These chops! ! !
Levi Garrison's body was full of anger!
The most important point, where will it go?
Shengquan just gave up?
Don't say that Levi Garrison is unwilling, even in the dark, they are not reconciled.
Could it be that Hope is really the second half volume of Zhen Mo Si and Poison
Sutra?
Going to the forbidden land to find the treasures of heaven and earth, this road is
dead.
Even the super spiritual veins below the Antarctic cannot find the treasures of
heaven and earth.
The ones found in other forbidden places are also limited to cure Levilia's poison.
The holy spring is useless.
Levi Garrison could only leave with Levilia in his arms.
But he must continue to find a way to detoxify.
"All of you go to Daxia to find the whereabouts of Zhen Mosi, and let me know as
soon as you have any clues! I will tell you how to identify them after encountering them."
...
Levi Garrison sent Jiao Tianyu 80 people to Daxia, and continued to look for the
Zhenmo Division.
Also handed over their special identification method.
As for him, he has to continue to search for heaven and earth treasures in those
first-level forbidden areas.

He left the Brain of God behind, and he continued to search for strange people all over the world.
Try everything you can.
When he was about to set off, Doctor Dark suddenly said: "Mr. Ye, I have a solution! Maybe it will work!"
"What can I do? Tell me now!"
Levi Garrison shouted hurriedly just when he lacked direction.
The dark doctor said: "Release the reward…"
"Ok?"
"It's the release of a bounty order all over the world, as long as it can be useful to the detoxification of Levilia or the magical medicine, heaven and earth treasures, etc., there will be many rewards!"
The dark doctor looked at Levi Garrison: "Under the reward, there must be brave men! Maybe all kinds of magical medicines and strange people will come out by then!"
"What's more, we have everything you need for rewarding items…"
They explored so many forbidden places.
Those treasures of heaven and earth that Levi Garrison regarded as rubbish were the world's scrambled blood.
Just throw out a few items, and the whole world will snatch you crazy.
The key is that there are too many of them.
Now, not to mention what they have stored themselves, even the Brain of God aircraft is full.
They can have as much of this stuff as they want.
As long as Levi Garrison followed him to the forbidden area, the aura crystals would be counted by tons!
You must know that the spiritual energy crystals outside are divided into pieces, and one or two pieces are incredible, which can cause countless people to hunt down and snatch them.
Just this capital.

According to the money of the previous era, Levi Garrison was basically the
richest man in the world.
There is as much as you want.
This world's bounty is completely affordable.
Almost anything anyone wants!
When the dark doctor said it, Levi Garrison felt very good.
This is great.

Protector] Chapter 3123

Under the heavy reward, there must be magical medicines or strange people.
Let's not say whether it has a specific effect, but at least there is hope.
There is hope for more.
"Well, okay, do this right away!"
"As long as I can solve Levilia's poison, I can find anything they want. If it doesn't
work, I'll just grab it!"
Levi Garrison said.
Subsequently.
Doctor Dark arranged this matter immediately.
Release a bounty to the world! ! !
Said the purpose – to detoxify Levilia.
And also displayed a batch of natural treasures and ultra-high-purity aura crystals
in their hands.
After the bounty was released, it caused a huge sensation all over the world.
Many people know about the poisoning of Levi Garrison's daughter.
But the important thing is the treasures displayed by this reward.
Just drive everyone crazy.
Not to mention ordinary people, even gods can't refuse.
This is anything and everything that everyone desperately needs!
Even a low-purity aura crystal will be robbed.
What's more, what is displayed is a super high purity aura crystal.
Doctor Dark used the identity of "Black Angel" to negotiate with five countries
to verify these displayed treasures and make a guarantee.
After verification, these things are all true!
And one of the treasures of heaven and earth contains aura that can directly

create gods.
This is the root of the sensation!
And the dark doctor also released words – this is just a random batch, not the
best.
How many of these they want.
As long as you can detoxify!
You have what you want!
But in fact, these are displayed to meet the needs of everyone.
What else do they want?
These are enough!
It really doesn't work, aura crystals will do!
So this bounty came out.
The whole world was shocked.
Countless people couldn't sit still.
Even the world's No. 1 power, the Zhanxiong Nation with the most abundant
resources, would be greedy to see this.
Not to mention that they don't have anything, even if they have it, they are jealous.
Who doesn't want the more the better.
Everyone was immediately moved.
Not to mention, where did Levi Garrison and the others come from?
They desperately want it.
Even the top executives of War Bear Country thought for the first time whether
Hydra could be detoxified?
They are good to take this bounty order.
Get this great reward!
Anyway, after this reward order came out.
A lot of people all over the world are crazy…
They started frantically looking for antidote or drugs or something like that.
The level of madness is astounding!
War Bear Kingdom and Hydra were all stunned.
Can it still be like this?
People all over the world are trying to detoxify Levilia.
No one thought of this.
To be honest.
Everyone in the world needs the treasures displayed by the bounty!
This is not the same as before.

Before Levi Garrison and the others begged for help, they would not do their
best.
But under the heavy reward, one by one will do their best.
There is no way to try to find a way.
And some ancient royal families or forces, they themselves have a series of ancient books and magical medicines.
They are just discussing whether to take these things out?
In other words, after taking it out, what kind of conditions should be exchanged?
And the others who have nothing on hand can only look for it, searching frantically all over the world.
There is no way to create conditions…
crazy!
The world is crazy!
The effect achieved was beyond Levi Garrison's expectations.
is far more than!
They are so crazy!
The response from around the world was horrific.
This will lead to a large number of strange people and elixir to emerge.
After Levi Garrison explored a circle of forbidden areas, he was waiting for the
result of the reward order.
Soon the bounty came into play.
The first to receive the bounty came.
The sun never sets the imperial family!
In their royal treasury, there is a book of magical powers – the record of blood
exchange!
It was snatched by the Empire of Never Setting Sun in Daxia a long time ago!
It has always been enshrined in the royal family.
Detoxification for royalty.
However, this is a kind of sinister cultivation technique.

Protector] Chapter 3124

The blood exchange record, in other words, is to remove the poison through the
exchange of blood.
In layman's terms, the toxin is transferred through the exchange of blood, and

the toxin is transferred to another person through the exchange of blood.
Let others bear…
But in the end, it is the power method that can unlock the poison.
It is considered the top existence in the royal family.
After all, there are many people who want to poison the royal family.
But in the end, few succeeded.
So that the value of the blood exchange record is not high, it has been placed in
the royal treasury, and it has been useless for a long time.
But now there is such a good opportunity.
Can play the maximum value of the exchange blood record.
Why are they not happy?
Hearing this, Levi Garrison's eyes lit up.
Sure enough, sometimes there is a way out of this crooked way.
Although it is sinister enough, it does not need other people to exchange blood.
He can do it himself.
Through the exchange of blood records, the poison is replaced by myself, and I
let myself bear it.
"What conditions do they want?"
Levi Garrison asked.
"Fifty aura crystals…"
said the dark doctor.
Levi Garrison looked puzzled: "Are you sure???"
The dark doctor nodded: "I have confirmed it again and again, the imperial family
of the Empire who never sets the sun just wants to exchange the blood exchange
record for fifty pieces of aura crystals…"
Levi Garrison: "…".
He was speechless.
What earth-shattering conditions did he think he would make?
The result is fifty aura crystals?
That's it!
Dare to mention this condition?
For Levi Garrison, it was no different from pulling a grass under his feet.
"Tell them, give them a hundred pieces of aura crystals! If it's useful, I'll give
them a ton of aura crystals!"
Levi Garrison said.
"Okay! Then they will be able to deliver it impatiently!"

The dark doctor immediately went to contact the royal family of the enemy country.
“Hahaha, it seems that we still underestimated Levi Garrison’s determination to
save his daughter!”
“One hundred aura crystals! This is equivalent to a deposit! If it really works, one
ton! A whole ton!!!”
“I asked for fifty pieces of spiritual energy crystals, thinking it was a lion’s mouth!
In the end, people didn’t even care about it!”
“Hurry up and organize someone to send the blood exchange record over there!”
The sun never sets the imperial family can’t wait.
A hundred pieces of spiritual energy crystals!
It is a huge boost to the Empire on which the Sun Never Sets!
Now the whole world is torn apart for a piece of spiritual energy crystal.
That’s a hundred dollars.
And the purity is super high.
I don’t know how much higher than those aura crystals that are flowing outside
now.
War Bear Country.
Several heads of Hydra got together.
“No! Where did Levi Garrison get so many resources? Dare to release a reward
order like this? If you have the confidence, you can challenge the Zhanxiong
Kingdom?”
“This resource is terrible, isn’t it? Where did he come from? No, but it has already
been confirmed. Everything is genuine!”
“Maybe it came from Daxia! Daxia is so rich in resources, and there are no people
to explore! Levi Garrison estimates that there are a lot of them, so it’s not surprising!”
“But are we going to let the whole world detoxify his daughter?”
“No! We must stop it! No one can detoxify his daughter!”
“I heard that the royal family of the Empire Never Sets has a blood exchange
record, and I want to exchange it with Levi Garrison!”
“Stop! It must be stopped! Contact them immediately and ask to send some

staff!”
…
In fact, it is not a secret that the imperial family of the Sun Never Sets Empire
wants to use the blood exchange record to trade with Levi Garrison.
Many people know it.
And they all think it’s very likely.
This blood exchange record might be a success.
Therefore, many people are greedy for the blood exchange record, and they have
the idea of snatching.
After all, such good things are rare.
After grabbing it, take it to trade with Levi Garrison, what do you want.
However, he is afraid of the power of the empire on which the sun never sets.
Few people dare to grab it!
Even if people come swaggeringly, no one dares to grab it.
After all, life is important.
soon.
The Sun Never Sets Empire team set off.
for attention.
Send dozens of masters to escort the blood exchange record.
Among them are four gods.
But they are not aboveboard escorts either.
Instead, he quietly chose a secret channel to escort him.
They are also afraid of the eventuality.
It is best to send it as soon as possible and get a hundred pieces of aura crystals.
the other side.
Doctor Dark also went to pick him up immediately.

…
Levi Garrison just happened to take Levilia in a certain first-level forbidden area
to test whether the treasures he found were useful.
They have also prepared a hundred pieces of spiritual energy crystals, and if
there is no problem with the blood exchange record, they will be offered immediately.
The location of the negotiation between the two parties is in the area of the

Western Continent where the sun never sets, and it happens that Levi Garrison is
in a nearby first-level forbidden area.
…
Soon, the team that the Sun Never Sets Empire escorts for the blood exchange
records will soon arrive at the location.
"This way, no one dares to grab it!"
"Hahaha, who has the guts to steal our stuff?"
…
Several people walked all the way without encountering any danger.
It's starting to relax now.
"No, the more vigilant it is at this time!"
Said for the first god.
"It's okay, it's almost here! What danger could there be?"
It's just that the words fall.
"Wow wow wow…"
There was a commotion around.
One after another figure appeared.
Headed by the eight gods!
There are forty or fifty other masters.
Surround the troops of the Empire of Never Sets.
"Who are you? Do you know who we are?"
The strong man on the side of the Empire where the sun never sets shouted.
"Of course I do! Do you have a blood exchange record on your body?"
"We are here from Hydra! Resolutely stop Levi Garrison's daughter from detoxifying!"
"We won't kill you! Just hand over the blood exchange record obediently!"
The people who came came said coldly.
This surprised everyone in the Empire where the sun never sets.
Is it so upright?
Identify directly!
But everyone knows the grievances between Hydra and Levi Garrison.
You don't have to think to know that they are blocking it.
Why not directly identify yourself…
"We just need to change the blood record! Or you can destroy it yourself!"
These people are getting closer…
These people are not the gods or powerhouses of the War Bear Kingdom.
but other forces.

It was Hydra who asked them to take action with various conditions.
Just like this reward order, if you come up with enough conditions, someone will
work for you!
This is the case now!
Hydra recruited a group of people to work for them!
Come to snatch or destroy the blood exchange record!
"Absolutely not!"
"The escort for the blood exchange is recorded away!"
...
That's one hundred spiritual energy crystals.
How could the imperial family of the empire never give up?
They immediately began to charge, trying to open a way to rush out.
The powerhouses who worked their lives for the Hydra were also dispatched one
after another.
The two sides began to fight.
Although there are eight gods here, they were stopped by the powerhouses of
the Empire where the sun never sets.
"I want to take the blood exchange record! Impossible!"
Soon after, a voice came.
Doctor Dark is here.
"Boom..."
He knocked back the three major gods of the opponent with just one punch.
"what?"
"Is Doctor Dark so strong?"
Everyone recognizes the Dark Doctor.
But he was more shocked by the strength of Doctor Dark.
Is he also a god?
Doesn't it mean that the dark doctor has not accepted the baptism of Reiki?
This is too strong! ! !
Doctor Dark laughed: "I expected Hydra to stop it! We have been waiting for a
long time!"
"boom!"
The next moment, the brain of God also rushed out from the side.
The Brain of God was an ordinary person before.
But now he has become a strong man comparable to the gods.

As soon as these two joined, the battle strength of the Empire on the Sun never
set greatly increased.
Even these two people can block all the powerhouses sent by Hydra.
Levi Garrison actually expected that Hydra would come to grab it early in the
morning.
They will definitely go to great lengths to stop it.
No one else can!
No reason, no courage!
Hydra has a reason, and there are people to support it, and they are not afraid of
everything.
He doesn't need to arrange too much.
Just let the Doctor of Darkness and the Brain of God be there.
Not really.
Let the dark doctor send a signal and ask Jiao Tianyu for their support.
In any case, Hydra will not succeed.
Therefore, Levi Garrison would feel at ease to go to the first-level forbidden area
to find the treasures of heaven and earth.
…
Now that Doctor Dark saw the situation on the field, he didn't need Jiao Tianyu's
support at all.
"Just follow the brain of God and go forward! I'll give you aura crystals at that
time!"
Doctor Dark abruptly opened a bloody path.
Let the Sun Never Set Empire escort some people from the Blood Exchange
Records to follow the Brain of God to the junction point.
Although the powerhouse sent by Hydra has the intention to stop it, there is
absolutely no way to face the dark doctor.
soon.
The Brain of God took the four to the junction point ahead.
Levi Garrison will be back soon.
By then it will be safe and sound.
Twenty kilometers away from the junction point.
The mind of God feels safe.
But at this time.

“Shhhhh…”
Several figures and ghosts appeared and assassinated five people.
No sign!
God-level killer! ! !
More than one!
A full four!
The Brain of God barely escaped.
But the other four have different heads.
Didn’t hide at all.
“Shh!”
Another figure appeared.
Go directly to the four bodies.
Several others blocked God’s Brain.
This person quickly found out on the corpses of the four people and exchanged
the blood to record this exercise.
“laugh!”
A flame appeared.
The exchange blood record burned directly.
“Hahaha… Levi Garrison, you can’t think of detoxification!!!”
The man laughed wildly.
Let the exchange blood record burn.
“Ah!!!”

The Brain of God watched the Blood Change Record burn, and could only make a
roar.
But there is no way.
In the end, I could only watch the blood exchange record being destroyed!
God’s brain is shattered!
He never imagined that another group of people would appear.
Who is it?
These killer gods left quickly after destroying the blood exchange record.
the other side.
The strong men sent by Hydra could not attack for a long time, so they could only
withdraw.
Doctor Dark and the others hurriedly greeted them.
Only saw a few corpses halfway, and the brain of God was slightly injured.

…
“what???”
When they learned that the exchange blood record was destroyed, they were
dumbfounded.
“who is it?”
“Could it be that Hydra also arranged for other people to ambush here?”
Everyone started guessing.
“It shouldn’t be! Hydra is so open and honest! Zhanxiong Nation also has hatred
with Mr. Ye, and they all grab it directly! It won’t be so secretive…”
Said the leader of the Empire where the sun never sets.
The Brain of God also said: “It’s five god-level killers! They all cover their faces to
prevent anyone from recognizing them!”
“It shouldn’t be Hydra! If it were them, they would attack, but they wouldn’t be
so secretive!”
The brain of God is sure.
“Who would that be? How dare you attack us! Aren’t you afraid of offending my
empire on which the sun never sets?”
The crowd roared.
Not wrong.
Perhaps there are many people who are dissatisfied with Levi Garrison, and many
people who do not want Levilia to be treated.
But this blood change record was taken out by the imperial family of the Empire
where the sun never sets.
To change the blood record is to fight against the royal family where the sun
never sets.
Few people in this world have the guts!
The only possible War Bear Kingdom has stood up above all!
So who is left?
Doctor Dark also looked blank.
Who will this be?
This is clearly two people!
If it was a person sent by Hydra, in this situation where it is easy to get the exchange blood record, it should be the first time to snatch the blood exchange

record, rather than destroy it directly.
The Brain of God was at the scene, and these five god-level killers came directly
to destroy the blood exchange record!
This is obviously different from Hydra's goal.
Hydra is trying to steal the blood-swap record as much as possible, and if it
doesn't work, it will destroy the blood-swap record.
But these five people came directly to destroy the blood exchange record.
Obviously not a group!
According to the nature of Hydra, this exchange blood record has research value
for them.
"That's because there are people who don't want to see Levilia detoxify!"
Doctor Dark said.
At this time, Levi Garrison brought Levilia back from the nearby first-level forbidden area.
"What happened?"
He saw immediately that something was wrong.
Doctor Dark told Levi Garrison the details.
Levi Garrison's face became more and more gloomy.
"Apart from Hydra, is anyone else doing it?"
Levi Garrison said coldly.
The leader of the Imperial Family Team of the Sun Never Sets said: "I'm sorry, Mr.
Ye, we underestimated our opponent! We thought no one would dare to grab it!"
Levi Garrison glanced at him: "It doesn't matter! It has nothing to do with you! It's
just someone targeting me!"
"Old Hei, give them a hundred spiritual energy crystals!"
Levi Garrison shouted.
"clear!"
However, the group of people in the Empire where the sun never sets were stunned.
Everything was obviously lost.
How to return the aura crystal.
"It's okay, since you all got here, it's done!"
Levi Garrison's generous shots also conquered this group of people.
"Mr. Ye, as long as you need it, we will be your allies! In addition, we will do our

best to check the people who do it! The Empire on Which the Sun Never Sets will
not forget it!"
After a group of people promised, they left with the aura crystal.
Shortly after.
The War Bear Kingdom released a message – admitting that Hydra sent someone
to destroy the blood exchange record.
But in the end it didn't work.
Someone else ruined the blood exchange record.
Unexpected!

Protector] Chapter 3127

For a time, no one could really think of who destroyed the Blood Exchange
Record.
Levi Garrison couldn't remember either.
Who else stops Levilia from detoxifying?
He has been thinking about it for a long time.
Still can't figure out who it is!
"Check! Must find out!"
"Everyone in the Hydra must die! This group of people must also die! Not one of
them!"
"If they sincerely want to prevent Levilia from detoxifying, then they will take
action next!"
said the dark doctor.
The Brain of God nodded: "Yes! The news that Mr. Ye gave the Sun Never Sets
Empire 100 Aura Crystals has already spread!
There is nothing left, but I can still get something. Next, this will attract a lot of
people to find ways and things to come! "
It turned out that Levi Garrison did not blindly give the aura crystal.
First, buy people's hearts.
Second, do it for the outside world to see.
The blood exchange record was destroyed, and he even got an unimaginable one
hundred spiritual energy crystals.
As soon as this news came out, many people became more and more crazy.

As long as you bring something, you will be rewarded.
Even some major forces began to look for some ways to directly help Levilia
detoxify.
That will bring unimaginable benefits.
I heard before that Levi Garrison promised to give to the imperial family of the
Empire where the sun never sets. As long as the blood exchange record is useful,
he will directly send a ton of spiritual energy crystals.
This is too scary.
Even the most resource-rich War Bear Country is scarce, and it is impossible to
just take out a meal of aura crystals.
This is crazy.
All the more determined.
Be sure to find ways and things to detoxify.
Hydra and War Bear Kingdom also knew about this.
"Where did Levi Garrison get so many treasures and spiritual energy crystals?
Just give away one hundred yuan? Is he crazy?"
"The point now is how did he get these things? I feel that the resources he has
now are no less than War Bear Country! If you get his resources…"
…
While others were still looking for ways to exchange magical medicines with Levi
Garrison, Zhanxiong Nation and Hydra were already trying to figure out all Levi
Garrison's resources.
I want to swallow it all in one go!
"When you feel it is necessary, you Hydra can negotiate directly with Levi
Garrison! Just say you can detoxify his daughter, but you have to give us all the
resources!"
A god in War Bear Kingdom came up with an idea.
All agreed.
But check it out first to determine the resources that Levi Garrison has.
It's best to detail everything…
So who destroyed the blood exchange record? ? ?
Who sincerely does not want Levilia to detoxify?
No one thought of it at all.

On an island in the Eastern Continent.
A group of people gathered.
Among them are the people who asked Levi Garrison to join the revenge organization.
This is one of the locations of the organization of the Revenge Hydra.
The five god-level killers just returned.
It turned out that they were the ones who destroyed the blood exchange record!
"Anything has been done! The blood exchange record is destroyed!"
The five said.
"good very good!!!"
"Levi Garrison, you don't dare to join us or seek revenge from Hydra, then you
don't want to detoxify your daughter!"
"We will destroy any antidote or magic medicine!"
"You brought it on yourself too! If you had promised to join us sooner! Then all of
us would be busy detoxifying your daughter!"
...
Extremes must be reversed!
Their hatred for Hydra is so deep that they are now going to extremes.
As long as they do not join the Hydra without revenge, they will be punished and
die.
Levi Garrison never thought of such an enemy anyway.
Just because I didn't join them, I didn't think I would take revenge on Hydra.
to make such a move.
"By the way, it seems that Levi Garrison has a lot of resources! If he joins us, it
will be a bit more certain! Send someone to discuss with him!"
"If the negotiations don't go well, find a way to swallow all his resources!"

Protector] Chapter 3128

Now everyone is really starting to use the resources that Levi Garrison has.
After all, the husband is innocent, and he is guilty.
Levi Garrison has resources that rival Zhanxiong Nation, who wouldn't make up
his mind?

It is estimated that there will be people who will grab it abruptly next!
Not to mention all kinds of quid pro quo…
Many are still second-level forbidden areas or even first-level forbidden areas.
There are very few things in the third-level forbidden area.
But now the major forces in various countries can explore the third-level forbidden areas.
Second-level forbidden areas are difficult to explore.
No one has explored the first-level forbidden area.
However, Levi Garrison has the treasures of the second-level forbidden area or
even the first-level forbidden area.
This makes people very suspicious.
Many people have explained that Levi Garrison may have obtained it from Daxia.
After all, there are many forbidden places in Daxia, rich in resources, and no one
to explore.
But think about it carefully, the first-level forbidden area and the second-level
forbidden area have a lot of resources, but do you have the life to bring them
out?
For example, in the holy spring of the Amazon rainforest, so many people went,
but no one came back after the whole army was wiped out.
What strength does Levi Garrison have?
What are the cards?
Can you get so many resources?
This is definitely a big problem.
The Imperial Family of the Never Sunset Empire has dispatched a large number of
manpower to find who is the one who destroyed the Blood Exchange Record?
This is not just to repay Levi Garrison's kindness.
It is also a response to provocation of their majesty.
Levi Garrison also asked people to start an investigation.
Destroy the blood change record and then you will die!
this day.
The people from the revenge Hydra organization found Levi Garrison again.
Levi Garrison asked impatiently, "Why are you here?"

“Hurry up, don’t force me to kick you out!”
The five immediately stated: “Hold on! We are here to discuss with you!”
“I don’t know what you’re thinking now? Has there been any change from last
time?”
several people asked.
“Say!”
Levi Garrison said coldly.
“Hydra came to snatch the blood exchange record openly, and won’t let your
daughter detoxify! Are you still indifferent in the face of such a provocation?”
“They are going to force your daughter to death, and they don’t want her to get
any chance of detoxification! Aren’t you angry and don’t want revenge?”
“I think, born as a father, shouldn’t you raise a knife to avenge this incident? Can
you still sit still?”
…
Several people asked questions in succession, condemning Levi Garrison with
morality.
Levi Garrison looked at them so directly.
“To tell you the truth! We have assassinated Hydra members many times, but all
failed! Especially once we sent several god-level killers…”
“I’ve said so much, just to let you know that revenge on the Hydra is actually very
difficult. It’s hard to kill them all, let alone destroy them!”
Several people said.
“So?”
Levi Garrison sneered.
“So we, the enemies of Hydra must unite more and more! Only by uniting can we
find Hydra’s revenge!”
“Now we also heard that Mr. Ye is very talented, and it is rumored that the
resources you have are comparable to those of the War Bear Kingdom!”
“Now we sincerely invite you to join our organization again! I think with the help
of you and such abundant resources, I will definitely be able to take revenge on

Hydra!”
“Now our members have gathered nearly 100,000 people, and the number of
gods has exceeded 50!
I believe that after you join and use the resources behind you, the number of
strong people will rise sharply! At that time, we will be able to compete with the
War Bear Kingdom, let alone the revenge Hydra! “
…
Seeing Levi Garrison did not speak.
Several people continued: “You can rest assured! As long as you join, the matter
of your daughter’s poisoning is a matter of the organization. When the time
comes, we will find a way to detoxify your daughter! There are all kinds of strange people in the organization! Detoxify your daughter, Not to mention!”
They say it with certainty.
Levi Garrison still didn’t speak.
“Mr. Ye, what do you mean? Or you can put it forward if you have any conditions!
As long as you agree to join!”
Several people urged.

Levi Garrison really wanted to laugh.
What an operation of an empty-handed white wolf!
Want to prostitute? ? ?
This pancake is so well done!
The first time he recruited him was indeed because he wanted to join him for
revenge. It’s for him.
But this time, recruiting him is actually for the resources behind him. He is just
incidental.
Painting cakes and paintings are so big, isn’t it just to get the resources behind
him?
In fact, there are many people who are now eyeing the resources behind him.

It's just that these people in front of them have normal reasons.
to be honest.
Just want to prostitute!
As for whether he is in this revenge organization, it is not really useful.
Just kick if you want to.
Resources are at hand!
And the fact that they finally said to help Levilia detoxify is also nonsense.
If Levilia had just been poisoned, they said so, Levi Garrison might have agreed
eagerly.
But now, Levi Garrison has searched for such a method and a treasure of heaven
and earth.
are of no use.
The hope that this organization can detoxify Levilia is zero.
"The resources behind me are for detoxification of my daughter, not for revenge!"
"I still say that, I will solve the revenge Hydra alone! It's just that before my
daughter's poison is cured, I will let them live a little longer!"
Levi Garrison looked at the five people again and said, "Is your organization also
disbanded? Don't make unnecessary sacrifices! Take revenge on me! I am enough
to kill the Hydra! The day when my daughter is better is the day of revenge! "
...
Levi Garrison's few words made them stunned.
Originally, they also thought about the possibility of Levi Garrison's rejection.
But he never thought that Levi Garrison would say exactly the same thing as
before.
Can he destroy the Hydra alone?
Blow!
Keep blowing!
After several assassinations, they found that the War Bear Kingdom was stronger
than expected.
It's not as simple as a thousand gods.
And now there are many rumors of tens of thousands of gods!
Still a coward!

Don't dare to take revenge on Hydra at all!
Just having fun like this.
To put it bluntly, it is fear, dare not take revenge, and stubborn!
But this time, the five people have learned to be smart, and they dare not say it
directly in person.
The scene of the last beating is still vivid in my mind.
Although Levi Garrison is not a god, he is not a match for them.
"Mr. Ye, please think about your daughter as well. Your power is limited after all!
Whether it's to detoxify your daughter, or to revenge the Hydra!"
"If you unite with us, everything will be easier!"
...
But a few people were reluctant to give up so quickly.
I would also like to persuade.
"Look at what just happened! Although there is such an existence as a blood
exchange record, but your power is limited, you can't keep it at all! If you join us,
under the protection of powerful forces, this situation will never happen!"
They even gave an example of the destruction of the exchange blood record.
When it came to the blood exchange record, Levi Garrison suddenly felt that
something was wrong.
But again I can't remember.
It always feels wrong.
It seems to have noticed something…
"No, I don't need you!"
Levi Garrison said coldly.
"It seems that Mr. Ye will not join us?"
The five said.
"Yes, hurry up! Don't make me angry!"
Levi Garrison said coldly.
It was just that the five of them looked at the treasures of heaven and earth and
aura crystals behind Levi Garrison.
This scarce resource was piled up in Levi Garrison's place.
It's so scary!
Shocked everyone.

Protector] Chapter 3130

The Vengeful Hydra organization also has resources, but they are too few. If their organization had these resources, wouldn't it be possible to take off on
the spot?
"Can we… can we take a look?"
The five asked tentatively.
"Look, but don't make up your mind!"
Levi Garrison's cold voice came.
He didn't understand what these people meant.
This is purely for his resources.
He also deliberately avoided suspicion and took out these swaggering ones.
It doesn't matter anyway.
Whoever dares to attack these resources will die!
Even if these resources are very easy to obtain, he can have as many as he wants.
The five people trembled, and began to step forward to inspect them, identifying
these treasures and spiritual energy crystals one by one.
"Really! It's all true!"
"The purity of this aura crystal is the highest I've ever seen! And how many tons
are there?"
"Too rich, so rich!"
"I can't wait to grab it directly!"
…
This directly shocked several people.
The last five people also reluctantly left here.
After returning to the island, I told everyone about it.
"Levi Garrison hasn't joined, right? Then her daughter should not try to detoxify!
We are watching everyone, but if there is hope, we will destroy it!"
This organization is determined to embarrass Levi Garrison.
When they heard the resources that Levi Garrison had, everyone was terrified.
"It's so scary? There are so many resources! We must get it! We will try our best
to grab it!"
"Yes! Once we have these! There is hope for the revenge Hydra!"
This resource directly exposes the greed of everyone.
Everyone is going crazy!

Of course, there are not a few who want to swallow Levi Garrison's resources.
Everyone is conspiring.
Everyone wants to eat this piece of fat!
Next.
Many forces or individuals in the world have sent Levi Garrison methods and
magical medicines.
But to no avail!
Each one is better than a blood change record!
It doesn't work at all for detoxification!
And whatever is useful.
are hindered.
Either a Hydra person or a "mysterious force".
They are all destroying.
Even some strange people, they will kill them, and these people will kill Levi
Garrison without finding Levi Garrison.
For this reason, the dark doctor is very distressed.
Find Levi Garrison to discuss.
"It's not the way to go on like this! Let other people come to us, so many people
can't care!"
Doctor Dark is worried.
Levi Garrison also frowned.
All that can come is useless.
It feels a little useful, but I can't come here at all.
At this time, the brain of God said: "However, this group of people who shot has
also been targeted by us! It is estimated that they will know their identities soon!"
It turned out that doing so was also waiting for the "mysterious force" to take
action.
So keep an eye on them!
This is also what the organization of the revenge Hydra did not think of.
They thought that Levi Garrison saw Zhuojing's elbow.
Not many people at all.
Not to mention taking the time to investigate them.
But they never imagined that Levi Garrison was fully staffed.
Looking back at them…

Levi Garrison looked at the brain of God and said, "You're keeping everyone's eye
on you! They will continue to attack! Find out their identities as soon as possible!"
"clear!"
He looked at Doctor Dark again: "Come and filter out those useful ones! I'll go
there myself!"
After summarizing this period of time, those miscellaneous items are basically
useless.
In order to be useful, it has to be a country or a major force, and it is possible to
have the method of detoxification and magic medicine.
So Levi Garrison still has to cooperate with these people.
The Sun Never Sets Empire is not only looking for people, but also actively trying
to find a way for Levi Garrison.
A lot of detoxification methods and some treasured medicines were sent.
Of course, there is no way for Levilia's poison.
...
Levi Garrison had no choice but to continue to work hard and find hope.
Hope your approach will work.

It has to be said that bounty orders are still useful.
a few days later.
Really found hope.
Doctor Dark rushed to find Levi Garrison.
Heilongguo said they have a way!"
Doctor Dark said.
The Black Dragon Kingdom used to have a mediocre status in the world, especially in terms of technology and its weakness.
They also have many primitive tribes.
Equivalent to a semi-technical country.
But the country is martial and bellicose.
All along, the general physique of all people is burly and strong.
And it is accompanied by many secret arts, methods of refining the body, and
wizards.
Their physique is too strong.

Aside from the hot weapons, the strength of the Black Dragon Kingdom can be
ranked in the front.
However, after the advent of the technology era, they have been kept in the corner and unknown.
But since the aura recovered.
Let the Black Dragon Kingdom rise rapidly.
Like the War Bear Kingdom, they also faced this disaster head-on. After all, their
technological strength was not enough to avoid this disaster.
They couldn't build a safe island like Daxia.
You can only choose to face it.
However, their physique is too heaven-defying, and they can absorb and digest
spiritual energy better than other races, and convert it into their own power.
This is racial talent!
Therefore, more than 500 gods were born in the Black Dragon Kingdom!
There are also more of the other overall powerhouses.
And under the same rank, they are stronger.
After all, their physiques are insane.
And they also have various secret methods and body refining techniques.
There are also so-called wizards.
It can transform the spiritual energy they absorb into their own power to the
greatest extent.
Therefore, it is said that they are all gods. Maybe the gods of Heilongguo are
generally stronger.
Their overall strength can continue to improve.
In this way, the Black Dragon Country ranked fifth after the aura recovered.
The technological era of the past is on the bottom line.
Now I heard that Levi Garrison was detoxifying his daughter, and it happened
that they had many primitive tribes and wizards and so on.
There are not a few strange people who can detoxify.
Knowing that Levi Garrison is generous.
They also discussed with Levi Garrison.
But the lion opened his mouth.
The success rate of the method is similar to that of the exchange blood record.

But the conditions have increased more than tenfold.
“They have a lot of weird people, and there are also a lot of partial methods!
Maybe they can!”
“They are the power of the whole country this time, so the conditions are a bit
high!”
“Of course this is their excuse! They are the lions! According to them, it is not the
power of the whole country? Seeing that we can come up with such good conditions, who is not desperate? Who is not the whole country looking for it?”
Doctor Dark is very dissatisfied.
I feel like they are robbery.
The lion opened his mouth.
The condition for a book of blood exchange in the Empire of Never Setting Sun is
only fifty aura crystals.
It was Levi Garrison who added one hundred aura crystals to them.
However, the Black Dragon Empire has not come up with a feasible solution or an
effective magic medicine.
The lion actually asked for a ton of spiritual energy crystals and a full thirty
pieces of heaven and earth treasures.
It’s not that I can’t afford it!
It’s just that the way they eat by fire is a bit ugly!
This makes the dark doctor very angry!
He even wanted to reject it outright at the time!
So he came to Levi Garrison to discuss.
It’s just that Levi Garrison focused on his daughter and said directly: “It doesn’t
matter! These are all things outside the body, not to mention as many as they
want!”
“Too!”
“It’s nothing to us!”
The Dark Doctor nodded.
“Alright, let’s go to the Black Dragon Country together! Hurry up!”
Levi Garrison was impatient.
Don’t want anything to happen.
For example, the exchange blood record was destroyed again.

He's going to see for himself.
soon after.

Levi Garrison and his party came to the entry point of Heilongguo.
From a distance, someone greeted him.
"Look, we're all here!"
A group of people was about to pass, but they were stopped.
"Wait! You can't go in first!"
The messenger of the Black Dragon Kingdom shouted.
"What's wrong?"
Levi Garrison asked.
Even the Dark Doctor was puzzled.
When Heilongguo discussed with him before, he was very enthusiastic.
I can't wait for Levi Garrison to bring Levilia to trade immediately.
Hurry up and bring the treasures of heaven and earth and aura crystals.
Why are they delivered to the door now, and they are still stopped?
Shouldn't they be greeted immediately inside?
The Brain of God pointed to the aircraft behind and shouted, "Everything you
want is in it! Open the door quickly! I'm afraid we won't give it to you!"
Hear this.
A group of people in Heilongguo laughed.
"That's not the reason!"
"Before going inside, I have something to discuss with you!"
The messenger of the Black Dragon Kingdom said.
"Cock!"
Hearing this, Doctor Dark's heart sank.
These bastards are going to have trouble.
Levi Garrison carried Levilia behind his back and looked at them with a calm
expression: "What's the matter? Tell me!"
"We Heilongguo will detoxify your daughter with the power of the whole country.
You should know the conditions we want, right?"
The envoy of the Black Dragon Kingdom said.
Levi Garrison nodded: "Well, I know, what's wrong?"
Doctor Dark stepped forward and said, "I negotiated the conditions, what happened?"
The black dragon messenger smiled and said: "That's what our old country master

talked about! He is a little old and confused! He didn't express his meaning
clearly…"
Doctor Dark: "…".
Speechless!
So speechless!
This is obviously what he negotiated!
The other party's words are eloquent!
Express it clearly!
Remind him again and again of the conditions!
How can it be old and confused and not express clearly?
Furthermore!
It's not the old man who talks well with him.
It's a young man!
He is the great prince of the Black Dragon Kingdom!
Why are you so confused?
To regret it!
Understood!
The dark doctor immediately shouted: "You have made a mistake, I am talking to
the great prince of your Black Dragon Kingdom, not the country lord! Where did
you come from? It's not clear!"
The messenger of the Black Dragon Kingdom and others all looked at the dark
doctor.
*Everyone shouted angrily: "Bullsh*t! It's obviously the old country lord who is*
negotiating with you! Where is the eldest prince?"
"You're quite a liar! How can the eldest prince represent such an important
matter?"
At this time, the eldest prince of Heilongguo came out: "Are you going too far?
When did I talk to you, and I haven't seen you before!"
Doctor Dark looked at the prince of the Black Dragon Kingdom who had personally discussed with him not long ago.
He laughed.
Hard to argue.
This black dragon country is obviously going to distort the facts.
Come up with something that doesn't make sense.
Then the next step is to discuss the conditions.

Levi Garrison didn't understand all this.
He looked at the people of Heilongguo and said, "Since the old country lord
didn't make it clear! Then you all make it clear! Don't be rude!"
He only worries about Levilia, and the others don't want to mess with these
people.
Let him in now!
Ink again!
He's going to step down here!
Heilong eldest prince said with a smile: "Okay, I'll make it clear!"
"Mr. Ye can detoxify your daughter. We, the Black Dragon Council, are here to
help!"
"But we have consumed so much manpower and material resources, and the
conditions we need are relatively harsh! Listen and see! If you can accept it, go in
and detoxify your daughter! If you can't accept it, we can't help your daughter's
poisoning! "
Levi Garrison was anxious to death: "Then hurry up and talk! Why are you talking
so much nonsense?"
Anyone can see that they are temporarily adding conditions!
"Well, I said, the condition is – three tons of high-purity aura crystals! One
hundred high-quality heaven and earth treasures are needed! We will accept it on
the spot! If the quality is passed, you can enter! We have already found the strange man. The alien detoxification!"
The words are not surprising and die endlessly.
The Black Dragon Prince finished his words.
The three of Levi Garrison were stunned!
What a big lion!
What a temporary condition!
Immediately quiet down…
three times!
Under the condition of the original lion's big opening, it has tripled!
so horrible!
Let's just say it!

Heilongguo, ranked fifth in the world today, does not have so many resources.
The number of Tiancaidibao may be there.
But this kind of high-purity spiritual energy crystals only cost him two or three
hundred yuan.
But they shouted out three tons of aura crystals!
This lion's mouth is too big!
You're going to burst your stomach!

Protector] Chapter 3133

The resources of this condition are comparable to the third and second national
power.
The Doctor of Darkness and the Brain of God are going to explode.
Almost happened on the spot.
Shameless!
shameless!
I have never seen such a greedy person!
*Human ** is unlimited!*
But this is too exaggerated!
This time even Levi Garrison's face changed.
He is not lacking!
In a sense!
He can have as many of these things as he wants!
Getting these things is even easier than beheading the gods…
But everything has to be reasonable!
Be disciplined and honest!
Especially when the two sides do business!
This is overkill!
Levi Garrison's eyes became somewhat cold.
When everyone in Heilongguo saw the expressions of the three, they all laughed.
I know I'm yelling right.
This really touched Levi Garrison's heart.
Let's talk about whether they will agree, at least now they are hesitant.
That's their goal.
Heilongguo actually wanted to try it after they heard that the blood exchange
record of the Empire of the Never Sets Sun had been destroyed and they got a

hundred crystals.
At the beginning, he shouted out a ton of aura crystals and thirty treasures of
heaven and earth.
Heilongguo himself knew that it was the lion who opened his mouth.
But knowing that Levi Garrison was in a hurry, he wanted to try it.
There is no comparison with the conditions of the Empire on which the Sun Never
Sets.
Dozens of times.
But they didn't think that Levi Garrison agreed quickly, and immediately brought
their daughter.
This made them realize that this condition did not reach Levi Garrison's bottom
line.
Therefore, everyone discussed, temporarily blocking them, and adding conditions.
After all, Levi Garrison is so active, it can be seen that he is very worried about his
daughter's condition.
Do everything for her daughter!
This condition may be complied with.
That's why this scene was stopped…
The eldest prince of Heilongguo smiled and said, "I know this condition is very
difficult! But isn't there such a sweet spot? We in Heilongguo don't bother to
detoxify your daughter!"
"If you can't accept it, please come back!"
"Yes! Seeing how embarrassed you are, you can't accept this condition, and you
can't mature, so go back!"
…
The people of Heilongguo began to urge.
Doctor Dark stared at everyone, gritted his teeth and said, "You guys are raising
prices on the ground! You are not honest at all!"
The brain of God was also very excited: "That's right! In fact, your initial condition
is that the lions speak loudly! You know how much you are going too far when

you compare with the Empire on which the Sun Never Sets…"
"A bunch of greedy guys!"
The eldest prince of Heilongguo smiled and said: "Then you don't care! We have
this condition! You may have a better way out! Then please do it yourself!"
"We're back!"
After speaking, the group turned around and left.
"Wait!!!"
Suddenly Levi Garrison's voice sounded.
The Dark Doctor and God's Brain immediately shouted, "Mr. Ye can't do it, they
are too bullying!"
Levi Garrison ignored them, looked at the princes of Heilongguo who turned
around and asked, "Are you sure you want to raise the price on the ground? Put
forward this condition?"
"Yes, that's right!"
The Black Dragon Prince nodded.
"Okay, do you have this appetite? Can your stomach hold it?"
Levi Garrison continued to ask.
"You don't have to worry about it! Of course we can handle it! What is this? A
little more, and we can handle it too!"
Several people said.
"good very good!"
Levi Garrison smiled.
Levi Garrison's smile is very kind, but in the eyes of the dark doctors, it is super
scary.
This is the precursor to his anger.
Even the Great Prince of the Black Dragon Kingdom had expected it.
The more it does, the more dangerous it is.
For some reason, they were terrified.
Even some of the gods did.
Looking at Levi Garrison, I felt extremely frightened.
They were all vigilant.
Waiting for Levi Garrison's next article.
Then, Levi Garrison said: "Okay, just follow your terms!"
"Ok?"
As soon as the words came out.

Everyone present was stunned.
He looked at Levi Garrison in disbelief.
He actually agreed? ? ?
There was almost no hesitation in agreeing.
This made people puzzled.
Especially the Dark Doctor.
"Mr. Ye…"

Protector] Chapter 3134

The two doctors in the dark looked at Levi Garrison incomprehensibly.
According to his temper, shouldn't he have already started to kill?
"What's the matter with you, Mr. Ye? How can you agree to such conditions?"
The two shouted anxiously.
"Listen to me, give them something!"
Levi Garrison's tone was beyond doubt.
"we……"
Although the two doctors in the dark were unwilling.
There is no way.
You can only take the people of Heilongguo to the aircraft to count the items.
The aircraft is huge.
Bring enough things.
In this way, he handed over three tons of vigilance and one hundred heavenly
treasures to Heilongguo.
Everything is true.
Both the quality and purity are far beyond their imagination.
Therefore, everyone in the Heilongguo laughed from ear to ear.
Make big money!
Get rich straight away! ! ! !
Directly let the Black Dragon Kingdom come to the ranks of the competition for
the top three forces!
Some of their sorcerers or esoteric techniques are not artificially created gods.
But it can make the combat power reach the gods.
It is not so easy to create an artificial god. Only when the aura radiates and
baptizes to a certain extent can it be considered a god.

However, it is also possible to reach god-level combat power.
But resources were scarce in the past.
Now there are abundant resources.
This is enough for Heilongguo to do a lot of things and come up with a lot of
actions.
All of them were so excited that their mouths grinned to the roots of their ears.
If they hadn't temporarily added conditions, where did so many treasures come
from?
They are very fortunate to have made such a decision!
They even felt that they had underestimated Levi Garrison's bottom line.
Obviously, if they agreed so easily, it proved that they had not touched Levi
Garrison's bottom line.
Condition can still be added!
But adding conditions now may irritate people.
They don't want the fat in their mouths to slip away.
Sorry!
When the conditions were added before, it should be directly five tons of spiritual energy crystals and five hundred heaven and earth treasures.
But it's too late!
Soon, the people of Heilong Country moved these things back to Heilong Country one by one in a mixture of excitement and regret.
In order to prevent someone from robbing or destroying.
They put up hundreds of gods to protect them.
The moving process went smoothly and no one bothered.
Hydra did not appear.
After all, the Black Dragon Kingdom is too strong.
on people's door.
If you come to destroy it, you can attract more than 500 gods!
Who can stop this?
"Mr. Ye, please come in! We will do what we say! Let the whole country detoxify
your daughter!"
A warm invitation from the great prince of the Black Dragon Kingdom.
It seems that their Black Dragon Kingdom is fair and just, and they are very
disciplined.
Say it and do it?
Pooh!

Smelly shameless chops!
A sanctimonious piece of garbage!
It's time to get dressed!
Doctor Dark is going to be pissed.
They watched Levi Garrison enter straight in.
Should not be!
The Levi Garrison they know is not like this anymore!
Being bullied like this by Heilongguo, he should have drawn his sword long ago!
It must be for Levilia!
There must be a back-up!
Just wait!
His things are easy to get, but hard to use!
The two firmly believe this!
They followed suit.
In fact, many people are watching the transaction between Heilongguo and Levi
Garrison.
In particular, Hydra and War Bear Kingdom paid close attention to them.
"The Black Dragon Kingdom is too powerful, we have no strength to destroy it,
we can only watch Levi Garrison enter!"
"Isn't it true… There are more than 500 gods! We have to destroy at least this
number of gods! Even if there are so many gods in the War Bear Kingdom, we will
not send so many at one time!"
"I just hope that there is no way to detoxify Heilongguo! Of course it is impossible! No one can solve this poison!"
"But one thing is too scary, where did Levi Garrison get so many resources?
Heilongguo's lions open their mouths and are satisfied at will? That means that
Levi Garrison's resources are actually far greater than this number! It's really
eye-catching. !"

Protector] Chapter 3135

Not only the Hydra is jealous, but the War Bear Kingdom is also extremely jealous.

Another mysterious force that should be shot is the organization of revenge
Hydra.
They want to destroy as much as possible any way to detoxify Levilia.
But they are not fools.
Don't dare to do things that lose your life.
They dare not stop the transaction of the Black Dragon Kingdom no matter what.
After all, life is important!
How can they fight against more than 500 gods? ? ?
So they didn't send anyone.
However, the fact that Levi Garrison generously gave the Black Dragon Country
so many resources surprised them again.
Several people who have seen Levi Garrison said: "It means that Levi Garrison has
more resources than we have ever seen! One aspect is that his daughter is poisoned, but it is not to that extent. This shows that he has a lot of resources
behind him, and it is for Heilongguo. It doesn't even matter!"
"If we get these resources…"
A greedy smile appeared on everyone's face.
Whether or not they can find Hydra's revenge has been left behind by them.
Now I am thinking about how to occupy Levi Garrison's resources to strengthen
myself.
All of them are drooling!
Not just them.
There are many powers and countries in the world, seeing that Levi Garrison has
such resources, they are greedy to death.
Whether it is a big force or a small force, they are all greedy to death.
Among them, the third-ranked force in the world directly came up with the idea
of occupying all Levi Garrison's resources.
He is planning to swallow Levi Garrison's resources in one go, and let Levi
Garrison get all the methods or locations for obtaining resources.
Completely control the resources behind Levi Garrison.
Not to mention the power of these countries.
Even in Daxia, many people are starting to get jealous.

Many people bluntly said that it was too selfish for Levi Garrison to detoxify his
daughter with such a wealth of resources!
He is a king, so he should hand over all the resources to Da Xia for distribution,
not for his daughter to detoxify by himself.
Even if these resources were found by himself, but he is from Daxia, he should
hand them over to Daxia for distribution.
He is so selfish…
There are many people like Da Xia, and they all began to kidnap Levi Garrison in
morality.
Using these resources to detoxify my daughter can't get rid of it.
So selfish!
Why don't you come to the strong summer!
It's been like this in the summer, and it's still such a waste…
Levi Garrison never dreamed that he was told this by his own people.
There are too many people staring at their own resources.
Now he has entered the Black Dragon Country.
The strange people of the Black Dragon Kingdom also began to detoxify Levilia…
All kinds of methods have been developed, and all kinds of magic medicines have
been taken out.
Levi Garrison was watching and waiting, hoping for a good result.
At this time, the eldest prince of Heilongguo came to Levi Garrison again: "Mr. Ye,
discuss something with you!"
"Speak!"
Levi Garrison also knew that they didn't hold back.
"The conditions just mentioned are actually the conditions for entering the Black
Dragon Country… If we help your daughter detoxify or detoxify, you have to pay
extra!"
The eldest prince of Heilongguo smiled and said, "It's not too much! If the detoxification for your daughter is effective, we will get some rewards!"
Intensify! ! !
The Dark Doctor and the Brain of God are really going crazy.
He almost knocked off the head of the big prince of the Black Dragon Kingdom.

Doctor Dark has lived for so long, and I have never seen such a shameless person.
Think about adding conditions to the Fa!
The prince of the Black Dragon Kingdom didn't even care about the two doctors
in the dark.
He looked straight at Levi Garrison: "Mr. Ye, what do you mean?"
He also knew that it was Levi Garrison who called the shots.
Others said it doesn't count at all.
Levi Garrison said coldly: "Yes! As long as you can detoxify my daughter! I will
give you whatever you want!"
"Hahaha, Mr. Ye is still refreshing!"
"But I won't speak too loudly! Just ask for a little reward! If it's effective for your
daughter's detoxification, then we need five tons of spiritual energy crystals and
five hundred heaven and earth treasures!"
"If it can be completely detoxified! Ten tons of spiritual energy crystals and a
thousand heavenly materials and earthly treasures are needed!"
The prince of the Black Dragon Kingdom said very modestly.
As if he had put forward a little condition.
"puff!"
The dark doctor both vomited blood.
Isn't this called the lion's mouth?
Is this a random condition?
Insatiable greed!
Shameless!
die!
all to die!
Doctor Dark is really pissed off!
Levi Garrison looked at the prince of Heilongguo and said, "Well, yes! It's very
simple…but…"
"but what?"
asked the great prince of the Black Dragon Kingdom.
"Nothing…"
Levi Garrison silently added in his heart – but you have to have your life to get it!
If you can unlock Levilia's poison or have an effect on suppressing the poison.

That's all good to say.
But once there is no effect, the Black Dragon Kingdom will be in trouble.
the next few days.
Levi Garrison and several people are staying in the Black Dragon Country.
The strange people of Heilong Kingdom have exhausted all kinds of methods and
magic medicines to detoxify Levilia.
The wizards of some primitive tribes all joined the battle.
The Return of the God of War [The
Protector] Chapter 3136

They raised a lot of worms, similar to Gu worms, which can suck out toxins.
But in the face of the poison that Levilia planted, these insects died on the spot
after sucking a little.
This poison is too overbearing.
Not the kind they had met before.
Even each tribe has a detoxification magic tree, as well as a series of ancient
methods.
Experiment on Levilia one by one.
Nothing works!
Even the wizard used the secret method to transfer the poison, but it was of no
use.
More and more strange people were defeated.
There are fewer and fewer ways to detoxify Levilia.
Levi Garrison and the others were calm.
This has happened too many times.
Nothing unusual.
But the Black Dragon Kingdom panicked.
They still think that it will be effective, and they will blackmail Levi Garrison
again?
It doesn't work, what should they do?
Seeing the fat in the mouth is about to slip away.
They can't stand it.
So Heilongguo ordered that the whole country really came to find a way to detoxify Levilia.
Nor do they want to detoxify.

At least I can find something useful.
Get a little more of Levi Garrison's resources…
crazy!
The entire Black Dragon Country is crazy!
In order to get the benefits, they went crazy and found various methods and
magic medicines all over the country.
As long as there is a detoxification method or drug, you must!
Also rewarded heavily.
All of a sudden, there are more strange people and methods.
It delayed Levi Garrison and the others for a few more days.
But the effect is minimal, almost nothing.
"Forget it, let's leave and find another way!"
Levi Garrison and the others are all about to leave.
"Wait, you wait!"
Heilongguo did not want Levi Garrison and his party to leave.
All came up with the idea of occupying Levi Garrison's resources.
But at this time they also had good news.
There is one thing that is absolutely useful for your poison…
Lying on an ice bed can temporarily seal everything in the human body.
After getting off the ice bed, he recovered.
It can be said that as long as you stay on the ice bed, all aspects of the human
body will be sealed by ice.
Organs will not age, and the vitality of the human body will not be lost.
Always in a frozen state.
Theoretically, immortality can be achieved.
Of course theoretically.
This has everything to do with the human body.
Ordinary people will never have this effect.
Frozen has to freeze people to death.
Must be physically strong and able to withstand prolonged freezing.
In this way, when the freezing is over, it is possible to restore physical skills.
Now this ice bed may not be of any use to Levilia's detoxification.
But it is clever that it can freeze Levilia, which can freeze toxins.
It can't cure the poison, but it can freeze the poison and prevent you from attacking.
At this point, Levi Garrison can only suppress, but cannot stop it.
The toxins are still coming out little by little.
Although relatively slow.
But if there is this ice bed.

Levilia's toxin can be sealed by ice, so it's okay to prevent it from happening.
This poison is too cunning.
The holy spring can become its nutrients, and it would be good if it could be
temporarily frozen.
Levi Garrison and his party brought Levilia to this tribe.
After letting Levilia lie down, use the ice bed to try the effect.
Observed continuously for three days and three nights.
Ice beds do work.
The ice seals Levilia, and the ice seals the poison.
Everything is suspended.
It is also very rewarding!
Levi Garrison's brows also stretched a little.
"Then I'll take this ice bed away!"
Levi Garrison directly loaded the ice bed with Levilia into the aircraft of the Brain
of God.
Everyone in Heilongguo smiled and nodded: "Okay, it's good if it works! Mr. Ye,
we also tried our best!"
The prince of Heilongguo looked at Levi Garrison and said, "It's finally effective, I
almost thought I'd let you run for nothing!"
"Mr. Ye, what is our agreement?"
Saying that, the great prince of the Black Dragon Kingdom looked at another
aircraft not far away.

Protector] Chapter 3137

It just flew in.
It was an aircraft that Levi Garrison told the brain of God to fly again.
People in Heilongguo thought that the aircraft contained all kinds of resources.
It was Levi Garrison who promised to give them five tons of aura crystals and five
hundred treasures of heaven and earth.
Not so much has survived in a single aircraft before.
So let the brain of God be transported back once.
The Black Dragon Kingdom looked at the aircraft eagerly.
The look of greed and desire is undoubtedly revealed.

Doctors in the dark are sick to the point of vomiting.
At this time, the Brain of God came to Levi Garrison and said, "Mr. Ye, the other
aircraft you ordered is also here!"
It's just that the mind of God can't figure out why Levi Garrison asked him to fly
another aircraft.
I thought it was sending resources to the Black Dragon Kingdom.
But it's not.
There was nothing in the aircraft.
Therefore, he did not understand what Levi Garrison meant.
What are you doing with an empty aircraft?
The dark doctor seemed to understand something, and he laughed.
When he came to the head of God and told the head of God, the latter also laughed.
Sure enough, it's Mr. Ye!
Just say he can't be so willing to be played by Heilongguo?
The original point is here!
Seeing the aircraft, the eyes of the prince of Heilongguo lit up: "It's really refreshing to cooperate with Mr. Ye! Haha… Come on, go and move all the
resources!"
As soon as his voice fell, everyone in the Black Dragon Kingdom rushed towards
the aircraft impatiently.
"Slow down! Be careful! If you damage the treasures of heaven and earth, I will
kill you!"
Looking at everyone's frizz, he couldn't help shouting.
A group of people rushed over excitedly.
It turned out that the aircraft was empty inside.
There is nothing!
he crowd shouted.
The prince of Heilongguo fell on Levi Garrison: "What do you mean?"
Levi Garrison sneered: "Did I say there is something in it?"
The eldest prince's expression softened a lot, and he laughed a few times: "I'm
sorry, we are in a hurry!"
Everyone was also embarrassed.
They are too anxious.
As soon as I saw the aircraft, I ran over.
No one has spoken yet.

The eldest prince looked at the first aircraft again, and asked with a smile, "Is it
all in here? Can it hold so much?"
Everyone looked at the first aircraft.
So many resources have been moved out before.
Are there any resources available?
The space isn't that big, is it?
Levi Garrison shook his head: "It's not there!"
The eldest prince of Heilongguo was puzzled, and immediately asked: "Where is
that? I understand! Did Mr. Ye send someone to transport it?"
Levi Garrison pretended not to understand: "What luck? What are you talking
about?"
"This…" Heilongguo's eldest prince's expression was stagnant, his smile disappeared, and he immediately said seriously: "Didn't I discuss with you when
detoxifying your daughter? If it works, you have to send another one afterwards.
Reward—five tons of spiritual energy crystals and five hundred heaven and earth
treasures!"
The rest of the Black Dragon Kingdom nodded: "Yes! That's the condition!"
But suddenly Levi Garrison asked: "Is there? Why didn't I know?"
Doctor Dark immediately understood what he was talking about, and agreed: "No!
It must be Mr. Ye, you are confused! There is no such thing at all!"
The brain of God who reacted also said: "How can you people in Heilong Country
lie? Mr. Ye didn't talk to you at all! It's obviously me who talked to you!"
The words are not surprising and die endlessly.
As soon as the words came out.
Everyone in the Black Dragon Kingdom was stunned.
This dialogue seems familiar!
Where have I heard the same!
Suddenly everyone reacted.
Isn't this what they did not long ago?
Exactly the same!
It was the great prince of the Black Dragon Kingdom who reversed black and

white, distorted the facts, and forcibly trapped Levi Garrison and his party.
Now it's back!
*The eldest prince of Heilongguo immediately shouted: "f*ck! Are you too shameless? Obviously I talked to Levi Garrison! He agreed!"*
Anxious!
The Black Dragon Kingdom is in a hurry!
It's just maddening!
The situation is even more exciting than the previous Dark Doctor!
"Mr. Ye, do you dare to admit it?"
The big prince of Heilongguo stared directly at Levi Garrison and asked.
Levi Garrison said nothing.
Doctor Dark said, "We talked to you? You forgot! How dare you lie?"
"And the condition you talked to me is that once Levilia's poison cannot be cured,
not only will you have to repay the three tons of spiritual energy crystals and one
hundred treasures of heaven and earth we gave you before! You will also have to
pay double!"
The Return of the God of War [The
Protector] Chapter 3138

Before they could speak, the brain of God echoed: "Yes, that's right! It's because
you pay us back that you have to pay double compensation! Because we don't
have enough space for our aircraft, we will fly another one!"
Now the two doctors in the dark fully understand Levi Garrison's intentions.
I know the purpose of another idle aircraft.
This one is used to hold the "double compensation" of Heilongguo!
What if there is no compensation?
Just grab it!
This is Levi Garrison!
Only at this moment did they understand what Levi Garrison meant.
Levi Garrison has always been a good stubble.
Only he cheated others, how could others take advantage of him?
Especially the shameless style of Heilongguo!
Especially when it comes to the back…
It even hit Levi Garrison's muzzle!

The reason why Levi Garrison didn't have an attack on the spot was because he
was all on Levilia, and he let them go for a while.
Wait until the Levilia thing is over.
Levi Garrison started to calculate the general ledger!
The moment has finally come!
In a word – Levi Garrison's things are not so easy to take, and if you take it, you
may lose your life to pay!
Silly!
Everyone in the Black Dragon Kingdom is stupid!
No one thought that Levi Garrison and the others would come to such a play.
Used their shameless robber-like methods on them.
Never imagined!
Shameless!
Shameless!
Many people in the Black Dragon Kingdom bowed their heads in shame.
It turned out that their behavior was so shameless.
After being used on yourself, you will be so angry!
The big prince of Heilongguo was about to be dumbfounded.
"What? Not only do you want to send back what you sent out, but you also want
us to compensate?"
He was about to vomit blood.
So are others.
Angry!
It turns out that this trick will make people so angry!
Doctor Dark both laughed: "Your tricks are used on you, are you angry? Do you
want to kill us?"
"you!!!"
If the mental state is not good, I am afraid that I will die of anger on the spot.
"Levi Garrison, are you kidding us? Are you courting death sincerely?"
The face of the big prince of the Black Dragon Kingdom changed greatly.
Pointing at Levi Garrison and roaring.
As for everyone else, they all stared at Levi Garrison.
Dozens of gods around also noticed the abnormal situation and stared at Levi
Garrison.
A war is imminent.

“Levi Garrison will give you another chance! As long as you obediently bring five
tons of spiritual energy crystals and five hundred treasures of heaven and earth! I
will let you go!”
“Otherwise, none of you want to leave! Let alone detoxify your daughter!”
The Grand Prince of the Black Dragon Kingdom shouted.
“Boom blah blah…”
The masters around him all stepped forward, aura surged, and the wind swept
across.
“Have I said earlier that your appetite can handle this?”
“No one can take my Levi Garrison’s things!”
Levi Garrison’s voice sounded.
“You…what do you mean???”
The prince of the Black Dragon Kingdom said coldly.
“Eat me and spit it out! I have to compensate! If I don’t give it, I will rob! Whoever
stops it, I will kill it!”
Levi Garrison said lightly.
The dark doctor and the brain of God were excited for a while: “It’s obviously a
robbery! But it’s so righteous! It’s so cool to listen to!”
“puff!!!”
I vomited blood!
Heilongguo is going to vomit blood up and down.
It’s obviously about to be robbed, right?
Shame on them!
Although their behavior is no different from robbing, they are full of benevolence and morality.
Levi Garrison is obviously going to grab it!
This is the introduction of wolves into the room, right?
This is putting the robber in!
“You… I serve…”
The prince of Heilongguo talked for a long time, but couldn’t say anything.
It is estimated that he has never seen someone more shameless than him.
Uppercase suits!
Robber meets robber!
“Levi Garrison, are you sure you want to do this?”
asked the great prince of the Black Dragon Kingdom.
“Of course! Did you hand it over yourself, or did I grab it myself?”

Levi Garrison is not good at all.
They remembered their actions before.
He had already wanted to do it.
It's been a long time too.
"Levi Garrison is too shameless? Not to mention, we used so much power to detoxify your daughter. Now we give your daughter an ice bed to suppress the poison! You still want to rob us?"
"We are your benefactors, so we treat our benefactors like this?"
The others sneered.
Levi Garrison smiled: "I am grateful and respectful for detoxifying my daughter!
But are you worthy of yourselves?"
"I'm in a good mood, I'll give you three melons and two dates! If I'm in a bad mood, I'll just grab you! What can you do with me?"
When everyone in Heilongguo heard this, they all exploded with anger.
This is simply deceiving.
"Levi Garrison, are you sure? The chance is given to you! You are courting death!
Then we have nothing to do!"
The eldest prince of Heilongguo immediately shouted: "From now on, all information will be sealed, and everything that happens in Heilongguo will not be known to the outside world!"
Heilongguo is about to attack Levi Garrison.
So all information is to be blocked so that no one knows what is going on here.
Levi Garrison they want to kill!
They want to occupy Levi Garrison's resources!
They also want to get Levi Garrison's secrets about resources!
Therefore, no one else can be made aware of what is happening here.
…
"Not good! The Black Dragon Kingdom has begun to block all information! It is estimated that something will happen! We don't know what happened inside!"
Many forces observing outside have noticed this.

Heilongguo was sealed clean.
No one knows what is going on at the moment.
Many forces and people panicked.
But there is no way.
The Black Dragon Kingdom is too strong.
Once sealed, no one can break through the defense line.
Seeing that the Black Dragon Kingdom sealed everything.
Levi Garrison smiled.
Exactly what he wants.
"Levi Garrison, you can't live without here today! So is your daughter!"
The Grand Prince of the Black Dragon Kingdom shouted.
"I'm still saying that! Hand over the things! Don't force me to grab it!"
Levi Garrison said.
"Looking for death! I don't want to see him standing!"
The Black Dragon King was furious to the extreme.
A god beside him immediately shot at Levi Garrison.
This speed can no longer be described in words, and immediately appeared in
front of Levi Garrison.
"Hey!"
But suddenly a cold light suddenly appeared.
The head of this god is gone!
"Divine Tribulation" appeared!
Suspended in front of Levi Garrison!
shocked!
The sudden scene made everyone in the Black Dragon Country dumbfounded.
What's happening here?
Kill the gods in seconds?
However this is only the beginning!
"Whoosh!"
The divine calamity was unstoppable, and it turned into a streamer and shot out,
shuttling around the Black Dragon King!
"Pfft!"
"Pfft!"
...
One after another, bloody arrows shot, and people's heads flew out.
Neither gods nor other powerhouses can stop the might of the divine calamity!
After one lap.
There was no one standing beside the Prince of the Black Dragon.

Hundreds of people all fell to the ground, their heads all lost.
This includes over thirty gods!
The other people who came here were frightened to stop when they saw this
scene.
"you you you you……"
The eldest prince of Heilongguo looked at Levi Garrison and trembled to the
point where he couldn't say a word.
He has recognized the sword!
It is already understood that Levi Garrison is the master of the young commander
of Tiance!
The fifty gods of the star kingdom died in his hands!
This is the super powerhouse hidden in Da Xia!
The existence that is hailed by the world as "God's Enemy"!
More than 30 gods who slaughtered them in just an instant!
This power is terrifying!
Of course others recognized it.
Even the dozens of other gods who came in a hurry looked at Levi Garrison with
some trepidation.
They are not sure if they can fight Levi Garrison!
Levi Garrison looked at the prince of Heilongguo and said, "I gave you a face
before, so you should hold it well! As a result, you are shameless again and again!
Courting death?"
"Pfft!"
Unable to bear such pressure, he fell to his knees directly.
Seeing Levi Garrison breaking out in a cold sweat!
Shivering!
"Do you want to hand it over now? Or wait until I kill some gods and then discuss
it?"
Levi Garrison asked.
"I… I I I I… I promise…"
Trembling, he agreed.
But at this time, another group of gods came.
He shouted from a distance: "I can't agree! Heilong also allows other people to
be wild? How can he be so powerful? We have more than 500 gods!"

This group of gods, forty or fifty people, came from the sky.
Levi Garrison said nothing.
"Whoosh!"
It's just that the calamity flew out.
"Hey!"
Blood lines were drawn out in the air.
Forty or fifty gods were all beheaded and fell from the sky.
Nearly a hundred gods have fallen before and after.
Maybe more than 500 gods are not enough to kill!
"You have to let me kill some more before you agree to agree?"
Levi Garrison said coldly.
The field was immediately silent to the point where a needle could be heard…

Senseless!
The people of Heilongguo were stunned again!
Dozens of gods were easily wiped out?
The gods are like paper paste, killing if they want to.
Not to mention others.
Basically, kill as many as you want!
"I, I, I… I promise…"
The big prince of Heilongguo was in a hurry.
He hurriedly shouted at the other people who came over: "Stop it for me! Don't
do it for me! Don't look for death!"
Someone was still not convinced: "Prince, where are there more than 500 gods in
the Heilong Kingdom? Are you afraid that he will fail?"
"Yes! He is indeed powerful! Almost a hundred gods are not his opponents! But
we can take a gamble! More than four hundred gods shot together!"
"Yes! You can take a gamble! This is about the honor and disgrace of our Black
Dragon Kingdom!"
…
Some people feel that they should take a gamble, and feel that four or five hundred gods will take action together.
Levi Garrison has no choice!
"Hey!"
It's just that the prince of the Black Dragon Kingdom sighed.

Looking at Levi Garrison, he said, "One word side by side, the king, don't do it again! I accept it, no, we have taken it!"
"We listen to you! Take out everything you gave us before, and give you double compensation!"
Others, such as the advisors or high-level officials of Heilongguo, all agreed with this decision!
Can't afford to gamble!
Good to win the bet.
Lost the bet?
All the gods said nothing.
Whether the Black Dragon Kingdom can survive or not is a question!
Maybe Levi Garrison has to be wiped off the map directly!
too frightening!
One hundred gods said that the instant kill will kill all of them!
The remaining four hundred or so gods may not be enough to kill!
No one is willing to take all the belongings to take this risk!
Only compromise!
This is not just the meaning of the great prince of the Black Dragon Kingdom.
It's everyone's idea.
No one dares to gamble!
"Then spit it out! Then double the compensation! If you pay more, you won't have so many resources!"
Levi Garrison said lightly.
There is no way!
They can only agree.
The eldest prince of Heilongguo looked at the others and shouted, "Why are you still standing there? Hurry up and move the things to the king side by side! Are you waiting to die?"
Next, the people of Heilongguo moved the resources into the aircraft little by little.
It means that the resources are still warm in their hands, and they will be handed over.
It's too awful!

But there is no way!
If you don't pay, you will die, let Levi Garrison kill again and again!
Not only returned all Levi Garrison's resources, but also took out double compensation.
It means that the belongings they saved almost made Levi Garrison "robbery"
clean.
It hurts!
Heart is bleeding!
Everyone can only watch!
Angrily clenched all his fists!
One by one, I can't wait to eat Levi Garrison!
Levi Garrison looked at them and smiled: "What? Unhappy? Then continue to
fight?"
Everyone: "...".
The big prince of Heilongguo and the corners of their mouths twitched fiercely.
hit?
Who dares to fight?
How many gods are not enough to kill!
Is it easy to save this fortune?
Levi Garrison will kill them all.
The Black Dragon Kingdom is over!
Tolerate!
Just endure it!
No matter how arrogant or provocative Levi Garrison was, he couldn't have any
ideas.
Tolerate!
Everyone has become a Teenage Mutant Ninja Turtle!
Finally, all the resources were moved to the two aircraft.
Everyone in Heilongguo can only hope that if they become stronger in the future,
they will find Levi Garrison to settle the account.
"Mr. Ye, we should leave too!"
Doctor Dark urged.
He and the Brain of God pilot a flying machine each.
"Slow down first!"
Levi Garrison did not move.
This makes people feel very strange.
Want to know what Levi Garrison will do next?

The eldest prince of Heilongguo asked directly: "Is there anything else to do with
the king? Is it…"

Protector] Chapter 3141

He guessed that Levi Garrison would go back on his words and add conditions.
"I saw that you were upset! So I killed you! Do you have any opinions?"
Levi Garrison said to the great prince of Heilongguo.
The words are not surprising and die endlessly.
As soon as the words came out.
The audience was horrified.
Everyone looked at Levi Garrison in disbelief.
The reason for the murder? ? ?
It's quite enough!
I see you are upset! I will kill you!
Have an opinion?
Even Doctor Dark didn't even think about it.
They thought this was the end of it!
Never thought it would end!
"I……"
The eldest prince of Heilongguo looked at Levi Garrison blankly.
He also never thought that Levi Garrison would suddenly say this.
"I……"
What else did the prince of the Black Dragon Kingdom want to say?
I saw a flash of cold light!
A blood line appeared on the neck of the prince of the Black Dragon Kingdom…
Senseless!
Everyone present was stunned!
No one thought that Levi Garrison would do it if he said it!
Show no mercy!
Everyone is like a walking dead!
Can't get back to God for a long time!
"Pfft!"
Until the corpse of the great prince of the Black Dragon Kingdom smashed to the
ground heavily.
Everyone came to their senses one by one.
"You… do you know what you did?"
"You actually killed the prince???"

…
Everyone in the Black Dragon Kingdom was angry.
They all roared at Levi Garrison.
In front of Levi Garrison, the gods were suspended, and he said lightly: "Want to
kill me? Come on then!"
"Buzzing…"
The gods trembled with excitement.
Although the eldest prince was killed, everyone was furious to the extreme.
But there is no one who takes revenge forcibly.
All just stared at Levi Garrison, but did not dare to do it.
Again.
Can't afford to gamble!
If the bet is lost, the entire Black Dragon Country is over.
So no matter what Levi Garrison did, he couldn't fight back!
After waiting for a long time, no one dared to do it.
Levi Garrison smiled: "I'll leave without anyone doing it! It's you who don't
cherish the opportunity!"
that's all.
Everyone watched Levi Garrison board the aircraft.
Finally walked away.
"The Great Prince!!!"
"Levi Garrison, we swear that this hatred will never be shared! We will definitely
take revenge! You wait!!!"
A group of people screaming in the sky!
At the same time began to clean up the body, clean up traces.
Several counselors from the Black Dragon Kingdom also stood up and gave death
orders: "The information must be locked! No one can know that we have lost
nearly a hundred gods! The information about the death of the eldest prince is
also locked! No one can knowledge!"
Originally, the great prince of the Black Dragon Kingdom gave an order to seal all
the information.
I thought it was to deal with Levi Garrison quietly.
Didn't think about it but used it on myself.
Sealed up all messages for his own death.
therefore.

No one in the outside world knows what just happened in Heilongguo.
I only know that Levi Garrison and the others left safely.
The matter of taking away an ice bed is also known.
There was also another aircraft, and everyone judged that it should be the Black
Dragon Kingdom again, and let Levi Garrison transport resources again.
This can be explained.
This is what everyone thinks is true.
But who would have thought that the additional aircraft was to carry things back.
However, the outside world agreed that the shameless lion of Heilongguo opened his mouth and got too many resources from Levi Garrison.
Take advantage of it.
Now there are so many gods in the Black Dragon Kingdom, and they have so
many resources.
Heilongguo is in a terrible rising period.
No one dares to provoke…
In everyone's opinion, Heilongguo has such a lion's mouth, and it is easy to obtain
so many resources from Levi Garrison.
Two questions-
First, Levi Garrison spared no expense for Levilia, giving whatever he wanted.
Second, Levi Garrison's resources have reached an unimaginable level. With such
a generous shot, it must be more than anyone imagined.
To sum up – Levi Garrison is a good bully.
Now, more and more people are starting to beat Levi Garrison's idea.
"Heilongguo is so shameless, how easy it is to get so much?"
"Why don't we just grab it?"

The Return of the God of War [The
Protector] Chapter 3142

A certain superpower had such an idea.
They didn't want to learn the twists and turns of Heilongguo.
Directly want to rob Levi Garrison.
Who wouldn't want to grab a dog like Levi Garrison?
Of course, if they were told what happened to Heilongguo, no one would dare to
think like this against Levi Garrison.

There are advantages and disadvantages to bounties!
It is easy to expose Levi Garrison's resources.
This caused countless people to start hitting on him!
What Levi Garrison didn't even think about was that someone in Daxia started to
attack him.
These people are the same people he has met in the Antarctic Vortex—the Demon Squad.
These four and several others are somewhere in Daxia.
"The resources of Levi Garrison are so rich! The treasures of heaven and earth are
all good things! They are all high-quality! And the purity of spirit stones (aura
crystals) is unimaginable! It is even higher than what we generally use!"
"I really don't know where he got so many resources? We are all greedy for this
resource?"
"Isn't he going to detoxify his daughter? Then we can actually trade with him!
Help his daughter detoxify and get rich resources!"
"But I heard that the poison in his daughter is called the strongest poison, and it's
not so easy to solve!"
"What's this? The second half of the Poison Sutra is in our Town Demon Division!
What poison can't be cured?"
...
If you let Levi Garrison know that the Zhenmo Division has paid attention to him
and Levilia.
Excited, I guess.
Heilongguo and his party still have something to gain.
Nothing came out, doubled the resources, and the ice bed.
It made Levi Garrison feel a little more at ease.
This ice bed can really temporarily freeze everything.
The poison was also sealed.
However, Levi Garrison still observes from time to time.
This poison is too cunning.
It might be an illusion!
Knowing that the lion of the Black Dragon Kingdom was satisfied by Levi Garrison, more and more people came to Levi Garrison.
Contribute strange people and methods, magic medicine and so on.

But most methods are useless.
But on this day, a group of people suddenly came in Daxia, looking for Levi
Garrison to settle accounts.
One by one shouting loudly.
The dark doctor told Levi Garrison about this.
Levi Garrison let them all come in.
After hundreds of people came, they shouted at Levi Garrison: "Levi Garrison is
the king of Daxia, you are too selfish!!!"
"We've never seen such a selfish person as you! Why are you still the king of
Daxia?"
Senseless!
Levi Garrison was completely stunned!
Is he selfish? ? ?
what's the situation?
How is he selfish?
And as the king of Daxia, he has always done his best for Daxia, right?
The ones who invest in Daxia are the most!
Die for Daxia!
All aspects are considered for Daxia!
How many times to go to hell to report?
Have been living the days of licking blood on the knife edge!
He is worthy of Daxia!
He is worthy of the title of king side by side with the word Daxia!
Everyone should be grateful to Dade!
It is he who has protected Daxia to this day!
Whether in the light or in the dark.
He is guarding Daxia.
Even the last two times, when someone had an idea for Da Xia, he did it all.
Selfish?
Where is the selfishness? ? ?
When has he Levi Garrison been selfish?
Do things that go against Daxia for your own sake?
Everything is nonsense!
*It's all bullsh*t!*
Levi Garrison looked at the crowd and shouted, "Who the hell are you? Come up
and say I'm selfish? Are you qualified?"
"Levi Garrison, don't you feel selfish until now?"

“Are you worthy of the title of king side by side? Are you worthy of the thousands of people in Daxia?”
“What is Daxia like now? What about yourself? What are you doing? Have you
ever cared about Daxia now?”
“Isn’t this selfish? You still have to ask us? Don’t you know that?”
In the face of such verbal abuse.
Levi Garrison became more and more stunned.

Protector] Chapter 3143

What the hell is wrong with him?
How come these people are like mad dogs.
Crazy bites him as soon as they meet!
“Where am I being selfish? Please clarify!”
Levi Garrison said angrily.
“Levi Garrison, do you have a lot of resources now? Heaven and earth treasures
and spiritual energy crystals are flooded into mountains? To others, they give
them a few tons!”
Asked by the first person.
Levi Garrison nodded: “Well, this matter is not a secret! Everyone knows it all
over the world, right? I do have a lot of resources! More than any of you can
imagine!”
He graciously admitted.
It’s no secret.
“That’s it! You have so many resources, have you ever given Daxia a natural
treasure? Have you given Daxia a spiritual energy crystal?”
“No! Daxia didn’t even see the root hair! Not to mention eating meat and soup,
you can’t even smell the aroma!”
“Yeah, you didn’t get half of your resources in Daxia!”
“In the beginning, we all pinned our hopes on you, expecting you to use resources
to feed back Daxia and make Daxia rise!”
“As a result, we have waited so long and have no clue! We just came to you!”
…

As soon as this was mentioned, everyone exploded with anger and shouted in
vain.
Understood!
Levi Garrison finally understood!
Why are people so dissatisfied with themselves, saying they are selfish?
That's the reason!
He owns the resources that are rich and rivals the country, but he doesn't give Da
Xia half a cent.
They feel selfish!
It turns out that in everyone's cognition, I have the resources, and the first thing
is to hand it over to Da Xia.
There is no consideration for Da Xia, and there is nothing for Da Xia, it is selfish!
It's just not worthy of being the king side by side!
ridiculous!
Simply ridiculous!
So this is selfishness?
Are you here to beat yourself up?
They have forgotten everything they have done before!
Only care about the moment.
I only care if Levi Garrison has given resources to Da Xia now!
Of course, Levi Garrison knows that this is a very small number of people!
Most people are still grateful to themselves!
After all, there are good and bad people!
There must be some of these people!
Levi Garrison smiled!
*f*ck, these resources are all their own!*
How can he deal with it?
Who does he want to give it to?
Even if he throws it away, he can use Tiancaidibao to feed the dog!
He has no obligation to turn in this!
Daxia also has no regulations in this regard!
What he gives is affection, not duty!
He gave it if he wanted, and fed the dog if he didn't want to.
what's going on?
In a word – Lao Tzu's things, Lao Tzu decides, it's none of your business!
What's more, these resources were all used by him to detoxify Levilia.
"Are you mistaken? This resource has nothing to do with you. I used it to save my

daughter!”
Levi Garrison said coldly.
“It’s not wrong to save your daughter! Are there so many resources available?
Why don’t you report so many resources to Da Xia?”
“We also heard that Yanlongwei and Tiancefu are also helping your daughter find
a way to detoxify? Are you not grateful?”
“Your daughter is in danger of being poisoned, but Da Xia has no gods and is in a
state of crisis? Why don’t you use some resources to save Da Xia?”
“Obviously you don’t have Daxia in your eyes! Compared with Daxia and your
daughter, you chose your daughter! Daxia is not important! Your daughter is
important!”
“You don’t have a big picture at all! For your daughter, you are willing to give up
everyone in Daxia!”
“We want to ask, is everyone’s life in Daxia inferior to your daughter’s?”
“The main reason is to save your daughter and give resources to other countries!
The stronger they are, the greater the threat to Daxia! Have you ever considered
it?”
“What’s more, you’ve been poisoned for so long, and your daughter’s poison has
not been cured. What you’ve done is useless!”

Protector] Chapter 3144

“Should you change your thinking? Can’t you just go like this? Let go of resources
first and make Daxia stronger! Daxia is strong, isn’t it good for your daughter?”
“Yes, your daughter is important to you! But she is the daughter of the king! She
must have the consciousness of dedication and even sacrifice herself! Sacrifice
one person to complete the entire summer! Wouldn’t it be better?”
“Of course I’m just a metaphor! I don’t really want to sacrifice her! If you give the

resources to Da Xia, the whole Da Xia will in turn help her detoxify…"
"In a big way, you and your daughter are both guilty! I'm sorry Daxia!"
…
A group of people babbled non-stop.
Laughed!
Levi Garrison smiled!
False!
Can it be crooked to this extent?
Moral kidnapping!
This is the most terrifying moral kidnapping he has ever seen!
Standing on the commanding heights to accuse him one by one, and even asking
Levilia to have the spirit of dedication and sacrifice!
Absolutely! ! !
The Doctor of Darkness and the Brain of God are going insane.
I almost couldn't help but ask Levi Garrison – is this the person you want to
protect?
Of course this is a very small part of the population.
Tiance Shenshuai they definitely don't think so…
"Levi Garrison doesn't know how many people are talking about you these days!"
The leader suddenly snapped his fingers.
Several people stepped forward.
"Clap!"
Suddenly a few people pulled up a huge banner!
It is full of dense black words…
"Levi Garrison, this is a book signed by ten thousand people! I hope you can hand
over all your resources to Da Xia and let Da Xia distribute it!"
"Of course we will take care of your daughter! Everyone is so powerful, let's find
a way to detoxify your daughter!"
…
Banners are in sight.
Levi Garrison thought it was too funny.
Also the joint book of ten thousand people?
Why isn't it a book of blood?
How about tens of thousands of people fighting themselves with death?
"Levi Garrison, please take a good look at every name above!!!"
"You have to reflect and know what you are doing!"
"I hope these names can alert you! They can make you wake up!"

The crowd urged.
“Look at your mom!!!”
Levi Garrison roared.
The banner in front of him was suddenly shattered by a terrifying force.
It turned into countless pieces of debris floating in the air and fell on these people.
Silly!
They are all stupid!
Never thought that Levi Garrison would do it!
“Levi Garrison knows what he is doing? Are you going to betray Da Xia?”
“Are you going to turn your face and don’t recognize people? Don’t you take Da
Xia in your eyes?”
…
Moral kidnapping!
Go ahead and start moral kidnapping!
Levi Garrison smiled again.
“So what do you mean?”
“What are you here for? What exactly do you want?”
he asked.
“Then let’s just say it!
First: if you are not selfish, hand over your resources! We allow you to keep a
portion for your daughter’s treatment! Of course, it is best to hand over all resources!
Second: explain how to get the resources, or the source of the resources!
Third: Cancel the reward order, stop immediately! Don’t waste resources because
of your daughter and give them to our enemies and rivals! “
said the leader.
Immediately afterwards, he shouted at everyone: “What do you say?”
“good!!!”
Everyone shouted in unison.
“Ye… This is the voice of our tens of thousands of people! If it represents the
entire Daxia! This is the voice of everyone in Daxia! I hope you can understand?”
The leader looked at Levi Garrison and said.
“Ha ha ha ha……”
Levi Garrison laughed again.
It’s so weird!

Insatiable greed, keep all your resources and sources secret!
You must also lead yourself and stop the reward order for detoxifying Levilia!
It is equivalent to not detoxifying Levilia and sacrificing Levilia.
What's the difference between this and a beast? ? ?
Doctor Dark sneered: "So there are people who are more shameless than the gang of bastards in Heilongguo!"
"I've lived for so long, and it's the first time I've seen such a shameless person!"
The Brain of God said bluntly: "Representing everyone in Daxia? Can you represent it? Do other people in Daxia know? I only saw a few hundred of you!"
Seeing the two doctors in the dark came out to interject.
The group was furious.
"Who are you? What qualifications do you have to intervene in our conversation?"
"What kind of black angel and light angel, we don't recognize it! You actually wanted to destroy this world!"
"There is also the word Side by Side King, how can you mix with these two people!
Have you been bewitched by them!"
...
Mad dog!
See who bites who's mad dog!
They use the commanding heights to judge and kidnap everyone.
The two doctors in the dark were immediately angry.
I even wanted to hit someone.
But Levi Garrison gave them a look, and the two consciously stepped aside.
Levi Garrison smiled and said, "Is that all? Is there anything else?"
"Ok?"
Levi Garrison's words seemed to give them hope.
They thought that Levi Garrison would agree.
"Let's just start with these three! I'll add the others when I think of them!"
The leader looked at Levi Garrison and said with a smile: "It's still a word for the

king to be enlightened! It took such a short time to react! It's really good!"
"If you are like this, we will still support you! You are still the king of Daxia!"
"That's right! You're still our king side by side!"
Everyone shouted.
"In the long run – when Da Xia is strong, you can take revenge on Hydra! The only
way you can avenge Hydra is if Da Xia is stronger than Zhanxiong Nation! At that
time, the entire Daxia will support you and fight against the hydra. Xiong Guo
must not obediently hand over the Hydra for your disposal!"
…
They thought they got the resources.
He started to give Levi Garrison some sweetness, that is, to draw a pie.
The leader also smiled and said: "We only brought ten aircraft, I wonder if we can
transport all the resources away?"
Others echoed: "If we can't transport it, we can transport it a few more times, or
ask for a few more aircraft!"
The leader nodded: "That's the case! Let's act quickly! Move the resources behind
first!"
Hundreds of people watched eagerly at the mountains of resources behind Levi
Garrison.
About to charge.
"Wait!"
Levi Garrison suddenly shouted.
"Are you going to move the resources behind me?"
Levi Garrison asked.
Everyone nodded: "Yes, isn't it just to remove all the resources? Don't you
agree?"
"When did I agree?"
Levi Garrison asked back.
Everyone's face changed.
"Just now you asked if there are any other conditions? Isn't that agreeing?"
Everyone was surprised.

“Then did you hear me say it myself?”
Levi Garrison said this.
There were sullen expressions on everyone’s faces.
“What do you mean, Levi Garrison?”
“Are you not handing over resources?”
“Are you kidding us? You are the king side by side!”
…
Everyone started to ask questions.
“These resources were used to save my daughter. You have shipped them away.
What am I going to use to save my daughter?”
Levi Garrison asked.
The leader looked at Levi Garrison angrily and said, “Your daughter has been
saved for so long! It’s impossible to get rid of the toxin at all! You should understand that your daughter’s poison cannot be cured! Don’t you understand?”
“If you continue to detoxify your daughter, it will be a waste of time and resources!”
“We don’t like to see your daughter wasting so many resources! To be honest,
accept your fate! Your daughter’s poison cannot be cured! Stop wasting resources!”
Levi Garrison looked at him and said, “I think it’s a waste of air for you to live!”
“boom!!!”
As soon as the voice fell, the head of the leader exploded…
One punch!
Levi Garrison smashed the head of the leader with one punch!
Blood splashed, and almost everyone present was splashed on the faces.
The hot touch and the smell of blood woke them up!
Silly!
Everyone is going crazy!
Incredible!
what happened?
It looks like someone’s head was blown off?
Cool! ! !
So cool! ! !

The Doctor of Darkness and the Brain of God, who had suppressed anger in their
hearts, were released at this moment.
Excited beyond words to describe!
It's as if they are doing it!
They also know Levi Garrison's behavior, or the current behavior!
How could this kind of moral kidnapping kidnap Levi Garrison?
In other words, Levi Garrison has no morals at all!
What are you kidnapping!
Even the best solution to this moral kidnapping situation is force!
I'll kill you, go down and reason with the Lord of Hell, right?
You go to hell for moral kidnapping, right?
angry!
Furious!
Levi Garrison never thought that this group of people would go so far!
Considering that they came from Daxia after all, he repeatedly tolerated it.
Even if morality kidnapped him, he would not be angry for a while!
If they hadn't come in Daxia, Levi Garrison would have killed them all! ! !
But this group of people intensified, and finally let him give up on treating his
daughter and give up all resources!
To say that detoxifying her daughter is a waste.
This touched Levi Garrison's bottom line.
In that case, no matter who you are!
Levi Garrison wants to kill!
Not even if the King of Heaven comes!
As long as he hinders his daughter's detoxification, she will die!
Silence be quiet!
A full minute passed.
The people in front of them responded one by one.
"Levi Garrison, you…"
"I know you're doing…"
…
Seven or eight people in a row had to question Levi Garrison about what he was
doing.
Only halfway through.
"die!"
As soon as Levi Garrison made a cold voice, all seven or eight people burst open,
turning into a cloud of blood!

numb!
Everyone is completely numb now!
The people who just reacted were sputtered by the blood mist again…
"Anyone else trying to beat my resource idea?"
Levi Garrison looked at everyone and said.
Everyone seemed to be locked up.
His throat twitched, but no sound came out.
"Is anyone else asking my daughter to give up treatment?"
Levi Garrison continued to ask.
There was still no silence, and no one answered.
"Selfish? Who is the selfish person?"
"You keep saying it is righteousness! How about the people of Daxia? Let me use
resources to protect everyone in Daxia!"
"But isn't my daughter Daxia Zimin? You would rather let her give up treatment,
watch her die, and occupy my resources! At this time, she is not Daxia Zimin? She
doesn't need protection?"
"Who the hell is selfish? Think for yourself!"
"And I found this resource myself, not on the land of Daxia! Then it's mine, I can
dispose of it how I want!"
"You are lofty and great, why don't you hand over your resources to Da Xia?"
"The moral kidnapping has been kidnapped on my head???"
…
Facing Levi Garrison's repeated questions.
Everyone was silent.
He stood there with his head down, shivering.
They just suffered a visual shock!
Now the spirit is also affected!
Where do they not understand everything?
It's just that Levi Garrison's resources are too many and too rich, and everyone
should be jealous!
Especially such abundant resources are only used to detoxify his daughter.
This made everyone very angry.
That's why he came to persecute Levi Garrison like this!
Those who really know how to be grateful know what Levi Garrison has paid for
Da Xia.

Even he paid for the whole world…
They are shameless!
Just shameless!
Just greed!
Also selfish!
"Is anyone else asking me to hand over resources?"
Levi Garrison asked coldly.
Eyes swept across everyone's faces.
"I think……"
After calming down, someone still spoke up.
It's just that he just said three words.
Levi Garrison started.
Hit him with a punch!
Another blood splatter!
"I don't want you to think! I just want to hear nothing!"
Levi Garrison said coldly.
The people who reacted immediately shouted: "No! We won't be thinking about
resources again!"
"You can hit me with the idea of resources! But come one and I'll kill one!"
"Go back and tell other people that anyone who wants to hit me with resources
can come! If you're not afraid of death! If I'm stronger than me, I'll kill them!"
"Of course you think those who are stronger than me can come and snatch me! I
welcome it!"

As soon as Levi Garrison said these few words, the hundreds of people in front of
him were so frightened that they all wet their pants.
They also understood that they had committed a heinous crime in the face of Levi
Garrison.
He really kills.
Immediately, a group of people fled in despair.
One by one, I was afraid that it was too late, and Levi Garrison would regret it.
"Don't be angry, Mr. Ye! I never thought there would be such a shameless

bastard!"
The Dark Doctor comforted them.
Sometimes the words of ordinary people are the most hurtful.
"It doesn't matter! It's the same everywhere, good and bad!"
Hearing this, the brain of God echoed: "That's not wrong! Many are still unrepentant! Like some of these people just now, not only do they not repent,
but they hate you even more!"
"It doesn't matter! As long as you don't come in front of me, it's fine! But anyone
who comes in front of me, I'll kill them!"
Leaving a sentence, Levi Garrison turned and left.
Looking at Levi Garrison's back.
The Brain of God and the Doctor of Darkness looked at each other.
What kind of courage is this?
Absolute confidence in your own strength!
As long as it is strong to a certain extent, there is no need to abide by any rules in
the world!
Be happy, follow your heart!
I can do whatever I want!
In layman's terms, I will kill you if I want to, no reason needed!
This is what they are envious of!
What's more, many people are now targeting Levi Garrison.
Sure enough, God's mind did not expect.
There are many people in this group who repent, but there are also those who do
not repent and hate Levi Garrison more and more.
After returning to Daxia, I told the matter again.
No need to add oil or vinegar.
Immediately, many people who thought Levi Garrison was "selfish" were angry.
All kinds of ridicule and insult to Levi Garrison!
Not only selfish, but also murderous!
This is to be swallowed alone!
This resource should belong to Daxia!
This made Levi Garrison swallow it all by himself!
...
These people described Levi Garrison as a heinous person!
In this regard, Levi Garrison who can't hear it doesn't take it seriously.
Just don't run up to him and say it.

For the time being, he doesn't care about the trouble of finding these people.
After he detoxifies Levilia, maybe he will come to you one by one.
After observing for several days, Levi Garrison found that the ice bed can really
freeze the poison for a short time.
But he also understands that this poison is too overbearing.
Too cunning to say, adaptability is also terrible.
It won't take long, it is estimated that they can adapt to the ice bed.
At that time it will have no effect on it.
It is necessary to continue to find ways and magic medicines.
In his opinion, the Demon Suppression Division, who was very promising, was
searched by Jiao Tianyu and other 80 people.
There is also the second half of the Poison Sutra, which is also in the town of
magic.
Carrying too much hope.
But never had a clue.
This kept the big stone in his heart from falling.
If this goes on, the effect of the bounty will become weaker and weaker.
Because I've tried everything I could.
All the magic medicines were used.
All kinds of strange people have also helped Levilia read it.
are powerless.
Then the next hope will be more and more slim.
This was the last thing Levi Garrison wanted to see.
to be honest.
He was in a hurry.
Almost to the point of going to the hospital in a panic.
Where is Levilia's hope?
After the reward order.
Now there are fewer and fewer people thinking about how to detoxify Levilia in
exchange for rewards from Levi Garrison.
But more and more people are eyeing Levi Garrison's resources.
Many forces have already had the idea of directly robbing Levi Garrison.
Hydra and War Bear Kingdom also stared at them.
Because Hydra people's method of creating gods has worked.
The first man-made gods have appeared…
A total of 100 people were tested, and nine of them were successful.
War Bear Kingdom is equivalent to nine more gods!

This caused a huge sensation all over the world.
Is it okay to go on like this?
Isn't the War Bear Kingdom getting stronger and stronger?
In theory, there are as many gods as they want!
However, the artificial creation of gods requires too many resources, which is
sky-high!
Reiki crystals and Tiancaidibao don't need money to use!
That is to say, only the strong War Bear Kingdom can have this strength to carry
out this experiment.
Other countries or forces, even if they have a way to create gods, are useless.
No resources! ! !
Therefore, Levi Garrison became the object.
Even War Bear Country is no exception.
Although there are nine more gods, this is a hundred people who use it for experiments.
The efficiency is still very low.

Protector] Chapter 3148

When investing resources at the beginning, it was not just for nine people.
Instead, it was invested in a hundred people.
As a result, the resource consumption is too large.
They will also have a day when they can't stand it.
If you get Levi Garrison's resources, you can solve all the predicaments in front of
you.
This is the case against the Bear Country.
Even more so for others!
The organization of the revenge Hydra is greedy.
These days they have been trying to figure out how to get these resources from
Levi Garrison.
It seems a little bad to grab it directly…
cheat!
They figured it out!
Lie directly to Levi Garrison's resources!
Levi Garrison's current weakness is obvious enough – that is Levilia.
Soon this organization spread information widely, and came out with a kind of

magic medicine that can detoxify hundred thousand years of snow lotus.
Although the snow lotus has dried up and half remains.
But for the poison, it is still easy to remove…
As soon as the news came out, there was a sensation everywhere.
This 100,000-year-old snow lotus is in the hands of a mysterious person, no one
knows who he is?
And this mysterious person is in Daxia!
But he was interested in the resources in Levi Garrison's hands.
But out of the sky.
Ten tons of aura crystals and a thousand heavenly treasures!
Even more exaggerated than the Black Dragon Country!
And threatened, not a cent less.
This message quickly reached Levi Garrison's ears.
"I checked it out, it might be true!"
"Whether it works or not, I think you can give it a try!"
said the dark doctor.
"Daxia's 100,000-year-old snow lotus? It may be! Then try it!"
Levi Garrison said.
Hearing Da Xia, he felt a little hopeful.
After all, the ancient medical skills of Daxia are amazing!
It is normal to have this herb.
Doctor Dark pursed his lips: "Don't ask the other party to be strict, even strict!"
"Before the transaction, they need to hand over half of the resources to them!"
"Half of them are five tons of spiritual energy crystals and five hundred heaven
and earth treasures! It's not a small number!"
Levi Garrison thought about it and said, "Well, okay, then give them half of the
resources!"
Two sentences –
First, Levi Garrison has too many resources, so he can give as much as he wants.
Second, don't be afraid of cheating, even if cheated, Levi Garrison will come to
you.
Doctor Dark went to arrange this matter immediately.
And the other party is very cunning and shrewd, not giving them all resources at
one time.

Instead, let the dark doctor divide these resources into ten places in Daxia.
Put a little bit in every place.
Doctor Dark did the same.
Distribute these resource schedulers across ten locations.
And no one around is allowed to inspect it.
Soon after.
All the resources in ten places have been transported cleanly.
Naturally, it was the organization of the revenge Hydra that got the resources.
In their headquarters, this small island.
Look at the mountains of resources.
Each one burst into laughter.
Where do they have the 100,000-year-old snow lotus?
It's all made up!
The purpose is to attract Levi Garrison!
They proposed that the sky-high price took advantage of Levi Garrison's mentality of going to the doctor in a hurry.
And from the previous analysis.
Levi Garrison is bound to agree!
He is not lacking either!
But they don't really have 100,000-year-old snow lotus, so they can't trade with
Levi Garrison at all.
When trading, Levi Garrison is bound to inspect the goods.
Then they are exposed and cannot be deceived.
So they put up half the "deposit".
Ask Levi Garrison to send half of the resources first!
This would not arouse Levi Garrison's suspicions, after all, it was just a deposit,
not everything.
In fact, they are here to deceive half of the resources!
This is their purpose!
Ten tons of aura crystals and a thousand celestial treasures are just pretense!
What they want to deceive is the deposit paid in advance, which is five tons of
spiritual energy crystals and five hundred heaven and earth treasures!
No one thought of this! ! !
They don't want to lie to everyone!
From the beginning, it was half a lie!
It's too dangerous to cheat so much!
In case the inspection fails, they get nothing.

It's not just the crisis on Levi Garrison's side.
They also understand that Hydra also intervenes.
After all, Hydra's current principle is to prevent everything that can be famous to
Levi Garrison.

Protector] Chapter 3149

Even if you get the ten tons of spiritual energy crystals, you may not be able to
transport them back safely.
Might as well cheat half!
Levi Garrison will give it, Hydra is waiting for the final deal!
It's easy to get!
It doesn't hurt anyway!
"Hahaha, so many resources, I can't even think about it! Except the top five
forces in the world can come up with it! Others are really not necessarily!"
"These resources are a real help for us! It's great!"
…
This group of people looked at the mountains of resources, and they were all
excited to death.
"By the way, since our goal has been achieved! Do you want to meet Levi Garrison?"
someone asked.
"Of course we are going to meet! Meet directly and give Levi Garrison a fake
snow lotus! Tell him in person that he has been deceived!"
"I can now imagine what an idiot Levi Garrison looks like when he knows he has
been deceived!"
"Hahaha…it's really refreshing!"
"Levi Garrison, this is what happens if you don't join us! You deserve to be
deceived!"
…
Doctor Dark also hurriedly sent the message back to Levi Garrison: "Mr. Ye's guys
are too cunning! Those resources were quickly transported away! The people I

arranged were too far away to keep an eye on them!”
“But they agreed to make a deal tomorrow. When the time comes, they will check
the 100,000-year-old snow lotus. If there is no problem, I will give them all the
remaining resources!”
“good!”
Levi Garrison nodded.
the next day.
Levi Garrison and several people came to the designated place.
In the aircraft they drove, they also took all the remaining resources with them.
Several people were waiting, all wearing masks.
However, the first person was holding the box in his hand.
Levi Garrison, the dark doctor, realized that something was wrong when he saw
these people.
These people in front of them are a little stronger than ordinary people.
It’s more like a coolie moving things.
It was far from what they imagined.
Will the power that has the 100,000-year-old snow lotus be a small power?
no!
The small forces have such a heaven-defying existence, and they can’t keep it at
all.
Kind of weird!
Several people have realized something.
But there is still a glimmer of hope.
After all, it has always been this way.
Seeing Levi Garrison, the person holding the box stepped forward and said, “Mr.
Levi Garrison, right? Someone asked me to give you the 100,000-year-old snow
lotus! Please check it!”
Levi Garrison took the wooden box.
Then slowly open.
The two doctors in the dark also got together.
“Boom…”
A terrifying aura roared out from several people!
After opening the box, I saw a dead branch inside! ! !
One hundred thousand years of snow lotus disappeared.

Only a dead branch! ! !
Angry!
Levi Garrison is angry!
Doctor Dark is also angry!
Their faces changed drastically, and terrifying eyes shot out from their eyes.
As if to tear everything apart.
cheated!
The 100,000-year snow lotus will not wait!
It turned out to be a dead tree branch!
hateful!
Abominable! ! !
To deceive in this way!
The people on the opposite side were also puzzled, they were just hired by the
mysterious person to deliver things.
Not sure what's in the box.
I thought it was something valuable.
Now seeing the changes in Levi Garrison's people, they subconsciously leaned
over to see it.
Seeing the dead branches inside, several people also looked incredible.
The mysterious people paid such a price to make the things they use turned out
to be dead branches?
"Look, there's something in there!!!"
One of them could not help shouting when they saw a piece of paper lying underneath.
Levi Garrison calmly took the dead branch into his hand and took out the paper.
After opening, two lines of large characters are printed on it –
Idiot Levi Garrison, you have been deceived!
Pay the IQ tax for yourself with the remaining half of the resources!
"Ha ha……"
Laughed!
Levi Garrison smiled!
"good very good!"
In fact, during this period of time, there have been many scammers.
Use medicinal materials that are useless at all or some methods to get certain
resources.
Levi Garrison has seen a lot.

But in the hope or hope, he didn't care.
But it was the first time that he had lied to him so openly.
And the scam is advanced, and there are many resources to deceive.
However, in fact, Levi Garrison had expectations in his heart.
It felt a little wrong at first.
It's just that he's not afraid of cheating.
What if it was true?
As long as there is hope for Levilia to detoxify, he will not miss any opportunity.
Even if you are cheating, you are cheating.
Take a gamble!

After all, if the 100,000-year-old snow lotus is real, maybe it can really detoxify
Levilia!
But he lost the bet!
And this liar is not very "greedy"…
From the beginning, the crooks were targeting that half of the resource…
The lion opens his mouth, these are all pretense!
Levi Garrison really laughed.
Instead of being angry, he laughed loudly!
Even he, Levi Garrison, dares to lie?
good!
very good!
"asshole!!!"
*"Oh sh*t!"*
"Liar!!! Courting death!"
"It's provoking us! It's insulting us!"
Both the Dark Doctor and God's Brain exploded with rage.
They both felt the other was insulting their IQ!
So lie to them on them!
This shame is unbearable!
Especially this is too insulting to dry branches!
You can even take a random snow lotus!
Bringing a branch is an insult!
He also scolded Levi Garrison on the note!
…
"Boom…"
Terrible killing intent is sweeping.
Several people who brought it immediately fell to their knees.

“Forgive your life! Forgive your life! It’s none of our business!”
“We are just hired by the mysterious person to deliver things! It has nothing to
do with us!”
…
Several people realized that their lives were in danger and were immediately
terrified.
Levi Garrison paid no attention to them, but played with the dead branch!
With great interest, he looked up and down, left and right, with the dead branches.
The corners of his mouth rose, and there was a bloodthirsty smile.
“Mr. Ye, did you throw it away?”
Doctor Dark couldn’t help but say.
This is too shameful!
He didn’t want to see these dead branches anymore.
Levi Garrison smiled and said, “Why did you throw it away? Didn’t you find it
looked like a sword?”
After Levi Garrison reminded him, both the Dark Doctor and the Brain of God
looked over.
Sure enough, this dead branch looks like a sword.
like a sword? ? ?
Is it? ? ?
Suddenly, the two doctors in the dark realized something…
They all looked at Levi Garrison in horror, and their bodies were shaking.
“Killing is cool enough!”
Levi Garrison smiled.
Levi Garrison waved the dead branches gently, and he smiled: “When the time
comes, insert them into the bodies of those liars one by one, and then pull them
out! The blood is dripping…”
At this moment, Levi Garrison has a smile on his face, although his smile is like a
spring breeze.
But in the eyes of everyone, he looks like the devil.
too frightening! ! !
Suddenly, the smile on Levi Garrison’s face disappeared.
“Check! Go and find out for me! Find out this liar for me!”

“I will keep this branch! I will use this branch to drain all the blood on them!!!”
Levi Garrison said word by word.
The look is extremely cold! ! !
“Ming…understand!!!”
The two doctors in the dark agreed and swallowed hard.
The others were even more frightened and trembling, as if they were pressing
down on a mountain.
It’s the same sentence – Levi Garrison’s things can be taken, but they are useless! ! !
Now it is something that has deceived Levi Garrison, but I have no life to use it!
…
“Ha ha ha ha……”
“You didn’t see that idiot Levi Garrison knew that he was cheated! It really made
me laugh!”
“I want to lie to him again!”
…
On the island, the organization of revenge Hydra, everyone is laughing.
Especially the five people who had looked for Levi Garrison.
The brightest smile!
Soon, the news that Levi Garrison was deceived spread out.
Levi Garrison became a joke.
This made Hydra and War Bear Kingdom burst into laughter.
Everyone wants to know this person who cheated Levi Garrison.
Many others were also snickering.
Some people in Daxia are insulting Levi Garrison as an idiot, they don’t give Daxia
resources, they are deceived…
Even this became the best news that Heilongguo heard this year.
But it also points out two issues-
First, Levi Garrison has enough resources.
Second, Levi Garrison, for Levilia’s sake, has reached the point where he is
desperately ill and goes to the doctor, so he is so easy to be deceived.
…
Levi Garrison, who went back, also noticed this.
For the sake of Levilia’s situation, his mentality has changed.
Don’t be in a hurry!
Don’t be impatient!

There must be a way!
now.
A few people from the town magician who walked in a forbidden area in Daxia.
It was the three men and one woman Levi Garrison had met.
"Levi Garrison is excusable for being deceived! He is willing to bear any price for
his daughter!"
"But there is a question. I have been investigating during this period of time to
find out where Levi Garrison's resources came from? But there is no information!
It seems that Levi Garrison wants resources! It's very strange!"
"Then should we trade with him? Help his daughter detoxify!"
...
"After we report to the army chief, listen to their opinions!"
...
Next, many people came to Levi Garrison because of the reward order.
There are a lot of scammers.
But not so much.
It's all small talk.
After all, the lion's big mouth is not so easy to get.
Levi Garrison used to ignore these scammers.

Now he said to the dark doctor: "Record all these deceived people or forces!
Afterwards, settle accounts one by one!"
Levi Garrison's anger is accumulating little by little!
A few days later, suddenly the Apocalypse Empire, ranked third in the world
power list, sent an envoy.
The Apocalypse Empire is the force that has always advocated directly grabbing
Levi Garrison's resources.
The reason for seeing Levi Garrison was to discuss the issue of resources.
Hearing this reason, Levi Garrison was taken aback.
For a long time, the people who came to him were discussing the problem of
Levilia's poisoning.
What does this Apocalypse Empire mean?

“Let them in!”
Soon after, the messengers of the Apocalypse Empire came.
A total of seven people.
One messenger, six gods.
The show is huge.
“What are you here for?”
Levi Garrison asked.
“Levi Garrison, we are here to inform you in the name of the Apocalypse Empire –
hand over all the resources to the Apocalypse Empire, and tell the secret of how
to get the resources!”
“It is also announced that your resources belong to us!”
“Ok?”
question mark!
Levi Garrison and several people are all question marks.
All along, he was the only one who robbed others!
Where did the others rob him?
so domineering?
Came directly to announce that all this belongs to the Apocalypse Empire? ? ?
Isn’t that just robbing him directly?
No!
This is more than a direct grab!
This is by default everything is theirs!
This is more robber than robber!
This is their own negotiation and forcibly took possession.
“Ha ha ha ha……”
Doctor Dark and they all laughed.
Why are you so shameless?
One by one!
They have met so many times during this time!
One is more shameless than the other!
Only shameless you can’t think of!
There are all kinds of shameless ways!
To be honest, their cheeks were so thick that Levi Garrison couldn’t punch through them.
The lions of the Black Dragon Kingdom opened their mouths, temporarily adding
conditions, and repeatedly repenting and adding conditions;
Daxia’s own moral kidnapping;
The emergence of big liars and all kinds of little liars;

It's good now, come to an Apocalypse Empire and directly announce that all Levi
Garrison's things belong to them.
Senseless.
And this thing?
"We're just here to let you know, we'll move all the resources in the future in a
day!"
The messenger of the Apocalypse Empire said.
He changed the subject and said: "Actually, it's okay not to come to notify! We
just move it! Because these resources already belong to the Apocalypse Empire!
It has nothing to do with you, it doesn't matter if you notify or not!"
"The main reason to inform you is to know how you got the resources? Where did
you come from?"
Laughed!
Levi Garrison smiled again.
"Your resources???"
Levi Garrison couldn't help but ask.
"Of course! I just said it! All these resources have been occupied in the name of
the Apocalypse Empire!"
The messenger of the Kingdom of Apocalypse said very seriously.
"Are these resources yours?"
Levi Garrison asked.
"Of course it's ours! This is the Apocalypse Empire!"
Several people shouted.
"Did you write your name?"
Levi Garrison's words made several people a little angry.
"Levi Garrison, you are a smart person, you should understand what this means?"
"Obviously admit it! Give up our resources! Let us tell you how the resources
came from, and the Apocalypse Empire can still honor you!"
The messenger of the Apocalypse Empire sneered.
Levi Garrison also kept smiling.
The smile is kind and there seems to be a hint of compromise.
The messenger of the Apocalypse Empire also looked at several gods subconsciously.
That look seems to say – it's easier to solve than he thought.

*“Ours, ours, your mother! What the f*ck does this have to do with your mother?”*
“I found these resources fortunately! How did they become yours? Was it stolen
from your ancestral grave or born by your mother?”

“Apocalypse Empire? Why not change it to a robber empire?”
*“f*ck you! Go away! Dare to beat the idea of Lao Tzu’s resources, and kill you*
all!”
“So shameless, why don’t you say that I am your father? If you are my son, this
resource might still belong to you!”
…
But the next second, the smiling Levi Garrison suddenly changed his face.
Yell at them!
Senseless!
Everyone is stunned!
Even the Dark Doctor and God’s Brain, who could have predicted the result
before, were once again shocked.
Levi Garrison is not only amazing in force.
Spraying people is also so awesome!
These people from the Apocalypse Empire were directly scolded for being stupid.
I was overwhelmed for a while.
Don’t know what to say.
It is estimated that I did not expect Levi Garrison to be like this…
“you you you you……”
The messenger of the Apocalypse Empire pointed at Levi Garrison tremblingly,
unable to say a word for a long time.
Several other gods shouted: “Presumptuous!!!”
“Levi Garrison, my Apocalypse Empire occupies your resources, it is to give you
face, it is your great honor! It is the blessing you cultivated in your previous life!”
“Don’t give your face shameless!”
Push!”
Levi Garrison laughed again.

“Listen to your own words, do you believe it yourself?”
“You said that, why don’t you hand over your wife and reward your brothers!
It is your great honor for the Tianqi Empire to use your wife! It’s the smoke from
your ancestral grave…”
Levi Garrison said in his tone.
“Levi Garrison, you are courting death!!!”
The god of the Apocalypse Empire is about to explode with anger.
“I’m in a hurry, I’m in a hurry, look! You are too double-standard! When you take
someone else’s things, you speak upright and righteous. How can you be in a
hurry when it comes to yourself?”
Levi Garrison sneered.
A god was simply disturbed by Levi Garrison.
Almost got started!
“Wait!!!”
The messenger who reacted immediately shouted.
“Levi Garrison, it looks like you don’t plan to hand over all this obediently?”
The Apocalypse Empire messenger sneered: “Our Apocalypse Empire’s style of
doing things is like this–
Once we see something, we will unilaterally declare that it is ours! If the other
party is interested, hand it over! The Apocalypse Empire will accept his favor.
But if the other party doesn’t agree, it’s not fun! Then the way for our Apocalypse Empire to occupy is to grab it directly! People are killed, and things
are directly taken away! That’s all! “
“Levi Garrison is actually here to inform you, just to give you a chance! You don’t
know your own interests! Then we have nothing to do!”
“Since you don’t eat the toast, then eat the penalty drink!”
…
Levi Garrison smiled.
How nice!
Direct exposure to nature!
Originally, just like a robber, he came directly to rob!
The result is so high-sounding, so what should be done?

“To be honest, too many people are eyeing your resources now! In fact, many
people want to grab you directly! It’s just that they are sane! They want to get
resources, but they are afraid of bad reputation from the outside world!
Everyone is struggling!
My Apocalypse Empire is different! This is how we always behave! Just grab it! Do
not hide and tuck! “
The messenger of the Apocalypse Empire confessed directly.
Levi Garrison of the Apocalypse Empire had dealt with many times before.
Strong and good at fighting.
Overall, he won when he was the Kunlun God of War.
But also suffered a lot.
If it weren’t for the location of the Apocalypse Empire too far from Daxia.
It is estimated that there will be more interactions between the two sides.
A very direct opponent!
The level of belligerence is second only to the War Bear Kingdom!
But in terms of style, it’s a robber!
Unlike many superficial gentlemen who are robbers behind their backs, they are
robbers inside and out.
nowadays.
The Apocalypse Empire ranks third in the world’s power rankings.
There are almost nine hundred gods.
The strength is terrifying.
The number of gods is almost twice that of the Black Dragon Kingdom.
Coupled with the warlike and robbery style of the Apocalypse Empire, their
power continues to expand.
During this time, a lot of power has been occupied.
Forty or fifty gods also chose to join.
After all, there is a reason for the top three in the top three.
Pure strength decides!
The first and second may also take into account the face, and dare not directly
rob Levi Garrison’s resources.
But they don’t care.

Directly and unilaterally announced that Levi Garrison's resources belonged to them.
"Is this the Apocalypse Empire? Good! Very good! Just grab me and like it!"
Levi Garrison smiled.
Isn't it similar to grabbing this style directly and his style now?
It made him feel so intimate!
The messenger of the Apocalypse Empire looked at Levi Garrison and said, "I'll give you a deadline! Within three days, either send all the resources to the Apocalypse Empire yourself, and then tell the secret of the resources!
Or three days later, the Apocalypse Empire will come directly to grab you! You can't run away! No one targeted by the Apocalypse Empire can run away! "
After that, the messenger of the Apocalypse Empire left with several gods.
Which god who was ridiculed by Levi Garrison did not forget to give Levi Garrison a fierce look.
The messengers of the Apocalypse Empire are not shocking.
But really do.
This is the bandit style of the Apocalypse Empire.
Others, like the hypocrites, may be putting on a sleight of hand.
For example, if Heilongguo wants to attack Levi Garrison, it can also seal all the information so that no one knows about it.
But the Apocalypse Empire is different.
They don't care about that.
Just grab it.
And they also have enough confidence and trump cards!
Nearly nine hundred gods!
Not even that number!
Moreover, the power lists currently arranged on the dark web are only arranged according to the number of gods.
But no one knows the specific combat power of the gods.
After all, the gods are not one level, there are strong and weak.
This is impossible to estimate.
Therefore, the real strength of the Apocalypse Empire is stronger than the surface…
Seeing a few people leave, Doctor Dark both laughed.

“I didn’t think they would grab Mr. Ye…”
Isn’t this looking for death?
He is no good.
Only if he grabs someone else’s share and the idea hits his head, it means that
everything is coming to an end.
At this time, many people who came because of the reward order were also
shivering.
“Let’s go! Don’t dare to trade!”
“Yes! Let’s all go, don’t trade! Life is important!”
…
One by one, they have to give up the transaction, they dare not.
“Why don’t you dare?”
Levi Garrison asked.
“Mr. Ye, didn’t you hear it just now? The Apocalypse Empire has already announced that all these resources are theirs! If we take away these resources in
a transaction, we actually take them from the Apocalypse Empire!”
“Aren’t we going to be hunted down! We will all die! We dare not offend the
Apocalypse Empire for a little resource!”
The man explained.
Other people who came to trade also shouted: “Yes, it’s not wrong.”
“Since the messenger announced just now, everything here belongs to the Apocalypse Empire! If we trade without authorization, it means provoking the
Apocalypse Empire! Let’s go first!”
someone shouted.
Everyone thought so.
Before leaving, someone else advised: “Mr. Ye has nothing to do! This is the
Apocalypse Empire! The third power in the world! With more than 900 gods, who
can afford it?”
“You can only admit that you are unlucky. You are targeted by the Apocalypse
Empire, and you can only accept your fate!”
“Hey, hey, don’t go!”
The two doctors in the dark persuaded them.
But everyone was afraid of the Apocalypse Empire, and they all had to leave.

Among them are some of the top 20 forces.
They are also all afraid of the Apocalypse Empire.
If you provoke this robber, it is very likely that your own power and country will
be uprooted by others.
Who dares to provoke?
One by one they all left.
One of the eighth representative of the power list said: "Mr. Ye has an idea for
you now! Maybe you can defend these resources!"
"First, find some strong people to protect, and at the same time transfer the
position, not to directly contact the Apocalypse Empire.
Second, take refuge in a more powerful force, such as the existence of the first
and second in the power list, the fourth and fifth. It is best to take refuge in the
War Bear Country! The Apocalypse Empire has no choice. "
After he finished speaking, he also left.
But this is indeed a good way.
If you don't look for foreign aid, don't rely on others, all these resources are
gone.
There is no hope of detoxifying Levilia.
If you look for foreign aid to rely on others, you can still save some resources.
There is still hope for Levilia to detoxify.
But let Levi Garrison take refuge in the War Bear Country?
Impossible in this lifetime!
Only Zhanxiong surrenders to Levi Garrison!
But the Apocalypse Empire is also too terrifying.
There was no one there directly.
"Mr. Ye…"
The two doctors in the dark looked at Levi Garrison.

What they mean is what should be done…
"Apocalypse Empire? Let me think about it! It should be very close to us! Just
pass through these two forbidden places!"
Levi Garrison muttered to himself.

The two doctors in the dark looked at Levi Garrison with shortness of breath,
waiting for his next words.
“If it is very close and there are not many gods, then don’t waste time!”
Levi Garrison continued.
“Then what???”
The Dark Doctor asked.
“Then I’ll go to the Apocalypse Empire! Kill all the gods in these countries! Are
there many gods? Then kill them until they have no gods!”
Levi Garrison said lightly.
It sounded like he was going to do something inconspicuous.
Just like home cooking.
“Then kill them without gods” echoed in the ears of the two doctors in the dark.
This is too domineering.
Are you pretending to be coercive with Levi Garrison?
You are very gods, aren’t you?
Then I will kill the Apocalypse Empire without gods!
Cut off your foundation directly!
Directly kill you from third to last!
Levi Garrison didn’t take this matter to heart at all, and continued to guard
Levilia.
…
Soon, the news that Tianqi Empire robbed Levi Garrison’s resources spread.
After all, there are many people I have seen before.
As soon as it was said, everyone knew it.
The group of people who kidnapped Levi Garrison in Daxia Daode directly and
publicly scolded Levi Garrison.
How good would it be if these resources were taken out to Da Xia earlier?
Now being robbed by the Apocalypse Empire, not only Da Xia can’t get it, but
Levi Garrison himself can’t get the slightest!
“Deserving it! Levi Garrison deserves it!”
“Is Levi Garrison sick? Why did you go earlier?”
…
After the organization of the revenge Hydra knew that Levi Garrison’s resources

were going to be robbed by the Apocalypse Empire, they all burst into laughter.
For them, they know how much they weigh.
Under the staring eyes of War Bear Country, they could not get all the resources
of Levi Garrison.
It's enough to be able to deceive so much.
Then you can watch the play.
As long as the War Bear Country didn't get it, they would be happy.
Especially Levi Garrison was so miserable.
They were even more happy.
How good is it to join us early?
Is it empty now?
…
War Bear Kingdom and Hydra are also paying attention to this matter.
"If Levi Garrison's resources are taken away by the Apocalypse Empire, it will
pose a threat to the battle against the Bear Country! So should we intervene in
this matter?"
"I think it should be stopped, and Levi Garrison's resources should be given to
us!"
…
A group of people are discussing to make a move.
"No! Let's wait and see! Our goal is not the resources Levi Garrison has at hand,
but the secret of how he gets the resources! This time the Tianqi Empire starts,
this secret will definitely be exposed! It's not too late for us to act!"
In the end, the Siberia Star, the most powerful organization in the War Bear
Kingdom, made this decision.
Let the gods of War Bear Country prepare and wait for the grievances between
Tianqi Empire and Levi Garrison to begin.
Only after getting Levi Garrison's secret about resources did he do it.
…
Apocalypse Empire.
"Levi Garrison is our old rival. He is very stubborn! Let him obediently send the
resources back! Impossible! We can only grab it!"

“Hurry up and prepare people! But also prevent the forces of War Bear Nation
from interfering!”
“Gather all the gods of the Apocalypse Empire, whether they are out or in retreat,
gather them all! Stand by in Apocalypse City! Strike at any time!”
The Apocalypse Empire realized that there might be others intervening in this
snatch of resources.
Gather all the gods and the strong to stand by, ready to attack at any time.
In their opinion, the opponent is not Levi Garrison.
But these invisible enemies.
They are the most terrifying.
Defend against them.
As for Levi Garrison.
It was eaten to death by them.
And I thought that Levi Garrisonfang had suffered such a threat.
will run away immediately;
Or transfer resources immediately.
After all, you can’t sit still.
But what I didn’t expect was that Levi Garrison had been standing still.
Nothing was done.

This even puzzled the powerhouses of the Apocalypse Empire who were staring
at Levi Garrison’s actions.
what happened?
Is Levi Garrison accepting his fate?
Or not afraid at all?
Or he is very smart, knowing that no matter how he moves, he will be stared at by
the Apocalypse Empire.
But it doesn’t matter.
In any case, all Levi Garrison’s resources belonged to the Tianqi Empire.
The end has been decided!
Levi Garrison didn’t take this matter to heart at all.
He is still using various methods to detoxify Levilia.
But he didn’t act.
Others act.
The dark doctor came and said that someone was looking for him.

Now being warned and stared at by the Apocalypse Empire, is there anyone else
coming?
Really courageous.
Levi Garrison wanted to see who it was?
After coming outside.
A group of three.
They are all gods!
And everyone has a lot of murderous and hostile aura.
At first glance, it was honed from the battle.
Much stronger than ordinary gods!
Also, everyone was dressed in shabby clothes, just like those who had fled.
Levi Garrison guessed that they should not belong to the great powers.
The gods and gods of great powers and powers have to be sacrificed by people,
how can this be the case?
"who are you?"
Levi Garrison asked.
"Mr. Ye, let me introduce you! We are from the Holy Gold Mercenary Group!"
Of course Levi Garrison, a mercenary organization, knew about it.
And the mercenary organization today is different from the previous one.
It used to be a mercenary organization.
But now, to put it bluntly, a group of strong people organized to explore forbidden areas, dig for treasures from heaven and earth, find spiritual energy
crystals, and so on.
Of course anyone can hire them to do anything.
But it requires a lot of compensation.
This reward is not money, but heaven and earth treasures and aura crystals.
As long as you give enough benefits, they will work for you!
They dare to do these things.
After spiritual recovery.
The rise of a mercenary organization.
They are all made up of some powerful people, and even gods joined them.
It's all a group of people who lick blood on the knife edge.
In a word – pay enough and they will do anything for you.
Even the War Bear Kingdom and the Apocalypse Empire are not afraid of them.
In themselves, they lived the days of wandering the world and licking blood.

There are many enemies.
Don't be afraid of more.
This is also the reason why everyone is now afraid to approach Levi Garrison and
dare not provoke the Apocalypse Empire, but they still come.
"Introduction! We have a total of seventeen members of the Holy Gold Hire
Group! Five of them are gods, and three of them are powerhouses whose combat
power is comparable to that of gods! The other nine are very close to gods after a
hundred battles!"
"As long as Mr. Ye produces 200 spiritual energy crystals, we will work for you!
Protect you from evacuation! We will even carry resources for you! Not to mention that we can tide over the difficulties, we may save some resources for
you!"
The people of the Holy Gold Mercenary Group said sincerely.
And their prices are reasonable enough.
At this time of crisis, 200 pieces of aura crystals are really not expensive.
Levi Garrison smiled: "Aren't you afraid of the Apocalypse Empire?"
"Hoho, our holy gold mercenary group has long been on the must-kill list of the
Apocalypse Empire! We're not afraid! We did this job originally, what are we
afraid of?"
Several people sneered disdainfully.
Levi Garrison nodded.
Sure enough times have changed.
This group of people is really not easy to deal with, they are in a hurry, they
escaped into the second-level or even the first-level forbidden area, and there is
nothing anyone can do.
"And Mr. Ye, we also have the contact information of other hiring groups! As long
as Mr. Ye pays enough price! We can call for eight hiring groups with similar
strength to us! It's still not enough to protect some of your resources and your
safety by then. questionable!"

“There is also the strongest hiring group, but their price is too high! It may
require more than three tons of aura crystals! Therefore, it is not recommended!”
“Mr. Ye, do you need it? As long as two hundred aura crystals are needed, we will
give you our lives!”

Protector] Chapter 3156

Several members of the Holy Gold Mercenary Group said sincerely.
And there was no Levi Garrison who fell into such a crisis, so the lion opened his
mouth.
“And we suggest that Mr. Ye should hire the strongest hiring team at such a time
of crisis! Although the price is sky-high, it can keep more of your resources! No
matter how you count it, you are not at a loss!”
Several people said again.
In fact, they have long wanted to find Levi Garrison.
Because the bounty is very tempting.
However, it is difficult for them to find detoxification methods and magic medicines.
Where there is a murder to protect people refreshing.
So they have been waiting, and now finally the opportunity has come.
Run quickly.
The other eight hiring groups were also waiting, and they negotiated that the
Holy Gold Hiring Group would come to discuss first.
The three stared at Levi Garrison.
Waiting for Levi Garrison’s answer.
“No need! What can the Apocalypse Empire do to me?”
Levi Garrison subconsciously refused.
The expressions of the three of them changed.
After all, the reward is nothing…
“Mr. Ye seems to have compromised his fate, so let’s say goodbye…”
The mercenary group acts decisively.
Levi Garrison refused, and they just left.
“Wait!”
Levi Garrison suddenly thought of something and stopped the three of them.

The eyes of the three of them shone fiercely.
“I need you somewhere! Call everyone you know, I can pay any amount of money!
And call the strongest mercenary team too!”
Levi Garrison said.
This made the three of them extremely excited.
“Mr. Ye is trying to prove that we are not liars! We will pay you after we have sold
your life! When that time comes, we will keep some resources for you, and we
will be able to take the payment with peace of mind!”
The three started talking.
“But the rules of the strongest hiring group are different! They have high prices,
and the rules are dead. They must pay half of the salary before they can do it!”
These people hesitated.
Seeing that Levi Garrison’s face changed slightly, they immediately said: “But in
our mercenary world, we are all about integrity! The strongest mercenary group
should be more honest! They won’t lie to people when they take the task!”
“Let’s do it! I’ll pay you half of it! Just listen to my arrangement! You can arrange
it, Old Hei!”
After Levi Garrison finished speaking, he left.
The Dark Doctor and the Brain of God have actually realized Levi Garrison’s
intentions.
Only the three looked excited.
Then I immediately went to contact other hiring groups.
It was still rumored that Levi Garrison had a deal with the employment organization.
Known by the Apocalypse Empire.
“Hahaha… Levi Garrison, you are really stubborn! You actually found a hiring
organization to protect your resources!”
“But against more than 900 gods and countless powerhouses in my Apocalypse
Empire! No amount of hiring organizations will do!”
“I heard that even the strongest doomsday mercenary group in the mercenary

world has been dispatched? But what's the use?"
"How many come, how many we kill!!!"
Of course, the Apocalypse Empire is not afraid.
Various tactics were also developed.
Not to mention occupying all Levi Garrison's resources at that time.
It is also necessary to wipe out these employment organizations.
Although these hired organizations lived the days of licking blood on the knife's
edge.
But in fact, each is rich and oily.
After all, high risk comes with high reward.
The Apocalypse Empire also wants to fight these mercenary groups.
Apocalypse Empire will also stare at Levi Garrison to see what foreign aid he will
invite next.
Not what they expected.
Someone really came to Levi Garrison.
Actively become foreign aid.
These are the top ten forces, and they all offered rewards to Levi Garrison.
For example, take out half of the resources and tell the secrets of the resources.
Then they helped Levi Garrison to tide over the difficulties, and they went to
fight against the Tianqi Empire.
Although the Apocalypse Empire is powerful, it will not go all out with similar
forces.
However, these were all rejected by Levi Garrison one by one.
They are not needed.
The need to hire a group is their intention.
Three days passed quickly.
The time set by the Apocalypse Empire has come…
"Let's go, I'm going to the Apocalypse Empire to kill…"

Levi Garrison, who was guarding Levilia, stood up suddenly, as if thunder and
lightning were raging in his eyes.
A killing intent spread directly.
Even the beasts in the surrounding forbidden areas felt it.

One by one, they ran away in fright.
The two doctors in the dark were also shocked.
"Also notify those hiring groups! Let them stand by outside Tianqi City! Listen to
my arrangements!"
Levi Garrison said coldly.
"Okay, understand!"
Doctor Dark went to arrange it immediately.
Soon after, the three traveled to the Apocalypse Empire in an aircraft.
Levilia and Icebed are also in the aircraft.
When Levilia is by his side, Levi Garrison is relieved.
On the other side, the Holy Gold Hire Group, which was ready, received the
message.
Tell the information to thirteen other hiring organizations, including the strongest hiring group – Doomsday.
Among them, the strength of the eight employment organizations and the Holy
Gold Employment Group is not much checked.
There are several gods leading the team, and the others are also capable of
fighting, and they have the power to fight with the gods.
The remaining four employment organizations are actually the younger brothers
of the doomsday employment group, and there are no gods in charge, but they
are all powerful and can fight against the gods in a short period of time.
All members of the most terrifying doomsday mercenary group are god-level!
This is the strength of the strongest mercenary army!
The gods they have are estimated to be comparable to those of many countries.
And their gods are all polished in the tempering of life and death.
Stronger than ordinary gods, even much stronger.
When there is a task, they do it.
When there is no mission, they are all exploring the forbidden area, fighting with
beasts in the forbidden area…
So they fight more terribly.
This time to take over the task of Levi Garrison, there will be thirty gods who will
take action.

And this is not the real strength of the doomsday mercenary group.
Everyone guessed – their real strength should have more than fifty gods.
Unlike other desperate mercenary groups.
They are too powerful, and few missions can get them all out.
Therefore, they will retain a part of their strength, that is, stay behind.
Of course, only the doomsday mercenary group has this strength to stay behind.
Other employment organizations are all dead and alive, and other people who
come from will stay behind.
"Huh? Go directly to Apocalypse City in Apocalypse Empire?"
After all the hiring organizations received the message, the first reaction was
this…
What is Levi Garrison going to do? ? ?
At this time, the deadline for the Apocalypse Empire has come.
Shouldn't Levi Garrison escape?
While running away, transfer resources.
And then get all their hired organizations to start escorting him?
Why did you go directly to Tianqi City?
That is the most dangerous place!
As an employment organization, they are also extremely well-informed.
According to the information they got-
The Apocalypse Empire has gathered all the gods, whether they go out to practice or retreat.
The rest of the countless powerhouses also gathered.
Right in Tianqi City.
Isn't Levi Garrison going to Tianqi City to fight them head-on?
In other words, to find death!
An idea was born in everyone's mind – did Levi Garrison go to accept his fate?
Take the initiative to hand over the resources, and then tell the secrets of the
resources?
But not right!
If he accepts his fate!
Why hire so many hiring organizations?
Isn't that contradicting itself?
And they have heard the deeds of Levi Garrison.
Knowing that this is a person who is arrogant to the core!
It's also unbelievably stubborn!
There is no way he will surrender!

Even if he dies!
Plus hired them again.
The description is by no means fatal!
He should have other plans.
What are you going for?
they do not know!
But the task given to them is to go to Apocalypse City, then they will go.

"No… What the hell is Levi Garrison doing? Let's go to Apocalypse City and be
tough with the Apocalypse Empire?"
The major employment organizations were still a little hesitant, and did not have
the first time to go.
After all, this goal is too big.
And it's too blurry.
Go directly to Tianqi City.
It is likely to face more than 900 gods and countless powerhouses in Tianqi City.
*Who the f*ck isn't afraid of this? ? ?*
Although it was the days of licking blood on the knife's edge, it was much simpler
to escort Levi Garrison to escape directly than to go directly to Tianqi City to
have a conflict.
The probability of death is also high.
They work as a hiring organization, not directly with people.
Hide if you can, but only when you can't.
Now Levi Garrison's task is to let them go directly to Tianqi City.
That's what getting them just means.
Who is not afraid of this?
There is a high probability that the entire employment organization will fall.
Dancing with death is not the same as taking the initiative to die.
therefore.
All fourteen hiring organizations came together.
Including the thirty gods of the doomsday mercenary army.
Everyone is worried about this problem.
Their task was to listen to Levi Garrison's arrangement.
But I don't want you to directly arrange for me to go to Tianqi City.

Not even the strongest mercenary army!
Where is the Apocalypse Empire, which is the third strongest in the world power
list?
Scared!
all scared!
To protect the lives of Levi Garrison and his party, they are not afraid.
The front is not afraid.
Several hiring groups even backed down.
"Forget it! Now that we have taken the mission! We have to listen to Levi Garrison's arrangement!"
"Now that he has arranged, then we have to go! We must obey the rules! Don't
let people laugh, we are afraid when we see the Apocalypse Empire!"
"Well, what's more, we have all received the deposit! Even the mountains of
swords and seas of fire are going to go!"
The leader of the doomsday mercenary army said.
"Yes! No matter how difficult and dangerous it is, as long as we accept the mission, we should go!"
"What's more, Levi Garrison just asked us to go outside Tianqi City, and didn't
directly say what to do with us?"
...
Although all the hiring organizations were afraid, they all went anyway.
One by one, all went to the Apocalypse Empire.
The head of the Apocalypse Empire, Emperor Apocalypse III, and a group of
high-level officials are all sitting in Apocalypse City.
on a huge venue.
The more than 900 gods of the Apocalypse Empire stood there, all waiting.
Apocalypse Emperor III shouted: "Today is the deadline for Levi Garrison! What
about others? Still refuse to accept his fate?"
"I don't know, three days have passed. There has never been any movement from
Levi Garrison!"
"It seems that Levi Garrison is going to fight with us to the end! The others have
not left, and the resources have not been transferred in any way! Seeing that he
has just finished with us!"

“In that case, we don’t need to be polite! Just dispatch the troops!”
...
The following people said.
Apocalypse the Great frowned: “What’s going on in the War Bear Kingdom and
other parties?”
“There is no movement from these forces for the time being! Maybe they are also
waiting!”
“After all, everyone knows that Levi Garrison’s resources are never the focus, but
the secret of how these resources come from!”
Everyone said.
Emperor Tianqi nodded: “Well, that’s right, they all want to know this secret.”
“Who doesn’t want to stare at this piece of fat? Levi Garrison must have a channel!
Otherwise, he can get so many treasures and spiritual energy crystals without
any effort! Just get this secret!”
Emperor Tianqi ordered: “All the ministries are staring at them! Then they are
ready to take action against Levi Garrison!”
Apocalypse the Great said this.
Ready to attack Levi Garrison.
At this time, the subordinates came to report.
“Report to the emperor, Levi Garrison is here!”
This made Emperor Tianqi stunned for a moment: “Come? Where did you come
from?”
“It’s time to arrive at Tianqi City!”
“what???”
“Hahaha……”
“Levi Garrison has come to Tianqi City, doesn’t that mean he has compromised
and surrendered to us?”
Apocalypse the Great laughed.

In Tianqi City, everyone knew that Levi Garrison was about to surrender.
Excited one by one.

Now Levi Garrison's rich resources are not only owned by them.
Even the secrets of the resources behind him belonged to them.
…
now.
Fourteen hiring organizations have been ambushed outside Tianqi City, ready to
follow Levi Garrison's orders at any time.
I saw Levi Garrison and his party came to the outside of Tianqi City in an aircraft.
They all got nervous.

The task later may be to rush directly into Apocalypse City.
And Levi Garrison is so courageous that he ran directly to Tianqi City?
Soon, the aircraft landed directly in Tianqi City.
The powerhouses of the Apocalypse Empire did not stop him.
After all, in their opinion, Levi Garrison and his party came to surrender.
Why are they blocking it?
…
The hiring organizations lying in ambush outside the city began to ask: "Are there
any mission orders? We are all in place! Levi Garrison can arrange any missions!"
"Yes, ask Xia Levi Garrison, what exactly do you want us to do?"
"Doctor Dark has sent an order just now! Let us wait outside the city! He will
release the mission later!"
Soon, the orders of the Dark Doctor reached all the hiring organizations.
This made them even more confused.
What is Levi Garrison doing?
It's not a compromise!
What else can he do?
This made all of them itchy, and they wanted to go and see for themselves what
was going on.
But everyone can only lie down and wait for Levi Garrison's order…
Other countries that were closely watching Levi Garrison and the Apocalypse
Empire saw Levi Garrison suddenly come to Apocalypse City.
They were all stunned.
This is not Levi Garrison's style!
How could he come to Tianqi City?
Did Levi Garrison really compromise?

To hand over resources?
To tell a secret?
This is very detrimental to the forces of War Bear Nation…
This is equivalent to feeding it directly into the mouth of the Apocalypse Empire.
They have no time to react.
They are all waiting for Levi Garrison and the Tianqi Empire to fight.
Then step in again.
Now, without fighting or talking, Levi Garrison seems to have surrendered directly.
in a hurry!
One by one impatient like ants on a hot pan!
The organization of revenge Hydra was even more angry when Levi Garrison
went to Tianqi City.
"We said earlier that Levi Garrison is a coward! Afraid of death, he dare not take
revenge on Hydra!"
"At the beginning, there were still many people who didn't believe it? It was said
that Levi Garrison was stubborn and wanted to die, and would rather die than
give in. Do you believe it now?"
"I thought I was so stubborn that I could fight with the Apocalypse Empire, but
who would have thought that he would simply surrender and compromise!"
"I was afraid to give up my daughter's treatment!"
"Coward! Waste! Not worthy of being a man and a father!"
…
They cursed fiercely.
Daxia's group of moral kidnappings cursed even more fiercely!
They are all blaming Levi Garrison for not giving the resources to Daxia, not
giving them the resources, even if they tell the secret of how the resources are
obtained.
There are no results.
Now out of fear, I have to hand over all this to other forces.
This poses an even greater threat to Da Xia.
scold!
One by one, Levi Garrison was scolded to death!

As if Levi Garrison committed some heinous crime.
…
Inside Tianqi City.
The Return of the God of War [The
Protector] Chapter 3160
The message from Levi Garrison and his party has already reached the ears of
Emperor Tianqi III.
"By the way, what about those hiring organizations? I heard the end of the strongest hiring organizations is coming! Where are they?"
Apocalypse Emperor III asked.
"Disappeared! All the hiring organizations have disappeared! Most likely they
have withdrawn! Levi Garrison has surrendered, what are they keeping?"
The intelligence department of the Apocalypse Empire immediately reported the
situation.
If the hiring groups go elsewhere, they'll find out.
But this group of people is just outside Tianqi City, hiding under their noses.
It's dark under the lights!
Something the Apocalypse Empire would never have thought of!

The employment organization is gone!
Levi Garrison will not surrender!
"Mr. Ye, please! Emperor Tianqi III is already waiting for you!"
Levi Garrison and his party just got off the aircraft, and the messenger of the
Apocalypse Empire has come to greet them in person.
Unlike the previous arrogance, this time it was a warm welcome.
A complete 180-degree transformation.
It even makes you feel like you are in the wrong place.
"We met last time, didn't we?"
The dark doctor asked subconsciously.
It's changing too fast.
Make him unbearable.
Levi Garrison looked calm.
They all understand why there is such a shift.
Everyone thought that Levi Garrison was here to surrender…
That's why they are so enthusiastic, they have to wait for Levi Garrison to tell the
secret of the resource.

How can you not be enthusiastic?
The moment Levi Garrison entered.
Emperor Apocalypse III immediately ordered: "Seal the entire Apocalypse City! I
don't want anything that happens next to be known by outsiders! Especially the
secrets of resources!"
The Emperor Apocalypse III made the same decision as the great prince of Heilongguo.
For fear that others would know what was going on inside.
Therefore, the entire Apocalypse City was directly sealed.
Don't let outsiders know what happened.
He wants to swallow the secrets of resources alone!
How to let outsiders know?
soon.
Thirty gods used their means.
The aura storm raged around Apocalypse City, and finally formed an invisible
shield that enveloped the entire Apocalypse City.
It is equivalent to isolating Apocalypse City from the world.
What happened in Apocalypse City, even what sound, and where the light is
produced, will not be known to the outside world.
Even a country as strong as War Bear Country cannot break this shield.
know what's going on.
After all, they were at the same level and couldn't help each other.
Silly!
Anxious!
But after Tianqi City was closed, everyone was dumbfounded.
This time the secret is to be swallowed up.
Unless the War Bear Country sends strong men to directly attack the Apocalypse
Empire.
Other than that, there is no other way.
But he couldn't do it.
Then the other forces are even more useless…
now.
Levi Garrison has come to the inner city of Tianqi City.
The huge square is densely populated with people.
In addition to more than 900 gods, there are hundreds of thousands of strong
people.

The powerhouses on the periphery are even more numerous.
In order to prevent accidents from happening, Emperor Apocalypse III deliberately gathered all the powerhouses.
Shocked!
So shocking!
Levi Garrison's three people are somewhat insignificant!
Come to the front soon.
On the throne above sits Apocalypse the Great III.
Apocalypse Emperor III laughed and said: "Da Xia is the king side by side, I really
didn't expect you to come! Hahaha…"
The implication is – I didn't expect you to compromise and surrender!
The outside world passed on Levi Garrison as godlike, and felt that he could not
come.
Now it's unexpected.
He actually took the initiative to come!
Levi Garrison smiled and said, "There are more things you didn't think of…"
When Emperor Tianqi III heard it, he was overjoyed.
Is Levi Garrison going to tell the secret of the resource?
The entire Apocalypse Empire was extremely excited.
Finally got to get the secret of the resource.
They are all beginning to imagine a better future.
If you have these resources, you might be able to compete with War Bear Kingdom.
Levi Garrison looked left and right, and asked Emperor Tianqi III, "Are all your
gods here?"
Upon hearing this question, Emperor Apocalypse III was full of pride.
The others were also proud, with their backs straight and their chests raised.
Everyone is in high spirits!
Proud to the extreme!
Apocalypse Emperor III laughed loudly: "Yes! That's right! All 937 gods of my
Apocalypse Empire are here!!!"
"Boom…"
At the same time, more than 900 gods of the Apocalypse Empire exuded a majestic atmosphere together.
Shock the world.

Levi Garrison suddenly smiled: "Okay, then I will kill you today without a god in the Apocalypse Empire!"

The Return of the God of War [The Protector] Chapter 3161
"Ok?"
Everyone was a little confused.
The words are not surprising and die endlessly.
As soon as Levi Garrison's words came out, everyone felt that they had heard it wrong.
What did he say? ? ?
It seems that you can't hear clearly!
Didn't you come to surrender?
Why are you killing gods or something?
Everyone didn't understand.

Don't understand what Levi Garrison meant, they didn't listen to what Levi Garrison said.
After being stunned for a long time, several high-level officials next to Emperor Tianqi III smiled subconsciously: "Mr. Ye, are you kidding me?"
They heard what Levi Garrison said clearly, and they all thought Levi Garrison was joking.
After all, what Levi Garrison said was too shocking.
Levi Garrison thought of something, and looked at the densely packed powerhouses on both sides.
His gaze swept over all the gods directly, and looked at the powerhouses behind who had the potential to become gods.
"By the way, there are also them! Kill them all! Not only kill all the gods, but also cut off all of you who have the potential to become gods!"
Levi Garrison said lightly.
Extinct slaughter!
It is to let the Apocalypse Empire cut off any possibility of having a god!
I want your Apocalypse Empire to pass, now, and in the future, there will be no gods! ! !

At this time, everyone in the Tianqi Empire gradually reacted, and Levi Garrison
didn't seem to be here to compromise and surrender.
Does he seem murderous?
Purpose unclear?
Emperor Tianqi III reacted and couldn't help asking: "What do you mean? Levi
Garrison, didn't you come to compromise and surrender?"
Others echoed: "Yes! Didn't you come to hand over the resources and tell us the
secrets of the resources?"
…
This is the idea of everyone in the Apocalypse Empire.
Levi Garrison almost came alone.
Not surrender what is a compromise?
"Ha ha ha ha……"
Suddenly, Levi Garrison laughed.
Really fantasize?
"Which ear did you hear that I surrendered? Am I going to give you resources?"
Levi Garrison asked.
"what???"
Hearing this answer, everyone was a little unacceptable.
What about surrender?
"As for how I got these resources…"
As soon as these words came out, the field instantly fell silent.
Everyone swallowed hard and stared at Levi Garrison.
Everyone held their breath, they were about to suffocate.
This is what they have to dream of!
To be honest, the resources that Ye Xuan possesses are not important.
What matters is the secret of his resources, where did he get it? In what way?
Why does he have so many?
Just keep the secret.
In a short period of time, it can be said that the resources are endless.
It is too important to anyone, to any force.
Now that Levi Garrison mentions this, everyone is going crazy.
But then Levi Garrison turned around and said, "But tell you, you have no life to
get it!"
Levi Garrison was right.

The resources he has now are at least brought from the second-level forbidden
land, and most of them are even brought from the first-level forbidden land.
Now, even if the War Bear Kingdom is facing the second-level forbidden area, it is
cautious, and it takes a lot of gods to dare to explore slowly.
Not to mention the first-level forbidden area.
Having suffered such a big loss in the Amazon rainforest, there is now a shadow
on the first-level forbidden area.
Even if Levi Garrison told them that these resources were taken in the first-level
forbidden area, would they take them back?
can not!
"It's okay to tell you! All of my resources are from the first-level forbidden area
and the second-level forbidden area! As for the third-level forbidden area,
whether it is a spiritual energy crystal or a treasure of heaven and earth, the
quality is too bad!"
Levi Garrison said.
"What kind of resources came from the first-level forbidden land?"
Hearing what Levi Garrison said, everyone obviously didn't believe it.
resources?
The quality of Levi Garrison's is super high.
It is indeed a first-class forbidden thing.
But Levi Garrison went to get resources from the first-level forbidden area?
Meng who?
*"Levi Garrison, you are bullsh*tting!!!"*
Everyone agreed that Levi Garrison was talking nonsense.
This is completely impossible.
Levi Garrison is playing with them!
"Great Emperor, it seems that he is not willing to tell the secret of resources! He
is still playing with us!"
"Yeah, it looks like he won't hand over resources either!"
……
Everyone said.
"What do you mean, Levi Garrison? Don't you plan to hand over your resources

and secrets?”
Apocalypse the Great III asked loudly.
Everyone looked at Levi Garrison with suspicious eyes.
The three of them came, and then they didn’t hand over the resources, what was
he going to do?
“of course not!”
“I’m here today to kill all the gods and potential gods in your country! Let’s go
together!”
Levi Garrison said lightly.
The Return of the God of War [The
Protector] Chapter 3162
“Ha ha ha ha……”
But when they heard this, everyone laughed.
All were laughing wildly.
I think Levi Garrison is stupid.
Want to kill all the gods and god potentials in the entire Apocalypse Empire?
That’s close to thousands and tens of thousands of people.
How is Levi Garrison possible? ? ?
Everyone in Tianqi Imperial City is laughing.
Looking at Levi Garrison is like looking at a fool.

“Clang clang clang clang clang clang…”
But suddenly a terrifying sound of sword chirping exploded in the air!
It was as if the Nine Heavens Divine Thunder had fallen terribly, exuding rolling
might.
“boom!!!”
In an instant, everyone’s hair stood on end, blood flowed back, and a cold air
rushed to the sky from the soles of their feet.
“sword???”
Everyone saw a sword floating in front of Levi Garrison!
It is exuding a terrible peerless coercion.
Terrible sword energy surged, sweeping like a hurricane.
Sword Intent penetrates into every corner and into everyone’s heart, like falling
into a ten thousand year ice cave, and the god of death descends.
Everyone knows this sword!
Even a little familiar!

After all, when the "Sacred Tribulation" killed the fifty gods of the Star Kingdom
that day, it was known to many people.
But now everyone in the Apocalypse Empire is dumbfounded.
Couldn't react for a while.
Familiar and unfamiliar!
"Pfft!"
Suddenly, Divine Tribulation turned into a bolt of lightning and shot out.
A powerful god beside Apocalypse the Great III was cut off in the middle, and
blood splashed.
"Pfft!"
Without waiting for everyone to react, another god on the right was cut from the
middle…
"Pfft!"
"Pfft!"
……
The speed of the sword was so fast that it was dazzling.
Not even the eyes of the gods could catch it.
Not to mention others.
For a moment, more than 30 gods around Emperor Tianqi III were beheaded.
Not a single response came.
The Emperor Apocalypse III, who was guarded in the middle, was poured with
blood over and over again.
He was already bloody.
horrible!
too frightening!
*Levi Garrison won't talk nonsense, just f*ck you!*
After so many gods fell, the others reacted one by one.
All the gods reacted, and the others were still stunned.
It is really too fast.
"kill him!!!"
The gods who reacted all attacked Levi Garrison.
They have realized that Levi Garrison is not simple.
All out must be attacked.
Otherwise, there may be danger.
With a single sword, he killed more than 30 gods guarded by Emperor Tianqi III.
This power is terrifying!

So all the gods who reacted have only one idea – kill Levi Garrison! ! !
Only Levi Garrison smiled contemptuously.
“Buzzing…”
Divine Tribulation began to tremble rapidly and circled around Levi Garrison.
The speed became faster and faster, and finally evolved into thousands of swords surrounding Levi Garrison.
It was all the afterimage of the sword that was too fast.
With ten thousand swords around the effect.
“Pfft!”
“Pfft!”
And the gods who came directly seemed to have entered the meat grinder.
As soon as he came into contact with this circle, he immediately shattered his
bones and splattered blood.
Indiscriminate slaughter! ! !
Even the body of a god is like a paper tiger, it will shatter when touched.
No matter what means these gods use, they cannot break the circle left by the
rapid rotation of the gods.
Not to mention approaching Levi Garrison.
That is impossible.
The gods attacked and fell dozens of people.
“kill!!!”
Levi Garrison made a cold and ruthless voice.
“Hey!”
God robbery attack.
Straight through the throat of a god!
However this is just the beginning.
“laugh!”
“laugh!”
“laugh!”
...
Next, the robbery continued to shuttle in the group of gods and powerhouses.
Continue to penetrate the body of a strong person.
The blood has formed a rain of blood.
UI!
The speed of the robbery is simply too fast, too fast!
The gods were pierced without a reaction at all, even if they wanted to block it,
they couldn’t stop the power of the gods.

Still pierced!
It is equal to the indiscriminate bombardment of the gods!
The Return of the God of War [The
Protector] Chapter 3163
No matter whether you react or not, you can't stop the power of the calamity!
Many gods have tried their best to use all their unique skills.
But the robbery directly penetrates, no matter what shield or attack is in front of
you, I will break it with one sword.
…
For a moment.
There were more than 100 corpses on the ground.
Still gods!
Death is horrific…
For dozens of seconds before and after, the Apocalypse Empire has lost two
hundred gods…

At this time, all the gods of the Apocalypse Empire reacted.
All of them were angry and rushed towards Levi Garrison regardless of their
health.
The rest of the people were stunned and frightened.
However, those powerhouses who were close to gods or had the potential to
become gods also responded one by one.
Those who reacted all killed towards Levi Garrison.
Divine Tribulation at the moment is also excited!
It seems to be the same as its name!
Its appearance is the catastrophe of the gods!
As is the case now, this catastrophe has come.
All gods are going to die.
"laugh!!!"
Divine Tribulation passes through at extreme speed.
"boom!"
"boom!"
"boom!"
…
A series of seventeen gods suddenly burst into a blood hole.
It turned out to be pierced by a sword.
Seventeen gods fell at once!

Shocked!
This scene is too shocking!
Kill crazy! ! !
Under the control of Levi Garrison, Shen Jie continued to shuttle.
Strange curves were drawn, and the blood lines were actually strung together.
"Pfft!"
"Pfft!"
...
The gods on the curve were all pierced one by one.
Sometimes it is to pierce seven or eight holes at a time, or ten!
"Block! Block!"
The gods of the Apocalypse Empire are in a hurry.
Shouted hastily.
They did everything they could to block the calamity.
Even more than 20 gods stood together and concentrated everyone's power to
block the calamity.
This time, the calamity did not go through so smoothly.
It was blocked.
Just when everyone thought it worked, and smiled.
Suddenly, the light above the divine calamity flourished.
"Boom…"
Terrible sword energy overflows.
Boom to the group of gods ahead…
"Pfft!"
"Pfft!"
"Pfft!"
...
Everyone was bombarded with dense blood holes.
After a scream, more than twenty gods all fell to the ground.
Sore all over…
Next, dozens of gods wanted to stop the robbery directly.
But the divine robbery sword light exploded directly.
Dozens of gods were bombed to death…
Divine Tribulation is too terrifying.
See who kills who.
It is completely the same as the catastrophe of the gods.
Unstoppable at all.
In just a short time, four or five hundred gods have fallen.
This is too scary.

Most of the gods who rushed to kill Levi Garrison were from above, but some calmly saw the number of corpses on the ground, and they were scared and numb.
*This is so f*cking scary! ! !*
However, at this time, seven or eight gods rushed to Levi Garrison from various angles.
They have already seen the hope of killing Levi Garrison.
There was a wild smile on everyone's face.
As if they were about to win.
If they kill Levi Garrison, they will win.
Seeing seven or eight gods coming, Levi Garrison stood still.
It's like being frightened.
It was just a bloodthirsty smile on the corner of Levi Garrison's mouth!
"laugh!"
...
Just when a god approached Levi Garrison and was about to kill him, suddenly a calamity in the distance tore apart the space and appeared in front of Levi Garrison.
This speed is too fast, it can be called an instant transfer.
Divine robbery slid across the god's neck.
A thin bloodstain appeared on the neck.
Immediately, the god exploded into a cloud of blood!
"laugh!"
Shen Jie quickly circled around Levi Garrison again.
A cloud of blood exploded.
The rest of the gods were all killed.
After killing the nearby gods in an instant, Shen Jie then appeared thousands of meters away and continued to bombard the group of gods.
The speed is fast, it seems that Levi Garrison has never been here at all.
This is the calamity! ! !
kill!
The catastrophe of the gods is coming!
Unstoppable!
Not even the gods!
...
Divine disaster is coming.
The Return of the God of War [The

Protector] Chapter 3164
No matter how powerful the gods are, they can't stop the calamity in the slightest.
In the event of a calamity, the end is death!
Fewer and fewer gods were standing, and more and more corpses were standing.
There are almost only three hundred gods left.
More than 600 gods were beheaded.
However, it was only a minute before and after.
The rest of the countless powerhouses in the Tianqi Empire were all attacking
Levi Garrison.
The rest of the Apocalypse Empire reacted one by one.
But after reacting, and looking at the field again, there is not much left of the
gods.

The fallen gods seemed to be over five hundred.
With Levi Garrison as the center, there are corpses everywhere.
Still divine!
Shocked!
So shocking!
Scared again!
Everyone in the Apocalypse Empire stood there like walking dead.
"kill!"
A cold glow appeared in Levi Garrison's eyes.
The brighter the divine robbery sword glow, the more terrifying the sword energy.
Faster and more penetrating.
This is a disaster for the gods.
The faster they fall.
It might have taken thirty seconds before they all fell.
As a result, this time, less than ten seconds.
The remaining three hundred gods were all beheaded.
"Pfft!"
As the head of the last god flew out, they all fell.
Apocalypse Empire Apocalypse Calendar for seven years.
A total of 937 gods were all beheaded.
But Levi Garrison has not stopped, he is still continuing…
Divine Tribulation aimed at the strong group of the Apocalypse Empire for
indiscriminate bombardment.

Don't look at the tens of thousands of strong people.
But they are not gods, they are just potential gods or those who are close to
gods.
Far from being as terrifying as the gods.
Therefore, the calamity is even more unstoppable.
kill!
Kill all the way!
Rivers of blood, mountains of bones.
This is definitely the biggest disaster in the history of Apocalypse City.
Killed by a sword to such an extent.
Miserable time!
It was also the most humiliating moment in Tianqi City!
...
one hundred!
one thousand!
Three thousand!
Five thousand!
Ten thousand!
...
More and more people are falling!
The god Levi Garrison has all been beheaded!
All the potential gods have been killed!
I want to kill you until the Apocalypse Empire is insulated from the gods.
Let you pee your pants when you hear the word "God" in the future.
This is what Levi Garrison will do! ! !
All 12,738 potential gods were wiped out by Levi Garrison! ! !
so horrible!
The Dark Doctor and the Brain of God are going crazy!
It turned out that when they followed the Gods Lab, they felt that what they were doing was crazy, which made them very excited.
But only today did they know what madness is?
What a thrill!
This is the craziest thing they've ever done!
The gods and god potentials have all been killed.
But there are hundreds of thousands of other powerhouses in Tianqi City who are
ready to go.
At this moment, they all pressed towards Levi Garrison.
They are ready to fight to the end.
Not at all willing to make any moves to back down.
"Kill kill kill!!!"

But against them.
Levi Garrison was happy.
“I’m not going to kill you today! Go away!”
Levi Garrison snorted.
There was a breath all over him.
This breath instantly enveloped the hundreds of thousands of people.
It was as if all the 100,000 mountains were pressing on them.
“Pfft!”
“Pfft!”
“Pfft!”
…
All these hundreds of thousands of strong men couldn’t bear the pressure, and
they fell to the ground one by one, prostrate in front of Levi Garrison.
Hundreds of thousands of people knelt down in front of Levi Garrison.
Everything is so shocking!
How could they stop Levi Garrison’s power?
Levi Garrison is like the sky!
Killing them was a snap, probably easier than stepping on ants.
Levi Garrison is only here to kill the gods and the potential gods.
He doesn’t kill others!
So let him all kneel down, not to provoke him.
Hundreds of thousands of people seemed to have their legs welded to the ground, unable to move at all.
They can only accept their fate…
“Buzzing…”
Divine Tribulation made a trembling sound, suspended in front of Emperor Tianqi
III.
He was scared to pee his pants.
The whole person also woke up.
I have to face the facts in front of me…
More than 900 gods were all beheaded!
Tens of thousands of potential gods have all been wiped out!
Done!x
The Return of the God of War [The

The Apocalypse Empire is completely over!
Totally destroyed!
Gods and seeds are extinct!
From the third in the world to the third last in the world in an instant…
It can be called the worst blow in the history of the Apocalypse Empire!

Levi Garrison looked at him and said lightly: "I did what I said! Killing your
Apocalypse Empire has no gods!"
Everyone: "...".
A few minutes ago, everyone felt that Levi Garrison was talking big.
But now he has done it.

It was easy to do in a few minutes.
It only takes such a short time to drive the Empire of Apocalypse from the altar
to below.
"Pfft!"
"Pfft!"
...
The people of the Apocalypse Empire couldn't bear the pressure of Levi Garrison
and Shen Jie at all.
All fell to their knees one by one.
Conquered!
Completely overwhelmed!
The Apocalypse Empire was defeated by Levi Garrison with one sword and one
sword.
They can't accept it!
If he talks to Levi Garrison again, he can wipe the Apocalypse Empire from this
map.
"You guys are out of luck! The idea hit me on the head!"
"Of course it's your own fault! Why do you have to rob someone else? Can't you
be a good person? Do my resources have anything to do with you?"
...
Hearing Levi Garrison's words, everyone certainly regretted it infinitely.
At this moment they all understood.
Levi Garrison was unusually calm throughout the whole process.
That's not taking them seriously at all.
As a result, the Apocalypse Empire repeatedly persecuted him, who will not kill
you?
It's okay, why are you provoking this big devil?
But how can there be regret medicine in the world?
Something has happened.

The Apocalypse Empire collapsed directly!
The sky is falling!
Seeing Levi Garrison pressing down on a country and all the people surrendering,
the two doctors in the dark also felt their blood boil.
Feel the terrifying power of great power.
Can make anyone bow their heads.
This is really exciting today!
But the Dark Doctor and the Brain of God understand that this is nothing today.
More exciting and crazier is yet to come!
That was when Levi Garrison came to War Bear Country!
The two had the same idea and looked at each other.
Now the outside world is rumored that there are tens of thousands of gods in
Zhanxiong Kingdom.
And it's a conservative amount.
Maybe the number of real gods in War Bear Country is more than imagined.
They hoped that the War Bear Kingdom would have more gods.
For example, be bold and come to 100,000 gods! ! !
Levi Garrison was fun to kill at that time!
expect!
In an instant, the two of them were looking forward to it!
Really looking forward to it!
Hurry up!
Hurry up and let Levi Garrison come to War Bear Country!
They can't wait!
The Return of the God of War [The
Protector] Chapter 3166
e Levi Garrison looked at the people in the Tianqi Empire, and he sneered: "You
guys are robbers, right? Well, I'll be a robber today! I'll grab you too!"
"Let you feel like being robbed!"
The dark doctor was taken aback for a moment, and asked subconsciously: "Ah?
Robber? Us?"
Levi Garrison said: "Of course you can't! What do I call so many people for?"
At this time, the two doctors in the dark suddenly remembered that there were

more than a dozen employment organizations ambushed outside Tianqi City.
It was just too intense to forget them all.
Yes indeed!
Half of the pay is paid!
It is impossible for them to take it for nothing!

Levi Garrison said to the dark doctor: "Call them all in! Just say the mission is
coming! The mission is robbery!"
He looked at the brain of God again: "What about those flying machines that you
prepared in advance?"
The Brain of God immediately said: "It's all arranged! It's all unmanned! I only
need a command, and I will arrive at the fastest speed!"
"Okay, let the flying machines come! So many things are looted, and there must
be tools to bring them back!"
Levi Garrison said.
The two immediately went into action.
When the rest of the Tianqi Empire heard that Levi Garrison was about to rob,
they all went crazy.
Are they going to publicly rob Tianqi City? ? ?
Is this crazy?
Who can believe this thing?
But now it really happened!
They can't change it!
I can only watch Levi Garrison and the others robbery!
Known as the robber empire, they have always been robbers, and they will directly rob anyone they see.
As a result, one day he ended up being robbed.
It's really pathetic.
Apocalypse the Great III and the others clenched their fists tightly.
what! ! !
They are all roaring in their hearts!
But there is no way.
just watch!
wait!
These hiring organizations are going crazy.
What was going on inside, they had no idea at all.

An invisible shield blocked them.
That is the means of the gods, a shield condensed with aura.
They have no way of knowing anything inside.
Just have to wait!
"This is the first time since we came out of the mountain! Our employers are in
danger inside, and we are waiting here? Who is hiring who? Who is protecting
whom?"
someone said.
This is the first time they have taken on such a task.
One by one impatient like ants on a hot pan.
They can't wait to attack Tianqi City directly.
For them, even if they die, they are still thrilled by the sword.
Much better than waiting here.
Waiting half a minute is torture for them!
Not to mention ten or twenty minutes!
Can't wait!
Waited for half an hour!
"It's been half an hour, and there's still nothing inside! Something might have
happened to Levi Garrison!"
"We can't sit still!"
"Go in! The mission has been accepted, and Levi Garrison's safety must be
protected!"
...
After the leaders of the major employment organizations discussed, they were
ready to rush in directly to save people.
At this moment, everyone received an order from the dark doctor——
Let all hired organizations enter Apocalypse City, mission: Come and loot.
"To rob?"
Senseless.
Everyone was dumbfounded when they saw the command.
The Return of the God of War [The
Protector] Chapter 3167
They take on so many tasks.
Received a robbery mission for the first time?
To rob? ? ?
Is there anything wrong?
And if they rob other people, they can understand!

crazy?
Are they dreaming?
Or was the command sent wrong?
It stands to reason that as long as the order came, they would be like crazy, and
immediately ran in.
After all, after waiting for half an hour, they were going crazy.
But now that I received the order, I was dumbfounded.
robbery?
Are you playing big?
Everyone looked at the Doomsday Mercenaries, waiting for their opinions.
Since you've accepted the mission, rush in!"
"What's more, they can still issue orders, not necessarily what's going on!"
"rush!!!"
Hundreds of people from all the hiring organizations attacked, turning into sharp
swords and rushing towards Apocalypse City.
They are ready for an extreme battle.
"Kill in!"
The gods of the doomsday employment organization rushed to the front.
"boom……"
But when the door was opened, it turned out that no one was guarding.
According to this situation, shouldn't it be full of guards?
How easily the door broke open.
Everyone entered the outer city area of Tianqi City.
It turned out that no one had it.
Confuse!
So confused!
Everything is weird!
And the robbery mission sent by Levi Garrison made them even more confused
about what was going on.
"continue!"
Hundreds of people continued to charge, and soon came to the inner city gate of

Tianqi City.
Still unguarded.
They became more and more puzzled.
But still a brain rushed in.
But as they walked along, they seemed hesitant and frightened.
"Come in quickly, it's been a long time for you guys, and you'll be chattering one by one!"
At this time, a voice came impatiently.
Levi Garrison's voice!
Levi Garrison watched this group of people grinding and chirping, and he was about to die of anger.
Such a good time to hurry up and rob.
Why are you so afraid of each and every one?
Isn't it all the horror of licking blood on the edge of a knife?
Afraid of this?
The robbery is over!
When this group of hired organizations came to the inner city, they were shocked.
There are corpses everywhere.
Apparently there had just been a big battle.
Why are all the people who died from the Apocalypse Empire?
It can be easily seen from their armor.
God? ? ?
All the dead are gods? ? ?
Looking at the scattered corpses, they all lost their heads.
But from the residual breath, it can be judged that this is a god!
The dead are gods!
Everywhere!
There are corpses of gods everywhere.
"Ten, twenty, fifty…"
Others began to roughly count.
Some people can see the approximate number at a glance.
Most people can judge it, but they are shocked and unwilling to believe what they see.
Maybe in my heart it's impossible!
Judging from the number, there are tens of thousands of people who fell to the ground.

And the corpses of the gods concentrated in this area are almost thousands.
That means – all the gods of the Apocalypse Empire are here.
But in the form of a corpse…
This shows a big problem – the gods of the Apocalypse Empire are all extinct.
Killed!
The Return of the God of War [The
Protector] Chapter 3168
Not one left!
All fell to the ground here.
So when these hiring organizations saw it for the first time, they didn't believe it
was true.
Everyone stood there stunned.
I don't want to accept this fact!
That is more than 900 gods!
Not Chinese cabbage!
Is it that easy to kill them all?

It's impossible! ! !
There are tens of thousands of other powerful people who fell to the ground.
Although they are not gods, they all have the potential of gods and can become
gods in the future.
All were killed!
In the end what happened?
Why is there such a change in the Apocalypse Empire?
What are they missing?
Who did all this?
The people who gradually reacted turned their attention to the three of Levi
Garrison.
It's just that the three of them were clean, not even a trace of blood, and there
was no sign of a fight at the scene.
Not to mention three people.
So who is it?
What the hell is going on?

It directly killed tens of thousands of gods and potential gods in the Apocalypse
Empire.
So shocking!
No one will believe it!
That is nearly a thousand gods!
What kind of combat power does this have?
But there was no one else there.
The Apocalypse Empire has sealed Apocalypse City.
No one has ever come in.
There are only three outsiders, Levi Garrison.
Is it…
A terrible idea was born in everyone's mind.
Everyone broke out in a cold sweat.
Why was Levi Garrison so calm from beginning to end, and why did he reject them
in the first place…
It turns out that he is not afraid of the Apocalypse Empire!
It turned out that he could kill all the gods of the Apocalypse Empire!
It turns out that he has the strength to destroy the Apocalypse Empire!
…
Got it, got it all.
They even seemed to want to understand some questions – where did Levi Garrison's resources come from.
With the strength of Levi Garrison, he can go to the forbidden area to get it.
Not afraid of any danger at all.
He must follow his own home in the second-level forbidden area, or even the
first-level forbidden area.
At this moment, everyone was enlightened.
In the distance, the other high-level officials of the third level of Emperor Apocalypse were all slumped on the ground in fright, and the whole Apocalypse
City was in a mess.
Especially seeing the hundreds of thousands of people kneeling on both sides,
unable to struggle and angry faces.
They are even more shocking!
Is this all because of Levi Garrison?
One by one was suppressed.
Can't get up at all!

Levi Garrison pulled a group of people who were dazed, and couldn't help shouting: "Why are you all standing there? Why don't you take the task quickly!"
"It's time for me to use you!"
Levi Garrison's voice woke everyone up.
They finally got the task.
All of them stood in front of Levi Garrison, waiting for the mission.
"Start the robbery from now on! Rob it for me in Tianqi City, and steal all the
spiritual energy crystals or treasures from heaven and earth!"
"If someone stops you, just kill it! I said it!"
Levi Garrison ordered.
For some reason, the members of these hiring organizations got excited.
And this task is too weird.
Among them, there is the strongest employment organization.
"Steal him!!!"
I don't know who shouted, this group of people started to loot in Tianqi City like
crazy.
This is the strangest task they've ever undertaken!
It's the safest mission ever!
Because everyone is crushed.
Don't dare to resist!
But robbery seems a bit addicting!
It feels so cool, doesn't it?
Next, these dozen or so hired organizations "robbed" everywhere in Apocalypse
City.
Of course not everything.
Only grab the treasures of heaven and earth and aura crystals.
Only grab the treasures that belong to this era.
bar?
Can't stop it at all!
Those who have the strength to stop them are all kneeling on the ground!
The Return of the God of War [The

Time has passed so long.
But what happened inside.
No one outside knows.
The people like War Bear Country and Hydra are anxious.
Like ants on a hot pan…
What the hell is going on?

Did Levi Garrison tell the secret?

…
Resources are so important in this era.
There are resources to rise.
And there are more and more ways of man-made gods.
Some technologies are available.
It can maximize the absorption of spiritual energy by the human body and become a god.
How can they not be in a hurry? ? ?
“Look! What is that?”
at this time.
The people who were paying attention outside Apocalypse City saw the aircraft
coming to Apocalypse City.
“This is Levi Garrison’s aircraft! How did you come to Tianqi City?”
“One, two, three… ten aircraft…”
Everyone saw ten aircraft entering Tianqi City one by one.
Shocked.
Moreover, the ten aircraft are very large, and they can hold a lot of resources at a
glance.
“This, this… This is Levi Garrison’s compromise, sending resources to the Tianqi
Empire!”
“Sure! Why else would ten aircraft come here? They must be here to transport
resources!”
“It’s over! Levi Garrison has handed over all the resources to the Tianqi Empire!”
“Then he must have told all the secrets of the resources to the Apocalypse Empire!”
…
All agreed so.
This is definitely a thunderous message for the major forces!
War Bear Nation only hates themselves for being too slow.
The only way to stop it now is to enter the Apocalypse Empire.
But that’s war!
No one will touch these easily!

Daxia's group of moral kidnappings also burst with anger.
Just looking at Levi Garrison so helplessly, handing over all this to others.
None of this matters to the organization of the revenge Hydra.
As long as these resources are less than Hydra and War Bear Country, it's fine.
It doesn't matter to anyone else!
The point is that Levi Garrison doesn't have it.
Therefore, they are extremely excited.
However, the reality was very different from what they thought.
These ten aircraft were basically used for robbery.
Not to send resources.
And the aircraft is empty, where do the resources come from.
Of course there is a party that knows what's going on.
That is the Black Dragon Country.
They suffered at the hands of Levi Garrison.
You can roughly guess what happened.
The only thing they are not sure about is whether Levi Garrison can fight against
nearly a thousand gods in the Apocalypse Empire.
Now that the aircraft are coming, they are sure that the Apocalypse Empire is
defeated.
I'm also glad that they didn't gamble at that time, they would definitely lose if
they gambled.
Seeing that the Tianqi Empire was so miserable, Heilongguo laughed.
Their losses are great.
But the gods of the Apocalypse Empire should all be destroyed.
With the entry of the aircraft, it also means that it is all over.
The "robbery" of the hiring organizations has also come to an end.
Now they move the looted resources into the aircraft little by little.
"Deduct your remuneration yourself! In addition, take a little more yourself!"
Levi Garrison said.
The Return of the God of War [The
Protector] Chapter 3170
In fact, he doesn't need these resources at all.
It was just that the Apocalypse Empire provoked him, and he wanted to rob.
Do not give them any possibility of becoming gods.
However, Levi Garrison's words made these employment organizations all excited to death.

Nothing to do, so much white stuff? ? ?
"Mr. Ye, my doomsday mercenary army owes you a mission! Next time you need it,
just call us! No revenge!"
"The same is true for our Holy Gold Mercenary Corps!"
"So is our Black Storm Mercenary Corps!"
"And the same with our Hell's Angels!"

...
This group of employment organizations didn't know how to thank Levi Garrison,
so they could only express their kindness in this way.
But after speaking, they regret a little.
Because…because Levi Garrison doesn't seem to need it at all?
With his strength, who can stop it.
Where else do you need to hire them?
This time, they were hired only because they wanted to be coolies.
But Levi Garrison nodded: "Okay, no problem, I'll call you again when I have a
chance!"
This puts everyone at ease.
Continue to move resources one by one.
In the end, all the resources of the Apocalypse Empire were robbed.
The Apocalypse Empire deserves to be the third-ranked force in the world list,
and the resources are not comparable to the Black Dragon Empire.
The resources are half of what Levi Garrison has.
See how terrifying it is!
In the end, ten aircraft were fully loaded and left.
The hiring organizations also got their own pay and left one by one.
As for Levi Garrison, Emperor Tianqi III personally escorted him out.
Followed by a crowd of people.
Because everyone can't understand Levi Garrison's temper.
If he is in a bad mood, will he destroy the entire Apocalypse Empire?
So they didn't dare to have any hostility, they could only send Levi Garrison and
his party out of Tianqi City with a smile.
The people watching outside watched as Emperor Tianqi III personally sent the
three of Levi Garrison out.
It is more and more certain that Levi Garrison has told the Apocalypse Empire all

the resource secrets.
It must have been the secret of the resources that made Emperor Tianqi smile so
brilliantly.
If Emperor Apocalypse III knew what everyone was thinking, he would probably
die of anger.
Can't you see that Lao Tzu is forcing a smile? ? ?
Is this Laozi smiling brightly?
your mom! ! !
My Apocalypse Empire is almost gone, which one of your eyes can see that I am
smiling happily.
He is sending a bunch of robbers.
Levi Garrison and the others left.
The ten automated aircraft flew directly across the sky and disappeared in their
tracks.
In the end, all these resources were transported to the deep mountains near the
Apocalypse Empire.
This is also a first-level forbidden area, which was explored by Levi Garrison.
If these resources are placed in the first-level forbidden area, no one will move
them.
Among these resources, Ye Xuan selected medicinal materials that might be
useful to Levilia and asked the Dark Doctor to study them.
At this time, the team entrusted by Doctor Dark was actually researching Levilia's
poison and using technology to study it.
Especially on the side of the Sky Shield Bureau.
War Eagle Country.
In the highest meeting room of the Sky Shield Bureau.
Only a few people.
Among them are the head of the game Smith and senior Nielsen, and two more.
It is an existence with a higher identity than the two Smiths.
One is the decision-maker of the War Eagle Nation, and the other is the existence
behind the War Eagle Nation.

“There was a message over there just now…”
one of them said.
“What’s wrong?”
Smith stared at him closely.
“They have studied the poison in Levi Garrison’s daughter, and it can be solved!”
said the man.
Smith and Nelson looked at each other and smiled immediately: “Then let’s notify
Levi Garrison immediately? He now has quite a terrifying resource! Let’s take this
as a request and ask him for resources!”
In fact, the two of them have been jealous of Levi Garrison’s resources recently,
and have long wanted to intervene.
Now the opportunity has come, how can we not hurry?
What’s more, the people behind them can directly solve Levilia’s poison.
Isn’t that what Levi Garrison can give you what you want?
Others can get so many benefits just by trying methods or medicinal herbs.
“Who said to detoxify Levi Garrison’s daughter? What’s our business?”
It was just that the man said suddenly.
The Return of the God of War [The
Protector] Chapter 3171
Stunned Smith and Nelson.
Showing an unbelievable look.
“Resources… Levi Garrison has terrifying resources! We can exchange all Levi
Garrison’s resources and the secret of how he got the resources. We can detoxify
his daughter, and he will definitely agree to exchange all his resources!”
Smith said immediately.
It’s just that the man smiled and said, “We don’t care about his resources! If he
has, we already have it! It’s richer and richer than him! If he doesn’t have it, we
already have it!”
“hiss!!!”
As soon as the words came out.
Smith and Nelson gasped.
This……

This is too scary!

There is so much confidence to say these words!
Now gods have appeared in all countries, and it is like this.
Can the forces behind it be like this?
Incredible!
There are forces behind War Eagle Nation that have been supporting them all the
time.
Since Smith came into contact with the high-level positions of the Sky Shield
Bureau, he knew that there were forces behind the War Eagle Nation.
It is said that the War Eagle Kingdom was behind it when it was first established.
It's just been in the background all the time.
It's just scary that no matter what era it has gone through, the forces behind it
are always above the world.
The times have changed again and again, and even the environment of this aura
recovery has changed dramatically.
As a result, this force is still above the world.
As soon as this sentence comes out.
They're going crazy.
They are so calm, they don't take everything in their eyes at all.
But think about it, Levi Garrison has been looking for a solution for so long, but
he has not found a way to detoxify.
And this organization has a way to detox.
Just think about how amazing it is.
"But I think I can cooperate with Levi Garrison. Who would dislike this kind of
resource?"
Smith smiled.
That's just your narrow thinking, your vision is just like this!"
"Tell you the truth! We are guarding a super spiritual vein no less than that under
the Antarctic glacier!"
The man said lightly.
"what???"
Hearing this, Smith and the others are going crazy.
It turned out that the forces behind the War Eagle Nation also depended on a
super spiritual vein to survive.

No one thought of this! ! !
At the same time, everyone also wants to understand why the forces behind it
are so terrifying.
The explosion of this super spiritual vein under the Antarctic glacier is enough to
change the entire world.
The original world has been transformed into this.
How many "resources" have appeared around the world, and how many gods
have been created.
However, the forces behind the War Eagle Nation have a super spiritual vein no
less than the Antarctic glaciers.
Therefore, Levi Garrison's resources are really nothing.
Not a drop in the bucket.
They don't care at all.
There will be no such cheap ideas as Smith.
Not necessary.
It's not worth the effort.
No matter how rich your Levi Garrison resources are, the resources you get are
just derivatives of this super spiritual vein under the Antarctic glacier.
To them, it's no secret at all.
…
Shocked!
Shocking for Smith and Nelson!
Before, they had no concept of the forces behind the War Eagle Nation.
There is no reference to estimate their strength.
Just know it's powerful.
In particular, the advanced technology of War Eagle Nation is all to support them.
But everything is vague, there is no definite concept.
Now there is a reference object – super spiritual vein.
Only then did they understand how powerful the forces behind this were…
That is absolutely terrifying to the extreme!
It can detoxify this piece, and the powerful strength is evident.
Although it is detoxification, it is a comprehensive manifestation of multi-faceted strength.
The Sky Shield Bureau has only analyzed several toxins, and others can already
solve them.

This difference is 18,000 miles.
“Levi Garrison, you never thought that your daughter’s poison could be solved,
right?”
Smith laughed.
The Return of the God of War [The
Protector] Chapter 3172
Levi Garrison was naturally unexpected.
He is mourning this now.
Where is hope?
can not see it!
Although Levilia was temporarily blocked by the ice bed, there is no way to
unlock it.
Originally, my hope was placed on the town magician of Daxia.
Jiao Tianyu and the others did not search day and night, but now there is no clue
at all.
Did I see it wrong in the first place, and it doesn’t exist at all?
Where can these people hide?

Anxious, he asked the dark doctor to release a message to the world – the forces
that deceived him of resources quickly surrendered and returned the resources.
Otherwise, let him find out, and he will kill everyone.
Soon the announcement spread all over the world.
It’s just that everyone started laughing at Levi Garrison.
I just suffered a loss from the Apocalypse Empire, and now I want to threaten the
forces that lied to him.
It’s just a fool’s dream!
The organization of the revenge Hydra also received this message.
Now their team is getting stronger and stronger.
Especially with these resources that have been deceived, their overall strength
can be much stronger.
Seeing the announcement from Levi Garrison, they all laughed.
“Levi Garrison, we not only deceived your resources, we also destroyed the blood
exchange record! We have also stopped it time and time again!”

“Not only before, but also in the future! As long as you don’t seek revenge on
Hydra, we will continue!”
“You still want us to go out and surrender? You think too much! We will only
continue to lie to you!”
…
The organization of the revenge Hydra is extremely arrogant.
War Bear Country after negotiation.
Decided to send messengers to the Apocalypse Empire to talk.
Let’s talk about whether their secret of obtaining Levi Garrison’s resources can
be divided equally.
Or get a piece of the pie.
Outside Tianqi City.
The Titan God of War came as a representative.
A terrifying aura enveloped the entire Apocalypse City.
So strong! This is the strongest among the gods, right? Before our more than 900
gods were not so strong!”
Apocalypse the Great III sighed.
And it’s not just the Titan God of War.
There are also eight gods, who are also terrifyingly strong.
Sure enough, the gods are also graded!
The Titan God of War is that the spiritual energy in the body is almost used to the
extreme.
Finally, Emperor Apocalypse III met with the Titan God of War.
The Titan War God observed it and said with a smile: “Emperor Apocalypse, you
are still low-key, and there is no god around you!”
“Yes, even the entire Apocalypse City has no god! Where have the nearly a
thousand gods of your Apocalypse Empire gone?”
“Not only that, but there are not a single person who is close to the gods and the
gods!”
The Titan God of War was surprised after observing it.
They looked at each other, their first thought—
That is, all the gods of the Apocalypse Empire should go out on a mission.
They felt that this task was inseparable from the secret of Levi Garrison’s resources.

“This…they’re not around for the time being…”
Emperor Tianqi broke out in cold sweat.
If you let others know, it is very likely that the Apocalypse Empire will be swallowed directly.
How dare he say that.
Everyone else was shivering.
Just after all the gods were wiped out, the strongest War Bear Kingdom sent someone.
Can this be stressful?
But in the eyes of the Titan God of War, their nervous appearance was for fear that they would question Levi Garrison’s secrets of resources.
After all, they will also be nervous when they think in a different position.
Titan War God smiled and said: “We are here for nothing else. We want to ask the secret of Levi Garrison’s resources! And the question of how the resources will be developed in the future!”
“Yes, I think with the appetite of the Apocalypse Empire, Levi Garrison’s resources should not be eaten in one bite, right? We want to provide a little help!”
The messenger of the War Bear Kingdom speaks loudly.
In fact, it is just running to divide resources.
If I say the purpose directly, it is the secret that I want Levi Garrison’s resources.
However, they are hypocritical and dare not directly express their purpose.
“This……”
Apocalypse the Great III had expected it.
Talking about this topic is nerve-wracking.
“Could it be that Emperor Apocalypse wants to take it all by himself and doesn’t want to share it?”
The Titan God of War smiled.
Apocalypse the Great III and the high-level executives of the Apocalypse Empire are running at high speed at this moment.
Now, on this issue, tough rejection is not enough. In case Zhanxiong Nation is directly angry and starts a war, will they take the lead?

But if they promised them, how would they know the secrets of resources? wrong!
They know that Levi Garrison's resources are secret.
Levi Garrison said that his resources come from the first-level forbidden area and
the second-level forbidden area.
But this is only for Levi Garrison.
He can get so many resources from the first-level forbidden area.
Can anyone else?
If the secret is told, who will believe it?
People will only think that they are playing fools!
"Aren't you going to hide it?"
Titan God of War asked.
"We have all seen Levi Garrison's ten aircraft transporting resources! As for the
secret of resources, will you let Levi Garrison leave?"
Titan God of War continued to ask.
Apocalypse the Great III smiled and said: "I... I can say that we didn't get Levi
Garrison's resources at all! And the secret of his resources was obtained by him in
the first-level forbidden land!"
This is his tentative statement.
But as soon as it came out.
The Return of the God of War [The
Protector] Chapter 3173
People don't believe it at all.
Titan War God sneered: "This is a bit insulting, isn't it? You don't get Levi
Garrison's resources? Who believe it!"
"That's right! There are a lot of resources in the first-level forbidden area, but
how can you get so many beasts?"
"How could Levi Garrison explore the first-level forbidden area alone?"
"Who are you coaxing? I think the Apocalypse Empire doesn't want to say it at all!
Want to swallow it all by itself? Then it depends on whether we agree or not?"
The Titan God of War suddenly raised his tone, and the atmosphere was tense.
Suddenly, Emperor Tianqi III was angry: "Yes! So what?"

“It is said that your War Bear Country is the number one in the world, but I am not
afraid of the Apocalypse Empire!”
“Come on, grab us! Let’s go to war! Who’s afraid of whom?”
Join Telegram Group For Fast update
The others also understood, and they said angrily, “Yes, that’s right! Let’s fight!
Who is afraid of whom?”
If they were obedient, they would be repeatedly persecuted by the Titans.
I’m afraid it will be exposed.
It has to be tough, and it will stifle them.
It is also more in line with the warlike style of the Apocalypse Empire.
Sure enough, the expressions of the Titan God of War changed, and they looked
at them suspiciously.
If so, there is no problem.
“If that’s the case, then we’ll leave!”
With this attitude, it is not easy for the Titans and Gods of War to continue to
persecute them.
To force it again would only be a fight.
After going back.
“There is something wrong with the Apocalypse Empire! The entire Apocalypse
City is dead, as if it has just experienced a mass destruction! All the gods and the
potential of the gods are also absent. It’s strange!”
“But their attitude is very firm. They refuse to tell the secret of resources, let
alone share it with others! If we force it, we may start a war!”
The Titan God of War reported the situation to the senior management.
“Then send a large number of people to keep an eye on every move of the Apocalypse Empire!”
“I think they will definitely take action after they get the secret of Levi Garrison’s
resources! As long as we keep an eye on their actions, we will naturally know
where the resources come from…”
said a senior.
Everyone applauded in unison: “This move takes seconds!”
So they didn’t have other ideas, they just stared at the Apocalypse Empire.
Next, because he knew that the Apocalypse Empire had swallowed all Levi

Garrison's resources.
So no one took the bounty at all.
Levi Garrison fell into contemplation as he looked at the aura crystals and heavenly treasures piled up in front of him.
Who said it was swallowed by the Apocalypse Empire?
Is this not clear more?
But no one believes what Levi Garrison says now!
Now he has a big head too.
I've tried every possible way, but it doesn't work.
Where is the way out for Levilia?
But at this time, Jiao Tianyu and the others sent a message from Daxia.
Levi Garrison thought at first that he had found the Zhen Mosi.
The result is not!
Jiao Tianyu and the others found a genius doctor in Daxia.
It's just that he has always been very low-key, and he is just an ordinary merchant
in the secular world.
But it was also after the recent aura recovery that the genius doctor finally couldn't hold back, and went to the first-level forbidden area to pick medicinal
herbs and was exposed.
His medical skills have reached the level of the living dead, flesh and bones.
Famous for a while!
The most exaggerated thing is that he can actually improve a person's physique
and allow the human body to absorb spiritual energy to the greatest extent.
If there is an aura crystal, then he can create a god.
Experiments have been done, and two gods have been born directly.
This matter has been known to many people in Daxia.
Although Tiance Mansion has repeatedly blocked the information, it still cannot
be suppressed.
It is only a matter of time before this genius doctor becomes famous all over the
world.
The Return of the God of War [The
Protector] Chapter 3174
Probably the way he can create a god is more effective and simpler than Hydra
and others.

His awesomeness is no longer enough to describe in words.
In fact, this genius doctor was discovered early in the morning, but some people
deliberately concealed and blocked the information.
Jiao Tianyu and the others didn't know it until now.
Jiao Tianyu's message just came, and the message of Tiance Shenshuai also came.
He also just confirmed this matter, and the Tiance Mansion also began to suppress information.
Levi Garrison is not surprised that there is such a thing as a genius doctor in Daxia,
but more excited.
In this way, wouldn't Levilia's poison be saved?
"Immediately, immediately, back to Daxia!!!"
Join Telegram Group For Fast update
Levi Garrison shouted.
Because of the recovery of spiritual energy, various hidden characters or forces
appeared.
All this is normal.
With such a strong spiritual energy, those forces that rely on spiritual energy can
easily appear.
Even a lot of pressure is basically hidden in the city.
They even knew in advance what Reiki was.
Super spiritual veins, these are all familiar to them in advance.
It is said that when the aura storm swept, not all the people of Daxia hid in the
safe island.
A lot of people disappeared when they moved the moment before.
Or simply refused to go to the safe island.
But these people all survived.
…
Some of them must have a problem.
Some simply know the aura in advance.
Some are not afraid of the aura storm swept away…
For example, the genius doctor and his family did not escape at that time.
However, they also did not receive Reiki radiation and baptism, which was a
problem.
It shows that he can confidently deal with this disaster.
There are too many strange people hidden in the mundane world.

Many may be some super characters, after getting tired of fighting, they are
willing to be ordinary people for a lifetime.
They won't reveal their identities unless they have to.
Then there is the unintentional exposure.
Just like the genius doctor this time, his identity was revealed unintentionally.
This genius doctor was actually in the Lingnan area.
It used to be a herbal tea shop.
However, his herbal tea is relatively famous on the street.
Because it works well.
This is probably under his deliberate control, otherwise his herbal tea would be a
panacea.
Famous early!
It was discovered by the relevant forces!
At this time, Zoey Lopez and his party who received the message heard that such
a genius doctor existed.
I came to Lingnan one step earlier.
When Levi Garrison was frantically looking for antidote all over the world, Zoey
Lopez was not idle either. Now that he heard the genius doctor, it was like crazy.
The genius doctor Yan Zangsheng was still in his own herbal tea shop.
But now he is being offered.
People come to him every day.
There are all kinds of people.
For the sake of safety, Tiance Mansion also specially sent people to protect it.
As far as he can create a god, he is Daxia's future hope.
Since Yan Zangsheng exposed his identity as a genius doctor, he was not idle.
He treats all those who come to the door for treatment.
Now that I have seen so many diseases, there is not one that he cannot cure.
His medical skills are more terrifying than everyone imagined!
Zoey Lopez and his party lined up outside.
After more than two hours of queuing, it finally arrived.
"Who sees the doctor?"
Yan Zangsheng asked without raising his head.
From the outside, he looked like a middle-aged man.

The breath is ordinary, the appearance is mediocre.
The kind that you won't look at a second time in a crowd.
"I'm queuing up for my daughter, she's not here yet… just…"
Zoey Lopez wanted to introduce Levilia's situation because he was in a hurry.
"No one is here, just get out of the way! Go and wait! Come back when your
daughter comes!"
Yan Zangsheng said coldly.
Zoey Lopez could only stand obediently and wait.
Jiao Tianyu and the others had already told Zoey Lopez that Levi Garrison and
the others were on their way.
Don't look at Yan Zangsheng's coldness, but when dealing with patients, he is
very patient.
Next, they all looked at Zoey Lopez.
Yan Zangsheng's medical skills were terrifying.
What kind of incurable diseases can be cured!
The Return of the God of War [The
Protector] Chapter 3175
Another child devoured a poisonous plant by mistakenly entering a forbidden
area.
Resurrection of spiritual energy can breed natural treasures, and it can also
breed this poisonous plant, and the toxicity is extremely terrifying.
When Levi Garrison was exploring the forbidden area before, he encountered
many poisonous "natural treasures".
There is no cure for the poison in this child.
As a result, Yan Zangsheng detoxified him abruptly.
see here.
Zoey Lopez and the others felt more and more hopeful.
This kind of poison can be solved, so Levilia's poison is also certain.
Most likely it can be solved!
Join Telegram Group For Fast update
And he didn't use any herbs for detoxification, he completely relied on a handful
of silver needles to detoxify.
The toxin is forced out with a wonderful needle technique.
Simply mysterious.

This surprised everyone.
“Can the more powerful poison swallow doctor also solve it?”
someone asked.
“Well, I still have a magic medicine that can cure hundreds of poisons! It’s
recorded in the Poison Book!”
Yan Zangsheng couldn’t help saying.
“Ah? A magic medicine? It can cure hundreds of poisons? Is it so scary?”
Everyone asked in disbelief.
I’ve been hearing about detoxification.
Especially after Levilia was poisoned during this period, everyone heard more.
But can it really detoxify?
Everyone can’t believe it!
While treating the disease, Yan Zangsheng said, “Do you know about the 100,000-year-old snow lotus passed down by a mysterious person two days ago?”
“I know! That’s too terrifying! If it really exists, any poison can be removed!”
“Yes, the 100,000-year-old Xuelian is unimaginable!”
…
Everyone was amazed.
Yan Zangsheng smiled and said: “This magical medicine in my hand is estimated
to have more than half of the medicinal effect of 100,000-year-old snow lotus! It
is easy to solve the ten thousand poison, even if it is…”
But halfway through, Yan Zangsheng suddenly remembered something.
It stopped abruptly.
And a strange color flashed across his face.
He sighed to himself.
But no one noticed his change at all.
Everyone was immersed in the shock of Yan Zangsheng owning a magical medicine.
Since Levi Garrison was deceived, everyone thought that 100,000 Years Snow
Lotus was a fantasy.
I never thought it would actually exist!
If someone else said it, you may not believe it!
But this is what the doctor said!
Everyone believes it!
Everyone admired Yan Zangsheng more and more.

heard here.
Zoey Lopez jumped up happily.
Not only is there such a good medical skill, but there is also a magical medicine
comparable to the 100,000-year-old snow lotus.
What poison can't be cured?
Levilia's poison is the most powerful!
And judging from her observations during this period of time, Yan Zangsheng
could cure Levilia's poison with this medical skill alone.
You can't use this magic medicine at all!
Not only Zoey Lopez was excited.
Everyone else is also looking forward to it.
This is great!
Levilia's poison can be solved!
The price of this magical medicine must be very high. Sleepy Jiao Tianyu and the
others know how much resources Levi Garrison has.
In any case, Levi Garrison can ask Yan Zangsheng to detoxify Levilia.
Yan Zangsheng looked at the excited crowd and said with a smile: "But everyone,
please don't use this magic medicine! It was reserved for myself to save my life!
It's too precious! And no one knows where it is!"
"This magical medicine was recorded in the second half of the Poison Classic…Even if you meet, you don't know it…"
"Of course!"
"And with your medical skills, we can't use this magic medicine at all!"
"By the way, what is the Poison Sutra?"
…
The crowd laughed.
Waited a while longer.
Yan Zangsheng demonstrated some heaven-defying medical skills again, which
attracted many amazements.
Their confidence in plum dyeing is even more abundant.
After some waiting.
Levi Garrison and the others finally came.
Zoey Lopez was about to cry.
"Why did you come? Hurry up! We've been waiting for a long time!"
Zoey Lopez urged.

Levi Garrison hurriedly carried Levilia off the ice bed and trot along with Zoey
Lopez.
“Divine Doctor, I just queued up, my daughter is here! As you said, come directly
to treat the disease!”
Zoey Lopez ran to Yan Zangsheng and said.
“What happened to your daughter?”
Yan Zangsheng asked.
The Return of the God of War [The
Protector] Chapter 3176
“My daughter was poisoned, and she was poisoned by the so-called strongest
poison! There are more than 80 kinds of the strongest toxins!”
“Ask a genius doctor to detoxify my daughter, I, Levi Garrison, will agree to any
conditions!”
Levi Garrison said, while holding Levilia to Yan Zangsheng.
“Levi Garrison, right? Sorry! I won’t detoxify your daughter!”
Yan Zangsheng raised his head slowly, glanced at the anxious Levi Garrison and
said.
The words are not surprising and die endlessly.
When Yan Zangsheng said this, everyone was stunned.
As for Levi Garrison and Zoey Lopez, they stiffened on the spot after hearing this.
Levi Garrison and his party stood still, as if they were frozen directly.
Join Telegram Group For Fast update
Even they feel that their ears are wrong.
The other people standing were also surprised.
This is the first person Yan Zangsheng refused!
It’s been several days.
Yan Zangsheng has never rejected a patient!
He will treat anyone.
Never reject anyone.
But he actually rejected Levi Garrison…
This is what no one thought of!
Can’t figure it out!
Why?
This makes no sense!
The one who can’t figure it out the most is probably Levi Garrison.
Why not detoxify your daughter?

Why?
And this genius doctor looked at himself and said it directly!
As if it wasn't an instant decision.
It was already arranged!
But Levi Garrison was very puzzled.
Looking at Yan Zangsheng's face, he tried to recall the past years, whether he
was in his life? ? ?
But Levi Garrison wants to break his head, and he doesn't know Yan Zangsheng at
all?
It was definitely the first time I met him!
There has never been any intersection before, never met at all!
Not to mention what hatred he has with himself!
Why didn't he detoxify his daughter?
Zoey Lopez made them even more stupid.
After waiting for Levi Garrison for a long time, in the end, the genius doctor did
not detoxify Levilia at all.
what's the problem?
Yan Zangsheng looked at Zoey Lopez and said, "If I knew you were Levi Garrison's
wife, I wouldn't let you line up!"
"You all go back! I will not detoxify your daughter!"
Yan Zangsheng's tone was firm, Zoey Lopez was shocked, and she hurriedly
asked.
It's just that Yan Zangsheng said coldly:" "You don't ask why? I don't want to
detoxify your daughter! Your daughter's poisoning has nothing to do with me!
That's all! "
shocked!
Everyone around was dumbfounded.
Yan Zangsheng has always been kind.
Such resoluteness, such terror has never existed!
Zoey Lopez's words were directly in his throat, and his body trembled, unable to
utter a word.
Levi Garrison looked at Yan Zangsheng and asked, "Mr. Divine Doctor, have we
met before?"

“No!”
Yan Zangsheng shook his head.
“Yes, then we have never met! If we don’t know each other at all, there is no
hatred, right?”
Levi Garrison continued to ask.
“Well, you and I have no hatred!”
Yan Zangsheng nodded.
Levi Garrison pursed his lips: “The genius doctor, I should have no hatred with the
people you know, relatives and friends, right? I shouldn’t have done anything to
hurt them, right?”
Levi Garrison guessed that he might have hurt his relatives and friends.
After all, he has killed many, many people over the years.
Not necessarily on the muzzle.
But Yan Zang said coldly: “No! You have no hatred with me! You have no hatred
with anyone I know! Don’t think about it! We don’t have any intersection at all!”
“Then why don’t you detoxify my daughter? You can do whatever you want! As
long as you ask for it, I’ll do it right away!”
Levi Garrison asked.
“It has nothing to do with this! Don’t ask! I won’t detoxify your daughter anyway!
Please be smart!”
Yan Zangsheng directly refused.
However, his eyes glanced at Levilia secretly.
“what???”
Levi Garrison and the others were even more puzzled.
Why not detoxify Levilia?
There is no reason! ! !
This is very confusing!
The Return of the God of War [The
Protector] Chapter 3177
“Don’t think about it, don’t ask! I won’t detoxify your daughter! Even if you use
all your means, I won’t! Even if you kill me, I won’t detoxify your daughter!”
Decided!

No one would have thought that Yan Zangsheng would be so cruel to refuse! ! !
Don't give Levi Garrison the slightest leeway!
As long as he is Levi Garrison's daughter, it is impossible for him to detoxify! ,
And it's so heartless!
No matter what conditions Levi Garrison puts forward, threatens him, or even
kills him, he will not detoxify Levilia!
has a problem!
Absolutely wrong!

Anyone can be cured!
Why can't you do it yourself?
This is clearly aimed at Levi Garrison!
Someone doesn't want their daughter to detox!
Looking at Yan Zangsheng's appearance, it is obvious that there is something
unspeakable!
There must be someone behind Yan Zangsheng!
He must have received some kind of threat or had to promise the mysterious man
because of something, not to detoxify Levilia!
It was arranged early in the morning!
After the other party knew that the genius doctor appeared, Levi Garrison would
definitely find him to detoxify Levilia.
Therefore, it was arranged one step in advance so that Yan Zangsheng would not
detoxify Levilia.
Levi Garrison looked at Yan Zangsheng with a complicated expression.
Never thought this would be the case.
Zoey Lopez was in a hurry.
It's hard to come across such a powerful doctor, how can you let it go?
They all knelt down to Yan Zangsheng immediately.
Ask him to rescue Levilia.
It's just that Yan Zangsheng said one step ahead: "Kneeling down is useless! I said
that if you don't detoxify, you won't detoxify! Hurry up and disappear from my
eyes!!!"
Yan Zangsheng was angry and roared at Zoey Lopez and others.

Levi Garrison looked at him and said, "Tell me what difficulties you have! I will
help you solve them! Or I will find what you need! There are as many resources as
you want, and I will satisfy you with whatever you want!"
Levi Garrison looked serious.
He guessed that Yan Zangsheng was threatened or had a handle.
As long as he speaks out, Levi Garrison will help him solve it.
But Yan Zangsheng glared at Levi Garrison and said with a sneer: "Sorry, I don't
have any difficulties! I don't want anything from you! I just don't want to treat
the person you are related to! Hurry up! I will do whatever you want. I won't
detoxify your daughter!"
"Come on! Next!"
Yan Zangsheng continued to see the next patient.
Ignore Levi Garrison and the others.
Levi Garrison and the others were hanging aside.
Don't speak, don't leave.
At this time, Yan Zangsheng suddenly raised his head and said, "I can detoxify
your daughter's poison! But I just won't detoxify your daughter!"
irritating! ! !
Not to detoxify you!
I'll stab you too!
No one would believe that Yan Zangsheng could get rid of Levilia's poison!
Judging from the series of performances just now, he was determined not to
detoxify Levi Garrison's daughter.
It's even more disgusting to Levi Garrison.
Absolutely someone behind him wants to embarrass himself!
I don't want Levilia to detoxify!
Levi Garrison has confirmed it!
Is it a Hydra? ? ?
Or the mysterious force that destroyed the blood exchange record
However, the genius doctor stepped on a small scale in Daxia, and outsiders
should not know it.
Could it be that someone in Daxia wants to target him?
After all, there were so many moral kidnappings before!

But it is also possible to leak out.
Hydra's information is well-informed.
But this is too fast!
The magician's front feet were exposed, and some people on the back feet arranged not to detoxify Levilia.
good!
very good!
Levi Garrison didn't want to give up this genius doctor!
He is 100% sure that this guy can detoxify Levilia!
Don't look at his calm surface, in fact, a volcano has erupted inside.
As long as he found hope, he vowed to detoxify Levilia.
Hope is in sight now.
But people just don't give treatment.
What can be done?
For a while, I was really stunned.
what to do?
Shouldn't you just do it directly? ? ?
At this time, Zoey Lopez thought of something, and couldn't help saying: "Mr.
Magician, we can understand that you don't detoxify! Then you won't detoxify!
But don't you have a magic medicine that is comparable to a hundred thousand
years of snow lotus? I hope you can sell it to us! Whatever We promise the price!"
The Return of the God of War [The
Protector] Chapter 3178
This shouldn't affect your principles, right? It's not for you to detoxify! It's just
for you to sell the magic medicine to us! You can bear any price! As long as you
say it!"
Zoey Lopez said so.
Levi Garrison also reacted immediately.
There is actually a magical medicine comparable to a hundred thousand years of
snow lotus.
This is also a great hope!
Levi Garrison also immediately said: "And this magic medicine? Mr. Magician, can
you sell this? What conditions do you want or what do you want to do? I can do

it!”
Levi Garrison is really qualified to say these words.
With his current strength, except for the stars in the sky, he couldn’t take it down.
He can do anything else!

“Yes! Mr. Divine Doctor, sell us the magic medicine! It does not violate your
principles!”
…
Others also spoke up.
This made Yan Zangsheng stunned for a moment.
Obviously he didn’t expect Zoey Lopez to say this.
This was beyond his expectation.
It’s just that Yan Zangsheng sighed: “Impossible! I have been hiding this magical
medicine for decades! This is what I saved for my own life! It is impossible to take
it out! It is impossible to sell it to Levi Garrison!”
Seemingly thinking of something, Yan Zangsheng looked at the crowd and shouted, “I won’t sell this magical medicine! I won’t sell it to anyone! No one
knows where it is!”
“Don’t think of magic medicine!”
Attitude remains firm!
As long as he hears Levi Garrison’s name, he will definitely not react.
Levi Garrison’s face changed and he said, “Mr. Magician, I beg you! I really want to
save my daughter! I have tried everything I should! There is really no way! Now
only you can detoxify!”
“You can ask me to do anything! I can be a cow or a horse! As long as you mention
it, I will do anything! You can call me dead!”
“I just ask you to save my daughter, she is still young, I don’t want to see her have
an accident!”
…
shocked.
Zoey Lopez and Doctor Dark were also stunned.
It was the first time they saw Levi Garrison go to beg others.
Still begging!

Not much!
It seems that Levi Garrison has nothing to do now.
"If you have any problem, tell me, and I will help you solve it! I know you have
something to hide! As long as you say it… I…"
"roll!!!"
It's just that Levi Garrison's words were just halfway through when Yan Zangsheng roared angrily.
"Levi Garrison, leave quickly! I tell you! I won't detoxify your daughter! No matter
what you do, you can't do it! You should die!"
"Two ways for you – either kill me or let me go!"
"In short, I will not detoxify your daughter!!!"
Shocked!
Everyone was shocked!
Is Yan Zangsheng so crazy? ? ?
Levi Garrison has a deep hatred with him, right?
Otherwise, how can it be done so well?
It's all just incredible.
In this case, Levi Garrison and the others could not continue to stay.
Just leave.
Going further, Yan Zangsheng was so emotional that he might even commit
suicide.
Levi Garrison can see it.
This Yan Zangsheng is determined, even if he dies, he will not detoxify Levilia.
No matter what Levi Garrison does, it won't work.
The point is, he has no way of knowing why.
Why did Yan Zang refuse to detoxify Levilia in his life and death…
You can only leave temporarily, and the reason may be found in the future.
If he can help Yan Zangsheng solve the problem, then there is still hope.
Zoey Lopez was reluctant to part, but was dragged away by Levi Garrison.
After Levi Garrison and his party left.
It's back to normal here.
Yan Zangsheng continued to heal.
It didn't seem to affect him at all.
As long as Levi Garrison does not appear, his world will remain the same.
In the distance in the dark.
"Levi Garrison, Levi Garrison, don't try to detoxify your daughter! That's impossible!"
"Hahaha… Give it up! He can't do it!"

...
There were three people who saw this and laughed wildly.
The Return of the God of War [The
Protector] Chapter 3179
Levi Garrison, wait for your daughter to die! No one can detoxify your daughter!"
The eyes of the three were full of resentment.
I don't know what kind of hatred I have with Levi Garrison!
It was exactly as Levi Garrison had predicted.
Some people do not want Levilia to detoxify.
Yan Zangsheng had already been arranged.
I don't know what he held in the hands of others.
I would rather die than help Levilia detoxify.
The key is who doesn't want Levilia to detoxify, Levi Garrison can't think of it.

In addition to Hydra and destroying the blood exchange record, there are people
who want to prevent Levilia from detoxifying.
However, Yan Zangsheng would not take action anyway, and Levi Garrison had no
choice.
They can only let Jiao Tianyu and the others stare at Yan Zangsheng to see who
he has met.
It's easy to find out who controls Yan Zangsheng.
However, judging from the firmness of Yan Zangsheng, Levi Garrison has little
hope.
Or there is no hope!
Can only ask another clever!
Uncomfortable!
So uncomfortable! ! !
Obviously the person in front of him can detoxify Levilia, but he just doesn't do
it.
This is the hardest part!
Levi Garrison could not wait to tie Yan Zangsheng.
But he was sure that if he dared to force it, Yan Zangsheng would definitely
commit suicide if he had a chance.
In that case, hope will really be gone.

Levi Garrison won't do things that outweigh the losses.
Yan Zangsheng was born after Levi Garrison left.
In fact, he glanced deeply in the direction they left.
He was actually struggling inside.
"Levi Garrison, I really have no way! In fact, I can really solve your daughter's
poison! But I have no way! I can't solve it!"
"I am also suffering and struggling! As a Chinese medicine practitioner, I can
detoxify, but I am also very sad to see patients suffer!"
"But I really can't shoot! I can't shoot anyway!"
"You don't know my problem! It's useless if you know it! You can't solve it at all!
You don't have the strength!"
Yan Zangsheng struggled in pain in his heart.
...
"By the way, old black, you start to check Yan Zangsheng's magic medicine! If you
find it, just steal it back!"
While arranging people to stare at Yan Zangsheng, Levi Garrison asked the dark
doctor to start checking Yan Zangsheng's magic medicine.
Levi Garrison's idea was that since Yan Zangsheng could not be detoxified, he
would steal his magic medicine.
"Okay, I understand! I feel good in this direction! It's safer than looking for him
directly for treatment!"
Doctor Dark agreed.
He won't be idle any more.
During this period of time, I have explored forbidden places all over the world,
and I have gained a lot.
But I have never encountered anything that is useful to Levilia.
Only Daxia's forbidden area has not been explored.
So Levi Garrison wanted to try his luck.
Explore these forbidden places in Daxia.
What if?
Yan Zangsheng had such a miraculous magic medicine, and he must have obtained it in Daxia.
Daxia is rich in resources, and there may be real treasures of detoxification.

Levilia left Zoey Lopez to look after them.
There are so many strong people guarding Jiao Tianyu outside, it must be okay.
You won't go too far yourself.
When in danger.
He can kill him as soon as possible.
Levi Garrison came to the depths of the mountains in Lingnan.
There is a second-level forbidden area in front of you.
After passing through this second-level forbidden area, there is another first-level forbidden area.
Levi Garrison chose to try his luck here.
After entering the secondary forbidden area.
Levi Garrison found that Daxia is really a feng shui treasure.
The treasures of heaven and earth or other treasures in the forbidden area are of
high quality.
The Return of the God of War [The
Protector] Chapter 3180
Much better than other places.
Daxia has been rich in resources since ancient times and has been watched by
countless people.
Now that the aura is revived, the explosion of resources is not an exaggeration.
After going deep into the second-level forbidden area.
Levi Garrison suddenly heard a scream of fighting.
Then there was the sound of someone running away, and the direction was still
here.
But Levi Garrison doesn't matter, as long as he doesn't disturb him.
He continued to walk straight and did not change his course.
A few minutes later.

The seven people staggered towards this side.
Three young men and two young men, and an old man with a woman and a man.
They were covered in blood and were injured to varying degrees.
Now that the spiritual energy has recovered, this kind of fighting between the
major forces is even more tragic and common.
It is normal for everyone to fight over a piece of spiritual energy crystal, and

hundreds of people are killed and injured.
And it is more common to explore forbidden areas to dig natural materials and
earth treasures.
Although there is no large-scale exploration in Daxia, after all, there are almost
no gods, and they cannot cope with danger in the forbidden area.
But some forces are still unable to bear to explore.
Therefore, there are many battles between forces.
In particular, there are some hidden forces in Daxia.
When the aura recovered, he did not follow the flow and hid in the safe island.
Now this kind of spiritual energy is attracting them to come out.
Levi Garrison saw at a glance that the two old men were very strong, and their
peak combat power could fight against the gods.
Several other young people are not bad either.
The bunch of people behind them were even more powerful.
Who said Daxia has no gods?
There are many masters in Daxia, but they are comparable to gods!
After all, all kinds of ancient exercises in Daxia are ever-changing, and they
absorb very little spiritual energy and can transform them into the greatest degree of power.
This is unmatched by other countries.
The gods just absorbed too much aura from the radiation, but the combat power
is not necessarily good.
Of course, from Levi Garrison's point of view.
From the point of view of others, the gods are powerful enough to come down
from the sky.
The group of people in the distance saw Levi Garrison walking in the middle.
They started roaring at Levi Garrison.
"Get out of the way! Don't get in the way!"
*"f*ck, are you sick? Good dogs don't get in the way!!!"*
"Get out of the way! Look for death!"
...
But Levi Garrison didn't seem to hear it at all, and walked slowly.
This made several people stagnant and slowed down a lot.
"Boom boom boom…"

At the same time, several powerful breaths rose into the sky.
Came very fast from the rear.
Appeared behind Levi Garrison in an instant and stopped the seven people who
escaped.
"Want to run? Impossible!!!"
The visitor sneered.
At the same time, they looked at Levi Garrison: "Thank you, little brother! Help
me stop them!"
The eyes of the seven people who escaped were all imprinted on Levi Garrison.
His eyes were filled with resentment, and he could not wait to kill Levi Garrison.
If Levi Garrison hadn't stopped them, they would have already run away.
It's all Levi Garrison's fault! ! !
"You bastard! Get you out of the way! You're deaf! We were killed by you!"
One of the girls, Sui Qingqing, roared angrily.
Another girl, Xi Mengxiang, stared at Levi Garrison and scolded angrily, "It's your
fault! It's you! You have to die!"
"I really wanted to kill him, this kid killed us! We're all going to die here!"
The young man Fan Yunpeng shouted.
"Hey!"
The others sighed.
The Return of the God of War [The
Protector] Chapter 3181
They are going to explain it here.
Sure enough, more experts came later.
surround them.
Don't even try to run away!
"As long as you hand over the remaining twenty-eight aura crystals and the
thirteen treasures of heaven and earth! My Heitian League may consider letting
you go…"
One of the people led by the Black Sky Alliance sneered.
He looked at Sui Qingqing and Xi Mengxiang's plump and exquisite figures.

“Yes, hand over the things! All the men are killed! The women can keep it!”
The eyes of others also blazed.

“you……”
Sui Qingqing and Xi Mengxiang were going to explode with rage.
After the aura recovered, many small forces began to form a group and cooperated to become a big force.
That’s how to survive.
After they formed a group, the big forces began to annex other forces to wantonly snatch the treasures of heaven and earth and aura crystals.
I don’t know how many people died at their hands.
They are actually demons.
Killed a lot of people, destroyed a lot of forces, grabbed a lot of heaven and
earth treasures.
in this force.
In fact, everyone is a heartless cultivator.
There is no concept of country or other.
Just survive on the land of Daxia.
But they never said they were from Daxia or something.
After all, they are not like ordinary people.
In the beginning, it was to kill ruthless practitioners.
But this is the era of the jungle.
The great forces after they formed a group were invincible to many forces.
They devour one power after another.
But they encountered a more powerful Black Sky Alliance.
To devour others, be prepared to be devoured.
The Black Sky Alliance attacked their forces in an all-round way, and wanted to
eat this force completely.
…
In three days, a powerful force of them was defeated.
Most of the people died, and the stored treasures and spiritual energy crystals
were swallowed.
The rest fled, and those who were chased were chased and killed.
Sui Qingqing and the others originally had a team of 70 or 80 people, and they
fled with a lot of resources.
They were chased and killed all the way, and now there are only seven people

left.
Now it is completely surrounded by the Black Sky Alliance.
Not one will be left.
They also understand what it means to be caught.
All the men are to be killed.
The women are to be brought back and become their playthings.
Therefore, both Sui Qingqing and Xi Mengxiang hated Levi Garrison.
If he hadn't blocked them, they would have fled.
Where is it now surrounded by the Black Sky Alliance?
At this time, Levi Garrison looked at Sui Qingqing and the others and said,
"What's the matter with me?"
"Without me blocking you, none of you can escape!"
Levi Garrison looked at the masters of the Black Sky Alliance and said: "? First of
all, each of you is injured! Especially these two powerful old men were seriously
injured, and now they are running away;
Secondly, there are so many experts on their side, they are better than you, they
are more numerous than you, and they are all fresh troops!
Catch up with your minutes! Even if there is no me blocking, it will take three
minutes for them to catch up with you! "
Hearing this, everyone in the Black Sky Alliance laughed and said, "Yes, that's
right! You can't escape no matter what!"
"I……"
For a while, Sui Qingqing and the others were speechless.
How did they not understand this?
They are almost exhausted by now.
Being caught up is actually a matter of minutes.
It's just that I'm in a irritable mood, and I attribute everything to Levi Garrison.
But the result is bound to be the same.
"Don't struggle! Hahaha…"
The people of the Black Sky League roared.
Fan Yunpeng here asked aloud, "If we take out all the treasures and spiritual
energy crystals, can you let us go?"
"Of course not!"
The Return of the God of War [The

Protector] Chapter 3182
“Kill you all, and we can get something too!”
The leader of the Black Sky Alliance laughed.
“you……”
Fan Yunpeng was going crazy.
“Everyone, prepare to kill all these guys! Then take Tiancai Dibao and these two
girls back!”
The leader ordered.
All the masters of the Black Sky Alliance must prepare to do it.
Sui Qingqing and the others were also helpless, so they could only desperately
try to kill a bloody path.
Levi Garrison is also ready to leave.

At first, he might have thought about saving Sui Qingqing and the others.
After all, they were also hunted down because of the treasures of heaven and
earth.
But Sui Qingqing and the others made Levi Garrison angry.
You’re being caught, what the hell?
Blame everything on other people for no reason.
So Levi Garrison walked straight forward.
As long as trouble doesn’t come to him, he won’t trouble anyone else.
He doesn’t care about their fight…
At this time, a master of Heitian League pointed to Levi Garrison and asked,
“What should he do?”
“Kill it!”
“Do you still need to ask such a question?”
The leader said coldly.
kill!”
All the masters of the Black Sky Alliance moved.
The seven of them went up to Sui Qingqing.
Another person killed Levi Garrison.
“court death!!!”
Levi Garrison was angry.
He did not interfere in their disputes, nor did he save Sui Qingqing and the others.
Are you going to trouble yourself?
“boom!”

The master who came to kill Levi Garrison was suddenly hit by an invisible force,
and the whole person flew out.
After knocking down seven or eight trees, he fell to the ground and died, without
twitching.
Silly!
But soon the other masters of the Black Sky Alliance were killed.
"boom!"
"boom!"
...
These masters flew out one by one.
The death is tragic.
In an instant, all the other masters of the Black Sky Alliance were stunned.
Sui Qingqing and the others were also restrained.
Several leading eyes of the Black Sky Alliance also noticed Levi Garrison.
It is estimated that no one thought that Levi Garrison had such terrifying strength!
Especially Sui Qingqing and the others.
Just now everyone ignored Levi Garrison.
"Kill... kill him first!"
The people headed by the Black Sky Alliance ordered.
In an instant, all the experts of the Black Sky Alliance rushed up.
"die!"
Levi Garrison punched one.
After blinking.
There were more than 30 corpses on the ground.
Silly!
The remaining Heitian League masters are all stupid.
Absolutely never thought to encounter such a tough stubble.
Is this terrifying strength comparable to that of a god?
And it's not like many experts in their forces can temporarily fight against the
gods.
Levi Garrison in front of him truly possesses the combat power of a god!
Calm down!
These people from the Black Sky Alliance were stunned.
Levi Garrison's combat power is too rare in Daxia.
I can't afford it!
The Return of the God of War [The
Protector] Chapter 3183

“The green hills will not change and the green water will flow forever, do you
dare to sign up for a name?”
The leader wanted to know Levi Garrison’s name so that he could take revenge in
the future.
“die!!!”
Levi Garrison only spit out one word.
The body of the person headed not far away suddenly exploded, turning into a
cloud of blood.
Silly!
Who dares to ask?
“Withdraw… withdraw…”
“Let’s count our backs today…”

The rest of the Black Sky Alliance understood.
No matter how tough they are, they will explain it here.
It’s better to go back to the Heitian League, and then find out the identity of Levi
Garrison, and then take revenge.
Several people fled immediately.
Levi Garrison did not pursue them.
To him, these Heitian League masters had nothing to do with stepping on an ant
to death.
They’re not at the point where they go after them themselves.
Not eligible!
People who can kill Levi Garrison also need qualifications!
Levi Garrison seems to have done a sparse and ordinary thing.
It’s not cool to kill the gods at all!
“This……”
Looking at the corpses of the Heitian League masters in one place.
Sui Qingqing is stupid!
Xi Mengxiang is stupid!
Fan Yunpeng and all of them are stupid!
Is their crisis over?
The person in front of him is too powerful, right?
Who would have thought that a random person standing in the way would possess such terrifying combat power!
They got a blessing in disguise and even got rid of the attack of the Black Sky

Alliance.
In the future, the Black Sky Alliance may continue to pursue them.
But they still have to go to the Black Sky Alliance to move rescue troops.
By that time, they too had already run away.
Sui Qingqing and the others looked at each other and smiled.
Their crisis is lifted.
This is great.
They shouldn't die.
After a few people looked at each other, they turned around and left.
From the beginning to the end, Levi Garrison didn't even look at him at all.
Not to mention some words of thanks to Levi Garrison.
It was as if they had done it themselves to lift the crisis.
Seven people left with peace of mind.
At this time, Levi Garrison, who should have walked forward, suddenly shouted:
"Hey!"
This sound made the seven people stop suddenly, and then slowly turned around.
"What's wrong? Is there anything else?"
Sui Qingqing and Fan Yunpeng asked.
"I saved you guys and left without saying thank you?"
What Levi Garrison wanted was an attitude.
In fact, whether thank you or not has anything to do with him?
He just can't stand the behavior of these people.
He didn't like them from the beginning.
Now that I saved them, I turned around and left without saying thank you.
Then Levi Garrison will discuss an explanation.
Not bothering with ants is another matter.
It's two different things.
The Return of the God of War [The
Protector] Chapter 3184
They are so indifferent, then Levi Garrison will have to ask for an explanation.
When Levi Garrison asked this question, they were all taken aback.
It seems that Levi Garrison killed everyone in the Black Sky Alliance and saved
them.
Should I say thank you?
After all, it was someone who saved them!
The two old men had to subconsciously thank Levi Garrison.
After all, this is the right thing to do.

But Sui Qingqing said one step ahead: "Thank you? Why thank you?"
Xi Mengxiang even added: "Yes, do we know each other?"

The three men Fan Yunpeng looked at Levi Garrison for granted.
Even a little surprised.
They didn't seem to realize that Levi Garrison saved them.
Levi Garrison replied: "I don't know! But you were chased and killed just now, and
I saved you! You should be thankful! This is the minimum rule!"
As soon as the words came out.
Sui Qingqing was stunned for a while.
He even looked at the corpse on the ground several times.
That's right.
Levi Garrison killed everyone on the ground!
If it weren't for these people in the Black Sky Alliance, they would all be dead.
None of them can escape!
But Sui Qingqing bit his head and said, "Saved us? Not necessarily?"
Xi Mengxiang also said: "Yes, this is not to save us at all, right? I remember that
the Black Sky Alliance wanted to kill us, you always ignored it and left directly,
right?"
As soon as these words came out, they were immediately supported by Fan Yunpeng and others: "What does this have to do with saving us? You are obviously saving yourself, right?"
"Yeah, obviously someone wanted to kill you, and then you fought back and
killed them. What does it have to do with us?"
Levi Garrison said coldly: "But I killed all these people! Otherwise, you will all die!
That is, I saved you!"
Sui Qingqing and the others shouted: "You are so strange? Isn't this a grievance
between you and others? Can it all involve us?"
"It's not like you saved us at all, it's your own business! Someone killed you, and
then you killed someone else.
We have nothing to do with your grievances at all. You are absolutely right, do
you want to force others to owe you a favor? "

“I’m done! We’re just the same enemy! You just saved yourself, it’s none of our
business, I’ve never seen someone with such a thick skin as you!”
…
Levi Garrison: “…”.
Sure enough, I felt right at first!
These people are shameless to the extreme!
And it seems that their forces have basically been destroyed, and they can live to
the present.
It is estimated that a lot of means have been used.
For example, let the companion be the dead ghost, stepping on the body of the
companion to escape.
All the way to now!
Is it cheap?
People saved you!
Just move your mouth and say thank you!
This can lead to other things.
It was an eye-opener!
this time.
Levi Garrison really saw all kinds of shameless people!
There is no most shameless, only more shameless!
In the vast world, there are indeed all kinds of people.
“I saved you, you have to say thank you! That’s the rule!”
Levi Garrison’s matter has really been pursued to the end.
Don’t give an explanation.
This can’t be over!
He said coldly and released a strong breath.
“Understood! You didn’t do this to hear us say thank you, did you? Are you mean?
We all understand!”
Fan Yunpeng glanced at Sui Qingqing and the others.
Everyone showed the look of understanding everything.
Sui Qingqing stared at Levi Garrison, and sneered: “You saved us by forcibly
saying this! It’s not a verbal thank you. You want substantial benefits!”
The Return of the God of War [The
Protector] Chapter 3185
“The purpose is obvious – to make us owe you kindness, for our treasures!”
“The most important thing is for the beauty of the two of us! Saved us and

wanted us to do something with you. It's best to promise each other, and I'll
accompany you for one night no matter how bad it is!"
Levi Garrison: "...".
He was completely speechless!
In order not to apologize to myself, I can even say such a thing!
Are you still seeing their beauty? ? ?
I have never seen a woman!

to get you guys?
Feel sorry!
Really no interest!
I'm blind to get you?
Would you like a face?
Are you too confident?
A helpless look flashed across Levi Garrison's face.
But in their opinion, it means another way——
"Did we get it right! Who doesn't know the thoughts of your men? Let us thank
you for such a heroic way of saving beauty, so that we can have a good impression. What happened to you!"
"To put it bluntly, you just want us!!!"
"Didn't you see how those people from the Heitian League saw us just now? I
can't wait to jump up one by one! You must be the same! You are just pretending
to be calm on the surface! But in fact, your heart is hot, and you have thought
about it for a long time. !"
"We admit that you are powerful, but you just showed your strength, you must
have meant to get us! I want us to think that you saved us, so you can promise!"
"But tell you, it's impossible! Even if you kill us, we won't do this! We've seen a
lot of men like you!"
"We're right, shouldn't you be so embarrassed that you will do something to us?"
...
pull!

The more and more outrageous!
He didn't appreciate it in the slightest, and he even slapped Levi Garrison with
the hat of a pervert.
Levi Garrison has never been so speechless.
Just rescued.
I think everyone is profiting.
Saving people is the same as asking for any benefit!
Several people looked at Levi Garrison and continued: "Furthermore, we asked
you to save us? Did we ask you to save us?"
"I also said that we don't want to live anymore, do we want to die?"
"What does it have to do with you if we don't die? We won't let you save it! We
won't appreciate it!"
"You don't have to kill the family, but they want to kill you! Hahahaha…"
…
Impressed!
Levi Garrison is really convinced!
He saved them by himself, but the group of people didn't appreciate it, didn't say
thanks, and instead mocked him in various ways.
Why did Levi Garrison understand that they were being hunted down?
They are actually the Black Sky Alliance itself.
All are wicked.
Especially from the current performance, it is more disgusting than the Black Sky
Alliance.
In fact, those people in the Black Sky Alliance simply wanted to kill.
But these people not only want to kill, but also disgust you.
disgusting you!
These languages can be more terrifying than a sword.
Levi Garrison was completely enraged.
Levi Garrison said coldly, "But if I don't kill them today, will you still leave alive?"
"Then I saved you!"
But Fan Yunpeng glanced at Levi Garrison and said, "Bah!"
"That's why we shouldn't die!"
"Even without you, there will be other people to save us!"
"We have no such catastrophe in our lives, and we will not be destroyed by the
Black Sky Alliance!"

Xi Mengxiang also said coldly.
Fan Yunpeng also smiled and said, "Yes, we will die, but we will never die in the
hands of the Black Sky Alliance!"
"By the way, why do you have to believe that we will not escape from the evil
hands of the Black Sky Alliance?"
"Just now, even if you don't take action, we will kill it! Those Heitian League
people can't stop us!"
"You can even say that, even if you didn't kill them! Even a thunderbolt will kill
them by God! They even died violently!"
The Return of the God of War [The
Protector] Chapter 3186
Sui Qingqing sneered shamelessly.
"Yes! That's right! We are lucky!"
"We're not going to die, God will take care of our killers!"
...
Levi Garrison really laughed angrily.
Can you say this?
In order not to admit that he saved them, can he say anything?
It's getting more and more outrageous!
Can you even say something like being struck to death by a thunderbolt?
Join Telegram Group For Fast update
How thick-skinned this shameless man is!
Impressed!
Completely served!
If they didn't shoot themselves just now, can they kill them under the Heitian
League? ? ?
What about the brain?
What kind of strength do you have, don't you have any points in your heart?
What happened to the seven people, don't you know?
Can you still get out of the Black Sky Alliance?
So confident, right?
Levi Garrison sneered, and an idea appeared in his mind.
Since you said you can kill it from the Black Sky Alliance, right?
Then I'll see for myself if you can kill them?
Are you not confident?
Well.

Prove your strength!
The idea was born.
Levi Garrison is not in a hurry to explore the forbidden area.
He is going to be honest with these people.
Seeing Levi Garrison coming over, several people began to panic.
"You…what are you going to do?"
Sui Qingqing said in a trembling voice.
"Are you going to kill us?"
"You can't do this! If you can't tell us, let's do it, right?"
…
Fan Yunpeng and the others stepped back and said vigilantly.
They all broke out in a cold sweat.
If Levi Garrison wanted to kill them, it would be too simple.
How did those people in the Heitian League die before, they are vividly remembered.
Levi Garrison looked at them and said coldly, "I'll give you one more chance!"
"Apologize and thank you, I'll let you go!"
But these people are too stubborn.
Sui Qingqing said angrily: "Don't even think about it! You want me to apologize in
bed? I never thought you were like this!"
Xi Mengxiang also stared at Levi Garrison: "That's right! Can we not know what
your thoughts are? Don't you just want to get our bodies and treasures?"
Levi Garrison didn't say a word, and pressed up step by step.
"Why do you use force?"
Xi Mengxiang and the two trembled.
Fan Yunpeng and the others were unable to say a word because of their fear.
They are also afraid of death.
"I've given you a chance, don't you want it?"
Levi Garrison asked.
"No! Impossible! I will not sell my body! My soul is noble!"
Sui Qingqing firmly opposed it.
The others also summoned their courage and shouted, "Don't take a chance!"
They were able to figure out Levi Garrison's temper.
If you want to kill them or forcefully get two women, it won't be delayed until
now.
If you want to act, you should already do it.

“Well, good. I’ve given you a chance!”
Levi Garrison laughed.
“You…what do you mean???”
Everyone realized something was wrong.
“run!”
A group of people are going to run.
But Levi Garrison picked up the rope carried by one of the Heitian League on the
ground.
“Snapped!”
The rope flew out, knocking down the seven directly.
“Brush brush…”
After some tumbling, the seven were tied to a long rope.
Levi Garrison pulled the rope and left.
“You…what are you doing???”
“Let us go now!”
“You’re not heroic doing this!”
…
Several people shouted immediately.
Anxious!
The Return of the God of War [The
Protector] Chapter 3187
I don’t know what Levi Garrison is going to do to them.
Yelling one by one.
But they are still tough enough!
There is no possibility of repentance and apology at all!
I have been blaming Levi Garrison!
But Levi Garrison ignored it at all.
Roughly drag them!

Levi Garrison didn’t dodge either, and pulled them abruptly.

Either the stone shatters, or the tree bursts.
It didn’t take long for a few of them to be scarred.
Soon after, the dragged people fainted.
They were really hurt too much.
Levi Garrison couldn’t even scold Levi Garrison before he passed out.
One by one his voice was hoarse.
When they woke up, they had already been thrown in one place by Levi Garrison…
Black Sky Alliance Headquarters! ! !

Levi Garrison had just rescued them from the Black Sky Alliance, but they neither
appreciated nor recognized them.
Then Levi Garrison handed them over to the Black Sky Alliance and put them in
the previous danger.
Let's see if it will be as they say – if God will kill everyone in the Black Sky Alliance.
Levi Garrison is looking forward to it!
Levi Garrison asked Jiao Tianyu to find out the Heitian League base camp.
It is located in a deep mountain in a third-level forbidden area.
hard to find.
Then he brought Sui Qingqing and his party all the way here.
Throw them at the Hetian League base camp.
However, Levi Garrison did not leave.
He had to take a good look. If he didn't save him, how could this group escape
from the Black Sky Alliance?
What they said themselves was that they would not die here in the Black Sky
Alliance?
They should not die!
Even if he didn't save him, someone else would save him!
Even the gods will send down thunder to kill them!
…
In short, even if Levi Garrison didn't save them, they would survive.
The people of the Black Sky Alliance will not kill them at all!
But Levi Garrison didn't believe it!
He wants to see if this group of people can survive the encounter with the Black
Sky Alliance.
He did the good things to the end and sent them directly back to the base camp
of the Black Sky Alliance.
Now he is standing on the top of the mountain, watching everything in the base
camp of the Black Sky Alliance.
When Levi Garrison threw these people at the Heitian League base camp, the
place soon became chaotic.
thought the enemy had invaded.

But the anomaly was soon discovered.
Not to mention the injuries, these people were tied tightly by a rope, and they all
passed out.
Soon after, several people who had escaped from Levi Garrison before arrived.
Surprised!
"It's them! It's them! I know them! Sui Qingqing, Xi Mengxiang and Fan Yunpeng!"
"Huh? Strange? Weren't they rescued by the mysterious man? Why were they
sent back?"
"Still tied up?"
…
Confuse!
So confused!
They can't understand the clues in this!
Competing with brains, I can't figure out what's going on…
"They feel thrown from a height, that's what God gave us!"
"They have a lot of resources! Just grab it!"
"Hey, there are these two little girls, they are really watery! I have been thinking
about them for a long time! Later…hehehe…"
"And these three men, who are also fair-skinned, have some for you…"
"My beasts like it, so I will feed them. These two old beasts of mine can also eat
them… Hahaha… Let's grab the treasures from them first!"
…
Since it fell into their base camp.
They didn't have anything to worry about, they just started to grab it!
After all, according to the information, this group of people brought a lot of
heaven and earth treasures with them.
More than they thought!
Sui Qingqing and the others all fell asleep.
There was a vague feeling that someone was groping on them.
All of them woke up now.
"What are you doing???"
"Why? Who?"
The Return of the God of War [The
Protector] Chapter 3188
Several people in Sui Qingqing woke up.

Immediately want to get up.
It's just that everyone was tied up with ropes and couldn't get up at all.
Instead, several people slammed into each other fiercely.
After the reaction came, everyone looked around.
Surprised to find in an unfamiliar environment.
All around them are people.
He also looked at them with fiery eyes, especially the few harassers beside Sui
Qingqing came out.
"Where is this? Who are you?"

Several people asked in horror.
"This… this is a member of the Black Sky Alliance!!!"
Fan Yunpeng recognized it
What? Black Sky Alliance?"
The others trembled all over, and their faces showed unprecedented horror.
They also recognized it.
Especially the few people who were close to Sui Qingqing, weren't they the ones
who escaped in front?
Where is the Black Sky Alliance?
They took a cursory look.
There are at least hundreds of people around!
This is the nest of the Black Sky Alliance, right?
Why so many people?
Incredible!
"Let me tell you where this is? This is the headquarters of the Black Sky Alliance!"
"You guys are so brave, there is a way to heaven, you don't go, and there is no
way to hell, you just go!"
"You don't run far away, you even bring it to the door yourself! Hahaha…"
…
Hearing everyone's laughter, everyone is going crazy!
"What? Black Sky Alliance Headquarters???"
The seven people in Sui Qingqing are going crazy! ! !
How did they come to the headquarters of the Black Sky Alliance?
They won't come to this place even if they are killed!
correct!
Suddenly they thought of Levi Garrison!

Before falling into a coma, Levi Garrison tied them with a rope…
Remember!
It's him! ! !
"This bastard! He even brought us to the headquarters of the Black Sky Alliance! I
killed you!"
Sui Qingqing shouted loudly.
"Damn it! He actually cheated on us?"
Fan Yunpeng was about to explode with anger.
"How can there be such a bastard? Aaaah…"
…
At this time, they suddenly remembered that Levi Garrison asked them to thank
them, but everyone treated them like that.
It is said that Levi Garrison saves himself by himself, and it has nothing to do with
them at all.
He also said that Levi Garrison saved them for substantial benefits.
It was because of the beauty of Sui Qingqing and Xi Mengxiang, to get them!
In the end, they even said – "Let you be saved?", "We will be saved by others
without you!", "We should not die, we will not die in the hands of the Black Sky
Alliance!", "Even if there is no With you, God will also hack the people of Heitian
League to death!"
These are complete nonsense.
Where is the god hacked to death?
When it is in danger, it is called Tian Tian not working, and the earth should not
be able to!
Is there anyone else to help?
They are not angels, and they never saved the world in their previous life!
Why should anyone save them!
It was just luck that they met Levi Garrison and helped them solve the Black Sky
Alliance.
Everyone's heart is like a mirror – if there is no Levi Garrison, all of them will be
dead today.

Sui Qingqing and the others will also face the miserable end of becoming tools!
As a result, they got used to being domineering and domineering, and they were
not good things, and they were not good things.
Where can I know how to be grateful to others.
It's fine without a rake.
This is their normal way of doing things!
Insulting Levi Garrison like this!
Levi Garrison just wanted to see if this group of people could escape the danger
if he didn't save them.
Understood!
At this moment, they finally understood why Levi Garrison sent them to the headquarters of the Black Sky Alliance.
Just to verify their absurd statement – without Levi Garrison to save them, they
can escape from the Black Sky Alliance!
If no one comes to save them, God will also send down the thunder to kill the
people of the Black Sky Alliance!
It is estimated that Levi Garrison sent them to see if it would be like what they
said!
Who might be watching in the dark?
The Return of the God of War [The
Protector] Chapter 3189
After Sui Qingqing and the others sorted out all this, they subconsciously looked
at the surrounding high places.
It was really expected by them, Levi Garrison was really observing from a high
place.
"Now that you are in the hands of the Black Sky Alliance, how can you escape?"
"Let's see if it will be so lucky, someone will come to rescue you!"
Several people from the Black Sky Alliance laughed wildly.
There is none!
Where is there anyone to save them!
It was good luck to meet a master to save them!
Their luck was ruined abruptly by them!

They killed themselves, everything is their own fault!
How can you treat your benefactor like that?
Isn't it right to say thank you?
Also blame the benefactor for bad intentions!
Abruptly to other issues!
Only now did I know that it was the benefactor!
Just know to cherish it!
regret!
Just so sorry!
They're going crazy!
You can't blame Levi Garrison for all this, just blame them for being cheap!
Are you saying you can escape without anyone?
Now the scene is reproduced!
See how you escaped from the clutches of the Black Sky Alliance?
"Come on, grab it!"
The people of the Black Sky Alliance started to grab the treasures from them.
After a while, the treasures on everyone's body were cleaned up.
"The rest is to divide them! Hehe…"
Everyone looked at the crowd with terrifying smiles.
Sui Qingqing and the others were all frightened.
One by one panicked.
Regret to the extreme!
If they were given another chance, they would definitely say thank you to Levi
Garrison.
wrong!
He should kneel down and kowtow a hundred times to repay him for saving his
life!
But where in the world is there any regret medicine?
At this time, I saw a burly man about two meters tall.
He even led seven or eight wolves to the field.
After these eight wolves were affected by the spiritual energy, they became bigger and more terrifying.
"Then these will belong to my babies!"
The burly man looked at Fan Yunpeng and the others and smiled.
The eight mutated wolves he was holding in his hand couldn't hold back the smell
of blood.
Roaring wildly at Fan Yunpeng and the others…

“what!!!”
“Save us?”
“We were wrong…”
Fan Yunpeng and the others were struggling frantically.
It’s just no use calling anyone now!
Regret is of no use!
They were praying that someone would come down from the sky to save them!
But impossible!
The only thing that fell from the sky was the mutant wolf that had been hungry
for three days.
After the burly man let go, the eight mutant wolves rushed towards Fan Yunpeng
and the other five.
“Bang bang bang…”
“Ah ah ah…”
At first they could still struggle, and then there were bursts of screams.
The strength of these mutant wolves is too powerful.
Even if they are not injured, they are unable to deal with their strength at their
peak, not to mention that they are injured like this.
Soon they became food, from head to toe.
Even the bones, these wolves, will not let go.
Sui Qingqing and Xi Mengxiang witnessed everything from the side—the shocking picture of their companions being eaten up by the wolves, and there
was nothing left.
They were going to be terrified.
The body can’t stop shaking!
The cold sweat also kept coming.
They’re all going to be stupid!
So sorry!
The two of them cried directly.
Cry so much that it rains!
The Return of the God of War [The
Protector] Chapter 3190
The figure of Levi Garrison was all in his mind.
What’s up with an apology and a thank you?
Just move your mouth!
What if Levi Garrison wanted them?
Wouldn’t it be nice to have a relationship with a superpower?

…
Seeing their companions like this, they all cried.
"They are ours!"
Everyone in the Heitian League saw Sui Qingqing's two stunners, and they were
all crazy.

Pick up the two and go…
Next, their fate is even worse than Fan Yunpeng and the others!
In the end, the two of them had to die, and they were tortured to death, both
physically and mentally!
Fan Yunpeng and the others at least died quickly without much pain!
But Sui Qingqing and the two will be miserable next.
The two struggled desperately, but no one would come to save them.
The people who saved them were forcibly turned into enemies by them!
"Hahaha, it's delivered to the door, what are you struggling with???"
"Ha ha ha ha……"
Everyone in the Black Sky League burst into laughter.
Not bad!
There are so many treasures from heaven and earth, and there are two beauties.
Seeing that everything was over, Levi Garrison also left.
"It turns out that God will not hack them to death! You are lying!"
Levi Garrison just wanted to verify whether what they said was true!
The result is not…
There were screams in the valley.
Levi Garrison also left.
He continued to explore in the first-level forbidden area, trying to find some
treasures.
Really let him collect some good stuff.
"It's just that the recovery time of the spiritual energy is too short. Otherwise,
nourished by this rich spiritual energy, in a few years, there will definitely be an
absolute magic medicine!"
Levi Garrison muttered to himself.
time is too short.
Now there are heaven and earth treasures everywhere.
However, it will take years to accumulate the treasures of heaven and earth that

can unlock Levilia's poison, and it will definitely not work in a short period of
time.
Hope is still on Yan Zangsheng and the magic medicine he possesses. really.
Now the matter of Daxia's genius doctor can't be hidden.
Known by the whole world.
Every national power casts crazy and fiery gazes.
It doesn't matter if you are a genius doctor or not.
After all, as long as it's not intractable diseases, people's physique can be solved
by inhaling a little spiritual energy.
What everyone mainly thinks is that Yan Zangsheng can change the physique of
the human body and create a means of deity.
During this time, many artificial means of creating gods have emerged.
Among them, the Hydra method on the War Bear Country side is the most efficient.
Successfully created a god.
Ready to start mass production.
However, the efficiency is much worse than that of Yan Zangsheng.
Basically, as long as the resources and personnel are in place, Yan Zangsheng is
almost 100% effective.
How can this make people not jealous?
Everyone wants it!
Daxia naturally expected this as well.
Someone will definitely come to rob Yan Zangsheng.
It is difficult to keep Yan Zangsheng.
They also specially called Tian Ce Young Commander to protect Yan Zangsheng.
For this purpose, the common plan of Yanlongwei and Tiancefu is to ask the
divine doctor to create more gods for Daxia.
After deliberation, Yan Zangsheng agreed.
There are many candidates for the creation of gods, in addition to Tiancefu, there
are also the group of people from Kunlun College at that time.
Qinglong and Qilin are the first choice.
It takes resources to create gods.
Need a lot of heaven and earth treasures and aura crystals.

Treasures of Heaven and Earth are used to improve and strengthen everyone's
physique, while Reiki crystals guarantee a large amount of high-purity Reiki.
There are not many stocks in Daxia.
Two gods have been created, and the resources that have been saved have been
exhausted.
Who will rely on the next resources?
Levi Garrison!
Everyone quickly thought of one person, that is Levi Garrison!
In the past, it was just the group of people who morally kidnapped Levi Garrison
to attack his resource idea.
Now everyone needs Levi Garrison's resources.
It's best to divide it up a bit.
"Let's discuss with him, shall we?"
"It just so happens that he is in Daxia, this is a good opportunity for us! We have
to hurry up!"
Levi Garrison just came back.
A group of people came up.
The four chiefs of Yanlongwei, the Dragon Head God General of Tiance Mansion,
and several other great generals.
There are also two gods created by Yan Zangsheng recently – Long San and Long
Wu, the two apprentices of the Dragon Head God General.
"Is something wrong?"
The Return of the God of War [The
Protector] Chapter 3191
Levi Garrison asked.
"One word for the king, now Daxia urgently needs your resources!"
"Now the genius doctor has a way to make the gods appear, but we lack resources!"
The Dragon Head God General said.
The four leaders of Yanlongwei also expressed urgency.
Now the major forces are competing.
Daxia has no gods, not even the ability to protect himself.
Not to mention competing with others.
Finally, a genius doctor appeared, and they didn't want to miss this opportunity.

"We know that these resources are used by you to detoxify Levilia! Levilia is also
from our Tiance Mansion! We don't want to see her in an accident!"
"Now we only hope that you can share a little bit! Solve the urgent need!"
"In addition, we will persuade the genius doctor, maybe he will detoxify Levilia!"
The Dragon Head God treats them with sincerity.
Beg Levi Garrison.
"Okay! If you can use it, I will give it to you!"
Levi Garrison said.
In fact, resources are dispensable to him.
But Daxia couldn't use it at all before.
Now that it's used, it's okay to give it a bit.
Levi Garrison brought a group of people to the aircraft of the Brain of God.
"Leave a little and give them the rest!"
Levi Garrison made a lot of money.
Almost all the resources of an aircraft were given to Da Xia.
Everyone was amazed to see so many resources.
Long San and Long Wu's eyes lit up when they saw it.
These resources they need more than anyone.
After all, becoming a god is not the end, it just absorbs a lot of spiritual energy.
They can also be stronger.
However, being powerful requires massive resources.
No, are the resources in front of you coming?
The two were even more excited: "Why don't you tell us the secret of the resources? We are self-sufficient!"
In their opinion, Levi Garrison can tell the secrets of resources to the Apocalypse
Empire.
Why can't you tell them?
Levi Garrison turned his head and glanced at Long Sanlongwu: "It's useless to tell
you! You have no qualifications and strength to come out!"
"Ho ho…"
Long Wu smiled contemptuously.
Long San also snorted coldly: "Don't say it, don't say it! What reason are you
looking for!"
These two are already gods!

In their opinion, as long as Levi Garrison told the secret of the resource, would
they still be able to get it?
Levi Garrison can take it out himself, why can't they take it out?
Just don't want to tell them.
Casually weave a reason.
Levi Garrison really wanted to take them to the first-level forbidden area.
The secret to telling them their resources is here.
However, after they got the resources, they immediately went to the magician
without stopping.
Time is precious.
When resources arrive, create gods immediately.
War Bear Country.
Inside the Hydra base.
"Strange! I almost thought this Great Summer Doctor could detoxify Levi Garrison's daughter?"
"Yeah, why is he so resistant to Levi Garrison, he won't detoxify his daughter to
death!"
"Levi Garrison didn't have any festivals with him? Is there anyone who doesn't
want Levi Garrison to detoxify his daughter! It's exactly the same as destroying
the blood exchange record before!"
…
Not only does Hydra think so, but even the organization of revenge Hydra is also
very puzzled.
There are still people who don't want Levi Garrison's daughter to detoxify.
Control the magic doctor tightly, and don't give any detoxification.
When they learned that there was a genius doctor in Daxia, they all thought that
Levilia's poison was about to be solved.
Thinking about it now is too much.
Although someone has arranged everything in advance.
"Levi Garrison, have you seen it? There are many people who don't want your
daughter to detoxify, hahahaha…"
The Return of the God of War [The
Protector] Chapter 3192

Hand over the resources to Daxia Hou.
Levi Garrison didn't expect them to persuade the genius doctor to detoxify Levilia.
He already knew that Yan Zangsheng would not detoxify Levilia because of
persuasion by others.
The person behind him must be resolved.
But people have been staring at it for so long, and there is no clue to control Yan
Zang's stranger or power.
There is no whereabouts of the magic medicine.
This made Levi Garrison gradually lose his patience.
He has reworked other inversions.
Next, he looked for the whereabouts of Zhen Mosi while looking for the treasures of heaven and earth.

Levi Garrison did not return that night.
And in their temporary base.
Levilia slept on the ice bed and was temporarily blocked by ice.
There are layers of experts around.
Levi Garrison did not give Jiao Tianyu and the others to Da Xia.
They also have to help themselves, and protect the safety of Levilia when they
are not there.
But this night.
Suddenly, a ghostly figure quickly approached here.
It actually went around from the layers of masters.
Even Jiao Tianyu's companions are more powerful than the gods.
But no one found out…
This ghostly figure finally approached the location of Levilia's ice bed…
Levi Garrison, who had been exploring all night, came back the next day.
The first time he went to see Levilia.
But after arriving at the residence, I saw that the ice bed shattered.
torn apart.
Although it doesn't melt.
But it was violently shattered…
Levilia fell to the ground.
After the freeze was over, the strongest poison had already struck.
This attack is worse than ever.
Levilia even has traces of dryness.
He was obviously a child, but silver hair appeared on his head.
The whole person is even more dead.

Levi Garrison was anxious.
He quickly picked up Levilia and forcibly suppressed the poison.
Rao was him, and it took a long time to suppress the poison.
But Levi Garrison knew that the next attack of the poison would be stronger than
the next.
This means that it is more and more difficult for him to suppress.
Especially when there is no ice bed.
Temporarily unable to freeze the toxin, then the attack will become the norm.
If not treated in time, Levilia is really dangerous.
"Yan Zangsheng!!!"
Levi Garrison clenched his fists tightly.
This guy can obviously detoxify Levilia, but he can't!
Urgent.
He can really tie this kid!
*And who the f*ck ruined the ice bed? ? ?*
Did that god kill him?
"Did it deliberately target me Levi Garrison? Deliberately not let my daughter
detoxify!"
"Don't be sneaky if you have the ability, come here if you have the ability!!!"
"Don't let me find you! Otherwise, I will definitely cut you into pieces!"
"Wait, I will definitely catch you out! I swear by Levi Garrison! I must avenge
today's revenge!"
...
Levi Garrison guessed that there was a high probability of destroying the ice bed
and that it was a group of people who controlled Yan Zangsheng.
This is definitely another group of forces.
But the people who came to destroy the ice bed are very powerful.
Unexpectedly, the sound of overseas Chinese affairs sneaked in and destroyed
the ice bed without knowing it.
If it wasn't for him running, no one would know that the ice bed was destroyed.
When Levi Garrison told everyone that the ice bed had been destroyed, everyone
was stunned.

There were 80 people in total, but less than 50 of Jiao Tianyu and the others
went out to work.
There must be at least thirty people guarding here.
These 30 people are all top-level experts, and someone has quietly passed them
to destroy the ice bed.
And the ice bed is so hard, if it is to be destroyed, there must be some movement.
But there is not.
Absolute super expert!
"Could it be that there are such masters lurking in Daxia? I suspect that it is Daxia!
Judging from these two incidents, it is definitely not a force outside Daxia!"
"Teacher Ye, who did you provoke in Daxia?"
...
Everyone said.
This reminded Levi Garrison.
With such a terrifying force, who else can Daxia have?
The town magician?
The Return of the God of War [The
Protector] Chapter 3193
He guessed that only the strong people of Zhenmo Division could ignore this
group of students like this.
There are not many like this in Daxia.
After all, there is no god at all.
But if you talk about yourself, you must have a deep hatred for yourself.
Town Magic Division?
how is this possible?
That is the existence of legend.
Levi Garrison had nothing to do with them, no matter what.
Who would that be?

Someone you know?
Tiance Shenshuai and these people have that kind of strength.
He really can't think of who?
There are many people who have hatred with him, but there are absolutely no
such powerful ones.
Can't imagine who it is!

No one else would have imagined such an existence!
"It can't be done like this!!!"
Levi Garrison took Levilia directly to find Yan Zangsheng.
"Yan Zangsheng confesses the people behind you! Otherwise, I will kill you! It's
okay not to save my daughter, but I can't kill my daughter!"
After Levi Garrison arrived, he directly questioned Yan Zangsheng.
*f*ck I don't need you to detox.*
*Why the f*ck am I being polite to you?*
Provoked, he may directly kill.
Levi Garrison's intrusion directly disrupted the normal progress of Yan Zangsheng.
"One word side by side king, what are you doing?"
"Didn't you see that the genius doctor was busy?"
...
Long Sanlongwu immediately scolded him because he was a god.
The others were also displeased.
No matter how much they respect Levi Garrison, they will be angry at this critical
moment.
"What's wrong?"
Yan Zangsheng raised his head and asked.
"The man behind you ruined my daughter's ice bed! Now she's got a poison
attack..."
Hearing this, Yan Zangsheng looked at Levilia, a trace of unbearable flashed in
his eyes.
But then it returned to normal, looking at Levi Garrison and said coldly: "What
does your daughter's matter have to do with me? I didn't do it! And I won't
detoxify your daughter, so why are you looking for me?"
Yan Zangsheng guessed that he really wanted to take action to detoxify Levilia.
He just glanced at it and knew how serious Levilia's toxin attack was now.
But he can't!
Resolutely not to mix things up with Levi Garrison!
Levi Garrison sneered: "I understand, it's a group of people who control you not
to detoxify my daughter and destroy my daughter's ice bed!"
"Tell me who is behind the control of you? Otherwise I'll kill you!"

“Boom…”
Levi Garrison’s terrifying murderous aura overflowed.
Covers everything here.
“Levi Garrison, what are you doing???”
“You still want to kill the magician?”
Long San and Long Wu immediately stopped in front of Levi Garrison.
“It is absolutely impossible to stand shoulder to shoulder with the king!”
The four leaders of Yanlongwei rushed up and hugged Levi Garrison.
Now Yan Zangsheng is the baby of Daxia.
How could Levi Garrison be killed?
“Okay, very good! I’ll find them sooner or later! Just wait!”
“And I can solve my daughter’s poison myself! I can do it without you!”
Levi Garrison left after leaving a sentence.
Yan Zangsheng didn’t raise his head the whole time, and his expression didn’t
change.
I don’t care about Levi Garrison at all.
But he said silently in his heart: “I hope you will never meet them, otherwise your
end will be miserable!”
difficult!
Everything is so hard now!
Not only could they not find a way to treat Levilia, but some people frantically
prevented Levilia from detoxifying.
Levi Garrison collapsed a little.
Why haven’t the people from Zhen Mosi appeared?
Why can’t I find the second half of the Poison Sutra?
After the dark doctor who came to know all this, he also sighed for a while.
Even more angry!
I’m still brooding about the ice bed being destroyed!
“Mr. Ye, it’s now a critical moment!”
“In abnormal times, you have to use abnormal methods! In the past, there were
many evil methods to detoxify! But we stopped them all!”
“There are quite a few ways to crook the door! But even if it can be detoxified,
the side effects will be huge. For example, the whole person is completely crazy,
completely reduced to a demon and this kind of heresy…”

“Therefore, many people who offered bounties offered such methods or poisons
used to fight poison with poison were rejected by us one by one!”
“But now Levilia is like this, I suggest starting from this direction! No matter
what Levilia will become, no matter what he will be, detoxify first!”
…
Doctor Dark said a last resort.
Levi Garrison was silent.
He didn’t want to touch this evil method.
He wanted to detoxify Levilia, and he wanted Levilia to recover normally without
any side effects.
But even if this evil method is detoxified, it will not make Levilia normal.
This is something Levi Garrison is unwilling to touch even when he dies.
But now there is no way.
Had to resort to this wicked method.
“Let me think about it first?”
Levi Garrison is very chaotic.
I don’t want to make any decisions on this for now.
But soon an unexpected thing happened –
At this time, Hydra actually contacted Levi Garrison.
Claiming they have an antidote.
It depends on whether Levi Garrison believes it or not.
Trade if you believe…
The Return of the God of War [The
Protector] Chapter 3194
“Liar! Definitely a liar!”
“If they had an antidote, they would already have it! Impossible!”
“It’s already against the sky that they can research this poison, and the antidote
is impossible!”
“I knew from the beginning that they couldn’t have an antidote!”
…
Doctor Dark said immediately.
The Brain of God also echoed: “And in such a short period of time, it is impossible
for them to develop an antidote!”
The two of them are already sure that this is fake!
Hydra began to deceive Levi Garrison.
Join Telegram Group For Fast update
Just like the mysterious forces that defrauded sky-high resources!

And they had the idea of deceiving Levi Garrison a long time ago, but they just kept waiting for a suitable time.
The organization of the revenge Hydra deceived Levi Garrison in advance, which
no one thought of.
They can only continue to wait for the opportunity, when Levi Garrison is helpless
and desperate.
That is, you have to believe it, and you have to believe it!
When the road is dead, even if there is only one in ten thousand hope that you
should try it.
Even if you know it's fake, what if?
There is no doubt that Levi Garrison has reached this moment now.
Just as the ice bed was destroyed, Levilia's toxicity flared up violently.
Hydra emerged.
They actually tried…
Whether Levi Garrison believes it or not has little to do with them.
They won't incur any losses.
If Levi Garrison believed it, it would be better if he deceived him!
Both Doctor Dark and Brain of God looked at Levi Garrison: "Mr. Ye don't have to
think that it must be fake! I can guarantee it! They won't be real! They just want
to defraud you of your resources!"
Others also said: "Yes, all of this must be fake! Hydra has made it clear that it is
lying to you in an open and honest way! It's the best to be deceived, and they
won't suffer if they can't be deceived!"
"Our advice is to ignore it! Don't look for this hope!"
…
Everyone looked at Levi Garrison, waiting for his thoughts.
Levi Garrison sighed deeply: "But what can I do now?"
"Levilia has tried any method now, but there is nothing useful at all! There is a
hint of hope that I will try it too!"
"I also know that at this juncture, Hydra will definitely defraud resources! But
what if there is really hope? If they really have an antidote, even an antidote to
relieve the onset of toxins!"

“As long as I have this hope, I’ll give it a try! Resources are useless to me anyway!
I can have as many as I want, and Levilia’s health is the most important thing!”
…
Hearing Levi Garrison say this, everyone sighed.
There is no way.
Who would choose to believe that one-in-ten thousand generalization if there
was a better way?
Levi Garrison looked at Doctor Dark and said, “Old Hei contacted Hydra and said I
believed them! I chose to negotiate with them in Daxia!”
“Hey!”
Doctor Dark sighed and agreed.
To believe in Hydra is actually a very humiliating thing for him!
He believed that Levi Garrison hated more than him, but he had no choice but to
agree.
Who would believe it if it wasn’t forced to the point of desperation?
Bow your head for that almost impossible hope.
People are forced into this.
So helpless!
He felt like he was punching the cotton!
“Okay, I’ll contact them!”
Doctor Dark ran to contact him.
“I……”
The Brain of God clenched his fists tightly, so angry that he was about to explode.
He glanced at Levi Garrison and had a lot to say, but he didn’t say it.
They understand that a father’s choice at this time is actually right, even if he is
deceived, even if the Hydra is fake.
But he finally made an effort to detoxify his daughter.
No regrets either.
Compared to her daughter’s detoxification, being deceived is nothing.
Hydra is in the base of War Bear Kingdom.
The nine heads of Hydra are together.
Nine of them are arranged from one to nine.
They are waiting for Levi Garrison’s reply.
Among them, the leader sneered: “If Levi Garrison agrees, it will prove that we

can deceive! In fact, he now understands that we lied to him, just to gain a hope!"
The three heads smiled: "Now that his daughter is on the brink of desperation, he
will come to hope! It doesn't matter if he is deceived! It's all for the sake of her
daughter!"
"Guess whether Levi Garrison will agree? Knowing that we are lying to him?"
The four heads looked at everyone and asked.
"Half and half? I'm not sure!"
...
At this time, a subordinate walked in quickly and hurriedly said: "No, the nine
leaders, Levi Garrison has agreed to trade with us!"
"But I have to go to Daxia to negotiate a deal! I am afraid that I will be deceived
by trading in the War Bear Country!"
The big boss got up and said, "As long as he agrees! No matter where the deal is
negotiated, he will be deceived!"
"Who is going to lie to Levi Garrison?"
He looked at the crowd and asked.
As a result, all the other eight leaders raised their hands.
Obviously, everyone is very interested in deceiving Levi Garrison.
Liaring Levi Garrison upright and aboveboard will give everyone a sense of
accomplishment.
So everyone has to go.
"No! Only three people can lead the team!"
"The third, the sixth, the eighth go! No one else can go!"
said the great leader.
"clear!"
Everyone nodded.
"Remember, go quietly! This is the secret of our separate deal with Levi Garrison!
The War Bear Kingdom doesn't even know about it!"
"So we can't take the gods with us, we can go by ourselves!"
"In addition, the organization of the revenge Hydra is also watching. If we go in a
high profile, they will definitely assassinate them!"
The big head analyzed.

that's all.
In the end, the three leaders took more than a dozen experts of Hydra to Daxia.
In order to show loyalty to the War Bear Kingdom.
The Return of the God of War [The
Protector] Chapter 3195
Hydra didn't use resources on themselves to create gods for themselves.
So the Hydra so far has no gods.
It all depends on the protection of the gods of the War Bear Kingdom.
But they also understand that the gods of War Bear Country protect them on the
one hand, and supervise them on the other hand.
They dare not have the existence of gods.
Shortly after.
The three heads of Hydra brought more than a dozen people to a forbidden area
in Daxia.
No one knew they were here.
They came to the agreed place one step ahead.

The three were discussing how to deceive Levi Garrison, and they said the prepared words over and over again.
They have already thought of the picture of Levi Garrison being deceived.
And they are upright liars.
Levi Garrison had to obediently give them everything.
What they want, Levi Garrison has to give.
For example, the antidote to your daughter's poison is in War Bear Country.
But you need to give us ten tons of aura crystals first.
Didn't Levi Garrison have to take it out obediently?
There is no way!
He is a hope!
Whether it's true or not, he has to try it.
They have arrived.
But when Levi Garrison and his party were about to come, they encountered
obstacles.
It turned out that Long Wu and Long San brought a group of young people from
Tiance Mansion to stop Levi Garrison.
I don't know who leaked the information, but this person from Tiancefu learned

that Levi Garrison was going to trade with Hydra and send the resources out.
They came to stop.
"Levi Garrison, are you confused? People are lying to you!"
"Junior Sister Levilia's poison is from the Hydra, do you expect them to give you
the antidote?"
"Impossible! Don't be fooled by them!"
"Yes, let alone such a strong poison, they have no ability to develop an antidote!"
Everyone stopped in front of Levi Garrison and could not let him go.
This kind of behavior is stupid in their eyes!
It doesn't matter if Levi Garrison is a fool!
But they can't bear to waste resources.
This is everyone's resources wasted!
Are you not good for Daxia?
Do you have to waste it?
Levi Garrison looked at them and said, "Get out of the way, it has nothing to do
with you!"
Long Wu immediately said: "How come it has nothing to do with us? Your resources are Daxia's resources! Daxia's business is our business!"
Long San also agreed: "When you go to see the Hydra people, you are giving
them resources for nothing!"
"You're going to be taken advantage of! You're going to be deceived by being a
fool! You were deceived last time, and people are still laughing at you now!"
"You are going to be deceived now, are you stupid? You have wasted so many
resources, why don't you give it to Da Xia?"
"Let me tell you, Hydra has hope of an antidote. It's better if I persuade the
genius doctor to take action! Don't send resources in vain!"
…
Long three dragon five they take turns to persuade.
In fact, after all, they don't pay attention to whether Levi Garrison cheated or
not.
They just worry about resources.

Worrying about the resources being cheated by Hydra, it is better to give it to Da
Xia.
That's all.
"Get out of the way! What the hell does this matter have to do with you? Whether I cheat or not, whether I will give them the resources or not, is my own
business and has nothing to do with anyone!"
Levi Garrison said coldly.
Want to morally kidnap yourself?
"Levi Garrison, what do you mean? Knowing that you will be deceived, do you still
want to be fooled?"
"I beg you to wake up! Don't give resources to our opponents for nothing! No one
can bear it!"
"We don't ask you to give your resources to Da Xia, but at least not to others?"
...
People like Long San Long Wu are actually resources.
They don't care about whether Levilia detoxifies or not at all, they only care
about whether the resources will be in the hands of others.
"Enough! The resources you keep talking about! What does it have to do with you?
They belong to Mr. Ye, they can do whatever they want? Not to mention, they are
used to save their daughter!"
Doctor Dark couldn't stand it any longer and couldn't help shouting.
The Brain of God also echoed: "Get out of the way, don't force us to do it!"
"Don't let it! What do you outsiders know???"
Long San Long Wu will not let them at all.
The tense atmosphere was on the verge of breaking out.
At this moment, the commander of Tiance and the general of the dragon head
and others came in a hurry.
"What are you doing? What are you doing?"
"When is it your turn to take care of the king's side by side? What qualifications
do you have?"
"Even if you are gods now!"

...
The crowd roared.
Long three, Long five then let go.
Levi Garrison left without saying a word.
Doctor Dark and the others followed.
"Levi Garrison, you deserve to be deceived!"
"You who were so wise are long gone!"
The Return of the God of War [The
Protector] Chapter 3196
Levi Garrison and the others all left, and the voices of Long Sanlongwu could be
heard in their ears.
But Levi Garrison didn't care, and still came to find Hydra.
In fact, everyone now knows that this is a scam at all.
Something everyone can see.
But why can't Levi Garrison see clearly?
Are you a fan of the authorities?
Will he accept the reality only if he is severely deceived?
Even in the eyes of the Dark Doctors.
But they still have the same idea – this is not being deceived, this is an effort
made for Levilia.

They support Levi Garrison's decision and choice.
Before leaving, God's Brain also asked: "Mr. Ye, do I want to bring the resources
first!"
"Then bring it, it doesn't matter if you bring it or not!"
Levi Garrison said lightly.
Obviously don't care about that.
Shortly after.
Levi Garrison and his party also came to the agreed place.
When the three heads of Hydra met Levi Garrison.
Everyone laughed.
If Levi Garrison can come, it means that their open and aboveboard defrauding
plan is about to succeed.
The three and the dozen or so people behind them all showed ecstasy.
finally come!
Levi Garrison represents the ultimate "wealth".
"Mr. Ye is really unfortunate. I didn't think that the ice bed used by your daughter

was destroyed! The poison has happened like this! But we Hydra swear that we
only poisoned the daughter!"
"As for destroying the blood exchange record and destroying the ice bed before,
we didn't do it! You can rest assured of this!"
The three heads of Hydra said righteously.
As if poisoning Levilia is such a glorious thing.
The Dark Doctor and the Brain of God clenched their fists.
provocative!
This is nothing but provocation!
But Levi Garrison looked at them from such a distance.
The sixth and eighth heads of Hydra also laughed and said, "Mr. Ye expresses our
sympathy for what happened to Ling Qianjin!"
"However, after our unremitting efforts! We have developed the antidote for the
strongest poison! Ling Qianjin's poison can be solved!"
The two said this.
The Dark Doctor naturally didn't believe it.
He asked, "Are you sure you're not lying? Where's the antidote? Show me?"
The brain of God also said: "Yes, don't brag! If there is an antidote, take it out and
see!"
The three heads smiled: "Don't worry! And if you don't believe us, this deal can't
go on. You say yes, Mr. Ye!"
The three leaders looked at Levi Garrison.
But Levi Garrison didn't respond, just looked at them indifferently.
Eight heads stepped forward and said: "Today's transaction is very simple! First
of all, you have to trust us! Otherwise, this transaction cannot be done at all!"
"Secondly, let's talk about the conditions! To detoxify your daughter, you must
pay a price! The antidote we developed with so much manpower and resources
cannot be handed over to you in vain!"
Doctor Dark asked directly: "Tell me, what kind of conditions do you want!"
"All in all! We want all the resources you have! After all the resources are

obtained, we will show you the antidote!"
The six heads stood up.
Doctor Dark asked: "In other words, all the resources are just a deposit for you?
We will give you all the resources before we are willing to show us the antidote?
Instead of giving us the antidote directly?"
Leader Six and Leader Eight nodded at the same time: "Yes, that's right! To get
the antidote, you have to hand over the secret of resources!"
"That's right! We are the lions! To completely unlock your daughter's poison, you
should know how difficult it is! So we want all the resources and the secret of
how to obtain them!"
The posture of the Hydra once made Doctor Dark and the others wonder if there
was really an antidote.
This lion speaks louder than everyone else.
This confidence and confidence is clearly the antidote!
However, they were only in a trance.
"You guys also want the white wolf with empty gloves? You also want to deceive
Mr. Ye!"
"The aircraft behind are all resources! But if you want to deceive them, it's not
that easy!"
The Dark Doctor sneered.
"If you want to cheat, at least you have to come up with something, right? Even if
it's not an antidote, it has to be a useful item, right?"
The two stared at the Hydra.
The three leaders glared at the dark doctor and the brain of God with a guilty
conscience: "You said it again! What does it have to do with you?"
He looked at Levi Garrison again: "What do you think, Mr. Ye? What do you think
of this condition? Do you want to agree?"
In their opinion, only Levi Garrison would be deceived.
Everyone else is awake, only Levi Garrison is a fool.
The Return of the God of War [The
Protector] Chapter 3197

The three heads of Hydra and the others all looked at Levi Garrison.
This person is a fool in their eyes!
He knew that he was being deceived, but he still came here!
This is not what a fool is!
Everyone else is too awake.
In other words, the authorities are obsessed, and bystanders are clear.
As long as you are outsiders, you know that this is a scam at all.
There is absolutely no cure!
I'm here to deceive you from start to finish!

Doctor Dark and they have already concluded that it is a scam.
I want to remind Levi Garrison not to agree.
But when I think about it, this is the obsession and hope of a father.
They don't want to break, so no reminders.
But it's really a scam.
They can only pray that Levi Garrison can wake up and don't be fooled!
Don't give resources to others in vain!
Levi Garrison still didn't speak, but suddenly stepped forward and slowly walked
towards the three heads of Hydra.
"That's right! It's just that you agree to our terms! Only then will your daughter
be saved!"
"Yeah, those resources are of no use to you! It's better to detoxify your daughter!"
...
The three leaders watched Levi Garrison approach, thinking that he agreed.
They all burst into laughter.
So excited that I almost jumped up.
Levi Garrison is really easy to take the bait.
He has to believe it or not!
"Hey!!!"
Doctor Dark and the others sighed.
Can't stop it.
The resources are all Levi Garrison again, and it is useless if they stop it.
Levi Garrison walked to the three heads of Hydra like this step by step, without
saying a word from beginning to end.
The three leaders watched Levi Garrison approach, and subconsciously reached
out to pat Levi Garrison on the shoulder.

“Snapped!”
He put his hand on Levi Garrison’s shoulder, patted and said, “You…”
But as soon as the words came out, Levi Garrison suddenly struck with lightning
with his left hand and grabbed his right arm.
“Crack!”
Only a cracking sound was heard.
The arms and bones of the three heads were broken, the flesh was blurred, and
the bones were stubble.
The whole arm was shattered.
“what!!!”
A pig-like scream sounded.
The three heads were so heartbroken in pain.
This sudden scene, no one expected.
Levi Garrison actually started.
No sign!
However, few people responded.
Levi Garrison started again.
Or this is the beginning!
“boom!”
He slapped it out and directly bombarded the heads of the three heads of Hydra.
“Snapped!”
It’s like a watermelon being blown up.
Hot blood and other mixtures splashed on the faces of the heads of Sixth and
Eighth, as well as others.
The burning sensation made them seem to realize something.
But it’s too late!
“Snapped!”
With another slap, Levi Garrison slapped the six heads of Hydra to death.
“Snapped!”
Another slap.
Eight heads fell.
It happened so fast.
So that everyone didn’t respond.
The three leaders have been blown up by Levi Garrison.
The two doctors in the dark have been dumbfounded.
This is Levi Garrison!
This suits him!
Cool!

It's all so cool!
The rest of the Hydras responded one by one.
But how could Levi Garrison let them escape?
"Snapped!"
"Snapped!"
"Snapped!"
...
He slapped slap after slap.
Clouds of blood mist also exploded one after another.
In an instant, a dozen people all fell down.
Not one survived.
A total of twenty Hydra were shot dead by Levi Garrison.
You must know that Hydra has developed for so long, and there are only more
than 180 people in total.
This time, it can be said that the loss is heavy.
The most important thing is that the three leaders were shot dead by Levi Garrison.
"Huchi! Huchi!"
The Return of the God of War [The
Protector] Chapter 3198
After killing these people, Levi Garrison gasped heavily.
It's not because of tiredness!
But because of emotional excitement, cool!
Hydra has always been the person he wanted to kill!
This time, he also killed three leaders, how could he be upset?
It's so exciting!
"Cool! It's so cool!!!"
Seeing Levi Garrison's body covered in blood and panting.
The two doctors in the dark also felt that the stagnant air that had been accumulated in their hearts for a long time was completely released.

Very good!
Levi Garrison did not agree to their conditions to be a fool!
Instead, he killed them all in one go!
The three heads of Hydra don't know what happened until they die!
Levi Garrison didn't say a word, why did he suddenly act?
Shouldn't he have hope for his daughter?
In the end, he didn't even ask where his hope was, and just started killing him?
Did he come to find the antidote to detoxify his daughter?
How could you kill someone without saying a word!

Confuse!
They can only take this doubt to the Lord of Hell to ask.
“I’m in a bad mood recently, kill a few enemies to relieve my boredom!”
Levi Garrison slowly turned around and said to the two doctors in the dark.
Understood!
At this moment they understood everything!
It turns out that Levi Garrison is like a mirror in his heart!
Knowing that the Hydra guys are lying to him at all!
There is no way they have an antidote!
To find him is to defraud his resources…
Thinking about the time when he and the scumbags in Tiance Mansion persuaded
him, Levi Garrison was probably annoying.
Don’t people know better than you?
Don’t people know it’s a scam?
Need you to teach?
Levi Garrison knew that this was a scam from beginning to end.
He knew his situation better than anyone, and knew that the other party would
use this to deal with him.
The reason why he agreed is very simple, it is to kill.
As it is now, kill a refreshing!
Usually these people from Hydra would not come out at all.
And there is the revenge Hydra to prevent the assassination.
They are all obediently staying in the War Bear Country.
Even if you come out, the gods around you are like clouds.
But after Levi Garrison agreed easily, one by one would definitely come out.
All this is in Levi Garrison’s prediction.
Promise them to kill the person who leads the Hydra.
Much better than Levi Garrison imagined.
Never thought that three leaders would come at one time.
In his predictions it was at most a head.
People are killed!
also earned!
“It’s cool!”
Levi Garrison breathed a sigh of relief.
“Really think that I, Levi Garrison, can be deceived by everyone? Ridiculous!”
“I really thought I was a fool, would you believe that you have an antidote?”

“Even if you have an antidote, do I dare to use it?”
Levi Garrison laughed.
“Hahaha… We really thought you would agree…”
The two doctors in the dark smiled embarrassedly.
Levi Garrison glanced at them and said, “Do I look so gullible?”
“And the last time I cheated, I actually asked them to cheat, let’s see what tricks
they are playing! Anyway, don’t worry, this face will be recovered sooner or
later!”
When Levi Garrison and his party returned.
Long Wu and Long San still posted the same.
“I was cheated? I gave the resources to others? Are you comfortable now?”
“Levi Garrison, now you finally know that you are a fool, right?”
Long San and Long Wu asked shyly.
“Snapped!”
“Snapped!”
…
Levi Garrison did not answer them.
Instead, they slapped them in the face with two loud slaps.
Long San and Long Wu were directly stunned by Levi Garrison.
The two are stupid.
Levi Garrison dared to beat them? ? ?
This is also Levi Garrison’s mercy.
If people from other forces dared to bother him so much, they would have been
slapped to death long ago.
Considering that this is the power of Tiancefu.
Levi Garrison only slapped twice as a warning.
After dozens of seconds, the two reacted while covering their cheeks.
They are gods.
Levi Garrison slapped the gods, which is a shame to them!
“Levi Garrison, you are courting death!!!”
The two ran away.
It’s time to attack Levi Garrison.
The Return of the God of War [The
Protector] Chapter 3199
They have never been so humiliated!
Especially since they are the gods of Daxia now!
It is the backbone of Daxia!
Two of the three official gods.

To slap them is to insult them!
Long San and Long Wu are about to attack Levi Garrison.
A war is imminent.
At this time, the two doctors in the dark came forward.
"Go one step further and try? Fighting? Come on!"

"Come on, let's do it, I see that you are upset!"
The dark doctor exudes a powerful breath.
God's brain is also in a state of rampage, and he has endured it for a long time.
The gods are also segmented.
Feel the continuous breath of the dark doctor.
Long San and Long Wu were stunned.
They are not on the same level as Doctor Dark, or even the Brain of God.
If you fight, you will definitely suffer.
But now they have already rushed up, and it is difficult to ride a tiger.
Fortunately, at this time, the persuasion came.
Tiance Shenshuai and these people appeared one by one.
In particular, Tiance Shenshuai knew that if these two boys met Levi Garrison,
they would definitely suffer.
Long San and Long Wu only go down the stairs…
"One word side by side king, did you really give them the resources?"
Someone still couldn't help but ask.
Levi Garrison turned his head and glanced at him: "My business has nothing to do
with you, don't ask what you shouldn't ask!"
…
Far away in the Hydra base in War Bear Country, I received a message that all
twenty people were killed.
"What? The third, sixth, and eighth were all killed???"
The other six leaders all exploded with a bang.
How long have these three brothers followed them?
Been there since the last century.
There has never been danger.
Killed by Levi Garrison like this now?
"Is Levi Garrison crazy? Shouldn't he give his daughter a chance? Should he agree
to even a little hope?"
"Why did he kill someone directly?"

“I understand, Levi Garrison was leading us out from the beginning to kill us!”
“Levi Garrison’s hatred is unbearable! Don’t try to solve your daughter’s poison!
We will use all means to stop you!”
…
Levi Garrison was infuriated by giving them completely.
It’s something they didn’t think of anyway.
In the eyes of everyone, as long as Levi Garrison agrees, there will be no problem.
In the end, Levi Garrison was all killed!
He was a murderer from the start!
Be caught off guard!
But Levi Garrison was much more refreshing.
Looking at Levilia, who was lethargic in the past, Levi Garrison sighed, and he
finally considered what the dark doctor said.
Use evil methods to detoxify Levilia.
Although these evil methods may be used by Levilia, they will cause various
consequences, such as Levilia may go crazy.
But in this situation, the self-evolution of the strongest poison is too fast.
One attack is worse than the other.
Levi Garrison was almost unable to hold back.
Crazy is always more poisonous than Levilia, right?
“Let’s try it anyway?”
After thinking about it for a long time, Levi Garrison sighed and could only
compromise.
Will decide to tell the dark doctor later.
The Dark Doctor immediately went to look for it.
Looking for such a strange way to detoxify, naturally, it can’t be too high-profile.
The bounty order is even more useless, so he can only find it secretly.
As for the magic medicine that Yan Zangsheng said, it was too secretive.
Can’t find it at all.
Yan Zangsheng, who had just rested at the moment, sighed and said, “I don’t
know what happened to Levi Garrison’s daughter?”
“Hey, I can detoxify myself, but I can’t do it. This feeling is too uncomfortable!”
The main reason is that the poison in Levilia is too terrible.

He had to concentrate on himself and do everything in his power to do it.
Not necessarily 100% successful.
He wanted to use other small methods to detoxify.
It is better to give the antidote through herbal tea, which will not work.
The Return of the God of War [The
Protector] Chapter 3200
There is another way that may work, that is, the magic medicine in his mouth.
The magic medicine was actually revealed by him on purpose.
It was for Levi Garrison to look for it.
How could he casually talk about such an important magical medicine for anxiety?
It's just that this magic medicine is not in his hands.
It has been hidden by the mysterious people for a long time.
He can only pray that Levi Garrison can find it.
"Levi Garrison, you are worried about the risk of your daughter! I am also worried
about my daughter!"
"If I detoxify your daughter, my daughter will die!"

"You are willing to do anything for your daughter, and so am I! For the safety of
my daughter, I am willing to do anything! I understand how you feel!"
…
Yan Zangsheng sighed again and again.
The other party controlled his daughter.
If he dared to detoxify Levi Garrison's daughter, then his daughter would die.
That's why he was so determined.
It is estimated that changing Levi Garrison is the same…
It is impossible for Yan Zangsheng to help Levi Garrison now!
The other party is staring at him all the time. If you have to make small moves,
the other party will find out immediately.
Another point, whoever targets Levi Garrison like this, he doesn't even know.
That is to say, who controls his daughter now, he doesn't know either.
He is also guessing who this group of people is…
Create a god for Da Xia by yourself, and they will not stop him in the slightest.
Dragon Three and Dragon Five have been successfully built.
Now a whole bunch of people are working on it.

This group of mysterious forces did not express their position at all. They only
targeted Levi Garrison and did not detoxify his daughter.
Now Yan Zangsheng suspects that this group of people belongs to Daxia.
Creating gods for Daxia without touching their etiquette is even beneficial to
them.
But Levi Garrison's daughter's detoxification seems to have violated their interests, so they will frantically target Levi Garrison.
And as soon as he was exposed, this group of people found him.
Except for the forces within Daxia, there can be no other people.
The only thing that made him uncertain was that the group was too strong.
The lives that are now popular all over the world are simply ants in their hands.
But the aura has been recovering for so long, and there is no such level of powerhouse in Daxia.
They are still a bunch.
What is the explanation for this?
This is the point that makes him uncertain!
If one had to be identified, it would have to be them.
Yan Zangsheng's eyes brightened fiercely.
Whether it is them or not.
No matter how powerful Levi Garrison is, he is not their opponent.
He can only suggest the magic medicine.
But Levi Garrison couldn't find it here.
…
Even Yan Zangsheng didn't know who was targeting Levi Garrison, let alone Levi
Garrison himself.
However, on Yan Zangsheng's side, he had already given up.
Now let the dark doctor frantically search for evil ways all over the world.
The Empire of Never Sunset is willing to help, and they secretly sent people to
follow the dark doctor to search and screen.
Really found a lot of wizards and the like.
There are all kinds of evil ways.
Several methods selected by the dark doctor are relatively powerful.
But these methods have one thing in common – whether they are successful or
not, Levilia will definitely be backlashed.
For example, to give an absurd example – according to a wizard, it can attract an

evil spirit to dispel poison. But no matter whether it can dispel the poison or not,
the evil spirit will definitely possess the ruler.
Levi Garrison would not believe these absurd claims.
And it's not reliable either.
I don't know if the effect has any effect, the backlash is certain.
How could this reassure him?
He continued to let the dark doctor search and find some reliable solutions.
At least you have to see the effect, so Levi Garrison can accept the side effects.
You can't even be sure of the effect, who knows what it will be like.
Not only that, Levi Garrison also dispatched the evil evil spirit.
The evil spirit monster is more experienced in this regard.
"It's still so far…"
Levi Garrison looked at Levilia and said.
The Return of the God of War [The
Protector] Chapter 3201
If it doesn't work, it can only be the solution that the experts of the Sky Shield
Bureau came up with at that time-retain Levilia's consciousness and give up the
body.
But at this point, Levi Garrison didn't want to go.
He will blame himself for the rest of his life…
next time.
Hydra's plan to create a god for the War Bear Kingdom is getting more and more
mature.
Efficiency is also getting higher.
Moreover, the mighty War Bear Kingdom has developed two first-level forbidden
areas and seven second-level forbidden areas in China.
As for the development of the third-level forbidden area, it is too many to count.
For the time being, resources are terribly abundant.
Join Telegram Group For Fast update
They all disdain to attack Levi Garrison's resource idea.
Their own resources are sufficient.
God's plan to protect the Hydra continues.
The number of gods in the War Bear Kingdom is constantly increasing.
No one knows the exact number, but it's increasing every day.

Terrifying to the extreme!
And the Apocalypse Empire, which has been stared at by the War Bear Kingdom,
has never done anything.
Even all the gods of the Apocalypse Empire seemed to be invisible.
It hasn't appeared since then.
Moreover, the Apocalypse Empire did not go to find resources, and there was no
sign of it at all.
It's as if Levi Garrison didn't tell them the secret of the resource at all.
Everyone began to wonder if they had other secret actions.
But Zhanxiong Nation kept staring at it, nothing unusual.
Moreover, the always arrogant Heilongguo also kept a low profile, and their
eldest prince never showed up again.
The biggest change should be the organization of the revenge Hydra.
With the resources deceived from Levi Garrison, they are growing stronger day
by day.
As for the plan to avenge Hydra, they were left behind.
Now all I think about is how strong it is, how can it be compared with the top
forces.
hatred?
What is hatred?
It's just a guise to grow the organization!
in a short time.
They have expanded to two hundred thousand people.
Among them, there are actually more than 170 gods, and they are still increasing.
They also set a lot of rules and regulations.
As if it had become a country.
This is clearly the organizers for their own profit.
They have never assassinated Hydra again.
From the establishment of the revenge Hydra organization to the present, they
have never killed a Hydra person.
On the contrary, Levi Garrison had already killed twenty of them.
As a result, they were still blaming Levi Garrison in various ways, saying that he
did not dare to take revenge against Hydra at all, he was a coward…

As for the War Eagle Kingdom, it has been so low-key that no one has mentioned
it.
There are many gods who want to go to War Eagle Country to wreak havoc.
As a result, they all disappeared after arriving in the War Eagle Kingdom.
Have no idea what happened.
The biggest change should be Daxia.
After getting the resources provided by Levi Garrison, I was with Yan Zangsheng,
the genius doctor.
The gods are one after the other.
In a short period of time, the gods appeared one after another.
Many of Levi Garrison's acquaintances, as seedlings, have all become gods.
After Zoey Lopez and the others became gods, they came to detoxify Levilia
immediately.
Thinking about expelling toxins with the powerful aura in his body.
As a result, Levilia was poisoned again.
Fortunately, Levi Garrison didn't go out, just by the side, suppressing Levilia's
poisonous hair, otherwise Levilia would have to confess.
Levi Garrison angrily reprimanded them—God is just a title, not a real god!
Now these gods see themselves as omnipotent gods.
I feel that my power can solve anything.
The gods only absorbed a certain degree of spiritual energy, and the spiritual
energy appeared lingering, like a halo.
Known as "God".
Power is power, but not to that extent.
But what makes Levi Garrison happy is that Daxia is stronger, which is also good.
Sometimes they can't come by themselves, and it's not bad that they can protect
themselves.
But to detoxify Levilia, just pull it down!
The Return of the God of War [The
Protector] Chapter 3202
Jiao Tianyu's mission is still to find the existence of the Zhen Mosi.
But there is always no clue.

They never seem to show up in general.
However, Levi Garrison firmly believed that the people he saw on the Antarctic
glacier belonged to the Demon Squad.
Obviously they are also attracted by the aura.
Levi Garrison guessed that the environment where they existed before was rich
in spiritual energy, and the world was lacking in spiritual energy, which was not
suitable for them to survive.
Now that the aura is sufficient, they run out.
Levi Garrison guessed right.
There are indeed a lot of people running out of Zhen Mosi.

They searched all over the world for heaven and earth treasures and spiritual
stones.
It's just that they have treasures that can hide their aura, even if Jiao Tianyu has
encountered them, they won't be able to find them.
unless he comes across it himself.
This is what Levi Garrison never thought of.
Although he taught Jiao Tianyu how to distinguish these people from the Demon
Suppression Division.
But they hide their breath, no doubt like ordinary people.
They don't notice it.
Doctor Dark has also found many evil ways during this time.
But Levi Garrison's first step is to do experiments on himself.
He first took the poison that had no effect on him, and then used these evil methods to detoxify to see the effect and whether there were side effects.
In this way, every day is in the experiment.
I can't find one that can really detoxify Levilia.
On the contrary, these evil methods have backlash.
Fortunately, Levi Garrison himself was able to resolve them one by one.
There may be a way the Empire will never set.
Maybe it has an effect on Levilia's poison, but the backlash is too terrible.
In the end, the human body will rot to the blood and mud, and there is no way.
It is equivalent to changing from one state to another terrible state.
But the end result is the same.
all to die!

The dark doctor also found an evil way to detoxify, but the backlash is to refine
Levilia into a kind of puppet, without something with his own thoughts and consciousness.
Levi Garrison couldn't stand it either.
This is not as good as what the experts of the Sky Shield Bureau did at the beginning, which can at least retain Levilia's consciousness.
It's like the people in the Zhao family have been turned into pure energy bodies.
Apart from the fact that the body is not your own, the consciousness is still there.
Now his body is still there, but he has no consciousness and has become a puppet.
Levi Garrison could not accept either way.
He wants a healthier Levilia.
Or backlash is not so scary.
...
The parties then proceeded.
Finally, the effort pays off.
The evil evil spirit found a way—
A traitor from Daxia Miaojiang became the king of evil gu.
Miao Jiang's Gu technique was actually used to cure diseases, and only a few
people used it to harm people.
But this is the king of evil Gus through and through.
Since childhood, he has refined all kinds of evil Gus and used them to harm
people.
Did a lot of heinous things.
He even used living people to refine evil gu.
It is said that there are tens of thousands of living people used by him to refine
the evil Gu.
He is also a big traitor of Miao Jiang!
And this king of evil gu has always been refining one of the strongest evil gu.
The biggest feature of this evil gu is to nourish the evil gu with poison.
The strongest evil gu devoured an unknown amount of highly poisonous and evil
gu.
And the strongest evil Gu has been refined by him for decades.
It's now terribly strong.

Therefore, the idea of the evil god of poison is to use the strongest evil gu to
deal with the poison in Levilia.
The strongest evil gu can devour all kinds of poisons.
This evil gu has become a climate, and it has long passed the point of refining gu
with the blood of living people.
Now rely on all kinds of highly toxic as nutrients.
The King of Evil Gu is also frantically searching for poisons all over the world…
After the aura recovered, many highly poisonous treasures of heaven and earth
were born.
The King of Evil Gu has collected quite a few.
"The poison on Levilia's body is probably the favorite of the strongest evil Gu,
and it is easy to swallow it!"
After listening, Levi Garrison stood up excitedly.
The Return of the God of War [The
Protector] Chapter 3203
But the poison in Levilia is too strong.
There is no poison to match.
In the Black Dragon Kingdom, there were wizards who wanted to suck away the
poison from Levilia's body with poisonous insects.
But the poison on Levilia's body was so strong that it directly poisoned the wizard's bug.
Now that I heard the strongest evil Gu, it still devours the poison for a living.
Why isn't Levi Garrison interested?
And if the strongest evil gu devoured the toxins on Levilia's body, it also meant
that there was no backlash.
Levilia also has no side effects.
Thus.

Levilia's poison can be solved.
"This matter cannot be made public! There are too many people targeting Levilia
now! Once there is a solution, many people will stop it!
Especially since I just killed so many Hydras, they will definitely take the

opportunity to retaliate! Once you let them know about this, they will definitely
go crazy and destroy! "
Levi Garrison said.
Therefore, the actions of the dark doctors are carried out quietly.
I just don't want others to know what Levi Garrison's next step is.
"Immediately determine the position of the King of Evil Gus! No matter what the
cost, let him detoxify Levilia!"
Levi Garrison said coldly.
Yan Zangsheng was not afraid of death because he had something to hide.
Levi Garrison didn't believe that other people would do the same, so he was
unmoved.
If the conditions are not tempting, Levi Garrison will directly use force and kill
them directly.
See still unmoved?
"Okay, understand!"
The Evil God of Poison and the others went to find the location of the King of Evil
Gus.
This time, Levi Garrison has to move faster.
In addition to the Hydra, there are mainly mysterious forces that control Yan
Zangsheng.
Their speed is relatively fast, if Levi Garrison is a little slower, he may suffer.
He'd go crazy if he got the first move.
In the depths of the mountains in the ten directions of the Daxia Miaojiang River.
Since the aura was revived, everything in this place has grown savagely.
A lot of poisons are derived, such as mutated snakes and scorpions, and various
poisonous plants.
There are even some poisons that have never been seen before.
This is the natural forbidden place.
Especially after the aura recovered, it was even more terrifying.
It's a forbidden place within a forbidden place.
The bright and bright appearance is actually poisonous.
Few dare to enter it.
But the old lair of the evil king is here.

In the past, because this place was too dangerous, no one dared to break in.
The enemies of the King of Evil Gus can only open one eye and close one eye.
Now that his place has become a forbidden area, no one dares to come to him.
After the aura recovered, the evil things grew savagely, just in line with the King
of Evil Gu's wishes.
He can refine more and stronger poison Gu.
In his eyes, these mutant evil creatures are the same as the spiritual energy
crystals that everyone pursues.
Recently, the King of Evil Gu has sent his disciples to go out frequently, capturing
people and living things to refine the poison.
Mainly after the aura recovered, the whole world was in chaos.
So does Daxia.
No one cares at all, and no one has the strength to manage it.
Provoked resentment all around.
Mainly, it is now a barbaric development.
The era of the jungle.
After some searching, the Evil God of Poison still found the home of the King of
Evil Gus.
But at this time, many hidden forces of Daxia are gathering around.
It turned out that this group of forces, in the name of justice, was going to attack
the King of Evil Gus.
The main reason is to get the treasure of the king of evil gu.
For example, the strongest evil Gu that he refined, who doesn't want to own it.
Whoever gets it is a terrifying killer move!
What's more, there are many other poisonous Gus and so on.
Grab is to earn!
And I heard that the first-level forbidden area of the King of Evil Gus is not
dangerous, but there are many poisons, but the poison is controlled by the King
of Evil Gus.
The aura crystals and the treasures of heaven and earth inside are dug up.

It is equivalent to winning the King of Evil Gu, which is equivalent to winning this
first-level forbidden land.
Who doesn't want to try? ? ?
The Return of the God of War [The
Protector] Chapter 3204
The first-level forbidden area is too terrifying, and the beasts inside are more
terrifying than the gods.
Too many to die for.
It's not that easy to explore.
But the dangers in the forbidden area where the Evil Gu King is located are all
poisons, and he can control them.
This is a once-in-a-lifetime opportunity.
Among these forces is the Black Sky Alliance.
There are still many forces that hold together, and when they gather together,
they will attack the King of Evil Gus.
The justice Ling Ran said was to eliminate harm for the people and seek justice
for those victims.
To save those living people who were used to refine poison Gu!
Join Telegram Group For Fast update
But they are all planning for themselves.
What's more, the King of Evil Gu was not the first person they jointly targeted.
They have swallowed one force after another under such a banner before.
Daxia is actually in a mess right now, and there are fights everywhere. This kind
of mutual annexation is very common.
For a piece of aura crystal, the blood was poured into rivers, and I don't know
how many innocent people lost their lives.
The key point is that these murderous forces are all under the banner of justice.
In fact, they don't have these concepts of the Daxia country at all.
They appeared because of the recovery of spiritual energy, the strong spiritual
energy outside, and the many treasures of heaven and earth, so they ran out one
by one.

When there is a crisis in Daxia, none of them will appear.
Even play dead.
And for them, it doesn't matter to them who controls the land in Daxia.
They are indifferent to it and only care about their own interests.
This is not the case with Sui Qingqing and Heitian League that Levi Garrison met
before.
Driven by profit, one by one, they killed an unknown number of people.
All are demons.
Now there are a total of eleven major forces, ready to attack the King of Evil Gu.
But they were worried they wouldn't be able to eat it in one bite.
He also specially sent a message to Tiancefu, requesting that Tiancefu also send
someone to annihilate the great devil, the King of Evil Gus.
They also counted that after the aura recovered, a total of 738 people were captured by them to refine Gu, and more than 400 people were killed.
After receiving this list and after request.
No matter what, the Tiance Mansion would send someone there.
It just happened that there were a lot of gods recently, and it would be better for
them to go into actual combat.
It also happened to destroy the big devil, the King of Evil Gus.
In fact, the Tiance Mansion itself has this idea.
Now Daxia has internal and external troubles, especially the internal troubles
that have been unable to solve, and have no ability to solve them.
Now that there are more gods, Tiance Shenshuai has long had an idea to solve it.
It just so happened that these forces jointly requested Tiancefu to send someone
to destroy it.
Just starting with this, let's carry out a round of Thunder Action for internal
cleanup!
And now Tiance Mansion is strong enough!
Levi Garrison's resources are sufficient, and the magician's methods are terrible.
Therefore, Daxia's current gods have risen sharply, and they have reached three
digits.
Tiance Shenshuai became a god himself.

They put all the gods into a team called – Tenjinji!
The members inside are called Tenjin Guards.
This time, twenty-eight heavenly guards were dispatched at one time.
Led by Long San and Long Wu.
After all, the two people entered the divine realm first, and their strength was
also stronger.
It is enough to unite these forces to destroy the King of Evil Gu.
It was the first battle since Tenjin Division was established.
Therefore, it can be regarded as a mobilization of teachers, especially in Daxia.
What's more, the old nest of the king of evil gu is a first-level forbidden area,
which is just used for resource mining.
After confirming the location of the king of evil gu, the evil god of poison immediately ran to find Levi Garrison.
Just now, Levi Garrison was chatting with Qinglong.
Qinglong and the others were all selected because of their good aptitudes and
became gods, and they were all incorporated into the Deity Division.
The Tenjin Division just sent a message that they have a mission.
"Location found, master!"
The evil evil spirit said.
The Return of the God of War [The
Protector] Chapter 3205
"Okay, let's go right away!"
Levi Garrison hurriedly carried Levilia behind his back and set off with Doctor
Dark and others.
Soon after, they came to the Miaojiang Shifang Mountains.
"The king of evil gu is really cruel! Killing so many people! It is cruel enough to
use living people to practice gu!"
"In order to refine the strongest evil Gu, you can really do anything!"
...
The recent brutal actions of the King of Evil Gu were found, and several people in
the dark doctor scolded him.
Levi Garrison said nothing.
Just kept a cold face.

Soon after, everyone arrived at their destination.

“Ok?”
This made everyone stunned.
what happened?
Why are so many people gathered outside the Evil Gu King’s Nest?
A few have to be in the thousands.
They are all masters!
“Black Sky Alliance?”
Levi Garrison saw a few familiar figures in the crowd – from the Black Sky
Alliance!
The burly man with obvious characteristics is also there.
Holding a pair of mutant wolves in his hands.
Looking at the crowd, there are many people leading the beasts.
It seems that after the recovery of spiritual energy, many people tame these
mutant beasts.
wrong?
What are they doing?
One force gathers together!
“Huh? They didn’t have them when I came here before. Why are there so many
people all of a sudden?”
The Evil God of Poison was also very surprised.
“What does it look like, is it related to the King of Evil Gus?”
Doctor Dark wondered.
Levi Garrison also became nervous.
If the information that the most poisonous Gu of the King of Evil Gus will detoxify Levilia is revealed.
Then he was too late.
Most likely it has been destroyed.
When Levi Garrison and his party appeared.
It is not surprising that there are so many forces, they all thought they were here
to encircle and suppress the king of evil gu.
Moreover, these forces ran out because of the recovery of spiritual energy, and
Levi Garrison had never been seen before.
So I don’t know them all.
“Huh? Boss (Master) why did you come here?”
Suddenly a surprised voice sounded.
I saw the people from Tenjinji coming.
Among them are Qinglong Qilin, and Xiao Feng.

They received a mission from the Heavenly God Division to exterminate the King of Evil Gus here.
I didn't expect to see Levi Garrison and others just after arriving here.
"Could it be that you are also here to surround and suppress the King of Evil Gus?"
Kirin asked.
Levi Garrison was taken aback for a moment.
But that's how it reacted.
It turned out that so many people gathered here to surround and suppress the king of evil gu.
"what happened?"
Levi Garrison asked.
Qinglong told Levi Garrison everything.
This made Levi Garrison breathe a sigh of relief.
He thought it was the opponent who discovered the existence of the King of Evil Gus and came to destroy it.
It was just a coincidence that they were going to encircle the king of evil gu.
Clear out the scourge of these big summers.
After all, this past time.
Daxia has no gods, was bullied by outsiders, and was almost divided.
The interior is certainly the same.
So many people jumped out from the hidden world, and made all living beings burnt.
This group of hidden forces is not very strong in this era when gods are everywhere.
They are just like the ancient Ye family, only living in a place with a little spiritual energy.
Just like the No. 76 forbidden area that Levi Garrison once destroyed, now think about it, their resources are actually "reiki".
The Return of the God of War [The Protector] Chapter 3206
This "reiki" doesn't exist outside, only where they live, so they won't come out.

But after the aura recovered, the aura outside was more intense, and they all ran
out naturally.
Each one became a curse.
However, Tiance Mansion has no strength to solve these problems at all, so they
can only watch.
Now it's finally out.
The formation of the Tenjin Division will solve these problems.
Doctor Dark and the others heaved a sigh of relief, thinking they were slow.
It was just a misunderstanding.
Just in time.

A false alarm!
I thought that the mysterious power was so powerful.
What they are going to do, people can always guess one step ahead and stop it
one step ahead!
It seems not now.
After all, no one but the four of them knew about it.
No matter how powerful the mysterious forces are, it is impossible to install a
monitor on Levi Garrison, right?
Rejoice!
Nothing happened!
But soon they frowned.
Confused!
Encountered the next problem.
If it was in the past, they would definitely applaud the King of Exterminating Evil
Gu.
Such a heinous fellow!
Everyone was so outraged!
Doctor Dark has done more experiments, but less often with living people.
Most of them use corpses, or other creatures.
Compared with the King of Evil Gus, it was nothing compared to the devil.
This kind of scourge, let alone other people, even the dark doctor wants to destroy it.
Moreover, many of the poisonous Gus of the King of Evil Gus began to be refined
from infants in swaddles.

Evil Gu grows with the body.
In the end, the evil gu devoured the body.
There are also such evil methods.
Simply outrageous!
But not now!
Levi Garrison is here to find the King of Evil Gus to detoxify Levilia.
If they are wiped out, who will detoxify them!
Destruction can be done!
but not now!
This scourge is to die for, but definitely not now!
Not only they were stunned.
Levi Garrison was even more stunned.
The king of evil can't be destroyed!
Who will solve Levilia's poison?
The timing is not right.
Just happened to meet someone to annihilate.
If it is one step later, the king of evil gu may be wiped out.
The strongest evil Gu was also destroyed.
Headache!
The Return of the God of War [The
Protector] Chapter 3207
Why is Levilia's road to detoxification so difficult?
Qinglong and the others saw a trace of strangeness, and it seemed that something was wrong.
"Boss, why are you here? Could it be that you are also here from the King of Evil
Gus?"
Qinglong asked.
No waiting for Levi Garrison to answer.
At this time, the major forces on the Black Sky Alliance were already shouting:
"Since the Heavenly God Division has sent someone, let's start action!"
Long Sanlongwu glanced behind him, holding a black token.
This is the order of the gods of the gods!
Can mobilize all the god guards in the Tenjin Division!

Holding the decree of the gods, Long San ordered: "All the guards of the gods
obey the orders! Attack the front! Be sure to exterminate the king of evil gu!"
"If you meet a rebel, kill without mercy!!!"
"clear!"

All the heavenly guards shouted in unison.
Other major forces also shouted: "King of extermination of evil gu!"
They are about to dispatch the entire army, vowing to destroy all the kings of evil
gu.
Qinglong and the others stopped asking Levi Garrison, and they all came to the
front, ready to attack.
"Three two one, attack!!!"
Just when they were about to attack.
A figure stopped in front of everyone.
"No! You can't kill him!"
This person is Levi Garrison.
The King of Evil Gu is going to kill, but definitely not now!
He still needs the King of Evil Gus now.
He absolutely cannot die.
Therefore, Levi Garrison must stop it!
Everyone's charge stopped because of Levi Garrison's block.
As soon as Levi Garrison's simple words came out, the audience exploded.
Everyone looked at Levi Garrison in disbelief.
No one would have imagined that there were still people who would stop and
eradicate the great scourge.
Now the king of exterminating evil gu is what the people want, who doesn't want
him to be destroyed?
Why would anyone stop it?
Is this helping the King of Evil Gus?
Xiao Feng was stunned.
Qinglong was stunned.
...
They were still speculating just now, why did Levi Garrison come here?
Did it stop them from coming?
Why is this?
"Levi Garrison, do you know what you are doing???"
Long Wu roared.
He was also shocked that Levi Garrison came to stop them!
Levi Garrison replied: "I know! But now the King of Evil Gu can't die!"
There were two cold lights in Long San's eyes: "Levi Garrison, you have to
understand your behavior, do you want to be with the King of Evil Gus? Do you

want to help him?”
Levi Garrison stared at him and said, “I didn’t say I was with him, and I didn’t want
to help him! It’s just that you can’t kill him for the time being!”
“Yes, we still have something to do! When we are done, you can do other things!”
Doctor Dark also said.
They dare not disclose the matter of letting the King of Evil Gu detoxify Levilia.
This kind of evil method is despised by everyone, and it is also prone to accidents.
“As long as you stop us from destroying the King of Evil Gus, you are helping
him!”
“Yeah, we are all stupid to the door, you stop us?”
“Besides, what do you have to do with this scourge that has been stinking for
thousands of years?”
“You can stop us, but you must give us a good reason!”
…
Long San, Long Wu and the others said coldly one by one.
Even Qinglong and Xiao Feng couldn’t understand it.
What exactly does Levi Garrison have to discuss with the King of Evil Gus?
“Is this Levi Garrison? If you stop us, you are going against the wishes of the
entire Great Xia!”
“You are preventing us from killing the people! Do you know how many people
inside these people have killed? There are many living people who are being
tortured inside at the moment!”
“We’re a second late, we don’t know how many people died, how many people
suffered! We’re here to save them!”
“When you stop us, you are harming people, helping the great scourge of the
King of Evil Gus! Are you sure?”
…
These major forces that kill people like numb, say that the justice is Ling Ran, and
the sound is grand.

They were obviously eager to divide up the treasures of the King of Evil Gus and
the treasures of heaven and earth from the first-level forbidden land.
The Return of the God of War [The
Protector] Chapter 3208
But take this supreme excuse.
But what they say is reasonable, and you can't refute it.
"Do you know how difficult it is for us to get together? It's hard to eradicate the
scourge, but you're actually blocking it?"
"Anything that blocks you, no matter what your excuse is! You are helping the
King of Evil Gus! That is our enemy! Daxia's enemy!"
Long San also stood on the moral high ground and began to put pressure on Levi
Garrison.
"Levi Garrison, you have considered it clearly, standing opposite us is our enemy!
We don't mind getting rid of you first, and then step on the nest of the king of
evil gu!"
Long Wu directly regards Levi Garrison as an enemy.
"Yes! Blockers are killed without mercy!"
The major forces shouted.

A war is imminent.
"Wait! Slow! Everyone calm down first!"
Qinglong and the others immediately stood up, for fear that the two sides would
fight directly.
"Wait for me to ask!"
Qinglong gestured to Long Sanlongwu, and then asked Levi Garrison: "Boss, what
is the matter with you coming to find the King of Evil Gus? If you don't make it
clear, everyone will not stop!"
Levi Garrison hesitated.
Where can you say this?
*Looking for the King of Evil Gus to detoxify, what about bullsh*t?*
And the principle of detoxification is to let the king of evil gu use his strongest
evil gu to devour the poison in Levilia.

Now everyone knows how strong the poison in Levilia is. If he is swallowed by the most poisonous poison of the king of evil gu, he does not know how strong the poison will be.
This is equivalent to making the King of Evil Gu stronger, who can agree?
Levi Garrison said it, and most people must object.
Besides, there are people who will definitely stop using this kind of evil method to detoxify Levilia.
Levi Garrison was not afraid of them and could kill them all.
But how can you kill because of this?
"The reason I can't say for the time being!"
It's just that Levi Garrison's voice just fell.
Someone immediately said: "You shouldn't ask the King of Evil Gus to detoxify your daughter, right?"
Someone guessed it.
This made Levi Garrison tremble.
Someone reminded, and everyone reacted.
"I heard that the King of Evil Gu has refined a kind of evil Gu since he knew the Gu technique, and it is called the strongest evil Gu! It is still refining Gu! Now this most poisonous Gu is so powerful that it is close to the point of death within 100 meters!"
"Yeah, not only that. Now this most poisonous Gu has grown to the extreme, if it is refined now, the blood essence of living people will be useless. You can only find all kinds of poisons to be swallowed by it."
"Your daughter is poisoned with the strongest poison, so many methods are useless. You must now want the strongest poison to absorb the poison from your daughter, right?"
Everyone looked at Levi Garrison and asked.
Levi Garrison came suddenly, holding his daughter.
It is clear that it is for detoxification!
At this time, Levi Garrison could only admit it: "Yes, that's right, the purpose of

looking for the King of Evil Gus is to detoxify my daughter!"
"what?"
Qinglong and the others looked surprised.
Never thought that Levi Garrison would be forced to such a point.
He actually started to use this evil method to detoxify Levilia.
Incredible.
"Levi Garrison, are you too courageous? Think of this way to detoxify your
daughter?"
"It is said that the most poisonous Gu is sure to die as long as a living thing
approaches. Are you not afraid of killing your daughter without detoxifying your
daughter?"
"If you can't get rid of the poison, what about adding poison to your daughter?
That's the strongest evil gu, it's easy to devour living things! Your daughter will
be devoured when she encounters it."
"Even if you detoxify your daughter, aren't you afraid of side effects? Aren't you
afraid of backlash?"
Long San and Long Wu laughed.
Qinglong and the others didn't speak, because they felt that what Long San and
the others said made sense.
There is indeed such a danger in this evil approach.
This is the difference from the normal method.
They also felt that Levi Garrison did something wrong.
If Zoey Lopez and the others are here, I am afraid they will stop them.
This approach is too risky.
Say nothing!
"This is my family's business, you can't control it!"
Levi Garrison himself knew that the risk was high.
But he didn't want to be forced to such a moment.
"I'm going in now to find him to detoxify my daughter, and I won't get involved in
your affairs after that! I don't care if you want to kill him or even eat him! But
now he can't die, and he wants to treat my daughter!"
"Whoever wants to kill him is blocking my daughter's detoxification, and has a

grudge against me! I must block it!"
Levi Garrison said coldly.
Now that it's been said, it's clear.
"Levi Garrison, we understand you! But you have thought about it! Are you
actually helping the king of evil beasts by detoxifying your daughter?"
Someone from the Black Sky Alliance asked.
"Help him? What's wrong?"
Levi Garrison asked in confusion.
Others also cast incomprehensible glances.
"Think about it! You just let the strongest evil gu absorb your daughter's poison!
Now the poison is the nourishment of the strongest evil gu. The stronger the evil
gu is when it absorbs the venomous poison! The stronger the corresponding evil
gu king will be. Stronger!"
"What's more, the poison in your daughter is known as the strongest poison,
which is the most powerful nutrient for evil gu! It can even be said that it can
directly push this evil gu to the limit! When the time comes, the king of evil gu
will rely on This strongest evil Gu, who can be his opponent?"
"Don't say that we are here, even if there are ten times more, it is not an opponent! The gods have no power to parry!"
...
As soon as this person's analysis came out, the audience fell silent.
Even Levi Garrison didn't think of this.
After sucking Levilia's poison, this strongest evil gu will be powerful.
"By the way, I heard that the King of Evil Gu's strongest poisonous gu is about to
reach its limit! This poisonous gu that he has refined since childhood is about to
be completed!"
"When you detoxify your daughter now, you are giving him an assist! Once his
poison is completely perfected! He will be invincible again! Who can destroy him
at that time? The whole summer will suffer, everyone will Become the food for
his poisonous Gu!"

“As long as you take your daughter to detoxify now, you are helping him!”
The Return of the God of War [The
Protector] Chapter 3209
As soon as these words came out, the audience immediately exploded.
Isn’t Levi Garrison just one step away from the most poisonous Gu?
Levi Garrison is purely here to send assists.
Not to mention whether Levilia’s poison can be solved or not, will she be in
danger.
The evil gu is sure to devour the poison of Levilia, and its growth is certain!
It is powerful, which means the power of the King of Evil Gu.
Threats to everyone!
Everyone’s concerns are justified.
Of course, this group of talents won’t care how Da Xia is ruined, they are just
worried that after the King of Evil Gu is powerful, they will not be able to deal
with it and will not be able to divide up his treasures.

Therefore, the King of Evil Gu must not be made stronger.
Levilia’s poison cannot be sent.
“Levi Garrison, we are targeting you! This is indeed the case! Detoxifying your
daughter means that the King of Evil Gu is powerful! At that time, it will threaten
the lives of everyone in Daxia!”
“You can’t put the entire Daxia in dire straits for your own selfish desires! You
can’t save your daughter, sacrifice others, everyone is innocent!”
“What’s more, your daughter’s poison may not be able to be solved, and it is easy
to be dangerous!”
…
Long San Long Wu said.
“Yes, we will resolutely stop your actions that make the King of Evil Gus powerful!”
“Yes! You can’t stop us!”
“Levi Garrison quickly get out of the way, or I’ll kill you!”
…
The Black Sky Alliance and other forces shouted.
Everyone is going to attack.

Even Qinglong thinks so.
To detoxify Levilia like this, not to mention the danger, but also make the King of
Evil Gus easy to become stronger.
At that time, it is really a threat to Da Xia!
I don't know how many people are going to die!
Therefore, they did not speak.
They don't even know how to say…
"If you were not from Daxia, I would have stopped talking nonsense with you, and
hit you directly!"
"Some people may really think about the safety of Daxia, but I will tell you all
about it! Even if the King of Evil Gu succeeds in refining the strongest evil Gu, I
can kill him! He can't make it!"
Levi Garrison said lightly.
He would definitely not take a king of evil beasts in his eyes.
One punch thing!
But when Levi Garrison came out, everyone didn't believe it.
"Blow it! Once the strongest evil Gu is perfected, who knows what level he can
reach! Can you guarantee it?"
"What if you can't guarantee it? If he is really out of control, then because of your
own selfish desires, Da Xia will be in hell!"
*"Guaranteed sh*t, you can't guarantee anything!"*
…
Everyone refused to agree.
"Levi Garrison, listen carefully, as long as we are here, don't try to detoxify your
daughter with evil gu!"
"Here is the order of the gods! All the guards of the gods listen to my orders!
Attack!"
Long San took out the order of the gods and ordered it directly.
Before Daxia and these gods joined the Tenjin Division, they all promised that
they would obey any orders when they saw the orders of the gods.
"Brothers rush in together! Whoever stops and kills whoever!"
The Black Sky Alliance and other forces are also preparing to charge.
Qinglong and the others are extremely tangled.

On one side is the order of the gods, and on the other is Levi Garrison.
They can't attack at all.
An irritable cold sweat broke out.
At this moment, Levi Garrison suddenly shouted: "Qinglong, Qilin, Suzaku, White
Tiger, Xuanwu, Xiao Feng…"
"Stop them for me!!! If you still think I'm Levi Garrison!"
"what?"
How many people are going crazy!
It's even scarier than they thought!
Levi Garrison began to let them choose.
Whether to choose him or choose the order of the gods!
This question is so hard!
Everyone's footsteps were stagnant, and they all looked at Qinglong and the
others.
Waiting for their choice!
"All the god guards attack me!"
"What are you hesitating about? Attack me!"
Long San and Long Wu shouted.
"Aren't you still the guardian of the gods? Is it difficult to choose?"
The Return of the God of War [The
Protector] Chapter 3210
"What about your loyalty? What about your promise? You are a member of the
Tenjin Division! You must obey the orders of the gods unconditionally! Even if
the knife is on your neck!"
…
Long San and Long Wu shouted wildly.
Others are waiting for the decision of the crowd.
Qinglong and the others hesitated until their blue veins burst, with a painful
expression on their faces.
This choice is too painful.
The urging of Long San and Long Wu kept coming from their ears, and their heads
were about to explode.
"what!!!"
"Stop them!"

…

Suddenly, Qinglong, Qilin and the others all turned around, facing Long Sanlong
Wu and thousands of people…
All of them really turned around at the same time.
"Whoever passes by here is my enemy, killing without mercy!"
"Yes, no one can pass from here!"
"Boss (Master), don't worry, we are guarding here!"
…
the crowd shouted.
They formed a human wall to block Long Sanlongwu in front of them.
Levi Garrison was very relieved to see this scene.
Enter the king's lair with the Dark Doctor and the others.
Qinglong and the others looked at each other and all laughed.
So happy for their choice!
They stood on Levi Garrison's side again.
"It's the other way around! It's the other way around! Qinglong, you guys are the
other way around! You don't obey the orders of the gods! I must tell others about
your actions today! Expel you from the gods!"
"It's over! It's over! It's over now!"
"If the strongest evil gu swallows the strongest poison, who can stop it?"
"Wait, before long Daxia will become hell!"
"By then, too many people will die, and you will be blamed!"
…
But no matter what they say.
The human wall formed by Qinglong and the others did not give in an inch.
"Give me… hey, forget it…"
Long Sanlongwu still wants to attack.
But seeing Qinglong and their so many gods.
It can only be a lose-lose situation.
There is no way.
Can only wait here.
prayed…
However, the forces of the Black Sky Alliance were angry because they were
afraid that they would not be able to divide the treasures of the King of Evil Gus.
There is no way.
There are so many gods standing in front of them.
There's really no way.

Levi Garrison and his party of five continued to go deeper.
Saw a lot of poison and beasts.
Seeing the evil evil spirits, his eyes were straight.
To him, everything in front of him is a treasure, more addictive than a woman.
But what followed was a scene like purgatory on earth.
Living people refining Gu.
It's terrifying to the extreme!
It looks irritating.
Many babies and children were also refined Gu.
It looks distressed and angry…
*"It's not f*cking human!!!"*
Doctor Dark cursed.
Levi Garrison was also very angry.
Looking at those children, I think of Levilia.
Levilia is poisoned, as well as himself.
But what about them?
only to be tortured.
But there is no way…
Keep going.
They finally meet people.
In fact, at this time, the King of Evil Gu and his apprentices all received messages.
Thousands of masters outside surrounded them.
Hundreds of people stared at Levi Garrison and them.
The king of evil gu in the rear even put out all the poisonous gu to prepare for a
battle.
"Don't get me wrong, we are here to detoxify the King of Evil Gus!"
Levi Garrison said.
"Levi Garrison, right? Is your daughter the strongest poison?"
A thin, terrifying, ghostly old man stepped out from behind.
His eyes were glistening.
He looked at Levilia excitedly: "It's really strong! This poison!"
Not wrong.
His most poisonous Gu is about to be successfully refined, and it is just a matter
of savage preparations.
Now it's delivered to your door.
How could he not be excited?
It is melancholy, there is a strong poison as the nutrients of the most poisonous

Gu.
The poison in Levilia's body is too suitable.
Levi Garrison naturally saw his intentions.
But for Levilia, he didn't say anything.
"Come on! Let's start!"
Levi Garrison didn't talk nonsense, and directly carried Levilia to the front.
The Return of the God of War [The
Protector] Chapter 3211
He is also fully prepared!
As long as there is any danger in Levilia, he will immediately start.
The King of Evil Gu didn't talk nonsense, and immediately took out the strongest
evil Gu.
Take out a box.
A terrible aura filled the audience.
The poisonous creatures around them became restless, and even the beasts they
kept made terrified movements.
And all the living people who were used to refine the poison gu also became
restless.
Because the poisonous gu in their bodies felt the aura of the strongest evil gu.
The most terrifying thing is that the disciples of the King of Evil Gu are also far
away.

If the main distance is too close, it will be sucked away by the most poisonous Gu.
This is the reason why the most poisonous Gu will die near it.
"You all stay away!"
The King of Evil Gu laughed and said to Levi Garrison and the others.
Levi Garrison waved his hand, and Doctor Dark and the others all retreated.
"I'm fine! I want to watch my daughter!"
Levi Garrison said.
The King of Evil Gus didn't take it seriously.
Open the box slowly.
Immediately, a terrifying aura filled the audience.
This evil aura is far more terrifying than those gods.

They are comparable to the fierce beast that Levi Garrison encountered when he
first came out of the Antarctic glacier.
Levi Garrison looked over immediately.
The most poisonous Gu turned out to be a small insect.
But it is a heaven-defying poison!
But this little bug is too bright and colorful.
It looks cute and pretty.
But no one dares to touch this poison!
Anyone who knows this little guy will break out in a cold sweat.
From the very beginning to refine this poisonous Gu, I don't know how many
living people were used.
Even the King of Evil Gus doesn't remember it.
However, his surprised eyes fell on Levi Garrison.
"Huh? What's wrong with him?"
The King of Evil Gus wondered.
He knows better than anyone how strong this strongest evil Gu is.
As long as it is within 100 meters of it, it will definitely die.
Not to mention that they are so close now, as long as the aura emitted by the
strongest evil gu is contaminated, it will immediately corrode the body and devour blood essence.
But Levi Garrison in front of him has nothing at all.
But soon the King of Evil Gu's attention was on the little bug.
He is now only looking forward to the complete refining after the poisonous Gu
has swallowed up Levilia's highly poisonous nutrients!
Who can stop him then?
Those people out there are going to die!
After the little bug came out, it seemed to smell the poison on Levilia's body.
Shaking his body excitedly, he immediately ran towards Levilia and took a bite in
Levilia's hand.
Sure enough, this poisonous Gu now likes all kinds of poisonous poisons and
devours poisonous poisons as nutrients.
The more toxic it is, the more it likes it.
Now madly absorb the poison in Levilia's body.
Levi Garrison stared at Levilia intently, paying attention to the changes in her

every move.
As soon as Levilia changes, he will immediately take action.
He also carefully felt the changes in Levilia's body, especially the toxins in his
body.
After all, this poison is too cunning, and if it is affected by external forces, it will
intensify.
I don't know what will happen to this strongest evil Gu?
But soon, Levi Garrison's face showed ecstasy.
Because this strongest evil gu is like the natural enemy of this toxin, madly absorbing the toxin in Levilia's body.
The toxin has no ability to resist at all, let this evil gu madly absorb it.
The so-called one thing down one thing.
Now the toxin in Levilia's body is only its food, how can it resist.
The toxins on Levilia are decreasing, and Levilia is not a problem, but the process
is too painful.
surprise!
What a surprise!
Levi Garrison was extremely surprised.
And for the King of Evil Gus, it was a great surprise.
Because with the speed at which the strongest evil Gu absorbs Levilia, it also
becomes stronger and stronger.
The breath is almost twice as strong as before.
Still on the rise!
He will become the most poisonous Gu!
A rare poison in the world!
"Hahaha……"
The Return of the God of War [The
Protector] Chapter 3212
The King of Evil Gu couldn't help laughing, and his breath also rose.
Because this is his Accompanying Poison Gu, which is connected with his bloodline.
The stronger the poison Gu, the stronger he is.
A terrifying aura enveloped the entire Shifang Mountain.
The aura and magnetic field were abnormal, the wind was blowing, and there was
lightning and thunder in the air.
The aura formed a vortex in the air, and everything around was affected.
Terrible visions are scary!

When Long San and the others were waiting outside, they all exclaimed when
they saw this phenomenon.
"It's over! It's over!"

"It must be the strongest evil gu that has absorbed the terrifying toxin, and is
about to be completely refined!"
"Levi Garrison, you will be a sinner! Now it's too late for us to stop!"
…
The crowd yelled angrily.
However, Qinglong and the others still formed a human wall to block them, and
they would not take a step back.
…
The little bugs are getting more and more crazy about absorbing toxins, and
Levilia's situation has been getting better.
The King of Evil Gu was very excited: "It really is the strongest poison! Hahaha… I
have never seen such a powerful poison!"
"Baby, hurry up hurry up…"
He also urged excitedly.
If Levi Garrison slapped him in the past, he wouldn't know to be quieter.
But now Levi Garrison is also very excited.
This is the first time I have seen such an effective method.
Even better than the original holy spring…
…
Because the little bug absorbs toxins, the body also changes, sometimes purple,
sometimes red…
I don't know how long after that.
"Boom!!!"
Suddenly a thunderbolt exploded.
Immediately, the mountains in the ten directions were shaking wildly.
The most terrifying breath pervades, and all creatures in this area are extinct!
All the flowers, trees and treasures of heaven and earth have withered.
Even the aura crystals were all pumped out.
If it weren't for Levi Garrison, Doctor Dark and the others would be in danger.

And the blood of the disciples and grandchildren of the King of Evil Gu was also
drained out of thin air at this moment.
There are also those living people who refine Gu, they are all used to sacrifice the
strongest evil Gu.
Levi Garrison was devoted to Levilia, so he only protected a few doctors in the
dark.
Others really don't care.
Moreover, those living creatures who were caught to refine Gu have long lived
together with Gu.
can't be saved.
Might as well give them a relief.
"Hahaha… I've made it! I've finally made the strongest poison Gu!"
The King of Evil Gu laughed wildly.
And the worm was swallowed by him in one bite, and the two became one.
This strongest evil Gu was actually made by him.
It was actually him who practiced!
He exudes a terrifying aura!
Like a monstrous river and sea, rolling out, tearing the whole world apart.
powerful!
Strong enough to explode!
I don't know how stronger they are now than these gods!
Just one step away, Levi Garrison just delivered it today.
Help him to become the most poisonous Gu!
Isn't that what he's been waiting for?
It worked!
It finally worked!
The surrounding heaven and earth treasures, or the blood and essence of living
creatures, are constantly being absorbed by him.
This feeling of dominance is really great!
But at this time, Levi Garrison's attention was all on Levilia.
The strongest evil Gu is powerful.
However, the poison in Levilia is even more powerful. It only absorbed half of it
and reached its limit state, making it the strongest poisonous Gu.
Not absorbed at all.
Levilia still has half of the toxins left in his body.
But this is already great news for Levi Garrison.

Levilia will be well.
After absorbing half of the toxin, Levilia's physical condition has improved a lot.
Success is in sight.
Only half of the toxin is left.
"Hahaha, I made it, I am invincible in the world!"
"Who can fight me?"
The King of Evil Gu next to him laughed loudly.
Suddenly, Levi Garrison appeared in front of him with a bang.
"Snapped!"
A hard slap.
"Are you arguing with your mother?"
The Return of the God of War [The
Protector] Chapter 3213
After finally Levilia improved, Levi Garrison wanted to check the specific situation of Levilia.
As a result, the idiot was laughing and talking nonsense next to him.
Come up with something shattering.
To Levi Garrison, it's just noise!
I'm so bored!
Therefore, Levi Garrison went up and gave him a slap in the face!
However, the slap of the King of Evil Gu was stunned.
A moment ago, he was still saying that he was invincible and dominated everything.
After a second, he was slapped fiercely.
Join Telegram Group For Fast update
He didn't respond, didn't even notice.
its not right!
How strong is he now, how could he be?
Where is the problem!
Something doesn't seem right!
In front of him stood Levi Garrison, looking at him.
"Thank you for detoxifying my daughter, although half of it is detoxified! But for
me, it is detoxification! Thank you again!"
Levi Garrison was actually thanking the King of Evil Gus.
This made the King of Evil Gu even more confused.
Mainly he was still reminiscing about that slap thing.
Isn't he invincible?
What happened to the slap just now?
"But every yard is a yard! You helped me, I thank you, and we are even. But you

are a scourge, hurting so many innocent lives, then I will kill you, do you have any
opinion?"
Levi Garrison looked at him seriously.
In fact, Levi Garrison wanted to kill him from the very beginning when he heard
the information about the King of Evil Gus.
Just don't speak.
When he first came here, seeing him refining Gu with a living person, he became
more and more annoyed, and he already had the intention to kill.
Just have to wait until Levilia detoxifies.
Now that the goal has been achieved, he doesn't have to hold back.
It just so happened that this idiot was laughing and noisy, which angered Levi
Garrison.
"Ah? What did you say?"
It was only at this time that the King of Evil Gu slowly regained his senses.
He was indeed beaten.
It seems to be Levi Garrison in front of him.
Hearing what Levi Garrison was saying again, he asked subconsciously.
"kill you!!!"
Levi Garrison said seriously.
"What? Kill me? Hahahaha…"
The King of Evil Gu began to laugh: "I have nothing in the world…
Boom…"
But as soon as his words came out, Levi Garrison smashed with a violent punch.
The body of the King of Evil Gu exploded instantly, fell apart, and exploded into a
cloud of blood.
Levi Garrison's terrifying power was still spreading, and the blood mist disappeared instantly.
And the poisonous Gu that escaped was directly smashed by Levi Garrison.
He will not give the king of evil gu the slightest chance.
How can you live with a calamity that has done many evils?
see one kill one!
"I said thanks to you, we don't owe each other!"
Levi Garrison said.
Immediately, he hugged Levilia and left.
Outside.

When I saw Levi Garrison and several people came out.
Everyone looked surprised.
The king of evil gu has become the strongest evil gu, how can Levi Garrison and
the others survive?
Impossible!
Everyone was puzzled!
"Boss, has Levilia's poison been cured?"
Everyone is concerned about Levilia's detoxification.
Levi Garrison shook his head helplessly: "The poison in Levilia is too domineering,
even the strongest evil gu can only absorb half of the poison at most, and it can't
bear any more!"
"But for me, this is already a big surprise! It's a miracle! The road ahead is easy!"
"Really? That's really nice!"
The crowd also showed joy.
Some time ago, they actually followed Zoey Lopez to detoxify Levilia.
Now that it has worked out, everyone is excited.
"Fortunately for you, next they want to trouble you, come to me directly, I will
call the shots for you!"
Levi Garrison said.
"Okay, understand!"
Although people are confused.
But Levi Garrison looked like he didn't care about the gods at all, which made
them admire them very much.
I think Levi Garrison really has this strength.
The Return of the God of War [The
Protector] Chapter 3214
At this time, Long San and the others had already rushed in with all the forces.
However, the old nest of the King of Evil Gus was already in ruins.
Everything was destroyed.
People are all dead.
The treasures of heaven and earth have been scrapped, and the crystals of spiritual energy have all dried up.
Even the poison and poisonous poison were destroyed.
Obviously it is a first-level forbidden area, but there is nothing that can be used

now.
Exploded!
These forces of the Black Sky Alliance are going crazy.

Aren't they just here to find benefits?
There is nothing now.
"What's the matter? What's the matter?"
Everyone was puzzled by this.
"It should be when the strongest evil Gu was refined, it destroyed everything
around it, let the treasures of heaven and earth wither, and let the vigilance of
spiritual energy completely dry up!"
"After all, there won't be any living creatures around this evil Gu!"
Long San explained.
"But where is the king of evil gu? Where is the strongest evil gu? Why are they all
gone?"
"They shouldn't have escaped!"
Everyone quickly found the point.
The evil king is gone.
But everyone saw some traces.
It seems that the king of evil gu has exploded.
"Should be dead! I just heard Levi Garrison say that the strongest evil gu can
absorb at most half of his daughter's poison! I guess that the poison on Levi
Garrison's daughter is too strong! It exceeds the evil gu's ability to bear!"
"And this evil gu is made by the evil gu king by himself. The evil gu is one with
him. If the evil gu can't bear the explosion, he will naturally explode too!"
An old man who is good at this said.
Everyone nodded approvingly.
It seems so.
Otherwise, it is impossible to explain the secret that the King of Evil Gu exploded.
It can't be Levi Garrison who killed it, right?
Does he have this ability?
Even if he can fight against the gods, the king of evil gu just now is far beyond
the gods!

“Damn! It’s all Levi Garrison’s fault! Although the King of Evil Gus has been
eliminated, everything is ruined!”
“We don’t get any benefit at all!”
“If we personally encircle and suppress the king of evil gu, there will be a lot of
benefits!”
“Levi Garrison, if you want to pay it back, you have to compensate us!!!”
…
The major forces have tacitly understood that they want to make up their minds
on Levi Garrisonde.
They tried their best to get no benefit.
All this is because of Levi Garrison.
Therefore, they asked Levi Garrison to return this and make up for it.
Next, these forces will attack Levi Garrison.
Isn’t Levi Garrison a lot of resources?
Then grab it from him!
However, they need to attract more power, and it is not good if they lose out on
Levi Garrison.
When Levi Garrison became famous before, they had this idea.
However, Levi Garrison has been abroad, and it is difficult for them to reach out.
But now it is different, Levi Garrison happens to be in Daxia.
They have a chance.
Violently grabbed Levi Garrison and said it again.
…
But Long Sanlongwu laughed: “Although Levi Garrison shouldn’t be involved, our
goal has been achieved, and the king of evil gu has been eliminated! Everyone
can rest assured!”
The Heavenly God Division is all here to encircle and eliminate the king of evil gu.
But how do they understand the minds of these people?
They didn’t care how many people the King of Evil Gu had killed and what kind of
threat they could pose to Da Xia.
It’s just a matter of how much profit you can get.
Not to mention that they are already making plans for Levi Garrison.
“How wonderful! This scourge has finally been removed!”

…
Everyone pretended to make some appearances.
It looked as if they were really excited about the fall of the King of Evil Gus.
In fact, they were all thinking about how to attack Levi Garrison.
I just saw Qinglong and the others defend Levi Garrison so much. They are gods
and there are many people.
You have to find a way to get rid of them before you can attack Levi Garrison.
After Levi Garrison and the others left, he immediately released a reward order
to detoxify Levilia.
The Return of the God of War [The
Protector] Chapter 3215
It also spread the message of Levilia's detoxification half.
While offering a reward for the detoxification method, it is also a deterrent to
Hydra and mysterious forces!
"Come! Destroy! Stop! Come!"
"My daughter is half detoxified now! A bunch of trash!"
"Can you stop it? Garbage!"
…
Levi Garrison vented frantically.
Blocked all the way in this way, he was still a gentleman and solved half of the
poison.
The message was sent out, and the whole world was shocked.

Especially the forces of Hydra.
"Damn it! There is such a thing as poison gu swallowing poison! After taking half
of the poison, doesn't it mean that Levi Garrison's daughter is about to be completely detoxified!"
"Levi Garrison, I really hate you! No way! I can't let Levi Garrison's daughter
continue to detoxify!"
"We want to ask Zhanxiong Nation to send someone, no matter what the price is,
don't let Levi Garrison solve the remaining half of the poison for his daughter!"
…

Hydra is in a hurry.
None of them have come out of the shadow of the three leaders being killed.
Levi Garrison detoxified half of his daughter's poison again.
This is bad news for them.
When the senior officials of War Bear Country heard their request, they readily
agreed.
Next, they will send some gods to detoxify Levi Garrison's daughter.
…
The island where the Vengeful Hydra group is located.
Everyone was shocked when they heard the news.
"We stopped it for a long time, but in the end, Levi Garrison still detoxified half
of his daughter! If we don't pay attention to this, it may be completely detoxified!"
Everyone was extremely frustrated.
"No! If it goes on like this, if Levi Garrison's daughter is detoxified, he will not
take revenge on Hydra! We must prevent this from happening!"
"The order goes on, the entire organization will begin to detoxify Levi Garrison's
daughter from now on!"
"Let's put aside the matter of revenge against Hydra for the time being. This
matter can't be rushed, but Levi Garrison's daughter must be in a hurry to detoxify!"
…
When the genius doctor Yan Zangsheng knew about this, he exclaimed in his
heart – Levi Garrison was too daring to use such a method.
His daughter is similar to Levilia.
He was also sincerely happy to hear that Levilia's poison was half detoxified.
However, the mysterious force controlling Yan Zang's daughter was depressed to
the point of death.
Without them knowing, Levi Garrison's daughter's poison has been half solved?
It's a shame for them.
The next steps are the same.
Do your best to prevent Levi Garrison's daughter from detoxifying.

…
In fact, Levi Garrison released half of Levilia's detoxification information with
such a big fanfare.
In addition to shock and awe, it is also necessary to draw out these mysterious
people and forces that prevent Levilia from detoxifying!
The more provocative they are, the more they have to stop it.
Naturally, it came out.
I have also asked people to work with the Empire on the Sun to find it.
But these scumbags are too vigilant.
No clue left at all.
But this time is different.
Levilia is getting better.
He can do it himself.
You can even plan how you will deal with the enemies like Hydra and the Bear
Country after Levilia's poison is completely resolved.
There are also the big forces who deceived him and the forces that have been
named.
As soon as Levilia is well, he will go to the door one by one to settle accounts.
Levi Garrison is really relieved now, because after half of the toxins are gone,
Levilia is almost back to normal.
No more lethargy, I can walk by myself, and these are no problems with normal
activities.
Even as long as Levi Garrison suppresses the other half of the poison, Levilia can
practice his own exercises.
He believes that if he finds a way, Levilia's other half of the poison will definitely
be solved.
It's just a matter of time.
A new round of bounties has begun.
What makes everyone incredible is how Levi Garrison still has resources?
The Return of the God of War [The
Protector] Chapter 3216
According to what everyone knows, Levi Garrison lost too many resources during

this time.
The first is the reward order, so many people have benefited from Levi Garrison.
The key point is that he has also been "looted" by Heilongguo, occupied by Tianqi
Empire, deliberately deceived, and given so much to Daxia.
As a result, he was able to release a bounty.
Where did his resources come from?
How are the resources obtained?
Isn't this secret told to the Apocalypse Empire?
This series of questions is plaguing everyone.
And according to recent information, Levi Garrison never left Daxia at all.
Join Telegram Group For Fast update
His resources should be empty.
No one was brought in from abroad either.
Where did it come from?
His resources seem to be picked and digged anytime, anywhere…
It's puzzling.
The most important thing is that the War Bear Kingdom has been staring at the
Apocalypse Empire?
But since the Apocalypse Empire got Levi Garrison's secret, they haven't "goed
out".
There is no action!
In the end, there is no resource to get Levi Garrison, no one knows.
As for the War Eagle Nation and the forces behind it, they don't care about it at
all.
They won't worry about or wonder where Levi Garrison's resources come from.
No matter how it is a secret, it is nothing more than related to the recovery of
spiritual energy, and it is related to the super spiritual veins under the Antarctic
glaciers.
Unchangeable.
These are the sources!
This resource is not enough for the forces behind the War Eagle Nation.
Outsiders don't know, but in Daxia, especially those who know Levi Garrison well.

Where Levi Garrison is located, resources are piled up again.
If the aircraft of the Brain of God were used to fill it, it was estimated that it
would take ten aircraft to fill it up.
And as always high quality.
Anyone who sees it will drool.
This is what Levi Garrison recently collected in the first-level forbidden area in
Daxia.
The overall quality is even slightly higher than what was collected before.
Levilia, who can move now, is playing in these mountains of resources.
Of course, the location of this resource is hidden, and no one but a few people
know it.
Although Levi Garrison is not afraid of being missed, he is afraid of trouble.
If this place is exposed, people will come to harass it every day.
Levi Garrison was annoyed to death.
I am afraid that thieves will miss you.
Thieves abroad are concerned, but it is difficult to implement.
The first thing to do is to enter the summer.
Daxia does not say whether there are people behind it, but the number of Tianshen guards is still increasing.
The gods appeared one by one.
Don't dare to enter the big summer, let alone go to Levi Garrison's resources.
But Daxia's thief is always thinking about it.
It is the forces of the Black Sky Alliance.
Although they have been constantly fighting, they are constantly plundering the
resources of others.
But after all, it's a small fight.
With the resources that Levi Garrison has now, as long as they get a share of the
pie, they don't have to kill others and rob others…
It can even be said once and for all.
Therefore, they are very envious, especially after the idea was born last time.
They have been contacting other major forces, preparing to swallow Levi Garrison's resources together.
After some contact.

There are twenty-four big forces like the Heitian League, and there are forty or
fifty other small forces.
All parties added together, and now the army is strong.
You can do it to Levi Garrison.
It's just that the depressing question now is – where Levi Garrison's resources are
located, and I haven't found it yet.
This is a technical job.
This place is so secretive.
They had already sent people out to look for it, but they haven't found it yet.
Just when they were in a hurry, one of the forces "Blood Hand Palace" brought a
message.
"I really didn't think that Levi Garrison would put resources in this place, no
wonder we have been unable to find it!"
The Palace Master of the Bloody Hand said in surprise.
The Return of the God of War [The
Protector] Chapter 3217
Everyone gathered together: "Where are Levi Garrison's resources hidden?"
"I don't think so, Levi Garrison actually hid the resources in the lair of the king of
evil gu…"
As soon as the Hall Master of the Bloody Hand Palace finished speaking, everyone's voices rang out.
All are surprised.
So many of them are looking everywhere these days.
But just ignore this place.
Where is the mountain in the ten directions in Miaojiang, it has long been destroyed by the strongest evil gu, and no one will go there at all.
Levi Garrison hid resources in this place, and it was really hard for others to find
them.
If you let them find it by themselves, they won't be able to find it.

Levi Garrison is a great place to hide resources.
The leader of the Black Sky Alliance asked, "How did you know this information?"

The Palace Master of the Bloody Hand said with a smile, "The mountain man has his own plan!"
"It was revealed by someone from the Tenjin Division, right?"
The leader of the Black Sky Alliance laughed.
"Hahaha……"
The Palace Master of the Blood Hand Palace all laughed.
The only one who can know where Levi Garrison is now is Tianshensi.
It must be that the Palace Master of the Bloody Hand is in contact with some people in the Department of Gods.
Thus concluded the transaction.
"Of course, it's not that easy! We have to pay! After all, it's too early to be profitable! Besides, Levi Garrison has so many resources, who doesn't want to take a bite?"
The Hall Master of the Bloody Hand Palace continued.
"How to say?"
All the leaders looked at him.
"First, he provided us with information…"
Everyone nodded: "We understand this! But is there a reason?"
"Second, he will take away all the Tianshen guards related to Levi Garrison. When we deal with Levi Garrison, the Tianshen guards will not appear!"
As soon as the Lord of the Bloody Hand Palace said this, everyone was excited.
One thing they have to deal with Levi Garrison's worries is that the gods like Qinglong will help them, and they will be very uncomfortable at that time.
Everyone is trying to figure out how to prevent them from taking action.
Now it seems that this problem is easily solved.
"This is a good thing, and it's a lot of credit! He must be divided…"
Everyone said in succession.
"He wants one-tenth of all resources!"
The Palace Master of the Bloody Hand said.
Everyone immediately fell silent.
A little hesitant.
One tenth is too much.
"Okay, I can only promise! After all, Tianshenwei can take it away! Only we can succeed!"
The leader of the Black Sky Alliance gritted his teeth and agreed.

“Well, I promise!”
…
The others agreed.
Everyone knows what the current resources mean.
Even the gods of the Heavenly God Division are greedy and want to take a bite.
But even if they have thieves in this regard, because of their identity, they cannot
openly take action against Levi Garrison.
This is the only way to get a piece of the pie.
They are not for Daxia, nor for the gods, but for themselves.
After all, everyone now knows that the gods can actually be stronger, which is
not the point.
But if the gods want to be strong, they must need massive resources.
More than anyone else needs…
Now Levi Garrison’s resources are actually envied by many people.
“Hahaha… I thought that the Tianshensi group was extremely noble, all for the
sake of Da Xia and others. I didn’t expect to be the same as us? All of them are
virtuous gentlemen!”
“On the surface, everyone is serious, but in fact, they are even darker than us.”
“It’s too bad. If you reveal the information, you have to send people away! Hahaha…”
“Who wouldn’t be jealous when you see so many resources! It’s normal for people
in the Tenshen Division to have such a thief! I just don’t know who it is…”
…
Everyone said, their eyes turned to the Palace Master of the Bloody Hand Palace.
“Don’t ask who it is, this matter is kept secret! I won’t let you know!”
“But some people should have guessed who it is…you know it…”
“Next, everyone is ready to attack Levi Garrison…”
The Return of the God of War [The
Protector] Chapter 3218
Soon, everyone will gather all the forces.
Begin to infiltrate the Miaojiang Shifang Mountains little by little.
After about half a day, all the forces gathered.
The old nest of the King of Evil Gus is densely populated with people.
This time, the number of everyone was more than three times higher than

before.
In particular, all parties have taken out all the combat power comparable to the
gods.
All parties have come together, and there are more than 60 combat powers that
can rival the gods.
This means that in a short period of time, the major forces have more than 60
gods.
They were all ambushed outside the lair of the Evil Gu King.

Waiting to get started.
Their people just checked it out for themselves.
Levi Garrison's resources are indeed all here.
The message from Tenjinji is not wrong.
Next, we will wait for someone from the Tianshen Division to take away all the
Tianshen guards related to Levi Garrison.
the other side.
The Tenjin Division suddenly received an order to go north to solve a big crisis.
The War Bear Country near the northern border has changed, and the Tianshen
guards must be dispatched to guard the northern border to prevent accidents.
After receiving the news that all the Tianshen Guards went north, the Heitian
League and other major forces could no longer sit still, and all attacked.
Sneak into the lair of the King of Evil Gus quietly.
At this moment, Levi Garrison is closing his eyes and resting.
Levilia researched among a bunch of resources and was very curious about
everything.
The Dark Doctor and the Brain of God are also busy with bounties.
Other than that, no one has.
"There are guests coming, please welcome them!"
Levi Garrison said without opening his eyes.
From the moment these guys appeared around, Levi Garrison noticed it.
And he wasn't at all surprised that these people used their own resources.
From the moment he got rid of the King of Evil Gu, he knew the result.
I know that this group of people will make up their minds about their own

resources sooner or later.
Sure enough, it's finally here.
…
"Boom…"
The next moment, there was a commotion that shook the ground.
All these forces of the Black Sky Alliance have come.
From all directions, it was surrounded like a flood of beasts.
Surround this area to death.
The two doctors in the dark were interrupted and looked over.
Levi Garrison was still lying down, too lazy to look at them.
The group rushed to the front, and the leader of the Black Sky Alliance shouted:
"Levi Garrison, hand over all your resources obediently, don't force us to grab it!"
"Hand over the resources! If you don't, we'll grab it!"
Others said in succession.
"Black Sky Alliance, right? Meeting for the third time?"
Levi Garrison muttered to himself.
"The third time we meet?"
The leader of the Black Sky Alliance and everyone in the Black Sky Alliance heard
this and looked surprised.
Counting this time, shouldn't it be twice?
Where did the third time come from?
Little did they know that Levi Garrison had already been to their base camp long
ago, and even gave them people and resources.
It's just that they don't know.
"Levi Garrison quickly hand over the resources! You ruined our plan last time,
causing the King of Evil Gu's so many treasures, we have to get none of them!"
"You should compensate us! Now we have to ask for compensation ourselves!"
"As long as you give up all the resources after your birth, we will leave immediately without harming anyone!"
…
The crowd shouted.
Doctor Dark was delighted: "Last time, didn't you mean justice to the king of
extermination of evil gu? Didn't you want to eliminate harm for the people? It

turned out to be rushing for other people's treasures! What a hypocritical group
of guys!"
Everyone stared at the dark doctor and sneered: "You can't control this! Hurry up
and hand over the resources!"
"Levi Garrison, make a decision quickly!"
"I said what if not?"
Levi Garrison's voice came!
"If you don't, then we can only use force to grab it directly! Are you sure that the
three of you plus one poisoned can stop so many of us?"
The Return of the God of War [The
Protector] Chapter 3219
The head of the Black Sky Alliance glanced at it and said with a sneer.
They're just naked threats.
"Although there are no definite gods among us, there are sixty-seven people who
may have the power to fight with gods! In a short period of time, they are gods!
There are hundreds of people who are close to gods, and the others have experienced hundreds of battles. The master!"
"Are you sure how many people can stop it?"
They sneered.
"Who said there were only a few of us?"
Levi Garrison asked back.
"Ok?"
This made everyone stunned.

Then everyone laughed.
"Are you waiting for the gods related to you by the Tenjin Division? Don't worry,
even if you die today, they won't come!"
"Yes, they can't come no matter what, and they won't know about it!"
"When they know, we've robbed you of all your resources!"
...
Everyone looked confident.
In everyone's opinion, Levi Garrison was waiting for Qinglong and the others.
Apart from these people, he has no support.
What's more, this is in Daxia, and those foreign helpers can't come.
"Huh? What happened to them?"

This made Levi Garrison not think of it.
Of course, he won't think about anything because of these minions.
Never thought they were not there.
It seems that these people have prepared a lot in order to move themselves.
"Of course they were taken away, and now they are on the edge of the northern
border! I can't take care of you!"
"Levi Garrison, give up! They won't have anyone to save you!"
"The only one who can save you now is yourself! As long as you hand over all your
resources, it will be fine!"
"What's more, aren't your resources endless? Send a little and you'll have them
again soon! Wouldn't it be better to save your life?"
…
Several heads of these forces said.
But it makes sense.
Levi Garrison's resources are just like Chinese cabbage, there are as many as you
want.
To him, resources seem to be the least valuable.
Wouldn't it be better to trade your life for the least important thing?
At this time, Levilia was also alarmed and walked out.
After seeing Levi Garrison, he smiled and said, "Levilia go back and continue to
play, it's alright!"
After Levilia listened, he turned and left, and continued to play.
It doesn't seem to worry at all.
This made everyone's heart skip a beat.
It seems that they don't care about them at all.
"Levi Garrison, your backers will not come, we will give you a few seconds to
think about it!"
"If you don't agree, don't blame us for doing it yourself! Let's see if you can stop
it?"
"Everyone is ready…"
These forces are all ready to attack at any time.
They already have the scene of dividing up resources in their minds.
As for Levi Garrison who was standing in front of them, they didn't care at all.

At this moment, Levi Garrison said lightly, "Who said I was referring to them?"
The words are not surprising and die endlessly.
Levi Garrison's simple words came out.
All the people who were going to attack stopped abruptly.
Not them?
Anyone else?
But Levi Garrison's backer in Daxia is the God of God, right?
All the words of the gods have been compiled into the Tenjin Division!
There is no god in Daxia to help Levi Garrison!
How could there be anyone else?
impossible!
Have no idea!
Where are the others!
Everyone looked at Levi Garrison suspiciously.
The hall master of the Bloody Hand Hall shouted: "Levi Garrison, don't try to
delay time! No one will come to save you! Give it up! No matter how much time
you delay, it's useless!"
"Oh, it turns out to be delaying time, I really thought someone was there?"
"Hahaha… Levi Garrison's procrastination is really useless, because there is no
one at all."
…
Everyone reacted.
Everyone is saying that Levi Garrison is procrastinating.
But Levi Garrison smiled: "All come out? People say I'm procrastinating!"
The Return of the God of War [The
Protector] Chapter 3220
"Ah? Really?"
Everyone was stunned.
Looking around.
"Yes, there really is!"
Suddenly a voice came.
I saw a figure appear from above a towering tree.
Jiao Tianyu! ! !
He is now showing his breath without reservation.
God! ! !
Join Telegram Group For Fast update

“Yes, there really is!”
There was another voice.
Ning Jinye appeared out of thin air.
Another god.
No, super god!
Everyone can clearly feel that Jiao Tianyu, Ning Jinye’s aura is much stronger
than those of the gods in Tianshensi.
It feels like they can smash the gods of Tenjinsi!
“And I!”
Zheng Haobo also appeared.
“I!”
“And I!”
…
A voice sounded, and a figure appeared.
Around, there are figures everywhere.
And they are no longer the usual, undisguised breath.
The terrible atmosphere was all diffused.
Be caught off guard.
The key is where these figures are hidden, the forces do not know at all.
It turned out that so many strong people were hiding under their noses.
“One, two…”
Everyone started to count.
Eighty people!
A full eighty super gods!
Much more terrifying than the gods.
Still so many.
unimaginable!
They have more than 60 people who can fight the gods temporarily, so they can’t
be proud.
He also threatened Levi Garrison.
This time, eighty people, far more than the gods, appeared.
How are they fighting?
Don’t let people blow their heads out one by one?
The key is who are these?
I don’t know any of them!
These are hidden forces hiding in deep mountains and virgin forests.
How do you know about Jiao Tianyu and the others?
Even if other people see it, they may not believe it.
In the past, one of the least favored groups in Kunlun College turned out to be

outrageously strong one by one.
However this is not the end.
Even just getting started.
There were still people who continued to come.
"The Holy Gold Mercenary Group is here!"
Suddenly a group of forces appeared from the rear.
One by one, the aura is lingering, and the murderous aura is rampant.
It turned out to be the Holy Gold mercenary organization that was hired by Levi
Garrison to "rob"!
After they got Levi Garrison's resources, now there are more gods, and the
overall strength of the strong has also risen.
And there are more.
"The Eternal Frozen Mercenary Group is here!"
Another group of mercenary organizations appeared from the rear.
"The Black Storm Mercenary Group is here!"
"Desert Eagle Mercenary Group is here!"
...
One after another, mercenary organizations appeared behind these forces.
Unpredictable.
"The Doomsday Mercenary Group is here!!!"
The most powerful doomsday mercenary group is here.
Once they were fifty gods.
But now with Levi Garrison's resources, rapid development has been added.
There are now eighty gods!
There are also gods constantly joining in.
These mercenary organizations have 140 or 50 gods.
And there are hundreds of people who can fight against the gods.
Or all in a short period of time.
Plus Jiao Tianyu's eighty gods.
The number of gods is unimaginable!
And each of them is a god who has experienced hundreds of battles and is smashed by fists.
It's not something that the gods spawned in the greenhouse can compare to.
In this battle, all the leaders of the Black Sky Alliance were frightened to death.
Where did this come from? ? ?
Doesn't it mean that there is no one on Levi Garrison's side except for the few

heavenly guards?
How come there are so many?
The Return of the God of War [The
Protector] Chapter 3221
one by one!
They are even stronger gods!
They couldn't figure out why Levi Garrison had so many gods to help.
Of course, Jiao Tianyu followed Levi Garrison.
As for these employment organizations, Levi Garrison called them to help him
investigate those mysterious forces.
I never thought that these unlucky bastards from the Black Sky Alliance would
come.
"Can I always take a break today?"
Levi Garrison looked at them and asked.
"Of course, leave it to us today!"
Join Telegram Group For Fast update
Everyone shouted.
Levi Garrison was really too lazy to move.
Let him clean up all the cats and dogs.
He is really annoying.
The king of evil gu, who can torture gods into scum, was also smashed by him
with one punch.
Others are less interested.
So he still lays down.
I'm too lazy to move!
Anyway, there are people who solve the problem, and there are still many.
Now he can lie down and sleep.
…
But the forces of the Black Sky Alliance were all stunned.
One by one at a loss.
surrounded!
If you want to run, you can't run!
No one wants this!
They were actually surrounded.
Incredible!
Surrounding them are the per capita gods' combat power.
And those who are truly gods are stronger than ordinary gods.
How to fight this?
"Hey, we haven't come together yet…"

Levi Garrison let out a long sigh.
“boom!!!”
At this time, a storm suddenly swept the audience.
Levi Garrison’s expression changed.
The strength of this person should be comparable to that of the King of Evil Gu
who has become the most poisonous Gu.
Too bad it’s not his enemy.
Otherwise, he is still a little bit interested.
As soon as this person appeared, a terrifying aura filled the air, crushing the
audience.
Including a group of people such as Jiao Tianyu before.
Got to be crushed by this guy!
This is definitely the strongest god that more than a dozen employment organizations have ever seen!
There isn’t one!
Levi Garrison and the others have never seen it before, and they all look like
ordinary people.
But the gods have seen a lot of them and killed a lot of them.
More of their own brothers died at the hands of the gods.
But this is the first time I have seen such a powerful god.
For a long time, everyone has known that there is a gap between the gods.
But this is the first time I have seen such a big difference.
*So f*cking strong!*
For others, not many gods have been seen.
But I have experienced the king of evil gu who has become the strongest evil gu.
The figure that appeared in front of him had an aura that was very close to the
King of Evil Gus.
Soon, a figure descended from the sky.
“Fire Cloud Evil God!!!”
Jiao Tianyu and the others still recognized them.
Just didn’t think that Huoyun Evil God was so powerful?
And they could also feel that the Huoyun Evil God was also the most basic technique of Levi Garrison that they practiced with.
powerful!
Really too strong!
“Mr. Ye, here I come!”
After the Fire Cloud Evil God landed, he shouted at Levi Garrison.

Levi Garrison was lying on the comfortable seat and scolded: "I'm sleeping,
what's the noise? Hurry up and solve it for me!"
"okay!"
Fire Cloud Evil God smiled.
Everyone's atmosphere was cheerful and harmonious.
But the forces of the Black Sky Alliance are about to cry.
What the hell is going on here?
It's a total dimensionality reduction attack!
God does not say so much!
They are all supernatural beings!
How does this play?
Where could I have imagined that, with the Qinglong guards around Levi Garrison,
a group of more powerful ones came.
Who is this Levi Garrison?
Why are there some perverts around?
Now they seem to understand a little bit about how Levi Garrison's resources
came from"
With such a strong team, they went directly to the forbidden area to dig out.
However, they still had limited imagination and did not think of Levi Garrison.
This is more terrifying than they imagined!
As long as you enter the forbidden area with Levi Garrison, you can take the
treasures of heaven and earth and aura crystals casually, which is much easier
than picking mushrooms.
The Huoyun Evil God looked at the major forces, and said coldly, "You guys want
to grab resources, right?"
The terrifying breath spread out, like a huge wave.
"We… we don't have it, how dare we?"
"We just came to visit out of curiosity…"
"Yeah, if I'm not mistaken, it's a tree, right?"
Someone stared at a big tree and said.
…
These forces are going to be frightened and start to talk nonsense incoherently?
Who is not dumbfounded by such a scene?

The Return of the God of War [The Protector] Chapter 3222

"You're not a good thing, either. Burning, killing, looting, and doing all kinds of evil! Just during this period of time, the lives you coaxed out of killing people are no worse than the king of evil gullibles?"

"Yes, in fact, this group of people are a group of scourges who kill people without blinking an eye! All of them are virtuous pretending to be gentlemen!"

"Today, let's get rid of harm for the people!"

...

Jiao Tianyu and the others said.

The Huoyun Evil God stood at the front and said coldly: "Brothers, today I have wrapped up these people. They are all mine!"

But as soon as these words came out, the others did not agree.

"That won't work! Everyone must have a share!"

"kill!"

...

Next, Jiao Tianyu's 80 people and Huoyun Evil God attacked in an all-round way.

The hiring organizations surrounding the Black Sky Alliance behind them did not directly act.

However, they were guarding the rear, and if anyone ran, they would kill.

A completely crushing and hanging battle began.

All kinds of mourning sounded here.

*Levi Garrison, who was sleeping, shouted impatiently, "f*ck me, hurry up, it's so noisy! Hurry up and fix it."*

"okay!"

Everyone who received the signal accelerated their speed.

Don't give this group a chance to react.

Just a minute.

These forces of the Black Sky Alliance, no one is standing.

All killed!

These scumbags don't deserve to survive!

So this is what Levi Garrison allowed!

The main combat power of this "massacre" is still the Huoyun Evil God and Jiao

Tianyu.
The hiring organizations outside were just watching.
But they were frightened by Jiao Tianyu's terrified fighting power.
too strong!
Not even the strongest doomsday mercenary organization!
Can't beat it at all.
It took a little more time to clean up everyone.
Everything is clean.
As if they never came.
The Evil God of Fire Cloud came to Levi Garrison to reminisce.
"Old evil grows very fast!"
Levi Garrison smiled.
"I have to continue to work hard. Compared with you, I'm almost 108,000 miles
away!"
Standing in front of Levi Garrison, Huoyun Evil God felt as small as a speck of
dust.
"If I don't do it, you will be invincible!"
Levi Garrison joked.
It can be seen that because Levilia has solved half of the poison, he is in a good
mood.
Otherwise, there would be no time to joke around with the Evil God of Fire
Cloud.
That is impossible.
"Levilia's poison is about to be solved. It's much easier now than before. You have
released a reward order again, and I believe someone will provide a solution
soon!"
Fire Cloud Evil God glanced at Levilia.
But at this moment, God's Brain said: "The situation is not good!"
Everyone looked over and asked, "What's wrong?"
"It's not because of the bounty! There are many people who want to come to
trade, but they are all killed! That's why we haven't received trade requests from
others until now!"
said the brain of God.
Not wrong.

It's been a while since they released a bounty.
But so far no one really came.
Doctor Dark and they are still strange.
Someone had stopped it before, but at least someone came.
What's the situation now?
No one came.
"Hydra has just released a message – anyone who wants to detoxify Levilia and
accept a reward order will be killed without mercy!!!
The Zhanxiong National team sent 800 gods to snipe all over the world!
Anyone who dares to accept the bounty will be killed! Too many people have died
so far, and no one dares to come! "
The Brain of God has a terrific message.
"Obviously, Hydra started desperately to stop Levilia from detoxifying!
Zhanxiong Nation is also a strong support! No matter the cost! Sending eight
gods will explain everything!"
Doctor Dark sighed.
"Damn, are Hydra and War Bear Country courting death?"
When they heard this, they all refused.
The Return of the God of War [The
Protector] Chapter 3223
*"You have to f*ck them directly! Otherwise, they will all kick their noses in the*
face! Damn it!"
"Zhanxiong Nation is also, I swear to death with Hydra!"
...
Jiao Tianyu and the others were all pissed off.
I can't wait to kill it directly.
"Not only that! There are also mysterious forces who are also hunting down
those who receive the reward!"
"And there's more than one mysterious force! It doesn't seem like there are
fewer people sent than Hydra!"
"Everyone who received the bounty was slaughtered! Now everyone is afraid! No
one dares to come!"
...

The Brain of God continued.

The situation was worse than they thought.
Hydra, War Bear Kingdom, and the mysterious forces really do whatever it takes.
Invisibly, a tacit understanding was also formed.
If one party can't kill it, or if it can't be found, the other party will kill it.
If this goes on, everyone will be slaughtered.
In the past, I tried to stop it as much as possible, but there was no way to stop it.
And Hydra is not very worried about these.
After all, the poison in Levilia is too terrifying.
Not easy to solve.
Or in other words, it can't be solved at all.
So they don't have to worry too much, just try their best to prevent this possibility.
But now it's different.
Levilia half of the poison has been detoxified.
Then the next step is really easy, if you continue to let Levi Garrison use this kind
of reward order.
It's really easy to get rid of the poison.
Therefore, Hydra will stop at all costs.
The same is true for the corresponding organization of revenge Hydra and mysterious forces.
At this moment, the three parties reached an unanimous goal – stop Levilia from
detoxifying at all costs.
This time, even if someone in Daxia came to accept the reward, they would do
the same.
Really crazy!
Do all you can to stop it!
Levi Garrison was not surprised by this result.
This is also the reason why he announced the bounty in such a high-profile manner.
The purpose is to force them out and let them stop.
That way they will show their feet.
to find out their identities.
In particular, Levi Garrison was troubled by the forces that destroyed the blood-changing records, the forces that used the 100,000-year-old snow lotus as
an excuse to deceive resources, and the forces that controlled the genius doctor.

This time he must find out!
“Hurry up and inform the Empire of Never Setting Sun, and the Underworld God,
and they have begun to check it out for me! I don’t believe they can escape! Be
sure to check it out for me!”
What Levi Garrison was waiting for was their desperate actions.
That way there will be traces.
But how could he not be angry about these forces preventing his daughter from
detoxifying?
In order not to let a child detoxify, the War Bear Kingdom did not hesitate to
send eight hundred gods!
You must know that the Apocalypse Empire, the third largest in the power list,
only has more than 100 gods!
This made Levi Garrison murderous!
Everyone else was angry and couldn’t bear to watch.
How can he be seen as a father?
But he kept saving, and finally these guys came in a big wave.
Once you wait for Levilia, it will be a wave of general accounts!
“Very good! Hydra, Zhanxiong Nation, you all dance!”
Levi Garrison said coldly: “Wait! I will go to War Bear Country! There will be that
day! Levilia’s poison is about to be cured, and this day is not far away!”
“When the time comes, I will see Zhanxiong Kingdom, what are you using to
protect Hydra?”
“Whoever stops me, I will kill! How many gods do you have?”
“I’m going to kill all the Hydra people in front of you!”
…
Now Levi Garrison is looking forward to it.
I didn’t expect it before because the poison in Levilia made no progress.
But it’s different now.
Levilia’s poison is half solved, and it won’t take much time to get rid of it all.
Others are also looking forward to it.
Even the picture came to my mind.
At that time, Levi Garrison came to Zhanxiong Kingdom alone.
One man kills Siberia! ! !

Even they clenched their fists, looking forward to it more than Levi Garrison!
The Return of the God of War [The
Protector] Chapter 3224
Then they will all be witnesses.
I heard that the War Bear Kingdom is now accumulating a lot of gods.
With abundant resources and the method of Hydra, Gods are being created like
crazy.
Now they feel that the more gods in the War Bear Kingdom, the better!
Otherwise, Levi Garrison is really not enough to kill!
The best tens of thousands of gods!
They would love to see this scene!
"But these guys are really arrogant now! They're talking ruthlessly! No matter
who detoxifies Levilia, they will die! Even if the sun never sets, the Apocalypse
Empire is at this level, they will stop it!"
God's brain is very depressed.

Although their end was foreseen.
Levi Garrison will come to the door sooner or later.
But now they dance too much.
Disliked.
Everyone is going to be pissed.
"Damn, watching them dance, I'm so angry!"
Jiao Tianyu clenched their fists.
Are going to blow up.
"Mr. Ye, am I just letting it go? Levilia's poison will eventually be solved. Now
that they are blocking it like this, Levilia has no hope of detoxification."
asked the Dark Doctor.
"Of course not! You still need to keep an eye on it! Since many people can't
accept the reward order, then can't we just send the reward order to the door of
these people?"
Levi Garrison said.
"Ok, I see!"
The Dark Doctor nodded.
"Of course, everything that follows needs your help! It's time for Lao Xie to use

you!"
Levi Garrison said to Huoyun Evil God.
The Huoyun Evil God is now strong and can handle anything.
Of course, Wen Lei and his sister Zhou Nanyan also practiced his basic exercises.
These two are probably close to success.
"No problem! Looking for someone, right? Leave this to me!"
Fire Cloud Evil God immediately agreed.
"Lao Xie, you are responsible for checking what forces behind Yan Zangsheng are
controlling him, right? Also check his magic medicine. As long as you get his
magic medicine that is comparable to the 100,000-year-old snow lotus, Levilia's
poison is absolutely complete. Release!"
Levi Garrison arranged a task for Huoyun Evil God.
Everyone has been checking, but to no avail.
Levi Garrison wanted to let the more powerful Huoyun Evil God go to investigate.
Is it better?
"You also need to help me, check out the mysterious forces of the sniper and
bounty orders! You are more powerful in this regard!"
Levi Garrison said to these employment organizations.
Their intelligence is absolutely fierce, and they can know that anything changes.
This is the real reason why Levi Garrison used them.
They are probably a little easier to find than people like Jiao Tianyu.
After assigning the tasks, everyone started to act.
Levi Garrison finally waited for this moment.
…
After the forces of the Black Sky Alliance were wiped out, the people in the Tianshen Division quickly received the message.
"Levi Garrison, you are so insidious, there are even recruits, and the hiring
organization is waiting!"
Someone from Tenjinji roared.
Originally, he took away all the Heavenly God Guards, just to let the Heitian
League start to annex Levi Garrison's resources, and he gave a hard share.
Well calculated, he was waiting.

The result is waiting for this result.
“Levi Garrison shouldn’t know that I was exposed, right? I heard that these
people from the Heitian League were killed in an instant, so there shouldn’t be
time to confess me? If Levi Garrison knew it was me, he would never let it go.
mine!”
The man was a little flustered, praying that he would not be exposed.
However, the news from Levi Garrison came quickly.
The information that he was hiding resources in the old lair of the King of Evil
Gus was leaked by someone.
Only the Tenjin Division knows about this location, because only Tenjin Division
has sent someone to get the resources before.
“Okay, find him out!”
Levi Garrison said simply and clearly.
Too many people jumped in front of him.
There are too few people on the same front as him, all of them are enemies.
wrong!
There are others on the same front as him!
The Return of the God of War [The
Protector] Chapter 3225
“By the way, what’s the size of that revenge Hydra organization. They’ve been
together for so long, why haven’t they seen any movement? They’re not looking
for revenge on Hydra!”
Levi Garrison suddenly remembered this organization that was in the same camp
as him.
“I don’t know! They have no news.”
On the island of the revenge Hydra organization, there is a disagreement at this
moment.
Because the entire organization’s goal now is to stop Levilia from detoxifying at
all costs.
So they dispatched killers to get rid of the people who received the bounty orders.

Cooperate with Hydra and mysterious forces invisibly.
They are still increasing their efforts.
As a result, some people will not agree.

The original intention and purpose of their joining this block is to avenge Hydra.
But until now, this organization has not mentioned the matter of revenge Hydra
at all.
However, when the organization was first established, it sent people out to assassinate the Hydra people.
But not at all now.
Such action was never organized again.
No one even mentioned the matter of revenge Hydra.
Several leaders of this organization are now thinking about resources, how to
strengthen themselves, how to make this organization strong, how to create
more gods, and how to get more Avengers to join!
All for their own benefit.
Most people become tools!
That's all there is to it now.
As for the revenge Hydra, they all forgot about it.
Can't remember at all.
Can!
You need resources, you need gods, and you need to keep strengthening this
organization.
These are all possible!
Because Hydra is powerful.
It will be very difficult to get rid of the Hydra!
Must have a strong strength as a backing!
So be patient, and be strong.
These are understandable.
But what is incomprehensible is that instead of mentioning revenge, they are
now teaming up with Hydra.
It was his fault that Levi Garrison did not join their organization and did not dare
to take revenge on Hydra.
For her daughter, it is understandable not to let her detoxify.
After all, I have to teach Levi Garrison a lesson.

But it is not suitable to join forces with Hydra.
Of the more than 100,000 people in this organization, which one doesn't have a
bloody feud with Hydra?
Parents were killed, grandparents were pulled for experiments, and even entire
families were slaughtered.
All kinds of hatred abound.
There is only hatred you can't think of, there's nothing Hydra can't do.
As soon as everyone heard the Hydra, they gnashed their teeth, wishing they
could cut the Hydra into pieces.
It's a group of people that come together.
But now, most people seem to face it calmly.
Not to mention Hydra.
Not to mention hatred.
Some people even mentioned Hydra, but everyone was indifferent and seemed
to accept it.
But the most incomprehensible thing is to join forces with the monstrous Hydra.
This makes some people who are bent on revenge simply cannot understand!
So they made their comments.
"We have no opinion on Levi Garrison! But we don't allow everyone to join forces
with Hydra!"
"Even if it is an invisible alliance, this is not allowed! Can you bear it?"
"To join forces with your enemies who have a deep blood feud?"
…
Sure enough, this part of people raised this question.
Shocking for others!
No matter how much they forget and accept, the blood feud with Hydra will
always exist!
When someone mentioned it, they still hated it.
One by one fell silent.
No matter how you say it, you can't join forces with the enemy.
Any kind of collaboration will not work!
This is absolutely impossible.
But anyone with a backbone can never accept this.
At this time, those who had invited Levi Garrison to join began to refute…

The Return of the God of War [The Protector] Chapter 3226

"No! Are you stealing the concept? We haven't joined forces with Hydra?"

"Have you seen us go to contact Hydra? No!"

"It's just a coincidence now, we just have the same goal as Hydra. We didn't join forces with them!"

"Hydra is still our enemy, we have been growing ourselves, and everything we do is to avenge the Hydra!"

...

"But the same goal as the enemy, can you bear it yourself? Shouldn't we protect what the enemy hates?"

"I think Hydra is dealing with Levi Garrison's father and daughter, and we should provide help and protection! Instead of targeting them like Hydra!"

"What's the difference between what we do now and Hydra?"

...

These people really have a bloody feud with Hydra.

I can't wait to get revenge right away.

So they get emotional when it comes to Hydra or anything related to Hydra.

In a word – they hate what Hydra likes, and they like what Hydra hates.

It's going to be the opposite of Hydra.

Therefore, this behavior now touches their inverse scales!

Absolutely not!

"You are wrong!"

"Let's put it this way, Hydra is everyone's enemy, and so is Levi Garrison!"

Those few people were in a hurry, and they even hit back and said they were wrong.

"I want to ask why Levi Garrison is our enemy?"

The people stared at them and asked.

In fact, everyone in this organization is very confused now.

What happened to Levi Garrison?

Is it worth making everyone target like this?

Stop his daughter from detoxification!

He also deceived Levi Garrison with such resources!

But everyone thought about it.
It seems that Levi Garrison has no hatred with himself.
Levi Garrison didn't do anything to everyone.
It's just that people are detoxifying their daughter now, and they don't have the
time to take revenge.
Just don't join this organization.
Is this also guilty?
What's more, there are many people who don't take revenge on Hydra.
Don't add more to this organization?
Why didn't you see everyone targeting them one by one?
Why do you have to target Levi Garrison?
"this……"
The people who had invited Levi Garrison were obviously taken aback when they
heard this question.
They couldn't answer this question for a moment.
They really can't say what kind of grudge against Levi Garrison.
"What kind of hatred does Levi Garrison have with us? His attitude! He is cowardly and timid, and dare not take revenge against Hydra! Those who dare
not take revenge against Hydra are fueling Hydra's arrogance! This is hatred!"
"The key is that his daughter was poisoned like this, and he didn't even dare to
put a fart. What do you think? Isn't the Hydra even more arrogant?"
"The most important thing is his identity! Why don't we target others, but Levi
Garrison? His status is special, he doesn't express his position, causing too many
negative influences!"
"What's more, he has so many resources in his hands. If it falls into the hands of
Hydra, our revenge will be far away!"
"Therefore, we have to get rid of Levi Garrison first! This is also an important
step in taking revenge on the Hydra! Let everyone know our determination – we
must avenge the Hydra!"
"Yes, we do all this to avenge the Hydra!"
…
False!

They are the complete idiot!
But once these words came out, everyone could do nothing.
Because what these people are talking about is revenge on Hydra.
As long as this is clear, there will be no objection.
As long as everyone remembers the hatred of Hydra!
It doesn't matter what happens to Levi Garrison.
Next, they still comprehensively target Levilia's detoxification…
Fire Cloud Evil God is really efficient.
It took three days to really find the magic medicine.
The Return of the God of War [The
Protector] Chapter 3227
After all, he is stronger.
This shocked Yan Zangsheng.
But still a step too late.
People moved the magic medicine one step ahead of time.
But Fire Cloud Heretic God has such an effect, which is still surprising.
Afterwards, Huoyun Evil God discovered their people one after another.
Almost tore out this mysterious force.
It is estimated that this force is also forced and helpless.
It was announced that an "auction" would be held on an unnamed island in the
East China Sea of Daxia.
Join Telegram Group For Fast update
The content is to auction the magic medicine of Yan Zangsheng, a genius doctor.
When the news came out, it was shocking.
The Huoyun Evil God looked at Levi Garrison and was a little scared.
Because Levi Garrison's face was calm, he was the most terrifying.
"Did they choose to expose themselves? Wouldn't they reveal their identities?"
someone said.
"Will not!"
"It's impossible for them to appear by themselves, just entrust a force to auction
it for them!"
"They expected that I would definitely go, and the Hydra that stopped me would
be involved!
It is estimated that I want to watch the magic medicine be auctioned away by
others, disgusting me? "
Levi Garrison said.

“Yes, it must be so!”
“The more it is like this, the more we have to go! We must also take back the
magic medicine! And if all parties act, it will be good for us!”
“We can discover their identities! They will definitely leave clues!”
Everyone said.
Levi Garrison nodded: “Okay, then I’ll go there in person!”
The other party did this to humiliate Levi Garrison.
But this is also tantamount to active exposure.
No matter how secretive it is, if it is actively exposed, it is still easy to be found.
Not wrong.
This is the mysterious force that controls Yan Zangsheng, after being repeatedly
found clues by Huoyun Evil God.
Even the magic medicine was almost taken away.
They couldn’t sit still.
If this continues, they will be exposed, and the magic medicine will be discovered.
Might as well come to disgust Levi Garrison.
That’s why they have to come up with an auction specifically to auction this
magical medicine.
Daxia’s genius doctor is now known to the whole world.
And he has a magic medicine that is really comparable to the 100,000-year-old
snow lotus, which is also known by everyone.
Although everyone has a heart, they are powerless.
Can’t find it at all!
Now that the news came out, the whole world was shocked.
Those who have ideas about this magic medicine, go one by one.
And the major forces targeting Levi Garrison also understand that this magical
medicine auction must be aimed at Levi Garrison.
Once Levi Garrison gets the magic medicine, Levilia’s poison will definitely be
solved.
Therefore, they want to prevent Levi Garrison from getting this magical medicine.
whatever the cost.
They must stop!
Hydra immediately dispatched people to auction this magical medicine.

The organization of the revenge Hydra immediately dispatched people after
hearing it.
And the reason for them to appease those who only want revenge is very simple
– this time Hydra will definitely send someone.
At that time, they can easily kill a few people to take revenge and relieve everyone's hatred.
As soon as they heard of seeking revenge for Hydra, which group naturally voted
in favor of it.
On an unknown island in the East Sea of Daxia, there are already hundreds of
strong men wearing masks.
No one knew their identities, and no one knew whether they were the mysterious
force that controlled Yan Zangsheng.
Most people guessed that this group of people was entrusted to hold this auction specially.
And the magic medicine of the magic doctor, which is comparable to the 100,000-year-old snow lotus, was placed in a trap box.
If the box is forcibly touched and taken away, the mechanism program will be
activated, and the magic medicine will be locked.
It won't open!
If the trap box is forcibly opened, then this magical medicine will self-destruct,
and no one can imagine it.
The Return of the God of War [The
Protector] Chapter 3228
That is to say, if you want to get the magic medicine completely, you must listen
to this group of people and let them open it with a password.
Hydra's strategy is to auction off this magical medicine as much as possible, after
all, this is the top treasure of heaven and earth.
Who doesn't want it?
Even if it can't be photographed, let others photograph it.
In short, Levi Garrison couldn't get it.
If it really doesn't work, destroy the magic medicine in the mechanism box.
The same goes for the idea of the organization of the Revenge Hydra.

However, there are quite a few people who come to participate in the auction.
After all, the value and charm of the magic medicine is too great.
It is estimated that the mysterious forces will also make a lot of money.

Auction should also use Aura Crystals and Heavenly Materials and Earthly
Treasures.
Soon after, Levi Garrison and his party came to this small island.
Levi Garrison also made arrangements in advance.
I vowed to find out the identity of the mysterious force.
Of course, the main purpose is to get the magic medicine.
Detoxification is the most important thing.
The auction venue was already full.
But most people Levi Garrison they don't know at all.
"Hydra and the mysterious forces that destroyed the blood exchange record
should be in the venue, and they will definitely stop us with all their might!"
Doctor Dark whispered in Levi Garrison's ear.
"Well, stare at them! Find a way to confirm their identities!"
"Can the identity of this group of forces holding the auction be determined?"
Levi Garrison asked.
"They are all wearing masks, and their identities are still unclear! And most of
them are commissioned forces, not they really sent people here!"
Doctor Dark said.
"Okay, let Lao Xie hide it, and once you find the magic medicine, act immediately!"
Levi Garrison asked again.
Now his people are all in place.
Next, the auction officially started.
The strong man wearing a mask began to introduce: "The treasures of heaven
and earth that are auctioned today are all treasures of heaven and earth that
have been treasured for many years by the great summer doctor Yan Zangsheng!
There are ten pieces in total!"
As soon as the words came out.
The crowd immediately became excited.

Originally thought there was only one magic medicine.
It's really hard to get everyone.
But now there are ten, so the chances are high.
Not to run around and walk around.
Levi Garrison's expression changed.
It seems that this mysterious force has controlled Yan Zang's life and death.
All the treasures he treasures have been obtained by others!
"Then what should we do?"
asked the Dark Doctor.
"Shoot! Film everything!"
Levi Garrison said coldly.
"The first auction item is a frozen heart grass picked by a genius doctor in an
extremely cold place. It can erase the injuries suffered by the gods, not only
those who are seriously injured! This is nourished by the vitality of heaven and
earth for many years, and it is better than the recent recovery due to spiritual
energy. Treasures from heaven and earth must be useful!"
As soon as the first auction item came out, the terrifying medicinal power permeated the field.
Everyone was excited.
"The starting price – twenty pieces of ordinary quality aura crystals or five
treasures of heaven and earth!"
The man's voice fell.
The dark doctor shouted: "One hundred high-quality aura crystals!"
"hiss!"
This time, the sound of breathing cold air is incessant.
Levi Garrison is too cruel here.
As soon as it came up, it was shouting such a price, who could afford it?
This is a one-time cut off for everyone.
What's more, Levi Garrison is so rich in resources, who can compete with him in
bidding?
Who can stop him!
Therefore, everyone was silent.
I don't know whether to bid or not.
After all, everyone understands that if you call here, Levi Garrison will continue.

Can't compete with others at all.
Even the people sent by Hydra started to discuss.
"Should we make a bid?"
"This ice heart grass is definitely useful for his daughter's detoxification!"
The Hydra people will stop Levi Garrison at all costs.
No auction item will let it go.
The group of Vengeful Hydra also thinks the same way.
The Return of the God of War [The
Protector] Chapter 3229
Just when they were about to shout, a voice sounded: "Five hundred high-quality
aura crystals!"
This made the organization of Hydra and Vengeance Hydra stunned.
Because the bidder is not theirs at all.
Levi Garrison still has enemies?
not only.
Even the face under the mask of the person in charge of the auction changed
slightly.
They are all surprised by one thing – there are still people who want to stop Levi
Garrison?
Now, except for the Hydra, the organization of revenge Hydra, and the mysterious forces that control the magician.
There are still people who want to stop Levi Garrison.
Join Telegram Group For Fast update
This is beyond everyone's expectations!
And listening to this outcry is full of confidence.
Not afraid of Levi Garrison at all!
"Sure enough!"
Because Levi Garrison didn't know who was there, he didn't know who was who?
Therefore, he didn't know that the bid was beyond the three-way forces he expected.
"One thousand high-quality aura crystals!"
Levi Garrison has resources, and he is not afraid of this at all.
So the Dark Doctor directly doubles.
And the person who just called for the price also continued: "Two thousand
high-quality aura crystals!"
...
"Three thousand!"

“four thousand!”
...
“Ten thousand!!!”
Soon that person actually bid a price of 10,000 aura crystals.
This shocked the audience!
Even the Hydras were stunned.
Despite all the cost, their resources are limited.
It is impossible to fight with Levi Garrison to this extent.
Their sacrifices were prepared at all costs on the magical medicine that was
comparable to the 100,000-year-old snow lotus.
Although the previous auction items have tried their best to prevent them, there
are limits.
There’s nothing you can do once you get past them.
After all, the resources that Levi Garrison possesses are too terrifying.
If you fight for resources, no one can compete with Levi Garrison.
The same is true for the organization of the revenge Hydra. In terms of resources,
they are even worse than the Hydra.
It is possible for the organization holding the auction to drive up the price, but it
is impossible for Levi Garrison to fight for resources.
But the mysterious man in front of him has been fighting with Levi Garrison.
This is the embodiment of confidence!
It doesn’t seem to be blind at all.
He can really break arms with Levi Garrison!
This was also beyond Levi Garrison’s expectations.
This ice heart grass is not so valuable at all, and it exceeded it early.
10,000 high-quality aura crystals can be exchanged for at least 500 ice heart
grass.
He also realized that something was wrong.
This person should not belong to people like Hydra.
They will stop, but definitely on the last magic medicine.
It is impossible to come up hard.
If you waste so many resources and fight for yourself, Zhanxiong Nation will not
agree.
Who is this?
There is another force against you?

“continue or not?”
asked the Dark Doctor.
“No, it doesn’t make sense!”
Levi Garrison knew that the other party was determined to challenge himself.
No matter what price he shouted, he would follow.
This is a bottomless pit.
And it’s not the last magic medicine, so it doesn’t make any sense at all.
“Ten thousand high-quality aura crystals once, twice, three times!”
“Okay, this ice heart grass belongs to this gentleman!”
...
This made others sigh.
No sense of participation at all.
How to fight with Levi Garrison, the two “local tyrants”?
Soon, the second auction item begins.
It is an elixir prepared by Yan Zangsheng himself, which has a miraculous effect
on enhancing the power and healing.
Especially in this era of absorbing spiritual energy, this medicine pill is more
important.
It can make you absorb the spiritual energy several times faster, can you not be
excited?
Everyone is looking forward to it.
However, all eyes were on Levi Garrison and the mysterious person who had just
bid for the first auction item.
“Bid!”
Levi Garrison said.
Doctor Dark immediately called for the price: “A thousand pieces of high-quality
aura crystals!”
“Ten thousand high-quality aura crystals!”
What is exaggerated is that the other party has directly increased it tenfold.
The Return of the God of War [The
Protector] Chapter 3230
“hiss!”
There was another sigh of relief.
*This f*cking one is even fiercer than Levi Garrison! ! !*
This is not price gouging at all!

This is clearly to do Levi Garrison!
This elixir is valuable!
But not to the point where you can directly start with 10,000 high-quality aura
crystals!
How many resources are there?
shocked!

Everyone is going crazy!
Even the Hydra and the person in charge of the auction were stunned.
There was an existence who could wrestle with Levi Garrison on resources.
The asking price is even more ruthless than Levi Garrison! ! !
"continue or not?"
Both Doctor Dark and Levi Garrison were stunned.
Doctor Dark asks whether to continue.
"No need! The other party is the card for us!"
Levi Garrison said.
He will continue to look.
"The third auction item…"
"Twenty thousand high-quality aura crystals!"
This time, I didn't wait for Levi Garrison to shout.
The other party directly shouted a sky-high price.
Now everyone was more shocked.
So shocking!
"Okay, go on, let's take a look!"
Levi Garrison was also shocked.
Others are less involved.
People may start out with more than what they own.
How is this going to compete?
"The fourth auction item…"
"Thirty thousand yuan!!!"
The other party bid again.
Show no mercy!
The other party seems to enjoy the fun of this auction, and doesn't care whether
these things are worth the price.
Just splurge hard.
Maybe these resources are worthless in the hands of others, and he can have as
much as he wants?
The fifth piece was taken for 40,000 yuan!

A full eight pieces of this person were all photographed!
And the price is getting tougher every time!
Start bidding directly without giving anyone a chance, even Levi Garrison was
stunned!
Far beyond the value of those auction items.
In general, the value of the aura crystals used in auctions is thousands of times
that of the auction items!
far beyond!
Such a lifeless prodigal.
And he is the one who bids the price, and no one else bids with him at all.
Everyone is the first person who has stunned Levi Garrison for the first time!
unimaginable!
Are there people who have fought for resources and have fought Levi Garrison?
According to Levi Garrison's resources, even the War Bear Kingdom will definitely be able to match.
Fighting with him basically requires the power of the whole country.
personal?
impossible!
But now there is a person who is comparable to Levi Garrison, and even presses
him.
In Levi Garrison's hands, he stole eight auction items.
Levi Garrison had no choice but to watch.
This is the first time that Levi Garrison has lost in the competition for resources!
Levi Garrison and Doctor Dark were shocked.
They can actually fight.
After all, in a certain sense, Levi Garrison's resources are endless.
But the other party is too ruthless, there is no point in the competition.
What made Levi Garrison unbelievable the most was that other than himself, who
else in the world would challenge him like this!
They all know how he obtained resources, Doctor Dark.
His resources are unmatched by anyone.
Even the strength of the War Bear Country cannot be compared.
There is no such rich resource as him.
In fact, he can take out as much as he wants.
But this person took out so many resources to bid for the auction without

blinking at all.
Where did his resources come from?
Who is behind him?
Or where did he come from?
These are all to be excluded from the War Bear Kingdom.
No one would do anything to play like that.
who is he?
Levi Garrison was very puzzled.
At this time, the person in charge of the auction should verify whether the person really has the resources.
A few minutes later.
A large cargo plane is coming.
Kojima could barely hold on.
All the aura crystals he called out just now were fulfilled.
Levi Garrison also felt that all of them were high-quality aura crystals.
Not worse than what he has in every way!
*Who the f*ck is this?*
There are still people who have resources that are not inferior to their own?
The Return of the God of War [The
Protector] Chapter 3231
shocked!
even crazy!
This is what the dark doctors did not think of!
There is such an episode!
There is such a thing?
who is he?
What identity?
Everyone in the audience was suspicious.
The same is true for Levi Garrison.

Never heard of such an existence!
It makes no sense!
It's been so long.
If someone really has such a terrifying resource, how could they not know?
And where are the resources?
Right in the forbidden area.
Since the other party has such rich resources, they must have met in the forbidden area.
But let alone meet, I have never even heard of it!
Where did his resources come from?

It was bloody in front of everyone!
Incredible!
I can't even think of breaking my head!
Who the hell is this?
Have no idea.
Levi Garrison can only be attributed to aliens.
Maybe the aura recovery made some aliens run out.
For example, Zhen Mosi exists in legends…
It can only be like this!
Apart from that, Levi Garrison couldn't think of anything else.
But do these guys know him well?
Are you going to be so crazy about yourself?
Levi Garrison couldn't figure it out.
Damn, why do you feel like there are enemies everywhere!
Impressed!
Grass! ! !
In fact, Levi Garrison's guess was not wrong.
If Zhen Mosi is an "abnormal".
Then the person bidding in front of him is indeed an outlier.
Because they are the people of War Eagle Country.
Or the forces behind War Eagle Nation.
Not wrong.
The forces behind the War Eagle Kingdom are here.
They started to move out.
This is it.
Deliberately come to play with Levi Garrison.
After all, Levi Garrison's resources are not a force at all.
They have already said that, no matter how rich Levi Garrison's resources are,
isn't it just relying on the super spiritual veins under the Antarctic?
This super spiritual vein has benefited the whole world, and all the resources Levi
Garrison got are related to this.
However, this force, they alone have a super spiritual vein that is not inferior to
the Antarctic.
Now the whole world enjoys this super spiritual vein, and their forces have a
super spiritual vein of their own.
This shows how strong the forces behind the War Eagle Nation are?
These aura crystals and heavenly treasures are just like Chinese cabbage to them.

Their mentality is actually the same as Levi Garrison.
There are as many such resources as needed.
So they can spend endlessly.
Splurge so much, can't get anything.
But cool!
The eight items auctioned now are actually useless to them.
After finishing the work, it may be rewarded to the minions of the Sky Shield
Bureau.
However, they enjoyed the process very much and were able to stop the process
of crushing Levi Garrison.
Levi Garrison was also able to guess the general direction, and everyone else was
dumbfounded.
Don't know the origin of this person at all.
"Next, the ninth auction item…"
said the person in charge.
Just as everyone was waiting for the man to bid, the man suddenly turned around,
looked at Levi Garrison and said with a smile, "This is for you!"
on purpose!
Absolutely on purpose!
It is because he sincerely wants Levi Garrison to be embarrassed, and it is estimated that it is aimed at him.
Levi Garrison glanced at him and asked the dark doctor to take a picture.
In the end, Levi Garrison took the ninth auction item.
Everyone else is numb.
There is no bidding at all.
Even the Hydras are the same.
It's totally unnecessary after all.
He was also numb by this mysterious man behind the forces behind War Eagle
Nation.
Don't even ask for a price.
Everyone's purpose is the magic medicine of the magic doctor.
coming!
It's finally here!
Next, everyone's eyes were fixed on the stage.
Under the escort of several masters, a wooden box was placed up.
"boom!"

Immediately, wisps of medicinal fragrance wafted across the auction venue.
Even in today's era of aura recovery, everyone feels very transparent when they
smell it.
The Return of the God of War [The
Protector] Chapter 3232
"This……"
It's boiling!
burst!
When the wooden box came on stage, everyone was excited.
This magic medicine is terrifying.
As expected of a magical medicine comparable to a hundred thousand years of
snow lotus!
At the beginning, Yan Zangsheng said that it was better than half, but it was
actually a modest statement.
Comparable in time.
I don't know what this magic medicine is and what year it is.
Join Telegram Group For Fast update
But compared to the words of 100,000-year-old Xuelian.
That's the equivalent of being refined.
therefore.
Everyone stood up.
Staring at the wooden box.
If you don't know that this is an exquisite box.
Everyone wants to get started.
Levi Garrison was also excited.
There is no need to distinguish whether the magic medicine inside is real or fake.
Just exuding a ray of breath, it is so strong.
Isn't this magic medicine?
Levi Garrison was breathing rapidly.
What the genius doctor Yan Zangsheng said was absolutely right.
The potency of this magical medicine is terrifying!
The last time I felt this way, it was the Holy Spring.
Of course, this is a little more terrifying than the Holy Spring.
If you get this magical medicine, Levilia's poison will definitely be solved.
At this moment, everyone is observing this trap box.
Ning Jinye suddenly said: "This trap box is definitely from Daxia, and it is a lost

trap technique – Tianji Lock! I heard my grandfather say a trap box before, and
it's very similar to this one!"
"The lost mechanism of Daxia?"
Levi Garrison's face sank, his expression condensed.
So the mysterious force that controls Yan Zangsheng belongs to Daxia?
Du Daxia's lost organ technique.
Is it difficult for other countries to have it?
And that's what I said before – the magician has just been exposed, and nothing
has spread inside Daxia.
The magician is under control.
No one from abroad would know.
Moreover, even Tiance Shenshuai and the others were aware of this information.
That means that this group of forces belongs to Daxia.
And they have great powers, they had already controlled the magician when
Tiancefu knew about it.
Amazing!
...
After thinking about it comprehensively, Levi Garrison could only sigh.
However.
You should have no grudge against them, right?
Why target it this way?
Levi Garrison already had a rough guess about their identities.
Next, as long as he gets the magic medicine, he will take off the masks of these
people and examine them one by one.
Look who is it?
In addition, the Evil God of Fire Cloud kept staring at him.
Even if this group of people is entrusted, this mysterious force will be discovered
as soon as they get in touch.
The real protagonist is here today.
Everyone was very excited.
This time, even the major forces that have not been bidding for a while will rush.
But everyone is very afraid of Levi Garrison and that mysterious person.
They shouted the price, so terrifying.
Who can stop it?
not only.

Even the forces behind the War Eagle Nation's eyes lit up fiercely.
They ignore everything and don't take resources seriously.
Indifference to everything.
But that was nothing good.
Good things come up and still the same.
Now the magic medicine of the genius doctor has attracted him.
Obviously very interested.
Those useless things in the front will cost so much to compete.
Now that you have something you are interested in, don't go crazy!
He glanced at Levi Garrison, and Levi Garrison also gave him a deep look.
The two of them are going to make crazy bids.
But this is a good thing for Hydra and the organization of revenge Hydra.
Their purpose is to prevent Levi Garrison from getting this magic medicine.
But if you can, it's better to get it yourself.
But now a mysterious man appears.
There is little chance of them getting it.
However.
Levi Garrison can't even imagine it.
This is good for their purpose.
They don't even have to shoot.
Unfortunately, such a good thing is not available.
"Everyone be quiet…"
The person in charge of the auction motioned everyone to be quiet.
Everyone shut up obediently and didn't make any sound.
Staring straight at the stage.
The Return of the God of War [The Protector] Chapter 3233
"The last auction item, I don't need to introduce too much, right?"
"But everyone, don't be mean, this box has no key, it can't be opened! And this lock is the ancient secret lock of Daxia, it's not just memorizing a few passwords!
Someone has to open it for you!"
"So even if you grab the box, it's useless. Someone must open the secret lock!"
…
When the person in charge said this, the audience was shocked.
It turned out that it was not just a problem of opening.
It's still a lock issue.
Levi Garrison and Ning Jinye looked at each other.

Sure enough, it was the secret lock that Ning Jinye said.

It is more certain that they are the forces of Daxia.
The person in charge glanced at everyone and said, "Then let's start! The starting
price is one thousand high-quality aura crystals! But…"
His words changed, causing everyone in the field to be shocked.
All look at him.
Will something else happen?
"What's wrong?"
Everyone looked at him suspiciously.
Suddenly, the person in charge's eyes fell on Levi Garrison.
"The last item to be auctioned, Levi Garrison of Daxia and his related personnel
cannot be auctioned!!!"
The words are not astonishing, and the whole audience is shocked when these
words come out.
"What? Levi Garrison can't participate in the auction?"
"Hahahaha… Levi Garrison can't participate in the auction? I'm dying of laughter!"
"It's really a good decision. Let Levi Garrison come, but let him participate in the
auction. You can only watch it! Levi Garrison is so angry!"
…
After the decision was announced, many people laughed directly on the spot.
Both Hydra and the revenge Hydra laughed.
Couldn't hold back at all.
It doesn't require them to take action at all, right?
There are too many people targeting Levi Garrison.
It's all about him.
Even this auction was deliberately aimed at him.
Levi Garrison was not allowed to participate in the auction directly.
It is to deliberately auction the magic medicine, which is his daughter's hope, to
others in front of him.
Let him watch helplessly, but can't participate.
This is the most vicious way!
Even if Levi Garrison grabbed the box directly, it was of no use.
This is the sky lock.
Can't open it at all!

Every aspect was thought of.
Even if Levi Garrison participates in the auction, he may not be able to bid.
But now it is impossible to participate at all.
The Hydra people feel that it is okay for them not to come.
Now it's time to watch a play.
See Levi Garrison's joke.
When Levi Garrison and a few people around him heard this.
Several people's faces changed obviously, and there was a hint of anger on their
faces.
However, this was actually what he expected.
This mysterious force held an auction for no reason, to deal with this magical
medicine.
It was obviously aimed at him, Levi Garrison.
But it's been so long.
The other party didn't make any movement towards him at all.
Levi Garrison has been waiting for their action.
Sure enough.
I never thought that I would not let myself participate in the auction, and then
watch the magic medicine be auctioned away by others.
Watching Levilia's hope slip away.
That's what hurts the most.
The so-called murder.
That's it now!
But Jiao Tianyu, Ning Jinye and the others were going to explode.
"Why? Why not let us participate in the auction!"
"We have all the resources you want! Why can't we?"
"Give us a statement! A reasonable statement!"
They quit.
Ask the person in charge of the auction to give an explanation.
Doctor Dark also sneered: "There are so many people present, why are they
targeting us? Isn't that reasonable?"
Many passersby also began to ask: "Yes, this is not common sense. Can you give a
reason to convince everyone?"
The person in charge of the auction glanced at everyone and said, "Okay, then I'll

give you a reason, why not let Levi Garrison and related people bid on ginseng!"
The Return of the God of War [The
Protector] Chapter 3234
"Everyone should know that this magical medicine is the most precious thing of
Mr. Yan Zangsheng, the great summer doctor, right?"
the person in charge asked.
Everyone nodded.
Everyone has heard of this.
"Have you all heard that Daxia's genius doctor is determined not to detoxify Levi
Garrison's daughter?"
Da Xia nodded frantically again.
"Well, so, in fact, all the auction items today are actually entrusted to us by the
genius doctor! The decision is actually in his hands!"
"It was he who told me a thousand times! I will never let Levi Garrison participate
in the auction of this magical medicine! We have no choice! We want to treat
everyone equally, but…there is no way, the magical doctor is the decision maker!"
…

insidious!
So insidious!
Levi Garrison was about to laugh.
Why didn't Yan Zangsheng detoxify his daughter? Do you have any points in your
heart?
Isn't it because you controlled him, against yourself?
Now it turned around and poured dirty water on Yan Zangsheng.
Absolutely.
"Good! What a good reason!"
"Crack, crack, crack…"
Levi Garrison applauded.
Next, Hydra and people from all major forces got up and said, "Levi Garrison has a
good reason for this!"
"People are the auctioneer, whoever wants to be auctioned will be auctioned!"

“What’s more, everything is provided by other people’s genius doctors, and
whoever does not want to get them will let the genius doctors get them!”
“And the genius doctor isn’t completely targeting you. The first nine auction
items let you participate in the auction, and you still auctioned the ninth item.
Are you satisfied? You!”
…
Others agree that this is a good reason.
Give it to whoever they want.
“Haha, good, really good!”
Levi Garrison smiled.
Hydra directly warned: “Levi Garrison, don’t have other ideas, don’t think about
grabbing it directly!”
“Yes, even if you grab it, you won’t open the secret lock!”
“Hahaha, you can only watch the magic medicine being auctioned off by others!
Your daughter’s poison will never be cured!”
…
Levi Garrison sneered at the person who looked at Hydra: “Well, well, my daughter’s poison can’t be solved, but I want to see, how long can you stop it?”
Levi Garrison is not bad at this time.
Levilia is almost ready.
It’s not too late to kill Hydra again.
Hydra is actually quite timid.
Afraid of accident, as a result, up to now, a leader has not dared to come.
A few scumbags were sent.
“Huh? Right! Heavenly Secret Lock?”
Levi Garrison seemed to be reminded, he turned his head to look at Ning Jinye,
and asked in a low voice, “Is there anyone you know who can open the secret
lock?”
“I have to try it out, I know one person might be able to! The secret lock and trap
box mentioned by my grandfather are related to this person!”
Ning Jinye said.
There is still hope.
For Levi Garrison, it is good to have hope.

It doesn't matter if you can't open it.
At least it's better than others to take the magic medicine away directly, right?
"Since it is possible to find the one who opened the secret lock, then grab him!"
"Look at their performance first, and then we'll grab it!"
Levi Garrison decided to grab it.
This is what no one thought of.
Never thought of a secret lock to remind Levi Garrison.
And the people next to him know about the secret lock.
Isn't this a coincidence?
"Let Lao Xie stare at the box, and act directly if there is a situation!"
Levi Garrison instructed.
Levi Garrison also did not leave, but to see their auction.
At this time, Doctor Dark seemed to have heard some news, and leaned into Levi
Garrison's ear: "Just now, the Sun Never Sets Empire, Underworld God, and
various employment organizations sent a message, and found a group of forces
against you!"
Levi Garrison smiled: "Oh? The speed is not slow! They are still exposed!"
Doctor Dark looked around and said, "There is a group of forces in this game that
you may not have thought of!"
The Return of the God of War [The
Protector] Chapter 3235
When Doctor Dark first heard this result, he was also incredulous.
how could be?
How could it be them?
"Ok?"
Levi Garrison frowned, thinking of something, and said suspiciously: "Is it the
group of people who avenged Hydra?"
Impossible to think of.
Levi Garrison didn't know why, but this group of people rushed out of his mind.
Since the establishment of this group of people, they have never seriously avenged Hydra?
Didn't kill one at all!
Join Telegram Group For Fast update

Wouldn't it be better for him to kill more?
So what's the point of you forming this organization?
Isn't it just revenge?
You said how and how to take revenge, calling yourself cowards and not daring
to take revenge on Hydra.
How awesome are yourselves!
As a result, you yourself do not seek revenge at all.
But still thinking about his resources.
At that time, Levi Garrison realized that the nature of this organization was not
that simple.
This is two different things from accumulating strength and forbearance for
revenge.
Some organizers are doing their own thing. To develop this organization for
selfish desires.
So far there has been no successful assassination.
That's what he guessed.
It's because of the silence.
So Levi Garrison remembered it and asked what they were doing.
Now the dark doctor said that unexpected forces were the first to appear.
A strange color flashed in the dark doctor's eyes and nodded: "Yes, that's right!
It's them!!!"
"call!"
Levi Garrison took a deep breath.
no surprise.
Not as expected.
It is estimated that I have so many resources in my hand, and I have not joined
them yet.
regarded as their enemy.
He can easily think of the words of the organizers of this organization – if you
don't take revenge on the Hydra, you, Levi Garrison, are our enemy!
We're going
to stop any of your daughter's detoxification methods.
Not wrong.
This is exactly what Levi Garrison guessed!

Suddenly, the dark doctor became angry: "This group of people is really a bastard!
A group of scum! What's the difference with the Hydra?"
What Levi Garrison realized: "Could it be?"
"That's right, when the Sun Never Sets Empire sent the blood exchange record, it
was actually destroyed by the god killer they sent!"
"When the bounty was issued, they kept blocking and sabotaging them. I don't
know how many people were killed!"
"The recent bounty has made them even more outrageous. Invisibly, they united
with Hydra to resolutely stop all those who detoxify Levilia! Killed too many
people!"
…
After listening to what the dark doctor said, Levi Garrison took a deep breath.
After checking for so long, it turns out that this group of people is on the same
front as him.
This is unexpected.
No matter what, they won't do one thing with Hydra.
Never thought it was actually what they did.
Levi Garrison just wanted to say one thing – aren't you also a bloody feud with
Hydra?
Bloody feud, what are they doing, can you still help?
Doctor Dark took a deep breath and said, "This organization is very powerful now.
More than 100,000 people have joined, and the number of gods is comparable to
that of some top powers!"
"And the resources that helped them rise… I'm angry when I say it!"
Doctor Dark stared at Levi Garrison and said, "It's this group of people who used
the 100,000-year-old snow lotus to defraud us of resources!"
"what???"
Levi Garrison almost ran wild.
There were strange glances all around.
The key is that I have never seen Levi Garrison so excited.

However, everyone thought that Levi Garrison might be so excited because he
was not allowed to participate in the auction.
Everyone looked back and stopped watching him.
"That's right, they are the ones who lied to us about our resources! With these
resources, they have risen directly!"
Doctor Dark clenched his fists tightly.
Hearing this news made him also very angry.
After all, what they did was so annoying.
The Return of the God of War [The
Protector] Chapter 3236
It's not human at all! ! !
He also made up a lie about the 100,000-year-old snow lotus.
The main resources are still taken out by the dark doctors themselves and scattered everywhere according to their requirements.
It's like he was also deceived.
He was also insulted for his intelligence.
This is intolerable.
Especially now what comes to mind is that the one hundred thousand year snow
lotus box contains a dry branch.
This scene is vivid in my mind.
It's an insult to them!

This hatred is no less than hatred for Hydra!
Levi Garrison smiled.
But anyone could see that Levi Garrison's smile was the most terrifying and
murderous.
"Take my resources to seek revenge on Hydra, I won't say anything. In the end,
you ran against me with my resources?"
Levi Garrison sneered again and again.
"It's okay, I said that you will be exposed sooner or later! Isn't that what?"
"I've prepared that dead branch for you. You really know how to choose. That
dead branch is really like a sword!"
Levi Garrison's smile deepened.
"It doesn't matter, I will pierce your body with this sword! Participants will come

one by one!"
Now that you know who it is.
Then don't worry.
Levi Garrison smiled and said, "Then we will calculate the old and new accounts
together! Even today, you all came to stop me? Very good… Hahahaha…"
Levi Garrison stared in one direction and sneered again and again.
Many people around looked at Levi Garrison.
He thought that Levi Garrison couldn't participate in the auction and was sneering.
At this time, the people sent by the revenge Hydra organization saw that Levi
Garrison was sneering.
They also feel very refreshed!
He thought that Levi Garrison had no choice but to watch his daughter's hope be
auctioned off.
Little did they know that Levi Garrison's smile was because of them.
They have been targeted by Levi Garrison.
"Should I warn them and prepare them to die?"
Doctor Dark can't wait to take revenge immediately.
"Calm down! Be patient! Wouldn't it be better to wait until we arrive?"
Levi Garrison shook his head.
"And what about the mysterious force that controls Yan Zangsheng? Is there any
clue?"
Levi Garrison asked.
"Currently, there is no news from the Huoyun Evil God, it is estimated that these
people are very cunning!"
"How do I feel like this group of people wearing masks is them? And not entrusted to someone else?"
Doctor Dark looked at the people on the stage and couldn't help but say.
Levi Garrison smiled: "Don't worry, if they finally complete the auction. We can't
just grab it? Let's see who is under the mask then?"
Levi Garrison and the others were already waiting.
This time the harvest is not small.
At least the organization of the revenge Hydra has been identified.
It was only the "local tyrants" who suddenly appeared that gave Levi Garrison a
headache.

This guy's resources are no less than his own.
Where did it come from?
Now the last magic medicine auction has started.
There are still many people who have started.
But as soon as this guy made his move, the audience was shocked.
Many people are starting to get overwhelmed.
It's almost reaching its limit.
If you want to compete for resources, only Levi Garrison will fight this one.
It's just that Levi Garrison was banned from participating in the auction.
There is no way.
Only one person can be alone.
But Levi Garrison is not idle either.
He looked at a competing buyer not far away.
This one is from Snow Leopard Country.
Levi Garrison said directly: "I will lend you resources for free to compete with him!"
The Snow Leopard Country agreed without hesitation.
It's free to borrow anyway.
never mind.
"Thirty thousand aura crystals!"
He called out a price directly.
This made the whole audience stunned.
The 25,000 yuan of the mysterious person just now had already crushed the audience.
Why is anyone showing up now?
"No! It was Levi Garrison who controlled his bidding! It doesn't count!"
The Return of the God of War [The Protector] Chapter 3237
Several people from Hydra immediately said, putting pressure on the person in charge.
And the people from the organization of revenge Hydra also refused.
They were shouting, saying that nothing counts.
Even a mysterious person said, "Is this inappropriate? Isn't it that Levi Garrison didn't participate in the auction? Is this a foul?"
He originally thought of auctioning off this magical medicine at a low price.
No one can interfere with him.

It made him happy.
As a result, someone suddenly appeared, how could he be happy?
The person in charge of the auction immediately shouted: "Levi Garrison, what do
you mean? Didn't you say it? You can't participate in the auction! What's the
matter with you?"

"If you want to do this, we will not auction this magical medicine, and then you
will find Levi Garrison for everything!"
As soon as the words came out.
Everyone refused.
...
They began to warn Levi Garrison one after another.
Levi Garrison said: "Which one of your eyes saw me participating in the auction?
Did I call? This is what someone called!"
The representative of the Snow Leopard Country immediately said: "Yes, I called
it, it has nothing to do with him!"
"No, you didn't participate in the auction! But people related to you can't participate in the auction! In that case, the auction item is not in your hands? The
rules I said before are clear!"
The person in charge of the auction said immediately.
Levi Garrison sneered: "I don't even know who he is! How could it be related to
him?"
The representative of Snow Leopard also said: "Yeah, I don't know him either. I
really don't know him well!"
He responded very quickly: "I'm just borrowing resources. I'm borrowing resources from everyone around me. He's willing to lend me resources."
Levi Garrison immediately agreed: "That's right, I just borrowed his resources."
It's just that the person in charge of the auction stared at the representative of
the Snow Leopard Country and asked, "But you borrowed the resources, can you
afford it? Don't be able to pay it back then, and mortgage the magic medicine to

Levi Garrison!”
At this time, Levi Garrison said: “I’m sorry, I lent him for free! There is no need to
pay it back!”
“I, Levi Garrison, put my words here. I have too many resources and I have
nowhere to spend! I lent him for free! What’s the matter?”
As soon as the words came out.
Everyone is going to be stupid.
This……
Borrow for free? ? ?
“Is there any objection now? I continue!”
The representative of Snow Leopard said.
The man also immediately said: “Fifty thousand aura crystals!”
Levi Garrison’s participation in it was rather interesting for him.
At least one more competitor.
Otherwise it’s too boring.
Anyway, he believes that his resources are not lost to Levi Garrison at all.
He is not afraid!
It’s just that several people in charge of the auction got together to discuss.
“Eighty thousand aura crystals!”
The representative of the Snow Leopard Country shouted.
“One hundred thousand aura crystals!”
The two sides began to soar.
After all, they are both resource-rich.
Not afraid.
Just do it right away.
…
This is definitely the most terrifying auction everyone has ever seen.
Everything is called without money.
So many aura crystals may not even be as good as War Bear Kingdom.
As a result, people here, frantically squandering.
Both sides are bound to win.
There is a posture of screaming each other to death!
Hungry!
Too greedy!
Who is not jealous with so many Reiki crystals?
If they get part of it, they’ll all be developed.
Enough to form a force comparable to a big country.
unimaginable!
…

Soon, the two sides soared to 300,000 aura crystals.
But both sides still disagree with each other!
And the stance of continuing to shout.
"Come on, go on! Who's afraid of whom?"
The man shouted wildly.
There is still a fight between the two sides.
Levi Garrison smiled: "Keep shouting! At least one million yuan, right?"
At this time, several auction directors came over.
It seems that they have come up with a bad trick…
How to deal with Levi Garrison's bad move.
The Return of the God of War [The
Protector] Chapter 3238
They never expected Levi Garrison to make such a move before.
Catch them off guard.
Therefore, they immediately began to discuss countermeasures.
Fortunately, I finally figured it out.
They grinned wickedly and looked at Levi Garrison.
The auction in the field has come to a white-hot state.
"Come on, let's continue!"
The man shouted frantically: "350,000 aura crystals! I don't believe you can
follow me?"
After the representative of the Snow Leopard Country got Levi Garrison's advice,
he didn't care.

Anyway, no matter how much you shout, someone will tell you the truth.
Just now, Levi Garrison also clearly stated that at least one million yuan is
required to start.
This is where?
The representative of the Snow Leopard Country raised his hand confidently:
"Then forty…"
But when he was about to shout, the person in charge of the auction on the stage
directly shouted: "Okay, 350,000 yuan, once, twice, three times, the deal!"
"boom!!!"
He shouted too fast.
Don't give any chance at all.
"ten thousand……"

Wait until the auction director has made a final decision.
The representative of the Snow Leopard Country only shouted a 4D.
It can be seen how fast the person in charge of the auction speaks.
Don't give anyone else a chance to shout at all!
But the final word came too quickly, and the audience was caught off guard.
The representative of the Snow Leopard Country was stunned.
Levi Garrison was also stunned.
Everyone in the audience was stunned.
Including the man behind War Eagle Nation and Hydra, they were all stunned.
this this this…
what's the situation?
Is there such an operation?
It's true I didn't think of it!
"Impressed!"
Doctor Dark and the others were also full of astonishment.
And such?
Don't let buyers bid?
Seller directly confirmed!
On the stage, the person in charge of the auction said with a smile: "Then congratulations to this gentleman for taking this magical medicine!"
Even the man was dumbfounded.
He was ready to fight with Levi Garrison to the end.
As a result, it was announced that the magic medicine belonged to him.
He didn't even make a move.
"Hey, what's the matter, I haven't shouted yet?"
"I didn't give up, I still have to increase the price!"
The representative of the Snow Leopard Country was anxious and immediately
shouted.
No matter how you say it, people won't care.
The representative of the Snow Leopard Country naturally refused.
How can anyone be bullied like that.
Just the person in charge of the auction sneered: "Is there? Why didn't I hear you
shouting! No one shouted, I'm sure!"
The representative of the Snow Leopard Country was anxious, and immediately
said: "He called for 350,000 yuan…I want to call for 400,000 yuan! As a result, just
as I was about to call, you gave the hammer…"

The person in charge of the auction sneered: "I didn't see you shouting at all, I
clearly saw you were going to give up…"
"I waited for a full minute and saw no one shouting before I was sure! Where did
you shout?"
Snow Leopard Country representative: "…".
Is this full of nonsense?
Still waiting a minute?
Don't see yourself yet?
*This is downright bullsh*t!*
To distort the facts, to reverse right and wrong black and white!
"That's right, I didn't see you shouting! Everyone waited for a minute, and you
didn't shout!"
"Yeah, we didn't even see it!"
"Yeah, we've been on stage all the time, we didn't see you shouting!"
Others also spoke up.
Even the Hydra and the organization of the revenge Hydra ran out one after
another.
"We can testify! After a minute, no one shouted! That's for sure!"
"Yeah, don't quibble! The eyes of the masses are sharp!"
"I've never seen a shameless person like you!"
"Yes, yes! It's you who are lying!"
…
There were almost such voices in the audience, and they wanted to make fun of
this matter.
The representatives of the Snow Leopard Country are speechless! Want to cry
without tears!
Who is kidding?
Who is shameless?
Relying on the large number of people, he directly distorted the facts and blamed everything on him.
Shameless! ! !
The Return of the God of War [The
Protector] Chapter 3239
"Ho ho…"
Levi Garrison smiled directly.
For these guys, there is such an operation, it is not surprising at all.

For yourself, it's all kinds of rogues.
Otherwise it doesn't fit their style!
In order to prevent myself from bidding, I really used all kinds of methods.
Do everything possible.
I just want to let myself watch this magical medicine being auctioned off by
others, and to make Levilia's hope abruptly rectified.
but it does not matter.

He didn't want to bid for it.
He's going to steal it!
This group of people thought that there was a secret lock, and it was useless to
grab it by themselves, and they would not open it at all.
But who would have thought that someone around Levi Garrison knew about the
secret lock and hoped to open it.
So he grabbed something to try.
If you don't grab it, there is no chance at all.
"Clap clap clap…"
Levi Garrison also began to applaud.
"good very good!"
The person in charge of the auction smiled at Levi Garrison: "Probably Mr. Ye
thinks so too?"
"Yes, that's right!"
Levi Garrison smiled.
The person in charge of the auction took a deep look at Levi Garrison and said
with a smile, "The magic medicine belongs to this gentleman!"
As soon as he spoke, his men immediately handed the box to the man in person.
In front of Levi Garrison!
Hydra and others targeting Levi Garrison are happy.
In the end, this magical medicine did not fall into Levi Garrison's hands.
Moreover, this buyer has such terrifying resources, and his strength must not be
underestimated.
Although everyone doesn't know who he is, everyone is not worried, Levi Garrison can get benefits from him.
Now everyone's task is complete.
Levi Garrison didn't let Levi Garrison get this magical medicine.

Even the head of the auction has done their job.
After all, Levi Garrison still had no hope of seeing his daughter.
"Let people start to stare! So many resources will definitely be revealed! In
addition, this mysterious force has transported so many resources, I can't believe
it can disappear out of thin air? Let's see where they can transport these to?"
Levi Garrison whispered to the dark doctor.
The problem of the delivery of resources is the clue that can really find out their
identity.
After all, it is a piece of aura crystal, bad luck.
"Sir, take this secret box away first! After you are sure it is safe, we will send
someone to unlock this secret lock for you!"
said the auctioneer.
They will not give Levi Garrison the slightest chance.
"Okay, I'll have someone send the aura crystal back later!"
That person doesn't care.
"Send it anytime! We trust sir!"
said the auctioneer.
The Lord in front of him didn't care about these resources at all, so they weren't
worried.
"Then sir, leave first! Just in case!"
The person in charge of the auction asked this person to leave first.
At this time, the person sent by Hydra said: "For the safety of Mr. Zhanxiong, the
War Bear Kingdom has decided to send 200 gods to protect you from leaving!"
In order not to give Levi Garrison any chance, Hydra even arranged a large
number of gods around.
The person in charge of the auction was stunned for a moment, then smiled and
said, "Then trouble the gods of Zhanxiong Nation!"
All this is for Levi Garrison.
Although they don't take Levi Garrison seriously.
But recently I heard that there are many masters around Levi Garrison.
There are many gods in the big summer gods who are Levi Garrison's brothers

and apprentices.
They even knew that there was a super expert by Levi Garrison's side, and he
found the magic medicine repeatedly.
Therefore, they are worried about the people around Levi Garrison, not because
they are afraid of Levi Garrison.
Under the escort, the mysterious man left here first.
The person in charge of the auction looked at the audience and said, "Just please
stay here for a while! We are afraid of any misunderstandings and incidents!
Please forgive me!"
The Return of the God of War [The
Protector] Chapter 3240
As soon as these words came out, the audience continued to discuss.
It sounds so good.
In fact, it is to temporarily imprison everyone.
No one thought of it.
In the end, everyone was imprisoned.
Don't let go for now?
Why?
Hydra made you want to resist, but they all smiled knowingly when they thought
of it.
This is still to guard against Levi Garrison.

To be precise, it is to guard against the people around Levi Garrison.
control these people.
It is also necessary to temporarily control these people in the auction venue and
not allow them to leave.
But the eyes of the person in charge of the auction suddenly fell on Levi Garrison.
He smiled and said, "It's our fault that Mr. Ye didn't participate in the last auction
item just now. In order to compensate Mr. Ye, Mr. Ye can leave early! But you can
only be alone, the others have to wait!"
on purpose!
Let Levi Garrison leave, but leave all the people like Doctor Dark.
The purpose is to make Levi Garrison helpless.

Even if he has the intention to snatch the magic medicine, he is not strong enough by himself.
Then you can only watch the opportunity slip away.
Immersed in helplessness and struggle.
It's torture for a person, especially a father.
Heart but powerless.
There is no more desperate time for a person than this, right?
They did this on purpose, let Levi Garrison go alone, and trapped all his powerful
companions here.
However, what they didn't know was that the most powerful among them was
Levi Garrison.
Not anyone else.
The others combined can't compare to Levi Garrison alone.
It can be said that among this group of people, Levi Garrison should not be
released.
It just so happened that Levi Garrison's plan here was to do it himself, and let the
dark doctor check the true identity of this group of mysterious forces.
As a result, people delivered it directly to the door.
Let yourself go first.
Just leave the dark doctors and they check their identities here!
Exactly, the mysterious person will send 350,000 pieces of aura crystals right
away.
At that time, the identities of both parties can be checked.
It's best for them to stay here.
"I thank you all!"
Levi Garrison smiled and left.
But Levi Garrison's words, thank you, were helpless to them.
After Levi Garrison left.
disappeared immediately.
He immediately caught up with the mysterious man who had just left.
Sure enough, there are two hundred gods of the War Bear Kingdom protecting
him.
But this is nothing to Levi Garrison.
The big deal is to kill with one sword.
Levi Garrison directly chased after him.
"Stop boy!"

Levi Garrison quickly stopped in front of this group of people.
The mysterious man was visibly surprised.
He never thought that Levi Garrison would catch up.
No wonder the group sent someone to protect themselves.
It turns out that there really is such a problem.
But he couldn't figure out how Levi Garrison knew his whereabouts and caught
up with him.
After leaving the island, he disappeared.
No one will know.
How is he?
The mysterious man looked at Levi Garrison suspiciously.
They actually knew about this existence that was regarded as a lifelong enemy by
the War Eagle Nation and even the Lab of the Gods.
It's just that they don't care, they don't care at all.
After they appeared this time, they wanted to play the enemy of War Eagle Nation's life.
I want to tell these people in the Sky Shield Bureau that the powerful enemy you
think is just a toy in his hands.
But now Levi Garrison made him suspicious.
"Good, give me the box in your hand!"
Levi Garrison stretched out his hand and said.
The mysterious man was obviously taken aback.
The two hundred War Bear Kingdom gods who escorted him were also stunned.
What's this?
An upright robbery?
The mysterious man smiled and said, "This is your lost mechanism in the summer
– the secret lock. Are you sure you have the box, can you open it?"
"Then I'm not sure, but, you can show it to me first!"
Levi Garrison said coldly.
The Return of the God of War [The
Protector] Chapter 3241
After saying this.
Everyone in front of them was still stunned.
They all looked at him with strange and incredible eyes.
A little confused.
It is estimated that Levi Garrison's behavior of robbing so directly makes people

feel ridiculous.
“Oh, I see! I don’t think I’m qualified, do you?”
Levi Garrison said to himself.
“Buzzing…”
But the next second.

A cold light suddenly appeared, like a scorching sun, illuminating everything.
Divine Tribulation Appears!
“boom……”
The divine robbery sword shines brightly.
Revealing terrifying power!
The two hundred gods did not react, and they were all penetrated by the ultimate sword.
It looks like it was pierced by a sword!
But in fact, it was because the speed was too fast, which created the illusion that
it looked like a sword penetrated.
Just a moment!
All the 200 gods of the War Bear Kingdom exploded into a cloud of blood!
Disappeared in front of the mysterious man on the spot!
Shocked!
So shocking!
Two hundred gods beheaded with one sword!
Who would have thought so?
The mysterious man has been shocked to the point of incomprehensible.
Ever since he came out of War Eagle Country, Levi Garrison has never been taken
seriously.
Play with the mentality in the palm of your hand.
But I never imagined that he would have such strength!
This is comparable to their own!
One of their forces has a super spiritual vein.
As a result, Levi Garrison can match their existence.
He was a little flustered!
Although his strength is very strong, but that is for the gods.
But Levi Garrison in front of him obviously hangs everything.
Don’t lose to him!
underestimated!
Never thought that besides them, there are such masters.
“Levi Garrison, do you know who I am? You dare to snatch my things.
Kneel down

and apologize to me right away! I might consider sparing your life!"
But the force behind War Eagle Nation has a natural sense of superiority.
How can you be afraid?
How could he succumb to Levi Garrison?
Immediately let Levi Garrison kneel down and apologize.
Levi Garrison smiled.
In fact, he still has a question now, where did this kid come from?
What is your identity?
"Give me the magic medicine first, and then tell me where you came from!"
Levi Garrison said.
"Want to know my identity? Are you worthy? You are not qualified!"
"And dare to rob me? Levi Garrison, you are just courting death!"
This man had a rebellious look on his face.
Levi Garrison smiled and said: "Really? Then I will kill you directly!"
"Kill you, I will take the things directly! As for your identity, someone will definitely seek revenge on me, and then I will know!"
"Buzzing…"
At this time, Divine Tribulation was suspended in mid-air and aimed at the mysterious man.
Terrible power is spreading.
The mysterious man is afraid.
But he still shouted at Levi Garrison: "You dare???"
"kill!"
Levi Garrison shouted coldly.
At the same time, the divine robbery in his hand turned into a bolt of lightning.
"Boom…"
The mysterious man was surging with terrifying power, and circles of light circles
appeared on his arms, and there were mysterious symbols on the circles.
These gave him terrifying power.
A light shield is formed in front of him, the symbols on the light shield make up,
and a steady stream of spiritual power is flooded.
It seems that no artifact can open this light shield.
"Hey!"
But what he encountered was a calamity.
Divine Tribulation pierced this light shield in an instant.
Then penetrate his body.
The person's body gradually became illusory, and finally disappeared completely.

The moment before disappearing, there was an incredible look on his face.
It is estimated that Levi Garrison would not kill him.
It will be so decisive!
Kill it!
He didn't even say that he wouldn't tell him his identity.
Just pretend, and kill Levi Garrison without thinking about it.
If you wait a little longer, I will tell you who I am!
It's just that Levi Garrison takes care of you.
If you pretend, I will kill you directly.
I don't know who you are anyway.
The Return of the God of War [The
Protector] Chapter 3242
This man is also very helpless.
As long as Levi Garrison is a little later, he will report his family.
Although the power behind him is strong, he is not as strong as Levi Garrison.
He must have reported himself.
As a result, he pretended to be killed by Levi Garrison.
After removing this person.
The trap box also flew into Levi Garrison's hands.
Levi Garrison said lightly: "I just want you to reveal your identity, you are too
arrogant!"
Pack it all up.

Levi Garrison left.
No one would have thought that the mysterious person and the two hundred
gods all died so tragically.
The key point is that Levi Garrison's speed is too fast.
It took less than ten minutes to keep up with them and kill them Levi Garrison.
So that everyone has an illusion that Levi Garrison just left the island.
Where's the time to catch them, let alone kill them.
Even if the person in charge of the auction lets Levi Garrison leave.
Let him endure the pain of his daughter's wish to be lost in vain.
Therefore, people will also be sent to keep an eye on Levi Garrison.
Levi Garrison just left the island and suddenly disappeared.
Everyone thought they were lost.
Just when I was about to report, I found that Levi Garrison appeared again.
The time before and after is too short.

Everyone disagreed.
What can Levi Garrison do in such a short time?
I couldn't find where the mysterious man was, let alone robbing the magic medicine to kill.
No one would doubt it.
Levi Garrison disappeared for too short a time.
But no one thought that Levi Garrison was playing with the trap box in his hand.
He didn't dare to be tough.
Have to find a professional to solve it.
Now he thought about it, why there were no secret locks in the ancient books
left by Master Cheap.
Otherwise he can unravel it himself.
It can only be said that the treasures that Master left for him at the beginning
can only be applied to the previous period.
Times are changing so fast now that it is useless.
I can only pin my hopes on the person Ning Jinye said…
island.
The mysterious man's 350,000 pieces of spiritual energy crystals are moving here
little by little.
A super transport plane rises and falls on the island.
"Huh? This is?"
Soon the people that Levi Garrison arranged on the island found some clues.
They found out after some inquiries.
These super transport planes actually came from the War Eagle Kingdom Sky
Shield Bureau.
And these people involved in the transportation are actually from the Sky Shield
Bureau.
Of course check it out.
They also hid their identities to some extent.
If it wasn't for Levi Garrison sending them such meticulous inquiries, it would be
impossible to find out.
This mysterious person with resources that is not lost to Levi Garrison is actually
related to the Sky Shield Bureau?

This message is important.
When the dark doctor secretly sent the message to Levi Garrison, it made him
stunned.
I really didn't expect to have a relationship with the War Eagle Country.
"The forces behind War Eagle Nation!!!"
From the time when the Guardians of the Galaxy attacked the Lord of the Gods
Laboratory, it used a special confrontation weapon. At that time, Levi Garrison
noticed that there might be people behind the War Eagle Kingdom.
Otherwise, it is impossible for the Sky Shield Bureau to take out such an advanced weapon.
There is also the sleepy lock that the Sky Shield Bureau used on him.
This is obviously a technology beyond the current level of the Sky Shield Bureau.
This shows that there may be an existence similar to the laboratory of the gods
behind the War Eagle Kingdom.
Of course, all attention was on the remnants of the Lab of the Gods.
It's horrible to imagine now.
Then when the aura storm swept the world, the War Eagle Nation used the sky-defying device, which was actually used throughout the country.
Abruptly blocked the sweep of the aura storm.
The difficulty of this sky-defying device is not comparable to that of the Daxia
Safety Island project.
He is a device covering the entire War Eagle Nation!
No one has ever looked into this issue before.
Now that Levi Garrison thought about it carefully, he broke out in a cold sweat.
It looks like a device, and it is terrifying to the extreme.
The Return of the God of War [The
Protector] Chapter 3243
The technology of this device, the resources of the activating device, etc., are
unimaginable in the world.
In other words, this technology does not even exist in the world now.
When the device was activated at the time, it was quite shocking.
It actually changed everything in an area.
It was as if a separate world had been re-divided from the world.
The magnetic field and force field are all changed.

It's terrifying to imagine!
What does it take to do this.
It is simply unimaginable.
Join Telegram Group For Fast update
This is not a technology that this world can have at all.
Even War Eagle Nation is the same.
Although their technology is advanced, they are still not at that level.
Now Levi Garrison guesses that the fuel resource needed to urge this device to
work is aura!
Otherwise, judging from the energy resources possessed by the world before, it
is nothing more than sun stones.
It is absolutely impossible for Levi Garrison to activate such a device!
Fuel and energy can't support the activation of this level of equipment.
This shows that there is still power behind the War Eagle Nation.
This power is unparalleled, and it is likely that they have long expected the recovery of the spiritual energy, or that they have already controlled the spiritual
energy crystals.
From now on, it does.
That person has no less resources than himself, and he can always fight with him
to the end.
Explain that his resources are sufficient.
And Levi Garrison guessed that there is a high probability that this force also
relies on the spiritual veins to survive.
With such rich resources, it means that they control a spiritual vein.
This spiritual vein is not small.
Otherwise, that person would not be able to compete with himself for resources.
But what Levi Garrison didn't think about was that the spiritual vein they had was
also a super spiritual vein, no less than the super spiritual vein under the Antarctic glacier.
Levi Garrison understood.
Why is there no god in the War Eagle Kingdom, and it is not in a hurry at all, and
there is no message sent out.
See what Da Xia, who has no gods, is in such a hurry.
It's all there for a reason.

Daxia has no gods, so he has no ability to protect himself.
Of course they are afraid.
But War Eagle Nation is not afraid, they have powerful forces behind them.
Don't be afraid of anyone.
Have these abundant resources, and can use the power of resources.
Is not afraid of the gods!
"Ho ho…"
Levi Garrison was happy.
I thought it was the first in the War Bear Kingdom.
I never thought that the more terrifying thing was still in the War Eagle Country.
Levi Garrison suddenly thought of the sky-defying device used by the War Eagle
Kingdom, the device that made the eighteen supreme gods of the main gods lose
their abilities in an instant, and their talents were locked.
Even if it is used up to now, it is absolutely invincible.
It is estimated that this sky-defying device can lock the use of the spiritual energy of the gods, so that the gods are useless?
But dare to target me!
*Then I will definitely f*ck you!*
Come one by one!
When I finish detoxifying my daughter, level the War Bear Kingdom, and destroy
the Hydra, I will come to you!
I, Levi Garrison, have always been a person who will pay revenge.
Whoever targets me, I will never let go.
Now his goal is how to open this secret lock.
As for the matter of the War Eagle Nation, I'm waiting to ask the Black Eagle
agent, there is no information.
Levi Garrison returned to Daxia with the magic medicine.
the other side.
On the island, Doctor Dark and the others are still "locked up".
However, they can move freely on the island, but cannot leave the island.
They will only let him go after that person is completely safe.
However, Doctor Dark and their movements never stopped.
The identity of the group of masked guys has been investigated.
Next, Doctor Dark will have to look at so many resources. Where are they going
to be shipped?

Just wait and you'll find out.
He's been waiting.
Soon after, a team to transport resources appeared.
What the Dark Doctor didn't think of was…
He knows these people!
The Return of the God of War [The
Protector] Chapter 3244
The Brain of God, Ning Jinye, Jiao Tianyu and the others were all shocked.
It's not such a coincidence, is it?
Is it them?
They all know this group of people.
The Tenjin Division of the Great Summer!
It was them who came to transport the resources away!
This is what everyone can think of no matter what!
The one who came to transport the resources was the Great Summer God?
Could it be that this auction was organized by the Division of Gods and deliberately humiliated Levi Garrison?

impossible!
The Tianshen Division is run by the Tiance Mansion. How familiar the people of
the Tiance Mansion are with Levi Garrison.
how come?
Absolutely not them!
Maybe Tenjinji was also entrusted.
They are here to transport resources, and they are not involved in other things.
But how could this matter have anything to do with Tenjin?
Originally, they all wanted to catch the masked people present and take off the
masks.
But now the Tenshin Division has appeared and made them cancel this plan.
It might be more complicated than they thought.
They still don't act rashly.
Still waiting for Levi Garrison to decide!
They also want to continue to observe and observe to determine the identity of
these masked people.
But this time it suddenly became chaotic.

Because they just received a message that the two hundred gods of the War Bear
Kingdom and which mysterious person disappeared on the spot.
What also disappeared was the magical medicine that was comparable to the
100,000-year-old snow lotus!
They all appear to have been killed.
Because War Bear Kingdom quickly confirmed this.
Each of their gods has a chip installed.
The wafers can determine their location and physical state of these.
But now the chip shows that all of their 200 gods are dead.
Not one is left.
Does that mean that the mysterious man is also dead?
The other party is obviously going for this magic medicine.
The first thing that everyone thinks of is Levi Garrison.
But Levi Garrison has been stared at all the time, and there is no possibility of
taking action.
Both appear in different locations.
Not to mention others.
"Quick, quick, run away as quickly as possible!"
The island is in chaos.
They expedited the removal of resources to prevent emergencies.
Doctor Dark realized that something was wrong and immediately told Levi Garrison the message.
Levi Garrison was also shocked when he heard it.
Tenjin to deliver resources?
Levi Garrison, who happened to be in Daxia, immediately contacted Tiance
Shenshuai.
After hearing this message.
God Shuai Tiance was also stunned.
"No! I haven't given them any orders at all! I won't let them run to transport
resources back! These mysterious forces are all aimed at you, how can I cooperate with them?"
"And I don't even know who they are…"
God Shuai Tiance was really dumbfounded.
Although Tianshen Division was established by Tiancefu.
But the person in charge is not Tiance Shenshuai.
The boss of the Tenshin Division is the young marshal of Tiance.
Because he is currently the strongest god that has ever appeared in Daxia.

Therefore, it is better for him to be the boss of Tenjin Division.
After all, this is an era when the strong are respected.
It's hard to convince everyone else.
Levi Garrison smiled: "I can't think of any contact you can have with them!"
Tiance Shenshuai looked suspicious: "I don't know if it was my son's decision!
Let's go and ask, this matter is very important! We must find out!"
"Okay, then hurry up and ask! Maybe this matter has nothing to do with him!"
Levi Garrison said.
He thought of the forces of the Heitian League who came to rob him of resources.
It seems that the people from Tenjin Division leaked the information and took
away the Qinglong people who were related to him.
Now it is not impossible to cooperate with the forces targeting you.
Just don't know who?
Must find out!
Marshal Tian Ce was in Daxia.
So the two quickly found him.
The commander of Tiance directly questioned: "Did you send someone to cooperate with others? Now the people from the Tianshen Division have gone to
the island to transport the aura crystals and come back!"
The Return of the God of War [The
Protector] Chapter 3245
The two thought that Young Marshal Tian Ce did not know that he would not be
involved in this matter.
Unexpectedly, Marshal Tiance admitted it at once: "Yes, I arranged it!"
Shock!
The two looked incredulous.
It's really Young Master Tian Ce.
Levi Garrison's heart has been turned upside down.
Really Young Master Tian Ce?
Did he control the magician?
Shouldn't it?

But he admitted it!
"You…how did you do such a thing?"
Tiance Shenshuai shouted.

He didn't even think that Marshal Tiance did this, and he admitted it so calmly.
He never imagined that this matter had something to do with his son.
Could it be that the son is the one behind the scenes that Levi Garrison said?
Levi Garrison stared at Marshal Tian Ce and asked, "Did you control Yan Zangsheng against me? Did you hold an auction against me?"
As soon as Levi Garrison questioned, Marshal Tian Ce was also taken aback.
"No!"
"I don't know any of this!"
Marshal Tian Ce shook his head.
"Then why did you send Tianshen Division to transport the spiritual energy
crystals? You also knew about this auction in advance, right? Don't tell me, it has
nothing to do with you! Then you must know this group of people!"
Levi Garrison asked.
"I know about the auction! But I don't know who it is! A mysterious person
contacted me and said that all the resources in this auction will be given to the
Tenjin Division!"
"I didn't believe it at first, until they sent a batch of resources to me!"
Marshal Tiance said.
"Ok?"
Levi Garrison and Tiance Shenshuai looked at each other.
This was obviously beyond their expectations.
All the resources in the auction were given to the Tenjin Division?
"I don't care what their purpose is. Anyway, they gave the resources to the
Tenshin Division, and they won't let us do anything, why not?"
"And I asked why they gave away resources to the Tenjin Division for free? The
answer is very simple! I want to make Da Xia more gods and make Da Xia stronger!
That's enough!"
Young Marshal Tian Ce's answer shocked Levi Garrison and the two.
This……
Levi Garrison previously guessed that this group of forces belonged to Daxia.
Now it looks like it is!

They gave the Tenshin Division resources to make Daxia develop and have more
gods.
In fact, it can be determined from the beginning.
If this group of people does not want the development of Daxia and the appearance of gods in Daxia.
They had already controlled the genius doctor Yan Zangsheng.
He won't let him help Daxia create so many gods!
This means that this mysterious force only targets Levi Garrison, not others.
In particular, they also hope that Daxia will develop.
Now let the Tenshin Division go to transport resources, which can better explain
this matter.
"This……"
Tiance Shenshuai's face was full of helplessness.
It's impossible to tell if it's an enemy or a friend!
These forces are obviously helping Da Xia, why are they targeting Levi Garrison
so much?
What kind of hatred can the two sides have?
Can't imagine it!
Are there people around you?
It seems that no one has such a skill!
Levi Garrison was even more confused.
Who is it?
damn it!
What are you doing yourself?
Why don't you dare to come out openly?
Originally, Levi Garrison wanted to ask Tiance Shenshuai if he knew about Tianji
lock.
Now it seems, can not ask.
It's not that he doesn't believe in Tiance Shenshuai, he's afraid that others might
know.
Thus exposing the magic medicine in his own hands.
At this time, the team that transported the first batch of Reiki crystals from the
island had returned.
A total of almost half a million high-quality aura crystals.
See everyone's eyes light up.

I don't know how much power these resources can add to Daxia?
Even Tiance Shenshuai was breathing rapidly.
There are so many resources! ! !
However, Levi Garrison smiled and said, "We're one size fits all! You want Da Xia
to be strong, no problem, but if you target me, then we will have a grudge, don't
let me find you out! Wait!"
The Return of the God of War [The
Protector] Chapter 3246
Give the Tenshin Division resources, he can't control, or even support.
*But, if you target me, I will f*ck you!*
Seeing the back of Levi Garrison leaving, Tiance Shenshuai and his son were also
puzzled.
Who is this?
Why do you have to target Levi Garrison?
Unreasonable.
Daxia, they all know who Levi Garrison offended.
Then there will be others?
...

At this moment, the island is also in chaos.
Hydra is all messed up.
All the two hundred gods they sent out died?
Incredible!
who did it?
They suspect a lot of people.
Only there is no doubt about Levi Garrison.
Because almost all of Levi Garrison's men are here, and Levi Garrison has proof of
his alibi.
So it won't be him.
"It can only show that there are many people staring at the magic medicine, and
many of them are beyond our expectations! Even the two hundred gods of the
War Bear Country can be easily wiped out! This shows that the power to steal the
magic medicine is not easy!"
In the end, everyone can only come to this conclusion.
And Doctor Dark, they were also released.

After all, they are not suspicious at all.
Originally, Doctor Dark and the others wanted to check the person in charge of
these auctions.
See who is behind their masks.
But get Levi Garrison's message and let them come back.
This force obviously thought of the details of each step, which can be seen from
the fact that the Tenshin Division came to transport the resources.
They also must have known they were going to check out these masked people.
So even if you go to check them, you will definitely find nothing.
Since it doesn't make sense, what else is there to do?
Levi Garrison hurried them back.
Just let the Huoyun Evil God stare at a little bit.
A group of people all came back.
Seeing Levi Garrison, everyone asked, "Did you succeed?"
Levi Garrison raised the trap box in his hand.
"Jinye will rely on you next, find someone who can unlock the secret lock!"
Levi Garrison was waiting for Ning Jinye to come.
"Teacher Ye, don't worry, leave everything to me!"
Ning Jinye immediately went to find it.
Levi Garrison also arranged for Zheng Haobo and other three to be with him, so
that they could take care of each other.
Levi Garrison is now too curious about this mysterious force and is also very
angry.
The identity of this force is unknown.
He knew about the other forces behind War Eagle Nation.
"Everyone is ignorant of this force! There is no way to find out!"
The Dark Doctor said.
Levi Garrison pursed his lips and said, "Maybe we are heading in the wrong
direction?"
"Mr. Ye, do you mean to check other people?"
The Return of the God of War [The
Protector] Chapter 3247
Levi Garrison nodded: "Why don't we check the origin of Yan Zangsheng? He is

not a genius doctor for no reason! He is incognito, and his identity may not be
simple!"
"If he can be found out, it might have something to do with that faction! In the
past, that faction didn't care about him, but he didn't expose him. Now that he is
exposed, immediately target me!"
After Levi Garrison said this, everyone suddenly became enlightened.
The idea suddenly opened up.
This is indeed the case.
Check in another direction.
"There are so many enemies! Wait until Levilia's poison is solved! I, Levi Garrison,
will definitely come to you one by one!"
A cold light flashed in Levi Garrison's eyes.
And this moment.

The head of the War Eagle Guotian Shield Bureau, Smith and senior Nielsen, also
learned the news of who disappeared.
This is actually the messenger who is in contact with the forces behind them.
This time he couldn't hold back and ran to target Levi Garrison, which ended up
like this.
"All the 200 gods in the War Bear Kingdom are dead, and the magic medicine has
also been robbed. This god envoy must also be dead!"
Smith said in fear.
"Then hurry up and send them the message!"
Nelson said.
Although this is their messenger, they also have other urgent ways to contact the
forces behind them.
Now that the messenger is dead, they immediately send the message to the forces behind it!
For them, the sky is falling!
Such a powerful being was killed.
The magic medicine has also been robbed!
I don't know who did it yet!

And this matter involves the affairs of the first forces in the past and the first
forces today.
Let them all suffer.
Soon there was an order from the forces behind them – let them find out the
murderer in the shortest possible time!
"Agents Blackhawk, go check it out immediately! Quick, as fast as you can!"
Bureau Chief Smith immediately ordered.
The entire Sky Shield Bureau was dispatched one after another.
They may not be able to do this in terms of strength at present, but in terms of
information, they are definitely top notch.
"Let's find Levi Garrison!"
The first thing that Black Hawk agents thought of was Levi Garrison.
Of course, I don't think it was Levi Garrison who did it.
Rather, it has something to do with him.
The two sides were connected by a delicate relationship, so he was the first to
find Levi Garrison.
When the Black Hawk agents approached Levi Garrison, he was not only stunned.
I still think I have time to find him.
I didn't expect it to be delivered to my door.
"Have you heard that the magical medicine of the Great Summer Doctor was
taken away?"
Agent Blackhawk asked.
"Ok!"
Levi Garrison nodded.
"Looking for you to find out the specific situation…"
Agent Blackhawk said.
Levi Garrison directly admitted: "I killed people, and I robbed the magic medicine.
What's wrong?"
"puff!"
Agent Blackhawk almost stumbled to the ground.
Just admit it?
Without any cover up?
Never thought that he would come to inquire about the situation, and immediately met the righteous master.

“Are you still that strong now?”
The Black Hawk agent asked tremblingly.
Before the aura recovered, Levi Garrison was definitely an invincible existence.
Hit everything with one punch.
But now, how could Levi Garrison be?
So many gods.
Levi Garrison didn’t even have aura lingering.
Still so strong?
“What do you think?”
Levi Garrison smiled.
The Return of the God of War [The
Protector] Chapter 3248
Only then did the Black Hawk agents realize that Levi Garrison’s strength was
unfathomable.
Just like the forces behind the War Eagle Nation, it ignores any era.
At any time, they are above the world.
“If you don’t come to me, I will still find you!”
“There is a powerful existence behind your War Eagle Nation? It’s the one I
killed!”
Levi Garrison asked.
At this meeting, the Black Hawk agent nodded: “I also only found out not long
ago that since the establishment of the War Eagle Kingdom, there is a behemoth
behind it!”
Levi Garrison nodded: “Sure enough, the power behind you is very powerful, and
the resources are not lost to me!”
“Yeah, the force behind us ignores everything, and they are superior in any era.
The core technology of our Sky Shield and even the entire War Eagle Kingdom is
provided by them. Therefore, our technology leads the world. so many!
Join Telegram Group For Fast update
Let’s put it this way, after the aura was revived, gods from all over the world
appeared one after another, putting all the technology in a useless place.
However, the technology of the Eagle Kingdom can still compete with the gods,

because I found that many of the devices of the Sky Shield Bureau are actually
motivated by aura.
But I don't know much about it. My head of the game, Smith, should know. "
This is the same as what Levi Garrison guessed.
The sky-defying device that dealt with the Lord God Division back then made him
look stupid.
It really needs to be motivated by spiritual energy, otherwise it would not have
such power.
Hei Ying continued: "The most terrifying thing is that this force has always been
in the territory of War Eagle Country, but I can't find it in every corner!"
"Can't find it at all?"
Levi Garrison said in surprise.
"Yeah, so I guess there is such a possibility! And it's probably the case."
Hearing what the Black Hawk agent said, Levi Garrison immediately asked, "What
is the possibility?"
"There is nothing wrong with them in the War Eagle Nation, but we can't enter
their territory! They should have their own small world!"
"They are so powerful that the devices given to the Sky Shield Bureau can change
everything in the area, and even protect the entire War Eagle Nation from the
aura storm.
Then it is also possible for their own place to become an independent world
isolated from the rest of the world! "
Levi Garrison not only did not think it was not absurd, but was also correct when
Black Hawk agents proposed this "small world" theory.
Mostly so.
In fact, this force is in the territory of War Eagle Nation, but they have used some
devices or special methods to turn their area into an independent world, and
others can't find it and can't get in.

In layman's terms, they use the device to change the nearby magnetic field,
gravity and other factors.
Even if you find this place, you will get lost due to the changes of various elements such as the magnetic field, gravity field, etc. You wander around for a
long time, but you are actually just standing there, and you can't find it at all.
Or directly change these factors, so that you walk around the edge of this "independent world", and you can't find this independent world at all, let alone
enter it.
They have this kind of heaven-defying means, and it is too simple to hide the
small world they are in.
It is easy to give you the illusion that you have passed through this area.
But in fact you are walking around the edge without touching this area at all.
You passed through from somewhere else.
Not conjecture.
But that's for sure.
It's too easy for them.
It's easy to make a "small world".
Levi Garrison thinks of Daxia's words, such as Zhenmo Division, such as Tianshifu.
There are supernatural beings here.
They made an area so that outsiders couldn't come and find it, it was simply too
easy.
The small world sounds incredible to others, but to Levi Garrison who probably
knows the principle, it is as simple as chopping melons and vegetables.
For example, Zhen Mosi, they have been looking for a long time.
Still no clues.
Reminder now.
The Return of the God of War [The
Protector] Chapter 3249
There is a high probability that the Town Demon Division has its own independent small world, and other people just cannot approach or find this
area.

Even if you enter it accidentally, you will be bypassed and you will not be able to
find it at all.
"By the way, I also heard that they can unlock your daughter's poison! But they
won't do it! Even if you beg them, it's useless! You don't have the conditions to
impress them! You have it, they have it. You don't have it. Yes, they have more!"
Agent Blackhawk said.
Hearing this message, Levi Garrison looked calm.
This force is so terrifying, it is normal to be able to detoxify.
Fortunately, Levilia has solved half of the poison now.
Immediately open the secret lock, you can completely detoxify.
Otherwise, knowing this information, Levi Garrison will definitely go crazy.

He even contacted this force for his daughter and asked them to take action.
But now he is calm.
"Okay, I probably know it too!"
Levi Garrison smiled.
This made the Black Hawk agents different again, and Levi Garrison was still at
the top level.
As for his secret, he didn't dare say it.
still the same.
This is likely to be his life-saving trump card, which can only be used at critical
times.
I thought it would take a long time to find the murderer.
I didn't expect to find it as soon as I got out of the horse.
But Levi Garrison couldn't say it either, he could only delay for a while.
Now, what is causing Levi Garrison's headache is not the problem of Levilia's
poisoning, but who is behind Yan Zangsheng?
Why target yourself?
Even Tiance Shenshuai was wondering about this.
Who is it?
He could not have imagined such a group of people.
It is necessary to strengthen Daxia and target Levi Garrison.
This is not reasonable.

Is it…
Tiance Shenshuai suddenly realized something.
Immediately broke out in a cold sweat.
But shouldn't it?
What kind of hatred can they have with Levi Garrison?
He can't think of it!
Young Marshal Tian Ce also looked puzzled, but seeing his father's appearance,
he couldn't help but ask, "What did you think of?"
"Knowing the Baolong family, they have been guarding a secret, right?"
Tiance Shenshuai asked.
While Young Commander Tian Ce was shocked, he immediately nodded: "I know!"
"Each of their veins guards a part of this secret, and the combination of several
veins is the complete secret. Could it be that this group of forces has something
to do with this secret?"
Marshal Tian Ce looked at his father in surprise.
"Well, I can't think of others! It should be!"
Hear the affirmative statement from my father.
Young Marshal Tian Ce was even more puzzled: "Although I don't know what the
secret is, it doesn't seem to have anything to do with Levi Garrison, right?"
"Yeah, that's the point of my doubts too!"
"I still have to investigate!"
The goddess Tiance said.
…
Levi Garrison naturally didn't think about who it was.
He is now only asking people to investigate the identity of the genius doctor Yan
Zangsheng.
However, there is also good news from Ning Jinye – he is looking for someone
who can unlock the secret lock.
I believe there will be news soon.
The probability of opening the sky lock is still very high.
Of course, Levi Garrison wouldn't put his hopes on the magic medicine.
He is still looking for other ways.
Even if Levilia has detoxified half of the poison, the quicker the detoxification is,

the better.
Definitely don't delay!
But it is still difficult.
Bounties are useless at all.
No one dared to make a deal with Levi Garrison despite the blocking of multiple
forces.
Whoever trades will die.
Who dares to do this?
However, there are also Hydra and other forces that cannot be deterred.
After all, their power is not enough to restrain everyone in the world.
For example, the second existence on the power list after War Bear Kingdom.
That is the Olympic Empire!
This is a country full of myths and legends.
In the age of technology in the past, this country had no sense of existence at all.
Perhaps the most familiar are the myths and legends.
But after the aura recovery came, this country once believed that this was the
awakening of the gods in their myths and legends.
Instead of escaping, they accepted the baptism of Heavenly Commander Fuze.
Just like the War Bear Kingdom and the Apocalypse Empire.
All face the arrival of aura recovery.
As a result, by mistake, the gods appeared one by one.
So that the Olympic Empire became the second power list.
It is reported that the Olympic Empire has at least a thousand gods, a lot more
than the third Apocalypse Empire.
But there are rumors that the Olympic Empire has thousands of gods, even tens
of thousands of gods.
The Return of the God of War [The
Protector] Chapter 3250
Until now, the Olympic Empire still feels that this spiritual revival is a blessing
from the sky.
Let the gods in their mythology revive one by one.
That's right, they did have some anomalies resuscitated.
But in fact, these aliens are the same as the original blood race.
Where is the god.

It's just that the physique is different, and now because of the baptism of spiritual energy, it provides them with some kind of energy, which makes them
all wake up.
Even the title "God" was the first to be proposed by the Olympics.
So much so that the whole world now calls this group of aliens.
In their view, this is the restoration of the gods.
Join Telegram Group For Fast update
But for these ignorant mountain goods, this is the gods.
Nonetheless, they found that resources were needed to make the gods stronger
and more gods to appear.
All this requires a lot of resources.
They call the resource the treasure of the gods, and the aura crystal is called the
god stone.
I feel that everything is a gift from God.
And they are the kingdom of myths, the center of the power of gods.
All the gods in the world will listen to them.
These treasures of the gods should belong to them, and they should manage and
distribute them.
Everyone should listen to them!
In times past they said no.
But this aura is revived and the gods are overthrown.
They should have the final say.
They are mythological centers.
Therefore, all resources belong to them, and all gods obey their commands.
The first thing they did was to find Zhanxiong Nation quietly and let Zhanxiong
Nation listen to them.
Give them resources and let the gods accept their control.
As a result, where would the War Bear Kingdom agree?
I even think these people are mentally ill!
There is a problem in one's mind!
Without further ado, just kill everyone who comes!
Claiming that they dare to come again, they will all be destroyed directly.
The strength of the War Bear Kingdom is indeed strong, and there are far more
gods than them.
Everyone is afraid of this!

Although the Olympic Empire is sick, but also afraid of death.
War Bear Kingdom is not used to your faults.
*If you mess with it, f*ck you!*
This quelled the Olympic Empire.
Otherwise, they would have already made a move against the whole world.
To manage all resources and gods.
It's just that their thinking has not changed, and they always feel that they are
the center.
Everything related to the gods belongs to them.
Now they have been forbearing, wanting to quietly increase their strength, waiting for their strength to surpass Zhanxiong Kingdom.
So as to dominate the world and truly become the center of the power of the
gods.
Now the entire Olympic Empire is actually very low-key.
The Return of the God of War [The
Protector] Chapter 3251
They didn't implement the strategy they had in mind in the first place (controlling the world's resources and gods).
Because their current goal is to catch up with the War Bear Country!
No more than War Bear Country, they will never do it.
Therefore, they are now trying to increase their strength and create more gods.
He even dug up all the aliens that had been sleeping for many years, and prayed
to revive them through spiritual energy.
because of this.
Therefore, now the Olympic Empire is completely closed and does not participate
in any disputes.
So low-key that there is no sense of participation at all.
Not to mention the War Bear Kingdom, the Apocalypse Empire.

Even the Black Dragon Empire is not as good.
become an alternative existence.
Even many people don't even know who is the second in the power list?
Levi Garrison had heard of the operation of the Olympic Empire.
Levi Garrison called them clubs who had never seen the world.
But now they have come to Levi Garrison.
It is because their goal is the mighty War Bear Country.

They have been trying their best to catch up.
Not only has the gap narrowed.
It turns out that the gap seems to be gradually widening.
Especially now that the resources of War Bear Country are abundant, and the
experiment of Hydra was successful.
Gods mass production, more and more.
They can't keep up with this speed.
And the shortage of resources is even more incomparable.
After some thought, they aimed at Levi Garrison.
Levi Garrison's resources are notorious.
Only Levi Garrison's resources gave them a chance to catch up with the War Bear
Kingdom.
In fact, they have been thinking about this for a long time.
But no action was taken.
But recently I heard a secret – Hydra has created tens of thousands of gods for
the War Bear Kingdom.
The Olympic Empire finally couldn't sit still, so they came to Levi Garrison.
When they act, of course Hydra can't stop them.
It doesn't have that power at all.
Even if the War Bear Kingdom sent eight hundred gods for them to dispatch, it
would not be enough at all.
What can you do to stop the Olympic Empire?
Unless War Bear Nation uses real power.
Otherwise, no one in the world can stop them!
Therefore, even if people like Hydra know it.
Also have to watch.
When this group of people found Levi Garrison.
He was also curious.
What are they here for?
"Is it because of a bounty?"
Levi Garrison asked.
Could it be that his daughter has hope of detoxification ahead of time?
Can't open the sky machine lock?
The Return of the God of War [The
Protector] Chapter 3252 – 3260
There's nothing wrong with that!

The people of the Olympic Empire shook their heads: "No, we are here for your
resources!"
Levi Garrison asked: "So direct? Shouldn't it be a reward order? Do you bring my
daughter's detoxification method or medicine, and then come to trade resources?"
"That's not true! We're just here for your resources! We thought you had already
handed over your resources and secretly told them."
"But you issued a bounty order again, and we learned that you still have resources. You didn't even tell the secret of the resources! So we came to you!"
...
Hearing what the other party said, Levi Garrison seemed to understand.
The Olympic Empire is similar to the Apocalypse Empire.
directly to grab resources.
Join Telegram Group For Fast update
It is impossible to detoxify Levilia.
"So you came directly to me to get resources? If I don't give them, you will just
grab my resources?"
Levi Garrison explained the words directly.
To him, these people were like robbers.
There is no difference at all with the Apocalypse Empire.
"What is your resource? This is obviously our resource!"
Everyone in the Olympic Empire said coldly.
Bandit style!
It's not exactly the same!
Levi Garrison sneered in their hearts.
However this is just the beginning.
"Don't say it's yours! The world's resources should belong to us! This is the
treasure of God! It was bestowed by God and God! It should be under our control!"
The crowd continued.
"puff!"
Levi Garrison was about to vomit blood.
Sure enough, there is no shame.
Only more shameless.
An Apocalypse Empire came to grab his resources before, saying that his resources belonged to them.

Now come to an Olympic Empire and directly say that the resources of the whole
world are theirs.
Shameless!
It's so shameless, isn't it?
"Not only the resources of the world are ours, but all the gods should be under
our control!"
Several people continued.
Doctor Dark: "...".
Levi Garrison: "...".
Speechless!
Never seen such speechless!
The Apocalypse Empire is shameless, but the Olympic Empire is speechless!
"Why is it all yours?"
Levi Garrison asked helplessly.
"Have you heard the myths and legends of our country?"
This, Levi Garrison has to admit.
This place is known as the capital of mythology.
Many myths come from here.
There are many gods in this country.
Levi Garrison always thought that they were all aliens, not gods or something.
Just too many hammers.
Believe that these myths are real.
Especially after the aura is revived!
"It's good to know! After the aura recovered, the concept of gods was also proposed by us!"
"All the gods and resources in the world are gifts from God and treasures of
God!"
"And our country is the center of the power of the gods, the place where the
gods gather in mythology. The temple is in our country. Therefore, all gods must
obey our orders, and all resources will belong to us!"
...
Everyone stared at Levi Garrison: "The resources you squander now are actually
ours! It's not yours! You just dig it out! But you don't have the right to use it!"

“But we choose to forgive you, since you didn’t know it before!”
Impressed!
Levi Garrison is really going to take it!
What kind of weirdness is this!
“Now as long as you tell us the secret of how to obtain resources! Then you are
still God’s favored people!”
People have indicated the source.
“Push!”
Levi Garrison really wanted to laugh.
Absolutely!
Really a god.
Really stunned!
Levi Garrison suddenly thought of something, and the corner of his mouth rose.
“Then you said that the resources and gods in the world should listen to you,
then I’ll ask you a question…”
Levi Garrison laughed.
ng to submit to you?”
Levi Garrison asked.
This question instantly made everyone in the Olympic Empire twitch fiercely!
Embarrassing to the extreme!
Who would have thought that a simple question from Levi Garrison was so sharp
that it was like a knife stabbing in their hearts.
Although they consider themselves the kingdom of God!
It is the center of divine power!
But the gods are not obedient, especially the gods of Zhanxiong Nation.
Even kill them!
But they are helpless!
Isn’t it even for this matter that you came to Levi Garrison today?
“What’s the matter? Did you really look for War Bear Country?”
Levi Garrison continued to ask.
“puff!”
“puff!”
…
Everyone’s faces twitched again, and they were about to vomit blood.
“And they still don’t listen to you? They still want to fight you? Can’t you fight?”
…

“puff!”
“puff!”
…
These people twitched every time they heard Levi Garrison ask a question.
They’re going to break the defense!
Levi Garrison’s question is too sharp.
But they couldn’t refute it.
Looking at their strange expressions, Levi Garrison has realized something.
You can guess how they were bullied by the War Bear Country.
“Hmph, that’s Zhanxiong Nation’s betrayal of the power center of the gods!”
“They don’t listen to us, they don’t hand in resources, and they don’t want to
hand over gods to us!”
“They will soon be punished by God!”
One of them couldn’t help but snorted.
Right to refuse!
Do you think the people in Zhanxiong Kingdom look like fools?
These people are obviously not the opponents of the Zhanxiong Nation, so what
are they talking about.
“That’s not right, since the gods of War Bear Country have betrayed, aren’t you
the so-called center of the power of gods? You are so powerful, you immediately
wiped them out! Punish them! What did you come to me for?”
Levi Garrison asked immediately.
“puff!!!”
Now everyone in the Olympic Empire will break the defense.
Levi Garrison’s problem is a thousand arrows piercing his heart!
Can’t beat it!
It’s because they can’t beat the War Bear Kingdom!
Otherwise they will wait until now?
The War Bear Country has been wiped out!
…
All of them showed complicated expressions.
going to cry.
Levi Garrison said faintly: “I seem to remember that you are the second on the
power list, and the Zhanxiong Kingdom is the first! It’s normal that you can’t beat

the first one!"
Everyone in the Olympic Empire: "...".
Levi Garrison continued: "And it is rumored that the gap between the first and
the second is at least ten times! I think it may be more than ten times or hundreds of times! No wonder you don't go to Zhanxiong Nation to trouble you!
It turns out that you can't beat it at all!"
"Okay, stop talking!!!"
"Shut up for me!"
...
Everyone was enraged by Levi Garrison.
Then again, everyone is going crazy.
Can't stand it anymore.
The pride of the power center of the gods before is all gone.
"The War Bear Kingdom is powerful, but their gods have betrayed us and will be
punished sooner or later. Therefore, we now need a lot of resources to increase
our strength! Then defeat the War Bear Kingdom and punish the War Bear Kingdom!"
"The resources you have been using are ours! You don't need to give up all your
resources! Just tell us how your resources were obtained! After we get enough
resources, we will be able to defeat the War Bear Country! "
"We won't hide it from you anymore! The reason why our Olympic Empire is so
low-key and not involved in anything! That's because we are working together
for one goal – to defeat the War Bear Kingdom! Punish these traitors!"
...
to now.
They were afraid to go further, and Levi Garrison pierced their hearts more and
more.
Therefore, I had to speak my true thoughts.
Doctor Dark nodded: "So it is!"
They were really curious before.
Obviously second in the world power list, how to keep a low profile like this.
There was no sign of them at all.

It was for this purpose!
These people continued: "Actually, it's good for you! We punish Zhanxiong
Nation, in fact, we are helping you!"
"Zhanxiong Nation condones the Hydra that poisoned your daughter. When the
time comes, we will defeat Zhanxiong Nation and punish the traitors. Hydra is not
at your disposal!"
"If the War Bear Kingdom is always strong, you won't have any way to deal with
the Hydra, right?"
…
heard here.
Levi Garrison thinks they are normal.
Think clearly and understand the stakes.
But how did it behave like a brain-dead before.
Is it mainly the culture and habits of this country?
Make them all myths.
Each and every one of them is full of gods and the like…
to do such absurd things.
"Levi Garrison, we hope that you are the favored people of God, and not against
God! Otherwise, you will never get God's treasure in the future!"
"You just have to tell the secret of how to get the treasure of the gods! We will
not stop you from continuing to mine!"
…
Everyone looked at Levi Garrison and asked.
Several of them said: "I hope you don't betray! The traitor of Zhanxiong Nation is
too powerful, we can't deal with it for the time being! But if you betray, we can
solve you in minutes! Even pacify Daxia!"
threat!
Start the naked threat!
They are a combination of grace and power!
The purpose is for Levi Garrison to tell all the secrets of the resources!
Levi Garrison thought of something, smiled and said: "Well, since that's the case,
let you know how I got the resources!"
"Really? That's really good!"

…
The people of the Olympic Empire cheered.
Levi Garrison said to the dark doctor: "Find the most terrifying first-level forbidden area nearby!"
Doctor Dark quickly found a nearby level 1 forbidden area.
Just a few days ago, Tenshin Division also made a special evaluation.
There are at least two hundred beasts that are comparable to gods.
A lot of them are still dominant.
It is the most terrifying first-level forbidden area around.
It can be ranked in the top of all forbidden areas in Daxia.
"What about the secret? Tell us?"
A group of people waited anxiously and couldn't help asking.
"If you want to know how I obtained the treasures of heaven and earth, then
come with me!"
Levi Garrison and several people led the way.
Dozens of people from the Olympic Empire followed.
After some time.
Everyone came to the edge of this first-level forbidden area.
A terrifying aura began to spread.
There is even a terrifying vicious beast aura.
Let everyone in the Olympic Empire be vigilant.
Such a barren area.
Anyone can know what this is.
"What are you bringing us here for? Not to mention, it has to be a second-level
forbidden area, or even a first-level forbidden area, right?"
The people of the Olympic Empire couldn't help but ask.
The richer the spiritual energy, the easier it is to produce natural treasures and
spiritual energy crystals.
But the easier it is for powerful beasts to exist…
Now they can feel the aura in the front area is super rich.
It's definitely a second-level or first-level forbidden area.
Levi Garrison smiled and said, "Of course! But if you want to know how I get
resources, just follow!"
"All right!"
Although everyone was puzzled, they followed one by one.
Soon everyone came to this area.
Levi Garrison never said a word, but just walked forward.
There is no action either.

This left everyone puzzled.
They didn't even ask.
You can only follow Levi Garrison all the time.
At this time, Levi Garrison suddenly stopped.
Everyone was startled.
What is Levi Garrison doing?
Everyone looked at Levi Garrison suspiciously.
Wonder what he's going to do.
"correct!"
"Didn't you say that all resources and gods belong to you? Do you all obey your
orders?"
Levi Garrison asked.
"Yes!"
Everyone nodded.
"Then I don't know if the beast gods are counted? They should also belong to the
power center of your gods, right?"
"Would you like me to bring out a few powerful beasts, you guys can try?"
…
Hearing what Levi Garrison said, the faces of these people in the Olympic Empire
turned green.
They just have faith, but they are not stupid!
How could the beast be listening to them?
Still eating them all…
"Mr. Ye's joke is not funny at all, don't challenge our hearts!"
said the crowd.
The most vulnerable part of his heart was poked by Levi Garrison over and over
again before.
Everyone has been holding back.
If Levi Garrison goes too far, he may really anger them.
Levi Garrison smiled: "Just kidding, liven up the atmosphere! Otherwise, everyone will be so serious!"
Just kidding, Levi Garrison continued to walk forward.
This time, he didn't give off any breath.
But all converged.
Very different from before.
At this moment, the beasts in this first-level forbidden area have long been eyeing them.
This made everyone in the Olympic Empire a little scared.

After going deep inside.
They determined that this was a first-level forbidden area.
Each of them began to fear.
In the past, when they entered the first-level forbidden area, at least hundreds of
gods had to go with them.
In addition, there are a lot of people around.
After they were almost foolproof, they dared to enter the first-level forbidden
area.
But entering today, there is no guarantee at all.
They didn't even know where Levi Garrison took them.
However, in order to obtain the secret of Levi Garrison's resource acquisition,
they all fought hard.
A group of people followed behind Levi Garrison tremblingly.
Everyone is thinking that Levi Garrison must have a special way to obtain resources.
It can only be displayed in places with more resources.
Everyone keeps comforting themselves.
…
The two doctors in the dark saw their embarrassment and laughed.
Everyone in the world felt that Levi Garrison had a special and simple way to
obtain resources.
But as everyone knows, it is the most basic method – where there are resources,
you can go to dig them.
Shortly after.
Levi Garrison brought a group of people to this first-level forbidden area where
the spiritual energy was most abundant.
There are high-quality natural materials and treasures all over the place, and
pieces of high-quality aura crystals are shining with dazzling brilliance.
Almost everywhere!
As long as you move your hands, you can dig so many things.
Levi Garrison grabbed a piece of aura crystal, turned to look at everyone and said,
"I have told everyone the secret of how to obtain resources!"
"and then?"
Everyone looked at Levi Garrison and asked in confusion.

I thought there was some weird way.
Levi Garrison shook his head helplessly. He bent down to pick up a piece of
spiritual energy crystal, and said, "That's it! Wherever there are resources, go
there! Just like now, find resources and pick them up!"
Understood!
Now everyone understands!
It turns out that Levi Garrison's method is like this!
Wherever there are resources, go and pick them up!
He just gave an example twice.
But isn't this a joke?
"Levi Garrison, are you kidding us???"
"This is how you get resources? Who are you fooling?"
"This is a first-level forbidden area. You can come if you want? If you want to
mine resources and want to leave, will those god-level beasts agree? You haven't
encountered it yet, but what if you do?"
"Aren't you coaxing us? Is this the way?"
...
Everyone in the Olympic Empire began to criticize Levi Garrison.
"Roar……"
"Ow…"
At this moment, the roar of the fierce beasts came.
They have been surrounded by beasts.
No one ever believed what Levi Garrison said!
It was the first time those people in the Apocalypse Empire heard it.
Yes.
Who doesn't know there are abundant resources in these places!
But are you capable of taking it out?
Once or twice, you may not be able to encounter powerful beasts by luck!
But you can do this every time?
Can't touch it?
How unlucky you are!
That is impossible!
Judging from the resources that Levi Garrison has, he has entered the first-level
forbidden area more than once or twice.
He has to enter the first-level forbidden area several times a day in order to have
this scale of resources.

Just so many times, can you succeed?
Absolutely impossible!
For example, now Levi Garrison has said his own way and came here to get
resources.
But all the beasts in this area have come.
…
"One, two…"
The people of the Olympic Empire began to count silently according to the breath of the beast.
Two hundred and thirty-eight beasts comparable to gods? ? ?
fear!
It's terrifying to the extreme!
This is definitely the most terrifying first-level forbidden place they have ever
seen.
They had encountered the most terrifying first-level forbidden area before, and
there were only one hundred and twenty beasts comparable to gods.
This is almost double today.
And the aura in this area is too strong.
It also caused these beasts to go against the sky.
Stronger than the god-level beasts they have ever seen.
The larger the number, the stronger the combat effectiveness.
How is this done?
In this case, can Levi Garrison get the resources out?
What about dreaming?
They concluded that Levi Garrison was playing tricks on them!
There is absolutely no way that this is his method of obtaining resources!
But it's pointless for them to discuss it now.
It doesn't matter whether Levi Garrison plays with them or not.
The question now is whether they will survive…
They didn't have any foreign aid, and the people of the Olympic Empire didn't
even know they were here.
What about Levi Garrison himself?
Forget it?
What strength can take them out!
Escaped under the eyes of more than 200 god-level beasts?
impossible!
They will all be fresh food, and they will all be eaten by these beasts.
None will survive.

They had anticipated their tragic end.
No bones left.
Even the bones will be eaten by the beasts…
All blame Levi Garrison for playing with them!
If I had another chance, I would never come here with Levi Garrison.
Just when they were struggling with inner conflict.
Those vicious beasts have already approached this small area, and the water
surrounding it is blocked.
There are even those flying in the sky, which are also obscuring the sky.
Don't give them any angles.
There are dead ends everywhere.
Don't even think about leaving alive!
One of them was not popular, and shouted at Levi Garrison: "Okay! Now I want to
see how you bring resources out?"
"Didn't you say that this is how you get resources? I want to see now, how did you
take all the resources from these beasts?"
…
This is the voice of everyone else.
All stared at Levi Garrison, wanting to see him laugh.
Since everyone can't live.
It can only be seen how Levi Garrison fulfills what he said.
But after hearing this.
Levi Garrison and Doctor Dark all laughed.
The smile was mocking.
Looking at them is like looking at fools.
This made everyone even more angry.
Are they making fun of us for being stupid?
But this is the case.
How else can they solve it?
They really can't think of any way!
Levi Garrison smiled: "Isn't it very simple?"
"Simple?"
Everyone is more confused.
"Isn't it enough to kill them all? If anyone stops you, you will kill them!"
Levi Garrison put it lightly.
But when they heard the stormy waves in the hearts of everyone.
so easy?
Just blow it!
Who won't talk big?

Such a powerful beast!
tell me how to kill?
At this time, a vicious beast moved directly…
It has grown indestructible scales all over its body, shining brightly!
Don't say anything else!
Just these scales, even if the gods will struggle to deal with them, they will not
be able to penetrate, let alone kill them.
This is how the beast is different from humans after being irradiated by aura.
Their physiques will be exceptionally strong, and their skins will be so hard that
they cannot be penetrated.
For example, the scales on this fierce beast now!
No one can penetrate the people of the Olympic Empire!
A terrifying aura emanated from the beast.
Falling down like a mountain!
Everyone was frightened by this terrifying breath.
Who can stop this!
In terms of individual strength, no one would be the opponent of this beast!
What's more, it's not the best.
And there are terrifying numbers of them!
Just when this fierce beast rushed, everyone was ready to resist.
"Buzz!"
Suddenly there was a trembling sound.
God robbery shot!
A cold glow bloomed in front of everyone!
That's a sharp sword!
Instantly passed through the body of the beast!
The indestructible scales are also like paper paste, and they are instantly penetrated!
Divine Tribulation through!
Cut this fierce beast in half directly!
The whole place was silent!
Everyone was stunned!
And all the beasts present were stunned.
It is estimated that no one thought of this scene!
And the people of the Olympic Empire are the most shocking!
This kills?
Who did it?

This sword seems… it seems to have come from Levi Garrison's side, right?
In a trance, it seemed that a cold light appeared in front of Levi Garrison.
Should be him, right?
But everyone didn't react in a hurry.
The killing continues!
"laugh!"
The calamity did not stop.
Directly rush to the ferocious beasts!
The beasts have already felt the terrifying power of the divine robbery!
They can't stop!
One by one the beasts were even about to run away.
But the calamity is faster!
Block all their escape routes!
"Pfft!"
"Pfft!"
…
In an instant, the gods shuttled through the ferocious beasts, and the blood arrows shot one after another, and the blood splattered like rain.
The shrill screams of the beast were like thunder, almost shattering people's
ears!
The heads of the beasts were thrown high!
The powerful and terrifying beasts turned out to be like turkeys and dogs in Levi
Garrison's place.
Kill how you want to kill.
In an instant, dozens of god-level beasts all fell down…
Levi Garrison is also full of breath!
The rest of the beasts were frightened.
One by one, they ran around in fright, for fear of being killed.
They never thought that this group of "food" would be so powerful.
Levi Garrison didn't care about the remaining beasts that ran away.
After all, he just showed it a little, and didn't want to slaughter all the beasts in
this forbidden area.
That's enough!
He only temporarily gave these people a way of how to obtain resources – kill
those who block them.
But the beasts ran away, and everyone present was stunned.
All looked at Levi Garrison in disbelief.

These people in the Olympic Empire put pressure on Levi Garrison in order to
threaten Levi Garrison.
All who come are gods!
But now these gods are all frightened!
Or terrified!
How can there be such a strong existence?
Just one sword can kill so many beasts!
As long as he is willing, no beast can escape!
Naturally, they also understand that there are differences between gods and
gods.
But the gap is too big.
Can this person in front of you be called a "god"?
For the first time, the thinking of this group of gods has changed.
If they are gods, what kind of existence is in front of them?
Even more terrifying than the gods!
"Buzzing…"
Divine Tribulation revolved to Levi Garrison's front.
Levi Garrison took away the robbery.
Then he said to everyone in the Olympic Empire: "Well, it's that easy to get
resources? Whoever stops you, kill it!"
Wherever there are resources, go to get them!
If there is anything blocking it, just kill it!
It's that simple!
No one wrote to Levi Garrison about the secret of obtaining resources before!
But now I totally believe it!
For Levi Garrison, obtaining resources is so simple!
He has this powerful strength to support him, and he has as many resources as he
wants.
The first-level forbidden area is the same as following your own home.
What resource can't he get?
It is rumored that the Apocalypse Empire has long obtained the secret of Levi
Garrison's resources.
But everyone has been watching for so long.
As a result, the Apocalypse Empire did not act at all!
Didn't they get Levi Garrison's secret?
should get it!

But why not look for resources?
Is it that they don't want to?
are they not needed?
no!
That's because this method is only applicable to Levi Garrison!
It's useless to tell anyone this way!
This is like nonsense!
Everyone knows the way, but can't get it!
"My secret of obtaining resources has been shown to you! Do you see clearly?"
Levi Garrison asked.
silence!
Everyone was silent.
They are still in a huge shock.
Still immersed in the horror of Levi Garrison's sword!
"If you can't see clearly, can I show you again?"
"The beasts are scared away, why don't you play the people who stop me?"
Levi Garrison asked.
But when they heard Levi Garrison's words, everyone went crazy.
Do you want to demonstrate it again?
And they are the ones who stop Levi Garrison?
How can this work?
They just have a problem with their beliefs and worldview, which leads to doing
some incredible things and saying some weird things.
But they are not fools!
Know to bring an umbrella when it rains!
Also very afraid of death!
They have seen Levi Garrison's sword with their own eyes.
Even those scaly beasts can't stop it!
Not to mention them.
It is estimated that it is more fragile than a watermelon!
"I I I..."
"No, no, no… no…"
"We…we know…we know…"
One by one, Levi Garrison was so frightened that he urinated his crotch.
"That's good! Just believe it, lest I show it to you again!"
Levi Garrison said lightly.
"No, no, we know!"
Everyone in the Olympic Empire waved their hands again and again.
How dare they?

Completely believe it now!
Levi Garrison looked at them and said: "You have to force me to show my hand,
you will believe it, or I will tell you, you have to pester me all the time!"
"Yes, yes, our fault, our fault…"
Everyone started to apologize.
Before saying that this belongs to them, that belongs to them, and they are the
center of power, there is no arrogance at all.
Their arrogance is only aimed at those who are weaker than them.
As for people who are stronger than them, they will kneel down as a group of
gods.
Like now.
Levi Garrison smiled and said lightly: "Fortunately, your attitude is good.
Although it is also a robber style, at least there is a bit of rhetoric, and there are
good reasons. Otherwise, I will kill you with the Apocalypse Empire without any
gods!"
"Huh? What? You killed the Apocalypse Empire to the point of being godless?"
The people of the Olympic Empire seemed to have heard some very serious news.
Surprised, one by one broke out in a cold sweat.
"Yes, otherwise why do you think they are so low-key now?"
Levi Garrison nodded.
"what?"
"Kill the Apocalypse Empire without gods?"
…
Everyone looked terrified and went crazy.
Understood.
Everything is clear.
Why hasn't a god appeared in the Apocalypse Empire since then.
There is no such thing as mining resources.
That's because they were all killed by this guy in front of him.
The truth about the Apocalypse Empire is revealed!
Levi Garrison also assigned a task to the dark doctor. Since they are all here, let's
transport the resources here.
The Brain of God has long prepared the transport machine.

And it is the Four Great King Kong and the variant No. 13 under Levi Garrison who
are mining resources.
All along, they have been helping Levi Garrison dig and transport resources.
After Levi Garrison finished his instructions, they immediately started to work.
"So, Mr. Ye… You don't put the War Bear Kingdom in your eyes at all?"
The crowd trembled.
"Of course, after my daughter is detoxified, I will go to War Bear Kingdom to
settle accounts! Then you can go watch the battle!"
"sure!"
Everyone nodded.
"I've taught you the way, and I won't let you say thank you!"
"If you still want to attack my resources, prepare for a country without gods!
Trust me, I can kill it all!"
Levi Garrison left a sentence and turned to leave.
If it was in front of them, Levi Garrison said this sentence, they would not believe
it.
But now they really feel that Levi Garrison has this strength.
They could clearly see the scene of beheading those beasts just now.
"Mr. Ye, we will help your daughter detoxify!"
This group of people is still very smart, and they reacted one by one immediately.
To make friends with Levi Garrison.
Levi Garrison said nothing.
It seems less necessary now.
As long as the secret lock is opened, Levilia's poison will be cured.
The Olympic Empire originally wanted to use Levi Garrison's resources to rise in a
high profile.
Never thought that Levi Garrison would hit him back again with a sword.
Now you have to keep quiet.
As if they never showed up…
The Olympic Empire still does not appear in everyone's eyes.
It's no different from before.
And now Levi Garrison has played against the top three in the world power list.
The third god was killed by him.

The second was shocked by his sword.
First, he is going to go around.
All are waiting for the moment when Levilia detoxifies…
Of course, the Sky Shield Bureau is now fully investigating who killed the angel
and stole the magic medicine.
The forces controlling the genius doctor Yan Zangsheng are also being investigated.
As a result, there was nothing left.
After all, Levi Garrison left no trace at all.
They can't find out.
It was most likely the murderer's, but as a result, all of them were controlled by
them at the beginning.
Naturally don't think about them.
It can't be found no matter what.
And Levi Garrison asked people to check the identity of the genius doctor Yan
Zangsheng.
This investigation really found a lot of clues.
In fact, Yan Zangsheng has changed many identities and has been living an
ordinary life.
But his history is not simple.
It seems to be related to the mysterious Baolong clan.
"Huh? Can it be related to the Baolong family?"
Levi Garrison said in surprise.
In fact, he knew before that the Tiance Mansion and the Baolong clan were not
the same thing.
The duty of Tiance Mansion is to protect Daxia as its own duty.
But the Baolong family seems to exist to protect some secret.
"I don't know what it is, we have to continue to investigate! But I feel that there
is a major breakthrough!"
"I feel that the genius doctor and the man behind him are actually a group of
people!"
…
This was beyond Levi Garrison's expectations.
So to speak.
Yan Zangsheng is really not easy.

He must have an unknown past and identity.
But it also proved that he was on the right track.
It is necessary to check on Yan Zangsheng.
If you check it out, there will definitely be a breakthrough.
The good news doesn't stop there.
three days later.
Ning Jinye and his party returned.
But the box containing the magic medicine was never opened.
But Ning Jinye brought an ancient book, and this ancient book is the solution of
the lost mechanism – the secret lock.
The Return of the God of War [The
Protector] Chapter 3261-3270
This person did not directly help to open the secret lock.
Instead, they handed over the ancient book of Tianjisuo, and let Levi Garrison
learn and open it by himself.
"Mr. Ye, I won't reveal the identity of this senior. Like a genius doctor, he is
hidden from the world! And this ancient book of Tianjisuo must not be known to
anyone."
Ning Jinye specially warned.
"Okay, thanks!"
Levi Garrison took the ancient book and began to read it.
complex!
Obscure!
Those who don't know how to do it look like a book from heaven.
Join Telegram Group For Fast update
It looks similar to those who know it!
And there is more than one kind of Tianji lock. Judging from this ancient book,
there are thousands of kinds.
Now I don't know what kind of secret lock the box containing the magic medicine
is…
To study one by one!
It also takes a lot of time and experience to research!
The secret lock is really mysterious.
After just flipping through it, Levi Garrison knew that it was extremely difficult.
"I didn't think that the last problem was on me!"

Levi Garrison let out a long sigh.
"I'll try it too, to help you!"
The Brain of God is also involved.
Now that Levi Garrison is looking for an organ technique, it is probably too late.
And it's easy to expose.
In addition to Ning Jinye's instructions just now.
Levi Garrison can only study by himself.
As long as the research is in place and the secret lock is opened, the magic medicine can be obtained.
In the end, it's up to you to solve the problem yourself.
Next, Levi Garrison immediately began to study the ancient books of Tianjisuo.
That was enough to keep him busy for a while.
But the ending is definitely good, he can definitely open it.
But the secret lock is really super difficult!
In other words, if you don't know this kind of mechanism, you will never be able
to open the secret lock.
This is also a point of reassurance for the forces behind the genius doctor Yan
Zangsheng.
Even if the magic medicine is robbed, the box will definitely not be opened.
The secret lock cannot be opened, and the magic medicine cannot be obtained.
It's useless to steal it.
Because I don't even know what this secret lock is…
But what they didn't expect was that someone on Levi Garrison's side knew
about the secret lock.
I also got the ancient book of Tianji Lock.
For the next month, Levi Garrison was studying the ancient books of Tianjisuo.
There was no movement, even low-key to hide.
The others are also continuing the tasks arranged by Levi Garrison step by step.
There was no wave at all.
It's like they just disappeared.
As for the bounty.
Still being sniped by several organizations like Hydra.
They will kill as many people as they receive bounties.

After a long time, no one dared to accept this reward order.
"Um?"
However, Hydra and the organization of the revenge Hydra were also puzzled.
Didn't Levi Garrison detoxify his daughter?
How did it disappear?
Not active at all?
No figure was seen.
I don't know what I've been doing lately.
Everyone related to him disappeared.
what's the situation?
What is Levi Garrison doing?
This is what they are very concerned about!
Hydra immediately sent people to check what Levi Garrison was doing?
Too many people are suspicious.
Levi Garrison disappeared so abnormally.
All those who stared at him were stunned.
What is he going to do?
How did people disappear after this auction?
Did you give up your resistance completely?
The reward order has been stuck by others, so no one has accepted it now.
The magic medicine was snatched by a mysterious person again, and it is still
impossible to find out who it is.
This is equivalent to cutting off all hope of Levi Garrison.
Some guess it is this.
Even Tianshensi didn't know what Levi Garrison was doing.
Not to mention others.
However, during this period of time, what everyone did not know was that there
were many more figures in the forbidden areas of Daxia.
At the beginning, they were all active in the second-level forbidden area, or even
the first-level forbidden area.
Therefore, no one here in Daxia knows about it.
After all, except for the Tenjin Division, no one has the strength to mix in these
forbidden places.
Not even the Tenshin Division dared to enter the first-level forbidden area.
Otherwise, Levi Garrison must have gotten the message long ago.
The War Bear Country is very excited now.
Because there are abundant resources and the way of Hydra.

Now the gods are coming out continuously.
The numbers are skyrocketing!
Moreover, the Hydra has existed for such a long time, and I don't know how many
ancient books of practice techniques have been collected all over the world.
In order to please Zhanxiong Kingdom, they contributed everything.
Most of these exercises are useful to the gods.
Help them turn their aura into power as much as possible.
Or how to use stronger power to make attack or defense stronger.
The strength of the gods of the War Bear Kingdom has also improved as a whole,
getting stronger and stronger.
The key is quantity!
Just beyond the limit of everyone's imagination!
People like the Titan God of War are almost laughing from ear to ear.
"There should be tens of thousands of gods in the War Bear Kingdom now,
right?"
Some people couldn't help being curious and couldn't help asking.
This is the people of the War Bear Country, all eager to know how powerful the
War Bear Country is now?
"Ho ho…"
The Titan God of War smiled contemptuously.
As if to say – look down on us?
Obviously not.
This figure is even far behind.
"Could it be fifty thousand?"
Everyone looked at the Titan God of War in surprise.
"Do you underestimate our resources, or underestimate Hydra?"
The Titan God of War sneered.
"Could it be… ten… one hundred thousand???"
When someone said this number, the audience was horrified, and everyone's
hearts flew out of their throats.
"Hoho, imagination is still not enough! Let's put it this way, it's beyond your
imagination anyway!"
The Titan God of War laughed.
"What? The number of gods is 100,000. The imagination is not enough? The real

number of gods…”
unimaginable! ! !
With their brain capacity and courage, they dare not imagine that number.
After exceeding this number, they have reached their limit.
After shouting another number, I’m afraid their heads will explode.
too terrifying!
“hiss!”
Everyone started to gasp.
There was a look of horror on his face.
This is definitely the most shocking thing they have ever seen in their life.
Proud of War Bear Country too!
This is War Bear Country!
Hundreds of thousands of gods are just imaginative enough.
So the real number…
This is also the most reassuring point for Hydra, as long as they are in War Bear
Country.
They will always be safe.
Get revenge on them?
Just ridiculous!
That must come to War Bear Country first.
Then, after stepping on the bodies of more than 100,000 gods in the War Bear
Kingdom, he was able to settle accounts with them.
But is this possible?
impossible things!
It was said before that there were thousands of gods in the War Bear Kingdom,
and they felt very at ease.
Now the gods are mass-produced, more and more, and now the 100,000 gods are
all imaginative enough.
How are they unstable?
Don’t be afraid!
Don’t be afraid of anyone’s revenge!
Even a power like the Olympic Empire, the whole country will come to them to
settle accounts.
They are not afraid either!
Not to mention Levi Garrison!
Now that Levi Garrison seeks revenge against them is a joke!
And the huge organization that avenged them is also a joke.

Don't dare to seek revenge on them!
Then there was a heavy explosion in the world – the number of gods in the War
Bear Kingdom has exceeded 100,000! ! !
At this moment, the whole world is dead silent.
burst!
Every country and every country is going crazy!
Many people are wondering if it is time to catch up with the Zhanxiong Kingdom.
Especially the top ten power countries.
I thought I must have shrunk.
Where do you know the numbers come out.
Everyone exploded.
How the hell does this compare?
The gap is getting bigger and bigger!
How the hell does this get revenge?
One hundred thousand gods, are you taking revenge?
What was most shocked was the organization of the revenge Hydra!
If you don't pay attention, there are 100,000 gods in the War Bear Kingdom?
Isn't it a long way to find Hydra's revenge now?
The group of people in the organization who were bent on revenge were dumbfounded.
I thought that waiting for the organization to become stronger and more gods,
the probability of finding Hydra's revenge would be high.
The result is now…
A hundred thousand gods, what to take revenge?
This is impossible for them for a hundred years.
The longer the time, the stronger the opponent, and the speed at which they
become stronger is beyond their imagination.
However, the actual powers of this organization did not feel anything.
Because they were not interested in seeking revenge against Hydra from the
beginning.
Or simply forget about it.
Just thinking about how to get resources, how to make the organization stronger…
It's just that their excuse is to quickly develop the organization in order to seek
revenge from Hydra.

In the name of revenge, they come for their own benefit.
In fact, during this period of time, they were a little bit unable to suppress the
group of extreme revenge elements in the organization.
Almost every day, they urged to find Hydra for revenge, and they couldn't hold it
any longer.
At this time, a message from the 100,000 gods of the War Bear Kingdom suddenly came.
Completely smother all these people!
For the time being, they will not easily discuss the matter of finding Hydra's
revenge.
You can't take revenge blindly!
Of course, no one will go to this kind of death.
On the island, the organization of revenge Hydra immediately gathered everyone.
"Next, our road to revenge will become more and more difficult. That's one
hundred thousand gods! But at this time, our mentality must be stable. Don't be
impatient!"
"At the moment, in my opinion, there is only one way to avenge Hydra!"
"We also need to continue to grow the team of revenge! Only in this way can we
be qualified to stand at the forefront of the world and be qualified to negotiate
with other major forces!
At that time, we can join forces with other countries to deal with the War Bear
Country, so that we can have the opportunity to seek revenge against Hydra! "
...
The organization's decision makers are starting to draw the pie again.
A little hope for these extremists who want revenge.
After all, now that 100,000 gods are overwhelming the world, the best way at
present is to unite all parties.
These decision makers are all right.
They are not good at refuting either.
However, the condition for all parties to unite is that the organization can first be

strong and qualified to unite all parties.
Therefore, the final question is summed up, and the specific thing to do is to
strengthen the organization of revenge Hydra!
It has to be said that the decision makers of this organization are very smart.
A few words put these people around.
Not only will he not mention revenge for the time being, but he will also try his
best to grow the organization.
This is where the obvious change…
"Hahaha, didn't Levi Garrison say before that he can take revenge by himself
without us?"
"How can he take revenge now? There are a hundred thousand gods!"
"Well, this kid disappeared recently, what are you doing?"
"If we want to be strong, we have to find him! Everyone think of a way! The key
point is Levi Garrison!"
…
The Olympic Empire was expecting Levi Garrison to go to Zhanxiong Country to
find trouble.
But when they heard the 100,000 gods, they were all stunned.
"So there is such a big gap between us and No. 1?"
"Now Zhanxiong Nation doesn't listen to us, and Levi Garrison doesn't listen to us
either! Are we still the power center of the gods?"
"Don't count on Levi Garrison, how could he be?"
Suspect!
They doubted their beliefs.
This is the most terrifying point.
…
I have to say that the 100,000 gods have shocked the whole world too much.
Everyone was terrified.
Otsuka Kamiji, who had just started to develop, was also intimidated to the
ground.
I thought that in a short period of time, the Heavenly God Division had expanded
to the scale of 300 gods, which was already a sky-defying level.

But I didn't think that compared with the king-level, it was not even a fraction.
The blow was too big.
And in the Heavenly Gods Division, after the five people like Azure Dragon
(Qinglong) and Kirin (Qilin) became gods, they seemed to have broken through
the shackles of their bodies, and their growth rate was astonishing.
For example, in the past, the talents of the five Azure Dragon (Qinglong) people
were no match for Xiao Feng and the others.
But since becoming gods, the talents of the Azure Dragon (Qinglong) Five have
been fully revealed, and in a short period of time, they have surpassed the Dragon Three Dragon Five.
Now he has become the closest existence to the Boss Tian Ce Young Marshal.
Therefore, Tenjinji continued to cheer.
The overall strength of their gods is stronger than that of other countries.
They have a bright future.
You can even chase the War Bear Kingdom.
But now when the number of gods in the War Bear Kingdom exploded, it was a
shock.
Chase a yarn!
The strength of a single god is strong, what is the use?
Who can stop one hundred thousand gods?
Although they have a magician.
But the other party has Hydra as an organization.
It's totally incomparable.
Hydra has already mass-produced the gods.
As long as they have the potential to become gods, there is a high probability
that they can become gods.
If you can't become a god, it can only show that you are not this material, that's
all.
Has nothing to do with other things.
That is to say, if it goes on like this, Hydra can turn all the people who can become gods in War Bear Country into gods.
That would be an unimaginable number.

It is likely that War Bear Kingdom has more gods than a country's population.
How does this play?
How else can others catch up?
People are still alive!
unimaginable!
And according to the gossip, the number of 100,000 is a conservative estimate.
It is very likely that it has already been reached before, not the current level.
This makes it even more frightening.
And everyone heard that Hydra contributed all the ancient books and objects it
collected, making the gods of the War Bear Kingdom stronger and stronger.
Hydra is the treasure of War Bear Country!
In this way, Zhanxiong Kingdom will not let anyone trouble Hydra.
Whoever moves the Hydra, they may have to help the whole country.
And now more and more forces are turning to War Bear Country.
They formed the "Siberian Union"!
Now these people have also benefited from Hydra, and they will do everything to
keep Hydra.
Equivalent to Hydra is a national treasure-level existence.
No one can touch it!
Get rid of this idea of revenge early!
even disbanded.
Especially this organization of revenge Hydra has been targeted by Hydra.
Hydra naturally does not want any enemies and threats.
They are trying their best to find out where this revenge organization is.
Ready to get rid of it all at once.
Of course, the organization doesn't know.
They are still thinking about how to strengthen their strength, how can they
realize that the danger is coming.
But at this time, Levi Garrison has been on the secret lock.
this time.
He has researched nine hundred and eighty-seven ways to solve the Heavenly
Secret Lock.
It still didn't match the trap box in his hand.

But probably locked the same type of secret lock.
narrowed down.
As long as you keep going, you will definitely find the corresponding solution.
This is also a huge problem for Levi Garrison, still with the help of God's Brain.
The Brain of God also played a role.
This thing was completely incompatible with his technology at first.
It was only later that some rules were discovered.
Levilia is playing by himself as always.
As long as she's okay, Levi Garrison won't pay too much attention to her.
What everyone did not expect was that Levilia had also changed.
She's actually been researching something.
It's just that Levi Garrison focused on the secret lock, and didn't notice the
changes in Levilia at all.
"Mr. Ye, I want to tell you a message, the number of gods in the War Bear Kingdom has exceeded 100,000, and it may be a conservative number! The
number of real gods is exaggerated! And the overall strength of gods is also
further enhanced! In short, Strong enough to burst!"
After thinking about it for a long time, Doctor Dark told Levi Garrison the information.
After all, 100,000 gods are a bit exaggerated, so let Levi Garrison prepare in
advance.
As a result, Levi Garrison, who devoted himself to studying the secret lock, said
without raising his head: "It's 100,000, right? When it's 1 million, tell me again!"
"Oh well!"
After the dark doctor heard the answer, he left.
He didn't know that Levi Garrison knew about it, but he didn't take it seriously at
all.
He was still too busy, his own words didn't get into his ears at all, and he just
perfunctory and perfunctory himself.
In any case, he can't handle it.
However, he heard some information that Hydra was organizing the gods to

launch a violent attack on its enemies.
Even they are among them.
The Hydra people are looking for Levi Garrison's whereabouts.
If found, they will surely kill.
And Daxia is also rich and colorful everywhere.
Many people who are similar to the Demon Squadron that Levi Garrison encountered in the Antarctic Glacier were active in the summer forbidden area.
They pluck heaven and earth treasures and Reiki crystals.
Of course, they are called spirit stones in their mouths.
In fact, they found that the aura had recovered from the very beginning, and
treasures of heaven and earth and aura crystals were produced everywhere.
It's just that these people are just observing, not mining or using it for the first
time.
That's because from their point of view, these heaven and earth treasures and
spiritual energy have not yet been fully condensed.
It will take some time to condense.
In other words, immature.
It was too green at the beginning, not fully cooked.
The effect is the best after "cooked".
Even Levi Garrison didn't know this.
I only know how to pick and use it. I don't know if it is green or ripe.
And he doesn't need these treasures at all.
"One hundred thousand gods? Hoho…"
The group just laughed.
"The so-called gods only have spiritual roots and bones! It is easier than others to
absorb spiritual energy and convert it into body energy! What are these ignorant
guys blown into. God? It's ridiculous!"
It seems that people like Zhen Mosi know clearly why gods absorb spiritual
energy more easily than others.
It's just the spiritual roots and bones in their mouths!
The effect of absorbing Reiki depends on the root bone of the body.
A good root bone will also be the key to a stronger…
The spiritual roots and bones in the bodies of the people present at the Demon

Suppression Division are all excellent, and there is no one in a million.
"But I also found a lot of beings with excellent spiritual roots and bones! Especially in the Heavenly God Division, I have found several!"
One person laughed.
"You're talking about Azure Dragon (Qinglong), the five Kirin (Qilin) people?"
The other said it directly.
"Yes, that's right, that's it!"
...
Not only are there many anomalies on Daxia's side, but also on War Eagle
Nation's side.
That power isn't hiding either.
Begin to strengthen the combat power of the Sky Shield Bureau and the major
institutions of the War Eagle Country.
It's a huge move.
It's actually turned upside down everywhere.
But Levi Garrison is all about studying the secret lock.
I don't know.
The most important big move – Hydra is about to start moving.
They mainly target two goals.
The first is Levi Garrison, but Levi Garrison has not been found anywhere.
The second is the organization of the revenge Hydra, and they have already
determined the location.
However, the organization has now grown to a certain size.
The organization of the revenge Hydra is actually a clear system, and each one
has a code name.
From the time of joining the organization.
At the beginning, there were seven organizers in total. Their code names were
No. 1 to No. 7. The others were arranged according to the time they joined the
organization.
The five people who invited Levi Garrison were No. 23, No. 29, No. 32, No. 33 and
No. 45.
They were the first to join the organization.
Up to now, I have forgotten the bloody feud against Hydra, and what I think

about is how to become stronger and how to build this organization into a great
force that can compete with the previous great powers.
What they do every day is to expand their strength and mine resources.
And resources are prioritized for themselves.
Now all five of them are gods.
Using various means and resources, he abruptly opened the shackles of his body
and became a god.
As for what the Hydra has to do with them?
They got strength and power, and that was enough.
Besides, now that the Zhanxiong Nation is so powerful, how can they take revenge?
It's not just their idea.
Also the idea of the seven founders of the organization.
They are doing it for themselves now…
Now the gods of this organization have expanded to more than seven hundred.
And they have found a lot of ways to artificially create gods, and the number of
gods is still increasing.
After a while, it will be easy to break through a thousand gods.
Although they are not comparable to the top three forces, they can be compared
to the fifth and sixth level.
And they believe that the power will become stronger and stronger.
Sooner or later, it can be compared with the top three.
In fact, many of these decision-makers are aware of their thoughts.
They simply seek profit for themselves and continue to strengthen the power of
this organization.
But if you want revenge for Hydra, you can only listen to them.
Just get everyone together.
Otherwise there is no hope at all.
Even if you know the thoughts of these decision makers, this organization carries
the last bit of hope.
They also have no way.
Just wait.
When the news of the 100,000 gods of the War Bear Kingdom was released, this
revenge organization began to expand wildly.

In the name of revenge, maximize his own strength.
But they didn't realize one thing – although they just expanded wildly, they didn't seek revenge for Hydra.
But their existence is a threat to Hydra.
Must be eradicated! ! !
Now that Hydra has made such a contribution to the War Bear Country, it has
completely secured its position.
They are now fighting back.
After all, he is qualified to use more gods in the War Bear Kingdom.
These people or forces who seek revenge or threaten them must be eradicated.
This group of people was busy expanding their power, not looking for Hydra, but
Hydra was eyeing them.
Their large-scale operations also make them vulnerable to exposure.
Coupled with the current strength of Hydra, it was easy to find the location of
their lair.
"Borrow 5,000 gods from the War Bear Kingdom to surround this place!"
After the six remaining heads of Hydra unanimously decided, the eradication plan
began.
Before, the War Bear Kingdom could give them up to 800 gods to stop Levi
Garrison's reward.
But now they are qualified to use thousands or even tens of thousands of gods.
They checked the strength of this revenge organization, and in fact, they dispatched 2,000 gods and absolutely won it.
But in order to gain momentum, they had to dispatch five thousand gods at one
time.
War Bear Kingdom readily agreed.
Now let them send 10,000 gods.
And the more gods are dispatched, the more propaganda it will be for them, thus
shocking the world.
Baili and harmless!
Then, the six heads of Hydra led the five thousand gods to dispatch…
On the island, everyone is still thinking about how to strengthen themselves and

the organization as always.
There are those who go out to expand their power, and there are those who
cultivate themselves to increase their strength.
Especially the seven decision makers of the organization.
They are now basking in power and power.
In a very short period of time, their organization can be compared with the top
powers.
Or seven of them control.
Don't feel so good!
In their concept, as long as they don't provoke Hydra, they can develop smoothly.
But what they didn't expect was that the Hydra would also come out to find
trouble.
"Cheers to our great cause!!!"
The seven people and their direct descendants raised their glasses to celebrate.
The 100,000 gods of War Bear Country gave them a chance instead.
Let them have reasons to develop and grow in an open and aboveboard manner.
There is no need to carry those extremists who only want revenge behind their
backs.
"Boom…"
But at this moment, the island shook violently, just like a big earthquake.
It feels like the island will be overturned in the next second.
"Clap clap clap…"
At the same time, there were bursts of thunder in the air.
"boom!"
A terrifying and terrifying atmosphere enveloped the entire island.
It seems that the palm of the gods is invisible, and the coercion of thousands of
stars falling swept over!
All the sensations are breathless, even suffocating.
This seems to be rolling in heaven.
People can't help but fall to their knees and worship!
The huge movement caused the entire island to fall into doomsday.
messed up!
It's messed up everywhere!
"What happened? What happened?"

Policymakers and their heirs are also in disarray.
All ran out, wanting to know what was going on.
"Quick, quick look!!!"
Everyone looked around in surprise.
I saw silhouettes appearing in the sky all around, and a powerful breath swept across.
Looking at the sea around the island, large ships appeared.
There are also figures standing on the boat.
God!
All gods!
Judging from the breath alone, there is no such thing as a god.
All the auras of so many gods unfolded, infiltrating and covering the island.
Surrounded by gods, there is no escape.
Even the air was blocked.
This scared everyone on the island to death.
It never occurred to me that a formidable enemy would come.
And their location is so secret that no one knows.
Before they could think about it, the surrounding ships had already approached.
They have seen it roughly.
A black flag fluttered above the ship.
The pattern on the flag is impressively the Hydra logo!
This……
Everyone panicked.
"This… this seems to be a Hydra, right?"
"This flag belongs to Hydra!"
"Are they from Hydra???"
…
When everyone is sure that the person who comes is Hydra.
Some of those extremists who only want revenge are shining in their eyes.
In their minds, they just wanted to seek revenge for Hydra.
But Hydra can't survive in Zhanxiong Country, they can't see anyone, let alone take revenge.
Now that they see the living people of Hydra, how can they not be excited?
Time for revenge!
Before, the entire organization considered the overall situation and did not dare to take revenge, and jointly restricted them.
But now it's different.

Everyone from Hydra came to the door.
Can they not get revenge?
It's time for revenge on the Hydra!
But when most of the people in the organization encountered this scene, they
were all afraid of fear.
They have been suppressed by the powerful momentum of the other party.
Who is not afraid?
So many gods!
The breath of God is everywhere!
In particular, several decision makers are extremely fearful.
what's the situation? ? ?
Why did the Hydra suddenly come to the door?
At this moment, they understood that it was wrong for them to look for Hydra.
But Hydra took the initiative to find them.
After all, their existence is a threat to Hydra.
Although they didn't do anything to Hydra.
But the establishment of this organization is to deal with the Hydra.
This is enough.
Regardless of your specific implementation or not.
As long as you have this idea, people will try to kill you.
You can't explain clearly.
"Tsk tsk, I really didn't think of it! We have so many enemies?"
"An organization of 180,000 people! It's still daring to gather together and want
to take revenge! Most of them don't dare to take revenge or participate!"
"But we have so many enemies, what can we do to us? Can we take revenge? Do
you have the ability?"
…
on the deck.
Several heads of Hydra laughed.
But the second leader suddenly said: "Since the establishment of Hydra, only Levi
Garrison has killed our people…"
As soon as the words came out.
The atmosphere of the scene changed suddenly.
The smiles on the faces of the Hydra people disappeared immediately.
There was anger and murderous intent on everyone's face.
Last time they tried to deceive Levi Garrison, but after being calculated, they let

him kill three leaders and so many others at once.
For Hydra, it is not enough to die alone.
Not to mention so many deaths.
There are three other leaders.
shame!
What a shame!
Hydra has existed for hundreds of years, and the head has changed and changed.
But the enemy seeks revenge on them?
impossible!
No one has ever succeeded in revenge.
Not once.
Only Levi Garrison suffered a big loss.
They finally forbeared until now, and finally they can borrow so many gods from
the War Bear Kingdom to eradicate the enemies one by one.
But now where is Levi Garrison, they can't find out.
The only way to get started is with this organization.
"Levi Garrison, you and people related to you are going to die! This is what
happens when you touch the Hydra! We will let your daughter be poisoned alive
in front of you first! The same goes for everyone else! You will die at the end!"
…
A group of people have a monstrous hatred for Levi Garrison.
But at this time, the boat has already connected to the island.
They surrounded the island to the point of nowhere, and the gods stood up one
by one.
They got off the boat and approached the island step by step.
Although there are also tens of thousands of people on this small island.
But against the gods, the momentum is much weaker in all aspects.
All were terrified.
They keep shrinking.
The opponent pressed step by step.
"Hydra! It's the Hydra!"
"This is the big head of Hydra, this is the second head of Hydra… This is Hydra!"
Those who only wanted revenge shouted.
From the flag and the appearance of several leaders.
They decided it was the Hydra!

But most people are starting to get scared.
Hydra took the initiative to come to the door, absolutely nothing good.
And there are still so many gods?
Is this breath too strong?
correct!
How many gods are there?
I feel like I have never seen so many gods!
"one two three four……"
Someone on the island has already started counting.
one thousand?
When this number appeared, they were already desperate.
Their entire organization is now under a thousand.
One thousand is their goal.
However this is only the beginning.
two thousand!
…
Three thousand!
…
Five thousand! ! !
When the number of people came out, it was five thousand gods!
No wonder there are gods everywhere!
No wonder everyone on the other side is a god!
There is this number.
too terrifying!
One by one, the scalp is numb, about to burst…
Rao, the group of extremists who wanted to take revenge, was also abruptly
frightened.
After all, it was too scary.
Everyone is afraid!
If you want revenge, you have to be strong.
At this moment, several heads of Hydra had already pressed up.
"We don't need to introduce more, right? I think everyone present has imagined
that they have killed us thousands of times, right?"
Several leaders laughed.
As soon as they appear, they will definitely drive these people crazy.
"Yes, I can't forget it! How can I forget the deep hatred in the sea of blood?"
Some extreme lunatics shouted.
The chief among them sneered: "I can't forget, so what? If you don't seek revenge on us, then we will eradicate you…"

As soon as these words came out, the expressions of everyone in the audience
changed drastically.
The Return of the God of War [The
Protector] Chapter 3271-3280
This is what these people present did not think of!
They didn't seek revenge for Hydra, and they never thought that Hydra would
come to the door.
Be caught off guard!
No one has ever thought of this possibility!
Not just them, everyone has never thought about this possibility.
They gathered to avenge the Hydra.
But such a gathering also exposed them.
Isn't this just the time for Hydra to catch up?
Hydra has always been active, but it was for Levi Garrison's daughter to detoxify.

Never thought of turning back against the enemy.
Now I finally know, but it's too late.
Everyone came to the door.
A full five thousand gods!
This battle is terrible.
Who can stop?
Their organization has more than 700 gods, and it is already growing fast enough.
But the five thousand gods couldn't stop it.
Once they meet, they can only be slaughtered.
By then there will be no one left.
However, they have reached such a dead end, and the group of extreme avengers
have also risked their lives.
No matter if you can get revenge or not, you have to fight.
"Brothers, the Hydra people are ahead! Let's take revenge!"
The leader, No. 8, shouted.
"Vengeance! Revenge!"
This part of the people who want revenge shouted one by one.
No matter how many gods the opponent has, no matter whether they can succeed or not?
But they only need revenge!
"Well, good, bloody!"
Several heads of Hydra nodded approvingly.

However, most of the people on the island lowered their heads and their expressions changed.
There is fear, there is despair…
Just don't dare to take revenge.
This includes seven decision makers.
Their hearts sank to the bottom.
Originally still imagining the future, excited that they have the current power.
Never thought that Hydra would come to the door.
As long as the Hydras make a move, everything they have will be destroyed in an
instant.
Even they will die.
This is something no one wants to accept.
As for revenge?
Now don't even think about it.
They just want to save their lives and their current inheritance.
Such a big power, such a strong power is going to be gone?
They are just getting started!
They are the most embarrassing.
You Qi heard the screams of those extreme revenge elements.
They were even more depressed.
What revenge?
Wouldn't it be better to keep everything right now?
Several heads of Hydra smiled and said: "Have you felt the hatred against us? If
we don't get rid of them, we are always in danger. We can't even sleep well!"
"Then get rid of them! Kill all the people on this island! Don't leave a single
survivor!"
"Good! Understood!"
After the five thousand gods of the War Bear Kingdom heard this order.
They stared at everyone on the island, and the terrifying aura of the gods all
exuded.
Like the coercion of the sky falling, it enveloped the entire island.
"Bang bang bang…"
There are a lot of weaker people who can't bear this kind of coercion directly,
and they are directly squeezed to explode, their flesh and blood flying, and there

are no bones left.
For a time, blood mist was sprayed on the island, and screams continued.
The pressure of the five thousand gods is so terrifying.
Not to mention they do it together.
Unimaginable scene.
Even the gods in this organization are afraid.
too strong!
Not only the number of gods is terrifying.
And the power of the gods is also stronger than theirs.
The gods are one-on-one, and they will die here.
Not to mention five thousand gods!
"Then kill!"
Five thousand gods have already started.
The group of extreme revenge elements are also full of fighting spirit, and they
have not been suppressed by the terrible atmosphere of dealing with them.
"Brothers take revenge! Even if you die, you will kill the Hydra!"
They are also screaming.
Excited for revenge.
A war between the two sides is imminent.
The head of Hydra began to count down.
"three!"
"two!"
"one!"
Several heads of Hydra looked at them.
"Can we negotiate?"
"The seven of us are the founders and decision makers of this organization! We
want to talk to you!"
Organization No. 1 said.
"Oh? Negotiations?"
Several heads of Hydra were stunned.
This is beyond their expectations.
This also stunned those who were bent on revenge.
What is this for?
"How do you say? Don't you want revenge? Isn't your organization founded to
seek revenge on us?"
asked the head of Hydra.
The seven people smirked and said, "No! It was like this at first! But then we

didn't even think about revenge at all. We wanted revenge, but we didn't have
the strength!"
"Yeah, don't say that there are already more than 100,000 gods in the War Bear
Kingdom to protect you. Even the five thousand gods in front of you are definitely not something we can take revenge on!"
"In the beginning, we sent people to assassinate you! But then we realized that
we have no strength for revenge! We gave up long ago!"
"You have also seen that now we only want to develop our own strength! How
can we dare to take revenge?"
...
heard here.
Those who were bent on revenge immediately shouted: "What are you talking
about?"
"You've been lying? You've never thought about revenge?"
They questioned immediately.
The seven decision-makers sneered: "Are you fools? To be honest, can revenge
be successful?"
"But you have been talking about strengthening your power and seeking revenge
for the Hydra!"
People who are bent on revenge are a little unbelievable.
"If you don't, will you develop this organization wholeheartedly? With this as
your goal, all of you will be willing to grow and develop the organization!"
At this time, the seven decision makers did not dare to hide.
Tell the truth directly.
In this way, it is possible for Hydra to let them go.
"you!!!"
Exploded!
Everyone who wanted to take revenge did not know that they were used.
Or that they noticed it, but the other party said it directly, which made them all
angry.
Several heads of Hydra discussed with each other.

“This is indeed the case! After the establishment of this organization, there were several symbolic assassinations at the beginning, but not once after that.”
“Yeah, I have observed them, but they are developing madly now! All of them are for their own selfish desires, in the name of revenge, and take the opportunity to expand their strength!”
…
The seven decision makers also said: “My lords, not only did we not want to seek revenge on Hydra, we also took revenge on Levi Garrison!”
“Huh? And this?”
Everyone in the Hydra was stunned.
“That’s right! We have been targeting Levi Garrison since he issued a bounty order! For example, we sent someone to destroy the blood exchange record of the Empire where the sun never sets!”
Seven decision makers immediately said.
“Huh? Hahaha…”
Hydra and the others were stunned for a moment, and then they all burst into laughter.
In fact, they have been wondering, who is the one who destroyed the blood exchange record?
Never thought it was this organization.
Now that I think about it, it’s totally clear.
“Not only that, but also we were the ones who cheated him of resources with the 100,000-year-old snow lotus last time!”
The seven continued.
“Hahaha… So it’s you! We’re still wondering who the big liar is!”
The heads of the Hydra are very happy now.
After all, Levi Garrison had a blood feud with them.
Now as long as they hear that it is aimed at Levi Garrison, they are very refreshing.
The second head of Hydra guessed something and asked, “So, with the two bounty orders, it’s you who killed a lot of those who took the bounty orders, right?”

“Yes, yes, we will stop Levi Garrison’s daughter from detoxifying at all costs!”
“You guys are very bad. In order to prevent Levi Garrison from detoxifying his
daughter, he will do whatever it takes!”
The two heads laughed.
“Yeah, we’ve been stopping Levi Garrison! Recently, we’ve been trying to get his
idea and get resources from him…”
The seven decision makers and others shouted.
“Hahaha… Not bad! As long as we target Levi Garrison, we have to talk!”
Several heads of Hydra laughed.
Previously, their thinking was that no matter what the other party said or offered,
they would be massacred.
But it never occurred to me that this organization had been targeting Levi Garrison all the time.
whatever their purpose.
As long as they target Levi Garrison, they are friends.
This is what the organization did not expect.
Never thought that after Levi Garrison was proposed, the heads of the Hydra
leaders actually softened.
It looks like they are not ready to target them.
It’s something to talk about!
The seven decision makers took the opportunity to continue their climb. They
pointed to the extremists led by No. 8 who were bent on revenge, and said:
“There is a group of us who want to seek revenge against Hydra! We have stopped it over and over again. !”
Their direct descendants, the five who invited Levi Garrison at the beginning,
also immediately echoed: “Yes, we have stopped it many times!”
“you……”
This made No. 8 and them all pissed off.
Never thought that these shameless guys would even sacrifice them.
The key is to sacrifice to the Hydra with a blood feud to protect them.
They can’t stand it!
…
The seven decision makers ignored them at all and continued to kneel and lick

the Hydra.
“So we have no idea of revenge at all, so this is all a misunderstanding! We
don’t need to fight each other!”
“It is very easy for you to slaughter us all. Five thousand gods do it, and we can’t
even hold it for half an hour!”
“But if we don’t die, the value is even greater! It won’t pose any threat to you!”
…
Looking at the enemies who have a monstrous blood feud with him, he kneels
and licks them thinking of the law.
They really want to laugh.
Strength is king!
Have the power to change the laws of this world!
Obviously everyone who hates you is going to die, but they want to kneel and lick
you, and keep saying that they have no hatred for each other. They don’t dare to
admit that they have hatred, and they even plead with them.
Cool!
How refreshing!
These guys in front of the key are also madly targeting Levi Garrison.
This is more refreshing.
“My lord, let’s have a good discussion, we are friends, not enemies!”
The seven decision-makers pleaded frantically.
The head of Hydra smiled and said, “Negotiate? There is indeed room for negotiation!”
“But after all, there is a deep blood feud between us? We all admit this! Every
one of you present has hurt your relatives and friends!”
“How can you guarantee that you won’t take revenge on us?”
“This……”
The words of the chief executive made the seven decision makers and others
stunned.
They got it too.
This is Hydra to make them show their loyalty.
Find a way to let Hydra dispel their doubts.
No. 8 led the crowd and shouted: “Yes, no matter how you kneel and lick, there is

a bloody vengeance! Everyone will take revenge!"
They want to drive everyone to a desperate situation where they can only take
revenge.
Even if we die, we should all be together.
Nobody wants to live.
At this time, the nine heads of Hydra smiled and said: "I don't believe you when
you say that you don't take revenge! Unless you all kneel and kowtow, we will
believe it!"
"Hahaha, this can be done!"
This proposal is supported by others.
It's cool to think about!
An enemy who clearly hates you to the bone, but kneels on the ground and kowtows to you, swearing that he will not take revenge.
How cool would that be!
"This……"
As soon as the proposal of the Nine Heads came out, the expressions of everyone
in the revenge organization changed drastically.
***Nude humiliate them!*
This is trampling and trampling their dignity underfoot.
The key point is that these people in front of Hydra are their enemies.
Everyone has a blood feud with them.
The key is to kneel and kowtow to your mortal enemy.
This is unbearable.
Rao is a little embarrassed for the seven decision makers.
Their family parents died tragically at the hands of Hydra, and now they are a
little moved.
It's hard to kneel and kowtow.
They were not so decisive.
You Qi, the five people who had invited Levi Garrison twice, also hesitated now.
Fortunately, they called Levi Garrison a coward before, and dared not seek
revenge from Hydra, not a man and a father at all.
As a result, Hydra came to them, not to mention revenge.
Now I have to kneel and kowtow.
Just so sad.
It was time to kneel, and they began to hesitate.

For some reason, the figure of Levi Garrison appeared in their minds.
The words they said to Levi Garrison sounded – they didn't dare to seek revenge
from Hydra.
Aren't they the same now?
With the Hydra in front of her eyes, she didn't even dare to let out a fart, and
even knelt down.
…
Others who are bent on revenge are even less likely!
It is impossible not to let them take revenge, let alone kneel and kowtow to the
enemy.
The second head of Hydra glanced at everyone: "Everyone kept saying that they
would not take revenge, but what happened? It seems that you still want to take
revenge!"
"Let's do it anyway!"
At this point, the seven decision-makers shouted: "We are willing to prove!"
The direct descendants of the seven decision makers, including the five who
invited Levi Garrison, also began to echo: "Yes, we are willing!"
This made everyone led by No. 8 angry.
Are these bastards really going to kneel?
"How dare you? How can you kneel down for the Hydra?"
"You can kneel to anyone, but you can't kneel to Hydra!"
"Your parents and relatives know, will they forgive you?"
"You treat your enemies as running dogs, do you have a good conscience?"
…
On the 8th, they were all in a hurry and roared.
It's just that these people didn't care at all, and the seven decision makers fell to
their knees directly.
"you!!!"
"Shame!!!"
Eighth roared into the sky.
As long as this kneeling, any dignity is gone.
The Hydra people looked at the scene in front of them and couldn't help but

laugh.
An unprecedented sense of achievement.
Forced by the powerful strength, the enemies kneel and kowtow to themselves.
"Hurry up and kneel down!"
The seven decision-makers also called for others to kneel.
The five people who had invited Levi Garrison finally clenched their teeth and all
fell to their knees.
"You all kneel down too! What are you still doing?"
They also start urging others.
"Pfft!"
"Pfft!"
...
Then more and more people fell to their knees.
Fewer and fewer people were standing.
Kneel down to the enemy one by one.
Throw away all dignity.
Those who are bent on revenge on No. 8 are numb.
He closed his eyes, a look of pain on his face.
shame!
What a shame!
...
In the end, almost all the tens of thousands of people on the island knelt down.
In the end, only 7,000 people followed No. 8, standing there.
"Cowards! A bunch of cowards!!!"
The hysterical roar of the eighth.
They were really going to blow up.
This is a great shame.
It's just that everyone else knelt down, and many of them looked calm, without
the slightest sense of shame or conscience.
"Hahaha……"
The crowd of Hydra laughed wildly.
The laughter was harsh, insulting and mocking.
"What a bunch of scumbags!"
They're going to die laughing.
This group of people is a joke to them.
After the seven decision makers knelt down, they shouted, "Kowtow!"
"Bang bang bang…"
These people started to kowtow one by one.

For a while, there was a rumbling sound on the island.
“I swear to give up any hatred for Hydra, or I will hit five thunders every day!”
“I swear to obey Hydra’s orders in the future and treat Hydra as my parents! I will
never take revenge!”
…
Everyone started to kowtow and swear.
All the remaining dignity is lost.
“Hahaha……”
“It’s ridiculous! Look at me killing their parents and relatives! Not only did they
not seek revenge on us, they even knelt down and kowtowed to us, and swore to
give up their hatred!”
…
Several heads of Hydra laughed.
It seems that it is really good to be attached to the War Bear Kingdom now.
No need to hide and hide like you used to.
How good it is now, even the enemy has nothing to do with him.
Then, their eyes fell on the more than 7,000 people led by No. 8.
“What? Don’t you kneel? Do you want revenge?”
asked the head of Hydra.
“Kneel down for you, it’s impossible! Wait to die!”
“We must take revenge!”
No. 8 looked at the more than 7,000 people behind him and roared, “It’s time for
revenge, brothers!”
Several heads of Hydra smiled: “Okay, very good!”
“Old eighth, you kneel down quickly, you are courting death, it is impossible to
take revenge on your own! Those who know current affairs are Junjie!”
The seven decision makers immediately shouted.
“Hoho, trash!”
Eight sneered.
“As long as you kill all those who want revenge, I will spare you today! Otherwise,
all of you will die!”
The second head of Hydra suddenly thought of something and couldn’t help
saying.

He wants to see this group of people kill each other!
After the other leaders understood their intentions, they also laughed and said,
"Yes, in order to show that you are in the same battle camp as Hydra! Kill all
these vengeful people in front of you!"
"Give you ten seconds, or our five thousand gods will start immediately!"
"Start the countdown!"
"ten!"
...
The heads of Hydra didn't give these people any chance to consider at all, and
started the countdown directly.
No. 8 and the seven decision makers could not have imagined such an outcome.
...
"Fives!"
"Four!"
"kill!"
Seeing that the countdown time was approaching, the seven decision makers
immediately ordered.
These traitors have killed the people led by No. 8.
"Kill it out! Find the Hydra for revenge!"
On the 8th, they still had a firm look on their faces, and they killed the super
hydra recklessly.
It's just that there are too many people blocking the front.
Seven decision makers led tens of thousands of people to kill.
"I'm sorry brothers, we have to kill you in order to survive!"
...
A massacre begins.
Hydra doesn't just watch them kill each other.
Many gods were also sent to assist them.
Soon the people on the eighth side fell one by one.
...
After a while, only Eight was left.
He was wounded and about to fall.
He looked at his former companion, his face full of grimness, and his eyes were
full of resentment.
"Don't worry, you will not end well! Someone will seek revenge for you!"

“You and Hydra are all going to die!”
shouted Number Eight.
“Who? Who has the ability to avenge us?”
The major heads of Hydra laughed loudly.
“I remember, Levi Garrison will seek revenge for you! When his daughter’s poison
is removed, he will definitely come to take revenge!”
shouted Number Eight.
In fact, he is also looking for comfort.
I can only think of Levi Garrison.
And put all hope on Levi Garrison.
Levi Garrison, you must take revenge!
“Hahaha……”
Just after hearing that, everyone laughed.
How could Levi Garrison take revenge alone?
That’s just crazy!
Not to mention that 100,000 gods are supporting them.
These five thousand gods are here, and they are walking sideways all over the
world.
How could a Levi Garrison kill them?
revenge?
That’s a joke!
“Pull it down, Levi Garrison is hiding himself now, and he can’t find it at all!”
“And when we came out this time, we also asked Levi Garrison to settle the
account! It’s just that there is no trace yet!”
“He has been hiding for a long time, and still wants revenge?”
Hearing this, the old man twitched fiercely.
This is his last hope!
However, the heads of Hydra continued: “To be honest, your revenge organization of 180,000 people is a piece of trash! It’s no different from raising a
bunch of stupid pigs in a pigpen!”
…
Hearing the insults, although these people were angry in their hearts, there was
nothing they could do.
“You 180,000 people are not as good as Levi Garrison alone! At least Levi
Garrison took revenge and killed our three leaders and more than a dozen

members!”
Hydra reported Levi Garrison’s revenge.
“Boom!”
This is a bolt from the blue for this organization.
Yes!
There are 180,000 of them!
As a result, the revenge Hydra failed once, let alone killed a single person.
Levi Garrison has already killed more than 20 members of Hydra, including three
leaders.
shame!
What a shame!
“Ha ha ha ha……”
Eighth laughed directly.
What 180,000 people couldn’t do, Levi Garrison did it himself.
The seven decision makers looked incredible.
They are trash!
180,000 people can’t compare to Levi Garrison alone!
So are others.
And the five people who had invited Levi Garrison had mixed feelings in their
hearts.
They insulted Levi Garrison as a coward for not daring to take revenge.
As a result, Levi Garrison has killed more than 20 people now.
And now they not only dare not take revenge, but also kneel and kowtow to others.
Compare……
They can’t wait to find a crack to get in.
“I bet right! Levi Garrison will definitely avenge you!”
Eight shouted.
It was the best message he had heard before he died.
After he finished speaking, he slammed heavily on the ground.
The seven decision-makers and others looked at the scene with complex eyes.
All of these revenge-minded companions were all killed.
“But Levi Garrison is hiding now, we can’t find him!”
“Once found, we will definitely get rid of him!”
“Of course we will torture him slowly, and let him see how powerful we are, it’s
not fun to kill at one time! So once you find out what Levi Garrison is saying, tell
us, don’t do it yourself!”

Several heads of Hydra ordered: "The next task is to prevent Levi Garrison from
detoxifying his daughter. It is best to find out where Levi Garrison is hiding!"
"Once you have two hearts, we will slaughter you all!"
Finally, Hydra left with five thousand gods.
Leaving a messy island.
The seven decision makers immediately started brainwashing everyone: "See?
How powerful Hydra is, if we don't surrender, everyone will die! The old eight
and the others have also seen their fate!"
"You must be the same as us, choosing to survive between revenge and survival!
All we have to do is to survive, and we can't even guarantee survival, how can we
take revenge?"
...
The seven decision makers are very smart, and they all dispelled the doubts in
everyone's hearts with a few words.
"Do you understand now? As long as we target Levi Garrison, Hydra will let us go!
They will be very happy!"
"If we hadn't targeted Levi Garrison, everyone would be dead today!"
"So our next goal is to find Levi Garrison, and then find ways to target him!"
"clear!"
The organization has clear goals.
To survive, it is necessary to target Levi Garrison.
No one would have thought.
Such a huge organization has changed from dealing with Hydra to Levi Garrison.
surrendered to their enemies.
Doctor Dark hesitated again and again, and told Levi Garrison the information.
Levi Garrison's research on the secret lock has come to a critical stage.
He shouted impatiently: "If you have something to say, say it!"
"Mr. Ye just had a great opportunity! The six leaders and key members of Hydra
came out of the War Bear Kingdom! They only brought five thousand gods with

them!”
“This should be the best chance to ask you! There will never be another chance
like this in the future!”
Doctor Dark looked anxious.
Five thousand gods may really be the least number of gods around them.
Once they return to the Zhanxiong Kingdom, there will be 100,000 gods to protect them.
To kill them, now is definitely the best time.
Therefore, he felt that he should tell Levi Garrison that maybe he could use this
opportunity to deal with Hydra.
If you miss it, you will never have a chance.
Levi Garrison focused on studying the secret lock, and said without raising his
head: “Oh, they dared to run out?”
“Yeah! There are five thousand gods around, and this is the best time to kill them!
Maybe this is the chance!”
Doctor Dark has repeatedly emphasized this point.
Levi Garrison has always been studying the secret lock: “There is no way, I am still
researching the unlocking method of the secret lock, there is no time! Just treat
them as lucky, let them go, and after that time detoxify Levilia, go to War Bear
Country in person. Kill them!”
Levi Garrison said it lightly, as if he was narrating family life.
I didn’t have time to go because I was busy.
“Okay! They’re lucky!”
The dark doctor smiled helplessly.
He is not questioning Levi Garrison’s strength.
Levi Garrison is very strong.
But there are too many gods in the War Bear Kingdom.
At least one hundred thousand.
Consumption can kill people.
He is worried about this.
However, Levi Garrison’s research on Tianji lock has come to a critical stage.
Besides, the heads of Hydra is not a big deal.
It’s not like he can’t kill.
He can kill anytime he wants.

Just let them live a little longer now.
He can kill them anytime.
You don't have to kill at this time.
Everyone thought the timing was the same for Levi Garrison.
He was going to kill, and no one could stop him.
In this way, Levi Garrison never appeared.
After the hydra arrogantly circled the world with five thousand gods, it returned
to the War Bear Country.
They just want the whole world to know that you can't kill me when I'm dangling
in front of your eyes.
All Hydra's enemies can only scratch their teeth with rage.
This made the seven decision-makers of the revenge Hydra organization and the
five who had invited Levi Garrison to sneer—
"This Levi Garrison is still not with us. At least we have faced it. But don't say
revenge for this kid, he was scared like a tortoise."
Because they have done something wrong, they are now frantically looking for
comfort.
The target is on Levi Garrison.
As long as Levi Garrison didn't come out to take revenge, they would have reason
to laugh.
Be their reference for comforting themselves.
"Next, we still have to target Levi Garrison in secret, and we can't do it in an
upright manner! So far, Levi Garrison has not found out that we destroyed the
blood exchange record? Did you deceive him with the 100,000-year-old snow
lotus?"
"Hahaha……"
Everyone laughed.
"In order to please Hydra, we have to do this!"
"Yes, the more you play with Levi Garrison, the happier they are. The safer we
are!"
But how did they know that they had been targeted by Levi Garrison for a long

time.
Levi Garrison knew what they had done.
Only they themselves do not understand it.
…
And after Hydra returned this time, they received a big task.
Zhanxiong Kingdom's god-building plan, although it is led by Hydra, there is also
a team here in Zhanxiong Kingdom.
Siberia Star has a special team, including modern technology, wizards and so on.
They have been working with Hydra to create batches of gods for the War Bear
Kingdom.
Recently, the team of Siberia Star discovered an amazing phenomenon –
The gods and the non-gods have completely different roots.
Therefore, their research came to the conclusion that the root bone is excellent
in order to absorb more aura and convert it into use, such as strengthening the
essence, blood, bones and so on.
It's not a god, he doesn't have such a backbone, no matter how their plan with
Hydra goes, it won't work.
The research found that the root bones of the gods are also different.
On this basis, it is necessary to distinguish between good and excellent.
The excellent root bone transforms and absorbs the aura more efficiently.
In layman's terms, he can easily convert the absorbed spiritual energy into power
and achieve higher combat effectiveness.
Especially with some methods and ancient exercises, the power is even greater.
In fact, they slowly realized the essence of absorbing spiritual energy.
That is, the spirit root spirit bone that Zhen Mo Si said.
This is only the foundation of their cultivation. With such spiritual roots and
bones, they can carry out their cultivation.
Otherwise you can't get in.
So the Siberian Star team found this amazing research result.
They want to carry out a bold and detached plan among the more than 100,000
gods – to create super gods.

It is to transform or refine the root bones on the basis of gods to achieve the
best state, and completely create a group of existences that are above gods,
called super gods.
This plan is actually extremely difficult, but the team immediately recalled Hydra
to study it together.
In fact, the idea of them has already existed in the town magic department –
to transform the root bone.
The general method in the Suppression Division is to use medicinal herbs or
exercises to transform.
Or use some extremely ferocious methods to dig out the root bones of some
terrifying beasts and transplant them into oneself to strengthen their roots.
If it is purely about the root bone, the root bone of the beast is definitely stronger than that of a human.
In particular, some powerful beasts are even stronger.
When their root bones are transplanted into a human body, it will be a heaven-defying change.
There is an even more vicious method –
That is to dig out the top spiritual roots and bones of others and transplant them
into oneself.
However, this approach is rarely used.
Even if Zhen Mosi has heard it many times, no one has really used it.
Why do you say that the War Bear Kingdom is the first in the power list?
Not only do they have the most gods, they also have advanced ideas.
When other forces are thinking about how to obtain more resources to create
gods.
They have been able to perfectly explain the birth of gods, and have discovered
the secrets of gods to further create super gods.
And they have enough gods to run their experiments.
This is War Bear Country.
If Zhen Mosi knew about the research of War Bear Kingdom, he would not be able
to help but praise him.
After all, it's a starter.

Research to the essence.
It truly opened the door to cultivation.
In fact, martial arts and technology research are the same thing.
Essentially there is no difference.
Isn't this, just researched together?
After the Hydras go back, it is temporarily impossible to come out.
They are also more and more crazy into the research.
Not to mention the number of gods, there is also the birth of super gods.
At present, it is estimated that once the super gods appear, at least one enemy
will be able to defeat hundreds of gods, which would be unimaginable.
No one in this world will shake them.
All will be on their knees before them by then.
And after some research on Levi Garrison's side, it finally came to an end…
Because Levi Garrison is a layman in organ surgery, it is impossible for him to
study thoroughly.
And the mechanism is very mysterious.
Without a professional teacher watching, it would take at least several years for
Levi Garrison to study thoroughly.
That's the speed of genius.
Therefore, Levi Garrison used the exclusion method.
Eliminate in one way or another.
Now, tens of thousands of ways have been ruled out, and only a hundred are left.
Moreover, Levi Garrison is sure that among these hundred kinds of secret lock
solutions, there must be a solution to the magic box.
Within a month, he will be able to unlock the secret lock of the engine box.
Because the speed is not as fast as before, that is because the unlocking method
was roughly ruled out before.
But there are a hundred more.
You have to get down to every detail.
Be careful to the extreme.
Because of the secret lock, as long as you fail to unlock it, the box will immediately self-destruct.
Levi Garrison didn't think he had spent so much time, and he would fall short by
then.

So it will take a month.
Only he can confirm that it is correct to open the secret lock.
He is also breathing a sigh of relief now, resting a little, and then working hard
for the certification for a month.
When you are resting, take a look at how Levilia is doing.
After all, I haven't seen Levilia's state for a long time.
Even if she has already solved half of the poison.
When Levi Garrison saw Levilia.
He was going to be terrified.
The resources that had been piled up in mountains before, were now gone.
what's the situation?
Levi Garrison's first thought, was this place robbed?
not good!
But after rushing over, he found that Levilia was safe and sound.
She is actually practicing.
Practice her own creation…
It is said by the Gods Lab to be similar to the legendary Qi training technique of
the magician.
She is able to use all the natural elements between heaven and earth.
These heavenly materials and earthly treasures, as well as spiritual energy crystals, etc., are all she can absorb.
Therefore, she absorbed these elements during her cultivation.
This is the reason why Levi Garrison has accumulated mountains of resources and
disappeared.
"By the way, poison!"
Levi Garrison suddenly wondered if Levilia would be poisoned because of his
practice.
That's trouble.
Levi Garrison hurried up to check, and found a surprising phenomenon.
The toxins in Levilia's body have not changed and have not decreased.
But not only was there no poisonous hair, but some of the toxins were actually
used by Levilia's own practice.
That is, Levilia Shu uses the toxins in his body to cultivate.
become part of her practice.
If this goes on for a long time, maybe all toxins can be applied by Levilia's exercises.

Levilia's self-created practice uses all the elements of the universe, and it's really
amazing.
Even toxins can be absorbed and used.
The technique of refining Qi is indeed terrifying!
But even so, the poison is too strong.
The toxin that Levilia can use is a little, which can be ignored.
Then the poison still needs to be solved.
As long as the poison is in Levilia's body for a moment, then Levi Garrison will
definitely not be able to sleep well.
Levilia is safe, and Levi Garrison is relieved.
He still asked people to ask about the changes these days.
The identity of Yan Zangsheng and the forces behind him are still being investigated.
There was no major change in the War Eagle Nation. Of course, the Black Hawk
agents sent a message that the forces behind them were already strengthening
the strength of the Sky Shield Bureau and the entire War Eagle Nation.
But it has nothing to do with Levi Garrison for the time being.
He didn't even care.
As for the big moves of Hydra and War Bear Kingdom, Levi Garrison was stunned.
"Huh? Super god plan?"
Levi Garrison asked.
"That's right! According to the information – there are differences between gods,
but the super god plan of War Bear Kingdom this time is to completely distinguish this point!"
"That is, the gods of the gods! Has super strength! At least one enemy hundred!"
Doctor Dark said excitedly.
He also sighed: "So I said that we missed the best opportunity before!"
"That's right, although there were only five thousand gods around the Hydra that
time! But that was the best time!"
"If you want to deal with the Hydra in the future, it will be difficult to reach the
sky!"
"I can't help but deal with more than 100,000 gods! I also have to face super gods

who can fight against tens of thousands! Killing Hydra is almost impossible!"
…
Doctor Dark also nodded.
It's not that I don't believe Levi Garrison.
It's because the opponent's progress and changes are too fast.
Just horrible.
The god Levi Garrison can kill.
But what about superheroes?
What if there is one or more comparable to Levi Garrison?
At present, their super god plan is to create a super existence that can defeat all
gods.
Isn't that what Levi Garrison is like?
In case they do make it work.
Levi Garrison has no advantage at all.
This will be the deadliest!
It's just that Levi Garrison didn't care, but he was a little bit expectant and
excited: "Super god, right? Good! It should have been like this! More gods, more
powerful! With one enemy ten thousand, ten thousand what!"
"I thought it would be boring to deal with Hydra at that time, but this time it's
more fun, I guess I can kill it happily."
Everyone: "…".
They don't understand where Levi Garrison's confidence came from?
Now that the War Bear Kingdom has become so strong, is it still such an understatement?
Don't pay attention at all?
It's not that they don't believe in Levi Garrison's strength.
Their estimate of Levi Garrison's strength is that he can deal with tens of thousands of gods, or tens of thousands of gods.
On the contrary, it is possible to get rid of the Hydra even against Zhanxiong
Kingdom. After all, it is impossible for Zhanxiong Kingdom to send all the gods to
block Levi Garrison at once, right?
After being eliminated by Levi Garrison, tens of thousands of people are estimated to have endured, and there is no need to fight to the end.
After it was revealed that there were 100,000 gods in the Zhanxiong Kingdom,

they still believed that Levi Garrison could do it.
But now the super gods have plans.
The War Bear Kingdom aims to create an existence comparable to Levi Garrison's
combat power.
If you build one, or a few close ones, then Levi Garrison will be finished.
Not to mention creating a group.
In this case, Levi Garrison can still do such an understatement.
Of course no one would believe them.
But let's detoxify everything first.
"Mr. Ye, the Demon Suppression Division you explained may have already
appeared! We found that there are strong people in many forbidden areas in
Daxia who are mining natural materials and earth treasures and excavating
spiritual energy crystals!"
"They should be the people from the Town Demon Division. We have been eyeing
a few, and finally escaped under our noses!"
"And we also heard that the reason why they are only shooting now is to wait for
these heaven and earth treasures to mature and aura crystals to condense! Aura
crystals are called spirit stones by them!"
"I heard that many such beings have selected people with spiritual roots and
bones, which is what we call gods!"
...
Although Jiao Tianyu was assigned other tasks, he still met people from the
Town Demon Division.
If he had encountered Zhen Mosi before, Levi Garrison would act now.
But now he has hope, and he can do it himself.
Then there is no need for the town magician for the time being.
Levi Garrison smiled: "It's not important anymore, I'll talk about it after I detoxify
Levilia! We'll settle accounts one by one!"
"Next, I will be in retreat for a month! If my relatives and friends are in danger, I
hope you can help! Everything will wait for my retreat to end!"
Levi Garrison has decided to go to the last round of retreat.

But at this time.
"Mr. Ye is here! They claim to be an organization of revenge Hydra and want to
see you!"
Fire Cloud Evil God came.
"Huh? They? Well, let them in!"
Levi Garrison smiled.
The Return of the God of War [The
Protector] Chapter 3281
Just now, the dark doctor told him that Hydra found them with five thousand
gods, but then left.
Although I don't know exactly what happened.
But Hydra left with 5,000 gods, and if this group of people died, there was a
problem.
This is the person who takes revenge on the Hydra. According to the brutal
nature of the Hydra, how can they be allowed to survive?
There is only one reason for them to survive – they defected and became the
lackeys of Hydra.
However, we will see you in detail.
See what are they going to do?
Should it be to deceive its own resources?
Last time it was a quiet deception, this time it was an upright deception.

After a simple analysis by Levi Garrison, Levi Garrison casually analyzed the
thoughts of this group of people.
Just know almost.
But he wanted to see what the group was going to do.
Thinking of something, Levi Garrison said to the dark doctor: "Old Hei, go and
prepare a batch of resources, I will wait for them to cheat, no, come and get…"
Doctor Dark immediately arranged for a hidden batch of resources to come over,
and the place was piled up again.
Soon after, the five came again.
This time they looked embarrassed and tattered.
And there are still many wounds on the body, and blood is still flowing.

It looks like it's been a battle.
"Mr. Ye is not good, the big thing is not good!"
"We were attacked!"
…
Several people staggered to Levi Garrison.
Levi Garrison pretended to ask, "What's wrong? What's wrong with you all?"
"It's Hydra, they led five thousand gods to attack us!"
"Our organization has sacrificed nearly tens of thousands of people. If we hadn't
left a way to save our lives, it is estimated that the entire army would have been
wiped out!"
"Hydra bastards! We swear to avenge him!"
…
Several people's acting skills are top-notch, and they express their hatred for
Hydra to the extreme.
Probably because they don't share the sky with Hydra!
Either you die or I die!
…
Several people continued to act again: "We are developing a powerful organization to seek revenge on Hydra, and it has always been the case! We are
not taking revenge for the time being, it is forbearance, and we will take revenge
after we strengthen ourselves!"
"It's just that we overlooked a problem – if we don't find Hydra, Hydra will find us!
We thought we were safe! But it's not!"
"Ten thousand brothers died in their hands, in order to cover our retreat, to save
our strength to avenge! They all sacrificed…"
The acting is so good.
Levi Garrison and the others must take it seriously.
Levi Garrison would have believed it if he hadn't known that this was not a group
of good birds.
The performance brought tears to my eyes and was moved.
And these people also deliberately hide their breath, they are obviously gods.
He also deliberately hid his breath.

But Levi Garrison knew it just by feeling it.
These guys are gods.
It seems that the organization, in the name of revenge Hydra, they did not benefit themselves!
"Damn, Hydra!"
Levi Garrison also clenched his fists tightly and accompanied them in acting.
"After this battle, Mr. Ye, we have suffered heavy losses! We will not only develop our strength in a more low-key manner, but also incorporate more combat power like you!"
"Mr. Ye, our revenge for the Hydra is imminent, you must agree, we kneel down
and beg you!"
…
This time, the group changed their tactics.
He even had to kneel down and beg Levi Garrison.
Completely different from before!
Levi Garrison deliberately showed an embarrassed look: "This, I…"
"Mr. Ye, we know that you want to detoxify your daughter, and you don't have
time to worry about other things!"
"We don't ask for anything else, we just ask you to contribute to the revenge
Hydra!"
"We made it clear, can Mr. Ye sponsor us some resources?"
The Return of the God of War [The
Protector] Chapter 3282
They all looked at the mountains of resources behind them.
"But Mr. Ye, you can either give it or not. If you have ample resources, please
share a little with us! Our organization urgently needs resources to avenge the
Hydra! We have suffered too much…"
"Yes, Mr. Ye, please help us! We will not kidnap you morally!"
"For the sake of us being persecuted by Hydra, help us! We need resources to get
rid of Hydra!"
…
They performed the acting to the point of being superb.
I believe it!
Everyone present must believe it!
Levi Garrison couldn't even help but applaud them.

Really moving.
Levi Garrison hesitated and said again and again: "Since you are looking for hydra
for revenge, then I should help you!"
Levi Garrison pointed to the mountains of resources behind him and said, "Not a
little bit! Move all the resources here!"
"real?"
The five of them endured the ecstasy in their hearts and asked nervously.
"Of course! The sooner the better! Hurry up and move! I will do my part to
avenge the Hydra!"
Levi Garrison said.
"Okay, we will contact someone to move out immediately!"
The five almost jumped up.
Then all kinds of thanks to Levi Garrison, and all kinds of acting…
Soon after, the group sent transports over.
All the resources that were piled up in the mountains were removed.
Before leaving, the five said to Levi Garrison: "Mr. Ye, just wait for our good news!
We will definitely succeed in revenge!"
"Okay, I'll wait for you!"
Levi Garrison pretended to be looking forward to it.
After watching these people leave.
Doctor Dark immediately said: "Mr. Ye, is this worth it? Everyone can see that
they are liars! They came to win your sympathy and cheat you of resources! You
have been acting with them all the time, but you just gave them so many resources. I don't think so. It's worth it!"
"Yes, I also don't think it's worth it! It's a huge loss for this group of dogs!"
…
Although resources are worthless to Levi Garrison, he can have as many as he
wants.
But it's not worth it to these people.
At this time, Levi Garrison smiled and said, "It's worth it! Why isn't it worth it?"
"what?"
This made everyone stunned.

Levi Garrison explained: "These resources are indeed of high value, but let's reluctantly use them to buy their lives! When I kill them, there is no reason for me! I gave them all the money to buy their lives in advance. what!"
"Hahaha……"
Everyone laughed out loud.
They take resources for nothing, of course it's not worth it.
But they are going to die.
It means that if you take resources, you have to take your life to compensate.
Levi Garrison's resources are not so easy to use, and he has to pay with his life to compensate.
"In a month, I will go to them to die!"
Levi Garrison took out the dead branch that the group had lied to him.
After Levi Garrison finished this, he immediately went to retreat to study the secret lock.
He will be out in a month.
And this group of people who left.
The girl among the five, No. 33, laughed outright: "Stupid donkey Levi Garrison! I'm really laughing to death! Did you deceive so many resources like this?"
"Hahaha, it's really too stupid! I think it's too dreamy, so here it is? Am I acting enough?"
29 also echoes the road.
On the 23rd, he laughed loudly and said, "Levi Garrison, I'm afraid you would never have imagined that we lied to you again, right? You are so deceiving!"
"Last time we lied to you under the guise of 100,000-year-old snow lotus, we were too careful! We were too cautious, we should have lied to you more!"
"Levi Garrison, this time we lied to you openly! Hahaha…"
"I didn't even shed any tears, so I lied to you? Idiot!"
"You Levi Garrison is a complete idiot! It's so easy to deceive me that I don't believe it myself!"

The Return of the God of War [The
Protector] Chapter 3283
They were very happy because they deceived Levi Garrison.
Levi Garrison became the big resentment in their hearts.
They acted casually, and they got so many resources.
The resources this time are dozens of times that of the last time.
Unimaginable resource!
This time their organization will be upgraded to a new level, and the gods will
break through thousands of gods at a very fast speed!
The resources last time were enough for them to change that much.
Now so many resources, take off directly.
When they returned to the new base with the resources, the place was boiling.

All are unbelievable.
They just went to try it to see if they could deceive Levi Garrison's resources.
The result was unexpected, not only deceived.
And also deceived mountains of resources.
"I'm dying of laughter. With such an IQ as Levi Garrison, how would he treat his
daughter? Don't think about it for the rest of your life!"
"You still want to take revenge on Hydra alone? This IQ alone will be crushed!"
"We were deceived twice, and there was no reaction at all! It's ridiculous!"
...
Once cheated, it may be careless and careless.
Can you be deceived twice?
This time, I was deceived with no technical content.
Then it can only show that Levi Garrison is stupid.
The key point is that this open and honest deception, not only did he not notice it,
but also sent so many resources.
madness!
Stupid to the extreme!
Who doesn't laugh?
In particular, the five people who had invited Levi Garrison were full of a sense of
accomplishment. They once again cheated so much on Levi Garrison's head.

How can you not be arrogant?
The feeling of playing Levi Garrison in the palm of his hand is simply too wonderful.
"I'm now looking forward to Levi Garrison knowing that we lied to him twice,
what kind of face will he look like after destroying the blood exchange record?"
"I'm really looking forward to it! Are you angry or just mad?"
"He deserves all of this. Whoever told him not to join us will have to bear such an
end accordingly."
The seven decision-makers sneered.
Because they deceived Levi Garrison, let them come out of the haze completely.
"By the way, tell Hydra about this immediately! Just say we found Levi Garrison
and lied to him about resources. See if they want to trouble Levi Garrison…"
…
Shortly after.
Hydra, as far away as Siberia, received the message.
It's just that half of them are planning to create artificial gods, and the other half
are planning to create super gods.
If you want to deal with Levi Garrison, it is impossible.
However, they were still excited to see Levi Garrison being deceived so badly.
They have a plan.
When the super god plan is completed, they will take some super gods to walk
sideways outside, including seeking revenge for Levi Garrison.
"There is still one month left, and the first batch of the Super God Project will be
completed!"
Hydra everyone is also looking forward to a month later.
I have to say that the Siberia Star team is also very powerful.
They have already laid the foundation of the super god plan.
Hydra can operate directly.
…
Hearing that Hydra could not come, everyone felt a little regretful.
But they still want to deceive Levi Garrison again, after all, Levi Garrison is too

easy to deceive.
Who wouldn't want to?
"Everyone, come and think about it for me, how can I deceive Levi Garrison more
and more times?"
"Come on, give me a good thought! I'll be deceived at that time, and give one
tenth of the unconditional share to the individual!"
…
The organization of revenge Hydra doesn't think about how to avenge Hydra.
Instead, he was thinking about how to deceive Levi Garrison's resources.
For the next month, Levi Garrison has been retreating to study the secret lock
method.
Fire Cloud Evil God and the others have been investigating mysterious forces and
the identity of the genius doctor.
Everyone still has a clear division of labor.
But in a month, for the fast pace of this era, a lot of things will happen…
The Return of the God of War [The
Protector] Chapter 3284
For example, the forces behind the War Eagle Nation have strengthened the
combat power of the Sky Shield Bureau and the major institutions of the War
Eagle Nation.
Today's War Eagle Nation, even without the support of the forces behind it, can
still wrestle with the top powers except the War Bear Nation.
It's just that the murderer they've been looking for hasn't been found.
For example, the changes in Daxia.
Of course, the Tenjin Division is progressing rapidly, and both the number and
the combat power are developing rapidly.
Especially after the five Azure Dragon (Qinglong) became gods, their progress
was too rapid.
Of course, it also requires a lot of resources, but with Levi Garrison there, their
resources are not lacking.
And Tenshin Division gives priority to resources to them.

So much so that the five Azure Dragon (Qinglong) people quickly surpassed the
strongest Young Commander Tiance in terms of strength.

Young Marshal Tian Ce was also deeply powerless about this.
There is absolutely no way.
After these five people entered the gods, it was as if they had opened up the
treasures of their bodies, and their speed of improvement was like flying.
That's because these five people have excellent spiritual roots and bones.
It is incomparable to others.
There was no spiritual energy absorption before, and their advantages could not
be reflected.
Now their excellent root bone advantage is reflected.
Just took off.
And the five also discovered a shocking secret.
The five of them joined forces to achieve an effect greater than five.
Amazing tacit understanding and harmony.
It can maximize the power of the five people and integrate them together, which
will double the effect.
Five people complement each other.
The five together are invincible.
As for why the five people can be stronger together, the War Bear Nation has
really discovered something.
They found that some root bones complement each other.
If these root bones are combined in some way, a stronger existence can be created.
However, due to their excellent performance, the five Azure Dragon (Qinglong)
people have long been targeted.
After all this time.
The appearance of Zhen Mosi is no longer a secret.
It is no longer just a few young people.
This time, the old guys from the Town Demon Division also appeared.
It seems to be picking some seedlings with spiritual roots and bones.
Azure Dragon (Qinglong) and the others performed so well, of course they were
targeted.
Even the Tianshi Mansion appeared.

The celestial masters of the Heavenly Master's Mansion attracted the movement
of the mountains and tsunamis in the place with rich spiritual energy.
They can also arrange formations, but these formations must be activated with a
large amount of aura crystals.
The number of gods in the War Bear Kingdom is still increasing, and the super
god plan is also going well.
The first batch of super gods appeared, which was advanced from one month to
twenty-five days.
It is even said that super gods have already appeared.
And the organization of revenge Hydra is not idle.
I came to Levi Garrison four times in a month, each time I was in urgent need of
resources, and also various acting.
As for Doctor Dark, they had Levi Garrison's explanation and prepared resources
for them to cooperate with them in acting.
The poor group of people didn't know, and they always thought that they had
deceived Levi Garrison.
He cheated six times before and after.
Levi Garrison didn't even realize it, and he willingly handed over resources to
them again and again.
Levi Garrison's stupid name spread all over the place.
On the surface, they shouted one by one Mr. Ye, but behind the scenes they were
all scolding Levi Garrison for being an idiot.
And Levi Garrison and God's Brain are also coming to an end.
A month has passed, and there are still three days left.
There are only five ways to unlock the secret lock before Levi Garrison and the
two of them.
Exclude four, or select the correct one at a time.
can be solved.
Victory is in sight.
…
Three days passed quickly.
"pat…"

At the last moment, Levi Garrison ruled out the four ways to unlock the secret
lock.
Take the last secret unlock method to unlock the trap box.
Finally the switch box was unlocked.
"Success! We finally succeeded!"
The Brain of God exclaimed.
If Levi Garrison had tears in his eyes.
Detoxifying my daughter for so long is finally coming to an end.
How can you not be excited? ? ?
The Return of the God of War [The
Protector] Chapter 3285
/ The Return of the God of War [The Protector]
"boom!"
The terrifying medicinal power was instantly released.
Levi Garrison and God's brain were almost overturned.
fear!
so horrible!
As expected, it is a magic medicine that can really be compared to a hundred
thousand years of snow lotus!
It looks like a dry ginseng root.
But it is a god-defying medicine.
I have never seen such a powerful magical medicine, with such medicinal power.
Join Telegram Group For Fast update
Levi Garrison saw a lot of heaven and earth treasures during this time.
This is the first time I've seen it.
Sure enough, the magic medicine still needs time to hone.
If the environment is too good, nothing will grow.
For example, the center of the super spiritual vein.
The aura is too full, too fierce.
lead to the extinction of all living things.
Magic medicine and the like simply cannot grow.
For something like magic medicine, not only the environment is good, but the
spiritual energy is sufficient.
You have to absorb the essence of the sun and the moon.
These are all learned over the years.
It's not done overnight.
Therefore, the time for the recovery of spiritual energy is still short, and the top

magic medicine cannot be bred.
Even if there are many heaven and earth treasures.
But still not!
It is equivalent to the theory of Levi Garrison before——
There is a world of difference between quick and step-by-step laying the foundation.
For example, after the aura is revived, the treasures of heaven and earth in this
period of time are all instant goods.
The dry magic medicine in front of me was built up step by step after years of
accumulation.
The two are not the same.
Now you can see that the effect is completely different.
When this magical medicine appeared in front of Levi Garrison's eyes, he knew
that Levilia's poison would be cured.
Waited so long.
It's finally here!
Levi Garrison started to beat the ground excitedly.
"Levilia, Dad finally did it!"
Levi Garrison shouted frantically.
God's brain burst into tears.
No one can imagine what kind of high pressure they have endured during this
time.
Now that it's over, the mood breaks down immediately.
During this time, everyone was busy detoxifying Levilia all the time.
Especially Levi Garrison was almost out of breath.
Fortunately, there are mentally disabled people who keep coming to die, let him
kill people, and they can decompress.
Otherwise, Levi Garrison will collapse.
They have been waiting for this moment when Levilia detoxifies!
finally come!
"call!"
Levi Garrison gasped heavily.
"Let's go, let's find Levilia!"
Levi Garrison took the magic medicine and went to Levilia immediately.
Levilia was cultivating, and when he saw Levi Garrison running, he understood
what was going on.

“Levilia, hurry up! Come! Take the magic medicine!”
Levi Garrison didn’t talk nonsense, and gave Levilia the magic medicine directly.
However, instead of giving all the magical medicine to Levilia at one time, it was
given to Levilia one by one.
Otherwise, the power of the medicine is too strong, Levilia’s body can’t bear it,
and the blood and strength will explode.
Levi Garrison should give Levilia an appropriate amount to detoxify.
After taking three quarters of this magical medicine, Levilia’s body finally came
to a balance.
The medicinal power begins to detoxify the toxin.
Levilia is also in pain.
Heartbreaking screams sounded…
But she persevered.
As long as the detoxification is done, it will be completely fine.
…
Time passed by minute by minute.
It took a full six hours.
It was only with the medicinal power of the divine medicine that the toxins on
Levilia’s body were dissolved.
This is only half the toxin.
“boom!”
Levilia’s whole body also sublimated, and a terrible roar sounded from all over.
The excess medicinal power began to flow in her body.
“Success!”
“Finally successful!”
“Levilia’s poison has been released! The moment has finally come!”
…
Levi Garrison and the crowd began to cheer.
“Dad, you are lucky!”
Levilia also held Levi Garrison tightly.
“Levilia, you have also been wronged during this time, but Dad is here and will
definitely protect you!”
Levi Garrison smiled.
Doctor Dark and the others also joined the cheering ranks.
The well-behaved Levilia thanked them one by one.

The Return of the God of War [The
Protector] Chapter 3286
/ The Return of the God of War [The Protector]
After all this time.
Except for the father, these people also helped.
They are all busy detoxifying themselves.
They have all the credit and hard work!
This is the result of our joint efforts!
"Brothers, I, Levi Garrison, owe you a favor! And the senior who gave us the
ancient book of Tianji, I must repay when I have a chance!"
Levi Garrison bowed deeply to everyone.
"No way! No way!"
Everyone immediately stopped Levi Garrison.

During this process, everyone regards Levilia as their own daughter or sister or
something.
Levilia detoxifies, everyone is relieved.
As a result, these people from the dark doctor have no target at once.
Since the recovery of the spiritual energy, their goal has been to detoxify Levilia.
Detox, I really don't know what to do next.
"What's going on outside now?"
Levi Garrison asked.
Doctor Dark and the others told Levi Garrison what happened in the outside
world.
Moreover, during Levi Garrison's retreat, Black Hawk agents had secretly sent
messages several times, telling Levi Garrison the current situation of the War
Eagle Kingdom.
"The big summer has also changed a lot, and the scale of the Heavenly God
Division is comparable to the previous forces! Especially your good brother Azure
Dragon (Qinglong) has improved by leaps and bounds. It is the most terrifying
god I have ever seen!"
The Dark Doctor smiled.
"Huh? That means that this system is very suitable for them now!"

Azure Dragon (Qinglong) and the others are good, and Levi Garrison is also happy
from the bottom of his heart.
"That's right, what gods are pulled out from the War Bear Kingdom now is
because of the excellent root bones. If the root bones are strong, there will be
super gods! I feel that the five Azure Dragon (Qinglong) are all super gods!"
said others.
"That's good. In the future, Daxia and the others will still be on their own!"
Levi Garrison was very pleased.
"I didn't expect such a big change in this month? Zhenmosi and Tianshifu have
come out completely?"
Levi Garrison was a little surprised to hear that these two were completely popping up now.
"Then what about Yan Zangsheng and the forces behind him? Is there any information?"
Levi Garrison asked.
"After you disappeared, they also disappeared. At first, they were still looking
for the whereabouts of the magic medicine, and then they disappeared when
they couldn't be found… As for the identity of Yan Zangsheng, I can't find out…"
"It seems that it has something to do with the secret guarded by the Baolong
family. I have been eyeing the Baolong family recently… It will take a while for
the result!"
Fire Cloud Evil God said.
"Okay, nothing is in a hurry now! Don't spread the news of Leviliaji's detoxification at that time! Then it's time for me to calculate the general account!"
Levi Garrison smiled.
The others also cheered up.
Finally, the day of reckoning has come.
Who doesn't look forward to it?
Doctor Dark even brought a list to Levi Garrison: "Mr. Ye, this is the list, you can

settle accounts one by one!"
Levi Garrison flipped through the list and said with a smile, "Okay."
"What about the organization that takes revenge on Hydra? I should come a lot
after my retreat, right?"
Levi Garrison asked while watching.
"Well, I've come four times! I've taken away a lot of resources!"
The Dark Doctor smiled.
It seems that they are at a loss, but in fact this is life-saving money.
"And what scale have the gods of the War Bear Kingdom reached? Has the super
god come out? Hope to be stronger, don't let me down!"
Levi Garrison is most concerned about this.
"It should be terrifying…their first super gods have appeared!"
…
Not wrong.
As early as five days ago, the first batch of the super god plan of War Bear Country was successful.
Create forty-eight super gods that are comparable to five hundred ordinary gods.
This one just hits the base standard they want.
But after the first batch was successful.
Five days later, that is, today, the second batch of super gods appeared.
Only twenty this time.
Each of them is a super god that can rival the eight hundred gods.
The Return of the God of War [The
Protector] Chapter 3287
/ The Return of the God of War [The Protector]
It excites them!
The experimental plan works great!
They are about to start their third batch of super gods.
This batch of gods will appear as super gods with one against a thousand!
Although not many.
But it will be a milestone for their super-god plan.
It also heralds the completion of the super god plan.
This will also be the ceiling of their super god plan.
No matter how strong the super gods are, there is nothing they can do.
Join Telegram Group For Fast update
For root bone modification optimization, they can only do so much.
In addition, they also did the plan to transplant the root bone.
The excellent root bone of a god is transplanted to other gods with the same

root bone, or to ordinary people.
However, this technique is too difficult.
So far unsuccessful.
Some high-level plans to want good roots were dashed.
However, they were able to create a group of super gods with one enemy over a
thousand, which is already against the sky.
A new phase of the Super God Project has begun.
It is expected to be completed within a week.
Hydra, they all forget to eat and sleep, and they don't know what's going on in
the outside world.
Not to mention that Levilia's poison has been solved.
They waited for the plan to be completely over before going outside to find Levi
Garrison for trouble or something.
Or simply let Levi Garrison be in front of his eyes, watching their status and
strength getting higher and higher, but there is nothing to do.
They are looking forward to that moment…
Today's War Bear Kingdom is too strong.
Let them feel their scalp tingling.
Not to mention others.
There is no such thing as a super god.
Just like the super gods they realized.
The minimum standard super god is a god that can be worth five hundred ordinary gods.
That is to say, a super god can almost match the combat power of the Black
Dragon Kingdom.
In other words, basically a super god can kill all the countries and forces after the
top ten in the power list.
Even those between fifth and tenth have a fighting force.
This is unimaginable.
And super gods are destined to be no less.
There will also be super-gods who can fight against a thousand.
This is a huge disaster for the whole world.
So Hydra's waist pole is now too hard and too hard.
Really ignore everything.
Super gods have appeared.
Then, in addition to continuously analyzing the specific combat power and

showing it in the form of numerical values, Zhanxiong Nation also naturally has
to use actual combat to practice.
Although there are many gods in the War Bear Kingdom, it is impossible for them
to use themselves to practice.
To deal with other powerful countries, it is easy to expose their trump card.
The best way is to go to the forbidden area and use the beasts to practice.
A second-level forbidden area, or even a first-level forbidden area.
Just throw them into a forbidden area alone to fight.
See how many beasts the peak combat power can kill…
So these super gods were thrown into the forbidden area one by one to test their
combat power.
It took a while.
The combat power of the super gods has also been tested.
Not wrong.
After the actual combat test, each super god can hunt down at least 500 ordinary
gods.
The second batch of super gods are even more terrifying, each with terrifying
combat power and madness like a demon.
All these super gods are qualified.
Meet their requirements!
For a time, the strength of the War Bear Country reached its peak.
They will be fearless against anyone and power.
They are increasingly looking forward to the third batch of super gods.
That would be the ultimate form of their super god.
After all, they can only optimize the root bone to this extent.
Subsequently, the War Bear Kingdom spread the news of the success of the Super God Project to the world.
The whole world boils and explodes.
It only took a few days from the proposal to the success of this plan.
This scares the world the most.
The War Bear Kingdom will be unstoppable.
And at this time, Levi Garrison also selected the first object of reckoning and
revenge.
The Return of the God of War [The
Protector] Chapter 3288

/ The Return of the God of War [The Protector]
The nearest Tenjinji.
At the beginning, some people in the Tianshen Division told the forces of the
Black Sky Alliance about Levi Garrison and the place where the resources were
stacked for their own selfish desires.
He also took away all the people related to Tenjinji.
in order to divide up their resources.
Although you are from the Great Summer God.
But one size fits all.
The reckoning is still to be done.
There was no time before, now Levilia is detoxified.
Then Levi Garrison will start to settle accounts one by one.

Soon, Levi Garrison and his party came to the Tianshen Division.
Today's Tenjin Division is quite large.
Not only has the number of gods kept up, but especially the combat power of
gods is too strong.
Such as Azure Dragon (Qinglong) several people.
Levi Garrison was stunned when he saw it.
I thought that no matter how strong they were, it was within a limit.
Of course, he didn't use himself to make this limit.
He took Jiao Tianyu and the others as his standard.
But the five Azure Dragon (Qinglong) Kirin (Qilin)s are stronger than them.
In Levi Garrison's prediction, no matter how strong they are, they are not as
strong as those of Jiao Tianyu.
The result was unexpected.
Now Azure Dragon (Qinglong) and the others are extremely powerful, even
though there is a gap between them and Huoyun Evil God.
But the difference is not too big.
Just startled him.
Azure Dragon (Qinglong) and the others were also very excited: "It is said that
our root bones are the best, and the five of us complement each other, and only
when we work together can we maximize our combat power."
Levi Garrison was also happy for them.

In the previous "eras", although Azure Dragon (Qinglong) and the others performed well, they were not top-notch.
Never thought that in the recovery of spiritual energy, they would become a
sweet pastry.
This is their time.
"You guys keep going! Call me if you need anything!"
Levi Garrison smiled.
Just looking around, he didn't see his apprentice Xiao Feng.
"Where did Xiao Feng go?"
Levi Garrison asked.
"Xiao Feng, haha, something has happened recently, and we often don't see
him!"
Phoenix started to laugh.
Everyone else laughed too.
Smile a little ambiguous.
"Huh? Is there a situation?"
Levi Garrison noticed something.
"Yes, Xiao Feng met her love! It is said that he is a super expert!"
"Yes, it seems to be from the Town Demon Division or something, and now we
can't see anyone else!"
"The most outrageous thing is that Xiao Feng has grown very fast, and it seems
that he got the correct cultivation method from the Zhenmo Division, which is
almost the same as us!"
"That's right, the people from the Zhenmo Division said that gods are actually
good spiritual roots and bones, and they can absorb a certain amount of spiritual
energy. And they must have a way to cultivate, and they must cultivate faster
than us! Xiao Feng is like this!"
…
Levi Garrison was also happy to hear that everyone was fine.
In particular, Xiao Feng can find his true love, which is even more fun.
Chatted with everyone for a while.
Only then did Levi Garrison know that the principle of Zhanxiong Nation's super
god plan is the same as that of Zhen Mosi.

It just needs a good root bone to be stronger.
Zhen Mosi has a good cultivation method to strengthen.
The super god plan of War Bear Kingdom is to use technology or other methods
to improve and optimize the root bone, so that it can become stronger.
However, Zhen Mosi's cultivation method can always be strong.
The War Bear Kingdom's is a one-time use. After the root bone is optimized, they
have nothing to do.
This has always been the place where Eastern and Western powerhouses were
born differently.
The East relies on self-cultivation, step by step.
The West is either awakening, an opportunity from heaven, or transformation.
In general, the powerhouses in the West all feel a bit unearned.
It has nothing to do with your own efforts.
After bidding farewell to Azure Dragon (Qinglong) and the others, Levi Garrison
will start his real goal.
That is, the one from Tenjinji.
"The whereabouts of the target have been obtained!"
Doctor Dark said.
"Okay, let's go and see!"
The Return of the God of War [The
Protector] Chapter 3289
/ The Return of the God of War [The Protector]
Not long after, Levi Garrison and his party came to a base outside the Tianshen
Division.
"Why? Let Azure Dragon (Qinglong) and the others use the resources of the
Tenshin Division first?"
"They only give us the waste they use up! Give us such good resources, and we
can do it too!"
"That group of trash, failed to rob Levi Garrison's resources at the beginning,
otherwise we have one-tenth of Levi Garrison's resources, and what about Azure
Dragon (Qinglong)?"

“These rubbish, at the beginning, I paid everyone in the Tianshen Division! They
all failed!”
“But it shouldn’t be. Those people around Levi Garrison can’t stop so many
people from the Heitian League! What’s going on?”
…
The two were having a grumbling discussion.
Suddenly Levi Garrison’s voice sounded——
Join Telegram Group For Fast update
“That’s what you said!”
“what?”
Long San and Long Wu immediately panicked.
Looking around, I saw Levi Garrison and his party came over.
Levi Garrison laughed and said, “Look, you didn’t even have to work hard to find
out! No, people said it themselves!”
Not wrong.
It was Long Sanlongwu who was in contact with the Black Sky Alliance at the
beginning.
It was they who betrayed Levi Garrison and the location of the resources, and
they used the authority of the Heavenly God Division to lead all the Heavenly
God Guards away.
After all, there were not many people in the gods at the time, so it was easy to
find them.
It’s been a long time since this happened.
That is, they complain when resources are needed.
Actually almost forgotten.
In any case, I never thought that Levi Garrison would come to the door.
“You…what are you talking about?”
Long San and Long Wu hurriedly said.
“Don’t pretend, we have already found out, and you all said it yourself just now!”
Levi Garrison smiled.
“So what? We are not wrong! You alone occupy so many resources, can’t we share
a little?”

After seeing the exposure, Long San and Long Wu immediately roared at Levi
Garrison.
“For the sake of others, I will give you a chance to apologize and admit your
mistakes, and I will let you go!”
Levi Garrison said coldly.
If it were anyone else, he would have killed him long ago.
After all, what these people think about is how to get rid of themselves, to kill
themselves.
Levi Garrison killed them as well.
It’s just that they are the guardians of the gods, and they don’t do anything else.
Levi Garrison gave them a chance for now.
But the two didn’t appreciate it at all, and sneered at Levi Garrison: “We apologize to you? How is that possible?”
“It looks like you’re here to take revenge? This is premeditated!”
Looking at the people behind Levi Garrison, they sneered.
“But we belong to the Tenjin Division, what else can you do to us? Don’t dare to
give you the guts!”
The two were extremely arrogant.
Levi Garrison said lightly, “Apologize or not?”
“Impossible to apologize!”
“US……”
“Boom!!!”
“Crack!”
“Crack!”
It’s just that they were just halfway through when a violent and unparalleled
airflow swept through like a blade.
The arms of Long San and Long Wu were broken instantly, and the blood was
pouring out.
Ugh! ! !
The two let out a piercing scream!
Never thought that Levi Garrison would do it.
“Apologize or not?”
Levi Garrison asked.
“I……”
“Crack!”

Long Sanyi hesitated, and Levi Garrison cut off his arm again.
Blood was pouring out, and the miserable sound sounded again.
"Served, we served, we apologize! We were wrong!"
"We really made a mistake, please forgive us, the king side by side!"
...
This time, both Long San and Long Wu both accepted.
If they force a few more words, it is estimated that there will be no heads.
Levi Garrison was more terrifying than they had imagined.
They also understood that Levi Garrison killed them in the palm of their hands.
It's just for the sake of their Daxia people that they didn't kill them.
"Go, next enemy!"
The Return of the God of War [The
Protector] Chapter 3290
/ The Return of the God of War [The Protector]
From this moment, Levi Garrison will officially take revenge.
Follow the list, one by one!
From Daxia to the surrounding countries and forces, settle accounts one by one.
None of the people and forces who deceived his resources back then could run
away.
As for Long San and Long Wu, they immediately picked up their broken arms and
left.
Take advantage of this time to connect the broken arm.
Can the broken arm be connected?
Maybe not before.
After all, this was interrupted by Levi Garrison's knife.
Join Telegram Group For Fast update
But now there is a magician.
They took the severed arm and quickly found the genius doctor Yan Zangsheng.
"The other party did not deliberately destroy it, but simply cut it off, otherwise it
would not be able to connect at all!"
Yan Zangsheng said.
Yan Zangsheng asked curiously, "Who hurt you?"
"Levi Garrison!"
"Levi Garrison hides deeper than anyone else! He has the power of gods!"
"But we deserve it! We deserve it!"

Long San Long Wu said.
"Levi Garrison, I understand!"
A deep look flashed in Yan Zangsheng's eyes.
He also knew that the forces behind him would definitely know about it.
And never give up.
Because he knows why the forces behind him are targeting Levi Garrison.
Now Levi Garrison has broken the arms of Long Sanlongwu, even if it deepens
hatred.
"No… How could Levi Garrison have the time to trouble them… Could it be…"
Yan Zangsheng thought of a possibility – that Levi Garrison's daughter had
detoxified.
Hahaha!
It turned out that the magic medicine box was obtained by Levi Garrison.
Yan Zangsheng felt a little more gratified.
The big stone in his heart also fell.
Levilia's inability to detoxify has always been a pain point in his heart.
If Levilia really had an accident because of this, he would probably feel guilty for
the rest of his life.
Now he has understood that Levi Garrison absolutely got the magic medicine,
and also solved Levilia's poison.
very happy.
But thinking of the forces behind him gave him a headache.
the other side.
Levi Garrison and his party came to Xingguo.
As for the East Island next to it, it passed directly.
Dongdao knew Levi Garrison's strength for a long time, and they didn't dare to
deceive Levi Garrison's resources even if they lent them a hundred courage.
But the star country is different.
Although they were killed by Levi Garrison with a sword, they did not know that
Levi Garrison did all of this.
Therefore, in the previous reward order, Xingguo also joined the ranks of deceiving Levi Garrison.
With some inferior products, a lot of resources have been defrauded before and

after.
The Dark Doctors have all been counted.
All the people and forces in the star country deceived a total of 1,785 aura crystals and 1,232 heaven and earth treasures.
It is impossible to defraud resources so easily.
Levi Garrison is all recorded.
However, Levi Garrison also knew about Li Chengmin's changes.
After the aura recovered, Li Chengmin became a god, and his temperament
began to change greatly.
became the star queen.
Xingguo is notoriously tech freak.
As soon as the aura recovered, they thought about how to use technology to
create more and stronger gods.
They really did this.
Originally, after they were beheaded by Levi Garrison, there were more than fifty
gods left.
But during this period of time, after technological means and the mining of resources, they created more than a thousand gods.
This is still under the circumstances of insufficient resources.
This is something no one has thought of.
I thought that after being cut off by half of the gods, Xingguo was decadent.
But after they quietly developed, they have now reached the top scale.
Their technology is also trying to figure out the strength of the powerful gods.
Although there is no way to discover the true meaning of gods like War Bear
Kingdom.
But they are still stronger.
Because of the creation of various equipment that matches the gods.
Create exclusive equipment according to the characteristics of each god, including offensive, defensive, speed-increasing, etc…
To tell the truth, the current star country is stronger than the previous Apocalypse Empire.
The Return of the God of War [The
Protector] Chapter 3291
It's just that they develop quietly, and no one else knows about it.
The current strength is quite strong.
They also interpret a truth – technology can still match the gods.

The resources deceived from Levi Garrison can hardly help them.
Xingguo not only copied a lot of technology, but also copied the name of Daxia
Shensi.
They incorporated all the gods into a new organization – the Celestials!
It means that they are descendants of the gods.
But they are used to plagiarism.
It's nothing.

He even said madly – Daxia people are all descendants of the Star Kingdom.
Therefore, they had a plan to divide up Daxia before, and wanted Daxia to return
to the embrace of the star country.
Unfortunately it failed.
After the recovery of the spiritual energy, Xingguo has been releasing the remarks that Daxia is their descendant.
They say that everything in Daxia belongs to them.
Even the genius doctor Yan Zangsheng was said to be a star country.
Said his ancestors were in the star country.
…
There are many operations like this.
If possible, they all want to move Daxia to Xingguo.
With such an operation, it is normal to defraud Levi Garrison's resources.
It's just that these guys are so bad.
Not to deceive in the name of Xingguo, but to deceive one by one.
This is the force that defrauded Levi Garrison with the most resources.
Of course combined.
But it's not according to the theory of the stars, but one person by one.
But it's actually one thing.
Except for the organization of revenge Hydra, Xingguo defrauded the most resources.
The first person Levi Garrison looked for was Xingguo.
There is a huge base in the location of the Celestial God Race, called the Heavenly God Base.
Levi Garrison came.
Seeing Levi Garrison and his party coming to the Tianshen Base, they were
shocked.
They are all guessing why Levi Garrison and the others are here.
Shortly after.
Li Chengmin appeared.

As the most powerful person in the gods, Li Chengmin has a high status and
status.
Especially now that she is still in charge of the existence of the Celestial Clan.
This is Levi Garrison coming.
If other people come, it is estimated that Li Chengmin will not see each other.
I saw that Li Chengmin had a liquid battle suit on his body, and there was still
aura that was condensed into liquid flowing.
This is the equipment created by Xingguo to match the gods.
It is at least 1.5 times more powerful when used.
Like Li Chengmin's equipment, when used, the defense is increased by at least 22
times, and the attack is increased by 18 times.
This is unimaginable technology.
A group of gods around Li Chengmin also have such equipment.
The combat power is by no means comparable to the gods of other countries.
After all, all the gods have greatly improved their combat power.
Soon hundreds of gods poured out from the base of the Celestial Clan, and they
surrounded Levi Garrison and his party.
"have not seen you for a long time?"
Li Chengmin looked at Levi Garrison's indifferent way.
"Indeed, long time no see!"
Levi Garrison nodded, but then said: "You have become more shameless!"
"What did you say???"
In a word, all the gods in Xingguo were blown away.
They stared at Levi Garrison one by one.
It's just that Li Chengmin wasn't angry.
Just look at Levi Garrison.
There seemed to be a hint of playfulness in his eyes.
"I heard that you are talking all over the place, we Daxia belong to your star
country? It's shameless!"
"Do you know what everyone is calling you outside?"
Levi Garrison asked.
Li Chengmin held back the angry crowd and asked with a smile, "What?"

“The country of origin of the universe! Because you feel that everything in the
world is yours, this is yours, that is yours, and even the entire universe is yours!
Hence the name!”
Levi Garrison said.
“Hahaha……”
Li Chengmin laughed first.
But then the smile stopped abruptly, stared at Levi Garrison and asked, “So you
are here for this matter?”
The Return of the God of War [The
Protector] Chapter 3292
Levi Garrison shook his head: “What you say is yours, even I am yours. I don’t care,
because you are shameless!”
“Levi Garrison, are you courting death?”
The gods of the star kingdom are going crazy.
“I came to you to settle accounts!”
Levi Garrison continued to speak regardless of their reactions.
“Oh? What account?”
Li Chengmin asked.
Levi Garrison smiled: “Some time ago, I released a reward to the world for
detoxifying my daughter!”
Speaking of this, Li Chengmin and the gods of the star country changed their
expressions one after another.

“At that time, many people and forces all over the world received bounties! Part
of it was true! But a larger part came to deceive me! During that time, I didn’t
care, and was deceived by many, many resources. what……”
As they talked, the gods of Xingguo were full of discomfort.
This move has it all.
Levi Garrison laughed at first, but suddenly his face became extremely cold, and
he said solemnly: “But how can my Levi Garrison’s resources be so easy to deceive?
Afterwards, a few of my brothers took the people who cheated my resources and

the forces into one. Once you record it! I'll go to the door one by one to settle
accounts later!"
There seemed to be electric light flickering in Levi Garrison's eyes, he looked
directly at Li Chengmin: "So now I'll settle the account!"
Speaking of which.
Li Chengmin and the rest of Xingguo understood what was going on.
"Unfortunately, there are many people from your star country on the list!"
"The people of your star country have deceived me a total of 1,785 spiritual
energy crystals and 1,232 heaven and earth treasures."
Levi Garrison smiled.
Handed the list to Li Chengmin.
Li Chengmin looked at it, and Levi Garrison continued: "What I didn't think was
that it was you who defrauded me the most resources! You are very smart, not in
the name of a star country or a big power, but in the name of a single person.
cheat!"
"Although there are many of you, we also have experts, and everyone can be
found!"
Just as Li Chengmin was about to say something, Levi Garrison directly
interrupted: "Don't tell me it has nothing to do with you, you don't know, you
don't know anything, etc. Make a face and admit it!"
What other gods of the star kingdom had to say, Li Chengmin admitted it at once:
"Yes, we lied! The people and numbers above are completely correct!"
After speaking, Li Chengmin looked at Levi Garrison like that.
As if to say – yes, I lied, what can you do with me?
Seeing Li Chengmin's attitude, other star gods, that is, members of the Celestial
Clan, all stared at Levi Garrison.
"Yes, we lied! How? What can you do to us?"
"Find us to settle the account? Don't you really think that our star country is
decadent, right? There are only more than fifty gods left, right?"
"Levi Garrison will let you see how powerful my Star Kingdom Celestial Clan is

today!”
…
One after another, the gods came out from the base of the Celestial Clan.
one hundred.
two hundred.
…
One thousand four!
No one would have thought that there are 1,400 gods in the Celestial Clan of the
Star Kingdom!
Didn’t it say that there were only fifty left?
How come so many come out?
This moment, beyond everyone’s expectations.
Including Levi Garrison.
No one would have imagined that not only did Xingguo become decadent, but
instead it developed to such a scale.
Of course, it can’t be compared with War Bear Kingdom.
Except for Zhanxiong Kingdom, everyone thought that Daxia was the fastest
growing country.
The rapid development of Tenshin Division is jaw-dropping.
But now compared with Xingguo, it is almost one sky and one underground.
What’s more, the gods of the star kingdom also have matching equipment.
Combat is more terrifying.
These more than 1,000 gods can basically match the more than 3,000 ordinary
gods.
This scale was beyond the expectations of everyone present.
Seeing everyone’s shocked expressions, the star gods all smiled proudly.
The Return of the God of War [The
Protector] Chapter 3293
They liked and looked forward to seeing everyone’s shocked look.
After all, everyone’s understanding of Xingguo is based on the fact that half of
the gods were killed by Daxia’s mysterious master with one sword.
Now they have more than 1,000 gods, rivaling the combat power of more than
3,000 gods.
No one would have imagined it.

“Sorry, we are stronger than ordinary gods! Do you see the equipment on my
body? At least 1.5 times the combat power!”
The gods of the star kingdom began to show off their equipment.
Especially the top equipment is even more terrifying.
Like Li Chengmin, he is very powerful in being a god.
There is also equipment support.

She can easily defeat two or three hundred gods.
It is a quasi-finished product in the Super God Plan of the War Bear Kingdom.
I also have to say that the technology copied from this country is terrifying.
Only technological equipment can improve so much.
Full of confidence and confidence.
The real combat power of the Star Nation today, except for the War Bear Nation.
They can wrestle their arms from any national power.
Confidence comes from great strength.
Now they have that confidence.
What if you knew we cheated resources?
What can you do with us?
Li Chengmin also spread out his hands, meaning – that’s not wrong, that’s what
you see! We are so strong!
“We admit it, we lied! What’s the matter? Are you going to settle the bill now?”
“I seem to have heard that he is here to settle accounts? Hahaha…”
All the gods in Xingguo laughed.
They all thought that after showing their cards, Levi Garrison and the others
were all intimidated.
After all, everyone was so shocked.
But Levi Garrison and the others were shocked by why the Star Kingdom was so
powerful in such a short period of time.
rather than fear of their power.
In front of Levi Garrison, many gods are nothing.
All are dead.
Levi Garrison suddenly laughed.
This made the gods of the star country smile even happier.
They thought Levi Garrison was scared.

So laughed.
Doctor Dark and the Brain of God are still discussing, or still thinking, how Levi
Garrison will deal with Xingguo.
After all, there is still his good friend Li Chengmin in front of him.
I guess it won't kill you, right?
It should be handled in the same way as Dragon Three Dragon Five.
Everyone's guessing that's probably the case.
After Levi Garrison finished laughing, he looked at Li Chengmin and asked, "Are
all the gods of your star country here? Or are some of them missing?"
Li Chengmin and the star gods were very puzzled.
What is Levi Garrison going to do?
However, Li Chengmin still replied: "There are still dozens of people who haven't
come…"
"Ah? Then call them all to come!"
Levi Garrison said.
"That's not necessary, they are all in the Tianshen base behind! They are all
responsible for the operation of the base!"
Li Chengmin immediately explained.
Levi Garrison glanced at the base behind him: "Oh, in the base, that's okay! It's all
there!"
"Um?"
This made Li Chengmin and others more and more puzzled.
What is Levi Garrison doing?
Or what is he going to do?
But Li Chengmin, regardless of the rest, directly warned Levi Garrison: "Levi
Garrison, I have indeed changed! I'm not the me I used to be! I won't give you a
chance! Since you all know that we lied to your resources! You yourself Bring it to
your door, we won't let you go!"
Other members of the Celestial Clan echoed: "Yes, you can't blame us if you send
it to your door! Hand over the resources and tell me the secret of the resources!"
"Don't think about running! More than a thousand gods have already set their

sights on you! Anyone who runs will become a corpse!"
As soon as the words came out.
All the gods stared at Levi Garrison and his party.
It's just that Levi Garrison looked at Li Chengmin and said, "You don't think about
your kindness, I do. Except you, everyone will die!"
The Return of the God of War [The
Protector] Chapter 3294
/ The Return of the God of War [The Protector]
A simple sentence turned up a stormy sea.
Doctor Dark and they looked at each other.
All are an idea – guess wrong.
Levi Garrison basically wants to kill them all.
Instead of the way Long Three and Long Five dealt with.
Let it go on acquaintances or other faces.
They were all shocked enough.
But it was Li Chengmin and the people from Xingguo who were most shocked.
Levi Garrison would actually say such a thing.

In their opinion, Xingguo has shown the ultimate trump card.
Levi Garrison must surrender, and then tell the secret of the resource.
No one thought that he would continue to settle accounts and kill everyone except Li Chengmin.
Shock!
It's all so shocking.
It took a full minute for everyone in the star country to react one by one.
Li Chengmin has indeed changed.
Hear what Levi Garrison said.
She smiled: "I know you are very strong, and outsiders don't know your strength!
But I know, you are actually very strong! The general gods are definitely not your
opponents! You even killed half of the gods in my star country last time, right? ?"
Li Chengmin is very smart and has already guessed it.
"However, this era has changed. After the recovery of the spiritual energy, it is
more powerful than you! Especially with our current strength? Can you compare?"
"I admit that one or two hundred gods are not necessarily your opponents! But

how many of us are there?”
“And we all have equipment matched by gods, and our combat power is doubled!
What are you fighting us for?”
“It’s the liquid suit on me, you’ll never be able to wear it! Not to mention kill
everyone here!”
…
Li Chengmin began to show off their terrifying combat power to Levi Garrison.
She even showed off her uniform.
“Hahaha, Levi Garrison, stop pretending! Hurry up and surrender!”
“Tell us the secret of the resources, and we can still spare your life!”
…
The gods of the star kingdom all began to laugh wildly.
But Levi Garrison looked at them and said nothing.
There is no need to talk too much nonsense with this group of people, just kill it!
Doctor Dark They are looking forward to the appearance of a sword.
But it never appeared.
Because Levi Garrison kills without a sword today.
“die!”
Levi Garrison’s mouth burst into thunder, and he made a cold sound.
“boom!”
The right foot stomped on the ground!
This step is simply a disaster!
The earth shook and the mountains swayed, and the tumult of the sky and the
earth began to unfold immediately.
An incomparable force in the earth quickly rippled forward.
It was as if the whole earth was torn apart.
“Buzzing…”
The terrifying power caused the sky and the earth to roar, tearing everything
around.
The wave of power swayed everything.
“boom!”
Li Chengmin, who bears the brunt, was the first to bear the volatility.
“Clap clap clap…”
The indestructible liquid suit on her body shattered instantly.
It fell off her and disappeared.
However, Levi Garrison did it deliberately, and her body was not harmed.

Soon the power fluctuations passed her and swept directly towards the more
than 1,400 gods behind her.
“Crack!”
“Crack!”
“Crack!”
…
These gods are not as lucky as Li Chengmin.
At this moment, their bodies, together with their combat readiness, all fell apart,
and were directly smashed into powder by the terrifying fluctuations.
Dissipated directly between heaven and earth, leaving nothing behind.
Not even a drop of blood was left.
That is, when it encounters the fluctuation of power, it shatters and disappears in
an instant.
In an instant, none of the more than 1,400 gods could withstand the energy fluctuations, and they all shattered and disappeared.
Fourteen hundred people disappeared in an instant.
Gives a shocking visual impact!
The power fluctuation continued to spread, eventually sweeping and wrapping
the huge Tianshen base.
“Boom…”
The terrifying power fluctuation instantly caused the Tianshen base to collapse
and shatter, and a huge base disappeared in an instant.
Together with the gods in the base or everything else smashed to pieces.
nothing is left…
The Return of the God of War [The
Protector] Chapter 3295
/ The Return of the God of War [The Protector]
Seemingly destroyed a lot, the process is slow.
It’s actually something that happens in an instant.
Judging from the vision of the dark doctors, it was Levi Garrison’s kick.
More than a thousand gods disappeared in an instant, and the huge base of the
gods disappeared in an instant.
Even close to the visual impact that flashed in front of you!
no more!
More than a thousand gods and such a large base say nothing?
Just stomp your feet?

Is everything gone?

Has this place been razed to the ground?
Numb!
Everyone is numb!
Even the dark doctors who have been following Levi Garrison are numb.
In the past, Levi Garrison usually used swords to kill people.
Others may seem astonished.
But after they saw it a lot, they got used to it.
But today, Levi Garrison shocked them in another way.
Shocking never seen before!
This is even more shocking than killing thousands of people with one sword!
One kick makes everything disappear.
This method is so shocking!
And it's not ordinary people who disappear.
Those are the gods of the star kingdom who rival the three thousand gods!
This has changed the idea of Doctor Dark a lot.
Before Levi Garrison ignored the strength of Zhanxiong Nation, he said that
Zhanxiong Nation couldn't protect anyone who killed Hydra casually.
After it was revealed that there were at least 100,000 gods in Zhanxiong Kingdom and the plan to create a super god, Doctor Dark was a little suspicious.
Can Levi Garrison deal with so many gods?
But now he has the answer!
No matter how many gods you have in War Bear Country, how powerful super
gods are!
It doesn't matter!
Because – Levi Garrison is invincible!
The other people behind them were also trembling.
I thought there was going to be a war.
As a result, Levi Garrison kicked and everything disappeared.
Everything disappeared before my eyes.
No people, no base.
Only Li Chengmin was still standing.
After a full minute of stunned, Li Chengmin turned around slowly.
She has become like a dead body.
Seeing everything that disappeared behind her, she was literally blown away.
Don't even think about it to know what's going on.

The moment her liquid suit disappeared, she understood everything.
After seeing the results, I understand it even more.
She expected and even knew that this man was strong, but her imagination was
not enough, far from enough.
She couldn't imagine how powerful this one was.
It was stronger than she expected.
Let her let go.
She can't imagine it!
Everything from the past has not changed!
He is still above the world.
Levi Garrison looked at her and said, "I'm still thinking of my old relationship,
right? I said that everyone else will die except you. Did I do it?"
"thump!"
Levi Garrison's words were like the straw that broke the camel's back.
Li Chengmin couldn't hold back any longer and fell directly to the ground.
At this moment, her beliefs and everything collapsed.
"This is the end of the resources that lied to me Levi Garrison! I won't give a
second chance!"
After Levi Garrison finished speaking, he turned and left.
Directly destroy the Celestial Race of the Star Kingdom.
Let a country become godless!
Not even a chance for Xingguo to show off outside!
No one knows the secrets of the star country.
"Next person!"
Levi Garrison began to follow the list.
Destroy the next target.
Walk all the way from the star country.
The targets who defrauded him of resources were eliminated one by one.
Levi Garrison's speed was so fast that everyone had no time to react.
So much so that you don't know what happened.
However, Levi Garrison's footsteps did not stop at all.
Continue to tackle these goals.
Dare to deceive Levi Garrison's resources, then this is the end.
There is life to deceive, but no life is used.
Even if you use it, you still have to put your life in it.
In just one day, Levi Garrison killed more than 1,870 targets.
Some of these targets refer to people, while others refer to forces.
It can be seen that Levi Garrison and their speed are so resolute.
The Return of the God of War [The

Protector] Chapter 3296
/ The Return of the God of War [The Protector]
Take advantage of the night.
Operation Thunder continues.
Levi Garrison and the others did not rest, and continued to destroy the planned
targets.
Who let them have deceitful behavior in the first place.
Then this evil will be swallowed up by itself.
Levi Garrison didn't give him a chance anyway, he just killed.
Whoever cheats will die.
...
The fight continues!

Not even the Celestial God Clan could stop Levi Garrison's power.
Not to mention others.
How could he stop such a fierce Levi Garrison?
It's that Levi Garrison didn't make a move.
With the help of others, these targets were easily destroyed.
The scary thing is that Levi Garrison came to "condolences" one by one.
How does this play?
The killings that night were even more terrifying.
There are mountains of bones and rivers of blood everywhere.
So many people were killed and injured, but no one knew who did it.
The main reason is that Levi Garrison and the others are too fast.
Makes no response at all.
All parties involved are dead.
So no one knows what happened.
Time passed by minute by minute.
Levi Garrison's group gathered nearly 2,000 targets.
But it's almost over!
Do not see do not know.
A look startled.
There are so many people who have cheated Levi Garrison's resources.
Anyway, Levi Garrison treats them as money for their lives.
The money has already been given.
Now come to die.
It was almost dawn.
Doctor Dark took the famous list and said: "The target is almost destroyed! Now
the remaining few are related to the War Bear Country!"

“The War Bear Nation established the Siberia Alliance, and these forces all joined
the Siberia Alliance! These are also the ones that defraud us of the most resources except the Star Nation!”
“Do you think we should clean up together, or should we clean up them first, and
then let’s talk about War Bear Country?”
At this time, the Brain of God said: “It is said that the War Bear Kingdom is
carrying out the highest-level super-god plan! It is about to succeed, and now is a
critical stage. I think it is better to go at this time!”
“We can take the opportunity to sabotage their plans! Let their super gods be
unable to come out in the end!”
“In this way, there is a great chance for us to avenge Hydra!”
Others think it makes sense.
War Bear Kingdom is already strong enough.
Can’t be stronger.
No matter how strong you are, you really can’t move the Hydra.
When Levi Garrison heard this, he smiled and said, “Really? In this case, give War
Bear Kingdom a few more days! Let them complete the super god plan! The
stronger they are, the more interesting it will be to play! Otherwise, it will be too
boring! “
From Levi Garrison’s point of view – I wish the War Bear Country was stronger.
The stronger the better.
Even bring him death threats.
Otherwise it’s too boring.
No matter how many gods you have, for Levi Garrison, it’s all the same number.
As long as he is willing, it is like so many gods in the star country.
Levi Garrison can also make them disappear.
What’s the point of that?
therefore.
Levi Garrison is willing to give Zhanxiong Nation a chance to make them stronger.
In short, the stronger the better.
Even team up with War Eagle Nation.

It really doesn't work, just add the forces behind the control of Yan Zangsheng.
Anyway.
He wants revenge all at once.
To kill fun, kill cool!
But others looked at Levi Garrison with strange eyes.
Not strong enough?
Looking at this situation, I can't wait to run over to help Zhanxiong Nation become stronger.
They were afraid that the War Bear Kingdom would produce hundreds of thousands of gods and super gods that were so terrifying.
What to do then?
But looking at Levi Garrison's posture now, doesn't he just hope that the enemy
is so strong?
"Go, go see these lackeys in the War Bear Country!"
Levi Garrison was very interested.
Anything related to Hydra.
He wanted to.
Especially these guys also cheated their own resources.
That is more unforgivable.
Everyone had no choice but to follow Levi Garrison to watch the heat.
The Return of the God of War [The
Protector] Chapter 3297
/ The Return of the God of War [The Protector]
Soon Levi Garrison and his party packed up a few lackeys from the War Bear
Kingdom and killed them to pieces.
The last person to be targeted was a superpower in the Siberia Union, called the
Night Watch.
It means the hero who guards the darkness!
They used to be the most powerful organization in the ancient times of the War
Bear Country, and they have always guarded the War Bear Country.
But for some reason, the night watchman withdrew from the stage and evacuated from the War Bear Country.
However, the night watchman has gathered a large number of masters, and is
still the king in this area of Siberia.
It is an independent entity active in the War Bear Country region.

Because the War Bear Kingdom actually has many such power organizations, but
they are all independent entities.
It can be said that they have nothing to do with each other.

However, after the aura recovered this time, they all joined the Siberia Alliance
and were controlled by the War Bear Country.
And some of them were selected by the War Bear Kingdom to join the Star of
Siberia and carry out the super god plan.
There are only a few hundred night watchmen in total, but all of them are gods.
After all, following the War Bear Kingdom can eat and drink spicy food.
They also deceived Levi Garrison a lot of resources before.
When Levi Garrison appeared at the base of this faction, they were shocked.
"Is Levi Garrison you?"
The Night's Watch organization was surprised.
They all got the news of what happened this day and night.
A lot of people are said to have died.
But I don't know what happened, and I don't know who shot it.
They are still wondering if it will spread to their surroundings.
As a result, Levi Garrison came.
This made them suspicious of Levi Garrison…
"I came to you, I want to settle accounts!"
"When I placed a bounty before, you lied to my resources! I'll settle the account!"
Levi Garrison put it lightly.
Doctor Dark added: "Of course you have something to do with Hydra, and you
will also be punished!"
"Instead, I will give you a way to survive – as long as you release an announcement to break away from Hydra and War Bear Country, consider letting
you go!"
The Brain of God also smiled: "Actually, this is good for you. I will tell you quietly
that Hydra and the War Bear Kingdom will be finished soon. If you don't leave,
you will all die."
"Ha ha ha ha……"

As a result, everyone in the Night's Watch organization laughed.
Everyone felt ridiculous when they heard this.
This seems to be the biggest joke they've ever heard…
As mentioned earlier, it is normal to know that they have defrauded the resources.
As a result, it was said that the Hydra would be destroyed, and the War Bear
Kingdom would also end.
Isn't this bullshit?
Who in the world does not know that the War Bear Kingdom has become so
powerful that it is unimaginable.
Not to mention at least 100,000 gods, there are still super gods born one after
another.
Does this tell me how to die?
Isn't this a big joke?
Everyone looked at Levi Garrison and his party and thought they were lunatics
and fools.
Run here to be wild?
And let them leave?
Such a good opportunity to get them out?
Levi Garrison glanced at Doctor Dark and said, "You are good to others, but they
don't take it seriously. Is it possible to let them escape from Hydra and the Siberia Alliance?"
Everyone in the night watch laughed: "Yes, impossible! Hahaha…"
The expressions of the Dark Doctor and the Brain of God changed.
They are sighing even more.
Why are some people not listening?
Listen carefully, okay?
Too bad everyone is stubborn!
What do you ask him to do, he just does the opposite and won't listen to you at
all.
"Levi Garrison, didn't you detoxify your daughter? How can you still come here?
Did you have nowhere to go to ask the Hydra?"
"Hahaha, that's right, we just lied to your resources, but what can you do with
us?"

Levi Garrison smiled and said, "So don't talk nonsense with them, just kill them!"
The Return of the God of War [The
Protector] Chapter 3298
/ The Return of the God of War [The Protector]
The night watchmen were all laughing, but they didn't react.
Levi Garrison has moved.
"Boom…"
A force that ripped apart the mountains and rivers swept in.
Like the temperature on the surface of the sun, it instantly dissolves the night
watchman in front of him.
The ultimate power of Levi Garrison's slap directly destroyed the hundreds of
people in front of him.
Make them disappear on the spot.
It felt as if this group of people were thrown onto the surface of the sun and
melted in an instant.
In this regard, the Dark Doctor and the others have come to see it.

The most terrifying star kingdom was destroyed, everyone watched it.
what is this?
"This is the end of the running dog!"
Levi Garrison said lightly.
The mighty Night's Watch was destroyed.
That's it.
Those who deceived Levi Garrison's resources, except for the organization of
revenge Hydra.
The remaining 4,352 targets were all destroyed!
Those who deceived Levi Garrison's resources at the beginning are now paying
the price with their lives.
the next day.
The whole world exploded.
Although the target is more than four thousand.
But some targets are a faction like the Night's Watch, with hundreds of people.
Therefore, there are more than 4,000 targets, involving a total of hundreds of
thousands of people.

How can you not be shocked that so many people have died all over the world in
one day and one night?
And these forces, these people have no contact at all.
But suddenly one by one was destroyed.
And I don't know who moved it?
This caused a sensation all over the world.
What the hell is going on here?
What's wrong with these people?
And what are the people who do it for?
…
One question after another, everyone was overwhelmed.
The key is that they didn't know that these people deceived Levi Garrison's
resources.
After all, this kind of cheating must be done quietly, how can other people know.
Therefore, it is impossible for everyone to find this feature.
The whole world went into panic.
After all, they do this day and night across the world.
At a glance, you know that it is super strong, and it is the work of super power.
How can you not be afraid?
What if you find yourself in trouble?
The most important thing is that even the people of the Siberia Union have been
removed a lot.
In particular, the organization of the Night Watch was uprooted.
Everyone knows that the Night's Watch is the most powerful organization in the
former War Bear Country, which is the predecessor of the Siberia Star.
Now it has joined the Siberian Union.
was also removed.
This disguise is provoking the bear country.
When War Bear Kingdom knew about this, he was also furious.
They are so strong that there are still people who dare to kill them.
Isn't this boring?
The War Bear nation has issued a warning around the world – let the murderer
turn himself in.
At the same time, let the other forces of the Siberia Alliance thoroughly investigate who did it.

After all, it was a shame for them.
But at this time.
Zhanxiongguo received a warning from Levi Garrison – let Zhanxiongguo hand
over the Hydra, otherwise the consequences will be at your own risk.
It is different from Levi Garrison's warning before.
At that time, Levilia's poison was still unsolved, and the warning was more to let
the Hydra of the War Bear Kingdom know that Levi Garrison would come to them
for revenge.
But you have to wait until Levilia detoxifies.
That warning takes time to wait.
But now the warning is different.
Levilia's poison is released, and Levi Garrison can take revenge in person immediately.
This is the real warning.
Levi Garrison's warning also limited the time.
Only give War Bear Country a week to hand over Hydra.
This is different from previous warnings.
There is still time this time.
Levi Garrison has calculated, one week is enough for War Bear Kingdom to create
a super god.
"What? Levi Garrison is crazy? Give me a deadline?"
"Hand over the Hydra in a week? Or we're in for a disaster?"
After the War Bear Kingdom received the warning, he was about to explode with
anger.
When was someone warned like this?
And just now the younger brother was uprooted and eradicated.
Now Levi Garrison warned again.
The Return of the God of War [The
Protector] Chapter 3299
/ The Return of the God of War [The Protector]
not only.
Soon Levi Garrison added another warning——
If the War Bear Kingdom does not hand over the Hydra within a week, then they
should be buried with them.
This war bear country is full of rage!
Is Levi Garrison crazy?

***Naked provocation?*
However, after the high-level leaders of the Titan God of War heard it, they just
smiled indifferently.
Because now they are too strong.
The power they control is invincible.

Naturally, Levi Garrison was not an opponent at all in their eyes.
They are not qualified to kill them once.
Hearing Levi Garrison's provocation, they were too lazy to step out of Zhanxiong
Country.
After all, ants from thousands of miles away provoke you, will you kill them
specifically?
Will not!
They are super gods, gods of gods.
Would you care about a mortal Levi Garrison?
"This is a matter of Hydra. After the super god plan is over, let them solve it by
themselves! We don't even bother to care about this nonsense!"
"Take it as a reward for them!"
After all, they didn't take Levi Garrison's warning as a thing, and directly pushed
the matter to Hydra.
However, Hydra is still working on a super-god plan.
In this way, they directly ignored Levi Garrison's warning.
…
"Huh? What's the situation? Levi Garrison went to warn Zhanxiong Kingdom and
Hydra again?"
"I can't get rid of my daughter's poison, so I'm going crazy?"
When the organization of revenge Hydra heard the news, it almost went crazy
with laughter.
From their point of view, warning the War Bear Country now is tantamount to a
brain-damaged behavior.
I didn't know the strength of Zhanxiong Nation before, so it's okay to warn you
casually.

But now that the War Bear Kingdom has become so strong, you still ran to warn?
Is your brain pumping?
"By the way, I think this is a good opportunity for us!"
Organization No. 5 suddenly said.
Everyone looked at him: "How do you say?"
"Now Levi Garrison warns Hydra and War Bear Kingdom that he is actually lonely,
because no one is standing with him on a united front! This is the best time for us
to take advantage of it!"
"As long as we express that we are on the same front as him and hate Hydra at
the same time, at this critical moment, he will definitely treat us as his own!"
"At that time, isn't everything we want in one sentence?"
Number five said so.
Everyone just felt empowered.
Yes!
That's it!
Who dares to fight with Levi Garrison now?
Anyone who speaks out and is on the same front as Levi Garrison will definitely
be regarded as a brother by Levi Garrison.
If you want his resources, he has to double it.
Another good opportunity to deceive Levi Garrison!
"But there is a premise! We are on the same front as Levi Garrison. If we speak
out against Hydra, we must talk to Hydra and War Bear Country in advance – we
lied to Levi Garrison. Don't let people mistakenly think that we are with Levi
Garrison. King's Landing cooperates and destroys us!"
Cautious Number One added.
"Yes, it's just to deceive Levi Garrison together! How dare we target Zhanxiong
Kingdom and Hydra!"
The others laughed.
"Then contact the contact person of Zhanxiong Nation and Hydra immediately
and tell them the plan!"
Just do it.

They immediately contacted the people from War Bear Country and Hydra.
After saying the plan, the other party naturally agreed.
Levi Garrison's provocative warning has long violated their inverse scales.
However, in their opinion, killing Levi Garrison directly means nothing.
Why don't you just have fun?
Just like this, it would be fun to deceive Levi Garrison to the point of collapse.
One-time kill, where does so much fun come from?
They are very happy with this plan.
Strongly support them to deceive Levi Garrison like this.
After obtaining consent, the organization of revenge Hydra made a public voice
all over the world——
Fully support Levi Garrison's warning!
The Return of the God of War [The
Protector] Chapter 3300
/ The Return of the God of War [The Protector]
And they also issued a warning, asking Zhanxiong Nation to quickly hand over the
Hydra!
Or the Hydra obediently come out and surrender!
Nearly 200,000 people in their organization want revenge!
It will definitely make Hydra pay the price!
We must destroy the Hydra!
…
After the group spoke out, the world boiled again.
Levi Garrison's previous warning, everyone thought it was stupid and crazy.
But now there is someone who supports Levi Garrison and stands with Levi
Garrison.

Not to mention the organization of revenge Hydra.
From their voices, it can be seen that they are determined to kill the Hydra.
Everyone concluded that this is a group of guys who are not afraid of death.
Levi Garrison is not alone!
There are so many people behind him…
The effect of this effect all over the world reverberated far beyond the

expectations of the Revenge Hydra Organization.
This means that the whole world knows that they are on the same front as Levi
Garrison.
Everyone else believed it.
How could Levi Garrison not believe it?
Isn't this effect achieved?
Next, they only need to find Levi Garrison, and then have a long talk with Levi
Garrison.
Describe how to hate Hydra, how to take revenge, how to support him…
In this way, Levi Garrison was easily taken down.
What's more, Levi Garrison is so easy to deceive!
They had succeeded over and over again before, which was enough to see this.
The best way to deceive Levi Garrison is to be on the same front as him, hate
Hydra, seek revenge for Hydra, and speak ill of Hydra.
Levi Garrison believes in you unconditionally and gives you what you want.
This time, they are publicly speaking to the world against War Bear Country and
Hydra.
This is more perfect.
Everyone believes that they are bent on seeking revenge for Hydra, right?
Why does Levi Garrison not believe it?
It may have been just lip service before, but now it's time to take action.
It was still at the most difficult moment for Levi Garrison!
Not long after the revenge Hydra organization made a statement, War Bear
Kingdom and Hydra also responded-they must kill everyone, and they will do it
after their super god plan is completed.
This response further tied the organization of the revenge Hydra with Levi Garrison.
Everyone has to believe it.
But it's a perfect plan to avenge Hydra and the others.
They are all colluding.
Just to deceive Levi Garrison again!
Think their plans are flawless.
No flaws in every way.
It does.

Now the whole world believes that the organization of revenge Hydra is standing
with Levi Garrison.
Never doubt that this is a plan.
But when Levi Garrison knew about it, he immediately recognized it.
This is the plan of the Revenge Hydra.
They dared to speak out like this and publicly target Hydra and War Bear Kingdom. In fact, they had already discussed it with others.
As for why?
Of course you are going to lie to yourself!
When I heard this plan, I recognized it at a glance.
Levi Garrison was also directly happy: "I didn't think that we didn't go to them for
revenge! This group of people actually came to such a plan?"
Not wrong.
After removing all the targets who cheated him of resources.
Levi Garrison's next target of revenge is the organization of revenge Hydra.
Just thinking about getting revenge.
Never thought they would come up with this plan.
Levi Garrison smiled directly.
"What should Mr. Ye do?"
Doctor Dark and they began to ask.
"It's still a few days before the War Bear Kingdom's super god plan is completely
completed. In order to avoid boredom, let's play with them?"
"It just so happens that people have spent a lot of time making such a big show?
We must not accompany them to act well?"
When Levi Garrison said this, everyone laughed.
They thought they didn't know anything.
can deceive them.
As everyone knows, Levi Garrison knew their plan from the beginning.
The Return of the God of War [The
Protector] Chapter 3301
/ The Return of the God of War [The Protector]
The organization of revenge Hydra did not come.
But Zoey Lopez came first.
After knowing Levi Garrison's warning against Xiong Guo, they were all dumbfounded.
Do you think Levi Garrison is crazy?
Or the book daughter can't get rid of the poison?

Levi Garrison is concerned about Levilia's affairs, and of course Zoey Lopez is no
exception.
There was no way before.
Now that the Tenjin Division is powerful, he has also come into contact with the
Town Demon Division and the like.
Zoey Lopez has already contacted the Zhenmo Division and asked them to detoxify Levilia.
Join Telegram Group For Fast update
I even found out the whereabouts of the second half of the Poison Sutra.
But you have to pay a huge price to get it.
Currently still negotiating.
There is still hope.
As long as you get the second half of the Poison Sutra, Levilia's poison will
definitely be unraveled.
As a result, Levi Garrison suddenly made this incident!
She is still wondering if something happened to Levilia?
That made Levi Garrison so crazy.
After all, Levilia has always been by Levi Garrison's side.
Most of the time she didn't know.
"Levi Garrison, what are you doing? Are you crazy? Going to warn the current War
Bear Country? What qualifications do you have to warn others?"
"And Levilia? Did something happen to her?"
Zoey Lopez shouted anxiously.
"mother……"
At this moment, Levilia ran out and hugged Zoey Lopez at once.
Zoey Lopez and the others were stunned.
Looking at Levilia in disbelief.
"Levilia, are you… How are you? Are you poisoned? How is this possible?"
Zoey Lopez was surprised.
Looking at Levilia, her face is rosy and full of energy.
Where is the poisonous look?
But said detoxification, how is it possible?
Even though half of the poison had been absorbed by the strongest poison Gu,
how could the remaining half of the poison be solved so easily.
At the very least, a magic medicine comparable to the 100,000-year-old snow

lotus can be unlocked.
How did Levilia do this?
It's incredible.
Levilia said excitedly: "Yes, Levilia's poison has been detoxified, and there is no
problem at all!"
"Of course there are some toxins that have already been used by me! I have used
them in my exercises!"
Levilia did not forget to show it.
Applying toxins to her exercises immediately made everything around her wither.
When Levilia showed his strength, it was even more shocking.
Is this the strongest poison ever?
Why is she so powerful? ? ?
Too much beyond the gods.
With such a hand, everyone knows that no one in the Heavenly God Division can
be Levilia's opponent.
Including the five Azure Dragon (Qinglong) people with super spiritual roots and
bones, they can't either.
Or five people can join forces to fight Levilia!
However, it is not unreasonable for Levilia to improve so fast.
After she got rid of half of the poison, she tried to practice the exercises she
created.
Originally, she created her own exercises to use all the elements of the universe.
The resources that Levi Garrison obtained were just right.
Other gods absorb spiritual energy and absorb the essence of heaven and earth
treasures, and the specific degree depends on the spiritual roots and bones.
Good spiritual roots and bones are absorbed more efficiently.
But you don't need this at all.
Even if she is fundamentally poor and unable to absorb spiritual energy, it will be
fine.
She created her own exercises that could be absorbed like crazy, and it was the
most efficient one.

In addition, Levi Garrison has sufficient resources, and the mountains of resources are provided for Levilia to practice.
So she has improved very quickly.
In addition, the magic medicine that Levi Garrison brought at the end was not
only detoxified, but all the rest were absorbed by her and used in the exercises.
This is because Levi Garrison kept a part of the magic medicine, otherwise she
might have absorbed it all.
Of course, it was Levi Garrison who was worried that Levilia support would
explode, so he left a section.
However, in this case, it is easy for Levilia to be so powerful.
Everything is taken for granted.
Moreover, Levilia's self-created technique is really similar to the Qi-refining
technique of Zhen Mosi.
The technique of refining Qi also absorbs spiritual energy in this way.
The Return of the God of War [The
Protector] Chapter 3302
/ The Return of the God of War [The Protector]
It is also possible to absorb spiritual energy without fear of spiritual roots and
bones.
Of course, if there is a spiritual root and a spiritual bone, it is easier to absorb it
with the technique of refining Qi.
The spirit root and spirit bone determine the upper limit.
The technique of refining Qi determines the lower limit.
However, Levilia does not have spiritual roots and bones.
Her talent is amazing.
Linggen Linggu is naturally also excellent.
The Tenshen Division now has more dealings with the Zhenmo Division and the
like, and it can also be seen that some spiritual roots are good or bad.
There is still a general judgment.
Join Telegram Group For Fast update
"Levilia's strength can not only suppress Azure Dragon (Qinglong) and the others,
but in terms of root bones, it is estimated that they are similar to Azure Dragon

(Qinglong) and the others. They are all excellent spiritual roots and bones!"
"If you let them know, you will immediately let Levilia join the Tenshin Division."
Everyone analyzed.
This is a complete surprise for Zoey Lopez.
Not to mention her daughter's detoxification, her daughter is still so strong.
But Zoey Lopez and the others wanted to know how the poison was solved.
"It's Dad!"
Levilia saw their doubts and couldn't help pointing to Levi Garrison.
Everyone looked at Levi Garrison in shock.
I really didn't think that Levi Garrison would have this ability.
It actually solved Levilia's poison.
This is simply incredible.
"Don't spread the news of Levilia's detoxification! Otherwise, it will cause too
much trouble!"
Levi Garrison instructed.
Everyone nodded.
Levilia has just detoxified, but they dare not.
If anything happens to Levilia, it will be troublesome.
Zoey Lopez suddenly thought of something, and couldn't help asking: "No, Levilia
has solved it, shouldn't you really want to trouble the Hydra?"
Levi Garrison nodded: "Of course! This matter can't be ignored!"
"Give my daughter the strongest poison, do you think I'll let them go?"
Zoey Lopez flashed a touch of anger: "Yes, of course you can't let it go! But now
the War Bear Kingdom is too strong!"
"We have no way to take revenge at all, not to mention Hydra has been staying in
War Bear Country, even if they come out, we have nothing to do!"
"There is an enemy so powerful that you can't take revenge at all! Even if the
organization of revenge Hydra is on your side! It's useless! We can only endure it
and wait until we have the ability to take revenge!"
"Don't be impulsive now, or you will die in vain!"
...
Others followed Zoey Lopez to persuade Levi Garrison not to be impulsive.

Even if they know that Levi Garrison is very powerful, the enemy is even stronger.
Desperately powerful.
To seek revenge is to die.
Levi Garrison said lightly: "It's nothing, you don't need to worry about it! You will
know the result in a few days!"
"I, Levi Garrison, are very calm and won't do things that I don't know about! I
won't do stupid things!"
Levi Garrison's meaning is very simple.
He didn't even care about the enemy at all.
He is invincible, War Bear Country and Hydra are free.
But when Zoey Lopez and the others heard this, they thought that Levi Garrison
was willing to listen to them and would not do stupid things.
Next, Zoey Lopez and the others reunited with Jun, and Levi Garrison also arranged a place for them.
After all, Levilia's detoxification information cannot be exposed for the time
being.
This is all in Levi Garrison's plan!
At this moment, the message came – it turned out that the organization of revenge Hydra came to Levi Garrison.
This time, not only the five people who had invited Levi Garrison before came
here.
There are also two decision makers, Numbers 5 and 7.
After introducing each other.
No. 5 said excitedly, "Mr. Ye is better known than meeting you! I finally see you!"
No. 7 also smiled and said, "Mr. Ye, you are a real man! The first one to target
Hydra so head-on! You set a precedent for us and set an example for us! Now all
the brothers admire you!"
No. 5 even sighed and apologized: "Hey, we were narrow-minded before! I
thought you wouldn't dare to seek revenge against Hydra! It turns out that you
are the one who really dares to take revenge!"
The Return of the God of War [The

Protector] Chapter 3303
/ The Return of the God of War [The Protector]
No. 5 even glared at No. 23 and several others: "You all come over and apologize
to Mr. Ye!!!"
Five people on the 23rd came to Levi Garrison.
They all bowed and apologized: "Mr. Ye is our fault! Everything is our fault! You
shouldn't say you dare not take revenge, you shouldn't say you're a coward…"
It has to be said that these people's acting skills have improved.
Acting in sets.
He even came to apologize to Levi Garrison!
Levi Garrison wanted to laugh when he saw it.
"Although you say that you are very strong, Mr. Ye! The War Bear Kingdom and
Hydra are so powerful that you dare to warn us like this! But we are not bad, we
are close behind! Showing our determination to take revenge!"
No. 5's remarks brought everything to themselves.

Of course Levi Garrison understood what they meant, so he started acting.
He patted No. 5 and No. 7 on the shoulders with a smile and said, "I have heard
about you too! Follow me and warn Hydra!"
"I thought I was the only one on this front! It's still very lonely to fight against
the revenge Hydra alone! I didn't expect you to come out! There are so many
people! They are all my good brothers!"
…
Levi Garrison knew their psychology.
Knowing what to say they love to hear, and are more able to follow their hearts
and plans.
It also shows that he has been deceived and deceived.
Completely unable to react.
So, after Levi Garrison said these words, No. 5, No. 7 and the other five people
were so happy that they wanted to go to heaven.
This is exactly what they planned to analyze earlier.
Levi Garrison is too easy to be fooled.

They were deceived.
Even the words he just said were guessed by No. 5 before, almost word for word.
The seven people looked at Levi Garrison and sneered in their hearts: "Levi Garrison, Levi Garrison! We are lying to you, but why can't you see it!"
"Stupid! It's so stupid!"
"Don't think so? Nearly 200,000 people, you are the only one who wants to take revenge! The others have surrendered to Hydra! It's ridiculous!"
...
After they finished sneering in their hearts, they continued with their plan.
No. 5 sighed: "Although we say we are united front and seek revenge for Hydra together! But the War Bear Kingdom is too powerful! They protect Hydra and we have no chance!"
No. 7 also echoed the situation: "Hey, only by strengthening our own strength can we possibly avenge the Hydra!"
After the two looked at each other, they even sighed: "But it's easier said than done? Even if we unite, it's still a long way off. To be strong requires human and material resources! Especially gods and resources are the most important!"
Levi Garrison also said: "Yeah, it's not enough to be alone! Although I am eager for revenge, I can still see what the situation is!"
"I didn't agree to join your organization before, because I was afraid that you were not a revenge Hydra at all! The organization was formed for your own selfish desires! Now I am finally sure that you are all on the same front as me!"
Levi Garrison is better at acting than them.
Words speak to their hearts.
On the 5th, they looked at each other and smiled: "If we knew this was the reason, we would have solved the estrangement!"
"That's right! To get revenge on the Hydra, we must be strong! Unite!"

“But it’s not that easy to be strong, people and resources are far behind us!”
…
They began to imply it deliberately.
Levi Garrison pretended to be fooled and understood their hints, so he promised:
“Don’t worry, the resources are handed over to me! I am willing to use all the
resources to support your strength!”
Everyone was shocked: “Really???”
It’s not acting.
It’s genuine feeling.
Because they deceived Levi Garrison.
Isn’t it just for Levi Garrison’s resources after doing so much foreshadowing?
Now he has tricked Levi Garrison into willingly taking out resources.
The Return of the God of War [The
Protector] Chapter 3304
/ The Return of the God of War [The Protector]
Levi Garrison looked at their excited appearance, and sneered in his heart: “It’s
still more realistic for your insatiable greed, it can’t be acted!”
Levi Garrison can only continue to act: “Of course it is true! In order to eradicate
Hydra, I am willing to give everything! We must be united!”
“That’s great! Our confidence in dealing with Hydra has grown!”
“Great, I’m going to tell the other brothers the message right away!”
…
The crowd was excited.
This is real good stuff.
Moreover, Hydra and War Bear Country promised that any resources they deceived from Levi Garrison would be used by themselves.
How can this be unhappy?

Levi Garrison sighed: “Hey, if it wasn’t for the troublesome way of obtaining
resources, I would have told you all!”
“Um?”
Everyone listens.
more excited.
What’s wrong with them?
Levi Garrison almost revealed it all?

Even the secret of obtaining the resource has to be revealed?
If you cheat a few more times, you will definitely reveal all the secrets.
Too stupid?
For the first time, they felt that Levi Garrison was so naive…
Isn't Levi Garrison an extremely shrewd person in the legend?
Was hailed as resourceful by all parties!
Just like the old monster!
Even if he has no strength, everyone will hire him as a military advisor.
Why are you so stupid now?
But they can figure out why.
First: Levi Garrison was dazzled by Hydra, and it was easy to paralyze him by
taking advantage of this.
Second: They did it flawlessly and publicly supported Levi Garrison, how could he
not believe it?
"It's okay… let's take it slow together!"
"Not to mention that you have so many resources, enough for us to use for a
while!"
Several people said quickly.
No. 5 and No. 7 began to imagine the future again, which is to draw a big cake for
Levi Garrison.
"Mr. Ye, you have to understand that no matter how hard we work, no matter
how much resources you have, we still can't compete with Zhanxiong Nation!
Revenge Hydra is difficult to reach the sky!"
Levi Garrison deliberately followed their wishes and couldn't help asking, "How
do you say it?"
"You also know that the War Bear Kingdom is protected by more than 100,000
gods and a bunch of super gods. We can't succeed! Be clear about this! Revenge
is revenge, and we can't be so blind!"
"So we have to think of other ways to enhance our strength!"
…
Hearing the two say this, Levi Garrison deliberately showed a thoughtful look:
"So, you already have an idea?"

No. 5 and No. 7 nodded: "Yes, there is already!"
"Now that the Zhanxiong Nation is so powerful, it is actually a disaster for the
whole world. They are breaking the balance of the world! They are a threat to
everyone! Those who are the second and third in the power list, can you not be
on guard against the Zhanxiong Nation? "
"Can other people not be afraid of Zhanxiong Nation? If Zhanxiong Nation wants
to expand, won't other forces and countries be easily destroyed?"
Levi Garrison understood what they meant: "What do you mean, let us unite with
other powerful countries, or the whole world! To deal with the War Bear Country?"
No. 5 and No. 7 immediately clapped their hands: "Yes! Although other people
may have no hatred for Hydra, under this situation, no one wants to see the
Zhanxiong Nation's dominance. As long as we join forces, I believe that many
people are willing to join us!"
"In this way, our chances of winning are much better!"
...
The words they said were exactly the same as the one who wanted to avenge the
Eighth group at that time.
Just painting pie.
Hearing this, Levi Garrison pretended to believe it.
He said excitedly: "Okay, since I'm still paying, I'll take out all the resources to
support! This includes the secret of how I get resources! Don't worry, the resources are endless!"
It made them die happy.
The Return of the God of War [The
Protector] Chapter 3305
/ The Return of the God of War [The Protector]
be cheated!
Levi Garrison was completely fooled!
This is definitely the worst time that Levi Garrison has been deceived!
He even deceived all of his family.
After all, even the secret of how he got the resources had to be revealed.

It's just that the trump cards have been deceived.
In layman's terms, Levi Garrison's pants are all gone.
They were thrilled that their perfect plan had come to pass.
I can't wait to move all the resources back now and take credit for fighting the
Bear Country with Hydra.

"Next, you unite all parties and strengthen your own strength at the same time!
As for me, I will provide you with resources! Not only the resources of the revenge organization, but also the resources of all the forces! I'm in charge! How
many are needed!"
Levi Garrison persuaded excitedly.
I have to say that Levi Garrison's acting skills should be above these people, and
all the interpretations are intoxicating.
Number five, these people are convinced.
They understood that Levi Garrison's revenge mood was completely mobilized by
them.
In order to avenge Hydra, I am willing to give everything.
No. 5 also responded excitedly: "Okay, give us all the forces of the alliance! You
arrange the resources! We will join forces and we will definitely be able to take
revenge!"
No. 7 also pretended to say: "But Mr. Ye, your daughter, we have always been
very concerned about your daughter's problems! I don't know how her poison is?"
The other five people also came together: "How is she now? How about the other
half of the poison? Last time, it was said that Daxia's magic medicine auction, a
bunch of people were going to make trouble, among them Hydra!"
Levi Garrison sneered in his heart: "Not only the Hydra, but you also stopped it!"
Levi Garrison knew it perfectly.
It's just that these people were kept in the dark.
Levi Garrison sighed: "Hey, it's okay! The remaining half of the poison should be

removed sooner or later!"
"It's just that the revenge Hydra has to be as soon as possible, otherwise they will
become stronger and stronger! The super gods will come out soon."
Levi Garrison used his acting skills to easily prevaricate this matter.
"It's good to be able to untie it! Levilia's affairs have always been concerned by
all our brothers! All of us are family!"
Several people exclaimed.
Levi Garrison everyone is really ridiculous.
The family is here!
I keep talking about my family, but it's the family who are deceived, right?
No. 5 fought with his eyes and said with a smile: "Mr. Ye's resources, we should
do it as soon as possible! We can't walk behind Zhanxiong Nation and Hydra!"
Their purpose is all about resources.
Now they are a little panicked just hearing Levi Garrison say that they still don't
see the resources.
No. 7 even said: "How about I immediately contact the brothers and let them
transport?"
"Yes, Mr. Ye, how many resources do you have on hand now? How many people
and transports can we send to take them away!"
The other five also said impatiently.
When the resources are in hand, it is considered a complete deception.
Otherwise, no one will worry.
"Don't worry, the resources in this place have been used up! Next, I will go to
other places to gather resources!"
"There will be more resources in the future! I will collect them all, it will take
about four or five days, and they will be delivered together at that time!"
Levi Garrison thought about it and said.
When Levi Garrison said this, everyone was stunned.
You Qi couldn't help but ask: "Then you should have more resources than the last
time?"
The resources piled up last time opened their eyes.
Never seen so many resources.

“Just that resource is also called a resource? The next resource will be a hundred
times more than those resources!”
Levi Garrison sneered.
Of course, this resource is really nothing.
The reason for giving four or five days.
It’s because, at this time, the War Bear Kingdom should have just completed the
super god plan.
By then everything was connected.
After dealing with the organization of the revenge Hydra, go to War Bear Country to settle accounts.
just!
Perfect!
The Return of the God of War [The
Protector] Chapter 3306
/ The Return of the God of War [The Protector]
When they heard that Levi Garrison needed four or five days to gather resources
or something, everyone was stunned.
How many resources does this take?
Unbelievable!
Hundreds of times more than last time!
They’re going crazy!
However, it can also be seen that Levi Garrison sacrificed his life for this.
Willing to give everything.
Levi Garrison is like this, then they don’t have to be impatient.
Too hasty, but it will reveal something.

“Then, Mr. Ye, let’s go back and tell the brothers the good news. We have also
begun to unite all parties!”
“Mr. Ye, you should prepare resources well. If you need anything, we will definitely help! Especially the hard work of digging and transporting! We are
better at it!”
Several people said excitedly.
Levi Garrison pointed to Jiao Tianyu and the others behind him: “Just have
them!”
This is equivalent to exposing all his cards to this group of people.
This made the No. 5 people even more worried.

Levi Garrison is not small now, and there are many strong people around him.
But this is equivalent to exposing everything to them.
It seems that Levi Garrison took them seriously and regarded them as his own.
nothing left.
told them everything.
Including his real hole cards.
No. 5 and No. 7 are very thieves, they silently wrote down all the people like Jiao
Tianyu.
So I can tell them to Hydra and the Bear Country.
In this way, Levi Garrison will not have any threat.
These hole cards are also useless.
They looked at Levi Garrison and really held back their laughter.
How can there be such an idiot?
They didn't do anything, and Levi Garrison explained everything.
They really treat them as people who live and die together.
Funny!
Levi Garrison, just like you, still wants to seek revenge from Hydra?
You have to let Hydra play to your death!
"Then, Mr. Ye, we will go back! We will help you if you need anything! We are
waiting for your good news! We are waiting for you to send all the resources!"
Number five and number seven went back happily.
Now it seems that Levi Garrison treats them as a family.
That way they feel at ease.
So many resources can definitely be returned to the hands.
These people leave.
Everyone couldn't hold back.
They all started laughing!
"A bunch of idiots! Think they lied to us? I can't hold back! I'm dying of laughter!
Hahaha…"
Everyone started laughing.
In particular, several people from Doctor Dark laughed back and forth.
Seeing the excitement on the faces of the five and seven people, they wanted to
laugh.
The key point is that these people thought that they had really deceived Levi

Garrison.
How does this keep them from laughing?
Originally thought they deceived Levi Garrison and controlled everything.
Never thought the clowns were them.
"I have to say, Mr. Ye, your acting skills are really good. It's too natural, right? You
can't see the slightest trace of acting. Even if I know what's going on, I'll believe
it!"
Doctor Dark couldn't help but praise Levi Garrison's acting skills.
Levi Garrison smiled: "It's not how good I am in acting? It's because they are too
confident! They think they are in control of everything, they think everything is
seamless! They deceived themselves!"
Levi Garrison was right.
Indeed it is.
When these people returned to their base, they immediately told everyone the
"good news" one by one.
"Really? Levi Garrison will send all the resources? And tell us all the secrets of the
resources?"
Everyone was surprised and a little disbelieving.
When Number Five finished speaking, everyone laughed.
This definitely deceived Levi Garrison.
Levi Garrison was really fooled.
"Not only that, we also know Levi Garrison's trump card. There are quite a few
masters around him, but we have written them down! Next, let's tell Zhanxiong
Nation and Hydra all this?"
...
They were fast and told everything to Hydra and War Bear Kingdom.
The Return of the God of War [The
Protector] Chapter 3307
/ The Return of the God of War [The Protector]
This has also been recognized by Hydra and War Bear Kingdom!
Big compliments to them!
This is a great gift for them.
Hydra keeps them alive is the greatest reward for them.
What's more, the resources that were deceived were given to them.

How can this not be exciting?
Live well, not to mention, you can become stronger!
They even explained the process of how to deceive Levi Garrison in detail to the
people of Zhanxiong Nation and Hydra.
This makes the other party very happy too.

To match their acting.
The War Bear Kingdom once again issued a statement to the world – ignoring
Levi Garrison's warning, but also to wipe out the organization of revenge Hydra.
In this way, it is even more solid that this organization is on the same front as
Levi Garrison.
No one would have the slightest suspicion that this organization was lying to Levi
Garrison.
Including Levi Garrison.
They also have to cooperate with each other to enjoy the process of deceiving
Levi Garrison.
Such a result made the organizations of the revenge Hydra excited for a while.
"You don't know, Levi Garrison was tricked by us! I almost couldn't help laughing!"
Twenty-three laughed loudly.
"Yeah, you almost laughed, and I reminded you!"
said another.
No. 23 smiled and said, "It's okay, even if I laughed out loud, Levi Garrison
wouldn't react."
"Hahaha… It's all to this extent? Then he's really stupid now, how can he deceive
him? It's really laughing at me!"
The others were taken aback.
"That's right, it's so easy to deceive now! He completely treats them as his own,
as family! He really has no reservations about us!"
…
Everyone was excited that they deceived Levi Garrison.

Not only did he enjoy the feeling of playing with Levi Garrison in the palm of his
hand, but he was also about to defraud a large number of resources from Levi
Garrison.
How can this be unhappy!
"Let's think about how else can you deceive Levi Garrison? Think about it! It's
better to deceive him to the point of collapse!"
…
Now deceiving Levi Garrison like this, everyone is not satisfied.
I have to think of the law to deceive Levi Garrison again.
"I'm really looking forward to Levi Garrison knowing that he was deceived and
knowing that everything was the face when we lied to him?"
"I'm really looking forward to it! Shouldn't he be pissed off?"
"If you want me, at least I'll be pissed to death!"
"The day when the truth is revealed must be super fun!"
…
Everyone looked forward to the moment when Levi Garrison knew the truth.
But how do they understand – it's them who don't know the truth!
They are being played!
It's them who have been deceived!
The clowns are them!
Everything about them has long been exposed, and all their plans, Levi Garrison,
are known.
They all waited nervously for the next few days.
So is Levi Garrison.
The final reckoning is about to begin.
He is looking forward to the completion of the super god plan of the War Bear
Kingdom soon.
The next few days are going to be hard to wait.
Mainly nothing to do.
After Levilia's poison was lifted, Levi Garrison had nothing to do.
But on this day.
The people of Zhenmo Division actually found Levi Garrison.
Four people came, three men and one woman.
It was the four Levi Garrison met on the Antarctic glacier that day.
Of course, Levi Garrison did not say that he had seen them before.

He just wanted to know what these people mean when they came to him.
It's no secret now that the Town Demon Division.
They have been in and out of Daxia normally.
There are many people or forces madly chasing them.
To be their lackey.
And after the existence of many Zhenmo Divisions, they began to choose some
people with spiritual roots and bones.
That is, gods, or gods with potential.
It's good to take it back and teach the magician's qi refining technique.
They are very popular now.
The main reason is that they are powerful, and the gods are wantonly crushed by
them, not to mention other people.
The Return of the God of War [The
Protector] Chapter 3308
/ The Return of the God of War [The Protector]
But they suddenly found Levi Garrison.
This puzzled him himself.
What are they going to do?
After these people arrived, they reported directly to the door.
His aura was not concealed at all.
Press directly to come.
Jiao Tianyu and the others were short of breath in an instant, and even suffocated.
Doctor Dark and the others felt the same pressure.
These people around Levi Garrison are much stronger than ordinary gods.
Join Telegram Group For Fast update
But they were all suppressed by the momentum of others.
If it were other gods, it would be as docile as a little sheep.
They are not qualified to fight against other people's momentum at all.
Rough estimate.
The strength of these four people is similar to that of Huoyun Evil God.
The Huoyun Evil God obtained the quenching chain of aura because of practicing
Levi Garrison's basic exercises.
How strong he is.
Everyone has known it.
As a result, a few random people came out of the Demon Suppression Division,
just like the Huoyun Evil God.

And there are a lot of tricks hidden away.
Levi Garrison could feel that these people were still carrying some weapons.
The nature of these weapons is somewhat similar to "God's Tribulation".
Once you use these weapons, what are your trump cards.
They will be stronger.
"Hello, the king of the word side by side, you must also know that the Zhen Mosi
really exists!"
"We've heard that you imitated the Zhen Mo Si to scare away the laboratory of
the gods, so we won't introduce too much about the Zhen Mo Si!"
"We are from the North Pavilion of the Town Demon Division! My name is Xu
Qingya! These are my senior brothers Xu Longri, Xu Hushan and Xu Langhai…"
These three senior brothers are all orphans and follow Xu Qingya's father's
surname.
Levi Garrison looked at them and smiled: "You guys are polite!"
If it is impolite, it is estimated that Levi Garrison will be killed.
Xu Qingya smiled: "We have no grievances with the king of the word side by side,
it is absolutely polite."
Doctor Dark couldn't help asking: "Then you came here for resources?"
Xu Qingya shook her head: "It's definitely not a resource!"
At this time, Xu Longri looked arrogant: "In your eyes, resources may be extremely important! In our eyes, it's the same thing! After all, it's easy to get!"
Xu Hushan also echoed: "Yes, you don't know anything about spirit stones and
heaven and earth treasures at all! It's a waste to give them to you! Many heaven
and earth treasures must be thoroughly cooked before they can get the best
results!"
"And let me tell you one thing, at a certain level, these heavenly materials, earthly treasures and spirit stones will no longer work! Or in other words, the
richness will not be able to support a powerful level, you have to transform them
into other things… said. , you don't understand either!"

“We don’t want to know what your resource secrets are and where they come
from. Anyway, they were definitely found in these forbidden places that you
listed!”
“You can, and so can we!”
Xu Qingya’s words shocked everyone.
For the first time ever, the secret of the resource was known.
Although the forces behind War Eagle Nation have long known, they don’t know
about Doctor Dark.
This is the first time someone has debunked the secrets of the resource in front
of them.
Can you not be surprised?
Levi Garrison didn’t find it strange.
In fact, real masters know how resources come from.
Sure enough, only those at the same level knew what was going on.
It’s not at one level, maybe at a lower level it looks like a god like a demon.
A veil of mystery will be added.
But one level knows what’s going on.
Very simple……
War Bear Kingdom and the like also thought about how the resources came from.
How is it a secret, but isn’t the resource in those places?
It cannot be fabricated out of thin air.
Mainly because they don’t believe that they have the ability to come up with so
many resources in the forbidden area.
But they already understood.
Levi Garrison was interested.
He looked at a few people and asked, “Then what are you here for?”
The Return of the God of War [The
Protector] Chapter 3309
/ The Return of the God of War [The Protector]
“this……”
The three of Xu Longri hesitated.
Xu Qingya stepped forward and said, “Let me tell you!”
“One word side by side with the king, we want to check you and the spirit bones
around you! You should have heard of the spirit bones recently, right?”

Xu Qingya said boldly.
Town Demon Division is a code name.
There are many factions.
Their North Pavilion is one of them.
Now they also have a task at hand.
Join Telegram Group For Fast update
Dig up some excellent seedlings of spiritual roots and bones and bring them
back.
The other factions of the Town Demon Division have already taken action, and
the gods of the Tenjin Division are the first to be targeted.
It was almost completely divided up by other factions.
In particular, the five Azure Dragon (Qinglong) people have the best spiritual
roots and bones, and they don't know how many people are staring at them.
They are a little weaker and can't compete with that group of people at all.
It can only be done at other levels.
No, their little junior sister Xu Qingya thought of Levi Garrison.
Knowing that Levi Garrison and the many capable people around him.
So they came running.
It was even heard that Levi Garrison's daughter was an inimitable talent.
more interested.
If Levilia's roots are excellent, they will also find a way to detoxify Levilia.
"Want to test our roots?"
Levi Garrison was interested.
"Yes, if you don't mind, test the root bones for everyone?"
Xu Qingya said.
"Okay, then come on!"
Levi Garrison agreed.
Why not let them test the root bone?
Anyway, we are waiting for the completion of the super god plan of the War Bear
Kingdom.
boring again!
Just let them test it.
"I'll test it for you!"
Xu Qingya put her hand on Levi Garrison's shoulder, and an air flow penetrated
into Levi Garrison's body, and began to test the root bone.

This is their unique secret method.
Levi Garrison didn't reject this airflow and let her test it.
Gradually, Xu Qingya's face became weird, and then she looked at Levi Garrison
in disbelief.
"Your physical strength??? Is it too scary?"
"Pure body repair?"
Xu Qingya was surprised.
Pure body cultivation means that Levi Garrison takes the path of pure power.
That is his basic technique.
The principle is that I am faster than you, and I am stronger than you.
It's a punch!
Levi Garrison is now powerful and terrifying, no matter what you are, I will kill
you with one punch!
It's all about pure power!
This is the body repair Xu Qingya said!
Levi Garrison smiled.
Look at their professionalism.
At a glance, you can see the essence of yourself.
Xu Qingya was also surprised.
There are not many pure body repairs in the town of magic, especially few who
are successful.
Therefore, the path of pure body cultivation is too hard, and it is far away, and it
may take you decades to practice that little strength.
For them, the upper limit is also low, and pure body cultivation cannot go far.
The human body is like a treasure.
Their qi refining technique or other means is to open the treasures of the human
body in the same way.
Unleash the full potential of the human body.
And pure body training is to strengthen the body and continuously increase the
strength.
Comparing with each other, it means that physical cultivation is a low-level route.
And their approach is the advanced route.

But Xu Qingya was still shocked when her pure body cultivation reached the level
of Levi Garrison.
But what she didn't expect was that she was just seeing the tip of the iceberg of
Levi Garrison's true power.
Her current strength is not enough to detect Levi Garrison's true strength.
Or far from it.
Maybe 1/1000th or even 1/10000th could not be detected.
Obviously she is not at the same level as Levi Garrison.
But in Levi Garrison's opinion, it's not bad either.
At least you know your own nature, and you know the secrets of resources.
"Linggen Linggu? Huh? This bone can't be called Linggen Linggu at all? This is…"
Xu Qingya was stunned.
This is definitely the worst spiritual bone she has ever seen…
The Return of the God of War [The
Protector] Chapter 3310
Mainly peculiar.
The root bone, Levi Garrison has it.
It's just that his roots are not the kind that Zhen Mosi wants at all.
Or not mainstream.
In a popular metaphor, it is the root bone they want, and the mainstream root
bone is curved.
And Levi Garrison's root bone is straight.
Not the same thing.
Therefore, it can be understood that Cheng Levi Garrison's root bone is the
worst.
Because it's not the same as what they want, it's completely extreme.
This can also explain why Levi Garrison is strong.
This bone of his may be more suitable for pure body cultivation.
But for Reiki, Levi Garrison's root bones are completely unsuitable.
Put it this way.
After the aura recovered, Levi Garrison was the most unlikely person to benefit.
How did she know that the current spiritual energy was transformed by Levi
Garrison's body.
Of course it can't be absorbed.
After the shock.

Xu Qingya looked at Levi Garrison in disappointment.
I thought I could get a big surprise from Levi Garrison.
Never thought of this…
Too disappointed.
The other three Xu Longri also measured the root bones of others.
There was no surprise look on his face.
Levi Garrison also expected this.
After all, Jiao Tianyu's eighty children were hand-picked by him at the time.
They are not gifted beings.
If they are connected to now, their root bones are definitely not the perfect kind.
They are only able to endure hardships, or in other words, their mood is relatively
stable, and they can accept long-term penance.
In terms of talent, he can't compare to Azure Dragon (Qinglong).
Therefore, measuring the root bone on them will definitely not be a surprise, and
it will be full of disappointment.
The Dark Doctor and the Brain of God were not involved in the rhizome.
For them, it may be to keep a little secret.
After Xu Qingya tested Levi Garrison and the people around her, she was basically disappointed.
"One word side by side with me… Can you test your daughter…"
Xu Qingya didn't want to leave just like that.
Levi Garrison agreed without hesitation: "Okay, no problem! Levilia…"
Soon after, Levilia came out.
"Um?"
Seeing Levilia's appearance, Xu Qingya and the others were stunned.
Isn't it poisoning?
How does it feel like nothing happened.
Before I could ask more, Xu Qingya explained her intentions.
Immediately began to test the root bone for Levilia.
The other three also stood aside anxiously and waited.
After Xu Qingya's test, her face gradually softened, and it slowly turned into a
surprise.
In the end, it was beyond shocking.
"Horrible! This is too scary!"
Xu Qingya was pleasantly surprised.
Can't help exclaiming.

Since the people from the Demon Suppression Division appeared, they have
heard about how talented Levi Garrison's daughter is.
Many people don't believe it.
I think that Levilia's talent is good because of Tiancefu's set, which is useless at
all.
Nothing compares to their exact test roots.
As a result, after Xu Qingya tested it, she was surprised to find that Levilia's roots
were really good enough to explode.
The strongest root.
belong to is.
If it is known by other people in the town magic department, it may cause a
frenzy.
"Huh? Qi refining technique?"
Then, Xu Qingya made another super important discovery.
She also found that Levilia is not only top-notch, she even practiced the Qi-refining technique unique to their Demon Suppression Division.
"What? Qi refining technique?"
The three of Xu Longri were also stunned.
Looking at Levilia in disbelief.
Xu Qingya was sure that although the Demon Suppression Division had come out
now, the technique of qi refining had not yet come out.
Moreover, the cultivation of Qi Refining is extremely difficult.
It's not that it will be done in a while.
Especially Levilia has practiced to a very high level, not just obtained.
So there must be a big problem here.
"Where did your qi refining technique come from?"
Xu Qingya couldn't help but asked curiously.
The three of Xu Longri also stared at Levilia closely.
It's like finding something amazing.
The Return of the God of War [The
Protector] Chapter 3311
Levi Garrison smiled and said, "This is my daughter's own way! Use the elements
of the universe! Use it for yourself!"
Speaking of this, Levi Garrison was full of pride.
He was still worried at the time.
Never thought that Levilia really walked out of his own way.

How can you not be happy as a father?
heard here.
The four Xu Qingya were shocked, and their eyes were full of shock.
Use the elements of all things for your own use?
Isn't this the secret of the Qi refining technique?
The main purpose of the technique of refining Qi is to refine the elements of all
things!
Subdivided down, it is the element of fire attribute, the element of ice attribute
and so on.
The corresponding spirit root spirit bones are also the same, and they also have
corresponding attributes.
Especially absorbing spiritual energy is even more terrifying!
This is the reason why Levi Garrison's mountains of resources were quickly
absorbed by Levilia.
If Levilia let go and absorb it, the speed would be many times more terrifying
than those gods.
Levi Garrison's exercises and Qi refining techniques may not be the same thing.
But the principle is the same.
Shock!
All this is shocking.
There is actually a self-created practice method, and walking your own way
corresponds to the pre-Qin Qi refining technique.
genius!
What a genius of all ages!
If the Town Demon Division knows this, the highest-level guys will also be tempted.
This is too scary.
The surprise for them is wave after wave.
How old is this, boy!
Would it be great to let her grow up?
Not to mention the self-created Qi refining technique.
It's the bone in Levilia's body.
After being known by the big factions of the Zhen Mosi, it is estimated that they
will come to snatch it.

Their style is not to train Levilia to become a talent.
They want to dig out the top root bone of Levilia and transplant it to them.
They are to strengthen themselves.
Some people still use this vicious method.
As far as the bones of Levilia are now, if those people know.
He will definitely come and take Levilia away, and then he will dig out the root
bone…
This is the good value of the root bone!
The eyes of the four of them looking at Levilia were full of heat, as if they were
looking at a peerless treasure.
Can't wait to take it on the spot!
But after taking a look at Levi Garrison, they still gave up this hope.
Xu Qingya wasn't sure how strong this man was.
What if there is a fight and it's not an opponent?
They have long discovered that although all of these people are pure body cultivators, they are all terrifying.
If the war really starts, the four of them may not be able to obtain benefits.
Another key point is that Xu Qingya and the four found that the poison on Levilia's body had been released.
This is what makes them even more incredible.
Doesn't this poison mean that there is still half of it unsolved?
Do I need the second half of the Poison Sutra?
some time ago.
They also heard that Levilia's mother, Zoey Lopez, was looking for the second
half of the Poison Sutra.
Is this cured?
It's too easy to get rid of this poison, isn't it?
Simply unbelievable!
"Poisoned? Or not poisoned at all?"
Xu Qingya asked curiously.
"Of course it's solved! But I can't say it for the time being! I believe you!"
Levi Garrison said.
The four nodded.
In my heart, I was a little more afraid of Levi Garrison.
This man is more terrifying than he imagined.
I don't know why, when he took a look at him, everyone felt that their bodies
were trembling, and there was a feeling that their souls were seen through.
This poison is so solved.

Certainly not ordinary!
This is absolutely super evil.
Besides, my daughter is so talented, where can I find out?
But people started to get confused.
Now for them, the surprise is there.
But it is absolutely impossible to take Levilia away.
Levi Garrison also naturally saw how good Levilia's talent was.
From their expressions, you can see how good Levilia's talent is.
"My daughter's roots are not bad, right?"
Levi Garrison asked with a smile.
"puff!"
The Return of the God of War [The
Protector] Chapter 3312
Several people almost vomited blood.
It's too Versailles, isn't it?
Your daughter's roots are not only good, but also so good.
This is definitely the top root bone!
If the people from Zhen Mosi saw it, which one would not want to own this bone.
I can't wait to dig it out on the spot.
Xu Qingya smiled: "The word side by side with the king is a bit of a joke, Levilia's
talent is really terrible! Even if we are the Suppression Magic Division!"
Xu Longri couldn't help but reminded: "The king of the word side by side should
take good care of Levilia! If you have such a top-level root bone and are known,
there will be many people to snatch it!"
Levi Garrison was stunned for a moment, and couldn't help but ask, "What do you
mean? That someone has a fancy for my daughter's top root bone and wants to
take it back and cultivate it?"
Xu Longri laughed and said, "If you just grab it back and cultivate it, that's fine!
Don't worry, the key spiritual root and bone can be transplanted!"
"Can the root bone be transplanted?"
Levi Garrison's expression changed slightly.
Xu Longri nodded: "For example, your root bones are not good, but you can
completely dig out the better root bones of others and transplant them on your

own! Then you will have good root bones! Everything will be yours!"
"But this method is too cruel! Shame on us! We hear that very few people use this
method! Or almost none at all!"
"It doesn't mean there won't be any! That may be because you haven't
encountered any tempting spiritual bones! If you know the top root bones, I
believe there are still many people who are tempted! In particular, there are
some extreme powerhouses in Zhen Mosi, they There will definitely be ideas!"
Xu Qingya added: "Recently, the super-god plan of the War Bear Kingdom is
actually to know the real secret of the gods, which is the reason for the spiritual
roots and bones.
However, their method is only to optimize and improve these root bones, there
are always limitations! If they were given a little more time, they might actually
figure out a way to transplant the root bone. "
...
With such an explanation, Levi Garrison understood everything.
There are good and bad people in that place.
The Town Demon Division is no exception.
Judging from these people, Zhen Mosi is a group of super powerful beings.
For such things as root bone grafting, it is estimated that it is very light.
Just do it.
Just like home cooking.
Ethics do not exist before absolute power.
So what they said was right, be careful that Levilia has a top root bone.
Once someone from Zhen Mosi finds out, they will definitely come and take
Levilia away.
It's fine if you cultivate it well, but if the root bone is transplanted, Levi Garrison
will be so angry.
He would never allow this to happen.
Levilia is just poisoned, and can no longer be in trouble.
He absolutely doesn't allow it.
Therefore, Levi Garrison stared at Xu Qingya and the others.

Of course, it is impossible for him and his own people to say that Levilia has
top-notch roots.
Then there are only Xu Qingya four.
Being stared at by Levi Garrison, everyone seemed to be pressing down on the
mountains in the ten directions.
Almost burst.
powerful!
too strong!
Levi Garrison is stronger than they thought!
Xu Qingya hurriedly explained: "We will never tell you about the root bone of
Levilia, and if we have other ideas, we will not tell you about the root bone transplant!"
Others were quick to point out the issue.
Only then did Levi Garrison take away his breath.
Otherwise, he must kill all these people.
From the beginning of these few people to the present.
Levi Garrison is watching them all.
Mind is pretty good.
If you really have crooked thoughts about Levilia, you will never remind yourself.
"As long as the top of my daughter's roots is revealed, I will trouble you!"
Levi Garrison said coldly.
"We all understand!"
Several people nodded.
"Right, I have a question…"
The Return of the God of War [The
Protector] Chapter 3313
Levi Garrison looked at them and asked, "I once sent someone to look for you,
but I couldn't find you! Where are you hiding?"
This is what Levi Garrison has always wanted to know.
In fact, he knew that the group of Zhen Mosi was in Daxia.
Just can't find anything.
Jiao Tianyu and the others want to know this question even more.
When they first looked for it, there was really no clue at all.
After that, there was a clue.
But still can't find anything.
Insane.

They had tracked down a few people from the Demon Squad, but they chased
them into a deep mountain and disappeared from under their noses.
They clearly saw those people entering the mountain pass, but they followed and
the people disappeared.
It was as if they had gone to another world.
This puzzled them.
Even now, it's not a secret at all.
They go in and out of everyone's lives wantonly.
But so far, no one knows where they came from and where they disappeared.
This has always been a secret.
Jiao Tianyu and the others have done research on this, but they have no answer.
Hear this question.
There were smiles on Xu Qingya's faces.
"King side by side, in fact, we are in Daxia! But we are in a small independent
world!"
Xu Qingya replied.
"Um?"
This made Levi Garrison tremble.
It seems that the discussion with the Black Hawk agent was correct!
Whether it is Zhen Mosi or the forces behind the War Eagle Kingdom, they all
have their own independent small worlds.
That is, the world within the world.
This sounds illusory.
But it's pretty simple once you understand the principle.
It is like the sky-defying device of the War Eagle Kingdom, which changed the
magnetic field, gravity and other elements in the area to create an independent
small world.
Now, these great powers of Zhen Mo Division have the means to reach the sky,
and it is very simple to use the aura and other factors to change the area and
create an independent world.
Where is their entrance, but after you enter, you are detoured to other places.

You can never get in touch.
Maybe you find them going in and out, but after you go, you can only walk around.
This is the problem of Jiao Tianyu and the others following people and disappearing abruptly.
Next.
Xu Qingya explained.
The general meaning is to use some means, including some ancient formations or
mechanical techniques, to change an area and become an independent world.
And their independent world is separated from the outside world by an invisible
barrier.
This barrier is formed by the energy provided by the aura.
In this way, in their independent world, there is abundant spiritual energy for
them to cultivate.
The reason why they exist in the legend is that only in their small independent
world, there is abundant spiritual energy, allowing them to practice.
But not outside.
Before that, Reiki almost didn't exist.
They can't appear.
And they are not like Tiancefu's Baolong family, who are responsible for protecting Daxia.
None of this has anything to do with them.
No matter what disaster happens in Daxia, they will not appear.
That's why they've always existed in legends.
The reason why the Gods Lab is afraid of Zhen Mosi and Tianshifu is that they
have encountered them in their records.
It is estimated that the laboratory of the gods inadvertently broke into the area
of Zhenmosi or Tianshifu when it was exploring in Daxia.
But they don't know about Doctor Dark.
This is a record from the Lab of the Gods a long time ago.
Also a legend.
It's normal if you don't know.
After Xu Qingya explained it, everyone understood.
However, activating these organs and the like requires a lot of spirit stones.

This is the most important resource.
Then the guesses of Levi Garrison and the Black Hawk agents were correct.
The same is true for the forces behind the War Eagle Nation.
At this time, Levi Garrison thought of another question.
The Return of the God of War [The
Protector] Chapter 3314
his master!
Master has always been a mystery to Levi Garrison.
Even now, Levi Garrison doesn't know what kind of existence the master is.
But at the most critical moment, they all helped him.
Especially this Aura recovery.
He was clearly about to be annihilated by the explosion of the super spiritual vein
of the Antarctic glacier.
But was rescued.
This person does not have to think about it to know that he is his master.
The master's ability to reach heaven is unimaginable.

Now Levi Garrison guesses whether the master is from Zhenmo Division.
So Levi Garrison asked: "How strong is the strongest of your town magic division?"
Levi Garrison wanted to know whether the ceiling of Zhen Mosi was the same as
his master.
If there is a statement, it will be judged.
"this……"
This made Xu Qingya four embarrassed.
I really don't know how to answer this.
"We won't be able to say this for a while! The Demon Suppression Division is
actually very complicated, with many factions! It's unknown what kind of masters
are hidden!"
"We really don't know the strongest…"
Xu Qingya said.
"Okay, I know! Just curious to ask!"
Levi Garrison smiled.
Then wait and see to find out.
But he felt that Master was even stronger.

“The word side by side with the king, if there is nothing else, we will take a step
away!”
Xu Qingya and the others were about to leave.
“Okay.”
After these people left, the dark doctor asked, “Mr. Ye, what do you think of
Zhen Mosi?”
Levi Garrison smiled and said: “Next, after I get rid of the Hydra, I won’t care
about these chores. As for the Town Demon Division, they don’t bother me or
conflict with me. Then I’m not interested in them. None!”
“Yes! Why do you study so much? What’s more, our mission has been accomplished!”
In fact, the idea of Doctor Dark is similar to that of Levi Garrison.
After dealing with the Hydra, I will not ask about the world.
Anything that has nothing to do with them will do.
They can’t handle it.
“Of course I will protect Levilia, and I must not let the Town Demon Division
attack Levilia! They don’t want to succeed! Come and kill one!”
Levi Garrison looked at Levilia and swore that he would never put Levilia in
danger again.
the next few days.
Blackhawk agents secretly found Levi Garrison again.
Tell him the recent situation of War Eagle Country.
Sure enough, the forces behind it were the same as what he and Levi Garrison
had guessed.
They also have their own little world.
Their small world has a special barrier.
You can’t touch or find it.
Recently, this faction has begun to frantically strengthen the combat power of
the War Eagle Nation.
The combat power of the entire War Eagle Nation has reached a terrifying level.
Agent Blackhawk is much stronger than before.
According to combat standards.
Basically an enhanced version of the gods.

And the Black Hawk agent told Levi Garrison that the power behind War Eagle
Dog, Reiki and these are the basic resources.
Everything they have depends on the aura to survive.
The reason for their inactivity in these years is also the same, there is no spiritual
energy in the outside world.
Their little world has plenty of aura.
What's different from Zhen Mosi is that the spiritual energy of Zhen Mosi is used
to cultivate, it is an oriental system.
But the forces behind the War Eagle Nation are a Western system.
And they use Reiki to create powerful technology.
This made Levi Garrison quickly understand all this.
It's good to have a spy.
He knows every move of others.
Levi Garrison said that he will continue to cooperate with the Black Hawk agents,
and the two sides will help each other.
After another two days of boredom.
The day has finally come.
During this period, the organization of revenge Hydra has urged more than a
dozen times.
Just ask Levi Garrison if his resources are ready.
"Okay, the day has finally come, let's start the reckoning! It's definitely more fun
than before!"
The Return of the God of War [The
Protector] Chapter 3315
After waiting for so long, Levi Garrison was bored to death.
The town magician and the Black Hawk agents are here to relieve the boredom.
But most of the time, it's really boring.
There's nothing to do.
Really boring!
After finally waiting for this moment, Levi Garrison was a little excited.
I can't wait to go right away.
Levi Garrison was bored to wait, but the organization of revenge Hydra was so
anxious to wait.
They're going crazy!

Join Telegram Group For Fast update
Every second was a torment for them.
They waited like ants on a hot pan.
I can't wait to ask Levi Garrison every second if he is okay.
Even if they have long believed that Levi Garrison has been fooled, they will
definitely do the same.
But four or five days is too long.
Can't wait.
I can't wait to see what's going on with Levi Garrison all the time.
If it weren't for the fear of exposure, they would really send someone to see
what was going on.
What Levi Garrison was waiting for was extremely boring.
But they waited anxiously.
Can't sleep all day long.
But he didn't dare to ask Levi Garrison.
They are about to collapse these days.
So when this day came, they were even more excited than Levi Garrison.
Everyone was so excited that they jumped up.
Although it is a lie.
But if you really cheat, you still have to get the resources in your hands.
Five days passed.
But it was time for Levi Garrison to trade resources with the Vengeful Hydra
organization.
The final version of the Super God of War Bear Kingdom is also over.
It worked.
This time it really worked.
A total of eight winners.
They will be the strongest gods judged by the Siberian Star.
Each of these eight super gods can at least deal with thousands of ordinary gods.
Three of them are even stronger!
The specific combat power has not yet been tested.
In short, it is the most powerful of the eight super gods.
Soon after, the combat power of two super gods was measured.
However, there is a specific combat power that cannot be tested by the Star of
Siberia and Hydra.
If it is tested in actual combat, I am afraid it is even more impossible.
I don't know how many gods and beasts to use, it's a bottomless pit.

Can't test for now.
In short, strong enough to explode.
This is the strongest combat force they have ever encountered!
without any exaggeration.
Just this one out.
Can flatten all other countries and forces in the world!
Just one person.
"Hahaha, seriously! We all wanted to test the Olympic Empire! One person to
level the Olympic Empire!"
Siberia Star said.
"I think the Olympic Empire still can't measure his true combat power!" said most.
Indeed this one is too strong.
No one can measure his specific combat power at all.
The success of the super god plan made everyone in the War Bear Kingdom
extremely excited.
From this moment on, they not only have the largest number of gods in the world,
but also have the strongest gods.
When others chased the number of gods, they began to chase the power of gods.
Except for the super god plan.
For a long time, Hydra has contributed the ancient books of the exercises that
they have collected for hundreds of years.
As a result, the combat power of other gods in the War Bear Kingdom has also
been raised.
Even if it is an ordinary god, it is by no means comparable to the power of other
countries.
The overall combat power is different!
So now War Bear Kingdom is too terrifying too terrifying.
dominate!
Now they are the masters of this world!
No one in War Bear Country is afraid.
Next they have to start their real strategy.
Before, they only developed themselves and did not take any action against other countries' forces.
That's because they feel they're not developing enough and need to keep

developing.
But now they have developed enough.
Even such a super god appeared.
It's time to start their strategic plan, and then there will be no one to stop them.
The Return of the God of War [The
Protector] Chapter 3316
The number of gods has reached an unimaginable level.
Now there are super gods.
Immediately.
The War Bear Country Horse has made a plan – to show the world the mighty
force of the War Bear Country.
At that time, let the world know how many gods they have and how strong their
super gods are!
Use absolute force to conquer everything.
The plan is basically set within a week, and the specific time will come out soon.
Hydra brought the War Bear Country to this situation, and their status in the War
Bear Country is also extremely high.
They can also do whatever they want.
Join Telegram Group For Fast update
Not only can you mobilize the gods of the War Bear Kingdom at will, but you can
also use super gods.
And Hydra has a particularly good personal relationship with these super gods.
After all, the super gods are also made by their own hands.
Can the relationship be bad?
In this case, revenge against the Hydra would be impossible.
Not even the slightest possibility!
After the Hydra and these people created gods, they were not idle, and they
immediately transformed themselves.
Before, I was afraid that Zhanxiong Nation would say that they had different
intentions, and Hydra didn't do anything to them.
But it's different now.
All plans are made.
They've paid everything they should have.

It doesn't matter anymore.
So they immediately modified their roots and bones, and then used resources to
absorb spiritual energy and the like.
Let them also become gods in a short time.
They are not only strong backers, but also strong themselves.
"By the way, I heard from those people that today seems to be the time for Levi
Garrison to send resources to them?"
"Forget it, let them arrange for themselves, let's hurry up and strengthen ourselves!"
"That's right, Zhanxiong Nation is about to show its power to the world, and
we're going too! Then we can see with our own eyes what our enemies look like?
The helpless expressions of people like Levi Garrison… I'm really looking forward
to it! "
…
Hydra ignored the message sent by their organization for revenge.
They were all put into the renovation program.
They want to strengthen themselves in the shortest possible time.
the other side.
The base of the Revenge Hydra organization is the island.
All parties are actively preparing.
Some specialized mobile warehouses and various transportation equipment are
in place.
After all, Levi Garrison had promised too many resources before.
He spent five whole days to collect.
Then the amount would be unimaginable.
So, they prepared as much warehouse and transportation equipment as possible
in advance.
Everyone's face was full of excitement and anxiety.
Everyone has been dreaming for five days, just waiting for resources to come.
Everyone has already thought about how to use these resources.
How can so many resources be used up?
Some people have the idea of jumping into the pile of aura crystals and rolling around…
Most people think so.

The main thing is that the seven decision makers and their heirs are the most
excited.
Don't say anything else.
How rich are these resources?
Let them distribute it, they can't distribute it.
It's just too much.
No. 1 laughed loudly: "Levi Garrison, Levi Garrison, I can't bear to lie to you!"
"You shipped so many resources, but we were deceived. I don't know what you
are like?"
"Hahaha……"
The crowd laughed.
"By the way, Levi Garrison should have brought resources, right? He should be
busy these days, right?"
asked No. 3, the most cautious of the seven decision-makers.
The No. 23 and 5 who had invited Levi Garrison before responded immediately:
"According to our observations, in the past five days, Levi Garrison's people have
gone crazy to get resources all over the world! There is absolutely nothing wrong!"
"Then we can rest assured!"
"Everyone, prepare quickly! Waiting for the arrival of Levi Garrison's party!"
"In addition, clarify the transportation channels for the resources to ensure that
the resources disappear within one night!"
The Return of the God of War [The
Protector] Chapter 3317
What these seven decision makers are most worried about now is not whether
Levi Garrison will bring resources.
In their opinion, Levi Garrison was definitely deceived.
Resources will definitely come.
One thing to worry about is – after the resources come, what will they do with
them?
They can't allocate so many resources.

If it is placed in their hands like this, it will inevitably not attract the attention of others.
Therefore, the common man is innocent, and he is guilty of guilt.
With so many resources, others are sure to pay attention.
They are easy to get, but not easy to keep.

So, it's time to figure out what to do with these resources.
Their method is to immediately distribute and hide the resources all over the world after they get them.
All channels and hiding places have been arranged.
The means of transport do just that.
"It's all set, now waiting for Levi Garrison to come!"
The speed of this organization is still very fast, and everything is done.
...
wait!
This is the longest wait for the organization.
Obviously less than an hour, but it feels like waiting for a century.
Finally, Levi Garrison came after a lot of calls.
I saw an aircraft slowly landed on this small island.
Seeing that there was only one aircraft, someone said in surprise: "Huh? Why only one? Huh? What about the aircraft that transports resources?"
In everyone's view.
If resources are transported, at least hundreds, or even thousands of aircraft are required.
All have to be super large transport aircraft.
Otherwise, there is no way to transport so many resources.
So they repeatedly asked Levi Garrison if he needed help?
Especially the support of means of transport or manpower.
They are happy to provide.
But they were all rejected by Levi Garrison.
They didn't dare to ask for anything in depth, for fear of being discovered by Levi Garrison.
"You fools, resources must be behind! Levi Garrison must have come to see what's going on first!"
someone said.
Seven decision makers and major confidants immediately greeted them.

Full of smiles and enthusiasm.
I was more excited than seeing my own parents.
How can other people be treated like this?
Mainly, the current Levi Garrison is their big boss.
If you don't show enthusiasm, how can you get resources?
After the aircraft landed steadily, Levi Garrison and his party walked out.
Under the leadership of No. 1, everyone immediately stepped forward:
"Welcome Mr. Ye home!"
"Everyone is family, and everyone has a common dream! This is Mr. Ye's home!"
"Welcome home!"
...
Everyone shouted in unison.
Levi Garrison was happy.
Do you consider yourself family now?
But you guys are insane.
Keep talking about family.
But behind the scenes, they are hurting their families.
In addition to deceiving your own resources, the group of "family" who really
took revenge were all killed by you, right?
Levi Garrison smiled and walked down.
He waved at everyone: "It feels so good to be home!"
"With so many of us and such a powerful force, I feel that revenge Hydra is just
around the corner!"
Hearing Levi Garrison say this, No. 1 immediately replied: "That's for sure! Our
strength is getting stronger and stronger!"
"We haven't been idle these days! I took the initiative to contact the Olympic
Empire! They intend to cooperate with us! Let's fight against the booming War
Bear Kingdom!"
No. 2 also said: "I contacted the Apocalypse Empire, and the Apocalypse Empire
also intends to cooperate with us. No one wants to see that the War Bear Kingdom is too powerful!"
No. 3: "I contacted Heilongguo, they have long been uncomfortable with the
behavior of Zhanxiongguo and Hydra, and they have long wanted to unite…"

number four…
Number five…
No. 6 is said to unite countries such as the East Island.
No. 7 said directly: "I contacted Xingguo! Do you know? Xingguo already has
more than a thousand gods! And they also have professional equipment for gods!
Each of them is so powerful that it is terrifying! They are also united with us. It's
gone!"
The Return of the God of War [The
Protector] Chapter 3318
Next, other people, such as the five who invited Levi Garrison.
They also all said that they went to lobby to unite those forces.
And it is very detailed, and the specific details are said.
The last number said: "Mr. Ye, Daxia is also very powerful now! But we didn't go
to lobby for the alliance! Daxia Shensi depends on you, and you have a lot of
acquaintances!"
No. 2 glanced at the two of them and said, "I don't know what the situation is in
the War Eagle Nation? But we all joined forces in the end!"
No. 1 echoed: "Not only that! At that time, we will decide to start with the Siberian Alliance and further disintegrate the Siberian Alliance! This will make
the War Bear Country an isolated and helpless situation! Let the whole world
target them!"
"Hmm! That's not all, we have also made a plan to break into the War Bear
Kingdom! At that time, the War Bears will be in chaos at home and abroad! In that
case, the probability of our revenge on the Hydra will be much higher!"
…
wonderful!

Simply fantastic!
This acting, as well as the details, Levi Garrison and the others are simply amazing.
Are you still acting like crazy at this time?
The key is also very real.

Especially in the end, the plan to break into the Siberia Union and the War Bear
Country is simply amazing.
Their ability to draw flatbreads is absolutely top-notch.
It's easy to fool people.
Well-planned, well-spoken!
Gives a sense of trance.
As if they actually did it.
If Levi Garrison had not known in advance, he might have believed it.
Although they say it well.
But there are too many flaws.
Of course, these flaws are only for Levi Garrison and his people.
Because they know some details in advance.
If it were anyone else, there would be no flaws.
these flaws.
for example–
An hour ago, the Olympic Empire was still asking how Levi Garrison was doing.
The War Bear Kingdom super god plan was completed, and he asked him if he was
sure. This must have nothing to do with Number One;
No. 2 said that the Apocalypse Empire was united, but could Levi Garrison not
know the situation of the Apocalypse Empire? The gods and all potential gods
were killed by him, and they still had energy;
To what extent has Heilonggu been suppressed by Levi Garrison, the eldest
prince is dead, he is basically in a state of seclusion, and he still has the energy to
unite with you?
As for the newly rising Star Nation, it seems that these people have done a good
job in intelligence, and the specific situation of the Star Nation is known. It's a
pity that Xingguo was killed by himself and only Li Chengmin was left as a god, to
*join you? Bulls*it.*
…
Their plan is really flawless.
However, Levi Garrison knew all the details clearly.
The fake one saw it.

Otherwise, they will really be deceived by them!
Levi Garrison suppressed his smile and expressed his approval of their plan.
He also said that he would arrange for Daxia's side.
Let's fight the Hydra together.
"Okay, let's all grow bigger and stronger together! Others are welcome too!"
Everyone looked at the others behind Levi Garrison.
Levi Garrison followed Doctor Dark.
Doctor Dark was carrying a long wooden box, but it was wrapped in cloth.
What is inside, no one knows.
But the weird shape caught everyone's attention.
Many people's eyes fell on the back of the dark doctor.
Probably wondering what's inside.
The thing inside is the dead branch that she used to deceive Levi Garrison with
the 100,000-year-old snow lotus.
Levi Garrison said that the dead branch was like a sword and stayed.
It should be used to deceive his resource person.
Come to them today, Levi Garrison specially asked the dark doctor to bring these
dead branches.
Not for anything else.
Today, Levi Garrison used this dead branch to kill people.
Whoever cheats resources will pierce whose body with this dead branch.
They would never have thought that it turned out to be the dead tree branch
that they humiliated Levi Garrison!
The Return of the God of War [The
Protector] Chapter 3319
Doctor Dark was carrying dead branches on his back. At this moment, he felt as if
he was carrying an unparalleled weapon.
Later, this magical weapon will still shine infinitely.
Kill all these people in the audience.
Doctor Dark only felt that he was light and airy, like a god.
Looking at the various curious eyes of the revenge Hydra organization.
He wanted to laugh a little.
Are you so curious?
But curiosity will kill the cat!
You will die if you see it later!

Ha ha ha ha……
After Levi Garrison got off the aircraft, he began to look around.
"Not bad! Really good! To put it bluntly, a group of rabble! It's all gathered from
the world! Did you expect to be built to such an extent in a short period of time?"
Levi Garrison is really praising.
This organization developed privately in the name of revenge Hydra.
It got to this point.
It's rising fast.
Everyone in the Vengeful Hydra organization laughed.
Looking at Levi Garrison, they showed strange expressions.
The expression in his eyes seemed to say – this is not to thank you for the resources tricked from you…
"This is the least we do… Otherwise, how can we take revenge on the Hydra!"
No. 1 looked at Levi Garrison and sighed: "Now we have done almost the same in
all aspects of work!"
"You probably understand the plan! It is to unite the whole world, disintegrate
the Zhanxiong Nation from the inside out, and avenge the Hydra!"
"It is estimated that if we plan to develop well, due to internal and external
pressure, Zhanxiong Nation will have to hand over Hydra obediently!"
Levi Garrison smiled: "It's great! It's really good to see your plan is so perfect!
Now there is hope for the revenge Hydra!"
Several people from Doctor Dark also started acting.
"Great! Everyone can finally get their revenge!"
"Although the plan is complicated and troublesome! But there is hope!"
"Hey! The main reason is that the War Bear Kingdom is too powerful! We have to
use such a plan to deal with it!"
Number one looked helpless.
Everyone looked the same helpless.
But this frustration is true.
After all, they were brought to the door by the Hydra with five thousand gods.
It was really frustrating at the time.
Don't think about revenge.

In the end, you have to kill all your companions to survive.
Really helpless.
But now they have taken refuge in Hydra, and everything is shown to Levi Garrison.
"Huh? Why hasn't the aircraft that transported resources come yet?"
"You don't see anything in the sky?"
"What's the matter? No one asked?"
"Levi Garrison has been here for a while, why is there still no action?"
...
Now everyone is waiting
I haven't seen other vehicles for transporting resources come for a long time.
Everyone couldn't help but talk in a low voice.
Everyone is anxious.
The seven decision makers and confidants are actually more anxious.
They were all itchy all over.
But embarrassed to ask.
A group of people looked at each other, making crazy hints.
I have to ask others to ask Levi Garrison if there are any resources.
In this case, it is impossible for them to send someone to investigate.
It is inevitable that it will not arouse Levi Garrison's suspicion.
After hesitating for a long time, No. 5 couldn't help but say, "Mr. Ye, all our plans
have been arranged now! We will wait for your resources to come next!"
As soon as these words came out, everyone else breathed a sigh of relief.
Finally someone asked.
Others asked: "Mr. Ye, where are the resources? Didn't you come with you?"
"We thought it would be close behind? In the end, we didn't see any more aircraft
in the sky?"
"Mr. Ye, where are your resources? Could it be delivered in other ways?"
Everyone looked up in the air.
They were really impatient.
It is really forcibly suppressing, and I can't wait to jump up.

The Return of the God of War [The
Protector] Chapter 3320
Hurry up!
Anxious to death!
Again, deceived is deceived.
But if the resources are not in hand, in fact, everything is counted.

Levi Garrison smiled, looked at the crowd and asked, "What are you doing in such
a hurry? So many resources are not in a hurry at this time!"
Levi Garrison said this.
Everyone was a little flustered.
Everyone is guessing whether Levi Garrison suspects something?
Or he was worried!
Join Telegram Group For Fast update
Although he was deceived.
But to hand over resources like this, he must be more careful.
At least let's see how the organization works?
Is it really revenge on Hydra?
Has anything actually been done?
Only when you see it with your own eyes will you be willing to hand over resources.
It's not a matter of believing or not.
It's just experience.
…
Those thoughts raced through the minds of seven decision makers.
They determined that Levi Garrison thought so.
Let's take a look at their specific implementation first, and then decide whether
to give resources.
"Don't worry! Don't worry! We're just worried about the delivery of resources.
It's not good to be targeted by others!"
Number One said immediately.
At the same time, No. 1 made a look at several other people.
No. 3 immediately understood, and immediately said: "Let's not talk about resources first! Mr. Ye, let's talk about Hydra and War Bear Kingdom first!"
"Huh? Talk about them?"
Levi Garrison was taken aback.
Wondering what tricks they're up to.
"To be honest, we have planted a lot of spies in War Bear Country and Hydra
during this time! Until now, these spies are distributed within them, providing us
with information at all times…"
Number three smiled.
"puff!"
Levi Garrison almost laughed.

You are obviously acting as a lackey for others, how could you have the guts to
say that you have spies?
"Huh? Talk about it!"
Levi Garrison was very curious.
"Mr. Ye, please come to our intelligence department first!"
The third group led the way.
Levi Garrison and his party followed.
When they came to the intelligence department, their intelligence team sent out
all the information they had just obtained.
It is the message of the success of the final version of the War Bear Kingdom
Super God Project.
The information is very detailed, not only detailed data.
Even the strongest one can't measure the combat power for the time being.
There is even information about Hydra's temporary self-transformation plan…
I have to say that these decision makers are very smart.
Come up with concrete evidence, who wouldn't believe it?
But this is a message given by them as lackeys.
Not being a spy, I got the information myself.
But this is definitely something they do.
It was specially for Levi Garrison to see.
Nothing is more convincing than this.
"Now the War Bear Kingdom has become so powerful that it dominates the
entire world, and even the Hydra itself is so powerful! How can you take revenge?"
"We have to get stronger quickly! Mr. Ye, hurry up and bring all the resources!
We have to hurry up!"
"And the latest information from our spies shows that the War Bear Kingdom is
about to carry out a strategic plan! It seems to be sweeping everything! Hydra
will also attack us!"
"So we're running out of time! Mr. Ye quickly brought the resources, and we're
about to start preparing!"
…

After several people saw that Levi Garrison was convinced, they immediately involved resources again.
Levi Garrison pretended to be shocked: "Really? Is the situation so serious? Then hurry up!"
No. 1 took the opportunity to ask: "So, what about Mr. Ye's resources? Has it been shipped?"
"When it comes to resources, I want to show you a big baby first!"
A smile appeared on the corner of Levi Garrison's mouth.
"Huh? Big baby? What big baby?"
Everyone was full of curiosity.
Levi Garrison smiled mysteriously: "Compared with the big baby, resources are nothing at all!"
The Return of the God of War [The Protector] Chapter 3321
"A big baby whose resources are nothing?"
Hearing Levi Garrison's words, the eyes of everyone in this organization lit up.
Could it be that Levi Garrison has some kind of artifact or something?
For a while, the resources are not fragrant for them.
Resources are not that important anymore.
After all, this is the big baby in Levi Garrison's mouth.
Levi Garrison has always regarded resources as nothing.
He has so much knowledge and so many resources.
Those treasures from heaven and earth were regarded as Chinese cabbage by him.

Now there is still something he calls a big baby?
How insane is this!
Everyone suddenly became interested.
Resources are really left behind.
"Where is Mr. Ye's darling?"
No. 1 had already started to get impatient and couldn't help asking.
"Yes! What big baby? So mysterious?"
"It's definitely unusual for you to be called a big baby by Mr. Ye, right?"
"Mr. Ye, our curiosity has been piqued, so take it out and let us take a look!"
Everyone else looked the same.

curious!
Extremely curious!
“Hey!”
Doctor Dark sighed.
It is said that curiosity killed the cat.
Still curious.
Curiosity can easily kill you!
But he was also looking forward to it.
And the Brain of God, they are all looking forward to it.
It’s definitely going to be exciting next time.
It’s just that what they expect is different from those of the revenge Hydra organization.
“Of course it’s a big baby!”
“But I have to ask first, is everyone in your organization?”
Levi Garrison asked.
He’s here to level everyone here today.
It would be meaningless if there were not enough people.
Before he came, he reminded them to gather everyone together.
“It’s all there! After receiving your notice! Our people are all here!”
“With fewer people, we’re afraid we won’t be able to handle so many resources!”
“Today, everyone in our organization is here! There are more than 170,000
people in total!”
No. 1 they answered positively.
Levi Garrison smiled: “That’s good! Since everyone is here, then everything will
be easy!”
Seeing Levi Garrison smiled.
Everyone laughed too.
It’s just that they never thought that what Levi Garrison was hiding under his
smile was killing intent.
He means that when everyone arrives, he can kill them all.
But this group of people understood a different meaning.
“I’ll show you the big baby next!”
Levi Garrison smiled.
“Whoa, whoa, whoa…”
Hearing the display of the big baby, almost all the people on the island came
together.
It’s densely packed everywhere.

Just to see the big baby in Levi Garrison's mouth.
On the 1st, they were even more excited and looked at Levi Garrison without
blinking.
Levi Garrison shouted at the dark doctor: "Old black!"
"clear!"
Doctor Dark stepped forward.
"boom!!!"
Everyone's eyes lit up fiercely.
Can't wait to see the big baby.
See the cloth bag on the Dark Doctor's back.
They just understood.
That's what the big baby is.
No wonder.
To be packed like this.
It seems that everyone's initial curiosity was right.
What the Dark Doctor is carrying is unusual.
The big baby is always on him.
Countless pairs of eyes in the field were staring at Doctor Dark.
Doctor Dark looked at everyone and sneered in his heart: "If you see this thing,
you will die!"
Everyone watched him take down the cloth bag little by little, and then peeled it
off layer by layer.
In the end, everyone watched as Doctor Dark completely peeled off the cloth
bag.
"What the hell is in there?"
"Looks a bit like a wooden box?"
"But the big baby is definitely in a wooden box… The wooden box is not important, the important thing is the big baby inside!"
At this time, the cloth bag fell off, revealing the wooden box inside…
"Huh? This wooden box is a bit familiar? It seems like I've seen it before?"
Someone was surprised.
The Return of the God of War [The
Protector] Chapter 3322
Of course, most people don't know this wooden box.
But there are still people who know about this wooden box.
After all, the wooden box came from them.
Now that I see it, it still feels familiar.

But they all seem familiar at first glance, but can't remember for a while.
"This wooden box seems to have really seen…"
Twenty-three and twenty-nine also muttered to themselves.
The other three who had invited Levi Garrison were also deeply puzzled.
Can you not be familiar with it?

This wooden box was originally bought by them.
I just saw it suddenly, and I can't recognize it.
"This wooden box is a little familiar!"
The seven decision makers also felt familiar, but did not recognize them for a
while.
And the few people who really sent the wooden box were at the back of the team,
and they could only watch it so-so and couldn't see anything.
If they were closer, they would definitely be able to recognize what this wooden
box was at first sight.
Others just feel familiar and dare not recognize it.
And this kind of wooden box is generally more delicate, and it is the same for
everyone.
What's more, everyone is in a hurry now, and they just want to see what the big
baby inside is.
The wooden box is just a cursory glance and doesn't care.
What everyone thought was to quickly open the wooden box and see the big
baby inside!
Greed does the trick.
that's it.
There were so many people, but no one recognized it.
Everyone saw the wooden box, but no one recognized it,
Levi Garrison made a difference.
Are these people crazy?
How could they be so greedy?
Can't even recognize this?
Doctor Dark was also surprised.
He had imagined that when he took out the wooden box, everyone would recognize it.
exclaimed again and again.
The results of it?

Not one person recognized.
What are they doing?
“Open it! Hurry up and open it!”
“What is the big baby?”
...
When everyone saw Doctor Dark stop, they couldn’t help shouting.
The seven decision makers could not wait to rush up and open the wooden box by themselves.
They couldn’t help it.
hurry!
They are in a hurry!
He didn’t even realize that Levi Garrison could easily draw out their curiosity.
These five days were anxiously waiting for Levi Garrison’s arrival.
And now, he is anxiously waiting for the big baby in Levi Garrison’s mouth.
“Please, open it up! Let me see what the big baby is?”
No. 33 almost knelt down to Doctor Dark.
Doctor Dark shook his head helplessly: “You will regret it! The sooner you see it, the sooner you die!”
It’s just that everyone waited too impatiently.
I didn’t hear what the Dark Doctor said at all.
I don’t even think about other things.
Just when Doctor Dark was about to open it, Levi Garrison stopped him.
Levi Garrison looked at the crowd and asked, “Are you sure you want to see the big baby?”
“Look! Look! We’ll look!”
A bunch of people are like crazy.
They all shouted.
The first seven decision makers shouted the most fiercely!
“Mr. Ye, I kneel down for you, let’s take a look at the big baby!”
They have become impatient.
Seeing everyone like this, Levi Garrison raised a smile on the corner of his mouth:
“Do you really want to see it? You will regret it!”
In an instant, everyone’s heads shook like a rattle.
“I won’t regret it!”
“I definitely won’t regret it!”
“Hurry up! Let’s see!”

…
A group of people shouted wildly.
Levi Garrison sneered: "Okay, I gave you the opportunity! You don't want it
yourself!"
"Um?"
Everyone was baffled by Levi Garrison's words.
What does it mean?
But don't wait for them to think about it.
Levi Garrison asked the dark doctor to open the box.
"Clap!"
Box opens.
Everyone's eyes looked over.
Doctor Dark slowly took out the contents of the wooden box.
A dead branch like a sword! ! !
What?
This is……
When everyone saw the dead branches, they were dumbfounded.
The audience fell into dead silence!
The Return of the God of War [The
Protector] Chapter 3323
The originally noisy scene suddenly became quiet.
Even all the breath-holding sounds, not even the sound of breathing.
Completely to the point where the needle drop can be heard!
Everyone is numb.
One by one like walking dead.
When this dead branch appeared in front of everyone's eyes, the audience was
about to explode.
Everyone just felt a cold air from the soles of their feet shot straight into the sky,
as if it froze people's bodies.
Their pupils contracted and their eyes widened.
This is an extremely shocking performance!
Join Telegram Group For Fast update
It's stunned!
Mainly to give them too much shock!
I was looking forward to the big baby!
Who would have thought that the big baby turned out to be this thing?
No one thought this would be the case! ! !
Doctor Dark also got the expected scene!
Sure enough, this group of people will all be stunned after seeing this!

From his point of view, it seems that the densely packed objects are not people,
but sculptures.
The wooden box is just familiar, no one recognizes it.
But when the dead branches came out.
Everyone recognized it!
The dead branches are combined with the wooden box, and everyone can recognize it even more! ! !
Isn't this their thing?
He used the 100,000-year-old snow lotus to coax Levi Garrison, and finally sent
this one to insult him?
How could they have forgotten?
This is the worst time they have insulted Levi Garrison!
Don't forget this!
If a single thing is taken out, everyone may not recognize it.
But these two things are combined.
Most of the people present knew it!
Do not!
Everyone should know that!
The part of the people who didn't know, that is, those who wanted revenge, were
all killed by them.
The rest of these people are all advocating to deceive Levi Garrison.
"Boom…"
At this moment, for No. 7, it was a blast of thunder! ! !
There is no reason for him!
Because this dead branch was picked up by him and put in it.
He knows better than anyone.
At first everyone meant to be deceived.
No need to send wooden boxes to insult Levi Garrison anymore.
Too much trouble.
But No. 6 felt that Levi Garrison had to be humiliated, and suggested sending an
empty box to humiliate him.
Therefore, everyone thinks this suggestion is good.
Got everyone's unanimous consent.
That was the decision to do so.
Several people who invited Levi Garrison bought wooden boxes.
But No. 7 found it unsatisfactory. He picked up a dead branch and put it in the
wooden box. The position was at his feet at the moment.

It was a dead branch he picked up from under his feet!
At that time, No. 7 even joked: "We didn't deceive Levi Garrison. Isn't that the
one hundred thousand year snow lotus? Give it to him!"
Now the joke is circulating in their circles.
When they see dead branches, they call it the 100,000-year-old snow lotus.
Wooden boxes they might forget.
But this dead branch is definitely impressive!
After all, this is where the joke of 100,000 Years Snow Lotus comes from!
Now see the dead branches!
Everyone recognized it at a glance.
Especially number seven!
He could never forget this dead branch no matter what!
This was too much of an impact on him.
"boom!"
Understood.
Everything is clear!
Why is it so familiar to see the wooden box?
I understand now.
Isn't this wooden box taken from them?
No wonder it's familiar!
The main thing is that everyone is focused on the big baby.
Where to notice the others!
Shock!
When these people saw the dead branches, they all changed color.
The faces of the seven decision-makers turned green.
They are the closest, they can see clearly, and they are also the most shocking.
Everyone else behind them is going crazy.
Big baby is this? ? ?
The most crucial point – why did Levi Garrison bring this here? Why show them
back?
Is it…
A terrible idea was born in everyone's mind!
Like a thunderbolt from the blue!
The Return of the God of War [The
Protector] Chapter 3324
It was clear that the sky was clear, but as a result, there seemed to be muffled
thunder in everyone's ears!

There was a buzzing explosion in my mind, and an illusory scene began to appear
in front of my eyes.
horrible!
This is too scary!
Is the impact too great?
Their brains started to mess up.
Some people's brains are all gooey, and some people's brains start to spin at high
speed.
Shouldn't this be thrown away?
how come?

Why does he still keep this thing?
Keeping this thing doesn't mean…
Did he know everything? ? ?
Do you know that you lied to him with the 100,000-year-old snow lotus?
This……
"Boom…"
Thinking of this, everyone's head will burst.
"hiss!"
The sound of breathing cold air is endless!
impossible!
Did they leave any flaws at that time?
Although they recruited many people to cheat, they were all led by No. 3 personally.
Threes are always resourceful and cautious.
No flaws will be left.
And it was checked afterwards, and nothing was found.
If Levi Garrison and the others really knew, it would be impossible to have no
reaction at all afterwards.
Besides, if you really know about this, Levi Garrison will not be deceived again
later?
Yes!
If Levi Garrison really knew that they were deceived by the 100,000-year-old
snow lotus, how could he be deceived in the future?
All those resources were shipped here by them.
Impossible!
The logic doesn't match!

Besides, they all publicly supported Levi Garrison against the revenge Hydra, and
they were on the same front as Levi Garrison.
How could he?
But this thing is in front of them!
In addition, Levi Garrison's resources are still not available, they have to doubt.
Everyone looked at Levi Garrison in shock.
Don't know what he means?
I don't know if he knows the inside story.
This makes it hard for them to judge!
The seven decision-makers have already turned violent waves in their hearts.
Especially the sevens and threes.
After No. 1 tried his best to calm down, he asked Levi Garrison, "Mr. Ye, what
does this mean? Where's the darling? Is this wrong?"
The others also pretended not to know, and immediately echoed: "Yeah, did you
take it wrong? Where's the big baby? Mr. Ye, stop joking, take it out quickly!"
They wanted to test whether Levi Garrison really knew.
Levi Garrison smiled: "Isn't this the big baby? This is the big baby I said!"
Levi Garrison smiled and said this.
Even more mysterious.
Now it's even more difficult for them to judge whether Levi Garrison knew about
it or not.
"Don't be kidding, Mr. Ye, isn't this a dead branch? Why is it a big baby?"
Number One said helplessly.
Others also echoed: "Yes, Mr. Ye, stop joking! This dead tree can't even match
the resources, how can it be a big treasure?"
Levi Garrison insisted: "This is the big baby!"
"Um?"
Just as the others were about to say something, Levi Garrison asked with a smile,
"What do you think this branch looks like?"
With that said, Levi Garrison picked up the dead branch!
"Um?"

Everyone understands Levi Garrison's meaning more and more.
I don't even know if Levi Garrison knew that the 100,000-year-old snow lotus was
deceived by them.
But everyone still has to guess, No. 1 said tremblingly: "Like a treasure?"
"Like ginseng? Or like snow lotus?"
Everyone else is guessing.
…
"no!"
Levi Garrison shook his head all the time.
"What does it look like?"
Levi Garrison also waved a few times to guide them to guess.
It's just that the number one and a few people can't guess it after racking their
brains.
"Mr. Ye, just say it directly, we really can't guess it with our imagination!"
said number one.
But at this time, a voice came from the corner: "Like… like a sword!"
The Return of the God of War [The
Protector] Chapter 3325
The more he looked at the dead branch, the more like a sword.
The part that Levi Garrison is holding is the handle, and the front is the body of
the sword.
All in all it's a sword.
After hearing this answer, Levi Garrison's eyes lit up fiercely.
"Yes! It's a sword!"
Levi Garrison exclaimed.
"what?"
After hearing this answer, everyone present was shocked.
This… what does this mean?

What is the intention?
Everyone looked at Levi Garrison in curiosity and shock, waiting for his next
words.
No. 1, these people are shaking, and they don't dare to ask.
They were all waiting for Levi Garrison to speak.
Levi Garrison grabbed the branch and smiled and said, "When I saw it, I felt like a
sword! I didn't throw it away on purpose, but kept it!"

Doctor Dark asked deliberately, "Mr. Ye, why are you leaving a dead branch?"
"Isn't this like a sword? Of course it's used to kill people!"
Levi Garrison said this.
Everyone in the audience was shaking.
They felt a chill invading their bodies, making them tremble uncontrollably.
Heartbroken after all.
Everyone knows what's going on.
Even they felt a murderous attack, they were about to fall into hell.
"Hu Chi! Hu Chi…"
Many people started gasping for breath.
The sound of breathing is incessant, everywhere.
There is also the sound of gasping for breath, and the sound of body shaking.
There was instant chaos in the field.
Doctor Dark continued to ask, "Who to kill?"
As soon as this question came out.
In an instant, all the sounds in the field disappeared.
Not even the sound of breathing.
At this moment, it was as if time and space had stopped.
Everyone stood there and didn't dare to do anything, not even breathe.
Just like sculpture.
Not a living thing at all!
Levi Garrison smiled, looked at the seven decision makers, and asked, "Who do
you think I should kill?"
"Boom!!!"
This question is like a thunderclap.
The seven people were frightened.
This is implying them!
At this moment, everyone understood.
Levi Garrison definitely knew that they were the ones who deceived the 100,000-year-old snow lotus!
Don't you know everything about this series of operations and asking who to kill?
It is clear that they are going to kill them!
The atmosphere suddenly became tense, and it was even said that the sword was
drawn.
This moment is silent to death, and the next moment the situation in the field is

about to explode.
Everyone is so nervous…
They don't want to completely turn against Levi Garrison for the time being, and
they still have some illusions about Levi Garrison's resources.
What if it was just a coincidence?
What if there is still hope for resources?
At this moment, No. 3 suddenly said: "Of course we want to kill our common
enemy – Hydra!"
"That's right! Of course it's killing the Hydra!"
…
On the 1st, they began to agree.
They were all amazed at No. 3's reaction speed, which was too fast.
The embarrassment was instantly resolved.
Levi Garrison and the others were also happy.
The response is really fast.
The embarrassment was instantly resolved.
He looked at the branch and smiled: "Of course the Hydra will kill! But not with
this branch! This branch is for killing other people!"
No. 3 immediately echoed: "Yes, no matter what it is, it is used to kill the enemy
anyway!"
No. 1 immediately boldly said: "Mr. Ye, stop joking! Now our eldest baby has seen
it too! Where are the resources? Or let's talk about other things!"
Others also began to change the topic one after another: "Yes, Mr. Ye has never
seen resources, is it an accident?"
Seeing this, Levi Garrison smiled: "Don't worry, I have already arranged the
resources for you, you can rest assured about this!"
The arrangement that Levi Garrison said was naturally arranged in hell.
But after everyone heard it, hope was ignited.
I thought there was really hope.
The Return of the God of War [The
Protector] Chapter 3326
When Doctor Dark saw everyone smiling again, he laughed wildly in his heart.
It's not that the resources aren't shipped to you, it's that you only have so much

money to buy your life.
already paid.
I'll ship the resources to you again. You people's lives are simply not enough.
On the 1st, they also showed ecstasy, and when they heard Levi Garrison say this,
they felt a little bit in their hearts.
"What does Mr. Ye mean now?"
someone asked.
Levi Garrison held the branch and said, "Do you know where this came from?
Someone deceived me about the 100,000-year-old snow lotus!
In the end, the resources were deceived. But in 100,000 years, Snow Lotus has
not seen it. The other party only left me this branch! "

"Ah? What's the matter?"
"What? To deceive Mr. Ye like this? Looking for death!"
No. 1 and the others pretended to be shocked.
"I felt that this branch was like a sword at the time, and I swore I would use this
dead branch to pierce the deceiver's body!"
Levi Garrison said coldly.
No. 1 and the others only felt a cold aura enveloped them.
There was even a picture in their minds – they were pierced by this dead branch.
Everyone shuddered violently, as if they were in pain.
"During that time, there were a lot of people who deceived me with my bounty! I
remembered them one by one! Then they all went to take revenge!"
Levi Garrison continued.
"Um?"
Hearing this, everyone seems to think of something.
Didn't people all over the world die a few days ago?
Hundreds of thousands of people died!
Although the number is not huge.
But all over the world, these people all died in one day and one night.
This is very shocking.
Also includes organizations such as the Night Watch of the Siberian Union.
The last few days have caused a huge panic.
Does anyone know who did it?

Does anyone know what is the connection between them?
Now that Levi Garrison said this, they seem to understand.
Who says these people have nothing in common?
They have all deceived Levi Garrison's resources!
Could it be that Levi Garrison killed them all?
Geek!
Thinking of this, everyone's heart sank.
If so, there's a lot of trouble.
Could it be that Levi Garrison knew it from beginning to end?
He already knew that these people lied to him?
So you've been setting up?
OK!
Now, they don't even dare to think about it.
If you think about it deeply, I am afraid that they will break out in a cold sweat.
"Even Hydra came to deceive me, they thought I was deceiving! They were so
confident that they didn't bring gods to see me! In the end, all three leaders and
twenty members were killed!"
Levi Garrison muttered to himself.
But in the eyes of everyone, he is like a devil.
It made them gasp for breath.
I do not know how it is.
This is even more shocking than that day when the Hydra brought five thousand
gods.
Levi Garrison glanced at everyone and said, "Well, I have all taken revenge! But
what? I still haven't made a move on some enemies. I'll wait for them to stand up
and admit it!"
"For example, they lied to me with the 100,000-year-old snow lotus! I'm waiting
for them to admit it themselves? This group of people really did a perfect job,
making it difficult to find out!"
As he was talking, Levi Garrison suddenly looked at No. 1 and asked, "Do you
know who lied to me with the 100,000-year-old snow lotus?"
One shook his head.
Number two shook his head.

…
No. 3 said directly: "I don't know, it should be a Hydra, right?"
Everyone shook their heads one by one.
Pretend not to know.
Levi Garrison smiled: "I pretend you don't know, right? Then let me warn you!"
"Um?"
"Reminder? What reminder?"
While everyone was stunned.
"Pfft!"
The dry branch in Levi Garrison's hand had turned into a sharp sword and
penetrated No. 3's body.
Blood splattered, showing a rain and fog effect, swaying around.
Cum in the face of everyone around you…
The Return of the God of War [The
Protector] Chapter 3327
No sign!
Kill it!
This is what no one thought of!
Including Doctor Dark, they were all stunned.
Knowing that Levi Garrison will do it.
But don't know when he will do it?
It was so sudden.
I thought I would do it again after a while, but I never thought of doing it suddenly.
The field was frozen.

Everyone was startled again.
It wasn't until hot blood flowed on the face that everyone reacted one by one.
Levi Garrison started.
Pierced number three with dead branches.
This……
How is this possible?
But the bloody facts are in front of everyone!
Blood was gushing out of No. 3's body.
"Push!"
Levi Garrison pulled out the dead branch from No. 3's body.
Number three in front of him looked at Levi Garrison in disbelief.
A pair of eyeballs are bulging out, and they are about to fly out.
It is estimated that Levi Garrison stabbed and killed him without reacting.

Haven't figured it out at all.
Why did Levi Garrison suddenly take action?
"Pfft!"
At this time, No. 3's body fell to the ground, waking many people up.
Everyone looked over.
In particular, the other six decision makers recently were stunned.
Who is not shocked to see No. 3 fall down suddenly?
Except for them, everyone else was shocked beyond measure.
All stunned.
It's like a blur in my mind.
Can't figure out a lot of things.
Or in other words, I lost my mind for a short time, and my brain went blank.
The blood stimulated their nerves fiercely!
But it took a long time to react!
"I can remind you!"
"Can't you remember?"
Levi Garrison said coldly.
No. 1 was the first to react. He opened his mouth to speak, but he was still a step
behind.
"I……"
As soon as his words came out, Levi Garrison grabbed No. 2 next to him, and the
dead branch in his right hand penetrated directly through his neck, and blood
splattered everywhere.
It's as simple and rude as the usual farmhouse killing chickens!
The second eyeball is bulging, and the eyeball is about to fly out.
He still had a little bit of consciousness, and he wanted to struggle and move.
But he found that his body was completely stiff, and he couldn't move at all.
Consciousness disappeared little by little, and the body became more and more
rigid until death.
Shocked!
This is all too shocking!
First number three, now number two.
There are no signs!
The key is whether it is No. 2 or No. 3, but they are all gods.
They are the strongest group in this organization.

These seven decision makers used their power for personal gain, using the best
resources for themselves.
When they are finished, they will give it to others.
Therefore, the seven people are also the strongest in the organization.
As a result, in Levi Garrison's hands, he was just like an ordinary person, with no
time or opportunity to react at all.
For the first time, perhaps No. 3 didn't pay attention and was attacked by Levi
Garrison.
But No. 2 Levi Garrison succeeded again this time.
It's enough to show Levi Garrison's strength, this is crushing them.
"Pfft!"
In the end, No. 2's body also fell heavily to the ground.
This made everyone tremble, and two people were killed in a row.
Everyone seemed to realize something.
Levi Garrison doesn't seem to be here to send resources at all, he seems to be
here for revenge?
The idea exploded in the minds of many people.
"Hey!"
Levi Garrison pulled out the dead branches.
This time, without waiting for Levi Garrison to ask, No. 1 said in advance: "Mr. Ye
misunderstood, misunderstood, why is this?"
"Why did you kill my two brothers for no reason? Mr. Ye didn't make it clear!"
He was a little anxious, afraid that Levi Garrison would do it again.
Others who reacted one after another also said: "Yes, Mr. Ye misunderstood, how
can you kill your own people?"
"These two are your family! How can you kill your family?"
"Mr. Ye, we don't understand, we don't understand what you are saying at all!
This has nothing to do with us!"
The Return of the God of War [The
Protector] Chapter 3328
Almost everyone asked questions at this moment, asking Levi Garrison why he
murdered, and all of them pretended not to know.

Levi Garrison glanced at the audience and said, "I still pretend not to know, right?
It seems that I have to kill!"
"Kill until you admit it!"
Levi Garrison said this.
The faces of No. 1 and the others changed greatly, and they immediately shouted:
"Mr. Ye, what do you mean? You have already killed both of us! What are you
doing? Do you think we are easy to bully?"
"kill!"
Levi Garrison didn't speak, and suddenly started killing.
"Pfft!"
"Pfft!"

"Pfft!"
...
The dead branches in his hand were like a sword that opened the sky, wantonly
killing them.
Smash at lightning speed.
One by one fell.
No matter if they are gods or not, no matter how powerful they are.
In front of Levi Garrison, it was like a piece of paper.
He couldn't stop the might of Levi Garrison's sword at all!
In the blink of an eye, there were hundreds of corpses on the ground.
At this time, they responded one by one.
"Levi Garrison, do you know what you're doing?"
"Levi Garrison, you are courting death!!!"
"Dare to kill in front of us! You are dead!"
...
This group of people was completely irritated, and they shouted at Levi Garrison
angrily.
They all showed their original faces.
They have to put it on before.
But now Levi Garrison is killing their people like this.
They don't need to pretend.
Seeing the madness, Levi Garrison smiled: "Finally showing your true colors? In
fact, I like your true colors more! The way you acted just now is disgusting, even

more disgusting than the pit!"
"Since Levi Garrison has reached this stage, we won't hide it from you! I guess you
know it yourself!"
"That's right! It's us who cheated you of resources with the 100,000-year-old
snow lotus!"
"I picked up the dead branch in your hand and put it in it! Levi Garrison doesn't
feel good about being deceived, right? Didn't you always claim to be resourceful?
How could you be so stupid and deceived?"
No. 7 laughed wildly.
"But you may have found out about this! But so what? Weren't you cheated by us?
I've used all those resources! Hahaha…"
"Levi Garrison, you have completely lost to us in this regard! We lied to you!
Bring you a great shame! Let you be a joke!"
"There is a joke circulating among us. Anyone who sees dead branches will say a
hundred thousand years of snow lotus! This joke is you!"
…
Others did not hide it, and they all said their inner thoughts.
Levi Garrison just looked at them calmly and did not speak.
He knew all this, and this group of people didn't make any sense.
Can't humiliate them at all.
It didn't affect his state of mind at all.
On the contrary, these people were in a hurry.
No. 7 still felt that it was not enough, and continued to shout: "And we openly
support you to warn Zhanxiong Kingdom and Hydra! In fact, we planned with
them! To deceive you! Hahaha, I don't think so. ?"
No. 4 also laughed and said, "It doesn't matter if you deceived us on purpose or
not! But we have used all the resources you deceived in the last few times! That's
why we deceived you!"
When No. 4 said this, everyone felt extremely comfortable.
Before, I thought that Levi Garrison knew about their scam, and then deliberately

let them lie.
It was Levi Garrison who played them round and round.
But number four said so.
Regardless of whether it was Levi Garrison's intention or not, they used all the
resources.
They are the ones who make a lot of money.
Either way, they were successful.
Levi Garrison was deceived.
No. 4's words made everyone stunned.
Levi Garrison just looked at them, and his heart blossomed.
Stupid!
One by one is extremely stupid!
The Return of the God of War [The
Protector] Chapter 3329
Levi Garrison wanted to applaud.
Each one is a cheap idea.
Curiosity kills people, and taking advantage will kill people too.
Not wrong.
You have used the resources, but this is your life-buying money!
The resources are given to you, but your lives are mine.
Now I come to the name.
Don't say it's fair and unfair, you promise or not.
My Levi Garrison's rules are rules!

If you cheat and use my resources, you have to pay with your life.
That's it!
You feel that you have earned it now, but when I take your life later, it will be too
late to regret it.
Levi Garrison arranged for them from the very beginning that they thought they
had earned resources.
Not to mention that these resources are like Chinese cabbage for Levi Garrison
to pick up everywhere, but no one can touch them!
It's my business that I get these resources easily, and it has nothing to do with
you.
But if you lie to me and use my resources, then something will definitely happen.
But this group of people is immersed in their happiness.

“Levi Garrison didn’t think about it? Even if you knew it in advance, now you are
smart but you are mistaken! The resources were given to us in vain!”
“Hahaha, what if you play tricks again? The resources are in our mouths!”
“Others are not important, resources are the most important! If you get resources, you will be deceived.”
…
Everyone continued to stimulate and satirize Levi Garrison.
Seeing Levi Garrison’s calm face, everyone thought that Levi Garrison was
holding back, but in fact they were angry.
Everyone can see this.
Levi Garrison is definitely forbearing.
So, they frantically satirized Levi Garrison.
I want him to explode.
Seeing Levi Garrison, he was unmoved.
No. 23 of the five people who had invited Levi Garrison sneered: “Levi Garrison, I
have to tell you something about your scalp tingling!”
“Remember the blood exchange record of the empire on which the sun never
sets?”
“Actually, we destroyed the blood exchange record! We sent god-level killers to
destroy it!”
“Hahaha… didn’t think of it? This is also what we destroyed!”
“Otherwise, your daughter’s poison may have been solved long ago! We did it!
Hahahaha…”
…
This time, everyone present was laughing like crazy.
Levi Garrison looked calm, but also smiled: “I really didn’t think of it! It turned
out to be you!”
Levi Garrison’s appearance seems to them to be a forced smile.
In forcibly suppressing his anger, he was about to reach the brink of anger.
“Not only that! We also joined forces with Hydra to kill everyone who dared to
accept your second bounty! We are all doing our best to prevent you from

detoxifying your daughter! Stop your daughter from detoxifying at all costs,
understand?"
"Your daughter can't cure the poison, we have a large proportion! Hahaha…"
"We gave a death order from the very beginning! The entire organization is
desperate to stop your daughter from detoxifying! At least one-third of the resistance you've encountered along the way comes from us! Don't you think?"
…
By this time, everyone was completely apportioned.
Saying everything about preventing or deceiving Levi Garrison again and again.
"And the magic medicine auction of Daxia's magic doctor recently, we also sent
someone to stop you! Although the magic drug was mysteriously stolen in the
end, but it didn't fall into your hands, we are successful!"
"Up to now, we are not afraid to tell you! It is always us who stop you from lying
to you!"
"Levi Garrison, you are a fool! You don't know anything!"
…
Everyone said it all with great joy.
This is their most anticipated "reveal the truth" moment.
They are all looking forward to the moment when Levi Garrison knows the truth,
will he go crazy?
What will it look like?
Now the time has finally come!
Everyone present looked at Levi Garrison, all looking forward to seeing the look
of anticipation on his face…
The Return of the God of War [The
Protector] Chapter 3330
Sorry to disappoint everyone.
Levi Garrison's expression did not change.
Calm to the ancient well without waves.
As if none of the things they said had anything to do with him.
It didn't stimulate him at all.
Disappointed!

Desperate even!
People didn't see anything they were expecting at all.
What does Levi Garrison mean?
Join Telegram Group For Fast update
Concentration so good?
Mental quality so strong?
After hearing the truth, nothing at all?
This is impossible!
As if Levi Garrison knew everything in advance!
This made the expectant crowd seem to be punching cotton.
They were expecting Levi Garrison to go crazy at the moment.
Levi Garrison, hurry up and go crazy!
…
One by one, their hearts were going to explode.
Even the remaining five decision makers are going crazy.
what happened?
Why is Levi Garrison so calm?
Is he suppressed?
Or some other reason?
After hearing the truth, there was no reaction at all?
This is impossible!
What is the reason?
Everyone is going crazy!
Levi Garrison is too capable of tossing people's mentality.
From the very beginning, Levi Garrison was frantically tossing their mentality.
No. 1 even couldn't help saying: "Levi Garrison, you are actually stupid! You
probably didn't think about it! Last time, the six heads of Hydra surrounded us
with five thousand gods!
Since then, we have taken refuge in Hydra! We are the people of Hydra and the
people of War Bear Country! "
Levi Garrison immediately asked: "Then you won't take revenge? Everyone
present should have a bloody feud with Hydra, right? Did you take refuge in your
enemies like this?"
Levi Garrison's words left everyone speechless.
Many people were still stabbed and kept their heads down and did not speak.

Even if he is now the lackey of Hydra.
But he was still apprehensive.
It would still be ashamed to be mentioned now.
However, some people are thick-skinned and take this as a deaf ear!
Hatred of Hydra?
What it is?
At this time, No. 1 said: "So I say you are stupid? Or people who are still looking
for hydra for revenge are stupid! They are all stupid!"
"How strong is the War Bear Country, which Hydra is backed by? How dare you
seek revenge from them?"
"One hundred thousand gods, that's just the data that War Bear Nation let you
know! The real data is much more exaggerated! And super gods have also
succeeded! The minimum standard of super gods is one enemy five hundred
ordinary gods! God knows that their super gods are the strongest. What kind of
combat power can you get! It is estimated that it is no problem for a super god to
come out at random!"
"Under such a powerful situation, you don't really think you can get revenge, do
you? Let me tell you, even if the whole world unites, it can't fight it!"
...
Levi Garrison just sneered at them and didn't say anything.
"Hate is hatred, but you have to save your life! How can you take revenge if you
have no life?"
"Hydra must be our enemy, but for the time being, we are all incapable of taking
revenge! We are taking revenge on the curve! Be the lackey of the Hydra first,
and wait for the opportunity to avenge them!"
No. 1 said righteously.
Others echoed: "Yes, we are taking revenge on the curve! We are pretending to
take refuge in Hydra! Let's store up our strength first! When we find an
opportunity, we will definitely take revenge!"
The five people who had invited Levi Garrison also said hypocritically:
"We must

avenge the seven thousand people on the eighth! They were brutally killed by
the Hydra people that day to protect us!"
"We remember this revenge! We will definitely take revenge!"
…
Just after hearing this, Levi Garrison and the others suddenly laughed.
"Ha ha ha ha……"
One by one laughed wildly.
This made the group of people very confused, not knowing what happened.
Levi Garrison, why are they laughing so wildly?
The smile seemed to be sarcastic.
what happened?
The Return of the God of War [The
Protector] Chapter 3331
"It's time to stop acting!"
Levi Garrison shouted helplessly.
"Do you really think we don't know how those seven thousand people died?"
"They are led by No. 8! They are also a group of people who are bent on revenge
against Hydra!"
"But they were not killed by Hydra, but by you!"
"Don't think I don't know, when Hydra asked you to show your loyalty, it was to
let you kill seven thousand of No. 8 and them!"
…
"You… how do you know?"
When Levi Garrison's words came out, the expressions of everyone present
changed greatly.

You Qi immediately exclaimed.
He looked at Levi Garrison in disbelief.
If Levi Garrison knew about other things, they would recognize it.
But does he even know about this?
This is what happened to them and Hydra, which is strictly confidential.
Nobody knows.
How did Levi Garrison know?
Everyone looked at Levi Garrison in horror.
Levi Garrison saw their doubts, he smiled and said: "Actually, I know everything

you said just now! Including the destruction of the blood exchange record, you all
attacked my daughter to detoxify these things! I know everything clearly!"
Levi Garrison's understatement can set off a huge wave in everyone's heart!
understood!
Everything is clear!
Why didn't he react after just telling him the truth?
Now I get it.
He doesn't know everything.
The truth they said was known early on.
How did you shock people?
"You, you, you…you know?"
No. 7 trembled and looked at Levi Garrison.
Everyone else is going crazy.
Levi Garrison knew everything.
Incredible.
Levi Garrison smiled: "Why do you take me for a fool? I don't know! Can you
deceive me with a character like you?"
At this moment, everyone understands that Levi Garrison really knows.
"No, no… We have a lot of questions…"
Number one shook his head.
No. 4 was the first to ask: "First of all, you promised to send all the resources,
why does it take four or five days? It stands to reason that if you know everything,
it will only come right away. Why wait so long?"
As soon as this question came out, everyone looked at Levi Garrison.
"It's very simple! I'm waiting for the complete completion of the War Bear Kingdom super god plan!"
Levi Garrison said lightly.
"Huh? Wait for their plan to finish?"
This time everyone looked incredible.
Why is this?
Shouldn't it be early for revenge?
Why wait until their super-god plan is completed?
Is this even revenge?
Logical thinking is incomprehensible!
Levi Garrison smiled and said: "They have to be stronger, otherwise I'll be too

boring when I come to the door! Too weak doesn't mean anything, I'll just kill it!"
madman!
Everyone saw a lunatic!
There is also a dislike of the enemy being too weak, and waiting for the enemy to
be strong?
Isn't that what a lunatic is?
Regardless of whether Levi Garrison has the strength to do this.
But this courage alone is simply shocking.
Levi Garrison is definitely the first person to be so provocative in the face of
Zhanxiong Nation.
Everyone was shocked.
Doctor Dark smiled: "Don't think so? That's why we waited four or five days!"
No. 5 also asked a question: "Since you know everything, you already knew that
we lied to you, and we destroyed the blood exchange record! But recently, when
we lied to you again and again, why do you still Come play with us!
Acting with us is not the key, the key is that so many resources are given to us?
Even if this resource is worthless in your eyes, it will not be given to the person
who cheated you in vain, right? "
This question is what everyone wants to know.
The crowd gathered around.
Now they believe there is absolutely something wrong with this!
It's not that simple!
Finally got to the point.
Levi Garrison smiled.
The Return of the God of War [The
Protector] Chapter 3332
"That's because these resources are your life-saving money!"
"You took my resources, which means you gave your life to me, and I'm here to
take my life now!"
Levi Garrison said this.
The whole place really exploded.
The three words of life-buying money are like a bombshell.

Everyone's scalp was numb at this moment, and the cold air invaded the whole
body.
No one would have thought that this resource was given in vain, and it turned out
to be money to buy life.
The expressions they expected to see on Levi Garrison's face turned out to be all
on their faces.
"Okay, very good! Levi Garrison, you tricked us, but so what? Isn't your daughter's
poison still inextricable?"
Join Telegram Group For Fast update
"Next, your daughter's poison is still unsolved! When the Hydra comes out, it will
target you all. Don't think about your daughter's poison!"
...
A group of popular people were desperate and shouted at Levi Garrison.
They just want to get some face back.
"Oh? Is that so? Then I'll tell you a sad message!"
"Levilia come out!"
Levi Garrison shouted.
At this time, Levilia in the aircraft behind them came out.
"This……"
"What? This is?"
"Impossible! Impossible! I don't believe it!"
...
After seeing Levilia, everyone was stunned.
After seeing Levilia, they were surprised to find that Levilia was okay.
Where are the signs of poisoning here?
There is not even a trace of it!
It definitely can't be faked.
"Her poison is actually solved???"
someone shouted.
Everyone on the island is about to explode!
Levi Garrison's daughter actually succeeded in detoxification?
How did you get rid of this poison?
Do not believe!
Everyone can't believe it!
Also unacceptable!
This is so shocking!
Is Levi Garrison's daughter detoxified?

It's not that they exaggerate!
They believed that if Hydra knew, it would be even more shocking than them.
"As you can see, my daughter's poison is gone! So I don't have to worry!"
Levi Garrison laughed.
"You… how did you do it? How did you get rid of that half of the poison? Even if
it's half of the poison, it's not that easy to get rid of!"
No. 1 looked at Levi Garrison in disbelief.
Levi Garrison smiled: "Then I'll tell you a sad message!"
"Remember Yan Zangsheng's magic medicine? Wasn't it robbed? Well, I stole it!
Then I detoxified my daughter!"
"Boom…"
At this moment, No. 1 and the others were struck by a thunderbolt and almost
fainted.
In fact, it is clearly a thing.
As a result, they were hit twice in a row.
Both times they couldn't accept it.
It turns out that it is Levi Garrison who controls everything behind the scenes!
He is the master! ! !
"Okay, I've had enough! I'm about to start!"
"Levilia, go back first, you can't see this picture!"
Hearing Levi Garrison's words, Levilia turned around and left.
"I'll kill you all with this dead branch! Don't worry, it won't hurt at all!"
Levi Garrison held the dead branch and was about to start.
At this time, No. 1 suddenly burst into flames, he glared at Levi Garrison and
shouted: "What if everything is your plan, Levi Garrison? What if you control
everything? You don't really think that you can kill with this person and you. Just
us?"
"Yes! It's impossible for Levi Garrison to kill us all! We already have thousands of
gods! There are still hundreds of thousands of masters! What do you want to
kill?"
At the last moment, they all reacted.
To have a final battle with Levi Garrison.

That's when they reacted.
Thousands of them do not speak.
Recently, with the help of a large number of resources from Levi Garrison, the
number of gods has long been exceeded.
The gods are now sixteen hundred.
There are thousands of gods with combat power.
With so many strong people, they are not afraid.
After all, there are no five thousand gods behind Levi Garrison!
They are afraid of Hydra, but not Levi Garrison.
"Really? Are more than a thousand gods a lot?"
The Return of the God of War [The
Protector] Chapter 3333
Levi Garrison asked with a frown.
Doctor Dark and the others cooperated: "Yes! Are more than a thousand gods a
lot?"
If this is in the early stage of the recovery of spiritual energy, more than a thousand gods are second only to the War Bear Kingdom.
At that time, Daxia didn't even have a god.
More than a thousand gods are naturally so many that the scalp is tingling.
But what about now?
The most mentioned is the gods.
Daxia also has a lot.
More War Bear Kingdom.
Join Telegram Group For Fast update
But the key point is that Levi Garrison killed a lot of gods.
Not to mention before.
It was the recent destruction of the night watchman, all gods, who were easily
killed by Levi Garrison.
There are more than 1,000 gods in the star country, as well as matching god
equipment.
The combat power is equivalent to more than 3,000 gods. Isn't Levi Garrison just
killing him?
A thousand gods is a fart!
In fact, what they don't know is that even if the hundreds of thousands of people
in this organization are gods, so what?

I, Levi Garrison, still kill with the sword in my hand!
A mere thousand gods seem like a joke on Levi Garrison's side!
It would be a shame to say something like a thousand gods!
A thousand gods still dare to mention it outside?
Want a face?
Haven't seen the world?
Doctor Dark and the others looked at these people like a fool.
It turned out to be a group of guys who had never seen the world.
Dare to say anything!
However, in the eyes of these people on Number 1, more than a thousand gods
are enough, not to mention there are more than 100,000 strong people.
With Levi Garrison, how could these people be compared with them?
Unless it's a super god! ! !
But the super god, even the War Bear Kingdom created it.
Where else can there be super gods?
It is already against the sky to deal with a hundred ordinary gods!
Only super gods can deal with five hundred ordinary gods.
What's more, they have more than 1,600 gods and so many masters.
At least four or five super gods!
Just those people like Levi Garrison?
Can it be compared to four or five super gods?
What to fight with him!
With the order of No. 1, more than a thousand gods rushed to the front, besieging Levi Garrison and his party.
Hundreds of thousands of strong men behind them also took a step forward, and
their momentum shook the sky.
This sound alone can scare people to death!
"Levi Garrison is what you forced us to do! We just wanted to play with you! We
wanted to favor you, but you didn't appreciate it! Then we have to be real!"
"Hurry up and hand over all the resources, and then tell the secret of the resource acquisition! I will spare you!"
"Otherwise, I'll kill everyone around you first! Including your daughter! What if
she gets rid of the poison? We'll kill her anyway!"
...
Number one started to threaten.
Compared with dealing with Levi Garrison, they hope to get Levi Garrison's

resources.
After the resources, get rid of Levi Garrison, so that you can claim credit with
Hydra.
Kill two birds with one stone!
"Levi Garrison has only one chance, exchange resources for their lives!"
No. 1 stared at Levi Garrison.
The five people who had invited Levi Garrison even stared at Levi Garrison: "Levi
Garrison, we have actually endured you for a long time! It's the first time we
invited you to death! You directly beat us up because of your strength! This tone!
We have endured until now!"
"Now we are all gods, and stronger than ordinary gods! Today will be the best
time for us to take revenge!"
"Levi Garrison quickly hand over all the resources and tell the secrets, so as not
to suffer from flesh and blood!"
The five began to threaten and warn Levi Garrison.
Some people can't even resist.
"Really? Hate me so much? Then I'll kill you!"
This time, Levi Garrison was no longer simply knocking them out.
The first time they came to invite, they still sincerely seek revenge for Hydra.
Levi Garrison had at most a lesson.
But it's different now.
Then Levi Garrison is going to kill them! ! !
The Return of the God of War [The
Protector] Chapter 3334
When they heard Levi Garrison's words, they thought it was ridiculous.
kill them?
Do you have this ability?
Before No. 2 and No. 3 were not paying attention, they were successfully attacked by Levi Garrison.
Now they are fully prepared, and there are more than a thousand gods sitting in
charge!
What did Levi Garrison do to kill them?
"Then try to kill another one…"

As soon as the words on the 23rd came out, Levi Garrison appeared directly in
front of him.
This speed is beyond their cognition!

There is no concept of time!
No one can react.
The dead branch in Levi Garrison's hand penetrated No. 23's throat fiercely!
A bloody arrow shot out fiercely!
quick!
too fast!
Even No. 23's throat was still squirming.
That was him talking, his throat moved, but it was pierced in an instant, and no
sound came out.
In that instant he died.
The expression on his face was still dismissive, because he didn't believe that Levi
Garrison could do to them.
However this is just the beginning.
"Pfft!"
After the dead branch penetrated No. 23, it shot straight out!
"Hey!"
The dead branches are like a sharp sword pulling out a wave of air!
It actually passed through the throats of the remaining four people No. 29 and
No. 33 at one time!
Instant kill!
Kill four people at once!
In fact, with the addition of No. 23, five people were instantly killed at one time.
After all, time is so fast that there is no gap at all.
Even after penetrating the throats of the other four, the consciousness of the
four remained.
But they felt physically separated.
Unbelievable expressions appeared on the faces of the four.
As if to say – are they dead?
shocked!

This time everyone was completely stunned.
If it was said that killing No. 2 and No. 3 before was a sneak attack.
So now it's being done in front of all of them.
Instantly killed five people in front of more than a thousand gods.
The key point is that these five people are also fully guarded, and they are all
gods!
It's so easy to kill!
This is so surprising.
Levi Garrison is completely crushed!
"kill!"
Levi Garrison has already started to kill.
Never give them a chance!
Holding dead branches, he began to slaughter the gods in front of him.
In fact, as long as Levi Garrison is willing, he can crush everyone present.
However, he said before that he would use this dead branch to penetrate through this group of people one by one.
Then naturally there will be no other way to kill these people.
"Pfft!"
"Pfft!"
"Pfft!"
...
Levi Garrison is like an invincible devil, rushing into the enemy group and starting
the massacre.
What is the difference between these gods and ordinary people?
It is exactly the same for Levi Garrison.
They were all killed with one sword!
And these gods couldn't react at all, so they were killed by Levi Garrison.
Not to mention resisting!
Finally, the five decision makers on No. 1 reacted.
But a massacre has already begun.
There were dead bodies everywhere in front of them.
In an instant, four or five hundred people had fallen.
And they are all gods! ! !
Crush!
Completely crushed!
Killed four or five hundred gods in an instant…
Isn't Levi Garrison a super god?
The key is that he can continue to kill!
This is not a super god just enough to pass the line!
This is a terrible super god!

Crush!
Totally crushed!
Don't look at how many people there are on their side.
But facing Levi Garrison alone, everyone was shocked.
Another breath, and hundreds of gods fell.
The dead branches in Levi Garrison's hands are really comparable to a weapon of
magic.
Simply unstoppable!
"Stop! Mr. Ye, stop! Let's discuss it!"
"Misunderstanding! It's all a misunderstanding!"
No. 1 was in a hurry and shouted frantically.
If you fight again, all the gods will be gone.
Can he be in a hurry?
And everyone understands that Levi Garrison is invincible!
At least not what they can provoke!
The Return of the God of War [The
Protector] Chapter 3335
It's just that Levi Garrison didn't stop at all, he said lightly: "Wait until I finish
killing these people!"
Ignore it at all and continue the slaughter.
Soon hundreds of gods fell.
They have no resistance at all.
Only to be killed.
…
Another breath.
Levi Garrison completely killed all the gods.
Except for the first five decision makers.

The more than 1,600 gods present were all killed without exception.
Not a single one was left.
Levi Garrison specially picked the gods to kill. After killing all the gods, he turned
around and looked at the number one and asked, "It seems that you have something to discuss with me just now?"
Everyone: "…".
The thing I discussed with you is to stop you, don't kill it.
As a result, they were all killed!
this this this…
The key is this combat power! ! !

More than 1,600 gods have no power to fight back, what kind of existence is he?
Until now, they understand.
Why does Levi Garrison have the idea of revenge against Hydra?
He even looked disdainful of Zhanxiong Nation!
He has the guts!
Not to mention whether he can succeed or not, isn't the combat power shown
now is the strongest super god that War Bear Nation has been seeking?
It seems that where his resources come from, everyone understands.
Because Hydra and War Bear Kingdom told them.
At a certain level of power, resources will no longer be an issue.
The resources are in those forbidden areas, and everyone knows it.
If the strength is strong, you can go directly to the forbidden area to get it.
Take as much as you want.
Therefore, the current War Bear Kingdom is not worried about resources at all,
nor does it bother Levi Garrison's idea of resources.
Because for them, there is as much as they want.
Still need to rely on Levi Garrison?
That is impossible!
Now they seem to understand the secret of Levi Garrison's resource acquisition.
He is powerful!
Just go to the forbidden area to get it, those beasts can't stop him!
For them, these forbidden areas are obstacles, they will stop them, and even lose
their lives.
But for the lord in front of him, isn't it anything and everything?
It is estimated that those beasts have to hide away when they see Levi Garrison.
They are savage, but they also don't want to die.
Now after seeing Levi Garrison's extreme strength, everyone understands everything.
A series of things all make sense…
Why was the magical medicine of the Great Xia Physician stolen, and the two
hundred gods he protected disappeared in an instant.
…
Everything is clear.
They heard Levi Garrison say before – he will wait for his daughter to detoxify to

take revenge.
Everyone thought it was a joke.
It was Levi Garrison who was stubborn and deliberately said this in order to
express his quickness of speech.
Anyway, his daughter's poison can't be cured, and everyone will not see his
revenge.
But now that I think about it, it really is.
After his daughter was detoxified, he came to take revenge.
He has this power.
At this time, Doctor Dark and the others did not hide their breath.
Those who just acted in costumes were exhausted.
Now they and Jiao Tianyu are exposed one by one.
It was like waves of air currents exploded in the audience.
Will No. 1 these bombarded bodies.
powerful!
Everyone is super powerful!
It is no exaggeration to say that even if Levi Garrison does not take action.
Even these people can deal with thousands of gods!
The most exaggerated is Fire Cloud Evil God.
As soon as he appeared, that terrifying aura enveloped the audience.
Everyone's heart is going to explode.
Brain, heart and other organs are congested rapidly…
Another super genius!
horrible!
too terrifying!
It's a good thing they took the lives of these people to blackmail Levi Garrison.
Little do they know that these people can easily kill them.
Not only is Levi Garrison extremely powerful, but his followers are also outrageously strong.
Panic!
The next few people are completely panicked!
The Return of the God of War [The
Protector] Chapter 3336
The first few people, as well as the confidants behind them, began to be in chaos.
They all started to figure out a way.
"Send a distress signal! Ask Hydra and War Bear for help!"
No. 1 and the five people looked at each other, and they were communicating

with each other in their eyes.
No. 1 chose to stabilize Levi Garrison.
"Mr. Ye misunderstood, it's really a misunderstanding! There's nothing we can
do… If we don't agree, Hydra and War Bear Country will destroy us!"
…
No. 1 began to explain to Levi Garrison crazy why they were like this.
Others waited for an opportunity to signal.

But Levi Garrison didn't give them a chance at all, and only heard Levi Garrison
shouting at the crowd: "Well, let me give others a chance! Now if you still want to
seek revenge on Hydra, just leave the five of them and theirs. If the confidants
are killed, I will let them go! Otherwise, they will all die!"
"Whoever wants to escape can try! Whoever can escape, I write Levi Garrison's
name upside down!"
Levi Garrison said these words.
The whole place will explode.
No one thought of this!
Levi Garrison actually used the method of Hydra.
Let them kill each other.
No. 1 was just about to calm everyone down, but the field was already in complete chaos.
"We still want revenge on Hydra! Brothers, kill me!!!"
"Kill! Brothers! We are seeking revenge for Hydra!"
…
With the first, there will be a second.
moment.
A group of people broke out and directly attacked No. 1 them.
Levi Garrison looked at No. 1 again and said with a smile: "Of course, I also give
you the opportunity. If you kill them and win, I will let you go!"
On the 1st, they had to fight back, but now they are excited after hearing Levi
Garrison's assurance.
The two sides immediately scuffled.
There are many people who want to kill the number one and five people, but
there are also many confidants of the number one and several people.

Levi Garrison and several others stood aside to watch the hot coax.
A terrifying battle began.
Although the number one and five people are the majority, but the number one
and five people are all powerful gods, and their henchmen are stronger.
The numbers are not dominant, but their personal combat power is strong.
For a time, the two sides fought hard.
...
Soon corpses and blood were everywhere.
The screams and roars intertwined, shaking the world.
The battle went on for a long time.
By the end, fewer and fewer people were standing.
Most of them became corpses.
...
to the end.
Number one wins.
They finally killed more than 100,000 people on the other side.
They are all cruel!
*When trying to live for a little s*x or trying to survive, he really dared to be cruel*
to his companions.
They are kind and innocent.
After all, when they killed seven thousand people on the eighth, they had already
experienced it once.
Everything is nothing.
But there are not many of them left.
The five of them were followed by less than a hundred scattered people.
There are too many people on the other side, and it hurts them too.
Everyone was covered in wounds.
But finally survived.
Excitement was written all over their faces.
They finally survived.
The first few people dragged their tired bodies to Levi Garrison step by step.
Several people smiled and said: "Mr. Ye, we succeeded, we killed them all! We
have figured it out now, and we will follow you to seek revenge against Hydra!""Yes, Mr. Ye, you just said that if we kill them all, we will let us go! Now
we have done it!"
Several people looked at Levi Garrison asking for credit.

I think they survived for the time being.
Now stabilize Levi Garrison for now, and think of a way later.
Their philosophy is to live first.
They are more afraid of death than anyone else!
It's just that Levi Garrison suddenly smiled and said, "Huh? Let go of you? Did I
say it? Did I?"
The words are not surprising and die endlessly.
The whole place exploded.
The Return of the God of War [The
Protector] Chapter 3337
No. 1, they are sweating on their foreheads!
At this moment, they all trembled.
A bad premonition came over him.
made them tremble.
Just because of the emergency, they were hot-headed and immediately joined
the war.
No thought.
Thinking about it now, it's terrifying.
But what can they do if they don't agree?
I can't beat Levi Garrison!

The arm can't touch the thigh.
If they didn't participate in the killing before, others would get rid of them.
Levi Garrison asked Doctor Dark and the others again: "Is there? Did I just say
that I would let them go?"
Doctor Dark: "No? I didn't hear it!"
Jiao Tianyu: "Mr. Ye, it was so windy just now that I didn't hear you at all!"
"Yeah, it was so noisy just now! I didn't hear it! By the way, how did you hear it?"
Ning Jinye asked them back.
"This……"
Number one, they were all stunned.
This……
There is going to be a problem!
Levi Garrison is going to regret it!
Isn't that to kill them?
This is absolutely not allowed!

No. 1 immediately said anxiously: "No, Mr. Ye, you have already promised that
the person who said that the two of us won will survive! You can't talk without
saying anything, right?"
The others immediately said, "Yes, Mr. Ye! Not to mention we were all wrong!"
"Even if you ask us to seek revenge on Hydra now, we will definitely be in the
forefront!"
...
This group of people survived for the time being.
Can say anything.
Dare to promise anything.
Levi Garrison touched his nose and said, "Yes, yes, I remembered, I promised you!
If you win, I will let you go!"
Hearing this, the first few people laughed.
Levi Garrison remembered, that was really good.
Then they have hope.
Everyone was excited, and they were about to celebrate.
"Mr. Ye, it's good if you think about it, then we can go?"
No. 1 asked tentatively.
But at this time, Levi Garrison suddenly said: "I'm sorry, I admit that I said this,
but I lied to you!"
"what???"
The eyeballs of the first few people are about to fly out.
lied to them? ? ?
"You lied to me so many times, it's not too much for me to lie to you once, right?"
Levi Garrison smiled.
"Hahaha……"
Doctor Dark and they all laughed.
Liars will eventually be deceived by others.
"I made a decision before I came, and I will kill all of you! How could I let you go?"
Levi Garrison's smile looks like a devil at this moment.
"boom!"
This message was like a thunderclap to the first few people.
At the last moment, they were played by Levi Garrison again.
At this time, others were in a hurry.

They pointed to the number one and five people and said, "Mr. Ye, we were
forced, and everything was led by the five of them!"
"It's them! It's them all! We're just doing errands below!"
"Mr. Ye, in order to prove what we said, we can kill them!"
"Yes, we can join forces to kill them! We are the ones who are really bent on
seeking revenge for Hydra!"
...
The number one and five people looked at this group of confidants in disbelief,
and at the last moment, they even betrayed themselves.
In the face of life and death, many problems can be clearly seen.
"kill!"
Levi Garrison was not in the mood to watch them act.
The dead branches in his hands shot out.
"Pfft!"
"Pfft!"
"Pfft!"
...
The dead branches kept shooting through the bodies of these henchmen.
One by one they fell.
"Hurry up and send a signal to Hydra and War Bear Country for help!"
Seeing this, the five people on No. 1 immediately dispersed and ran away.
Escape in all four directions.
to gain the last hope of survival.
The Return of the God of War [The
Protector] Chapter 3338
Levi Garrison smiled.
He held the dead branch in his right hand, and with a slight shock, the dead
branch broke into five parts, all of which were suspended in mid-air.
"kill!"
With a flick of his fingers, sections of branches flew out.
Shoot quickly in five directions.
The edge of the island.
In the end, the potential of the five people exploded, and they fled to the edge
of the island in an instant.
They even saw hope for survival.
"Pfft!"

“Pfft!”
...
But at this moment, a branch from outside penetrated their bodies.
“boom!”
“boom!”
What is even more frightening is that the moment the branches penetrated, their
bodies exploded with a bang.
Turned into a cloud of blood!
There are blood mists swaying in five directions on the edge of the island!
So far!
This revenge organization was wiped out.
All were killed by Levi Garrison.
Not a single one was left.
This is probably what they didn’t think of.
Doctor Dark and they shouted straight.
Not only did he get revenge, but he also watched big plays everywhere.
These people are really good at acting.
“Tomorrow is the end of Hydra!”
“Warning again!”
Levi Garrison said lightly.
soon.
In the name of Levi Garrison, the dark doctor once again issued a warning to
Zhanxiong Kingdom——
Immediately hand over the Hydra, the deadline is only today. Otherwise, Levi
Garrison will personally go to Zhanxiong Nation to avenge Hydra, and Zhanxiong
Nation will bear the consequences!
After the warning came out again, there was no small movement around the
world.
But after the War Bear Kingdom received such a warning.
Everyone laughed.
I can understand the previous warning.
But if I warn you again now, it’s a joke.
The number of their gods has reached its peak, and the super god plan has been
completed!
Now to warn? ? ?
There’s something wrong with your brain!

Not only that!
The arctic fox industry of the Siberian Union led by the War Bears.
After a long time of research, we have created equipment specially matched to
the gods.
That is, it is similar to the supporting equipment of the gods of the star country.
But they are rich in resources, so the gods they create are stronger and more
equipped.
Each set of equipment can at least double the combat power of the gods!
There are even super gods' matching equipment!
This is so scary!
The super gods are so strong, they even have matching equipment!
It would be unimaginable to double the strength of the super god!
It is said that hundreds of thousands of sets of divine equipment were created at
one time.
Enough to equip all the gods of War Bear Country in place.
There were more than 100,000 gods.
The overall strength is now at least doubled.
That would be unimaginable!
It has to be said that the success of Arctic Fox Industry's equipment is timely.
Levi Garrison will set foot in Zhanxiong Kingdom tomorrow, and this equipment
is just successful.
Now the War Bear Kingdom is really strong to the point of outrageous!
With this equipment, they are more confident to sweep everything.
Just in time for their strategic plan to begin.
Now in the world, who is their opponent?
Who can not see surrender?
Anyone who dares to touch their little brother?
Who dares to seek revenge on Hydra?
They were even more dismissive of Levi Garrison's warning.
"I think we should be the first to take Levi Garrison and show the world our true
strength!"
"Isn't he coming to Zhanxiong Country tomorrow? Let's wait and see!"
"Hahaha, you think too much, that's what he said! How dare you come? We've
been listening to this warning for months, right?"

...
Everyone laughed.
"But let's respond to Levi Garrison! Drive him to a corner!"
Soon, the War Bear Kingdom released a statement-they must protect the Hydra!
No one can touch the Hydra! If you don't agree, you can come to War Bear
Country! Levi Garrison will come tomorrow if he has the ability!
As soon as the message is sent.
Everyone knows that this is the War Bear Kingdom forcing Levi Garrison to come!
If he doesn't dare to come tomorrow, it will become the biggest joke!
The Return of the God of War [The
Protector] Chapter 3339
They are going to go to Levi Garrison's bragging fault!
To drive him to the end!
Give him two options – either come to War Bear Country, or become a joke.
For today's War Bear Kingdom, their combat power has reached the peak, and
they dominate everything.
That means they can do whatever they want.
Kill whoever you want!
No one can stop them!
Like Levi Garrison, they kill when they say it!
In fact, for them, killing them directly like this means nothing at all.

As easy as stepping on an ant on the ground?
It's okay to step on one or two, but when all your enemies are ants, and you step
on a large area with one foot, it's meaningless.
Now Levi Garrison is an ant.
They can be trampled to death with a single foot.
But so boring.
They still prefer the feeling of playing with people!
Now they are going to target Levi Garrison.
It's just that when Levi Garrison heard the news, he smiled: "Why do people
always refuse to listen to persuasion?"
The dark doctors are more excited than each other, and they will have no sleep
tonight!

They can't sleep!
How long have they waited for this moment?
It's finally here!
Looking forward to it!
Tomorrow is finally here!
At that time, they will know how strong the War Bear Kingdom is!
Specifically how many gods and how many super gods, and how many super gods
go against the sky!
And Levi Garrison's strength, they will all know!
They will also witness an unprecedented super war!
Excited!
Can't wait!
Really can't wait!
Can't wait until tomorrow!
At this time, the matter between Levi Garrison and the War Bear Kingdom had
heated up.
Everyone is waiting to see the joke.
At this time, the Olympic Empire contacted Levi Garrison and asked him if he
would go to War Bear Country tomorrow.
Before the Olympic Empire wanted to wait to go to the theater.
Levi Garrison replied with a very positive answer – go.
Let the Olympic Empire go to the theatre.
Also looking forward to the Apocalypse Empire, Heilongguo, Dongdao and
Xingguo, etc.
They all generally know Levi Garrison's strength, and they understand that Levi
Garrison will not blindly provoke the Xiong Kingdom.
Since the warning was given and the deadline was given, then he was sure.
Then tomorrow's battle will be full of expectations!
Blackhawk agents are also looking forward to it.
He is actually a double-sided agent now, betting on both sides.
Tomorrow will be the best time for him to test Levi Garrison.
Tomorrow he will understand whether Levi Garrison has the strength to make
him bet.
Is it possible to wrestle with the forces behind the War Eagle Nation?
Everything depends on tomorrow!

These are all people who know Levi Garrison and look forward to his battle with
Zhanxiong Kingdom.
However, most people don't know Levi Garrison's strength, and they take him as
a joke.
In short, the anticipation for tomorrow is full.
Everyone is waiting for tomorrow!
Soon, the remaining half day passed.
Levi Garrison's time has come!
The deadline for warning the War Bear Kingdom has passed!
Doctor Dark once again issued a statement-the deadline that Levi Garrison gave
them has passed, and the War Bear Kingdom will have no chance.
This means that there will be no regret medicine to buy in Zhanxiong Nation in
the future!
Even if they regret it now, they will take the initiative to hand over the Hydra.
Still useless!
The War Bear Kingdom has already caused consequences, and can only bear it.
Levi Garrison has said it, and the consequences are at your own risk.
Now the War Bear Kingdom has no way out.
It's just that they didn't realize it at all.
Take Levi Garrison as a joke!
They are still as arrogant as those before!
as a result of?
They want to see what the consequences are!
How can Levi Garrison take them?
It's like an ant threatening hundreds of thousands of mammoths at your own risk
or something.
They want to see how this ant makes them take the consequences?
The Return of the God of War [The
Protector] Chapter 3340
No one would care about the genius of this ant!
Because they are the gods of this world now!
They are the masters!
It's not just them who think so!
The whole world thinks so!
They really couldn't think of what Levi Garrison could do to them.

This is the self-confidence of the first force!
At night, Hydra's transformation plan for their organization was also completed.
For them now, making a god is simply too easy.

In the Hydra organization, everyone has become a god.
Of course, all the members of Hydra are carefully selected and tested.
Qualifications are top notch in every aspect.
Everyone's roots are excellent!
Therefore, it is easier for them to become gods.
Next they even have to try the super god plan.
After all, being strong is strong.
Of course, no matter how strong it is, it is not as strong as the current War Bear
Kingdom.
Relying on the War Bear Kingdom, they can become overlords.
Spicy and spicy!
Whatever you want!
Just hearing Levi Garrison's provocation, everyone in Hydra laughed.
Levi Garrison seeks revenge on them?
Crazy?
Such a large organization, 180,000 people seek revenge from them.
The results of it?
Haven't they become their lackeys one by one?
Revenge is possible!
But you have to be strong?
Now even if they don't rely on Zhanxiong Nation, they are strong in themselves.
All Hydras are gods.
Moreover, they hide their selfishness and use the best resources and technologies when building gods.
This allows them to win at the starting line after becoming gods, and they are
stronger than ordinary gods.
And they just got the arctic fox industry special gear.
Hydra has an excellent relationship with the arctic fox industry, and arctic foxes
have specially created equipment for them according to the characteristics of
each of them.
Therefore, their god matching equipment is stronger!
Six leaders say so!

After combining the equipment, although the combat power is not up to the standard line of the super god, it is close.
In this case, the combat power of the entire Hydra is so strong that it explodes.
Just their own words, Levi Garrison can't take revenge.
Not to mention the War Bear Kingdom and the Siberia Alliance behind them.
The Siberian Union is now too strong.
It was only covered up by the single light of War Bear Country.
But they are strong.
If anyone attacks the War Bear Country, the Siberian Union will also stand up.
At that time, the number of gods cannot be estimated.
With such a powerful force, they couldn't figure out why anyone would seek
revenge?
Is it bad to live?
Hydra is now the same as War Bear Kingdom.
are immersed in enormous power.
Even the message of the revenge Hydra organization was ignored.
Because they are not afraid of Levi Garrison, or Levi Garrison is an ant in their
eyes.
To deal with an ant, do they still need to understand his various situations and
information?
impossible!
They even played games and made a bet on whether Levi Garrison would dare to
come to War Bear Country tomorrow.
Some people specialize in opening the market, betting on the treasures of heaven and earth or some artifact equipment.
Not only did everyone from Hydra bet on it, but even after the War Bear Nation
or the Siberian Union heard about it, they all came to bet.
The stakes made for a while were more than all the resources possessed by a
power like the Olympic Empire.
This is the power of the War Bear Kingdom!
Just opening the bet did it!
Shock the world!
This is too strong.

Can anyone compare?
Every country has a corresponding forbidden area.
However, these first-level forbidden areas are basically untouchable.
But the War Bear Country swept all the forbidden areas in their territory.
Now has super scary resources.
This is unimaginable!
Even the senior officials of War Bear Country made a major decision overnight…
The Return of the God of War [The
Protector] Chapter 3341
They will count all the gods of the War Bear Kingdom and the Siberian Union in
the Siberian Plateau tomorrow!
They will show their cards to the world in all directions!
God supporting equipment and even super gods will also be displayed!
This time, Zhanxiong Kingdom will no longer keep secret cards!
They will show all their cards!
Because they are not afraid of revealing their cards!
Even if the whole world knows what their cards are, you can't do anything about
it.
So powerful, what can you do against it?
This is the first part of their strategic plan!

To shock the world!
Then it will sweep everything!
Find them one by one!
Those who obey me prosper, those who oppose me perish!
As soon as the news came out, the whole world was shocked!
Everyone is going crazy!
The War Bear Kingdom will use Levi Garrison to demonstrate their superior and
tyrannical combat power!
I'm afraid that after Levi Garrison is cleaned up tomorrow, Zhanxiong Kingdom
will take advantage of the situation to attack other people.
This is everyone's concern.
Many people began to regret not joining the Siberian Union!
There are also a group of people watching the hot coax, and they began to speculate about how many gods there can be in the Zhanxiong Kingdom?
The last time it was exposed, it was at least 100,000 plus gods.
But no one knows the exact data.

And they build gods too fast.
Mature technology and abundant resources.
You can always create a god if you want to.
Now add the Siberian Union, which was once ignored by everyone.
There are more gods!
Some people speculate that there are about 150,000 gods!
Some people have begun to boldly guess that it may reach the terrifying number
of 200,000!
This shocked everyone.
But also looking forward to tomorrow.
Not to mention what surprises Levi Garrison can bring here, just the fact that War
Bear Kingdom will count the gods tomorrow is enough to make people excited.
Sleepless nights! ! !
A sleepless night for almost everyone!
Most of the things of tomorrow have been foreshadowed for a long time.
I've already had enough appetite, and I'm full of anticipation.
That is to say, Levi Garrison is still sleeping, and the others can't sleep.
Doctor Dark was running around excitedly, otherwise there would be nowhere to
vent his energy.
Of course some people are not very interested in the things of tomorrow.
For example, the forces behind the War Eagle Nation.
They are indifferent to it.
No matter how powerful you are, what does it have to do with them?
They think they are all crushed like weak chickens.
Others don't care.
That is Daxia's Town Demon Division.
Zhen Mosi didn't care about it at all.
They are still looking for the seedlings of Linggen Linggu…
In particular, the Tenjin Division has long attracted the attention of many factions in the Town Demon Division.
They have already found a lot of seedlings.
Tenshinji are all gods, and it is normal to be found.
And there are a lot of talents in the gods.
Possess the best spirit root spirit bone.
Young Commander Tian Ce needless to say.
The most important thing is that the spiritual roots and bones of the five Azure

Dragon (Qinglong) people are even better, which has attracted the attention of
too many people.
These factions almost fought over the five of them.
However, if you train the five Azure Dragon (Qinglong) people, it will be fine.
But now someone has actually attacked the bones of the five Azure Dragon (Qinglong) people. These are some of the extremists that Xu Qingya and the
others called them that day.
They won't cultivate Azure Dragon (Qinglong) or anything.
They just want to dig out the spiritual roots and bones of the five Azure Dragon
(Qinglong) people and transplant them into their own bodies.
Xu Qingya and several others said that such people were in the minority.
But that is the root bone that has never met the best, and now after encountering the best root bone of the Azure Dragon (Qinglong) five people,
there are not a few people who pay this kind of attention.
Even super!
A group of people have already come to test the roots of the five Azure Dragon
(Qinglong) people.
After the test, the idea of digging out the root bone for grafting got deeper and deeper.
The roots of the five Azure Dragon (Qinglong) people are better than they imagined!
If it weren't for the large number of people, it is estimated that it would be done
directly.
The Return of the God of War [The
Protector] Chapter 3342
But more and more people are making up their minds.
They are all thinking about when and how to do it.
Azure Dragon (Qinglong) and the others didn't know what the other party was up
to.
I didn't even know there was a root bone graft.
There are many people who come to test their root bones, and they gladly accept
it.
After all, none of these people seem malicious.

Everyone is just communicating.
Today, they also met a few groups of people who claimed to be from the Town
Demon Division and came to test their roots.
The first few people were normal.

But the group of people on the last night, all wearing black robes, did not show
their faces at all.
Like ghosts, they appear and disappear suddenly.
Azure Dragon (Qinglong) also kept an eye on this point. He knew how the others
came and left.
But the group of people stared at him and disappeared under his eyes.
It doesn't matter if they appear.
However, Azure Dragon (Qinglong) and the others didn't care.
It's normal to have strange people in the town magic department!
So many factions…
In a place near the Tenjinji base.
Several people in black robes gathered.
They were the same group of people who had just tested the roots of the five
Azure Dragon (Qinglong) people.
They now have a super big discovery.
"Hahaha… a bunch of idiots! This bone is just perfect? They only see the appearance, but not the essence!"
"I'm afraid they'll never think of it – in fact, the combination of the spiritual roots
and bones of these five people is the most powerful!"
"Yeah! As expected! The root bones of these five people are indeed the legendary Five Elements Spiritual Roots! Each person's root bones correspond to
one attribute of the Five Elements!"
…
These people said excitedly.
Linggen Linggu has always been graded, and now because of the popularity of
the town magic division.
Everyone knows the real reason for the difference in the strength of the gods –
the problem of spiritual roots and bones.
With excellent spiritual roots and bones, natural strength is strong.

But the specific classification, we do not know.
But everyone in the town of demons knows that some terrifying roots are legendary.
There are some powerful factions in Zhenmo Division who are the most powerful.
Many are legendary.
For example, the spiritual bones of the five Azure Dragon (Qinglong) people are
the five elements.
It is a legendary spirit root spirit bone.
Almost impossible!
The five together are the most powerful.
They had heard before that when the five Azure Dragon (Qinglong)s cooperated,
they could exert super-powerful combat power.
A single combat force is very powerful.
Together they are invincible!
This made them consider that the spiritual roots and bones of the five people
may complement each other, and it is very likely that they are the legendary
five-element spiritual bones.
Now that I came to the test specifically, I found that it was indeed the Five Elements Spiritual Root Spirit Bone.
"Hahaha… I really want what I want! This is the root bone we want!"
"But the strongest form of the Five Elements Spiritual Roots and Spiritual Bones
is when these five Spiritual Roots and Spiritual Bones are fused together and
appear on one person! Five people still won't work together!"
"We have to decide on the five elements of spiritual roots and bones!!!"
…
Several people are very excited.
They have long wanted such spiritual roots and bones.
Now it's finally here.
Next, they will dig out the spiritual roots and bones of the five Azure Dragon
(Qinglong) people.
and then transplanted into one person.
Then one person will have the five elements of spiritual roots and bones.
"Originally, we wanted to test the root bone of Daxia's side by side with the

king's daughter! This girl is very talented. I heard them say that her ears are
getting calluses!"
"It seems that I don't need it now! Even if she has a strong root bone, she can't
compare to the five elements of spiritual root and spiritual bone!"
"That's right! Originally, my first target was this little girl! Now it's totally
unnecessary! When I need it later, I'll dig out her root bone and use it! For the
time being, the five elements of the five elements will be enough. It's gone!"
"Hahaha… I never thought that I would encounter such a legendary spiritual
bone in this life!"
…
Several people laughed wildly.
The Return of the God of War [The
Protector] Chapter 3343
It turns out that their first target is Levilia!
This group of people is in urgent need of terrifying, preferably legendary spirit
bones.
They made up their minds on Levilia.
But after hearing the recent performances of the Azure Dragon (Qinglong) Five,
they first came to see the Azure Dragon (Qinglong) Five.
As a result, the five Azure Dragon (Qinglong) people inadvertently blocked the
gun for Levilia.
Of course, if there are no Azure Dragon (Qinglong) five people, this group of
people will not succeed if they directly attack Levilia's idea.
After Xu Qingya's last reminder, Levi Garrison was very careful about Levilia.
Never let a wicked person succeed.
This group of people came to Levilia directly, and it was bound to conflict with
Levi Garrison.

Fighting Levilia's idea is impossible.

Only halfway through the Azure Dragon (Qinglong) five people attracted their
attention.
Otherwise, no one will be bothered.
…
The plans of many factions of the Magic Town are quietly being planned.
And the events of War Bear Country are also fermenting.
In particular, everyone is concerned about whether Levi Garrison will go or not.
Zoey Lopez, Azure Dragon (Qinglong) and others found Levi Garrison overnight.
They all came to persuade Levi Garrison not to go.
If you go, the result is obvious – a dead end.
How can a person be compared to a power that dominates the world?
This is totally impossible!
Even if Levi Garrison had various achievements before, it was different from this
time.
This time, he is facing the terrifying existence alone!
It can even be said that throughout the ages, there is no such powerful existence
as the War Bear Kingdom!
How can this man handle it?
Levi Garrison must die if he goes.
Even if he has any means, how to plan…
In the face of absolutely powerful forces, it is impossible to survive!
There is no possibility of survival!
But they understand Levi Garrison's character!
No matter whether he has the strength to fight against the Zhanxiong Kingdom,
but if he is forced to this step, Levi Garrison will definitely go.
Even if he knew that there was only death ahead, he would still go!
This is Levi Garrison!
They know so much!
So they came to dissuade Levi Garrison from going to War Bear Country!
It must be stopped anyway!
Levi Garrison was in a deep sleep, but after being woken up in the middle of the
night, he was still very angry.
"What are you doing in the middle of the night? It's so noisy!"
Levi Garrison said angrily.
At this time, the crowd immediately gathered around.

Zoey Lopez, who was headed by him, said directly: "I didn't persuade you like this
in King's Landing! But this time I must persuade you!"
"We all know that you are strong! Even we can't compare to you! You are so
strong that you even solved the poison of your daughter! I always didn't believe
in you before! But now my family and I believe that you are extremely powerful!"
"But you don't think about what exactly you are facing?"
"What kind of existence is that in the War Bear Kingdom? It is said that there are
as many as 200,000 gods in them! Even if you can kill again, the 200,000 gods will
exhaust you alive!"
"So no matter who it is for, you can't go! We store our strength, and we will have
a way to deal with the Hydra in the future! Don't be in a hurry! You can't use this
stupid method!"
Zoey Lopez glanced at Levilia and said, "Levilia is just right, you don't want Levilia
to worry about you!"
As soon as Zoey Lopez said this, everyone persuaded Levi Garrison, "Boss
(Master), don't go! Definitely can't go! Going now is really a death sentence!"
"If you want to go now, we can't help you at all! Not even the entire summer!"
"Don't worry! We've been dealing with the Town Demon Division recently! To get
revenge, we must unite with the Town Demon Division or the Tianshi Mansion!"
"We'll have a long-term plan for revenge! I'm really not in a hurry at this time!"
…
Hearing such persuasion, Levi Garrison smiled.
He looked at Zoey Lopez and smiled: "Thank you for your trust!"
"But what you don't know is that my strength is more than that…"
The Return of the God of War [The
Protector] Chapter 3344
/ The Return of the God of War [The Protector]

As soon as these words came out, Levi Garrison's demeanor changed.
The whole person is like a god!
That momentum soared into the sky!
Across the nine heavens and ten earths!
Everyone was breathing quickly.
The heart immediately suffered from pressure and congestion, as if it was about
to explode.
Levi Garrison's coercion was too terrifying.
Facing Levi Garrison, it was like a vast star.
And they are as small as a speck of dust.

Whether it's Zoey Lopez or the five Azure Dragon (Qinglong) people who have
been caught in a fire in the Tenshin Division recently.
Facing Levi Garrison, he felt small.
Their strength is far from enough in front of Levi Garrison!
Levi Garrison's real strength, Doctor Dark and they are also very curious.
How strong is it?
They all hope that tomorrow's War Bear Kingdom can force Levi Garrison's true
strength!
I'm afraid that the Zhanxiong Kingdom and the others are working hard, but they
still haven't forced Levi Garrison's real combat power out.
Then they still have regrets!
Levi Garrison looked at them and smiled: "In your eyes, am I the kind of reckless
person?"
These words stopped Zoey Lopez and the others.
its not right!
The Levi Garrison they knew was calm and resourceful.
Never fight an unprepared battle.
When doing things, you usually think about various ways of doing things.
Rarely does that kind of extreme situation of life-threatening situations occur…
The current conflict with the War Bear Kingdom is not an extreme situation that
is suddenly discovered.
On the contrary, there is still a lot of time.
Even if his strength is not enough, it has been enough for him to deal with it for

so long.
He still has it!
It's just that in everyone's opinion now, this grasp is only that Levi Garrison can
get out of his body and will not die.
As for the revenge Hydra, it's impossible, right?
Levi Garrison is powerful!
But can it be as powerful as the 200,000 gods of the War Bear Kingdom?
unimaginable!
real!
With their heads, it is impossible to imagine what kind of shocking combat power
this must be!
Does this kind of combat really exist?
The super god proposed by the War Bear Kingdom, it is said that at most one can
deal with one or two thousand ordinary gods, right?
Even if it is a little more exaggerated, one person can deal with five thousand
gods!
This should be the limit of the current combat power, right?
But how can you fight the 200,000 gods alone?
And they also have super gods, as well as matching equipment…
this this this…
Have no idea!
What kind of existence can one person match so much?
Even the great masters of Zhen Mosi and Tianshifu can't do it, right?
This kind of combat power can only be achieved by a real god, right?
…
Now that Levi Garrison said this, they naturally believed him.
But revenge is impossible!
No one would think so!
In fact, Levi Garrison can't prove it now.
You can't blow everyone up, can you?
Even if he exploded everyone present, it wouldn't prove how strong he really
was?
There are still people who won't believe that he can fight the 200,000 gods of the
War Bear Kingdom!
After all, this kind of combat power cannot be directly manifested.

Only by directly fighting with the Zhanxiong Kingdom can he prove his true
combat power!
He didn't explain anymore.
Anyway, now Zoey Lopez and the others at least know that they will be fine and
will not stop them from going.
"So you… do you have to go tomorrow?"
Zoey Lopez asked.
"Well! Levilia's poisoning can't just be forgotten!"
"I must have an explanation!"
Levi Garrison said.
"Okay, we'll wait for you to come back! We'll wait for you here!"
Zoey Lopez looked at Levi Garrison affectionately.
She would not go with Levi Garrison because he was in danger.
They all understand that they can't help anything by following Levi Garrison.
It has to be cumbersome!
At that time, Levi Garrison will have to take care of them!
So they didn't follow and didn't cause trouble to Levi Garrison.
"Okay! Don't worry, I'll be back!"
Levi Garrison made a serious guarantee.
This is also the first time in memory that Zoey Lopez trusted himself so much.
The Return of the God of War [The
Protector] Chapter 3345
/ The Return of the God of War [The Protector]
"Don't worry, I will definitely destroy the Hydra!"
Levi Garrison smiled.
Doctor Dark also said, "Don't worry about it! Mr. Ye's strength is much stronger
than you think!"
"Aren't you also curious about the secret of Mr. Ye's resources?"
"Actually, the secret of our access to resources is very simple – that is to go
directly to the forbidden area to get it!"
"Because of Mr. Ye's strength, the beasts can't stop him! Those unknown dangers
don't exist for him at all!"
…
After hearing Doctor Dark's explanation, everyone suddenly realized!
It is so!

Join Telegram Group For Fast update
Those dangers are dangerous to them, but they are nothing to the real powerhouse!
Resources are like Chinese cabbage planted in the ground, waiting for them to fetch.
This also explains that Levi Garrison clearly never left in Daxia.
But his resources are still endless.
That's because he asks for anything in the forbidden area where Daxia is.
Understood!
Everything is clear!
And how Levilia's poison was solved!
He found the King of Evil Gus before, or grabbed the magic medicine of the magic doctor later, which is enough to illustrate this point.
He is strong!
There is no other explanation!
And those gods in Xingguo were beheaded by a sword, and he did it too, right?
…
Realizing that Levi Garrison is very strong, many things can be explained.
Only at this moment did they gradually realize how terrifying Levi Garrison was!
No wonder he has the confidence to provoke Hydra and War Bear Country all the time!
The reason is here!
However, they are still not optimistic about Levi Garrison in their hearts.
Or at all.
Just like this one person challenged the first force.
How to fight this?
This is unimaginable!
Levi Garrison looked at Levilia again: "After Dad leaves, you have to pay more attention! It's better to hide! You are so talented that you will inevitably be targeted by gangsters! Finally, I heard that there are many people in the town magic department who are playing against you! I see your spiritual roots and bones!"
"They will not cultivate you, but will directly dig out your root bone and transplant it into themselves! So be careful! After I leave, I will hide in the

designated place! Otherwise, I may be at a loss for protection. Not you!"
...
Levi Garrison began to remind.
He didn't want to deal with Zhanxiong Kingdom and Hydra by himself, and his
family let him take it away.
Levilia must not have an accident.
To this end, he found a hiding place.
After he left, he immediately told Levilia and the others to hide.
just in case.
Levilia nodded fiercely: "Dad, I know! I will protect myself!"
Others also said: "Don't worry, with us here, Levilia will be absolutely fine!"
In particular, the Huoyun Evil God will also be with Levilia.
His strength, Levi Garrison, is relatively reassuring.
After instructing Levilia, Levi Garrison looked at Azure Dragon (Qinglong) and
the others.
"I've heard about you for a long time! You are hot recently! Your roots are
excellent, even rare! Then you will be targeted like Levilia!"
"If you encounter some vicious guys and forcefully dig out your roots, that's not
good!"
"It doesn't happen now, but it doesn't mean it won't happen in the future! You
have to prevent this from happening! If this happens once, all five of you will be
abolished! Maybe a lot of people are already staring at you now!"
It has to be said that Levi Garrison really forewarned the crisis of the Azure
Dragon (Qinglong) Five.
Also reminded five people specifically.
The five Azure Dragon (Qinglong) smiled and said: "Don't worry, boss, we will pay
attention!"
"Furthermore, we deal with the Town Demon Division every day! This method is
extreme, and they have never heard of it! It won't come to us!"
"And the five of us are not bad!"

“Don’t worry, boss! We can handle our own situation!”
“And the strength of the Tenjin Division should not be underestimated, even if it
is troublesome, we can handle it!”
The five smiled, indicating that Levi Garrison didn’t have to worry.
Azure Dragon (Qinglong) five people are actually very smart, they are always
grasping the situation.
In their opinion, the situation that Levi Garrison said would not happen.
Besides, the five of them have to work together.
It’s no use poaching their roots alone.
Now everyone says that the strength of their roots lies in the fact that the five of
them must unite to exert their greatest power.
Then there is their confidence in their own strength.

Although not as good as Levi Garrison.
But at least they are the kings in the Tenjin Division. If the five are united, it will
not be a problem to fight with the people of the Zhenmo Division.
What’s more, some of the big figures in the town magic department said that
they should cultivate and protect them, and they were very optimistic about the
five people.
That way, it’s even less of a problem.
And they have dealt with the Zhen Mosi for so long, and they have never heard of
a root bone transplant.
What’s more, they have good friends of Zhen Mosi, and even Zhen Mosi’s own
people have never heard of a root bone transplant.
This is all in the legend.
Actually it doesn’t exist.
In reality this is not the case at all.
Therefore, they think they know better than Levi Garrison in this respect.
They want to know more about the situation of Zhen Mosi.
Levi Garrison listens to the wind like rain.
Therefore, they did not take Levi Garrison’s words to heart at all.
But how could they have imagined that this kind of root bone transplant did not

occur in Zhen Mosi for a long time, that was because the legendary root bone did
not appear.
If the legendary root bone appeared, this situation would have already occurred.
Another point is that root bone transplantation is actually not that simple, and it
also costs a lot.
Therefore, a generally good root bone is not worth transplanting at all.
And it turns out that Zhen Mosi is dismissive of people from the outside world.
I think they have no spiritual roots.
just didn't come out.
As a result, after the aura recovered, they only discovered that there were so
many excellent bones after they came out.
They all regretted it.
Levi Garrison naturally saw that several people did not pay attention.
He couldn't help reminding again: "You five and others, listen to me! No matter
what happens! Once I leave, no one will protect you! You also hide like Levilia!
Levilia knows the place. , she will take you there!"
Hearing this, everyone could only nod their heads: "Boss (Master), don't worry!
We will follow Levilia (Junior Sister)!"
"What about you, don't worry about us! Let's fight with all our strength!"
Of course, the five Azure Dragon (Qinglong) didn't even listen to them. They
were the trump cards of the Heavenly God Division. What's the matter with
hiding?
Levi Garrison didn't forget to glare at the five Azure Dragon (Qinglong) people:
"Be sure to hide with Levilia!!!"
"Boss got it, got it! We'll listen to you!"
The five said quickly.
"Levilia, you should set off and hide now! Lao Hei, you two just follow me!"
Levi Garrison was still worried.
Originally, he had to wait until the next day to arrange these people.
Now that it's all put together.

Then schedule it in advance.
“Okay, let’s listen to the boss’s departure!”
Although Azure Dragon (Qinglong) did not want to go.
But now in order to stabilize Levi Garrison, they had to go.
“Set off!”
Then, a group of people all set off.
Under the leadership of Levilia, go to the hiding place arranged in advance by
Levi Garrison.
This time, even if the people from Zhen Mosi came, they would definitely not be
able to find them.
Seeing the backs of everyone leaving, Levi Garrison felt relieved.
He finally has no hidden dangers.
He is not afraid of Zhanxiong Kingdom and Hydra.
I am afraid that other people will harass and intervene during the period.
Now there are no worries.
He went back to sleep…

However, how could the two of the dark doctors fall asleep, and the two were
excitedly running around.
Tomorrow, they will witness a historic moment.
Azure Dragon (Qinglong) and the others followed Levilia to the place where Levi
Garrison hid in advance.
“This place is so good, I really can’t find it!”
Several people exclaimed.
Zoey Lopez said: “Everyone is staying well, don’t let Jun Lin worry!”
“Sister-in-law, don’t worry!”
The crowd assured.
At this time, all the factions staring at the Azure Dragon (Qinglong) five people
panicked.

Because they have been staring at the Azure Dragon Five.
These five people are the fat they are staring at, and each party is staring at it all
the time.

Now they suddenly found that the five Azure Dragon (Qinglong) had disappeared
from under their noses.
Five big living people can't be found like this.
This surprised all the forces.
They were already planning, and they were ready to attack the Azure Dragon
(Qinglong) five.
There are no people now.
Can they not panic?
Next, all parties began to frantically search for the five Azure Dragon (Qinglong)
people.
It's all an idea – I don't want other people to get the Azure Dragon (Qinglong)
Five.
At this time, the group of forces that tested the roots of the five Azure Dragon
(Qinglong) people for the last time also panicked.
"Huh? What's the matter? People disappeared?"
The first person asked in a cold voice.
"Yes! It suddenly disappeared under my nose! I don't know what happened!"
"I've sent someone to look for it! But the situation is not ideal! They seem to be
hiding somewhere! No one can be found!"
...
Several people said in fear.
"Look! Hurry up and find me! People are lost, do you want to die?"
"That's the legendary Five Elements Spiritual Root Spirit Bone!!!"
The leader was furious.
The terrifying coercion is like the pressure of a monstrous river.
A few people panicked!
"We must find the man! We will find it!"
Several people went to look for it immediately.
The headed man said to the people next to him: "If you find someone, you won't
have too many dreams at night! We'd better do it as soon as possible!"
"But we have to be fully prepared! After all, it is difficult to transplant a root
bone, and it will cost a lot of money!"
Several people nodded: "Understood! We will start preparing now!"

...
The Azure Dragon (Qinglong) five would never have thought of it.
In the middle of the night when they were hiding, many factions of the Town
Demon Division went crazy looking for them.
Tenshinji was almost flattened.
One after another.
This made Tenjinji and others very confused.
What exactly happened here?
Why is everyone looking for the Azure Dragon (Qinglong) Five?
what happened to them?
where did they go?
The key point is that Tenshinji himself can't contact them.
The group had disappeared since the middle of the night.
Xiao Feng has been very busy recently, and everyone has not seen him.
Even when everyone went to persuade Levi Garrison not to go, Xiao Feng was not
found.
They looked for Xiao Feng, but Xiao Feng went happily and unrestrainedly.
Fascinated by people.
It is estimated that they do not know about this matter of Levi Garrison.
Therefore, it is impossible to appear!
At this moment, Xiao Feng was indeed mixed with the people of Zhen Mosi.
It's just that there is no joy and happiness, but in the process of chasing love.
Even people like Azure Dragon (Qinglong) didn't think that Xiao Feng was not in
love.
He was just chasing, but the other party kept ignoring him.
Now Xiao Feng is in this painful process.
There was no way, Xiao Feng fell in love with this woman from Zhen Mosi the first
time he saw it.
in a manor.
Xiao Feng stood outside, begging to meet.
It's just that the other party never saw him.
Just when Xiao Feng was disheartened and wanted to leave.
A voice came from inside – are you familiar with the five Azure Dragon (Qinglong)
people from Tenjin Division?

Xiao Feng's eyes lit up fiercely, and he immediately responded:
"Familiar! Too
familiar!"
"My master is their boss! We have a good relationship!"
The Return of the God of War [The

/ The Return of the God of War [The Protector]
"Oh, good, then do you know where the five of them are now?"
There was another voice from the manor.
This made Xiao Feng stunned.
"This… I've been away from Tenjin for a long time, and I don't know where they
are for the time being! But I can look for them! I'll find out where they are soon!"
Xiao Feng said immediately.
"Okay, if you can know where Azure Dragon (Qinglong) and the others are, bring
the information and I will meet you!"
Hearing the voice inside, Xiao Feng's whole body was about to bounce.
He has been striving for it.
She's just the arrogant daughter of other people!

She is also a famous goddess in the town magic department!
He is so different from others in every way…
However, Xiao Feng could not forget it and was unwilling to give up.
It's just that people didn't catch him at all.
It's been difficult to see each other until now.
Now that I hear that we can meet, why is Xiao Feng not excited?
Immediately, they will find the whereabouts of Azure Dragon (Qinglong) and the
others.
He was carried away by love, and he didn't even think about why they were
looking for Azure Dragon (Qinglong).
However, in order to dispel his doubts, the goddess of the town demon again
spread the message: "Don't worry, the reason for looking for Azure Dragon
(Qinglong) and several people is to protect them! They suddenly disappeared,
something may have happened!"
"I get it, thank!"

Xiao Feng immediately ran out to find the whereabouts of Azure Dragon (Qinglong) and the others.
After just looking for a circle, there are not a few people's whereabouts.
Tenjin is already in a mess.
All because of the disappearance of Azure Dragon (Qinglong) and the others.
Afraid that something will happen to them.
Xiao Feng immediately used a communication tool that they used alone.
This communication tool is only used by their own people.
These own people are those who are related to Levi Garrison.
No one else knows at all.
This contact, really contacted Azure Dragon (Qinglong).
Azure Dragon (Qinglong) told Xiao Feng that they were hiding.
Xiao Feng told them what was going on outside, and now the Heavenly God
Division was in chaos.
There are people looking for you everywhere!
This made a few people panic.
Could it be that Levi Garrison was right?
Are they really being targeted by these people?
"Don't worry! Everyone just wants to protect you! Many people, including Zhen
Mosi, saw that you suddenly disappeared and thought something was wrong!"
Xiao Feng said.
This sentence reassured them.
They are also aware of their current identity and status.
In Tenjin Division is the trump card.
In the eyes of the people from Zhen Mosi, it is even more delicious.
They even passed on the technique of qi refining to them.
They are the guests.
How do these people get their root bones transplanted?
"The Tenjin Division also needs you! Now the entire Tenjin Division is in chaos!
You need to take charge of the overall situation!"
Xiao Feng said hastily.
Azure Dragon (Qinglong) and the others all laughed when they found out about
the situation.
If someone really hit them at the root, why did they wait until now and not shoot?
This has been a long time coming.

If you want to do it, you should do it from the beginning!
Why wait until now?
But how do they know that root bone transplants are not for everyone…
Professional secret law is required, and it also costs a lot of money.
After all, if the root bone is transplanted improperly, it will become necrotic, or
the effect will not be achieved.
After all, the root bone is not as simple as surgery.
It is to be transplanted flawlessly, and the effect of the spirit root spirit bone will
also play a role in other bodies.
If the transplant is to be successful, it must be ensured that nothing goes wrong.
I haven't done anything for so long, everyone is preparing for the plan.
And in fact, there are factions that see that they are the five elements of spiritual
roots.
This is even more difficult.
It is even more difficult to fuse the root bones of the five people.
Even the various factions of the Town Demon Division have to find the best way.
Therefore, it takes time.
It's just that they don't know about Azure Dragon (Qinglong).
"The boss is so worried about us! In his eyes, we have always been like children!"

/ The Return of the God of War [The Protector]
"Yes, the boss treats all of us like children!"
"He's going to protect us all! Protect us!"
"It was indeed like this before! It was he who was protecting us!"
…
Several people exclaimed.
Everyone else felt the same way.
Everyone has been guarded by Levi Garrison.
This is very agreeable.
Everyone was very moved.

"But what the boss doesn't know is that we can already be on our own!"
"We're not kids anymore! We can handle our own business!"
"We will all grow up too! Not only to protect ourselves, but also to protect others!"

“We can’t protect the boss now, but there is absolutely no problem in protecting ourselves!”
…
Several people looked at Zoey Lopez: “Sister-in-law! We won’t hide here! We still have things to deal with! Because of our disappearance, it has caused a lot of trouble! The gods are already in chaos!”
“You guys just stay here! Don’t come out if you don’t have anything! Let the boss fight with peace of mind!”
“In addition, after we go out, we will also keep a close eye on the situation on the boss’s side! If there is a need, we will provide help!”
It’s just that Zoey Lopez obeyed Levi Garrison and resolutely refused: “No! You can’t go anywhere until Levi Garrison comes back! Just stay here for me!”
“It’s dangerous outside! King’s Landing can solve the problem! What if he’s not in danger?”
“Sister-in-law! Impossible! The boss’s worries are right!”
“But the boss has never dealt with the people from the Town Demon Division! They have a good relationship with us and are friends! Now that we suddenly disappeared, they are looking for us all over the mountains and fields, thinking that something has happened to us!”
“They are protecting us! How could it be harmful to us? We still need us to take charge of the overall situation! We don’t want to affect the boss!”
“Don’t worry! Sister-in-law! We won’t have an accident! We deserve it! We will bear the consequences ourselves!”
…
The five have made up their minds and are determined to leave.
“No! You can’t go out!”
Zoey Lopez tried his best to stop him.
just useless!
Can’t stop it at all!

The five still left the hiding place.
Before leaving, they also told Zoey Lopez that they should not tell Levi Garrison
about this again.
Because it was dawn soon, Levi Garrison should also go to War Bear Country.
Don't get distracted by these trivial things.
Zoey Lopez had no choice but to tell Levi Garrison.
I can only watch them leave here.
the other side.
After contacting the five Azure Dragon (Qinglong) people, Xiao Feng ran to tell
his goddess without stopping.
Said that he had contacted the five Azure Dragon (Qinglong) people.
At this time, the door of the manor opened, and a peerless beauty came out.
Under a thin gauze skirt, her exquisite figure is looming.
A suffocating beautiful face is full of charm, making people sink, and a slight
smile is really a charming smile and all living beings are attracted.
The eyes are even more captivating, and at a glance, there is an urge to go crazy
and fall under the pomegranate skirt.
This woman is naturally charming.
A frown and a smile are full of style!
No wonder he was so infatuated with Xiao Feng!
Even though Xiao Feng has seen it many times, he is still amazed!
Moreover, this woman herself is a strong man of Zhenmo Division, and there is a
different kind of breath on her body, which is even more attractive.
Xiao Feng has also seen many beauties, and this is the only one who can be
fascinated by him.
"Well, very good, I will do what I say, meet you!"
…
Xiao Feng is also satisfied to see him more often.
The woman looked at Xiao Feng with some doubts, not thinking that he would
have such a relationship with Azure Dragon (Qinglong) and the others.
This was something she didn't know before.
Before, Xiao Feng was ignored, but now because of the relationship between

Azure Dragon (Qinglong) and several people, Xiao Feng is different.
The Return of the God of War [The
Protector] Chapter 3350
"By the way, are you Levi Garrison's apprentice?"
the woman asked.
Hearing that the goddess took the initiative to understand herself.
Xiao Feng nodded fiercely: "Yes! It should be the best one among the master and
apprentice!"
The corner of the woman's mouth raised a smile: "I heard that your master has a
daughter, and the talent is immortal?"
Xiao Feng immediately replied: "Yes! The younger sister's root bone should be
stronger than the five Azure Dragon (Qinglong)! But so far, no one has tested the
younger sister's root bone!"
The woman smiled: "If there is a chance, let me test her!"
"Okay, that's great!"
Xiao Feng was completely carried away by the woman in front of him.

She doesn't realize the deep thoughts of women at all.
...
Shortly after.
The major factions of the Zhenmo Division, who were frantically searching,
suddenly found that the five Azure Dragon (Qinglong) people had appeared
again.
It got them excited.
Thought something really happened.
They are most afraid that others will dig away the root bone first.
Now that it has appeared, everyone's hearts have been put down.
"Quick, quick! Everyone, hurry up and prepare! Hurry up and search for the Soul
Breaker!"
Seeing the five Azure Dragon (Qinglong) people appearing again, all parties in
Zhenmo Division were anxious.
All started to make adequate plans.
However, it is actually very difficult to transplant a root bone in Zhen Mosi.

To dig out the root bone and to ensure the spirituality of the root bone, corresponding tools are needed.
This tool is called a broken spirit knife!
Made of special materials, it is specially used to dig out the root bone, and it can
also ensure the spirituality of the root bone.
Transplanted into other people's body, but also to ensure the effect.
But there are not many swords in the Demon Suppression Division at all.
That's why everyone is preparing.
They're all looking for the Soul Breaker.
When the group of forces knew that Azure Dragon (Qinglong) and several people
appeared, they were about to act.
Because they are always doing this kind of root bone grafting.
With a broken sword…
Of course, if the root bone is to be transplanted, other tools are needed in addition to the broken spirit knife.
It is quite difficult to transplant successfully.
After the five Azure Dragon (Qinglong) came out, they saw that everyone was
concerned and worried about them.
The more and more Levi Garrison's advice was left behind.
All this is contrary to what Levi Garrison said!
…
This night was not a peaceful night for all parties.
So are the War Bear Kingdom and the Siberian Union.
after announcing a major decision.
The gods who have walked all over the world are returning.
One god after another came to the Siberian plain.
There are from everywhere…
The Siberian Union was also involved.
The number of their gods is also surprising, even War Bear Kingdom did not think
of it.
The number of gods far exceeded their expectations.
Usually one by one hidden and tucked, now they are all exposed.
But they are not to blame.
They are better.
Now is the time for all parties.
For War Bear Kingdom, there are surprises everywhere!
The estimated number is rearranged again and again!
The Titan God of War and others looked at the densely packed gods on the

Siberian Plateau, and he smiled: "Don't say anything else! There are so many
people, one must drown Levi Garrison with a spit?"
"Hahaha…that's for sure!"
"I never thought that one day, we would experience such a great moment! Such a
number!"
…
The six heads of Hydra looked at the darkness below and were amazed.
As for Levi Garrison, it's just a joke.
One-man confrontation?
The Return of the God of War [The
Protector] Chapter 3351
Ridiculous!
If Levi Garrison came and saw so many gods, he would be scared to death, right?
"The world will tremble tomorrow! It's even scarier than you think!!!"
In a blink of an eye the night passed.
After Levi Garrison woke up, there were flashes of cold light in his eyes: "This
moment has finally come!"
"Zhanxiong Nation ignored my warning, right? Good! I will kill you today and
regret it!"
Immediately, Levi Garrison and the God of Darkness embarked on the journey to
Zhanxiong Kingdom.
War Bear Country?
I am here!

I conquer!
Today, I will step down here!
Now it's useless even if you regret handing over the Hydra!
A lot of gods, right?
good!
I will kill you godless!
Before the Apocalypse Empire was all appetizers, this time it was a big meal!
These super gods are all jokes in Levi Garrison's view!
He was calm.
However, both Doctor Dark were shaking with excitement.
Everything that happened next was a historic moment.

How can you not be excited?
After receiving the news of Levi Garrison's departure, the people of the Olympic
Empire had already gone to the War Bear Country, and they were going to watch
this historic moment.
…
And after a night.
All the gods of the Siberian Union are assembled!
Including recently created gods.
Also all in place.
exaggerate!
too exaggerated!
The number is simply staggering!
I thought I had chosen a huge plain, but I thought the place was too big.
I never thought that the number of gods would fill this place.
Not a single vacancy was left.
Not even enough.
This frightened everyone.
This is too much!
"It's all my fault that these guys usually hide and tuck them, but now they're all
exposed, right?"
All the high-ranking people were laughing from ear to ear.
The point is that the number is too exaggerated.
Surprise constantly!
There are so many surprises in War Bear Kingdom!
After the event, the Siberia Union also gave a huge surprise!
Next, the god package of arctic fox industry will be released!
Because most of the gods already have the corresponding matching equipment,
but there are many gods who are new and do not have the corresponding equipment.
Now the arctic fox industry is all equipped with supporting equipment.
In a short period of time, they are also perfectly integrated with the supporting
equipment.
This is the ultimate power of the Siberian Union!
Do not!
And super gods!
The super god is not in this team, but here at the reviewing stand.
And the three most mysterious and powerful gods did not show up!

Although they are all around!
This will be their ultimate surprise!
It will be revealed at the last moment!
Seeing such a powerful team of gods, everyone laughed.
"I hope Levi Garrison will come! I hope Levi Garrison is stronger! It can last
longer!"
Everyone is thinking about it now.
It would be meaningless if Levi Garrison died when he came.
"Why do I feel that Levi Garrison is very powerful and surprises us?" someone said.
Several heads of Hydra also joked with the Titan War God: "If Levi Garrison is so
powerful that no one can stop him, will you hand us over?"
The Titan God of War pointed to the densely packed gods below, and said with a
smile: "Just in this posture, do you tell me how strong Levi Garrison is?"
"Ha ha ha ha……"
The Return of the God of War [The
Protector] Chapter 3352
Everyone laughed.
According to the current posture of the Siberia Alliance, the number of these
gods and their combat power far exceeded expectations.
No official liquidation has started yet!
But everyone already has data in mind.
As soon as this data is said, it is estimated that Levi Garrison can be scared to
death on the spot!
Not to mention he came to challenge!
"Levi Garrison doesn't even know what he is about to face???"
"If he dares to come! He is also amazing! He will also be a witness to history! This
will be the glory of his life!"
"I'm already looking forward to it now! The moment Levi Garrison comes!"

…
Several heads of Hydra began to fantasize in their minds.
In fact, these high-level executives of the War Bear Kingdom also showed a
picture in their minds.

When it comes time for the real inventory review, when the real data comes out,
the whole world explodes!
After they showed their strength, the whole world surrendered.
The world trembled wildly for it!
At that moment, they were about to float up.
Looking forward to that moment!
"Don't come, Levi Garrison, he is an appetizer and our pedal!"
Everyone began to worry about whether Levi Garrison could come.
If Levi Garrison doesn't come, all their ceremonies can be carried out.
But when Levi Garrison came, the effect would be even better.
After all, the whole world is watching this!
At this moment, the War Bear Kingdom received a message——
The Olympic Empire is here! Claiming to be here to watch the ceremony!
"Hahaha……"
Everyone in the War Bear Country began to laugh.
"Have you seen it? The second force is here to watch the ceremony! It's like the
one who changed direction surrendered to us!"
Shortly after.
Representatives from the Apocalypse Empire, Heilong Kingdom, Xingguo, Dongdao and other forces came to War Bear Kingdom one after another.
Euphemistically, it is called watching the ceremony, but in fact, it is all to see the
hot coax.
And most of them have suffered losses at the hands of Levi Garrison.
We all know that Levi Garrison's strength is not cheap, and he wants to know
whether he has the strength to fight against the entire War Bear Country.
For those who came to watch the ceremony, the War Bear Kingdom did not stop
them.
Just let them in.
What are they missing the most now?
God?
no!
is the audience!
Although the whole world is staring at them, how can there be a live audience!
Now the more audience the better!
So they are welcome!
The audience is here!

So what about Levi Garrison?
“I just got the news that Levi Garrison is on his way!”
At this time, a message came, which made everyone in Zhanxiong Nation excited.
“Levi Garrison actually dared to come! He has courage! I admire him a little!”
The head of Hydra said.
“But it may be that the ignorant is fearless! He doesn’t even realize how strong
we are now?”
“Well, there is a possibility! Don’t mention the number of gods we have now! It’s
the 100,000 gods that we said before, and it is estimated that people will not
believe it! After all, the number of our gods is too exaggerated, too much beyond
the norm! Second The Olympic Empire might only have 4,000 gods, and the first
one is 100,000?”
“Well, there is a possibility! Therefore, Levi Garrison didn’t believe in the number
of gods we had, so he dared to come!”
…
Everyone began to analyze why Levi Garrison dared to come.
“Okay, everyone be quiet! Let’s think about the plan after dealing with Levi
Garrison!”
A group of high-level people gathered to discuss.
The six heads of Hydra were also drawn in.
First, their status is not low now.
Second, they are resourceful.
“I think this first knife should be cut to the War Eagle Nation!”
The great leader suggested.
“Yes, War Eagle Country, how low-key is it after the aura recovers? I don’t think
they are not strong, but they are holding back their big moves!”
“War Eagle Nation has always been unpredictable! They’re afraid it’s not that
simple!”
The Return of the God of War [The
Protector] Chapter 3353

“Therefore, it is absolutely right to slash them with the first knife! First, to shock
the world; second, to eliminate all hidden dangers!”
…
After some final discussions, the first sword of War Bear Country’s strategic plan
must be on War Eagle Country.
Then there are other forces.
“The second goal has also been set! That is the Great Summer in the East! This is a
mysterious country! It’s more complicated than we thought!”
“The benefits of winning Daxia are more than we thought! What’s more, after
winning the War Eagle and Daxia in a row, the whole world will surrender! They
are all scared!”
…
The second goal of their strategic plan has always been Daxia’s.
Only now the first goal is also there.

wait!
They are waiting for Levi Garrison’s arrival!
Then review the gods!
Know the true number of gods!
At this time, the Star of Siberia, which counts the number of gods, has been
counted.
“The number has been counted! The data is out!”
When this message came, a stone stirred up a thousand waves.
Many senior executives are starting to go numb.
I was so nervous that my body was shaking.
“Don’t talk about it yet! Let’s talk about it when Levi Garrison arrives!”
They are gearing up.
Excited!
He resisted his curiosity abruptly, waiting for Levi Garrison’s arrival.
Soon after, another group of people came to watch the ceremony.
The identity of this group of people, Zhanxiong Nation did not ask at all.
Anyway, now is the time when there is a lack of audience, the more people the
better.
They will not refuse.
But these people actually have a bloody feud with Hydra.

Before the organization to win them over, many chose not to participate and
forget the hatred.
However, some people think differently, even though they can't take revenge on
their own.
But it's okay to watch Levi Garrison take revenge.
They chose to stand with Levi Garrison at this time.
Even dead!
To put it bluntly, they are here to cheer on Levi Garrison!
Levi Garrison is their role model!
No matter how powerful your enemy is!
No matter how hard the road ahead is!
Levi Garrison resolutely chose revenge!
the other side.
In the big summer gods.
When the five Azure Dragon (Qinglong) people got the news that Levi Garrison
was going to War Bear Country, they were also very nervous.
Naturally, I hope that Levi Garrison can survive and even successfully avenge the
Hydra!
"It's a pity that our strength is too small to help the boss!"
Phoenix looked sad.
At this time, Kirin (Qilin) suddenly said: "We can't help, but someone can!"
"Are you talking about the Town Demon Division?"
Now the other four have come to the spirit.
In fact, they all wanted to help Levi Garrison, but they never thought about
inviting foreign aid.
Isn't this already available?
"We have all seen how strong the masters of the Town Demon Division are! Not
to mention that they can defeat the War Bear Kingdom, but at least if they go,
can the boss be safe and sound?"
Kirin explained.
There was hope in the eyes of several people: "Yes! It is true! Those young people
who came out of the town magic division are extremely powerful! Not to mention the top powerhouses!"

“They can! Let’s go and find out!”
…
The five began to contact the major factions of the Town Demon Division.
Don’t wait for other people to react.
And the group of mysterious people in black robes found them.
Azure Dragon (Qinglong) was very excited to see them, and immediately expressed their thoughts.
“Well, okay, come with us!”
In this way, Azure Dragon (Qinglong) and the others followed them away without
any precaution.
Several people led the way, not knowing where to go.
And Zoey Lopez, who was hiding in the secret base, went crazy.
Now I don’t know what Levi Garrison’s situation is, and even Azure Dragon
(Qinglong) and the others have left privately. I don’t know if there is any danger.
She wanted to go out to look for it, but was stopped.
You can’t cause trouble to Levi Garrison again and again.
Otherwise, there will be more and more troubles.
Everyone is right.
There are many people staring at Azure Dragon (Qinglong), but there are also
many people staring at Levilia.
The Return of the God of War [The
Protector] Chapter 3354
/ The Return of the God of War [The Protector]
Many people are looking for Levilia.
Once found, with Levilia’s talent, it will definitely be in danger.
Xu Qingya and the four from the North Pavilion of Zhenmo Si immediately rushed
to the Tianshen Division after hearing the five people’s cry for help.
As a result, the five Azure Dragon (Azure Dragon (Qinglong)) people are no
longer there.
“No, their breath…”
Xu Longri suddenly said in horror.
When the other two heard the words, their expressions changed drastically.
Xu Qingya was also terrified, and asked in horror, “They? Are you sure it’s their
breath?”

Xu Longri felt it carefully and said with certainty: "Yes, it's their breath! That's
right! I'm sure of it!!!"

"They… they actually came? This, this…"
The eyes of the other two were about to fly out, which was really appalling.
"Something must have happened to them! Meeting them! The five Azure Dragon
(Azure Dragon (Qinglong)) people will not end well!"
"Let's go find it! Find someone before they do anything!"
Xu Qingya said with a cold face.
"But even if we find it, can we deal with it?"
Xu Longri asked, with a huge fear in his eyes.
"Try it! You can't just watch how many Azure Dragon (Azure Dragon (Qinglong))
people were killed, right?"
A look of firmness flashed in Xu Qingya's eyes.
Immediately, the four set off to find the traces of Azure Dragon (Azure Dragon
(Qinglong)) and the others.
At this time, Levi Garrison had just arrived on the land of War Bear Country.
"Ahead is the Siberian plateau! The place where birds didn't poop before has
turned into an oasis!"
The Dark Doctor lamented the changes in Reiki revival.
"Today, I don't mind changing it back to the way it was!"
Levi Garrison said coldly.
Shortly after.
The entire Siberian plateau exploded.
Because Levi Garrison is here.
He's in!
I don't know how many eyes looked at Levi Garrison.
I admire his courage and courage!
Of course, there are also many people who are insulting Levi Garrison because he
has no brains at all!
Stupid!
You know exactly what you're facing!
The results of it?
Dare to come!

When the three of Levi Garrison came, the senior officials of the War Bear Kingdom on the high platform said: "Levi Garrison, you are so courageous! We admire you! Even three people dare to come!"
At this time, Doctor Dark smiled and said, "Sorry! The two of us are here to see Recoo! Mr. Ye is the only real one!"
"one person?"
"That's right, there's no difference between the two you brought with you!"
"Hahaha……"
A group of people laughed wildly.
The dark doctor swept across their faces and murmured in his heart: "Laugh! Smile more! While you can still laugh! You won't be able to laugh later!"
And when the six heads of Hydra and other members saw Levi Garrison, their eyes were full of fire.
Anger rose to the sky!
Their three leaders and twenty members all died at the hands of Levi Garrison.
Since the establishment of the Hydra organization, no member has been killed.
Only Levi Garrison did it.
Therefore, they hated Levi Garrison to the extreme!
It's a shame for them!
And with the shame of being overwhelmed by IQ.
I thought they had calculated Levi Garrison.
In the end, he never thought of being plotted by Levi Garrison and killed so many people!
The head of Hydra said to Levi Garrison, "Did Levi Garrison see it? All the members of our Hydra are here!"
Levi Garrison narrowed his eyes slightly, and his eyes swept over the Hydra members one by one.
In fact, when they encountered Hydra for the first time, they poisoned their daughter.
Levi Garrison imprinted all these features in his mind.
Now that I see it, I will never forget it.
Today, one by one must die!

The big head looked at Levi Garrison and laughed: "We will stand here today!
Waiting for you to kill!"
"Hahaha……"
The members of Hydra laughed wildly at Levi Garrison.
They were about to see the helpless feeling that Levi Garrison wanted to kill but
couldn't.
If you want to kill the Hydra, you can!
But the premise is to step over the corpses of all the gods of the Siberian Union.
Levi Garrison also smiled at them: "Don't worry! Soon you will go to hell! Those
brothers who died in my hands are so lonely waiting! I have been waiting for you
to go down to accompany them!"
"Levi Garrison, you are courting death!!!"
"Levi Garrison, I killed you!!!"
"Levi Garrison, you must die!!!"
…
A word from Levi Garrison made these people break the defense directly.
This completely touched the weakest and most shameful part of their hearts.
Therefore, they are in a hurry.
I can't wait to come down and fight Levi Garrison directly.
It's just that they didn't dare to attack because of the senior officials of the War
Bear Country.
Still have to go through the process.
"Levi Garrison, after you die today, don't ever try to get rid of your daughter's
poison!"
The big boss began to fight back.
The Return of the God of War [The
Protector] Chapter 3355
/ The Return of the God of War [The Protector]
Levi Garrison pokes their softest spot.
They also have to fight back.
What is Levi Garrison's weakness?
Of course it's his daughter!
It's just that after these words came out, they didn't see what they wanted.
Levi Garrison didn't become frantic and impatient, but looked calm.

On the other hand, the two doctors in the dark next to him were already laughing
from ear to ear.
When is this.
Are you still talking about Levilia's detoxification?
Join Telegram Group For Fast update
Simply ridiculous!
This made the Hydra group completely dumbfounded.
What the hell is going on here?
Why didn't they have any reaction at all when they mentioned this matter?
wrong!
Not right!
The big head's face turned green.
You didn't say anything wrong, did you?
But why can't Levi Garrison be stimulated?
Can't figure it out!
Others can't figure it out either.
Where is the problem?
They just didn't dare to think about Levilia's detoxification!
The Hydra people looked at each other in dismay, thinking about what went
wrong.
Levi Garrison smiled and said at this time: "Sorry, my daughter's poison has been
resolved! I'm sorry to bother you!"
The words are not astonishing and they will die endlessly. As soon as these words
come out, the Hydra will explode!
Poisoned? ? ?
How is this possible!
Suddenly, everyone in Hydra thought that Levi Garrison had said before that if
his daughter's poison was solved, he would come to take revenge?
Now to take revenge, doesn't it mean that his daughter's poison has been solved?
But this is impossible!
All along, they have been staring at Levi Garrison and Levilia.
The remaining half of the poison cannot be solved.
What's more, the magic medicine that could detoxify was robbed by mysterious
people.
What if Levi Garrison grabbed the magic medicine?

The magic medicine is contained in the mechanism box.
That trap box is the lost trap technique of Da Xia – the secret lock.
It won't open if you get it.
This is definitely not possible!
Is there any other way for him?
But they kept staring, Levi Garrison didn't make any movement?
This is impossible!
They don't want to believe it!
But on second thought, if she hadn't detoxified her daughter, could Levi Garrison
come swaggeringly?
Is this really detoxifying?
But at this point, arguing about it is pointless.
It doesn't matter if it's detoxified!
If Levi Garrison dies, his daughter will die too…
They can't mess up.
They are the soaring rulers today.
How could he be in chaos first because of Levi Garrison's arrival?
The group of Hydra quickly stabilized, but stared at Levi Garrison with venomous
eyes.
Levi Garrison continued to walk forward and saw acquaintances on the high
platform, the Titan God of War and the like.
The Titan God of War even greeted Levi Garrison: "I really can't figure it out! Why
do you have to provoke us? Do you think that you have lived too long?"
Levi Garrison smiled: "You guys made a wrong decision!"
"Shouldn't, shouldn't, shouldn't, should've covered up the Hydra! You violated
my taboo!"
"And I've given you the chance again and again, but you didn't listen to it! If you
handed over the Hydra earlier, I wouldn't embarrass you! But now it's too late,
it's useless to hand it over! I'm all here Revenge yourself!"
The Titan God of War also laughed, and immediately raised his tone, like a
thunderstorm: "Levi Garrison is too confident, right? We are no longer the War
Bear Kingdom of the past! Now we have the most powerful force in the world!

We are the masters of this world! We will protect whoever we want!"
"Don't say those big words! All the members of Hydra are here! Kill them if you
have the ability! I want to see what you can do to the sky?"
The huge surprise they prepared was right next to it.
How does Levi Garrison go against the sky alone?
They can't stand it anymore!
When the true strength of the Siberian Union is shown, what will it be like?

"But Levi Garrison, you are lucky! You will be a witness to history!"
"You will see and feel the real invincible strength of my Siberia Union!"
"This is a great honor for you! You should be proud!"
The Titan God of War smiled.
Levi Garrison swept around, and many people came to watch.
He asked with a smile, "Do you believe that I can step down here today?"
silence!

Although they all knew that Levi Garrison was powerful, they really didn't believe
it in the rising Zhanxiong Kingdom.
Now they are even more excited in War Bear Country.
No one would think that Levi Garrison would win!
This is totally impossible!
Seeing this, Levi Garrison also smiled: "Actually, I don't know how strong I am! I
will show it today!"
The crowd mourned.
There is no one who believes in Levi Garrison!
At this moment.
A message came from Hydra's subordinates.
"The big boss and the big things are bad. We haven't been in contact these days.
Not long ago, we found out that the organization that avenged us disappeared!"
This made several leaders stunned: "Huh? People disappeared? What's the
situation?"

“I just found out, that organization has been wiped out! All dead!”
“what?”
The Hydra crowd screamed in surprise.
I am also afraid that other people in Zhanxiong Nation will see that they dare not
act too exaggerated.
“Who did it?”
the chief asked.
“This person is Levi Garrison!!!”
The words are not surprising and die endlessly.
As soon as these words came out, everyone in Hydra looked at Levi Garrison not
far away.
This is the first time they feel that Levi Garrison is a little scary!
He seems to be stronger than expected?
“I remember that there are nearly 200,000 people in that organization? There are
thousands of gods, right? Are they all wiped out?”
They were shocked.
If Levi Garrison did it alone.
That’s the super god they just planned.
And it’s not a super god who just passed the line, but a top super god.
That’s kind of scary!
“It doesn’t stop there! In the time before this organization collapsed, when Levi
Garrison warned us, there were killings all over the world day and night! Levi
Garrison did it all!”
“The people who died were all those who deceived Levi Garrison’s resources
when the reward was issued, and he found them all and killed them all!”
…
“what?”
Another message came.
The eyes of the heads of the hydras were about to fly out in amazement.
“More than that! Xingguo also deceived his resources! He went to Xingguo to
destroy all the gods, leaving only Li Chengmin alone!”
“There are more than 1,600 gods in Xingguo, and they have also developed
matching equipment for gods!”

“As a result, the whole army was wiped out! You see that Li Chengmin is the only
one who came to watch the star country today, and the others are not!”
…
After knowing this information, Hydra was shocked!
“No wonder Levi Garrison came to challenge! So he is so confident! This is a super
god!”
The complexions of Hydra and the others changed.
I also understand where Levi Garrison’s confidence comes from.
It is a great strength!
“But what if a super god can fight again? Giving him 10,000 gods will tire him to
death! Unfortunately, the gods of the Siberia Alliance are much more than 10,000!”
The Hydra and the others thought about it, and they all felt at ease.
At this time, Levi Garrison had already reached the predetermined position, and
behind the barriers were all the gods of the Siberia Alliance.
And the Hydra is hiding behind all the gods.
If you want to move them, walk over the corpses of all the gods!
At this time, Levi Garrison stepped forward, and he shouted: “Levi Garrison is
coming to the appointment! Show your cards! Today, I will kill the Hydra! No one
can stop it!”
The Return of the God of War [The
Protector] Chapter 3357
/ The Return of the God of War [The Protector]
The domineering words reverberated in the sky like thunder.
This also means that the final battle between him and the Hydra of the War Bear
Country is about to start!
Levi Garrison is bound to destroy all the Hydras!
Today is their day of death!
No one can stop it!
God blocks and kills God, Buddha blocks and kills Buddha!
No one can protect it!
No matter what kind of trump card Zhanxiong Nation has, they can’t protect
Hydra in the slightest!

The people in the War Bear Kingdom and Hydra on the review stage were all
excited.

The moment has finally come!
"Buzzing…"
Suddenly, there were bursts of sword cries in the air, creating a thunderous
potential between heaven and earth.
Terrible sword energy reverberated! ! !
Levi Garrison doesn't know anything about swordsmanship, he relies entirely on
his own powerful strength!
Divine Tribulation is a medium tool for him to transmit power!
But the momentum is too much!
The terrible sound of sonic boom exploded one after another in the audience!
Everyone was shocked, looking for the source of this movement everywhere!
The next moment, everyone saw-
It turned out that there was a sword floating in front of Levi Garrison!
God robbery!
Seeing the calamity, the expressions of the people present changed greatly!
Many people have seen this sword!
Isn't this the sword that killed the gods of the star kingdom?
It turns out that the guardian of Daxia's secret is none other than Levi Garrison! ! !
Understood!
Everything is clear!
Why did Da Xia have no gods at first, but he was safe and sound?
That's because Levi Garrison is there!
This sword turned out to be his!
This answered everyone's doubts.
Never thought!
Many people don't even think about it!
Will Levi Garrison be so strong?
Everyone now kind of understands why he's here!
This is justified!
The expressions of the Hydra people changed one by one.
In a short period of time, they have been shocked again and again!
The power of Levi Garrison was completely beyond their expectations.

How strong can he be?
I don't know why, some of Hydra's hearts were trembling, and they had a bad
premonition.
Levi Garrison seems to be able to bring them fear.
Even with such a backer, they are actually afraid…
However, when the senior officials of the War Bear Kingdom saw this, not only
were they not afraid, but they became excited one by one.
Isn't it what they thought that Levi Garrison was stronger?
They were expecting Levi Garrison to be stronger yesterday!
The stronger the better!
Otherwise it will be too boring!
If he was directly scared to death, what's the point?
So Levi Garrison must be strong!
How to be strong?
They all wish that Levi Garrison could destroy a country by himself!
That's how fun!
Seeing Levi Garrison's posture now, it is also in line with what they want.
Levi Garrison was strong enough to not pull his hips.
So they are happy one by one.
He almost cheered at Levi Garrison.
If you don't know, do you think it's your own?
Levi Garrison's eyes were indifferent, usually the barrier in front of him.
He also understands that there are thousands of troops behind the barrier, and
all the gods of War Bear Country are here.
That would be a terrifying number!
Terrifyingly exaggerated!
But what about Levi Garrison?
Can you stop the sword in his hand?
Can you stop him in the slightest?
At this moment, the senior officials of the War Bear Country were extremely
excited, and they were eager to let the world see their invincible combat power.
"Everyone! Today the Siberia Union will check all the gods!"
"It will show the world our true strength!"
The Titan God of War shouted.
As soon as these words came out, the whole audience was excited.
Whether it is his own people from the War Bear Kingdom, or he came to watch

the ceremony.
The long-awaited moment has finally arrived!
“Behind the barrier in front of you are all the gods of my Siberia Union!”
Everyone standing high stared at the barrier.
“Come on, drop all barriers!”
With a single order, all the barriers crashed down.
The Return of the God of War [The
Protector] Chapter 3358
/ The Return of the God of War [The Protector]
The scene behind is completely exposed.
“Boom…”
After the smoke and dust, everyone can see clearly! ! !
Densely packed, with no end in sight!
Fill the entire plain!
Even people watching from a high place can’t see it all at a glance!
There is no end in sight!
I don’t know where the gods are lined up!
The naked eye can’t see it all!
Join Telegram Group For Fast update
Or at least it can’t be seen from a distance!
It is too exaggerated!
Such a large plain is full of standing!
The momentum of the ancient war with hundreds of thousands of troops lined
up!
It is this kind of plain, otherwise there is no place to support so many people! ! !
Everyone was shocked to the point of incomprehensible.
How is this possible?
“This this this…”
This caused everyone to burst into exclamations.
too exaggerated!
How come there are so many? ? ?
The number of gods that came out before was 100,000.
But 100,000 is far from this posture!
How many times is that?
That data is unimaginable!
Everyone watching the ceremony is going crazy!
The Olympic Empire is about to explode.
All along, they have identified themselves as the center of divine rights.
The gods all over the world have to listen to them, but the Zhanxiong Kingdom,

the first in the power list, doesn't listen to discipline at all.
Now they were dumbfounded after seeing the number of gods in the War Bear
Kingdom.
Is there such a big difference between the first and the second?
Fortunately, they thought about it before, the biggest difference is ten times,
right?
How much more!
Other forces have the same idea.
They have a feeling that they are not worthy of being on the power list with the
War Bear Kingdom.
The difference is too big!
The feeling of heaven and earth!
They actually had expectations before, and the War Bear Congress was much
more exaggerated than imagined.
Definitely not as simple as 100,000 gods!
Everyone should be bold and exaggerated like imagination!
But now that they really saw the gods, they found that their imaginations were
still lacking.
Still can't imagine it!
This is way more exaggerated than they expected!
Some people have predicted before, or rational analysis.
Objectively analyzed from the aspects of resources, technology and gods seedlings——
The number of gods in the War Bear Kingdom is at most 200,000!
No matter what, it will never exceed this number!
This figure still has to be added to the Siberian Union!
But the reality is much more exaggerated!
Where is 200,000?
More than 300,000!
only more!
Shock!
Shocked!
The whole place is suffocating!
So many people, there is not even the slightest sound, it is almost audible.
This is everyone stunned!
There is no response!
So there will be no movement and no sound!

At this moment, the whole world was shocked!
From the real-time pictures from the scene, they all learned what the situation of
the War Bear Kingdom is now.
Scared numb!
powerful!
too strong!
*It's too f*cking much, isn't it?*
The number of gods…
Some forces do not have so many people!
unimaginable!
Not to mention that everyone here is a god!
Everyone was shocked to the point that their liver and gallbladder were split!
"Ha ha ha ha……"
Seeing everyone's reaction, everyone in the Siberia Union and Hydra laughed
wildly.
This is the picture they have been envisioning in their minds!
The whole world will go crazy when they see that they have so many gods!
That's true! ! !
In fact, even they themselves were shocked!
Even if they already knew.
But now they are actually looking forward to that number!
Although it has already been counted.
However, they forcibly held back their curiosity and waited for the announcement today.
Knowing in advance, it's not much of a shock!
I am so shocked!
Not to mention others.
One by one, all were terrified!
It is too exaggerated!
The two doctors in the dark were also gasping for breath, which was beyond their
expectations.
too much too much…
The Return of the God of War [The
Protector] Chapter 3359
/ The Return of the God of War [The Protector]
In fact, Levi Garrison was shocked by the dense number of gods in front of him.
In his expectation, it was two or three hundred thousand.

He is not afraid at all!
But now the number of gods is definitely far more than expected!
But this is a good thing for Levi Garrison!
Levi Garrison's thoughts are the same as theirs.
They all hope that the other party is strong, the stronger the better, preferably
the kind that threatens their own.
Obviously, the situation now is more severe than Levi Garrison imagined.
Exactly what he wanted.

Enough!
So is it strong enough?
I hope there are more super gods like that!
However, Levi Garrison showed a slightly surprised look. In the eyes of the
people in Zhanxiong Kingdom, he was afraid.
He was frightened!
But not scared to death?
Levi Garrison is okay!
Generally, other people, one person has to face so many gods, and if they see it
at a glance, it is estimated that they will be scared to death.
Levi Garrison was just scared.
This is very strong!
Satisfied!
Today, the people of War Bear Country got everything they wanted.
They all guessed the changes in everyone's expressions.
Just what they want to see!
"Ha ha ha ha……"
The six heads of Hydra laughed like crazy.
When the gods showed all their cards, their inner fears or other concerns were
swept away!
In front of this scale of combat power!
Who can kill them?
God from heaven?
to be frank!
It may not be possible for the gods to come!
How did Levi Garrison kill them?
"Come on Levi Garrison! Come and kill us! Come on… Come on if you can…"
They are on the other end, madly provoking Levi Garrison!

They hid behind all these gods, and Levi Garrison wanted to kill them.
Must step over all the gods!
But it's like the sun comes out of the west…
This is absolutely impossible!
Therefore, they are wildly provocative!
Come to vent all the negative emotions deep inside them!
Levi Garrison just smiled and said nothing.
His eyes fell on the dense gods in front of him.
All gods have matching suits and other equipment.
This suit looks the same as the star country.
But it's actually more advanced!
This battle suit actually has three forms.
Solid, liquid, gaseous.
Solid state is a defensive mode that resists any attack.
Liquid is a repair mode that repairs almost all injuries in a short period of time.
The gas state is the attack mode. After gasification, the gas will be integrated
into the body to enhance the combat effectiveness. This gas is actually a specially
treated aura.
This suit is compatible with various modes and is simply invincible.
It is even adjusted according to the attributes of some gods to better exert the
maximum power of the equipment.
For example, it is more defensive and more offensive.
But the best thing about this suit is the liquid mode.
It can heal all damage in a short time.
This is simply an artifact!
With matching equipment, the combat power of all gods will be at least doubled.
But in fact, if the defense mode and the healing mode are added!
The overall increase is at least four times more!
That is to say, a random god of the Siberia Union can deal with at least four
ordinary gods!
This also means that after the number of these gods in front of you is counted, it
will actually be multiplied by four! ! !
This is not conjecture, it is the reality!
This will be exaggerated to the extreme!
But there is no way, the arctic fox industry is too powerful.

He even developed such three forms of battle clothes.
It is unimaginable!
Not to mention the gods, there are also super gods!
This matching set is also available now!
Terrible!
The representative of Xingguo couldn't help but be surprised when he saw this
battle uniform.
The gods' supporting equipment can still be like this?
To this extent?
Incredible!
Their gods' matching equipment is far worse than others'!
Or two things!
The Return of the God of War [The
Protector] Chapter 3360
"Let me introduce our gods' supporting equipment… I think everyone has seen
it… The power is even more exaggerated than we imagined…"
These Titans of War began to introduce the suits of their gods.
"By the way, we also have exclusive equipment for super gods! It's even more
exaggerated than what you see now!"
As soon as the words came out.
Make everyone even more shocked.
And super god-exclusive equipment?
How powerful is that?
The pass line for super gods is to fight five hundred ordinary gods with one.
With equipment blessing, is it still worth it?
Join Telegram Group For Fast update
At the level of a super god, the combat power is doubled, which is not a concept
at all.
Then a super god can easily deal with a thousand ordinary gods.
Who can stop this?
It was impossible to count how many gods there were.
As a result, there are also specialized supporting equipment.
Invincible!
They are the masters of this world!
Unstoppable!
No one is qualified to be their opponent!

Even the forces behind the War Eagle Nation, who are now paying attention to
the situation, are amazed when they see this kind of battle uniform.
"To create a battle suit of this level? Horrible!"
"If you give them a little more time, that's fine?"
"Terrorist! It's more terrifying than we thought! Or we still underestimate this
opponent!"
…
Apparently the arctic fox industry's equipment was unexpected and far exceeded
their expectations.
Shocked them! ! !
There is no other reason. The forces behind it have just equipped the War Eagle,
Guotian and Shield Bureau with such matching suits.
This shocked the Sky Shield Agency and the War Eagle Nation to death.
Is there such a suit?
Three forms and various modes to switch!
To a certain extent, having this kind of equipment is invincible!
They were all overjoyed because they were equipped with this kind of battle
uniform.
Because this product is the crystallization of a super high civilization.
Beyond high-tech existence.
As a result, I saw almost the same battle clothes on the gods of the War Bear
Kingdom today.
How is this not shocking?
Not to mention that the arctic fox industry has reached the technological level of
the forces behind the war eagle country.
But at least it touched the edge…
This is the most terrifying thing!
With so many gods in the Siberia Alliance, this is terrifying to the extreme.
Agent Blackhawk grew even more nervous.
He was betting on Levi Garrison, balancing the parties.
But now the War Bear Kingdom is so strong that it is outrageous.
He began to worry about Levi Garrison.
How does one cope?
What kind of combat power is this?

He observed that the Siberia Alliance is now so powerful that even the forces
behind the War Eagle Nation are a little silent.
Even if they can deal with it, it is more difficult to deal with.
It's not that simple.
It was because of this that he was worried about Levi Garrison.
It's just that when Levi Garrison saw them equipped with such battle uniforms,
his smile deepened.
Great!
It seems that such a long wait is not in vain!
The opponent is strong enough!
The number of gods and the strength of equipment are far beyond his expectations.
It got him excited!
Next, let's see if their super gods are hard enough?
At this level.
Their super gods are not bad either!
Interesting!
Things get interesting!
"Buzzing…"
It seems that he felt Levi Garrison's excitement, and even the gods made a trembling sound.
It seems impatient to fight…
On the high platform, the Titan War God looked at the crowd and nodded with
satisfaction.
At this time, he shouted: "In order to set an example for the whole world! The
Siberian Union has decided to announce the number of all gods!"
"hiss!"
Everyone gasped.
The moment has finally come!
The field suddenly fell silent, to hear this appalling number! ! !
The Return of the God of War [The
Protector] Chapter 3361
/ The Return of the God of War [The Protector]
It can even be said that the whole world is quiet!
Countless people's ears perked up just to hear this number!
Just for a shocking moment!
Even the forces behind the War Eagle Nation who were indifferent to this, as well

as Daxia's Demon Suppression Division, began to pay attention.
Who doesn't want to join in the heat?
Who doesn't want to know how many gods there are in the Siberian Union?
Not to mention others!
It's all crazy!
People are about to explode!

The whole world is waiting for this moment!
Although I know a lot, I still want to know the specific numbers.
Not only other people, but everyone in War Bear Nation wants to know.
For this moment, they held back last night.
Although the data has already been calculated!
But they won't let anyone say it!
They persisted till this moment!
To witness history!
Until now.
The numbers are finally out!
The Hydra people even supported each other, waiting for this moment.
For the Siberian Union to come this far, they are also a big contributor.
And it's all about them!
It can even be related to their life and death!
So they were eager to hear that terrible number more than anyone else!
nervous!
asphyxia!
Unable to withstand this pressure, people fainted one after another.
Those old guys gave blood to their heads and fainted one by one.
I can't stand it!
Even the two doctors in the dark felt that their hearts and brains were extremely
congested, and they were about to explode.
Not to mention others.
Those who are not in good health, it is estimated that during the waiting process,
they hang up because they are too excited to suffocate.
Mainly because the moment is so exciting!
Levi Garrison was of course also happy, he didn't directly kill or stop the Titan
God of War.
He just looked like that.
He is also curious about the specific numbers!
He also wanted to know how many people he was going to kill.

It is better to have specific data.
I can also talk about bragging chat in the future.
How many gods did I kill in that battle?
Therefore, he did not interrupt these people, otherwise if there were few gods,
he would have killed them long ago.
Where can they make so much nonsense!
The Titan God of War saw that the atmosphere was in place, and he couldn't help
shouting: "Next, you will all witness history!!!"
This gets everyone excited!
Such a history may only happen once in this life.
Everyone in the audience is staring at the Titan God of War, and it can even be
said that the whole world is waiting for this moment! ! !
Everyone held their breaths, not breathing at all.
Everyone almost suffocated!
More people fainted or even passed out.
One by one, people kept falling.
It's just that everyone can't manage that much anymore.
"Then I will announce the specific number of gods!"
"After an overnight check, the Siberian Union has a total of 573,837 gods!!!"
The Titan God of War announced loudly.
This time he was completely hoarse!
Do your best to read this number!
Come and create this historic moment!
This sound is like a big bell and spreads all over the Siberian plateau!
As if to penetrate everything and walk around every corner.
Crazy bombing all over the world!
To tear the whole world apart!
Of course!
This number can indeed tear the world to shreds!
"573,837 gods!"
When this number came out, the whole world fell silent.
The whole world is dead silent! ! !
No one would have thought of this number!
The prediction was up to 200,000, and the result was nearly 600,000! ! !
No wonder such a large plain is so full that there is not even a single vacant lot.
No wonder he couldn't see his head.

Even if you stand at the highest point, you can't hold so many people in your field
of vision.
There are so many!
It's so terrifying that it makes my scalp tingle!
The Return of the God of War [The

/ The Return of the God of War [The Protector]
"Pfft!"
"Pfft!"
…
When this number comes out, everyone will recite them one by one.
This time, more people fainted directly on the spot, or even passed out.
Some just hang up on the spot.
Organs burst, or brain bursts kind of…
It looks okay on the surface, but it's actually damaged inside.
Not only at the scene, but countless people around the world are fainting and
dying at the moment.

This figure is like an invisible flying sword.
Circling around the world, killing one person after another!
Shocked!
Too shocking!
Even if the top officials of the Siberia Union knew this number, they couldn't bear
it, and there were not a few people who fell.
The data shocked the whole world, and also shocked my own people.
In fact, when War Bear Kingdom broke out 100,000 gods, they already had more
than 300,000 gods.
Up to now, there are 500,000 gods in the War Bear Kingdom, an increase of
nearly 200,000.
However, major organizations hid the real data without telling it.
Therefore, more than 100,000 gods were reported at that time.
And the forces of the Siberian Alliance add up to 70,000 gods.
It also far exceeded expectations!
They usually hide it and do not report real data.
All shake out now.
The results terrified the senior management.
They estimated that it would be more than 300,000.

The other forces in the Siberia Alliance can take out 10,000, which is the limit.
The results surprised and frightened them one by one.
Surprise and frighten your own people, and surprise and frighten other allies.
After hearing this data now, all the high-level executives almost fainted from
fright.
so horrible!
This data is so explosive!
The Siberian Union itself was frightened like this.
Not to mention others.
"hiss!"
The sound of gasping for breath was incessant.
"Pfft!"
"Pfft!"
...
The scene almost got out of control at one point!
too terrifying!
Not to mention anything else, the more than 70,000 gods of the Siberia Union
alone are swept away, right?
Not to mention all!
The representatives of the Olympic Empire are really going to blow up.
They are second!
They have thousands of gods.
But the one and a half million…
*Is this the f*cking difference between first and second?*
Is it just the difference between the first and the ten thousandth?
"puff!"
One of the representatives could not help but vomit blood.
You five hundred and seventy thousand gods!
How are you guys playing?
Play shit! ! !
Desperate!
Those who were present at the ceremony for a while were despairing!
If the Siberian Alliance were to target them, it was estimated that they would be
wiped out in a few minutes.
Don't talk about resistance, you can't even shout out a voice, that's all.
This is already powerful to the level of the top ceiling!
You can't imagine, what else can stop fifty-seven thousand gods?

One mouthful of saliva can drown you.
Not to mention hitting!
However, there is another point that these 570,000 gods have matching equipment!
The overall combat power is quadrupled!
Counted as ordinary gods in everyone's cognition.
Multiply the current number by four!
That is more than 2.29 million gods!
"hiss!"
Really going crazy! ! !
In fact, Levi Garrison is now facing more than two million gods!
What the hell! ! !
Terrible!
This is the most shocking thing so far!
After calculating the number, another group of people passed out.
There is no way to say it!
Simply unacceptable!
Who in the world can stop this battle?
When the real gods come, they have to kneel down!
Yet this is not the end.
Just listen to the Titan War God: "The data just announced is the data of our
ordinary gods! As we all know! We have carried out a plan for super gods! The
number of super gods is not counted!"
"what???"
Everyone's heart is going to fly out of their throats.
And super gods?
The Return of the God of War [The

/ The Return of the God of War [The Protector]
Yes!
This is their real trump card!
The super god plan they have succeeded!
And has reached the limit of the gods!
There is a gossip that the specific combat power of the strongest super gods
cannot even be measured by themselves.
But it is definitely a level that destroys a country!
And this country is such an existence as the Olympic Empire!
just appalling…
Now the super god is finally here!

They represent the ultimate combat power and limit!
The voice fell, and figures appeared behind the Hydra crowd.
That is super god!
I have to admire the strength of the arctic fox industry. They even developed
matching equipment for the super gods.
The combat power for the super gods has also been upgraded!
When the super god appeared, the audience was in an uproar.
They are the last barrier protecting Hydra.
It is also the strongest barrier!
A powerful breath swept in.
This made Levi Garrison excited.
Because in the back, he felt a few strong breaths.
This breath is stronger than Fire Cloud Evil God.
This is the real powerhouse.
In particular, there are three auras, which are especially terrifying!
There were 570,000 gods just now, and the number has obviously arrived.
But the depth of the strong is still not enough.
But for now, it seems enough!
Surprise!
Levi Garrison showed a strange smile, which made the gods close at hand a little
puzzled.
At this time, he can still laugh?
Still so weirdly excited?
How big is his heart?
Don't you know your situation?
Levi Garrison gave them an illusion – as if the stronger they were, the happier he
was.
Obviously, during this period of time, the expression changes on Levi Garrison's
face were captured by them.
At first, Levi Garrison's face was serious and cold, but after seeing so many of
them later, he slowly stretched out;
Then when I saw the matching equipment, there was a smile;
After the specific data was revealed, the smile grew stronger;
Now hearing the super god, the excitement of the whole person is beyond words.
Isn't that so?

The stronger they are, the more excited Levi Garrison is.
Is this guy's brain broken?
People naturally don't think otherwise.
Because that's not realistic!
On the review stage, the Titan God of War looked at everyone's jaw-dropping
expressions, and he was completely satisfied.
This will be the most glorious moment of his life!
"Super gods can also tell you! We now have thousands of super gods! Among
them, there are not a few super gods who fight against a thousand!"
"Of course, there are still a few who have reached the limit of the gods! That is to
say, we can no longer strengthen them anyway! This is the top level! And their
combat power can no longer be observed with instruments! Unless actual combat!"
"Of course, there are great requirements for the actual combat environment, and
there must be enough strong men! Although we have many gods, we will not kill
each other to test their combat power!"
A person watching the ceremony asked: "Then why don't you use the beast to do
the test?"
Titan War God smiled: "Sorry! In order to test the actual combat ability of the
super god, all the beasts in all the forbidden areas of our War Bear Country have
been slaughtered!"
"hiss!"
The sound of gasping for breath came one after another.
Everyone can't imagine that all the forbidden beasts have been killed? horrible!
It's terrifying to the extreme!
"There is no place to test the strongest ones now, hey! I have a headache! I want
to know their combat power, but there is no way…"
The Titan God of War shook his head helplessly.
Violent Versailles spoke a wave.
Others are about to faint.
…

After the Titan God of War introduced the super gods, the audience was full of
breathless voices.
Everyone is like falling into an ice cave.
War Bear Kingdom has reached its limit in the number and depth of gods.
There is no doubt that they are the strongest in the world today! unstoppable!
The Return of the God of War [The
Protector] Chapter 3364
/ The Return of the God of War [The Protector]
Titan War God glanced at Levi Garrison and said, "By the way, I suddenly
remembered something!"
"whats the matter?"
Everyone looked over.
"Are there still people who are curious about the secret of Levi Garrison's resources? Where does he have endless resources?"
As soon as the Titan God of War said this, everyone nodded frantically.
I don't know if Levi Garrison's resources are secret or the majority.
Everyone wants to know.
Titan War God glanced at Levi Garrison and said with a smile: "It's actually very
simple! Because he is strong enough!"
"When it's strong enough, you can ignore the beasts and unknown dangers in the
forbidden area! Doesn't that mean that you can take away resources at will? Levi
Garrison's resource secrets are like this!"
Join Telegram Group For Fast update
"Does everyone even want to know that Levi Garrison should have told the
secret of the resources of the Tianqi Empire at that time, but the Tianqi Empire
did not take any action? And there are no gods in the Tianqi Empire!"
"This question is also simple! That is, Levi Garrison killed all the gods of the
Apocalypse Empire! It is estimated that he also told them the secret of resources,
but this method is not applicable to them!"
...
After listening to the explanation, everyone suddenly realized.
The secret of the original resource is this!

No wonder it keeps coming!
Isn't this just a matter of Levi Garrison finding a forbidden place?
And they also want to understand a question-why does Zhanxiong Kingdom have
no idea of attacking Levi Garrison's resources?
That's because they already knew the secret of Levi Garrison's resources halfway
through, and they obtained resources in the same way as Levi Garrison.
It's even easier than Levi Garrison to obtain resources, so why bother with Levi
Garrison's idea?
Of course, this also reflects that Levi Garrison is a bit strong.
Titan War God smiled: "I hope he can test the ultimate combat power of our gods!
It depends on how powerful he is!"
Everyone was in a playful posture, trying to play Levi Garrison between the palms
of their hands.
At this time, the people who were shocked wave after wave, set their eyes on the
protagonist today.
Yes!
Isn't the protagonist of today Levi Garrison?
But just now everyone was unanimously attracted by the number of gods in the
War Bear Kingdom.
Levi Garrison was ignored.
But now, everyone realizes that the protagonist is Levi Garrison!
Everyone's eyes and attention fell on Levi Garrison…
The shock continues!
Because Levi Garrison will have to face so many gods alone!
This is definitely the most absurd thing everyone has ever thought of!
How can one person fight 500,000 gods?
There are thousands of super gods among them!
They are all equipped!
How do you fight?
If you Levi Garrison can kill again, ten thousand gods can exhaust you to death,
right?
570,000!
Standing still, let you kill, can exhaust you to death.
Not to mention hitting!

Anyway, everyone can't imagine how Levi Garrison can do it!
This is totally impossible!
Everyone looked at Levi Garrison, seeing his expression, and seeing his body
trembling? The whole person is afraid of nothing!
It's just that Levi Garrison stood there with an indifferent face, even with a smile.
No panic at all!
Everyone was imagining that if they stood below, they would face 570,000 gods
alone.
Even if he wasn't scared to death, he probably fainted from fright.
If it is stronger, it is estimated that at least he will be scared to wet his pants.
He even knelt down and begged for mercy…
But it's not like Levi Garrison!
Levi Garrison was too calm.
This made the War Bear Kingdom come alive, and they all hoped that Levi Garrison would be stronger.
Looking at the performance now, it's not bad.
It doesn't make any sense at all!
Levi Garrison can persist until now!
There will definitely be a fight next time…
"Levi Garrison! We will use all our strength to protect the Hydra! I want to see
how you kill it?"
The Titan God of War looked at Levi Garrison and laughed.
The Return of the God of War [The
Protector] Chapter 3365
/ The Return of the God of War [The Protector]
The power of a country, and even the entire Siberian Union, will fully protect the
Hydra!
No one can move them one bit.
That's the benefit of being their little brother!
Whoever dares to move them, we will kill whoever!
The six heads of Hydra provoked Levi Garrison again: "We are here! Come and kill
us! Come if you can, we are waiting for you here!"
Everyone in Hydra looks like a beating.
Get people on fire!

Those who had hatred against the Hydra were all going to explode with rage.
They may be even more angry than the provoked Levi Garrison!

Doctor Dark clenched their fists tightly, and prayed in their hearts – they must
succeed! Must take revenge on the Hydra!
Looking at their arrogant appearance, they all want to go to themselves.
All hope is on Levi Garrison!
After all, Doctor Dark watched the Hydra poison Levilia with his own eyes, and he
also has an inexplicable hatred for Doctor Dark!
Others are holding the attitude of watching the hot coax.
The bigger the heat, the better.
There are 570,000 gods in front, and thousands of super gods guarding the rear.
If Levi Garrison wanted to get rid of the Hydra, he had to step over everyone.
It's really hard to get to the sky!
For everyone in the world, Levi Garrison is impossible to succeed!
This is absolutely impossible!
Even though Levi Garrison's own people hope that he can do it, the fact is too
cruel – they are too strong, they are too strong to be in one latitude!
Levi Garrison's hope of doing all this is zero!
The next battle is imminent.
It is estimated that after the Siberian Union has eliminated Levi Garrison, it will
march south and sweep everything.
Not sure who the first target is?
Everyone was thinking about what happened after Levi Garrison was solved.
But some people are looking forward to Levi Garrison.
Don't know what to expect?
Looking forward to Levi Garrison's surprise?
"Let's all start enjoying!!!"
The Titan God of War shouted.
It's like an order.
"Boom…"
"Hoohoho…"
At this time, 570,000 gods began to make noise.
The sound waves were like thunder from the ancient gods of thunder.

The earth also began to shake wildly.
The mountain where the reviewing stand was located was also rumbling.
Shake the earth!
Turn around!
The sun and the moon fade away!
This is the momentum of 570,000 gods together…
Terrible to the extreme!
This momentum alone can scare people to death!
Not to mention the combat power of 570,000 gods…
Absolutely destroy everything in the world!
It can truly be achieved that God blocks and kills God, and Buddha blocks and kills
Buddha.
But Levi Garrison looked at the god in front of him and said lightly:
"Actually, you
are all poor people! You are all puppets controlled by the powerful!"
"I'll give you a chance! Make way for me, and I won't kill you!"
Levi Garrison gave them one last chance.
They are all poor people!
As long as he gives way, he will still let him live.
"Hahaha……"
Just hearing this, everyone laughed instead of anger.
joke!
This is definitely the biggest joke everyone has heard!
This is the case!
Levi Garrison was actually considering letting them go?
Who is in danger?
Not them!
It's you!
As a result, you let us live?
Incredible!
Therefore, as soon as Levi Garrison said this, the audience exploded.
This group of gods didn't listen at all, and they firmly didn't think that Levi
Garrison had the ability to kill them and pass them.
Just take Levi Garrison as a joke.
"Okay, I gave it my chance!"
"are you ready?"
"I'm going to start killing!"
Levi Garrison's eyes were full of radiance, and a cold light shot out.
The mood of the whole person also changed suddenly.
"Buzzing…"

The divine robbery suspended in front of him was also excited, and a burst of
sword sounds erupted.

coming!
coming!
The final battle is finally here!
Both the audience and the whole world are watching this moment!
Everyone is watching the field!
Of course, everyone thinks this is a battle of great disparity!
This is the Siberian Union crushing battle!
"kill!!!"
"Boom…"

The blood of all the gods of the Siberian Union was boiling.
All moved!
All of them rushed towards Levi Garrison!
This is to step on Levi Garrison to the ground…
The momentum is like a rainbow!
Crashed!
All five hundred and seventy thousand gods move is terrifying!
All the spiritual energy in this area was drained in an instant!
Just dried up!
Everyone watching the battle felt uncomfortable in an instant!
A terrifying air pressure attacked, almost crushing them!
If it weren't for the protection of super gods around, it is estimated that these
people watching the ceremony would have exploded.
This is what happens when 570,000 gods move together.
As soon as they move, they absorb the spiritual energy, but the spiritual energy is
not enough at all.
Just suck it dry!
This scenario has never occurred to anyone.
Immediately shocked!
Look at the thousands of troops rushing in front of you.
Levi Garrison smiled!
The momentum is very strong!
"open!"
With a light drink, the divine robbery in front of him burst into light.

The terrifying divine calamity erupted with unparalleled power, sweeping everything.
Forcibly open a path in front of you!
“Pfft!”
“Pfft!”
“Pfft!”
...
As a result, the surrounding gods all suffered. Anyone who came into contact
with this powerful force would explode on the spot and turn into a cloud of blood!
It fell apart from Levi Garrison’s eyes and disappeared on the spot.
A thousand-meter-long passage in front was cut out by a sword!
All the gods on both sides of the passage suffer.
I don’t know how many people died in one wave!
Shock!
Shocked!
But this shock came from Levi Garrison!
Is this the strength of Levi Garrison? ? ?
Is it too strong?
Originally thought that as soon as 570,000 gods were dispatched, Levi Garrison
would be crushed in all directions.
There is no strength to fight back at all, and the momentum is completely overwhelmed.
In just one wave, he will fall and be trampled to death by this group of gods.
However, the reality is that Levi Garrison has forcibly made a bloody path!
How is it not shocking?
The super gods on the reviewing platform each carried their hands on their
shoulders at first, a proud attitude of ignoring everyone.
After all, they are the top of the world, the limit of the gods.
But when they saw Levi Garrison’s hand, they were all stunned!
Levi Garrison is no worse than them!
Even stronger than most!
Their faces changed drastically, and they stared at Levi Garrison with shortness
of breath and nervousness.
Levi Garrison in the battlefield opened up a bloody path.
With his hands on his back, he moved forward step by step.

Divine Tribulation is to continue to shine and continue to open up the road.
Kill those who are blocking the way in front of you!
It is bound to open up a bloody way!
However, this also made most of the gods appear behind and around Levi Garrison.
They are desperate to kill Levi Garrison!
Exhausted all means!
But a surprising scene appeared——
There seems to be an invisible aura around Levi Garrison.
Able to resist all attacks!
The gods cannot get close to them, no matter what means of attack.
When he rushed to Levi Garrison's side, as long as he touched this invisible aura,
he immediately exploded into a cloud of blood and vanished.
Because the space is too crowded.
Therefore, there are still many people who touch the invisible aura of Levi Garrison.
Suddenly, hundreds of gods exploded into a cloud of blood.
Mouth-watering!
Incredible!
Everyone was once again shocked by Levi Garrison's combat power!
Even a small number of people think that Levi Garrison is really invincible, right?
Even the major alliances in Siberia showed a look of astonishment.
Levi Garrison seems a little scary…
The Return of the God of War [The
Protector] Chapter 3367
/ The Return of the God of War [The Protector]
Just in front of them.
That shows that Levi Garrison has reached the most powerful level among the
super gods!
This is enough to hang most of the super gods.
Enough to reach the point where one person destroys a country!
powerful!
too strong!
It's just that you guys are a little confused.
Levi Garrison doesn't seem to be a god, right?
Or it can be seen that it is not the same way as the gods in everyone's cognition.

How is he so strong?
In almost every era, he is standing at the top!
…
In the battlefield, the gods could not see Levi Garrison attacking.
"We focus on attacking!"
The densely packed gods began to focus on attacking Levi Garrison.
"Ho ho!"
Levi Garrison, who moved on, just smiled.
I saw his right palm waved gently to the right, and a terrifying force like tearing
the stars swept over.
"puff!"
"puff!"
"puff!"
…
The gods on the right encountered this terrifying force, let alone counterattack,
they couldn't stop it at all, and they were swept into the future.
This force quickly penetrated into the body and exploded in the body.
The god's body couldn't bear this terrifying power at all, and it bombed directly.
A lot of people died in one fell swoop.
There are thousands of gods at once!
"boom!"
Levi Garrison slapped the left again!
The ultimate power roars out!
"puff!"
…
Another wave of gods tragically died on the spot!
As for the gods rushing behind him, Levi Garrison stepped on the ground.
A tearing force rippling out from behind!
The gods behind him bore the brunt and were directly torn apart by the ultimate
power.
Heavy casualties!
fear!
Terrible!
In this wave alone, at least thousands of gods have fallen…
And Levi Garrison was unscathed!
Even so, they didn't even touch the corner of Levi Garrison's clothes!
scared!
This time I was really scared by Levi Garrison!

This is so strong that it makes my scalp tingle!
This time almost all the super gods are silent.
The three strongest, and the three super gods that have not appeared, are estimated to be stable.
All the other super gods are nothing compared to Levi Garrison.
The Titans and the God of War have their mouths wide open enough to stuff an
egg in!
Even though what Levi Garrison has killed now is a drop in the bucket compared
to the total number.
But it's too strong, isn't it?
This has almost reached the limit of the gods!
That is, the three super gods who have never appeared…
"Start the equipment!!!"
"Hurry up! Hurry up!"
…
The gods in the field were still attacking Levi Garrison, but this time they all
activated their body equipment.
When attacking, the battle suit turns into a gaseous state, providing them with
more attack power!
And when Levi Garrison's powerful force strikes, they will use the solid state
mode to resist.
Even if injured, activate liquid mode to heal quickly…
After the battle suits were activated, these gods became more confident and
arrogant.
They are not afraid of Levi Garrison anymore.
The impact was stronger than before.
Especially the gods located directly in front of Levi Garrison.
They have suffered!
Because the gods robbery, with the attitude of destroying the knuckles, smashed
a bloody road ahead.
Divine Tribulation has always opened up channels, no matter how many gods
there are in front!
They can't stop it at all!
The body of the gods is like a piece of paper.

It was torn apart by the blooming sword energy.
So fragile!
But now that they have activated their battle suits and equipment, things are
different!
It can attack and defend, and the key is to heal in a short time!
This is the most terrifying!
It is also the foundation of their fearlessness!
"Be sure to destroy this sword!"
They madly rushed to the gods!
It is bound to destroy the robbery!
And Levi Garrison's left and right and behind also went crazy and attacked Levi
Garrison.
Now it's like crazy attacks from all directions!
It's just that now Levi Garrison won't simply defend, he's going to attack!
The Return of the God of War [The
Protector] Chapter 3368
/ The Return of the God of War [The Protector]
"break!"
Looking at the dense array of enemies around, Levi Garrison was a little angry.
An angry shout! ! !
"boom!"
Terrible power erupted from his body, turned into a shock wave and raged wildly,
impacting everything around him!
At this moment, it was like a shock wave generated by a planet hitting the earth.
"what!!!"
Most of the gods were smashed on the spot without even screaming!
The supporting equipment on them has been turned on, and when they encounter a terrorist attack, they will automatically turn into solid-state mode
for defense.

But when it came into contact with this shock wave, the solid-state suit shattered
on the spot.
Defense against a loneliness, still broken.
Just like paper!
This kit is really ingenious, and the modes are simply perfect!

Especially the healing mode, which repairs all damage in a short time.
But in front of Levi Garrison's shock wave, he didn't give any chance at all.
Just smash you to pieces!
There is no liquid healing mode at all…
"Boom!"
"Boom!"
…
Levi Garrison's shock wave is raging around…
Any gods that come into contact with them die directly!
It exploded into a blood mist on the spot, and even shattered and disappeared.
This time, Levi Garrison's surroundings immediately became empty.
Originally, there were countless people around.
In an instant, thousands of gods disappeared, so many people were gone at once,
and it was naturally empty.
Especially the left and right and the back are directly without gods.
All the gods who finally rushed over died.
Just wiped it all out.
That is, most of the gods are gathered in front.
Otherwise, it's hard to say…
At this moment, everyone is really going crazy! ! !
It seems that more gods are useless to Levi Garrison?
Because he couldn't touch him at all, not even the corners of his clothes.
No matter how many gods you are, it seems useless!
This is the most terrifying point!
Everyone is staring at the scene in the field!
When they saw the shock wave directly smashing thousands of gods, everyone
was numb, like falling into an ice cave!
Is there such a terrifying existence? ? ?
The Dark Doctor and the Brain of God jumped straight up!
Also celebrating are the enemies of the Hydra!
Levi Garrison is like this, there is hope of revenge, why are they not excited?
But the top executives of the Siberia Union and Hydra were all heartbroken.
this this this…
Levi Garrison is beyond their expectations time and time again!
*This combat power is too f*cking terrifying, isn't it?*
Invincible!

In such a short time, nearly 20,000 gods were beheaded, right?
As a result, they hadn't even touched the corner of Levi Garrison's clothes!
They can't sit still!
This Levi Garrison can really go against the sky!
And this is just the beginning!
That's all!
And the strength shown by Levi Garrison is the ultimate state of super god, right?
The three strongest super gods among them, two of which are slightly weaker,
have long since been eliminated.
Their upper limit is estimated to be the combat power of five or six thousand
gods.
And which one is the strongest, it is always impossible to predict the combat
power!
They think this is the ceiling of the gods!
They predict that this man will be able to hit the pantheon…
This is already unimaginable.
As a result, Levi Garrison has killed so many gods with ease!
The ceiling in their eyes is completely vulnerable to Levi Garrison.
Although the three strongest super gods were not present.
However, they actually observe everything in the dark.
When they saw that Levi Garrison had such combat power, the three of them
were desperate.
Originally, they thought that the three of them were the strongest in the world.
Can dominate everything!
I just saw Levi Garrison's combat power.
They were silent.
The hands on his back fell, his face was full of pale expressions, and his body was
still shaking!
Impressed!
They were deeply impressed by Levi Garrison's terrifying combat power!
Levi Garrison?
That's dad!
The Return of the God of War [The

/ The Return of the God of War [The Protector]
The body of the six heads of Hydra trembled, the head of the head trembled
uncontrollably, and he muttered to himself, "Isn't this…"
He didn't say anything after that.
But everyone there knows it!
This is what they are afraid of terror…
They also had this concern at first.
It's just that after the Siberian Union put on such a stance, all these concerns in
their hearts were dispelled.
There are so many gods, no one in this world can touch them!
But now the doubt has returned!
They were afraid of Levi Garrison, and they were not so relieved about the Siberia Union.

At this time, the Titan War God said angrily: "Be quiet! I don't believe it! Can he
kill more than 500,000 gods? How powerful can he kill so many?"
"Offensive! Don't give him any respite! Play to your advantage!"
However, this group of high-level executives were also in a hurry, and quickly
ordered.
It has been a small-scale battle just now, and it does not reflect their numerical
superiority.
After hearing the order, these gods went crazy.
Chao Levi Garrison began to pour around.
No longer gather in front of Levi Garrison.
Now it is necessary to maintain the depth of the lineup around Levi Garrison.
There will be a continuous attack.
Don't give Levi Garrison any chance to breathe!
It's a battle of wheel attrition!
As long as Levi Garrison stagnates, it will be his death.
Will not give him any chance!
"attack!!!"
These gods realized Levi Garrison's power and rushed over desperately.
To shred Levi Garrison.
Wave after wave.
Cooperate with their equipment to unleash the strongest attack power!

Levi Garrison blocked and sneered: "You are just tools, there is no need to charge like this!"
As a result, after these words came out, everyone charged even more fiercely.
This time they also cooperated with each other to bring all their strengths together.
Bombard Levi Garrison in four directions.
"Just tickle it!"
Levi Garrison simply did not defend, and let the devastating attacks fall on him.
Everyone thought it would hurt Levi Garrison, and everyone had a happy smile on their faces.
But then, the smile disappeared and the expression froze.
Because no matter what kind of attack falls on Levi Garrison, he is nothing to anyone.
His physical strength was far beyond the limits they had expected.
Can withstand attacks of all levels!
These attacks hit Levi Garrison like a tickling.
You know, this is a joint attack of many gods.
If the attack of a single god, it is estimated that it is not even a scratch.
Just like the breeze caressing Levi Garrison's cheek.
Levi Garrison's physique is too heaven-defying.
Simply breathtaking!
If you can fight like this, the key is to be able to defend like this.
The gods fighting in the field are despairing.
In a short period of time, they have attacked no less than a hundred times from all directions.
They all tried their best.
The results of it?
Levi Garrison has nothing at all!
What should I do if it goes on like this? ? ?
It can't kill him at all!
The gods were helpless.
It's used the way it should!
The weapons and equipment to use are also on!
No use at all!
Levi Garrison's body is indestructible!
No attack can hurt him!

despair!
Despair spread among these gods!
I've lost my temper!
I'm going to cry!
Nothing works!
Not at all!
Levi Garrison looked at the densely packed gods around him, he smiled and said,
"Have you beat me enough? It's my turn!"
"I haven't fully utilized the divine robbery yet! Next, I will see how many people
can be killed with one sword of divine robbery?"
"Buzzing…"
Shen Jie accepted Levi Garrison's intention and began to tremble wildly.

"Not good! He's going to attack!"
"Defense! Hurry up and defend together!"
…
The gods had already sensed that Levi Garrison was about to attack.
They all panic!
Quickly retreat and defend!

used together.

Now everyone is surrounded by each other, and their equipment is connected.
The battle clothes on countless gods became solid, and they were gathered together.
In this way, the defense will be greatly enhanced!
…
The gods have mastered the use of this battle suit, and they are all in one place.
Forms an ultimate shield for defense.
At the same time they did everything they could to strengthen their defenses.

In this way, the aura that had just grown in this area was sucked dry again.
defense!
Defend Levi Garrison's blow!
It's their ultimate goal!
The people on the review stage had been silent for a long time.
They never thought that Levi Garrison had killed so many gods and started to
defend.
How powerful and oppressive this must be!
…
"Buzzing…"
The divine robbery trembled violently, and the sound of the sword roaring like
the thunder of the sky came.
A terrifying force rippled out from the sword, causing a hurricane around it.
The gods in front of them also realized the pressure and increased their defense
to the strongest level.
Solid battle suits are combined together, and invisible shields block the front.
They gathered together and came up with three defenses!
"kill!"
"Hey!"
God robbery shot!
Lightning and thunder, like the sword of dawn that cuts through the night!
All of a sudden, everyone's eyes were shrouded in dazzling light, and they couldn't open their eyes at all.
There was a terrible sound in the air.
As if this sword was going to pierce the sky!
A sword out!
"Clapch!!!"
Countless gods gathered together, and the shield they made shattered.
"Clapch!!!"
Another defense also shattered!
"Clapch!!!"
The last defense is the solid suits on them.
At the moment of contact with the sword energy, the solid battle suit melted
directly.
"Crack!"

“Crack!”
“Crack!”
...
Then the bodies of the major gods burst open!
A burst of film!
One by one!
The gods also disappeared one by one before everyone’s eyes!
With a sword, the gods cry!
This sword is called Divine Tribulation!
It is truly a catastrophe of the gods!
Catastrophe comes, no one can escape!
I have a sword that can open the gate of heaven!
How can you stop the ants in the district?
Crazy!
The people watching are really going crazy!
It may have been a little coaxing before!
So many gods died, but they didn’t play a big role in this huge team.
The missing part can be ignored.
But now everyone can see with the naked eye, such a long battle formation is
abruptly missing a section!
What does this section mean?
It means that 100,000 gods were killed by a sword!
That’s right!
This sword actually made a channel for all the gods’ teams!
It is directly opened!
The end can be seen!
And this sword directly eliminated 100,000 gods!
No wonder the team will have one less section!
It was this data!
How scary is this one?
“I… woo woo…”
Many senior officials of the Siberian Union cried directly.
Really was beaten to tears!
*So f*cking strong!*
Ignore all attacks and say nothing!
This sword cannot be stopped by a hundred thousand gods!
Some things seem to really not depend on quantity!
And Levi Garrison’s smile is even stronger, stop me?
The worst is still to come!
You have seen my sword, and you can’t stop it!
Can you stop my fist?

My punch can open the world, do you want to try it?

...
Someone fainted again in the field, and it was still the top of the Siberia Union.
They have withstood the impact brought to them by the 570,000 gods before.
But it could not withstand the power of Levi Garrison.

The Titan God of War and the six heads of Hydra were extremely pale.
The legs were like lead-filled, unable to lift at all.
The throat couldn't make a sound, only whimpered.
Most of the members of Hydra were so frightened that their legs were weak and
they were about to fall to the ground.
Other people watching the ceremony, some were scared to death, some fainted,
and some were scared to pee.
The enemies of the Hydra were also frightened, but they were excited.
If Levi Garrison is strong like this, he can take revenge.
The Dark Doctor and the Brain of God both shouted excitedly!
They finally saw the power of Levi Garrison's real shot.
In short, there are all kinds of scaring!
They seem to have experienced the most terrifying thing in the world!
There isn't one!
Any danger and terror are not as scary as the present Levi Garrison! scared!
Really scared by Levi Garrison!
How can there be such a strong existence?
One sword killed 100,000 gods!
A full hundred thousand! ! !
That's not Chinese cabbage!
That is one god!
They are all working together to defend against this sword!
The result was slaughtered like this!

unimaginable!
Such a long team of gods was abruptly cut off by Levi Garrison with a sword.
Almost one-fifth is gone!
At this moment, no words can describe the horror of Levi Garrison!
It can only be said that the world has lost its color, and the whole world has
become silent.
No matter who it was, they were all frightened by Levi Garrison's extreme combat power.
The War Eagle Nation and the forces behind it were amazed.
The Sombra agent clenched his fist tightly and almost shouted out in excitement.
He bet on the right bet!
Levi Garrison is really strong and perverted!
His vision was right!
As for the forces behind the War Eagle Nation, they said: "This world is still
hiding dragons and crouching tigers! Levi Garrison is indeed the enemy of the
War Eagle Nation!"
This is actually a high affirmation of Levi Garrison's strength!
Even the Town Demon Division, who has always looked down on the words of the
gods, was a little horrified.
Although the gods are only spiritual to them, they are the threshold everywhere.
But Levi Garrison killed 100,000 gods with one sword!
This is enough to attract the attention of all parties.
What Xu Qingya and the others couldn't figure out was that Levi Garrison had no
spiritual roots.
Can pure physical cultivation reach this point? ? ?
However, it is the divine robbery in Levi Garrison's hands that has topped all the
major factions of the Demon Suppression Division!
This was obviously forged by Levi Garrison himself.
But the major factions in the Town Demon Division believe that this sword is
definitely an ancient sword!
I don't know what kind of adventure Levi Garrison had to get this ancient sword.

For a time, there were quite a few people who had the idea of robbery.
Even the old guys in the factions of Zhen Mosi have been dispatched, and they
are all studying which ancient sword of Levi Garrison's divine calamity is.
They are also very interested.
In their opinion, this sword killed 100,000 gods.
On the one hand, Levi Garrison has strength, and the main thing is the power of
this ancient sword.
If you let them know that this sword Levi Garrison was cast, I don't know if they
will be dumbfounded.
Although Zoey Lopez and Levilia were hiding, they still received the news of Levi
Garrison in the War Bear Country in real time.
Seeing that Levi Garrison is so powerful.
They are also celebrating like crazy!
"Levilia, your father is definitely the strongest!!!"
"You have the best father in the world!"
Zoey Lopez hugged Levilia tightly.
This is a family affirmation!
"Jun's Landing, you must win! We are waiting for your return!"

Protector] Chapter 3372
/ The Return of the God of War [The Protector]
At this moment, Levi Garrison stunned the world with his sword and amazed the
whole world! ! !
However this is only the beginning!
Levi Garrison's eyes were indeed too empty all of a sudden.
After all, all the 100,000 gods were killed.
But at a glance, it was still dense.
There are still more than 400,000 gods!
However, Levi Garrison killed 100,000 gods with one sword just now, which also
brought a huge impact to the remaining gods.
So many companions in front of them just disappeared.
A full hundred thousand.

Right under their noses, they felt the shock deeper than anyone else.
Also frightened.
Brain is blank!

Completely lost consciousness for a while!
Don't know what to do?
Especially when a passage appeared in their team!
This is a vacancy created by a sword!
Looking at the passage, they were all contemplative.
How to do this?
To block or not to block?
However, Levi Garrison will not give them any chance to think!
He will show a very terrifying punch!
It was his hardest turn!
Of course it wasn't a punch with all his strength, after all there was no threat
now.
But this punch was Levi Garrison's strongest punch ever since his aura recovered.
This level of punch also depends on the environment.
Feel the calm before the storm.
These gods are also crazy.
"We cannot fail! We cannot accept failure! We must kill!"
"Kill him! We're going to win!"
...
The remaining gods seemed to have been brainwashed, and they all went crazy
and started to attack Levi Garrison.
There is no way to play!
It's crowd tactics!
It is to consume Levi Garrison with too many people!
Levi Garrison looked at the gods rushing around, and he shook his head helplessly: "Why? All come to die, right?"
"Then this punch opens up the world!!!"
Levi Garrison punched out.
To destroy nine heavens and ten earths!
To tear apart the sky and the earth!
No tricks, no fancy punches!
Some are the ultimate power!
Just the momentum before this punch was launched, that is, a landslide.
The places behind Levi Garrison collapsed, the mountain collapsed, and the sea
water poured back…
Because he couldn't bear this ultimate power, even the world began to change
color.

There was lightning and thunder, and all the terrifying paranormal phenomena
appeared.
At this moment, everyone in the field only felt that their consciousness was shattered, their breath was completely suppressed, and no one was conscious.
The body does not obey at all, the soul seems to be out of the way, fluttering, but
the consciousness seems to be out of control, everything is blurred.
This seems to be suppressed like panic!
Even the super gods in the field can't do it at this moment.
All the power in their bodies seemed to be hollowed out.
The root bones of their working power were completely suppressed.
Their bodies seemed to explode.
You can't help but pay homage to Levi Garrison!
Even the three strongest super gods were almost kneeled by Levi Garrison.
I thought they were on the same level as Levi Garrison.
The results now seem to be very different.
Just the momentum of Levi Garrison's punch now can crush them.
Not to mention the positive force of Levi Garrison's punch.
Everyone can feel it.
Levi Garrison's punch is more powerful than the previous one!
In this punch, everyone seems to be able to feel the power that Levi Garrison can
blow the world with one punch!
"Pfft!"
"Pfft!"
Not even a single punch.
This extreme pressure alone crushed the people around Levi Garrison one after
another.
The blood mist swayed, as if blood rained from the sky.
This is a punch!
"Boom…"
As the earth gradually tore apart, and the cracks as fine as spider webs permeated all around, Levi Garrison's punch finally came!
Open up!
But Levi Garrison punched!

/ The Return of the God of War [The Protector]
One punch!

The devil is invincible!
The sky is falling!
The sun and the moon are reversed!
Destruction!
Blast everything with one punch!
The ultimate terrifying power swept down like the tumultuous waves of the Tianhe River.
Shatter the earthquake!
Invisible power, it really is God blocking God!

No matter what it is, anyone who comes into contact with this power will immediately fall apart and turn into powder!
The terrifying punch directly bombarded the countless gods in front!
"Boom…"
The roar of the sky and the earth cracking sounded, just like the ancient god of
thunder tilted 100,000 gods!
At this moment, the roar of heaven and earth is felt everywhere.
In particular, the sky over the Siberian plateau was even more thunderous, as if
the gods were angry.
"Boom boom boom…"
The earth shook violently, and a crack opened in the Siberian plateau.
The cracks got bigger and bigger, and finally turned into a bottomless, endless
rift valley.
That's right!
In everyone's eyes, a Great Rift Valley appeared out of thin air.
Everything is beyond reality!
Levi Garrison's punch is much more terrifying than the sword just now!
The sword just opened a bloody path among thousands of gods!
But this punch directly tore out a big rift valley!
Terrifying to the extreme!
However, the most unfortunate is the god in front!
They encountered this terrifying punch head-on!
"Crack!"
"Crack!"
"Crack!"
…
These gods no matter what matching suits, or defensive artifacts or the like.

As long as it is affected by the power of this punch, it will explode immediately.
Immediately, the body exploded!
They could even see their bodies explode and turn into pieces.
Consciousness still exists and remains.
Only the body has been blown up.
But in consciousness, nothing has changed…
This is the horror of ultimate power.
Disaster!
Disaster is coming!
Dimensionality reduction strike!
The power of this punch is beyond everyone's cognition!
One-sided slaughter for these gods!
They have no ability to fight back at all.
Can't even dodge…
They didn't even react, and the above situation happened – the consciousness
