

Chapter 561

The man was stunned, and Suzi retracted into the bed again and continued to sleep.

Arron: "What's wrong with you? Are you feeling sick?"

She turned her back to him, raised her arm with a bruise hickey and hit him on the chest.

He took her arm casually.

That arm seems to be able to pinch water out with a light pinch.

He stooped to get her out of the bed, let her face him, and then seriously asked her: "Is it uncomfortable?"

Suzi shook his head, his face reddened, and suddenly lowered his head and slammed into his chest.

The man smiled: "I'm a woman who has been born before, so I don't know how to say it!"

She muttered, "I don't have one!"

"That's why you sleep late! You don't usually sleep late!" Arron was afraid she had something to hide from him.

Suzi simply said: "I don't have a job anymore, what do I do when I get up so early."

"What does it mean to be out of work?" Arron asked.

Suzi: "I was fired from the company. Even if I didn't get fired from the company, I would be drowned in saliva even if I was spread on the Internet."

Suzi wants to have a job more than anyone, go to work, and earn a salary through his own efforts.

She felt it was very stable.

Heart is very calm.

However, in Nancheng, she always does not go well in terms of work.

"You can go to work." Arron said.

Suzi: "?"

"Why, you don't want to be a good example for your daughter and let Lilly only see that her mother is an independent woman?" Arron asked.

Suzi: "..."

The feeling of being beaten up was very wronged.

She gave Arron a vain look: "You let you go to the company with your saliva all the way from the time you went out, and then let the company's people tell me in person that you have been fired, why are you coming back?"

"No one spat you, and no one removes you. You can go to work." Arron said again.

Suzi: "..."

She suddenly realized something.

He is Arron, the king of Nancheng.

She immediately turned on her cell phone, sat in her arms and turned on the Internet, desperately looking for yesterday's hot search.

But, except for that South City King Arron is actually a fear inside. "Besides, there are no other hot searches.

Of course, the official blog of the Fu Group does not count.

She looked up, looked at him incredulously, bit her lip and asked: "Yesterday...what the tabloid reporters reported, all...were all blocked?"

The man said irritably, "Didn't you say that your husband is Arron, and your husband's rights shouldn't be in vain?"

Suzi: "..."

At this moment, it is impossible not to touch my heart.

"Thank you..." Suzi bit his lip and said.

"Why do you thank me?" Arron asked with interest.

Suzi: "..."

At this moment, she was still sitting in his arms, the kind that could see each other thoroughly, mainly because he saw her more thoroughly.

He has a city palace better than her, and she dare not look at him.

The man just stared at her like this, waiting for her way of thanking her.

After a while, Suzi raised his arms to hook his neck, and his red and hot face slowly approached his lips and covered them.

Chapter 562

Her kiss was still so jerky, covering his lips several times, and she was still at a loss and didn't know where to put herself.

Even, she will often pause and short-circuit.

Because I don't know what to do next.

Such an angry Arron's head was simply angry.

He clasped her back with his left arm and the back of her head with his right arm, then forced her to separate from him, forced her to look at her, and said coldly, "Stupid!"

She: "..."

"Why teach you so long, but you can't even k!ss!" he demanded.

She: "... It's really hard to tell, but it's hard to tell.

Is it her fault?

Did he teach her every time he attacked her?

Isn't it good at all?

He was not only looting the city and the land, he even robbed her of her thoughts. Every time, during the whole process, her brain was blank or two, and it was completely taken away by him. How could she learn Will it?

When did she learn?

Feeling aggrieved in my heart, my lips pursed involuntarily.

Seeing her sweet mouth and watery appearance, the man forced himself to suppress the evil fire in his heart, and said in a low voice: "It's already late to wake up today, so I can't tease you anymore! If you want to thank me, you have nothing to do. The way, get up, help me dress!"

Suzi: "Huh?"

Help him dress?

She has never done such a job.

"Why, is it not unusual for a wife to dress his own man?" Arron asked.

"Oh." Suzi immediately got up and got out of bed.

Suddenly I felt that something was wrong with me, and I looked down at myself, and didn't wear anything.

However, her clothes were not here, so she had to take out one of his shirts from the closet and put it on.

Chen Shang's sleeves were piled on the wrists, fat and fat, but it made her show a different kind of s3xy. The man looked at this Suzi and couldn't help but froze for a few seconds.

In a daze, Suzi had already found all his clothes, and put it on the bedside and asked him, "Is it okay to match this way?"

"Yeah!" The man took a look, quite satisfied.

This is his usual style of dressing.

He asked casually: "How do you know that this outfit suits me?"

Suzi blushed: "I have been with you for so long. I haven't seen what clothes you wear every day."

The man suddenly felt small.

He stood up, got out of the bed, held her shoulders with his arms, and asked softly, "Do you like me very much in your heart?"

Suzi's head lowered lower.

She picked up the shirt and put it on him, without looking at him, just buttoning the buttons.

After the buttons were buttoned, she picked up the tie again to help him tie it.

This is the first time she has done this kind of work. Tying a tie is a very technical job. She has spent a lot of effort to tie her tie.

Then there is the following.

Then, the suit jacket.

When everything is well dressed, that's really the case.

"Okay...Okay." Suzi stammered, then turned and opened the door and left his room.

Back in her bedroom, she found her underwear to put on, and then went to the cloakroom. After she found simple clothes and passed them on, she came to the restaurant.

Both Sister Li and Sister Tian are here.

Both of them looked at Suzi gently.

"Let's eat, madam, today you and your husband are both up late. The food is a bit cold and I'm warming it up. Madam, sit down and I will serve it." Li's wife thoughtfully said.
