You are not ready

THE ALPHA'S SOULMATE

PART TWO

(The Alpha's Mate and his Mistress)

EPISODE FIFTEEN

THEME: You are not ready

BLACK MOON PACK

(Avery's Point of View)

If mating with my mate would secure my relationship then I could throw caution into the wind. Humans have sex without getting pregnant or even distracting their studies. There are pregnant and married ladies at college and they are doing fine.

Kayden stumbled back on the bed in surprise as I continued to kiss him. I had cut him off guard but soon his pair of hands gripped my waist and pulled me down to his body. He flipped us, my legs wrapped around his hips.

I let out a large muffled gasp as Kayden dominated my mouth roughly, we both released out pent up frustration in the form of biting and sucking until his lips were swollen from his kisses. Kayden grunted as I yanked at the roots of his hair as he tried to drag his mouth away for a moment so we could both catch our breath. But after a second, I kissed his mouth once again, deepening the kiss.

A loud moan left his lips as I flipped us over without breaking off our

passionate kiss. I began to slid up and down his body so I could feel his cock that was getting hard against my core. But Kayden claimed my hips and broke up the kiss.

"Avery, I know you are not ready for it. So we shouldn't try to start what we can't finish." Kayden flipped us.

"I am not seeing another she-wolf. So you don't have to feel insecure. And just -" His voice trailed off, letting me know just how little control he had left.

He was right. I wasn't ready. I just wanted to feel secure but it was a wrong move. I am trying to believe my mate isn't seeing another wolf.

I licked my lips and cleared my throat awkwardly. "You are right. I am not ready." I said.

"We should get to sleep now. Remember you'll have a long ride to college tomorrow." The corner of his mouth twitched before he leaned over and lifted my chin with a finger giving me a long peck.

Kayden leaned on the bed and I rested my head on his chest.

NEXT MORNING

I was ready to leave for college. A new semester started weeks ago but I had stayed back to spend some time with my mate.

"I wish you could stay a bit longer." Kayden said as he leaned down to peck my forehead.

"I'll be back before you know it." I smiled.

"Expect me at your college anytime soon. Or should I go with you right now?" Kayden asked with a pout.

I rolled my eyes getting out of his embrace after a quick kiss. "You have so much to do at the pack. Wrap things up, then come visit me so we can go on a date." I grabbed my box.

"I..think..I like the sound of that." Kayden smirked.

"What?" I asked.

"Date. That way I can get the chance to show you off and let those mere male humans know that you are mine." Kayden chuckled.

I giggled while he leaned over and kissed my lips again. "I'll see you soon, Bumblebee."

We exited the room to the large living room where we found Kayden's father waiting at the dinning.

"Kayden," Alpha Alex Scott called out.

"Father, good morning." Kayden greeted and I took turn to do the same.

Alpha Alex Scott nodded in response. "Kayden, did you receive the file Paulo sent on the new project?" The alpha asked facing his son directly.

"Yeah..I did this morning when I checked into some things on my system. I'll take a better glance at it once I am free." Kayden replied.

"Alright. But work on it soonest." Alpha Alex pointed out and he looked at me. "You are ready to leave, Avery?" Alpha Alex asked.

"Yes, Alpha." I nodded

"She is all set!" Kayden arms snaked around my waist.

Alpha Alex shrugged. "The driver is waiting to drive you to college." He started the walk to the door.

A maid came over to take my box. Kayden and I matched Alpha Alex strides. When we stepped out of the pack house, I saw a black limousine already waiting to drive me to college.

"We hope to see you soon, Avery." Luna Beatrice said as she embraced me.

Katherine waved at me with a bright smile on her face since she couldn't hug me because of her protruded belly. Kayden opened the car door for me to step in.

"Don't miss me too much." He grinned.

"Be a good boy." I joked and Kayden laughed.

"Safe drive to all of you." He said to the wolves warriors.

"Yes alpha!" The chorused with their head bowed.

"Call me when you get to college okay?" Kayden winked.

I shook my head in response. "Bye." Kayden closed the car door and waved.

The car glided into motion and the drive to the college was silent. I didn't make an attempt to create a conversation with the driver or three warriors in the car.

I kept myself busy with chatting with my family to let them know that I

was on my way to college. And at some point I slept off and only woke up when I arrived at the apartment Kayden had gotten for me.

He paid for it few weeks back stating that he didn't want me to stay at the college hostel so we would have our privacy whenever he came visiting. That made sense. I have always wanted a place for myself but my father declined. My father said it wasn't safe to be alone as a girl but my mother said it was risky having a werewolf live with three other humans.

My ex roomates are nice people but I have to admit that it hasn't been easy concealing my identity as a werewolf. I am free! All I have to do is move my books and bags from the hostel to my apartment. And from the pictures Kayden showed me, I have every other things in it.
