Chapter 37 Her fantasy

THE ALPHA'S SOULMATE

PART THREE

(A Deal With An Alpha)

EPISODE THIRTY SEVEN

THEME: Her Fantasy

DARK WOOD PACK

ONE WEEK LATER

(Avery's Point Of View)

The passed days has been filled with me doing cleanings and preparing meals for the alpha. I am doing okay as a fully charged werewolf. I would run around the area in my wolf form whenever I didn't have much things to do. Alpha Riley was happy about my improvement. Doctor Jenny doesn't need to come around to check on my health anymore. And I also don't need a maid to take care of me.

Still no one has come to claim me. Alpha Riley and I assumed that I don't have a mate that could reach out to me because there was no mating mark on my neck or my wolf yearning for a connection. It could be that I haven't found my mate before I lost my memory. But I was certain that I wasn't an underage wolf. And the alpha also confirmed it too when we both went hunting in the woods around his home. My wolf looked matured.

I was home alone today because the alpha decided to visit the pack area to have a meeting with some officials. I heaved a sigh of relief as I stopped on track in front of the cottage. I felt a liquid drop in my panties and then my stomach clenched in pain. My cycle was here? No, it can't be because it ended two days ago. I went inside and headed straight to the bathroom.

"Damn it!" I grabbed the edges of the sink when another wave of pain hit me.

Quickly I pulled off all my clothes. There was blood stain in my panties but the cycle I ended didn't flow fully but was just spotting. So why am I spotting all over again? I wondered. And soon I sniffed my arousal in the air. I glanced down in between my thighs. A swollen vulva and vaginal

bleeding, my wolf decided to be in heat.

"Damn it! Why now? What do I do?" I clenched my thighs together. Different emotions reeled through me as my wolf experienced a change in behavior. "What..do..I..do?" Panics filled me as my arousal became stronger in the air. I felt reverberated pain shoot through me and the only option I had was to help myself before I end up collapsing for trying to hold the urge in.

I stepped into the tub just as I turned the shower on. I sat in it and let the water sprinkle on my core as I let it wash the blood away. I was becoming too horny than I could control and the smell of my arousal didn't help my matter. I was an helpless she wolf in heat. I have no idea if I had experienced it before or if I have even gotten intimate with any male wolf in my life. Tears streamed down my cheeks as my body was in severe flames of heat. I did what could help relief the tension slightly. My hand brushed some certain areas of my body that needed a male wolf attention and touch.

Without knowing what I should do exactly, I got distracted from thinking and my mind wondered into fantasy. One of my fingers rubbed my clitoris, I tried to stop myself but my sexually frustrated wolf was now in control. I have a strong will of stopping my wolf from trying to satisfy me but if I don't try to relief myself soon, I would lose my mind. The thought of Alpha Riley flashed my mind again. He is the only one that can satisfy me. To be honest, my attraction to the alpha of dark wood pack was going to result into something dangerous. So I kicked against fantasizing about him.

I sat properly in the tub and rested my arm on the side of the tub. I licked my thumb and dropped it on my clit. I closed my eyes as my head fell back with a noiseless breathe massaging it slowly. The water from the shower came down aggressively on my body as the tension built within me. Satisfying myself helped a bit to lessen the heat. The streams of water dropped onto my clit as I pressed one finger into my core. I was dripping wet already as I thrusted into myself with another hand rubbing my clit. This is torture. I thought as tears streamed down my cheeks.

My chest rising and falling as the image of alpha Riley flashed my mind again. I imagined him satisfying me. "Riley..." I heard myself mumbling unconsciously as my hand worked deeper into my core. I felt like I was on the verge. I moaned as the heat in me became stronger. The pressure of the heat was circulating around my body.

All of a sudden, the door swung open which caused me to open my eyes. Alpha Riley was there at the entrance. A shocking look displayed on his expression followed by a lustful desires in his eyes. I am sure he never

imagined that he could catch me in such act. I didn't care that he was there watching me because I couldn't bring my hand to stop satisfying me. I threw my head back, moaned again as I reached a quick orgasm. I breathed out with my eyes close.

"Edda.." he mumbled.

I sniffed his mild arousal. Well no wolf would remain sane next to a she wolf in heat. Slowly I stood up in the tub and turned off the shower.

"I am..in..heat." I didn't realize that I was still crying.

Alpha Riley leaned on the wall with his arms folded. "We ran out of supply of heat medication two days ago and the order we placed is yet to arrive." He said.

"This heat might be the end of me." I said to myself.

"Do you need my help to relief your heat?" A smirk played on his lips.

"I..don't..need..your help." I replied. But another wave of heat had me leaning on the cold tiles for support. I wanted him but I was trying to fight my desires.

"You are still not ready to consider my demand?" Alpha Riley asked. I tightened my thighs together.

"I know. But trust me I am not trying..to play..difficult." I knew he was getting turned on by smelling my heat and arousal but he was probably controlling himself.

Alpha Riley has been considerate. He didn't pressure me about his demands. And since we had the discussion of having his pup, today is the first time he is asking for a response. Being in heat seemed to be the perfect time to get intimate with him since I am very fertile at the moment. My chance of getting pregnant if I sleep with him is so high.

"This..this..is not..easy for me." I stammered closing my eyes tightly.
