Lu Yuxi said with remorse within her heart, "Why was I so insensitive before, why, if I had known that Omi was so good, I would have never disliked him as a child, I would have agreed to his every request. Omi is such a genius, his future achievements are absolutely extraordinary, he might be able to help me take revenge, help me return to the family, and get back everything that belongs to me. Unfortunately, I was short-sighted and missed out on someone with such potential."

The more Lu Yuxi looked at Omi, the more she wanted to slap herself.

Thinking back on that Zhen Wuxiang, compared to Omi, she was a stinker in the trash.

"Pah." Lu Yuxi remembered Omi's coldness towards her now, and slapped herself with a moment of remorse, her eyes seemingly containing tears.

What was missed but could never be turned back.

Actually, Lu Yuxi wasn't so snobbish, but she was helpless, before she admired Zhen Wuxiang, she was optimistic about his future, whether he could become strong, whether he could help him take revenge and help her return to the family.

"Next, among the disciples in the first session, did anyone reach the seventh stage of Body Refining?"

No one stepped out.

The strong man's in the sky asked again, "Then has anyone reached the sixth stage of body refining?"

At this moment, two people stood out.

They were Yang Rong and Lu Yuxi respectively. Remember the URL . kanshu8 . net

It was just that Yang Rong's face was ugly at the moment, he had thought that it was impossible for Omi to improve this test, so he was even with Omi. As a result, Omi had even stepped into the eighth stage of Body Tempering, and most importantly, even Lu Yuxi had stepped into the sixth stage of Body Tempering, so he was even with him.

"Not bad, there are actually two that have reached the sixth stage of Body Tempering, although they are inferior to Omi, but it's not bad." The strong man in the sky boasted.

"Below, it's the test of the second year disciples, last quarter, the second year disciple, Zhen Wu Xiang, he stepped into the first stage of Enlightenment and shook the whole field, this time, does Zhen Wu Xiang still have an improvement?"

Zhen Wuxiang walked out like a defeated lion in a fight.

For the past few months, Zhen Wuxiang hadn't improved at all because, he was nursing his injuries every day and was beaten heavily by Omi.

"Zhen Wuxiang, you have to keep up the good work."The strong man in the sky instructed.

Finally, the strong man in the sky shouted, "Two months from now, it will be the day when the second year disciples will assess their inner surroundings status, please prepare all second year disciples. In addition, any of the first term disciples who have reached the sixth stage of Body Tempering or above can be assessed in advance, and even, those who are particularly outstanding can enter the Feiyun Sect's inner siege straight away. Omi, for example, can go straight into the inner circle of the Flying Cloud Sect. Alright, disband."

Everyone disbanded and left.

Numerous young girls surrounded Omi.

"Boss Tang, are you still short of female servants around you?"

"Minister Boss, my massage is especially powerful oh, it can promote development."

"Minister Boss, can I beg for a package with this posture?"

"Tzu-Chen, look at my legs, how many years can I play with them?" A 16 year old girl lifted her S*xy thighs and said.

A group of young girls, hardly treating Omi as a child anymore, made every effort to charm Omi.

Omi was speechless.

At that moment, Tang Huan came up.

The women all shut up because, when Tang Huan came up, they looked so ugly by comparison. The woman who thought she was S*xy just now, after seeing Tang Huan's body, silently put down the skirt that was lifted up.

sp; "Brother, we're going back."

"Oh, good." Omi nodded, and the group of young girls saw that they hadn't provoked success and lost their mouths.

All of this was seen by Lv Yuxi who was not far away.

Lv Yuxi bit her teeth and said in her heart, "Omi is such a genius, maybe he can really help me get back into the family in the future, I must try again."

After saying that, Lu Yuxi walked up with a smile on his face.

"Brother Chen." Lv Yuxi greeted warmly.

Omi was impatient, "Lv Yuxi, what are you doing again."

"Brother Chen, can I, can I have a chat with you?"

Omi took a look at Lu Yuxi and saw that she had plumped up a bit more and was getting *Sxier and Sxier*, but of course, that wasn't the point, the point was that Omi wanted to see what she wanted to do.

"Okay, let's talk, sister, you can go back first." Omi turned his head to instruct Tang Huan.

"Oh." Tang Huan pursed her lips, she was a little depressed inside, inside she didn't seem to like Omi talking to other girls very much. Tang Huan smiled bitterly, how could she think like that, Omi was her brother ah.

"Alright, Lu Yuxi, what do you want to talk to me about, can we start talking now?" Omi said.

Lu Yuxi bit her teeth and said, "Brother Chen, it was all because I had eyes before."

"I don't want to hear such nonsense."

"Brother Chen, I am."

"Say what you have to say, don't swallow."

"Brother Chen, I want to beg for a package." Lu Yuxi blushed and lowered her head and said.

"What? Begging for a package? I didn't hear you wrong." Omi felt amused, and at the same time, Lu Yuxi's image in Omi's heart dropped by three points.

"Hahaha, Lu Yuxi, Lu Yuxi, you're too cheap, originally I thought that you refused my adoption and Zhen Wuxiang's confession, thinking that you're quite a proud girl, but today I burst out of the eighth stage of body refining and you're begging for adoption. If one day, someone more genius than me suddenly pops up, are you just begging him to get laid?"

"No, it's not like that." Lu Yuxi panicked and shook her head.

"Hmph." Omi snorted and walked straight forward.

Lu Yuxi cried, "Omi, I just want to return to the family, am I wrong? My talent is not outstanding, relying on me alone is almost impossible, I don't even know how long I can live, I just want to meet some geniuses to help me get revenge in the future, did I do wrong?"

Omi stopped, Omi couldn't stand to see a woman cry, heck, it was hard to walk away anymore.

"Cry cry cry, cry your sister ah, say what can not be said properly. I thought you saw my talent is strong, you want to fall back on it, I did not know your reason. What did you just say, what do you mean?"

Lu Yuxi wiped her tears and said, "You asked me before what my identity was, I can tell you now that I am from the Lu Clan of the Four Seas, but unfortunately, my parents weren't favored and were framed by the rest of the family, losing my cultivation and being imprisoned in the family Heavenly Prison. My talent was only very average in the family, and I was also driven out of the family. However, I was unwilling that my parents were framed by a traitor, and I must return to the family to seek revenge on those who framed my parents. However, I couldn't live in the Four Seas, because those who framed my parents, they suppressed me at every turn, I could only leave far away, to the One Sea, and joined the Flying Cloud Sect. I originally wanted to meet some geniuses who could help me in the future, before I wasn't attracted by Zhen Wuxiang's talent, if I hadn't met my death, how could he be worthy of me."
