

King of kings

1679-1980

"Anytime."

"Tomorrow, then, please meet me at the auction early in the morning."

"Good."

Omi and Mu Qianji left first.

Mu Qianji said, "I can only sell it for 160 sixth grade spirit stones, I always feel like it's too much of a loss."

"It can't be helped, the rarity of sixth grade spirit stones is no less than that of intermediate flying swords. Middle-grade flying swords are sacrificed by strong people every year, and the spirit stones are lost when they are refined, the number of regeneration is far less than the number consumed, so I'm afraid they will be even more devalued in the future."

"Alas, spirit stones are really getting harder and harder to get. If you buy 160 sixth-grade spirit stones, approximately how far can you upgrade?" Mu Qianji asked.

"We'll each take half."

"Don't, now that the enemy is at the moment, you can break through as much as you can alone, that's the smartest way to go."

Omi didn't object, indeed.

"If I refine 160 pieces of sixth grade spirit stones by myself, I guess I can soar from the third stage of the YuanYing stage to around the second to third stage of the Exaltation." Remember the URL .kanshu8.net

"Wow, it's raised a whole field." Mu Qianji couldn't help but smack his lips, Omi's opportunity was too strong, and that Nine Dao Devil Immortal Qi was too unorthodox. In such a cruel world of immortal cultivation, who was soaring one domain at a time?

"Then let's go stay at the inn now and follow Yu Mo to the Four Seas early tomorrow morning, I have never entered the Four Seas in my life." Mu Qianji said.

"Uh, I've never even entered the Two Heavy Seas, I've always heard of the Two Heavy Seas and Three Triple Seas, but I never knew where it was."

"To get to the Two Heavy Seas and Three Triple Seas, you can't rely on flying, you have to go through a teleportation formation, you'll find out tomorrow."

Omi and Mu Qianji arrived at an inn, in the inn, there were also two chase orders posted.

Omi looked at the pictures posted and smirked in his heart.

This Ning family, also dared to oppose Omi, Omi would let them know what a fearsome enemy Omi was.

Tomorrow, when we entered the Four Seas, we could inquire about the Ning family in passing, and at the same time, if we had the chance, we could kill a few more people from the Ning family.

This Ning family was already at odds with Omi anyway.

Early the next morning, Omi arrived at the auction site.

"Here we are, let's get ready to go then." Yu Mo said.

Yu Mo brought Omi and Mu Qianji to a certain ancient palace in the One Heavy Sea Zhubai City.

As soon as they walked into this palace, they felt completely cut off from the outside world and couldn't hear any sounds from the outside world.

"This is the teleportation formation, to enter the Four Seas, we must enter the Two Seas from here, then the Three Seas, and finally the Four Seas. However, launching the teleportation formation requires spirit stones, and I'll pay for them."

Yu Mo put several fourth grade spirit stones and set them into several eyes of the teleportation array, then Omi felt a moment of illusion in front of him, and a few seconds later, he appeared in another large hall.

"This is the Second Sea's teleportation formation now, if we're going to the Second Sea, we'll walk straight out, if we still need to continue into the Third Sea, we'll continue to inlay spirit stones." Yu Mo inlaid a few more fourth grade spirit stones and then entered the hall of the Triple Sea.

Soon, they entered the main hall of the Triple Sea.

"Alright, when you walk out of the main hall, outside is the region of the Fourfold Sea." Yu Mo said.

Omi asked, "If you want to enter the Fivefold Sea, is it okay to continue to set spirit stones?"

"No, it's impossible for ordinary people to enter the Five Seas, and the teleportation array to enter the Five Seas isn't here."

"Uh."

&n

bsp; "In order to enter the Five Seas, your strength must exceed the Exaltation Stage before you can use the teleportation formation, otherwise, you will be exterminated by the teleportation formation."

"Ah, so serious."

"Alright, I'll take you to the auction site now, make a registration first, then we'll start arranging the auction. In about ten days, we'll be able to officially auction. Of course, if you guys are in a hurry to use the spirit stones, you can sell them to our auction house at half price."

"Cut, only a fool would sell it to you at half price." Omi trailed off, in short, the auction house was very screwed up, but had no choice but to find an auction house.

After arriving at the Four Seas, Omi's first impression was that the space of the Four Seas was solid, and also, the aura was far more abundant than the First Sea. Of course, individual places in the First Sea also had such ample aura, but the Four Seas were every so abundant.

"With such an abundance of spiritual energy, I also want to forget about cultivating here in the future." Omi said.

Yu Mo laughed, "Liu Fan, if you're not from a local family in the Four Seas, it would be difficult for you to establish yourself here."

"Why?"

"Because you don't have identity cards, you can't pass through the teleportation array exit."

Saying that, the three of them walked out of the main hall, and suddenly, Omi was stopped by an invisible light mask.

Yu Mo said, "Those who don't have an identity tag can't pass through this formation gate."

Yu Mo immediately took out his family token and swiped at that mask of light.

"Drop." That light mask emitted a ripple vibration, and Yu Mo stepped out of the light mask to intercept it.

But Omi and Mu Qianji couldn't get through.

Yu Mo said, "You guys don't worry, wait for a while, I'll get you two temporary residence cards."

After waiting for about a few minutes, Yu Mo walked back and handed Omi and Mu Qianji a token each, and on the token was written that the duration of the 'temporary residence card' was 15 days.

"Alright, you guys can now swipe your cards and walk out, remember, your temporary residence cards are only good for 15 days, after the expiration date, the temporary residence cards will expire, you must leave within 15 days."

"What if we don't leave?"

"If you don't leave, you'll be trapped in the Four Seas and will become a pariah of the Four Seas, pariahs can't absorb the aura of the Four Seas and can only survive here."

"What the Fck, *what the Fck*, who the hell is controlling everything here."

"I don't know, maybe it's the universe, it's been like that in the spirit world since the beginning of time."

"Ugh." Omi was speechless.

"Let's go, let's go to the auction house."

Soon, Yu Mo brought Omi to a magnificent auction house.

"Yu Mo, why do you have time to come back, how's the One Heavy Sea Auction Yard you're in charge of, I heard that the income and expenditure of the previous year didn't meet the standard ah." Entering the auction house, a man with similar strength as Yu Mo said.

"Oh, I will definitely meet the standard this year, alright, register for me, these two are my clients at the One Heavy Sea Auction House, they want to auction off a magic artifact."

"What kind of magic artifact, it can only be swallowed by coming to the Four Seas."

"Hehe, a mid-grade magic artifact."

"Wow, how is it possible that someone in the First Heavy Sea is even selling a mid-grade magic tool, where in the First Heavy Sea is a mid-grade magic tool."

"Don't ask about that, just register it."

"Haha, Yu Mo, no wonder you said you were sure you could reach the standard this year, so that's how it is. Let's go, go in and register."

Soon, Omi finished registering, after which the auction house would send out information to all customers, those who needed it would come and register, and then after that, it would be waiting for the auction.

1680

"Then, now it's time to wait for the auction in ten days, and I'll help you find an inn to stay at for those ten days."

"Thank you, Senior." Mu Qianji thanked.

Yu Mo helped Omi and Mu Qianji, find an inn near the auction site and booked two rooms.

"Then you guys play, I'll also go back home, see you in ten days." Yu Mo quickly left the inn.

Omi and Mu Qianji sat in the room bored.

"Are we just going to wait for ten days?"

Omi laughed, "It was hard to come to the Four Seas, how could I stay in my room and wait every day, you know, I have acquaintances in the Four Seas as well."

"Uh, it's your first time in the Four Seas, where did you get an acquaintance."

Omi flipped out a token and said, "This is Yun De's token, even if I don't have a temporary residence card, I can still come in. Moreover, I also have a classmate who was quite close to me in the Flying Cloud Sect before, named Xia Xiaoxin, I can go and play with her too. Not only that, I can also go to Lv Yuxi's family to see when I'm strong enough to help Lv Yuxi return to the family. So, we can't be bored in these ten days, there's too much to do."

"Ugh."

"Alright, let's go to dinner and find out what's going on in the Ning family, if we get the chance, we'll F*ck him again and get a few Ning geniuses." A second to remember to read the book

"Ah, really do it. Now that the Ning family has become so deeply resentful of us, they won't stop until we die."

"Since it's do-or-die, if we don't completely defeat the Ning family, it'll be him who kills us, so we have no choice ah."

Arriving at a restaurant, Omi and Mu Qianji ordered a few dishes.

The people who ran the restaurant here were all trapped in the Four Seas and didn't have identity cards, which meant that they were the lowest commoners in the Four Seas. It was fortunate that they weren't immortal cultivators, otherwise they wouldn't be able to absorb any aura and wouldn't be able to cultivate.

Right now, the guests of this restaurant were sitting together in groups of three or five, seemingly all chatting about the biggest thing that had happened recently.

"It's been more than half a month since the incident, has the Ning family still not caught that person called Omi?"

"Caught a fart, I heard that we haven't even found the figure yet."

"It's a real shame for the Ning family this time around, the eight out of eight families in the Four Heavy Seas, but they've been put in this situation by a person with no name."

"Yeah, I'm afraid that killing Omi is a small matter for the Ning Family now, how to regain prestige in the Four Seas is the big deal, it's about the distribution of profits for the next year."

"Well, what a tragedy. I heard that the Ning family gave a death order, they won't stop until Omi is killed, and I even heard that they sent people to some kind of Flying Cloud Sect to find it."

Omi's body trembled when he heard this.

Wouldn't the Ning family go to the Flying Cloud Sect to capture Tang Huan?

However, Omi wasn't worried about going to capture Tang Huan, because touching Tang Huan would result in an even worse death.

What Omi was more worried about was that the Ning family would go to Tian Bao City.

At that moment, one of the guests of the inn said again, "Is it true that that Omi has no news at all?"

"No."

"That brat is too good at hiding, with the Ning family's strength, it's not hard to find someone from the One Heavy Sea to the Four Heavy Seas."

"The hell knows, is it really like the outside world said, that Tang family in One Heavy Sea Heavenly Jewel City is not his real family at all, that's why he doesn't relate at all and doesn't appear even if he's destroyed?"

Omi turned around.

and asked, "What did you guys just say? Omi's family in the One Heavy Sea?"

"Uh, wiped out, don't you know?"

"You're too poorly informed."

Omi's heart trembled and he was busy saying, "When did this happen?"

"Eight or nine days ago, I heard that it was Ning Baojun himself who went there to destroy that Tang family in One Heavy Sea Tianbao City. After that, the Ning family was waiting for the rabbits, but unfortunately, that kid, Omi, never returned to Tianbao City. The Ning family is going to be furious, and now there are rumors out there that Omi definitely has no feelings for that family."

Omi's face was a bit pale, and Mu Qianji was busy holding Omi's hand.

In fact, it was true that Omi had no feelings for that Tang family, the only thing that Omi cared about in that Tang family was Tang Jingtian. However, just because he didn't have feelings didn't mean that he didn't care if the Tang family lived or died, it didn't mean that he would allow others to bully the Tang family.

Omi asked again, "Omi's clan, are they all dead?"

"I don't know about that, I say they're all dead, but whether we missed a few or not, who knows."

Omi turned back, his eyes bursting with anger.

Mu Qianji was busy asking, "What did you mean by the eight out families just now?"

"Yah, you're not from the Four Seas? It's not even clear. The Eight Exaltation Family, meaning that there are eight Exaltation Stages in their family, the Ning Family is in the Four Seas. Ning Baojun, who was robbed of his flying sword by Omi before, is one of the eight out-of-body stages of the Ning Family."

"So that's what it means, what is the strength of the Ning Family's strongest person?"

"I heard that it has already reached the seventh stage of Exaltation." One of the guests said.

One family, eight out-of-body stages, it was indeed quite powerful.

Omi was in no mood to eat anymore and immediately walked out of the restaurant, Mu Qianji was busy catching up.

"Zi, Liu Fan." Mu Qianji almost called out to Tzu-Chen, promptly changing his name to Liu Fan.

"I didn't expect that my family in Tianbao City, has been exterminated, this Ning family, moving really fast, I don't know, has fifth uncle been killed."

"Liu Fan, there's no use worrying blindly now, if you're really worried, let's leave for a trip to the Four Seas and return to Tian Bao City, it's not too late anyway."

"Good." Omi was in no mood to stay in the Four Seas when he learned that the Tang family had been destroyed.

Omi found the auction house and said to that person in charge of the auction house, "I just came here with Yu Mo."

"I remember you, that guy from the First Heavy Sea, what is it?"

"I have some errands to run right now, I was scheduled to auction my flying sword in ten days, but now I'd like to change the date."

“Uh, the date, well, it just so happens that I haven’t sent the message out yet, so it’s not too late to change it, what date do you want to change it to?”

“In two months.”

“Okay.”

After Omi negotiated with the auction house, he and Mu Qianji arrived at the Four Seas teleportation formation.

“Drop.” Omi used a swipe of Yun De’s family token to enter the teleportation formation hall, and Mu Qianji used her temporary residence card, but when she came back in two months, her temporary residence card would be invalid and she wouldn’t be able to enter the Four Seas.

Omi followed Yu Mo’s example from before and stuffed a few fourth grade spirit stones into some of the eyes of the teleportation formation.

There was an illusion in front of his eyes, then he arrived at the Triple Sea’s Teleportation Formation Hall.

Then continued racing spirit stones and came to the Teleportation Array Hall of the Second Sea.
