

# King of kings

1740

Omi and Mu Qianji waited at the gate of the Blue Fox Family wall for about three hours, and finally, someone came out.

“Quick, someone’s coming out.”

“Uh, how come it’s such a weak peasant woman, and only one person.”

Omi was dismayed.

“What should we do, we’ve been waiting for three hours, and God knows when the strongest of the Fire Cloud Family will find their way all the way here.” Mu Qianji said worriedly.

Omi hesitated and said, “Qianji, you enter the Blue Fox Family first.”

“No, we have to go in together.”

“You silly, there is only one person coming out now, how can I go in, don’t say so much, let’s follow that peasant woman, to the front a bit, we kill her, you disguise yourself as a peasant woman and blend into the Blue Fox family.”

“What about you?”

“I’ll keep waiting here until a man comes out so I can get in.”

“Okay.” One second to remember to read the book

Omi and Mu Qianji followed that peasant woman, and when they were almost at no one’s place, Omi stopped the peasant woman.

“Senior spare my life.” That peasant woman immediately knelt down in fright.

Mu Qianji asked, “What is your identity, what is your name?” If Mu Qianji wanted to use her identity to mix with the Blue Fox Family, he must be clear about her identity.

Omi said, “Qianji, there’s no need to be so troublesome, I have a way to access her memories.” After saying that, Omi’s hand pressed on the top of that peasant woman’s head, that peasant woman trembled for a while, soon after, Omi released her.

“I already know her identity, I’ll pass it on to you later, it’s just that she’s just a commoner of the Blue Fox family, alas, it’s a bit intolerable that we have to kill a commoner.”

“Then how about.”

“No, we have no other way, we must kill her.”

Mu Qianji had to kill that peasant woman and then disguise himself as that peasant woman.

Omi then passed the information of that peasant woman's memories to Mu Qianzhi.

"Alright, you can find a reason to enter the Blue Fox Family now, I'll continue to wait here." Omi said to Mu Qianji, at the moment Mu Qianji had turned into the peasant woman from just now, but it was so vivid.

Mu Qianji said in a peasant woman's accent, "Okay, wait a moment, I'll call someone out for you after I enter Blue Fox City."

"Uh, how are you going to help me call?"

"I'll try."

Saying that, Mu Qianji went straight to that city gate, the gate guard at the city gate was a strong man at the Distraction Stage, although that strong man didn't interrogate, he swept his eyes and saw that it was the peasant woman who had just gone out, so he didn't say anything and let Mu Qianji go in. If it wasn't disguised as that peasant woman, it would have been impossible to enter.

After Mu Qianji entered Blue Fox City, he found that it was a very large city with a high population density, and many tall buildings. Daxia, the tallest building, I'm afraid, was thousands of meters high, just like the buildings in the mortal world, each building had dozens or hundreds of floors, and every floor was inhabited. However, it wasn't steel and concrete that forged such a tall building, but a huge stone, solid and far beyond steel and concrete.

Mu Qianji came to a street, found a young man at random, and said to him, "I'll tell you a good thing, go out of the city right now, you'll find a treasure."

If this man did go out, Omi would find a chance to come in.

However, Mu Qianji thought too simply, after that man said, "Get out of here."

bsp; "Uh, I tell you something so nice, and you don't even want it."

"Are you looking for a fight, old hag, and you think anyone can leave town? How dare anyone leave the city without permission?"

"Ugh."

Mu Qianji was speechless, so not everyone could leave the city.

At this moment, Omi continued to lurk outside the city gates.

The twelve Heavenly Kings of the Fire Cloud Family, after getting the news, all twelve Mahayana had set out to search for Omi and Mu Qianji, and at their speed, they were splitting up, while the Fivefold Sea wasn't that big, so I'm sure it wouldn't take long to find the Blue Fox Family this outside.

The Blue Fox Family, as well as the other Billion Level Cultivation Families, would soon learn of the news, and in the end, the entire Five Heavy Seas would be searching for Omi.

Therefore, Omi must be the fastest to blend inside the Blue Fox Family so as to avoid this great calamity.

The emperor did not disappoint, Omi waited at the entrance of the Blue Fox Family for another hour or so, and finally, Omi saw a person come out.

“Yay, finally someone has come out, if I don’t come out, I won’t be able to resist running and hiding somewhere else first.” Omi was excited and immediately caught up with the person who came out at the moment. It was a young man in his mid-thirties, with a very low cultivation, only at the Heart Shine stage.

Being in the Five Seas and only in his thirties at the heart illumination stage, this person was definitely someone with very poor talent from the Blue Fox Family.

Omi followed that youth and came to a river, that youth sat by the river, wiping his tears and said, “Father, mother, you will not die in vain, I will rise, I will avenge you, I will become the upper echelon of the family. God, please grant me the gift.”

Omi smiled inwardly, so it was an unambitious person from the Blue Fox family.

“Don’t worry, I’ll help you achieve it.” Omi’s voice sounded from behind.

“Ah, you, who are you?” That youth panicked and turned back.

Omi rushed up and pressed down on his head in an instant, and a few minutes later, Omi acquired information about his memory.

“You can go on your way.”

“Bang.” That youth fell down.

Omi immediately made a disguise change and instantly transformed into that youth’s appearance.

This youth, whose name was Blue Fox Chong, was also quite pitiful, his family lived in Blue Lake City, District 19, and was a 15th generation side line of the Blue Fox Family, and was simply an outsider in the entire Blue Fox Family, while in District 19, it was also a very low status. Blue Fox Chong’s parents, both of them were killed, the girl he liked since childhood, also looked down on him, in short, he lived a very unambitious life.

Omi burned Blue Fox Chong’s corpse and then headed to Blue Fox City.

Omi walked step by step into the entrance of Blue Fox City, a strong man at the head of the Distraction Stage looked at him and didn’t stop him, allowing Omi to enter.

“Yay, finally entering the Blue Fox Family.” Omi smiled heedlessly.

However, Omi got separated from Mu Qianji.

At this moment, Mu Qianji was still encouraging others to go out of the city, there was treasure outside, not knowing that Omi had entered at the moment.

Omi searched the city, and finally, Omi found the peasant woman that Mu Qianji had disguised.

“Qianji.”

“You are? Tzu-Chen?”

“Hey, yeah, I’m in.”

“Great, so now where do we go next?”

“Let’s go to the blue fox’s house first, then we’ll discuss it.”
