

# King of kings

1784

"Ah, wouldn't that be a waste."

Omi smiled, "What's the waste, sooner or later we can practice. Alright, put away these scrolls and pills and whatnot, first we have to start refining the spirit stones, let's see what realm we can improve to by refining the eighth grade spirit stones here."

After that, Omi began to refine the eighth grade spirit stones.

Two hours later, Omi's realm had been rising from the first rank of Divide and Go.

Divide God Second Step, Third Step, Fourth Step, Fifth Step, Sixth Step, Seventh Step, Eighth Step, and Ninth Step.

By the time he reached the ninth step of Divide, the rate of rise slowed down.

Omi was a bit anxious, could it be that he could only ascend to the ninth step of the Dao Divided God? Can't get to the first step of the Mahayana stage?

Omi's goal was to break through to the first stage of the Mahayana stage.

Finally, at the end of three hours, Omi had ascended to the first stage of the Mahayana stage.

"Phew." Omi breathed a sigh of relief.

In just a few months, Omi had soared from the second stage of the combined body to the first stage of the Mahayana stage. Remember the website .kanshu8.net.

After the Mahayana stage, you can't rely on spirit stones to refine it, because this spirit world doesn't have such high grade spirit stones anymore.

Omi said, "Alright, I've reached the first stage of the Mahayana stage, after today, it also means that in the future, all the way up to Ascension, we need to cultivate ourselves, if anyone doesn't have this chance, they will hopelessly ascend. There's not much to say, start one by one, it'll probably take a few days to help you all finish ascending."

"It's hard work."

"Oh, what's the fleshy talk, start."

For three days afterwards, Omi was basically helping the five of them refine the eighth grade spirit stones, fortunately, the eighth grade spirit stones had enough storage to refine a few of them.

Three days later, Qianji, Tang Huan, Yu Xi, and Xin Yi were all at the first rank of the Mahayana stage, and of course, Light Water was also at the first rank of the Mahayana stage.

All of them, they were all at the first stage of the Mahayana stage.

The Mahayana stage was already considered very strong, the penultimate realm in the cultivation of immortality.

After the Mahayana stage, it was the tribulation, and only one tribulation meant becoming a half-immortal.

"Phew." Omi stretched his back and finally finished.

"Thank you, Tang Shao."

"Thank you."

Everyone said thank you to Omi, this great kindness was really unrewarded.

"Don't be so meaty, I can't stand it." Omi was speechless for a while.

"This is all I can do to help you guys, from the first stage of the Mahayana stage, to crossing the robbery, and then to ascension, you all need to cultivate yourselves, of course, I'm the same. However, we have some of the Nine Dao Demon King's pills, so it should be easier for us to cultivate in the future than the average person. I believe that within three hundred years, five hundred years at most, we will definitely be able to enter the Half Immortal and even soar, are you all confident?"

"There." Although it was said that there was, except for Mu Qianji, who was more confident inside, the rest of them were not very confident, especially Light Water, who was the least confident.

Omi swept a glance at the spirit stone cave, the eighth grade spirit stones had been refined by them a lot, however, there were still some stocks left.

"These remaining eighth grade spirit stones are still enough for how many people to ascend to the Mahayana stage?" Mu Qianji asked.

"Five at most, I think."

"That's not bad, there's still five more Mahayana stages to create."

Omi said, "The remaining seventh grade spirit stones are more than enough, these seventh grade spirit stones are enough to create fifty divisions. In the future, we'll speed up whoever we like to look at to become a distraction."

"That can't be wasted like this, we can use these seventh-grade spirit stones to use the Spirit Gathering Pearl."

"Uh, right, I almost forgot, in the future, when our Spirit Gathering Pearl is built, it will also need to come, these seventh grade spirit stones can't be wasted indiscriminately either. Alright, we're almost done here, let's put these spirit stones away and then we can leave here."

"What if we run into Wang Pi?" Tang Huan was busy.

Omi snorted contemptuously, "Although I can't kill him, do you think I'll be afraid of him if I run into him again? Believe it or not I'll throw out a scroll to trap him in a minute?"

"Yes, we're not afraid of him anymore, but we don't have that many scrolls to waste, so we should save them. You need to hurry up now and practice your sword formation, and when you're done with it and you've reached the first stage of tribulation, I think it's possible that you won't be afraid of Wang Pi."

“Why does it feel like dealing with a king skin is still so far away.”

“People are half-immortals.”

Omi stored all the spirit stones in his spatial ring, then they passed the hole they had just made, all the way back to the sea.

As Omi’s mind moved, eleven swords came out in unison and flew in a circle around Omi’s circumference, as Omi’s fingers drew a circle.

“Tzichen, don’t be naughty.” Mu Qianji shouted.

“Uh, how am I being naughty.”

“You don’t just randomly show off these swords, see, and take them away in a second.”

“Haha, do you think those scrolls of mine are just for show.”

“Those scrolls, the strongest you can do is only deal with the sixth stage of tribulation, and that doesn’t include strong people with pseudo-immortal weapons, don’t regret being taken away.”

“Alright, can’t I just put them away.” Omi put away the eleven flying swords.

At this moment, a voice came from behind him, “Where else are you running to?”

Omi snapped back and found Wang Pi standing not far behind them.

“Ah.” Omi was shocked, not even knowing when Wang Pi was standing behind them, it seemed that Omi was still far away from the Half Immortal since he had ascended to the Mahayana stage.

“Omi, run, keep running, if I let you run this time, I’ll write the two words Wang Pi backwards.” Wang Pi emitted a mighty pressure all over his body.

Omi found that all of them, at once, couldn’t move, as if they were frozen in mid-air.

Omi snorted, “Wang Pi, you’ll regret it.”

“Regret? Hmph, ridiculous, but Omi, I’m now glad that I let you go half a day ago, otherwise, how would you have acquired a new treasure, if I’m not mistaken, you were just at the bottom of the sea, you should have found a treasure of some kind. Hand over those eleven flying swords just now.” Wang Pi’s face was cold, but of course, he was also happy inside.

Omi said, “Wang Pi, Wang Pi, if it was before, I really would have no resistance whatsoever, but it’s different now.” After saying that, Omi’s mind moved and a scroll appeared.

“Bang.” The scroll instantly opened, and in a flash, it enveloped a radius of several thousand meters.

It was a formation scroll with the name Heavenly Dragon Formation Scroll, and this Heavenly Dragon Formation Scroll, the strongest of which could trap the Fourth Stage of Tribulation, was just enough to trap Wang Pi.

“Ah.” Wang Pi’s face turned pale and said in shock, “Ninth-grade formation? This, how is this possible.”

Omi snorted, "Wang Pi, this is just one of the scrolls I got, do you want to try and see if you can break this scroll."

"You."

"Right, this formation scroll, the duration is, two months."

"Ah, two months." Wang Pi's face was dumbfounded, wouldn't this mean that he would be trapped for two months.

"Hahaha, Wang Pi, enjoy your stay here for two months." After saying that, Omi desperately left.

It couldn't be helped, these scrolls of Omi could only trap these half-immortals, otherwise, Omi really wanted to kill him.

Wang Pi tried to chase after him.

"Bang." The invisible formation stopped him, and he seemed like a fly that had been locked up and was banging around.

"Ahhhh." Wang Pi let out a roar of displeasure and anger, not only could he not get the treasures on Omi, he would be trapped here for two months.
