

King of kings

1856

"I haven't thought about it, but I'm already the strongest person in the Six Seas, so I don't know if it's reasonable to go to the Entrance Meeting again, and I don't even want to join the Entrance Meeting, I just want to find a chance to travel to the Seven Seas. If I get a chance to step into the Seven Seas, I'll use the Spirit Gathering Formation to raise my realm up a notch." Omi said with great anticipation.

With the aura of the Seven Seas, Omi could definitely ascend a few levels higher.

However, Omi felt inside that he could no longer rely on external objects to ascend when he reached the Transmigration Stage, and he didn't know if it was an illusion or not.

Little Fire hesitated and said, "Brother Chen, I know from my inherited memories that during the tribulation stage, there is no longer much point in absorbing aura, resort, and every level is cultivated by the heart."

"What do you mean?"

"Brother Chen, I suspect that the Spirit Gathering Formation, even if it gathers more aura, it won't be able to achieve the same wildash realm as before. We're all half-immortals now, and every level from now on, it's up to us to comprehend it. Of course, I also learned it from my inherited memories, I can't guarantee if it's true or not ah."

Omi's face darkened, and he said bitterly, "Actually, I also feel this way inside, so what you said is true nine times out of ten, it seems that there really is no shortcut to the tribulation stage."

"Brother Chen, you've cultivated to the second stage of Tribulation so quickly, I'm sure you don't need to worry."

In the blink of an eye, it was the noon hour of the next day.

The entire Hu Ying Ridge was looking forward to the moment when noon arrived.

"Alright, time's up." Remember the URL . kanshu8 . net

After Omi finished speaking, he immediately rose up and stood in the sky.

At this moment, somewhere on the ground, Gao Yang Sending Monarch saw Omi go out and immediately leapt into the sky as well.

In this way, in full view of the public, and under the injection of countless immortals, Gao Yang Sendingjun flew not far in front of Omi.

One of them was in the east and the other in the west.

Gao Yang Sending Jun said with a murderous face, "Omi, you killed my grandson, today, I will never forgive you lightly."

Omi trailed off, "Don't be tough-mouthed, I know you actually don't have any confidence in your heart to defeat me at all, otherwise, you would have killed me directly."

"Omi, not everyone is like you, not cultivated, I don't kill the door, it's just that I'm highly cultivated and don't want to do so."

"Alright, I don't have time to talk nonsense with you, hurry up, don't waste everyone's energy, do it. I've heard that you're very powerful with some kind of Infinite Heavenly Book, I want to learn about it."

"I also want to see if your sword formation is really that strong." Gao Yang sent his gaze cold, and with a sudden flip of his hand, a book-like object appeared in his hand.

The book was very thick and heavy, filled with the vicissitudes of history.

As Gao Yang sent Jun's mind moved, the book automatically flipped open.

"Apollo Milky Milky Bird Bird Tribulus." Gao Yang Sending Jun's mouth immediately emitted a series of words that people could not understand.

Gao Yang Sending Jun's words suddenly made everyone who heard them on the scene feel like the blood in their bodies was rushing, as if it was completely uncontrollable.

Omi also felt as if the blood in his body was unable to flow automatically, but rather a passive stream of strings.

"What kind of magic weapon is this, it's so powerful." Omi had a feeling that he couldn't suppress.

Omi didn't have time to think about it, his mind moved and the sword formation formed.

However, after Omi's sword formation was formed, the Infinite Heavenly Book sent to the ruler by Gao Yang still pervaded Omi's ears, and Omi's sword formation could not block this sound at all!

The, spiritual attack, Omi's sword formation also did not have an active defense function.

And right now, Gao Yang Sending Jun was also very nervous, he soon found himself surrounded by Omi's sword formation, in the sword formation, Gao Yang Sending Jun could not see where Omi was.

Gao Yang Sending Monarch was not in a hurry, his mouth was chanting the Infinite Heavenly Book, one after another non-stop, Gao Yang Sending Monarch believed that his Infinite Heavenly Book would definitely be effective against Omi.

"Swoosh." At this moment, Omi sword formation, a sword shot towards Gao Yang Sending Jun.

"Bang." When that sword shot to Gao Yang Sending Jun's body, Gao Yang Sending Jun's sentence of Infinite Heavenly Book shook the sword apart.

"Ah, his Peerless Heavenly Book was able to intercept my flying sword." Omi was very surprised.

It seemed that Omi must now deal with his Infinite Heavenly Book first, which was indeed very strong, not that his grade was high, but the attack was bizarre.

Omi stopped his sword attack at once.

Omi inwardly said, "That Infinite Heavenly Book is not weak, since my sword formation cannot attack, I will find a way to snatch his Infinite Heavenly Book."

Thinking of that, Omi immediately rushed towards the Peerless Heavenly Book, since Gao Yang Sendingjun couldn't see Omi's body, it was very difficult to defend against it.

Therefore, Gao Yang Sendingjun kept reading the Book of Infinite Heaven for a moment, leaving no gaps for Omi.

Helplessly, Omi seemed to have no choice.

Omi and Gao Yang Sendingjun seemed to be unable to defeat each other.

Omi could only take a desperate stab at it, gathering all of his immortal energy in his right fist and punching it.

"Wow." After Omi gathered his entire body of immortal qi in his right fist, he suddenly tore open an opening in the Peerless Heavenly Book.

Omi was delighted and immediately took the opportunity to shoot in with his sword.

"Puff." Omi's sword unsurprisingly entered Gao Yang Sendingjun's chest.

However, Gao Yang Sending Monarch accelerated his reading of the Infinite Heavenly Book.

The invisible versus invisible contest between Omi's flying sword and the Gao Yang Sending Gentleman's Infinite Heavenly Book, was momentarily impossible to see through.

However, Omi soon occupied the top as Gao Yang Sending Jun was a bit overwhelmed by such high intensity reading of the Infinite Heavenly Book.

Omi ruthlessly sometimes swords combined into one and cut down.

"Boom." A huge spatial wave shook Gao Yang Sending Monarch apart.

Omi quickly went up and took the Book of Infinity in his hand, Omi used his Immortal Qi to forcibly sever the connection between Gao Yang Sendingjun and the Book of Infinity, and then put the Book of Infinity into his own storage ring.

"Poof." Gao Yang Sending Monarch spat out a mouthful of blood.

"Where's my Celestial Book?" Gao Yang sent Jun busy asking.

"Bang." Omi kicked Gao Yang Sendingjun several kilometers away.

The battle ended and Omi put away his sword formation.

Omi said, "Gao Yang Sending Jun, your Infinite Heavenly Book, not bad, I'll take this magic weapon."

"Omi, you dare." Gao Yang Sending Monarch was furious.

Omi snorted, "The winner is the king, the loser is the bandit, your Book of the Peerless Heavens, after all, you lost to my Twelve Sword Formation, it's perfectly normal for me to confiscate your magic weapon, if you continue to jabber, I won't just confiscate your magic weapon, I'll take your little life."

“Omi, you.”

“Hahahaha, Gao Yang sent the king, don't force me to take your little life.” Omi laughed loudly, turned around and flew away.
