

King of kings

1866

"Are you afraid to go against the will of God, or don't you want to?"

"Haha, well, I'm the one who doesn't want to."

At this time, Xu Qing'er changed into a young and fashionable outfit and walked in.

Omi's eyes couldn't help but light up when he saw Xu Qing'er change her clothes, it was as if he saw the beautiful and beautiful Xu Qing'er again, and there was a little bit of Xu Mei Qian's shadow in Xu Qing'er's eyes, after all, she was the offspring of Xu Mei Qian's uncle.

"Xu Qing'er, finished dealing with your funeral."

"Well, I'll just tell the nurse that I'm dead and my body was taken away by you, so that those children and grandchildren of mine should not be disturbed and just go back to take care of the funeral." Xu Qing'er said, in fact, Omi already knew, what Xu Qing'er said to the nurse just outside, where could it be hidden from Omi's eyes, even, the entire human base, three billion human's every move, could not be hidden from Omi's eyes. So, Omi was as powerful as entering an ant's nest.

"Alright then, you can follow me from now on."

"Mmhmm." Xu Qing'er nodded her head incessantly in delight.

Xu Qing'er suddenly thought of something and was busy asking, "Right, Old Ancestor Tang, when I came in just now, I heard you say that you're not going to personally deal with the robots?"

"Right."

"Why?" Xu Qing'er in a hurry. A second to remember to read the book.

"The war between humans and robots is the inevitable result of the development of technological society, if I intervene, I can wipe out the entire robot army in a minute, I'm a bit curious about robots, I want to see what this new species has and can do, so it's meaningless if I exterminate them with a wink."

"Don, you're a human too."

"Robots also belong to humans, but they're made of different materials."

"Speechless."

"Alright, I'll go and help the Returning Void stage experts come to help, if I still can't defeat the machine humans, then there's nothing I can do about it."

"Old Ancestor Tang, you're anti-human like this, how can you support robots."

Omi rolled his eyes, "I just don't want to go out and exterminate them, did I say that I support robots killing humans? It's perfectly possible to coexist peacefully, so why should you and I die."

Xu Qing'er no longer said anything, but she just couldn't understand a bit why Omi didn't just exterminate the robot army since he could wipe them all out in a minute.

At this moment, at the human base.

A soldier reported to the human leader, "Leader, we've received a video communication from the Robot Empire."

"Open."

In the next second, the human base accepted the video call.

On the other end of the video, a robot said, "I want to see Senior Omi, can I have a word with him."

The human leader looked at the robot in the video and hummed, "Senior Tang is the senior of us humans, are the two words senior something you nondescript things can call?"

"Please, let me have a word with him." The robot in the video pleaded.

"No way, you robots, just wait to perish, hahaha."

The robot in the video looked a little anxious, busy, "You're not being fair."

"Talking to you incoherent fairness, you only deserve to die."

"Human leader, you should know better than anyone that we robots have never actively attacked you, never wanted to kill humans, instead we've always helped humans, we've always followed you

You want to destroy us for advocating peace and giving you a better life. The terminal disaster that broke out decades ago, if we robots hadn't developed a cure, there would have been no human beings on this planet today, we allowed you to survive, and yet you are ungrateful to us and bent on our extermination." The robot in the video said.

"Hahaha, go to hell for those words, we, Senior Tang, will not know so much nonsense, he will exterminate you." After saying that, the human leader ordered the communications to be shut down and instructed, "Close all communication channels, don't let Elder Tang know about these things."

"Yes."

At this moment, in a certain hall, Omi said to Yan Xinyi, "Auntie, I'm going to go back to the other world first and get some Returning Void experts to come over, do you want to go back together?"

"I'm not going back, I'll wait here in case the robots raid the place." Yan Xin Yi shook her head.

"Fine."

Omi looked at the little white dragon, "Then you'll be here with my teacher too."

"Yeah, brother has to go quickly and return oh."

"Good."

Omi looked to the side at Xu Qing'er and said, "Xu Qing'er, come with me, I'll take you to another world to see."

"Ah, take me with you." Xu Qing'er was surprised and delighted inside.

Omi's palm in place drew a void, and Omi pulled Xu Qing'er into the void, then came to the connecting passage of the two worlds.

"Where is this?" Xu Qing'er was busy asking.

"Don't say anything, let the power of this channel pull you, and you'll soon appear in another world."

Xu Qing'er saw the Thousand Mountain Tomb in this connecting channel and said in shock, "Thousand Mountain Tomb? Historically recorded? How come it's here."

Omi smiled speechlessly, to Xu Qing'er, before she was even born, the Thousand Hills Tomb, a point of passage, closed and became a legendary place.

Soon, it was worn out from the other world.

"Is this the other world?"

"Yes, this is where I'm really from," Omi said.

"Ah, Old Man Tang, aren't you from that world of ours?" Xu Qing'er seemed surprised.

"When I was eighteen, at the back of my division, I fell off a cliff, and there happened to be a passage connecting the two worlds, and there was a gravitational force there, so I was instantly brought into the passage as well. However, there was a person in the other world who was exactly like me, even with the same soul structure, and that person was called Omi, so my soul was projected into Omi's body and I became Omi."

"I see."

"So, both worlds are considered my hometown."

"Then is your current body Omi's, or did you start it first?"

Omi smiled bitterly, "Maybe it's hard for you to believe, I thought at first, since that time when Mu Qianji entered the demon and killed me, we both rolled into the tunnel, I somehow returned to the Divine Dragon School, I thought that my body, I changed back to my original one. But then I gradually realized that my body had many more features of Omi's body, but it also had the features of my original Wind Lightning body, which meant that my original body, and Omi's body, were merged into one."

"Ah, merged into one."

"Yes, merged into one, I am both Omi and Wind Lightning."

"Then why do you keep using Omi's name? I think the wind is light and the name is very poetic."
