

King of kings

1985

Omi still vomited every day, quietly comprehending.

"Mi'er." At this time, Zhou Tie came to look for him.

"Mi'er, how come you seldom go out, you practice at home every day, in fact, after becoming an immortal, the possibility of being able to progress again is very low, everything can only follow fate, if there is no immortal fate, it's useless to be at home every day." Zhou Tie said.

Omi said, "How do you know there is no Immortal Fate without trying, do you want to find me something?"

"Oh, I've brought you a fairy grass, taking this fairy grass will definitely help you."

"Immortal grass?" Omi was busy bringing it over.

"Mi'er, take this Immortal Grass first, then I won't bother you, you're fine to go out more."

"Okay, thanks."

Zhou Tie turned around and walked away, this Immortal Grass was treasured by Zhou Tie for many years, and it took a great price to obtain it, it was a, three million years old Immortal Grass ah.

Omi immediately took the Immortal Grass.

After taking the immortal grass, Omi immediately proceeded to Immortal Qi Vomiting, Omi was surprised to find that the immortal grass he had just taken was quickly digested. Remember the website .kanshu8.net

Omi immediately felt that blood qi in his head.

Previously, the value of this blood energy that Omi felt was 0.3.

And now, taking the Immortal Grass, the value rose to 18.

"Wow, it's increased so much, it seems that taking Immortal Grass, as well as various geniuses and treasures, can increase Immortal Qi." Omi was overjoyed, the value of the Immortal Machine reached 18, one step closer to 100.

Omi hadn't been out, and that prince, Yun Cheng, hadn't been able to find a chance to contradict Omi, which made Yun Cheng very depressed. If it wasn't for the sake of taking the royal face into consideration, he would have wanted to go straight to Omi's door and beat the crap out of him.

At this moment, Omi said inwardly, "That Immortal Grass just now, after I took it, the value of the Immortal Machine increased by 18, however, this grade of Immortal Grass is not so easy to obtain. So, if

I take a very low grade Immortal Grass, can I also increase my Immortal Machines? Even if you increase it by 0.1, you'll be able to accumulate more."

In order to verify this, Omi accurately went to the Immortal Pill Workshop and purchased some low-grade Immortal Grass.

Low-grade immortal grasses were useless to ordinary people, but Omi could accumulate them, and no matter how small the mosquito flesh was, it could accumulate to be heavier than an elephant.

Omi came to the Immortal Pill Workshop, which had all kinds of immortal grasses, only, most of them were relatively low-grade, and the high-grade ones wouldn't be brought for sale.

"Help me get ten thousand immortal grasses that work for three hundred years, any variety will do."

"Uh, purchase that many, okay, wait a moment."

Not long after, 10,000 Immortal Grasses came.

Omi took the immortal grasses and prepared to go home to take them, only, if he ate so many immortal grasses, Omi had to become a cow, and cows only eat grass.

Omi had just walked out of the Immortal Pill Workshop when he met a man, Prince Yun Cheng.

In fact, Yun Cheng had been watching Omi for a long time, Omi had left home with great difficulty, he definitely wanted to take the opportunity to have some conflicts with Omi.

Yun Cheng purposely pretended that he did not know Omi, and when he entered the Immortal Pill Place, his shoulders collided with Omi.

Omi did not expect to bump into him at all, so his eyebrows furrowed.

"Walking without eyes." Yun Cheng deliberately yelled at him, acting like he didn't know that Omi was a reincarnation of Zhou Mi.

Omi was upset, but Omi recognized the man as Prince Yun Cheng in the next moment.

Omi was confused, "Is this really a coincidence? Or did the Prince of Cloud City deliberately try to bump into me in an attempt to anger me?"

To verify if it was intentional, Don

Tzu-Chen said, "Sorry, I was the one who didn't see it, but meaning."

Omi intentionally apologized to him, if it wasn't a coincidence, then he would have still pestered him, because pestering was the only way to have a conflict with Omi.

"Will an apology suffice? You walk without dog eyes and bump into my prince, do you want to leave it like that?"

Omi snorted, "I'm the reincarnation of Zhou Mi, don't pretend you don't know me, say it, Your Highness, Yun Cheng, what do you want?"

"Uh." Yun Cheng was startled, but he was actually discerned by Omi.

"Hmph, Zhou Mi, okay, then I won't bother with you, you hit my royal face, I vow not to stop this matter, today I must find you to settle the score."

Omi said, "Really? I welcome that."

"Looking for death." After saying that, Yun Chengton rushed up, a strong spell with both hands, Omi was clamped down by a pair of big hands.

Omi felt a bit of pressure, although this Yun Cheng was also an early stage Human Immortal, he had already reached halfway, while Omi was just starting out.

Omi's body was quietly operating the Silence Technique, using a spell called Earth Opening from the Silence Technique.

"Boom." Omi's body seemed to vibrate, as if an earthquake had occurred.

Instantly, Cloud City was bounced away by Omi.

As it bounced off Cloud City, Omi blasted on with a powerful palm strike.

"Bang." Yun Cheng flew out into the street.

So many people on the street, they all looked over and saw a man down on the ground in a very poor condition, many of them did not recognize Yun Cheng at the moment.

Prince Yun Cheng got up from the ground, very shocked.

At this time, a person on the street shouted, "Ah, yes, it's Prince Yun Cheng."

After being recognized by someone, the whole place was talking.

A prince who was blown out onto the street in such a mess, who was he?

Everyone looked towards the entrance of the Immortal Pill Place, only to see a handsome looking young man standing there.

"Gosh, isn't Prince Yun Cheng quite strong among the many princes? Why would it be vulnerable?"

"Yeah, who's that guy? One palm strike flew off the Cloud City Prince, tsk tsk."

Everyone was pointing.

At this moment, Prince Yun Cheng felt humiliated and looked at Omi full of anger.

Omi retreated with an advance and said, "Your Highness, Cloud City, I am much offended, goodbye."

Omi turned around to leave.

Yun Cheng was furious and shouted, "Don't even think of leaving."

After saying that, Yun Cheng violently attacked Omi from behind.

Omi slapped his palm back without turning his head back, as if an invisible force, blasted the Prince of Yun Cheng, who was rushing up behind him, and knocked him flying again.

"Wow", it flew to the street dozens of meters away, knocking over the many stalls on the street.

"Wow. So strong." Many people looked at Omi's back and exclaimed, no one knew that Omi was the reincarnation of Zhou Mi.

"Ahhhh." Yun Cheng yelled in anger, his eyes filled with cold.

This matter would definitely spread immediately.

Yun Cheng wanted to save the royal face, and as a result, he lost all the royal face on the street again, this time, Omi didn't hit Yun Cheng's face again, there was always no reason for the royal family to trouble Omi again.

I really didn't know how the emperor of the Cloud Gong Immortal Kingdom would feel when he learned of this result.

However, the person in question, Omi, did not take it seriously and hurried home, trying to take the low grade immortal grasses and how much each one could increase the value of the immortal machine.
