

King of kings

2000

What Omi was about to participate in was also the pre-human immortal ranking, so it was unknown if Yun Zi, Yun Chun, and Yun Blame could defeat Omi and keep their top three spots. Of course, none of them were aware of Omi's threat at the moment.

"The rest of them must all keep the top ten."

"Yes."

"Alright, I'll officially start a twenty-day special training with you guys, come on, order the next twenty days, over ten million years of immortal grass cannot be cut off, continue to supply them all."

"Yes."

The royal sons and grandsons in the palace, their faces were all excited, if they were ordinary people, where would they have such a large supply of immortal grasses, and they, who couldn't be cut off for the next twenty days, were fortunate to grow in the imperial family to have this resource.

The sons and grandsons of the imperial family were able to occupy the top three of the genius list for a long period of time, and it was also related to the supply of immortal grasses and so on.

At this moment, in the Zhou Residence.

"Mi'er."

"Lord Father, what are you looking for me for." Omi was cultivating the Silence Technique and Zhou Tie ran in.

Zhou Tie took out an Immortal Grass from his bosom and said, "Mi'er, for my father, I've worked hard and wasted a lot of effort to finally obtain this Immortal Grass, although it's only two million years old, but, it should be able to increase your Immortal Fate, a new round of genius ranking competition is about to start, you have to go for it, haha." Remember the URL .kanshu8.net

Omi looked at the Immortal Grass in Zhou Tie's hand and was moved, Zhou Tie was truly for his own good.

"Lord Father, no need, use it yourself, don't worry, I'll never let you down."

"Mi'er, what's the point of being polite to father, even if it can increase the mana a little bit, it's worth it ah." Zhou Tie shoved it into Omi's hand.

"Then, I'll take it."

"That's right, then you continue cultivating ah, I won't disturb you."

Omi didn't take the Immortal Grass, because Omi's realm was already halfway to the pre-Human Immortal stage, and it was difficult to reach the end in a short time, so he might as well save it for Mu Qianji and the others, or, Omi used it to refine it into an Immortal Pill.

More than twenty days, in the blink of an eye, it arrived.

The Yunluo Immortal Country Genius Ranking Shuffle Competition had officially begun.

Fifty years shuffle once.

Now that fifty years had arrived, the genius list would be redefined as to who was first, who was in the top ten, who was in the top one hundred, and who was in the top five hundred.

At the largest martial arts training ground in the Yunluo Immortal Kingdom, there was a sea of people.

Omi arrived at this largest martial arts training ground early in the morning with the people from his house.

"Mi'er, do you have the confidence to hold the sixteenth place this time?" The peripatetic stepmother asked.

The Don laughed, seemingly unconcerned, "Hold the 16? Is that all you expect of me, Mother Superior?"

"Wow, Miyi can still squeeze forward, that's great." The Empress laughed.

Unfortunately, she didn't know that Omi was aiming for first place in the pre-human immortal stage.

The current first place was, Princess Yun Zi of the Yun Luo Immortal Kingdom.

The second place was Yun Chun, and the third place was Cloud Blame.

Not long after waiting in the martial field, the emperor of the Yun Luo Immortal Kingdom, an Earth Immortal level powerhouse flew out.

There was silence in the arena.

The emperor of the Yunluo Immortal Kingdom, he had already cultivated to the pre-Earth Immortal stage.

&nb

sp; In the entire Yunluo Immortal Kingdom, there was only one Earth Immortal, and that was the Emperor.

The strength of the Earth Immortal was undoubtedly strong, it was estimated that with a flip of a hand, he could slap a mortal immortal to death, let alone a Human Immortal.

Human Immortals were still divided into pre-middle and late stages, and Omi was merely halfway through the early stages of cultivation, showing the geometric difference between Omi and the strong Earth Immortal at the moment.

At the scene, everyone immediately prostrated themselves and worshiped, "Worship your majesty."

At this moment, Omi had to worship as well.

The strong were kings, the weak were insects, and before there was strength, the weak had no qualifications to be arrogant, much less cocky.

No matter how big the dreams and expectations within Omi's heart were, he was just a worm before he became before he became a strong Earth Immortal.

However, Omi's heart was disdainful, and Omi believed that he would one day surpass the Earth Immortal, an imperial throne that would, one day, not even qualify Omi to mention his shoes.

But in what year or month, or whether Omi would die and be killed in the middle of his life, there was no telling. Although the Nine Dao Demon King could give Omi help, he couldn't protect Omi from being killed by a strong man.

The emperor landed on the podium, then overlooked the countless heads in front of him and smiled, "Gentlemen, the fifty-year old Genius Ranking Shuffle Competition has begun again. Fifty years ago, many of you may have had regrets and felt that you didn't get your ideal ranking, but that's okay, today he has the chance to make up for that regret again. However, it's up to all of you whether you can take it to the next level. I hereby announce that the Yunluo Immortal Kingdom, Human Immortal Realm, Genius Ranking List Competition, has officially begun, starting with the early stage of Human Immortal, then the middle and late stage of Human Immortal, in that order. Alright, everyone get ready, it's about to begin."

The countless people at the scene felt nervous, everyone was aware of the monetary value of this competition.

At this moment in the crowd, Niu Dancing Water from Xixing Town had eyes filled with determination.

Fifty years ago, when Niu Dancing Water came to participate, he was lucky enough to enter the top five hundred, as a genius from a small town, entering the top five hundred was something to be very proud of.

Niu Danceshui's eyes at this time, looking towards the far side of the crowd, far away Omi and Belinda Ma were standing together, Omi had his hands behind his back, looking like an expert lonely look, Omi's look made Niu Danceshui look very unhappy, Niu Danceshui wanted to go up and step on him, to see if he still dared to look like an expert lonely look.

As for Belinda Ma, she stood obediently at Omi's side.

Niu Danceshui saw Belinda Ma behaving like this, and inwardly said, "Could it be that Belinda has been disciplined so quickly?"

Niu Dancing Water suffered inside, seeing his fiancée, who had been disciplined to be as submissive as a female slave, felt bad inside. Niu Danceshui no longer dared to think about how much his fiancée had been squeezed by Omi over the past three years."

Omi seemed to feel a burning gaze and immediately looked away.

"Niu Danceshui?" Omi saw the Niu Dancing Water and snorted lightly.

Belinda Ma also immediately looked and saw Niu Danceshui as well.

When Belinda Ma saw Niu Dancing Water, there was an unspeakable complexity in her eyes, once he was his fiancée, once and he was the golden boy and jade girl that everyone envied, once she also how much she admired the first genius of Xixing Town, now, it was hard to say it all.

Omi asked, "Belinda Ma, your old beau is here."

Belinda Ma didn't say anything, her gaze still complex as she looked at Niu Dancing Water.

Omi laughed, "Belinda Ma, I'll let Niu Dancing Water know how strong you've become under my tutelage these past three years, hahaha."
