

# King of kings 2001

2004

"Zhou Mi, you wait for me." Yun Zi responded with a killing intent gaze, Omi had just beaten Yi Hao for eight hundred years is a scene, Yun Zi naturally also saw it.

At this moment, the emperor said, "That Zhou Mi's reincarnation, I really don't know what kind of luck he has had, someone who was such a trash in his previous life is able to have such strength in this life. His current strength has surpassed that of his previous life, even Yi Hao was defeated by him."

"Your Holiness, don't worry, he's only in the top ten now, and when the top ten duke it out again after that, Princess Yun Zi will definitely let him know why the flowers are so red."

The emperor snorted in discontent, "Did I compare him to Yun Zi? Yun Zi is one of my most talented daughters, the first time she participated in the last session, she won the first place in the pre-human immortal stage, what is Zhou Mi, who dares to compare with my daughter. I'm just praising him and occupying a top ten spot."

"Yes, yes, Zhou Mi's bracing for death is only in the top ten, just now my slave misspoke, I hope His Majesty will atone."

"Next time, don't talk nonsense, it's not good to grow other people's ambition."

"Yes, yes, yes."

An hour later, the judge shouted, "Stop, the battle of the top one hundred, it's officially over. Those who haven't snatched up any water rings by now have lost their chance, so please retire immediately."

Helplessly, those who hadn't snatched up any, retreated.

With a move of the referee's hand, all the water rings returned to him and disappeared.

"One hundred of you, stand still in the ring." One second to remember to read the book

One hundred people, standing in a row in the ring.

Right now, Belinda Ma was excited inside.

Belinda Ma had felt that she had the strength of the top 80 before, but when she had just grabbed the water circle, Belinda Ma had not grabbed the water circle that corresponded to her strength, which was the seventh level. Belinda wanted to challenge the sixth level water circle first, and after an hour of constant challenges, by the end of the hour, Belinda managed to snatch the sixth level water circle, which meant that Belinda was in the top 70, stronger than she had expected.

"Yay." Belinda Ma's inner excitement was already overflowing with words.

The judge said, "Congratulations, you have been awarded the title of the 9th Reserve Minister of the Immortal Kingdom, and I will present you with your certificates immediately."

Everyone received a certificate that was like a tile and heavy, some were excited to hold it, while others, didn't take it seriously.

Belinda Ma's excitement at the moment was needless to say, and she even looked at Omi several times.

In the crowd, Niu Dancing Water's expression had become dull and numb, the achievements that Julie Ma had now obtained were beyond his expectations, and perhaps not in his lifetime.

The referee said, "The certificate has been awarded, next, it's time for the specific ranking among the top one hundred, as you have just seen, the water circle is divided into ten ranks, the person who snatched the first rank is the top ten, and so on. Now, please ask the ten people who have just grabbed the tenth rank to come forward, and the rest of you to step back."

On the ring, ten people remained.

"The ten of you will now engage in a free battle, those who lose all their matches will be 100; those who win one match will be 99; those who win two matches will be 98; those who win ten matches will be 91, and so on. Next, the rest of the various water ring levels are ten, and the same rules apply."

In the ring, a new round of battles began immediately, ten people, each of whom had to fight nine others

It was a bit intense, but it was the fairest.

There was a battle and 91 to 100 came out.

Then, it was 81 to 90.

After that, the battle continued from 71 to 80.

Soon, it was time for a duel between the ten people in the sixth level water circle.

Belinda Ma was in this round of battle. Julie Ma stood in the ring, after the referee shouted to start, the people around her fought against her one by one, each one wanting to win against him, one more win, which meant advancing one place.

And so, they fought and fought until they were exhausted, and in the end, sadly, Belinda Ma only won one match.

This meant that Belinda Ma finished 69th, but Belinda Ma was content with that.

Round after round went on, and soon it was time for the most exciting final round, the battle for the top ten.

The emotions of the entire audience were explosive to the extreme.

Every single one of the top ten was recognized by everyone as a genius, except for Zhou Mi who was the dark horse that suddenly killed out of nowhere, but the fact that Zhou Mi was able to defeat Yi Hao already showed that Zhou Mi's strength was also unpredictable.

"Everyone, the most exciting battle of the top ten has begun, the rules are the same, feel free to start." After the referee said that, several gazes all landed on Omi.

One of these gazes that landed on Omi was Princess Yun Zixin, Princess Yun Zixin had already said just now.

Now that the war could finally begin, Yun Zi Zi was of course the first to find Omi .

In addition to Yun Zi Zi, the other four royal princes and princesses were also the first to look at Omi, because Omi had beaten the Cloud Camel Prince until he vomited blood, these highborn princes thought that Omi had insulted their royal family, perhaps they were so high and mighty used to winning or losing in the ring that they considered it an insult.

Omi laughed, "What, you several royalty, all of you have looked me, Zhou, as your first enemy, ah, it's really a coincidence. Did I, Zhou, do something to make all of you imperial sons and daughters in the top ten so unhappy?"

"You." Princess Yun Zi was startled and looked to the side, indeed, other than her, the other four princes and princesses who had entered the top ten were just like her, the first person to hit was Zhou Mi.

In fact, the five of their royal descendants, coincidentally, were the first to hit Omi, somewhat losing their royal style.

Omi laughed, "I never thought that the rise of someone like me, Zhou, would attract the discontent of all the descendants of the royal family, in the ring, victory or defeat is a common thing, and one should not resent others because one's brother lost. It is true that I have just beaten the Yun Camel and vomited blood, but I, Zhou, do not think that I have done anything cruel, it is just that the Yun Camel Prince is weak. As such, it has drawn the discontent of several of your princes and princesses, all of whom look as if they want to cripple me, which is really disappointing to my Emperor."

At this moment, the emperor on the podium felt like he had been slapped in public by Omi, his children, who couldn't afford to lose, off to the side, as if he didn't have words to argue.

Princess Yun Zi gasped, "Zhou Mi, you are talking nonsense."

"If this is not the case, why are you five royal descendants, the first spear aimed at me? Come on, come along, I don't mind." Omi said.

"Hmph, against you, one random child of my royal family is enough, Cloud Leopard, you go." Yun Zi yelled, Yun Bao was the weakest of their five imperial children who had entered the top ten.
