

King of kings

2209

Omi entered the Immortal Palace with a thought.

The Immortal Palace was still the same as it was before.

At the moment, the Immortal Palace was quiet and no one was seen, everyone must be in closed-door cultivation, and it was because of the cultivation that time passed so quickly, otherwise a million years was not so easy to spend.

"I'm back." Omi shouted.

A few seconds later, the doors of almost every room slammed open.

"Big brother, you're back."

"Tzichen."

Everyone ran up.

"Hahaha." Omi laughed out loud in excitement.

An hour later, everyone had calmed down from their excitement.

Omi told everyone about his experience in the Immortal Academy, and even more about how he became a billionaire, which everyone found incredible. One second to remember to read the book

Of course, Tang Huan was able to meet with Omi at the Academy of Immortality, which was also unexpected.

That night, Omi invited Qing Shi, and the family celebrated in a big way.

In the next few months, Omi practiced a lot of Immortal Pills, giving everyone's realm a wild ride, Omi had plenty of Immortal Coins, they were all still lower, so the Immortal Machine Spitting Method was still very applicable, as long as they reached Upper Immortal, after Heavenly Immortal, the effect of the Immortal Machine Spitting Method suddenly diminished.

One year later.

Omi had soared everyone to Upper Immortal.

Mu Qianji, late Upper Immortal.

Little Fire, late Upper Immortal.

Yan Xinyi, late Upper Immortal.

Lu Yuxi, late Upper Immortal.

Xia Xiaoxin, late Upper Immortal.

In short, they were all late Upper Immortals, including Tang Huan, who was an Earth Immortal before, but this time, Omi simply did nothing and soared her to late Upper Immortal as well.

"My? Yah." Qing Shi suddenly visited, seeing this scene, his entire body was silly.

"In the past, it took me tens of millions of years to become a late stage Upper Immortal, but now, in just one year, you are all late stage Upper Immortals, how can you make us feel. Brother Zhou Mi, in the past, when I saw you rise so fast, you said that there was a chance, but now, all of you have risen so fast, I no longer believe in any chance."

Omi said, "Brother Qing Shi, the reason I let you enter the Immortal Palace is naturally because I don't want to hide it from you, and I believe in you. That's right, we have a special spitting method that can quickly accumulate Immortal Fate and quickly rise. However, this spitting method is not universal, under the Upper Immortals, it can be fast, but at the Celestial Immortals, the conditions for accumulating Immortal Boundaries become harsher, which means that the effect decreases, and by the time you reach the Dao Immortals, I think, it may not work, maybe that's why, the Nine Daoist Demon King is only a Daoist Immortal in the end. But nonetheless, the method of being able to become an Upper Immortal or Heavenly Immortal so quickly is already something that many powers within the Three Realms want."

Aoshi nodded, somewhat incredulous.

"Brother Qing Shi, I'll pass him on to you some other day, although we're already Heaven Immortals now, and then Dao Immortals, the Tathagata method isn't that useful, but at least it's much more useful than relying on a little bit of cultivation on your own."

"This, well, thanks brother."

"What's the politeness with me, brother."

Omi took out a spatial tablet and said, "In order not to arouse suspicion from others, I'll revise their ages for them now."

Omi asked Tang Huan, "Entering the Academy of Immortality, about how many years old is the late Upper Immortal about the middle level?"

"This, within ten million years."

"Good, then let's revise it to around nine million years."

/> Omi again, under Qing Shi's eyes, revised everyone's age to between eight and nine hundred thousand years.

Of course, Omi himself, also gave the revision to five million years old.

As for Tang Huan, but it was a bit troublesome, her mother and grandfather, definitely knew how old she was, if she gave the modification, at least her grandfather couldn't lie, how to do it.

At this time, "Big brother, if sister-in-law Tang Huan's grandfather gets suspicious, let's say, she entered a place where time accelerates, one year outside and ten thousand years inside, so Tang Huan has been inside for millions of years, so maybe it can be explained a little."

Omi nodded and said, "It seems that it will have to be so."

After that, Omi revised Tang Huan's age to eight million years.

Finally, Omi said to Qing Shi, "Brother Qing Shi, it's your turn."

"Ah, me, I'm already so old, and I'm still adding?"

"Big brother misunderstood, I revised your age to six or seven hundred thousand years, and when I go back to the Academy of Immortality, you can also be accepted smoothly ah."

"Ah, this, this is a lie, isn't it."

"Haha, yes, cheating, but what does it matter, as long as I can bring you all into the Academy of Immortality."

"Good, I didn't expect that I could be so many years younger at once."

Omi was busy saying, "No, your body isn't young, the modification is only the age that outsiders detected your age, how old you should be or how old you are."

"Haha, so that's how it is, I thought it was really so ungodly."

Omi modified Qing Shi to seven million years old as well, which was at Qing Shi's own request.

"Now, it's time for us to bid farewell to the Upper Feyama Continent and return after leaving the Immortal Academy for a year."

"Mmhhh, before we leave, let me give my master incense." Tian Xiang said.

"Of course, it's not just my master, but also Grandpa Qingtian."

Qing Shi's grandfather was also buried in the Immortal Graveyard in Upper Fellows Island.

After paying his respects, Omi took his family and left Upper Feyama Continent, heading straight to the Academy of Immortals.

"Huanhuan, how many more years until the Immortal Academy opens next?" Don Omi asked.

"It's still more than twenty years away, I think."

"It's still that long."

"It's not long, the Immortal Academy opens once every fifty years, and fifty years passes in a snap."

"Alright."

Tang Huan said, "It's only a year later, we'll go to the Northern Club, will Hua Ming Zhi's murder be investigated into us ah?"

"This, it should be fine, when we get to the Immortal Academy, we'll first try to see if we can bribe the gatekeeper to get in, if we can bribe the gatekeeper to get in, then there's no need to go through the

normal route. The Immortal Academy is so loosely managed anyway, once we get in, who knows how we got in."

"That's fine."

A month later, they arrived at the Academy of Immortality.

Omi and Tang Huan were the first to arrive at the entrance of the Academy of Immortality.

"Stop."

"It's us." Omi said to those gate guards.

"Ah, it's you guys." Those gate guards also instantly recognized Omi and Tang Huan.

"Why did you guys go out for so long, didn't you say that you went out and returned in no time, if it's found out that we let you guys out, we'll be finished." One of the gate guards chided.

Omi smiled, "Seniors, nothing has happened here."
