

King of kings

2292

"What, four thousand a minute?"

"Yes."

"Gosh, then you can even go straight to the ninth level of the challenge."

"Hahaha, yes, so, I'm going to go straight to the ninth level now, are you hilarious?"

"Yeah, I also want to see how 4,000 a minute is done."

Then, Omi arrived at the location of the ninth level.

At the location of the ninth level, four thousand savages seemed like they were waiting.

Omi immediately flew up.

"Kill." Those savages immediately saw their enemies and killed Omi like an enemy, except for the realm of late Dao Immortal, the rest of these savages were very ordinary, carrying sticks, hoes, and varying weapons, and fortunately, if they were very ordinary peers, it would be impossible for one person to kill 4,000 people.

Omi's sword went down and hundreds of people died, only all of a sudden, it was as if it was like a human Shura.

A minute was about to end, but Omi still had more than ten left. Remember the URL .kanshu8.net

Omi was in a hurry, he had to kill them all quickly, or else they would all be resurrected right away, and he would get tired if this went on endlessly.

Omi swept his sword across the room, and the remaining ten or so savages died.

Omi succeeded in his one-time challenge.

In Omi's palm, the words Passing the Ninth Level immediately appeared.

Next, Omi only had one final ultimate level left.

At this time, in the outside world.

The Three-Eyed War God who had been watching Omi was simply dumbfounded.

"Heavens, Omi has only entered the Sacred Ancient World for a thousand years and passed the ninth level, you know, when I assessed the Sky Wolf Battle Team back then, when I passed the ninth level, it was already fifteen hundred years ago, which means that Omi's talent could be stronger than mine? There was no reason for this, if Omi's talent was so strong, why hadn't the Immortal Emperor summoned him? To think that even I was summoned by the Immortal Emperor back then."

"Just maybe, the Immortal Emperor can see more, for example, Omi is great now, but he'll be average after that, or Omi will die before he grows up, it's all possible, it's even possible that the Immortal Emperor knows that Princess Niansei took him and let Princess Niansei have him. But no matter what, I'll immediately go to Princess Nian Shi and report this matter to Princess Nian Shi."

After Nianxiao learned that Omi had passed the ninth level in one thousand years, she said in her heart, "It seems that my father is really acquiescing to us being together."

Princess Nianxie was already convinced that Omi had passed the ninth level in one thousand years, and judging by this, the future was undoubtedly likely to be more powerful than even the Three-Eyed War God.

However, inside, Princess Nenyomi hadn't been able to feel anything for Omi yet, but she had decided to meet Omi more often in the future, so as to cultivate her feelings.

Of course, Princess Nianxie wouldn't ask the Immortal Emperor if he was setting her up with Omi, after all, this kind of thing was not easy to ask, as the Immortal Emperor's prowess already knew it by heart.

"Ah." Omi shouted.

"What are you yelling about."

"I made it through the ninth level, what a surprise, to think that I couldn't even kill a hundred savages in a minute, but now I can kill four thousand, I'm so much stronger."

"What's there to be happy about, you have to know that any member who enters the Wolf Squad has passed the ultimate test, which means that any one of them is capable of killing 10,000 savages a minute. You're still a fraction of those who have already entered the squad."

"Hehe, I'll definitely catch up."

"Then you're under

One step, how do you want to make your swordsmanship stronger?" Cheng Yu asked.

Omi felt that his current Heavenly Yuan Great Sorrow Sword was already incredibly strong, and he really didn't know how else to diffuse it to make it stronger.

"For now, I don't know, I still need to work on it."

Cheng Yu said, "Didn't you say before that you would help me practice my spells?"

"Good, I've already passed the ninth level, and I should help you, let's go, I'll help you enumerate your Da Luo Galaxy together to see how to practice it more strongly."

After that, Omi spent hundreds of years helping Cheng Yu to enumerate the Great Luo Galaxy spell.

After enumerating it for so long, Omi knew some of it.

However, Omi resolutely gave up on going to learn this spell.

Although it was true that Omi could practice it, there was really no point in practicing this spell, no matter how much time it took to catch up to the level of the Heavenly Yuan Great Compassion Sword?

Omi didn't even practice the Star Hidden Great Law now, specializing in one discipline, and there was a very clear direction to specialize in one discipline Omi also had, which was to improve with creativity. Omi didn't improve by practicing layers upon layers like before, but rather, he was constantly fusing, changing, and upgrading, using this method to make himself stronger.

This was what Omi was best at, and he had to grab what he was best at perhaps to succeed, rather than trying to learn a little bit of everything and ending up unable to truly achieve precision in anything.

"Thank you, for helping me reference for so long and giving me so many ideas." Cheng Yu said gratefully, Omi had given her a lot of ideas and made her think a lot more active.

"Haha, if you really want to thank me, just give me a kiss."

"No, my first kiss is for my future husband." Naru said.

"I am."

"Che, I'm not talking to you, I have to close up soon."

"Okay, I'm almost done."

The two of them went back into the retreat.

Omi thought hard about how to continue to make his martial arts stronger, the Heavenly Yuan Great Compassion Sword, which had already integrated the essence of the 5 Air Tearing Techniques.

Omi secretly said, "If, my Heavenly Yuan Great Compassion Sword can continue to fuse more essence of the Air Tearing Technique, it can definitely be stronger. However, I don't have any more secrets right now."

At this moment, the voice of the Three-Eyed War God sounded in Omi's mind, "You need more secrets of the Air Tearing Technique?"

"Ah, Senior Warlord."

"I can give you a few copies." The Three-Eyed War God said.

"Thank you, Senior War God."

In the next second, six copies of the secrets of the Air Tearing Technique appeared in front of Omi.

"Wow, so many."

Omi was overjoyed, these six books were the Starry Sky Strike Chop, Tsunami Divine Fist, Saro Body Refining Technique, Eighteen Transformations, Nine Turns of the Immortal Palm, and the Square Sky Divine Halberd.

"Wow, these six books, how many secrets are in each one." Omi was overjoyed, of course, the Three Eyed War God's kindness, Omi remembered it by heart.

These six books were also all of the Three Eyed War God's possessions. However, people were all selfish, and at the moment, these six books were only the first hundred layers.

But that didn't matter, even if it was only the first hundred layers, there were still essences that could be fused.

The Heavenly Yuan Great Compassion Sword, now fused with five, if these six books were to be fused again, it would be a martial art that fused with the essence of the eleven middle air tearing techniques ah.

At that time, Omi's strength could be increased by a large amount, and getting through the ultimate level would not be a problem at all.
