

## Pinnacle 1051

### Chapter 1051: 2nd generation

Abandoned capital, in the cubicle in front of the headquarters office.

Xu Meixin is confirming the boss's schedule with Madoka, "I'm going crazy."

"There are a lot of annoying things at home, and work is so busy that there is no time for the last bathroom... Why am I so miserable!"

Madoka has recently encountered some problems. Her family and personal life are in a mess, which makes her irritable all day long.

I became more impatient with things, nagging like a starling all day long.

Hearing Madoka's complaint, Xu Meixin continued her work.

Everyone will have so many days of restlessness and irritability, as long as she does her job well, it's okay to complain.

Although it is noisy, she can bear it when the boss is away.

Looking at Beiyi on the other side, Xu Meixin thought of her performance these days.

Serious and responsible, dedicated, good at learning and listening!

This person made the right choice.

was feeling relieved, and saw Beiyi got up and walked with the calendar: "Sister Xu, something went wrong."

"what?"

"I just contacted Shun Shan, and the other party said that they had not received an appointment for the meeting this morning!"

"Are you sure?" Xu Meixin's expression immediately became serious.

There are only 2 hours left before the appointment time, how could I not receive the appointment?

"Well, I have contacted three times, and the other party did not receive an invitation." Bei Yi said anxiously.

"Go to the appointment now and ask the other party if they have time. We can send a speed car to pick him up and express our apologies to the other party. It is a mistake in our work."

"Yes, I will contact you now!"

"Madooka, ask Secretary Yan, did the boss leave?"

"Oh!" The feeble answer made Xu Mei's heart angry.

Looking back at her inattentive appearance, Xu Mei was furious: "Correct your attitude, it's working time now."

"Also, I remember that you contacted the flash, why is there such a big omission?"

was taken aback by Xu Meixin's sudden eruption, Madoka blinked and said, "Is it me who contacted?...I did it!"

After clarifying the situation, Madoka's face instantly turned pale.

She messed up!

In a flash, she should be responsible for contacting and finalizing the meeting process today.

But she forgot about it because of a private matter.

"Sister Xu..."

Xiaoyuan's face pale in fright, and she looked at Xu Meixin guiltily.

"No need to explain, try to save now, otherwise you can explain to the boss yourself!"

Qin Yu was eating breakfast while trying to save in the secretary room.

"What arrangements do you have today?"

If I remember correctly, there is an important meeting today.

Meet with the founder of Flash Express to discuss the production and investment direction of the automated hoverboard.

"Boss, due to some mistakes, this morning's meeting may have to be postponed, and the secretary's office may take a few minutes to confirm."

"Mistake?" Qin Yu frowned and asked, "Whose fault was it?"

"Uh!"

Yan Xue's eyes rolled, and he hesitated: "It looks like Secretary Madoka...forgot to make an appointment with the other party."

Qin Yu stared at her until Yan Xue nodded again to be sure that it was true.

Forgot to make an appointment, what is Madoka doing?

The phone rang, Yan Xue said a few words after connecting, and handed the phone to Qin Yu: "It's Secretary Xu."

Qin Yu answered the phone and put it in her ear: "Hey!"

"Boss, due to work negligence, the meeting this morning has to be postponed until the afternoon. I'm sorry, it was a mistake in my work."

Qin Yu was silent for a few seconds, "Is it your fault?"

"Yes, Madoka forgot to contact, but as your personal assistant, I didn't confirm with Mr. Wang's secretary in time afterwards. It was my fault."

"She is by your side." Qin Yu asked.

"...right."

"Let her answer the phone."

was silent for a few seconds, and Madoka's nervous voice came to the pinna: "Boss?"

"What are you doing?" A harsh accusation sounded.

Xiaoyuan panicked, and stumbled and explained: "Boss, I'm sorry, I... there have been too many things during this time.

At home, in life... I didn't mean it, sorry. "

"This world does not revolve around you, you are an adult, not a child.

Who is in no trouble, but this is not an excuse, you..."

The stern voice in the microphone could be heard clearly even by Xu Meixin and Bei Yi who were standing by.

The two looked at each other, and it was the first time the boss made such a big fire.

"Remember your identity and responsibilities, this is not a place for you to handle housework."

The call stopped, and the other side hung up.

holding the phone, Madoka stood there with a dull expression, as if stupid.

"Well, sister Xiaoyuan, are you okay?" Beiyi took the phone from her hand and asked worriedly after putting it down.

Tears stayed behind, and Madoka squatted her mouth, crying aggrievedly: "He, he...he is murdering me!"

"Wow..." Madoka sobbed loudly on the table.

Seeing this scene, Xu Meixin almost laughed out in public.

Is her focus a bit too weird?

On the other side, Qin Yu is asking Yan Xue to adjust his time schedule. The afternoon meeting will be changed to the morning.

Now he needs to organize a meeting immediately to make time for the afternoon meeting.

As for the mood, Brother Yu is not really angry.

There are always times when people make mistakes. Madoka has been here for so long and has been doing well at work.

Although Brother Yu didn't say anything, he can see everyone's performance in his eyes.

His time schedule can be arranged in an orderly manner between work and life.

Madoka, who is behind the scenes, has contributed a lot.

will not veto a person's all efforts just because of one mistake.

'S anger is just to let her remember this lesson.

Pain is always more memorable than happiness.

ran a trip for nothing, wasting an hour and a half, hoping that this incident could teach her a lesson.

returned to the hive, Qin Yu and all the executives gathered in the meeting room.

"Sorry for making everyone rush here in such a hurry, there have been some adjustments in time, let's start now!"

Qin Yu, who entered the meeting room, went straight to the subject and began to discuss the impact and feedback of the "Super Soldier" project after it was released.

First of all, the recruitment sites everywhere are overcrowded.

The physical fitness class has received strong support and attention.

There were educational institutions that did not understand before, but now I really attach importance to this course.

The performance of Super Soldiers in the video has been set as a must-see tutorial for physical fitness classes by various colleges and universities.

Realize what I am doing, what I will become, and what the future is like.

These pictures will be the best bait to mobilize the enthusiasm of children.

The location and meaning of the Shennongjia training camp also spread from street to street.

"The Xu family in Shangdu submitted an application, thinking that he was deceived by the ancient family, lost the quota, and wanted to get the quota back."

"What do you want?"

"The Gu family's quota is determined to be invalid, and then a new quota is given to them."

"Is he thinking about fart?"

"Let the company be a gun for their Xu family, which is a good calculation."

Hearing the ridicule below, Qin Yu interrupted with a smile: "Well, we will not participate in the family's affairs, let them solve it by themselves, the next item."

"There are many national agencies that have contacted the company privately, wanting to obtain relevant technologies or quotas."

"What are they?"

"Major Western countries such as Corruption, France, and the Three Virtues have intentions, including the Morgan Lowe Saint Consortium."

The Morgan Lowe Saint Rose Consortium, which occupies the East Coast and Big Apple City, is led by three consortia.

But the strongest among them are the Morgan and Los Angeles consortium, and the two hold great power in the joint consortium.

As for the original authority of the Ross Consortium, under the joint suppression of "Accident" and Morgan and Los Angeles, they are about to become affiliated.

Therefore, everyone prefers to refer to the Morgan Lowe Saint-Ros Consortium as the Morgan Lowe Saint-Ros Consortium for short.

"What do they exchange for, I mean the quota." Qin Yu's meaning is obvious, he only wants to open the quota.

Related technologies will not be transferred.

Want fanatics, no problem, send your people for training.

I can train enthusiasts for you, but I will not share the technology.

As for personnel, quantity, etc., the company has the final say.

"All these can be discussed." Watson responded.

"Then you will be responsible, let me know if you have detailed progress."

Qin Yu thought about it, and said, "Vulcan needs more minerals and rare resources, such as copper, iron, silver, uranium, rubidium, rare earths, etc."

"Understand, I will give priority to asking the other party to use rare minerals as the payment currency." Watson nodded.

It takes a lot of ore raw materials to manufacture battleships, especially precision processing of this rare mineral.

Now that neon has been incorporated into the territory, they have acquired the most important precision talents.

But in terms of raw materials, there is still a big gap.

The Republic is vast and rich, but wants to form a fleet of thousands of units.

It is not enough to rely on one family alone. They need more imported raw materials, the more the better.

"All regions submit applications and want to include citizens of their own regions in the selection."

The first three batches...including the fourth batch of selection currently underway.

The examination points are mostly located in the central area, and there are only one or two sad selection points in other areas. UU reading [www.uukanshu.com](http://www.uukanshu.com)

is still in the top universities, there is no way for outsiders to join.

Various regions submitted applications and expressed dissatisfaction and protest.

requires citizens in their area to be treated more fairly.

They need opportunities to be treated fairly like Chuo City.

"First, set up 12 test points in the Far East of Barrow, and wait for other areas."

Qin Yu values the big nerves of the Barrow Bear, judging from the feedback from the training camp instructors.

The bears who live in the cold area are strong-willed, have a big heart, and are more resistant to pain and pressure.

Jin Pushi is one of the representatives, and his strength grows several times faster than the average student.

Before boarding the Medusa, he had just completed the transformation, and he was already able to tie a generation of enthusiasts.

Although both sides have restrained, it also fully illustrates the importance of willpower.

The stronger the willpower, the faster the growth rate of strength after the transformation, and the better the control and use of power.

"Boss, the genes of a generation of enthusiasts have matured, and I think the number of transformations should be reduced.

Use first-generation genes as seeds to start a safer second-generation transformation program. "

"McKison's Thor gene, fanatic gene, He Wu and Daisy's genes can all be used as original seeds."

Shi Cui looked around the people, looked at Jing Yuan's eyes and said, "Including the genes of me and Team Leader Jing."

## **Chapter 1052: Boarding**

"No, I don't agree!" No one would be surprised by Jing Yuan's refusal.

"Leader Jing, you have to understand..."

"I understand, I understand everything, but I can't do it."

Jingyuan looked at everyone present, and clearly stated all her thoughts for the first time.

"I can't bear it, use my genes to conceive...Yes, it is conceive, I can't accept it!"

Jingyuan absolutely, absolutely cannot accept this.

As long as she thinks about this, she will go crazy on the spot...

Jingyuan couldn't stand it, no matter how she tried to convince herself, how hard she tried.

no!

"Leader Jing, would you have misunderstood that although those genes come from you, they are only part of it."

"They have no direct contact with you, they are not your children."

Shi Cui put one hand in his white coat, pushing the frame with a mocking expression.

"Yes?"

Jingyuan raised her eyebrows and looked at him: "So, you never call those modified bodies children?"

崩~

lore.

Shi Cui had no choice but to ask his boss for help with his eyes.

Yes, he didn't recruit anymore!

Strictly speaking, their three levels are equal.

But in fact, her power has always been the largest and most influential of all team leaders.

is not only in front of Zhu Ying, but also in front of BOSS.

She is the best, responsible for the most important and confidential projects!

has always been like this.

So, now if someone can make her change her mind.

Only Qin Yu, only him...

"Well, the meeting is suspended, everyone will come back in 15 minutes."

Qin Yu said and looked at Jingyuan: "Leader Jing, you stay alone."

After everyone left, Qin Yu spoke again: "He needs your genes, and your genes are the most powerful of all."

"I know, teacher." Jing Yuan was silent.

After a short silence, she chose to compromise: "If you want me to do this, I will do it."

"I can't ask you to do this, but I need you to do it."

Qin Yu looked at her seriously, "I can only guarantee that they will adjust the gene and will not copy your gene map from the original version."

"Then, I have no opinion." Zhu Ying changed her tone.

"Let others come in!"

The others returned to the meeting room, but they had been guarding the door and never left.

"If you make adjustments to your genes, you can't copy my genetic map, at least you can't copy it mechanically, it's exactly the same."

Before Qin Yu could speak, Jing Yuan took the initiative to put forward her request.

"No problem, Team Leader Jing, you can meet any requirements you have..."

Shi Cui knew as soon as he finished speaking that his promise was too absolute.

So he added another article, "Without affecting the normal use of the project."

He Wu's Silent Gene, MacKison's Thor gene, Fanatic's Fanatic gene, Daisy's Worm Girl gene.

Shi Cui's polymath gene, and Jing Yuan's super \*\*\*\* gene.

Six second-generation genes were confirmed at the meeting.

Next, a generation project that brutally used aberrant flesh and blood and original genes for transformation was sealed.

All personnel involved in the project must sign a new confidentiality agreement.

Ensure that the details of the first generation of genetic modification projects are not disclosed.

Even this name cannot be mentioned again.

Violators not only have to bear huge liquidated damages.

has to be locked up in a trumpet, and this is the last one!

"Using second-generation genetic technology, our success rate can reach more than 89%."

"It's just that, without wildness and chaos, their strength has declined."

After the test, Shi Cui was satisfied with the effect of the second-generation gene.

"What about the performance of super \*\*\*\* gene?" Qin Yu asked.

"It's too complicated, I need more time to complete the adjustment."

Found that Qin Yu didn't say anything, Shi Cui asked tentatively: "Actually, Team Leader Jing's gene book is in perfect condition.

If I can use her genes directly, maybe..."

"no."

Qin Yu raised his head, looked at him sternly, and warned: "I said, no."

"Understood." Shi Cui converged a disguised smile and nodded his head, showing that he had listened.

He will not use Jing Yuan's original gene, which is the second-generation super \*\*\*\* gene.

In fact, it is no longer what it was originally.

After fusion with Jingyuan's gene, it changed a lot.

said that it is the 'Jingyuan Gene', which is more appropriate than the 'second-generation super \*\*\*\* gene'.

But it is precisely this way that Shi Cui has the opportunity to use it again to cultivate new genomes.

six different genes, and therefore derived six different directions.

The silence and loyalty of the silent, the will is as strong as a rock.

Thunder fighters' irritability, irritability, and thunder and lightning instability make them often hurt themselves.

But it also means that when they step onto the battlefield, they will become tyrants who fear the enemy.

Bobit, the distortion, fear and pollution brought about by the worm girl gene is their strongest weapon.

A monster in fear and distortion, just like Daisy.

The disguise of the polymath is easy to learn, but beneath this surface is extremely cold and cruel.

They are a group of cold-blooded executioners, willing to give everything in order to explore knowledge.

Jingyuan's super \*\*\*\* gene, it is the most comprehensive, powerful and mysterious.

The name of the team was named by her herself: The Almighty.

There are also the first fanatics, who always hold fanatical beliefs and are full of vitality and enthusiasm at all times.

After fully finalizing the details of the 'Super Soldier' project.

Qin Yu can no longer bear these tedious tasks, he needs to relax.

Completely, regardless of work, let go of anything else.

So, Brother Yu made Metropolis prepare before going to sea.

Then, he called Savannah, the queen of elves.

"How about going out to sea together?" Qin Yu made the invitation straightforwardly.

Savannah on the other side didn't let him wait long, but simply said "Okay."

The matter was finalized, and Qin Yu asked Xu Meixin to arrange the details.

Why didn't you look for Yan Xue? Of course, she would be jealous for it, but Xu Meixin would not.

This is why, only Xu Meixin is her personal secretary, not someone else.

When he saw Savannah in the metropolis, the colors in front of him were bright.

is like suddenly changing the picture from 1080P to 4K Blu-ray.

More importantly, she did not come alone.

5 minutes back in time, outside the Metropolitan Club.

Imogen, who was sitting in the car, took a deep breath and listened to what Savannah said.

What do you like and what you don't like.

How can I please Daxia man, what kind of small details he would like.

Those characteristics found from the Internet reviews.

His aesthetic preferences, favorite colors and various concerns.

While sitting on the other end, Frida was also doing her homework, repeating the mandarin with her feet in her mouth.

"Hello...thank you...like it...happy..."

"Don't...use hard..."

"Hey hey."

Savannah, who heard her whisper, patted her on the shoulder hard, "What are you thinking?"

"I'm practicing Mandarin." Frida frowned in response, covering her shoulders, "You hurt me."

"I should wake you up, don't learn those useless things, you only have a few days in the central area."

Some simple greetings are enough. If he really develops to that point, his mother tongue will give him a different kind of excitement. "

"Will it?" Imogen asked uncertainly.

Savannah said affirmatively: "It will, I promise."

"Don't forget, all the rumored girlfriends around him can speak Mandarin, but not everyone can speak your London accent."

turned his head and pointed at Frida, "And your Swedish, this is your strong point, understand?"

"Understood."

The two nodded, then smiled suddenly: "So your strong point is Russian?"

"Hey, it's Cyrillic." Savannah reminded her of the difference.

Russian is just a kind of Slavic language.

She knows more than one kind, "There are Germanic and Armenian."

"When I was a kid, I should have learned a few more languages." Imogen said enviously.

"Let's think about whether I can stay... and then think about it."

Savannah once again confirmed her makeup, using her fingers to spread the lip color more evenly.

has a little watery luster, and then nodded with satisfaction: "Okay, let's get off the car."

"Relax, this is just a sea party, understand?"

pulled the two hands tightly, and cheered them for the last time, also cheering for themselves.

Savana took the lead to walk inside the door, the previous hesitation and restlessness turned into a strong self-confidence, radiant.

And Imogen and Frida beside her are just like the supermodels who walked on the runway.

, walking with long \*\*\*\* legs, stepped out of the standard steps and stood beside Savannah.

With one hand on his hips, his chin slightly raised and looked to the sides...

"Well, UU reading [www.uukanshu.com](http://www.uukanshu.com) is this a small performance, is it a surprise?" Qin Yu coughed, interrupting the awkward and ambiguous atmosphere in the courtyard.

"That's right." Shavana curled up her long hair and said, "Surprise! What do you think?"

As early as the moment Imogen and Frida stopped with arms akimbo, Savannah knew they had messed up.

I messed up too, they didn't come to work, let alone make a blockbuster.

or job offer, apply for an interview!

They just received an invitation...

is more like a friend's invitation to join a sea party.

Very, very rare party at sea.

is a precious opportunity!

Whether they can stay in Chuo City forever, maybe it depends on this sea trip.

So, when Qin Yu gave her a not-so-good reason.

Savannah immediately grabbed this step, eased the embarrassing situation, and brought the distance between each other one step closer.

"Okay, we should get on the ship." Qin Yu got up and boarded his futuristic Rhapsody Paradise.

The three girls were also secretly excited, and walked towards the entrance.

However, one arm stopped them.

"Ms. Savannah, before boarding the ship, I need your cell phone and all the electronic products."

Xu Meixin kept smiling politely and explained: "This is for the safety of sailing, but also for the privacy of the boss and you, thank you!"

### **Chapter 1053: meet**

is handing over all electronic products, mobile phones and tablets. Cameras, e-books, including smart watches.

They finally got 'permission to enter!'

Any device that can store audio and video or can connect to the outside world.

Even if there is only a trace, the possibility is extremely small...

are not allowed to stay.

, including jewelry worn and various personal items, were also inspected.

As seen on TV, meeting the president...

No, it is more serious than meeting the president!

Fortunately, all of this will pass soon, after a real visit to this superyacht that is beyond imagination.

Savannah, Frida, Imogen, the only thing they want to say right now is 'I...buy...Karma...'

"what is this?"

"Sun room, where you can see the most beautiful scenery on board."

"This is?"

"Surfing pool, you can dive directly into the sea after opening the bottom."

"these are?"

"Double submarine."

"These???"

Innumerable questions, Xu Meixin answered patiently one by one, without any impatience.

Until Qin Yu appeared in front of them, he seemed to be busy with something before, but he did not appear until now!

But this is not what they should care about, now is happy time.

So, there is only one thing they need to do.

"Let's start the carnival!" Savannah raised her arms and shook off her clothes.

rushed to the stern deck, all the toys and diving boards were ready.

Start with the diving board, "Who wants a round first?"

Savannah stood on the diving deck and said with a big smile: "Of course I will come first, I am coming..."

Raise both arms high, jump with both feet to move the body.

Savannah ran forward laughing happily, and leaped hard at the end of the diving board.

撲通~

Savannah fell into the water like a mermaid.

The splash is very small, to be honest.

If it were not for careful observation, Qin Yu would think that there was no splash.

"She should go to the national diving team." Qin Yu praised.

"She has learned diving for a while." Frida looked at Qin Yu and found him surprised.

"Don't you know?" Frida became surprised.

"Yes, I don't know." Qin Yu nodded in response: "Actually, this is the first time we are alone together."

"Well, I thought..."

Imokin stumbled and said, "I thought you already...you know."

"You think we have a deeper communication... the deepest kind."

Qin Yu smiled, this time his movements were indeed slow.

If it were before, he would definitely see Savannah on the first side and send her to bed.

But this time, there are too many things.

Moreover, he seems to have begun to look forward to romance, and he is no longer a simple and direct shot.

The spiritual and spiritual enjoyment began to be more interesting than pure physical pleasure. maybe.....

"The deepest... isn't the soul mate?" Frida asked rhetorically.

Qin Yu turned his head and looked at her, letting Frida realize that she had done something wrong.

"Did I say something wrong?" Frida said suspiciously.

"No, you are right." Qin Yu suddenly felt that this journey would be very pleasant.

Because of the new opponent he found, he placed his spirit and emotion above his body.

Very good, this is exactly what he wants to experience.

Starting from the soul, it develops into the pleasant communication of the body.

reverse the order!

There is love first, then sex, instead of \*\*\*\* first, then love.

This is a good attempt, very good!

"You don't want to go diving?" Qin Yu looked at the two of them, they were too nervous.

It seems that they all have their own demands at this party.

Purposeful.

Brother Yu does not exclude, everyone should act purposefully.

instead of blindly following the flow, that's great.

It's just that they should relax now and have fun.

When the time is right, for example, when it has reached a certain level of progress, then put forward your own needs.

Maybe, Brother Yu will easily agree, who knows!

"I have to change my swimsuit first."

Imogen got up and carried his bag, planning to change into the \*\*\*\* bikini prepared specially for the cabin.

lines will perfectly set off her figure and rear axle.

In the next second, Frida used a bold move to dispel her thoughts.

Remove the cover on the body, cumbersome!

exposing her perfect figure to the primitive nature, she just laughed and ran to the diving board.

Boom Lechette~

She left herself with no choice, Imogen began to fall into thinking.

"Whose body is better compared to her?" Although she is not sure, at least she is whiter than her.

Imogen also removed the obstacles and ran to the springboard happily.

took off his shirt, the perfect abdominal muscles cut like a knife were exposed to the air, making the women's breathing hot.

"Be careful, depth charges are coming."

Run-up and take off, the body rotates 360 degrees.

hugged his head with his right hand, akimbo with his left hand, and fell into the water with his legs crossed.

is like a huge boulder being thrown into the calm water. The waves hit the girls' faces, causing screams.

At about noon, a few people who were tired of playing in the water re-boarded the deck.

"Girls, go and change clothes. We have guests coming at noon."

Qin Yu shook off the drops of water on his head, clapped his hands and asked the girls to go to the cabin to change into suitable clothes.

At least, cover the place that should be covered.

"Boss." Xu Meixin sent a bath towel.

Qin Yu wiped his head and said, "Is President Wang coming soon?"

"There are five minutes left."

Through the terminal, Xu Meixin can grasp the detailed distance and estimated time of arrival of the flying car.

Five minutes later, Qin Yu, who was wearing swimming trunks and a silk nightgown, saw Wang Wei getting on and off the speeding car.

"Dong Qin, haha, you will enjoy it!" Wang Wei stepped forward and said, holding his hand.

"Whether work and rest are combined, is the road going well for Mr. Wang?"

Qin Yu shook his hand and shook it, letting go and invited him in.

"It's so smooth, you flying car, I suddenly feel that I am old and can't keep up with the development of science and technology."

Ask the other person to sit down in the entertainment bar, Qin Yu smiled and said: "Ms. Wang is humble, you are a model of national entrepreneurs."

"Where and where, it's okay in front of others, but in front of you, I don't dare to be it." Wang Wei waved his hand again and again and said modestly.

"Mr. Wang, what would you like to drink?" Xu Meixin interjected, taking advantage of the free time between business exchanges.

"Is there any tea? Green tea, now this diet is too greasy, the stomach is both enjoyable and suffer!"

Wang Wei rubbed his stomach and smiled bitterly: "Twenty or thirty years ago, it must be scolded."

At that time, I was able to eat oil and water all at once, but I was envious of the big guys.

If you shouted "suffer" at that time, you would not be scolded or beaten lightly.

"Yes, I will prepare." Xu Meixin smiled and walked away.

Blowing the sea breeze, watching the sound of waves hitting the deck, Wang Wei relaxed and relaxed.

"The sea air is better!" Wang Wei said.

"For you Mr. Wang, buying a boat to go out to sea is not easy." Qin Yu smiled.

Wang Wei shook his head and smiled bitterly again: "Don't mention it, all year round, there is no time to go home for dinner.

I actually imagine Qin Dong you are studying, but there is no one under your hand! "

The shortage of labor is a major problem for companies other than the head company.

Especially young people nowadays I don't have a lot of skills, and I have a bad temper.

I will carry the load at every turn, I will quit!

There is a baby egg at home, men and women of all ages, and children around, without any burden or pressure on them.

Changing jobs is more frequent than changing clothes, and I don't want to think about the future...

Nowadays, large companies, including middle-level recruiters like Flash Flash, require detailed work experience and letters of recommendation.

Frequent job-hopping, no matter how good the resume is, I still don't want it.

Raising an individual is like raising an ancestor, who is all right to find this kind of anger?

"Young people do things, if they can see so long-term, he is not a young man anymore."

Qin Yu put the prepared Kung Fu tea in front of him with tweezers.

After receiving the tea from Qin Yu, Wang Weilian said, "Thank you."

"I would rather have to be able to endure hardships and work by myself."

"It doesn't matter what academic qualifications or resumes are."

"As long as you are willing to do it, the company will train you to be much stronger than those outside."

Qin Yu nodded with a smile, without comment.

A generation always has the characteristics of a generation, and good or bad is not absolute.

From the perspective of the boss, it is understandable to say so.

You can think about it from another angle. It is these people who make the salary increase.

also used his own personal experience to warn latecomers how much to pay for the so-called freedom!

## **Chapter 1054: Mahjong**

Talking about this so far, Qin Yu mentioned the hoverboard project.

"I know that Flash has its own R&D organization, and I want to entrust this project to you."

"Skateboard?" Wang Wei asked uncertainly.

Because it sounds too sci-fi...

Also, why should I leave it to Flash?

"Because Flash will become its biggest buyer." Qin Yu said.

Airnet planning includes not only private lanes, shared lanes, emergency lanes and VIP lanes.

There are also dedicated freight lanes and encrypted military lanes.

Among them, the urban freight channel is prepared for express delivery.

Hoverboard, fixed electronic express box, from sorting out of warehouse to express delivery, the whole process is unmanned and automated.

"What about my employees?" Wang Wei thought of the future of his 400,000 employees for the first time.

This is not thousands, tens of thousands.

is the survival of more than 400,000 employees and millions of families behind them.

Even if he cuts a tenth, it can cause a turbulent storm.

"These people are transferred, and settlement centers need a lot of manpower all over the country."

"Let them spread out?" Wang Wei thoughtfully said: "How many people do I want to lay off?"

"At least half." Qin Yu responded.

Employee expenses were directly cut in half, and the flash pressure was immediately gone.

This is great news for Wang Weihe's company!

Not to mention reducing the cost of errors, docking and cumbersome processes.

Wang Wei expects this to reduce their cost burden by at least two-thirds.

can be lightly loaded and set off again...

"What am I going to pay for this?" Wang Wei wanted to know more, and he obviously became interested.

"Hi, Qin." At this moment, the girls appeared.

Savannah, dressed in cool clothes, leaned her upper body out of the edge and waved to him from the dining room: "Lunch is ready, do you want to come?"

"Come here." Qin Yu smiled back.

Wang Wei retracted his curious gaze and looked at Qin Yu: "That's your company's spokesperson... Savannah, right?"

"Yes, let's go up and eat and chat?" Qin Yu invited him to lunch together.

Although it temporarily advocated that the face-to-face will be changed to the sea, Wang Wei was a little upset when he heard the news.

But now... he feels great.

Because of motivation.

He saw the best party that can let the flashes lift their burdens and reload lightly.

Cut two-thirds of the expenses. Thinking of this, Wang Wei couldn't stop laughing.

But the beauty is soon broken...

Putting down his chopsticks, Wang Wei asked again: "How much?"

"The initial investment of 26 billion yuan, with Sanqin as a pilot..."

Wang Wei pressed his palm and interrupted: "Dong Qin, I know these, but are you sure that the numbers you said are correct?"

"That's right, because all the funds have to be borne by the flash itself." Qin Yu replied affirmatively.

"What about miracles?" Wang Wei smiled in surprise: "What do miracles do?"

"Technical and related technical personnel support!" Qin Yu raised a glass and touched, "What do you think?"

How about it? Wang Wei felt terrible.

The other party wants the empty glove white wolf, and takes the controlling stake based on technology alone. Is he overestimating himself?

"I need time to think about it." To face, Wang Wei couldn't confide his true thoughts.

No matter what, Qin Yu is a shareholder of Flash.

In addition, their automation reform needs miraculous technical support.

Only this time, Shining Flash doesn't want to compromise anymore!

This plan sounds like a wedding dress for others.

Build a brand new platform from scratch. The production line, employees, and capital investment are all done by themselves.

Finally, the other party brought someone to take over?

This is not picking peaches, what is it?

"It doesn't matter, Mr. Wang can consider it slowly." Qin Yu smiled and put down the wine glass.

tilted his head and opened his mouth to bite the butter bread that Imogen sent him, nodded in agreement, and said, "How about the answer to me tomorrow morning!"

Seeing his blue complexion, Qin Yu guessed that he hadn't figured out the situation yet.

"The current flash is too bloated, but it can't throw away the baggage.

Do this... Either get caught in endless lawsuits or file for bankruptcy due to severance pay. "

" And if you want to cut departments drastically and lay off staff, the first one above will not agree.

You also said that there are more than 400,000 employees and millions of families, and the winners will not agree! "

"So, you need a person who is strong enough to resist lightning and withstand the pressure from above and below."

Qin Yu pointed to himself, and laughed at himself: "Now, I am that person. It is not easy to find the second one."

"This is not only a cooperation, but also an opportunity."

Qin Yu took a bit of the beef that Savannah had brought to her mouth, and said, "There won't be a second chance like this."

looked at stroking Savannah's cheeks, and talked easily in Russian with the other party, acting like a dude...

No, it's Qin Yu who is a dude.

Wang Wei really wanted to lift the table and yelled "Fuck you," but he sat still physically and honestly.

Three Qin areas will cost 26 billion, and at least it will not be less than 20 billion.

Then to complete the layout of major cities in the country, at least hundreds of billions of investment will be needed.

Hundreds of billions of investment, is it worth it to change to a levitating technology and flashing lightly?

Wang Wei had no answer in his heart, he had never thought it would be like this before.

Although Qin Yu did that last time, the importance of logistics and warehousing to the flash is self-evident.

That is the center of the blood vessels, ensuring that blood is delivered to every place where it should go correctly and smoothly.

Ensure the health and life of "It"...

Now, it is necessary to perform a major operation on 'it'.

This is different!

Wang Wei needs enough time and space to consider, here, in front of Qin Yu, he cannot make a correct judgment.

"I need a quiet room... to call."

Wang Wei pointed to the phone in his hand and left for himself without a reason.

"Secretary Xu, take Mr. Wang to a quiet room." Qin Yu told Xu Meixin: "Remember to bring him lunch."

Sending away Wang Wei, the movements of several women were bolder.

Savannah, the best mandarin, was curious about their previous conversation.

"Qin, are you talking about business?" Safana pinched a green plum and brought it to his mouth.

"Yes, soon, express delivery will become more efficient and convenient!"

Hearing what he said, Savannah turned her eyes and said: "Express delivery, you are very optimistic about express delivery...send...send."

"Development." Qin Yu was anxious when he heard it.

"Yes, development."

Shavana flirted with her hair, lowered her head slightly and smiled shyly: "My Mandarin is not very good."

"We can continue to communicate in Russian, but you really should find a teacher." Qin Yu joked.

However, she still answered her question.

"I am not optimistic about the current express delivery industry, but the new express delivery with miraculous technical support in the future."

"Can I buy its stock?" Savannah looked up at him with eyes full of little stars.

The same goes for the other two women, they hear 'stocks.'

Stock = Mane!

If Savannah can make money with it, so can they.

"You decide for yourself, don't tell too many people." Qin Yu patted her cheek like a pet comforting.

Like a mortal queen of the elves, there is a bit more smoke.

makes her more real and closer to life!

There is nothing wrong with loving money. Brother Yu likes girls who love money.

is not sentimental, not suddenly nervous, and not as elusive as a cloud or rain.

Simple, straightforward and easy to understand!

Very Nice~

"What's the plan after lunch?" Savannah asked.

"Of course, we have a lot of arrangements. Have you ever played mahjong?" Qin Yu laughed.

"I know, it's a game." Imogen is proud that he understands 'Mahjong'.

"Yes, a game."

Brother Yu's smile gradually became evil: "Today, let's learn \*\*\*\*, yard cards, draw cards..."

\*

\*

The miracle town, peaceful gardens, clean streets, smoothly running or parked rail cars.

Everything is well organized, peaceful and harmonious!

In the artificial lake next to the garden, a small bit of asphalt floated on the water.

A small piece of asphalt emerged from the bottom of the lake again, quickly rising to the surface of the water, and blending with the previous asphalt.

Then came the third and fourth...

More and more asphalt stains gradually stained the clear lake surface into a greasy bluish black.

咚咚~

A bubble bulged and exploded the asphalt on the surface.

咚咚, 咚咚咚...

There seemed to be a lot of oxygen at the bottom of the lake, giving birth to countless bubbles, blowing the pitch and exploding.

The surface of the lake at this time is as dirty as industrial pollution.

In the air, unobservable radiation pollution spreads outward.

At the same time, the boiling asphalt twists and extends upwards out of thin air, gradually forming an abstract human form.

The flowing cylindrical legs stepped on the lake water to land, and the drones that patrolled in the air also found it.

The harsh alarm sounded, and a voice came from the radio: "Please return home immediately. Before the alarm is lifted, all going out is forbidden. The protective panel will be turned on in 5 minutes."

Drones also began to search for human traces on the surface, tracking and broadcasting warnings, forcing the other party to return home.

Five minutes later, a layer of silver-colored metal plate fell on the surface of all the buildings.

The entire building is completely closed, leaving no gaps.

Don't even think about getting in even mosquitoes.

In the hive, 10 [Assaulters] rose to the ground, rushing towards the distortion body with all their strength.

Shi Cui and Yuri are also accompanying.

and the second graduates who are in the adjustment period, receiving training, and waiting to be assigned.

They are already gearing up and can't wait for their first actual combat.

Surprisingly, the distortion did not damage the town.

When the protection mechanism is triggered, the silver ink material is fused, and the protective plate that prevents pollution is dropped.

It turned around and rushed out of the town without any hesitation.

"This is unreasonable!"

Shi Cui whispered softly when he heard the result, his eyes filled with questions.

Distortion body does not have any thinking behavior, it only understands pollution and destruction.

Escape, fear, death, these have nothing to do with it.

Destroy everything around, and the earth will be polluted and lashed by it.

But this abrupt distortion in front of me...

It ran away!

**Chapter 1055: Order**

Distorted abstract flowing distortion body, the height has reached an astonishing eight meters.

The pustule of 'asphalt' that kept flowing all over his body burst and exploded.

The thick black slurry splashing out was sprinkled all around, and 'Zizi' black smoke came out.

The ground was corroded, and all the flowers and plants within four or five meters in a radius withered and turned into black debris!

A willow tree that was splashed withered and collapsed inward within 5 seconds.

Even the soil began to scorch and crack, losing its vitality!

Lingang New City, it is time for work at the moment.

The sparsely populated new city is like an uninhabited ghost city.

When he is eight meters tall, he is covered with layers of black smoke.

Continuously sputtering thick slurry, when the abstract distortion that pollutes everything appears.

This ghost town is more like a disaster site in a horror movie!

horrible, distorted, death desperation that does not allow any life to survive.

The team led by Shi Cui has been hanging behind the abstract distortion.

About five hundred meters away, just follow it unhurriedly.

Their movements don't seem to be trying to stop abstract distortions at all, they just follow...observe...

Yes, this is exactly what Shi Cui wanted.

observe!

He is carefully observing the difference between this abstract distortion and why it is different from other distortions.

Everything else is left behind.

Even if it is about to cause unimaginable damage to a city, causing hundreds of billions of losses.

For Shi Cui, these are not important.

But, he doesn't care, someone cares!

A team of fighters wearing the inner armor of the body appeared one kilometer away on the left.

There are also various types of combat vehicles, as well as more than 10,000 professional soldiers.

"They came at an untimely time." Shi Cui muttered in his mouth, his eyes gleaming with a terrifying luster.

There are countless possibilities in his mind if they hinder his observation.  
should...

Ling Ling!

The rapid ringing of the phone interrupted Shi Cui's conjecture and calmed his spirits about to run away again.

"Hoo...Boss, what's the matter?" Shi Cui answered the phone.

"Yes, I am here!"

"Yes, it ran out of the small town and has not caused casualties so far."

"Yes, fortunately there are very few people here during the day."

"But it is very special, I want to continue to observe... OK, I see."

"Yes, I will solve the trouble, but I want it to be a test product."

After a short communication, Shi Cui, who hung up, gave an order to the [Assaulter] behind him.

"Destroy it, remember to leave some flesh and blood for me." Shi Cui's eyes were full of regret.

Such a precious experimental body will disappear before my eyes.

This feeling is too difficult for him!

"Do you want me to go?"

Yuri looked at Shi Cui, who was gloomy, his expression was like a butcher about to kill.

"Whatever you want." Shi Cui glanced indifferently: "I am not your nanny."

It seems that his mood is really bad.

So, it's better to stay away from him.

Yuri thought to himself, standing beside him always felt a sense of horror and danger.

seems to be attached to a bomb that will explode at any time.

So, he should go up and help!

\*

\*

Throwing the phone to the sofa, Qin Yu lay on his back on the bed in distress, and sighed helplessly.

"You look sad?" Savannah lay on his chest and drew circles with her fingers.

"Something happened, it's hard to explain." Qin Yu smiled reluctantly.

If it weren't for the unicorns, or all the [Assaulters] were its eyes and ears.

When Qin Yu received the news, Lingang New City had been turned into ruins.

And, it ran out of the town.

This is the point!

Qin Yu is sensitively aware that someone is secretly arranging something.

This is a conspiracy, a conspiracy against him, a miracle!

Cheng Yaojin? Hetu?

How much this matter has to do with them, Qin Yu still doesn't know.

In fact, no one has been able to find Hetu's trace so far.

He disappeared without a trace, even if Qin Yu let go of Qilin's authority and let him invade the public safety network wantonly.

The answer        got was: No, nothing was found.

Except for the last set of footage captured by surveillance when he left prison, there is no sign of him anymore.

is too clean and incredible.

In this age, someone can escape the omnipresent eye of the sky.

This can only show one problem. The powerful people behind him are offering help.

Otherwise, Qin Yu really can't figure it out.

How can a fugitive have such a great ability to easily evaporate from the world.

Kylin is not a 'sluggish' machine, its power lies not only in facial recognition.

can also pass bones, behavior, hair, eyes, and details that you won't notice.

to judge the true identity of this person, who is he!

In other words, it is impossible to hide it from a simple plastic surgery.

Unless he has his whole body trimmed, including the face and body skeleton...

and many more.

It's not impossible that this is possible, changer!

What if he becomes a mutant, transforming himself completely, from the inside to the outside?

As soon as this thought appeared in my mind, I couldn't stop it anymore.

Qin Yu is almost certain that He Tu has also become a mutant.

Although it is not yet known how he did it, it must be related to the person who rescued him.

Then, this abstract distortion that suddenly appeared in a small town.

Is also related to them?

If so, Brother Yu should think carefully about whether he should get serious.

"Daisy, Secretary Xu, help me connect Daisy."

Qin Yu suddenly sat up and overturned the women who were lying on him.

Looking at Imogen with an incredible face, Qin Yu apologized: "Sorry, it's not your problem, you are very attractive.

It's just that I need to deal with some important things now, very, very important. So, don't doubt your own charm. "

Aft deck, let's entertain!

Three women in bikinis are blowing the sea breeze, and they are chatting with their favorite cocktails in their hands.

Imogen endured the question for a long time, but still blurted out: "What the \*\*\*\* is going on?"

"Know that I was...was...that, you saw it."

Imogen spread his hands and said, "No man should refuse, I, Imogen."

"I was pushed away while biting???"

Imogen picked up the cup in a panic, and dried the mixed liquid inside in one breath.

"I want to have another cup, I need another cup, I can't breathe anymore." Imogen fanned himself exaggeratedly with his hands.

Savana looked at her funny, and said, "He said, it's a very important thing."

"real?"

Imogen, who was about to go to the bar, suddenly looked back, looked at her seriously and asked again: "Are you serious?"

"At that time, in that situation?" Imogen dropped one shoulder, his right hand akimbo, posing in a \*\*\*\* posture.

"This...what is more important than it?" Imogen looked at the two of them, wanting them to answer their questions.

Actually, Savannah and Frida couldn't answer.

They also think that in that situation, there shouldn't be anything more important than her.

No, I should say, 'nothing is more important than them.'

But it still happened, just now...

So, Savannah and Frida, who were good before, suddenly became uncomfortable.

So...

Your own charm has been questioned, is it unattractive to him?

Three beauties caught in self-doubt, absent-mindedly looking at the sea.

The constantly changing expression on his face is enough to write an emotional drama.

"What do you want me to do?" Daisy, who was on the other side of the ocean, had reluctance written on her iron-green face.

But she has to listen to this call...

Because, Qin Yu told her in a clear tone.

If she doesn't do it, she will find someone to catch her back for the most comprehensive and considerate care.

When the time comes, the scene will be very, very exciting.

"I want you to find him, no matter what method is used, how long... No, it's wrong."

Qin Yu corrected his mistake, "It is as soon as possible, the sooner the better, find him."

"...good!" Daisy agreed.

"I hope you will call me next time." Qin Yu reminded her again that time is precious.

"Okay." Daisy replied affirmatively again.

"Very good, I look forward to your call." Qin Yu took the initiative to close the line and gave her time to calm down and think.

Because of Daisy on the other end of the phone, it sounds like she's going crazy.

The fact is true, the moment when the phone hangs up.

It was crushed by Daisy's palm and swallowed...

Endless nematodes grow wildly, filling the entire space.

After dozens of minutes, the room turned into a terrible shape full of 'wind erosion' cavities.

Daisy pushed the door that had been shattered a long time ago, letting it turn into powder and disappear before her eyes.

Now, she is going to take her wicked nuns to serve the damned man.

Daisy promised that when she finds the man who needs her 'service'.

She will definitely give the other person a big hug, let him know how much she is, and get him full of desire.

Whether a person is disabled or injured, it doesn't matter to Brother Yu.

As long as he is alive, the 'answering machine' that can let him figure out what's going on. '

Others, UU reading [www.uukanshu.com](http://www.uukanshu.com) is not important!

Now that Daisy has handed over the matter to Daisy, he will remain patient enough.

gave her 'abundant' time to complete the tasks she explained.

Now, Brother Yu wants to continue to enjoy his party.

If you didn't meet Wang Wei in the middle, things would have gone well.

"Dong Qin, I want to talk to you about cooperation again!" From his tone, it should be good news.

Wang Wei answered him in the same way, agreeing to cooperate in principle.

It's just that, in terms of capital investment, the flash has to be partly reduced.

"What's that?" Qin Yu raised Erlang's legs, put his hands on the payer, and asked solemnly.

"15 billion, the initial pilot investment will be controlled within 15 billion without cutting the production line."

Wang Wei's team has calculated that if it can reduce costs by two-thirds.

The annual savings they can save are between 3.5 and 4 billion.

In addition to the reduction in other aspects of expenses, one more billion will be saved.

So, only 15 billion words.

Continue to maintain high costs for three years, in exchange for the production technology of 'hoverboard'.

And to ensure a friendly cooperative relationship with Miracle Company, they are willing to take a gamble!

Besides, as Qin Yu said.

The reform of flashes, requires a giant to stand up and resist thunder.

### **Chapter 1056: 3-fold**

15 billion in exchange for new students.

There is also a brand new market, which is more cost-effective for Wang Wei than buying and selling.

Although there are certain risks, he can bear it.

It's just that he made the wrong calculation!

"We'll talk about it another day, Mr. Wang."

With three exotic women in his arms, Qin Yu smiled and said, "Now I want to enjoy life."

Wang Weixin said, "I want to suffer," the other party ordered to chase away guests.

In other words, the conditions he gave were not satisfactory to the other party, and it was very likely that he was irritated.

Otherwise, the other party will not even be interested in bargaining.

"Qin Dong, we can talk more in detail, the business is negotiated."

Seeing Qin Yu turned and walked towards the stern, Wang Wei tried to make a change.

Xu Meixin blocked his way, "Mr. Wang, the car is ready, I will see you off."

"I want to talk to Qin Dong again." Wang Wei repressed his emotions and said.

"The boss is on vacation, he doesn't want to talk anymore." Xu Meixin responded with a smile.

The inner emotions turned into anger, Wang Weiwei said in a loud voice: "But I want to talk to him."

'S calm face, still full of smiles.

His needs and anger are worthless to Xu Meixin.

Therefore, no matter what he does, it will not affect Xu Meixin's good mood.

After he understands what he is doing...

Xu Meixin just raised her hand to ask him to leave: "I will see you off, Mr. Wang."

People always know how to reflect after they make mistakes.

Before...

Reckless decision is called courage!

When the truth emerged, it felt terrible.

Like Wang Wei sitting in the car, his eyes are full of regret and hesitation.

He lost the support of miracle because he tried to take the initiative without any advantage.

This kind of provocation happens from time to time, and everyone wants to take the initiative.

But obviously, he chose the wrong target this time!

Brother Yu is not a patient person when dealing with business negotiations.

Because he has expressed sincerity, an opportunity to reduce the burden, brand new technical support and market areas.

No one can compete with it in this field, and is willing to endorse the burden of the flash.

These are Qin Yu's sincerity, but the other party's reaction.

is like "Catch this fool and make a fortune."

It really thinks that it is indispensable. With its reputation and current brand, it can be invincible.

is wrong, and soon facts will prove it.

"Secretary Xu, I need you to choose a new partner. Wei Lan wants to take this project?"

"Yes, they have been fighting for it." Xu Meixin added from the bottom of her heart, "It's just that you haven't given them a chance."

"Talk to them, find another one, the result will be better if there is competition."

"I already have a shortlist here, do you want it now?" Xu Meixin asked.

Looking at her serious expression, Brother Yu is in a great mood.

Great Wall, Azure, these two companies have been finalized, and Yu Ge does not intend to participate in the next negotiation.

He is not a person who is good at business negotiation, as he has shown before.

The reason for meeting Wang Wei in person is only because of respect.

The other party is a respectable senior, and has a cooperative relationship with Shun Shan, nothing more.

But this time, he decided to let Xu Hao do it.

He has a professional team, investigating, researching, comparing, all kinds of small tools in business negotiation.

Anyway, just leave it to him.

Yu brother just wants to empty his brain and enjoy!

You know, he is now surrounded by a goddess.

If this is the case, I can't let him focus, I am too sorry for the active enthusiasm of the goddesses.

Just, why do you think there is a strange contest between them?

Fighting for performance all the time, letting go of your \*\*\*\* side.

...Very spicy, super spicy.

Scanning system:

Imokin:

Age: 32.

Height: 178cm.

Weight: 56.3kg.

Specialty: Submissive, Taiwan pet, charm blooming.

Face value: 92↑ [face value 94] [temperament 87] [wealth 3]

Body: 89↑ 【Development potential\*\*】

Mood value: 81↑ [Happy in]

Favorability: 88↑ 【Qualified Conqueror】

Freshness: 85- 【Surprise】

Imokin's statistics are very beautiful, although there is no outstanding performance in his specialty.

But the appearance and figure belong to the goddess standard.

is a little thinner because he is a model by profession.

If she could gain another 5-10 pounds, she would be more perfect.

In addition, the freshness of 85 is indeed a surprise.

To foreigners who are open to sex, she is like a good girl who's guards her body like a jade'.

The age does not match what the outside world knows, it should be because she faked her age.

In order to enter society earlier, start making money!

This kind of thing is not news.

Scanning system:

Frida:

Age: 34.

Height: 185cm.

Weight: 62.5kg.

Specialty: Single and parallel bars master, hold your breath, inhale the stars, scissor your legs.

Face value: 89-[face value 90] [temperament 84] [wealth 4]

Body: 91-[Developmental potential\*]

Mood value: 79-[What did you do? ]

Favorability: 86↑ [It seems that it's not your fault]

Freshness: 88-[You should buy lottery tickets right away]

Before boarding the ship, Yu Ge felt the same way when he saw such data.

This is like winning the first prize, it's incredible.

Until I learned about Frida's beliefs, I didn't know that she had only been in love three times.

Once was pure love in high school, she didn't meet the first person until college.

Then her husband, but they are very difficult now.

Hardly speaking, Frida thinks their marriage has come to an end.

Fortunately, there are no children, they are very busy with each other.

She is about to divorce, these are all heard in small talk.

Just like what Brother Yu said, communicate and listen more!

but...

88-, two, incredible health.

I believe she will live a long time.

Although the data of Imogen and Frida are already very beautiful.

Ka Savannah's data is perfect, surprise!

Scanning system:

Savana:

Age: 27.

Height: 176cm.

Weight: 61kg.

Specialty: Rhythmic gymnastics, ballet dancers,.

Face value: 97↑ [face value 95] [temperament 95] [wealth 4]

Body: 95↑ 【Development potential\*】

Mood value: 81↑↓ 【to comfort her】

Favorability: 91↑ [I think she is in love with you]

Freshness: 96 [See, conquer]

Each of these values is a surprise! ! !

Brother Yu knows more than that, but also where she comes from, twins in the family, and a younger brother who has a good relationship.

My parents have a very good relationship, and they often go on vacation together.

What the whole family likes to do is to get together on the day of the festival.

Talk about what is happening around you, good and bad.

Share joy, sorrow, joy and pain!

"Sounds desirable." Qin Yu suddenly felt good when he stroked her cheek with his fingers.

Yes, sit together like this.

is just talking, sitting here is just talking.

It feels good, better than expected.

Maybe he should try a few more times and have an in-depth conversation with other women.

"It's dark." Imogen said suddenly, "Who wants to go on a night tour?"

"Night tour, are you sure?"

Frida looked at her uncertainly, "What if there are sharks around?"

"Are there any sharks here? Qin?" Imogen looked at him, taking off his burden.

looked at her who was shining in the light and smiling brightly.

Brother Yu promised that there would never be any creatures nearby that would harm them.

Besides, he wants to go into the water together.

Because his favorite sport is night travel, everyone knows! !

\*

\*

Unexpected, always meet beautiful unexpectedly.

This is the case every time, without exception!

Brother Yu just wants to have a good holiday, relax for a few days, just a few days...

But troubles followed, and he had to give up his vacation and return to the town.

"What's the situation?" Seeing Shi Cui, he was staring at a beating black jelly in a daze.

"This." Shi Cui awakened and pointed to the black jelly inside.

To be honest, Brother Yu didn't understand what it was.

looks like a contaminated organ, but it is uncertain.

Because it is full of holes, it's like being shot.

"Brain." Shi Cui said surely.

"What?" Brother Yu was about to put his face on the glass cover in surprise.

This is riddled with holes, like a reef eroded by the sea.

The weird beating thing is a brain?

Are you kidding me?

After confirming that it was a brain, and it was found from the body of the abstract deformed body.

Brother Yu had the first question: "Whose brain is that?"

"I think it's Hetu... the person you are looking for." Shi Cui pushed the frame.

This action has become an instinctive habit!

"Let's talk about why He Tu's brain is inside the deformed body.

Then, tell me what happened? "

has a sane aberration, and there is a brain that looks like Hetu hidden in the body, which is nothing short of bullshit!

But before Shi Cui gave out the evidence, Yu Ge was silent to refute, that is really Hetu...

He made all the comparisons, although the map is incomplete.

But judging from the 100% agreement with the remaining part, Hetu is correct.

So, He Tu didn't disappear He had to disappear because he was inside the abstract distortion.

become a part of it!

Their purpose in rescuing He Tu, is it just to make him the brain of an abstract deformed body? ? ?

But why did it succeed, and how did it do it.

In other words, what is special about Hetu.

Or, anyone can succeed.

Because they have never done such a crazy experiment, using a living person to "feed" the deformed body?

It seems that the forces behind Cheng Yaojin have taken another path in the study of distortion and radiation.

The consciousness in this brain no longer belongs to Hetu.

The consciousness of existence belongs to the distortion.

After peeling it from the deformed body, the consciousness disappeared.

There is only a ball of 'jelly' beating, and only flesh and blood are alive.

"Do you think it is related to Fort Decker?" Qin Yu looked at Shi Cui.

The records and data obtained last time are all sent here.

Shi Cui has read their experimental record, hoping that there will be clues in it.

"Probably...there is a top-secret plan in the file, Necromancer."

"I don't know if it has anything to do with it, but I hope I can go to Fort Decker."

His inner doubts and longing for the unknown made him unable to sit back and watch.

He needs to do something, it is a good choice to go to Fort Decker.

### **Chapter 1057: confrontation**

"I refuse!" Qin Yu denied Shi Cui's request, and he couldn't run to Fort Decker.

The other party is doing an aberration experiment, and they know something about radiation.

No one knows what is going on inside .

Therefore, Qin Yu will not let Shi Cui take risks.

But it does not mean that he will remain indifferent, "I will send the assaulter."

"Then you'd better send a few more. I suspect that the arm distortion is also related to it."

Shi Cui pushed the frame and walked into the laboratory again.

Now, he wants to continue watching this 'brain. '

Any slight change, Shi Cui didn't want to miss it.

"Kirin, you heard it, let the raiders on the base move."

Qin Yu turned to leave the hive and gave instructions to Qilin.

The sky of the bald eagle was once again pierced by the 'burning meteor'.

When the fireball hits the earth, the earth dragon churns!

A brand new confrontation kicked off.

Fort Decker, representing the top secret laboratory for biochemical research in the White House, was invaded by force.

50...50 [Assaulters] brutally broke into the base, trying to enter the underground building.

However, they were met with stubborn resistance, very stubborn resistance.

even once pushed [Assaulter] to block the entrance of the underground building.

Distortion body, a large number of distortion bodies gush out from the underground building.

Mysterious and unknown underground structures, like monster XX, continuously produce new distortions.

Make them strong enough to resist the enemy's invasion and keep them out of the entrance.

The deformed body of the knife arm appears again...

In an instant, 5 [Assaulters] were abolished by Sword Arm Distortion, and this was just the beginning.

Because there is not only one blade arm distortion body.

Then fluid distortions like abstract distortions appear, fluids flowing on them.

The pollution intensity is stronger than other radiation, dozens of times stronger!

Therefore, even with armor incorporated with 'silver ink', it cannot completely block this degree of pollution radiation.

When Qin Yu learned that his 50 [Assault Units] had been wiped out.

To be honest, he was stunned for 10 minutes.

The unfavorable [Assaulter], the whole army is wiped out? ? ?

sounds like a joke, but now he has become the biggest joke.

Yes, the whole army is wiped out!

Without exception, Deckerburg has more secrets than he expected.

And their hidden power is the same.

At the same time, after solving the intruder, he kept a low profile to the white house, which was about to disappear, and showed his minions to the outside world.

The opponent launched an attack on the East Coast for the first time, and hundreds of distortions swept everything.

There is no grass wherever he goes, and the scene is like a massacre.

Genocide!

White House, genocide one's own country.

Just a day ago, if someone said that, they would be ridiculed ruthlessly.

But now...

It's happening, it's happening in this world so real.

BlackRock Southern Consortium responded to this immediately.

"What should I do?" Ilibera asked Qin Yu for instructions.

Although in terms of shares, she doesn't need to do this.

But the current BlackRock Southern Consortium has the confidence to support it from Miracle Company.

Therefore, Ilibera thinks it is necessary for her to ask for instructions!

Moreover, the news she received before made her panic.

50 [Assaulters] All killed, even Lechette...

"Do nothing, continue with the previous plan." Qin Yu's response was simple.

"Are you sure, what should we do if the other party turns around and attacks us?"

Ilibera's tone was full of panic, and the failure of [Assaulter] shattered her confidence.

"I will send new guards to replace the assaulters. They are already on the way."

4 hours later, when Ilibera saw the Titan walking out of the cabin.

The anxiety and panic in my heart disappeared.

Eleven Titans, Qin Yu sent all the fanatics assigned by the company.

They are the best among the second graduates.

Now, he is the driver of the Titan Mech, responsible for guarding the safety of the West Coast.

In any case, the huge body full of weapons brings psychological comfort to the West Coast.

With them, even those aberrations are nothing to fear.

\*

\*

"Are you sure he is right?" Lying on the sofa, Qin Yu stroked the ends of the lazy cat's hair.

Her expression seemed to be about to fall asleep.

There is peace and goodness in happiness, and one can't help but want to be close to love.

On the phone, Xu Meixin is reporting the latest information to him.

The Morgan Lost Consortium lost half of its territory to block the offensive of the Dekberg Distortion Body.

The fact that the aberrations are manipulated by humans has also been confirmed.

In the center of the distortion body, there is a mutant who controls the entire team.

And he, it was Cheng Yaojin who Qin Yu ordered Daisy to find and bring back.

He really comes from Fort Decker.

"Boss, what should I do next?" Xu Meixin asked.

There are still people waiting for her to give orders, and Xu Meixin has also had a hard time getting through these few days.

The company's 'strongest combat power' has been hit hard, and the West Coast will be invaded every moment.

Titan's actual combat performance is still unknown, and public opinion...

The destruction caused by abstract distortion cannot be hidden from everyone.

The fact that it emerged from the miracle town has gradually been exposed.

The outside world has doubts about Miracle Town, and some people begin to believe the previous rumors.

believes that abstract distortions are experimental subjects in Miracle Town.

During the experiment, they accidentally released abstract distortions.

caused it to cause terrible damage.

Those contaminated buildings and land will not be able to return to normal again.

Hundreds of families were forced to leave their homes and move into low-rent housing provided by Yamen.

Inconvenience and economic loss in life, as well as the fear caused by mental trauma.

made them believe the rumors on the Internet and strengthened their ideas.

All of this is the fault of the Miracle Company. It is their evil experiment that caused the current consequences.

The current situation is not good for miracles!

Everything happened too fast, and suddenly there was an earth-shaking change.

Everything that was once firmly believed has been overturned.

This time, the change is so real.

Because it happened around me, unlike before, it looked like another world across the screen.

"Let President Hua hold a press conference and announce some video records...Let Li Si visit our training camp.

Also, go to the West Coast..."

"Titan?" Xu Meixin asked.

"Yes, let her film an interview with Titan Heavy Industries and the war on the East Coast."

When the abstract distortion appeared, Qin Yu guessed that the development of the situation might be very unfavorable.

However, the memory of netizens is only three seconds.

As long as there are new hot news, their attention will soon shift to new hot spots.

There is no skin pain, it is difficult to empathize.

Those opening mouths are the hypocrisy of 'I understand', just listen.

Although the operation was hit hard, the miracle was not without gain.

[Assaulter] broke into the building underneath, and the captured images are of great research value.

The aberrant flesh and blood that are sealed in a human high-incubation tank are connected to the beating brains of countless tubes.

There is also a brief introduction to the logo, and the network department is cooperating with the data analysis department to carry out a detailed interpretation.

Reading frame by frame, I want to find more clues.

The information was gathered together and handed over to the research institute for analysis, and the results were reported to Qin Yu.

In terms of time, Decker was conducting biochemical research long before the radiation storm appeared.

The emergence of radiant energy has greatly promoted and accelerated the progress of the project.

The accumulated experience and knowledge are transformed into results under the stimulation of radiation.

Regardless of right and wrong, they are indeed ahead of everyone.

The White House will give up control of the country and allow the consortium to divide it independently.

is also because the experiment progressed to a critical moment.

As long as this new power is mastered, it will not be difficult to reorganize a stronger United States.

By the way, we can clean up the overpopulated Nico, by doing several things in one fell swoop!

This is the truth that the White House will stand by.

Do not break or stand, White House wants to be the oriole behind the praying mantis.

However, their plan was interrupted by the attack of [Assaulter].

After exposing his strength, Baijiazuo decided to take the opportunity to fight and regain the lost ground.

Unfortunately, their power is not strong enough.

The ability of the consortium and the evolution speed of the mutants were even underestimated, and the war had to be stopped halfway through.

If you continue to fight with the Morgan Lowe Saint Consortium, it will only hurt both sides, and the BlackRock Southern Consortium will be cheaper.

There are also those forces and cults that fish in troubled waters, they are the biggest cancers.

The chaos in the northern, central, and central-south states has historical problems, which are also deliberately carried out by the three major forces.

There is no entrenched consortium in these places, and localism is too heavy.

The people's style is sturdy and xenophobic, coupled with constant conflicts and deliberate manipulation by those who change.

has become a buffer zone and a cradle of evil among the big forces has also attracted the attention of countless careerists.

Refugees, religious groups, bulls, ghosts, and snakes are all concentrated in these places, squeezing and growing each other, seeking vitality.

During the war between the White House and the East Coast, the chaotic forces were not idle.

ran around, looking for opportunities like locusts, trying to tear a piece of meat from the White House and the Morgan Lowe Saint Consortium.

This is also one of the reasons for the truce between the two sides. These \*\*\*\* fleas are really annoying.

They need to solve these problems before they can decide the winner.

A few hours after the armistice, the White House and the Morgan Los Angeles Consortium reached a tacit understanding.

Different plans were formulated and began to penetrate the central and southern central regions.

Direct use of force is the last resort, if the problem can be solved without bloodshed.

can not only avoid excessive consumption, but also enhance one's own strength, why not do it?

And what they did, the BlackRock Southern Consortium had already started operations a year ago.

At that time, they were still in chaos, and the White House and the Morgan Los Angeles Consortium were both solving the troubles in the territory.

The West Coast has always been at peace, allowing it to free up its hands to solve external problems!

Central, central and southern regions, there are forces secretly supported by the BlackRock Southern Consortium.

Some illegitimate experiments also occurred in these chaotic areas.

All the sins are covered by darkness and chaos!

## **Chapter 1058: Reunion**

Brother Yu is busy arranging plans to deal with public opinion and public pressure.

The lazy cat, who is rarely on holiday, summons the sisters to eat and go shopping.

"It's been a long time since I got together like this, Sister Wanxing, I miss you so much!"

hugged Li Wanxing, Lanyue happily buried her head on her chest and rubbed it.

"Why do I feel like being eaten tofu?" Li Wanxing pushed her amusedly: "You have learned from Xiao Sepi."

"Where is it!" Lanyue denied it.

"Do you think that Sister Wanxing is much older." Wen Yaxuan said grinningly.

"It's big."

Jiang Xiaoshan, who was holding the coffee, nodded calmly, her upturned mouth showed a happy smile.

They haven't got together like this for a long time, chatting, drinking coffee to kill time.

"When you come back, won't he be with you?" Li Wanxing hugged the lazy cat and sniffed at her.

This girl still smells so good on her body!

"There is something in the company, I have made an appointment to come back before dinner."

Lanyue put her shoulders on her shoulders, and said lazily in her eyes.

"Well, he really loves you." Li Wanxing complained silently.

"Yes, that's right!" Wen Yaxuan was full of envy.

"Yes, yes." Jiang Xiaoshan nodded sincerely.

"Hey, what's the matter with you?" The lazy cat had an innocent face, and went to beat the sisters with a smile.

Everyone finally got the chance to get together, can they not help but make fun of themselves?

Ding Dong!

The door bell rang, and the suit and leather shoes made oneself more exquisite...

It should be said that an overly exquisite tall man walked in with his expression full of 'arrogant, reckless pride.'

And the girl behind him, young and curious, her eyes filled with bewilderment and excitement.

The four fairies who are the focus of the restaurant attract the attention of the exquisite men who have just entered.

pay special attention!

The other party's eyes kept sweeping toward the four fairies, and he was totally indifferent to the female companion beside him.

"Sir, madam, welcome to Jade 36, do you want to order for you now?" The waiter greeted him.

"right."

The man raised his hand, and the two vertical fingers ticked inward: "We want to order now..."

Everything is normal, except that he uses the corner of his eye to sweep the four fairies from time to time.

The Four Fairies are used to and very sensitive to the gaze of others.

But when most people face a small circle like the Four Fairies, they feel ashamed and secretly look at them with a guilty conscience.

The other person's gaze is too bold...

It is very uncomfortable to look at sensitive places every time!

"What is he looking at? Can't men be more honest?" Wen Yaxuan said angrily.

"Do you want me to beat him up? I can guarantee that he will turn into an egg with one punch." Li Wanxing squeezed her finger.

Kaka~

Big sister is big, full of momentum.

"Forget it, we are almost finished eating too, and we should leave early." Lazy cat pulled her with a smile.

Jiang Xiaoshan squinted while biting the straw, but her expression became cold.

Anyone can see that she is very upset!

"The steak should be medium rare. BOMBANA tastes good. I hope you don't let me down."

The man said that he pulled his collar proudly, wanting to show his masculinity and magnanimity.

is three minutes old, and the three characters appear, and the pause button seems to be pressed at the nearby dining table.

He did not deliberately lower his voice, but repeated it with high emphasis: "Remember, you must be familiar with it."

"Okay, sir." The waiter's expression, what should I say...

is about to be distorted, I want to laugh but dare not laugh, but I can't open my mouth to express my opinion.

Because he was worried, he would laugh in place as soon as he opened his mouth.

Therefore, he can only nod desperately to show that he understands the requirements of the distinguished guests.

Medium-rare steak, this kind of requirement is rare even in foreign countries.

Daily hamburger patties are well cooked, and most people in western restaurants will choose well cooked burgers.

can not only ensure the safety of meat quality, lock the gravy, but also stimulate the taste of the meat itself.

is half-baked in high-end restaurants.

Because only high-quality ingredients and high-quality beef can ensure that the half-ripe will not taste fishy smell.

As for three-point familiarity, it is equivalent to a strange flower on campus.

Only a very small number of people with strange tastes will choose medium-cooked.

And, no matter how you cook.

In fact, it is full of \*\*\*\* smell, equivalent to a blood bag wrapped in a scorched shell.

Choose three-way familiarity, or know nothing.

either has a peculiar taste and a peculiar taste with special hobbies.

And he obviously belongs to the former because he specifically emphasized 'BOMBANA.'

Jade 36 focuses on French cuisine, and BOMBANA focuses on Italian cuisine.

French signatures are foie gras, pigeon, lobster, etc.

Italian specializes in pasta, ham, pizza and cheese.

Steak is not the best choice, and he even said that BOMBANA's medium-rare steak is very good.

What are you kidding? ?

"Then...I should be familiar with it too?" The girl who came with the exquisite man was a little embarrassed.

She couldn't understand the arrangement on the menu, and instinctively wanted to follow the delicate man's menu to order.

"Madam, I suggest you choose seven mature, the taste will be more suitable for young ladies like you."

The waiter kindly reminded me that I don't want the restaurant's sign to be ruined.

If she really chooses to be three-minded, she will probably vomit on the spot in the first bite!

"You choose half-ripe. Only people who eat steak often can accept the pure taste of steak."

The exquisite man said, his face showed great pride.

"Puff..." Wen Yaxuan can swear, she didn't mean it.

But she can't help it anymore!

This person pretends to be too blunt, too embarrassing...

is too embarrassing!

What's bad is that the table between them is very close.

Just as the four fairies can hear each other's conversation, so can the delicate man hear them.

"Is there anything funny?" The delicate man turned his chair rudely, and asked the four fairies.

"No, nothing."

Lazy Cat waved his hand nervously, beckoning the sisters not to speak any more, trying to avoid conflict.

Actually, the conflict occurred as early as the moment the opponent entered the restaurant.

The lazy cat's timid performance just makes the opponent behave more aggressively.

That look~

Zi!

Li Wanxing pushed aside the chair abruptly, and said angrily: "Look at it with your eyes again. Believe it or not, I will blind it with a fork?"

"What did you say?" The exquisite man retorted in anger and anger: "Who is looking at you, I have a female companion."

"Female companion?"

Li Wanxing walked quickly to the bewildered little girl, teasing and mocking: "Ha, you're talking about this little girl who is inexperienced in life and doesn't understand your tricks, right?"

"Also, your medium-rare steak can only be used to feed dogs and perverts, which one are you?"

Li Wanxing shrugged contemptuously and asked, "Choose one!"

"You." The exquisite man was so angry that he almost jumped up from his chair.

"You better sit down, otherwise I will let you know what a big fist is."

Li Wanxing squeezed her fist seriously, not at all as if she was making a false threat.

This made the delicate man nervous, his mouth trembled, his expression tense, and a layer of fine sweat appeared on his forehead.

What does he want to say!

can face Li Wanxing's self-confidence performance, the strong self-confidence flashing in her eyes...

The exquisite man chose to follow his heart, his body no longer obeyed the command.

If he can, the exquisite man also wants to say a few beautiful ruthless words and threaten to go back.

But he just can't help it, his body doesn't obey the command.

"That's right."

Li Wanxing glanced at him lightly, and turned to face the flustered and bewildered little girl.

"Little sister, I know you want to find someone who can lead you a good life.

But I want to tell you, your vision of choosing people is really bad! "

"This kind of man... is like \*\*\*\* on the side of the road. No one wants to throw it there. Why would you like him?"

The little girl said angrily: "What is your business?"

"Indeed, it's none of my business."

Li Wanxing stilled his hands and said, "But if you want to continue to be ashamed here, go ahead!"

looked up at the exquisite man on the opposite side, his previous pseudo-exquisiteness, self-confidence and charm.

all disappeared!

Now he looks so awkward, like a mouse crossing the street, extremely embarrassed.

This also made her very embarrassed, as if everyone around was looking at herself with mocking contempt.

grabbed her own bag, and the girl ran away from the restaurant.

Li Wanxing never looked at the wretched delicate man again, and turned back to his desk.

Confidently said, "It's done."

"...pay the bill!" Lazy Cat hurriedly raised his hand and shouted.

She just wants to escape here now, this kind of strong conflict is not suitable for her.

But I have to say, seeing the other person now.

She still feels a little bit happy in her heart.

The gaze that the other party looked at her just now makes Lazy Cat still feel very uncomfortable.

"Sister Wanxing, you are too domineering." Out of the restaurant, Wen Yaxuan's admiration for her was beyond words.

She has the courage to stand up and accuse each other.

If you change to be yourself, you may escape by yourself, as if it was her who did the wrong thing.

"That is, be my favorite concubine obediently, who dare to bully you, my fist is very hard."

Li Wanxing raised his head triumphantly, her eyes almost floating up to the sky.

"Where is Qin Yu?"

All the worship and conversation, quiet down instantly.

is like what happened in the restaurant before.

Li Wanxing is like an old robot, turning his head frame by frame.

looked at her with desperate and angry eyes: "Just for a while, as long as this is for a while, won't I be proud of it?"

"Feel sorry."

Jiang Xiaoshan said blankly: "I just thought of it suddenly."

Wen Yaxuan also said boringly: "You ruined my worship of Sister Wanxing."

Facing Li Wanxing's questioning and pleading gaze, Wen Yaxuan said pitifully and helplessly: "I'm sorry, Sister Wanxing, when I think of your performance in bed...in the room, it is really hard for me to worship you again."

The lazy cat with his head down, his cheeks are red like ripe apples.

Seeing that the sisters did not intend to stop, she could only step forward and hold them: "This is on the street, can't we go home and talk about it?"

"I can~" Li Wanxing has something to refute.

Jiang Xiaoshan was already standing next to the lazy cat, looking at her and said: "Let's go shopping."

Such a clear supportive attitude made Li Wanxing, who was only a joke, feel a little uncomfortable in her heart.

Is she demonstrating to herself?

### **Chapter 1059: Become a god**

In the evening, Qin Yu returned to the Oriental Royal Garden.

Seeing four fairies sitting around the table, the table is boiling red oil hot pot.

The aroma of butter overflowed, making the whole room hot.

"Have fun?" Qin Yu dropped his coat casually and caught the lazy cat.

Jiang Xiaoshan stood up quietly, shook his coat straight, and hung it up.

"Happy, we bought a lot of things, come and see." Lazy cat pulled him aside and said, pointing to the shopping bags all over the floor.

I can't see what's inside, the shopping bags are all big-brand logos.

There are two large wooden boxes from Breguet, right on the round table.

"Who bought the watch?" Qin Yu asked with a smile.

"It was a gift for Xuan Xuan and Teacher Shen." Lazy Cat said, shaking his hand.

"Gift?" Qin Yu was curious.

"Yes, it's almost Teacher Shen's birthday, don't you know?" Lazy Cat asked.

"Mom hates birthdays." Wen Yaxuan emphasized from the side.

Every time she celebrates her birthday, she feels down and never looks happy.

Therefore, it always ends after a hasty meal.

"It doesn't matter, I am here this time." Lazy Cat said proudly.

Wen Yaxuan pouted and said: "I am her daughter."

Lazy cat ran over and hugged her from behind, smiling and saying: "Sister, I am your long-lost sister!"

"..." Wen Yaxuan's face was speechless, this girl was getting crazy.

"Gift, not prepared at all!"

Qin Yu rubbed his chin and joked: "I will give myself to Teacher Shen."

"Who wants you, a bad and nasty man." Wen Yaxuan smiled and ran away.

"Yeah, who would want you as a little scumbag!" Li Wanxing embraced her arms and spit out her chest.

Jiang Xiaoshan said: "There are still advantages, although it is very charming."

Lazy Cat hid behind Li Wanxing, and pointed his probe: "Yeah, that's right, that's right..."

Brother Yu opened his mouth and found that he could not refute?

Forget it, your mouth is better than action!

"Ah, what are you doing..."

"Don't, I was wrong, woohoo!"

"Sir, ah..."

"It's scary, meow!"

\*

\*

Lingang New City.

is full of cordon lines everywhere, as if dividing the earth into various shapes.

The black cracked soil is like a spider web drawn by a top hunter in the jungle.

Under the shining of the moon, the soil that should have been 'dead' exudes a weird metallic gilt.

The invisible radiation melts into the air and diffuses in a slow but continuous way.

In the lakeside home a few miles away, the man who is struggling to fight the codeword is lighting up the lamp, tapping quickly with both hands on the keyboard.

The eyes staring at the screen were bloodshot, and his consciousness was completely immersed in the strange and bizarre world.

In his mind, a real world slowly unfolded.

This sense of reality is getting stronger and stronger, as if his consciousness enters another world through the screen.

"Haha, this book will definitely be a god, I will become a great god...exquisite...wandering..."

In the frantic murmur, the hands that hit the keyboard began to twist.

The lights in the room kept flickering, and the shadows on the wall became longer and shorter, as if something was about to come out.

When he finally saw the mysterious world, full of evil and distortion, terrible monsters hidden in the mist.

The lights in the room suddenly went out, and the death breath of dying everything gushed out.

On the screen where the text was supposed to be presented, an extremely real gray fog was displayed.

The camera swept forward quickly, pulling up...

The soaring meat pillar burst into the line of sight, covered with grotesque eyes and tentacles.

The code character man fixed in front of the screen, stretched out his twisted hands and pierced into the mist.

"Ah..." The miserable wailing sound pierced the night sky!

\*

\*

Play low, play low...

Brother Yu, who is enjoying the joy, is attracted by the successive police sirens.

He wants to ignore this voice!

Within ten minutes, at least 30 police, fire alarms and ambulances that sounded their sirens passed by.

It sounds like something big has happened, making Hudu's rescue force all take action.

When he heard the sound of propellers in the sky, Brother Yu could no longer pretend to ignore, "I have to know what happened."

dialled Yan Xue's number, and the first sound was connected: "What's the matter, why are there sirens everywhere?"

"Radiation pollution has occurred in the Lingang District, and people from the Bureau of Disturbance are dealing with it."

"They sent fanatics out?"

"Yes, the second batch of students who joined the Bureau of Anomaly drove the new Xingtian exoskeleton mecha. They were on the scene."

"Connect live!" Qin Yu said.

Lakeside home, the action team blocked a radius of five kilometers in accordance with the order of the on-site command.

No one is allowed in or out, no matter who it is!

"What shall we do now?" The police officer looked at the scene and commanded.

Different Tune Bureau, he has never heard of the secret organization of the name.

But the identity of the other party has been confirmed, and his position is several heads higher than his own.

So, no matter how unhappy he is, he can only wait for orders.

"Wait for my people to come out." Hanshuang said coldly.

Since the Miracle Company withdrew its support for the Bureau of Misalignment, the former director has said goodbye to his position.

Now, it's Hanshuang Alone...

There is a supervising army behind her, Bai Ze!

Yes, Lao Bai is now a prison army.

Although his title is 'Chief,' commanding everything, but he does the job of supervising the army.

But he didn't show up today because he attended an important meeting in Shanghai.

However, someone arrived at the scene instead of him.

Li Xiao~

"How is it?" Li Xiao, who looks mature and calm, has changed a lot from the past.

formal suits, standard professional styling, serious and well-organized.

The whole person looked like he was 10 years old in an instant.

But it's also more convincing, full of majesty when you hang your face.

"I also want to know, now, my people are trying to figure it out inside." Hanshuang responded.

But Li Xiao didn't appreciate it, "Then you better hurry up, because there are more than 1,000 families in it."

"I'm working hard." Hanshuang's face became colder, like a layer of hoarfrost.

"You don't work hard enough, you have to go all out." Li Xiao said.

"Director Li, please make it clear that I am not responsible for you." Hanshuang's already bad mood became even worse.

Her people risked their lives and went in to investigate the situation.

Now life or death is uncertain, but some people are picking and choosing here to trouble her?

Who does she think she is, boss?

"No, you are responsible to me now, do you want me to let Mr. Bai talk to you in person?"

Li Xiao shook the phone in his hand and looked at her very surely.

Hanshuang also looked at him coldly, but in the end she chose to compromise...

Because Bai Ze controls the treasury and administrative power of the Alien Harmony Bureau, a single word of him can make the Alien Harmony Bureau lose everything.

That's right, lose everything!

So, she must force herself to compromise: "My people have not returned yet, I don't know."

"Is there a way to reach him?"

"Unless I send someone in again and risk disappearing."

"How long has he been in?"

"43 minutes."

"For one hour, if he has no news, continue to send people to figure out what the problem is."

"Understand." After clearly realizing that the other party is the one in power.

Hanshuang no longer wants to argue about the right thing.

One hour, if there is still no news, she is reluctant to send someone in.

Because, you have to figure out what's inside.

This is the responsibility of the Aliens Bureau, anyone can shirk it, but she can't.

Anomaly Harmony Bureau was established for these incidents.

buzzing...

The irritable engine sounded instantly, and Hanshuang's anger had a channel to vent: "Who doesn't understand the rules, don't you know how serious the situation here is?"

hum, hum!

Turning the throttle, the motorcycle stopped not far behind them.

Qin Yu took off his helmet and shook his head: "It's me, why, I'm in a bad mood."

Faced with that handsome face, Hanshuang squeezed a smile that was uglier than crying: "Dong Qin, long time no see!"

Li Xiao is here on behalf of Bai Ze, and Qin Yu himself is a big brother, and he took office as the director because he left class in a hurry.

Two great gods are on the side, no one can't provoke them!

Hanshuang found that she had become a gas bag, and she had to be careful even when she spoke.

Time also passed unconsciously, and the appointed time was approaching.

"Lightning." Hanshuang called a petite girl, "Go get ready."

"Yes, Director." The little girl codenamed Lightning stepped back to make preparations.

She is one of the most potential mutants in the Anomaly Game.

In just three months, she reached five times the speed of sound, and at the limit it was close to eight times the speed of sound.

Hanshuang can be sure that she is the fastest among human beings.

Real person refers to a real person.

Who knows if there is any hidden black technology in those perverted companies.

The world is getting more and more absurd, even if aliens suddenly appear, she will not be surprised!

I don't know if Miracle Company is really related to shape technology?

"Director Li, I seem to see someone coming out." Qin Yu interrupted her imagination.

Seeing the figure leaping and shaking in the distance, Hanshuang's heart trembled and said, "Go and pick him up."

An afterimage flashed before his eyes, and in the next second, the afterimage condensed into a human form.

The investigator, who was still a kilometer away, stood in front of him, supported by lightning.

The nanoworms in the body are instantly activated. UU reads [www.uukānshu.com](http://www.uukānshu.com) to let Yu brother know what's going on.

"Everyone backed away, he was contaminated." Qin Yu pushed Li Xiao away as he said, "Go, don't look back."

"Oh..." Several police officers responsible for maintaining order knelt on the ground and vomited wildly.

"Go, take them away, don't look here." Qin Yu shouted loudly.

The people from the abnormal investigation bureau also acted immediately, covering the investigator with the anti-radiation blanket, and taking him into the mobile isolation room.

These isolation devices are sprayed with a titanium rhodium alloy blended with silver ink to ensure maximum enclosed radiation.

Lightning, who had been in close contact with him, was also taken away by a radiation blanket.

Her face is ugly, and she needs to be isolated and observed to make sure there is no risk.

When the scene is emptied to ensure that there are no accidents.

Hanshuang had already been talking to her people in the isolation room, "Tell me, what is going on inside?"

Both arms are distorted and twisted, turning them into tree stumps.

There are cracks in his chest, rotten edges, and the scout with swaying tentacles pouring out of it, trembling all over!

But he still tried to keep his final calm and convey the message to Hanshuang.

"No... no one... survives... survives, kills... kills me." Said the last wish in my heart.

The investigator roared to his feet, his countless tentacles squeezed through his skin.

A group of squirming black flesh and blood covered with tentacles and cracks, was imprisoned in a swinging isolation room.

## **Chapter 1060: Duty**

"head."

Seeing the isolation room which was shaking more and more and showing signs of corrosion on the surface, everyone turned their eyes to Frost.

Li Zixin is very tangled, and she also knows that the situation in front of her is terrible.

It must be hopeless to deform like this, but just kill it like this.

"Kill it." Li Zixin gave the order with a cold face.

"and many more."

Looking back at Qin Yu, Li Zixin asked for an explanation.

"I think he is still useful!" Qin Yu wants it to do research, Shi Cui will definitely be interested.

More importantly, it can help them figure out the situation inside!

"No, no," Li Zixin said affirmatively.

Qin Yu looked at her and said, "Director Li, I know this makes you uncomfortable, but he can help us solve many problems!"

"He is my person, he went in to save the people inside..."

Li Zixin couldn't bear to point to the rotten meat... or whatever, that was rampaging in the isolation room.

Anyway, it should be cleaned up.

'S last impression of 'Yang Xiao' should be that young man who likes to joke, looks thin and has a strong heart.

shouldn't be this group, this \*\*\*\* rotten meat, "grass, grass, grass!!!"

The ground under Frost's feet instantly froze, turning into a layer of ice!

The number of them is very small. Everyone is precious, like a treasure.

Li Zixin treats them as family members.

Yang Xiao is as close to her as her younger brother.

Now, he just died like that.

turns into a pile of rotten meat and it is unavoidable to be used by others, just like using waste to recycle.

"Director Li, I need you to calm down." Qin Yu stood calmly in front of her and looked at her seriously.

"Calm down, listen to me."

Watching her calm down, Qin Yu said again: "I need him, do you understand? I need him."

"Yes, he paid the price of his life in order to obtain information. It was very heavy, and I also found it very sad.

Although he is a stranger to me, I admire what he did. He is a real hero, an unsung hero. "

Seeing Li Zixin's expression eased, Qin Yu continued: "But I must say that he didn't provide much information."

"I'm not blaming anything, just telling the truth." Qin Yu took two steps forward and got close to her.

said in a voice that only two people could hear: "I need him to figure out what's going on inside."

"Because if I don't figure it out, his sacrifice is meaningless, do you understand?"

Seeing Li Zixin's expression gradually congealing, Qin Yu suddenly grabbed her shoulders and said forcefully: "It makes no sense, you understand?"

"Okay, it, it is it, understand?" Li Zixin emphasized many times in a serious tone.

"It's it, this pile of meat...not Yang Xiao, it's yours."

Li Zixin said and walked aside, she just wanted to stay as far away from here as possible.

"Are you done talking?" Li Xiao took a few steps forward and stood shoulder to shoulder with him.

"Yes, alright." Qin Yu nodded solemnly.

He is not proud of it, nor will he be happy.

I just hope, Yang... what information or clues it can bring to himself.

"I have to find someone to transport it back for analysis and testing." Qin Yu opened the terminal and called Yan Xue to arrange a follow-up.

"Dong Qin, is this the communicator inside the miracle?" Li Zixin, who had just left, took the initiative to come over.

"Yes, personal terminal, there is no official name yet." Qin Yu said.

"How is its signal?"

Li Zixin looked at the polluted area: "If it is inside, will there be a signal?"

"If the relay station is put on hold halfway, I think it might be possible."

"Why didn't the Anomaly Bureau get these equipment?"

If they had such equipment before, Yang Xiao might not have to die.

"Director Li, are you blaming me for your own death?" Qin Yu's expression changed.

He doesn't like this kind of groundless accusations, "This is your job, and your job is to deal with unknown events.

This is the most dangerous job with the highest mortality rate. If you cannot accept it, you should stay at home and hide in your mother's arms. "

"As for why you didn't get the personal terminal, it's because you didn't pay me.

Ninety percent of the equipment and technical support of the Aberration Bureau come from miracles. "

Qin Yu took a step forward, condescending, and said with a force of force: "Do you know how much money I got?"

"No, not a single point."

"But in fact, I am not obligated to provide you with everything for free."

"I am not your parent, let alone your nanny, understand?"

Seeing Li Zixin staying in place, Brother Yu shouted: "Understand?"

Li Zixin is clever and wakes up from hysteria.

took a deep look at him, then turned away without saying a word.

"Sorry, Qin Dong, the director is just in a bad mood, you know... she didn't mean it."

Someone came forward and wanted to explain, to prevent Li Zixin from getting out of the way with the former director.

The ex is a bastard, and they would love to see each other step down in embarrassment.

But Li Zixin, she is a good director.

Strict requirements, composure and calmness, unconditional support for oneself, and absolute protection of the calf.

Moreover, she cares about everyone's safety and gives the greatest support.

At this point, it's completely two extremes with the former \*\*\*\* who even had to pay for the settlement fee.

Today's Li Zixin lost his attitude because Yang Xiao...

There is also the scene that happened before her eyes, a person, the person she knows and cares most.

twisted and exploded in front of his eyes into a disgusting pool of flesh and blood full of ribs and tentacles.

She was not prepared for this at all!

She thought she was done, but she didn't...

"Don't waste time explaining. If you are idle, let your chief calm down and do her due diligence."

Facing Qin Yu's severe criticism, the other party was very nervous and his brain became dull: "What...what?"

Qin Yu looked at each other incredulously, confirmed that he was not joking, and said loudly: "Work, her work."

Seeing the other party running towards his team, Qin Yu couldn't laugh or cry.

The so-called abnormal tone game is simply a funny stage play performed by a group of rookies.

They can be more funny, maybe let the radiation "laugh to death".

"You have to give them some time, the changes come too fast." Li Xiao said softly.

But his expression is very relaxed.

When Bai Ze asked him to be stricter before, creating pressure on the abnormal situation and allowing them to grow quickly.

Li Xiao was still thinking about what to do, until Qin Yu went crazy, he was still sorting out his words!

Now, someone has done this job for myself.

The feeling of throwing one's hands to the theater...

Ness!

"I also hope to give them enough time." Qin Yu took a deep breath and pointed to the dark polluted area ahead.

"But it doesn't give anyone a chance."

After 10 minutes, the RRT team arrived, and Yuri personally led the team to transport the isolation room back to the hive.

When it was sent to Shi Cui, the experiment began immediately...

"What shall we do now?" Li Xiao asked as he looked at the bright sky.

"Wait." Qin Yu responded.

Make a blockade and set up a barbed wire fence to block all the periphery to prevent anyone from entering.

Ordinary people can only be stationed three miles away to ensure that no one will break in.

Only the people from Anomaly Bureau and Miracle Company were left at the scene.

Including Li Xiao, was also asked to leave.

Although he said that he can stay here in a radiation suit, he was rejected by Qin Yu and Li Zixin.

He was kicked out!

And Qin Yu finally waited for the manpower he needed, and 10 [Assaulters] from the West Coast were ready.

"Boss, you are sure to do this, we only lost 50 Raiders."

Watson, who connected with Qin Yu through the terminal, wanted to make him change his mind.

Don't change everything, give up the plan of letting 10 [Assaulters] in together.

was changed to one, try to enter the contaminated area, and find out what is going on inside?

It's not that Watson doesn't worry about the safety of those people She just wants to avoid unnecessary losses.

[Assaulter] is too expensive, it is too expensive.

The previous 50 units [Assaulter] caused more than 8 billion direct losses for the company.

Indirect loss, unpredictable!

Change to another company, even a business giant, a leader in the industry.

There are only two outcomes it faces: being abandoned by the parent company...or bankruptcy and reorganization!

Fortunately, they have enough funds and a steady stream of income to fill this 'sinkhole'-like big hole.

But it does not mean that he can use 1.6 billion to risk again.

At least the risks and losses should be reduced to a minimum. This is in the interest of the company.

"Needless to say, let them move!" Qin Yu gave the final order to Hua Sen.

Then, above the honeycomb, in the fully enclosed central information processing center building.

10 qualified players who have been selected by the network department put on their VR holographic glasses.

They are about to control 10 [Assaulters] on the scene and enter the contaminated area to find out the truth.

Whether anyone is alive, whether there are any monsters inside or the star door is open.

Or maybe there are other discoveries that can help them prevent the spread of polluted radiation pollution.

Because, just in the process of waiting.

The scope of the contaminated area has been expanded by 2.5 meters...
