

## **Pinnacle 1101**

### **Chapter 1101: Yan Gou, say Jill!**

Big Apple City, the headquarters of the Morgan Low Saint Rose Consortium.

A group of old undead who hid in the dark underground, couldn't wait to jump out.

Since blocking the White House's offensive, the mice of Morgan Los Angeles finally found the confidence to live in the sun.

Today, the new Rockefeller Plaza is reborn on the ruins.

The tallest iconic building in the middle became the headquarters of the Morgan Lowe Saint-Ros Consortium.

For this choice, the explanation given by the joint consortium is.

"The old era will be turned into ruins, and the consortium will be reborn from the ruins and lead people to establish a new order and future.

This requires our joint efforts, and a new era is coming to you. "

The general meaning is: the bald eagle is the old age = ruins.

It has been eliminated, don't have any unrealistic illusions.

The Morgan Lowe Saint Rose Consortium will rise on its corpse and become the new owner of Beizhou.

You must continue to be obedient, be conscious of leeks, and dedicate everything for the great future of the consortium!

The concise version is: Lao Tzu is your new master, so please give me a good job.

Under various very confusing brainwashing and squeezing, the leeks have exploded with great potential.

Let the strength of the Morgan Lowe Saint Rose Consortium be the same day by day.

Now, it has the same ferociousness as it used to be, and it has the qualifications to have equal dialogue with giant crocodiles of the same kind.

The invitation from the BlackRock Southern Consortium made it feel respected.

The other party is still afraid of the strength of the consortium, and does not want to be an enemy of us. The active invitation this time is a sign of goodwill.

Although some people refuted, they thought that the other party just wanted to eliminate them one by one.

But the ability to resist the White House and BlackRock's invitation made most people extremely inflated.

They also need to prove themselves, have the strength to control the current complex situation, and control the overall situation!

The joint consortium, which continues the Bald Eagle style, thinks it's time to show off its strong muscles.

With the affirmative answer from the other party, the war kicked off.

On the other side of the ocean, countless people are paying attention to this post-split civil war.

Is it both defeated, or will it not break or stand, re-emerge in the brokenness, and build a strong hegemonic country.

Everyone, wait and see!

A steady stream of supplies was transported by the Xihe to the west coast, and then huge amounts of funds were brought back.

In this war across the ocean, Miracle Company acted as a war factory.

Individual combat uniforms, Titans, Raiders...

As long as it is requested by Ilibela, the starting price is what the company has, and nothing cannot be sold.

Even fanatics can be dispatched as mercenaries.

They need actual combat experience, and Ilibera needs overwhelming strength. Both sides take what they need and hit it off.

Limiting the war to Beizhou did not completely dispel the worries of various countries.

All countries have made emergency preparations for larger-scale wars and even nuclear winters.

At the same time, privately protested to the Republic.

The Miracle Group is funding the war, which is extremely irrational, immoral, and violation of the peace policy.

The response received was: "It will not interfere with free market, normal and legal commercial trade."

Miracle Company has an arms license, although it is still a 'pilot unit.'

But before the license expires, their actions are legal.

In response to the serious protest from the corrupt country, Barrow and Belarus pushed the [Xingtian] mechanical regiment toward the border by 50km.

The voice of protest was immediately lost by more than half.

The rest are just insignificant jumping clowns, issuing a few painless condemnation statements.

At the same time, Miracle Company responded to the attack on Mr. Qin Yu, the founder, actual controller, and chief technology officer.

Things happened on the ring road, still at the peak.

Related videos and speeches have been spread wildly on the Internet and communication software.

I can't hide it even if I want to hide it!

Besides, Brother Yu didn't intend to hide it either. He is a victim, so there is nothing to hide.

Let the company issue a statement, condemn and protest, and point the finger at Fort Dekker.

What the \*\*\*\* is going on, who is behind Deckerberg, knows everyone!

If you don't understand, it means that he is not enough at this level.

I knew it and I didn't use it...

As soon as the news came out, the cold meal about his first attack was revealed again.

Xu Meixin, Yan Xue and others have all turned into self-service answering machines!

One after another text messages, phone calls, and daily notes, the calls in front of them never stopped.

The private phone also kept ringing, and could only answer one by one!

Brother Yu is no exception here. All public calls are forwarded to the secretariat, but private calls are enough for him.

Not only the women around me called, but even the game that I had contacted by chance before, as well as those who contacted all sent me Wechat.

With so much care in words, some people are worried, 'cry.'

That cry is really tears from the hearer!

Afraid that it was not a copy of "The Self-cultivation of an Actor", Liu Piaopiao wept when she watched it.

For these news, Yu Ge will ignore it!

Normal operation, one more word, the opposite will misunderstand.

I wondered if I had a chance to turn around, come to a gorgeous counterattack, and fly to the branch to become a phoenix.

"There are no dangers, yes... there are so many bodyguards around me!"

"Don't worry... it's okay, it's okay, don't cry!"

"Baby, don't you believe me?"

"I'm a sliding shovel..."

In the end, Brother Yu didn't know what he was talking about.

Too many people, I'm confused to explain!

Lazy cat even booked a return ticket, and took a week off with the group, and wanted to fly back to see him.

Brother Yu didn't stop either. All the leave were requested, and the tickets were also bought.

Besides, he wants his own Mao Nizi!

But before that, Xu Xixi has to be properly settled.

"The place the company fancy is on Huaihai Road. I will buy you a house nearby and send a car. Is there a favorite brand?"

Shop address and residence, UU read [www.uukanshu.com](http://www.uukanshu.com) has a list here.

It's the car, it depends on Xu Xixi's own.

"Is Palamela all right?" In the co-pilot, Xu Xixi, who was restored to his spirit, was deeply impressed by yesterday's experience.

At the last minute, the big Pa rushed across the green belt and crashed into the shopping mall.

The impact was the biggest, and it gave Xu Xixi an impression of "this car is so powerful and super reliable".

So, when it comes to cars.

The first thing Xu Xixi thought of was the Palamela of the same style as him.

"If you want to be safe, it's better to consider Volvo." Yu Ge gave different suggestions.

Volvo is absolutely world-leading in terms of driving safety.

Mass production cars of other brands are beyond the reach!

If you have to talk about modification and customization, then you have no fun.

Mechanical monsters, tanks and armors can be assembled for you, how do you compare?

"Uh~"

Xu Xixi hesitated and said after thinking about it, "But, it's so ugly!"

Yeah, when I didn't say anything.

### **Chapter 1102: Never get off**

In Dunhuang, Lan Yue was anxiously packing her luggage in the background.

Zhou Xue was accompanied by her, watching her sweating eagerly, and couldn't help but say: "Yueyue, didn't you say it's all right over the phone, please slow down."

"No matter what he encounters, he will say so." Lan Yue stuffed the practice clothes into her bag, and closed the zipper with a sigh of relief.

"Teacher, are you really not with me?"

"I'm not going to join in the fun, you go!"

"Well, I will be back on time."

Stepping onto the small bag, Lan Yue wiped the sweat from his forehead, and walked quickly towards the speeding car parked outside.

It was the special car Qin Yu sent to pick her up after knowing that she was coming back.

In the end, the air ticket was useless, and I would have spent no money if I knew it.

\*

\*

At the Porsche 4S shop, Qin Yu and Xu Xixi were received by a new salesperson.

After asking Zhang Yiyue, she found out that she had quit her job.

"I heard that I found a boyfriend, planning to get married and be a wife." The little girl's mouth was not too strict.

I just met with a client and couldn't even talk about acquaintance.

Just talk to each other on Balabala

If you don't say anything about the big thing like marriage, Brother Yu will definitely give her a big red envelope.

"Does GTS have a car now?" Qin Yu directly pointed out the style to buy, and handed over the color card to Xu Xixi by the way.

"Yes, brother, let's sit here first." Xiao Zhou Lezi said.

"No need to send any drinks, I'm in a hurry, let's watch the car!"

After buying the car here, Brother Yu has to take her to see the house. It's best to get it all done today.

When the lazy cat hits the ground, he won't have much time.

"Okay, please, please." Xiao Zhou took the two to the booth.

Shown above is the Carmine Palamela GTS, and Xu Xixi walked around it with great interest.

"Sit in and try." Qin Yu said when he opened the door.

The interior is Bodor red, elegant and atmosphere, very suitable for girls' temperament.

Xu Xixi also likes it very much, but she also wants to see other colors, "Are there any cars in Ya Orange?"

"Yes, let's go to the back to see." Xiao Zhou took the two to the warehouse to see the car.

Ordinary brand warehouses, new cars will not be dealt with in time.

The cleaning will not start until someone buys it and the order is made.

Therefore, the warehouse was dirty and messy, mainly because the cleanliness of the car body was poor.

Naturally, customers will not be taken to the warehouse to select cars.

Luxury cars will be cleaned and maintained as soon as they are put into storage.

To ensure that the car is in good condition, the garage is also small and delicate, with simple whitewashing.

It can't be said to be magnificent, but it won't make people feel shabby.

Directly entering the warehouse to select a car, as long as it is a sincere customer, it is also negotiable.

Of course, the situation is different everywhere!

Some warehouses are far away due to site restrictions, and some are stored directly in port warehouses. There is no need to go back and forth 100 kilometers.

Compared with Carmine, Ya Orange is a bit more restrained and cute, and looks restrained and elegant.

There was no change in the interior, and Xu Xixi was moved.

"Just this one, when can I drive away?" Qin Yu said decisively.

"Brother, do you want to choose this one?" Xiao Zhou was happy and cautious at the same time.

If the business is settled, it depends on the final touch.

The selection of Porsche is really fragrant, and the sales commission mainly depends on this one.

So, whether you drink soup or meat today, it depends on the next one.

"Just follow the configuration of my previous car, the price!"

There are several basic configuration options.

Let Xu Xixi choose, and the results may not come out within a few hours.

Today, Brother Yu doesn't have so much time.

So I helped her decide and decided according to the configuration of the car before.

"Brother, let me do the calculations for you. We have a new model for the tail wing. Do you want to upgrade? And..."

Xiao Zhou lists the new configurations to see if he wants to upgrade.

Brother Yu's decision is also very simple, he will be promoted more handsome than the old one!

Finally, the total price of this Yacheng Palamela GTS is 2.56 million, which is 50,000 more expensive than Yuge's previous car.

"What about my RS7?" Xu Xixi, who got the new car contract, thought of the Audi RS7 that she had moved to Yaodu.

"If you don't move back anymore, you will definitely need a car in the store in the future." Qin Yu took the card handed by Xiao Zhou with both hands, stuffed it into the card holder and zipped it up.

"Ms. Qin, do you want to try another car here?" When the business was negotiated, Xiao Zhou gave him a strange signal.

Brother Yu is very familiar with this signal!

Before Zhang Yiyue, he also deepened contact with him in the same way.

Did all Porsche sales participate in the Queen's training course?

Glancing at her data, Yu Ge's uninterested heart became calmer.

It is not a question of freshness, none of the main dual attributes meet the standard.

Pity!

"I have something else, and the car is ready to contact Miss Xu directly."

After the two exchanged contact information, Brother Yu turned and left without any lingering.

Sister, the opportunity is given to you, you are useless!

Ascott, high-end serviced apartment on Huaihai Road.

This type of apartment is used for renting, in exchange for long-term benefits with high-quality services.

Ownership of the leased building is another considerable stable investment.

To meet business needs, but also to make high-quality investment, a radish is cut at both ends.

"The community provides 24-hour hot water, which is hot in 3 seconds."

"The constant temperature control makes you feel like spring breeze all year round. Our room service will meet any needs of residents."

"Security and privacy are our top priorities, and real-time monitoring can be seen everywhere in public areas.

The monitoring room is manned 24 hours a day to ensure that the safety of customers is effectively guaranteed! "

In the introduction of the other party, Qin Yu and Xu Xixi walked around the entire room.

The large flat floor of 400 square meters, both hard and soft are top-notch.

There are matching arts, crafts, furniture and decorations in the house.

The monthly rent is 100,000, and long-term rent can be discounted.

"How much discount can I get after signing for 10 years?" Brother Yu asked casually.

The little girl who brought them was stupid. After Xu Xixi gave a reminder, she hurriedly asked her superiors for instructions.

Eight hundred and eighty thousand, a year.

Eight hundred and eight million in ten years, more than sixty million in seventy years, a very cost-effective price.

The top level flat floor of 400 square meters on Huaihai Road can be bought at least over 100 million yuan.

More than eight million people live for ten years, which couldn't be more cost-effective.

But Xu Xixi felt a little bit painful, "The money is enough to buy a house in the outer ring."

"Signed." Brother Yu rubbed her head and handed the card to the staff.

In the thinking of the rich, it is effective investment that can generate benefits.

Does buying a house count?

Of course not, because you bought it to live.

Even if the investment is bought back and left empty, it is not considered an effective investment.

Because there is no turnover revenue, the high price is maintained solely by policy.

If one day falls, all your money will be lost.

Brother Yu just made an effective investment and used 8.8 million to settle a house worth over 100 million.

What investment is not good for the remaining money?

"Brother, let's go to the office to sign the contract. I'll let someone make the tea first."

The little girl took them back to the office with a smile, and the manager personally came forward to sign the contract.

Brother Yu was only responsible for swiping the card, and Xu Xixi was the one who signed.

She was checking the terms in the contract word by word, and Brother Yu didn't urge her, so she assumed it was to accompany her to study contract law.

See the regulations on the contract that Party A has the right to terminate the contract and notified in writing three months in advance.

Xu Xixi was a little worried, what if he suddenly stopped renting?

"It's okay to change another house. It's just a decoration and a different style. Isn't it good to always live in a new house?"

Seeing that the other party said this in front of his own face, the manager did not have the slightest embarrassment on his face, and confidently said: "Please don't worry, Miss Xu.

"Ascott is a global leader, with integrity and service as high-quality, unless major irresistible changes occur."

"Otherwise, what you are worried about will not happen. Our aim is to provide customers with the highest quality and satisfactory noble service."

Hearing what the other party said, Xu Xixi was a little embarrassed and made a big blush.

While turning his wrist, he signed his name on the contract.

Swipe the card, and 8.8 million went to the other party's account.

Then Yu Ge deposited another 1 million in the room account, ushering in to pay the corresponding miscellaneous expenses.

Like room service, entertainment, heating and cooling charges, etc...

"One million is too much, when will I finish it." Back upstairs, Xu Xixi said, looking at the house that was already 'belonging' to him.

"You can't finish it and spend it slowly. I'm afraid you are used to the service here and it's not enough."

From frugality to luxury, Xu Xixi is now standing at the door.

Top apartments, professional and high-quality services, and the surrounding environment will soon portray her into another image.

When she got used to all these changes, 1 million really didn't cost much!

"It seems that I want to earn money seriously so that I can support myself." When he came to the floor-to-ceiling window, he opened his arms and walked back.

The body sinks into the soft chaise longue, the blue sky is like washing, and the mood is as clear and clean as the sky.

Before it started, Xu Xixi was already enjoying it.

I don't know if it is her illusion, even the air is fresher and more fragrant than before.

"The air here is filtered and processed. The scent you smell is due to the aromatherapy,"

Brother Yu walked back and forth in the room as he spoke, and quickly stopped at the small round table next to the set sofa.

There is a delicate glazed lamp on it, with a bark-like thing inside.

"This, natural cinnamon can diffuse the fragrance very well." I picked it up and put it on the tip of my nose and smelled it.

Brother Yu definitely said: "Lily essential oil can calm the nerves and help sleep."

The details determine the depth, I don't know if this is the standard configuration, or only the top level flats have the treatment.

"So, money smells like air, is it true?" Xu Xixi looked at him jokingly.

In fact, there is a lot of emotion in his heart, these are sparse and common things for him.

In my opinion, it is so novel!

Cinnamon can diffuse the fragrance, and the essential oil can be used as an air flavoring agent.

Rent 880,000 a year = very cost-effective.

More than two million cars, just buy it...

Xu Xixi, who has been in a fascinating state all day, is thinking about what else he needs to adapt to as soon as possible.

Now that he really approached his life, Xu Xixi would not allow himself to fall behind again.

She has to adapt to all this as soon as possible.

This time, no one wants to let her get out of the car...

### **Chapter 1103: Don't let go for a lifetime**

At the airport, Brother Yu is here again.

It's just that this time he came by himself by bike.

Buzzing~

Put your feet on the ground, put down your feet, "The distinguished Ducati owner is online."

"Hiss~"

The trouser legs accidentally stuck to the exhaust pipe, Yu Ge grinned and jumped out of the car, failing to install X.

Looked around.

Um~

His own lazy cat has not arrived yet, it is not ashamed or ashamed.

"Hey, look at that man, he is so handsome."

"Wow, really handsome, who is the newcomer who hasn't made his debut?"

"It doesn't look like it, riding a motorcycle!"

"Can you stop talking like that, it sounds irritating."

"Go to die, if you want to show off, I will show up in front of the handsome guy... Look, look, oh my god~"

"Abdominal muscles, I see the abdominal muscles, oh this male dog waist, male god!"

"Go and ask for a number."

"Don't drag me, I'm not going, I'm going to you."

"I will go if I go."

The long-legged girl dressed in black came towards Yu Ge.

Just as Brother Yu was thinking about how to politely refuse, the other party turned sideways and walked straight beside him.

Then, trot all the way around a bend back to my girlfriend.

"Hahaha, persuaded it?" The girlfriend leaned forward and closed with a smile.

"Laugh, laugh... I'm embarrassed, you said he didn't find it?"

"The handsome guy didn't even look at you..."

Hearing is so good, it is difficult for Yu brother to ignore the joking conversation between the two.

Then, Brother Yu looked up at the exit with feeling.

A familiar figure walked through the automatic glass door. The little white shoes were covered with graffiti and white striped stockings.

A pair of white cropped trousers with a beige sweater on the inside and a white down jacket on the outside.

With the skin white as snow, from head to toe, it can be said to be white to the end.

Stretching his arms forward, as early as the first time he saw her, Qin Yu strode forward and took the initiative to meet her.

The luggage in his hand was left in place, and the lazy cat obediently threw his body into his embrace.

Smell the familiar taste.

In an instant, the lazy cat was like a small sailboat returning to the harbor, and he was at home!

Holding the lazy cat tightly, after a long time, Qin Yu smiled softly in her ear: "Tired?"

"Hmm!" Lazy Cat shook his head, looking up at him with crescent eyes.

Then, breaking away from his embrace, turning around him several times.

Brother Yu opened her hands and let her look at herself carefully, "How about it, I said it, it's really okay."

I confirmed with my own eyes that the lazy cat's heart was finally put back in his stomach.

"It's fine."

The lazy cat threw himself into her arms again and said happily, "I'm hungry and want to eat something delicious."

"Okay, let's go eat delicious food now."

She held her delicate little hand with one hand, and dragged the suitcase with the other.

Brother Yu took her straight to the locomotive on the side of the road, and the little girl's gossip sounded in his ears.

"Look, I just said that they have a girlfriend!"

"Hey, what's going on in this world? Why do handsome guys belong to other people."

"God, please give me a boyfriend!"

"Puff~ You might as well expect the national distribution to be more reliable..."

"Hey, look at her girlfriend, she's so good!"

"The two of them look really good, I'm sour."

First send your luggage to the Internet to make a car appointment, and confirm the address with the driver, "Master, someone will pick it up over there. These are the name and number, thanks."

"Row."

The driver looked back at the burgundy Ducati, raised his eyebrows and said, "Handsome guy, I've been very hardworking after the little girl."

"Yes." Brother Yu nodded with a smile.

"It must be a good girl who makes you bother so much."

"Yeah, she deserves more attention from me."

Qin Yu took out the spare helmet and handed it to Lazy Cat as he watched the car-hailing leave.

The big long legs straddled up, sat up to straighten the body, and said, "Wait, why don't you come up?"

Tilting his head and squinting, the lazy cat said sweetly: "Yes, sir!"

The body is clinging to his generous back, his hands are wrapped around his waist, and the battery is flying, but the lazy cat is not afraid at all.

The sweetness in her heart was overwhelming and she couldn't stop for a moment.

Benz all the way, waiting for Qin Yu to stop again.

Familiar paths, dim yellow leaves on the side of the street, and the school gate that has been gone for four years.

Time seems to go back six years ago.

"Lan Yue?" In the Mala Tang shop on the side of the road, the lady boss who was boiling the food was surprised.

"It's me, auntie."

Lazy Cat took off his helmet and laughed innocently: "You can recognize it this way?"

The proprietress said with great affection: "Other people can't remember, I can't remember the four of you, besides, there is still a handsome boy!"

Hearing what the boss said, Lazy Cat turned around and looked at Brother Yu with a smirk: "Little handsome guy, haha."

Brother Yu was speechless, looked at the two of them, and quietly took the basket to choose dishes.

This proprietress is not less toxic back then!

What little handsome guy, Brother Yu has nothing to do with 'little'.

A pot full of hot vegetables, covered with shrunken long strips of fish bubbles with wrinkled surfaces.

The proprietress deliberately added an extra portion to him, so that Brother Yu was very addicted to eating.

"Ah, ah~"

Lazy cat stuck out her tongue and fanned it with her hand, and sucked and said: "It's been a long time since I've eaten spicy, so spicy, so spicy!"

Take the soy milk on the table and fill her cup.

Without waiting for the lazy cat to pick it up, Brother Yu brought the cup to her mouth, "Hurry up and take two sips, be careful."

Qin Yu wanted her to drink more slowly, but Lazy Cat held the bottom of the cup with his hand and poured it violently.

After drinking in one breath, the lazy cat turned into a gluttonous cat.

There are milk stains on his mouth, but the cute and innocent look makes Yu Ge's heart soft and rippling.

"Look at you, drinking like a cat with a face."

Looking at her dotingly, Brother Yu wiped the corners of her mouth with his thumb.

Then he turned around and walked out, and when he came back, there was a small basin full of hot water in his hand.

"Rinse it before eating, it can reduce the spiciness!" Putting the water bowl in the middle, Qin Yu picked out her favorite dishes.

Rinse it in the water and immediately lose a lot of marked oil.

Then put it in the bowl in front of the lazy cat, "Eat quickly, it won't taste good when it's cold."

The lazy cat turned into a silly cat today. From the moment she walked out of the airport, she had never stopped laughing all the way.

"How can life be so happy?" The lazy cat with a fat face in his hands waited quietly for food, and his eyes never looked away from his face for a moment.

"Is there anything on my face?" Qin Yu asked amusedly after rolling a shabu-shabu chrysanthemum chrysanthemum into her mouth.

"Woo!" The lazy cat with crescent eyes smirked and shook his head.

"Then you look so long, is it good-looking?" Qin Yu joked.

"nice."

Lazy Cat nodded earnestly, grabbed his hand with a silly smile: "I can't see enough for a lifetime."

"Auntie, we're leaving." After eating and drinking, getting back into the car, Lazy Cat waved goodbye to the busy boss.

"Hey, be careful on the road and come back often when you have time." In the enthusiastic voice of the proprietress, Brother Yu waved the engine car.

Buzz, buzz~

Hong Ying drove forward, and the lady boss who looked around waited until she couldn't see the shadow, and then put down her nodded feet.

Looking back, he sighed dumbly: "You are young, so good!"

The lazy cat holding Qin Yu shouted: "Where to go next?"

"Just follow me."

The locomotive swiftly shuttled forward under the shining of neon lights.

When Lazy Cat saw the gate and landmark buildings ahead, he finally knew the destination of their trip. Disneyland.

The lazy cat sighed with emotion, and it was here that the villain took away his heart.

The bottom is back, and there is a feeling of indescribable.

What makes the lazy cat feel fortunate is that the only thing that is not is regret!

Even if she does it again, she won't regret it...

"Beautiful Ms. Lanyue, is it fortunate to invite you to visit Disney?"

Next to the locomotive, Gentleman Yu nodded and placed his right hand flat in front of her.

"Okay, Mr. Qin." Lazy Cat gave him his hand.

Eyes flowed, and he muttered to himself: "Don't let go for a lifetime!"

Taking her to stride forward, Brother Yu turned his head in vain and said, "In this life, in the next life, in the next life, you can't escape if you want to."

Bang, bang~

Standing on the castle terrace of the Disney Hotel, looking up at the gorgeous sky colored by fireworks.

The lazy cat fell softly into his chest behind him, whispering softly: "Hold me in."

\*

\*

When Brother Yu opened his eyes again, a heavy snow fluttered outside the window.

At that time, Yu Ge only thought he was dreaming, so he rubbed his eyes vigorously and looked out.

Yes, it is really snowing outside.

heavy snow!

"Lazy cat, Yueyue, it's snowing outside." Qin Yu said excitedly, pushing the lazy cat about to wake up.

"Huh?" The lazy cat was clever, and his sleepiness disappeared in an instant.

Sit up straight and look out, "Wow, it's really snow, haha..."

Jumping out of the bed and running to the window, the lazy cat opened the window to pick it up with his hand, and shouted excitedly: "Husband, it's so snowy, it's snowy outside."

"Hurry up and change your clothes, I'll take you out." Brother Yu responded with a smile.

"Okay, yeah, great." The lazy cat bounced to the bathroom.

No wonder they acted like they had never seen the world before, but the snow was really amazing.

Where is this?

This is Hudu, and it is snowing.

Down and down, it was still a heavy snowfall of goose feathers, and the whole outside became a world of white snow wrapped in silver.

It's incredible!

Since the heavy snow in 2008, Hudu has not snowed in nearly 20 years.

Today, I finally saw snow again.

Even if he was born in the northwest and was accustomed to seeing the snow, he felt incredible about the snow.

Humph!

Wearing a plush pajamas and a rabbit hat on his clothes, two lazy cats with rabbit ears jumping back and forth ran back.

"Are you all right? Hurry up, hurry up." The little feet wrapped in the cotton nest stepped in circles, and the lazy cat urged like a repeater.

"Come here." Picking up the jacket on the back of the sofa, Brother Yu quickly followed.

When we got downstairs, there were already snow-watching tourists outside.

"Wow, it's so beautiful. UU Reading [www.uukanshu.com](http://www.uukanshu.com)" Looking at the fairy tale world covered in white snowflakes, the lazy cat said with intoxication.

The next second, something hit his head.

"what!"

Looking back at Qin Yu who was rubbing the snowball smirky, the lazy cat stomped angrily and rushed up.

"Yeah, I'm fighting with you." Tie Han pinched the rabbit ear straps, and the lazy cat slammed him into the snow.

"Hahaha, do you know how good I am?" Lazy cat akimbo his hips, showing off with a big smile on his back.

The next moment, the whole person was pulled down by a force.

"Ah~"

"Bad guy, watch my little snowball attack."

"Your little snowball seems to be no match for my big snowball."

"Ah~Help! You're silly, you can't use such a big...ahhhhhhhhhhhhhhhhhhhhh."

The lazy cat hit by the snowball "meteorite" lay five-body on the soft snow.

When he raised his head, his bulging cheeks didn't have time to get angry, so he chuckles first.

"I'll take revenge, don't run away from the big bad guy." After rolling out a huge snowball, the two chased and played in the snow.

Forget about time and all your worries, and release the happiness of youth to your heart's content.

#### **Chapter 1104: Vacation**

Give all the work to others, and Yu Ge instructed the secretary office to cancel all the itinerary this week.

And he himself, this will be taking the four fairies on vacation on the yacht.

"This kind of life is enjoyment." A hundred nautical miles away from the mainland, Li Wanxing was lying on the sun-drenched deck.

Skin covered with essential oils is bright and reflective in the sun.

"I really want to stay here all the time." Jiang Xiaoshan took off her sunglasses, turned and walked into the awning.

Compared to the healthy skin of wheat, she prefers the look now.

The husband also liked her white and tender skin more, and always put it down and praised again and again.

"What about the two of them?" Li Wanxing asked lazily.

The sun was so mild that she was drowsy and weak even to speak.

Jiang Xiaoshan looked towards the stern of the boat, but did not see anyone, but heard the laughter of playing in the water: "I am having fun playing in the water!"

At the stern, Brother Yu was \*\*\*\* and was handling fish meat with a knife.

Wen Yaxuan and Lazy Cat are playing water polo in the water beside the deck.

Hearing the laughter of the two, Brother Yu couldn't help but smile, this simple happiness is even more precious.

"Qin Yu, Xuan Xuan bullied me." The lazy cat who lost lay on the edge of the deck, complaining to him with a dull mouth.

Throwing the ball onto the deck, Wen Yaxuan swam quietly behind her.

Pounced on Lazy Cat's back, "Let you file a complaint, come down!"

"Ah." She took the lazy cat into the water and choked several mouthfuls of sea water.

"Hate, help!" Lazy cat yelled and grabbed her.

Not to be outdone, Wen Yaxuan stretched out her hand to grab it, and said with a smirk: "Wow, the kitty has grown up again."

"You... hate it!" The lazy cat at this time is always clumsy.

Apart from disgusting and badass, she couldn't find any rebuttal words in her head.

But she didn't stop her hand, pulling Wen Yaxuan's shoulder strap to tear it hard.

Brother Yu smiled undiminished, handling fish meat on his hands, but his eyes never left the two of them.

Seeing cloth fragments appearing on the surface of the water, Brother Yu put down the knife dumbfounded.

Get to the edge of the deck, speed up and leap forward, diving into the water like a swordfish.

In the next second, most of Wen Yaxuan and Lan Yue, who were frolicking, jumped out of the water.

Brother Yu dragged his hands on the thighs of the two of them, and sat on his forearms on the back bridge, so that they were sent to the deck.

The swimsuit on his body disappeared without a trace after torn.

I don't know where to follow the waves, but the lazy cat who came ashore shyly put his hands on his chest.

As everyone knows, her pitiful and shy look is even more tempting!

Wen Yaxuan didn't get any better.

But in order to be better than the lazy cat, he straightened his chest and put on a fearless performance.

"My God, are you so open now?" Li Wanxing, who had just arrived from behind, took off her sunglasses and stared at Xuan Xuan with a full face of molesting.

His cheeks flushed, and his shoulders drew forward trying to hide his shyness.

In the next second, he was straight again, and said freely and easily: "Anyway, there are no outsiders, this is the most natural."

Listening to this Nizitou Tie's remarks, Li Wanxing's thumb bounced up: "Tie Tau baby just wants it!"

Turning her eyes to the lazy cat, Li Wanxing smirked and ran behind her.

Under the shy scream of the lazy cat, she pulled her hands apart, "Look at Xuan Xuan, you are not too bad, don't be shy!"

"Sister Xingxing, I hate it, it's such a shame, let go."

"No, you should bravely show your beauty, what you are afraid of, and won't eat you."

"Shanshan, help!"

Jiang Xiaoshan was speechless, but she didn't want to disturb everyone's interest.

Eyes flowed and looked at Qin Yu, and trot around behind Li Wanxing.

Grasping the hem and lifting it up, "Ah... Shanshan, you are dead."

"Haha, sister Wanxing is amazing."

"Shanshan is mighty...Run."

"Don't even try to run away. Watch me catch the dragon and tap the acupuncture points."

In front of the coffee table, watching the wonderful scene of the four women twisting into a ball.

Brother Yu opened his mouth wide, and the knife in his hand was about to fall.

In a blink of an eye, I laughed again. Hey, are you too defiant, when I don't exist?

The blue sea ran into the sky, and there were some waves on the calm sea surface inexplicably.

This change is very small, like a sudden wave, it is difficult to attract people's attention.

But Brother Yu, who was watching the chaos of the four women, stood up for the first time.

Staring into the distance, Brother Yu returned to the cabin calmly.

After a while, Qin Yu came out again with a water gun in his hand. '

There is a large oval water bottle at the top and rear end of the gun barrel, and the overall texture is also biased towards plastic.

But in fact, it is an advanced electromagnetic pulse gun.

"What is that, do you want to fight a water battle?" Seeing the water gun in his hand, Li Wanxing laughed and was about to take it away.

Avoiding her capture, Qin Yu explained with a smile: "This is not a toy, but a formal weapon developed by the company."

"Weapon?" The four fairies all gathered.

There is a revolving button on one side of the gun body, a frosted handrail under the barrel, and a large kettle at the back seems to have liquid flowing.

"There seems to be an electricity inside!" Wen Yaxuan exclaimed, putting her face on the 'kettle'.

She seemed to see the arc just now, and it disappeared for a moment.

"This weapon hasn't been tested yet, just bring it to try." Brother Yu stood on the edge of the deck while speaking.

Hold the armrest with one hand and the handle of the gun with the other.

Point the muzzle to the front at 11 o'clock, pull the trigger while pressing down.

call out-

The high-frequency waves are silent, and there doesn't seem to be any change on the sea surface.

The four fairies stared wide-eyed, waiting silly for the result.

"It seems useless?" Li Wanxing whispered weirdly.

I thought "He didn't make a mistake, nothing happened."

In the next second, the sea in front of him collapsed in vain, a large amount of white steam floated upward, and a ball of fire burned in the steam.

On the bottom of the sea, the distorted marine creatures twisted and struggled under the spontaneous combustion of the flames in the body, but they were unable to stop their steps toward death.

The picture remained for a few seconds before being submerged again by endless sea water.

Only four little fools with wide-eyed and wide-open mouths were left behind.

It seems that pollution has seeped into the ocean.

Qin Yu's heart is heavy, and the land of flesh and blood in the far north is far more serious than imagined.

If the pollution spreads further to the Arctic ice sheet, the entire ecology of the earth will be devastated.

"It looks good." Brother Yu turned to face the four fairies, but only saw the four turned into startled birds and scattered.

"Don't, you put the gun down first, let's talk about it." Li Wanxing said in a flustered expression.

Wen Yaxuan hid behind Jiang Xiaoshan with a look of fear, "It's so dangerous, take it quickly, take it away."

The lazy cat also had an uneasy expression, silent, colorless and invisible attacks, far more terrifying than the rain of guns and bullets seen on TV.

If you put it on the battlefield...

Seeing how worried a few people were, Brother Yu raised the muzzle up to the top amusedly, "Don't worry, it's safe."

Even so, the previous picture was still too shocking.

Brother Yu also knew that they would not be able to accept it for a while.

So he returned to the cabin decisively and locked it in the long suitcase.

"Starting at the Peak of Life"

#### **Chapter 1105: Ooh, more**

Huaihai Road, Ascott Apartment.

Xu Xixi is receiving old classmates in his new home.

When returned to Hudu, she contacted Yangyouyou and Zhang Xitong.

"Hashi, your house is really big."

After going around the room and visiting all the rooms, Zhang Xitong and Yang Youyou returned to the living room with emotion.

"It's quite big. When I live alone, I always feel like hiding from the bad guys." Xu Xixi threw the drink to the two of them.

"I said, you are too ordinary, and I also want to have delusions of persecution." Yang Youyou twisted the drink bottle and took a sip.

"Hey, listening to you say this, I really feel very lame, or let's live with you!" Zhang Xitong's eyes turned and joked.

"Yes, yes, good sisters must have blessings and share, and when there are difficulties, you will be yours." Yang Youyou quickly nodded in agreement.

"Get off." Xu Xixi rolled his eyes at them.

It means to understand it by myself. I really think that this house is what I can do.

The boss is here, you two can't give it away for nothing!

I will become sisters by then, and I will not be bullied to death by you.

Xu Xixi was suffering enough by himself, and it took six years to get a positive result.

Before you have time to experience the taste, you want to fight for favor?

"mean."

Yang Pomelo stuck out his tongue, and asked curiously: "By the way, what about your family, leave you here?"

"Millions of dollars per minute, do you think you have it at home every day?" Xu Xixi retorted.

"Too."

Zhang Xitong said with emotion: "My boyfriend, he didn't make much money, he was like a big yellow dog in a busy day."

"Now the workplace is getting more and more volume." Yang Youyou is quite emotional.

When I really entered the society, I realized that the word life is too heavy, and people who are under pressure can't breathe.

did not dare to ask for leave, did not dare to get sick, did not dare to be unemployed.

The great grievance, only to cry secretly when alone at night.

When calling to inquire at home, he still insisted on smiling and replied, "Dad and Mom, they are all fine."

"Every time I say this, I want to cry, okay, what is it?" Yang Youyou said with red eyes.

"Then you don't want to go back to your hometown." Zhang Xitong vomited.

"What about you? Would you like to return?" Yang Youyou asked rhetorically, leaving her speechless.

I have seen a colorful world, who can calm down and guard himself.

Not long after graduating, she called from home and asked her to go back to the career editor.

4,000 yuan a month, five insurances and one gold deduction, there is about 3,000 yuan, the house has ready-made, and then buy a car.

Then, she can already see her future.

Waiting for the family to arrange a blind date, or to meet a man similar to him.

Get married, have children, and run around for three meals a day, until the old man becomes yellow, and his life is broken.

The joyous tone of the family was extremely ironic in Zhang Xitong's ears.

The so-called 'stability,' a life that can be seen at a glance, is like a nightmare that makes Zhang Xitong fear and disgust.

Seeing her look downcast and not speaking, Yang Youyou pouted her lips and said: "This is not enough, even if you have a hard time here, there is at least hope."

"Go back, comfort is comfort, reconciled?"

Are you willing?

Naturally, I was not reconciled. I went to school for 20 years.

In the end, just to go back to the hometown to get three or four thousand dead wages, eat and wait for death?

"It's alright, let alone these unhappy ones." Seeing that the atmosphere was a little dull, Xu Xixi interrupted quickly.

"Little J, play the latest dance music." Xu Xixi shouted into the kitchen.

"Look for an external device...connected...start playing." The sound of electronic synthesis sounded, and the sound of mechanical friction was transmitted to the ears.

"Wow, the household robot J?" Yang Youyou hurried to the robot, screaming frequently and asking about its origin.

"Qin Yu was sent by someone." Xu Xixi explained with a smile.

Zhang Xitong, who was sitting next to her, turned her head, looked at her and said, "Xi Xi, now I am really envious."

"Don't be envious, aren't you pretty good too?"

I heard from her earlier that she had been talking with her boyfriend for several years.

Although it hasn't stabilized yet, the boy is really nice to her.

has a good temper and a good personality, and his income is also increasing. Now I can earn 16,000 per month.

Among people of the same age, it can't be compared with a good mix, but it's okay.

"And you?"

Zhang Xitong asked suddenly: "If there is such a boy chasing you, would you still choose him?"

Xu Xixi's smile solidified, and he lowered his head without answering.

She didn't want to answer this question, because no matter how she answered, it would hurt Tong Tong's feelings.

"It doesn't seem to be anymore." Zhang Xitong got the answer from her silence, but she wanted to know why.

"If there is a man with a common background, who is obedient to you, and single-minded, would you still choose him?"

Blurred the question, Zhang Xitong no longer used herself as an example, and wanted to hear her answer.

Seeing her persistence, Xu Xixi dialed her bangs and said with a smile: "Where is such a boy chasing me."

Zhang Xitong chased after him and asked, "What if there is it?"

Seeing her swearing to give up if she didn't achieve her goal, Xu Xixi dialed her bangs, and responded calmly as possible: "Probably, not at all!"

"why?"

Seeing the struggle in her eyes, Xu Xixi sighed, "Because he probably has nothing but love me!"

Click~

Zhang Xitong seemed to hear the cracks in his heart, and even the Yang Youyou who had lost interest in Xiao J stopped.

Why have long learned and knowledge told myself that this sentence is wrong.

can be rational and realistic, but let the inner scales fall resolutely.

Seeing the dumbfounded two people, Xu Xixi sighed secretly, knowing it would be like this.

"Little J, turn up the volume."

reached out and pulled Zhang Xitong up, who was sitting still, Xu Xixi shouted: "Don't think about it, dance!"

Pointed to the ground, shook his head and waved his hands freely, swaying the extra experience.

Zhang Xitong and Yang Youyou were also forced to join in by her.

Previously, he just shook his body mechanically, slowly becoming stronger and stronger.

Until I used all my strength, I swayed desperately.

The eye sockets were red, and the crystal drops of water swayed freely in the swing, I don't know if it was sweat or tears.

\*

\*

Rhapsody Paradise, five people huddled together on the arc-shaped sofa.

was covered with a blanket, and together looked up at the last ray of light that submerged into the horizon.

"Too shocking." Li Wanxing muttered reluctantly.

The sky and the sea line, the sun is falling down.

The last afterglow, like a drumstick beating \*\*\*\* the heart.

can't tell why, but even the soul trembles.

"Nature's supernatural craftsmanship is beyond the reach of manpower." Jiang Xiaoshan pulled up the blanket.

Lazy Cat lay in Qin Yu's arms drunkenly, arching his head without saying a word.

Gululu~

Just when everyone was shocked by the beauty, a strange sound sounded.

cast her eyes neatly to the left, Wen Yaxuan smiled sullenly, rubbed her stomach and said grimly: "I... hungry!"

All the emotions and artistic conceptions were shattered into slag, "Ah~ finally put it on, Xuan Xuan, \*\*\*\* it!"

Li Wanxing ran away on the spot and was about to tickle her.

Seeing her smirk, she might have to catch two more to be enjoyable.

"Ah~"

Fortunately, Wen Yaxuan was prepared for a long time, sprinting + flashing, and perfectly avoided her claws.

The serene and tranquil atmosphere suddenly became lively again.

A few minutes later, the smoke filled with fireworks floated to the sky.

Brother Yu was naked, standing barefoot in front of the grill and spinning the squid skewers on it.

There are three thick-fingered squid whiskers on the forelegs, which looks a little scary, and the suckers on them are almost palm-sized.

"Hey, I don't want to eat these." The lazy cat stuck out his tongue cutely and ran away.

She would rather go to eat grass than touch those squids, or kill them.

A handful of peppers and a handful of cumin.

After roasting, place it on an iron plate, sauté the frothed onion, stir-fry it over the fire, and then add the squid whiskers.

Use scissors to cut them to the size of your fingers, and add a layer of sauce.

Zizizi~

The oil blossoms splashed all over, the fragrance filled, and the sound of "gudong" swallowing came from my ears.

looked sideways, Wen Yaxuan stared straight at the fried squid whiskers on the iron plate.

My mouth keeps chirping, the saliva is about to drain.

The little hand uncontrollably lifts, falls, lifts, falls...

Seeing that she was about to grab it with her hands, Yu brother, dumbfounded, tied a bamboo stick with the prepared bamboo stick.

"Thank you, muma~" Before Qin Yu could speak, Wen Yaxuan snatched the lottery from his hand, kissed her cheek perfunctorily and quickly ran away.

"Ah, ah, s~ah, it's hot..." Wen Yaxuan raised her head, her mouth squirming and fanning her hand inward.

But I didn't want to give up the food in my mouth. My wife was so delicious.

"It smells so good!" Li Wanxing and Jiang Xiaoshan also ran over, surrounding him and asking for food.

"Hey!" He divided the two strings that had just been worn between them, and ran away happily.

Sliding, the slitting voice is endless!

A lazy cat sitting at the small table and eating a vegetable salad alone.

Look at them, they seem to be really delicious.

The leaves of the vegetables in my mouth no longer fragrant in a moment...

But, everyone said not to eat.

hum~

They must be deliberately greedy me, not fragrant, not fragrant!

"Gudong."

Throat surged, the lazy cat pouted aggrievedly, and whispered "Don't eat, don't eat..."

There is a flower in front of her eyes, and a bunch of green onions and white sesame seeds are sprinkled, and the fragrant squid stands in front of her.

The fragrance from above can make the children in my old building cry.

"Little princess, do you want to try my craft and give some advice?" Qin Yu leaned over with a grin.

The lazy cat pursed her mouth, covering her mouth uncontrollably, Tsundere raised her head and said, "I want to try the dishes for you, I don't want to eat it!"

"Yes, yes, I don't want to eat my cat." Qin Yu touched her head fondly.

squinted and smiled, the lazy cat opened her mouth and bit her tentacles, "sucking~"

crunch~

The more you chew, the brighter the light in the lazy cat's eyes, and the popping fragrance echoes between his mouth.

Then, before Qin Yu took the initiative to deliver it, she had already grabbed the sign.

"Ahhhhhhhh~" Like a greedy kitten, he opened his mouth to bite off the tentacles on it.

Lazy Cat raised his head happily and said, "Woo, good time, more."

### **Chapter 1106: Unexpected termination**

Brother Yu lived a happy life like a fairy on the sea.

But the outside world will not stop because of his stopping, and the North Continent is full of gunpowder, and the fight is hard to separate.

The human head was beaten into a dog's head, and the twisted flesh was torn alive, leaving only the core 'distorted flesh' to be sealed and boxed.

The resources of war preparations flowed continuously to the frontline battlefield, bringing back a large amount of loot and invisible corpses.

This is already considered good, most people didn't even leave the body.

What the distortion body does not understand is respect, for it enemy = food.

Fighting is to eat, swallow food, and become stronger.

It's just that, I didn't expect that Fort Dekker would hide another 'distortion manipulator.'

Upon learning of this, Shi Cui wanted to apply to go to Beizhou again.

It's a pity that he has not had time to act.

Jingyuan stepped on the speeding car to the Beizhou laboratory and threw him in the hive incompetent furious.

There is Jingyuan, whether it is Zhu Ying or Watson.

or the boss himself, it is impossible to approve his application.

pity...

He also wants to go to the battlefield to pick up more flesh and blood tissues for experiments.

As a scientist, it's normal to find more 'specimen' for experiments, right?

At the same time, the public opinion war between Miracle and Penguin has also entered a white-hot stage.

Various rumors are everywhere, and the people watching are dazzled.

In the end, even the netizens lost their interest. Seeing the shocked body with the keyword 'miracle', I just walked away and ignored it!

Mouth cannon is so long, there is nothing practical.

On the contrary, it is a miracle that a variety of black technology products, such as speed cars, household robots, and personal terminals, have emerged every three times.

Although it has not yet been fully popularized, at least people have made innovation and progress.

Looking back at Penguins, they also need to 'copy' and paste them.'

Spend money on acquisitions if they are uncertain, and block them if they don't.

Isn't it disgusting to be the third child of decades?

Ordinary people seem to be so naturally. At the beginning, Brother Yu also felt that the penguin's three-handedness was extremely disgusting.

But now...

Penguin is just taking the old road of capital, not more noble than anyone else, not more despicable than anyone else.

is just a dominant family, and the limelight is too much.

will inevitably become a thorn in the eyes and a thorn in the flesh of others.

Nowadays, the struggle between penguins and miracles is a fate that penguins have been avoiding, but can't hide.

The market is so big, newcomers have to get ahead, old people will not let it.

If you don't let it go, you have to fight, you have to fight!

The terminal is the newcomer, and the penguin is the old man.

The dispute between the two parties has nothing to do with personal affair, personal grievances.

is only about the profit and loss, the natural cycle of the old and the new.

Maybe one day, miracles will be banned by others!

But, I'm afraid the penguin won't be seen this day...

Personal terminals are on sale soon, and overwhelming propaganda has spread all over the land of the Republic.

, together with overseas are also paying attention to the release of information known as the "first fully intelligent personal mobile terminal in human history".

On the official website, the disclosure of any new information will cause an uproar.

Even if it has nothing to do with the function of the terminal, it's just the small details such as the size and the selection of the chain.

has also been explained over and over by countless UP owners, as if a small chain contains countless black technologies that humans cannot understand.

Actually, it's just a plastic chain strap!

Conjectures about the price of personal terminals, from over 100,000 at the beginning, to hundreds of thousands, to tens of thousands...

The ups and downs trend is even more mysterious than the A version of the monster stocks.

But so far, Miracle Company has not made any public announcement on this.

It seems that the disturbance from the outside world has no influence on the company's decision-making.

While mourning on the Internet, it feels normal.

The decision of Miracle Company has never been influenced by outside speech and environment.

Wanting to use online comments to influence terminal pricing is simply outrageous!

However, the majority of netizens still hope that the company can set the price lower.

If a personal terminal, it eventually becomes a symbol of the rich.

For the supporters who have always supported miracles and advertised them as national pride and conscience.

is undoubtedly a great irony...

It's not surprising that the powder turns black.

On the sea, Jiang Xiaoshan, who had been swimming in the water for half an hour, climbed ashore and sat next to Qin Yu wrapped in a towel.

"Why don't you swim?" Qin Yu asked curiously, watching the other three daughters playing in the water.

"I don't want to swim anymore, talk with you."

Seeing them having fun, no one pays attention to herself, Jiang Xiaoshan gently rests her head on his shoulder.

"I heard from the Internet that the terminal is about to be released?" Jiang Xiaoshan was also curious about the price of the terminal.

Although its function is simple, its performance is too powerful.

Waterproof, anti-aging, and dustproof, these are the most basic.

In terms of signal, Jiang Xiaoshan hasn't found it has a bad signal until now.

Moreover, the projection is not affected by any environment.

Or in other words, the environment she is in does not affect the projection signal.

"The terminal was developed for the interstellar era. If there is a bad signal on the earth, it will be a failure."

Hearing Qin Yu's explanation with a chuckle, Jiang Xiaoshan's eyes showed a look of worship again.

This man always brings shocks again and again, when someone thinks this is his limit.

The limit was once again broken by his own hands, and everyone was shocked.

Until now, I am afraid that no matter what amazing actions he makes, no one will be surprised.

instead, there will be a numb feeling of 'Oh, Qin Yu, Miracle Company, that's all right'.

Creating miracles, isn't it a basic exercise for him?

"The wind is blowing." Just as Jiang Xiaoshan was so emotional, Qin Yu suddenly got up and walked into the cabin.

When he came out again, the missing weapon was held in his hands again.

"What's wrong?" Jiang Xiaoshan asked nervously.

This is the fourth time he tested the weapon's data, even if he doesn't understand the situation anymore.

Jiang Xiaoshan also knew that something must have happened before he would use the 'test' as an excuse.

"A little cutie came, I have to dismiss it first." The tone was relaxed and smiled.

Qin Yu came to the left side of the deck with the gun in one hand, and turned the \*\*\*\* on the gun clockwise with his left hand.

Kilometers away, a big octopus covered in tiny flesh is waving its deformed tentacles.

Driven by countless little tentacles, he swam towards the direction of Rhapsody Paradise.

During the period of , the marine life passing by it will be struck to death by the sudden growth of flesh.

Pulled to the surface of the octopus, squeezed by more fleshy touch.

Under the squeeze of a huge force.

Bang~

The body turned into a blood mist, and countless flesh touched the front open small mouths, and instantly sucked all the blood mist.

The breath of the big octopus is getting stronger every minute.

At this moment, the invisible high-frequency electromagnetic hit the big octopus.

The swaying tentacles came to a halt, rippling with the waves of the sea.

A few seconds later, the inside of the big octopus seemed to be lit by a fire candle.

Boom!

In the muffled sound, a blood hole exploded on the surface of the octopus.

The blood hole occupies one-third of its body surface, but no blood flows out.

The severe pain caused the frozen octopus to regain its action, violently twisting and disturbing the sea around him.

On the surface of the sea, vortices are formed during the agitation.

On the intact surface of the octopus, the twitching flesh touch frantically rushed to the blood hole, filling it like countless maggots.

Then, the broken body seemed to be nourished, and the blood pores were a little fuller.

On the deck, the corner of Yu Ge's mouth, who had a panoramic view of everything, raised: "I still want to struggle."

Turn up the power again to lock the position of the octopus.

hum, hum!

After two consecutive attacks, the sea exploded instantly.

The splashing blood formed a column of water, which exploded outward along with the dry and shattered flesh and blood.

After the explosion like a flower, everything was calm again.

The four fairies who can catch this scene are unwilling to go into the water anymore.

"It seems that this yachting trip can only end here."

Brother Yu picked up the walkie-talkie with some regrets and ordered to return home.

"What the \*\*\*\* is that?" Li Wanxing shuddered in fear after wrapped in a towel.

The gushing red pillar of blood created an unforgettable impression in her mind.

I believe that for a long time to come, she will be full of resistance and fear of water.

"It's nothing, it's just a big octopus, a giant octopus, I think it's too big and dangerous..."

Qin Yu opened the terminal and released the relevant reports about the giant octopus he found.

Although its appearance is still odious, it can be compared to the truth.

Naturally bred creatures, it is easier for people to accept its existence.

At least, Li Wanxing won't let Li Wanxing dare not take a bath in the bathtub in the next few months.

Seeing the news that someone had discovered a giant octopus 21 feet long, 7 feet wide, and weighing 7 tons, the four immortal women were all stupid.

This news, is it fake?

"Because of the long time, it has not been confirmed." Qin Yu explained with a smile.

"It must be fake. It is 7 tons and weighs five cars. UU reading [www.uukānshu.com](http://www.uukānshu.com)" Li Wanxing muttered, "If it is true, it would be terrible."

"It's not like it is in the movie, it can drag all the boats into the water."

Jiang Xiaoshan remembered the movies she had watched, which contained octopuses that could \*\*\*\* people into their tentacles, but she had the biggest nightmare when she was a child.

"Qin Yu, how big is the octopus you saw just now? Is it bigger than the one we ate that day?" Li Wanxing asked.

"No way, the octopus was already very big that day." Lazy cat was surprised.

"Gudong~" Wen Yaxuan swallowed her cigarette, and she was greedy again.

Facing the curious gazes of several people, Qin Yu thought for a while and smiled: "A little bit bigger than that day."

"I was going to kill the one and bring it back, but I accidentally blown it up."

"Hey, what a pity!"

"It's so big, the tentacles must be terrible, so I don't want to eat... grumble."

"Lazy cat, you swallowed."

"Where is... I'm tired, I'm going to sleep."

"Don't run, you greedy cat don't admit it yet."

"Ah, don't catch it, it hurts..."

"Yueyue, are you going to grow up again?"

"Wow, Yueyue is amazing!"

"No, don't talk nonsense, I don't have one."

"Let me see it."

"Ah~ Shanshan, help."

Rhapsody Paradise cut through the sea and headed to the coast amidst jubilant laughter.

**Chapter 1107:**

In a blink of an eye, time passed quietly.

It's the day when the lazy cat is leaving again, and the little girl is lying in his arms with a face full of dismay, "I don't want to go..."

"Then don't go." Brother Yu smirked.

looked up at him with enthusiasm, and the lazy cat bit his shoulder.

opened his mouth to find a suitable place, but couldn't bear to slurp.

raised his pink fist angrily, and patted him lightly on his chest, "Big villain."

Brother Yu smiled and said, "Is the next performance in Jiao'ao?"

"Hmm." The little girl nodded in response.

"I want to see, but what should I do if I don't have a ticket?" Brother Yu said very distressed.

The Lazy Cat looked up in shock, his eyes widened and turned into crescent moons in the next second, "I'll give it to you!"

Seeing that she was about to call Zhou Xue on the spot, it was useless for Brother Yu to dissuade him, so he could only helplessly hold her in his arms again.

This girl is so inviting!

got three e-tickets and watched Lazy Cat board the plane.

Until the plane took off, Brother Yu stepped onto the locomotive and left.

\*

\*

Beizhou, the powerful [Titan] pushes everything with brutal firepower.

The conventional mechanical units sent by the White House are like weak ants in front of [Titan].

The power of the main battle tank, even the armor of [Titan] cannot be torn.

Then, the mechanical unit that was attacked by electromagnetic pulses became a living target.

In all battlefields where there is a [Titan] line-up, the mechanical unit not only can't provide assistance, but it becomes a burden.

For a time, the White House was beaten back, and it was not until the Aberration Corps appeared that the situation was barely suppressed.

But it is limited to this, thanks to [Titan] huge body structure and hard armor.

Miracle puts a large amount of silver ink in the armor, which can completely resist radiation pollution.

Except for the mutators with all kinds of abilities, few people can hurt [Titan], let alone the driver inside.

This also makes the forces of various countries who watch the battle more eager for those who change.

Without radiation pollution, the aberration is like a brainless beast, losing its sharp fangs and claws.

The so-called attack also seemed awkward!

In comparison, the abnormal person who has independent thinking, understands the tactics and cooperates has more potential.

Morgan Los Angeles also sent a large number of mutants to squeeze the living space of the White House.

The White House, which was in a deadlock, struggled weakly under the attack of both sides.

sent people to negotiate with the two parties while exposing all his backhands, trying to reverse the decadence.

It can be regarded as 20 brand-new [Titan] mechas produced by Titan Heavy Industries.

In the huge mecha platform, hundreds of brand new [Titans] are parked in the card slot.

They have completed the final inspection, but they lack a sufficient number of drivers.

Only genetic warriors who have undergone modification can bear the burden and pressure of driving [Titan].

either mentally or physically.

However, there is one more thing that bothers the newly established Titan Heavy Industries.

The minerals needed for production are becoming increasingly scarce.

Not only it, but also Vulcan.

The constant production of King Kong-class cruisers and various mechas consume massive mineral reserves.

There is also the synthesis of titanium rhodium alloy, which also requires huge mineral support.

Had it not been for the support of the court, Vulcan would have stopped working.

Judging from the amount of consumption like this, the imperial court's reserves will not last long.

The company needs to find new sources of minerals to fill the continuous consumption of its subsidiaries.

"Suspend the assaulter production line, Xingtian's annual output is halved... Titan shut down and focus on the upgrade and improvement of the mecha."

"To ensure the production of Vulcan, the fleet is the future."

Yu Ge's instructions on this made the people below greatly dissatisfied.

According to his instructions, the Titans almost stopped work, and they all switched to research.

What about the workers' work, the production line just left there idle?

In their opinion, the production of speed cars should be stopped.

But the order has been issued, no matter how dissatisfied, I can only temporarily shift the focus.

The workers who belonged to the Titans began to transfer to Vulcan and Speed.

The good news is that Vulcan's fleet carries a large number of robots to find the necessary supplies in the galaxy.

Copper, iron, lithium, silver and other minerals will be transported back to earth by spacecraft.

However, to ensure production at this stage, it is still necessary to find alternative mineral sources.

Brother Yu set his sights on the continent of Nico, where there are a lot of resources they need.

The company is mainly based on the marketing department and sends a delegation, which will be escorted to the mainland of Nico by the RRT team and [Assaulters].

Since the bald eagle fell into chaos, the corrupt nation has begun to strengthen its control over the continent of Nico.

A large number of British capital poured into this continent, which was once controlled by its colonies and still has a strong influence today.

The development of the Republic has been so far away from the outside world for a century.

Now I have finally encountered a problem, which can suppress the opponent's development speed and give the corrupt country a chance to catch up.

How could they easily let go and give the minerals to the company.

Technology authorization, foundry, contact one by one, and the British representatives opened their mouths.

I want the innovative technology and production line that the company has mastered.

Especially for the battleship, if the opponent is dead, he is not trying to force it, but a friendly cooperative posture.

"The universe is vast and wireless, and a republic cannot occupy all of it. We can give up the exploration of Hanoi, as long as you are willing to transfer the relevant production technology..."

"Sorry, this is the company's top secret, we cannot agree to your request."

"Even if you agree, our court will not open the right to export."

"We can exchange 50 rich mines and 200 medium-production mines."

"As for the restriction order, we will negotiate with your court."

"The Republic and the corrupt country have always maintained good diplomatic relations. I believe we will definitely find a solution."

After several negotiations, the other side still focused on the production technology of the battleship.

Moreover, this time the British capital showed a lot of unity.

was employed by the company's lobbyist team, and the response was not ideal, "They are prepared for everything and are determined to acquire spacecraft technology."

"If an agreement cannot be reached, the other party will never let go or give up holding minerals."

Under the fact that no progress could be made, the delegation reported the problem back to the headquarters, and finally appeared in front of Yuge.

Qin Yu, who was eating at Teacher Shen's house, received a communication application from Xu Meixin.

"It should be the company's business, I'll go out to pick it up." After speaking to Shen Bing and Zhu Ying, Brother Yu walked to the courtyard outside the house.

"Secretary Xu."

"Boss, the delegation to Nico has sent back news that the plan to purchase mineral assets has encountered great resistance."

Paraphrasing the other party's conditions, Xu Meixin continued: "Moreover, the other party requires the company to open the evil demon port to the corrupt country."

"Oh, they are not afraid of me doing tricks." Qin Yu laughed dumbly, not only should they be brave, but ignorant.

### **Chapter 1108: This bone, is it serious?**

In the room on the second floor, Qin Yu turned on the conference mode.

One by one executives went online, and Brother Yu smiled and nodded to everyone.

"Dong Qin, is it because of mineral resources that he suddenly called an executive meeting?" Bai Ze walked toward the center.

Because of the limited space, the projection is a bit dense.

Only when you get to the middle can you get everyone's attention and express your own opinions.

"British capital wants spacecraft technology." Qin Yu.

"If you want to be beautiful, why doesn't it want to go to heaven?" Xu Hao.

"He just wants to go to heaven." Bai Ze said with a smile.

"The other party's attitude is very tough, making it clear that you don't give up if you don't achieve the goal!" Su Shu.

As the head of the marketing department, this time he led the team to the mainland of Nico to negotiate with the British capital.

As a party, what is the situation on the scene and the other party's attitude.

No one knows better than him.

"Then give it to him." Wang Zhe said suddenly.

Everyone looked at him, "Give it to him?"

turned his attention to Bai Ze, which is not only about the company's decision-making.

Lao Bai and the people behind him, can you agree?

"The Republic has always adhered to the core concept of peaceful development, and corrupt countries have no intention of provocation.

is nothing more than doing small movements behind the back, it doesn't hurt your majesty! "

"What's more, even if it is kept secret, under the stimulation of the Republic, the other party will try its best to conquer related technologies."

"The rest let them go out of their own way, it is better to give the other party ready-made products to stifle their creativity.

Let it go down the road of the company, I don't believe it can achieve overtake. "

After listening to Wang Zhe's reasons, everyone nodded in agreement.

Under the pressure of the Republic, countries have invested astronomical numbers in the field of spaceflight.

did not make a breakthrough before, one is that there are too many difficulties, and they cannot unite and cooperate with each other, and the other is that the cost is considered.

It is a matter of life and death, massive resources and capital investment.

It is really not difficult to gather the power of the country!

In fact, the rotten country has found its way and is trying its best to overcome difficulties.

Success is sooner or later.

Instead of letting it go out of its own way, it's better to let it pick up its teeth behind the back.

"I agree with Mr. Wang's views." Qin Yu stated.

Disclosing spacecraft manufacturing technology to the public was originally a link in the plan.

It's just a bit earlier than planned.

But this way, it can spread a lot of pressure on the Republic and the company.

There is a huge difference between the only one and the only two.

"Old Bai, what do you say?" Xu Hao looked at Bai Ze with a grin.

It is not a day or two that everyone knows each other. All departments have dealt with Bai Ze, but Qin Yu is not the only one.

called Lao Bai, who, as Xu Hao, respected him more personally.

'I, what can I say.'

Bai Ze spread both hands and laughed at himself: "I'm just a microphone, you can discuss and decide first."

Bai Ze's attitude is clear, and everyone has a bottom.

This means that he personally has no objection to this decision.

But in the end, it depends on the meaning of the above, as Bai Ze said, he is just a 'passing microphone.'

But everyone present knows that the microphone has the ability to pass the microphone.

must be the original words!

But these words... plus a few sentences are good or bad.

It depends on what "Pass Microphone" thinks...

As a bridge between the imperial court and the miracle, what Bai Ze said still had some weight.

"Then...Shall we pack and sell?" Xu Hao asked with frowning.

He personally disagrees with packaging, and it's not that he can't sell it for promotional gift packages.

open and sell, to reflect all the value!

In the case of engines, the value of this item alone is immeasurable.

Use helium 3 as raw material, non-radiation controllable cold nuclear fusion engine.

—Please bid!

, the people of rotten country are stupid.

Safe, no radiation, low energy consumption, low pollution, what would you bid for?

"As for the engine, I think we can take a moment and give them the obsolete old-fashioned technology." Su Shu suggested.

"Controllable nuclear fusion?" Xu Hao nodded in approval.

then turned his gaze to Qin Yu, and he had to make up his mind in the end.

Qin Yu didn't nod, it was useless for them to discuss for three days and three nights.

"Yes," Yu Ge said flatly.

"Then...what about weapons?"

This time, Bai Ze had something to say, rushing to speak in front of everyone: "This is not good, all have to be dismantled, only the hull can be sold."

No one was surprised at this.

The "super-heavy railgun" carried on the King Kong-class cruiser is a big killer that can change the international situation and international status.

Although it is not a standard weapon, each ship has equipment.

The automated cannon mounted on it is equally lethal.

More importantly, the design of these cannons and related technologies will be succeeded by corrupt nations.

Its research in the field of machine guns can reduce at least 20 years of hard work.

One item of detail is the result of a dispute with each other, the only thing to do is to control the driving...

"Without system support, it is scrap metal lying on the ground."

"Give it the system, can it dare to use it?"

"Hey, a few, a few, don't fight for now."

Interrupting everyone's dispute, Wang Zhe said to Qin Yu: "Boss, should I ask what the other party means?"

Dare to use it, what's the use of guessing here?

You have to ask the person opposite to know.

"Yeah." Qin Yu agreed.

But he did not rush to dissolve the meeting, "Since they are bound to get it, is our asking price too low?"

Wang Zhe was taken aback, then laughed and said: "Understood, boss, you just wait for the good news from me!"

"Okay, then do this first." Signaling everyone can go offline.

Qin Yu waved his hand to Bai Ze and said, "Old Bai, waiting for your news!"

"Fuck off, where are you going to beg Huazi?" Bai Ze cursed badly, and his figure disappeared in place.

After Qin Yu was the only one left in the room, he opened the door and went downstairs.

Zhu Ying and Teacher Shen have already eaten, the food on the table is holding the bowl, afraid of the cold!

Hearing the sound of footsteps, Shen Bing, who was in the living room, got up and walked over: "I'll warm you up."

Qin Yu smiled and said: "No, there is still heat!"

Shen Bing didn't say anything, rolling up his sleeves swiftly and going to the kitchen.

The wrist is as thin as a lotus knot, but he grabbed it.

looked at the living room with flustered eyes, Shen Bing whispered: "Don't make trouble."

"Who is making trouble?"

Brother Yu stared, "I said it doesn't need to be used, Dr. Zhu is waiting!"

leaned back and looked at her waist. Brother Yu didn't feel good and said: "The waist hurts again, isn't it?"

"No."

Shen Bing stood there, biting her lower lip helplessly: "It's just a bit sour, the weather has been too cold recently."

"Where is the heated waist protector I bought for you?" Qin Yu raised his brows, "Bring it with you when you go out."

Hearing his aggravated tone, Shen Bing shrank his neck slightly.

aggrievedly replied, "Wearing waist is thick."

"As long as I don't dislike it, what does it matter whether it is rough or not?" Shen Bing couldn't answer.

...It seems, there is nothing wrong with it!

drove Shen Bing back to the living room, Yu Ge took a slightly cold meal, and the wind swept away.

Seeing the table full of CDs, he said with satisfaction: "Little J."

The domestic robot J comes on the field, and a flat tray is extended forward from the abdomen, which is the position below the power source.

All the dishes and chopsticks are stacked neatly on top, and then they are sent to the kitchen sink.

In less than 5 minutes, Jr. completed the sanitation.

The multifunctional arm that can stretch freely makes it handy in the kitchen.

After all, in such a big place, what you do will be done as soon as you 'reach out' your hand.

Seeing that it is so efficient, it cleans up a pleasing picture.

Brother Yu suddenly realized that the basic version of UU reading [www.uukanshu.com](http://www.uukanshu.com) is 280,000, is it selling cheaply? ?

People are satisfied when they are full.

patted his stomach—well, the abdominal muscles are still there.

Brother Yu walked to the living room with a chic step~

There was no one on the sofa, but Shen Bing's door opened a little.

There is nothing left or right, Brother Yu plans to go up and see Dr. Zhu's craftsmanship.

He is also very tired this day, and there is no rest time from morning to night.

The bones should also relax.

Or, when it's over, let her press it for herself?

Standing at the door, Brother Yu knocked on the door, "Doctor Zhu."

waited for a few seconds, but there was no echo inside.

Brother Yu was about to open the door to see what happened, when the door was pulled open from inside.

'Hush! Zhu Ying, sweating profusely, walked out, rubbing her hands and feet.

In the room, Shen Bing, covered with a white towel, seemed to be asleep quietly.

took the door, Zhu Ying wiped her sweat with her sleeve, and said: "I'm exhausted, I'm finally done."

"So difficult?" Brother Yu was surprised.

Zhu Yingbai glanced at him, and said, "What kind of easy work do you think this is. It takes a lot of effort to go back and forth."

... Listening to this, Yu brother always felt a little ambiguous.

What does it mean to go back and forth, "Doctor Zhu, we have bones, is it serious?"

#### **Chapter 1109: What skin care products are used**

As a serious senior orthopedic surgeon, Zhu Ying can say something to the person in charge.

Not serious-it is the old tradition of our orthopedics!

"Why, you want to try too."

Seeing his little anticipation around the corner, Zhu Ying was a little funny.

How can this person be like a child, but he's not grown up!

"Hey, that's great."

Brother Yu borrowed a donkey to go uphill, and a clever pounce on the sofa.

The toes of both feet point up, and the person swoops forward, puff, puff...

"Pose your posture, come on!"

Brother Yu, who was lying on the sofa, looked forward to it. Zhu Ying's hands were crystal clear like jade, and she didn't know what it was like to press on her body.

You said she was working hard, so why didn't she see calluses on her hands?

"You are great."

Zhu Ying's face was speechless, and she almost said, "You are awesome."

I have seen someone hitting a snake with a stick, but I have never seen such a cheeky person.

Tossing Shen Bing is enough for her to be tired, and this will also toss him.

This man, do you understand Lianxiangxiyu?

Tucao return to Tucao, Zhu Ying touched her hand with a layer of hand cream, but the toilet was still on the edge of the sofa.

Space is limited, Zhu Ying sits up, holding only half of her plump buttocks.

"Move in and make room for me."

Zhu Ying slammed his buttocks against him in an angry way, and stunned Brother Yu.

Xin said, "Good guy, dribbling and hitting people is not as cruel as you."

moved in, the effect is the same as no movement.

Zhu Ying tried several times, but she couldn't exert her strength in this posture.

Yes, you can ride it.

stood up and pulled the trouser legs, and then rode on him as soon as he lifted his legs.

put both hands on the lumbar spine, "Uh-huh~"

It's comfortable!

I have to say, Zhu Ying still has two brushes.

Don't look at her slender fingers, white and tender, and not weak at all.

The key is skill, which is definitely a master level.

Post, take, lift, rely on...

push, press, knead, put...

A pair of hands let her play with flowers, and let Yu brother understand what a profession is.

With this set of Dalian tricks, anything 998 is useless.

Suke, like a professional!

squeezed Zhu Ying's last bit of strength, and when she got down from Brother Yu with sweat, she was almost exhausted.

Both shoulders stretched back, making a crisp sound.

Seeing Zhu Ying lying on the side of the sofa panting, Qin Yu picked her up and put her on the sofa guiltily.

"Thanks, Director Zhu."

Zhu Ying opened her eyes, rolled her eyes and said, "If you add money, it will count as overtime."

Brother Yu was surprised, but nodded amusingly.

"Okay, I count you for two hours."

Since it was paid, Qin Yu's mind began to become active.

His two legs are still a little sore, or else—add a minute?

Adding the clock didn't increase the bonus, but instead received a hit with a pillow attack.

"I am an orthopedic doctor, not a massage technician."

After speaking bulgingly, Zhu Ying turned to face the back of the sofa, leaving him only a back.

S-curve undulating like a mountain, with a slender waist and plump hips, a bent right leg, and a left foot in the leg socket.

This time, it's even more tempting.

Wow!

I don't know when, pouring rain started outside the house.

Wen Yaxuan ran into the house under an umbrella, shaking the water on her body and muttering: "The weather forecast is getting worse and worse."

Putting the umbrella into the umbrella stand, Wen Yaxuan changed her shoes and shouted: "Mom, I'm back, what should I eat tonight?"

Entering the living room, Doctor Zhu, who was asleep on the sofa, gave her a daze.

Yes, today is the day for maintenance.

Looking at the exhaustion on Zhu Ying's face again, Wen Yaxuan said, "She must be exhausted."

With a little pain, she pulled the blanket that fell off for her, and Wen Yaxuan walked towards the kitchen.

"mom, Mom, Mom..."

was about to enter the door, a tall shadow filled her vision and blocked her way forward.

"I'm back, why are you getting wet."

Qin Yu spoke in a natural tone, and reached out to wipe off the drops of water on her head.

and ears...neck...chin...

"I, I'm going to take a bath."

ran upstairs with dangling eyes, and closed the door with a bang.

Wen Yaxuan leaned behind the bathroom door and gasped, "Huh...huh..."

The rain hidden in the hair slipped off with sweat, and she seemed to be wetter than before.

Waiting for Wen Yaxuan to take a shower, she has long forgotten her previous embarrassment.

rushed downstairs unconsciously, and went straight to the restaurant.

"Sniff... It smells good!"

Seeing the table full of sumptuous meals, Wen Yaxuan swallowed and waited for the meal.

At home, we still have to abide by the rules.

People didn't move their chopsticks all together, but it was going to be knocked on the back of my mother's hand.

Waiting for the last big set of oysters to be put on the table, Shen Bing, who had been busy in the kitchen, sat down: "Okay, let's eat!"

The voice is cold, as usual.

Looking at the big set of oysters placed in front of Qin Yu, Wen Yaxuan smiled and said: "Eat so much, aren't you afraid of nosebleeds?"

Brother Yu picked up an oyster and put it to his mouth, "sucking..."

Chew and swallow, only then did he respond with satisfaction: "If you continue to work overtime, can't you make up for it?"

"Cut, I don't believe you." Wen Yaxuan grimaced with her hand against her nose.

Zhu Ying looked at Shen Bing opposite with a smile, a touch of red on her pretty face, it was so beautiful!

This man is so greedy.

As for Zhu Ying's evaluation, Brother Yu naturally has no way of knowing.

A dozen oysters are eaten down, full of vitality.

Tonight, work overtime as usual!

All the discs, J cleaned the table and went to wash the dishes.

This made Brother Yu a little bit disappointed, he used to help do this work.

"Ah, I don't want to move at all." Wen Yaxuan with a round belly collapsed on the chair, rubbing her belly contentedly and uncomfortably.

Today's dinner was so rich, she just ate it without controlling it.

glanced at her daughter who was not doing well, Shen Bing opened her mouth and held back what she wanted to say.

Forget it, the child's heart is full of belly.

To be able to eat is blessing, to be able to eat is blessing...

A few words of self-comfort, Shen Bing went to the wine cabinet to choose a bottle of red wine.

It's too early, and Dr. Zhu has worked hard for a day, just to relax with a drink.

"Sister Shen likes to drink red wine?" Zhu Ying picked up the goblet and shook it, and Zhu Ying took a sip.

The taste is okay, a bit astringent, with a sweet aftertaste.

Driven by curiosity, I looked carefully at the label on the bottle. Zhu Ying smiled and said, "Such expensive wine is too wasteful."

"It was all sent by Xiaoyu, I don't understand, I drink a little occasionally."

Shen Bing has no feelings for wine, but he doesn't reject it either.

The wine cabinet at home was originally empty, but every time Qin Yu came, he would bring a bottle or two of wine.

When        came, the wine cabinet was full.

Putting it in front of him every day, Shen Bing also had the thought of tasting.

After going back and forth, I got into the habit of having a drink after eating.

"But sister Shen, your skin is better than before."

Zhu Ying put down her wine glass, stared at her face enviously and said, "Except for the two smile lines at the corners of her eyes, it looks like a glowing crystal doll."

"Sister Shen, UU reading [www.uukanshu.com](http://www.uukanshu.com), what mask do you use, please introduce me to me."

Her complexion is really good, she looks even better than the complexion of a girl in her 20s.

Besides, there is no dullness or spots.

is just plain makeup, it has not been out of the sky.

is the little girl now, applying all kinds of cosmetics to her face early.

is only thirty years old, and his face is full of vicissitudes.

Looks older than the old mother...

As for the makeup removal, shall we talk about something else?

Hearing Zhu Ying's questioning, Shen Bingxian was a little flustered, and his eyes quickly cast aside Qin Yu.

Then, pretending to be calm, said: "It may be related to my physical fitness. My skin has always been very good, and I rarely use skin care products."

Wen Yaxuan, who was still digesting food, nodded in agreement with no idea what was happening.

"Hmm, me too!"

shook her head triumphantly, Wen Yaxuan said happily: "Thank you mom for giving me such a beautiful and cute baby, hehe..."

Looking at her sullen head, Shen Bing's heart was exhausted.

I think about the entanglement in my heart again, but I am a little relieved, "It's okay, just her brain, she would have been sold for another person!"

No matter how hard Qin Yu is, he can at least support Xuan her for a whole day and shelter her from wind and rain.

Let her live so carefree and carefree.

may be the best arrangement for her!

### **Chapter 1110: A sad miracle drug**

Abandoned Capital, Miracle Pharmaceutical.

Compared to the other sons of the parent company, Miracle Pharmaceutical has been low-key in the past two years as if it did not exist.

so much so that every time the company builds a team, or goes to the headquarters to study and study, or even when the annual meeting is held.

People from other subsidiaries have a pitiful look in their eyes.

"Lao Tzu also enjoyed the scenery back then."

Miracle Pharmaceutical was incompetent and furious, but had to accept reality.

Who made the company except for a 'kidney power', there hasn't been any breakthrough progress so far.

Look at Kuafu, play around with battery specifications and models.

Mobile phones, computers, automobiles, and even industrial fields have been involved.

is to come up with a battery matrix, various cross-border cooperation, mixed with wind and water.

Looking at the network department again, the heat caused by Spark to the battle compartment continues to this day.

Because of the celebrity effect, from time to time they will make big moves.

Who and who broke into the top 100 on the list, Xianyu turned over.

So-and-so advanced successfully and was sponsored by a large company.

Whoever got a contract from a big company, his value skyrocketed by 15 million in an instant.

Only after graduation, you can become the CEO, win Bai Fumei, and reach the pinnacle of life.

Who has a thousand jins, because of prejudice forty, almost never married out.

accidentally broke into the top 100 on the Spark List, and the matchmakers stepped on the threshold.

A little fresh meat in his 20s, a bite of a 'thousand catty baby', 'heart and liver', 'auntie, I don't want to work hard'

It has twists and turns, and the editor has written a week-long manuscript, and the enthusiasm remains high.

There are thousands of comments reminding you to update each article...

Then, the editor suddenly decided to switch careers and ran to write a web post.

Feng Shui takes turns, today to Lao Tzu!

"The counterattack begins with the old Beibi saying that he loves me"

With the concept of 'I'm on my own, I'm OK', I started my own codeword career.

Who knows the reality is, Feng Shui turns round and round...

It's endless!

Even if my grades are a dog, I put my only savings into it.

not only didn't make any money, but instead became a wave of leek.

When I wake up, I think about returning to the shock department. I have been replaced by someone. Now I am picking up \*\*\*\* at Wudaokou!

With this story, Xinghuo has been searched for three days.

The Internet is full of scolding dogs and making stupid things, do you mean irritating or not?

Miracle Medicine's eyes are all red, but what can I do?

We are no worse than making money, but when it comes to popularity, Miracle Pharmaceutical is just like a concubine, and has no sense of existence.

In this regard, the employees of Miracle Pharmaceuticals were aggrieved, and the executives were even more aggrieved.

You just have to endure the strange look in your eyes, and I will be teased in public when I am in a meeting.

"No results this year? Gee, this benefit... or the pharmaceutical industry is comfortable!"

"Come on, look forward to you!"

"Tsk, the pharmaceutical industry is just about making money, and it's enough to eat money."

"Hey, I really envy you, you can make money lying down."

"I can't do it anymore. I work overtime every day to finish the engine improvement plan. After two days, I have to report in front of the boss and the board of directors..."

Hehe~

bastard, shrimp and pig heart stuff.

Being frustrated all day long, Miracle Pharmaceutical has nothing to say.

Who will let their projects have no deposits, and don't speak hard!

However, some executives find it strange.

The company invests hundreds of millions in research and development every year.

Where did all the money go?

Some people even reported to the Supervision Department and the chairman of the board, requesting the headquarters to check the accounts thoroughly.

But in the end, these reports fell to the ground.

is as if it has never appeared before, and no one has ever mentioned it at the annual meeting.

This has left many people wondering whether the CEO of a pharmaceutical company has the ability to master the sky.

Is it the boss' long-lost brother?

Shi Cui had the same idea before agreeing to Miracle Pharmaceutical's transfer application.

But now, he finally knows where all the money is going.

also knows why the Supervision Department and the boss are indifferent to this.

Top Secret: Longevity Gene!

Looking at the big red characters on the file, Shi Cui unhurriedly turned to the first page.

After looking at the complete project plan and the current progress.

Shi Cui threw the file on the table and looked at the person in charge of the project opposite, "It's a good idea to let ordinary people live forever!"

"Shi Bo, do you have any ideas?" The other party's eyes lit up and he asked excitedly.

"Um."

Shi Cui nodded, smiling arrogantly: "It's just whimsical."

The person in charge darkened, wondering if the other party hadn't figured out the situation.

The boss asked him to help, not to make trouble.

There are enough dog sprays in the company, not bad for him...

"Shi Bo, let's talk about how to improve first."

Shi Cui looked at the other party and opened the file again, and said with a sarcasm: "Impossible, this project is a waste of time."

"There is no hidden danger of longevity, do you think it is possible?"

Seeing the other party's unwillingness to give up, I think of Qin Yu's attention.

Shi Cui decided to tell him the reality. The life span of a genetic warrior is 500-1000 years.

But this is just one of the incidental benefits of the transformation, and it does not mean that the longevity code has been overcome.

Take out the 'longevity gene' alone, without any negative effects.

For Shi Cui, who knows the 'reconstruction project' best, this is no different from daydreaming.

Even if the project is initiated by the boss himself, his judgment cannot be changed.

Maybe they can make a breakthrough someday.

but...

To be fair, Shi Cui doesn't think this is a good thing.

In a world where all people live forever, all he sees is self-destruction.

Although Shi Cui is very firm in his judgment.

But he still got a detailed understanding of the whole project, all the breakthroughs and progress since its establishment.

I have to say that human creativity is endless.

With only a small amount of "distorted flesh and blood" for experimentation, compare it with the "long-lived creatures" that exist on earth in multiple directions.

and tried to use the difference to find out the longevity password!

fusion, stripping, artificial cultivation, etc...

Basically they can think of the means, they all dabble, and it can even be said that they are doing very well.

During the visit, Shi Cui's inspiration came out one after another.

Although he failed to find the 'Eternal Life Code,' it gave him a clear future direction for the genetic modification project.

\*

\*

"Can't you?"

Qin Yu, who received feedback, was not as lost as he imagined.

From the beginning, he didn't have much hope.

Because, even in the Miracle Mall, he didn't see the possibility of making ordinary people 'longevity'.

There are some things. If you don't try, you will give up.

Isn't it regrettable in my heart?

Now, he decided to seal the project indefinitely.

The entire R&D department is retained and merged into the research institute under the control of Shi Cui's Biochemical Department.

Their new subject is: perfecting the negative effects and physical changes brought about by genetic modification.

sounds similar to the previous project, but it is actually a completely different field.

Since ordinary people can't 'long life,' then start with genetically modified people.

As long as it can eliminate the mental pollution caused by the transformation, the change and influence on the body.

Then, through reformation, you can obtain 'longevity.'

"Don't let me down this time."

Hearing the serious voice opposite, Shi Cui knew that the boss was trying to put all the burden on him.

pushed the frame confidently, Shi Cui responded with a smile: "I already have some ideas, if everything goes well..."

Hanging up, Qin Yu thought about the plan Shi Cui said.

Decrease the concentration of gene medicine and dilute it.

Then inject it several times or more than a dozen times, give up physical modification, and take in the benefits of genetic medicine in a gentle way.

Maybe, only part of the strength, speed and life can be increased at a time.

But after several or ten consecutive injections, the gains obtained by stacking are still considerable.

At least, the life span will definitely be extended.

if...

If there is no drug resistance and unlimited injections, it is not equivalent to an alternative "longevity."

These are just hypotheses, how can the diluted ratio be guaranteed to be effective without producing negative effects.

How to maintain balance, whether it will produce dependence or drug resistance.

All questions can only be answered after testing.

Qin Yu hopes it won't take too long.

He didn't even want to go to the end, standing on the top of the mountain and looking around, only the cold wind looked around.

Besides, he promised Li Xiaoxiao.

won't let her be a widow.

Poor Miracle Pharmaceutical, without knowing it.

The only item that could make them turn over and brighten their faces was quietly sealed.

Even the entire project team has been merged into the Kuafu Research Institute.

Only the boss who knows the inside story, he was relieved while feeling distressed.

Carrying the rumors of 'the boss's long-lost brother', he is under a lot of pressure.

I can't see it now, but in case the boss hears enough one day.

or a bad mood, push him to the end.

He didn't do anything wrong, was he wronged? ? ?

It's all right now, UU reading [www.uukanshu.com](http://www.uukanshu.com) although there is no project...

"But tonight, I can finally get a good night's sleep." Stretching comfortably, the boss decided to live in a suburban villa tonight.

He recently hired a foreign teacher to teach himself Barrow.

Blond and blue-eyed, 177cm tall, taller than a supermodel.

He didn't go to class for several days because of the project.

The tuition fee of tens of thousands a year can not be wasted...

Tonight, he has to make up all the lessons he had left before! !

"After all, I am notoriously hardworking and studious!"

Brother Yu has no interest in paying attention to the private life of his opponent.

He will be on Huaihai Road, accompany Xu Xixi to see the decoration of the store.

In fact, there is nothing to install, the overall transparent layout, and the booth is built according to the rules of the drawing design.

Behind are several private conversation rooms, and some soft furnishings with sci-fi elements are made on the wall.

The whitewashing of the interior is basically completed, the focus is on the outside curtain.

Medialess holographic projection, must keep up.

From the moment of entering the store, the holographic projection will accompany the customer to complete the introduction, selection and ordering services throughout the whole process.

The staff will not show up until the contract is finally signed.

Intelligent and autonomous services, and strive to create the theme elements of future science fiction.
