

## **Pinnacle 481**

### **Chapter 481: so bad**

10 minutes...

Watson obviously underestimated the ability of his own boss.

Returning to the office, Watson waited boringly for nearly half an hour before finally seeing Lu Qing again.

Push the door and walk into the cubicle, sitting behind his own desk.

Watson decided to focus on her work, but in fact she had nothing to do.

Qin Yu has been staying at the company these days, not leaving every step of the way!

As his secretary, Watson can only look at the documents to learn more about the company's situation.

Other than that, there is nothing to do!

Squeak~

When the office door opened, Watson looked up, and saw Lu Qing glanced at her with a smile, and left with a smug expression on the gift box.

It seems that the gift from the boss made her very satisfied!

Lingling...

"Watson, find someone to design an automation system for my office, including curtains and doors."

After Qin Yu ordered something to be done, he put his legs on the table and closed his eyes for a sleep sleep, thinking about the progress of the past few days in his mind.

Taipower's thunder exploded, but it was not as terrible as he thought.

The postponement of 3nm technology has made investors hesitate, but they have not withdrawn their capital, but are in a wait-and-see stage.

It seems that they still have confidence in Taipower, even if there is news of fraudulent financial reports, they have not wavered.

It is understandable that Taipower's second largest shareholder is the Wanwan Executive Yuan.

I am investigating myself, what can be the problem?

However, what makes Qin Yu puzzled is that if none of these can shake Taipower.

So what is it that makes its stock price present a cliff?

Qin Yu naturally does not doubt the accuracy of the system, its magic is obvious to all.

The drop shown in the information started from the day after tomorrow, which means that in these two days, something major will happen.

Qin Yu began to recall information and reports related to Taipower...

Suddenly, he remembered an inconspicuous report.

The founder and chairman of Taipower hasn't appeared in a long time.

Probably... almost 10 months.

...

...

Wanwan, Taipower is holding a general meeting of shareholders.

But the most important chairman is missing, and the founder of Taipower did not attend this meeting.

This has aroused concern and suspicion from many shareholders, although his representative claimed that the other party was on vacation at this time.

But some people have begun to believe in the conclusions of their previous investigations.

The chairman's body has a serious problem! !

The leader of any company or organization will cause a tsunami-like disaster when something goes wrong.

The higher the achievements he achieved during his reign, the greater his prestige.

Then when things happen, the consequences will be more serious.

Especially when Taipower encountered a crisis of trust, the leaders who founded the company and led it out of adversity several times went wrong.

This is really a disaster...

Some investors are beginning to wonder whether they want to reduce their holdings.

At the same time, the abandoned capital, Lixin Investment.

Jiang Luo in the trader's room gave an order to 'sell' everyone.

Taipower's share price began to fall, not much, and its share price remained above \$120.

Jiang Luo clenched his fists nervously, waiting for the result!

The degree of decline is not important, what is important is the performance of Taipower's stock price.

As before, someone will raise the price secretly to keep it strong, or someone will sell it secretly and let it continue to fall.

As time passed by, Jiang Luo's mood became more and more tense.

Just when she couldn't help asking, someone shouted abruptly: "I fell, I fell..."

Hearing these two words, everyone's spirits were lifted.

Looking at the curves and numbers displayed on the market, everyone clenched their fists excitedly.

"Amitabha... Immeasurable Tianzun... Mother Mia!" Lao Zhang put his hands together, muttering to various gods in his mouth.

Hong Zhong left quickly, and he had to tell the boss the good news.

As Lixin's butler, Qin Shao's first dogleg.

Hong Zhongcai knew very well what the priorities were.

Any good news that makes the boss happy, involving him, ranks first in importance.

Other than that... it's all trivial things!

"Qin Shao, good news." After rushing into the office, Hong Zhongcai said with joy: "I fell, someone is following the shipment."

Qin Yu stood up and walked out: "How much did it go out?"

"The quantity is not large, but the price is definitely not stable. The other party has given up raising the price. We succeeded."

"Watson, I want all current affairs news related to Taipower." After finishing speaking, he has already left the office and walked towards the trading room.

Pushing the door and entering, what Qin Yu saw was a busy and orderly situation.

Pieces of information were gathered in front of Jiang Luo, and his fingers happily tapped on the keyboard.

Every time the machine sounds, it means that money is about to be credited!

What Qin Yu heard was the "crackling" combo...

Coming to Jiang Luo's side, Qin Yu whispered: "What's Citigroup's reaction?"

"There is currently no response, and its stock price has not been affected." Jiang Luo responded in a low voice.

As a global financial giant, Citi's position is difficult to be shaken.

Even if the share price of Taipower plummeted one after another, the impact on Citigroup would be minimal.

However, the other party did not intend to let go of its holdings of Taipower shares.

It seems that it is going to die hard to the end, and the loss must also maintain the shareholding ratio.

This is a determined one, and Teclast must be in the hands.

Qin Yu believes that this is not the wish of Citi's shareholders. Someone behind them is supporting it.

Who it is, it goes without saying!

As for the loss of Citigroup, it will definitely make up for it elsewhere.

You may earn, but I will never lose!

Otherwise, even if Peanut Shield nodded, he wouldn't want to convince the bankers with the word greed in their bones.

"Then leave it alone and stare at Taipower."

Citi can watch Taipower drop below its market value, but he can just let it go if he doesn't believe in Wanwan.

If this were the case, he wouldn't mind directly eating down a large amount of Teclast's equity and directly investing in the board of directors.

If Teclast can be incorporated into the company, Qin Yu can wake up in dreams!

As time went by, Qin Yu apparently lost his confidence.

No one really cares. Wanwan watched Taipower's share price fall all the way?

Since nobody cares, Brother Yu naturally doesn't have to be polite.

No longer disturbing Jiang Luo's work, Qin Yu left the room and dialed Ye Jinlan's number.

"The news can be released."

"Just waiting for your news... Wouldn't it be more exciting if I sent some reporters to the door?"

"Then you are really...well done!"

Find a few authoritative media to come to the door and interview the founder of Taipower.

Knowing that the other party is already seriously ill and unable to show up, Taiwan Power is facing a difficult situation.

Bad, it's so bad!

But bad women always have a special charm, just like Ye Jinlan now.

Her laughter had already aroused Qin Yu's interest. If she was right in front of her eyes, then it must be the one that never sleeps for three hundred rounds of war.

As for Taipower, when Qin Yu decided to attack it and use that precious 'foresight card'.

Its fate has been doomed!

...

...

In the afternoon, UU Reading [www.uukanshu.com](http://www.uukanshu.com) Qin Yu saw relevant reports in the news.

The dispatched reporters failed to even enter the door of the other side's house, and all the questions were 'no comment' formulaic answers.

It's just that they are too bad at acting.

Impatient and irritated facial expressions, anxiety and worry expressed by frowning eyebrows.

Enough to cause panic among investors.

As a result, on the day the news was broadcast, Taipower's stock price fell 30%.

Falling from the original \$120 to \$84...

Next, Taipower is like a lamb waiting to be slaughtered, waiting for the hunting knives of the butchers and a \*\*\*\* feast.

## **Chapter 482: progress**

If you are a hunter, you happen to see a prey in the forest at this time.

It appeared panicked, with obvious wounds on its body, and there was no way to escape.

What will you do at this time?

That's right, stepped forward and asked for a piece of the pie with weapons!

Taipower's current situation is like this, after rumors about the founder were raging, and the other party did not show up to explain.

Taipower's performance is like a clumsy giant who has lost his mind.

The stock price plummeted all the way, as if there was no end in sight.

Just when Taipower was caught in a vicious circle and Fong's harvest day was ushered in.

Qin Yu had to leave, he was going to the far light, and Yin Jian had results.

'The Ninth Generation Aeronautical Communication Base Station and Air Base Station User Manual,' this manual has been military-grade from the beginning.

Therefore, he will give the things to Yin Jian.

The purpose is to allow him to use this technology to ensure that cooperation with the Ministry of War will not cause problems.

Now Yin Jian has gained something. He believes that he can refer to the incomplete description in the "User Manual" and he can reverse this technology.

"Imitation is imitation!" Yin Jian solemnly emphasized that this is imitation, not a copycat.

That is a blasphemy of technology and an insult to him! !

Furthermore, he did not see the unique shadow of a certain country in this technology.

We must know that military technology has strong uniqueness and characteristics, whether it is Barrow system, summer country system, or bald eagle or gull cute system, these characteristics are deeply imprinted in the core technology.

But he did not find any similar characteristics in this brand new 'air base station' technology.

Yin Jian is not interested in finding out where he got it from, but he knows the changes this technology can bring.

Aerial base stations have always been a difficult point in communication and transmission, due to instability caused by various complex factors such as weather and environment.

In this brand new technology, he has seen a solution!

Therefore, Yin Jian can say with certainty that even if the current "Yuan Guang" wants to end the cooperation with the Ministry of War, the other party will not agree.

"How much benefit do you think it can bring us?" As a businessman, it is normal for him to ask.

Do not do anything that is not good!

He can give preferential treatment such as preferential treatment at an appropriate time.

But let him give selflessly... sorry, can't do it!

Yin Jian obviously didn't think so, so his expression looked a little strange, and he said in a stumbling tone: "Maybe, we can get some orders from the airline?"

Qin Yu frowned, looked at him and asked again: "Are you sure?"

Is he sure this is all the answer?

If this is the case, Qin Yu will consider changing someone to be responsible for this new technology.

Generosity of others...

To sum up, just two words: stinky face!

If Yin Jian doesn't understand this, his days in Yuanguang will come to an end.

"Uh..." Yin Jian thought about it with a tangled expression, and said: "We can win all future orders in this field, and at the same time jointly develop remote communication encryption technology with the Ministry of Aviation..."

Yin Jian poured out his thoughts all at once.

Some Qin Yu can understand, but most of him seem to be listening to the heavenly scriptures.

However, he has a more thorough and profound understanding of the technology of 'air base station' than Yin Jian.

Therefore, Qin Yu knows its specific value!

"Just do as you say now, and I will let Director Liao cooperate with you." Qin Yu needs him to only explain the technology, and other aspects will naturally be discussed by Director Liao.

Compared with Yin Jian, Director Liao has a clear and precise positioning of his current situation.

So he is very clear about whose interests should be the most important thing.

Eating inside and out, putting it anywhere is a taboo!

Yin Jian was obviously relieved when Qin Yu handed over the matter to Director Liao.

He is just a technical person, and he is somewhat resistant to this kind of negotiation, let alone let him go to negotiate with the leader of the previous leader for profit!

He really couldn't do this, and it was in Yin Jian's mind to not need him to be responsible now.

"Boss, then I will perfect the model first, and there are still some drawings that need to be refined." When it comes to technology, Yin Jian's eyes regained their passionate luster.

"Yeah." As he watched him leave, Qin Yuxin said, 'in the future, we will try to minimize the participation of technical talents in commercial activities. High-tech is their essential job.'

"Let Director Liao come." People called Director Liao to the office, and Qin Yu talked with him for 40 minutes.

When the other party left again, the expression on his face was extremely complicated.

Excitement, excitement, can't wait, there is so little hesitation and ambition!

Before the division, the Communications Engineering Department and the Aviation Department were a huge difference between a rough job and an elite consul.

It can be said that the Communications Engineering Department completely needs to act on the face of the Aviation Department.

If a researcher comes out at random, he and the director are required to deal with it carefully, and he must try his best to satisfy any orders from the other party.

Who let them be the mud legs of the group doing rough work!

Now, not only have the opportunity to sit on an equal footing with the opponent, but also get a share of the opponent's hands.

Hehehe...

For Director Liao, this feeling is ten times more refreshing than doing that!

However, considering the fact that his abilities are gradually declining, from a dragon to a worm.

It is understandable to think so!

If I change to Yu brother, I will definitely choose "Hey hey..."

After getting the follow-up progress of Yuanguang, Qin Yu began to ponder other things.

That piece of land...

Zhang Xiao has yet to reply to him, and there is no news.

Qin Yu was considering whether he should take the initiative to call and ask, if the land was lost again, he would be very upset!

"Director Zhang..." Qin Yu's personality is not sloppy.

After learning that the other party is still discussing, some details have not been finalized.

But he promised that he would give Qin Yu an accurate answer within this week at most, and repeatedly stated that there is no other competitor for that piece of land.

After all, its location is too biased and its area is too large.

Maybe after the first pass, there will be shots waiting to be missed.

But for now, no one has made it clear that they are interested in that piece of land.

With the affirmative answer from the other party, Qin Yu asked herself to be more patient!

It's better to go to the hotel and meet Talissa first to see what's wrong with her.

W Hotel, Talisa's resident suite.

When Qin Yu saw her, she was wandering around the room wearing a bra and Xiao Nei.

...That's not right, it should be said that she is doing yoga.

However, when doing sports, she likes to get rid of excess clothes to keep in contact with the air.

This will make her closer to nature!

Of course, she is the only one who thinks so. It's a good way to be close to nature in the steel jungle.

"Let's go, what on earth do you have to meet with me?" Qin Yu sat on the sofa, enjoying her yoga with her arms around her.

"It's about security... Dad thinks you need some bodyguards to ensure your safety." Talisa responded while exercising.

Qin Yu looked at her in surprise, and after a moment, he smiled blankly: "Aren't the people you arranged by my side enough to complete this work?"

The arms supporting the body were completely relaxed, and Talisa lay on the yoga blanket and asked with interest: "When did you find it?"

"Maybe it's the first day, maybe it's after many days..." Seeing Talitha's roll of her eyes, Qin Yu said, "Well, I actually noticed them the first time they appeared."

"Don't you notice that there is always the same person taking the same flight with you to the same destination?" Qin Yu didn't believe it, she was not even aware of this.

"It seems that they need more professional training!" Talisa responded.

"No, it's not training. Without keen intuition and memory, it's hard to spot them.

After all, every time they appear, they dress up differently, and they also do some small disguise, such as having a beard, no beard, with earrings, and without earrings.

Or, if you dye your hair in other colors and match it with different luggage, it is generally difficult to be noticed. "

What Qin Yu said came from the heart, if it weren't for his keen insight and super memory, he would have no idea about it.

After all, it is rare for an ordinary person to observe his fellow travelers.

Especially when they are not in the same cabin with themselves, unless the other person is the kind of super beauty that makes people shine.

Or maverick, and as bodyguards, those people are really very professional and low-key.

### **Chapter 483: Exposure and variables**

Now that Qin Yu recognized the identities of those people, Talitha wanted them to come to the face.

"No, no, I don't like being watched!" Qin Yu didn't want to go wherever he was, but he carried four big muscle tyrants.

It's like saying, 'I'm a broiler, come catch me!'

Let them do better in the dark, and besides, he is not a beautiful man who is helpless.

"Are you worried about your identity being exposed?" Talitha gave him the iPad amusedly: "Look at the photo above."

"Suspected of a mysterious family, entering and exiting many leading technology startups in the industry!"

Qin Yu is no stranger to the face in the photo, it is him.

However, only the side face was taken in the photo, and it was night again, and the photo looked very blurry!

"Did your people find out?" See the related news below, and then open the hot search.

The high-profile Kuafu, Godson and other leading achievement companies, the boss behind the scenes is suspected to be exposed...

"Did your people notice?" Qin Yu returned the iPad to her.

"The other party took the photo in the room, the house on the opposite side, remember?"

You are in the safest country in the world, and they naturally don't have to guard against snipers who command high ground. "

There is nothing wrong with Talisa's answer. If you change the country and have such obvious commanding heights, she will definitely send someone to check it.

But in Xia Guo...

The only thing they need to guard against is unarmed combat and traffic accidents.

These two points are obviously higher than the proportion of 'assassination'!

"Well, it seems that there will be a lively tomorrow." Since it has been discovered, the reporters will naturally not let go of such a good opportunity.

Those self-media traffic accounts will be even more chasing!

For traffic, the lower limit of these people is so low that he has no doubt about this.

It is conceivable that the door of the company will be full of reporters tomorrow!

Those who are well-informed must choose Lixin to invest. It is not news that Taipower is in the industry.

He just doesn't want to be publicized in such a high-profile manner, and the online dispute is meaningless.

It will only bring controversy and trouble, and exposure to the spotlight is not a good thing for Qin Yu.

Therefore, he decided to treat all interviews equally!

"Pick two King Kong men for me. I will use them in the next few days." Qin Yu decided to bring two 'human walls' when he went to work tomorrow. '

"No problem, I promise you will like them."

"I only like women."

Lying forward on the yoga mat, Qin Yu tilted his head and said to her: "Do the movements you just did again, I think there will be a new breakthrough!"

...

...

In Talitha, there will never be a feeling of boredom.

She is always full of energy, aggressive, dangerous and mysterious, but full of temptation.

Every time, she can find new excitement and freshness in her.

That feeling is not every woman...no, it should be said that very few people have so many characteristics.

She herself is like a huge fog made up of countless mysteries.

Profound and vast, people can't help but want to be immersed in exploration, endless!

Not to mention the degree of professionalism of Talisa, his watch

Obviously, overclocking high-intensity yoga training is physically demanding.

Even with Talisa's strength, she couldn't recover after sleeping all night.

Putting on dry clothes, Qin Yu kissed her sleeping cheek, turned and walked out of the room.

At the entrance of the hotel, Big G has stopped in the welcome area.

It's just that there are two more on the side of the car, the arms are stronger than the thighs of ordinary people, and the nose is five big and three thick.

They don't have rosacea and obviously don't drink alcohol often. This is not a qualified Barlow.

But as a bodyguard, it is obviously more reliable!

Applause and thank you for not killing, it is enough to experience this kind of thing once.

"BOSS!" The two obviously knew him well.

"Introduce yourself." Qin Yu said.

"Joyff," said the hooked nose on the left.

"Yuri." The big bald head on the right faced Qin Yu's suspicious gaze calmly.

He has adapted well to such a look.

Whenever someone hears their own name, they will show the same or similar eyes.

In this regard, he can only sympathize with his old father, who has been in the soil for many years, and thank him for giving himself such a resounding name.

"Yuri, you come to drive." This name has a future when it comes to it, and it's a good target.

Lixin Investment, side door.

Looking at the crowds standing outside the company's glass curtain wall, Qin Yu asked Yuri to drive to the front door.

Everyone, or human...

There are reporters, media, self-media...

These people are like a swarm of bees, firmly surrounding every entrance that leads to the company.

Pervasive!

"Okay! Right here." Seeing that there were the fewest people at the gate, Qin Yu asked him to park the car at the front gate.

Seeing Yuri, everyone was a little curious at first.

As he walked around the front of the car and opened the rear door, all curiosity disappeared.

"It's him..." For ordinary people, Qin Yu's profile picture is just a lively look.

Even if there is a trace of interest, he will not spend time studying and remembering each of his characteristics.

But to the people around here now, he is just a piece of sweet pastry!

Naturally, for each of his characteristics, all the details are clearly recorded in his mind.

The moment they saw Qin Yu, they resisted that this was their goal.

"Hello, what position do you hold in Lixin!"

"Mr. Qin, what can you say?"

"Fuck, how do you know his surname is Qin?"

"Mr. Qin, are you the boss behind Lixin?"

"Mr. Qin..."

When someone called Po Qin Yu's last name, everyone started to call it that way.

Like a swarm of flies in the ears, buzzing...

This made him frown involuntarily and walked into the company's main entrance under the \*\*\*\* of two 'human walls'.

Although these people can stand at the door, it does not mean they can enter the building.

In fact, the security also wanted to disperse these people.

But there are too many of them, and the number of representatives behind the equipment is even more numerous.

Therefore, no one wants to conflict with them when it is not necessary.

Qin Yu did not turn his anger to the security or management company for this.

Because he knew that even if the door was owned by the company as an excuse, he would drive these people onto the road.

They will still try their best to block all entrances and exits...

The situation will not change in any way, so these two 'human walls' may take a long time.

Walking into the company, Watson appeared in front of him: "Boss, are you okay?"

"Those Internet celebrities... it's okay." Qin Yu handed her the coat and said calmly: "If anyone wants to contact you, tell them, I refuse any form of interview."

Qin Yu turned to look at Zhang Qiqi and An Xue at the front desk: "Everything in the company is not allowed to be mentioned outside, otherwise you will pack your things and leave, understand?"

"Understood, boss." Zhang Qiqi and An Xue responded sternly.

Although Qin Yu said it was okay, everyone could tell that he was not in a good mood.

Back in the office, Qin Yu's mood gradually calmed down while drinking the coffee that Watson had just made.

"How's the deal?"

"Everything is normal, the current share price of Taipower has fallen by \$62..."

Taipower's stock price is already unstable, and everyone wants to get a share of it.

The only difference lies in the amount of money earned in the end.

But Qin Yu nodded thoughtfully and asked her to invite Jiang Luo to the office.

"Brother Yu." There are only two of them in the office, and Jiang Luo no longer calls him President Qin.

"Sit." Jiang Luo was asked to sit down first before Qin Yu said the purpose of calling her: "From now on, be as careful as possible and close the position without disturbing anyone."

"Why?" Jiang Luo was stunned.

Now is the time to take advantage of the victory. Judging from the current information, she even suspects that Taipower's stock price will be knocked down by the \$10 area.

That's billions of dollars in gains, so just let it go?

"More than that, I want you to open a position and buy up while closing the position!" Qin Yu's instructions made Jiang Luo confused.

The whole person was so dizzy and self-doubt that when he walked out of the office, he looked like he was drunk.

"Mr. Jiang, are you okay?" Watson supported her with some worry, and couldn't help but guess what they were talking about.

Was she fired?

If this weren't the case, what could make Jiang Luo the way he is now?

The soul does not guard the house, as if possessed by a demon.

"It's okay, it's okay..." Jiang Luo shook his head and stood there for a long time.

After taking a deep breath, Qin Yu looked back at the office with his eyes closed and sleepy, and walked out again with a confident step.

Now, she must first tell everyone the new instructions. UU Reading [www.uukanshu.com](http://www.uukanshu.com)

Then... I hope they can receive this instruction as soon as possible and devote themselves to the action again.

Judging from past experience, the entire operation should have only six or seven days left.

I hope Qin Yu's judgment is correct, 'no, his judgment must be correct. '

The power from [Miracle] quickly dispelled Jiang Luo's inner doubts.

This is also the reason why she was able to return to normal so quickly, and Zhang Qili, Hong Zhongcai and others were obviously not as lucky as her.

Amidst countless questions and self-doubts, everyone followed the orders of 'Jiang Luo'.

In the office, Qin Yu was staring at the rising stock price in a daze.

In fact, he himself is more curious than others, what can make Taipower in such a situation.

Can you reverse the decline and once again enter the area of one hundred dollars? ? ?

#### **Chapter 484: Become a billionaire?**

Wanwan, Yangmingshan.

In front of the old cast iron gate, many reporters were stationed.

He frequently looked towards the courtyard behind the courtyard, although his sight was cut off by the flowerbeds and trees.

But it does not prevent them from looking forward to meeting in the future!

The founder of Taipower, showed up! !

...

...

In the morning finance, Qin Yu saw a ruddy-faced semiconductor boss sitting in a chair and talking boastfully.

This old man over ninety years old is very energetic and does not look like he is sick at all.

The voice is loud and the thinking is clear...

But why did he not show up before? What conspiracy is there?

Investors who think of this are obviously a little uneasy.

In fact, most of them choose to go to bed when Taipower needs it.

Now, seeing this Qin Tianzhu safe and sound.

Taipower's stock price soared to the sky like a rocket. Someone went short privately. Before they could react, the stock price soared to \$90.

Just an appearance, the confidence of stockholders, investors and institutions.

Let the stock price stop its decline and start to rise.

This prestige and trust, even Qin Yu is full of envy.

Of course, the inside story is naturally not that simple.

The old man has officially appeared in front of him, and many financial giants and investors have already made video calls.

This is just an external performance, and not many people know it.

But these giants all helped stabilize the stock price after the old man came forward to 'clarify' the rumors.

Taipower is a high-quality long-term investment for them, and no one wants to mess up this investment.

Even if he was eliminated in the end, no one wanted it to fall into his own hands.

The market value of more than 600 billion has fallen to only 300 billion dollars. Who can afford such a loss?

As for those villains who fell into trouble, not only did they suffer heavy losses, but they also had to worry about the settlement of the elderly afterwards.

Next, Taipower is about to usher in a bigger storm.

At the same time, it will clear enough posts for the heirs chosen by the elderly and pave the way for the future.

That's right, after the opponent came out this time.

The first thing to talk about is the issue of successors, which is no longer the 'common two-person system that people have previously known.'

The old man made a final decision and directly promoted his most promising fab director and took over as chairman.

Now, even if the board of directors wants to stop it, they have lost the first step.

Not to mention that the old man took advantage of the low price to absorb more shares in this turmoil, giving him more weight on the board of directors.

Based on the current situation of Taipower alone, no one dared to say half a 'no'.

Those who carry the trend are unstoppable!

However, the turmoil still hurts Teclast's muscles and bones.

The research and development of 3nm technology is not smooth, and the competitiveness of the international market has declined.

The existing management's lack of control over the company, and other shortcomings, were all exposed in this incident.

Behind, Taipower swept away the ills, soaring into the sky.

It's still in a slump, and it's gradually declining, and it's still unknown!

...

...

Abandoned capital, Lixin Investment.

Qin Yu and Jiang Luo stood side by side in the trader's room, watching the curves on the big screen like a roller coaster.

"Mr. Qin, Taipower's stock price should not fluctuate in recent days." Looking at the curve that stabilizes in the 90-100 US dollar area, Jiang Luo feels a little regretful.

If the founder of Taipower does not show up, or show up a few days later.

The investment income this time has to make at least 30 or 40% more, which is a pity...

But even with such a dramatic turning point, Qin Yu still found its traces and responded in advance to avoid losses.

Therefore, he is the most legendary one.

Thinking of this, Jiang Luo looked at the man beside him with admiring eyes.

I don't know when, being able to fight side by side with him, being able to look at him this way, has already made Jiang Luo feel satisfied.

The shimmering luster under the eyes, like crystals shining!

"Well, let's close it!" Qin Yu decided not to wait any longer after seeing that there was no change in the stock price.

However, the appearance of the old man was also something he had not guessed.

He just made the correct response judgment based on the graph...

Based on the information at hand, there should be some kind of problem with the old man's body.

So... is he holding on to the platform now?

As for the appearance of ruddy face, mental stamina, etc., it can all be stimulated with drugs.

However, doing so is tantamount to chronic suicide.

So, at the very beginning, did he choose to let it go? ? ?

Qin Yu thinks he has guessed the truth, how long can the old man last?

Can it last until Taipower reverses its decline, and the successor has sufficient qualifications and prestige to deter the board of directors and take control of the overall situation.

These are no longer important!

At least it has nothing to do with Lixin, they are already full.

The turmoil caused by Taipower not only caused one's muscles and bones, but also had a huge impact on Benwan.

Wanwan's industrial system is very strong, but if they lack the ability to deal with crises.

Then, we must consider a question!

Is such an enterprise that is unable to fight the storm and crisis worth investing in?

Taking a step back, whether such management is trustworthy.

This will obviously aggravate the conflicts between the capital and the two places. I am afraid that wild fathers will no longer simply trust the local management.

They will choose more airborne executives, and if they do not see the hope of promotion locally, they will choose to quit.

There are many possible consequences, but this is by no means the most serious!

How to solve these problems in the follow-up, the semiconductor and industrial industries will solve the crisis of trust in this way.

Wanwan has to pay for all of these, and he can't hold it. Isn't there a wild father behind him?

As for whether the bald eagle will pay for it, it depends on whether Wanwan makes his wild father comfortable.

Or, change the idiot above and come home to recognize your father.

Maybe my parents will chew on a piece of bone, and even if it doesn't help, they will have a mouthful of soup.

Our big country has always been generous.

It's just that the wild dog has passed through the house. As long as the dog is good, it's okay to give a bone!

In short, Fong's has gained a lot of benefits...

Not only is the mouth full of greasy food, it is also the largest and fattest piece of all meat.

Who let them start early enough and fast enough.

When other hunters saw the opportunity, Lixin had sharpened his sword and made fire...

The white knife came in, the red knife came out, and the big and fat meat sizzled on the fire, splashing with oil! !

By the time those people entered the venue with a knife, Lixin was half full.

Domestic netizens have watched enough of the excitement, and these ten days have been really exciting.

Many investors who followed suit have also benefited a lot from this turmoil.

Those who know how to meet and accept, the money for this meeting has already been put in their pockets, tonight...the young model of the club!

Insatiable, he deserves it!

At 336%, the profit from this operation was amazing.

This is mainly due to Qin Yu's judgment, the two ends of the food to maximize the profits of Lixin.

Did not suffer any losses, compared to this time there are already countless investment companies, the details of Lixin's actions have been documented.

Follow-up as a classic tutorial for analysis and teaching!

However, they can only characterize it as 'well-informed' regarding the sudden adjustment of Lixin's strategy midway.'

In fact, it is true, but Qin Yu's source of information is not what they thought.

Fortunately, this is Daxia Country, if it is placed on Wall Street.

The trading committee has approached the door and asked him to explain the doubts and the source of the information in the transaction.

27.72 billion U.S. dollars, more than 100 billion Xia coins, enough to make people crazy!

When Qin Yu told other investors the news, Qin Yu heard the explosion of champagne.

These guys have already prepared champagne and are waiting for good news from him!

However, Qin Yu still felt a little lost in his heart.

There is still too little money at hand...

Otherwise, why is there only such a profit?

"I have become a billionaire like this?" Qin Yu rubbed his chin, wondering if the process was too simple.

A sense of accomplishment, there are so many little things that are not awesome!

...

...

"Xiaoxue, do you know that the company will pay more than 30 billion in taxes this time?" After Zhang Qiqi came out of the pantry, she told the good sisters what she had heard.

Just hearing this number made her feel suffocated.

Dizzy, the dizziness in her brain dazzled her and she had to sit in a chair slowly.

30 billion, how much is that? ? ?

Ten lifetimes?

A huge sum of money that you can't make in dozens of lifetimes, is it all gone? ? ?

"Sister Qiqi, don't think about it." An Xue looked very openly, smiled and comforted: "That's all the company bosses worry about, and it's not your money?"

"It's not mine and I feel distressed. If I don't have the money, the boss will pay twice as much bonus." Zhang Qiqi just finished speaking, and looked around carefully.

Seeing that there was no one, he patted his chest and breathed a sigh of relief.

If this word reaches the boss, I think she is not satisfied with the bonus!

### **Chapter 485: What a miracle!**

"2800 times the net income, the net income! I'm crazy..." Li Xiao danced in place, beyond recognition.

"Calm down." Yang Chengjun just smoked his hand, his fingers trembling like a patient with advanced Parkinson's.

He doesn't smoke, but he feels like he must light the cigarette slowly.

After taking a bite, my mood didn't ease, but I was coughing for a long time.

Calm, how calm is yours, how calm do you tell me?

1 billion investment, in exchange for more than 20 billion income...

This is a living miracle!

I didn't see that Xu Hao would be like an Erha, lying on the sofa and arching his head to give it.

People are already crazy!

The three of them, and Ye Jinlan's investment ratio are the same.

Both are 1.5%, the profit is 28.2 billion, and the margin is 15%, and the amount is 4.2 billion.

Finally, the net income is close to 24 billion.

1 billion investment, 24 billion return...

MD, crazy crazy, is this world crazy, or am I crazy?

This will make Xu Hao's graceful tone suffocated, and he wants to breathe out fragrant, it will be a pleasure!

Behind.....

Just call "Yu Ge Niubi" and it's over! ! !

"Mr. Jiang, the money has passed, remember to check the finances." Qin Yu said with a smile.

"Okay, thank you Shao Qin this time, if you have anything you need in the future, just ask!"

Jiang Hongsheng remained sane, but his tone was closer than that of his own daughters and daughters.

Withdrawing the phone, Jiang Hongsheng took a deep breath.

The fingers still holding the phone twitched unnaturally, Jiang Hongsheng wanted to stop himself.

But I found that the more you want to control, the more twitching your fingers!

In the end, he had to hold his left wrist with his right hand, leaning on the chair and breathing deeply, so as to relieve the muscle cramps caused by excessive agitation.

Exciting, so exciting!

500 million investment...twelve days...

Excluding 2.1 billion of the pumped water, the net income is close to 12 billion.

Money printing machines are not so fast, "Kengkeng~"

The finances came, and told him that there had just been nearly 12 billion in the account, and his eyes were still a little shocked.

Suddenly there is an additional cash reserve of 12 billion, the boss is going to grab the bank?

If Jiang Hongsheng heard her voice, he would sneer three times, "Ha, ha, ha."

Can rob a bank have such a high efficiency?

It's a new era, don't always worry about the bank, it's illegal... really low!

...

...

"Next time, I want to double the share!" Ye Jinlan's tone was also trembling when he learned that he had allocated more than 20 billion.

Exciting, so exciting!

She would hold the phone in one hand and the mouse in the other to check the ticket to the abandoned city today.

Ye Jinlan must thank him in person to express his feelings!

And she did the same.

When Qin Yu learned that Ye Jinlan had opened a room in the hotel and was waiting for him to go to Linxing.

This side just got up from Talisa's bed, planning to drink water and fight again!

"Ah, Talitha, I need to go out in an emergency." Qin Yu walked out while putting on his pants.

"My dear, do you need me to keep the door for you?" Talisa leaned against the door wrapped in a quilt, and the white quilt behind her looked like a beautiful long skirt.

"I will be very busy tonight, and I will see you again when I have time." After kissing her on the cheek, Qin Yu turned and left the room.

Seeing his straightforward performance, Talitha was not surprised at all.

When Qin Yu received the text message, Talisa also received the news that Ye Jinlan appeared in the hotel lobby.

However, she did not say anything about it.

Qin Yu is not hers, but she is Qin Yu's.

Therefore, no matter what he wants to do, Talisa will not object.

It just so happened that she could take the opportunity to catch up, and the high-intensity yoga training last night made her almost lose her waist.

As a professionally trained combatant, Talisa never knew that yoga was such a hard and terrifying extreme sport.

Take the elevator, from the 12th floor to the 11th floor, the room...

Looking up at it, if Qin Yu's memory is correct, Talitha's resident guest room is upstairs.

So, he just moved the battlefield from upstairs to downstairs.

Knocked on the door, Qin Yu was thinking about the difference.

The door was suddenly opened, and the soft Baizhi's arms exploded with powerful force, which directly pulled him in.

"Don't...hiss... come again?" Following Qin Yu's description of high and low sounds, the door closed again.

Two hours later, Qin Yu, who was riding Ye Jinlan, picked up the endless cell phone.

The call was from Old Qin: "Dad, what's the matter?"

"It's okay, can't I call you?" Old Qin came back with a blank sentence, leaving Qin Yu speechless.

"No, you said." Qin Yu secondly confided, and his own father... used to chanting!

"what are you doing?"

"Doing exercise!"

"I won't be back tonight."

"It should be no more."

"You said you, people are in the abandoned city. It has been a few days since you left. Your mother started to talk about it, and there are small pumpkins... crawling on your bed every day to find your brother..."

Hearing Lao Qin's complaint, Qin Yu couldn't explain it either.

But what the \*\*\*\* is Little Pumpkin looking for his brother? He is less than two months old and knows Jill?

"Then what, I'm not the company, there are investment projects recently..."

"Your Uncle Lu said that he will invite you to dinner on the weekend. There is always time, right?"

"No problem, I arrange the schedule in advance."

"Hey...you kid still has a schedule, do you still follow the secretary to bring you tea and water every day."

"Dad, how did you know?"

"...Hang up." Old Qin shut himself up instantly.

Secretary, black is long and straight, forward and backward...

Lao Qin's mood is even more depressed, what has he been messing up with all these years?

"Busy at work?" Ye Jinlan, who was lying on the bed, turned back and laughed.

"That's not it." Qin Yu pointed down, wanting to lie down in a different position.

"Don't move, stay inside for a while." Ye Jinlan moved back.

"Good." Qin Yu said.

Ten minutes later, Qin Yu finally lay down, resting against the head of the bed with ice water in one hand.

Ye Jinlan lay on his arms, with pillows under his waist, deliberately keeping his body up.

Is she trying to kill someone?

Qin Yu just didn't notice her careful thinking, as to whether she would really get what she wanted.

Haha, produced by the system, Brother Yu is afraid of a fart.

System: You only care about the waves, the rest... leave it to the miracle!

If Ye Jinlan could really get pregnant, then there would be a big problem.

At that time, I am afraid that it will be solved by several deaths.

"Does your family know our relationship?" Today's Ye Jinlan has a lot of questions.

Maybe it was because she had really realized that she couldn't do without this man.

If this engagement is true , how good would it be?

As time passed, the frequency of this idea appeared in Ye Jinlan's mind.

She didn't know what kind of poison she was poisoned, but it was hopeless.

Is Qin Yu bothered?

absolute.

Is he attractive?

It is also affirmative.

Therefore, even if some things are really understood, there is no way to make a choice.

As for the Yingying Yanyan beside him, Ye Jinlan chose to default.

At least for now, she has no excuses to trouble these women.

After all, even she herself is just an anonymous fake fiancée! ! !

Thinking of this, Ye Jinlan felt inexplicably depressed.

#### **Chapter 486: shadow**

Qin Yu directly ignored the suggestion that Ye Jinlan wanted a showdown.

Get married, what a joke!

So many young ladies need to be taken care of, where is the time for Brother Yu to be stable?

"We are still young, and enjoying the moment is the truth... the rest is left to time!"

Qin Yu's reason made Ye Jintan choke. The truth is that her mouth was blocked, and she couldn't speak even if she wanted to say anything.

When I feel the breath of freedom again, people are already running out of strength.

The corners of his mouth raised helplessly, and Ye Jinlan fell into a deep sleep in a daze.

Look, it's done!

After solving Ye Jinlan's small problem, Qin Yu finally had time to check the rewards that had just arrived.

'Ding! '

'Congratulations to the host for a vigorous victory, triggering a random reward: The completeness of the virtual reality world of Aturing Genesis has been increased by a part. This time the entire map should be more perfect.

The specific situation, but also online to see.

Qin Yu had a hunch and waited until the pieces of the whole world were put together.

[Fate's Choice] will bring him a huge surprise!

The mist flashed in front of me, and [Gun Brother] went online in glory.

Compared to half a year ago, the current [Gun Brother] is already a legendary boss.

Except for not piercing the palace of the goddess, his footprints were left in other places.

Open the map, and sure enough, a black shadow shrouded the area again.

That is a newly completed map, which is equivalent to an upgrade patch for the 'game system'.

In this way, the game is being improved step by step, and Qin Yu can explore more and more areas.

It's just, "How on earth should I conquer the goddess palace?"

Having reached the [Legendary] domain, he still couldn't break the blockade of [Cynical Bull] and [Snake of Resentment].

Seeing that only one step is short, the goddess can be rescued and ravaged...

Cough, care!

It just happened to be stuck like this. In the hands of the two lords, [Gun Brother] died at least hundreds of times.

MMPD...

If it weren't for a goddess waiting to be rescued, Brother Yu would want to directly petrol, love whoever!

Brother Yu can be sure that this broken game is definitely not produced by Goose Factory!

Otherwise, how could there be no Krypton Gold Mall, recharge window?

At this moment, Qin Yu missed it so much that he hated the Krypton Channel for many years.

If Krypton Gold could become stronger, he would have flattened the whole world long ago. What demon lord, Satan, the devil, will all be cut down!

A full set of \*\*\*\* costumes, Xia Ji beats, and the goddess gets it directly.

In my arms, ravaged and played...

Take care!

After all, after being detained for so many years, it must be carefully adjusted...

Take care, take care!

MD, what's the matter, it's always a slip of the tongue?

Holding a death scepter made of the death lord's spine and skull, six evil spirits of the demon lord are imprisoned in his pupils.

Yes, after hundreds of death strategies.

There are only two demon lords left in the palace, and the remaining six are all made into energy sources for the staff.

As a mature staff, you should learn to cast spells by yourself.

[The Authority of the Death Lord]:

Quality: Legendary (growth type)

Endurance collateral skills: the gaze of the death lord.

Skill effect: The dead lord's soul will stare at the target, and the stared target will be in a stalemate.

Tip: The length of the stalemate will be determined by the strength of the soul.

Tip: The strength of the target's soul is too weak, which will cause the soul to be annihilated.

Incidental skill 2: Howl of the Death Lord.

Skill effect: The sealed death lord wails desperately, which is a cry for unfair destiny, and the target within the range will be hurt by the group.

Tip: The effect of this skill is soul damage.

Tip: This skill cannot be exempted, and the attacked person will have various negative states such as stun/fainting/demonization/depravity/death.

Tip: The dead target will have a chance to transform into a soul state and be swallowed by the wraith of the dead lord.

Incidental skill 3: Soul storm of the dead lord.

Skill effect: All dead lords arouse remnant souls and burst out at once.

Tip: This skill is an indiscriminate attack in range, and the death lord will fall into a weakened state after using it.

Tip: This skill may cause permanent damage to the weapon, please use it with caution.

Incidental skill 4: The roar of the death lord.

Skill effect: The death lord's roar against fate, igniting the soul with anger, can burst out all the power in the peak state.

Tip: This skill will consume the number of souls\*1.

Tip: When there is no soul to consume, the weapon holder will be eaten back.

Incidental skill 5: Favor of the \*\*\*\* of death.

...

...

There are as many as 21 additional skills, making this weapon a backing and credential for [Gunge] as a mage.

Moreover, it is the rarest and legendary soul mage among the mage!

However, the favorite thing of [Gun Brother] is to wield a single-person high staff, and smash the enemy's skull with a skull with two bone horns on its front end.

That kind of direct violence is an excellent way to decompress.

Qin Yu can maintain a good and positive attitude in reality, largely because his dark side is released in the 'game world'.

But at the same time, the inner depression is increasing day by day!

According to his judgment, the strength of [Cynical Bull] and [Snake of Resentment] is definitely above the legend.

But Qin Yu's level has been stuck in the legend for a long time, and he has not found a breakthrough opportunity in the entire world of incompleteness.

Now, the world is complemented again!

Perhaps this time he can find a new opportunity to allow himself to step from legend to immortality.

"The new adventure is about to begin again." Holding the bright and glowing 'demon' skull in his hand, vaguely resentful and angry wailing sounded, making [Jiang Ge] even more happy.

...

...

The brows were locked tightly, and Qin Yu opened his eyes while he was sleeping.

Suddenly sitting up, Qin Yu rubbed the temples on both sides with his hands, cursing in his heart.

He was turned into a group round...

It was turned by a group of twisted and squirming things like nasal mucus.

Those \*\*\*\* slugs couldn't be killed no matter how they were killed, looking around, like a twisted living sea wriggling towards him.

Boundless, no end in sight!

In the end, [Gun Brother] who lost all means was overwhelmed by slugs.

The armor on the body melted in corrosion, and then the cortex, muscles, bones, internal organs...

Thinking of the heart melting a little bit under the corrosion, I watched the scene of death coming.

Qin Yu couldn't help shivering, cold sweat bursting out of his forehead!

This kind of feeling left a deep impression on Brother Yu and made him shudder.

Brother Yu swears that he will never drink creamy soup again from today.

That thing looks like a slug...

"What's wrong with you?" Seeing that he was sitting there with an embarrassed expression and cold sweat on his forehead, Ye Jinlan, who had just woke up, quickly found a towel to wipe his forehead.

Qin Yu shook his head and smiled reluctantly: "I have a nightmare."

"Why do you have nightmares?" Ye Jinlan was surprised.

Thinking day by day, dreaming by night.

She passed out happily last night. How could Qin Yu have nightmares?

Like a small boat in a storm, being beaten by a huge wave.

Sober fainted, awake again, fainted again...

Even if you really have a nightmare, it should be yourself.

Could it be that he didn't make him feel happy, but felt terrible? ? ?

"It has nothing to do with you." Qin Yu rubbed her head, saying, 'this feels far worse than a staff.'

Although there are two sharp horns on the skull, it doesn't feel like a needle when it is coiled up!

Brother Yu thought that his expression became more and more weird, and it seemed that something was wrong with him.

How can it compare the head of a living person with a skeleton.

It just happens that he prefers the feel of the skeleton up...

An illusion, it must be an illusion!

The next time you enter the game, try again, there are living people in the "Dead Head" that are enjoyable.

What's more, Ye Jinlan is still such a beautiful daughter of a family!

### **Chapter 487: If you have to fight, you have to fight**

After staying in the hotel for three days, Ye Jinlan almost never got out of bed!

So that when she was going back to the capital, her walking posture became weird.

"Next time, bring a few more bottles of lubricating oil!" Ye Jinlan reminded himself in his heart.

Without asking Qin Yu to see him off, Ye Jinlan left in a special car arranged by the hotel.

Qin Yuzhe returned to the hotel and moved from the 11th floor to the 12th floor again...

"Your little girl is gone?" Talissa was wearing a shawl-style veil, standing in front of the glass curtain wall, enjoying the scenery of South Lake.

"...Don't say I'm like a pervert, everyone is an adult." Qin Yu hugged her from behind, and moved his fingers restlessly.

What started in three years, the death penalty is not a loss!

Brother Yu doesn't have any interest at all. Can Loli have the fragrance of young women?

The clumsy performance of Jia Jingsi's little JK is enough for Brother Yu to have a headache.

Everything needs to be taught, and we have to explain the strange aspects of knowledge!

How can it be easy to get started directly...

This has nothing to do with the number of frictions, only with experience.

Just like the fairy group of the Shanghai Opera, I haven't practiced it personally before I met Brother Yu.

But I understand everything that should be understood, even if I don't understand everything, I have a little awareness.

This is very nice!

What I'm afraid of is that I don't understand anything, and opening my mouth is, 'what is this? "why is it like this? "Why can this be done? ""Can it still be like this...it's so perverted..."

Damn, the heart is like water in an instant, and the sage is online!

Look at Talisa at this time, the balance ball is squeezed and deformed on the glass curtain wall, her waist is like a water snake...

What is enjoyment?

what?

Don't ask, ask is the crab god.

Soothing small emotions, in fact, the lush Queen Talisa.

Qin Yu left the hotel. He had an appointment with Zhang Xiao to discuss something tonight. The place was set at the Chang'an Night Banquet.

The quotation from the Urban Reform Office came out, and he wanted to make the atmosphere lighter.

Zhang Xiao is very interested in Chang'an Night Banquet. He has heard of it, but has never been to...

Before he became the person in charge of this old city renovation, no one would be such a small person as him.

The steady Maybach drove into the alley and stopped in the deserted clearing behind the building.

The "eyes" of Chang'an Yeyan had been waiting for a long time, and led Zhang Xiao into the elevator to the main hall.

"Qin Shao." Meeting in private, Zhang Xiao didn't adopt a rigid attitude at work, and smiled and took the initiative to hold Qin Yu's hand, full of praise for Chang'an Yeyan.

Although he hasn't experienced the services in various rumors, the privacy and the luxury of decoration have already touched him.

"Director Zhang, let's take the table first!" Qin Yu and Zhang Xiao took the table together, and then two rows of girls stood in front of them.

Looking at the faces that were innocent, charming, or coquettish and hot, Zhang Xiao's appetite for a while.

"Director Zhang, don't be constrained, you will be a guest when you come, just to make a fun!"

"Yes, Shao Qin is right."

Zhang Xiao rubbed his hands and directly ordered two items that were in line with his own aesthetics.

Come out to play, all you want is to let go.

So, he chose the two that looked the most sassy.

Old player!

Qin Yu didn't have a point here, and when the women were all out, a charming woman in a red cheongsam walked out with a frown and a smile.

Qin Yu, the owner of Chang'an Yeyan, was not the first time he saw her.

"Sister Xu!" Qin Yu looked at the familiar and unfamiliar face with a complicated smile.

Xu Yaqing, who would have thought that she was the boss behind the Chang'an Yeyan.

The story about her, I am afraid that one or two bottles of wine will not be finished!

"Shao Qin." Xu Yaqing in front of him is different from the wealthy lady in the daytime.

All words and deeds are enchanted, seducing the man's primitive impulse.

The cheongsam, which is open to the root of the thigh, is not visible, and it also triggers wireless associations.

I didn't watch Zhang Xiao's meeting, he had already put the woman beside him in his arms and had fun, but his eyes were straight to the opposite side.

It wasn't until Qin Yu coughed a few times that Zhang Xiao became sober: "Haha, Shao Qin, I toast you a drink!"

If the owner of Chang'an Yeyan could come out to entertain him personally, this Shao Qin's background was probably even more terrifying than he knew.

Small people naturally have the way of small people's survival, Zhang Xiao didn't float away just because he sat in his current position.

It is precisely because he has climbed up hard that he understands the necessity of being cautious.

Sometimes, destroying a person is a matter of one sentence!

"Director Zhang is polite, let's do one." Qin Yu picked up the glass and touched the other party.

Look up.

Mouthful.

Zhang Xiao laughed and praised him for his good drinking capacity, "Shao Qin, just call me Lao Zhang. The director calls me to outsiders at work."

"Then I'm not welcome." Qin Yu responded with a smile.

The two of you come and go, chatting all over the world, just one sentence didn't get to the point.

When you are full and full, it's almost time!

Xu Yaqing arranged a bathing room here, so that people led Zhang Xiao to go there first.

"Let's go, I will personally send Qin Shao over." Xu Yaqing got up and looked at him with a smile.

Qin Yu's hand drilled into the slit: "Is Sister Xu considering staying tonight?"

"It's already like this, what do you say?" Xu Yaqing twisted her posture and led him to the bathhouse.

No matter how extravagant the decoration is, it is crowned with various tall names.

After all, it is still a bathhouse, Qin Yu and Zhang Xiao soaked in the water, exchanging quotations about land!

51 hectares, 765 acres of land, Zhang Xiao's offer here is 2.98 million yuan/mu.

To Qin Yu now, the expenditure of the total price is of course nothing.

It was Jiang Hongsheng, Lu Guohui, Han Hu and Liu Xing who had the least investment in this operation.

Each person's profit margin is 2.1 billion, and four people add up to 8.4 billion.

The 2.28 billion land expenditure can also be called spending money?

Zhang Xiao said very clearly that this is the best price given after three meetings and discussions!

Two companies, Kuafu and Loongson, made a lot of money on the local yamen.

If you want to see money from them, you have to wait four years!

This time, Qin Yu wants to set up the group headquarters, always let the yamen return to the blood, and taste some sweetness, right?

I always hold a lamb, even no matter how fat it is, it will have to be bald...

"Okay, let's not talk about the land price, what about the policy?" Qin Yu readily agreed.

"In terms of policy, I will try my best to help you fight for it. If you have channels on your side, I will work hard." Zhang Xiao once said that the policy is so big.

Given this, you will lose that. If you want to earn more, you have to have the means, ability, and background.

He can only say that he will try to help Qin Yu fight for it, and what the final result will be is that he can't be the master alone.

"Okay, with Lao Zhang, we will be friends from now on... Sign the contract tomorrow!" Qin Yu made a decision on the spot.

Isn't it more than 2 billion, small money...

But for the policy, he will still fight for what he should fight for.

Not only must we fight, but we must do our best to fight for as much as we can get.

It is not because he is biased toward his hometown and wants to promote the development of his hometown. The policies that should be there will be gone, and the benefits and benefits of investment promotion have to be given up.

Don't take the general knowledge and dedication as an argument!

Co-authoring to contribute to the hometown deserves to be scammed, and outside companies come to collect money, but they are delicious and delicious?

The crying child has milk to eat, Qin Yu understands the truth!

Therefore, there is no less one point that should be contended and can be contended...

If he is treated as a soft persimmon and wants to kill a pig, Qin Yu has to seriously consider Ye Jinlan's opinion.

Should the headquarters be moved to Shangdu, Hudu, or Yaodu?

As for the factory that has been put into construction now, it can be used as a branch factory outside of the country.

The production capacity is just that, and the investment is not high. If you give up and give up, what can I do?

If Qin Yu talked about moving, more than a dozen cities would immediately rush in front of him and throw out all kinds of olive branches.

Abandoned City just wants to stop, it must have this confidence and reason...

My lord, it's a modern free market, it's time to wake up! !

**Chapter 488: Watson's debut**

The next day, Qin Yu opened his eyes in a strange room.

Even without windows and clocks, the precise biological clock still reminds him that the time is up.

"Yeah~" Xu Yaqing let out a lazy groan: "What time is it?"

"It's about 7 o'clock, it's early, you can sleep more." Qin Yu hugged her, kissed and got up and put on clothes.

Hearing the sound in her ear, Xu Yaqing opened her tired eyes: "So early? Ah..."

She yawned, and she was too sleepy to open her eyes now.

Xu Yaqing suspected that she hadn't slept for a few hours at all...

It's just that there is nothing in the room as a "Wen Rou Xiang" that can be used to remind the time.

The phone was on the table at the other end of the room, so she didn't bother to get it!

"Well, there is still something to be done!" He fastened his belt, and Qin Yu put the phone in his pocket, put on the watch and walked out.

"You just left?" Xu Yaqing asked in surprise and bitterness.

"Otherwise?" Qin Yu asked back.

"..." Xu Yaqing didn't know how to answer.

Yes, what else should I do?

She wants to find a new backer and is willing to give up her body.

Qin Yu was quite satisfied with her, tacitly accepting that she could use herself as a backer.

So, what is she still asking for?

"Then, when can I see you again?" Xu Yaqing worried that she would never see him again.

Judging from Qin Yu's performance, what he gets is no longer a luxury item.

She is afraid that after the other party leaves, she will completely forget herself!

"You can do it anytime, and you don't live in primitive society." Seeing her self-pity and charming look, Qin Yu shook her phone and returned to the bed.

"Baby, bite." Qin Yu gently held her cheek.

Half an hour later, Xu Yaqing, who was fed, fell into a deep sleep with a coquettish face, and Qin Yu left the building.

It was 10 o'clock in the urban reform office, Zhang Xiao and the staff were waiting for him.

The people on Qin Yu's side have also arrived, and the two parties have already had preliminary exchanges before he came.

Watson acted as the main force in this negotiation, and the third-party lawyer hired assisted her in her actions.

"You continue." Qin Yu pulled a chair and sat down, watching Watson play with interest.

Taxation, transportation, and future urban planning biases, Watson also did not let go.

Not only does it require a 5-year tax exemption, it also names the subway station after the company and opens two subway entrances below the company.

After discovering that the new campus of the Polytechnic University was not far away, the lion even opened his mouth and asked to move the school site 20 miles to the company's location.

"This is impossible!" Zhang Xiao was almost stupid.

Did you negotiate terms like this?

You treat this as your home, whatever you want?

The taxation and the opening of subway entrances are both negligible. There is still hope for working hard.

The top universities in Northwest China and the location of the University of Technology are all up to you. What international jokes are you making?

"It's not impossible!" Seeing the tension in the atmosphere, Qin Yu said with a smile: "Director Zhang, this will help both of us."

"If Polytechnic University can refer to our opinions, then Kuafu and Loongson, the future research institute under the name of Miracle Group, can provide them with a certain number of internships."

"Kuafu, Yuanguang, you can verify the R&D capabilities of these two companies.

The Polytechnic University will never suffer from this sale! "

Hearing what Qin Yu said, Zhang Xiao no longer insisted on his attitude, and said with a wry smile: "Mr. Qin, it's not that I don't want to match up, it's that I can't talk about it."

"They belong to the education system, or 985 colleges and universities, I am the director of the urban reform office, and I can't even see the principal."

Zhang Xiao is telling the truth. Don't look at him now holding the real power, but he really needs to go to the door, even the deputy principal can't see him.

Happy, they sent a director to receive him, polite and polite.

I'm not happy... wherever it comes from, go cool, you, the city reformer, also want to intervene in the education of internal affairs.

Tsk tsk, it broke you awesome! ! !

"In this way, Lao Zhang, you can set up a line. We will discuss whether it will work or not." Qin Yu didn't embarrass him.

Convenient with others, convenient with yourself.

There are still places where Zhang Xiao can be used later, and the education system can ignore him.

A businessman who wants to make a profit in the transformation of the old city can't help but take him as the director seriously.

In the final analysis, he is the head in charge of the urban reform office in name and the person in charge.

The county magistrate is not as good as being in charge, that's the reason!

"Okay, then I will try." Qin Yu didn't embarrass him, Zhang Xiao was also willing to give face.

Everyone carries the sedan chair, hello or me, this is a win-win situation!

Seeing that the boss had set the tone, Watson no longer entangled in the affairs of the university.

First, the tax exemption and transportation are finalized, and then there are infrastructure and substations that are not discussed!

The construction of the group headquarters is not just for the sake of face.

Although face is the most important thing, there must be lining to support it.

What is lining, technology is lining!

After the establishment of the group, all the foundations needed for research must be in place.

It has to be prepared according to the standard of allowance. This one is broken every few times, and the one who has been repaired...

If all the time is wasted on this, how about playing Jill?

Seeing Watson opened his mouth, he was like a machine gun, "Da Da Da..."

Zhang Xiao and the staff on the opposite side turned pale, and they couldn't say a word with their mouth open.

Qin Yu's mentality became more relaxed with the hot air on his angry forehead.

What is needed is this effect. The secretary, Watson, didn't do it in vain, judging from her open mouth on the company's various data and projects.

During this time, she was not idle at all.

It can be said that in the entire company, apart from him, no one can pull out anybody else without Watson's comprehensive understanding of the company.

This refers to the overview of all companies. If you only refer to the project details of Kuafu or Godson, then Watson is definitely not as thorough as the factory manager and team leader!

This is the same as the difference between watching movies and practice. Theory belongs to theory, and practice is the doer.

There are not many practitioners like Yu Ge who are both theoretical and practical.

After all, not everyone can be as good as him.

At a young age, he started from scratch on his own and laid down hundreds of billions of assets.

Don't be 6, sit down!

At noon, everyone had a lunch in the office, and it took 20 minutes before and after.

Watson covered the lunch box and the negotiations continued!

The powerful Watson holds the initiative of the entire negotiation, whenever the atmosphere is stalemate due to her attitude.

Qin Yu would interject and act as a good old man, causing Zhang Xiao's rising momentum to decline instantly!

He understood it at this meeting, and Watson was a gun in Qin Yu's hand.

No matter how strong she is, persecuting.

As long as the 'master' of Qin Yu plays a flowery accent, the situation can't really collapse.

So, in the end, I was actually talking with Qin Yu, only after a hand...

Seeing that six hours had passed, Watson was still full of energy.

Zhang Xiao smiled bitterly and shook his head: "It seems that I wouldn't be able to bleed if I didn't bleed today."

"Director Zhang We are all for the future development of the city, and there are still many areas that need your help in the future."

Seeing Zhang Xiao's surrender attitude, Watson's tone softened.

She happily expressed that she was right or wrong, public is public, and private is private.

In the future, everyone will have to deal with each other, how to talk about business matters, and if you need help in private, just speak up.

"From now on, everyone will be friends." Qin Yu said with a smile.

Seeing that Hua Sen and Qin Yu gave their own face and steps, Zhang Xiao no longer insisted, and directly gave the bottom line.

He had already fought for everything that should be fought, but the other party was really too powerful.

There was testimony by the working team on the spot, but he didn't release water at all.

Besides, the Miracle Group is also an important goal that Yamen strives to keep, and he has always insisted on not letting go.

If you drove away the opponent, who would chant this pot?

## Chapter 489: There is no harm without contrast

Tax exemption for 5 years, the subway station entrance will be named after the 'Miracle Group'.

In addition, all infrastructure facilities are handled in accordance with the requirements of the other party.

Naturally, Qin Yu also has to say that the greening and beautification near the group, such as street lights and signage, are all paid for by the company.

These small amounts of money are exchanged for positive publicity for the company, as a company with a sense of social responsibility.

Dedication is required at all times...

Therefore, street lights and signs with the company's LOGO and slogans must be colored!

The content is not important, the main reason is the sense of social responsibility...

After finalizing the final details, it was dark outside.

"Director Zhang, let's find a place to celebrate." Qin Yu sent out an invitation.

Zhang Xiao waved his hand and said, "Don't worry, there will be time in the future. The specific situation here is still waiting to be reported. Tonight I have to work overtime to tidy up all the information."

"Thanks for your hard work, comrades." Qin Yu smiled and said sternly: "In this way, since I can't go, I can order takeaway."

"Wa Sen, order a hot pot, bring seafood, and prepare some red wine and white wine. You can watch the arrangement!" It won't matter if you eat hot pot and have a drink.

They are all adults and can keep their mouths shut.

If you can't drink it, you can take the wine back and taste it yourself.

Watson had a good understanding of what he meant. Everyone had one bottle, and no one left behind.

When arrangements were made here, Qin Yu and his entourage were sent off warmly by Zhang Xiao and his colleagues and left from the old office building reorganized by the city.

"It's all hard today, find a place, everyone to eat." Qin Yu sat in the back row, closed his eyes and said, "It's all right! If anyone at home is waiting, please leave first, don't go home and quarrel!"

Watson, the co-pilot, didn't speak, the boss said, what can she do for the secretary?

What Qin Yu asked was the third-party lawyer specially invited today, and the senior equity partner led by the other party was sitting next to him.

Hearing Qin Yu's words, he smiled and responded: "Qin Shao, you are so polite, then I will thank you for our staff. I will follow you for a good meal today."

"Okay no, food stalls, enough wine and water pipes." It will be what time, the high-end restaurants have long been closed.

Those who are too high to be low are not as good as the taste of roadside food stalls.

Drinking wine and eating skewers.

Shabu, grilled, fried, boiled, everything else, and another cold beer!

I miss this little day...

In front of a continuous street of stalls, G63 and Maybach stopped on the side of the road.

A group of people with the characteristics of elite white-collar workers in their dress and temperament chose a clean stall, and they greeted themselves to sit down.

Next, choose the roadside food you want to eat in front of each stall!

"This stinky tofu is good, try it." Qin Yu returned with four servings of stinky tofu, and when he put it on the table, no one was polite.

After a busy day and no meal in the afternoon, this will make every hungry heart close.

As far as Watson looked a little tangled, she was mainly afraid of the smell in her mouth.

"What are you afraid of? I'll just go home and brush my teeth later. It's not about going to work." Qin Yu laughed at her and pushed directly to her: "Try it, make sure you fall in love."

Hearing what he said, Watson no longer resisted.

A meal was devoured, and it was all resolved in less than half an hour.

Next, naturally they parted ways and went home to rest.

This day was tiring enough, especially Watson, who became groggy after eating.

I wish there would be a bed here, let myself lie down and fall asleep.

Driving her to the gate, Qin Yu didn't get out of the car, and Watson didn't mean to invite him upstairs for a drink.

After watching her walk through the door, Qin Yu drove towards the house.

...

...

In the beginning of the school season, the prices of tickets and air tickets have all increased.

The formerly quiet university town resumed its liveliness again, but Qin Yu did not return to school like the other students.

It is the cousin Liang Guiqi, who has already reported to Qiantang Communication University a few days ago.

It was Qin Yu who drove him to the station and left by train early in the morning.

He stayed, naturally there was something that hadn't been done yet.

All subsequent closings have been settled, and the money has already arrived.

171.5 billion, which is earned by Lixin.

With an investment of 1 billion, Li Xiao's total pump-off of the four is 16.8 billion.

With an investment of 500 million yuan, Lu Guohui's total pump-off of the four is 8.4 billion.

The total revenue is over 196.7 billion...

Including Lixin's previous self-owned funds, it is more than 17 billion, and its own funds have exceeded 200 billion.

Of the previous 66 billion, 50 billion was borrowed from China Construction and Development Bank.

As soon as the money was earned, it was returned to C&D and the procedures and fees were also settled.

50 billion, it took 13 days, and the cost was 20 million.

This is the fee Qin Yu said before. If it weren't for this, C&D could be so happy that it would issue 50 billion credits in full at a time.

Ha ha.....

It's no good, I'm afraid I'm thinking of fart!

Banks are like this. When they ask you to save, they are a grandson.

When you want to spend money, although you won't turn to be an uncle, you still have to be optimistic about doing things.

No good?

Calling grandpa in his mouth, he stabbed you face to face.

How many companies go bankrupt, isn't that how it is...

Watching you go bankrupt, sealed up, auctioned off, at least a few layers of oil and water can be scraped out of it.

Isn't it better than eating your little interest?

If you want money, give those three melons and two dates...Send a beggar!

All the things that should be settled outside have been sorted out, and then naturally there will be bonuses.

It was still in the conference room, and Qin Yu was holding a stack of red envelopes in his hand.

This time he didn't say the number of bonuses, so the roll call was made one by one!

"The bonuses are all handed out. The old rules are to arrange the half-month holiday by yourself." Qin Yu clapped his hands and asked everyone to pay attention to him, announcing the good news of the holiday.

"Long live the boss!" Everyone cheered while holding red envelopes.

When Qin Yu got out of the meeting room, someone immediately opened the red envelope: "Let me see how many have been sent."

Open it, oh...

2,000,000 yuan, this is for a few traders.

Zhang Qiqi and An Xue hid in the corner, quietly taking out the check.

Seeing the above amount, the two of them couldn't stop laughing and giggling like a big goose.

I sent it out, "Xiaoxue, how about we go abroad together and find an island for fun."

"Okay, spend AA, let's be celebrities too!"

"No problem... I have to rent a high-end camera. Then I will shoot for you, and you will shoot for me..."

Two new ladies, you come to me to discuss the details of the "group", the place has been booked.

"By the way, I'll post to Moments first." Zhang Qiqi picked up the phone and took a photo, and chose to block the 'family group' to send.

'The bonus just arrived, it's hot!!!'

Below is a check for 500,000...

The dynamic has just been updated, and the following is a series of comments.

"Year winning? Is there such a good thing?'

'You're a bonus, what's my 200 yuan at the end of the year?'

'People's year-end prize, my year-end prize {picture, Sangang 崩}'

'Damn, this garbage company can't do it.'

'I'm admired, tears are running!'

'Rich lady, please support me.'

'Does your company still hire people? You can also clean the toilet.'

'Miss Sister, graduated from 211, I can do everything and understand the rules. Can I enter?'

'985, handyman, housework expert, champion of ventriloquism.'

'Boss 666 upstairs...'

After a while, the building was taken crooked.

Then, the whole dynamic was played badly, and Zhang Qiqi didn't bother to watch it again, only the pleasant 'ding bell' prompt sound kept on.

She didn't see any of those job seekers.

If you let these 211, 985 in, do miscellaneous, sweep the floor.

Then how can she be confused with the scum of a regular college? Isn't she going to be robbed of a job by a tyrant?

If she is crazy, she will smash her own job.

Hum...Senior student, let's go cool off!

Zhang Qili opened the red envelope, took out the check, glanced at it, and stuffed it back, with a satisfied smile on his face.

This time, he should be enough to buy a villa for his family.

You can't afford a detached house, but the townhouse is still okay.

For the rest of the money, I will exchange a car for myself and my wife.

Hong Zhongcai was about the same as him. He drew out a check and glanced at him: 10,000, 000 yuan.

His pupils shrank, and Old Hong trembled with excitement.

After taking a few breaths, I stabilized my mood...

He was still speculating before, whether the boss would raise the bonus to a higher level this time.

After all, the gains this time are amazing!

Unexpectedly, in the end, he still underestimated the boss's atmosphere, here is a grade.

Looking at Zhang Qili's satisfied smile, you know that his share is definitely indispensable.

Looking at the door of the meeting room, he thought of Jiang Luo who had followed the boss out earlier.

Hong Zhong couldn't help but guess, 'how much can President Jiang's bonus get?'

"20 million is too much...I don't know how to spend it." In the office, Jiang Luo put the check on the table, wanting Qin Yu to change it for himself.

In this regard, Qin Yu also didn't know what to say.

Just heard that some people think that the bonus is small, because too many come to the boss to change one, she should be the first one.

"If you don't know how to save it, you can donate it to the orphanage..."

I suggest you buy a house for yourself first, at least if you don't have a home, buy a trolley by the way to facilitate travel. You have all the basic living security, and you can take care of the rest. "

Qin Yu waved her hand impatiently and sent her out of the office.

"Watson." Calling the secretary in, Qin Yu wrote a check in person: "This is yours."

1000000.....

Watson said modestly: "Boss, I just joined the company and I didn't make much contribution."

"Give it to you Now that you join the company, you are a member of this team, and no one can do without it."

Qin Yu put away his pen, leaned back and looked at her and said: "Someday you will be in this team, and other people will get a share of the money you make. This is Lixin's rules!"

"...Thank you boss." Watson didn't refuse any more. Who wouldn't like money?

If it weren't for considering that she had just joined the company not long ago, she wouldn't be polite for her previous shirk.

"By the way, let the finance transfer 500,000 yuan to the Hudu office." Qin Yu ordered.

Watson has it, and Yan Xue naturally has it.

Don't favor one another!

As for why Watson has 500,000 more than Yan Xue, it is naturally her outstanding performance in this negotiation.

Based on this alone, the 500,000 give is not much at all!

Qin Yu is already looking forward to the opening of the headquarters, and she has grown to the day when she can be alone.

#### **Chapter 490: Azure-Kwafu listed**

Time flies, half a year has passed in the blink of an eye.

Seeing that the weather is getting colder and it is already winter, the first batch of new energy vehicles on the Kuafu battery pack and management system has been put on sale.

Cheng Xiyu personally stood on the platform to publicize for Azure Kuafu.

In this little year, the little anchor has been driving her Azure Customization, and now it should be called the Azure Kuafu Custom Edition.

In her recorded program, participating in the event scene, daily life...

If the last one is removed, Brother Yu can't speak without conscience.

In daily life, small anchors still prefer supercars parked at home.

What is uncomfortable is not important, what is needed is the exclamation and attention when getting off the car.

Weilan Kuafu is the first new energy vehicle named after battery as a suffix, which also shows Weilan's satisfaction and confidence in Kuafu's battery pack.

As a breakthrough technology, Kuafu's popularity has remained high.

The combination of the two can better carry out publicity and hype, and the effect is undoubtedly successful.

Kuafu did not live up to this trust, and was highly acclaimed once it went public.

Especially the fast charging time and the durability of the battery at low temperature, open the APP, forum, and post related to the car.

It is full of praise for the 'Kuafu battery pack', praise for Yishui!

There are all kinds of praises, and some of them are almost blowing "Kuafu" to the sky.

Not to mention other people, even Qin Yu blushed when he saw it.

However, will it be counterproductive to continue blowing like this.

"Mr. Li, congratulations, Azure is a big seller..."

"Haha, Tongxi Tongxi... President Qin, Kuafu is now very well received. There are many people who come to visit, right?"

Li Yi is proud of Chunfeng, but he also has his own worries.

Kuafu is on fire, it can be said to be explosive!

Wei Lan and Kuafu only signed a purchase order for one year. Although it was agreed in the contract, Wei Lan has the priority to purchase.

However, with the current popularity of Kuafu, Li Yi is worried about whether next year's share will be affected.

"Mr Qin, should I mention Kuafu's output?" When someone's interests are linked to their own interests, the other party will be more active than the person involved.

Li Yi is like this now. The higher Kuafu's production capacity, the better the development.

The more products Azure can get, the more products it can sell, and the more money it can make.

The two are interrelated!

Although he also wanted to eat alone and do a monopoly.

But you know with your ass, Kuafu will not let the blue family dominate.

Just like if there is a chance, Azure will not hesitate to enter the battery energy market.

It's just that they don't have the skills and confidence!

"Mr. Li, there is no need to worry about Azure's order... Your share is indispensable. I am calling this time because of something else..."

Qin Yu mentioned his worries that excessive speculation will trigger general rebelliousness among the people.

If you say it works, I just don't think it works.

In the end, it even became a kind of paranoia and stubbornness. I don't need a reason, just can't!!!

"President Qin, please wait a while." Li Yi seemed to be communicating with someone.

After a while, his voice came from the microphone again: "Mr. Qin, our main direction of publicity is still on the company's products, and the publicity of Kuafu batteries has stopped..."

Thinking back to what Qin Yu said earlier, how could those obviously exaggerated compliments a bit like to kill?

"Understood, then President Li is busy first, I won't bother." Hanging up the phone, Qin Yu knew that his guess was correct. Someone was stirring the muddy water.

The other party's goal is very clear, it is directed at Kuafu battery pack.

Because in all the comments, the opinions that praise the battery performance alone are the most.

Who will it be?

Qin Yu first thought of BYD, he should have no enemies right now.

It is not private enmity, it can only be caused by conflict of interest.

As a domestic and even international new energy giant, BYD naturally does not need anyone to be able to grab market share with itself.

However, Wang Defa should know the investment team behind Kuafu well.

These public opinions alone do not seem to cause substantial harm to Kuafu.

In any case, Qin Yu still felt that it was time to call Ye Jinlan and let her properly control and guide the direction of public opinion.

"I will make people pay attention!" Ye Jinlan's answer is simple, this little thing is nothing to her.

With the 20 billion investment income in the account, Ye Jinlan's right to speak in the family is increasing day by day.

Coupled with the progress of Miracle Pharmaceutical, Ye Lao's full support.

The resources that Ye Jinlan can use now, compared to the past, can be said to be rich in capital.

There is no difficulty in getting this thing done, and soon the popularity of Kuafu on the Internet has dropped to the level that ordinary people can accept.

At least, those who don't pay attention to these news don't have to be bombarded by endless 'spam' messages.

Li Yi's propaganda team also found that Kuafu's unusual heat.

As a result, the promotion of its own products was slowed down accordingly to avoid any problems in the middle.

Li Yi called again and asked if it happened naturally, or was it caused by someone behind the scenes? '

"It should be a coincidence. If there is any progress in the follow-up, I will ask the secretary to contact you." Qin Yu said.

"Okay, President Qin, we are now in the same boat.

I personally hope that the cooperation between our two companies can be maintained well...Of course, I am also very interested in becoming a friend of President Qin. I don't know if I have this honor. "

Qin Yu did not resist Li Yi's win.

In today's society, there is nothing wrong with having more friends.

A friend of wine and meat, or a confidant, only needs to know what he knows.

"Okay, haha... President Li, you have to treat me to see you another day, I wish Weilan a big sale."

"Definitely, I also wish Kuafu a big deal, haha..."

After finishing the call, Qin Yu squeezed his eyebrows, and the day passed without doing anything.

where did all the time go? ?

"Boss, can you go?" Seeing his tired look, Yan Xue kneaded his shoulders for him.

During this time, her work ability has not improved much.

However, the technique of massage and relaxation has made obvious progress.

"Well Qin Yu got up and smiled: "Wanxing are they all here yet? "

"It's already here, just waiting for you." Yan Xue said.

Tonight, Qin Yu made an appointment with a few women for dinner.

This is their first gathering in the past six months. After leaving school, everyone has become more and more busy.

As for Brother Yu, there is still the old saying: Except for school, nothing is delayed!

"How is the construction of the headquarters?" In the car, the two chatted about the company's progress.

The specific progress will be reported to Yan Xue every week, and then she will report to Qin Yu after sorting it out.

"The main body of the building is already up, and it should be completed in two or three months.

The institute is more complicated, mainly for the special needs of the circuit and the laboratory, all of which take time.

In addition, Godson has officially started production, and the annual output is estimated to be 300 million..."
