Chapter 531: Moved the crocodile's cheese

When school just started, the class guide was busy!

Qin Yu gave him a small gift to the office, seeing no one put it directly into the drawer.

Put two boxes of kidney power in the drawer, which is considered to have been reported.

How about Yan Er: Or Yu Ge Niubi!

There is one university in the country, and his treatment is probably the first one.

April 23.

After a month of fermentation, the kidney power has been thoroughly popular all over the country.

When it comes to efficacy, everyone praises it!

Consumers who are used to rejuvenate men complain that the price is too expensive!

In this regard, the company's response strategy is: Ignore!

If it is too expensive, you can skip the purchase and leave the money to those in need.

The two prices of kidney power are both considered conscience.

No matter how expensive it is, it is not doing business, but doing charity...

So how easy is it for Brother Yu to donate money directly, and what to do with such things?

Business has business practices, and rules are rules.

Brother Yu has already smashed the jobs of many pharmaceutical giants, and if the price is lowered, it is not smashing the bowls, but just throwing the table.

These days, Qin Yu and the company are waiting for each other!

Always be prepared for counterattacks by the medical giants and be prepared for both.

Kidney Power's short-term production capacity can only meet domestic demand.

If you want to export, at least a buffer period of 3 to 6 months will be the most difficult period.

Pharmaceutical giants will inevitably strongly oppose their entry into overseas markets, causing a devastating impact on their own targeted drugs that cost hundreds or even hundreds of billions of dollars.

However, the company also has a countermeasure!

The biggest weakness of the Freedom Beacon is that the people's will is hard to violate.

This people's mind must be white...

Other colors are not pure, it doesn't work.

Baipi is also sick, and you have to be cured if you are sick. As long as you have enough Baipi to speak up, even the giants must pay attention to it!

Therefore, they only need to effectively spread the curative effect of kidney power through the channel trusted by Baipi.

The latter problem will naturally be solved by white skin!

When the giants can't handle the pressure, the problem will be solved.

Prior to this, Miracle Pharmaceuticals will not meet and negotiate with any organization.

The tragedy that occurred in the domestic industrial system can no longer be staged in the medical field.

The purpose of foreign investment has been clearly expressed before.

The various restrictions can be summed up in four words: no development!

You can only be the other party's foundry and produce the most downstream basic raw materials. High-tech is not something you can play.

We have to leave it to our own play, you just need to do some rough work!

This investment of tens of billions of funds has come to a brilliant career!

It also directly abolished the domestic hard work and research in the field of iron and steel industry for nearly 30 years.

breakthrough?

Don't even think about it, after being controlled by foreign capital, there is only an empty shell left.

High-tech and all projects are suspended indefinitely, and those experienced masters are willing to quit.

Those who don't want to feed you, consume you, just don't let you go.

Even if I don't need you, I won't let you go. I have to consume you in the factory and raise it.

All they need is brainless coolies...

This is the favorite group of foreign investors, beating workers diligently.

Let you do what you do, that's it!

Mechanical repetitive tasks, what kind of brain and technology are needed, only hands are familiar!

Brother Yu doesn't know if there is a pit in his brain.

Anyway, it was just such a thing, Qin Yu just didn't let it happen to his company.

He is not a saint and can't take care of the world.

Seeing that the market feedback of Kidney Power is getting better and better, Ye Jinlan started to publicize after consulting everyone's opinions.

This time, I encountered the delicious cake of the giant crocodile!

As a leading giant in the pharmaceutical industry, Pfizer immediately jumped out to make a high-profile announcement: it suspects Miracle Pharmaceuticals has stolen its latest research results.

Miracle Pharmaceuticals is required to announce its ingredients and accept review. Before that, it will be prohibited from being put on the market, and all drugs will be recalled.

Otherwise, they will be strongly protested and effectively sanctioned.

Subsequently, Johnson & Johnson, Sanofi-Aventis and Novartis and other pharmaceutical giants jointly issued a statement: fully support Pfizer's just decision!

It's like what they did, it can be called justice, and it represents justice and fairness.

Has that beautiful landscape been forgotten?

"Counter-attack!" Qin Yu decided to fight back for the first time.

At this time, we must not be weak, and Ye Jinlan said that she would support Miracle Pharmaceuticals in other areas.

Two hours later, Qin Yu saw the Diplomatic Mission uttering on the notes: foreign monopolies cannot represent justice, let alone justice.

If the so-called justice is that only I can be the first, then I suggest that foreign antitrust agencies should check it carefully!

...

Some people look down on others' good.

Anyone who is better than me is an enemy and must be defeated.

I want to tell these people that the times have changed, and the great powers only exist in history, and they will always be left behind the wheels of the times.

...

There is a disease called pink eye.

I personally suggest that these people should go to the ophthalmology department first.

...

Adhering to the so-called hegemony will only be far away from the times.

Those so-called sanctions, the people of Xia Kingdom were not afraid before, now they are not, and in the future...not to be afraid!

...

I don't know the so-called, laughed generously, extremely ridiculous!

Seeing the disdainful little eyes and a sneer at the corner of his mouth, Brother Yu smiled and slapped his thigh straight.

Just this little eye, add a red eye to kill everything!

It deserves to be a new generation of diplomatic missions, and those foreign media who want to find things are blushing.

There is only one sneer for anyone who wants to mess around with: the next one!

At the same time, Qin Yu also began to exert his strength.

With the program "Xia Guo on the Bite of the Tongue", the small anchor has 2 million+ fans on YouTube

It has also been kindly called by foreign friends as "the most beautiful Xia Guoren", "food hunter" and "Xia Guo golden travel guide"

The high standards of the program, strict advertising control and the authenticity of the program have accumulated a good reputation for her!

Those foreign friends who come to China to travel or settle down.

According to the guide of her show, there is no experience of car overturning.

This point was also sent to the bottom of the YouTube video screen with tens of thousands of comments, representing the credibility of the small anchor.

Therefore, when she advertised for a drug for the first time by herself, it attracted a lot of people's curiosity and attention.

There are very few small anchors who directly believe that foreigners are still very sensitive to drugs.

Especially when it comes to oriental medicines, those magical soups (Chinese medicine) are like the magic potions of witches in their hearts.

Mysterious, weird, evil!

However, some of the information mentioned by the little anchor in the program has also been noticed by interested people.

Several giants jointly stated that Pfizer sent its legal team and hired the third largest law firm in New York to act as an agent.

At the same time, its lobby team set off to the White House.

What follows will be a protracted battle. For those involved, it represents an opportunity for wireless and a lot of money into the account.

The premise is that the desired results can be achieved.

Before the law firm took the case, it had a bet with Pfizer...

Take Miracle Pharmaceutical and let it be reviewed, and you can get an eight-figure reward.

Sanctions were imposed, and the rewards jumped to nine-digit sky-high prices.

Upon completion of the acquisition, the law firm will receive a 1% equity award.

If nothing is achieved, only basic working hours will be charged for this case.

All the initial investment and expenses shall be borne by the law firm itself.

That is to say, the law firm has to lose money, the longer the delay, the greater the investment, the more it will lose!

But once successful, this order is enough to cover the first half of the income.

Such a large profit is worth a gamble!

Chapter 532:

Skadden's senior partner, Tom Bruce, led the team to Hudu, and the first time he tried to get in touch with Qin Yu.

At the same time, the junior partner led the team to the abandoned city, first set up a hand with Miracle Pharmaceutical and test the strength of the opponent!

There are many ways to achieve this goal, and Skadden made several plans for this case.

There are more than a dozen plans for soft, hard, bright and dark.

This time, I will first explore the tone and attitude of Miracle Pharmaceuticals to see which plan should be used to achieve the goal!

However, the other party did not even see anyone.

Your bald eagle ran to Xiaguo to sanction my Xiaguo enterprise?

It's as ridiculous as a bad neighbor suddenly breaking into your house and discussing whether you should live here.

Program? ? ?

Sorry, you made a mistake and didn't intend to talk to you at all.

If you have the ability to let the court follow, Miracle Pharmaceuticals will definitely cooperate fully.

...

...

Tom Bruce also encountered a problem here. He wanted to use the official platform to force Qin Yu to come forward.

I found the yamen and found that the situation was different from what I thought.

"Business negotiations should be justified. If you like me, how can you force the other party to come forward? What is that, is it a hooligan?"

Being confronted by a staff member, Tom was very upset: "We are from the Bald Eagle and represent Pfizer and many pharmaceutical giants."

"So what?" The clerk responded without showing any weakness: "This is Xia Guo. Didn't you propose the freedom of the market?"

"..." Tom was speechless.

I just want to meet an individual, what does it have to do with the freedom of the market?

Besides, this freedom has always been set by us. When is it your turn to set it?

"Miracle Pharmaceutical's approach is to disrupt the market and combat the progress and development of the pharmaceutical field..."

"Sorry, that's something that the superior is worried about. I can't manage it. You can find someone who can."

Tom Cruise asked angrily: "I'm going to complain to you."

"Go out and turn left, no delivery!" The clerk raised his head and waved his hand, holding up his big tea mug to drink tea "Zizi".

It happened to be written on the big tea cup: Friends come and there will be meat and wine, and the wealthy wolf will have shotguns!

Seeing the attitude that the other party didn't care at all, Tom Cruise snorted angrily: "You will regret it."

A blank eye is the final answer, in the vernacular: Get out!

He was really not afraid of complaints, and words came from above.

What kind of foreigner's lawyer, don't have to show good face

The other party is here to find the fault deliberately, the key is not to find the target, and pick a hard problem.

Not only are people cared for by people, but local families and people are all brothers and sisters.

I'm afraid that I will lose my heart and be crazy when I run to this place to show off its prestige!

When he went out, Tom really ran to complain.

If this is not a complaint, he will feel uncomfortable. As for the result is not important, what he seeks is self-comfort.

She lost face in front of his subordinates and couldn't find a way to get it back.

"Bruce, what should we do?" someone asked.

"Go to school, I don't believe that everyone will help him." Tom smiled triumphantly, showing a confident spirit.

In fact, he would have no end in mind for a long time.

This time in Xia Guo, the situation was different from what he expected.

It shouldn't be respectful and respectful, what you say is what you say, and all the requests are met.

Like the neon little monkeys, do they hold themselves on their heads?

Pfizer's biggest mistake this time was to find Skadden, who has no Asian business, to take the case.

Changing the law firm may have completely different results!

Bringing people to the school, the door guard learned that he was looking for Qin Yu, and his attitude was a bit warm.

"What's the good thing about you looking for classmate Qin? What feat did he do again?" The doorman slid in English and didn't stumble at all.

Hearing his question, Tom sneered: "He is in big trouble."

The uncle doorman saw his face, and his face also changed: "So, you are here for trouble?"

Tom arrogantly said: "I am a senior lawyer from Skadden Firm. This time I am representing Pfizer and many other companies."

The doorman grabbed the register and waved impatiently: "Walk around, there is no one you are looking for here."

"You, unreasonable... You clearly said that he is here." Tom was furious and didn't understand what was wrong.

Knowing that Qin Yu is in serious trouble, shouldn't the other party be afraid to avoid it and get angry?

Isn't it a typical self-interest that people only care about their own interests?

"I said no, no, I just heard it wrong." Seeing Tom Bruce unconvinced.

The uncle doorman raised his neck and crossed his eyebrows and said, "Why, I want to rush, believe it or not, I'll catch it for you?"

"This is the school. What place do you think it is? I said that if you can't get in, you can't get in." The door guard returned to the house after reaching out for several people.

"Dead foreign devil, I think it was 100 years ago that he was able to run wild on the land of Xia Guo, I bah!"

Scolded, he also used English specifically, his voice was not too loud, just so Tom could hear him.

This annoyed him, pointing to the uncle: "Crude, savage, unreasonable guy..."

"There are only a few curses, it's pitiful, let me learn Daxia language! Teach you how to do the same in one day..."

The doorman murmured in Daxia, looking at Tom with pitiful eyes.

Although he didn't understand what he was saying, Tom could see the pity and disdain in his eyes.

!? Tom Bruce, senior partner of Skadden, need you to be a poor watchman? ? ?

"Huh...huh..." Tom panted out of breath.

"Bruce, it seems we can't get in, now..."

"Wait, **** shit. Don't let me teach you everything, you don't have a brain? Or is your mind filled with shit?"

Seeing that Tom, who was spitting fragrantly, cursed his subordinates with a dog-blood spray, the doorman uncle happily joined the fun.

This foreigner scolds the foreigner, looking at the beating with great energy!

But he had to tell Xiao Qin's instructor first, so that he would not come back these days.

Otherwise, it has to be positive.

...

...

After receiving a call from the instructor, Yu Ge and Li Wanxing are watching the yacht at Boxing.

Pershing 155, soft-fitted in accordance with Qin Yu's requirements, with a total price of 280 million.

The delivery time is two weeks, which is already the fastest.

"Understood, Old Shen, did you see the gift?" Qin Yu didn't take it seriously, and chatted with Shen Wanqian Kan Dashan.

"You kid... next time you have two more boxes. Anyway, you have more."

"You just use it, you have to manage it...just to cherish your body, my sister-in-law may not be able to stand it."

"Get out Your kid is getting smaller and younger, and my sister-in-law dares to tease!"

"I will have dinner at home another day, so I have to have a good chat with my sister-in-law!"

"Who invited you home for dinner?"

"You didn't mean that my sister-in-law wants to invite me to eat at home, I love to eat dumplings."

Li Wanxing slapped him a few times, and said with all eyebrows and eyes: "I'm not doing it right."

Qin Yu hung up the phone and signed the name on the contract: "That's it!"

Because Qin Yu asked for extra time, he had to pay 60% in advance.

Brother Yu has no opinion on this point, and the full payment is ok.

It's just that when I paid the money, I asked more: "You promise to deliver within two weeks."

"Yes, I assure you, Mr. Qin."

OK, swiping is done!

Chapter 533: Delicious or dumplings

He didn't eat the dumplings made by his sister-in-law, but Li Wanxing made him mushroom dumplings.

"Then you won't go to school like this?" Of course Li Wanxing would be worried if someone makes trouble for him.

"What are you going to do?" Qin Yu took a bite of the dumplings, splashing oil and water, smelling!

"Talk about it." Li Wanxing said.

"There is nothing to talk about, the other party is completely deliberately looking for faults. If you want him to stick to it, then it will be a hit!

Whether it is your fault or not, it will have a certain negative impact on Miracle Pharmaceutical in public opinion.

If a crisis of confidence occurs, it will be troublesome to export later. "

This is also a common trick in the market. If you can't beat you technically, just beat you in other ways and drag you down.

As long as your product cannot enter the market or the public has doubts, no matter how good the product is, it is a dead end.

Avoiding sight is not a good way, but it is the simplest and most effective.

As long as no one can be found, no matter what the other party unilaterally uses, it will not stand up to scrutiny and will be untenable.

"Are you not afraid of being on the trade blacklist?" Li Wanxing said amused.

"Do you need to be afraid?" Qin Yu said to himself: "The effect of kidney power is there. The whole Xia Guo said yes, some people questioned!

The whole East Asia said yes, some people questioned! But if the whole of Asia and some European countries say yes, there are still people who question it? ? ? "

Qin Yu picked up the last dumpling and put it in his mouth: "You have to believe in the eyes of the people, it is discerning!"

...

...

For four days in a row, Tom Bruce took someone to station at the school gate.

The eyes I look at every day are blurred, and I haven't even seen a person.

The whole person was more energetic than when he came, became haggard and awkward, with a stubble beard, sunken eye sockets, and a pale face.

If you change into a bad suit, put a bowl in front of you...

Glorious post!

Tom was tortured in such a way that he became a foreign beggar in the wind and the sun.

Brother Yu is eating seafood and drinking freshly squeezed soy milk in the top-floor mansion at Seaview One. Tsk tsk...

A gluttonous meal, full of juices and hearty!

"How is the advertising effect?" The little anchor wiped his sweat and asked about YouTube advertising.

This is her first time advertising. Although the feedback from the Internet is good, she has no idea about the actual effect!

"The response is overwhelming. What is needed now is public opinion, and the market response will not be known until the kidney power is sold overseas."

Shaking her hair down from the top of her head, Qin Yu joked, "Finally, rest for a few days, so just leave it alone."

The little anchor murmured: "How can I leave it alone? It has become a habit."

It is impossible to truly take the burden off when you truly devote yourself to one thing.

It can only be said to re-rest, just for a better start next time!

Because it has become a habit to integrate into life.

After resting at home for two days, the little anchor just took a short video, made a dozen calls, and broadcasted one live broadcast.

Compared to her usual schedule, this is already a holiday...

Wang Hong is not at home, and is still busy in the aftermath and closing of the show in Guichuan.

The habit of sending photos to Qin Yu every day hasn't changed...

It's just that the taste is obviously advanced now.

From the beginning of the seafood directly, to the present, he is still holding the pipa half-hidden, and he is embarrassed, and the mysterious sense of darkness is full of temptation!

As Brother Yu said, sometimes wearing it is more flavorful than not wearing it...

The next day, Qin Yu got up and went to the clubhouse.

There are fewer days for the little anchor to come back, and fewer days for him to come back.

So Shaman has all his opinions, exchanges back to exchanges, can you be punctual, don't disappear for half a month.

It's really a flood caused by waterlogging, and a drought caused by drought!

After jumping into the pool, Qin Yu swam two laps first, and then Sha Man came.

"How about this touring exhibition?" Qin Yu asked curiously, keeping the backstroke parallel to her.

"Yeah." Sha Man was indifferent.

Seeing that he was a little angry, Qin Yu dived deep into the water.

She got up again and threw it directly into the water for Shaman, then stretched out her hand to pull it up and swam to the side of the pool while holding it.

Push her ashore first, and Qin Yu followed up, picked up and walked to the bathroom.

"You let me down, Beast, don't even think about... let me down..." Sha Man struggling to pat his shoulder.

Qin Yu was like a okay person, just breaking into the bathroom.

Between beasts and beasts inferior, he obviously chooses the former!

When she came out of the bathroom, Sha Man changed from a glamorous and glamorous person to a clingy little woman.

He put his arms in his arms, rested his head on his shoulders, and walked home happily.

When I got home, I changed my shoes, picked up a paintbrush, and walked to the studio.

Because of a bad mood, she never finished a painting ordered by the customer.

Today, the inspiration is like a climax, endless!

Shaman feels that it only takes a few pens to complete this order.

Swipe~

Shaman stopped writing, holding the brush in his mouth and backing in satisfaction, watching the new work in front of her throw away the brush, while raising her arms to stretch her waist.

16 hours have passed...

"Qin Yu?" After completely relaxing, Sha Man finally thought of her comrade-in-arms.

"Huh?" Qin Yu, who was playing notes on the sofa, looked up and looked back.

"I thought you were gone." Sha Man breathed a sigh of relief and said happily: "My new work is complete."

"It's worth celebrating." Qin Yu turned off the phone after swiping the last plane off and said: "The takeaway I ordered should be coming soon."

"What is it?" Shaman asked.

"Hot pot!" Qin Yu said.

Almost no one doesn't like such delicacies, and Qin Yu specially ordered her favorite mushroom soup pot and dishes.

"Ah~" After stretching her waist, Sha Man tucked her head in his arms: "I will go to bed first, and call me when the meal comes."

"Okay." Qin Yu just wanted to ask her if she would like to celebrate with a drink first, when she heard her even breathing.

For 16 hours in a row, Shaman was already exhausted.

As soon as his head was resting on Qin Yu's thigh, he fell asleep!

Reluctantly shook his head, Brother Yu turned on the notes again and continued to watch the girl dance.

Recently I saw a few good newcomers, the quality is good, and the freshness is above 88.

People are all in Hudu, it's okay to call out for fun...

Just thinking about it, the phone rang, it was an unfamiliar number.

Qin Yu thought it was a takeaway, but only found out that it was from the Hudu Ferrari flagship store.

"Dear Mr. Qin Yu, this is the Hudu Ferrari flagship store. I am honored to inform you that your Ferrari Rafa has arrived at the port..."

Two horses arrived, one hardtop and one convertible.

Without even saying hello, Elkan directly sent someone to Hudu to give him a big surprise.

It's really a pleasant surprise, UU reading [www.uukanshu](http://www.uukanshu.com). He also feels Elkan's sincerity!

Without paying a penny, the other party directly delivered the car to the door without any extra phone calls.

You don't want to accept this favor...

For what, Yu Ge naturally has a heart like a mirror.

Here asked the other party to send the car to Haijing No.1, Qin Yu hung up the phone and notified Yan Xue: "Tell President Jiang that Elkan's money has been collected."

That's right, the current Lixin Investment is so hard-headed to invest money in, so Brother Yu has to nod his head.

He has this confidence and strength, short historical achievements, it is not an exaggeration to describe it as brilliant.

Crowned as king, nothing more than this...

Chapter 534: Brother Yu, you are on fire again

Qin Yu was a little fidgety and eager to take up the line here.

The closer you get to the target, the more you can't calm down.

Soon to see his two horses, it is strange that Brother Yu can calm down.

The three great cars, Rafa is definitely well-deserved!

After half an hour, the takeaway arrived.

After another half an hour, Rafa, who had been waiting for a long time, finally arrived.

I slipped a note to Shaman to prevent her from waking up midway.

Qin Yu slipped out and went straight to the gate, where two pallets were unloading.

The pallet is covered with a grey dustproof and rainproof cloth, which will be removing the rope.

"I'm Qin Yu." Open the electronic voucher previously sent by the other party and scan the code to verify the authenticity.

"Mr. Qin, you are here just right, do you want to unveil it yourself?" The other party pointed to the silk car cover under the rain cloth.

Luxury, a sense of ritual must be indispensable.

Not only can it bring out the brand's compelling style, but it can also make the main body of the car feel the pleasure of buying the product and satisfy the vanity of consumers!

"Okay, take a short video for me, don't show up." Qin Yu handed the phone to the other party.

"No problem!" After receiving the phone, the staff thought to himself that this person is really low-key.

Two Ferrari Rafas, hardtop and convertible are all in one go.

You even made a small video without showing your face?

The young and wealthy generation nowadays, should they be so low-key? ?

"OK, you can start." After setting the angle, press the camera button while the voice is on the ground.

Qin Yu stretched out his hand and pulled the silk downwards, and the silky silk fell off naturally.

The bright red prancing horse came into view, attracting everyone's attention.

Handsome...

No matter from which angle you look at it, its handsomeness goes straight to the heart.

It doesn't make sense, just like, like, like...

"Mr. Qin, there is still this side." The photographer's tone was a little anxious.

After seeing the Prancing Horse, he can't wait to see the convertible Rafa, which is rarer than this hardtop.

Also more expensive!

For those who play cars, such a car is enough to satisfy all their fantasies.

In the three great cars, Rafa is by no means an empty frame.

Whether it is power, design, heritage, brand, everything is worthy of the name!

Coming to the side of the cart and reaching out to grab the corner of the silk car cover, Brother Yu was equally excited.

Waiting for the other party to say OK, waiting for two seconds, Yu Ge decisively pulled down the car cover.

The same bright red, the shape is softer than the hard top, but it adds a bit of restraint and fierceness.

The two cars were completely exposed to the air, and the streets began to be congested.

Two Rafas, one for the hardtop and one for the convertible.

This kind of picture is not often seen, and if you encounter it once in your life, you are lucky.

If you don't take pictures, send a note, and circle of friends, I'm sorry for this luck.

Qin Yu took a look and put on the hood from his pocket: "I will say hello to the security guard and go straight into the community."

After a while, the door opened, and the two Rafa drove into the community by the cart, and the iron door blocked the lens and gaze from prying eyes.

"Go down, slow down, slow down, slow down..." Under the command of a special person, the two cars landed safely.

Hand over the keys and all the procedures to Qin Yu, and the delivery is considered to be a successful conclusion.

The other party expressed that he wanted to take a photo with Qin Yu in front of the two cars, and he also agreed.

It's just that Qin Yu in the photo has been wearing a mask, but the other side's smile is particularly brilliant.

The two brand new Rafas behind him are well-deserved protagonists even if they are not in the C position.

"Go slowly." After giving 1,000 yuan for hard work, Brother Yu sent the people away.

Turn around and call Li Xiao: "Brother, under the track arrangement, prepare two cards for me by the way, better."

"Which one is back?" Li Xiao asked urgently.

Qin Yu cared about Dulli and ordered several cars, which he knew.

I have been waiting for the car to come back and get on the track to see and see.

This time I don't know which one is coming back. Listening to his excited tone, is it the sixth element? ? ?

"Rafa, two stations." Qin Yu responded with a little triumph.

"What?...Rafa? Two more?" Li Xiao's tone was full of questions.

Qin Yu doesn't even have a Ferrari in his hand, how can I buy a Rafa?

"I'll talk about it later. Arrange a race on the track first. You have to find someone to drive the car over. I can't handle it alone."

The other party didn't dare to pick up this kind of luxury car, and there was not much people around Qin Yu who could use it, so he could only borrow it from him.

"Wait, I'll pass now." Li Xiao wanted to drive by himself.

This is Rafa, do you understand Rafa?

It is the highest faith, irreplaceable...

When Li Xiao arrived, he bent down and lay down beside the car, touching from front to back like a lover.

Qin Yu knew that he was so in love with Ferrari!

"I don't love Ferrari, but Rafa." Li Xiao looked at him jealously and asked: "If you can't get it, you say the price."

"Do you think I'm short of money?" Qin Yu asked amusedly.

Although knowing that the question is no question, Li Xiao still wants to try, what if he gets lucky?

As a result, it can only be said to be the same as his true thoughts.

Whether it's playing cars, collecting, or ordinary riders, there is definitely no shortage of money to get Rafa.

Sell, unless you give a price that you can't refuse. '

Otherwise, the possibility of buying is very slim!

"Let's go, the arrangement is over there." Li Xiao pointed to the hardtop and said he would drive this one.

Throwing the key to him, Qin Yu opened the open door and sat in.

Ignite, start!

Buzz, boom...

There was a constant roar in the transparent hood, and two cars drove one after the other towards the stadium.

The bright red color forms a beautiful landscape on the street.

Every time the roar sounds, it will attract the attention of countless people.

Women know the Prancing Horse and it is hard to find that it is a luxury car.

Although surprised and envious, but also fleeting!

Only those who understand the car and see these two Rafas will yell in amazement: "Rafa, fuck!"

This is the sixth and seventh Rafa in China?

Did you buy it together, or did you buy it alone?

Someone has already picked up the phone and started shooting frantically. The little internet celebrity with the lane turned his mind and decided to add something to himself.

"The Rafa that eldest brother just mentioned is here, everything is up and down, hey... just for fun!"

When Qin Yu arrived at the stadium, the Internet was full of news about Rafah's trip.

The heat hasn't risen yet, but many people have already noticed it.

There is also real-time tracking in the following message: Zhonghuan sees super handsome!

Driving into the Baoan intersection, speeding up, this sound wave, fucking, fucking...

Anchen Road, I'm at the International Circuit, I have to follow it and have a look.

I'm going to take the subway now, and I must watch!

Can my old camera catch up with Rafa?

The point-and-shoot camera passed down by my grandfather is already in place. Which eldest brother will take me with you? ? ?

Opening the car door, Qin Yu saw Xu Hao shaking his phone and shouting: "Brother Yu, you are on fire again!"

Why do you want to say it again?

Then you have to ask how the musical note "Xing Tian" came from!

Chapter 535: Pity

Xing Tian, the first male **** of war with musical notes.

Known as the "Headless Horseman" because the short video released has never shown his face.

The figure is good enough to explode, with golden ratio lines.

Abdominal Ripper.....

Several sets of sweaty short videos have over 8 million likes on the notes.

Horrible!

"Don't mention the Headless Horseman, we are still friends." Yu Ge said with a dark face, "What kind of ghost name is this."

"Fine, do not call that, Xingtian God of War?" Seeing Qin Yu raising his leg, Xu Hao turned and ran.

Yang Chengjun was lying on the hood of the car at this meeting, spreading his hands and putting his face on it, his face crooked...

Ah, my baby~

Vomit~

"Give you the key, Brother Jun, get up quickly!" Brother Yu couldn't stand it.

If this is photographed by people, I will ruin the fame.

Don't say you know me when you go out in the future, you can't afford to lose that person...

After receiving the key, Yang Chengjun slipped into the cab.

Rafa, who hadn't stalled, started slowly, drove to the track, and then was stopped.

Wait for the 488 and Farafield that are testing the performance inside to pass, the gate is released, hum~

The red whirlwind broke into the track like a grumpy beast.

Roll up a tornado and fly forward...

The headsets of the two cars ahead received notifications: "There are cars coming in, and there are cars coming in, please pay attention!"

The eyes of the two drivers locked tight, their hands holding the steering wheel tightly, and the corners of their mouths turned up slightly, revealing a touch of confidence.

Come on, let you know what is called, hoo...

Buzzing...

????

The two drivers who are vying and want to teach the newcomer a lesson are stupid. What passed just now, lightning?

Manic and stable!

Every detail of the control can be reflected on the body in time.

The extended control feeling like an arm command and the powerful power hidden in the car deeply attracted Yang Chengjun.

This time he couldn't hold back his strength, the tires were rubbing frantically on the track, the blue smoke and the harsh screams.

The audience was stunned: Damn, can you still play like this?

Big brother is really willing, and sure enough, the happiness of big brother can't be imagined...

Seeing his rude performance, 488 and Faraday changed off the track.

When people play cars, the eldest brother kills, can't afford to provoke, can't provoke!!!

In the next few laps, Yang Chengjun stopped for a few laps and drove the car off the track.

"Brother Yu, the tires count as mine." The lines on the two rear wheels were obviously lighter, and Yang Chengjun scratched his head in embarrassment.

"Okay, cover you, I have to make two laps." Qin Yu said with a smile.

There is no need to fight for this little thing, it's not a problem for anyone!

After getting on the bus again, Qin Yu tilted his head towards Li Xiao who was already impatient:

"Brother, come on a lap?"

"Is that something? Go!" Li Xiao got into the cab.

Like a monkey beside him, Xu Hao couldn't help it, jumping around: "I have to follow the car, brother, wait for me."

"Fuck off, go to Brother Yu, knowing that my skills are not as good as him." Li Xiao scolded with a smile.

Xu Hao ran around the front of the car and said, "Brother Yu, I'm with you."

Pulling the door and sitting in the seat, Xu Hao fastened his seat belt, grasping the belt with both hands, and clearly said: I will not get out of the car if I say anything.

Seeing Li Xiao's proud expression and coaxing the throttle to drive towards the gate, Qin Yu reluctantly complained: "Are you the spy sent from the other side?"

"Definitely not." Xu Hao shook his head, and said suddenly: "It's a funny comparison at most, hehehe..."

As Ambi, I am quite self-aware!

"Brother Yu, brother is gone." Xu Hao anxiously pointed forward.

On the track, Li Xiao was ready.

Qin Yu grinned: "Don't worry, he can't run."

Driving into the No. 2 track, Qin Yu gestured to Li Xiao who was looking back: You, no.

Li Xiao banged his foot on the accelerator and raised his eyebrows provocatively: I know after the comparison, come on!

Toot, toot, toot, cloth~

The sirens sounded and the two cars moved forward at the same time.

Just like two wild horses running off the rein, lined up in a row between the gallops.

"Who is in front?" Many people didn't see it clearly, they knew that the two red tornado flashes had lined up in a row.

Who is in front and who is behind, I didn't see clearly at all.

The first reaction in my heart: So fast, much faster than my Yadi.

"The convertible, the convertible is in front, it's about to bend... Fuck, cow batch, cow batch..."

Seeing the two men driving side by side into the curve, their speed dropped again and again, and their movements were uniform and smooth.

The visual enjoyment brought by the audience made the audience call: Good fellow!

Li Xiao's driving skills are not bad at all, that is, he is more cautious in his choice of detail control and cutting angle.

When faced with taking risks to take one step faster, he often chooses safety first.

Brother Yu is different, determined and capable.

When you see an opportunity, you will never let go. The high performance of the car under his control often gives people an illusion.

This car is so strong and stable, so I can get on it!

But wait to get started: no, no?

Say, is it even the parts inside...

With Qin Yu's extremely detailed operations, the distance gradually opened up.

By the time of the third lap, Qin Yu was about to overtake Li Xiao by one lap, and this sense of frustration made him instantly lose interest.

Seeing Qin Yu passing by, Li Xiao gradually slowed down and drove the car off the track.

When Qin Yu came back, he was already resting next to him with a cigarette in his mouth.

"Brother Yu, your car skills are really wasted." Li Xiao exclaimed.

If he had this skill, it wouldn't be justified if he didn't go to the competition to win prizes.

Qin Yu just used it for fun, it was outrageous!

"What fun is there to turn interest into a profession?" Qin Yu asked rhetorically.

Li Xiao thought for a while, and said with a dumb smile: "That's right!"

If you really turn your interest into a career, you lose the essential fun.

Pure play, why must it be in the tournament.

Brother Yu is not short of money, where is he not playing?

So, if you pursue different pursuits, you will naturally have different ideas, and your **** determines your head. This is true.

"Brother Yu, Brother Yu, let me take a lap!" Xu Hao jumped up and down anxiously without touching the steering wheel.

Throwing the key to him, Qin Yu sat next to Li Xiao and took two bites of the cigarette he handed over.

Qin Yu is not addicted to cigarettes, but sometimes smokes a cigarette.

It's just a leisure pastime, and anyone with absolute self-control is not afraid of contact with anything.

But 99% of people can't talk about 'absolute self-control.'

Only those who are less than 1% can suppress instinct and desire by their own will.

Brother Yu is also one of 99%, a layman!

However, his interests have always been very specific.

Give young lady a warm home, this is his ambition and desire.

The rest of is just a leisure time addition and fun.

"Handsome guy, can you borrow a fire?" I was chatting with my little brother, and a faint fragrance came from beside him.

Looking back, Yu Ge's eyes were directly on the freshness.

Less than 80, Miss Sister, your path is narrow.

Smiling at Li Xiao, Brother Yu patted him on the shoulder and stood up: This girl belongs to him.

Except for the freshness, everything else is at 90+, which is not wrong!

It's the old saying: It's not that my sister is not good, but my brother's requirements are too high.

Whenever you cherish yourself when you are young, Brother Yu will look twice more, it's a pity...

Chapter 536: Loyalty Card

"Handsome guy, let's take a fire!" Qin Yu left her on the spot, and the young lady didn't get angry, so she turned her target to Li Xiao.

Click~

The fire ignited, and Li Xiao also left: "I'll see you off."

Holding the lighter, Miss Sister was a little dazed: Am I really here to borrow the fire? ? ?

Brother Yu's idea is very simple. Brother Yu doesn't like it. There must be a problem.

Relying on Li Xiao's observation, he has a special 'appraisal method.'

What can I tell, I haven't figured it out yet!

But the looks are not bad, the figure is not bad, and there is no interest...

If there is a problem, just start flashing! ! !

"Brother Yu, many people have contacted me recently and want to talk to you." With his hands on the railing, Li Xiao looked at the Rafa Tucao on the track: "Mouse is a car skill..."

Cover your face.jpg.

Can't bear to look straight, if I don't complain, I'm sorry to myself.

"Let him play." Qin Yu smiled and said, "Those people you said want to take a ride?"

"Yes, there are people from Shangdu who come to buy me a meal." Li Xiao smiled and said, "You really don't know, the people waiting to find me to drink are all out of the river."

"It depends on what you mean!" Li Xiao said.

If Qin Yu is interested, he will help introduce him.

If you are not interested, then this matter has never happened, anyway, it depends on what he means.

I was lucky and took an early bus.

Don't really use yourself as the master, Li Xiao can understand the sense of things in it!

"What do you think?" Qin Yu asked what he meant.

Li Xiao replied readily: "If you don't need money, let them go wherever they come."

"However, many friends have many paths, snakes have snake paths, rats have rat paths." Li Xiao thought for a while, and said, "It depends on what you think."

What Qin Yu thinks is really different from him. There are always pros and cons to mixing in small circles.

Clean, simple, but too restrictive!

It is impossible for Qin Yu to mix with Li Xiao all the time, there are always places they can't touch.

Furthermore, the mutual dependence is too heavy.

It's not that it's bad, it's just...be prepared for danger in times of peace, and sometimes it's safer to prepare more for yourself.

"See you all!" Qin Yu asked, "About how many people?"

"Thirty or forty, you have to ask before you know it." Li Xiao asked back: "The arrangement is in the Pujiang Mansion?"

"Change location...at Waldorf Astoria." The experience at Weijing Pavilion last time was good, but steward Yao always had a chance to perform.

Jingle.

Hearing his phone ringing, Li Xiao stood up straight and said, "Okay, I will let you know when the arrangements are made. I will go down and play two more laps."

He took out his cell phone, and the call was from Yan Xue: "Boss, there is a man named He Wu looking for you."

He Wu?

With his thoughts turning, Brother Yu thought of who it was.

Isn't this a cruel person "Zazaza"?

"Yes, I gave him the contact information, so you bring him to the international circuit..."

Half an hour later, Qin Yu saw He Wu outside the stadium.

Still that taciturn, low-key, unpretentious look.

Throw him in the crowd, you will never find it!

"Did you think about it?" Qin Yu said straightforwardly.

He Wu is not a person who can speak well, and Qin Yu believes that he prefers to do things directly.

Therefore, everyone is not very polite.

"Hmm..." He Wu nodded and said hesitantly: "I want a salary of 20,000 yuan, and I want you to be injured unless I die."

He looked like he was going to the battlefield, generous and solemn.

Qin Yu laughed out instantly: "Haha, don't be so serious, I'm looking for a driver, not a killer."

Realizing that he had made a mistake, He Wu showed embarrassment on his face.

Then, as if worried about wages, he opened his mouth and didn't know what to say.

The other party doesn't need him to work his life, blocking bullets is even more nonsense!

In Xia Guo, you might not see a gun for a lifetime, let alone block bullets.

"In this way, the salary is as you said, I only have one requirement for your job, and I have to be strict."

The driver must be the confidant in his heart, and if his mouth is not strict, he will have trouble for no reason.

"When I work, I keep my ears and mouth at home." He Wu grinned, silly and generous.

But when he thought that he was going up to be the picture of 'Zaza Zha', Brother Yu couldn't help laughing.

"Mouse." Qin Yu beckoned to Xu Hao who was queuing to play.

"Brother Yu, what's the matter?" Xu Hao glanced at He Wu. He didn't dislike the 'shabby,' he was wearing, jokingly: "Which master is this brother?"

"He Wu." He patted He Wu on the shoulder, and Qin Yu said: "If you are not a master, try it yourself, and you will take him in the car to familiarize yourself with the operation."

"Playing a car?" Xu Hao became interested.

But in an instant he took Qin Yu back again: "My newly hired driver is quite interesting."

"Understood." Xu Hao was a little depressed, thinking that there was a master.

However, when I thought that I could teach others, my mood immediately changed again: "I have an old driver like me to take you, don't worry."

Reaching out to hug the other's shoulders, He Wu moved his feet calmly.

He has no interest in physical contact other than his wife or children.

Xu Hao was stunned, then laughed and said, "My buddy, I have a normal orientation. I walk around and get in the car before talking."

Li Xiao has returned and is parking the car.

"Brother, the driver Yu Ge just hired, I will familiarize him with the car." After talking to Li Xiao, Xu Hao greeted him to get in the car.

After closing the door, Xu Hao triumphantly began to introduce the controls inside the car.

I talked about all the operations, and asked: "No matter how much I said, it's not as good as the actual operation. I'll take a look at it first."

He Wu nodded and agreed.

Xu Hao is quite reliable in handling affairs, and he hasn't dazzled his skills. He should speed up and slow down.

Just slid around the track like this, stopped the car and asked: "How about it, you have a lap?"

"Okay." He Wu opened the door and got out of the car, changing positions with him.

"Start slowly, slow down, slow down, grass..." The strong feeling of pushing back made Xu Hao lose the logic of his language, and a scream came from inside the car.

Standing next to Qin Yu, Li Xiao asked amusedly: "This is that person?"

"Well, there are a lot of stories about him." Qin Yu responded.

"If there are many stories, there will be more trouble." Li Xiao didn't agree with his decision. Such people of unknown origin would still have less contact with subtleties, let alone put them around.

A personal driver hired by oneself is more than just driving a car.

Being able to get in touch with his daily life and circle will also be the closest person.

It is best to find the best.

"Don't worry, I have a sense of measure!" Qin Yu smiled, silently saying, 'Open the panel.'

Click on the 'card box.'

Qin Yu found out the 'loyalty card' he had previously obtained, and secretly selected He Wu as the target.

"Whether the loyalty card is used for the target, the loyalty to the host will reach 99+???"

"confirm."

"The target is confirmed, the card has been used, and the target loyalty has been reached???"

[Promotion: The target's loyalty to the host has reached its limit, and the host's command is the highest priority]

[Hint: This effect is not constant. If the host issues a command that violates the target's wishes, emotions, and bottom line, it may have a negative effect]

[Reminder: Negative effects depend on the importance of the target, exceeding the limit may cause rebellion]

It depends on the degree of importance, that is, if Qin Yu orders him to hurt his wife and children.

Based on the degree of his care for his wife and daughter that day, there is a high probability that he would directly choose to 'anti-kill,' killing Qin Yu.

But if he is asked to deal with a few wild cats, even He Wu is a cat lover.

Will also start without hesitation, at most causing a drop in loyalty.

It is not constant, which means that the 'loyalty card' does not directly turn He Wu into a 'robot.'

This not only didn't make Yu brother angry, but he felt happy and inexplicably relieved.

If the system can really brainwash and control He Wu directly, let him become a machine that obeys himself.

What needs to be worried is Qin Yu...

Is he the same he used to be He has always been Qin Yu!

Or is it parasitized by the system and controlled by a pair of invisible hands? ? ?

At least judging from the performance of the current system, it cannot completely force 'living bodies' to do things against their will.

In other words, Brother Yu's dream is real, hehehe...

"Sure enough, I've been a good boy with dreams since I was a kid." Brother Yu rubbed his chin, feeling good about himself.

At this moment, in the cramped room, treacherous eyes flashed with weird smiles.

A pair of big hands left an afterimage on the keyboard, hidden in the darkness with the weird smile of 'hehehe'.

Chapter 537: It's not the future

Late at night, two Rafas stopped in front of the master.

Originally, Xu Hao suggested to go to Lebaron, but was directly rejected by Brother Yu.

After coming to Shanghai for so long, all you should know is clear!

LEBARON, a small internet celebrity in the water, a poor foreigner, a "ladies" punching in and pretending to be forced.

What are you going to do, drink salt water?

OWNERCIRCLE, the holy land of Aventure Card, is full of acquaintances of Xu Hao and Yang Chengjun.

As soon as they entered the door, they were blocked by various monsters and ghosts. The scared two turned around and squirmed, which is simply outrageous!

The two were determined not to go back, and did not want to go to TAXX, saying that they were tired of playing.

Finally, choose MASTER for a light and shadow show...

Passing through the silent laser belt, the door is flashing and flashing!

All kinds of lights interlaced, you are dazzled by the flashing, and you can't see anything...

Accompanied by screaming and cheering, the atmosphere is very tight.

It doesn't matter if it's the best heavenly dish or the monsters.

Under the light, all the colors are the same, and the farts are not visible.

"Brother Yu, there's something wrong with this place!" Xu Hao screamed in his ear while shaking his hands with Dian Yin.

"I can see it." Qin Yu noticed it as soon as he came in.

There is no one here.

The front bar was crowded with people, but there were only a handful of people.

The rest of the place is empty, those who stand up and play with their phones with wine in the decks.

At first glance, the professional atmosphere group is fishing for Big Brother...

Sweeping my eyes, at least half of them are the atmosphere group, this is a der!

After half of the excitement at the beginning, Qin Yu remembered that there seemed to be two halls next door.

There is something about Five. I heard that the hall is small, but the atmosphere is very good.

"Go, take a look next door." Qin Yu took the lead and switched.

Half an hour later, several people stood downstairs again, looked up at the building behind them, with complex expressions.

Network information is really unbelievable, I almost planted it today!

Brother Yu threw up at the thought of Lanhua's finger, her charming tone and small eyes.

"Walk around, the same place." Looking around, it must be TAXX.

It seemed that there was nothing wrong with the original choice, and Qin Yu took the lead in walking towards his own Rafa.

Yang Chengjun temporarily occupied the hard-top Rafa, while Li Xiao and Xu Hao drove a Land Rover.

He wanted to talk to Rafa, but Yang Chengjun didn't think he would take him.

There was another driver in Qin Yu's car, and He Wu officially took up his post today.

Shaking his head, Xu Hao said helplessly: "Yes, you still have to sit on your hardness."

Li Xiao scolded angrily: "Go, let's talk about the hardness tiger, I will throw you halfway, believe it?"

"Who made it produced by hardness?" Qin Yu probed, who was turning on the road, joked.

"Brother Yu, you can believe the keyboard man, it was only acquired by Hardness Tata, and it is not made by Hardness. Imported Land Rover is also a luxury car abroad, okay?"

Li Xiao was also dumbfounded. He had been teased for a day, didn't he just buy a Land Rover?

He drove quite well, there was a Land Rover around him, and he didn't see anyone who said he would drive it every day.

Those rumors are entirely network jokes.

In foreign countries, Land Rover is also the favorite of many dignitaries and celebrities.

What's more, Land Rover has multiple production bases around the world.

The main bases are located in Huguo, Hardness, Bayati, and Xiaguo. When did they become pseudo-luxury cars.

When it comes to fake luxury cars, can't it be the soft-footed leopard?

"Yes, keep up with the luxury car you are driving and leave first." Qin Yu laughed and waved. He Wu, who was instructed by the boss, turned into the main road and drove towards TAXX.

Today they went to TAXX3, No. 3 shop.

It just opened shortly before the Chinese New Year last year, and I heard that the lighting has also been changed a lot.

Follow the trend to engage in the rotating lifting light stand, the specific effect will not be known until the past.

On the way, Qin Yu first sent Xiao Li to a WeChat account, and he responded in seconds: "Brother, I will go to the 3rd store now, and I will arrange it for you immediately.

Look, look at this professionalism, it deserves to make money!

Brother Yu also visited a lot of bars in Hudu, but he has never seen sales that are more likely to come than him.

Can you say that people don't make money? ? ?

When Qin Yu arrived downstairs, Xiao Li was already waiting.

His face was a little red, panting, and he just ran from the parking lot: "Brother, Shao Li, Shao Yang, Brother Hao!"

Seeing He Wu's unfamiliar face, Xiao Li politely stepped forward and grabbed his hand and asked, "How do you call this brother?"

"You can call Brother Wu." Qin Yu didn't introduce his identity, and asked him to directly arrange a place to rest.

Xiao Li understood it, and let him be taken to the rest area.

In fact, it is a smoking area, where the bar is a place for drivers to rest, and whoever comes to play will generally not bring drivers.

Today, Qin Yu brought He Wu with him, mainly to familiarize him with the business.

After all, there will be so many occasions in the future, what should be done, what the process is, the specific arrangements, and who will handle it, he has to know in his mind.

Or else, Brother Yu can do everything by himself, and why do I need a driver?

Entering the scene, the time is close to zero, which is the most lively time.

It's been playing inside, and the ones that I had received and carried before put down the shelves, shaking their heads with the music.

Xu Hao smiled and said, "It's still comfortable here."

"Brother, Xiao Li will make arrangements for you, and I will definitely not let you down." Xiao Li led them to the middle, and soon came to a table of decks with people.

"There is no table today, but these two little sisters are few, so they agreed to fight with us and play together, brother...you see." Xiao Li looked at several brothers.

This is the guarantee for him to sell the crown every year. If he doesn't serve him well, he is smashing his job.

"The atmosphere?" Qin Yu asked with a frown.

Xiao Li quickly explained: "How can I, brother, absolutely real lady, the bag beside me...genuine, more than 800,000!"

In fact, Xiao Li didn't know the identity of these two women.

But judging from several contacts, whether it is worn on the body, on the hand, or carried, including the car, it is very valuable.

Moreover, I have never seen a man around me.

This time Xiao Li was able to do the job of the other party because of Qin Yu's face.

Saying it was him, the other party seemed to have heard of it before agreeing to fight the table!

When they were speaking, Zixin had already seen them, and found that the other party had been standing there talking with the salesman, and he took the initiative to smile and said, "Why, afraid of our two girls eating you?"

Scanning analysis system:

Qiu Zixin:

Age: 22.

Height: 171cm.

Weight: 50kg.

Specialty: None.

Face value: 92↑.

Body: 92↑.

Mood value: 79↑.

Favorability: 85↑.

Freshness: 91-

Miracle belief value: 11 [shallow believer]

Data analysis: 90% of a person's potential is attributed to the developer.

85 ↑ favorability, interesting data analysis, good guy...

If this is to change to a place where no one is there, can't you put your gun on the horse?

"Can you eat it?" Brother Yu teased and asked: "We know each other?"

"Of course Qin Dashao doesn't know me, but I know you... Xingtian God of War, Goose Goose..." Zixin smiled happily, covering her mouth with her hand.

Qin Yu's deflated appearance is so funny!

"Come on, sit down!" Qin Yu waved his hand and set the tone. I won't be drunk here tonight.

His identity has been revealed, and this is the first one.

After a brief introduction, I learned that the other party was called Zixin, and occasionally also posted videos on the note.

Qin Yu said in surprise: "I've never brushed it before, it's incredible."

Like her, Brother Yu never brushed it up once.

Whether there is a problem with the big data analysis of musical notes, you have to ask someone in the data department to ask.

What's going on, do you still want to do it?

Hearing Qin Yu's exaggerated tone, Qiu Zixin collapsed on the sofa with a smile.

The body offers one offering to the next, the potential is limitless!

"I haven't heard of any business between you and Yinfu, is it possible that you are the big boss behind the scenes?" Qiu Zixin looked at him curiously.

"How can I look down on such a big company!" Qin Yu laughed at himself solemnly, and Xu Hao was shocked when he was done.

"Renbyte asked you to invest, have you taken care of it?" Xu Hao didn't bother to talk about him with a look of disgust.

The notes are so hot, Qin Yu actually looks down on it.

She also looked like she was lacking in interest, and she refused all the proactive purchases.

This happened more than three months ago, and Xu Hao hasn't figured out what he thinks yet.

"The future of the virtual economy, it went wrong." Brother Yu smiled mysteriously and ended the topic with a glass of wine: "Come to www.mtlnovel.com~ to drink one first, and toast to the encounter!"

Li Xiao and the others thoughtfully said, 'Is there any inside story about Brother Yu.'

They had already seen Qin Yu's magical 'prejudgment'.

If others dared to talk about notes like this, they would have been sprayed into dogs, and repaying the notes is not the future.

Open your eyes for yourself, look at its market value, and see how popular it is in the capital market.

Look at the current size of the other party again, go the wrong way? ?

But when Qin Yu said this, he had to ask them to think carefully about whether to find an opportunity to talk to him about the future of BYTE's company.

You know, several of them have invested a lot of money on Byte, and they haven't recovered the money yet!

Chapter 538: Still fresh

Qiu Zixin didn't think so much, just as a few of them were joking.

"If I can meet Shao Qin and a few handsome guys, I should be the one who said that, cheers!" Qiu Zixin and his girlfriends directly dried out in one breath.

"Okay." Li Xiao laughed and applauded: "Be refreshed, I like refreshed girls."

"Thank you brother."

With a slender finger on the corner of his mouth, he wiped off the wine stains, Qiu Zixin turned his gaze to Qin Yu: "Qin Shao, how about you? Am I still satisfied with this?"

"Oh oh~" Xu Hao yelled with a roar, "Here is coming, the famous scene is coming."

"The killer of the opposite sex, kill all the young and old, Yu Ge Niubi!" As soon as he finished shouting, an empty plastic bottle smashed in front of him.

bang~

A bottle hit his forehead, and Xu Hao fell to the ground in response, and then sat upright and returned to his original position: "Brother Yu, the gentleman speaks but doesn't use his hands. We will not use force."

Qin Yu pointed at him with a smile and cursed: "A good one, just open your mouth too much!"

"Quick-drying glue, I have it." Yang Chengjun really took out a tube of quick-drying glue.

Everyone looked at him with weird eyes: you are not right!

Normal people, who goes out with a tube of quick-drying glue? ?

"I'm using this for the family, pretending to forget." Jun Ge tried to explain, but it was a foregone conclusion.

"Brother Jun has a lot of tricks." Xu Hao was really convinced.

How to play with quick-drying glue, he couldn't think of...

But Brother Renjun thought about it, so let's say that the bull is not bull!

"Drink one." Yang Chengjun carried a bottle of XO and sat beside Xu Hao.

Two cups are placed on the table: life and death!

"Brother, it's wrong." Xu Hao admitted.

"Don't persuade, come." With the cup in his hand, Yang Chengjun said to Qiu Zixin's girlfriend, "Xiao Mi, pour the wine."

"Okay, Brother Jun." Xiao Mi smiled sweetly and filled the two of them with wine.

Xu Hao is stupid.

Why did the girl just let Yang Chengjun hook up after saying a few words.

So, I'm here to watch the show?

Look at Li Xiao again, with a wry smile...

Yes, it is also a make up.

"Let's go." Yang Chengjun brought the wine to his mouth with the wine in his right hand, and held the Xu Hao wine glass in his left hand to send it forward.

Gudong...

Life and death, let's do it!

"Shao Qin, I respect you." Qiu Zixin smiled and held the wine.

"How's your drinking?" Qin Yu asked afterwards.

"I drink very poorly. If I get drunk later, Shao Qin don't leave me behind." Qiu Zixin had arranged this tonight.

Drink first, the eldest brother will be drunk as soon as he hints, and then naturally let the eldest brother be at his mercy!

Left?

Qiu Zixin still has this self-confidence. He has looks and looks, is organized, and knows how to clean himself.

I'm not afraid that my elder brother won't know the goods, I'm afraid that my eldest brother won't test drive...

In recent years, although her side has been a little bit open, but she is always relying on a mouth to talk to her family.

He didn't have any abilities, Qiu Zixin like this was totally despised.

To please the big brother, there is still a day to turn around.

But if you want to please your eldest brother, and then please your in-laws, Qiu Zixin felt that he could not fall to such a low standard.

However, she didn't think about these things anymore, so she would give it up first.

The man in front of him is the leader of the new generation.

Few people can match the achievements even if they are drawn out by the older generation.

What are you waiting for when you encounter such high-quality stocks with daily limit?

Anyway, Qiu Zixin doesn't plan to wait any longer, I'll give it away first...

Men don't always say that the soul can be reached through the body.

She has confidence in her body that has been carefully maintained for 22 years! ! !

As her mind turned, Qiu Zixin seemed to hear what her elder brother said, "What?"

"Compared to dead fish, it's fresh and more flavorful!" Qin Yu smiled slightly and put down the wine glass.

Whether she can enlighten it or not depends on her own savvy.

There are too many women who want to go to the bed of the eldest brother. It's not enough just to look good.

The brain is alive, the mouth is clever, the waist is twisted...

Seeing Qiu Zixin pouring the wine while thinking, he showed a dazed expression.

Brother Yu picked up the wine glass and said, "Come on, have another one."

Qiu Zixin's face flushed as soon as the second cup was finished.

It didn't take long for her body to twist and fall into Qin Yu's arms, muttering in her mouth: "Qin Shao, you are so handsome, I like you so much~"

Brother Yu smiled without saying a word, watching Xu Hao and Yang Chengjun fighting together.

Life and death is not a bit polite.

Cup after cup, there is no chance to even breathe.

At this time, Xu Hao's eyeballs were already squeezed in the middle, and his words were stumbling, and his tongue was knotted.

"I, no, no more... Yu, Brother Yu, Ding..." As he waved his hand, he collapsed on the sofa.

"This kid, pretend to be dead again." Yang Chengjun's mouth was slightly tilted, and he couldn't be more familiar with his process.

As long as he can't drink, Xu Hao starts to pretend to be dead.

There are only a few of them who really drink big.

Xu Hao thinks he is still somewhat tempting, and he knows how to protect himself.

There was one last time. The handsome guy didn't drink too much and was taken away. The next day his pelvis was broken.

Gee, it's terrible!

"Brother, drink one." Qin Yu ignored Yang Chengjun, he was almost done.

Drink it again, Xiao Mi will have no idea tonight.

Before watching this meeting, I hugged Brother Jun's arm in his arms and clamped it tightly...

"Drink, what can I do if I don't drink?" Li Xiao teased herself, raising his head and doing it.

If he thinks about it, those girls out there aren't just one choice.

It's just that today is different from the past, the power of speech has increased, and the changes brought about by his identity and rights have improved his vision a lot.

The requirements, naturally, are so much more.

How can the following vulgar fans of Cengka get into the eyes of the little brother.

The wine on the table was clear, because it was late and the meeting was not too early, Li Xiao offered to go back and rest.

Naturally, Qin Yu and Yang Chengjun had no opinion, and Xu Hao opened his blank eyes: "Ah, gone?"

"Let's go." Qin Yu gave him a funny hand.

As soon as he walked to the door here, Li Xiao's feet froze like lead.

Condensing fat like jade, exquisite face, shallow smile, slender eyeliner, no powder but full of love.

"I seem to be in love." Only the girl who had just walked in was left in Li Xiao's eyes.

She is like an elf who broke into the mortal dust, leading the little brother to the whole heart.

"What?" Qin Yu followed behind to talk to Xu Hao. Before he could hear what he said, he asked more.

"It's okay." Li Xiao shook his head suddenly, turned around and said hurriedly: "Brother Yu, you go first, I saw a friend..."

Without waiting for him to reply, he nodded his feet and squeezed away the crowd in front, as if squeezing from the other end of the bar.

Brother Yu didn't see the elf that fell into the mortal dust, but he saw the flashing red dots on the map...

However, he already has a goal today, so let her go.

"Let's go." Holding on to Xu Hao, who was a little vacant, Qin Yu was about to continue walking outside.

"Well, Brother Yu, I also saw a friend, or you should go first." Xu Hao grinned and scratched his head where he was when he ran quickly.

Seeing his abundance, where is the embarrassment that was drunk just now?

"It's a coincidence that your friend came here." Qin Yu took Qiu Zixin, whose cheeks were red, and left alone.

To the parking lot, Yang Chengjun had already left, Ding Ding.

Brother Jun: "Brother Yu, let's go first. See you at the mansion later."

Brother Jun: "{Bye You.jpg}."

Qin Yu installed his phone and looked at He Wu, who was greeted by a quick walk: "Old He, drive the car back first, and pick me up at the opposite hotel tomorrow at 10 o'clock."

Qin Yu pointed to the hotel diagonally opposite, and hugged Qiu Zixin and disappeared on the corner of the street.

Looking at the empty street, He Wu lowered his head and thought, then turned into the car.

He dropped his head and chased after Qin Yu disappeared.

After a while, watching the two enter the hotel, He Wu parked the car in the hotel parking lot.

Seeing the security guard coming, He Wu lowered the window: "I am the driver of the hotel guests, waiting for the boss here."

Look at the limited edition Rafa, and look at He Wu's capable and silent style.

The security guards knowingly choose to turn a blind eye, and there are not one or two guests in the hotel who are extremely concerned about privacy.

He Wu was not the first to drive a luxury car overnight in the parking lot and wait for the boss' driver.

What's the matter, it's no surprise to see too much!

In the hotel area, the security guards think they are knowledgeable...

Chapter 539: Profiteering

The woman in Xiuwaihui, that's just one point.

Just like Qiu Zixin at this time, swinging like this...

When he stopped, he was already asleep on Qin Yu.

When I slept until dawn, the sun shone on my face through the gauze, which was warm and comfortable.

Qiu Zixin only woke up from her sleep, opened her hands and touched aside.

The person sat up 'suddenly': "Where's the person?"

The eldest brother is gone, I gave it away for nothing? ? ?

Qiu Zixin didn't panic, first calmly thought, and then found the phone.

She remembered adding Qin Yu's WeChat account last night, first to see if there is any news.

Turning on the screen, Qiu Zixin's heart was warmed by the WeChat message above: "Sure enough, I should have left beforehand."

Qin Yu: "Have a great time last night, I will meet again when I have time!"

Seeing this message, Qiu Zixin's smile instantly freezes...

What do you mean, I am a casual runner?

Feeling angry, Qiu Zixin pressed the voice button without thinking: "What do you think of me, you bastard..."

Shoo!

Qin Yu, who was reading the briefing in the office, picked up the phone and clicked on it to see that it was sent by Qiu Zixin.

Just click: "What do you think of me, you bastard..."

"I'm not a random woman, Qin Yu, don't think I can play around."

"I....."

Click on the avatar, the upper right corner, delete friends-confirm.

This woman didn't seem to be able to figure out the situation, but she was just getting used to it.

Let her dry first, let her calm down.

When will I speak, let's talk to Brother Yu again.

As for Qiu Zixin, who saw her news turn into a red exclamation mark, how furious would it be.

This has nothing to do with Brother Yu!

"Why, which woman did you mess with again?" Yan Xue, who was sitting behind the desk and making a watch, joked.

"Just a friend," Qin Yu said casually.

So everyone needs a friend.

This friend can be of great help at this critical moment!

"You have so many friends, watch out for Wanxing to explode." Yan Xue said.

Qin Yu raised her eyebrows and glanced at her, and said, "Don't worry, you won't be able to explode."

"Even if it's really exploded, I can pretend to be her... Let's talk about business first. Has the first batch of funds returned?"

The first batch of Kidney Power has been sold out, and funds are being withdrawn from circulation.

"There is a detailed number, here." Yan Xue handed him the A4 paper with the temperature on his hand.

All funds in the form are clearly marked...

Of the first 2 million boxes, 1.4 million boxes were sent to the hospital, and the remaining 600,000 boxes were distributed to chain pharmaceutical brands.

The price of the hospital is 899 yuan, and the shipping price of Miracle Pharmaceutical is 699 yuan.

The pharmacy price is 2,999 yuan, and the ex-factory price is 2,500 yuan.

Hospitals are basic medical insurance, and pharmacies are profit-making organizations. The two are essentially different, so the profit margins are naturally different.

Coupled with various subsidies and policies, the hospital earns a lot.

However, Miracle Pharmaceuticals still focuses on basic medical care.

The number of shipments sent to hospitals is much larger than the number sent to the market.

The gross profit returned from the hospital this time was 98.6 million, nearly 1 billion.

The gross profit for pharmacies is 1.5 billion.

Total gross profit for the first quarter: 2,478,600,000.

2.5 billion a quarter, 10 billion a year.

This number will gradually rise with the increase in production capacity, no wonder it is said that medicine is a huge profit.

If there is no large amount of investment in research and development in the early stage, it will be a huge profit.

Faster than printing money...

From the standpoint of consumers, how unfair the sky-high medical expenses are!

But if you look at it from his own standpoint, this is already a conscientious enterprise that truly benefits the people.

Continuing to look down, various expenses, from packaging, to transportation, to warehousing and transit, taxes, labor, and so on.

After removing all of them, the profit dropped sharply to 1.9 billion, and the 600 million was gone.

I'm gonna!

After detailed comparison, labor is indeed the biggest expense.

No wonder big companies like to lay off employees when they encounter an economic downturn.

Because this is the most effective and one of the most efficient methods.

In the minds of capitalists, it is also the easiest way.

"1.9 billion...In this way, Miracle Pharmaceutical's production capacity will increase by 20% every month, until the capacity is doubled!"

First set a short-term goal to double production capacity.

According to Qin Yu's estimation, the target index will be completed at about the end of the year.

But dividends are about to fall through.

At the end of the year, wrap them a big red envelope.

After arranging the development of Miracle Pharmaceutical this year, Yan Xue reported back to him the progress of the headquarters project.

Now the exterior facade has been sealed to the 106th floor, and the interior decoration below will definitely be completed within a week, and it has also begun to dry.

Five floors, five floors are carried out at the same time, the first five floors are already finishing.

"Longson, what's going on with Aixia?" Godson's production capacity is overvalued. So far, Qin Yu has not contacted the second one.

If Kao Xia procrastinates this way, he will have to find a second agency and sell the extra orders to the other party.

There are many such options. After the launch of Aixia's new product "Take Loongson", we will take the lead to buy a few back and test the speed!

As for what to see if you buy more, everyone knows well.

To paraphrase Gates's sentence: Internet companies, don't you copy me, I copy you.

Copy it together, it has become the industry rule!

Intrusion occurs inside the Internet company all the time. Theft can only say that you are inferior to others.

If the company's capabilities and strength are insufficient, it's just unlucky to admit it.

Not only other companies are doing the reverse engineering of Loongson, but Loongson itself is also doing it.

To truly understand a technology, this is the simplest, straightforward and rude way.

However, Qin Yu didn't worry about this at all.

With the information it provides, Loongson's reverse technology is still progressing slowly.

Outside companies rely on the chip itself to reverse-engineer, and where can the progress be so fast?

After they are finished, Loongson has already updated, once again throwing them away.

Xia Guoren is never stupid than others, but smarter and hardworking.

Brother Yu believes that they are worthy of their trust, and will not disappoint all Xia people's desires and expectations for a "Loongson".

To catch up with the opponent's technology is no longer the goal of the miracle department.

They have only one positioning, and that is to transcend...

Surpass opponents, exceed yourself, and ultimately exceed the limit.

This is the correct way to start the "miracle"!

Following Yan Xue's retelling, Qin Yu learned that Aixia had the intention of increasing orders.

However, the internal controversy has not been able to settle.

It is independent investment and continued research and development.

Or all external purchases use the more advanced miracle Loongson.

There are many people who support the two viewpoints, and everyone looks at the problem from the perspective of the company!

Everything that should be considered must be taken into account. The biggest argument of the opponent is: one day he is strangled again, where is Aixia's way out?

Are there few instances where one's own people are showing no mercy to one's own people?

Shopping malls are like battlefields, life and death are the norm.

Now Aixia and Loongson are on their honeymoon, what about when the honeymoon period is over?

The honeymoon lasts forever, and if Godson wants to enter the mobile phone field, is Aixia a battle or a match? ? ?

Who can guarantee 100% that Godson will only make chips for a lifetime.

Chapter 540: The beginning of the smart era

Aixia couldn't give this guarantee, and Qin Yu couldn't give it either.

Whether Godson will step into the mobile terminal in the future is not necessarily.

But whether the miracle department will intervene, that's for sure...

The mobile terminal involves the core of the future development of the entire enterprise and is the frontier center for the 'ai era'.

How could Qin Yu, who holds the "Kirin ai" in his hand, give up?

Even if he wanted to, he couldn't do it.

Unless he directly abandons the plan for 'kylin ai' and completely overthrows the whole plan and shelves it!

But he really wants to do that, what does he do?

Therefore, it is imperative to get involved in the mobile terminal.

And in the near future, wait for "Kirin ai" to make full preparations.

"Ghost" is a new version of virtual reality game created by "Kirin ai" with reference to "Aturing Genesis".

The authenticity can reach 70%. Compared with the "Destiny's Choice" which can absorb the spirit and the authenticity is 100%, it can be said that it is a thousand miles away...

The difference between 70% and 100% is not 30%.

That is countless technical barriers that are difficult to overcome, just like the sky...

Every 1% of the progress is a large span and breakthrough progress for human technology.

But for the real world, 70% mass-produced virtual reality technology is already a super shocking technological breakthrough.

As early as a week ago, Qin Yu told Watson to prepare for the new Internet company.

Recruiters, order servers...

In fact, the real server exists in Yu Ge's brain.

The existing supercomputer alone cannot drive the entire "Devil Hunting".

Just connecting the end, Yu Ge's desktop was almost burned.

Not to mention the entire server, which contains the entire universe and the huge content of thousands of races.

With the current operational capabilities of "Kirin ai", it can only drive 20% of the content.

That is, the galaxy where the novice village of 'Silhouette' is located.

It includes human races, elves, dragon races, demons, **** races and many other races.

If 'Kirin ai' can't be promoted again, then the entire "Ghost" data sheet will be limited to this galaxy.

However, even this is enough for players to explore for hundreds of years.

Just breaking through the surface will filter out a large number of "caiji," and only a small number of elites can truly enter the universe.

As for the following chapter on the universe, Brother Yu himself doubts whether it is necessary or not...

The magnificent civilized universe, the cruel and cruel dark law, and the exquisite grand setting.

There are more than 3,000 pages in the brief introduction, and it took a week for Brother Yu to read it.

Simply outrageous!

Therefore, there is no need to worry about the promotion of 'kylin ai'.

Even if there is no chance, Qin Yu doesn't care, because the universe chapter has been used for hundreds of years.

With the time ratio of 1:5 set by Qin Yu, it would take a hundred years in the real world to clear the entire existing data chapter and travel to all planets.

I started to play until I got into the coffin right after I was born. It probably works! !

After the company's building is completed, the server installations will be placed on the 'secure floor'. At that time, the 'Chuangshi Network Company' will be officially listed for business.

"Ghost" will also be officially launched, bringing a brand new super sensory experience to players around the world.

The server is definitely to be set up, and it is natural to support the operation of "Ghost" externally.

In fact, it is a transit point.

The real server is hanging in Yu Ge's head, and he can't change this.

Unless you can make a real optical quantum computer, which can perform hundreds of billions of operations per second...

Only then can Brother Yu's 'brain' become free.

Don't worry about publicity!

Qin Yu first thoroughly understands the VR technology (virtual reality helmet), has a sample, and then officially announces it.

Qin Yu handed over the production of the helmet to a group of Cui Geng to be responsible!

Jing Yuan is already in charge of two important projects of "Industrial Mother Computer" and "Loongson Reverse Engineering".

Although Cui Geng didn't say it directly, there must be complaints.

Although the progress of one group is slower than that of the second group, it does not mean that they cannot take on important tasks.

Now, Qin Yu handed over the most core confidential project of the group's future to him, and Cui Geng's mouth was almost cracked.

That's a happy one, don't mention it!

This kind of thing is happier than giving him a red envelope bonus. The brain circuit of a mind to engage in technology is like this...

However, Brother Yu likes this.

As long as they work hard, do experiments, and do a good job of technology.

In other aspects, any difficulties can be solved.

Utilitarian systems such as intrigue, performance appraisal, promotion and salary increase.

Has been completely abolished...

Except for normal competition accidents, all other red tape, complicated regulations and rules are abolished.

In the two groups, there is no job title size.

With the exception of the two team leaders overseeing the research projects within the team, all other administrative problems will be solved by administrative staff.

They are focused on learning, research, and technology!

Don't talk about crooked ways, as long as you have enough knowledge and technology, you can take more and earn more.

Someone also listens to words, it is out of respect for your knowledge.

It is impossible for this kind of thing to happen if someone is crushed to death by a higher-ranking official.

Who dares to intervene in the progress of scientific research casually, Qin Yu has no other words: leave.

It's that simple and rude, don't talk about the mess, just get out of the way.

Why can't we keep high-end talents in China? Just look at how miserable the academic circle is.

If he is purely engaged in academics and research, can he survive?

People can't live anymore, so what are they doing? Waiting for death...

Therefore, Qin Yu cleared the obstacles for them in the work environment and atmosphere!

This is also the key to his ability to retain all talents. Money is one aspect for them, and at least it can make a decent and easier life for his family.

Secondly, my working environment is relaxed and boundless, free of depression, obstacles and pressure, and there is no need to make a report when discussing knowledge points.

Based on this, Cui Geng and Jing Yuan are full of enthusiasm!

The same is true for other people. From time to time, someone will recommend their classmates, or foreign Chinese who have academic exchanges.

There are many scientific elites who chose to stay with the Bald Eagle because of the academic atmosphere, and some have heard of the 'Kuafu Research Institute'.

The academic circle says big is big, but small is also small.

Only a handful of people are destined to go to the end, and they all have more or less ties to each other.

Therefore, as long as the information is related to this circle, the speed of dissemination has always been very fast.

Some people have already contacted Kuafu through e-mail. Qin Yu's advice is: as long as they are willing to come back, they can still enjoy the free atmosphere they want.

As for other aspects, it depends on their own ability.

It's impossible to come to praise the father and make up for it.

There are real materials, reputation, house, car, ticket, everything!

What the bald eagle can give you Kuafu can give it to you, and what the bald eagle can't give you can still give it.

Anything that can be solved with money is not a problem for Qin Yu!

The remaining 1% that cannot be resolved, I believe it will be resolved soon.

This confidence, others don't, Yu brother has...

He believes that the miracle in the future will not only make Xia people proud, but also shock and proud of the whole world.

The upcoming "Ghost" is just a small step.

The early stage for the whole plan...

One day, the popularity of personal smart terminals will no longer only exist in movies.
