Chapter 971: Compulsory

Yangpu District, into the night.

After a tired day, Yang Yang took the last bus to get home.

As a real-world social animal, working overtime is just like routine for him.

When he first joined the company, Yang Yang even had the highest record of staying in the company for a week.

did this not only to save time, but also to relieve his not-rich purse!

If you want to survive in this magical city of drunken gold and gold, for a young man who has just graduated, every penny is worthy of being respected.

And the daily transportation expenses often put them into bankruptcy deadlock when they just entered the society.

Bankruptcy~

A word with a ridiculous meaning has become the mantra of the younger generation.

People of the same age live on the brink of bankruptcy and bankruptcy almost every day, relying on barely income to survive.

Yang Yang is no exception, but his mood has changed recently.

very good~

Because.....

pushed open the bedroom door, and there was a brand new game pod in the room that could only fit a small bed.

, the goddess of evil spirits appeared alive under the special spray painting technique, injecting new strength into Yang Yang's tired body.

But his excitement did not come from the paper man. He lay down in the game cabin and pulled down the upper cover.

"Loading the game~"

"I am checking my identity, Di, you have a new message."

"Open."

"Miracle Company released the latest patch. This patch is mandatory to load. Any device that refuses to load is locked. Do you want to install it?"

"So domineering?"

Yang Yang's emotions of struggle instantly rose in his heart, and he immediately wanted to sit up and fight online.

But the next second, he lay down again when he thought of something, and said lightly: "Agree to install."

If you don't agree, you can't enter the game, and the entire device is completely scrapped.

This is all his savings, plus the down payment from his parents, and the game pod that he spent his whole life buying.

Scrap?

It's better to give him a knife directly, it's more convenient and enjoyable!

"The patch is installed, welcome, distinguished Mr. Yang Yang, neural access..."

"I wish you a happy game!" In Anadi's gentle blessing.

Yang Yang's consciousness suddenly sank, and the weightlessness of helplessness was disturbing against the dark background.

The next second, his eyes suddenly lit up, and he came back.

"Honey, are you back?"

The woman with the dinner plate in her hand walked in happily, put the dinner plate in front of him and said, "I have prepared your favorite food, try it."

"Thank you." Holding the woman in his arms, Yang Yang looked around again habitually.

This is a suite with one room. The toilet and bathroom are shared. The layout of the room is also very simple.

outdated tables and chairs, a sofa that is full of holes on it, it will creak and creak when you sit on it.

There is also a large bed made of three wooden boards in the suite, extending from the entrance of the suite to the wall.

The neatly stacked clothes are placed against the wall. This is all the property in the room.

Compared to his real rental house, it is like a slum that can only be seen in movies.

For Yang Yang, this has become the most important concern in his life.

because~

The door opened again, and long blond legs walked in.

Seeing Yang Yang sitting on the chair, he ran to him with excitement: "My dear, you are finally back."

Then, the third, fourth, fifth...

Yes, Yang Yang has five wives in the game.

Who made him have a job here that everyone envy, and enough income to support five wives?

This also makes him a celebrity in the gaming circle, and he is known as 'Yang Dingtian'.

After having dinner with five wives and doing a series of shameful things, Yang Yang only felt full of power.

helped the wall and walked out of the house, Yang Yang rushed to the Science Department with his sore waist.

Some time ago, I didn't know where a big guy got from above, and the entire science department under the leadership of the head reversed it.

The process went smoothly, and the manufacturing principle of the big guy named "Fission" was quickly figured out.

In fact, apart from the materials used to make it and the nerve access system, it is eye-catching.

Fission is just a cumbersome man, and fission simply doesn't look at its technology.

So, under the order of the scientists, a vigorous transformation began.

From the armor, the proportion of the whole machine, the operating system and the nerve access, to the maneuverability and weapon equipment of the whole machine, comprehensive improvements have been made.

Today is the day of fission and rebirth.

All members of the Science Department will be present, and the giants of the Ministry of Truth and the Healing Center will also go there in person.

Not only that, but the lunatics of the rumored church and the ruling house will also come to observe the scene.

Thinking of the goddess of death who had only seen her in the holographic projection, she might actually appear in front of her today.

Yang Yang's calf can't help but tremble, fear!

Every time she appeared, she was accompanied by numerous bones, on the Jingguan piled up of skulls.

The dark, old and torn big cloak flutters in the wind.

Just through the screen, you can feel the breath of death everywhere!

Inside the Church of Miracle Science, the Judging House and the Goddess of Death are like a taboo.

Just mentioning that name makes people feel uncomfortable, let alone face it in person.

"Old Yang, here." As soon as he entered the proving ground, Yang Yang called people to stop.

looked up, it was the old friend Jian Xia.

is clearly a thin nerd, but he just named himself a "Swordman".

Every time I say this, the swordsman will shout angrily: "Who said that a nerd can't have a heart longing for the world?"

"Bookworm, what's the situation now?" Yang Dingtian asked curiously when he approached the swordsman.

looked up at the observation deck above, the scattered figures seemed to be shrouded in a layer of shadows, making people unable to see the truth.

"That one has come, and the giants of the Ministry of Truth and the Healing Center have also arrived." The swordsman rubbed his hands anxiously, and looked at the second floor excitedly.

How long has it been that the Big Four of the church did not gather together.

Today, all the 'fission' armors improved for them appeared in the test field.

Is this the highlight of life? It's so versatile!

"Come on, put away your eyes, and be careful to make the one upset and tear your head off."

Yang Yang bumped his old friend with his elbow, and gently reminded him to pay attention to proportion.

"I am willing to pull it off, anyway, I am a clerical worker, neither pursuing level nor equipment.

I had a set of tools all over my body, it would be better if I broke it, and I just got a new one when I looked back. "

Seeing him shamelessly, not afraid of the sky and the earth, Yang Yang shook his head with a wry smile in his heart.

You do not know the horror of the goddess of death, death is really cheap...

唰!

The cold wind blew, every cell in his body was trembling, and the shadow of death enveloped my heart.

The air in all directions seems to turn into hard ice, freezing one's body and will.

Dead!

The moment Yang Yang was ready to rebirth, the breath of death suddenly disappeared.

is as abrupt as it appeared, strange, unpredictable!

"Huh..."

Take a deep breath, Yang Yang turned his head and said: "Just let you be quiet, you..."

咚!

The friend's body fell straight back, and the luster in his eyes had already turned into frozen shock and fear.

died, when did it happen?

Yang Yang didn't dare to think about it anymore, and honestly lowered his head to join the crowd, making himself look like other ordinary science and technology employees.

Soon, two triangle-headed robots appeared and dragged away the dead body of a friend. '

A few days later, he will be born again with a brand new identity.

Whether he can join the Ministry of Science and Technology again and become a scientific researcher is unknown.

After all, even if his knowledge and skills are still there.

can offend the goddess of death and the record of the adjudication office, which will make the reviewer extra cautious.

Everyone knows how perverted the mad dog of the adjudication office is!

For them, anyone who insults the goddess of death should be imprisoned in the ruling house.

endured endless pain and suffering until the last second of his life.

Even if he is a blessed one, he will not deliberately provoke the aborigines.

The life of guarding the corpse is not a difficult job for a behemoth like the Church of Miracle Science.

However, the church has a very friendly attitude towards players.

Even if it is provoked by someone, it is mainly to kill!

is like his old friend swordman...

咚 · 咚~

The ground vibrated, and the fission power armor with its own weight of 6 tons appeared.

The weapons at the front of the two robotic arms become revolver barrels, and both sides are full of automatic reloading bullet boxes.

is carrying two grenade launchers on his shoulders, and a jet pack on his back to increase mobility.

The chest is embedded with a hidden launch port, and the split bombs reproduced inside are good enough to change the course of a battle.

"Start."

Following the order of the scientist, four [Xing Tian] broke into the experimental field, and their weapons poured forwards frantically.

Ding Dong Dang...

The bullet bounced off the fission surface armor, leaving only a faint scratch.

The fission at this moment is just passive defense to test the hardness of its own armor.

As several grenade hits the front of the fission, the explosion of the RPG concealed the fission trail.

The violent wind blows, fission is burning and the flames jump out of the flames, the huge and heavy body is full of deterrence at this moment!

"Okay." The cheers of the Ministry of Science and Technology came to mind at the scene.

These nerds who were always teased by the Ministry of Truth in the past clapped wildly with excitement.

"Have you seen it, I made it." Looking around with provocative gazes, everyone chose to be tolerant.

Let the nerds be proud of it first, and when the next time you fight for alcohol, everyone will lie down and go out.

"Well, Xing Tian withdrew, fission, free attack." The moment the new order was issued, Xing Tian leapt back.

A heavy steel target rose at the end of the test field, fissioning to turn the muzzle quickly inconsistent with the body.

buzzing...

The sound of turning wheels was in a line, and sparks splashed from the steel target ahead.

Continuously shooting repeatedly across the steel plate, when the muzzle stopped turning with white smoke.

A red line appeared in the center of the target, and then in the exclamation of countless people, it broke and fell to the ground.

Chapter 972: Real intention

"Oh~" The wave of cheers rose above the sky, and the Ministry of Science and Technology fell into an exhilarating carnival.

It was successful, and the results of the fission-level improvement exceeded expectations.

This time, all participants will be rewarded with corresponding contribution points.

Contribution points belong to the unique currency within the Church of Miracle Science.

But it is more valuable than any known currency!

Whether it is advanced technology or knowledge stored in the library, only contribution points can be exchanged for.

Its circulation within the church is scarcer than any material or currency.

In contrast, the purchasing power of contribution points is strong.

In reality, there are even merchants who collect contribution points, the ratio is 1:1000.

One contribution point can be exchanged for 1,000 red tickets!

Even so, few people will take it out for a transaction.

Those who choose to trade, if discovered by others, will immediately become a laughing stock within the church.

Only fools can exchange 'gold' for 'waste paper'.

"The members who participated in the project improvement this time will each have 10~100 points of contribution, which will be sent to the personal terminal by the logistics department later, please pay attention to check."

When the news was officially announced, the cheers at the scene were even more crazy.

Under the enviable gaze of other departments, the bookworms walked towards the Moulin Rouge at a pace not recognized by their six relatives.

Tonight, call out both the wine and the pretty girl.

Uncle is rich!

*

*

*

In the Miracle Headquarters, Kirin, which has obtained the latest experimental data, is comparing it with the fission-class armor made by the company.

The gap in the data between the two parties was marked one by one by Kylin!

Afterwards, the comparative data was sent to Qin Yu's private mailbox, waiting for his review.

As the sky cleared, Qin Yu pushed away the long legs on his body.

Walking towards the kitchen amidst Sha Man's grunt, he poured himself a glass of water first, and Qin Yu opened the mailbox as usual.

Seeing the comparison data between the two sides, the strength of the titanium rhodium alloy in the world of "Ghost" is 1.6% stronger than reality.

Qin Yu frowned involuntarily. Is it environmental factors or the difference in craftsmanship between the two parties?

The reality is that there is a better R&D and manufacturing environment, so this gap shouldn't appear.

1.6%, this data does not seem to be high.

But in evenly matched battles, any slight gap may determine the victory.

Keep the data and forward it to Jing Yuan, Qin Yu wants to see how she will respond.

"Ah~"

After doing this, Qin Yu was about to go out to exercise, and Sha Man appeared in front of the room with a yawn.

Stepping forward to put her arms around her waist and embracing her into his arms, Qin Yu kissed her forehead and said, "Did I wake you up?"

"No, it was the person who woke up without me touching you." Sha Man said weakly.

"Then how do you usually sleep?" Qin Yu asked jokingly.

"That's because you are not here, I know in my heart that naturally there will be no sense of dependence." Sha Man gave him a white look.

"Why, I should treat you as a trick, good sir?"

Waved and patted her on the back bridge, Qin Yu pretended to be stern and said: "You dare."

Seeing what he cared about, Shaman grinned contentedly, rubbing the back bridge with her hands and angrily said: "It hurts, not at all."

"You didn't say that last night." Qin Yu leaned over and blew into her ear.

"Hate."

A pat on his chest, Shaman pushed him away and smiled: "Go ahead, I'll cook breakfast and wait for you to come back."

The big hand hooking the devil's waist rubbed up and down, and Qin Yu grinned and said, "With ready-made sports equipment, why bother to go out?"

"No, ah, haha..." The peace of the morning was broken, and there should be applause here.

When Qin Yu got up again and left, Shaman was already full and fell asleep.

As for Brother Yu, he can only go to the company cafeteria hungry to solve it!

When he drove out of the garage, Qin Yu realized that it was drizzling in the sky.

Li Li Li~

The rain hits the car windows, and the already bad traffic in the morning rush hour has become more congested due to the weather.

When Qin Yu arrived at the company, it was already 10:33 at noon.

The breakfast time has passed, so I can only wait for lunch together.

When he got down to the hive, Qin Yu saw He Wu, who was recovering in the garden on the ground floor, and Andrew who looked at a monster next to him.

"boss."

He Wu's expression was still cold and determined, and it looked no different from before, but it was still familiar.

Body type...

The biochemical team predicted that his height will grow rapidly to 2.3~2.5 meters, but in fact, He Wu's current height is less than 2 meters.

The muscles bulging under the clothes are strong and tough, but they are not twisted and perverted like Kenny's.

At this time, He Wu, in addition to being taller and stronger than before, was full of oppressive deterrents.

Nothing has changed in the rest, which made Kenny call out "He is not an interstellar warrior, this is a failed experiment."

Shi Cui almost went violently on the spot. You can say that I am ugly, abnormal, inhuman, and I can do anything.

But you just can't say that my experiment failed or went wrong!

If it weren't for Jing Yuan and Zhu Ying, and they both stopped him, Kenny wouldn't have the chance to get out of the underground hive again.

After the initial shock of the strength of the interstellar warriors, Qin Yu discovered that they were actually not as powerful as he thought.

The naked Kenny can basically match the Kenny equipped with power armor.

If you equip the improved fission power armor...

Crush, nothing wrong!

Of course, only in terms of combat effectiveness.

Kenny's hundreds of years of combat experience are enough to make up for the gap in combat power.

The fight with Qin Yu was just a warm-up. Don't look at Kenny as an irritable bull. The wisdom accumulated over hundreds of years of experience should not be underestimated.

Just arrived in an unfamiliar place, provoking a ruler with unknown technology and unknown combat practices.

This is not something a wise man would do.

Because of this, Kenny in the battle not only did not use all his methods, but also gave up the additional tearing damage of the saw chain sword.

In the warm-up contest, it might not have been careful thinking of getting closer to Qin Yu.

Only this time, Kenny was really irritated!

He doesn't allow anyone to insult his loyalty. How could the Star Warrior be a little chicken like He Wu?

He can't even reach the physique of a recruit, and being weak is the original sin!

He Wu, who uses the space warrior gene and integrates with other technologies, is a shame to the space warrior in Kenny's eyes.

Weakness is the original sin!

He Wu, who had suffered from Wuwang disaster, didn't know that he had been spotted by a combat expert.

"How do you feel?" Qin Yu looked at He Wu, who was behaving normally, and patted his arm.

"It's a lot stronger, come and fight with me." Qin Yu said as he took off his jacket, he threw it on the ground and turned around to keep away.

"Boss!" He Wu looked at him nervously.

"Why, worry that you hurt me?" Qin Yu rolled up his cufflinks and said with a smile: "You should worry about yourself, here it is."

Before the words fell, Qin Yu's figure had disappeared in place.

Fast, faster than imagined!

He Wu only saw a black edge attack, and instinctively rolled over to avoid the attack.

Before he got up, there was a strong air blast on the right side.

boom!

The force that seemed to be hit by a full load of heavy equipment caused He Wu to fly straight out.

But before he hit the wall, the figure was knocked into the air by a black glow again.

He Wu at this moment was reduced to a sandbag with no fight back.

Jumping up and down in the empty underground space, his body deformed and pulled like a dough.

boom.

A straight kick made He Wu's eyes black, his body slammed into the rock wall like a cannonball, and there was no movement inside.

Qin Yu's figure reappeared. At this moment, his surface was covered with a layer of close-fitting nano armor, cold, mysterious and powerful.

The mask slid down like water, revealing Qin Yu's tough face.

"Why, this is your strength?" In his casual contemptuous tone, he was full of provocation.

Boom!

He Wu, who was embedded in the rock wall, jumped down, his curved back straight and straight.

The stern eyes looked straight ahead, and the flame full of warfare made Qin Yu smile with satisfaction.

"Boss, be careful." He Wu shouted in a deep voice, leaning forward suddenly, kicking down with his right leg.

boom!

The impact set off a huge dust, and He Wu's figure disappeared from sight.

However, Qin Yu's reaction and speed were obviously faster than his.

The moment He Wu slammed his fist towards Qin Yu's door, his right foot curled up and curled up.

Then he ejected forward like a slingshot, hitting He Wu's chest.

As fast as he came just now, he will return as fast as he can.

Only this time, He Wu was already prepared.

At the moment it flew out, the body rotated like a top, and his arms spread out to form an attack barrier.

Blocking Qin Yu's surprise attack, He Wu landed on the ground, ejected again in the next second and dived forward!

Boom, boom...

The collisions, the fist to the flesh, and the lightning-fast action made Andrew open his mouth.

His jaw was almost astonished. It turned out that the young man who beat himself up was so abnormal in strength.

Fortunately, I did not choose to resist, otherwise...

In Andrew's sight, only black and yellow lines can be seen crazily colliding in the clearing.

The ground was plowed out of the chasm, and fist-sized gravel fell on the wall, which made people worry that this place would suddenly collapse, and Andrew didn't want to die so early.

As for the two perverts who are fighting, he only hopes that these two will die together, and it is best to forget himself completely!

How long the battle lasted, Andrew couldn't be sure.

He only knew that the entire space underneath was full of cracks and gaps, and the walls and ground were filled with countless irregular human-shaped depressions.

Looking at Qin Yu and He Wu again, both of them fell to the ground, panting, struggling to get up.

After the third failed attempt, Qin Yu lay on the ground resigning his fate: "Andrew, call the medical team, he is seriously injured!"

"Ahem, ahem..."

Lying on the other end, leaning against the wall, He Wu spit out a mouthful of blood. UU reading www.uukanshu.com

The light breath let out a roar of leaking air, and said with a sorrowful smile: "Boss, you are not hurt too!"

Seeing that the two of them were really as he thought, and both were hurt, Andrew fell into a strong struggle.

Is it to try to kidnap him and leave, or to call someone honestly.

"I'll call someone." After struggling a few times, Andrew turned and walked to the pager at the entrance.

He decided to follow his heart, and when he made a decision to escape, his brain warned wildly.

Besides, there is nothing wrong with being closed here.

Except for the iron fist of love every few days, the accommodation and food are superb!

Seriously, Andrew was a little bit reluctant to leave.

Chapter 973: Unfold

"This is the garden area and needs medical treatment!" Andrew pressed the beeper.

sizzle, a naughty female voice came from the faint electric sound: "Dear Mr. Andrew, congratulations on your passing."

The corners of his eyes twitched, and Andrew looked back.

was still lying on the ground just now, like Qin Yu and He Wu who were about to die in the next second, sitting cross-legged on the ground talking and laughing.

"I said he was a smart man."

"I lost, boss."

"We should add some color next time."

"I want to save my money to buy gifts for my wife."

"Old Ho, your salary is not low, can't you deduct it like that?"

"I have to save a dowry for my daughter!"

"It's enough if we don't need the gift, why do we need to post it backwards?"

"The dowry must be given, and the dowry must be given."

He Wu felt that the bride price is a must, but he would return a lot of points.

As for the dowry, that is his confidence to the baby girl.

When the two began to discuss the marriage of their children, Andrew was stupid.

Are you two playing monkey games? ?

"Come and sit down."

patted the trench around him, Qin Yu looked at Andrew with a vigilant face and said: "It's just a small test, don't be nervous."

"What do you want me to do?" Andrew resignedly said: "I decided to join you, let me do anything.

But I want the best treatment, eat, live, play... and change different girls to accompany me every day. "

Snapped!

A slap on the back of his head, Andrew knelt on the ground staggeringly.

I'm so scared, I won't be killed, will I?

"Be honest, and talk to me about terms here? If I give it to you, you can hold it. If you don't give it to you, you can't ask for it."

The shoulders sank down, and Qin Yu's big hand was pressed on it, and he squeezed firmly and gently said, "Understood?"

Andrew nodded his head quickly, like a little chicken rushing to eat.

Seeing him on the road like this, Qin Yu decided to arrange some entertainment for him.

"Recover your energy these few days, and you have something to do later."

Qin Yu patted him on the shoulder with satisfaction, got up and walked out.

Andrew is a good treasure. If his abilities are used well, what will change is the direction of the future progress of mankind.

It's just that you have to train him first.

Listening to orders is the consciousness that tool people should have!

As for He Wu, he lay straight back on the ground.

He has to get a good night's sleep and recover the stamina that was used in the previous battle.

At this time, He Wu can clearly feel the enhancement of his physique. Fighting is the best catalyst for evolution.

After waking up, he went to find the big guys to kill him.

Just like how Wu was spotted without knowing it, Kenny also didn't know, he was spotted too.

Soon, the defective product that he considers as a shame will take the initiative to come and kill him.

Fight, it should be endless!

Leaving the garden area, Qin Yuxian met with Jing Yuan.

For the fission-class power armor data, she has been carefully tested and compared!

Where is the specific difference and how it is caused, it will take time to complete a detailed self-inspection to determine.

It is the micro-aircraft that Qin Yu has always cared about. It has made new progress.

Vulcan has already built a prototype, but during the test, it was found that the engine was difficult to match.

It is not because of excessive power and excessive weight that affects the balance of the body, or the power is too weak and it is able to fly close to the ground.

Actually, as a speeding car, the weakened version is enough.

But Zhang Wei insisted that it is not perfect enough to achieve short-range interstellar round trips.

Brother Yu didn't blow his enthusiasm, waiting to be divided into different series of high, middle and low grades, just to meet the different needs of customers.

is like buying brother, not just a potential customer for the high-end version of the short-range interstellar round trip.

One unit sells him 100 million, isn't it too much?

It is said that since he arrived on Mars, he has never heard back from him.

If it weren't for the real-time monitoring of Vulcan, Qin Yu would have thought whether he had disappeared halfway.

"How are you?" Looking at Jing Yuan earnestly, Qin Yu wanted to know her physical condition.

The second generation of super **** gene, Jing Yuan has completed the gene transplantation.

Currently, she herself is part of the experiment.

Qin Yu is watching all the data every day, but he still wants to hear Jing Yuan explain the progress in person.

"Very good." Jing Yuan raised her hand into a fist, and muttered with loose eyes: "Although it's a bit strange, it's good."

is stronger than ever before, with a clear mind, and his thinking is so active as to experience a big bang.

I am full of energy every day, and I will never feel tired after a long time.

Although various changes have made Jing Yuan more and more unfamiliar with her body.

But like she said, everything is fine!

In terms of combat effectiveness, because Jing Yuan doesn't like fighting herself, she cares more about research work.

But judging from several tests, whether it is strength, speed, response, or her physical strength and self-healing ability.

has reached an extremely exaggerated level, which is more than Kenny.

"Just, will it be too wasteful to use it on me?" Jing Yuan thought that such a powerful gene should be given to a more suitable candidate.

If it is a target person like He Wu, now the company will add another powerful combat force.

"We are a scientific research company, and not an armed department. What are we thinking about fighting and killing?"

Qin Yu raised an eyebrow and shouted, "Besides, do you use the creator as a decoration?"

gave her super gene, not to make Jing Yuan fight and kill.

Compared with combatants, her brain is more valuable and can create more wealth for the company.

It has been the 21st century, the era when the whole people are making money, and they are fighting and killing.

No money, no big guys have to do it.

Fight and kill, bedding!

After solving some trivial things at work, Qin Yu decided to go home. The little anchor is still waiting for him to make a small film!

"Kengkeng~ Leader Jing, here is a document that needs your signature." Tang Jiaqian pushed in.

Seeing Qin Yu who was about to get up and leave, her expression changed slightly, and her eyes showed a hint of shyness and despair!

Tang Jiaqian recognizes Qin Yu, and her embarrassment at this time is just like the death scene of a large society.

As her internship unit, how could Tang Jiaqian not know the situation before coming.

The boss's information is naturally included, not to mention that there is a bulletin board about his deeds inside the company.

It's just that Tang Jiaqian had always thought that she would never have a chance to see Qin Yu.

After all, he rarely appears inside the company in rumors.

This also made Tang Jiaqian relieved, but she felt a little uncomfortable, as if something was missing?

But when I really see it now, Tang Jiaqian regrets it instead.

The images of that day are played back repeatedly in my mind.

Especially when I saw the smile on Qin Yu's face, it seemed to say "What a coincidence, does it smell good?"

walked past him with her head down, Tang Jiaqian repeated in her heart "Don't call me, don't call me, don't call me."

"Tang Jiaqian." Qin Yu.

"arrive."

With her chest raised and her head raised, Tang Jiaqian stopped in place as she stared in front of her, almost saluting.

"Don't be so cautious, we meet again." Qin Yu looked at her with a smile.

"You know?" Jing Yuan looked at the two curiously.

After seeing Tang Jiaqian's face clearly, there was a hint of clarity in the bottom of her eyes.

youthful and beautiful, plump body, delicate face, fair complexion, and naive with some permission.

is his favorite style, and the boss's taste is as precise as ever.

"...Qin Dong, we have met for the first time." Tang Jiaqian said sincerely.

"Really?" Qin Yu said with a joke.

"Yes, Qin Dong." Tang Jiaqian turned to face him, pleading in her eyes.

"Haha, I might have remembered it wrong." Qin Yu laughed dumbly, and Tie Hanhan was also shy.

interesting!

"Jing Yuan, I'm leaving now." Qin Yu waved his hand and walked out.

"Teacher Qin walk slowly." Jing Yuan responded with a smile.

"You really don't know?" Jing Yuan asked casually when she lowered her head to sign after receiving the document.

"I really don't know each other, how can I have a chance to meet a big man like Qin Dong?" Tang Jiaqian explained hurriedly.

I don't know her tone, she has already revealed the bottom!

"It's a pity." Returning the file to her, Jing Yuan closed her pen and smiled: "I still want to keep you!"

Uh...

Tang Jiaqian is a little dumbfounded, is she so sloppy?

If I know the boss myself, I can stay and get a good job, my God.

Did I say something wrong just now, can I do it again?

Thinking of the miracle benefits, Tang Jiaqian walked out of the office holding the papers in despair.

"Well, sister Han, I don't have time to go back in the near future... so, when I'm done at the end of the year, I will look for you when I go back.

Okay, it's a deal...Haha, why would sister Han ask me to refuse, okay, see you then! "

Hanging up, Qin Yu recalled Han Jia's eager tone before, and the corners of his mouth couldn't help being raised.

This game is really getting more and more interesting.

I want to take the entire miracle order, and I have a big appetite.

But did he forget the principle of equivalent exchange, the more he gets, the more he loses.

I really think I am a good gentleman, are you willing to provide charity services?

This time, Brother Yu wants to see how much Han Jia's sincerity can be.

"Hao Qin Dong." Tang Jiaqian's greeting came from behind.

Qin Yu turned to look at her, smiled and said, "Well, go ahead!"

"good..."

Tang Jiaqian didn't move. After thinking about it, she suddenly said, "Boss, do you have time in the afternoon? I'll buy you coffee."

"Isn't it unfamiliar?" Qin Yu teased. UU reading www.uukanshu.com

Tang Jiaqian blushed slightly and lowered her head slightly and said: "Thank you for helping me round the field just now. I'm afraid they will ask how they met you."

Could it be that the boss once saw the scene of pulling his feet, and at the time he put it in front of him and smelled it?

Thinking of her S2 operation, Tang Jiaqian wanted to get into the ground.

Why do you have to be seen by him, so annoying!

"No thanks, just work hard." With a light smile, he put his hand on her shoulder and pressed it hard.

Qin Yu left so decisively, leaving Tang Jiaqian stupidly in place.

He is so handsome!

Tang Jiaqian suddenly realized that she seemed to have been paying attention to the wrong point.

How can a big person like the boss care about the little things that are embarrassing.

He doesn't care about himself, there is no shortage of women by his side.

Lanyue, the most outstanding representative of the new generation of dancers in Shanghai opera in recent years, cannot and cannot resist his charm.

In the face of such a high-quality man, what are you struggling with?

Shouldn't you just push him down, eh...

Tang Jiaqian, what are you thinking about, what is this strange development?

Chapter 974: Mud flow

Back to Seaview One, the small anchor has set up the venue.

rooftop, swimming pool, wet body!

Wow~

When it comes to playing, I still have to watch the little anchor.

But why is the development direction of the script different from what he expected?

"Boss, you got out of the swimming pool wet, then I wore a cheongsam, shook Yushan towards you, and finally stuck to you."

Seeing Qin Yu's expression gradually darkening, the little anchor said angrily: "Just show a little pectoral muscle, a little bit!"

"Is this a little bit?" Qin Yu pointed to the shirt on his body, the thing was not wet.

Jump into the pool again... Wearing more **** series than not wearing it?

enters the water, the camera is aimed at the bottom of the neck, Wang Hong, who is in charge of shooting, looks at the clavicle and chest muscles in the camera.

"Gudong~" After swallowing the smoke, the camera turned to the steps.

Qin Yu: ? ? ?

What the **** is slobbering?

Forget it, the little anchor wearing a **** cheongsam came here, walking gracefully on catwalks, half-shielded by the feather fan.

The **** temptation between the eyebrows makes Wang Hong's heart fascinated.

Xiao Yu is really getting more and more sexy, and the seductiveness in his bones is simply fascinating.

It's no wonder that the boss has a soft spot for her and he doesn't get tired of eating!

The little anchor sits sideways by the pool, with the feather fan folded in his hand, and his chin is lifted upwards.

The tall and straight figure is presented on the screen frame by frame, with golden ratio lines, six pack abs...

~~

At this moment, Wang Hong can't wait to scream, such a beauty is out of the bath...

呸呸呸, beautiful boy in the water!

When the little anchor stands on one foot, his left leg is curled up on the sculptural chest, and his eyes are drooping towards the camera.

The picture is still here, "click."

Putting away the equipment, Wang Hong turned around and went to the computer to upload a short video, "Sister Xiao Yu, come and take a look, I feel so perfect."

Hearing Wang Hong's praise, the little anchor ran over happily.

A wave of demon wind lifted the skirt, letting Yu brother see her enchanting and colorful inside.

It turns out that the real main course is waiting here!

"I'll take a look." Standing behind the little anchor, Qin Yu leaned over to look at the front screen.

Sitting in front of the computer, Wang Hong's pretty face was reddening and getting hotter! !

In the afternoon, Brother Yu lay alone on the sofa enjoying the sun.

The little anchor and Wang Hong have been busy with filming for a day, but they are already tired on the bed, and they can't wake up.

Ding!

The phone screen lights up, and Qin Yu takes the starting point.

"Uncle, how long have you not come to see me?" Sour.

"Uncle, uncle, I miss you. {Crying face}" sour.

"Uncle, I bought black silk!" Sour.

"Send it to see." Qin Yu.

"Huh, uncle smelly, I know you like this. {Du Mouth}" sour.

"Photo X9." Sour and sour.

"Photo X9." Sour and sour.

Siamese, Yu brother's interest was greatly reduced, and he responded: "This is not because you are busy with your studies, and you don't want to disturb our meditation and chasing dreams!"

"Cheat paper! {Knife knife knife}" sour.

"Photo X3." Sour.

咦, monocular lace...

Hmm, there is such a thing?

"I'm free tonight, do you want to have supper together?" Qin Yu.

Did not receive a response from JK, Qin Yu was not in a hurry, and first called Xu Wanwan:
"Where?"

"In class, is the boss coming tonight?" Xu Wanwan said in a low voice.

"To please a man, you must first understand his body structure, which is the so-called sensitive point.

Now, look at the props in front of you, we..."

The clear female voice gradually disappeared, and Qin Yu asked with a weird expression: "What class are you taking?"

"Ah, it's the theory of skills, boss, people have accumulated a lot of knowledge recently, just wait for practice!"

Xu Wanwan responded shyly and mischievously, thinking that the boss might come, his heart beat faster.

look forward to!

"I'll take a time to pass these two days, and you will wait for me at home obediently."

"Well, I will wait for the boss at home obediently." After the other side hung up, Xu Wanwan put the phone away thoughtfully.

She is considering what new styles of clothes she should buy, which can impress her boss deeply.

Although it's cool to only take money, Xu Wanwan still wants his attention.

Just a little, just a little care!

In the mansion, Qin Yu switched the call, and little JK's complaint came in his ear: "Uncle, don't you know how to coax people?"

Girls are for coaxing, uncle smelly, doesn't care about me at all. "

"I have been thinking of you in my heart. If you don't believe me, listen." Qin Yu put the phone on his chest, and there was a sudden fierce beating from his heart.

Qin Yu put the phone back to his ear, and said, "Did you hear it?"

Although he didn't believe that it was his heartbeat, Jia Jingsi was still very happy.

"Hmm, you've passed the level."

Thinking of his previous news, Jia Jingsi hurriedly said: "I'll come to you tonight, just sauce!"

Without giving him a chance to speak again, the phone has been hung up.

Qin Yu shook his head and sent her the location of the folklore. Let's try Capella tonight.

It is understood that the privacy of the villa is excellent. There is also a terrace patio on the fifth floor, surrounded by green creepers.

I believe that the experience of enjoying the night scene together on the terrace will be very beautiful!

Since he was going to meet JK at night, his time had to be compressed, and he wanted to have a simple meal with the little anchor.

Now he must leave early to have a candlelight dinner with Jiang Xiaoshan.

Binjiang No.1, Qin Yu parked the car and walked to the elevator.

can't help but think of Sister Yalan. I wonder how she and Tongtong have been these days?

made a phone call and learned that Tongtong was not discriminated against or targeted at school, and his teachers and classmates cared about him.

Qin Yu also relieved, chuckled and comforted: "Now you should rest assured."

"Well~ he is not unhappy at all, but he thinks he is super cool, and he is clamoring to go to school every day."

Yalan doesn't know what to say about this, and the child's heart is too big.

"Right..." After pondering for a moment, Yalan suddenly asked: "Where are you, aren't you busy?"

"I'm in your community, come to meet a friend." Qin Yu said casually.

"...I'm at home, do you want to come up and sit down?" Yalan's invitation came too far, and Yu's 'timeline' broke instantly.

What should I do when encountering such a sudden situation? Brother Yu's brain cells burned wildly.

Ding!

An idea flashed in his mind, and he whispered softly: "Sister Yalan, or come with me!"

"Is your friend a girl?" Yalan's tone became weird.

She understood Qin Yu's suggestion and was furious at his boldness, but a rebellious impulse ignited in her heart.

Logically speaking, she has passed the rebellious period at her age.

Ya Lan, who has been a good girl since childhood, has never made any rebellious decisions.

Now, it's a bit like a big reversal where things must be reversed.

I want to break my peaceful life and experience different excitement.

Tongtong's injury has caused her to be more severely affected and irritating than it seems!

Yalan needs to vent and release her inner depressed emotions.

There is nothing more suitable to vent than to go crazy!

"Room number!" There was a hoarse trembling sound on the phone, and he hung up quickly after getting the room number.

rubbed his hands with a little excitement, Yu Ge's expression looked a little wretched.

Even he didn't expect that a sudden flash of inspiration would have such a big harvest.

Tonight, the world of Yalan will open a brand new door.

Walking out of the elevator, Qin Yu verified his fingerprint and pushed open the room.

"Sir?" Jiang Xiaoshan's puzzled voice came from the room.

"It's me." Qin Yu shook off his shoes, took off his coat and threw it aside.

Jiang Xiaoshan walked out quickly, seeing that he was really surprised and said: "Why is it ahead of schedule?"

stepped forward and hung up the clothes he left on the cabinet at will. Jiang Xiaoshan went to the kitchen to make tea for him.

"Don't be busy, there is a party in the evening, don't wait for me!" While talking, Qin Yu held her devil's waist.

Body trembled slightly, his soft waist crawled forward, his hands resting on the stovetop naturally.

This hard dish must be soft enough to be delicious!

After half an hour, Ya Lan stood in front of the door with meticulous preparations, wearing a black deep V black dress and a pair of speed shoes.

After taking a few deep breaths, the glittering fingers pressed the doorbell.

Ding Dong, Ding Dong~

Until the bell disappeared, I didn't see the door open.

Yalan frowned involuntarily, and reached out again to press the doorbell.

Ding~ Click!

A small slit opened in the door, and Ya Lan looked inside with some doubts.

I couldn't see anything in the dark room, and opened the door in surprise, before it was fully opened.

An arm slammed her wrist, "Ah~"

Amidst the screams, Yalan's figure disappeared outside the door, and the door 'Zizi' was locked.

In the empty elevator room, the quietness of the past was restored again.

was busy until 2 o'clock in the morning when Qin Yu walked out of the room again, and the WeChat and WeChat images on the phone were continuously bombed.

Come to the garage, get in the car!

kicked the floor oil, and the rear of the car flung forward while flicking.

*

*

*

After several days of heavy rain beating the mountain, Lu Qing, who was standing in the room, looked at the village below worriedly.

There is a protective **** behind the school, so there is no need to worry about the rain causing collapse and mudslides.

The mountains on the north side of the village, after several days of rain watering, the soil on it is getting softer and softer.

Yesterday, the mud on the surface rolled down and flooded the house of a family below.

Fortunately, the village moved the family to another place in advance, and there were no casualties.

You can see the current trend. If it continues to rain, the entire mountain will collapse.

When the mudslide slides down, not one family is flooded. UU reading www.uukanshu.com will suffer in the lower half of the village.

"Teacher Lu, I'm still worried about the safety of the village. I think a rescue maneuver has passed before."

Fang Li shook the water droplets in the lunch box, buckled the lid and put it in the drawer.

"Um."

Lu Qing looked back at her and said worriedly: "I think it is safer to evacuate the whole village to the school."

"We have already suggested it, but they didn't want to come." Katsuo reminded.

"Life is close to the sky." Seeing that the rain is getting worse, Lu Qing turned and walked outside the door.

"Teacher Lu, where are you going?" The two hurriedly followed.

"I'm going to find the branch secretary, let him persuade everyone!" Lu Qingzheng said, suddenly stagnating.

rumbling!

Amidst the loud noise, the mud-rock flow that swept over the rocks, mud and trees frantically stirred and gushed down from the heights.

In the blink of an eye, half of the village was submerged by a terrible mudslide and disappeared into the sight of Lu Qing and others.

Body shivered in vain, Lu Qing yelled "Save people" and ran forward.

In the next second, her hands and wrists were pulled by Fang Li and Shengnan: "Teacher Lu, you can't go!"

Chapter 975: seed

Lu Qing who was stopped by the two said anxiously: "You two let me go, I'm going to save people!"

"Teacher Lu, you will only have one more life if you go down now, don't be impulsive." Sheng Nan held her tightly.

"I'll be careful, isn't there you two?" Lu Qing said bluntly.

was about to go down, a roar of "Da Da Da" came from the sky.

Several helicopters went straight forward and hovered diagonally above the disaster area flooded by mudslides.

The words Miracle Company clearly visible on the fuselage made Lu Qing shocked and ecstatic.

The steel figure appeared in front of the cabin door and jumped...

"It's Mark."

Shengnan immediately recognized the person manipulating [Xingtian], and dozens of [Xingtian] later jumped off the plane like dumplings.

boom~

Amidst the shaking, there was a burst of dust on the ground!

After a brief exchange with the on-site personnel, he immediately plunged into the rescue.

It is now confirmed that the number of people buried is more than 10 people. The sooner the rescue is launched, the chances of survival of the victims will be greater.

Although, this hope is very small!

"Reinforce the mountain first to prevent secondary collapse, and other people confirm the location as soon as possible and clear the big obstacles."

"Follow-up troops are coming, first clear a safe route and let equipment and instruments come in!"

"Go to someone over there and push the dilapidated building."

Seeing that the rescue was unfolding in an orderly manner, Lu Qing stopped struggling forcibly, "Okay, let me go."

Watching her calm down, Fang Li and Sheng Nan let go.

"Let's go, let's cook and boil water." Lu Qing was not in a hurry to go to the scene.

As she calmed down, she knew that even if she went now, she just stared at her.

It's better to do something within your power, such as boiling water to cook.

The rescue team and the victims will definitely be transferred to the school playground for rest and resettlement. There is no safer place nearby.

These people's health, eating problems!

Lu Qing decided to take Fang Li and Shengnan to contract.

*

*

*

"It's fine if you are fine, you must pay attention to your own safety, and don't risk your life!"

"The company has mobilized a large amount of manpower and material resources into the rescue, and the yamen is fully operational.

Don't worry, it will pass..." After ending the conversation with Lu Qing, Qin Yu answered several more calls.

There are parents, friends, relatives and friends.

is also concerned about his safety, women who don't know his whereabouts.

Li Zhen and Jiaren, who are far away in Hancheng District, also called to ask him about his situation.

And donate to help as soon as possible, express one's own heart.

The same goes for the moldy who is preparing for a concert in Sydney, and posted a long post on social software, once again calling for environmental issues!

In recent years, the proportion of casualties and economic losses caused by geological disasters and natural disasters has increased.

Countries are also increasing their efforts in environmental governance, but its investment and speed obviously cannot make up for the early damage, and it is only at the same rate as the current pollution rate.

It is impossible to reverse the situation by manpower in the short term.

Human beings have become accustomed to the convenience brought by technology, exhaust emissions, river pollution, thermal energy emissions, white garbage, etc.

These problems do not exist in one or two days, and they can be resolved early.

If you want to develop, some problems have to be ignored.

Drink poison to quench thirst!

However, the situation has changed recently.

With the establishment of Barrow, Seoul, and Ross districts, access to the "Ghost" port, a large number of players poured into the game.

Just two months after accessing the port, a certain area in Barrow has even been spectacular for a week without anyone in the streets!

Seoul, Ross District, and then the same landscape appeared.

In just one week, the air quality and natural environment have been restored unimaginably.

This point, to a certain extent, alleviates the outbreak of evil fruits planted by human beings.

It's just that there is still a long way to go to completely change.

How many disasters will happen next, I am afraid no one can predict.

At the end of the year, the official approval documents for the Shennongjia Center No Man's Land Training Field came down.

The simple training camp created by Miracle Company was also successfully delivered.

After three months in the miracle city, Kenny finally has a world where he can stretch his body freely.

"How do you feel?"

Standing at the training center surrounded by forests, Qin Yu pointed to the star-like tents and asked.

This arrangement is the final result of Kenny's request and the opinions of the company's design department.

not only has the roughness and closeness to nature that Kenny wants, but also ensures the basic life needs of training members.

In terms of safety, a layer of barbed wire is enclosed on the periphery of the hilltop platform.

There are four [Creators] stationed in the base, they are the best security.

"A comfortable environment only breeds cowardice." Kenny smiled with satisfaction on his face, but he didn't want to admit defeat at all.

Qin Yu just ignores his duplicity.

pointed upwards, and Qin Yu continued: "There are countless eyes staring at it, and certain monitoring equipment is installed in the forest.

I don't care how you train them, but there is one thing... Casualties must be controlled within 10 per year. "

The number of deaths is inevitable, but the number must be kept within a reasonable range.

Mission destruction is never allowed to happen in the Shennongjia training camp.

"You have too many requests, Qin." Kenny was a little dissatisfied.

Qin Yu raised his head to look at his tall body and said with a lovely smile: "Don't forget, it's you who ask others, it doesn't hurt to be humble!"

"Well, I agree." Kenny nodded in thought.

But he immediately said that he would also be transferred to the training camp to be the first batch of instructors.

"I refuse!" Qin Yu refused without thinking.

For more than a month, Lao He used his strength to gain Kenny's approval.

The two are typical people who don't fight and don't know each other, and now they have become iron buddies.

Kenny also later apologized to Shi Cui personally.

Obviously, his 'Genetic Modification Project' was successful, and Kenny's own modification has its own advantages.

There is no tall to abnormal physique, and the powerful functions of strength, speed, reaction and physique are almost the same.

Even physically speaking, the "Fanatical" is better than the "Star Warrior"!

Of course, Kenny would never admit this.

He only recognized the success of the experiment, these genetic warriors are very capable.

But compared with his 'Star Warrior', it's so much worse.

As their inheritance can only rely on surgery, they cannot grow genetic seeds, their life span is limited, and they are not immortals.

Although this is not a problem in Qin Yu's eyes, the life cycle of a 'enthusiast' is 500 to 1,000 years.

Such a long time, for a human with an average lifespan of 80.

is already unimaginable, a miracle that I can only dream of!

Besides, 500 years...

It won't take so long for the update of genetic technology to break the shackles and allow enthusiasts to enter a new field.

Qin Yu doesn't think that the current 'gene modification technology' is already the ceiling.

They are just getting started in the genetic field...

Jing Yuan, who uses the "Second Generation Super God Gene", is a living example!

Comprehensive, strong, safe and stable, it seems that unlimited growth is challenging Shi Cui's nerves time and time again.

After being rejected by Jing Yuan Yoshihide verbally, he served as his experimental subject.

Shi Cui had to use himself as a model, and began to try to strip the super **** gene in his body to find its real secret and power.

If he can change his mind, come to Qin Yu.

may be able to obtain a complete genetic sample again, but Shi Cui did not expect this at all.

"He Wu is the best link between the star warriors and rookies. I hope you can seriously consider my proposal."

After being rejected by Qin Yu, Kenny still didn't want to give up and tried to fight again.

But Qin Yu once again told him decisively: "No show!"

Lao He is his driver and bodyguard, loyal, silent, and prudent, he can understand his intentions with just a glance.

Now that he has great strength again, where can I find such a useful tool?

wants him to change the driver, unless He Wu will be a clone.

Whether Kenny can make a training camp, that's his question!

Qin Yu has provided him with sufficient convenience, manpower and material resources, and resources.

The rest is up to his own.

Hundreds of years of experience, Qin Yu doesn't believe that Kenny will not be able to deal with a group of rookies.

The first batch of trained members appeared at the entrance of no man's land two hours later, and the instructor in charge of leading the team stopped.

"Now, we are at the entrance of the training camp. You will receive the first test here."

"From here, we arrived at the training camp smoothly. The winners stay, and the losers can go back by themselves."

There was a commotion in the dark crowd, and it quickly became quiet again.

Among them are elites of the Ministry of War, social figures, adventurers, and extreme challengers.

not only has yellow skin, but also white and brown, but the number is relatively small.

These people are all selected after countless tests, reviews, and careful selection.

A small test, just want them to retire?

"Two hours, this is the time left for you. Let's go now." With the instructor's order, the whole team ran forward quickly.

If this allows them to give up, they will not stand in the line from the beginning.

In this regard, UU reading www.uukanshu.com instructor was not surprised.

After waiting for everyone to disappear, he quietly looked at this airtight Maolin with a slightly worried expression!

"Why, afraid of them having problems?" Bai Ze walked from the rear, standing beside the instructor and smiling.

"Aren't you worried? That's an alien." The instructor retorted.

"Then you will bother to take care of these people." Bai Ze's understatement doesn't mean that he doesn't value these people.

Actually, there are a few little guys in the team who want to call him uncle.

He just understands that sacrifice is inevitable.

All the tempering is to achieve a better self.

Since they chose this road full of thorns, they should take the risk.

If there is any ideological gain for Bai Ze over the years, it is "Life is never a game!"

chuckled his old friend on the shoulder with a light smile, and Bai Ze continued to walk forward.

Now he is going to meet the noble Qin Shao and talk to him about the follow-up personnel assignment.

These lads can't all be taken away by aliens.

Always leave some seeds for them and go to a training camp of the same size in the Gobi as an instructor.

Chapter 976: filter

In the dense forest, Li Xiaoxiao ran quickly with a few female soldiers.

"Stop." Clenched palms into fists, and the team stopped neatly.

"No. 2." Before Li Xiaoxiao's words fell, a vigorous female soldier quickly climbed onto the branch.

After looking forward, he grabbed the tree trunk with both hands and slid down: "Captain, there is a wild boar out for food 600 meters ahead."

"Detour." Li Xiaoxiao said decisively.

When you encounter a wild boar in the wild, don't provoke it without heat weapons.

This thing is more lethal than the blind bear in the wild.

sharp fangs, just one pick up can pierce a person's body to the heart.

Especially wild boars in hungry state are extremely dangerous and aggressive!

Unless you have to, it's best not to meet each other.

Their mission is to reach the summit training camp within 2 hours, but there is no stipulation that they must bring any loot during the period.

Five miles away from the west, another team also suffered an accident.

They ran into a stumbling tiger who was lying on a thick branch, licking its paws leisurely.

"Captain, do you want to go up?" The scarred man licked his lips.

They are a group of adventurers who lick their blood.

"How long does it take?" asked the half-inch, stern, rough-looking man.

"53 minutes and 22 seconds." The thin monkey scout behind the team responded.

"It takes too long to take it with you. It takes at least 15 minutes to clean the skin, which is too time-consuming." The captain said coldly.

"5 minutes."

Scarface with a knife in his hand said: "We just need the trophy, not to sell it, simply deal with it!"

Captain quickly calculated that it takes 10 minutes to hunt and 5 minutes to peel, and the probability of an accident is 40%.

"Go up." With an order, several people dispersed among the forest.

The scout was like a monkey, clutching the trunk and climbing to the crown of the tree on all fours, watching the tiger's tracks.

There is a crisp bird song in his mouth, conveying information to his companions.

Captain leaned forward and quickly touched it forward, looking at the direction that he was heading straight towards the tiger.

Scarface drew a distance from him, circling to the right side and lurking down.

When the Tiger spotted the captain, its back arched, its sharp claws popped out and let out a threatening growl.

Confirmed that it had locked itself, the captain turned and fled without hesitation.

Roar~

Tigers roar in the forest, the birds flee.

The tiger leaped forward and chased after the escaped food, his nasal cavity was irritated by the delicious sweetness of flesh and blood.

Putting away the knife, the captain clenched his fist hard, letting more blood flow out of the scratches on his arm.

ran forward a bit faster...

The distance between the two sides narrowed a little bit, and just as the Tiger was about to catch up with the captain, it took a leap.

lurking in the forest, covered in mud, the scar face of the branches and leaves turned over.

The seven-inch blade in his hand pierced the tiger's soft abdomen, and his left hand was placed on the back of the blade to stabilize the figure.

The sharp blade cut open the entire abdomen straight, and blood mixed with internal organs rushed toward the face, instantly turning the scar face into a terrifying smell!

咚!

The captain who rolled over and avoided stood up and turned his head, staring coldly at the tiger who fell to the ground.

After waiting quietly for several minutes, the tiger pretending to be dead completely died in convulsions and struggles.

The dilated pupils are full of silence and despair!

*

*

*

After 2 hours, the last reserve soldier who rushed into the gate at the stuck point arrived.

The barbed wire was closed again, and two [creators] stood guard at the door to notify the latecomers of the bad news: "You have timed out and you are disqualified. Please go back the same way."

Some people are unwilling to refute, all they can hear are repeated warnings.

There are also people who want to sneak in with a slippery head, but they end up being thrown out of the iron net by the [creator] pinching their necks.

Watching those lost backs gradually disappear outside the door, the members who successfully arrived secretly rejoiced.

Looking around, small groups form a fixed circle and stand scattered.

The most conspicuous team is the female soldier led by Li Xiaoxiao, who is composed of all women.

The other one is a guy with a scar on his face, a tiger skin on his shoulder, and a dangerous aura.

咚·咚~

The ground shook, and the tree crown swayed, as if a wild beast came from among the forests.

My heart is lifted, and the secretion of saliva is accelerated!

"Gudong." The throat squirmed, and sweat dripped down the corners of the eyebrows.

A huge shadow came from among the forests, the steel-forged body was full of power, and the dangerous atmosphere was a crazy warning in everyone's heart.

The giant sword hilt behind exudes a threat of death, making the rookies instantly enter the state.

咚.

The huge can stopped and looked down at the shivering rookies in front of him.

Their performance made Kenny in the jar smile, which is what a rookie should be.

"Rookies, welcome to join the extreme training camp, I am your chief instructor, Captain Kenny."

A deep electronically synthesized sound was introduced into the ears, dispelling the unknown fears in everyone's hearts.

As long as the other party is able to communicate, there is nothing to worry about.

This is a training camp, not a slaughterhouse?

Two weeks later, the rookies have forgotten what they thought today and greeted this **** with the most beautiful words.

stood side by side in the woods with Lao Bai, looking at Kenny who was talking and the rookies in front of him.

Qin Yu said with a chuckle: "Kenny must have liked this gift even though he brought the spoils."

Strong and loyal are everything!

slaughtered a tiger on the way, and gave the fur to Kenny as a gift.

This is a powerful performance, and it will naturally be favored by Kenny.

As for loyalty, they have enough time to learn and understand!

"Don't you worry?" Bai Ze asked suddenly.

"What are you worried about?" Qin Yu asked back.

"Li Xiaoxiao, I remember this tomboy has a good relationship with you and is still in love with Xu Hao."

"The things between them, don't bother you and me. Besides, it's just training. I will talk about it if we can continue."

The training of interstellar warriors requires only ten years of training and polishing in the early stage. After referring to Shi Cui's opinion, it was changed to two years.

first receive two years of basic training, and then receive initial transformation to increase the upper limit of life.

is continuing to train for the next operation.

Until the fifty-year training period is completely over, he can become a qualified 'fanatic.'

The name is Shi Cuiqi. Out of consideration for respecting him, Qin Yu approved this name.

It's just that my heart is always a little awkward, it's so religious.

When did Shichoi begin to believe in religion?

Putting down this question, Qin Yu once again turned his attention to Li Xiaoxiao.

Whether she can survive the two-year training period is still unknown, and Qin Yu does not plan to talk to her or Xu Hao.

But if you survive, prepare to undergo a transformation.

Qin Yu must have a good talk with Xu Hao, whether he can hold King Kong Barbie, this is a big question!

Yes, Brother Hao is still dragging two.

made up his mind to have a showdown last time, but as soon as he faced Xia Ke, he changed the subject with a guilty conscience.

Then to Li Xiaoxiao, the other party would not give him a chance to speak.

bluntly did not consider the issue of marriage, let's talk about it first!

"Maybe I will get bored someday!" Li Xiaoxiao's free and unrestrained speech made Brother Hao depressed for a week.

This special mother, Brother Hao, did I let me give someone a prostitute?

Thinking of her character and style, Qin Yu felt that she would definitely be an excellent 'fanatic' warrior.

Had it not been for Xu Hao's relationship, Brother Yu sincerely hoped that she could survive all the tests!

Two years is just another threshold, just like entering the door before.

just jump from one stage to another.

Each subsequent operation is a battle between life and death, and whether it can be sustained is entirely up to one's own will.

Thirteen operations are thirteen ghost gates.

Equivalent exchange rule, this is the price to be paid for gaining power.

After finishing the training, Kenny left the square and handed the rookies to his entourage and assistant instructor.

He wouldn't train these rookies himself, that's the job of an assistant instructor.

Kenny is only responsible for cultivating mature warriors. If you want his guidance, let's become an "interplanetary warrior" first!

He still insists on calling the 'zealot' an 'interstellar warrior', even if the technology is completely different, he can't persuade his dead brain.

"I want 60%." When Kenny, who took off his power armor, came to his side, the negotiation officially began.

How to divide 'enthusiasts' is a big issue that needs to be discussed.

"I want 20%." Bai Ze said.

Qin Yu looked at the two and said with a smile: "I want 30%."

This is the condition he had thought of before, and he had to get 30% to ensure the supplement of personnel.

To operate space routes in the future, miracles will inevitably require a lot of force to maintain peace.

It will not pin its hopes on others, just like Qin Yu.

Kenny turned his gaze to Bai Ze, clearly wanting to pinch the soft persimmon.

Bai Ze looked up at him, smiled firmly and said: "The place where you are standing now is called Daxia."

After Kenny's eyes flickered several times, he said, "50%."

The distribution ratio was finalized in this way, and qualified 'enthusiasts' belonged to the three companies with a share of 5:3:2.

When the number of people is too large and insufficient, Bai Ze has the priority to choose.

The method is independent choice, priority is given to admission!

For example, 10 people graduated, UU reading www.uukanshu. The quota for com miracle is 3 people, but 10 people sign up at the same time.

Miracle has the right to reverse the choice, picking out the 3 best 'fans'.

The remaining 7 people will make two or three choices until the end of the assignment!

"He Wu..."

As soon as Kenny spoke, he was interrupted by Qin Yu raising his hand: "Kenny, I already said it's impossible, change someone else!"

"Let Dr. Shi Cui concurrently serve as the training camp science officer." Kenny throws out new ideas.

Be the science officer of the training camp, Shi Cui!

"Yes, but he only comes here occasionally, and the rest of the time he does research at the headquarters."

"Okay, haha..." Kenny let out a hearty laugh.

looked forward and looked up at the rookies who were laughing at the Giant Bishop's instructor.

Brother Yu suddenly felt sorry for their situation...

With Shi Cui as the science officer of the training center, the future of these rookies is bleak.

I hope they will have a healthy mind when they leave the training camp.

"In addition, I will send three psychological counseling doctors over." Qin Yu felt that it would be better to add a layer of insurance.

Among these vivid faces, 30% are valuable assets of the company in the future.

Chapter 977: Speed car

Hoo!

A strange wind disturbed the air, and Kenny looked up to the upper left corner with a cold look.

The muscles on his arms suddenly bulged, and he was ready to attack.

"Relax, you are here to pick me up." Qin Yu said with a light smile, letting his speed car show its form.

The drop-shaped aircraft exuding pure silver metallic luster was exposed to the air and landed smoothly on the ground.

"New achievement?"

Shirasawa immediately became interested, and stepped forward and stroked the drop car that was about the same height as him.

"There is only such a non-production prototype car, and the cost is 50 million. Would you like to consider one?"

Qin Yu smiled and put his hand on the surface of the water droplet, a red light flashed across the touched place.

"Welcome, Master."

The electronic sound was played, and a door opened up and down on the left side of the water droplet with a smooth surface.

The interior is greeted with soft navy luster, and the driver's seat and co-pilot's seat are reclining.

The fabric looks very novel, not the ordinary material on the market.

feels cold and very soft.

Press hard with your fingers, and the depression quickly rebounds after releasing it, like a memory foam!

"Hehe, I'll wait for the yamen to assign it!" Bai Ze shook his head and said.

"Try it." Qin Yu motioned for him to sit and try.

Bai Ze just hesitated for a while and sat in the cab.

"What about the instrument panel and direction?" The instrument panel in front was empty, and the center console only had a rotary knob.

"Turn off autopilot and manually control it!" Qin Yu said into the car.

"Automatic driving is turned off, and the authority is handed over." Electronic sound.

The lying seat tilted upward, and the metallic color that blocked the view in front began to fade until it became completely transparent.

A long slender hole split in the instrument panel, and a long strip of metal sticks out.

Under Bai Ze's startled gaze, disassembled and assembled into a racing steering wheel, and a holographic projection appeared in front of him.

Various instrument displays and road conditions ahead are presented in front of you in the form of 3D holographic projection.

You can grasp real-time information without deliberately looking at the road conditions outside.

720 degree no dead angle observation, more comprehensive information than the naked eye observation!

Bai Ze decisively got out of the car. He worried that if he continued, he would question the popular transportation.

*

*

*

On the way back to the abandoned city by speeding, Qin Yu and Qilin are discussing the formation of the air network.

If you want to make speeding popularized and face the society, the biggest problem is not the airspace route, but how to keep it online.

As long as all speeding vehicles can be online in real time, Kylin can rely on precise positioning to enable safe and efficient operation of airspace routes.

"First, set the abandoned city as a pilot, and select a few places in the company." Qin Yu decided to put it into operation first to see the effect.

only designated a city as a pilot, the approval process is much simpler.

"I think Hudu is more suitable!" Qilin.

Its answer comes from absolute rationality, without considering other factors, and simply using data as a reference indicator.

"The miracle is based here, and it is always necessary to give some feedback to the locals." Qin Yu said with a smile.

Kirin's proposal is correct. Compared with the abandoned city, Hudu is obviously more suitable for testing and promotion, and it is also more conducive to the company's publicity.

Infrastructure and people's attitudes, ideas, and overall ethos of accepting new things.

is more superior, this is undeniable.

But as a native of Sanqin, Qin Yu still wants to do more for his hometown.

When was in middle school, he was envious of those cities where tech giants were stationed.

Whenever a new technology is put into the market to test operations, the residents of these cities will always be the first to enjoy the convenience.

At that time, Qin Yu was thinking about when San Qin could do this.

The miracle has been achieved, the leader of technological innovation in the Northwest and even the whole country.

Wouldn't it be a pity if you couldn't create some benefits for the locals?

"Understand." Qilin.

The invisible speed car passed the tall buildings silently and parked at the top of the Miracle Headquarters building.

"boss."

Xu Meixin, who was waiting by the side, was not surprised by the sudden appearance of the speeding car.

She has witnessed too many miracles, invisible?

Basic fuck... Don't 6, sit down!

"Secretary Xu, you look beautiful again." Qin Yu held Xu Meixin's waist and kissed her on the face.

"Thank you boss, do you want me to listen to today's weekly report?" Xu Meixin responded with a smile.

Seeing him nodding, Xu Meixin began to formally report: "The rescue and reconstruction of Xiawa Village is coming to an end.

The total investment is 201 people, 46 Xingtian Mechas, and more than 68.13 million yuan in funds. "

"Dr. Shi Cui sent an application requesting an extension of stay."

"Vulcan received Yang Chengjun's work log, and the investigation project was hindered. Social conflicts and conflicts have intensified. Within six months, 32 conflicts were resolved, 6 direct conflicts, and 1 criminal case."

"Invisible cloth..."

"and many more."

Qin Yu interrupted the report and asked mainly: "The specific details of the criminal case!"

"Two workers clashed during work, and one bit the other's finger."

Xu Meixin's finger points in the projection, and the specific content is presented before her eyes.

"Punishment?"

"The compensation was 89,000 yuan, and the detention was 15 days."

Qin Yu frowned and said, "Is this punishment too light?"

"Yang Dong explained at this time that the cause was the provocation of the bite and the insulting action with his fingers."

"Middle finger?"

Xu Meixin nodded and said, "Yes, it's the middle finger."

"continue."

Since there was a reason for the incident and the provocation of the other party was the first, this punishment is not so unacceptable.

The wicked have their own wicked grinding, and like to put the **** up?

This is a cure.

"The manufacturing cost of the invisible cloth was further compressed, reaching 165,000/square."

"Controllable nuclear fusion helium 3 is put into use normally."

"Yuanguang Communication has made a major breakthrough in the air network project."

"Details!" Qin Yu said.

"Yuanguang Communication has been deploying air networks with weather observation balloons. This is also one of the most popular, efficient, and cost-saving solutions in the world."

"Recently, High Light has been inspired by the technical guidelines of the hyperspace communication relay base station, and used advanced energy crystals as the power to lay out the sky island."

"and many more!"

Qin Yu stopped and interrupted again, looking at Xu Meixin in amazement.

He understands all these words, but why can't he understand one of them when they are put together?

What is Sky Island? What does it mean to use advanced energy crystals as power?

Who allowed them to use advanced energy crystals, where did Yin Jian have the authority to call these materials?

"Boss, I sent you the detailed report." Xu Meixin grabbed the projection and kneaded it into a ball, and threw it towards Qin Yu.

A new prompt appeared on his personal terminal, and it was the detailed report after opening it!

Page down page by page, Qin Yu learned the details.

At the bottom, I saw the joint signature of Xu Hao and Watson. The plan was approved by the two.

No wonder it can mobilize advanced energy crystals, such strategic materials.

said it was a sky island, but it was actually an automatic drone carrying relay base station technology.

After setting the coordinates, the sky island will fly to the specified height and coordinate point.

then hovered over the designated location and became an aerial signal island.

Because it is powered by advanced energy crystals, its battery life is close to infinite.

The titanium-rhodium alloy body can resist changes in airflow and natural erosion.

In this way, the arranged sky islands are woven into a huge net, stagnating in the airflow layer.

can not only ensure the signal strength, but also can be used as a relay station for external signals to the ground.

The most direct effect is that the network speed is accelerated, and the communication can be directly connected to the satellite through the relay station.

"He is going to dig the roots of the mobile giant?" Qin Yu said with a smile after closing the report.

If everyone can connect to the satellite directly to access the Internet.

The lines and submarine optical cables that have spent a lot of money on the ground directly enter the countdown to 'scrapped'.

Of course, only in the purely commercial field.

Others, like security and military fields, never put eggs in the same basket.

will always be prepared, the simplest and simplest things are often the most reliable in times of crisis.

Once it loses its commercial value, how many mobile giants will have to pay a heavy price for it.

How many people are going to declare bankruptcy. After moving such a big cheese, the Big Three can pass the plan?

Use his **** to think and know that unless they can get control of Sky Island, the Big Three will definitely have to fight in person.

Do not slap this technology in the cradle, but also cut it beyond recognition.

The advancement of science and technology comes from human beings, and the same is true for stagnation.

Yin Jian, this guy made such a big movement quietly.

However, if you want to avoid the suppression of the Big Three, you have to plan well.

kept secret, set up a sky island, and finally announced that he was caught off guard in a high-profile manner.

Otherwise, it would be another way to take the line of Bai Ze, and let the above enjoy the convenience first.

Transition from the army to civilians and take the commercial route.

The two roads each have their own advantages and disadvantages. Qin Yu has another idea, which is to directly raise the threshold.

Take the space route, set the terminal on Mars, and use this new technology to build ultra-long-distance communication.

Aside from light years, real-time communication can also be maintained.

Use technology to lure the Big Three to take the initiative to come to the door, and then take the initiative to cooperate with them.

However, considering the time cost consumed, Qin Yu overthrew this idea again.

It takes too long to do so, and it is not in the interest of the company!

The use of new technology, UU reading [www. uukanshu.com](http://www.uukanshu.com) will complete the air network architecture required by the speed car.

A speeding car will be able to follow the designated route to any place in the world under the guidance of intelligent AI.

The earth is truly transformed into villages, and the exchange of culture, information, and people will be more intuitive.

In the morning in Shangdu, in the afternoon to the Big Apple City, sleep in the Red Square in the evening.

This magical journey is no longer limited to only a small group of people.

The speed of technological development will also take off again.

The moment Qin Yu thought about this, Qin Yu had already noticed.

First lay out the sky island, and then contact Bai Ze to provide technical support for the Ministry of War.

Two lines walk at the same time, two legs alternately move forward, in order to walk more steadily and faster!

"Send these to Bai Ze, and let him reply as soon as possible!" After explaining to Xu Meixin, Qin Yu sat in a chair.

put his legs on the table and said, "I'm tired from running."

Xu Meixin lowered her head to operate the terminal and walked to the suite. When she came out, her work was done.

Locked the office door, Xu Meixin dropped the white pillow in her hand on the ground: "Boss, I'll help you relax!"

Chapter 978: Bad heart (Happy Mid-Autumn Festival)

Southern Suburbs, Youpin Coffee.

When Qin Yu arrived, Han Jia had been waiting for a long time, and the coffee in front of him was the second cup.

"Qin Yu." Standing up gracefully, he waved to Qin Yu at the door.

Qin Yu also saw the radiant Han Jia.

high-waisted skinny jeans with a beige button lining tucked around the waist and a khaki casual suit over the shoulders.

neither looks very formal, nor too casual, looks abrupt and impolite, but also brings out her noble and elegant temperament.

'S plump figure is vividly expressed, sitting there is wonderful, like a beautiful painting.

"Sister Han." Qin Yu sat down with a smile, looked at her and praised: "I was so amazing."

"Are you there?" Han Jia covered her mouth and chuckled, her eyes full of triumph.

No woman hates being praised for being beautiful.

Especially the high-quality diamond man admired by Qin Yu who has a successful career and outstanding achievements, and he is also a super handsome man.

"Yes, you are so beautiful today that people can't look away."

Qin Yu glanced sideways, raised his eyebrows and said: "Over there, everyone looks silly."

Han Jia turned back curiously, and his gaze happened to meet the middle-aged man who was peeping from behind her graceful figure.

Seeing Han Jia, the other party realizes that his actions have been discovered.

not only didn't feel ashamed and panicked, but instead smiled calmly and made a call gesture.

is clearly asking for the number from Han Jia.

Han Jia glared at the other person, but made the man smile triumphantly.

Turning her head in anger, Han Jia felt very sick, picking up the coffee and trying to suppress this emotion.

Qin Yu snapped his fingers, and when the waiter came over, he said something in his ear.

then wrote a series of numbers on the paper towel with a pen, and the waiter took it with a weird expression.

Out of curiosity, Han Jia's eyes follow the waiter's back.

found that he had gone to the table of the middle-aged wretched man who had been spying on himself before, and his eyes met the other side again without surprise.

The man's expression brightened, thinking that his greasy figure was favored by beautiful women.

Just about to say something, the waiter has already passed the tissue in his hand to the woman opposite him.

The woman who was chatting with her best friend was slightly taken aback, and then she saw Qin Yu following the direction of the waiter's fingers behind the tissue.

There was a light of surprise in his eyes, and then he opened the tissue without hesitation.

"When we meet in Pingshui, can we go to Wushan together?" There was a number behind it.

The woman's flashing eyes have already explained everything, she glanced at the man opposite with a guilty conscience, and wanted to put the tissue away.

For men who know him, the sheen of his eyes is full of green.

"Bring it."

"what?"

"What was written on the note just now?"

"If it's boring, I'm about to lose it."

"Give me."

"You are crazy, why are you so fierce?"

"Eh, you two have something to say, everyone watch it!"

The waiter cleverly chose to slip the number when the man spoke.

Participating in the whole process, he knew clearly what happened next.

Unexpectedly, the man just tore away from the store with his wife.

didn't even say a word of cruelty during the whole process, just glared at the handsome guy who was handing the note before leaving the house.

The waiter glanced at the other's arm supporting the table, bending the biceps like a thigh.

silently praised the man's choice: from the heart!

Seeing the man leaving in embarrassment, the woman did not forget to wink at Qin Yu before going out.

Han Jiaren couldn't help but said, "Are you showing your charm?"

"Yes, how is it?" Qin Yu said, "Does it satisfy you?"

Han Jia smiled, looked at him up and down deliberately, then reluctantly nodded and said, "Well, it's not bad."

The perfunctory tone and expression made Brother Yu laughed and said, "Is sister Han with such high taste?"

"Of course, do you think anyone can be in my sister's eyes?"

Han Jia raised her head proudly, her slender neck was a **** collarbone as white as milk.

"Ah, what are you looking at?" Han Jia nodded shyly like a girl.

There are shyness, secret joy, and a trace of anxiety in his expression.

Reading the meaning in her expression does not mean that anything will happen. This game is getting more and more interesting.

"Uh...I want to thank you, Xiaoyu." Han Jia changed the subject in a weird tone.

"Why?" Qin Yu also picked up the coffee and took a sip with his head down.

Both chose to break the ambiguity before it started, because letting it ferment and rot would only make the situation worse.

The timing and occasion are not right!

"Thank you for giving me the business reception business of the subsidiary... to our company."

The nervousness made Han Jia become incoherent, and quickly picked up the coffee and poured it into her mouth.

"Ahem~" Han Jia was choked by coffee because he was too anxious.

The half cup of coffee left in her hand fell on her body and wet her neckline: "Ah!"

Han Jia stood up in surprise, and the harsh sound of the chair rubbing against the ground caused dissatisfaction and attention.

"It's okay, here you are, wipe it quickly." Qin Yu took out a few tissues and handed them to her, and asked the waiter for a clean towel.

"Sorry, I'll go to the bathroom to take care of it." Han Jia said embarrassedly.

"Give you this." Passing her the tissue box, watching Han Jia rush to the bathroom, Qin Yu took his seat again.

"Sir, here needs to be cleaned, let's change the location for you first." The waiter said, pointing to the mess of tablecloth.

"Excuse me."

Qin Yu apologized and said, "Put the compensation into the bill."

The waiter took the bank card with both hands and took him to the new seat with a bright smile.

After waiting for about 20 minutes, Qin Yu hadn't seen Han Jia yet, which made him a little impatient.

Just then, the waiter came and said in his ear: "Sir, the lady who came with you, please go to the bathroom."

Qin Yu was taken aback when he heard the other party say so, nodded and picked up his jacket.

came to the bathroom door, Qin Yu knocked on the door: "Sister Han?"

"At...Xiaoyu, can you come in and help me down? Also, you'd better bring your coat."

Hearing Han Jia's words, Qin Yu looked down at the coat hanging on his arms: "I'm bringing it, do you want to come in now?"

"Yes." At the same time as the voice came, the door lock was unlocked from the inside.

Qin Yu pressed the doorknob, opened the door and walked inward.

It's not a big bathroom, and Han Jia's neckline is messed up.

The coffee and milk stains on it were not only not cleaned up after repeated washing with water, but completely printed on it.

At the same time, she dyed her coat and her jeans got wet with water.

Anyway, she is in a mess now!

"How did this happen?" Qin Yu asked in surprise.

"...Sorry!" Han Jia was speechless.

She didn't know why things happened like this, she just wanted to clean it briefly.

As long as it's not so bad, she will leave with her coat covering the seal.

But I didn't expect that the problem would get worse from the beginning.

Then, getting worse and worse, until the whole body became messy, she looked like a lunatic... or fool!

Han Jia didn't put her mind on this matter at all, she didn't know what she was thinking.

Maybe it was the previous conversation, or Qin Yu showed off his charm to help him get rid of the obscene man.

is still the embarrassment that she releases the provocative signal.

In short, this is completely different from Han Jia's plan.

Still, this is the plan she was expecting in her heart? ? ?

Han Jia was confused and froze in place for a while.

"Sister Han, Sister Han?" After yelling a few times, Han Jia woke up from thinking.

"Huh?" Looking at Qin Yu, her eyes quickly staggered.

Qin Yu seemed to be unaware of anything, and said in a natural tone: "Here you, use this to block, we have to find a place to change your clothes."

"It's not a good thing for you to go home like this now." Qin Yu pointed to her embarrassed look, jokingly.

lent the jacket to Han Jia, and put it in front of his chest.

Qin Yu took her to pay the bill at the front desk, took back the bank card, and left.

was the first to open the door of the co-pilot. After asking her to get in the car, Qin Yu walked around the front of the car and sat in the cab.

"Thank you, Xiaoyu, for causing you trouble." In the car, Han Jia lowered his head and said softly.

"It doesn't matter, it's nothing!" Qin Yu looked at her and smiled: "People always have bad luck."

After thinking about the nearest distance to W Hotel, Qin Yu asked directly: "This is very close to W Hotel. There is a shopping mall downstairs. Can I get there?"

After a short silence, Han Jia nodded as a response.

10 minutes later, Qin Yu parked Rafa in the VIP parking space.

When he came to the opened executive business suite, Han Jia took off the scarf she was holding her head and walked around to admire the room layout.

Qin Yu came to the small bar, poured a glass of wine and handed it to her: "I think you need a drink."

Han Jia took the glass and smiled calmly: "Yes, it **** today."

She really needs a drink now, not only because of the bad things she had done before, but she also urgently needs to calm down now.

"I have asked someone to pick up the clothes for you. After I will change them, I will hand them over to the hotel for cleaning. They should be washed soon."

Han Jia nodded, turned around and walked to the floor-to-ceiling windows, standing there overlooking the landscape of South Lake.

"Very beautiful, right?" Qin Yu walked to her and looked at the lake surrounded by trees.

The sparkling waves, the waves made by the fish, and the posture when he jumped out of the water, he could see clearly.

"Yes."

Han Jia's eyes were blurred, and he pointed to the right side while turning his eyes, and said, "That's where you live. Isn't Nanhu Manor right?"

"Yes, but it's mainly my parents who live, and I'm considering buying a few more sets for myself."

Brother Yu had this plan a long time ago. Although Nanhu lives in a comfortable place, it is often inconvenient.

Besides, don't you think he has too few homes in the abandoned city?

As a promising young man, how can he only have one or two homes? It is simply outrageous!

"Really?" Han Jia said in deep thought, "We have recently built a high-end apartment with a large flat floor, and the minimum area is more than 400 square meters."

"Oh? How about the management?" Qin Yu became interested.

400 square meters, large flat floor, high-end apartment.

Every point is poked into his mind, just to be included in the consideration list.

Besides, it is the most densely populated area in Nanqu. The surrounding entertainment facilities, food, clothing, housing and transportation are all perfect.

Compared to Nanhu Manor, it is obviously more suitable for young people like him.

Chapter 979: ridiculous

Patter.

Drizzle on the floor-to-ceiling windows, covering the outside world with a veil of mystery.

The looming beauty makes people yearn for!

"It's raining, have you brought an umbrella?"

The heat that Han Jia exhaled formed a cloud of hoarfrost on the window.

"It's raining, I never bring an umbrella!" Qin Yu responded.

"This way, it's troublesome!"

With the sound falling, the drum beats on the window.

A faint mist rises up!

Beautiful round and beautiful... Dreamlike...

*

*

*

Three hours later, the rain finally stopped.

Han Jia left the hotel in a brand-new dress and boarded the welcome car arranged for her by the hotel.

her face was cold, and she couldn't see any changes.

But the hands holding the neckline seem to be metaphors!

looked up, the fog on the window still remained.

Han Jia seemed to see the man looking out the window with a handsome smile on his face through the glass.

Watching Mercedes-Benz disappear at the end of the corner, Qin Yu turned back on the sofa and turned on the system.

"Ding!"

"Because the host uses actions to practice the greatness of the conqueror, random rewards are triggered."

"Reward 1: Loyalty card."

"Reward 2: Advanced Energy Crystal X3."

The value of the two rewards is free, and the value of the loyalty card is equal to 1000 belief value.

Not to mention the advanced energy crystal. After realizing its value, Qin Yu defined it as a 'strategic material.'

Although there is a diamond star, Qin Yu doesn't dislike it any more!

Close the system panel and enjoy the wine on the table in a pleasant mood.

Qin Yu received a call from Xu Meixin, "Boss, Mr. Bai Ze wrote back, they are very interested in the relay station!"

"Let him talk about it himself, this matter can't be done by someone else," Qin Yu said.

"He is about to leave, do I need to send a car to pick him up?" Xu Meixin was referring to the speeding car.

With the efficiency of speeding, Qin Yu can see him before dinner.

"No, let him come slowly, I have an appointment tonight." Qin Yu responded with a chuckle.

"Do you want me to arrange it?" Xu Meixin asked.

"Of course, I can't guess what you want." Qin Yu joked.

"...Boss!" Xu Meixin was surprised and ecstatic.

Does he mean to date himself tonight?

No, it must be impossible!

In her impression, the boss is repulsive of another hidden relationship with herself.

Xu Meixin has never received any proof of response, and has always been paying by herself.

Sometimes, Xu Mei feels that she is purely inferior!

But now...

Is a response? Xu Meixin can't believe it!

"Book your favorite restaurant first, and go to the movies or go shopping after dinner?"

Xu Meixin is still thinking about it, and Qin Yu said on her own initiative: "It's okay to watch the movie, and choose a hotel when it's over."

"Okay, boss." Xu Meixin responded habitually.

"Well, thank you for your hard work." After dropping the phone on the table, Qin Yu took a shower first.

exited the house refreshedly, sprayed with **** male perfume.

I blew my hair again, and the short, rough hair is perfect after adding points to the tough look!

Touched the temples with both hands, Qin Yu smiled and said, "So handsome!"

"Shao Qin."

"Shao Qin."

The greetings from the hotel staff along the way made Yu Ge continue to feel happy.

The red Rafa drove out of the parking lot and quickly drove towards the headquarters.

He Wu's house, his wife looked at the man in the kitchen who was bent over and chopping vegetables, her eyes were still a little surprised.

went out on a business trip, and came back like this.

It feels like it's inflated, getting bigger and stronger.

Although the person is still that person, it is really difficult to connect him with the former He Wu in terms of body shape alone.

However, the tenderness left to myself and my daughter remains unchanged.

The woman doesn't understand the principle, and she doesn't understand what he does.

But does such a change happen to my own man, does it represent some kind of symptom?

The nature of his job...has it become dangerous?

Sitting at the dining table, the chair that used to be suitable can only accommodate the lower part of the ass.

He Wu moved his **** uncomfortably, and the chair creaked.

Click, click!

The whole chair just crushed him and turned into a pile of waste wood under his ass.

"Are you okay?" The wife quickly got up and looked down across the dining table.

"Ha ha."

He Wu sat on the ground, scratching his head like a big stupid man, "It's okay, I'm okay."

"Dad." The little girl stepped up worriedly and wanted to support him.

Although his changes look great, he is as powerful as the giant mentioned in the story.

But in He Mei's heart, he is still the omnipotent Superman father!

No, it should be said that he is a super superman father who is stronger than before, better than all the fathers.

But with her small palms, her wrists are not so thick when put together, how can she support her giant father.

He Mei quickly focused her attention on her father's arm, looking at his arm, He Mei grabbed her father's arm and put it on her waist.

Wow, his arms are rounder than his waist.

Hard, like steel.

"Isn't it amazing?" He Wu proudly raised his arm.

"Well, I want to tell my friends that my dad is the most powerful dad in the world." He Mei laughed happily.

"Yes, you can tell your friends like this."

He Wu got up and pulled a new chair, and casually swept the waste wood aside with his feet.

Then, she picked up her daughter and let her sit on her lap.

"But I hope you can tell your friends that I will become an excellent and great person."

"Dad, what is greatness?" The little girl raised her head and looked at her innocently.

The big pupils are full of worship for his father.

"Great..."

He Wu's eyes flickered, and he murmured: "Daddy is following a great person."

*

*

*

"Does the food still fit your appetite?" In the restaurant, Qin Yu asked Xu Meixin, who looked at Xu Meixin with a formal expression.

"Very good." Xu Meixin responded quickly.

"Secretary Xu, we are here for a date, not at work." Qin Yu put down his chopsticks and tried to change the weird dating atmosphere.

It's so strange, it feels even stranger than the atmosphere of getting along at work in the past.

It felt like two wrong people came to the wrong place and did the wrong thing at the wrong time.

No...No...

Anyway, nothing is right!

Xu Meixin obviously also noticed this grotesque atmosphere.

So, after struggling repeatedly, she decided to make a change: "Boss, let's get along as we were at work!"

"Do you think it would be more comfortable to do this?" Qin Yu asked.

"Yes, I think it must be better than now." Xu Meixin said with great certainty.

"Well, let's talk about work first." Qin Yu took the initiative to find the topic.

"The spokesperson for the company's new generation of VR game cabins has not yet been finalized." Xu Meixin said.

"Is there a list?" Qin Yu asked.

"The choice is to be determined, I'll pass it to you." Xu Meixin stretched out a hand on the terminal and threw the information packet to him.

I have been using the terminal for several weeks, but every time I do this, Xu Meixin feels super magical.

Also, it's fun!

Just like now, he stretched out his hand to 'pack up' the data, and then 'threw' it to him directly.

has completed a face-to-face data transfer, which is incredibly simple!

"Why are there so many Smecta names in the list?" After reading the list, Qin Yu's expression was a little weird.

Is this to serve his purpose?

"The Hancheng branch was just established, just in time for the establishment of the Galaxy Republic.

Choosing two Smecta stars as spokespersons is more conducive to the company's future development and interests. "

"It is also more conducive to unity and stability, the current situation." Qin Yu shook his hand and said, "Isn't it?"

"The company has this consideration, only a stable situation can earn more profits." Xu Meixin said.

"No, no, no." Qin Yu waved his hand and said, "War money is the best money."

"Will you then?" Xu Meixin asked.

With a questioning tone, Qin Yu was stunned, and then smiled blankly: "Of course not, if you want to make war fortune, miracles have now ruled the world."

War, a painful and absurd topic.

He doesn't want to live in a war, at least his world will not become like this.

"Serious Demon" and subspace, where is the place where war is needed!

In fact, Qin Yu is very much looking forward to Kenny's early departure to fight in Asia again.

At the same time, he is also considering when to use this 'loyalty card' on Kenny.

From the first time I saw Kenny, Qin Yu had regarded him as a miracle property.

includes the "Xingyue," which he has mastered, and the Weeping Band.

In the future, they will all become part of the miracle.

"These two candidates look good." Qin Yu flicked his finger, and two 3D characters appeared in the air.

Fortunately, they are sitting in a box, otherwise it will definitely cause a huge sensation.

"I will convey your opinion to Mr. Xu!" Xu Meixin said.

As the topic deepened, the atmosphere between the two became more and more harmonious, and smiles resurfaced at the corners of their mouths.

"What movies are there tonight?"

Seeing that it is about to end, Qin Yu once again turned the topic to the topic of dating.

"There are two war films, one romance film, one comedy and..."

"Comedy!" Qin Yu decided to say The most important thing is to be happy, all the needs and pursuits, and what you want in the end is the joy of satisfaction.

"I'll pay the bill." Xu Meixin got up and walked out.

In front of the bar, Xu Meixin, who was waiting for the settlement, was still in a trance.

Until now, she is still not quite sure that she is dating the boss.

So, everything will be different after tonight?

Thinking of the embarrassing experience before, Xu Meixin's whole person is not good.

She doesn't want to be like this every day, it will only make her chaotic and unwilling to work!

Not only that, but life will definitely be a mess.

is the way of getting along with each other in daily work, which makes Xu Meixin especially comfortable.

I believe he is the same, "Everything remains the same, yes, nothing has changed, just a dinner after work."

"By the way, watch a movie with the boss, and then serve him to sleep, nothing, it's normal!"

whispered softly, Xu Meixin felt ridiculous for her previous grievances and self-pity.

It was clear that all this was what she wanted the most before, but now it has become a problem for her.

People, that's ridiculous!

Chapter 980: question mark

The night was spent in a way that both of them are familiar with and comfortable with each other.

The process was perfect, and the two of them didn't open a new and different window!

It turns out that the beauty of the workplace is not limited to clothing, but also alternate roles of different roles.

"Ok?"

After taking a shower, wearing clothes that were ironed to the extent that there were no wrinkles, Qin Yu asked Xu Meixin in the living room.

"Okay." Xu Meixin stood up.

At this time, Qin Yu realized that she was already dressed.

There is delicate light makeup on her face, and the uniform on her body fits perfectly, setting off her figure vividly.

A touch of tenderness between her eyebrows means that she has been sufficiently moisturized!

Women are like water. If there is not enough moisture, they will be like dry rivers and withered flowers.

Now, Xu Mei is full of energy and her face is radiant!

"Secretary Xu, you look so beautiful today."

"thanks."

"Secretary Xu, is there any good thing to share?"

"You too."

"Secretary Xu, have you found Xiao Xianrou?"

"I wish you peace!"

Xu Meixin almost twisted her **** and walked into the VIP elevator room on a **** standard catwalk.

This **** and enchanting that has never been shown in the past is silly, almost every man who sees her.

So, all morning, the company was talking about "What happened to Secretary Xu?"

However, just before the end of get off work, another news interrupted the burning progress of the gossip fire.

The network department of the company has finalized the new list of spokespersons: Zhiyun, Xiaolin, Zhang Zi.

"Hey, why do you think there are two spokespersons from Hancheng District this time?"

"The above should be considering the establishment of the branch company. If you want to gain the favor of Hancheng District and open up the market, right?"

"The superior naturally has the superior's consideration, so let's work honestly!"

"Hey, are you not curious at all?"

"Curious, I'm curious when I can meet a real person, Jiyun is my goddess."

"Ha, then you are done."

"??" The nerdy with heavy glasses looked at his colleague in surprise.

The other party just raised his eyebrows and smiled ambiguously, as if to explain everything.

Turning his mind, the man with glasses quickly understood what he meant.

Oh~

No, my goddess is going to fall into a tiger's mouth, damn...

With tears in his eyes, the otaku opened the search engine and found the picture of the goddess.

"Fatty water does not flow into outsider fields, and fat water does not flow into outsider fields." After half an hour of self-hypnosis, the man with glasses found his balance.

In short, the goddess will not be his own after all.

If the things you worry about do happen, at least...you can often see her in the company in the future, right?

Woo~

The man in glasses covered his mouth hard and ran to the bathroom.

Now, he needs some time to conceal the space to vent his true emotions.

Otherwise, he will cry bitterly at the work station!

In Hancheng District, relevant reports appeared in the news as soon as the new spokesperson was announced.

Smecta, who had originally felt unfamiliar, had a little more agreement with Miracle Company.

And, the small and fragile self-esteem is fully satisfied.

Look, the female star of my Big Smecta was selected by a star enterprise in Chuo District.

The epoch-making virtual reality game that has attracted widespread attention around the world, [Silhouette] is its industry.

At the same time, this product is also endorsed by our family, Ji Yun and Hyo Lin.

What, you don't even understand [Silhouette]?

Let me tell you that it is the first and only virtual reality game in the world so far.

Reality is 100%, as long as you have the ability, it's okay to be in it!

Some players even married wives, aborigines.

That's right, and the authenticity of "Hehehe" is amazing!

Yes, go to the platform and official website to line up to buy new equipment!

Remember to support our family Ji Yun and Hyo Lin, Smecta will always be the center of the universe.

Let everyone see the purchasing power of our Big Smecta.

Brothers and sisters, stare at all major platforms and official websites, rush rushing~

The fans who don't understand the purpose of the new equipment at all, just attack the major platforms and official website sales centers.

In the first hour the pre-order was opened, orders for 100,000 units were sold out.

Of course, the main buying force still comes from the Central District.

It's not that the fans are not enough, but the price is beyond the limit they can bear.

It is still 888,888 yuan. Compared with the price of the previous generation game cabin, it has neither increased nor decreased.

It just maintained the original price, and most of the players started with it.

The people's complaints about prices have captured forums, post bars and various social media platforms.

They are all calling for the miracle company to allow more people to enjoy convenience, not just serve a small group of wealthy people.

For these complaints, the choice of miracle is the same as before.

Ignore!

At the same time, after successful purchase and payment, the interface will immediately jump to a new three-level page.

There is only one commodity, an all-round space suit worth 10 million yuan.

To make an all-round space suit requires 16 hours of manual operation by two workers, so it is difficult to effectively increase the output.

If all of its functions are explained, it will only cause frenzied buying by the super-rich.

In the end, even one piece may not flow into the general market.

It will also give birth to a new gray industrial chain, allowing intermediaries and scalpers to fill their dry wallets.

In response to this situation, after a meeting with Tang Guo and others.

They decided to conceal the true purpose of the almighty spacesuit first and put it on the jump page of the payment interface.

Anyone who purchases a battle game pod is eligible to purchase an all-round space suit.

As for whether to buy, it all depends on his own choice!

Hudu.

Shen Dong, who has always been in front of the computer, started the new generation of game cabins for the first time.

Now he has become a professional "Ghost" player, any relevant information released by the game company.

For new equipment and equipment, he must understand the details as soon as possible.

In this way, it is more conducive to his development in the game.

As of today, he has a sufficient understanding of "The Scary Demon".

It will become the second world of mankind.

Shen Dong even speculated that a virtual and real currency conversion will occur soon.

At that time, the prospects of professional players will become brighter.

Moreover, in the professional gamer exchange forum, he is not only the one who thinks so.

All players who treat the game as a business have the same and similar ideas.

After all, it is really amazing!

"The purchase was successful."

Seeing the words displayed on the screen, Shen Dong lay back freely with his head in his hands: "This wave is stable!"

I was about to close the interface, and a brand new page popped up instantly.

"Fuck!" Shen Dong was so surprised that he burst into foul language when he saw what appeared on the interface.

"What's the matter?" Xuan Xuan, who was preparing dinner outside, ran in.

Shen Dong pointed at the screen and opened his mouth wide and said, "This, Xuan Xuan, come and see, is this the clothes in the box I brought back?"

Coming to Shen Dong's side, Xuan Xuan looked at the screen, and then his mouth suddenly widened, covering his mouth in an incredible way and said, "Gosh, 10 million?"

Looking at each other, both of them saw each other's astonishment.

No one thought that the clothes brought back in that box would be so valuable.

"What about things? Where did you put the box?" Shen Dong pushed away the chair and asked anxiously.

"Don't worry, it's under the bed." Xuan Xuan said, pointing to the bedroom.

Shen Dong ran to the bedroom without saying a word, and pulled out the ash box from the bed.

He patted it with his hand, and then used his mouth to blow off the dust on it, Shen Dong opened the box with a pious gaze.

The brand-new all-round space suit appeared in front of the two, gleaming, as if plated with gold.

With just such a thin layer of clothing, can you actually buy a house in Hudu?

Window, the same scene happened to Tang He.

Although he had already guessed that this item was very valuable when he received the courier before.

Otherwise, I wouldn't let Brother Yu call him in person, and explain that he must take it away.

But when he really saw the price of 10 million yuan on the web page. UU reading www.uukanshu.com

People are still a bit silly!

What is the function of this dress, it is worth so much money?

The same question occurs in the heart of every user who sees the jump interface. Some people choose to buy, even if their heart is full of question marks.

Others chose to click on the upper right corner, yelling sarcastically: "Stupid!"

Who would buy an unknown product with a big red question mark in the product introduction.

Is Miracle Company floating, do you really think that rich people are all fools?

Hehe, let those who are taken advantage of it pay the bill.

I am not a dumb goose, I will never be fooled by this marketing strategy.
