Chapter 10: Is this supernatural?

Wind and rain hurts people at night: "It's really poisonous, big buddies, good appetite! "

Little Coco is looking at the screen with a trumpet.

Seeing Qin Yu say this, his face immediately sank.

She went to participate in a few multiplayer sports, but not with the big brothers.

There are a few big brothers who like to play tricks, but they are looking for friends outside the circle.

These days, people and ghosts have a circle.

seems so tall!

Except for those big brothers who can play...

The other eldest brothers all contacted each other in a single line and flew straight into the air.

Besides, what's wrong with multiplayer sports?

As long as you meet your eldest brother, you can get hot!

Look at now...

She is already the face of the platform entertainment sector, what does Cheng Xiyu have?

At this time, the second big brother of the little cocoa weekly list is online.

I love Coco for a lifetime* Yi: "Coco, what's the situation? "

"Welcome to Brother Yi."

"Brother Yi, they are connecting to PK, the eldest brother opposite is so fierce!"

Little Coco pouted, pretending to be scared.

'It's more than fierce, the emperor is opened in seconds, ten consecutive charges, it's terrible! '

'Afraid of a fart, Brother Yi is a person who is afraid of things. Is a hundred million dollars worth of trouble? '

'Brother Yi is really good, Xiao Ke was beaten in the face, **** him. '

'Brother Yi charged me up and **** the other side. '

I love Coco for a lifetime * Yi this will be watching the news in the group.

Xiaobai rushed to the emperor, renewing the fee 10 times in a row, spending more than one million.

'I have some strength, let me see first. 'I love Coco for a lifetime* and perseverance.

It's not that I can't afford to fight for a million, but I feel that daily PK is unnecessary.

One million recharges for an event. Wouldn't it be fragrant to recommend it with a better traffic?

Opposite the new emperor who should be the prodigal son.

Look at the anchor beautifully, with a few words on the head, impulsive consumption.

He didn't plan to fight the other side either. He watched the excitement and supported Xiao Ke.

Rich people are not all fools.

'Brother Yi, the other side is not just hitting Coco in the face, look. '

Screenshot:

'Big brother hurting, this green tea has a strong taste, so I'm afraid that seafood is poisonous. '

'It's more than poisonous. It's been stopped for a week and it's on the top. You can taste it carefully. '

'I'm afraid you didn't have a party together? Sea, land and air? '

'Multiplayer sports? '

Brother Yi in front of the phone sank, and typed a word with a black face: hit.

.....

At this time, Cheng Xiyu's live broadcast room was all brushed with '666'.

10 shots were super hot, and Cheng Xiyu was grateful again.

I finally remembered to increase my credibility.

"Brother hurt, I add your credibility."

Wind, rain and night hurt people: 'Okay, I will send you a private chat. '

'The little anchor is going to take the initiative, the goddess is gone, woooooo...'

'If you want me, I will take the initiative, and Diaosi crawls away. '

'Big brother, big brother, I'm your dog, dog, big brother! '

The jungler still wants to hug the thigh of a single dad.

Cheng Xiyu added Xinwei, and said amusedly: "Dads on the order don't need dogs, I will help the father on orders from now on."

'How to help? Where can you help? '

'The little anchor is swollen, let the big brother support the wall tonight! '

'Is my brother hurt so superficial? Yaofu is also a small anchor support. '

'Now the hotel seems to have handrails and magic glass...'

'The one above is also a big guy...waves! '

Wind, rain and night hurts people: 'Be confident, remove the top order and just call...'

'Little anchor: I want to be your dog, do you want to be my father? ? ? '

'The Wounder: What kind of dog, is it licking or crawling? '

Cheng Xiyu blushed, and was about to speak, a golden banner floated on the public screen.

20 full shots were over fired before the other side stopped.

The popularity of the drizzle and silent live studio dropped instantly, and all of them ran across to open treasure chests.

The previously cold-faced little Coco is coming, and said softly and charmingly:
"Brother Yi V5, thank you Brother Yi, how do you love you!"

"Little friends, walk around with free gifts, welcome new friends, and Xiao Ke Ke will sing a song for everyone!"

"Ahem!" Little Coco cleared his throat and started singing.

Wow!

Realistic sea water occupies the entire screen.

A group of black shadows from far to near suddenly jumped out of the water and opened their mouths and roared.

is a fierce tiger shark...

As the most expensive gift of fighting teeth, the special effects must be filled up.

'Fuck, wind and rain hurts people at night, the name is really correct, it hurts too much. '

'120 has arrived, and the ICU is in place. I was so shocked by Shenhao that I can't take care of myself. '

'20 big tiger sharks, 200,000 yuan is gone. '

'Don't you forget, this is a daily PK! '

'Fuck, I just remembered when you said it, UU Read www.uukānshu.com? This is a daily PK with nothing, Shenhao has already smashed in 260,000. '

'The hurt man, Niubi (pooyin). '

You need to know that sometimes, recharging money and swiping it out are two different things.

Like some elder brothers, I saw all kinds of nobles, but they didn't buy gifts.

It's just a few rockets to be brushed, and then something goes offline...

The anchor still couldn't say half of the word 'no'.

Wait when there will be activities on the platform before you can see the gift banners of these big brothers.

and they are all used for guild anchors...

Talk to the trade union first, and give your anchors some water.

Get a 60% rebate after finishing the job. If the amount is large, the anchor will have to post part of it.

In the end, the eldest brother got almost 70% to 80%.

The union paid a price to pick up the new anchor, and the anchor got good recommendations and traffic.

Big brother has a lot of face, and sleeps in a different way every day...no loss!

The union got a popular traffic anchor.

basically did not spend much money, no loss!

The anchor seems to be at a loss, but there are recommendations and traffic.

The money posted by is back several times several times, and the blood is earned!

Who loses?

, of course, are those who have a monthly salary of 2,000, save 1,800 yuan to reward the anchor, and eat instant noodles all day long.

This is actually the same as the stock market.

In the end, all the leeks who were cut were the bottom investors.

Speaking of a big brother like Qin Yu's loss again?

Others don't know, he is not at a loss anyway.

The "game currency" given out by the system for free, did he lose?

Did not see the new banner for a long time, Qin Yu felt a little bored.

'Ask if the other side is still beating? The number is 1 million, which is not enough for me to recharge.'
