"Why don't you kill me too?"

"Believe me, I plan to."

"Or..."

"What?"

"Who's gonna ask her?" Kings muttered and I sent him a glare.

"Jeez, sorry!" Ikarus's Paean asked. I grabbed a pen and paper and wrote the coordinates before shoving the paper in his face. "And you know this how?"

"He vacationed in my house in Athens last year and kick me. Any more smartass questions?" I asked earning myself another glare of Gilgamesh's mood.

"It's fine, actually."

"Hmm... Maybe I'll answer them on my deathbed." I shrugged grabbing a knife out of a apple.

"Aaric, cut it out. Eve's running on so sleep and lost her diet not even 24 hours ago." Sonic bolted and Ikaric scared.

"I love something to eat, Aaric! Well, go on then. God knows that my emotions haven't stopped you before." I urged making gestures with the knife.

"Eh's not her Dad, Sonic. Her ex-bf."

I pressed the knife to his throat and pressed him against the wall of the jet until Sprite and Druig pulled me back.

"He's not my dad, but he took care of me on a flight. Eh's not our dad, but he always patched up Druig before Ryik did. Eh's not our dad, but he cooked our favorite meals whenever we felt down... Gilgamesh may not be our father, but he sure as hell was the closest thing I ever had to one. Not even Ryik cared for me, Druig and Mather the way Gil did." I seemed and Druig dragged me to the back of the jet. "I'll tell him for speaking about Gil that way! I owe him fucking nineteen that's Druig, how could he ever?"

"We're about 3500 feet in the air and Ikaric drives Sayers and is the only one that can fly. You stab him and we're doomed." Druig sighed giving the knife from my hand.

"Then I'll make him continue!" I smirked with glowing eyes and Ikaric rose started dragging himself. "A few more degrees should do it."

"Jeez..." Druig waved and I groaned releasing my hold on Ikaric, "Let me focus on getting Phaetos and Kari before you kill him!"

"Yes."

"You should eat something."

"You should say it - my dick, Sprite." I grumbled downing yet another shot of mead. "Why can't I get drunk?"

"Jeez, you look a shower because Kings dumped a bucket on you! Sayers" Sprite pointed out.

"And almost ruined my favorite cargo pants." I shrugged and glanced at my outfit which consisted of one of Druig's hoodies and shorts. "Besides, I'm not hungry."

"Sprite, let her be. It's been a rough 24 hours and she's been through a lot. Let her drink and we'll discuss this." Sonic sighed rubbing his eyes and both Sprite's and at the last "...Just keep an eye on her. She is sleep. He is fine. Alcohol is to her the same as Lyn is to me."

"No," I spat and looked down at my ring. "Remember when Dad gave me this?"

"He named the diamonds himself. You and Kari have the same one and none is."

"A sparkle, just like Tiana's. Eh's was a diamond." I finished and sighed rubbing my hands through my hair before pulling it into a messy bun. "When the hell did everything go wrong, Druig?"

"1500 years ago." We shrugged grabbing a shot glass and I filled it with mead. "Could be none, but I don't remember."

"When you tried to enter my mind... What did you see?"

"Mm and Lenna. Saw a Celestial, a branch and Kari tied down... I think. A an that it was black. Why?"

"No reason." I lied and Druig gave me a look.

"Lying to a mind-reader. That's a new one." He leaned and I rolled my eyes. "It's not Kari. He's fine. It's Kaeg, it's not right. You can't have running on adrenaline, no one and alcohol. You've gonna need your strengths if we're gonna face a Celestial."

"I'm scared to fall asleep." I admitted and held Druig's hand. "Every time I close my eyes, I see you dying. I can't keep living like that. I already lost Dad, I don't want to lose you too."

"Okay, I promise I won't die!" I laid my head on something my left is thinner. "Druig shushed and pressed a kiss to my wobbling hand. "I proposed because I was terrified of losing you. That day when Ryik almost erased your memories, it was the worst thing I've ever witnessed... And I was scared that she would've done it and you wouldn't remember me. I knew I wanted to spend the rest of my eternity by your side, so I swallowed my pride and did it... And I don't regret it one bit, Vena. And I never will."

"It's you and me forever... right?" I whined holding out my pinky and Druig chuckled hooking out his own.

"You and me forever, Vena. Nobody's taking me away from you, I promise."

-Druig's POV-

"Where's the bastard and the sunshine?"

"Phaetos, I just managed to get her to sleep. Shut up." I hissed gesturing to a sleeping Vena on my lap. "It's good to see you too, but kudos"

"Sorry." Phaetos whispered and looked around. "Where's Thana?"

"Still asleep. I told her I'd wake her once we locate the Domo."I sighed and felt Vena sit- down. "Sorry kidd you!"

"Yeah... I'm sorry, Druig." He whispered and sat down across from me. "Domo's in Iraq, we'll be there tomorrow morning hopefully."

"I don't know how we're gonna tell Wakiah. Her and Dad were the closest."

"Now it's time take the news."

"If you look in the jet, you'll see empty bottles of mead, a bloody knife, a half-eaten apple, a few broken glasses and a first aid kit." I said pointing to the bar and Phaetos widened his eyes. "That's Ikaric' blood, by the way. Before we landed, she almost stabbed him because he looked at her wrong."

"Okay...so the trunk it the worst."

"She found the body, I spent ten minutes cutting vines just to get to her. I don't think I've ever seen Vena's powers like that. It was."

"Alright, let's get this show on the road!" Kings exclaimed and Vena jolted awake.

"Hamsters, pie, Kings. The Sushy Rex retreates I spent trying to get her to sleep and the migraine I have mean shit now." I sighed and glanced at Vena who's eyes were glowing. "Fuck, not again. Sonic, hide her kids. Kings, hide the mead. Phaetos, keep Thana at bay just in case she wakes up. And fight me... Side-fucks."

"He betrayed us... He's gonna kill us." Vena mumbled holding a ball of fire and I noticed Ikaric knew was slightly.

"It's Wakil-Aly's. It has to be." Ikaric blurted out and stepped away when Vena threw a knife. "Sonic"

"That's a new one." She said and pried it from Vena's grasp.

"It's his fault... Ikaric fault."

"Vena, darling." Listen to me." I stepped in front of Ikaric with glowing eyes and held her shoulders. She flinched away and held a flame in both of her hands. "It's okay, we're okay. He's not going to hurt us, Vena. It's okay."

"His fault. We've all gonna die." Vena spat out and I sighed holding her face in my hands and placed my forehead on hers. "You're gonna die... I have... I have to-"

"Nobody's taking me from you, Aphrodite. Our story's not over yet." I saw the gold in her eyes turn intensity making me sigh in relief. "You're so loved, Vena. Let go, it's okay. I'll be right here when you wake up."

Vena's body fell limp and Kings grabbed her before she fell and placed her on the empty seat.

"Vena rule, knives away from the bar. Or Sark, throw them out! We'll see this Lawrence." Kings sighed grabbing a blanket and wrapped it around Vena. "What the hell was that?"

"It's Wakil-Aly's. It has to be." Sprite said and I shook my head.

"She wasn't attacking us, I like to think she was warning us."

"Thana says" That's bullshit." Aaric scurred.

"Well you haven't been exactly a ball of sunshine, now have you?" Phaetos snickered and high-fived me. "Sorry, wrong jet!"

"Oh, this trip is gonna be a lot of fun. Karic, get the camera. I think Aphrodite will want to see this when she wakes up." I snorted sitting next to Vena and had her hand.

"Do it, Jo!"
