

Global Lord: 100\% Drop Rate #Chapter 26 - Read Global Lord: 100\% Drop Rate Chapter 26

Monster Rancher – Mu Gu!

“Monster Ranch? What kind of Lord Talent is this?” Zhou Zhou was puzzled.

He did not think too much about it and chose to use it.

A golden text notification appeared.

Do you want to absorb this Lord’s Talent Sphere (White Silver-Tier)?

“Yes!” Zhou Zhou said.

The next second.

The White Silver-Tier Lord Talent Sphere immediately turned into countless silver light spots and surged into his glabella.

Zhou Zhou opened his eyes again after some time, then immediately opened his Lord’s personal information.

His Lord Talent had already been updated!

[Lord Talent: 100% drop rate (Legendary-Tier), Gnome Alchemy Workshop (Green Bronze-Tier), Monster Ranch (White Silver-Tier)]

“My third Lord Talent! Superb!” Zhou Zhou looked excited.

Then, he opened the details of the talent.

[Lord Talent: Monster Ranch (White Silver-Tier)]

[Monster Ranch: Your territory has the ability to build a special building monster ranch. When you place a kind of fog monster in the monster ranch, the monster ranch will absorb the scarlet fog at night and nurture a different number of fog monsters of the same race on the second day.]

He almost wanted to use this Lord Talent immediately upon seeing it.

Raising Desert Fog Lizards!

The Scarlet Lord was gone so the scarlet fog would not give birth to new Desert Fog Lizards so he was worried about what to do with the source of Sword Shield Soldiers in the future.

Everything was solved with this development, he could totally use the monster ranch to rear the Desert Fog Lizards!

Killing the newborn Desert Fog Lizards every day would steadily provide him with water, flesh, blood, Mist Core, Sword Shield Soldiers, and Promotion Energy!

Such a perfect plan!

“My Lord, I have something to report!”

At this moment. Bai Yi’s voice came from outside the door.

“What is it?” Zhou Zhou asked.

“There’s an unfamiliar human here who claims to be a monster rancher and your subject. However, I’ve never seen him before, so I came here to confirm his identity.” Bai Yi said.

Monster Rancher?

Zhou Zhou’s expression changed.

He stood up and walked to the door. When he pushed it open, he saw Bai Yi standing in front of him and a young man stood behind Bai Yi.

He had an ordinary face and a strong body. He wore a silver shirt and had a silver whip hanging from his waist. He looked a little fierce.

However, when he saw Zhou Zhou, his expression became extremely respectful.

“I’m Monster Rancher, Mu Gu.”

“Greetings, my Lord!”

Zhou Zhou looked at him and his personal information appeared.

[Subject: Mu Gu]

[Territory: Blazing Sun City]

[Life Profession: Monster Rancher]

[Profession Class: Black Iron-Tier Advance Grade]

[Battle Class Name: Monster Shepherd]

[Strength Level: Black Iron-Tier Advance Grade]

[Ability Overview: The Monster Rancher of the Monster Ranch is also a monster shepherd who is good at fighting fog monsters. He is proficient in communication, taming, and controlling fog monsters. There is a chance to upgrade a Normal fog monster to an Elite fog monster or even a Leader fog monster!]

[Skills: Special Building – Monster Ranch, Fog Monster – Communication (Black Iron-Tier Advance Grade), Fog Monster – Taming (Black Iron-Tier Advance Grade), Fog Monster – Control (Black Iron-Tier Advance Grade), Fog Monster – Berserk (Black Iron-Tier Advance Grade), Fog Monster – Appease (Black Iron-Tier Advance Grade)]

[Loyalty: Dead Loyal]

[Potential: Diamond-Tier Advance Grade]

Zhou Zhou's eyes lit up when he saw the other party's ability description.

A dual-profession talent!

Moreover, not only could the other party build a monster farm, but it could also turn Normal fog monsters into Elite fog monsters or even Leader fog monsters?

This was a talent that could increase the chances of loot dropping!

He came back to his senses and said to Bai Yi. "He is indeed our subject but he's kind of new, so you haven't seen him before."

"I see." Bai Yi looked at Mu Gu and apologized, "I'm sorry, I misunderstood you."

"It doesn't matter." Mu Gu smiled.

Then, he looked at Zhou Zhou.

"My Lord, the Monster Ranch is ready. Do you want to take a look?"

"Bai Yi, come with me." Zhou Zhou said.

"Yes, my Lord." Bai Yi nodded.

Then, the three of them walked out of the Novice Lord's Protective Barrier.

They had just walked about 100 meters when they saw a vast ranch entrance appear in front of them, with a wooden sign on the entrance with the words “Monster Ranch” written on it.

[Building Name: Monster Ranch]

[Construction Level: Black Iron-Tier Advance Grade/Special]

[Building Effect 1: It can nurture 300 Black Iron-Tier fog monsters of the same race by absorbing the scarlet fog at night!

[Building Effect 2: The Monster Ranch can be upgraded as the territory levels up. After leveling up, the ability of the Monster Ranch Master will increase, and the number of fog monsters that the Monster Ranch can nurture will also increase.]

[Building Range: 2000m x 2000m]

[Current Fog Monster Race: Nothing yet.]

[Current number of Fog Monsters that can be cultivated per day: 300]

[Building Upgrade: Upgradeable with territory upgrade.]

[Prompt: This building cannot nurture dragons, titans, angels, elves, fairies, deities, and other monsters with superior bloodlines.]

[Building Description: This place only breeds monsters!]

Zhou Zhou clicked his tongue in wonder.

This special building could actually be upgraded!

As expected of a White Silver-Tier Lord Talent!

“Monster Ranch... What does this mean?”

Bai Yi’s eyes were blank.

Zhou Zhou thought for a moment and told her the function of this building.

Bai Yi was confused. It was not easy for them to eliminate the Desert Fog Lizards. Why did he want to nurture them?

“The Desert Fog Lizards can become our stable source of water, meat, sword shield soldiers, mist cores, and Promotion energy if we do things this way. It’s killing two birds

with one stone!” Zhou Zhou explained about his idea of obtaining loot every day through the monster ranch.

“That’s why I want to protect the Desert Fog Lizards. I even want to nurture them. There might only be a few Desert Fog Lizards in the entire hot desert now. We can’t keep killing them. After you’re done resting, go catch one or two and put them in the monster ranch to nurture. From now on, as long as the Desert Fog Lizards in the scorching desert don’t become plentiful and attack us, try not to hunt them.”

“Think of them as endangered species but if they come to us to court death, then so be it.” Zhou Zhou said solemnly.

Bai Yi: “...Understood, my Lord.”

She was about to leave and catch two Desert Fog Lizards when Zhou Zhou seemed to have thought of something else.

“If you see a Black-Tailed Fog Scorpion capture it. We can put the Black-Tailed it in the second monster ranch after it is built.”

“But we’ve never taken the initiative to attack the Black-Tailed Fog Scorpion. There should still be a lot of them, right?” Bai Yi said blankly.

“Cage them up first.” Zhou Zhou waved his hand.

Bai Yi was speechless.

Global Lord: 100\% Drop Rate #Chapter 27 - Read Global Lord: 100\% Drop Rate Chapter 27

Emperor of Sand’s Spatial Ring! The Idea Of A Scout Team!

Bai Yi left and Zhou Zhou opened Mu Gu’s personal information again to see what materials were needed to build a monster ranch.

[Occupation Skill Name: Special Building – Monster Ranch]

[Skill Grade: Black Iron-Tier Advance Grade/Special]

[Skill Description: Special Construction Skill. It originates from the White Silver-Tier Lord Talent – Monster Ranch. It can build a monster ranch specially used to nurture monsters.]

[Construction materials: 3,000 units of wood, 3,000 units of fine sand, 3,000 units of metal, 3,000 units of stone, 1,000 Black Iron-Tier Mist Cores, one Origin Crystal]

Zhou Zhou frowned slightly.

The other materials were easy to obtain but he had never seen materials like Origin Crystals on sale even though he had long heard of this material.

Origin Crystals had long been listed as a resource in the Lord's personal information, which meant that it was also an extremely important resource to the Lords.

"Mu Gu, do you know where we can get the Origin Crystal?" Zhou Zhou asked Mu Gu directly.

"I do, they are extremely rare. Usually, only Regional Scarlet Lords and some ordinary Scarlet Lords will drop it. Some special monsters will occasionally drop Origin Crystals too." Mu Gu said.

"Regional Scarlet Lord? What's that?" Zhou Zhou was stunned.

"A Regional Scarlet Lord refers to the Scarlet Lord that occupies the entire regional territory. There will be a regional Scarlet Lord who will rule this area in any ownerless regional territory."

"For example, this scorching desert we are in now should be ruled by a regional Scarlet Lord." Mu Gu said.

This triggered Zhou Zhou's memory.

Previously, when he saw the introduction of the Desert Fog Lizard leader, he had indeed discovered that it was written as one of the three Scarlet Lords of the Blazing Sun Desert.

Which meant... One of the other two Scarlet Lords was the regional Scarlet Lord that Mu Gu mentioned?

Zhou Zhou's thoughts started taking root but he came back to his senses in no time.

"How many monster ranches can you manage at the same time with your current ability?" He asked again.

"I can currently manage three Black Iron-Tier Advance Grade monster ranches." Mu Gu said respectfully.

Zhou Zhou nodded. He chatted with Mu Gu for a while before returning to the Lord's wooden house.

In the living room.

“If I want to develop in the hot desert... These two Scarlet Lords are a hurdle I have to get past. Also, I wonder if there are other foreign race Lords in the Blazing Sun Desert.”

“I need a complete understanding of the blazing desert as a Cerulean Planet Lord who wants to develop in the coming days.” Zhou Zhou pondered but did not think too much about it. He took the Supreme Treasure chest that was rewarded by the entire channel and opened it.

A yellowish-brown crown-like ring lay quietly inside. Zhou Zhou picked it up.

A text message appeared.

[Equipment Name: Emperor of Sand’s Spatial Ring]

[Equipment Grade: Special]

[Equipment Effect 1: Summon Sand Soldiers — Control the energy of the sand and materialize a Sand Soldier equivalent to your own strength. The Sand Soldier has unparalleled loyalty, powerful combat power, and simple intelligence. It can carry out the simple orders of the ring owner.]

[Transmogrification Arms Type: Spearman, Bowman, Sword Shield Soldier, Crossbowman, Cavalry, Sabre Soldier]

[Equipment Effect 2: 500 cubic meters of storage space.]

[Introduction: It was once the storage ring of the Emperor of Sand. He tried to replace the sun and finally died under the sun.]

[Remarks: Currently bound to the Lord of The Blazing Sun.]

Zhou Zhou’s eyes lit up.

This equipment is good!

Not only could he summon the Sand Soldiers, what Zhou Zhou valued the most was the storage space of 500 cubic meters!

As a transmigrator, he finally had his first Spatial Ring!

In the future, he would not have to travel with so much baggage when he heads out to battle!

Zhou Zhou put on the Spatial Ring happily and he immediately sensed a vast spherical space in the ring that was 500 cubic meters in size!

At the same time, he sensed that there was a skill mark engraved on the ring. Zhou Zhou thought.

The energy in his body quickly surged into the skill mark.

At the same time.

The Emperor of Sand's spatial ring began to emit a faint yellow light.

The yellow sand light quickly condensed in front of him. In less than a second or two, it formed a sand cavalry wearing gorgeous yellow sand armor, holding a spear, and riding a sand horse.

After it appeared, it immediately half-knelt on the ground, silently exercising the highest level of reverence towards Zhou Zhou.

Zhou Zhou looked at it curiously.

[Name: Cavalry of Sand]

[Soldier Type: Cavalry]

[Strength Level: Black Iron-Tier Advance Grade]

[Ability Overview: A Sand Soldier summoned from the Emperor of Sand's Spatial Ring. Has 10 years of Cavalry combat experience and an undying sand transformation ability. He is the perfect choice for a personal guard!]

[Skills: Black Iron-Tier Advance Grade Horsemanship, Black Iron-Tier Advance Grade Lancesmanship, Sand Body, Sand Revival, Sand Stealth]

[Loyalty: Dead Loyal]

[Potential: None]

Zhou Zhou looked at the Sand Cavalry in front of him and clicked his tongue in wonder.

Then, he sensed the consumption in his body.

“Summoning a Cavalry consumes about 30% of my energy. It should be similar for the other types of soldiers. That means I can summon up to three Sand Soldiers at once.”

Zhou Zhou was very satisfied.

The three Sand Soldiers, together with their ability to turn into sand, were comparable to 10 human soldiers above Black Iron-Tier Advance Grade.

They were enough to guarantee his personal safety.

The rewards of this supreme treasure chest never disappoints.

Zhou Zhou thought.

This Sand Cavalry instantly disintegrated into bountiful sand energy and quickly dissipated into the air.

After that, he opened the marketplace and used another 2,000 units of Black Iron-Tier Elementary Grade Desert Fog Lizard meat to set up a transaction to buy materials for the Blood Eye. Then, he walked out of the Lord's wooden house and went to the gnome alchemy workshop.

He saw Ashburn assembling a mechanostrider with his four disciples as soon as he entered.

"Greetings, my Lord!" The five of them chimed.

"How was your rest?" Zhou Zhou nodded and looked at Ashburn.

"I'm fully rested. Also, congratulations, my Lord, on your first victory against the Scarlet Lord!" Ashburn laughed.

His eyes were bright and his movements were strong. He looked like he was indeed resting well.

"Your potions were very useful. We would have lost a lot of people if it weren't for your Life Potions." Zhou Zhou shook his head.

"That's my duty." Ashburn bowed elegantly.

Zhou Zhou smiled. "I have something to tell you."

Ashburn immediately looked like he understood. Then, he got his four disciples to leave the studio and closed the door.

"Please give me my instructions, my Lord." Ashburn said seriously.

"It's not a big deal. It's just that I obtained another alchemy potion formula. When the ingredients arrive, you can make some." Zhou Zhou handed the alchemy formula for the Blood Eye to Ashburn.

Ashbourne took it with a click of his tongue.

Even though he already knew about his Lord's golden hand, he hadn't expected that the Lord would be able to make use of his building effects to obtain two alchemy potion formulas in just two days.

"It's also a very practical alchemy potion." Ashburn was surprised.

Zhou Zhou nodded. "And I have something else to tell you. I plan to form a scout team that is in charge of exploring the surrounding environment of the territory. That would include the area where the fog monsters are, the resource area, the terrain of various places, and so on."

"We'll need a bunch of mechanostriders as a means of transportation. From now on, just focus on the mechanostriders and make a small amount of other potions. Can you make, say, 20 mechanostrider a day? I need 100 for now." Zhou Zhou asked.

"Absolutely! I have four disciples now. Even though their skills are still a little rough, we can make more than 30 mechanostriders a day."

"I can definitely make 100 mechanostriders in three days!" Ashburn promised.

"Let me know if you need anything." Zhou Zhou trusted Ashburn very much. After saying that, he turned around and left.

Half an hour later, Bai Yi was back with some bad news.

Global Lord: 100\% Drop Rate #Chapter 28 - Read Global Lord: 100\% Drop Rate Chapter 28

Use of the Blood Eye! Establishment Of The Medical Hall!

After Zhou Zhou received the news, he immediately walked out of the room and found Bai Yi.

The situation on her side was not so good.

A black-and-purple-faced Black Iron-Tier Intermediate Grade soldier was lying unconscious on a simple wooden cart.

Bai Yi and the others were anxious, but they could not do anything about this situation.

"His Lordship is here!"

"Make way for the Lord!"

"My Lord must have a way to save Brother Zhang!"

...

When the soldier saw Zhou Zhou arrive, they were immediately excited. Then, they quickly made way for Zhou Zhou.

Zhou Zhou quickly arrived in front of the poisoned person.

“My Lord, I was careless!”

“We were accidentally ambushed by the Black-Tailed Fog Scorpion hidden under the sand in the process of capturing them. We killed all the Black-Tailed Fog Scorpions in the end but this comrade was still accidentally poisoned by a low-level Black-Tailed Fog Scorpion during the battle.”

“I did some emergency treatment to suppress the spread of the poison in his body but there was still no way to neutralize the poison. He passed out on the way back.”

“My Lord, please punish me!” Bai Yi looked ashamed.

Poisoned?

Zhou Zhou did not waste his breath.

He took out the Black Iron-Tier Elementary Grade antidote he had obtained earlier, opened the cork, and poured the entire bottle into the poisoned soldier’s mouth.

The next second, his tense expression relaxed at a speed visible to the naked eye. At the same time, his dark purple face gradually returned to its normal color.

His face returned to normal and he opened his eyes in confusion in no time.

Zhou Zhou opened the soldier’s personal information and realized that his condition had returned to normal.

“All right! All right! He’s awake!”

“As expected of the Lord!”

“I knew His Lordship would have a way!”

...

The soldiers were pleasantly surprised.

Bai Yi also heaved a sigh of relief. However, she did not dare to look into Zhou Zhou’s eyes.

“There is no need to blame yourself for that. It’s clearly because of the Black-Tailed Fog Scorpion’s attack methods that are impossible to guard against. It’s normal for you to get hit by accident. Just be careful next time.”

Zhou Zhou looked at Bai Yi and shook his head.

“The Black-tailed Fog Scorpion is proficient in sneak attacks underground. It’s very difficult for us to discover it in advance...” Bai Yi said helplessly.

Zhou Zhou also frowned slightly.

Bai Yi was right.

However, how could he be willing to avoid the area where the Black-Tailed Fog Scorpions were just because of that?

It would be impossible for him to avoid the Black-Tailed Fog Scorpion’s living area when his territory expands in the future.

Moreover, the poison of this Black-Tailed Fog Scorpion was a little stronger than he had expected.

A Black Iron-Tier Elementary Grade Black-Tailed Fog Scorpion almost poisoned a Black Iron-Tier Intermediate Graden Sword Shield Soldier to death.

At this moment, Zhou Zhou suddenly thought of an item.

“Come with me.” He said.

The two arrived at the Gnome Alchemy Workshop and found Ashburn.

“Ashburn, can the Blood Eye enable us to see the fog monsters hidden underground?” Zhou Zhou asked directly.

Bai Yi was stunned for a moment before her eyes lit up.

“The Blood Eye can detect them as long as they aren’t hiding more than 10 meters underground.” Ashburn laughed.

“No problem! The Black-Tailed Fog Scorpion wouldn’t hide so deep beneath the ground!”

“Erupting out from the ground would take too long otherwise and the commotion would be too big! I estimate that they are generally about three to five meters beneath the surface.” Bai Yi said excitedly.

“No problem at all.” Ashburn smiled and nodded. With that, he turned around and walked to the workbench. He took three blood-red potion bottles and returned to Zhou Zhou.

“I have just grasped the refinement method of this Blood Eye so I couldn’t help but make three bottles. This potion is very simple to refine. I can refine about 10 bottles in an hour.”

“You can use it now if you need it. If it’s not enough, I’ll refine it again.” Ashburn laughed.

“Thank you.” Bai Yi thanked him.

“You’re too kind, Madam Bai. We’re all working for the Lord.” Ashburn laughed.

Bai Yi looked at Zhou Zhou with burning eyes.

Zhou Zhou touched his nose and did not say anything. After taking the Blood Eye Potion, he led her out of the gnome alchemy workshop.

“You want revenge for your poisoned brother?” Zhou Zhou asked directly after coming out.

“I’ll go wherever my Lord tells me to go.” Bai Yi said respectfully.

“It’s okay. I want to attack the territory of the Black-Tailed Fog Scorpion too. But before that, we need to understand the range of Black-Tailed Fog Scorpion’s survival methods and their exact numbers. There’s a saying in my hometown, only by knowing yourself and your enemy can you win a hundred battles.” Zhou Zhou said.

“I understand.” Bai Yi also calmed down.

Zhou Zhou nodded and he told her about the scout team.

“There are now nine mechanostriders unused in the territory. Pick out nine smart soldiers and get them to master the piloting of the mechanostriders. Then, you can bring them to explore the Black-Tailed Fog Scorpion’s territory first. Obtain intel on the enemy so that we can beat them. I will lead you to destroy this group of Black-Tailed Fog Scorpions then !” Zhou Zhou said seriously.

“Yes, My Lord! I’ll carry it out now!” Bai Yi said excitedly. Then, she left with the three bottles of Blood Eye Potion that Zhou Zhou had given her.

Zhou Zhou watched her leave. There was nothing to worry about.

With the Blood Eye, even the monsters hidden underground could not escape their observation.

It would be difficult for them to encounter danger as long as Bai Yi and the others did not deliberately bump into the monster's face when they were on these fast mechanostriders.

"I wonder if there's a Scarlet Lord behind the Black-Tailed Fog Scorpion..." Zhou Zhou pondered.

"My Lord. I have something to report." Zhao Changshou walked over.

"Elder Zhao, just tell me." Zhou Zhou said politely.

He was very respectful to old people, especially talented old people.

Courtesy must not be abandoned.

Zhao Changshou seemed to take note of this and said, "My Lord, the clinic has been completed. I'm also supervising the construction of the warehouse. It should be ready by tonight."

"As for the residences, I handed them over to Qian Du. He completely grasped the blueprint of the residences that His Lordship gave to him. He has already established two residences. There shouldn't be any problems with the remaining construction."

Zhou Zhou's eyes lit up.

The clinic was completed?! A medical center was too important to stabilize the loyalty of the subjects!

Moreover, it was even more important to the injured soldiers. It could greatly reduce their casualties!

The two of them arrived at the newly built medical hall.

It was not big, just a two-story-tall white ordinary building with the word 'Medical Hall' on it.

Zhou Zhou looked at it.

A text notification appeared.

[Building Name: Medical Hall]

[Territory Level: Black Iron-Tier Elementary Grade]

[Building Effect: Basic building of the territory. After a doctor moves in, he can research, sell medicine, and treat patients. It can also slightly increase the loyalty of his subjects].

[Note 1: This building can be upgraded by higher quality blueprints, but the corresponding materials need to be replenished.]

[Note 2: The level of researching medicine and treating patients, the economic benefits of selling medicine, and the extent of increasing the loyalty of the people depends on the level of the clinic and the life profession level of the doctor.]

[Building Description: I'd rather the medicine hall be covered in thick dust than have a patient in the world.]

"I established this Black Iron-Tier Intermediate Grade Medical Hall because the best doctor in our territory, Zhang Qianjing, is at this level."

"I will upgrade this building when Physician Zhang's profession level increases in the future or there are higher-level doctors in the territory."

"My Lord, you don't have to worry about higher-level blueprints."

"There's no need for blueprints at all as long as we don't build anything above the White Platinum-Tier Intermediate Grade."

"I can build them directly with enough resources and manpower." Zhao Changshou smiled.

Zhou Zhou, very satisfied.

Having a high-level architect by his side would save money and trouble!

After that, Zhou Zhou went to see the two residences that Qian Du had built.

It had to be said that even though Qian Du was an unorthodox architect, with the help of the blueprint and Zhao Changshou's guidance, the houses built were still quite standard.

A residence that could accommodate up to four people could be built with fewer resources even though it could not be upgraded.

As long as Zhou Zhou's territory was large enough, it was not a problem for everyone to have a residence of their own.

...

On the other side, Bai Yi quickly found nine suitable candidates and began to teach them how to pilot the mechanostriders.

It was not difficult to learn how to pilot the mechanostriders. Given their intelligence, they mastered the method in less than an hour.

She brought them away from the territory in a mechanostriider after cautioning them on the things to take note of.

Time passed, night gradually fell.

Bai Yi and the others finally returned safely before the scarlet fog appeared with the results of their investigation.

Global Lord: 100\% Drop Rate #Chapter 29 - Read Global Lord: 100\% Drop Rate Chapter 29

Information! A Different Cerulean Planet Lord Announcement!

In the living room of the Lord's wooden house.

"My Lord, we found the nest of the Black-Tailed Fog Scorpion. There are about 400 of them!"

"They're about 25 kilometers southwest of Blazing Sun City. Furthermore, we discovered that there was a Green Bronze-Tier Advance Grade leader among them. It is also a Scarlet Lord!" Bai Yi, who had just returned, reported.

It is really a Scarlet Lord!?

Zhou Zhou's expression also became serious, however, he was not afraid.

It was just a Green Bronze-Tier Grade Scarlet Lord, not even strong enough to face off with his Green Bronze-Tier Advance Grade Lava Dragon, Nezario.

Pure-blooded dragons were the overlord race of the myriad worlds!

With Nezario's current abilities, it might even have a high chance of killing even a White Silver-Tier Scarlet Lord.

"Are you guys in some kind of trouble?" Zhou Zhou asked.

"No, we can detect monsters hiding in our surroundings in advance with the Blood Eye Potion. The mechanostriders given to us by my Lord allows us to use high movement speed to avoid them. None of them could catch up to us." Bai Yi replied excitedly.

The experience of using the Mechanostrider and Blood Eye combination was extremely good.

This was the first time she had experienced such a strange feeling.

Zhou Zhou nodded, feeling a little strange.

He did not expect the effect of the Blood Eye to be so useful.

“What do you think our chances are if we go up against them?” Zhou Zhou asked.

“The Black-Tailed Fog Scorpion’s greatest threat lies in its poison and its ability to ambush. But we don’t have to worry about sneak attacks with the Blood Eye Potion and we have the antidote. As long as we can resolve these two threats, I think we have an 80% chance of winning!”

“If we have a way to deal with the Green Bronze-Tier Advance Grade Black-Tailed Fog Scorpion leader, I think we have a 100% chance of winning!” Bai Yi said after thinking seriously. She was loyal and would not lie to him.

Therefore, Zhou Zhou did not hesitate to make a decision upon hearing that.

“Get ready then! Tomorrow, we’ll deal with these Black-Tailed Fog Scorpions and their Scarlet Lords.”

“Understood!” Bai Yi said respectfully.

“One more thing. I’ve already used the newly obtained Sword Shield Soldier Recruitment Books to recruit another 36 Black Iron-Tier Elementary Grade Sword Shield Soldiers.”

“They’re at the residences now. Bring them along when you are going back.” Zhou Zhou said.

They killed a total of 212 Desert Fog Lizards during the battle with the Desert Fog Lizard leader during the day.

Among them were 178 Black Iron-Tier Elementary Grade Desert Fog Lizards, 27 Black Iron-Tier Intermediate Grade Desert Fog Lizards, six Elite Black Iron-Tier Advance Grade Desert Fog Lizard, and one Black Iron-Tier Elementary Grade Desert Fog Lizard Leader!

Other than the loot mentioned before, he also gained:

512 Black Iron-Tier Mist Cores, 16 Green Bronze-Tier Mist Cores, 5,240 units of flesh (Black Iron-Tier Elementary, Intermediate and Advance Grade)! 100 units of Green

Bronze-Tier Elementary Grade, 37 kg of water bag, 222 Gradeless Sword Shield Soldier Class Change Certificates, 36 Sword Shield Soldier Recruitment Books which had all become 36 new Sword Shield Soldiers and six Black Iron-Tier Advance Grade Sand Stealth Techniques!

In addition, this battle cost him 12 soldiers.

However, it also gave him 40 more Black Iron-Tier Advance Grade Soldiers and 122 Black Iron-Tier Intermediate Grade professionals! His strength could be said to have increased instead of decreasing!

“Yes, my Lord.” Bai Yi nodded before leaving.

...

At night, the scarlet fog quietly descended.

The world was covered in a strange scarlet fog, invoking fear.

Zhou Zhou stood inside the protective shield and looked at the quiet Scarlet Fog outside of the Novice Lord’s Protective Barrier. For a moment, he was not used to it.

“There really won’t be any new fog monsters. Never mind, so be it. It’ll give the soldiers a good night’s sleep. It won’t be good for them to fight monsters all day and night.”

“I have a Monster Ranch anyway so I won’t lose much even if no new fog monsters are born at night.” Zhou Zhou thought.

He looked in the direction of the Monster Ranch outside of the protection barrier and hesitated for a long time. In the end, he returned to the Lord’s wooden house and brought Nezario along.

“It’s cold.”

Zhou Zhou felt a bone-chilling cold as the scarlet fog surrounded his body. It seemed to have a consciousness as it tried to burrow into Zhou Zhou’s body.

With a thought, the energy in his body immediately circulated and the bone-chilling cold gradually disappeared.

Zhou Zhou entered through the gates of the Monster Ranch and soon saw Mu Gu.

Mu Gu also noticed Zhou Zhou

“Greetings, my Lord.” Mu Gu was a little surprised.

After some hesitation, he said. "My Lord. Forgive me for being rude. The scarlet fog is extremely strange, and it will reach its peak at night. It's better for you to tread carefully at this time."

"It's okay. Didn't I bring it out with me?" Zhou Zhou pointed at the curious baby, Nezario, which was looking around.

The tension in Mu Gu's face eased when he saw the baby dragon. "I overstepped my boundary."

Zhou Zhou did not blame him, instead, he looked at the small fence beside him.

This small fence was only about 20 square meters, and there was an Elite Black Iron-Tier Advance Grade Desert Fog Lizard lying inside.

It was the one that Bai Yi and the others had captured earlier in the day.

They also caught a Black-Tailed Fog Scorpion that was at the Black Iron-Tier Elementary Grade.

However, since there was no second monster ranch, its limbs and tail were temporarily cut off and tied up.

"How does the Monster Ranch work?" Zhou Zhou retracted his gaze and asked curiously.

"My Lord, why don't you wait for a while? You'll know when the time comes." Mu Gu smiled.

Zhou Zhou nodded.

A moment later, the bored Zhou Zhou suddenly saw a scarlet fog descend from the sky and charge straight into the body of the elite Desert Fog Lizard.

The Elite Desert Fog Lizard's body trembled, then a scarlet light shot out of its lower body. In the blink of an eye, that light landed in the large fence and turned into a Black Iron-Tier Elementary Grade Desert Fog Lizard. It looked around blankly and then got up.

Soon, it saw Zhou Zhou and Mu Gu. The Desert Fog Lizard immediately roared and rushed towards them aggressively.

Zhou Zhou was just about to control it with mental control when Mu Gu rushed over at an extremely fast speed and reached out to touch its head.

The Desert Fog Lizard became still.

Zhou Zhou had Elementary Grade Mental Potential, therefore, when Mu Gu touched his head, he could sense that this subordinate seemed to have released a Mental Perception that had the ability to pacify.

“Is this the unique ability of a monster rancher?” Zhou Zhou clicked his tongue in wonder.

In the next hour, More than 100 Black Iron-Tier Elementary Grade Desert Fog Lizards were nurtured.

However, they were all ordinary Black Iron-Tier Elementary Grade Desert Fog Lizards.

“At this rate of birth... the Monster Ranch can produce at least 1,000 Desert Fog Lizards a night. Can this hold?” Zhou Zhou asked.

“It really can't. Therefore, I will let them fight among themselves and devour each other.”

“This way, not only can we reduce their numbers, but we can also use this method to give birth to Elite-Tier, Leader-Tier, and even Lord-Tier Fog Monsters! However, there won't be any Scarlet Lords amongst them. The Lord-Tier monster that would only have the strength of a Lord, but doesn't have the rank of a Scarlet Lord.” Mu Gu said.

Zhou Zhou nodded in realization.

So this is how high-level monsters were born.

“Why can't a Scarlet Lord be born?” He asked.

“Because my Lord's Monster Ranch originates from the Lord's talent and is protected by the Supreme Will. The Supreme Will will not allow the Scarlet Lord to invade this place. Naturally, there's no way for the Lord of Scarlet to be born here.” Mu Gu said.

Zhou Zhou felt that it was a pity he could not artificially create the Scarlet Lord.

After that, he returned to Blazing Sun City with Nezario.

The next day, Zhou Zhou woke up in a daze.

When he opened his eyes, he found Nezario licking his face.

“Go, go, go...” Zhou Zhou stuffed a mouthful of Black Iron-Tier Mist Cores into its mouth and sent it away.

He wanted to go back to sleep, but lazed around in bed when he realized that he couldn't fall back into slumber.

Instead, he lay on the bed and turned on the world channel, wanting to dive for a while.

Then, Zhou Zhou saw a large number of Lords' comments appear on the World Channel.

At the top of the world channel, there was a blood-red announcement that he had never seen before.

[Cerulean Planet's Lord Announcement: There are only three days left until the Novice Lord Test. All Lords, please work hard to develop in the remaining three days. Otherwise, you will be eliminated by the fog monsters!]

[Prompt: In this Novice Lord test, the Lords who pass the test will receive a reward!]

[The better the performance of the Lord, the richer the rewards!]

[The Lord who performs the best will receive the highest reward personally given by the Supreme Will!]

[Please work hard to develop and seize this opportunity!]

[Countdown: 95 hours: 32 minutes: 46 seconds]

...

Zhou Zhou raised his eyebrows.

Global Lord: 100\% Drop Rate #Chapter 30 - Read Global Lord: 100\% Drop Rate Chapter 30

Summoning The Subjects! Cartographer!

He looked at the other Lords' opinions on this announcement as he processed the information.

"I thought the Novice Lord Test was just a simple test. I didn't expect a reward!!"

"I have a Yellow Gold-Tier Lord Talent. I will definitely stand out in this test!"

"The Blazing Sun Lord, Dragon Lady Lord, Asura Lord, and Undead Lord haven't even spoken yet. Why are you with a Yellow Gold-Tier Lord Talent making noise?"

"I don't want to compare to those freaks. With my Yellow Gold-Tier Lord talent, it shouldn't be a problem for me to scoop up some soup that the big shots don't want, right?"

“I still want to fight for it even though I don’t have a Lord Talent.”

“The ultimate reward belongs to me, the son of heaven!”

“My Falcon Corps is ready to be tested at any time!”

“I’ve only summoned six professionals over the past four days. Do you think I can pass this Novice Lord Test?”

“If you feel that you can’t pass, find a way out as soon as possible. Give up your status as a Lord and find a local faction to be an ordinary person. It’s not that I want to hurt anyone’s feelings, but your lives are the most important. Don’t you think so?”

“I’m tempted. There seems to be a local faction near my territory!”

“A bunch of cowards. A real man should treat this test as his chance. The test isn’t here yet and you want to escape already?”

“Not everyone has the heart to fight for supremacy...”

“That’s right, who wants to be a Lord! I was dragged forcefully here, okay!”

“This Novice Lord Test will determine if you are a dragon or a worm!”

...

The world channel displayed all kinds of human emotions.

Some were tempted, some were wavering, and some were already thinking of retreating...

However, most of the Lords were still filled with ambition and anticipation for this Novice Lord Test. Zhou Zhou was no exception.

“I have the Legendary-Tier Lord Talent! There’s no reason not to fight for this supreme reward!”

“I can’t underestimate the other Lords since my Lord Talent will grow stronger in later stages. Perhaps some other Lord can obtain a greater advantage than me now. I can’t relax for the last three days! I have to accumulate strength with all my might. Only then can I have a chance to obtain the supreme reward in the Novice Lord Test!” Zhou Zhou rationalized it.

He did not become egoistic with the achievements and fame of the past three days nor was he in the mood to continue sleeping in. He simply got up and walked out of the Lord’s wooden house.

Bai Yi and the others had already woken up and were eating breakfast.

Zhou Zhou washed up quickly and joined in. Everyone rested for a while before they cleaned up the Desert Fog Lizards in the monster ranch.

Zhou Zhou then came to the Gate of Summoning and prepared to summon his subjects on the fourth day.

A golden text notification appeared.

[Prompt: Do you want to summon immediately?]

“Yes!” Zhou Zhou immediately said.

The next second, the Gate of Summoning suddenly lit up with white light, and 12 people walked out.

“Greetings, my Lord!”

When the 12 new subjects saw Zhou Zhou, they immediately said respectfully.

“Welcome to Blazing Sun City.” Zhou Zhou said as usual.

Then, he began to check the attributes of the 12 new subjects.

These 12 subjects were six men and six women.

10 of them were ordinary people without any profession.

As for the other two, one of them was a Black Iron-Tier Intermediate Grade female chef.

The other person was a Cartographer, a young boy who was only 15 years old. He looked delicate and young, but his eyes were quite determined.

[Subject: Wu Tu]

[Territory: Blazing Sun City]

[Life Profession: Cartographer]

[Profession Class: Black Iron-Tier Intermediate Grade]

[Ability Overview: He has a ‘Image Memory’ talent. He could ‘record’ the scenery he saw with his brush. Later, he took the initiative to join the army for the sake of his family’s livelihood and became a military cartographer. He was good at drawing all kinds

of terrain distribution, natural resource gathering points, mountains and rivers, and the territory of monsters.]

[Skills: Talent – Image Memory, Black Iron-Tier Intermediate Grade Graphic Skill, Black Iron-Tier Intermediate Grade Terrain Recognition, Black Iron-Tier Intermediate Grade Monster Recognition, Black Iron-Tier Intermediate Grade Medicinal Herb Recognition, Black Iron-Tier Intermediate Grade Mineral Recognition, Black Iron-Tier Elementary Grade Maple Town, Black Iron-Tier Elementary Grade Maple Town, Black Iron-Tier Elementary Grade Fish Spring Town, Black Iron-Tier Intermediate Grade Maple Town, Black Iron-Tier Intermediate Grade Gobi Desert, Black Iron-Tier Intermediate Grade – Raven Forest.]

[Loyalty: 75]

[Potential: Yellow Gold-Tier Advance Grade]

Zhou Zhou was a little surprised.

This was the first time he had seen a human with talent in skills. Moreover, it was not a racial talent like the Elementary Grade Mental Potential.

His person's potential was also higher than average since he actually had Yellow Gold-Tier Advance Grade potential! He was almost a top talent of the human race!

What surprised Zhou Zhou the most was... This child was clearly not very old, but he had unexpectedly mastered many skills.

His caliber was second only to Elder Zhao Changshou among the people he knew.

He put away the surprise in his heart and began to distribute these people.

Zhou Zhou used the four Poison Crossbowmen Class Change Certificates that he had obtained previously to turn four men into beginner-level Poison Crossbowmen.

Zhou Zhou assigned the other two men to Zhao Changshou. Zhao Changshou and the others were building new buildings every day, but they were very short of manpower. Zhao Changshou, this old man, sometimes had to personally build mud walls.

The soldiers could help them when they were free, but their main profession was still going out to conquer monsters. It was impossible for them to do construction work all day.

Therefore, it was still necessary to assign construction personnel to Zhao Changshou and Qian Du.

As for the remaining four female subjects, they were assigned to Qin Guang and his wife immediately. There were more than 600 people in the territory, it was not possible for Qin Guang and his wife to provide food to so many people every day by themselves. It was better for them to have more help.

Finally, Zhou Zhou looked at Wu Tu.

Wu Tu was still a child after all. Under Zhou Zhou's gaze, he quickly became a little nervous.

"Don't be afraid of me. I'm not going to eat you. Go to the gnome alchemy workshop later and apply for a mechanotrider from the workshop owner, Ashburn. After you get it, get familiar with it."

"When you have completely mastered it, follow my scout team in the exploration of the surrounding information of the territory. Draw a map for me."

"This mission is important. Can you do that?" Zhou Zhou pondered for a moment before saying.

"I can! That's what I did in the military. I'm already familiar with it." Wu Tu said confidently.

"Okay! I like how confident you are. Since you're so confident, I will entrust you with a heavy responsibility and make you the vice-captain of my scout team if you can satisfy my conditions. How about that?" Zhou Zhou said seriously.

Wu Tu volunteered to serve in the army so that his family could survive so Zhou Zhou believed that he was not a brat who knew nothing.

Therefore, he did not look down on him because he was young and wanted to give this child a chance.

In any case, he would only be the vice-captain.

The captain and the other soldiers could also look out for him and prevent him from doing anything wrong.

When Wu Tu heard Zhou Zhou's words, his eyes could not help but light up.

When he was in the army, no matter how much knowledge he learned or how many skills he mastered, he did not gain the trust of many soldiers because of his tender age.

He did not expect this Lord to trust him so much after he came here.

My Lord seemed to be different from the others...

The young man thought.

Then, he nodded vigorously.

“I’ll definitely become the vice-captain!”

The Lord in front of him smiled and ruffled his hair before turning to leave.
