Gains From The Monster Ranch! Huge Increase In Military Strength!

[Your subject Wu Tu's loyalty has increased to 87!]

Zhou Zhou, who was walking on the road, suddenly saw this notification. He winced then smiled.

...

Half an hour later, the soldiers were done resting.

Zhou Zhou gathered everyone together and called for Nezario. Then, they headed to the Monster Ranch together.

"Unbelievable! Is this still the same monster ranch I saw yesterday? I see Elite Desert Fog Lizards, so many of them!"

...

The soldiers looked at the monster ranch in front of them in shock.

In just one night, the monster ranch had undergone a complete facelift. At this moment, the monster ranch in front of them was already crawling with Desert Fog Lizards of all sizes. There were even some at Elite-Tier!

What surprised everyone the most was that they were no longer as fierce as before.

These Desert Fog Lizards were either crawling slowly or lazing around like domesticated livestock.

"Big Brother Mu is really amazing. I can't believe he made them so docile." Bai Yi said in surprise.

Zhou Zhou shared her surprise but he was already mentally prepared, so his expression did not change.

"My Lord." Mu Gu walked out of the ranch and said respectfully.

"How was the result from last night?" Zhou Zhou asked.

"It's been a normal night. There are a total of 500 Desert Fog Lizards."

“Among them are 256 Black Iron-Tier Elementary Grade Desert Fog Lizards, 220 Black Iron-Tier Intermediate Grade Desert Fog Lizards, and 24 Elite Black Iron-Tier Advance Grade Desert Fog Lizards!”

“It’s a pity that the monster ranch hasn’t reached the Green Bronze-Tier yet. Otherwise, I can create a Leader-tier or even Lord-tier Desert Fog Lizard!” Mu Gu said.

Zhou Zhou’s eyes flashed with excitement.

This was not just 500 Desert Fog Lizards. In his eyes, these were clearly 520 Sword Shield Soldier Class Change Certificates and 244 Sword Shield Soldier Recruitment Books!

Zhou Zhou did not care about what Mu Gu said after that.

The ranch would level up sooner or later.

“Mu Gu, release them in batches.”

“Bai Yi, get the soldiers to kill them one by one!” Zhou Zhou said.

“Yes!” Mu Gu and Bai Yi said in unison.

“My Lord, this is the official opening of the Monster Ranch. It means a lot! Please have the honor of choosing the first batch of Desert Fog Lizards to meet their death.” Mu Gu asked.

“Sure.” Zhou Zhou thought for a moment and nodded.

He walked to the ranch fence and looked at the 500 Desert Fog Lizards. After looking at them for a while, he chose 10 of them that were lazing around on the ground.

“These 10 Desert Mist Lizards have been lying motionless on the ground for so long.”

“I must have seen too many of the same kind kill each other. I have decided to end their suffering. Just get them out and kill them.” Zhou Zhou said.

Desert Fog Lizards:

??? We’re just f*cking stuffed and don’t want to move!

“My Lord is right.” Mu Gu nodded seriously and walked to the entrance of the monster ranch. He opened the door and used the ability of the monster rancher to call the 10 Desert Fog Lizards out.

Bai Yi looked at the soldiers behind her.

“Who feels like they’re about to break through? Stand up and kill these Desert Fog Lizards yourself! Don’t try to take advantage of the situation. I know where your strengths are.” She glared at everyone.

Whoosh!

More than 50 people stood up. They looked at each other and charged at the 10 Desert Fog Lizards and took care of them in less than 10 seconds.

One of the soldiers looked pleased in no time.

“Officer Bai! I’ve broken through!”

“I’ve broken through to Black Iron-Tier Intermediate Grade Sword Shield Soldier!” The others looked at him enviously.

“Go back to the group.” Bai Yi smiled and nodded. The soldier chuckled foolishly and turned back to the group.

For the next hour, everyone repeated this process in eliminating the Desert Fog Lizards in the monster ranch.

Zhou Zhou was not idle either.

He got someone to move the Desert Fog Lizard’s corpses over while he collected the loot.

More than an hour later, all 500 Desert Fog Lizards were eliminated.

16 people had broken through to the Black Iron-Tier Intermediate Grade, three had broken through to the Black Iron-Tier Advance Grade, while Zhang Cang and another subject who had followed him the earliest had broken through to the Green Bronze-Tier Elementary Grade!

Other than that, Zhou Zhou also obtained loots from 500 Desert Fog Lizards.

520 Sword Shield Soldier Class Change Certificates and 244 Sword Shield Soldier Recruitment Books had been obtained!

There were also 1,584 Black Iron-Tier Mist Cores!

16,320 units of flesh (Black Iron-Tier Elementary, Intermediate and Advance Grade)!

A total of 1,156kg of water bags!

24 Black Iron-Tier Advance Grade Sand Stealth Technique!

Zhou Zhou asked Bai Yi to call all the Black Iron-Tier Advance Grade and Green Bronze-Tier Elementary Grade soldiers over. Then, he took out 44 Sand Stealth Techniques from his Spatial Ring and distributed one to 44 of them.

It was all accumulated over this period of time. He decided to release them at this point in time.

“This is the Black Iron-Tier Advance Grade, Sand Stealth. Consider it a reward for your advancement. I’ll treat you well when your strength advances to a higher level and you make more contributions. In addition, we will go and suppress the Scarlet Lord faction where the Black-Tailed Fog Scorpion is. You should be able to use this Sand Stealth Technique.” Zhou Zhou said.

“Thank you for the reward, my Lord!” Everyone was extremely excited.

Skill books were very precious treasures to most Professionals since the drop rate of monsters was too low on the High Continent.

Even kingdom-level forces had very strict jurisdiction over skill books.

The adjective ‘a skill worth a thousand gold’ was not wrong at all.

They did not expect their Lord to be so generous as to reward them with the skill book.

At this moment, their loyalty to Zhou Zhou had increased!

Zhou Zhou saw the system notification on that but said nothing about it.

After that, he brought everyone back to Blazing Sun City. Then, he went to the Gate of Summoning and threw in the 244 Sword Shield Soldier Recruitment Books he had just obtained.

Sword Shield Soldiers walked out of the Gate of Summoning like a tide.

Under Bai Yi’s guidance, they joined the rest of the soldiers and Zhou Zhou’s troops expanded at a speed visible to the naked eye.

The soldiers who saw this scene sighed with emotion.

“I walked out of the Gate of Summoning this morning. I didn’t expect to see someone else walk out of here today.”

“If it weren’t for the Desert Fog Lizards, would I have met my Lord? We’re so lucky that the Desert Fog Lizards exist.”

“His Lordship’s golden hand is also the key.”

“Now that you mention it, I want to go to the monster ranch later and burn some incense for the Desert Fog Lizards.”

“Let’s go together. Even though the Desert Fog Lizards are our mortal enemy, they also provide us with food and upgrades!”

“Why are there no female soldiers...”

...

A moment later, all 244 Sword Shield Soldiers walked out of the Gate of Summoning.

At this point, the number of soldiers under Zhou Zhou’s command had reached 869!

“Let’s do it again tomorrow! The number of soldiers under my command will officially break through to 1,000!” Zhou Zhou’s heart was burning with ambition.

Following which, Zhou Zhou asked Ashburn for potions before bringing the soldiers, doctor Zhang Qianjing, Nezario, and the mechanostriders convoy to the territory of the Black-tailed Fog Scorpion.

Begin The Attack! Black Scorpion Poison Crossbow!

Half an hour later, Zhou Zhou brought his subordinates to the vicinity of the Black-tailed Fog Scorpion’s territory.

A lone Lord’s wooden house stood in the vast desert.

Other than that, there was nothing.

Not even a shadow of a Black-tailed Fog Scorpion.

Zhou Zhou and the others were not surprised at all.

“Use the Blood Eye!” Bai Yi said in a low voice.

“Yes!” Everyone said in unison.

A total of 50 bottles of Blood Eye Potion were passed on to all 869 soldiers. Each of them poured out a bit of the portion and smeared it on their eyelids.

There were still five bottles of potions left after everyone applied some.

Zhou Zhou also took out a bottle of Blood Eye Potion and poured out 1/20 of it to smear evenly on his eyelids.

After applying it, he quickly blinked.

A magical scene happened. The scene in front of him gradually changed.

Balls of blood-red Qi that looked like Black-tailed Fog Scorpions hidden under the desert gradually appeared in his vision.

They surrounded the surrounding desert with the Lord's wooden house as the center. There were more than 400 of them.

Zhou Zhou narrowed his eyes slightly.

"Prepare to attack!" He ordered after observing for a moment.

"Yes, my Lord!" Bai Yi said respectfully.

Then, she led four poison crossbowmen and one archer forward. They drew their bows and aimed at the six Black-tailed Fog Scorpions closest to them!

"Shoot!" Bai Yi shouted.

The six of them shot their arrows in unison.

Whoosh! Whoosh! Whoosh! Whoosh! Whoosh! Whoosh! Whoosh!

The bows were like thunderbolts!

Five poisonous arrows and an iron arrow shot out like lightning. In the blink of an eye, they arrived at their destination and shot straight into the ground!

The next second, a kill notification appeared!

[Your subject, Bai Yi, has killed an Black Iron-Tier Intermediate Grade Black-tailed Fog Scorpion. Promotion energy +2! Loot condensed!]

[Your subject, Zhao Anmin, has killed a Black Iron-Tier Elementary Grade Black-Tailed Fog Scorpion. Promotion energy +1! Loot condensed!]

[Your subject, Zhang Zecheng, has killed a Black Iron-Tier Elementary Grade. Energy Black-Tailed Fog Scorpion. Promotion energy+1! Loot condensed!]

Six screams sounded.

Of the six Black-tailed Fog Scorpions that were targeted, three were immediately killed, while the other three sustained injuries.

Pu! Pu! Pu! Pu!

When the Black-tailed Fog Scorpions realized that they could not hide, they broke out of the ground one after another and charged towards the humans.

However, there were also many Black-tailed Fog Scorpions that did not rush out from the ground. Instead, they advanced at a relatively slow speed underground and launched a sneak attack on Zhou Zhou and the others.

“Kill!” All the soldiers rushed out in full strength and roared as they rushed towards the group of Black-tailed Fog Scorpions accompanied by a furious roar.

On the other hand, the Poison Crossbowmen and Archers stood where they were and drew their bows, killing the Black-tailed Fog Scorpions that were charging over from afar.

“Pay attention to the Black-tailed Fog Scorpions! Soldiers who have mastered the Sand Stealth Technique, remember to use your skills to rescue soldiers swept underground!” Bai Yi yelled.

Then, she immediately boarded the Mechanostrider and began to wander around the edge of the battlefield. She began to kill these Black-tailed Fog Scorpions one by one with the long-range attack advantage of the Poison Crossbow Soldiers and the speed advantage of the Mechanostrider.

At the same time, Zhou Zhou, who was at the back of the battlefield, suddenly noticed through his Blood Eye that there were three Elite Black-tailed Fog Scorpions above the Black Iron-Tier Advance Grade rushing towards him.

Nezario was eager for some action.

It was born with a powerful perception as a dragon! It could see the Black-tailed Fog Scorpions hiding underground clearly and could even sense how many hairs were on the surface of their bodies.

Zhou Zhou knew that it wanted to attack but he stopped it.

“You don’t need to do anything for Monsters below the Green Bronze-Tier unless they are a threat to me.” Zhou Zhou said.

Why use a sledgehammer to kill a chicken?

With a thought, the energy in his body quickly flowed into the Spatial Ring on his right index finger.

Faint yellow sand light gradually appeared on the surface of the ring. Then, three black iron spearmen wearing gorgeous yellow sand armor and holding yellow sand spears condensed in front of him.

They charged at the three Elite Black-tailed Fog Scorpions under Zhou Zhou's silent command.

Their speed was extremely fast, and they quickly arrived more than 20 meters away from the Elite Black-tailed Fog Scorpion. Then, they jumped high into the air, holding long spears in their hands. The tips of their spears were pointed downwards, and they stabbed at the ground with all their might.

Pu! Pu! Pu!

A dull piercing sound rang out.

The long spear sank into the two Black-tailed Fog Scorpions under the desert. They died on the spot.

There was also an Elite Black-tailed Fog Scorpion that had no choice but to crawl out of the ground after being injured. However, as soon as it stuck its head out, it was killed by the Sand Spearmen.

After killing the three elite Black-tailed Fog Scorpion, the Sand Spearmen dragged their corpses back to Zhou Zhou and stood guard.

Zhou Zhou looked at the corpses of the three Elite Black-tailed Fog Scorpions.

...

“Equipment dropped?” Zhou Zhou’s eyes lit up.

This was the first time he had seen a monster that could drop equipment!

Zhou Zhou quickly turned them into loot and searched around for this equipment.

It was a black crossbow that was more than 40 centimeters long. It also came with a quiver that contained 100 Black Scorpion Poison Crossbows.

Its external form was like that of a Black-tailed Fog Scorpion. When it fired an arrow, this crossbow was like a Black-tailed Fog Scorpion accumulating strength, preparing to stab its poisonous stinger.

[Equipment Name: Black Scorpion Poison Crossbow]

[Equipment Grade: Black Iron-Tier Advance Grade]

[Equipment Effect 1: Strong Crossbow— The Black Scorpion Poison Crossbow will give the crossbow bolt double the strength, speed, range, penetration, and lethality!]

[Introduction: Equipment produced by the Elite Black-tailed Fog Scorpion. With it, even ordinary people can become terrifying killers!]

“This is top-grade equipment!” Zhou Zhou looked at this ferocious and domineering weapon with burning eyes.

Two equipment effects, both were to his liking!

Then, he looked at the Black-tailed Fog Scorpions in the distance as if he was looking at treasures.

Zhou Zhou only had one thought in his mind.

Protect them! They have to be protected!

After the second monster ranch was built, these Black-tailed Fog Scorpions would become his personal weapon factory!

Killing The Black-Tailed Fog Scorpion Leader!

Zhou Zhou's side undoubtedly had the advantage judging from the situation.

Zhou Zhou had twice the forces of the Black-tailed Fog Scorpion and they were forcing most of the scorpions to appear above ground. The Black-tailed Fog Scorpions' forte was in sneak attacks. When above ground, they had less combat power than the Desert Fog Lizards.

Therefore, the Black-tailed Fog Scorpions on the ground were basically beaten up by Zhou Zhou's soldiers.

The Black-tailed Fog Scorpions which stayed underground were also at a disadvantage since the soldiers had Blood Eye, which allowed them to see them even when they were underground. The soldiers could, therefore, often discover and dodge any sneak attack in advance, making the success rate of the Black-tailed Fog Scorpions' sneak attack extremely low.

Their only threat was their Black-tailed Scorpion Poison!

Even though the soldiers were wearing military armor that could cover most of their bodies, there were still some places that could not be protected.

Zhou Zhou had already seen many soldiers accidentally being stung by the Black-tailed Fog Scorpions and showing signs of being poisoned.

Zhou Zhou pondered for a moment before his gaze landed on his three Sand Spearmen.

With a thought, the three Sand Spearmen immediately transformed into three Sand Cavalry!

Then, Zhou Zhou ordered them to charge into the battlefield and bring the poisoned soldiers and the dead Black-tailed Fog Scorpion corpses to him.

The Sand Cavalry were extremely fast, coming and going like the wind!

The poisoned soldiers and the corpses of the Black-tailed Fog Scorpions were quickly delivered to Zhou Zhou.

Then, he began to extract the loot from the monsters' corpses and used the antidotes in the loot to neutralize the poisoned soldiers.

Every Black-tailed Fog Scorpion had an antidote in their loot! Therefore, Zhou Zhou was not lacking in them at all. Moreover, the antidote worked extremely quickly!

These poisoned soldiers were quickly cured of the poison and regained their combat strength. After thanking Zhou Zhou gratefully, they returned to the battlefield without hesitation.

Time passed.

Poisoned soldiers were brought to Zhou Zhou who cured them. They would then return to the battlefield.

This scene became a wonder on the battlefield!

The soldiers no longer had anything to worry about. Their morale soared and became even more fearless when killing the enemy.

At the same time, their loyalty to Zhou Zhou began to increase collectively.

Zhou Zhou also devoted himself to saving people.

I, Zhou Zhou, am the strongest battlefield medic!

Zhang Qianjing, who was beside him, looked at this scene with hesitation.

I'm the actual doctor here...

Fortunately, Zhou Zhou quickly remembered him. He gave the Sand Cavalry a new job, bringing back seriously injured soldiers back and handing them to Zhang Qianjing.

I know how to deal with this!

Zhang Qianjing immediately perked up.

Thus, the two of them began to get busy.

With their efforts, the number of injured soldiers on the battlefield began to decrease at a visible speed.

The number of Black-tailed Fog Scorpions' deaths was also increasing at a visible speed!

Half an hour later, more than half of the 400 Black-tailed Fog Scorpions died.

Just when the soldiers thought that victory was imminent, an accident suddenly happened.

The ground suddenly shook.

A huge mound appeared in the desert. Then, like a bulldozer, it rushed towards the soldiers at an extremely fast speed.

The soldiers were knocked down one after another. Immediately, many people suffered injuries of varying severity.

BOOM!

The ground cracked open.

A huge black shadow jumped out from the ground and landed on the desert ground with a bang.

It was a huge Black-tailed Fog Scorpion that was five to six meters tall and more than ten meters long!

Its scarlet eyes looked at the soldiers as if they were lambs waiting to be slaughtered.

...

Not far away.

Zhou Zhou also looked at the Black-tailed Fog Scorpion.

He looked a little surprised.

Logically speaking, he should be able to discover such a huge Black-tailed Fog Scorpion through the Blood Eye.

However, he had never seen the figure of this huge Black-tailed Fog Scorpion in the vision of the Blood Eye.

What is going on?!

He looked at it.

A text message appeared.

[Monster Name: Black-tailed Fog Scorpion Leader – Black Spike (Scarlet Lord)]

[Strength Level: Green Bronze Tier Advance Grade]

[Monster Description: One of the three Scarlet Lords of the Blazing Sun Desert. He has many Black-tailed Fog Scorpion subjects under his command. He likes to live under the desert, avoid the blazing sun, and is good at ambushing other creatures.]

...

Nezario let out an excited cry next to Zhou Zhou.

Zhou Zhou did not stop it this time.

Nezario quickly flew above the Black-tailed Fog Scorpion.

“ROAR!” Accompanying the roar was an immature yet incomparably dignified dragon might!

The suppression from the top-notch dragon bloodline immediately made the Black-tailed Fog Scorpion leader realize that it could not move in horror.

Nezario's red dragon eyes looked at it and suddenly opened his dragon mouth.

A faint red light appeared in its mouth.

The next second, the scorching magma dragon breath spewed out and directly rushed towards the Black-tailed Fog Scorpion leader.

The Black-tailed Fog Scorpion finally broke free from the influence of the Dragon Might. It crawled into the sand in a panic and disappeared from the ground at an extremely fast speed.

Regardless, the magma dragon breath still melted a quarter of its body into magma, causing it to be severely injured.

That excited Nezario — It was the first time it had seen a monster that could break free from its dragon might.

It was about to give chase when it suddenly froze on the spot.

...

“Hmm?” Zhou Zhou narrowed his eyes slightly.

In its vision, after the Black-tailed Fog Scorpion leader drilled into the ground, its blood energy disappeared again.

It was as if it had disappeared into thin air.

“It seems to be able to hide its blood energy and even other information that can expose its location...” Zhou Zhou speculated.

At the same time, Nezario landed on the ground as well.

It looked at the ground under its feet and observed for a moment, but it could not find any traces of the other party.

However, its powerful perception could sense that the other party was still nearby.

Zhou Zhou and Nezario shared telepathy, so he knew this information as well.

He thought for a moment. He got the three Sand Cavalrymen to protect him. Then, he walked into the battlefield and used Mental Manipulation to control the two elite Black-tailed Fog Scorpions. Then, he controlled them to dive underground to find their previous boss.

Zhou Zhou closed his eyes, switching his perspective to the two Black-tailed Fog Scorpions.

A moment later, from the perspective of the two Black-tailed Fog Scorpions, a huge Black-tailed Fog Scorpion leader was lurking in the sand.

A quarter of its body had already disappeared.

Its remaining body was hidden in the sand and did not move. Its entire body's smell and vital signs were completely in a dead state.

It also saw the two Black-tailed Fog Scorpions. After a glance, it quietly sent a message.

[Shhh...]

The two Black-tailed Fog Scorpions looked at each other and quietly came under it. They aimed at it and used their stingers ruthlessly...

Ready... Aim... Sting!

...

Nezario was still searching the ground for the location of the Black-Tailed Fog Scorpion leader.

After it found it, it planned to use the magma dragon breath to spit out a hole in the ground and melt it in the sand.

Its master had high hopes, it could not disappoint him!

BOOM!

The Black-tailed Fog Scorpion, which only had three-quarters of its body left, suddenly jumped out of the ground. It jumped more than 10 meters high and let out a piercing scream...

Nezario opened its mouth and spat out another magma dragon breath in surprise.

The black body burned in scarlet hot dragon breath.

...

Not far away.

A kill notification appeared in front of Zhou Zhou.

[Your pet Lava Dragon – Nezario has killed the Black-tailed Fog Scorpion Leader (Scarlet Lord) – Black Spike. Promotion energy +80! Loot had condensed!

[The territory of the Scarlet Lord has become ownerless. You can plunder or occupy it!]

The Shocking Effect Of The Lord Talent Crystal Fragment!

Zhou Zhou's heart skipped a beat when he saw the Black-tailed Fog Scorpion leader submerged in Nezario's Lava Dragon Breath.

He quickly stopped Nezario so that the corpse did not burn away. Nezario understood immediately and stopped releasing its Dragon Breath.

Rumble.

The corpse of the Black-Tailed Fog Scorpion Leader, which had already been roasted to a black-red color, fell heavily onto the desert, causing the ground to tremble slightly.

Nezario looked at it for a moment, then lost interest. It turned around and flew away to help the soldiers deal with the other Black-Tailed Fog Scorpion.

Zhou Zhou heaved a sigh of relief.

Fortunately, the corpse was not done burning. Otherwise, the loot inside would also be burned away.

He did not immediately go over to retrieve the loot.

Instead, he continued to stand where he was, waiting for the war to end.

With Nezario's help, the remaining hundred or so Black-tailed Fog Scorpions were all wiped out in less than 15 minutes.

The battlefield was silent for a while before the soldiers ruptured into a cheer.

Zhou Zhou and Zhang Qianjing walked into the soldiers to heal the poisoned and injured soldiers.

After the situation of these soldiers stabilized, Zhou Zhou came to the charred corpse of the Black-tailed Fog Scorpion leader.

The fragrance of meat tickled his appetite.

This will be my dinner!

He placed his hand on its corpse after confirming that it was not of unbearable temperature.

A golden notification appeared.

[Do you want to retrieve the loot?]

“Yes!”

The next second, a text notification appeared.

[Lord Talent Hint: You have obtained 40 Mist Cores (Green Bronze-Tier), 500 units of Black-tailed Fog Scorpion flesh (Green Bronze-Tier Advance Grade), one unit of Black-tailed Fog Scorpion leader's poison sac (Green Bronze-Tier Advance Grade), one bottle of Blood Cleansing Pills (Green Bronze-Tier Advance Grade), one skill book, Deadly State (Black Iron-Tier Advance Grade), 20 Poison Crossbowmen Class Change Certificates (Gradeless), 10 Poison Crossbowmen Recruitment Books (Green Bronze-Tier Advance Grade), one Black Scorpion King Crossbow (Black Iron-Tier Advance Grade), one potion formula, Blood Cleansing Pills (Black Iron-Tier Advance Grade), two Origin Crystals, eight Lord Talent Crystal Fragments (Black Iron-Tier Advance Grade)!]

Whoosh.

A huge drop!

Envy appeared on some of the faces of the surrounding soldiers, but most of them looked up at Zhou Zhou with even more admiration.

Zhou Zhou was already used to such scenes. He began to inspect the loot calmly.

There was naturally no need to mention the Green Bronze-Tier Mist Cores, the flesh of the Black-tailed Fog Scorpion leader, the poison sac, and the Poison Crossbow Soldier Class Change Certificates.

The effect of the Poison Crossbow Soldier Recruitment Book was the same as the Sword Shield Soldier Recruitment Book. They could summon professionals from the Gate of Summoning!

However, these recruitment books would recruit higher-level beginner soldiers — The Poison Crossbow Soldiers!

Then, there was the Green Bronze-Tier Advance Grade skill book, Dead State!

[Skill Name: Dead State]

[Skill Quality: Green Bronze-Tier Advance Grade]

[Skill Description: Conceal your scent, gaze, voice, breathing, mental activity, blood energy fluctuations, energy aura, and other traces that might expose you to the greatest extent. Allow you to enter a dead state and become like a corpse, thereby reducing the possibility of other living beings discovering you.]

Zhou Zhou raised his eyebrows.

No wonder they couldn't find any traces of the other party the moment it entered the desert. They couldn't even see it with their blood eyes.

So it was the effect of Dead State! Good stuff!

Zhou Zhou learned it on the spot!

With a 100% drop rate, he was destined to obtain countless treasures and Lord Talents in the future!

The closer he got to the later stages of the Overlord competition, the stronger he would become after grasping many treasures and Overlord talents!

Therefore, this kind of survival skill was what he needed the most!

After learning it, he looked at the next loot.

The formula for the Blood Cleansing Pill and the medicine bottle containing 20 Blood Cleansing Pills.

[Potion Recipe Name: Blood Cleansing Pill]

[Recipe Quality: Green Bronze-Tier Advance Grade]

[Recipe Effect: You can master the refining method of the Blood Cleansing Pill after using it. The Blood Cleansing Pill can remove most poisons below the White Silver-Tier. It can also relieve and control some White Silver-Tier blood-infecting toxins.]

[Recipe Material: Clear Spirit Flower (Green Bronze-Tier Advance Grade), Purple Leaf Grass (Green Bronze-Tier Intermediate Grade), Black Crow Ginseng (Green Bronze-Tier Intermediate Grade), Blood Clotting Grass (Black Iron-Tier Advance Grade)]

[Formula Description: Beginner-level Antidote. It can heal and control most low-level poisons below the White Silver-Tier.]

[Learning Requirement: It can only be learned by physicians, herbalists, pharmacists, alchemists, and other herb-related life professions.]

“This should be an advanced-level antidote.” Zhou Zhou thought.

He had also read the formula for the Black Iron-Tier Advance Grade antidote he had obtained from the elite Black Iron-Tier Advance Grade.

The effect was similar to the Blood Cleansing Pill, however, the level of detoxification was different.

The Black Iron-Tier Advance Grade Antidote could only cure most Black Iron-Tier poison while this Blood Cleansing Pill could cure most poisons below the White Silver-Tier.

No doubt, the Blood Cleansing Pill had a wider healing range but it was also more expensive to make.

He did not think too much about it as he continued to look at the next loot.

[Equipment Name: Black Scorpion Poison Crossbow]

[Equipment Grade: Green Bronze-Tier Advance Grade]

[Equipment Effect 1: Power of the King's Crossbow. When shooting the arrow, the Black Scorpion King's Crossbow will give the arrow five times the strength, speed, range, penetration, and lethality of the arrow. It will also carry the poison of the Black-tailed Fog Scorpion, which is above Green Bronze-Tier Advance Grade. It can poison ordinary monsters below White Silver-Tier to death!]

[Equipment Effect 2: Arrow of Death – When the user shoots a crossbow bolt, the Black Scorpion King Crossbow will automatically hide all the user's physical characteristics and shoot a silent arrow, killing the enemy!]

[Introduction: The rare equipment dropped by the Black-tailed Mist Scorpion Leader, Black Spike. It is a top-grade equipment that Green Bronze-Tier crossbow soldiers dream of!]

Good equipment!

Zhou Zhou's eyes lit up.

Equipment Effect 1 was equivalent to providing an unlimited number of Black Scorpion Poisonous Arrows. Moreover, it was a Black Scorpion Poisonous Arrow with Green Bronze-Tier Advance Grade!

Equipment Effect 2 even had a deathly silent skill!

The effects of the two equipment were both top-grade!

"I can give this to Bai Yi." Zhou Zhou thought.

Even though he liked this equipment very much, he did not need to go out to fight personally as a Lord.

Also, he was not a crossbow-type soldier. Keeping it would only cause this treasure to be covered in dust. He might as well give it to Bai Yi and let it play a greater role. It would also allow Bai Yi to serve him better!

Then, he looked at the Origin Crystal he had seen for the first time.

This was a thumb-sized hexagonal golden crystal that emitted a faint warm heat when held in his hand.

[Item Name: Origin Crystal]

[Item Level: Special]

[Item Effect: One of the necessary resources to upgrade the territory. Only some Scarlet Lords and special fog monsters can drop it!]

[Item Description: A rare and indispensable promotion resource for a lord!]

“Do we actually need this to upgrade our territory?”

Zhou Zhou was a little surprised.

He valued this resource even more.

He solemnly put it into his spatial ring and looked at the last loot.

They were eight cube-shaped crystals that emitted a black iron glow.

[Treasure Name: Lord Talent Crystal Fragment]

[Grade: Black Iron-Tier]

[Treasure Ability 1: Gather 10 Black Iron-Tier Lord Talent Crystal Fragments and fuse them into a complete Black Iron-Tier Lord Talent Origin Divine Crystal. It can awaken an unknown Black Iron-Tier Lord Talent.]

[Treasure Ability 2: Gather 10 Black Iron-level Lord Talent Origin Divine Crystals and fuse them into a Green Bronze-Tier Lord Talent Origin Divine Crystal. It can allow a Lord with a Black Iron-level Lord Talent to upgrade his Lord Talent to a Green Bronze-Tier Lord Talent. The subsequent fusion effects, and so on!]

[Introduction: The treasure that Lords dream of!]

...

Zhou Zhou's eyes widened.

Global Lord: 100\% Drop Rate #Chapter 35 - Read Global Lord: 100\% Drop Rate Chapter 35

Organizing The Harvest! Thousands Of Soldier Professionals!

Zhou Zhou was completely stunned.

Not only does this Lord Talent Crystal Fragment awaken the Lord Talent, it could also upgrade the Lord Talent?

Zhou Zhou had another bold idea.

If he obtained 1 billion Black Iron-Tier Lord Talent Crystal Fragments, wouldn't he be able to fuse a Mythical Lord Talent Origin Divine Crystal directly?

If he used it again, wouldn't his Legendary-Tier Lord Talent evolve into a Mythical-Tier Lord Talent?

Wait...

No! If I had the Mythical Lord Talent Origin Divine Crystal, why would I level up the 100% drop rate? Wouldn't it be better to directly awaken a brand new Mythical-Tier Lord talent?

Zhou Zhou suddenly realized the error of his ways and started fantasizing before coming back to his senses.

He looked at the eight Black Iron-Tier Lord Talent Crystal fragments in his hand and sighed.

One billion of them!

So far away!

He might not even be able to afford it even after the battle of the OverLords.

It was better not to think so far ahead.

"There are billions of Cerulean Planet Lords and many of them haven't awakened their Lord Talents. Could it be because they didn't form a complete Lord Talent Crystal in their bodies?"

Zhou Zhou suddenly thought of this problem.

The more he thought about it, the more likely it seemed.

He then called five Sword Shield Soldiers and walked into the Lord's wooden house. He checked it and found that there was nothing good to take away with them.

He then turned his attention to the Territory Stone Tablet and realized that it was a Black Iron-Tier Advance Grade Territory Stone Tablet!

“Smash it.” Zhou Zhou ordered.

The five Sword Shield Soldiers went forward to swing their swords.

They took half an hour to break the stone tablet with an endurance of 10,000 points, revealing the Territory Token inside.

Zhou Zhou stepped forward and placed his hand on the Territory Token.

[Receive the Territory Order?]

“Yes!” Zhou Zhou said.

The Black Iron-Tier Advance Grade Territory Token immediately fell into his hands the next second.

Zhou Zhou looked at the Territory Token with a smile on his face.

He had two Territory Tokens in his possession. He just had to obtain another piece and his territory could be upgraded again!

“We’ve to continue fighting.” Zhou Zhou thought.

“My Lord. I have something to report!”

At this moment, Bai Yi’s voice came from outside.

“Come in.” He said casually.

Bai Yi walked in. “I’ve something to report, my Lord!”

“The soldiers couldn’t even find a unit of basic resources after searching for so long. It’s like there are no resources here.” Her expression was a little ugly.

Zhou Zhou was stunned.

Surely not?

It was the territory of a Green Bronze-Tier Advance Grade Scarlet Lord after all. It should have developed for a period of time since it could upgrade its territory to Black Iron-Tier Advance Grade. How could it not have any basic resources?

“Did you search the underground?” Zhou Zhou suddenly said.

Bai Yi immediately reacted and joy appeared on her face.

“That’s right! There is indeed a high chance that they will place their development resources under the desert with their habits...”

“I am a fool. I’ll send people to search for them again right away. We’ll definitely find all the loot here even if we have to dig three feet into the ground!”

“There’s no need to go through so much trouble. Catch a Black-Tailed Fog Scorpion alive and let me question it.” Zhou Zhou possessed the racial skill, Mental Perception, where he could vaguely sense the thoughts of living creatures. It would be all too easy to get information from the enemy when coupled with the Mental Manipulation skill.

“Roger!” Bai Yi left and a moment later, an elite Black-tailed Fog Scorpion with its legs and tail severed was sent over. After Zhou Zhou used Mental Manipulation and Mental Perception on it, he found where the territory’s treasure trove was.

Bai Yi immediately led soldiers who knew the Sand Stealth technique to the location and successfully retrieved all the loot from underground.

They obtained 2,000 units of wood, 1,500 units of stone, 800 units of fine sand, 500 units of metal, 156 Black Iron-Tier Mist Cores, and 25 Green Bronze-Tier Mist Cores in total!

They even found a Green Bronze-Tier Intermediate Grade medical hall blueprint, even though it was of little use to Zhou Zhou.

With Zhao Changshou, a White Platinum-Tier Intermediate Grade architect, around, he no longer cared about ordinary blueprints below White Platinum-Tier Intermediate Grade.

However, he could give this blueprint to Qian Du as a reward when he was promoted to a Green Bronze-Tier Intermediate Grade Architect.

Zhou Zhou felt that there was nothing to occupy here. He placed all the loot on the small wooden cart and left with the soldiers and convoy as usual.

Two hours later, in the Lord’s wooden house.

Zhou Zhou was sorting out the gains and losses of this battle.

They had killed a total of 465 Black-tailed Fog Scorpions in this battle!

Among them was a Green Bronze-Tier Advance Grade Black-Tailed Fog Scorpion Leader (Scarlet Lord), two Elite Green Bronze-Tier Intermediate Grade Black-tailed Fog Scorpions, five Elite Green Bronze-Tier Elementary Grade Black-tailed Fog Scorpions, 29 Elite Black Iron-Tier Advance Grade Black-Tailed Fog Scorpion, 118 Black Iron-Tier

Intermediate Grade Black-Tailed Fog Scorpions, and 310 Black Iron-Tier Elementary Grade Black-Tailed Fog Scorpions!

On Zhou Zhou's side, it was a miracle that only three soldiers died in battle! 12 were seriously injured and 56 were slightly injured!

Their battle damage ratio was terrifyingly high!

It was because of four key reasons.

First, they had more troops on their side, double the number of Black-tailed Fog Scorpions!

Second, the success rate of the Black-tailed Fog Scorpions' sneak attacks were greatly reduced because of the Blood Eye!

Third, Zhou Zhou and Zhang Qianjing were constantly healing and neutralizing poisons on the battlefield, reducing the casualties!

Last but not least, Nezario had eliminated the Black-tailed Fog Lizard leader and its Green Bronze-Tier Black-tailed Fog Scorpions with higher combat power.

Zhou Zhou had also obtained a large number of rewards from this battle that surprised him.

This included 83 Green Bronze-Tier Mist Cores, 1,324 Black Iron-Tier Mist Cores, 13,820 units of flesh (Black Iron-Tier Elementary, Intermediate and Advance Grade), 150 units of Green Bronze-Tier Elementary Grade! 100 units of Green Bronze-Tier Intermediate Grade! 500 units of Green Bronze-Tier Advance Grade, 465 portions of the Black-tailed Fog Scorpion's poison sac (Black Iron-Tier and Green Bronze-Tier), 389 bottles of antidotes (Black Iron-Tier Elementary, Intermediate and Advance Grade), eight bottles of Blood Cleansing Pills! (Green Bronze-Tier Elementary, Intermediate and Advance Grade), 540 Poison Crossbowmen Class Change Certificates, 175 Poison Crossbowmen Recruitment Books, 29 Black Iron-Tier Advance Grade Black Scorpion Crossbows, five Black Iron-Tier Elementary Grade Black Scorpion Crossbows, two Black Iron-Tier Intermediate Grade Black Scorpion Crossbows and seven sets of Blood Cleansing Pill potion formulas (five sets of Green Bronze-Tier Elementary Grade and two sets of Green Bronze-Tier Intermediate Grade)!

Zhou Zhou stored all the loot into the Emperor of Sand's spatial ring. Then, he walked out of the Lord's wooden house and came to the Gate of Summoning, once again throwing all 175 Poison Crossbow Soldier Recruitment Books in.

The next second, Poisonous Crossbowmen filed out of the Gate of Summoning one after the other. After bowing respectfully to Zhou Zhou, they lined up behind him until no one else emerged from the Gate.

A total of 175 poisonous crossbowmen appeared!

“The number of soldiers under my command has officially broken through to 1,000! 1,041, to be precise!” A smile appeared on Zhou Zhou’s face.
