

Global Lord: 100\% Drop Rate #Chapter 36 - Read Global Lord: 100\% Drop Rate Chapter 36

Purchasing Materials! Ling'er's Opportunity!

Zhou Zhou was very satisfied with the gains from this expedition against the Scarlet Lord.

The fragment of the Lord's Talent Crystal did not disappoint him even though he did not obtain a new Lord Talent.

Zhou Zhou opened the marketplace and frowned slightly.

"More Lords are selling Black Iron-Tier Elementary Grade meat. Its price has begun to decline. More Lords would be able to be self-sufficient and can even sell excess meat in the marketplace as time goes by." Zhou Zhou muttered to himself as he began to set up a new deal.

The content of this deal was different from before.

This time, he would release a total of 30,000 units of flesh — 15,000 units of Black Iron-Tier Elementary Grade Desert Fog Lizard meat, 5,000 units of Black Iron-Tier Elementary Grade Black-Tailed Fog Scorpion meat and 10,000 units of Black Iron-Tier Intermediate Grade Desert Fog Lizard!

At this stage, there were still very few Lords who sold Black Iron-Tier Intermediate Grade meat and not a single Lord was selling meat from Black Iron-Tier Advance Grade monsters!

The higher the level of the meat, the more promotion energy they contained after all. Which Lord would be willing to sell the meat of rare high-level monsters to others unless he had excess which could not be preserved for a long time?

Most did not even have enough for themselves.

The reason why Zhou Zhou did this was because the ingredients he wanted this time were ingredients to make the antidote and the Blood Cleansing Pill that he had just obtained today.

These two potions were both high-level potions. The medicinal herbs needed to make them were mostly Black Iron-Tier Advance Grade or even Green Bronze-Tier medicinal herbs!

That was why Zhou Zhou took out higher-level meat to trade.

Soon, the deal he announced attracted the attention of countless Lords again.

As the number of views increased rapidly, his deal once again topped the list of deals viewed.

The other Lords on the World Channel were also having a heated discussion.

“Oh my God, 30,000 units of monster meat!? Did Big Boss Blazing Sun destroy another monster kingdom?”

“10,000 units of Black Iron-Tier Intermediate Grade monster meat! Good Lord, Big Boss Blazing Sun shocks me every time he attacks!”

“The great Desert Fog Lizard has made an indelible contribution to the development of the Big Boss Blazing Sun!”

“Desert Fog Lizard: Thank you. Because of you, the four seasons have been warmed...”

“Am I the only one who noticed that there’s an extra type of meat called the Black-tailed Fog Scorpion this time?”

“Desert Fog Lizard: Welcome, new members, to the development of Big Boss Blazing Sun!!”

“The price of this meat is too expensive! The other Lords have already lowered their prices, so how can he still maintain such high prices? Everyone, stand up and boycott this profiteer! Don’t buy from him!”

“That’s right! We can’t let the profiteers be so arrogant!”

...

Profiteer?

Zhou Zhou could not be bothered with such comments.

Meat was still in short supply in the market even though there were more Lords selling them now. It was far from reaching an equilibrium between supply and demand.

If these people did not buy his high-priced flesh, other Lords would! He did not have to worry about not being able to sell them!

He could actually also use the Sword Shield Soldier Class Change Certificate to buy these materials but he was unwilling to do so.

What if he were to have a large population one day?

When the time comes, these Sword Shield Soldier Class Change Certificates could be quickly converted into real military strength!

Suddenly, he saw some different news on the World Channel.

Two or three Lords were discussing the Dragon Lady.

This morning, the Dragon Lady had used the world channel's live broadcast function to broadcast the entire process of her taking down a foreign race Lord's territory. It had broadened the horizons of all the Lords.

It made her even more famous. At the same time, it also alerted all the Lords.

The Novice Lord Protective Barrier is not invincible!

No matter how strong the Novice Lord Protective Barrier was, if a Lord were to court death, it would not be able to protect him.

Zhou Zhou was a little surprised by the Dragon Lady's situation but that was all.

He had already conquered three territories.

The Dragon Lady's conquest was not too shabby but her Epic-Tier Lord talent was indeed worthy of his attention.

At the same time, hundreds of millions of kilometers away, in the Spiritual Medicine City.

Ling'er, who was in the Divine Herb Garden, was dumbfounded when she saw the new deal initiated by the Lord of The Blazing Sun.

She bought some medicinal ingredients to create the Blood Eye yesterday.

She wanted to be able to provide her Big Brother Blazing Sun with an endless supply of medicinal ingredients to create the Blood Eye from now on.

A day had barely passed and Big Brother Blazing Sun needed new medicinal ingredients.

Ling'er suddenly smiled.

"Looks like Big Brother Blazing Sun has become stronger again!"

She immediately opened the marketplace and bought some medicinal herbs to make antidotes and Blood Cleansing Pills.

As long as she had the seeds and the ability of her Divine Herb Garden, having a steady stream of mature medicinal herbs every day was not a dream!

She wanted to be Big Brother Blazing Sun's only supplier of medicinal herbs!

Not to monopolize him, for she did not know anything about monopolies. She just wanted to be closer to this big brother who was willing to chat with her.

She opened the Lord of The Blazing Sun's chat and sent a message to him nervously.

[Spiritual Medicine Lord: Is Big Brother Blazing Sun here?]

The reply came after a short while.

[Lord of The Blazing Sun: Yes, the herbs are ripe again?]

[Spirit Medicine Lord: Yep. This time, Ling'er prepared 1,000 sets of medicinal ingredients for Big Brother Blazing Sun's Life Potions, 300 sets of medicinal ingredients for the Energy Potion, and 300 sets of medicinal ingredients for the Blood Eye Potion.]

[Lord of The Blazing Sun: I want them all. Let's discuss the price.]

[Spiritual Medicine Lord: Is 10 sets of potion for one Sword Shield Soldier Class Change Certificate alright?]

[Lord of The Blazing Sun: ... Yes.]

It was more than alright! This pricing was no different from the price of cabbage!

Zhou Zhou did not want to take advantage of the child, but when he thought about the ridiculously effective Divine Herb Garden... He suddenly felt that he could accept such a price.

Nonetheless, he secretly decided that he would help Ling'er to the best of his ability in the future.

He suddenly thought of something and immediately typed:

[Lord of The Blazing Sun: All the people in your territory have changed their professions to Sword Shield Soldiers, right?]

[Spiritual Medicine Lord: Yes! My subjects dare to go out and explore during the day now. They even dare to fight the monsters head-on! Thank you, Big Brother!]

[Lord of The Blazing Sun: In that case, you won't be able to use the Sword Shield Soldier Class Change Certificate even if I give you more, right? Why don't I trade something else with you?]

Zhou Zhou definitely could not be bothered to say these words if it was someone else.

Who cares if you can use it or not?

However, Zhou Zhou asked out of concern since Ling'er was willing to trade herbs with him at such a good price. He was willing to respond to Ling'er's kindness with his own kindness.

However, the Spiritual Medicine Lord's next words stunned Zhou Zhou.

[Spiritual Medicine Lord: It's alright! There's an indigenous force called Green Valley City near my territory. Refugees have been coming to my place every day for the past two days. Eight people came yesterday, and another 14 people came today. They're all willing to become Ling'er's subjects.]

[Spiritual Medicine Lord: There should be more refugees coming tomorrow, so Big Brother Blazing Sun doesn't have to worry that Ling'er won't be able to use them!]

Zhou Zhou was confused on the other side of the chat.

How could this be?!

He was short of non-military professionals, Zhao Changshou even needed to build houses himself.

She had people going to her for free?

Zhou Zhou completed the transaction with Ling'er with mixed feelings.

He had obtained 1,600 portions of medicinal herbs that Ling'er had specially cultivated for him!

On the other hand, Ling'er obtained 160 Sword Shield Soldier Class Change Certificates.

Zhou Zhou was about to ask for the details when Bai Yi's voice came from outside.

"I've something to report, my Lord!"

"There's a gnome outside. He said that he heard of my Lord's reputation and yearned to become your subject. He specially came from afar to join the Blazing Sun City!"

“He doesn’t seem simple. My Lord, do you want to take a look?”

It sounded familiar to Zhou Zhou for some reason.

Then it clicked.

This was a talent attracted by the Reputation Rating!

He immediately walked out of the Lord’s wooden house.

Global Lord: 100\% Drop Rate #Chapter 37 - Read Global Lord: 100\% Drop Rate Chapter 37

Talent With Extraordinary Potential! You Call This A Repair?

Zhou Zhou found the gnome which looked similar to Ashburn with a white robe.

That gnome was studying Zhou Zhou and the territory behind him curiously.

“Greetings, my Lord!” The gnome retracted his gaze and said respectfully.

His voice was tender, revealing that he was a young gnome.

“Hi, I heard that you want to join my territory?” Zhou Zhou asked curiously.

“Yes. I’ve just finished my apprenticeship. I originally wanted to stay in the Aurora Kingdom and appreciate the local customs around me while looking for a Lord worthy for me to submit to.”

“I heard that you conquered a Foreign Lord territory and a Scarlet Lord’s territory in just three days upon arriving in the High Continent.”

“In the eyes of many living beings — including myself and my teacher — this is extremely unbelievable but it’s precisely because of this that my Lord’s strength and potential shines!”

“That’s why I came to see my Lord. If possible, I want to submit myself to my Lord! I wonder if my Lord is willing to accept a newly minted blacksmith like me?” Carter Jim asked expectantly.

A line of text appeared.

[Carter Jim requests to join your territory and become your subject. Do you agree?]

Blacksmith?

Zhou Zhou was stunned but delighted.

Coincidentally, the soldiers had been fighting non-stop recently, and many of their armor and weapons were damaged.

They could only continue using the damaged armor and weapons because there were no blacksmiths.

That solved everything!

The damaged weapons and armor could be repaired with this new gnome blacksmith!

“Welcome to Blazing Sun City!” Zhou Zhou agreed readily.

After calming down, he looked at the other party’s delicate figure and suddenly hesitated.

This size... No matter how he looked at him, he did not seem to be the size of a blacksmith.

He looked at the other party, and his message appeared in his eyes.

[Subject: Carter Kim]

[Territory: Blazing Sun City]

[Life Profession: Blacksmith]

[Professional Class: Yellow Gold-Tier Advance Grade]

[Ability Overview: A genius in the path of blacksmithing, the last disciple of the master military craftsman, Gibbon Vella. His body contains the bloodline of the Mountain Giant. Under his gentle and shy appearance, there is a burning heart that swings a sledgehammer.]

[Skills: Mountain Giant Bloodline, Talent – Earth Elemental Affinity, Extraordinary-Tier Jilburn Forging Technique 36 Forms (Incomplete Mastery), Yellow Gold-Tier Advance Grade Equipment Repair Skill, Yellow Gold-Tier Advance Grade Equipment Carving Skill, Yellow Gold-Tier Advance Grade Equipment Military Aesthetic Theory, Pure Iron Forging Skill, Steel Forging Skill, Equipment Manufacturing – Archer Equipment (Yellow Gold-Tier Advance Grade), Equipment Manufacturing – Crossbowman Equipment (Yellow Gold-Tier Advance Grade), Equipment Manufacturing – Cavalry Equipment (Yellow Gold-Tier Advance Grade), Equipment Manufacturing – Sword Shield Soldier Equipment (Yellow Gold-Tier Advance Grade), Equipment Manufacturing – Spearman Equipment (Yellow Gold-Tier Advance Grade), Equipment Manufacturing – Pudaο

Soldier Equipment (Yellow Gold-Tier Advance Grade), Equipment Manufacturing – Firearm Soldier Equipment (Yellow Gold-Tier Advance Grade)]

[Loyalty: 88]

[Potential: Extraordinary-Tier Intermediate Grade]

Zhou Zhou was pleasantly surprised.

He did not expect this young gnome's potential to be Extraordinary-Tier Intermediate Grade! even though he was currently inferior to Elder Zhao.

This was a future Extraordinary-Tier Blacksmith!

Moreover, Zhou Zhou was very satisfied with the other party's skills.

They were all forging skills related to military equipment!

To any Lord, a blacksmith with so many standard equipment forging skills was undoubtedly the most practical!

Moreover, the other party had his own talent and bloodline.

As expected of a talent attracted by Reputation Rating!

"My Lord, do we have a blacksmith shop in our territory?" Carter Kim asked curiously.

"Not at the moment, but you can have it tomorrow if you want one." Zhou Zhou smiled.

He then called over a soldier and asked him to bring Zhao Changshou and Elder Zhao over.

Zhao Changshou came over in no time. "My Lord. You were looking for me?" He asked.

Zhou Zhou was about to speak when a surprised voice sounded from the other side.

"Teacher Zhao, you're here too?!" Carter Kim looked at Zhao Changshou in surprise.

Zhou Zhou was stunned.

Zhao Changshou's gaze also fell on him. Then, he said in surprise, "Little Carter? Shouldn't you be at Master Gibbon's place? Why are you here?"

"I've finished my apprenticeship!" Carter Jim said shyly.

“Not bad. You didn’t let your teacher down to be able to graduate at such a young age. Oh yes. How’s your teacher doing?” Zhao Changshou clicked his tongue in wonder.

“Teacher has been in good health recently. Just that she talks about you all day long.” Carter Jim said politely.

“I’ll visit her when I’m free.” Zhao Changshou smiled.

“So you know each other.” Zhou Zhou said in surprise.

“This little guy’s teacher and I are good friends in the Aurora Kingdom. I designed her residence myself. We became even closer after we retired because we see each other a lot. So I got to know her precious disciple.” Zhao Changshou smiled.

Zhou Zhou nodded and then became thoughtful.

It seemed that the Aurora Kingdom was very close to his territory.

Otherwise, it wouldn’t be so coincidental that both of the Legendary-Tier Talents came from the Aurora Kingdom.

“Elder Zhao, Carter has already become a subject of Blazing Sun City. I asked you to come over this time because I want you to help him build a Yellow Gold-Tier Advance Grade blacksmith shop.” Zhou Zhou said.

“Does my Lord have Yellow Gold-Tier Mist Cores?” Zhao Changshou was stunned.

“No, why?” Zhou Zhou replied.

“Building a Yellow Gold-Tier Advance Grade Blacksmith Shop requires 100 Yellow Gold-Tier Advance Grade Mist Cores.”

Zhou Zhou: “... I think the Black Iron-Tier Advance Grade blacksmith shop is good enough for now.”

Zhao Changshou and Carter immediately agreed. The awkward atmosphere quickly disappeared amidst laughter.

“My Lord, this female general’s armor seems to be damaged. Would you allow me to repair it?” Carter looked at Bai Yi’s armor and said to Zhou Zhou.

It was more than just being damaged.

Bai Yi was still wearing the Black Iron-Tier Elementary Grade Poison Crossbowmen armor that came with her class change which was completely incompatible with her current strength.

“Go and change it out.” Zhou Zhou nodded.

Bai Yi thanked him and went back to change her clothes.

When she returned, she had her standard armor folded in her hands as she was wearing her own casual clothes.

Carter Jim took out a simple forging platform from his Spatial Ring and placed it on the ground. Then, he lit it up.

Then, the other party picked up the hammer that was three times his height.

The size of the hammer did not match his height at all. Zhou Zhou was afraid that he would not be able to handle it.

“Lord, please be mentally prepared.” At this moment, Zhao Changshou leaned over and whispered.

Zhou Zhou did not know what he meant until he saw Carter Jim in action.

Carter Jim took a deep breath.

“Gwarr...”

A tangible white circular airflow spread out from under his feet accompanied by a suppressed growl.

The ground shook slightly. Gravels trembled and floated from the ground.

Carter Jim’s body began to grow at a visible speed under Zhou Zhou and Bai Yi’s dumbfounded gazes.

Soon, his entire body had become five to six meters tall with his muscles bulging.

The white robe he was wearing earlier now looked like a scarf wrapped around his neck.

The hammer that was nearly two meters long looked like a wooden stick in his hand.

Zhou Zhou and Bai Yi’s expressions froze for a few seconds.

...

Carter Jim began to forge.

The loud sound of hammers being swung echoed throughout the entire territory, and almost everyone looked over.

Even Ashburn, who was always in the gnome alchemy workshop, came out to watch the giant forge armor.

During the forging process, he would occasionally throw a few ores into the armor.

“It’s done. The time is tight, so I only repaired the original armor, which is why I couldn’t maximize the effect of the equipment. I hope you don’t mind.” Carter was embarrassed as he handed the armor to Bai Yi.

“Thank you so much for fixing it.” Bai Yi took it and thanked him.

Zhou Zhou also looked at it.

[Equipment Name: Poison Crossbow Soldier Standard Armor (Strengthened)]

[Equipment Grade: Green Bronze-Tier Advance Grade]

[Equipment Effect: Standard armor of the Poison Crossbow Soldiers. It can withstand 30% of the impact from the outside world and effectively prevent sharp weapons from attacking. After being repaired and upgraded by a blacksmith, it can slightly resist White Silver-Tier Elementary Grade damage from the outside world.]

[Introduction: The standard armor of the Poison Crossbowmen. It was reforged by an outstanding blacksmith and its defense was strengthened.]

Zhou Zhou and Bai Yi’s mouths fell agape.

Then, they looked at the shy Carter Jim.

Good God!

It was directly upgraded from a Black Iron-Tier Elementary Grade equipment to Green Bronze-Tier Advance Grade equipment!

You call this a repair?

Global Lord: 100\% Drop Rate #Chapter 38 - Read Global Lord: 100\% Drop Rate Chapter 38

50 Mechanostriders! The Second Monster Ranch!

“Your blacksmithing skills are indeed great. You’ll probably catch up with your teacher in a few years.” Zhao Changshou stroked his beard and smiled.

“It’s just a basic operation. I’m still far from my teacher.” Carter Jim reverted to his gnome form and said shyly.

This time, Zhao Changshou did not say anything.

Gibbon Vella was an Extraordinary-Tier Advance Grade Master Blacksmith! He was indeed far inferior comparatively.

At this moment, Zhou Zhou also came back to his senses.

He looked at Carter Jim with shining eyes, as if he was looking at a treasure.

“In the future, you will be in charge of upgrading and repairing the equipment in our territory. Our soldiers are all wearing the most basic Black Iron-Tier Elementary Grade equipment. Many people’s standard equipment can no longer match their strength. I need people like you to help them!” Zhou Zhou patted Carter Jim’s shoulder, looking like he had entrusted him with an important task.

“I will do my best!” Carter Jim said seriously.

He was akin to a young man who had mastered the skills of a military craftsman. Even though he was shy, he yearned to follow a virtuous leader and create a great career.

This was also one of the reasons why he came here to train himself!

“How many sets of standard equipment can you upgrade in a day? You don’t have to upgrade them too much, perhaps to Green Bronze-Tier Elementary Grade at best.” Zhou Zhou asked.

“If it doesn’t exceed the Green Bronze-Tier Elementary Grade, then it’s very simple. I can upgrade about 50 sets a day.” Carter Jim said.

Zhou Zhou clicked his tongue.

Upgrading 50 sets a day... This efficiency was ridiculous.

However, Zhou Zhou could somewhat understand given his mountain giant transformation just now.

Zhou Zhou asked for the list of ores and materials needed to upgrade the equipment.

According to Carter Jim, there were only two materials required.

Pure iron and fine steel!

“Forging low-level standard equipment mainly depends on the forger’s skills and repeated tempering. There’s no need for too complicated ores.” Carter Jim said shyly, noticing Zhou Zhou’s doubtful expression.

Zhou Zhou nodded. He immediately opened the Marketplace and used 10,000 units of Black Iron-Tier Elementary Grade Desert Fog Lizard meat to buy these two types of ore materials.

The price he set was five units of pure iron or 10 units of steel for every unit of Black Iron-Tier Elementary Grade Desert Fog Lizard meat!

This price was still very high!

However, there were too many Cerulean Planet Lords so he did not have to worry about not being able to obtain the materials.

At this moment he noticed Ashburn wearing a doubtful expression on his face.

Zhou Zhou asked Zhao Changshou to arrange a place for Carter Jim to stay before he went to Ashburn’s side. “What are you looking at?” Zhou Zhou asked Ashburn while patting his shoulder.

“My Lord, is he a gnome too?” Ashburn looked at Carter Jim in the distance and couldn’t help but ask.

“He’s a gnome with the blood of a mountain giant.” Zhou Zhou answered.

“A gnome that actually has the bloodline of a mountain giant... I’ve learned something new.” Ashburn sighed, feeling much better.

Zhou Zhou was also very emotional.

What was Carter Jim’s Mountain Giant parent thinking?

“Lucky that I ran into you. Can you use this?” Zhou Zhou handed the formulas for the Antidote and Blood Cleansing Pill to Ashburn.

Ashburn was already used to seeing new formulas so he wasn’t surprised.

He looked at it twice before he quickly shook his head.

“My apologies, my Lord. I’m an alchemist. Making some alchemy potions is my limit. This is a potion formula specially prepared for orthodox pharmacists. I can’t learn it.”

Zhou Zhou was stunned. Ashburn was dead loyal to him so there was no way he would lie to him. He must really be unable to learn it then.

Zhou Zhou could only put them away, even though he did not feel that it was a pity.

He could totally build a second monster ranch to nurture the Black-tailed Fog Scorpion now that he had Origin Crystals!

He could completely obtain antidotes and Blood Cleansing Pills through the monster ranch since Ashburn didn't know anything about them.

Not only was this method simpler, there was also no need to buy the corresponding medicinal herbs from the Marketplace.

"My Lord, I just made 50 mechanostriders. Would you like to take a look?" Ashburn asked.

"Let's go!" Zhou Zhou immediately said.

Mechanostriders were a very important part of his development plan!

They arrived at the alchemy warehouse that housed a total of 50 neatly arranged mechanostriders, making this place look like an armory.

"Well done." Zhou Zhou could not help but praise Ashburn.

"It's my duty to serve the lord." Ashburn said elegantly.

Zhou Zhou smiled and nodded.

Then, he asked Bai Yi to call someone over to bring the 50 mechanostriders out. He ordered for 10 of the mechanostriders to be used specifically for the transportation of loot.

The remaining 40 of them were given to the scout team and were in charge of exploring the surrounding environment of the territory.

Bai Yi was already prepared for this. She immediately found 40 smart soldiers to join the scout team and got them familiarized with the mechanostrider.

More than an hour later, all the soldiers had mastered the operation of the mechanostriders.

Zhou Zhou got them to head out of the territory under Bai Yi's lead to explore the environment outside the territory.

Wu Tu, the cartographer recruited this morning, was among them.

“My Lord! I will definitely become the vice-captain!”

Wu Tu shouted at Zhou Zhou in the distance before they left.

Zhou Zhou smiled and nodded before looking for Zhang Cang again.

At this moment, Zhou Zhou’s first subject and also the first Sword Shield Soldier in the territory was already at the Green Bronze-Tier Elementary Grade.

Zhou Zhou asked him to leave 100 soldiers behind and lead the remaining 890 soldiers in clearing the remaining fog monsters outside the territory.

Zhang Cang accepted the order and left.

Half an hour later, in the Lord’s wooden house, Zhou Zhou, who was diving in the world channel, suddenly realized that the two deals he had set up were completed.

He had obtained a total of 60,000 units of stone, 50,000 units of wood, 110,000 units of fine sand, and 80,000 units of metal!

600 Mechanostrider Crafting Materials, 2,000 Life Potion Crafting Materials, 800 Energy Potion Crafting Materials, 600 Golden Corpse Water Crafting Materials, 1,200 Blood Eye Crafting Materials!

36,000 units of pure iron and 28,000 units of steel!

500 sets of antidotes!

250 sets of Blood Cleansing Pills!

Other than that, he also bought some random materials.

He could trade all 40,000 units of meat, leaving him with a little less than 20,000 units.

Zhou Zhou looked at the materials he had bought, feeling a little emotional.

This was the disadvantage of desert territory.

He had to buy raw materials if he wanted to make something.

He could be completely self-sufficient if he was in a territory rich in resources.

However, he did not blame anyone.

He was already in a much, much better position when compared to the Lords who could not even solve their survival problems.

Zhou Zhou found Zhao Changshou again before they jointly looked for Mu Gu together to discuss the construction of the second monster ranch.

Zhao Changshou was pleasantly surprised when he knew that he was going to participate in the construction of a special building. This was left unnoticed by Zhou Zhou as he waved his right hand.

3,000 units of wood, 3,000 units of fine sand, 3,000 units of metal, 3,000 units of stone ingredients, and 1,000 units of Black Iron Mist Core appeared out of thin air.

Then, he took out an Origin Crystal and handed it to Mu Gu.

“I’ll leave the second monster ranch to Elder Zhao and you. The second monster ranch will be used to nurture the Black-tailed Fog Scorpions. I’ve left you 100 soldiers, get them to build it for you. Can Monster Ranch be built by tonight with them around?” Zhou Zhou asked.

“No problem.” Mu Gu and Zhao Changshou exchanged confirmation nods before replying to Zhou Zhou.

Its current grade would just be a little higher than Black Iron-Tier Advance Grade even though the Monster Ranch was a special building.

They were confident that it would be completed before night fell with enough manpower.

Zhou Zhou nodded and left.

...

Time passed quickly. Night gradually fell.

The scarlet fog gradually appeared in the air. However, since the surrounding Scarlet Lords had been destroyed, no new monsters were born.

Not long after, Zhou Zhou, who was shopping in the Lord’s wooden house, suddenly received a report from a soldier.

Bai Yi had already brought 50 soldiers back to the territory with information they had obtained about the surrounding environment of the territory.

**Global Lord: 100\% Drop Rate #Chapter 39 - Read
Global Lord: 100\% Drop Rate Chapter 39**

Wu Tu's Map! New Monster!

In the Lord's wooden house, the living room.

"My Lord, this is a map drawn by Wu Tu after exploring the Blazing Sun Desert today. It is a complete map of the Blazing Sun Desert area!" Bai Yi glanced at Wu Tu after giving her report.

Wu Tu looked nervous.

He walked towards Zhou Zhou and handed him the map with both hands upon hearing Bai Yi's words.

Zhou Zhou took it and immediately started studying it.

An item notification appeared in front of him.

[Area Map Name: Blazing Sun Desert Map (Current Exploration Rate: 59%)]

[Map Quality: Black Iron-Tier]

[Total area: 523 square kilometers]

[Map Introduction: This map depicts the general terrain of the Blazing Sun Desert and the related map information! It includes the area, geographical scale, desert terrain distribution, the range and location of your own territory, the coverage of desert vegetation-type resource points, the range and activity of scattered monsters, the range and location of the Scarlet Lord's territory, and the territory and location of the Lord of all races.]

"There's actually an item notification!"

"Is this acknowledged by the Supreme Will?" Zhou Zhou looked at the map even more seriously, surprised at this development.

It was a one-meter-long by half-meter-wide yellowish-brown papyrus map which depicted an irregularly long and narrow desert terrain.

It looked remarkably lifelike with very vivid markings in many places.

For example, the location of Blazing Sun City was marked with a small sun.

There were also the ruins of the Desert Fog Lizard Territory and the ruins of the Black-tailed Fog Scorpion Territory. The two places that Zhou Zhou Zhou had captured had also been marked with the simple image of the Desert Fog Lizard and the image of the Black-tailed Fog Scorpion.

In addition, Zhou Zhou also saw a specific scale in the bottom left corner of the map, as well as some marks of desert vegetation, quicksand, and scattered monsters.

Other than that, he also saw two red highlights.

One was a simple human face marked as the territory of an unfamiliar human Lord about 30 kilometers northeast of Blazing Sun City.

There was a special label beside it: There were no more than 50 people inside this territory according to a preliminary assessment!

The other was the mark of a Scarlet Lord. Its specific label was Region-level Scarlet Lord — Sandman Lord's Territory!

It was about 35 kilometers to the east of Blazing Sun City, and according to preliminary assessment, there were about 1,000 sandmen and fog monsters in it!

Zhou Zhou looked at the map in surprise.

Fear came from the unknown.

Originally, he did not know much about the overall environment of the Blazing Sun Desert.

Therefore, he subconsciously felt that his surroundings were very dangerous even though he already had thousands of soldiers.

That was why he had always gone all out because he did not want to fail miserably!

However, the rich information on this map immediately made Zhou Zhou feel much more at ease.

He even entertained the thought of trying to conquer the entire Blazing Sun Desert since he seemed to be able to take down the remaining two Lords' territories after all!

This was the importance of information!

Without the information on this map, Zhou Zhou might have had the same thoughts without the confidence!

Zhou Zhou could not help but look at Wu Tu.

What a talent!

"Nice map. I love it." Zhou Zhou said.

When Wu Tu heard this, joy immediately appeared on his originally anxious expression.

“Starting today, you’re the vice-captain of your scout team. In addition, this mechanostrider belongs to you now.” Zhou Zhou continued.

Wu Tu was stunned when he heard that. The Lord actually gave him such a huge reward for completing his first mission?

He remembered that the only other person in the territory who owned a mechanostrider was Bai Yi, who had followed Zhou Zhou from the beginning.

The others only had the right to use it. He had just become the second person after Bai Yi to own one!

When Wu Tu thought of this, he could not help but feel a little dazed.

No matter how perfectly he completed the task of drawing the map in the army previously, his higher-ups would only pay lip service without promoting him because he was still a child.

They were worried about handing over a higher position to him.

He had only joined this place for less than a day but he already obtained what he had always wanted.

It was not a higher position, nor was it a mechanostrider... But trust!

His Lordship was really different...

“You don’t have to be so surprised. I’ve seen your ability. Since it has reached the standard, I will naturally give you the corresponding reward and position so that you can unleash your ability.”

“However, even though you’re the vice-captain now, you should listen to others’ opinions when you encounter situations. Trust your teammates. They may not be as good at making maps as you are but there’s still a lot you can learn in other areas.”

“Don’t disappoint me.” Zhou Zhou smiled.

“Thank you, my Lord! Wu Tu will definitely not disappoint my Lord!” Wu Tu’s face flushed red with excitement.

“Keep working hard and you’ll have a chance to be the captain. Now, tell me in detail about these two territories.” Zhou Zhou smiled.

Wu Tu nodded excitedly.

Bai Yi smiled and took a step forward.

“Yes, My Lord. The standard ‘Unknown Human Lord’s Territory’ on this map was first discovered by us during our exploration.”

“We encountered a team of eight human soldiers with four Sword Shield Soldiers, three Spearmen, and one Bowman! They look similar to us humans. And I don’t know if I’m overthinking it but they were protecting the Bowman behind them. I feel that his speech and accent is very similar to the Lord’s.”

Zhou Zhou raised his eyebrows when he heard this.

Did they meet another Cerulean Planet Lord?

He did not say anything and continued to listen to Bai Yi.

“Subsequently, I followed them secretly and found their territory. I realized that their territory is also protected by the Novice Lord’s Protective Barrier.”

“I didn’t act rashly. I asked Wu Tu to record the location. After observing for a while, I continued to explore in the distance. That’s where we found the territory of this regional Lord, the Sandman Lord. He is a White Silver-Tier Elementary Grade Regional Scarlet Lord and he has about 1,000 Sandman under his command.”

“He is very powerful, so I didn’t approach rashly, but I did kill a lone sandman nearby and brought its corpse back. The body of the sandman is at the door now.” Bai Yi said.

“Let’s go take a look!” Zhou Zhou immediately stood up.

Bai Yi and the others naturally had no objections.

The three of them walked out of the room. Zhou Zhou quickly saw the corpse of the sandman.

Zhou Zhou was stunned at first glance.

This was because he realized that this Sandman’s corpse was very similar to the Sand Soldiers he had summoned with the Emperor of Sand’s spatial ring.

However, they did not have the standard equipment and weapons of the Sand Soldiers.

[Monster Name: Sandman]

[Strength Level: Black Iron-Tier Elementary Grade]

[Monster Description: A monster from the blazing desert, born in the scarlet fog. It was once a subject of the Emperor of the Sand. After the Emperor of the Sand fell, it was converted by the Scarlet Lord to become his subject.]

[Loot: Four Black Iron-Tier Mist Core (Drop Rate: 100%), 1 kg Dark Iron Sand Crystal (Drop Rate: 10%), one Black Iron-Tier Elementary Grade Sandification Skill Book (Drop Rate: 5%), one Black Iron-Tier Elementary Grade Sandman Summoning Skill Book (Drop Rate: 2%)

Global Lord: 100\% Drop Rate #Chapter 40 - Read Global Lord: 100\% Drop Rate Chapter 40

Building Materials, Sand Crystal! Zhou Zhou's Arrangement!

"They were once the subjects of the Sand Emperor?" Zhou Zhou looked at the sandman's corpse in surprise.

He looked at the Emperor of Sand's spatial ring on his right hand thinking that he was really fated with this Emperor of Sand.

However, when Zhou Zhou saw the drop rate of this sandman, he realized something.

This kind of monster did not drop the soldier class change certificate nor the soldier recruitment book.

"I was right. Not all monsters drop military-related items." Zhou Zhou thought.

Then, he placed his hand on the corpse.

A golden notification appeared.

[Do you want to retrieve the loot?]

"Yes!"

The next second.

[Lord Talent Hint: You have obtained these loot — four Mist Cores (Black Iron-Tier), 1 kg of Sand Crystal (Black Iron-Tier), one Sandification Skill Book (Black Iron-Tier Mist Core), one Sand Summoning Skill Book (Black Iron-Tier Elementary Grade)!]

Whoosh.

The loot dropped.

It was relatively small compared to the Desert Fog Lizard and the Black-tailed Fog Scorpion but he didn't think too much about it since there were skill books.

Zhou Zhou began to check the loots.

First, was a type of sand crystal that he had never seen before.

It was a yellow prismatic crystal the size of a fingernail. It felt cold to the touch.

[Material Name: Sand Crystal]

[Material Grade: Black Iron-Tier]

[Material Effect: Iron-grade building materials produced in the desert can be added to other building materials, increasing the defense of completed buildings by 50%, earthquake resistance by 50%, and the effect of warm buildings in winter and cool buildings in summer by one point!]

[Material Description: A special material produced in a desert environment. Incorporating it into building materials will make the building stronger and more stable. It can also stabilize the temperature in the room so that it would not be affected by the temperature change outside.]

The moment Zhou Zhou saw the material, an idea immediately occurred to him.

He had to protect the Sandman even if it was only because of the sand crystal material with its amazing construction effects!

He was even willing to build a monster ranch for the Sandman.

He had no choice, the temperature difference between day and night in the desert was huge, more than 20 degrees celsius!

If they wanted to live well in such an environment, sand crystals that could warm the room in winter and cool it in summer were simply too important to them.

As for cruelty...

He had no such concept, even though the Sandman's name had the word 'man' in it, they were essentially just desert elemental monsters condensed from the scarlet fog.

To put it bluntly, it was just a ball of fog.

The name Sandman was simply because it had similar limbs to humans.

It was not human at all.

Therefore, Zhou Zhou would not feel that he was cruel just because he killed a ball of fog.

“But I only have one Origin Crystal left. I cannot use it randomly. It might be used to upgrade the territory in the future after all. It would not be too late to build a sandman’s monster ranch when I have more Origin Crystals.” Zhou Zhou thought.

He kept the sand crystal and looked at the next item.

[Skill Name: Sand Form]

[Skill Quality: Black Iron-Tier Elementary Grade]

[Skill Description: Sandify a part of the body for 1 second. Immune to Black Iron-tier physical damage. After 1 second, the sandified part of the body will return to its original state.

Zhou Zhou nodded after reading it.

It could make a part of his body invincible for a second! That sounded like a pretty slick skill.

The only pity was that he was immune to Black Iron-tier physical damage for only one second. The upper limit was a little low.

Nonetheless, it was only a Black Iron-Tier Elementary Grade skill after all.

Zhou Zhou could not ask for too much.

He learned directly.

Then, he looked at the next skill.

[Skill Name: Summon Sandman]

[Skill Quality: Black Iron-Tier Elementary Grade]

[Skill Description: Summoning-type skill. Controls the sand element and condenses a Black Iron-Tier Elementary Grade Sandman that completely obeys your orders and has simple intelligence to fight for you.]

Zhou Zhou shook his head.

It was a pity.

The effect of Black Iron-Tier Elementary Grade skill was indeed average.

This skill could only summon one sandman. His ring allowed him to summon more advanced sand soldiers!

Moreover, as long as he had enough mental strength, he could summon an unlimited number of them!

The difference between the two was obvious.

However, Zhou Zhou still lapped it up.

In any case, there was no harm in having more skills!

Moreover, after learning it, this skill would be considered his ability.

It could be used without the help of external objects like the ring so he could use it without worry.

He put away the loot and returned to the Lord's wooden house.

Zhou Zhou pondered for some time before he looked up at Bai Yi.

"Tomorrow morning, arrange for 20 members of the scout team to monitor the territory of that unfamiliar human lord!"

"Try to confirm the existence of their Lord. If you find anyone coming out of their territory, arrest them immediately and inform me!"

"Yes, my Lord!" Bai Yi said respectfully.

Zhou Zhou looked at Wu Tu again.

"Tomorrow, I will assign you a Green Bronze-Tier Elementary Grade soldier to guard your scout team. Your mission is to investigate the environment outside the Blazing Sun Desert. It's best if you can make a map. If you discover an area where there are local forces, such as the territory of the Aurora Kingdom... Focus on that area immediately. Let's try to investigate the situation there first!" Zhou Zhou was still thinking about Ling'er's lucky situation.

If only he could also encounter a local faction and obtain a large number of jobless subjects like Ling'er!

Then the Sword Shield Soldier Class Change Certificate and Poison Crossbow Soldier Class Change Certificate that he had been holding on to would come in useful.

At that time, his troops would welcome an unprecedented increase!

“Yes, my Lord!” Wu Tu agreed excitedly.

...

Bai Yi and Wu Tu left.

Zhang Cang, who had cleared the monsters nearby and returned, also came over to report the results from his team.

After half a day, they had killed a total of 132 Desert Fog Lizards and 66 Black-tailed Fog Scorpions!

These monsters were all scattered throughout the entire Blazing Sun Desert.

They only found so many after searching for more than half a day.

Zhou Zhou handed the map that Wu Tu had given him to Zhang Cang.

“Make a copy of this map and return it to me. Tomorrow, follow the distribution of the monsters here and find and clean them up. We don’t need any other monsters other than our domesticated monsters.” Zhou Zhou said.

“Yes, my Lord!” Zhang Cang held the map as if it was a treasure.

With this map, they did not need to look for monsters like headless flies.

Then, Zhou Zhou followed Zhang Cang to retrieve the loot.

Half an hour later, all the loot had been extracted.

Among the 198 monster carcasses, there were 128 Black Iron-Tier Elementary Grade Iron, 46 Black Iron-Tier Intermediate Grade, and 24 Black Iron-Tier Advance Grade corpses!

After extracting the loots, he obtained a total of 632 Black Iron-Tier Mist Cores, 6,800 units of flesh (Black Iron-Tier Elementary, Intermediate and Advance Grade), 299 kg water bag, 66 portions of Black-tailed Fog Scorpion’s poison sacs! (Black Iron-Tier Elementary, Intermediate and Advance Grade), 66 bottles of antidotes! (Black Iron-Tier Elementary, Intermediate and Advance Grade), 113 Sword Shield Soldier Class Change Certificates! 39 Sword Shield Soldier Recruitment Books, 99 Poison Crossbowmen Class Change Certificates! 31 Poison Crossbowmen Recruitment Books, six Black Scorpion Poison Crossbows, 18 Black Iron-Tier Advance Grade “Sand Stealth” books and six Black Iron-Tier Advance Grade “Antidote” formulas!

After Zhou Zhou put away the loot, he went to the Gate of Summoning and used the recruitment books he had just obtained to summon 39 Sword Shield Soldiers and 31 poison crossbow soldiers. He also asked them to report to Bai Yi.

Now, he had 1,108 soldiers under him!

At this moment, Zhao Changshou walked over from afar and arrived in front of Zhou Zhou.

“I’ve something to report, my Lord! The second monster ranch is complete!” There was a happy smile on his face.

He participated in the construction of this special building and felt that he had benefited greatly! He could vaguely feel that he was going to become a White Platinum-Tier Advance Grade architect soon.

“Let’s go take a look.” Zhou Zhou immediately said.

Zhao Changshou smiled and nodded as the two of them walked towards the new monster ranch.
