

Global Lord: 100\% Drop Rate #Chapter 6 - Read Global Lord: 100\% Drop Rate Chapter 6

Mental Manipulation! Elementary Grade Mental Potential!

Zhou Zhou's heart sank. It was really from another Myriad Realm Lord!

However, he felt slightly relieved when he looked at his soldiers.

Fortunately, his forces were not weak either!

Zhou Zhou thought for a while and looked at Bai Yi.

"What do you think of their combat ability?" He asked.

"I feel that the close combat ability of the people of this foreign race is very ordinary. They seem to be controlling the Desert Fog Lizards to deal with other Desert Fog Lizards from afar."

"This method is strange but we have a huge numerical advantage. I feel that we have a high chance of winning against them!" Bai Yi immediately understood her Lord's thoughts and replied without hesitation.

Zhou Zhou nodded, feeling a little more confident.

I can't underestimate myself! I have 46 combatants!

He reminded himself.

He felt that his combat strength was definitely one of the best among all the Cerulean Planet Lords.

The other party might be an unfamiliar foreign race, but they seemed to be physically weak and have considerable limitations on their mental abilities. It shouldn't be a problem for them to deal with these foreign races.

"Get ready. Tomorrow, we'll search for the territory of this foreign race! Then find an opportunity to lure them out and destroy them!"

"There's more. In a moment, the scarlet fog will descend completely. More fog monsters will appear from the scarlet fog. You guys stay in the protective barrier and take turns killing them! Leave the corpses for me to deal with!" Zhou Zhou said.

How could he let someone else snore beside him on the couch?

This battle was destined to happen since they were in neighboring territory! He chose to strike first!

“Yes, my Lord!” Bai Yi left with the other 45 Sword Shield Soldiers.

Zhou Zhou placed his hand on the corpse.

A golden notification appeared.

[Do you want to retrieve the loot?]

“Yes!” Zhou Zhou said.

[Lord Talent Notification: You have obtained the following loots — two units of Mist Core (Black Iron-Tier), one Racial Enhancement Skill Book — Mental Manipulation (Enhanceable), and a Racial Talent Sphere (White Platinum-Tier Advance Grade)!]

Zhou Zhou returned to the Lord’s wooden house with these loots.

A white rectangular stone tablet with the word “Territory” written on it appeared in his wooden house, showing a stark contrast to his simple furnishing.

[Name: Territory Stone Tablet]

[Territory: Blazing Sun City]

[Level: Black Iron-Tier Elementary Grade]

[Durability: 1000/1000]

[Introduction: The base of the Lord with a Territory Token stored inside. If any living being other than the Lord captures the Territory Token, the territory will be considered to be destroyed. The owner of the token will automatically lose his status as the Lord!]

[Current Lord: Lord of The Blazing Sun]

Zhou Zhou had already seen it before, so he took one look before turning his attention to the loots he had just obtained.

Firstly, it was the Racial Skill Book that had a 0.01% chance of dropping.

[Race Skill Name: Mental Manipulation]

[Skill Quality: Enhanceable]

[Skill Description: Power to invade the consciousness of other living beings and enslave the other party for a short period of time. The level and duration of enslavement depends on the user's Mental Power.]

“This should be the method those foreign races used to control the Desert Fog Lizards.” Zhou Zhou guessed in his heart.

He chose to learn it directly. After mastering it, he realized that there was a hidden power between his glabella.

He could not feel it in the past. Now, not only could he feel it, but he could also control it to enslave others.

“So this is what it means to be enhanceable.”

“I can only control creatures of the same tier as me. If my mental strength is at the Black Iron-Tier, I can control creatures of the Black Iron-Tier. If my mental strength is higher, I'll be able to control creatures of the same tier. That's why it doesn't have a fixed rating.” Zhou Zhou came to a realization.

Then, he looked at the loot that had a 0.0001% chance of dropping!

A White Platinum-Tier Advance Grade Racial Talent Sphere!

[Treasure Name: Racial Talent Sphere – Elementary Grade Mental Potential]

[Treasure Grade: White Platinum-Tier Advance Grade]

[Treasure Effect: After using it, you can greatly increase your current mental strength and obtain Elementary Grade Mental Potential Talent. This talent can allow your Mental Potential to far exceed ordinary living beings. Every time you make a breakthrough in mental strength, you can always obtain a higher upper limit of mental strength.]

[Treasure Description: The Carora Race's racial talent. You will possess the racial talent of the race after using it.]

[Remarks: This talent breakthrough will last until you break through to the White Platinum-Tier Advance Grade.]

Zhou Zhou gasped.

He roughly knew how precious treasures at the White Platinum-Tier Advance Grade were.

According to the facts he learnt from the chef couple, most of the human potential in the High Continent was at the Black Iron, Green Bronze, and White Silver-Tiers!

Yellow Gold-Tier humans could already be considered top talents!

A White Platinum-Tier human could basically be said to be at the pinnacle of the human race!

Which meant...

This White Platinum-Tier Advance Grade Racial Talent Sphere alone could create a top talent of the human race!

“No wonder my Lord Talent is defined as Legendary-Tier. The range of items that can be dropped is too wide. Even racial talents could be dropped.”

“Does that mean... If I kill more foreign creatures and absorb their racial talents... I can completely make myself into a terrifying existence that combines the talents of all races in the myriad worlds! I might even be able to build a terrifying army!” The more Zhou Zhou thought about it, the more he felt that his Lord’s talent was too strong.

He even felt that his talent could be considered a Mythical-Tier talent. He did not understand why it was only at Legendary-Tier.

After a while, he came back to his senses and used this Racial Talent Sphere without hesitation.

Zhou Zhou felt the spiritual power between his glabella begin to increase at an astonishing speed. This surge in mental strength slowly stopped and finally stabilized only after some time.

He opened his personal information and looked at his Race Talent column.

The information in this column has changed.

[Race Talent: Elementary Grade Mental Potential (White Platinum-Tier Advance Grade)]

Zhou Zhou closed the Lord’s personal information in satisfaction.

After that, he did not immediately try to use his enhanced mental power. Instead, he sorted out the remaining gains.

He quickly tidied up the rest of the kills. Bai Yi and the others had killed an additional 78 Desert Fog Lizards today other than the Desert Fog Lizards they had killed previously,

Among them, there were 42 Black Iron-Tier Elementary Grade, 35 Black Iron-Tier Intermediate Grade, and one Black Iron-Tier Advance Grade!

A total of 35 Black Iron-Tier Intermediate Grade Sword Shield Soldier Recruitment Books and one Black Iron-Tier Advance Grade Sword Shield Soldier Recruitment Book!

These had become the 36 Sword Shield Soldiers following behind Bai Yi!

There were also 78 Class Change Certificates for Sword Shield Soldiers. They were temporarily useless since there were no subjects without a profession.

Lastly, there were 232 units of Black Iron-Tier Mist Core, 2,340 units of Desert Fog Lizard flesh (Black Iron-Tier Elementary, Intermediate and Advance Grade), 147 kg of water bags, and a Black Iron-Tier Advance Grade skill book, Desert Stealth!

“I can try to upgrade my territory now.” Zhou Zhou looked at these resources and thought to himself.

...
