

100 Million 811

Chapter 811 - 811 Is There Anything Easier Than Making Money?

811 Is There Anything Easier Than Making Money?

Ye Feng did not have to wait too long, Li Rui's 260 million was soon transferred into his account.

Then, Li Rui walked over with a dark expression. "I've already transferred the money to you. I, Li Rui, always keep my word and will never go back on my word. I was careless today, but it doesn't mean that you're stronger than me. One day, I'll defeat you with my own hands."

Ye Feng saw that this guy was still showing off his character, he sneered: "It seems like you are not convinced. Why don't we have another round? Triple this time?"

Li Rui's face twitched a few times. He was just saying that to regain some face in front of his fans. Who knew that this fellow would not give him any face at all and actually tear him down in public?

He had just lost 260 million. Only a madman would continue to bet with him. He immediately snorted and turned around to leave.

After he left, many people from the jewelry companies came forward and suggested to purchase Ye Feng's raw stones.

This was exactly what Ye Feng wanted. He could not take away so many raw gemstones.

He immediately found the strongest merchant who could pay on the spot and sold all the raw stones.

Xu Jingxin's account had an additional 50 million yuan, while he had an additional 130 million yuan.

In just one morning, he had nearly 400 million yuan in his account.

Even Xu Jingxin had also earned 150 million yuan. No matter how calm she was, she was overjoyed.

"Jingxin, can I discuss something with you?" Ye Feng looked at Xu Jingxin with ill intentions.

"If it's about money, forget it." Xu Jingxin was smart enough to know that he was up to no good just by looking at him.

"Uh... It's indeed about money. Look, you're a girl. It's useless for you to have so much money. Why don't you lend it to me first? I'll calculate the interest for you..."

Before he could finish, Miss Xu's little head was already shaking like a rattle-drum. "No, I need money."

Ye Feng did not give up. He continued to persuade her: "Aren't you usually quite thrifty? 10 million is more than enough. Lend me the rest."

Xu Jingxin turned her head away. "It's useful anyway. Just give up."

Ye Feng was just joking with her. Even if he was short of money, he would not use a woman's money.

Xu Jingxin turned around and looked at him. She could not bear to see him. "You... What are you trying to do? Why do you suddenly need so much money? If you really need it urgently, I..."

Ye Feng hurriedly interrupted her, "I was just joking with you, who am I? To me, is there anything easier than making money? Would you care about your money?"

There were still many people around who had not dispersed. After hearing his words, they really wanted to hit him.

As the old saying goes, money is hard to earn, but sh*t tastes bad.

To them, there was nothing more difficult than earning money.

However, this guy said that it was easy to earn money. He didn't even care about 150 million. This was too much.

Xu Jingxin did not say anything else. In fact, she knew very well that this money was given to her by Ye Feng for free.

Although she had indeed spent money to buy the raw stones, she had only paid less than 1 million yuan, which was almost negligible.

She didn't treat the money as her own. She was just keeping it for him temporarily.

She felt that Ye Feng was a spendthrift. He needed someone to take care of the money for him. In case he needed it urgently in the future, he would not be too poor.

Perhaps she did not realize that she had unknowingly brought herself into the role of a 'housekeeper.'

Because the competition had ended, the people who had been watching the show dispersed.

But there were still some people who did not leave. They were all looking at Ye Feng. They probably wanted to follow him and see if they could get some 'soup' to drink.

Ye Feng did not bother about them. He immediately brought Xu Jingxin and left the quarry.

At this moment, he suddenly saw a middle-aged man walking quickly toward him. "Hello, Master Ye. I'm Huang Wei, the manager of Songshan Capital's Purchasing Department. Can I get to know you?"

As he spoke, he handed over a business card.

Ye Feng took the name card and glanced at it, looking at him in confusion: "What do you need?"

"It's like this," Huang Wei immediately explained. "I'm here today to purchase jade from our boss, but raw stones are too risky. We don't dare to buy them rashly. I was lucky enough to witness Master Ye's elegance just now. Your strength is really extraordinary. All 20 raw gemstones actually rose greatly. It's amazing..."

Ye Feng interrupted his flattery and immediately asked: "You want me to help you pick raw stones?"

Huang Wei hurriedly nodded. "That's right. If Master Ye can lend a hand, we'll definitely be able to be like a tiger with wings this time and win the battle..."

Ye Feng interrupted him again. "It's not impossible for me to help you pick raw stones, what benefits can you give me?"

Huang Wei was stunned. "Benefits?"

Ye Feng's lips curled into a smile. "I have no relationship with your Songshan Capital, of course we have to talk business. Even if you hire a troupe to perform, you still have to pay them an appearance fee, right? You can't ask me to help you pick raw stones without paying a single cent, right?"

Huang Wei hesitated for a moment. "How about this? Songshan Capital will pay for the raw stones. You only need to help pick them out. You don't have to bear any risks. When all the raw gemstones are cut, we will give you a 10% commission based on the value of the jade. This should be very sincere, right?"

When Ye Feng heard his words, he laughed. "Mr. Huang, do you think I'm a fool? Then why don't I just buy the raw stone myself and cut it myself? Why must I work for you for nothing to earn that 10% commission?"

Even Ye Feng's new fans could not help but mock him.

"What wishful thinking. You don't want to pay at all and still want Master Ye to work for you for free?"

"To put it bluntly, this Songshan Capital is trying to get something for nothing. Do they really think Master Ye is a fool?"

"That's right. If Master Ye has such ability, why doesn't he buy the raw stones himself? Must we go through your Songshan Capital?"

"This Songshan Capital is really shameless..."

Huang Wei was mocked by everyone, but he did not leave.

He also knew that his conditions were ridiculous. Ye Feng had the ability to choose raw stones and did not lack the funds to buy them. Why should they interfere?

However, he was only the manager of the Purchasing Department. His authority was limited, and he did not dare to make too much promise to the other party.

“Master Ye, I came with our boss today. As long as I perform well today, I’ll definitely be promoted and get a raise. In the future, I’ll have more say in Songshan Capital. You should be able to understand this, right?”

He sorted out his thoughts and spoke frankly.

“???”

“What does your promotion and raise have to do with me?” Ye Feng did not hide the mockery on his face.

Chapter 812 - 812 I'll Let You Be Pleased For A Moment, Just A Moment

812 I'll Let You Be Pleased For A Moment, Just A Moment

“Of course it has something to do with me. As long as you help me today, I’ll owe you a big favor. If you have any financial needs in the future, feel free to look for me. I will do my best to help you,” Huang Wei continued to persuade him.

“Oh? I do need funds recently. How much can you provide?” Ye Feng immediately became interested.

Huang Wei hesitated for a moment. “If I make a great contribution today, I might be promoted to the director of the Purchasing Department. I can completely independently lead investments of less than 500 million yuan...”

When Ye Feng heard this, he was disappointed. “500 million? Forget it then. You can keep it for yourself.”

Huang Wei was anxious. “How much do you need? If it’s any more, you might need the approval of the Board of Directors.”

Ye Feng immediately stretched out five fingers. “If you can provide me with an investment of 5 billion, I might consider it.”

Huang Wei immediately widened his eyes in shock. “How much? 5 billion? How is this possible? The Board of Directors will never approve it.”

Ye Feng could not be bothered to talk nonsense with him. “Then you can come to me when your Board of Directors approves it. Trying to get something for nothing? You are not qualified.”

However, Huang Wei did not give up. He hurriedly stood in front of him and said, “Master Ye, please help me this time. This opportunity is really very important to me.”

Ye Feng was already a little unhappy. “Whether this opportunity is important to you or not, it has nothing to do with me. Stop pestering me. Otherwise, I won’t be polite to you.”

He pushed him away and left with Xu Jingxin.

Huang Wei looked at his departing back with a gloomy expression, as if he still hadn’t given up.

Xu Jingxin saw that Ye Feng was a little depressed, she immediately smiled and asked: “Where are we going next?”

Ye Feng looked around the entire gambling area. “There are no good items here for the time being, the remaining few pieces can be left for others to pick up. Let’s go to the semi-gambling area to take a look.”

Xu Jingxin nodded obediently and did not say anything else.

The materials in the semi-gambling area had their windows open, so the water inside the materials was already exposed a little. Therefore, the price of the raw stones was much higher than that in the entire gambling area.

However, there was a risk in using half-baked materials. It was possible that the part where the window was opened was good for planting water, but once it was completely cut open, it was very likely that the inside would collapse.

After the battle with Li Rui, Ye Feng's name had spread throughout the entire place. When they saw him walking over, all the stall owners greeted him warmly.

Behind him, there were many people who probably wanted to follow him to pick up the loot.

Ye Feng strolled around for a while and immediately locked onto a piece of material at a stall. He was about to buy it.

At this moment, he suddenly saw a sneaky figure in the crowd behind him.

It was Huang Wei from Songshan Capital.

He immediately guessed the other party's thoughts. He probably wanted to wait for him to make a move and take the opportunity to intercept him, right?

When he thought of this, a cold smile appeared on his face.

'You want to stop me? Then I'll let you intercept as much as you want.'

"Boss, how much is this material?"

He walked to a stall and casually picked up a piece of cloth to look at.

“500,000.” The boss immediately gave a price.

Ye Feng looked at the performance of the material, the part where the window was opened showed a glutinous seed, but it was only less than a centimeter. It was completely white inside.

This kind of material was not even worth 50,000 yuan, let alone 500,000 yuan.

“Alright, I want this piece of material.”

He deliberately said it loudly, and there was an uncontrollable joy on his face, as if he had picked up a treasure.

As expected, Huang Wei quickly walked out when he heard this. “Boss, I want this piece of material.”

The boss immediately shook his head. “Mr. Ye already wants this piece of material. You can look at the others.”

However, Huang Wei refused flatly. “No, I want this piece of material. I can pay more. 600,000.”

The boss hesitated. "This..."

Ye Feng was also 'anxious'. He also added, "I'll pay 700,000."

"800,000." Huang Wei saw that Ye Feng was so anxious. He was even more certain of the value of this material. He decisively increased the price.

"900,000."

"1 million."

"1.1 million."

"1.2 million..."

In the end, Huang Wei bought the material for 1.5 million.

Ye Feng glared at him in a 'flustered and exasperated' manner. "What exactly do you want?"

Huang Wei had a faint smile on his face. "I'm buying raw gemstones. These raw gemstones don't have Master Ye's name on them. Why can't I buy them?"

When Ye Feng heard his shameless words, he was so 'angry' that he could not speak. He walked to the other stalls angrily.

Huang Wei followed behind him with a smug expression.

With him as a role model, the other people's thoughts also became active. This was also a move!

Thus, it saved Ye Feng the trouble of 'luring them into the pit'. As long as he took a fancy to any raw gemstone, he only needed to make the first move and the others would rush forward to bid for it.

It was like throwing a handful of bait into a pond, and a school of carps would fight over it.

After all, Huang Wei held the financial power of Songshan Capital and had a huge advantage in terms of funds. Most of the raw stones fell into his hands.

In just a short period of time, he had spent nearly 50 million yuan just on buying raw gemstones.

He had accumulated nearly 20 raw gemstones.

He felt that this result was enough for him to report back, so he did not join in the fun.

“Thank you for your help, Master Ye, hahaha...”

He gave Ye Feng a smug smile. It seemed like he was mocking him.

It was as if he was saying that he didn't want the 10% commission that he had given him, and now he was asking him to pay for it?

Ye Feng looked at his back as he left. A strange smile appeared on his face.

I'll let you be smug for a while. Yes, just a while.

Chapter 813 - 813 You Can't Joke About This Kind of Thing

813 You Can't Joke About This Kind of Thing

There were many resting areas set up for the Stone Gambling Convention for the tired guests to rest.

Huang Wei carefully pushed open the door to a private lounge. The rent for this kind of lounge was very expensive, about 10,000 yuan per hour. It was not something that ordinary people could afford.

At this moment, a group of senior executives of Songshan Capital were sitting in the resting room.

Sitting in the middle was a middle-aged man in his fifties. He had a handsome square face and a well-tailored black suit. He exuded an elegant aura.

This person was the boss of Songshan Capital, Li Shikai.

Huang Wei carefully walked behind Li Shikai. "President Li, I have something to report to you."

Li Shikai was talking to a few higher-ups about purchasing raw stones. When he heard his words, he immediately turned around and looked at him. "It's Manager Huang. What's the matter?"

When Huang Wei faced this person, he subconsciously wanted to kneel down and lick his boots. "I just went to purchase a batch of raw stones. Because of the time constraint, I took the initiative to divert 50 million..."

Li Shikai immediately frowned. According to the company's regulations, Huang Wei was not qualified to use such a large amount of funds without approval.

When Huang Wei saw him frown, his heart skipped a beat. "Don't worry, President Li. I guarantee that this batch of raw stones will definitely increase in price. A conservative estimate... At least ten times the return."

Actually, he was already restraining himself by saying 'ten times.' The materials that Ye Feng had given out earlier were all a hundred or even a thousand times more valuable.

As soon as he said this, the meeting room immediately exploded.

“Manager Huang, are you right? A tenfold return? Are you kidding me?”

“That’s right. Even the most powerful stone gambling master wouldn’t dare to boast like this. What right do you have?”

“You embezzled such a large amount of funds without telling us. If an accident happens, can you bear the responsibility?”

“Manager Huang, aren’t you being a little careless? This kind of thing can’t be casually joked about.”

A group of higher-ups immediately questioned his words.

Huang Wei straightened his back unconsciously when he saw their inexperienced looks.

“Since I dare to say such words in front of President Li, of course I have confidence. If you don’t believe me, I can make a military pledge. If the material this time can’t be higher than ten times, not only will I resign, but I’ll also bear the losses caused to the company.”

When everyone heard that he actually dared to make a military pledge, they felt even more incredulous.

Even Li Shikai was puzzled. “Manager Huang, where did you get this confidence from?”

Huang Wei immediately told him about how Ye Feng had displayed his might at the quarry.

Everyone exclaimed in amazement.

“There’s actually such a powerful stone gambling master? Why haven’t I heard of it before?”

“You opened twenty raw gemstones in a row, and each of them increased in value? Manager Huang, isn’t this too exaggerated?”

“Didn’t Manager Huang say it just now? At that time, many people were watching the quarry. This kind of thing could be found out easily. Manager Huang would not lie.”

“That’s true. However, this is too unbelievable...”

Just as everyone was amazed, Li Shikai continued to ask, “This Master Ye is indeed powerful, but what does this have to do with you embezzling funds?”

Huang Wei rolled his eyes. “At that time, Master Ye was about to leave after cutting the stone, so I went up to persuade him and promised to give him 20% of the commission. In the end, he agreed to help me choose the raw stone...”

Li Shikai finally couldn't sit still anymore. “You're saying that these raw gemstones were all picked by Master Ye for you?”

Huang Wei nodded without blushing. “That's right. I've also established a very good relationship with Master Ye.”

Li Shikai was immediately overjoyed. “That's great, Manager Huang. You've done a great job this time. Being able to build a good relationship with this Master Ye is more important than earning money. Forget about 20%, even 50% is worth it.”

The other higher-ups of the company were also very excited. Being able to build a good relationship with such a master of stone gambling would be of great help to their investment in the jade industry.

Huang Wei was even more overjoyed. Not only did he make a great contribution to the company this time, but he would also be promoted soon. He could also take the 20% commission. It was really killing two birds with one stone, haha...

Li Shikai couldn't hold back his excitement. "Manager Huang, why don't you take us to see the raw stones you bought?"

Huang Wei naturally had no objections. "I've already sent it to the quarry. Please follow me."

After saying that, he took the lead and walked toward the stone-cutting field.

The other higher-ups quickly followed.

The group soon arrived at the quarry and found their raw gemstones. There were more than 20 raw gemstones piled up like a small mountain.

Li Shikai and the other higher-ups each held a piece of raw gemstone as if they were looking at a gold ingot. They were all grinning from ear to ear.

"Good, this raw gemstone looks different from the others. Master's eyesight is indeed extraordinary," a higher-up praised sincerely.

"Then what are we waiting for? Hurry up and cut it open to take a look," another higher-up urged.

The others could not wait to see what kind of good material they could get.

Huang Wei immediately found a stone-cutting master to help him with the task.

The stone-cutting master had heard them talking and heard that it was the material chosen by Master Ye. He was instantly excited and immediately fixed the raw stone on the stone-cutting machine and pressed the start button.

Cha...

An ear-piercing cutting sound came from the stone cutter.

A group of higher-ups covered their ears and gathered in front of the stone-cutting machine, looking forward to it.

After a while, the first cut was finally done. The stone-cutting master stopped the machine and waited for the water vapor inside to dissipate before opening the lid.

However, Li Shikai and the others soon saw his face stiffen, as if he was a little puzzled.

“Master, how is it? Did it come out?”

Huang Wei was actually even more nervous and asked hurriedly.

The master removed the raw stone and handed it to everyone. "Take a look for yourselves."

Everyone's eyes immediately gathered on the raw gemstone, and they were instantly dumbfounded.

The raw gemstone was white and there was no green at all.

Collapsed?

The moment he saw this scene, Li Shikai's hopeful expression changed. He turned to look at Huang Wei. "Manager Huang, what's going on?"

Cold sweat immediately broke out on Huang Wei's forehead. "Maybe... we might have to go deeper..."

Li Shikai glared at him unhappily, then turned back to the master and said, "Master, cut a little deeper."

The master did as he was told. This time, he cut the raw gemstone in half, but when he took it out, it was still white.

"This piece is considered to have collapsed. Let's change to another piece." The master was no longer as enthusiastic as before.

Li Shikai and the other higher-ups looked at Huang Wei coldly, waiting for his explanation.

Chapter 814 - 814 He Must Have Set Me Up

814 He Must Have Set Me Up

Huang Wei hurriedly wiped the sweat from his forehead. "After all, stone gambling has the nature of gambling. No one can guarantee a 100% increase in the price. The next piece might increase."

He had spent more than 50 million yuan on these 20-odd raw gemstones. On average, each gemstone cost more than 2 million yuan.

In other words, he had already caused more than 2 million yuan in losses to the company.

If the next piece did not rise, it was hard to say whether he could keep his current position, let alone take credit.

Li Shikai's expression was already very ugly, but there was no other way now. "Bring me another piece."

Immediately, someone took another piece and handed it to him.

Li Shikai immediately roared at the man, "What are you doing? For Master."

The person knew that Boss Li was in a fit of anger, so he didn't dare to say anything else. He hurriedly handed the raw stone to the stone-cutting master.

Cha...

The cutting sound of the stone-cutting machine rang out again. Everyone stared at the machine, not daring to move away for a second.

At this moment, everyone saw a green light flash through the hood.

"This time!"

Huang Wei was so excited that he couldn't control himself. He immediately cried out in excitement.

The other higher-ups were also overjoyed. It seemed that they had misunderstood him just now. As long as they could increase their prices this time, they would be able to make up for the losses just now.

However, when the master took out the raw gemstone, everyone's smiles froze on their faces.

This time, there was indeed green, but it was the lowest-grade bean seed, and the texture was very rough.

The hope that had just risen in everyone's hearts was instantly shattered, and the anger that it brought intensified.

"Manager Huang, what's going on? You have to give us an explanation."

"That's right. Didn't you say that these raw gemstones were all picked out by Master Ye for you? Why did two pieces collapse in a row?"

"These two raw gemstones have caused us a loss of 5 million yuan. What else do you have to say?"

"Who knows where he found the Master? We might as well choose it ourselves."

"Maybe he and that 'Master' are working together to set us up?"

Faced with the higher-ups' agitation, Huang Wei was already panicking. This wasn't right. He had seen that Master Ye act as if he was being helped by a god, opening a piece and increasing a piece.

Why was it completely different in his hands?

Could it be that the kid had set him up?

As soon as this thought appeared, he immediately felt a chill run down his spine.

If that were really the case, then he was dead meat this time!

At this moment, Li Shikai, who had been silent, suddenly shouted, "Open the rest."

When the others heard his order, they could only follow it.

They were still holding on to their last hope. They hoped that the previous two pieces were an accident and that the remaining ones would increase in value.

However, things did not go according to their wishes. The stones that followed collapsed one by one without exception.

Only after the last piece was removed did everyone give up.

Looking at the raw gemstones on the ground... No, to be precise, it was a pile of broken stones. Everyone really wanted to cry but had no tears.

This was a whole 50 million worth of stones. It could buy a few villas, but now they had bought a pile of broken stones.

As for Huang Wei, he had already fallen into the abyss, his mind completely blank.

No matter how stupid he was, he knew that he had been tricked by Ye Feng, and it was a bottomless trap.

He embezzled more than 50 million yuan of public funds. The company could call the police.

Li Shikai closed his eyes to calm himself down, then looked at Huang Wei coldly. "Manager Huang, if you can't give me a satisfactory explanation, I will personally send you to prison."

Huang Wei felt his legs go soft and he knelt on the ground with a thud. "Director Li, I... I was also deceived. It must be that Master Ye who set me up. I... I'm innocent."

The group of higher-ups heard his explanation and started to curse at Ye Feng.

"Although Huang Wei was wrong, I feel that the so-called 'Master Ye' is even more detestable. He was clearly trying to set a trap for Manager Huang."

“I knew it. How can there be such a powerful master? Every piece could be gambled up? It’s impossible.”

“These scammers are too arrogant. They actually tricked our Songshan Capital.”

“Although Manager Huang is suspected of oversight, it can be considered an unintentional mistake, right?”

“I think so too...”

When Li Shikai heard the higher-ups speaking up for Huang Wei, he also felt that what they said made sense.

The swindler’s methods were very clever. He cut the stones in front of everyone to win everyone’s trust. Then, he would rely on this trust to set up a trap.

If he had been there, he might have been deceived as well.

Although Huang Wei embezzled public funds and the situation was very bad, he wanted to create more benefits for the company after all, so it was understandable.

On the contrary, that so-called ‘Master Ye’ was truly too hateful, and he absolutely could not let him off easily.

Just as he was thinking about how to settle the score with that Master Ye, he saw a group of people suddenly walking toward the stone-cutting field.

“Master Ye is here to cut the stone again. Who can get a machine out?”

“Master Ye had previously solved 20 pieces in a row in the entire gambling area. He didn’t lose a single piece. This time, he will definitely be able to create another glory.”

“I’m really looking forward to seeing Master Ye cut stones again.”

“Master Ye is mighty...”

Chapter 815 - 815 Dog Sh*t Luck, You Want One?

815 Dog Sh*t Luck, You Want One?

When the upper management of Songshan Capital saw Ye Feng being escorted by a group of people, they were furious.

“This kid actually dares to swindle? We have to expose his true colors.”

“That’s right. Not only do we have to recover our losses, but we also have to prevent more people from being deceived.”

“A clown like this can actually be praised as a master? It’s really too funny.”

“Let’s go and settle the score with him...”

Everyone wanted to find trouble with Ye Feng.

Huang Wei’s face turned pale. He had pushed all the blame onto Ye Feng just now to avoid responsibility.

If these leaders went to confront Ye Feng, he might be exposed.

At this moment, Li Shikai suddenly reached out and stopped everyone. “Wait a minute.”

Everyone looked at him in confusion.

Li Shikai frowned and thought for a moment. “Let’s wait and see. Let’s see if this kid is really capable or if he’s just an empty name.”

Only then did everyone suppress their impulse. They stared at Ye Feng unkindly.

Ye Feng naturally noticed them, especially the pale Huang Wei. He found it funny.

A group of people came to the stone-cutting machine. Without his order, someone immediately volunteered to help him cut the stone.

As the materials in the semi-gambling area were very ordinary, there were occasionally one or two good ones. The price was also very high. In the end, he only picked three pieces of material.

After drawing a line on the raw gemstone, he did not care anymore and took Xu Jingxin to the side to drink tea.

Li Shikai and the others immediately surrounded him, wanting to see what was going on.

Especially Huang Wei. He kept praying in his heart that he would collapse this time. Otherwise, he would not be able to cover up his lie.

Perhaps his prayers were really heard by a god.

The person in charge of cutting the stone operated the machine very skillfully and quickly finished the first cut.

When the raw gemstone appeared, everyone was disappointed. "It's actually the glutinous ice type?"

The part of the material that was cut open showed a green color that was not particularly transparent. There was only glutinous ice water.

For normal players, this kind of water was actually quite good, and they could also earn a lot of money.

But toward Ye Feng, this new stone gambling master, they had high expectations. They were a little disappointed.

Li Shikai and the others were very depressed. These people's appetites were too picky.

The best material they had just gotten was only a piece of bean seed. It was far inferior to the glutinous ice seed.

However, Huang Wei was so happy that he almost jumped up.

Although the ice type was considered not bad, it really did not quite suit Master Ye's status.

This further confirmed his identity as a 'liar'. At least, that was what Boss Li and the others thought.

At this moment, someone suddenly said, "Didn't Master Ye draw a line on it? You can cut it from the other side."

Only then did everyone notice that the markings Ye Feng drew on the raw gemstone needed to be cut twice more.

The person in charge of cutting the stone did not say anything else and cut it again according to the marking.

When he took it out again, the crowd immediately erupted into exclamations.

"D*mn, this knife actually cut out red jade?"

"That slash just now was green, but this slash is actually red? Is this a dual-color?"

"There are two colors on a piece of jade? Is it fake?"

"You are too ignorant. Although this kind of jade is rare, it is not impossible. Red represents fortune, and green represents wealth. Half red and half green meant both fortune and wealth."

“There’s actually so much to be particular about? This piece of material should be very valuable, right?”

“Nonsense. Master Ye taking action, can it be that simple?”

“I actually suspected that Master Ye had failed just now? Looks like I was too naïve.”

“Master Ye will definitely not disappoint...”

Li Shikai and the others listened to the flattery of the crowd and looked at each other in surprise.

This Master Ye was really extraordinary. It was actually a piece of double-colored jade? Even if it was only the glutinous ice seed, its value was incomparable.

This Master Ye didn’t look like a liar either.

Huang Wei immediately broke out in a cold sweat, but he deliberately avoided everyone’s gaze and quickly thought of a countermeasure.

Fortunately, Li Shikai and the others were attracted by the jade and did not pay much attention to him.

“Isn’t there another slash on the marking line? Hurry up and cut it again,” Li Shikai hurriedly urged, appearing even more anxious than those fanatical fans.

The person in charge of cutting the stone didn’t say anything else and cut the stone for the third time.

When he took out the raw gemstone again, everyone present was immediately dumbfounded and speechless.

After the third cut, the middle part of the raw stone was immediately revealed, and it actually showed a faint purple color.

“It’s not a double-colored jade, but... Three colors?”

“There’s actually purple in the middle? Red, green, purple, Fu, Lu, Shou, these are the three colors!”

“It’s really tricolored jade? Isn’t this too rare?”

“A master is indeed a master. He actually got a tri-colored jade?”

“It’s already clear now. Although the size isn’t too big, it’s worth at least 10 million!”

“My god, another piece of top-grade material worth 10 million?”

The scene immediately erupted into a wave of excited exclamations. When everyone looked at Ye Feng again, it was as if they were looking at a god.

It was fine if he didn't make a move, but the moment he made a move, it was a supreme-grade material. This Master Ye was also too fierce.

The faces of Li Shikai and the others turned uglier and uglier. They turned to look at Huang Wei, wanting to hear his explanation.

Why did this Master Ye open all these kinds of supreme-grade materials, and those that he helped them pick were all a pile of broken stones?

Huang Wei was so anxious that he was wiping his sweat. “I think... Maybe... Perhaps... He should be lucky, right?”

Li Shikai immediately sneered. “You're so lucky, aren't you?”

Huang Wei was so scared that he didn't dare to speak anymore. The facts spoke louder than words. No matter how much he tried to quibble, he couldn't erase the fact that the other party had offered such a top-grade material in public.

At this moment, the other side began to cut the second piece of material.

Li Shikai glared at him. "I'll settle the score with you later."

With that, he turned to look at the stone cutter.

Chapter 816 - 816 On Par With Master Ye? Pui!

816 On Par With Master Ye? Pui!

When the second piece of material was cut out, the cheers at the scene reached a peak.

This time, it was an icy violet.

Everyone looked at the faint purple color at the opening of the raw gemstone and revealed infatuated expressions.

"Holy sh*t, this time it actually got the icy violet? Master Ye is really super divine!"

"This piece of icy violet is worth at least 20 million, right?"

“Oh my god, more than 20 million? Stone gambling is so difficult for us, but for Master Ye, it’s like picking up money.”

“I really don’t know what tricks Master Ye has? Why is it that every piece is of the highest quality?”

“This is a unique skill that people use to eat. They won’t tell you.”

“I wonder if Master Ye still accepts disciples? If you want to take in a disciple, I’ll be the first to sign up.”

“Huhu, you’re thinking too much. If Master Ye takes in a disciple, most likely people who want to be his disciple will fight to the death.”

“That’s true...”

Li Shikai and the others were still skeptical before, but when they saw the material of the icy violet, they no longer had any doubts.

To be able to obtain two pieces of top-grade materials in a row, he was definitely a master.

But why did the raw gemstones he picked for them all collapse?

Was there a need to ask? It must be that b*stard Huang Wei playing some tricks.

“Manager Huang, think about how you’re going to explain it to me later.”

Li Shikai’s face was gloomy and his voice was filled with anger.

This surprised everyone present at Songshan Capital. This President Li usually did not show his emotions on his face. There were very few things that could make him angry.

From this, it could be seen how angry he was now.

However, they could understand. It wasn’t because Huang Wei had brought huge losses to the company, but because he had almost caused them to offend Master Ye.

If Li Shikai had not stopped them, they might have gone to Ye Feng to question him.

Falling out with such a powerful master of stone gambling would make it difficult for them to walk in the jewelry industry.

This Huang Wei deserved to die!

Huang Wei felt as if he had fallen into an ice cave, and his entire body turned cold.

His mind was in a mess and he didn't know how to respond.

At this moment, the third piece of material had been cut out.

The opening of the raw gemstone had a faint red color.

“Oh my god! Icy red jade? Another ice seed? How much is this worth?”

“Looking at the size of the red jade, it should be at least 30 million yuan.”

“I really don't know what to say now. It seems like I've already been numbed by Master Ye's blow.”

“That's right. Usually, we can open materials worth 1 million yuan. It's already a high incense. Look at Master Ye. This is the difference!”

“Materials that are less than 10 million are not worth Master Ye making a move. This is the style of a master!”

“Three pieces of materials added up already exceeds 60 million. This Master Ye is really a god!”

“I’ve decided. I’ll be Master Ye’s loyal fan in the future. Whoever dares to say a bad word about Master Ye, I’ll fight to the death with him!”

“Weren’t you Li Rui’s fan before?”

“Li Rui? He could also be compared to Master Ye? Pah!”

Hearing everyone’s praise for Ye Feng, Huang Wei could not hold on any longer. He sat on the ground.

He knew that he was finished.

The lies he made up were about to be exposed, and even the heavens could not save him.

All of this was caused by his greed.

If he had not gone to intercept Ye Feng, the other party would not have deliberately set him up, and there would not have been so many things that happened after that.

But now, even if his intestines were green with regret, it was useless.

Li Shikai and the rest did not look at him. They immediately rushed toward Ye Feng. They wanted to get to know this stone gambling master.

However, there were too many people who had the same thoughts as them. There were already many people squeezing in front of them, and they could not squeeze in at all.

“Master Ye, I’m your loyal fan. Can you give me an autograph?”

“Master Ye, I’m Xu Mingzhu, the boss of Zetian Jewelry. Can I talk to you?”

“Master Ye, do you have any tips for picking raw gemstones? Can you tell me?”

“Master Ye, this is my room card. I want to discuss stone gambling techniques with you tonight...”

At the beginning, Ye Feng was still very friendly, but as more and more people gathered around, there were even people who wanted to snatch his raw gemstones.

“Enough! All of you f*cking step back. If anyone takes another step forward, don’t blame me for being rude!” he immediately shouted at the crowd.

However, not many people were listening. They were still moving forward.

At this moment, someone took advantage of the chaos to reach out to Xu Jingxin, wanting to take advantage of the situation.

Ye Feng did not say anything. He flew up and kicked his chest. That person was sent flying backward, crashing into the people behind him.

This time, the crowd quieted down. They stared at Ye Feng unhappily.

“Master Ye, how can you be like this? We’re all your fans.”

“Yeah, no matter how strong you are, you can’t beat up a fan.”

“If you want to have a lasting influence in the stone gambling circle, you have to rely on us. How can you hit someone? You must apologize today.”

“That’s right. You have to apologize to us, or we’ll stop being fans!”

“Without the support of us fans, you won’t be able to go far in the stone gambling circle.”

“Master Ye, you’re taking a narrow path...”

Ye Feng heard their threats and immediately laughed out loud.

“I, Ye Feng, have relied on my own strength to reach where I am today. When have I relied on others? You think too highly of yourselves. I don’t need any bullsh*t fans. Are you trying to kidnap me with your fan circle tricks? I think you’ve made a mistake. All of you get lost. If you dare to come over again, this person will be your end!”

Those ‘fans’ were instantly dumbfounded.

In the past, even a master of stone gambling like Li Rui had to rely on his fans to help him expand his influence in the industry.

Only in this way could he be the center of attention the moment he appeared.

This was the first time they had seen someone as unreasonable as Ye Feng. He did not care about his fans at all, and he even dared to hit and scold them.

Immediately, many people decided to stop being fans and even turned anti-fans.

However, when Li Shikai saw this scene, he was even more impressed.

This Master Ye was really a man of character. He liked him.

After the group of fans dispersed, Li Shikai walked up with a group of subordinates.

“Hello, Master Ye. I’m Li Shikai, the boss of Songshan Capital. It’s an honor to meet you.”

As he spoke, he took the initiative to extend his hand.

But Ye Feng was very arrogant. He did not shake hands with him. He only glanced at Huang Wei behind him. “Are you here to settle scores with me?”

Li Shikai was stunned. “Master Ye, what do you mean?”

Chapter 817 - 817 I Can Get Tens of Millions of Money in a Random Circle

817 I Can Get Tens of Millions of Money in a Random Circle

Ye Feng had a cold smile on his face. He pointed at Huang Wei behind him. “Your purchasing manager came to me before. He said that he wanted me to help you choose raw stones, and promised to give me a 10% commission after that...”

When Li Shikai and the others heard this, their expressions changed.

Huang Wei was indeed lying. He told them that he gave Ye Feng a 20% commission, but it became 10% for Ye Feng.

In other words, this b*stard actually wanted to take a commission?

Huang Wei was in complete despair. He didn't argue or struggle. He just stood there blankly, waiting for the judgment.

Li Shikai glared at him fiercely, then turned to look at Ye Feng. "You rejected him?"

Ye Feng sneered, "Of course I refused. I don't lack funds or skills, why should I work for Songshan Capital for free?"

His words were very rude, but Li Shikai and the others did not think there was anything wrong with it.

Just based on Master Ye's strength, he indeed had the qualifications to say such words.

Ye Feng looked at Huang Wei again. "But this person still did not give up, he kept following me sneakily. I knew that he wanted to take the opportunity to cut me off, so I deliberately picked a raw stone that performed very poorly to test it. As expected, he cut me off. Then, I might as well let him intercept as much as he wants. It can also be considered as teaching him a lesson."

Li Shikai and the others smiled bitterly after listening to his story. This lesson was too heavy. That was more than 50 million yuan.

But they did not blame Ye Feng. If it were them, if someone dared to come and steal their loot, they would also think of a way to deal with them.

The only difference was that they did not have Ye Feng's strength, and they could not easily lure the enemy into a trap.

"B*stard, you actually did such a shameless thing and even dared to come in front of me to take credit? Do you think I'm a fool?"

The more Li Shikai spoke, the angrier he became. In the end, he simply rushed up and punched Huang Wei.

The executives of Songshan Capital were dumbfounded.

President Li had always been a gentle gentleman in front of them. This was the first time he had hit someone.

On one hand, he was putting on a show for Ye Feng, and on the other hand, it also showed his anger. Thus no one dared to stop him.

Huang Wei didn't dare to fight back and could only flee like a rat.

Li Shikai usually lacked exercise, so he was out of breath after a while. He had no choice but to stop and order the executives, "This b*stard embezzled public funds without permission. This has already constituted a crime. Call the police immediately."

When Huang Wei heard this, he immediately burst into tears. "President Li, I have worked hard even if I didn't contribute. I did it for the company's interests. Please let me off this time."

A group of executives from Songshan Capital also came forward to plead for mercy.

Li Shikai hesitated for a moment and had to change his mind. "Then don't call the police for now. I'll deal with it seriously when I get back."

Although Huang Wei had avoided jail, he knew that his future was over.

All of this was because he was possessed and chose to provoke that Master Ye.

Li Shikai did not look at him again. He quickly walked in front of Ye Feng. "Master Ye, I apologize on behalf of this b*stard. All of this was his own decision. It has nothing to do with Songshan Capital."

Ye Feng nodded. "Of course, although this is the first time I have met President Li, I can see that you are magnanimous, and you are definitely not a despicable person."

Li Shikai was used to being flattered by others, so he was immune to such flattery. But now, Ye Feng was just praising him casually, but he was willing to do so.

"Master Ye is perceptive, truly admirable!"

He also flattered the other party and then changed the topic. "Our Songshan Capital has indeed wanted to enter the jewelry industry recently and want to buy a batch of high-quality raw stones. I wonder if Master Ye plans to sell these three stones?"

Ye Feng looked at the three pieces of material that had just been cut out. He immediately nodded. "As long as the price is right, I am willing to sell them."

Li Shikai hesitated for a moment and directly quoted a price. "I'm willing to pay 70 million for these three pieces of material. What do you think?"

Ye Feng raised his eyebrows. He knew that the three materials added up to about 60 million. Li Shikai had obviously bought them at a premium.

"Then I'll take advantage of President Li. These three pieces of material are yours."

When Li Shikai heard him agree, he immediately beamed. Although he spent an extra 10 million or so, it was still worth it to be able to leave a good impression on this Master Ye.

Songshan Capital moved very quickly and transferred the 70 million yuan in a short while.

Ye Feng looked at his bank account. Adding the 390 million from before, he had already earned 460 million this morning. It could be said to be a huge harvest.

Xu Jingxin, who had been quietly following beside him, could not help but feel a myriad of emotions.

To others, earning money was as difficult as ascending to the heavens.

However, to this fellow, it was as easy as flipping his hand. He could casually make a few tens of millions with just a casual round.

She had been worried that this guy would spend so much money that he might lose all his family property one day. However, looking at it now, it seemed that her worries were groundless.

With his ability to earn money, even if he really squandered all his assets one day, he could earn it back after going out for a while.

Unknowingly, when she looked at him again, her eyes unconsciously revealed a strange light.

Ye Feng naturally noticed her strange behavior. He only revealed a mischievous smile but did not expose her.

After Songshan Capital finished the inspection, he waved at Li Shikai. "Since there's no problem, I'll take my leave first."

Although Li Shikai still wanted to get close to Ye Feng, he knew that haste makes waste. He could only bid farewell respectfully.

Ye Feng directly brought Xu Jingxin toward the extreme grade area.

Chapter 818 - 818 Did a Donkey Kick Your Head?

818 Did a Donkey Kick Your Head?

The materials in the top-grade area were all top-grade materials that had been unanimously judged by countless experts. Therefore, they could not be bought directly and had to be auctioned off.

At this moment, these materials were still covered with red silk, and the contents inside could not be seen.

But through the system scan, Ye Feng had already grasped the situation of these raw gemstones.

Because he had just displayed his power in the quarry, many jewelers had already received the news. Seeing him arrive, everyone stood up respectfully to welcome him.

“Hello, Master Ye. I’m the chairman of Caiming Jewelry...”

“Hello, Master Ye. I’m the general manager of First-Grade Jiangshan Jewelry Store...”

“Hello, Master Ye...”

Everyone rushed to greet Ye Feng, like a group of fans who had just seen their idol.

As the saying goes, one should not hit a smiling person. Ye Feng could only nod at them.

Xu Jingxin, who was following behind him, was secretly shocked.

These were the most powerful jewelers in South Guangdong Province. They usually had their eyes on the top of their heads.

But now, when they faced Ye Feng, they were extremely respectful, even trying to curry favor with him.

And because she followed behind Ye Feng, she was naturally treated differently by those jewelers.

“I wonder which materials Master Ye has taken a fancy to? If you give us some information in advance, we can avoid it.”

“Yeah, we don’t dare to compete with Master Ye. It’s better to avoid it in advance.”

“The materials that Master Ye takes a fancy to must be top-grade materials. However, we definitely don’t dare to snatch them from you.”

“If anyone dares to fight with Master Ye, our Caiming Jewelry will be the first to disagree...”

Everyone was asking Ye Feng questions, they were clearly expressing their goodwill toward him.

After all, befriending such a powerful stone gambling master was much more important than obtaining two top-grade materials.

Even though Ye Feng was not afraid of competition, he was happy to spend less money. He immediately expressed his gratitude to everyone.

The atmosphere in the auction hall was originally tense, but because of his arrival, it became very harmonious.

At the same time, a middle-aged wealthy businessman sitting in a corner was watching everything coldly.

“Assistant Cao, do you know this person?” He turned to look at a slightly younger man beside him.

“I don’t know him. However, from the words of these jewelers, it seems that he is quite powerful.” That young man stared at Ye Feng for a long time before shaking his head.

“Hehe, the threshold for becoming a master in the stone gambling circle is getting lower and lower. A guy who hasn’t even grown his hair dares to call himself a master?” The middle-aged merchant immediately sneered.

“President Tang, we are foreigners after all. Since the local jewelers are so respectful to this young man, we’d better not provoke him,” Assistant Cao hurriedly reminded him.

Manzhu Jewelry was a national jewelry company with its headquarters in Shanghai. They were here to participate in the Stone Gambling Convention.

This middle-aged man was Tang Boren, the vice president of Manzhu Jewelry. He was usually very arrogant.

However, this was the territory of South Guangdong Province after all. He was afraid that Vice President Tang would cause trouble.

When Tang Boren heard his reminder, he couldn't help but sneer. "He's a master from South Guangdong Province. Can he control our Manzhu Jewelry?"

Assistant Cao immediately panicked. "President Tang, you're not really planning to make an enemy of that Master Ye, are you?"

Tang Boren glanced at Ye Feng who was chatting and laughing. He immediately revealed a sly smile. "Since these people are not competing with this kid, then it's just nice for us. I'll catch them off guard later. I might even be able to pick up a big drop."

Assistant Cao panicked even more. "President Tang, please don't be rash. Before we came here this time, President Jiang told us..."

Tang Boren didn't wait for him to finish. His face immediately darkened. "Are you trying to use President Jiang to pressure me? When a general is outside, he cannot accept the king's orders. I'll explain to President Jiang after this matter is over."

Assistant Cao saw that he was stubborn and immediately got up and walked out.

Tang Boren looked at his back and immediately snorted.

He knew that this kid must have gone to report to President Jiang, but he was too lazy to stop him. He believed that even if President Jiang knew, he would support him. After all, this could save a lot of money for the company.

But soon, Assistant Cao returned and handed him the phone. "President Jiang wants to talk to you on the phone."

Tang Boren glared at him and took the phone.

Before he could speak, he heard the President, Jiang Yan, berate him loudly, "Tang Boren, did a donkey kick your head?"

When Tang Boren faced President Jiang, his attitude immediately became much more respectful. "President Jiang, please calm down first. This is such a big matter. Is there a need to do this?"

When President Jiang heard this, he became even angrier. "Such a big deal? A few friends called me just now and told me what they saw at the Stone Gambling Convention. Do you know how powerful that Master Ye is?"

Tang Boren frowned. "No matter how powerful he is, can he control our jewelry business in Huhai?"

Jiang Yan was so angry that he couldn't speak. He continued after a while, "That Master Ye just opened twenty-three pieces of stone at the Stone Gambling Convention. None of them collapsed. All of them rose sharply and earned 460 million. Do you know what this means?"

Tang Boren couldn't sit still anymore. "I... I just arrived at the scene and haven't heard about this. Twenty-three pieces of material? How is that possible?"

Jiang Yan snorted coldly. "It's good that you know it's impossible. It's precisely because you think it's impossible that it proves how powerful Master Ye is. Which jeweler wouldn't have to worship a master of this level? You still dare to offend him?"

Tang Boren immediately broke out in cold sweat. He could be the vice president of Manzhu Jewelry, so he naturally knew the weight of a master of stone gambling.

At first, he thought that Ye Feng was just an ordinary stone gambling master, he only had some influence in the South Guangdong Province.

However, if it was really as President Jiang said, this Master Ye could actually hit the mark with 100% accuracy and turn stone into gold. This kind of strength was a little scary. Who knew how many jewelry merchants would fight to curry favor with him?

Even the jewelry merchants in Huhai still had to do things according to their wishes.

He finally realized the seriousness of the matter. He had almost made a fatal mistake and hurriedly wiped the cold sweat from his forehead.

"President Jiang, what should we do now?"

Chapter 819 - 819 This Dog Is Really Good At Licking!

819 This Dog Is Really Good At Licking!

“Put down your pride immediately and go find Master Ye. You must give him enough face and communicate with him properly. You just say, you just need to follow behind Master Ye and drink some soup. Also...”

Jiang Yan lectured Tang Boren over the phone.

Although Tang Boren felt that doing so was very embarrassing, he could only reluctantly agree in the end.

After hanging up the phone, he stood up and walked to Ye Feng. “Hello Master Ye, I am the Vice President of Manzhu Jewelry, Tang Boren. Can I get to know you?”

The jewelers who were chatting enthusiastically around Ye Feng looked at him in surprise.

Manzhu Jewelry was very famous in the country. Even in South Guangdong Province, there were many chain stores, and their strength was stronger than any of them.

Vice President Tang was also very arrogant. After arriving at the scene just now, he completely ignored everyone’s goodwill.

They did not expect that he would take the initiative to greet Ye Feng, and he was no longer as arrogant as before. Instead, he was trying to please him.

Ye Feng did not know this person, but since he took the initiative to show his goodwill, he could only nod his head in a friendly manner. "Hello, Vice President Tang."

Tang Boren saw that he didn't put on an overbearing attitude like other Masters and had a better impression of him. "I just heard about Master Ye's great deeds. It's a pity that I didn't get to witness your style with my own eyes."

Ye Feng smiled lightly. "I just casually cut a few stones, it's just petty tricks. I can't compare to Vice President Tang who has a big business."

Tang Boren also laughed heartily, "Master Ye is really too humorous. If this is all petty tricks, then our group of people don't even know petty tricks. That's too embarrassing."

The others nodded in agreement.

Tang Boren complimented him a few times before getting into the main topic. "Master Ye, our Manzhu Jewelry doesn't dare to compete with you. As long as you like the material, we will take the initiative to withdraw from the auction."

Ye Feng raised his eyebrows. "This isn't too good, right? Since it's a public auction, everyone should rely on their own abilities."

Tang Boren immediately smiled bitterly. "We know Master Ye's strength, so we made this decision. However, we have a small request that we hope Master Ye can agree to."

When the other jewelers heard this, their faces were filled with anger.

Wasn't Manzhu Jewelry too arrogant? They actually dared to make a request to Master Ye?

But Ye Feng did not get angry. He just looked at him calmly. "What request?"

"We hope that you can give priority to selling the material you finally cut to Manzhu Jewelry. Of course, we're willing to buy it at the current market price and a premium of 20%. We definitely won't let you suffer a loss."

Ye Feng had yet to express his opinion, but everyone else present had shocked expressions.

This Manzhu Jewelry was a well-known jeweler in the country, and they were very strong. Who would have thought that they would also come to lick Ye Feng's boots?

He was even willing to buy the materials Ye Feng opened at a premium of twenty percent. This twenty percent was clearly a 'meeting gift' for this Master Ye.

They could not help but secretly admire Manzhu Jewelry's boldness.

This dog was really good at licking!

Ye Feng did not promise him anything, he only smiled lightly. "We can talk about this when the time comes. I am not confident that I can pick a good material."

Tang Boren immediately laughed out loud, "If even Master Ye can't pick good material, then we have no hope haha."

The others also laughed, and the lively atmosphere returned.

At this moment, the red silk on the materials in the top-grade area was finally removed, and pieces of top-grade jade materials were presented to everyone.

Everyone was not in a hurry to look at the material. They all looked at Ye Feng.

"Master Ye pick first. You pick the rest, we'll go and take a look," Tang Boren immediately said respectfully to Ye Feng.

Ye Feng did not stand on ceremony with them. He just pretended to look at those rocks.

Actually, he already had a goal in his heart, but if he just walked over like this, it would be too shocking.

He looked very quickly. There were more than 20 pieces of materials in the top-grade section. He only took less than two minutes to finish looking through them. Then, he pointed at two of the materials. "These two will do."

Everyone had wanted to see if he had any tips for choosing raw gemstones, but they didn't expect him to just glance at each raw gemstone and walk away. They didn't see any tricks at all.

With disappointed expressions, everyone began to enter the exhibition area to take a look.

Every jeweler brought their experts and began to carefully observe the performance of each material. Other than the two pieces that Ye Feng had his eyes on, the other pieces were all surrounded by people.

Of course, there were also people who curiously went to look at the two pieces of material he picked, but they could not see what was different.

In the end, they could only conclude that Ye Feng was a master of consciousness flow.

In other words, there was no skill in choosing raw gemstones. It was completely based on one's feelings.

The organizer gave everyone more than an hour to observe before the official auction began.

An hour passed very quickly. Some merchants did not even have time to look at all the materials before the host began to go on stage.

Everyone had no choice but to return to their seats.

As the auction was about to begin, many people flocked to the top-grade area. These people were basically here to watch the show. They did not have the strength to participate in such a big-shot competition.

There were also many women who were dressed scantily. It was obvious that they were not here to gamble on stones. They were most likely here to hook up with rich men.

When they saw the youngest and most handsome Ye Feng, who was sitting in the middle of the front row, they could not help but take a few more glances.

“Who is that young man? The entire place was filled with old men, and he’s the youngest.”

“It’s fine if he’s young, but he’s also so handsome, like a big star.”

“The seats in this auction aren’t for anyone to sit on. Of course, the most powerful people will sit in the front and middle.”

“Oh my god, so he has the highest status here? That’s impossible, right?”

“I must get his number later. I’m going to sleep with this man.”

“Why don’t you take a piss and look at your plastic surgery face? Your chin is so sharp that it’s about to poke someone to death. How can he take a fancy to you?”

“You still have the cheek to talk about me? Do you dare to say that your breasts are not made?”

“Bullsh*t, I was born with it.”

“They’re both different in size, and you still dare to say that they were born?”

“Ah, I’ll kill you...”

“...”

Zhuang Xiaojiao was actually hiding in the crowd. She was happy and angry as she listened to the quarrels of a few lascivious women.

She was happy because Ye Feng's charm was recognized by everyone. It proved that she had good taste.

But she was furious because these women were too shameless. They were actually discussing how to seduce Ye Feng in public.

There were even two women who suggested that they drink him down together and then have a good time together.

'Ye Feng was not someone who was easily seduced!' She thought to herself, but when she saw Xu Jingxin sitting beside Ye Feng, chatting and laughing with him, she could not help but feel angry.

What a stinky guy who forgets friendship when he sees women!

Chapter 820 - 820 So It's Really a Big Boss!

820 So It's Really a Big Boss!

Just as everyone was making a ruckus, the auction finally began.

When the first piece of material was brought up, it was like throwing bait into a pond, immediately attracting countless people to fight for it.

The starting price of this piece of material was only 8 million, but when the hammer finally fell, it had already been auctioned for 130 million. It could be seen how intense the competition was.

The last few pieces of material were basically the same.

The jewelers' money was like a gust of wind. They opened their mouths and asked for tens of millions. The surrounding crowd exclaimed in satisfaction.

Right at this time, it was finally one of the materials that Ye Feng had his eyes on.

The starting price of this material was 6 million, and each bid could not be lower than 100,000.

The host first introduced the performance of the material, then announced the start of the auction.

However, unlike the previous rounds of auctions, no one raised their placards this time. Everyone's eyes were on the man sitting in the middle of the front row.

After a few seconds, Ye Feng raised his sign calmly. "6.1 million."

According to the situation in the previous rounds, as soon as he finished speaking, someone would immediately shout '7 million' or '8 million'.

But this time.

One second.

Two seconds.

Three seconds...

No one called out a price.

The onlookers were dumbfounded.

“What’s going on? Why isn’t anyone shouting?”

“Yeah, wasn’t the competition very intense just now? Why didn’t anyone bid this time?”

“Is it because this piece of material is not very good, so no one wants it?”

“That shouldn’t be the case. The materials that can enter the top-grade area aren’t too bad. It shouldn’t be to the point where no one wants them.”

“What else could it be? They couldn’t possibly not dare to snatch it from this young man, right?”

“I think it’s very possible...”

Just as everyone was discussing, the host on the stage had already started asking if anyone else had bid higher.

However, after asking three times, no one answered.

In the end, this piece of material was bought by Ye Feng at the starting price.

A round of applause immediately rang out, everyone who participated in the auction stood up and congratulated Ye Feng.

Ye Feng could only stand up and wave at everyone. He had the demeanor of a big boss.

Zhuang Xiaojiao looked at him from afar, her beautiful eyes full of stars.

This was her man... friend!

She felt honored to be treated respectfully by so many people.

Only then did the surrounding crowd realize that it was really a big shot!

“Oh my god, isn't this scene too spectacular? Everyone congratulated him together?”

“That's right. Just now, someone bid over 100 million, but no one stood up to congratulate him. He only bid over 6 million, but there are actually so many people congratulating him?”

“And looking at their appearance, they even have the intention of currying favor. This is a little unbelievable.”

“Who is this young man? Why don't I understand?”

These people came later. They did not see Ye Feng cutting the stone, so they were confused.

At this moment, someone who had arrived early began to explain to them.

“You guys actually don’t even know Master Ye? If you knew his battle record, you wouldn’t be confused.”

“Yeah, he opened 23 raw gemstones in a row at the quarry just now. All of them rose greatly and he made a crazy profit of 460 million.”

“This kind of ability to bet 100% is simply appalling.”

“If you were a jewelry company, wouldn’t you want to suck up to such a big shot?”

“Anyone who can cling onto such a thigh will be hugging onto a mountain of gold.”

“What is a mountain of gold? It’s called a diamond mountain, okay?”

When they talked about Ye Feng, their faces were filled with pride, as if they were the ones who had earned 460 million.

However, when the latecomers heard their explanation, they were all stunned, as if they were listening to a ghost story.

“Oh my god, all twenty-three raw gemstones in a row have increased in price? How is that possible?”

“Earned 460 million in one morning? How many bags of cosmetics would he have to buy?”

“Why are you still buying bags and cosmetics? Why don’t you just ask him to help you buy the factory?”

“Yeah, I still want him to buy me a sports car, a yacht, a private jet, and...”

“Big sister, wake up. It’s not time to sleep yet.”

Among these people, almost all the women had fallen for him. No woman could resist such a handsome young man who had both looks, age, and strength.

As for those men, they regretted not coming earlier and not seeing such a rare spectacle of stone cutting.

No matter what, they finally understood why so many jewelers present did not dare to compete with him.

Who dared to offend such a god?

After this piece of material was auctioned off, the following auction once again fell into a chaotic battle.

These jewelers did not dare to compete with Ye Feng, but it did not mean that they would be lenient to others. They would all go crazy in the end.

The price of those materials had reached new records. The most expensive piece was actually auctioned off for 280 million.

Compared to them, Ye Feng's 6 million yuan piece of material was like a free pick.

When the auction reached the second half, it was finally Ye Feng's turn to pick another material.

The host followed the procedure and went on stage to explain the details of the material.

Before she could finish speaking, someone below the stage was already impatient. "Alright, stop talking. Master Ye has taken a fancy to this piece of material. You can just announce the result directly."

The audience immediately burst into laughter, which also relaxed the tense atmosphere.

Although the outcome was already decided, the process still had to be done.

When Ye Feng added 100,000 to the starting price of 7 million, it was the same as before. No one bid.

The host was also very helpless and finally announced the fate of this piece of material.

Just like that, the two pieces of materials fell into Ye Feng's hands without a doubt, and they were sold at the lowest price.

This could be said to have created another miracle for the Stone Gambling Convention.
