

## A Bunch 121

Chapter 121: "Should I go back and ask?"?

"It's not a serious injury..." in the Yun family's villa, Old Master Yun, who had rushed back, looked at his son, who had been beaten like a pig's head, with a gloomy face. However, he still calmly listened to the doctor's diagnosis and explanation.

"Isn't this a serious injury?" Mu Xueqing pointed at Young Master Yun with an ashen face and said angrily.

It was no wonder that she was so agitated. Young Master Yun's current appearance was indeed a little miserable. Not only was his face swollen, but not a single tooth was left. Even when he was breathing, saliva and blood mixed together continuously. His gaze was unfocused, he looked as if he was being beaten until he doubted his life.

When the medical practitioner heard this, he said indifferently, "His appearance is a little miserable, but in reality, the other party acted very appropriately. His limbs, tendons, and bones did not have comminuted fractures. Although he was kicked in the lower part, it was only partially filled with blood. There is still hope for him to recover after two to three years. His face seems to have been taken care of. However, now that the surgical technology is advanced, if he is pulled to undergo plastic surgery, he will become a handsome man a year later..." "..."

"You..." Mu Xueqing stared at the medical practitioner, trembling and unable to speak.

Elder Yun said with a wry smile, "Old brother, don't gloat over our misfortune. We are currently having a headache."

"What's with the headache?" The medical practitioner rolled his eyes and sneered, "Didn't you deserve to be kicked in the face after causing such a thing?" "Let me give you a reminder. From the video and the injuries on your son's body, the other party's control over his strength is extremely exquisite. He is definitely at the transcendent level. The power behind such a young transcendent isn't something your Yun family can afford to offend. I advise you to Stop Now!"

Without waiting for the other party to reply, Elder Yun gestured for his apprentice to pick up the medicine box and took his leave.

After sending off the old doctor, Elder Yun sighed slightly. The moment he returned to the living room, Mu Xueqing looked at him with a livid expression and asked, "Father, what do you plan to do?"

Elder Yun smiled bitterly. He no longer had the intention to persuade the other party. He directly said, "If you have any thoughts, just say it."

Mu Xueqing nodded when she heard that and said coldly, "I have already informed my senior brothers and sisters on the mountain to come and help. Since the other party is the same kind of person as us, then it will be easy to deal with them. The jianghu is in the jianghu, and the imperial court can not interfere!"

Elder Yun sighed in his heart when he heard that, but he did not refute. With his daughter-in-law's temper and background, he could not stop her even if he wanted to. It was already very nice of her to come and ask him for a symbolic reason... ..

To be honest, he now regretted letting his son marry a woman from a sect. Since ancient times, it was not unreasonable for a woman to marry more than a man.

Now that things had come to this point, he could only let this crazy woman make a fuss. He hoped that her mother's family could be as tough as her temper...

..

"Aiyo, my little ancestor, what happened to you? Did you get into a fight?" As soon as they returned to the courtyard, his mother saw that brother dog was covered in bruises and her heart ached. She went up to him and asked.

"It's nothing..." brother dog curled his lips and said proudly, "The grandson who fought with me got beaten up even worse!"

"Really?" The bedridden father almost jumped up in excitement when he heard that. "You beat up that son of a B \* Tch, Wen Hao? How badly did you beat him up? Quickly tell me, father, how badly did you beat him up?"

In his heart, if his son went out with Wen Hao, it was definitely because he had a conflict with Wen Hao. In the past, his son was always bullied by others, and he did not dare to go and fight with second brother, so he could only hold it in, he didn't expect his son to do well today, and he found his way back. This made him feel a lot better after being beaten up by the old man. Just when he was about to ask for details and feel good again,. A light cough interrupted the excitement of old brother dog...

"ER... second brother? When did you come?" Old Brother Dog asked.

The Liu family's second brother rolled his eyes when he heard that and thought to himself, 'just when you said 'son of a bitch' ...'.

"Xiao Yu, the old man is calling for you."

"Oh..." the dog brother nodded and didn't say anything. He just followed the other party out of the room.

The dog brother's father silently watched his son leave. Then, he said to his wife, "Wife, do you think second brother Will Tell on Me?"

"Didn't you say that he often played tricks on You When You Were Young?" Doggie's mother glared at him and said, "Then why don't you put the bandage on first? You're going to get beaten up later anyway..."

"Hey, you snake heart madam, are you eager for the old man to beat me to death so that you can inherit my inheritance?"

"Yes, yes!" Doggie's mother rolled her eyes at him and said, "I'm waiting to inherit your inheritance and find a good gigolo to keep me..."

“Heh... you wish! !”

— —

“Xiao Yu, the older you get, the more insensible you become. Do you know who you’ve provoked this time and how much trouble you’ve brought to the Liu Family?”The second brother reprimanded Brother Dog in a low voice on the way to the living room.

Brother Dog’s face turned slightly away when he heard that. He did not intend to pay any attention to the other party at all. Among the many uncles in the family, the second uncle was the one he disliked the most. He felt that the smell was exactly the same as his son, although he had never done anything to him since he was young, with such a son, his father was most likely not a good person either.

Seeing Brother Dog’s disdainful look, a hint of gloominess flashed across second brother’s eyes. He thought to himself, could it be that what third brother said was true? Did fifth brother really have an expert guiding him behind the scenes in Ba Shu?

But on what basis? On what basis did a useless waste Qing have such a fortuitous encounter? His son was so outstanding, and it took him a lot of effort to get that old man Fang Yuanqing’s grudging recognition. What did this kid do?

With a belly full of doubt and unwillingness, the second son of the Liu family led Brother Dog all the way to the living room.

“Grandpa...”Brother Dog looked at the old man in the living room, who was resting with his eyes closed, and took the initiative to approach him.

The old man opened his eyes and looked at Brother Dog, whose face was bruised. He frowned and said, “I heard that you beat up the eldest young master of the Yun family. Why does it look like you were beaten up?”

“No More...”brother dog smugly said, “Grandpa, you didn’t see that miserable look on that grandson’s face. I guarantee that even his own mother wouldn’t recognize him!”

“What nonsense are you spouting in front of the Elders!”Second Brother immediately reprimanded.

“Shut up!”Old Man Liu glared at second brother and said, “I will deal with you after that son of yours has done a good deed!”

“Eh?”Second Brother was stunned when he heard that and stammered, “Wen... ??” ... Wen Hao? What did he do?

Old Master Liu ignored him and looked at brother dog with satisfaction and nodded, “Well played!”

Looking at the affirmation in Old Master Liu’s eyes, Brother Dog’s heart warmed and he nodded, “Eh!”

“However... When did you become so powerful? You actually beat that kid from the Yun family. Although that kid is a bastard, he is still a direct descendant of the Yun family. Who taught you this skill?”

As soon as the old man's words came out, all the elders around pricked up their ears, and they were all curious, where on earth did Liu Shiyu learn this ability?

"This... ."The dog brother also has some doubts up, until and that what bullshit cloud less to fight when he just discovered, oneself unexpectedly so mouth! ! !

The game... ... It's not a serious game...

But how should he explain it? Saying that it was developed from playing games?

Seeing brother dog hesitate, the old man smiled and said, "It's hard for you to say, so I won't force you. I also know the rules of some forces, but this old man has something to ask first. Can the forces behind you help you resolve the current situation?"

"Eh?" Brother Dog was stunned. "Is this thing not over yet?"

"Of course not..."the old man rolled his eyes. "I just received information that the wife of the Young Master Yun who was beaten by you is a direct disciple of the Yunshan sect. She has already asked for help from the sect to get back at them. She even sent a letter of Challenge!"

Brother Dog was speechless when he heard that. Sect? Direct disciple? Letter of Challenge? F \* ck, what the hell is this wuxia style excuse? Isn't the place I live in the 22nd century. Even though his father had briefly explained the Yun family and some sects to him yesterday, he still couldn't accept it now...

"Can I... Call the police?" Brother Dog asked weakly.

PFFT... The old man, who was drinking tea and waiting for his grandson to answer, spat out a mouthful of tea and glared at him unhappily. "Be Serious!"

I... . AM serious. . . . Brother Dog thought to himself.

When the old man saw him like this, he sighed and said, "Didn't the forces behind you tell you about this?"

Brother Dog hurriedly shook his head when he heard this. That Dog Lord had been lying to them from the beginning to the end, so why would he say anything to him?

When the old man saw this, he said seriously, "Ever since the bad people incident in the Tang dynasty, the imperial court and those extraordinary forces have made a rule that they have nothing to do with each other. Therefore, for a thousand years, the imperial court can not interfere in the internal disputes of extraordinary people, even now. This is the so-called jianghu matter, jianghu. If you seriously answer me, can the forces behind you help you settle this matter? "If I can't, I'll be prepared!"

"Grandpa, what do you plan to do?" Brother Dog asked in a daze.

Elder Liu said, "At most, I'll use my old face to beg the people above to protect you!"

Brother Dog looked up at the serious expression on the old man's face and felt warm in his heart. He didn't realize that the old man was such a reliable parent in the past...

He had indeed missed out on a lot of things these years...

“What are you daydreaming about? I’m asking you a question!” Third Uncle Liu Jianchao frowned and urged.

“Oh...” brother dog came back to his senses and wiped the corner of his eyes. He said in a weak voice, “. . . Really Don’t know much. How about... I go back and ask?”

Everyone:”...”

“It’s good to ask!” The old man nodded. “Do you want to call or go in person? If you go in person, I’ll ask someone to book a plane ticket for you.” He knew that in Sichuan, some immortal cave masters didn’t use their cell phones...

“That’s not necessary...” brother dog nodded embarrassedly. “Is there a high-class VIP Internet cafe nearby? It’s best if it has a private room. I’ll go online and ask!”

Old Man Liu:”...”

Chapter 122: No one can bully you if you work for me

“Yo, Brother Dog, we haven’t seen each other for two days. What are you doing?” The moment Brother Dog came online, he saw a bunch of people greeting him.

-LBrothertDog dog, do you want to move the bricks together? ]

[ pui, move the mud coal. Brother Dog is a landlord now. I’m still moving bricks with you... ]

-LBrothertDog dog, do you think it’s better to grow taro or hell melons? ]

Brother Dog patiently answered each and every one of them. Among the high-ranking Green Titans in the base, he was the most popular among the players. Emperor liver and G you were too beautiful, and they were single-player, so they were crazy about farming, however, he rarely interacted with the players, and he did not pay much attention to the requests for help from the new players. Although the little fairy was very enthusiastic, she was very clear about the points that she had. Only Brother Dog was different.

Brother Dog had a cold exterior but warm inside style. As long as others were willing to take the initiative to approach him, he would basically help those who asked for his help, in the past, when he could not exchange points, he could answer questions about the race choice of the new players, the questions about the choice of the specialized training instructor, and which specialized was better. Later on, he could exchange points, he had always been very generous when those who lacked money came to the training room to borrow points from him, which resulted in him being extremely popular.

This was actually very similar to the friends he had made in real life. Those people had also taken the initiative to contact him, so he was willing to contribute his generosity at the time, but after learning that those people really only wanted his money, he decisively cut off contact with those people.

Although the people around him in the game also wanted his help, these guys were different from those in real life. Those people in real life spent your money while secretly calling you a retard and looking down on you, because they knew that your things were not their own, they just relied on a good birth.

In Brother Dog's view, these people were very strange. They looked down on me, but on the surface, they had to flatter me in order to get money from me that they did not think was his ability. Sometimes brother dog really wanted to know, these people... ? Did they think highly of themselves in the depths of their hearts?

In the game, it was simpler. Those people sought your help because you were a big shot, because you knew how to play, and their recognition for you was sincere. At least, they recognized your height in the game.

Brother Dog liked this game very much. The game was very realistic, causing everyone to be at the starting line, but he was better than many people. The instructor in the game also said to himself that his qualifications were very good, much better than the same period, among the Ten Thousand Green Titans, he was in the top few, purely relying on himself. He felt that this place was much better than the outside world, and sometimes he even wanted to stay here forever.

But one day, when this idea became possible, Brother Dog felt a little guilty... ..

It felt very complicated...

In fact, he had suspected that this game was abnormal a long time ago, especially during the last mission. When Uncle Fang's factory appeared, he felt that something was even more wrong. After the mission came back, he was scolded by his parents for a long time. They said that he had gone missing for three days to avoid training... ..

But he was actually in the game pod. If his mother wanted to find him, why couldn't she find him. If she couldn't find him, there was only one possibility...

And that was that he wasn't in the game pod at all! !

But he didn't ask. One reason was that he felt that things were too absurd, and the other reason was that he was a little afraid... .. He was a little afraid of what he thought. In the end, it was just a ridiculous conjecture... ..

"Hey, Dog, you're finally online?" A familiar voice interrupted brother dog's recollection. Brother Dog turned around and saw that it was none other than the enemy in the game: Emperor Liver.

"Do you want to carry the bricks together?" Emperor liver grinned. He looked like a heroic big brother foreman. There was not a hint of his program ape style at all.

Brother Dog looked at him in a daze. Perhaps everyone liked this game because they had lived a different life in it?

"Why are you still moving bricks? Don't you care about the land?" Brother Dog asked curiously.

"Sigh, I only planted one kind of thing on my land. Those stupid farmers have figured it out now, but I can't stay idle. There are so many mouths waiting to eat. I Can't always eat my own money, right?" The

emperor of the liver patted his chest proudly as if he was the head of the household. "Although moving bricks costs little, I can earn some money!"

Brother Dog smiled. "That's true..."

"By the way, you don't look the same today."

"Oh?" Brother Dog was stunned. "What's different?"

"It feels... a little greener..." the liver emperor sized him up

Brother dog: "Scram..."

"Are you sure you don't want to carry the bricks together?"

"No..." the liver emperor smiled. "I have something else to do."

"Oh... . . Don't forget to share, Boy!"

"Get out of here. You talk too much..."

After waiting for the other side to walk far, the dog elder brother took a deep breath, suddenly said: "Intelligence, I want to see the Lord!"

SMART: "The Lord is waiting for you in the Lord's Room!"

Sure enough...

The dog elder brother took a breath again, with perturbed mood, walked toward the Lord Room!

-----

"Oh, my dear people, looking for your great Lord is there anything?" Seer face apprehensive dog brother, very warm asked.

"I. . ." The dog brother hesitated for a moment, finally looked up and said: "I want to ask..."

"Don't ask... . Ask is our studio is awesome, for the game's authenticity, we hired the most professional internal martial arts master to do the action guide, this will allow you to kill in reality... ."

"I haven't said anything yet... how did you know that I killed everyone in the real world?" Brother Dog said faintly.

"UH... Emmm." The Lord covered his head and finally sighed. "Sigh, if I see through it, I won't say it out loud. weren't you always like this before?"

"You've been paying attention to me?" Brother Dog asked in surprise.

"You're one of my most outstanding subjects. Of course I'll pay attention to you!" Seer said seriously.

Brother Dog was stunned. The Word 'outstanding' kept echoing in his mind... ..

No... ! ... He couldn't be moved, damn it, he was using you!

He was using... .. This useless youth of his had actually been used... .. Not because of his rich parents, not because of the Liu family, but because he was worth using...

Are you being used to represent yourself... . Maybe. ... ? . Not So Lamé?

Brother Dog looked at this in his office still wearing a helmet funny lord, eyes blurred, a sour nose, the feelings held in the heart for a long time finally could not hold back...

"I'll go... What are you crying about?"The seer was at a loss. "That "... Then, you're an adult, aren't you "... You Can't blame me if I don't see clearly when signing the contract "... "Alright, Alright. At most, I'll give you a salary later, Alright?"

"You're right..."brother dog choked.

"F \* ck..."Xi Ye's mouth twitched under his helmet. Why are these d-ball people so treacherous... ? They only know how to bully my kindness... ..

"Boss, someone from my side wants to bully me!"Brother Dog wiped his tears.

"Alright, I got it!"Xi Ye glared at him. "Don't worry, you work for my Lord. No one in this universe can bully you!"

-----

At the same time, many level 2 players in the base received a new mission notification.

Quest: Help Brother Dog get back his dignity!

Quest description: because brother dog had been wronged in the new test dungeon, he was forced to accept the challenge. This is intolerable. Now, gather all level 2 and above players to help brother dog get back his dignity, let the Yun family members who forced the marriage and the Yunshan sect behind him know how strong our brother Dog's backing is!

Quest reward: after the completion of the quest to help brother dog get back his dignity, all participants will be rewarded with 1,000 points. Defeating Yunshan sect's ordinary disciples will be rewarded with 200 points. Defeating Yunshan sect's elite disciples will be rewarded with an additional 300 points, 1,000 points for defeating Yunshan sect's elders!

Quest Requirements: 20 players will be recruited for this quest. Level requirement: 2. Melee combat and short weapon specialization will be given priority!

Quest points to note: As the new dungeon is based on the map template of Beijing in the real world... According to the official requirements: Do not destroy public buildings, do not attack people outside of the quest, do not cause a large-scale riot, and do not approach Chaoyang District... ..

[ I'm going for a new mission? And it's starting at 1,000 points? Old Wang, carry a hammer or a brick, hurry up and sign up! ]

[ disperse, disperse, rookies go carry bricks obediently, this mission has nothing to do with you. ]

[ ge Lao Zi, why does a mission to find a place have to give priority to combat expertise? ]

On the other side, the players who were very close to brother dog messaged him privately.

Grandpa Lu: F \* CK, you asked me to farm for you, but you went to play the dungeon? ! You have a bad conscience!

Emperor liver: there's actually a role-playing dungeon. I was wondering where brother dog went these two days... ? ... So You've found the dungeon again. You're so unethical, sneaking your boobs without any trouble? Say, did you find it at the newly built septic tank in the base?

The little fairy with Athlete's foot: this dungeon's plot is interesting. You even came to force the marriage. Isn't it popular to cancel the marriage at home? What? The child is already one year old? Husband and wife in name? But in reality, the wife is still being masturbated by someone else? Damn, what an explosive dungeon plot!

In the base, Brother Dog looked at the mission summary and the pile of private messages. He was so angry that his whole body was shaking.

"Boss... you..."

"Ahem..." seer coughed lightly and said, "Remember your confidentiality agreement. Don't give it away!"

"I..." Brother Dog looked like he was eating sh \* t. he looked at the pile of private messages and was speechless...

Were all the ways of being a boss so dirty?

Chapter 123: This is your backup?

The next day, a large group of guests quickly arrived at the Yun family Villa!

"Senior brother Luo, senior brother Wang, senior sister Mu Yun, you're all here?" At this moment, at the entrance of the villa, Mu Xueqing had changed from her usual haughtiness. With an amiable expression, she personally welcomed the Yunshan sect senior brothers and sisters who had come to assist her.

"Dad, let me introduce you!" Mu Xueqing said with a smile, "This is senior brother Luo Bingyun, this is senior brother Wang Lin, and this is senior sister Mu Yunji!"

At this moment, elder Yun was also at the entrance with his daughter-in-law to personally receive these Yunshan sect's elites. Looking at the groups of experts who came to support her, his initial dissatisfaction with his daughter-in-law's way of doing things immediately calmed down quite a bit.

It had to be said that although his daughter-in-law was overbearing and short-sighted, her background was indeed strong enough. With just a call, this morning, this was already the fifth group of Cloud Mountain sect disciples that came to support him.

Moreover, each of them had extraordinary strength. He could sense that among the people who came, they had all stepped into the threshold of transcendence, especially the ones in front of him. Their auras

were long and their divine light was restrained. Even he could not tell their depth. They were so young, they were not simple!

“I’m afraid these three are not ordinary disciples, right?” Elder Yun asked with a smile.

“Of course not!” Mu Xueqing said with a proud smile, “Senior brother Luo and senior brother Wang are the elders’ personal disciples, while senior sister Mu Yun is one of the sect master’s personal disciples!”

“They are indeed extraordinary!” Elder Yun said with a smile, “Although the Yunshan sect was established relatively late, it has a lot of talented people. It really has the atmosphere of a large sect. This old man is very envious. If that good-for-nothing child of mine had half of your talent, he would not have lost face this time!”

The three of them smiled humbly when they heard that, the woman called Mu Yunji cupped her hands and said with a smile, “Elder Yun is too polite. Our junior sister Mu has always been arrogant. Since she has fallen in love with your son, it means that your son must be extraordinary. It’s just that his cultivation environment is slightly backward. I believe that in time, your son will rise up to become the pillar of the Yun family!”

After a short pause, he continued, “We’ve heard from junior sister that the Liu family is plotting against your son. Elder Yun, don’t worry. This time, it’s not just us. Even junior sister Mu’s father, elder Yun Kong, has come personally. Even if the other party is standing behind Ba Shu Er Mei, we will definitely seek justice for Young Master Yun!”

“The in-laws are here?” Elder Yun was instantly pleasantly surprised.

“My father is here too?” Mu Xueqing was also delighted, and she felt more confident in her heart!

Mu Yunji smiled slightly. “Our junior sister has suffered so much. As her father-in-law, how could he not come to avenge his son-in-law?”

“Senior sister, you’re making fun of me again!” Mu Xueqing immediately acted like a little girl and said unwillingly, “When Father Comes, I’ll sue him for bullying me.”

“Who bullied my daughter?” Just as they were speaking, a loud and clear voice suddenly sounded from afar.

Everyone hurriedly turned around and saw that the person who spoke was still a few hundred meters away. However, that voice made people feel as if it was right in front of their eyes!

This kind of inner strength cultivation caused elder Yun’s heart to tremble. He raised his head and looked over, only to see a man in flowing white clothes strolling over with his hands behind his back.

That man looked to be in his early thirties at most, and his facial features were extremely handsome. This was the second time elder Yun had seen this in-law, and his heart was still in shock. It was hard to imagine that this was actually a person who was about the same age as him.

“Aiyo!” Elder Yun hurriedly went forward to welcome him. “Why didn’t the in-law tell me in advance that he was coming so that I could pick you up at the airport!”

“Hey, what’s there to pick up? It’s not like I don’t know the way!” The man waved his hand and said.

“Father!” Mu Xueqing pounced over, “This time, you must stand up for your daughter!”

The man hugged Mu Xueqing who pounced over and said with a face full of affection, “Don’t worry, since father is here, he will definitely avenge you. That child of the Liu family will definitely pay the price!”

“The in-laws must not be careless!” Elder Yun heard this and frowned, he said, “I have seen the video of my son fighting with that kid from the Liu family. That kid from the Liu family is extremely skilled. The power behind him is not simple!”

The man smiled, “The in-laws have filtered it. I have also seen the video. Admittedly, that kid from the Liu family is very skilled. But I have seen that his blood and Qi are weak and his foundation is not stable. It does not seem like he was born with an orthodox cultivation technique. He is most likely an experimental subject of the nefarious Sangha Master from the cave abodes in Ba Shu.”

“Are you sure about the in-laws?” Elder Yun quickly asked.

“Not much...”. The man smiled and waved his hand. “However, even if I’m wrong, it’s not a big deal. In the land of Ba Shu, a large sect is nothing more than Emei. Although Emei is a thousand-year-old sect with a deep foundation, it suffered a great loss in the Ming dynasty. In addition, it hasn’t been able to take up any jobs in recent years, so it has long lost its prestige. Even if this kid of the Liu family was lucky enough to enter the sect, could he still be a direct disciple of Emei? I’m going to kill one of his outer sect disciples today, is he going to make a feud with me over this?”

Looking at the confident Mu Yunkong, elder Yun sighed in his heart. He was really like his daughter.

However, if being overbearing and rude was based on strength, then no one else would be able to say anything...

Thinking of this, elder Yun could only feign excitement, cupping his hands and saying, “Then I’ll rely on my in-law this time!”

“Hey, family, don’t mention it...”

———

Meanwhile, at the gate of the Liu’s yard...

Liu also accompanied his grandson personally to meet those foreign aid, but at this time Liu and a few dogs behind the elder brother is a strange face...

The dolls in front of him were dressed to look like actors hired by Liu Shiyu at the entrance of the Peking opera. ...

“Ahem... Grandpa...” at this moment, Brother Dog also introduced them with a constipated look, “This is my senior sister Wang Goudan, this is senior sister Li Goudan, this is senior brother liver... this is...”

What was all this nonsense?

The faces of the elders of the Liu family twitched as they looked at the group of people in front of them. Some looked like students, some looked like construction site workers, and two of them had sparse hair that looked like a program ape whose kidneys were about to be depleted...

But none of them looked like experts from a sect...

"Well... good, good, good. They are really talented people, the best of the best!" Elder Liu laughed unnaturally, but when he turned his head, his voice was soft as he said to brother dog, "Kid, are you kidding us?"

"Ahem... Without Grandpa..." brother dog also felt a little guilty as he said, "They only looked a little cold, but in fact, they are very good at fighting..."

"Really..." Grandpa Liu had a look of disbelief on his face. ...

"Aiya, the big courtyard house in the capital. TSK TSK, Brother Dog, are you playing the part of a big family?"

"By the way, the model of the old capital city is so realistic. When I passed by just now, I saw the stewed restaurant that I ate at when I was traveling a few years ago. The fragrance is exactly the same as the one I smelled before."

"Really? Why don't we go over and buy some bowls later?"

"Good Idea..."

Old Master Liu's expression froze, and he said in a daze, "What are they talking about?"

"They are all things that are not worth mentioning..." brother Dog's face twitched and he joked, he clapped his hands and said, "Alright, Alright, stop fooling around. The dishes are all prepared. Everyone, enter the courtyard and take your seats. After you are full, we will set off to F \* ck that Yun Family!"

"Oh? There's still food to eat? This welfare is not bad!" Everyone immediately rushed in like wild dogs, causing the members of the Liu family to be stunned.

Liu Jianchao looked at the girl at the front, who looked like a little fairy with athlete's foot, and immediately sucked in a breath of cold air. He turned to his father and said, "Old Man... from the way she eats, she should be a martial arts practitioner..."

Old Man Liu: "..."

Chapter 124: Isn't this a little too much of a bully?

The location of the battle was set at the Grand Canyon outside the suburbs. Almost a long time ago, there had been people specifically clearing the area.

Other than the people from the Yun and Liu families, there were also some important figures from other secular families who came to watch the battle.

Among them was old master Li, who was still working in the military region. Old Master Li was originally very busy with the establishment of the extraordinary force. He had originally planned to let his eldest son come over to express his gratitude for Old Master Liu's birthday, however, when he heard that the grandson of the Liu family and the Yun family were going to have a martial arts battle, he quickly dropped everything in his hands and tried to mediate.

In the end, he was naturally unable to stop them. At this moment, he and the short old man from the Zhou family were sitting on the Liu family's side. It could be considered a gesture...

"I say, Old Liu, if such a big thing had happened, you should have told me earlier. Why did it have to be so tense?" Old Li, who was sitting beside Old Liu, could not help but complain.

"Nonsense!" Old Liu rolled his eyes and said, "This Yun Brat has already bullied us to his face, yet he still doesn't allow us to retaliate? Hey, Old Li, whose side are you on?"

The short old man, Old Zhou, also said, "That's right, that's right. These aristocratic families are even capable of forcing people to take over. Their butts are in the air. If you ask me, Shiyu is still too lenient. It's only right for him to kill that B \* Stard Kid from the Yun Family!"

Old Li laughed angrily, "Don't You F \* cking fan the flames there..."

"What? Did I say something wrong?" Old Zhou immediately said angrily.

"I can't be bothered to tell you..." Old Li sighed and then looked at elder Liu, "Old Liu, it's very difficult for me to handle this matter at this stage!"

Elder Liu was silent for a moment when he heard that, then, he said, "I know that it's difficult for you, brother. The higher-ups value the Yun family and want the Yun family to form an extraordinary force for them. But you've also seen the way the Yun family acts. They haven't even produced any results yet and they're already so arrogant and despotic. If they produce results, wouldn't It Be Heaven? "I feel that the higher-ups are lacking in consideration on this matter. Moreover, can the forces formed by a few aristocratic families be able to deal with those international extraordinary forces?"

"Things have to be done step by step..." "..." old li said faintly, "We'll first talk things through with the aristocratic families. Once we produce results and give them some benefits, those sects will naturally slowly loosen up. As long as we start everything, we'll naturally loosen up later."

"I think you guys are overthinking!" Old Liu curled his lips and said.

"Why are you overthinking?" Old Li said unwillingly, "You only know how to say disheartening words. Tell me, isn't your Shiyu an example? In the past, would those sects accept a child with an official background as their disciple?"

Old Liu was silent when he heard that.

Old Li continued, "Old Liu, listen to me. Don't act based on loyalty. You're not confident on your side today, right? "If we don't win by then, it will be difficult. I think I should bring Shiyu over to apologize. I'm putting my old face on the line to make peace. After all, the Yun family is relying on the government now. They should give me face."

"This..." Old Liu was slightly moved. If an apology could solve the problem, he was willing. After all, his grandson's senior brothers and sisters were not reliable at first glance.

"Cheh... Coward!" Elder Zhou said disdainfully.

"You Old Brat, don't you think it's a big deal?" Elder Li frowned.

Elder Zhou said disdainfully, "Didn't you read the intelligence report? This battle was mainly organized by Yunshan's people. Do you think Yunshan will give you face? Among so many sects, he, Yunshan, is the most unruly. How Big is your face? Are you sure you can talk with him?"

"Hey, you..." old Li said angrily, "Are you here to help today?"

Old Zhou said, "I'm here to help Old Liu!" Then he turned to old Liu and said, "Old Liu, it's almost time. Where are your grandsons and brothers who are here to help? Why don't I see them?"

Old Liu was silent for a while, then he looked at the slope behind him.

Seeing this, elder Zhou looked over, and then he saw a group of idlers sitting behind the slope.

He frowned and said to the guard, "Didn't I ask you to clear the area? What are you doing? Why aren't you chasing those idlers out?"

"Ahem..." elder Liu coughed lightly and said, "They are the senior brothers who came to help Shiyu."

"Huh?" Elder Zhou was stunned for a moment, then he smiled and said, "Elder Liu is good. After retiring for a few years, he has learned to be humorous!"

Elder Liu: "..."

Elder Zhou laughed a few times. When he saw elder Liu's increasingly ugly expression, he was stunned and said, "Old tie, are you joking?"

Elder Li also found it unbelievable. That group of people who gnawed on duck necks, no matter how he looked at it... They all looked like a bunch of extras...

"They're here! The people from Yunshan are here!" Just as Old Li was about to ask again, he was suddenly interrupted by a shout from the front, and he immediately looked over.

He saw a group of handsome men and beautiful women in fluttering white clothes descending from the sky above the valley. They were like snowflakes, and their movement techniques were extremely brilliant. They were just like the Qinggong in those wuxia dramas, which were pleasing to the eye.

It was the first time that old Zhou saw such a posture. As he watched the Yunshan disciples with extraordinary temperaments descend, the two old men turned their heads to look at the dusty faces on the slope and the cameos who were gnawing on the duck's neck until their mouths were full of oil. Their hearts instantly chilled...

This was more than just the difference between clouds and mud?

Old Zhou was silent for a while... He smacked his lips and said softly, "I think... What Old Li said is not unreasonable. Why don't we listen to him this time?"

Old Liu:” ...”

“Hey, the stewed soup is here, the stewed soup is here...”just as Old Liu was about to reply, he heard his main character, Liu Shiyu, running up with a big bag of takeout boxes in his left and right hands, followed by a member of the Ugly Group.

“Brother, you guys are too far away. You have to reimburse the Gas Bill!”The ugly group member complained while carrying the items.

The players immediately became lively again.

“Damn, all of you ugly guys are here. This game hasn’t even been released yet, and you’re already accepting advertisements? Sure, sure, my galaxy has a bright future!”

“Brother Dog, didn’t you say that the fight would start at two? It’s almost five o’clock. Your organization’s efficiency is average. Who Do we get for the three hours of brick time we wasted?”

[ that’s right, that’s right, Brother Dog. You still want to sell US 20 points for a box of this stewed stew. You’re not being honest! ]

“Then, are you guys going to eat it or not?”Brother Dog rolled his eyes and asked.

“Yes, yes, yes...”the players smelled the fragrance and nodded repeatedly. “SH \* t, isn’t it just 20 points? At most, we can carry the bricks for another two hours at night...”

On the other side, elder Zhou looked over and said to elder Liu in a daze, “Old Liu... did I hear the word ‘carry the bricks’ just now?”

Elder Liu’s face turned ashen. After a moment of silence, he said to Liu Shiyu, “Shiyu... come here, I have something to say to you...”

“Yunshan sect’s Liu Zifeng, may I ask who is going to step down from the stage first?”

Just as elder Liu was about to tell his grandson about the matter of old Li leading the way to apologize, in the middle of the valley, a Yunshan disciple who had appeared on the stage at some unknown point of time shouted loudly.

A few dozen meters away, the leaves beside old master Liu were trembling from the tremors. The expressions of the few elders and the guards around them immediately tensed up.

Even the few elders who were laymen could see how powerful that Yunshan disciple was, and their expressions instantly became even more unsightly. The few internal martial arts master guards behind them had looks of envy on their faces as they thought to themselves, ‘how old is he... ?’ ‘his internal breath cultivation is already far inferior to ours. Is this the difference between a sect and an unorthodox sect?’?

Elder Liu sighed and said faintly, “That... Shiyu, your uncle Li just said...”

“Which one of you will go first?”Brother Dog suddenly turned his head and asked.

“I’ll go first!”Wang Goudan fiercely took a bite of the duck leg in his hand. With a step, he instantly disappeared from the spot!

A hundred meters away, just as the Yunshan disciple was about to call for another fight, he saw a figure appear out of thin air in the arena. He was instantly stunned, and the words that he had been preparing to call for a fight were instantly stuck in his throat.

The entire arena was instantly silent...

Almost everyone was thinking the same thing: this person... .. How did he get here?

"This movement technique..." Luo Bingyun, one of the direct descendants of Yunshan, said in disbelief, "Isn't it a little too exaggerated?"

Mu Yunji also frowned and thought to herself, "This is a movement technique?"? It's a flash, right? What's going on? Could it be a secret technique?

Including the arrogant elder Mu Yunkong, his face stiffened, and the corners of his eyes couldn't help but twitch.

Other disciples might look like they came up with a flash, but he could vaguely see that the person was running up... However, his speed was a little too fast, which gave people the illusion that he had appeared in a flash.

He had the same judgment as Yunji Mu, thinking that this person must have used some kind of evil secret technique... ..

Elder Liu's people were also dumbfounded, especially the few guards, who looked as if they had seen a ghost.

To them, Wang Goudan's actions just now were no different from a ghost... ..

Brother Goudan looked at this scene and sighed in his heart. He thought to himself, isn't it a little too much of a bully to bring this gene?

Then, he seemed to have thought of something and turned to elder Liu. "Oh, right, grandfather, what did you want to say just now?"

Elder Liu was stunned, after coming back to his senses, he quickly said, "Oh... I'm talking about those senior brothers and sisters of yours who came all the way here. Why do you need to charge them for buying a pot of stewed meat? Also, how can that little thing be enough to eat? Quickly get someone to send some more!"

"That's right, that's right!" When the emperor of liver heard this, he immediately replied, "Old man, you're still sensible. Little Dog just doesn't know how to behave... Go, go, go. I want two more boxes. Put more chillies in them!"

The corners of Brother Dog's mouth curled as he thought to himself, 'Dear Grandpa, do you know that I lost a few thousand points with your words?'

Chapter 125: This NPC is really weak and creative

“Sir... which sect do you belong to? How should I address you?”The Yunshan sect disciple on the stage was stunned for a few seconds before he hurriedly cupped his hands and asked. His voice was much weaker than before, and it was clearly much weaker than the energetic voice from before.

“Big Green Bird of the north: Wang Goudan!”

Everyone:”...”

“Why aren’t you from Shandong Lan Xiang?”The Disciple’s face was ashen as he asked.

“Heh, you’re an NPC dressed in ancient clothes, and you actually know this joke...”Wang Goudan curled his lips and said, “You talk so much nonsense, are you going to fight or not?”

“You...”that person saw that he was being looked down upon so much., his heart was also annoyed, but he did not dare to make a move for a long time. The main reason was that the opponent’s movement technique was really too strange. In addition, his aura was so arrogant, which made him even more uncertain of the opponent’s level. He faintly had the intention to retreat.

However... If he admitted defeat without a fight, it would really damage the prestige of his own sect... ..

While he was hesitating, he heard Mu Kongshan’s voice transmission from behind him, “Don’t panic, it’s just an evil secret technique. This kind of secret technique will definitely consume a lot of blood essence, and the time to use it is limited. Zifeng, you guard the door tightly and stall for time. As the saying goes, evil does not flourish for long. As time goes by, the opponent will definitely break without attacking!”

“I see! !”Liu Zifeng’s fear was greatly reduced when he heard that. He nodded his head and thought to himself, I knew it. Looking at the other party’s age, he is even younger than me. How could he have that kind of ghostly movement technique? So he used an evil secret technique. Humph, this Liu family kid is indeed an evil cultivator who can not be seen in the public eye. Elder Yunkong is really able to predict things like this!

Thinking of this, he sneered and took a deep breath. He drew his sword and performed the starting stance of the Ten Thousand Mountains Dynasty sect. He planned to listen to the suggestion of his own elder and focus on defense. Although the other party used a secret technique, the effect was indeed quite amazing, he couldn’t be careless. Therefore, he circulated the internal breath in his body and opened all his five senses, guarding it tightly.

“Does this mean that it’s starting?”Wang Goudan asked in a daze.

“After you, sir!”Liu Zifeng said generously.

Wang Goudan frowned slightly. Before they came, the arcanist in the base had cast a shapeshifting spell for them. The system had told them three rules: first, they must not use too much strength to expose the flaws in the shapeshifting spell, especially the Green Titan players, second, they must not use too much strength to show their shocking strength. Third, they must not use too much strength to cause death.

In any case, it only meant one thing: be gentle...

Although the meaning was easy to understand, Wang Goudan couldn't figure out how much strength to use. He originally wanted to let the other party attack first to see his own strength, but the other party clearly didn't intend to attack first.

After hesitating for a moment, he thought to himself, "Let's try according to the standard of the cockroach person I met in the previous map."

Having made up his mind, Wang Goudan didn't waste any time. He raised his hand and threw the leg that he had finished chewing on!

Bang! !

"This..."the scene was so quiet that one could hear a pin drop.

Eh? What happened?

Liu Zifeng looked at the broken sword in his hand that had somehow shattered. His heart was empty, and he couldn't move his body for some reason.

Why did those senior brothers and sisters have that kind of expression? Why did it feel like half of the world was gone. Why... ? Couldn't move his body?

All kinds of questions arose in his mind, but he found that he couldn't do anything. It was as if the surrounding world had gone silent.

What... happened?

As Liu Zifeng fell to the ground, everyone was stunned, including the culprit, Wang Goudan.

"This..."elder Liu and the others looked at each other and sucked in a breath of cold air. Before they could see what happened, the girl gently raised her hand and half of the man's head was gone.

"Really... You Can't judge a book by its cover..."elder Zhou said in a daze.

"What did this guy do?"The disciples of the Yunshan sect were also shocked. They didn't see clearly how their fellow disciple died!

Wang Goudan was also stunned on the spot. It wasn't until the system notification said that everyone in the party would lose 500 points if they killed someone by mistake that Wang Goudan finally reacted.

F \* ck... This person was made of paper, right?

She had only used 20% of her strength, and the material she used was the leftover duck leg from earlier. Moreover, in order to prevent him from catching it, she had even deliberately struck the longsword in the other party's hand...

How could someone die like this?

When the players behind saw this scene, they instantly exploded.

"F \* ck, even a duck leg can cause a headshot. The npcs in this game are so weak that they're really creative."

“That’s not the main point, right? The main point is why our entire team lost 500 points when Doggie made a mistake?”

“That’s right, Motherf \* cker, isn’t this too much of a scam? Schemer doggie, are you here to scam our points?”

After brother dog heard the discussions of the people behind him, he curled his lips and thought, I told you that bringing a gene body here is too much of a bully...

“You... What did you do? What despicable methods did you use?” Below the stage, Luo Bingyun came back to her senses and asked with a livid face.

Dog Egg was speechless... ? ... Do I need to explain such an obvious action... ? and.. ... Was throwing a duck leg considered despicable?

“Elder...” mu yunji whispered, “Did you see clearly? What kind of hidden weapon did the other party use?”

Elder Mu Yunkong had a strange expression when he heard that. His face twitched, and he didn’t know how to answer for a moment.

With his eyesight, he could still see the specific situation clearly, but what should he say? The other party didn’t use any hidden weapons. He just used the duck leg in his hand to smash Zi Feng to death?

But speaking of which... “...”. No matter how he looked at it, it wasn’t normal for this duck leg to smash a transcendent disciple of the sect to death, right? Perhaps there was something wrong with that duck leg. But... ... No matter how he looked at it, it looked just like an ordinary duck leg... ...

What the... What the hell was this?

“Elder?” Seeing that the other party didn’t reply with a heavy expression, Mu Yun ji immediately asked cautiously with some doubt, “Do you see anything wrong?”

“Ahem...” elder Mu came back to his senses and coughed lightly, “I didn’t say that you can’t use hidden weapons. The fighting skills of extraordinaires depend on their own abilities. Otherwise, how would you ask the people of the Tang sect or the Mo family valley to fight in the Arena?”

“That’s true...” Mu Yun ji nodded. The elder’s words clearly implied that the other party had used hidden weapons. It seemed that Zi Feng was careless... ...

Thinking of this, she didn’t hesitate and went up the stage lightly. Her movements were exquisite, causing many disciples to cheer in their hearts. She was indeed worthy of being the direct disciple of the sect leader.

Seeing this, elder mu also nodded his head. Yun Ji, this child, had already mastered the flowing cloud steps. At this age, even the sect leader back then was only at this level., in this generation of disciples, other than the sect leader’s eldest disciple, Lu Xingfeng, who was the most talented in the entire sect, this child should be the best, right?

It would be good if she took the second round. If she was crushed in the first round, it would be a huge blow to their morale if they lost in the second round.

After Mu Yunji went on the stage, she looked at the miserable death of her fellow disciples, and a trace of coldness flashed in her eyes. "Take him away and bury him properly."

The disciples next to her immediately went on the stage to take away Liu Zifeng's body.

After the venue was settled, Mu Yunji turned around and looked at the other party coldly. "You are so ruthless. If that's the case, let me see what you can do!"

Wang Goudan looked at the other party, then at the group of people on the mountain behind him who were trying to kill him. He immediately shivered and thought to himself, "I can't make another mistake this time..."

At the thought of this, Wang Goudan lightly stepped on the ground, and the stone slab on the ground instantly shattered, turning into several small stones that flew up and were caught by Wang Goudan.

Seeing this, Yun Mu Ji's pupils constricted, and she thought to herself, what a good move!

The strength of the other party's foot was ingenious. Just now, he had only stepped on a small stone floor, and it had automatically split into several stones of almost the same size. She knew that she could not achieve such exquisite control...

With just this move, even if the other party did not use hidden weapons, he was definitely an incredible expert!

Thinking of this, Mu Yunji did not dare to be negligent. She circulated the true Qi in her entire body, and under the surge of true Qi, her white clothes fluttered even though there was no wind.

"Make your move!" Mu Yunji pointed her sword at Wang Goudan and said coldly.

"What a formidable girl! !" The expressions of the few internal martial arts experts on elder Liu's side were immediately shocked. Even from such a distance, they could still feel the shocking aura that Mu Yunji was emitting!

"It seems that the Yunshan sect has sent a strong fighter to fight this time!" Elder Zhou, who was an amateur, muttered under his breath because of Yunji MU's aura.

"AH... It's a little more powerful than the one just now..." brother dog replied indifferently.

Elder Liu said, "Your Dog Wang... Cough Cough, can senior sister Wang take him down? She seems to be quite nervous?"

At this moment, everyone looked over. Wang Goudan indeed looked very nervous. He felt that his hand, which was holding a stone, was trembling...

When Brother Goudan heard this, the corner of his mouth twitched. He said faintly, "HMM... she should be nervous..." in his heart, he thought to himself, if she accidentally killed someone again, she might be swallowed alive by her teammates when she went back... ..

Elder Li touched his chin and thought to himself, Wang Goudan. This name sounds so familiar... ..

Chapter 126: Is it interesting for you to be like this?

“Look, that Guy got nervous the moment senior sister went on Stage!”

“Yeah, she is indeed senior sister Mu! !”The surrounding people cheered each other up.

“Dad... is the other party afraid of senior sister?”Mu Xueqing asked her father nervously, after the first defeat and the death of a person, Mu Xueqing was finally not so arrogant anymore. Instead, a trace of nervousness rose in her heart.

After all, senior brother Liu Zifeng was not a weakling. As the vanguard, although he could not be compared to the direct disciples of the elders, he was definitely an outstanding existence among the group of senior brothers, however, he was actually killed in one move by his opponent. Moreover, the crux of the matter was that they did not even see how senior brother Liu Zifeng lost!

Seeing his daughter’s nervousness, Mu Yunkong smiled and explained, “Of course I’m afraid of your senior sister. That guy previously used some kind of secret technique to strengthen his explosive power. Your senior brother Liu has little actual combat experience and did not channel his inner energy into the sword immediately, resulting in the destruction of the sword and the death of the person. It was all due to his carelessness. However, your senior sister is different. Her inner energy is far higher than Zifeng’s and she has already cultivated inner qi. When the opponent’s opportunistic strength meets a real expert, if he fails in one strike, his Qi and blood will be weakened and he will be instantly killed. That’s why she is so nervous!”

“I see...”elder Yun nodded. “The in-laws are really knowledgeable. I was really scared just now...”

Mu Yunkong smiled and Mu Xueqing heaved a sigh of relief. She thought to herself, that’s good.

However, for some reason, she felt a sense of unease lingering in her heart... ..

She had to control it well, she had to control it well...

On the stage, Wang Goudan kept repeating these words in his heart. After repeating them more than ten times, he finally took a deep breath and threw a stone at Fang Mian with an extremely perturbed heart. “I’ll Throw It!”

It’s coming!

A bright light flashed in Mu Yunji’s eyes. She raised her hand and pointed the sword at the stone accurately. As she circulated her inner energy, the longsword in her hand let out a humming sound, and true energy sizzled!

However, before the stone could get close to the sword, it was shattered by the inner energy!

Mu Yunji frowned and looked at the other party coldly. “What do you mean?”

Wang Goudan let out a long sigh and muttered, “Oh, it seems that this will not be embarrassing...”.

When Mu Yunji heard this, her expression turned cold. She suddenly used the flowing cloud steps and charged forward. The longsword in her hand turned into a cold light and slashed at the other party!

However, the next second, she realized that her opponent had disappeared into thin air. A bright light flashed in Mu Yunji's eyes as she thought to herself, 'it's this kind of movement technique again!'

However, she did not panic. In an instant, gang qis filled her entire body. Her muscles were jumping to their limits and her five senses were adjusted to their limits. As long as her opponent made a move and touched her gang qis, she would be able to react in an instant!

This was a battle technique that internal martial arts experts like them would often use when facing someone who was much faster than them.

Mu Yunkong nodded his head secretly as he watched this scene. He thought to himself, 'that Mu Girl is shrewd in adapting to changes. Even if it were me, this is the best I can do.'

Then, he looked at Wang Goudan who had already dodged to another corner of the arena and sneered to himself, 'as expected of a rat. With this kind of movement technique, he didn't dare to engage in close combat. The first thing he did was to pull away. Clearly, this movement technique was achieved using a secret technique. This guy doesn't have the strength of a first-rate expert at all!'

"I'll throw again!" Wang Goudan slightly increased his strength from a distance.

Mu Yunji frowned and once again used her sword to separate them. She said gloomily in her heart, "What is this guy doing?"

Then, she raised her hand and two streams of sword Qi slashed out.

Wang Goudan easily dodged the two streams of Sword Qi, and then threw another stone.

Mu Yunji said angrily, "Are you sick?"

However, when she raised her sword again to deflect the stone, she felt a numbness in her arm, and the sword in her hand was almost sent flying. Her heart suddenly tightened, and she secretly called out for her carelessness.

Because she did not use gang qi to block the third time after the previous two times, she only reacted at this time and thought to herself, so that's how it is!

The opponent is using a trick that is both real and fake? He wants to exhaust my internal energy?

Mu Yunji immediately sneered. He was indeed a rat, but this qinggong secret technique of yours must also consume essence and blood, right? Then let's see who can outlast the other!

With this thought in mind, she made up her mind and used the flowing cloud steps to get close again. This time, she was no longer using a simple chop, but used the seventeenth move of her sect's flowing cloud sword technique: cloud birth formless!

The flowing cloud sword technique was named after its ethereal and indeterminate nature. The sword technique was light and exquisite. This move, cloud birth formless, was one of the sword techniques that was extremely difficult to master. It emphasized on formless and formless nature, jumping out of the standard of traditional sword techniques, and the angle was extremely tricky, however, it happened to be a combination of flowing clouds and flowing water. Generally, only a few old sword masters in the sect could master it.

It had to be said that Yun Ji Mu's talent in sword arts was extremely good. Seeing this, elder Mu felt envious. He sighed to himself that the sect leader really had a lot of talented people. On the other hand, on his side, the low-breathing disciples were just passable, and his daughter's talent was also mediocre, if she had the same talent as the other party, he would never let his daughter marry into an aristocratic family.

With her cloud birth formless move, Yun Ji Mu used the sword Qi to completely seal the left and right positions of the other party. In her opinion, the other party would either jump back out of the stage or directly break through it. It was absolutely impossible for him to dodge to the left and right.

However, she did not know that in the world of martial arts, speed was the only thing that could not be broken. In her view, the space that was completely sealed was full of flaws in Wang Goudan's view. As long as Wang Goudan was willing., he could even use fancy moves to dodge the sword Qi that completely sealed the space.

However, she didn't do that. Instead of retreating, she advanced. When she suddenly jumped forward, Yun Ji thought that Wang Goudan was going to dodge left and right, but she didn't expect that Wang Goudan would cut her in the middle. Shocked, she hurriedly returned to her sword to defend, she thought to herself, is this guy going to go all out?

"HMM... I have a rough idea..."Wang Goudan's gentle voice sounded in her ear. "The strength that you can probably withstand..."

As he said that, he pinched a stone and lightly flicked it toward Wang Goudan's sword.

Yunji only felt a huge force coming from the sword. The gang Qi on the sword was instantly shattered. Without any hesitation, she hurriedly followed the force of the stone and retreated more than ten meters, only then did she suddenly bend backward, barely using the force-relieving method to change the direction of the stone and bounce it into the air!

"Oh?"Wang Goudan thought to himself, "It looks like it's just a little bit more..."

Bang!

Mu Yunji knelt on one knee, her left hand barely supporting her body as she looked at the other party in disbelief. At this moment, her right hand, which was holding the sword, was constantly trembling. The palm of her hand was exploding, and blood did not ooze out. It was obvious that it was very difficult to even hold it steady.

"It's about time, isn't it? Do you still want to continue fighting?"Wang Goudan walked closer and frowned as he looked at his opponent, who was struggling to stand up.

Mu Yunji raised her head and looked at her opponent with difficulty. Ever since she was young, this was the first time she had lost to a woman who looked about the same age as her.

Even when she was performing martial arts with Kunlun the year before last, she was not at a disadvantage against the strongest female disciple of the generation of the largest sect, Kunlun, Situ Xue. But now, she had lost to such an ordinary-looking girl., who was dressed in a tacky and pure set!

And she had lost in such an ugly way...

If she didn't count the two pebbles she threw in a playful manner, the one she had really fought with was that one move just now, right?

One move...

Yun Ji smiled bitterly.

"Hey? Are You Okay?" Wang Goudan asked nervously, afraid that the other party would just smile and die. Then, he might really be scratched alive by his teammates later.

"What... is the name of this move of yours?"

Wang Goudan was stunned by the question. Did he need a name to casually throw it?

However, looking at the hopeful look in the other party's eyes, Wang Goudan's heart softened. He coughed lightly and said, "Prajna thousand elephant Buddha hand!"

"Cough... What kind of damn name... can't even tell a lie..." Yun Mu ji smiled bitterly and said faintly, "It can't be just a normal vibration?"

Why are you still asking if you know? Wang Goudan rolled his eyes, but looking at the other party's expression, he finally said reluctantly, "It can be considered... a serious vibration..."

"Is that so?" Yunji MU slowly stood up, cupped her fists, and bowed. "Yunji Mu of Yunshan sect, thank you for showing mercy. May I ask your real name?"

"Wang Goudan... tsk... Wang Xiaojia..."

Wang Xiaojia. It was really a name as simple as her clothes... ..

"I'll remember it..." Yunji mu bowed again and said, "Yunji will remember today's defeat. I will return to the mountain to train hard and come back for advice next time. Before that, I hope you can live well and don't get hurt at all..."

"Oh..." Wang Gou Dan said in a daze.

After Yun Ji bowed again, she slowly walked down from the arena.

At this moment, the surrounding people finally reacted and immediately burst into an uproar!

"Senior sister Mu lost? What happened? Didn't she have the upper hand just now?"

"Did that woman use some despicable means again?"

"But... senior sister Mu didn't look like that just now..."

The Disciples of Mount Yunshan fell silent. They knew that if senior sister Mu had been defeated by such a despicable method, she wouldn't have acted like that just now...

Wang Goudan had successfully defeated the personal disciple of the sect leader of Mount Yunshan sect. He was rewarded with 500 points!

The system immediately notified him.

Ah... ? ... He had returned his money so quickly? Wang Goudan's heart was immediately jolted. He waved his hand in high spirits and said, "Who else is there?"

All the disciples of Mount Yunshan looked at each other when they heard this. Even the personal disciple of the sect leader had lost. Who could win?

At this moment, Luo Bingyun, who was also a personal disciple below the stage, was slightly moved. Just as he was about to go up the stage, he saw Mu Yunji, who had just left the stage, shake her head slightly at him.

Luo Bingyun hesitated for a moment when he saw this. In the end, he suppressed his impulse. His strength was already below senior sister Mu's strength. Since senior sister Mu had lost, how could he win? The other party could show mercy once, so how could he show mercy again and again?

Thinking of this, he finally withdrew his steps that he had just taken.

"Father... this..." mu Xueqing's face was also gloomy. Senior Sister Mu had already lost. Among this younger generation of disciples, eldest senior brother Lu Xingfeng didn't appear. There was no one here who could show mercy.

Damn it... ? ... what was the situation with that cripple of the Liu Family? Where did they find such a powerful character to support the show? Wang Xiaojia! ? I've never heard of him!

"Is it interesting for you to do this?" Mu Kongyun suddenly said faintly.

"Eh?" Wang Goudan was stunned and said carefully, "Are you talking to me?"?

"Do you still want to play dumb?" Mu Kongyun sneered and said, "You have clearly entered the Earth immortal realm, but you still want to pretend to be a junior to fight in the ring. You evil cultivators are really shameless!"

Wang Goudan:"..."

Chapter 127: Darkening Dog Egg!

Mu Kongyun felt that this was the only explanation for the current situation!

If the opponent's movement technique and strength did not come from the secret technique, then it could only mean that the opponent had already stepped into the same level as him.

As for a twenty-year-old Earth Immortal?

Mu Kongyun chuckled. Back then, the pure Yang Master was so talented that he only stepped into this step when he was close to thirty years old. And now, he was only a hundred years old, and he had barely made a breakthrough a few years ago!

"I see!" The disciples were enlightened.

“I knew it. Senior sister is an existence who is on par with Situ Xue. How could we not have heard of such a person in the junior generation?”

“That’s right, that’s right. This heretic is indeed despicable. How could he do such a thing as pretending to be the junior and bullying the junior? It’s really shameful!”

“He’s still wearing pure clothes, who are you pretending for? Senior Brother Zifeng’s death was really unjust!”

So what if he was wearing pure clothes? Did he eat your rice with pure clothes? Wang Goudan looked at the group of people from the Yunshan sect in bafflement and thought to himself, are these people crazy? What the hell are they talking about?

Is that so?

However, for the first time, Mu Yunji had doubts about the words of her senior martial uncle. One reason was that the other party seemed to be wrong in the previous few guesses, and the second reason was that she didn’t think that the other party was like this kind of person...

“You didn’t attack Yunji because of her status as the personal disciple of the sect master, right?” Mu Yunkong sneered and appeared on the stage in a flash. His movement speed was no less than Wang Goudan’s!

Mu Yunkong had figured everything out. The Liu family forcing the marriage and his own son-in-law being beaten up were all excuses. It seemed that the other party had already planned it out. This must be a sect that Master Ye, who had just become an Earth Immortal, was preparing to establish, he wanted to have a fight with their Yunshan sect, bully the juniors, and then make a name for himself!

His son-in-law and daughter, as well as the kid from the Yun family and the Liu family, were just pawns to be used...

“You really have a good plan!” Mu Yunkong stood with his hands behind his back, he looked at the other party coldly and said faintly, “Our Yunshan sect has always been protective of our shortcomings. Even if you were to touch an ordinary disciple, it would be a fight to the death. Do you want to use our Yunshan sect as a stepping stone to make a name for yourself? I’m afraid you have picked the wrong target!

Wang Goudan:”...”

[ wow, the big shot with a thousand points is on the stage! ]

[ why is Goudan still on the stage? who is going to drag her down? How many matches is she going to fight? Are we going to earn points? ]

[ there’s such a Thing? ]

“Old Liu... your grandson isn’t really being used, is he?” Old Zhou approached Old Liu and said in a low voice.

Old Liu was also hesitant when he heard that, and then he looked at his grandson.

Brother Gou's face twitched, and he didn't know how to explain it. The guy opposite him didn't write novels, but he became an elder of a mountain. It was really a waste of his talent. He earned 100,000 yuan from becoming a divine moon... ..

"What are you talking about?" Wang Goudan was speechless...

"Humph, are you still playing dumb?" Mu Kongyun sneered. Then, he took out an orange mirror and shouted coldly, "Disperse! !"

A strong light exploded instantly. Wang Goudan narrowed her eyes slightly, but the space became blurry. The effect of her shapeshifting spell distorted for a while and then slowly disappeared.

[ what the hell? ] The players were stunned.

[ the BOSS has used a powerful skill? ]

"Warning, an item that can dispel the illusion has appeared. Player Wang Goudan, please step back immediately!"

"Huh?" Wang Goudan was stunned, and he could not react in time. When he felt the change in his body, he was shocked and quickly stepped back.

However, it was too late. The effect of the shapeshifting spell on his body had already lost most of its effect under the bright light.

At this moment, Wang Goudan's upper body was basically revealed. His silvery-white hair was especially dazzling under the sunlight. His peerless beauty caused everyone to stand rooted to the spot... ! At that moment, not even the sound of breathing could be heard!

At this moment, both men and women held their breaths, afraid of disturbing this peerless painting...

In this world... there was still such a beautiful person?

Luo Bingyun stared blankly at that place, feeling as if his soul was empty. Mu Xueqing clenched her fists tightly after being stunned, her heart burning with jealousy. Mu Yunji also had a stunned expression on her face. She thought to herself, "I used to think that there wouldn't be an existence more beautiful than Situ Xue in this world, but I didn't expect...". ...

That's right, how could such a stunning talent be a loser dressed in pure clothes?

"Fellow Daoist, your beauty technique is really perfect..." Mu Kongyun said coldly after coming back to his senses.

After being stunned, he calmed down a little. Most of the people who could reach the Earth immortal realm were old demons who were over a hundred years old. Most of their good looks were obtained by sacrificing their cultivation base with secret techniques.

Hehe... women... Only cared about their skin!

Mu Kongyun was even more confident when he thought of this. As an Earth Immortal, since you had sacrificed your cultivation in your skin, there was naturally a limit to how much you could use it on yourself.

Wang Goudan did not pay attention to the other party. Instead, he stood rooted to the ground in a daze. The only thing in his mind was the notification from the system just now... ..

“Warning, player Wang Goudan has revealed his true form. 1,000 points will be deducted!”

Wow!

This stunned look is so cute! !

Everyone’s heart skipped a beat. Even Mu Yunkong, who was on stage, could not help but feel his heart skip a beat. He immediately shook his head and said, “Don’t be fooled. It’s all an illusion. Under the skin, there’s most likely a wrinkled old witch! !”!

‘hmph, the other party’s expression is most likely because I’ve exposed his confusion. Alright, I heard that old man from the Li family is also here. This is a good opportunity for me to show them the strength of my Yunshan sect! !’!

Actually, elder Li’s prediction wasn’t wrong. Currently, many sects have the idea of entering the human realm. Otherwise, they wouldn’t have allowed the Yun family to lead the way. He also had the intention of allowing his daughter to marry into the Yun family, he wanted elder Li, who was in charge of this area, to contact their Yunshan sect through the Yun family.

After all, it’s a large sect. They can’t take the initiative to go up to it, right?

Therefore, Mu Yunkong actually did not plan to kill that kid from the Liu family. He just wanted to force elder Li to come and plead for peace. When the time came, he would give face to the old man of the Li family. That way, they would have a connection, the other party would definitely think of his Yunshan sect when he wanted to win over the sect in the future!

Therefore, he could not afford to lose his prestige this time. A mere beauty was not worth mentioning. Even if you were the demon concubine Su Daji, you could only give way to my Yunshan sect obediently!

Mu Yunkong no longer hesitated at the thought. He circulated the genuine Qi in his body and immediately, a huge pressure spread out. Everyone within a hundred-meter radius felt a substantial pressure. They felt their bodies sink, and their breathing became much more difficult.

The internal martial arts experts beside elder Liu were secretly shocked. Was this the power of an Earth Immortal?

As expected... it was too late to catch up! !

However, in the next second, a surge of murderous intent soared into the sky and instantly broke Mu Kongyun’s aura. Everyone looked over in shock, only to find that it was Wang Goudan who had come back to his senses.

What was going on?

Everyone’s heart skipped a beat. They only felt that the incomparably beautiful woman’s aura suddenly changed. In an instant, it was as if Asura had descended into the world. The temperature of the entire space instantly dropped to the freezing point.

This time, everyone once again became breathless. However, this time... They were frightened.

Everyone was afraid of becoming the target of that murderous aura.

At this moment, elder Yun, who was targeted by that terrifying aura, felt as if he had fallen into an ice cellar. His face was instantly filled with disbelief!

This murderous aura... what was going on?

Just now, when he was targeted, he felt as if a sharp sword had pierced through his heart... ..

Mu Yunkong touched his undamaged chest with a face full of sweat. He immediately sucked in a breath of cold air. He instantly realized that the person in front of him was definitely not an earth immortal who was only proficient in the art of face. He was probably not a big shot!

Players, please take note: once Wang Goudan kills an elder of the Yunshan sect, the entire team's points will be deducted by 2,000 points! !

Players: "What? ?"

"Hehehehe..." Wang Goudan said with a twisted smile. He plucked a pile of feathers from his back that had not yet appeared. "Die... all of you, die! Let's deduct points together, Wahahahahaha! !"

"Don't Wahahahahahahaha! !" Only then did the players react and pounced onto the stage! !

Chapter 128: What a huge piece of metal!

For the first time, Mu Yunkong felt death... ! ... So close to him! ! !

When he was reading Gu Long's novel, he had liked the description of Xiao Li's flying knife the most. In the book, it was said that no one in the world knew where his flying knife was, nor did anyone know how it was launched. Before the knife was launched, no one could imagine its speed and power.

That kind of magical description of techniques made him feel hot-blooded even after he became an earth immortal. However, as a jianghu person, he knew that this was just the conjecture of the writer.

No matter how well-tempered the technique was, it was almost god-like. It relied on basic attributes and was not so magical. You could not see it because your eyesight could not keep up with the speed of the other party, this had nothing to do with whether the other party was using Xiao Li's or Xiao Wang's throwing knives.

Therefore, a situation like Li Xunhuan, who was clearly only a second-rate expert but was able to kill a top-notch expert with a throwing knife, did not exist at all.

However, this time, he really doubted whether there was such a godly skill like Xiao Li's throwing knives that transcended attributes in this world. Otherwise, how could he explain why he could not see a single slash?

If it wasn't for this bald stranger blocking for him, he would have died countless times!

“What the F \* ck? I’m already shot into a hornet’s nest, and you’re still daydreaming here!”The person blocking the knife was Pu Yunchuan, he turned around and saw Mu Yunkong, who was covered in feathers and was still daydreaming, slapping him on the ground. “Get down on the ground! !”

“I say, who among you is going to catch that lunatic? !”Pu Yunchuan shouted.

“Catch My Head!”The little fairy said angrily, “This time, she’s only a wind demon. How can I catch a flying demon?”

Wang Goudan, who was flying in the air with a black face, laughed and said, “Die, all of you die. Wahahaha, you’re still blocking me? Look at my feathers all over the sky! !”

“I don’t care anymore. If they want to die or not, they can just deduct points together!”The little fairy who was covered in feathers said angrily.

Ding! A temporary mission was released, 200 points were awarded for protecting Yunshan sect’s ordinary disciples, 300 points were awarded for protecting Yunshan sect’s elite disciples, 500 points were awarded for protecting Yunshan sect’s personal disciples, 1,000 points were awarded for protecting Yunshan sect’s elders, and the Yun family’s elders were awarded...

The players:“...”

“All of you, F \* cking protect me well! If anyone dares to leave a single one of them out, I’ll deduct my points and throw them back into the septic tank!”The little fairy immediately shouted at the top of her voice.

“There, there, there’s a cave over there! Throw them in there! !”

The Little Fairy’s eyes lit up when she heard that. She quickly picked up elder Mu who was lying on the ground and jumped into the cave. Pu Yunchuan, who was at the side, could not help but shout, “F \* ck! !”!

Instantly... The scene was a mess. Many players were suddenly exhausted from running for their lives. They used their weapons and physical bodies to protect the Trembling Yunshan sect disciples.

In the cave, Luo Yunbing looked at elder Mu who was also thrown in and hurriedly asked, “Elder, what’s... What’s the situation?”

Mu Yunkong was silent for a moment and said in a faint tone, “Have you heard of Little Li’s flying dagger?”

“Ah?”Luo Yunbing was stunned. “Is there really such a thing?”

“Nonsense, of course not!”Mu Yunji could not help but knock him on the head and said in a bad mood, “You still believe him? Look carefully, he can fly and has that kind of offensive means. He’s a Heaven Immortal!”

Heaven Immortal! !

When the disciples of Yunshan heard this word, their faces were filled with disbelief. Even Luo Yunbing was in disbelief.

There were no more than ten heaven immortal realms in central China. They were all existences like the patriarchs of the sects. How could such a figure come to challenge them?

“Senior sister Mu, aren’t you exaggerating?” Mu Xueqing couldn’t help but ask.

Mu Yunji glared at her and then said to the disciples who were in disbelief, “Look carefully. These guys who are protecting us are all unbelievably powerful. Judging from their skills, which one of them is not at the Earth Immortal Realm?”

Everyone suddenly fell silent. They were not blind. Based on the skills of those strange feathers under their crotch, each of them was at least above elder Mu!

By the way, where did this sect come from? All the Earth immortal realm cultivators. What the F \* ck... ..

Although they found it unbelievable, everyone realized that they had kicked a big iron board this time.

Thus, they all looked at Mu Xueqing gloomily.

After provoking such a monstrous force, if he didn’t handle it properly, his Yunshan sect might be exterminated! !

Looking at everyone’s unkind eyes, Mu Xueqing felt wronged. She was about to fly into a rage but was stopped by Elder Mu. He looked at the crowd, he sighed and explained, “Everyone, don’t blame my daughter. Before this, didn’t everyone think that they were here to bully a weakling? who could have predicted such a result?”

“We believe in junior sister!” Luo bingyun frowned and said, “Her intelligence said that the other party is just an unimportant and unorthodox sect. They want to cause trouble for the other party without knowing the other party’s background. Do they want us to take the blame?”? Elder Mu

Elder Mu’s face immediately turned green when he heard that. At this moment, the matter had yet to be finished and they had already started to shift the blame. It was really difficult for these juniors to be magnanimous.

After taking a deep look at Luo Bingyun, elder Mu hid a hint of coldness in his eyes, his tone was gentle as he said, “Everyone, don’t be anxious. Although these people are powerful, it’s obvious that they don’t want to kill us all. From the moment they took action to protect us, we know that these people don’t want to make a big fuss. After all, Our Cloud Mountain sect is also one of the nine great sects. It’s not like we don’t have any Heaven Immortals!”

Hearing his words, everyone’s heart eased a little. Mu Yunji frowned and said, “Then elder, what do you think we should do now?”

“We’ll wait and See!” Elder mu said faintly, “We’re here to help this time. In the end, this is the grudge between the Yun family and the Liu family. We’ve done our best in this matter. Let the Yun family settle the rest by themselves!”

“Father! !” Mu Xueqing looked at her father in disbelief.

If father did this, how would she be able to live in the Yun family in the future?

Mu Yunkong ignored his daughter's pale face. Instead, he turned to elder Yun and asked, "What do you think, in-law?"

Elder Yun was so angry that his entire body trembled. He thought to himself, 'without that troublemaker daughter of yours, would things have come to this?'

However, he still forcefully suppressed the anger in his heart. He knew that he could not offend both sides at this time. At most, he could just give in to the Liu family and let them trample on him. From the looks of the situation where these people were protecting them from behind., they also knew that they should not take things to the extreme. It was obvious that they were much easier to talk to than this elder of the Yunshan sect!

If they offended this petty elder mu, it was likely that they would not be able to sleep and eat in peace in the future. He could clearly see that the younger generation of the Yunshan sect had just refuted him, and this old fellow was secretly filled with killing intent!

"In-law is right!" Elder Yun forced a smile and said, "In the end, it's still our Yun family's fault. You have already done your best to help us to this extent. This old man is here to thank everyone for Your Righteous Help!"

The faces of the many disciples of the Yun Shan sect could not help but turn red when they heard this. Anyone with a discerning eye could see that the elder wanted the Yun family to shoulder the responsibility themselves. At this moment, facing elder Yun's serious expression of gratitude., even Luo Bingyun, who had a fierce look on his face just now, could not help but exclaim, "Cough... Elder Yun is too polite... i. . . We did not help much..."

"It's good that the in-laws understand!" Elder mu interrupted Luo Bingyun's mosquito-like voice with a cold expression. He said with full confidence, "Now that the matters of the Yun family are not hard to predict, I will bring my daughter back first."

The veins on elder Yun's forehead twitched when he heard that. In the end, he took a deep breath and said, "Yes, yes, yes. Now that the Yun family's fortunes are hard to predict, it's indeed not appropriate for your daughter to be with us..."

Mu Qingxue opened her mouth when she heard that, but in the end, she did not say anything. She weakly retreated behind her father.

Elder Yun laughed coldly in his heart when he saw that. He could not help but sigh, "It's really not like a family doesn't enter the same house. It's best that your daughter never comes back."

Chapter 129: Elder Li's thoughts

As soon as Gou Dan flew into a rage, Brother Dog hurriedly pulled his old man Feng to retreat. As for whether or not the people from the Yunshan sect and the Yun family would be wiped out by Gou Dan, it had nothing to do with him. It was better if they were all dead!

In the red flag car, old Liu held Shiyu's hand and said, "Shiyu, is there really no problem over there?"

"It's fine, it's fine. Senior Sister Goudan just lost her composure, hahahaha!" Liu Shiyu laughed guiltily.

Old Liu and old Zhou looked at each other and didn't know what to say for a moment. If they were to say that Liu Shiyu was being used, then that woman alone could wipe out the combat strength of the Yunshan sect. She couldn't even defeat an elder..., if they were to say that they were using Liu Shiyu, then they were overestimating the Liu family a little too much.

With Liu Shiyu's strength, did he need to prove his strength by cheating?

"Shiyu..." elder Li, who was sitting in the front passenger seat, suddenly said faintly, "Is there another person in your sect called rain girl without a Melon?"

"Eh? How Do You Know?" Liu Shiyu replied almost subconsciously, but he immediately realized that something was wrong... ..

How did elder Li know about Big Boss Rain Girl?

That's not right... .. Brother Gou suddenly remembered that when his group was on a mission in South Africa the last time, they seemed to have left behind this game name. His face twitched and he thought to himself, F \* ck... It's over... ..

"Rain girl without a melon? Wang Goudan?" Elder Zhou suddenly came to a realization. "Oh... I remember now. Isn't that... isn't that the group of people from the Huazhong Dragon Group?"

Elder Liu was stunned when he heard that. "There really is such a thing as the Dragon Group?"

"Nonsense, of course there isn't!" Elder Li immediately said angrily, "It's obviously made up by their sect. These names are also made up. By the way, Xiao Yu, what's the background of your sect? "Each and every one of them is so powerful. Why isn't it recorded in the National Archives?"

"Ahem... hidden sects, hidden sects..." brother dog explained with a guilty look.

"Now that they are causing trouble internationally and here, does it mean that they are going to be born?" Elder Li said faintly.

"This..." brother dog scratched his head. "Our sect's purpose is to help the world and save people. We didn't do that South Africa incident to help humanity survive this disaster..."

"Oh?" Elder Li looked at elder dog with a faint smile. "It seems that you know about this..."

"I heard from my senior brothers and sisters..." elder dog buried his head. He didn't want to admit that Uncle Fang's factory was bombed because of him and Grandpa Lu... ..

"Stop bullshitting..." elder Li glared at him and said, "Since the sect behind you wants to come into the world, I don't think it's against the authorities to choose you as their successor, right?"

"How would I dare..." brother dog hurriedly said, "Aren't we all making a living under the care of socialism..."

"HMPH!" Elder Li snorted coldly, but he was delighted in his heart. This sect was powerful, and each of them had the power of an extraordinary being. He had heard about it before..., the trump card of the American Extraordinary Corps at virus time had fallen into the hands of Wang Goudan's group.

Today, when he saw that Wang Goudan had single-handedly swept through the people of the Cloud Mountain sect, he immediately understood that the information was not false. If these people could serve the country...

When he thought of this, elder Li's heart burned with passion, however, he tried his best to remain calm on the surface and said, "Xiao Yu, if you have time, you can help ask. Our country recently wants to form an extraordinary force. The treatment is generous and the degree of freedom is extremely high. Let's see if they are interested. As long as they are willing to cooperate, the country will give them the greatest convenience. If they have any other conditions, they can also raise them...". "..."

"Ahem..." brother dog choked when he heard that. What the F \* ck? Become an agent? Won't that bunch of guys make you into a mess?

However, looking at elder Li's expectant gaze, Brother Dog could only continue to lower his head guiltily. "That... ahem, I'll go back and ask... Yes, I'll go back and ask."

"Okay, okay, okay. Regardless of whether it succeeds or not, you have to give an answer!" Elder Li said hurriedly.

Brother Dog: "I..."

"Isn't this something that you should be responsible for? Why are you forcing a child to do this? "Did he receive your country's salary?" Elder Liu glared at elder Li and then said to shiyu, "Shiyu, it's just a casual question. Don't force yourself. If you can't do it, then count it as a ball. Don't ruin your impression of the sect."

"Heh... you old man Liu..."

Brother Gou looked at the two old men bickering and sighed in his heart. I'm afraid you don't know what my sect is. If you knew, the Federation would probably be prepared for a level one war... ..

Speaking of which, does helping the aliens to harm my own people count as being a traitor?

Brother Gou was caught in a dilemma...

But... .. From the looks of it, humanity had benefited from the alien boss's subordinates... Including the vaccine, without the alien overlord, who knows how many more people will die this time. . .

Um... Yeah, we're the good guys!

Brother Dog hypnotized himself.

-----

In the evening, a group of players were directly teleported away after the event. It was said that a group of people spent a lot of effort to catch Wang Goudan, who was exhausted, but everyone promised to give her 100 points before she stopped.

The group from the Yunshan sect did not say anything. They all returned to the mountain gate dejectedly without making a sound.

On the other hand, Yun Ji Mu and Luo Bingyun accompanied elder Yun to the Liu family's side to submit.

Seeing elder Yun personally submit, everyone in the Liu family was incomparably shocked. On the other hand, elder Yun was so excited that he drank a lot of wine, his face flushed red.

After elder Yun explained the whole story, elder Liu very generously expressed that he did not mind. In fact, he had also guessed that it was because the younger generation was not sensible enough to make a name for themselves. The Yun family's style of doing things had always been good. Otherwise, they would not have been valued by the higher-ups.

However, elder Liu was still very happy. Although he suffered a little in the beginning, it was very satisfying later on. The feeling of having beaten and convinced the other party to submit was really different. In the end, it was his grandson who had done well, otherwise, even if the younger generation of the Yun family were to cause trouble, the elders would most likely not come over to apologize. Moreover, they would most likely make them swallow their pride.

The next day, elder Liu's birthday banquet was filled with guests. Many of the elders of the family clans personally came to celebrate. Elder Liu even drank until his face was flushed red, and he was incomparably carefree.

And this time, because elder fifth of the Liu family was basking in the glory, a large number of family disciples came forward to befriend him. When they saw that elder fifth actually had such a glorious time, the hearts of the Liu family disciples were incomparably complicated, especially those juniors who usually looked down on Liu Shiyu. Now, when they were faced with some of the family's disciples that they rarely met, they took the initiative to make friends with them, but secretly wanted them to get to know Liu Shiyu... All of them felt very bored...

At this moment, Brother Dog, who was the main character, hid outside early in order to avoid the nagging of old master Li and the befriending of a bunch of inexplicable family's disciples. He found a small tavern and ordered a plate of braised pork and a bottle of Jiang Xiaobai, he drank alone with a sigh in his heart.

"You all like braised pork so much?" A faint female voice suddenly sounded.

Brother Dog raised his head and saw that it was Yun Ji Mu, who had fought with dog egg before. He was momentarily stunned. "How did you find me?"

"It's not difficult to find you..." Yun Ji Mu sat across him rudely, she picked up a piece of fat intestines with chopsticks and said, "But I'm very curious about your senior brothers and sisters. How did they disappear? There's no trace of them at all. We checked the plane tickets and there doesn't seem to be any record of them."

"What do you want to check them for?" Brother Dog asked warily.

"Just to be on guard..." Yunji gulped down a mouthful of wine and said, "If they still come to us to look for trouble, don't we have to prepare in advance?"

Brother Dog: "..."

"Then Wang Xiaojia is really your senior sister?"

“Right...”brother dog replied weakly. He thought to himself, Wang Goudan seems to have entered the game before me, so he can be considered a senior... It was not a loss to call her senior sister, even though she was younger than him. ...

“Do you know how old she is?”

“Why are you asking this?”Brother Dog frowned.

Yunji mu smiled bitterly and suppressed the unpleasant taste in Jiang Xiaobai’s mouth. “I just want to know. I want to see how much I can match up to her when I reach her age...”

“Uh...”brother dog hesitated for a moment and asked, “May I ask how old you are?”

“I entered the sect when I was ten, and I’ve been cultivating for twenty-seven years now.”

“You’re thirty-seven?”

“What kind of Look is that? People like us have a long life, and your senior brothers and sisters are only twenty?”

Brother Dog smacked his lips and thought to himself, “Except for a few who are almost thirty, most of them are probably really twenty...” . ...

‘how should I tactfully tell them that dog egg is only 19 this year?’?

‘attention, players!’!

Just as Brother Dog was in a dilemma, a system notification suddenly sounded: according to rain girl’s intelligence report, the human army will arrive in Molendo in three days, and the new map will be reopened in three days, since the base will be issuing various missions for the Battle of Molendo, those who want to participate in the missions should prepare in advance!

“What’s Wrong?”Yun Mu Ji looked at the other party’s suddenly excited expression and asked curiously.

“Nothing...”brother dog smiled. “I have something to do...”

As expected... ! ... It was the other side that made him more excited. This time, he had to capture enough land farmers and apply for two F \* cking plots of land. Wahahaha, it was only a matter of time before he became rich! ! !

Chapter 130: the current outlook of the base

“What a bunch of unreliable people...”Xi ye looked at Wang Goudan, who was finally pressed down by everyone, and heaved a sigh of relief. Then, she asked, “What happened after that? Were you followed?”

Ai: “When the players were teleported back, the surrounding surveillance and satellite surveillance were all blocked by me. There were no traces. The people from Yunshan sect and the officials from central China did some investigations, but they were unable to find anything. Oh right, the officials from central China want to contact us through brother Goudan. What does the Lord Think?”

“Think my ass. Hold on to it for now. We’ll talk about it later...”xi ye waved her hand and asked, “Are the magic bubbles ready?” 1

Ai: “They’re ready. Mars is basically covered in it. Even if it’s a large-scale modification, as long as it’s not man-made, no one will discover it.”

Xi Ye nodded. “That’s good.”

Ai: “But according to what I know, the federation is under pressure and seems to be organizing a Mars landing within half a year.”

Xi Ye was speechless. “What’s the use of them landing like that?” “If we don’t break through the key technologies, we’ll never be able to colonize Mars. We don’t have to worry about them for the time being. It’s just a farce to deal with the masses. When the time comes, we’ll create an accident and absorb the astronauts. The d-sphere Federation will suffer a great loss, and there won’t be any movement for at least a few years. As for us, we only need a few years to take shape.”

Ai: “Lord is wise...”

“Ha...”Xi ye smiled and thought to himself, ‘this guy has been quite honest recently. He’s actually not naughty anymore...’.

“How’s the farm land in the base?”

Ai: “A total of 110 plots of farm land have been contracted out. Each plot of farm land is between 500 to 1,000 mu. After careful treatment, the land can adapt to most of the farm products. The base also has enough equipment to help with the planting. However, each player has a smaller number of farmers. In addition, the ability of the foreign farmers to learn is relatively poor. It’s obvious that they’re a little busy.”

Xi Ye frowned. “Is the learning ability still that bad after the surgery?”

“It’s still getting used to it...”ai sighed. “Lord, do you think that every Aborigine is as talented as the people of Planet D?”

Xi ye nodded and asked, “What about the varieties?”

AI said, “70% of your agricultural products are low-grade varieties purchased by the Federation, and 30% are improved varieties purchased from wine god Lord. According to your suggestion, let the players try out the varieties separately to see the market effect.”

As he spoke, he made a list of the products that the players had chosen, as well as the number of products that the players had chosen.

According to the information, out of the 110 players, most of them had chosen the federation’s official No. 7 wheat, and had planted some hell melons and south flowers as part-time jobs... ..

Only a small number of players had chosen the products that the wine god Lord had bought, such as taro raw fragrance, sesame seed beans, purple fragrant valley, and the like.

This result was quite reasonable. The federation's production was large, their genes were stable, and they had high tolerance. Moreover, they did not have any inexplicable needs. For players who had just planted their crops for the first time, they were all striving to make a return on their investment, it was understandable for them to choose some of the stable products described in the information.

However, they lacked the spirit of adventure.

This was something seer did not really want to see. It was not that he wanted to cheat them of their points, but if his faction wanted to produce agricultural products, seer needed to have some landlords who dared to take risks.

Who would buy the products of the Federation? Wouldn't the other lords grow their own? There had never been any mention of using the products of the federation as ingredients for delicacies from all over the world. This was because the federation's products were all designed to be genetically stable and in large quantities. The targets they provided were all novice lords like seer, in terms of taste and style, they were far inferior to the local agricultural products developed by some private lords.

Therefore, if they really wanted to sell it to the public, they would have to develop new products by the Lords themselves. How would they do that? This would need to be slowly improved by combining genetic technology with the unique species of the planet the Lords occupied.

The process of improvement and the trial planting would take a huge risk. Seer felt that he needed to encourage his subordinates to dare to try out some low-yield but potentially high-profit products.

In this way, he could improve the status of the people in his base who were engaged in agricultural technology and promote the development of this field, especially those developers. He could attract some of them to specialize in this field.

However, if he wanted to attract them to divert their attention from their favorite arcana or mechs, he needed to let them see the huge profits from the improvement of agricultural technology...

He had to do it secretly...

Seer rubbed his chin and vaguely had some plans in his mind... .. He planned to start the implementation after the population plunder was over.

Thinking of the population plunder, he asked again, "How's the preparation of the plunder plan this time?"

This plan was very crucial. He needed a large number of people to help him mine, especially the orcs. They wanted to complete the first batch of energy ore delivery by the end of the year, he calculated that he needed at least 100,000 gnolls and over 10,000 ogres. If he opened the passage and added 5,000 Green Titan players, he should be able to barely complete the quest by the end of the year.

This was extremely important to the current situation of the base. Whether it was repaying the loan or fulfilling the crystal ore demand on Wine God's domain's contract, it was urgent.

Ai: "According to Rain Girl's intelligence, the human army is temporarily regrouping in Kodovia. The main force has 300,000 heavy-armored infantrymen, 50,000 northern heavy knights, 50,000 light cavalry, and 5,000 of the Empire's most powerful Griffin Legion. Other than that, there are also a lot of

auxiliary soldiers, including musketeers, archers, priests who know divine arts, medics, armored soldiers, and engineers who are temporarily building military siege weapons. There are nearly 500,000 of them, led by the war god of the Empire, Old Duke Rox, and supported by the Archmage, Hollin. "With Mace's support, it could be said to be the largest military organization in the past hundred years. It's obvious that the human side is determined to win back Morondor!"

"500,000?" Seer's eyes lit up. The number of people made him extremely excited. The heavy-armored infantrymen were obviously a strong population. With a little modification, they would definitely be good at mining, moreover, such a person had directly sent 300,000 people in one go?

TSK TSK... "...". This was really a good deal! Seer rubbed his hands together as he thought about it.

As for the other support troops, they were also the type of population that seer was very keen on. Mages with spiritual talent could make up for the lack of some lifestyle mage classes in the base. The engineering troops were the most suitable coolies for building cities. As for those who were good at repairing armor... Oh, da Bao could finally have enough apprentices.

It seemed like he didn't need to keep his eyes on the beast race. Then, the problem was, how could he stealthily reduce the casualties on both sides while at the same time capturing those strong people?

Thinking of this, Xi ye hurriedly said, "Inform rainy without melon. Tell her to gather more information while taking time to write a detailed mission plan. This time, we must try our best to replenish the base with enough people!"

Ai: "Lord, Rainy without melon has many jobs. Shouldn't you consider giving her a raise in salary?"

"Shut up. She's still in her internship period. I'm still observing and training her abilities. Why would I raise her salary? "You're My Ai. You're not allowed to speak up for the workers, and you're not allowed to mention this in front of her. Do You Hear Me?" Xi Ye said fiercely.

Intelligence:"..."
