

A Bunch 1271

Chapter 1271: Count as... .. Can you be confident now?

“Is there anything else you want to say?”

At this moment, the interior of the domain of wind became extremely quiet. A faint female voice rang out. Her voice was beautiful and soft, yet it reverberated throughout the entire space.

Safilos looked at his opponent in a daze, then looked around. The whistling wind suddenly stopped, as if it had been stopped in an instant. The huge sword in the air that seemed to be able to cut through the entire world was cut in half, all because of the sword of the other side!

Yes, this time he finally saw what the other party's sharp edge was, it was an incomparably delicate short sword, and a asparagus-like slender, who would have thought that it was this thing, a sword cut through the entire domain!

“This is... . What?”Safilos stared blankly for a long time and asked.

“Sword spirit...”. “...”. Lulu replied softly, “My Jade Sword Immortal Lineage's exclusive secret skill is a secret skill that was formed after your material universe took form, combined with the characteristics of this domain, as well as our lineage's unique spiritual power, and passed down until now...”. “...”. Only I am left... “...”

“Jade Sword Immortal?”SAFILOS nodded, “So it's this...”

He had heard that in the records of the Abyss, there was a group of people who called themselves Jade Sword Immortal. They were praised by the demon god as the strongest sword technique in the universe, and the Hall Master was a powerful figure who was comparable to the demon god.

If it was such a powerful figure who died in her hands, perhaps... “...”. It wasn't too embarrassing, right?

“Is that all I want to ask?”

Lulu looked at the other party. At this moment, Safilos's figure started to slowly dissipate as the domain dissipated. Clearly, without the support of the law energy, his physical form in the material universe could no longer be maintained.

Safilos was stunned for a moment, looking at himself. Only then did he realize that he was about to die...

“Are all of you fairies this arrogant?”Safilos laughed.

“Not arrogant...”Lulu shook her head, saying very seriously, “It's a pity...”

“Pity?”Safilos raised his eyebrows, feeling that these words were becoming more and more sarcastic.

“Does it sound hypocritical?”Lulu said this with a nonchalant smile on her face, “But that's what I think. It's not just me. In fact, our batch of people basically have this kind of character. If they didn't have to, they wouldn't have killed such an outstanding and young junior like you...”. “...”

Safilos paused for a moment. “Why?”

“Probably... I’m getting old...”Lulu took a deep breath and looked at the sky

For countless years, she had taken up resources and reincarnated again and again. She watched as her own children were forced to die one by one. Each and every one of them was alive and outstanding, but they were not able to grow as they should. She, this group of old fogies, had taken up the position. Cutting off their path of survival, one round... One round ... Another round, another batch of brilliant and outstanding children died...

In the end, the entire immortal palace looked like they were a group of old farts. They really didn’t have any vitality...

She had clearly lived enough, really enough. At the very least, she didn’t take up the resources of the younger generation and continue living like this. But there was nothing she could do. The clan leader wasn’t sure that those younger generations would be able to grow to their level. She didn’t dare to hand the future over to them... ..

Actually, she was the one who was most against the decision to cut off the childbearing. Was it really appropriate to bet all the hopes of the clan on a group of old people?

It was also from that time onwards that she rarely used her sword. When she was roaming the universe, she would always take care of the outstanding younger generation when she saw them. Lonely old people would always be more friendly to other people’s children... ..

Safilos was stunned by this answer. He wanted to mock her in his heart, but when he saw the incomparably vicissitudes in her eyes, he could not bring himself to say it.

He understood that with her identity and strength, she would not bother to lie. She was indeed regretting him... ..

He did not expect that his last hope would be cut off in the hands of such a sentimental elder...

If he did not use such an extreme method to oppose the other party, the other party should have shown mercy, right?

It seemed that the other party was right, his luck was really not good... ..

Safilos sighed and finally said, “Senior, can you give me a message?”

“To whom?”

Safilos gently raised his hand, and a clear light screen lit up. In the light screen, a girl raised her head and looked at the starlight with a face full of desire, the starlight outside the abyss.

“Vera?”Lulu narrowed her eyes. In the years she stayed in the Bolton Force, she was familiar with these commanders. Otherwise, she wouldn’t have been able to escape through the memory method.

“I remember... You Don’t seem to be very good to her...”

“Right?”Safilos’eyes revealed a hint of a smile. “Even outsiders like senior feel this way?”

“Uh... everyone should feel this way... After all, you’re very obvious...”

"That's good..." safilos smiled and said, "A person who treated her badly has died. She shouldn't be too excited right..."

"That's hard to say..." lulu smiled and said, "There was once a person who treated me badly who died. I was so excited that I celebrated for an entire month!"

Safilos:"..."

"Alright, what do you want me to tell her?"

"Tell her that she must not return to the abyss. Sab can't protect her!"

"Oh?" Lulu looked at the other party with interest. "From your tone, it sounds like there's an inside story..." ". ..."after a pause, she continued, "That's true. Two bloodlines, and people are jealous of her. It seems like there's an inside story." ... So what role did you play? On the surface, you didn't treat her well, but in reality, you were protecting her."

"Senior..." safilos smiled bitterly, "You shouldn't pry into other people's family matters, right?"

"Alright..." Lulu smiled, "When I'm old, I always like to gossip a little. Is that all?"

"That's all..." Safilos paused for a while, and finally said, "You tell her that she looks very much like her mother..."

"What else?"

"Nothing else..."

"Just like that?"

"Just like that..."

"Alright then..." Lulu did not waste any time as she turned around and walked out. With her back facing the other party, she waved her hand and said, "Let's Go..."

"Alright..." Safilos looked at the other party's carefree figure and replied indifferently. At this moment, his body had already disintegrated until only his head was left.

This time, he was really going to leave, right?

Safilos asked himself in his heart, "There shouldn't be a chance to do it again, right?"

But fortunately, at least he still had some time to react. The person who sent him away was even willing to let him say his last words... ..

Unlike last time, when he died so suddenly. If she could really deliver the message, then all this work wouldn't have been in vain...

Safilos' consciousness started to blur. He could clearly feel that the death realm was calling to him. Soon, he would become a real undead.

He didn't know what it was like over there. His mother shouldn't have turned into nothingness yet, right? Then would he be able to see her over there?

He heard that the death realm was very big, so he might not be able to see it. But what if he saw it and said something?

Say... . . Although you were so cruel and abandoned us, but you asked me to take care of that little girl, and I still did it? At least before I died, she was healthy and alive?

That's... . . can be justified, right?

Chapter 1272: The Truth of the decline of elves

"It's more important than I imagined..."

Looking at Lulu who was slowly walking out, the voice of the undead in the black fog carried a hint of complaint...

"I'm old... I'm always not so neat..." Lulu smiled.

"Bullsh * T..." An Ya sighed. "It's obviously an old habit of mine. I must have been talking nonsense for a long time..."

Lulu smiled and did not deny it.

"Why are you wasting your energy to talk nonsense with a person who is about to die?" An Ya could not help but ask.

"Because I'm in a good mood..." Lulu smiled and said, "Anyway, the remaining energy in my body is not enough for me to help you a second time after I awaken. How can I not use it?"

An Ya: "..."

What a free and easy way to say it...

It was also because of this character that the older generation who had tried their best disliked this guy's careless attitude the most. Therefore, when she found out that the person who came was this guy, an YA was actually a little surprised... ..

"I only have enough energy to use it once..." Lulu took a deep breath and looked at an ya. "I can't help you later. Can you do it alone?"

"Sure..." an ya replied seriously.

"Okay!" Lulu laughed as she took out a metal flask from her space bag. She opened the flask and immediately, a pungent smell of wine wafted into her nostrils, she took a sip happily. "No matter how many times you reincarnate and how your personality changes, this hobby will never change!"

An Ya immediately laughed as well. "That's right... martial uncle's personality will always be the same after several reincarnations..."

"Alright... Let's go..." Lulu waved her hand to chase him away, "Go do your thing, I've given you everything that belongs to you. You have to finish drinking before you fall asleep. If you mess up the matter, you might not have the chance in the future..."

“Uncle-master doesn’t have confidence in me?”

“It’s not that I don’t have confidence...”lulu smiled, “I’m mentally prepared. After all, it’s not the first time I’ve been disappointed after so many years. That old fart always said that he could solve the crisis of our race, which time did it succeed?”

“But this time, there really are Moon Elves...”

“So What?”Lulu took a sip of wine and said, “Having them doesn’t necessarily solve our problems. The Moon spring water doesn’t just require a secret recipe, it also needs people. What’s the use of a Moon Elf?”

“What if the Moon Elves can develop and grow?”

“Tch...”Lulu rolled her eyes and said, “If they can develop and grow, why are they hiding here? Can a deity accept all things and not the Moon Elves? Since they haven’t gone out for so long, it means that they can’t grow...”

“Martial uncle, you can tell?”Anya smiled.

“Isn’t that obvious?”Lulu sneered. “Do you really think I’m stupid? How long has it been since the elven civilization? Are they hiding here because they’re afraid that the myriad races won’t accept them? Other people don’t know how the Elven civilization collapsed, but don’t we know?”

“That’s right...”Anya sighed faintly.

According to other records, the decline of the elven civilization was due to the accumulated discontent of the ten thousand races over the years, civil strife, and the invasion of the void. There were many theories, but none of them were true.

The void invasion was indeed a great loss of vitality, but it was not just the elves who suffered a great loss of vitality. The ten thousand races who resisted together also suffered a great loss of vitality. Everyone was missing an arm or a leg, so who had the upper hand? At that time, the entire universe was in danger. Could it be that there was still a race that could hide their strength under the surveillance of the Elves?

There was indeed internal strife, but since ancient times, which civilization had not had internal strife? A single internal strife caused the collapse of an entire dynasty was a minority. After all, in most cases, the internal strife was also ended internally. Under the power of the elves at that time, no race could pluck their peaches.

As for the accumulated dissatisfaction of the thousands of races, it was even more ridiculous. With the fairy race controlling the memories and the fairy race tampering with time and space, which race would be dissatisfied?

As the ancient immortal palace that helped the elves build the dynasty in ancient times, they, the oldest living beings, knew clearly what had happened back then.

The real reason for the decline of the elves was due to degeneration! !

As the civilization that ruled the universe for the longest time, the elves at that time had experienced a long evolution after a long period of accumulation and having the most resources in their hands. The entire universe was filled with trees of life nourished by the green elves, and with these trees of life, the descendants of the Elves enjoyed the highest quality of life essence in the universe from birth, and the descendants that were born were also at the highest starting point.

Such a high starting point allowed the genes of the three elven royalty to get used to such a process. Due to the invasion of the Void, a large number of trees of life were destroyed, and the quality of the elven descendants rapidly declined.

How much had it declined to?

To the extent that they could hardly accept the genes of their elders!

High-quality pampering had indeed nurtured an extremely high quality of genes. However, because of such high-quality pampering, the genetic requirements of the elven royalty were extremely high. Such genes were naturally unable to be inherited by the descendants that were malnourished.

The descendants with low tolerance were barely able to inherit the genes, and the effects were less than one to two-tenths. After a few generations, the talent of the three great elven families became weaker and weaker. This was also the reason behind the chaos of the ten thousand races!

It was not because the ten thousand races were dissatisfied and eventually overthrew the elven civilization, but because the elves at that time were already so weak that they could no longer suppress the ten thousand races.

After the collapse of the Elven civilization, the descendants of the three great elven royal families were hunted down in all sorts of ways. Exhausted from running for their lives, they did not have enough resources. Each generation was getting weaker and weaker, and the genes of their ancestors were deteriorating from generation to generation, this was the real reason why the three great elves disappeared.

Almost as soon as they arrived at the Emerald Dream, an ya could roughly guess what happened to the Moon Elves.

Uncle-master was right. The reason why the Moon Elves did not go extinct but did not reappear in the pugilistic world was not because they were afraid of being hunted down by all the races. After all, it had already been so long. How could there still be any hatred?

The real reason was that they had not been able to solve the problem of their descendants deteriorating. The genes passed down by their elders did not have any outstanding descendants to inherit. The moon elves could not reproduce and grow. This was the reason why they had not come out of the mountains.

Other than hiding, the more important reason for creating the emerald dream realm was to recreate it. They wanted to create a life form that could accept the genes of the Moon Elves!

“They have never left, which means that they have never been solved!” Lulu finished the wine in the pot and took out another pot from her space bag. “If you want me to say it, you should just leave. There’s no

need to take such a big risk and fight to the death. It's not easy to come back, so you might as well go and seek refuge with Sylvanas. You can truly live the addiction of being a God!"

"No!" An Ya shook her head. "It's solved!"

"Huh? Ahem..." Lulu, who was drinking, choked. "What did you say?"

"I said... It's solved!" An YA said faintly, "About the problem of the Moon Elves' reproduction..."

"Nonsense?" Lulu frowned. "If it's really solved, why are we still here?"

"It wasn't resolved by them, but it was indeed resolved..." an ya took a deep breath and said seriously, "Martial uncle, this time... The Old Hall Master's prediction was right. Our clan is really saved this time!"

Lulu: "..."

Chapter 1273: only when there is light can there be shadows!

"How scary are these people..."

Maya looked up at the sky, looking at the dozens of ash flame greatswords that had been cut into two. She took a deep breath and curled her lips, "Just how many powerful characters are hidden among these people?"

"I actually want to ask the same question..."

In the Shadow Magic Region, a gloomy voice was heard, but the direction of the voice was very vague, as if it came from a place, but also from all directions, making people unable to figure it out.

"How many powerful characters are hiding in this group of people?"

"So I'm also listed as one of the powerful characters?" Maya smiled and bowed slightly, "That's really an honor..."

Maya's bow was a noble gesture of her clan. It was very complicated and beautiful, but from the perspective of a battle, it was full of flaws.

However, even with such a figure full of flaws, it still did not attract the attack that she had imagined. The entire shadow demon region was more peaceful and bright than she had imagined... ..

Maya slowly raised her head, narrowed her eyes and smiled. "I really didn't expect that the so-called shadow demon region would be so bright?"

Speaking of which, if it weren't for the fact that this place was filled with shadow power, it would be very difficult for people to think that this was the so-called shadow magic region. The terrain was flat, and the light was abundant. At a glance, one could see the entire scene of the entire region, it was really hard to imagine that the opponent would use such a terrain to set up the shadow magic region.

Just as she thought about it, a thin needle that was as thin as an ink line appeared in the originally bright space. It came very suddenly, and the angle was very tricky. In the instant that Maya was distracted, it suddenly appeared, and headed straight for her throat!

Maya's expression tensed up slightly. She was surprised but did not panic. Her body moved smoothly as she retreated rapidly. From the moment she discovered the attack to the moment when her feet exerted force, to the moment when her body moved like a snowflake, her entire movement was extremely smooth, giving people a shocking sense of beauty.

However, in the split second that Maya was retreating, the space behind her that was originally empty suddenly appeared densely packed with ink threads. With a density that almost filled up the space behind her, they suddenly attacked Maya!

In mid-air, Maya, who was unable to land and turn around, was not in a hurry at all. She turned around and stepped lightly in the empty space. It was as if she had stepped on solid ground, and her body seemed to have gained strength again, with a very delicate turn, she dodged the dense spikes behind her.

However, the attack did not end there. Without any warning, dense spikes suddenly appeared in the sky, on the ground, and in all directions that could be seen, sealing off all her routes!

Maya smiled and quickly twisted her body, weaving through the dense black spikes with incomparable lightness, like a white snowflake dancing gracefully. It seemed slow, but at the same time, it made people feel as if they could not catch it no matter how hard they tried!

Just like that, a snowflake continued to spread under the pursuit of countless black spikes, causing the originally bright space to be quickly dyed black, as if a piece of white paper was quickly dyed black by ink.

As for the only snow-white figure, she was still as light as before, shuttling through the countless black shadows. No matter how large she was, it seemed like she could not catch her!

However, as the number of black shadows increased, the amount of space that Maya could move became less and less, as if it was becoming more and more laborious. However, there was not the slightest hint of panic on Maya's face, as she continued to calmly dodge towards the bright area. Within the span of a few dozen breaths., the previously bright space had now become pitch black.

If this continued, there would be no place to hide sooner or later.

That moment came very quickly. When Maya managed to jump to the last point of light with much difficulty, her expression did not change much in the face of the black shadows that filled the sky. Instead, she stood up straight, waiting for something... ..

However, a surprising scene appeared. This last point of light was like a solid barrier, and the black shadow that devoured the light of the space was still unable to dye this last point of light black... ..

"You're not going to hide anymore?" A gloomy voice sounded. In the endless darkness, the illusory voice seemed to be more solid... ..

Maya smiled slightly. "Why should I hide? You Can't touch this place..."

As soon as she said that, the voice in the darkness fell into silence. After a long while, it said faintly, "How did you find out?"

“Because your first strike was too scary...” . “...” . Maya smiled and said, “It gave me the feeling that I would die immediately if I was touched. But strangely, as the light became less and less, there were more and more black shadows. The sense of danger that the scattered black shadows gave me became less and less.”

“At first, I felt that it didn’t make sense. There were more and more shadows, so why did the sense of danger become less and less? Later, I realized that it was a shadow. In this world, only light can make shadows...”

“I see...”the shadow quickly retreated, and the entire space became as bright and beautiful as before. A shadow stood up and appeared a hundred meters away. It was the Shadow Demon Neyfal. ...

Neyfal stared fixedly at Maya, and finally sighed, “Are the descendants of the great families of the federation all as powerful as you?”

“I should be considered as an outstanding person!”Maya smiled unmodestly.

She wasn’t being modest. Her family was already a famous assassin family. Even if their reputation wasn’t as good as the Templar family, they were still famous in the field of assassins. and in her family, the only one who could compare to her... Was the current young patriarch of her family, Natasha...

“I see...”Neyfal nodded. His expression couldn’t be seen clearly in the shadows.

Maya was smiling on the surface, but she was very vigilant in her heart. This distance was the distance that assassins could kill at, but she did not dare to act rashly. Just like what she had guessed earlier, the stronger the light, the more concentrated the shadow power would be, for example, now that the entire domain was lit up, the opponent’s attack was actually the most terrifying.

Because all the shadow power was currently on the opponent’s body... ..

“I’m very curious...”Maya was the first to speak, “Why did you choose to cooperate with it?”

Neyfal raised his head slightly, the short shadow looked at Maya’s tall body and said in a low voice, “Why can’t I cooperate with it?”

“Because I don’t think it’s necessary...”Maya smiled and said, “Your companions are relying on it because they have no other choice, they have no choice, you don’t have the need at all...”

“You’re not me, how do you know that I don’t have to?”

Maya paused for a moment, then smiled. “That’s right, I’m being rude...”

“There’s nothing else to ask, right?”Neyfal looked at her and asked seriously.

Maya’s smile disappeared, and her eyes showed a trace of solemnity. She shook her head slightly, and a silver moon-like radiance flashed in her hand. A silver flywheel appeared in her hand, and at the same time, countless flywheels floated around her.

Mirror folding! !

Neyfal tilted his head and said in a hoarse voice, “If this is your trump card, then I’m afraid you won’t be able to walk out today...”

Chapter 1274: "I said I could kill you, right?"?

"You really dare to say that..." Maya looked at him with a smile. "You think you can do it just because you have something to rely on? It seems like I have to remind you of your previous pathetic state..."

"It won't happen again!" Neyfal said quietly.

As soon as he finished his words, his figure appeared in a ghostly manner. A slender shadow thorn in his hand was aimed straight at Maya's vital point... ..

Very quickly!

Maya's pupils constricted as she took a few steps back. However, she was more puzzled. The other party's speed was indeed much faster than before, but it was not too exaggerated. At the very least, she was able to react in time.

However, was this the extent of the shadow demon region?

At the thought of this, the mirror in her hand quickly revolved, and countless flywheels turned into a silver screen of light that shot towards the other party!

Bang! !

A crisp sound rang out, and the top-tier alchemy weapon made of Moonstone shattered like glass in the face of the shadow spike!

Maya was shocked, and quickly retreated!

What kind of joke was this?

That was an alchemy weapon made of Moonstone, a top-tier alchemy weapon, and it had actually been shattered?

This set of equipment had cost her a lot of money to get the number one blacksmith of the Eastern Star region to forge it. It was a top-tier alchemy weapon that could cause damage to a life sea-level Titan!

She could understand if the other party could rely on this massive shadow power to resist her alchemy weapon. However, the fact that it had been shattered in an instant had truly frightened her!

Radiant Flame! !

The moonlight in Maya's hand flashed, and the full moon instantly turned into a strangely shaped firearm. Without hesitation, Maya pulled the trigger, and a stream of moon-blue Flames gushed out. The powerful recoil helped Maya retreat even faster, meanwhile, the moon-blue flame shot out from the muzzle quickly spread in front of her, turning into a wall of fire!

However, the next second, something strange happened. Just as Maya was retreating rapidly, a black flame suddenly ignited, and like her own Moon Flame, it turned into a wall of fire that quickly blocked off all her escape routes!

The muscles all over Maya's body bulged, and her rapidly retreating figure came to an unreasonable stop without any buffer!

"How can a human escape from a Shadow?"

Neyfal's faint voice rang out from the flames, and with the shadow spike in his hand, he suddenly emerged from the flames without any warning and stabbed towards her.

Maya, who had forcefully stopped her figure, did not have any breathing space, but she reacted at the first moment. The flame spear in her hand quickly turned into a slender longsword, and with a twist of her wrist, the longsword turned..., bringing along a sharp sword shadow, she quickly stabbed towards Neyfal!

She did not choose to use the weapon in her hand to defend against the opponent's shadow spear. From the broken broken mirror, it was impossible to do so. Therefore, Maya's method was very extreme. She directly avoided the weapon and stabbed towards Neyfal!

She attacked first, but the swift sword was one step ahead of her opponent and stabbed towards Neyfal's vital point!

"Good move! !"Nefal couldn't help but praise.

As an assassin, most of them were proficient in short weapons because they were more agile. However, his opponent was not only proficient in spear techniques, but also had such sharp sword techniques!

It was no different from those big sword ladies or big sword heroes that he had seen in the Cosmic Battlefield!

This made him curious, how many things did this woman know?

She was a young star-level creature with a growth ring. Not only was she proficient in the path of assassins, but she was also proficient in Arcana. She was also a top-notch illusionist. Now, it seemed that she was also a top-notch weapon master!

Wasn't this guy learning too many things?

But the key was that he was learning so many things, yet he was so powerful. Every one of them was worthy of the word "Master"!

Nevar narrowed his eyes. He did not choose to fight to the death with his opponent. The shadow spike in his hand quickly disappeared, and his body turned into something like a blob of ink, quickly dissipating...

The brave would win in a narrow path. It was obvious that Nevar was weak. However, with Nevar retreating, Maya did not gain any advantage. Instead, she fell into the next predicament.

The black flames that had been burning behind her had already surrounded her when she stopped fighting with Nevar. At this moment, she was completely surrounded in all directions. There was no way out!

Tong Bi! !

The Longsword in Maya's hand once again transformed into a long, dark green sniper rifle. Maya aimed in one direction and fired a shot. However, the sniper bullets that flew out from the tong bi rifle's muzzle melted the moment they touched the black flames!

"Looks like it's not a good-looking thing..." Maya muttered to herself.

The intensity of this flame was obviously on the same level as her own Ying Yan!

"The shadow is naturally based on the reference object..." Nevar's faint voice came from all directions once again. "The shadow is as strong as you are, so what should we do now? Excellent people from the federation..."

"Tsk..." Maya clicked her tongue and chuckled. "This is the first time I've seen a demon play so extravagantly... It's rare..."

"In your eyes, demons are a bunch of creatures that know how to use brute force?"

"More or less..." facing the approaching flames, Maya was not nervous at all. She still replied indifferently, "Actually, you're not an exception. Playing with such flowers is obviously not your forte..."

As she said that, the jade green in Maya's hand changed into a sparkling flame gun once again. However, this time, Maya did not have the intention to shoot. Instead, she performed a spell on the sparkling flame gun's muzzle.

Dissolve! ! !

A rune flashed, and the sparkling flame gun quickly turned into several gun parts. Meanwhile, the flame of the Moon that was shot by the gun in the distance began to weaken rapidly as the gun was disintegrated.

Strangely, as the flame of the moon weakened and dissipated, the ferocious black flame actually began to weaken and slowly dissipate as well... ..

"You're really not an ordinary smart person..." NEFAL said faintly.

"It's your things that are too stupid..." "...". Maya smiled and said, "I've already said that the stronger the reference object, the stronger the shadow. Without the shadow, the reference object would naturally be gone. How Smart do you think you have to be to understand such a simple principle? "Do you think your design is very exquisite?"

Neyfal:"..."

"Alright..." Maya let out a lazy sigh. The moonlight in her hand flashed and once again transformed into a slender sword.

"You're not suitable to play with this kind of flower. You should be more serious and use what you're best at. Oh... No, I should say that it's more appropriate to use the method that demons are best at..."

"Is that so?"

Nefal responded faintly and slowly walked out from the last black dot that disappeared from the black flame.

He stared at Maya coldly for a long while before he said faintly, "Do you know? Actually, the moment you entered the domain, I could have killed you!"

"Oh?" Maya smiled. "You're really getting more talkative every time..."

As soon as she said the word 'AH', Maya's expression froze, because in that instant, the other party appeared in front of her, and in that instant, the other party removed her head... ..

From her perspective, she could clearly see that the headless body that belonged to her was still standing in front of her...

"Look..." Nevar's voice whispered in Maya's ear, "I said I can kill you, right?"

Chapter 1275: perhaps you have become weaker?

Fast... incredibly fast! !

Maya stared blankly at her headless body, which was standing on the spot. Her muscles were no different from before. Obviously, neither her eyes nor her body could react in time.

"Your Luck is pretty bad..." "..." nefal's indifferent voice sounded again. "Actually, with your skills, whether it's the flame demon region or the blood demon region, you could have escaped unscathed. Even if you went to the wind demon region where Safilos was, you wouldn't have died so defenceless. But you chose me "... ". "..."

Maya:" ..."

"Perhaps you think that I'll be the weakest among them..." "..." This thought was not wrong. Among the ten great army commanders, I'm indeed the weakest, but it's different in the domain... "The shadow demon region is different from other domains. It's not suitable for group battles, so it rarely appears on the battlefield. Shadow power is the most easily compressed type of energy, so the effects of the shadow demon region are not suitable for an army, but only for individuals. It's a domain that can perfectly fuse the energy of the entire activation star into an individual, and it's the most effective in strengthening an individual among the many activation stars "... "..."

After a pause, he continued, "Do you know how Lord Bolton killed a giant dragon to make a living star? It was me who used the shadow demon territory to assassinate that Dragon..."

"Oh... you shouldn't be able to hear what I'm saying now, right?"

In the shadows, Nefal's shadow retreated, revealing an incomparably handsome face. He looked at the bright and beautiful sky with emotion, his eyes were filled with complicated emotions. "Actually, I really don't like this. I could have done something amazing, but no one knew. Just like this time. Look, the only person who saw all of this was so fragile..."

"This... pretentious..."

A faint female voice sounded. Nefal's body stiffened, and he looked over in shock.

He was shocked because he realized that the voice seemed to be Maya's voice, and it was coming from his hand.

The head in his hand had a strange expression on its face with a hint of a smile. "I thought you were a precocious young man, but it turns out that you're a coquettish guy..."

Nefal:"..."

What was wrong with this guy? Why could he still talk?

It was not unusual for him to be able to talk even after removing his head. He had even seen some creatures that could survive even after being chopped into pieces.

But that was different. He had clearly felt that the other party's life force was indeed gone... ..

If not for that, how could he have retreated so easily from the shadows?

A chill surged into his heart. Nefal reflexively threw the other party's head out and quickly retreated!

The head that was thrown away floated in mid-air for a while before returning to the upright body.

What the hell is this...

Nefal quickly retreated as the surrounding shadow power quickly spread over and gathered on his body once again. Soon, the slender and handsome young man was once again covered by the shadow, turning into a standing shadow.

The familiar shadow power returned to his body, and NEFAL, who had just lost his sense of security, once again calmed down. He looked coldly at Maya, who was twisting her neck.

"The Clown clan's tricks are indeed quite unskilled..." Maya laughed. "Actually, it looks very unnatural, but you don't seem to think that it's an accident at all..."

"I just didn't think that you would learn all sorts of funny things..." "...". "Don't you think that it's a waste of your talent?" Nefal's voice returned to its usual calm? "If you were focused, perhaps your current achievements would be far more than that, right?"

"But I'm such a person..." Maya giggled and said, "I'm passionate about many things, but I'm just so smart that I can learn everything well before the enthusiasm fades!"

She was really bragging about her talent...

Nevar took a deep breath and decided to skip this topic. He looked at her with a deep gaze and said coldly, "You know what? Your Pride just now made you lose your last chance to make a comeback!"

Indeed, if she wanted to kill him, the moment the shadow power faded was the best chance. He was also surprised that she did not make a move. Did she not realize it or did she think that those little tricks could fool him again?

What did she think she was?

At the thought of this, a strong killing intent entered her heart...

“It is indeed very unexpected...”. Maya smiled and said, “The ability of the shadow magic region is indeed something that I did not expect. To be honest, if you had used this ability from the beginning, I would have died. I am glad that you are not a professional assassin, but a child who wants to show off his skills!”

“A child who wants to show off his skills?” NEFAL sneered. “You make it sound like I have missed the opportunity to kill you!”

“Yes...” Maya stared at him. “You have missed it!”

“Is that so?”

As Nefal finished his sentence, he appeared behind Maya like a ghost once again, and his Black Hand grabbed at the back of her neck like the last time.

There was no point in talking nonsense. If he wanted to prove it, he just had to remove her head again. This time, he would crush her head immediately!

However, just as his hand of shadow was about to touch the target, Maya’s head seemed to have eyes. She leaned forward slightly and easily avoided his grasp...

Nefal’s pupils constricted as all kinds of possible explanations flashed through his mind.

Was it a coincidence? Or did she calculate his attack route?

It didn’t matter. No matter which one it was, it wasn’t enough to save her life. He just needed to change his route. After all, the difference between them was..! ... hard power!

Thinking of this, he didn’t hesitate at all. He turned his body and instantly changed his position. With a diving posture, he went straight for the opponent’s vital point. This time, he didn’t insist on taking the opponent’s head, as long as he could kill her.

This was to prevent the opponent from using his arrogance to continue guessing his route, but he wouldn’t let her get what she wanted!

He really wanted to take the opponent’s head off for the second time and reveal it, and then say in satisfaction, “You see, I can still do it, and then crush her head under the opponent’s unwilling expression.”.

But he didn’t want to be played a second time...

Even though it was just a meaningless delay...

However, a strange thing happened again. Even if he changed his attack route and completely changed his thinking, this attack was still dodged by the other party.

Nefal’s heart skipped a beat. He did not believe it and continued his pursuit. One move, two moves...

After dozens of moves, he discovered an unbelievable fact. The other party was able to dodge him not because she had guessed his attack route, but because the other party could clearly see his attack.

In other words... ... The opponent’s speed was the same as his!

“How is it possible? Did you hide your strength?” Nefal stopped chasing and asked in disbelief.

“ER... not really...” Maya also stopped and stood a hundred meters away, tilting her head and said, “My skills are not much different from what you encountered in the beginning.”

“Nonsense!”

“I’m not talking nonsense...” Maya smiled. “Haven’t you ever thought that maybe it’s not me that’s getting stronger, but you that’s getting weaker?”

‘I’m getting weaker?’?

Nefal was stunned. He was about to retort, but he suddenly felt that something was not right... ..

As soon as she said that she was getting weaker, he felt that his body seemed to have reacted to something. He only felt it after he took a closer look... .. It’s like... .. Around... ..

Suddenly, he looked around, and then he suddenly realized that he didn’t know when... ! ... outside the realm! Oh! Oh! !!

Chapter 1276: he... He shouldn’t be too embarrassed, right?

When... was this?

Nevar looked into the distance in shock. It was a pitch-black space. After losing control, the shadow power began to wreak havoc. It was no longer as bright and beautiful as before. The reason was that the master of the domain had arrived outside the domain... ..

“It was only... a few minutes ago...” Maya said with a smile.

Nevar opened his mouth and looked at the domain behind Maya. He knew that the other party would not give him a chance to go over!

But how did she do it?

Was she purely relying on seduction?

How was that possible?

No matter how complacent he was, it was impossible for him to be lured out of the domain without knowing it, right? After all, when he attacked Maya just now, he did not see the large shadow space behind her.

At this moment, he suddenly remembered that the guy in front of him was a top-notch illusionist...

“An illusion?”

“You only reacted now?” Maya yawned...

“When?” Neyfal asked in a daze.

Maya: “In the beginning!”

“In the beginning?” Neyfal tried hard to recall all the details after the other party entered the domain, but he couldn’t figure out when the other party had cast an illusion on him.

And it shouldn’t be. From the moment the other party entered the domain, he had concentrated his shadow power. The difference in size between them had caused the difference in strength between the two parties to be one level lower, every movement of the other party was so slow in his eyes that it made people doze off. How could she possibly cast an illusion on him in that state?

It shouldn’t be...

“Looking at your silly appearance, it’s obvious that you haven’t reacted...” Maya sighed faintly. “I thought that you were smarter than the average demon, but in fact, it seems to be about the same...”

Nevar’s expression turned ugly.

“What I said, it’s the beginning, do you understand? It’s not the beginning here!”

Nevar: “! !”

Looking at Nevar’s surprised expression, Maya let out a sigh of relief. “Looks like you finally understand...”

“Then... at that time?” Nevar froze on the spot.

He understood what the other party meant. The other party did not mean the beginning of their meeting, but the beginning of their first meeting. In other words, the other party had already cast an illusion on him at that time. He had cast an illusion ahead of time. If he wanted to activate the illusion, he only needed to be able to see the hint of movement. No matter how slow the other party’s movement was, this was obviously something that could be done... ..

“Could it be that... you had already predicted this at that time?” Neyfal could not believe it. ...

“Not that godly...” Maya smiled. “At that time, I just thought that you would be able to live to the end. I might be able to use the next illusion at the critical moment, but I didn’t expect that you would have such a rich plot later on...”

Neyfal stared at her blankly. After a long while, he finally let out a long sigh. “So... you dared to come alone, so you chose me?”

“Of course...” Maya said matter-of-factly. “Why would I come if I’m not confident? To give my head away?”

“I see...” Nevar wanted to nod, however, he suddenly realized that he could not do it. He was stunned for a moment before he realized that his entire body had been frozen by a purple energy. As a shadow demon, he was actually completely confined. He could not even turn into a shadow!

“Falling light!” Maya did not wait for the other party to open his mouth to explain, “The last item in the Brightmoon weapon is a sealed artifact. It is specially used to deal with elemental bodies like you...”

“Is that so...” the corner of Nevar’s mouth curled up into a faint bitter smile. That was true. The other party was not him, so why would he start showing off proudly without any backup plan?

“Do you have anything else to say?” Maya slowly approached with the silver moon in her hand.

Nefal looked at her and asked the same question that he had asked before, “Are all the descendants of the big families in the federation as powerful as you?”

Maya smiled. “I told you, I’m the best!”

“Is that so?” Nefal smiled and finally closed his eyes. “Then that’s it, there’s nothing else to ask...”

As soon as he finished speaking, a ray of moonlight flashed past, and NEYFAL’s entire body was split into two halves!

“I really can’t be careless...” Maya rubbed her neck. “I almost rolled over...”

Before this, she had naturally chosen a person to come to the shadow demon territory. The little shadow demon had been affected by her illusion spell, and as long as she performed it properly, she would definitely be able to lure him out of the territory. This method would not work on the other demons in the other territories. The only thing that would work on him was that he was a living person. Unlike the other undead, he would die after leaving the domain and would be on alert...

Even if she did not succeed, with the illusion as a cover, it would not be a big problem for her to escape unscathed. However, she did not expect the boost from the other party’s domain to be so exaggerated. She almost did not even use anything before she became a dog... ..

Therefore, this world was really dangerous...

Maya smiled and waved her hand casually. A rune lit up, and an elegant singing voice was immediately heard from within the rune.

If an older undead was here, they would definitely be able to hear that it was the chant of a banshee...

It was a spell created by Sylvanas. It was used to appease the vengeful spirits and send them back to the world of death. In the ancient Chinese way of speaking, it was called crossing over...

She did not want him to be used again by the mantis, who could not be fooled again...

The graceful and beautiful song slowly rose with Nevar’s soul, until the shadow demon territory disappeared from her eyes. Then she turned off the Banshee song and looked at the World Core at the center of the Territory!

— — —

Is This... dying?

Nevar felt that his consciousness was slowly being stripped away, in a very strange state, from the world he had once known.

I guess that’s what it’s like on the books to go to the dead?

In a flash, many images flashed through my mind. My life memories flashed through my mind like a passing lantern. I was isolated by my own kind when I was young, I worked hard in silence, and then I

was valued by Burton. He walked towards a small climax in his life, and everything seemed to be happening all over again... ..

But in the end, the passing lantern stopped moving in an image.

In that image was a starry night, with only him and Saab.

In his memories, Saab looked at him with a funny expression. "You don't seem to feel sad about your brother's death at all? I heard that he treated you quite well..."

"This has nothing to do with whether he treated you well or not..." . "...". In the image, Sab did not conceal his disdain towards his dead brother at all. "He was clearly much stronger than that federation assassin, yet he still died at the hands of the other party. He relied too much on his own talent and did not have the slightest bit of brain. He did not know how to think at all. For such a person, even if a hundred or a thousand of them died, it would still be a foolish death. What's there to feel sad about?"

"It was stupid, but it wasn't wrong... Saab laughed and said, "In order to make up for the gap in their talent, those fellows from the federation have spent a lot of time and effort on their research. This wisdom has been passed down from generation to generation. If you can't beat them head-on, you should think of ways to solve the genes that are engraved in their bones. This kind of thing is not something that you can learn just by going out and taking a look . . ."..."Sab sighed as he spoke, he patted Nevar's shoulder and said, "You thought that you were different from your compatriots. One day, you will discover that you are actually the same. There is a reason why we demons have been unable to walk out of the abyss for such a long time..."

Up until now, he still did not agree with SAB's words. After all, it was as if he was saying that the genes of demons did not include the word 'smart'...

However, there was one point that he was right about. He was no different from those stupid compatriots who had died. In the end, he was played to death by a federation person who was far weaker than him but smarter than him...

However, she said that she was the cream of the crop. He should not be too embarrassed, right?

Chapter 1277: I Know You guys really haven't fought before...

"Three!"

The principal looked at the sky in surprise, obviously in disbelief.

"So Fast?"Seer, who was also playing along, was also stunned.

Three... ! ... It meant that at least the dream wouldn't be completely infected, at least there was still room for reversal!

"Who took care of it again?"Xi Ye asked curiously.

"Little Maya..."the principal said with a complicated expression.

Xi Ye was stunned for a moment and said with some hesitation, "Is it that... the woman who walked the whole journey alone?"

"Yes..."

"You're right..." Xi ye immediately sighed when he heard that. "She really has a way to do it. She's really amazing..."

"She's really amazing..." the principal took a deep breath.

He was in a complicated mood now. What he had judged before was that Little Maya dared to do this, so she had at least a little confidence. The success rate was at least higher than Andrew's, but it was not much higher, if Andrew's success rate was 1% , her success rate was at most 5% .

But both families had done it...

How should I put it...

The person who participated in this incident was really more important than expected... ..

At the thought of this, he looked at seer. This guy was still the same as before, with a thick iron lump, making it hard to see what he was thinking.

But from the look in his eyes, he did not seem to have much of a change.

Was his reaction slow, or did he really not care?

But no matter what, the result seemed to be good for the time being. The three most difficult areas had been gnawed off, and the remaining two were places where he had a higher chance of winning...

Just as he was thinking about this, three black shadows suddenly flew over in a hurry from the distance.

They came very quickly, so the headmaster, an old man who was slow in fighting, didn't even take any defensive measures. But soon, he saw who they were and immediately let his guard down.

The three who had arrived were the Vienne trio who had gone on a mission to conquer the blood demon region.

At this moment, the three of them looked rather miserable. There were many wounds on their bodies, and from the looks of it, their qi and blood were in a decline. They looked very weak... ..

The only one who looked better was Vera, but that was all. From the dull look in her eyes, it was obvious that her spiritual power had been greatly depleted.

It looked like he had gone through a tough battle, but... ..

The principal looked into the distance. The blood-red light that soared into the sky had not disappeared, which meant... .. The blood demon region had not been broken through!

"We won?"

Xi Ye stood up and asked immediately.

He was not mocking them. As a small lord, he could not see the distance of thousands of kilometers. Coupled with the news of victory from the previous three domains, he felt that the three of them were almost certain to take down the blood demon region.

After all, that blood demon, Saab, always looked sickly, as if he was easy to fight.

Vienne and Lanaya's faces stiffened. They looked at seer with hostility.

Seer was stunned by the stare. He asked cautiously, "You haven't fought before?"

Lanaya pursed her lips and said nothing with a cold face. It was Vienne who looked at seer and said, "I'm sorry to disappoint you, Sir..."

"Uh..." seer rubbed his hands together in a slightly brilliant manner. "Look at what you're saying. What do you mean by letting you down? As long as you're safe..."

The expressions of the two of them turned slightly better when they heard that, lanaya also said, "It's harder to deal with than I imagined. This fellow is very different from the abyss demons I've seen before. Many of the Federation's Master Assassins aren't as experienced as him. It seems that I haven't wasted my time in the federation over the past few epochs."

Vaughn nodded. "I've fought with him before, and I know that this fellow is very different. I didn't expect that he would be even harder to deal with this time. With Vera holding us back, Lanaya and I were unable to find the slightest flaw, allowing the other party to drag us down until our strength is exhausted. To be honest, if it wasn't for Vera covering us, the two of us might not have been able to come out...". "..."

"That's all... I didn't do anything..." Vera said, a little embarrassed.

She felt weird. She was very happy that the two of them praised Saab, but she also knew that it was not good to be happy at this time...

The principal behind her also let out a sigh of relief. She was about to say something to ease the atmosphere, but seer's voice soon sounded again.

"It's fine, it's fine... anyway, we've already won three battles. It's fine if you guys haven't done it yet..."

This mallet overlord... ... the principal overlord's expression froze, and he covered his head speechlessly.

As soon as he said this, Vienne and Lanaya's expressions froze once again... ...

"You've won three battles?" Lanaya could not help but ask first, "Which three?"

Seer said, "I didn't expect to win in the hardest three. The principal estimated that your chances of success should be the highest. Sigh... it's really hard to predict..."

Lanaya was speechless

To be honest, if not for the contract, she would have wanted to stab this guy to death right now... ...

"The Lord did it on purpose, didn't he?"

Li Goudan whispered from afar.

“UH... it looks like...”brother dog said hesitantly, “It seems like...”

“On purpose! On purpose!”Little cabbage jeered.

“That Little Flower Spirit!”

Just as little cabbage was happily jeering, Lanaya’s cold voice suddenly sounded.

“Eh...”little cabbage’s head instantly shrunk and immediately looked over like a kitten.

“Come over and help me treat my wound...”Lanaya said calmly.

“Okay!”The little cabbage ran over.

Brother Dog and Eggface curled their lips. This spineless...

On the other side, Vaughn did not say anything else and quietly followed behind Lanaya. No matter what the reason was, if they had not fought before, they had not fought before. At this time, they could not argue with a little lord in a justified manner... ..

Seer immediately sighed to himself. ‘could it be that the two allies I’ve recruited are the weakest?’?

Thinking of this, he felt that his future was bleak. He then looked at the principal. “Senior, what would happen if we only won three rounds?”

The principal immediately looked at seer in surprise. “The final result hasn’t even come out yet. Do you think that the other side will definitely lose?”

After all, according to his speculation, the side with the highest win rate was Vaughn’s side and Lord Volgu’s side... ..

“I think... if he only won two rounds now, he might win, but if he has already won three rounds, then it’s hard to say...”Xi ye nodded.

The principal was stunned. Xi Ye was obviously saying that the other side would fake a match?

“How is that possible?”

“That depends on whether the consequences are acceptable...”Xi ye said faintly, “That’s why I’m asking you, if you only win three times, what are the consequences?”

The principal paused for a moment, after thinking for a moment, he looked up and said, “If you win all five times, then the idea of the Yimo controlling the emerald dream realm will be completely ruined. The side effects of infecting the Emerald Dream realm beyond one’s level will instantly erupt. I reckon that you won’t have to worry about this Yimo in the future. But if you only win three times, then the other party will at least be able to infect two cores, and have at least one-third of the Emerald Dream Realm. There’s a little chance of turning the tables!”

When Vera heard Xi Ye’s question, she raised her head carefully and said, “We... We really tried our best...”

“Oh, OH, I know, I know!”Xi ye smiled and said, “I’m not referring to you guys in the fake match. I know that the three of you really haven’t played before...”

Everyone: "..."

Chapter 1278: Something has entered!

"My Liege... actually, we can still activate that..."

Outside the Rock Demon Region, Vogu and Billy appeared to be in a sorry state, but their formation was much bigger than the other allies.

After the planet's space was merged, Vogu gathered Billy and a bunch of his former subordinates through the deity's domain to form a mechanical regiment.

It was also because of this that the principal had a high prediction of Vogu's team's chances of winning. In his heart, he even thought that it was the highest.

However, he didn't expect that they would be like Vien and retreat in defeat... ..

"This is too exaggerated..."the mechanic under him complained secretly through voice transmission. "Is this guy a rock demon? Is He a dragon turtle? He can't even be defeated by using the interstellar cannon in his shell..."

"That's right. It feels like the black rock element is inexhaustible. No matter how hard we try, it can't break through the defense..."another mecha operator added.

With the help of the Lord's special domain, their mecha clan directly used the top-tier mechanical equipment of their forces in the domain. In an instant, they assembled all kinds of star-level equipment, their mecha were strengthened by dozens of times under the enhancement of the domain!

Under the domain, team leader-level mecha operators could directly rely on the domain to use a single mecha to use certain star-class weapons, increasing their combat strength by nearly a hundred times, this was also the first time many mecha operators saw their own territory lord's domain being so powerful!

But even so, they still couldn't win.

The rock demon from the rock demon territory was like a giant dragon turtle that couldn't be broken. No matter how powerful the weapon was, it would be blocked by the thick outer shell. Moreover, the rich black rock elements could quickly repair the damaged areas every time. The speed of repair was much faster than the speed of destruction. This indestructible shield made many mecha operators dumbfounded... ..

Among the many factions, the mechanical faction was the faction with the most firepower. In terms of frontal ability, it was definitely the first tier among the lord factions. When facing other factions, the other party would always avoid a frontal exchange of fire. After using a roundabout tactic to deal with them, this was the first time in so many years that they had encountered a situation where they couldn't win a head-on confrontation.

For a moment, everyone revealed a look of frustration.

After all, they had just seen the scene of the gigantic Ashen Flame Greatsword in the sky being cut in two. Compared to them, the other factions were much stronger.

And they heard that it wasn't just one force, it seemed to be just two people... ..

Looking at the low morale of the team, Billy frowned and secretly asked Lord Vogu about this topic, "Lord... Actually, we can still activate that..."

Compared to Billy, Vogu didn't seem to care much about the low morale of the team. Seeing that Billy only smiled and shook his head, "There's no need..."

"There's no need?" Billy frowned and looked around. This blow was not small... ..

The people gathered were all advanced mecha operators. Their vision was very good. Naturally, they could see that three areas had been resolved. There was even one area that had been resolved single-handedly. On her side, she had even brought troops.

To be honest, if she did not know that she still had an ace card that she had not used, she would have lost some confidence, especially when she saw the scene of the sword cutting off the ashen flames sword in mid-air...

Looking at Billy's appearance..., Vogu said patiently, "If these three families didn't win, we naturally couldn't hold back. We had to try our best to take it down quickly. After all, if the entire Emerald Dream was infected by that thing, there would be nothing left. However, there isn't any now. Someone has already done everything for us. Why do we still have to blow our trump card?"

"This..." Billy frowned and looked around. "But this morale..."

"We can think of a way to deal with morale later, but we only have one trump card..." Vogu said in a low voice, "If we use it on the minions, what will we do in the future?"

"The Lord is right..." Billy hesitated and nodded, but in the end, he still asked carefully, "But we haven't solved it yet. What if that thing can use this to do something?"

"We want it to do something. Now that it's gone, it'll be troublesome..." Vogu looked at the sky with a strange look and said faintly, "You've seen it too. These guys who came in this time, there are crouching tigers and hidden dragons..."

Billy nodded in agreement with this sentence. Putting everything else aside, just talking about the Demon Liege, if it wasn't for Andrew wiping it out in one go, with the activation stars under his hands, it would probably be difficult for them to fight.

Not to mention the strange things that appeared later, the illusionist, the dean of the White Dragon Sacred Academy, the mysterious Little Lord, and even the people of the ancient Titan army had come...

Right, there was also the undead that was about the same size as Andrew!

"Lord, the one in the sky..." Billy pointed to the sky where there was still a sword mark. "Was it done by that undead?"

Vogu looked at the sky and shook his head. "It shouldn't be..."

“It shouldn’t be?” Billy was stunned.

Vogu: “It should be done by that fairy...”

“That girl?” Billy’s pupils constricted. Did she mean that there was another hidden dragon and crouching tiger?

This made him think to himself, this time... “...”. “Will they really have a chance?”?

“Huh?”

Just as Billy was lamenting the situation, the Lord, who had always been calm, suddenly changed his expression.

“What is it, Lord?” Billy looked at Vogu in surprise.

The Lord had always been calm and collected. Even if there was a yimo, a Dragon King, a Titan Corps commander, and even if he saw the shocking sword attack just now., the Lord was still very calm.

But this time...

“Something came in...” Vogu looked at a place with a serious expression.

“Something?” Billy followed the other person’s gaze, but he didn’t see anything. He couldn’t help but wonder, “What are you referring to, Lord?”

“Something very troublesome...” vogu said faintly, “Quite troublesome...”

“Tut...” Billy’s face fell: Well, another one! ! !

——— —

“Huh?”

In the distance, Andrew, who was walking in front, suddenly stopped and looked at the sky in surprise. His pale face under the black fog revealed a grave expression.

Behind the rain woman without melon Diana Blank, although she can not see Andrew’s face, but also clearly felt the other side emotional fluctuations.

“What’s Wrong?”

“A variable has appeared...” Andrew said faintly.

“A variable?” Diana frowned. “There’s still a variable at this time?”

Andrew: “Yes...”

It was a very easy answer, but it was also very solemn.

“What is it?” Diana could not help but ask.

“The same thing...” Andrew pointed at the infected land on the ground, but then he said, “It’s not exactly the same. In some cases, this newcomer might be more troublesome!”

Chapter 1279: the Second Yimo (Part 1)

“The same thing?” Diana’s expression tensed up. “Is... is it that?”

Andrew: “Yes...”

“How could it be...” Diana’s expression turned pale. One of them had almost destroyed the emerald dream, and there was actually a second one. ...

“This is actually not rare... ...” Andrew said faintly, “This group of things have always lived by luck. Wherever there is a big opportunity, there will be them. The opportunity here is big enough, so it’s not rare to attract so many of these things.”

“From your tone, you seem to have seen a lot?” Diana said faintly.

“No...” Andrew shook his head, “This thing has always been secretive. Although there are many records in the information, this is the first time I’ve seen a real thing. I didn’t expect to see two of them at once. It’s really worth the trip...”

The corner of Diana’s mouth twitched, but then she said seriously, “Did you just say that the one that came later is more troublesome? Is it more powerful than this one?”

“I don’t know if it’s more powerful than this one...” Andrew said faintly, “After all, it’s my first time seeing this thing. I don’t know how to judge its strength, but I think it’s more troublesome because of the timing when it came in.”

“Timing?”

“You see... .. The last one who was just beaten by US until it could only infect half of the Emerald Dream Realm, and this guy just happened to come. Is it a coincidence or has he been watching for a long time ? If the latter meant that the other party was able to hold back more, and choosing to enter at this time meant that the other party was also quite confident. Judging from their actions, I felt that it should be more troublesome”

Diana was stunned. She suddenly understood what she was lacking. These old guys were able to deduce so many thoughts based on just a few subtle features. This was something that she was obviously unable to do, was this the so-called experience?

One after another, inexplicable guys came in. Was this really the turning point for the Moon Elves?

———

“Actually... we can still go in and try again...”

Lanaya drank the third bottle of alchemy potion and let out a long breath.

“Is that so?” Vaughn glanced at her indifferently. “I see that you have no intention of getting up at all...”

Her tone was full of dissatisfaction that the other party had taken over the Little Flower Spirit’s tranquility. To be honest, as a high-level mercenary, she was not as reserved as the other party. Almost

every time she finished a mission, she would invite the high-level flower spirit master to bathe in tranquility, it had only been a few months since the last time she had enjoyed tranquility.

Her body did not have such a big need, but the other party's expression was too enjoyable. It was just like how you were not very hungry, but seeing someone eat so well sometimes aroused your appetite.

"Actually, there's no need..."the principal looked at the strange sky and said faintly, "There's no time. Even if you go and fight now, the core is almost infected..."

Wayne and Lanaya instantly fell silent. In fact, the two of them had a chance to win if they fought, but when they saw that three domains had been taken down, their thoughts were the same as Vogu's, and they did not want to fight too hard.

The little girl, Vera, was naturally the same. Although she had made up her mind, there were many times when she could not make a move... ..

While they were talking, Seer suddenly looked into the distance with a surprised look in her eyes... ..

"What's Wrong?"Vaughn was very sensitive to seer's emotional fluctuation.

"This is really..."seer took a deep breath and did not know what to say for a moment.

"What?"The principal looked over in surprise because he saw a teleportation fluctuation coming from the sealed space barrier... ..

Who Was It?

Vien and Lanaya immediately became alert. Lanaya, who was bathing in peace, stood up and protected little cabbage behind her.

Vera also opened her blood eye.

However, as the light curtain of the teleportation descended, the people who appeared inside stunned Vaughn and the principal... ..

"Goudan!!!"

Goudan immediately jumped up and rushed over, grabbing an elven girl in blue. "Why are you here?"

Not only Goudan, but also Yunji Mu, Leng Xing, Feng Doudou, and the others were teleported in. Brother Goudan also looked over in a daze, his gaze stopping on the silly smile on the face of the liver emperor... ..

Vivian's face twitched. There were actually two such unlucky names as Gou Dan?

However, the next second, she focused her attention on Wang Gou Dan himself. It was obvious that the other party was also a wood elf with a human form. He should be a human-shaped elf who had strengthened his upper limb bones. His skeleton and muscles were also unexpectedly perfect. He was also an excellent seedling... ..

Lanaya was also attracted by this group of Little Fellows. It seemed that this little lord wasn't lying to them. There were quite a number of excellent subordinates under him. Other than the wood elves and the Green Titan, there were actually dark descendants... ..

Lanaya's eyes sparkled as she looked at Yun Ji Mu. She shouldn't have seen wrongly, right? They should be dark descendants, right? How many years had it been since such an ancient gene with almost no capacity had appeared in the federation?

Just what kind of secret did this little lord possess?

"Goudan, why are you guys here?" Li Goudan asked curiously.

"HMPH..." Wang Goudan curled his lips and said, "If you have the face to say it, why didn't you call me Goudan when you were clearing the dungeon? To think that I treated you as my best brother. Didn't we agree that Goudan was one with me?"

"Hehe..." Li Goudan scratched his head in embarrassment. "Wasn't it an accident that I came in?"

"How did you guys get here?"

Seer's voice sounded faintly.

"Woo..." "My Lord!" Goudan Wang immediately pounced on him. "I missed you so much. Why did you run out so quietly for so long?" "Don't you know how miserable we are without you? My Goudan restaurant is going to close down." "...". "..."

Seer: "..."

"Don't be mischievous..." mu Yunji helplessly grabbed dog egg back and looked at Xiye apologetically. "My Liege, it was Alice who brought us here..."

Alice?

Upon hearing this name, little cabbage's body tensed up and he couldn't help but ask, "Where is she?"

"Uh..." Wang dog egg looked behind him. "She was with us just now..."

Bai Cai looked carefully, but he still didn't see that familiar figure.

"Don't look..." Isabelle frowned. "That guy must have gone with Ai..."

"Ai?"

Li Goudan was stunned. "You brought Ai Here?"

"It's the other way around..." Pu Yunchuan pursed his lips. "Ai brought us here... you don't know how the sewer was ruined by it..."

Isabelle rolled her eyes and could not help but kick Pu Yunchuan from behind. Was this the time to complain about that?

"Ai?" The principal was stunned. "My Liege... could it be..."

"Mm..." seer nodded and looked at the sky. "It's about time..."

Everyone then looked at the sky and realized that the sky, which was filled with black nerve endings, had a different color. It was a kind of blue root that was spreading at an exaggerated speed, it was nibbling away at the place where the black nerve endings had retreated!

There was actually... a second one...

Vivian looked at the sky, and her pupils suddenly constricted!

Chapter 1280: the Second Yimo (Part 2)

"I didn't expect you to be a parasite as well..." Vivian looked at seer.

A parasite was a lord that was parasitized by the YIMO...

"That's true..." Vivian muttered, "It's obvious that there's a great opportunity..."

A parasite was not a bad word. It did not sound good, but many gods would not be able to get one even if they wanted to. After all, a parasite meant that the lord itself had great luck... ..

"Actually, I didn't expect it either..." Xi ye looked at the sky with a complicated expression under his helmet. When he was drifting on the spaceship, he had thought that there was something wrong with that silly ai, but he didn't expect it to be that kind of thing.

Moreover, if it wasn't for the principal, Xi Ye, he wouldn't even know that there was such a thing... ..

As expected... It was easy to lose out when one's knowledge was limited. ...

"This Yimo is not weak..." the principal looked at the sky. "The infection rate is so fast. Before you, it might have already had a very powerful host..."

"It chose me when it already had a very powerful host?" Seer immediately smiled. "That means that my future is bright..."

The Principal: "..."

"What's going on?" Lanaya raised her head and looked at the spreading blue ends. She frowned as she did not know much about Yimo. "Is this considered an internal conflict?"

"Internal conflict?" Vien smiled. "Being of the same race does not mean that we are allies. We were still Vogu's subordinates when we came here. Didn't we fall out with each other? "Moreover, they are just of the same species. Why do you think that they were originally in cahoots?"

"That's true..." Lanaya nodded. "Then it looks like it's going to be more troublesome. This should be the most uneconomical deal I've received since I debuted, right?"

"Who isn't?" Vien said faintly.

Breaking the contract of employment would be a heavy stain in the mercenary world. Even if there was a legitimate reason to request the federation to cancel the contract, this stain on the resume would not disappear, this would not be a good thing for him to snatch a huge amount of resources in the future.

On the other hand, the principal had a complicated expression on his face. Back then, he had been tricked by this little guy to promise him that he would not get involved in any disputes. Now, it seemed that the chances of him being able to return alive were getting slimmer and slimmer... ..

As expected, he should not have believed this little guy's Bullsh * t from the start!

On the other hand, Seer first glanced at the people who were chatting with them when they reunited. Then, he turned to look at little cabbage. Unlike Li Goudan who was so happy, little cabbage was obviously unhappy... ..

"What's Wrong?"

Seer walked over and comforted little cabbage's jade-green hair. "Tranquility is a high-end skill of the flower spirit. You're still too weak. If you can't persist, then don't try to be strong..."

He could see that little cabbage seemed to be in low spirits...

"I'm fine..." little cabbage tried to smile.

Seer nodded. Just as he was about to leave, little cabbage suddenly grabbed seer's hand.

"Boss..." little cabbage whispered, "Is Alice... Alright?"

Seer paused for a moment. After a few seconds of silence, he finally said, "She's a very smart person. Until now, no one has been able to scheme against her. You Don't have to worry..."

"That's true..." little cabbage's pale face squeezed out a smile. "She's always the only one who schemed against others..."

"..."

At the same time, at the center of the spatial matrix, Alice, who little cabbage was worried about, was slowly walking toward the place with the most black infections.

Behind her were blue fibers that blotted out the sky and covered the earth. As she arrived, the space was one blue and one black, forming a confrontation... ..

But there wasn't only one such confrontation. Clearly, there was someone in the center who had confronted the thing in front of it.

It was the female Titan Knight who had volunteered to restrain the Dragon King: Ionelle. Dawn!

At this time, she was sitting on the ground with a huge sword by her side. Opposite her, a huge dragon that looked like it was made of black crystal was crouching on the throne made of black fibers, staring at her coldly.

Until Alice arrived.

Following Alice's arrival, the eyes of the huge dragon moved slightly and looked at her. "You're finally here..."

Alice smiled slightly, and a mechanical voice that was unique to intelligence came out of her mouth. "Sorry for making you wait so long, senior..."

lonelle, who was sitting on the ground, slowly opened her eyes. The orange-yellow pupils that belonged to the Golden Titan emitted a dazzling golden light. From a very long time ago, she had felt that another Yimo was approaching from behind, this made her frown.

“It seems that things did not go well for senior...” Alice said with a smile.

“If things went well, you wouldn’t dare to come in...” the giant dragon on the other side replied with a smile.

However, the Smile of the giant dragon was a little ferocious...

Eonar had a strange expression on her face. The conversation between the two of them was very human-like. However, the voices of the two of them were too similar to the electronic voices of the AI, giving people a strange feeling...

“Of course...” Alice said respectfully, “After all, senior is the model of our race and is famous. It’s just that I didn’t expect to meet a legendary figure like senior in such a remote place...”

The dragon paused when he heard that and looked at Alice with a gloomy gaze. “You know me?”

Alice smiled as she looked at the black ends around her. “Those who are infected by the universe’s rejection are all big shots. Those who can instantly infect ancient creatures like the Titan core and the Dragon King are even rarer. There aren’t many in our race to begin with. Other than senior, I can’t think of anyone else...” “...”

The dragon stared at Alice for a long time. Finally, it guessed, “That’s right... There aren’t many in our race...”

As it spoke, it raised its head slightly. “How about it? Let’s cooperate? Help me solve this problem in front of me?”

Alice looked at lonelle who was sitting on the ground without moving. She smiled and shook her head. “I can’t afford to offend them...”

“I lost... do you think you can handle them?” The dragon sneered.

Alice said, “It depends on the situation...”

The Dragon felt suffocated by the dragon’s impervious look. Just like that, both sides fell silent for a long time.

After an unknown amount of time, the dragon raised its huge head and said faintly, “Although I don’t know your background, one thing is certain...”

“Oh?” Alice smiled and raised her head. “What do you mean, senior?”

The dragon said, “You are definitely not a junior...”

“Senior, you must be joking...” Alice’s expression did not change, she was still smiling, and in the end, she performed a unique etiquette. “I came to say hello, so I Won’t disturb senior...” as she said that, she did not stop, he turned around and left without hesitation.

As Alice left, the blue ends that were spreading over quickly retreated as if they were really here to say hello... ..

The dragon looked at her back with a gloomy expression, then looked at Lonelle who was sitting on the ground. Finally, he said, "Are you interested in cooperating?"

Lonelle opened her eyes again. Her orange eyes were filled with coldness. "Not interested!"

"Speaking of which..." the dragon suddenly said in puzzlement, "I don't know if it's an illusion, but I feel that you seem to be very hostile to me."

When Lonelle heard this, the coldness in her eyes became even colder. "Because I recognize you..."

Faced with this answer, the dragon's eyes revealed a hint of understanding. "As expected..."
