

## **A Bunch 1311**

### Chapter 1311: Crisis (Part One)

What was going on?

Billy cautiously used his spiritual power to scan his surroundings, but he could not find the source of the chill... ..

When a spiritual creature encountered danger, the warning would come faster and more accurately than an ordinary creature. A muscular creature would only be alert when danger was approaching.., if something malicious or attacked it, it would become alert. That was the body's warning of danger.

However, spirit-type lifeforms were often able to predict future danger. This feeling was not easy to be wrong. Billy had had this feeling countless times in dangerous situations. He had also successfully relied on this feeling to avoid countless fatal threats!

This time... .. It was more intense than any other time. That warning was crazily hinting that a great terror was about to arrive!

This was the intuition of death approaching!

“Sir?”

Behind him, a few advanced mecha operators saw their sir, who was originally fighting fervently in front of them, suddenly retreat. They hurriedly asked, “What happened?”

Billy was silent for a moment.

At this moment, the situation was already in their favor. Many of the Black Rock Titan's weak points had been smashed into a bloody mess by the concentrated firepower. As long as they continued to suppress the other party and didn't give the other party any breathing space, they would be able to take them down in fifteen minutes at most... ..

The morale was high!

If they called for retreat now, it would be equivalent to wasting all their previous efforts...

This Titan had a tianyuan-level body, and its vitality was quite vigorous. The reason why it was suppressed by them was largely because the host of this body did not know how to use this body, she used this point to use her seamless firepower to suppress the opponent's mental endurance.

Although the opponent had this body, the mental body would still subconsciously treat itself as a former star-level life form. Therefore, many times, when it came to physical recovery and defense, it was not done properly, in addition to the continuous suppression of firepower, he had already made his opponent a little dizzy.

However, if he gave his opponent some breathing space at this time and let him regain his senses, the next time he fought, there might not be such an effect!

What should he do?

Fight or retreat?

Billy looked at the sky. After the Lord gathered with Andrew, Andrew had activated this dark domain. Just like before, he could not see any movement inside... ..

But now, it was different...

Before, his equipment was the mechanical equipment of Lord Vogu's forces. Although Lord Vogu was an excellent star-level mechanical lord, it was normal for the forces' technology to not be able to see through Andrew's methods. But this time, she used the fairy feather!

The equipment was all the most advanced equipment of Lord Anya's forces, right? Why couldn't he see anything using dialysis?

Could it be that Andrew's strength was above Anya's?

Not being able to see the situation of the Lord and the others made Billy very uneasy. After all, the Lord and the others were there to pin down the monster above, and also to buy time for them. If they were to waste a good fighter jet at this time, perhaps...

As a top-notch commander, Billy was never a hesitant person. He hesitated for less than a second before giving the order, "Continue to maintain the firepower output. Group Eight, prepare to fill in the gaps of group four!"

"Yes! !"

The subordinate who received the telepathic link order immediately replied.

The entire mecha clan continued to attack smoothly under Billy's command. The rhythm was not at all chaotic. It had to be said that Billy was a high-level talent in commanding. Under the support of this kind of domain that was beyond his scope., she was still able to make the most of the functions of this mechanical domain, allowing her mecha clan's combat strength to rise to a whole new level!

Wayne and the others who had come to support her from afar could not help but nod their heads when they saw this scene.

"This commander under Vogu has something up his sleeves!" The one who spoke was Lanaya. She was naturally arrogant and rarely praised others, especially since assassins had never been very interested in those spirit-type lifeforms.

Those who were familiar with her knew that to be able to say these words, it already represented a considerable degree of approval... ..

"Sea of life level domain..." coming out from the space-time domain., the principal, who had finally regained his breath, put away his listless expression, squinting his eyes, he said, "The level of complexity is not something that a star-ranked domain can compare to. Moreover, the strength of an YA's influence back then was definitely ranked in the top 50 in the entire federation. To be able to use her domain so smoothly, this commander is indeed remarkable..."

Mecha commander...

Rainy Girl, Wu Gua, who had followed her here, was in high spirits. Although she had covered all the occupations that developers could cover, the one she yearned for the most in her heart was still this spiritual commander... ..

Unfortunately... .. only this base did not seem to have any specialized courses set up yet.

Thinking of this, she looked at the principal. "Sir Principal, why does our school not have such courses?"

"Because we're poor..."

Rain Girl and melon-less:" ..."

The principal looked at the other party in annoyance. This little kid really opened his mouth. Did he know how expensive mecha training was? If he could afford this course, would he need the school to be stationed in such a shabby place? As for being tricked by your Lord to come here?

Rain girl and melon-less immediately felt awkward...

Vaughn took a careful look at the battle situation and took a step forward. "It seems that we don't need to do anything..."

Lanaya nodded. "If we act rashly, we might even disrupt other people's arrangements. It would be a waste of effort. Moreover, after this cooperation, it's hard to say whether we're enemies or friends..."

"That's true. Then let's wait for another 15 minutes..." Vaughn said, "If we haven't taken them down, we'll see if we can send reinforcements. It's just that the higher-ups..."

Vaughn said as she looked at the Dark Curtain in the sky that seemed like it could never be seen through, and she frowned...

To be honest, as an ally, Andrew's method wasn't very friendly. Couldn't he have devised a plan to let us know the situation of the battle?

"What did Sir Say?"

After the two of them finished discussing, they looked at seer behind them.

At this time, the two of them no longer looked down on this little lord. It was almost all thanks to this guy that they were able to take down Saab, especially in the end. If it wasn't for the other party's plan, they might have really fallen... ..

"Sir?"

Vaughn asked and found that the other party didn't respond. She frowned and looked over, but she found that seer was standing still like a wooden block. Although her expression couldn't be seen, it seemed that her mind wasn't here... ..

"Huh?" Seer was called for a second time before she came back to her senses. "What's Wrong?"

Lanaya rolled her eyes. Damn you, we just said so much. Do you want us to repeat it again?

“Sir, are you worried about something?” Vien frowned.

“Um...” seer hesitated for a moment and finally said, “I’ll think about sab...”

His mind was filled with SAB’s words before he died... ..

At the last moment, SAB’s core was broken by Vien’s god-exterminating crossbow, but at that moment, SAB directly rushed out of the Titan’s body and rushed toward him in the form of a spirit body... ..

At that time, everyone was shocked...

After all, even if it was a spirit body, Sab’s size could still pose a threat to seer!

However, Seer did not panic at that time. The power that he had sealed under his helmet did not act rashly. He knew that SAB was not rushing over to deal with him... ..

That was indeed the case. Sab had rushed to his side just to say those two words... ..

Chapter 1312: the advent of crisis (part two)

“I’ll have to trouble you with that child from now on...”

The first sentence in the two sentences was ‘please’. As for why he asked the enemy to help him, Seer had also figured it out later on... ..

This SAB had never given up on his junior from the very beginning... ..

Thinking about it, it made sense. Back in the New Territories, in order to save Vera, this fellow had directly eaten the blood essence stone and completely disregarded his own physical condition. How could he possibly be able to stand in front of her in just a few days?

The principal said that the Yimo might have a strange spell that could manipulate people’s minds, but if it really did exist, why not use it on Wayne and Lanaya? If these two could be controlled, it would obviously be more useful and scarier, okay?

Perhaps if they were used well on the way, they would directly kill Andrew or vogu... ..

There was a high probability that SAB was willing to be driven, and the reason why he was willing to be driven for the other party was probably because he wanted to wait and see... ..

With the current situation, even an experienced veteran like Saab could not tell which side would win. Under such circumstances, if he wanted to find a foolproof solution for his juniors, he would have to place two bets!

This was also the reason why he chose to personally test seer.

Because he was on the other side, he could guarantee the safety of Vera, and he could also test whether seer had the ability to make it to the end.

This guy must have signed a contract with the Yimo on the other side, right? If the Yimo won, villafa would naturally be fine. If he won, Villafa would stand on their side, and he would be a top-tier demon

with high qualifications. As long as he was not a pervert... He would probably not refuse Saab's dying request... ..

Seer could not help but sigh when she heard Saab's request. She did not expect the blood demon, who was known for being cold, to have such an existence...

People really could not be generalized...

However, Saab's second sentence made Seer's sigh turn cold... ..

"Be careful of Andrew..."

Obviously, SAB did not leave many words at the last moment, so his words were very concise. However, the content of the second sentence made seer stunned... ..

Why... did he say be careful of Andrew?

Theoretically speaking, Andrew was on their side now, right?

The battle was not over yet. If it was to surrender, shouldn't he reveal some information about the Yimo at the last moment?

What the hell is he telling me to be careful of Andrew?

Seer was confused...

It was not that Andrew did not need to be careful. After all, after successfully dealing with the YIMO, there was a high chance that Andrew would become an enemy. Everyone knew this, and he was mentally prepared, it was not a matter that was worth mentioning.

Why would this meticulous blood demon say such a thing in such a precious time when he was about to die?

Was he worried that he would be so stupid that he would always treat Andrew as an ally?

That shouldn't be the case. If he really thought that he was stupid, he wouldn't have bet on himself... ..

It meant that the other party still recognized him...

So... .. Why did he have to remind himself to be careful of Andrew when he recognized him?

Could it be that apart from what he knew, there was something special about Andrew that he should be careful of?

What could it be?

"My Lord?"

Vaughn's voice sounded again, pulling seer out of her thoughts. "What's Wrong?"

"I. . ." Seer was stunned, but she eventually shook her head. "I'm fine..."

He did not know if he should voice out his doubts. After all, SAB's last sentence did not mean anything. What if the other party just wanted to disturb his mind?

But for some reason, ever since SAB said those words, Xi Ye's heart had been filled with an inexplicable sense of unease... ..

He had not felt this kind of feeling for a long time...

Ever since that fellow had placed a seal on his handsome face, he had not felt uneasy for a long time.

Whether it was when he was wandering in the universe previously, or when he was personally targeted by Bolton, or even when he was targeted by Queen XI at the Heavenly God Academy, he had not felt uneasy at all.

That was because the seal not only gave him great confidence, it also gave him a complete sense of mental stability.

But this time... .. This time, even the seal on his face could not block this inexplicable sense of unease...

Seer subconsciously touched his chest. The long-lost sense of nervousness made his heart beat faster...

...

What was it? Was It Coming?

"Sir? Are you really okay?" Vaughn frowned. She could clearly feel that this little lord was not in a good mood...

"I. . . I..." Seer thought for a moment. Just as she was about to say the last sentence of Saab, a violent tremor in front of them interrupted their conversation!

It was an earth-shattering roar. It was extremely loud, but neither Vaughn nor Lanaya were too nervous. This was clearly the last struggle of the Titan who could not hold it in. It seemed to be very loud, but in fact, it was already at the end of its tether... ..

But in the next second... they did not think that way anymore!

Because the mechanical domain that covered the battlefield had suddenly disappeared!

This scene happened too suddenly, so Vien and the others could not react at all. This included the mecha team that was fighting in front of them!

With a loud bang, a powerful force exploded. Several close-combat mecha exploded into pieces. Without the protection of the upgraded mecha, the mecha operators were as weak as paper when faced with that force.

Among them was Billy!

"Vienne, save them! !"

Lanaya reacted and shouted immediately!

Vienne reacted even faster. She turned into a black shadow and moved forward. She raised her hand and shot out a god-hunting crossbow.

That was her last god-hunting crossbow...

However, it was obviously too late to think about it now. They had to save that master of the mind. They had to know what had happened!

Although Vaughn was now a star-grade lifeform without the boost from her domain, the power of the god-hunting crossbow was still strong. In addition, the Black Rock Titan had been seriously injured previously, and Vaughn had aimed at the deepest part of the wound, in the end, she forced the other party to give up on chasing and choose to use both hands to protect the wound!

Taking advantage of this opportunity, Lanaya rushed to the front line in a ghostly manner. She rushed to the front and dragged the injured Billy away from the center of the firepower...

At this moment, the huge energy explosion caused Billy's mecha to be severely damaged. Billy, who was in the cabin, seemed to be seriously injured as well. He did not respond to Lanaya.

Lanaya and Vien quickly retreated to seer's side and placed Billy Down. Lanaya deftly dismantled the mecha with her fingers!

Most assassins were good at dismantling mecha. They could find a way to dismantle a precise mecha in the shortest amount of time. In fact, they were even more professional than many mecha operators.

Inside the mecha, Billy had indeed fallen into a coma due to his serious injuries.

Everyone's hearts sank when they saw this scene!

Their heavy hearts were not only because Billy had fallen into a coma and was temporarily unable to provide detailed information. It was more because of the condition of her body.

They could clearly see that although Billy was unconscious, his body was wrapped by a force. That was the power of the contract, the power of the contract between the Gods... ... The power of the contract between the gods was breaking!

Billy was unconscious, but the contract between the gods was still breaking. There were only two possibilities. One was that the contract between the gods had been broken... ...

The second possibility was that the contract between the Gods... was dead! !

Chapter 1313: How Confident Are You, sir?

"It can't be?"

Lanaya raised her head to look at the sky. The curtain of darkness did not disperse, but at this moment, it made people not want to look at the results inside... ...

"Old Man..." Lanaya looked at the principal. "Didn't you just say that the person who possessed Vogu was a big shot?"

The Principal: "..."

He was indeed a big shot...

Even in the entire history of Sky Gods, an ya was definitely well-known. If she had not fallen back then, she would be at least in the top fifty of the Federation's Sky Gods by now, and definitely not the fiftieth...

Conservatively, she would be at least thirty...

One had to know that that fellow was one of the few lords of all departments. He was not only a mighty figure in the biology department, but also a big shot in the mechanical department. He also had the legacy of the Jade Sword Immortal. Moreover, when he was studying at that time, he was also well-known in the arcane arts world!

She made the Danxian feather as a teaching material, but also because the mech is a combination of several major areas of technological excellence.

Such a character, to be honest, in the headmaster's mind, even if Andrew against her, the probability is that Andrew is at a disadvantage...

After a few seconds of silence, the principal took a deep breath and comforted him, "Maybe it's not as bad as we thought. Just because we canceled the contract with the deity doesn't mean that something happened to Vogu. Even if Vogu is gone, it doesn't mean that person is gone. Maybe something happened to Vogu's spiritual body during the battle. As long as the deity's body isn't damaged, senior Anya can still..." "..." "..."

"But what if it's the worst-case scenario?" Wayne interrupted the principal and looked directly at seer. "If it's the worst-case scenario... What does Sir Say?"

Seer:"..."

I don't want to say it...

Seer felt very depressed. He suddenly realized that sometimes it wasn't a good thing to pretend too much... "..."

He was just fishing after all...

Seer did not reply. Instead, he looked at the dark sky. His eyes flashed with an inexplicable light as if he was thinking about something... ..

In fact, he was indeed thinking about something.

If... .. In fact, if that guy really killed Andrew and the Fairy God, it would not be a bad thing for him. He was not afraid of having strong opponents, but he was afraid of having many opponents... ..

If there was only one left, no matter who it was, it did not matter to him... ..

But what was this inexplicable sense of dissonance?

Boom! !

While he was thinking, there was a roar like thunder in the distance. The strong wind distorted the space defense barrier set up by the principal. The principal's face was red. "It's coming!"

Vien and Lanaya looked over. The Titan who had come back to his senses had already reacted. Vien looked at seer. "Sir, can the space-time domain be used again?"

Seer: "No..."

He was still very practical at the end of the day. Although he did not know how that guy could compress such a huge law to the point that he could use it, it did not mean that he would not pay a price for using it.

The three minutes just now had consumed almost all of Seer's spiritual power. It was already exhausting for her to be able to barely stand. If she were to forcefully show off now, she would really die...

"Then..." Vaughn looked at seer with some hesitation.

"Let's retreat first..." seer said directly, "Let's wait for the situation upstairs..."

Naturally, it was the most crucial battle in the dark...

Vien and Lanaya looked at each other and finally nodded. The situation up there was unclear. It was not rational to rashly fight to the death with the Titan... ..

"Can we retreat?" Seer looked at the principal.

The principal nodded. "Your parasitic yimo has opened a gap. The problem shouldn't be too big..."

Vaughn let out a sigh of relief. She didn't think much of the significance of the Emerald Dream. Although it was tempting, she wasn't that careless. It would be best if she could escape safely.

"Eh?" The principal, who was preparing to activate the spatial teleportation, suddenly had a change in expression. His jelly-like face immediately shrunk into a ball.

"What's Wrong?" Everyone's heart skipped a beat when they saw his expression. An ominous premonition surged up... ..

"The space matrix that I left outside was blocked by something..." the principal said in a deep voice.

Xi Ye: "..."

This space matrix was the escape route that he had instructed the principal to leave behind when his AI invaded. The AI had opened up the Emerald Dream, and it was also at that time that Xi Ye had secretly asked the principal to leave behind a space teleportation outside.

The principal was a top-notch spatial warlock, so it was not difficult for him to accomplish such a thing without making a sound. He had expected that if he encountered the worst case scenario, all of his people would retreat, and he would immediately pack up all of his people and leave!

However, he had not expected that this final escape route would go wrong so quickly... ..

Just as he was about to ask something, a gust of strong wind came from afar, followed by the sound of footsteps that sounded like drums. Step by step, it approached, as if it was stepping on a person's heart.

Seer looked over. The shattered space in front of them had been covered by black rocks at some point. Countless space fragments were absorbed by the black domain, turning into high-quality black rock elements. It was like a mountain pressing down on them step by step...

“Sir?”

Vaughn’s face was heavy as she looked at seer. At this time, she could not hide any trump cards anymore.

She did not believe that this little lord only had one card in the space-time domain. If it was just that, it was impossible for Andrew to value it that much.

Seer’s face was heavy as she gently placed her hand on the mask... ..

Was she going to force out her last card here?

If that was the case, it would be better to just...

Seer looked at the sky and suddenly said, “Do any of you have a way to send me inside?”

Everyone was stunned when they heard this?

What did he mean? He was looking down on the little one below. Was he going to go up and kill the enemy boss?

Wasn’t this a little too fierce?

“You... Are You Serious?” Lanaya looked at Xi Ye in a Daze... ..

Even though she had already acknowledged the Little Lord’s strength, wasn’t this a little too crazy?

Of course, she couldn’t see Xi Ye’s true thoughts. Otherwise, she would definitely think that Xi Ye was crazy.

Yes, Seer’s thoughts were even crazier. He wanted to kill everyone directly!

Although it sounded ridiculous, that was exactly what he was thinking at the moment...

According to what he thought at the moment, no matter what the battle situation was, he believed that they should have already used all their trump cards. To be able to kill Vogu, who was possessed by Anya, no matter how powerful the Yimo was.., it should be something that could only be done by the main body, right?

As long as the main body was there, it would be fine. Moreover, Andrew and the other party should be together. No matter who was at a disadvantage, it would not make a difference to him. The seal on his face would not make a difference. It would be fine if they killed him together... ..

“It’s meaningless to resolve the situation now. Who can send me up?” Seer asked again.

“If the Lord is serious... I can try...” the principal said.

“You really plan to let him go?” Lanaya said in surprise.

“What else?” The principal frowned.

Lanaya choked and didn't know what to say for a while. Vaughn, on the other hand, looked at seer and asked, "How confident are you, my Lord?"

"It depends..." seer looked at the sky and said calmly, "If we can face them head-on, I'm sure..."

1314 Chapter 1,354: Reversal!

This guy... he really dared to say that...

Among her peers, Lanaya was definitely one of the most arrogant ones. This arrogance came from the glory of the family, as well as the necessary cards. Only arrogance and toughness... Only in the outside world would people not dare to point fingers at the decline of the Templar family. It was also because of the decline of the family and the cards that had to be held up, that Lanaya's performance in the outside world was usually a little pretentious... ..

But she felt that compared to this guy in front of her, she was still at the beginner level... ..

100% ... did he know who his opponent was?

If it was anyone else, she would have mocked him so much that he would have dug a hole in the ground. But this guy in front of her, Lanaya could not say anything to mock him.

After all, he did a lot of incredible things with such a small body.

At least until now, he was not qualified to mock them... ..

"Sir, are you ready?" The principal took out a huge space meter from his space bag and asked.

"Can we go in?"

The principal said, "It shouldn't be a big problem. We have signed a contract. Andrew's law will not exclude us in theory. Sending you in is not a big problem, but we can't guarantee your foothold..."

This was also what seer was most worried about, but at this time, he couldn't care too much... ..

"Let's begin..."

The principal nodded and immediately activated the spatial instrument. A huge rune array was instantly formed through the instrument. A white light soared into the sky and directly disappeared into the darkness above.

"HMM... there's no rejection, the channel is stable..." the principal's eyes lit up. "Are we teleporting now?"

"No Repulsion?" Seer muttered, a hint of doubt flashing in his eyes. Perhaps what SAB said... "...". Was it really just to disturb his mind?

After all, compared to seer, he should have a contract with that Yimo, and he only had a verbal agreement with seer. To be safe, it was obvious that after the Yimo won, it would be safer to deal with Vera... ..

“Sir?” The principal saw that Xi Ye suddenly became silent and asked with a frown.

“Oh... It’s fine...” Xi ye came back to his senses and raised his head to look at the spatial device. “What should I do? Should I just stand on it?”

“Yes...” the principal nodded. “Sir, please be careful. Your people are still waiting for you to return safely...”

“I’ll be fine...” Xi ye looked at him with a faint smile. “Don’t bring the idea of kidnapping them with you...”

The principal: “Hehe... I wish I couldn’t get out either...”

Xi Ye rolled her eyes at him, then took a deep breath and stepped into the runic matrix formed by the instrument.

However, the moment she stepped in, the entire sky suddenly shook, and the light beam that the runic matrix had sunk into the darkness was quickly dyed black as if it had been contaminated by something!

“Sir, quickly retreat!” The principal’s expression changed. He had just felt that his spatial array had been invaded by something!

Seer, who had long been prepared, hurriedly jumped out. He staggered and Vaughn hurriedly supported him from behind. She quickly retreated with seer, meanwhile, Lanaya, who was at the side, protected the only player who had followed them, Guo Xiaoyun. They also retreated together.

Bang!

The principal cut off the runic array’s power supply. The pillar of light that had sunk into the sky instantly shattered like glass. Countless Energy Crystals fell from the sky. The gorgeous energy crystals looked very brilliant in the increasingly thick black curtain.

Everyone looked up in shock. The reason why they were attracted to the sky was not because of the energy fragments, but because of the figures that fell together with the energy fragments.

“Vogu?”

As mercenaries who used to work for Vogu, Vayne and Lanaya immediately recognized each other.

At this moment, Vogu was surrounded by a strange black fog. It seemed that he was seriously injured.

After the falling figure, a huge creature seemed to want to break through the black curtain formed by the black liquid. However, it was wrapped in it and stuck to it, unable to break free, the huge dragon head forced the black liquid to transform, and a huge dragon claw clawed at Vogu’s falling body!

“Save him!” Xi Ye said without hesitation.

The principal waved his hand, and the surrounding space distorted. Vogu, who was still in the sky, was directly shifted to the side of everyone.

However, after Vogu landed, they immediately kept their distance. Everyone was not stupid. Vogu was already dead, and who knew what was inside the falling body... ..

“Sir?”

Vaughn cautiously asked.

Vogu opened his eyes weakly. His pair of eerie green eyes seemed a little dim. A weak female voice came out of his mouth, "Let's Go..."

"Senior an ya?" The principal quickly asked.

"It's too late..." an YA looked up weakly, everyone also looked up. The black liquid was still binding the Dragon King, but the dragon's head was getting bigger and bigger. It was forcefully sinking down with the liquid. The way it was forced down by the black liquid looked extremely terrifying. It looked like a monster that had climbed out of hell...

"Where's senior Andrew?" The principal asked quickly.

"Dead..." an YA said weakly.

Dead?

Everyone was shocked. This result was a bit chilling. Two gods of this level had obviously prepared many trump cards, but they were gone just like that?

How terrifying was the Yimo?

"There's no time to explain..." an ya looked at the principal. "You should have prepared an escape tunnel, right?"

"Yes, we have..." the principal quickly said, "But it's blocked by something..."

"It should be the interference of Andrew's domain..." Anya took a deep breath and stood up with great difficulty. She stretched out her hand to the principal and said, "Give me the space link, I'll take a look..."

"Okay, okay..." the principal quickly nodded.

Anya was an all-rounded God, and her attainments in space were also extremely high. This could be seen from the fact that she could use a divine artifact like the space-time spear. The principal naturally did not dare to delay this kind of senior-level figure. He stretched out his hand, a Blue Rune appeared in front of him. It was the rune for the spatial link.

However, just as the principal was about to hand over the rune, he was stopped by a palm wrapped in armor.

Everyone looked at the owner of the palm in surprise...

It was seer...

"What are you doing?" An Ya frowned.

Seer looked at her. "Did you say that senior Andrew is dead?"

"We don't have time to discuss this now!" An YA said rudely, "If you want to know the situation, I can explain it to you like a bardic storyteller in a safe place!"

These words seemed to be very impatient and also carried a chill. It seemed that seer was going to make a move if she continued to be unreasonable!

Vienne and Lanaya also frowned and looked at seer. It was indeed not the time to waste time... ..

However, seer ignored everyone's doubts and continued to stare at him, after looking at him for a long time, she said faintly, "The first day of class at the Academy said that it's not impossible for gods to lie, but it's best not to use unfavorable words on yourself. The constitution that follows the law of words may directly cause a curse on yourself. An old senior like you shouldn't make such a mistake. What do you think, senior Andrew?"

Everybody:"!!!!"

Chapter 1315: A Way to deal with you!

The scene fell into an eerie silence. Not only were the surrounding people shocked by Seer's words, but the surrounding elements seemed to have also started to cooperate and become more cautious.

Even the black rock giant that had been roaring in the distance had lost its breath. It was as if everything around them had suddenly become well-coordinated. The entire space fell into an unprecedented silence... ..

Vogu's pale face stared straight at seer. The people around him were also looking at the two of them in shock. A storm had been stirred up in everyone's hearts because of what they had just said, but no one dared to act rashly. It was as if anyone who panted a little at this time could trigger a terrible consequence... ..

After a long while, in the strange silence of the crowd, Vogu finally spoke, "How did you see it?"

As soon as this voice came out, everyone instantly felt a chill run down their spines!

Because the voice that came out of Vogu's mouth was no longer Anya's female voice, nor was it Vogu's own voice, but Andrew's unique hoarse voice... ..

It really was Andrew!!!

In an instant, Wayne and Lanaya's nerves and muscles jumped to the extreme. The hands hidden under the cloak could not help but tremble, but they still gritted their teeth and endured it, afraid that they would reflexively make a move...

But although the impulse to resist, but the heart is a cold, because we all know, Vogu body is what Andrew stands for... ..

There's only one way to find out...

Andrew jumped backwards!!

No... .. Maybe from the beginning... .. He's on the other side... ..

Seer is also silent, the dark tunnel is really the worst result... It was better than both of them dying in battle. ...

"I think my acting is okay..." Andrew grinned, "Is it my imagination?"

Seer looked at him and said honestly, "It's pretty good..."

Andrew said, "But you still saw it..."

Everyone looked at seer, their hearts were in their throats... ..

No matter if it was acting or timing, the other party had grasped it very well. There were almost no flaws. At least for them who lacked intelligence, creating such a tense atmosphere made it even more difficult for them to think. It was indeed very easy to muddle through...

Don't you see that even Vaughn and seer, who had been in the mercenary world for so many years, had almost failed to react?

The old principal almost sent the space link over.

However, seer immediately saw through it. Although he did not know how he did it, his mysteriousness made everyone feel a sense of security... ..

Seer did not speak. Others treated him as their last resort, but he knew what he was capable of. This situation was worse than he imagined, and he did not know what to do... ..

"As expected..." seer did not speak, but Andrew was not frightened by the other party's performance. Instead, he smiled and said, "The seal on your body is passive..."

Seer: "..."

This old man...

Seeing that the other party did not speak, Andrew continued, "I've already gotten your information from Vogu. He's a Lord born in an ordinary warrior family. The Divine Gods Academy has a clear record of him, so it can't be fake. Therefore, the first possibility of you and an ya being reincarnated from the ancient times was ruled out... "... "

"But you have the power to threaten people of our level, and it's almost overwhelming. If it was in the ancient civilization, it would be almost impossible, but the divine God could. A high-level divine God could use the law to seal his power into a junior's body with a special law. It's not impossible for some existences, don't you think?"

Seer still did not reply. Under the helmet, no one could see his expression... ..

Seeing that there was no response, Andrew was not angry either. He continued to talk to himself, "You can see that I'm here because of the seal on my body, right?"

"How so?" Seer replied for the first time.

Andrew smiled and said, "The seal is different from a human. It reacts according to the aura. This seal exists to protect you. Although the person who sealed this power is very powerful, it's still not your

power. At your level, if you let your consciousness control you, you might be killed by someone before you even have the chance to use it. The chances are that it's a passive defense...". "..."

Seer:" ..."

Andrew: "Since it's a passive defense, then it must have the ability to actively identify danger. At the very least, it can recognize auras. I've attacked you before, and your seal has remembered my aura. As the host of the seal, it can more or less sense something. The seal has remembered my aura, and you've also remembered it. So no matter how many layers of skin I change, you can still recognize me. That's the reason, right?"

After saying that, he looked at Xi Ye quietly, waiting for his reply. Meanwhile, the hearts of the people around him were extremely cold... ..

Before this, no one knew what Xi Ye's trump card was, so they were very curious. However, at this moment, no matter who it was, they did not wish for this suspense to be revealed by the person opposite them...

They were really passive to the extreme...

Seer looked at the other party and took a deep breath after a long time. "Senior is really amazing..."

These words came from his heart. He did not do anything and had always tried his best to avoid the possibility of making a move, but the other party was still able to touch everything about him.

Compared to this person, his idiotic eldest cousin Ryan was as cute as a puppy... ..

"You flatter me..." Andrew looked at him with a smile. He didn't move as if he was waiting for something... ..

Seer also looked at him and touched the mask on his face with a complicated expression... ..

He actually didn't like the seal on his face. No one would like to wear an iron mask to hide their face all day long.

However, it had to be said that the effect of the seal was very real. It had saved his life countless times... ..

It could be said that it was overbearing or that the big boss was willful. The seal was indeed protecting him. He did not like it very much, but he was also very at ease. For example, even now, even if Andrew had completely guessed his background., he still did not panic at all.

"So?" Xi Ye knocked on the helmet and asked. "Senior, you guessed correctly, but so what? Could it be that senior has found a way to deal with it?"

This attitude was a little fearless, which made the people around him stunned. But this time, Seer was not faking it, but expressing his confidence.

The confidence came from the person who gave the seal. Seer firmly believed in that person's power. It was not that no one could break the seal, but at least... ! The guy in front of him did not have the qualifications to do so!

“No...” Andrew shook his head honestly. “I can’t do anything about this seal of yours. If I’m not wrong, I’m afraid that it was set up by someone at the level of Queen Xi, right?”

Everyone’s hearts shook when they heard that. Ten great lords?

If that was true, then it was really reassuring...

“But I’ve found a way to deal with you...”

Everyone:”...”

Chapter 1316: Despair (I)

“But I’ve found a way to deal with you...”

The gentle voice was calm, and there was no intention of going against the other party. However, the calm tone of the voice gave one the feeling that it was stating the truth... ..

Ever since seer was sealed, a chill ran down his spine for the first time... ..

Although she really wanted to say that the other party was bluffing, she couldn’t bring herself to say it...

That’s not right... impossible...

Xi Ye shook her head. Back then in the deity academy, even Queen Xi herself had been unable to do anything to him. What right did this fellow have?

Everyone held their breaths. Regardless of whether it was the principal or Vienne, neither of them made a sound. This was because they knew that this was no longer their battlefield... ..

The outcome of the battle between the two of them might be the outcome of the entire situation... ..

After all, if Andrew had colluded with the Yimo and Anya and Vogu were defeated, the only hope would be this little lord who had an unknown trump card... ..

“Is that so?”

After a few seconds of silence, Seer did not plan to wait anymore. Even if it would consume his energy, he did not plan to wait anymore. This was a matter of imposing manner. As long as he could take down Andrew, the one behind him would at least not dare to act rashly...

Seer placed both of his hands on the helmet and slowly prepared to take it down... ..

He did not conceal his actions at all, and he was not worried that the other party would make a move before he took off the helmet. Just as the other party had said, his seal was passive. If he dared to make a move first, it would only trigger the power of the seal faster.

The other party’s only way out was to escape before he took off the helmet!

The moment the helmet was turned on, the people behind seer instantly felt a tremendous pressure!

It was like an ant facing the entire sky. In an instant, whether it was Vivian, the principal, or the others, they all felt extremely small...

This was...

This little guy's final trump card?

Vivian and the others retreated in a daze. Although they felt that it was a little simple, this power instantly gave them a feeling of incomparable peace. Such a tremendous power far exceeded their expectations!

Rainy melon also let out a sigh of relief. She had seen this power before. When she was facing that terrifying void Watcher, she had only seen it for a moment.

But she knew that as long as the Lord released this power, it would be invincible... ..

Andrew retreated repeatedly, took a deep breath and muttered, "It's really terrifying..."

This was the second time he felt this power. Even if he had experienced it once, even if he was mentally prepared, he almost couldn't help but abandon his body and return to the world of death... ..

The power of the ten great lords was indeed different from the so-called great lords!

But fortunately, it was only a seal...

A strange smile appeared on Andrew's pale face... ..

At this moment, everyone realized that something was wrong...

Why hadn't seer made a move yet?

They had felt that terrifying power when seer put her hand on the helmet, but she still hadn't used it up until now. No matter what... .. Wasn't she taking too long?

"Something's wrong..." Vien's pupils contracted when she realized what was happening. She took a closer look at seer and suddenly realized that something was wrong. "...".

It was not seer who was deliberately insinuating, it was him... "... !"! He had already slowed down!

Lanaya also realized that seer was not confronting him, nor was he waiting for anything. He was indeed trying to take off his helmet, but... .. His movements had slowed down.

How slow was it exactly. In the ten seconds of stalemate, his hand had moved by almost one-billionth of a millimeter... ..

His movements were too slow, making people feel as if he had not moved at all. However, for agility-based powerhouses like them, they could still see it clearly if they looked carefully... ..

This was...

Vien and Lanaya took a deep breath, their faces extremely gloomy... ..

It was the law of time! !

It couldn't be wrong...

The two of them had just used that power to fight against Saab, so they were very familiar with it. Not only seer, but the elements around seer also began to slow down... ..

"Why is it with you?" The principal also saw the strange situation, and he looked at Andrew with a gloomy face, "Hasn't the law of time in this world been taken away?"

That's right!

Vien also reacted. Didn't they say that the YIMO that parasitized seer had already taken away the law of time? How could he use it? Could it be that the YIMO had jumped the wrong way?

"This isn't the law of time in the Emerald Dream..." Andrew looked at seer, whose movements had become slow, and smiled. Sure enough, as long as there was no intense conflict or death threat, his seal would not be triggered!

"It's not the law of time and space in the Dream?" The principal was stunned, and then he shook his head. "Impossible!"

It was not that gods could not use the law in other people's territory, but the emerald dream was huge. Using one's own law in this place would create a huge repulsive effect, causing an extremely strong fluctuation. It would not be used quietly like this...

The seal on Xi Ye's body was a passive trigger. Whether it was the seal that sensed danger or the person that sensed danger, it could be triggered. The safest way was to quietly control him.

The principal understood this very well, but he should not be able to do it. Andrew's domain power could not be used quietly in the emerald dream...

"It's possible..." rain girl, Wu Gua, suddenly spoke... ..

"Huh?" Everyone looked at him in surprise, even Andrew looked at him with interest.

"What if... This isn't the Emerald Dream?" Rain Girl, Wu Gua, said faintly, "Oh no, it should be said that the planet we're on isn't actually the Emerald Dream?"

Everyone: "!!!"

Andrew's face was full of praise as he looked at her, "How did you see it?"

"Before..." rain girl took a deep breath, "When we were dealing with Saab, Vera directly brought Saab out of the surface. After we pierced through it, I suddenly felt that something was wrong..."

The surface that was pierced through recovered very quickly after the battle, but it didn't show this kind of recovery during the battle. It was as if it was alive. After confirming that the battle was over, it began to recover, and then the direction... ..

Rainless melon touched her head. "My memory has been very good since I became a developer. Before I was teleported in, I could see clearly that the position of the stars around me was obviously different from now..."

“Hahahaha!”

Andrew suddenly burst into laughter and looked at Rainless Melon with more admiration. “You are the smartest kid I have ever seen...”

“A lot of people say that...” Rain Girl pouted.

The faces of Principal Wayne and the others were extremely gloomy!

They were also the cream of the crop in the universe. With the Little Guy’s explanation, how could they not understand the cause and effect?

This planet was not the planet of the Emerald Dream. Without them realizing it, Andrew and the Yimo had already teleported them to a new planet. One of them was already prepared and looked exactly the same..., but it was not the planet inside the Emerald Dream!

Although they did not know how to do this quietly, if it was a real planet that had been changed, it would make sense if the other party could use the law of time... ..

Andrew looked at everyone with a smile and did not try to hide it anymore.

Indeed, just as the little developer had said, their position had been changed. And now, everyone was on the Death Star that he had obtained from the death realm!

Chapter 1317: Despair (Part Two)

As the trick was exposed, the black liquid wrapped around the planet changed and merged into space. The entire planet’s outer shell began to peel off. A few seconds later, a gloomy color spread across the entire planet. In an instant, the color turned into a strange dead gray... ..

Those who had been to the world of death would be very familiar with this color. It was the color that had not changed for thousands of years in the world of death!

The air was filled with an unfamiliar aura of death. The sunlight from the stars could still shine in, but there was no warmth when it shone in. Vaughn and the others looked at everything that had suddenly changed around them, and their bodies instantly turned cold.

This time, it was not only psychological, but also physical. The unbearable coldness made Vaughn and the others instantly feel a sense of repulsion... ..

“This is...” the knowledgeable principal almost instantly realized what this was... ..

But after realizing it, his face was full of disbelief... ..

How could it be?

This thing...

“Senior... This is...” Vaughn, who was close to the principal, asked telepathically.

“It shouldn’t be wrong... This Feeling...”the principal smiled bitterly. “No wonder I thought something blocked the teleportation. So it’s the boundary between life and death...”

Hearing this answer, Vaughn instantly lost hope. Her face turned extremely pale... ..

The Death Star!

In the course of environmental warfare, the instructor had mentioned that although the academy had spent an entire day explaining the characteristics and lessons of the Death Star, even the instructor had said that this was a lesson prepared for you after you died... You basically wouldn’t encounter it when you were alive. There wasn’t even a one in a hundred million chance...

But he did not expect that he would meet them one day. He did not know whether to laugh or cry... ..

Andrew did not look at them. At this moment, he did not need to care about Vivian and the other two. With the Death Star, his spiritual body could not be restricted by the material universe. He had a top-tier Yimo supporting him. In such a situation, if he could be overturned by a star-level ranger and assassin, it would be a laughing stock... ..

The only variable was seer. As long as he was sure that he was no longer a threat, the situation here would no longer be a threat!

Andrew looked at seer carefully. At this moment, Seer had clearly fallen into the laws of space and time. Just as he had expected, there were only two ways for the opponent’s seal to be triggered.

One was to trigger the main consciousness, and the other was to trigger the passive defense. The conditions for triggering the passive defense should not be too easy, or else the seal would be triggered easily, then seer would be equivalent to an unstable human-shaped interstellar nuclear bomb. Even if it was at the level of the ten great lords, the Federation would not continue the other party to do such a thing.

Therefore, the conditions for triggering the passive defense must be quite strict and harsh. The chances were that it would only be triggered when he was judged to be in mortal danger.

However, in order to deal with the complicated situation, he should still be given the authority to initiate the seal.

Therefore, after Andrew and the Yimo discussed it, they decided to start with these two points. Firstly, they would ensure that the seal would not trigger the passive defense, which was to restrict the other party while not making the seal feel that it was a mortal threat.

Secondly... .. They had to make a move before the other party’s subjective consciousness reacted. They could not let the other party be alerted. They had to be surprised...

Obviously... .. from the current situation, the plan was going smoothly. ...

Seer’s expression was still the same as it was a few seconds ago. In his world, it had been slowed down countless times. Even if his nerves reacted, it would be millions of years later... ..

After taking down the emerald space, he had plenty of ways to deal with this trouble... ..

And now...

After Andrew confirmed that seer had taken control of it, he looked at the principal. "Aren't you going to hand it over?"

"Hand what over?" Lanaya asked blankly.

The amount of information was a little too much, and she was a little dizzy listening to it... ..

"The Space Link, right? The teleportation array..." rainingirl, WUGUA, continued.

"Space Link? Why do you need this?" Lanaya was stunned again, and she suddenly reacted... ..

That's right...

If there was another variable besides seer, it would be that parasite seer, the second yimo that was able to forcefully snatch away the time law of the Emerald Dream Realm from them!

The principal's spatial teleportation array was set up according to the passage that the YIMO had opened up. As long as there was a link, there was a high chance that they would be able to find the other party as long as the other party was still in the Emerald Dream Realm!

At the thought of this, Lanaya shuddered. The other party had clearly calculated everything...

But what should she do now?

Fight it out?

Lanaya looked at Vien.

As Lanaya's partner for many years, Vien instantly understood what her good friend meant. She shook her head imperceptibly... ..

What a joke. Andrew was in his full form. The two of them were no different from ants. What could they use to fight it out?

Can't you see that the other party is so close to you that he doesn't even have a defensive posture?

This isn't arrogance. It's that he doesn't think that an ant can hinder him at all!

Andrew smiled and looked at rainless melon. "You're so smart. You're putting me in a difficult position..."

"No need to be difficult..." rainless melon smiled and said, "I'll just hang out with you in the future!"

"Hahahaha!" Andrew burst into laughter. This little guy was so realistic that he liked him...

"How is it?" Andrew looked at the principal after laughing. "A child can understand the situation so well. What are you hesitating for?"

The principal smiled bitterly when he heard that.

How could he not know that at this time... .. The outcome was almost decided...

Although the YIMO that was parasitizing seer was also unfathomable, it was only a YIMO after all. Without a host, its ability would be compressed to the extreme. Compared to its kind that occupied more than half of the emerald space... With the help of a top-notch lich, it was easy to figure out which side would win... ..

But... it was just a matter of time...

In the past, he would have surrendered like Guo Xiaoyun. After all, he was not loyal to seer. They were just working together...

But the problem was...

“You’re a Death Star...” the principal said faintly, “It’s at the fate sea level, right?”

Andrew looked at the principal and then nodded. “It’s a waste of your talent to be trapped in that body. If you weren’t born too low, your achievements wouldn’t be much worse than mine...”

The principal wasn’t proud of his compliment. Instead, he became even more terrified after getting the answer. “Do you know what you’re doing?”

Just like Anya before, the principal instantly understood the cause and effect...

He was also a scholar. Although he didn’t specialize in the world of death, as a spatial warlock, he still had a basic understanding of the Otherworld of the undead... Of course, Andrew has the Sea of Life Class Death Star, which means... . .

It means... .. Behind him: ! . is the man who caused the natural disaster!

If you choose to surrender at this time, it is tantamount to a pirate ship! !

Chapter 1318: Wait for a Miracle?

This was truly an extremely painful choice! !

The principal’s expression turned extremely ugly...

If he chose to surrender, he would be standing on the side of the man who had once made an enemy out of the entire universe. If he chose to die unyielding... .. The consequences wouldn’t be much better... ..

Many people knew that being killed by the undead was impossible to resurrect. However, there were still many people who didn’t know that if they were killed by the undead from purgatory, their souls would be directly brought to purgatory!

What kind of place was hell? Anyone who knew a little bit about the death realm would know... ..

It was definitely a terrible place. The undead gathered there were all extremely sinful, similar to the anti-human existences on Planet D. after all, the one sealed there was a crazy person... ..

The principal felt that he had never done anything that would disrupt the balance in his life. Moreover, his academic contributions were extremely high. The worst part was that he would be assigned to a chaotic area, but not to Hell, right?

Perhaps he could find a path in his long life, and he could even get back to being Queen Xi's lap dog. It was also a good choice...

But now... .. It seemed like there was no choice at all. ...

If he boarded the pirate ship, he would be with those lunatics in purgatory. If he didn't board the pirate ship, he would also be killed to join those lunatics. Moreover, the outcome might be even more tragic. It was said that in purgatory, those undead were really like evil spirits. Encountering a living spirit was like encountering a feast. They might even be torn apart and devoured on the same day...

What would happen to a spirit that didn't obey the will of the boss of the Purgatory faction if it went there? was there even a need to say it?

Vien and Lanaya's faces were also deathly pale. They looked like they had lost their souls... ..

Their lives seemed to be over...

Moreover, he didn't even have the interest to ask them, and he directly asked the principal... ..

After remaining silent for about 15 minutes, the principal finally sighed and reached out his hand, handing over the rune of the space link... ..

Andrew's face revealed a smile...

The principal was a talent that was absolutely worth roping in. Moreover, in their big plan, the demand for Space Warlocks was already very high. Taking down the Emerald Dream was only the first step, and how to use this space after that., how to achieve the connection between that technique and the death realm needed a knowledgeable advanced space warlocks as a reference.

Without alerting the death realm and the material universe, the principal was one of the few people who had the ability to disappear for a short period of time without arousing suspicion!

In comparison, Vienne and Lanaya were more troublesome, especially Lanaya. She was the leader of the new generation of the Templar assassin family. It would be troublesome if such a person died, and even more troublesome if she lived.

It was hard to guarantee that she would not be noticed when she returned...

The more children of such a large family, the more troublesome it would be for them... "...". However, if they wanted to get things done and establish the scale of the second natural disaster invasion, they needed sufficient preparations, and these preparations also required corresponding talents. This was also one of the problems that Andrew and the others had to deal with in the later stages.

However...

Andrew smiled as he looked at raingirl without a melon. Although it was an accident, it had to be said that the people under the little lord had solved the problem very well.

With the aptitude of these children, in less than half a century, they would be able to nurture a group of people who could take charge of their own affairs... ..

However, the person behind this fellow was also a problem... ..

Of course, this was a matter for later. They had to solve the problem at hand first... ..

Andrew took the link rune and casually drew a line in the air. A long and densely packed contract was formed in the air.

The principal looked at the long contract. His eyes were extremely conflicted, but in the end, he didn't take a step forward... ..

"Oh?" Andrew looked at the other party. "What's wrong? Are you still hesitating at this time?"

"Yes..." the principal took a deep breath and finally said, "I want to wait..."

"Wait?" Andrew was stunned, "Wait for what?"

"Wait for a miracle..." the principal said firmly... ..

"Ha..." Andrew sneered, "Why should I Let You Wait?"

"If you don't think I'm worth waiting..." the principal said firmly, "Then do it..."

Hearing this, Andrew was stunned at first, then he stared at the principal. However, he didn't take action immediately because of what the principal said... ..

The value of a dead principal and living was completely different.

Purgatory had existed for countless eras, so it was impossible to say that there were no space warlocks who were more powerful than the principal. On the contrary, there were quite a number of them. After all, those who could enter purgatory were considered dangerous existences by the death realm, and those who could be considered dangerous..., naturally, they couldn't Be Idiots!

But no matter how powerful the guy inside was, there was no need to use him here... ..

The purgatory was a sealed place. Before the plan was completed, it would be like the water moon in the mirror... ..

The principal was a rare talent to him, but if he was sent to the purgatory, then it wouldn't be the same... ..

At the thought of this, Andrew finally held it in for a while. He fixed his gaze on the other party and said with a faint smile, "A miracle should have at least some hope, right? At this time, who else do you expect? That Yimo?"

The principal raised his head and stared at the principal. "Did you forget about a person?"

Andrew:"..."

As soon as he said that, Vivian and the others were also stunned.

Forget about a person? Who Else?

But they immediately reacted...

Yes...

There was another person...

But that guy... did he have any effect on the situation?

-----

“Wow... that’s really scary...”

In a place billions of stars away, Maya, holding an ultra-distant sky mirror, looked at the Dark Planet and patted her chest, an exaggerated look patted his chest: “I said that the teacher is sure to make big waves, did not expect to make so big! !”

“Yes...” another voice faintly sounded next to maya: “I did not think that the senior is so generous, as expected of the example of our clan!”

Hearing that, Maya turned around and looked at the other party with a smile. And this figure was none other than Alice, who had disappeared for a long time!

“Death Star... Lord of Purgatory, Arthas. TSK TSK, I never thought that I would be involved in such a major event in my life. So, senior, what should we do next?”

“Wait...” Alice said faintly.

“Wait?” Maya smiled and said, “Sometimes, I really admire your big heart. In front of such a person, you actually entrusted such an important matter to a little guy. If not for the fact that every step was as you expected, I sometimes wonder if you are crazy!”

“That’s because you don’t know them well enough!” Alice looked at the starry sky and said faintly, “Those little guys have potential that you can’t imagine. Our clan has always relied on luck to make a living. Senior, you have experienced too much, but you have forgotten the root of our clan!”

“The problem is... even if the little fellows can complete your plan, how can we snatch seer from the hands of a life sea-level lich?”

“Have you forgotten?” Alice smiled and said, “Among our group, there’s another life sea-level!”

Chapter 1319: Bet she can’t bear to...

“Brother Dog... What’s going on?”

Other than rain girl and no melon, most of the players stayed where they were and waited. The principal even thoughtfully set up a spatial barrier to ensure their basic safety... ..

However, this barrier didn’t seem to be of much use at the moment...

The grayish-white color was like ink on white paper. No matter what was drawn on the paper, it couldn’t resist this grayish-white infection. The space between the barriers was like an empty space, and everyone could only watch everything around them... Even the ground under their feet had turned into a deathly gray-white...

The only thing that stood out was everyone. Each of them had a different color to their surroundings. Instead, they seemed a little out of place, making them look even stranger... ..

The one who asked the question was little cabbage. He had a very cowardly look on his face, and he still looked like a good-for-nothing... ..

The hearts of the surrounding players turned cold. They felt that it was not a good thing, especially when the big boss and the Lord were not around... ..

"If I had known earlier, I would have gone with the boss..." Wang Goudan looked around with a slight tremble.

Cold Star straightened his back and tried his best to calm Wang Goudan down. This inexplicable grayness gave people a bad feeling. He was born as an assassin and had a keen intuition towards danger. His intuition told him that... The current situation was very dangerous. A danger that he could not resist was approaching...

However, he could not be nervous. He had to remain calm to appease the people around him. Uncle Wang was not around, so he was the only person that Gou Dan could rely on.

"Brother Gou..." Wang Gou Dan looked at brother Gou. "You came before us. Do you know what's Going On?"

Leng Xing:" ..."

Brother Gou wanted to roll his eyes and directly retort, "How would I know?" However, when he turned around and saw the pitiful expressions on Gou Dan and Bai Cai's faces, his heart immediately softened. "It's fine. With the Liege here, we'll be fine..."

"Yeah, with the liege here, he won't let anything happen to us..." Leng Xing seemed to agree with brother dog's words, but his body intentionally or unintentionally separated them from Brother Dog's line of sight. ...

"Jiayi... this..."

Wang Ye, who had evolved into a level-2 elf, approached Eggface Li and said in a low voice, "Do you feel..."

Li Goudan nodded. The colors around him and the inexplicable sense of dissonance were exactly the same as what they had seen on the Dead Soul Island... ..

The experience back then was not wonderful. This place was most likely different from the situation back then, but it was clearly not a good thing... ..

"Undead..." Isabelle looked around, she narrowed her eyes slightly. She was quite familiar with this color. When her family members summoned their ancestors, the surroundings would also change into this color, but the range of influence was very small, about the size of a house.

And when Andrew activated the Black Goat's map in the Steel Martial Empire, it was also in this color...

...

"Where did Alice Go?"

Isabelle suddenly asked.

The surrounding players were stunned. Pu Yunchuan was the first to reply, "Didn't you just see it? It seems like she had discussed it with the Lord beforehand..."

"Hehe..." Isabelle sneered, "She could discuss it with everyone beforehand..."

As soon as she said that, the players' expressions became strange.

Indeed, little cabbage saw that Alice and the undead God seemed to have discussed it beforehand. Dogball saw that Alice and Andrew seemed to have discussed it beforehand, and then everyone saw that she and the intelligence had discussed it beforehand.

When they finally returned here, they seemed to have discussed it beforehand with the Lord... ..

It would be fine if this happened once or twice. It would give people a very powerful impression, but there were many... It gave people the feeling that it was very unreliable. ...

"Let's Go..."

After a few seconds of silence, Isabelle took the lead and walked out.

Everyone was shocked, and Pu Yunchuan quickly pulled her back. "Where are you going?"

"To find the Lord..." Isabelle said faintly, "We have to figure out what's happening now..."

"But the Lord said that it's dangerous outside, so he told us to stay inside the barrier..." brother dog frowned.

"Barrier?" Isabelle raised her eyebrows and looked around. "Do you think it's still useful?"

Everyone was stunned and looked around speechlessly. If they still believed that the barrier was useful, they wouldn't need to use their brains...

"It's as dangerous here as it is outside..." Isabelle lowered her voice and said, "I know you don't want to take risks, and I don't know if it will be more dangerous than here. However, I'm not the kind of person who likes to sit and wait, especially when I can't guarantee that I'll be able to sit and wait safely. I Won't advise any of you, but I think... .. "You've never been able to walk until now by just sitting and waiting, right?"

Everyone was silent for a while, and finally, Brother Dog was the first to open his mouth and laugh, "That's true..."

Then, the group of players revealed an eager look. Indeed, everyone was a rash young man, and it was their nature to seek death. Everyone came to the New World on their own initiative, and sitting and waiting was never their character... .. Uh... .. except for little cabbage. ...

She was almost passive in everything...

Therefore, when she heard that everyone was going to take the initiative to look for the Lord, little cabbage's face fell... ..

Of course, if they all left, she definitely wouldn't stay... ..

Looking at everyone's expressions, Isabelle smiled. "Then let's go. Oh, right..." suddenly, Isabelle looked at little cabbage. "That person... did he leave anything for You?"

"Who?" Little cabbage responded cutely.

The corner of Isabelle's mouth twitched. "Alice..."

"Eh?" Little cabbage was stunned for a moment. Then, as if he suddenly remembered something, he hurriedly nodded as if he was pecking rice. "Yes, yes!"

Everyone immediately choked. "Why didn't you say so earlier?"

"You didn't ask..." little cabbage said innocently... ..

Everyone:"..."

"What is it?" Isabelle didn't waste time with the others and asked quickly.

"This..." little cabbage seemed to take something out, but she was pressed down by Isabelle the moment she took it out. She stared at the other party. "Did she tell you anything when she took this thing?"

"This..." Bai Cai thought for a while and said, "She told me to put it away and not take it out..."

Everyone:"..."

Isabelle felt helpless. "Then why didn't you tell me not to take it out?"

"You told me to take it out..." Bai Cai looked aggrieved. "And I was very angry with her, so I didn't care what she said..."

"Er..." Isabelle covered her forehead with her hand, and suddenly understood how that guy always looked helpless in the cabbages. Perhaps... .. Well, it's not all fake. At least this guy's a real pain in the ass... ..

"What do you think it is?" asked the dog curiously.

I heard that Pu Yunchuan found this native woman very powerful, now he has some believe, a few words for the confused people found a new direction... ..

"I don't know..." Isabelle shook her head. "I've never guessed that Guy's thoughts..." then, she looked at eggface. "But now, we can only bet..."

"Bet on what?" The crowd was stunned.

"Bet on her being unwilling to..." Isabelle looked at little cabbage with a complicated expression.

"Unwilling to use this silly guy as a useless chess piece!"

Chapter 1320: A trap set up from the very beginning!

“You’re the one who’s stupid...” little cabbage said angrily.

Isabelle didn’t continue to bicker with him. At this moment, her intuition told her that she couldn’t waste any more time... ..

Just like that, a group of people followed Isabelle and stepped out of the barrier left by the principal... ..

Little cabbage walked in the middle. Years of watching movies had told her that those who encountered accidents during exploration would either walk in the front or the back...

Wang Goudan deeply agreed with this point, so he squeezed together with little cabbage... ..

However, she discovered a problem. Compared to the anxiety in her heart, little cabbage was clearly much calmer... ..

But this wasn’t right. Just a moment ago, she looked like she didn’t want to come out and was afraid. Why did her expression suddenly change?

Wang Goudan could be said to be the most familiar Playmate with little cabbage in the base. He was very familiar with her thoughts. Although she looked annoyed as she refuted Isabelle’s silly evaluation, for some reason, Goudan suddenly felt... .. Little cabbage seemed to be happy in her heart... ..

Why? Was it because she was called silly?

Isabelle walked at the front. Pu Yunchuan, who wanted to squeeze into the middle, could only brace himself and stand with his wife. He approached Isabelle and asked in a low voice, “Do you know what it is?”

“I don’t know...” Isabelle shook her head.

“Then you... looked so nervous just now...”

“Because I know that Alice brought me here because she wanted me to be so nervous...” Isabelle sighed and said, “It’s exactly the same as before, everything is in her plan...”

Pu Yunchuan:“...”

Isabelle saw Pu Yunchuan’s dumbfounded look and looked at the sky with a bitter smile. She didn’t know where her old ancestor, who loved to cheat people, was now, but she knew that he must have grasped the situation, they were as familiar with each other as they had been many times before.

The advice she gave to little cabbage was all for herself, because she knew that the silly guy was unreliable... ..

It was really complicated...

Isabelle sighed in her heart. Emotionally, the person she did not trust the most was Alice. This came from the experience of being cheated many times. She knew better than anyone else that this was a person who would not acknowledge his own family for the sake of a plan.

But from a survival perspective, listening to Alice was the best choice at the moment, because from the moment she knew that person, she had never seen that person calculate his loss, no matter who the opponent was... ..

-----

“TSK TSK...” outside the starry sky, the intelligence that possessed Alice clicked its tongue in wonder. “It’s exactly as you expected, but I remember that your junior doesn’t seem to like you very much...”

“Just because I don’t like me doesn’t mean that she doesn’t approve of me...” Alice’s face revealed a hint of a smile. “That’s why I like this junior very much. No matter how much she hates me, she can always make the most rational choice...”

“Uh... do you like her very much?” The AI was stunned.

“Can’t you tell?”

“I really don’t...”

Interesting...

Not far away, Maya watched the two of them talking to each other. She looked at Alice with interest. This little native was not as gifted as Dogball and the others, but he had abilities that the little ones did not. This was another kind of potential, and this kind of potential was also extraordinary to Maya. After all, with this ability, she had the right to directly participate in this plan... ..

That Little Overlord was really lucky. Other than those powerful aborigines, there was actually such a guy...

“Have you found him?” Alice suddenly turned around. “Don’t drop the ball at this time...”

“Ha...” Maya rolled her eyes at him. “When have I dropped the ball? Since you contacted me?”

Ai chuckled coldly. “Is that so? Why didn’t you seal that female Titan properly?”

“This is my fault?” Maya rolled her eyes again. “It’s all because you didn’t get the information on that planet and didn’t control the people below. If it wasn’t for that little guy, how would Ionelle have the chance to escape my secret seal?”

“Oh?”

While she was speaking, a cold voice suddenly sounded. “So you guys were in cahoots long ago? You betrayed Lord Evelyn Long Ago?”

Maya trembled and looked at the person who had just rushed over. It was the female Titan Knight who had just been rescued, Ionelle!

“Hehe...” Maya looked at this straightforward guy and retreated with some guilt. “How can this be called betrayal? The Lord didn’t participate in this matter much. At most, it’s called taking kickbacks...”

Eonar ignored her and asked coldly, "But how can you guarantee that his lordship Evelyn will send you over? What if she sends someone else? Your position in the force isn't the type to leave your post without permission..."

"Of course it's specially designed..." "..." "..." Maya smiled, "You have great strength but no brain. The only people in the entire faction who are suitable to cooperate with you are me, Selina, Sir Kong Si, and Sir Bo Di. Sir Bo Di and Sir Kong Si are the people in charge of the battlefield. Unless it's a last resort, they would naturally not let them leave the things on the battlefield to do other things. Previously, I deliberately gave Lady Selina a big mission opportunity and could not get away. I'm the most suitable person in the entire faction. Moreover, I was there that day. Who else would I send?"

"You gave Lady Selina a huge mission in advance, which means that you have a good grasp of the timing of the entire incident. Other than that, how can you guarantee that the IMP Lord Bolton will pass by our place according to your expectations and have Lady Evelyn send the two of us here?"

"That shouldn't be too difficult, right?" Maya smiled and said, "That little fellow Bolton came in such a grand manner, carrying so many active planets on the road. Just by hiring an intelligence officer, you can grasp their whereabouts, right? Moreover, in order to save energy, this is the best route. We will definitely come here..." "..."

"That's not right..." Ionelle shook her head. "You shouldn't have been able to control Bolton's route in the beginning, including whether Bolton has made up his mind to come here. What if he doesn't come? What if he wants to observe again?"

Maya looked at her with a faint smile. "Then what do you think?"

"Unless you have been guiding him..." Ionelle took a deep breath. "That Fairy Guy is with you! !"

"Oh?" Maya was stunned for a moment, then stood up and looked at him seriously. "It seems that my evaluation was wrong. You are quite smart..."

-----

"Hu! !"

At this moment, not far from the planet where Maya and the others were, a soap that had fallen here suddenly opened its eyes and looked around in realization.

"You're Awake?" A faint voice sounded. Soap turned around to look. It was Lulu, the fairy who had fallen asleep after drinking earlier.

When he saw that it was Lulu, soap was not surprised at all. Instead, he looked relieved. "It worked..."

What came out of soap's mouth was a female voice. If Andrew was here, he would definitely be able to recognize that voice. It was Anya's!
