

A Bunch 1331

Chapter 1331: manager Li Xue

This was really...

In the vast emerald space, looking at the mess of Ysera, the dragon head that had recovered its emerald green color was filled with a complicated expression...

The previous Moon Elf Elder sensed that there was a great calamity in the emerald space and used all his energy to cast a great prophecy spell. He predicted many things and knew that this was a calamity as well as an opportunity. In the end, he entrusted everything to it...

For this day, Ysera had been preparing for all these years. He had thought of countless possibilities. He had even practiced the cataclysm more than ten thousand times... ..

But he did not expect such a plot...

From the beginning to the end, nothing happened to it... ..

Nothing happened. Instead... .. It seemed... .. ? . To be the last fisherman?

At first glance, the Terrible Yimo and Andrew had disappeared in the collision, while the other intruders were unconscious in the vacuum of the universe, looking exhausted... ..

If you want, it seems that you can kill them all with a scratch. . .

So it turns out... .. That she just needed to lie still and not move?

She suddenly felt that the death of the elder was so unjust...

Ysera sighed. The first thing she did was to search for Diana, the only descendant of the Moon Elves. After searching, she found that she was sealed at the location of the main star and immediately felt at ease.

After confirming that Diana was safe, she then fell into a daze... ..

Because it could not think of what to do at the moment...

As the Dragon King, it was originally very confident, but after this incident, it could be said that it had no confidence at all. If it was not lucky, it would not even have the chance to resist. The many years of preparation was like a joke.

Especially the follow-up developments...

Although it was infected by the YIMO, through the YIMO, it was still able to clear up the entire incident. The various reversals later made its scalp go numb. Sometimes, it was glad that it was not involved in the incident. If it was in its place to plot against this group of people... It was likely that its skin would have been peeled off long ago...

Kill them all?

It was obviously impossible. Not to mention that the little lord had a protective seal on his body, just the nature of the matter made Ysera understand that the emerald dream could no longer continue to operate on its own.

That was because the one who targeted them was the former head of the calamity!

Although it was temporarily repelled by the seal on the Little Lord's body, Ysera knew that the Emerald Dream was no longer a secret. This period of peace would not last for long, and neither he nor Little Diana would be able to resist that force... Would be able to resist that force...

Thinking of this, Ysera Gently tapped his Dragon Claw, and all the unconscious people were wrapped in a thick layer of emerald crystals, falling into the dream... ..

Mars base...

On the surface, the Battle of the century in the emerald dream did not cause any chaos here. Most of the people were still in the midst of their daily lives, living the same life as usual.

However, when it came to pressure, whether it was the city lords who were rolling up their sleeves, or the new players who were enjoying the new world, they only felt motivated. Of course,. Those originally busy lord-tier players would feel even more bored at this moment. ... However, there was definitely no pressure...

However, there was one person in the entire base. Right now, it was a huge burden...

It was the most promising developer of the Li family: Li Xue...

The source of the pressure had to start with rainy girl handing over all the things in the base to her before she left... ..

It was only after she took over rainy girl's responsibilities that Li Xue found out that the daily operations of the entire Mars base were all in the hands of a planet d person. The upper-level aliens that the higher-ups had always been afraid of... There was no such thing... ..

Other than the Lord that looked like an NPC, there was no other higher-ups on the planet... .. Oh, of course, that did not include the temporary alien teachers... ..

So that was the truth...

Li Xue was suddenly caught in a dilemma. Everything was completely different from what her family elders had imagined... ..

Especially the diplomatic handover. It let her know that there was an incomparably huge universe outside, and their D ball was just a small colonial planet that a small lord had taken over... ..

She didn't know how elder long and the others would react when they found out about this... ..

But should she say it?

Li Xue was caught in a dilemma...

In terms of seniority, there were at least a thousand developers ranked ahead of her in the base. Not to mention the others, there were over a hundred high-quality developers by rainy girl's side. Every developer in this base was requested by the lord-tier players on their knees...

But Guo Xiaoyun still chose her...

Li Xue naturally knew what this meant...

This was forcing her to stand on his side...

This was a symbol of respect. If she firmly stood on the side of that Lord, she would be placed in an important position. However, if she stood on the side of her family or those politicians in Huaxia City, it would be completely different...

On one side was her country, her family, and on the other side was an obvious opportunity... ..

What should she choose?

For a moment, Li Xue was a little lost...

"Lord Li Xue? Lord Li Xue?"

A mechanical voice sounded, interrupting Li Xue's train of thought... ..

"Eh?"

"The specific data of each city that you want has been collected. Do you want to see it now?"

The mechanical voice asked Li Xue...

Li Xue hesitated for two seconds before finally nodding...

Soon, a huge amount of data appeared on the virtual screen in front of them...

First City: City Lord Angor, vice-city Lord: Bray, Great Justice: Reagan, and the team of advisors are... ..

The city population now had a total of 117,425 people. Starting from the 11th, the number of people entering the city began to narrow. The number of people entering the city every day was fixed at around 50 people.

The nature of the city population: The Mayin race, a strategic population of the main civilization. According to the agreement, only pure-blooded West Germans could become the Mayin race. Currently, a total of 27,020 people were admitted to the city, among them, 4,300 were officials of the city, responsible for scientific research, construction, management, and other positions. The remaining 23,020 were free citizens, and they were still studying for the time being, they had hired the base's chief mecha teacher to go to vocational education.

The base's science and technology had been unlocked by level three. The focus was on basic mechanical manufacturing, research and development of precision instruments, research and development of war equipment, and daily basic industrial products. However, the arcanists had yet to develop them, according to the data, it seemed that they were going to establish a mecha defense team first, and then export industrial products.

Of the remaining population, Chinese players were the most accepted. Because they did not accept developers and did not focus on agriculture, most of the players in central China were mainly Green Titan players. Most of them were temporarily working as basic labor for absenteeism. However, in the new city plan, they were preparing to give discounts to elven players. From the looks of the leveling situation, Green Titan players would become marginal characters in the first city in the future... ..

Chapter 1332: the shocked Ysera!

Just as elder dragon and the others expected...

Xue Li frowned.

In the beginning, Angor needed a lot of meticulous labor. He encouraged the Green Titan to be the main force in the recruitment of central China players. However, once the mineral output began to be sufficient and the resource base was established, he immediately changed the policy. He began to encourage the elf players to move in... ..

Xue Li looked at the civilization model map. The route taken by the first city would have almost zero demand for the population of the Green Titan in the future. The mechanical civilization needed developers, meticulous artisans, and operators, these three categories were the main demand for the population of the civilization!

There was no need to mention the developers. Whether it was researching basic theories or project practice, the main force was definitely the Mayin race. A large number of scientific research projects were monopolized by the West German race, a large number of mecha forces came from mecha teams. As long as enough spirit masters were trained, they would be able to form the main fighting force. They would be the members of the highest level of civilization.

Artisans referred to the assembly technicians of many precision instruments. Most of these people needed relatively agile hands and good learning ability, and this aspect was obviously not what the Green Titan was good at, they were mainly agility-based or spirit-based players, and belonged to the engineering department. In the technological model, the engineering department of the mechanical civilization belonged to the basic category of society, and was also an important part of it.

Finally, there were the operators, which generally referred to the operators of weapons. In the model, the mechanical civilization, in addition to the Master of the mind, also required a large number of agility-based lifeforms to carry out basic war equipment control.

Other than the mecha operators, various types of soldiers such as snipers and long-range fire groups, high-quality war mechs were mostly focused on agility-type lifeforms, and rarely used strength-type lifeforms like the Titans... ..

In other words, in the future construction, these Titan players who joined the first city in the early stages were useless... ..

What would happen to them in the future?

It would be good if they could build their own forces in the outside world. They could also bring a lot of tax revenue to the city, but what about the unlucky ones?

Li Xue took a deep breath. Those were tool men who were abandoned...

There were a lot of Huazhong players advocating Angor in the forums. It was as if a foreign ruler could stand on their side and treat them like family. How ridiculous was that?

Why would the leader of West Germany work for you? What was wrong with his brain?

He looked at other cities. They were all the same, or even darker. Most of them seemed to be encouraging Huazhong players to move in, but in the secret distribution, they were only marginalizing the most talented players.

In the second city, the leader of Red Sun City was mainly in agriculture. He looked like he was treating everyone equally, but in reality, the best Huazhong players were assigned to be tools for basic agricultural construction and elemental support. As for their own people, especially those from aristocratic families, they secretly arranged to study the priest group. It was clear that they wanted to leave the divine arcane civilization, which focused on the power of sacrifice... ..

In the future, the people below the priest level would belong to the lower-middle-class population in the city, and they would gradually form a monopoly... ..

The third city was still fine. Song cared that that guy did not have too much of a national sense towards his own people. He only wanted to create an ideal world, so for the time being, he did not have any special preferences. It was the same for everyone, but he was also restricting the central China people.

There was no other reason. The Huazhong players were too talented, and it was very easy for them to form a monopoly of the upper echelons. They needed to suppress them to a certain extent to balance things out. This could already be considered a relatively mild method, and it was the most extreme in the fifth city, the city Lord took the initiative to stir up conflict, causing the Huazhong players to be isolated. Now, it had almost become a cold war within the city.

However, that short-sighted fellow was only creating conflict for those big capital families to snatch benefits from the Huazhong players, and not for the people of his own country.

Seeing all the data, Li Xue felt a deep sense of helplessness welling up in her heart... ..

Looking at the data, most of the people in Central China wanted to go to cities outside of Huaxia City. They were obviously brainwashed by the policies announced by various politicians, most of these people were dissatisfied with their lives and were the ones who were most interested in the new life.

However, how would they know that the city lord that they praised was not on the same side as them?

The saying that non-members of their race had different hearts was passed down from their ancestors. It was not wrong at all... ..

In the past, due to the incompetence of the imperial court, the most outstanding and intelligent people on Planet D had suffered a lot. Even now, they were still chasing after others.

However, now, on the same platform, they clearly had the best qualifications. Could it be that they were once again set up by others to be reduced to the bottom?

What kind of joke was this? ?

Li Xue's heart was burning. She was born into a military family. Although she walked the path of scientific research, she had always had a sense of national glory in her bones. What she had been looking forward to was the rise of central China!

This was clearly a good opportunity...

But she was going to be reduced to a bubble once again in the Web of conspiracies of these politicians?

In an instant, Li Xue almost immediately had the urge to bring back all the information... ..

But in the next second, Ai's one sentence made her calm down... ..

"Lord Li Xue, the information is classified as s grade secret, but you have the highest authority now, so you can do whatever you want..."

Li Xue was instantly stunned. "What do you mean?"

Ai: "These are the words left behind by rain girl, Lord Wu Gua..."

Li Xue:"..."

Yes...

Can monitor the whole course of rain woman without melon naturally know all this, but why has she been doing nothing?

What do you do now that you give yourself the highest level of authority?

Is She... is she testing me?

At this time, far away in the Jade Dream of rain woman no melon naturally do not know Li Xue Complex mind at this time, even if know probably also do not have the time to care, because she is now facing a bigger thing...

This matter was far more important than the trivial matters on Ball D. ...

At this moment, she was on a huge emerald crystal, and at the other end of the crystal was a crystal-clear Green Dragon King... ..

The situation... was more complicated than expected...

The Lord and the others seemed to have won, but the final winner didn't seem to be the Lord... ..

Rainmaiden WUGUA sneaked a glance to the side. There was also a huge emerald crystal there, but in the crystal, both the Lord and the previously powerful Anya and the others were sealed inside the crystal. They fell into a deep sleep... ..

“Don’t look...”Ysera said faintly, “Your Lord won’t wake up for the time being...”

“When will he wake up?”Rainless melon asked carefully.

The guy in front of her didn’t seem to be a good person...

“It depends on whether your answer satisfies me...”Ysera said faintly, “If not, I can even let your liege and those people sleep forever...”

As expected, he wasn’t a good person...

However, she could not tell whether the other party was telling the truth or not. After thinking for a while, she finally took a deep breath and asked, “What do you want to ask?”

“The first question...”Ysera narrowed her huge emerald eyes and asked, “How many people like you are there?”

Rainy Girl, Wugua, paused for a moment and instantly understood what the other party meant. After a few seconds of silence, she finally said honestly, “A lot...”

“How much is a lot?”

“A billion...”

“Hiss...”

Ysera stared at ithra, speechless for a long time...

Ithra actually wanted to remain calm, but the news was too shocking. It tried its best to maintain its tense dragon face, but its trembling dragon claws still betrayed her current mental state... ..

In the end, ITHRA did not intend to probe any further. With a trembling voice, she asked directly, “What about elves? How many elves are there in a billion miles?”

Rainmaiden wugua glanced at him. She did not understand why he was so excited, but she still said honestly, “That depends on how many you want...”

“What do you mean?”Ysera asked.

“Eh? Don’t you know?”Rainmaiden Wugua looked at him in puzzlement. “We are aborigines. All of our bloodlines come from genetic surgery...”

Ysera:” ...”

Natives...

Oh My God...

At this moment, Ysera was extremely shocked, but at the same time, he finally understood what kind of revival opportunity the Moon Elf Elder had predicted! ! !

Chapter 1333 the opportunity to rise...

The Emperor Titan, the emperor-class elf, and the group of high-quality juniors with ancient genes were all natives? They were actually obtained through the low-cost genetic transplant surgery performed by the Federation?

Although Ysera harbored the secret of the Emerald Dream, she was not out of touch with the Federation. She knew very well what kind of quality the so-called genetic surgery was... ..

It was only a low-level surgery used by the novice gods to improve the physique of the natives of the colonized planets. The technical content was extremely low, especially the ancient genes such as the Green Titan and the wood elves.

As the genes could not be analyzed, they were directly used after thawing. There was no processing at all. It was just like how the iron ore that was dug out did not refine steel. It was an extremely low-end product in low-level surgery. They were sold by the catty in the market... ..

If they could produce the Emperor Titan with this kind of thing, these genes would have been sold like crazy... ..

Of course, this could not be the advantage of surgery and genetic materials. The only possibility was that the aborigines themselves had the advantage... ..

100% capacity! !

There was only one possibility...

But when she thought of this possibility, Ysera felt so excited that she felt like she was going to fall apart... . .

Does that even exist?

But if this is true, then the elder foretold the opportunity to directly exhaust life after one time seems to be understandable... . .

After all... .. But the elder of Tianyuan... . .

She could not understand at that time, what an exaggerated fate, can let a Tianyuan level elder directly run out of oil lamp, although it was not long before the oil lamp ran out... ..

On the other side, looking at Ysera who was clearly in a daze, Guo Xiaoyun was extremely nervous... ..

Regarding this major event, she really lacked information, and it was difficult to calculate the gains and losses. The only useful information was that no matter which faction it was, they seemed to be very shocked by the talent of players like them.

She knew that she was not able to survive until now because of herself, but because she was subconsciously protected by the big shots, which was why she was able to survive until now... ..

Of course, it was impossible for her to be friendly without being related to them. The only thing that she could be sure of now was that she and those players were extremely valuable... ..

Therefore, when Ysera asked how many people there were like her, she would answer honestly, in order to increase her bargaining power and make them value her side as much as possible.

The rest could only be left to fate, but it seemed that the effect was not bad. At least, the other party was hesitating... ..

Guo Xiaoyun carefully held back her words. Under the circumstances where there was insufficient information, it would be more wrong to say too much. It was better to wait for the other party to take the initiative and get some information from him before dealing with him... ..

Just as she was thinking, Ysera's voice suddenly sounded faintly... ..

"Do you know... What your words mean just now?"

Guo Xiaoyun was taken aback. She did not expect the other party to ask such a question. This was practically equivalent to a general... ..

In a normal confrontation, she should have calmly nodded her head and said that she knew, so that the other party would not be able to figure out her depth, but now... .. Facing those huge emerald eyes, Guo Xiaoyun's words were stuck in her throat, but she could not say it... ..

In the end... She could only shake her head honestly. "I don't know..."

"You're very honest..."Ysera nodded.

"I'm not honest..."Guo Xiaoyun shook her head. "It's just that I'm not qualified to lie..."

Hearing that, Ysera was stunned for a moment. Then, she looked at Guo Xiaoyun with a funny look. "You know your place..."

"I can't help it. The gap is too big..."Guo Xiaoyun shrugged. "Not only the gap in strength, but also the gap in knowledge. There's really no chance at all. I'm also helpless..."

"Then let me tell you..."Ysera narrowed his eyes and looked at him seriously. "A developer like you will be the top seedling in the federation. There won't be more than ten of you in the entire federation..."

These words stunned Guo Xiaoyun. The federation he was talking about should be the interstellar federation in the AI system, right? It was the largest civilization organization in the universe.

It was so huge that the earth was as small as a speck of dust...

With such a huge body, how could she be ranked in the top ten?

She could sense from the love and care that the big shots had for them. The players should be quite talented, but she didn't expect them to be so awesome!

"Are you sure?"Guo Xiaoyun couldn't help but ask.

"I think so..."Ysera said faintly, "At least, none of the direct descendants of the big families I've met are more outstanding than you and your companions..."

"What do you mean by outstanding?"Guo Xiaoyun immediately asked.

“Purity of bloodline!” Ysera said seriously, “Nowadays, most of the genes of the big families are purified from generation to generation. With the efforts of the ancestors, they develop the genes from generation to generation and pass them down from generation to generation, so that the descendants can have a starting point that is far higher than others. All of this is because of the purity of bloodline, and the purity of your bloodline is higher than any of the descendants of the big families I’ve met, do you understand? “A simple surgery, and a group of indigenous people who have never been modified, are above those big families that have been passed down for hundreds of millions of years. What does this mean?”

Guo Xiaoyun swallowed her saliva. It sounded like... .. “It does sound pretty awesome. This information of mine...”. “...”. “Isn’t it a little too hasty?”?

“And you said that there are actually more than one billion indigenous people like you...” Ysera smiled and said, “I’ll ask you again. Are you sure?”

“Ugh...”

Guo Xiaoyun was shocked by the other party’s information and didn’t know how to reply for a long time. However, the other party didn’t force her and just waited quietly for the answer. This information was worth waiting for, even if she had to sit here for 10,000 years. It was worth it...

“I think so...” after a long time... .. Guo Xiaoyun said carefully, “There are still differences between individuals, but when it comes to bloodline purity... everyone should be about the same...”

At least the Huazhong players were about the same...

“Is that so...” Ysera did not doubt it anymore after hearing that. Instead, she took a deep breath and slowly closed her eyes... ..

A seedling with more than a billion talents like this was still a native...

So that’s how it was...

After thinking about it for so many years, she still could not understand what this so-called opportunity to revive the Dragon Race and the Moon Elves was. After all, the degeneration of ancient bloodlines was the will of the universe. Logically, it should be irreversible!

But she did not expect it to be this way...

She had already thought about it before. If it was just a high-quality ancient elf, this kind of opportunity would only be a flash in the pan. But if it was such a native, it would be different... ..

A native was a renewable resource...

If such a native could maintain such a high tolerance rate for generations, what did this mean?

Thinking of the Moon Elf gene storage, it finally understood what the Moon Elf Queen, who said she could rise again, saw before her death...

This was really...

Looking at Ysera who had her eyes closed, Guo Xiaoyun carefully raised his head and finally summoned up the courage to ask, "So... What do you plan to do now?"

Hearing that, Ysera slowly opened his eyes and looked at the extremely smart little guy. Suddenly, he asked with great interest, "What do you think I should do?"

Chapter 1334: an uninvited guest! !

What do you think I should do?

This question made rainy girl, Wu Gua, Roll Her Eyes... ..

How the Hell Should I know what you think?

Taking a deep breath, Guo Xiaoyun finally understood and did not lose his temper. After all, the one who asked the question was a big shot... ..

"In your words, we seem to be very impressive..."

Ysera nodded. "Yes, we are very impressive, but only if you can walk out of Here..."

"Then do we have any meaning to you, senior?" Rainy girl asked the key question directly.

Ysera was silent for a few seconds, and finally said, "Yes, it has great meaning!"

"What is the meaning?"

This time, Ysera did not answer, but just looked straight at him.

Guo Xiaoyun did not avoid his eyes and continued, "You asked me to tell you what to do. You Don't want me to talk nonsense, do you? How can I answer your question if I don't understand the situation?"

"Are there many people in your area who have already undergone surgery and are as excellent as you?"

Guo Xiaoyun tilted his head and asked, "Do you mean in terms of bloodline?"

Ysera replied, "I'm talking about brains..."

"I don't think so..." Guo Xiaoyun smiled and said, "At least not yet..."

"Is that so..." Ysera nodded, then, she answered the previous question, "If your information is true, then you mean a lot to me. You should have some knowledge about the federation, right? Do you know the value of the genes you are using now?"

"This... I know some..."

Guo Xiaoyun's face turned somewhat dark. When she found out that the genes they players were currently using were actually sold wholesale in the federation market, she was so angry that she almost vomited blood.

Just like this, a few federation coins could weigh several dozen Jin of goods, yet this dog Lord actually had the exchange price of over a million points within his faction!

Zhou peeling skin was not as black as he was!

“But do you know that the reason why your genes are cheap is not because the quality of the genes themselves is low. On the contrary, it is because the quality of these genes is too high. Not to mention the ordinary aborigines, even those big families are unable to optimize their inheritance, so they are sold as scrap products?”

“Uh...” Guo Xiaoyun was stunned. “Is... is that so? But why would such a thing happen? The genes are from living creatures, right? If the genes themselves are outstanding and perfect, it shouldn't be like this...”

“Because of degeneration...” “...”. Ysera said faintly, “From a very, very long time ago, this universe deliberately degenerated some powerful races. The wood elves you are using now, the Green Titan, the developers, and the Dragon Race...” “...”. “...”

When Guo Xiaoyun heard this, she instantly understood the cause and effect, she continued, “So, generations after generations, the descendants completely lost the ability to inherit the genes of their ancestors and retired from the stage of history. They even directly exterminated their race. That's why their genes were sold as scrap, right?”

Ysera nodded with a smile. It was really easy to talk to smart people. Many times, if you said a little, the other party would instantly understand everything... ..

“I understand...” Guo Xiaoyun looked at the other party. “So... our value to you is that we can also inherit the genes of the Dragon clan and become the continuation of your clan's prosperity, right?”

Ysera: “Yes! !”

So that's how it is...

Guo Xiaoyun suddenly realized that no matter which force was protecting them, their value was actually so great... ..

She instantly heaved a sigh of relief. This meant that no matter how this guy wanted to treat the Overlord, at least he wouldn't do anything bad to her or her compatriots. After all, according to what he said., her desire was to use the people of Planet D as a source of life for their clan's decline. It was equivalent to the people who had no descendants in ancient times planning to carry on the family line by having two children.

In such a situation, at least they would not be harmed...

“Then, let me ask you now. What do you think I should do?” Ysera looked at him and asked.

Guo Xiaoyun was stunned, she touched her chin and said, “Then can you do it? That is, accept us as the source of your clan. You didn't do it directly. There must be an obstacle, right? Is this obstacle the Lord?”

“Yes...” Ysera nodded. “You have a god-like contract with the Little Lord. This contract can not be canceled unless he dies, but I can't kill him...”

Guo Xiaoyun: “...”

Big bosses were indeed ruthless. They planned to kill people at the slightest disagreement... ..

“That is to say, you can’t touch the Lord and can only seal him, but you can’t accept us if you seal him, right?”

“Yes...”Ysera nodded. “Without his consent, if I forcefully transform you, it will definitely fail. It Won’t benefit our clan at all...”

“Then what else is there to say?”Guo Xiaoyun shrugged. “Only cooperation!”

“Cooperation?”Ysera sighed. “If only it were that simple...”

“What do you mean?”Guo Xiaoyun asked curiously.

“Don’t you know?”

“Know what?”

“The person behind your Lord...”

“The person behind the Lord?”Guo Xiaoyun was stunned. “Is There?”

Ysera frowned. “Are you playing dumb? If he doesn’t have a person behind him, where did the sealing power on his face come from? Few people in the entire universe can seal such a powerful power!”

“Eh... is that so?”Guo Xiaoyun was stunned. “Someone else sealed it? I thought... it was the lord’s ultimate move...”

Ysera:” ...”

This little guy was playing dumb on purpose, right?

“But I’ve never seen it before...”Guo Xiaoyun suddenly said.

“You’ve never seen it before?”Ysera tilted his head and looked at him, wanting to see if he was lying again.

Although this little guy’s level wasn’t high, he had a very shrewd mind. If he wanted to focus on nurturing this group of Aborigines, this little guy would definitely be a good choice for his confidant. He should be heavily nurtured. In Ysera’s opinion... Such a smart person could possibly come into contact with the person behind Seer... ..

Therefore, he wanted to get some information and see who the person behind the scenes was.

After all, he had to be careful if he wanted to negotiate with that kind of person. If he was not careful, he would probably be reduced to ashes, just like the level of the little overlord and himself. If it were not for that seal... He would have killed him with a slap. If he pushed him aside, the gap between him and the other party should be so big. If he was not careful, he would probably end up like that...

“I haven’t seen it...”Guo Xiaoyun shook his head. “Actually, if you don’t say it, I have never felt that there is a big boss behind the Lord...”

“Oh?”Ysera narrowed his eyes and asked, “Why do you feel that way?”

"I feel it..." Guo Xiaoyun said very seriously, "I have been in contact with the Lord for a few years. Although this guy is very black-hearted and unreliable, I am very sure that he is not a puppet!"

"Oh? What an interesting little guy!"

A faint voice suddenly sounded. For a moment, Guo Xiaoyun didn't feel anything, but Ysera felt goosebumps all over her body!

That voice was almost close to the two of them. However, as a tianyuan-level Dragon King, he didn't feel anything when someone approached him in the emerald dream realm that he controlled... ..

Who Was It?

Chapter 1335: Name Card

This time was different from the last time when the Yimo suddenly got infected... ..

That time, the other party had exploited a loophole in the law, causing him to be infected without any precautions. But this time was different. Ysera could clearly feel that it was definitely not a yimo, but a normal character... ..

He had come openly. The reason why she did not feel it was because the other party had come too quickly, causing the emerald dream to not have the time to report back to her... ..

Thinking of this, a drop of cold sweat slowly slid across the dragon's back. Ysera's body stiffened. She did not dare to make any rash moves. She did not even dare to use her mental strength to detect this uninvited guest... ..

Compared to Ysera's shock, Guo Xiaoyun was much calmer because of her ignorance. After all, with her level, many people could approach her without making a sound... ..

So she naturally followed the voice and looked over...

It was a figure that was very close to the size of a d-ball person. Even among the D-ball people, it was considered relatively short, about 1.6 meters tall. It was petite and Dainty, and it wore silk brocade clothes that looked a little like those in ancient movies. It had a luxurious and exquisite temperament. Its pure black hair was tied up on both sides of its head, and there were some exquisite and beautiful headdresses hanging on it. It made people feel a strong sense of ancient style... ..

Seeing this outfit, Guo Xiaoyun was slightly stunned. Although she was proficient in various engineering fields after becoming a developer, in fact, she was a history teacher in university, so she was very clear about this headdress that clearly belonged to the d-ball... ..

If she didn't miss it, it should belong to the popular flying fairy bun of the Han dynasty... ..

Here... .. Why would a young lady wearing ancient clothes suddenly appear?

However, her appearance couldn't be seen. The other party's face was covered by a silver mask. Although her face couldn't be seen, her purple eyes that were exactly the same as the Overlord's were abnormally obvious, giving off a threatening aura of nobility... ..

“Who are you?” Guo Xiaoyun asked carefully.

Although she didn’t sense her strength like Ysera, judging from Ysera’s appearance, she was obviously not a simple person... ..

“As expected...” the woman didn’t answer Guo Xiaoyun. She slowly walked in and looked at Guo Xiaoyun carefully. “He still found you...”

Guo Xiaoyun: “Eh?”

“But that’s true. If he found me, he will find you...” the woman’s voice was gentle. Guo Xiaoyun could clearly see a smile in her eyes... ..

Guo Xiaoyun was stunned. Although she didn’t know why, she could clearly feel that this person... .. Was kind to her... ..

Just as she was about to ask something, the woman turned around and looked at Ysera...

Ysera’s expression was not very good at the moment. Her whole body was tense, as if she was facing a great enemy. However, when the woman turned around, Ysera couldn’t muster up any courage to do anything... ..

A sense of helplessness that she had never felt before welled up in her heart...

“You don’t have to be nervous...” the woman said faintly, “I’m going to ask some questions. After that, I’ll leave...”

Hearing that, Ysera was stunned for a moment before he nodded stiffly. He did not doubt the other party’s words. There was no need for this person to lie to her... ..

“Who was the person who collided with the seal on his body previously?” The woman pointed at Seer who was sleeping in the Crystal and asked.

Ysera trembled when she heard this and thought to herself, ‘is it really the master of the seal?’?

“Arthas...” Ysera answered the question with difficulty. ...

“Oh?” The woman nodded slightly. “That guy is still alive? Didn’t I hear that he was killed by Sylvanas?” ‘heard?’?

Her casual question made Ysera’s body freeze again...

She kept guessing who had left the seal on the little suzerain. The power that could force Arthas back was either at the level of the ten great suzerains or at the level of a few guardians of the top clans.

But she was not sure which one it was, but after hearing the other party’s words, she roughly knew who it was... ..

Most of the top powerhouses had become famous before the natural disaster. Although not all the powerhouses had fought Alsace in the natural disaster, they were at least involved in it, they had clashed head-on with the natural disaster forces.

They shouldn't use the word 'heard'...

But if the other party had become famous after the natural disaster, there wouldn't be any problems with this question... ..

And there was only one expert of this level who rose after the natural disaster!

Thinking of that person, Ysera's eyelids twitched... ..

"I don't know either..." Ysera buried the truth and tried his best to hide the shock in his eyes. He replied carefully, "But the only person in this world who can freeze the life and death passage should be that person..."

"Really?" The woman nodded slightly as if she believed her words. She slowly walked to Xi Ye's side and tapped the crystal with her hand. "You, you're really troublesome..."

Ysera: "..."

Wasn't her tone a little too intimate?

What was the relationship between this little guy and this person?

"That's enough..." the woman tapped her finger lightly. "It's good that you're fine..." as she spoke, she looked at Guo Xiaoyun. "Little guy, if you come to the federation in the future and want to go to a good school to use this name card..."

As she spoke, the woman tapped her finger lightly, and a faint purple name card appeared in Guo Xiaoyun's hand out of thin air. Guo Xiaoyun stared blankly at the name card, and subconsciously made an 'oh'sound... ..

She glanced at the other party. She didn't know if it was an illusion, but she felt that the way the woman tapped her finger was exactly the same as her lord... ..

However, Ysera, who was standing at the side, fixed her gaze on the name card... ..

The ten great lords had the right to directly recommend the top academies of the federation. They could directly recommend the top academies without passing the examinations. This was the privilege of the top ten existences, and also a symbol of glory. They were usually the most outstanding children of the factions, to get this honor.

It was also a way for the ten lords to show off their younger generation's power, which would happen every once in a while, but as far as Ysera knew, this one had never recommended a member of his own faction since he became the third Lord.

Of course, this was understandable. Although this lord was very popular, his faction was indeed too young. It was normal for him to not have enough background to produce outstanding disciples...

But now... .. She had given the name card to this little guy...

What was her intention?

“Let’s Go...”the woman looked at Guo Xiaoyun. “Don’t slack off, little guy. Whether it’s You or your companions...”the woman pointed at Goudan and the others who were sleeping soundly in the crystal. “You don’t have much time left...”

Guo Xiaoyun: “Eh?”

Guo Xiaoyun had a question mark on her face, but before she could ask anything, the woman in front of her disappeared... ..

She disappeared very suddenly, just like when she came. There was no movement at all. If not for the purple name card in her hand, she even felt that she was hallucinating... ..

“She left?”Guo Xiaoyun was stunned.

“I think so...”Ysera replied with uncertainty.

“What... does that mean?”Guo Xiaoyun was a little confused.

“Didn’t she say that?”Ysera said faintly, “She just came to ask some questions, and then she left...”

“Um...”Guo Xiaoyun rolled her eyes. “That’s it?”

“Maybe that’s it...”Ysera narrowed her emerald eyes and looked at Guo Xiaoyun. “Can I see the name card?”

“This?”Guo Xiaoyun waved the purple card in his hand and threw it to Ysera casually. “Yes...”

Ysera took the card carefully and felt the aura on it carefully. Finally, he closed his eyes.

“What’s This?”Guo Xiaoyun asked curiously.

“The ID cards for you to walk in the federation in the future...”Ysera replied faintly.

“Ah?”

“You may be right...”Ysera opened his eyes and looked at seer who was sealed in the crystal. “Your Liege is not a puppet that is controlled...”

Chapter 1336: The New Port in the Sea of stars is open -Partpart 1) !

On the surface, it seemed somewhat inexplicable, but if one thought about it simply, everything seemed to be understandable...

She had come here because she had sensed an existence that could contend with her sealing power and was worried about the little lord’s safety, so she had come personally.

After knowing that the Little Lord was safe and sound, she had left...

Although it was a little inconceivable, that was the feeling she gave off...

Ysera felt that such a person would not put on an act in front of him. Therefore, even though it seemed especially ridiculous, as long as the other party did so, it would be the truth... ..

As for these special aborigines, the other party seemed to know something, but he had no intention of controlling them. After leaving a name card that could protect their identities, he left directly. This was obviously a great convenience for them without any restrictions... ..

Until at this moment, Ysera suddenly began to believe Guo Xiaoyun's words... ..

Perhaps... .. She was right. Perhaps the little lord and that Lord were not controlled by superior and subordinate... ..

At least from the Lord's behavior just now, it did not seem like... ..

Thinking of this, Ysera slowly opened her eyes. After all her doubts were gone, all that was left was endless joy... ..

She understood that from the moment that Lord left like that, she understood that everything was smoother than she had imagined. It was even better than she had imagined... ..

The big men behind the little lords did not become obstacles in her imagination, but became their best shelter!

After all... . If a group of Outstanding Dragon or Moon Elf descendants suddenly appeared in the universe, it would inevitably arouse the suspicion of others, explaining the source of identity would become very troublesome, but once with the Blue Moon flag, Easily... ..

"It's really... better than I imagined..."Ysera took a deep breath and raised her huge dragon head.

Guo Xiaoyun looked at her in a daze. She didn't know if it was an illusion, but she felt that she raised her head... .. As if she didn't want the tears in her eyes to fall... ..

But with such big eyes and so obvious, who wouldn't be able to see it?

At the entrance of the Emerald Dream, in the New World, stood a tall and slender woman.

She was about two meters tall and looked very much like an elf. She was dressed in scarlet armor, and beside her stood a large saber that was even larger than her own body.

The entire body of the large saber was scarlet, but it carried a bright radiance akin to the Bright Moon. It was exceptionally beautiful, and it also carried an incomparably evil aura...

However, in the circle of the federation's powerhouses, this blade was extremely famous. Its owner was even more famous. He was one of the six great pillar country's marshals under war god Cang Yue: Gorilla Moon Yisheng!

Just like the ten great liches under Empress Xi and the Four Kings under the first Lord, they were all the trump cards under the ten great lords.

However, in recent times, the trump cards under Cang Yue could be said to be extremely popular. Yisheng's fierce reputation was even more illustrious. The previous generation's third Lord's subordinates, the four commanders of the Titan Army, were all killed by this person. That red blade of hers., it was rumored that she had killed no less than a hundred void watchers!

Someone had made a private ranking under the ten great lords. Yisheng was ranked in the top three, and his evaluation was even higher than the first Lord's fourth Heavenly King, Ming Ye!

However, at this moment, such a famous figure was squatting at the entrance of the Emerald Dream Realm. The broadsword was casually standing by the side, while he was holding a huge leg of some unknown creature and eating it inelegantly... ..

"How many times have I told you not to be so rude when eating? You will scare away the man who likes you in the future..."

At the entrance, Cang Yue with purple hair appeared behind Yisheng without any warning.

Yisheng immediately stuffed the meat into his mouth. His cheeks bulged like rubber as he mumbled, "Boss... boss..."

Cang Yue covered her head. Although she was wearing a mask, her speechless expression was very obvious... ..

"Boss, how did you get out so quickly?" After Yisheng chewed and swallowed the meat in a few bites, he did not even bother to wipe the oil on his mouth as he leaned closer to Cang Yue and asked with a silly smile.

Under this silly smile, the image of his originally valiant and handsome face was extremely obvious... ..

"You came out naturally..." Cang Yue pushed his oily face away.

"Really? That's not right..." Yisheng scratched his head in confusion. "Boss used to look at that Little Guy's face for a long time every time he saw him..."

Cang Yue: "It's inconvenient with an outsider here..."

"UH... an outsider?" Yisheng was stunned. "What outsider? Can't you just slap him to death?"

Cang Yue glanced at her indifferently. "An outsider that can't be killed..."

"Uh..." Yisheng's face immediately wrinkled when he heard that. "It sounds quite troublesome..."

"Is that so?"

"Then... boss, have you found out about the guy who blocked your sword? Which one is it?"

"Arthas..."

"Eh? Isn't That Guy Dead?"

"He doesn't seem to be completely dead..."

"Wow, that's a powerful person. I heard that..." Yisheng immediately revealed an excited expression.

"How did boss feel after the fight? Is He as powerful as the rumors say?"

"He's pretty powerful..." Cang Yue waved her hand lightly, and a purple longsword suddenly appeared in her hand. On the blade of the sword, there was obviously a purple chill that did not dissipate for a long time.

Only then did Yisheng's silly expression slowly fade away, revealing a serious expression: "He can actually seal the boss's sword?"

Purgatory:

The purgatory space at the highest level was vast, but it seemed very empty, because at the highest level, besides the Supreme Shrine where the immortal was, there were only the ten most powerful palaces in purgatory...

Arthas' palace was the closest to the shrine. The entire palace was cold, and one could feel the terrifying cold air from tens of thousands of kilometers away, except for Arthas' subordinates..., no undead dared to approach this place that was like a frozen purgatory.

At this time, in the center of the hall, Arthas was sitting on the throne. A beautiful silver-haired woman gently helped Arthas remove the heavy armor on his body.

"My Lord... This is..." the woman took off the armor. Her fair and beautiful hands suddenly trembled, and her beautiful face revealed a look of disbelief. ...

Because she saw that there was a terrifying scar under the armor. A powerful force lingered in Arthas' spirit body for a long time, bringing with it an extremely domineering sword intent... ...

Arthas slowly opened his eyes. A pair of ice-blue eyes that were different from the other undead looked at his wound and slightly narrowed them. "War God Cang Yue? She really lives up to her name! !"

... ..

The confrontation between the two top figures was not known by outsiders at this time. Under the turbulent undercurrent, all living things in the universe that did not know about it still lived their daily lives.

Just like the players in the Mars base, the biggest thing for them was to earn enough points to reach the standard to go to the New World. After the New World was opened, they could start the first step of their dream interstellar journey!

And today, the news that made everyone excited came... ..

The New World was reopened!

And... . . New missions and races are open... . .

Chapter 1337: Lei Xue's Choice (1)

As the largest city in the new world, Huaxia City's prosperity and land prices were on a completely different level from the other five cities.

The other five cities tried every means possible to recruit great lord players and even promised good land. However, there were very few people who responded. On the contrary, in Huaxia City, the inner three ring roads, especially the areas close to the academy, were all empty. Dozens of lord players even

auctioned off the items, allowing the Huaxia city officials, who were already relatively wealthy, to earn a large sum of money from the players...

The players who could move into the Huaxia City inner ring were definitely the top players in the world today. However, among this batch of players, there were very few people who were once the top players in the original society.

Back then, in order to avoid the attention of the officials, the first batch of players in galaxy, other than Liu Shiyu and Li Jiayi, were all commoners. As a result, almost all of the players in the inner ring of Huaxia City were new rich... ..

There were very few families that could make it into the inner ring of Huaxia City. The Lei family was one of the few among the few... ..

Under the influence of Lei Xue, the Lei family was now doing well in the new territories. While many new players were still desperately trying to earn points through labor, the Lei family had relied on Lei Xue's high annual salary to obtain an extremely high starting point for resources.

In the three generations, the Lei brothers, Lei Ming and Lei Yong, had been filled with training courses since the first day they entered galaxy. They did not need to worry about the course points at all. They only needed to work hard to train themselves.

With enough points, they had an advantage in the choice of ingredients, medicines, and training instructors. The Lei brothers quickly left the players of the same generation behind. In less than two months, they had advanced to Level 2 Titan. They had become one of the top few existences among the new players. Moreover, with enough time for training, they had also completed two weapons specialization missions. Once the New World opened, they could set out to make a name for themselves... ..

Lei Min, the third-generation granddaughter of the Lei family, had entered the energy department. Now, she was one of the few level 2 developers in the base. She was favored by the Academy's Hermie Instructor, and he had accepted her as his disciple for free. Her future prospects were even more promising.

After all, outstanding developers were everywhere.

Finally, there was Lei Xue, who had changed the fate of the Lei family. She was even more amazing. Originally, she had worked under the lord-tier player ice crown and had obtained a certain amount of shares to provide the Lei family with a large number of points. Now, she was directly transferred to the headquarters. She temporarily took over the duties of the base's general manager: rainy without a melon...

As soon as this news was released, it immediately caused a storm in the upper echelons of the six big cities... ..

Especially elder long and the others from Huaxia City. They were so shocked that they did not sleep for several nights, and they ran to the Lei family's residence every day... ..

“Is little snow still not back?”

In the Lei family’s courtyard, elder Li anxiously came to the door. The first thing he said made elder Lei in the courtyard roll his eyes... ..

“Didn’t I already tell you at the door? Why are you still asking? Do you think I can hide little snow or something? I’m already so old, can I be more mature?”

“Mature my ass!” Elder Li directly rolled his eyes at him. “When Am I Old? According to the normal lifespan of the genome, I can live for another 200 years even if I don’t train. How Am I Old? I’m obviously very young, okay?”

Hearing that, elder Lei’s lips twitched. This old man was becoming more and more shameless... ..

“I have to be anxious...” elder Li sighed. “I’m still being urged by the city lord every day. Since he’s urging me, I naturally have to rush you. What else can I Do?”

“What’s the use of rushing?” Elder Lei’s lips twitched. “Young people have grown wings. I Can’t do anything about it...”

“Are you sure she won’t come back on her own?” Elder Li asked solemnly.

“Why not?” Elder lei said unhappily, “Lei Ming has seen her outside the city twice. It means that she hasn’t been controlled at all, but she has no intention of coming back!”

Elder Li:” ...”

These words made elder Li’s face turn ugly...

The news of Lei Xue being transferred to the main base to replace rainy without melon was spread almost on the same day. It instantly attracted the attention of these old guys.

To outsiders, especially in the other five major cities, the base was set up within Huaxia City, so they should have frequent contact with each other. However, this was not the case. The two organizations had almost no contact with each other, even though Elder Long had visited them several times in the name of visiting them, they were all shut out.

The Intelligence Department believed that the base should be the central point for the transfer of extraterrestrial forces. It was definitely not just a research and Development Center and Management Center on the surface, the position of rain woman, Wu Gua, as the head butler should be directly connected to the higher-ups of the extraterrestrial forces.

However, rain woman, Wu Gua, was practically impervious. She had interacted with elder long several times, but she could not figure out anything at all... ..

That girl was so young and experienced that she was like a monster. Elder Li felt that she was even more difficult to deal with than the famous politicians in the world, and she did not have any sense of national importance.

Even though he did not know why she suddenly wanted to head to the New Territories and why she wanted to give such a high-level position to the daughter of the Lei family, this was definitely a heaven-sent opportunity, a heaven-sent opportunity to completely understand the secrets of this alien faction.

Even though he knew that he would definitely not reveal everything to Lei Xue, even if he only revealed a little, it was still an opportunity for the other cities. In this era, seizing an opportunity was more important than anything else!

However, it was already the tenth day since Li Xue entered the main base to take over the position, yet she had no intention of returning to the Lei family at all... ..

Elder Long's application to go to the base to hand over the position the day before yesterday was also rejected. This instantly caused them to be so excited that they felt as though a bucket of cold water had been poured over them... ..

"Why is it like this?" Elder Li paced back and forth with a face full of anxiety. "That child Lei Xue wasn't like this in the past. She was clearly a child who knew what was good for her..."

Elder Lei sat steadily on the armchair and took a sip of tea. He kept a sullen face and did not speak... ..

From his point of view, it was understandable that the girl Xue kept it from elder long and the others. After all, it wasn't as if she had never been full before. However, it wasn't right to keep it from him. What could she not tell her biological grandfather?

Even if they had entered a new era, what could be more reliable than a family?

This girl still didn't understand the importance of a family...

Just as the atmosphere was heavy, a sharp female voice suddenly sounded from outside...

"Aiyo, Girl Xue, you're finally back..."

When elder Li heard this voice, he almost jumped up. If he didn't have some determination, he might have jumped over the wall and went to look for someone.

He forced himself to calm down and looked at elder lei.

Elder lei looked at the Teacup that he crushed in his hand and put the Teacup fragment into his space bag without changing his expression, he said in a low voice, "It's the fourth daughter-in-law. She's really... noisy. What does she look like? No Wonder Jia Ming, such a good seedling, was taught to be like that..."

Elder Li:"..."

This old fellow... what was he pretending to be with me for?

Moreover, Lei Jia Ming was also considered a good seedling. Fortunately, he wasn't my grandson. Otherwise, I would have broken his leg long ago... ..

Back then, Lei Jia Ming failed his military exam and didn't enter galaxy immediately. Later on, he was barely able to enter the first batch because of his connections. But now, it's already been five months, and he couldn't even transform into an elf, how could this old guy tell that he was a good seedling?

He was obviously a good-looking but useless embroidered pillow, okay?

“Xue Girl, let me tell you, Jia Ming failed to transform last week again. He’s the only one of our lei family’s children who hasn’t walked out yet. As his elder sister, you can’t just ignore him...”

Elder lei was already impatient from waiting, so how could he bear to see his fourth daughter-in-law delay lei xue over some trivial matters? He immediately shouted, “Little Xue, come in! !”

Chapter 1338: Lei Xue’s Choice (middle)

Lei Xue heaved a sigh of relief when she heard the old man’s words. If not, who knew how long she would be entangled with fourth lady? There were so many things happening outside, and she did not have enough time to come back to argue with her...

It was not that she held a grudge against fourth uncle’s family for their past actions. Indeed, when Lei Jiaming was favored in the past, the actions of fourth uncle’s family were indeed quite annoying, including Jiaming’s own personality, which she did not like in her heart.

But no matter what, they were flesh and blood relatives. If she did not want to help them with a big favor, she would not mind helping them. In the past, the Lei family valued sons over daughters. She had suffered a lot, but she did not think of targeting anyone when she gained power. There was no need for that, just like the two children of her first uncle and second uncle’s family. They were usually not close to her. Didn’t she also use the points to crazily build an advantage for them?

How many people in the entire base would be able to level up to a Level 2 Titan in two months? Cold Star, who had the fastest rate of advancement, also spent more than four months!

If not for the various high-level ingredients that she had bought with her points and the strengthening potions that some level 3 or 4 players were reluctant to part with, how could her two cousins have done so smoothly?

In her heart, as long as she did not delay her research and did not interfere with her own life, she would not have any objections if she could contribute a little for her family.

This naturally included lei jiaming...

But Lei Jiaming was really unable to move...

Who would have thought that the martial arts genius who was once the most favored in the Lei family, the one who had the highest chance of becoming a cultivator, would actually not even be able to transform now?

His situation was different from that of his grandfather and the others. His grandfather had difficulty transforming because of his race, but his form was basically confirmed... ..

However, Lei Jiaming was unable to confirm his transformation...

According to instructor Vivian, Lei Jiaming was originally supposed to transform into an ordinary upper limb human-shaped elf. This type of elf specialized in archers or weapon masters...

However, when he was about to transform, his form became strange, making it difficult for people to see what he was going to transform into... .. Causing the transformation to fail!

After the transformation failed, his Qi and blood were damaged. After recuperating for nearly two weeks, he transformed again. However, the second transformation of his bone image had changed, becoming a strengthened lower body...

Although it wasn't very pure, it had indeed changed. The corresponding classes in the lower body were recommended for Rangers, scouts, and assassins...

However, something unexpected happened to lei jiaming when he transformed again... ..

The third time was when his body had formed an elemental body. It was an elf with average upper and lower limbs and some earth elements...

He was practically the first person in the entire base to experience such a situation...

According to his mentor, the reason why such a phenomenon happened was because the shapeshifter's thoughts were too chaotic, resulting in... ..

The shapeshifting of elves came from their personality. Many things could not be forced. During the shapeshifting process, if one's thoughts were as wild as Lei Jiaming's, it would cause the shapeshifting to collapse and the body to begin to reassemble...

At that time, Lei Xue was very confused. Subjective consciousness could actually cause the body to change?

"It can change slightly... At that time, Vivian said cautiously, "However, it's basically impossible to hope for a heaven-defying change. Moreover, the price is very high. Every failure will result in the loss of Precious Blood Essence. Moreover, it's very difficult to make up for the loss of blood essence before the elves transform. It requires very expensive potions. At least, the base doesn't have that kind of potion at the moment"

When she heard this, snow knew exactly what was going on...

Lei Jiaming had been regarded as a genius by the people around him since he was young, and he thought highly of himself. However, after the appearance of galaxy, he had suffered many setbacks, and his self-esteem had suffered a great setback. It was clear that transforming into an ordinary human-shaped elf did not meet his expectations...

He clearly wanted to become a flower spirit with a higher status, or many people were predicting the popular priest class now...

But this wasn't a game after all, and it wasn't like he could just delete his account and start all over again... ..

She had already told fourth uncle and his family about this situation, but fourth uncle and fourth lady didn't seem to hear about the danger of their blood essence being damaged at all. Instead, they were even more obsessed with that expensive replenishment potion... They thought that with that, they could continue to sustain their son, and then give their son a good starting point and start... ..

The reason was also very reasonable. According to fourth uncle's earnest and sincere words, "Lei Xue, our lei family doesn't lack ordinary jobs. Your eldest uncle and second uncle's son chose Titan, you chose the developer. If there's no more flower spirits and priests, then...". It would be very difficult to form an advantage when establishing a force outside...

Although Jia Ming would suffer a little like this, but for the Lei family, he had to take on this responsibility...

His words were so righteous that Lei Xue did not know how to refute him. Even though she knew in her heart that fourth uncle's family wanted Lei Jia Ming to lead the Lei family in the future, and flower spirits and priests were the occupations that were the easiest to become the core of the faction... ..

Lei Xue naturally knew what the other party was thinking. It was just that it was rare for her to be calculative with this family, but if she were to go and find some precious medicine, that would be utter nonsense. The entire base did not have it, so where would she go to find it?

Now I hear that I'm in charge of the general base, and I'm thinking... ..

"Old Man... . "fourth lady cried and followed Lei Xue into the courtyard. "It's not that I deliberately forced little Xue to do anything. If she can't do it, we naturally can't force her. But now that she holds such a big position, it shouldn't be a big problem for her to get some medicine or something. Jia Ming is the future of our lei family...". "..."

As soon as these words were said, elder Li, who was beside elder lei, couldn't help but feel his face Twitch. This family... .. They were really thick-skinned enough. That Lei Jia Ming was about to become the laughingstock of Huaxia City. How could they still talk about the future of the Lei family. ...

Elder Lei also had a big headache. In the end, he looked at Lei Xue with difficulty. "Xiaoxue... I remember that Guo Xiaoyun. When she was in charge of the main base, she was the one who handled all the new equipment purchases on Mars, right?"

That was because sometimes, when the city needed to order large-scale equipment, they had to apply for it from Guo Xiaoyun...

"Yes..."Lei Xue nodded.

Hearing that, elder Lei took a deep breath. "Then... did she give you this authority?"

Lei Xue was silent for a few seconds before she finally nodded. "She did..."

"Hiss! !"

Hearing that, elder Li and elder Lei immediately sucked in a breath of air with excitement on their faces. On the other hand, fourth mother, who was standing next to Lei Xue, had a complicated expression on her face. On the one hand, she was unwilling to let Lei Xue have such great authority. However, her son was a laughingstock. However, because the other party had such great power... .. she seemed to be able to give feedback to her son. ...

It was fine... .. She would let this little girl be complacent for a while, and wait for her son to slowly get the resources... ..

“Then... Jia Ming, that medicine...” elder Lei finally asked, although he was more and more dissatisfied with fourth brother’s family now, Lei Jia Ming was his favorite grandson in the past. It would be best if he could lend a hand.

As for making Jia Ming the pillar of the Lei family, the chief priest of the Lei family, or the flower spirit, Old Master Lei didn’t have any expectations at all...

“Yes...” Lei Xue nodded...

“Really?” Fourth mother immediately screamed, “Then... then... then why didn’t you say so earlier?”

Old Master Lei looked at Lei Xue. He knew that this granddaughter of his had a sense of propriety. There should be a reason why she didn’t say so...

“It’s very expensive...” Lei Xue took a deep breath and said, “I can only buy one set of annual salary, and the quality is not very good... so I don’t recommend doing this...”

“How can you say that? ?”

Before elder Lei could speak, fourth lady jumped up like a cat whose fur had exploded... ..

Chapter 1339: Lei Family Affair (Part Two)

“How can you say that?”

Fourth lady screamed like a cat with its fur standing on end. “Jiaming has been working so hard. Isn’t it because of our lei family that he has to suffer the looks of disdain? “Every time I see that child in a bloody mess after he failed to transform, my heart feels like it’s being pricked by Needles. However, his father and I didn’t stop him. Don’t we know that there’s a pride in that child’s heart and he wants to fight for his reputation? “Oh, now that you’re doing well and have risen to fame, you’re a big shot now. Do you feel that it’s not worth it to help out your own younger brother?”

Elder li frowned and looked at elder lei impatiently. He had been guarding Li Xue for so many days, and he didn’t come here to see the mess in your house... ..

Moreover, with Lei Xue’s current status, should he be concerned about such a mess? What was old lei doing?

At this moment, Old Lei’s face was ashen. This fourth daughter-in-law used to know her limits, but recently, she had gone overboard. There was still someone here, what did she look like?

Just as he was about to open his mouth, he suddenly heard Lei Xue’s cold voice...

“It’s not worth it...”

Her cold words made the already cold courtyard seem even colder... ..

The fourth mother who was chattering non-stop suddenly choked. She stared blankly at Lei Xue, as if someone was strangling her neck. Her face flushed red, but she couldn’t utter a single word... ..

Although Lei Xue was doing better and better now, at least on the surface, she was still very respectful to the elders. This sudden sentence made her momentarily not know how to respond... ..

After a long while, she enunciated each word clearly, "What did you say?"

"I said... It's not worth it..." Lei Xue said expressionlessly.

"You..." fourth lady immediately flew into a rage. Almost subconsciously, she felt as though she had been slapped. However, as soon as this emotion arose, a cold feeling instantly assaulted her, causing her body to stiffen instinctively. When she looked over again, she saw Lei Xue's pair of ice-cold and frightening eyes...

She was so frightened that she immediately fell to the ground...

"You... you..." fourth mother's entire body trembled as she pointed at Lei Xue and said furiously, "Amazing, now that your wings have hardened, you still dare to make a move against an elder after treating your own brother with such contempt?"

Facing this so-called elder who had made a false accusation, Lei Xue couldn't be bothered to even glance at him, instead, she directly looked at the ashen-faced elder lei, "Old Man, my time here today is limited. Are you sure you want me to waste my time here with Fourth Mother?"

"Dad... Look, look, what is this girl saying now?" Fourth lady immediately got up and pointed at lei xue, "With a little bit of luck, she has already gone out of control..."

"Shut up! !" Old Man Lei directly interrupted the chattering fourth lady, causing her to freeze on the spot once again...

"Dad?"

"What? My words are no longer effective, right?" Old Man Lei coldly looked at the other party...

Fourth Mother's voice immediately became hoarse...

Her family background was not low, and she was famous for her fiery personality. However, in front of this old man from the Lei family, who was a man of his word, she still did not dare to be impudent...

"Little Xue..." elder Lei took a deep breath and tried his best to speak in a gentle voice, "You and elder Li go into the living room first. I will come over in a while..."

Lei Xue nodded when she heard that. She did not say anything more and directly greeted elder Li. Then, the two of them walked side by side into the hall.

Fourth Lady looked at Lei Xue angrily, but she did not dare to make any more noise. After staying in the Lei family for many years, she knew that elder Lei's tone was unquestionable. If he dared to make any more noise, it would be a serious problem. After all, she knew in her heart... Who was the one who could still put on the airs of an elder in front of Lei Xue... ..

"Elder Li looks pretty good..." Lei Xue walked in front of elder Li and her tone was much gentler.

"Haha..." . "..." . "..." elder Li's originally serious face was now filled with a spring breeze-like smile. "That's right. This old man, who has been waiting for death at the end of his rope, can jump and jump now. How

bad can his complexion be? “But in the end, he can’t be compared to you young people. When I went to participate in the training, I found that the old man really couldn’t adapt to the intensity...”. “...”. “...”

“Li, you’re too modest. I heard from instructor Amy that your training results are not worse than those of young people. If you could spend more time, you could also go to the New World...”

“Haha... Really? Did instructor Amy say that?”Li suddenly beamed. “But I’m old. If I have to compete with young people again, I’m afraid I won’t be able to...”

The two of them walked into the hall while talking and laughing, giving people the feeling that they were old friends who had known each other for many years... ..

As fourth lady watched, she suddenly came to a realization... ..

Elder Li was a frequent visitor of the Lei family. He had always been a serious old man who didn’t smile or talk. He was definitely not so amiable to his juniors, even when Jia Ming was at his best, elder Li only praised him as an elder when he saw him.

But when facing Li Xue..! ... this attitude was completely equal!

When she thought of this, the corners of her mouth were tightly pursed, and her eyes revealed a deep unwillingness... ..

“Yajun...”

Just as she was thinking about it, elder Lei’s faint voice suddenly came from behind. Lei Xue’s fourth mother immediately shivered, turned around and carefully said, “Dad...”

“Go back and Tell Jia Ming to stop tormenting him. If you don’t have the life, don’t force it. Do what you can do...”

“Dad? ?”Fourth mother raised her head in shock...

“What?”Elder lei looked at her coldly...

Fourth Mother’s heart skipped a beat, but she still mustered up her courage and said, “Dad... you’re letting the snow girl go like this...”

“Letting her go?”Elder lei directly interrupted her. “How can you tell that I’m letting her go? Are you getting it wrong?”

Fourth Lady was stunned when she heard that...

Elder lei pointed at the courtyard and enunciated each word clearly. “Currently, only our lei, Li, Liu, and long families are able to move into the Huaxia City’s inner ring. The long and Li families are in public positions, but why do you think our family and the Liu family can enjoy the same treatment? “What do you rely on to live in the best environment and enjoy the quality resources of the New World? “Are you really not sure or are you just playing dumb?”

“You can’t say that, Dad...”fourth lady couldn’t help but say, “The reason that girl Xue is able to get to where she is today is because of our lei family. If our family didn’t give the quota to her back then, she wouldn’t be where she is today.”

“Give her the quota? ?”Elder lei sneered, “Doesn’t Jia Ming have the quota?”

“UH...”

“In the same exam, everyone has the same opportunity. Their skills are inferior to others. What’s there to say?”

“That’s different...”. “...”. Fourth Lady couldn’t help but retort, “Xue Girl learned that since she was young. Our Jia Ming’s position was different since she was young. If he had followed the path of scientific research back then, his results wouldn’t have been worse than Xue Girl’s. Moreover, didn’t he practice martial arts because you wanted a cultivator in the family, Dad?”

Elder lei immediately laughed out of anger. “So, is it because of me that Jia Ming has fallen to this state today?”

“Uh... that’s not what I meant, Dad...”

“Even so...”elder lei interrupted the other party’s insincere explanation, he continued, “Then what about now? “Galaxy has already been open to the public for almost half a year, and he was brought in at the first opportunity. Others have worked hard for half a year and have achieved some results. Lei Ming and Lei Yong, the two children, are able to make up for their shortcomings with diligence. At the very least, they are at the forefront of the younger generation. However, your son is still struggling for a better starting point...”. “...”

“This...”fourth lady gritted her teeth. “Is there anything wrong with pursuing a better starting point?”

“There’s nothing wrong with it...”elder Lei shook his head. “If you earn it by relying on your own ability...”

Fourth Lady:”...”

Elder lei: “The Snow Girl now earns everything on her own. Although the first batch of people who came here to muddle their way through, although they had a head start, the achievements they have now are all because of the foundation they built themselves. However, after you and Jia Ming came here, you focused on picking ready-made fruits...”. “...”

“Dad... how can you say that?”

Elder lei waved his hand and interrupted the other party, “You looked at the Snow Girl and elder Li’s back and seemed very unwilling?”

Fourth mother was stunned. was she that obvious?

But even if it was that obvious, wasn’t it not too good to say it out loud?

Elder Lei did not care about the other party’s expression, as he turned around and walked towards the living room, he sighed and said, “I’m old. Even if I changed my gene, I wouldn’t be able to look at the Lei family forever. Be it you, fourth brother, or Jia Ming, both of you still have a lot of good years ahead of you. Now That I’m here, you can still enjoy the benefits of others while looking at their backs unwillingly. However, do you believe that one day when I’m not around, you won’t even be able to look at their backs?”

Fourth Lady: "..."

— —

"This old lei..." in the living room of the villa, elder Li sat on the sofa. The first thing he said was that he couldn't help but complain, "He's getting more and more outrageous. I would never bring his fourth brother's family into this place. He'll regret it sooner or later if he continues like this!"

Lei Xue Sat at the side, smiling and not saying a word...

Her grandfather looked very dignified, but he was actually the softest among the elders of the aristocratic families. For example, in Brother Dog's Liu family, the second brother's family did such a bad thing and was directly kicked out of the family. It was said that the family knelt in the Liu family's old courtyard for a few days, but elder Liu hardened his heart and did not bring the second brother's family into Huaxia City... ..

In comparison, her grandfather was indeed a little soft-hearted...

However, this was not a bad thing. An elder who was too decisive would appear to be impersonal. This was not what she wanted to see...

"I don't care about these things..." . "...lei xue smiled and said, "Even if I don't support Jiaming, I will still send points that I don't need to my family every year. It's his business how grandfather wants to use them. I said that it's not worth it, but it's just a rational suggestion. As for what grandfather will ultimately decide, I don't want to ask "...". "..."

"You little girl..." elder Li suddenly sighed. "I wonder where old lei went to accumulate his fortune in his previous life. With such an outstanding junior like you, he's like this, and Old Liu is like this too. Why don't I have this kind of luck?"

Lei Xue Smiled. "Brother Li ran's performance is also not bad. He should be one of the batch of developers in the main base..."

"Really?" Elder Li's eyes lit up. "You can still see this?"

"Yes..." Lei Xue nodded. "Senior Rainmaid Wugua has already drafted the prospectus for the recruitment plan for the second half of the year. There's only one test left, so there shouldn't be much of a difference..."

Elder Li nodded and smiled in satisfaction. "I barely managed to hold my breath. Forget it, I won't scold him when I Get Back..."

Lei Xue: "..."

"Right, Little Xue..." elder Li put down his teacup and asked earnestly, "How much authority have you taken over the headquarters?"

Hearing those words, Lei Xue put down her teacup as well and wiped away the smile on her face... ..

The other party's question was clearly a show of force, and he... .. It was about time for him to make a decision... ..

Chapter 1340: the choice of Lei Xue

“How much of the base have you taken over...”

This is a very sensitive topic, but Li Lao or before Lei Lao came directly asked, this is not that he was too hasty, but he wanted to see the first ray this granddaughter’s most sincere attitude...

“Many... . “lei xue said truthfully, “The authority is more important than I thought, but I’m not sure if they’ve given it all to me. After all, it’s a completely unimaginable field. Without intelligence, I actually don’t know how much they’ve kept from me... “...”

They... me?

Elder Li’s eyes lit up and he composed himself, “You’ve been in the main base for many days. Can you tell me what you’ve been busy with?”

Lei Xue nodded, “Firstly, it’s the daily record of the base, especially the normal operation of each city. The main base will constantly update the data around the clock to observe the specific changes of the city lord’s operation of the city, as well as the specific situation of each player and citizen, from which the points will be calculated. This is the first job every day. It’s to assess the details of each city Lord’s handling of problems and the effectiveness of the entire government’s operation after being communicated...”. “...”

Elder li widened his eyes, “So... all of us are still under surveillance?”

“Yes...”lei xue nodded, “If necessary, we can pull up the daily surveillance of anyone in the base...”

“Is this considered an invasion of privacy?”Elder li frowned...

“It should be...”Lei Xue agreed, but then she said, “But so what?”

Elder Li was stunned by the question, and then a bitter smile appeared on his face... ..

Yes, so what. When they first came in, everyone knew that they might be monitored, but they still chose to come in because compared to the benefits, it was simply not worth mentioning... ..

While they were talking, elder lei slowly walked into the living room. When he heard elder Li directly ask about the things in the main base, he was so angry that he blew his beard and glared. This old guy didn’t follow the rules. How could he start when he wasn’t around?

Just as he was about to stab elder Li in the back, he heard elder Li ask again, “So you’re saying that you can see all of our surveillance throughout the day?”

When he heard this, elder Lei instantly lost the intention to argue with elder Li. He quietly sat down on the sofa and waited for Lei Xue’s reply... ..

Lei Xue: “Yes...”

“All of them?”Elder Li said somewhat unwillingly.

“Yes...” Lei Xue nodded. “Including the fact that you guys have been using the intelligence agencies to deduce the operation mechanism of the extraterrestrial forces. In order to take the initiative, these main bases also have records...”

Elder Li: “...”

“Then... does the main base not have any explanation for this?”

“I’ve asked the AI...” “...” “...” Lei Xue said in a low voice, “According to the AI, the base managers only monitor, record, and evaluate. They don’t target personal feelings or politicians’ moral judgment. They only look at efficiency and results. After they come to a conclusion, they will report the data.”

“That is to say, rain girl, Wu Gua, reports everything about us every day?” Elder Li frowned.

“Yes...” lei xue nodded, “But if she doesn’t do that, your intelligence will not be missed. After all, this place is under full AI’s supervision...”

Elder Li nodded, “What about the person who reports it?”

Lei Xue, “Seer Lord...”

“Is he the only one?” Elder Li asked directly.

When this question was asked, elder lei, who was beside him, jumped to his feet. He looked at the other party in surprise. He did not expect elder Li to ask so directly... ..

“Yes...” Lei Xue’s answer was even more direct. ...

“Then...” elder Li took a deep breath, “In the main base, have you ever come into contact with anyone other than Seer Lord?”

Lei Xue took a deep look at him and said, “Elder Lei wants to ask if there are other extraterrestrial managers in the base, right?”

These words caused the atmosphere in the room to become tense... ..

“This... this... this... I didn’t mean that...” elder Li said nervously... ..

“Elder Li, don’t worry...” lei xue said calmly, “The base manager can block the intelligent surveillance...”

Once these words were said, both elder Lei and elder Li were instantly stunned. The manager actually had this kind of authority?

“Are you sure?” Elder Li asked somewhat nervously.

“I’m sure...” Lei Xue said with a smile, “According to the intelligent system, this is the authority that senior rain woman Wugua applied for herself and obtained the approval of the higher-ups. I believe that with Senior’s brain, if the higher-ups lied to her, she would definitely be able to see through it...”

“Hiss...” elder Li and elder Wu Guagua immediately took a deep breath, and their hearts sank into ecstasy... ..

“Elder Li, I don’t know how to answer the question that you want to know...”. “...”. Lei Xue’s indifferent expression pulled the other party out of his joy. “I’ve docked some orders from the base and the outside world. Just from the information of those orders and items, I can tell that they’re docked with an incomparably large civilization force. Therefore, the person we’re dealing with is definitely an unimaginably large individual. However, currently, there’s only seer as a manager. As for why this is the case, I don’t know either...”. “...”. “...”

“Alright, Alright, Alright...”elder Li rubbed his hands together and smiled, “It’s alright, it’s alright. We don’t plan on figuring out these secrets in a day or two. This... There’s plenty of time in the future, plenty of time in the future...”

Hearing that, Lei Xue narrowed her eyes slightly. No one knew what she was thinking about... ..

“You just said that the manager is not under the AI’s surveillance. If you reveal some information here... will it not be affected?”Elder Li asked cautiously.

“What does elder Li Want to know?”Lei Xue looked at him seriously and said, “Is it more information about the structure of the extraterrestrial forces? There are a lot of them, I’m afraid I can’t sort them out in a short time...”

“Oh, no, no, no... .”elder Li shook his head. “That’s not important at the moment. We know that the alien forces that created this platform must be huge. It’s not realistic to explore them now, and they can’t possibly give you the real information, right?”

“Elder Li’s words are true...”Lei Xue laughed.

“You little girl...”elder Li shook his head with a smile, then, he said seriously, “You just said that you are responsible for recording the operation status of the six major cities every day. Does that mean that you should know all the policies of the six major cities, be it in the light or in the Dark?”

Lei Xue: “Yes...”

“Can you tell us?”Elder Li said nervously...

“Yes...”

As soon as the word ‘yes’was said, elder Li immediately smiled with joy. This child and elder long didn’t see wrongly... ..

Elder Lei was also stunned. This damn girl, how could she agree to such a big thing so easily. She should at least tell him... ..

“But only before senior Rainie comes back...”Lei Xue said faintly.

“Eh?”Elder Li was stunned at first, but then he nodded and said, “Yes, yes, yes, you’re right. Guo Xiaoyun is a very smart person. Under the circumstances, she can’t take risks so easily. It’s easy for her to find out. Don’t worry, you’re willing to take such risks for the country. We naturally have to consider your situation and won’t make things difficult for you. After Guo Xiaoyun comes back, we definitely won’t take the initiative to contact you. Only when you think it’s absolutely safe will you decide the appropriate time to communicate with the organization... “...”. “...”

“Then there shouldn’t be a chance...” Lei Xue said with a bitter smile.

“Eh?” Elder Li was stunned.

“I don’t have the intention of hiding it from senior rain woman...”. “...” Lei Xue looked at the two old men and said faintly, “Before senior returns, I will try my best to reveal the information of the other cities to you. However, after senior returns, I will voluntarily surrender!”

“What? ?” Elder Lei and elder Li immediately jumped up from the sofa in shock!
