

A Bunch 1371

Chapter 1371: the three tribesmen who had been schemed against...

Amir had been released from prison six months ago. Song Zaiyi had personally persuaded the other party to join him, and he had been hired as the vice mayor of the third city. In the current management team of the third city, he was very respected. After all, he was just like song Zaiyi, a workaholic... ..

It had been half a year since he arrived in the Sea of stars in the blink of an eye. Amir felt that time passed quickly in the enriched working environment. In this vibrant new city, there were no old landlords, no remnants of the feudal system of the caste system, no religion... There were also no big capitalists and warlords. Everything was so lively and full of vitality...

Everything for the future was based on the foundation of the People's dreams. It was incomparably pure. In this half a year, because of the lack of the management team of the third city, the workload was huge. It was the most tiring half a year since he entered politics, almost every day, he worked for more than 20 hours.

But it was also the happiest half a year for him because every minute he was doing something very meaningful. He was working hard to advance his political dream!

He was very grateful that song Zaiyi had rescued him from the prison of the three countries and let him have a new life. But now, looking at the news of the people who had abandoned him, it was extremely complicated... ..

The national hero of the past had now been publicized as a traitor by the people of the three nations. Most of the tribesmen who were willing to believe that he had followed them here were not satisfied with him after entering the third city... ..

The reason was very simple. It seemed that the people of the three nations in the fifth city were taking advantage of him. On the contrary, the people of the three nations in the third city were not doing very well... ..

Amir would like to provide their own welfare, but this will completely break song care about the city and his political ideals, a completely fair emerging city...

The genetic capacity of the three ethnic groups was not superior. Not only were they inferior to the players in central China, but they were also inferior to the people of the Red Sun race and the people of the universe in the third city with the most Asian players. They were even inferior to some of the spirit system players that had come from Syd.

Since their innate foundations were poor, they would naturally be at a disadvantage in a fair competition. In addition, under the stimulation of the policies in the third city, every player was trying their best to improve themselves, causing the three races players to appear extremely mediocre in this group.

According to the data, the number of players that could export to the new territories from the third city this time was more than 13,000. Among them, the central China players accounted for more than 7,000,

while the Red Sun and universe country players accounted for 3,000 people, the African and Western races took up over 1,000, and the three-colored players had a total of over 1,300 players.

Actually, this number was not low. Among the less talented races, the three-colored players from the third city had a very high qualifying rate.

One had to know that in the other cities, especially the first and second cities, the three-colored players and the african-colored players were purposely built into the pyramid model of the bottom of society, the third city has given the third player a large enough stage and space.

But a lot of things are afraid of comparison, the fifth city of a three players crush level data is now a three countries boast, many choose the third city of a three people have also regretted believing Amir...

..

The phenomenon left Amir unsure whether to laugh or cry. A white politician who took advantage of the Triads is now widely praised among his own people. As for Amir, who had always wanted to truly serve his tribesmen and work hard for them, he was becoming less and less recognized by his tribesmen... ..

This world was really magical...

“What’s the matter, Mr. Amir?” A low and gentle voice suddenly sounded. “Seeing that you’re not in good spirits, I’ve told you to pay attention to rest. The body is the capital of a revolution. You and the city Lord Song Zaiyi’s habit of working too hard needs to be changed...”. “...”

Amir turned around and looked over. The person who spoke to him was the Vice City Lord of Huaxia City, elder Li, who had just entered the conference room. Looking at this green-skinned muscular man with a refined face, Amir immediately grinned... “...”.

Elder Li leaned closer to look at the message displayed on the screen on Amir’s table. It was clearly a forum in the three countries, a post that was aimed at the fifth city.

“You...” elder Li smiled bitterly and patted the other party’s shoulder. Then, he sat on the other side. “Don’t worry too much. Time will shine. Who is the one who is really good for them...”

“I don’t care about that...” amir shook his head with a bitter smile, now, he was already very indifferent to things like reputation. After turning off the screen, amir sighed and said, “I’m thinking that the fifth city might really become the most suitable place for our people...”

“Absolutely impossible...”

Just as the two of them were conversing, a cold voice suddenly sounded!

Elder Li and Amir looked over. It was the third city Lord with a huge black eye: Song Zaiyi... ..

Song Zaiyi rolled his eyes at Amir, he directly sat next to him. “On the surface, the people of your country did indeed benefit from the fifth city. Mister transferred the conflict to the talented players of central China to cover up his actions of pouring resources to the capitalist families. The talented Chinese players were isolated, the white players fell in self-satisfied national emotions, and your people made some profits by flattering and acting as pawns. It may seem nice, but it’s actually a big hidden danger...”. “... “...”

The corner of Amir's mouth twitched slightly. The other party's words were really not polite. What Flattery, what minions... ... They didn't give him any face at all. ...

But he wasn't angry. First, he was familiar with the other party's personality, and second, what the other party said was indeed the truth... ... His clansmen's position in the fifth city was indeed that of the white player's minions... ...

Song cared. "Currently, it seems that your people have taken advantage of the fifth city and obtained the most New World slots. However, that was obtained by stepping on the heads of the suppressed Huazhong players and the depraved white players. To put it bluntly, it was all deducted from the weak. What about outside?"

Amir:"..."

"When you're outside, the players from other cities are all true elites. What advantage do you think your citizens will gain in a fair competition?" "A lot of resources have been misappropriated by Mister. The fifth city's basic education and training standards are far inferior to other cities, and the training of lifestyle professions is even closer to none. Now that the resources in the new territories have been further reduced, I guarantee that your citizens won't even get a chance to drink soup outside!"

"Is it that bad?" Amir was a little speechless.

"Ha... ... there's something even worse ... "..."song zaiyi sneered and said, "Meister is now making a big effort to loosen up the loan. In order to obtain the support of the people of China other than the players in central China, all the players who can go to the new territories have given them a loan to buy materials very generously. In the past, they were reluctant to pay for the quality of training, but when they go out, they become generous. Guess what the result will be?"

Amir:"..."

Amir himself was an excellent politician. Naturally, he wasn't stupid. He instantly understood what the other party meant... ...

He didn't invest in the early stages of accumulation. Instead, he lent money when he went out. Naturally, he didn't have any good intentions. A third-generation player with a weak foundation and insufficient competitiveness would most likely be eliminated after entering the new territories. Once they used up all their loans and were eliminated, they would also owe a lot of debt...

At the same time, because the white capitalist families had sufficient funds to raise the quality of their children in the early stages, they also had a lot of funds to support them when they went out. Generally, as long as their luck wasn't too bad, their lives wouldn't be too miserable. They would definitely have some achievements.

What would the result be?

It could be imagined with one's butt. The white capitalists would gradually monopolize the resources of the fifth city, and the third-grade gamers who had a large amount of loans would be forced to rely on these white capitalists because they had to repay the loans, moreover, their value would probably be suppressed again and again.

As time passed, the class would be fixed, and it would be difficult for them to turn things around!

Chapter 1372: The Alliance between Huaxia City and the third city (Part One)

Amir's eyes dimmed. How could he not know what song Zaiyi was saying? But what could he do?

Now that he had gone out and said this, not only would the third tribesmen in the fifth city not believe him, the third tribesmen who had followed him to the third city probably would not believe him either...

...

Song Zaiyi looked at Amir's appearance, he could not help but roll his eyes at the other party. "You Fellow, everything is fine, but you can't let go of your personal feelings. Everyone in the third city trusts our people and chose this place because they believe in our abilities. It is our duty to be responsible for them and not to care about those who don't believe in us. Every person who chooses to come to the Sea of stars is an adult. The adult must be responsible for his own choices. You should still focus on the matters that should be managed...". "..."

Amir smiled helplessly. "You're right, song..."

Looking at the other party's helpless expression, song Yi Sighed in the end. "There's no need to act like this. The third city might not be able to give preferential treatment to your clansmen, but it can give them the fairest platform. As for the citizens who graduated from our city, even if they're third-generation gamers with lower qualifications, I believe that they won't fail too badly outside. Time will prove that you and I are right!"

Was this supposed to be comforting?

Amir looked at his partner who didn't know how to comfort him, smiled, and finally nodded.

Elder Li looked at the two of them and felt emotional. Just as he was about to say something, a gentle voice suddenly sounded, "Sorry for being late, I made you two wait..."

Elder Li immediately rolled his eyes and looked at elder long who was late. "What do you mean by making you two wait? Am I not human?"

"You Old Fool, what are you trying to coax me with?" Elder long glared at the other party and sat down in the main seat. Then, he placed a pile of information on the table. "This... We're old acquaintances. Let's not talk about formalities. Let's get down to business ourselves?"

Song zaiyi nodded. "Elder Long is right. Everyone is very busy. There's no need to be polite. I still have a lot of things to deal with after the meeting..."

Elder long looked at song Zaiyi's large dark circles and frowned. "Song zaiyi, you have to take care of your body. Although the spirit-type professional attire doesn't require much of your physical body, it will still affect you if your body collapses and you change your body. No matter how busy you are, you have to ensure that you have basic rest...". "..."

"It doesn't have to be that exaggerated..." song zaiyi smiled. "I will take care of it. Thank you for your concern, elder long."

Elder long nodded. After distributing the information, he said, "I'm sure you've also received the news about the policies of the major cities. What do you think?"

"Elder Long is referring to that city?" Song Zaiyi asked with a smile.

"Of course it's not Meester..." elder long sneered. "That Guy has gone down a straight path. I'd like to see if his family's big dream will succeed!"

Song zaiyi smiled and said, "I heard that the players in central China of the fifth city have formed a mutual aid alliance called the Huaxia Society. They forcefully fought for the positions of some mines in the western part of the fifth city without fear of death. They drew a circle around themselves and were extremely tough to the outside world. They simply isolated themselves. Now, the western part of the fifth city is said to be the Chinatown of Galaxy..." "..."

Elder long smiled. "You do have a little bit of my Chinese character..."

He had heard of this news as well. It was initiated by the leader of the trouble that day, Yang Rui. The Huo family had the power behind it, but they had indeed organized quite a number of Huazhong players to participate. The scale that they had formed was not small, they had actually managed to establish a foothold in the fifth city.

The previously arrogant white players seemed to have admitted to that place after bumping into the wall a few times. Although it still caused people to isolate the Huazhong players., it was at least much better than the Huazhong players being completely unable to work in the mines to earn points.

Reality proved that weakness would never be respected. Elder Long had been talking to the Huo family's people from a long distance before he came. He had already expressed that once the Huaxia Guild's players could leave the new world... Huaxia city would give them a certain amount of care and resources, but correspondingly, in the New World Strategy, the Huaxia Guild had to be on the same page as Huaxia City. They could not afford to be distracted... ..

The outcome of the negotiations was very good. The Huaxia Guild players were basically grateful for Huaxia City's assistance. Although the fifth city was extremely harsh on the Huaxia Guild players entering the New World, at least there was hope now, right?

However, there were still quite a number of people in the fifth city who were still stubborn. With a certain Chinese representative as the leader, they formed a group called Xinhua Club. They were still urging the Huaxia Club players to take the initiative to integrate into the fifth city system. They wanted the white players to agree with them instead of being isolated and resistant. They were praised by Mister in public... ..

Moreover, it was said that there were quite a number of people who responded. It was said that there were already over a thousand members... ..

Elder long felt helpless in the face of this group of stubborn compatriots. In the end, he could only express his helplessness... ..

"Let's not talk about these troublesome matters..." elder long smiled bitterly and waved his hand. Then, he opened the information in his hand and said, "You've all seen the policies of the other three major cities, right? What Does City Lord song think?"

Song said with a concerned smile, "Elder Long, why do you ask when you already know the answer? Doesn't it mean that I'm not interested in Qingming's alliance since I can come here?"

Elder long immediately smiled. Qingming had organized the first city and the fourth city to form an alliance. It was obvious that he was here for Huaxia City. Meester had already completely broken off with him. Especially after that, he would have to subsidize the Huaxia players of the fifth city. After that, the conflict would definitely be irreconcilable. If even song Zaiyi had fallen, Huaxia City would really be completely isolated...

"Now, it seems that the division of labor between the three cities is very clear!" Elder Li looked at the information and frowned. "It is obvious that they are heading to the new port. The first city is in charge of infrastructure and industry, the second city is in charge of agricultural subsidies, and the fourth city is in charge of the combat strength headers!"

Song Zaiyi nodded when he heard that.

Many people, especially the news from the outside world, were very confused about the New World Export System of the fourth city. However, they could clearly see that Elizabeth's goal was very clear, she wanted to become the head of the Qingming Alliance!

The race characteristics of the players in the fourth city were very special. As they pursued primitive evolution, their combat strength was not ordinary. Under such circumstances, it was actually very necessary to raise the threshold of the New World.

This was because the outside of the new world might not have the kind of leveling environment that the fourth city had created!

The main benefits of the new world were resources, territories, population, and various natural resources. However, in terms of increasing the level of the players themselves, there was actually not much benefit.

On the contrary, the primeval forest in the fourth city was a good place for players to train. They focused on increasing their levels and using their genetic characteristics and environment to quickly enter level 3, it was to make the players in the fourth city more competitive in the future. It was also to occupy a dominant position in the Alliance that Abe Qingming had organized.

It had to be said that Elizabeth's ambition was not small...

"City Lord song, what do you think?" Elder long asked with a smile.

"Pretty good...". Song said with a concerned smile, "I actually admire Elizabeth's ideas. It's actually a very rational way to improve the competitiveness of the citizens and not blindly push forward the new world. I did the same thing, but I'm more concerned about improving my overall ability, while she's more concerned about her own strength. It's hard to say who's good or bad. We'll have to see the truth in the future."

"Ha... City Lord song is quite confident..." elder long smiled.

"It's Alright..." song Zaiyi also smiled. "But I'm more concerned about Abe Qingming..."

Elder long immediately stopped smiling when he heard this name and nodded.

He had been dealing with Qingming for more than ten years. Although that guy always looked like he had a long sleeve and was good at dancing, elder long actually knew that he was an extremely shrewd person and was the most dangerous politician he had ever met.

Therefore, such a person's current behavior made him feel a little confused... ..

According to the three city structure alliances, the fourth city was responsible for advanced biotechnology, medicine, and cutting-edge combat strength. The first city was responsible for industry, infrastructure, and most of the high-modern products of the new alliance, the second city was solely responsible for agriculture and the optimization and export of raw materials.

To put it bluntly, the second city belonged to the resource country in the division of Labor!

They were all international politicians, and they knew that the resource country was very passive in the world system. Moreover, the cost-effectiveness ratio was very low. The shrewd Qing Ming chose to let his city play such a role in the alliance. It was really unexpected... ..

"I always feel that... it's not that simple..." song Yi showed a rare trace of worry in his eyes. ...

"I think so too..." elder long said seriously, "We need to be vigilant..."

"We'll talk about that later. We can't see what he wants to do now anyway..." song zaiyi smiled and opened the file. "Tell me about our cooperation."

Chapter 1373: The Alliance between Huaxia City and the third city (Part Two)

Sensing that other cities were trying to isolate Huaxia City, elder dragon was not going to sit still. Angor, who reached an agreement in the beginning, was now on the other side. Song was the only one who cared.

Luckily, song did not seem to be interested in Abe's alliance... ..

However, he was very curious. According to the information he received, Abe Qingming's conditions were very good. Strategically, the second city would serve as an agricultural country and a resource exporter, providing high-end manufacturing technology to its other allies... ..

The Elven civilization, especially the early elves, had a unique advantage in refining elements, conserving land, and strengthening natural resources. When these were integrated into the early mechanical civilization and biological civilization, which were in dire need of resources., it was not as simple as one plus one.

The second city that offered sacrifices to the civilization in the external expansion was also a backup. It would not steal the limelight.

To be honest, even elder dragon would prefer Qingming's side to his. No Wonder Angor was tempted...

Why would song be so determined to go with him?

Actually, Amir had asked song about this before... ..

Song's answer was that he did not trust Qingming. It was such a simple answer that Amir still found it strange. There was no such thing as trust in political communication. It all depended on the situation. He had never heard that one's path was determined by one's character... ..

As long as it was beneficial to oneself, so what if the partner was that bastard mister?

Faced with Amir's confusion, Song didn't say anything more... ..

He had a great doubt about Qingming, but this doubt was a bit unbelievable. No one would believe it if he said it out loud. Even he didn't believe it, but instinctively, he chose to avoid that guy.

Of course, the most important reason was because Huaxia city was actually a good partner. Although it wasn't as attractive as Qingming's cooperation model, it was still very promising... ..

"Mr. Long, this is the details of the cooperation that I worked on last night. Please take a look and see if there are any problems..."

Song Zaiyi smiled as he handed over a thick stack of documents!

Elder Long took the documents in shock. After flipping through them, he frowned and instantly understood what Song Zaiyi was planning... ..

This guy...

There were many rules and regulations in the other party's information, but there was only one core point, and that was... ..! The basic benefits left behind by the old players of Huaxia City!

Elder Li took over the information and narrowed his eyes after taking a look. He couldn't help but think to himself, 'as expected, there's no such thing as good intentions for no reason...'.

Song Yi had given up on Qingming's alliance and stood firmly on their side, but his intentions weren't small either!

After all, the biggest competition for Huaxia City to other cities was actually the batch of old players who had started off first!

In the New World's new quest, the grassland expedition and city exploration quest had been canceled. The main reason was that there were no new people on steel weapon continent. The value of exploration was low, but that did not mean that the land had no value at all... ..

However, for new players who did not have a population, this place basically had no value. However, it was different for old players who had a large population. Old players could expand their territory and collect resources, it was very meaningful to provide higher per capita rations for their own people.

For example, the second faction, Pu Yunchuan faction.

Their main city was a very remote city in the northwest called Gondolin. It was a barrier city with poor resources. However, due to the mutation of the forest, the strength of various creatures was too high, as a result, the survivors could only hide there.

However, things were different now. The steel weapon continent had no living things and was in a state of desolation. Naturally, they could choose a large city with an advantageous geographical location, such as the imperial capital or the southern Pearl City.

As for the lack of living things, it was not difficult for Lord ranked players like them. They had a sufficient population and a large number of points, so it was not a problem at all, they could simply purchase high-level biological seedlings from the base for breeding, land planting, and even re-cultivating the ecosystem.

The mechanical civilization could directly carry out large-scale mineral development. All of this was a perfect start for the great lord tier players who already had the resources!

Elder long knew that most of the current Lord tier players only brought their subjects to the Emerald Starfield to explore. However, they left behind a large portion of the population and management personnel to carry out basic development in the New World!

After all, the territory that the new territories occupied was their foundation... ..

And with territory, there was naturally a need for development. Especially when expanding, there was a huge demand for talent.

For example, Donghai Kou needed more sea spirit players to help nurture high-quality sea creatures, and it needed outstanding players to collect deep-sea resources that ordinary people could not collect.

Inland cities needed more lifestyle players...

First, there were architecture players!

Take Pu Yunchuan City as an example. Now that they were ready to switch to another main city, they first planned to build multiple cities with advantageous geographical locations. Be it the transportation or the reconstruction of the city itself., they all needed a large number of architecture lifestyle players.

Then, there was the mineral vein survey!

The city selection process could not be limited to the large cities in the past of the Martial Steel Empire. After all, the most important resource to starsea's players was the resources. Hence, the natural resources in that region would be even more sought after.

The most direct method was the mineral resources. After the mutation, the minerals buried in the ground had a very high energy value. Moreover, the distribution of these items required an excellent mineral collector to carry out a detailed survey. Where the mineral resources were abundant., the city was the most suitable for city development.

Pu Yunchuan was not the only one who realized this. Many lord ranked players had secretly gathered a large number of lifestyle players to survey the mineral veins.

Next was biological cultivation. The continent's creatures were extinct, and Lord ranked players needed to purchase high-level saplings to cultivate in the ecosystem. This required herdsmen again... ..

Forest herdsmen, grassland herdsmen, aquatic herdsmen. These were all life skills. Song Yi's cities all had sub-classes to cultivate, and he had chosen quite a few players... ..

What did this mean?

Elder Long knew very well that this meant that Huaxia City could provide a large number of jobs for the third city!

Back then, Song Yi had invested heavily in the life occupation training in the third city. He had even taken out a loan to subsidize it, all in order to make his citizens more competitive when they left the new territories. Now, although the situation had changed.., it made the advantage of his citizens even more obvious.

Elder Long knew that the other cities, especially the Huaxia City players, were not interested in lifestyle classes. Now, the only city that could fill the gap between the lord-tier players was his third city!

Thinking of this, Elder Long took a deep breath. So... .. This was the real reason why Song was willing to cooperate with the Huaxia City... ..

The Alliance that Abe Qingming had proposed could indeed help each other, but that would be starting from scratch. By the time they set up the system and started looking for people, how many steps would they be behind?

On his side, a large number of people could find high-paying jobs under Huaxia City Lord Players and earn a large number of points. Then, they would be able to rent ships and sail far away faster. When they found the population resources overseas first.., the third city would welcome his first batch of Lord players. From there, he would be able to keep up with the pace of the Chinese city. It would be like taking a ride!

Choosing Qingming would allow him to have a complete alliance system, but choosing Huaxia City would save him precious time. Comparing the two, Song Zaiyi chose time!

“Elder Long?” Song Zaiyi smiled as he interrupted Elder Long’s thoughts, “Is there a problem?”

Elder Long looked at the cooperation agreement and frowned...

The other party really knew how to pick the right time. At this time, with so many parties isolating Huaxia city, the other party clearly knew that he would definitely fight for him, and it was also the easiest time to make a bid!

Chapter 1374: four best friends in the dormitory

On the day the New World Policy was announced, every city was bustling with activity. Although everyone had their own opinions on the policies of their own cities, they had begun to make preparations for what needed to be done.

For example, there were almost no qualified players in the fourth city. After the failure of the city management hall, they had all returned to the forest to level up?

However, they were even more enthusiastic. After having a clear goal, they would find that the players in the fourth city were more proactive in training. This was not only the case for the fourth city, but it was the same for other cities as well.

Those who qualified lined up to take out loans at the city bank and were ready to go adventuring. Those who didn't qualified would work harder after having a clear goal.

The entire galaxy was active under the stimulation of the policy. Even the fifth city, which had the most severe social divisions, was now emitting a lively and positive aura. Of course... .. There were exceptions.

In some corners, there were always a few people who were doing the opposite. When everyone was busy and active, they were leisurely slacking off. This was the little black girl in the second city... ..

As one of the four best friends of Rainy Girl's room, little black girl had simply learned the flower spirit's laziness to the extreme. Every day, she would either sleep at home or in her own cornfield. After mastering the elemental refinement skill, she would simply let the cultivated elements manage the land...

Fortunately, the second city had done a good job in protecting the flower spirit. If it was the fifth city, with little black girl, the cultivated elements would have been taken away by others long ago... ..

As for the New World? Little Black was not interested at all. Her corn was growing well, so why was she running around outside? Wouldn't it be great if she could earn some money selling her corn when those guys made a name for themselves outside?

After consoling herself like this, little black was happy and relaxed. She continued to live like a salted fish every day... ..

As usual, Little Black was prepared to go to the dog egg restaurant with her newly-received salary for a little extravagance. Then, she would come back and have a good night's sleep. However, she bumped into Guo Xiaoyun who was visiting her just as she was leaving the house... ..

The little black girl was already used to this fellow countryman who seemed to be able to find her across the city at any time... ..

However, what surprised her was that not only Guo Xiaoyun came this time, but the other two roommates also came... ..

While the little black girl was happy, she carefully hid the discount price of the dog egg restaurant in her bag and generously expressed that she would invite her roommates to have a barbecue in her field!

The roommates who had not seen each other for a long time came to her field under Little Black's lead. They leisurely gathered together and started a barbecue in the field... ..

"By the way, don't you have anything else besides corn here?" Asked one of the roommates, Chen Shanshan, while nibbling on the sweet roasted corn, she said unhappily, "I passed by and saw that the other elves are all multi-faceted. They grow everything. But you, all the same corn. I can't even change my taste even if I want to!"

"Hehe...". "...". The black girl scratched her head in embarrassment. "I only know how to grow corn. I have to learn about other crops when I grow other things, especially when it comes to the problem of

mutation. It's so troublesome, so I decided to just grow corn. If you want to eat something else, you can wait for a while. I'll take the corn to other fields to exchange for some for you...". "..."

"That's enough..." Guo Xiaoyun rolled his eyes at the black girl. "You don't even move your feet. What a hypocrite. Let's have corn. It's quite delicious..."

"Of course!" Hearing Guo Xiaoyun praise her corn, the black girl immediately smiled delightedly. "Our corn is the strongest in the second city. The mayor's family has designated the corn for the imperial use, but it's different from other families!"

This proud Rooster's appearance made Guo Xiaoyun and Chen Shanshan's faces twitch. Only Ya Xin, who was beside them, looked at the other party with a strange expression and a complicated look in her eyes... ..

"Oh, Xiaoyun..." Chen Shanshan rolled her eyes at the proud black girl and directly changed the topic. "Why did you suddenly think of letting us have a gathering?"

Guo Xiaoyun looked at the three familiar people and smiled gently. "I had to go on a long trip. I don't know how long I'll be back. I missed you guys, so I wanted to have a gathering before I leave..."

"Oh, OH, Xiaoyun is going to explore the outside world, huh!" The black girl said with a smile.

Chen Shanshan also said happily, "I'm so envious. I don't know how long I will have to endure..."

Ya Xin was slightly stunned when she heard that Guo Xiaoyun was going to the New World. She looked up at him and asked, "Do you... have any plans to go to the New World?"

"See..." Guo Xiaoyun said casually, "Developers like us are always wanted wherever we go..."

"Is that so?" Ya Xin bit her lip. Yes, she was an old player who could enter the game one step ahead. In such a good environment in Huaxia City, even a pig would be qualified to go to the new world after so many years, right?

Who asked her to be lucky?

She was unlucky... .. So she could only live like a pig and a dog. ...

It had been three months since Ya Xin entered the fifth city, but her life was completely different from what she had imagined. In that city, the players in central China were like rats crossing the street, she was also an elf, but she was in the form of an ordinary upper-limb humanoid elf. Such a species was not popular in the early stages of labor, and now, because of her identity as a player from central China, she was being suppressed by the surrounding white and third-class players, it was almost as if eating was a problem.

Every day, she could only rely on a little nutrient fluid to maintain her physical strength, and it was the lowest-grade nutrient fluid. The nutrient fluid could replenish energy, but it could not solve the feeling of being full, making her feel like she was always hungry...

After that, she joined the Xinhua News Agency of the Chinese representative. The president had been teaching them to abandon the label of Central China players, show their loyalty, and completely integrate into the fifth city, so that the white players would accept them again.

After joining the society, because it was politically correct, on the surface, no one bullied them anymore. However, they still used all kinds of tricks in the dark. Each time, under the leadership of the members of the society, they could only do the hardest work behind the A3 players. For example, breeding flesh-eating spiders...

God knows how she got used to facing those ferocious and terrifying species, and her life was in danger at all times. She could only watch helplessly as a few of her compatriots accidentally became food for the Spiders.

This type of spider's method of killing creatures was extremely cruel. After capturing their prey, they would wrap them in spider silk and corrode them completely with venom, then slowly absorb the body fluids of the prey., the prey would continue to suffer in extreme pain for four to five days before losing consciousness. Every time Xinya saw that scene, she would feel a chill run down her spine!

Because if one was not careful, many players who raised spiders would end up like this. The flesh spider base was very remote and relatively closed. The fifth city also did not have sufficient safety measures for this breeding base., many players who raised spiders were basically unable to be rescued after they died. They were all directly reborn after suffering a lot of torture.

Although their lives would not be lost, that kind of terrifying torture had already caused many players to go insane... ..

This made ya Xin feel as if she was treading on thin ice every day. She was afraid that one day, she would also suffer such terror... ..

But she knew that this day would come sooner or later. There would always be times when she would be careless... ..

The key was that such a dangerous job had pitifully little pay. Originally, raising spiders was a part-time job with a high income in every city. But here, in the fifth city, the cost-effectiveness ratio was extremely low. First, they had to pay a large amount to the white players... Some of the troublemakers had to charge a little, and they also had to pay Xinhua society membership fees every month. The remaining money could not even be used for a few classes...

This terrible daily routine was completely different from what she had thought before coming here...

On the other hand, this silly black girl...

Ya Xin bit her lip and looked at her surroundings. The endless cornfield was filled with the sweet fragrance of high-grade corn. The treated sunlight gently shone on her face, making her feel so comfortable that she wanted to moan... ..

High-grade elemental elves were everywhere helping to look after the cornfield, and this guy usually only needed to sleep under the warm sunlight... ..

Such a beautiful and picturesque life, why did it fall on the dumbest person in the dorm? And why was the most unfortunate life always aimed at her?

Thinking about her life during this period of time, and looking at the black girl's lazy appearance now, a strong sense of unwillingness welled up in her heart. This sense of unwillingness made her look at the black girl with a slightly distorted expression... ..

But in that instant, the three roommates instantly looked at ya xin!

Chapter 1375: You Can't regret your choice... ..

"You... Why Are you staring at me?"Xinya lowered her head guiltily... ..

Guo Xiaoyun gave a half-smile, Chen Shanshan had a complicated expression, and the little black girl said with a silly look, "You were... So scary just now, just like the expression on TV when a stepmother wants to abuse her daughter..."

Guo Xiaoyun and Chen Shanshan rolled their eyes instantly. What kind of stupid metaphor was that?

"How could I?"Xinya bit her lip and refused to admit it. She did have a bad feeling about little black just now, but how could she admit it?

Speaking of which, what's wrong with these guys? So Sensitive. All of a sudden, they all noticed her. She was obviously very low-key...

It was as if she had seen through her current thoughts, guo Xiaoyun put down the corn and clapped his hands. "The three of us are all spiritual-type jobs, so we are more sensitive to spiritual fluctuations. The way you acted just now was like you were holding a loudspeaker and saying that you wanted to kill Blackie..."

Xinya:"..."

Chen Shanshan did not know whether to laugh or cry. These two guys, one was better at using metaphors than the other. After patting Guo Xiaoyun's head, they turned to look at Yaxin. "She was joking, it's not that exaggerated..."

Xinya was silent. Was It really a joke?

This world... .. It was really terrible. Why was everything against her? She could still hide some of her dissatisfaction in her heart in the past. What was the meaning of this now? Could she not even think about it when facing these three guys?

"You..."looking at Ya Xin's increasingly gloomy face, Chen Shanshan said carefully, "Sister Ya Xin, have you been having any problems recently?"

"It's not easy to take a villa in America, is it?"Guo Xiaoyun added.

"Xiaoyun!"Chen Shanshan Glared at Guo Xiaoyun.

Guo Xiaoyun smiled. With her current status, she should not have ridiculed her former roommate like this. But for some reason, when she was about to leave, she suddenly wanted to skin him... ..

After all, as the former manager of the base, she still had the highest authority. She was very clear about how Xinya had been living recently...

"I... I..." Xinya bit her lips hard, and her tears immediately flowed down. In the past, she would definitely not admit defeat no matter what. No matter how bad her life was now, she could not let others see it.

But it was really too miserable...

Finally... "...!" She continued to say that she was living well against her conscience, but she still could not say it out loud. She cried out loud!

"Hey... hey... Why Are You Crying?" Xiao Hei panicked immediately. "I'm not blaming you, Aiya... is the corn not good? Then... Let's go to the dog egg restaurant? I have a coupon here!"

Guo Xiaoyun and Chen Shanshan immediately rolled their eyes at Xiao Hei. This guy actually hid a coupon for the dog egg restaurant! !

"Delicious..." Yaxin cried as she took a bite of the corn and mumbled, "Delicious, I... I haven't eaten such delicious food for a long time..."

This pitiful look instantly shocked Blackie. Was this still Zheng Yaxin, the lady in their dorm. It felt like a puppy that was being abused...

"What's wrong, What's Wrong?" Chen Shanshan rushed over, she comforted him, "Have you been wronged? Oh right, the environment in the fifth city isn't too good right now. You must have been bullied by those F * cking white players, right?"

Speaking of bullying, Yaxin hugged Chen Shanshan and cried even harder... ..

Chen Shanshan was at a loss for what to do. A trace of gentleness flashed in her eyes, and she began to sing softly. Instantly, her elegant singing voice was like a refreshing spring water, instantly moistening people's hearts and calming them down... ..

The elemental spirits in the surrounding fields stopped their movements and slowly moved closer to her. They were immersed in the singing. Even Blackie seemed to be mesmerized for a moment as he listened to the melody with a silly smile on his face.

Guo Xiaoyun was the only one who did not change his expression as he nodded slightly...

Chen Shanshan had the talent of a seer. After transforming, she actually awakened the talent of a sea priestess. Now that she had been heavily nurtured by Song Yi, she was already a level 3 spirit-type player. Her leveling speed was even faster than Elizabeth who had the city Lord's resources!

She was probably the first person to activate the Emerald Starfield's moon priestess inheritance quest in the future... ..

"How is it? Are you feeling better?"

After an unknown amount of time, Chen Shanshan slowly stopped singing and gently asked Ya Xin who was in her arms... ..

Ya Xin nodded with a choked voice. The other party's singing voice was like the spring rain that moistened the dry land, causing her body and mind to relax to the extreme.

Was this a priestess's secret technique?

Before Ya Xin transformed, she did not lack knowledge about elves. Her ideal transformation job was a priestess, followed by a flower spirit. She did not expect these two ideal jobs to fall on her two roommates... ..

Really...

"Alright, don't be sad. Tell us, what happened?" Chen Shanshan comforted her gently.

"That's right. If you have any grievances, just tell us. We can help you..."

"How can you help me?" Ya Xin smiled bitterly. However, this time, she was as pretentious as usual. Instead, she told them about the past few months.

Chen Shanshan and the black girl were more and more shocked. Especially when they heard about being a meat spider breeder, they had goosebumps.

After hearing that, Chen Shanshan's expression became complicated. Back then, she had arrogantly chosen to emigrate to America. Now, she had fallen to such a sorry state. ... fate really doesn't pay. ...

The black girl's thoughts were not as elegant as before. Her intuition told her that... .. It was so miserable... ..

She had thought that those who were assigned to the underground sewer to pick up feces were already the most miserable. She did not expect that there would be something even worse. Sister Yaxin was indeed quite unlucky... ..

"That..." yaxin bit her lip, in the end, she said a little embarrassedly, "Blackie... Can You... can you give me some of your corn to bring back? I... When I go back there... I'm afraid that I won't be able to eat such good food for a long time..."

"Okay, okay, okay!" Blackie quickly nodded. "How much do you want? My land is already ripe, I'll give it to you. Anyway, I've sold a lot of it last season, I'm not short of money..."

Yaxin: "..."

Although she knew that Blackie was trying to help her, why did his words make her want to hit him?

"I... My space is limited, so I can't hold that much..."

"Is that so... I'll help you find a tool to bring it back?" Blackie quickly said.

"It's useless..." yaxin smiled bitterly. "If I bring it back openly, it'll definitely be snatched away by others. Those guys have snatched our things many times..."

"They dare! !" Blackie yelled angrily at first, but then he realized that it was out of anger. Why wouldn't they dare. Last time, in the video, they even dared to drag the players from Huazhong City onto the streets to parade...

“Then... It’s fine. In the future, if you want to eat, come over anytime. I’ll prepare it for you at any time...”

“I’d like to come...”yaxin smiled even more bitterly...

Only then did Blackie realize that it was true. Teleportation between cities was expensive, and only old players could afford it. If it weren’t for Guo Xiaoyun, they wouldn’t have gathered in different cities... ..

Even though his corn was selling well...

“I’m sorry...”Blackie quickly said. ...

“It’s okay... .. I’m the one who’s sorry . . .”yaxin shook her head. “That . . . Just Don’t be mad at me, I just . . . I was being mean to you. I didn’t mean to... . I just... . It’s just... . I’m so jealous... . “with that, Yaxin choked up again.

This time, whether Chen Shanshan or little black sister, are silent down.

The Lady in the dormitory was not very likable in the dormitory, but they had been roommates for so many years. Although they hated each other back then, now that they had really ended up like this... They were still very uncomfortable... ..

“I really... really regret... regret not being with you guys... i. . .”

“Do you want to do it again?”

A faint voice sounded!

The three of them looked over in shock. The one who spoke was the silent Guo Xiaoyun... ..

“Xiaoyun...”Chen Shanshan gave her a look, meaning that at this time, she should not add insult to injury by saying that she would swallow the bitter fruit she had sown... ..

“It’s okay...”ya xin smiled bitterly. “I know I wasn’t sensible back then, I. . .”

Guo Xiaoyun did not wait for her to continue and interrupted her, “If you want to do it again, I can help you...”

As soon as she said this, the scene immediately quieted down... ..

Chen Shanshan and the black girl stared at each other in a daze. Ya Xin was also stunned for a moment. She swallowed her saliva and said in disbelief, “You... What did you say?”

“I’ll help you change your city’s household registration...”Guo Xiaoyun did not waste any words and said straightforwardly, “I know a friend who can help you...”

“Really... Really?”Ya Xin instantly nimbly jumped over and grabbed Guo Xiaoyun. “Xiaoyun... Are you serious?”

Can I change my household registration? Can I really get out of that SH * t-like fifth city?

“Do you think I would joke about such a thing with you?”Guo Xiaoyun said calmly.

“No... I didn’t mean that... I just...”ya Xin suppressed her excitement and stammered for a long time. In the end, she decided to ask the important question first, “Which city can your friend arrange for me?”

She was no longer picky. Even if it was the rumored fourth city, which was the most demanding, she was willing to do it. At least the fourth city would have enough to eat... ..

“You can choose any city...”. Guo Xiaoyun looked at her and said, “You can choose any of the six cities. If you want to come here with Xiao Hei and go to the third city with Shanshan, you can also come to Huaxia City to develop. However, you can only choose once. If you choose, you can’t regret it!”

Chapter 1376: Xinya’s Choice -PartpOne one)

Is this for real...

Xinya looked at Guo Xiaoyun in a daze. This person who was usually quiet but was obviously different from them... ..

If it were any other student in school who said this, she wouldn’t believe it. However, when Guo Xiaoyun said it, she couldn’t help but feel a glimmer of hope in her heart...

Guo Xiaoyun... was different from them...

She had already felt this when she was still in her first year of university... ..

Of the four students in their dormitory, other than Guo Xiaoyun, the reason why they entered the teachers’ college was very normal. She only had enough points to fill in this school, while Chen Shanshan wanted to be a primary school teacher who had an easy job in the local area.

Xiaohei was slightly special. Her family was a big landlord in Nanhai and had a large plot of land. Xiaohei had originally wanted to learn farming and go home to inherit the land. However, science was too lousy, and her family wanted to find a decent teacher, so she was sent to study in a teacher’s college.

Only Guo Xiaoyun had a very different reason... Her reason was that it was useless to go to a key college. ...

In her theory, the social channels had been completely closed. Whether it was finance, law, medicine, or even politics, all of them needed to have a background and interpersonal relationships, moreover, the relationship was closed to the point that outsiders could hardly get in.

If it had been a hundred years earlier, in the twenty-first century, an ordinary person like her would have worked hard to get into a key university and fight for that narrow path of advancement. Today, a hundred years later, she would not have done such useless work. She would have just chosen an easier profession... ..

If it had been anyone else, they might have laughed at her as an excuse, but Guo Xiaoyun was different. Anyone who had a close relationship with her knew how terrifying her talent was... ..

A professional Go player from an aristocratic family in the academy had been isolated by her after teaching her for a few days. The piano instructor in the Academy had given her a piano after teaching

her for a few days in order to let her enter the industry, a dance that she had practiced for ten years... The other party had only watched it a few times and could dance until she wanted to find a hole to hide in... ..

This guy... was a monster...

Therefore, when the other party said that she was just an ordinary developer, and that she was doing very well among the old players, although Xinya was happy in her heart, in the deepest part of her heart, she knew that this was impossible... ..

The other party was definitely doing well. This was something that she was sensitive enough to notice when the other party went to pick her up just now... ..

In order to prevent the central China players from teleporting to other cities to cause trouble again, the fifth city specially applied for a protective barrier. Furthermore, they had also used the fact that the current situation of the city was rather chaotic as an excuse to reject foreign visitors, including the western reporters during the conference... ..

In other words, the fifth city had actually been completely closed to the outside world for the past few days!

However, Guo Xiaoyun still managed to bring her out. The city's ban seemed to be nothing in front of her. would such a person be an ordinary veteran player?

Xinya was not stupid. She actually understood very well in her heart. The reason why she broke down just now and told Guo Xiaoyun about her terrible situation was not only because she was a little emotional, but also because she wanted Guo Xiaoyun to speak... ..

Otherwise, if it were her usual self, no matter how bad her life was, she would not lose herself like this in front of her old classmates... ..

Of course, she was just trying her luck. Even if she did not succeed, it was just to vent her emotions. She did not expect that this monster... .. Indeed did not disappoint her... ..

"You... Are You Serious?"Xinya swallowed her saliva and looked straight at Guo Xiaoyun.

Guo Xiaoyun looked back at her and did not reply. However, her eyes seemed to be able to see through her completely, causing Xinya to look away guiltily... ..

Guo Xiaoyun smiled. She was already a level seven developer. After the Sky Demon armor incident, her spiritual capacity had been stimulated to the upper limit of a level ten spiritual body. The other party was a newly transformed elf., no spiritual fluctuation could escape from her. How could she not see through it. Moreover, regardless of the difference in their levels, she had stayed with the other party for four years. Guo Xiaoyun knew very well what kind of person she was... ..

"Really..."Guo Xiaoyun could not be bothered to continue reading the other party's thoughts. Helping them was only for the sake of Xiao Hei and the rest. ...

"Just tell me which city you want to go to. I'll help you settle it..."

After receiving this promise, Xinya did not hesitate anymore. She hurriedly said, “Really... really? Thank you, Xiaoyun. If it’s possible, I want to...”

“Don’t rush...” Guo Xiaoyun interrupted the other party and said, “Choose well. If you choose, don’t regret it. I’ll be leaving for a long time this time. After all, I don’t know when I’ll see you guys again.”

Xinya: “...”

The other party’s words were very obvious. He was just short of explicitly saying that it was just this one time, so don’t bother me in the future... ..

Xinya bit her lip and lowered her head to prevent the other party from seeing her gaze... ..

Guo Xiaoyun was actually too lazy to look. She directly turned her head to look at Blackie. “You damned charcoal, you actually hid a coupon? What, are you planning to enjoy it by yourself after we leave?”

“That’s right! !” Chen Shanshan also hurriedly jeered. “You’re already a big landlord, yet you’re still so stingy. Every time you come, you use corn to fool us. I don’t care. This time, I must give you a good beating!”

Blackie: “Blood and blood...”

I’m afraid this month’s salary will be paid here today... .

The second city’s catering industry is very developed, in addition to the famous dog Egg Restaurant, City Lord Qingming also encouraged other players in the second city to develop catering, subsidies are very favorable.

There are many reasons. First of all, the elves have always been in pursuit of quality of life. They have a high demand for architectural art, music, food and many other aspects. This is said by racial history.

Qingming wanted to create a comfortable circle for the players in central China to relax. Delicacies were naturally one of the best choices in the early stages.

Not only was the cost low, but it was also very efficient!

High-grade ingredients were currently not cheap. Many restaurants could eat up two to three days’ worth of points earned by players with a single meal. Moreover, the elven genes had this desire to enjoy quality, thus, an ideal number of ingredients was produced.

In the early days of the second city, when everyone was poor, the catering industry was still booming. Not only did it create a considerable amount of tax revenue for the second city, but it also achieved some of Qing Ming’s goals... ..

It was not difficult for Guo Xiaoyun to see through these methods, but there was something that she did not understand... ..

It was understandable for Qing Ming to use all means to pressure other races, but how could he be sure that the people of his faction would be able to form the ideal job according to his ideas?

The elf transformation could be guided, but it could not be forced, especially the priestess job. He wanted to build a god-system civilization with the priestess as the main force and let his own faction take the lead, first, he had to ensure that his faction could produce a large number of priestesses.

How could he guarantee that?

He was about to leave. Of the six City Lords, the one who worried her the most was Abe Qing Ming. She did not know if there would be any mistakes if she handed him over to Lei Xue to monitor... ..

“Xiaoyun? What are you thinking about? Your steak is about to get cold...”

Across the table, Blackie’s eyes were fixed on the big steak on Guo Xiaoyun’s plate... ..

Guo Xiaoyun rolled his eyes at Blackie and directly cut it open and took a bite. He had no intention of letting the other party succeed at all!

Blackie snorted and moved his gaze away with heartache...

Chen Shanshan found it funny and changed the topic. “Xiaoyun, we were discussing with sister Xinya about where to go just now. Do you have any suggestions, Xiaoyun?”

Guo Xiaoyun looked at Xinya with a faint smile. “My suggestion? Do you want to listen to it?”

Xinya was stunned and felt a sense of guilt. She looked away and smiled. “Of... Of course...”

Chapter 1377: Xinya’s Choice -PartpTwo two)

“Of course... I want to hear it...”Xinya looked at him with a flattering smile... ..

Guo Xiaoyun nodded. “I think the first city is pretty good...”

As soon as he said that, Xinya’s smile froze...

As expected, Guo Xiaoyun wanted to throw her far away!

“Um... why the first city? Isn’t it good to come to my place?”Blackie asked while eating the free vegetables on the coupon.

Guo Xiaoyun said, “Xinya is a humanoid elf. Other than Rangers, mecha operators are the best classes for her. Although the second city is an elf city, the entire city is full of elves, so it’s very competitive. Also, in the sacrificial civilization, rangers are not popular. Here, flower spirits or elementalists are more important. On the other hand, the first city doesn’t have a high proportion of elves right now. The city lord, Angor, is preparing to recruit a large number of elves for industrial upgrading. Xinya will have a lot of room for development if she goes there first.”

“But... isn’t it difficult to become a mecha operator?”Xinya tried her best to find an excuse... ..

Guo Xiaoyun said, “The first city is the mechanical civilization. Other than the necessary mecha teams, there are also a large number of art fillers who fill the gaps left by the elves. The empty mechanical civilization needs a group of elves to fill the gaps in the spiritual civilization, so the support for the arts

will not be small. You were born learning dance. Even if you can't become a mecha operator there, there will be a huge market for you to develop in the arts..." "..."

"Eh, that sounds pretty good..." Chen Shanshan nodded repeatedly.

"Yeah, Yeah!" Blackie also joined in the ruckus, but his eyes were fixed on Guo Xiaoyun's plate. While the other party was talking, he inserted two meatballs into the other party's plate...

"Xinya, what do you think?" Chen Shanshan looked at the other party and smiled.

She was not as careless as Blackie. It was obvious that Xinya was not too willing... ..

"It does sound good..." Xinya lowered her head. She kept fiddling with the knife and fork on the plate, but she did not take a bite. It was obviously very delicious food, but at this moment, she clearly did not have an appetite...

"I'm only suggesting. The specific choice depends on you..." Guo Xiaoyun could not be bothered to look at her like this. He directly slapped Blackie, who was about to insert something into her bowl, and said.

"HMM..." hearing this, Xinya's expression clearly relaxed, she pretended to think about it randomly, after a while, she finally shook her head. "What Xiaoyun said makes sense, but... I still want to be with someone I know. I'm a little afraid of a completely unfamiliar environment now... it's faster to adapt to having someone I know lead the way..."

The corners of Guo Xiaoyun's mouth twitched slightly. She knew that she could not get rid of this dog skin plaster... ..

Thus, she said, "If you want to be with someone you know, you can choose between the third city and the second city. I'm going on a long trip. If you come to Huaxia City, I probably won't have the time to take care of you..."

Upon hearing that, Xinya bit her lips, Chen Shanshan hurriedly added, "Actually, there's nothing good about Huaxia City. They're all players from central China. Our unique talents are useless. Xinya, do you want to go to Blackie's place or mine? Why Don't you come to mine?"

"Your Place?" Xinya looked at Chen Shanshan. "But they said that the complaints from the third city are very loud..."

"It's alright, Haha..." Chen Shanshan smiled and said, "The city lord is a rather harsh person. He's very strict with the citizens and requires too much learning. It's normal to have complaints. However, although it's a little hard at the beginning, it's still quite advantageous to go out later." "..."

"Today, the City Hall announced a lot of mission positions. Take a look..."

As she spoke, Chen Shanshan opened her mailbox and showed it to him. Sure enough, there were many mission invitations on it... ..

Donghai Harbor recruited long-term marine harvesters: the requirement is to gather a grade a proficiency, have the talent to close the water, and do not require special equipment. Marine races are preferred. The salary is 100 points per day as a minimum, exceeding the specified amount of tasks will be rewarded with a generous commission!

Donghai port recruitment of jewelry processors: requires a level of proficiency in jewelry processing above B, the tasks require proficiency in refining and processing superior pearls, undersea gems, corals, and marine life essences, the salary is 200 points per day as a minimum wage, the overtime pay for completing the tasks will be calculated as double the usual salary!

Steel Forest recruited excellent architects: required proficiency in Construction Engineering Grade A and above, elves preferred, those who had studied elven art classes preferred.

Steel Forest recruited mineral vein explorers: required proficiency in mineral vein collection and survey grade B and above, the treatment will be excellent. The highest reward for discovering an excellent mineral vein is 100,000 points!

The pile of tasks was dazzling, causing Xinya to be stunned. The main reason was that the points reward was really scary.

She was raising meat spiders in the fifth city. Even if such a high-risk job was not exploited, the income was only about 10 points a day. Any random job would cost more than 100 points, and it was just a basic guarantee. No wonder so many people wanted to go to the new world first. The speed of earning money was not on the same level at all... ..

Chen Shanshan smiled and said, "Our third city and Huaxia City have a cooperation. The missions of the old players are priority for the players in our third city. In addition, we have long had the training of the life occupation. We can use it directly when we go there, so we are very popular now. Look, I haven't even set off yet, but I already received many private messages of job invitations... "... "..."

"Is that so?" Xinya swallowed a mouthful of saliva. It seemed that the prospects were indeed pretty good... "...".

"It's just that the early stages have to be tough..." Guo Xiaoyun interrupted. "There's a lot of learning in the third city. Players are required to learn at least two gathering skills or one production skill before they can leave the mountain. Every day, other than earning daily points and training their professional skills, they also have to spend a lot of time learning life skills. Many players sleep less than five hours a day. I remember that Chen Shanshan dozed off in class at the beginning "...". "..."

Chen Shanshan: "..."

"Then... is it that intense?" Xinya was stunned.

"It's not too bad... "...". "..."

Chen Shanshan glared at Guo Xiaoyun and said, "It's good that you're used to it. The city Lord is doing this for our own good. It's a little tiring in the early stages, but the system is very fair. Moreover, we Huazhong players have an advantage here. It's actually pretty good...". "..."

"Is that so..."

Xinya bit her lip and looked at Blackie next to her. This fellow had become a flower spirit and was well-nourished in the second city. He gave off a lazy aura from head to toe. On the other hand, Chen Shanshan was clearly much more haggard... "...".

In the end, Xinya shook her head. "I'd better go with Blackie. I was too tired in the fifth city a few days ago. I want to change to a more relaxed environment..."

Chen Shanshan frowned slightly when she heard that. Guo Xiaoyun, on the other hand, looked indifferent. It was obvious that she had long expected the other party's choice... ..

"Alright... .. I'll get my friend to help you with the household registration transfer later. Since you've chosen Blackie's Place, you don't have to leave later. Just stay at Blackie's place for the time being." Guo Xiaoyun looked at Blackie, whose cheeks were bulging. "Blackie, I'll leave Xinya to you. You have to take good care of her."

"Yes, yes..." Xiao Hei nodded repeatedly. "Don't worry, I'll definitely raise her well!"

Xinya:" ..."

Chen Shanshan looked at Xinya and opened her mouth to say something. After hesitating for a moment, she finally sighed and stopped talking... ..

Chapter 1378: Blackie is Smarter Than You...

On the way back, after bidding farewell to the gathering, Blackie brought Xinya back to their accommodations with a full belly... ..

The second city was flat and the accommodations were very nice to look at. Moreover, the prices were cheap. In order to let the Elves enjoy life, Qingming had put in a lot of effort and gave them a generous housing subsidy.

Therefore, in the second city, most players lived in villas, and elves like Blackie and the others, who were flower spirits and elementalists, lived in a manor directly. At a glance, they looked like aristocrats on TV.., or even more gorgeous.

The elven-style villas were far more exquisite and beautiful than those old manors in the west of D Ball... ..

Xinya, who had followed them all the way here, was dumbfounded...

"Blackie... You... live alone in such a big house?" Xinya asked in a daze.

"It's not too bad..." Blackie chuckled. In the future, his parents would have to move in as well. The castellan had said that a level three flower spirit could bring ten relatives, while my grandfather's side had a bunch of relatives. It would be lively when they moved in. ...

Xinya pursed her lips. With the size of this house, 100 people should be considered big, right?

"But... your place is so big. How do you usually manage it? Did you hire someone?"

"Hire someone?" Blackie rolled his eyes at him. "Do you think I'm a nouveau riche? How can I have that much money? Labor is expensive now... besides, does our flower spirit need to hire someone?"

As it spoke, it pointed to the garden. Xin Ya looked over and instantly saw many high-level wind elements floating over to take care of the fallen leaves and even help to trim the styling. This stunned Xin Ya... ..

The flower spirit was really convenient...

Why did she transform into such a thing?

Xin Ya looked at her slender figure and could not help but feel disgusted in her heart... ..

“You can choose whichever place you want to live. Anyway, it’s just the two of us now. If you’re tired, you can rest first. Oh right, if you want to take a bath, you can go to the hot spring pool...”

“You have a hot spring here?”Xinya was shocked...

“Man-made...”. “...”Blackie giggled foolishly. “There’s a man-made river that irrigates the fields here. I’ll draw it here and use high-grade water elements to improve the quality of the water. Earth elements will be added with minerals like sulfur. When the fire element heats up, the hot spring will be formed “...”. “...”

“You really...”Xinya was stunned for a long time before she finally calmed down and said, “You know how to enjoy life...”

“No, every flower spirit here is living very well... you stay at ease. Tomorrow, I’ll bring you to find a good points job...”

“Okay...”Xinya smiled and nodded.

“Then you find a place to sit for a while. I’ll get you a pair of pajamas. Tomorrow, I’ll go to the tailor shop to get you a new set of clothes...”as he said that, Blackie ran inside happily.

Looking at the other party’s back view and the beautiful surroundings around her, Xinya closed her eyes and took a deep breath. The high-quality space created by the flower spirit made her feel light and airy, so comfortable that she almost moaned.

“He really knows how to enjoy himself...”Xinya muttered.

She recalled her previous life in the fifth city, living in cheap collective apartments, drinking meaningless nutrient fluids, and most of the time, living in the wild where there were meat spiders everywhere at night... The rustling sounds around her scared her so much that she couldn’t sleep the whole night... ..

Compared to that place, Blackie’s place was like heaven... ..

“It’s all in the past...”Xinya shook her head, throwing the nightmarish life of the past out of her mind. “In the future, I’ll be living better and better, better than... every single one of them!”Xinya looked at her surroundings and said firmly.

“Xiaoyun, why did you force Xinya to go to Blackie’s Place?”On the way back, Chen Shanshan Glared at Guo Xiaoyun, her gaze like that of a naughty child...

Guo Xiaoyun looked at her with amusement. In the dormitory, Chen Shanshan was the one who had the most big sister demeanor. The key was that she was also very smart, immediately realizing that she had done it on purpose.

“Use more accurate words. What do you mean by ‘forced’? My words are at most called ‘guidance’...”Xiaoyun said with a smile. “And even if I don’t guide her, there’s a high probability that she will choose to be with Blackie...”

“Why?”Chen Shanshan frowned.

“Because she’s a person who likes to sit back and enjoy the fruits of her labor...”Guo Xiaoyun said with a smile. “We’ve been together for four years. Don’t you know what she’s like?”

Chen Shanshan was silent upon hearing that.

Xinya was a person who knew how to enjoy life. She liked luxury food, luxury clothes, travel, and many high-end places. She could recognize any luxury brand at a glance, she was like a professional appraiser.

She liked a lot of things, but she would not work hard for those things... ..

Every time she wanted to get those things, she did not consider working part-time to earn money to get them, nor did she work hard to improve herself to become more competitive after graduation and become a white-collar worker to get those things.

Instead, she took a shortcut to go on dates with some rich adult men... ..

The rumors about her in school were not good, and there were even rumors that she was working as an escort in a bar... ..

Chen Shanshan always knew that it was not a rumor. It was true. Many times, she had seen the other party come back drunk, or simply stay out all night...

And in her closet, those extravagant things were also increasing... ..

They always knew what kind of person Xinya was, but they could not say anything because adults had the right to choose how to live their lives... Outsiders, at least they had no right to interfere... ..

“I’m worried about Blackie...”Chen Shanshan sighed. “That guy is silly, staying with Xinya... I’m afraid she’ll be at a disadvantage...”

“You’re thinking too much...”Guo Xiaoyun chuckled. “Blackie isn’t silly, she’s smarter than you...”

Chen Shanshan:“...”

“Don’t be fooled by Xiaohei’s appearance...”Guo Xiaoyun smiled and said, “That guy is very sneaky. Why do you think she used to stick to me?”

“Why?”Chen Shanshan was stunned.

“Because she knows that I dote on her the most...”

Chen Shanshan:“...”

“I’m being serious...”

“Me Too...”Guo Xiaoyun continued to smile and said, “Look at today’s meal. Obviously, Xinya’s plate hasn’t moved much, but Xiaohei is staring at the snatching on my plate. Why do you think that is?”

“You spoil her?” Chen Shanshan rolled her eyes.

Guo Xiaoyun lowered his voice and said, “Because she knows that Xinya is calculative when she steals things from Xinya’s Plate...”

“Uh...” Chen Shanshan was stunned... ..

“Haha...” looking at Chen Shanshan’s stunned look, Guo Xiaoyun couldn’t help but knock her head... ..

“BE GENTLE!” Chen Shanshan covered her head and could not help but glare at the other party.

“She can’t delay Blackie, but she can delay you. You, don’t keep staring at others...”

“Me? I won’t...” Chen Shanshan was about to retort, but seeing Guo Xiaoyun’s smiling face, she could not bring herself to say it. ...

In fact, it was true. If Xinya followed her, she would definitely drag her down, and she would definitely not be able to harden her heart and refuse...

“Also...” Guo Xiaoyun tapped on the other party’s forehead. “Song cares about you and thinks highly of you. Don’t agree to help him manage the city just for the sake of friendship. Your stage is outside, remember what I said...”

“Eh?” Chen Shanshan was stunned, and then her face turned red. “Why are we talking about City Governor Song? You’re thinking too much, he didn’t invite me either...”

“He will...” Guo Xiaoyun turned around and waved his hand. “Let’s go, Shanshan. Come over early. I’ll wait for you there...”

As soon as he said that, Guo Xiaoyun turned into a beam of light and disappeared on the spot... ..

The beam of light shot straight to the sky. At a glance, it seemed that Guo Xiaoyun was heading toward the bright starry sky...

Chen Shanshan looked at the sky in a daze and muttered, “Wait for me there?”

She had a feeling that this sounded like a promise but also a farewell. It was as if if she could not reach the other side, then the two of them would be separated by a layer of sky forever... ..

Chapter 1379: one Test every ten years!

“Phew... finally finished organizing...”

In the main base, after Lei Xue had filtered all the player models and information, she accurately divided the players with potential into different grades, the cities they were in, and the possible impact of the city policies on them... ..

This was something that the manager of the main base had to do. The manager had to ensure that the players with potential in the entire galaxy could not be buried, but he also could not interfere too much. He had to calculate when he or she would encounter resistance, what kind of help would he or she provide in secret.

This was a huge project. After all, there were more than a million players in galaxy now. Each player's level, race characteristics, training records, personal background, and so on were all reference elements, it was very troublesome to analyze potential players and players with potential. Even though she was already a level three developer and her brain was comparable to a supercomputer, it still took her a lot of time to barely finish the calculation.

This was because she still needed to use a special algorithm to calculate the probability... ..

After stretching her body, Lei Xue walked to the main control room in a daze. She planned to go back and rest for a day after storing the calculated list of information, but she was suddenly stunned... ..

There was actually someone else in the main control room...

Lei Xue immediately became vigilant. If she remembered correctly... .. Only she had access to the main control room of the base, right. The others could only enter after she authorized them. She didn't remember who she authorized today...

Thinking of this, Xue Lei instantly raised her spiritual power. A scarlet light flashed behind her, and a summoning circle slowly formed on the ground... ..

Xue Lei chose the summoning element on Arcana, but this Arcana subject was actually at a disadvantage in a head-on one-on-one fight, especially in a confrontation...

"Don't do anything rash..." a faint female voice sounded, "The equipment here are all old equipment, but they can't withstand the electromagnetic impact of the summoning array..."

"Senior Raina?" Snow immediately withdrew the array and strode over. "Why are you here?"

"I can't Be Here?"

"Didn't you leave?"

"Oh... well, I suddenly remembered that I didn't explain something to you clearly, so I turned around..."

"Is that so?" Lei Xue suspiciously narrowed her eyes. She didn't know why, but she felt that senior rain-woman was a little sneaky this time... ..

"Senior... why did you open the Household Register?"

"Oh... let me see if there's anything unusual..."

Lei Xue rolled her eyes and directly asked, "Whose household register did you change?"

"Little girl..." raingirl stared at him and said, "If you don't say it out loud, people won't like you in the officialdom..."

"Senior..." Lei Xue immediately held her head in pain. "It's not good for people to know that you broke the rules like this..."

"Who will know?" Guo Xiaoyun did not bother to hide it after he saw that he was exposed. He directly changed Xinya's household registration to a second city. "If you don't say it, who will know?"

Lei Xue: "..."

"Alright, Senior, is that why you came here?" Lei Xue did not continue to dwell on this matter. After all, changing the household registration was not a big deal... ..

"Cough... not entirely..." Guo Xiaoyun coughed lightly. "I asked you to assess the potential value of all the players last time. Are you done?"

Lei Xue was stunned for a moment, then she nodded and said, "I just finished it..."

"Well, I think you should have finished it by now... Let Me See..."

Lei Xue nodded. Without hesitation, she opened the data that she had just sorted out. Guo Xiaoyun raised his head and took a glance at it before memorizing it all.

"Chen Shanshan is actually ranked fourth?" Guo Xiaoyun was a little surprised.

Lei Xue also knew that Chen Shanshan was an acquaintance of Guo Xiaoyun, she nodded and said, "Yes, Chen Shanshan's performance in all aspects is too good. She has the talent of a priest and a seer, and her spiritual capacity test is more than double that of the same period. Although her growth rate looks normal, if you observe carefully, you will find that she spends less than one-fifth of the time on her meditation training. Even so, her level growth is still at the forefront. If it were not for the lack of specific data, she might be the one with the highest potential value in this batch of players...". "...". "..."

"Is that so... "... "..."

Guo Xiaoyun nodded. "Okay... "... You continue to follow the updates. After that, someone will come to you and check your data. You Don't need to care about that person's whereabouts, you just need to do your job properly... "... "..."

"Okay..." Lei Xue suppressed her doubts about the person and nodded.

"Also, it's Abe Qingming..." Guo Xiaoyun's tone suddenly became a little low. "You have to be careful of him..."

Lei Xue was stunned when she heard that...

She had some doubts about Abe Qingming as well. She also felt that he was hiding some secret, but she didn't expect that he would be able to alert senior Raina. Moreover, judging from his tone, senior Raina was very serious about this matter...

Because she didn't tell her to pay attention to Qingming just now, but to be careful of Qingming. The difference between them wasn't on the same level. Senior Raina actually thought that Qingming could threaten her now?

You must be joking, right?

Lei Xue had a strict personality. Although she was very confused as to why he said that, she still seriously accepted his suggestion. She nodded and promised, "I'll pay attention!"

Rain girl nodded her head in satisfaction, then, she relaxed her tone and said, "Some of the veteran players and I are going to the Galactic Federation to enroll this time. We won't be back for a short period of time. If you have any difficulties or emergencies, think of a way to contact the lord

immediately. If it's really urgent, the person in charge of handing over the information to you can also help...". "...". "..."

"I got it..." Lei Xue nodded and asked curiously, "Senior, what is the Interstellar Federation Academy like?"

"How would I know?" Guo Xiaoyun rolled her eyes and said, "Isn't this my first time taking the alien's College Entrance Exam? I'll only know the details when I get there..."

"Oh..." Lei Xue replied with disappointment.

Guo Xiaoyun smiled and said, "You don't have to worry. When we get there, we will sort out the academy's information and hand it over as soon as possible..."

Lei Xue's eyes lit up.

Guo Xiaoyun said, "However, I know one thing. The Federation Academy is an alliance. The academy is open to all citizens of the Federation. There are tests to enter the academy. However, the time is different from the college entrance exam in Planet D. they only take it once every ten years, so if you want to enter the Academy, you have to wait for the next time..." "...". "..."

"Ten years..." Lei Xue was stunned. "That long?"

"Compared to the lifespan of the federation, it's not that long. It's already very crowded..." Guo Xiaoyun narrowed her eyes and said, "According to the information I've received recently, the minimum requirement for admission to the Federation Academy is Level Five. However, due to the huge size of the academy, the minimum requirement for admission to a top-tier academy is level seven. This is only the entry level. If you want to enter a good academy in the next joint entrance exam, I'm afraid you'll have to work hard." ... Ten years passed very quickly

"I will work hard, senior!" Lei Xue said with a smile.

..

After Guo Xiaoyun and Li Goudan met up, the once-in-a-decade joint examination of the Federation began!

Chapter 1380: ranking of inter-galactic universities (Top)

In all civilizations, after a barbaric monopoly system had been broken countless times, there would slowly appear a clear path to rise. The Universe Federation was the largest collection of civilizations in the current universe, naturally, there was such a thing. The joint examination was the largest and relatively fairest way for the Federation to rise!

In the joint examination, regardless of race, family, or family, everyone had the same standard. The strong were superior to the weak, and it was a rare and fair competition platform.

For those who came from ordinary families, had low bloodlines, or were not valued in their families, the joint examination was the hope of their rebirth!

The federation's Higher Education Institutions had a long history, and they had an extremely strong influence in the entire universe. The resources and connections they had were so vast that it was unimaginable. To be able to enter a higher education institution, one would have the platform provided by the school, one would have the opportunity to change one's own fate!

Therefore, this day... .. Was an extremely important day for many people. Of course, it was the same for the school. A month before the start of the joint examination, the Federation had gathered the representatives of the higher education institutions from the four major star regions to begin the joint examination... ..

This included the arrangement of the examination questions, the total number of places admitted, the balance of the regional scores, as well as the overall subsidy given by the Federation to the Academy after the gathering of new students... ..

The final supplement was actually the main topic of discussion in today's meeting... ..

In the assembly hall, experts were gathered. The Federation president personally attended as usual and was ranked first. Seven of the ten great lords had arrived and arranged for a special VIP seat., and in the center of the Assembly Hall sat the principals of the top 100 universities in the four major star regions!

There were also some seats at the periphery that belonged to notaries, and those who came were all famous figures, such as the guardian of the Star Elves, The Guardian of the bronze race, etc. . They were all living fossil-level figures who had lived since the ancient elf era until now...

The meeting had discussed the selection of exam questions, the admission quota, and the discretion of some races in the region to increase their points. And now, the two most important topics in each joint examination meeting were being discussed!

The change in the ranking of the famous schools and... .. A new round of resource allocation!

This was also the reason why a college entrance examination meeting needed so many strong people to oversee it, because this meeting involved a huge amount of benefits!

"Next, we will announce the change in the ranking!"The head speaker held a long list of names, coughed lightly and announced.

The moment he said that, everyone's attention was focused on him. Even as a top warrior of the universe, one of the top figures in the pyramid, he was being pressured by so many people that he couldn't even breathe... ..

His heart was filled with helplessness...

Every meeting at this time was the most troublesome time for him... ..

The benefits involved in the new rankings were huge. The academy's rations were based on the rankings, and the drop and rise in the rankings were extremely meaningful to every university. Hence, every time they fought for the rankings, these universities were like fighting in a war...

“Ahem... . First of all, the list of the top 10 is announced. The rankings are in order: the Central Star System Federation Interstellar Academy, the Eastern Star System Starry Sky Academy, the Northern Star System Tyrell Fasson Academy, the Southern Star System Red Lotus Academy, the Eastern Star System Bronze Academy, the Western Star System Academy, the Northern Star System Night Academy, the Southern Star System Spirit Mech Academy, the Southern Star System Blue Spirit Academy, and the Eastern Star System Windwalker Academy. These are the latest top 10 rankings!”

Once the name list was out, the meeting room fell silent, but the mental pressure was even greater... ..

The Speaker had no choice but to force himself to break the deadlock and said, “This time, one of the two great universities in the Northern Star Field has entered. Sir Sylvanas, Congratulations...”

“It’s Alright...” in the special guest stand, the fourth Lord Sylvanas smiled slightly. “It’s a little worse than expected, but it’s acceptable...”

The speaker immediately sweated when he heard this. This tone... Was completely stirring up trouble. ...

As expected, as soon as he finished speaking, a muffled voice rang out. “Your Majesty is indeed magnanimous. In our opinion, the results are very shocking, but they haven’t reached our expectations yet...”

Sylvanas turned around to look. The one who spoke was the sixth Lord, Plath. Ao en!

He was the leader of the Ao en clan, an ancient god Clan. He was also the representative lord of the Western Star Field!

Among the ten great lords, the first Lord was in charge of the central star field. He was the pillar of the federation government. However, he did not participate in the distribution of these resources on normal days because there was a fixed quota. The second Lord was the Dragon Emperor. His territory was in the ancient lands outside the four great star fields. He suppressed the ancient clans. The resources of his forces were directly provided by the Heavenly God Academy. He did not participate in these matters on normal days... ..

The tenth Lord Ye Ji’s identity was mysterious. Her territory was in the Sea of nothingness, and she usually did not interact with any of the Lords. Other than a few major events, almost no one had seen her, and her powers had never recruited people from the Federation, hence, she was also outside of this meeting.

And the seven people sitting in the meeting room were the Guardian lords of the four great star fields.

As the Lord of the North Star Field, he represented the will of the entire North Star Field.

The South Star Field had two lords. They were the seventh Lord, Ka Jia, and the eighth Lord, norsass. Both lords did not deal with each other, so the south star field was divided, including the Academy’s forces.

The East Star Field was the most complicated. There were three lords, including the third Lord, Cang Yue, and the fifth Lord, Shan Qiu. Copper Beard and the 9th Lord Teda Hill. Whisper!

Just like Sylvanas, the only Lord that represented an entire star field was ao en. Therefore, many times, ao en would target this woman who had surpassed him. However, the results were usually not good.

For example, this time...

Out of the 10 great academies, the western star field only occupied one spot. Furthermore, their ranking had actually dropped by one spot compared to the last time!

He was the one who had personally founded the Divine Arcana Academy. It could be considered as the recruitment academy of the Western Star Field. It had a long history that could be traced back to the time when the federation had just been established. It was an old and prestigious academy!

He had invested countless resources for this academy, but he had never been able to enter the top 5 in the rankings. On the other hand, the northern star field did not even have a long history of founding universities. At the very least, they were considered relatively young compared to the other star fields.

However, among the top 100 schools, the Northern Star Field occupied 13. Among the top 10 schools, the Northern Star Field also occupied two spots!

Among them, the number one school in the Northern Star Field, Tyree Fasson Academy, had even rushed to the third place. This feeling of being left far behind by someone else was not good... ..

Initially, Orne was already very displeased with this newcomer's ranking above his. Now that the Academy's ranking was even higher than his, it made him even more displeased... ..

However, he didn't care about his displeasure. In the face of the other party's sour and provocative tone, she only smiled indifferently. "If I'm like you, Lord Orne, and only regard the top five as my goal, then there's really no need to feel regretful..."

"You..." Orne's face darkened, and the metal-like skin all over his body instantly burned red, like a hot stove... ..

The temperature in the hall suddenly rose!

The surrounding lords frowned. They were not worried that Orne would make a move. Although he was a hot-tempered person, he had a basic character. He would not say that he would cause trouble just because his academy's ranking fell behind... ..

After all, they were all people with status...

But the characteristics of their race were too obvious. No one wanted to sit next to such a hot stove... ..

Sylvanas helplessly put down the teacup in her hand. The top-quality tribute tea inside had been evaporated by the high temperature, she pursed her lips and sighed. "If Lord Orne is free to sulk here, he might as well recruit more high-quality students this year. Otherwise, Your Divine Arcana Academy's ranking might drop next year..."

"There's no need for you to Remind Me! !" Orne said in a muffled voice. His voice was as unpleasant as a steam engine, causing the other lords to frown again... ..

Looking at the other party's awkward expression, Sylvanas found it slightly funny and didn't mind it. She actually didn't dislike Lord Orne's straightforward temperament. Moreover, she was in a good mood now. After all, her two academies had both risen by one place... ..

It wasn't just a simple ranking. The Academy's ranking determined the federation's allocation of resources to the higher education institutions in the next ten years. This amount of resources wasn't low, and it was something worthy of the interest of Lords of their level, this was also the reason why a lord of their level would care so much about the academy's ranking.

Being able to let Tyrifson enter the top three this year was indeed a satisfactory answer, but there were still some flaws in it... ..

The ranking order determined the amount of resources, and the difference between each ranking was extremely large. It was the same for the third and second place, and in Sylvanas' opinion.., tiriphaison had the chance to surpass the Star Academy this year!
