

## A Bunch 1391

### Chapter 1391: The D Ball Players of the federation (Part One)

Goudan was stunned. Ever since the second surgery, she had always thought that her lord had given them trash genes. At this moment, it sounded like the origin of what her master had said was... .. Pretty impressive!

It was the same for the developers, and it was the same for Titan...

“What is the relationship between the Titan race and the Star Core?” Goudan became even more curious.

Lanaya said, “Titan is a protective lifeform formed after the awakening of the planet’s consciousness. In order to prevent the star core from being refined by others, after the planet’s consciousness was awakened after being threatened, it began to consciously use its energy to create powerful lifeforms to protect itself. This is a very simple form of biological defense and evolution...”. “...”

“In the beginning, the lifeforms born on some immature planets were very crude. They were all huge and not very structured lifeforms. The powerful star core energy only gave birth to the body size of a few lifeforms. The quantitative change did not form a qualitative change. Therefore, many civilizations called the huge lifeforms Titan...”. “...”

“Oh...” Goudan nodded thoughtfully. He recalled the imperial plan that was spread on sphere D. those foreigners in the west seemed to have also called the huge creatures on Sphere D Titan!

Was there a connection between them?

That was not right. The developer civilization that master mentioned, the rise of Titan, should have been many years ago, right? The history of human beings in Planet D was only a few thousand years old. There shouldn’t be any connection, right?

Maybe it was a coincidence?

She didn’t realize what Goudan was thinking, lanaya talked about the history of that time as if they were chatting. “Under the influence of the universal consciousness, the planet began to rapidly titan. As it became more and more mature, there were the first Titan gods. And after those titan gods mated with some species, the bloodline that was born was the Titan race that was later mentioned... “...”

“Wow... What did the Green Titan mate with? A big tree?” Goudan asked excitedly.

Lanaya’s mouth twitched. “How would I know? If you want to know about the origin genes of these ancient races, there have long been experiments to continue producing them...”

“Oh... so the current star level means refining the star core?”

“More or less...”. Lanaya nodded, “With the example of Titan, the races with strengthened bodies have also developed a method to refine the star core. When you reach that level, you will have the

opportunity to go to the ancient lands to find a suitable star core, sign a contract, and step into the threshold of star rank!”

“Contract?”

“This... you will know in the future...” Lanaya did not mention the matter of the contract. She looked at Gou Dan and said, “You are still far from that step, you should be concerned about the upcoming exam!”

“Exam?” The dog egg is muddled: “Still Have Exam?”

“Nonsense...” Lanaya knocked on the dog’s head. “You came here to study. If you want to enter a higher education institution, you must take an exam!”

“AH... . “the dog egg suddenly wailed. “Exams are the worst. ... Isn’t it predetermined ? I heard from my dressing-changing sister that the Lord of Something Hill isn’t here to invite US Templars to her academy ? Why is there a Test?”

Our Templar clan?

Lanaya’s eyelids twitched. This guy, he really entered the role quickly... ..

“Internal decision? You really dare to think! Do you know how big the Northern Star Field Is?” Lanaya glared coldly at eggface and said, “Compared to the Emerald Star Field created by senior Ysera, it’s not even a speck of dust!”

Eggface was stunned and looked at Lanaya in confusion. What did the size of the star field have to do with internal selection?

Lanaya looked at eggface, who was still in a daze, and sneered, “Such a huge star field, but there are only a hundred famous universities, and there are only a few top universities. The number of spots for admission is less than ten thousand people. Do you think...”. “...”. “This kind of admission rate, will it be internal selection?”

“No... won’t it?” Dog Egg carefully poked his head out and asked.

Weren’t more than half of the places in the country’s top schools in the North All decided internally?

“If the only rising platform has been corrupted, who would join such a force with a long-term vision?” Lanaya rolled her eyes at dog egg and said.

“Uh... is that so?” Dog Egg immediately felt ashamed...

“As a young and new force in the North Star Field, in order to attract good students and talents from poor families, Queen XI has worked hard to develop the science of the law in the past few years. There are very few academies in the warrior department, and there are almost no major in the assassin department. This time, our family has gone to help establish the assassin department. There will definitely be a discount for the first round of assassin students, but the competition will definitely not be small!”

Lanaya looked at Goudan and said faintly, "Because it's an experiment, it should only be opened in one of the schools in the early stages. In other words, if you want to enter the North Star region's high school as an assassin's apprentice, then only the school can be opened!"

"UH..." Goudan was startled by the other party's serious tone and said in a daze, "This... What does it mean?"

"This means that the competition is very big!" Lanaya said coldly. "Tirefarson Academy is also known as the theory of chaos. It is the number one academy in the Northern Star Field. In the latest ranking of the Federation Academies, the Academy is ranked third!"

"The higher the ranking of the Federation, the more resources the Academy has. The more resources the students can enjoy, the greater the degree of nurturing they can enjoy. Although the Northern Star Field is not favored by many disciples of families, it is still a first-class academy in the federation. Even if they are trying to get some resources, there will still be many outstanding juniors who will try. What you will be facing is hundreds of millions of outstanding young disciples!"

"Gulp..." Goudan swallowed his saliva. He felt... "...". The situation seemed to be very serious!

Lanaya raised Goudan's head, she leaned closer and said in a low voice, "You're the direct disciple that I've chosen, and you're also the trump card of my lineage. Now, everyone in the family is watching you. If you don't pass the exam, you'll embarrass me... HMPH! !"

Dog Ball: "Blood and blood..."

This is a little different from the cool interstellar life I imagined...

-----

Meanwhile, on the other side of the Southern Star Field, Vienne and Billy, who had temporarily parted with Lanaya, had also returned to the federation.

Of course, not all of them had come. Brother Goudan had awakened the Titan Emperor bloodline, which was quite eye-catching. In addition, his bloodline could resonate with Gaia's consciousness in the emerald star field, so he had stayed there for Ysera to personally train him.

Then, there was Brother Soap's grandfather and Feng Dou Dou, who had been arranged to join the Bolton Force. Feng Dou Dou and Soap were mutants, while his grandfather was a rare Phoenix. These existences needed a more normal birth, it was not appropriate for all of them to be recommended by Wayne and Billy.

After all, these guys were terrifyingly talented. It was hard not to suspect that they came from the same group. Therefore, they were temporarily divided into two groups. One group was recommended by Wayne and Billy to take the college entrance exam, the other group was recommended by the Bolton faction!

At this moment, Wayne and Goudan Li were welcoming their grandparents and the others from the Bolton faction at the Southern Star System Space Station.

Chapter 1392: D-ball players from the federation (Part Two)

“Wow, Goudan, your clothes are so handsome!” Chen Yutong, who spoke, was the second most skilled player among the elven players.

Initially, after Wang Goudan was operated on by the dragon race, Lanaya had planned to choose her as her direct disciple. However, after Goudan was discovered to have the same genes as him, Lanaya immediately took Wang Goudan and ran away, hence, just like Pu Yunchuan and the rest, feather pupil was recommended by the Academy’s instructor to participate in the general exam.

Li Goudan looked at feather pupil and puffed out his chest proudly. This was the windwalker set that her master had given her. As a level 8 lifeform, she could already register as a regular windwalker in the universe!

Feather pupil looked at the other party’s attire with some envy. Her class was uncertain. As one of the most talented players in the base, she and cold star were both multifaceted development. She was also learning the Ranger Skills and assassin skills, she was even learning swordsman skills.

As for what major she would choose in the end, she had yet to decide... ..

Why don’t she just join dog egg and fill up the entire Zephyr Academy?

There weren’t many days left before the official examination. She had to decide on her direction in advance... ..

Based on her understanding of the past two days, feather pupil had some impression of the federation’s official examination. The candidates of the Academy would either have a guarantee letter from a well-known person or a list of candidates from the Federation’s Official Public Intermediate Academy.

Before the national examinations, the examinees would have to choose the direction of their major. This was the main point. Yes, this was different from learning the basics in Ball D and then dividing the major into different paths in the university. From a very early stage, the goal of the students had to be set.

This was because the higher education institutions valued one’s talent in a particular major. The major score would basically account for more than 50% of the National Examinations’ score. The rest would be physical fitness, basic attributes, and basic combat tests!

And even for the latter few tests, the reference standards were also based on professional standards. For example, if one chose to be an assassin, then their physical fitness would not be too high, and if one chose to be a ranger or an archer, there would be a certain requirement for one’s arm strength.

This was all based on one’s profession...

Just as they were talking, the team of players led by Billy also arrived. Li Goudan hurriedly greeted them from afar. Feather eye looked up and saw the spirit-type professional players led by rainy girl and no melon... ..

The developers were rainy girl and no melon, the siren priestess and ice fruit, as well as the flower spirit and cabbage. On his side, the elf agility-type players had Li Goudan and himself, while the Titan players had Pu Yunchuan, cold star, and Emperor liver. Lastly, there was the dog couple, Yun Ji Mu, and Wang Chengbo... ..

When Grandpa and Feng Doudou from the Burton faction arrived, the first batch of players who had ventured into the galaxy would be almost all here... ..

“Eh? Where’s Wang Goudan?” Li Goudan hurriedly asked when he saw Guo Xiaoyun and the others.

“I heard that her master was so angry that he couldn’t get out of bed, so he couldn’t come today...” Guo Xiaoyun said calmly, “It looks like you two Goudan won’t be able to get together today...”

She couldn’t get out of bed?

The faces of the players twitched. Was she that violent?

Although they did see Wang Goudan often getting beaten up on the way, she was really... ? ... what did she do this time? She couldn’t get out of bed. was her leg broken?

Li Goudan also looked at Vivian behind him with lingering fear and couldn’t help but feel relieved. “My master is still gentle...”

The corner of Vien’s mouth twitched slightly, but she did not respond to the curiosity of these little fellows.

She had an extraordinary relationship with Lanaya, so she knew the news early on. After learning of the situation, she was also shocked. That little fellow was really capable of stirring up trouble. He actually dared to make a move on that person. If her disciple were to do this., she would definitely break his leg!

Dog Egg, who was glad that his master was gentle, did not know at all. He held Guo Xiaoyun’s hand curiously. “Boss Rainie, have you found your major and school?”

Guo Xiaoyun replied, “My major is the spiritual mech department. It’s a major that focuses on the spiritual master and supports the mecha subject. It suits my taste very well. The school is naturally master’s alma mater: The Blue Spirit Academy...”

Billy nodded slightly and smiled in satisfaction. He was obviously very satisfied with Guo Xiaoyun’s compliance!

Guo Xiaoyun was a developer and not a blue spirit. However, the Blue Spirit Academy was not a school that completely favored the blue spirit. This was different from the eastern Starfield’s Starry Sky Academy and the Western Starfield’s Divine Olympics Academy. Although the Blue Spirit Academy was named after the Blue Spirit., it was a spirit-based comprehensive university with a very fair system!

With Seer’s resources, Billy was not worried that his family’s genes would have no successors. In the future, he could still choose outstanding elven players to inherit it. However, among the first batch of players, she chose Guo Xiaoyun because she had her own considerations.

First, the other party’s talent was shocking. Even among this group of little monsters, this girl’s talent was one of the best. Moreover, she had many resources on her, such as Andrew’s inheritance and the Sky Demon armor, just these were enough for her to grow into a top-tier powerhouse in the future. It was definitely a good deal to pull this little guy with unlimited potential into her camp first.

The second reason was for the sake of her alma mater...

Although she worked under the banner of the god Lord, she also had a professorship in the Blue Spirit Academy. Her family had a deep friendship with the Blue Spirit Academy. Her family's patriarch was one of the vice presidents of the Blue Spirit Academy!

In the latest ranking, the Bluespirit Academy and the Gale Academy were ranked in the bottom two places of the top ten, a rank lower than the previous ranking!

In the past twenty years, they had dropped two ranks consecutively. This was definitely the darkest moment in the history of the academy. One had to know that in the Federation Academy's ranking, there was a huge gap in the allocation of resources between each rank, the gap between the top ten and the top ten was like heaven and earth!

Once she dropped out of the top ten, the reputation of the Blue Spirit Academy would probably drop to an unprecedented freezing point. Bringing Guo Xiaoyun here was also to prepare for the interstellar fellowship in ten years time!

Under the stimulation of the Sky Demon armor, this little developer's spiritual power had already reached the standard of a level ten life form. She was completely qualified to participate in the fellowship. After all, in many universities, level seven was already the graduation level.

Of course, those who participated in the fellowship would not be lower than this level. If the little guy wanted to get a higher ranking, the cultivation of these ten years was crucial. Before she came, she had tested it. The Little Guy's basic control of mecha was still at the beginner stage.

Thinking of this, she raised her head and glanced at Vivian. When Vivian noticed her gaze, she also looked over. There was a hint of a bitter smile on both of their faces.

Vaughn had never expected that her alma mater, Zephyr Academy, would fall so badly in the rankings. She had originally wanted to get Goudan to hide his embarrassment, but now it seemed that it was impossible... ..

"What about your side?" Guo Xiaoyun looked at Goudan and asked, "Have you guys decided on the Academy?"

"Most of them haven't..." Goudan chuckled and said, "Yesterday, everyone was dazzled by the Academy's introduction. However, Pu Yunchuan, Leng Xing, and Emperor Liver had already set their targets before they came. It's Xandar Academy..."

Guo Xiaoyun frowned. The Titan Players' entry into Xandar Academy was set by the Lord. He said that it was an appointment, but now it seemed that it was not a good thing. She had also seen the ranking of Xandar Academy yesterday, and it had almost fallen out of the top 100. The difference in resources compared to her and Goudan's academy was huge... ..

It was said that the higher the ranking of the academy, the more resources it would give... ..

"What about your side?" Goudan looked curiously at the little cabbages that were looking around. "Have the two of them chosen their targets?"

"No...". Guo Xiaoyun shrugged helplessly. "One of them is a flower spirit and the other is a priest. There are many schools that they can choose from. I saw all kinds of school introductions in the information

yesterday, and it was also dazzling. I guess they will only make up their minds at the Campus Party.” “...” .  
“...”

“Campus Party?” Li Goudan and the others were stunned...

“You don’t know?” Guo Xiaoyun looked at the other party in surprise. “Didn’t your master tell you?”

Li Goudan turned to look at Vienne, who twitched her mouth slightly. “I said it three times. You played too much and didn’t take it seriously...”

Everyone:” ...”

Li Goudan scratched his head in embarrassment. Indeed... “...”. He had come to a high-level civilization planet on another planet for the past few days. There were so many new things that he couldn’t understand. He didn’t even have enough time to shop every day. How could Goudan have the energy to listen to his master’s nagging?

Yunji mu looked at Guo Xiaoyun. “What do you mean by the school meeting?”

Her and Wang Chengbo’s professions were special. They had always been hesitant when choosing their school’s goal. It wasn’t her fault for being indecisive. As someone from a former sect, she knew very well the effect of a good school on one’s growth, for example, if she hadn’t chosen the Yunshan sect and had gone to Kunlun instead, the result might have been completely different.

Moreover, she understood that although the federal examination didn’t stipulate that students had to choose a target school before the examination, most universities gave priority to the first choice.

That was to say, if you had filled in a certain school before the examination as the first choice, then under the same score, you would be given priority to be admitted... ..

“Master, what is the campus meeting?” Dogball immediately tried to please him. “Can you say it again?”

Vivian:” ...”

Chapter 1393: Good Seedling, President!

The campus party was an important event held once every decade by the Galactic Federation of Higher Education. It was a demonstration to attract students... ..

The national examination did not require you to choose a school in advance, but universities would give priority to the first volunteer. This was a way for universities to recruit high-quality students.

After all, for many students, if they were not very confident, they would have to be more conservative in choosing their future. For example, if they had a chance to get into one of the top ten schools, but the chances were not high, at such a time, if they were not from a good family background, very few people would choose to take a risk and gamble. Most of them would choose a school that was more confident and fill in the first support.

Under such circumstances, it was very likely that the lower ranked universities would have a chance to admit high-quality students...

Therefore, the various universities also attached great importance to this exhibition. This was because before the national examination, many students were in a confused state. They were in a dilemma as to whether to take a gamble or conservatively take a gamble, and these confused students would usually take a look around the campus to make up their minds.

At this time, as long as they gave a little help and let them see the advantages and benefits of their own academy, it was very likely that they would be able to help them make up their minds. After all... .. An advantage was always the first to be shouted out... ..

Early in the morning, the admission departments of the various academies had already arrived. Each of them had already hung up their own academy's signboards early in the morning. Each of the exhibition halls was playing their own academy's excellent school history and abundant teachers on a loop...

It was also the first time that Goudan and the other players had come to such an occasion. After entering the venue, they were all very curious as they sized up their surroundings... ..

There were several million universities gathered at the campus fair. They used high-end spatial folding techniques. They were divided into levels and were divided into 100 units. From top to bottom, the interested students could enter the corresponding level space according to their own circumstances. They watched the demonstration of the ranking academy...

This was to prevent the personnel from being too mixed. After all, there were millions of federation universities, and there were billions of reference academies. If such a huge number were gathered in one space, it would make their respective choices very unchanged.

The grading was also to make it not awkward for each other...

The second was also considered a benefit for the higher ranking academies. After all, the academies made so many contributions every year to fight for rankings, so they still had to have the benefits that they should have...

This was also one of the reasons why Xandar Academy was very concerned about dropping out of the top 100. For example, if you stayed in the top 100 or 100-200 levels of the campus fair, then it would be very difficult for you to make a comeback... The number of students you could fight for was not on the same level. Once you fell, it could be said that it would be very difficult for you to make a comeback... ..

In the hall, the flow of people was very large, but it was not crowded. After all, most of the people had already decided which level they would go to before they came, and they did not hesitate at all., the moment they entered the hall, they were instantly transported to the corresponding level through the AI of the exhibition hall.

Meanwhile, Eggface and the others were looking around the hall, sniffing around. After looking around for a long time, they finally activated their AI under Wayne's urging... ..

"Hello, please choose the level you want to go to..."

The AI's cold and mechanical voice sounded in the minds of every player. A few players didn't hesitate to choose the first level.

Under a ray of purple light, the people passing by all looked at them.

“Those little guys look like they’re not even 100 years old, right? They’re taking the general exam at such a young age? And they’re still choosing the first level?”

“Maybe they’re just going for a stroll? Do you think that everyone who goes to the first level is there to fill in their volunteers?”

Some people nodded in agreement. The first level universities were ranked in the top 100 in the Galactic Federation, but they were at least ranked in the top 20 in the various star fields. They were all top universities in the universe, even some big families.., it’s too much for such a young boy to take the exam?

I guess I just went to see some...

-----

“Principal, the school board has issued a strict order. The resources for this year’s enrollment must be excellent, or some of them will withdraw their funds! !”

In one of the exhibition halls of the first class campus fair, a woman in a suit and a pair of mithril crystal goggles looked at a giant who was as tall as a hill with an unpleasant expression.

Nine white tails were floating behind the woman’s back. They were light and ethereal. They belonged to the Vasthea Heavenly Fox Clan...

And the one wearing a custom-made suit that was as big as a mountain of meat was the principal of Xandar Academy... ..

The principal kept touching the sweat on his forehead and said with a bright smile, “It’s not to the extent of not going to the extent of withdrawing funds?”

“The principal doesn’t think it’s to the extent?”The Female Heavenly Fox looked at the other party coldly. “The 11th ranked Gruse University set the goal of squeezing our Xandar University out of the top 100 this year. The other party is also a traditional martial arts school, but they have been paying attention to comprehensive resources education since the last era. They have spent a lot of money to hire high-quality academic professors. Shengsheng has divided the scientific and technological contributions of his own school into several grades. This year’s overall ranking is almost on par with ours!”

“It can’t be, right?”The principal broke out in even more sweat and said guiltily, “Aren’t there still two academies at the bottom behind us?”

Ranking 98 was indeed a little scary, but at least they weren’t ranked 100th. They shouldn’t be the ones getting raped... ..

“Sir Principal...”the female heavenly fox gritted her teeth. “The final three academies’combined scores are only a few points apart. It’s possible that one of us will fall from the top 100 in the next ranking! !”

“UH... is that so...”the principal lowered his huge head guiltily... ..

“And according to our intelligence, among the funds that invested in US, a lot of them have already started secretly raising funds from Gruse High School. Apparently, they are more optimistic about the other Academy. Sir Principal, if you continue to be so careless, the academy that the old principal gave to you will completely fall into the sewer!”!

“Not to the extent... not to the extent...”the principal hurriedly waved his hand. “Even if it falls a hundred places, it won’t fall to the sewer level...”

“What the F \* CK, are you really planning to fall into the sewer?”The female heavenly Fox directly threw the intelligence booklet in her hand onto the other party’s huge face... ..

“Don’t be so irritable...”the principal didn’t even dare to raise his head...

“I...”The Female Heavenly Fox was so angry that her teeth were itching. If she didn’t know that the other party was thick-skinned and that her teeth might pop out if she bit him, she would have long taken the bait!

Just as she was thinking of how to scold him, a shadow rushed over quickly and interrupted the Heavenly Fox’s hot-tempered action.

The principal and the Heavenly Fox both looked at the shadow who rushed over. The other party seemed to be in a hurry and ran too fast. His entire body was wrapped in flames, just like a huge fireball.

After stopping, the figure did not even bother to extinguish the flames on his body. He said excitedly, “Principal... principal... hurry up... good seedling, a perfect seedling!”

“Oh?”The principal immediately straightened his body when he heard that!

“Calm down...”the Heavenly Fox glared at the two of them. “What’s The Big Deal? Is there a need to be so flustered? If others saw this, they would think that it was a dead dog who had starved for a few days and saw Bones!”

The Principal:”...”

“He really is a great seedling!”That person said excitedly, “A hundred-year-old ring, the highest one has a level ten life form, and there are a few Titans with high purity bloodlines!”

“F \* ck!”The principal suddenly stood up, and with a jolt of his tiger body, the surrounding metal territory collapsed into a pit. “Then why aren’t you leading the way?”

As he spoke, he turned to look in the direction of the female heavenly fox. “Ah Li, hurry up and prepare the information... eh? where is she?”

The man who was covered in flames twitched the corner of his mouth. “She left a long time ago and said that I look like a dead dog. Wouldn’t it be more exaggerated if she were me? She even used the divine movement technique...”

Chapter 1394: Policewoman of Pi City

“Are you here to visit the Academy?”

At the entrance of the first-floor space, a beautiful police officer of pi city was standing guard at the entrance, carrying out professional registration of the people coming and going... ..

“AH... I Am...”the person was a little guy from the Wastya Bear tribe. He was obviously a little guilty in the face of being questioned. He didn’t dare to look at each other. He lowered his head and put his ears together... ..

The female police officer raised her eyebrows. A trace of ridicule was clearly shown on her face...

“Classmate... ..”the female police officer’s voice was still gentle as she said, “It is shown in the passage that your life level is level five. Moreover, the total amount of energy shown seems to have just been reached. Level five is the standard for passing the national examination. Are you sure you did not go to the wrong place?”

The person’s face turned red. He immediately clenched his teeth and raised his head, “Can’t you pass the top 100 schools just because you are level five? If the national examination is based on the level, then what is there to test? Can’t you just be admitted according to the level?”

“Oh?”The policewoman’s lips twitched as she looked at the other party with a smile. The unconcealed mockery in her eyes caused the other party to clench his fists. However, in the end, he still managed to move his gaze away under the policewoman’s aura... ..

“Classmate... ..”. The policewoman saw the other party move his gaze away and smiled, “The system exam is naturally based on comprehensive ability, but rank is an important reference standard. To be able to reach a higher rank at a younger age is already an indication of excellence. In the eyes of the classmate, the growth ring should be 141 years old. With the lifespan of your race, it’s already over half. I’m the one who’s too lazy to waste money to take the system exam. I’ll just go and work!”

“You! !”That tanuki-like small head raised his head once again and glared at the other party fiercely. His pair of orange-yellow pupils emitted a faint green light... ..

Pi Cheng did not care about the other party’s embarrassment at all, he continued to look at the other party with a scrutinizing gaze and said, “The potential of an ordinary tanuki like you isn’t that great to begin with. It’s fine if your bone structure is average, but judging from the color of your fur, you don’t seem to have much nutrition in your daily life. It’s obvious that your family’s conditions are average. With your talent, only those schools that are willing to accept trash might consider it. You really have the nerve to come here and look around?”

“You... you... you...”the little raccoon cat’s breathing quickened. It was obvious that he was furious.

“You can’t even speak clearly?”The policewoman couldn’t be bothered to look at him. “Don’t embarrass yourself. Hurry up and go back to where you came from...”

“I.. F \* ck...”the raccoon cat’s hair immediately stood on end. However, the moment he moved, a cold intent made him freeze on the spot. He looked up in shock and saw a pair of eyes that were as cold as ice from ancient times. In an instant, the anger that rose from the insult had dropped to the freezing point... ..

It was only at this second that he remembered the reputation of these pi city policewomen in the universe!

The Pi city policewomen were famous throughout the universe. Their beauty and skill were their labels. Of course... .. There was another very obvious label that was their ferocity... ..

Every pi city policewoman had a set of high-end equipment. Most of the people of the same level would not be able to withstand a single shot from them. Furthermore... ! They really dared to shoot!

As long as they thought that you would threaten the law enforcement officers, these policewomen would dare to shoot you directly. Every year, countless citizens of the Federation would die under their guns. They were the most notorious law enforcement group in the universe!

“Get lost!”The policewoman’s teeth were slightly raised, but the words she spat out were extremely insulting...

But this time, the vigorous bear raccoon just now seemed to have been pardoned. It ran away in a panic, leaving the people in the queue at the back speechless...

“F \* ck...”at this moment, Li Goudan, who was waiting in line at the back, suddenly looked at his master beside him. “Master... This gatekeeper... feels... so arrogant?”

Pu Yun Chuan and the others around him nodded repeatedly...

Vien, on the other hand, said calmly, “The policewoman of pi city is a special hired guard in the universe. She has always been so arrogant...”

“Hired?”Goudan li whispered, “Why do they hire such people? Aren’t they afraid of being blackmailed?”

“It’s because of their reputation that the campus party specially recruited them...”

“Eh?”Goudan and the players behind him were stunned. “Why?”

Vivian said, “To persuade those idlers who clearly didn’t meet the standards to come to the first level to visit famous schools...”

“Is it necessary?”Pu Yunchuan was stunned. “Others just came to take a look...”

“It’s very necessary...” . Vaughn sighed. “The reputation of the top 100 academies is too great, causing many people to come to visit them even if they can’t afford it. This resulted in the first level, which was relatively loose, becoming very crowded after it was divided into levels. This greatly affected the efficiency of the famous schools in recruiting high-quality students. You have to know that the basic purpose of the campus party is to attract high-quality students, not for idlers to visit “...”

“Ugh...”Eggface was speechless. “Can’t we just make it clear? Is there a need to use such a method?”

“How?”Vaughn knocked her silly disciple with a smile. “The campus party is held before the national exam. No one has a proper exam yet. What criteria do you use to filter others? “There are also quite a number of people with grades, genes, bone structure, as well as those who have worked hard to achieve miracles. How can you determine the criteria before the exam? “Of course, only the living can guard each and every one of them so as not to miss out on good seedlings to the greatest extent...” . “...”

“Woo...” dogball covered his dog head in pain and said aggrievedly, “Then we can hire some kind people. Isn’t hiring this kind of people offending people?”

“We need to hire this kind of people...”. Wayne smiled and said, “The reputation of the female police force in pi city is known throughout the universe. Just this reputation alone can persuade a bunch of people who want to fish in troubled waters. Occasionally, those who don’t believe in evil, like the one just now, will also be mercilessly expelled. Under the deterrent effect, it can basically dispel many people’s thoughts like this ... ..

As he said that, he pointed to the right and looked over. He saw that after the beaver ran out of the tunnel, the group of people at the entrance looked at each other and quietly followed... “...”.

“Isn’t it reasonable to let the people with power do the work of the people with power?” Vaughn asked while stroking dog egg’s head.

“Aren’t you afraid of people pretending to be pigs to eat Tigers?” Pu Yunchuan asked curiously.

“People who pretend to be pigs to eat tigers usually don’t come to the universities to pretend...”. Vaughn laughed and said, “After all, there aren’t many people in this world who can pretend to be in the top 100 famous universities. Even if there are, they aren’t so boring. Besides, who do you think those policewomen are?”

“The policewomen of pi city are one of the most expensive hired guards in the universe. One reason is that they are skilled and well-equipped. The second reason is their eyesight. As a guard, there aren’t many people in this universe who are more professional than them. The policewomen who can come out are all above level 12. How many students can pretend to be pigs in front of them?”

“Oh... how...” the players nodded. When they were about to ask more questions, a faint voice came from the front, “Next!”

“It’s your turn...” Vivian pushed Goudan lightly. ...

“Ah?” Goudan panicked. She didn’t want to be the first to face such a sharp police sister. She quickly looked at Guo Xiaoyun and said, “Boss, why don’t You Go First?”

However, as soon as she looked over, she found that rainy girl had retreated to the back and looked around as if she hadn’t heard Goudan call her. Guo Xiaoyun wasn’t the only one. Pu Yunchuan and the others also retreated to the back of Vien, leaving Li Goudan alone in the aisle... ..

Li Goudan:”...”

“Next!” Another female police officer in charge of registration at the front said impatiently, “Don’t delay others!”

Goudan pouted and looked at the group of disloyal guys. She could only walk to the registration counter with a nervous heart... ..

She had just heard from her master that this group of female police officers had a very bad reputation and would dare to shoot at any time... ..

She secretly vowed that if the other party said he spicy chicken, he immediately turned away, never argue, spicy chicken on spicy chicken... . Show me a bird

“Name!”

“Li Dog... cough cough... Li Jiayi...”

“Li Jia Yi, Li Dog, isn’t it? What an odd name...”

Li Goudan:”...”

After the policewoman glanced at him, her tone was not very harsh, at least not as harsh as when her colleague mocked the bear, but not because her character was better than that of her colleague, it was because she saw that Li Goudan’s face was very well-nourished, and his body was emitting a faint smell of medicinal bath. According to her professional sense of smell, she could instantly determine the quality of the medicinal bath. She also came to the opinion that little elf was at least from a decent background... ..

The habit of disliking the poor and loving the rich made her subconsciously gentler...

After opening the data of the teleportation channel, the policewoman opened Li Goudan’s test data.

When passing through the transmission array, the transmission system would have a basic energy data monitoring, allowing the staff to quickly know the level of the transmission students. This was also one of the tools they could use to quickly identify the students’ strengths and weaknesses.

“Level eight?”

The policewoman’s originally indifferent expression was stunned. She rubbed her eyes in disbelief and looked at Li Goudan’s eyes again.

Li Goudan immediately lowered his head.

He was not mistaken! !

The policewoman stood up in shock and stared at him!

Seventy years old? Level eight? Are you kidding?

Chapter 1395: Campus Fair Storm (1)

The policewoman of pi city had a bad reputation among the commoners, but not among the nobles. She was well-versed in etiquette and had excellent professional qualities. Not only did she have excellent skills and sharp observation skills as a police officer, but in terms of her duties, she was... The reputation of the policewoman for completing missions had always been at the top of the industry...

She had debuted for hundreds of thousands of years, and it was not the first time that she had received a campus fair mission. In order to fulfill the mission of the campus fair, she spent a lot of time learning the common sense of identifying high-quality students, especially the characteristics of the children of big families.

Don't look at that colleague who scolded the bear raccoon as if he was not afraid of offending people. In fact, this job was not easy, because you had to identify who could be scolded and who could not... ..

For example, those families would have their children lower levels in the early stage because they cultivated secret arts, but they had accumulated a lot of experience. After the number of levels, their leveling speed would be much faster than that of the doujinshi. If they accidentally did not recognize them and offended them... The school would be held accountable... ..

Therefore, when she first saw Li Goudan, even though she could smell that the medicinal bath was quite valuable, she didn't treat him too politely. The reason was that Li Goudan wasn't one of the characteristics of the clan's disciples that she had memorized... ..

But when this level was revealed, it really scared the policewoman...

Anyone who had some common sense would know what this growth ring represented. Regardless of the race, it was a little too much... ..

In her records, some races had low lifespans, but their leveling speed was very fast. There were five or six level beings in the age of 100, but there were eight level beings in the age of 100... .. This was a little too magical. Moreover, from the other party's characteristics, it was obvious that he was an elf... ..

A 70-year-old elf leveling up to level eight? was he a royal of the starry skies?

No...

Pi Cheng narrowed his eyes and looked at the other party's eyes that lowered their heads and rolled around. He narrowed his eyes slightly. This wasn't the starry skies eye unique to the starry skies elves, but... ? ... Huh?

What was this again?

Pi Cheng was stunned. She suddenly realized that the eyes of the High Elves in her memory did not match up to any of them. There were several high elves with emerald eyes. Fairies, jades, ancient forest spirits, Martes, and so on... ..

Although the colors were similar, the pupils were very different. However, she should have seen the pupils of the other party before. Hiss... Hiss... Where had he seen it before?

"Classmate... Can you tell me your surname?"The policewoman calmed herself down and asked in a low voice.

"Li..."Gou Dan carefully raised his head.

"Li?"The policewoman frowned slightly. A one-syllable family name was similar to some ancient families in the Eastern Star Field. However, she had been working as a roving policeman in the eastern star field all year round and had never heard of a big family with the surname Li!

As a professional guard, it was a basic quality to identify the nobles. After all, the best guards in the universe were all serving the nobles... ..

Could it be a dark horse that came from a humble family?

Impossible!

The policewoman shook her head. It was not that the humble family did not have outstanding children, but acquired hard work and innate advantage were two completely different things. To have such a level at such an age, it was definitely not something that could be obtained through hard work!

And it was not just the level, other aspects were also exceptionally exaggerated. High-quality wind demon, no... ! ... It was definitely a top-grade wind demon. After careful observation, the policewoman dared to confirm that this bone structure was at least of the royal family level! ! !

“Student, please fill in your basic information...”the policewoman’s expression became more and more gentle. She handed over a form and then secretly quickly notified some of the university’s contacts. ...

This kind of seedling should be worth quite a lot of money, right?

The job of a janitor for the campus party was a good part-time job for many policewomen in pi city. It was not just because the organizer was generous and gave them a high daily salary. The key was that there were other external sources of income.

For example, giving some universities priority to inform good seedling information. ...

Every time they came to the first level, they would hire at least a thousand policewomen to be in charge of guarding over a thousand teleportation channels. As for those who were at the first level, they had first-hand information. This information was something that many universities were willing to pay for!

Every time they came to work here, there would be a few university officials who would secretly trade with them. If there were good seedlings who had priority to secretly send information to the designated universities... ...

The price was also not cheap!

-----

It was already noon in the space on the first floor. Slowly, some figures began to appear in the hall that specialized in providing food and beverages. At this moment, an elf wearing the emblem of the Zephyr Academy slowly walked into the dining hall.

“Good afternoon, Lord Tia!”

The waiter at the main entrance of the dining hall hurriedly saluted respectfully.

TIA: –. Windwalker was the main mentor of the school of windwalk’s School of light. The school’s reputation was extremely great, causing some of the passersby outside the restaurant to cast sidelong glances over... ...

However, due to the teacher’s restaurant being separated from the student’s restaurant, some passersby could only watch from afar and discuss in hushed voices... ...

“Is that Professor Tia from Windwalk Academy? Wow, he looks so young...”

“What do you mean, she looks young?” “She’s young to begin with, Alright?” “But the top genius who took sixth place for the Zephyr Academy back then was recruited as a mentor before she even graduated. She reached the life sea level within a single era, and her lifespan has just passed two eras. She’s one of the youngest geniuses in the life sea level now...” “...”

“Sixth place? She’s so amazing that she only got sixth place?”

“You don’t understand, do you?” Another person smiled and said, “In the interstellar fellowship, the top five positions are basically impossible for outsiders to get. They are all created by the Five Great Royal Families!”

“The royal family...” that person suddenly realized... ..

“So, the sixth place is already the best position that the other races can get. As for the Royal Family? They are all monsters... They can’t be counted...”

“That’s true...”

The voices at the door were not loud and were deliberately lowered. However, this made the young teacher Tia frown slightly. These people’s discussions reminded her of some bad memories... ..

However, with her current status, she naturally would not bother with those juniors. After she punched her card, she slowly walked into the dining hall... ..

Although it was lunchtime, there weren’t many people in the teachers’ dining hall. Upon closer inspection, those who were eating were all people with the school badges of the top ten academies.

It wasn’t that the dining hall was only open to the teachers of the top ten academies, but that only the people of the top ten academies were in the mood to eat at this time... ..

However, it was normal. The top ten academies were already the pinnacle of the universe. There was no need to go and shout anything. As long as one had a normal IQ, they would definitely not miss it. They would definitely come and take a look at the exhibition hall that they were in. There was no need to wait patiently...

“Teacher Andia...” as soon as she walked into the dining hall, a gentle voice sounded. When she looked up, she saw a pair of eye-catching starry eyes... ..

It was Professor Elina, the Star Elf who was in charge of recruiting students this time!

She was also an old acquaintance who graduated from the same batch as her...

The corner of Tia’s mouth twitched slightly. In fact, she did not like this person, but since the other party took the initiative to wave at her, she naturally could not pretend that she did not see it and walked over with a plate in hand...

Chapter 1396: Campus Disturbance (2)

“Professor Tia’s eating habits are still so special...” the owner of that pair of beautiful starry eyes smiled as he looked at the plate in TIA’s hand.

Some of the new instructors around looked over and were also stunned. The various kinds of meat on TIA's plate were piled up like a mountain of meat... ..

This did not seem like an elegant Elf's recipe. Most elves, especially those who were agile, still liked to eat high-fiber vegetarian food. Even if they consumed some fat, it would still be high-quality fatty seafood. It was very rare to eat such high-energy red meat...

This was usually the food of strength-type lifeforms such as Titan or the bronze race... ..

In the face of some people's astonishment, TIA's expression did not change. She inserted a piece of meat into her mouth and chewed. "Those who are familiar with my eating habits know that you are also considered an acquaintance. There's no need to read it out loud, right, Professor Elena?"

The star Elf called Elena smiled faintly. "Although I've watched it for so long, I still can't get used to it..."

As if finding a reasonable excuse, the corners of Tia's mouth twitched slightly, but she did not continue to argue. It was very stupid to try to take advantage of a priestess in a verbal debate... ..

However, the other party did not want to let her go. She continued to smile and said, "Teacher Tia seems to be in a good mood. You must have gained a lot this morning, right?"

Tia rolled her eyes. How could this fellow see that she was in a good mood with only one eye? His Butthole?

Taking a deep breath, Tia bit down hard on her meat. "Thanks to Professor Elena, I'm not that good!"

"Professor Tia sure knows how to joke..." Elena's smile became brighter and brighter. ...

The corners of Tia's mouth twitched. In the end, she did not say anything. She lowered her head and continued to chew on her meat... ..

She was not joking. Her words seemed to be insulting the other party, but in fact, she was criticizing the results of this morning. To be honest, the students who came to visit this morning were really not that good!

It was much worse than the previous year. One had to know that the quality of the previous year's Gale Force Academy's enrollment had already been assessed by the Academy's internal evaluation team as the worst in this era. Yet, she was now very saddened to discover that.., this year might not even be as good as last year!

The worst thing was that the ranger major clans that were on good terms with Gale Force Academy happened to have a new generation of direct descendants who had yet to reach the age of enrollment as agreed upon. This caused Gale Force Academy to fall into a vacuum for the past 30 years... ..

This batch of students would be participating in the next social gathering. Thinking back to the previous social gathering, there were at least a few good seedlings, but they had only gotten that result, almost causing Gale Force Academy to fall out of the top 10. This time, the social gathering had sent these useless chickens and dogs over. She simply did not dare to watch the competition... ..

Why not... resign before the social gathering?

As she ate the meat, Tia thought...

"But the quality of the students this year is really not that good..." Elina also sighed and said, "This morning, not a single one of them caught my eye..."

Tia's eyes lit up slightly. This was good news... ..

Everyone had poor students, so it was just a matter of the quality of their education...

"But fortunately, the royal family has sent over a few good seedlings. This year, it seems that His Highness the fourth prince is about to enter the school..."

As soon as these words were said, the surrounding space suddenly froze, and the knife and fork in Tia's hand were immediately bent!

Crown Prince! !

Until now, the Starry Sky Academy had never fallen out of the top three. The Starry Sky Royal Family played a huge role in it. With the support of the entire starry sky royal family, no matter how bad the results of this academy were, it wouldn't be too bad. After all, the descendants of the royal family were... No matter how bad it was, it was not something that ordinary nobles could compare to...

And if it was the crown prince, there was no need to mention it. As long as the Crown Prince participated in the competition, the first place would never be in doubt!

Tia raised her head and looked at the starry eyes that she hated. "Is the crown prince of this generation the fourth Prince Tyrande?"

"Yes..." Elina said with a smile, "It seems that you have also paid attention to it. This is rare..."

"I didn't pay attention to it, I just heard it mentioned occasionally..." "A level-10 life form at the age of 20, the best talent in the history of the royal family of the space elves. You Space Elves are spreading it everywhere, it's hard for me not to hear about it." ... ..

"We are not that exaggerated..." Elena said with a smile.

"Hehe..." Tia rolled her eyes and sneered, continuing to eat her meat. However, despite the sneer, this news made her heart sink to the bottom! ! !

In the past, the five great royal families had always had a nasty custom of competing against each other. With the appearance of the royal family of the Space Elves, the other great royal families would definitely not be idle either. In that case, this time... ! ! It was yet another session of the Five Great Royal Families!

Tia recalled a period of extremely bad history in her mind. That was when she was at her most spirited. The entire Gale Academy had placed their hopes on her, there were even people who secretly commented that she was the genius who was most likely to snatch the spot from the Crown Prince.

But in reality, when she really went to face it, only then did she know why the royal family was so sought after by so many people!

That was the most powerless time in her life when she faced her peers. She did not see the slightest chance of winning!

That time, as a typical case, she once again proved that it was impossible for an ordinary person to win the royal bloodline, even if you were a genius among geniuses!

She wondered why so many families were hesitant to send their children to school this year. As far as she knew, the direct descendants of several families had reached the age of admission, yet they still delayed the reference time. The reason was that their foundations were not solid, so they spent another ten years to consolidate their foundations. "...". They would take the exam again in the next year.

It turned out that they wanted their children to avoid these big shots of the Royal Family!

However, this was also normal... ... when the Crown Prince entered the school, he would usually accompany many of the direct descendants of the royal family, resulting in the entire social gathering being a large-scale show off by a group of royal children. It would be very difficult for ordinary aristocratic children to get into the top 50. Any family that had a little self-awareness would ask their children to avoid this year... ...

Not everyone was as confident as he was back then, thinking that they would be able to go against the royal family head on... ...

Every time something like this happened, the higher education institutions that did not have the support of the royal family would admit defeat and hand over their points for this year. However, the key point was that the points of the Zephyr Academy this year could not be given away! !

Tia's heart was slightly anxious. The Zephyr Academy was ranked 10th this year, and the 11th ranked academy's points were not much lower than theirs. Yet... ... ! The Auland Academy that ranked 11th had the support of the Royal Family!

Why did it have to be this year? Was it on purpose?

Just as she was feeling depressed, a bright light flashed beside her, and an intelligent voice sounded. "Teacher Tia, teacher Cordero is trying to contact you remotely. Do you want to connect?"

TIA immediately pressed the answer button, but just as she did so, an excited male voice sounded from within. "Boss, come over here quickly. Someone is trying to snatch our student! !"

Tia immediately frowned. That fellow, Cordero, was so excited that he seemed to have forgotten to turn on his exclusive audio frequency. As a result, his coarse voice was heard by almost everyone in the restaurant... ...

A group of teachers from the other academies looked over in amusement.

Tia's face was filled with black lines as she said weakly, "Snatch students? What's there to snatch with just those goods from this morning? They want them to take them. Why are you so excited? Don't Disturb my meal..."

Just as she was about to hang up, the person on the other side hurriedly said, "It's not those from the morning. They're really good seedlings, top-notch good seedlings!"

“What good seedlings?”Tia rolled her eyes and said, “Is there a need to be so agitated?”

“70 years old, grade 8! ! King level bone phase wind demon, boss, if you don’t come now, there really won’t be any left!”

“F \* ck! !”Tia directly pushed the plate full of meat and disappeared on the spot with a bang. The commotion was too big, directly shaking the space on the spot until a black hole appeared... ..

The hall suddenly lit up with an alarm!

However, this black hole and the alarm that sounded from the restaurant did not attract the attention of the surrounding teachers. Their ears only rang with the words just now... ..

Level 70 growth ring... .. Level 8:.. ... King level bone phase... ..

The many teachers looked at each other. In the next second, they all left a black hole on the spot and disappeared without a trace... ..

Only the two instructors of the Space Elf were left standing on the spot... ..

“Professor Elina?”The instructor of the Space Elf next to her looked at her carefully. “Shall we go and take a look?”

“Yes!”Elina stood up, and her expression became serious for once... ..

A 70-year-old ring and a level-eight ring. This was already infinitely close to the standard of the crown prince. She remembered that the previous crown prince was Lord Onilu, who had just passed away not long ago. The previous result seemed to be the 50-year-old ring: level-eight!

And this year, the other reserve princes who were competing with the fourth Prince were the best at this standard. But one must know that the resources of the royal family members were not something that ordinary nobles could compare with. For a wind demon to have such a result., his aptitude might even be above the few princes!

For such a seedling, even if it was a wind demon, they would try their best not to let the Gale Academy recruit it! !

Chapter 1397: Campus Disturbance (3)

“Student, student, are you here to see the school?”

As soon as Goudan finished filling in the information and walked to the other side of the passage, a friendly round face appeared in front of her!

This was a species that had white fur and looked like an ape, but its face was abnormally innocent and amiable, making people feel a sense of kinship with just one look... ..

Goudan was stunned for a moment. He thought about the race manual his master had given him. There seemed to be an introduction about the washaya immortal ape race. It was one of the eight great royal families of Washaya and was a high-end species!

His Master had said that the federation was very sensitive about one's background. One would be able to see one's family background and the genes of one's race. A good race would be respected wherever they went. Goudan hurriedly followed the customs and saluted respectfully, "Hello, senior... may I know who you are, senior?"

"Oh... Haha, I'm Karur, the teacher of the knight-errant department of Catataya Academy..."

"Oh..." Gou Dan instantly revealed an expression of having heard of his name for a long time... ..

The other party smiled faintly, but after waiting for a long time, he was unable to hear the other party's next words. He immediately coughed lightly and said, "Student, do you understand Catataya Academy?"

"I don't really understand..." Gou Dan shook his head.

Kalur hurriedly said, "Our Kataya Academy is the Federation's Top Comprehensive Academy, and it is also the academy that the wastya race yearns for the most. It is currently ranked 16th in the interstellar federation, and its conditions are top-notch in all aspects. Moreover, it is located on the most beautiful blue pearl star in the Eastern Star Field. Its environment and resources are comparable to the top ten universities, and its teachers are powerful. A wind demon like you must want to become an outstanding elemental envoy, right? "There is an elder of the royal family in Wastya who is the teacher of the wind elemental. It just so happens that the teacher of the wind elemental is the great elder of the Bluebird Clan, elder Blue Feather. You should have heard of him, right?"

Doggie really wanted to say that he had never heard of him before, but the other party's smug tone indicated that he was an extraordinary person. After thinking for a while, he finally nodded his head against his heart. "I've heard of him, I've heard of him!"

Kalloor stroked the white fur on his face in satisfaction. Any student who wanted to cultivate wind elementalists would know of blue feather. He was one of the three great wind elementalists of the Eastern Star Field. This was the golden name of their academy!

"Little Guy, don't listen to him!"

Just as Kalloor was about to put in more effort to bring the other party directly into the exhibition hall of his school to further brainwash him, an ice-cold voice suddenly sounded.

Kalur did not even turn his head as he scrunched up his kind and kind face. Meanwhile, Doggie looked up curiously. No one knew when.., a tall elf wearing a gray veil was already standing less than three meters away from the two of them!

"Little Guy, don't blame me for not reminding you. Although Blue Feather is a famous elemental master, she doesn't have a good reputation among the professors and tutors. Cronyism is her label. She would rather give resources to the useless juniors of her bluebird clan than give any to other talented students. Many of her students regret following her!"

"Don't spout nonsense! !" Kalloor glared at him.

"I'm spouting nonsense?" The ELF sneered. "It's not difficult to find out, do you need me to spout nonsense? I just saw how silly this little guy was, so I just reminded him..."

As he spoke, he looked at eggface and said, "Little Guy, didn't your elders come with you? Didn't they warn you to choose a school that is close to the Elf Bloodline?"

"Um..." eggface nodded. "They said that..."

"That's right...". The elf's tone suddenly became friendly. "No matter how good the other schools are, they are still not as good as our own. The Elf Academy has always been partial to the elves. Although our Eternal Forest Academy's ranking is lower than theirs, it is still one of the top 20 schools. The most important thing is that our academy mainly focuses on the elves, especially the elves who are partial to species. A wind demon like you is the most suitable for our school!"

"Pooh!" Lucar retorted directly, "Your Academy is obviously a druid-based academy, what does it have to do with the Wind Demon?"

The Elf did not even raise his head and said calmly, "The Druid transformation department is an ace specialty, but the elemental envoy is also a + + strong department in our academy. The professors are all famous elemental masters in the industry. Although the dean of the department, Jana, is not as famous as blue feather, she is still a veteran master, a top elemental envoy in the Southern Star Field. Moreover, she is a wind demon herself, so she will naturally value this child more!"

"That makes sense..." eggface nodded... ..

Hearing the other party's affirmation, a smile immediately appeared on the Elf's face. "Child, why don't you go to our hall to understand first? I'll explain to you the history of the Academy and the environment of our elemental department's teachers... Let me tell you..."

Just as she was about to abduct eggface away, Kalur, whose nose was almost crooked from anger, hurriedly said, "Child, since you came with an elder, didn't she recommend the Academy to You?"

As soon as she said this, the elf's body stiffened, and her face darkened. She had deliberately avoided this topic earlier. After all, such a child with terrifying aptitude was definitely from an aristocratic family. In most cases, the academy had already been decided internally, if she wanted to snatch it away, she had to force the other party to sign the voluntary form without being involved in the world!

"Oh..." Goudan immediately reacted and scratched her head in embarrassment. "Oh right, master told me to choose the Gale Academy!"

Gale Academy?

Both of their expressions froze, and Kalloor immediately smiled brightly. "It's a good school..."

Since he had no chance of winning anyway, seeing that the other party couldn't get his hands on it made him feel a lot better... .. Who told you to be so talkative, as if who wouldn't know how to poke the wheel... ..

"Although Gale Academy's ranking is high, it's a Ranger Major. The elemental major isn't that outstanding!" The Elf suppressed his nervous mood and slowly said, "What do your elders think?"

Eggface smiled embarrassedly. "I forgot to say... What I want to apply for is originally a ranger major..."

"Heh..."

Before the Elf could react, Karur sneered and said mockingly, “Ah, so he’s a Ranger Major. Teacher Kidr, don’t Tell Me Your Academy’s Ranger Major is also a fist major?”

Elf:” ...”

She really couldn’t say it out loud. Their Academy’s Ranger Major wasn’t even ranked as an a-rank. If she were to forcefully fool the other party, she would definitely be exposed. She was instantly furious. What kind of ranger was a fine wind demon?

Just as she was about to persuade him, a mellow voice suddenly sounded from among the three of them...

“Oh? Little Guy, do you want to learn Ranger?” A pair of wide palms appeared on Doggie’s shoulder without any warning. Doggie immediately became vigilant, but a gentle energy instantly calmed her nervous mood... ..

The other two teachers were shocked. As the famous school’s signature teachers, they were both star-ranked. This uninvited guest had walked so close to them and yet they didn’t feel anything. This could only mean that the person who had come was far above them!

Raising their heads, they immediately recognized the other party’s school emblem...

Atlan Academy!

The federation’s High School was ranked 11th, also known as: Atlan Elven Royal Academy!

It was over!

The two of them looked at each other and saw the bitter smile in each other’s eyes. However, they also felt resentful in their hearts. This policewoman was really too unscrupulous. How could she take money from others?

Also, this Otalan Academy, as the Royal Academy, actually did something like bribing policewomen. wasn’t it too shameful?

Dogball followed the warmth and raised his head to look over. Then, he saw a beautiful face with blonde hair and ruby-like pupils!

It was an elf... What a beautiful Elf!

“What a bone shape! !”

The newcomer’s face became even more excited after he carefully searched Goudan’s body and shoulders with both hands. The news from the policewoman said that it was a 70-year-old level-8 wind demon, he was still worried that it had been forcefully grown using some kind of catalytic drug, but his worries were completely dispelled after he touched it.

This bone structure was definitely a top-grade wind demon. It was rare even among the royal family of Ultraland, but based on the bone structure, it was probably on the same level as Crown Prince Lansbury... ..

How could such a seedling be taken away by the Zephyr Academy?

## Chapter 1398: Campus Storm (4) !

“Child, Your Ranger Foundation is quite good. It seems that your family’s legacy is very good, but what do your elders think? Choose an academy that is in decline?”

“Eh? In decline?” Eggface was instantly stunned... ..

The Blonde Elf looked at Eggface with a gentle and charming smile and said, “Child, the Gale Academy is no longer the same as before. Didn’t your elders tell you this information?”

Eggface shook his head in a daze, but before he could say anything, a gentle and beautiful voice suddenly sounded from afar, “Teacher Deja, it’s not good for you to speak ill of others behind their backs, right?”

Everyone looked over and saw a titan who was wearing a tank top and had sexy muscles all over his body looking over with dissatisfaction!

Titan was one of the teachers of Xandar Academy. He had also received the news from the policewoman and rushed over. However, when he came over and saw the few people in front of him, he immediately felt a chill in his heart. Especially when he saw the people from Atlan Academy, he felt that there was no hope left.

As an academy that had almost been squeezed out of the top 100, it was basically impossible for him to compete with a royal academy that was about to squeeze into the top 10... ..

No matter how one looked at it, it must be known that the other party was an elven academy. Even though Xandar Academy, which specialized in Rangers, was not bad, it definitely could not be compared to the ranking of Atlan Academy. Thus, he did not dare to bring out his teachers... ..

However, even if there was no hope, after hearing the other party speak ill of others behind their backs, they could not help but interject. After all, Xandar Academy was on good terms with Gale Academy. Naturally, they could not pretend that they did not see this kind of student who was clearly designated to be snatched away by the other party.

“What? Your Xandar Academy is also interested in children?” The Blonde Elf asked with a trace of a mocking smile.

Titan’s face turned red as he suppressed his anger and said, “Of course I don’t dare to snatch people from your academy. However, they already have an academy designated by the elders. Isn’t it inappropriate for teacher Dijia to intercept them like this?”

That Elf named Dijia smiled indifferently, he said softly and gently to eggface, “The words of the elders might not necessarily be right. Child, the choice of a high school is related to the future. A correct choice will allow you to avoid many detours. Especially for a child with your aptitude, you must choose carefully!”

When everyone heard this, the corners of their mouths curled up. These words sounded as if they had chosen a detour by choosing Gale Academy. Although Gale Academy’s recent momentum wasn’t good, at the very least, their current ranking was still above yours, right?

“I’m only suggesting that you consider it a little more...”. “How about this? I’ll bring you to our academy’s exhibition hall to take a look. You can have a good understanding of it. After that, you can go to Gale Academy to take a look and make a comparison. You can make your own judgment before making a decision. What do you think?”

“This...” Goudan suddenly hesitated. She was a fresh-faced person and had originally planned to stroll around more. Moreover, the other party’s request was very kind. If she were to reject it, it would more or less be disrespectful. With just a glance, it was obvious that she was a big shot... ..

Meanwhile, the faces of the three instructors beside him twitched as they thought to themselves, ‘after entering your exhibition hall, if I’m not fooled by you, I’ll just sign my name and Rip My Head Off!’

Meanwhile, Titan from Xandar Academy hurriedly sent a message to the people from Gale Academy... ..

Just as Gou Dan was about to agree, a familiar voice came from behind, “Gou Dan, what are you doing here?”

“Eh, Pu Yunchuan, why have you only just arrived?” Gou Dan turned his head and said in pleasant surprise.

With the presence of an acquaintance, the fear in his heart instantly decreased by more than half!

The few teachers looked in the direction of the voice and were instantly stunned... ..

That Was...

The person who came was none other than Pu Yunchuan. Pu Yunchuan laughed and scratched his head. “That policewoman pulled me to touch her for a long time. I felt embarrassed... I was delayed for some time. Gou Dan, who are these people?”

Hiss! !

When Pu Yunchuan looked at them, the group of teachers finally reacted and immediately sucked in a breath of cold air.

This Qi and blood, this muscle growth, even if they hadn’t touched the bones, everyone could see that this was definitely a top grade Titan!

Moreover, the growth ring in his eyes was only 70 years old, yet his level was even higher, A Level 9 Titan! !

What was going on?

“Classmate... classmate... are you here to visit the school?” The first to react was the teacher from Xandar Academy. His voice was trembling as he spoke!

If he was facing Li Goudan just now, he could barely restrain himself. Now that he saw such a top-notch Titan, how could he hold it in? This child, he had to fight for it!

He didn’t even know, since when did such an existence exist among the juniors of the Titan lineage? My God, which family raised it?

No matter, no matter which family it was, he had to fight for it! !

But before he could open his mouth.., he heard Goudan say, "Oh right, Pu Yunchuan, over there!" Goudan pointed at the teachers of Xandar Academy and said, "That's the teacher of Xandar Academy. That should be the one boss mentioned. That teacher should be here to pick you up..." . ... ..

"Oh? Is That So?" Pu Yunchuan immediately looked at the other party and said respectfully, "You are... a teacher of Xandar Academy?"

The entire space suddenly froze, and the few instructors, including the ELF director from the Ultra Academy, stared at the other party in a daze.

Teacher Xandar immediately reacted and hurriedly nodded, "Yes Yes yes, I am a teacher from Xandar Academy! !"

"Oh..." Pu Yunchuan immediately grinned and said, "Teacher, please wait for a moment..." as he said that, he waved to the people behind him, "Leng Xing, old liver, hurry up, the teacher is waiting here!"

And so... "...". The few teachers widened their eyes and saw two huge Titans running out of the tunnel, and their quality was not inferior to the little guy in front of them at all!

"This..."

This time, even the haughty elf from alteran could not remain calm... ..

What was going on?

Level eight, level seven, seventy, sixty years old! !

This... which Titan family nurtured this?

The mentor of Xandar Academy could not help but slap himself, afraid that he would wake up from his pee and realize that this was a dream...

Oh My God, what was going on?

Suddenly, he remembered something. Before he came, the principal seemed to have told him that a partner would send a batch of talented Titan juniors over, asking him to guard the entrance in advance, so as not to be intercepted... ..

The 'Talented Titan Juniors' that the principal mentioned couldn't be referring to these few right?

No Way, no way?

Perhaps... That's right?

Damn! This was called 'not bad'?

When did the principal become so low-key?

"Hello, teacher!" After Leng Xing and Emperor Liver walked in, they hurriedly went forward to greet Pu Yunchuan!

Only then did the teacher come back to his senses and quickly said, "Good, good, good child, good child. Go, go, go, let's go to the Academy Hall to Talk!"

How could he dare to stop at this moment? If this group of treasures were to be seen by the people from other academies, it would be a big trouble. He had to quickly bring them back and hide them well!

"Wait a moment! !!"

Including the three instructors from the Atlan Academy, they reacted almost instantly and instantly blocked in front of them!

"What are you doing?" The instructor from the Xandar Academy immediately protected Pu Yunchuan and the other two behind him like a child. "These are our designated students. Even Your Atlan Academy has to follow some rules, right?"

"I haven't heard of any rules..." instructor Dijia didn't buy it and replied, "Furthermore... are you sure it was designated by Your Academy? You clearly didn't know about it just now!"

Xandar Academy's Instructor: "..."

Dijia looked at Pu Yunchuan and the others. "Child, think about it carefully. Did the elders really tell you that it was Xandar Academy?"

"Uh..." Pu Yunchuan and the others were stunned. They looked at each other and became uncertain. "It seems like it..."

"What do you mean it seems like it?" Di Jia immediately said with a straight face, "We can't be careless. This is related to our future. How can you children be so casual?" "Don't you know that Xandar Academy is ranked 98th among the top 100 academies?"

"Ah?" Pu Yunchuan and the others were stunned once again. They immediately looked towards the teachers of Xandar Academy. Although they did not say anything, their eyes were clearly expressing, "Is it that LOW?"

The heart of the teachers of Xandar Academy immediately sank. Just as they were about to refute, the ground suddenly shook and the surrounding space became chaotic. A few seconds later, dozens of figures appeared!

"Where is it? Where is the young Titan?"

"That policewoman is fooling my father to teach her a lesson. Don't think that no one dares to touch the policewoman from Pi City!"

"Eh, is it there? Damn it! !!"

A few burly men surrounded them like a whirlwind, instantly surrounding teacher Xandar and the others who were about to sneak away!

"Hiss... . . Am I seeing things? This is... . . The Green Titan, right?"

"F \* ck, this muscle growth, this qi and blood..."

“Good Heavens, which family is this from?” A burly man did not hesitate and immediately started to touch Pu Yunchuan’s body. He excitedly groped Pu Yunchuan from head to toe. The remaining few did not stand on ceremony and started to touch Pu Yunchuan one by one, he touched Pu Yunchuan all over!

The pitiful Pu Yunchuan was stunned by this sudden situation. He was like a bunch of chicks touching him. He did not dare to resist and could only curl up into a ball and shiver... ..

Wasn’t this a tour of the Academy? Why was it so perverted?

Hey, where are you groping?

“What a bone structure! !”

Several of the warrior faculty instructors couldn’t help but exclaim in admiration!

This is bad! ! !

The heart of the teacher from Xandar Academy sank. Without any hesitation, he hurriedly sent a message to the principal and the others!

Chapter 1399: Fifth Lord Llewita

At the teleportation portal of the central star area, a huge beam of light descended from the sky. The scale of the light was huge, causing a large area of space to be affected, forming a chaotic energy storm. On the other side.., the machines that were in charge of strengthening the space array were burning red under the high-power output!

The few people in charge of maintaining the space station stood there with their mouths agape, discussing nervously in low voices. The space station had been sealed off from the outside world since the morning, and they knew that a big shot would definitely come.., they had worked here for thousands of years, but they had encountered quite a few of such things.

The energy consumption of a big shot’s teleportation was even greater, resulting in the travel costs being even more expensive. However, this was the first time they had seen such a level of energy consumption.

Standing at the very front, a level 11 Thunder Bear clan member stood there with his chest out and his head raised. From the looks of it, he seemed to know the identity of the person who had come... ..

The exaggerated formation did not last for long. Soon, the huge light dissipated, and two figures slowly walked out of the red-hot space station...

“Sir, there’s no need for you to make a special trip...” in the chaotic energy zone, a gentle and beautiful voice was slowly heard. However, it was clearly not directed at these maintenance personnel... ..

“It’s fine. It’s been a long time since I’ve been out and about. It’s good that you’re out and about. It’s also a good opportunity for you to meet the outstanding juniors of the Campus Fair...”

The few maintenance staff outside were stunned. The voice from before was already too beautiful and pleasant to listen to. However, after that, the voice became even more exaggerated. It was like a spring water that flowed into one's soul. It gave one a comfortable feeling of being bathed... ..

The maintenance personnel were all spirit-type lifeforms that studied mechanics and spatial kinetic energy. They worked in this radiation zone all year round and would often go for spirit maintenance, so they were very familiar with this feeling. This was clearly... .. It was the secret technique: the feeling of tranquility!

A person could have the feeling of tranquility and healing just from his voice. Just who was this person? Was it the elven empress?

With curious gazes, the few of them raised their heads and looked over. They saw three figures slowly walking out of the teleportation station. The one in the lead was dressed in white feathered clothes. He was extremely elegant, and his incomparably beautiful figure made people unable to move their glasses. However, this beauty came to an abrupt halt when it reached his face. This was because the thing that people were looking forward to the most was firmly covered by a silver mask... ..

"Lord Iluweta!" The station master hurriedly walked over and performed the etiquette of a Bearman meeting a VIP. He thumped his chest and said, "Welcome to Midhill!"

Iluweta?

The eyes of a few maintenance employees almost popped out when they heard this name!

Did they hear wrongly?

Iluweta... was it that Iluweta?

The fifth Lord of the Federation, The Guardian of the royal family of the starry elves, the number one expert of the Elves, ILUWETA, who had existed since the era of the great elves!

"Thank you for your hard work..." his voice was still as gentle as ever, it had a soothing and tranquil feeling to it, as if it was a spring breeze. His tone was obviously not a polite smile, which made station chief Xiong feel flattered. He hurriedly bowed again and said, "You... you're too kind..."

The intoxicating atmosphere did not dissipate for a long time after the three people left. A few employees greedily inhaled the smell of the Lord in the space. Although the feeling of tranquility had subsided, it had not completely disappeared. It made people reluctant to leave... ..

"What are you doing?" Station Chief Xiong glared at the employees. "Why aren't you going to check if the space station has been burned down? You're still sniffing, what are you sniffing for?"

All the maintenance personnel pursed their lips. This darn bear obviously wanted to enjoy the energy left behind by that Lord alone... It sounded so grand. ...

However, to be honest, the conversation of the top-tier Elves was quiet. They had always thought that this was just a legend, but they didn't expect to really witness it this time...

-----

“Lord, is there a need to waste energy to help them?” A young voice complained with dissatisfaction. “They’re just a bunch of mechanics...”

The one who spoke was one of the two followers behind iluvita. Unlike the other person who was obviously dressed as a priest, the other person was short and obviously dressed as a forest ranger. However, he didn’t look old at all. He looked like a child who hadn’t grown up yet...

“It’s not easy for these people...” iluvita smiled and said, “For a relatively high salary, they risked their bodies to work in such a high radiation environment...”

“Didn’t they choose it themselves?” The Little Ranger curled his lips in dissatisfaction.

“It’s precisely because they chose it themselves that they deserve respect...”. “...” iluweta smiled and said, “These children are still young, and they are willing to use their bodies to earn this salary. It’s obvious that they are doing it to enter graduate school and further their studies. It’s not scary to come from a low background. There is no such thing as fairness in the universe. However, those who have a heart to advance and are willing to risk their lives to advance are all people worthy of respect. It’s fate to meet them, so it’s not a big deal to help them along the way.” “...”. “...”

“It’s not convenient...” the little ranger pursed her lips.

She knew that what the Lord had just released was not ordinary tranquility, but the blessing of the priest!

Those who enjoyed the blessing would have their old injuries and hidden injuries completely healed by today. The toxins accumulated in their bodies over a long period of time would also be eliminated. Their internal organs and bones would receive new vitality, their potential might even be raised to a whole new level!

Many disciples of their own families dreamed of receiving such a blessing from the Lord, yet they gave it so easily to a few poor disciples that they did not know...

It was as if they could sense what the Little Ranger was thinking.., iLUWETA said patiently, “Those people in the family have never lacked resources since they were young, and most of their bloodlines are not bad either. As long as they have the heart to move up, they do not need my blessing at all. With enough resources, they can reach a height that many people can not reach...” “...”. “...”

“I can’t beat you, Sir...” the Ranger curled his lips.

The priest who was following them finally spoke up, “You’re getting more and more rude, Trastana!”

“None of your business!” The Little Guy glared at the other party with hatred... “...”.

“You! !”

“Alright...” iluvita stopped the two of them helplessly. If they continued arguing, they would all go back!

The two of them instantly fell silent.

After a long while, a priest broke the silence. “Sir...”

“HMM?”

“Is there a need to hide it from the royal family when we are attending the Campus Party?”

Iluweta: “We are afraid that they will think too much of it. If they come to attend the campus party after meeting the crown prince, it will be very easy to be mistaken as being dissatisfied with the new crown prince...”

The priest was silent when he heard that...

Was he really thinking too much. He had served Iluweta for the longest time, so he could be said to know the temperament of this lord the best... ..

After hesitating for a while, he finally couldn't help but say, “The fourth Prince's aptitude is already the best in the past generation. Are you still not satisfied?”

When he said this, Iluweta immediately stopped in his tracks... ..

Chapter 1400: The Great Calamity is coming...

Are you not satisfied... ?

A hint of disappointment appeared on Iluweta's usually gentle face. Due to the change in his expression, the surrounding environment actually gave off a rustling autumn wind, making people feel a chill... ..

“Sir?”The priestess'expression changed, and she hurriedly said nervously.

As the priestess of Sir, he was very clear about Sir's physical condition. Amongst the ten great lords, if one were to talk about the most vulnerable, it would probably be Sir Iluweta... ..

If it wasn't for his body's condition, with his sir's ability, he definitely wouldn't be ranked fifth!

“It's fine...”ILUWETA stretched out her hand to stop the other party from supporting him. Her voice was gentle as she said, “I just thought of some things and my mood changed a little...”

The priestess glared at the short ranger. This time, the short ranger didn't turn back and lowered his head.

“That little girl tyrande is indeed talented. Under the suppression of the universe's will, it can be considered the limit...”Iluweta said indifferently.

“That's right!”The priestess immediately smiled. Tyrande was a distant relative of her windwhisper family. Her mother was the princess of the previous generation of the Windwhisper family, which was also her younger sister. For her child to have such a promising future.., she was naturally gratified.

The short one, on the other hand, curled his lips disapprovingly once again. She did not have a good impression of Tyrande. As for the reason... Hehe, she would not bring it out to trouble the adults. ...

“What a pity...”

Just as the two of them were feeling different emotions, two words of negation gently came out of Iluweta's mouth... ..

These two words instantly let two people mood change reversal, the priest's facial expression is stiff, the small head is the eye is bright.

"Pity what?" said the two almost at the same time.

Llewita looked at the two with a funny look, but then did not continue to say, but looked at the stars, with an inexplicable look with a faint worry... . .

Unfortunately... The Apocalypse is upon us...

-----

"What's going on?"

By the time TIA reached the entrance of the passage, there was already a large crowd. Tia looked over and saw many familiar faces. They were all famous instructors in the Star Alliance!

For example, the first element of timeless forest college professor Helan, Mitaz College Teacher Goering, Spark College first Arcanist Vice President Franklin!

They were all famous professors in the alliance, and were the golden signboards of all the universities. Why did these people come to the gate?

Was there such a fierce competition for students this year? A level-eight elf at the age of 70 was indeed a very exaggerated number, but it also depended on the situation. The quality of students was not only based on their grades, bone images, elemental affinity, meridian growth, bloodline purity, and so on were all the reference standards.

If the data was produced by drugs, it was actually not very valuable. Moreover, even if it was good in all aspects, it was still an elf. Why did some warrior academies and Arcana Academies come to join in the fun?

With curiosity, TIA used wind steps and carefully went in.

The reason why she used wind steps was that ordinary methods could no longer squeeze into the circle. It was unknown whether the instructors of the Warrior Academy in the circle had done it on purpose or not, but their powerful qi and blood formed a wall of air that isolated the outer circle, ordinary dragon-level instructors could not even get close to her!

She was a fate sea-level wind ranger, the current leader of the Wind Academy's Bright Day School. With the activation of wind steps, she had almost instantly bypassed a large group of warrior instructors with strong Qi and blood and appeared in the front row... ..

"Instructor TIA is here?"

The moment Tia came closer, she was immediately noticed by others and greeted them one after another. Tia also smiled politely. Just as she was about to return the greeting, her eyes suddenly glanced over, and her entire body instantly froze... ..

These... What the hell are they?

The ones who were surrounded by a group of instructors were a bunch of little fellows of different races. Although their races were different, their talent was enough to make one's eyeballs pop out!

There were about seven or eight of them, but each of them did not exceed 80 growth rings. The lowest level was also level seven, and the highest one... ..

Level ten! !

Tia looked at the little fellow whose spiritual power was obviously somewhat exaggerated. The other party seemed to have noticed her as well and followed her gaze.

Her pair of pitch-black pupils were incomparably deep. Just by looking at Tia, she could not help but suck in a breath of cold air!

What pure spiritual power! ! !

As the ACE Teacher of a top academy, teaching for nearly an era, TIA had seen many geniuses. Back then, she was also one of the participants in the competition for the five great princes. She had personally seen some monster-like geniuses... But even so...

She had never seen such an exaggerated one! !

If she wasn't mistaken... . . This little fellow should be a developer, right?

There were no developer families in the universe. Developers usually only appeared among the lucky aborigines of some factions. This was because they were unable to pass on their genes, and also because the gene acceptance rate was extremely low.

However, it was precisely this kind of person who was the most popular. This was because they didn't need to be related to a family. After the academy had nurtured them, they could directly be hired as campus instructors. This was because the positions of instructors and factions didn't conflict!

In an instant, she knew that this little fellow had to be snatched over!

"Boss... here, Here!"

A familiar voice sounded. Tia's ears twitched as she followed the voice and looked over. Coincidentally, she saw a familiar figure waving at her from another corner... ..

It was wind element Academy's new intern mentor, wadil.

"What's the situation?" TIA used wind steps to flash over. This was because she could see that this intern mentor of hers was clearly arguing with a more familiar figure... ..

"Yo, mentor Tia is here?"

A familiar yet hateful voice...

Tia did not even raise her eyelids to know who it was. With such a hateful tone, who else could it be other than the Academy's mentor Deja?

"It's been a long time..." the other party smiled as he looked at Tia. ...

"It's been a long time..."Tia lifted her eyes slightly, but she didn't look at the other party. Instead, she saw a little elf behind the other party who was deliberately hiding behind him... ..

Wind Demon?

There was actually someone among this group of top grade talents who was so compatible with the Gale Academy?

"Boss, that little fellow is senior Wayne's disciple. He specially instructed him to come over to our academy. Teacher Deja is preparing to rob us!"The intern teacher said angrily.

"Wayne?"Tia's eyes immediately lit up!

Wayne was one of the most outstanding students that she had taught. She had entered the academy at level five, and after that, she had personally taught him step by step from the level ten postgraduate entrance examination to the Advanced Ranger Master. It was a very close teacher-student relationship. Her disciple.., weren't they her own grand-disciples?

Hehe... There was a legitimate reason! ! !

"Little guy..."Tia revealed an extremely friendly smile and waved at Li Goudan who was being protected by Tia. "Come here!"

Goudan was stunned for a moment. Then, he carefully looked at dijjia and then at TIA. He immediately felt a little awkward.
