

## **A Bunch 1401**

Chapter 1401: all of them are from my Gale Academy!

“Little Fellow, come over here...”

Faced with the other party’s gentle call, Dogball was momentarily put in a difficult position.

She didn’t know why things had come to this point. Had she done something wrong? Why did she feel that something wasn’t right? Why did she have to make a move on such a large group of people. Especially PU Yunchuan, who was almost touched by those burly men...

He was fine. He was protected by this blonde elf sister and did not suffer the treatment of being touched like animals. By the way..? Was this the legendary Campus Party? Why was it completely different from what he had imagined?

Ever since Pu Yunchuan and the others were stopped by a group of burly men the size of a mountain of meat, the place had become impenetrable. Luckily, he had someone to protect him! If not, she would have been groped by those burly men for three days without anyone noticing!

This caused her to not dare to go over when DIA called her over.

However, the other party said that she was from the Gale Academy, and the teacher seemed to have asked her to look for the Gale Academy...

For a moment, Goudan was a little apprehensive. Would she be treated like Pu Yunchuan in the past?

Just as she was hesitating, the atmosphere around her suddenly changed. Without realizing it, Goudan felt as if she had changed directions. She raised her head in shock and was momentarily stunned!

She had unknowingly appeared in front of this valiant and valiant elf... ..

How... How did she get here?

Goudan had a dumbfounded look on her face, while the blonde elf teacher Dija, who had been protecting Goudan previously, had an extremely gloomy expression on her face!

Not to mention doggie, even she had not noticed when the other party had taken the little fellow away from her back! ! !

“What a bone form!” However, TIA did not pay attention to Dija’s ugly expression. Instead, she carefully groped doggie up and down, her face filled with excitement!

That fellow Vaughn had brought her a great surprise!

Needless to say, this little girl’s bloodline was definitely pure elven. The Wind Demon’s bloodline was extremely pure, with an extremely high affinity for the wind element, the green frost feather that only top-tier wind demons possessed, as well as this bone structure that had no flaws at all!

She would even believe that this was a direct descendant of the Royal Family!

Furthermore, the Pure Wood Elf bloodline in her eyes was definitely not at all discounted. Although she had yet to carry out the bloodline verification, she could confirm with her senses that this was definitely a wood elf of the royal family level!

This little fellow had been well groomed. Who knows, he might even be able to wrestle with those crown princes. At the crucial moment when Gale Academy was about to be carved into the top ten, he was really just in time!

On the other hand, Goudan had an aggrieved expression on his face. As expected, he had been groped like a piglet. Just what was going on with these fellows? ! They were already touching each other right from the start, and once they were done groping, they already had a good bone structure. What the Heck was so good about them! !

Of course, he didn't dare to say that. He had a hunch that this guy in front of him seemed to be even more powerful than his master... ..

"Have you reached the Heaven's origin realm?"

Dija narrowed her eyes and looked at Vaughn.

"It has nothing to do with you!" Dija said without raising her head.

The people around were stunned and looked at dija...

There weren't many people who didn't know about dija's reputation. She was one of the top geniuses in the East Star Field recently. Back then, she was almost only second to the crown prince. Many people thought that she might be able to compete with the five crown princes at that time. Although she didn't succeed in the challenge later on, after graduating, she advanced bravely. Her growth speed was almost on par with those crown princes of the various royal families. She was a famous monster... ..

She broke through to fate-level in half an era, setting a record for the fastest person to reach fate-level below the royal family! After that, she was recruited as a Ranger instructor in the Gale Academy. In just a few million years, she was awarded the title of professor. In just half an era, she had already become the representative of the Gale Academy's Bright Day School.

And now... ∴ He hadn't even passed two eras, yet he had already reached the Tianyuan level?

All of the experts present could naturally feel the other party's movements just now. Almost none of them could see it clearly, even though the school of light was famous for its speed. But no matter how fast it was, to the extent that instructor dija, who was also at the life sea level, couldn't even react, other than the Tianyuan level, there was no other explanation... ..

This was really...

Everyone looked at the other party. With this fellow in the Zephyr Academy, even if it had declined recently, the future was definitely within reach!

"Little fellow..." Tia looked at Goudan gently. "Is Vienne your master?"

"Un..." Goudan nodded his head carefully.

“Vienne is my personal disciple. In that case, you have to call me grandmaster...”

“Huh?” Goudan was stunned and looked at the other party blankly... .. Grandmaster? So Young?

“Is there a problem?” The other party frowned.

“Grandmaster! !” Goudan immediately called out sensibly.

TIA’s expression immediately softened and she stroked Goudan’s head. “Good child, are these your friends?”

“Yes...” Goudan nodded carefully.

“Alright, Alright, Alright...” Tia’s smile became even more gentle. This was the excuse she wanted!

“Since they are your friends, let’s go to my place together. Grandmaster will bring you around...”

The moment these words were said, everyone’s expression changed as they asked one after another, “Teacher Tia, what do you mean by this?”

“Nothing much...” Tia said indifferently, “My grand-disciple and her friends are here. What’s wrong with me acting as their grandmaster and bringing them around?”

This time, everyone understood. This guy wanted to take all of them for himself. What a black heart! ! ! !

“Teacher Tia!” A few of the more experienced teachers hurriedly took a step forward. “It’s not appropriate for you to do this, right?”

“What’s not appropriate?” Tia sneered. “Do I need your permission to show my grand-disciple and her friend around?”

As soon as she said that, everyone felt their vision blur. The monster geniuses that had been scattered all over the place had instantly gathered into a pile and appeared behind Tia!

Everyone’s faces instantly sank!

The Bright Day School was the Best Ranger School in the entire Gale Academy. No... .. It should be said that they were the top existences in the entire federation. Furthermore, TIA had broken through to the life sea and Heavenly Yuan realm. If they were to forcefully take away these little fellows, no one would be able to stop them!

Moreover, although the opponent’s reason was a bit far-fetched, it was still barely able to hold up. Even if the authorities pursued her later, the opponent would still be able to use this reason to forcefully drag her away. At most, she would only receive a warning from the organizers.

But... .. ! A warning was nothing compared to so many top-notch talents!

She must not let her take them away!

All the teachers immediately released their auras, and vice-principal Franklin, who was also a Tianyuan level arcanist, immediately activated his space enchantment!

Tia sneered at the scene. Senior Franklin was a veteran arcanist, and in terms of seniority, he was much more senior than her. The other party had been in Tianyuan for a longer time than her, and his foundation was even stronger. Unfortunately..! He was old! ! !

Moreover, the opponent was an arcanist. Even if he was a space element sorcerer, it would be a joke if he wanted to stop a heaven's origin level ranger who was trying to run away!

She had already made up her mind. She would bring the people to the exhibition hall of the Zephyr Academy, register them, and then teleport them out of this place through the teacher channel!

Although Vivian seemed to have only introduced one of them, since she had seen them, they were all from the Zephyr Academy!

Chapter 1402: never let her take them away!

This fellow really wanted to take them away by force! !

The group of instructors were instantly fuming with anger. were all the youngsters nowadays so Shameless?

"Instructor Tia, please slow down. Those Titan students are appointed by our Xandar Academy!"

The Instructor of Xandar Academy hurriedly looked towards the intern instructor of Gale Academy. After all, he was the one who had informed Gale Academy previously, which was why they were able to catch up to this wave... ...

The intern instructor was stunned for a moment before he carefully looked towards Tia, he transmitted his voice, "Boss, it's true. Those few Titans were specifically appointed to go to Xandar Academy. Moreover, it was only after Xandar Academy informed me that I was able to make it in time. Why don't we..."

"Shut up!"Tia immediately shouted out in secret!

What a joke, what was the point of this? How could such a matter be allowed? It was indeed a favor to pass on the news. Xandar Academy and Gale Academy had been better for generations, but because of this, they had to let the other party go. No Way!

Although Gale Academy was leaning towards the Agility Department, the Warrior Department on campus was also a fist major. These few Titan Students' qualifications were almost no less than Vaughn's disciples, any one of them could be groomed to be an existence that could give Gale Academy high marks in the interstellar fellowship!

Now that the Zephyr Academy was about to drop out of the top 10, there was no need to worry about such outstanding talents. Naturally, they had to take them down if they could get them. As for the relationship points, they could compensate for it in the future, but they could not give up on the students!

Without further ado, Tia placed Goudan and the others into the spatial ring. After packing them up, she activated wind steps and ran!

All of a sudden all the teachers anxious eyeballs are about to stare out but for a time there is no way!

-----

At this time, the Star Academy instructors who had rushed over with Tia had just arrived at the scene. They were stunned when they saw Tia directly snatch the person and run away like a hooligan. . .

I know this guy's a little aggressive, but it's... .. Wasn't this a little too much?

"He really doesn't even care about his face, this fellow! !" One of the teachers who was walking in front of starry sky academy stomped his feet in anger, following which, he turned to look at the two teachers from starry sky academy and said, "Teacher Elena, let's go to the organizers and file a complaint against this fellow. It's really too much! !"

"What's the use of filing a complaint! ?" A teacher from the fiery copper clan beside him suddenly smashed a building beside him into Smithereens with a punch. "If she were to directly bring the students out of the campus gathering, even if the federation's chairman were to come, he would definitely not allow the wind element academy to spit out these students. Hurry up and chase after them!"

"With what? A celestial level ranger or a wind walk ranger! !"

"We can only watch as senior Franklin's space is sealed. As long as we trap her on the planet, the rest will be easy to deal with..."

The group of people discussed animatedly, but the two teachers from the starry sky academy were surprisingly quiet. Instead, they quietly left the crowd when no one was paying attention.

"Instructor Yass..." after leaving the crowd, Elina transmitted her voice with a grave expression. "Did you... see that just now?"

"Yes..." the male flower spirit called Yass nodded with an incomparably grave expression. "I saw it..."

"That Aura is..."

"Imperial bloodline! !"

"Hiss..." after Elina heard these four words, she still couldn't help but take a deep breath. Only then did she manage to calm down the excitement in her heart!

They had arrived relatively late and were not as anxious as TIA. The main reason was that the royal family members had entered the Starry Sky Academy one after another this year. Although they were very enthusiastic towards the top seedlings, they were not to the extent that they had to beg for them.

Therefore, they had come at a moderate pace. When they approached, they had only taken a look at the battle formation from afar. It had only taken about one to two minutes.

But these two minutes allowed them to see an incredible existence!

Yes, one...

These children were all top-notch geniuses. In the royal family, they were close to the rank of the crown prince. It was indeed very exaggerated, but the most exaggerated thing was that at the back of the

group of children, they were quietly hiding behind a little flower spirit that looked a little timid behind a titan... ..

Because their expressions were too fearful of strangers, many teachers were subconsciously afraid of scaring that child. They did not go up and attack like touching the Titans, but fortunately, these people had some qualities and did not act rashly, otherwise, it would be really amazing if they were discovered!

“How is this possible?”Yass also took a long time to recover, he said in a low voice, “How can there be such things in this world? It shouldn’t be, could it be some special situation? Maybe it’s not the imperial bloodline, or maybe it’s some kind of mutated bloodline...”

“No matter what...”Irina said seriously, “Can’t let Tia Take it away! !”

-----

On the other side...

Tia was about to arrive at the exhibition hall of her school of fashion in a split second, but in that split second, a white figure quickly followed her and walked beside her!

Tia’s pupils instantly constricted, and her heart instantly sank!

In this world, there weren’t many people who could keep up with her in terms of speed. This time, there were almost no teachers who had come, but it wasn’t completely impossible... ..

There was one person who could stop her. Moreover, if they were to really fight, he wouldn’t be inferior to her at all!

“Teacher Tia, where are you going?”A familiar voice sounded in her ears, carrying a leisurely charm. Even as a female, Tia couldn’t help but feel her heart go numb when she heard this voice!

“Senior Ah Li?”Tia did not stop and immediately turned around. The other party followed closely behind her. No matter how hard she tried, she was unable to shake off the other party... ..

Tia’s heart instantly sank!

Xandar Academy’s Vice Principal Ah Li, the number one expert of the nine-tailed heavenly Fox clan of Wastya, a veteran Tianyuan expert. His divine movement technique had almost reached the limits of the world’s movement techniques. Even though her movement techniques were excellent, she had to admit that... In terms of movement technique, he was still lacking compared to this senior... ..

“Teacher Tia, are you sure you want to waste time with me like this?”Ah Li’s voice sounded once again, carrying traces of a smile and a reminder.

Tia frowned and looked up. Immediately, she saw that the entire sky was densely packed with profound spatial runes. It was obvious that Franklin was planning to directly use a spatial barrier to seal the entire planet!

If the space was really sealed by this veteran spatial master, it would be a little troublesome if she wanted to get out. When a third party interfered, her idea of packing up these little fellows would be ruined... ..

“Those three Titans belong to you. I’ll take the rest! !”Tia did not waste time and directly led the way!

Ah Li also did not waste time. He knew that time was of the essence at the moment. If he was trapped in the spatial barrier, it would be completely impossible for him to split the spoils. Thus, he straightforwardly said, “I want that dark descendant and star spirit!”

“No, I can only take one!”TIA said coldly, “Last line, senior Ah Li, don’t force me!”

Ah Li narrowed his eyes and finally nodded, “Okay!”

Chapter 1403: the Chief of distress!

It happened... What?

The children who were still queuing up on the planet quickly saw that the planet where the campus club was located was surrounded by a huge space barrier. For a moment, whether it was the students who came to volunteer or the elders who came with them, they were all stunned on the spot!

A group of women from Pichang city activated the weapon device on their bodies vigilantly and made a defensive stance... ..

A group of family elders also secretly raised their auras... ..

However, compared to being vigilant, everyone was more puzzled. The campus party was held on the Middle Star Field’s star of Kandarstan, which was the core position of the Middle Star Field!

Among the five major star fields, the middle star field was the smallest, and it was even less than one-tenth of any of the other four major star fields. However, its safety was the highest among the four major star fields!

This was the administrative center of the Federation, and it had the most abundant police resources. There were dozens of high-level security forces at the level of the city guards alone, not to mention that there was the first Lord of the federation overseeing this place.

Not to mention the core location, even if it was at the edge of the middle star field, there were basically no large-scale incidents of destruction, not to mention this star of Kandarstan, which was only a few hundred light years away from the sky god Academy.

Who would dare to cause trouble here after eating too much? Even if they weren’t afraid of offending the first overlord, wouldn’t they be afraid of offending the entire Federation’s high schools? Had they gone mad?

Amongst the many doubts, only Vaughn smiled bitterly to herself. She had more or less guessed some of the situation. This time, her teacher, Tia, seemed to be included in the list of tutors. Based on her character, she had seen Goudan’s group of children... They would probably do something extreme, but she did not expect the commotion to be so big. If she had known earlier, she would not have brought this group of children to see the market. After all, most of dog egg’s children had already been booked in advance... ..

She did not know how much trouble it would cause...

Vaughn raised her head and looked at the space barrier that quickly sealed the planet. From the perspective of her professional ranger, this space barrier's structure was extremely complex and its quality was frighteningly high, it was probably even more powerful than the White Dragon Sacred Academy's slime slime principal whom she had met in the Emerald Starfield.

There were not many people who could have such capabilities. If she did not guess wrongly, it should be Spark Academy's Principal Franklin, right?

It seemed that the teacher's heart was not as black as usual. It was likely that he had packed up a few spirit system players and snatched them away. Otherwise, with that senior's magnanimity, he would not have done such an extreme action... ..

However, it was too much to think about sealing her teacher with such a temporary space blockade. The title of the number one ranger of the Mingzhou School of thought was not for nothing... ..

As expected, in less than 1/10,000 of a second, Vaughn vaguely saw a flash of light in the sky at an extremely fast speed. If she had not focused her attention on observing, she would not have been able to see it at all.

However, even if she was paying close attention, she could not even see the shadow clearly. She could only vaguely see a residual light shadow. However, as a student of the school of Light, Vivian still recognized at a glance that the movement technique definitely belonged to her teacher... ..

After confirming the situation, Vivian could not help but hold her forehead with a headache. This was troublesome... ..

Initially, the few children had been assigned. The few Titans had agreed to Seer's request to go to Xandar Academy. Rainy Girl, Wu Gua, had been directly assigned by Billy to enter the Blue Spirit Academy. If all of them were snatched away to the Zephyr Academy in one go... Based on her understanding of her teacher and the principal of the Zephyr Academy's style, she firmly believed that the school would never spit someone out. Even if the chief executive appeared, it would be useless...

I'm afraid I'll have to take the blame later. If I think it's me and my teacher who conspired, I'm afraid it'll be very difficult to explain to Xi Ye and the others...

And that's when Vaughn not only prayed, please... .. Somebody stop their unreliable mentor...

-----

At this time, in the administrative center of the KANDARSTAN system, a large man with a plant-like skin was pacing back and forth in the executive office.

If one was familiar with this planet, they would definitely recognize this strange-looking man as the chief administrative officer of the Kandarstan Star: Sartorius!

At this moment, his old bark-like face was tightly wrinkled, and he appeared extremely anxious. As a newly appointed chief administrative officer, if something like this happened during his administration., it might be an indelible black dot in his administration career!

While he was anxious, a beautiful woman with antlers and a huge black book walked in quickly.

“You’re back, Ruth? What’s going on outside?”The chief asked anxiously.

The woman named Ruth gave a wry smile and quickly told him about the situation outside.

Sartorius was speechless after hearing it. No wonder Ruth was so nervous when she went out to investigate the situation. When she came back, she had such an expression. No one would be so speechless after hearing this.

“What’s going on?”Sartorius slightly relaxed his nervous mood. It was good that it was not a real terrorist attack. Although the incident happened suddenly and caused a certain degree of chaos... It was far less negative than being directly attacked by someone. At most, he would be treated as a joke later on... ..

But it was indeed a little too outrageous!

“Snatching students and even coming here? Is Gale Force Academy crazy about the ranking? Although that Tia is young, she is still a person of status. After doing such a thing, does she still have any shame?”

As he spoke, he slowed down his footsteps, he picked up the Teacup on the table and said slowly, “There’s also that Frantlin, an old senior figure. Why is she also fooling around? What kind of powerful student would need to be so brazen as to snatch someone away from a young man? Isn’t she afraid of being laughed at by others? Get Someone to quickly ask her to remove the enchantment! !”

“I’ve tried to persuade her... . I Can’t persuade her... “She’s very agitated. She wants us to send out our guards to capture Tia who broke the rules and disqualify her from the school fair. It seems like she’s really angry!”

“Capture Tia? She really thinks highly of our guards...”Sartorius rolled his eyes. “That fellow was already at the Tianyuan level last year. If we want to capture her, aren’t we afraid that the ten great army commanders will make a move?”

Ruth also smiled in distress. The military officers of the central star region administrative center were all under the responsibility of the First Lord. The ten great army commanders naturally referred to the ten great army commanders under the First Lord. They were all people at the level of the federal guardians, how could they personally make a trip over such a stupid matter?

“However, sir, I’m afraid that it’s not good to let the people from the Zephyr Academy really snatch her away. This kind of atmosphere can not be opened up. Otherwise, if someone were to directly snatch her away when they see a good student, the rules of the campus party would be completely broken!”

“That’s true...”the chief nodded. Their Kandarstan did not have any obvious pillar industries. The campus party that was held once every ten years was a huge part of their planet’s income. It was also a top priority for them if the rules were broken.

“Looks like we have to give the Zephyr Academy a warning. We also have to give an explanation for Tia’s actions. Go and draft a charter. We can not completely get into a deadlock with the Zephyr Academy, but we also have to have sufficient punishment, especially for Tia’s actions...”. At this point, he also knew that this kind of work was very troublesome, he consoled Ruth, “It’s been hard on you. Sigh, it’s

true. They are all reputable figures. What kind of amazing student could disregard his status to such an extent, not even the slightest bit of self-awareness..."

"I did get to know about this...". Ruth narrowed her eyes and said, "It's indeed a little exaggerated. I heard that there are more than ten of them, and all of them are young seedlings of the royal family. Among them, the developer that senior Franklin valued, is a 70-year-old, level 10, purebred developer!"

"DAMN!" Upon hearing these words, the head chief's face was immediately choked by the tea in his mouth. "Is that true?"

"From the looks of it..." Ruth smiled bitterly and said, "It's probably true..."

"That's troublesome!" The head chief narrowed his eyes and said, "If it's really as you said, I'm afraid that it'll be very difficult to give an explanation to the other academies in the future..."

"Yeah..." Ruth smiled bitterly and felt even more helpless. ...

Originally, she had thought that she would let the people from Gale Academy punish Tia and hand over a few more students, and this matter would be over. But now, she was afraid that it would be difficult...

Once a seedling of this level was brought back by Tia, Gale Academy would definitely not hand it over. Not to mention the head of Kandarstan Academy, even if the Federation's head of Parliament were to personally go to Gale Academy, they would probably not give face to the other party.

After all, Gale Academy was at the crucial moment of falling out of the top ten this year... ..

However, if Gale Academy was not allowed to hand over the person, unless one was willing to completely shed all pretenses of cordiality with Gale Academy, there was simply no effect of some mild punishment!

This was really going to give him a difficult problem...

The president sat on his chair with a bitter expression, suddenly having the impulse to write his resignation and return home to plant trees... ..

"Sir!"

While the head chief was depressed, Ruth suddenly called out from the side.

"What's the matter now? A scare and a trick!" The head chief rolled his eyes at the other party and said, "Can anything worse happen?"

Ruth put away her bitter smile and said with a serious expression, "Lord iluvita has arrived! !"

Chapter 1404: Do you still think it's normal?

"Oh? Sir, it's a contact notification!"

At this moment, after disembarking from their exclusive spaceship, Iluweta and the others had just arrived at the star field of Kandarstan. Just as they were about to inform the planet's administrative staff to come and welcome them... The Ranger who was in charge of contacting them suddenly looked at his communicator in shock... ..

“So Fast? Are you looking at the president of Kandarstan Star?”The Ranger asked curiously.

Lord Iluweta had come here on the spur of the moment. He had only notified the administrative staff to come and welcome him when he had arrived at a certain location so as not to alarm too many people.

This was also why when they had arrived at the middle space zone, only the staff on duty were in charge of the teleportation station.

Just like before, they had only notified the administrative staff after they had arrived at the outer region of Kandarstan Star. The other party was also very shocked when they received the news and expressed that they would immediately organize people to come and welcome them.

However, wasn't this organization a little too fast? Didn't they just hang up the phone?

Iluweta looked at the communicator and was slightly stunned. She shook her head and said, “It's not the administrative staff of this planet. It's DIJA's exclusive signal channel. Venos, did you tell them about your itinerary?”

Venos:”...”

The elf dressed as a priest paused for a moment, she bowed with a calm expression and said, “I'm extremely sorry, sir. Sir told me not to disturb them, but I thought about it. Sir's sudden arrival could easily cause a riot, so I told Sir Dija in advance that he was coming. I told him to prepare in advance to communicate with the administrative staff of the star of Kandarstan so that Sir can enter the inner part of the planet quietly as he wishes. At least, he won't be disturbed by the people from other schools...”.  
“...”

“Is that so?”Llewita smiled faintly, but did not say anything.

On the other hand, the Little Ranger curled his lips and said mercilessly, “Bullsh \* t, you're obviously afraid that Sir has really found someone who can threaten your fourth prince, right? You must have given some instructions in advance, right?”

“Ridiculous!”The priestess said coldly, “Let's not talk about whether I have such selfish motives first. It's already incredible for a bunch of bumpkins from the school fair to find someone who is close to the royal family. Someone who can threaten the fourth prince? “You really dare to say it!”

“TSK!”The young ranger snorted coldly, but she did not continue to argue. She was very displeased with Tyrande, but she had to admit that the other party's aptitude was indeed frightening. From the looks of it at the moment... Her aptitude was almost the strongest in the history of the royal family. To find a person who could threaten her in the school fair was indeed a Fool's dream...

“Okay...”Iluweta interrupted their argument with a warm voice and directly opened the communicator.

The Communicator soon showed Dijana's anxious face.

“Sir!”Seeing the signal connected, Dijana quickly bowed.

“Did something happen?”Iluweta asked directly.

“Yes!”Dijana said anxiously, “I heard from the administrative office of Kandastan that Sir has already arrived outside the planet?”

Iluweta nodded slightly, but Venos, who was behind him, said with a dark face, “Sir is asking you a question, but you asked Sir First!”

On the other side, dija avoided Venos’gaze with a guilty conscience. He looked at iluweta and said, “Sir, the situation is a little urgent, I don’t have time to explain in detail...”

“What do you want me to do?”Iluweta asked with a smile.

“Sir...”seeing that the other party did not blame him..., dija was obviously relieved, but he still said anxiously, “Sir, please stop a Ranger who has escaped from the star of Kandarstan. The other party is the instructor of the Zephyr Academy, Tia. He is a Tianyuan level ranger!”

“Oh?”Iluweta narrowed his eyes slightly. He seemed to have some impression of this name. Two eras ago, when the previous crown prince participated in the Interstellar Fellowship, there was a little guy whose aptitude was infinitely close to that of the crown prince. It seemed to be called this name... ..

“Do you have to take him down?”Venos sneered. “You really dare to give orders, dija!”

“I’m sorry, sir, but the matter is really...”

“Alright!”Iluweta interrupted the other party directly. “I got it...”

“Thank you, Sir!”The other party bowed again and said, “We will come over to pick you up immediately. Thank you, Sir!”

“Well...”Iluweta nodded and hung up the phone with an unreadable expression.

“This Dija!”Venos said coldly, “He is getting more and more insensible!”

“It should be something urgent...”Iluweta smiled and said.

“What kind of urgent matter is worthy of my Lord’s help? It must be taken down...”Venos’face was gloomy. “When we go back, it seems that we have to let the Elder Council review his qualifications to apply for the position of Elder!”

“It’s not necessary...”Iluweta waved her hand. Her face was still as gentle as before, but there were some fluctuations in her heart. She was not as calm as she appeared on the surface...

Must We take it down? Could it be...

“Hey, sir, is it that one?”The Little Ranger suddenly pointed in a direction.

Iluweta and Venos immediately looked over. Those were two figures that surpassed light and shadow. They were so fast that if it were any other ordinary material, they would probably be able to destroy the space they passed by. However, their movement techniques were clearly very professional..., such fast speed actually did not cause the slightest bit of physical friction!

“Good movement technique!”Venos could not help but praise!

“Interesting!”The Short Ranger’s eyes were burning, and he had an eager expression on his face!

“Ling, stop them! ! !”

Just as the two of them were praising each other’s movement techniques, Iluweta’s voice came from behind. When the short ranger, who was already eager to give it a try, heard these words, he did not hesitate to turn into a ray of light and chased after them. His speed was so fast.., he was actually a few times faster than Tia and Ah Li who had escaped!

Venos turned his head around in surprise because she could sense that there was a hint of excitement in Lord Iluweta’s voice!

When she turned her head back, what she saw was still the gentle smile of the Lord, as if nothing could break it.

But... she was sure that she did not hear wrong!

His Excellency... did lose his composure just now! !

At the thought of this, Venos looked at Tia and the others with a solemn expression... ..

What was on that Ranger’s body?

-----

“Why didn’t you tell His Excellency about the situation?”

On the other side, after dija hung up the phone, another instructor on the side hurriedly asked with a frown.

“Don’t you see that Lord Venos is also there?”Dijia said solemnly.

“Lord Venos? What’s Wrong Now?”The moment the instructor said that, he was immediately stunned. Apparently, he reacted in a flash... ..

“It seems that you have also reacted...”dijia lowered his voice and said solemnly, “Although Lord Venos is Lord Iluweta’s executive priest, he is also the grand elder of the Windwhisper family. He is the biological sister of the fourth Prince’s mother!”

“This...”the teacher gritted his teeth and said hesitantly, “But... Lord Venos has always been fair...”

“Fair?”Dijia interrupted the other party and sneered, “That depends on what matter. I don’t think she is fair when it comes to the inheritance of the throne. Now that I think about it, why did Lord Iluweta suddenly come to participate in the Campus Party? “We were informed on the way here, so why did she inform us in advance? “Do you remember what Lord Venos asked us when he contacted US This Morning?”

“He seemed to ask if we have any outstanding seedlings...”the instructor’s body suddenly stiffened when he said this!

“Is that right?”dijia smiled and said, “This question sounded normal at first. After all, since we are here to visit the campus fair, it is normal to care about whether there are outstanding seedlings. But now, do you still think it is normal to contact the Emperor bloodline that suddenly appeared?”

“You mean...”

“I didn’t say anything!” Dijia sneered and denied. “Just do what we are supposed to do!”

“Yes...”

Chapter 1405: Stop...

“Who is it! !”

An extremely fast figure caught up with the two of them without any warning, causing Tia and Ah Li’s hearts to jump!

After discussing the distribution, the two of them acted quite decisively and directly rushed out of the planet from the celestial body position. With Franklin around, it was probably impossible to leave through the teleportation channel, therefore, they used brute force to break through the blockade. As for the damage caused after the spatial channel was destroyed, they believed that the school would handle it properly as long as they could bring the people back first!

Of course, the two of them also thought that no matter if it was the other universities or the chief executives of the organizers, they would not let them leave easily. There would definitely be pursuers. However, the two of them did not think that anyone could stop them.

Tia was a Tianyuan level wind ranger, and Ah Li was the number one expert of the Heavenly Fox Clan, a guardian. If they wanted to stop the two of them, unless someone from the ten corps leaders of the central star field appeared, they did not believe that they would be so unlucky. They just happened to meet one of the ten who would wander around nearby... ..

However, they did not expect to meet a tough opponent as soon as they left the planet!

The person was extremely fast. His movement technique was not inferior to the two of them at all. Moreover, he carried an extremely powerful energy pressure. From the feeling, he was definitely a veteran Tianyuan expert!

The other party did not carry any killing intent nor did he use any weapons. Clearly, he wanted to stop the two of them in a melee fight. Tia frowned. Although she knew that the other party would not kill her, she could not hand her back to the other party, in the end, she could only helplessly turn around and Parry!

In an instant, the two of them moved for a millionth of a second, leaving behind hundreds of thousands of shadows in the vacuum of the universe. Although the speed of their exchange was unbelievably fast, the two of them seemed to have a tacit understanding., they did not destroy the vacuum environment at all. Both of them completely avoided the destruction of the environment caused by physical friction!

However, with such speed, even a star-ranked expert would not be able to clearly see their trajectories. In the end, the two of them were still able to move as one, not destroying the space at all!

Ah Li, who had escaped with Tia, frowned as he looked at the two of them fighting. However, he did not join the battlefield... ..

Firstly, it was because of her identity. With her identity, she would not be able to do something like two against one. Secondly, it was more practical. Even if it was two against one, she probably would not be able to defeat them... ..

Because she knew this person...

“Good! !”The short ranger’s tone was filled with admiration. “Little doll, not bad. You have just entered the Heavenly Yuan realm not long ago, right? To be able to control the unstable energy to such an extent, you are much stronger than those trash in the Starry Sky Academy!”

Tia’s heart sank. This voice was very unfamiliar. She had never seen it before. However, this unique short figure and doll-like face of a heavenly yuan level ranger should be the only one in the universe!

The number one ranger of the space elves: Tooth Spirit Tataya!

Damn it!

After TIA recognized the other party’s identity, her heart chilled. Why was this guy here?

This situation was even more troublesome than meeting one of the ten great army commanders of the First Lord, because the other party had another identity, and that was the personal guard officer of the fifth Lord, Iluweta!

As a guard officer, it was very rare for them to be too far away from their lord. In other words, the fifth Lord, Iluweta, was most likely nearby... ..

Bang! !

Tia grunted, obviously hit hard. She quickly retreated and spat out a mouthful of blood!

The short ranger did not pursue the victory. Instead, he crossed his arms in dissatisfaction. “You dare to be distracted? Are you looking down on me?”

Tia quickly adjusted her breathing. Just as she was about to speak, Ah Li, who had been watching from the side, finally opened his mouth. “Why is senior tooth spirit here?”

Tia’s pupils constricted. It was really that guy...

“It’s Little Ah Li!”The short ranger obviously knew Ah Li as well. He chuckled and said, “I came to accompany my Lord for a stroll. I happened to run into you guys, so I took the opportunity to lend a hand. By the way... What did you guys do?”

Tia rolled her eyes when she heard that. This guy didn’t even know what had happened, so he lent a Hand?

However, Ah Li’s eyes lit up as he hurriedly said, “Senior tooth spirit... we had no choice but to do this because of some reasons. We did not have the time to explain the specific situation in detail. How about this, if you let us go, I will owe you a favor. How about that?”

Tia immediately reacted and quickly added, “The same goes for me!”

Tooth spirit was stunned and immediately frowned in embarrassment. She was not a person who liked to socialize, but even so, she knew what a favor between two tianyuan-level powerhouses meant. Even for her, it was very rare... ..

“I’m sorry...”tooth spirit shook her head. “If it were any other day, I would have agreed to your request. Unfortunately, it was Sir who told me to stop you...”

As soon as she said that, Tia and Ah Li’s bodies stiffened. The only one who could be addressed as ‘Sir’by the other party and be able to order her around was probably that one...

The two of them immediately revealed bitter expressions. It was impossible for them to split the spoils and take it all for themselves!

-----

A few seconds later, two blurry figures slowly approached, one at the front and one at the back. The person behind them was wearing a purple starry priestly robe. It was obvious that he was a high-level priestly elder of the starry elves. The other person was dressed in a hundred-colored robe and was dressed elegantly, wearing a mask, so that people can not see the appearance, but people come to let there is no life in the vacuum of a faint nourishing all things warm feeling, instant let two people in the heart without the slightest bit of luck!

This kind of incomparable affinity with life, other than Iluweta, there was no one else!

“Greetings, Lord!”The two of them quickly stepped forward and respectfully saluted their respective races!

“What naughty two little fellows...”Iluweta’s voice was still as gentle as the spring breeze. In this vacuum zone, when one heard it, one would feel an inexplicable sense of warmth.

“What’s going on between the two of you?”Compared to Iluweta, the priest behind her was much sterner. “Both of you are instructors of top-tier schools. How could you do such a thing as openly destroying the venue and running away?”

What has it got to do with you?

Tia looked at the old priest and a fire rose in her heart. If they wanted to manage the destruction of the public facilities in the middle space zone, it should be the people from the other space zones, right? You are from an outer star area, why are you acting like a wolf? Calling me senior is to give face to Ilewita, who the F \* ck are you?

Ah Li also had a cold expression and said indifferently, “It has nothing to do with Lord Venos, right?”

Venos?

Tia looked over and suddenly remembered that she had seen this guy before. Two centuries ago, when she had participated in the interstellar fellowship, he had represented the Starry Sky Academy to watch the competition. This person was the representative... ..

One of the three great priestesses and elders of the starry sky imperial family, Venos. Windwhisper, the leader of the Windwhisper family of the Starry Sky Imperial Family!

No wonder he was so pretentious...

Facing Ah Li's retort, Venos looked at him coldly. "Even when your grandmother saw me, she didn't dare to talk to Me Like That!"

"Ha..." Ah Li immediately sneered, just as he was about to speak, Iluweta used her hand to stop Venos, she looked at the two with a smile. "Little Guy, don't blame us for meddling in other people's business. We just happened to pass by this planet and were asked by the administrator. We can't just pretend that we didn't hear it, right?"

Ali: "..."

With the other party's status, it was hard for her to refute. After all, with the difference in status, the other party had already given her a lot of face... ..

"Let's Go..." Iluweta smiled and said, "Let's go back to Kandarstan..." as she spoke, she took the lead and walked in Kandarstan's direction.

Ali and Tia instantly looked at each other. In the end, they bowed their heads in resignation and followed behind... ..

The tooth spirit followed behind with a smile, preventing these two little fellows from not giving up and escaping. Of course, that was only for the situation. After all, the Lord was personally present. It was basically impossible for the two of them to escape.

Only Venos was at the back. As he looked at Iluweta's back, a trace of doubt flashed in his eyes... ..

The Lord seemed to have stopped the conflict between the two youngsters, but in fact, he had also stopped himself from getting the chance to ask for information first!

However, it was not necessarily the lord's intention. After all, the Lord's personality had always been gentle and did not like to forcefully oppress others, so... .. It's probably just a coincidence?

Chapter 1406: Gone? ?

"Sorry to trouble you this time, my Lord..."

At the entrance of the campus meeting, Sartreus, the president of the star of Kandarstan, personally came to the scene. He led a group of high-ranking administrators of the planet to welcome this ancient Lord... ..

Due to the huge commotion, Sartreus had already suspended the campus meeting. Meanwhile, many of the instructors of the academy had also walked out from their respective halls due to the huge commotion. They immediately knew what had happened... This caused almost all of the instructors of the top 100 academies' student recruitment department to be outside. It could be said that the lineup was not small... ..

Tooth Spirit's brows were tightly knitted together. His lord had always liked to remain silent and not cause a ruckus. This situation should not be what his lord wanted to see... ..

"Greetings, my Lord..."

One by one, the instructors, including some of the highly experienced instructors of the academy, were currently facing this fossilized lord who had been alive since the era of the great elves. All of them had displayed a high level of respect, and each of them had performed their own race's great gift.

Of course, although they showed enough respect, most of their gazes were secretly fixed on Tia of the Gale Academy... ..

Most of the instructors already knew about this incident. It was because teacher Tia did not speak of virtue, and directly took away a group of highly-qualified students, which immediately caused public anger, that was why the matter of the old senior, Franklin, using a large-scale space barrier to seal off the planet came out.

This made everyone very curious. What kind of talented student could cause such a degree? Although Tia was young, she had seen the world. She herself was a genius among geniuses, and Franklin was a famous old senior. The two of them had caused such a ruckus, which made people very curious.

As for the fifth overlord, although everyone showed respect, they did not pay too much attention to him. The main thing was that his status was important, but it did not have much to do with them... ..

This lord was in a state of deep sleep all year round. Once he slept, he would often use the era as a unit. In many cases, if they met once, they might not even be able to see him twice in this lifetime... .. Therefore, very few people who were familiar with this lord's style were willing to take the initiative to interact with him, because even if they did, it would be in vain.

"Lord Chief!" Flantlin directly opened his mouth and said, "Teacher Tia and teacher Ah Li's actions have seriously violated the rules of the campus. My suggestion is to directly expel them and disqualify Gale Academy and Xandar Academy from the campus exhibition this time. What do you think?"

"Yes, yes! !" A group of teachers who were familiar with the situation immediately shouted, there were more than ten students in that group. There were already very few of them. If there was one less competitor, there would be one. Moreover, although Shantia and Ali had gone overboard, they had seen it before, there were a few students who had been designated to attend these two academies. There were already very few people. If they were assigned a few more students, their hopes would be even slimmer. Only at this time would they have a chance to kick out these two academies!

"Uh..." Sartreus' face twitched when he heard that, and a trace of embarrassment appeared in his eyes... ..

Tia, on the other hand, glared fiercely at Franklin. This old fellow was really ruthless, directly wanting to kick her out. He was really ruthless!

Sartreus looked at TIA and said, "Teacher Tia, do you have anything to say?"

"Of course I do!" Tia coldly looked at the group of hecklers. "These juniors were originally appointed by my disciple to join our Gale Academy. What's wrong with me bringing them away? "Is there a rule in the campus meeting that teachers are not allowed to leave Midway with the designated Academy?"

"Uh..." Sartreus looked at Franklin. "Is that so?"

“Nonsense!” Franklin immediately retorted!

“Whether it’s nonsense or not, you can look at the recording of the scene!” Tia sneered. “Other than the recording, there are quite a number of witnesses. Didn’t those little fellows recognize us at that time?”

“That little wind demon directly said that she was Vaughn’s disciple and asked her to look for the Gale Academy. Vaughn is my personal disciple and the entire circle knows about it. Could This be false?”

“A few Titans are also designated to be from the Xandar Academy. Teacher Ah Li and I are afraid that these little fellows will be too eye-catching, so what’s wrong with taking them away in advance?”

“What has it got to do with you guys?” “On the other hand, not only do you guys want to cut off the designated students of others, senior Franklin is even more shameless and directly opened a spatial barrier to forcefully snatch people away. I have been in the industry for many years, but this is the first time I have encountered such a thing. The one who should be expelled is you, right?”

“You! !” Franklin was instantly angered until his face turned red, he knew that this wind demon junior had excellent aptitude, but he did not expect that his strength was powerful and his words were also so sharp. He directly reversed black and white, making them the people who broke the rules!

“Senior Franklin?” The head looked at the other party with a frown. If that was the case, it did not seem like teacher Tia was to blame.

Franklin took a breath and instantly calmed down, he said indifferently, “Teacher Tia is really eloquent. She can even turn black into white. If it is really like what you said, everyone is appointed to Your Academy, why are you so anxious to take them away?”

“It’s all because you guys look like wolves seeing meat. I’m afraid of scaring the students...”

“You’re the one who scares them easily, right?” Franklin sneered. “If it’s really a direct appointment, why do you still want to come to the Campus Party? “Can’t you just go to Your Academy and sign up?”

“Also, the only one appointed by those children to Your Gale Academy is that little wind demon. The others haven’t even had the chance to speak, especially those children who are spiritual professionals. With their talent, would the elders of their families allow such children to go to a Ranger Academy?”

“Why not?” Tia sneered. “Why can’t the families of those kids be friends with our Gale Academy?”

“I don’t believe it...” Franklin narrowed his eyes and said, “Tell me, which family do these kids belong to?”

“Why should I tell you?” Tia said forcefully.

The situation suddenly stiffened...

“Why don’t... Let those kids come out and talk about it themselves?” A gentle voice sounded. Everyone was stunned and looked over.

The one who interjected was actually Iluweta. This time, not only the teachers, but even the tooth spirit and Venos who were following him were stunned. The two of them knew the lord very well. This lord rarely interfered in other people’s affairs. It was better to stay away from trouble for a while...

The teachers immediately became nervous. Iluweta was the guardian of the Star Elves and also the honorary principal of the star Priest Academy. Could it be that he also wanted to participate in the snatching of people?

“Sir is right...”the others’ hearts tightened. Only the chief executive heaved a sigh of relief. It was just right that someone would accept such a case that clearly offended someone. Moreover, if this sir was willing to intervene, his words would be the most convincing!

“Tia... instructor, what do you think?”The chief executive looked towards Tia.

Tia immediately gritted her teeth, before she could say anything, ILUWETA smiled and said, “How about this? I feel that the matter of eviction mentioned by Franklin was too extreme. Instructor TIA, please release the people and let those little fellows speak for themselves. If they are really appointed to the Zephyr Academy, I will definitely help you bring them back. How about it?”

Once these words were said, TIA was in a difficult position. Since the other party had said so, she would not be able to differentiate between good and bad if she continued to be stubborn. She was not afraid of offending Franklin, but this person in front of her was different... ..

Ah Li who was at the side also sighed and said, “Teacher Tia? Why not...”

Tia glared at the other party. She knew in her heart that this fellow was going to defect. That was right. At the very least, no matter how bad it was, their Xandar Academy still had three Titan students to protect them. They would not suffer any losses... ..

But she...

She was very clear of the situation. Out of so many children, that little wind devil was probably the one who had chosen their Gale Academy... ..

“Teacher Tia?”The head could not help but urge her. Lady Iluweta had already spoken. If this fellow still did not know what was good for him, then don’t blame her for being ruthless.

“I got it...”Tia Sighed and slowly released doggie and the others in the spatial ring... ..

Instantly, Doggie and the others huddled together and fell to the ground like a big meatball... ..

Many of the instructors hurriedly looked over. When they saw just one thing, most of them sucked in a breath of cold air!

Damn! ! !

No wonder those two fellows had shed all pretense of cordiality to such an extent. There were actually seedlings of such a degree? And it was a large group!

..

“Did you see it?”

At this moment, among the group of agitated instructors, two people had strange expressions on their faces. They were the two instructors from the Starry Sky Academy.

“Instructor diija, did you see it?”

“En...”Dijia narrowed his eyes, and his expression became extremely strange. This was because both of them could see that the emperor bloodline elf that they had been paying close attention to previously had disappeared! ! !

Chapter 1407: Distribution (Top)

“Hiss... Oh My God, what is this?”

“If it wasn’t for the fact that the races are different, I would have thought that some members of the royal family had come out for a stroll. Isn’t this too F \* cking ridiculous?”

“Then our fairy spirit academy will take the developer!”

“Heh, what do you think? Why do you think Flantlin and Gale Force Academy are in such a mess?”

“Ahem, I don’t want to argue with the old senior. Can Our Academy take the Phoenix?”

“PFFT! Your Face is so big. Can it still be okay? Why should it be yours? Our Bandel Academy welcomes these kinds of mutants the most...”

“Your Bandel Academy welcomes high-level mutants the most!”

“So What? Do you accept low-level mutants?”

“Why not? Our White Dragon Sacred Academy’s former Dean of the Space Department was a slime. This is something that everyone knows...”

“You talk as if that slime was nurtured by you guys. have some dignity. Our Eternal Forest wants this Phoenix. Whoever steals it, I’ll fight with them!”

“If you want to fight, there’s a toilet over there. Go ahead!”

“F \* ck off...”

Outside the entire passageway, hundreds of instructors were in a commotion, causing chief sartorius to have a headache.

“Everyone, quiet down!”Sartorius clapped his hands, trying to calm everyone down.

Everyone gave face and quieted down, but how to solve the problem was a problem... ..

Thinking of this, Sartorius looked at the group of Little Fellows, and his gaze became solemn. Where did these little fellows come from?

Before he came, he had heard the situation from his subordinates. They were a group of extremely talented fellows. He could not help but take a deep breath after seeing them. No matter what, it was a little too exaggerated. Even the royal family., they probably could not gather such a group of fellows who were infinitely close to the crown prince, right?

There were quite a number of people, but in the face of this group of top 100 high school instructors who were like wolves and tigers, it was not enough to divide them up!

This matter, I'm afraid it will be a little troublesome today...

"Everyone!" Just when everyone was quiet, Ah Li walked out and pointed at Pu Yunchuan and the other two Titans. "These three juniors, our principal has signed a contract with the designated students. Everyone, don't pay any attention to them."

Everyone was stunned. Before they could react, a sea dragon the size of a meat mountain walked out. It was the principal of Xandar Academy, The Guardian of the Sea Dragon Clan!

Everyone's expression immediately sank. This time, apart from Ah Li, even the principal of Xandar Academy had come personally!

"Everyone!" The principal said in a muffled voice, "These three juniors have indeed signed a contract with someone else. They are designated students of our academy. Everyone, give us some face and don't pay any attention to them!"

The faces of many people from the martial school were extremely ugly. Those few Titans were all top grade Green Titans. Any one of them would be used as a star rank alliance ACE candidate to be nurtured. This Xandar Academy, on the other hand, wanted three of them at once!

As the principal spoke, he revealed a simple and honest smile towards Ah Li. In his heart, he was extremely fearful. Luckily, he had brought Ah Li along this time. If he were to let that little lass from the gale academy snatch him away.., he reckoned that even if he were to go to their school and cause a ruckus, he wouldn't be able to get him back!

Ah Li rolled his eyes at this burly man. In his heart, he was furious. This damned big fellow, he had such a good seedling, yet he didn't inform him in advance. He had almost been snatched away by someone else. When he returned, he would have to properly settle the score with him!

"If you say it's yours, then it's Yours?" The martial arts school instructors couldn't help but say, "It's just empty words. Tell me, who is so powerful that he could nurture three titans of such quality in one go?"

"I'm sorry that I can't tell you this..." the principal turned to look at Pu Yunchuan and the other two. "Child, did your adults ask you to come to Xandar Academy?"

Pu Yunchuan and the emperor of the liver were dumbfounded and could not react in time. Leng Xing was the first to walk up and respectfully saluted. "Yes, the elders said that we will directly look for the teachers of Xandar Academy when we arrive at the campus..."

The principal turned around and looked at the fifth Lord, Iluweta, with a silly smile. "Your Excellency, what do you think..."

Everyone's faces darkened. The principal of Xandar Academy looked simple and honest, but he was actually very cunning. He knew who would be able to control the situation at this time!

Iluweta smiled and nodded. "Since those few children have said so, the matter is naturally true. It wouldn't make sense for the other academies to snatch it."

“That’s right!”The principal immediately grinned, he looked at the people from the other academies. “Adults are still fair and reasonable. Let’s make things clear. Our Xandar Academy isn’t black-hearted. Only these three little fellows are designated. We Aren’t greedy for the others. But speaking of which, if anyone dares to take notice of my students, Don’t blame this old man for being impolite! “! !”

As he spoke, waves of heavy pressure rushed towards everyone. Other than Iluweta and the other two, all the other teachers were forced back a few steps by this powerful pressure!

The eyes of the three Titans instantly lit up. Although the group of people around them did not scatter their auras, they could feel with their biological instincts that they were all a group of monsters, compared to them, the teachers of the academy were like cute little dogs.

And this burly man was able to force everyone to retreat with just one sentence. This strength... ! ... This school must be very awesome!

The principal secretly observed the expressions of admiration on the three of them. He felt proud in his heart. Then, he retracted his aura and turned to the three of them, “Come over here, Little Guys!”

The three Titans looked at each other. In the end, they also carefully walked over. The principal directly carried the three of them on his shoulders and walked to a corner.

The three players who sat on the principal felt a strange feeling in their hearts. Ever since they became Titans, this was the first time that they were carried like children. It felt strange.

However, after they were carried on their shoulders, they felt an incomparably thick aura firmly enveloping them. It was gentle and firm, as if they were the world’s greatest backer. The uneasiness brought about by the aura of a bunch of powerhouses just now instantly disappeared, an unprecedented sense of security surged through their entire bodies!

The three of them immediately thought to themselves, this big shot isn’t any weaker than Aunt Ysera!

At this point in time, no matter how indignant the hearts of many martial arts schools were, they could only quietly let go. After all, the other party had already appointed them. No matter how unreasonable they were, they didn’t have the strength to be unreasonable. Although Xandar Academy’s ranking was relatively low., however, these two principals were true guardians. If they were to really fight, their entire group would not be able to withstand a single punch from the other party!

Franklin was the first to smile. “Of course. We can not forcefully snatch the designated students no matter how much we like them. This is the rule...”

“Thank you, senior, for your magnanimity...”Ah Li smiled and bowed before slowly following the principal to the side.

Franklin took a deep breath and then looked at the only developer in the middle of the little guy!

Compared to the confused and terrified little guy, Raingirl was much calmer. Looking at the situation around her, her mind started to work quickly, analyzing the scene.

As a top arcanist, Franklin was very satisfied with Guo Xiaoyun’s spiritual fluctuation.

It was not only because Guo Xiaoyun had the highest level, but also because she had the highest quality!

Facing so many top-tier instructors, even though everyone was trying to suppress their aura so that the little ones would not be frightened, there was still some basic biological pressure, which was why the little ones were a little scared.

However, this little developer was different. He was very resistant to pressure. In such an environment, he did not hesitate to activate the developer's super-brain operation, and his pure spiritual power was definitely not inferior to the crown prince's, he was also the most suitable developer for the Arcana Academy. As long as he could get this one, it would be worth it for him to shed all pretense of cordiality with the Zephyr Academy today!

"Little guy..." Franklin did not waste any time. He looked at Guo Xiaoyun and smiled, "What About You? Have you appointed an Academy?"

Guo Xiaoyun did not show any fear. She walked up to him and bowed respectfully. "I'm very sorry, sir. My Master has told me to appoint the Bluespirit Academy..."

Franklin's expression instantly froze!

"Here, here, here! !!"

In the crowd, a sky-blue mecha squeezed out from a group of warrior-type instructors who were like mountains of meat. It rushed to the front, and its huge mechanical arm desperately waved at Guo Xiaoyun, saying, "The Blue Spirit Academy is Here! !!"

Chapter 1408: it's a little troublesome when it comes to origins

In fact, in the campus fair, the higher the ranking, the less importance the campus fair was placed on. This was because when a school reached a certain level, it had accumulated for many years and had students all over the universe. These students would grow up and establish their families, most of them would maintain a close cooperative relationship with the school. Therefore, every time a school ranked at the top would have a fixed family send their outstanding direct descendants to the school, therefore, in many cases, they did not care too much about the students in the campus party.

It was not that the students in the campus party were necessarily bad. The main reason was that most of the students in the campus party were commoners. A small portion of them were illegitimate children from families that were not valued. Although there were some outstanding ones., there were even some who were more outstanding than the direct descendants. However, they were still in the minority and belonged to the sandstorm. Therefore, for the top-ranked schools, maintaining a relationship with their old family was far more reliable than going to the campus party to dig out the sand.

As the second Mecha Academy in the Southern Star Field, the Blue Spirit Academy was naturally one of the top ten academies in the Galactic Federation. The Blue Spirit Academy had the support of the Blue Spirit Royal Family and was the first choice for the direct descendants of the various large blue spirit families, basically, there was no such thing as a lack of students. Therefore, even though the ranking had dropped a little this time, the Blue Spirit Academy's policy was to mobilize the connections of the senior professors to go to the various large families and lobby for the direct descendants to enter the academy, and the ones sent to the campus fair to recruit students were some professors with average foundations.

For example, the Professor Morgan sent by the Bluespirit Academy this time was a newly promoted professor... ..

It was not Morgan's first time participating in the campus fair. After all, this kind of work was mostly conducted by these professors who did not have much connections. However, it was definitely the first time that he was so anxious to directly open his mecha and squeeze in like today.

Those boorish men from the martial arts school were really too shameless. They directly formed a wall of flesh outside. As an advanced spirit-type life form, even though he used a top-notch biological body..., however, it was naturally incomparable to those from the authentic warrior department. Not to mention squeezing his way in, under that powerful blood pressure, it was difficult to even get close.

Therefore, he could only be anxious outside at the beginning...

Of course, not being able to get a good position was also related to his slow movements. However, it could not be entirely blamed on him. After all, this kind of situation where a group of instructors were snatching people away had basically never happened before. As a top mecha academy, his Blue Spirit Academy was extremely famous, normally, there was no need for him to rely on bribing pi city's guards to win over students like those academies that were ranked in the top hundred or bottom hundred.

Anyone who wanted to study mecha courses or master of the mind courses would not miss out on the academy's demonstration. As long as he sat comfortably in the demonstration hall, there would naturally be good seedlings coming forward to consult him.

Who knew that there would be a large group of such seedlings appearing this time?

After hearing the news, he had rushed over at the last minute and had already lost his good position. He was blocked outside by that group of Brawny men and could only rely on his spirit scan to observe the situation inside. In the end, when he saw the situation inside, his heart would jump.

When he learned that Franklin had chosen the developer, Morgan immediately became anxious like an ant on a hot pan. For the first time in his life, he felt that it would be an absolutely wrong decision for the academy to not take the campus seriously!

However, it was not easy to compete with Franklin for this student. Spark College was a Top Arcana College. Although its overall ranking was not as good as the Blue Spirit College, its position was not inferior to theirs because it was a pure Arcana College, the academy was ranked in the top twenty of the Interstellar Union based on its Arcana ranking alone. In terms of Arcana, Spark College could be ranked in the top three of the Federation!

As the Dean of the Space Department of Spark College, Franklin had a large amount of resources in his hands. With his guarantee, even the direct descendants of the top arcanist families would not hesitate to choose him.

After all, the ranking of the Academy was one thing, but being valued by a well-known teacher was another. Morgan did not have the confidence to snatch people from the hands of the other party with his own weight.

But when he heard that the developer said that he was going to designate the Blue Spirit Academy, he could not hold it in anymore. If this kind of gift bag that came to his door was taken away again, he felt that he would be spat to death by the Dean when he went back!

Thus, without any hesitation, Morgan immediately activated his portable mecha and forcefully squeezed his way through this group of shameless burly men!

“What are you doing? Why are all your mecha being used?”

The crowd instantly started cursing. However, when they heard the other party announce the name of the Blue Spirit Academy, they could only curse... ..

At this moment, Morgan could not be bothered to argue with that group of Shameless Fellows. He directly rushed to the front and said excitedly, “Over here, over here, the Blue Spirit Academy is over here!”

Guo Xiaoyun gave a strange look at the mecha that rushed over, but still said politely, “Hello Senior, may I ask who you are?”

Seeing this, Morgan hurriedly took off his mecha. After coughing lightly, he introduced himself, “I am the instructor of the bluespirit Academy’s Mecha Academy, Morgan Sony. Child, was it your family’s elders who asked you to come and apply for our Bluespirit Academy?”

“Yes...” Guo Xiaoyun nodded.

“Good, good, good!” Morgan clapped his hands and laughed loudly. “Come here, child. I will bring you to our exhibition hall to have a good understanding!”

Guo Xiaoyun smiled and nodded. Just as she was about to move, an invisible force hindered her actions.

Morgan frowned and immediately looked to the other side. “Senior Franklin, isn’t this not too good?”

Franklin didn’t even look at Morgan, he said to Guo Xiaoyun, “Child, are you sure that your elders let you enter the Bluespirit Academy? You’re a developer, why would you go to a Mecha Academy? Child, which family are you from? I’ll talk to Your Elders...”

“Senior Franklin!” Morgan’s face instantly darkened. “What do you mean? This child is from a family that our bluespirit academy is on good terms with...”

“Stop bullshitting with me!” Franklin directly interrupted the other party’s words. “The family that your Bluespirit Academy is on good terms with is not a bluespirit family, but an elf family. I’ve never heard of any Elf family that would nurture a developer. Tell me, which family did they nurture?”

“This has nothing to do with you, senior, right?” Morgan was not confident enough.

“Ha...” Franklin sneered. “Stop bullshitting. You have no idea. If I hadn’t stopped you just now, that Lass from Gale Academy would have snatched him away long ago. With your reaction, who would believe that you knew in advance?”

Morgan immediately felt guilty, but he still braced himself and said, “Even if I didn’t know, didn’t the child say it himself? It was our academy that was appointed.”

This time, Franklin directly ignored the other party, instead, he looked at Guo Xiaoyun. "Child, Your Future is your own. You Don't have to do everything according to Your Elders' wishes. You have excellent talent, but as a developer, you are definitely not a direct descendant of the family. Your position in the family is also a bit awkward, right?"

Guo Xiaoyun immediately fell silent. It was a bit troublesome to talk about her background...

Chapter 1409: Distribution (middle)

Seeing that the young developer was silent, a hint of a smile flashed across Franklin's eyes!

He naturally did not know the real situation of the other party, but the situation was not difficult to guess. The developer had an ancient bloodline, so it was impossible for him to pass it down like an ordinary bloodline. In fact, most families would not even conduct training experiments in this area, normally, those who used such bloodline genes would either be used by poor lords who did not have money to temporarily improve the quality of the aborigines, or some small families who lacked basic staff to temporarily train some Aborigines for use, basically, they would not be descendants of the family. Even the descendants of the collateral line would have the genes passed down from their parents. Even if they were illegitimate children, they would not choose such a bloodline that had an extremely low error tolerance rate.

Therefore, all the developers and the Green Titan, these ancient bloodlines, were basically born as Aborigines.

However, the universe was vast. Many times, there would be very few existences among the Aborigines who had a high compatibility with the ancient bloodlines. This would instantly raise the status of the Aborigines to a whole new level. However, the awkward thing was that the Aborigines were not descendants of the family. Under the circumstances of a sudden rise in power, it was very easy to be ostracized by the descendants of the Orthodox families. Therefore, most of these aborigines did not necessarily have a high recognition of the family... ..

If it was not the nurturing of a family, then it was the nurturing of a Lord. This was even easier to discuss. The academy had many benefits that could be exchanged with the heavenly god Lord. Even if the heavenly god Lord was from the Blue Spirit Academy, it was not impossible to bribe him, it only depended on the size of the benefits. Therefore, this student could still be fought for!

"Child, there's no need to rush. Take your time to think. Why Don't you first tell me who the elder who asked you to come is? I can communicate with him." Seeing that Guo Xiaoyun did not speak, Franklin patiently enticed her.

Guo Xiaoyun hesitated for a few seconds and said honestly, "My master brought me here. My Master is the Honorary Professor of the Spirit Department of the Blue Spirit Academy, Billy the Star Whisperer..."

As soon as he said this, Franklin's face froze. Morgan, on the other hand, was immediately energized, he clapped his hands and said, "So You're Professor Billy's disciple. No Wonder You're so outstanding. Child, come over quickly. I'll contact Professor Billy to wait for you in the Exhibition Hall!"

Flantlin frowned. The other party's elders, even if they were sky gods born in the Blue Spirit clan, could be discussed. After all, most of those who walked the path of sky gods were not direct descendants of the clan, and those who did not have a strong sense of identification with the clan were the majority, there was more or less some hope, but it was different for Billy.

She was a direct descendant of the Stargazer clan, and also an honorary professor of the Blue Spirit Academy. It was probably impossible to poach this child from her hands...

"Child, it seems that you have the mark of the god's contract on you. You should have been discovered by a god Lord, right? "You children should all come from the same planet, right?" Franklin refused to give up. "Who is your Lord Lord? I can discuss it with him!"

Although Guo Xiaoyun was still smiling, her heart tightened. She didn't expect the other party to think of this. This was going to be troublesome... ..

"From the same planet?" The surrounding teachers looked at each other and suddenly understood.

It was true. These children were all very talented, but judging from their bloodlines, they were all of ancient bloodlines. Obviously, they were not born in the direct line of the family, and they also knew each other. It was very likely that they were natives discovered by a deity overlord on the planet!

This was a little rare, but it was not completely unheard of.

This was because there were some ancient star bodies on some of the marginal planets. These star bodies would sometimes be exiled from the ancient times by some high-quality lifeforms, whether it was the Titan civilization or the elf civilization..., or perhaps it was the developer civilization that had this kind of situation at the edge of exile.

And these exiled ancient lifeforms had the opportunity to leave their direct descendants behind after the death of the marginal planet. Of course, after the suppression of the universal will, these descendants with the direct bloodline of the ancient lifeforms would also degenerate..., eventually, they would become mediocre.

This was also a myth that appeared in many indigenous planet civilizations, such as the birth of the descendants of the ancient gods, the union of the descendants with the natives to become demigods, and the weakening of the bloodline to withdraw from the stage of history, and so on, it all came from this.

Under such circumstances, there would be some descendants who would return to their ancestors at a particular time. If they were seen by the sky god Lord at this time and injected with pure genes, it was highly likely that they would completely fuse, and such a high quality ancient bloodline would appear.

However, such a situation was extremely rare. Moreover, it was even less likely that there would be a bunch of them. However, this did not mean that there would not be any. The situation before them meant that there was a lucky deity who had bumped into them!

Everyone's eyes immediately lit up. Under such circumstances, if they could contact the deity overlord of the other party, it was not impossible to discuss everything. It was likely that the Xandar Academy had made an agreement with the deity overlord of the other party for some benefit, only then could

they obtain those three top-grade Titans. If they could find out who the other party's deity Overlord was, it was not impossible to contact him in time and change the outcome!

At the thought of this, everyone looked at Guo Xiaoyun with burning eyes!

The hearts of the players behind Guo Xiaoyun tightened. They thought to themselves, it's over, boss has to hold on!

Before coming here, be it the Overlord or Ysera, they had repeatedly warned them not to reveal their origins. If they did not hold on, they would be in big trouble!

"I'm sorry..." Guo Xiaoyun shook his head. "The Overlord had warned us before coming here not to reveal our origins!"

When he said this, the faces of the players behind him twitched. The boss was really direct... ..

However, these words made the eyes of the group of instructors light up, especially Flintstone!

A deity overlord who did not dare to reveal his origins? ! There was probably only one situation, and that was that this deity was a little deity who did not have any background!

He had accidentally found a small planet with a boundary element, and luckily found a group of natives who had just awakened! !

This was good news. It was best to control this kind of small lord with no background. As long as he could contact the other party, whether it was coercion or enticement, it would be easy to manipulate!

Franklin's heart jolted. Just as he was about to continue asking questions, a muffled voice suddenly sounded, "Franklin, you're going too far!"

Franklin frowned and turned his head. The person who spoke was the principal of Xandar Academy.

"What does it have to do with you?" Franklin asked coldly.

"Of course it has to do with me!" Principal Xandar said seriously, "Their lord and our academy have a contractual relationship. They are partners. If you force them to ask about their origins, I will naturally take care of it!"

As he said that, he looked at the fifth Lord, ILUWETA, and said, "Sir, the God of Heaven's ordinance clearly states that the new lord's whereabouts are protected. Even the Galactic Federation itself is not allowed to investigate the new lord's origins and coordinates. I remember this rule correctly, right?"

Iluweta smiled gently and said, "It's like this..."

When Franklin heard this, his face immediately darkened, and he hurriedly said, "I don't mean any harm..."

"Whether you do or not, this is against the rules!" Principal Xandar said, "We were able to sign a contract with that Lord because he came to us of his own accord. By interrogating him like this, no matter what you're planning, it's against the rules. You Don't deny this, do you?"

Franklin choked and couldn't refute at once. The martial arts school instructors who were planning to do the same immediately frowned.

The other party had brought out such a big name, and there was also a top-tier sky god Lord here. They really could not refute... ..

In the midst of the stalemate, Iluweta finally spoke. He looked at Franklin gently and said, "Some things are not easy to force. Since it has come to this point, it's about time..."

Once these words were said, Franklin's heart sank to the bottom. On the other side, Guo Xiaoyun secretly heaved a sigh of relief.

Fortunately, Seer had cooperated with a strong partner. Otherwise, it would have been a little difficult today... ..

Thinking of this, Guo Xiaoyun did not dare to stay too long. She quickly went forward and said, "Teacher Morgan, may we leave now?"

"Of course!" Morgan immediately smiled from ear to ear. With Lord Iluweta's words, this matter was basically settled. Bringing back such a high-quality child would be a great merit!

Thanks to Billy, this guy had been working outside all year round and did not return to school. He had finally settled some personnel matters.

"Wait a minute..."

Just as Guo Xiaoyun was about to leave, a voice called out to her from behind. Xiaoyun turned around curiously and looked at the person who called her. It was one of the players who had come together: Chen Yutong!

"Can You Bring Me Along?" Chen Yutong said with a smile.

Chapter 1410: Distribution (below)

"Of course! !"

When Morgan heard this, he was so excited that his heart was about to jump out of his throat!

Out of this bunch of geniuses, any one of them would be treated as a trump card to be nurtured. The surrounding teachers from the top 100 academies were all rubbing their hands in anticipation, he was already satisfied that he was able to snatch this developer who was the most suitable for the bluespirit academy from Franklin's hands. He didn't even dare to think about anything else as he wanted to leave as soon as possible without seeing him bring Guo Xiaoyun along?

However, he didn't expect that there would be someone who was rushing to his door just as he was about to leave!

Moreover, it was also very suitable for the characteristics of their academy.

The child who took the initiative to speak was a humanoid elf. One look and one could tell that he was born in the Agility Department. There were many paths that this type of elf could take, those who took the agility department could take the warrior, assassin, martial monk, weapon master, and other skill-based paths. And in their bluespirit academy, this type of humanoid Elf was the best mecha operator seedling!

The mecha department was divided into two paths. One was the path of the Master of the mind. Normally, they would recruit spirit department students, with the Master of the mind course as the main course and the mecha structure as the support. After graduating, these mecha masters would usually join the heavenly god Lord's mecha team, after becoming a member of the army, they would move towards the path of a commander.

Their advantage was that they had mastered the art of the mind. It was easy to communicate with them in a team. They were the most favorite type in the army. Many of the students from the Department of the mind mecha would be snatched up by the various lords when they went out, once they graduated, they would be able to get a position as a mecha captain among the small and medium-sized lords.

After all, spiritual mecha masters who could open spiritual links had a natural advantage when it came to commanding and teamwork!

However, there was usually a second system in the Mecha Academy. That was the operating style!

The students that were recruited were all highly agile lifeforms. The target of their training was ace Mecha Masters!

This type of students were completely different from those in the soul system. They pursued the highest level of individual control. After graduating, these students would usually serve as special forces members of the Special Forces under the banner of the Lord, they were similar to the existence of the king of soldiers in the D Ball Army!

This type of people might not be as good as the soul mecha system in terms of teamwork, but their individual combat ability was extremely strong. The forces would often equip them with extremely high-level unique mecha, and they would often perform some high-difficulty special-class missions, they belonged to the special forces.

The Spirit Mecha Department of the Blue Spirit Academy was the ace, but the operating mecha department was also a fist-fighting specialty. Naturally, they also had a great need for this kind of high-quality humanoid elf. Previously, when Morgan felt that he could not win against Franklin..., in fact, he had secretly taken note of this humanoid elf.

But he did not expect that this time, they would have a double harvest!

“Eh?”

Compared to Morgan's surprise, Guo Xiaoyun was a little surprised. She looked at the other party curiously. “Aren't you going to look at the others?”

“No Need!” Chen Yutong scratched his head and smiled. “I have always wanted to be a mecha operator. It just so happens that I can be with you, boss. I can take care of you, right?”

“Is that so?” Guo Xiaoyun tilted her head. Why did this guy suddenly want to follow her. In his impression, the other party didn’t seem to be very familiar with him. Among the few old players, the ones who were closest to him were the two B \* stars, and then... ..

Eh?

Guo Xiaoyun was suddenly stunned. That strange feeling once again struck his heart. He felt as if something had been lost in his memory?

Did he forget something?

Chen Yutong was smiling on the surface, but in his heart, he became nervous. He said anxiously in the dark, “Boss, quickly remember, someone among us has been lost! !”

Actually, when Chen Yutong came out of the space, he already felt that something was wrong. Xiao Baicai had obviously disappeared, but all the players, including Pu Yunchuan, who had the best relationship with Xiao Baicai, did not react at all.

What was going on?

This inexplicable strangeness made her heart go cold. She chose to go with Guo Xiaoyun because she wanted the most reliable person in the team to secretly communicate with her.

However, it seemed that Guo Xiaoyun couldn’t remember it at all!

What should she do?

While Chen Yutong was secretly anxious, Yiluweta, who was not far away, looked at her with interest.

Space-time talent? interesting...

These little guys were really more talented than one another. As expected of the children who grew up together by the side of the imperial bloodline. Unfortunately, they couldn’t let all of you gather together. It was too eye-catching...

“Alright...” Iluweta smiled and interrupted the two little fellows. “I have some other matters to attend to here. I Can’t keep delaying. Let’s finish distributing them as soon as possible. Among you, is there anyone else who wants to go to the Indigo Spirit Academy?”

The group of players were instantly stunned. Meanwhile, the hearts of the instructors tightened as they glared fiercely at Morgan. Was it really hot enough to take one away?

Morgan was being stared at by everyone, but at this moment, he naturally could not back down. He looked at another human-shaped elf: Feng Dou Dou.

From his professional perspective, Feng Dou dou seemed to be a mutant, but his body was suitable for becoming a mecha operator.

Feng Dou saw the other party looking over and frowned. He smiled politely and shook his head.

She wasn't interested in the mecha operator profession. Not only did this job require one to be proficient in all kinds of combat and weapon operations, it also required one to learn all kinds of mechanical knowledge. She wasn't interested in such a complicated profession.

"I want to take a look around..." Feng Doudou said directly.

The teachers' eyes lit up when they heard this. Finally, there was one that wasn't designated. I'll fight for it later!

Iluweta looked at the other players. "What about you guys?"

The remaining players looked at each other. In the end, they were like Feng Doudou. They said that they would look at it carefully before making a choice. Now that four or five players were free to choose, the teachers became excited.

Iluweta nodded, but she suddenly smiled and said, "That Little Phoenix, do you have any choices that you like?"

Little Phoenix?

The players were stunned, and then they all looked at their grandfather. Grandfather Lu looked at the other party with a dumbfounded expression, and saw that the other party was looking at him with a smile, immediately, he scratched his head embarrassedly and said, "Er... I don't know either. I should go around and find out, right?"

"In that case, how about I recommend a family to you?" Yiluweta smiled and said.

"Please speak, Senior!" Grandpa Lu tactfully nodded and said.

This fellow who wore a mask just like the Lord was obviously a top-notch big shot. It was better for him to take it easy on the other party's territory and be well-behaved.

Compared to Grandpa Lu who was well-behaved, the other instructors frowned, especially Frantlin, whose expression turned extremely ugly.

Could it be that this fellow, Iluweta, was trying to snatch this Phoenix?

These little fellows were all astonishingly talented, but there weren't many who were suitable for their spark academy. Other than the developer, there was also this pair of phoenix species that had extremely high affinity with the elements!

However, the Phoenix belonged to the elven species. If he wanted to snatch the advantage from the starry sky academy, it wouldn't be much. This was because in terms of elven nurturing, the Starry Sky Academy clearly had more authority. Moreover, it was the fifth overlord who had personally spoken... ..

Was he going to return empty-handed today?

Thinking of this, Franklin was extremely depressed. He had put in the most effort, and he didn't hesitate to shed all pretense of cordiality with that girl from Gale Academy, but in the end, he didn't get any benefits at all? No one could understand this.

While he was depressed, he heard ILUWETA smile and say, "Spark Academy is a Top Arcana Academy. Little Phoenix, are you interested in learning more about it?"

"Huh?"

Everyone was stunned. They did not expect iluweta to recommend other academies!

The most surprised one was Franklin. He turned around and looked at Iluweta in surprise.

Iluweta's smile did not change. She looked at Grandpa Lu gently... ..

"Huh?" Grandpa Lu scratched his head foolishly. "I. . . I don't know much about it. Is It Good?"

"It's good...". "I think your elders have told you about the long-standing Arcana Academy, Right?" Llewita smiled "It's one of the Top Arcana Academies in the Federation. Many arcana majors are ranked in the top three in the federation, but it's a rare good academy. If the phoenix seed doesn't want to become a Master Phantom Beast, then becoming an arcanist is the best way!"

"Oh, is that so?" His grandpa suddenly grinned. "Master, I actually like it!"

Hearing that, Iluweta nodded with a smile, and then looked at Franklin. "In that case, why don't you take this child to visit it when you're free, Professor Franklin?"

Franklin recovered from his daze, and quickly saluted Iluweta. "Thank you, my Lord!"

He didn't expect that the other party would give him the Phoenix. The Phoenix was the most popular xenogeneic in the ELF Academy, even for a school like Starry Sky Academy that valued its own bloodline, it was also very generous to the Phoenix Department.

But he didn't expect that the other party would give it to him!

This was an absolute surprise. The Phoenix Element had a very high affinity. Although it wasn't as versatile as the developer, it was very useful in the field that suited its own element. As a student of the Arcana department., the Phoenix was also a very popular species.

However, most of the Phoenixes came from elven nobles, and most of the schools they chose were elven schools. They rarely chose external schools.

The other party had given this seedling to him this time. It was a big favor, and Franklin naturally had to thank him... ..

After thanking him, Franklin could not wait to wave at his grandfather. "Child, come here. I'll take you to see it. Believe me, Our Spark Academy will never let you down..."

His grandfather was stunned for a moment. He looked at Guo Xiaoyun, who nodded secretly. His grandfather then smiled and replied, "Alright!" Then, he flew over with a crooked posture.

Franklin caught him and smiled. "You Little Fellow, what did the elders feed you? The energy in your body is so excessive. It's like a flying pig..."

His grandpa chuckled embarrassedly. The energy it absorbed was a mess. Ysera had spent more than a month to help him digest it, and now there was still a lot of energy accumulated into fat that was difficult to digest. It did look like a fat chicken... ..

“Sir...”

Looking at the smiling Franklin, Vinos, the priest behind iluweta, frowned and whispered, “The quality of this phoenix is very high. Is it going to be given away just like that?”

She could see that although the energy in the Phoenix’s body was a little mixed, its phoenix bones were very good. It was probably not inferior to the icy heart phoenix in the Fortel family a few days ago. It really made her heart ache to give away such a good seedling... ..

“There’s no other way...”ILUWETA replied with a helpless tone, “I was dragged here to preside over justice. How can I preside over it if I’m going to personally snatch people away?”

“But this...”

“Alright...”iluweta smiled and said, “There’s no need to be too anxious. Although these children are highly talented, it’s only relative. I believe that the descendants of the royal family of our generation will definitely not be upstaged...”

“That’s true...”venos frowned, the descendants of the royal family of the starry sky were extremely talented. Other than Crown Prince Tyrande, the other seeded contestants all had the potential of the previous crown princes. Naturally, they were only stronger than these little fellows in front of them.

However, no one would complain about having too many good seedlings. How could they give all of them away? Sir’s personality was still a little too gentle. That Fellow, Franklin, did not have much interaction with the starry skies clan. Why did he have to give them so much face?

However, thinking about it, Sir’s words had already been spoken. Venos naturally could not question Sir’s words in public. He could only feel his heart ache... ..

Iluweta looked at the planet’s chief executive with a smile and said, “It seems that the matter has been settled smoothly. I still have some other matters here, so I’ll take my leave first...”

“Oh, your excellency is leaving already?”The chief executive quickly said, “I’ve troubled your excellency so much, and I haven’t even had the chance to enjoy the hospitality of a landlord. If your excellency doesn’t mind, how about staying for a simple meal? “I have the origin wine from the previous era in my collection...”. “...”. “...”

“Oh?”When Iluweta heard that, her eyebrows twitched. “That’s a good thing!”

The chief executive quickly said, “It’s good that you like it. If you don’t have any objections, I’ll ask someone to arrange a banquet right now?”

“That’s fine too...”Iluweta didn’t refuse. She smiled and said, “Then I’ll go to the Starry Sky Academy’s Exhibition Hall to have a look first. When it’s time for dinner, just call me. Sorry to bother you...”

“It’s nothing, sir is too polite. This time, it’s all thanks to sir. Otherwise, there might be a big mess...”the chief executive hurriedly said with a smile.

After exchanging a few more words, ILUWETA glanced at instructor dijia and the others from the Starry Sky Academy. "The two of you come with me. I have something to ask you."

As she spoke, she beckoned with her hand and directly teleported dijia and the others away before they could react. At the side, the starry sky priest Vinos was momentarily stunned. He was just about to catch up when he was suddenly blocked by a pair of tender white hands.

The person who stopped her was tooth spirit.

"My lord clearly has something to ask them alone. Why are you following them?" Tooth Spirit said with a displeased expression.

Venus:"..."
