

## A Bunch 1411

### Chapter 1411: Stance!

Venos looked at the tooth spirit in silence. He had been with the tooth spirit for many years and knew that the tooth spirit was not targeting him. It was just a subconscious reaction. As a guard, the Lord clearly wanted to speak to him alone, there was no problem in stopping the others.

But was he someone else?

“Tooth spirit...” Venos stared at the tooth spirit and said, “You... Do you know something?”

The tooth spirit widened her eyes and looked at her with a strange expression. “What the hell are you talking about?”

Venos looked at her. As usual, there was no hidden intention on her face, but she knew that it was not the case. The tooth spirit was never as simple as she looked.

The title of the number one ranger of the Star Elves was not something that could be obtained just by being good at fighting. This guy was also a top-notch figure who had survived the natural disaster period. He had killed his way through mountains of corpses and seas of blood, how could he really be a person who could not simply hide things?

“Sir... why are you avoiding us?” Venos asked in a low voice.

“Sir, you can do whatever you want. Since when do I need to explain myself to you?” The tooth spirit frowned. “I say... Are You in the wrong place?”

Venos was silent for a few seconds, and in the end, he could not help but say, “But Sir has never avoided me...”

“Your tone... makes it sound like you’re my Lord’s wife...” the tooth spirit looked disdainful. “My lord often avoids you, okay? It’s just that you don’t know...”

“Eh?” Venos was stunned. Was that so?

“Tch!” The tooth spirit rolled her eyes. “You don’t really think that my lord never leaves your side, do you?”

Venos: “...”

“Forget it...” Venos covered his forehead as if he was a little embarrassed. “I’ll go take a look at the exhibition hall. You stay here and guard the lord well. Don’t make any mistakes...”

“Don’t talk like you’re giving orders...” the tooth spirit glared at the other party. “We’re on the same level!”

Venos did not continue to pay attention to the other party. With a step, he disappeared on the spot. After the other party left, the expression on the tooth spirit’s face instantly disappeared. She looked at Venos who had left with a complicated expression.

“This guy... is still so sensitive...”

-----

After Venos left, the first thing he did was to arrive at the Starry Sky Academy's Exhibition Hall.

As usual, the wealthy and imposing starry sky academy had arranged the folded space that belonged to their academy to be extremely luxurious. They wanted to try their best to display the aristocratic aura within the Starry Sky Academy, the history and environment displayed were the latest embellishment technology. It allowed the new students to experience the campus environment and the magnificent history as if they were there in person!

After entering the hall, a few staff members who were in charge of the hall layout hurriedly went forward and saluted.

Venos recruited a few staff members to inquire about what had happened in the morning.

However, there were no results. As a top-tier academy that was second only to the Federation Academy, Starry Sky Academy had never paid much attention to the campus party. The only teachers that were sent to take charge were Elina and Vynox, the rest were just some ordinary staff members.

Regarding the disturbance of snatching students from the passage, these ordinary staff members couldn't even get close to it. They didn't know the specific situation at all. In fact, they weren't even as clear as Vynos himself.

This made Vynos frown even more.

When they were outside Kandarstan planet, Elina's communication sounded very nervous. She requested for SIR to stop that Lass from Gale Academy. That group of highly-qualified little fellows indeed had the value of stopping them. But none of the adults... .

I mean, it's okay to say that you're a fair host and you can't steal people from other schools in public, but something just doesn't feel right.

Especially at the end, the sudden need to take Elaine alone for questioning, the more suspicious...

My Lord... What are you trying to hide from her?

-----

On the other side, Elina and Yas stood trembling in front of Iluvita, their heads bowed, their expressions tense.

Although ILUWETA's expression was as gentle as usual, for some reason, her aura suddenly became a little solemn... ..

After about 15 minutes, a green figure appeared behind Iluweta as if he had teleported. He asked softly, “Sir, I'm back...”

The person who came was the tooth spirit who had stopped Venos earlier...

Iluweta nodded. “What did that child Venos Say?”

“She complained a little and went to the exhibition hall...”the tooth spirit said respectfully, “But... she has doubts in her heart...”

Iluweta smiled. “It’s abnormal for her to not have doubts with her character...”

“That’s true...”the tooth spirit also grinned, but then she said doubtfully, “My Lord... is there a need to hide it from her? Venos’loyalty to you is beyond doubt...”

Ilovita smiled and looked at the quiet starry sky. After a long while, she said faintly, “Her loyalty to the royal family of the Stars is unquestionable...”

“Isn’t it the same?”The tooth spirit tilted her head.

“It’s not the same...”. Ilovita shook her head. “I’m the Guardian of the royal family of the Elves, and this identity has never changed. The royal family of the Stars doesn’t represent the royal family of the Elves. I’ve said this a long time ago, but it’s just that it’s been too long, and the power hierarchy has been formed. The entire Elf clan of the Stars regards themselves as the royal family and has forgotten what I’ve said before “... “...”

As soon as she said that, Elina and the other two teachers lowered their heads even more as cold sweat trickled down their backs... ..

“Sir, do you think that the current Starry Sky Royal Family will not listen to you?”The tooth spirit did not shy away from asking.

“When the interests are aligned, they will...”iluweta smiled and said, “When the interests are not aligned, it may not be so...”

The tooth spirit nodded, while the other two Elina’s and ivory’s faces turned pale. These words were not something they should listen to!

“You two did well...”Llewita looked at the two of them, “At least you didn’t choose to hide the truth or do something that you shouldn’t...”

“My Lord! !”The two of them fell to their knees with a plop, pressing their heads on the ground!

“Don’t be nervous...”iluweta smiled, “You made the right choice, so your future will not be dark, ya...”saying that, ILUWETA nodded to ya.

Ya understood and slowly walked forward, pressing his hands on the two people’s heads on the ground. A law that was obviously different from this world slowly flowed.

Elina and Yilina closed their eyes tightly and did not resist at all. They also knew what the Lord wanted to do... ..

The reason why the Lord Tooth Spirit looked like a child was because of her rare bloodline. Not only did she have the outstanding ranger bloodline of the Tataya family, but she also had half of the blood of the fairy race!

Yes, the tooth spirit was a hybrid of the space elves and the fairy race. Moreover, she was an extremely rare dual-bloodline balanced person. Many people only remembered that the tooth spirit was the

number one ranger of the space race, but very few people remembered it, she was also a fairy who could change their memories!

Llewita retracted her gaze and looked at the little flower spirit in the space ring with incomparable gentleness, who was curled up into a ball and shivering... ..

Chapter 1412: Little Cabbage's despair

"By the way... What's going on?"

Little cabbage suddenly felt that the world was targeting her. Why was it that whenever she arrived at a new place, she would always be the first to get into trouble. She was clearly a salted fish... ..

In an incomparably bright spatial ring, there was the most comfortable light and the clear and sweet air that had been prepared. The environment was comparable to a resort on a grade-3 planet.

However, in such an environment, little cabbage was still trembling with a wronged expression on her face.

Even now, she still didn't understand what was going on...

Everyone was clearly taken away by teacher Wayne's master together. Everyone was clearly in the same place, so why did this guy only want to capture her?

Was it because she was fatter?

Little cabbage still remembered the despair at that time...

She remembered that time...

..

"Hey, what's going on?" The players who were packed together piled up in the space ring and looked at each other. After a long time, Pu Yunchuan finally couldn't help but say, "Doggie!"

"Why are you asking me? How would I know?" Doggie looked innocent... ..

"Who else would you ask?" Grandpa Lu also flapped his little wings. "Isn't that your master?"

"Grandmaster!" Goudan corrected him. "It's the first time I've seen her since a generation ago. How would I know what's wrong with her?"

"Stop arguing. Your Head Hurts!" Rainwoman wugua patted Goudan's head.

Goudan immediately became obedient. He looked at Guo Xiaoyun and said, "Boss, what do you think?"

"What can I think?" Rainy Girl rolled her eyes at him. "Under the circumstance of insufficient information, no matter how good your brain is, it's still empty."

The people around him were speechless. Indeed, this was the first time that they had come to this place, so they were indeed dumbfounded when they encountered such a situation.

“However, I have a slight guess. Whether it’s correct or not is another matter...” Guo Xiaoyun could not help but say in the end when he saw that everyone was panicking.

“Boss, you tell me!” Goudan and the others’ eyes immediately lit up. They needed a backbone right now. It did not matter even if what they said was wrong. At least they would have a solution.

Guo Xiaoyun sighed. “I did receive some information about the outside world. Didn’t boss see and Xandar Academy cooperate before? At that time, they left a group of developers there...”

“That’s right!” Goudan immediately clapped his hands. “I remember everything. It seems that ice cap is there too, right?”

Ice Cap was a major shareholder of the Eastern Sea port faction. As one of the shareholders of the Eastern Sea faction, Li Goudan naturally heard about it... ..

Then, he turned to look at Bing Guo. After ice cap left, the daily management of the Eastern Sea port faction was handed over to Bing Guo, who had the siren bloodline. It was said that the two of them were blood-related siblings in real life. They should be related, right?

Bing guo saw Goudan looking at her and scratched her head in embarrassment. “Brother mentioned something in the email. It seems that they have encountered this kind of situation there before, where a few instructors fought over it...”

“So I think...” Guo Xiaoyun narrowed her eyes and said, “US Central China players might not only have outstanding talent in the D Sphere, but also in the outside world...”

“Really?” Everyone’s eyes immediately lit up!

After all, they had just come out to explore the world. Although their ambitions were high, they couldn’t help but feel a little uneasy. After all, it was the legendary Sea of stars. It was very uncertain whether they were outstanding at home or outside.

It was just like when they were among the best in their class when they were young. After they were admitted to a key experimental high school, they found that any one of them could crush them. The feeling of falling behind was very great.

After he had mentally prepared himself for falling behind, he realized that he was still pretty awesome here. Naturally, the feeling was different... ..

“But don’t be too proud...” Guo Xiaoyun reminded, “Remember what seer reminded us. The outside world is vast and there are endless opportunities. However, there are also many dangers. Outside the Milky Way, we only have one life!”

Hearing this, everyone came back to their senses and became a little nervous. After all, this Dogsh \* T’s Grandmaster seemed to be a little extreme. It was not a good thing to meet such a person in this kind of place that could not be resurrected... ..

While everyone was discussing, Xiao Bai Cai looked to the other side in shock...

“Hey, I said...”

“Oh right, when we are released later, be more obedient...” Guo Xiaoyun narrowed her eyes and said, “We will do whatever that woman says. Don’t refute her...”

Little cabbage: “Hey... I say...”

“Is that so? But we have been assigned to other academies!” Pu Yunchuan scratched his head. “Aren’t We Titans going to that Xandar Academy?”

Little cabbage: “Hey, Hey... I say...”

“Then don’t worry about it for now!” Guo Xiaoyun analyzed seriously. “Everything will be settled by the higher-ups. What we need to do is not to stir up too much emotion from the other party. For such a character, any random thought could cause danger to us. Ensuring our own safety is the first priority...”  
... “...”

“Hey! ! Can’t you see? Someone is coming! !” Bai Cai finally couldn’t help but shout... ..

At some point in time, a guy wearing a white robe and a mask appeared in the space inexplicably and walked toward his group. However, the people around him, whether it was the wise boss rain woman or the jumpy dog egg... Or Leng Xing and the others, none of them reacted as if they couldn’t see the other party... ..

Something strange happened...

Xiao Bai Cai suddenly realized that even though she shouted, no one around her paid attention to her, as if she didn’t exist... ..

“Hey, Hey?” Xiao Bai Cai suddenly realized that something was wrong and quickly pulled Pu Yunchuan. “What are you doing?”

Pu Yunchuan was pulled, but it was as if he was completely unconscious. He continued to talk to the other players... ..

What was going on?

Little cabbage instantly became nervous. Seeing the white figure getting closer and closer, he quickly arched his body and shrank back!

He kept praying in his heart that this guy was not looking for him, not looking for him!

However, many times, the more you did not want something to happen, the faster it would come... ..

The slender white figure walked to the side of the group of players and stopped. After sizing up the others, he focused his gaze on himself and reached out his hand without hesitation... ..

“WUUU! !” Little cabbage bared her teeth and threatened the other party, wanting to make the other party retreat!

However, this threatening action seemed to have no effect at all. A trace of a smile flashed across Xiao Baicai’s lips. She gently stroked Xiao Baicai’s dog head and lifted her up like she was grabbing a kitten!

“Hey, I said...” after Xiao Baicai realized that she couldn’t resist, she looked at Guo Xiaoyun with the last bit of hope. “Boss...”

Guo Xiaoyun didn’t respond...

“Gou Dan!”

Gou Dan didn’t respond either...

“I say... can you really not see it? I’m going to be kidnapped, I’m really going to be kidnapped! You... can you really not see it?”

Chapter 1413: This is the real royal family!

“HMM?”

At this moment, in the distant Jade starry sky, Ysera, who had been sleeping leisurely under the Sun, suddenly opened his eyes. His huge green eyes scared brother dog, who was practicing the ancient art beside him, to the point that he almost jumped up!

“Sir Dragon King...” brother dog covered his chest and said, “Can you not be so surprised all of a sudden? Do you know how terrifying it is when your eyes suddenly become round, as if you want to eat people...”

Ysera’s emerald eyes rolled up and he could not be bothered with the other party. Instead, he looked at Seer, who was playing King’s pesticide in the distance...

“The seal has been broken!”

“Eh?” Seer was stunned for a moment and put down the game console in his hand. He sat up and asked, “What Seal?”

Ysera sighed and looked at the two heartless people and said, “What other seal can there be? Of course, it’s the illusion seal of those little guys’ growth rings!”

“No Way?” Seer was stunned. Ysera was known as the king of the Emerald Dream Realm. This depended on her dragon talent, which was illusion. Yes, as a Dragon King, Ysera’s most outstanding talent was her illusion talent, an illusion seal of a tianyuan-level Dragon King, which was long in illusion, was broken?

“Who broke it?” Seer could not help but ask.

“This power...” Ysera smiled bitterly and said, “If I’m not wrong, it should be that guy. It’s a bit troublesome. That guy can’t even wake up once in an era, but he was actually met. It’s really...”

Brother Dog did not understand half of it. In the end, he could only ask in a daze, “Who’s in trouble?”

Seer closed her eyes to sense for a while and then said, “Little cabbage!”

Brother Dog was stunned. “Why is it her again?”

— — — —

“Child, don’t be afraid...”

At this moment, in an absolutely enclosed space, ILUWETA finally released little cabbage. Looking at the shivering little cabbage, Iluweta's heart tightened, and she hurriedly went forward to comfort her.

Little cabbage raised her head warily and looked at this baffling fellow!

He told her not to be afraid, how could she not be afraid? This was not the first time this cabbage had experienced a kidnapping incident. It had never been so strange!

The previous few times were considered normal, but this time it was simply a supernatural incident. The group of players seemed to have completely forgotten about her!

At that time in Kandarstan, although she was trapped in this inexplicable space, she could still see the situation outside. The group of players outside was being fought over by numerous academy instructors, and in the end, they chose their own academy with Peace of mind. However, from Guo Xiaoyun to Gou Dan, this heartless person, he did not seem to notice that she had disappeared... ..

No, he did not remember her at all! !

This strange situation, which was forgotten by everyone, made little cabbage feel a little afraid for the first time. This situation was really too terrifying!

“Wu...”

Faced with the approaching Iluweta, little cabbage revealed her fierce look for the first time. With an expression of ‘I’ll bite you if you approach me’, she warned the other party once again!

Iluweta, on the other hand, was slightly stunned. Her eyes were surprised at first, then revealed a pleasantly surprised expression!

This obvious emotional fluctuation caused the tooth spirit standing behind her to be stunned for a moment. It had been a long time since she had seen her lord have such an emotional fluctuation... ..

However, what made her even more concerned was the little fellow's attitude towards her lord.

This was the first time she had seen someone who was afraid of her Lord...

Lord Iluweta was the strongest flower spirit in the world. She had an incomparable attraction towards all living things in the world. Although her lord's life force was incomparably strong, any living creature would feel an uncontrollable sense of closeness towards her lord, this stemmed from the greed and dependence of all living things on top-tier flower spirits.

Her lord's affinity could only be resisted by the ten great lords of the same level. This was the difference in levels. Even if she didn't completely concentrate, she wouldn't be able to resist it.

But this little guy easily canceled it out...

She was afraid of the Lord, she canceled out the Lord's affinity towards all living things, according to the laws of universe life forms, there was only one possibility... ..

This little guy... His level was above the Lord! ! !

“Child...”Iluweta suppressed the joy in her heart, trying her best to calm down and comfort him, “Don’t be nervous, I didn’t mean any harm...”

“Humph...”little cabbage continued to shrink back. “You mean no harm just because you mean no harm? Not only did you kidnap me, but you also made my friends Forget About Me, you big bad! !”

“Oh?”The tooth spirit was even more surprised and looked at iluweta. “Sir, she... she remembers...”

“Of course she remembers...”the smile in Iluweta’s eyes grew wider. “The three elven royals can not be tampered with by the fairy race, have you forgotten?”

The tooth spirit was stunned. He immediately looked at little cabbage and muttered, “This little guy is really... ?”

“It can’t be wrong!”Iluweta said firmly, “This feeling can’t be wrong. I will never forget it...”. “...”Iluweta pointed at little cabbage’s pair of emerald eyes that seemed to contain the source of life and said, “This pair of pupil patterns that only belongs to the wood elven royalty can not be wrong “! !”

Perhaps it was because she was too excited, the entire space began to move. In an instant, everything resonated! !

“My Lord?”The tooth spirit quickly said, “You...”

She was about to say that she did not need to be excited, but an even stranger scene appeared before her eyes!

In the instant that her lord resonated with everything, the little fellow in front of her suddenly had a dazed look in her eyes. She sat on the spot in a daze, looking rather innocent.

However, everything behind her did not seem innocent at all.

In this space, countless ancient objects surrounded the little girl and protected her behind. They faced her lordship with a never-before-seen hostility! !

This scene instantly stunned the tooth spirit! !

This space was called the mountain and Sea Scroll. It was a chaotic space that her lordship had taken from the ancient lands. It was a primitive land that preserved ancient spirits. It had always been sealed by her lordship in a top-notch spatial device.

The reason why he had done so was that he hoped that in this primitive land that preserved the ancient spirits, he could revive the elves once again, giving them a chance to give birth to the most ancient elven bodies... ..

The ancient spirits in this chaotic space were all ancient objects that retained the most ancient chaotic consciousness. They followed their instincts, and were not contaminated by any civilization. Therefore, although these creatures were powerful., they did not have overly complicated thoughts and only followed the most primitive biological instincts.

Among the most primitive biological instincts, Iluweta was the powerful flower spirit. She was the one that should be protected by these ancient spirits. However, at this moment, all the creatures were standing on the opposite side of the Lord!

And the little fellow who was sitting there in a daze had become the king that all creatures supported!

The tooth spirit was stunned, almost unable to believe her own eyes. If she had not seen it with her own eyes, even if the Lord had told her personally, she would not have believed that such a thing could happen in this world!

“Do you see it? Tooth!” Iluweta opened her arms, her voice filled with uncontrollable excitement. “Do you see it? This... is the real royal family! !”

Tooth spirit nodded in a daze, like a puppet. She finally understood why her highness Diana, who was known as the most outstanding crown prince in the past generations, still could not enter her Highness’s eyes... ..

Because... .. Her Highness came from that era, and had seen the most outstanding existence of that era, and had seen the pinnacle of the Elves!

And this pinnacle that her highness could not forget, finally... ! ... appeared again!

Chapter 1414: the Chief Executive’s recommendation... ..

“Sir, Please Wait a moment! !”

After settling the matter, Sartorius, who was about to return to the administrative hall, suddenly heard someone call out to him. He was stunned for a moment before he turned around and realized that the person who called out to him was one of the group of extremely talented little fellows.

At this moment, as a large number of players had already been booked, the remaining few became even rarer. As a result, every player would be followed by a large number of instructors wherever they went. It was as if the stars were supporting the Moon. It looked extremely exaggerated... ..

“Why did you two little fellows call me?”

Sartorius looked at the two little fellows in front of him curiously and asked with interest.

The two people who took the initiative to look for the chief administrator were Yun Ji Mu and Wang Chengbo.

Sartorius sized up the two little fellows and was secretly amazed...

He really did not know which God lord was so lucky to find a native with ancient descendants like the Green Titan and the wood elves. To think that they even had dark descendants and star spirits... ..

These two species were rare. They were the two most powerful factions that harvested star cores back then. The fact that the Titan race was able to appear so quickly was definitely related to these two extreme factions... ..

Back then, under the will of the universe, the bloodlines of these two factions were the most thoroughly exterminated. The federation only discovered a large amount of ancient genes in this aspect after developing the ancient lands, but very few people were willing to nurture them.

The reason was very simple. Although ancient species like the Green Titan and the elves had low acceptance rates, their value ratios were not low. Even if it was just one or two levels, it would still be a huge improvement for ordinary natives, therefore, many poor traveling lords would purchase these two types of genes to raise the quality of the natives. Raising their overall quality would be very useful.

If one was lucky and met a few with high compatibility, nurturing them would be equivalent to a pure profit.

However, dark descendants and star spirits were different. Before Level 5, the quality of life of these two races was not that great. Star spirits were slightly better, and they could even inherit some talent for refining materials. Dark descendants, on the other hand, had no value-for-money ratio at all, their early attributes were extremely weak, almost stronger than low-level genes like goblins. Moreover, their growth was just like the Green Titan, which consumed a lot of resources. After reaching level 5, their combat power would greatly increase after possessing spirit forging ability, however, how could an ordinary native reach this level?

Therefore, without the help of a deity overlord, the dark-descendant's genes were very unpopular. If the family did not nurture them, and the deity did not nurture them, the possibility of talents in this area would naturally be even less... ..

"That... Sir is the planet's Lord, Right?" Wang Chengbo rubbed his head and smiled as he greeted him.

"Didn't your Lord tell you the title of Chief Executive?" Sartreus laughed. "It can't be that your Lord hasn't set up this position yet, right? Is He really a newbie?"

"Hehe..." Wang Chengbo cupped his head and laughed foolishly, not saying a word. Before coming, Ysera had repeatedly warned him not to reveal information about his lord. Otherwise, the consequences would be very serious. Wang Chengbo was not a person who was good at making up stories. Since he could not reveal it, he could only play dumb... ..

Sartreus smiled indifferently when he saw this. He did not have the interest to inquire about other people's secrets. The administrative officials of the middle star field belonged to the officials of the federation, and they paid the most attention to the rules. If they were found out that they were secretly inquiring about the whereabouts of the novice deity, then... This was the end of his role as the administrative chief... ..

"Tell me, why are you looking for me?"

"Hehe..." Wang Chengbo smiled and said, "It's like this. We are new here, and we are not familiar with this place. The instructors here are too enthusiastic, so it's really not a good choice. Since we are in a difficult situation, we can only trouble you again..."

"Hehe..." Sartreus smiled and said, "You're not polite at all..."

"Sorry to trouble you, Sir..." Wang Chengbo smiled foolishly.

“HMPH... It’s good that you know!” Sartreus rolled his eyes at him. “I really don’t know what your Liege is thinking. Since you’ve already cooperated with some schools, why don’t you just cooperate with them? Why are you here for the school gathering? It’s a mess...”

“Sir is right...”

Sartreus looked at this humble young man and nodded his head secretly. This was the good thing about being a native. They weren’t as arrogant as the descendants of the aristocratic families. If the descendants of the aristocratic families had this talent, wouldn’t their noses be raised to the sky?

“Speak, how do you want to Trouble Me?” Sartreus looked at the two of them with a smile.

The group of teachers following behind also quieted down when they saw Sartreus speak. They looked at the two of them with some bafflement. It seemed that the two of them were planning to ask the chief administrative officer to recommend the schools?

As expected.., the next second, they heard Wang Chengbo say with a smile, “It’s like this. I roughly listened to the instructors’ introduction just now, but there were too many people and they were all talking about their own things. We don’t have much knowledge and don’t know what is good. We would like to ask for your advice, Sir...”

“My Advice?” Sartreus narrowed his eyes. “You Trust me so much?”

“I heard that Sir is the chief executive of this planet and also the organizer of the campus party. I thought that with your identity, you are naturally fair and objective enough, so I thickened my skin to trouble you...”

“Interesting...” Sartreus looked at Sartreus with a meaningful look. He was planning to get involved with him.

Recommending such an important life choice to a stranger like him. Once he confirmed it, the two of them would be involved. One was that the school would owe him a favor, and as the recommender.., if he could find a good resource for him, it would also be a favor.

The two children had extraordinary talent. As long as they didn’t die prematurely, this favor might be very valuable in the future... ..

Thinking of this, Sartreus smiled and touched his thick chin. “Since you said so, I’ll give you a few words as an elder. Of course... it’s just a suggestion. You have to refer to it yourself. Don’t blame me if you choose the wrong one...”

“Of course not...” Wang Chengbo quickly held Yunji’s hand and bowed. “Thank you, my Lord!”

“You have a special bloodline...”. Sartorius touched his chin and thought for a while. “As dark descendants and star spirits, you have to learn not only profound arcana knowledge, but also the history of ancient star spirits and various ancient languages. After all, most of your inheritances are in some ruins. If you choose a school, you have to choose a school that has deep exploration of ancient civilization and ready-made resources “...”. “...”

“It’s best to choose a master who is proficient in ancient history, magic tools, and ancient languages. It’s best to have a master who is talented in forging. This is because half of the power of both the star spirits

and the Dark Ones are on their own star (magic) tools. In ancient times, every star spirit or dark one was a top-notch forging master!”

Wang Chengbo nodded repeatedly as he listened. Ysera had said the same thing to him before he came...

“There are many masters proficient in forging in the federation academy, but those proficient in ancient magic weapon forging and ancient alchemy are few in number. There are two academies that are ranked at the top, both of which are recommended by me. One of them has a higher ranking and rich resources, and is one of the top schools in the federation. The other one has a lower ranking, but a better teacher. There is a teacher who is very suitable for the both of you. I don’t know which one you want to choose...”. ...”

#### Chapter 1415: Yunji MU’s choice (Part One)

The decision to let this official recommend the academy was not a spur of the moment decision by Wang Chengbo, but a result of careful consideration. In fact, on the way, he and Yunji MU had seen a lot of the history of the academy and had vaguely made some choices in their hearts, but after arriving here, they were stunned again!

There were too many schools, and their eyes were dazzled. Every school had written an epic in the history of the school, and it looked glorious and grand. The advantages of the school itself were vividly reflected in the introduction of the school.

Some schools had a high overall ranking, rich resources, excellent geographical location, and a powerful cultivation environment. Some schools had powerful teachers, and in order to increase the attractiveness of the students, they spent a lot of money to hire well-known masters to teach, for some majors, they had an advantage that even high-ranking schools did not have.

There were also all kinds of attractive promises. For a time, let alone someone like Wang Chengbo, even Yun Ji Mu, who had cultivated for many years and had a relatively good willpower, was confused by the group of teachers and could not come up with any ideas for the time being.

That was why she thought of asking a person who was not in the school’s position to give her a suggestion.

Originally, he had wanted to ask the white-robed lord, who seemed to have a high status, to recommend him. However, that fellow ran very fast and could not be found at the moment. After thinking about it, he decided that this so-called planet’s chief executive was the most suitable... ...

“Which two schools are you referring to, sir?” Wang Chengbo hurriedly asked after seeing that the other party had agreed.

Sartreus smiled and said, “The first one is Divine Arcana Academy!”

Wang Chengbo and Yunji Mu looked at each other. They had seen this school in the rankings before they came here.

In the crowd, the eyes of the teacher of the Divine Arcana Academy suddenly lit up and he straightened his chest. Just now, everyone was bragging and selling themselves in order to snatch the students. Now that a third party came to speak fairly, the effect was naturally different... ..

Sartreus: "The Divine Arcana Academy is the number one academy in the Western Star Field. It has a long history, and can be traced back to the era of the great elves. It is one of the most well-established academies in the interstellar federation. The academy has countless collections. In terms of historical secret techniques, ancient alchemy, and divine arts collections, the Divine Arcana Academy is definitely the best in the Federation!"

Once these words were said, the teacher from the Divine Arcana Academy nodded smugly. Although the surrounding teachers were frowning, they did not say anything. Putting aside Sartreus' identity, it was hard for them to refute. The main point was that there was nothing wrong with what Sartreus said., in terms of the number of ancient treasures and the research of the ancient civilization, the academy was indeed unrivalled!

Almost half of the ancient alchemists in the federation came from the Academy... ..

Sartreus continued, "Furthermore, the academy is ranked in the top five of the federation all year round. It has abundant resources, and there is a lot of room for it to nurture its students. Needless to say, the resources of the teachers are all well-known senior professors in the industry. be it in terms of cultivation or academics, they are all top-notch in the industry. Furthermore, they are extremely suitable for you, one of the three great forgers of the Federation, Aun. "Biluit is one of the vice principals of the Academy. If you want to learn the star forging technique, there is almost no one more famous than him in the academic world!"

"Oh..."

Wang Chengbo nodded repeatedly. Although he had seen this Divine Arcana Academy in the introduction of the ranking, the comprehensive introduction was not as concise and detailed as the other party's.

It seemed that it was indeed quite suitable for them...

On the other hand, Yun Mu Ji was not anxious. Instead, she quietly looked at the other party and asked, "Since Sir has said that there are two academies that are suitable for us, what is the other one?"

Sartreus glanced at Yun Mu Ji and said with a smile, "Why? Are you still not satisfied with the Divine Arcana Academy?"

Hearing that, Yun Mu Ji said with a smile, "That's not it. If Sir Only recommended one academy, this academy would naturally sound very good. However, sir has just said that there are two academies first. That means that the second academy that Sir recommended will definitely have an advantage that the Divine Arcana Academy doesn't have...". "..."

"A girl's mind is more meticulous..." Sartelus rubbed his chin and laughed.

The corners of Wang Chengbo's mouth twitched. What did that mean? Was he saying that he was very crude?

“The second academy is called Dawn Academy!”

When the name of this academy was mentioned, the surrounding teachers all had strange expressions on their faces, especially that teacher from Divine Arcana Academy. Their expressions became extremely ugly!

“Dawn Academy?” Wang Chengbo and Mu Yunji were both stunned. They had memorized the name of the top 100 academies just now, but it seemed that this dawn academy didn’t exist in their memories...

Sartorius seemed to have predicted their expressions, so he directly explained with a smile, “The comprehensive ranking of Dawn Academy is 109th, and it’s also in the top 100. Therefore, it’s not on the first level of the Campus Party!”

“UH...”

Yunji Mu and Wang Chengbo looked at each other and were a little stunned.

Because before they came, they had heard from a few seniors that the resources of the top 100 academies and the non-top 100 academies were worlds apart!

Although Xandar Academy’s ranking was low, it was still within the top 100. Yet this guy introduced them to someone who was not even in the top 100...

“My lord, what’s so special about this Morning Light Academy?” Yun Ji asked straightforwardly.

Sartorius once again had a good impression of the two people in front of him when he heard that. Although the other party had heard that he had introduced a top 100 student to a top 100 student, he did not immediately reject it. Instead, he calmly asked him why..., it was clear that his attitude was extremely good. He seemed to be very sincere in asking Sartorius to introduce him.

Not only was he extremely talented at such a young age, but he was also modest and reserved, neither impatient nor impatient. In his eyes, such a child had a much brighter future than many proud sons of heaven... ..

“Although the Dawn Academy is outside the top 100, it is very famous in the field of alchemy. be it ancient alchemy or modern advanced alchemy techniques, they are both ranked at the top of the Federation. Moreover, the combination of the two is extremely good. It is the first practical academy that is willing to combine the two schools... “...” . It is highly valued in our central star field... “...” . “...”

When the teachers heard this, they curled their lips. Frankly speaking, they still wanted to poach people for their own central star field. However, if you want to poach people, then go ahead and poach them. It doesn’t matter if you recommend a high ranked academy. These two children’s qualifications are being snatched up to enter the federation’s Interstellar Academy, yet, you are recommending a marginal academy!

Sartorius ignored the contempt in the eyes of the teachers, he continued to speak indifferently, “Most importantly, the Dawn Academy has spent a large sum of money to invite Mr. Gulidan from the ancient alchemy field to teach. This instructor is one of the top existences in the ancient alchemy field in the entire federation. He is very suitable for the characteristics of the two of you, and is also very suitable to guide the cultivation of ancient mystics like you.”

The teachers were stunned. Gulidan?

Isn't that the dean of the School of Ancient Alchemy at Shenao University? What are you doing at Dawn Academy?

All of a sudden, people look at the teacher of the academy, and that teacher is gloomy, did not speak...

"Like This?" The cloud herder ji nodded: "Can such formidable teacher will teach us personally?"

"Of course..." "..." Sartreus smiled. "If you two aren't specially trained with such talents, then there won't be many worthy of being trained. Moreover, I have an old relationship with Mr. Gulidan. If you need me, I can write you a recommendation letter and ask him to accept you as his last disciples!"

"Sir Chief Executive!" The teacher of the Divine Arcana Academy finally couldn't help but speak up. "Isn't it not very good for you to do this?"

Chapter 1416: Yunji MU's choice (Part Two)

"Chief executive, this isn't very good, is it?" The instructors of the Divine Arcana Academy were members of the Divine Arcana clan. Their skin would turn into metal when they were excited, and their nostrils would emit red flames, seeing this, Yunji Mu and Wang Chengbo were surprised.

The surrounding instructors sneered inwardly. You were so happy when I recommended your academy, but now it's not good?

Sartorius glanced at the other party and said, "I'm telling the truth. Since the two juniors have chosen to trust me, they naturally have to think about their future and give the most suitable reference opinions."

"The most suitable reference opinions?" The teachers of the Divine Arcana Academy were fuming. "It's also suitable to let such high-quality students go to a low-level academy like the Morning Light Academy? You're delaying them! !"

"First of all..." Sartreus said indifferently, "The Dawn Academy isn't low-level, but its scale isn't big. Its specialty in ancient alchemy is recognized by the entire federation, and its ranking isn't lower than your Divine Arcana Academy. Second, speaking of delaying such an excellent student, Your Divine Arcana Academy is more likely to do so!"

"What did you say?" The other party's metallic skin immediately burned red, and his aura looked extremely fierce. Yun Ji and Mu Yunji looked at each other and thought to themselves, "Will this fight break out?"?

Sartreus didn't care much about the other party's exaggerated physical behavior. He knew that the Divine Ao clan was a creature like this, and whenever they had emotions, they would act extremely exaggerated. The Guridan Master that he had recommended to these two children was from the Divine Ao clan, and he had seen him act like this many times... ..

"Am I Wrong?" Sartreus said indifferently, "The Divine Ao Academy has a very deep foundation, and they also have the biggest political support in the western star field. Why has their ranking been declining recently? Isn't it because of xenophobia? A lot of resources are given to the disciples of the Divine

Arcana clan. All programs and cultivation plans give priority to the disciples of the Divine Arcana clan. As one of the royal families, you have done the most to favor your own clan. Even the Starry Sky Academy is not as good as you... “...”

Many teachers nodded. The Divine Arcana Academy’s practices were not secret in the industry. Many people knew about it, especially about an incident that happened a hundred years ago!

A genius of the azure bird race from Wastya was especially fond of ancient alchemy and admired the heritage and atmosphere of the Divine Arcana Academy’s Ancient Alchemy. He applied to this well-known academy.

In the end, he was bullied by a few ordinary students of the Divine Arcana race. He was jealous of his aptitude and the preferences of some instructors. He was troubled by a group of students who bullied and abused him, moreover, when the whole incident was exposed, there were even teachers who helped him commit crimes. Such a top seedling was tortured to death!

The crux of the matter was that when the student died, the school still attempted to conceal the truth and prevent the girl’s family from conducting an investigation. In the end, the Master Gulidan personally exposed it, causing a huge uproar, for a time, the Shen ao academy was pushed to the cusp of a storm!

Although the academy publicly apologized and expelled the students and transferred them to the federal court, the teachers involved were covered up, causing the outside world to curse incessantly. Many foreign geniuses were forced to leave.

Not long after that incident, Master Gulidan left the Divine Arcana University with a few teachers and joined the University of dawn, which was ranked lower. Many people guessed that Gulidan was dissatisfied with the school’s culture of only looking at one’s own bloodline, he fell out with the higher-ups and eventually left.

After this incident, the number of top students from other races who applied for Shenao University decreased greatly, which also led to the decline of Shenao University’s ranking in the interstellar fellowship...

“That was in the past!”The professor said angrily, “Now the school has made a great reform in this area. Moreover, the previous incident was also an isolated case. In the calendar of Shenao University, many outstanding students from other races have graduated. Sir, you can’t erase all the glory of our school because of a black dot!”

“I didn’t...”. “...”. Sartreus said expressionlessly, “That’s why I recommended your academy at the first instance because your academy does have a huge advantage in resources, especially for these two little guys. But I also recommended the dawn academy because it’s suitable for these two kids...”. “...”

“You...”instructor Shenao hummed with anger and was about to retort when a female voice interrupted them.

“Is this instructor a instructor of Shenao Academy?”

The person who asked was Yun Ji herself.

The instructor turned his head and happened to meet Yun Ji's purplish black pupils. If one looked carefully, they would discover that there seemed to be something shaking in the center of Yun Ji's pupils. It was not a reflection of light or reflection. Instead, there was something in the depths of her pupils... ..

Spark!

The teacher suppressed the excitement in his heart and tried his best not to cry out.

There was a record in ancient history that top-tier star spirits and dark descendants were good at using spark to refine objects. It was the secret technique of heavenly fire that was imprinted in their bones and blood. It was widely recognized as the number one heavenly fire in the universe. It had the fortune of creating objects by nature and could refine all the objects in the world into weapons!

There were very few dark descendants in the universe. Dark descendants with high purity bloodlines were even rarer. Every one of them grew up to be a top-tier blacksmith master. Their advantage was the talent of heavenly fire that was imprinted in their genes.

However, even those dark descendants masters who had already become famous might not have the pure fire in the eyes of this little girl... ..

Although the aura was very small, like an insignificant spark, that incomparably pure aura was not fake. Moreover, there was an ancient saying that a person who could open a level 10 heaven fire was a genius of the Royal Family!

Then what was a Level 7 Heaven Fire?

"Child..."instructor Shenao tried his best to calm himself down, but his biological characteristics did not allow him to continue to heat up, causing his skin to burn as red as a hot iron. A wave of heat caused the surrounding instructors to take a few steps back involuntarily.

Mu Yunji was also startled and took a few steps back.

"Don't be afraid of child..."instructor Shenao tried his best to maintain a smile and said, "What do you want to ask?"

"Is it true what your Lordship said before, that the seminary is partial to its own people?"

"Er..."the teacher's face stiffened, however, he still tried his best to calm his tone and said, "It is true, but not all teachers are like this. A large number of teachers in the Academy are not like this. They also attach great importance to the disciples from other clans, and they can also fight for good resources for the disciples from other clans... "... ". "..."

"That means that a large portion of the teachers are indeed like what the chief said, right?"Yun Ji Mu smiled and said.

"There are some..."teacher Shenao stammered.

"I'm afraid there aren't some, right?"Yun Ji mu sighed and said, "Previously, sir said that Master Gulidan exposed that the outsiders in the academy were not treated fairly. Sir said that he is a top alchemist master, so he must have a high status in the academy, Right?"

“That was before...” “...”. The instructor hurriedly explained, “Even if he left, there are several alchemists in our academy who can stand shoulder to shoulder with him. Not only in the field of alchemy, but also in the fields of energy shaping, ancient history, cultivation of special races, Battle Masters, and so on. The Divine Arcana Academy is not comparable to the Dawn Academy. They can only provide you with a good instructor in the field of alchemy, but even in the field of alchemy, in terms of resources...” “...” “...”

“Why did that Lord Leave?” Yunji mu interrupted him and asked.

“Uh...” teacher Shenao was stunned, and all the words that were good for his school were stuck in his throat.

“Why did that Lord leave after the incident broke out?” Yunji mu smiled and said, “I believe that such a big school must have all kinds of people. A bad incident doesn’t represent everything. However, after the incident broke out, the teacher who claimed that the school was unfair and exposed the bullying of other races left. Moreover, he was a teacher with a high status, and he was once the dean of the Ancient Alchemy School of Shenao Academy...” “...” “What does this mean?”

Instructor Shenao:”...”

“This means...” Yunji said faintly, “The forces that stand on the opposite side of him are still traditional and conservative. Instructors who prioritize their own race are more powerful, aren’t they?”

Instructor Shenao opened his mouth, but for a moment, he didn’t know what to say.

“I’m sorry...” Yunji pulled Wang Chengbo’s hand and bowed respectfully. “Thank you for your good opinion, senior, but we have to let you down. Compared to a bigger platform, we prefer a fairer environment...”

After bowing again, Yunji pulled Wang Chengbo, who was still in a daze, to Sartreus. “Sir, I’ll have to trouble you with the recommendation letter...”

Sartreus looked at the girl, whose eyes were firm and calm from the beginning to the end, and immediately grinned.

Chapter 1417: A Mission that will appear every time we arrive at a new place!

“So... you guys just asked for a recommendation letter like that?”

In the interior of the Zephyr Academy’s Exhibition Hall, led by Guo Xiaoyun, everyone gathered for one last time before leaving the planet...

There was a reason why it was said to be the end. Originally, everyone had only come to fill in their volunteer forms, but they did not expect it to cause such a huge sensation, this had led to a few teachers who had chosen them requesting them to take the spaceship that had left the academy to report directly to the academy to prevent any other accidents from happening.

Regarding this point, the teachers of the Bluespirit Academy and Guo Xiaoyun had a heart-to-heart warning. The competition between the academies was not as bright as it seemed on the surface, because it involved the competition for resources, it was not rare to be ruthless in the dark. Outstanding seedlings, especially those who did not have any background, were sometimes very dangerous!

This was also one of the reasons why it was difficult for many children who did not have a family background to grow up. Without a background, even if they fought for resources within the school, it was very likely that they would be targeted, not to mention outside the school. The geniuses from other academies were not just any hot cakes, but a thorn in their side... ..

Therefore, the few teachers strongly requested that they return with the Academy's spaceship. After all, it was a spaceship representing their own academy. At least on the surface, no one dared to tamper with it.

After hearing this, Guo Xiaoyun did not hesitate. She contacted teacher Billy. After learning that the other party had said the same thing, she informed everyone to accept the goodwill of the teachers, after leaving the planet, she immediately followed the teachers to the campus to report.

In other words, this was the last time they would meet within a short period of time. After leaving this planet, everyone would have to go their own way... ..

At this moment, facing the last two to arrive, Pu Yunchuan was the first to be stunned when he heard their choice.

"Aren't you... a little too hasty?"

Emperor liver nodded. "That's right. We just went to the Academy's exhibition hall to learn about the history of the academy. Only then did we understand the significance of the top 100 academies in the Federation. If you choose someone who isn't in the top 100, it will affect your growth..."

Leng Xing nodded as well. They had no choice. The Lord had forcefully decided on their path. Otherwise, if it were them, they would definitely try their best to pick the top. That Divine Arcana Academy was ranked sixth... It was better than the one ranked beyond 120... ..

Having been in the D Ball Society for many years, they also knew that even if the second academy had an awesome tutor, it was still a second academy. The company's recruitment priority was still 985 and 211... ..

Faced with the doubts of Pu Yunchuan and the others, Mu Yunji smiled and shook her head.

She could see that Pu Yunchuan and the others really cared about her. After joining Galaxy, the few friends they had met the most were the dogballs. They were real friends with these people, and it was completely different from when they were in the sect...

"I made this choice when I was very young..." mu Yunji said softly.

"Oh?" Everyone looked over curiously.

Mu Yunji's eyes were filled with reminiscence, she said slowly, "That was when I was very young. Because of a chance encounter, I was valued by the two great sects of Kunlun and Yunshan. Because Yunshan discovered me first, Kunlun let me choose by myself."

"There was such a Thing?" Her grandpa was curious. "Then why did you choose Yunshan in the end?"

Although her grandpa had never participated in the cultivation sects in the D sphere, he knew that Kunlun was the largest sect, and it was superior to other sects by several grades.

“My dad helped me choose...” Yunji mu seemed to think of her family when she was young, she smiled sweetly. “Father said that there are many talents in Kunlun. Although I have good talent, I will become ordinary once I get there. My treatment may not be better than on Mount Yunshan. Most importantly, the families in Kunlun are powerful. Each peak master is a direct descendant of a thousand-year-old family. The resources in Kunlun will definitely give priority to the direct descendants of the families in Kunlun. However, it is different on Mount Yunshan. A new sect is full of waste, and outsiders are the easiest to get out.”

“As it turns out, what father said was right. When I arrived at Yunshan, I was treated as well as the sect leader’s son because of my outstanding talent. However, a seedling that was discovered with me died silently in Kunlun...” “...”. “...”

Everyone:” ...”

Mu Yunji continued to laugh. “That’s why I don’t believe that the power controlled by the family would be fair. I know where to sit when I hear the name of Divine Arcana Academy. I naturally wouldn’t choose that place...”

“Eh? Is That So?” Goudan tilted his head. “Isn’t the Blue Spirit Academy chosen by the Boss?”

“Shut up...” Guo Xiaoyun directly knocked Goudan’s head hard. Goudan covered his head and felt wronged... ..

“Everyone, don’t worry about me...” seeing that everyone was looking over, guo Xiaoyun said indifferently, “I’ve already understood the situation of the Blue Spirit Academy before I came here. Although it’s called the Blue Spirit Academy, the internal atmosphere of the academy is very good. I originally came up with this name because I wanted to rope in the members of the high-level Blue Spirit clan from the Southern Star Field. However, I didn’t get what I wanted. Most of the members of the Blue Spirit royal family moved into the Red Lotus Academy, which is ranked higher in the southern star field. As a result, the number of Blue Spirit clan members who actually moved into the Blue Spirit Academy was actually not many. On the contrary, most of them were students from other clans. However, their names have already been registered, so it’s not easy to change them. Therefore, the school has been holding on until now...” “...”. “...”

Everyone:” ...”

They felt that it wouldn’t be a good thing for their boss to go to such a silly school...

“Your choice isn’t a problem...” Guo Xiaoyun rolled her eyes at everyone’s dumbfounded expressions, she looked at Mu Yunji and Gu Lidan. “I’ve just checked on that person called Gu Lidan. He is indeed an extraordinary fellow. He was once the number one expert in ancient alchemy in the Divine Arcana Academy. He was hired by the Morning Light Academy only a few years ago, and he needs to nurture a batch of outstanding students to prove his worth. As long as he isn’t stupid, he will definitely value the two of you...” “... “...”

Yunji mu nodded and said with a smile, “I think so too...”

Guo Xiaoyun continued, "This way, everyone's direction will be decided. Pu Yunchuan and the other two will be in Xandar Academy. Goudan will be in Fengxing Academy. Chen Yutong and I will be in bluespirit academy. My grandfather will be in Spark Academy. Bingguo will be in Tirefarson and will be with Wang Xiaojia...". "..."

"Goudan?" The group of people were instantly curious. "Has she chosen her school?"

Guo Xiaoyun recalled Billy's speechless expression that day and said in a strange manner, "I heard that... she was forced to choose..."

"What's wrong with Goudan..." Li Goudan placed his chin on the table unhappily. "We agreed to go to the windwalk academy together, but in the end, I'm the only one..."

"If nothing unexpected happens, we won't be able to see each other for a while..." "...". Guo Xiaoyun lowered her voice and said, "Moreover, since our academy is separated by a star field, the cost of long-distance communication is very high. Lord Ysera gave each of us an information crystal so that we can contact each other at critical moments. However, our energy is limited, so we should use it carefully...". "... especially you, Goudan. Don't waste your energy and talk nonsense with Wang Xiaojia!"

"..." Li Goudan

"The energy of the communication crystal is limited. I calculated that even if we use it sparingly, it can only last for ten years at most..." Guo Xiaoyun said seriously, "So in these ten years, we have to complete at least one mission..."

"There's another mission?" Everyone was stunned. "What Mission?"

"A new mission that appears every time we go to a new place..." Guo Xiaoyun took a deep breath and said with a strange expression, "Find the cabbage!"

Chapter 1418: Support!

"Little cabbage?"

A familiar yet unfamiliar word appeared, causing the entire gathering to fall silent.

Other than Chen Yutong and Guo Xiaoyun, everyone else was confused. They felt that this name was very familiar, but after thinking about it carefully, they realized that they could not remember it... ..

Then, just as everyone was confused for a few seconds, a ray of light flashed in everyone's eyes. With a bang, as if something was broken, everyone instantly stood up!

"F \* ck! !" The liver emperor was the first to swear: "I said something is missing, have not remembered, it is to forget her! !"

They all slapped their thighs and looked around. "Yes, where is he?"

A moment, the crowd looked at Guo Xiaoyun, in the heart seems to guess something.

Because it occurred to everyone, like... .. I don't know when it started, but that guy... .. It hasn't been there since... ..

"Say You... ." Dog Egg looked at Pu Yunchuan and his gang with disdain: "Isn't it very familiar with cabbage? How come you don't have any reaction when a living person is missing for so long?"

"I. . ." The liver emperor and Pu Yunchuan face one after another, for a time do not know how to say.

"That's not right..." Leng Xing shook his head. "We didn't forget it. Someone told us to forget it..."

Guo Xiaoyun looked at the crowd speechlessly. "I'm worried about your reaction. Apart from Leng Xing, no one else can see it!"

Everyone: "..."

"Boss found it long ago?" Gou Dan tilted his head and asked.

"No..." Guo Xiaoyun shook his head: "I also feather pupil told me just remember..."

Everyone suddenly looked at Chen Yu Tong

"Dead pervert, after all how to return a responsibility?" The dog egg is very impolite way!

"Don't call me a pervert..." Chen Yu Tong glared at Li Goudan and said, "I just like women's clothing, how can I be a pervert? Also, I don't know what's going on either. Anyway, I just inexplicably remembered it. It felt like there was a fixed device in my head. With a crack, my memory came back..."  
"

"What's going on?" Pu Yun Chuan became a little serious. The situation now was different from before. Although there was a riot just now, it could be considered a farce on the whole. However, it was different now. There was really a companion missing., they had just arrived at the first starting point of the outside world, and a companion had mysteriously disappeared!

It was not a wonderful feeling...

"Do you still remember when little cabbage was lost?" Guo Xiaoyun asked in a low voice.

Everyone immediately lowered their heads to think. Gou Dan was the first to pat his thigh and shout, "It seems... it was after grandmaster Gou Dan was captured..."

"It seems so!" Emperor liver hurriedly nodded. "At that time, we were poured out of that space and rolled all over the ground. It seems that there was no sign of Bai Cai at that time..."

"Yes!" Grandpa also nodded. "It's very likely that it was done in that instant!"

"Are you sure?" Guo Xiaoyun sneered and said, "Under the watchful eyes of so many instructors, someone stole one of them without anyone knowing?"

"Uh..." everyone was stunned, and then they felt that something was wrong. ...

"Boss, what do you think?" Goudan asked carefully.

"I think it was before!" Guo Xiaoyun narrowed her eyes and said, "Before we were brought back to the planet, cabbage was kidnapped..."

"How is that possible?" Goudan said first, "Weren't we put into the space bag by Grandmaster?"

"No one said that we can't abduct people from the space bag..." Guo Xiaoyun narrowed her eyes and said, "As long as that person is stronger than your Grandmaster!"

Everyone immediately came back to their senses. Leng Xing said in a low voice, "Are you talking about that guy with the mask?"

Although everyone was in the space bag before, they could clearly see the situation outside. That guy in white clothes and the mask could stop Tia who was trying to escape with just one underling. As the boss of the underling.., he must be stronger.

"Not necessarily, but he's a big suspect..." Guo Xiaoyun said faintly, "Think about it carefully. The short guy beside him is the guy who could stop Grandmaster Goudan. Does he look familiar?"

"Oh, I said that the short guy looks familiar. Doesn't he look exactly like senior Nicole?" Goudan looked as if he had remembered.

Everyone suddenly realized that it was indeed the case. That guy was very similar to the fairy who was left behind in the emerald dream, but the color of his pupils was different. Moreover, this short ranger had pointy ears, but other features were very obvious... ..

"Do you remember what senior Nicole told us?" Guo Xiaoyun said, "We have to be very careful when meeting people with the same features as her. It's easy to change our memories and get our information. We have to be very careful!"

"Did we forget about cabbage because of her?"

"It's not just us!" Guo Xiaoyun said quietly, "Didn't you notice that those instructors also forgot about cabbage?" "Logically speaking, we are so popular, and we obviously don't have enough people, so we shouldn't forget about cabbage. Although cabbage hid behind a little because of her introverted personality, it's impossible that she wasn't noticed. However, none of the instructors mentioned it. Why do you think that is?"

Everyone:"..."

At this moment, the players felt a chill run down their spines. Although this ability to change the opponent's memories at will sounded terrifying before, it was truly terrifying when they actually encountered it. This skill was too abnormal... ..

If even those powerful instructors could be controlled, then when they were targeted, could their group's existence disappear at any time?

"Why would such a powerful person kidnap that simple-minded cabbage?" Gou Dan couldn't help but ask.

"How would I know?" Guo Xiaoyun covered her head with her hands. "Maybe she has the talent to be kidnapped?"

Everyone: "..."

"Anyway, that's the specific situation...". "...". Guo Xiaoyun lowered her voice and said, "That white-clothed lord is called ILUWETA. I just checked the information. It's said that she's one of the ten strongest lords in the entire universe, the kind of super big shot. Compared to her, our Lord isn't even qualified to lick her shoes!"

Everyone: "..."

What kind of metaphor is this? Aren't you the Loyal Underling of Seer Boss? Why are you slandering him the moment you come out?

"You must be careful when investigating Bai Cai's whereabouts and the other party's purpose, especially you, Feng Doudou..." Guo Xiaoyun looked at Feng Doudou on the left.

Feng Doudou was stunned. "What does it have to do with me?"

She wasn't familiar with Bai Cai...

"You are the one who is most likely to be close to Bai Cai..." Guo Xiaoyun said in a low voice. "The bronze academy in the Eastern Star Field is on the same planet as the Starry Sky Academy, and that Yiluweta is the honorary principal of the Starry Sky Academy..."

Feng Doudou: "..."

"Boss, do you think that guy lured Bai Cai into the Academy?" Gou Dan said excitedly.

"That's the best possibility..." Guo Xiaoyun sighed and shook her head. "And even if it's possible, Bai Cai's situation isn't good..."

"Why?" The people around asked curiously.

"You've seen that Guy's status... "...". If he only valued Bai Cai's talent, he could have just said it directly. Which school here wouldn't give him face? Was there a need to be so complicated? He secretly kidnapped someone and changed our memories... "... .."

Everyone felt that something was wrong when they heard that. Gou Dan asked carefully, "Then what does boss think is going on?"

"I don't know..." Guo Xiaoyun shook his head. "There's too little information, so it's hard to analyze it. I just think that a big shot at that level has to be sneaky, which means that he's also afraid of it. And things that big shots are afraid of are definitely very troublesome. I'm the most worried about that idiot Bai Cai." . . ."

"That how to do?" The liver emperor suddenly worried, he stayed in the cabbage force for many days, very agree with Guo Xiaoyun's words, cabbage that fool... .. Is really silly, encountered this kind of inexplicable situation, it is not at ease... . .

"For the time being, we can only try to find her..." Guo Xiaoyun looked at Feng Doudou and said, "We are far away. You are the one who has the best chance of finding clues..."

Feng Doudou immediately frowned. "But I . . . Don't know what to do..."

“It’s okay, I called for backup for you...”

“Backup?” Feng Doudou was stunned. “What backup?”

“There are two backup!” Guo Xiaoyun stretched out two fingers and said, “I applied to Lord Ysera for them. In a few days, you will be sent directly to your place.”

“What is it?” Feng Doudou asked curiously.

“The first one is Alice!” Guo Xiaoyun rubbed his head and said, “I didn’t want to let that guy out, but I have to admit that his brain is really good!”

Everyone looked at each other. Alice...

“What about the second one?” Feng Doudou was even more curious.

Guo Xiaoyun took a deep breath and finally said, “The dog of a cabbage...”

Everyone: “...”

Chapter 1419: as expected, they came through the back door... ..

The campus fair lasted for a full ten days, giving plenty of time for the various academies to attract students. However, for the instructors of the top 100 academies on the first floor, the rest of the days were rather dull...

Originally, the quality of this year’s campus fair wasn’t That Great. With the group of Little Fellows from the first day in front of them, although those who came in behind them weren’t so bad that they couldn’t be seen, it was difficult for them to arouse the interest of most of the instructors.

Many instructors were weak when introducing the history of the school, especially those schools that were not allocated to the players. However, this was only limited to the instructors at the first level. For the instructors below, every time they saw the students from the first level coming out, they would drool in envy... They would drool in envy...

Usually, after the end of the campus fair, there would still be quite a number of instructors waiting outside with flyers in their hands to see if they could fish out some fish from the first level, causing the entrance of the first level to become quite crowded at this time!

Among this group of teachers, there was an old snow elf with a head full of white hair who seemed to be working especially hard. The other teachers were still slightly underweight, and most of them would not take the initiative to go up and ask..., even if they went to ask, they would occasionally see a few very outstanding students go up and ASK. Only this old man would almost always go up and hand over a flyer every time he met a student who came out from the first level’s space., he didn’t tire of asking, “Student, have you chosen a school?”? “Do you want to think about it again?”.

This scene caused many of the teachers in the same line of work to cast sidelong glances because the other party’s status wasn’t low. Most of them had to address him as senior... ..

The old man's name was Wanda Bean. He was the person in charge of the enrollment department of Dawn Academy this time. He was also the Dean of Dawn Academy's forging department and a well-known figure in the academic circle. For such a figure to personally pull down his face to pick up the leaky fish in the first level of the space was a little exaggerated... ..

Looking at the strange gazes around him, the Snow Elf Old Man's face that was covered by the fur ball was also full of helplessness. In the end, it was close to numbness.

If he could be chosen, why would he pull down his old face to do such a thing? Wasn't it because the quality of the students was too poor? ! If this continued, not to mention entering the top 100, there might not be any new students after the old batch of academies graduated. Their Academy's ranking might even slide!

The Dawn Academy was a single ancient Alchemy Academy. Within the federation, such a single department was already at a disadvantage in terms of ranking. It was far inferior to those comprehensive departments. This was not only reflected in academic points., it was also the same in the interstellar fellowship.

Because of the variety of subjects, comprehensive universities could combine the advantages of their own schools to form teams that were well-matched with each other in terms of fighting strength. Through Mutual Cooperation in the fellowship, they could display a far higher fighting strength than their own!

However, a single-element school was at a great disadvantage in this aspect. Any single-element school, whether it was the Ranger or the Arcanist Department, would be at a great disadvantage in the face of a comprehensive team. Unless the quality was much higher, there was basically no chance of winning.

Leaving aside the comprehensive department, even in the circle of a single element, the Alchemy Department school was also at the lower level of the food chain. The subjects of each department would encounter a restraining element, for example, the people of the Ranger Department were more afraid of encountering the assassin department, the Warrior Department was more afraid of encountering the Arcana Department, and the Alchemy Department? ! Hehe, it was afraid of encountering almost all types!

The Alchemy Department of the same level might only be able to gain some advantages from meeting the priest department, but most of the academies in the federation with the legacy of the priests were rich and powerful. The famous priest academies were all developing in a comprehensive way, and very few of them were left alone... ..

The School of Dawn was well-known in the entire federation in the field of ancient alchemy alone, ranking in the top five all year round, and even in the top three in some events.

Even so, their school was still ranked outside the top 100. It could be seen how difficult it was for the alchemy school to compete for the ranking.

The School of Dawn did not have the advantage in terms of academic excellence, and they were even weaker in terms of combat. For them to be able to struggle in the top 100, it could be said that the school of Dawn had been risking their lives all these years... ..

But they still could not overcome the hurdle of being in the top 100!

In order to break this hurdle, the principal was determined to break this vicious cycle and squeeze into the top 100. He did not hesitate to spend a lot of money to invite Mr. Gulidan from the Divine Arcana Academy, he wanted to use the other party's reputation to recruit more high-quality students in this campus fair, so that he could make a name for himself in the social networking event.

As the principal of the first academy, Wanda Bean even volunteered to personally host the publicity for this campus fair, but in the end...

Facts proved that the celebrity effect did not seem to be that useful. Although the school had done a lot of publicity in the media earlier, the effect was still limited. The quality of the students this time was only a little better than the previous batch...

However, such a small improvement was completely impossible to support the Dawn Academy to enter the top 100 from the top 120...

This caused the old man to have to try his luck with the other teachers who had picked up the slack...

"Excuse me... is it senior Wanda Bean?"

A shy male voice came out from the crowd with a lot of doubts. As soon as Wanda Bean turned around, the other party hurriedly said, "Sorry, I mistook you for someone else..."

As he said that, the man pulled a cloaked girl beside him and was about to leave.

Vanda Bean: "..."

Was it really that exaggerated?

He touched the white fur on his face...

As everyone knew, Snow Elves had a lot of fur. Most Snow Elves would grow into a ball if they did not clean their fur for a few days. He, who had not cleaned his fur for a whole ten days, now looked like a ball of snow fur, however, even though he had become a little fluffy, it was not to the extent that he could not recognize him, right?

These two little fellows were obviously not sincere at first glance. They came to ask him about his admiration for the school, but in the end, they did not even understand his characteristics and habits. Did they not know that he did not clean his hair all year round?

Young people nowadays were really...

Do you know what you have missed because of such negligence?

Forget it, I won't argue with young people. Since they are people who admire our school, I'd better give them a chance...

"Stop right there, you two!"

A man and a woman stopped when they heard that and turned back to look at each other carefully.

"Ahem... I'm Wanda Bean. What do you want?"

“Eh?”The boy was stunned. “Are you really? But... it doesn’t look like the picture...”

Wanda Bean’s face turned stiff with impatience. “The picture is different from the person in the first place. Do you need me to teach you this bit of common sense? Have you never left your house before?”

The boy was instantly shocked.

This is... This is a bit different?

The handsome uncle in the picture and the snowball in front of him were completely different creatures, okay?

At first, he thought that the evil art of Beauty Photoshop was only available in D sphere, but he didn’t expect it to be so rampant in outer space!

Seeing the two of them in a daze, Wanda Bean became even more impatient. “Do you want to join our Academy?”

He was a hot-tempered person to begin with, and the reason why he had the patience to talk nonsense with the two little guys was because their equipment was obviously not ordinary!

Cloaks and masks were high-quality goods that could prevent spiritual detection. It seemed that his family had some background. Otherwise, they would not be able to afford such things for their children.

There might be a small chance that someone born in such a big family would be an unexpected good seedling. Of course... .. It was more likely that he was here to use the back door... ..

The reason was very simple. If he really had the talent, he would not have to be so secretive...

“Uh, right, right, right!”The boy quickly nodded and took out a silver envelope from his bag. “We were recommended by our elders to come to the School of Dawn to fill out our volunteers. This is a recommendation letter...”

“Recommendation letter?”Wanda Bean’s mouth twitched... ..

Well... he really came through the back door! ! !

Chapter 1420: Dawn Academy!

Wanda Bean didn’t come into contact with this kind of person very often. As the principal of the first academy, the students that he could personally train were all truly worthy of being nurtured. Those who came to get a diploma were usually far away from him. He was usually out of sight, out of mind... ..

But he didn’t expect to meet this kind of person today, even after pulling down his old face to pull out his life. It was really...

Vanda Bean felt disgusted as if he had eaten a fly. He even took the initiative to ask if he was senior vanda bean? Since when did he become a backdoor person and take the initiative to deal with me?

“Whose recommendation letter is it?”Vanda Bean said while holding back his impatience.

Although he was very unhappy, it didn't make him lose his mind. Most of the people who could write recommendation letters were influential figures. It wasn't good for the academy to offend them, because such important figures often had a lot of business dealings with the school.

"It's... Senior Sartreus's..." Wang Chengbo clearly sensed the other party's impatience and quickly explained.

"Sartreus?" Wanda Bean frowned even more. According to what he knew, this guy seemed to be a lone wolf, a figure who had broken with the family. Logically speaking, this kind of guy should abhor the idea of using a backdoor.

As he held the recommendation letter, he realized that there was a layer of seal on it. On the surface of the seal was the words 'close friend Gulidan'.

Vanda Bain frowned even more!

Gulidan had paid a huge price to enter the academy. Not only did he not have any use for the recruitment of students, he actually had the face to open a backdoor?

Even if a newcomer had a great reputation, as a newcomer, shouldn't he be the first to do well in order to prove that he was worthy of the sky-high salary that the academy had offered?

In the end, he hadn't achieved results yet, so he didn't hesitate to use his privileges and privileges!

In an instant, Wanda Bean's impression of Gulidan dropped to a freezing point!

Although Dawn Academy's ranking was low, its results in a single field were top-notch. This meant that the professors in the academy weren't ordinary people. Which one of them didn't have a bit of pride in their hearts?

Under great pressure, the principal offered Gulidan the salary of nearly half of the school's instructors to hire him. Many people didn't say anything, but in their hearts, they had long been unconvinced. Only those who didn't think in the face of the storm would be convinced. He actually started this kind of unorthodox method... ..

"Senior... Senior?" Wang Chengbo clearly sensed the other party's coldness, and his tone became more cautious.

"Okay, I got it..." Wanda Bean finally sighed, waved his hand impatiently, and pointed to the back. "The spaceship parked in channel 1957 is our school's spaceship. Just go up and wait for us!"

"Oh..." Wang Chengbo immediately bowed and nodded as if he had been pardoned. Then, he pulled Yunji and rushed toward the direction pointed by the other party.

He kept underestimating the other party even when they were far away. "The instructors of this school feel so old-fashioned. It's just a question. Is there a need to be so fierce?"

Wanda Bean took a deep breath and looked at the recommendation letter in his hand. He resisted the urge to tear it up. Finally, he sighed and put away the recommendation letter. Then, he called the other instructors over with a waning interest.

“What’s the matter, Dean?” One of the instructors of the forging department was called over and was stunned when he heard that they were leaving. “It hasn’t been long since we started. There are still many students who have yet to come out from the first floor...”

“Come on... .” Wanda Bean said with a straight face, “He has lost all his face, and now he’s acting like a pimp. It’s one thing for him to refuse to enroll students himself, but why should we clean up his mess when he doesn’t even care about what happens next? “Let’s go, Let’s Go!”

The teachers were instantly stunned. Only after asking in detail did they find out what had happened just now. Immediately, their faces all turned ugly.

Why did everyone put on their faces and hand out leaflets here to pick up the slack? Wasn’t it because the effect of your master Gulidan’s propaganda was mediocre? Everyone worked hard to save your face, trying their best to make the recruitment data look better.

Yet, you didn’t put in any effort, and even pulled strings. Everyone said that this master had left the academy for the sake of justice, but now it seemed like... .. Hehe... ..

“If that’s the case, then let’s Go...” the other teachers suddenly lost interest. Everyone had come with expectations, but in the end, they were greatly disappointed. It wasn’t easy for them to muster up some hot blood to be thick-skinned, and yet, they still encountered this matter. ...

Sigh, what should be done, what should be done...

Just like what Principal Vanda Bain had said, what right did they have to clean up his mess?

Just like that, under the leadership of Vanda Bain, the group of instructors stood up one after another, and the group of people at the entrance of the passage was baffled.

“What’s going on with the School of Dawn? In the past, they put on airs and disdained to come here to fish. This year, I thought they had thought it through, but how long did it take for them to give up?”

“Sigh, it’s true that they’re thin-skinned. After all, they’re a famous academy. Although their ranking isn’t high, their reputation isn’t small. Their teachers are all famous figures in the academic world, especially that Wanda Bean. He’s even nominated as an elder of the elven parliament. How can such a figure really have the face?”

Just like that, the group of teachers from the Morning Light Academy left hastily amidst the discussions of the crowd... ..

-----

The Star of Dawn was located in a remote area of the central star system. Its geographical location wasn’t good, and it was said that it was a useless star when the federation was first established. However, due to the many rare mineral stars around it., it had become a mineral belt that the federation had established in the early days.

At that time, most of the people who gathered in this star system were absent-minded. It was unknown when, but a group of snow elf alchemists had arrived here.

At that time, the Snow Elves were ostracized by the space elves because they were researching the artificial world tree. They moved all the way, and the major factions refused to take in this group of people in order not to offend the space elves, in the end, the group of snow elves relied on their superb alchemy skills and the newly created artificial world tree to forcibly build such a wasteland.

High-quality artificial Snow Suns, high-quality elemental stars, the first artificial world tree in the entire universe, and the results of miraculous alchemy projects made this galaxy come alive.

It became an extremely high-quality galaxy, and because of this extraordinary man-made ecological technology, this place became a tourist destination that many alchemy apprentices admired, because every bit of life here was the crystallization of alchemy technology!

Under the call of that group of snow elf aristocratic families, more and more alchemists were attracted to this place. They participated in the research and development together, and they participated in the construction together. Many years later..., a large number of high-quality alchemists took root here and created their own families. They even built their own academy in this galaxy.

It was the famous rising star of the Alchemy World: The Dawn Academy!

At this moment, in the principal's office, the fourth-generation principal of the Dawn Academy, Oliver. Snow Whisperer was in the hall, excitedly discussing the academy's plans for the next few years with a master he had spent a lot of money to hire.

At the same time, Wanda Bean, who was leading the recruitment team, rushed toward the principal's office with a dark face.
