

A Bunch 1481

Chapter 1481: Confrontation (I)

How could this be? ?

After waking up, Van der Sar became even more confused...

He didn't dare to look at that person again. He could only lower his head and recover from his injuries while thinking quickly in his mind... ..

Why would a life-sea level expert guard him in a clan with such a small background, and a little sky god who was only at level five according to the registration information?

He was very sure that the other party had a life-sea realm expert behind him, and his strength was probably not below that of the top elders of his clan!

He had only sensed that incomparably thick aura from the first elder, Capricorn, but how could such an expert have anything to do with a small clan like Aldia?

What on Earth was that intelligence-gathering fellow doing? How could he make such a mistake?

While fan di was racking his brain, Seer did not seem to notice the situation at all. She seemed to be still immersed in the joy of reuniting with her family.

"Alright, how long are you going to hold your mother? Can't you see your father here?" Zhuxing finally could not stand it anymore and rebuked seer.

Ye Na rolled her eyes at her husband. Seer helplessly let go of her mother and looked at zhuxing. "Father, didn't we just meet last time?"

"What do you mean?" Zhuxing glared at her. "You didn't miss it the last time, did you? Besides, did you come to see the management last time? It was the management who rushed over to see you, you heartless bastard..."

Xi Ye:"..."

"Alright!" Ye Na couldn't help but Pat her husband. "It's not easy for the child to come back. Do you have to be Naughty?"

"Tsk..." zhuxing pursed his lips and did not continue speaking.

"Dad, I miss you too..." Xi ye smiled.

Zhuxing pursed his lips. "You're insincere."

"I brought you a gift this time..."

"Really?" Zhuxing raised his eyebrows slightly. "You still have a little conscience, but don't try to trick me with some local specialty of your planet!"

“How can that be...”

“It doesn’t have to be too expensive. After all, I’m a poor B * Stard who owes so many loans. I can just give you a gift. You Don’t have to pretend to be rich...”

Xi Ye:” ...”

“Xi Ye...” gunsh, who had been silent all this time, finally could not help but interrupt. “Who are the two behind you?”

Xi Ye paused and looked at her uncle who had suddenly interrupted. Before she could say anything, lonelle, who was wearing a cloak behind her, said in a low voice, “They’re just ordinary followers. You Don’t have to worry about them...”

Her faint voice sounded a little stiff, but it also carried basic etiquette. Behind her, Vandy’s eyelids could not help but twitch when he heard the word ‘followers’!

Gunsh immediately frowned when he heard that, he looked at Seer. “You came so easily. What attendant did you bring? “Don’t you know that your younger brother’s quota is limited? “How are you going to bring these two attendants in? “If you don’t bring them in, are you going to let them stay in the hotel here? “Do you know how expensive this star transfer station hotel is? “Your father also said that he owed so many loans. Can’t he take it easy on a little thing? “In front of our own family, why are you trying to put on a show?”

As soon as he said this, a group of juniors had strange expressions on their faces. Zhuxing and his wife immediately frowned and their expressions became a little ugly. Old Master Long Jue also gave his eldest son a meaningful glance.

Gunsh’s words seemed to be an ordinary reprimand from the elders. However, as soon as he said these words, XIYE became an image of a person who owed a huge debt. He was clearly extremely down and out, but he still wanted to pretend to be fat in front of his family.

Then, Long Jue also looked at Xi Ye. Xi Ye had come because he had specifically asked second brother to call him over. It was also to change Xi Ye’s image in front of the most outstanding juniors this time, to let the juniors of the family realize that Xi Ye was the only God in the family, and not the prodigal son that had been advertised by some people.

However, it was not enough to change this image just by relying on his guidance. Xi Ye had to work hard on his own. If it was really as gunsh had said, Xi Ye had brought two attendants here just to rush at Fatty... It could only mean that he was still too young and tender... ..

Perhaps... he had to wait a little longer...

Faced with his uncle’s sharp reprimand, Seer raised his head slightly and looked at this familiar yet unfamiliar face... ..

When he was very young, he had always thought that his uncle was an amiable and amiable elder. There were even many times when he was closer to his uncle than his father.

This world... .. Children were always like this. It was easy for him to feel that the adults outside were better than his parents... ..

“The attendants are naturally there to protect my safety...” Xi ye smiled and said, “As for how to bring them in, I don’t need your concern, uncle. It Won’t be so excessive that you and your youngest son will be kicked out of the guest list this time...”

Everyone:” ...”

Xi Ye’s words were a little frightening, causing the scene to instantly fall into a terrifying silence...

“What kind of B * Stard are you saying?” Gunsh immediately said angrily.

Xi Ye tilted her head and leaned closer to her uncle. “Oh? So Uncle thinks that my father won’t do such a Thing?”

Gunsh was stunned. He immediately looked over at Zhuxing in shock. This B * Stard second brother wouldn’t really do such a thing, right? He suddenly screened himself out of the list just as he was about to reach the door? To give him to his son’s two followers?

Such a brazen act... It seemed that second brother would really do it. ...

At the thought of this, gunsh’s face immediately stiffened!

“Look, uncle, you’re so scared...” Xi ye immediately patted his uncle’s shoulder. “Why would we do such a thing? Look at your face, it’s green with fear!”

Cough cough...

The group of juniors immediately choked until their faces turned red. Gunsh’s youngest son and a group of supporters looked at Xi Ye with indignant faces, while the other juniors looked at Xi Ye with extremely strange expressions of shock.

Over the years, Rennes had been rising steadily like the Sun in the sky. Even the old master would not say anything harsh when facing gunsh. Ever since they were sensible, this was the first time they had seen someone tease this grand elder who was getting more and more dignified!

Zhuxing and his wife were also stunned. After they reacted, zhuxing looked at his son with admiration. He was just short of saying, “Well Done!”!

“You...” gunsh was also moved by this sudden anger. He was about to say something when seer turned his head away and said indifferently, “Don’t worry, uncle. I will naturally think of a way to bring my two followers in...”

Without waiting for Gunsh’s reply, he turned to look at the figure shrouded in shadow gauze behind everyone. It was the Night Demon family’s Vandy!

Gunsh had originally intended to berate seer, but when he saw that seer had set her eyes on the Night Demon, he immediately stopped what he wanted to say. He laughed coldly in his heart... ..

Before coming here, the old man had warned him that the so-called elder of the Night Demon family that ye Na had brought was not simple. He was probably not just here to watch the ceremony. It was very likely that he was an upper-class figure of the Nye family., he told him to stay away from him and not provoke him.

Xi Ye, that darn brat, was just as reckless as his father. If he dared to offend that nobleman, he would just have to swallow his pride in public... ..

When Long Jue saw Xi Ye turning her gaze towards the night demon, his expression immediately tensed up. He had allowed his eldest son to make things difficult for Xi Ye with the intention of testing him. It was within his control. However, the person behind him was different. It was not within his control...

But before he could stop Xi Ye, he had already spoken first.

“Is this the elder of Mother’s mother’s Family?”

Chapter 1482: Confrontation (Part Two)

“Is this the elder of the Na Ye Family?”

Xi Ye’s voice rang out, causing everyone from the Eldia family to be stunned. Whether it was the younger generation or the elders including Xi Ye’s parents... ..

It wasn’t that Xi Ye’s tone wasn’t very good, and her words were also addressed as an elder. However, the Na ye family was Ye Na’s maiden family and also Xi Ye’s external family. Xi Ye’s words of being an elder of the Na ye family gave people the feeling that she was interacting with a stranger. Her estrangement attitude was extremely obvious, to the point that... .. She did not even have the intention of bowing like a junior.

Long Jue frowned, and a bad feeling rose in his heart. This night demon was not a simple character. He was definitely not a disciple of the side family like Ye Na who no one paid attention to. If he offended her, the consequences would be unimaginable!

What was the situation with second brother’s child? When he was young, he was clearly such a steady person. Why did he become more and more unseemly as he grew older? First, he went on a poor journey behind his family’s back and almost ruined the painstaking efforts that his family had invested for tens of thousands of years. Now that he had some achievements, he just floated up to the Sky?

Gunsh sneered inwardly. He was indeed just like his father. He had just achieved some achievements and had already forgotten about everything. He was indeed a young boy who was not worth worrying about. He was just a little lucky. However, in this world.., it was never a world where one could rely on luck to nourish oneself for a lifetime. Second Brother Zhuxing was a living example!

Ye Na was also so nervous that her whole body tensed up. She almost subconsciously wanted to pull Xi Ye back!

Others might not know, but she was very clear about the role of this elder of hers!

The third elder’s direct grandson of the Na Ye clan, a descendant of the Na Ye clan’s direct line of descent with excellent talent. A genius who had stepped into the star level in just one era. In just less than three eras, he had already reached the star level of Tian Yuan. He was only one step away from life sea.., in the entire Na Ye clan’s three generations, the only person who could compare to him was the

head of the clan, Sun Menglan. She was the youngest elder of this generation in the clan, and her status was so high that she had practically already reserved the position of the next great elder of the Clan!

Such a figure, whether it was in terms of power or personal strength, was not someone that his son, this little deity, could afford to offend. Moreover, this person was temperamental., it was said that his previous wife had her neck broken and the star core torn apart by him in a moment of violence!

“Uncle...”ye Na’s voice was hoarse. Just as she was about to plead for Xi Ye’s recklessness, her husband beside her suddenly pulled her hand!

Ye Na’s entire body trembled as she turned around to look at her husband. She saw her husband shaking his head slightly at her... ..

Ye Na was stunned. She did not understand why her husband had stopped her. In order to prevent the family from neglecting her, the elder she had brought with her had revealed information to her husband. Her husband should know how powerful he was... ..

However, Zhuxing still gave her a reassuring look.

Ye Na held her husband’s hand, but she also discovered that her husband’s wide palm was slightly trembling. There was even sweat on his palm. It was very obvious that her husband was very nervous at this moment. It was not that he did not understand the stakes., this made ye Na even more confused as to why her husband did this, but in the end, she still complied with the other party’s wishes.

When a family made a decision, they had to be united, regardless of whether the outcome was good or bad... ..

Zhuxing held his wife’s hand. In his heart, he was also cursing that little bastard. However, the reason why he did not ask his wife to apologize was because he had his own considerations.

With the other party’s identity, his daughter-in-law did not have the weight to ask for face. At this time, she could not show weakness.

It was like a weak cat. If it encountered a lion, it would run immediately. If it provoked it, it would risk the other party’s fear to the end. If it ran after it had provoked it, it would be courting death... ..

At this moment, there was a sea of people in the surroundings. The area around the Ardia house was so quiet that one could hear each other’s breathing. They were quietly watching the conversation between the two of them.

In just a few seconds, everyone felt as though a long time had passed. No one moved at all, but they felt extremely exhausted, especially the children. They felt as though they were even more tired than after a day of training.

Fan Di silently looked at the little god who was greeting him. Under the cloak, his face was extremely cold.

He could not see through this little guy in front of him...

The other party's life force was clearly as weak as an ant, but that funny mask could not penetrate even his star-level spiritual power. It was an alchemy mask that could isolate heaven origin star-level spiritual power., it was definitely not something that the Eldia family could have.

This guy... What was going on?

After a few more breaths, finally, fan di moved. What made everyone's eyes pop out of their sockets was that the other party actually took the initiative to greet the night demon...

"Fan di na ye greets the Lord God..."

Everyone:"..."

In an instant, everyone even forgot to breathe, especially ye Na, whose eyes were filled with shock.

'that unruly and unruly fan di actually saluted his son?'

It felt like a dream...

Long Jue and gunshi were also stunned. They had thought of many outcomes, but they had never thought of this one...

"Senior is too polite..." Xi ye appeared extremely indifferent. "Senior is mother's senior, so naturally, you are Xi Ye's senior as well. There's no need to be so polite as a family..."

These words made long jue and GUNSH's sluggish expressions, which they had finally recovered from, fall back into a state of twitching eyelids... ..

If they were calling out to each other, it would be very reasonable for the other party to say this. If it was reversed, it would give people a feeling... .. 'you really dare to pretend to be so pretentious...'. ...

Xi Ye did not see the rich expressions of her family members at the moment. She continued to look at the other party indifferently, her tone was extremely cold as she said, "I heard from mother that Chen Ye was able to successfully enter the academy thanks to the care of the Na ye family all these years. I am very ashamed. I will repay the Na ye family's support to Chen Ye in double..."

Hearing this, Van der Sar forced a stiff smile on his face. "You are too polite, sir. Just like what you said, a family... no need to be polite..."

"Eh..." seer waved his hand, "It's one thing, but a blood-related brother still wants to settle the score, not to mention it's only mother's family. As for the matter of money... It's better to settle it clearly..."

The expression under van der Sar's cloak became even more stiff!

What did he mean by this? Settle the funding for the early morning and night, and the debt would be settled?

He looked at ye Na with a somewhat cold gaze. Whose meaning was this? Ye Na? Or was it the intention of the Ardia Family?

Ye Na felt a chill run down her spine when she was stared at by that cold gaze. Before she could react, a figure slowly stood in front of ye Na and her husband. The figure was not considered tall among the

crowd of thunder warriors, however, it was like an incomparably thick mountain peak that stood steadily in front of ye Na. It gave ye Na an illusion that even if there was a cosmic storm that could destroy a galaxy in front of her, this mountain peak would still be able to protect her!

It was an unparalleled sense of solidity!

This sense of solidity almost dispelled the cold and uneasy feeling in ye Na's heart... ..

This is...

Ye Na looked at the figure in a daze. Wasn't this the guard behind her son, Xi Ye?

Zhuxing and Old Master Long Jue's pupils constricted because they had not seen clearly when Xi Ye, this guard, had walked to that position...

Although the guard was wearing a cloak, his tall figure and the blood qi he occasionally revealed allowed them to clearly understand that he was a pure warrior. And what did it mean for a warrior to be able to be so stealthy right under their noses?

It meant that the warrior's strength was basically above theirs!

The guard behind Xi Ye was actually of such a level?

"Senior..." Xi Ye took a step forward as well, facing the star level fan di, he took a step forward and closed in on him. His tone became a little cold, "When I'm talking to you, isn't it rude to look away?"

Chapter 1483: variables!

"Xi Ye! !"

An old and panicked voice stopped Xi Ye, but the strange atmosphere did not stop. All the juniors looked at the audience in a daze.

Everyone saw that this guy who was treated as an honored guest by Old Master Long Jue seemed to be... .. Feel like he was being suppressed under Seer's overbearing aura... ..

Including the old master who had shouted.

He could see it the most clearly. That Fellow from the Nye family just... Seemed to.. .. Under Seer's interrogation, he took a step back... ..

His movements were very subtle, so subtle that it was impossible to see it without careful observation. However, Long Jue, who had been observing the situation all along, could still see it clearly, so he almost subconsciously stopped seer. However, after he stopped, he was also a little dumbfounded. In the face of his grandson who had turned his head around, the words that he had originally reprimanded were stuck in his throat for a moment... ..

Yes... .. An unfathomable guard, an imposing manner that could make the noble of the Nanye family retreat. This child..? ... was he still the same child that he used to know?

Everyone's eyes were looking at him because of his stop. For a moment, the situation made long jue feel as if he was riding a tiger and could not back down... ..

"What's wrong with the Old Master?" Xi Ye's gentle voice rang out, instantly making long jue heave a sigh of relief... ..

"Ahem... that... I mean, it's getting late. Let's hurry up and enter the transfer station. It Won't be good if we delay the registration time..."

"Oh..." Xi ye immediately responded with a tone of realization. "The old master is right, it's my fault..." as she spoke, she turned her head to look at fan di. "Senior, Please Go Ahead First?"

Fan Di took a deep breath and nodded slightly, "You're too polite, it's better for the main family to go first..."

Just now... that feeling wouldn't be wrong...

Just as he turned his gaze towards ye Na, that Guard's aura was like a monstrous interstellar storm, engulfing him who was like a fallen leaf, as if he could tear himself into pieces if he made even the slightest movement, moreover, he was very sure that as long as the young lord before him dared to nod, the other party would dare to do so. He would not care at all about his identity as a night demon noble!

That person... . What was his background? What exactly was the situation with this young lord?

"In that case, it's better for the old master to go first..." Xi ye said to Long Jue with a smile.

Long Jue nodded and did not continue to pester him. Firstly, he did not want this strange situation to continue. Secondly, he really could not delay the registration time. The development time of the teleportation array in the tedarhill galaxy was limited. Once fell twelve star time will be closed to the outside, including the time in line, in fact, is not free quite tense... .

"Then let's go..." long jue coughed lightly and took the lead to walk in front. He said to the juniors, "Keep up, don't get separated..."

Only then did the juniors come to their senses and quickly followed, but they looked at seer with even more curiosity, and among the juniors, the Great Elder's son, Burnos, had a confused and complicated look in his eyes... .

"Hello Sir, Please Show Me Your Registration Certificate!"

The entrance to the station was extremely crowded, and it was almost eleven weeks since the old man and his party had queued up at the registration office. As they had expected, the situation was indeed extremely tense.

Long Jue didn't dare to delay, and quickly showed the invitation letter.

The tedarhill system is so heavily vetted, you have to have a good reason to get in and out, and if you're just traveling, you have to pay an extremely expensive deposit to apply for a passport, which is not only expensive, it's extremely complicated. An ordinary person would not be able to enter at all...

“So it’s a VIP invited by the Starry Sky Academy!” The cold expression of the starry sky elf at the registration counter suddenly became gentle. “VIP guests, please register one by one according to the name of the invitation card. There will be a special staff to arrange a special passage and accommodation for the VIP guests at night!”

When the people in the queue at the back heard that it was an invitation from the Starry Sky Academy, they started discussing animatedly. An invitation from the academy, it should be to attend the opening ceremony of the priesthood, right?

“Needless to say, being invited at this time, what else could it be for? TSK TSK, the royal priesthood, the blessing of the highest priesthood, I’ve never enjoyed it in my entire life...”

“That’s right, I wonder if that little brat at home will have the chance to get a spot for me in the future...”

“Aiyo, this academy isn’t easy to pass. Even the external level 1 star field only has a dozen or so spots, and our level 2 or 3 star field only has about one or two spots. I don’t expect that Little Brat at home to have such a promising future...”

The chattering crowd made the hearts of the children of the Ardia family more complicated.

They knew how precious the blessing of the priest was, but when they arrived at the scene and saw the envy of such a huge crowd, they still felt very different...

They had a feeling that... .. It was really so precious... ..

This made most people feel proud, but at the same time, they also had a strange feeling in their hearts. This was because this thing that made people drool with envy was won over by that guy who had been despised by them since he was young... ..

“Uh... I’m sorry, Distinguished Guest...” the person in charge of the teleportation station suddenly frowned. “There seem to be only twenty slots in your invitation. May I ask if these two are together?”

The other party was naturally referring to the two guards behind Xi Ye... ..

The people of the Eldia family around them silently looked at Xi Ye, and Xi ye calmly walked forward. “They are my Lord’s guards...”

These words caused the person in charge to furrow his brows even deeper. “My Lord God, this starfield does not have any special privileges for gods. If they are not on the list, they will have to show other protective shields. If they are not, then I can only ask you to arrange other guards for them!”

His tone was very polite, but the unique arrogance of the space elves was unmistakable.

In fact, in the face of these so-called invited guests, they appeared to be gentle and respectful on the surface, but in reality, they did not think much of it. This was because they had to rely on the academy’s invitation to enter the star field, it was very obvious that they had relied on the benefits that their family members received when they entered the academy. To put it bluntly, it was like a phoenix rising from the ground. A group of country bumpkins had also benefited from it, and most of them were not worth mentioning.

As for the sky gods. Hehe, in this world, there was no lack of sky gods. Who knew how many Sky Gods died outside every year... ..

The people from the Ardia family looked towards Xi Ye. The group of people led by the first elder immediately sneered, especially gunsh. Did this arrogant kid really think that everyone would give in to him just because he had the title of Sky God?

In his heart, the distinguished guest from the Night Demon just now did not turn hostile, and it was just that it was not convenient for him to be rough with a god on the spot. Did he really think that he was a big shot when he came to the entrance of the TEDAR Hill to pretend to be a big shot?

He really wanted to see how this kid would end up. The old man's stance had clearly been loosened because of the results of the Morning Night's exam. It was clear that he did not want the family to completely rely on Rennes.

With seer as the God of Heaven as the foundation, and using resources to nurture Chenye, a high-level magical beast master who graduated from the Starry Sky Academy, it was a safer route in the Old Man's heart.

This old fart was indeed still as timid as before!

Now, he would let him see just what kind of person this grandson whom he thought could take on the great responsibility of his family was...

"Who is this idiot? He came here to show off?"The people in the queue behind him immediately began to discuss in amusement.

"I think he's a god nurtured by a country bumpkin family. Why Don't you take a look at what this place is? A God? Is it a rare thing these days?"

"Sigh, I say, Don't lose face and waste time. We still have urgent matters to attend to. If you miss our Lord's business, you can at least pay for it. A God... Why would he bring guards with him to attend a ceremony? is his brain damaged?"

The envious voice just now instantly turned into a taunt, causing Eldia and the other juniors to almost bury their heads in the ground. Immediately, most of them looked at seer with resentment... ..

The Great Elder was right. It was fine if you took a spot to attend the ceremony, but why did you bring any guards? Why are you acting so pretentious in front of your own family?

In the midst of this lively atmosphere, Seer looked at the short guard behind it.

The short guard was extremely small, about the same size as a goblin. It slowly walked forward and looked at the person in charge of the teleportation station. When it raised its head, a corner of its cloak was revealed.

The person in charge was originally extremely impatient. Just as he was about to wave his hand to chase them away, he saw a corner of the cloak and was instantly shocked. "You..."

The other party immediately made a hissing gesture...

The person in charge hurriedly bit his tongue and forcefully swallowed the rest of his words...

After taking a deep breath, his expression immediately became extremely respectful. "Distinguished guests, please come in. I will inform the Starry Sky Academy to apply for a special passage for the distinguished guests as soon as possible. I hope that the distinguished guests can wait patiently inside the passage..." "..."

Everyone:"..."

A special passage? Wasn't that something exclusive to the starry sky elven nobles? What was going on?

"Let's go, Old Master..." seer looked at long jue and said.

"Uh... Oh Oh..." long jue quickly nodded and followed a station attendant into the passage. Zhuxing and his wife quickly followed their son, leaving a group of people from the Eldia family stunned on the spot.

"F * ck... The eye is missing..." in the crowd, after a moment of silence, someone quickly said, "If the god can afford to use the special passage, I'm afraid his background is not simple..."

"That's right. Speaking of which, if he can afford to use the special passage, why does he need an invitation card?"

"I don't know about that. This family is quite interesting..."

While everyone was discussing, the members of the Ardia family were dumbfounded, especially grand elder gunsh. As the person in charge of the family business, he had some experience in the outside world, he was very clear about the people who were able to use the special passage in Teldar Hill.

What did those people think... They shouldn't have anything to do with that kid from the second family!

"That... VIPs?" The person in charge looked at the group of people who were still standing there and asked carefully, "Is there anything else I can do for you?"

The humble attitude and the arrogant attitude were completely different styles, which made the group of people from Ardia feel more complicated.

"No, no..." gunsh was the first to react and shook his head. He turned around and glared at the juniors behind him. "What are you all standing there for? Hurry up and follow me!"

"The special passage is much more restricted. If you go now, you might lose your connection. I'll send someone to bring you in..." the person-in-charge quickly said.

"This... Sorry to trouble you..." gunsh hurriedly said with a smile.

"No trouble, no trouble..." the person-in-charge replied with a smile. After that, he hurriedly arranged a person. At this moment, the people lining up in the outer area were like a tide. It was obvious that they didn't have enough manpower. However, because of this group of People's Daze, he sent another person, causing the people in the outer area to curse in their hearts, "Rich Dog..."

Following that newly arranged space elf, a group of people from the Ardia clan followed him with excited and complicated expressions.

“Sister Mira...” at the end of the crowd, one of the juniors whispered to Mira, “Our cousin seer... seems to be quite powerful...”

Mira smiled and knocked on that big and simple-looking guy. This guy usually looked simple-looking, but he wasn't stupid. Now, he knew how to call Seer Cousin?

However... .. Mira looked ahead and thought to herself, ‘he does seem to be quite powerful...’. ...

At the back of everyone, Fandy from the Yenas family heard the conversation between these two juniors. His expression was extremely strange. From the observation just now, the people from his family didn't seem to be very clear about the situation of that little deity... ..

But did he see wrongly just now?

The others didn't see clearly just now. As a star level expert, although they were a bit far away, they could still see through their extremely good eyesight. That short man revealed a corner of his cloak, and that pair of... .. Tulip-shaped pupils!

The Fairy Clan...

This little deity from the Eldia clan not only had a life sea level character to protect him, he could actually make the fairy clan work for him?

What was going on with him?

When he thought of this, a bad feeling arose in his heart. This sudden change was going to completely disrupt the family's plans!

Chapter 1484: want an explanation?

The Starry Sky Academy was particularly lively tonight. After all, it was rare for many families to visit this place, let alone enter the place where the legendary First World tree originated.

When Eldia's group came, it was already morning and night. However, the Emerald Stars in the night sky formed a unique and magnificent sight, which shocked the group.

Even Long Jue, who had seen the world, couldn't help but sigh. The juniors who had never been out of the glorious amethyst star were envious. When they thought about how morning and night would cultivate in this kind of environment, they felt an inexplicable sour feeling in their hearts.

Many people here had been training hard since they were young. But now, their future was unknown. They were still trying their best to get a place in the Xandar Academy. If it weren't for the quota of the sacrifice and blessing this time.., many people might not even be able to get a spot in Xandar Academy.

After all, the family's resources were limited. If they couldn't get half of the tuition points, the family wouldn't support them. At the very least, the descendants of the branch families wouldn't be able to get a spot.

“Distinguished guests, this way please...”

The one leading the way was a high priestess. Her voice carried a sense of tranquility, making people feel extremely comfortable.

“Thank you, Senior...” Long Jue hurriedly replied politely.

The priestess of the Space Elves was famous for being arrogant in the federation. Moreover, because she had many secret techniques, her status was extremely high, not to mention the high priestess!

Yes, the priestess leading the way brought the star wheel, which was unique to the space elves. The star wheel had eight stars floating on it, which was the symbol of a high priestess!

Even the chief executive of the Glorious Amethyst Star had to personally welcome such a person. How could he lead the way for them?

He didn't believe that Chen Ye had this kind of face at all.

The star rank was the threshold of a noble. In a level two or three star area, it was the symbol of the top-class experts. If a family could have a star rank, it would be truly everlasting. Even if they were to fall., they could also retrieve the star nucleus and provide a top-class soil for the family.

Moreover, it was the highest position and the most difficult job to promote to a priest.

To be able to receive such treatment, it was probably...

Thinking of this, Long Jue secretly glanced at the short man wearing a cloak behind Xi Ye.

Just who were these two fellows?

“The primeval forest is up ahead. Distinguished Guests, please follow me and don't fall behind. There are many restrictions here. If we get lost in a certain restriction, even we won't be able to do anything...”

The priest's voice made the few juniors in the back row who were eager to give it a try quickly shrink their necks. Long Jue and the others were stunned!

He had just heard from the station attendant that they would be given a special passage, but he did not expect that they would go to the Forest of origin!

He heard that it was the place where the First World Tree was born in the universe. It was a holy land belonging to the elves. Many nobles seemed to have only heard of it in their entire lives. They did not expect that they would actually be qualified to enter this place today!

As expected, after entering the area that was filled with fog, the entire environment suddenly changed. The density of the energy increased exponentially!

Everyone felt that the density of the energy was so dense that it was like warm water enveloping their entire bodies. Their entire bodies felt like they were soaking in an ocean of energy!

However, although the energy was huge, it was extremely gentle. There was not a single trace of impurities. Although the amount of energy was huge, it did not seem out of place when it was absorbed.

In an instant, everyone, including the younger generation, felt as if they had drunk alcohol as they floated in the huge amount of gentle energy.

Grand Elder Gunsh's face was also flushed red. After living for so long, this was the first time he had experienced such a dense energy environment that was as dense as water.

He suddenly sighed at the difference between people. He felt that if he had been born in such an environment, he would at least be able to become a dragon-level powerhouse, right?

"Your accommodation has been arranged in the morning wind district. Distinguished Guests, please try your best to stay within this area. We will send Little Elves to guide you."

He paused for a moment and looked at the short man behind Xi Ye. "My Lord, please take note. If you really want to visit other places, you can ask little elves to inform us. There will be a special person to lead the way for you."

"It's so mysterious. Is there a treasure or something?"

Everyone was stunned. They stared at the short man in a daze, not only because of his tone, but also because of his childish voice.

Why did it feel like... "...". It sounded like a child's voice?

"You must be joking, sir..."the priest laughed. "It's good if you can take the treasure or something. The main thing is that you don't want to disturb that Sir."

"That Lord?"Xi Ye turned to look at him. "Senior Iluweta?"

The air suddenly froze!

The priest gave him a deep look.

"Yes..."

The juniors held their breaths, and almost all of them had the same thought.

Senior Iluweta? Was it that Iluweta? Oh My God, that Lord was nearby?

"It just so happens..."seer nodded slightly. "I happen to have something to visit senior, please lead the way."

Everyone:"..."

The group of people froze on the spot. Gunsh looked at seer as if he had seen a ghost, and all he could think of was: Has This Guy Gone Mad?

"Are you serious?"The priest looked at seer seriously!

That Lord's position in the space elves was no different from that of a god. He was not allowed to be used as a joke.

"I'm not that bored..."seer said calmly, "Please pass the message. I, SEER, am here to ask for an explanation. If senior is not busy, I will go over now."

Hiss...

Only the sound of cold air could be heard. This time... ? ... including the younger generation. is my cousin crazy?

Even the priest was stunned. An explanation? She's never heard anyone say that since she was born.

Had it not been for the presence of a senior member of the fairy tribe, she might have done it!

"My Lord..." after a long silence, the priest took a deep breath and said slowly, "Please choose your words carefully, even if you are a distinguished guest..."

The priest: "..."

— —

"Are you crazy?"

After the priest left quickly, Long Jue roared hoarsely.

His voice was filled with anger but more of fear. It looked like an angry roar, but the volume of his voice was as small as a mosquito's.

He was afraid of alerting the people outside the room!

In the crowd, even the elder of the Night Demon family stared at Xi Ye in a daze. Although the Night Demon family was not void of the space elves, even if the Night Demon Emperor was here, he would not dare to casually ask for an explanation from that Lord!

Did this guy know what he was doing?

"Old Master, don't be so agitated..." seer said indifferently, "I do have some private matters to look for senior."

The group of elders immediately rolled their eyes. There were even some private matters. Their tone made it sound as if ILUWETA was your relative. You Brat, you've been floating outside for so many years, have your brain gone crazy?

Almost no one would believe that seer had anything to do with that Lord. Even if there was a great opportunity, it was impossible. There was not even the slightest possibility!

"Lord Seer?"

Just as Long Jue was about to explode, the priest who had just left had already returned.

Long Jue quickly stopped talking and looked at the other party carefully.

"Please follow me, Lord Eluweta invites you!"

Everyone: "..."

Chapter 1485: "He came to us so quickly?"?

"He really said that?"

“Yes!”

In the primeval forest, the Secret Court’s High Priest Academy was located at the Great Star Moon Temple in the middle. The high priest guarding this place was one of the vice presidents of the Starry Sky Academy, the Royal Second Priestess Elder, and the Priestess Academy’s President: Fario. Stormwind!

At this moment, the one who was respectfully reporting the situation was the star-ranked priestess who had previously led seer and the others. This was also the new rising star of the stormwind family’s generation, the next appointed priestess successor of the Stormwind family, Ron. Stormwind!

After listening to the report from his juniors, Fario’s expression turned solemn as he fell into deep thought.

He had heard from Ron that the little lord was not simple. Although there were very few sky gods with life sea-level guards in the universe, it was not impossible. Not to mention the five royal families’ crown princes., based on what he knew, some of the direct descendants of the top families were also with life sea-level guards.

However, it was really rare to see someone from the fairy tribe working for them, especially when the other party was just a little god.

The Fairy tribe was very arrogant. Fario, who was in charge of connecting with the ancient alliance, knew it best. Back when the elf civilization collapsed, without the restrictions of the Wood Elves and Moon Elves, the fairy tribe was actually a very big threat, just that secret technique that could change the memories of others without any warning could completely cause the entire universe to shake.

And in the ancient elf civilization, the status of the three great secret technique races back then was, to be honest, above that of the space elves. Now, on the surface, the Space Royals had inherited the outer realm secret races that the Moon Elves had led back then, in reality, many ancient existences did not buy into the space elves. In order to appease those existences, the space elves had paid a huge price.

Among them, the fairy race was even more so!

In order to obtain the support of the fairy race, the Space Elves had to fund a huge amount of energy resources every year. Every fairy race could enjoy the help of a top-level administrator of the space elves at any time, they could also mobilize any force of the space race in the universe, including the military force. According to the rules, as long as you showed the bloodline of the fairy race, your administrative level in the space race would be that of a level one star administrator, the level two star region military region commander level!

Within the administrative level, whether it was resources, internal administration, military mobilization, or even business, the fairy race could be mobilized at will. This was the support that the space elves gave to the fairy race!

Because of this, the fairy race was extremely arrogant to the outside world. As the top fortune teller in the universe, many nobles would find it difficult to get a fairy to read his fortune, let alone work for him.

According to Fario’s knowledge, the entire universe could probably be counted on one hand.

What right did a level 10 little lord have?

Fario narrowed his eyes and hesitated, which was rare in his heart. In the end, he asked, "He said to ask Lord iluvita to give an explanation?"

Ron lowered his head and did not show any impatience towards the ancestor's repeated questions. After all, this was indeed a little unbelievable. If he had not heard it with his own ears... He did not dare believe that someone would dare to act so pretentious in the Starry Sky Academy... ..

"Yes, I heard him say that with my own ears..."

"Is that so..."fario nodded, turned around, and walked to the side of a huge floating crystal. He lightly tapped the wooden staff in his hand that had an extremely ancient aura.

The huge crystal shook slightly, and the exquisite spatial runes above it rotated. Then, an extremely beautiful forest scenery appeared in midair.

It didn't look like an image, but like two spaces merging...

"Damn, what's going on so late at night?"

On the other side of the space, a familiar head popped out, looking very impatient.

That face looked like a Loli who hadn't grown up. It had the appearance of an elf, but it also had the unique tulip-shaped pupils of a fairy. It was the tooth spirit!

"Lord Tooth Spirit!"Fario bowed respectfully and said in a tone of asking for instructions, "Someone has requested to meet the Liege..."

"Oh?"Tooth spirit frowned. "Didn't you say before? Recently, the Liege doesn't want to see outsiders. You've been blind recently and can't understand words, right?"

Fario was not the least bit surprised in the face of the reprimand. He slowly explained, "That person's tone is a little different. I feel that there might be an important matter to look for the Liege... so..."

"Something important?"The tooth spirit rolled his eyes. "Did the catastrophe reappear or did the void gate reopen?"

"Ahem..."Fario coughed lightly. "That person kept asking for an explanation from the liege... I feel that there might be an internal reason, so I'm asking for an explanation..."

"Explanation?"The tooth spirit was stunned. "Who's so crazy? Sylvanas? Or is that crazy woman here?"

"Uh... she's a little deity overlord. Forgive my ignorance, but I've never heard of her before..."

The tooth spirit stared at Fario in a daze for a few seconds. Finally, she squeezed out each word from her teeth, "Old Man... you... are... playing... with me, right?"

"I don't dare..."Fario immediately smiled bitterly, he also knew that this matter sounded a little absurd. After all, in this world, those who dared to say such things were indeed like what Lord Tooth Spirit had said. Other than Sylvanas, it was probably that crazy woman Cang Yue.

“Tell me... which big shot?” Tooth Spirit suddenly became excited. He wanted to know which junior dared to be so arrogant. She had nothing to do and was ready to go to the other party’s home.

“I heard from Ron that the other party’s name is seer, the Lord of the Milky Way!”

“Seer?” Tooth Spirit curled her lips. “Who the F * ck is this... Eh? Wait, what did you say his name was?”

Fario took a look at the other party and his heart skipped a beat. From the look of Lord Tooth Spirit, there seemed to be an internal reason... ..

“His name is Seer!”

“AH... seer...” the tooth spirit suddenly fell silent as she rubbed her chin. This name did sound a little familiar to her. She seemed to have heard it somewhere before. Thinking about it carefully, wasn’t it the name of the Overlord in the Little Guy’s contract?

He came to find her so quickly?

“Where is he now?”

“He’s at the reception area at the entrance of the primeval forest...” Fario quickly said.

“Invite him over...” the tooth spirit said solemnly, “Remember, be polite...”

Fario quickly agreed when he heard that, but he was extremely curious. He had never seen such a serious expression on the tooth spirit’s face since he knew her.

What was the background of this seer?

After the space array was closed, Fario turned to look at Ron. “Did you hear that? Were you rude to the guest before?”

Ron quickly lowered his head. “No, because the guest’s words were too shocking. I had some concerns, so I didn’t dare to blame him immediately.”

“Very good!” Fario nodded in satisfaction. “Among the many disciples, you have the best talent and the most stable character. I’ll let you entertain the distinguished guests this time. Remember, this name that I’ve never heard before can make Lord Tooth Spirit so cautious. Perhaps he has connections from the ancient times. You must treat him carefully. If you can befriend him, befriend him. If you can’t befriend him, don’t offend him!”

“Yes!”

Chapter 1486: probing (Part One)

After seer and the two guards were invited away, the hall fell into silence. The group of people stood rooted to the ground, their expressions filled with doubt... ..

The reception hall in the primeval forest used the structure of the top architects of the Star Elves. Inside, there were all kinds of alchemy equipment and enchantment crystals. It was extremely luxurious, and at the same time, it optimized the space energy to the extreme, it could even be fitted according to the

individual's physique and then optimized the energy processing, allowing the human body to absorb the most suitable state.

If it was in the past, such a top-level structure would definitely be able to attract the younger generation of the Eldia family in the first place, but now, everything in front of them really made it impossible for them to divert even the slightest bit of their attention to the top-level design around them.

'this cousin of mine...'. 'Huh?'. 'did he really get Llewita to invite him?'

'or was it after showing off?'

'Oh my God!'

The sunchaser couple looked at each other in a daze. Their eyes were filled with their child's parents. What had their child done in the past 10,000 years?

Long Jue and GUNSH also had doubtful looks on their faces. They felt that what was happening in front of them did not seem to match their common sense...

Finally, it was the night demon, Vandy, who had been silent at the end... ..

His current thoughts were similar to those of the people in the Aldia family. They were all in a state of confusion where their cognitive logic was broken. He could not understand why a small family that did not even have a dragon-level.., how could a small family that could not even provide a normal resource star be able to nurture such a God?

Even if it was a fortuitous encounter, wasn't it too much. To be able to have a relationship with someone like lluweta after going out for 10,000 years, even the book did not dare to write that... ..

The key was that in this situation, could the family's plan really continue?

It felt like this variable was not something that he could handle at all!

"Everyone..."

The entire hall was silent for almost 15 minutes before fan di coughed lightly and spoke first.

Long Jue and the others quickly looked over.

"I'm not feeling well, so I'll go back to my room to rest. I'm really sorry to spoil the mood..."his tone was slowly apologetic, completely different from the emotionless tone he used before.

"You're too kind!" Long Jue quickly smiled. "You're Ye Na's elder, so you're naturally a distinguished guest of our Eldia family. We should say that we didn't treat you well..."

"No, no..."fan di quickly waved his hand and said, "Thanks to you, this is the first time I've entered the primeval forest in my lifetime. I'm afraid I'll have to show off when I Get Back..."

'who isn't...'. Long Jue thought so in his heart. He could not hide the smug smile on his face as he said modestly, "You're too polite..."

Hearing this, the faces of the Eldia Juniors also turned red with excitement. The primeval forest was the birthplace of the world tree. It was a Holy Land of the elves that was not open to the outside world. They could come here just as the other party had said. They really had something to show off when they went back.

Long Jue very politely sent fan di upstairs. He wanted to choose the best room for him. The other party did not refuse after a few polite words. Just like that, the two of them chatted and laughed as they went upstairs.

Gunsh's body stiffened as he stared blankly at Long Jue and fan di going upstairs. His face still looked as if he had not reacted. It took him a long time to come back to his senses. He lowered his head and followed them upstairs gloomily.

Downstairs, the zhuxing couple looked at each other and held each other's hands tightly. Ye Na looked at her husband with both anticipation and worry in her eyes.

Zhuxing patted his wife's small hands in a comforting manner.

He was very clear about his wife's current mood, and he also knew what she was expecting and worried about...

That fan di had come with ill intentions. Although his wife did not say it explicitly, how could a character like him really make such a trip to the academy just because of a collateral branch disciple? If he really praised his wife that much, she would not have been reduced to raising night silkworms for her family for so many years!

There must be something fishy going on. The other party was most likely using his connections to come here. From the gloomy mood that his wife had been feeling ever since she returned home, it could be seen that his mother's request was most likely not a good thing.

Although Zhuxing's personality was very carefree, it was not that he was not smart. He quickly deduced that the night demon family was most likely using his youngest son, Chen Ye, to do something in the Starry Sky Academy.

Although he didn't know what exactly he was doing, he dared to act recklessly in the Starry Sky Academy. If he wasn't careful, his entire clan might be exterminated!

And now, that Brat Seer's sudden performance seemed to have caused that fan di to have some misgivings. This might be a chance for his youngest son to escape the Night Demon clan's scheme... ..

But what his wife was worried about was just what his little brat was capable of... ..

To be honest, regarding this point...

Zhuxing glanced at the group of juniors in the living room who were already discussing fervently. He felt unusually guilty... ..

He had never looked down on his son, but this level of advancement was clearly not within the scope of normal logic. Although he didn't know how the Brat did it, it was most likely..! ... was a false alarm!

If that's the case, he wants the Kid to play it long enough, at least... .. Hold on till we get his brother out of the water... . .

"This way, my Lord..."

On the other side, Ron, who was leading the way, was so respectful of the seer that he didn't even dare to talk to her, even though he wanted to know, like cat's Paw, how this little god connected with Lord eluvita.

However, he also knew that sometimes, such mysterious people would be very displeased if he asked too openly, even though he came from a noble background, however, there were still many existences in this world that he, a galactic noble, could not afford to offend, such as some existences that needed to be appeased in the ancient lands.

"This direction is a little close to the edge..."seer walked for a while and asked curiously, "I thought that senior would live in the core position in the primeval forest..."

"AH... about that..."ron quickly said, "The core is the sacrificial temple. There are more people coming in and out. Sir is a person who doesn't like to be lively. He usually likes to live in a quiet place..."

"I see..."seer nodded. "I've heard of it. Senior seems to have a rather lonely personality..."

Ron frowned when he heard that. He was even more confused. From his tone, this little god did not seem to be familiar with Lord iluvita. He did not even know about her habits. But how did they form a relationship?

Or was it simply because her background was too big?

But what kind of background could make Lord Iluvita buy it like this?

While he was puzzled, Ron suddenly felt his eyelids twitch. He immediately looked ahead vigilantly. He had sensed something with his mind just now!

But his reaction was still too slow. By the time he raised his head, the thing he was on guard against had already passed him and cut into his back, grabbing towards Seer!

The speed was so fast that Ron's eyes could not catch it at all. He did not even have time to react with his mind!

However, Ron still sensed the familiar feeling in an instant, and his doubts immediately rose.

Tooth Spirit Senior?

Chapter 1487: probing (part two) !

Senior Tooth Spirit? ?

Ron's heart skipped a beat. Although his spiritual sense could not keep up with his opponent's speed, he still recognized the person who had attacked him at the first moment. But that was precisely why he was puzzled, why would senior tooth spirit attack the guest he had invited?

Could it be an enemy? But if it was an enemy, shouldn't he have given them a warning first?

His head was full of questions, but on the other side, they had already officially started fighting!

Lonelle, who was behind Seer, was the first to react. She took a step forward and blocked in front of them. The mountain aura that was as thick as a galaxy came at them, forcing Ron to lie on the ground, he could not even raise his head, and he was even more shocked!

Tian Yuan! ! !

Although he had not reached the life sea yet, he was only half a step away. Moreover, as the most outstanding direct descendant of the Stormwind family, his foundation was solid, and almost no one in his generation was better than him, even in the Elder Council, he would not be so defenseless against those priestesses and elders who had been famous for a long time. There was almost no need to think about it. He was very sure that this guy was at the Tian Yuan life sea level, just like his grandfather, Fario, he was the type of person who stood at the peak of the universe!

Thinking of this, Ron became even more curious about Seer's identity. What kind of identity could be protected by a tianyuan-level powerhouse?

Whoosh! !

Faced with this unbelievably fast powerhouse, Lonelle had no intention of holding back at all. As soon as the dawn sword came out of her body, it brought her Golden Titan's power to slash down!

The momentum was so strong that even in the environment of this super-grade planet, it caused a disturbance in space!

If this was a grade-6 or grade-7 planet, the moment the sword left her body, the entire planet would probably be shattered by the powerful resonance reaction!

"Sword of Dawn?" Ya Ling nimbly dodged the opponent's slash. Her pair of tender fingers lightly tapped on the opponent's huge sword. The strange thing was, with just a light tap... In an instant, the incomparably powerful slash of Lonar was silently deflected...

It was as if an incomparably huge storm had suddenly been neutralized by something and came to an abrupt stop!

Lonar's golden pupils abruptly constricted!

Her opponent's technique was simply inconceivable. This light tap, in terms of strength alone, was probably not even 1/10,000,000 of her own. Yet, it was that concentrated strength that was like a needle.., the extremely precise strike landed on a coincidental force point on his strength surface. It split rapidly like a tree branch, breaking his strength into countless strands. It then guided these countless strands of strength to interact with each other, until they disappeared without a trace!

This technique was something that Eonar had never seen even when she was in the Titan army!

This was not only something that could be achieved with high agility, it also required extremely precise calculation and judgment. How much force was struck, how much force was broken, how much impact was formed.., the slightest error would cause the surrounding space to explode!

However, the space that was as calm as the surface of a lake in the afternoon told her that the other party's calculations were not wrong, not a single bit!

Was this the strength of the number one ranger in the starry skies?

Ionelle was extremely excited. In the Emerald Star Field, she had fused with the soul of Gaia. Under Ysera's guidance, she had barely entered the Heaven's origin realm. After becoming the Heaven's origin realm, her strength was too strong, and she had never used her full strength before, even when training with Ysera, both sides were very restrained. Today, they had met this legendary expert. It seemed like they could have a good fight!

However, the tooth spirit didn't seem to be interested in this exceptionally powerful Titan. It directly cut through Ionelle's side and grabbed towards seer!

Ionelle tried her best to stop him. However, her full strength had been combined. In an instant, she was stunned and couldn't keep up with his speed. She could only watch as the short man grabbed towards Seer!

So Fast!

Ionelle could not help but sigh. As expected of a legendary figure. With such speed, even if she had not made a mistake earlier, she probably would not have been able to stop him...

At the critical moment, a figure about the same height as the tooth spirit blocked seer from behind. Just as the tooth spirit dodged Ionelle, it instantly filled in!

Good move! !

A trace of admiration flashed across the tooth spirit's eyes!

Although the Titan girl had also stepped into the Heavenly Yuan realm, her aura was clearly unstable. Furthermore, she did not have any battle experience at the Heavenly Yuan realm. Her techniques were extremely crude and it was impossible for her to block Xi Ye.

However, the person in front of her was different. Regardless of whether it was her movement or the timing of her actions, they were all superb. It was almost... .. ! He was on the same level as her!

This made tooth spirit, who was initially only interested in Xi Ye, suddenly become a little curious about this short guy. Then, with a flash of green light, she left a clear shadow on the spot and directly appeared beside Xi Ye.

The strange thing was, the shadow left behind by tooth spirit did not look like an afterimage. It felt like a real existence, staring at the short guy who was blocking her, as if she was moved and would directly attack her!

Short Lulu frowned, turned back towards the direction of the night to rescue, but just when she just moved, that has been in the same place, as if something like a shadow really towards her hand!

In the distance, in the priestly temple, Fario's pupils contracted slightly as he watched the battle using the massive crystal space-dissolving function.

Even in the starry sky clan, very few people knew about the tooth spirit's secret technique, because very few people in this world could make her use the secret technique. Ever since he was born, he had only heard about it from his elders, and this was the first time he had actually seen it!

He had heard from his elders that the star shadow was a law mutation phenomenon caused by the speed exceeding time!

Because the speed was too fast, it caused the spatial memory to be unable to react at all. Thus, the corresponding body of the same energy was left on the spot, and in a short period of time, Lord Tooth Spirit appeared, and this speed was so fast that even her own divine sense reaction would leave some on the spot, which resulted in the temporary appearance of the afterimage not only having a few seconds of physical effect, but also a few seconds of consciousness!

Therefore, the thing that attacked Lulu was not an arcane clone or anything, but the tooth spirit from a billionth of a second ago!

And in the instant that the afterimage tooth spirit attacked, another afterimage was left on the spot. The powerful energy and the extremely exaggerated speed caused the two afterimages to have a few seconds of consciousness like before!

Just like that, in this one-millionth of a second, the afterimages continued to stack up, as dozens of tooth spirits simultaneously grabbed towards Lulu!

Even Fario, who was watching the battle, was shocked speechless by this secret technique. He had heard of the effects of this secret technique before, but after seeing it with his own eyes, he could not help but sigh at the level of hooliganism of this secret technique.

It was almost equivalent to having to face the attacks of countless lord tooth spirits within a short period of time. Furthermore, this stack of afterimages was almost limitless. Furthermore, this was the primeval forest, where the energy was deep and almost endless., if this went on, even Fario would believe that Lord Tooth Spirit could stack thousands of his own Fario here!

Too Shameless...

Even if they were in cahoots, Fario could not help but Grumble in his heart. Such a secret technique could only be used by freaks like Lord Tooth Spirit who had extremely high agility and extremely high computational ability, after all, it was very difficult to find an existence in this world who had both the agility talent of a top-tier elf and the divination and computational ability of a top-tier fairy!

Whoosh!

Just as the thousands of tooth spirits seemed to be about to take shape in this endless stack, an incomparably terrifying sword aura soared into the sky!

Chapter 1488: The Strongest Jade Sword Immortal!

This is...

Fario took a few steps back with a shocked expression. That astonishing sword aura made him unable to stand properly even though it was separated from the crystal. The huge crystal even started to crack due to the powerful sword aura, this made him subconsciously look at his junior, Ron, with worry.

Ron, who was at the scene, had a look of realization on his face. He raised his head as he lay on the ground, as though he had lost his soul... ..

This incomparably powerful sword intent tore apart the heavy aura of the Titan from before, making him barely able to raise his head. However, the moment he raised his head, he was completely lost in this incomparably resplendent sword intent. His powerful star-grade divine soul could not help him in the slightest.., his gaze was unfocused, and his mind was clearly completely lost!

Jade Sword Immortal? ?”

The powerful sword domain had completely shattered the tooth spirit’s temporary spirit bodies. The secret technique that had been forcefully interrupted had caused them to be unable to overlap endlessly. The tooth spirit, who had retreated, had a look of shock on her face at first, before revealing an incomparably excited expression!

Although her status was extremely high, she was still a mixed-blood after all. Many secrets of the fairy race were not made public to her, so although she knew that many fairies were powerful reincarnations, she did not know the specific situation.

But she had heard of it!

Before she had even debuted, she had heard that there was once an extremely powerful sect in her race, and every successor was a top weapon master in the world, in the ancient Elf era, the chief sword saint under every generation of Elf Emperors was almost always a jade sword immortal. There were very few exceptions!

And among the many Jade Sword Immortals, there was one called calamity. He was born with a sword soul that caused the clan leader to lose his soul. He was known as the most talented sword immortal seedling in the Jade Sword Immortal Palace.

In fact, this reputation was not flattering. It was the truth. Ever since that fellow came out of the Immortal Palace, he had never lost a single battle. In the records of all the battles, all of them were against top-notch experts at that time, it was rumored that he had once faced off against the three great demonic gods of the abyss without being at a disadvantage.

He was the number one sword immortal, and also the number one expert in the history of the female race!

But just like her name, from the moment she was born, she was predicted to face a great calamity. This calamity was her calamity, and also the calamity of all life!

No one knew how she died, and no one knew what the number one sword immortal had done or where she had gone during that calamity. They only knew that after she disappeared, the elven empire fell apart at that time!

Tooth Spirit had never met Jade Sword Immortal since she was born. The Sword Palace had been sealed for many years, and even in the outside world, it was no secret. It was impossible for the fairy race to use the moon spring that was about to dry up to nurture jade sword immortal.

If she wanted to nurture jade sword immortal, tooth spirit believed that she would only keep this one!

And this sword intent...

Tooth spirit was very sure that this fellow was the legendary one! !

“Interesting! !”

Tooth Spirit’s face was filled with an extremely excited smile. She was genuinely happy. Everyone said that she was actually the number one expert of the fairy race, but she knew who her clansmen believed in deep in their hearts. The king had not been born, and the king had passed away.., the most depressing thing in this world, in her opinion, was being compared to the dead by the people of the world, because there would never be an answer as to who was more powerful.

But today, she seemed to have a chance to test it out!

Boom!

A surge of soaring battle intent rose up. The powerful wind elements of the primeval forest gathered toward the tooth spirit like the ocean. The tooth spirit’s entire body flickered with sparkling green light. The unparalleled battle intent instantly dimmed the incomparably bright starry sky of Teldrasil!

Ron instantly closed his eyes in despair. If these two terrifying battle intents collided, even if it was just an aura, his soul would probably be annihilated in an instant!

As a spirit-type lifeform, what he feared the most was this kind of unreasonable aura!

Troublesome...

Jie frowned. She had already obtained the opponent’s identity from Lulu’s memories. She roughly knew that the opponent was an incredible character, but she hadn’t expected him to be so strong.

Based on her intuition, even when she was at her peak, she might not have a 100% chance of defeating the opponent!

Under such circumstances, it would be a little troublesome to protect this little deity...

“Enough...”

Suddenly, a gentle and tired voice sounded. The surrounding runes lit up, and Ya Ling’s pupils suddenly constricted as she hurriedly cried out, “No! !”

However, before she could finish her words, a completely irresistible spatial power suddenly teleported ya Ling and the entire space around her away!

All that was left was a mess and a large piece of empty space in the middle!

Xi Ye looked inside. There was an ice-cold void in the void. The so-called ice-cold was a direct visual sense, because there were countless ice-cold gazes in the void, like hungry hunters..., they looked coldly at the prey that was still struggling.

At that moment, Seer had a feeling that the entire universe that he was in seemed to be singing and dancing under this cold gaze, but in fact, it was already as dangerous as an egg!

So... ... In the legends, the largest void rift sealed by Teldrasil was not a legend in the storybook, but it was true... ...

“That year... the first invasion of the void came towards this first world tree...” in the faint fog in the distance, the gentle voice rang out once more. “The world now believes that the world tree that held up the Teldrasil Galaxy was the First World Tree in ancient times. However, the old fellows who came back to life from our generation all know that there is no such thing as the First World tree in this world. Long ago, when it faced the void for the first time, it had no choice but to explode!”

“Explode?” Seer was stunned...

“Otherwise... how did little junior brother think that such a huge crack appeared?”

Xi Ye: “...”

“Little junior brother, you’re really capable...” in the mist, iluweta slowly walked out, she looked at Lulu. “This fellow was once incomparably arrogant. He even disdained to follow the name of the sword saint of the imperial court and was actually willing to serve as your bodyguard. Regardless of whether it’s true or not, I’m really curious about little junior brother’s methods...”

“Tch!” Jie rolled his eyes at the other party. “He’s still the same as before. He looks like a simple and honest middle-aged man with a black belly...”

In the distance, hearing these words, Fario’s face was filled with an indescribable expression. He didn’t even have the time to care about his own unconscious junior. His mind was filled with Iluweta’s words...
...

He was a great scholar of the ancient history of the elves. He more or less knew some of the things that happened in the past. The current elven royal court didn’t have the title and position of Sword Saint. However, in the ancient times, there was one. That was the original Elven dynasty era..., the title of a top-notch expert, specially conferred by the three elven emperors, could only be obtained by the number one swordsman in the universe.

In the history of the previous generations of Sword Saints, there was only one person who disdained to accept that title, because she thought that if she accepted it, she would have to be a gatekeeper, which would delay her drinking.

That was the strongest jade sword immortal in the history of the Elves: Calamity!

The one who guarded that little deity was actually this one! !

No wonder Lord Tooth Spirit was so agitated, but... ... How was this possible?

“Don’t be rude...”Xiye glared at the dead drunkard, scared half to death in his heart.

Fortunately, there wasn’t a fight. Otherwise, that imposing manner just now wouldn’t have been blasted into a cacophony? This fellow really could cause trouble. Didn’t he say that he wouldn’t be able to wake up for a short period of time? Why did he come out for a stroll again?

“Senior brother, do you have a safe place to talk?”Seer directly said, “That spatial law of yours just now shouldn’t be able to trap that senior for long, right? I’m a little afraid if I stay here... why don’t we change to a place where she can’t find us?”

Jie:” ...”

When ILUWETA heard this, she laughed out loud. “Little Junior Brother is right. It’s my fault for not thinking properly. It’s indeed quite troublesome for her to find us. Let’s go this way...”

Chapter 1489: The Great Calamity is coming (Part 1) !

“Oh...”

As soon as Ron woke up, he felt a splitting headache. He could not help but grunt.

“You’re Awake?”

A familiar and calm voice sounded. Ron looked up and saw that it was his ancestor, Fario.

“I. . .”Ron was about to say something, but he was pacified by the other party’s spirit. “Don’t speak, calm your mind and meditate in peace!”

Ron nodded with difficulty. He lay down on the ground and focused his mind into a state of meditation unique to the Stormwind family.

The process was very difficult. The previous trauma made him feel as if his mind and body were being torn apart. However, after enduring the pain of the first wave of tearing, he suddenly felt much better because of the top-notch rain of tranquility around him!

The stormwind family’s secret technique of tranquility was known as the number one in the universe. Even the current number one priestess family, the Windtalker family, did not dare to say that they could surpass them in this field.

Moreover, it was the forefather who personally took action. The top-notch Tranquility Recovery Effect was astonishing. Ron only felt like dry soil that had been dry for a long time, enjoying the sweetest nectar... ..

After a long while, Ron finally let out a long breath. The pain on his face at the beginning slowly eased into a state of extreme enjoyment.

It was only then that Fario continued, “You saw what happened just now. The person standing behind that Little Lord is someone from the ancient times. That Little Lord has either a shocking background or

met with a shocking fate. No matter which one it is, you have to treat him as a member of the royal family when Lord Iluvita hasn't expressed his stance. Do you understand?"

Ron nodded with lingering fear. That terrifying aura just now was too frightening. He was caught in the middle and couldn't even get far from the battlefield. If they really fought., he might really die in the collision of the two auras.

This was truly an unexpected disaster!

Just as he was thinking, there was a sudden bang. A figure so fast that even Fario couldn't see clearly rushed out from the floating crystal and said fiercely, "Where are they?"

Fario immediately smiled bitterly. He had known this lord for so many years, but this was the first time he had seen her so excited. However, it was normal. If he were her, he would probably be this excited when he met that person. After all, for countless years., the number one spot in the fairy tribe had always been occupied by a dead person. When there was an opportunity, who would not want to test whether the other party was worthy of that title?

"The Liege has brought them away..."Fario said carefully.

"F * ck! !"The tooth spirit directly cursed, "I knew it, that damn constipated man! ! !"

Fario looked at the sky, pretending not to hear those words...

Lord Iluweta was responsible for guarding the first void rift. Every day, he had to rely on the world tree spirit to absorb large amounts of void energy for purification. In the process of assisting the world tree, he would also be contaminated with extremely high concentrations of void energy.

No one else in this universe can truly digest the true void energy, not even our own adults, so every day we have to spend a lot of energy to purify the remaining void energy in our bodies.

This is also the root cause of his long-term sleep, difficult to digest the void can not be normal elimination, many times the adult is a pair of... ... HMM. ... I don't know, constipation... . .

I had the honor to see once, the adult's facial expression is the kind of physiological phenomenon that I had when I was very young, this matter is not only seen by myself, but really dare to bring out to say, only this one... . .

"No, I must find them!"Tooth Spirit said with a hurricane and rushed out, leaving a powerful energy churning a mess of the sacrificial temple.

Fario sighed slightly and shook his head helplessly.

Of the ten great lords, his Lordship's spatial attainments were the strongest. This could be seen from the fact that he had been able to seal the void rift for so many years. With Lord Tooth Spirit's strength, it might be difficult for his lordship to simply trap her. But to avoid her... . It's not that hard.

After all, Lord Fang Ling is known as the number one ranger, but he's not very good at tracking. . .

"Old ancestor..."Ron saw him leave, finally could not help but ask: "Who is that person? Unexpectedly can contend with the tooth spirit Lord!"

In his heart, Lord Tooth Spirit was already one of the strongest people in the world. The number one ranger in the starry skies did not mean the race in the starry skies, it meant literally under the heavens and the starry skies. The entire federation, at least on the surface, there was no ranger who was stronger than Lord Tooth Spirit!

The windwalker race was known as the strongest ranger race, but the past generations of clan leaders had never stopped challenging Lord Tooth Spirit ever since the establishment of the Sky God Federation. According to records, they had never succeeded!

Even the elven emperor, to be honest, if he was not in the world tree environment of Tydar Hill, it was unlikely that he would be able to defeat Lord Tooth Spirit... ..

Therefore, he was very curious. who could be so powerful that Lord Tooth Spirit's desire to win was so strong... ..

Faced with the curiosity of his juniors, Fario did not hide it. After all, since the other party was able to directly display the sword Qi of the Jade Sword Immortal, it was obvious that he did not take his exposure seriously. As long as it was not spread randomly, it should not be a problem...

"The former number one sword saint..."

"Sword Saint?" Ron was stunned. As a priestess, he was also knowledgeable about ancient history. He knew that this was not a conceptual title, but a real and glorious title that existed in the past, below the elven empress., the number one swordsman was known as the sword saint. Only the strongest swordsman in the universe could call him by this title.

And now, the position of the royal court of the Space Elves did not have this position. The number one warrior usually took over the position of the Royal Court's Chief Commander. The reason why this title was deleted was to avoid chaos.

After all, this was an era where there were tens of thousands of races, and the Elves were not the only ones. This kind of pretentious title would easily cause dissatisfaction among other races and cause unnecessary disputes.

Secondly... .. It was true that no family had the confidence to inherit this title of the Space Elf Warrior system. After all, the warrior system was not the specialty of the elves, and the fairy family that was affiliated to the space elves had already cut off the inheritance of the Jade Sword Immortal.

This position was deleted when the space imperial family was established.

Since there was no such person in this era, then it must be from that era. And there was only one person in history who was qualified to be called the number one swordsman!

"It's that person?" Ron asked in shock.

Fario nodded slightly. "So you understand what I said before? Remember, before the Lord expresses his opinion, you must not offend him, and you must not easily expose what happened today. If it's a friend or not an enemy, try to rope him in as much as possible!"

"I understand, great-grandfather..."

On the other side, Seer followed Ilovita all the way to a magical space. He said that it was magical because he had never seen such a space before. It was as if at the edge of all worlds, there were countless cracks here.

Something had sealed the cracks there, but those shocking cracks could be seen that the thing that sealed it did not seem to be very old.

‘What is this place?’?

Xi Ye was a little shocked. Even though she looked like she was just fooling around, she still had a grave expression on her face when she saw everything around her... ..

Chapter 1490: The Great Calamity is coming (Part 2) !

These are...

Under the mask, Seer’s face was filled with disbelief, because the cracks in the spatial seal were all terrifying existences.

The largest one at the front was a purplish-red crack. That incomparably violent aura filled every cell with fear, as if the thing inside could devour everything in the world as soon as it came out, the kind that did not leave a single bit of dregs!

One could tell with one’s butt that it was definitely the place where the Void was sealed!

It seemed that the other party was not lying when he said that he was in charge of sealing the void.

But what made people even more fearful was the other cracks. Every threat seemed to be no less than the void itself!

It was a pure gray crack. At first glance, it was deathly silent and cold inside. There was not a trace of life in it. Seer, who had already come into contact with the undead realm, instantly recognized that this was definitely a huge death boundary!

What was shocking was the nearly shattered barrier at the world of the Dead! !

Seer even felt that the slightest touch would pierce through it like paper!

The other world of the dead weren’t good either. There were some existences that he had never seen before, and there were also some things that only appeared in legends, such as the Sky Demon Assembly!

It was rumored that the Sky Demon World was on the first level of the abyss. However, in reality, the Heavenly God Academy had long publicized this secret. The existence of the first Sky Demon World was only a group of top-tier demons who were responsible for managing the sky demons, the Real Heavenly Devils were sealed in a mysterious existence. The occult world was known as the Heavenly Devil Collection!

Other than the escaped heavenly devil, the remaining 999 heavenly devils were all inside. It was rumored that if a thousand heavenly devils were to gather, they would form the greatest terror that had existed since ancient times. The entire universe would fall into an ancient terror.

It sounded like a scary fairy tale, but through the white barrier, Xi Ye could clearly see the strange smiling faces on the other side of the barrier. They were very similar to the heavenly devil armor on rainy girl's body, even through the barrier, it could make people feel a chill that went deep into their bones!

"Has it become so serious?"

The one who spoke was calamity, and her eyes were full of doubt. As the first person to discover the catastrophe, she knew everything that was happening in front of her because she was the first to seal the first crack here.

However, her first defeat was at that time. A blade that was even more powerful than she had imagined, and her sword was still hanging on her opponent's body as a trophy!

"It's been so serious for so many years... "...". "Sometimes, I really envy the people outside. They don't know anything. Even if they do, they're better off than me. After all... "...". "They don't have to face it every day like me!"

"It sounds quite miserable. It's scary at first glance..."Jie shrugged and smiled.

However, as soon as she said that, she suddenly felt dispirited and took two steps back. Xi Ye supported her with her hand.

"What's Wrong?"

"It's a bit exhausting..."jie rubbed his head and said, "That damn dwarf is quite powerful!"

Xi Ye rolled her eyes and thought to herself, 'you make it sound as if you're taller than him...'. ...

"It hasn't even been fought yet, and you're already like this?"Xi Ye tilted her head and said, "I thought you were evenly matched with him just now, but I'm relieved."

"It's just on the surface..."calamity did not seem to be afraid of losing face at all. He said calmly, "If we really fight, we won't be able to last more than three moves!"

"Eh?"Xi Ye paused. "That damned dwarf is so powerful?"

"You're being modest..."llewita smiled and said, "You just haven't recovered yet. If you were at your peak, your chances of winning would still be slightly higher..."

Upon hearing this, Jie narrowed his eyes slightly. 'slightly higher'?

'interesting...'. ...

"But this junior brother..."llewita looked at Xi Ye. "I still can't see through him..."

"Senior brother, you're too polite..."Xi ye bowed slightly and said, "For a junior like me, senior brother would be honored to take a look!"

"I don't think so..." Iluweta narrowed her eyes and looked at Xi Ye. "I've lived for so many years, and I've never seen an alchemy tool that can even isolate my spiritual power. Where did you get this thing?"

Xi Ye tilted her head. "Senior brother, Can You Guess?"

"Okay, then I'll guess..." ILUWETA nodded. "The aura here will be infected even if a powerhouse of the life sea enters. The God Soul Star core is not Tianyuan, so it can't even persist. This mask of yours can not only isolate spiritual power, but also isolate aura. Unless the Titan Divine Craftsman, Gognath, is alive, no one can make an alchemy tool of this level, and..."

Said Iluweta a step closer: "Your Mask with the power of the void, not like this side of the product, rumors of Cangyue value a man, it is not you?"

"Ha Ha Ha Ha..." Xi Ye the first guilty smile.

Can only say that is worthy of being the zenith of the universe, feeling in front of each other for a moment to be seen through the bottom of the stage!

"But you're not simple..." Iluweta narrowed her beautiful starry eyes. "Your Eyes Never Change. Is it the alchemy or yourself? Or have you always been able to ignore the scent of the strong?"

"How could there be such a person?" Xi Ye laughed.

"Yes..." Iluweta stared closely at Seer: "I have also seen, Blue Moon is!"

Seer: "..."

His gaze... It did not change. It was as if no amount of pressure was able to move his gaze even the slightest bit...

What an interesting little fellow!

Iluweta retracted her overbearing aura and looked around. "How did you obtain those purebred ancient bloodlines?"

Seer: "I have no comment..."

ILUWETA: "Are there any other royal families besides cabbages?"

Seer: "I think so..."

ILUWETA: "Are there any elves more powerful than that little guy who only knows how to eat stupid food?"

"For the time being... I don't think so..." Seer said honestly.

"Is that so..." Iluweta sighed. "The catastrophe is coming. Why does that guy have to bear the Fate?"

He had never seen such a lucky salted fish in his life!

Seer looked at the sky silently and was speechless.

If it was possible, he really did not want to let little cabbages come out to challenge the world. However, just as the other party said, there were no elves who were better and more powerful than little cabbages... ..

Therefore, the heavenly fate was really strange. Many people worked hard to the extreme. Even the heavens would not give it a hard time. However, some people were lazy to the extreme. It was her turn to do all the good things. Weren't you angry?

"Forget it..."Iluweta sighed. "Junior brother, don't worry. Although the environment that the little girl is in is a little dangerous, I will do my best to nurture her!"

"First, we have to ensure her safety!"Xi Ye stared at her.

Iluweta also stared at her. "Without training, no matter how good your talent is, it will be wasted!"

"If you can't guarantee it, then I'm sorry..."seer raised his head and looked straight into his eyes. "I have to take her away!"
