

## A Bunch 1511

Chapter 1511: after the grand ceremony (Part Two)

This discovery made Long Jue overjoyed!

It had to be said that although Chen Ye was usually as quiet as a rock, he was still as capable as his second brother when it came to crucial matters. Not only did he manage to get into the starry sky academy, but he also managed to hook up with a purebred elf so quickly?

Although he wasn't a starry sky elf, judging by the color of his eyes, it was obvious that he was a high-quality elf. This kid was really... ..

Thinking of this, the old dragon baron laughed even more happily!

This was the second benefit of being admitted to a famous school...

Most of the students on campus were in their adolescence. A better platform would allow one to get to know a higher quality member of the opposite sex and could perfectly contribute to the family's genetic inheritance!

The Eldia family was mainly composed of thunder warriors, but that did not mean that they would fight to the death over a single bloodline. In fact, even top-tier nobles would not fight to the death over a single bloodline. If there was an outstanding bloodline, it would be passed down through genetic inheritance, diversity was the foundation of a family's prosperity.

Back then, when second brother pursued a high-quality night demon like Ye Na, he did not make the old man so happy. Unfortunately, Ye Na did not give the Eldia family a child suitable for the inheritance of night demons, moreover, their own genes were sold after that incident.

They were secretly bought by the old man, but they were temporarily unable to use them.

And now, Chen Ye had inherited his father's good tradition. He had just started school, and he had already hooked up with such a pure-blooded elf. It was really a double blessing!

The East Star Region's Elf bloodline had always been popular. Even if it was not a space elf, as long as the bloodline was high enough, it was worth spending a great price to inherit and nurture.

At the thought of this, Long Jue's heart was burning with passion. He quickly said to second brother with a stern face, "Aren't you going to put the child down? What do you look like? You're already so Big! !"

Only then did Zhuxing curl his lips and put Chenye down. Chenye glared fiercely at her father, but she did not dare to look at the little cabbage beside her who had accompanied him here.

It was too embarrassing... with this father...

"You..."ye Na, who had rushed over after him, could not help but pat her husband's head. "Don't scare the Child!"

“Tsk...”zhuxing looked at his wife unhappily. “What do you know? The child loves it when I kiss him like this!”

“I don’t Like It! !”Chen Ye roared with a flushed face.

“Okay, okay...”Ye na looked at the angry Chen Ye and held back her laughter. “Don’t worry about your father. Hurry up and introduce your friend.”

Long Jue also looked at little cabbage with a gentle and kind smile as if he was an elder.

Gunsh, who had rushed over, had an even more stiff expression.

He was good at disguising himself in the past, but he really couldn’t put on an act in the face of the successive good fortune falling on the second wife...

When second brother brought ye Na from the Nayye family back to the clan, he didn’t expect that second brother, who was flirtatious but not flirtatious, and who was a straight man with no appearance, would be able to woo such a flirtatious and beautiful night demon?

At that time, the old man was overjoyed.

It was the same this time. Chen Ye, this child, had been growing up since he was young. Even if he was a dumb duck-like existence, could it be that girls nowadays all liked this?

Chen Ye looked at his mother’s smiling eyes and his face turned even redder. He stuttered, “This... This is a friend I met when I came to the academy for the exam, little cabbage...”

Everyone was stunned. Little Cabbage? What was that name?

Little Cabbage’s chubby face revealed a peaceful smile as she slightly bowed forward. It was the standard salute of a junior of the star elves.

“Little cabbage, moon goddess, greets the elders...”

The etiquette was simple and generous, but the aura of a noble was undoubtedly scattered. It was elegant and noble. Under the Starlight, even ye Na, the Night Demon, was slightly stunned.

Chen Ye was even more stunned. He had known little cabbage for so many days, but this was the first time he had seen her in such a manner. She was completely different from the guy in his impression.

She was like the bright moon in the sky that made all the stars worship her!

The other Eldia’s elders were also shocked. They were surprised by the other party’s extremely high etiquette. It was obvious that they were all born. What was even more surprising was the surname she had given...

Moon God?

After Long Jue came back to his senses, he took a deep breath. The moon god was not a big surname. Just like Eldia, it was a small surname registered by the Federation. However, it was different from the Eldia family, the meaning of the moon god surname was very different!

Moon god Family?

GUNSH's expression froze again. After a short moment of shock, Long Jue's heart was filled with joy. GUNSH's expression was uncontrollable and twisted...

How could it be like this, again!

When the second brother found Ye Na of the Nayye family, although she was born in a side family, she was still of noble status. At that time, it was very convenient for the second brother to be promoted in the army. If it were not for the second brother himself who did not know how to be flexible., he would have long surpassed the old dragon baron by now.

Now, the situation of Chenye was even worse than before!

Although the second brother had married Ye Na back then, as a warrior, he was not in line with Ye Na's style as an arcanist. Many resources could not be monetized, but the situation before him was different!

Morning and night were enrolled in the School of Warcraft, but the moon god family was one of the top Warcraft families in the Sky Elf family. If he could get his hands on it, he would be able to live a successful life!

Although this little boy was not a purebred sky elf, he was obviously a collateral family of the moon god family. However, a family of this size, even if he was a collateral family, the resources in the field of Warcraft were still beyond the reach of others!

In addition to his identity as a star academy graduate, there were even more resources that could be turned into cash. The heavens had practically placed the path to the stairway to heaven directly in front of Chen Ye, as long as he was not as stupid as his father back then... ..

"Good... good good..." old master Long Jue clapped his hands and laughed loudly. "Good child, you don't need to be so courteous. Come in and sit, come in and sit!"

As he spoke, he quickly gave Chen Ye a look. Chen Ye's face turned red. Naturally, he knew what the old man was hinting at. However, did they misunderstand something? He and Xiao Bai Cai were just ordinary friends... ..

"Thank you, Old Man!" Xiao Bai Cai grabbed Chen Ye's arm and smiled sweetly at Long Jue.

Seeing this scene, Long Jue smiled even more happily. By the side, Zhu Xing was also laughing so hard that he couldn't close his mouth. He had the expression of his son!

Chen Ye's body stiffened. She looked at the little cabbage beside her with some surprise. Under the Starlight, her sweet smile was still the same, but she still felt that it was a little different from before.

But to be honest, when this girl became serious... .. She was really quite good-looking... ..

Chen Ye looked at her and almost stood there in a daze.

"You little brat, you're quite promising!" Zhuxing patted his son's head. "What are you daydreaming about? Hurry up and bring the guests in..."

"Oh, oh..." Chen Ye looked embarrassed when he came back to his senses. He quickly lowered his head and dragged little cabbage into the hall, not daring to look at the elders around him.

Little cabbage did not panic when he was suddenly dragged in like this. He greeted the elders around him with a smile and followed Chen Ye into the inner hall... ..

Old Master Long Jue quickly beckoned him to follow him in. Gunsh followed behind with a stiff expression. The third and fourth brothers, who were watching the show, also followed Old Master Long Jue in to greet him with a smile, only Zhuxing and ye Na, who had been motionless when they heard that little cabbage had self-destructed, were left outside.

“What’s Wrong?” Zhuxing walked to his wife’s side and asked gently.

He had just noticed that his wife’s expression was not quite right...

“Her name...” ye Na’s expression was a little stiff. “It seems like... It’s...”

Zhuxing was stunned when he heard that. He suddenly remembered something, and his expression immediately became a little solemn!

Chapter 1512: Bonos...

The information given by the Nayet family, the pearl of the Helan family’s direct line of descent: Helan Nana. In order to wash away Kyle’s humiliation in the night demon family, she went to the Starry Sky Academy alone. The original plan was to suppress her peers!

There was a reason for her confidence. Firstly, Nana’s aptitude was considered top in the entire history of Night Demon. Secondly, the entry point she chose was not the powerful priestess Academy of the Starry Sky Elves.

I didn’t expect to meet a worthy opponent in a School of Warcraft.

Cabbages...

It’s a very special name anywhere. It should be... They don’t have the same name... ..

Zhuxing frowned deeply. He understood his wife’s dilemma. If the child was really a target for Nayet... . .

— —

“Pops, we’re not gonna make it...”

As soon as longjue came in, he saw the young men lying on the ground and his face turned black. . .

Although the heart also know that the children can stick to this point is very rare, but after all, this is a once-in-a-lifetime good thing, even if you have to eat more benefits.

“Alright, Grandfather!”

Seeing that the old man’s expression was frightening, gunsh hurriedly smiled and said, “The children have already worked very hard. Look at my boy, he’s long gone!”

“You still have the face to say that?” Long Jue glared at his eldest son. “What a reckless waste of God’s gift. If I had known earlier, I would have let fourth’s child come over. Perhaps the situation would have been a little better!”

Bonos, who had already woken up, almost spat out a mouthful of blood when he heard this. His grandfather actually compared him to that trash in his fourth uncle’s house. What kind of joke was that?

However, when he looked at his compatriots around him, who were obviously holding on for more than half a week longer than him, his expression became very ugly!

This group of people with thick skin really could endure!

“Brat!” Gunsh glared at his own son. “Why aren’t you getting up quickly? Haven’t you laid down enough? What a disgrace!”

Bonos bit his lip and slowly stood up. His eyes were filled with shame and regret.

When Gunsh saw this, other than hating him for not living up to his expectations, he also felt a trace of regret. Previously, Rennes’ results were impressive, and the second branch’s decline made him lose his vigilance, as a result, the pressure on his youngest son was far inferior to that of his eldest son, Rennes.

In the end, he did not expect his youngest son to be so depraved that he could not even be compared to the descendants of the collateral branch. The old man was probably even more dissatisfied with himself... ..

“Eh?” A gentle and sweet voice sounded. “These older brothers and sisters are amazing. They actually lasted for so long. I just came here with morning and night, and when I saw many people surrender at the first star...”

The sweet voice was like a clear spring, and it made the tired people’s spirits inexplicably lift. They looked up and saw the beautiful elf next to morning and night... ..

The juniors were instantly stunned...

They had seen many beautiful existences here. Not to mention others, the high priest Ron of the Stormwind family was a top-notch elf beauty.

However, the one in front of them was completely different. It was not true to say that she was astonishingly beautiful, but it was that kind of indescribable temperament that made people unable to look away. Even High Priest Ron did not give them such a feeling...

Burnos also stared blankly at the Elf, and his heart suddenly pounded... ..

When the old dragon count heard Bai Cai say that most of the juniors on the road had only lasted one star, he was instantly delighted, however, his expression remained cold and stiff. “All of you, get up. What’s wrong? You Can’t even stand properly? Show some promise!”

After being drunk for such a long time, many of the juniors immediately gritted their teeth and stood up. However, most of their legs were visibly trembling. It was obvious that they had reached their limits.

Chen Ye looked at this group of hardworking relatives and a complicated look flashed across his eyes. He liked people who worked hard, but he did not like this group of relatives very much... ..

Meanwhile, Ardia and the group of children also saw Chen Ye and felt a little awkward for a moment.

Although they knew that they were basking in the glory of others and felt a little strange, they didn't face each other in the end, so it wasn't too awkward. Now that their real bodies had arrived, they still felt a little guilty.

At the scene... .. including Mira, there wasn't a single person who said that they hadn't bullied Chen Ye when they were young.

This was actually very normal. In a group, once a person who was often bullied appeared, the surrounding people would be brought along to bully him. School bullying was like this, workplace bullying was like this... In all groups, it was actually like this... ..

Most of them did not have much animosity towards the second branch, who was deliberately belittled by the big branch. However, for a person who was bullied by the masses, they were usually dragged along and stepped on.

This included Mira. When she was very young, she had never stood on the side of morning and night, not even once... ..

Now that she was basking in the light of others and recalling the things that happened when she was young, as long as she had a little bit of face, she would always be embarrassed... ..

Of course... .. there were also some who were not embarrassed, such as.. .. Bernos, who took it for granted.

"Hello, beautiful lady..." while many of the juniors were busy avoiding morning and night's gaze, Bernos walked straight over.

However, the person who greeted him was not morning and night, instead, he gave a standard elven noble salute and asked the little cabbage beside morning and night, "I am Bonos Eldia. May I know your name, the Elf as beautiful as the stars..."

The scene instantly froze...

The first to react was the dragon count. His gaze towards Bonos was clearly a little cold.

Gunsh was completely stunned. He did not expect his son to act like this.

The zhuxing couple, who had just entered, also had an ugly expression on their faces. Although their son was not someone they could afford to offend, he was still brought back by their son. This kid was flirting with someone else's female partner in front of them.., in the world of warriors, this could already be used as a reason for a duel!

Chenye's expression also became incomparably ugly, while those juniors were dumbfounded.

They were very clear that Bernos was an arrogant and disrespectful person. However, they did not expect him to be a shameless person. He actually dared to flirt with someone else's female companion in front of her. How shameless was he to do such a thing?

In the face of an inquiry, Bai Cai was still smiling. She smiled sweetly and said, "Your Elf etiquette is very standard. Many elves are not as standard as you. You must have spent a lot of effort, right?"

After receiving such confirmation, Bernos' heart jumped again. He smiled and said, "In order to not be impolite in front of such a beautiful elf like you, I indeed spent a lot of effort..."

Gunsh's mouth twitched slightly. He glanced at his son. He did not know that his son was quite good at flirting. If it was not such a public occasion, he would even encourage his son to do such a thing. But the situation now... .. If he was really poor, he would probably offend the public... ..

"Really?" Little cabbage looked at him seriously. "No wonder..."

"No wonder what?" Seeing that the other party was willing to pay attention to him, Bernos became more excited. He smiled and looked at the other party, wishing that he could pull this star-like little elf away from this lowly Guy, Chen Ye!

"No wonder you couldn't hold on for long...". "... little bai cai tilted his head. "You're not even comparable to your brothers and sisters. So it turns out that you usually spend all your energy on these things. Speaking of which, you're not an elf. If you don't train your muscles and bones properly, wouldn't that waste your time learning these things? is your brain damaged?"

PFFT...

A few of the juniors couldn't hold it in any longer. With a PFFT, they almost laughed out loud, and all of them forced themselves to hold in their breaths.

Chen Ye, who had an ugly look on his face, could not help but twitch his mouth. This innocent and straightforward disdain was really lethal.

As expected, Bonos' face turned green and white. He was about to say something when long jue shouted, "Don't embarrass yourself. Get Out!"

No matter how Bold Bonos was, he did not dare to disobey long jue. He looked at the mocking voices around him and bit his lip. He lowered his head and was about to leave.

At that moment, a black shadow suddenly descended from the sky. Xiao Baicai's pupils constricted. Without hesitation, he pulled out a knife from his spatial bag and stabbed at the Black Shadow!

Chapter 1513: Is this big brother?

"That... it was just a joke... There's no need to be so excited..."

In the hall, four bright blades arrived in an instant, almost at the moment the black shadow landed on the other party's neck!

In the hall, the members of the Eldia family were all dumbfounded. Although the powerful aura did not target any of them, just the impact of the aura made it extremely difficult for the juniors to breathe.

It was especially so for Bernos who was right in front of them!

The Black Shadow wasn't big, but it was like a shadow that could cover the world. It was heavy and mysterious, and the four shiny blades had an aura that could cut the world in half. The blades were right in front of him.., bernos felt that his mind almost collapsed at that moment!

Water flowed out of his body uncontrollably. Sweat, urine, saliva, and all kinds of bodily fluids made Bernos look extremely miserable.

"Look... scaring the child..."

The black figure raised both his hands. Under the hood, a handsome face was filled with a harmless smile. It was the Night Demon clan's fandy... ..

The four Snow Peaks' owners were expressionless. The blades in their hands were tightly pressed on the other party's vital points. It was as if the other party dared to move even the slightest bit, they would completely disappear from the universe!

This terrifying pressure caused the elder level fan di's heart to tremble.

The Space God guards truly lived up to their reputation...

These four people had not even reached the star level, but the boldness of their actions in that instant made him subconsciously think that he would be crushed into dregs!

However, what surprised him the most was not these four young God guards, but the little girl that he had targeted in the beginning... ..

At this moment, everyone's gaze was attracted by the four incomparably sharp snow blades. They did not notice that there was a knife in front of their vital parts!

That knife came from the body of the little elf who looked even more harmless.

A flower spirit, a flower spirit that had yet to grow, attacked him without hesitation the moment he appeared. He had indeed come with malice, but with the other party's level and size.., the first thing he did was not to be suppressed on the spot in a daze, nor did he run away in a panic, but to actually pull out a knife and stab at him?

Was this the flower spirit?

Van der Sar stared blankly at the position of the large artery on his neck. A golden knife had accurately pressed down on that position, and there was a faint trace of blood under the knife.

And that blood... was from himself...

To be honest, if he had not experienced it personally, he would not have believed that a level 10 flower spirit could use a knife to cut a star-level powerhouse!

What the hell was going on?

Chen Ye, who was also not far away, was also stunned.

The incomparably powerful aura around him was also pressing down on him, making it difficult for him to breathe. If it was not for the Academy's mark on his body that had allowed a few god guards to deliberately isolate him from the aura., his current performance was probably not any better than his cousin Burnos, who had shit and peed all over his body.

However, even though he was protected, he was still unable to move in the face of this completely different dimensional confrontation. However, he did not expect that the little cabbages within would actually dare to draw their swords at that man!

At this moment, the eyes of the little cabbages were as cold as ice, and there was not the slightest hint of wavering in their expressions. They were like goddesses in a chaotic storm, instantly causing Chen Ye's mind to come to a sudden realization... ..

Just like that, the opposing terrifying aura came to a standstill in the narrow hall, making everyone extremely depressed...

"How mischievous, Mr. Vandy..."

A faint voice came from upstairs, causing the aura that even light and shadow could not normally shoot straight in. Everyone heard it extremely clearly, instantly breaking the deadlock... ..

At that moment, all the disciples of Eldia felt a warm current surge through their bodies. An inexplicable aura quietly emerged from the terrifying pressure and protected them tightly... ..

The warmth was not intense, but it just offset the terrifying pressure just now... ..

The four divine guards were slightly moved. They looked up. There was only one kind of existence that could invade the normal domain of others without any rules, and that was the sky god.

But logically speaking, there shouldn't be any god in Teldrasil who could use his domain!

"It's very likely that something bad will happen in his territory..."seer slowly walked down from upstairs, his voice clearly mocking.

"Haha..."an awkward smile appeared on Vandy's face. "It seems like it..."

"This should be a misunderstanding... little girl, give me some face?"Seer looked at Little Bai Cai and said.

The four God Guards'expressions became serious. The Night Demon in front of them was not weak. If they really fought, even with Lord Yi Lu weta's domain, they might not be able to win. Moreover, the little master was so close that it was difficult to protect him.

Now, there was another mysterious sky god. His aura seemed to be very weak, at most around level 10, but... "...". This being who could use his domain under Lord lluweta's domain, no matter how one looked at it, it was extremely dangerous!

Upon hearing this, Little Bai Cai smiled slightly and pulled back the blade that was placed at fan di's vital spot. Smiling, he bowed towards seer and said, "Little Bai Cai, moon god, greets Lord Deity..."

When the four of them saw their master taking the initiative to withdraw his blade, they hesitated for a moment. In the end, they also withdrew the bright blade from the other party's shoulder, and that terrifying aura instantly dissipated!

The instant the blade was withdrawn, Bernos, who was closest to the group of people, instantly collapsed on the ground. His entire body was twitching. Coupled with the bodily fluids on his body that made him incontinent, the group of younger generation members of Eldia instantly looked at each other in dismay...

That was why... "...". Why would he go up and act so lowly for no reason? This time, he had lost a lot of face, didn't he?

At that moment, Grand Elder gunsh only wanted to find a crack to hide in. For a moment, he didn't know what to do... ..

At that moment, he should go and claim that shameful thing. It seemed quite embarrassing, but if he was left to continue twitching... .. It seemed even more embarrassing... ..

'how did I give birth to such a son?'

Just as he was about to awkwardly go forward to claim it, Seer snapped her fingers lightly. The next second, Bernos was wrapped in wind elements and instantly disappeared from where he was.

Gunsh was stunned for a moment. He looked at seer and immediately heaved a sigh of relief. He showed a rare expression of gratitude to seer.

Long Jue nodded secretly. When facing outsiders, Seer was like his second brother. He did not expose the family's personal grudges to outsiders.

"Moon god?" Seer did not look at his uncle. Instead, he looked directly at little cabbage. "I've heard Ron Mention your name before. He said that the MUZIR family has recently produced a genius child, also known as little cabbage. How did you become the moon god?"

"I was sold by my father! !" Bai Cai giggled. "You're the Moon goddess now..."

These straightforward words made the faces of the guards behind them twitch, their hearts filled with ridicule.

Was Lord Kyle's brain damaged? He was actually willing to sell such a seedling? Just now, they had clearly seen that this level 10 little girl was actually able to injure a star level powerhouse with a knife!

If they hadn't seen it with their own eyes, even a bardic poet wouldn't dare to make up such a story... ..

"Hehe..." Xi ye laughed speechlessly.

This little guy seemed to be living quite comfortably...

"That silly kid of mine has been taken care of by you..."

A divine light flashed in Little Bai Cai's eyes, and the coldness hidden deep within his eyes instantly melted. Immediately, he casually patted Chen Ye's shoulder, "Hahahaha, you're too polite, I'm just taking care of him normally! ! !"

Everyone:" ..."

How did this girl's personality change so much?

Chen Ye was slapped so hard that she almost fell to the ground. She couldn't help but roll her eyes at the other party!

This damn fat otaku really dared to say that he would take care of me. He came to my place every day to cheat me of food and drink, and he even took over my bed... ? ... I almost became a nanny, okay?

However... ... As if the Big Brother said so, the little girl's previous personality came back... ...

That familiar funny personality...

Speaking of which... ... Morning and night looked at seer again, their eyes extremely complicated... ...

Is this the Big Brother?

Chapter 1514: the powerful BOSS!

Was it Alice?

Seer looked at the fading coldness in little cabbage's eyes and nodded slightly...

That secret technique was a little exaggerated...

He had clearly seen that when her consciousness was controlling little cabbage's body, her performance was even more perfect than little cabbage's. Even the female Titans upstairs who saw this scene could not help but exclaim in admiration!

However, if this power left little cabbage's body, Alice would not be able to do it... ...

A powerful body had a fatal attraction to the undead, not to mention little cabbage's body... ...

Thinking of this, Seer looked at the sky outside the window. In the starry sky, there was a bronze star. It was the Mororrigan star where Alice was now!

Alice seemed to care about the cabbages, but could she resist the attraction of the cabbages all the time?

-----

"Hu..."

On the Mororrigan star, in Feng Doudou's bedroom, Alice woke up again in a pile of ice!

"Oh, oh... You're Awake?"

Feng Doudou looked at her with great interest. He had an expression that said, "I'm very curious. Tell me what happened."

Alice crawled out of the ice expressionlessly. She didn't pay any attention to him and directly turned on the computer screen... ..

She typed in the words "Eldia" on the screen...

"A small family name, a warrior family that's not even third-rate?"

Looking at the information, Alice's eyes were filled with confusion. "Tsk... it shouldn't be..."

"What shouldn't be?" Feng Doudou asked curiously.

"It's none of your business..." Alice rolled her eyes and frowned. "You guys haven't started school yet?"

"Not yet..." Feng Doudou curled his lips, he was half-lying in the air in a strange posture, he said lazily, "Originally, the opening ceremony of the Bronze Academy was held on the same day as the opening ceremony of the Starry Sky Academy. However, after hearing that Tyrande had triggered the birth of the water lord, the academy's ceremony was temporarily canceled and postponed to three days later..."

"By the way... what was that water lord that came into being? Is it very powerful? It scared those stubborn dwarves into cowardice? Is that Tyrande really that powerful?"

The corners of Alice's mouth twitched as she laughed coldly.

When little cabbage encountered a murderous intent, she activated a secret spell and immediately replaced it. Although she did not summon the water lord herself, judging from the strong connection between her and that thing, it was most likely not something that Tyrande had summoned... ..

As for why little cabbage could summon that thing, she did not know either. Could it be because of the imperial bloodline?

However, as she said, little cabbage's body was really powerful... ..

Alice clenched her hands. The high agility attributes of the grassland elf had become extremely dull in her senses. It was like driving a top-tier sports car. If she were to drive Charley, she would have the illusion that this thing was also a car. The illusion... ..

Just now... .. Even when she was facing a star-level powerhouse, the arrogance in her blood could make her attack instantly. It seemed that no matter how big the difference in strength was, it couldn't make that bloodline lower its head... ..

It really had a kind of... .. Omnipotent feeling... ..

Alice rubbed her palms. The green light in her eyes flickered slightly... ..

"Hey... I say..." Feng Doudou looked at her in a daze. "What are you thinking about? Why do you have such a scary expression?"

"UH... is it really scary?" Alice touched her face and asked.

"It's scary..." Feng Doudou nodded. "It's gloomy, and I feel like it's the expression of a bad guy who wants to do something bad..."

Alice: "..."

"That's not important..." Feng Doudou waved his hand. "You haven't answered my question just now. That Tyrande, did you see him? What was he like? was he cool or not?"

"Very cool..." Alice didn't even turn her head. She looked at Ardia's information on the screen and said perfunctorily, "Even if you group together, you can't compare to one of his toes..."

"He's that powerful?" Doudou immediately sat up straight. "I saw that those instructors liked us so much, and I thought that we were already powerful enough. As expected, a mountain is taller than a mountain..."

"Of course..." Alice continued to search for information.

"Then... have you seen the target of the Lord's Mission?" Feng Doudou continued to tilt his head and ask, "That ninth prince, what kind of character is he?"

"Oh, that..." Alice read through the information of the Ardia family from top to bottom, she became more and more confused, she continued to perfunctorily say, "He's also a ruthless character. I heard that he's quite talented, and Tyrande is the second crown prince of the Star Elves. In any case, he's the kind that can blow up the sky. I heard that he was born with a star bone, and when he reached Level 1, he could push a level 10 warrior to the ground..." "..."

"F \* CK, are you serious?" Feng Doudou was dumbfounded. "He's ten levels higher?"

"Level is only the mark of a commoner..." Alice looked at Feng Doudou. "To a noble, it's nothing!"

"Is... is that so?" Feng Doudou stuttered.

"If you know how powerful it is, then work harder... If you have nothing better to do, don't come out of that exclusive body refining room. Train yourself to death so that when we fight the BOSS together, you can still have some soup to eat..."

Feng Doudou was stunned for a moment. After thinking for a while, he said weakly, "This BOSS is so powerful... why don't we discuss with the other players about not fighting it?"

"Fight it!" "How can we not fight it?" Alice turned her head around. "The rewards are rich. It's an exclusive domain. For example, if your force is a biology class, you can directly transfer the lord's biology class domain to you. If you pass this kind of benefit, it will be gone. I know that only the all-rounded God's force will have this kind of distribution of rewards. and each domain only has one heir. If you pass it, it will be gone..." "..."

"You're the number one expert in Huaxia City. Are you sure you don't want to fight for one?"

"Um..." Feng Doudou lowered his head. It seemed to make sense...

"Have you eaten?"

"Um... I've eaten..."

“Haven’t you gone to practice after eating?” Haven’t you already given out the teaching materials? Aren’t you going to practice that bronze breathing technique? Why are you hanging around here? I’m free to surf the Internet, and I’m not fighting a BOSS. Do you have the right to be free? Do you know that the BOSS you’re going to fight is also in the growth stage? One minute of cultivation is equivalent to an entire day of cultivation, do you know that? Where do you get the capital to be free?”

Feng Doudou, whose eyes were dazzled by the words, walked out of the dormitory in a daze and strolled toward the training base on the campus. Alice, on the other hand, continued to search for the information she wanted with a calm expression on her face... ..

“I see...” looking at the information she had collected, Alice smiled slightly. “That silly kid is the younger brother of the Lord?”

However, she didn’t know how much of an impact her casual words had had on the players behind her...

..

“What? Are you serious?”

Far away in the Academy of Xandar, after receiving Feng Doudou’s call, the Titans all sucked in a breath of cold air.

The Star Elves were hiding the crown prince? Supreme Astral Bone? They could fight a level 15 warrior at level 1?

Pu Yunchuan: “F \* CK, Boss’s mission this time is a little exaggerated. Why are we going to deal with such a main character?”

Emperor liver: “That’s right, it’s too exaggerated. Teacher told me this morning that there are many existences that are more powerful than us. I didn’t believe it at first, but now it seems to be true... The Royal Family? TSK TSK!”

Leng Xing: “Isn’t that what makes it interesting? You’ve been slacking off for the past few days because you think you’re too amazing?”

“Can you blame us?” Pu Yunchuan pursed his lips...

How many people wouldn’t be flattered when they were so rare by their teachers?

“Everyone, cheer up...”. Emperor liver said, “Feng Doudou is right. Each mountain is taller than the other. We can’t be too complacent. Not to mention that ninth prince, but teacher said that the senior brothers and Sisters of the special class are also much stronger than us!”

“Interstellar fellowship happens once every ten years!” Leng Xing looked outside and said excitedly, “The Lord doesn’t give us much time to prepare. Don’t embarrass yourself if you can’t even hold on for a single meeting!”

Just like that, a group of Green Titans rubbed their hands together, and the powerful enemy in Feng Dou Dou’s mouth instantly aroused the warlike passion in their blood... .

---

“What? A dragon bone? Born with a Dragon?”

Spark Academy, listening to Pu Yunchuan’s message, Grandpa Lu’s expression froze. “Isn’t it a freaking Elf? Why is there a dragon bone? This freaking long aotian, right? Are you sure we should fight this thing later?”

Chapter 1515: “A brother from another generation...”.

Chen Ye had thought about meeting Chen Ye countless times since a long time ago... ..

For so many years, his parents’ affirmation and his cousins’ slander had practically accompanied him all the way until he grew up and had an indelible impact on his life.

Ever since he was very, very young, he had been thinking about what he should say when he saw his big brother who had become a god one day?

Every once in a while, he would accumulate different words. After so many years, it would take him days and nights to accumulate them all. However, when it really came to him, he realized that... .. He could not hold back a single word... ..

The two brothers quietly sat in the same room, staring at each other... ..

“Ahem...” Xi ye coughed lightly and broke the silence first. “You... How Old Are you this year?”

It was an awkward opening, but it was still better than staring at each other like this... ..

Chen Ye’s originally perturbed mood calmed down a lot with these words. He raised his head and looked at the other party. “Big Brother doesn’t even know my age?”

Xi Ye was slightly stunned. Soul interrogation...

If he told him that not long ago, he didn’t even know of his existence, would this seemingly skinny little brother turn hostile?

“I left early. I only found out about your existence recently...”

After saying that, Xi Ye wanted to knock her own head. Why did she tell him the truth?

Correspondingly, Chen Ye did not seem to be too emotional about this answer. Instead, she said lightly, “Is that so?”

Xi Ye looked at the little guy and could not find any topics to talk about for a while... ..

She could not help but think, was this the so-called generation gap?

“But I’ve known Big Brother for a long time...” Chen Ye looked up at the big brother hidden in the armor. “When we were very, very young, we three siblings had always known about Big Brother’s existence since we were very, very young...”

Xi Ye:”...”

It sounded... A little unfair... ..

“Um... um... did you receive the gift I gave you last time?” Xi Ye decided to find a convenient topic.

“No...” Chen Ye shook her head. “My mother sold it...”

Xi Ye: “Eh?”

“Mother said that she gave her underage brother a succubus. To think that you would think of it...”

“Ahem... Let’s get down to business...” Xi ye turned around and looked out the window with her hands behind her back, creating a very serious atmosphere... ..

“Your current situation might be very dangerous...”

Chen Ye paused and looked at her in shock. “Dangerous?”

Xi ye asked, “Did you see the elder beside Mother?”

“Yes...” Chen Ye nodded. He did not have a good impression of the guy who suddenly attacked cabbages. Although he found out later that he was actually an elder of his mother and a relative of his mother’s clan, he still could not build a good impression of him.

His mother had been raising dangerous magic silkworms in the Nye family for the sake of his and his sister Nicole’s tuition fees. Although she had received a lot of remuneration, she still let her children do such dangerous work., this caused Chen Ye to not have a good impression of the Nanye family in his heart.

Anyone who truly treated his mother as family would not do such a thing... ..

“That fellow came especially for you!”

“For me?” Chen Ye was obviously stunned...

Xi Ye: “To be precise, it’s not for you, but for the female companion you brought back today.”

“Cabbage?” Chen Ye’s expression was even more confused. Why would that silly little fellow attract the attention of the Night Demon Family? Wasn’t it a little too far away?

“You’ve attended the opening ceremony. You should have seen that lass from the Night Demon Helan clan, right?”

“Mm...” Chen Ye nodded. That fellow who had almost crippled him and his students that day, he naturally remembered. If it wasn’t for cabbages, the result of his many years of hard work would probably have been real. .... all his efforts had been for naught. ...

Xi Ye: “In the past, there was a genius from the Muzir clan who also went to the night serene academy alone and suppressed the younger generation of the Night Demon clan. It has become a humiliation that the night demon clan still can not forget. Now, that Helana wants to do the same thing as that genius from back then. However, it’s very clear that her start this time wasn’t smooth and she kicked an iron plate!”

Chen ye vaguely understood and could not help but ask, "Then... mother, that elder came here because..."

So that was the reason for the malice. He said that an elder of the night demon would suddenly attack a junior like Bai Cai.

"Of course, it's because Helana said that you were very close to that iron plate that hindered her..."

Chen Ye was stunned for a moment, and then smiled wryly. "I see... looks like I've implicated mother..."

It was obvious that his mother must have been threatened to bring him here, and he had indirectly made his mother worried... ..

"What... Do They want me to do?"

"Do you even need to say that?" Xi Ye said without turning her head, "Of course, they want you to listen to the information about that little elf at any time, and provide convenience for the Helan family at the critical moment..."

"Provide convenience?" Chen Ye sneered. "Aren't they afraid that others will say that their victory is unfair?"

As soon as he finished speaking, he was knocked on the head. Chen Ye immediately hugged his head in pain and looked at Xi Ye.

"Stop talking like a child..." Xi ye retracted her fingers that were covered in iron gloves. "If everything in this world came out in the open, our family's fate would not be like this..."

Chen ye bit her lips but didn't refute...

If old master long jue or the other elders were here, they would definitely be very surprised.

Chen Ye had a withdrawn personality since she was young. She was isolated by her peers and was extremely unfriendly to the elders. In gunsh's words, she was very undisciplined.

Chen Ye was a thorn in anyone's side, including old master long Jue's scolding. She could easily anger old master long jue to the point that he would listen to her lecture obediently. Even the old master, who had watched Chen Ye grow up, had not seen this kind of attitude... ..

Chen ye lowered his head and touched the spot where he had been knocked. He pursed his lips and thought to himself, 'does this guy know that he's wearing iron gloves?'

"Then... if I don't do it, mother will be in danger, right?"

Xi Ye said, "If I say yes, will you do what they say? Even if it means hurting your friend?"

Chen Ye's eyes suddenly became extremely conflicted. Her mind was filled with the memories of the past few days with that wretched girl. After almost half an hour, Chen Ye's eyes became dim and empty. She nodded numbly. "Yes..."

As soon as she finished speaking, she was knocked again. Chen Ye immediately exploded. "Why did you hit me again?"

“Between a girl you just met and her mother, you actually hesitated for so long. Shouldn’t you hit her?”

Chen Ye:” ...”

“Big Brother... you’ve never met such a girl before, right?”

Xi Ye: “Huh?”

Chen Ye widened her eyes and glared at Xi Ye. “Big Brother, you’ve never met her before, right? The kind of girl who seems to be able to change your life the moment you meet her! That’s why it sounds so easy...”

Xi Ye paused for a moment, then touched her mask. She looked at the cross-eyed Chen Ye and silently chuckled in her heart... ..

You’ve probably never met a woman who can change your life the moment you meet her... ..

Chapter 1516: Are you done chatting with your elders?

“I hurt you? Are you sure?”

In another room, through a special passage, elder Mo Xiu’s deep voice was transmitted through the passage.

“Yes...”. “...”. Fan di carefully lowered his head and replied, “I was only testing it out a little. I didn’t expect that the result would be like that...”. “...”fan di touched his neck and said, “The strength of the muscle tissue seems to have completely lost its effect. The other party easily cut it open!”

“Could it be because of the weapon?”Fan Di first proposed a hypothesis.

“Unless it’s a divine weapon, even a top-tier alchemy weapon wouldn’t be able to do it...”. “...”elder Mo Xiu said in a low voice, “The basic principle of alchemy is equal exchange. This will not change in any field of alchemy. The higher the level of the alchemy weapon, the higher the level of energy driving. A high-level alchemy weapon, that little guy can’t use it!”

“Then what is it?”

“Telepathy!”

Vandy’s body suddenly stiffened. To be honest, it was not that he had not thought of this possibility, but... Compared to holding a top-tier alchemy tool, this possibility was actually worse. “...”.

“Isn’t That Thing... lost?”

“That thing has never been lost...”Mo Xiu said coldly, “It’s just that no one can use it...”

Fan Di:” ...”

“What a race blessed by the Heavens!”Mo Xiu’s voice grew colder. “I heard that Crown Prince Tyrande has attracted the birth of the water sovereign during today’s Starry Sky Ceremony?”

“Yes...” fan di lowered his head and said.

“Tsk...” Mo Xiu clicked his tongue in a low voice. “A top-notch wood elf who can use telepathy and the crown prince of the water sovereign. If nothing goes wrong, the younger generation of this year’s Starry Sky Academy is probably unparalleled in the world...”

After pausing for a moment, Mo Xiu’s voice turned incomparably cold. “So, there must be an accident! !”

“But Sir...” fan di’s expression changed, and he hurriedly said, “Tyrande has the sword Emperor’s guard by his side!”

“That’s none of Your Business...” Mo Xiu said coldly. “The crown prince naturally has the royal family to think of a way. We only need to do what we should do well!”

Fan di heaved a sigh of relief, but his mood was not much better. The elder said that the task they should do was obviously Helan Nana’s task, but to tamper with it, the difficulty was not much better... ..

“You said that the little elf changed her surname and became a member of the moon god Family?”

“Yes...”

“Do you know the reason?”

“I just found out too...”

“The information must be the first hand!” Mo Xiu said coldly, “So we can’t let ye Na Go!”

“But...” fan di looked troubled. “That son of ye Na seems to be not simple...”

“Not simple?” Mo Xiu sneered. “If he’s really not simple, why would he let his mother raise silkworms here for 10,000 years? Moreover, how extraordinary can a 20,000-year-old God be?”

“But he can, Lord Yiluweta...”

“It means that he has a special opportunity, but it doesn’t mean that he can really have anything to do with Yiluweta!” Mo Xiu said coldly, “If he is scared to retreat after being fooled by this, then our na ye clan will really be a joke...”

“If... We have to test him again...” fan di said solemnly, “I need support. The life sea level powerhouse beside him is very powerful, at least at the level of the top ten elders in the Clan!”

Pausing for a moment, he continued, “I think... to be safe, it would be best for the top five elders to come...”

“I’ll go personally!” Mo Xiu said coldly, “Ask him to come out of Teldar Hill to meet you! !”

Fan Di was stunned, then he let out a huge sigh of relief!

In the Na Ye clan, the most senior elder was the first elder, but in terms of strength, the publicly acknowledged third elder was Mo Xiu. Even in the entire Night Demon clan, Mo Xiu’s strength was ranked in the top... ..

After all, if it wasn't for Kyle, elder Mo Xiu would have been one of the secret swords of the next night demon imperial clan!

..

At this moment, a certain someone who had been treated as a thorn in the Night Demon Clan's eyes was eating and drinking without any restraint in the living room... ..

That astonishing eating manner caused the eldia juniors to be stunned... ..

It was rare to see an elf eating so much. As warriors, they all felt that the other party was a little too bold... ..

"This friend of Chenye's... quite a big eater..."the big guy next to Mira said in a daze.

Mira rolled her eyes at him. "Eat your food, you talk so much..."

Chenye looked at the cabbage that was still eating as per usual. That look of being able to do whatever he wanted at any time made his heart extremely complicated... ..

Long Jue laughed out loud. "Good, good. It's a blessing to be able to eat. Young people grow. It's better to eat more!"

"You're right, Old Man!"Upon hearing this, the cabbage immediately laughed and said, "It's a pity that the new stepmother doesn't understand this principle. She always sets my appetite, so I often go to Chen Ye's place to make up my meals..."

Chen Ye was immediately shocked. "So you've eaten before coming to my place?"

Oh My God... Good-for-nothing...

"This child..."ye na wiped her mouth with a tissue, her face full of smiles.

She liked this girl very much. Although she didn't have the temperament of a lady from a noble family, she was especially lovable. If... If she wasn't so outstanding, it would be really good if Chen Ye could find her. ...

"Oh right, Chen Ye..."ye na smiled and looked at her son who had a complicated expression on his face. "What are you talking about with your big brother up there? For So Long?"

She was actually worried that Chen Ye and Xi Ye would not get along. After all, this child had always been stubborn since he was young. However, from the looks of it, the two brothers seemed to be getting along well.

Chen Ye was slightly stunned when she heard this. Her expression became a little lonely as she forced a smile and said, "It's nothing. Big Brother told me something..."

"Private talk..."

Before she could finish, Xi Ye interrupted her...

Chen Ye was stunned. What private talk. It was as if they were best friends... ..

Ye Na's interest was piqued and she said in amusement, "You two brothers have private talk? What private talk? Can You Whisper it to me?"

"What's there to Whisper?" Xi Ye said plainly, "The little brat has reached puberty. He has no experience in chasing girls, so he asked me."

Everyone: "..."

Chen Ye immediately became anxious. "When did I..."

"Eh?" Bai Cai put down the steak in his hand and came over. He looked at Xi Ye. "Chen Ye, which girl are you chasing?"

Chen Ye was stunned by Bai Cai's sudden look.

Xi Ye rolled her eyes at Chen Ye's stunned expression and curled her lips. "Of course it's you. How could this brat know other girls since he was young?"

"Really?" Bai Cai's beautiful emerald eyes smiled like a crescent moon as she looked at Chen Ye.

Everyone held their breath and looked at Chen Ye. Chen Ye also looked at him blankly. After a few seconds, he said in a panic, "Don't listen to his nonsense!"

Everyone: "..."

Bai Cai: "Oh..."

The group of Eldia's juniors looked at Chen Ye speechlessly. Even the usually simple and silly big guy looked at Chen Ye in disbelief. He looked like, "Are you crazy, brother?". The expression on his face... ..

The leader of the group, Long Jue, wanted to pry open Chen Ye's brain and see what was inside!

Even ye Na, who had always been gentle to her son, did not know whether to laugh or cry... ..

Just as the atmosphere was in a wonderful state, an inappropriate voice suddenly came from upstairs...

"Did I miss something?"

Everyone was stunned. They raised their heads and looked up. On the stairs, the night demon who had taken off his cloak was wearing a formal suit. He looked extremely elegant, and his extremely handsome appearance and temperament caused everyone to be stunned.

Ye Na's smile immediately disappeared, and Chen Ye's embarrassed expression immediately turned gloomy.

Was this guy... threatening his mother?

"What's wrong with little ye Na?" Fan di laughed softly. "She doesn't look well..."

Ye Na bit her lip. Just as she was about to say something, Xi Ye suddenly spoke up.

"Are you done talking to your elders?"

Vandy's elegant footsteps suddenly froze...

Chapter 1517: "It's nothing!"!

"Are you talking to me, Lord God?"

After a brief moment of stalemate, Vandy returned to normal and walked down the stairs elegantly.

The other party's words sounded very scary at first, as if he had completely observed everything in his room, but in reality, it was not like that... ..

The other party must have already gotten information about him from Yana. Furthermore, he had just probed the little elf, and now that he had not come out of his room for a long time, as long as he used a little logic... It was not difficult to guess that he was reporting this matter to his elders... ..

Thinking about it, it made sense...

He was using a secret treasure passageway, and unless Iluweta personally used her domain to actively monitor it, she might not even be able to monitor the content. At most, she would be able to intercept the energy notes that were transmitted over from the passageway., if she wanted to know the content of the conversation, she would need to go through a complicated deciphering method.

It was impossible for her to know the content of the conversation in the passage all of a sudden, let alone know the identity of the person on the other side!

Thinking of this, fan di laughed coldly in his heart. It seemed that his grandfather was right. This fellow was probably acting big through some special circumstances. In reality, it was not as exaggerated as he thought!

As he walked step by step, Fan Di's mood suddenly changed. This attitude made ye Na's heart tighten... ..

Seer's earlier tit-for-tat performance and Fan Di's concession gave her a glimmer of hope. If it was possible, she naturally didn't want to do such a dangerous thing in the morning and night!

Although the family had promised that the reward after the task was completed would be huge, and they had even promised that as long as the morning and night completed the task, they would be accepted into the night demon imperial family to be nurtured, but this risk was even greater!

To do something that was disadvantageous to the other party's genius in the territory of the space elves, no matter how one looked at it, was simply courting death!

Moreover, it was obvious that her own child had a good impression of that little girl. If he did such a thing against his will, how twisted would his personality be in the future. This was the last thing that ye Na wanted to see... ..

This world was cruel, but she had always hoped that her children would adhere to the bottom line, and this matter was clearly beyond the bottom line...

She looked at seer and bit her lip slightly...

To be honest, it was obviously not reliable to place her hopes on Seer, who was only a few tens of thousands of years old. After all, the one standing behind her was a top-notch family of the Night Demon clan, and including that mission.., the one standing behind her was practically the entire night demon imperial clan!

Even a great lord could not bear such weight... .. Not to mention a child like seer... ..

However, Seer's performance over the past two days had been too miraculous. She had no choice but to have some expectations... ..

Meanwhile, Chenye looked at her big brother nervously as she recalled the last conversation between the two brothers this morning... ..

..

An hour ago...

"Big Brother, are you referring to how dangerous my mission is?" Chenye raised her head to look at Seer. "I'm not afraid of danger, but can the night demon clan guarantee the safety of our Ardia Family? "Cabbages are the blood of the MUZIR family, and now they've been taken in as grooms by a direct descendant of the moon god family. If someone with such an identity were to be exposed, the family would probably suffer as well, right?" "Did those night demons say how to guarantee the safety of my family?"

"You're quite thorough..." just as seer raised his hand, Chen Ye could not help but take a step back. He held his head and frowned. "Big Brother, why do you always like to knock people's heads? You even wear gloves to knock!"

Xi Ye's fingers stiffened slightly. Then, she retracted her hand and coughed lightly. "This is a bad habit passed down from my father..."

Chen Ye: "..."

"You've never been knocked by him before?"

Chen Ye was silent for a few seconds before he finally said slowly, "Father has been a mercenary all year round and rarely comes back..."

"Is that so..." Xi ye nodded when she heard that. She looked at Chen Ye. "Then you're very impressive. I'm not around, and my parents aren't around. You actually managed to get into such a good academy by yourself. You're a very impressive man!"

Chen Ye was stunned. He felt a wave of sourness welling up in his heart. Then, he hurriedly lowered his head and bit his lips!

It was not that he had never been praised by others. The teachers who had taught him had praised him very much, but that was different. It was really different...

The countless years of hard work was not for those ugly relatives, but for those few relatives who were truly moving forward with a heavy load. He just wanted to join the group of people who were carrying heavy loads faster and faster...

But the first thing he had to get was recognition!

“What are you crying for, Big Man?”

Xi Ye struck her head mercilessly with an iron hand again.

Chen Ye held her head, tears the size of garlic falling uncontrollably. She choked and said, “I’m not...”

“Really...” Xi ye looked at her bitter little brother and could not pretend anymore. She quickly said, “I won’t let a little kid like you suffer so much just to scare you. Look at you!”

“Huh?” Chen Ye raised her head and stared at Xi ye without caring about the mess on her face.

What did her Big Brother Mean?

“I won’t let you deal with that girl...” Xi ye squatted down. Her tall body was still at the same height as Chen Ye even though she squatted down. It was rare to see Xi Ye’s voice become unusually gentle.

“Eh?” Chen Ye was stunned. He did not expect his big brother to suddenly return to this topic.

It was obvious that his big brother had misunderstood and thought that he was crying because he wanted to betray his friend...

“Big Brother, don’t misunderstand. It’s not that I can’t do it, I can do it...”

“Do what? !” Xi Ye rolled her eyes at him. “Even if we don’t talk about moral integrity, we should at least have some ambition. How can we really let you do something like being a traitor and betraying your friend? I Can’t afford to lose that person...”

Chen Ye was stunned and immediately cried even more sadly. “But... Mother...”

“You don’t have to worry about mother. Big Brother is here for everything. You just have to take care of your own safety...”

“My Safety?”

“That little cabbage is in a very troublesome situation. Other than the stupid matter of the night demon race, it also involves the competition among the direct descendants of the moon god family and the disturbance between the crown prince. These things are very dangerous for you!”

Chen Ye raised his head and looked at Xi Ye with a confused face. After a long while, he said, “Big Brother... why do you know so much?”

“It’s none of Your Business...” Xi Ye looked at Chen Ye seriously. “Big Brother is just warning you. You have to think carefully when you are with that guy. Bai Cai is the most troublesome person. You have to be mentally prepared if you follow her!”

That makes morning and night even stranger. Why does it feel like... . Big Brother seems to know a lot about cabbage?

“As for the Night Demon...” Xi ye looked up and said faintly, “You don’t have to worry about it. It’s nothing...”

Morning and night: "..."

-----

In the hall, morning and night some perturbed looking at the night, the mind constantly recall the words at that time, Big Brother... ? 'can he really solve the problem of the Night Demon Clan?'

"Isn't it impolite for the God of Heaven to remain silent all the time?" Fan di smiled as he looked at Xi Ye. In his heart, he was even more certain of the other party's weight... ..

'He's still too young. He's acting too much. If not for what he said just now, I might still be skeptical...'. ...

"Tell that elder of yours..." Xi Ye's cold voice sounded again, "If you want to ask me out, you have to hurry up. I'm in a hurry!"

Fandi: "!!!!"

Chapter 1518: Niko's Good News!

Can this guy really hear it?

After returning to his room, Van der Sar's mind was buzzing. He returned to his room in a daze and could not come back to his senses for a long time... ..

His mind was filled with repeated words: How is this possible?

The passage he used was the Night Demon's exclusive wartime passage. It was the exclusive wartime passage used by high-ranking officers of the Night Demon to contact various forces during the chaotic times!

If this passage could be cracked in an instant, the Night Demon's clan would have been exterminated long ago!

And the fact that the Night Demon was able to stand out from the chaotic times and become one of the royal families that was now recognized proved that this passage should be top-secret in any previous major battles...

This guy...

No, he had to inform his grandfather quickly...

Vandy was just about to link up and tell Grandpa about it, but... .. The second I did something, I remembered... . is heard... ..

After a flash of extreme embarrassment, he disappeared in a blur... ..

-----

Downstairs, a group of Eldia's elders also looked at each other at this time, the whole hall was silent...

After a long time, ye Na finally could not help but ask, "Xi Ye, what... What Happened?"

Van der Sar's performance just now was too unexpected. He was originally full of confidence, but after Xi ye said a few inexplicable words, he went back to his room in a daze, leaving everyone dumbfounded... ..

"It's nothing serious..." Xi ye smiled and said to ye na, "Don't worry, mother. I just received the news from the public transit station. Nicole sent an email saying that she was also accepted!"

Her words immediately attracted the attention of Xi Ye's parents. Xi Ye's parents' eyes lit up, and their father zhuxing hurriedly said, "Really? Er 'ER also got in?"

Ye Na was also full of surprise. There were four children in the family. The eldest son, Xi Ye, had returned safely and become a god, so he had a firm foothold. The youngest son was admitted to the Starry Sky Academy, so the future was promising.

The only thing she was worried about now was her two daughters.

The second branch had been pushed out by the eldest branch. The family's warrior resources were basically not given to their own children, so the children were asked to find other ways to find other ways, this was the case whether it was Chen Ye or the other two girls.

But not all the children were as sensible as Chen Ye.

This could be seen from the comparison between the eldest girl and Chen Ye's route.

Chen Ye had good arcane talent, but she chose the Beastmaster route with the most suitable resources for herself. The reason was that the resources of ye Na's family could be directly converted into money for her, not wasting a single bit.

But the girl was different. She chose the most expensive priest route that was the least suitable for her resources!

Firstly, in terms of bloodline genes, be it the Thunder bloodline or the night demon bloodline, they were not suitable for the priest route. Secondly, the priest inheritance was expensive. Basically, it was the most expensive course in the mage system. Other things aside., just learning a simple divine spell required going to a good temple to donate and obtain it.

Moreover, she could not obtain a high-quality divine spell inheritance. Chen Ye chose a magical beast master. Ye Na gritted her teeth. If she worked harder in her family, she could obtain some high-quality magical beast master secret spells for Chen Ye, she could even obtain a good magical beast seed for Chen Ye because her family had such an inheritance, so the efficiency of monetizing it was very high.

However, the priestess was different. This subject with the highest threshold and without a family background, it would be very difficult for outsiders to enter the profession, not to mention that the eldest girl's talent was average... ..

It was not that she and her husband had not tried to persuade her, but the eldest girl was not very convinced of the two of them. She even fantasized that Rennes would support her dream of becoming a priestess...

Even now, the girl was almost 200 years old, but she still could not get into a high school!

For living beings, if they could not grow at a suitable bone age, it would have a great impact on their later life... ..

The girl and her family were separated and could not be persuaded. Ye Na naturally did not want her second daughter to end up like this.

Speaking of the second girl, since ye Na had been raising silkworms in her mother's house all year round, she had not seen her many times. She could only learn about her character from her husband's conversation.

She was said to be a very smart little girl, but she was also very opinionated. She chose the path of a spiritual master whose threshold was almost no weaker than that of a priest!

This made ye na very worried about Er Ya's future...

Now that she heard that er ya had been admitted into the academy, Ye Na's heart was even more excited than that of Chen Ye...

Chen Ye's aptitude was not bad, and his level of hard work was also sufficient. Furthermore, he had grown extremely well under the resources of his mother's house. Even if he was a little too ambitious this time and did not pass the test, it would not be a big problem for him to pass the test in another ten years... However, er 'Ya had spent so many years on a high-threshold subject like the Master of the mind. If she were to waste her time like the eldest girl, he would be worried to death...

"Xi Ye, is what you said true? Er 'ya really passed the exam?" Ye Na excitedly grabbed Xi ye's iron hand and hurriedly checked her mailbox. However, she found nothing and immediately asked in puzzlement, "Why didn't I receive the email?"

Zhuxing, who was next to her, found it funny and said, "Nicole's University is in the southern star field, so the mail naturally came from there. It belongs to inter-star field mail. We are so poor and have no inter-star field communication service, so of course we can't receive any messages. If you want to receive the mail from outside, you have to go to the public station!"

"Then how did cousin Xi ye receive it?" The big and simple-minded one among the juniors asked curiously.

"No common sense!" Mira patted his head. "Cousin Xi Ye is a god. He can enjoy the federation-wide interstellar communication service for free!"

"Oh... God's status is really high..."

"Nonsense, it doesn't matter how much it costs..." Mira suddenly felt that she had brought up something that she shouldn't have said, so she quickly looked at Xi Ye and changed the topic. "Cousin Xi Ye, What Academy did Nicole Enter?"

Everyone immediately looked over. Long Jue also looked over and asked, "How old is your little girl? Can she participate in the general consideration already?"

He remembered that Nicole was more than ten years younger than Chen Ye, right?

“Haha...” Zhuxing scratched his head and laughed. “She jumped a few levels and unknowingly became the same level as Chen Ye...”

Everyone:” ...”

“How come I’ve never heard you mention it before?” Asked Old Master Long Jue with a frown.

“Old Master, you didn’t ask...” said zhuxing with a smile.

Old Master Long Jue fell silent when he heard that. His face darkened.

Actually, he knew the reason. His second brother had taken Nicole to school when she was young. At that time, he had asked about it. After all, the elemental environment of the glorious amethyst star was very good. Taking her to school was obviously giving up the advantage of the family.

However, his second brother said that his friend had the resources, so he took Nicole away.

Now, it seemed that the little girl’s aptitude was too good. His second brother was afraid that if he stayed out all year round, the little girl’s aptitude would be feared by others. That was why he did this.

Obviously... ... He was just worried that he could protect his child...

“You too. What’s so good about this kind of thing?” Gunshi saw that his grandfather’s face wasn’t good, so he pointed out the contradiction. “Are you afraid that someone in your family will harm her or something?”

Hearing that, zhuxing looked at gunsh coldly. “Something like that...”

“Second brother! !” Gunsh immediately slammed the table and said, “You have to be honest when you speak. There is a mutual attraction between families, but our family does not have the kind of people who persecute juniors!”

Zhuxing glanced at the other party indifferently. “Big Brother deliberately brought up this topic, isn’t that what you want me to say? I’ve gone along with your wishes, why are you still angry?”

“What kind of B \* Stard are you talking about?” Gunsh was about to fly into a rage when old master long jue shouted, “Enough! !”

Gunsh immediately snorted and stopped speaking. In his heart, he was sneering. Second Brother seemed to have been too pleased with himself. Little did he know that what he said just now was indirectly admitting that he didn’t trust Old Master Long Jue... ...

Long Jue took a deep breath and looked at zhuxing. Zhuxing looked at him calmly without the slightest bit of guilt. Long Jue sighed in his heart and said in a slightly gentler tone, “What Academy did the girl enter?”

“It seems to be... Blue Spirit College...”

Everyone:” ...”

Chapter 1519: Exquisite Heart!

The hall became quiet again, and only the sound of cabbages munching could be heard...

As a spectator, cabbages now felt very interesting... ..

The others didn't think so...

"Blue Spirit Academy?" An Ardian disciple next to Mira gulped and said carefully, "Is it that Blue Spirit Academy?"

Mira rolled her eyes at him and said in a low voice, "Which other Blue Spirit Academy can it be?"

Although she was refuting others, Mira was also extremely shocked in her heart. That little girl who did not come back for decades could actually get into such a good academy? How Old was she? And she was also a Master of the mind?

After a short moment of dullness, Long Jue's face was full of surprise. "Second, is this true?"

Gunshi looked at Zhuxing in a daze, his face pale.

When he had heard that the youngest girl of second brother's family had chosen the path of the Master of the mind, he hadn't paid much attention to her. He felt that she had the same temperament as the eldest daughter of second brother's family. She was impractical and willful.

Moreover, second brother had taken her away from the glorious amethyst star early. He probably didn't want the little girl to be like the eldest girl, bewitched by his family and hated her parents.

But he didn't expect that the little girl who usually came back without saying a word was actually a cunning Wang Fei, who had skipped a grade to enter one of the top ten schools? With this kind of aptitude, second brother was really able to keep his cool!

Why didn't he see it before?

Because of the system, the East Star area was in desperate need of mecha professionals. If that little girl could really enter the Blue Spirit Academy and successfully graduate, it was estimated that when she came back here, many lords would fight over her... ..

Now that he thought about it, the second son and his family, the eldest son becoming a god, the second son being admitted to the starry sky academy, and if nothing unexpected happened in the future, he would be at least a dragon-level magical beast master, while the youngest daughter would be admitted to a top-tier spiritual master academy. What was this family planning to do?

"Why haven't you told me before? You actually hid such a big matter from me?" This time, it was Ye Na who asked the question. Her expression was very complicated, pleasantly surprised and a little angry. It was obvious that her husband and daughter were hiding it from her... ..

"This... . Didn't hide it... . Didn't I tell you... ." Facing his wife's question, Zhuxing was not as calm as he was when facing his father, and appeared to be very guilty.

"and I Said?" Ye Na looked at Zhuxing, sneer again and again.

"I did say... . Just not the whole... . "I told you last time, didn't I? The child went to experience the national examination. Even if she couldn't get in, she could at least feel the atmosphere in advance. Who knew that our daughter was so good that she could get in? You said that this matter caused... "...".  
..."

Everyone:" ..."

"Ha..."ye na stared at her husband and didn't refute his words. She just smiled coldly.

Zhuxing felt even more guilty from being stared at, he immediately told her honestly, "I'm mainly afraid that you'll worry. You usually talk to the little girl to persuade her to change to a more simple profession. My Daughter is also afraid that you don't have confidence in her, so she hid it from you. I. . . I'm also..."

"So your father and daughter have been with me for so many years?"Ye Na laughed even more dangerously.

Zhuxing's scalp immediately went numb under the stare. He turned to look at Xi Ye, who directly avoided his father's gaze and looked at Ye Na. "Father didn't tell mother that Nicole has a delicate heart?"

Ye Na was stunned. She then looked at Zhuxing in a daze. She even forgot to be angry... ..

Zhuxing looked at Xiye in a daze. He didn't expect Xiye to tell him about it so directly. He had told Xiye to keep it a secret back then... ..

Long Jue and gunsh couldn't even maintain their calm expressions anymore. Long Jue looked at zhuxing with bloodshot eyes. "Second brother, is what Xiye said true?"

Zhuxing looked at his old father's face that looked like he was going to eat him up. He immediately glared at his own son and smiled. "Ahem... This is a special matter. Please forgive me, Father..."

Upon receiving his second son's affirmative reply, Long Jue felt the blood in his entire body swell up. His eyes were so red that they were about to explode!

Gunsh's face turned even paler as he stared blankly at the other party. If it was not for the fact that the scene was too real, he might have thought that this was a dream!

Second Brother's little girl Na had a delicate heart?

There was a type of talent in this world that didn't differentiate between races. It was born with a talent that was completely different from its own kind. No matter how complicated things were, they would become very simple in its eyes, the principles that outsiders thought were extremely complicated would be as simple as eating and drinking here.

This kind of person was known as having a delicate heart with seven orifices!

Anyone with this kind of talent, as long as they didn't die prematurely, would be either the emperor or the saint in the Indigenous Planet!

Even in the universe federation, this kind of talent was one in a trillion. In this generation of elven princes, the first Prince had a exquisite heart, and at that time, he was the hot candidate for the crown prince... ..

Long Jue never expected that such a top-notch talent would be born in his own home!

“Second brother, how can you hide something like this from me?” Gunshi asked with his eyes wide open.

Second Brother Glanced at gunshi and sneered in his heart. If I don’t hide it from you, will you find an opportunity to target me?

Seeing that second brother was too lazy to explain to him, gunshi said with a dark face, “Even if you hide it from me, you shouldn’t hide it from the Old Master!”

This time, Long Jue also looked at zhuxing with his red eyes and said in a low voice, “Second brother... you shouldn’t hide it from me...”

The juniors lowered their heads and did not dare to speak. Most of them did not know what was Linglong Xin, but it seemed that she was very powerful... ..

“Please forgive me, Father...” . ... Zhuxing said lightly, “I found out about the little girl’s aptitude recently, and it was discovered by the mechanic who was responsible for teaching the little girl. Since Young, the little girl has liked the specialties related to Arcana and Master of Soul. After learning about this, I thought that once I told my family about it, the little girl might not like to do what she wants to do. Please forgive me for being selfish...” . “...”

Ye Na was stunned. She looked at her husband in a daze and pursed her lips. Finally, the coldness in her eyes disappeared and turned into gentleness.

After the incident with Xi Ye, her husband had promised that he would let his children walk the path he wanted to walk. It turned out that he had been insisting on this promise for so many years.

Ling longxin was an all-purpose talent. It was possible for her to walk any path. The girl also had the Thunder Bloodline. If she told the old man, she would definitely be forced to walk the traditional warrior path of the family.

Although the Master of the mind was popular, the family had been working in the warrior system for many years. With the old man’s character, he would naturally let her follow the safest path!

As expected... The Old Man’s face turned quite ugly!

“You know you’re selfish?” Long Jue’s voice was hoarse. “Do you know what kind of loss the family will suffer if you destroy that girl with your actions?”

Mira looked at the old man in a daze, feeling a little confused.

In the past, she liked the old man very much and felt that he was fair in handling matters. But now, it seemed that the old man, who put the Family First, was not as positive as she had once thought... ..

The eldest girl of the second branch was unrealistic and walked the path of a priest. The old man clearly knew about it, but he did not care and did not ask about it. Now, on the same matter, the old man

showed a completely different attitude toward different people, it was only because the value of the latter was far higher than the former!

Therefore, the old man's first priority would always be the family, while the second master's first priority was his family...

Thinking of this, Mira suddenly thought of the second master's eldest daughter. She always looked forward to Ryan, but hated her parents. For a moment, she felt a little sad.

Chapter 1520: It's time to make a choice!

"Second brother, do you know what's at stake here?"gunsh said earnestly, "If you had said earlier that Nicole had this kind of talent, what couldn't be discussed? "She had to come secretly. Now, the girl has crossed the galaxy to take the test so far. If something happens, the family can only be anxious and can't help at all!"

Long Jue nodded as well. "Second brother, even if that girl Nico really likes to specialize in spirituality, she can still choose in the East Star Field. She has traveled so far to the South Star Field. Just as Boss said, if there's anything that the family can't help her with, why can't you be sensible when a child doesn't understand this logic?"

Zhuxing looked at the old man and pursed his lips slightly. They could discuss anything after the event. If they really said that they could discuss, then what was there to discuss? Moreover, the east star field didn't have any good mecha academies to begin with. If they wanted to learn this aspect., of course, he would go to the southern star region, where machinery was prevalent.

Moreover, even in the east star region, if the girl entered a famous school of the same level and something happened to her, what could his small family do?

He said it as if he could take care of her...

However, he didn't say these words out loud. What if the old man couldn't help but beat him up on the spot and his two sons were watching from the side? How embarrassing would that be?

"The old man is right. I didn't think it through..."zhuxing apologized decisively and without sincerity.

Anyway, things were already like that. So what if he apologized? What else could he change?

Sure enough, this unhesitating apology made the old man choke. He couldn't say anything for a long time!

Ye Na, who was watching from the side, found it funny. She pinched zhuxing secretly... ..

"Chen Ye..."Long Jue looked at Chen Ye in annoyance. "Did you know about this too?"

Chen Ye was stunned, he quickly shook his head. "I don't know..." . ... I know that Nicole is very smart. When she comes back occasionally, she can easily solve my problems with runes. Therefore, I know that

if she takes the general exam this time, her results will probably be better than mine. It's just that it's the first time I've heard of that so-called Linglong Xin ... ..

Long Jue looked at Chen Ye, and his face looked a little better. It seemed that only the second son of the second son was not quite right... .. The other children were still good!

"Actually, this is not bad, is it?" Zhuxing smiled. "Nicole has pursued her favorite route as she wished, and the resources at home have been kept to the greatest extent. Moreover, she has made the best use of everything and raised children with considerable aptitude like Mira. For the family, I think the current situation is the best..." "..."

"Well said!" Long Jue snorted coldly, but didn't refute him. Indeed, both Nicole and Chenye didn't waste too much resources, and the resources were as Zhuxing had said, they were used to raise a group of good descendants.

But...

"Tell me what the two children lack in the future. The family will not spare any effort to support them!" Long Jue said in a low voice.

GUNSH, who was beside him, paused for a moment, then smiled and said, "Old Master is right. Second, remember to tell me if there's anything. If there's not enough at home, I'll get Ryan to squeeze out as many resources as he can!"

When he said that, the faces of the group of juniors froze slightly, and they carefully lowered their heads.

Resources were limited. If old master's focus shifted, then they...

"Oh... There's no need for that..." Zhuxing smiled. "Chenye is currently enrolled in a special class, so there's no tuition fee. The resources will also be supported by Starry Sky Academy. Nicole has Xi Ye's arrangements, so you don't have to worry about it..."

Xi Ye's arrangements?

"What nonsense?" Long Jue's face immediately turned serious. "Xi ye has just stabilized her footing. How can she afford the expensive tuition fees of Blue Spirit Academy?"

"She can afford it..." Xi ye replied indifferently.

The old man was stunned. Before he could say anything, Xi ye continued, "Moreover, I have acquaintances in the Blue Spirit Academy. I will take care of her..."

"What kind of big talk are you talking about?" Gunsh looked at Xi Ye with a gloomy face. "Let's not talk about the fact that you're just a newly debuted deity. Even if you have some opportunities, what relationship do you have with the Blue Spirit Academy since your territory is in the Northern Star Field?"

"Uncle, you don't have to worry about that..." Seer said faintly.

"What are you talking about..." Gunner was about to reprimand him when Long Jue interrupted him.

"Alright, stop talking!"

When Gunsh saw that the old man had opened his mouth, he immediately swallowed his words, but the gloominess in his eyes grew more and more intense.

Each of the second branch's family was more and more evildoer than the last. If this went on... His and Rennes' plan would be... ..

Long Jue looked at Seer with a complicated expression. From Seer's attitude, which made a character like Ron take the initiative to make friends with him, this child had a good fortune. However, the sudden rise of the second branch didn't have much to do with the family. If he wanted to leave... ..

Just as he was thinking about this, Zhuxing said, "Old man, don't worry. Whether it's morning or night or Nicole, they are all members of the ELDIA family. The family will never give up. After they graduate, I'll let them come to the glorious amethyst star to take over the old man's team and enter the Fourth Legion to further their studies!"

Hearing him, the old man's eyes brightened. He looked at his second son, Zhu Xing, and his face became complicated.

Of course, it was a surprise to be guaranteed first. Moreover, second brother had always kept his promise. However, it was obvious that he knew what he was going to do. It made him feel a little embarrassed... ..

Indeed, the reason why he wanted Chen Ye and Nico to use more family resources was because he wanted to bind them... ..

It was indeed embarrassing to be pointed out by second brother...

This was the first time that the old man felt uneasy in front of his children and grandchildren... ..

However, the awkwardness did not last long before another topic that the old man did not want to talk about suddenly came up!

"It's time for the old man to make a choice!" Xi Ye suddenly said, "In the big room and the second room..."

As soon as he said this, all the people of the Ardia family looked at Xi Ye, including Zhuxing and his wife!

"Xi Ye... What are you talking about?" Gunsh said with an ugly expression.

"Naturally, I'm talking about what uncle wants to talk about..." Xi Ye replied faintly.

"Xi Ye?" This time, even Zhuxing was a little surprised, and Ye Na directly stopped Xi Ye.

"Let him speak! !" Long Jue's face instantly darkened. He looked at Xi Ye and said, "What do you want to say?"

Xi Ye was still not too emotional in the face of his family's astonishment and the old man's obviously unsightly expression. In fact, he had a lot of important things to deal with right now, so he did not have much time to deal with the nonsense in the family... ..

“I’ll have to return to the territory tomorrow because I have some things to deal with. I Won’t be able to return for a short period of time. Since I’m here now, I’ll make things clear. Doesn’t the old man want to see this?”

Long Jue was stunned. He took a deep look at Xi Ye and suddenly felt that it made sense. Instead of letting things fight in the dark, it was better to make things clear in the Open...

“What do you want to say?”

Everyone in the Ardia family stared at Xi Ye, except for the little cabbage who did not understand at all...

“I think... Ryan’s idea is actually not bad...”

Everyone:“? ? ?”
