

## **A Bunch 1541**

Chapter 1541: "This Lord is a big shot..."

After Belial left with an excited look on his face, Burton immediately returned to his previous lazy and relaxed appearance. He half-reclined on the chair and proudly said to VERA, "How was it? Was My performance okay?"

Vera rolled her eyes at this guy who had revealed his true form. She curled her lips and said, "It was okay..."

Even though he said that, he still acknowledged the other party's performance in his heart.

The Crimson Galaxy, where the Blood Demon Army's forces were located, was the only bargaining chip they could take out. After all, it was difficult for soap to move about in other galaxies even if she wanted to, after all, the Crimson Galaxy still had her to coordinate with those complicated forces so that the handover would be smooth. Without a familiar as a guide in other galaxies, this fake overlord would probably not be able to find any connections!

Therefore, in the original plan, all the galaxies would be taken over by the previous demon race. Soap would slowly familiarize herself with them, while Dylan Demon's side would be taken over by her scarlet galaxy in exchange for benefits.

The Scarlet Galaxy's high-level blood demon descendants were all old men who had followed Saab since a long time ago. They were very loyal to themselves and Saab, but they weren't interested in their own race. It would be very easy for him to persuade them, as long as he made it clear that there was a better project in the Emerald Galaxy, he would be able to pull all of them over.

There would basically not be any accidents during the handover, but the key was whether or not Dylan demon's appetite could be satisfied!

As a mother race, he would definitely demand a lot. He did not think that this imposter would handle it well. First, he would say all sorts of excuses to delay the other party's patience. Then, he would show his cards and suppress the other party today, she suppressed his expectations to the lowest possible level. Finally, she mentioned the conditions of the Scarlet Galaxy, which instead made him look excited.

The entire process had been carried out very well over the past few months. It had to be said that it had actually exceeded her expectations... ..

"In the end, you gave the positions of administrator and commander to them to discuss the internal division?" Vera asked with her head tilted.

"Sister-in-law is smart!" Soap immediately praised.

"Sister-in-law?" Villafa smiled coldly at her, "Don't give that brother of yours a flowery mouth all day, it's useless, I didn't reject him outright, instead, I told him a basic truth..."

"Hehe, Grandpa won't let you down..." soap chuckled.

He also knew about Grandpa's rejection, it was probably because he directly laid out his cards.

Star level experts had long lifespans and were calculated according to the era. In the universe, if one wanted to pair up, their levels couldn't be too far apart. Otherwise, their lifespans wouldn't match, so how could they pair up?

It was also because his grandfather had been provoked that he resolutely abandoned him and joined the school. He said that he would be paired up with Vera Fa in the shortest amount of time.

This guy who valued women over friends, Soap was speechless when he thought about it. He had set such a high goal from the start. In his opinion, it was simply drawing a picture for himself!

According to his thoughts, under the universe's life level system, he would definitely find a young and lively girl, and then his level would rise. The girl would not be able to catch up to him and die of old age, and he would be able to find the next one, it was not like he would have to bear the nickname of a scumbag. He would have the best of both worlds!

No matter how beautiful Vera was, she would still be a tree, and a tree with a long lifespan. Wouldn't choosing her be equivalent to being locked up. This stupid grandpa was indeed a bird... ..

"Then you have to ask your brother to hurry up..." Vera said calmly, "The universe is very interesting, I didn't agree to wait for him. If I meet an excellent spouse on the way, I won't be polite..."

"Cough... .. Let's talk about the administrator... .. Soap coughed lightly, "Just like you said, letting them decide is to divide them. I've seen the intelligence you gave me. That Dylan Demon clan has three factions, the power of the Great Elder, the power of the family head, and the power of the cult temple. Although the two who came this time are the candidates for the next patriarch, their competitiveness is far inferior to that successor of the cult temple's current generation. Coincidentally, this time when my side obtained the outer region passage, the council of elders and the previous patriarch had their sights set on me..." "..."

"They must have completely given up on the fight for the next clan leader and are focusing on the resources on my side. It seems like they are planning to work together to exclude the evil priest Temple."

"HMM..." vera fa nodded. "And then?"

"Then I thought that if the two families join hands to suppress one, the evil priest faction must be extraordinary. We Can't lose them in such a lively matter, so I tried to divide the two families first to see if there is a chance for the other faction to be brought in as well. It would be a good chance for us to have an internal dispute so that they wouldn't stare at me every day..." "..."

"You have a good idea..." villafa sneered, "You want to destroy the alliance with just this little trick?"

"Let's give it a try. It's not wrong to bury a mine first, right?" Soap said with a smile.

"Little smart..." Villafa looked at the night sky outside and didn't say anything else.

But he was basically satisfied...

In the interstellar forces, the administrative officers were in charge of internal affairs, trade, construction, and other rights, while the corps leaders were in charge of military force, foreign expeditions, expansion, and other things!

It seemed like they were all equally important, but in reality, they were not...

The administrative officers were in charge of resources, but they could not misappropriate them. Most of the resources had to be taxed, but the resources that could be used were also in charge of infrastructure, People's livelihood, and so on. Although it was a lucrative business., it was a laborious business that was not easy to manage.

The general was different. It was simple and crude. When he was going on an external expedition, he would directly cut his profits in half. Sometimes, he would even go on a crusade against some pirate forces. All he had to do was to report it. It was purely a lucrative business!

One had to know that the expansion of the entire galaxy to the outside world and the exploration of the inside world were all carried out by the army. When the exploration reached the point of scraping the profits, what could the Lord Do?

Everyone in the Heavenly God system knew that military positions were always more profiteering than the internal affairs positions. Therefore, most of the children, if they wanted to earn resources, they would follow the military path!

And in order to continuously expand their territories and increase the enthusiasm of the military for expansion, they basically turned a blind eye to these things. Naturally, it was the same for the Bolton faction.

Therefore, although the galaxy's chief administrative officer and the general commander seemed to be on the same level, the division of resources between them was like the difference between heaven and earth!

Beryl and Azazel were on the same level of aptitude. Even though they could temporarily cooperate, it did not mean that they would still compromise when there was a dispute of interest. After all, the word 'compromise' would never appear on demons... ..

Although soap's move wasn't brilliant, it was the most useful... ..

"Oh right..." after a moment of silence, Vera suddenly said, "We're going to the glorious amethyst star tomorrow. Facing that family, have you thought of a good excuse to split your body? Don't mess up what seer told you to do..."

"I know, I know!" Soap hurried to say, "Don't worry, I can even play with these high-level demons. What's that Kid from a small family? I'm a big shot now!"

"Tch..." Vera rolled her eyes at him, too lazy to continue arguing with him.

She was not interested in this mission. She just wanted to complete the mission as soon as possible and take the opportunity to bring the blood demon's child back to the Emerald Galaxy. After all, Sab needed her company in his current state...

However...

There was one thing that she was a little concerned about. Was a figure like the lord really nurtured by a small family like Ardia?

Chapter 1542: Branch family (Part One) !

“This is the situation. What do you think?”

On the Glorious Amethyst Star, where the Eldia family was stationed, Gunsh, who had come back overnight, finally sat down in the hall of the family’s meeting room before dawn. Looking at the elders of the branch family, he felt a familiar sense of control... ..

At this moment, the hall was crowded with people. The elders of the branch families who had been in the Eldia family for tens of millions of years had all come here. According to the number of people, there were more than four hundred people... ..

Most of them were the leaders or grand elders of the branch families of the Eldia family in different parts of the galaxy!

They were in charge of the population, resources, and influence of the family. For example, the elders sitting in the front row looked like they were in their old age. Some of them even needed the support of their juniors. Their eyes were cloudy, they looked like they were going to die or not.

However, these old men were the big bosses of the branch families with huge power. They had tens of thousands of clansmen under them, and they controlled all kinds of businesses distributed by the main family. Every year, they were responsible for reporting the profits to the main family from various places. They were the indispensable blood of the Eldia branch family... ..

At this moment, the atmosphere in the hall was heavy, but it was normal. After all, it was a major event that determined the future of the family!

“Why aren’t you saying anything?” Gunsh calmly took a sip of tea and looked at everyone with a smile. “I called you here to listen to your thoughts. All of you are so quiet. How can this meeting continue?”

Everyone looked at each other in dismay when they heard that. For a moment, they were a little embarrassed.

Only the first elder and the fifth elder were in the main seat. The family head, Old Master Long Jue, was not present. The previous family head, Zhuxing, was not present. Even the three elders and the fourth elder, who were not on good terms with the first elder, were not present!

Yet, they had dragged the heads of the branch families over to the party overnight. It was obvious what they were planning. They wanted to force them to make a decision!

To be honest, Rennes’ proposal to completely move into the Bolton suzerain had already begun a thousand years ago. The great elder had repeatedly tried to rope in the various branch families in this aspect, but it was only because the old patriarch hadn’t relented, as time passed, everyone began to view this issue as a topic to pass the time every year.

They had never expected that the problem that had been in deadlock for a thousand years would be resolved so suddenly, and in the form of a branch family!

This left the branch family elders dumbfounded. They couldn't react for a long time. The only thing they could think of was to hurry over from the branch planet. However, most of them were still unsure of what to do after rushing over...

"Why are you still hesitating?"

Just as the atmosphere was heavy., the fifth elder who was sitting next to gunsh frowned and said, "What a good thing. A large galaxy that is more than 100,000 light years old. Although there are not many life planets that have been discovered, there are at least 99% of the unexplored regions. Once they are discovered, it will be a sky-splashing bonus. Why are you still hesitating about this?"

"This..."

The elders of the branch families looked at each other, their expressions conflicted...

What he said was true. Developing a galaxy was the most profitable business in the universe. In the process of developing a galaxy, be it a life star or a resource star, once they were discovered, the person in charge of developing the galaxy would be the first to reap the benefits. This was a rule universally acknowledged by the entire federation. Many families were fighting for this project under the banner of the great lords... ..

"Lord Ganshi..." in the lower hall., an old man sitting in the front row trembled as he said, "You just said that the families will decide whether to stay or leave in the form of splitting up their families. Does that mean that if they decide to go to the new galaxy, their previous businesses will have to be left to those who stay behind to guard it?"

"Naturally..." Ganshi sipped his tea and nodded slightly. "I know that many of you can't bear to part with your businesses that have been there for many years. However, you should also think about it. Once you go to the new galaxy, you will have to continue recruiting people just to explore the galaxy. Where will you find the time to manage your previous businesses?"

"That's right!" The fifth elder quickly agreed. "Only when you give something up can you get something. For the small profit you can get, do you want to give up the bright future there? which side has a brighter future that needs us to explain?"

"This..."

The leaders of the 400 families in the hall all looked at their acquaintances. Many of them were already relaxed.

Indeed, in terms of prospects, those old industries and the development of a 100,000 light-years wide range of galaxy resources could not be compared...

"What is Big Brother Doing?"

While they were discussing, a serious and steady business came from the entrance of the hall, and everyone quickly looked over.

“Third elder... Fourth Elder...”

The group of people quickly stood up and bowed to greet them.

These two elders didn't seem to be in charge of much, but many of the branch family elders who controlled the business knew that these two were actually highly valued by the old master. They were responsible for managing some of the core mineral resources of the family.

In terms of the relationship with the Old Master Long Jue, these two were actually the representatives.

“Third brother, you're here?” Gunshi's expression didn't change as he said with a smile.

“If you don't come, I'm afraid the weather will change!” Third Elder's expression was cold and hard as he said.

“Third brother, what do you mean by this?” Fifth Elder immediately said gloomily.

“What do you mean?” Third Elder said with a cold smile, “Isn't it very obvious? You guys are brazenly demolishing the house, and you still don't want me to say it?”

“What do you mean by demolishing the House?” Fifth elder immediately said angrily, “The separation of the house is the old master's idea. Moreover, Lord Bolton's side also agreed to it, so that the family can protect the business while at the same time have a better path of development. How can it be demolishing the house in your mouth?”

Gunsh also frowned, “Third brother, didn't you receive the news from the Old Master?”

“I received the news, but it's not like that, right?” Third elder said coldly, “This time, the division of the family is led by the eldest son and the second son. The old master made the decision, but the old master and Second Brother haven't come back yet. Big Brother, you rushed over to pressure them first, as if you want to force everyone to follow. If this isn't demolishing the family, then what is?”

“You! !” The fifth elder was about to retort when Gunsh stopped him, “Alright, it's just a misunderstanding. We're brothers, what's there to quarrel about?”

As he spoke, he looked at the other two and smiled gently, “You've misunderstood. I didn't rush back overnight to force everyone to do anything, but to draft a charter in advance...”

“After all, Lord Bolton is going to personally visit our clan as a guest tomorrow. Now that we've made a clear distinction, when Lord Bolton arrives, we can say the same thing. We Can't wait for him to arrive and we still haven't drawn a charter. Isn't that a little inappropriate?”

Third Elder choked when he heard this. For a moment, he couldn't find any words to refute.

“Moreover, before I came, I naturally greeted the old patriarch. The old patriarch also agreed with my words, that's why I was able to rush back overnight. Otherwise, how could I make the decision for such a major clan matter?”

These words immediately caused the third and fourth elders to blush and remain silent.

They knew that their boss had snatched the time to come back, so he was definitely here to snatch the person. However, the other party had found a legitimate reason. The main point was that the old man had indeed agreed to let the other party come back early, so there was really no way to refute it... ..

They did not know what the old man was thinking. Since it was a two-branch family, how could he let one of them come back first? Wasn't this clearly letting second brother suffer?

1543 Number 1,612: splitting up (middle) !

"Alright, it's getting late... everyone should make a decision soon..."

Gunshi smiled when he saw that his third and fourth brother had gone silent. He had the initiative to split up this time, so how could these two guys stop him?

The reason why he had rushed back earlier was to confirm the news, and the second reason was that he did not want the second branch to cause any trouble. After all, that family was too monstrous, and he still could not understand until now... How does that seer guy do so much... . .

"Yes, yes... <per\_0> . "the fifth elder quickly added, "Lord Bolton has already arrived at the entrance to the glorious dust galaxy yesterday. He will arrive here at noon at most. We can't possibly be stuck here forever, can we?"

"What the fifth elder is saying is..." A fat old man who had already put on weight stood up first. "There's nothing to hesitate about. This matter has already been reported to US since last night. I'm sure everyone has considered it carefully. There's no need to be conflicted here..."

Then, he looked at gunsh and said, "First Elder, our Shi Ye Star's branch family is naturally willing to fight for our future. However, how are we going to distribute the resources after we arrive?" "First elder asked us to move. There are some things that we need to talk about in detail. For example, how are the families of the star area that we've expanded there going to be divided? How are we going to calculate the manpower for the early stage? "Also, after we hand over the property, we need to give us some start-up funds, right?"

"That's right..." the group of old men nodded. Apparently, the other party had spoken to their hearts... ..

"Regarding the issue of distribution, everyone need not worry about it!" Gunsh smiled slightly when he heard this. "Lord Bolton has given Rennes the position of commander and chief executive officer. He has basically given Rennes all the authority in that galaxy. There won't be any external forces competing for it. With a volume of 100,000 light-years, only we can not divide it up completely. Don't tell me that everyone is worried about not being able to divide it up?"

Everyone was slightly taken aback when they heard this, but they immediately nodded their heads in agreement... ..

"As for the start-up funds, the old man has already promised that other than the funds that the family business needs to operate, the branch family can take away most of the cash as the funds for the

development of the new galaxy. The old man also values Rennes' business very much. The reason why he chose to split the family business was just to be more secure...". "..."

Hearing this, the elders from the branch families felt relieved... ..

It was naturally the best if they could take away most of the startup funds. At least they wouldn't give away the wealth they had built up over the years. This made many people think a lot.

Therefore, people began to express their willingness to join the migration.

Seeing that more and more people were joining, the third elder and the fourth elder finally couldn't sit still anymore. They said, "Everyone... Listen to me..."

Everyone immediately quieted down and looked at the two of them.

GUNSH frowned, but he didn't say anything. He couldn't act too ugly at this time...

"Everyone...". The third elder stood up and said, "I admit that what the first elder said makes sense. The potential of a new galaxy is definitely much greater than the insignificant industries in the family. The new opportunities and industries in Rennes are great, but everyone still has to act according to their own circumstances." "... "

"What do you mean by that, third elder?" A few elders from the branch families asked with narrowed eyes.

"I'm just checking if you guys are suitable... "... "...the third elder said faintly, "The distribution of resources in each branch family is different. Some branch families have many children and the distribution of resources is lax, while some branch families have fewer children and have concentrated their resources, nurturing many outstanding children. This is the case for most of the younger generation's families who are participating in the Teldar Hill grand ceremony... "..."

As he spoke, he looked at some of the people in the crowd. "The descendants of these branch families are extremely outstanding. With the blessing of the high priest this time, it is basically a certainty that they will be able to enter the Warrior Department of the Xandar Academy. In the future, without any accidents, they will be able to establish a firm foothold in our family's military forces. Have you ever thought that once you go to the new galaxy, most of the resources will definitely be invested in the exploration of the galaxy and mining. Can you continue to supply the resources of the younger generation?"

Some of the people in the crowd suddenly became conflicted again... ..

"And just as Big Brother said, the new galaxy is indeed big enough. Even if our family expands a hundred or a thousand times, it won't be enough to split it. But in the end, the ones with the most population will have the advantage, right?"

Gunsh narrowed his eyes slightly when he heard this.

Third brother sure knows how to find the right position...

Just as he said, there were some branches that followed an elite education. They focused as much resources as possible on a small number of children, so that he could stand out under the help of the main family, and in turn, lead the branch family to a better place.

Most of the children of these branches would have some control, unlike the other branches that did not control their reproduction, and these branches would be at a disadvantage when they went there.

After all, there was not enough manpower in the early stages, so the Eldia family must have been working as a pioneer group in the past. This kind of work did not have much to do with the aptitude of your children. On the contrary, the more people you had, the more advantages you had, only then would you be able to manage the more people you hired, and the higher the efficiency of the development team would be.

For example, if you had 10,000 people in your branch family, each of you would be able to hire tens to hundreds of helpers. The efficiency of the development team would naturally be much higher than if you had only a few hundred people in your branch family!

And those branch families that used a large amount of resources to nurture their elite children would indeed be at a disadvantage...

"This..." some of the branch families nodded their heads repeatedly, obviously agreeing with this logic. Although they were envious of the opportunities in the new galaxy, it was true that they did not have an advantage in their situation over there...

Especially Mila's father, who was currently in a dilemma!

He was originally on the side of the Great Elder. All along, the great elder had been in charge of many of the family businesses. Originally, he should have followed the great elder over.

But just like what the third elder said, the younger generation was too outstanding, especially Mila. After receiving the blessing this time, she might even be able to enter the elite class of Xandar Academy. The future of the dragon rank was within reach! !

Once he reached the dragon rank, he would be able to obtain the title of nobility from the ILUWETA faction. In the future, his lineage would be a noble with a title. Although it wasn't 100% certain that he would reach that step, to ask him to give up the girl and go to a strange place to work... It was really too much of a pity...

Seeing that some people were hesitating..., the third elder struck while the iron was hot and said, "Moreover, expanding a galaxy is not a foolproof business. A galaxy of 100,000 light-years is large enough. The chances are great, but the risks are also great. If you're lucky, you might be able to mine a good resource star or a life star in a few years. If you're unlucky? "Haven't you heard of an example where you haven't mined anything for decades, centuries, or even tens of thousands of years?"

"Third brother!" The fifth elder immediately said in dissatisfaction, "Isn't it meaningless to pour cold water on it?"

"I'm just reminding you about the risk..." the third elder did not even look at the other party. He then looked at the targets in the crowd that he valued and said, "I hope you'll think carefully about what kind of path is suitable for you..."

## Chapter 1544: Separation (Part Two)

“Big Brother!”

After the meeting, the fifth elder followed Gunsh to the warehouse. After they had gone far away, he finally couldn't help but ask, “What's wrong with third brother? Why is he so loyal to second brother? What can that sloppy guy give him?”

“That's not something we can know. Second Brother also has the charm of second brother...”. “...”. Gunner smiled, “But third brother is usually quiet, but he can be steady at the critical moment. If it wasn't for him, he could have taken more people away...”. “...”

“Humph!” Fifth elder snorted, “Those who betray others will regret it sooner or later!”

Under third brother's persuasion, there were indeed some people who did not follow Gunner's boat in the end. Among them, fifth elder Zhang was most concerned about Mila's father. He and his elder brother treated him well... ..

“Everyone has their own aspirations...” Gunner narrowed his eyes slightly. His expression was still calm, but there was a trace of coldness in his eyes.

“But it's not a big deal...”. Gunsh smiled and said, “I didn't expect everyone to choose our side. If that really happens, the old man might have to force some to stay. Moreover, as third brother said, those branches with fewer children are indeed not of much help to us ... ..

“That's true...” fifth elder narrowed his eyes. “But I always feel uncomfortable letting second brother take advantage of us!”

Families with fewer children didn't mean that they couldn't do it. On the contrary, families with fewer children had better conditions. Because they had enough resources, they would muster up the courage to implement the elite training policy, those families with more children were the middle and lower class in the family division system.

In order to win those people over, he and his boss had given them a lot of benefits. He and his big brother had given them all kinds of good business and resources, including the Zi Yao Star that their children had sent to them.

Now that they had been nurtured, they wanted to stay and work for the second branch. How could they feel good?

Of course, to be honest, these fellows were indeed not very useful in the new galaxy. In order to develop the galaxy more efficiently, the resources of these juniors would definitely be cut off. He also hoped that these little fellows who had received the priest's blessing would become useless, who asked them to obtain resources that even their own sons did not enjoy?

But not being able to provide them did not mean that he was willing to give these people to second brother and the others. This was two different things... ..

“Alright...”. Gunsh sighed. “Since the matter is almost settled, there’s no need to hesitate. Fortunately, more than 80% of the families are willing to go with us. Ryan has also given us an explanation. This time, we have to plan properly on how to cash in the resources as soon as possible. You must make sure that the survey team has the most experience and the best reputation. We must not make a mistake. The best areas will definitely give priority to us two brothers.” ... ..

“Big Brother, don’t Worry!”The fifth elder patted his chest. Even though he was old, as a member of the Thunder Warrior clan, he was still tall and sturdy. He patted his chest proudly, “This matter will definitely be settled!”

At this moment, the fifth elder’s face was no longer filled with dissatisfaction from when his boss didn’t speak to his son. His face was filled with excitement!

Mining the interstellar space was a huge project. The universe galaxy was huge, and there was a particular way to mine it. First, in the huge galaxy, one had to find at least one life star to be sure that the surrounding star belt wasn’t a dead zone, generally speaking, as long as there was a life star, with it as the point, a complete galaxy would definitely be mined. It was just a matter of how many resources there were.

And with the huge amount of mining, how to find high-resource stars or even life stars the fastest was something that had been figured out by some advanced observation tests over countless eras.

The surveyors would infer the life span and evolution of the surrounding stars based on the formation of the first life star. Then, they would carry out a group of stars simulation and survey the environment around them, they would infer which areas were more likely to have similar characteristics.

Living Stars had Gaia consciousness and would not form for no reason. If they found a pattern, it was possible to infer which areas were more likely to awaken the galaxy’s Gaia Brethren.

However, interstellar surveys could not be completely accurate and could only be based on probability theory. Therefore, the surveyors were similar to the masters who gambled on stones on planet D. It was a relatively mysterious profession.

However, the general direction could still be tested. The boss would naturally not give up the position of the Starfield with its own probability to the branch family. And now, he had given the task of consulting the surveyors to himself. It was obvious that he wanted to bring him along to eat a large portion, of course, the fifth elder was excited about such a good thing!

Previously, when he was fighting for the TEDAR Hill quota, his dissatisfaction with gunsh was instantly thrown to the back of his mind... ..

Looking at fifth’s excited expression, gunsh’s expression was still gentle, but he smiled coldly in his heart.

Of course, he would not share the best area with fifth. He had already asked his son to hire the best prophet in the faction. When the time came, even if they were in the same area, he would have a way to make fifth’s luck a little worse than his... ..

Just as he was thinking, a graceful figure in white walked towards him from afar. The Thunder warrior with blue skin under the sun appeared extremely ladylike, looking quiet and elegant.

“Uncle Good... ..”the girl to Gansh to a standard priestly ceremony, sweet hello.

Gunsh suddenly revealed a gentle smile. “It’s Sansa...”

The fifth elder looked at the girl who took the initiative to come over to show her goodwill, and his expression became gentle, but his heart sneered.

The Girl in front of me is the eldest daughter of my second brother...

-----

“Luckily third brother reacted quickly, or else he might have been fooled by Boss and the others and ran away...” Fourth Elder said with a straight face, “I don’t know what those people are thinking. Do they really think that such a good thing can fall on their heads? Go to the Devil who eats people and doesn’t spit out bones, Hehe...”

“Well... .”the third elder shook his head. “It’s not necessarily a bad thing. What if that Lord Bolton really does have the intention of embracing other races? This might really be Rennes’good fortune. If that’s the case, wouldn’t it be a good thing for him to lead his family towards prosperity?”

“Ryan?”The fourth sneered: “I really do not think, there is such a good opportunity, I do not think he can afford it!”

“Well... .. Isn’t it good now?”Third Elder looked at the black-faced old four and smiled. “Those branch families aren’t honest to begin with. Who knows how many resources they have secretly deducted in a year. Now that most of them have left, it’s a good time to consolidate them, isn’t it ? Moreover, those who stay are all elites, especially those juniors. Those people are the foundation stones that our family needs. As for those old worms, they can just leave ... ..

“You’re right...”fourth said in a depressed tone, “Second brother is right. He doesn’t even know how to come back for such a big event. You have to hurry here. His carefree character hasn’t changed at all!”

“Haha!”Third elder laughed, “He has always been like that since he was young. He’s Afraid of trouble. I’m afraid that he can’t wait for Big Brother to take all of them away. It’s best if the two of US can leave together. He can live a carefree life in the villa of the glorious amethyst star with his wife...” . “...”

“In his dreams!”The fourth elder laughed. “I’ve never enjoyed it so much...”

“But it’s good too!”The fourth elder stretched lazily, he said contentedly, “From now on, we don’t have to see boss’s hypocritical face anymore. Oh, right, I don’t have to see fifth’s lackey anymore. HMM... I should be more comfortable in the future...”

The third elder nodded. He agreed with him on this point. However, he seemed to have thought of something and frowned.

“What’s Wrong?”The fourth elder noticed that something was wrong with his third brother.

“I suddenly remembered something. It might be troublesome...”the third elder said faintly.

“What is it?”

“Second Brother’s daughter...”

“Nicole?” Fourth Elder smiled. “That girl is also promising. I didn’t expect our family to have a mecha operator...”

“Who said that?” Third Elder rolled his eyes at Fourth Elder. “Nicole, that little girl, has never worried US since she was young. I mean the other one!”

“Oh... that one...”

When he mentioned the other one, fourth elder’s expression turned cold... ..

Chapter 1545: Nicole and the guest who came with her...

“Separated?”

Sansa looked at Gunther in a daze, and her eyes suddenly became enlightened. “How... Could This Be?”

“I know it’s very sudden...”

In the living room of the big house, Gunther thoughtfully made a cup of flower tea for his niece, with a gentle and kind face, he said, “It’s hard to accept such a big thing suddenly appearing, but many things in the world are like this. They don’t always happen when you’re ready. Sansa, when you grow up, you have to try to accept these sudden situations...” . “...”

His tone was like that of a kind and sensible elder. Whether it was his speech or his tone, even if outsiders were here, they wouldn’t be able to find anything wrong with him, let alone a girl who hadn’t grown up yet... “...” .

“Uncle said that seer was the one who suggested this?” Sansa’s tone became a little cold... “...” .

“This...” gunsh hesitated for a few seconds before nodding slightly. “Indeed, this time, it’s thanks to him that the matter was resolved perfectly...”

“What do you mean by it’s all thanks to him?” At the mention of this name, Sansa’s originally peaceful face turned a little gloomy. The rough outline of her face, which was unique to the Thunder Warrior, was revealed. When paired with the makeup powder, she looked a little ferocious... ..

“We could have gone to Big Brother Rennes’ place as a family, but we had to break up the family. It’s been more than 10,000 years since we disappeared, and now we have to come out and cause some trouble. Doesn’t he feel uncomfortable if he doesn’t cause some trouble?”

“How can you say that?” Gunner said with a consoling expression, “He is also thinking of the old man’s hard-earned foundation. We can’t all leave and give up the family’s former foundation. There is no reason to leave some people behind...” . “...” . “...”

“Ha... .. Uncle doesn’t have to speak for him!” Sansa sneered, “He is just a short-sighted person. Big Brother Ryan has been assigned to an entire galaxy, so how many resources are not enough to share?”  
“? But he’s just thinking about his grandfather’s small business. If he’s narrow-minded, then he can stay by himself. He even has to drag others along with him.” “...” . “...”

“Sigh...”gunsh looked at the other party, he acted as if he wanted to say something but hesitated, in the end, he sighed. “Things have already come to this. The old man is also very supportive of this plan. Lord Bolton’s side has also agreed to it. It’s a foregone conclusion. I don’t really care about it. It’s just that I’m more worried about you after I leave...”

“I...”Sansa bit her lip and looked up at gunsh. “Uncle, I don’t want to stay here. Can I go with you?”

“This...”gunsh immediately smiled bitterly. “Child, I can’t bear to part with you, but... you’re still the child of the second branch. How are you going to explain it to your parents if you go with us?”

“I don’t need to explain it to them!”Sansa said coldly. “They only have eyes for seer. Anyway, Seer is back. They can just hold that precious son and live...”

“What are you saying in Anger?”Gunsh rubbed her head and said gently, “How can your parents not care about you?”

“How did they ever care about me?”Sansa bit her lips aggrievedly, she lowered her head. “When I wanted to learn to be a priest, father dealt a lot of blows to me. It was you who supported me all the time. He spoke coldly when I didn’t get into the academy. It was also you who supported me to pursue my dream. I’m not saying that I won’t consider the difficulties of my family, but they don’t treat other children like that...” . “...”

“Seer almost brought down the entire family. The two of them talked about him in front of me every day. When I said that I wanted to become a priest, they said that I was unrealistic. Could it be that seer is realistic to learn from the gods?”

“Let’s not talk about seer. Isn’t that Guy Chenye also following the path of a magical Beast Master?”? “He used to look like he was having a hard time, but I know that you would never suppress Chenye’s resources. The way he acted was obviously an act. Otherwise, how could he have gotten into the starry sky academy without a Sound?”

Sansa’s face became even more contorted with anger at the thought of this. These days, she had heard the juniors around her talking about the morning and night entrance examination to Starry Sky Academy. Only then did she realize how scheming this little brother who had been silent all day was!

He had been acting as if he was often bullied and targeted by others. He had even made himself look so thin and weak on purpose, as if he was being abused. In the end, what happened?

Hehe... ∴ Was he really that miserable to be admitted to Starry Sky Academy? Who would believe that his parents had not secretly given him resources?

In the end, his parents valued sons over daughters. Only his sloppy father would have such backward thoughts... ...

“Uncle, don’t worry about my father... I’ll go and tell them...”Sansa said coldly, “If they don’t acknowledge me as their daughter because of this, then they won’t acknowledge me...”

“It’s not... It’s not...”gunsh quickly comforted her... ...

The fifth elder's eyelids twitched when he heard that. To be honest, every time he saw the eldest daughter of the second family, he felt a sense of relief. His grandson, who was like a child who got what he deserved, seemed to have become especially cute... ..

"Okay, okay, don't Cry..."gunsh looked at her with a loving expression, but he felt uncomfortable in his heart.

In order to become a priestess, Sansa not only learned divine arts, but also tried to look like a real priestess in terms of appearance and temperament. Therefore, she was very particular about her clothes and makeup. In addition, she was indeed quite elegant, she did look a little like that when she was dressed up.

However, she was a warrior after all. Her muscle rims were different from that of a beautiful elf. When she was agitated, her facial appearance would be extremely incompatible with her makeup. Instead, she would look even more ferocious. It made gunsh look extremely strange. With the addition of his makeup, he looked no different from an evil ghost...

In broad daylight, such a thing was crying in front of you, yet you still had to pretend to pity him. Elder five even felt that it was not easy for big brother... ..

However, did big brother really want to take him away?

Fifth Elder looked at gunsh in puzzlement. was he planning to leave a foreshadowing for second brother?

-----

On the other side, a little girl who looked a little like Sansa ran excitedly into Eldia's territory and ran happily... ..

The running girl looked a little like Sansa, but at first glance there was a big difference. First of all, she was dressed simply in a loose robe. She had a small frame, but she was a little round, but she obviously didn't like to exercise. It was obvious that she had a lot of fat on her body... ..

However, she had a sunny and cute temperament. The loose clothes coupled with her round body made her look like a little meatball when she ran, which made her look a little funny and cute... ..

"Fourth uncle! !"

The little girl looked at third elder and fourth elder who were walking together from afar and quickly called out happily from afar.

Third Elder and fourth elder were stunned and quickly looked over. When they saw who it was, they were instantly delighted, especially fourth elder. The cold expression on third elder's face when he mentioned Sansa instantly became beaming!

"Third elder, it's Little Nicole!"

"I see..."third elder's expression was obviously more restrained, but there was a trace of joy in his eyes.

The little girl was not polite at all. She turned into a blue bullet and flew over. The fourth elder quickly hugged her, "Oh, slow down," he said, laughing. "then he scratched the little girl's nose and said, "How come I haven't seen you get so fat in a year? You almost broke my back, didn't your father leave you alone for a year and secretly eat and drink like a fish?"

"What do you mean by getting fat..." the little girl was displeased. She twisted her body and said, "I'm growing, so of course I have to eat more..."

"Okay, okay, okay, grow..." fourth hugged the little girl and shook her.

Third Elder said with a straight face, "Just spoil her. Second Brother will scold you again when he comes back!" Then he looked at the little girl and said seriously, "How many times have I told you that you have to control your appetite when you cultivate the spirit system...". "...". It was the nature of US Thunder warriors to have a strong appetite, but that was because of the warrior genes in our bones. Since you didn't develop in this aspect, you must control it. Otherwise, when your other body indexes increase in height, it will also affect your spiritual core advancement later...". "..."

"I know, I know..." Nicole seemed not to be afraid of third elder's straight face at all. She smiled and said, "You must be careful in the future!"

Third Elder glared at her. Among the younger generation, he couldn't do anything to this little girl. She wasn't afraid to scare her with a straight face, but she couldn't bear to teach him a lesson... ..

"By the way... Why Are You Back?" Third Elder suddenly reacted and said, "Didn't you send an email saying that you passed the exam?"

The news that the little girl passed the exam to the Blue Spirit Academy shocked the two old men. Although they knew that the little girl was very talented, they didn't expect that she could pass the exam to the top ten academies on her first try. Sometimes, they really envied second brother.., why were these little brats so powerful.

"About this...". The little girl stuck out her tongue. "I assigned teacher Billy to my side. Teacher Billy hasn't taught for a long time, so he came here to buy some things. When I heard that she was coming to the east star field to buy things, I begged her to bring me along ... .."

As soon as she said this, the two old men's faces lit up. To be able to beg the teacher to bring her out to buy things, it proved that Nicole was very loved by the teacher. How could ordinary people have this kind of treatment?

"Then where is your teacher?" The third elder quickly asked.

"The teacher went to the neighboring planet to shop and said that she wanted to see an old friend, so she didn't take me. She asked a fierce classmate to come with me first..."

Speaking of the fierce classmate, the little girl obviously lowered her voice and looked left and right, afraid that others would hear her... ..

"Don't look..."

At this moment, a cold voice suddenly came from the side, "I heard it all..."

The little girl was instantly frightened, and the two old men were also frightened... ..

Chapter 1546: Let Me... Of course, I'm here to protect you... ..

Hiss...

Third Elder and fourth elder stared blankly at the little girl who had suddenly appeared. It was broad daylight, and they suddenly felt as if they had seen a ghost... ..

She looked extremely petite, the same size as a gnome, and was clearly a standard humanoid creature. However, they felt as if they had never seen this type of creature before. Her skin was frighteningly white, and in her pair of black eyes., there was a magnetic force that seemed to suck in all light!

It was a spirit-type lifeform. Its level was not high, and its magnetic field seemed to be around level 10... "...". The two of them quickly determined.

But it was precisely because of this that it was strange. A spirit-type lifeform around level 10 was actually like a ghost. It was so close to the two level 14 warriors that it actually had no sense at all! !

Although their lifeblood had already aged, and in terms of true combat strength, they might not even be at level 13 yet. However, their biological senses were still there. Moreover, this was the first time that they had heard that spirit-type lifeforms could have this kind of stealth ability... ..

The key was, what was going on with that eye?

The two old fellows looked at that eye that seemed to be able to absorb light, and a chill rose in their hearts. For some unknown reason, they actually felt a chill...

"Greetings, seniors..."the newcomer bowed with an extremely elegant posture, as if he was born in a noble family.

"Oh... Hello..."the third elder immediately reacted and forced a smile. "May I know who you are?"

"I'm Nicole's classmate from the same period. We were taught under Professor Billy, and we're roommates..."the little girl narrowed her eyes and smiled.

When she narrowed her eyes, she looked like a young lady from a noble family. Her temperament was not worse than some elven noble girls from the priestess family, but her moves were too terrifying...

Nicole was roommates with such a guy?

It was quite torturous...

"Oh, good, good, good... welcome..."the third elder quickly smiled and said, "Nicole, that little girl, has been spoiled by US since she was young. She's a little careless. Please take care of her in the future..."

"You're too kind..."the little girl smiled and said, "I like her very much..."

When Nicole heard the word "Like", she rolled her eyes. "I don't want to be liked by you..."

“How Old Are You?”The little girl looked at Nicole. “Come down quickly...”

Her tone was very calm and didn't have any fluctuations, but what surprised the two old men was that the guy who had always been dishonest actually obediently came down from the arms of the fourth elder... ..

Although he looked reluctant, this...

While they were surprised, the two old men suddenly received the message.

“Eh? Third Uncle, what is it?”Nicole came over and asked sneakily.

The third elder rolled his eyes at Nicole. “A guest is coming today. Let's go and welcome him...”then he looked at the little girl. “You have to greet your guest well...”

“Okay, third uncle!”Nicole said with a smile, “Don't Worry!”

The two looked at each other and finally nodded. After all, the other party had the Blue Spirit Academy's emblem on him, and he was Nicole's roommate. Although his eyes were a little scary, he should be fine, right?

“By the way...”before they left, the fourth elder whispered to Nicole, “Stay away from the East Campus. Your big sister is there...”

“Oh...”Nicole nodded.

After the two elders left, a cold voice sounded again, “What's wrong with your big sister?”

“Family matters!”Nicole put her hands on her hips, as if she didn't care about her family matters.

The other party looked at her quietly. After a few seconds, Nicole softened. “That... Big Sister's personality is a little weird. It's not wrong for us to stay away from her...”

“Weirder Than You?”Nicole tilted her head.

“You have no right to criticize me!”Nicole was angry.

Nicole was speechless...

“By the way...”Nicole walked in front and suddenly asked, “Did big brother... tell you about my big sister?”

“No...”Nicole shook her head. “He just asked me to take care of you...”

“Take Care of me? How Old Are You? How can you take care of me?”Nicole looked at her unhappily. “Don't think I don't know that your age is fake! !”

“You Remember Me?”The girl looked at her with a smile.

“Of course I remember...”Nicole carefully looked around and lowered her voice. “It's hard for me to say with the instructors by my side. Who would have thought that a group of Aborigines would be snatched by a group of instructors on campus!”

“Oh?”The little girl smiled and looked at Nicole. “How do you know it's the train group?”

“Nonsense, I saw it!” Nicole said angrily, “I was there at the Campus Party!”

“You were there?” Nicole was obviously surprised.

“Thanks to you...” Nicole rolled her eyes. “It’s no different if we were there or not!”

“Oh...”

“Oh your head...” Nicole looked at them angrily and asked in a low voice, “What’s wrong with you guys?”

“What do you mean, what’s Wrong?”

“Pretending to be stupid? You know what I’m asking!”

When they were on the train, the little guys were all in Level-1 states, and the elves hadn’t transformed yet. How many years had it been? They were all level-10 now. How could they fly on a rocket so fast?

“I don’t know...” the other party said innocently, “It’s probably because we’re powerful...”

“I. . .” Nicole suddenly choked. She had the urge to slap the other party, but the other party’s terrifying eyes instantly calmed her down. ...

“So you came to the Blue Spirit Academy because of my brother’s arrangement?” Nicole hesitated for a long time and finally asked the question that she had wanted to ask for the past few days.

“Yes...”

“Why did he arrange for you to come here?”

“Of course...” the other person smiled and said, “To protect you...”

Nicole: “...”

The other person’s smiling words made her feel inexplicably sour. Then, she gritted her teeth and glanced over. “Why do I Need Someone to protect me? My brother has been worrying all day...” after a pause, she continued, “Why You?”

“Because I’m the best...” her dark eyes looked at Nico seriously. “I’m the best, so he trusts me to take care of you...”

“Really?” Nico looked at her doubtfully.

“No Doubt...” she said seriously.

“Then...”

“Someone is coming...”

“What?”

Nico quickly followed the man’s gaze and saw a few people she didn’t want to see...

“Go, go, go, let’s talk over there...”

“Nico! !”

Nico seemed to want to avoid the man, but the man's eyes were sharp. He saw her from afar and stopped her... ..

"Ugh..." Nico's face suddenly became bitter. She stiffly turned around and looked at the man, forcing a smile. "Big Sister..."

The person who came was the eldest daughter of the second branch, Sansa, who came back from the east wing. ...

"Why are you hiding?" The person looked at her coldly and asked.

"I'm not hiding from you, big sister." Nicole immediately tried to please her. "I... I'm talking to my classmates. I didn't notice you coming, did I?"

"Classmates?"

Sansa was slightly stunned, and then she noticed the school emblem on Nicole's shoulder. Her expression immediately froze. "You... you got into the Academy?"

Chapter 1547: the powerless Nicole...

Sansa had always felt that her parents were biased...

Her parents had almost brought down the entire Eldia family because of that useless elder brother, but they still yearned for him. She had worked so hard to become a priest since she was young, but her father said that she was unrealistic... ..

At first, she thought that it was because her family was in difficulty and could no longer support her to walk the path of a priest. However, after Chen Ye was born, her thoughts changed...

In order to give Chen Ye better resources as a magical beast master, her mother actually ran back to the Na ye family to raise magical silkworms... ..

For the sake of the two males in the family, they were willing to risk their lives. However, when it came to her, they could not even support her...

At that moment, she understood that her parents... . . Just treated the boys as their real children. ...

It was normal. Many families were like that, especially the warrior families who valued sons over daughters. It wasn't strange that her parents were such shallow people. If they weren't shallow.., how could they drag the entire family down to that extent?

Nicole was born the latest. After she was born, her parents didn't have time to take care of her. When she was young, she was adopted by her third and fourth uncles. They weren't even as good as her. When she grew up, she didn't want to bear the expensive tuition fees of the glorious amethyst star. She took Nicole out of the Glorious Amethyst Star. She said that her friends had better resources, but in fact... God knows where he had sent her. ...

She didn't come back many times in a year. Sometimes, she would only come back once every few years. In fact, she doted on her little sister, but for some reason, she didn't seem to be close to him.

She would rather act like a spoiled child like her third uncle than talk to him. Perhaps, her father had brainwashed her?

At that time, she thought that way. Thus, she cherished her little sister even more... ..

This child didn't even know what she had lost... ..

The resources on the glorious amethyst star were the most basic enjoyment for the child of the head of the Eldia family. If you had been deprived of this, how could you still cling to those biased parents?

Silly Girl...

However, when she saw the school badge on her shoulder, Sansa felt that it was extremely eye-catching...

Under the morning sun, Sansa stared at the school badge. The scene fell into a strange silence... ..

"Big Sister?" Nicole tilted her head. Looking at her big sister's eyes that were about to eat people, she knew that her big sister was sick again... ..

This was the reason why she didn't like to get close to her big sister...

In her opinion, her big sister was a very strange person. When she was young, she always complained that her parents did not give her what she wanted. No matter how much her parents gave her, she was never satisfied.

For example, when she wanted to learn the priestly route, her father gave her a cold blow, but he still found a lot of resources for her. She was not satisfied, but her uncle only took her to a certain divine institution to receive a blessing. She felt that he was the best person in the world...

Outsiders did not like them because of Big Brother Seer, and she did not like big brother seer as much as outsiders did...

Please, who was family with whom?

Whenever her mother mentioned seer, she would get angry. When her mother did not mention it, she would say that her mother was guilty, which made her speak carefully in front of her since she was young, afraid that she would make her angry like her mother.

Then, it was Brother Chenye.

Brother Chenye was clearly the most protective person in the family. He would fight with anyone who dared to speak ill of his family. In the end, his sister would help others to scold him instead. She would say that he was insensible, that he pushed us further and further away from outsiders, and even directly alienated Chenye... ..

Later on, it was even more ridiculous. His mother went to the outside world to risk rearing silkworms for the three of them. A few days ago, his sister actually called him and cried to tell him that his mother had

secretly given all her resources to morning and night, ... So many years of morning and night being bullied and squeezed resources were all fake... ...

Oh My God, are you blind? Is it fun for me to be so thin and abuse myself. The most important thing is...  
... So you knew that he was often bullied after so many years?

How could she get close to such an inexplicable sister?

That was why she had tried her best to stay away from her since she was young. She was afraid that one day, she would vent her inexplicable resentment on herself... ...

But now it seemed... She couldn't avoid it in the end... ...

"When... did you get into the exam?"

The Brilliant Purple Star was in the hot season. It was hot even in the early morning, but Sansa's words made people feel cold... ...

"Just... just a few days ago..." Nicole lowered her head guiltily.

What the hell? Why did she feel guilty?

"Just a few days ago?" Sansa looked at the little guy, her eyes becoming more and more terrifying. "Why do I remember... You should have ten more years to take the exam?"

"I. . . Skipped a grade..."

"Skipped a Grade?" Sansa's voice became sharp. "Are you kidding me?"

In this year's exam, even the children of the big families had to accumulate a lot of experience. He knew how high the requirement to skip a grade was. The son of the administrator of the Glorious Amethyst Star was a noble-born young master, he didn't dare to skip a grade!

"Big Sister... Lower Your Voice..." Nicole whispered. ...

"Shut up! !" Sansa had just finished putting on her makeup. After she shouted, her makeup broke down again. She looked like a devil in the daytime. Not to mention Nicole, even rainy, Wugua, was shocked!

What the F \* ck... could she break down like this?

"What school did you get into?"

Nicole lowered her head...

"I'm asking you a question!" Sansa roared.

"Didn't you tell me to shut up..." Nicole said, feeling wronged.

"You..." Sansa was so angry that her face turned purple, and her elegant temperament became even worse. "I told you to talk back, didn't I?"

A scarlet light fell from the sky, in the form of shackles. It was one of the divine spells of the prison temple!

However, when the red shackle was only three feet away from Nicole, it instantly turned into dust and disappeared without a trace...

Sansa looked at her in a daze. She could clearly see that her divine spell had been directly melted by a pure and powerful spiritual power... ..

And that spiritual power came from her sister, whom she had always thought to be the most pitiful... ..

“Sister...” Nicole sighed slightly, “It’s not a child anymore, but you still use the methods of a child...”

“A child...” Sansa was slightly stunned... ..

“Level-three divine spell...” Nicole pointed at the dust in the sky weakly, “Isn’t it just a child’s Toy? Sister, you could use this divine spell sixty-seven years ago, but after sixty years, you can only use this. If you continue like this, no one will be able to help you.” ... ..

“Good... very good!” Sansa was so angry that her whole body was trembling. “Then let me, your sister who hasn’t made much progress, test your strength as a high-level student!”

As soon as she finished her words, a huge shadow appeared behind her, and a tall scarlet warden appeared with an inexplicable cold air!

“Sister...” Nicole looked at the shadow and opened her mouth weakly, but she didn’t know what to say for a moment. ... ..

That... Was also a level three divine spell... ..

Should she... .. Or... .. Just let me beat you up?

Chapter 1548: Attack!

Was this... the so-called third-rate family?

Rainless watched the farce in silence. The divine art displayed by the woman opposite her looked gorgeous, but the quality was surprisingly poor!

She was an all-rounded cultivator. Aside from divination, she had dabbled in almost all other fields of the spirit department, including Divine Arts. Among the many fields, divine arts were not something she was very interested in, however, even the effects of her first time learning that thing were not as wide-ranging as this one, right?

There were many elves in the base who chose to cultivate in the sacrificial element. The divine spells they cultivated were all common goods that seer, the boss, had bought in the federation. The quality of the divine spells was so poor that they could not be beat. However, not to mention herself., even the level 3 or 4 priest players in the base would be much better than this woman, right?

Moreover...

This woman’s level... ? ... was around level 6, but why did the quality of her spiritual energy feel similar to that of the level 4 players in the base?

It was more or less the quality, but if it was the quality... .. It simply could not be compared... ..

Spiritual Energy naturally had quality. After all, the brain nucleus had limited capacity. As a spiritual profession, they had to constantly temper their spiritual energy through meditation, condensing the quality of their spiritual energy. Each nanometer of spiritual energy could control more material and spatial energy, this meant that the quality was even higher.

In the academy, spiritual power was divided into five masses. The first three grades were divided into three primary colors of optics. Green was the lowest grade, blue was the middle quality, and red was the highest grade of basic spiritual power... ..

On the indigenous planets, anyone who could awaken red spiritual power could receive the blessing of Gaia's consciousness. They could manipulate some more basic and primitive physical particles, thus releasing an exceptionally powerful spell...

For example, allowing molecules to fuse, split, and expand elements, releasing extremely terrifying energy effects. On many native planets, this spell was known as a forbidden spell, and was usually released by mages who had awakened red spiritual force.

According to the federation's standard classification, the spiritual system would generally awaken red spiritual force at level 6, and 5% of the red spiritual force in the level 7 brain nucleus was considered to be qualified. This was also one of the basic criteria of the general assessment... ..

This standard could be reached by the players in the base at level 4. When Rainie was at level 7, the red spiritual energy in the brain nucleus was basically 80% , most of the players at level 5 or 6 in the base could reach around 30% , while the outstanding ones like Lei Xue could reach 40% !

In other words, many players in the base did not know that if they learned advanced tactics, many players could already rub nukes with their hands... ..

Advanced tactics were currently prohibited in the base because they were afraid that some players would accidentally blow up the planet. After all, the energy ratio of a level 7 or 8 planet was very weak, and the red spiritual energy could already cause considerable damage.

As for the one in front of them, in total, it was almost level 6. Rain girl looked over and saw that the spiritual energy released by the other party was all green in color... ..

When she was using the divine spell just now, some yellow spiritual power barely floated by. Looking at the ratio... .. It was only about 10% ... ..

So-called... .. The priestess of a third-rate family..? ... was this the level?

Or... was she the only one who was at this level?

Rainy Girl felt that she could still observe...

Bang! !

Just as she was thinking, she heard a crisp sound like glass. Guo Xiaoyun looked up expressionlessly. The seemingly gorgeous red warden was shattered by Nicole's spiritual power...

As fragile as a bubble, the corner of Guo Xiaoyun's mouth twitched...

HMM...

After the spell collapsed, Sansa grunted. The blue blood unique to the Thunder clan came out of her nostrils and ears, and she staggered backward!

"Are you okay, Sister?" Nicole was shocked and ran over quickly... ..

She didn't mean to do that. She had planned to let her sister beat her up a few times to vent her anger, but her sister's second divine spell was not a detention type, but an attack type, so she had to at least build a layer of defense to reduce the damage...

After all, she was also a delicate person, right? This warden looked so scary, and her small body could not withstand a whip. It was like a cushion in her butt when she was being beaten. She had to be prepared. She could not be beaten to death, right?

How could she know that her big sister's divine spell was so fragile?

Her mental energy shield was calculated according to her big sister's mental strength, and she had even lowered it by one level. It was to let her big sister experience the effect of breaking her protective shield and then teaching her a lesson. She didn't suffer much damage. This way, her big sister would be able to vent her anger and wouldn't pester her anymore... ..

Who knew...

That was a level-two protective shield. How could her big sister be destroyed by the rebound spell?

Nicole ran over with a worried look on her face, which made Guo Xiaoyun even more speechless.

She instantly saw through Nicole's thoughts, but this guy obviously forgot to calculate the spiritual quality... ..

You're a level two defensive spell with a yellow spiritual quality at the very least. How could a piece of trash like him not be injured?

"You..."

Sansa fell to the ground, feeling anxious. She felt as if she had been hit by a simmering hammer, and she couldn't speak... ..

This little girl actually dared to attack her?

"Stop! !!"

Just as Nicole was about to run over to check on her sister's injuries, a fierce shout suddenly came from the sky!

Then, a powerful qi and blood pressure came! !

Nicole was stunned. She suddenly looked at the sky and saw a huge palm falling from the sky!

She quickly concentrated her spiritual power and her mind instantly became clear. Only then did she see clearly that the huge palm was only the power caused by the powerful qi and blood, and the one who attacked was the fifth elder!

In the sky, the fifth elder looked at Nico, who instantly became clear-headed, and he exclaimed in his heart!

This little girl from the second son's family actually had such high-quality spiritual power. The second son had hidden it quite well!

For a moment, he even had the thought of directly crippling this little girl, but he still forcefully restrained himself.

Although the second son had lost his genes, his strength was still at the top of the family, and he was also a hot-tempered person. If he dared to touch his daughter, even if he found enough excuses, he would definitely fight to the death with him!

He was about to go to the new galaxy with his big brother to expand his grand plans. There was no need to take such a risk. He just needed to teach him a lesson... ..

As he thought of this, the strength in his hands suddenly weakened. He should slap her as he wanted to grab her, but he only needed to grab her to teach her a lesson first.

As an elder, if a junior were to hurt someone and teach her a lesson, second brother wouldn't be able to find a reason, right?

He could just vent his anger. He really didn't know what kind of luck second brother had. The children he gave birth to were all more and more monstrous. From the looks of it, this little girl was at least a seedling of a top-tier Academy!

On the other side, Nicole could only barely stand under the strong aura and blood pressure of the other party. She couldn't even avoid it. In an instant, she could only stay where she was and wait for fifth uncle to slap her... ..

At this moment, a petite figure suddenly appeared between the two of them. An incomparably pale palm directly grabbed towards fifth elder's huge palm!

Chapter 1549: The Power of rainy!

"What is this little guy trying to do?"

The fifth elder was stunned when he saw the figure that suddenly appeared in the middle!

To be honest, he dared to attack Nicole, but he didn't dare to attack an unfamiliar disciple who also wore the school emblem. Those who could get into a high school were mostly nobles, and he couldn't afford to offend them... ..

However, the other party came suddenly and without any warning, which made him, a veteran warrior, unable to react at all. He was so flustered that he couldn't stop himself.

The most important thing was that inexplicable sense of danger!

When the other party's pale palm grabbed at him, Goosebumps rose all over his body, and an unprecedented chill surged in his heart!

It was hard to imagine that the person who gave him such a feeling was a little guy with less than 100 years old... ..

Looking at the pair of pupils that seemed to be able to absorb light, the fifth elder was extremely shocked. He could not help but think to himself, "Which family is this junior from?"?

The moment he hesitated, he could not stop. Coupled with his instinctive fear, the fifth elder had already lost part of his control over his body. He realized that no matter how hard he tried, he could not even turn around, let alone stop, he could only watch as he clawed at the other party.

Fortunately, he had not killed Nicole before. He had only clawed at her to teach her a lesson. Even if he offended this unknown junior, there was still room for maneuver...

Hiss...

There was a very slight sound of energy colliding, but in an instant, the fifth elder realized that the energy in his hand seemed to have encountered something extremely terrifying, and he had forcefully slipped away from his palm!

This was the first time that the fifth elder had seen such a strange situation in his entire life... ..

The energy dissipated, and the other party's pale palm naturally held onto his huge palm. In an instant, the fifth elder felt as if he had fallen into an ice cellar, and a chill that came from deep within his bones spread throughout his entire body, in an instant, his muscles stiffened to the extreme!

At the same instant, the Qi and blood in his entire body dissipated. When he faced that pair of pitch-black, light-absorbing pupils again, an endless amount of negative emotions welled up in the fifth Elder's heart. After landing on the ground, his leg muscles couldn't even make him stand up.., he immediately knelt down!

What is this...

The fifth elder stared blankly at the spot. He did not want to face that pair of black pupils, but the more he did not want to face them, the more he could not shift his gaze away. It was as if he was being sucked in by a magnet. The negative emotions in his heart grew stronger and stronger... It made him unable to muster even a sliver of strength...

If it was not for the other party pulling him by the hand, he would probably be lying on the ground like a pile of mud!

At this second, he suddenly realized what that negative emotion was...

It was fear!

This child... What the hell was that?

"Uncle..."the owner of that pair of pitch-black eyes suddenly grinned. His smile was sweet, but in the eyes of the fifth elder, it was like an evil spirit baring its fangs. ...

"It's not right to hit a junior so hard... Don't you think so?"

"Yes... yes..."the fifth elder replied almost subconsciously. At this moment, he had completely lost his courage. At this moment, he would say yes to anything that the girl said, even if she said that he was your father, right?

The girl smiled and let go of her hand. The coldness in the fifth elder's body instantly disappeared. The warm sunlight shone on his body, and the feeling of having survived a disaster was extremely strong!

"Fifth uncle?"Sansa ran over and helped the fifth elder who could not stand up. She glared at him.

"What did you do?"

Sansa, who helped the fifth elder up, was shocked. She could feel that the fifth elder's back was full of sweat like melted ice cream!

"I didn't do anything..."the little girl smiled innocently and put the pale hand behind her back. "I just helped him..."

Sansa was angry. Before she could say anything, the fifth elder behind her said weakly, "Go... Go quickly..."

Sansa was stunned and didn't say anything. She glared at the fifth elder and helped him walk out.

"Big Sister..."Nicole reacted and shouted.

"I don't Dare!"Sansa said coldly, "I don't have a promising sister like you!"

Nicole:"..."

After saying that, Sansa ignored him and continued to walk out with fifth elder. When they were halfway out, she suddenly stopped. "Nicole..."

Nicole quickly said, "Yes, big sister..."

"Father took you out and gave you a lot of good things, didn't he?"

"Um..."Nicole was stunned. She didn't expect him to suddenly say this... ..

"Ugh... this... I don't have anything good..."Nicole didn't know what to say for a while... ..

Her father had given her some special resources when he took her out of the glorious amethyst star. For example, he had given her a place to cultivate as a spiritual master and a spiritual tutor. However, these things weren't really good... Compared to the quality of the glorious amethyst star, they weren't really an advantage. She could only say that they were very suitable for her...

"As expected..."

But before she could say anything, she saw Sansa lowering her head, her face always wearing a cold and mocking smile.

"I always thought that my parents were men, which led to us two sisters being like this..."

Nico looked at her in a daze. Had her big sister figured it out at the critical moment. That was really... ..

"It turns out... I was the only one who was belittled... haha..."

Nicole:"..."

She knew that her sister would never have normal thoughts... ..

Just like that, Nicole stood rooted to the ground with a complicated look on her face as she watched her sister leave with fifth elder.

"Is that your real sister?"Guo Xiaoyun leaned over and asked.

"Yes..."

"There's something wrong with your sister's brain. Stay away from her if you have nothing to do. You'll become stupid after hanging out with such a fool for a long time..."

Nicole:"..."

"By the way... What's wrong with you?"Nicole changed the topic. She didn't want to talk about her sister, who she couldn't understand, so she asked what she wanted to know... ..

"What do you mean, what's Wrong?"Guo Xiaoyun said innocently.

If it weren't for her black pupils, Nicole might have been affected by his innocent expression... ..

"How did you do it?"Nicole narrowed her eyes and looked at him. "My fifth uncle is a level-13 warrior!"

After level-10, there was a huge gap between each level of life. There was a huge gap between a level-13 life form and a level-10 life form.

For example, a level 13 warrior could already serve as a planet marshal in the hands of some minor deity lords, while a level 10 warrior would at most be a colonel-level general... The difference in value was at least 10,000 times. ...

The difference in ability was about the same, but just now, fifth uncle did not even have the strength to resist in this guy's hands... ..

The most important thing was not a tactic. If I didn't see wrongly, it seemed like he just touched it with his bare hands and it became like that... ..

"This..."Guo Xiaoyun smiled. "Your uncle must be old. Look, I told you that I'm very powerful, didn't I?"

Nicole:"..."

"Forget it..."Nicole snorted, turned around and walked to the other side.

Guo Xiaoyun quickly followed behind her...

She was calculating the results of the test...

There was a limit to three levels higher...

Guo Xiaoyun looked at her pale palm. As she stared at it, the color of her palm slowly returned to its original color, and the darkness in her eyes slowly disappeared.

It was dangerous to use it, so she couldn't use it often...

Unfortunately... .. That uncle could not be considered a standard level-13 warrior. Whether it was his qi, blood, or battle experience, he should be at the bottom. He was far from being comparable to some guards of the same level in the academy... ..

Next time, she should choose a more reliable test subject. This was too much of a waste of energy...

Chapter 1550: "Master Gui Misses You..."

"What's going on?"

Gunsh, who was changing into a suit in the front hall and preparing to welcome Lord Bolton, was stunned when he saw the half-dead look on the fifth elder's face. He quickly asked.

Wasn't he fine just now? How long had they been apart? How did he become like this when he went back and put on a suit?

"It's all my fault..." Sansa said apologetically, "Fifth uncle is like this because of me..."

"Ah?" Gunner suddenly felt that he couldn't think straight. He asked suspiciously, "What happened?"

Sansa gritted her teeth and finally said, "Nicole attacked me. Fifth Uncle became like this to stop her..."

"This is outrageous! !" Gunner immediately slammed the table after hearing that and scolded angrily, "You think you're going to soar to the sky just because you took the exam to enter the Blue Spirit Academy? You actually dare to fight with your elders! !"

Sansa's expression instantly froze...

What Academy?

That Girl Nicole... ? ... actually took the exam to enter the Blue Spirit Academy?

The federation's Top Spiritual Master University...

...

Ha...

Good... very good...

First, she got into the starry sky university in the morning and then Nico got into the Blue Spirit Academy. In the past, many people said that her father had secretly stolen a lot of resources from the

family when he was the patriarch. She didn't believe it at first, but now it seemed that she hadn't run away...

If it weren't for the massive amount of resources, how could chenye and Nico have such achievements?

As expected...

I'm really an outsider...

"But... did Nico do this?" Gunsh finally asked suspiciously after cursing.

Since fifth brother became the family manager, it had been a long time since he had trained to improve himself. The warrior system was different from the spirit system. A warrior's path forward was like sailing against the current. If you didn't advance, you would retreat. When your body had reached a certain biological level., however, you stopped exercising. However, your appetite and all other aspects would not decrease. Excessive energy would instead become a burden on your body, causing your lifespan and functions to rapidly decline!

When Laowu was at his peak, he had almost half a foot into the threshold of level-14. However, if they were to really fight now, it would be difficult for him to fight against a warrior at the peak of level-12.

However, even though Laowu was useless, it was not something Nicole could deal with, right? How Old was that little girl? She was only a level-seven life-form, right?

But Nicole was just a little over a hundred years old, and a level-seven life-form was already qualified to be a direct descendant of a high-ranking noble. Gunsh was extremely jealous when he learned about Nicole's information... ..

But it wasn't like fifth couldn't deal with her?

"How could Nicole have the ability?" Sansa sneered. "She instigated that classmate of hers to hurt fifth uncle!"

"What? ?" Gunner stood up in surprise when he heard that. He quickly looked at fifth elder. "Fifth, you didn't hurt anyone, did you?"

What a joke. A classmate of the Blue Spirit Academy could hurt fifth elder to such an extent. He was definitely a descendant of a big family. It would be fine if fifth was injured, but if he hurt someone, it would be a big deal!

Fifth elder smiled bitterly and said weakly, "Big Brother, don't worry. Look at me, do you think I can injure someone else?"

Gunsh immediately heaved a sigh of relief upon hearing that. He then turned to fifth elder and asked, "Are you alright? Do you want to get a doctor to come over and take a look?"

"I'm fine...". "I'm much better now. It should be a negative spirit attack. There are no external injuries, so there's no need to get a doctor. I'll be fine in a moment. The other party is most likely from a powerful family, so he knows his limits and didn't go too hard on me." "... .."

GUNSH nodded and asked, "Do you know which family he's from?"

"I don't know..." "..." "..." the fifth elder shook his head and said, "But I'm afraid his background isn't small. A 100-year-old's growth ring is already a level 10 life form. Not only that, when he crossed ranks to deal with me, I actually didn't have the ability to resist at all. It's probably some top secret technique..." "..." "..."

Hearing this, uncle was shocked. A 100-year-old level-10 life form was probably not a member of the Royal Family!

So, he quickly said, "A member of a big family is naturally not something that our family's heritage can compare with. It's not difficult to jump levels with a top secret technique..." "..." gunsh nodded. "Ask someone to treat him well later. Don't offend him..." "..."

"I got it..."

Sansa was stunned by their conversation. She was surprised to find that both uncle and uncle seemed to care more about whether they would offend Nicole's classmate. They didn't even care that her uncle was injured... This made her feel complicated... ..

She had always been a sensitive person, so she could easily guess her uncle's concerns. Most of the geniuses in the Blue Spirit Academy were nobles, so it was normal for them to be afraid of hurting others... ..

But the first thing she did after being injured was to worry about whether she would offend the other party. This made her extremely emotional... ..

Power was really a good thing...

When she thought of this, she felt even more resentful. She was almost 300 years old, yet she hadn't even been admitted to the academy... .. And her silly little sister had already been admitted to the top-rated academy. She had gotten to know a classmate that even her uncle and fifth uncle didn't dare to offend... ..

Ha... it was really funny when he thought about it...

Did his parents really not like him that much? Even if they had given him some of the resources for Nicole and Chenye, he wouldn't have ended up like this, right?

Gunsh asked a few more questions. After making sure that fifth didn't hurt him, he breathed a sigh of relief and said, "Since you're not in a good state, I'll go welcome the guests myself later. You should rest well..."

"Okay, Big Brother..." fifth elder nodded with a wry smile.

Of course, he wanted to show his face to Lord Bolton as soon as possible, but with his current appearance, he would only be embarrassed if he went. He could only recover at home and wait for dinner to see how he performed... ..

"Uncle, I want to go with you..." Sansa said quickly.

She couldn't count on her parents anymore. Nicole's classmates obviously didn't like her. She couldn't accept that she had to stay and entertain Nicole's classmates.

And now, the only one who could help her turn the tables was cousin Ryan... ..

She couldn't wait to see cousin Ryan...

Gunsh glanced at Sansa, hesitated for a few seconds, and finally nodded.

Gunsh didn't believe Sansa when she said that Nico attacked her. Although Nico didn't come back often, he knew her character. She always kept a respectful distance from Sansa. Only Sansa would take the initiative to find trouble, why would she take the initiative to attack Sansa?

It was probably because Sansa attacked her own sister out of jealousy. Her classmates didn't like it, so they took care of her and Laowu... ..

If Sansa was left here in such a situation, she might cause some trouble again. It would be bad if she offended that nobleman.

Moreover, it was a critical moment now. Everything had to be based on the presence of the Bolton Force. There mustn't be any disturbances... ..

Gunsh smiled gently at Sansa at the thought, "You should take care of it a little. Your eldest cousin hasn't seen you for a long time..."

"Okay!" Sansa smiled when she heard Rennes.

— — — —

Achoo! !

On a huge transport ship in the outer space belt of the glorious amethyst star, our Lord Rennes sneezed several times. Burton was speechless. "Do you have a cold?"

"Someone must have missed me!" Rennes put his hands on his hips, feeling proud!

"Hehe..." Burton rolled his eyes at him. How many months had this guy been born? Only a few people knew him, and Grandpa Ghost Missed You!
