

A Bunch 1571

Chapter 1571: Land Grab...

“Your Majesty...”

After the meeting ended, a group of high-ranking nobles from the bronze race remained in the Parliament Hall. The atmosphere was even more depressing than when Queen XI was present. After all, they were still in a diplomatic state just now, and the conversation was quite lively. However, after they left,. All that was left was to think about the pros and cons... ..

The first to break the silence was still the leader of the Holy Light Legion, Bourne. At this moment, his brows were tightly furrowed, as if he could not understand what was going on.

“Why did that Lord choose such a place?”

That was why everyone was frowning. The reason was because of the negotiation just now...

During the negotiation, Queen XI’s attitude was good. She was willing to let the students of the Tyree Fassen Academy help the Bronze Academy win the championship and obtain the first choice of the ancient lands. She was even willing to let her own disciples test and exhaust the bronze race’s greatest opponent, that was: Starry Sky Academy!

Moreover, she also expressed that she would try her best to cooperate with them in the negotiation of the battle plan. This attitude was completely out of their expectations. After all, even though the northern star field was not welcomed.., however, everyone had witnessed the achievements of the Tyree Fassen Academy since its establishment. Their strength was there, so they had not expected them to be so willing to cooperate.

Especially after what had just happened...

Because in the previous years of the crown prince, due to the fact that the members of the royal family had joined, the combat strength of the various royal academies had far surpassed their usual level. If the other academies wanted to ensure their ranking, they basically could only cooperate with the five great royal families, this was the confidence of the Royal Academy!

However, this time was different. Their greatest trump card had already been lost through what had just happened!

That battle just now... . It wasn’t a simple battle between the younger generation. If it was placed in the current situation, it was practically a matter of bargaining chips. The crown prince had lost, and that Bronze Academy’s overall strength was already inferior to Tyree Fassen Academy’s. If they wanted to use someone else as a support.., it would be very lacking in confidence!

Not to mention that they still had other trump cards that they hadn’t used yet. The previous dark horse, Demon Star, with the appearance of a new recruit, he had practically swept away the battle prowess of many of the academy’s old-timers back then, a lot of old-school strong almost graduated under that dark horse capsized ship!

In the end, it was the veteran of the Federation Academy who won the championship all year round that barely suppressed the other side.

But this year, many veterans have graduated, including the previous champion, that is to say, from the strength of the paper, the students who participated in the last interstellar fellowship, Demon Star... . The Best!

Now, with the Black Dragon Pup, Queen Hsi's bargaining chip is huge!

But the other side did not seem to use this bargaining chip, the negotiation process is very smooth, so smooth that they wonder if they just heard wrong... .

Now the only doubt is the other side asked for the location...

According to the other party's request, after winning the championship, the Bronze Academy's selection of the ancient lands board must include one of the pieces that she had specified, and that piece of land must belong to their Tyrifson Academy!

After hearing this request, Minny did not immediately agree just because the previous conditions were too good. Instead, she cautiously asked her subordinate Grand Maester who was studying the ancient lands to provide a reference.

At this moment, Minny looked at the information provided by his subordinates and didn't say a word for a long time... ..

It wasn't until Commander Bourne asked him that he hesitated and said, "According to the information provided by Professor Klein and Professor Bithryn, this area is the intersection of the Black Storm and the ancient forest. It's an unexplored area, and it doesn't conflict with the ancient forest that we want to fight for. We can completely annex it... " " " "

Hearing this, everyone's brows relaxed slightly, but some of the elders were even more confused...

The dignified Tyrefson Academy had brought so many chips this time, yet their target was an unexplored piece of land? This could not help but make people suspect the other party's motives!

According to the rules set by the Dean of the Heavenly Gods Academy, the rules of the Interstellar Fellowship were that the ancient lands would be allocated once every ten years, based on the overall ranking of the students from the various universities in this fellowship.

The top 100 universities were all eligible to participate in the allocation... .. However, the allocation of the places had to be based on the ranking... ..

The rules were that the ranking would determine the right to choose. The first place would have the right to choose first. Once a piece of land was chosen, then in the next ten years, only the main forces of the academy would be able to enter this piece of land!

The ancient lands were extremely huge and had yet to be explored to this day. Therefore, many pieces of land were unexplored, but very few academies would choose such a piece of land... ..

The reason was very simple, because the benefits were unknown!

The explored lands, such as the currently hot ancient forest, contained many ancient life forms' genes, materials, and all sorts of rare elemental crystals that could be mined, moreover, there were also many excellent lands that could be provided for life sea-level powerhouses to cultivate!

It was a golden land that many academies wanted to occupy, especially the elven civilization-based Starry Sky Academy, the Bronze Academy and the Divine Arcana Academy that needed forging materials the most. Almost every time they met, they would fight for this land!

Compared to the known piece of land, it was hard to say what was inside the unknown piece of land. Perhaps they would find a better place than the ancient forest, such as the Sea of eternal night, which the night demons had found, many of the resources inside were more suitable for them than the ancient forest. Therefore, after discovering that piece of land, every time they met, the Night Shade Academy, where the night demons were, would treat that piece of land as a place that they would fight for!

However, it was also possible that they would have nothing at all. They would have wasted their quota and ten years of mining time for nothing. On the contrary, they would have fallen behind the other factions by ten years for no reason... ..

Therefore, if it was not absolutely necessary, most of the highly ranked academies would not choose to explore the unknown region. After all, the known piece of land already possessed extremely rich resources. There was no need to take the risk.

"Your Majesty... There must be something wrong with that place..." someone at the side finally could not help but say.

"Nonsense!" Mani could not help but swear. "They have so many chips, of course there is a problem if they want that place by name!"

"Then... Should we ask for a share?" Someone at the side said, "Anyway, they are the ones who took the initiative to ask for an alliance with us..."

"If it was before... maybe we can talk about it like this..." mani sighed. "Now..."

"Now they won't pay attention to that place, right?"

In the bedroom, Queen XI, who had returned, was discussing the negotiation with the first lich, guling, and the fourth lich, Malzaha... ..

Gu Ling was silent as usual, but Queen XI was also used to it. She was brewing a fragrant new tea and said slowly, "I don't think so..."

Malzaha nodded. "Even if we tell them that there are good things in that plot of land, the other party wouldn't choose to negotiate with US forcefully when the risk is unknown. To be honest, this little guy came just in time..."

Queen XI smiled. The Little Guy was naturally the dragon cub of the Templar family... ..

To be honest, the Templar family was pleasantly surprised by this trip!

Demonic Star was originally used as a bargaining chip, but it was not easy for demonic star to win against the bronze crown prince. Moreover, it might not be as convincing as it was now.

After all, Yao Xing was already an old student who had grown up in the ancient lands for ten years. On the other hand, the bronze crown prince had just come of age and had yet to step into the ancient lands. The resources they enjoyed were not on the same level, the Crown Prince's ten years of growth in the ancient lands was very fast. As long as there were no problems, most of them would be able to step into the dragon-level with half a foot!

This was also one of the reasons why the previous crown princes were invincible. They hadn't even graduated yet and already had half a foot in the dragon-level. How could the student faction be a match for them?

However, this time, the other party's crown prince had lost to a junior with even lower growth rings. That was very convincing...

After all, there was an ancient land in the Tirefarson Academy. If the little guy who had defeated the Crown Prince also went in to cultivate for ten years, who knew that he would definitely not be able to defeat the Crown Prince?

There was indeed no such example in the past, but there had never been an example of a junior of the same age being able to suppress the crown prince... ..

Even a top-tier deity like Muradin had been beaten up by the first bronze emperor when he was young... ..

Naturally, the bronze academy did not wish for such a lightning bolt to appear anywhere else, especially at their old rival, the Starry Sky Academy!

Malzaha said, "The Starry Sky Academy has always wanted to fight for the ancient forest. It will definitely be the same this time. They know very well that if they force us to the other side, the situation will be very disadvantageous. Indeed... "...". The Starry Sky Elves were very resistant to the undead, but with that little guy as a card, even if the other side was against it, they would still choose to ally for the sake of benefits... "...". As long as the higher-ups of the bronze family thought this through, they wouldn't take the risk... .. But.."

Malzaha narrowed his eyes and looked at the sleeping dog egg upstairs. "I didn't expect that the little guy could play so beautifully..."

Queen XI smiled. When she first saw the little guy in the Templar clan, she knew that the plan would work. As long as the little guy performed in public, she wouldn't worry that the juniors of the bronze clan wouldn't take the bait. After all, that Kid Kurdistan was raised by Muladin. She could roughly guess his personality... ..

As for the question of whether he would win or not, she didn't think that he would lose from the start... "...". How could a little guy who dared to bare his teeth at her lose to a pseudo-royal?

The situation of the little girl was probably difficult even for those authentic princes in the era of the great elves, not to mention those imposters now... ..

“Sir...”the first lich who hadn’t spoken all this time spoke. “Isn’t this way of doing things a little too heavy? After all, the secret of that position... can not be exposed...”

“There’s nothing we can do...”Queen Xi sighed, put down the Teacup in her hand, and looked at the sky with a gloomy gaze. “We don’t have time anymore...”

Chapter 1572: That’s why you guys look like players... ..

Wang Xiaojia... Wood Elf was really 21 years old and one of the experimental subjects in the base who had undergone the second round of genetic surgery. The current situation was still uncertain. Excellent fusion rate, growth rate: number one. ...

At this moment, in the dormitory, Alice looked at Wang Xiaojia’s information form and carefully compared it with the others...

“What is this?”

Feng Doudou came back at an unknown time. His flushed face was directly stretched over, curiously looking at the screen... ..

Alice frowned and pushed the other party’s head away from her in disgust. “What’s the matter with you? Your body is as hot as a furnace?”

Undead liked to be cold and gloomy. They would have a sense of repulsion toward such a creature with strong qi and blood. Although with the cover of the genetic body, Qi and blood could no longer deter the soul, the instinctive repulsion would not be less... ..

“I just trained, it hasn’t cooled down yet...”Feng Dou laughed. Stretching his body, the bones all over his body started to crackle. As an agile life form, Feng Dou’s body training was extremely smooth. It looked beautiful, but at the same time, it was filled with a wild explosive power. ...

Alice’s eyes narrowed. When she looked at Feng Dou’s body, there was a flash of heat in her eyes. However, she was instantly covered by that cold and darkness, as if nothing had happened.

“Is this a physical examination form?”

Feng Doudou looked at the screen curiously. “Body size, weight, energy density, bone and bone energy distribution, genetic compatibility rate, and even basic attributes... F * ck! Wang Goudan’s attributes are so high! !”

In the information form, Wang Goudan’s summary of strength and endurance burst energy cards directly exceeded two thousand, and his agility control system was above seventy-five...

“Duck...”Feng Doudou’s eyes widened. “Did this strength increase after the modification surgery? It’s twice as much as Pu Yunchuan’s!”

She remembered that in the base’s test before she came, Pu Yunchuan’s strength attribute was the best among their group. His energy was around 1,100, while hers was around 400... ..

However, she was an agility warrior, so it was normal that her strength burst was not as good as the Titan players. Although PU Yunchuan's strength burst was high, his agility control system was only around 35. It was very rare for him to be able to control his full strength burst.

However, she was different. Her agility control system was above 85. Most of the time, she could control her full strength burst a little... ..

After Wang Goudan's surgery, the stats on the light wheel panel were probably the best among the players... ..

"This is a bit exaggerated..." Feng Doudou took a deep breath and said, "This kind of strength card can guarantee dexterity above 75? Is this data really true?"

Alice curled her lips when she heard this. Her fingers moved, and she operated on the screen. Immediately after, a video of the experiment appeared on the screen.

On the screen, Wang Goudan's black dragon scales spread out all over his body. In an instant, he sprinted with all his might, and his speed instantly soared to the speed of light. The surrounding space was distorted because of this, but in an instant, in less than 0.04 seconds., Goudan suddenly braked in midair. He didn't use any external forces, and the impact caused the entire space to explode. However, the control that he displayed in an instant made Feng Doudou suck in a breath of cold air once again!

In terms of agility and control, the highest records in the base were Li Goudan and himself. However, because the two of them didn't have a high number of power cards, their comprehensive control abilities were on par with the cold stars of the Green Titan... ..

However, to be able to control the power of 2,000 cards with such precision, Feng Doudou immediately felt a little envious...

This was like driving a car. Since he was driving a small car, it was naturally much easier for him to drift around the corners. The other party was a bus, and they were on the same level as him. Clearly, something wasn't right... ..

"Is the surgery that good? I want to do one..." Feng Doudou couldn't help but say.

"There's no need for that..." Alice looked at the information sheet and said indifferently, "Your evaluation score is not below Wang Xiaoja's. Her Dragon Race's basic talent is strong, but it also has flaws..."

"What flaws?" Feng Doudou asked in a daze.

The strength card number was several times higher than theirs. Even the most outstanding Titan couldn't compare to her, and her agility was so high. She couldn't see the flaws at all...

"Her learning of battle tactics is very incompatible..." Alice said faintly, "In your batch of players, the learning speed of skills is not slow. Even the less talented emperor of the liver, after spending a little more time, the learning speed is far faster than many of the students here. However, Xiaoja is different. After she switched to the Black Dragon bloodline, it was as if she had lost her learning ability. Other than the skills of her race talent, the skills of the outside world are basically unusable. She can only rely on her own high-intensity basic attributes to fight "...". "..."

“Eh?” Feng Dou Dou was stunned. “There’s such a thing? Eh, that’s not right. Wasn’t the speed at which the dog balls learned the techniques earlier quite fast?”

She had a very deep impression of the two dog balls. After all, their online names were tough and their personalities were more likable. Although they weren’t very good friends, they still got along very well. She clearly remembered that.., the speed at which the two dogs learned techniques was only inferior to Leng Xing and Chen Yu Tong in the base. How did it suddenly become that they couldn’t learn techniques?

“I said...” Alice said in a low voice, “After switching the black dragon genes, she couldn’t learn battle techniques...”

“There’s such a Thing?” Feng Dou was stunned, but then he said, “Oh right, can she keep switching?”

“Yes...”

“Isn’t it fusion?” Feng Doudou was a bit curious. When the natives in the base underwent biological surgery and evolved, it seemed that their genes would fuse. For example, if the Tauren wanted to evolve the rhinoceros gene... After the surgery, most of the body’s characteristics were the rhinoceros. The previous genes would exist in small amounts, forming a kind of scuttling feeling...

“No...” Alice shook her head. “It’s completely independent and can switch at any time. After switching, many things will change. Not only will its attributes change, its personality will also change... haven’t you noticed that dog egg, who has become a black dragon, is a lot more irritable?”

“I think so... it turns out that you can switch back...” Feng Doudou became more and more curious, then, he suddenly thought of something and asked, “Since you can switch back at any time, then you can learn techniques in elf form. Fighting in dragon form is simply a Bug!”

“It can’t be...” Alice shook her head. “As I said earlier, after switching, it’s like changing a system. There’s no way for the two to interact at all. The techniques learned in elf form can not be used in dragon form at all!”

“I go... . This is too much?” Feng Dou Dou was startled: “This is a bit too much, why feel a bit like...”

“Does it feel like a game changer?”

“Hey... right, right, right!” Feng Dou Dou repeatedly nodded.

“That’s why... .” Alice smiled faintly. “Why do I keep calling you players? Don’t you think it’s similar?”

“You guys use whatever genes you have, and dog egg can directly switch between two without interfering with each other. It gives people the feeling... “Isn’t it just like using a game account?”

Feng Doudou:” ...”

“Have you ever thought about it?” Alice suddenly stared at Feng Doudou. “You guys... are actually very abnormal?”

Chapter 1573: the envious Feng Doudou... ..

“You pervert, you’re the one who’s abnormal. Your whole family is abnormal! Who else can be more abnormal than you, a guy who crawled back from the world of the Dead?”

Somewhere in a small path in the bronze academy, Feng Doudou held a stone beside him and vented his anger. He used his strength very lightly, and the hard stone bounced back and forth like a soft ball under her kick...

The reason why he came outside to vent his anger was because he didn’t want to confront someone face-to-face. The main reason was that this dead zombie’s words were too harsh... .. Alright then... .. It was too scary. What did he mean by “Don’t you think that you people...” Aren’t normal?

F * ck your mother...

Feng Doudou sighed and covered his head. He tried his best to vent his emotions on Alice’s words, but in his heart, he subconsciously avoided the contents of the other party’s words...

In fact, What Alice said, she had her own thoughts in the depths of her heart...

Her identity was different from the dogballs, she wasn’t a pure player... .. Pooh, what player. Not a pure free agent, but someone who wanted to help her husband... .. In other words, central China’s officials came to the universe to collect some basic common sense data...

But the more they collected, the more she felt that something wasn’t right...

Because based on her observations over the past few days, these natives from sphere D were indeed very different. Their talent... .. Was too strong... .. Especially after coming into contact with the basic knowledge of genetic tolerance rates, she deeply realized what those over 90% tolerance rates on sphere D represented...

It wasn’t that the natives didn’t have this kind of probability, but it was usually very rare. There might only be one or two on a planet, and they only corresponded to certain bloodlines with extremely high tolerance rates...

It wasn’t like on Sphere D, where all of them had a high tolerance rate, as if... This group of people was specially created to use the genes of the universe’s ten thousand races as a template. ...

Hiss...

For some reason, when Feng Doudou thought of this, an inexplicable chill rose from his body. After a shiver, he would instinctively avoid it... ..

Even if this thing was one of his missions, she would subconsciously avoid it. She couldn’t explain it clearly... ..

Just as she was depressed, Feng Doudou’s ears moved. He seemed to have heard something. He carefully leaned forward and listened carefully... ..

It seemed that... someone was practicing techniques?

It was rare for something to suddenly change her depressed mood. Feng Doudou immediately followed the accident and moved closer. His body was as light as a swallow. In an instant, he climbed onto a huge tree trunk and quickly rushed in the direction of the sound.

The reason for rushing on the tree was firstly because it had a good view from a high altitude, making it easier to find the location by listening to the sound. Secondly, it was because the thick and sturdy tree trunk was easier to not make a sound than the ground that was full of leaves.

Although the planet of Nomorrigan was a man-made steel star, the ecology was very good. The trees that were planted were all high-level trees. However, unlike the space elves who liked delicate and rare trees, the bronze race preferred thick and sturdy trees, the introduced species were all the highest grade dragonbone ironwood in the federation!

The branches and leaves were thick and solid, resembling steel pillars. They were vigorous and majestic, but also stable. They were very suitable for jumping and traveling. Feng Doudou felt that the feeling of stepping on them was more comfortable than the feeling of stepping on the ground... ..

Very quickly, Feng Doudou found the source of the sound. It was still a hundred meters away. With the height of the trees and his outstanding vision, he could clearly see the gorgeous fiery-red light in the distance!

It was the sword light!

Feng Doudou narrowed his eyes and immediately saw it clearly. The gorgeous fiery red light was layered on top of each other like the Milky Way in the galaxy. It was beautiful and smooth, with a magical pattern. It was extremely cool, and at the same time, it gave people a sense of ecstasy!

This was because those with fast eyes could more or less see it clearly. This gorgeous fiery Red Storm was formed by sword shadows!

“Amazing!”

Feng Doudou’s eyes almost popped out of their sockets when he saw this cool sword technique!

After coming to the Advanced Academy, she felt that the biggest difference between her and the other students was the inheritance from her own family.

The items that the Lord had given them were all from the federation’s Street stalls. They were the simplest and most simple sword techniques. Although there was a kind of realm called “Turning complexity into simplicity”, it was still a situation where there was a big gap between them. Under the same level., the gap between low-level techniques and high-level techniques was still very large. Otherwise, why would those large families be able to stand for thousands of years?

That was because they had a monopoly on actual combat power...

As a poor B * Stard who only had 500 federation coins to live on and had to support Alice, Feng Doudou expressed that he was very cautious even when it came to daily necessities, let alone buying top-tier combat techniques. Furthermore, he could even sell them., most of them were not top-notch either.

Looking at the noble-born children using incomparably gorgeous battle techniques, Feng Doudou was actually very envious... .. Every day, she was looking forward to the start of school as soon as possible. Her teacher would teach her some of the special techniques of higher education institutions... ..

Although she knew that the things that the school taught publicly were not the best, it was still much better than what she was using now, right?

She had already made up her mind. After school started, she would go and curry favor with the teacher who favored her the most. As her direct disciple, she would take as many good things as she could... .. Hehe... ..

Putting aside the future, it was rare for someone to practice battle techniques in such an open space today. She had to peep... .. cough. she had to watch a wave of it. ...

After all, the disciples of the big families were very careful when practicing techniques. They even had to pay to rent a private practice room. Bah, a bunch of rich dogs... ..

The person in front of him was obviously a practical person. He knew that practicing in the wild was the right thing to do. It was economical... ..

Feng Doudou carefully sneaked closer and found an extremely good position to peep... Cough. observe... ..

“Pay attention to the rhythm of your breathing...”

A clear and cold voice was heard. It was obvious that he was instructing the student who was using the cool sword technique. He looked handsome and steady, and there was a hint of rigidity and coldness. He was the type that he liked... ..

Feng Doudou was slightly smitten for a moment, but he took a step back very carefully. The ones in the academy who were qualified to guide the students' battle techniques were all star-ranked instructors. Their strength was at least comparable to Master Eggface. He was afraid that he had already been discovered... He had to keep a low profile... ..

“Keep your thoughts and actions in line, and your breathing will not be chaotic. Don't pay too much attention to the complicated type 14. Follow the thoughts that you have comprehended. Even if the sword type is chaotic, it's still better than having your breathing chaotic...”

On the other side, it was obvious that he had understood his instructor's words. The red light screen in the sky started to become a little more carefree, like wild grass that was dancing wantonly.

“Oh...”

In the distance, Feng Doudou's eyes lit up. He looked even more serious, and his breathing became a little faster!

This technique was too amazing. It was even more brilliant than the godly edge that her teacher had used by chance. Moreover, it was extremely beautiful. She felt that it suited her too much. If she could have a set, she was willing to use her one year's living expenses to exchange for it!

Just as she was engrossed in watching it, the myriad of sword rays suddenly stopped. The entire red light instantly dissipated like rays of sunset... ..

In the hazy light screen, a red-haired girl took a slight breath and calmed her breathing. It was obvious that she had used an extremely brilliant breathing technique. In just an instant, she had fused herself with the surrounding elemental energy, becoming extremely natural... ..

“Not bad...”the man smiled and nodded. “If your physical strength is a little stronger, you should be able to do better... looks like I need to do some endurance training. Don’t find it boring later...”

“Ha...”the red-haired girl smiled and said, “There are so many experts around now, how would I dare to find it boring?”

“It’s good that you know!”The man opposite her said coldly.

“Master, you don’t have to suddenly become so serious... can’t you see that I’m already working very hard?”The red-haired woman said with a flattering smile. However, she then slightly moved her wrist. The slender tip of the sword in her hand quickly danced in the air, forming a beautiful line that formed an extremely small red tornado... ..

“I don’t know why I’m in a particularly good condition today...”the red-haired woman sighed and said, “I don’t know if my hands will be so hot tomorrow...”

“Since my hands are hot, let’s find someone to practice with...”the man suddenly said.

“Master, do you want to practice with me?”The red-haired woman was immediately eager to try!

“It’s not very useful for me to practice with you...”the man shook his head. “Because you have a reliance, a very good passer-by happened to come. Let her practice with you...”

The red-haired woman:“? ? ?”

Chapter 1574: You’re too modest...

Damn! I was still seen...

Feng Doudou felt his scalp go numb. He was about to leave, but in the next moment, he was held in the red-haired man’s hand like a puppy... ..

“Hehe...”Feng Doudou curled up into a ball, he scratched his head in embarrassment, he looked at the red-haired woman in front of him, who was a little stunned, and said with a smile, “That... I didn’t mean it. I really just happened to pass by. Your dance was too beautiful, so... I couldn’t help but take a few more looks. I have four...”

The red-haired woman:“...”

The woman was naturally the crown prince of the Red Lotus clan, His Highness Ming. At this moment, she was a little stunned when she saw the little doll that her sword master had caught back... ..

It wasn’t wrong to say that the other party was a little doll. That was because the other party’s growth rings looked even younger than hers. She was only about seventy years old, but her level wasn’t low...

He was already at level nine. He was definitely at the level of a direct descendant of the royal family...

Were there so many geniuses this year?

Ming was somewhat speechless as he looked at the other party. "Where are you peeping?"

"I'm not peeping anymore..." Feng Doudou firmly refused to admit it. "I'm just passing by, just passing by..."

Feng Doudou understood the rules. These noble skills were all secret techniques. If someone intentionally stole them, he could be punished. According to the federal law, he could be punished privately. Of course, Feng Doudou understood what private punishment meant... ..

If he was a little crazy, it wasn't impossible for him to turn himself into fertilizer to water the plants... ..

"A hundred meters away..." Mr. Jian said faintly, "Your vision is very good, and you have a talent for hiding. Not to mention that you were focused on practicing your sword just now, even under normal circumstances, you might not be able to notice..."

"Hiss..." Ming narrowed his eyes slightly. Although he knew that his master was deliberately provoking her, his heart couldn't help but sink... ..

The most important thing was the other party's pupils...

Wood Elf... Another Wood Elf!

And another wood elf with an extremely high purity bloodline!

"Which family are you from?" His Highness the underworld couldn't help but ask.

"I..." Feng Doudou's heart instantly tightened, and he thought to himself, the other party is definitely going to probe the bottom. If I say that I'm from a trash family, the other party will definitely treat me as trash and get rid of me... ..

"En... I'm from the Shadow Song Family! !" Feng Doudou quickly pulled a big face. "Furthermore, it was recommended by the Bottom Heavenly God faction. Don't do anything rash! !"

Li Goudan's master was from the Shadow Song family. It was said that they were a powerful family. The Bottom faction was a great heavenly God faction after all. The other party should... .. Be a little afraid, right?

"The Shadow Song Clan Will Nurture Wood Elves?" His Highness the underworld frowned slightly.

"Who's Burton?"

Jane said, "He's a small lord in the Eastern Star Field. He's the Lord that the Abyss faction promoted. Recently, he's been rising very quickly..."

Feng Doudou:" ..."

I miscalculated... So Burton was just a piece of trash?

“Oh...” His Highness the underworld nodded slightly. “It’s him. Heh... he’s actually related to the Shadow Song Clan? He’s not simple at all. Don’t the Shadow Song Clan Hate Demons the most?”

Feng Doudou:”...”

Next time, he should listen to Alice’s advice and learn more about common sense. She was able to pull off such a blunder even if it was a big story... ..

Since he couldn’t explain it now, Feng Doudou could only bite the bullet and remain silent...

“Little guy...” ming smiled and said, “Since you’re also from a big family, you should know that peeping at other people’s secret techniques is a taboo, right?”

“I didn’t... I really was just passing by...” Feng Doudou refused to admit it even if he was beaten to death. Although the other party’s words about being born in a big family seemed to give him some face, Feng Doudou still knew the principle of going to jail for a long time. ...

“Alright... Let’s say what you said is true...” Ming smiled and didn’t say anything else, in fact, she didn’t really care. The Red Lotus form was a top-tier secret technique of the royal family. It was slowly comprehended and organized by many of the royal family’s ancestors. How could it be learned by just looking at it once?

Moreover, it was the fourteen forms that could only be fully used by those of the dragon level?

However, seeing the other party’s guilty look, she had the intention to tease him. Just as her master had said, it was good to find someone to practice when the hand was hot.

“How about this... “...” Little Guy, practice a few moves with me. If you can let me have a good time, I’ll pretend that nothing happened today and let you go. If you let me have a bad time, then today’s matter will be different. You should also know that under such circumstances, even if the elders of your Shadow Song clan came, I still have a reason!”

“Eh...” Feng Doudou lowered his head. This result seemed to be very good... .. I’ll just be a sandbag. After venting my anger, he should let me go... ..

Don’t look at how dignified Feng Doudou was when he was the number one master of Huazhong’s main city in the base. In fact, he was a master who knew how to bully the weak and fear the strong... ..

“Draw your sword...” Ming pulled the distance between them, and the scarlet long sword in his hand shook slightly.

“Oh...”

Feng Doudou honestly took out his backpack in the novice village... .. Uh, no, that fancy sword that Panda beat up on the base... ..

It cost me a lot of points... .. But it doesn’t matter. Now that she knows the points on the base are meaningless... ..

“Huh?”

Ming slightly frowned, as a sword master, at a glance, you can see that the other party's weapon quality is very poor, the craft is also very poor, it seems to be a very miscellaneous forging method...

"Are you sure you want to fight me with this?" Ming's expression instantly turned ugly... ..

"Uh..." seeing that the other party was angry, Feng Doudou immediately put the beginner's sword back and took out a black longsword with a guilty conscience.

This sword was given to her by her teacher at the last minute because her equipment was too shabby. It was already her most precious equipment... ..

Ming's frown deepened. The Black Crystal Sword in the other party's hand was obviously the standard black crystal sword for students of the Bronze Academy. It was a fine piece of equipment for ordinary people, but for noble children... .. It couldn't even be considered a substitute... ..

"Use this one..." Jian couldn't stand it any longer. She directly took it out from her space bag, and an icy blue light that was like a stream of water flew toward Feng Doudou!

Feng Doudou was stunned, and he used the beautiful stream of water to catch it. After catching it, he realized that it wasn't a stream of water, but an icy-blue short sword!

This is good stuff!

The moment he caught it, Feng Doudou felt his blood boil. The genes in his blood became extremely excited because of the quality of the short sword in his hand.

It was like a sharpshooter meeting a good gun, a valiant general meeting a red rabbit horse... ..

The love that came from his bones and blood instantly surged into his heart... ..

I will definitely buy such a good sword one day! !

Feng Doudou's eyes were burning. He didn't feel any strange phenomena caused by the excitement of his bloodline...

Under the activation of Feng Doudou's bloodline, that short sword emitted a faint sword hum. The sound wasn't loud, but if one listened carefully, they would discover that it actually carried a sense of satisfaction... ..

Just like how Red Rabbit met Lu Bu, in an instant, when the Valiant general got on the horse, the horse also took a fancy to that peerless valiant general!

Ming was slightly stunned when he saw this scene. He said in a daze, "You're a weapon spirit?"

"Eh?" Feng Doudou returned to his senses and forcefully suppressed the excitement in his heart. He said honestly, "Eh... mutants... they're not well-liked at home. I've never encountered such a good thing. I'm sorry for making a fool of myself..."

Hearing this, Ming looked at the resonance of the short sword in Feng Doudou's hand. He narrowed his eyes and looked at Feng Doudou seriously. "You're too modest..."

Chapter 1575: I... Have never lost!

Not valued? Are you kidding me?

Ming looked at this little girl who pretended to be a pig to eat a tiger, and the corners of his mouth curled up... ..

Mutants were indeed not well-liked in the orthodox elven families, but this did not include the weapon spirit. This was a high-quality mutant whose status was almost comparable to that of a phoenix. If a phoenix was a natural-born mage.., then the weapon spirits were the elves' Natural-born Weapon Masters!

Their unique talent allowed them to have extremely high weapon proficiency, and they also had a unique talent that other races did not have to change the attributes of their weapons. This was especially true in the highly sensitive job families like windwalker, Shadow song, and the Holy Church, which were good at using weapons. The status of the weapon spirits was definitely higher than that of the Phoenix. Other than the shares of the Orthodox direct descendants, perhaps they could not be given to them, but the resources would definitely not be neglected...

In the Shadow Song clan, there were eleven elders. She remembered that there were two artifact spirits whose status was not lower than that of the direct descendants'Elders!

And it was even more impossible for this little girl to say that she was not valued. Although this little girl was not the traditional Shadow Elf of the Shadow Song clan, her talent was so high that she was probably on par with the royal family. How could such an existence not be valued?

There was also the other party's obviously exaggerated artifact spirit talent...

She knew that her master's Azure Heart was a top-notch sword forged by the Divine Austria clan's master, Gulidan. To be able to resonate to such a degree with such a junior, the other party's bloodline talent was probably not ordinary...

Thinking of this, Ming took a deep breath and very seriously adjusted her breathing to reach her best state...

After these few days of experience, she didn't dare to look down on the talents in the world anymore. After all... .. It wasn't the first time she had seen someone stronger than her... ..

"Um... aren't you going to take a break?"Feng Doudou asked carefully.

"No need..."after Ming used the royal red lotus breathing technique to adjust his breathing, the blood vessels in his body lit up with a scarlet light, and his Qi and blood returned to their best state.

"Please!"

Ming's crimson eyes narrowed, and a fierce light flashed in them. His aura instantly soared!

Mr. Jian saw that His Highness' fighting spirit was high and so cautious, and he nodded his head in satisfaction. To be able to be so cautious even when the other party's level was one level lower than hers, it seemed that His Highness had matured a lot after these few days of experience.

"Oh..." Feng Doudou swallowed a mouthful of saliva. With the other party's solemn stance, this sandbag of his wouldn't be able to escape so easily. ...

Eh... Let's take things one step at a time...

Feng Doudou waved his short sword and directly stabbed towards his opponent.

This simple opening of the federation's basic sword technique made Ming's heart jump. Not long ago, there was a wood elf who also used this simple and unadorned sword technique, causing him to not be able to escape from the shadows!

Ding! !

The two swords clashed, and Ming cautiously used a parry to block the opponent's thrust and observe the opponent's next move. Light Sparks flew out, and the energy of the two formed faint ripples in the air... ...

Ming frowned slightly. The opponent's speed and strength were not bad, but this level... ... It was only aimed at ordinary nobles. It should still be quite a distance away from their level... ...

At the very least, it shouldn't be enough to feed him a move, right?

Ming glanced at his master from the corner of his eye, but he saw that the other party wasn't moving at all. There was still a faint smile in his eyes... ...

This situation caused Ming's expression to change. He immediately parried the Crimson Longsword in his hand and once again exchanged blows with the other party's short sword. At the same time, he took advantage of the fact that the other party had already used up all of his old strength and had yet to use up all of his new strength to cast the 'quake' Spell!

With a loud thud, the other party groaned and staggered back. He even spat out a mouthful of blood... ...

"Cough... No, no, no... I won't fight anymore... I Won't fight anymore..." Feng Doudou leaned against the tree and waved his hands. "You're too powerful..."

Ming frowned slightly and sheathed his longsword. He looked at the other party seriously for a few seconds before saying faintly, "You're acting pretty well..."

Feng Doudou:"..."

Ming: "The action of retreating and the physiological reaction of the injury are very similar to the level of strength I used just now. However, under normal circumstances, the part of the sword that received the most force was abnormally stable. According to your performance just now, even if the sword in your hand didn't directly fly away, it should at least be out of your hand. No matter how bad it is, it shouldn't be as stable as it is now, right?"

“Eh...”Feng Doudou looked at his arm in a daze, it was so stable that it didn’t even tremble. It was just as the other party said. Other than the internal organs being damaged, the arm that was the first point of impact should be the most severely damaged. Even if the weapon was still in his hand, his tendons and meridians should be damaged, how could he hold the sword so firmly?

His acting shouldn’t be so bad, right?

Feng Doudou sighed slightly. Just now... .. Perhaps it wasn’t that he hadn’t considered it at that moment, but the genes in his blood subconsciously refuted his actions... ..

This sword was too good. It was so good that she couldn’t bear to throw it away so quickly, because she knew that if it really left her hand, once the other party took it back, she probably wouldn’t be able to touch it again...

Thinking of this, Feng Doudou subconsciously touched the cold body of the sword...

The icy blue short sword emitted a faint blue light under her touch...

Ming stared at him and said faintly, “See... It’s unwilling. What about you? You’re unwilling to use such a good sword to put on an act, aren’t you?”

Feng Doudou raised his head and looked at him. He was as proud as the sun, so dazzling that she was almost dizzy...

“Hu...”Feng Doudou let out a long breath and slowly stood up... ..

Mr. Jian, who was in the distance, was slightly stunned. He carefully looked at Feng Doudou. At this time, there was a hint of coldness in his breath. Mr. Jian was very familiar with this cold air. It was the unique cold air of the Azure Heart. But at this time, it was coming out of a person’s mouth... ..

“It’s not unwilling...”

“Huh?”Ming was stunned and looked at him in confusion.

“I said... It’s not unwilling...”Feng Doudou narrowed his eyes and looked at the sword with infatuation. “It just likes me...”

Ming:“...”

“I like it too... That’s why I didn’t let it go just now...”Feng Doudou waved the short sword in his hand slightly, and an extremely fine ice-blue tornado formed from the unique ice element on the sword. Ming was stunned once again... ..

Although the colors and attributes were different, the technique was the same. This small movement was a special technique of his Red Lotus Sword form...

“If you want me to fight you seriously, you have to think carefully...”this time, when Feng Doudou raised his head and looked at his opponent.., his eyes became extremely sharp, like an unsealed peerless sword. In an instant, the sharp glint was almost exactly the same as the jade-blue heart in his hand!

“I... Haven’t lost before!”

The confident sharpness made even Ming du lose his focus for a moment, as if he had seen the him who had never lost before!

Feng Doudou smiled slightly. He gently raised the short sword in his hand, and the crisp sound of the sword soared into the sky!

It seemed that it was indeed not suitable for him to compromise. Ever since he joined the Sea of stars and was reborn, he had become less and less like the previous him who was good at getting things done.

After arriving at a large place, she reminded herself to tuck her tail between her legs and keep a low profile. After all, this place could not be reborn, and her lord was not some thigh... ..

But it seemed that she still could not do it. She... .. From the moment she held the sword, whether it was Leng Xing, who had the best technique, or Li Goudan, who had unparalleled talent, she had never lost, not even once!

How would he know how to disguise himself?

So... Since he didn't know how to disguise himself, then... .. ! ... He'd better keep winning!

Chapter 1576: Crushing defeat!

"Little guy, hold on a little longer..."

In the Sleeping Palace, a tall and slender senior dietitian was helping the dragon-scaled Goudan with an extremely detailed massage... ..

Goudan gritted his teeth, feeling both pain and pleasure...

Actually, other than the pain from massaging certain parts of his body, most of the time, he was still feeling comfortable and happy. However, the problem was that he was extremely sleepy right now, and he really wanted to close his eyes and sleep

This extremely comfortable massage stimulated her and made her unable to fall asleep. The feeling was extremely complicated...

"Wu..." dogball could only snort in dissatisfaction, but did not stop her... ..

Because her body was also telling her that the other party's method was to reduce the burden on her body... ..

It was indeed a burden. The past few days of overeating had caused a lot of burden on her body. Her organs, which had never digested the energy of those high-grade ingredients, had been in a high-load state for the past few days, resulting in a lack of blood supply to her brain. She often wanted to sleep... ..

"It's been hard on you..." Queen XI, who was at the side, looked at the dog egg that wanted to throw a tantrum but could not. She smiled slightly and said to the person who was massaging it.

"It's fine..."the person who was massaging was a high-level black frost giant... He looked even taller than Titan. His palm could almost pinch the dog egg. However, when the huge palm massaged the small body of the dog egg, it was exceptionally fine. Almost every acupuncture point was fully pressed into place...

"But she can't continue to eat without regard for quantity. It's the growth period. Overeating causes a burden on the body, and it's not very good for growth..."

Queen XI nodded slightly, "I don't have time to care about her these few days. When I go back, I'll ask her master to personally train her. There won't be any repetition..."

"WUUUU..."when the dog egg heard these words, it snorted in dissatisfaction again. It looked like its days of eating and sleeping well were coming to an end...

"Heh... I thought that fellow wouldn't be honest at any time!"Behind Queen XI,. There were also two other juniors present. One of them was Yao Xing, expressionless and as cold as ever. The other was obviously a burly man from the demon Ox clan. He let out a strange and mocking laugh and seemed to be gloating over her misfortune... ..

"So you're also a bully who's afraid of the strong. Aren't you also quite honest when you meet the strong?"

Hearing that, Goudan glared at the other party angrily. However, at this moment, he was pressed down by the huge palm and could not move. Flames burst out from his nostrils... ..

"Don't be mischievous!"Queen XI glanced at Goudan, and Goudan immediately became obedient again. Indeed, he had exchanged a glance with the other party. This was a classic example of bullying the weak and afraid of the strong... ..

Yao Xing finally could not stand it anymore, he glanced at the tall and huge bull and said, "I really don't know what you're happy about. isn't mocking her for bullying the weak and fearing the strong just admitting that you're a soft persimmon? I told you to not be able to keep an eye on anyone, but to force her to eat the accumulated food..."

"You're in charge..."the other party glared at Yao Xing unhappily. "You speak as if you're in charge. Didn't you see it today? Even the Crown Prince of the bronze race was pressed down and beaten by her. Do you think you can suppress her?"

"We'll know once we try..."Yao Xing replied calmly.

"Tsk..."the huge bull rolled its eyes at the other party. "Stop boasting. A freak like her probably hasn't lost to her peers since she was born, right?"

Hearing those words, Yao Xing fell silent and didn't refute. He was three levels higher than the little fellow, so he had a certain amount of confidence that he could fight against the other party. However, if they were of the same level, he knew very well that he had no chance of winning... ..

There shouldn't be anyone in the same generation who could win against the other party, right?

"I've lost before..."

“Un?”The huge bull was taken aback. He turned to look in the direction of Goudan. He didn’t expect that this refutation would come from the other party himself!

“There’s still someone who can win against you? Are you sure?”The huge bull asked in disbelief.

“There really is...”Goudan said with his head down, but his voice became softer and softer. Clearly... “...”. As the massage came to an end, her sleepiness was getting stronger and stronger...

“Really? Who Is It?”The giant bull quickly asked.

This topic made even the cold-faced monster star look over. It was obvious that she was also very concerned... “...”.

“Feng Doudou...”

“Feng Doudou?”The Giant Bull was stunned. “Who is that?”

However, there was no response to this question. The Giant Bull panicked and looked over, only to find that Eggface had already fallen asleep... ..

“F * ck! We Can’t Wait Like This!”As he spoke, he looked at the giant. “Quick, wake her up!”

The giant rolled his eyes and wiped the sweat off his forehead. He rolled his eyes and said, “Do it yourself!”

When the giant bull heard this, he shrunk his neck. He did not dare to do so. He knew very well that the little fellow would be very irritable after being woken up... ..

“Do you guys think that she made up a name?”The giant bull could not help but look at the people around him and asked.

“No...”Yao Xing said coldly.

“How do you know?”The Giant Bull rolled his eyes.

“Little star is right...”

“Your Highness?”The giant bull looked at the person who spoke up for Yao Xing in surprise. It was her highness the Queen. He didn’t expect her to be interested in such a topic... ..

“Dragons are proud creatures...”Queen XI smiled and said, “Although this little fellow has a black heart, she has the nature of a dragon. The Pride of the dragon race will not easily fabricate a person who made her fail...”

“But... What Feng Doudou... I’ve never heard of him...”the giant bull still didn’t believe her.

“Before this little guy appeared, you heard of him again?”

The Giant Bull:”...”

“Feng Doudou...”Queen XI smiled and narrowed her eyes. “It seems that this year’s gathering will be wonderful as imagined...”

“How is this possible...”

At this moment, the owner of the name that Queen Xi cared about was currently emitting an incomparably brilliant light. He was controlling an incomparably sharp sword qi, causing the entire forest path to be engulfed in a beautiful icy-blue Storm!

It formed a sharp contrast with the scarlet storm in front of them. It was so similar yet so different!

“How is this possible...”

His Highness the Underworld looked at the other party and finally muttered to himself. His eyes were filled with disbelief!

She knew very well what the other party was using. It was exactly what she had been unable to completely grasp these past few days: the 14th form of the Red Lotus!

No... it was the 14th form of the Ice Lotus!

It had completely opposite attributes and different structures, but the other party was still able to use the same effect. The principles and complex changes that caused possible mutation were all avoided by the other party, it formed a storm of sword rays that was exactly the same as her!

Saying that it was exactly the same as her might be a little self-flattering, because it was obviously done more perfectly than her!

“Your Highness!”

Outside the two storms, Mr. Jian shouted, “Mind is clear! !”

Ming suddenly woke up. Yes, at this time, what was the point of thinking about all this?

However, it was already too late by the time she came to her senses. The opponent’s icy-blue storm arrived in an instant and devoured her sword form without any suspense. By the time she came back to her senses, the icy-blue short sword had already been placed between her neck... ..

Ming Meng was once again stunned on the spot. The gorgeous storm instantly came to a standstill. The lithe body of the sword did not even damage her own skin. It was as if it was lifted as if it was light, just like an expert who specialized in the Red Lotus Sword form... ..

But she knew very well that every move and every attempt of the other party was imitated by her earlier... ..

Different from the flower spirit from last time, this time, she was defeated even more thoroughly. It was simply a crushing defeat!

Chapter 1577: The Root cause of the crown prince’s invincibility... ..

“I forgot... I asked her name...”

Sitting on the ground, Ming stared blankly at the sky and said...

Mr. Jian didn't comfort his highness this time. Instead, he said with a more complicated tone, "I forgot to ask her to return the sword to me..."

"I thought you gave it to her..." ming stared blankly at his master and said.

"How is that possible?" Jian rolled his eyes at his disciple. "Have you been beaten silly? Why would I give such a precious thing to someone so casually?"

Ming: "..."

"Then... Should I ask her to come back?" Ming said after a moment of silence.

"Forget it..." Mr. Jian said faintly, "I feel so silly now that I've only just reacted and asked for it back..."

Ming: "..."

Looking at his disciple's shocked expression, Mr. Jian raised his head and looked at the sky, revealing a bitter smile... ..

Of course, the situation was not like that. That sword was a famous artifact, and it was created by Guru Gulidan. It was a unique item in the federation that could not be bought even with money. How could he not ask for it back just because of his face?

The reason why he did not go was because he knew that it would be useless even if he went... ..

The artifact recognized its master. This was what Gulidan had warned him about the very first day he forged it. He said that he had spent a great deal of effort to forge the artifact, so that artifact might not recognize him as its master...

At that time, he was in high spirits, so proud that he thought that his boldness would definitely be able to subdue the so-called artifact.

But it had already been more than a hundred eras, and that sword still looked like a ghost. No matter how many master teachers he had defeated with it, it still didn't recognize him.

Yet, to think that such a puny junior would be able to resonate with him today...

Once a master artifact acknowledged its master, it would never submit to coercion. If he dared to snatch it back, the master artifact would be destroyed together with him. There was really no need for that...

But... he felt so indignant...

"Let's Go... Don't be disheartened..." taking a deep breath, Jian said, Jane patted His Highness the Netherworld's shoulder. "You were pretty good just now. You were able to use form 14 so smoothly. For someone of your level to be able to use form 14, you've broken all the records of the previous Red Lotus Emperors..."

"I wasn't the only one who broke it..." the netherworld stared at the other party. "A person who had never learned the Red Lotus Sword form also broke it!"

"Artifact spirits are good at imitating others..."

“But the effect of her imitation is better than mine...”

“Uh... you actually think that you are better than her?”

“Master...”

“Ahem... actually, it’s not that bad. The main reason for that was that you were distracted just now. If you were able to fully immerse yourself in it, perhaps just now...”

“Do you have a chance to win?” Ming’s eyes lit up.

“I can hold on for a few more seconds...”

Ming: “...”

“Master...”

“HMM?”

“If you really don’t know how to console me, you can shut up!”

“Oh...”

The two of them walked silently. After walking for about fifteen minutes, Ming couldn’t help but break the silence. “Master, is it true that the crown prince is invincible among his peers?”

She used to believe this saying because ever since her bloodline awakened, the distance between her and her peers was like the difference between heaven and earth. She could often exchange a few moves with the other members of the royal family, but outside of the royal family... No matter how talented the descendants of the royal family were, she didn’t even have the interest to draw her sword. However, the recent experience had really hit her...

“Master? Why aren’t you talking?”

“Didn’t you tell me to shut up?”

“I. . .” Ming choked with anger. “Master, if you continue to wait for me to succeed the throne, let aunt marry outside...”

“What does your aunt marrying outside have to do with me?”

“I’ve already recorded what you said. I’ll send it to her later...”

“Ahem... What you said just now was naturally correct...” Jian hurriedly coughed lightly.

“Is that so?” Seeing that the other party was finally willing to give in, Ming did not continue to tease him. Instead, he frowned and said, “But what I saw was not like this. An accident was an accident. Today is the third one, right?”

“Invincible among peers, not invincible among peers...”. Mr. Jian said faintly, “Although there are not many in history who can beat the descendants of the Crown Prince of the same level, it is not unheard of. Nowadays, many seniors have defeated the crown prince of the same level, but it is basically impossible for someone of the same level to beat the descendants of the royal family “...” . “...”

“Uh...” Ming was stunned when he heard that. He felt that what Jian said was very contradictory. “...”.

“You feel that it’s very contradictory?”

Ming nodded repeatedly...

“Actually, it’s not contradictory...” Jian shook his head lightly and said, “The strongest talent of a royal is not the same level of battle talent, but the unparalleled leveling speed...”

“Is that so?” Ming was slightly stunned, but then he frowned. The leveling speed of the royal family members was quite fast, but... “...”. It was not to the extent of being invincible, right. He felt...

As if he could sense his disciple’s thoughts, Jian said in a low voice, “You can’t feel it because you haven’t entered the ancient lands yet...”

“Ancient lands?” Ming looked at Jian, her face full of doubt. She had heard this word more than once, and she knew that this was a top-tier resource land that the various major factions often fought over, but... ... Was it very related to the Royal Family?

“The royal family... ... “When you reach the ancient land, you will release your nature to the greatest extent!” Mr. Jian said in a low voice, “Your growth will be astonishingly fast. Many crown princes enter for the first time, and within ten years, they can become an existence with half a foot into the dragon-level. Those who are very outstanding can even directly step into the dragon-level!”

“Ten years? ?” Ming was instantly shocked, and she said almost subconsciously, “How is that possible?”

She was almost a hundred years old now, and her life level was still at level 10. She had been stuck at level 10 for more than ten years. According to her elders, her level and age were the fastest in the past generations. How could it be possible for her to step into the dragon level in ten years?

“Isn’t it incredible?” Jian looked at her with a complicated expression and said, “So this is the fundamental reason why the royal family is invincible among their peers. After going to the ancient land, the royal family can quickly increase the gap between their peers. After that, in order to quickly inherit the throne, the royal family will continue to open the ancient land for the crown prince to grow. In less than a thousand years, the crown prince will reach the life sea level!”

Ming: “...”

“A thousand years...” Jian seemed to be recalling something, a bitter smile flashed across his eyes. “It’s difficult for an ordinary life form to advance one level after level 10 after a thousand years. Everyone is still lingering below dragon-level, and the crown prince already has a sea of life. What can you compare with the Royal Family?”

“Actually... is that so?” Ming said blankly.

“What else?” Jian smiled. “How can a royal family that only has one era of lifespan become an existence worshipped by a clan? How can they occupy such a high amount of resources? If they don’t have any special abilities, how can they make so many nobles submit?”

Ming was stunned on the spot when she heard this, and her expression became extremely complicated...

So... it was like this...

She looked at her hands and felt the blood in her body. She heard that the royal family had such a powerful talent, but she couldn't feel a trace of joy in her heart...

Because the price of this power was very high. It was a blessing... .. It was also a curse. It had an extremely exaggerated talent in strength, but it didn't have the thing that the essence of life pursued...

All life evolved not simply for the sake of being powerful, but for... Alive. ...

Chapter 1578: players from different school alliances and factions (Part One)

"Eh... Little Alice... What are you looking at?"

Feng Doudou was in a good mood at the moment. He happily moved his face closer, causing Alice to frown. This guy... Huh. Did He go out to pick up money? Why is he so happy?

"I'm Not Young. If I'm old, you have to call me grandma..." Alice said calmly as she looked at the information.

"Hey... you can't calculate it like that..." Feng Doudou chuckled. "The Aborigines on the planets are different, and their lifespans are different. Naturally, the seniority can't be calculated based on age alone..."

Alice didn't even turn her head. "The population model of the new world is infinitely close to that of Planet D's people. Other than the difference in talent, the individual's physique, lifespan, and even the upper limit of the planet are almost identical. As an old senior of that world's Aborigines, is there a problem with you calling me Grandma?"

"Cheh... stingy..." Feng Doudou curled his lips and looked at the information on the screen. He was immediately stunned. "Ancient land? What is this?"

"The greatest benefit of the top 100 universities in Your University!" Alice said faintly. "Many children of big families have enough resources in their families, but they still squeeze into the universities and even try their best to accumulate credits in the universities. The reason is because of this..." "..."

"Oh?"

Feng Doudou's interest was immediately piqued. He immediately squeezed his butt over and sat beside Alice... ..

Alice didn't really like the style of people she wasn't familiar with, but she didn't resist either. Feng Doudou's potential was among the top among all the players. Even when facing Wang Goudan and the other top-notch royal genetic geniuses, he had quite a good performance. He was very valuable in roping him in... ..

When she was in the Emerald Starfield, she had participated in Wang Goudan's second surgery to collect information. After the black dragon gene transplant, Goudan's level had increased by leaps and bounds,

and his basic abilities had increased by leaps and bounds, it was very clear that the black dragon gene transplant that Ysera had done was not an ordinary one.

Wang Goudan had just finished his surgery and was already at level 9. At that time, his confidence had been off the charts. Coupled with his warlike genes, he often found people to fight against him. He had fought against the group of players who had strengthened together in the Emerald Starfield, the record was 17 wins and one loss!

And the only time he had lost was under Feng Doudou!

She had heard Ysera's evaluation before. Feng Doudou did not have any imperial gene opportunities in his body. However, her potential was very high, and she had extremely high combat talent. This talent was not something that she had obtained through training since young like Leng Xing, instead, it was a unique talent that was hidden in her body!

In the records of the base, Feng Doudou had never lost a battle with other players of the same generation ever since he transformed. Other than his job class being very suitable for battle, his terrifying combat reaction was also one of the reasons why he had never lost.

Leng Xing was publicly acknowledged as the strongest player in the base. He had never won against Feng Doudou!

If this guy met a cabbages in a social gathering, it would be a bit troublesome...

Alice thought about it in her heart.

"This information is huge..." Feng Doudou immediately complained. Then, he looked at Alice with a smile and said, "Why don't you tell me more about it, Hehe..."

Alice didn't refuse. She nodded and slowly began to explain... ..

"The ancient land was a strange piece of land that was preserved long ago in the universe. It had a powerful barrier to the outside world, and it preserved many extinct races, civilizations, and living things. Moreover, this piece of land was slowly growing. Every time a large civilization died in the universe, this ancient land would absorb a part of its features. Many people thought that it was deliberately preserved by the universe's consciousness... ..

"The resources inside are extremely rich. There are hundreds of millions of grams of materials inside. There are many extinct rare species of wood, ores, and special energy bodies. You can find almost all of them inside. You can even find top-notch materials from other universes inside. Not only that, the energy density inside is also very exaggerated. Some secret places even have a hundred times the pure energy of a super star. Moreover, the energy is highly absorbable, and there is almost no rejection rate. It is a precious place for cultivation!"

"F * ck!" Feng Doudou was stunned. School hadn't officially started yet, but she already understood the importance of resources.

For example, for her profession, she needed a large amount of rare materials to forge different weapons to familiarize her body with the model. Moreover, the energy resources were the same. was the energy density of a super star high enough. When she first came here, Feng Doudou almost thought that she

had entered heaven. Every breath here had a liquid-like energy density. Just a casual meditation was hundreds of times more effective than a D ball... ..

Even so, there were different classes in the school. Poor students like her could only absorb the air in the wild. The food she ate was also the basic ingredients provided by the school for the students!

Rich nobles could directly use money to buy a specific cultivation place in the school to meditate. Feng Doudou went in once under the special circumstances of the teacher. After coming out, she immediately felt that the energy in the wild wasn't fragrant anymore... ..

The ingredients were the same. Originally, the ingredients provided by the school were already very fine high-grade ingredients, and she was extremely satisfied with them. However, after seeing the special food provided by the noble children, she completely changed her mind...

As expected... Even if she ran into the universe and left the D Ball, that damned capital world, when she went outside, poor B * stars would still be living a life of sin... ..

However, it was said that this situation would change after the start of the semester. Talented students could complete school missions, accumulate credits, and exchange for school resources. This would be the best way to shorten the distance between them and the aristocratic students... ..

However, there was actually a problem. The students of the aristocratic schools could also participate in the credit missions. Since young, under the accumulation of resources, their levels and battle techniques were mostly higher than the ordinary students. They could even directly use money to buy resources in the academy to gain the upper hand. The commoner students were actually at a disadvantage when it came to snatching missions... ..

Not to mention getting a job later... .. Oh, this damned world of capital. It seemed that even if they came to the universe, they might not be as free and equal as imagined. But to be honest, as long as there was a civilization, how could there really be equality and freedom?

Moreover, even in the savage world, there was no such thing as equality and freedom. was being born a tiger or a rabbit equal. You were born to eat grass, but it was born to eat you... ..

"There's such a good place? Even the top 100 Academies have it?" Feng Doudou's interest was immediately piqued. She now understood that only by becoming stronger and stronger could one obtain true freedom... ..

"Even the top 100 academies have it..." Alice nodded. "However, there are differences between them. The ancient lands are also divided into good and bad plots. The good plots are basically occupied by the higher ranked academies..."

"That's a good thing! !" Feng Doudou was immediately happy. "Our Academy's ranking seems to be quite high, right? We should be able to snatch a good place, right?"

"That might have been the case in the past..." Alice looked at him with a half-smile. "This time... it's hard to say..."

Chapter 1579: players from the various school leagues and divided camps (middle)

The world was changing. From the moment these little guys entered the interstellar federation, whether it was Ysera or Alice who had just come into contact with this huge civilization system, they all knew that... This huge federation would bring about a world-shaking change...

The first step of the change... Would probably start from this so-called ancient land struggle. ...

Thinking of this, Alice was slightly confused. Seer had started interstellar travel 10,000 years ago, and coincidentally, he had found sphere D before the crown prince of this era entered school, coincidentally, during this year's crown prince year, he had successfully allowed a group of Aborigines to enter the various universities through various methods.

Was this an accident or an unplanned arrangement. This was because as long as they missed out on a year, the players would miss out on this year's national examination. If they wanted to participate in the land competition between the royal families, they would have to wait for the next era...

"Hey, Hey... What are you doing?" Feng Doudou couldn't help but say from the side, "I'm still waiting for you to continue... Why are you in a daze after saying that?"

Alice: "..."

After a moment of silence, Alice shook her head. Recently, she had been thinking too much. The more she understood this world, the more she felt that Seer's power was unreasonable. She felt that there was a net that was secretly laying the groundwork... ...

After shaking her head and throwing away her messy thoughts, Alice sorted out her emotions and continued, "The situation this year is different from before..."

"How is it different?" Feng Doudou asked nervously. Since he had chosen the bronze academy, he was naturally very concerned about the welfare and benefits in the future... ...

Alice said, "The allocation of the ancient lands is based on the interstellar fellowship that happens once every ten years..." Feng Doudou couldn't help but interrupt, "Once every ten years? Does that mean that those lands have to be allocated over and over again every ten years? Why is the frequency so fast?"

"Of course not..." "...". Alice said with rare patience, "The ancient lands are very fast and huge. Some plots of land are as big as ten special-class planets, and there are many secret realms on them. Developing them requires a lot of time and energy. If you only have ten years of ownership, of course it's impossible, because you might just pick up the infrastructure and be taken away by other schools in the next ten years. All your previous efforts were in vain. This is clearly unfair..." "...". "..."

"Then..." Feng Doudou was confused. "Then, you said that the land would be redistributed once every ten years..."

Alice: "Distribution doesn't mean that the land would be distributed based on the land that was previously allocated. Every ten years, a new piece of land would appear in the ancient lands, so the distribution would be different. According to my understanding, once a piece of land is obtained, the

time limit would be one era. Therefore, the academy places a lot of importance on interstellar fellowship because every fellowship could be an opportunity to increase the academy's resources!"

"I see..." Feng Doudou nodded. ...

"But this year will be different..." "...". Alice said faintly, "The year of the crown prince is very special. This year, after the first generation of descendants of the five great royal families personally participated, the five great royal families had plotted many high-level plots of land. After countless eras, through various operations and exploration, the quality of the plots fought for during the year of the crown prince is very exaggerated. For example, the most popular plots of land, such as the ancient forest, the eternal sea, the infinite land, and the giant God Peak, are all areas that the royal family and the ten great universities must fight for!"

"In the past, when the university and the royal family worked together, the royal family was born, and the university gave out quotas to compete for the best resource land for the university in a specific year. After obtaining the resource land, the royal family enjoyed a certain share of the offerings, and the university also obtained enough resources to expand the scale. It could be said to be a win-win situation. This model gradually matured under the coordination of many epochs. The year of the Crown Prince in the first epoch was also known as the year of Great Competition!"

Alice looked at Feng Doudou and said with a smile, "This year, the royal families will send their well-groomed royal children to participate. They can almost dominate the top positions of all the universities. This year, even the top ten universities will have to rely on the royal family. For example, the Lord who came yesterday represented the top three Tirefarson Academy all year round. But this year, in order to get a share of the high-level land, they have to come and cooperate with the Bronze Academy!"

"I see..." Feng Doudou took a deep breath. "The royal family is that powerful?"

"Of course..." "...". Alice narrowed her eyes and smiled. "Look, in your quest, isn't there a BOSS that you have to kill together? The fifth Prince was one of the royal family members of the starry sky, and he was the youngest one. His combat strength was average in all aspects... However, in the quest, he was asked to fight the BOSS like he was fighting the BOSS. One could imagine how powerful he was "...". "..."

"Hiss..." Feng Doudou immediately frowned, but then he smiled and said, "Then our academy seems to be one of the royal family, right? According to you, I should be able to get a share here, right?"

"That's the reason..." Alice picked up a cup of tea and said slowly.

"Then it seems that my choice isn't bad!" Feng Doudou immediately laughed. "Look at Pu Yunchuan and the others. With so many people gathered together to form this so-called Xandar Academy, they aren't royalty, and their rankings are low. They will definitely suffer a loss!"

"Yeah..." Alice nodded slightly in agreement, but her eyes drifted elsewhere. If little cabbages were here, they would definitely be very familiar with each other. This guy was always like this every time he felt guilty... ..

"But..." Alice smiled. "A horse without night grass won't be fat... if you think about it, I'm afraid you won't get much later..."

“Oh?” Feng Doudou was stunned, and he immediately said excitedly, “Night grass? Where did you get night grass?”

Alice said, “The resources of the ancient lands require a large amount of credits to exchange, especially the application to enter the ancient lands. Not only do you need a large amount of credits, you also need to contribute enough to the interstellar fellowship. This is the key. If you only want to cling onto your thigh for a while, you probably won’t have much soup to drink...”

“What kind of connections do you have?” Feng Doudou looked at Alice excitedly. Alice’s operating skills had always been recognized by the entire base. Just from the fact that she had built up the cabbages so well, it could be seen.

Every time the base would be popular for business, the materials would be popular. The other party had almost grasped everything. Every time, it was the cabbages that ate the meat, and the later ones that reacted would eat the soup. This made many people envious of the cabbage faction having such a good strategist... .

Wasn’t the reason why he often tried to curry favor with this guy so that she could give him some ideas?

“The way... Well, of course it’s on the other side...” Alice pointed at a very obvious planet in the sky outside the window.

“Tydar Hill?” Feng Doudou was stunned. “What do you mean?”

“Let’s cooperate...” Alice smiled and opened the Ysera Passage. She transmitted her voice, “That’s it... that’s it...”

“Hiss! !” After hearing the other party’s words, Feng Doudou immediately sucked in a cold breath. “Is... that good? If you’re discovered, something bad will happen, right?”

“Who told you to be discovered?” Alice narrowed her eyes. “How can you not take risks when it comes to getting outsiders? Besides, what am I afraid of if I help you? “You’ve done a lot of business with me on behalf of central China City. When have you ever seen me capsize?”

“Uh... this...” Feng Doudou hesitated for a few seconds before he finally gritted his teeth and said, “Tell me, what should I do?”

“The first step...” Alice smiled and said, “First, hide your strength!”

Chapter 1580: Ni Lan’s instructions...

“What did you exchange for this time?”

In a dormitory with excellent conditions in Star Sky Academy, Ni Lan looked speechlessly at the chubby little fellow before her...

In just a few short days, the little fellow’s weight had increased once more. It was obvious that he had secretly exchanged for some high-calorie snacks behind her back. The academy had a small store that specialized in exchanging for these things, and she had not stopped herself from doing so!

“Hehe... I bought things that are easy to digest...” Little Bai Cai sheepishly kept the items back into his space bag, he looked as if he was afraid that the other party would confiscate them, and he even put on a pitiful expression. “I’m going to school tomorrow, and I thought that I wouldn’t be able to eat them for a long time... so... I couldn’t help it...”

Ni Lan’s eyelids twitched as she looked at this act of cuteness. Her previous aggressiveness had somehow disappeared by half!

After feeling the change in her emotions, Ni Lan became even more speechless... ..

There were quite a few children among the space elves who were cute and knew how to act cute. She was also born into a noble family, so she could often see them. If they had high bloodlines, they would look good. If they could act cute again, many elders would buy it, but she didn’t usually do so... One reason was that she hadn’t placed herself in the position of an elder yet... ..

The second reason was that her mother had been biased since she was young, so she didn’t have a good impression of those juniors who deliberately tried to curry favor with their elders.

But when she really met this little fellow, the situation was different..

It had to be said that the feeling of being played cute by others was actually very good, especially when the other party really treated you as an intimate elder and tried to curry favor with you... ..

At this moment, the little fellow’s guilty look was obviously because she was afraid that she would get angry, but also because she couldn’t bear to part with the delicious food. Her appearance made her want to pinch it, but the bigger reason was probably because of the extremely high talent of the flower spirit in the area.

Flower spirit... .. She was very good at fawning on other creatures. This was her natural instinct... ..

But even though her heart was almost shaken by the softness, Ni Lan still managed to calm down in the end, she forced a straight face and said, “How many times have I told you? “The academy points are extremely important, so don’t easily exchange them for anything. If you lack any resources, just ask me directly. If you can not use any of the academy points, then don’t use any. This is the advantage of our clan’s disciples in the Academy, do you understand?”

“Oh...” Bai Cai bit her lips and lowered her head, giving an expression that she was in the wrong...

Actually, this wasn’t the first time she had heard this saying. Not only could academy points be exchanged for the resources of the academy, they could also be exchanged for certain resources unique to the ancient lands. Furthermore, they could also be exchanged for the opportunity to head to the ancient lands!

Due to the extreme shortage of resources, a large amount of ordinary people’s points would be used to exchange for basic cultivation resources. On the other hand, as the disciples of large families had sufficient resources, they would use their points to exchange for items from the ancient lands, or rather, they would simply exchange for the opportunity to go to the ancient lands.

As the Starry Sky Academy occupied a large number of ancient lands, the number of points needed to go to good lands was not small. Therefore, the descendants of nobles would not use any of their points recklessly.

Unlike cabbage, half of the initial points had already been used to exchange for good ingredients and some ingredients...

Facing the guilty cabbage, ni Lan ultimately could not bear to be overly harsh, she sighed and walked to the bedside and sat down. "I know you don't use much points for your greedy mouth. Most of them are used to exchange for cultivation materials for that little guy called Chen Ye, right?"

"UH...". ...the little cabbage was a little embarrassed as he scratched his head and said, "He's a little noob. He consumes so much energy but his cultivation speed is so slow. The refinement of his magical pets often fails. I can easily refine the contents of the textbook with just a few things from rhubarb. He was quite loyal before, so I have to repay him, right?"

"What's the quality of your Big Yellow Dog? Of course, evolution is easy..." ni Lan rolled her eyes at him, but in the end, she still said, "If you want to help him, just tell me. What Resources do you want? Whether it's ingredients or ingredients, as long as it's not too exaggerated, I can get them for you. You Don't have to spend points to subsidize that Brat, do you hear me?"

"Oh..." little cabbage stared blankly. He remembered that a few days ago, he had told him not to get too close to the commoner's children, Chen Ye. They were not from the same world, but now, he had already compromised and was willing to subsidize Chen Ye's resources...

No matter why he compromised, little cabbage felt that he recognized this cheap mother as a person who was easy to talk to...

"Thank you, mother..." Bai Cai called out sweetly!

"Humph..." Ni Lan knocked Bai Cai's head. "You're an ingrate. When there are benefits, you know how to call me mother..."

"How can I?" Bai Cai looked at the ground guiltily... ..

"Remember what I said..." Ni Lan said seriously, "The academy points are very precious. Don't use them recklessly. I will arrange suitable missions for you to earn points later. If there's a chance, I will even arrange you to be on the royal family's mission list. Maybe you will have a chance to participate in the missions in the ancient lands "...". "..."

"Huh?" Bai Cai was stunned. "Didn't you say before that you can't apply to go to the ancient lands without contributing before joining the Fellowship?"

"There are exceptions to everything..." ni Lan smiled slightly. "The rules are only used to restrict ordinary people. You have to understand this principle..."

"Oh..."

Little Cabbage's heart was inexplicably complicated. In the past, when he was a commoner, he had an inexplicable aversion to things like privileges, but when he was in it... Ah, it was really F * cking awesome. ...

So... ! ... the saying that the buttocks decide the brain really made sense!

"Tomorrow will be the start of class..." ni Lan gently tidied up the hair of little cabbage, she gently said, "If you have time, you should contact the other nobles according to the situation. In terms of factions, apart from Crown Prince Tyrande and the fifth prince, you can try to contact the other two. It's good for you..."

"Eh?" Little cabbage was stunned. "What's the benefit of contacting them? Can we go to the ancient lands?"

"Yes..." . "...". Ni Lan nodded. "It's a channel. The royal family can go to the ancient lands openly. Of course, some of them use their bloodlines to complete some missions. In order to gain the support of the nobles, the royal family will usually form a team to go to the ancient lands. This is also a form of exchange of benefits. Otherwise, why do you think so many families would support the royal family's disciples?"

"Oh, OH, OH, oh..." little cabbage immediately reacted. "Then who did mother ask me to curry favor with? Why didn't she curry favor with that whatever tyrande? She should have the most opportunities, right?"

"Didn't you analyze it yourself before?" Ni Lan rolled her eyes at him in amusement. "Tyrande's position has already been occupied by that cheap cousin of yours. I'm afraid it won't be easy for you to snatch it over in such a short period of time..."

"Oh..."

"I suggest that you choose between the first prince and the third princess..." Ni Lan hesitated for a moment before continuing, "But you have to be very careful of the fifth prince when you go over there!"

"Eh?" Little cabbage was stunned. "Will he take revenge on me?"

"You beat him up so badly. What do you think?" Ni Lan looked at the innocent-looking cabbage with amusement.

This fellow looked as if he had been wronged by this innocent look. When she had received the news the other day, she had been shocked. Although she had Lord Iluweta's guarantee that the royal family would not pursue this bok choy, it was certain that they would become enemies.

Actually, she had long disliked the fifth prince. There were many people who did not like the fifth prince, but after so many years, she had really dared to beat him up to the point that she was afraid that her cheapskate daughter would be the first!

According to her friends in the Divine Guards, he was beaten to death. If it wasn't for the fact that he was in time, or that the crown prince of the Red Lotus clan was there to help cover for him, the fifth prince might have really lost his life...

The impact of this was very big. In the year of the crown prince, if the fifth Prince's physical body was destroyed and he had to start all over again, he would be doomed for the rest of his life!

This hatred was not small!

“I’m not afraid of him! !” Little cabbage stuck out his nose, full of confidence. “The next time you dare to provoke me, I’ll chop off both of his legs!”

“Don’t be too proud...” ni Lan knocked on the little guy’s forehead again. “Do you really think you can beat him all the time? The descendants of the royal family who entered the ancient lands are not something you can imagine!”

“Oh?” Little cabbage was stunned...

Looking at the little guy’s stunned expression, ni Lan sighed, and a trace of worry flashed in her eyes. To be honest, she was very surprised that the little guy could beat the fifth Prince of the same level, but even if his talent was so exaggerated... It was still impossible to defeat the royal family. The fifth Prince had always taken revenge for the smallest grievance. Perhaps the little guy would really be targeted when he went to the ancient lands...
