

A Bunch 1581

Chapter 1581: players from different school alliances and factions (part two)

“But...” Bai Cai tilted his head, he asked a soul question, “You asked me to please the other two princes, but they are brothers and sisters with that annoying guy, right? Are you sure they will protect me and offend their brothers instead?”

This question made ni Lan stunned instantly, and she looked at little cabbage in a daze. This little guy was usually simple-minded, but he could still see things clearly at critical moments... ..

“That’s indeed the case...” Ni Lan smoothed her cabbage’s hair and said in a low voice, “That’s why I’m very worried. His Highness the first Prince and the third princess have always been on bad terms with the ninth prince, but after all, they are blood-related, and they are close and distant. Whether or not they will protect you at critical moments is indeed a question mark. When you go there, you have to be extra careful. If you can not be alone, don’t be alone. You must follow the main team. At least on the surface, if you join a mission formation and the prince leading the team lets you get into trouble, you will lose the hearts of the people... “...”. “...”

Little cabbage: “Oh...”

“Actually... I originally wanted you to get in touch with the foreign royal family...” Ni Lan sighed.

“Eh?” Little cabbage was stunned. “The Foreign Royal Family?”

“Yes...” . “...”. Ni Lan nodded. “In the years of the Crown Prince, the five great royal families have always allied with each other. It’s the same for the starry sky clan as well. At the very least, they will have an ally who is also a member of the royal family. Once the Alliance is formed, in order to show their friendship to each other, they will send at least ten members of the royal family to each other’s academies to further their studies. Among them, many of the leaders are former competitors for the crown prince. As a member of the royal family, they also have a quota for missions. Many times, in order to gain support in the Starry Sky Academy, the royal family from outside will also rope in the members of the local noble families. It’s also an opportunity to go on missions in the ancient lands... “...”. “...”

“Oh, OH, that sounds reliable! !” Little cabbage was instantly delighted!

“But this year... There’s some trouble...” ni Lan said with a bitter smile.

“Eh? Why?”

“In the past, most of the time, Starry Sky Academy would form an alliance with the Red Lotus Academy...” . “...”. Ni Lan lowered her voice and said, “As descendants of the blacksmithing celestial race, the relationship between the Shen Ao clan and the bronze race would be better. Most of the time, they would form an alliance with the Shen Ao clan, but this year...” . “...”. For some unknown reason, the Starry Sky Academy actually gave up on the Red Lotus Academy and chose to form an alliance with the Shen Ao Academy... “...”. “...”

“Uh...” Little Bai Cai was stunned for a moment before he carefully asked, “This... What does this have to do with us? We can suck up to whoever comes!”

“Do you think that anyone can be sucked up to?” Ni Lan rolled her eyes at Bai Cai. “The Shen Ao clan is famous for being xenophobic. They are arrogant and mean. When they face the starry sky elves who have an extremely high status in the universe, they might be able to relax a little and work together for a while, but when they face a native like you...” “...”. Ni Lan sighed. “They will most likely ignore you...” “...”

Bai Cai: “Emmmm.....-”

“But don’t worry, I will try my best to arrange for you to be led by an elder who knows me. You can give up on the other missions for your own safety. With an elder looking after you, you will be much safer...”

“Thank you, mother!” Bai Cai immediately smiled sweetly. In fact, she felt that she was quite lucky. Although she was kidnapped at the start of every mission, there would always be a group of people who treated her very well every time she arrived at a new place...

It was actually not bad...

“Oh right, mother...” Bai Cai suddenly remembered Alice’s advice about gathering intelligence and quickly said, “You said before that all the major universities in the year of the crown prince will rely on the five royal academies to form an alliance, right?”

“Yes...” ni Lan nodded. “After all, the talents of the royal disciples are unique. If they don’t rely on them, even the Ace Disciples of the top academies will have no chance of winning...”

“Oh...” Bai Cai raised his head and asked curiously, “Then which academies are our Starry Sky Academy allied with?”

“The name list isn’t out yet... but most of the academies have already confirmed it...” seeing that the other party was rarely concerned about serious matters, Ni Lan looked at him curiously.

“Yes... that... I want to ask, is there a bluespirit Academy?”

“Blue Spirit Academy?” Ni Lan was stunned. “This year, the Blue Spirit Academy seems to be preparing to choose between the Night Demon Royal Family and the bronze royal family. They haven’t had any discussions with us...”

“Eh...” Bai Cai’s scalp went numb. “Are you sure? They won’t... cooperate with our Academy?”

“Yeah...” ni Lan smiled. “Why are you so concerned about the Blue Spirit Academy?”

Bai Cai: “Er... I heard that the battle prowess of the students of the mecha department is very exaggerated...”

“The mecha department does indeed have a huge advantage in the stage before the dragon rank...” “...” ni Lan nodded. “You don’t have to worry about that. The Starry Sky Academy has already allied with the Federation’s Number One Mecha Academy, the Soul Mecha Academy. As one of the top mecha academies in the Southern Star Field, the Soul Mecha Academy has always been superior to the Blue

Spirit Academy in terms of both foundation and battle results. In these past few eras, they have never lost in ranking "...". "..."

"UH... is that so..." little cabbage scratched his head. It sounded very reliable, but... "...". When he thought of a certain guy over there, little cabbage couldn't help but feel his scalp go numb... ..

"That... What about Xandar Academy?"

"What Academy?" Ni Lan was stunned by the question. "Why would you care about such an unrepresentable academy?"

"Unrepresentable..." Bai Cai pursed his lips slightly. "Isn't it also one of the top 100 universities? Is it that bad?"

Ni Lan laughed. "They're all top 100 universities, but the gap is huge. For us, of course, it's unrepresentable for a school like Xandar. Every time we want to join a vassal, it's always the one who asks for it, okay?"

"Oh?" Bai Cai's eyes lit up. "What about this year?"

"This year?" Ni Lan searched through her memory, and it was clear that she didn't pay much attention to that academy before... ..

"This year, it seems like... We were made difficult during our negotiations, and in a fit of anger, we went to join the Night Shade Academy... Sigh, it's not a big deal..."

Little Cabbage: "..."

"Right, why do you care so much about this academy?"

"I heard... that the Titan of that academy is quite powerful..."

"Who did you hear it from?" Ni Lan laughed. "That academy does indeed like to collect high-blooded Titan disciples. However, when it comes to the real Titan Academy, they are still not ranked. Let's not talk about anything else. Let's Talk About Our Cooperation Academy. The one ranked fifteenth, the cry of the Earth, is the affiliated academy founded by the former Third Overlord, Black Baron. Currently, the most top-notch Titan clan still supports this academy the most. When it comes to the real Titan Academy, no one dares to say that this academy is number two. Where is Xandar?"

"I hope so..." little cabbage pursed his lips, a sense of uneasiness welling up in his heart... ..

It can't be... There's not even an alliance with a fellow countryman, right?

Right, who else is more capable? Feng Doudou, right, where did Feng Doudou Go?

Uh...

Little cabbage suddenly remembered that Feng Doudou seemed to be on the next planet, as if he was a competitor of the Starry Sky Academy... ..

Thinking of this, little cabbage immediately touched the back of his head with a guilty conscience. Sweat dripped out from his forehead.

I'm afraid... This is a little troublesome...

Chapter 1582: Headstrong Headmaster Xandar

Among the four major star fields, the Eastern Star Field had a long history of prosperity and great civilizations. This was because both the first immemorial dragon civilization and the rise of Titan., or perhaps the greatest civilization in recent history: the Elven civilization all originated from the Eastern Star Field.

The rise of several major civilizations allowed this star field to gather a large number of people and families. It also resulted in the eastern star field being the most prosperous star field regardless of the changes of the times.

Even though the federation was currently divided into the Middle Starfield, in terms of commerce, culture, and prosperity, it was still inferior to the eastern Starfield. Therefore, every inch of land in the eastern Starfield was valuable, and it was expensive to establish an academy here.

On the other hand, the northern Starfield was completely different...

It was said that when the immemorial dragon race rose, the northern Starfield was mixed with beasts of chaos that were chased over by the dragon race. This led to the rise of several other civilizations, it's all about getting the underdog and some vicious race that identifies danger as a potential threat to the balance.

Even if the new civilization rises, the civilization base does not establish in the east star area, most will not establish in the North Star area!

Over time, the North Star system became known as a place of exile, a gathering place for resource-poor, interstellar pirates, wanted criminals, and, according to historical records, most of the civilizations that came out. There were very few that stayed there for long... ..

In the countless eras of history, only the night shade civilization had risen in the northern star field. However, it did not last long. It was the dynasty civilization with the shortest lifespan among all the great civilizations in history. It only lasted for less than a hundred eras.

The number of famous families could be counted on one hand...

This phenomenon only changed when the fourth Lord, Sylvanas, took over the northern star field... ..

At this time...

On the spaceship, the old principal of Xandar Academy, Sea Dragon, was bored. Like an old man who loved to tell stories, he told the stories of the northern star field to a few newbies.

The few newbies listened to the stories with great interest. The only ones who could listen to the common sense stories so well were the natives from the countryside like Pu Yunchuan and the others...

“Oh...” Pu Yunchuan nodded after listening to it. “I was saying that Queen XI could occupy such a large space by herself, but the suzerains who ranked higher than her were divided into two or three space zones. So it’s because of the broken land she picked up...”

PFFT... Cough Cough!

The principal who was drinking his tea was choked to death in an instant. Ah Li, the vice principal who was meditating with his eyes closed, opened his eyes and looked at the other party in annoyance.

“Don’t talk nonsense when you’re outside...” Ah Li glared at Pu Yunchuan and said, “The people of the northern star field are tough. Be careful not to get beaten to death...”

“Oh...” Pu Yunchuan shrunk his head when he heard that and answered honestly...

The few emperors of the liver beside him covered their mouths and snickered, gloating at his misfortune.

Leng xing asked, “Principal, are you here to join the Northern Star Field this time?”

Pu Yunchuan and the others were stunned. They looked over. After all, they would be working in this school for many years. They had to be concerned about moving.

Xandar Academy was in a good position. The quality of the planet was also very high. It was even better than the Grade 3 stars in the Jade Star Field. They were poor and did not have any credits, no matter how much the teachers liked them, they could not privately teach them. Most of the time, their cultivation depended on the environment of the planet.

And from the principal’s tone just now, the northern Starfield did not seem to be a good place... ..

The principal looked at the cold star and nodded his head in satisfaction. This group of children had extremely high qualifications. They were an important reliance for Xandar Academy to turn the tables in the future. During this period of time, he had carefully observed every single one of them.

Among them, Pu Yunchuan was the most talented in terms of physical fitness. He was the best in terms of regional roar. He was the best in terms of regional roar. However, he had a salted personality and needed constant encouragement. In terms of effort, he was called the emperor of the liver. The little guy in Thunder Roar was the most diligent, but he was often unable to turn the corner. His performance in the cultivation of battle tactics was not as excellent as his other companions.

Among the group of little guys, this Leng Xing was the one he was most satisfied with. He had the best overall performance, and his personality was steady and very smart. He would be a good candidate for the position of team leader in the next interstellar fellowship!

“Lord Sylvanas came to me...” the principal said in a low voice, “He gave me good conditions to move. Considering the operation of the funds and the development in the future, I have some intentions...”

“Is that so?” Ah Li pouted, “Didn’t you decide to move because the space elves and the bronze race didn’t want you to join them?”

“Nonsense!” The principal immediately retorted, “Am I that kind of impulsive person?”

Ah Li: "Hehe..."

She couldn't even be bothered to talk about this guy...

After Sylvanas had managed the Northern Star Field, she had already started to lobby the other families and colleges to move in. It wasn't something that happened only recently. She had visited Xandar Academy more than a hundred times in this era...

Why didn't you agree to it before?

Indeed, there was nothing to be said about the terms this time. Sharing a special-class planet with the Northern Star Field's Black Knight High School, tax-free for one era, and providing a large amount of relocation funds and a fixed supply of resources for the early-stage students. The terms were very attractive.

However, the price was not small either. Xandar had been established in the Eastern Star Field for many years, and most of his connections and resources were in the Eastern Star Field. Everyone knew that the academy always relied on students for its prosperity, and good students needed good connections. Once they moved.., the reputation and family alliance that Xandar had painstakingly built in the Eastern Star Field was almost completely abandoned.

The students in the Northern Star Field were notoriously unstable, because most of them were wild geniuses. It was hard to say what their upper limit was. Compared to the high-quality direct descendants provided by the family alliance.., this kind of student source was very likely to cause a shock in the ranking of Xandar Academy.

This was also the reason why every time Sylvanas deigned to come personally, she would always give such a generous treatment. The old principal in the past had never relented... ..

But now, just because he was participating in the interstellar fellowship, this fellow had been made difficult by the space elves and the bronze race. He had left in anger and was actually planning to leave the Eastern Star Field!

This decision had scared the school council half to death, not to mention himself. They all stepped forward to stop him. They tried their best to persuade him for a few days, but to no avail. In the end, they still allowed him to bring his people to the Northern Star Field.

They really didn't know why the old principal would recommend this fellow as the new principal. If this continued, Xandar would be finished! !

"Cough..."the cold smile on the other side made the principal feel very guilty, in the end, he still gave a slight explanation. "Didn't I just come over to take a look? How could such an important decision be so impulsive? Moreover, the main reason I came this time was to discuss cooperation with the Night Shade Academy. The starry clan and the bronze clan have already fallen out. Isn't this only the Night Shade Academy's Way?"

"Who asked that dog of yours to have such a bad temper?" Ah Li rolled his eyes. "Isn't it very normal for a tail like us to be made difficult? "In the past, if you were the old principal, you would have long been pushed out by others like this. You also said that the night Nether Academy is the only way out. If you mess it up later, I want to see where else you can go."

“How could it be?”The principal rubbed his head guiltily... ..

Pu Yunchuan and the others looked at this obviously unreliable big-sized principal and looked at each other. They felt that this target of the alliance of the Lords... .. Didn't seem very reliable... ..

Chapter 1583: Xandar's confidence (I) !

“Welcome to the Northern Star Field. Everyone from Xandar Academy, you have a special pass personally opened by Lord Sylvanas. You can enter and leave any high-level star field in the Northern Star Field. If you have any needs along the way, you can also seek help from the local administrators and commanders. I wish you a pleasant journey!”

On the private spaceship, the friendly declaration that was connected by the AI brought the Titans into high spirits. They all looked out of the window.

Sitting in the control room of the spaceship, they could easily see the scene outside through the outdoor connection. The stars were dotted, grand and magnificent. Countless huge mechanical projects connected the billions of planets together, the scene was extremely shocking. It made the group of country bumpkins feel relaxed and happy!

“Wow...”

“This is the night nether star field...”. The principal chuckled. “It's spectacular, right?” ? This was once the legacy land of the Northern Star Field's only great civilization. Back then, the Night Demon race had only managed to occupy such a good place because they had set their sights on Sylvanas. Now, they had forcefully squeezed their way into one of the five great royal families. They were dying of envy ... “...”

“Wow... connecting the planets like this must cost a lot of money, right?”Pu Yunchuan and the others drooled in envy.

He was the second Lord ranked player in the base. He had once fantasized that he would one day have a massive interstellar spaceship and his own planet. However, compared to the current situation, he still discovered himself in an instant... “...”. The situation was too small!

One had to admit that those who came from the countryside were from the countryside. Their knowledge was limited... So this was how the rich and powerful forces played. ...

“Hello, Captain. There is an external signal connection. Do you want to receive it?”

“Oh? Your reaction is quite fast!”The principal was slightly stunned, he nodded. It was different to be taken care of. A few days ago, when he went to Teldar Hill, he was left alone for two or three days. He could only be forced to stop at the outer perimeter. When he entered the planet, he had to face all kinds of difficulties from the outer inspection personnel, thinking back on the experiences of those few days, the anger that he had already calmed down rose once again.

This time, he had made up his mind. If the Serene Night Academy dared to make things difficult for him this time, he would turn around and leave!

Just as he was thinking about it, the signal was received. The screen lit up and a handsome face of the night demon immediately appeared on the screen!

“Welcome to the land of night touring lotus flowers, respected principal Xandar!”

The principal and Ah Li were both stunned. As the leadership of a high-level academy, they naturally recognized the person in front of them. It was the Chief High Priest of the Night Demon clan’s imperial court, Logan, who was also the first vice principal of the Night Demon Academy!

Don’t look at him as a vice principal, but in reality, he was in charge of the specific matters of the entire Night Demon Academy! The reason was very simple. The Five Great Imperial clans’ high schools all had the imperial clan’s guardian deity as their honorary principal. The Night Tour Academy was the same. The principal was the Night Demon clan’s guardian deity, Lord Eve!

However, the Guardian had its own huge influence. It could rarely manage the affairs of the college. Basically, it was mainly managed by the royal relatives or the high priest.

Neither the principal nor ah Li had expected such a person to welcome them personally...

The principal, who was angry because of the bad memory, suddenly felt flattered. He hurriedly replied, “Principal Logan, you’re Too Kind!”

Just as he was about to say, “I didn’t expect that you would be personally here to welcome me...”. ...

However, when he turned around and thought about it, that wasn’t right. He was also the headmaster of a school, and was also the headmaster of a Top 100 University. What was wrong with him coming to welcome me? Wasn’t it a matter of course?

Cough cough...

At the thought of this, the headmaster straightened his back slightly and said in a low voice, “Headmaster Logan, May I ask which channel should we use to enter your star field?”

The other party smiled faintly. “A special teleportation channel has been prepared for all of you, allowing you to directly enter the central area of the Serene Night Academy. We have already sent out specialized personnel to guide you. Please be patient and wait...”

This gentle tone was completely different from the level 15 reception priest of the Starry Sky Academy. The principal was immediately greatly satisfied and nodded. “Sorry for the trouble...”

The other party smiled and bowed slightly, and then the call ended...

“See?” The principal snorted coldly, “This is the way to treat guests!”

“Ha...” Ah Li rolled his eyes at him, “It’s probably Queen Xi who greeted him. Otherwise, do you think you have the power to make principal Logan personally welcome you?”

“Do you care whether she greeted him or not? This at least proves that she values him...” the principal also snorted coldly, “People in this world have to fight for their honor. If a person bends his back, what’s the point of living?”

“To stand tall, one has to have the capital to stand tall...” Ah Li sneered.

“Don’t we have the capital?”The principal glanced at Pu Yunchuan and the others who looked like they were eating melons, “Just you wait and see. This time, the Star Elf who looks down on us will pay the price!”

After saying that, he glared at Pu Yunchuan and the others fiercely, “You all better pay attention to me. When you go back, practice until you die. On the day of the fellowship, if you see anyone from Star Academy, beat them up until they die. You must get your revenge! !”

The Titans:” ...”

If it was an outsider who heard the principal’s words at this moment, they would probably laugh their teeth out!

A Xandar Academy that had fallen behind in the top 100 had actually said that they would teach starry sky academy a lesson in the interstellar fellowship. was there something wrong with their brains?

But the strange thing was that even Ah Li, who usually loved to mock the principal, did not mock him because of that sentence just now. Instead, he actually stood aside and silently agreed to this sentence...

...

If some of the teachers of Xandar Academy saw this scene, their jaws would definitely drop in shock.

In fact, there was a reason why Ah Li did not completely stop the principal from moving to the Northern Star Field. It was also true that the current Xandar Academy..! ... had the confidence!

In the past two years, there had been a rumor circulating in Xandar Academy that there were two mysterious classes above the first class, and these two classes were taught one-on-one by specialized teachers, and they were not open to the public, they did not participate in any of the academy’s daily rankings, and were known as the new heaven and Earth Class!

There were rumors that the students in these two classes were extremely powerful, and those who were qualified to participate were the top students of the previous interstellar fellowship who had obtained the glory rankings for Xandar Academy. They were the most influential people in the Academy!

However, even these trump cards were said to have been eliminated in just a short year. Even the trump card of the previous fellowship, the one with the bloodline of the Golden Titan, Evans, was not spared, and was eliminated from the Class! !

Moreover, all those who were eliminated did not mention anything about that class, which made the two newly established classes more and more mysterious!

Many people guessed that the Dean had personally persuaded the direct descendants of some big families to form the class, in order to compete for the position of the Academy in the next association, when the outside world found out, some academies sneered at Xandar and said that he was deliberately mystifying things.

But as the logistics master of these two classes, as well as the Earth class director, Ah Li was very clear on how important these two classes were! ! !

Chapter 1584: Xandar’s confidence (part two) !

Ah Li remembered that when he first heard that the academy had accepted a group of developers and Green Titan, he was dumbfounded and almost burst out in anger.

Since when was Xandar Academy bad enough to accept such a student with mixed bloodlines? Moreover, he had been inserted during the non-official examination. With one look, it was obvious that he had connections. He was already at the bottom of the top 100. Now, he still dared to act so recklessly. Did he think that the elimination was not fast enough?

As a veteran teaching tutor, Ah Li had served in quite a number of academies. Her best resume was when she had been the head of the Department of Illusion at the White Dragon Sacred Academy, which was ranked 35th.

She had come to Xandar Academy, which was ranked far lower than the White Dragon Sacred Academy. Moreover, it was a martial school that paid attention to warriors. Originally, it was not in line with her own interests. However, because she had once received the favor of the old principal of Xandar Academy.., in the end, she was still willing to come over and help.

In the end, the more she looked at the newly appointed principal, the more she disliked him. This time, he actually did not even have the basic principles. At the critical moment, he still dared to waste the student quota and the backdoor connections of the clan. She was so angry that she directly rushed into the principal's office in a threatening manner, she pointed at the other party's nose and cursed. She was just short of quitting on the spot and leaving!

However, after seeing that group of students, she immediately tore up the resignation letter that she had prepared secretly...

Having been in the advanced teaching field for many years, she had seen many good seedlings. However, it was the first time that she had seen the quality of those dolls' Bloodlines!

Especially that group of developers. The purity of their spiritual power and the exaggeration of their computational ability were simply no different from the legendary ancient developers!

The group of Green Titans was the same. They had extremely high quality bone statues and muscle quality. Their qi and blood were so perfect that they were even more exaggerated than the direct descendants of large families. If not for the fact that their bloodlines were indeed ancient bloodlines... She almost thought that this unreliable principal had gone to some royal family to abduct them... ..

After the establishment of the special class, she and a few of Xandar's ace teachers personally taught them. They did their best to give them as much credit as possible so that they could enjoy the most advanced equipment and resources in the academy. And those seedlings did not disappoint them at all!

In just a short two years, the group of level three Green Titans had almost all risen to level six and above. The highest among them was even a level seven existence. Their growth was extremely astonishing, but the speed of the explosion had not affected the quality of their bodies at all, their foundations were so solid that there was almost no flaw to be found. Their qi and blood were so stable that it was as if they had been compressed by a compressor. It was unbelievably vigorous!

In the demonstration of the battle results, almost everyone of these Little Titans who were level six could beat their level eight seniors who were two levels above them. The ACE students of the previous batch, after being beaten up for half a year, finally could not hold it in any longer and all of them automatically withdrew from the new heaven and Earth class. Even Evans, who had lasted the longest, could not hold on for the past few days. After suffering a great blow, he still chose to voluntarily give up... ..

Ah Li did not have the slightest intention of despising this group of people for giving up. On the contrary, she could understand it very well. Having personally witnessed the growth speed of those guys, she was very clear that if she were young, she might not be able to withstand the blow!

In just two short years, she had leveled up four times in a row!

This speed was something that even people could not accept. The key was that this speed did not stop. The suffocating pressure of her talent was something that a person would doubt their life if they were to stay in such a monster environment for too long!

The developer class that she was mainly responsible for, the Earth word class, had also made astonishing progress. The learning speed of a group of children was just like copying and pasting. There was never a need for a demonstration or a second lecture! The undergraduate courses were already unlearnable before the year. According to Xandar's standards, it was a 70-year course!

Although the level growth was not as fast as that group of Titans, it was still a monster level. The highest developer now was already level 5. With this speed, it was not uncommon for a few level 10 developers to appear after joining the fellowship party ten years later!

With these two classes, ah Li felt that if it was not for the year of the crown prince, Xandar might have been able to compete for the top 10 spots!

However, she did not expect that under this pleasant surprise, there would be a continuous stream of pleasant surprises. The mysterious Lord that the principal mentioned had sent another batch of students two years later. It was a ready candidate for the championship!

Each of them had 100-year-old growth rings, level 8 or 9 life levels, perfect bone structure and blood density. It made her suspect that these people had custom-made them...

Because things like ancient bloodlines could not be mass-produced. That mysterious little deity Overlord had a shocking secret.

But no matter what, the seedlings that were sent were real!

Not to mention other things, just the ones in front of her, the highest level cold star: Level Nine Titan, amazing ability to learn battle tactics. It had only been more than ten days since the instructor instructed him, and he was already able to fully display his attribute advantage. In terms of direct combat strength, Ah Li felt that.., an Ordinary Level 12 warrior might not even be able to defeat him!

Under the same level, even if it was a high and mighty royal disciple, to be honest, Ah Li felt that he might not necessarily be a match for cold star. Even if he were to encounter the crown prince, Cold Star, he would probably be able to put up a fight.

If it was not for the royal disciple having the special augmentation ability of the ancient lands, Ah Li even felt that Xandar Academy could face him head-on!

This was also the reason why the principal dared to directly turn hostile and join the northern star field just because he was being made difficult!

Otherwise, when would xandar not be made difficult?

With the current batch of seedlings, ah Li could almost guarantee that as long as he planned it well and wasn't targeted, it wouldn't be a problem for him to get into the top 20. If the Night Shade Academy was the main force and resisted that group of royal family's disciples... It's not impossible to teach starling a little lesson...

It depends on how Night Shade Academy chooses this time...

Ali took a breath, looked at the night not far ahead of the lotus flower land, eyes flashed a trace of complexity.

Although she is very opposed to the principal this impulse, but deep down, there are some small expectations, after all... ? Who Wants to be on their knees when they can stand up for once?

At this time, a always standing in the ink crystal celestial body on the magic land, is the former night tour of the main land of civilization: Night Lotus Land!

At this time, as a subsidiary of the Royal Night Demon clan, the high school stood at the center of this ancient land, occupying all the energy of this legendary land. At this time, at the center of the college, a huge teleportation array appeared in the sky, as the first priestess of the Royal Family, Logan led a group of high priestesses and stood patiently under the teleportation array, quietly waiting for the guests who were about to arrive.

"Lord Logan..." a black-robed priestess looked at the teleportation array in the sky and frowned slightly. "Even if Lord Sylvanas has greeted Xandar Academy, you don't have to personally welcome them, right?"

Hearing that, a smile appeared on Logan's handsome face. "Since we have to give face... then we'll give it to the end. What's the point of being neither good nor bad?"

The other young priestess curled her lips slightly. "I heard that Xandar Academy was looked down upon by the starry sky academy, so they came to our alliance. Is it really alright for us to treat them with such hospitality when they don't want them, master?"

"You..." Logan looked at her dotingly and sighed helplessly.

The person who spoke was one of the royal members of the Night Demon clan. He was also the successor of the next Royal Priestess appointed by Logan. Although he was not the crown prince, he was still one of the most talented disciples of the Night Demon Royal clan!

“Later, Xandar Academy will definitely bring their outstanding disciples over. After you take a look, go to the academy and pick some students of similar quality to them to come over and have a talk. Don’t be rude...”

“Oh...”the priestess pouted and buried her head. How did this kind of thing that was obviously going to accommodate the weak fall on her head?

How troublesome...

Chapter 1585: List of names...

The beauty of the Land of darkness was different from that of the tedar hill that was filled with vitality and boundless vitality. It was located on the magical continent that was located on the largest natural ink crystal energy body in the entire universe. It had the most unique twilight in the entire universe... It was the only land of life that did not require the sun or stars to function normally...

The unique night sky was decorated with Starlight. Although this place was not as bright, it had an indescribable sense of tranquility and beauty. Many tourists would be mesmerized by this unique scenery when they first came here. For Pu Yunchuan and the group of newbies who had just entered the universe, this natural beauty that had been passed down for countless years was naturally extremely shocking... ..

Of course, what shocked them even more was the density of the energy in the air...

When they were at Xandar Academy, the dense density of the energy had already made them feel that it was heaven. They had originally thought that it was already an extremely exaggerated existence, but now they realized that they were naive...

Every breath here was like absorbing energy liquids. This dense and extremely friendly energy element almost made them want to swim on the spot...

However, they were still somewhat rational. They did not do such a shameful thing in public. However, the greedy expression of absorbing the surrounding air still made the local nobles Twitch their lips...

A group of country bumpkins...

Logically speaking, Xandar should have brought an ace student with him. At the very least, he should be a direct descendant of a traditional family. Why did he look like a country bumpkin?

From the looks of it, if there weren’t so many people, they would probably be rolling on the ground and swimming... ..

“Welcome, sorry for not welcoming you...”principal Logan went up to welcome him very generously, he didn’t have the lofty attitude of a space elf, nor did he detract from the prestige of a royal priestess. His every move gave people an extraordinary elegance.

Principal Xandar’s face was flushed red, and he chuckled. “Sorry for troubling you to welcome me personally, sir. I’m really ashamed...”

“You are too polite...”. Logan smiled. “Xandar Academy is one of the traditional martial arts schools that I have always admired. It is perfectly normal for me to receive the principal personally. However, your arrival is sudden and the preparations here have been rushed. Many of the vice principals of our Academy are unable to come at the last minute. I hope that you will forgive me for my rudeness.”

“No, no...”the other party was so polite. Regardless of whether it was sincere or fake, he had clearly given him face. At this moment, principal Xandar’s entire body felt comfortable. The resentment that he had suffered in Taida Hill and Nomorrigan instantly eased a lot... ..

Logan smiled and immediately looked at Ah Li by the side. “Long time no see Ah Li. Welcome back...”

Ah Li smiled slightly when he heard this. He bowed and said, “Long time no see, teacher Logan!”

The moment these words were said, some of the younger generation of the night demon race started discussing in low voices out of curiosity.

“She’s called the High Priest Teacher? Could she have been a student of the night Nether Academy in the past?”

“You don’t know that?” “Ah Li, a direct descendant of the nine-tailed Fox clan. She was a famous figure in our academy when she was young. She is also known as the night nether twin wall as the current prison warden of the Lotus Prison. She was a legendary figure who won the first place for us in that year’s Fellowship!”

“Damn, she was in the same year as the prison warden?”Some of the rookies at the side looked at the incomparably beautiful Ah Li in shock. “Then why didn’t she stay back then? With her results, she should be a vice principal by now, right?”

“I don’t know about that. That was many eras ago. My Great-grandfather wasn’t even born, so who knows what she was thinking at that time?” “However, it’s quite a pity that such a powerful figure from back then has now come to Xandar to teach...”. “...”

“Shh... Keep Your Voice Down...”

Just like that, under principal Logan’s warm and cordial welcome, the team entered the night Nether Academy’s auditorium in an imposing manner...

The auditorium had obviously been prepared in advance. Although it wasn’t very heavy, it wasn’t stingy either. It was clearly a gesture that indicated that a banquet was about to be held. In addition to many of the Academy’s instructors attending, they had also invited some members of the night demon upper-class families to participate.

High Priest Logan personally guided principal Xandar to get to know and chat with them one by one. It was obvious that he wanted Xandar to blend in with the friendly gesture, which not only satisfied principal Xandar in his heart..., the other teachers who had followed him and were originally not optimistic about this trip had also changed their attitudes at this moment.

It had to be said that the other party had indeed placed sufficient importance on this trip. Not only was the scene enough, but the nobles who had recommended him were all very particular. Not only were there the upper-class figures of the night demon nobles, but there were also some elders of the warrior

families in the surrounding star systems, they were all real connections and resources. With someone of Logan's status personally recommending them, the effect was naturally very good. They all left contact with each other, and the conversation went extremely smoothly.

If the entire northern star field had such an attitude, it might not be a bad thing for Xandar Academy to move over. At least, from the looks of it, these families did not seem to be resisting the new powers, moreover, they seemed to be embracing each other for warmth.

The cohesiveness between them was clearly much stronger than that of the Eastern Star Field...

Of course, this was only a temporary observation. As for the exact situation in the northern star field, they still needed time to investigate. After all, moving over was a big matter, and they could not make a hasty decision...

However, things did not go very smoothly either...

Xandar's teachers got along well with the surrounding noble elders and the teachers of the Serene Night Academy. However, the juniors below did not seem to have anyone to receive them. They were just strolling around on their own.

However, Pu Yunchuan and the others did not really care. As authentic country bumpkins, they needed enough time just to look at the strange things around them. A few of them could stare at a beautiful artwork with drool for a long time, naturally, they did not have the time to think about whether or not they had been neglected.

Moreover, although the banquet had not started, there was no lack of fruit wine and pastries. The pastries that were so delicious that they could melt their tongues were enough to satisfy them for a while. As country bumpkins, they performed very well...

The priestess who was in charge of entertaining these country bumpkins had a complicated feeling. These people said that it was easy to entertain them, but they just took a few pastries and looked very satisfied, it seemed like they didn't need to put in any effort on their own.

However, it was always bad if the surrounding disciples didn't communicate with each other. In the future, her master might blame her for not treating them well...

Thinking of this, she casually chatted with them for a while and then quietly walked to a corner. She quietly called over a priestess who was wearing a black priestess uniform just like her... ..

"Where's the list that I asked you to draw up?" After calling her over, the priestess directly asked in a low voice...

"This..." the girl who was called over immediately lowered her head upon hearing this, she said a little embarrassedly, "It's a little troublesome, Lorna. I didn't manage to find any information on the few students that Xandar brought over. For a moment, I didn't know how to prepare them..."

According to High Priest Logan's instructions, they were to prepare a group of disciples who were similar in strength to Xandar. When the time came, they would practice their martial arts and enjoy themselves.

However, in order to achieve such an effect, the information had to be accurate. Before Xandar came, she had already investigated the ace disciples of Xandar's previous association, but she didn't expect

that none of them would come this time, they were all unfamiliar faces. Who knew what their strength was?

If they asked her to equip them with similar standards, wouldn't it be making things difficult for her?

Hearing this, Rona also sighed slightly. He also did not expect that the students that Xandar brought this time were all unfamiliar faces. After thinking for a moment, he said, "Let me see the list that you originally prepared..."

"Oh..."

The other party quickly and carefully sent the list over through the AI. Lorna received the list and nodded slightly after looking at it.

The people on the list were arranged very reasonably. Their strength was average and their family background was not weak. If they were used as an exchange between the academies, it would not be considered as belittling the other party... ..

"Let's call them over first..."

Chapter 1586: Drum Performance!

"The few of you... take care of your image..."

These were Leng Xing's words. To be honest, he was someone who didn't really care about other people's gazes. However, Pu Yunchuan and the others looked really ugly...

The plates piled up in his hands could almost cover himself up, especially the way emperor liver licked the plates after he finished eating. Even with Leng Xing's indifferent personality, he had the urge to distance himself from these guys... ..

"What use is image?" Pu Yunchuan rolled his eyes at him. "Anyway, they will leave in two days. These people will have nothing to do with us in the future, but it would be a pity if we don't eat these snacks. If we don't eat our fill, we might regret it when we go back..."

Then, he burped and said, "To be honest, when I first ate the high-grade ingredients grown in the new world, I always thought that it was the pinnacle of taste, but I still underestimated the creation of gourmet food in the world. How do you think this thing is made? This taste... .. couldn't even be described with the word 'spiraling into the sky' ... "..."

Leng Xing was silent for a moment. He knew that conventional methods would not be able to persuade these starving people, so he changed his method and said, "The dinner hasn't started yet, and you have eaten your fill of snacks. You can only look at it during the dinner later. Perhaps you will really regret it..."

"Uh..." Pu Yunchuan was stunned when he heard that. Then, he quickly placed a large group of snacks and plates on the table at the side and said, "That makes sense!"

The exaggerated actions of the juniors made it impossible for the elders who were talking to them to pretend to be blind. Not far away, a night demon elder who was chatting with Ah Li not only smiled and said, "The juniors of your school are really straightforward and cute..."

Even Ah Li, who had a high EQ, could not help but smile awkwardly at this moment. "They are just a few useless juniors. I brought them here to broaden their horizons. I didn't expect that I would embarrass my lord. Sorry for making you laugh..."

"Haha, not at all." The elder laughed and said, "However, these juniors of your school look quite interesting. Their qi and blood are vigorous, and their foundations are solid. I think they must have put in a lot of effort, right?"

A few Titan Juniors obviously had an illusion on their bodies, making it impossible to see their growth rings and bone images clearly. Their Qi and blood were also covered up quite a bit, but the solid and heavy feeling still made this experienced night demon elder see it at a glance, these few juniors were extraordinary!

"Indeed, you've spent quite a bit of effort..." Ah Li smiled slightly, but he was not modest. This attitude caused that elder to be slightly stunned...

Logically speaking, even if I gave you some face, you shouldn't have accepted it so naturally, right? The foundation of these few juniors seemed to be pretty good, but if they were placed here, it wouldn't be a big deal, right?

One had to know that in this year's Night Serene Academy, even if they were the descendants of the royal family, they might not even be able to stand out on the stage. Where were the students of Your Xandar Academy?

The elder felt slightly amused. Just as he was about to say something, the hall suddenly rang with the sound of a powerful drum!

In an instant, everyone's gaze was attracted over. Pu Yunchuan, who was drinking fruit juice to digest his food, was so frightened by this sudden drum sound that he choked several times...

On the other hand, in contrast to Pu Yunchuan and his group of frightened juniors, when the other juniors in the hall heard this drum sound, they became a little excited. The atmosphere in the entire hall seemed to have changed in an instant, causing Pu Yunchuan and his group to be baffled...

"The sacrificial music drum..." Ah Li also looked over, and a trace of reminiscence flashed in his eyes. "I haven't heard it for a long time..."

On the other side, the teachers of Xandar Academy were also attracted and looked over.

"Sir Principal? This is the unique drum music of the Royal Night Hades clan?"

The principal looked at the stage in the middle cheerfully and nodded with a smile. "Heh, it's going to be interesting to watch..."

At this moment, a row of young priestesses in black stood on the stage in the center of the hall. Everyone was barefooted, dancing charmingly on the stage and beating the huge drums made of ink crystals!

The charming dance was accompanied by a vigorous drum sound. A dance ritual that was completely different from the elf ritual displayed a unique beauty.

In the East Star region, the teachers of Xandar who were used to watching the elf ritual were quite shocked at this moment. To be honest, compared to the gentle and elegant Elf ritual, this kind of war ritual that focused on drumming music before them... Was more in line with the aesthetic standards of their warrior teachers...

It was also the first time Pu Yunchuan and the others saw such a priest. The incomparably beautiful dance steps of the priests coupled with the vigorous drum music also made them extremely shocked. The blood in their bodies began to boil along with the drumming sound, in an instant, they felt as if they could not release their endless strength, and the hot qi and blood in their bodies began to surge.

Originally, under the special breathing technique taught by Ah Li, Pu Yunchuan and the others had already learned to use the breathing technique to hide their overly powerful qi and blood. However, at this moment, under the influence of the sacrificial music, they could no longer maintain it.

When the powerful qi and blood was stimulated, their bodies immediately became like a furnace, causing the night demons nearby to be stunned... ..

Boom...

The rhythm of the sacrificial drum on the stage became faster and faster, and the emotions of the surrounding juniors also became more and more excited. Then, under the guidance of a percussion, a tall figure jumped onto the stage with a bang, taking off his outer coat, his firm muscles were as terrifying as steel bars!

After he shouted along with the drum music, he cupped his hands towards the audience, showing his stance of inviting a battle! !

The crowd of disciples below were aroused by the drum music, but they were stopped by the elders who had prepared in advance and shook their heads.

“Ah Li is familiar with this too, right?”

At this time, Logan walked to Ah Li's side, and his handsome face showed a kind smile like that of an elder.

Ah Li nodded with a smile of reminiscence, “I haven't heard it for a long time, but I miss it...”

“Haha...” Logan laughed and said, “The kid on the stage is a junior of the Guluo family. Do you still remember Guluo?”

“Guluo?” Ah Li was stunned at first, but then he immediately laughed, “Oh, that Big Head? I forgot about it even if teacher didn't say it. where is that guy?”

“Of course he's a star...” Logan rolled his eyes at him, “It's not like you don't know his talent. How can he enter the Sea of Life?”

Ah Li:“...”

His mentor was still the same as before, a master at ruining the atmosphere... A good memory turned into a tragedy... ..

But thinking about it, it made sense. In the end, only a few people in the world could enter the Sea of life. Ah Li had lived for so long, and there were very few family and friends who lived in this world when he was young. Many people in his memories would forever be his memories...

“This child is his 670th direct descendant, just like his ancestor. He’s silly, but he’s more diligent...” Logan smiled and said, “How about it? Do you want to let your child go up and try?”

“The teacher does know how to arrange it...” Ah Li smiled and said, “He actually used such a method...”

“I didn’t arrange it...” Logan smiled and looked at the young priestess who was dancing in the center of the stage... ..

He was rather satisfied with the arrangements made by his own disciple. Since he didn’t know about the information regarding Xandar’s group of students, he decided to use the sacrificial dance.

The sacrificial dance was a tradition of the Serene Night Academy, and it would often happen on the spur of the moment during banquets. Using this method was obviously easier to avoid a tense atmosphere than directly inviting a martial arts demonstration.

Secondly, the sacrificial dance was a form of competition. Anyone could go up on stage and let a person of similar strength go up on stage to show off first. If the students of Xandar Academy felt that they weren’t confident., in that case, Youyou Academy could arrange for their own disciples to go up on stage to face the battle. After that, they would use the controls to let the weaker students go up on stage. They would try their best to match up with the students of Xandar Academy and it would be more natural!

One had to admit that his little disciple’s reaction was quite quick...

Looking at the slightly smug expression on his teacher’s face, Ah Li also smiled. He then transmitted his voice to Pu Yunchuan and the others, “The few of you, choose one to go up!”

Pu Yunchuan and the others, who were agitated by the sound of the drums, could not hold it in any longer. Before they could discuss, the emperor of the liver directly said, “I’ll do it!” After saying that, he jumped onto the stage like a cannonball!

Bang! !

The moment the emperor of the liver, who was full of Qi and blood, landed on the ground, he brought with him an astonishing heat wave. Not only did it shock the big guy on the stage just now, but the dancing priestess on the stage was also shocked!

Chapter 1587: the advantage of a family member!

This... What the Hell Is Qi and blood?

The priestesses dancing at the center of the stage were obviously stunned, including the leader, Rona. They looked at the guy who jumped onto the stage in disbelief!

As a member of the royal family, she had seen many outstanding young warriors, but this was the first time she had seen such a strong qi and blood. What was this guy's level? Twelve? Thirteen?

Did Xandar call the students who had already graduated here? No matter what, he couldn't be so shameless!

The big man with purple skin across from him was obviously frightened by the strong qi and blood of the liver emperor, and he obviously took a step back...

At this moment, his thoughts were exactly the same as those priests, wondering if this guy in front of him was a graduate student of Xandar Academy...

"The 16th year student of the Berserker Department of the Night Nether Academy: Gulo Barr!" After the big guy steadied his mind, he cupped his hands and said, "May I ask who you are, brother?"

He wanted to see if the other party was really that shameless...

"Emperor Liver, thunder roar!" Under the stimulation of the drum music, Emperor Liver's fighting spirit had already reached its peak. At this moment, he barely steadied his mind and cupped his hands in a muffled voice as he replied, "First year student of the Berserker Department of Xandar Academy!"

"How many?"

The Big Guy's eyelids twitched as he looked at the other party in disbelief. First-year student? New Student?

At this moment, under the agitation of his Qi and blood, Ah Li's illusion slowly spread out. In emperor liver's orange-yellow pupils, growth rings suddenly appeared. His life level was also exposed after the illusion dissipated... ..

Hiss...

The elders who were the first to react were the ones who were watching. After seeing the situation clearly, they could not help but suck in a breath of cold air!

A 70-year-old year ring and a level-eight Titan. How was this a country bumpkin? It was at least a direct descendant of the Royal Family!

Moreover, was this terrifying qi and blood something that a level-eight Titan should have? If the illusion had not dispersed, most of the people's thoughts were actually the same as those of the young priests on the stage. That powerful qi and blood just now was not something that a level-twelve or level-thirteen professional warrior should have?

It was probably a graduate student or a postgraduate student from Xandar Academy!

At first, he was disdainful because even if he won, it would be a shameful act. Xandar came here to talk about the alliance, and to show his sincerity, he should have brought the ace students who were going to join the fellowship next time, what was the use of bringing a few graduates or students who had already joined the fellowship? Could they join the fellowship after the end of the year?

In the end, they didn't expect that since they were freshmen...

"I really didn't expect it..." Logan looked at the stage with a smile. "Your Xandar actually has such a trump card?"

"It's not to the extent of being a trump card. It's good as long as they can help in the alliance without dragging us down..." Ah Li said modestly.

"Not bad..." Logan nodded with a smile. A hint of satisfaction flashed across his face. After all, they were here to discuss the alliance. If Xandar Academy was a burden after this, even if Lord Sylvanas had greeted them, the instructors of nethernight Academy would probably be dissatisfied as well...

"It's rare to see such a good seedling..." Logan continued, "Judging from the pupil shape, it should be the Green Titan, right? and judging from the way it carries its power, it doesn't seem like it was born in a big family..."

"Teacher, you have a sharp eye..." Ah Li shook his head and smiled, "Indeed, it wasn't born in a family, but recommended by a cooperative god..."

"Native?"

"Yes..."

"Oh?" Logan suddenly laughed, "Then you guys have picked up a treasure, Haha..."

"Teacher, you must be joking..." Ah Li also laughed.

It was not unusual for Logan to recognize the emperor of the liver as a native at a glance. Let alone someone like high priest Logan, even an ordinary high school teacher could easily tell that the emperor of the liver's method of transportation was crude. It was obvious that he was born as a native or commoner... ..

"Actually, you don't have to fill my..." Logan narrowed his eyes and said, "If you had said so earlier, I would have sent a more suitable student..."

"More suitable?"

"This aborigine is extremely talented... but his techniques are crude. It's actually very disadvantageous for him to meet a disciple from a big family like the Guluo family..." Logan smiled and said, "It can't display the effect that you want to demonstrate..."

"Is that so?" Ah Li smiled and picked up the wine glass in his hand. He drank a mouthful of fruit wine and didn't refute. He directly said in a soft voice, "Ah Li didn't think it through..."

Upon hearing this, Logan narrowed his eyes slightly. Ah Li did not refute him, but he did not agree with him!

Interesting...

At the thought of this, Logan looked at the little guy on the stage with interest. He did not deliberately drop the prestige of others. Instead, he said those words in a very fair manner. The descendants of the aristocratic families had received meticulous guidance from a young age. Every battle move of theirs had

been tempered and tempered. Every bit of potential in their bodies had been used rationally. Compared to the natives or commoners born in the wild, it was like the difference between heaven and earth. Before level 10, it was common for the descendants of the aristocratic families to be able to defeat the natives three levels above them... ..

And the Gu Luo family's technique was especially so...

At this moment...

On the stage, Gu Luo had already relied on his willpower, which had been trained for many years, to calm down his initial shock. He calmly looked at the opponent's incomparably powerful qi and blood.

This was because he could still see that the opponent's slight preparatory movements were extremely crude. It was very obvious that the opponent was a commoner's disciple. Although he did not know what method the opponent used to make his qi and blood become so exaggerated... However, this kind of guy who only knew how to use brute force and did not know how to use it, he was not very weak... ..

Thinking of this, Gu Luo took a deep breath. The muscles all over his body entered an excellent state under the breathing technique. He raised his hand to form an ordinary parry. The Parry seemed to be ordinary., however, the degree of preparation of the muscles in his body was abnormally exaggerated. If he was an expert, he could see that Gu Luo's subtle preparation could be used to deal with almost any type of attack!

"Brother, since you are a new student, then please go ahead first! !"Gu Luo let out a long breath and said with confidence!

Bang!

Along with this challenge, the drumming sounded again. The boiling rhythm made all the spectators excited once again!

This was also why the drum performance was so popular. The exciting martial arts performance was accompanied by the drum music that made people's emotions soar. What could be more passionate than this?

"Good! !"Emperor Liver's face was full of excitement. He did not think too much. At this time, under the encouragement of the war drums, Emperor Liver's fighting spirit was high. He only wanted to have a good fight. If the opponent asked him to make the first move, he would make the first move!

After replying, he threw a simple straight punch!

Ha...

On the stage, the many priestesses who were initially shocked by emperor liver's shocking qi and blood laughed secretly when they saw this action. So it turned out that they were all good-for-nothings!

As the priestesses who could go on the stage, they were all descendants of the noble priestesses whose status was not much lower than the imperial family. They had a lot of experience. Moreover, the priestesses were supposed to learn martial arts, so they were not unfamiliar with close combat.

They saw it very clearly. That Titan's punch seemed to have an astonishing momentum and his horse stance was steady. However, in reality, there were many flaws. Not only was his technique of exerting force crude, but from the movement of his muscles, he did not seem to have any preparation for his next move, if one move missed, there was no turning back.

This kind of battle tactic was rare even among the aborigines. It was too crude!

Gu Luo had the same thought at this moment. After a cold smile, he changed the stance in his hands. The stance that seemed to be made of steel instantly became incomparably gentle. His technique was extremely light as he blocked the opponent's fist, then, his hand moved like a snake and directly locked the position of the opponent's right elbow!

"Good! !"

Whether it was the timing of the attack or the degree of delicacy of the technique, all the juniors in the audience cheered in unison. Even Leng Xing, who was watching the battle, couldn't help but have his eyes brighten. He couldn't help but sigh. What an exquisite technique... ..

"See?" Logan picked up the wine glass and said with a smile after a mouthful of silence... ..

Ah Li continued to drink the fruit wine, smiling without saying anything...

Logan was about to say something to ease the awkward atmosphere of his disciple when the situation suddenly changed!

Chapter 1588: Fighting Machine-like body!

What... was going on?

The first person who felt that something was wrong was naturally Gu Luo. While everyone was cheering for his exquisite technique, he had already realized that something was wrong... ..

Just a second ago, when he had successfully guided the opponent's fist, he had already felt that victory was in his grasp!

The Gu Ling family was best at Contortion. Once he had locked his acupoints, even a royal disciple would not be able to turn the tables. However, he had not expected that when the battle had reached the point where he was best at... A scene that he could not understand the most happened... ..

When he had pressed on the opponent's right elbow, he realized that... He could no longer press down... ..

...

Yes, that was the literal meaning. The weak spot, which should have been extremely weak, would be instantly cut off if he were to press down on it, but he did not move at all as if he was pressing down on top-grade alloy!

How could this be?

This unbelievable situation made Gu Ling's heart skip a beat. He could not help but think to himself, could it be that I misjudged the position?

No... impossible!

The Gu Ling family was skilled in contortion and locking techniques. They were extremely accurate in determining the acupoints of living creatures. At a very young age, they had been arranged to engage in close combat with all sorts of living creatures to identify the acupoints of different living creatures... ..

Of course, fighting with different living creatures did not mean that he had to memorize the characteristics of all living creatures. There were trillions of living creatures in the universe. If he had to rely on his back, it would be impossible for him to completely grasp all of their weaknesses in his entire life.

What he had to be familiar with was the laws!

No matter what kind of creature it was, there was a set of laws that belonged to them when they operated their Qi and blood. As long as he could grasp the point of exertion of the other party's Qi and blood, he could easily deduce the structure of the other party's meridians through the secret technique of the Gu Ling family. Ever since the establishment of the Gu Ling family, there had never been any accidents. At the very least, he had never encountered any accidents... ..

But if there was no mistake, why couldn't he press down on this weak acupoint?

Gu Ling, who had never encountered such a situation, did not directly seize the opportunity. Instead, he decisively increased the strength of his fingers!

Using 30% strength was the general rule of the flexible technique family. They, who were best at guiding the force, rarely used more than 30% strength when facing their enemies. They mainly used the method of breaking the force, because once the force was used too much., it would be more difficult to maneuver around and change the direction!

But at this moment, Gu Ling could not care too much. The opponent's fist force was extremely strong, and he was already close to him. If he could not tie down the hemp tendons and cut off the blood and Qi supply, the opponent's strength would probably break his arm that was locked onto the opponent!

At the critical moment, Gu Ling chose to believe in his own secret technique. He believed that his judgment would not be wrong, so... .. ! He used a lot of strength!

Crack! !

Finally, a crisp bone cracking sound rang out... ! ... Gu Ling only felt a sharp pain!

Yes... .. ! That bone cracking sound came from himself, and it was the finger bone that he had used his strength on! ! !

As he groaned in pain, Gu Ling's eyes were filled with disbelief. He had never expected that under his decisiveness, the finger that had been broken was actually his own!

That feeling was extremely inconceivable. Under his full strength, his opponent's hemp tendons were indeed being pressed down until they loosened, but after being pressed down for two minutes, they

instantly rebounded. The powerful force caused him to be bounced away as if he had been electrocuted, and that terrifying force also instantly broke his finger!

As his right hand that was used to draw the momentum was bounced away, the entire lock skill instantly collapsed. Although the opponent's fist force did not hit him, after an explosion in the air, the powerful rebounding force directly sent Gu Ling flying!

When everyone saw this scene, they were instantly dumbfounded...

This was because to outsiders, Gu Ling's movements were as if he had been electrocuted after locking his opponent. He was instantly sent flying, as if he was fighting a fake match...

However, professional people could see that Gu Ling was severely injured!

A black shadow instantly arrived and caught Gu Ling. It was an elder of the Gu Ling family. After receiving the younger generation, he lightly inspected it, and his heart was instantly shocked... ..

His finger bones were all shattered, his sternum and ribs were cracked in many places, and his five internal organs had suffered quite a shock. Wouldn't he have to recuperate for half a year when he returned!

"That... brother, are you alright?" Seeing this, emperor liver took a few steps forward and held his head in embarrassment with a concerned look on his face... ..

Gu Ling looked at the other party and instantly spat out a mouthful of blood. The elder beside him hurriedly followed his qi and blood... ..

After seeing Guling spit out an obvious clot of blood, the juniors then looked at the Green Titan in disbelief... ..

It seemed like it wasn't a fake match, but... What did he do?

On the stage, the priestess Lorna, who was in the lead, stared at the liver emperor, her eyes constantly flickering... ..

She saw very clearly that this big green guy didn't actually do anything. It was just an ordinary straight punch, and the complicated injury on Guling's body was completely caused by himself... ..

It sounded ridiculous, but it was the truth. As for why it was like this, the reason was very simple. It was because Gu Luo didn't lock it!

The locking technique was a high-end close-combat technique that used the ability to break strength. The Gu Luo family's secret technique was famous in Ye You. There was once a close-combat instructor who explained in detail that the Gu Luo family's secret technique could use a special technique., to lock a creature that was thirty times stronger than oneself!

He remembered that he had asked the close combat instructor at that time, "What about a creature that is thirty times stronger?"

The instructor had smiled at that time, "If you still dare to use the lock skill when you encounter that kind of creature, you are courting death. When the creature's strength is thirty times stronger than you,

you use the lock skill. If the other party doesn't do anything, you might end up with your bones shattered!"

The situation in front of him was just like that. That Big Green Guy actually didn't do anything. In fact, that punch from the beginning didn't even hit Gu Luo's body at all. The reason why Gu Luo's body was so heavily injured was only because... "... !"! He used the lock skill on a monster that was thirty times stronger than him! "! !!"

"I see..."

Below the stage, when Logan saw this scene, the beautiful night vision narrowed her eyes into a line. She once again took a sip of the fruit wine in her wine glass. "I was wondering why Little Ah Li was so calm. It turns out... I was wrong!"

"How could teacher be wrong?" Ah Li smiled and said, "He is indeed just a native. However, for things like strength, no one would be able to tell, right?"

"Strength?" Logan rolled his eyes at the other party. Did he really think that he was easy to fool? He still wanted to do it a second time?

How could that native only have great strength?

The position of the hemp tendon that Gu Luo had fastened was absolutely correct. However, the other party did not have the slightest physiological reaction. His Qi and blood continued to flow smoothly as he threw that punch. If that punch had not been successfully thrown, the rebound caused by the congested qi and blood would have... At the very least, his arm would have suffered quite a bit of damage... ..

However, all of this had not happened. There was only one possibility, and that was that the muscles at the position of the hemp tendon had blocked gu Luo's strength!

When the punch was thrown out, it was obvious that the strength had already been poured out. In an instant, just the forceful reaction of the body's muscles could pull back a portion of the strength to defend against the local muscles. This kid definitely did not have that kind of high-end secret technique.

The only possibility was the instinctive reaction of his muscles!

A muscle reaction could forcefully pull back his strength. What did this mean?

This kid... This body ... ! It was a machine used for battle!

After taking a deep breath, Logan said to the priest behind him, "Go, call Elvis and the others over!"

The priest behind him was stunned when he heard that.

Elvis was the Crown Prince of the royal family of the night Hades!

Chapter 1589: "Don't Tell Me You Want Me to go?"?

"Your Highness Elvis, Sir Logan wants you to go over..."

In an extremely remote forest in the Night Tour Academy, the priest who came to inform them looked at His Highness who was lying on the tree helplessly and urged, "His Highness wants you to go over as soon as possible. After all, it's not good to neglect the guests..."

"Wu..."

On a tree trunk that was not considered strange, a man dressed in a black robe slowly stretched his waist. He looked at the priest who came to inform him with a very unwilling expression... ..

"Teacher Seville..."

It was obviously a man with an Adam's apple, but his voice was as soft as a woman's and carried a demonic laziness...

"Didn't we agree to give me a day off?" The man's tone was gentle, and there was also a hint of helplessness in it. "It's already midnight, and I thought that day off would come true. In the end, you still won't let me off at midnight, so why bother?"

The man looked at the starry sky, and his tone was lazy and gentle. As a teacher, Seville sighed slightly.

She was the priestess who taught the crown prince when he was young, and she was also responsible for tutoring part of his lessons when he came of age. She knew very well how much pressure this child had endured since he was young, and she also knew how rare it was for him to have a day off... ..

Elvis had been burdened with a heavy fate since he was born, because he had the nine nether eyes that was unique to the royal family of the night terrors in history!

According to rumors, this talent was the symbol of the ancient night Hades Emperor. The Night Demon tribe had always been known as the purest heir of the night Hades tribe, but they had been ridiculed by their political enemies many times. Many historians of other races had attacked the Night Demon tribe, they said that they were actually a mix of abyss demons and demons. They only had certain characteristics similar to the night Hades tribe and were not related by blood!

This statement was not accepted by the mainstream history. In addition, the other star fields had always rejected the northern star field, which made it difficult for the night demon tribe to completely clear their name on this matter...

But now... Elvis's talent was a turning point. If his nine serenity eyes talent could shine in the social networking, he would be able to effectively attack the faces of those unscrupulous historians outside. ...

In order to have the most outstanding effect in the social networking, Elvis had been set up with a strict training plan since he was very young. The entire clan's attention was focused on him. Even the slightest bit of bad training would be infinitely magnified, and he would be subjected to ten or even a hundred times the harshness of his peers... ..

If it was a stranger, he would think that this rare day of vacation was a joke, but in reality, mentor Seville knew how rare a day of vacation was for this child...

"I'm not asking you to train..."Xavier tried his best to smile. "I'm asking you to go to a banquet and get in touch with outstanding children of the same age. It's also a kind of relaxation, right?"

"But I just want to lie down quietly for a day..."Elvis looked at the sky. "Do nothing and waste a day like this..."

Xavier:"..."

"Forget it..."

Before Seville could say anything, Elvis stretched lazily. "It's impossible even if you think about it..."

As he spoke, his body slowly fell down like the purple leaves falling around him. His body was unbelievably light. Seville looked at the child's movement technique, which was as light as lifting weights, and his heart was filled with pride and pity...

Although an ordinary priestess had to learn close combat, they were still mainly focused on divine arts. However, this child was different. As a night priestess who was going to inherit the throne in the future, and as the hope for the Night Demon clan to recover their reputation..., all of his requirements were based on the highest standards.

It was the same for close combat. When he was very young, he had been trained according to the standards of the night Underworld Divine Court's General Wei. Teacher Logan also required him to be number one in both divine arts and close combat among his peers!

A priestess was the main occupation, and both martial arts and martial arts were required to be at the top of his peers in martial arts. Such unreasonable demands should not have appeared, but in this child, not only did he appear, but he also completed it brilliantly... ..

Of course, Sewell, who had watched this child grow up since young, knew very well that the effort he put in was also very exaggerated...

"Let's go, mentor..."Elvis smiled. "Otherwise, that damned old man will lose his temper again..."

"Although it's far away..."Seville said faintly, "But if you say this, he will still hear you..."

"I want him to hear..."Elvis snorted. "He clearly promised something, but he didn't keep his word. What's wrong with calling him a damned old man?"

Xavier:"..."

"Oh, right, teacher..." . Elderweiss, who was walking in front, suddenly said, "Why did you suddenly arrange to go to the banquet "? It's already quite standard for the stinky old man to personally welcome Xandar Academy, right "? Do you need the royal children to welcome him together

"Originally, there was no need..."

At the mention of this, Xavier narrowed his eyes and said, "Xandar brought an ace disciple here this time..."

"And then?"Elvis was a little puzzled. Was Xandar's ace disciple a reason for the royal family to welcome him?

“Very powerful...”

“Huh?” Elvis was amused when he heard that. “How Powerful? You Want Me to take action? It Can’t be, right?”

This batch of Night Shade Academy was full of talented people. The geniuses gathered here were more exaggerated than any generation in history. Helan family’s Helan Nana, Shanghai family’s Yong Ye, and the He ye family’s Shara were all known as the strongest family geniuses in the past generations!

Since when did a student of Xandar Academy need a crown prince like himself to personally take action? He didn’t lose out much, right?

He seemed to have seen through elderweiss’ thoughts, xavier explained in a low voice, “Helan Nana has already gone to Starry Sky Academy and won’t be able to return for a short period of time. Shara and Yong Ye are in the ancient lands, and this time, it’s a drum performance. Beast Tamers and other professions won’t be able to make it onto the stage...”

“Then there should be quite a number of disciples from big families present, right?” Elderweiss sighed helplessly. Could it be that his vacation had been delayed by such a boring matter?

“I asked you to go for insurance...” Xavier smiled. “I’m not asking you to really go on stage. There’s a high chance that you won’t get a chance. After all, other than you, His Highness the ninth Prince and His Highness the first prince are both present...”

“Huh?” Elderweiss was even more confused when he heard this. “Those two guys are present and they still want me to go over? Don’t tell me they’re not safe even if they’re present?”

Xavier lowered his head slightly. For a moment, he did not know what to say. Theoretically, it was enough, but... “...”. The power displayed by that Titan was a little exaggerated... “...”.

“Hey, Hey...” Elderweiss looked at him strangely. “Mentor, what do you mean by being silent? Don’t tell me you want to say that it’s true? Haha... You guys really went through a lot of trouble just to ruin my holiday, even...”

While Elvis was complaining, Seville, who was following behind, suddenly stopped, and his expression changed abnormally...

Elvis, who was walking in front, was very sensitive to the fact that something was wrong. He turned around to look at Seville’s expression and immediately asked curiously, “What’s wrong, mentor?”

Seville raised his head to look at Elvis, who was a head taller than her, and narrowed his eyes as he said faintly, “Ninth Highness... lost!”

Elvis: “...”

Chapter 1590: “I was just informing His Highness...”.

“Oh, it’s quite lively...”

Under the stage of the banquet, there was a dense circle. When Elvis arrived, the atmosphere of the entire banquet was completely different. Compared to the previous cheerful and casual atmosphere, there was now a clear sense of heaviness...

Elvis did not find this somewhat depressing atmosphere strange. After all..! ... The One who lost was a royal descendant!

Elvis yawned and lazily moved to where Logan was standing in the crowd.

“What took you so long?”

High Priest Logan stared at the stage and asked without turning his head back.

At this moment, a barrier had been set up on the stage. It was obvious that the martial arts performance on the stage had completely escaped from the initial control!

“What’s the Rush?” Elvis said lazily, “Even if you’re going to ruin my vacation, you can’t expect me to be at your Beck and call. I’m not a soldier on duty...”

Such an obvious complaint made Ah Li, who was next to Logan, look at him curiously.

What a curious night vision pupil!

Ah Li narrowed her eyes slightly. Could it be...

She suddenly remembered a rumor. It was said that this generation’s Night Demon Crown Prince had the night vision pupil that only the ancient night vision royal family had. However, although there was such a rumor, this mysterious crown prince had never shown his face in public. Many historians, especially the elven historians in the East Star Field, scoffed at this rumor... ..

“His Highness Elvis?” Ah Li politely bowed and asked curiously. The other party’s identity was definitely royal. Even if he was not the crown prince, it was not a loss of points for her to bow... ..

“Wow, what a beautiful big sister!” Elvis’ eyes lit up. “Is big sister the new mentor?”

Ali narrowed his eyes slightly when he heard this “Big sister”. Logan said in a low voice, “This is the deputy dean of Andal Academy, Ali. He is also a senior who graduated from Night Tour Academy. Don’t be so frivolous...”

“So it’s senior!” Elvis smiled even more happily when he heard that. “No wonder you feel so friendly...”

Ah Li: “Hehe... His Highness is quite leisurely...”

It wouldn’t have been a big deal if it was under normal circumstances, but the situation was different now. The other party’s royal family had been defeated. Teacher Logan had obviously called this fellow over to support the situation, but the other party’s attitude was clearly very nonchalant... ..

“Let’s see...” Logan seemed to be somewhat helpless against his high hopes for the crown prince’s arrogant attitude. He pointed to the stage and said...

“Oh?” Elderweiss followed Logan’s finger and looked over. His eyes lit up once again as he said, “Senior Lorna’s figure is really getting better and better! This dance, TSK TSK...”

Logan: “...”

“Your Highness! !” Beside him, Seville glared at him and raised his voice slightly... ..

“Haha... I’m Sorry, I’m used to it...” Elvis scratched his head embarrassedly and then looked at the Green Titan who was fighting on the stage... ..

“Little Jiu lost to him?”

“Is there a Problem Your Highness?” Ah Li asked with a smile.

“Excuse me... . I don’t mean to be suspicious...” Elvis laughed. “It’s just that . . . When I came, I took a look at Little Nine’s injuries. It turned out that the person who defeated him had a sense of propriety, but I heard that Gulo, who was the first to go on stage, was beaten half to death?” At this point, Elvis lowered his voice slightly. “Are the people of Xandar Academy watching the dish drop?”

Seville, who was beside him, also frowned when she heard this. Before coming here, she had also taken a look at the ninth Prince’s injuries. It was very obvious that the person who had attacked Gulo was very good at handling things, but with such a standard.., why did Gulo suffer such serious injuries when he fought with Gulo previously?

If it was intentional, it was indeed a little too much...

Wait a minute...

Seville suddenly realized something and looked at the stage in shock. “Isn’t this the one just now?”

“Huh?” Elvis was stunned when he heard that...

“There was a different person just now...” Logan explained from the side.

Raccoon then slowly said, “The student who injured your school was very apologetic. The child who was the first to go on stage couldn’t control his strength effectively. In order to prevent him from hurting anyone else, he was replaced...”

Seville: “...”

So..? ... there were more than one Green Titan Monster with exaggerated power in this school?

“Interesting...” Elvis said faintly, “Your school is really full of talents...”

“I don’t dare to be praised by your highness...” raccoon replied indifferently, but he couldn’t be bothered to look at him. She didn’t like this junior very much... ..

Even though he would be the emperor of a clan in the future...

Elvis sneered slightly, then looked at the stage and began to observe the battle on the stage...

The battle between the two sides was in full swing. The Green Titan used a silver long spear and danced like a swimming dragon. On the other side was a slender night demon disciple with a long sword in his

hand that gave off a shocking rainbow sword aura, both of their moves were open and wide. The battle was extremely intense, and the people around were also watching with great interest!

“From the Moss Family?” Elderweiss asked calmly.

At this moment, a night demon who looked somewhat similar to elderweiss, but had a much larger build, stood behind Logan and nodded. “Yes, the descendant of the Moss family’s divine sword of this generation...”

The divine sword was the title of the highest swordsman in the Netherworld clan. Currently, there were only two clans that could maintain this title, and the Moses family was one of them.

“Let him stop. It’s meaningless for him to continue fighting...”

Hearing this, the burly night demon frowned. “It’s not that there’s no chance of winning, is it?”

“I didn’t say there’s no chance of winning...” elderweiss yawned and said, “It’s a waste of time. The other party is obviously already familiar with his sword path, and he’s getting more and more adept at dealing with it. If he continues fighting, won’t he fight until Dawn?”

The burly man nodded slightly when he heard this. “Then I’ll do it...”

“Forget it, Big Brother...” Elvis rolled his eyes. “Your style of fighting will only be slower...”

The burly man was silent when he heard this, but he did not refute. From the moment Elvis was born, he had lost the right to fight for the crown prince, and as a member of the royal family of the Uya family..., after losing the right to fight for the crown prince, the leader of the Divine Shield Army would be the next leader.

Naturally, the secret technique that the leader of the Divine Shield Army cultivated was also the secret technique of the Divine Shield army. When facing enemies, it was more important to be calm. It was indeed not a method to fight quickly... ..

“Your Highness, is there an urgent matter?”

Suddenly, Ah Li spoke...

“Eh?” Elvis was stunned, but then he smiled and said, “That’s not it. I just want to end it quickly. After all... I am not very interested in the drum competition or martial arts...”

“Oh?” Ah Li raised his eyebrows slightly. “But looking at your highness’ bone structure, it seems that your attainments in martial arts are not low...”

“Haha... I Can’t Help It...” Elvis shrugged and smiled. “I don’t want to either. I was forced to do it, wasn’t I?”

“Well...” Ah Li nodded slightly. “Indeed, life is a matter of life. Many things are not so arbitrary. It’s rare for your highness to be able to sit firmly on the throne even though you don’t like martial arts...”

“Haha...” Elvis scratched his head and laughed. “I don’t really care about this position... anyway, I have to go. I have a lot of things to do tomorrow. I don’t have much free time...”

After saying that, he waved his hand and walked towards the stage lazily.

“Your Highness...”

“Huh?” Elvis’s body paused slightly. He turned around and looked at Ali curiously. He clearly felt that Ali didn’t like him very much. Why was she talking so much all of a sudden?

“The student on the stage is called Leng Xing!”

“Huh?” Elvis was stunned. He looked at Ah Li in confusion... ..

“Nothing...” Ah Li smiled. “I’m just informing His Highness. His Highness, Please...”

Elvis:” ...”
