

A Bunch 1631

Chapter 1631: I've already warned you...

"Stop! !"

The atmosphere was on the verge of exploding, but the one who stopped all of this was Sukman who had started the dispute!

With this shout, although a trace of unwillingness flashed across the eyes of the originally restless Bi Lan, she still stopped her magical beast at the first moment... ..

When she turned around to look at her boss, Bi Lan was completely stunned!

Her boss's face was filled with excitement, as if she had been injected with stimulants...

She had never seen this expression on his face since she had started following him...

After all, this was a top manager who was in charge of the TEDAR Hill region and controlled the trillions of dollars in capital flow. His status in the business world was not low. In terms of experience, many of the TEDAR Hill's noble family leaders might not be able to compare to him, what kind of natural treasures and young elites had he not seen before?

He admitted that the little elf had some ability. To be able to threaten him under the gaze of his magical snake, she did have something, but it was not to the extent of showing such an exaggerated expression, right?

At this moment, Sukman was staring intently at Bai Cai, completely ignoring the strange expression on Bi Lan's face. Bi Lan was a middle-class disciple of Tedar Hill. Although her results were excellent, her vision could not keep up with them! However, even the children of top-tier aristocratic families would not be able to recognize Bai Cai's telepathic state, but he could!

As a top-tier merchant, he was naturally an existence that was proficient in the ancient history of elves. Although he had never seen it before, the moment the golden light on Bai Cai's body appeared, he immediately recognized it...

This negative state, which could instantly dispel the power of shadows, although it was small, carried an incomparably pure life force. It was like the energy produced by the source of life. Although he had never seen it before, he was still extremely certain that it was... This was telepathy...

No wonder...

While Sukman was extremely shocked, there was also a hint of realization in his eyes... ..

When he heard the news that several top magical beast families were fighting over this ancient bloodline, he still had some doubts. Was that a smoke bomb released by the Tedar Hill Noble Circle? After all, no matter how outstanding the ancient bloodline was... They could not pass on their genes, so their value could not be compared to a regular child. To be able to labor a few top clans to fight over this ancient bloodline, it sounded like something out of a storybook...

However, if that child had telepathy, it would be completely different... ..

The value of telepathy to the magical beast clan and the magical plant clan was almost immeasurable. Even if it was an incomplete version of telepathy, even if it was incomplete, even if this talent could not be continued through the bloodline, as long as it was nurtured, it would be able to bring huge benefits to the clan! Reaching the star level, it would bring tremendous benefits to the clan!

“Hu...”

After taking a deep breath, Sukman’s gaze towards the other party became cordial... ..

Previously, although he could see that the other party’s aptitude was extremely high, he did not think much of it. With an ancient bloodline, no matter how high one’s aptitude was, it would not be valued by the clan. In an old noble clan like the moon god, even if one reached the life sea level., it would be very difficult for him to have any say.

However, if he had telepathy, his status in the future would not be the same. It was naturally impossible for him to become the head of the family. However, it would not be a problem for him to become an elder with real power. In fact, he might even be ranked at the top among the elders with real power.

Such a potential stock was worth befriending...

At the thought of this, Sukman immediately changed his smile. Just as he was about to say something, an accident happened... ..

“Telepathy...”

A hoarse and cold voice came out first. The voice was extremely strange, and it gave people goosebumps. The White Fox behind Sukman subconsciously hugged its arm and took a step back.

Who Was It? The voice was so disgusting?

Wait a minute...

This voice was...

The White Fox raised its head in shock and looked at Chen Ye!

Chenye’s expression froze because he could clearly feel that the voice came from beside his ear...

The voice... was from that snake! !

This time, not only was the white fox stunned, even the owner of the magical beast, Bi Lan, looked over in disbelief because he had indeed used his spiritual power to order the magical snake to retreat, but obviously... .. Her magical pet... ..! Did not listen to her!

“Nana! !”

Bi Lan shouted in shock, and immediately activated her maximum spiritual power!

Ever since she had tamed this magical earth snake, there had not been such an accident for over a hundred years. If the magical pet went berserk on such an occasion, she would probably have a hard time explaining herself later... ..

When Bai Cai heard this name, the corner of her mouth twitched as she looked at the ferocious black snake with a strange expression... ..

This name... It really had a cute contrast... ..

Following Bi Lan's shout, the demon snake's movements obviously froze. A hint of hesitation flashed across its ferocious and greedy eyes, but it only lasted for a few seconds...

Soon, its eyes turned cold again. It climbed onto Chen Ye's body and slowly leaned towards Bai Cai!

The cold and slippery feeling penetrated through his clothes, making Chen Ye feel extremely uncomfortable. Although Bai Cai's telepathic connection was resisting it, it still made Chen Ye's face turn purple and green... ..

Bi Lan's face was filled with shock. She thought to herself, 'damn it, what's going on?'

The White Fox and the other young man also felt that the situation had taken a turn for the worse. Their expressions became tense.

Other than Bai Cai, the only one who remained calm was Sukman, who was a star-ranked powerhouse!

Sukman had actually planned to stop the demonic snake the moment it lost control. He had also expected this situation. The Demonic Snake was a demonic beast with extremely strong desires. It was very difficult to completely tame it. When it encountered the telepathic body., it was very normal for aquamarine to be unable to control it.

However, what surprised him was the little flower spirit opposite him...

A demonic earth snake that had lost control. She didn't seem to care about it at all. This made him a little curious, and he really wanted to know where this little girl's confidence lay.

Thus, he didn't make a move immediately. As a star level expert, at such a close distance, he naturally had the confidence to control the situation at the last moment, and not let the demonic snake harm anyone... ..

Could it be that this little fellow's confidence was his?

Just as Sukman wanted to see this, a golden light flashed and disappeared!

In an instant... .. The gloomy and cold feeling on the snake's body instantly disappeared...

Sukman's pupils suddenly constricted, and he almost could not help but stand up again!

That Was...

Bang!

In the next second, a blood light shot up into the sky. Bi Lan let out a pained howl, clutching her head and kneeling on the ground. Meanwhile, the black snake that was wrapped in the black fog lost its strength and rolled down from Chen Ye's body.

As the blood-red light shot into the sky, it landed on the ferocious head of the black snake that was wrapped in the Black Fog!

“Hiss! !”

As the head fell to the ground with a ding-dong sound and Bi Lan’s pained wail, the expressions of the White Fox and the other young man changed drastically as they retreated!

What happened?

The two of them did not even see what happened before they realized that the head of the demon snake had flown out!

Could it be that Lord Sukman had done it?

But wasn’t it a little too heavy?

“I’ve already warned you just now...” Bai Cai gently patted the traces left behind by the black snake on the body of the still stiff Chen Ye and said indifferently, “Tell your snake to stay away from him!”

Hearing this voice, the White Fox looked over in shock. Only then did she realize that the hand of the little elf had unknowingly... Gained a huge knife... ..

Chapter 1632: Cooperation (Part One)

A delicate flower spirit holding a knife about the same size as her own people was indeed out of character, but what was even more out of character was her behavior...

Could it be that this little flower spirit had used such a large machete to chop off the head of the earth demon snake without him noticing?

Hey, Hey...

This was the flower spirit, not the divine guards, right?

Furthermore, such a large machete had chopped off, yet he had not seen it just now? Could it be that he had been distracted?

White Fox had a look of self-doubt on her face, while beside her, another young disciple wearing a light chain armor had a look of shock on his face!

As a samurai who had graduated a hundred years ago and had already half a foot in the threshold of level 13, he had seen a little clearer than white fox, but it was only a little... ..

He could only see a blurry shadow, and then the terrifying Earth Demon Snake’s head was cut off like tofu!

It was unbelievably fast. If not for the huge blade, he would have thought that an assassin had attacked!

The only person who could see the entire process clearly was Sukman, a star-level powerhouse...

But at this moment, Sukman’s expression was similar to that of the young knight wearing the chain armor behind him. Both of them were a little stunned...

He saw it clearly, but because he saw it clearly, he was even more shocked!

When the blade was drawn, his first thought was: good blade technique!

The opponent's movements were unbelievably smooth, as if he was an experienced blade master who had invaded this path. He was completely unlike a child who could use it. The key point was that the opponent was a flower spirit!

However, in the next moment, he felt that something was not right...

Sukman, who was well-experienced, quickly recognized that this was not an ordinary knife technique. No, it should be said that it was not a knife technique, but a top-notch secret technique!

This was... telepathy technique! !

The reason why he could recognize it at the first moment was because he had seen it before!

In the federation, there were very few people who had mastered the telepathy secret technique created by the ancient spiritual race. Moreover, because they did not have a telepathy physique, they would use the incomplete version. However, even if it was an incomplete version, as long as they mastered it.., they would be the top surgical saint in the federation!

The first time he had seen this top-tier secret art was two eras ago. When his big boss had paid a huge price to hire a saint to perform a surgery for him, he had seen it before...

The boss behind him was a major shareholder of star-moon Bank. He was a top-tier druid who walked the path of transformation. As he had been imitating one of the ancient exotic beasts all year round, cloud devouring.., his muscles and bones had been strengthened to almost the same level as magical beasts of the same level.

This also resulted in the fact that once he suffered a major injury, it would be several times more difficult for him to undergo surgery.

At that time, in order to remove the tumor on his chest that had been eroded by the shadow power, the Boss had hired over a hundred surgeons. However, regardless of whether those doctors used psionic spells or high-end mechanical resonance blades, they were unable to complete the surgery, even the epidermis was difficult to cut open.

However, at that time, he had witnessed with his own eyes that the doctor who knew the telepathic technique had only made a light cut, and the boss's terrifyingly strong defensive outer skin and tendons were cut open like tofu!

That scene had shocked him for a long time, and he could not forget it even after two eras.

And just now, the little flower spirit's movements and that extremely familiar energy feeling were exactly the same as the feeling that the top-tier holy hand had given him back then!

No... ! ... It should be said that it was even more perfect. Although that top-tier saint hand was powerful, he did not have a telepathic constitution. Something was more or less wrong. And when this little fellow used telepathic, it did not go against the rules at all. It was so perfect that people could not take their eyes off it!

And because of this, he did not save his subordinate's magical beast because he wanted to see with his own eyes whether or not the other party was using the telepathic technique!

As the magical Beast's head was easily cut open, and the incomparably hard scales were cut open like tofu, Sukman was certain... ! ... this was telepathy, the most authentic telepathy! ! !

Once he was certain of this, Sukman could not help but be shocked in his heart as he stared at the other party...

A flower spirit that possessed a telepathic body and was able to master telepathy?

This was simply a treasure trove. As long as it could grow smoothly, not only would it be a top-notch magical beast cultivator, it would also be a top-notch surgical saint! !

In the federation, a surgical saint who was able to perform surgery on a sea-level powerhouse had an extraordinary status that was not lower than a great Lord!

"Looks like the business can not go on..." Bai Cai said indifferently as he patted away the traces of black fog left behind by the black snake in the morning and night.

His cold voice instantly brought Sukman back to his senses, he hurriedly stood up. "I'm really sorry. It's the negligence of my men that has made you frightened... how about this? I just said that the reward will be doubled. What do you think of this compensation?"

"This..." Bai Cai was stunned. The coldness on his face instantly disappeared. He rubbed his hands together and said with a smile, "How can I be embarrassed?"

The expression of a money-grubber actually made Sukman let out a sigh of relief!

To be honest, a junior with this kind of talent should not be lacking in money in the family. He had said this kind of compensation in a hurry, but he did not expect it to be so effective!

It was a good thing that the other party was so passionate about money. After all, their company did not lack money the least...

"Not at all..." Sukman quickly smiled and said, "It was a subordinate who had an accident and disturbed a distinguished guest. This kind of compensation is deserved..."

"AH... I see, hahaha..." little cabbage rubbed her hands and forcefully suppressed the words that had happened twice more. She did not say it out loud in embarrassment... ..

"That... Is She Alright?" Bai Cai immediately looked at the Blue who was still wailing on the ground with some concern. "I also acted to save her just now. You know that the snake is more dangerous. It will hurt my friend..."

Sukman immediately waved his hand and a gentle energy enveloped Bi Lan. In the next second, Bi Lan fainted from the wailing. However, from her expression, it was obvious that she was much more relaxed... ..

"You don't have to bear this psychological burden..." "...". Sukman smiled and said, "She is an employee hired by our company. Our company is a regular company and we have complete benefits for our

employees. Although it was her mistake that caused it, she is still working for the company. We will compensate her for all her losses and have a complete follow-up supply...". "...". "..."

"Oh..." Bai Cai's eyes lit up again, and she was just about to say, "Is your company still hiring?"?

"Then... Will the cooperation continue?" Bai Cai asked carefully.

"Of course, of course!" Sukman quickly said, "Your conditions are very in line with our company's expectations, and you are an ideal partner. Don't worry, our company's reputation in the market has always been excellent. As a partner of our company, the benefits will definitely be able to reach your ideal maximum...". "...". "..."

"Is that so, Haha..." Bai Cai smiled and slowly sat down. At this time, Chen Ye, who had come back to his senses, looked at Bai Cai's smiling face and was speechless... "...".

"Then let's talk about cooperation? You mainly want information about Helana, right?"

Sukman nodded. "Of course we want information about Helana, but if possible, we would like to work with you personally!"

"Huh?"

Chapter 1633: Cooperation (Part Two) !

"Cooperation?"

This time, it was Chen Ye who spoke. With the help of Bai Cai's telepathic connection, Chen Ye recovered his mental state in a few minutes. When he heard that he wanted to cooperate with Bai Cai, he couldn't help but ask, obviously, he was a little afraid that Bai Cai would be tricked.

The reason why he followed Bai Cai to this place today was because he was afraid that this gluttonous girl would eat his tricks... ..

Sukman glanced at the other party indifferently. With his arrogant personality, he was very unwilling to pay attention to this kind of non-elf outsider junior. But from the situation just now..., this Thunder clan junior seemed to have a very high position in that girl's heart!

It had to be said that this kid was quite smart and knew how to pick a target. Because for this kind of outsider, even if his talent was not bad, it was originally impossible to be together with the starry sky elf noble children, especially with Bai Cai's exaggerated talent!

As long as this moon god family's little girl's bloodline was normal, with this kind of talent, if he, an outsider, dared to be a little bit more careful, he might not even be able to find a corpse the next day.

However, the little girl was a wood elf. This kind of ancient bloodline could not pass on genes, so it was not easy for a spouse to choose someone from the same aristocratic family. Moreover, in order to keep the little girl in the family, he had to choose the method of selecting a son-in-law. This way, outsiders like Chen Ye would have an advantage... ..

It was a person who was good at speculation...

Sukman was disdainful in his heart, but a smile still appeared on his face, he gently explained, "Don't be anxious. The cooperation between the contestants and the investors is not a big deal. We have received countless examples of this, and in the end, it was a win-win situation!"

Pausing for a moment, he continued, "Don't worry, once you participate in the cooperation, we'll tailor-make the most valuable intelligence manipulation for you, and the profit will be very considerable. As the partner, you'll receive a 20% share of the net profit after the operation, and the conservative estimate is that the profit will be more than the upper trillion!"

"Upper trillion?" When Xiao Bai Cai heard this, his eyes were wide open!

Beside him, Chen Ye was also shocked. After all, for such a level of funds to appear at their age was a little too exaggerated. Even for some veteran star level powerhouses, it would probably take at least a few million years to earn the upper trillion!

Bai Cai and the others were shocked. Behind Sukman, the White Fox was also shocked, thinking to himself: has the manager gone crazy?

This kind of gambling company indeed often worked with dark horse players, but never had it been said that the split was so high. It was usually 0.00% or so, how could there be a 30% split? ! The shareholders were afraid that they would fall out!

"This... is the operating cost open and transparent?" Chen Ye pressed down on the cabbage that was about to be pecked by the chicken and raised his head to ask!

Sukman narrowed his eyes slightly. This little guy could instantly react to such a level of wealth and point directly at the key to the split problem. It was rare for him to be so young... ..

Moreover, the key was that his position in the little girl's heart was really not low. It seemed that if he did not nod his head this time, the little girl might not be willing to cooperate!

"Of course!" Sukman continued to smile without leaving any trace, "We are not the kind of black-hearted company that uses the operating costs as a cover to pocket the profits of our partners. Only Goblins would do such a thing. Our company has a professional financial team. The costs and expenses incurred in every detail of the operation will be openly and transparently sent to you. If you have any doubts, you have the right to remain skeptical... "..."..."

"Oh, that sounds very reliable! !" Little cabbage nodded repeatedly.

Chen Ye could not help but roll his eyes at him. The more money one gave, the more reliable one would be, right?

"Can you tell me the specific operation?" Chen Ye asked with a smile.

Sukman confirmed once again that if he did not deal with this guy, he would not be able to complete today's business deal.

"Based on your performance just now, I am very sure that this little girl is not inferior to Helan Nana's top dark horse. Her value is not inferior to the former demon star..."

Sukman tried his best to speak in a conservative manner. To be honest, from his performance just now, not to mention the level of telepathy skill, just the level of his sword attack was not inferior to that of the experienced and ruthless swordsman, with such a top-notch configuration and a top-notch level of battle awareness, according to his estimation, even the crown prince would have a hard time meeting this fellow at the same level!

As long as his level was not pulled too far after entering the ancient lands, it was entirely possible for him to overturn many members of the royal family. After all, with such a configuration, it was not a problem for him to grasp the opportunity to go two or three levels higher...

Its value was definitely not something demon star could compare to...

Sukman: "If you are willing to join the cooperation, we will tailor-make the exposure process for you and strive to maximize your value!"

"How does it work exactly?" Chen Ye asked again.

Sukman said, "There are too many parts to this operation plan. Let me take the most important information exposure progress as an example. Currently, the little girl's information is completely confidential. At least, there is almost no information about your strength in the information that I know. Otherwise, your information would have been opened up long ago."

"So, as long as you can keep your strength hidden and gradually expose your strength through our plan, under our operation, it is possible for your bet to increase as much as you want. You should be a freshman. When you go back, there will definitely be a teacher who will prepare a mission for you with a lot of points. When you cooperate with us, tell us the details of the mission. We will try our best to provide you with information about the other students in the mission as well as the analysis of the points to fight for the various missions. A professional strength evaluator will pick a suitable opponent for you and gradually expose your strength. As for us who know the information in advance, we have an innate advantage in the bet capital operation!"

So that's how it was...

Chen Ye instantly understood the crux of the matter!

Right now, Bai Cai's strength was not exposed to the public. Many people did not know her background and did not even make an opening for her. This was because the information exposure was too small. Just as the other party said, if she planned ahead, every time the mission was exposed to the public, her strength would be..., the person who made the opening for the mission could almost guarantee that she would win without losing!

Moreover, this cooperation was indeed of great help to cabbage. The other party could provide information about the other students who participated in the mission, which would be beneficial to cabbage's performance in the mission. This kind of purposeful targeting and exposure..., was definitely safer and more reliable than cabbage's random fights!

Because the investors would maximize their profits, they would definitely not let people see the level of cabbage's strength before the party. Bi ran would choose the opponent through accurate analysis, which would be of great benefit to cabbage in terms of safety and hidden strength!

If nothing else, it's a win-win... . .

"Interesting..."

On the planet Nomorrigan, Alice, who was the first to get the news of the cabbage, Rose slowly from the ice. "This can solve the short-term shortage of funds..."

"Uh? What Situation?" Nearby Feng Dou Dou eats the dessert that oneself endured pain to exchange with the integral, cautiously asks.

Alice glanced at the desserts in his hands and curled her lips slightly. "Let's go and earn some money for the desserts..."

"Oh?" Feng Doudou's eyes immediately lit up!

Chapter 1634: The Lucky White Fox (I)

"My Lord, is it really alright for you to offer such a price?"

After Bai Cai and the others left, the one who asked was the elven knight beside the White Fox. Compared to the low-ranking white fox, he was also a space elf and an outstanding junior. He was Sukman's confidant whom he had deliberately nurtured. Naturally, he had the right to speak... ..

"Do you remember the highest price we offered demon star back then was only 0.1%?" Although it was later snatched away by other bidders, the other party's offer was at most 20% more than the base price, to be able to offer 0.12% was already a huge concession. How could it be like today, where it was directly split into double digits?

Since the beginning of the popularity of interstellar fellowship, there probably hadn't been such a cooperation, right?

"You don't understand..." Sukman shook his head lightly, but did not say anything. He would explain to the shareholders that the little girl was indeed worth this price.

Putting aside the profit from the cooperation, just the fact that she might become a saint-level surgeon in the future was enough for him to rope her in like this, not to mention her qualifications and conditions, if he did a good job, he could definitely bring in a hundred times more profits than planet demon!

As long as the shareholders were not stupid, they would not think that this was a loss-making deal!

"Send blue to the starry sky hospital and get the best spiritual master to treat her. You have a good relationship with her, so you don't have to follow me for the next few days. Stay with her in the hospital. When she wakes up, tell her that the company will fully compensate her for her losses. When she recovers, they will directly arrange for a spot in the Ancient Land of the Demonic Abyss for her. There will also be a professional expert to help her capture better-quality shadow-type magical beasts. Then,

we will compensate her for the cost of the medical recovery and the cost of the magical beasts' losses according to the current market price, so that she can rest in peace. The company will not mistreat her!"

As soon as he said this, the expression of the elven knight who was supporting aquamarine instantly became much better.

To be honest, he was a little dissatisfied with Sukman just now. The speed of that little fellow's blade attack was indeed a little exaggerated, but he did not believe that as a star-ranked powerhouse, Sukman would not be able to stop it. The only possibility was that he did not want to stop it at all!

He believed that Sukman definitely had a reason for doing this, but for them, especially aquamarine, the damage was not small. No matter what the reason was, it was indeed a little chilling for their subordinates.

Fortunately, the other party was still able to appease him after the incident, and the compensation was also very generous. They even arranged for a spot in the ancient lands!

This was not a small sum. He had been in this company for more than a hundred years. He knew in his heart that even a regional elf like Sukman did not have many spots in the ancient lands, especially in a good place like the demon Abyss, there were probably no more than five of them!

It's a gesture of good faith to give it to bilan...

So bowed his head: "I first on behalf of Bilan thank the Lord..."

"You're welcome... She deserves... "Sukman turned back and looked at her gently. "I really had to do it just now. I have to confirm the secret skill of that Elf girl. It's very important. I really have wronged bilan... "...". "I'll come and apologize to her personally when she wakes up...". "..."

"You're too kind, my Lord..."the Elf Knight's expression eased up a lot again. Regardless of whether the other party was just putting on a show or not, this stance was enough...

Behind him, the White Fox curled her lips slightly. Her stance was indeed very good, and the compensation was also in place. If it were her, she would definitely be willing. However, this also proved that the other party was someone who could sacrifice her subordinates at a critical moment... In the future, if she did not pay attention to critical events, she might not even know how she would be tricked to death...

However, she was in a good mood. After all, she had introduced the elf girl to her. The bigger the project that the ELF girl worked on, the higher her commission would be...

That's right. When she received the commission this time, she would see if she could apply for a low-end spot in the ancient lands. A place like the demon Abyss was definitely something that she did not dare to think about. However, places like the underground cold pool or the Blackwater swamp could still be tried... ..

Today was really a lucky day...

The White Fox smiled as he looked at the place where Bai Cai had left...

..

“Bai Cai...” on the other side, Chen Ye followed Bai Cai out. His right hand kept rubbing against each other as if he was reminiscing the feeling of Bai Cai holding his hand in the private room.

At this moment, the two of them were very close to each other, and their hands were also very close to each other. However, Chen Ye was afraid that if she suddenly pulled her hand over, she would scare the other party... ..

Alright... .. The main reason was that she didn't have the guts...

“What's Wrong?” Bok choy tilted her head and asked. At this moment, her eyes were smiling so much that they formed a line. It was obvious that she was very satisfied with the results of this trip!

“I was thinking... shouldn't teacher ni Lan vent her anger on this matter?”

“Uh...” Bai Cai's beaming expression froze when he heard that. He cautiously looked at Chen Ye and said, “I already told you... You Won't get beaten up, right?”

After all, Ni Lan had repeatedly told her not to run around and not to use her school credits recklessly. If she found out that this little girl was not only gluttonous, she even went to the arena without permission, she would probably fly into a rage...

“You Know Fear Too?” Chen Ye rolled his eyes at her, however, he still said earnestly, “Although teacher ni Lan is a little harsh on you, she is definitely the only person in Teldar Hill who is on the same side as you. She will definitely not harm you. This is the first time we have come into contact with this kind of thing. It may seem like the cooperation is very beneficial to us, but there are no specific pitfalls. We have too little experience and it is very easy to not notice. At this time, we need an experienced elder to guide us!”

“Oh...” Bai Cai pouted, but then she smiled and said, “Of course, mother and I are on the same side, but we are definitely not the only ones who are on the same side with me!”

Chen Ye was stunned when she heard that. Who else was there? Could it be her Duma father who sold her?

“And you! !” Bai Cai looked at Chen Ye with a smile. Under the Starlight, her bright smile made Chen Ye's heart jump!

“Cut... ..” forced to stop his lips want to Curl Up, morning and night rolled his eyes at the sky: “It is clearly forced by you on the... ..”

Under the Starlight, the shadows of the two teenagers almost overlapped, surrounding the elements around the two people, feeling the two people are obviously happy mood...

The next day, the newly appointed White Fox almost early in the morning came next door to the NORMORRIGAN star, became one of the plate here the lobby manager...

At this moment, White Fox, who was in a hurry to take up her position, had mixed feelings. Logically speaking, a promotion was a good thing. Based on her experience, if she wanted to be a lobby manager

in a branch office, she would have to work hard for at least several hundred years, moreover, she had to have good results.

The promotion was obviously a reward given by Sukman, but at the same time, it also completely kicked her out of the circle of the Wood Elf.

Obviously, the other party only intended to give her a one-time payment and did not intend to continue giving her a share. Although the one-time payment looked good, it was obvious that she was at a disadvantage.

As expected, it was a dog leader who was very mean to people other than the space elves!

While she was sighing, a questioning voice came from behind, "Excuse me... is this the branch hall of Xing Hai Bo Le?"

White Fox Wei was slightly stunned. They already had business so early. Not Bad...

But when she turned around to look at the other party, her expression instantly froze...

Undead...

Chapter 1635: The Lucky White Fox (middle)

It was really rare to meet undead in nomorrigan... ..

After all, out of the four major star systems, the one with the deepest prejudice against undead was the eastern star system, which had the largest population of elves. Although Nomorrigan was a planet of the bronze race, it was deeply influenced by the elf culture... It seemed that the entire populace was not interested in undead either. Even when it came to business and academic discussions, most undead avoided the eastern star system...

White Fox looked at the other party curiously. She had heard that Queen XI's exchange team had already reached a certain level of cooperation with the Bronze Academy. Could This be a cooperative exchange student?

That did not seem right. This little fellow's energy was low, and the gene she used was obviously the federation's inferior grassland dark elf body. Moreover, from the looks of it, she was only at level three or four. This kind of talent was clearly not worthy of being an exchange student. Not even qualified to be on this planet... .

But that's discrimination by the locals, and as a vastaya who's not very high up in the union, she doesn't have that kind of discrimination, and she's just been assigned to be the lobby manager here, so why would she eat too much to discriminate against guests?

"Yes... . Ah Li politely saluted and replied, "This is the newly opened branch of Xing Hai Bo Le. You Are Really Lucky, you are the first customer of our branch. If you want to place a bet, according to the rules, we will have the first customer's small bill-free service, as well as many gifts... "..."

"Oh, what gifts?"

Before Alice said anything, Feng Dou Dou, who was behind her, came over. There was obviously some sauce left over from the dessert on his mouth, and he looked very vigorous... "...".

White Fox was stunned...

This guy appeared without any warning, as if he had appeared out of thin air, which surprised White Fox greatly!

A junior of the assassin clan?

The other party's growth rings appeared to be extremely young, but his fighting prowess was a little frightening. Furthermore, the other party was clearly protected by a protective barrier, making it impossible for her to see his cultivation...

But even if she couldn't see him, his fighting prowess wasn't too bad either. Given the fighting prowess of such a young junior, it was likely that he wasn't a member of the royal clan... Wait a minute. ...

The color and shape of his eyes... ... Why did he look so familiar?

This... This isn't...

The image of the little girl who helped him become the hall manager yesterday instantly surfaced in the White Fox's mind...

It was the wood elf again! !

"Hello?" Feng Doudou saw the other party's expression suddenly become dull and waved his hand curiously.

"Wipe the thing on your mouth, you're scaring people..." Alice said with a frown.

"ER... it can't be that serious, right?" Feng Doudou wiped his mouth nonchalantly...

This action made the expression on the white Fox's face become even more strange... ...

It seemed... ... It wasn't just the wood elves that were similar, the relationship between these two guys was also as strange as the two from yesterday.

Speaking of which, the one from yesterday was a little more normal. Although the Thunder clan was not as popular as the elves in Teldrassil, they were still elite disciples who entered the Star Academy based on their ability. Moreover, the two of them were most likely lovers, but what was happening right now?

An elf junior with such exaggerated talent actually looked so obedient to a level three or four undead?

"Excuse me... is this branch hall opening today?" Alice looked around. She walked straight in when she saw the sign of this betting hall that looked very similar to what little cabbage had seen.

From little cabbage's experience, this galaxy gaming club was a place that followed rules very well. This point was quite similar to her galaxy base... ...

However, from the looks of it, it seemed to be very deserted. There was only one person in the huge hall... It was so empty that something was wrong... ...

“Ah... ha, strictly speaking, it hasn't opened yet...” White Fox recovered her senses and quickly smiled. “However, this place is connected to the headquarters, so you can place your bets normally...”

She was also very tired about this. These few days were the opening period, and the company was short of manpower. As the hall manager who had suddenly appeared, she naturally had to recruit her own people.

However, it was not bad. The lobby manager had a regional share. The dog boss was a bit of a dog, but he did not go too far. He assigned her a good market like normorrigan, even though there were already tens of thousands of lobbies on this planet... But being a lobby manager on such a top-tier planet was still very comfortable...

Of course, the prerequisite was to run the business quickly. The first wave of customers in front of her was a sign. If she could do it well, she would do her best... ..

“Are you two customers here to Bet?”

White Fox said with a smile as she connected the AI to the data of the big market. In an instant, a huge betting screen appeared in the middle of the hall. “Is this your first time betting? Are you familiar with this? Do you need me to explain it to you?”

“No need...” Alice smiled and said, “I think I understand it...”

“Oh, okay... This is the list of all the hot candidates in our company's information. Each hot candidate has industry-leading information. Customers can take a look at their preferred candidates...”

“Oh...” Feng Doudou stared at the big screen with his eyes wide open, looking very excited. Alice said that she would bring him to earn money for desserts because she wanted to take a gamble?

This... .. Could it be that she wanted to gamble her hard earned credits?

Feng Doudou's heart skipped a beat. His mentor was keeping a close eye on his credits. Otherwise, he wouldn't be so poor that he couldn't even buy a dessert... ..

If Alice lost everything in one go...

She didn't even dare to imagine the face of that mentor...

“HMM... let me see...” Alice completely ignored the ever-changing Feng Doudou behind her. Instead, she looked at the market, and her gaze quickly locked onto one of the hot candidates... ..

“The customer's taste is really good...” as the hall manager, White Fox Ah Wan could only continue to act as a shop assistant without making a move... ..

“This Prince Polly is one of the more high-quality potential stocks among the most popular candidates in the market. He has a lot of room for profit, especially when it comes to betting on his rise in the rankings. According to the analysis of professional data analysts, the probability of Polly being in the top 15 is very high, not to mention the top 10. Now that he's ranked 25th, the room for him to rise is wide enough, and it's worth investing in...”. “...” . “...”

“As our first customer, if you place your bet today, you will receive a 10% discount, and you will also be rewarded with an opening plan...”

“HMM, that sounds really good...” Alice clicked on the button and looked at it from top to bottom before nodding. “Opening a new set costs 100 million federal coins, right?”

White Fox was stunned. He really couldn't tell that this little undead was so extravagant? This was his first time playing, and he was already playing this big?

Behind him, Feng Doudou was also stunned. 100 million? What did this have to do with the two of them?

“Ah, right...” white fox quickly nodded. “The basic price of the new game is 100 million. Do you want to open a new game on Prince Polly?”

“Yes...”

After receiving a positive answer, white fox was immediately delighted. It was his first day in office, and he had already achieved such a big result. Nomorrigan was indeed a good place.

“May I ask what kind of rules do you plan to open?”

“Just like what you said about the game where the rankings fluctuate up and down. Opening a bid can be used as a banker, right?”

“A banker...” white fox suddenly sucked in a breath of cold air... ..

Chapter 1636: the first strange big order... ..

The banker...

The White Fox looked at the other party in a daze. She did not know whether the other party was a newborn calf that was not afraid of Tigers or simply joking... ..

100 million federal coins was not a small amount. Although the federation had been established for a long time, the purchasing power of the federal currency had always been very strong. Under the advanced financial system and the continuous outbreak of technological revolution,. Countless industries were flourishing, allowing the inflation rate of the federation to be maintained very well. 100 million federation coins was usually very difficult to come up with even for the children of the nobility...

100 million federation coins in a branch that he had just opened was definitely not a small amount of business. However, this money was not enough to be used as a banker..! ... and it was a banker with a fluctuating ranking!

This was not the same level of betting as choosing a fixed ranking. The floating ranking could be said to be the biggest bet among all the gambling rules. Under this rule, a mere 100 million federation coins would probably be lost in the first round, moreover, it was easy for the banker to lose!

According to the rules, 100 million was the principal amount of credit. However, the lowest odds of the floating betting method were three times. If the same amount of money entered, even if there was only

one ranking difference, the banker would have to lose 200 million, if other people were ruthless enough to continue pulling the ranking, they would lose even more!

This kind of bet was believed by a clan elder or clan leader to play White Fox. Such a junior... ..

Suppressing the surprise in his heart, White Fox still maintained his smiling face. "If you are the banker, which ranking do you plan to float? How many digits is the limit?"

"I'll bet on his Ng!" Alice said with a smile.

"Ng? ? ?" White Fox could not help but widen her eyes. "Are you sure? ?"

Ng was a term in the industry that referred to directly being eliminated from the rankings! !

One had to know that the top 500 individuals in the Interstellar Fellowship's personal ranking were considered above the list. The so-called Ng was being eliminated before this ranking, falling below the 500th rank. It was for the Ng of the Industry!

Was this guy sure that he was not joking?

The other party was Polly, one of the candidates for the Crown Prince of the Galactic Royal Family. Behind him was a top knight family. They were rich in resources and could definitely enter the ancient lands to cultivate this year. There was a high probability that they would come out as a dragon-level powerhouse, how could they be above 500?

Unless they were targeted at the beginning of the fellowship and kept losing points, or they were directly eliminated when they could not get points at the beginning!

If it was the latter, there might be a slight possibility, but the possibility was also very small!

After all, Boris was a member of the starry sky royal family, so he would naturally be protected by a large number of royal descendants and Starry Sky Academy's high-level battles in the early stages. The upper echelons of starry sky would definitely not allow a character like him to be targeted by others!

Betting on his Ng was no different from giving money to the white fox... ..

"Pretty sister, do you think I'm Joking?" Alice smiled.

White Fox was slightly stunned...

This name... sounded so familiar...

And he suddenly remembered that the wood elf from yesterday... Seemed to be very concerned about the ninth Prince Polly, and also seemed to be very pessimistic about him. ...

Could there be some secret information in this?

But wasn't this too ridiculous?

Taking a breath, the white fox smiled and said, "I'm sure you know the Ng rule. As long as others buy above the ranking, they can definitely eat you. Think it through!"

"Of course I think it through..." Alice smiled and said, "Pretty sister, just tell me if you can open it..."

The call of pretty sister made White Fox ah Wan a little more patient. He smiled and said, "I can open it, but there must be a limit..."

"Why?" Alice narrowed her eyes.

"According to the rules of the floating law, a quota is at least three times the amount of the bet. Now, Polly's floating bet is more than 25. Those who are willing to bet will also bet in this range. In other words, it's very easy for your bet to have a thousand times the odds. In order to prevent you from not being able to repay the odds in the future, you can't use your 100 million to pry the lever like this!"

"How much can you get?" Alice asked with a smile.

White Fox narrowed his eyes and looked at Alice. "If you can show me the proof of a descendant of your family, I can give you ten times the leverage..."

Alice frowned slightly. "What if he's not a descendant of a noble?"

White Fox was stunned. This little guy who could easily take out 100 million was not a descendant of a noble?

"If not... Then I'm sorry. In the absence of security, with my authority, I can at most give you double the leverage!"

"Is there no other way?"

"Phew..." white fox sighed, she resisted the urge to roll her eyes forcefully and said, "It's not impossible. If there is enough money to prove it, for example, if you can take out 10 billion cash in one go, I can give you ten times the leverage!"

"What if it's more than ten billion?" Alice smiled.

White Fox: "..."

Is this kid serious?

Feng Doudou was even more confused. If he didn't finish his dessert, he might accidentally stuff it into his nostrils... ..

Boss, what are you talking about? We are clearly two poor B * stars who can't afford to ride a magnetic bus when we go out, okay? Why are they talking about a deal worth hundreds of millions now?

The reason why the two of them came to this new shop was that the new shop was not far from their branch school, just outside the north gate of the school. Alice's original plan was to take a magnetic bus to the city center...

It would take them a day and a night to sit there. It was a waste of time, but it was very cheap, which suited their current economic status.

How did the boss of a new shop become so pretentious when they walked out of the door in the blink of an eye? Was he bullying the new owner of the shop who did not have security?

“You... are not joking?” The white fox frowned. Although it was a bit of an exaggeration for a junior to be able to fork out 100 million, it was not impossible on a super star like NORMORRIGAN.

10 billion, then he was obviously here to brag...

“Of course I’m joking...” Alice smiled and said, “How can juniors like us be able to fork out so much money?”

The White Fox: “...”

It seemed that she would have to play the role of a security guard...

“Ahem... Let’s do as you said. Double the leverage and open a bet for me first...”

“Ah?”

Just as she was about to roll up her sleeves and throw the two brats into a ball, she suddenly heard this sentence, and the White Fox was instantly stunned... ..

“You... you really plan to open it?”

Alice tilted her head and looked at the other party with dissatisfaction. “Of course, do you think that I wasted half a day here just to play with you?”

The White Fox: “...”

“Or do you mean that you just opened a shop here and can’t trade? Forget it, I’ll go to the next shop...”

“Ahem... of course not!” The white fox quickly said, “VIP, this way please...”

Fifteen minutes later...

When Ah Wan received the 100 million federal coins from the other party’s electronic transfer from the system, his expression immediately became very strange... ..

This guy... is he serious?

Feng Doudou was also dumbfounded. He thought in a daze, “This guy... really has 100 million? ? ?”

“Esteemed VIP, I have opened a new account for you... is there anything else you need?”

“Yes...” Alice took back her electronic card and pulled Feng Doudou, who was still in a daze. “Do you receive information here?”

White Fox: “...”

Chapter 1637: the poor and short-sighted Feng Doudou... ..

What was with this strange familiarity?

The White Fox stared at the other party in a daze and forgot to reply for a moment... ..

“HMM?”

Seeing the other party in a daze, Alice frowned slightly. "Is there a problem? Is this new shop not supporting the sale of intelligence or something?"

"No, no..."the White Fox shook its head repeatedly. "I'm sorry, sir, I was distracted just now. May I ask, what kind of information are you planning to sell?"

"Of course it's the information of the popular candidates..."Alice smiled. "Do you receive other information here?"

"Sir, you're right..."the white fox smiled and replied in agreement.

In fact, other than the popular candidates, other information was also accepted. For example, the Academy's mission information, which high-level fighters would be sent by those high-level families to escort the students, the location of the mission, and the specific students who were doing the mission. All of them could be bought and sold, but the value of this kind of information was relatively low. Moreover, it had to be rushed. If it was late, it would be worthless... ..

"It's mainly about the information about some students in the Bronze Academy's Combat Department's class-a Class..."Alice smiled and said, "I wonder if it's valuable here?"

"Combat Department's class-a Class?"White Fox's eyes narrowed, she smiled and said, "Is there a specific person's special channel? Because our company already has four insiders in class-a class. If it wasn't for the special channel of some specific people, the information that you heard might have overlapped with theirs..."

There were dozens of popular candidates in the Class A of the combat department of the Bronze Academy. After all, the main specialties of the bronze clan were divine craftsmen and warrior fighters. However, divine craftsmen were rare, and most of the close combat courses were the same as warrior fighters. Therefore, the students of the two departments of Class A would be gathered in the same class, which resulted in the quality of the Class A of the Bronze Academy of combat being extremely high. There were quite a number of popular candidates who made the list before every social gathering...

In such a popular place, their company would naturally spend a lot of money to provide intelligence personnel. Most of the basic information was not lacking, unless there was special information... ..

"There is..."Alice smiled and pushed Feng Doudou, who was beside her, "She is also a member of Class A. she can help you accurately test out the strength of the popular candidates that you want to know..."

"Oh?"

Hearing this, the White Fox was stunned and looked at Feng Doudou...

Actually, she had wanted to ask just now. This Wood Elf was extremely skilled, but there was almost no trace of her in the intelligence reports...

"May I ask, which family are you from?"The White Fox asked curiously.

"Eh?"Feng Doudou was stunned for a few seconds before he immediately shook his head. "I'm not from any family... i... I'm what you call a native..."

Native?

This answer made the white fox heave a sigh of relief. There was finally something that didn't overlap with the child from before. However, this answer was very normal. weren't ancient bloodlines usually born in a native. A person like little cabbage was a special case... ..

However, if he was born in a native, wasn't that a bit too arrogant?

One had to know that this was the bronze academy, or Class A, where most of the members were members of the royal family and the royal family. The rest were usually either top-notch nobles or top-notch geniuses from the Fourth Galactic District, 'you said you can accurately measure the strength of others?

'even if you have some talent, isn't that a little too arrogant?'

The White Fox curled her lips slightly in her heart and thought to herself, 'he really came from a small place. He doesn't know the immensity of Heaven and earth...'. ...

However, on the surface, she would not say that. After all, the other party was a big customer who had just spent 100 million federation coins, and it was the kind of customer who would only lose money...

"Ahem..."the white fox coughed lightly and said with a smile, "Customer, I will report this matter to the higher-ups. If the higher-ups are willing to cooperate, we will inform you immediately..."

"Do you not believe in our strength?"Alice interrupted him coldly... ..

"Ugh..."the White Fox's smile froze, and he felt awkward for a moment. wasn't it obvious. He had to say it out loud...

"With such a big opening, you should have a professional tester, right?"Without waiting for the other party to continue to be perfunctory, Alice said directly, "Or is it that you haven't set up a new shop for the time being?"

White Fox:"..."

Why was this little undead so annoying...

"Ahem... Sir, you're right..."in the end, White Fox chose to lower his head and apologize. After all, he was a big shot who had offered 100 million federation coins, and it was his first day on the job. It wouldn't be good if he was complained to by a customer right after he arrived... ..

"Please Wait a moment, I'll go and ask the higher-ups to send people over to test..."

As he spoke, he poured tea for the two of them and even brought them exquisite snacks. This made Feng Doudou, who had planned to put on a stern face like Alice, unable to hold it in any longer. He smiled and rubbed his hands together... ..

After White Fox left, Feng Doudou hurriedly took a piece and stuffed it into his mouth. In an instant... .. His face revealed an extremely satisfied expression...

"Sure enough, it's a big company. Hehe, the taste of this snack is amazing. It's even better than the school exchanging points!"

Seeing this, Alice rolled her eyes. wasn't this guy usually quite serious in the base? Why did he feel so useless when he came out?

"Oh right, Alice..." Feng Doudou asked as he ate the snack. "Is it okay for us to do this? We even sold our classmates' information. If we're found out, we won't be fired, right?"

"Who let you be found out?" Alice rolled her eyes. "Didn't you see what he just said?" There's already four or five people on the inside, which means more than one person is selling Intel, which is a no-cost business, and if you don't do it, there's plenty of other people to do it... ."

"Oh Oh..." Feng Dou Dou heard the words nodded: "That... can we do it?"

"Whether we can do it or not depends on you." Alice looked at him and said, "If the tester can knock you over with a slap later, we won't be able to do it..."

Feng Doudou: "..."

"This is a big deal!" Alice looked at her faintly and said, "If you want to get out of this situation where you can't afford to go out and take a bus, and you have to deduct four or five days from your daily expenses for a snack, you have to be a little stronger later. Don't lose too quickly!"

"Oh..." Feng Doudou nodded solemnly. "I'll do my best!"

It was about pocket money...

"Then boss, Hehe..." Feng Doudou rubbed his hands and said, "How much money can I earn from this so-called Big Deal?"

It wasn't her fault that she was useless. It was just that she was too poor these days... ..

When she came to the school, she needed money in one way or another. Every time the teacher asked her to prepare something, she couldn't because she didn't have the money. She applied for a divine craftsman herself... However, she couldn't even afford a decent weapon, and it was her teacher who gave her a private subsidy... ..

Although her teacher liked her very much, it wasn't good to keep doing this. Especially when her teacher had to give her a subsidy for some private nutrition products, she felt a little uncomfortable... ..

After all, school hadn't started yet...

When had she ever been worried about money when she was in the base. But now... .. He was becoming less and less confident. In the end, he was still poor and short-sighted... ..

Seeing Feng Doudou's expression, Alice smiled. "Don't worry about business. I Won't let you down..."

"Hehe, that's true, that's true..."

Chapter 1638: This guy...

Feng Doudou had no doubts about Alice's ability to do business. After all, Alice was the one who had helped little cabbage develop so well in the base.

According to the analysis of Huaxia City's professional data evaluators, Alice had been able to predict the market ahead of time almost every time. She was a top-notch business talent, and the materials that little cabbage operated didn't collapse. The result is that no one can compete with the cabbages in the raw material market on the base...

But for the test to come... She's still feeling a little guilty. . .

"Hello, is this Mr. Ivan? Thank you for coming..."

On the other hand, Omaru in a hurry to contact the people above, less than half a quarter of an hour, the company sent professional testing personnel... ..

Ah Maru originally thought that the company wouldn't pay attention to a newcomer like him and would casually send an amateur over. However, after knowing the identity of the newcomer, he instantly dispelled the uneasiness in his heart. It seemed that even though he was a newcomer in this area... The higher-ups didn't look down on him too much... ..

The newcomer was an extremely handsome star elf. If a friend had seen the previous year's fellowship, they would definitely be able to recognize him. He was one of the most popular candidates from the previous year: Ivan. Delanos!

The number one swordsman of the previous year's star Sky University's School of Divine Guards had obtained the top ten results for several consecutive years. In the previous year's fellowship, he was estimated by many faction evaluators to be a strong contender for the top three, however, an accident occurred in the last year's fellowship. He met the top Dark Horse of the previous year: Demon Star!

He was directly eliminated in the third round's periphery, causing many large markets to lose all their underpants...

This was also the reason why Ivan didn't have the face to report to the god Guards after graduation. Instead, he chose to work for a private company. However, his strength was unquestionable, causing him to be valued as soon as he arrived at Star Ocean Bole.

He wasn't on the same level as a salesperson like Ah Wan...

"Where is he?" Ivan didn't even glance at Ah Wan, the branch manager, as he asked indifferently.

Maru was used to these arrogant space elves. He didn't show any emotion on his face. He still smiled and said, "He's waiting in the hall. I'm sorry to trouble you, Sir..."

"Well..." Ivan nodded slightly, indicating for him to lead the way... ..

Maru quickly walked to the front without any hesitation.

Ivan was born in a big family. Among the Star Elves, Drennos was a Knight family on the same level as the Huiyang family. He was the actual master of the Seventh Legion among the ten legions.

Ivan was a direct descendant. Although he was too ashamed to go back for the time being, with his status, he would sooner or later return to his family's military force and become a high-level military official. To put it bluntly... "...". Coming here was just a temporary retreat from the limelight. The company treated him with the attitude of roping in the future high-ranking officials of the seventh legion. Even the district manager was polite to him, not to mention a small fry like Ah Wan... It was indeed a great honor for him to come personally...

Soon, Ah Wan led the way, and the two of them arrived at the hall. They saw Feng Dou Dou who was enjoying his sweet meal... ..

"Undead?" Ivan furrowed his brows. As a space elf, under the influence of the culture of his race, he had a natural aversion to things like undead... ..

Alice slowly stood up and bowed slightly. Seeing this, Ivan hesitated for a few seconds, but in the end, he still bowed slightly... ..

Although he was born noble, his current identity was still a staff member under the banner of Xing Hai Bo Le. He should still have a certain level of professionalism when facing guests... ..

"May I know who wants to be an intelligence officer?"

"Oh..." Feng Dou Dou quickly stuffed a crystal clear light blue cake into his mouth and stood up. "I, I, I..."

Ivan looked at him and frowned again...

This growth ring... .. He was too young. He might not even be a hundred years old!

"I heard from Maru that you want to take on the role of an intelligence officer from Class A?"

"Yes, yes..." Feng Doudou rubbed his hands and laughed. He looked like he couldn't wait... ..

Ivan resisted the urge to curl his lips, he said indifferently, "There are currently twenty-three royal disciples, thirty-five royal disciples, and fifty-seven Top Noble Disciples in the Class A of the combat department of the Bronze Academy. The remaining hundred or so people are also outstanding people from the five major galaxies. It's not easy to be an intelligence officer in this class. You have to have the strength close to that of a noble disciple. Otherwise, you can't even roughly estimate the strength of a popular contestant. Do you think you can do it?"

"Uh..." Feng Doudou heard Alice's words and immediately scratched his head in guilt. "Well... I don't..."

"I can do it! !"

Alice interrupted Feng Doudou's useless words... ..

Ivan frowned. He didn't understand the identity of this undead. How could he make a decision on behalf of that elf junior who obviously didn't have much confidence? From his aura, it was obvious that this guy was the main character, okay?

"Are you sure?" Ivan narrowed his eyes as he looked at Alice.

"I'm not sure. Won't you know if you try?" Alice also had a cold tone. "After all, the manager just said that you're a professional tester, right?"

The White Fox's face immediately twitched, and she carefully looked at Ivan.

As expected, Ivan smiled coldly. "You're right, customer..." he looked at the dumbfounded Feng Doudou. "Since that's the case, customer, come over here..."

Then, he walked to a relatively spacious area...

"Go, what are you standing there for?" Alice rolled her eyes at Feng Doudou, who was still in a daze... ..

"Oh..." Feng Doudou replied and carefully followed him, giving off the feeling of a dead duck on the rack... ..

"Mr. Ivan..." the White Fox hesitated for a moment and couldn't bear to shout, "Please be careful, don't hurt the guest..."

"I know what I'm doing..." Ivan replied coldly...

White Fox: "..."

How did he look like he knew what he was doing?

Ivan walked to a slightly more spacious area in the hall. With his hands behind his back, he looked at the other party coldly. ...

Feng Doudou looked at his position and said carefully, "Are we fighting here?"

The floor of the hall was crystal-colored. It was extremely magnificent and looked very expensive. If he accidentally damaged it, he wouldn't be able to afford it even if he sold himself... ..

"You don't have to worry..." Ivan said calmly, "Just do it..."

"Oh..." Feng Doudou heard him and obediently took out the red short sword he had just obtained. ...

Good Sword! !

Ivan narrowed his eyes and instantly felt that the sword was different from the others... ..

"That..." Feng Doudou looked at him curiously. "You... Don't have a weapon?"

"You don't have to worry about me. Just take action..." Ivan looked away from the short sword and his expression turned cold again.

A sword was a good sword, but in the hands of such a young girl, it was no different from scrap metal...

"Okay... then... I'll take action?" Feng Doudou asked again with certainty.

"En..." Ivan's voice carried a hint of impatience... ..

Bang!

Feng Doudou didn't say anything else. The short sword in his hand instantly turned into a streak of red light and slashed out!

The speed and fluency of his sword caused the originally cold and indifferent Ivan's pupils to suddenly shrink!

He had never expected that this little guy with less than a hundred growth rings would be so terrifying. With a flash of the sword light, he realized that his eyes couldn't catch it!

Subconsciously, without any hesitation, with his rich battle experience, Ivan suddenly bent backward and rolled backward. His movements were extremely indecent as he rolled backward on his donkey, instantly pulling away from him!

Feng Doudou did not choose to chase after him. The sword light in his hand instantly stopped and turned into a crimson short sword. The Flash of red light left a faint lotus flower between the two, as thin as a red line... ..

The White Fox in the distance was also shocked. She didn't even see when the other party attacked. At this moment, she saw Ivan Rolling on the back of his donkey in a sorry state. She was dumbfounded, as if she didn't understand what had just happened... ..

Ivan slowly stood up. His slender white hand touched his chest. There was a faint sword mark on his soft armor. It felt hot and hot...

After a few seconds, Ivan recovered from his dazed expression and looked at the girl holding the sword opposite him... ..

This guy...

Chapter 1639: Fierce Battle

He thought he was just passing by to help a junior who didn't know the immensity of Heaven and earth, but he didn't expect to meet a tough opponent! !

Ivan touched the burning sensation in his chest and slowly took out his sword from the space...

In the field of testing and intelligence personnel, it was very rare to encounter real goods, because most of the capable ones were aristocratic children who didn't lack resources at all. They wouldn't engage in such a business of selling information about their classmates, and those who were willing to do this were mostly foreign children who had chosen to give it a try because they were really short of money.

However, most of these children who were born in the wild were not very skilled. Of course, this did not refer to the average level of the general population. After all, those who could afford to enter the Bronze Academy's Combat Department were naturally among the top of the general population, this was usually targeted at them.

Compared to those who were born in the top noble families, most of the unorthodox students weren't of the same quality. People like Yao Xing were definitely rare...

And the test mission was to test out a decent student among these unorthodox students. Ivan had been doing this for a few months, and he had to deal with people of normal standards (stinky fish, rotten shrimp...), this also caused him to gradually disapprove of this position.

But he didn't expect... .. To really be able to meet such a rare person...

“Mr. Ivan?”

In the distance, White Fox cautiously asked. Although she didn't see it clearly, looking at the situation just now, it seemed... .. Ivan had suffered a loss... ..

According to the standards of a tester, to be able to do this, he should be considered qualified...

Ivan ignored the white fox. After pulling out his sword, he looked at Feng Doudou with a serious expression. “Girl... What's Your Name?”

Feng Doudou was stunned. Why did aliens like to ask for names in the middle?

“Feng Doudou...”

“Feng Doudou? Strange name... My Name is Ivan Drennos!” Ivan bowed slightly and waved the icy blue longsword in his hand, the divine light on the blade was restrained, and the elements were exquisitely locked within the runes on the sword. Regardless of the structure or material, anyone with an eye would be able to tell that it was a high-grade treasure sword.

As the energy on Ivan's body gathered, the rune array on the longsword in his hand was activated, and the temperature in the entire hall plummeted... ..

This operation made Feng Dou's eyes light up...

In terms of physique, the elves were far inferior to the strength-based races of the Titans. Therefore, most of the later schools of thought used energy-based battle techniques. In wuxia novels, this was called internal sword techniques... ..

However, when they were at the Mars base, there were very few techniques in this area. After all, the method of controlling energy-based battle techniques was considered a high-end technique and was sold at a high price. Seer, this stingy lord, naturally wouldn't prepare a large amount, he only bought some basic techniques as a symbolic gesture.

After arriving at the Advanced Academy, Feng Doudou realized how crude his previous techniques were. These days, other than undergoing basic training under the guidance of his mentor, Feng Doudou spent most of his time reading references about Qi in the library.

It was obvious that the other party was an expert in using Qi. The energy he emitted was as thin as a hair, and he used his small size to communicate with the surrounding elements. It was like a button that tightly connected the powerful energy in the surroundings... .. Feng Doudou was envious when he saw this... ..

She also tried to mobilize the energy in her body and release it as much as possible... ..

After imitating the other party's breathing and understanding his meridians over the past two days, Feng Doudou tried his best to release the energy naturally...

Hiss Hiss...

Soon, the fiery-red short sword began to emit a faint red light. It was obvious that it had sensed the reaction of Feng Doudou's energy. However, a discerning person could tell that the result wasn't ideal.

The runes on the short sword were basically not activated... It just gives off energy. It's very inefficient...
..

Ivan frowned at the sight...

The way the opponent used his Qi was so crude that it was obvious that he didn't even understand the runic matrix of his sword. He wondered if he was pretending to be a student of the bronze academy... ..

Chichi...

As Feng Doudou increased his energy, the short sword in his hand was like a teapot with only half a pot of water in it, roasting over a fire. The sound was hoarse and unpleasant to the ears. Even the white fox in the distance couldn't help but cover her head.

Wasn't this a little too watery?

Feng Doudou's face also turned red. He knew that he hadn't imitated it properly, so he could only bite the bullet and say, "Sorry to Offend You!"

"Mm..." Ivan nodded slightly, but he didn't look down on his opponent's crude qi-using technique. After all, he had almost been eliminated in one move. ...

Actually, in theory, he had already lost...

Bang!

As Ivan nodded, the short sword in Feng Doudou's hand once again turned into a bewitching red color, and it instantly attacked!

This is it!!!

Ivan's pupils narrowed, and his eyes flashed with a bright light. This time, without being careless, he could barely see the trajectory of the sword!

This little guy's Qi technique was so crude, but the speed of his sword attack was so exaggerated that it was frightening. It was even faster than those top assassin disciples who had participated in the Fellowship Party. Did this guy train his agility muscles every day?

Not daring to hesitate, Ivan's combat aura instantly exploded. In an instant, the icy cold air completely enveloped him, and the elemental particles within a three-meter radius were instantly controlled extremely tightly... ..

Not all melee fighters who were not trained in agility had their own ways of dealing with high-speed techniques. Strength relied on muscle control. In the instant when a high-agility fighter got close to a high-agility fighter, they would use their muscles'sense of danger to quickly react, defense assault.

Warrior-type fighters didn't have muscles of that level, so they couldn't react effectively. Even if they reacted, they wouldn't be able to defend against the attacks of high-agility fighters. Therefore, they relied on the Qi sensing around them!

High-end qi-using techniques would form an arc-shaped domain. The surrounding gas would be connected to their nerve senses. Once there was an invasion, they would be able to sense it instantly. They would use the released Qi to guide their nerves to react!

Dang! !

The red and blue swords clashed, creating intense sparks in the air. Ivan took two steps back before he could stabilize himself. Feng Doudou took advantage of the situation to charge forward, and the short sword in his hand once again turned into a bewitching red light as it shot towards his opponent...

Hiss...

Ivan took a deep breath, and the hand holding the sword trembled slightly as he hurriedly organized his parry!

This fellow's sword speed wasn't an ordinary exaggeration, and it was probably comparable to that of the direct descendant of the Netherspirit family. If his strength was a little higher, his sword would have probably been sent flying... ..

Fortunately, the other party came from an unorthodox background, and his technique was ordinary...

After stabilizing his state of mind, Ivan swept the longsword in his hand, and the surrounding energy rapidly contracted. Relying on the nerve reaction of the Qi connection, he continued to tangle with the other party... ..

In an instant, the swords in the hands of both parties left countless afterimages in the air. Red, blue, ice, and fire, looking extremely gorgeous... ..

White Fox took a deep breath and looked at the scene in front of her. Although she couldn't see their speed clearly, she could vaguely feel that Ivan was being suppressed!

Are all the natives so powerful these days?

However, Feng Doudou, who was in the middle of the scene, frowned slightly because she realized that she was becoming more and more difficult to fight...

Chapter 1640: I Don't know...

It wasn't an illusion that he was getting harder and harder to fight...

If an elder with good eyesight was here, he would definitely be able to see it. Although Feng Doudou's movements were still exaggerated, they couldn't be compared to the beginning...

In fact, Feng Doudou felt that it was becoming more and more difficult for him to swing his sword. The soft and invisible force around him made her movements become more and more unfluent...

On the other hand, Ivan, who was opposite Feng Doudou, was getting more and more comfortable... ..

On one hand, he was slowly getting used to Feng Doudou's speed, and on the other hand, the key reason was that Feng Doudou's speed had become slower... ..

Perhaps it wasn't obvious at this moment, but Ivan, who was in the middle of the stage, could clearly feel the difference in speed. From the very beginning, he was barely able to receive the attacks, but now, he could basically exchange moves smoothly. In his heart, he also knew that after a while... His opponent's speed would become slower and slower, and he would also gain the upper hand... ..

The reason behind this could be seen by those who knew a little about Qi cultivation battle techniques...

At this moment, if someone were to fully open their energy mirror to observe the battle, they would realize that Feng Doudou's sword was already wrapped in a thick layer of energy threads formed by ice elements. Layer by layer, it was extremely fine, but it was extremely tough, sticking to the sword. It also affected the entire energy domain in the surroundings. If one were to fall into such a predicament, unless one could break through the opponent's entire energy domain, they wouldn't be able to escape this slow suppression... ..

Not only the sword, but the ice attribute Qi would slowly erode the joints, causing the opponent's body to become stiff. This kind of Qi erosion wasn't an ordinary elemental invasion. Through the refinement of energy, it would slowly invade under the operation of the energy domain. It wasn't something that could be resisted just because one's body was strong and had a high resistance...

At this moment, Feng Doudou could also clearly feel the bone-piercing chill. It was like a silk thread stimulating his muscles and bones, causing his movements to become more and more inflexible...

Ding...

The two swords clashed once again. Feng Doudou borrowed the force of the collision to quickly pull apart the distance between them. He looked at his opponent and slowly panted... ..

Ivan looked at his opponent and a smile finally appeared on his cold face... ..

At this point, he was almost certain of victory... ..

Actually, in terms of intelligence officer qualifications, the strength displayed by his opponent right now was already qualified, but he didn't stop. After all, he wasn't a professional tester and had his own pride as a young man...

Just now, he was almost knocked down by the other party's sword. If he couldn't win this match, he wouldn't be able to get over that hurdle in his heart... ..

"Hu..."

Feng Doudou looked at the other party and slowly let out a rough breath. He muttered, "Is this the high-level qi cultivation technique that teacher said?"

"What did you say?" Ivan frowned slightly...

"I mean..." Feng Doudou sighed. "If this continues, I'm going to lose..."

"Ah?" Ivan looked at his opponent in amusement. What did she mean by losing? Did she have a way to not lose?

At this moment, Alice finally spoke from afar. "Can you win?"

"I can..." Feng Doudou took a deep breath and stood up.

Ivan:" ..."

The White Fox's face twitched. Was she so arrogant?

"You still think you can win?" Ivan looked at his opponent coldly. At this moment, his opponent's body had already been corroded by nearly 30% of his frost elements. The short sword in his hand had been wrapped in seven or eight layers of energy, his speed was probably not even 70% of his initial speed, yet he still thought he could win?

Unless his opponent could break free of his energy, Ivan was not worried about this at all. At the same level, it was impossible for a Qi practitioner to break free of his energy. That was not something that could be broken free with brute force. Unless the opponent was ten times larger than him and used explosive energy to crush him, he wouldn't be able to break free from his energy control... ..

"You can win..." Feng Doudou looked at the opponent seriously. "You're very powerful, but it's not hard to beat you..."

Ivan:" ..."

Was this praising him and insulting him?

"It's not hard to beat?" In the end, Ivan decided that the opponent was insulting him and laughed angrily. "Then I'd like to see how you can beat me without difficulty..."

Feng Doudou didn't continue to reply. She wasn't someone who liked to explain. What she said just now came from her heart. The other party's energy technique was exquisite and was much more powerful than the few classmates that her teacher used to practice with her. After just a few exchanges, she was almost 30% of her body's functions were locked by that exquisite energy control technique... ..

From this point of view, the other party was indeed very powerful. Feng Doudou admired him from the bottom of his heart... ..

It wasn't difficult to beat her... But it was completely in terms of strength. ...

The other party... .. Was quite different from the red-haired girl from before!

Bang!

After Feng Doudou let out a long breath, the longsword in his hand suddenly let out a clear cry. Under the stimulation of energy, sword Qi soared into the sky!

On the other side, Ivan's heart sank. The other party's method of exerting energy was still crude, but what was with this intense sense of unease?

The last time he felt this way was during a social gathering. It was the first time he had encountered demon star from Tirefarson Academy, that dark horse that had never been exposed before. Before he was eliminated by his opponent in one move., he was also the first to feel this way, and a strong sense of unease welled up in his heart!

"I'm Sorry!"

Feng Doudou spoke again, as if he was announcing something. Ivan, who was opposite him, immediately focused all his energy. He knew that something was coming...

“So... you plan to go to the Bronze Academy as an exchange student for a year?”

In the land of the Red Lotus, the previous king of the Red Lotus was sitting weakly on a soft seat, in stark contrast to the group of red lotus nobles who were kneeling around him.

The Red Lotus race was popular for kneeling. Each and every one of them was in high spirits when they sat upright. Meanwhile, the king of the Red Lotus, who was forced to sit weakly, was like a dying sunset... ..

At this moment, opposite him, the crown prince of the Red Lotus tribe, His Highness the Nether Lord, respectfully requested for the proposal just now... ..

“I’ve already heard what Mr. Jian said after that... ..”the king of the Red Lotus looked at the other party gently. “That child used the Red Lotus form to defeat you. It’s normal for you to feel a little displeased, but you don’t have to care so much. You’re a member of the royal family. Your bloodline has an advantage that other ordinary people don’t have. Once you enter the ancient lands, you’ll be able to quickly pull away from the gap between you and the child you’re talking about. There’s no need to care so much...”. “...”

“If that’s the case, it’s no different from running away!”His Highness the Nether King raised his head and looked at his elderly father. “The royal bloodline is not for me to run away from. I must face this matter head-on!”

“You better think this through...”the king of Red Lotus looked at the other party. “If I don’t go to the ancient lands in a year’s time, I might be pulled apart by the other royal families. After all, the royal family’s only opponent is the Royal Family!”

“If we can defeat her, let alone a year, even if we are three years behind the royal family, I believe that I can catch up with them!”His Highness the underworld spoke with incomparable confidence!

“Oh?”The king of the Red Lotus smiled slightly when he heard this. When he saw the child’s confidence that was as sharp as an out-of-body sword, a hint of satisfaction flashed through his heart.

“Then, do you think that we can defeat her?”

However, this time, the king... .. Didn’t wait for a confident reply...

“I don’t know...”
