

A Bunch 1681

Chapter 1681: Working Wang Feng Doudou!

Early the next morning, before the restaurant even opened, two guys were already waiting there... ..

The two guys stared at each other for a full 15 minutes before one of them said, "Oh, you're here too?"

"Wu... Gou Dan, I missed you so much. Why are you up so early too? You're not here to snatch the food, right? Wu Wu..."

Gou Dan: "..."

Wang Gou Dan felt that Bai Cai had always been a dog-like person. With such a big restaurant, was she afraid that she would snatch all the food?

Moreover, this wasn't her restaurant..? ... It was public, alright? In the past, when she had gone to her place to freeload food, she had looked as if her heart was aching. Why was it like this now?

Could it be... Subconsciously.. ... She thought that this restaurant was hers too?

What great ambition...

Before he could complain, a lazy voice was heard... ..

"You two... Don't you sleep? It's only six o'clock..."

The two of them turned their heads and immediately saw Feng Doudou with a dissatisfied expression...

"Eh, Doudou?" Cabbages were stunned. "You're here to snatch food too?"

"Snatch Your Head!" Feng Doudou couldn't help but hit cabbages on the head. "I'm the head chef! Are you two hungry ghosts reincarnated? Yesterday, you ate eight bowls of noodles, and ate until three o'clock. You came back at six o'clock?"

"Eh?" Little cabbages' eyes lit up. "Doudou is the head chef? So Powerful?"

Feng Doudou snorted. "Of course I'm powerful!"

"No... This restaurant is so big. Are you the head chef?" Eggface was stunned.

Feng Doudou said, "This restaurant is the main restaurant of Holy Light College. They haven't started school yet, and this place was temporarily commandeered to cook for you. However, the head chefs here are still on vacation and haven't returned. The school is hiring them at the last minute. I saw that the rewards are good, so I took this job!"

"Wow!" Bai Cai's face was full of stars of worship. "Doudou is indeed the best in our base. He can become a head chef as soon as he arrives!"

Feng Doudou: "HMPH!"

"That's not right..." Gou dan tilted his head and said, "Aren't you a waiter?"

“Tsk...” Feng Doudou sneered. “Do you think that this restaurant that has already closed down doesn’t even have a head chef? Do you think there will be a waiter?”

Wang Goudan: “So...”

“So, I accepted the task of being a waiter. Other than the waiter, the pastry chef, the bartender, Dun Zi, the assistant, the delivery person, and the hall waiter, all of them are me. I alone took over ten jobs!”

Goudan: “...”

Little cabbage: “Wow, so awesome!!!”

Awesome my ass...

Eggface rolled his eyes. Working ten jobs to earn credits? What kind of poor person would work so hard?

“You... Do you know how to Cook so much?” Eggface was a little curious. From his tone, the delicious noodles from yesterday were actually cooked by Feng Doudou... ..

“Of course I know how to Cook...” Feng Doudou looked at him strangely. “Back in the base, the life skill that could earn credits and quickly learn was cooking. Otherwise, where would you get the credits to go to the training room to level up?”

These words stunned the two of them. They looked at each other, and little cabbage rubbed his chin as he recalled... ..

From the time he entered Mars... .. It seemed that he had never been worried about points, especially after Alice started her business. The other players added up didn’t have as much money as her... ..

Wang Goudan rubbed his head and thought for a moment. It seemed that ever since his dad’s restaurant opened, he... .. He had no idea what points were...

Looking at the two of them, Feng Doudou immediately covered his face. She had almost forgotten that these two guys had never lacked money in the base...

Wang Goudan: “But... can the cooking over there be used here?”

“Of course it can be used...” Feng Doudou said faintly. “The basics are learned quickly. It’s just that the ingredients here are different. As long as you are familiar with the characteristics of the ingredients and the seasoning process, it’s fine. There are already tutorials in the restaurant...”

As he said this, the AI reminded him again, “Master chef, please make preparations. There are new customers coming...”. ...

Feng Doudou was stunned. He looked outside the restaurant and saw a large group of people coming from afar... ..

Instantly, his tired expression was swept away and he cheered up!

“Why are you suddenly so excited?” Eggdog looked at him in surprise.

Feng Doudou: "The Main Chef's mission points are based on the restaurant's profit margin. The more you spend, the more I earn. I thought that most of you wouldn't come here to eat, but I didn't expect all of you to come. Fine, you guys play by yourselves, I'll go fire!"

"Huh?" Little cabbage immediately stared at him. "We were here first! !"

The expression on Bai Cai's face turned fierce. He didn't have the friendship between acquaintances at all. He looked as if he wouldn't let anyone off if they opened the dishes first!

As expected of a dog...

Wang Goudan and Feng Doudou thought with black lines on their faces!

"Then, what do you want to eat?" Feng Doudou quickly served him. This Bai Cai, this dog, changed his attitude very quickly in order to eat. If he complained that his points had been deducted, it wouldn't be worth it... ..

"You have a special dish competition here!" Bai Cai quickly said!

Feng Doudou curled his lips and ridiculed, "You're quite familiar with the rules of this restaurant..."

"This objective is asking you a question, please be serious!" Little cabbage looked at the large group of people who were about to arrive and immediately put on a stern face with his hands on his hips!

"Yes... .. There are a total of four special dishes. They are: celestial bird meat specially provided by Planet Bula, water beast meat specially provided by Planet Edell, Tedar Hill's newest wood spirit mushroom, and cloud lake grass fruit due to the shortage of these four special dishes during the holiday period, this restaurant can only provide one serving per day

"Oh, then give me one serving! !" Cabbage quickly said!

Wang Goudan was stunned. Now she finally understood why cabbage was afraid that she would snatch the food. It turned out that cabbage was afraid that she would snatch the special dish... ..

Speaking of which... .. Why didn't I know about the special dish? Was this the difference between a fake foodie and a real foodie?

"Are you sure you want to eat those early in the morning?" Feng Doudou looked at him speechlessly.

"And the food you ordered is very expensive!"

"It's fine!" Cabbage waved his hand. "I have money!"

Feng Doudou was silent for a while, but in the end, he couldn't help but ask, "Where did you get so much money?"

"Eh? Don't you know?" Eggface looked at Feng Doudou and said, "Cabbage is now the child of a noble family. The one who claimed her is the youngest elder of the moon god family, a top-tier magical beast family. She is also the Deputy Dean of the Magical Beast Department. Of course, she doesn't lack money. Hey, aren't you right next door to her?" "How come you don't know this?"

Feng Doudou: "..."

So Alice's sudden wealth came from Bai Cai?

What was going on? Wasn't this guy kidnapped? Why was he doing so well every time he appeared? If he claimed her, why didn't anyone claim me?

Moreover, Wang Goudan's oily appearance seemed to indicate that he wasn't doing too badly. Yesterday, when he saw his grandfather's hair, it was so shiny... .. He probably ate very well.

Could it be... that he was the one who had led the worst life?

The gathering time was the 12th star of the second day, giving him sufficient time to adjust. Logically speaking, he should have carried out an analysis at night. Early in the morning of the next day, in the dining hall

Chapter 1682: Drawing Lots (first part)

Starting from the dog eggs and cabbage, people started to come to the restaurant one after another. When it was eight stars in the morning sun, almost all the people from the nine academies had come...

This made the group of people from the bronze academy quite surprised...

"This is really unexpected..."the captain of the Bronze Academy: Barth. Copper Beard stroked his bronze beard and frowned. "The restaurant hired a chef at the last minute. I thought it was just for us to eat, so I didn't recruit too many people. It was really a mistake..."

The people around nodded. After all, they were about to enter the ancient lands. In order not to cause water and soil problems, foreign students would usually eat the nutrient agents they brought. It was rare for them to order food... ..

Forget about the one or two exceptions, why were all of them here?

"Don't you know?"Reina laughed from the side. "Yesterday's matter..."

"Eh?"Everyone was stunned. "Yesterday? Did Something Else Happen Yesterday?"

They stayed in the academy and were separated from the foreign students in the temporary dormitory. Naturally, they did not know what had happened.

Reina said, "Something seemed to have happened to the students of Gale Academy yesterday. A group of people were chasing and fighting a person. The one being chased was a little elf girl. She was holding a bowl of noodles in her hand and running around in the corridor of the dormitory. As a result, the fragrance of the noodles spread throughout the corridor. The people who were attracted instantly couldn't help but order a bowl..." "..."

Everyone:"..."

"Is it... Delicious?"Barth asked in a daze.

“It’s really delicious...”Reina nodded. “When I received the news and rushed over, a bunch of people were eating noodles. I couldn’t help but order a bowl. HMM, it’s not worse than old chef Zach’s cooking. This little girl has potential...”

“Heh... there’s such a skill?”In the team, the ponytailed girl sneered. “But it’s also true. It’s hard for children from ordinary families to survive if they don’t learn more...”

Reina glanced at the other party. There wasn’t much sarcasm in her tone, but the feeling of being high and mighty was very obvious... ..

She didn’t really like these scions of wealthy families. As a child of a second-rate family, she didn’t really like these scions of wealthy families who had a strong sense of superiority... ..

“I’ll go and see if I can help...”Reina stood up. “There are so many people ordering food. Doudou probably won’t be able to handle it...”

Without waiting for a response, she stood up and left!

“You’re quite concerned about that Aborigine...”the ponytailed girl smiled after seeing that the other party had left. “But that’s true. I can empathize with her. In our circle, she and that Aborigine can be considered a group of people. Both of them come from humble backgrounds...”

“Is that so?”

In the team, Judge Matt directly interrupted the other party’s words coldly. “But that lowly-born guy is the trump card of the priest branch. What are you?”

“You...”the ponytailed girl suddenly became angry and looked at him fiercely.

“Okay!”Barth waved her hand and said, “Since everyone is here, let’s draw lots here later...”

“Cheh...”the ponytailed girl snorted and didn’t say anything. She turned her head to the side angrily.

Matt glanced at Barth with a hint of disappointment in his eyes... ..

Barth was a passionate and heroic person on the outside, but he was actually a proud aristocrat at the core. He looked down on low-born families, but as the leader of the team, he naturally wouldn’t show it on the surface. But occasionally, some details could still be seen in his favoritism... ..

Matt himself was born into a wealthy family, but he wasn’t a direct descendant. Because he was too outstanding from a young age, he was targeted by direct descendants and elders, so he didn’t have much of a sense of belonging to that wealthy aristocrat. At the very least, he wouldn’t have a sense of superiority.

On the contrary, for someone like Reina, who relied on her own hard work to get results, he admired her the most.

— — —

“Doudou... need help... er...”

Reina walked into the back kitchen, but as soon as she entered the door, she was stunned... ..

In the kitchen, she saw an extremely strange scene!

The entire kitchen was in operation!

The huge flames on the main kitchen table were burning, the cutting equipment used to handle the ingredients and the bones were also in operation, and the specialized tables used to wash vegetables were also in operation! This included the slaughtering of aquatic products, the placing of finished products, the making of pastries, and the stir-frying of hot dishes. All of these were in operation at the same time, but there was only one person who did all of this!

But how did he do it?

He relied on speed! !

At first glance, one would discover that there were dozens of people in the kitchen, but upon closer inspection, one would discover that there was only one person. The figures that filled the sky were only left behind after-images because of his speed. And with his astonishing speed, this native elf... ! He was doing all the work in the kitchen at the same time!

At this moment, Reina was completely stunned...

Putting aside the exaggerated speed, the key point was that at this speed, there were no problems in all the areas that needed to be meticulously prepared!

The ingredients that had been prepared in the boning table were almost perfectly solved. Every piece of caltrop and vein was cut very well, and the complicated tendons and veins were all handled very cleanly... ..

And then there was the hot dish area...

Reina took a look. Although she didn't know what the taste was like, the color and fragrance of the dishes were very well-placed, almost no less than that of the old chef!

This guy, how could he maintain such fine control at such a fast speed?

Reina took a deep breath and recalled Matt's evaluation of this girl... ..

"That Feng Doudou is very unusual. I think he might be a dark horse who can contend against the ace of a famous school. You should pay more attention. After Barth graduates, she might be the future ace of our school..."

When Rayna heard the word "Ace," she thought he was exaggerating, but now... .. From this base attribute alone, it doesn't seem to be an exaggeration...

"Damn, it's okay. The Things Here..."

After waiting for the dishes to be served, a few people from the academy were a little surprised at the speed at which the dishes were served. They hesitated whether the other party had used a machine-made dish. In the end, after tasting it, the taste was no worse than that of a handmade dish, the taste of

the special dishes was displayed to the fullest. Even the eyes of the aristocratic children lit up as they tasted the dishes carefully. The atmosphere in the restaurant was extremely good.

“Damn, Doudou still has this skill...” doggie, who had returned to the table of the Gale Academy, thought to himself. It was a great loss that his father didn’t recruit her to be a chef...

Bai Cai: “Hehe, luckily I came early. The special dishes are all mine!”

After saying that, he fiercely glanced at the people around him, and the faces of the Starry Sky Academy’s group instantly twitched.

Actually, they were quite interested in the special dishes on the Bai Cai table. However, looking at this fellow’s protective manner, it was likely that asking would only bring shame to himself. Most of the starry sky elves were arrogant, but they couldn’t afford to open their mouths... They could only watch as this guy licked all the special dishes beautifully...

In the distance, the Grandpa of Spark Academy chuckled and thought, as expected, Feng Doudou isn’t doing well...

“Everyone! !”

After about an hour, Barth walked to the middle of the restaurant and asked with a smile, “Are you satisfied with the food?”

A group of noble children wiped their mouths and nodded their heads in a reserved manner, showing a barely passable expression.

“Since we have finished eating and everyone is here, we might as well set the location here. What do you all think?”

Everyone was taken aback and frowned slightly. They hadn’t even entered the restaurant to take a look at the surroundings and had already started to set the location. They felt that something wasn’t right.

However, after thinking about it carefully, there wasn’t anything wrong with it. After all, the bronze academy also had to draw lots immediately, so there didn’t seem to be any problems...

“Since master has said so, let’s go according to master’s wishes...” the head priest from the Starry Sky Academy was the first to respond with a smile.

Since someone had opened his mouth, the other academies also expressed that there wasn’t any problem.

And so... ... In this very easygoing atmosphere, the team assignment for this trip began...

Chapter 1683: Drawing Lots (part two)

The result of the drawing lots was very smooth. The rules were simple and transparent. The Bronze Academy would first write the four city gates on a secret paper that could not be easily changed, and then use a barrier to seal it, after the confusion was over, the other seven academies would first choose, and the Bronze Academy would take the last piece.

In this way, the only bronze academy that could possibly know the sequence of the paper would not be able to take the initiative, and the remaining students would not be able to see through the barrier and predict the contents of the paper in advance.

Finally, there was the issue of the temporary handwriting. The secret paper was a record paper made of a special material, and most of it was used to record history. With the laws of the gods, other than the top gods, no one would be able to change the contents of the secret paper. The operation was simple and clear, basically, the possibility of making small movements was eliminated.

Very quickly, Reina hosted the announcement of the first set of data...

The first was the east gate. The two academies that had been chosen were the Tyree Fassen Academy and the Gale Academy!

The moment this result was announced, the faces of the Gale Academy's group instantly turned slightly pale. Originally, after Luo Lan and the other seniors had graduated, the Gale Academy's new team had been at their weakest point in history. Yet, they had been drawn into all the other teams... On paper, the strongest one...

When the other academies saw that the Tyree Fassen Academy had come out first, most of them secretly heaved a sigh of relief. To be honest, even the host, the Bronze Academy, wasn't too willing to meet this team. Under the circumstances where the royal disciples were unable to participate... To be honest, no one was confident that they would be able to deal with demon star, much less the team leader, Demon Edge, who possessed astonishing organizational abilities... ..

The only one who appeared to be somewhat regretful was starry sky academy, especially the silver-haired Elf Tura, whose expression was filled with dissatisfaction and regret... ..

The last time, Starry Sky Academy lost to Tyrifson, losing to a native. In his eyes, this was a stain on his life history. The faster he could find this stain, the more clear-headed he would be.

However, this year was the year of the crown prince. Even if Starry Sky Academy won against Night Shade Academy, which Tyrifson supported, everyone would only put the credit on the current shining crown prince, Tyrande!

In other words, this was the best opportunity to prove that he was actually more outstanding than demon star. Although the scene wasn't formal enough, and there weren't many spectators...

Of course, there were also some people in the windwalker team who were excited. For example, when Bi Lan heard that Tyrande Academy had arranged a city gate with him, her eyes had been flashing with excitement, and she looked like she was eager to give it a try... ..

Then, without waiting for the crowd to think further, the Second City Gate's quota was announced... ..

The two teams at the North City Gate were respectively Divine Arcana Academy and Spark Academy! !

It had to be said that when the two teams that were originally filled with gunpowder collided, the surrounding crowd looked as if they were eating melons. It didn't need to be guessed at all to know that

there was no possibility of cooperation between the people from these two academies after entering the city. They would definitely fight... ..

In other words, there was a high probability that only one team would be able to make it to the end at the north city gate. If there was a live broadcast of this, many of the audience would probably be unable to hold back their screams. Such an arrangement was really worth watching... ..

After the people from both teams learned of the results, they also looked at each other. The people from the Divine Arcana Academy had cold smiles on their faces, while the people from Spark Academy didn't show any signs of weakness.

However, Grandpa Lu, who was in the team, had a very sensitive feeling. Compared to the opponents, his side was obviously more guilty... ..

However, it made sense after thinking about it. After all, one of them was ranked in the top thirty while the other was ranked in the top ten. This ranking could not be faked. Although in the individual ranking., his team's captain, Carmen, was one rank higher than the captain of the Divine Arcana Academy, but in the overall ranking, the Divine Arcana Academy still surpassed them by more than twenty places last year!

In other words, other than Carmen, the others were on a completely different level from the opponents... .. They were not on the same level!

At the thought of this, his grandfather stealthily took a step towards Carmen. He thought to himself, "I must get closer to my thighs later. The remaining weaklings are not reliable at first glance..."

At the same time that Carmen did not show any signs of weakness as he looked at the other party's group of people, his heart tightened slightly.

Don't look at how he often provoked the other party. However, when it came to the distribution, the one he did not want to meet the most was actually the Divine Arcana Academy... ..

Among the academies that he had come to this time, the foundation of the Spark Academy was already the weakest. If he were to meet other academies, he could still try to take a roundabout route. At the very least, the other party would not go too far. However, this academy... There was absolutely no way to take a roundabout route. ...

Very quickly, the two teams at the South City Gate also announced...

They were Starry Sky Academy and Night Nether Academy!

Both were top academies, and they were also one of the Five Great Royal Academies. Moreover, they also had a feud!

Among the Five Great Royal Clans, the night Nether Academy was the one that was the most ostracized. If it wasn't for Queen XI's full support, the status of the night Nether clan would probably not be much better than that of autran. After all, although autran had the possibility of being tainted by the bloodlines of the outer regions... But after all, they were still part of the Elf clan. The Night Shade clan... .. Hehe, in the eyes of the traditional elves, they were evil and unorthodox!

In every fellowship, Starry Sky Academy would spare no effort to suppress ye you. For a very long period of time, before the rise of Tyrifson, the Independent Night Shade Academy was almost suppressed to the point of dropping out of the top ten several times. They were all led by the noble elves of Starry Sky Academy... ..

After the two teams received the results, they both looked at each other with cold smiles. Clearly, this was a competition without any room for compromise after entering!

However, what made people curious was the position of someone from Starry Sky Academy's side...

It was naturally referring to Helana who had joined Starry Sky Academy despite being a night shade noble!

Everyone looked at each other with interest. They were a little curious. What would the other party do? According to bottom-line ethics, this fellow should help his academy fight for Glory without holding anything back, whether it was now or in the future. This was a basic principle.

However, as a night shade noble, would he secretly fight for the interests of his own people at the crucial moment?

Then, it was the people from the Starry Sky Academy. Would they trust Helana when facing the people from the night shade team? This group of Starry Sky Elves who thought themselves to be high and mighty?

However, at this moment, it was obviously impossible to know the answer just by guessing. Reina quickly announced the final results of the south city gate.

After the first three teams had been confirmed, even if the final results were not made public, it was already clear.

It was the bronze academy and the Atlan Elf Academy!

The Bronze Academy and the others were quite satisfied with this result. The opponent's strength was not too weak. If it was the Gale Academy or the Spark Academy, it would more or less make people feel that they had done something, although it was basically impossible to do something to it in this mode, outsiders would definitely criticize it.

Of course, it wasn't too strong either. Although the Atlan Elven Academy's strength wasn't weak, it was completely within their acceptable range. Successfully avoiding the starry academy and Tyrifson Academy, which they had the least confidence in, was considered extremely good news.

Such a result was basically the most acceptable result.

Everyone from the Bronze Academy revealed smiling expressions, while those from the Atlan Academy were sneering to themselves... ..

Right after Reina announced the result, a cautious voice suddenly sounded...

"That... What About Us?"

Chapter 1684: those who have never fought before!

This weak voice was naturally Wang Chengbo's. Mu Yunji's expression was cold and speechless. Although she had long anticipated this situation, she was naturally still uncomfortable when it came to reality...

Many of the academies looked over and watched coldly from the side. Logically speaking, this was an invitation from the Bronze Academy itself. This act of intentionally leaving someone behind was indeed a slap to the face.

But what did this have to do with them?

No matter where they were, those who sympathized with the weak were almost all in the minority, and it just so happened that there was none here...

It was as if the people from the bronze academy had only just noticed these two fellows. Captain Barth immediately covered his forehead, he chuckled and said, "I'm sorry, I'm sorry, I've missed you guys... but I've already chosen this one, so it's not good for me to do it again for you guys alone, right? How about this, you guys choose a door to enter based on the situation, how about that?"

Most of the bronze dwarves were tall and imposing, and their smiles were exceptionally bright and sunny. No one could tell that this explanation was intentional, as if they had really forgotten it at the last minute.

But how could they really forget something like this. The two living people had been in the restaurant the whole time...

Reina, who was behind Barth, frowned imperceptibly, and shook her head inwardly. She did not know why she was making things difficult for the two foreign juniors? Moreover, the two of them were master Gul 'Dan's disciples. If this matter was brought up again, wouldn't the other party be dissatisfied with their own teacher?

Speaking of which, could it be that this fellow had such thoughts in mind?

"Randomly choosing?"

This time, Yunji Mu's voice was extremely cold, causing everyone to involuntarily look over.

To be honest, in terms of appearance, from the federation's aesthetic point of view, although Yunji Mu and Wang Chengbo were standard human figures, they had almost no characteristics. They were not as beautiful as the elves, they also didn't have the masculine beauty of the traditional warrior race.

Their physique and muscles weren't attractive at all. They were the type that one wouldn't pay attention to at a glance.

However, when they opened their mouths, for some unknown reason, that cold temperament made people want to look at them.

"Of course..." Barth smiled slightly. "I think the other academies shouldn't have any objections, right?"

The crowd curled their lips slightly. In the end, they didn't say anything. There was no need to offend the host for the sake of these two small figures. As for the question of what would happen if these two little fellows joined the city gate that they were at... .. Hehehe... .. Would there be any?

"Then let's choose the south city gate..."

A cold voice sounded once again, but this answer made the crowd stunned... ..

Wasn't the south city gate the route that the bronze academy was taking. This choice immediately made everyone look over in amusement. This little girl was really interesting...

Others were making things difficult for you, yet you chose to take the same route as others. What were you trying to do?

The people from the bronze academy were also stunned, and then most of them revealed cold smiles.

The smile on Captain Barth's face froze slightly. Then, he narrowed his eyes and looked at the other party. "Young Lady, have you thought it through?"

"Are you not allowed to do so?" Yunji raised her head and asked.

"Of course not..." Barth immediately grinned and clapped his hands. "This little fellow is really smart. Not Bad, not bad!"

When Barth said this, everyone was stunned at first, but then, most of them reacted a few seconds later.

At first, they would think that this little girl was young and impetuous, and that she was too impulsive. After all, if you forcefully fought back, even though you managed to win back some face, what would be the consequences?

After all, if you didn't have the strength to forcefully fight for face, that would be called iron...

However, if they thought about it carefully, it would be different. The School of Dawn was invited by the Bronze Academy, and the bronze race wouldn't be afraid of Master Gul 'Dan. However, since you had already agreed to let someone come, if you went too far, wouldn't you have completely offended him?

Therefore, this decision seemed impulsive, but in fact, it was very smart. At the very least, one could be sure that the people of the bronze academy would not take things to the extreme. At the very least, they had to leave some soup to drink, unlike the other academies, which had nothing to do with you at all, wasn't it natural for them to snatch away all your money?

Thinking about it, Barth was right. The little fellow was indeed very smart... ..

Faced with the reactions of the crowd, Wang Chengbo was slightly embarrassed. He was a very smart person and almost instantly understood what was going on. However, he understood Yunji. She wasn't the kind of person who could scheme. After all, she was once a sword cultivator... ..

Sword cultivators were straightforward and indomitable. It wasn't that Yunji couldn't think of such a devious little trick, but that she didn't care about what to do...

Sure enough, cloud herder saw a group of people a sudden look, eyes more cold, but did not refute.

She is not a person who likes verbal arguments. We'll see what happens.

"Sex, sex, sex..."

At this time, a group of people in the restaurant after eating and drinking leisurely meetings, except for one person, ... It was Feng Doudou, the head chef of the restaurant, the pastry chef, the bartender, Dun Zi, the assistant, the delivery man, and the waiter in the hall. He was like an old cow cleaning up the kitchen and washing the oil stains in the kitchen...

"Sigh... it's not easy to earn money..." Feng Doudou wiped his sweat and nodded in satisfaction when he saw that the huge kitchen had been cleaned to the point that it was as clear as crystal.

Putting everything else aside, with his speed, he could at least deliver dozens of takeaways at the same time. He definitely wouldn't starve to death!

Just as he was feeling pleased with himself, a message came in the mail. Doudou was stunned. He opened it and his eyes lit up. It was from senior Reina. It was the results of the city team.

He was busy cleaning up and didn't participate in the lottery. He was thinking about how to ask for the results later, but he came just in time...

"Eh?"

After seeing the name list, Feng Doudou was suddenly startled, and then a trace of excitement flashed through his eyes... ..

Yun Ji Mu...

This result really surprised her. Although she had expected to bump into her companions in the base, she hadn't expected to bump into Yun Ji Mu. After all, as a guest invited by the Bronze Academy, logically speaking, the academy should try its best to avoid competing with them.

Interesting...

When she was in the base, she hadn't fought against all the powerful people. There were three people that she hadn't fought yet.

The first one was the little cabbage who had always maintained the highest level record in the base. However, that guy lived like a happy piglet every day. Although his level had always been the highest in the base, Feng Doudou really didn't have any fighting spirit toward her... ..

The second one was Raingirl without a melon!

Many people actually secretly thought that Raingirl was the strongest player in the base. After all, she was proficient in both the Arcana and mecha classes. She was definitely a monster-level genius!

However, she was a mage, and this person had a lot of authority. Feng Doudou didn't really want to fight her... ..

And the last one was Yunji Mu...

Yun Ji Mu didn't have much of a reputation in the base, and many people didn't know about her. However, Feng Doudou knew that she was very strong!

Since she had been cultivating on Europa ever since she joined galaxy, Feng Doudou had only seen her once other than when she went to the New World. However, that time had left a deep impression on her!

That Time... .. Wang Goudan had just returned from his cultivation. When Wang Goudan's aura was still unstable, he was like a demonic sword that couldn't control itself, giving her an extremely dangerous feeling. This feeling was something that even Wang Goudan didn't give her when he first lost control of himself after turning into a black dragon...

At that time, she knew that this was definitely a very difficult opponent!

Chapter 1685: surging ancient bloodline!

Under the leadership of Barth and the others, everyone went through layers and layers of barriers to reach the position of the Guardian Temple of the ancient lands!

The ancient lands were extremely precious. Every spatial passageway needed to be closely guarded. The Bronze Academy had a deep foundation and possessed tens of thousands of ancient lands. With such a huge amount of resources, they naturally needed to be closely guarded!

Every passage in this guarding temple was guarded by countless barriers. Every layer of the barrier was heavily guarded, and there were even experts of the older generation guarding it.

After the retired High Priest, Legion commander, and experts who had once traveled across the universe retreated, most of them had participated in the protection of this temple. It could be said that this place had the strongest military force of nomorrigan, even the imperial palace was not as powerful as the guards here!

The Hemlock Forest was a grade-1 land, so it was valued even more. The people guarding this layer of enchantment were naturally extraordinary experts... ..

"High Priest Capricorn!" Barth respectfully walked up to the priest who was guarding it and saluted him with family etiquette!

The priest who looked as if he had been petrified slowly opened his eyes. Although he looked as young as Barth, when he opened his eyes, his old and heavy aura instantly made people understand that he was an old man who had lived for countless years!

"Oh, the kid from the copper beard family..." the priestess who was guarding the place chuckled and said, "With such an outline, he should be Bohr's child, right? He really looks like him..."

Barth's expression stiffened slightly, and then she smiled and said, "The high priestess remembered wrongly. My father is Bodi..."

"Bohr's brother?" The high priestess frowned, and a strange look flashed in her eyes. "You and your uncle really look alike... just like a Mozi Seal..."

Everyone: "..."

"High Priest..." Barth continued to grin. "This is the academy's Pass, please take a look!"

"Oh?" The other party took out the pass and chuckled. "You should have said so earlier. I thought you were here to greet this old man..."

"Ahem..." the group of people behind could not help but gasp, and the corner of Barth's mouth twitched slightly.

Reina, who was behind him, laughed while secretly shaking her head.

High Priest Capricorn was born outside of the clan. He was invited by the Wildhammer clan to enter the Elder Council before settling down in Romulus. He had never been a traditional noble. It was obvious that Barth didn't really respect others, however, he acted very well-behaved.

'but he's a fate sea-level powerhouse. Can't he read minds? Can't he even sense your arrogant negative emotions?'

"High Priest, please let us pass..." Barth finally couldn't hold back his smile, and his face became a little serious.

"Okay, okay..." Capricorn smiled and slowly stood up. He looked at the crowd, and then his eyes lit up. "Yo, the Juniors this year are good!"

His eyes obviously skipped past Barth's back...

"Your Excellency..." Barth said in a low voice, "Time is a little short, can you try not to delay?"

"About this?" Capricorn smiled. "It depends on your mood..."

Barth: "..."

"Your Excellency..." Reina finally couldn't stand it any longer and walked straight to Barth. "Don't make a scene, junior will come back and bring you some good things to show your respect, Okay?"

"Heh..." capricorn smiled and looked at Rayna. "But you're right. If I don't show my respect when I come out, don't blame me for locking you in there..."

"Ha... I'm afraid I'll have to keep you in there. Don't even dream about such an opportunity..."

"Hahaha!" Capricorn laughed. "The little girl is still so naughty..."

As he said that, he gently tapped on the top of the Rune Circle, and a huge rune circle suddenly lit up. The complicated rune chains made the eyes of several Arcanists of Spark Academy Twitch... ..

To be honest, a few of them were about to graduate, and they thought that they had at least reached the level of master in the field of runes, but now they found that... They couldn't understand it at all. ...

Only Grandpa Lu was staring at the runes in the sky with an inexplicable infatuation in his eyes...

"Oh?"

As a sea-level powerhouse, Capricorn could naturally see the spiritual characteristics of everyone. He instantly noticed the phoenix... ..

He couldn't help but wipe his eyes. For a moment, he wondered if he had seen it wrong... ..

This was an ancient rune array. Most arcanists who didn't have any basic knowledge wouldn't be able to understand it if they read it like reading a heavenly book. Many arcanists who had cultivated to dragon level wouldn't be able to understand it if they didn't cultivate ancient alchemy.

But this guy...

If he didn't see it wrong, it seemed to be connected to those runes inexplicably?

Although it was very slight, he did feel that this little guy was communicating with those runes...

"Which family does this little phoenix belong to?" Capricorn asked curiously.

"Eh?" Everyone was stunned. They didn't know why such a senior would suddenly pay attention to a native Phoenix.

Phoenixes were rare in the universe, but it wasn't rare in the top academies. This senior was at least a sea level powerhouse. It couldn't be that he hadn't even seen a phoenix before, right?

"Hey!" Carmen patted the Dazed Grandpa Lu. "Senior is asking you a question!"

"Oh? Hahaha, I'm sorry, I was distracted. Which Senior?" Grandpa Lu said in a daze.

Everyone's faces twitched. which senior was there?

Capricorn looked at Grandpa Lu in a daze, his heart filled with disbelief...

What did he see?

Just now, when Carmen was about to Pat the Little Phoenix, he was prepared to stop him. After all, the little guy was communicating with the ancient runes. If he disturbed him like this, it would be very easy for the other party to retaliate.

However, he didn't expect that when Carmen's hand was about to touch him, he would suddenly come back to his senses!

Yes, it was the kind of operation that would directly cut off the communication link and instantly bring him back to his senses!

Capricorn looked at Grandpa Lu in a daze before raising his head to look at the rune array above his head.

He had probably been studying the ancient runes here for hundreds of eras, but he didn't dare to say that he would easily cut off the connection with the runes. After all, the ancient runes were extremely complicated and the energy was very unstable., cutting off the connection rashly would easily cause the energy of the runes to become chaotic!

However, this little guy cut off the connection cleanly. Not only did he escape unscathed, but there wasn't even the slightest fluctuation in the communication runes. Even if he came, he might not be able to do it!

Was It Luck?

"That..." grandpa carefully walked forward and tilted his head. "Senior, do you have any orders?"

"Uh... Oh, Haha..." Capricorn Laughed. "It's been a long time since I've seen such a beautiful Phoenix. I'm curious to ask!"

After hearing this, the grandfather immediately raised his head and puffed out his chest like a proud rooster. "Senior, you flatter me..."

Everyone:"..."

How did he flatter them? His butt was about to fly up into the sky...

"Cough, I won't keep you..." Capricorn coughed lightly. His fingers moved quickly, and the symbols in the sky rapidly changed. Soon after, a huge spatial passage appeared in front of everyone!

Through the passage, everyone immediately felt the dense elemental aura in the ancient lands. Immediately, everyone's faces lit up with joy!

No matter what the mission was this time, being able to stay in the ancient lands for a few days was not a loss at all!

However, among the crowd, there were a few fellows whose faces tensed up as they became somewhat fearful.

It was the players led by their grandfather. Almost at the instant they felt the aura of the ancient lands, the blood in their bodies began to boil uncontrollably!

Chapter 1686: Could It Be...

What was going on...

All the players, including Bai Cai, who reacted the slowest, felt their hearts skip a beat. They felt that something was not right... ..

Everyone felt as if there was a huge magnet on the other side of the tunnel, attracting the blood in their veins. For a moment, their bodies could not stop trembling.

The players looked at each other, not knowing what to do. This might be a normal reaction from their first time here... ..

However, there was no time to think. The teleportation array quickly activated. Before the players could communicate with each other, they turned into particles and disappeared into the teleportation array!

"Strange..."

After closing the teleportation formation, Capricorn rubbed his chin and looked at the position where the teleportation formation had been closed with a deep meaning. He had also clearly felt that the elements in the ancient passage seemed to be extremely excited when the passage was opened. He had a feeling that they wanted to rush out... ..

Which child in this team might have a shocking secret!

This... is Hemlock Grove?

People who come here for the first time are deeply attracted by the scene before their eyes.

Towering mechanical trees, magnificent and delicate, although the obvious metallic luster tells you that everything here is mechanized, but the degree of lifelike, but it is amazing, I do not know whether it is an illusion. The group even smelled the fragrance of the plants... ..

Meanwhile, the reaction of Bai Cai and the other players was even greater. When they first arrived here, the ridiculously dense elemental density caused their faces to turn red. Every breath they took made them feel so satisfied that they almost fainted.

Bai Cai and Wang Goudan directly sat on the ground, looking like dead dogs. The others were no better. They supported themselves against the huge metal tree beside them and slowly adjusted their breathing!

Aside from Yun Ji and Wang Goudan, the other players had basically spent the past few months on special-class stars. Logically speaking, they were already quite used to the dense elemental air.

However, they were now on a completely different level. If one said that the air energy on special-class stars was as dense as liquid, then the air here was as solid as a solid object. Moreover, the density of the air here was extremely high.

Inhaling it in one gulp felt like swallowing steel, and the taste was much more overbearing than a strong liquor!

“Ha... what a disgrace!”

On the side of Spark Academy, Amanda looked at Grandpa Lu, who was lying on the ground like a dead bird, and laughed coldly.

The few people beside her frowned slightly. This time, even Jane could not stand it anymore and said directly, “Your first time here was not much better...”

Amanda snorted coldly but did not say anything else. Clearly, she knew in her heart that it was not a good thing to keep targeting her team members in the presence of outsiders.

Because the old students had entered the ancient lands many times, they got used to it in less than fifteen minutes. After adjusting their breathing, they greedily began to absorb the elements around them...

"I never get tired of this feeling..." Yao Xing reached out and touched his surroundings, feel the rich elemental energy from the fingertips across, the feeling is even more intense than directly to touch the sea, this is a physical intuitive feeling, you can see the strength of the elements here.

"Speak as if you often come..." beside the demon Feng mercilessly hit his own brother.

"Hey... . He'll come around... . "yao xing stretched: "We went out of the original planet, is not to enjoy better things? Our planet is a super star, if not for this so-called ancient land, we came out for what? What's wrong with staying with the Baron and paddling?"

Speaking of his lordship, Yao Feng's always cold face flashed a gentle smile: "You are right..."

"Don't be infatuated..."

"Who's infatuated?" Yao Feng's face turned red for once!

This topic immediately attracted the attention of the surrounding people.

"Yo, our captain is so idealistic. He actually wants to flirt with his own deity overlord?"

"That's right. F * ck, that's great. I remember who's Your Overlord?"

"The second lich, Anna Fryer!" A female voice said coldly.

"F * ck!"

The group of people exclaimed again, "As expected of the captain. He has such high standards. He even dares to think of such a person!"

"All of you shut up..." Yao Feng's face immediately turned green. This group of people was making a ruckus. Was it on purpose? There were so many outsiders around!

"BURP..."

Just as Yao Feng was feeling awkward, a long burp was heard. The group of people immediately looked over. It was Wang Goudan, whose face was flushed red... ..

At this moment, she looked as if she was drunk. Her skin was so red that it felt like it was cooked. She swayed and even giggled foolishly, making everyone speechless.

"This..." Yao Feng frowned. "When we first came here, were we that stupid?"

"Of course not!" Yao Xing hurriedly denied. "Although we are all natives, we natives also have different grades, right? We are natives born from special-class stars. We have seen the world. These guys are obviously from low-class stars..."

"These guys?"

Yao Feng was stunned, and then he looked over. He suddenly realized that there were quite a number of natives this time... ..

And they were all like his little monster, as red as steamed crabs... ..

“Everyone...” on the side of the bronze academy., reina held Feng Doudou, who was also a bit unsteady, and said to everyone, “Right now, our position is above the underground city. Because the underground area is too large, we won’t lead the way for you one by one. The coordinates of the respective city gates have been sent to you, and there is a complete electronic map inside. Just follow them directly... : “...”

Beside them, Barth also clapped his hands and smiled. “Everyone, don’t worry about safety. This area has been carefully cleared by our elders. As long as you follow the map and don’t run around randomly, there won’t be any problems. When you reach the city gate, there will be elders guarding there. Show Your Academy Pass and you can directly enter the city gate.”

“But please pay attention to the rules. This mission is a test mission, so students can compete with each other in the underground. As long as no one is killed, they can use any means. But that is in the underground city, and you are not allowed to tamper with it outside the city. No tampering is allowed. There will be a professional tutor at the city gate to check your condition. If someone secretly places a curse or a mark on you, once you are found out, the team will be eliminated. Remember...”. “Yes. “The entire academy has been wiped out, so everyone, please be careful!”

Everyone was taken aback when they heard that. They hadn’t expected such a harsh treatment, but it was a good thing when they thought about it. After all, for those who were good at curses and tracking, it was a little unfair to leave a mark or curse in advance... ..

The faces of the students from Spark Academy and Gale Academy instantly darkened. They felt that these two rules were targeted at them...

“Alright, there’s no problem. Let’s set off separately!” Barth said with a smile. “The city is very big. Although there are many teleportation points set up above us, the energy circuits here are very complicated. There isn’t a spatial array that can transmit all the way to the bottom. Therefore, we have to follow the map and head to many teleportation points before we can reach our destination. Even if it’s a normal journey, it would still take more than half a day. Everyone should set off earlier...”. “...”

Hearing that, everyone didn’t waste any time. After checking the map, they all called their academies to head towards the route on the map.

After everyone left, only the people from the bronze academy and the ignored Yunji Mu and Wang Chengbo were left.

Looking at the two of them sitting cross-legged on the ground with their bodies flushed red, Barth squatted down and said with a smile, “Do you need help?”

“No need...” Yunji opened her eyes slightly and said with great difficulty, “Just give us the coordinates. We will catch up with you later...”

“Really?” Barth chuckled. “Alright, then slow down and pay attention to your safety...”

Yunji slowly closed her eyes again. This time, she didn’t even reply... ..

Barth didn’t seem to mind. He rubbed his nose and stood up to say to his teammates, “Then let’s go first...”

His generous appearance made his teammates’ expressions toward Yunji mu even colder.

“What the hell?” In the team, the girl with a ponytail snorted and directly left. The other students also sneered and followed behind her.

Reina also frowned slightly and thought to herself, “This little girl was quite smart before, but what’s the situation now? She’s acting so recklessly. Does she really think that the people of the bronze academy can’t do anything to them?”?

Even if she didn’t go too far out of consideration for master Gul ‘Dan’s face, her attitude was clearly not going to make things better...

Shaking her head, Reina didn’t say anything more. She supported Feng Dou and followed the group.

After everyone had left, Yunji mu opened her eyes and looked at Wang Chengbo.

At this time, Wang Chengbo also opened his eyes. The two of them looked at each other, and a trace of excitement flashed in their eyes.

“Chengbo, is this the kind of situation that teacher mentioned?”

“It should be!” Wang Chengbo nodded, and a trace of excitement flashed on his face. “Let’s give it a try?”

“Good, try!”

Chapter 1687: Star Spirit Secret Art!

In the mechanically activated forest, the silence was originally frightening after everyone had left. However, after a star or so, two strange sounds broke the ancient silence of the forest.

How should one describe this sound? It was like a huge gust of wind, blowing out one breath after another. If it was a hunter who often hunted star beasts, he might be able to instantly determine that this was the breathing of some huge star beast.

It was similar to a star whale...

However, if a hunter looked closely, he would definitely be shocked. This was because the breathing of the star whale came from two humanoid creatures that were even thinner than the elves... ..

At this moment, both Wang Chengbo and Yun Ji’s bodies were like burning iron. Their hearts were like huge mechanical engines. They were beating crazily, and the blood vessels on the surface of their skin were seeping out, an unceasing flow of energy followed the blood into their hearts. Under the beating of their hearts, it became a new blood supply to their entire bodies!

If there were scholars who understood the ancient cultivation method, they would definitely jump in shock when they saw this scene. This was because the method the two of them used was precisely the star-casting technique recorded in the ancient books!

This was a training secret technique left behind by the ancient star spirit. The training method of the Cosmos God Craftsman was more or less based on the star Spirit’s ancient technique.

However, it simplified many processes.

The god Craftsman needed the star fire to temper the heart, strengthening the human body's heart like cast iron. It would temper the heart like an engine, strengthening the quality of the blood, and thus evolving the life form.

And once one adapted to the heart fire, the god Craftsman's blood would have the function of the divine fire. Not only could it forge good materials, but it could also allow the forged product to contain the spirituality contained in one's own blood!

High-level divine craftsmen would even fuse their state of mind into their blood and then into their weapons, allowing their weapons to have spirituality. Thus, the birth of top-tier spirit weapons.

According to research, the star spirits of the past were also top-tier forgers. Not only could they forge outstanding spirit weapons, but they could also forge star cores. They could make the entire planet revolve around them, with them as the center, becoming the true core of the planet!

In ancient times, powerful star spirits could take the planet on a journey. Outstanding Star Spirits could even take the stars on a journey, filling the universe with drifting stars.

However, this method could not be imitated by divine craftsmen because they could not forge spiritual elements that were as compatible with their bodies as fire seeds!

It was said in the records that star spirits were proficient in the forging of Earth, fire, water, and wind. They could nurture the spirituality of the four basic elements and fuse them into the body, helping the body forge a carrier that was suitable for the star core!

In other words, divine craftsmen could only forge heart flames, while the star spirits could forge the body into a star body. The difference was very big.

At that time, Yun Ji and Cheng Bo were very curious. Since the secret arts of the star spirits sounded so powerful, why didn't they directly use it? And simplify it?

Teacher's answer was: it couldn't be used!

The reason why the current divine craftsmen could forge heart flames was because they ate the benefits left behind from the ancient times. In other words, it was the so-called kindling. These kindling were basically forged by the star spirits, the current people did not have the divine craftsmanship-like skills of the developers, so it was impossible to restore the ability of star spirits to forge elements through science and technology.

In other words, if it were not for those kindling, there would not have been a divine craftsman profession!

As for how to forge that special element, master Gul 'Dan had also mentioned it.

According to the records of the secret arts he had collected, Star Spirits and dark descendants had the genetic characteristics that could activate elements. The performance of Yunji Mu and Chengbo's bloodlines was almost exactly the same as recorded in the records, and in many places, the characteristics were even more outstanding.

However, when Gul 'Dan tried to get them to cultivate the ancient secret arts'breathing technique, he discovered that it was ineffective.

After many days of research, he came to a conclusion. Perhaps it was because the law did not allow it!

The so-called law was that after the ancient times, the will of the universe did not allow certain things to appear. Yunji mu and Chengbo Mu were unable to activate the elements because the will of the universe did not allow it.

However, it was not unsolvable. Master Gu er Dan believed that this will might be different in the ancient lands!

The reason why the ancient lands existed was probably because the universal will was preserved for some reasons. In the ancient lands, there was a high probability that there would not be a limit to the universal will!

This was something that the teacher had analyzed through the characteristics of the imperial family's disciples that allowed their strength to soar in the ancient lands!

Among their peers in the Universe Federation, it was a fact that the imperial family members had unparalleled talent. However, they weren't completely invincible. However, once they arrived at the ancient lands, these people's strength would grow by leaps and bounds. It was extremely exaggerated. Within a short 10 years.., they were able to advance to the dragon level, surpassing the slashes that others wouldn't be able to cross in tens of millions of years!

Why?

If it was because the resources in the ancient lands were good and the energy was abundant, why didn't the others have such an effect? The ancient lands were rich in energy, but it was impossible for it to cause such a drastic increase!

The teacher believed that the reason was because in the ancient lands, the royal descendants were the normal growth rate, and in the universe, they were suppressed by the universe's will!

"If... the two of you really have pure ancient bloodlines, then when you get there, you'll definitely be able to complete the star Spirit's secret technique! !"

Recalling their teacher's words, their breathing became smoother and smoother!

Just as their teacher said, this place... ..! Was their world!

At first, their bodies were not used to it, but after the breathing technique was activated, it was completely different. They only felt as if they had completely merged with their surroundings!

Everything was felt. The living body of the elements, the communication, everything seemed to be done. If one looked carefully, they would find that in their hearts, stomachs, livers, and kidneys.., countless elemental particles began to gather, forming an essence the size of a grain of rice. If an arcanist was here, he would definitely be amazed by the purity of the essence of the elements.

It was as exaggerated as extracting 0.1 milligrams of rare elements out of a million tons of metal. The essence was like the essence of the elements that were continuously purified by billions of elemental molecules!

The formation of the four major elemental crystals made their five internal organs feel as if they had been tempered by darkness and heaven and earth. Under the pressure of the new five internal organs, the quality of their blood also began to increase rapidly. Faint life essence gathered at the core of their hearts! The life energy rapidly increased!

“Hu...”

After an unknown amount of time, Wang Chengbo opened his eyes first. A struggle flashed in his eyes. When he saw that Yunji was still immersed in the elements, Wang Chengbo instantly bit his tongue and his eyes became extremely clear!

“Yun Ji, Stop! ! !”

Taking in his breath, Wang Chengbo hurriedly tried to call out to Yun Ji Mu!

In his mind, he recalled instructor Gulidan’s last exhortation: during this trip to the ancient lands, it was very necessary to try the star spirit secret art, but one must not be greedy. After all, the reason why the royal family members had short lifespans had yet to be found., if he succeeded, he must not be like the royal family members who were desperate to increase their strength.

Because their lifespan is only an epoch, it is very likely to be the suppression of universal consciousness!

Chapter 1688: Wolf and sheep...

“Stop, Yunji! !”

Seeing that Yunji didn’t seem to stop, Wang Chengbo got anxious and approached her. However, as soon as he got closer, Yunji opened her eyes!

It was as dark as an abyss, so cold that it made people’s hearts tremble. An extremely dangerous aura instantly rushed toward him!

Cheng Bo’s heart trembled, and he recalled his teacher’s advice to him alone!

“You seem to want to be a couple with Yun Ji?”

“We’re already considered a couple, alright? Our next goal is naturally to be a wife! !”Wang Cheng Bo placed his hands on his waist and said confidently.

Although he was submissive in front of the girl he liked, he was very arrogant in front of other acquaintances. He always liked to brag until the end... ..

At that time, Gu Li Dan curled his lips slightly, but he still gave a serious advice. “Although dark descendants are from the same lineage as star spirits, they have been passed down for a long time. The habit of possessing star spirits has been imprinted into your bones. Your personality is introverted and delicate, and I can understand why you like a girl like Yun Ji. I can see that Yun Ji has a good impression of you, but you must be mentally prepared, because this kind of good impression is unlikely to offset the malice in your genes!”! !”

“Teacher... Don’t scare me...”

“I’m not trying to scare you, but you’re acting like a sheep and a wolf, and you’re at an absolute disadvantage, so how likely do you think it is that a wolf’s temporary affection for a sheep will keep the bloodlust in its genes suppressed?”

Wang Chengbo:” ...”

“If one day, you feel her malice, don’t hesitate. It’s best to protect yourself at the first moment. Don’t take any chances, because at that time, what you are facing is not the familiar cloud herder, but a hungry wolf!”

Maybe... ... That’s what’s happening right now...

Wang Chengbo looked at the eyes of the pair of incomparably deep and cold eyes, slightly bitter smile, the teacher’s words told him very early, he just did not expect to come so soon!

But wry smile at the same time, Wang Chengbo did not hesitate, such as moths to the blazing fire, a hug at this time is emitting an incomparably dangerous atmosphere of cloud herder ji.

“Stop... Yunji! !”

He couldn’t run away like his teacher had said, because he wasn’t sure if Yunji Mu could stop herself. If she were to absorb energy without restraint like a member of the royal family.., it was very likely that she would be targeted by the will of the universe like a member of the royal family, causing her lifespan to decrease and becoming a sorrowful existence that couldn’t escape the curse!

He understood Yunji. She was an extremely proud girl. If she knew that no matter how powerful she was, she would not be able to stop her aging, and she would choose to destroy herself at her peak.

Sword cultivators... would never compromise!

He would not let such a thing happen, even if he would be eaten by a wolf right now...

“Stop... Yunji...”

Wang Chengbo called out carefully, his whole body trembling with fear, but he still bravely hugged her without the slightest hesitation... ..

Yun Ji Mu’s eyes were still cold, but the corners of her mouth curled up slightly...

She was also there when her teacher told Chengbo about it. It was because her teacher deliberately let her exist. She knew that her teacher did not have any ill intentions. He just wanted them to understand the reality first.

She also thought that if she would harm Cheng Bo in the end, she would be willing to stay away... ..

But she didn’t believe in this kind of fate in her bones. She also didn’t believe that her will would lose to the so-called genetic bloodline. So she didn’t stay away from Cheng Bo at the first moment, but she also didn’t put in all her effort at the first moment.

The reason was very simple...

Wolf... .. She was willing to make up her mind to restrain her nature and choose a sheep without hesitation, but the sheep... . Would you trust a wolf?

She's happy with the results...

The sheep may not have believed the wolf, but it was willing to pounce... . .

While Yunji and Chengbo were exploring the art of casting stars, the colleges were following the directions on the map and rushing to their destinations.

As the same gate entered, the search area was very close, and if one team made any significant discoveries, the other team would certainly have ideas.

In other words, there was a high probability that they might be able to compete against each other... ..

On the road to the south city gate, the people from the bronze academy and the people from the AUTRAN Academy were walking side by side. Along the way, they were chatting and laughing. The atmosphere seemed to be quite harmonious, and there wasn't the slightest hint of anger.

This was especially so for Captain Barth. He had fully displayed the heroic character of his copper-bearded clan, and very soon, he was chatting enthusiastically with the people from the AUTRAN Academy.

The leader of the AUTRAN team was still the old captain of the team: Blazing Sun Priestess Academy's Ace, Narolas. Sunstrider!

"To be honest, it's really a happy thing to be able to form a team with you guys. If we were to meet that group of space elves, I reckon there wouldn't be any room for us to ease up. How about it? "After we enter the south of the city, we will each divide our own areas. Once we have done so, we will not delay each other. No matter if the other party obtains it, it will be considered the other party's luck. This way, we can guarantee the strength of our two teams to the greatest extent. After all, there is a high probability that the divine fire should be at the center of the city..." . "..."

"I think so too..."the golden-haired NALORAS smiled and said, "It's really a lucky thing to be assigned to you, Captain Barth. Then... Happy Cooperation?"

"Happy Cooperation! !"Barth generously stretched out his broad palm and shook hands with the other party with a smile. For a moment, the atmosphere between the two teams was extremely harmonious.

However, all the elders in the team secretly pursed their lips.

This was especially so for Narolas, who responded to the other party's words. He was sneering in his heart!

He had fought with this fellow in the fellowship for four years. How could he not know what kind of character the other party had? Anyone who was familiar with Barth would know that under that bold exterior was an incomparably sinister heart!

He did not want to mention any of his previous experiences. Of course, with the strength of his team, as long as they did not obtain anything extremely important, the other party should not directly turn hostile. After all, if the two teams clashed, even if they could win... Their battle prowess would also be greatly reduced. If they were to reach the center of the city and meet a team that was in a better condition than them, it would be difficult to deal with them...

Of course, if the divine fire had appeared directly in the southern city district, he believed that the other party would not care about the BULLSH * t rules that they had previously agreed upon and would directly attack them!

“Reina, what have you been doing at the back? Why Don’t you come over and chat with your old friends?” After Barth and NALOLAS finished discussing, they turned their heads to look at Reina, who was walking at the back.

Reina pursed her lips slightly. She could not put on such a show..., she immediately found an excuse and said, “Oh, I’m a little worried about those two little fellows from the Morning Light Academy. After all, the terrain here is complicated, and it’s not easy to find them with a map. I’m afraid that they will get lost...”

“That makes sense!” Barth clapped his hands and said, “You’re really thoughtful. How about this, why don’t you just stay here and wait for the two juniors?”

Reina’s face immediately stiffened...

They had already walked for four to five weeks. Who knew how long it would take for the two juniors to get here? If they really got lost, how long would he have to wait?

Once they entered the city, they would compete with each other to find the traces of the divine fire. At the very least, they would have to search for resources as soon as possible. What did Barth mean by asking her to wait here? To leave me?

1689 Chapter 1758: narrow-minded people...

Looking at the stunned Rayna, Matt, the judge in the team, shook his head slightly and sighed in his heart.

Looking at Rayna, it seemed that she had not realized when she had offended Barth. Obviously, she was still too young. However, it was also true that a hypocrite like Barth, even though they had already worked together for two times..., many people still could not react to his heroic appearance and extremely narrow-minded thoughts.

At the entrance to the ancient lands, where the Capricorn High Priest was, Reina should not have acted on her own to mediate the situation!

Of course, he knew that Reina wanted to quickly take over so that outsiders would not laugh at her. Her original intention was naturally good. In fact, there were no problems with her actions in many teams, but unfortunately... He met Barth. ...

Matt and Barth had worked together for many years. As the vice-captain, he was well aware of this guy’s character. Although Reina had quickly eased the awkwardness, it was not to the extent that the entire

team would be blocked out by high priest Capricorn's temper, however, he had managed to muddle through with such a declaration of war. In fact, he had sacrificed Barth's face!

After all, the captain had been slapped in the face by others, but you had succeeded in getting the high priest to not make things difficult for you. What did you want him to think?

Reina was also a smart person. After being stunned for a few seconds, she instantly reacted under Matt's gaze. A cold glint flashed in her eyes. She knew that Barth was a petty person, but she had not expected him to be so petty. He had to be calculative over such a matter, did he not know that if he allowed him and the high priest Capricorn to continue, it would make the entire team even more embarrassed?

At that time, there were so many teams from other schools, and the people from the bronze academy were blocked by their own elders. How humiliating was that?

Why didn't this guy think about it?

Taking a deep breath, Reina finally nodded. "Okay, I'll wait for them here. You guys go ahead first, don't delay..."

Barth smiled and said, "We'll clear the way first. When you get them, quickly come over and meet up..."

"Alright..." Reina said obediently.

It wasn't that she didn't have a temper, but she was looking at the big picture. After all, there was another team here. She couldn't let the other party see their team fighting amongst themselves, could she?

At this moment, the captain of the Ultraland team looked at this scene with a faint smile on his face. He thought to himself, 'she still has such a terrible personality...'. ...

Reina had only participated in the fellowship for a total of two years. She was a rising star of the bronze academy, and her results were outstanding. In just a short twenty years, she had become the ace of the Bronze Academy's priesthood. It was as if she had the intention of replacing Matt and Barth, the two old men.

However, Reina's family background wasn't high, and it was obvious that Barth didn't like her. Furthermore, she had acted on her own just now. With Barth's personality, it would be strange if he didn't make things difficult for her... ..

The funny thing was that Barth had clearly used Reina's sense of responsibility to ensure that she wouldn't fall out on the spot and compromise!

However, how ironic was it for the captain of a team to use the sense of responsibility of a member to scheme against her?

"I'll go with senior Reina..." Feng Doudou said with a weak smile. "I'm not used to it yet. I can stay and rest for a while..."

The ponytailed girl in the team laughed coldly. She really knew how to hug someone's thigh. After all, wasn't it natural for a bumpkin like her to hug the thigh of a junior like Reina?

"That's good..." Barth looked at Feng Doudou with a smile and said with a concerned tone, "Your reaction is indeed a little too big. It's good to adjust properly so that you won't be unable to adapt to it inside..."

Feng Doudou smiled and said, "Thank you, Captain..."

After saying that, he walked to Reina's side without hesitation. Reina looked at Feng Doudou with a warm gaze... ..

He had the ability to compete for the position of captain, but the prerequisite was that he had his own team. Barth was a tyrannical dictator, and the elites in the team were basically his people. The only people he could win over were the rookies.

However, when most rookies first joined this team, they would rationally choose the obviously stronger Barth. It was rare for Feng Doudou to stand on his side without any hesitation...

Thinking of this, Reina looked at Feng Doudou with a gentle gaze. This little girl was very talented and had principles. Standing on her side was obviously a show of gratitude. She was grateful for the care she had given him, and was someone she could recruit and nurture... ..

"Then, let's Go..." Barth smiled at Feng Doudou before turning around and instructing the others. He looked extremely easy-going, and Feng Doudou was sensitive enough to see a hint of coldness in his eyes.

After the other party walked far away, Feng Doudou curled his lips and said, "What a narrow-minded guy..."

Reina, who was at the side, was immediately amused. "You can see it?"

"What's there to see? Does he really think that he's hiding it well?" Feng Doudou curled his lips and casually sat on the ground. "By the way, why is he the captain? I think that Matt should be more suitable, right?"

Reina sighed. To be honest, if Matt was the captain, the team's morale would be much better. Unfortunately... ..

"The bronze race's fighting spirit is extremely strong. They place more importance on the strong rather than the odds. Although there is a judgement team like Holy Light Academy, the entire bronze race's spirit is still to respect the strong. Otherwise, there wouldn't be a job like a martial priest..."

"Oh?" Feng Doudou's eyes lit up. "In other words, whoever is stronger is the team leader?"

Looking at each other eager expression, Rayna funny way: "You are interested?"

"Also not very interested..." Feng Doudou looked up at the sky: "Is not very happy now that..."

Rayna looked at him and sat down on the floor. "I'm not happy either..."

“is it?” Feng Dou Dou looked at each other with a smile, feeling that he had finally found someone in the academy that he liked. . .

Uh, no, the second one...

The two teams, which also had no major conflicts, were much colder on Gale and Tyrifson’s side. . .

From beginning to end, the two teams did not talk much, and the distance was very far, as if they did not want to have any intersection, but gave a sense of tension.

In the team, the two dogs would look at each other from time to time. Both of them felt a little helpless. It had been a long time since they last met. In fact, both of them really wanted to chat.

However, boss rain woman had warned them not to make contact outside and attract attention... ..

“Boss... the atmosphere is not too harmonious...” Li Goudan quietly approached Captain Dutton and said.

Dutton smiled bitterly. For a moment, he did not know what to say.

In theory, they should try their best to form a good relationship with this team to avoid conflict.

Moreover, in the East Star Field, although Windwalker was one of the High Elves, due to the reconstruction of the lower-middle-class Rangers, he wasn’t as important as the other high elves. They had never targeted Tyrifson just because he was from the North Star Field, and there was no grudge between them. In fact, they could have discussed working together...

However, the Zephyr Academy had always been upright and upright. They would never take the initiative to show weakness. Since Tyrifson did not open his mouth, they would naturally not have the audacity to go up and talk to him. If they were to be rejected, wouldn’t it be even more awkward?

Looking at the low morale of the team, Dutton felt even more troubled. He could not help but think to himself, “It’s really not easy to be the team leader...”.

Chapter 1690: “She is our trump card!”!

In the team at the East Gate, the members of the Gale Academy were trying their best not to speak, while the members of Tyree Fassen were also trying their best not to speak...

Actually, with Yao Feng’s shrewdness, he naturally understood the situation of the Gale Academy. As long as they took the initiative to speak up for them, the members of the Gale Academy would definitely agree with them.

After all, the disparity in strength was obvious, right?

However, Yao Xing did not do so. Instead, he made the people in the team deliberately distance themselves from the people of Gale Academy.

Gale Walker was a man of his word. His reputation in the universe was very strong, so it was even more impossible for him to form a strategic partnership with the Northern Star Field. For example, he would

go to the center of the city and deal with Starry Academy or Bronze Academy together with Tyree Fassen.

This was because once windwalker agreed, he would not go back on his word. At the very least, that was the current public reputation of windwalker. Thus, Windwalker had always been reluctant to make promises.

According to their analysis, there was almost no chance that the Windwalker Academy would agree to cooperate fully with them. The reason was very simple. The Northern Star Field was targeted by the entire federation. Although windwalker did not deliberately exclude the powers of the Northern Star Field on a daily basis., they did not approach them either. Their attitude was very clear, and they kept their distance.

It was obvious that they did not want to suppress them, nor did they want to incur the displeasure of the other powers of the Eastern Star Field.

In the end, the Windwalker Academy was still a member of the conservative faction of the Eastern Star Field... ..

Since they were unable to cooperate fully, was there any meaning to their one-sided cooperation?

For example, if they agreed to not invade each other at the eastern city gates, they would try their best not to make enemies with each other when they entered the city center?

In reality, it was meaningless!

Once they entered the city center, there was a high probability that Tirefarson Academy would be besieged. It would not make any difference whether there was a Zephyr Academy or not. And since that was the case, before entering the city center., it would be safer to obtain resources in the Eastern Star region.

Although there might not be any divine fire, other resources would probably be able to fill their stomachs... ..

Under such circumstances, why should Gale Force Academy get a share of the spoils? Wasn't it better to monopolize the entire eastern city district?

And because of that, demon star had chosen to distance himself from Gale Force Academy. It would be more natural for him to directly start the fight later. He was also a person who cared about his reputation. That kind of appearance of being friendly and amiable with others... He wouldn't be able to immediately turn hostile the moment he arrived there...

The attitude of Tyrifson and the others was very obvious, making Gale Academy's group even more depressed.

Those who could enter top academies and be chosen to come here naturally had excellent results. Their brains weren't bad, and they could basically guess Tyrifson's attitude.

But it was precisely because of this that they felt some despair...

“Captain...” in the group, Miller was in charge of Scouting. Hathaway said in a low voice, “It seems that Tirifson is determined to monopolize the resources in the East District...”

“Well...” Dutton nodded with a heavy face.

“What should we do?” The Beast King Ranger, Rollin. Nick also asked in a voice transmission.

“What do you mean? Of course, we should do it directly!” Piran laughed, “Do you expect him to let us go?”

Everyone’s faces twitched. This guy really didn’t panic at all...

After taking a deep breath, Dutton said in a low voice, “When we enter the city gate later, don’t gather together... This way, this way...”

Everyone was stunned when they heard that. Then, most of the Zephyr nodded slightly and agreed with Dutton’s approach. Although they were helpless, they had to say that this was the best solution at the moment... ..

“So cowardly...” pilan directly ridiculed.

“No one wants you to be cowardly...” Miller could not help but glare at pilan and said telepathically, “According to the captain’s method, you can maximize your performance later!”

“TSK, using the captain’s method, what if he directly ignores us?”

“It’s impossible for him to ignore us...” “...” Dutton said calmly, “Since they chose to be enemies, they naturally want to monopolize all the resources in the east city to maximize the benefits of this trip. They definitely won’t allow us to get a share, so they will definitely pay attention to us. And according to my plan, as long as it goes smoothly, demon star will definitely appear in the end. Won’t the opportunity for you to show off come?”

“Uh...” Piran was stunned, and the people around him started to jeer.

“That’s right, it’s up to you. It’s time for you to make a name for yourself, Piran!”

“That’s right, the real trump card of our group. We must surprise everyone this time...”

“Yes, yes, we’ll back you up and take down Demon Star!”

“Tsk...” faced with everyone’s sarcastic mockery, Piran laughed coldly. “You’ll know after that...”

“Yeah, yeah, we’re all looking forward to it...” Miller also quickly said, “We’ll rely on you...”

Pielan:”...”

— —

“What do you think those people are discussing?” Yao Xing and captain Yao Feng walked at the front. After clearly feeling the energy fluctuations behind them, he asked them with a smile.

Clearly, those people behind them were discussing through voice transmission...

Yao Feng looked at them coldly and said indifferently, "Other than discussing how to deal with us, what else can we discuss? discuss what to eat for dinner?"

"That's why I'm asking you..." Yao xing smiled and said, "I'm just very curious about how they will deal with us!"

Yao Feng curled the corners of his mouth and looked straight ahead. "We're almost there. Don't be too curious, because you'll know what they will do soon..."

"TSK, boring..."

"Captain, we're almost at the city gate. Should we wake her up?"

In the team, a tall shadow wolf moved the lump on his back and asked in a low voice.

Yao Feng and his brother immediately looked at the lump on his back. The lump on the werewolf's back was Wang Goudan, who was sleeping... ..

After entering the hemlock forest, this fellow's entire body was red at first. Then, like a drunk person, he fainted and fell asleep. At this moment, he was lying on the werewolf's soft furry back with a carefree look on his face. He was sleeping very soundly... ..

Everyone was speechless...

Yao Feng took a glance and shook his head. "Don't disturb her. Let her sleep. It's useless to wake her up now. It's a good opportunity for her body to slowly familiarize itself with the elemental density here..."

"Isn't captain spoiling her too much?" One of the Banshees curled her lips.

Yao Feng glanced at her and said indifferently, "You're as powerful as her, and I'm spoiling you too..."

The Banshee:"..."

There weren't many in the team who knew of Goudan's strength, but she happened to be one of them because she was also one of the students who had followed the queen to the Bronze Academy.

She had seen with her own eyes that this guy was beating up the four members of the royal family at the top of the bronze palace, and one of them was the crown prince of the bronze family!

In this lifetime, she might never forget the scene where the crown prince of the bronze family stood at the top of the bronze palace with one hand, facing the leader of the Royal Knights of the Fate Sea and Sky Yuan level, he didn't show any signs of weakness under the pressure of a large group of star-level knights, and he still dared to roar like a dragon.

It was probably hard for everyone present to forget that scene, right?

"Watch carefully..." Yao Feng looked at the werewolf and smiled, "Your mission is to make her sleep more comfortably and keep her at her peak physical strength. After all... She is our trump card! !"
