

A Bunch 1701

Chapter 1701: Strange Secret Technique!

He had never used this secret technique in front of outsiders. Even in the previous social gathering, when he was facing the old champion of the Central Star Field Academy, he had never used it before.

The Demon Star was the name he had given himself. His native star was once a planet that was in chaos at any time. Before Lord Lich led it, it was said that more than a million people died every day because of the war... ..

His family was a vassal of a small country. The ancestors of the previous generations were proficient in astrology and were always in the position of Wu Zhu. On the day he was born, his grandfather said that there was a demon planet in the sky!

He, who was still in his infancy, almost drowned because of his grandfather's words! There were no elders in the family who would speak up for a newborn baby like him, including his parents!

His parents were born from a side family, so naturally, they would not dare to disobey his grandfather who was Wu Zhu. Needless to say, the uncles of the other direct descendants, in their eyes, the descendants of the side family were no different from the higher ranked servants... ..

If it was not for his elder brother, the day after he was born would probably be the end of his life... ..

His nine-year-old elder brother had secretly taken him away. Under the pursuit of a group of pursuers, he had brazenly brought him into the forbidden area. In a black forest that even hunters did not dare to approach, the two brothers had lived for ten years!

It was not until the arrival of the Lord, the ruler of the continent, and the submission of all nations, that his grandfather was not even qualified to meet that Lord. However, his two abandoned and hunted children had caught the lord's attention.

Contrary to what his grandfather had said, the Lord had said that the two brothers were heaven-gifted geniuses. In his grandfather's country, the people of a country were not as valuable as any of their brothers!

This was the first time that two brothers who had struggled to survive were so valued, and they were even valued by such top figures...

It was so dreamy that the two brothers thought they were dreaming for a moment... ..

The Lord brought the two brothers out of this land and saw the sky full of stars. Only then did he understand that the astrology that his grandfather had said was all bullshit! !

Since his grandfather had said that he was a bewitching star, he had named him bewitching star. Since he was a star, he had to live as brilliantly as a star, whether it was a bewitching star or a lucky star... ..

In the shadow domain, bewitching star slowly opened his eyes. His pair of shadow pupils were as dark as the night, and his entire body was emitting a bewitching energy. His blood turned into countless ink threads that shot out like a spider web.

In the Shadow Domain, all the shadows that were touched by the ink threads seemed to come alive. They rushed out of the dimension and attacked Goudan!

He could not lose. As long as he fought, he could not lose. He represented the face of Lord Lich and was here to fight for Glory, not to be a stepping stone for anyone!

In mid-air, seeing countless shadows sweeping over like a tidal wave, Goudan immediately felt his scalp go numb!

His teacher was right. The universe was vast and there were all sorts of secret techniques in the world. He could not be too conceited at any time, just like the one in front of him. It was simply unreasonable!

The shadows could constantly transform and attack him, but he could not retaliate. When the throwing knives touched the shadows, they passed through them. It was obvious that physical attacks were useless, but the key point was that when the shadows touched her, they were like the sharpest knives!

This could be seen when her afterimages were torn into pieces!

Secret Skill: Windbreak!

A green light flashed in Eggface's eyes. Countless wind elements gathered in his body and formed a three-meter diameter central circle with him as the center!

"This is..."

In the Shadow Domain, demonic star was slightly stunned when she saw this scene. The opponent's elemental affinity was very strong. In such a chaotic element, he could actually extract such pure wind elements. Even those professional elementalists from Starfire Academy might not be able to do it... ..

But what did the opponent mean by this?

He could clearly see that although the elements extracted by the opponent were pure, the amount was not large. Moreover, the flow speed was very slow. It had not been condensed into a high-speed wind escape. What was the meaning of forming this circle?

Moreover, the shadow ignored physics. The wind escape could not defend against it at all. She should have known that too...

No... It wasn't defense, it was perception!

Yao Xing instantly understood what the other party was thinking. The other party was using the wind element to imitate the qi cultivator warrior to give him a warning in advance!

Was this fellow's brain fried?

If the element could replace the qi cultivator warrior's inner qi, then the mages on the surface of the world would not have to be so afraid of assassins anymore... ..

Different from the qi cultivator warrior, when the inner qi warrior released his perception domain, he would release his inner qi. Using a thread-like energy connection, he would be able to sense it at any time. Although he had released his inner qi, the energy released was no different from the energy released from his body, once someone touched it, they would be able to immediately communicate with their nerves, thus achieving the perception effect!

However, the elements were different. Spiritual power was used to control the elements. It was not a direct nerve connection. Instead, spiritual power was used to communicate with the elemental particles, forming various operations.

Therefore, although mages could extract thousands or even tens of thousands of times more energy than the vitality warriors, the utilization rate of the two was vastly different!

Using elements as a warning was simply ridiculous. Before the elements could be sent back to you, most of the time, the attack had already arrived... ..

Just as he was thinking about this, the next second, a strange scene happened!

The little wind demon closed her eyes, seemingly completely treating the surrounding wind elements as her first perception. Facing the overwhelming shadow spikes, she acted as if she did not feel anything. Just when Yao Xing thought that the other party was being ridiculous, she suddenly moved. Just like the surrounding wind, she was extremely light as she danced among the billions of shadow spikes. Every time, she was able to dodge to the limit. It was like a sword dancing in the rain, but she did not get wet at all... ..

“This... how is this possible...”

Yao Xing could not help but mutter, her eyes filled with disbelief!

The other party's movements were light and swift, without any pattern at all. She was like an antelope hanging its horns without a trace, but each time, she was able to completely avoid the dense shadow spikes that had almost no gaps.

Like a butterfly in a storm, it was shockingly beautiful!

Could it be that the wind element could really be used as a warning?

Yao Xing felt that there was a problem with his perception. However, there was one thing that he was very sure of, and that was that from the movement technique that his opponent had displayed, there was almost no chance for him to face him head-on!

He was a proud person, but at this moment, he was quite clear-headed. If he wanted to win, he could only rely on his secret technique. Once he faced him head-on, he was afraid that he would not be able to take even a single move! ! !

Without further hesitation, Yao Xing bit the tip of her tongue. All the blood vessels in her body constricted, and ink threads gushed out. Countless ink threads stuck to the surrounding shadows like spider silk, causing the shadows to become even darker, as if they were roaring, countless shadows transformed into blades, whistling towards Goudan.

But at this moment, Goudan, who was in mid-air with her eyes closed, suddenly opened her eyes. A pair of jade-like beautiful eyes stared fixedly at a certain location. Her beautiful eyes were incomparably sharp, as if they had pierced through the barrier between the domains, this caused Yao Xing, who was hiding in the shadow domain, to jump in shock!

She found me?

How is that possible?

It was clearly isolated. Regardless of whether it was the aura or anything else, it should be isolated. How could she possibly find me?

Chapter 1702:: How did she lose?

Don't be nervous! ! Don't be nervous. It was impossible for her to see it. Even if she could see it, it was impossible for her to enter!

The scoundrel aspect of the spectral ghost secret art was that not only could the spectral ghost activate the shadows, it could also pass through them. Against most jobs that had not come into contact with the energy of the shadows, they had a one-sided safety guarantee. The opponent could only passively take a beating.

This kind of situation could only be resolved when a living being had reached the dragon level and could rely on physical or mental strength to forcefully pass through the planes. Before this, some jobs that possessed special energy had the absolute advantage, the shadow people were even more outstanding among them!

However, this kind of situation was extremely rare. The Shadow Domain was very dangerous for many people who used the shadow energy. If one was careless, they might even be trapped inside forever. Even the most advanced east star region's number one assassin family, the members of the ghostly family... They only dared to use the shadow energy to travel through the shadow domain for a short period of time. It was almost impossible to hide in it for a long time... ..

Not to mention the shadow domain in the ancient lands. Many top assassin families didn't even dare to travel through it. However, Yao Xing dared to. When he was very young., he had used this talent many times to bring his brother to avoid the attacks of those terrifying creatures in the Black Forest.

When he slept at night, in order to avoid the attacks of some unknown creatures, he had even brought his brother to sleep in the shadow domain when he was very young!

The ancient Netherspirit bloodline had a unique talent. The Liege had said that as long as he used his secret skill well, he could even fight with a royal disciple who had yet to reach the dragon rank. He had not even been willing to use his first friendship.

This time, if it was not for the fact that he might lose to an unknown person and had to protect his face, he would definitely not use this trump card. But now... ..

Why did it still feel so uncertain?

Looking at the pair of eyes that were like jade, yet seemed to be able to see through everything, for the first time... .. He lost confidence in himself!

The next second, the other party swooped over. His speed was still so fast that even when he activated his shadow domain, he was unable to catch it.

Although he knew that the other party would not be able to charge in here.., however, he still could not help but reflexively activate the shadows around him, turning into all sorts of irregular figures that stabbed towards the other party.

However, no matter how irregular or how many of them there were, he was still unable to touch the other party in the slightest. Although the secret skill's attack had slowed down the wind demon's speed, she was still approaching step by step.

Finally... ! ... She flew to the ground. The moment demonic star's heart almost stopped, she sank into the ground! ! !

She could enter! ! ! !

Demonic Star frantically hid backwards. The Wind Demon was actually able to control shadow energy. wasn't this F*cking ridiculous?

Shadow Energy was a special type of energy. Without this talent, even if one specialized in alchemy, it would be impossible to control it. The Wind Demon was one of the most standard elf bodies. It should be impossible for it to control shadows!

Could it be a hybrid? But it shouldn't be...

There was no time to think, Yao Xing could only try his best to dive deep into the sea. This was also one of his talents. Against assassins who could sneak into the shadows for a short period of time, he also had a natural advantage, just like marine fish and amphibians.., although the other party could also dive, the distance was limited, so they couldn't freely dive to the bottom of the sea like marine fish. It was the same with the shadow domain. The other party might have mastered some secret technique to temporarily travel, but it was definitely not like him... To be able to swim here like home... ..

His thoughts were right. After the other party entered the shadow domain, she seemed to be very repelled. The shadow energy seemed to be chasing after her, wanting to infect or ostracize this strange creature.

The other party could not stay for long...

But... so fast! !

Even when they reached the shadow domain, the other party's speed was still incredible. In the blink of an eye, she was right in front of him!

This made him think of the seabirds by the sea. When seabirds were hunting for fish, they could dive into the water for a short period of time. Although they could only dive for a few seconds, most of the fishing birds were able to successfully obtain their prey. The reason was that after the seabirds discovered the seabirds.., it was often too late to dive back into the safe zone, and his situation was just like that clumsy seabirds!

Without the slightest bit of reversal, Yao Xing, who was already suffering from both qi and blood loss, was unable to resist at all. His top-notch close combat skills instantly locked down his meridians, making him feel that even when he was in his best condition.., he might not be able to withstand a few seconds of close combat.

The instant the pain of his bones and tendons dislocating surged up, his eyes lit up. He had already been dragged to the real world!

The energy from the day shone on his body, instantly dispelling the gloomy coldness in the shadow domain. However, his heart was ice-cold... .

Yao Xing blankly raised his head to look at the young girl. For a moment, he didn't know what to say...

To lose, to lose so thoroughly, wasn't it a little too cruel to the youth who was just preparing to take off in the vast universe?

"How can you travel through the Shadows? "Yao Xing couldn't help but ask.

He wanted to know the reason for his loss. Although he might not be able to recover his losses in the future, he had to at least know how he lost... .

"The footwork that Master taught me... "the little wind demon grinned. Under the day, it was even more sunny than the sunlight.

"Master? "Yao Xing was stunned. "Senior Tia?"

"That's Grandmaster... "Goudan smiled. "My Master is Vienne! "

This name stunned Yao Xing once again. In the past ten eras of the Wind

Element Academy, he was the most outstanding student. The name of the Shadow Hunter in the mercenary world spread throughout the universe. There were not many people in the universe who did not know about Vienne the wind walker... ..

That's it... ? ... Yao Xing suddenly remembered that Winnie had once displayed a footwork in the fellowship. It was a footwork that could shuttle through all kinds of energy worlds. They were both students under Tia, how could he forget about this?

After coming back to his senses, Yao Xing immediately asked a second question. "Your speed is very fast, but how did you dodge my attack? can that wind element really help you sense your position in advance?"

"It can! "Gou Dan did not hide anything and chuckled, "It's not difficult. Don't the Qi cultivator warriors have the same operation?"

"Can it be the same? "Yao Xing resisted the pain and retorted, "The qi cultivator warriors use their own energy, which is connected from the body.

How can you use your spiritual core to communicate with the wind element?" "It's possible... "Gou Dan squatted down and dragged his recently plump chin,

"We can hide the wind..."

Hide the wind?

Yao Xing paused, and his eyes were filled with shock!

Hiding the wind was one of the secret skills of windwalker. It could store the wind elements in the veins and then use them like energy in firearms, such as enchanted bullets, arrows, throwing knives, dark needles, and other long-range weapons that had enchanted runes engraved on them.

It could be done like a qi cultivator warrior, using energy compressed and skillfully compressed, but... .. The operation difficulty was completely different. After all, it was not one's own energy. The wind element was hidden in one's meridians. If there was too much of it, it would hurt the meridians, and it was usually only used for gentle operations like enchantment, some fierce operations, such as using the wind element to attack directly, were basically impossible. Fooling around would very likely destroy his veins!

But this guy could actually use the wind element to create a detection barrier?

Moreover, he could use his veins to connect at any time. If he was not careful, the elements would riot, and even his veins could be torn and deformed. Was this guy crazy?

"Last question!" Yao Xing gritted his teeth and said, "Even if you had predicted it in advance, the shadow's attack was irregular, and it could even transform at the last minute. How did you dodge it completely unscathed? Was it purely based on reaction force?"

"Of course it was based on Reaction Force!" Eggface nodded as if it was a matter of course. "Could it be based on what? Er... that's not right, it was also based on some computational ability..."

"Computational ability?" Demonic Star narrowed his eyes. "What computational ability?"

"Your shadows aren't completely irregular. At the very least, they can't transform more than their body size..." egg pointed at the iron tree beside him, just like the shadow of this tree, no matter how many cubic meters its shadow transformed, it wouldn't exceed this size!

"Have you encountered it before?" Yao Xing took a deep breath and asked.

"No..." eggface shook his head. "I observed it..."

Yao Xing. "...

He didn't lose unjustly. This time....

Chapter 1703: Crushing level battle prowess (Top)

"Aren't you going to make a move?" At this moment, regardless of whether it was physically or mentally, Yao Xing appeared rather powerless... ..

Gou Dan tilted his head and looked at the other party. "You want me to make a move? Your teammate is about to arrive..."

As expected...

A sharp glint flashed across Yao Xing's powerless eyes... ..

This fellow was trying to stir up trouble! !

Actually, it was easy to understand. With such strength, it was very normal for him to want to make a name for himself. Just like how he had hidden his strength for ten years back then, wasn't it also for the sake of making a name for himself in the Alliance?

This year was the year of the crown prince, so it was impossible for the alliance to make a name for itself. However, now was a good opportunity. If he could wipe out Tyree Fasson by himself, this result would definitely spread throughout the entire federation!

"If you don't make a move, I'll surrender..." Yao Xing narrowed his eyes and said.

"Uh . Why?" Gou Dan looked at the other party in shock.

"To give my teammates a reminder..." Yao Xing replied very straightforwardly.

After the exchange just now, he knew very well that this little fellow in front of him had the strength to wipe out his own team!

Her strength was no longer something that could be taken down by a team. At the very least, before the black blood device and activation device could be activated, it was impossible for her to take down Tyrifson. It was very likely that she would be overturned.

The only person who could contend against Wang Xiaojia wasn't sure if her current condition was stable or not. Once all of them lost, Tiriverson would lose a lot of face this time!

Seeing that the other party still hadn't made a move, Yao Xing closed his eyes and prepared to directly surrender... ..

He had surrendered in such a short period of time. With Yao Feng's intelligence, he would definitely be able to guess what he was trying to say. He, who had always been cautious, would definitely not easily take the risk of leading his team... ..

The Zephyr Academy really had a big card up their sleeves this time!

Yao Xing gave a bitter laugh. Just as she was about to connect the equipment to signal her surrender, Gou Dan, who was standing at the side, felt a little helpless. According to the rules of the game, surrendering was impossible to be stopped, this was because the equipment for surrendering had already been installed when they entered the city gates.

The moment one's body was too heavily injured or if one intentionally wanted to surrender, the equipment would cause one to enter a state of suspended animation. It would then trigger the law barrier here and send one out of the city.

Goudan sighed. Since the other party was willing to be eliminated to give her a warning, she would not continue to be arrogant. When she came, she had heard from her grandmaster that the bio-equipment of the Tirefarson Academy was extremely powerful. It could even be used to fight against a

dragon-level powerhouse. She believed that she was not at that level yet...

But suddenly, something strange happened...

Yao Xing, who had already activated the device, suddenly opened his eyes. His eyes were wide open and his face was still in shock! !

“What’s Wrong? “Dog Egg was shocked.

Yao Xing looked at him and didn’t know what to say... ..

Just now... .. When he was in a state of suspended animation, an unprecedented chill swept through his body. Countless nerves told him that after activating the device..! ... He might really die! ! !

The feeling of impending death was simply too shocking, causing him to turn off the device without any hesitation.

Yao Xing touched his chest, his breathing extremely rapid...

Could it be that the people from the bronze academy had made the suspended animation device too realistic?

Just as he was in a state of bewilderment, a silver light whistled over!

A brilliant light flashed in Goudan’s eyes. He lightly took a step back and grabbed onto the light. With a gentle flick, the huge force of the light was neutralized, revealing its true form. It was a metal the size of a rice bean, it was obviously a high-alloy bullet from some kind of gun!

On the metal tree in the distance, a purple-haired woman holding a huge sniper rifle almost popped her eyes out!

“Catching a mithril bullet with his bare hands? What a monster! ”

These words made the pupils of the group of teammates under the tree shrink!

The woman who fired the gun was called Emma. She was the team’s number one sniper, majoring in biological machinery alchemy and magic sniper. She had participated in the seven fellowship sessions and was a veteran member of the team who was second only to greedy wolf!

The official evaluation of her sniper ability was that she was in the top three of the seven-year fellowship. She was the top sniper that all the teams in the university would seriously target before the competition!

Emma’s sniper rifle was designed by herself. She used a mysterious combination of bio-technology and mechanical alchemy. She used a part of her body to fuse into the bio-chemical gun and obtained the maximum alchemy equivalent power ratio, coupled with countless structural enhancements and top-notch mithril bullets, even the previous champion, the eldest grandson of the federation’s Number One Knight family, would definitely not be able to catch Emma’s bullets with his bare hands!

Windwalker’s trump card was more troublesome than he had imagined!

Yao Feng’s expression became increasingly solemn as he immediately shouted, “Activate all mechanical traps, Lu Luo, activate your mecha, Hua He, activate the enchantment, and be prepared to face the enemy’s breakthrough at any time!

As the orders were given, the teammates hurriedly did what they had to do. In their hearts, they no longer dared to treat the opponent as a newbie... ..

“Emma, continue sniping! ! “Yao Feng gave the order.

Emma nodded and locked onto the opponent again. The good news was that Yao Xing did not seem to have been eliminated. If they could force the opponent away, they could continue to have top-notch combat strength.

However, when she locked onto her opponent with the mechanical mirror, that delicate and beautiful elf face turned to her and smiled at her.

Under the sunlight, that smile should have made people feel warm in their hearts, but Emma felt a chill in her heart...

This guy used the trajectory to lock onto her position so quickly?

That was not right. She had used the ejection skill to change her position. How did her opponent lock onto her?

“What’s wrong, Emma? “Demon Edge, who was always in charge of the situation, noticed Emma’s strange behavior and quickly asked.

“She locked onto me!”

These words shocked his teammates once again...

As a top sniper, Emma was ranked at the top in many aspects of the fellowship. Among them, the most outstanding was her ability to hide her firepower. Her unique bullet trajectory made it difficult for even top assassins to lock onto Emma. In the seven years of the fellowship.., Emma had almost never been found.

However, in this small trial, she had been defeated!

“Don’t be nervous, Emma... “Yao Feng took a deep breath and said calmly, “There’s still space ten kilometers away. Continue to snipe! ”

Emma nodded. All the energy in her body was gathered and continuously gathered into the sniper rifle. The entire sniper rifle was emitting a purple light!

Just as she was about to pull the trigger, Emma was once again stunned...

The person who had been locked onto by the mechanical lens had disappeared!

That was impossible. The camera ignored speed and could lock onto a target no matter how fast it was. Unless the position was wrong, how could the position be wrong?

behind! ! !

Tan Lang was the first to react and shouted! !

Emma suddenly had goosebumps all over her body. It was only then that she remembered that if the other party could make a detour behind her in the first place, it would indeed cause her mechanical mirror to be in the wrong position...

But How was that possible? It was ten kilometers! !

Chapter 1704: Crushing-tier Combat Power (Part Two)

Ten kilometers, or ten kilometers in the ancient lands? Even a dragon-tier powerhouse wouldn't be this fast, right?

However, at this moment, she had no time to think about it. Even if she reacted in time, it was useless. A sniper, being pulled so close by an agility class, was almost impossible to resist!

Crack! Crack!

A sharp pain was felt instantly. Unsurprisingly, Emma felt that her muscles and bones were completely twisted and dislocated by a special technique. There was also a burst of wind elemental energy to stop her Qi and blood. It was an extremely professional technique!

"Retreat!"

Yao Feng's reaction was also very decisive. The other party's sudden speed was too strange. It was best not to meet her head-on before she could figure it out!

"Hua he, barrier! !"

In the team, a girl with a head full of plants made a hand seal. A pure black energy spread out rapidly and enveloped everyone!

Taking advantage of the moment when the other party subdued Emma, he immediately set up a barrier. Although it was a little cruel, it was the most reasonable method at the moment. The main reason was that the strange movement technique was too frightening, if he were to charge into the formation, he was afraid that he would be completely annihilated!

Hua He's reaction was very fast. In addition, it was a barrier that he had prepared beforehand. There was practically no obstruction, and the barrier was instantly set up!

After the shadow enveloped everyone, everyone secretly heaved a sigh of relief.

Hua he was a unique barrier master and also a descendant of the evil god. His bloodline was passed down from one of the Seven Evil Gods of the Shadow Region: Evil Oak!

The evil God took the form of a magical plant and transformed into the real universe. As a pure-blooded descendant, hua he was extremely talented. After being proficient in all kinds of biological alchemy, he used his own talent to communicate with the dark energy, and he could borrow some of the talent of the evil oak.

Among them, the enchantment was big head. As the energy of the outer region, the structure of the dark enchantment was complicated, and it could best defend against assassins because this kind of

strange energy, although the frontal impact force was not as strong as the traditional Earth, fire, water, and wind.., however, its strange evil nature could give a warrior who wanted to break in with his physical body a big headache.

The opponent was alone now and did not have an outstanding elementalist as his main merit. It was most suitable to use this enchantment. In the interstellar fellowship that Hua he participated in, no assassin or melee fighter had ever broken through her enchantment!

“Simon, give me the spatial device...”

Everyone heaved a sigh of relief. Meanwhile, Yao Feng asked Simon for the spatial device without batting an eyelid.

Simon was stunned, but without any hesitation, he quietly teleported the equipment. Although this captain was a newcomer, his performance last year and this year’s practice process made everyone completely convinced of him.

Simon also trusted Yao Feng very much...

Just as he handed over the equipment, a sudden chill suddenly struck him!

Simon’s entire body jumped, and he hurriedly activated the armor on his body!

Unfortunately, he was too late. A pair of fair and agile hands appeared behind his back without any symptoms and deftly took off his equipment. The entire process probably took less than a second!

What an astonishing technique and speed...

A huge pain hit him. Simon immediately fainted. Before he fainted, there was only one thought in his mind... ...

Everyone was shocked, staring at the wind demon that suddenly appeared in the barrier!

Even Hua he had an incredulous look on his face!

How did she get in?

Li Goudan stared at Yao Feng!

He and the equipment master in the intelligence report were originally standing together, but as if sensing that he would come in, he instantly moved to the side of his other teammates!

Just like Yao Xing, it was like teleportation. He should have the same secret skill as the other party!

But how did he know that he was coming?

Yao Feng looked deeply at Li Goudan and activated the dimensional device without hesitation. In the next moment, a silver rune lit up on the bodies of Tyrifson and the fainted Simon. Then, they disappeared into the space!

After everyone disappeared, the shadow barrier lost its support and instantly became violent. It rushed towards the only living person in the barrier, Goudan himself!

Goudan: "What the..."

"Captain, what happened just now?"

At this moment, more than a hundred kilometers away, greedy wolf was carrying the unconscious Simon on his back as he asked while running with the team!

"The opponent has the ability to pass through the shadows like a demon star.. no... it should be the ability to pass through any elemental plane!" Yao Feng replied quickly with a cold face.

Everyone's heart skipped a beat once again. They almost subconsciously wanted to retort. How could there be such a perverse ability in this world?

"I see... "in the team, Hua he, who was previously in charge of the enchantment, nodded thoughtfully. "The wind movement secret technique is the royal family's secret technique footwork..."

"Secret technique of wind travel?" Ravenous wolf frowned. "I've heard of that thing. It can elementalize itself and travel through the wind elemental world, but that was the shadow enchantment just now!"

"It seems that you don't know much about the recent market situation..."

Hua he said coldly, "The demon sniper Hunter Vaughn, her unique wind travel of daybreak. Not only can she elementalize herself, but she can also travel through different elemental worlds. Until now, no one knows the principle of it. I heard that it has already been recorded as one of the top secret techniques of the royal family, but the difficulty is too high. After Vaughn, almost no one among the disciples of the wind travelers can use this skill. It seems that it's not wrong. The intelligence given by the intelligence officer yesterday should be correct. This wind demon is Vaughn's last disciple!"

"So... her speed of crossing space is also..." Lu Luo, the spiritual master, said in surprise.

"Yes..." Yao Feng nodded. "In the elemental space, as long as you can control your position, you can ignore the energy density of the space and achieve Elemental Jump!"

"Isn't this too much of a BUG?" The group of people were stunned...

"How do you think Viane managed to win the first place in the social gathering by herself?" Yao Feng lowered his voice and said, "But don't worry too much. This secret skill is very difficult. It is said that after Viane entered the school, she cultivated in the ancient land for fifty years before she could barely use it. After that, she became famous..."

"Captain, you asked Simon for the spatial device, right?" Hua he frowned and looked at Yao Feng. "Did you expect it?"

Yao Feng did not try to hide it at this moment, he nodded and said, "Yes, I suspect that she has the ability to travel through the shadows. If she doesn't, Yao Xing will not lose. The other party has our information. If she travels through the barrier, she will definitely attack me and Simon, who is an equipment master. In order to prevent Simon from not being able to use his tools in time, I will first come over to the interspatial device..."

"Hiss..." everyone sucked in a breath of cold air. It was fortunate that their captain was on-line. Otherwise, their group would have been wiped out in the barrier.

In the narrow barrier, even the most arrogant Lu Luo believed that they had no chance to counterattack!

“Captain... “Tan Lang suddenly said solemnly, “The space traces haven’t been removed. It’s easy to track them. They are Rangers. Sooner or later, they will catch up to us.”

“It doesn’t matter, the spatial device will cool down in three minutes. If we travel a few more Limes, we can open up a distance of a thousand Kilometers. No matter how fast the other party is, they won’t dare to exhaust us like this.

Thus, we have a set up space...”

Hearing this, everyone heaved a sigh of relief, but before they could put their hearts back into their stomachs.., ravenous Wolf’s next question came, “Captain, you said that she can jump through elements. If she can crack the spatial traces and lock onto our position, will she be able to catch up to us in an instant?”

“The possibility is not high...” “. Yao Feng shook his head. “This place is close to 200 kilometers away from us. It is very risky to jump so far. Although there is no energy resistance in the elemental world, it has a strong repulsion. If we are not careful, we might be swallowed by the elements. Even with the talent of demon star and I, we do not dare to jump so fast in the Shadow World. ”

“It’s already very exaggerated that the other party can jump ten kilometers. It should be the limit! ”

“What if it’s not the limit? “Tan Lang stared at Yao Feng.

Yao Feng’s running body slightly stiffened.. After a few seconds, he faintly replied, “If it’s not, we can only admit defeat!”

Chapter 1705: Fierce Battle!

If not... ... Then we can only admit defeat...

Yao Feng’s words were very free and easy, but everyone could hear that he was also feeling apprehensive at this time... ...

Just like what greedy wolf said, you think that the other party’s upper limit is only based on your own experience and estimation, but what if he isn’t that upper limit?

“He’s a little more open, how can he be that perverted?” In the team, Lu Luo forced a smile and joked, “How long has this guy been in the Gale Academy? And how old is he? Even if he started practicing with Vivian since his mother’s womb, it shouldn’t be that exaggerated, right?”

Everyone looked at the other party with a strange expression. Lu Luo was a master of the mind, and the connection between their minds had not been removed. Although they could not read each other’s minds, they could roughly feel their emotions.

Lu Luo was obviously very nervous...

Everyone knew that people were different. Some people, even if they started training from their mother's womb until they died of old age, would never achieve anything. Some people only needed an opportunity to soar to the sky.

For example, Demon Star, who had stayed in the wilderness for decades.., how long had it been since he had been valued by Lord Lich and taken in as his subordinate?

Once he entered the first Triffasson Fellowship, he had already shocked everyone. Those who had been under the strict education of their families since young, with all kinds of resources, subsidies, and all kinds of wise teachers, could not even see the backs of others. who could they find to reason with?

"That's true...". Tan Lang also rubbed his own authentic dog head and smiled. "It would be a little abnormal if they could do that again. After all, when senior Vivian participated in the gathering, she could only jump 20 kilometers in elemental jump. It should be the limit for those below dragon-level "..."." everyone nodded in agreement, but their feet did not slow down at all. Some of them even stared at the teleportation device in Yao Feng's hand from time to time, wishing that it could be cooled down quickly... ..

Everyone felt a shadow in their hearts...

Suddenly, Simon, who was already unconscious on greed's back, let out a moan. Everyone stopped in their tracks and looked over in surprise.

"Simon? Are You Awake? "Yao Feng asked hurriedly.

"Hiss..." Simon obviously took a deep breath. It was obvious that the pain in his body was not light.

Demon blade: "I've given you emergency treatment and even fed you an energy supplement. You Won't be able to adapt to it, but there's nothing we can do. We really need you now..."

There were many devices on Simon that only he could activate. If a party lost their equipment hand, it would be equivalent to losing half of their combat power. However, Tiriverson's equipment was even worse. After all...

Tiriverson's equipment had always been ranked at the top in the Federation Academy. ...

"Phew..." Simon exhaled. "It's somewhat solid, but it can still hold on. Captain, you don't have to worry..."

"That's good then..." demon blade revealed a rare smile. "Since you've regained your senses, activate the purification device and the black blood device. Be prepared to use them at any time!"

Simon nodded. He had also seen clearly that it was impossible to save time when dealing with that girl. If he couldn't bear to do so, perhaps all of them would be overturned.

Just as he was about to activate the device, his arm was suddenly pulled. Simon looked back and found that it was Wang Goudan, who had been following beside Simon the whole time. At this moment, she looked at Simon with eager eyes. "Can you walk on your own?"

"Uh..." Simon was stunned. "I should be able to?"

“Then come down, come down... “Wang Goudan quickly said, “My legs are weak...” Everyone:” ”

“Don’t mess around... “Yao Feng could not help but glare at Goudan. “Simon needs to conserve his strength... ”

Goudan immediately glared at Yao Feng!

Yao Feng instantly had a headache. It would be very troublesome if Little Jia didn’t listen at this time. He, who had always been strong, could only suppress his frustration. “Little Jia, be good. When Simon recovers, no one will snatch the big dog from you...”

Tan Lang:”.

When did this nickname start to spread?

Goudan was unmoved and continued to glare at Yao Feng.

Yao Feng immediately frowned when he saw this. Why was this girl so insensible at such a critical moment. Although she was a little willful in the past, she still listened to him... ..

“Captain... “a group of teammates suddenly looked at Yao Feng...

Yao Feng was stunned for a moment before he immediately reacted. All the hairs on his body stood up!

No way...

“AH... “m the next second, a familiar voice came from not far behind Yao Feng. “The landing was very smooth. I thought I had worn too far...”

Yao !

Everyone’s expression became extremely gloomy. It seemed that the shadow in their hearts earlier was not wrong. The thing they were most worried about had still happened. That girl could really travel up to 100 kilometers!

“Captain, get down! ”

Lu Luo, who had already activated her mecha, shouted fiercely. Hundreds of gun muzzles appeared all over her body. In an instant, countless metal shrapnel swarmed out and instantly gathered into a torrent of metal that swept towards Goudan not far away!

Yao Feng immediately leaped into the shadows after he lay down. However, when he was in the shadows, the shadow domain, which had always made him feel safe, could not protect him at all. As soon as he arrived at the shadow domain, his slender white hands were tightly pressed against his back!

Damn it! !

As the excruciating pain spread throughout his body, Yao Feng knew that his lute bone had been directly locked by the other party!

A miscalculation...

Yao Feng's defeat had already shown that the shadow domain had no shielding effect on the other party. He had entered the shadow domain and left himself alone without any help, so there was no benefit at all!

He shouldn't have made such a low-level mistake... ? ... or had he been at ease for too long?

Thinking of this, a bitter smile appeared on the corner of Yao Feng's mouth. After the Fellowship, the one year he had returned to school had been too smooth. Everyone had acknowledged his status, and after getting used to his teammates, there was practically no competition in school. It seemed... .. He had already lost that sense of urgency from before... ..

However, you didn't kill me immediately. Little Girl, you're still a little too arrogant... ..

Bang! !

With a loud bang, a swift figure brought Yao Feng out of the Shadow Domain!

"Captain! !

Lu Luo's expression suddenly changed. When the captain was attacked, as a spiritual master, he had sensed it at the first moment, but he hadn't expected to lose so quickly!

Looking at the limp and powerless Yao Feng in the girl's hands, everyone's heart sank to the freezing point!

Bang!

Suddenly, a white light flashed across the captain's body, and he instantly disappeared from Li Goudan's hands.

Goudan was stunned, and he immediately looked over. In the next second, he saw that Yao Feng had appeared a thousand meters away, and at the same time, his group of teammates had also been pulled a thousand meters away!

Spatial device! "Simon's eyes lit up!

Everyone suddenly recalled that the spatial device was in the captain's hands. It was obvious that the captain had activated it after it had just cooled down!

"Lu Luo, Storm Stream! "Yao Feng, who had already been teleported behind Simon, shouted weakly!

Lu Luo was stunned for a moment before she hesitantly pointed the muzzle of her gun at the other party. She thought to herself, is this useful?

The other party was able to travel through the elemental plane, so physical firepower shouldn't be effective, right?

However, her obedience to her captain immediately overcame her doubts. Green Willow once again activated her firepower device, and the storm-like metal shrapnel swept towards Goudan with terrifying firepower that tore through space.

The strange thing was that this time, the little wind demon didn't immediately activate her footwork to travel through the plane!

What was going on? Everyone was confused.

A thousand meters away, Li Goudan looked at the metal storm that was sweeping over and frowned!

Chapter 1706: Just In Time!

Faced with the metal storm that filled the sky, eggface frowned... ..

It wasn't that she didn't want to travel between planes, but that she couldn't. The entire space was sealed!

If she hadn't acted quickly in the shadow plane, she might have been locked in the shadow world by that fellow. He really was a vicious person... ..

Very quickly, the other party seemed to have discovered the reason as well, and was instantly filled with joy!

"Well done, Captain! !" Lu Luo couldn't help but shout in the spiritual link!

The other party's mysterious shuttle skill should have been sealed long ago!

Without that strange footwork, this distance was precisely the distance that the mecha's firepower could unleash the most!

In an instant, the metal storm swept over, covering the sky and covering the earth. There was practically no space left, at least not visible to the naked eye...

However, it was just an ordinary naked eye. Some people couldn't see it, but some people could... .

A green light flashed in Goudan's emerald eyes, and an invisible wind force spread out. Just like when he was fighting with Yao Xing, he once again released the hidden wind force in his body!

This was...

Everyone was stunned, and they instantly revealed the same shocked expression as Yao Xing back then!

In the next second, Goudan seemed to have truly transformed into that omnipresent wind, shuttling through the metal torrent. He really didn't touch a single leaf, leaving everyone dumbstruck!

"This monster! ! !"

Lu Luo's eyes turned red, and she poured all her mental energy into it. Countless runes lit up on the muzzle of the gun, instantly turning the muzzle red. At the same time, metal shrapnel that was several times denser than before gushed out, and countless shrapnel exploded in the air, the shrapnel turned into spiral shrapnel, and after colliding with each other, they changed their direction. Their trajectories became even more unpredictable, and their speed also doubled!

Simon, who was on greed's body, laughed bitterly when he saw this. Lu Luo was really going all out!

That metal rune was designed by him, and it was not fully formed yet. If he were to forcefully use it like this, the mech would probably be severely damaged. This time, he would probably need tens of thousands of points to repair it...

However, there was nothing he could do now. If he did not take advantage of

this moment to use his strongest firepower to defeat the opponent, with the opponent's terrifying skills, once he got close, no one would be able to stop him!

Secret Skill: first layer of bright lotus! !

On the other side, Goudan did not hesitate and activated his secret skill. The powerful energy in his body was instantly activated. Crackling sounds like electric currents were flowing through his entire body. His entire person was like a Saiyan... .

When she had first learned this secret technique, she had thought it was the Realm King Fist... ..

She had originally thought that in the seven Dragon Balls, once an expert erupted, the special effects of the airflow and lightning would be used to scare people. She had never thought that the explosive energy in the universe was really like that!

The powerful energy could activate the skin's activity, allowing the body to have the greatest degree of resistance against friction!

After taking a deep breath, Goudan's eyes shone brightly. His body instantly turned into a stream of light, almost as if passing through space, appearing in front of Lu Luo in an instant!

Almost everyone did not manage to react at the first moment. By the time Lu Luo reacted, it was already too late!

Her mecha was operated manually, but at this speed, her body could no longer keep up with her brain...

Bright Lotus! !

Not far away, Yao Feng's pupils constricted. From the moment the light from his opponent's body appeared, he knew that it was going to be bad!

This was one of the top secret techniques of the Zephyr Academy. It was basically impossible to learn it when one was an undergraduate. This was because energy control was complicated and required extremely strong wind elemental control as well as extremely high physical attributes. Most students would only be able to use this secret technique after graduating for many years..., only after advancing to dragon rank could one use this secret technique!

Just like Vaughn's shadow steps, it should not be able to be used at this stage!

Lu Luo was right. This was really a monster! !

Secret technique: flowing wind!

Goudan, who had arrived in front of Lu Luo, suddenly leaned his body downwards. The white light around his body instantly disappeared. Powerful energy instantly gathered in Goudan's hands like a stream of water, Goudan used an extremely gentle technique to slap the energy into the huge mecha in

front of him. Sparks flew in all directions, and the huge mecha was instantly sent flying into the air by this force!

However, after slapping the mecha, Goudan did not take any further action. Instead, he quickly took a deep breath.

Everyone stared blankly at this exaggerated scene. For a moment, they did not know how to respond. Only Yao Feng shouted loudly, "Greedy wolf, hurry up, she's exhausted! !"

That's right, I should have thought of it earlier!

When the other party didn't attack them from behind, but instead sent Lu Luo flying, this huge mecha, I should have thought of it immediately!

The other party was probably not familiar with controlling a top-tier secret technique like the clear day lotus flower. At the very least, she wasn't able to deal with flexible turns!

If she could, with that terrifying speed just now, once she cut into the back row, the entire team would probably be wiped out in an instant. But the other party didn't. Instead, she stopped after sending Lu Luo flying. Why was this?

Because of the powerful inertia, she was unable to change directions on a large scale. Thus, she could only rely on the details to avoid the metal bullet and get close to her. However, she did not dare to change directions on a large scale. Once she changed directions, the powerful inertia would make it impossible for her to change directions again, therefore, she had to charge forward and use the huge body of the Lu Luo mecha to remove the energy in her body!

And this kind of operation would definitely cause her body to fall into a state of exhaustion for a short period of time!

A Wolf's cry sounded, and greedy wolf instantly turned into a streak of black light and pounced forward. The muscles all over his body instantly bulged, and his hair grew crazily. Greedy wolf immediately activated his own evil god power!

He was also an experienced veteran. The moment Yao Feng reminded him, he immediately reacted and used all his strength to seize this last blank moment!

This was probably his only chance!

He did not even wait for the evil God's power to be fully activated before pouncing over!

The sharp claws turned into two sharp beams that seemed to be able to tear through everything as they clawed at the terrifying wind demon!

But in an instant, a pair of fair hands instantly grabbed the two terrifying sharp beams, instantly causing them to stop and turn into huge sharp claws. At this moment, it was clear.., ravenous Wolf's sharp claws had already expanded to half the size of a human under the enhancement of the evil God's power. His fingernails were like ten huge sickles, emitting a terrifying cold light!

However, these terrifying sharp claws were tightly locked by the two small white hands, unable to move at all!

“Too slow! “Wind demon opened his incomparably beautiful jade-colored eyes and grinned. In the next second, his hand instantly flicked away the pair of huge claws with incomparable gentleness. His right hand turned into a finger, and powerful wind elements gathered at the tip of his finger, then, his slender finger pointed at the spot where the energy gathered in Greed’s heart!

Secret Skill: Tap Wind! !

One of the wind movement secret skills was to seal the acupoints with condensed wind elements to prevent the opponent’s energy from flowing normally. It required extremely high control of the wind elements and accurate judgment of the energy operation of the prey’s acupoints!

Obviously, Little Wind Demon’s judgment was extremely accurate. The energy that greed had gathered from the evil God’s power was at the giant spot on his chest!

In an instant, all the energy in his body was directly dispersed. The evil God’s power in his body instantly spread out in all directions. Ravenous Wolf spat out a mouthful of black blood and was directly sent flying.

The dispersed evil God’s power was uncontrollably dispersed in his meridians, causing his entire body to be incomparably cold!

But what was even colder was his heart!

Since he was in a close-range barehanded situation, he couldn’t even take a single move!

Was this a Ranger?

As the strongest main force in close combat, even if he had once fought against the number one monk of the Central Star Field Academy, Lily herself wouldn’t have been able to take him down. She didn’t expect that she would be so weak under the Wind Demon Ranger!

With this kind of skill, their team might really be overturned today!

This time, they would probably be scolded until they were drenched in blood...

As he thought of this, a bitter smile appeared on the corner of Ravenous Wolf’s mouth as he flew backwards. He was filled with despair. However, just as this cold and despair coexisted, he suddenly felt something pull him from behind. The situation of him flying backwards came to a stop!

Not only that, an extremely hot energy continued to pour into his body from his back. It instantly dispelled the cold in his veins, causing ravenous wolf to instantly come back to his senses!

He hurriedly turned around to take a look, and his pupils suddenly constricted!

What met his eyes was a pair of eyes that were burning with flames!

This was...

Ravenous Wolf’s heart skipped a beat, and the other members who did not know the truth also looked at the fellow who had caught ravenous wolf in shock.

Looking at the fellow who was covered in black dragon scales and burning with hot flames, they could not help but ask, "Who is this fellow?"?

"Hu... "Yao Xing immediately heaved a sigh of relief and sat down on the ground, muttering, "It's really timely..."

Chapter 1707: Getting Stronger, Dogsh * t!

"Who... who... is this? "The newcomers in charge of medical and arcane support in the team stared at the DRAGONID who had caught greedy wolf.

The brutal aura made them step back one after another. The strong pressure made their hearts pound, and they didn't even dare to breathe loudly.

They were afraid of being targeted by this unknown creature...

Although the violent aura pressed down on the newcomers until they couldn't breathe, the elders in the team were like Yao Feng. They secretly heaved a sigh of relief and looked at the other party with anticipation...

Little Jia had a pair of bloodlines, so the team didn't know much about this matter. Other than the captain and Yao Xing, only the third main force in the team, the Banshee Fuhrman, knew about it. Tatu, the second main force, Ravenous Wolf, and the spiritual officer, Lu Luo, knew about it!

However, the reason why they didn't let little Jia resist this monster in the beginning was that Little Jia's condition was extremely unstable... ..

When Wang Xiaojia was in the wood elf state, although her bloodline was very pure, for some reason, her bloodline couldn't be fully unleashed when it was suppressed by the Black Dragon Bloodline. It was even extremely easy for her to enter the half-dragon half-elf state.., this would cause her body to be in a state of confusion, with some going berserk while others going into shock on the spot.

This had happened more than once during training. Therefore, before using the black blood device, demon blade did not dare to let Xiaojia be the main force. In fact, he even had greed guard her closely.

However, the activation of the black blood device had to be done half an hour earlier, and it was extremely time-sensitive. In the face of such a sudden situation, it was simply too late. The main reason was that no one had expected that there was such a huge trump card hidden in Gale Academy!

But fortunately... At the crucial moment, this fellow... .. ! . . was reliable for once! ! !

"It's really timely..."

In mid-air, Lu Luo, who had already deactivated her mecha status, slowly floated down and landed beside Yao Feng from afar, muttering softly.

"That's right..."Yao Feng smiled with a complicated expression. "At least I didn't spoil her for nothing..."

"Tsk..."Lu Luo rolled her eyes, curled her lips, and said nothing.

“Is this... Xiao Jia?”

Simon asked weakly, his eyes filled with disbelief. It was hard to believe that the guy who liked to act cute, slack off, and eat delicious food actually had such a side!

Just one look at this guy who was filled with a violent aura was enough to shock people...

And this. ... It was clearly a dragon bloodline. Wasn't Xiao Jia a Wood Elf?

As the top student in the biology department, Simon felt that his worldview was being overturned. He swore that he had never seen such a situation in the textbooks!

It wasn't that dual bloodlines didn't exist in the universe. Although they were rare, there were special existences where two bloodlines were very peaceful and could complement each other, resulting in dual-use. It was said that a hybrid of a fallen angel and a blood demon had appeared in the blood demon clan. They could use the blood demon's talent while also using part of the FallenAngel's talent.

But the situation before them was completely different. How was this a part of the talent? This was a complete transformation. Where could one see the slightest trace of Wood Elf's bloodline?

The captain had always said that Little Jia was the team's trump card. So that was what he meant?

Bang...

After transforming, Little Jia slowly threw greedy wolf to the back and walked step by step towards the wind demon that was flying in the air in front of them.

On the ground, the footprints carried black and red flames. Even in a place with such a high energy density like the ancient lands, it displayed a terrifying destructive power. The flames that were burning with energy emitted crackling sounds. The hearts of the rookies jumped once again when they saw this...

This... What kind of monster was this?

Bang...

Finally, Wang Xiaojia, who was taking one step at a time, walked to the bottom of the wind demon. She raised her head and looked over. The wind demon in midair also looked over. The two invisible auras collided, and in this dense space, they also stirred up invisible sparks. The entire space became extremely quiet because of the confrontation between the two of them. Even the surrounding wind had quietly stopped at some point in time...

Everyone, including Yao Feng and the others, held their breaths... ..

Obviously, they were all suppressed by this invisible aura and didn't dare to disturb these two beast-like things... ..

“Captain... “boundary master Emma took a deep breath and transmitted her voice, “This is our trump card?”

She suddenly understood why the Banshee Fuhrman didn't really fall out with Wang Xiaojia before, even though she disliked Wang Xiaojia so much. This completely didn't conform to her fierce personality. In the past, she thought that the captain was too biased toward this little elf.

Now it seemed that he wasn't biased toward Wang Xiaojia, but was clearly protecting Fuhrman. To think that Fuhrman dared to provoke such a guy... ..

"Can we win?" Emma looked at the astonishing momentum and swallowed her saliva.

"I don't know..." Yao Feng shook his head, his eyes were solemn. For the first time, he wasn't confident in his deduction. No one in the team knew where the limit of Wang Xiaojia's combat strength was. This was because the strongest Yao Xing couldn't even move a single move in front of the transformed Xiaojia!

One had to know that even the crown prince of the bronze race was suppressed and beaten up!

However, at this moment, Xiaojia's opponent was also a shocking monster. That skill was completely on a different level from their own team. The two of them were not from the same dimension as them. How could they, who were one dimension lower, predict the outcome?

"But regardless of whether we can win or not, Xiaojia is our last trump card..." Yao Feng took a deep breath and said.

Everyone felt a chill in their hearts when they heard this. They looked around and suddenly realized that this seemed to be the case... ..

Emma looked at Lu Luo, who had already removed her mecha, with a questioning look in her eyes. Lu Luo quickly understood what the other party meant and shook her head slightly.

That Little Wind Demon's attack just now had the wind elemental energy directly attacking her body through her mecha. If she had not temporarily removed her mecha, she would have probably been eliminated in an instant.

However, even though he reacted in time, the mech could not be used before it was repaired. In other words, as a master of the mind, his own combat strength could no longer be used.

After receiving the feedback, Emma's heart sank to the bottom. The green radish mech had been crippled, Fuhrman had been eliminated, Yao Xing's injuries were unknown, the sniper had been eliminated, and greedy wolf seemed to have suffered considerable injuries, as for the two new members of the Templar clan, they had been eliminated long ago. Even the captain was currently in a powerless state!

In other words, the main force, firepower, and sniper in the team had basically been silenced. If not for Wang Xiaojia's sudden attack, the entire team would probably have been wiped out... ..

Thinking of this, Emma looked at the wind demon floating in the sky, her gaze incomparably complicated... ..

Each person eliminated a high school team, this guy... .. Where did he come from?

However, at this moment, Li Goudan wasn't in the mood to pay attention to the complicated feelings of the students from Tiriverson. At this moment, all her attention was focused on the guy covered in black scales below...

“This guy... his aura is getting more and more frightening... “Li Goudan floated in the air and looked at the other party, his jade-like eyes flashing with a trace of excitement!

The last time they exchanged blows was a year ago, right?

The black dragon below was also filled with excitement as he looked at the other party... .

The two of them did not speak, but they could read each other’s meaning from each other’s eyes... ..

He became stronger.... Goudan!

Chapter 1708: Assassins who enter the Forbidden Zone by mistake...

“As expected, there are no weaklings who can represent the university to participate in the Fellowship Party... ”

In the abandoned streets, one could see the intricate paths that each of them took. Two swift figures shuttled through the complicated paths like ghosts, both displaying extremely high levels of agility.

It was none other than Piran from the Zephyr Academy and another member of the Templar clan: Gauss. Templar... ..

The two of them had been entangled with each other for almost a week, but they were still probing each other.

At this moment, Gauss was following behind the other leisurely, maintaining his breathing state at all times. He stared at the other tightly, afraid that he would miss even the slightest detail.

His cousin’s elimination had already made him realize that this so-called weakest academy on paper wasn’t an existence that could be easily dealt with. He must not be careless. If he were to fall today as well... Then the reputation of the Templar clan would really be lost... .

As a disciple of a professional assassin who had received strict training since young, once his attitude became upright, he would become extremely patient. An assassin’s ability to flee thousands of miles in a single strike was already a basic accomplishment.

Meanwhile, Bi Lan, who had been running in front of them, had a hint of annoyance.

This fellow was really troublesome...

He had thought that a disciple of a famous family would be young and impetuous, and that he would get the upper hand with just a few words of provocation. He had never thought that his style would be so cowardly. However, it was true. After all, weren’t assassins all like this?

However, the crux of the matter was that he could not use his trump card on someone of this level. After all, that was prepared for Yao Xing...

Just like that, the two of them had their own thoughts in mind. They chased each other all the way until they arrived at an iron forest that looked like a park.

The two of them turned into a black and a hundred streams of light and darted to the center of the park. They shuttled through the forest to probe. The terrain of the iron forest was wide, which greatly reduced the space that the two of them had to go around!

A bright light flashed in Gauss' eyes. After chasing for more than a star, he had almost understood the basic movement techniques of the other party. There was no need to continue dragging this out. After all, he could not keep wasting time with the other party like this. He had come here to find the divine fire...

Secret Skill: light refraction step!

The energy in Gauss' body suddenly burst out. His body suddenly twisted like a mirror. Then, at a strange angle, he instantly jumped three times and arrived behind Bi LAN!

Bi Lan sneered. "He's finally here. I thought this kid would wait until Dawn! "

As she spoke, a green light flashed on her body as if some secret technique was being activated. Just as the two of them were about to fight, an inexplicable feeling suddenly surged in her heart. It was almost at the same time, the two of them instantly stopped fighting and tacitly increased the distance between them by a hundred feet. Then, they suddenly looked around.

This is...

When the two of them saw the situation around them clearly, their hearts jumped!

This was because the two of them realized that there was a group of spectators standing around them at some point in time...

And they were looking at them with an extremely strange gaze... ..

"Cha!" Pielan was the first to react and could not help but let out a 'cha! 'because when he raised his head, he saw that the group of people standing there were actually people from Tiriverson!

He immediately reacted and glared fiercely at Gauss. "You Brat, you're quite sinister!

He had never expected that this fellow who had been slacking from the start to the end would be so calculative. He had accidentally messed up the plans of such a junior. He was afraid that he would be doomed this time.

Could it be that he could only use that?

Pilan thought with great difficulty in his heart.

Gauss was also stunned when he saw Tyrifson and his teammates. However, his heart was slightly delighted. This was also a good opportunity for him to show the true strength of the Templar clan in front of the Captain!

"Captain, you don't have to fight. I can handle it! "Gauss transmitted his voice solemnly.

The group of people, including Yao Feng, looked at the two guys who suddenly appeared in a daze. Their expressions were extremely strange. When they heard Gauss swearing that he would fight them one-on-one, their expressions became even more strange... .

What was going on?

Gauss was stunned. Clearly, he had sensed the strangeness of the atmosphere.

Pielan was also stunned. What did these guys mean? What kind of expression was that? Even if this young master had fallen into your trap, there was no need for me to show that Silly Look, right?

Pielan inexplicably took a step back. However, this one step seemed to have stepped on some red line. His entire body suddenly quivered as he hurriedly took two steps forward and turned around!

What was going on?

That feeling just now was like a white rabbit entering the territory of some prehistoric beast by mistake. That bone-chilling feeling... ..

What was that?

After turning around, Bi Lan instantly found the source that made her whole body cold.

It was a humanoid monster with black scales all over its body. It was not big, but standing there like a volcano that was about to erupt, the terrifying and oppressive aura made her extremely depressed just by looking at it!

What the Hell Is This?

Piran's Goosebumps instantly stood up. He constantly wanted to retreat, but he was afraid that he would attract the attention of that thing.

Every cell in his body told him that if this monster noticed him, there would not be any bones left... .

Damn it, didn't they say that the underground city had already been cleaned up? There were no ancient creatures anymore? Could it be a fish that slipped through the net?

While Bilan was having a myriad of thoughts, Gauss, who was not far away from Bilan, had an even more interesting expression on his face.

Because his position was even more awkward, Bilan could still take a step back and retreat, but he was less than ten meters away from the black-scaled monster. That terrifying feeling was almost like a tidal wave that was about to drown him in an instant!

Retreat...

Gauss instantly reflexively wanted to leave this place as soon as possible, but just as he moved his feet slightly, the cold warning voice of Green Lolo came from his mind... .

"I advise you to stay still..."

Green Lolo's voice was very cold, with a gaze that looked like she was looking at a dead person, causing Gauss 'body to instantly freeze.

This is not only because of the green warning, but also behind an inexplicable cold attack!

Monster... .. More than one:. Hey! There's something behind you!

In an instant, he understood why Lu Luo had warned him so. . .

Damn it!

Look at this, he actually mistakenly entered the two monsters confrontation of the Forbidden Zone! !

Upon closer observation, one would discover that although the black-scaled monster's aura was terrifyingly terrifying, it did not pay any attention to him at all. Presumably, the unknown thing behind him was the same.

However, if he moved, it would be hard to say...

With this thought in mind, Gauss could only stand stiffly on the spot. Cold sweat dripped down from his back, and within a few seconds, his clothes were drenched!

And it was also because of these few seconds that Gauss felt as if he had completely exhausted his strength! !

Just how long are you guys going to stand like this?

He suddenly could not help but want to shout, but he did not dare to. He could only stand like this, second by second. Every second felt as long as a year... ..

Finally, after an unknown number of seconds of torture, just as he was about to collapse, the monster in front of him finally moved!

When it did not move, it was like a dull volcano, but when it moved, it was like lightning striking down from the sky without any warning.. One's eyes could not catch the slightest trace of it, a huge torrent of aura suddenly exploded above his head!

Chapter 1709: Wang Goudan VS Li Goudan

Damn it... how did this happen?

Gauss stood stiffly on the spot, not daring to move at all. He could only rely on his relatively wide field of vision to look at the situation around him... .

Actually, it didn't make any difference whether he looked or not, because he couldn't see clearly at all! !

He could only see the flickering light and the collision of the two energies, like two huge storms colliding, and he was in the eye of the storm!

As an assassin, he had trained his eyesight since he was young. After all, his eyesight was not good, so he was unable to predict the dangers of high-speed movements.

And his many years of judgment had let him know that the two fellows he was fighting were not from the same dimension as him. At this level of speed, if he were to randomly move and get hit by them, he would probably turn into a pile of mud in an instant!

However, standing still did not mean that he was safe. It was as if whether he would be crushed like a doll was entirely dependent on the thoughts of the two fellows who were fighting!

What the... ? ... how did this happen to you? Who are these two?

Gauss numbly standing in place, in the distance, has deliberately opened the distance of the Tirez Fasson people is to rely on the open field of vision to see the full picture of the two people fighting.

Although expected this is a monster duel, can really see when or can not help

but suck in a breath of cold air!

Just like Gauss, almost everyone here couldn't see the trajectory of the two's fight. They could only see a red and a basket of lights crisscrossing in the air, so dazzling that their eyes were exploding, but they still couldn't see the details clearly... ..

They were completely on a different level...

"Captain... Do You Want to help?"

In the team, the two rookies swallowed their saliva and asked carefully.

The old man in the team rolled his eyes and couldn't be bothered to answer.

How could they help? With what help?

In this situation, even long-range firepower didn't dare to provide random support. Their eyes couldn't catch up at all, let alone predict what would happen. If they pulled the trigger, who knew if they would help their side or the other side... ..

"Then... we... What should we do?" The rookie asked carefully again.

What an untactful newcomer...

Lu Luo and the others couldn't help but sigh...

What else could they do?

In this situation...

They looked at the sky, including Yao Feng, who also fell into silence...

Of course, they could only wait...

Secret Skill... shadow steps! !

At this moment, light and shadow intersected, and only the two people who were fighting could see each other's figures clearly. Their eyes were full of excitement, and the cells in their bodies became more and more excited as they warmed up, and their speed became faster and faster, their movements were getting smoother and smoother!

In a year of high school life, neither Wang Goudan nor Li Goudan had ever moved so freely. There was no suspense when they sparred with their mentors, and there was no suspense when they sparred with their peers.

Mentors were mentors. Although they could make you use your full strength, the feeling was still different. Because you knew that you couldn't win, you didn't have the excitement in your heart.

It's boring to be in the same generation as them. A year has already made them realize that their peers around them... Are too weak... ..

So weak that they can't muster the slightest bit of enthusiasm...

Especially Li Goudan. During the final training period, in order to maintain cooperation, she had to suppress her nature. Under the arrangements of her mentor, she had to coordinate with the speed of her teammates, their mobility, and the strength that her teammates needed... ..

It was like running with a load on her shoulders. Her body was covered in layers of shackles, and it was so stifling that she could not breathe... .

It had been a year... .. At this moment, she could finally completely release the shackles on her body!

Li Goudan no longer suppressed her boiling blood. She allowed the electric-like excitement to spread throughout her entire body. She allowed her body to display its full potential. This feeling of releasing everything made her feel at ease!

Boom! !

With another loud bang, Goudan's lithe figure retreated. Her sharp claws, which were almost millimeters long, tore through the air in front of her and completely melted the metal tree beside her!

No one could understand how such a high-density material from a plane could be destroyed by a level 10 creature. However, both of them could feel that their natural instincts had been unleashed to the limit in this space!

Li Goudan's heart skipped a beat when he narrowly avoided the grab. However, he did not feel the slightest bit of fear. Instead, he only felt his blood boiling!

In his mind, the various wrong steps that his master had taught him surged into his mind. Many of the techniques that he had practiced a month ago were still unfamiliar to him. However, for some unknown reason, he was extremely familiar with them every single time he exchanged blows at the limit, it was as if he had used it ten thousand times, a hundred thousand times, a hundred thousand times, and it was so easy to use!

But even so, he still could not shake off Wang Goudan!

That fellow was like a magnet. No matter how brilliant his stagger techniques were, it would always be able to keep up with him. Its movements were clearly so barbaric, and it was clear that this speed could not be changed without using techniques, but the other party had done it.

Its incomparably barbaric movements, however, relied on the terrifying control of its body. It forcibly stopped every time it turned a corner to change directions, and once again caught up with it. It was like a racing car that could brake to zero speed at any time, it was simply a BUG-like existence!

And it was still so powerful...

A green light flashed in Li Goudan's eyes. He knew that he could not continue to get close like this. He was still a ranger, and a wind demon ranger at that. Only by pulling apart the distance could he take advantage of the Ranger's equipment advantage!

Secret Skill: Shadow Steps!

After pulling out of the area that had been sealed off by the demon blade, Li Goudan didn't hesitate to use the secret skill that his master Wayne had taught him. His entire body instantly turned into an elemental state and disappeared into the elemental plane!

The instant Li Goudan disappeared, Wang Xiaojia's body suddenly froze on the spot. Once again, she came to an unbelievable stop at high speed. It was as if she didn't need to skate at all, the terrifying agility made the members of the Tirefarson team in the distance gulp again.

They suddenly felt extremely fortunate that this kind of monster... .. Was on their side... ..

"Oh.

Wang Goudan was not in the mood to care about the others'surprise. She narrowed her burning black eyes and kept looking around, trying to catch Li Goudan's position. In the next second, several green lights shot out from a direction with the power of a spiral!

Goudan's heart skipped a beat, and he quickly turned around to dodge. The green spiral almost brushed past the dragon scales on his body, and intense sparks lit up. It was as if two chainsaws had turned on their maximum horsepower and collided with each other, the sharp sound of friction made people's Goosebumps stand on end, and the spectators could not help but cover their ears!

Bang Bang! !

In the next second, two green lights brushed past Wang Goudan's body, bringing with them a terrifying spiral power. They nailed onto the huge iron tree around them. The iron tree, which was obviously made of high alloy, was penetrated by the two green lights, spider-web-like cracks appeared on it!

This scene caused the eyes of the people from Tiriverson, who were already numb to the shock, to almost pop out of their sockets!

What.... was that?

Chapter 1710: Wang Goudan VS Li Goudan (below)

Zi Zi...

As the terrifying spiral force slowly dissipated, more and more cracks appeared on the steel tree. Just as the entire tree was about to shatter, the force finally dissipated, the spiral cyan light turned into two soft feathers that slowly descended.

The scene instantly fell silent...

After an unknown amount of time, Lu Luo asked in a daze, "Is this for real?" The group of teammates at the side fell silent upon hearing this, not knowing what to say...

This was an ancient land with dense elements, so the density of the material formed was naturally far beyond that of ordinary planets. Not to mention, the surrounding steel trees were most likely made of artificial alloys.

On the way, they had also tested the strength of the steel trees. The snipers in the team were equipped with high-penetration alloy bullets, but they could not even leave a trace on these steel trees. In the end, they were as fragile as bubbles in the hands of these two monsters.

Looking at the two feathers that were slowly falling down, everyone felt their mouths dry for a moment...

“Windwalker’s vibration spell? “Emma carefully judged.

“Are you sure?” Lu Luo swallowed her saliva and said with a strange expression, “I’m afraid that this is not the effect of an ordinary vibration spell,

Windwalker’s secret skill was well-known. As the exclusive academy for Rangers, in addition to beast taming, arcane dismantling, and mechanical trap assembly, which were adapted to the advanced civilization, the Ranger’s own combat skills., basic skills such as archery, concealed weapons, and close combat skills were naturally even more famous!

Vibration technique referred to the technique of vibrating concealed weapons in the ranger world, but Windwalker was particularly famous for it.

Windwalker, who was good at controlling the wind element, was good at controlling the wind element, and the vibrating concealed weapons were augmented with a precise wind element control technique, often, the power of the concealed weapons was not weaker than that of a mechanical firearm, and in many cases, the angle and power of the concealed weapons were even better!

This was especially true for the wind demon lineage. They were not very suitable for drawing bows, and they usually preferred to invest more in vibration techniques. Most of the good wind demon Rangers would have a good vibration technique.

However, the one in front of them was clearly beyond that... ..

If a level 10 ranger was said to have relied on a master-level magic bow or a wind element sniper rifle carefully forged by a mechanical alchemist to achieve such penetrating power and the power of gathering wind elements, it might be a little believable...

No... .. In fact, even if it was the two situations mentioned above, a level 10 ranger should not have such exaggerated control over the wind elements. However, if he relied on a high-quality weapon to achieve this step and relied on the guidance of the runes on the master-level weapon... To be able to achieve this step, perhaps.. .. It was still somewhat acceptable.

However, this was done with his bare hands. Who would believe it if it was said to be true?

The two falling feathers reminded everyone that this exaggerated scene was done with bare hands!

It couldn’t be a feather gun or a feather bow, right?

“Then what do you think it is?” Emma looked at Lu Luo blankly.

Lu Luo was silent for a few seconds before she finally stammered, “It should be... it should be... some special secret technique, vibration technique...”

Her words made the surrounding people roll their eyes. Wasn't this obvious?

No matter what vibration technique it was, it was still something that was created with one's hands. Just this point alone was very illogical, okay?

"Little Jia is injured..."

Yao Feng, who had been silent all this time, suddenly spoke up.

"UH..."

Everyone looked over and only then did they realize that the black dragon scales of the dog egg, which had been floating in the air, seemed to have flames falling down like lava. Everyone's hearts instantly trembled!

"Captain... "Lu Luo hurriedly asked, "Should we retreat?"

"We can't retreat..." " ...". Yao Feng shook his head. "The interspatial device has been activated twice in a row, and it will take at least a week for it to cool down again. There's no time at all. Moreover, we can't retreat now, and Xiao Jia won't listen to us in her current state..." "

Lu Luo was stunned when she heard that. She looked over, and the flowing blood didn't seem to have restrained this wild beast. On the contrary, it had stimulated the wildness in its bones. From a distance of several hundred feet, that shocking aura was so strong that people didn't dare to look directly at it...

Meanwhile, below Xiao Jia, the junior of the Saint Hall clan had already fainted due to the pressure...

In an instant, she agreed with her captain's words. No one in the current Wang Xiaojia could make her obey him. At the very least, no one present could stop this battle...

Was it possible to win?

Everyone looked at the blood that was flowing down like lava and a wave of anxiety rose in their hearts. However, they could not imagine that they would lose. On the contrary, they felt that the current Xiao Jia was even more terrifying!

"Hu... "Wang Goudan stared into the distance and locked onto the position where the green light shot out. His nostrils were emitting wisps of flames, and the blood in his body was boiling due to his injuries!

Goudan... can hurt me?

The moment he was injured, Wang Goudan's initial thoughts were in disbelief. After the surgery, no one in the base could hurt her anymore!

During the test, Feng Doudou had won against him. However, her victory was determined according to the instructor's points system. At that time, he couldn't adapt to his body's attributes, and Feng Doudou was at the peak under Ysera's guidance, several times, he lost his balance and fell several times through his extremely precise control of his body.

However, both Wang Goudan and Feng Doudou knew that it was useless. No one could hurt him. During the test, the other players tried everything but couldn't even leave a trace on his dragon scales.

If it was a life-and-death battle, Feng Doudou wouldn't be able to hurt her even if she exhausted all her strength!

Not to mention Li Goudan, who wasn't very outstanding among the other players... ..

Her relationship with Li Goudan was the best among all the players. However, she never thought that she would lose to him. In fact, she never thought that she would lose to him.

However, she didn't expect... " ! In just a short year, his opponent had already reached such a state!

"Hey! "Goudan raised his head and the flames on his body soared into the sky. In an instant, the wounds on his body instantly healed under the flames. In the next second, he rushed toward Goudan Li like a burning meteor!

His imposing manner was astonishing. The force of his suction directly sucked the unconscious disciple of the Templar's court on the ground up into the air. He flew up for dozens of meters before landing heavily on the ground. He looked like a pile of broken grass, looking extremely miserable...

However, Wang Goudan was obviously not in the mood to care about that unlucky fellow. At this moment, she only wanted to calm down the boiling hot feeling in her heart!

Boom! Boom!

Two green lights attacked her once again. They were even larger than the last time. They directly carried a green tornado and crashed towards her!

When Goudan saw this, he revealed his cold fangs. He did not Dodge or Dodge. He directly spread out his metal wings and wrapped himself up. His body suddenly began to spin like a spiral!

Under this manipulation, the black and red flames on his body turned into an even larger flaming tornado that charged towards the two green tornadoes! For a moment, before the enormous energies collided, they had already formed an incomparably powerful wind current, causing the spectators to be unable to open their eyes!

This... .. Was this really a battle between two students?

Everyone silently thinks of it at this moment... ..
