

## **A Bunch 1711**

Chapter 1711: Li Goudan's trump card!

"This guy... is still as rough as ever..."

Li Goudan took a deep breath and hurriedly pulled away from Wang Goudan with his wind steps. Back in the Emerald Galaxy, she had already experienced Wang Goudan's terrifying talent. She remembered that one time when Wang Goudan went berserk, she and Pu Yunchuan's dozen or so players.., no matter how hard they tried, they were unable to subdue her.

However, this was normal. After all, no one could even break through their defenses. How could they stop him? Compete in strength? Or perhaps compete in endurance?

She could still clearly remember that back then, she had mainly relied on Leng Xing to deal with Feng Doudou. Pu Yunchuan and Emperor Liver had fought head-on against each other. As for herself... . She had not been able to help at all back then.

It was also after that time that Li Goudan suddenly felt an extreme urge to increase his strength...

If one wanted to become an adventurer, one had to face any difficulties with strength. If one could only be a bystander every time, how could one talk about adventuring in the galaxy?

After entering Gale Academy, she had been personally taught by Grandmaster Tia. She was like a dried sponge that had sunk into the vast sea, desperately absorbing water.

In terms of progress, Li Goudan was perhaps the fastest among all the players!

Shadow steps! !

Without any hesitation, Li Goudan immediately activated shadow steps and pulled away in the opposite direction!

At this moment, she finally understood why her master, Vaughn, had been so harsh in training her speed in the elements. Once she became familiar with it, it would be too convenient to use, especially when dealing with a perverted fellow like Wang Goudan!

At this moment, she had chosen the most comfortable elemental plane, which was also the elemental plane she was most familiar with. Not only could she quickly shuttle and jump, but she could also use hidden wind secret techniques here to replenish the pure wind elements!

Before she had even left the plane, the enormous wind elements gathered in her hands under the guidance of her body. Two feathers floated between her palms under the gathering of the wind elements, spinning violently like a fan!

The special vibration projection technique that had injured Goudan just now had consumed a lot of energy. However, with the elemental plane replenishing her energy, she could constantly replenish her elemental energy. It was no different from an infinite amount of ammunition. It was a secret technique that Li Goudan had spent several months assembling!

It was also specially used to deal with monsters like Wang Goudan who had overly abnormal physical abilities!

Whoosh!

With a slight sound of elemental friction, she jumped to the real plane once again. However, as soon as she came out, she saw a sharp claw with flames clawing at her face.

The sharp giant claw and the black flames that could burn everything were like a torrent of Doomsday!

How did she find me?

Li Goudan was extremely shocked. He had clearly jumped to a tricky position on the left corner behind her!

Not to mention how this fellow had forcefully stopped using that exaggerated spiral dragon meat bomb technique, even if he had been prepared at all times, he shouldn't have been so fast, right?

Unless he had predicted where he would appear in advance!

Li Goudan narrowly avoided the attack, using his nimble body to continuously dodge the opponent's fierce attack...

How did she predict it? Did she guess it?

Li Goudan thought in puzzlement as he dodged. Did she have such a brain? Using psychological warfare to guess his position?

If it was raindrop without a melon, Li Goudan would believe it, but this guy in front of her..! ... she wouldn't believe it even if she was beaten to death!

In the next moment, Li Goudan retreated and once again entered the elemental space. Wang Goudan's storm-like attack came to an abrupt halt the moment Li Goudan disappeared... .

A flash of fire flashed in the eyes of the black dragon. Without any hesitation, it rushed to a distance of more than a thousand feet above it and directly clawed at the empty space!

Just as she moved her claws, a green light flashed. In the empty space, Li Goudan instantly appeared and looked at the scene in front of him with a stunned expression!

"Good!

In the distance, Tan Lang, who was watching the battle, could not help but cheer when he saw this scene. Even Yao Feng, who was beside him, was excited.

The most troublesome skill of the wind demon was the elusive elemental teleportation skill. They were most afraid that the opponent could teleport infinitely. If that was the case, Little Jia would be too passive!

However, they did not expect xiaojia to be able to predict the opponent's position!

At first, they thought that it was luck, but this time, even the spectators were sure that Xiaojia could really guess the position!

“Captain... “Lu Luo could not help but ask, “How did that girl do it? was she calculating?”

“Calculating... “greed and Demon Edge’s faces twitched when they heard that. The two of them were in charge of testing Wang Xiaojia in the team. They could find anything from that pervert, but they couldn’t find the word scheming, especially in the dragon form... ..

Looking at the two of them, Lu Luo also knew that it wasn’t the case. However, it made sense when she thought about it. Usually, they looked silly, so how did they look like people who could fight psychological warfare?

“But how did they do it? “Lu Luo immediately became even more confused... .

“Intuition, I guess... “greed replied.

“Intuition?”

“Yes... “greed replied faintly, “He didn’t need to use his brain. He relied entirely on the battle intuition in his body. In our tribe’s words, it’s called wildness... ”

“Wildness... well... “Lu Luo repeated the other party’s words and looked at the sky.

To be honest, she originally despised those who used brute force, but now, for the first time, she felt that this kind of savage violence was truly mesmerizing!

Boom

An explosion sounded in the air, and Li Goudan swiftly retreated. His movement technique was as exquisite as the wind, leaving no traces behind.

But even so, he was still unable to pull him away!

Wang Goudan’s movement technique was straightforward, but strangely, he did not need any buffering. He suddenly turned from his highest speed and bit Li Goudan tightly, making it impossible for him to escape!

At this moment, Li Goudan was also a little anxious. She could not help but secretly call the other party sick!

Her movement technique was clearly several times better than the other party’s, but the other party was relying on her basic attributes to bite her, yet she could still predict the position of her elemental jump, making her not dare to use SHADOW STEPS AGAIN!

After all, she was attacked by her opponent in advance the moment she came out, and it was not something that she could dodge every time!

However, after being bitten by her opponent like this, not only did she have to expend a lot of her physical strength, but her mental pressure was also extremely heavy. On the other hand, her opponent seemed to be getting braver as she fought. If this continued...

She was going to lose! !

A green light flashed in Li Goudan's eyes. He gritted his teeth and immediately circulated all the wind power in his body. The feather in his hand instantly turned into a huge green light and swept towards the area!

From Afar, Yao Feng was shocked when he saw this scene. He could not help but say, "She dares to use it at such a close distance?"

After looking at it for so long, he could barely keep up. The opponent's special wind element vibration projection technique was indeed powerful, but because of this, it should not be used when he was close to her.

Because this level of power should at least be stored up, right?

In such a chasing environment, how could she accumulate strength?

And that was not to mention, at such a distance, was she not afraid of hurting herself with such a powerful move?

Just like those who used heavy firepower, would they still dare to fire when they saw someone close to them?

If Yao Feng could think of it, then as the user, Goudan could naturally think of it too. Of course, she knew

At such a close distance, using this method was risky. But she had no other way. She had to pull away to have a chance of winning. Otherwise, if she were to be exhausted like this, sooner or later, her stamina would run out.

She did not think that she could win against that pervert in terms of endurance!

However, in the face of her all-out attack, the fellow in front of her did not seem to have any intention of backing down, causing Li Goudan's heart to be greatly shocked.

What is this fellow trying to do?

The wild beast in front of her let out a savage laugh, and without any hesitation, it grabbed towards the green ray that was several times stronger than before!

Everyone was stunned by this crazy action, even Li Goudan, who was just a short distance away!

This fellow, wasn't he too wild?

Boom! !

Following a loud bang, the green energy directly exploded, instantly forming a powerful gust of wind that blotted out the sky and covered the Sun. It made many people in tirefarson feel as if they had fallen into some sort of natural disaster!

However, no one cared about the dangers around them. Instead, they were in a state of shock and excitement!

They saw that Wang Xiaojia, who was completely dominated by wild nature, had forcefully crushed that terrifying green light. The huge wind force was forcefully torn apart, and the storm that was formed was also torn into two. It was an incomparably shocking sight!

This was too wild... This battle style!

Li Goudan, who was just a few feet away, spat out a mouthful of green blood and was sent flying several hundred feet away!

At this moment, the Black Dragon, who was about to charge forward, had a clear look in its wild and violent eyes. It quickly stopped and sent a voice transmission, "Are You Alright, Goudan?"

"I'm fine..."

Almost the next second, a gentle voice came back, "Continue..."

This stunned Wang Goudan. Continue?

But in the next second, it stopped...

Li Goudan, who had been sent flying, suddenly stopped for no reason due to the inertia. He slowly floated in the air... ..

"What's going on?"

The group of people who thought that Xiao Jia had won were stunned. They looked at the wind demon.

The Wind Demon's actions were too strange. It was sent flying by that level of energy. It actually stopped in the air?

"Captain... That's..."

Green light flashed in the eyes of Lu Luo, whose mental strength was quite high, as she said with an extremely stunned expression.

Yao Feng also narrowed his eyes. He had also seen it...

Just now... In mid-air. ... .. something seemed to have dragged the wind demon and made her stop... ..

And the thing that was dragging her seemed to be... .. It was the wind...

If one were to use the meditative state to look at it now, they would be able to see clearly. In midair, the originally invisible wind force had transformed into a pair of huge palms that were holding the wind demon back!

Moreover, everyone could see that there were green particles that could be seen by the naked eye rapidly gathering towards the wind demon. These green particles that could be seen by the naked eye were obviously highly concentrated wind element molecules that had already gathered together!

How terrifying was this wind element manipulation ability?

What was this guy trying to do?

"F \* Ck..."

Wang Goudan was also stunned. When she saw this scene, she was just as shocked as the others. Moreover, she was even more shocked because she had seen this scene before!

“Goudan...” Li Goudan’s gentle voice sounded from the other side once again.

“If what you displayed just now was all of your strength, then I’m sorry.

Today... I’m afraid you will lose miserably!”

Wang Goudan was stunned, her eyes wide open. She remembered that she had seen this situation somewhere before!

It was in the Emerald Starfield, when that group of terrifying big shots were fighting against each other. There was a very powerful fellow who had also used this kind of move before her... ..

At this moment, countless green wind elements flowed into Li Goudan’s body. A soft moan that could only be heard between the elements slowly spread out. In an instant, everyone felt that the wind around them... .. It was as if it had come alive!

Wind King Barrier: Open! !

Chapter 1712: Mysterious Voice...

“What... what... was that just now?”

In the Iron Forest, the cyan wind elf hovered in the air with a unique moan, seemingly waiting for the call of the wind demon.

The surrounding wind seemed to have a life of its own, following the wind elves as they circled in the air. The wind was gentle, but the amount was astonishing. Everyone felt as if they were in a sea of wind... ..

At this moment, the wind demon that caused all of this was no longer there. Only Wang Goudan was left floating in mid-air. He looked at the place where the Wind Elves had left in a daze, his face filled with confusion. The black scales on his body were actually visibly dissipating... ..

Not far away, Tyrifson and the others held their breaths, not daring to move at all. They were afraid that they would alarm the wind elves that had yet to dissipate, and something unexpected would happen... ..

Even though the main character that caused all of this was no longer around...

“What is that?”

Faced with Green Willow’s mumbling question, everyone was stumped on the spot. How would they know what that was?

At that time, the wind demon was like a king of the wind elves, floating in the air. Billions of wind elements were gathered here. They had never even heard of such an ability that could directly activate the great elves of the ancient lands... .

Fortunately, a smoke suddenly appeared in the sky. The wind demon seemed to have something happened to its teammate and left little Jia. Otherwise... It was hard to say who would win or lose... ..

At this time, Wang Goudan, who was in the eye of the wind, was confused. Unlike her teammate, she knew very well what kind of changes these guys could make. She also knew what Li Goudan could do just now... ..

Wind King's Barrier!

Within the Emerald Starfield, the strongest main force under Lord Bolton, the direct descendant of the fallen angel clan, had used the royal inheritance... ..

After the great battle ended, the unique remnant astral souls of the Emerald Starfield had retained the consciousness of certain existences, including the ones that had fallen during that battle.

Some powerful existences had chosen to star-morph in the Emerald Starfield, retaining a portion of their astral soul consciousness.

The Fallen Angel Safilos was one of them. After retaining his astral soul consciousness, his astral soul had taken the initiative to come into contact with the blood demon, Vera. For some unknown reason, Safilos, who had always disliked this half-blood, Vera, had chosen to become his disciple, while his astral soul was dying, he had chosen Vera to inherit his own genes, and had personally taught the fallen angel the Wind King's inheritance!

During that year, Vera had been practicing diligently every day. Players like them would often go and watch. Ysera had said that Vera's aptitude was extremely high, even above Safilos. This was also why Safilos had chosen her even though he did not like Villafa. .

Because he also knew that this mixed-blood villafa was more valuable than his own brothers and sisters. He could also nurture the genes of the fallen angels better!

However, there was no secret land of inheritance, so it was extremely inconvenient to teach the ancient secret arts. Even if Villafa had amazing talent, what he learned in just a year was limited, many people could only see Vera barely use the simplest enchantment technique of the Wind King Secret Arts.

But it was relatively simple. Ysera had said that it was an ancient technique, an existence suppressed by the will of the universe. Since the arrival of the age of the Gods., there was not a single descendant of the fallen angels who could inherit these ancient secret arts in an average of a million eras.

For Vera to be able to learn the barrier technique of the Wind King's inheritance outside of the unclassified land was already an incredible talent...

So... Why could doggie use it?

Wang Doggie's face was filled with doubt...

Back then, when Safilos was teaching, he did not hide it from the public. Many players had gone to join in the fun, including himself who had sneaked over to take a look, thinking that he might be able to learn a godly technique?

In the end, everyone had a dumbfounded look on their faces... .

This was normal. The teaching in the base was backward, and the basic knowledge of the players was even inferior to that of an elementary school student in the Federation. How could they understand the content of a Phd student if they were allowed to read it at this time?

Therefore, after only half a day, Wang Goudan gave up...

But why was Li Goudan able to learn it? When did she learn it? This guy actually did such a big trick behind my back?

What a sinister Goudan! !

After Wang Goudan reacted, he was instantly furious. He just wanted to grab that guy and give him a good rub! !

“Xiao Jia?”

After an unknown amount of time, Tirifson and the others slowly approached. Looking at Wang Goudan, whose face was confused, puzzled, and then turned fierce, Lu Luo carefully asked.

The reason why she dared to ask was that the dragon scales on Goudan’s body had disappeared, and the extremely violent aura on his body had also disappeared... ..

“What are you doing?” Wang Goudan glared fiercely at Lu Luo and asked with a fierce expression.

However, at this moment, the dragon blood had dispersed, and she, who had recovered her energy, became fierce..... It gave people the feeling that her grandmother was fierce...

“Ahem... “Lu Luo resisted the urge to pinch the other party’s face and asked seriously, “Did that guy... Leave?”

“Can’t you see for Yourself!” Gou Dan said with a bad attitude.

Lu Luo. ” ...”

“What are you angry about?” Yao Feng, who was familiar with Gou Dan’s temper, asked with a smile.

“Of course Pm angry!” Gou Dan said angrily, “It’s disrespectful to run away after showing off! ”

“But you still let her escape, didn’t you?” Yao Feng suddenly asked.

Gou Dan. ” ... ”

“As expected... “Yao Feng narrowed his eyes and his expression became serious. “You’re not confident, right?”

“Who said that! ! “Gou Dan immediately jumped up as if his tail had been stepped on. “Let her continue to act. I Can’t beat her to death! !”

F \* ck, if what you just showed was your full strength, then Pm very sorry. Today... .. You’ll probably lose very badly... ..

You’re really good at acting. Even I was scared to the point of being stunned. I was almost scared by her! ! !

“Are you really scared?”

Suddenly, without any warning, a teasing voice appeared in Goudan’s heart, causing him to be stunned.

Who was It?

Goudan looked at Tyrifson and the others, but it was clear that this voice didn’t belong to any of them...

...

“You weren’t scared, but your body accurately judged something, so you let her go...”

“Who are you? “Doggie looked around in a daze, but he couldn’t find the source of the voice at all... ... No, he could actually find it, but he didn’t want to admit it, because the voice... ... Why did it feel like it was coming from his own head...

“Isn’t it? The Dragon Blood in your body is filled with warmongering. Why did it dissipate so quickly? Why did you not chase after it so rationally? Because the most warmongering dragon gene in your body also clearly recognized one thing at that moment, and that was: If you chase after it, you will definitely lose!

“You’re farting! !”

Doggie suddenly roared angrily, and the dragon’s roar sounded again. Countless Green Elves around him were roared away, and the nearby teammates were also frightened by this sudden situation and kept retreating...

“Hehe...”

Everyone was scared away by the violent aura, but the voice was filled with cold mockery, which made Doggie’s ears extremely piercing....

Chapter 1713: The Unlucky Pilan

“What happened to Gou Dan just now?”

On the way, the group of people who were looking for Yao Xing and the sniper followed behind Wang Gou Dan and carefully transmitted their voices to each other.

“I don’t know...” Lu Luo shook her head. “He didn’t look good from just now, and he was still mumbling. He kept looking around for something, as if he was looking for something...”

Then, she looked at Yao Feng. “Captain, do you know anything?”

Yao Feng: “I don’t know... Oh right, didn’t I remember that there were two people who sneaked in just now? Where’s the other one?”

Everyone was stunned. They suddenly remembered that when the two monsters were confronting each other, two jokers suddenly barged in. One of them was naturally the unconscious Gauss, and the other...

...

“It seems to be someone from Gale Academy...” Simon said with a frown.

Emma also nodded. "I saw it too. It seems to be someone from Gale Academy, but he disappeared in an instant. I don't know what happened..."

"Disappeared in an instant? Yao Feng touched his chin. "That kid looks a little familiar... "

Greedy wolf said, "The kid called Bilan who was entangled with demon star last year... "

"Oh? It's him..." Yao Feng immediately reacted and laughed. "No wonder he disappeared... "

Some of the rookies were stunned and did not understand what was going on. Could That guy be invisible?

Some of the old men who knew the situation smiled inexplicably. Obviously, they knew the situation of the other party...

"Could he be trapped inside?" Emma frowned and asked, "Will he be okay?"

"What could happen?" Yao Feng curled his lips and said, "It's just that weak people like us can't enter that place. What does it mean to those seniors who are controlling the situation outside?"

"That's true..."

The two rookies followed behind and looked at each other in bafflement. Obviously, they did not understand what the seniors were talking about and could only stare blankly at Yao Feng.

And among all the gazes, there was one who was staring at Yao Feng.

That was Lu Luo, who had asked the question at the beginning...

Almost everyone was naturally diverted by Yao Feng, but she was keenly aware that something was wrong with Yao Feng. She felt that... ... The captain probably knew something.

"Where... Is This?"

At this moment, in an unknown dark corner, Bi Lan hugged her arms tightly, her entire body trembling as she moved forward in a wretched manner. Her lips were frozen into a jet-black color, and there was a faint shadow mist around her body. Clearly, she was not in good condition!

If demon star was here, she would definitely be able to guess what was going on with the other party's current situation.

The standard was that after staying in the shadow domain for too long, she would be infected!

"Damn it..." after finding a corner, Bi Lan leaned against the wall and locked it tightly, shrinking into a ball and trembling even more severely!

The wall was made of metal, and it was incomparably cold. However, at this moment, he was leaning against the wall, as if this cold metal wall was much warmer than his body...

"How did I meet that kind of Monster?"

Bi Lan's jet-black lips kept trembling as he recalled the situation just now...

The moment he felt those two terrifying auras, he almost subconsciously shuttled into the shadow domain!

Yes, shuttling through the shadow domain!

Very few people knew that he had a very special talent!

In his family, he was the only one who could learn Vivian's shadow steps!

Of course, this was not because his footwork talent or agility talent was superior to others, but because of the special elemental resistance in his body.

Among the elf species, the rarely seen demon-free elves were born with the ability to repel elements. Their bodies were also unable to be like other elves who were friendly to elemental elves and could directly use elements as energy... ..

In other words, they had no elemental talent at all!

However, Elves were a race favored by the universe. No matter what they transformed into, they would not be useless. Whatever was taken away, they would usually be bestowed with a higher talent elsewhere.

Despite resisting the elements, the magic-free Elves had an astonishing physical strength. Their physical energy would also far surpass that of their peers. If they trained their agility muscles properly from a young age, they would have two to three times the explosive power of an ordinary assassin!

Children with this kind of talent would usually be trained into mechanical rangers in the Gale family. They would rely on mechanical and electronic equipment to make up for their deficiencies in arcane spells and elements. It was a good route to use high agility to maneuver, it was just that they were not considered mainstream by the Gale family.

However, Pielan's talent was not bad. She had learned shadow steps when she was still a student!

In fact, many of the direct descendants of the top Gale family had practiced shadow steps, but most of them could only travel about ten meters when they were students. Moreover, they only dared to use it once or twice a day. If they used it too much, they would not have the confidence to escape unscathed in the Elemental Plane!

Pielan's footwork talent was very strong, but it was not so strong that it surpassed those of the top lineal descendants. However, he was a demon-free elf, so it was very convenient for him to travel in the Elemental Plane!

Naturally, he had a repulsion towards the elements as he traveled through the elemental particle layer. His talent could greatly make the surrounding particles take the initiative to avoid him. If he were to coordinate his footwork and try to avoid a large number of elements, the difficulty would be much lower than the others!

When he had just entered Gale Academy, Pielan, who had trained hard for many years, could stay in the elemental plane for at least 15 minutes!

Equipped with powerful mechanical weapons, he was actually very capable of fighting since he was able to shuttle through the Elemental Plane!

But unfortunately, he met his nemesis in their first friendship!

It was that fellow demonic star. In the beginning, that fellow had shown weakness and tangled with him for a long time. In order to hide his strength, he had also shown weakness to the other party. The two of them had been pecking each other like rookies for a long time.

But when they really fought, he had just used his trump card. In less than five seconds, he was grabbed out of the shadow domain by Yao Xing and instantly lost!

Actually, he thought that he had lost because of his carelessness!

The reason was very simple. He could travel through the elemental plane, while Yao Xing could only travel through the shadow plane. Back then, he had lost because he did not know his opponent's trump card. When he used his trump card, he chose the shadow plane.., that was why he had been caught in an instant.

If he had been in a different plane, the result would have been completely different.

After all, he could travel to the shadow plane to find him at any time, but demon star could not travel through the same elemental plane as him. In his opinion, he had a natural advantage.

The reason why he had lost so badly the first time was mainly because he had been unlucky!

Who knew why he suddenly wanted to teleport to the shadow plane? Who knew that the guy he was fighting was an ancient Netherspirit bloodline that could teleport to the shadow plane indefinitely?

Fortunately, although he lost in a humiliating way, he didn't reveal his trump card because he lost too quickly. Most people didn't know that he could teleport to the elemental plane for a long time. They all thought that he had only been caught using ordinary shadow steps.....

During this year, he had trained hard in secret. Now, he was confident that he could keep up with demon star's speed. He swore that he would give demon star a surprise in the next duel... .

However, he did not expect that he would encounter a surprise before he could give demon star a surprise... ..

That black dragon-scaled monster was like a nightmare. Not only did it force him into the shadow domain, but every time he thought of it, he would feel a terrifying chill as soon as he popped his head out, it was as if he would definitely be crushed if he dared to come out!

He could only endure and continue hiding in the shadow domain!

However, his constitution only allowed the elements to avoid him, not to be immune to the elements. As time passed, those shadow particles would still come over to probe him and try to infect him!

He did not know how long he had stayed there. In any case, he only remembered that he had tried his best to travel in one direction. He had wanted to open up a few kilometers before emerging again to distance himself from that monster.

However, he had never traveled a few kilometers before. In the end, his long-distance travel had caused a large number of shadow particles to infect him. In the end, his consciousness had become blurry. The main point was that he seemed to have encountered an inexplicable shadow torrent. He was directly sent flying to an unknown place. It wasn't easy for him to struggle out of the torrent and reach the plane of reality, but his entire body was almost completely infected... .

At this moment, from the outside, almost half of his body's characteristics were already in the shadow state. If not for his body's anti-magic characteristic, he would probably have been completely infected by now?

Speaking of which, what about the senior who controlled the situation in the bronze academy? Was he not planning to save him in this situation?

He wanted to call for help and be eliminated immediately, but his entire body was so cold that it pierced through his bones. He could not muster up his spiritual energy at all. He felt that if this continued, he would really be finished!

"Eh? Captain, there's someone here..."

Suddenly, a gentle voice sounded. Pielan opened her eyes abruptly, but at this moment, his eyes were pitch black. He could only see layers of fog shadows, and he could not see anyone at all...

"Ah... what's the situation with this person?"

"Stay further away, he's infected..." a deep voice was heard. .

"Save me..." PIELAN struggled weakly... ..

"Wow, this person is so scary. Captain, captain, let's go to the other side. This person looks hopeless..."

Who the F \* CK is he? How could he say that he didn't save him? He must be a weak chicken with an asshole!

Bi Lan tried hard to open her eyes to look over, and immediately saw a red shadow!

In an instant, Bi Lan's body became excited. His body could clearly feel that the red shadow had the energy to save him!

Under the pressure of life and death, Bi Lan used the last of her strength to pounce on the Red Shadow!

"Hey... .. What are you doing? Damn, let go of me, you damn dog! !"

Chapter 1714: Grandpa's Intuition...

In an obviously abandoned underground base, the silence that had been going on for countless years was broken by a flurry of activity... ..

A group of people looked at the silly bird flapping its wings with a strange expression...

Next to the silly bird, a person covered in Shadow Mist was hugging it tightly, making the silly bird wail non-stop!

“Don’t move around... “in the team, a red-haired elf could not help but sigh. “This is his normal reaction, just like a drowning person. The more you want to get away from him, the tighter his grip is. If you let him hug you for a while, he will recover... ”

“Pah! “The fiery-red bird immediately spat and cried out, “That’s easy for you to say. Why don’t you let him hug you for a while?”

“Let Go, you damn dog. Don’t get touched by me. Just a touch will do. You still want to hug me? You still want to bite me? Boss, save me! ! ”

In the team, a tall and strong man covered his head and shook his head in amusement. This guy, how could he be so exaggerated over a small matter?

“Something that can’t be put on the table... “a white-haired woman in the team said coldly.

It was none other than the people from Spark Academy!

“I’m seriously warning you. Letting Me Hug You is already my bottom line. If you dare to touch my butt again... No! If you dare to bite my butt again, I’m going to fall out with you! !”

Everyone.” ... ”

“Alright, brother, calm down! “Carmen walked up helplessly and grabbed Bi Lan, who was hugging Grandpa Lu tightly, and directly pushed him away.

Grandpa Lu let out a miserable cry like a pig being slaughtered, and then he looked at Bi Lan angrily, “My fur! ! !”

Everyone. ” ... ”

“Hu...”at this moment, Bi Lan’s eyes were red, and she desperately wanted to pounce over again. However, Carmen held her tightly with one hand, “Calm down, brother, your body is almost healed! ”

This time, Carmen used his spiritual power to intimidate Bi Lan, causing the slightly deranged Bi Lan to be stunned for a moment. A glimmer of clarity returned to her eyes!

“Brother, calm down. Take a deep breath and invigorate your blood to see if there are any sequelae?”

Carmen’s gentle and mellow voice sounded once again.

Bi Lan was stunned. She subconsciously did as the other party said. After a few breaths of adjustment, the blood in her entire body suddenly became active. A familiar heat energy circulated throughout her body, continuously expelling the cold in her body!

“Damn it, take this Grandpa’s kick! ”

A certain chicken that had its feathers plucked was flustered and exasperated. It jumped up and gave a flying kick of its own!

“Don’t cause trouble... “Carmen grabbed the Grandpa who was kicking over and rolled his eyes at him. “This brother didn’t do it on purpose...”

“This Grandpa doesn’t care whether he did it on purpose or not. This Grandpa’s beautiful fur is gone, and the fur here is still gone. How is he going to pay for it?”

Grandpa Lu angrily stuck out his butt, revealing the bald ingot...

“PFFT... “everyone couldn’t help but burst out laughing. Even Carmen almost burst out laughing, but under Grandpa Lu’s angry eyes, she could only hold it in. She looked like a professional captain and said earnestly, “It will grow back very soon...”

“Of course it will grow back! “Grandpa Lu said angrily, “But how can it be the same? Grandpa Lu’s hair has been carefully taken care of. I don’t even know how many nutritional products to protect the hair. It’s not easy for me to grow like this.” Carmen. ” ... ”

“Water... water...”

At this time, it was obvious that Bi Lan had not fully recovered. She instinctively called out the things that she needed.

“Water Your Grandpa, watch this Grandpa Hurt You with a basin of foot washing water! ”

“Okay... “Carmen rolled her eyes at him. “When I go back, I’ll deduct points to make up for your loss!”

As soon as she said this, Grandpa Lu immediately became obedient, his voice immediately softened. “Boss is the kindest... “as he said that, he glared at the others viciously. “Unlike you guys, you only know how to gloat at others’ misfortune. Just now, I was bullied to such an extent, and you didn’t even help me! ”

“Oh right, boss, um... can we decide on the amount of compensation first? Oh... Um, I believe that boss will definitely not treat me unfairly, but there has to be a rule for everything. It’s best to say it in advance so as not to hurt the harmony... ”

Everyone. ” ... ”

“Okay... “Carmen knocked his grandfather’s bird head in amusement. “How about 10,000 points? I Can’t take out any more...”

“Okay! “His grandfather suddenly patted his chest with a kind look. “Although Pll lose a little, boss, with your attitude, Pll suffer if I lose... ”

“You... “Carmen shook his head helplessly. “Sure, you can tell me later how much you lose. I will compensate you... ”

“Boss is still kind! “Grandpa Lu immediately began to suck up to him again.

“Captain... “in the team, the white-haired girl Amanda couldn’t help but say, “You are spoiling him too much. How long has he been in the Academy? How can he have 10,000 points to buy supplements? This damn bird is obviously extorting you! ”

“Sigh, senior sister, this is looking down on me! “Grandpa was instantly displeased.

“Hehe...” Amanda couldn’t be bothered with the other party, as if talking to him was an insult!

This guy, how long had he known Carmen? He was getting more and more shameless, but for some reason, the captain was still spoiling him, taking care of him all the way. He had simply lost his mind!

“Alright, quiet down... “Carmen said seriously, ‘C I still have some serious business to ask this brother... ”

Everyone immediately looked over, only Amanda’s expression was getting more and more displeased. The captain was laughing like this again, obviously favoring this dead bird!

“Hey, brother... “after ordering the physician in the team to feed the other party water, Carmen squatted down and asked gently, “Do you still remember what happened?”

The other party was wearing the emblem of the Gale Academy. He also remembered that the other party seemed to be from the Gale Academy’s team. But the crux of the matter was that the Gale Academy was at the East Gate, which was more than ten thousand li away from them?

The huge underground city was almost half the size of a grade 7 star. Everyone had only entered the city for less than half a day. No matter how fast they sped up their progress, the people of the Gale Academy should not have come to their place...

What had happened?

Pilan opened his eyes vaguely. After drinking some water and adjusting his breathing, his mental state had become much more stable. When the other party asked this question, he subconsciously recalled the torrent in the shadow domain!

But for some unknown reason, when he thought of that torrent, his mind immediately buzzed, as if it was about to explode!

“Brother, slow down... “Carmen saw the veins on the other party’s forehead pop up and hurriedly said, “Don’t force yourself if you can’t remember. Calm down and take a deep breath...”

The amiable voice once again made Bi Lan calm down.

“Captain... “beside him, the red-haired Jane said in a low voice, “The people from the Divine Arcana Academy have probably already tracked us here. We can’t waste too much time here...”

“Yeah...” Carmen nodded and stood up. “Bo Gu, help this brother. Let’s continue to go in! ”

“Yes, Captain! “A man who was about the same height as Carmen replied.

“Why bring him along when he’s already alive? “Grandpa Lu said harshly. It was obvious that he was still brooding over this fur-plucking villain... ...

“Alright, be more generous, Grandpa. You Don’t have the bearing of a phoenix like this... ”

“Tsk...” Grandpa Lu curled his lips and turned his head to look at the other side. However, suddenly, Grandpa Lu was stunned. He immediately looked in a direction in a daze.

“What’s Wrong? “carmen looked at Grandpa Lu, whose expression was clearly not right.

“There... “grandpa Lu narrowed his eyes. “There seems to be something... ”

“Oh? “Carmen frowned when he heard that. He looked at a short man with golden hair and a somewhat transparent body.

It was the team’s spiritual master, Soraka...

Soraka’s transparent body flickered for a moment, then he shook his head at Carmen. “I didn’t find anything unusual... ”

Carmen immediately glared at his grandfather.

“I really saw something... “his grandfather lowered his head and said with a guilty conscience.

“Alright... “Carmen clapped his hands. “Let’s Go... ”

Just like that, the group of people left the base in a mighty manner.

Not long after the group of people left, a shadow wrapped in black fog slowly emerged and looked in the direction of Grandpa Lu. If the people of the Spark Academy saw it, they would find that this black shadow that suddenly appeared...! It looked exactly like pilan!

Chapter 1715: The Fourth Main Force?

“Hey, brother, is this really the north city gate?”

At the back of the team, Bi Lan still asked in disbelief.

“Who’s your brother? “Hanging at the back, Grandpa Lu’s face was full of disdain. “Didn’t the captain say so? How many times do you want to ask?”

“But this... is too weird... “bi lan touched her chin, obviously still in disbelief.

The northern city district. According to the intelligence, the area of this underground city was at least a hundred million square kilometers, right? After all, it was a first-tier city that had been developed by the civilization. Although the two city gates in the northeast were not in a straight line, the distance between them would not be less than ten million kilometers. How could he be able to travel so far?

Could it be that under the pressure of life and death, he had unintentionally triggered some incredible talent. For example... Something like hyperspace travel... ..

After all, the draw had already been decided at that time. There was no reason for Spark Academy to be able to change their position at the last minute, and the seniors who had privately changed the gate wouldn’t let them pass either...

Or could it be that Spark Academy’s group had used a spatial device to teleport to the East Gate?

It wasn’t impossible in terms of motive. After all, Spark Academy and Divine Arcana Academy had allocated a gate to the east gate. The two academies had a long-standing feud, so they definitely wouldn’t cooperate. There would definitely be a winner and loser.

On paper, Spark Academy’s strength was much weaker than the other party. In order to avoid direct fire, it wasn’t impossible for them to choose to use a spatial teleportation device to change their location... ..

But the problem was that doing so was very risky. The elements in the ancient lands were dense, so it was very difficult for them to traverse through space. The device that the students used to traverse over a thousand kilometers was already difficult. There were over a hundred million of them...

Even if they had that device, the students wouldn't be able to use it, right?

From the looks of it, the possibility of his talent awakening was still higher...

HMM... ... No matter what, he had to familiarize himself with the current situation first so that he wouldn't be unable to react in time if he were to encounter a sudden incident later... ...

With this thought in mind, Youlan began to silently observe this team... .

He wasn't very familiar with Spark Academy's team. The two academies hadn't had the chance to exchange blows with each other previously, and when he looked back at the recording, he hadn't said that he was curious enough to specially watch Spark Academy's videos.

After all, Gale Academy had never regarded this academy as a strategic target.

But he still had a general understanding of the situation...

The burly man who had saved him just now should be the captain, Carmen. Starfire Academy's ace player with the best external battle record in recent years. Last year, he had even obtained the astonishing result of being ranked seventh in a single person. He was definitely the number one Starfire warrior!

Beside him, there were two other people from the same race who should be the other two main players of the Starfire Academy. They were tall and slender. The one who wore green clothes and had a head full of blonde hair should be the vice-captain, Rhine. His occupation was also a Starfire warrior, and he was from the famous Ke'ao family, he was from one of the nine great divine weapon families in the East Star Field. It was said that his mother was the vice-president of the Warrior branch of the Starfire Academy, Cassiopeia.

Such a noble child who was born with a silver spoon in his mouth, yet he was ranked below Carmen as the vice-captain. It had to be said that the Spark Academy was quite upright in some aspects of the school's ethos, and was greatly discriminated against compared to the non-family members of the Divine Arcana Academy, the ethos was completely different from that of the non-prestigious families that could not be placed in an important position. Of course, only the heavens knew if the internal affairs were so harmonious or not... .

The other main force was a silent, black-haired woman. As a woman, her entire body emitted a thick and blunt aura. She should be Spark Academy's third main force: Aisha. Godly armor!

The Godly armor family was a famous forging family in Dongxing Yu. Their family name was as simple and crude as the dwarves, but their bloodline was extremely noble. The Godly armor family was proficient in making armor and had produced two top-tier godly armors in history, both had played a huge role in the epic-level battles!

The clan was rich in armor forgers, but also in divine craftsmen. It was said that this generation of the clan had two future clan head candidates. One had chosen the Divine Arcanum Academy, while the other had chosen Starfire Academy in a tit-for-tat manner.

The clan's candidates had chosen two academies with old grudges to settle in. The smell of gunpowder was unusually strong... ..

Thinking of this, Youlan secretly sized up the other party. She secretly felt that it was a pity that such a beautiful elf should have chosen a job like a priest. To choose a warrior, or a Starfire warrior who wanted to forge iron, her aura had become so crude... .

While she was sizing up the other party, the black-haired woman suddenly looked over as well. She frowned, obviously noticing that Youlan was sizing up the other party.

The fierce look in the warrior's eyes made Pielan avoid her eyes and look at the others with a guilty conscience.

Spark Academy had a small population, and their discipline was leaning toward

Arcana. Moreover, they were all leaning toward the academic department of Alchemy. The students with direct combat strength were far less complete than the other academies. Other than the three main forces, there were only four auxiliary staff.

Alchemist: Jane, a descendant of the Red Lotus clan. It was said that she was the divine sword: the descendant of Mr. Jane, but she was obsessed with the field of alchemy. She didn't choose the Red Lotus Academy of the main division, but chose Spark, which was far away in the Eastern Star Field.

She has excellent results. She has only been in the academy for three years, but she has already achieved the top ten academic points in the academy. In terms of combat results, she is also very good. As an arcanist who is not a member of the transformation department., she has won the 31st place by relying on the plastic energy department, which is not very suitable for solo combat. Her results are amazing!

It is said that if a few older students in Carmen's generation graduate, there is a high chance that Jane will be the next leader.

Amanda: the Ace of the Mechanical Alchemy Department. Fifty years of schooling. It was said that she was also from a prestigious family. Her academic credits were always in the top five in the academy. Her performance in the Fellowship was also very commendable. However, it was said that she did not get along with Captain Carmen... The reason seemed to be that she did not think much of Carmen's birth... ..

Sula: a descendant of the Wasty White Spirit Bird tribe. She is the team's physician and spiritual master. She is 170 years old and is the most senior student in the team. She has rich experience in participating in competitions and has obtained quite a high average score in all the previous competitions, he is a very reliable backup for the team.

As for the last one...

Piran glanced at the silly bird beside him...

This was the only rookie in Spark's current batch. After all, Carmen and the others were relatively young and in a stable condition. Under normal circumstances, they would not replace them with rookies unless... .. The rookies were very outstanding!

As a Phoenix joining the team, it was originally a very eye-catching matter.

Although phoenixes were rare and noble, their growth cycle was very long. Moreover, their bodies were not suitable for battle and they were rarely able to make it to the top when they were students. Many phoenixes only began to slowly exert their strength many years after graduation... ..

Unless they were extremely talented...

This was something that needed to be discussed, because the information about this fellow was very blank. It was not clear which family he belonged to, nor was it clear which elven bloodline he had. All they knew was that he was a disciple of Master Franklin.

But there was one thing that was particularly noteworthy...

Pilan rubbed his chin. He remembered that when the captain had a meeting to record the information that night, he had analyzed this fellow a little.

Among the team that came from Spark Academy this time, one person was missing. It was the elementalists who had acted as the fourth main force in the previous fellowship: Ma Lin!

That fellow was still very young and hadn't reached the age of retirement. But why was it that this time, it was this Phoenix?

At that time, the old-fashioned captain of his family guessed that this new Phoenix was very likely... .. ! To be the main player position!

Chapter 1716: Perrin's ambition!

Main Force? This guy? Is this for real?

Perrin secretly glanced at the silly bird who kept looking at her butt with a pained expression. In her heart, she didn't quite believe her captain's guess...

Although Ma Lin's seniority wasn't high, she had participated in two sessions at least, and her results weren't too bad. Although she was ranked outside the 500th, for a plastic-type elementalists, it was already considered pretty good, after all, there were only a few unique existences like Jane.

Moreover, Ma Lin specialized in elemental spells that were extremely powerful. Although the conditions for using them were harsh, and the casting time was too long and could not be interrupted, which required a lot of protection, it was of great strategic significance. Even if it could not be activated.., at the very least, it could attract assassins and rangers from other teams to take the risk of attacking and interrupting her.

The value provided in the positional warfare was not even inferior to the top three main players!

Yet, such a fellow was replaced by this silly bird?

He did not believe in concealing his strength. Although this was not a friendly competition, as an opportunity to compete for the divine fire, its value was not low. Didn't you see that the various academies had sent out their trump cards?

Moreover, even if they were concealing their strength, they should not be concealing their firepower...

...

"Captain... Something's not right here..."

The one who spoke was Sula, the most senior member of the team. At this moment, she looked at the bright surroundings and frowned slightly.

"Senior sister is right, something is indeed not right..." Carmen nodded.

Carmen's tone was quite respectful towards this extremely senior member. "What's Wrong?" Grandpa Lu looked around foolishly. "It's very normal..."

"What's Normal?" Beside him, Amanda sneered and glanced at him. "This mechanical city has been abandoned for God knows how many years. The high-quality alloys around it have all rotted under the corrosion of the elements. Only the structural components can barely support it. Under such circumstances, how can it be illuminated?"

"UH... no... can we do it?" The Grandpa was confused. "But... It's also an underground city outside. Isn't It Bright?"

"Idiot! " "The lighting outside is the Arcana Circle set up by the Bronze Academy, Okay? " Amanda rolled her eyes speechlessly. "Do you think the seniors in this scattered underground base would go to the trouble of setting up a lighting circle?"

Grandpa: "

"Could it be some kind of energy circulation device that has been maintained for so long?" Carmen looked at him and asked.

Amanda pursed her lips, and a hint of disdain flashed in her eyes for the captain, but she didn't treat him like her grandpa. She said in a slightly more formal tone, "It can't be some kind of device..."

"The circulating energy equipment also needs maintenance. If it is not maintained for a long time, any mechanical equipment will fail. The annual maintenance cost of the energy circulating equipment of those large planets is an astronomical figure. No matter how advanced the technology of the developer civilization is, it is impossible to say that there is any circulating energy equipment that can function normally after such a long time without maintenance..." "

Pausing for a moment, he continued, "And I've seen it before when we entered the city. The city's energy system is set up using the roots of the iron trees. It's extremely complicated and exquisite, but the more exquisite the energy circuit, the more it needs to be maintained. After so many years, it's impossible for it to operate without anyone around..." "

"Then..." Grandpa was stunned. "Why is it bright here? Could it be a Ghost?"

These words made everyone roll their eyes in unison. Beside them, Bi Lan also secretly pursed her lips. In her heart, she rejected one of her guesses about this

guy... ..

When the captain first guessed about this Phoenix, he had two guesses. One was that the other party had replaced Ma Lin as the elemental in the team, and the second was that this Phoenix was the sage.

After all, a phoenix was a natural creature. Although its growth was slow, as the most intelligent evolved form of an elf, its IQ was usually very high. In the academic world, many Phoenixes had pretty good technological achievements, and in some mercenary teams., there were also situations where a phoenix would take up the role of commander.

In the team of Spark Academy, there had always been a lack of a more powerful commander. Although Carmen's combat strength was strong and his leadership was not bad, the entire team clearly had a weakness in strategy. It was not impossible to bring in a master strategist.

However... .. Looking at this silly bird's silly appearance, it was unlikely that this was the case... ..

"What do you think is the situation?" Vice-captain Rhine asked with narrowed eyes.

Facing the vice-captain who was born in a prestigious family, Amanda's attitude was obviously much better, she said with a respectful tone, "There are two possibilities. The first possibility is that the seniors or students who came here to explore last time repaired the lighting equipment for some purpose. If that's the case, there shouldn't be much of a fuss here because those seniors have already taken what they should have taken... " . "

"That makes sense... " Rhine nodded and gestured for her to continue.

"The second possibility is that some kind of accident activated some circuits. For example, the so-called divine fire. The magical characteristic of being able to mechanize living creatures is that it's possible to reactivate the broken equipment... "

As soon as he said this, everyone's eyes lit up, including Carmen. "Is the possibility high?"

If there was divine fire here, then the team's ultimate goal could be achieved ahead of time. After all, getting the divine fire to escort them out here was much easier than going to the center of the city to compete!

Although escorting them out here would attract the attention of the seminary and might cause them to be ambushed, there were several colleges competing for the center of the city, so the possibility of getting the divine fire there was even lower!

In the face of all the excitement, amanda shook her head. "It's not very likely. After all, it takes a lot of coincidence to cause this, and if it was caused by divine fire, the energy supply would be very unstable. But now it seems that the lighting here is very stable... <per\_0> . . "

This, let the crowd a little disappointed.

"Anyway, take a good look... " Carmen said. "We can't let go of any clues. If we're lucky, we'll miss it... What do you think?"

"I have no objection... "the lieutenant nodded.

"I don't have a problem... <per\_0> . "the main player, Aisha, also nodded and said, "Now that everyone has just entered the city, they must be exploring the sub-regions. There is no need to rush to the central city. After all, it will be difficult to gain the upper hand if we go there first. We might as well try our luck here. "

"OK, let's Go!"carmen clapped his hands, and then looked at pilan. "Brother, you are stable now, right? Do you choose to go with us or go on your own?"

"I'd better go with you..." she said

The crowd laughed, carmen said generously, "Okay, brother, I'll take it that you're cooperating with us, but you have to think clearly that our academy is hostile to the seminary. If there's a conflict later, you won't be able to get away with it!"

"Of course... ". "..."Piran said sensibly, "I'm indebted to you for saving my life, and now Pm working with you. How can I not contribute?"? "Well, although I haven't chosen the route yet, my foundation is pretty good. I'm competent in setting up traps, dismantling machinery, and scouting. I believe I can still help a little... ". "

"Good! "Carmen smiled and clapped. "Since you say so, we're brothers in the same team. Although you're from another school, I won't treat you badly if I gain something later!"

Pilan was instantly delighted and quickly said, "Then I'll thank Captain

Carmen! "

Carmen's character was very reliable in the world of high schools. He had heard of it before. Since the other party had guaranteed him so much, he would definitely do it later. It seemed that his sin had not been in vain!

At the East Gate, how could that group of weak teammates be as reliable as Carmen's team. Moreover, they had to face Tyree Fasson... ..

Although he was strong enough, with his teammates being so weak, it was impossible for him to single-handedly take down an entire high school team, wasn't it?

It was different here. With Carmen and the others backing him up, he had a lot of room to play. If he could help them defeat the Divine Arcana Academy, whether it was reputation or resources, it would be a bumper harvest. It was a rare opportunity!

Thinking of this, Bi Lan's heart suddenly became excited. The disappointment that had been corroded just now was instantly swept away, and even the silly bird next to her became a lot more pleasing to the eye.

Even though the silly bird still didn't seem to like her.

Suddenly, the silly bird raised its head and said, "Do you guys think... There will be a third situation?"

“The third situation?” Even Amanda, who had always looked down on her grandfather, looked over curiously.

What third situation could there be?

Chapter 1717: the nearby Divine Arcana Academy...

The third possibility?

Everyone stared blankly at their grandfather, who had suddenly said something so shocking. Even Amanda, who had always looked down on her grandfather, was stunned for a moment.

“Xiaowei, what third possibility?” Carmen asked curiously.

“You guys say... “Grandpa Lu said faintly, “Could it be that it’s not a senior from the bronze academy or some kind of divine fire? Could it be that there’s something else that repaired and activated the energy equipment here?”

“UH... ”

These words made everyone feel a chill in their hearts. They didn’t know if it was an illusion, but after these words, a faint chill struck their hearts.

“It can’t be... “Carmen also felt a chill on his back, and he looked around cautiously.

“Captain... you really believe him?” Amanda rolled her eyes and said, “How can there be other things here? The undead of the ancient developers? How Ridiculous! ”

“There’s nothing to be ridiculous about... “Grandpa Lu stared faintly at Amanda, who was always teasing him. “In this world, there’s never a shortage of rare things that happen. You think it’s impossible because you haven’t

Met... ”

Amanda. ” ... ”

For the first time, facing this lowly native, Amanda felt that she couldn’t reply. She didn’t know if it was an illusion, but when this guy became serious, his aura seemed to be very exaggerated... .

“Haha... I Was Just Joking... “in the next second, Grandpa Lu suddenly became that silly bird again. The atmosphere also relaxed, and everyone couldn’t help but roll their eyes at him again.

They knew that this fellow wasn’t serious...

Piran also looked at him speechlessly. She thought that this fellow was finally going to show off, but it turned out that he was just a joker... ..

But the problem was, why was such a joker assigned to the first-line team?

With doubts, Bi Lan followed the group of people and continued to march into the depths of the underground base.

This time, Grandpa Lu took the initiative to walk in the middle of the group with Amanda, who he hated the most.

According to the law of horror movies, either the one at the front died or the one at the back. Anyway, the one in the middle was usually fine... ..

What? Why would someone die?

Of course, it was because Grandpa Lu still believed that it was possible... ..

As for many people who felt that it was nonsense, it was because they hadn't encountered anything more ridiculous. After all...? ... What could be more ridiculous than playing an online game and encountering aliens?

"It's confirmed. Those guys from Spark Academy have entered that abandoned base!

A Dark Elf wearing a gray shadow veil retreated from the base's entrance and came to the side of a group of burly men with fiery red skin.

The leader was the captain of Divine Arcana Academy, Ba Lie!

"You weren't discovered, right?" Ba lie asked while stroking his chin.

"No one from that team would be able to discover me..." the elf replied coldly. His attitude was neither servile nor overbearing, and there was even a hint of estrangement.

"Haha, I believe that..." ba lie smiled. It was rare for him to have a good impression of someone who was not from the Divine Ao clan!

Although the other people in the team had cold eyes, they did not say anything.

It seemed that they were used to that guy's attitude.

The reason was very simple. The other party had the strength!

Although the Divine Ao clan was powerful, their attributes were single. The people in the clan could produce divine craftsmen, warriors, alchemists, and even priests who could learn divine arts. However, they could not produce jobs with high agility!

This was due to the limitations of their talents. They had overly broad skeletons and muscular structures. It would be foolish to forcefully take the agility route.

However, as a top academy, if they wanted to get high marks in the fellowship, the team could not lack characters like scouts.

Therefore, the school began to take the initiative to find some high-end assassin families to cooperate with.

This Night Elf family was one of them. Those who were familiar with him knew that he came from a famous assassin family: The Shadow Song Clan, also known as the illusionary Thorn clan. They were publicly recognized as the number one assassin family in the Southern Star Field!

The person in front of him was the direct descendant of the Shadow Song family's great elder of this generation. He was a strong candidate for the next head of the family. He had just joined the Divine Arcana Academy, and he had obtained an excellent result of being ranked 13th in a single person last year. In the team., his combat strength was second only to Ba lie!

Such a person with a strong background and outstanding personal strength would not take the initiative to offend him even in the exclusive atmosphere of the Divine Arcana Academy.

In the end, most of the time, in the face of an unreasonable environment, one had to rely on one's own strength!

"Then what's the information, South Stream?" Ba lie clapped his hands and laughed.

"The information is very mixed, but there are three things that are worth paying attention to..." "the elf did not even raise his head, he said lightly, "First, the lighting equipment in the abandoned base is working normally. I looked around, and there are no traces of the arcane array. It should not be done by the seniors of the Bronze Academy. Then, either someone came here and repaired the lighting equipment, or..." "There is something that makes the equipment that has been out of repair work normally!"

"Oh?" "Everyone's eyes lit up, and they immediately understood what the other party was referring to. Generally speaking, no one would be so bored to repair an old lighting equipment. Not to mention that the equipment here came from the ancient developer civilization, which was extremely complicated. Even if it was repaired, it might encounter the danger of unstable energy, so there was no need for it. Therefore, the second possibility was the biggest..."

The biggest possibility was that the divine fire that could directly mechanize all objects could be used to restart the aging machinery!

"This is really good luck!" "In the team, two bright red flames shot out from the nostrils of a shenao tribesman who was even taller than Ba Lie, clapping his hands and laughing, he said, "What could be more perfect than getting rid of those B \* stars from the fake academy and then snatching the Divine Fire?" Everyone immediately grinned, clearly looking eager to give it a try!

Only Ba lie was still calm. He looked at the other party and said, "You said that there are three points worth paying attention to. What are the other three points?"

The Night Elf called South Stream nodded, he continued, "The second point is that I discovered that there are many traps and alarms for scout equipment on the road. The setup is very delicate, and it doesn't seem like it's from Spark Academy. According to the many trap samples I observed, judging from the routine, it seems like the style of Gale Academy!"

"Gale Academy?" "Everyone was stunned. "Why are there people from Gale Academy here? Aren't they at the East City Gate?"

“Heh...”ba lie laughed coldly. “It’s not impossible for two weak academies to work together in secret. It’s nothing strange for two members to swap places in a team!”

“That’s true... “the tall Shen ‘Ao clansman beside him grinned and chimed in. “If those two weak academies don’t work together, Pm afraid they won’t stand a chance...”

Nanxi looked at this group of arrogant fellows and secretly frowned...

Honestly speaking, the strength of this group of teammates was very reliable, and they were very compatible with his attributes. Not to mention anything else, just the high-quality equipment that the equipment group had forged for him could greatly increase his battle prowess, it would allow him to perform at a very high level.

However, he was too arrogant. As an assassin, he didn’t really like this kind of arrogant style... .

“What about the third point? “Ba lie asked after laughing.

When the other party mentioned the third point, Nanxi’s gaze turned solemn.. “In that base, other than the people from the Spark Academy, there are also third parties! “

Chapter 1718: Undead!

“A third party? “The people from the Divine Arcana Academy immediately frowned.

“Didn’t you just say that? “One of the Bald Divine Arcana clansmen said in a muffled voice, “The people from the WINDWALK Academy are also here. Are you trying to say that they are all here?”

Ba lie also frowned and said, “There is a limit to the number of people at the city gate. The number of people in each academy has been calculated. Even if two academies change their people, the number can not be changed. It is impossible for all the people from the WINDWALK Academy to be here, right?”

If all the people from the Zephyr Academy were here to join forces with the Spark Academy, then the problem would be more serious.

Although the Zephyr Academy’s strength was weak on paper, the group combat strength of the Zephyr Academy was known to be extremely formidable. Coupled with the people from the Spark Academy, they might not be able to take them down!

“They aren’t from the Zephyr Academy...” South Stream shook his head. “I even feel that... They aren’t from the Academy...”

“He’s not from the Academy? “Everyone was taken aback. What did he mean by that?

Ba lie asked, “What’s going on?”

Nanxi narrowed her eyes as well, seemingly recalling something. “I’m not too sure either. At that time, the other party arrived very quickly and was very skilled, but... he didn’t seem to be a living person...”

Everyone. ” ... ”

“You mean... “ba lie turned serious as well. “An undead?”

Nanxi nodded and took out her personal dagger. Everyone could clearly see that there was an inexplicable chill on the dagger, and it didn't dissipate for a long time under the dense elements around it!

“Hiss... “everyone immediately sucked in a breath of cold air.

The people of the Divine Arcana Academy were either divine craftsmen or alchemists, and they were very sensitive to materials. They could almost recognize at a glance that the dagger was stained with the unique flames of the death realm... ..

Yes, only the undead could have such a bone-chilling flame!

“The people of Tyrifson are here too?” Someone in the team asked in puzzlement.

“It can't be Tyrifson's people...”. ... Ba lie rubbed his palms calmly. “There aren't many students of the undead in Tyrifson. After all, only a few people manage to escape from the world of death every year. The younger generation is even rarer. Most of the people who escape from the world of death are mighty figures. They don't need to go to school at all.”

“According to the intelligence, there are only two undead in Tirefarson. Neither of them are agility-type. Furthermore... “Ba lie looked at the marks on Nanxi dagger and said, “Their people definitely wouldn't dare to use such equipment! ”

Everyone nodded upon hearing that. The weapons in the death realm could really kill people. They couldn't even reincarnate. It was extremely dangerous!

This was a public cooperative test. If Tirefarson dared to use the weapons in the death realm, he probably wanted to be removed from the team!

“Then, captain... what... Should we do?” A female member of the Shenao clan in the team asked.

Ba lie looked at Nanxi and said, “You fought with that undead before. Tell me, what is his standard?”

“First-class standard! “Nanxi narrowed her eyes and said, “He is at least a first-class high school student. I don't know why, but I feel that he is familiar... ”

“Oh? “Ba lie immediately smiled and said, “Could it be that some acquaintance you killed crawled back from the death realm to find you?”

Nanxi: ”

“Captain, what should we do now? Should we wait outside or... “in the team, a woman from the Divine Arcana race asked carefully.

“Wait my ass! “Ba lie grinned and said, “He's already here, and he's still scared off by an undead? If he dares to show up again, we'll send him back again!”

“Nanxi, lead the way...”

Nanxi glanced at the other party and frowned slightly. To be honest, he didn't really want to provoke that fellow.

No matter how he looked at it, it didn't seem normal for an undead to appear in the ancient lands!

Most importantly, when that undead used such a dangerous weapon to attack him just now, the seniors in charge of controlling the entire area actually didn't stop him?

Is it the judgment that you won't be killed?

Or...

Inexplicably, a shadow rose in the heart of Nanxi!

"Captain, what's Going On?"

Dongcheng district, Li Goudan quickly through, a few jumps, then came to the signal he just saw!

The signal the captain agreed on was a lark, a special insect that emits sound waves far away, and can transmit signals for hundreds of kilometers, even in high-energy planes. It's very practical.

The chirping Bug's sound wave analysis was relatively complicated. Goudan Li had only learned a few of them, but there was one that was important to learn. It was the cry for help in a major situation!

It was also because of this signal that Goudan gave up on the fight with Goudan Wang and rushed over.

She had only been in contact with Captain Dutton for a month, but she knew his personality very well. He was a very meticulous person who would never casually use this kind of distress signal.

After all, they had agreed before they separated that they would each take care of themselves and not drag down the other teammates.

They had clearly agreed, but they went back on their words and used the distress signal at the last minute. Something big must have happened!

As expected...

As soon as Goudan got close, he saw the situation with his outstanding vision.

Senior Miller? ?"

Goudan suddenly accelerated and instantly appeared beside Dutton. This exaggerated speed gave Dutton a fright, and he stared blankly at the other party.

"Captain, what's Going On?"

Li Goudan didn't pay attention to Dutton's astonished gaze and directly asked about Miller's condition.

At this moment, Miller looked extremely terrible. His skin was jet-black, and he was so cold that he looked like a servant. His face was extremely ferocious, and he looked like an evil ghost that had crawled out of a grave. Looking at him, Li Goudan felt his scalp go numb!

Why did senior's injuries look so familiar?

Looking at this evil-looking senior sister, Li Goudan's expression immediately turned ghastly. She remembered that she had seen this appearance before!

Back in the New World, she was still accepting quests from Lone Wolf players. It just so happened that Rainy Wugua had arranged an investigation mission for her to investigate the abnormalities in the black goat array.

And at that time, there were not many players who dared to enter the black goat array. She and Leng Xing were the first batch.

At that time, she had seen many creatures, including humans, that often appeared in the black goat array. They were like mutated zombies, extremely terrifying!

Moreover... She remembered that the situation at that time seemed to be beyond saving... ..

"Captain? Say Something!" Li Goudan looked at the other party anxiously.

"Oh, oh... "Dalton came back to his senses and quickly said, "Miller has been infected with the energy of the death realm. The situation is not good!"

"Death realm??"

Li Goudan's heart skipped a beat. He had not seen wrongly. It was exactly the same as in the New World!

It was the undead!!!

"Are they the people of Tyrifson?" A cold glint flashed across Li Goudan's eyes. "I don't think so..." . . ."  
..."Dutton shook his head. "There are indeed two undead in Tyrifson's team, but they would definitely not dare to use the weapons of the death realm in such an environment. This is something that the federation clearly forbids. Once discovered, they will be permanently expelled..." . . ."

"It's not them?" Li Goudan was stunned. "Could there be undead in this city?" "Theoretically... there shouldn't be..." Dutton replied with some hesitation.

But if there weren't undead in the city, then where did the one who injured Miller come from?

Chapter 1719: Third Party Entrapment!

"Senior Miller? Can You Talk?" Goudan tried to stimulate her with her spiritual power, however, the other party became more and more violent. Black veins bulged all over her body and she began to struggle even harder to bind the chains that bound her. A large piece of her skin was wiped off and her flesh was badly mutilated. Goudan didn't dare to shout anymore.

"What should we do?" Doggie hurriedly looked at the captain. She didn't have much experience in this aspect!

"Jiayi..." Dalton said faintly, "I feel... that something big might have happened here!"

"Huh?" Doggie was stunned. His heart skipped a beat, and he said in a daze, "It can't be?"

Dalton looked at the incomparably ferocious Miller with a gloomy gaze. He said in a low voice, "Theoretically speaking, even if an undead unexpectedly appeared, and even if someone was accidentally injured, the higher-ups wouldn't be able to react in time. But what about now?"

Eggface immediately came back to his senses.

That's right. According to the rules, the entire training ground was under the control of the seniors of the Bronze Academy. There shouldn't have been any accidents. Even if he had been careless for a moment, he should have been able to react by now, right?

"I just tried to directly fake my death and forfeit..." Dutton said.

"And the result?" Eggface hurriedly asked!

"I didn't dare!" Dutton said in a low voice, "Just now... When I activated the fake death device, I felt an indescribable horror. I've never felt this kind of situation with a similar device before!"

Eggface: "..."

"Jiayi..." Dutton took a deep breath and looked at the sky. "I'm afraid that something big has happened outside!"

"Captain, don't scare me..." Eggface's face suddenly tensed up and his expression turned bitter.

Didn't they say that it was a foolproof trial? Wasn't it an experience? Why did it turn out like this again?

It was the same in the New World in the past. It was supposed to be a game, but it turned into a life-threatening situation when they played it. It was fortunate that he volunteered last time, but this time, he had fallen into a trap... ..

From the looks of it, it was probably the same as last time. It wasn't something that juniors like him could interfere with. Could it be that his star ocean dream had been brought here since the beginning?

"Captain... What should we do now?"

"Find Traverson's team!" Dalton quickly said, "They have a very powerful healer in their team. Maybe they can temporarily suppress Miller's infection!"

'tell me earlier... h

Doggie was speechless. If he had known earlier, he would have brought that so-called healer over...

"I'm just afraid that she won't be able to hold on for long enough for us to find traversing's people..."

"Dutton looked at Miller worriedly.

"It's fine!" Doggie quickly said, "I know where they are. They shouldn't have gone far. The captain is here to look after senior Miller. I'll go and ask for help..."

Dalton wanted to say that he would go, but when he thought of the exaggerated speed that Eggface displayed just now, he hesitated for a moment and nodded.

“It won’t take too long...” Eggface promised. Just as he was about to set off, a chill suddenly came from his back. Then, he suddenly flashed in front of Dalton and grabbed at him!

Eggface’s speed was extremely fast, completely exceeding Dalton’s reaction. He didn’t even have time to react!

\* Bang! \* !

An ice flower exploded in front of Dutton, causing his body to stiffen!

Only then did he clearly see that a slender ice crystal was fixed in the distance a millimeter away from his pupils, emitting a bone-piercing chill!

And Doggie’s fair palm tightly gripped the ice crystal, and in the next second, he directly crushed the hidden weapon that had attacked him!

“Who?”

Doggie asked coldly!

She recognized the ice crystal, and she had seen it in the New World. It was the weapon used by the undead. The Liege had warned them very seriously that they must not be hurt by this thing, and once they were killed by this thing., they could not be reborn!

The other party’s attack just now was clearly intended to take their lives!

“Hiss! ! “Only then did Dayton React. Goosebumps rose all over his body, and his heart was filled with fear! !

If it wasn’t for Dogball just now... .. He probably wouldn’t have been able to react in time!

Just as he was feeling scared, a whistle sounded in the forest. Then, a figure covered in a silver gauze walked out. Outside the white gauze, there was a faint black fog lingering around... .

“Good move! ! “That person’s voice carried an extremely mocking tone. “I thought that the people in the living world were all trash like that woman. I didn’t expect that there would be people who could watch... ”

“Jiayi...” Dalton’s heart was extremely cold. He quickly transmitted his voice,

“There’s something wrong with this guy. Don’t fight him head-on. Let’s Retreat! ”

Eggface frowned and raised his head. Just as he was about to reply, the person on the other side suddenly burst out laughing. “You won’t listen to that trash,

Dalton: !

This guy... could hear their voice transmission?

Goudan was also stunned. This person was indeed a little strange... .

“Hey! “That guy’s finger gently flipped, and a slender ice crystal appeared on his fingertip once again. It nimbly rotated on his fingertip, bringing with it a sparkling and brilliant light.

Under the cloak, that person's pair of dark green eyes looked at Goudan with a smile that was not a smile. "You are all students of the federation's high schools, right?"

Li Jiayi: "Yes..."

"Are you... The Strongest? "The man asked with a smile.

"Should... Not Be..."

voice of the person with a trace of ridicule: "Then kill you, the strongest will come to save you?"

The Dog Egg Leng for a while, all over the blood can not stop boiling up, Leng of the face instantly come back to his senses, grin: "Perhaps, do you want to try?" ,

"Don't be so nervous..."

Outside the city, in a black and white barrier, two enormous forces were confronting each other, filling the entire surrounding space with a heavy and oppressive aura!

Inside the barrier, four tall figures stood together, looking at each other with incomparable solemnity!

On the other side, there were only two people, one black and one white. They were humanoid, but they also carried an indescribable demonic charm!

If the students in the city saw these four people, they would definitely be able to recognize them. They were the bronze elders who were in charge of the enchantments in the four city gates!

"Who are you guys? "The one who spoke was the high priest in charge of the West City Gate, Myer. As the previous High Priest of Holy Light, he was also the overall person in charge of the tests in the eight great universities this time.

However, despite his high seniority, he was completely unable to guess the path of these two people!

It was certain that the other party came from the realm of death. The unique aura of the undead was very strong, but the biggest difference was that these two fellows... .. Didn't seem to have any genetic bodies!

The two of them seemed to be in the form of undead. This could be deduced from the dense aura of the undead on their bodies.

However... .. What was different was that they didn't seem to be like the other undead, giving off a feeling of the fragility of the soul!

That seemingly corporeal spiritual body gave off an extremely dangerous feeling. They did not feel that the two of them were in a weak state without a gene body at all.

"What are you guys trying to do?" Maier asked in a stern voice!

"Didn't I say it just now? "On the other side, the white undead Jack let out a sharp and strange laugh. His voice was extremely ear-piercing.. "Such an interesting test, why don't we let our juniors join in?"

Chapter 1720: Undead Gods!

“Join in? “Maier’s expression was cold. “What do you mean?”

“Are the people of the living world so difficult to communicate with? “The white-clothed undead put on a helpless expression. “Didn’t you say it clearly enough? “What we mean is that you set up this high school trial so that our juniors can join in as well?”

As soon as these words were said, the four gatekeepers of the Bronze

Academy’s Priestesses ‘expressions turned cold. The worst had still happened. This group of undead was going to attack the students! !

“Can you be a little more shameless?” one of the priestesses said coldly, “The people in the world of the dead all come from the world of the living. You guys are also capable of attacking juniors! ! ”

“Sigh... “the white undead once again covered his head. “Aren’t we clear about what we said? The ones we sent in are also juniors...”

“Who are you trying to scare?” The priest sneered. “Where do the undead come

It was not that there were no young undead in the world of death, it was just that there was no such mechanism... ..

The people in the world of death were all dead. Many scholars had studied that world before. It was a world that was even more barbaric than the wilderness. The undead devoured each other and evolved. If it was an undead that died at a young age, in the world of death., it would be very difficult for it to exist for a

long time.

There was no civilization system there, nor was there any so-called family system. The forces were all formed in chaos. The new forces came from the addition of living souls, and there was no limit to their lifespan, in the material world, if the strong died, they would be strong in the past. There was no need for them to accumulate power generation after generation like in the real world.

That was why there was no system to nurture the younger generation!

“What you said... “the white undead giggled. “Don’t judge things based on your shallow knowledge of the death realm. You make it sound like you know us very well... ”

Everyone.

These words made the four high priests feel a chill in their hearts. The more they thought about it, the more uneasy they felt. It was a terrifying feeling when they thought about it... ..

Indeed...

No one knew what kind of existence the world of death was. A lot of knowledge about the world of death was passed on by the undead.

But those undead... were they reliable?

Was there a civilization in the world of Death?

At the beginning, there were people who suspected that Alsace had someone behind him!

Otherwise, how did a large army come about. An army that had almost destroyed the material plane and did not have the support of the civilization behind the scenes, it did not make sense... ..

But did it really exist?

The civilization of the undead...

“Foyego, come, greet these seniors! ”

As soon as he finished speaking, a black-clothed youth slowly walked out of the thick fog that was completely incomprehensible!

The youth had white hair and was incomparably handsome. His clearly humanoid figure was even more delicate than an elf's. His handsome face was comparable to the most handsome members of the royal family in the starry skies, and his entire body was wrapped in a green fluorescent light. There was a frivolous and evil charm on his face. He looked extremely eye-catching... .

The most important thing was that aura. With just a glance, the four high priests could tell that this young man was not simple!

“Foyego greets the seniors... “the white-haired young man bowed elegantly. The etiquette that he had never seen before gave him an indescribable noble aura. This noble aura did not lose out to the most honorable crown prince of the royal family in the starry skies, Tyrande!

And... and even more...

“Let me introduce you! “The white undead laughed. “Foyego, the fifth king of the ten kings, the head disciple of the warden, His Highness Moye! !”

Everyone. ” ...”

These words... were very informative!

Ten Kings? Were they the kings of some faction in the death realm? There was such a faction in the death realm? Why had no one ever heard of it before?

They had heard of the name of the warden. In the records of the era of natural disasters, there was a group of people who were in charge of supervising the army. These people who were in charge of supervising the army all carried Green Lanterns and specialized in collecting high-quality souls. In the army of the undead.., they called this kind of existence the warden.

At that time, many people suspected that there was a huge and efficient organization behind the Alsace Army!

When they thought of this, the four of them felt a chill in their hearts. If it was not a single act, but the act of a large organization, then something big would have happened!

“If you say it’s a junior, then it’s a Junior? “Meyer said coldly, “You say it’s a junior with a shell with a lower growth ring? Who knows how many years of an old monster is hidden inside?”

“That’s why I said that you guys know nothing about the death realm... “the white undead laughed, “What did you see? That he has a shell?”

Everyone:”! !

As expected... It wasn’t a shell?

Maier’s heart sank to the bottom. From what he saw just now, whether it was the black and white undead or the foyego that appeared behind them, they were all like the bodies of the undead!

However, in the material plane, undead could only form basic electromagnetic particles. Their sense of existence was extremely low, and those with poor spiritual power couldn’t even see them!

However, it was different now. That spiritual power that seemed to have substance gave people an incomparable sense of danger. It was far from what those undead that he had encountered before could compare to!

It gave people the feeling... ... It was just like a soul materializing in the Material Plane!

When he thought of this, a storm suddenly rose in the bottom of his heart. If this was true, something big might really happen!

“Alright... “Maier forced himself to calm down and said in a deep voice, “Let’s say what you said is true. How Do you want to participate?”

The two undead that had sealed off the underground city were very powerful. Even if they had the advantage in numbers, they did not have absolute confidence in defeating the other party. At the very least, they could not defeat the other party while ensuring the safety of their students.

Right now, they could only try their best to stabilize them and wait for reinforcements!

“It’s very simple! “The white undead continued to smile. “US seniors promise not to enter that city and only send our juniors in to fight for the divine fire. No matter what happens inside, even if the juniors that we send out are completely annihilated inside, we will not make a move. At the same time, you have to promise that no matter what happens inside, you will not make a move either. How about it?”

“If that’s not possible, then let’s find out the truth now. We can’t guarantee that we’ll be able to take the divine fire away, but we can guarantee that we’ll be able to take all the juniors in the underground city away! ”

“You! ! “MYRL was instantly enraged. The other party clearly knew that they were worried about the safety of the juniors, and they were afraid of taking action. This was a blatant threat!

“Can You Say a word? ! “The black undead that had been silent all this while spoke. Its voice was incomparably heavy, like a millstone, causing people to feel depressed upon hearing it. This made Myrl, who was already furious, even more frustrated.

“Maier, don’t be Rash!” Behind him, a female priestess in blue hurriedly transmitted her voice!

“Hu... “the irascible Maier let out a long breath. Forcefully suppressing the urge to attack, she asked patiently, “How can I guarantee that if your people are defeated, you won’t attack?”

“Heh, that’s simple... “the white undead gently raised its hand, and a huge rune appeared in the air. The powerful law power caused the hearts of the four priestesses to jump once again!

The contract between the gods! ! !

This white undead... ! ... was actually a god! ! ! !

The most important thing was... ... The body of an undead could use the laws of the gods?

“This... “the four priests immediately looked at each other with stern expressions. They could see the shock in each other’s hearts!

“Alright! !”Maier took a deep breath and forced himself to calm down.

“However, the contents of the contract between the gods must be decided by

“As you wish! “The white undead smiled and saluted.. It was the complete ceremony of the gods!
