

## A Bunch 1721

Chapter 1721: showing off -PartpOne one)

North City District:

“Why... does it feel eerie?”

In the underground base, the students of Spark Academy were moving forward cautiously, but the deeper they went, the more they felt that something was amiss...

The lighting equipment was operating normally, and the lights were bright. Moreover, the lighting used high-end energy and had a thermal effect, so the base should have maintained its temperature. However, the deeper they went, the more they felt an inexplicable chill sweep through their bodies... ..

“I say... “a strange voice sounded in the middle of the crowd. “Why are you all leaning towards me?”

The one who spoke was Grandpa Lu, who was standing in the middle... It was unknown when it started, but everyone subconsciously began to lean towards the old master. When they reached the back, they were almost squeezed together!

The surrounding people were stunned and did not know what to say for a moment.

The further they went down, the colder it felt. However, this phoenix carried a warmth that could alleviate the cold. Although they did not know why, they still subconsciously wanted to move closer. Even Amanda, who had never liked the old master, subconsciously moved closer to the old master at this moment... ..

“Ahem... “Carmen coughed lightly. “Little Wei, do you have some kind of device on you? Why is it so warm?”

Seeing that the captain finally asked this question, everyone looked at Grandpa Lu.

Especially the alchemist: Jane, she looked at him with great curiosity. She was the arcane support and equipment support in the team, and all the equipment in the team were kept by her. She had never heard that this Phoenix had any equipment... ..

“Me? Where did I get the equipment? “Grandpa Lu pursed his lips. He wanted to, but he was a newcomer, how could he hold such an important position as an equipment master?

“Then is it using fire elements to keep warm? “Jane instantly frowned. “Didn’t I tell you before coming here? Don’t easily use the elements, especially fire elements. It’s very easy to cause an elemental explosion... ..”

“You really dare to use it!” Amanda, who was at the side, also said coldly, “This underground base is not well ventilated. I don’t know how much inexplicable gas has accumulated. Once it is detonated, we will all be killed by you! !”

“I didn’t! “Grandpa Lu suddenly felt wronged. “When did I use the elements? Besides, can’t you see if I did?”

Everyone.”.

This was also what they were puzzled about. If Grandpa Lu had the tendency to use the fire element, they would have stopped it long ago, but there was no arcane fluctuation at all... .

“Did you use some secret spell? “Amanda walked over. “Let me check. If you really used the elements secretly, don’t blame me for being rude to you!” Grandpa Lu raised his head and looked at her.

Amanda sneered and walked up to Grandpa Lu. Carmen frowned and was about to stop her when a red light flashed in Grandpa Lu i s eyes and an intense energy wave spread out!

“You still dare to make a move?” Amanda sneered even more and activated the mechanical device on her body!

She had long wanted to teach this foolish bird a lesson!

“Be careful! !”

Carmen’s pupils suddenly constricted as she grabbed at Amanda!

Amanda frowned. Wasn’t this captain being too biased? Still protecting this guy like this? As expected, she was born a commoner and was a piece of trash!

But in the next moment, this thought was shattered because after the mechanical device was activated, she heard a warning from the mechanical system!

Amanda suddenly turned her head to look, but she did not know when, less than 10 centimeters behind her, a red metal the size of a grain of rice flew towards her with a terrifying spiral force!

As a mechanical major student, she could tell at a glance that this was an extremely high-quality metal bullet!

Sniper?

But why did this bullet stop here?

At this moment, if one looked carefully, they would discover that the bullet seemed to be blocked by an invisible wall of air. No matter how strong the force generated by the spiral was, it could not get any closer! !

Carmen did not hesitate to grab the bullet. He suddenly took a step over Amanda and protected her behind him. he shouted sternly, “There’s a sniper. Everyone, fall back! !”

The group of people quickly scattered to the left and right, finding cover to hide behind!

“F \* ck! ! “Carmen’s face was flushed red. He took a deep breath and hid his left hand behind his back.

Standing behind him, Amanda could clearly see that the palm of captain Carmen was bleeding. The spiral force of the bullet was too strong, and it directly tore off a piece of the captain’s flesh from the surgery! !

A complicated feeling immediately welled up in Amanda's heart, but she immediately became suspicious.

The quality of this sniper bullet was extremely high. It was most likely a secret high-energy sniper rifle. If she had been shot just now, she might have been eliminated instantly. But the key point was...". What was that air wall that blocked the bullet?

Bang!

Just as she was thinking about it, Carmen's right hand in front of her appeared to be in a strange position. With an extremely gentle flick, a metal bullet with a red glow was directly bounced away!

Unlike the grab just now, this time, the prepared parry did not even leave a mark on his hand!

In the distance, behind a huge sniper rifle, was the expert assassin of the Divine Arcana Academy, Nanxi. Shadow song!

"As expected..." nanxi frowned. "Even this gun can't hurt Carmen!"

"Isn't this nonsense?" A bald man of the Divine Arcana Clan said in a muffled voice, "If a sniper rifle can kill that guy, he is not worthy to enter the top ten.

Didn't you beat up that mechanic?"

The bald man was Bobby, the Equipment Master of the Shen AO Academy. This sniper rifle was also newly made by him and was classified as a secret weapon. However, no matter how confident he was in his own work, he wouldn't be so arrogant as to think that he could kill Carmen directly with this!

"I was stopped by someone..." Nanxi narrowed her eyes and said.

Of course, he knew that he couldn't target Carmen as the first target. He didn't even target any of the main force members for safety reasons. After all, high-level warriors had a natural awareness of long-range weapons, even if it was an accidental attack, it was very likely to be discovered in advance.

Therefore, the first target he chose was the mechanic who was the easiest to attack, but he did not expect...

"Carmen stopped him?" The bald man who could not see the situation in the distance immediately frowned. "It shouldn't be. I made a silencing rune on the bullet. Although it's powerful, it won't make any sound. As long as the target is not Carmen, without the help of the seventh sense, it shouldn't be discovered..."

"It's not Carmen..." Nanxi shook her head. There was another powerful fellow in their team who had used his spiritual power to catch the bullet!

"What did you say?"

The moment the other party spoke, not only Bobby, but the other people from the Divine Arcana Academy were also stunned.

"Are you sure?" This time, it was captain Ba lie who spoke. His face was full of doubt!

He knew the power of Bobby's new sniper rifle's bullet. Using his spiritual power to catch the bullet? Wasn't that a bit ridiculous?

"I'm sure! "Nanxi said solemnly, "And it was purely spiritual power that caught it. Obviously, the opponent also reacted at the last minute and didn't use any arcane means..."

"This... "the people of the Divine Arcana Academy looked at each other and didn't say anything for a moment. ...

"No need to doubt anymore... .." Nanxi put away her sniper rifle and stood up. "This time, Spark Academy's new team has an additional spirit-type professional whose strength is beyond imagination. Their exact strength is unknown, but in terms of spiritual power alone... .. I'm afraid that they are infinitely close to the dragon rank, so they should be prepared for a tough battle!

Chapter 1722: showing off (middle) !

"Damn it, is it the people from the Divine Arcana Academy?"

In the hiding team, Pielan asked in a deep voice.

"Then who else do you think it is?" Amanda and Pielan were the closest to each other. When they heard that, they sneered and said, "Do you really think that it is a ghost, as the Silly Bird said?"

Pielan: " ... "

Speaking of which, what's Your Situation?" Amanda looked at the other party with dissatisfaction. "Didn't you put an alarm device on our way here? Why isn't there any reaction even after you've been hit in the face? Has Your Alarm device expired?"

These words made Pielan's face instantly turn red as she said guiltily, "That... There's a very powerful scout on the other side who can silently dismantle my equipment..."

"Nonsense... " Amanda snorted coldly. "Of course there's an expert, the young master of the Shadow Song family's direct line of descent. Could it be that you didn't read the information before coming here? And you even looked as if you were very surprised?"

Bi Lan. " ... "

"In the end, it's still your own fault! " Amanda snorted coldly. "That's true. Even though you're also from a prestigious family, but in the end, you're still the son of a concubine..."

"You! ! " Pielan was so angry that he choked. Why was this person asking for a beating?

Grandpa Lu glanced at him and patted him on the shoulder in a rare attempt to comfort him. It was as if they were in the same boat...

Amanda looked at Grandpa Lu and sneered. Just as she was about to say something, the vice-captain Rhine directly interrupted Amanda's mocking words behind her!

“Enough! You still have the mood to mock others at this time?”

Faced with the vice-captain’s reprimand, Amanda changed from her previous shrewdness and harshness. She obediently shut her mouth, leaving Pielan speechless...

As the son of a concubine, he had been secretly despised by the direct descendants many times since he was young. However, after all, they were all born into noble families, so they still cared about each other’s face. They would not say that they were so explicit.

But this guy, how was he explicit? He was just short of carving the word ‘dog eyes’ on his face!

What the hell was this?

“Brother... “Rhine looked at the half-dead angry Bi Lan, he said gently, “The agility expert on the other side is South Stream of the Shadow Song family. Brother, can you help to hold him back? Don’t worry, I Won’t Let You Face Him alone. I will support you at any time...”

This was the attitude of someone who was begging for help...

Perrin’s expression relaxed slightly as she said indifferently, “There’s no need.

You guys can deal with the others. I can deal with that Shadow Song Clan... ”

“Yo! “Hearing that, Amanda immediately laughed coldly. Just as she was about to mock him, Rhine glared back at her. Rhine turned around and said,

“Brother, you can’t act tough...”

“You’ll find out soon enough! “Pilan said coldly.

“Alright... “Rhine did not try to persuade him further. After all, he was one of the main forces of the Zephyr Academy. Even if they were to face him alone, he would not be killed instantly, right? “Then I’ll leave it to you, brother...”

Look at his attitude!

Pilan glanced at him and chuckled, but did not say anything else.

“Alright, let’s distribute the tasks now! “Looking at Captain Carmen who was being held back outside, he quickly said in a low voice, “Aisha, how long until the Light Mech is activated?”

The third main force member behind him, Aisha, who had been silent the whole time. The mech replied immediately, “It’s activated, ready to be used at any time! ”

“Alright, look at my signal later. You’ll be the first to take over captain Carmen’s position and block the opponent’s long-range firepower to protect your teammates!”

AISHA: “Alright!”

“Senior Sula, after Aisha replaces Captain Carmen, you must heal the captain’s hand injury in the shortest time possible. The opposing main force, Baal, can only be fought head-on by the captain. In a battle between experts, the injured captain will be at a disadvantage! ”

In the distance, Sula, who had been hiding behind the vice-captain for a long time, nodded and said, "Alright!"

"Amanda, construct the Black Gold Arrow Formation! !"

Everyone immediately looked at Rhine. This meant that they had decided on the main strategy!

Spark College had always been a school that focused on Arcana. The one that could stand shoulder to shoulder with the top schools was the famous Alchemy Arcana Array!

Those who had seen the fellowship knew that the tactics of spark college were basically based on the Alchemy Arcana array that they had built themselves. Often, after building a successful alchemy array, their battle strength would not lose to the top ten universities at all!

However, there were many kinds of arcane alchemy arrays, and the environment determined which array system to use!

"Rhine... "Sura was a little hesitant. "Isn't it a bit risky to use the sharp arrow array in this place?"

The mechanical sharp arrow array was an extreme alchemy array that worked with the divine craftsman system. It could activate the surrounding metal elements and completely purify the metal with complicated rune alchemy techniques. Black gold was the most destructive of all metals, once activated, the Warriors in the team who could use spark could be greatly strengthened by the strengthening of black gold elements!

However, the weakness was also very obvious. The black gold poison was very strong. The moment it possessed the body, it would begin to infect the body. If they could not take down the other side in a short time, it would become more and more serious. It was a desperate tactic!

"The other side has the advantage. We have no way to retreat. Our frontal combat strength is not as good as the other side. We can only try to fight it out!" Rhine quickly explained. "Since we want to fight, we might as well use the riskiest way to fight it out. In any case, the worst outcome would be for all of us to be eliminated. We are trapped in this position, and there are snipers on the other side. It's impossible for us to escape, right?"

"That's true..." Whitty nodded. He was not a naggy person and said directly, "That's it!"

"Brother, please protect the main formation hand!" Rhine looked at Bilan and said solemnly.

Bilan's eyelids twitched. Looking at Amanda's annoying face, she could not help but think to herself, what a terrible job!

Amanda did not say anything mean. She had already confirmed that she was the main formation hand. If she continued to make things difficult for the scout who was protecting her, she would obviously be a little brainless... .. "Hey, Hey, vice-captain, what about me? What About Me?" The old master flapped his wings and asked.

"You..." Rhine looked at her and frowned slightly. "You can look at the situation and resources from the back..."

Grandpa: "

So perfunctory...

“Jane... “Rhine finally looked at Jane and directly took out a bottle of light blue potion. “As usual, you are in charge of Amanda’s spiritual support!”

Jane nodded. She and Amanda had worked together many times. The team practiced double alchemist tactics. If they decided to use mechanical array, Amanda would be the main one. She would build a spiritual support array. On the contrary.., if they decided to use elemental array, Amanda would be the support.

But then Jane looked at the bottle in the other party’s hand with confusion. “This is?”

“The secret technique you used to catch the bullet just now, right? “Rhine said in a low voice. “This is the latest spiritual power recovery potion developed by Professor Bolen. The side effects are very small. You should use it to recover first. It will consume a lot of energy later! ”

“Eh? “Jane was stunned when she heard that. She immediately understood what the other party meant.

Obviously, she thought that she was the one who made the bullet stop!

“Eh... No... “Jane was about to explain when Rhine turned around and ordered, “Move out!

As soon as he finished his words, Rhine and Aisha immediately rushed to the position of Captain Carmen!

Chapter 1723: The Avenger in the dark...

“It’s not me...”

Jane stared blankly at vice-captain Rhine’s figure as he dashed out, not knowing what to say for a moment...

But at this moment, it was obvious that the other teammates had no time to listen to her explanation...

...

“Captain, I’ll do it. You Retreat First! !”

The cold-blooded Aisha rushed in front of Carmen. At this moment, her entire body was wrapped in a thick silvery-white armor. Her petite body looked a little awkward under the support of the thick armor, but her aura was as steady as Mount Tai!

As soon as he arrived, Carmen could feel the heat from her body, like a furnace. It was obvious that her heart flame had been fully activated!

“Alright! “Carmen did not hesitate and retreated immediately!

After Aisha activated her bright mech, her defense was incomparable to his. He needed to recover from his injuries as soon as possible. The main force of the Divine Arcana Academy had more people than him

to begin with, and Ba lie was a top-tier opponent.., it would be disadvantageous for her to fight when she was injured!

A muffled and strange laughter rang out. The next second, Ba Lie, who was covered in bright red flames like the core of the Sun, descended from the sky like a god of war descending into the world. His aura was extremely fierce!

Faced with such a powerful aura, Aisha, who had always been expressionless, had a slight change in expression. However, she did not hesitate at all. She raised her shield and charged forward without hesitation!

In the divine armor clan, very few women had become Starfire warriors. After all, the clan specialized in casting armor, and their secret arts and inheritances were mainly focused on defensive armor battles. Women with slender bones were not very suitable.

In the clan, women would generally develop in the direction of Rune Masters and Metal Alchemists. There were even quite a number of women who had developed into armor forgers. However, it was extremely rare for them to become warriors!

For Aisha to be able to stand out among the direct descendants, obtain training resources, and become the main force of Spark Academy, other than her talent, she naturally possessed a rather powerful fighting will!

The huge silver shield collided with Ba Lie, who was like a meteor falling down. A loud metallic explosion sounded out, and a huge wave of air spread out from the spot where the two collided. The entire ground shook from the collision, it was like a melee between two huge beasts!

“TSK TSK...”

In the distance, in the team of the Divine Arcana Academy, the Bald Man who had received the South Stream sniper rifle saw this scene through his sniper scope. He could not help but click his tongue and sigh. “What a wild chick. She can actually fight head-on with the captain. TSK TSK! ”

“You only know about this on the first day?” Beside the bald man, a slightly thin man with a green and blue body replied coldly.

This person’s appearance was roughly the same as the other members of the Divine Ao clan. However, his green and blue skin was very eye-catching. When his emotions fluctuated, his entire body would emit a green and blue light. He was quite different from the Divine Ao clan that emitted a red light.

Those who were familiar with the information would know that this was the Divine Ao Academy’s third main force: Fyodorov!

One of the four great divine flames of the Divine Ao clan: the Undying Bird

clan. It was one of the few large clans in the federation that possessed the divine flame’s original seed inheritance. It was said that the inheritance had already become extinct, the Green Luan Undying Bird’s core flame, they had extremely powerful regenerative abilities. Due to the blue color of the immortal flame, the skin of the descendants of the inherited flame seed would slowly become like this.

As a descendant of a famous family, the direct descendants of this generation were also very outstanding. Fyodorov had just entered the Divine Ao Academy for two years, and he had already obtained the 18th individual ranking result in the fellowship. He had already been heavily nurtured by the academy, if nothing unexpected happened, he should be the seed to become the next captain like Ba Lie!

"I've participated twice, and I've seen the captain fight with this woman twice. Each time, he was able to forcefully stall the captain for a very long time. It's not the first time you've seen..."

"Heh..." looking at this rigid junior, the bald man chuckled. "You don't understand. I feel that it's a pity for her..."

"Pity for her?"

"Yeah, one look and you can tell that she's a person who is very durable. TSK TSK, it's a pity that she didn't enter the Divine Arcana Academy..."

These words made Fyodorov frown. He had been here for twenty years and was very clear about this fellow's character. He was also clear about the atmosphere in the academy. Naturally, he knew what the other party was talking about. His eyes immediately flashed with a trace of disgust!

The Divine Arcana Academy was extremely xenophobic. There would often be clansmen who bullied foreign students. This fellow before him was a typical example!

Bartov. Ottov was an equipment player in the team. He had been in school for 170 years. In theory, this kind of experienced senior should be respected. However, the things that he had done made him unable to respect him.

This guy had humiliated those foreign students all year round. There were often students who had been tortured to death by him. The Divine Arcana Academy's reputation was so bad to the outside world now. This kind of guy was a typical example of a leader.

Feeling stifled, Fyodorov said coldly, "Aisha was born into a prestigious family, and she was strong. Even if she came, you wouldn't be able to eat her

"Heh... that's hard to say..." Barto chuckled and said, "It's not like the divine armor clan is a clan that can't be offended. As for whether you can eat her up or not, there's always a chance..."

These words instantly made Fyodorov feel even more uncomfortable. The other party was naturally referring to the chance to tamper with the equipment. Do you dare to believe that the equipment of a party would always have the intention to harm you?

It was no wonder that the Divine Arcana Academy was becoming increasingly unable to recruit people...

"Hu..." he exhaled. Fyodorov stood slightly further away, but he still had to

focus his attention. The captain and the second main force's support acted as the front. On the other hand, he had to cover for this fellow to activate the equipment that he should have. No matter how disgusting the other party was, he had to endure it... ..

“I know you don’t like me... “Barto smiled and said, “Don’t worry, Pve never tampered with the equipment of my own kind... ”

Fyodorov: ” ... ”

“Actually, you don’t have to guard me either...”. Barto picked up the sniper rifle and said faintly, “There are no agility experts in Spark Academy’s team. Even if there are, they won’t send anyone over to attack. The characteristics of their team aren’t proactive. They must have activated the refining array in a defensive posture before switching from defense to offense. And the refining array is far more complicated than the equipment. When my equipment is activated, they’ll still have to hold on for a while. Actually, if you want me to say it, you should join the front and give them some pressure.

“Starfire Academy isn’t the only one here... “Fyodorov replied coldly. “Have you forgotten what senior South Stream said about the undead?”

“You do have some respect for that elf... “Bartok laughed strangely, but didn’t say much. It was a fact that South Stream had been attacked by the undead. He didn’t want to face an undead that could fight against South Stream alone. After all... ... be killed by the undead. ... Then he would really die. ...

His great life had just begun. After this battle, he would have to love the Green Bird tribe more when he returned. which bone should he break this time?

At this moment, a gray figure stood about thirty feet away from the two of them. His green eyes flickered with a ghastly light as he stared at the two of them... ..

The figure was not big, but under the cloak was the face of an elf!

Chapter 1724: Surprise Attack!

“It’s you again, Girl! ! !”

A hint of annoyance flashed across Ba Lie’s eyes. The metal gloves in his hands instantly burst into flames as he ferociously continued to bombard his opponent’s shield!

When a strength warrior had a fixed target, the explosive power and speed that he displayed was far more terrifying than an agile assassin. The fist imprints that could not be seen clearly smashed down like a torrential storm, ayesha, who was carrying a huge shield, was like a sapling in a torrential storm. Although she was strong, she looked extremely heart-wrenching. It was as if she could be crushed by that terrifying storm at any time!

Whoosh!

Beside him, the huge sword in the hands of vice-captain Rhine turned into a red light and directly slashed towards Ba lie. However, before it could even touch the center of the storm, a clear gray light instantly struck out, bringing with it a whistling power, it suddenly smashed towards Rhine’s Head!

” Chi...

Rhine's pupils narrowed. He had no choice but to turn back his sword aura to take care of himself first. He was from a famous sect and his sword skills were superb. Although he was doing his best to save Ba lie, with a turn of his body, the sword aura that was slashing towards ba lie just now was like flowing water. It was very natural as it was channeled back and collided with the huge gray light that was attacking him.

Dong! !

A loud metallic sound exploded. The people behind him were immediately shaken by the sound and their ears buzzed. Rhine had to take a few steps back to stabilize his body after he had released the force. He looked at the person who had attacked him with a solemn expression.

Grodo gray stone!

He was an old opponent. He was the second main player of the Divine Arcana Academy. Last year, he was ranked 15th in a single person!

This fellow had a school age of 180. He was an old member of the Divine Arcana Academy. Before Ba lie joined the team, he had always been the first main player of the Divine Arcana Academy. He was an extremely difficult opponent to deal with!

Rhine's expression was solemn as he gripped the huge sword in his hand. Just now, he had already managed to deflect the force well, but his opponent's counterattack had still caused his arm to go numb. He was indeed an experienced warrior. Now that he had made his move... It would be impossible for him to support Aisha

At the thought of this, Rhine glanced at Aisha from the corner of his eyes and sighed in his heart. "Hold on, little girl! "

"Damn, this woman is tough! ! "

Behind him, Pilan looked at Aisha who was fighting valiant head-on in the battlefield. He was shocked beyond compare. He, as a bystander, felt that his bones were about to fall apart!

The point is, it's still viable!

"Wow, sister Aisha is so powerful! "Grandpa Lu was also excited, flapping his wings: "Hey, Pretty Boy, let's go up to help? You Go up, I Cover You!"

"Who's pretty boy? "Pilan rolled his eyes at the other party, but a hint of interest flashed across his face. If he were to fight against a famous contestant like Ba Lie, wouldn't it be more sensational than fighting against an assassin from the Shadow Song Clan?

Moreover, that woman did indeed make him a little tempted, and he couldn't help but want to help her.

"Help my ass! !"

Not far behind him, Amanda, who was pressing her hands on the ground and preparing to refine the array, immediately cursed, "She was originally meant to take a beating. Do you need to worry about her? All of you better stay here and guard me! ! "

Piran's face instantly turned black. This woman was really annoying! !

The key point was that he could only guard her. After all, he had promised the vice-captain. Moreover, he also knew that the combat strength of Spark Academy was on this refining array. Although this woman was annoying, but what she said was right... She could not be surprised

"Tsk..."the master at the side curled his lips and said, "You also know that you're panicking, you know that you want us to guard you?"

"Who wants you to guard? "Amanda sneered. "If you want to die, go to Hell. No one will stop you! "

"Hey! "Grandpa Lu was instantly enraged. He looked over, but when he saw that incomparably violent attack, his head immediately shrank. Sigh... Sigh... It seemed to be very terrifying. If he went up, he should be instantly killed, right?

Forget it. Pm an elegant mage. How can I go and fight with barbarians. 'HMM, I'll wait and see

"Jane, How's your condition? Have you recovered your spiritual power? If you can, double it. I have to speed up! "

Jane nodded and took a breath. The runes around her immediately emitted a faint green light, and an endless stream of spiritual power was transmitted into Amanda's body through the rune array.

After feeling the pure spiritual power..., amanda's expression eased up a lot. "Not bad, Jane. You used that level of secret technique just now, and now you can still use such a strong spiritual energy. You've improved a lot. When did you secretly practice it?"

Jane. " ... "

Jane was a little speechless for a moment, but then she looked at Grandpa Lu, who kept flapping his wings but didn't dare to go up, and a complicated light flashed in her eyes.

At that time, when the bullet flew over, Amanda was arguing with this guy. She looked like she was about to make a move. At that time, she was trying to activate her spiritual power to stop the two of them, but she was mistaken as the person who stopped the bullet...

What a joke, using spiritual power to catch a bullet of that level? Didn't you see that the captain was injured by the explosion when he tried to catch it with his hand? How could it be!

But...

The bullet was indeed caught...

Jane knew very well that it wasn't her, so since it wasn't her

Jane looked at Grandpa Lu with a complicated look in her eyes...

Could it be him? At that time, other than herself, he was the only one who had used spiritual power. Was it some kind of secret technique?

Just as she was thinking about it, there was a loud bang beside her, which immediately gave her a fright. When she turned around, she saw that it was captain Carmen who had punched the ground. At this moment, his eyes were red as he looked at Aisha who was resisting valiant with her bare hands!

“Captain... calm down. It will be difficult for me to perform the surgery if you do this...”

On the side, Sura from the white spirit clan sounded a little helpless. She tried her best to use her mind to comfort the captain who seemed to never lose his hot-blooded impulse

“Your arm has a slight fracture. This bullet is very sinister. As it rotates, it will burst out fine metal shrapnel. Moreover, these shrapnel are poisonous. If you don’t take them out quickly, the wound will fester. It will be very disadvantageous for you in a frontal battle later. Please bear with it for a while...”

Hearing that, Carmen immediately showed an apologetic look. (“I know... I just looked a little excited...”

Sula also looked at the battlefield and then said indifferently, “Please believe in

Aisha. She is a very reliable member. It is not the first time that she has blocked Bayley...”

“Phew...”hearing that, Carmen closed his eyes and took a long breath. He tried his best to relax his whole body and said, “I know...”

“This guy... “not far away, Amanda, who was using the refining array, secretly pursed her lips. This guy had nothing but stupid strength. She really didn’t know why he was the captain. .

While she was complaining, she suddenly felt a chill coming from her spiritual power!

Instantly, Amanda’s pores stood up and she roared, “Coming, Windwalker, protect me! !”

“Calm down! “Perrin had unknowingly arrived beside Amanda and stared at her surroundings. “I’m watching you, what are you panicking for? are all the direct descendants of your family like you?”

Amanda: “ . . . ”

Seeing that Amanda was rendered speechless, Perrin felt a burst of joy in her heart. She did not dare to let down her guard. The other party was a top-notch assassin, and under such circumstances, she did not dare to divert her attention.

However... ”        Why did he feel that this silent chill was too deliberate?

Even that annoying woman was able to notice it at the first moment. Wasn’t this assassin a little too amateurish?

That’s not right! ! !

Piran suddenly reacted. The other party’s target was probably not this annoying woman!

With this thought in mind, he suddenly looked to the other side, at the position of Captain Carmen!

Sure enough, in the next moment, a cold light directly shot towards Sura, who was performing the temporary surgery on Carmen!

Damn it! !

Piran's pupils constricted, and he suddenly turned into a black shadow and rushed over.. However, he also knew in his heart that it was impossible for him to catch up at such a distance!

Chapter 1725: That's it?

The person closest to him was naturally Carmen, who had been operated on. However, he was completely unable to make it in time to save him!

This assassin had picked an extremely good timing. Just now, it was the moment when his muscles were forced to relax. Furthermore, his attack speed was astonishingly fast. Coupled with his extremely high stealth technique, by the time he realized it, it was already time for the other party to make his move!

He could not even tighten his muscles in time, let alone rescue him!

Carmen tried his best to surge his qi and blood in an attempt to help. However, he was just a short distance away, and that small distance had become a chasm that he could not cross no matter how hard he tried...

Whoosh!

The silver light shot directly towards the artery on Sula's neck. Sula's face was pale at this moment. As an old member, her spiritual power had been deep and profound, and she had already reached level 13!

However, even though her spiritual power could sense it, her body could not keep up with the spiritual reaction. She could only watch as the cold light got closer and closer to her!

Her heart was instantly filled with despair.

She knew that once she was eliminated, the team would lose almost half of their team. Without the Master of the mind, even if Amanda activated the black- gold arrow formation, without the connection of the mind, it would be difficult for the team to coordinate their strength, at the very least, their strength would be greatly reduced!

After that, the injuries on the team leader's hand had not yet healed. It would be very difficult for them to win against Ba lie later on. In fact, the opponent would not even be as firm as the team leader. As long as they fought for a little while, when the effect of the arrow formation disappeared, the side effects would come together.., they would be able to defeat all of them in one fell swoop!

What to do?

Sula's mind spun rapidly. She wanted to use her own experience to come up with a solution. However, although the other party's method was simple, the advantage was that the timing was extremely good. The simpler the design was, the harder it would be to crack it once it succeeded!

Seeing that the cold light was approaching her arteries, Sula felt a wave of despair.

Could it be... that it was over?

There was no gain at all. All of her members had been eliminated, and they were still eliminated in the hands of the Divine Arcana Academy. When she returned, she was afraid that her morale would be dealt a huge blow

However, just as she was racking her brain, she suddenly noticed something strange.

Why hadn't she been eliminated yet?

Why did it feel like the blade that was about to eliminate her had slowed down?

That wasn't right! It hadn't slowed down, but it had stopped! ! !

As expected, in the next second, the cold blade had taken shape in front of her eyes, turning into a simple-looking dagger. and between the dagger and her, there seemed to be an invisible wall of qi. No matter how hard the other party tried, she couldn't go any further!

And he finally saw the person who attacked him clearly.

Dressed in gray shadow gauze, his handsome face displayed the ultimate beauty of the night elves. Who else could it be but South Stream?

But at this moment, the other party's handsome face was also full of shock, clearly in disbelief!

Carmen was the first to react, and directly punched out. South Stream's pupils constricted, and she hurriedly gave up the dagger in her hand. With a beautiful dodge, she dodged Carmen and gracefully retreated!

"Are you alright, Senior Sula? "Carmen hurriedly shielded Sula behind him! "I'm Fine! !"Sula hurriedly shook her head. "Who did it?"

Carmen was also stunned. This spiritual power that could directly block Nanxi's physical attack was a bit exaggerated, and he couldn't figure out who did it for a moment.

Meanwhile, Nanxi slowly stood up and looked at her grandfather in the distance. "It's you, right?"

At this moment, the old master was still in shock. He stared blankly at Nanxi like a silly bird.

"You don't have to pretend like this... " Nanxi said coldly, "I've been paying attention to you since we were in the Bronze Hall of judgment. Your Academy's teacher would never allow a useless junior to participate in this operation divine fire. Since you can replace the elementalists from before, it means that you're at least stronger than her. It's just that I never expected you to be a trump card! "

Grandpa Lu. "

Ace? me?

Everyone from Spark Academy also stared at their Grandpa in a Daze...

Carmen: Ace? This guy?

Sula: that spiritual power just now belonged to this little guy?

Jane: it really is this guy!

Amanda: Is This Guy Crazy? What kind of nonsense is he talking about? Ace? This stupid bird?

“Hey, did you find it?”

In the distance, Ba lie grinned and stomped his foot!

Secret Skill: first stage of landslide! ! !

Aisha, who was in charge of stopping ba lie, suddenly narrowed her eyes. She felt a force that was at least ten times stronger than before coming from her shield. With a cracking sound, her arm that was holding the shield was instantly fractured!

She was also sent flying by that surging force!

“Aisha! ! “Carmen roared fiercely. Just as he was about to rush up to support her, South Stream turned into a gray shadow once again and directly stabbed toward Sula!

“F \* ck! “Carmen roared angrily and had no choice but to punch South Stream. Compared to Aisha, Sula was more important and definitely could not be eliminated!

The other party was aiming for his life!

C ‘Heh! P’

In the distance, ba lie laughed maniacally and directly stepped in front of his grandfather. With a huge wind pressure, as soon as he stepped over, he made Piran and Amanda retreat continuously!

Goudan was also so scared that he squatted down and fell to the ground. Why did this guy not speak of martial virtue? He suddenly cut into the back row?

Speaking of which, didn’t senior Ayesha just withstand it? How was she instantly insta-killed? Did she get a critical hit?

“Little Guy, what are you looking at?”Ba lie laughed sinisterly and punched towards his grandfather who was still staring at Ayesha!

With a boom, the fist that was filled with hot energy suddenly stopped in front of grandfather Lu. The huge force slammed into the invisible wall of air, and like Nanxi’s dagger, it could not move forward at all.

Grandpa Lu, on the other hand, was fooling around with his opponent, as if he was so scared that he hadn’t recovered from his shock!

“Looks like Nanxi was right! “Ba lie looked at the direct fist and sneered, “You are indeed a hidden trump card. I’ve played more than ten social gatherings with such strong spiritual power, but I’ve never encountered such a thing before! ”

Landslide! !

Without hesitation, Ba lie once again activated his new top-notch secret technique!

Landslide was originally a secret technique that could only be learned by dragon-level lifeforms. However, in order to catch them off guard, after falling behind Kamen in last year's social gathering, Ba Lie forcefully cultivated this incomparably tyrannical secret technique!

With a bang, the fist that was right in front of him did not move at all. It did not leave even the slightest bit of distance. However, the power of the Fist seemed to have been withdrawn and once again struck out. Moreover, layers upon layers of it seemed as if he had unleashed countless punches.., the power was like a tidal wave, wave after wave!

But... it was useless! !

Ba Lie was stunned on the spot. The huge air wave spread out. If one looked carefully, they would discover that Ba Lie's fist was still in that position, unable to move even a single inch forward! ! Using his spiritual power to block his landslide?

Ba lie was clearly in disbelief!

Meanwhile, his grandfather, who had fallen down, tilted his head and looked at the other party. His gaze went from shock to shock, then to calmness, until now, it had turned into a strange expression.

There was no need for words to describe that expression. With just a glance, one could see what was puzzling about the place. After all, the Phoenix's expression was extremely rich.

Ba lie could clearly see that the Phoenix's expression was filled with puzzlement after the daze.. Its expression seemed to say, "Just this?"?

Chapter 1726: Could It Be... ... That he had awakened again?

What... did this mean?

Ba lie was stunned by the expression on the other side...

This expression... what did it mean?

That panic was filled with confusion, as if wondering why he could not break through his mental barrier...

"Kid! !

After reacting, the flames all over Barlie's body suddenly soared. The violent energy directly burned his entire body into a blazing red, like a furnace. An unprecedented anger surged up in his heart!

There were so many elites in the universe. It wasn't that he had never seen a prideful person since he was young. After all, he was a prideful person. It wasn't that he had never been looked down upon by others. In the social circle.., the Ace of the space elves and the Ace of the bronze academy had always looked down on their Divine Arcana Academy.

There were also those crown princes who were born with a golden key in their mouths. At such a young age, they already had the strength that they had worked hard for many years without doing anything. The way they looked at him was also filled with a sense of superiority.

He had encountered many such things, especially this year. The crown prince had just come out of retirement and had suffered the most.

However, he had never seen such an expression on the other party's face ever since he was born.

That kind of expression... ! ... He thought that the other party was very strong, but this was the result! ! !

"I don't know what kind of secret technique you used to have such an exaggerated spiritual power, but do you think that you can stop me with just this?" Ba lie stood up, the flames on his entire body slowly retracted, and his aura began to rapidly settle down! It gave people the feeling that it was like a dark cloud before a storm, pressing down on Amanda and the others who were a hundred feet away until they were unable to breathe!

This was especially so for Bi Lan, who was a guard. His face was completely red, and he only felt that he had a huge mountain on his back. He even felt that it was extremely difficult for him to stand firm!

This... was the strength of an Ace?

Bi Lan's heart instantly became incomparably complicated. This was the first time he had experienced the full strength of a top ten powerhouse in front of him other than demon star!

Although he had imagined it, he did not expect it to be so exaggerated. Just based on his aura, he could do this. He felt that anyone who could wield a knife could kill him like killing a chicken.

He was actually thinking of using his shuttle secret skill to defeat this monster? Was he too naive?

But how did Yao Xing do it?

Forget about how Yao Xing did it, but that stupid bird in front of him..? ... how did he do it?

To be able to make such a person so serious, it was really hard to imagine that it was that stupid bird whose butt feathers had been plucked out by him

Amanda's face was like a piece of golden paper as she looked forward. Her expression was extremely complicated because anyone could see that under such an imposing manner, the person who stood in front and blocked the other party was actually that lowly native

"That... "Grandpa Lu looked at her carefully and whispered, "It's true. When Your Divine Arcana Race gets angry, they will be like a red-hot furnace. What a strange setting... "

Ba Lie. "

Landslide: Second Stage! ! !

Without another word, Ba Lie's imposing manner suddenly erupted. This time, the energy was extremely concentrated, like a spark gathering at every joint of his body. Although it was tiny, it was as bright as day!

“Be careful! !”

Carmen, who was far away, became extremely nervous when he saw this scene.

However, he was forced to delay for a moment and was unable to go over. Instantly, his heart was burning with anxiety!

Boom! !

The huge force caused the surrounding gas to be instantly emptied. With the support of the secret skill, Ba Lie’s current strength was almost infinitely close to that of a dragon-tier!

Avatar and the others, who were facing the scene directly in front of them, could not help but close their eyes. The powerful force made it so that they could not even face it head-on, otherwise, their fragile mental strength, which had been consumed too much, might have collapsed because of this.

Perrin was also swallowing her saliva as she watched the scene. Just the wind from that punch would probably be able to blow her bones apart?

So, this stupid bird... .. No... This phoenix ? . . How would she react?

Would she still use that exaggerated mental strength to receive it head-on?

What would he do?

Bi Lan widened her eyes and stared at the other party, wanting to see how the other party would deal with it

Finally, under that overwhelming aura, the Phoenix finally moved!

He... ran away? ?

Bi Lan was stunned. When she saw the Fiery Red Phoenix, the first thing she did after she stood up was to run away. Her eyes almost popped out of their sockets!

And... ! It was actually running towards her!

Hey... ? . . What are you doing! ? Don’t come over... ! Your teammate is still here.

However, it was obvious that Pielan’s desperate use of the spiritual link to roar was useless. Grandpa Lu still pounced on Pielan’s face in Panic!

This fellow did it on purpose, right?

Pielan’s face instantly turned frighteningly dark. His mind was filled with the image of that punch coming at him, knocking him out as well!

There was no other way. He couldn’t protect himself anymore. He could only hide for now!

Secret Art: Shadow Steps! !

“Phew... Fortunately, I successfully activated it! ”

After entering the elemental space and the terrifying pressure disappeared, Pielan slowly let out a long sigh. In the past, he had to be more alert when entering the elemental plane, but today, for the first time, he felt a sense of relief...

"Looks like Spark Academy is finished..." Pielan sighed with some regret.

He was very clear that if he chose to escape, that hateful woman in charge of setting up the refinement array would definitely be eliminated. Carmen was also being held back at the back. In this battle, the Divine Arcana Academy that had the advantage had actually already won

"What's finished?"

Just as Bi Lan was sighing, a trembling voice suddenly sounded behind her, causing the hairs on Bi Lan's body to stand on end. She almost jumped up!

What was going on?

Bi Lan turned her head stiffly and saw an extremely strange scene. Behind her, the Phoenix that had pounced on her was carefully looking around. It looked very strange!

"You..." Bi Lan's eyes widened. "How did you get in?"

"Weren't you the one who brought me in?" Grandpa Lu looked at him strangely. "Where is this?"

Pielan. " ... "

He... So... He could bring others in?

What other awesome ability did he have?

When did he awaken it?

Pielan rubbed his chin, his eyes flickering.

That's not right!

Pielan looked in that direction once again, puzzled. If he was the one who had brought him here, why hadn't he been infected by the elements?

Pielan looked around and was once again stunned!

Because he had been infected by the shadows before, he had chosen the four elemental planes this time. But this was the first time he had seen such a gentle four Elemental Plane

Of all the planes, the four-elemental plane was the most unstable. This was because it was mutually reinforcing and countered. Once something new appeared here, the surrounding elemental particles would become very irritable!

This was also the reason why he often did not choose this place as a place to travel. Even for a demon-resistant body like him, it would be quite troublesome inside

This was the first time he had seen such a gentle situation...

The particles around him were like small streams of water, slowly flowing around them. They gently surrounded them as if they were sizing something up, with an extremely intimate intention.

Ever since he could travel through planes, this was the first time he had seen such a scene...

Could it be Other than his ability to travel tens of thousands of kilometers, he had awakened something extraordinary?

Chapter 1727: Personal Vendetta!

Just as Bi Lan was still wondering if she had awakened some extraordinary talent., at this moment, the group of people outside looked at Grandpa Lu who had disappeared with a dumbfounded expression...

...

What was going on?

There were many questions. Why did windwalker disappear? Why could grandpa also disappear. The most puzzling question was... ? .. Why did Grandpa look like he was running away in a hurry?

At this moment, Ba lie was still standing in the same spot. His entire body was like an engine that had just been turned off due to the intense energy usage of the secret art. Hot air constantly spread out, and his entire arm was slightly cracked. Bright red blood slowly flowed out... His fist was even dripping with blood...

Obviously, the secret art just now had put quite a lot of pressure on him, but... ! It didn't come down!

Yes, even with that kind of imposing manner and the secret technique that had put such a great burden on him, he still couldn't get in. That invisible air wall was like a natural moat, and no matter how hard he tried, he couldn't get any closer!

At this time. Ba Lie's expression was also very dull. and his face was full of confusion. Obviously, there were many things that he didn't understand.

He didn't understand how the other party's spiritual power could be exaggerated to such an extent. Pure spiritual power taking physical attacks head-on was something that could only be done by overpowering one's level. The other party wasn't the crown prince, so how could he overpower him across levels?

Even if it was the crown prince, with his secret arts, he should not be able to use his spiritual power to withstand it, right?

Ba Lie's expression was complicated as he used his hand to touch the front. The invisible wall of air was still there, but it was very obvious that it was rapidly losing energy. Clearly, after the other party suddenly disappeared, this spiritual power was gradually dissipating due to the lack of buffs.

However, it was this spiritual power wall without buffs that blocked the second stage of his landslide! !

How... is that possible?

Barry felt as if he had been turned upside down...

The point is... &lt;per\_o&gt; . Why did he run when he could do that?

Is it because this is some kind of secret technique, the other side is almost bottomless? So you ran?

Suddenly, I felt a little relieved...

If it was some kind of special secret technique that caused this kind of effect, perhaps, it would still be acceptable, then it would explain why the other party ran away. Such a powerful secret technique of spiritual power must have a considerable side effect...

“Phew...”thinking of this.., ba lie heaved a sigh of relief, but he also became vigilant. No matter what, the fact that the Phoenix could use such a level of secret technique was indeed a hidden trump card. If the other party could skillfully use this secret technique.., if he could control this terrifying spiritual power to construct some kind of technique, he would probably become a great enemy.

Next time, he had to pay more attention to the social gathering...

But now...

Looking at Amanda, who had already been interrupted due to his imposing manner, Ba lie grinned.

Victory and defeat were already decided!

Without the formation, Spark Academy was like a tiger without teeth. It was impossible for them to win against him in a head-on battle. As long as he could delay Carmen for more than 15 minutes, the equipment hand hidden behind him, Ba Tuo, would be able to activate the furnace device.., once he could activate the furnace, even if he had a hand injury, he would be able to win against Carmen!

As for his teammates outside of Carmen? They were even more vulnerable!

However... ? ... why didn't Barto have any reaction? It had already been so long. Even if he couldn't fully activate the furnace, he should have activated the furnace by now, right? Why wasn't there any reaction at all?

Just as he was puzzled, he suddenly realized that the pupils of everyone on the other side were suddenly enlarged when they looked at him, as if they had seen something unbelievable.

“Captain, behind you! ! !”

Nanxi, who had been entangled with Carmen all this time, suddenly shouted at him.

Behind?

Ba Lie's pupils suddenly constricted. Just as he turned around, he saw a cold light attacking him. With his rich experience in combat, he instantly tensed up his muscles. With a leap of his feet, he quickly pulled his body away!

Chi! !

A blood light flashed, and Ba Lie's huge body bounced back a distance of over 30 feet. Fortunately, the spiritual wall had already dissipated. Otherwise, that conditioned reflex might have caused him to suffer another internal injury... ..

Bang!

Ba lie landed right in front of Amanda and the rest. The two women subconsciously took a few steps back, but Ba lie could not be bothered to look at them. Instead, he stared straight ahead!

The reason why he subconsciously took a few steps back instead of retaliating was because when he looked back, it was a group of people! !

A group of people... ' . They were actually standing silently behind him. He could not even react without anyone warning him. What kind of concept was this?

A person who did not know the depth of a person could immediately make a move to probe. A group of people who did not know the depth of a person... ? . surely everyone would immediately retreat, right?

"Undead?"

Ba lie touched the wound on his chest. The hard surface was cut into pieces, and the wound was not very deep. However, there was a chilling power on it that made his entire body uncomfortable.

This power was exactly the same as the remaining power on the South Stream Dagger. Obviously, it was a power that only undead could use!

"Undead?"

The pupils of the group shrank, and they subconsciously gathered closer to each other. Even Carmen, who had always been his enemy, immediately walked over and stood side by side with Ba Lie!

"Where are Ba Tuo and Fyodorov?" Ba lie asked with a cold expression!

The other party could come from behind, but Ba Tuo, who had accepted the sniper observation mission, didn't make a sound. Obviously, something had happened... ..

"Oh, are you talking about the two of them?"

The leader of the group, a slender figure, slightly nodded his head. There was a hint of ridicule in his voice. "One of us has some personal grudges with your teammate, so we gave him some space to resolve it..."

"Personal grudges?" Arlie frowned. "What do you mean?"

"Literally... Oh, it seems that it has been resolved..."

Ba lie was stunned, but his pupils immediately contracted. The veins all over his body bulged, and he stared straight ahead!

Carmen also looked over, and her expression suddenly froze, and she sucked in a breath of cold air.

She saw a figure covered in a gray cloak, dragging a huge body in his hands. That body was twisted all over, and there was almost no good flesh on it. Some of the exposed bones were twisted into a twist, which made people's scalps go numb!

"Bartok! ! "Barlie's eyes almost popped out of their sockets. If it were not for his remaining rationality, he would have rushed up immediately!

"Sir..."Carmen said with an ugly face, "I don't care what your motives are, but aren't you going too far? !"

With one look, it was obvious that the divine being called Bartok had been tortured by an exaggerated torture!

"Oh, this has nothing to do with us..."the leading undead shrugged. "Didn't I say it just now? It's a personal grudge!"

"Personal grudge? "Carmen frowned. "What do you mean?"

"Sigh..."the undead sighed. "Why can't you understand such simple words? are the people of the living world so difficult to communicate with?"

As soon as he finished speaking, the undead that was dragging Barto threw Barto aside like he was throwing trash. One of his feet stepped on Barto's head and he slowly took off his hood, he saluted barlie and said, "Long time no see,

Captain Barlie..."

The moment Barlie saw his face, his expression froze!

"It's You! !

Chapter 1728: You... ... Are Not Innocent!

Many civilizations had a popular saying about evil spirits taking revenge, but those who truly understood the spirits knew that this was nonsense...

The probability of vengeful spirits taking revenge was very small, not to say that there was no such thing. However, it usually only happened in low-level planes, and the probability was very small. Some lifeforms with spiritual talent had not been developed when they were alive... After dying with hatred, one could stimulate one's potential and use the spiritual power that erupted to produce some magnetic field effects on low-level planets. Together with some special opportunities, there was a small probability that revenants would take

revenge

But the probability was no different from an ordinary person winning the lottery...

In high-level planes, it was basically impossible. After dying, the revenants would be eliminated on a regular basis, unable to stay in this world. Even if one's talent exploded and produced a curse, it was

impossible for them to be a match for a regular alchemist. After all, the living world was biased towards the living

Of course It wasn't completely impossible. If the dead could crawl back from the dead world, they would have a slight chance

But that was still very slim. Ever since the Calamity Legion invaded the universe, there had indeed been a crack in the life and Death Realm, becoming a channel for the undead to smuggle back. However, this channel was very unstable, and they all appeared randomly. There were very few channels that could maintain stability..., once they were discovered, they would be instantly sealed by the nearby gods.

After death, the probability of the undead using the crack to return to the life realm was even lower than winning the lottery. Even those powerful liches were not certain that they would be able to find the crack to return, because the death realm and the life realm were the same. It was an almost infinite space...

”

“Long time no see... Captain Ba lie!

A familiar face appeared in front of his eyes once again. It made Ba lie angry, but at the same time, he felt somewhat complicated and somewhat absurd It was really laughable. The resurrection of the undead, torturing and killing their enemies, this kind of plot that only existed in the script, actually could let them encounter it one day...

“Yeah... “ba lie took a deep breath. The red energy all over his body was quickly extinguished under this one breath and gathered in the depths of his heart. His aura changed from incomparably sharp to gloomy like a dark cloud. Those who were familiar with the Divine Ao clan knew that this was the most serious state of the Divine Ao clan

“Long time no see, MI JIA! “Ba Lie took a deep breath and stared at the other party closely

“It's such an honor... “the pale and handsome man opposite him smiled slightly. “I didn't expect the captain to still remember my name... ”

Ba lie was silent...

Of course, he remembered that when this child had just entered the academy, he had been highly regarded. He had quite a good divine craftsman's talent, especially when it came to making machine tools. His unrestrained imagination had even been highly regarded by teacher Iverson.

In fact, he had also highly regarded the other party. Bator was about to graduate, and the team had been unable to find a suitable replacement for the equipment hand. On the other hand, this child with an extremely spiritual aura was both young and talented, he had originally been a very suitable replacement for the equipment hand.

He did not really like foreign races, but if it was a capable foreign race, he would also give them respect...

However, many people didn't expect Bartok to make a move on a member who had already been selected into the group...

"Where's Fyodorov?" Ba lie asked coldly.

As soon as he finished speaking, a distorted head was thrown to the ground like a piece of trash. There was a long spine under the head, and the face that had always looked serious and reliable was now twisted into a ball, it was full of pain and despair. For such a person to be able to show such an expression, even ba lie found it hard to imagine what kind of terrible torture he had suffered before he died!

This time, apart from anger, Ba lie was also full of pain!

Although this old Fox was from his own family, he was not a person that he thought highly of. He was too narrow-minded, had a twisted personality, and loved to lie on the merit list to play with his seniority. All kinds of bad qualities were destined to limit his achievements in the future.

However, Fyodorov was different. Among the younger generation, he was the closest to him, and was also the candidate for the next captain that he had appointed.

"He doesn't have a grudge with you, right?" Ba Lie's gaze was incomparably cold as he looked at the other party. "Is there a need to be so ruthless?"

"Ha... "mi jia smiled coldly and kicked Bator who was not completely dead. "You make it sound as if I have a grudge with this dog. Being slaughtered like a dog, isn't it because I'm weak?"

Ba Lie. "

"Being weak is a crime... "the smile on Mi Jia's face became distorted, her temperament instantly became like that of an evil ghost. "The family is silent. Because of being weak, children can only admit that they were tortured to death. The teacher is silent because the weak me is not worthy for him to offend the famous family behind Bator. Captain, aren't you also silent?" Ba lie opened his mouth, but for a moment, he actually didn't know what to say

"The silent you all just sat there and watched me being tortured like a dog. In the end, even surviving became an extravagant hope. In the end, when I was tortured to death, didn't those people in the team who thought that they were different from Bartok just sit there and watch in silence? "What's the difference between you all?"

The originally quiet man suddenly became incomparably agitated. He fiercely stepped on Fyodorov's head. The hard head was deformed from being stepped on, and the organization was overflowing. Mi Jia madly stepped on it, just like a madman!

"What's the difference? What's the difference? You Bunch of dogs, what's the difference?"

The violent and crazy aura carried incomparable hatred, causing the faces of Amanda and the group of people behind her to turn pale. Even Carmen's face was somewhat stiff!

However, there was one point that Carmen agreed with. There was indeed no difference between being silent and the perpetrator. Not to mention being an accomplice, at the very least... " . It was the soil! It was the soil where those disgusting flowers grew! !

“Captain... look...”

Spark Academy’s vice-captain, Rhine, retreated to Carmen’s side and whispered, “Over there...”

Carmen looked in the direction Rhine was pointing at, and his heart suddenly trembled!

At that spot, there was a familiar figure hugging his head and wailing in pain. However, although his expression was exaggerated, the wailing sound seemed to be isolated from the living world.

If one looked carefully, one would discover that the person wailing was none other than the original owner of the corpse that was being trampled on: Fyodorov?

As Carmen looked over, the others quickly noticed that direction as well. Instantly, their expressions became extremely ugly!

The other party... had imprisoned the undead! !

However, they immediately reacted. That’s right, the other party was an undead. wasn’t it an easy matter to imprison an undead?

At the thought of this, all the people on the face without a trace of blood!

“Seems to have noticed... <per\_0> . “Mi Jia said with a twisted smile, “Sometimes, it’s also a kind of luck to be killed first. Captain, you see, when they were alive, they were tortured and killed like dogs, but after they died, they still had to be tortured by me like dogs. Captain, you can rest assured that after you die, I will be very careful. I Won’t break your...”

“Bastard! ! “Barry’s face was full of grimaces. “Come and try! !”

“Be careful.... “carmen whispered, (“He was the main player of the last Teree

Fasson Fellowship! “

Chapter 1729:: Rules!

Carmen suddenly felt that this guy in front of him had a bit of an impression!

It wasn’t until he saw the school emblem on the other party’s shoulder and his figure that he suddenly recalled something... ..

In last year’s social gathering, many people only knew about the dark horse demon star, but they had neglected the other strong players hidden in

Tyrifson’s team. Other than the team leader, Yao Feng, he knew that there was another strong player!

The fourth main fighter in the team, a new undead. This undead was not ranked high in the final overall assessment, but Carmen, who had fought with other places for a short time, knew that the other party... ” . Was definitely in the top ten!

It was just that he did not know why he would appear so low-key... ” At this time, he finally somewhat understood...

Carmen pulled Ba Lie, who was like a volcano, and took a step forward. Looking at the group of fellows behind Mica whose auras could not be seen at all, he said in a deep voice, “He’s here to take revenge. What about you guys? Is it the same?”

“Heh...”the leading undead smiled and slowly took off his hood, revealing a bewitching and exquisite face.

“Let me introduce myself. I am the sixth king of the ten kings: Prince Diafiro’s student: Sauta. This time, I represent the power of His Highness the sixth king to participate in the Divine Fire Trial! ”

Everyone was stunned. Their faces were filled with astonishment. Clearly, they were all somewhat dumbstruck by the other party’s words.

“Participate in the Divine Fire Trial? ”carmen sneered. “Are you joking, sir? I can’t help but remember that everyone is on the invitation list, right?”

“Is it important to have an invitation or not? ”The handsome undead named Sauta was still smiling in a humble and noble manner. “Since we’re already here, and your teachers didn’t intervene, isn’t that already reasonable?”

Everyone. ” ... ”

Actually, from the start, they had already thought of this problem. There were already dead people, and there was even such a terrible thing as a dead soul being captured. Where did the teachers who were supposed to be in charge of controlling the scene go?

Everyone wasn’t stupid. They naturally knew that something big must have happened. It was very likely that something had happened to the teachers as well, but they didn’t want to admit it at the moment.

At this moment, when the other party said it, the last bit of hope in the hearts of the group of people was instantly turned off. Their Hearts were extremely depressed!

The existence that could cause the teachers to be in trouble, the fate of the students could be imagined!

“Please put away this sky-collapsing expression... ”saouta smiled and said, “I made it very clear just now that we... are here to participate in the trial! ” “What do you mean? ”Carmen narrowed his eyes and said.

“It’s really hard to communicate...” . “. Saouta sighed. “I’ve said it many times. Our words are all literal. Since we are here to participate in the trial, it is naturally a fair competition. The participants are all juniors under the banner of the ten kings. You Don’t have to worry that your elders will make a move. The rules are the same as before. As long as you succeed in obtaining the divine fire and leave the city, we...” . ” “If you are willing to bet, you must admit defeat! ”

“UH...”

These words caused the people from the Divine Arcanum Academy and Spark Academy to look at each other in a daze. For a moment, they didn’t know what to say.

“Junior?” Ba lie sneered. “I don’t know what the Ten Kings in your mouth are, but speaking of junior, do you undead have juniors? Can you give birth to

“Don’t use your shallow ignorance to understand us...” Saouta said coldly. “As for junior... Don’t you have one right in front of your eyes...”

Barry. ” ... ”

“Let me introduce you again!” Sauta looked at Baal and sneered. “Micah, one of the students under Lord Diafiro, the fifth main force of our six kings!”

These words, let Carmen pupil suddenly constrict!

That Guy’s a fifth-string fighter?

“Because he had some personal vendetta against the men of the seminary, we decided to play it another way... <per\_0> . “Savitar took a step back and said with a smile, “Ladies and Gentlemen of the seminary, I will give you two choices. You can either fight as a team, or you can fight as a team. Whoever wins will walk out of here, or you can fight as a team!”

“Singles?” Said Barry, squinting. “How do you say singles?”

“Very simple!” Sauta spread his hands and laughed. “One on one, if any of you can beat Micah, we will let you go!” lie instantly laughed ferociously. “Very arrogant. Fight with him? Are you sure it’s not you?”

“If I can defeat him, there will naturally be opportunities to fight with me in the future...” Saouta said faintly.

“Ha!” Ba lie laughed coldly. Just as he was about to say something else, Carmen stopped him. “Now is not the time for words...”

These words made Ba lie, whose anger had already burned his head, slightly calm down. He looked at Carmen and finally did not say anything else.

In fact, this group of people in front of him was unfathomable, and their situation was clearly not good!

Barlie was half-dead, and Starfire Academy’s Amanda was also interrupted from refining the formation. The academy’s main support functions were completely useless at the moment.

In a group battle, they were at a disadvantage because it was completely unknown whether these undead had prepared any tricks beforehand.

Under such circumstances, the one-on-one system that the other party mentioned was actually very beneficial to them. At this moment, the assistants were temporarily useless, but the main forces did not suffer too much loss in their combat strength. A one-on-one system was much stronger than a group battle!

They also did not know what had happened to the instructors outside. If the other party could really keep their promise and defeat Micah and allow them all to leave this underground city, they could think of a way to contact the instructors outside, even if they could not contact them, they could at least make some preparations. It was far better than rushing into a group Battle Now!

“Can anyone participate in a one-on-one fight?” carmen asked directly.

“Of course!” Saouta smiled and said, “You can send anyone you want. Mi Jia will fight on our side. If any one of you can defeat him, this round will be considered as your win. How about it? Isn’t it giving you guys enough preferential treatment? However, you guys also have to take some chips!” “Chips?”

“Carmen frowned. “What chips?”

“Right now, other than people, what other chips do you guys have?” Saouta narrowed his eyes and said, “Any challenger must use a member as collateral. If you win, all of you can leave. But if you lose, the person who is mortgaged will be at our disposal. How about it?”

“What the hell is this condition?” Amanda could not help but ask.

“This is the condition. If you agree, you can send people to challenge. If you don’t agree, then let’s fight as a team...”

Everyone. ” ... ”

raised his eyebrows and said with a smile that was not a smile, “Don’t tell me that with so many main forces in your two academies, none of you have the confidence to defeat Mi Jia of our family?”

“Bullsh \* T! !

As soon as he finished speaking, a divine mystery bald head that was even taller than Ba lie Strode to the front. Energy surged out from his entire body and a wave of heat instantly spread out. His imposing manner was extremely powerful!

It was the Divine Mystery Academy’s Second Main Force: Grodo. Gray stone! Two streams of fire spewed out from Grodo’s nostrils.. He looked at Mi Jia who was standing opposite him with a cold face and sneered, “Little Chick, do you still remember me?”

Chapter 1730: A Crushing Duel!

“Little Brat, do you still remember me?”

The familiar voice and tone caused the cold glint in Mi Jia’s eyes to flicker continuously. However, the expression on her face was still smiling. She bowed slightly and said, “Of course I remember. Senior Grodo, how have you been?” Looking at this burly man who was even taller than Ba Lie, Mi Jia recalled the darkest days in her mind.

If Baalier was a pervert, then this guy was a thug!

Baalier would use all kinds of premeditated methods to torture him, and this guy would use him as a punching bag when he was in a bad mood, and then the team’s medics would be responsible for repairing his bloody body. What a perfect combination... ..

“If Senior Grodo is the opponent, then who will be the bargaining chip?” Micah looked at the few people from the Divine Arcana Academy behind him with a faint smile, and the group of people instantly turned pale.

Especially one of the purple-haired girl, she was especially frightened.

As expected... ” In the next second, she heard Mi Jia say with a smile, “Senior Emily, why don’t You Come?”

That gaze happened to be directed at that purple-haired girl!

The girl suddenly retreated. Especially when she saw the outcome of Bator on the ground, she directly fell to the ground without being able to stabilize her butt!

Looking at this senior who was usually cold and ice-cold, mi jia smiled even more happily... .

He remembered that when he first came to the group, this senior sister who was quiet and didn’t speak much, but would take the initiative to repair your body after you were too tired from training. At the beginning, he had a very good impression of her.

He remembered that after he finished his first training, she coldly reminded him about the time and intensity of his training. He couldn’t go overboard, just like a proud young lady who couldn’t bring herself to lose face, but had an incomparably gentle heart... ..

At least... that was what she thought at that time...

Even on that day, she still had a trace of admiration in her heart, a trace of her heart was moved... .

As a young man, there were times when he was in love, weren’t there?

However, this beautiful thought was tortured time and time again, and after this seemingly beautiful and gentle accomplice helped cover up time and time again, there was not a single bit of coldness left... ..

Using the bionic skin to cover up his bruises, using the bone augmentation medicine to temporarily repair his bone damage, and most importantly, providing Barto with all kinds of mental stimulants to torture himself... .

He would never have thought that on the first day, a woman who was so gentle to him would turn out to be such a venomous person... .

“No... No, I don’t want to! “The young girl called Emily shook her head with a pale face, and the few rookies from the Divine Arcana Academy beside her subconsciously distanced themselves from her. ...

Bang!

All of a sudden, Amelia, who had fallen to the ground, was pulled up by the burly man by her hair. “What are you afraid of, B \* Tch? Do you think that I will lose to that Little Chick?”

The huge palm directly slapped Amelia’s pretty face until it was deformed. Her teeth were almost all sent flying, causing the people from spark academy to furrow their brows!

Divine Arcana Academy had never treated outsiders as human beings, and this rumor seemed to be true!

Even Amanda, who was born very clearly, did not look too good at this moment!

“Enough! “Standing at the back, Nanxi, who had exchanged blows with Carmen just now, said coldly, “If you have the strength to use it on the other side, don’t bully a defenseless Doctor! ”

big man looked at Nanxi with a sinister smile. “You Want to control me?”

“Aiya... ... “Is this an internal war, senior?”Mi Jia said with a lazy tone, “But let me say in advance, senior Emily is the bet that I specified. If I break it, I don’t want it. At that time, I can only pick another one! ”

Bang!

In the next second, Emily was thrown to the ground like a rag, grodo looked at Mi Jia with a sinister smile. “Little chick, it seems that you miss the taste of the past a lot, right? Don’t worry, later on, I will disassemble your bones one by one, so that you will never say such words again! ”

“TSK... This method is good... “mi jia narrowed her eyes with a smile. “Senior, with your big physique, disassembling your bones will definitely be very interesting! ”

“Little chicken! ! “Grodo laughed ferociously. The energy in his entire body instantly contracted, and his heart started beating like an engine. The banging sounds were like muffled drums, and his imposing manner was astonishingly terrifying.

This was also the reason why the people of the Divine Ao clan could not become assassins. Leaving aside the composition of bones and muscles, this unique and powerful heart was also not suitable to be a secret assassin...

The next second, Gros took down the giant hammer on his back. In the center of his palm, the blood that was connected to the heart flowed out continuously. The giant black hammer instantly let out a roar!

Those who were familiar with divine craftsmen knew that this was the divine craftsman’s method of awakening parasitic weapons. By burning the blood of the Tinder, the weapon would wake up.

Every divine craftsman had a lifeblood weapon like this. The weapon would grow stronger as it grew stronger!

Buzz! !

A metallic roar rang out. The Sleeping Giant Hammer was like an awakened wild beast. Just like its tall and wild master, it emitted a violent aura!

Faced with this storm-like aura, MI Jia’s smile did not change. She muttered,

“It’s really a weapon that’s as annoying as its master...”

As she spoke, she slowly pulled out a short sword from her waist!

It was more like a slightly longer dagger than a short sword. It was as thin as ice, crystal clear, and carried a gorgeous purplish-black color. It looked extremely like a gorgeous ornament, but no matter how one looked at it, it was not used for a duel.

It gave people the feeling that with just a slight touch, it would be smashed into pieces. However, no one dared to look down on this weapon.

Most of the people from famous schools came from wealthy families. Most of the people who were admitted to the Divine Arcanist Academy were from families related to forging. They were not amateurs when it came to materials. Many people were clear that this purplish-black material.., was the most popular rare material in the death realm today: Frost Crystal!

The fire in the death realm was solid and almost never extinguished. However, if it was not devoured after burning for hundreds of millions of years, it would produce a kind of frost fire material, like crystal powder.

This kind of extremely rare natural material could be refined through some kind of alchemy method to produce a rare material like frost crystal. The weapon made of it was very powerful. In the world, a Gram of frost crystal could be sold for hundreds of millions of dollars!

A fully formed frost crystal weapon was worth at least a trillion dollars. Even the direct descendants of the family, without any special channels, rarely could they afford to use such an equipment.

“Little chicken, can you do it! “Grodo slowly raised the giant hammer. A huge amount of energy quickly gathered on the hammer, creating a rumbling sound of a storm. His aura was extremely terrifying!

Although Grodo looked down on his opponent, in reality, he did not dare to be negligent in his actions!

Since his opponent could defeat Fyodorov, his strength would not be any weaker than his. Moreover, he had a frost crystal weapon at this time, so he could not be careless!

Almost in the next second, Grodo, who seemed to be looking down on his opponent, instantly rushed in front of Micah like a bullet. The huge hammer brought with it surging energy and struck down on his head without hesitation! !

The Frost crystal weapon was extremely tough and could absorb the energy of the living world. It was a kind of equipment that grew stronger the more one fought. The best way to deal with this kind of spirit-absorbing weapon was to destroy the opponent like a bolt of lightning, he would not give the opponent the chance to buy time!

The eyes of the people watching the battle at the back instantly lit up. Looking at the aggressive and decisive grodo, they instantly felt much more at ease.

Previously, they were afraid that this guy would be too arrogant and underestimate his opponent. Now, it seemed that although this guy didn't pay much attention to his attacks, he did go all out.

With Grodo's strength, if he went all out, there was still a guarantee...

But just as they were thinking, the next second, they saw Grodo's huge body and the huge hammer in his hand directly cut into two halves like tofu under the opponent's short sword that was as thin as paper! !
