

## A Bunch 1741

Chapter 1741: Feng Doudou V S Puppeteer

(1)

“Good move!”

The voice was extremely strange. It carried the childishness of a child, but it gave people an extremely evil feeling. That evil feeling gave people a terrifying feeling that went deep into their bones. It made Reina, who was still recovering on the ground, feel her heart tighten!

In an instant, she could feel that this baby-like monster had a rather terrifying spiritual power...

“The Bronze Academy, the Royal Academy... I thought there wasn’t even one that I could see... “the child smiled as he looked at Feng Doudou. (‘I didn’t expect there to be someone powerful... ”

“What did you do to our people? “Reina asked coldly!

“Nothing much... “the child tilted his head, making a metallic creaking sound, making people feel even more uncomfortable

“You saw it too... “the child pointed at Paris, who was still able to stand up despite losing her head, and said with a smile, “Only one person died, and your group of companions ran faster than the moon rabbits...”

Reina’s heart trembled. She was just wondering why the most important medical hand in the team would die here alone, and from the tone of the other party, he was actually given up...

Logically speaking, it should be impossible. Captain Paris should be very clear about the importance of Paris, but she had still been given up here. That could only mean that the entire team had been unable to protect themselves at that time and could only give up

Thinking of this, Reina’s heart was incomparably heavy. Looking at that extremely terrifying child, she thought to herself, this guy, he forced the entire team to retreat?

“He’s a child who doesn’t like to talk... “the child tilted his head and looked at Feng Doudou with a bright smile. “But I like children like you...”

Feng Doudou glanced at him, and the long sword in his hand suddenly turned into a cold light and slashed toward a spot behind him!

Dang! The sound of metal colliding rang out, and a bright spark streaked across. In the next second, an extremely sneaky figure quickly pulled away from the spark and jumped to the wall above, retreating several feet in a row!

Rayna’s heart suddenly constricted, so close, there is something sneaking over and she did not feel it?

She quickly raised her head to look at the figure that was pushed back by Feng Dou, and suddenly the fear that her body had suppressed with great difficulty rose up again!

On the wall of the ceiling, a small figure was crawling nimbly like a spider, but

when the head of the strange creature looked over, it was exactly the same as the baby! !

“Senior... “Feng Doudou finally opened his mouth. “Come closer to me. These strange creatures can’t Hurt You...”

“These? “Reina, who hadn’t recovered from her shock, was stunned. She suddenly looked around. At this time, she could vaguely see the shadow moving quickly in the darkness. If she took a closer look, she would find that... It was about the same size as the baby. Judging from the number, there were at least thirty to fifty of them

At this moment, she finally understood why the captain and the others had retreated. If those figures in the shadows had the skills of a flesh spider, if they hadn’t retreated, they would have been completely wiped out!

“Your skills aren’t bad, but your tone isn’t small... “the voice that sounded like a baby came from all directions, causing Reina to have goosebumps all over her body!

Feng Doudou didn’t even raise his head. He only slightly raised the tip of his sword, for the first time, he smiled. (‘I don’t like to exaggerate. If the remaining 99 of you are on the same level as that guy just now, then I’m sorry, you can’t even move a hair on her head... I said it! ”

99?

Reina’s pupils constricted. She could vaguely see that there were at least 40 to 50 of them hidden in the shadows, but she didn’t expect there to be so many.

Moreover, Doudou’s insight was better than she had imagined. could he actually hit the numbers? Such a confident tone?

Interesting... ”

The child standing in front of Feng Doudou raised his head and smiled. “Then

I’ll give it a try...”

As soon as he finished speaking, numerous figures suddenly appeared from the shadows, causing Reina’s scalp to go numb. The speed of those densely packed figures was unbelievable, and she felt that it was extremely difficult to catch them with her eyes, even if she hadn’t fallen for the attack and her body was functioning normally, it would still be difficult for her to face one of them. With so many of them, it was no wonder that her teammates had abandoned Paris and left!

However, facing this group of strange dolls, Feng Doudou calmly raised his head, he muttered, (‘I actually... hate children, but my husband wants them. Now that I see you, I don’t want children anymore... ”

Reina. ” ...

What is this guy talking about at this time?

However, Reina suddenly realized that although the baby monsters around her were extremely fast, they kept a distance from them. It was as if there was a red line separating them, making them afraid to get close!

What was going on?

In the distance, the child who had appeared to confront Feng Doudou and the others showed a serious expression for the first time in his green eyes.

He could feel that none of his companions dared to get close to him, because no matter how fast they tried, they couldn't escape his sight!

The girl's seemingly indifferent eyes caught everyone's movements. Although she stood there like an immobile wooden figure, everyone knew that no one could dodge the sword in that Guy's hand!

"How long are you guys going to spin like this?" Feng Doudou curled his lips.

"If you guys don't come over, I'll go over..."

The child was stunned. What did this guy say? She wanted to take the initiative to attack? Did she not care about the person behind her?

Reina, who was behind him, was also stunned. She stared at Feng Doudou's back.

Hey, Hey, didn't I say that I wouldn't let anyone touch even a strand of my hair?

However, before he could react, Feng Doudou moved. His speed was so exaggerated that the babies couldn't imagine it at all. It was as if he had jumped through time and appeared in front of the first batch of people in an instant!

The longsword in his hand instantly turned into countless cold lights. In an instant, at least a dozen dolls in that batch were shattered into countless parts.

"Oh... as expected, they're puppets..." Feng Doudou curled his lips. "I told you, how could there be so many identical devilish children?"

"This guy..."

The child was stunned at first, then his face was filled with malevolence. With a pull of his hand, the group of monster babies surrounding him instantly pounced on Reina!

Reina's soul immediately left her body, but in the next moment, the figure that made her feel extremely at ease once again appeared in front of her. The long sword in his hand directly turned into an impenetrable screen, chewing the dozens of babies that pounced on her into pieces!

When the child saw this scene, he didn't hesitate to escape to the back!

This girl's skills were probably comparable to Captain Foyego's. He had to quickly retreat!

"You want to run?"

A cold voice sounded in his ear. The child's entire body trembled, but it wasn't fear. The fear on his face instantly turned into a ferocious smile. Coupled with his young face, he looked extremely terrifying.

Feng Doudou's pupils constricted. Then, he saw the child's body instantly expand like a balloon.. In the next instant, countless sharp icicles rose from his body and attacked Feng Doudou from all directions!

Chapter 1742: Feng Dou Dou V S puppeteer (part two)

"Dou Dou!

Whether it was the escaping doll or Feng Dou Dou who was chasing after her, Reina's eyes couldn't catch them at all. When she finally found the two figures, she saw the child's body expand, it turned into thousands of steel needles and stabbed at Feng Dou dou!

Obviously, the doll that looked like a puppeteer was still a puppet. There were traps all over its body. It was obvious that it was a trap, and Feng Doudou was hit right in the middle!

Facing the countless fine but extremely sharp steel needles, Feng Doudou's eyes flashed. Instead of retreating, he advanced. The longsword in his hand turned into a silver screen and covered his entire body completely, the countless needles were blocked by the most exquisite force. The most terrifying thing was that with this sword technique, Feng Doudou's speed didn't slow down at all. He directly chased in a certain direction!

Reina, who was behind him, had a stunned expression on her face...

From the start, the skills that this newcomer had displayed had broken through the upper limits of her heart time and time again. She had never expected that this little girl, who wanted nothing more than to turn a single academic point into something useful, would actually have such frightening skills! To think that she would actually have such frightening skills!

Although the fact that the other party was able to exchange blows with Ba lie from the Esoteric Academy was already sufficient for her to overestimate the other party, only now did she realize that she had still underestimated this fellow. With such skills, wasn't he at the level of the crown prince. No. It was probably even more so. After all, in the information, this fellow was only a freshman who was less than a hundred years old and had yet to reach level-10.

However, with his skills, she felt that the level 14 divine craftsman wouldn't even be able to touch his clothes!

However, what was this guy chasing after?

Reina was confused.

At this time, if a certain existence knew about Reina's doubts, they would definitely curse

Chasing after what? Of course, it was me! !

In front of Feng Dou Dou, an existence that was as tiny as an elemental molecule was rapidly using a certain device to fly away. If one were to use a microscope to look, they would definitely discover that it was a person the size of a bacterium.., it looked exactly the same as the strange babies from before, but its expression was more agile, and it didn't have the inexplicable stiffness of those dolls!

Obviously, this was the real owner of the puppets...

The moment the steel needles on the puppet doll exploded, the mastermind, the bacteria-sized doll, immediately rode on its own device and quickly moved away from the exaggerated monster.

However, the monster had no intention of letting him go. The final trap could not even delay him a single step!

Sensing the terrifying aura that was getting closer and closer, the tiny baby's face was filled with malevolence!

"What kind of monster is this guy? How could he discover me at the first moment?"

Theoretically speaking, it was such a tiny existence that it was impossible to see it without activating its psionic state. After all, if it was not actively or passively triggered by a crisis, very few people would activate their psionic pupil at the first moment.., because it consumed a lot of energy!

However, the other party activated it the moment the needle exploded, locking onto him almost the instant he escaped, as if he had expected it!

Could it be that the other party had encountered such a situation before?

No Impossible. If the other party had really expected him, with the skills she had displayed, he would have been locked onto and killed before he could escape from the puppet body!

This fellow had only activated her spiritual eye to catch up to her after she had discovered her escape!

But how did she discover me?

Before she had time to think carefully, she suddenly felt a cramping pain on her back!

The longsword in Feng Doudou's hand pierced through the baby that was even smaller than a speck of dust with extreme precision. The sword aura that was as thin as hair instantly chewed the life force in its body into pieces!

The short baby's brain suddenly blurred as it felt a suction force from its soul!

It knew in its heart that the world of death had summoned it again...

It... was going to die again...

The moment its consciousness blurred, everything around it slowed down. The baby opened its mind and clearly saw every pore on the little girPs face.

What caught its attention the most was the beast-like excitement in the girPs beautiful emerald eyes!

In an instant, the tiny baby suddenly remembered what Captain Foyego had said

“Little Doro, although your life-saving device is exquisite, it’s useless against some people...”

“Who? “It remembered that it had asked curiously at that time...

“A man with the instincts of a beast...” Foyego laughed. “His instincts are surprisingly accurate. All your calculations, all your preparations, are as fragile as paper in the face of his instincts!”

“What kind of man is so unreasonable?”The baby retorted with a pout.

“Yes...” Foyego looked up at the sky with a look of anticipation. .

“Captain... the kind of man... you told me about, I Met...”

In the distance, a tall, silver-haired man wearing a green fluorescent leather armor looked up with a blank expression on his face. .

It was foyego, who had just greeted the four priests who were guarding the gate!

“What’s the matter, Boss?”

Behind the silver-haired man, a pale silver-haired woman seemed to have noticed Foyego’s strange behavior and approached him to ask curiously.

Foyego slowly withdrew his dull expression and narrowed his eyes as he asked, “At that time, the abandoned doctor in the team of the Bronze Academy sent a signal for help. Who Was it sent to?”

The pale woman was stunned, but she immediately opened the database and said, “The people of the bronze academy at that time were all at Doro’s place, including their captain. The members of the team were basically all present. Only two people didn’t come...”

“Which two people? “Foyego turned around and asked, with a serious look on his usually light face.

The woman quickly replied, “One of them is Rayna, the fourth main force of the Bronze Academy. She is a warrior priest, and she is from a middle-level priest family. She was ranked in the interstellar fellowship organized by the Federation of gods, but her overall combat strength should be far below the other main forces...”

“What about the other one?”Foyego asked directly.

“Well. . . and a new one . . . The woman narrowed her eyes and said, “It is said that she is a native, and there is not much specific information about her. This is because she is a new student and is not from a big family, so she does not have any noteworthy resume. The most noteworthy information about her is that she has been accepted as a student by the vice president of the Combat Institute. However, there are quite a number of students who have been accepted as students by the vice president this year, so it is not very noteworthy information...”

“Is that so...”foyego nodded and said in a low voice, “Then you can’t blame the Intelligence Department. After all, it’s really difficult to prevent a dark horse through intelligence...”

“Dark Horse?”The woman quickly said, “You mean... the newcomer? Is it that Doro didn’t handle it?”

“Doro has returned...”

## Chapter 1743: the bronze team that fled in a panic

The female undead did not doubt her words. She was the commander-in-chief of the ten princes this time, and she had everyone's soul register in her hands. If anyone returned, she would know immediately.

And she knew very well that Foyego would never joke about such things. But even though she understood, she still found it hard to believe.

Galore was the only puppeteer in the team. In terms of individual combat strength, amongst the five kings, only Galore was considered to be below average. However, in terms of survivability, Galore was able to protect two and fight for one!

"Was he tricked?" The female undead took a deep breath and asked.

As the team leader had the soul register, he would be able to obtain some information before he died.

"He dissipated too quickly and didn't leave much information behind..." Foyego shook his head. He looked at the sky and recalled the last sentence that the other party left behind.

Team leader... Back then... I met the kind of person that he told me about.

"Maybe..." Foyego paused for a moment and said calmly, "There isn't any design. After all, most of the people in the Bronze Academy are already under our surveillance."

"What does the Captain Mean?"

"He just met someone stronger..."

"That Dark Horse?" The female undead frowned. "Do you want me to go?"

"Not for the time being..." Foyego shook his head. "We're not here on a whim. Finding the divine fire fragment is the key to this mission. The developer's program has restrictions on US undead, and it has been thoroughly proven these past few days that it's impossible for us to obtain the fragment by ourselves. The people from these high schools must exist, and with an expert leading them, they won't collapse..."

"Understood..." the female undead nodded. "Is that why they let those people from the Bronze Academy leave?"

"Yes..." Foyego nodded. "Inform Jia Ye and the others to follow the plan... have Loulan monitor that newcomer. Make sure that the other teams don't face that female Aborigine alone..."

"Yes!"

"Captain, we're here! !"

Close to the West Gate, a group from the bronze academy was approaching quickly in a very stable formation. From everyone's mental state, including Captain Barth, it could be seen that they were extremely nervous, they looked like they were fighting a war!

"Everyone, be on alert!" Barth said in a deep voice. "Don't let your guard down even the slightest bit. Ghosn, is the molten core device activated?"

In the center of the team, a bronze dwarf who was protected tightly nodded. "Yes, Captain. It's activated. It can be used at any time!"

"Okay!" Barth nodded and looked forward. "Matt, we'll walk in front. Binz will guard the rear!"

Matt nodded in the front and held the black-gold Greatsword in his hand!

When they arrived at the city gate, everyone's vigilance was raised to the extreme!

The reason was simple. There were undead in the city, and the seniors who were responsible for monitoring the deaths of students did not react at all. It was obvious that something big had happened. Everyone knew that it would not be so easy to escape.

"There's someone!!"

In the team, a new member of the Blue Spirit tribe had a sudden change in expression. She immediately reported the situation she had felt to everyone

She was a new member of the team, the substitute master of the mind. After assistant number one Paris was abandoned, she had taken over the role of temporary master of the mind...

As a member of a blue spirit high-level aristocratic family, her foundation was excellent. She had a very solid mental strength and with the help of the team enhancing potion.., her perceptive ability could reach up to a thousand square meters even in this underground city that was filled with dense energy!

And as a master of the mind, she could transmit the position of her teammates the moment her spiritual energy sensed someone. This was the reason why Master of the mind was so popular today, this was because whether it was as a battlefield commander or as a support in a mercenary team, they were all extremely useful!

The instant he felt the other party's spiritual energy being transmitted, a green-haired elf who was in charge of covering the rear of the squad unhesitatingly raised the bow in his hand and pulled down the full bowstring!

In the next instant, a flash of green light whistled through the air!

The third main force member of the official squad who made a move: ICE, the only scout in the team of the Bronze Academy, and the only non-bronze race member among the four main forces.

Just like the Divine Arcana Academy, the Bronze Dwarves' rough skeleton and body structure were not suitable for the high agility route. The Scout position in the team had always been taken by a foreign tribe. Binz was a direct descendant of the East Star Region's wind elves, he had already been a scout for seven years in the team, and had always been ranked in the top three main forces.

Even though the newcomer Reina had recently risen and surpassed Binz in the single player ranking, she was still inferior to him in the team ranking. After all, the team ranking was not entirely based on strength.

Bing SI's strength was unquestionable, especially his astonishing archery skills. He was a famous sharpshooter in the entire federation's high schools. As a top ranger family, he did not choose the Gale Academy that many wind elves yearned for, there was also a reason for this. The Gale Academy could learn many top ranger secret techniques, but the bronze academy also had its benefits. He could get to know many top divine craftsmen here, and in the future, he would be able to obtain many of his own channels for equipment, for a Ranger, it was also very important.

Just like at this moment, as the scout and sniper of the team, Ice was equipped with the top-notch set equipment forged by the outstanding craftsmen in the team. In particular, the longbow in his hand was a rare growth-type weapon. Not to mention, it was infinitely compatible with his own body, moreover, it would also grow along with his own attributes and be forged with top-notch metal. If it wasn't for the fact that he was serving in the bronze academy, it would be impossible for him to possess such a secret weapon!

Furthermore, the archery arrows were also secret-made arrows forged by the top-tier equipments in the party. Regardless of whether it was the conductivity or the physical performance of the arrows, they were all top-notch, the excellent equipment allowed him to display his archery skills that he had painstakingly trained since he was young to a near-perfect level!

The arrow infused with wind elements carried a sharp green glow as it transformed into a deadly hurricane as it whistled towards the location indicated by the psychic. The surrounding air seemed to have been sucked out in an instant, the terrifying penetrating force made the few members who were used to Ice's archery feel a chill in their hearts. They understood that Ice's current mood was not as calm as it appeared on the surface. The force used in his hasty attack was too ruthless!

This kind of power would probably be banned in the social circle

However, no one would blame him at this time. This was because there was a high probability that the person who appeared at the door was either a senior priest or an enemy. If it was a senior priest guarding the door, this little bit of power was nothing at all. If it was an enemy... .. This little degree was nothing.

The moment the arrow was shot, everyone stopped to maintain the distance and stared at the direction where the arrow left. The equipment hand in the team directly condensed his spiritual power on the molten core device, ready to be activated at any time!

Buzz!

The ear-piercing wind sound came back. Obviously, the arrow shot by Ice was blocked. The next second, the Roaring Hurricane instantly stopped and turned into an ordinary arrow.

The arrow was still emitting a green light, accompanied by an engine-like roar, but it could not advance any further because in front of it, a white jade hand blocked all its power!

Catching the arrow with bare hands?

Everyone's heart jumped. After passing through the strong wind, it took them one or two seconds to clearly see the owner of the jade hand!

"It's You!

Chapter 1744: you... ! have an extra person!

"Student Mu Yunji, why are you here?"

Looking at this familiar face, everyone felt extremely complicated. It was fortunate that this person wasn't the priest guarding the Academy's City Gate, which meant that the danger was still present. It was impossible for them to feel fortunate

However, it wasn't to the extent of not feeling fortunate at all. At the very least, the person who grabbed the Bing si arrow with his bare hands didn't seem to be an enemy... Right

At this moment, the people standing at the city gate were Yunji Mu and Wang

Chengbo

"Good arrow... "Yunji Mu didn't even lift her eyelids when facing the question from the other party's captain, Barth. She focused all her attention on the arrow itself.

In the team, Bing Si, who had shot the arrow, stared at the other party. His hand that was holding the bow trembled slightly.

The other party was naturally not praising his archery skills, but the skill of the arrow itself, which made him more or less angry...

However, although he was angry, he did not dare to say anything for a moment. What a joke, catching the arrow with his bare hands. The skill of this woman in front of him was probably on the same level as demon star's dark horse!

Didn't he see that Captain Barth's tone had become extremely polite at this time?

Before the drawing of lots, how could Barth, who had always been incomparably arrogant, call a person from Pheasant Academy a classmate?

Yunji Mu didn't reply, causing a trace of coldness to flash in Barth's eyes.

However, his expression was still gentle. He also knew that at this time, it was best for the team not to make enemies, especially this guy in front of him who had an amazing performance.

If it was him, he wouldn't dare to catch that arrow with his bare hands. This woman.

"We just found a place to come in... "the one who spoke was Wang Chengbo, who was standing next to Yunji. Chengbo had a gentle face and a modest smile.

He was completely different from Yunji, whose face was as cold as an iceberg...

Seeing this, Baars felt slightly relieved. He walked down the stairs and asked with a smile, "You just came in?"

"Yes... "Wang Chengbo smiled embarrassedly. "It took some time, and the place is also a bit difficult to find. If it weren't for the mark left by the people of your school, we might have to look for a while..."

"Oh? "Only then did Barth remember that he seemed to have asked Reina to pick up these two external connections in the beginning..

Thinking of this, Barth felt a little regretful. In that situation, if Reina's blessing totem was there, not only would they not be able to completely defeat that monster, at least they would not retreat so intelligently. They might even be able to save Paris

Although the potential of the new person to replace the Master of the mind was not bad, he was obviously not as experienced as Paris in terms of using it. Furthermore, Paris had a rather skilled first aid ability, and the team lacked a medical hand.., the overall quality of the team had decreased by a lot!

"You mean that Reina and the other two are not with you?" Matt asked with a frown.

"No... "Wang Chengbo shook his head and looked at the other party. "It seems that senior Reina wasn't able to meet up with you guys..."

Cloud Herder, who had been paying attention to the arrow craft, also looked over at this time. It seemed that she was quite concerned about this matter.

This made the shrewd Matt and Barth slightly stunned. These two people...

Why were they so concerned about Reina? Could it be that they knew each other before. They had never heard Reina mention it before... "

"When you came in, did you see Lord Aogu guarding the city gate? "Bars couldn't help but ask in the end.

Everyone immediately looked over. This was what they were most concerned about at the moment...

Wang Chengbo's heart slightly jumped. Looking at the expressions of these people, he thought to himself, as expected, something happened...

"Nothing... "Wang Chengbo shook his head. "There's nothing at the city gate.

There's only one open space array, and it's one-way..."

After saying that, he pointed at the space teleportation array behind him with a bitter smile and said, "My companion and I have tried many times here, but this space array doesn't have the function of reverse teleportation!"

These words instantly made the hearts of the people from the bronze academy sink to the bottom!

The worst had happened! !

"Let me take a look! "Within the team, a female dwarf with golden hair couldn't help but walk over. She placed a hand on the massive refining array, and in an instant, the entire spatial array lit up.

Everyone's hearts skipped a beat, and they looked towards the female dwarf with anticipation.

However, the female dwarf's complexion wasn't very good at the moment. She gritted her teeth and endured for several tens of seconds, before finally withdrawing her hand unwillingly.

"Mia, what's the situation?" Matt hurriedly asked.

"It's not that the spatial runic array is no longer there, it's that it hasn't been activated, but..." " The female dwarf frowned. "If senior didn't receive me from the outside, I wouldn't be able to activate this level of spatial array with my spiritual power..." "

Everyone.

"Since you can't activate it, why did you try it just now? "This time, Cloud Herder, who had been ignoring them, asked.

Hearing this, everyone was stunned. Matt also looked at her curiously. Obviously, Mia wanted to try it just now

"Because the structure is very simple... "the female dwarf named Mia bit her lips and explained, "All the runic structures haven't changed, and they are all stable. You just need to activate the teleportation, but you don't have enough spiritual power..." "

These words immediately made the eyes of Barth and Matt brighten. Barth quickly asked, "How much spiritual power do you need? If you activate the device to increase your spiritual power, are you sure you can activate it?"

"No... "..." Mia smiled bitterly. ("I tried just now. with my spiritual power, I can't even activate the first rune of the teleportation link. Even if I have the device to increase my spiritual power, I can't fully activate it, at least..." " There must be five arcanists who are similar to me, and they must be proficient in the energy of runes. Only when they work together can they open it.

"This..." "

Hearing this, the crowd suddenly became anxious. Where could they find so many arcanists?

"If... The arcanists from other academies work together with you, are you sure you can open it? "Matt suddenly asked.

Everyone looked over.

"I think I have a chance... " Mia thought for a while, finally, she nodded and said, "The main reason is that we haven't cooperated with each other before. The probability of failure is high, but we do have a chance..." " After a pause, she continued, "This space array is powered by a mechanical device. Amanda from Spark Academy is a professional mechanical alchemist. If she is here, the probability of success will be higher..." "

"That looks like... "matt squints solemnly way: "Then can only go to the city center!

"City center?" A group of people looked at him, obviously a little nervous, because to go to the city center is to turn around, it is very likely to hit that monster again

Looking at the perturbed crowd, Matt said patiently, "There's no other way. I know you guys don't want to go back because other than that monster, there might be more dangers. But we can't just sit around and wait for death. Now it's obvious. The senior guarding the city gate is no longer here. We have to escape this place as soon as possible!"

"Matt is right..." Barth nodded and said, "Rather than wasting time here, we might as well go back and take a gamble. I believe that the other academies should have encountered something similar to ours. There is a high probability that they will gather in the city center..."

"Listen to captain..." Mia nodded and said, "I can't activate this teleportation array by myself. If I want to get out, I can only go to the center to look for the people from the other academies!"

Hearing this, everyone looked at each other and finally nodded.

Matt heaved a sigh of relief and then looked at Mu Yunji and Wang Chengbo. "Are you two coming?"

Wang Chengbo smiled and was about to speak when Mu Yunji suddenly stopped him and looked coldly at the people from the bronze academy.

Her cold aura made everyone's heart tighten!

The captain suppressed the displeasure in his heart and said patiently, "You have seen the situation now. There was an accident in this trial. It will be safer for everyone to stick together..."

If he hadn't seen that woman's amazing skills, he wouldn't have bothered to waste his breath

Mu Yunji didn't reply. Instead, she looked at the group of people from the bronze academy before speaking coldly.

This sentence caused the hearts of everyone from the Bronze Academy to turn cold!

"You.... have an extra person!!"

Chapter 1745: Unknown Stranger

The lighting system outside the underground city was completely turned on. It looked like an ordinary planet in the daytime. The light was bright, and the heating system was fully covered, making the place as bright as the day.

However, at this moment, Yun Mu's words made everyone feel cold, as if they were in a cold and dark ice cellar!

"What do you mean by that?" Mia's face was cold as she said, "It's fine if you're not willing to join us, but why are you being so mysterious?"

Matt also frowned. "Classmate, what do you mean by having one more person?"

Yunji Mu narrowed her eyes and sized up the bronze academy opposite them for quite a while, making them feel uneasy!

If it wasn't for the fact that this young girl's skill in catching arrows with her bare hands was a little frightening, they would have long turned hostile...

"Your Bronze Academy had a total of eleven people... "Yunji mu sized them up for a while, as if she didn't see anything, she slowly said, "Other than Feng Doudou and that Reina, there should be nine more of you. Where did the extra person come from?"

As soon as she said this, everyone from the Bronze Academy felt goosebumps all over their bodies. They suddenly looked at their companions around them!

Even Matt and Captain Barth turned their heads back in shock!

Everyone was shocked to realize that there were really ten people in the team! !

All of a sudden, everyone felt goosebumps all over their bodies. All they wanted was to immediately put some distance between themselves and the people around them!

This was because they knew that other than what Yunji MU had said, they had also abandoned Paris along the way. Logically speaking, there should only be eight people in the team

But now, why were there two more? Who was the extra two? Why hadn't they noticed it all along?

Yunji mu slowly placed her hand on the hilt of her sword by her waist and shielded Wang Chengbo behind her. It seemed that the person on the other side had indeed appeared out of nowhere, and not someone from another academy.

The main teams at the west gate were the bronze academy and the Atlan Elf

Academy, but there wasn't a single member of the Atlan Academy in the team...

But what was even stranger was that Yun Ji couldn't find any strangers

There was one more, but everyone seemed to be familiar with it. This strange scene made her heart turn cold!

"All of you... Don't move..."

Seeing that everyone was about to disperse, Yun Ji slowly gripped the hilt of her sword. An extremely sharp aura soared into the sky, instantly causing the panicked students to freeze on the spot and look at the other party in shock!

From the moment the other party caught the arrow with her bare hands, they no longer dared to look down on this woman. They knew in their hearts that this girl was definitely an expert at the level of a high school captain! However, they had never expected that the other party would have such an aura!

The sword had yet to be unsheathed, but that shocking sword aura pressed down on everyone, including Baars, to the point where they couldn't even breathe. In an instant, they felt as if their vitals were being held by the sharpest sword.., every cell in their bodies was on high alert, making them not dare to move a single inch!

Baars looked at the other party in shock. Even someone as arrogant as him could not muster the slightest bit of fighting spirit in the face of this terrifying aura. He subconsciously stood obediently on the spot, not daring to move a single inch.

This aura It was likely that even their crown prince would not dare to directly confront him in front of him! How could such a person appear in that pheasant-like Academy of Dawn Academy?

“You are the captain, right?” Yunji mu looked coldly at Barth. Yunji MU’s appearance had almost maintained the appearance of a D-ball human, and she was even shorter and thinner than an ordinary elf. Facing Barth, who was nearly three meters tall., she had to raise her head to look directly into his eyes.

But do not know why, under the pressure of momentum, the short cloud herder but give bales a feeling of condescension!

“Yes... “bales swallowed and replied almost subconsciously.

After the answer is a burst of anger, angry that the pheasant college people too presumptuous, but anger anger, but in the end did not show, the woman in front of you is too scary, and now the situation is very dangerous. Do not make an enemy of him...

“You look back... <per\_0> . “the cloud herder ji cold command way: “Look for, in the end who is the extra... <per\_0> . You slow down, don’t hurry, don’t do anything too excited, find a stranger to tell me, don’t move, otherwise... <per\_0> . I don’t promise I won’t hurt you! ”

Barth. ” ...

Since he had entered the school, when had he ever been threatened like this?

“Captain... “Matt knew that his captain must be angry, so he quickly advised him, “Do as she says. Now is not the time to be calculative...”

Barth took a deep breath and didn’t say anything. He slowly turned his head and looked at the team that he was extremely familiar with after listening to Yunji’s words...

“Senior Barth, please read out the names and occupations when you recognize them so that we can help you identify them... “Wang Chengbo said in a gentle tone. His attitude and tone were obviously much better than Yunji’s Barth nodded slightly and started to identify them one by one.

“The three main players are me, vice-captain Matt, and scout Binz. Please stand out first...”

Matt and Binz nodded slightly and slowly walked out of the crowd to stand behind Barth.

Everyone’s hearts tensed up as they looked around vigilantly...

“The five assistants are the equipment hand: Ghosn, and the equipment deputy: Aino... ”

Just as he said this, Wang Chengbo opened his mouth, “Do we need two equipment hands?”

From everyone’s reaction, almost no one could recognize the extra person. In other words, everyone’s memories had probably been tampered with. At this time, they had to try their best to find a logical contradiction...

Matt hurriedly replied, "Yes, our academy uses Divine General Warriors as the main force. The stronger point is the equipment support. The core molten heart device is a special device that can greatly activate the Divine General Warriors' Heart Flames. In that state, divine craftsman warriors can use some high-energy special weapons indefinitely. And these weapons require professional equipment hands to assemble, maintain, and temporarily activate. In our team, one equipment hand is impossible to use. There are even many times when our team has three equipment hands..." "

"I see... "Wang Chengbo nodded. "Then, please continue..." "

Balth pursed his lips. He was not used to being commanded like this, however, he held back his displeasure and continued, "Master of the mind: Feather Ink, the substitute of the mind in the team, the Arcanist: Mia Desi, the pharmacist:

Snow..." "

After a pause, he looked at the last person and said slowly, "The main substitute: Ian, the new successor of the Blackstone family, the substitute of the Divine Blacksmith warrior in the team..." "

Wang Chengbo and Yunji looked at each other, and their eyes became serious.

Each of them had a background, and each class looked so normal. Moreover, when the captain read out the name, no one had any objections.

If the two of them couldn't tell who was an unfamiliar existence, then there was only one possibility...

When this possibility came, a senior had mentioned to them that there was an existence in the universe that could cause this phenomenon

The Fairy Race! ! !

Chapter 1746: I Just Want to tell you

The status of the fairy race in the universe was extremely special. They were respected and feared at the same time. However, due to their obedience to Heaven's will back then, they supported the deity alliance at the first instance. Now, in the Federation where the deity ruled the universe.., they were still living a comfortable life.

According to senior an ya, unless they ate too much, no fairy race would deliberately make things difficult for the juniors of the Federation.

This meant that the fairy tribe was basically an elder, and their seniority was probably not lower than many great deity suzerains who were famous throughout the region!

Mu Yunji and Wang Chengbo looked at each other. Wang Chengbo thought for a moment and shook his head slightly...

Chengbo loved to understand the stories of the starry sky. When he was free, he would often go with Li Goudan to listen to the stories of the Federation's elders. He had also heard a lot about the fairy tribe.

According to senior Anya, although the fairy tribe was all reincarnated, the starting point of their reincarnation was the star level. There wouldn't be anyone on the same level as them.

And if there was a star level fairy tribe hidden in this team, it could only be a prank... .

But to come to the secret land of the bronze academy to play a prank? Did he eat too much?

"I remember now..." Cloud Herder nodded slightly. "There seems to be a blonde spirit in your team, about this tall..." Cloud Herder gestured. "Where is she?"

Matt and Barth looked at each other, and Matt finally replied, "We were attacked in an abandoned market in this underground city. The situation was quite dangerous at that time, and Paris couldn't escape with us..."

"Is he dead?" Cloud Herder asked directly.

Everyone's faces instantly turned ugly. In fact, they didn't really want to face this problem, especially when Paris' desperate cry for help came at the end... ..

"It should be..." it was still Matt who spoke. "Paris was already half-undead at that time, and the enemy was very strong. We had no choice but to retreat.

Those kind of undead with very strong attacking power shouldn't have left Paris alive...

"Undead?" Yunji raised her eyebrows. "Are you sure?"

"Yes..." Matt nodded.

"In other words..." Wang Chengbo continued with a serious tone, "The teacher who monitored the trial lost contact, and there were undead in the underground city of the trial, and there were two unknown existences in your team

Each of Chengbo's words made everyone's heart sink. Although they knew about these things, they subconsciously avoided it. If someone said it in a serious manner, it would make them more desperate.

Yun Ji Mu and Wang Cheng Bo also frowned. Things were more troublesome than they had imagined...

...

For a moment, the situation suddenly turned into a stalemate...

"Cheng Bo... What do you Ji Mu quietly transmitted her voice.

"It shouldn't be the fairy race..." . Cheng Bo replied, "Senior Anya said that the fairy race belongs to a race in the outer realm. If they die, they won't become the undead of this world. She can do it because she became a deity and was given the laws of this world. The situation is different. According to Senior Ysera, senior Anya is the only deity in the history of the fairy race!

"Moreover, the designed memories are very contradictory..." Yunji mu added,

"It's clearly possible to tamper with our memories, but it's very incomplete..."

Hearing this, Wang Chengbo nodded. According to Ysera, the ability of the fairy tribe to tamper with memories was very exaggerated. After implanting a memory, a person whom you had never seen before

appeared in front of you. The fairy tribe said that that person was your father... That person was your father...

Moreover, the fairy tribe was good at tampering with memories. They usually did a good job in the details. There was no way that they would tamper with their memories of faces while still retaining such a large number of people... ..

Under normal circumstances, from the moment they met, Yunji Mu didn't have any doubts about the number of people they had... ..

"We can only find cabbage now..." Yunji mu sighed.

Wang Chengbo nodded. According to Ysera, the fairy tribe's ability to tamper with memories was ineffective against the Wood Elf royal family. Cabbage was confirmed to be the most authentic wood elf royal family bloodline. As long as she was around... They should be able to easily find the hidden one in the team... ..

Otherwise there's no point in going on like this... ..

"Well... <per\_0> . Cheng Bo looked at Matt and said, "Let's go to the center of the city according to your plan. We Can't stay here forever no matter what. This place is obviously very dangerous. Finding people from other academies to try to open the teleportation array at the city gate is the only thing we can do now, right?"

"Yes..." Matt nodded. "Indeed, we can't stay here forever... Are you two willing to join our team?"

"Senior, what you said just now makes sense..." Wang Chengbo smiled and said, "It's safer to stick together at this time..."

"It's great that brother can figure it out!" Barth also grinned. No matter what, if the woman in front of him could join the team with her skills, it wouldn't be a bad thing... ..

"Your school's equipment master is this senior, right?" Wang Chengbo pointed at Ghosn.

"Yes..." Matt looked at the other party hesitantly and nodded.

Wang Chengbo looked at the other party with a smile. "Senior, senior Matt said before that the molten heart device can be taken out for us to see?"

Ghosn was stunned when he heard that, and then he looked at Captain Barth.

Barth frowned and looked at Wang Chengbo. "Brother, what is the meaning of

Wang Chengbo smiled slightly. "I just want to confirm something. Is it inconvenient for senior?"

"Of course it's inconvenient!!" Barth's face suddenly turned cold. "Do you think it's convenient to expose the trump card device in the team to outsiders at risk?"

"It's a bit difficult..." Wang Chengbo was also distressed.

Just as Wang Chengbo was thinking about how to convince the other party, Yunji Mu drew the long sword from her waist!

It was a blue straight sword. The color was elegant and sharp. The moment the sword came out of its body, the hearts of the people from the bronze academy tightened!

Barth's face instantly turned extremely ugly. "Woman, don't go too far. I admit that you have some strength, but do you think you can contend against all of us?"

"That's what I think..." cloud herder lightly replied. The next moment, her figure moved... .

It was extremely open and aboveboard, giving everyone plenty of time to react. However, by the time all of his teammates were angry and wanted to make a move, it was already too late...

The blade of the sword that was emitting a cold light stuck close to the core of Baars' chest. It carried a high temperature, and bright red blood slowly dripped from Baars' chest. Baars froze on the spot!

The moment his opponent moved, he knew that his opponent was going to make a move. Moreover, when his opponent drew his sword, he had already tensed up his muscles, ready to counterattack at any time... ..

But it was completely useless!

His muscles couldn't react in time. When his opponent's sword was already blocking his vital points, he couldn't react at all! !

Once they exchanged blows, the gap... . ! It was actually so hopeless! All the teammates behind Barth were frightened by this terrifying move... .. "Classmate! ! "Matt's face was ashen. "What do you mean?"

Barth's expression was extremely ugly, but he didn't dare to move. His opponent's sword was aimed at his vital point, and the cold air emitted from the tip of the sword penetrated his heart and lungs. He knew very well that his opponent would definitely be able to break through his sternum's defense.., and instantly crush his heart's core!

"It's a very simple meaning... .."Yunji said coldly, "I just want to tell you that at this distance, your so-called core device won't be able to be used by me, so you don't have to worry about what we'll Do to that device. Just take it out..."

Chapter 1747: The Human Heart...

Wang Chengbo felt helpless. When did Yun ji become so simple and violent? Or had she always been like this?

Looking at the scene that was so cold that he almost choked, he didn't know what to say for a moment... ..

"Take out the device..."

It was Matt who spoke. He knew that the captain didn't have the face to say this, but he also knew that the captain didn't have the courage to be tough.

He knew his captain very well. He was an extremely arrogant person, but he was not a person with a backbone... ..

Moreover, there was nothing wrong with the other party's words. He did not even see clearly what was going on, and the captain's vitals were locked. With such skill, at this distance, the device indeed could not be activated, because before it was activated., this woman had probably killed all the main players with a single sword!

After getting Matt's confirmation, Ghosn suddenly came to his senses from his stunned expression. He hurriedly took out the device from his space bag carefully.

In order to prevent the terrifying woman from getting excited, he took out the device with extreme caution... ..

Wang Chengbo looked at the so-called molten heart device. It was a magic cube made of a special metal. The runes carved on the metal were delicate and complicated. The power of the energy core was very powerful. Under the control of the surrounding runes... It was an extremely balanced combination with the device. Obviously, it was a high-level energy device that could be activated at any time. Moreover, it was in an activated state... ..

Wang Chengbo nodded at Yunji Mu. This equipment hand should not be fake. There was only one equipment hand in the team, and the device that was brought out was very authentic. It was not a professional equipment hand... It would be difficult to keep such a complicated device in the active state without collapsing...

After receiving the answer, Yunji took the sword from Barth's chest, pointed at Ghosn, and then pointed at Mia, the arcanist. "You... And You, come with us!

Everyone. ...

Barth's face turned even uglier. "What do you mean?"

"Didn't you say it clearly?" Yun Mu Ji frowned. "We only need those two people, and the rest... We don't need them!"

Her words instantly made everyone furious as they stared at Yun Mu Ji!

"Woman... Don't go too far! ! "Barth's expression was so ugly that it was twisted!

"Go Too Far... So What?"Yun Mu Ji replied coldly.

Her tone was very indifferent and full of provocation, but everyone present, including Barth, had to endure it in the face of such provocation... .. faced with such overwhelming skills, no one, including Barth, was able to stand up straight.

In the end, whether it was their usual arrogance toward their teammates or outsiders, it all stemmed from their identity and strength!

However, in this situation, their status was not worth anything, and their strength was not enough... .

"You two... "Yun Mu Ji did not look at the ashen-faced bales. She stared at Mia and Ghosn and said, "Stand on our side..."

They were so close that they did not seem to be on guard against Bales. It could be said that they had underestimated him to the extreme.

However, only Balz himself knew that the other party's killing intent had not dissipated. It seemed loose, but as long as he dared to make a move, the other party would not hesitate to kill him!

He really wanted to use his identity to threaten the other party. After all, after leaving this place, it was still the territory of the Bronze Academy.

However, he did not dare to do so. The other party's killing intent was too pure. It was so pure that he felt that it would be laughable to use any power in the secular world to restrict it... ..

Mia and Ghosn looked at each other in a daze. Their gazes were extremely complicated...

To be honest, compared to the angry crowd, they didn't hate the other party's actions. On the contrary... .. They were secretly delighted...

Because from the pros and cons point of view, leaving the team of the Bronze Academy and joining the two of them seemed to be an easier way to survive.

Firstly, that woman had the ability to suppress all of their main players. Secondly, those two had simple structures. By joining them, they could maximize their chances of avoiding those strange things that sneaked into the team... ..

Hanging out with them was indeed more promising than hanging out with the team leader...

Although it sounded a little unpromising, under the current situation, what was the point of being unpromising?

After hesitating for a few seconds, the two of them walked over silently. All of their teammates, including Barth, immediately glared at them! !

Facing their teammates' cannibalistic gazes, the two of them looked straight ahead and walked over... ..

What a joke. If their gazes could stop something, they wouldn't be threatened to such an extent.

Moreover, the two of them also believed that if they had chosen these angry guys, they would probably run faster than them... ..

"Have you two thought it through?" Barth gritted his teeth and asked coldly.

Faced with their captain's direct threat, the two of them curled their lips and did not turn their heads back... ..

They were very clear about their captain's temperament, but it was precisely because they were clear that they would not hesitate to leave. This was because they were very clear that a captain of this level was far from being reliable compared to this decisive woman in front of them... ..

As for getting revenge after leaving?

Ha, we are all descendants of top aristocratic families. Can you eat me? Even if you can eat me outside, you have to leave first, right?

“Can you bring me along?”

As everyone was cursing angrily, a familiar voice was heard.

“Matt, you! P’

Barth’s face could not hold it in any longer. His expression was one of disbelief and incomparable anger!

Yunji Mu, who was about to leave, slowly turned her head. “Why did we bring you along?”

Matt smiled. “You should still remember that I was the one who went to the outer station to welcome you. At that time, there was also High Priest Senior Engel. It was impossible for me to sneak in at the last minute...”

Yunji Mu and Wang Chengbo looked at each other. The other party was right. If this memory was fake, then they shouldn’t be able to resist at all.

“The key is what value do you have? “Wang Chengbo smiled. ” Senior Matt?”

“I’m more familiar with the structure of this city... ‘h Matt smiled and said, “I went to the hemlock forest three times to train. Before this kind of city officially exploded with fragments of divine fire, I came once and went to the center of the city. I’m more detailed than on the map.

“Then you’re very welcome to join us, senior... “Wang Chengbo said with a smile.

“Matt... are you really going to leave? “Barth looked at Matt coldly.

Matt turned around and looked at the people of the Bronze Academy, he smiled and said, “I think Yunji Mu’s approach is a bit rude, but her idea is right. The journey to the center of the city is very likely to be dangerous. Under the uncertainty of the team, it’s not suitable to go with too many people. But don’t worry, when we find enough arcanists, we’ll come back here and open the city gate. We’ll take you out with us...”.

Pausing for a moment, he looked at Bales. “Captain... There are two unknown beings in the team. Please protect your teammates until we return...”

Bales. ....

Chapter 1748: Who Is This?

“Captain... we... What should we do now?”

After Yunji Mu and the others left, the entire team stood rooted to the ground for a long time before someone cautiously approached Barth and asked.

Bang! !

As soon as he finished speaking, the rookie was sent flying by Barth’s slap. The immense force caused the rookie to slam heavily into a huge metal pillar at the side, producing a loud bang!

The entire team instantly looked at Barth nervously...

Barth closed his eyes and took a deep breath. After a few seconds, he opened his eyes and looked at the newbie who was sent flying. "Snow, quickly inject him with recovery medicine..."

The person called Snow was stunned for a few seconds before he came back to his senses and hurriedly ran towards the newbie.

Barth looked at the team, he smiled apologetically. "Sorry, I was too nervous. But in this situation, it's better for everyone not to suddenly get too close to me. It's easy to cause accidents. If there's anything, just say it from a distance or use the telepathic link channel to say it..."

Everyone was silent. The Captain's excuse was simply impossible to see. With his skills, how could he be so frightened by the newcomer's sudden approach that he reflexively reacted?

The pharmacist, Snow, approached the newbie and adjusted the potion. He silently glanced at the twitching newbie. At this moment, the newbie's face had directly caved in from the gravity strike. One of the eyeballs on the left side of his face was hanging out. It looked extremely tragic... ..

This made him suddenly somewhat envious of his teammates who had been called away. In such a dangerous situation, it was really not a reassuring thing to be by the side of such a temperamental captain... ..

"I thought about it... "Barth adjusted his emotions, his voice became gentle. "We still can't just sit around and wait for death. We should also go to the center of the city. After that, it will definitely be a large group gathering, and there is only one route that we choose to leave. It might not necessarily be to return to the west city gate. We can't take this risk..."

These words immediately made everyone nod. Indeed, when the vice captain said that he would return before he left, the smart ones knew that it was not reliable. If it was to return to the west city gate, then they would believe that he would bring his group along and leave. However, if they decided to go to the other city gates, there was a high probability that they would not spend too much time waiting for them to gather. They would first rush to the center of the city. No matter which city gate the large group headed to, they would have a better chance of catching up...

Just as everyone gathered under the command of Barth and was about to leave,

two voices were transmitted to each other from a hidden corner of the group...

"It's an idiot captain, sister..."

"Yeah, I didn't expect that the trump card of a famous school would be this kind of trash. What a waste of time, brother..."

"But that woman just now was very powerful, sister..."

"She was very powerful. In terms of speed, I'm afraid only Captain Foyego could have that kind of skill..."

"

"We have to tell them..."

“What about these people?”

“Kill it? It Won't do any good anyway...”

“Then kill him...”

“Captain Matt...”

After Cloud Herder's team left for about half a star, Mia, the Arcanist, suddenly changed his expression and said cautiously, “The soul connection seems to be broken...”

“Well...” Matt nodded slightly, but didn't say anything. Even Gunn, the equipment master, was busy with his journey, and didn't want to continue this topic.

Matt had said that after finding enough arcanists, he would contact the team members and go out together.

In such a big dungeon, if they wanted to contact each other immediately, they had to rely on the soul connection. Everyone in the team, including the captain, must know this, no matter if they were angry that their team had left with someone else, they would probably not lose their connection due to anger.

In their impression, the team leader was definitely not a person with such backbone.

Then there was only one possibility...

The team... had an accident!

What kind of accident could cause the spiritual link to be broken?

Either... The Spiritual Master who was in charge of the spiritual link had an accident, or the entire team had an accident. In order to ensure their own safety, the spiritual master in the team had broken the link to avoid being tracked. .

But no matter what the situation was, Matt and the others had no intention of turning back...

On the other side, Wang Chengbo and Yunji mu naturally didn't know that Matt and the others had cut off the spiritual connection, but even if they knew, they wouldn't care too much. They weren't related, so naturally, they wouldn't take the risk to save someone, that strange thing that could change memories, they wouldn't want to touch it if they could avoid it.

“Chengbo, where do you think Feng Doudou went?” Yunji asked her teammates.

Wang Chengbo shook his head. “I don't know... In theory, they should have gathered with the main team before us. After all, they didn't stay behind to wait for us. They probably received a distress call from the team...”

Yunji turned to look at Matt and the others. “Can you still contact that... Reina?”,

Matt and the others were stunned, then, they shook their heads. “We can't contact her. The spiritual link we used before was the spiritual channel of the team's first assistant, Paris. After her accident, the spiritual link broke. When we re-opened the new channel, Reina wasn't at the scene, so we can't contact her now...”. “.

Actually, it wasn't impossible to contact her. At least, he could confirm that Reina was most likely going to the place where Paris died. However, he didn't want to say it at all. He didn't want to face that strange baby monster a second time...

"In that case..." cloud-herder said no more words, Wang Chengbo saw the situation quickly comforted: "Don't worry, she should be fine..."

"I think it should also be..." Yunji mu smiled. "After all... is our first on the Heaven List..."

"Sir... is the portal working?"

After Cloud Herder and the others left for about two weeks, Feng Doudou and Reina arrived at the west gate. Looking at Reina, who had been fiddling with the portal for half a day, Feng Doudou felt that something was wrong.

"It should work..." Rayna nodded. "I'm not very good at space runes, but I know some basic principles. The space teleportation array is activated and can be activated at any time, but there is no one outside to support it. It requires a professional arcanist to activate it

"A professional arcanist?" Doudou suddenly had a bad feeling. "Does that mean that a professional arcanist can get out?"

"It should be..." Reina nodded.

"Then, senior, do you think... The captain will lead the team and run away?" Reina suddenly fell silent. It was not something that Baars couldn't do...

"Someone..." just as Reina was in a depressed mood, Feng Doudou suddenly looked at a place in the distance... ..

Reina was stunned and quickly looked over. With her excellent eyesight, she instantly saw who it was. Her face immediately lit up with joy. "Yu MO?"

"Senior Reina! "On the other side, Yu MO, who was responsible for the second spiritual link, immediately revealed an ecstatic expression and quickly walked over.

Reina also wanted to welcome him, but she was stopped by Feng Doudou... .

"Doudou?" Reina looked at Feng Doudou in confusion.

Feng Doudou looked at her in confusion. "Senior, who... is this person?"

Reina was stunned. She looked at Feng Doudou in amusement. "He's a substitute spiritual master in our team. We've been in contact for a few days, and you still can't remember him? I think you can remember the robots that gave you money so clearly..."

Feng Doudou's expression became even more strange when he heard this. He looked straight at Reina. "Senior, are you sure you remember him correctly? Isn't senior Paris the only psionic master in our team? Where did the substitute come from?"

Reina: " .... "

Chapter 1749: see through!

“Where did we get the Master of the Mind Substitute?” Feng Doudou looked at him in a daze.

Reina also looked at Feng Doudou in confusion. “Are you confused? Of course, there are four substitutes in the team...” Reina looked at him in amusement.

Feng Doudou’s expression became extremely strange when he heard this. He narrowed his eyes and asked, “Captain, how many people are in our team?”

“Eleven people...” Reina replied subconsciously, but she was stunned when she heard this. .

That’s right... .. Eleven people. Other than the four main players and five support players, how could there be four substitutes?

“No... no... that’s not right...” Reina suddenly became nervous. “There are clearly four...” as she spoke, she counted her fingers like a child and said,

“Main player substitutes: Ian, equipment substitutes...”

“Who’s Ian?” Feng Doudou furrowed his brows and interrupted him again.

looked at him. “Ian, the direct descendant of the Blackstone family. Did you forget about the one who replaced the trump card of our

The corner of Feng Doudou’s mouth twitched. If it weren’t for the seriousness of the situation, she might have thought that the other party was deliberately acting in a melodrama... ..

“Senior... There are only two substitutes!” Feng Doudou looked at the other party and enunciated each word clearly. “Just me and Aino. When did we get another ace substitute?”

At this time, Feng Doudou was baffled. It was her first time participating in such a big test event like the Academy. Of course, she would familiarize herself with the information regarding her teammates. She remembered clearly that there were only eleven people in total..., other than the four main players and five assistants, there were only two substitute players!

One was the equipment substitute player: Aino. He had come into contact with him before. He was a very simple and honest black iron dwarf who liked to laugh foolishly. He was also a very patient person. In the team, Feng Doudou was one of the few people who had a good impression of him.

The other substitute player was himself...

He was still very clear about the reason why he had been chosen. His shapeshifting characteristic allowed him to diversify his weapons. In addition, his performance in the academy was average, in terms of weapon specialization, whether it was light weapons: short swords, daggers, throwing knives, or heavy weapons, long spears, greatswords, and giant shields, he had tested out a pretty good proficiency. Even his bow and arrow and sniper rifle had an A + score, which was why he had been recommended by his mentor as the fourth seed reserve player in the team...

Because this position was set up as a multi-functional main player. In the past, Reina was barely able to take up the position, but after that, vice-captain Matt was about to graduate. Reina's performance in recent years was highly regarded by the higher-ups, and they were prepared to promote her to the position of vice-captain first, then, she would gradually take over Captain Barth's position.

As for what senior Reina said about the ace substitute, it was simply nonsense. This year was the year of the crown prince, and in the next hundred years, wouldn't the ace representing the Academy be the Crown Prince?

In the past, all the Aces would retire and become substitutes. In fact, they might not even be able to become substitutes. After all, there was more than one member of the royal family who joined the team. Barth and the others had directly planned to retire from the team and focus on their cultivation after this session, how could they possibly specially find an ace substitute?

Reina was also a smart person. She quickly thought of this and immediately looked at Yu MO in the distance...

Yu MO, who had an excited expression just a moment ago, was now standing on the spot, expressionless like a statue. Seeing this scene, Reina felt goosebumps all over her body! !

That's right, there was no substitute for the Master of the mind in the team, so who was this person in front of her?

"How interesting... "Reina, who had an excited expression just a moment ago as though she had met her savior, slowly raised her head. Her gaze became cold and unfamiliar, completely different from the obedient and lively girl in Reina's memories... ..

But now that she thought about it, this memory was very likely fake, and it made her hair stand on end. Why was there a false memory about this girl in her mind?

The girl completely ignored Reina and looked at the newcomer Feng Doudou.

"This is the first time Pve Met... "Yu MO looked at the other party with a smile.

"What's your name if you can avoid being influenced by us?"

After saying this, Reina was completely sure that her memory was fake. The other party didn't even know Feng Doudou's name. It was obvious that they weren't real teammates!

Feng Doudou was baffled. The other party's words sounded as if he had done something incredible. He had never met anyone who wasn't affected. How arrogant... ..

However, looking at Reina's reaction, it seemed that the other party had done something incredible.

"Sister, do you want to capture her and study her?"

A faint black shadow appeared behind Yu Mo. It was tall and sturdy, and it had the characteristics of a Blackstone family. However, the outline of its face and body did not match. It was too gentle, and it did not have the firm lines of a Blackstone Dwarf.

took a deep breath and thought to herself, 'is it really fake??

“There is indeed a need for research... “yu mo smiled and said, “Try to capture him alive...”

“What about the other one? “Ian glanced at Reina coldly, as if he was looking at an animal waiting to be slaughtered, causing Reina to feel uncomfortable.

Other than feeling that the other party was too arrogant, that cold gaze that was like a butcher’s also made her physically uncomfortable... ..

“Kill them... “yu mo said indifferently, “Just like the others in the bronze academy, they aren’t of much value...”

Reina’s pupils constricted. From the tone of his words, it seemed like they had even made a move against the bronze academy before. In fact, it was possible that some of the members in the team had already fallen into their hands! However, thinking about it, it was very normal. Such a bizarre existence could actually act as an acquaintance of yours. If they were to suddenly make a move, it would indeed be impossible to guard against them!

Just now, it was the same for the puppet baby, and now, it was the same for these two strange fellows. Where did these strange fellows come from?

Feng Doudou directly took a step forward and slowly pulled out his student sword. “Senior, Retreat...”

“Okay... “with Feng Doudou’s previous performance, Reina obediently retreated to the back this time. “I’ll activate my totem skill and help you at any time...”

“Okay... “Feng Doudou nodded.

picked up the huge black sword in his hand and looked at him with a half-smile. “Interesting, a number four player who had a high ranking in the fellowship actually hid behind a newcomer?”

Reina’s face turned red, but she didn’t reply. She directly circulated her mental power, and a hoarse roar was heard. Then, a three-meter-tall totem appeared in front of Reina, and on the totem., a wind snake with wings let out an ear-piercing roar!

Obviously, it was the wind blessing totem that Reina was good at!

“Ha... “Ian laughed coldly and directly picked up the huge sword and pounced towards the two of them.

The burly man’s movements were completely different from the rough warrior’s style on the surface. His movements were tricky and treacherous. It was obvious that he was a top assassin!

In an instant, the huge sword in his hand appeared in front of Rayna like a dagger in the shadows. Rayna’s heart skipped a beat!

Such skill! Even the professional wind scout binsi in the team could not compare to him. Not to mention that she was unable to move with her totem technique, even if she were to be on full alert, it would be difficult for her to dodge this attack, after all, this performance was too different from her previous appearance!

But even though she was shocked, she was not afraid at all.. Beside her stood the true trump card of the Bronze Academy!

## Chapter 1750: You Call this an illusion?

Ding...

The crisp sound of metal colliding rang out. It was smaller than he had imagined, but the strength was more stable than he had imagined!

Ian's pupils constricted, and he looked at the person who had received his sword with some seriousness... ..

It was obvious that the delicate elf had emerald-colored pupils that were completely different from the green of undead like them. There was a light that was brimming with vitality, but this light wasn't looking at him. Instead, it was looking at Yu MO across from him...

And the position where the two swords met was even stranger.

Compared to Ian's huge black sword, Feng Dou Dou's slender short sword was like a toothpick, but it firmly held the other party. The strangest thing was that the position where the two swords met seemed to have sunk into the body of the huge sword, the two swords were actually stuck in the middle of the body of the huge sword, giving people an extremely strange feeling!

"Illusion?"

Reina was taken aback and quickly reminded Feng Doudou, "Doudou, be careful!"

She didn't expect that this burly fellow not only had the skills of an assassin, but also knew illusions?

In the next second, the image of the giant sword disappeared. It was only then that she saw clearly that the one who was really stabbing over was a black frost crystal short sword!

In the distance, Yu MO's pupils constricted as she looked at the other party. It

seemed that this newcomer from the bronze academy was not as simple as she had imagined.

Regardless of whether it was his judgment or his skills, he was far from someone that Barth could compare to!

She could clearly see that from the start till the end, the other party's gaze had never left her. Clearly, he felt that she was more of a threat and was on guard against any actions that he might take. His judgment was very good, and in terms of strength, she was indeed more of a threat than her younger brother!

However, her younger brother's strength was not weak. Although he could not be compared to the team's Ace Assassin, he was still a seeded player who had fought his way through hundreds of millions of undead... ..

To be able to receive her younger brother's attack without even looking at him, this confidence was as good as her skill!

At this moment, Ian's gaze was even more complicated. There was a hint of shock, a hint of solemnness, and a hint of anger!

The shock and seriousness was due to the opponent's amazing skill. Not only did he break the illusion, but his sword position was also very good, almost completely neutralizing his own strength, the Frost Crystal Sword, which allowed him to easily cut most of the materials, was actually unable to display any weapon advantage. His technique and timing were all top-notch!

Anger was the opponent's attitude. From the beginning to the end, she did not even look at him. But the key point was that even so, the opponent was still able to block her so easily. This skill was indeed not simple!

However, his attitude was indeed a little arrogant!

HMPH! Ian snorted coldly, and the energy in his body instantly exploded. The Frost Crystal Short Sword let out a rumbling sound, and in the next instant, the powerful shock force caused the extremely high quality frost crystal sword to instantly unleash its weapon characteristics! In an instant, Feng Doudou's long sword was shattered into pieces!

"Doudou! !" Not far away, Reina's expression was shocked. She quickly wanted to help, but Ian's sword was too fast. Before she could react, it had already turned into a black light and swept towards Feng Doudou!

"Oh? "Feng Doudou was slightly stunned, but he didn't panic at all. It wasn't like she hadn't encountered a good weapon before. After all, she had sparred with those disciples of the family in the bronze academy, she had used the student sword to deal with other people's refined high-quality weapons, but because she was poor, she hadn't been able to forge her own growth-type weapon.

He had a rather good sword, but where did he get it from? Although others didn't come looking for her to return it, Feng Doudou, who wanted to steal it, decided not to take it out to attract attention. Otherwise, if that big shot remembered it, it would be bad if he chased it back... .

However, using a broken sword had the advantage of using a broken sword. It was how to deal with a high-quality weapon when the weapon was at a disadvantage. Feng Doudou was very experienced!

After taking a few steps back and dodging the opponent's attack, Feng Doudou turned the hand holding the hilt slightly, and the broken longsword instantly turned into a short dagger!

Her talent allowed her to change the shape of the weapon, and most of the materials of the broken longsword were contaminated. The remaining half of the short sword could only be changed into a short dagger... ..

To be honest, among all the weapons, she didn't like to use a dagger, but it was still okay. After all, this guy in front of her... .. was average.

"Oh? Weapon Spirit?" seeing the other party turn his sword into a dagger to block his attack, Ian narrowed his eyes. "Interesting! "

Weapon Spirits were as rare as phoenixes. The other party seemed to have an extremely pure bloodline. With such amazing skills, he was indeed a good opponent for the trial!

Reina heaved a huge sigh of relief. Fortunately, Dou Dou was a weapon spirit and her reaction speed was fast. Otherwise, it would be troublesome if she was injured by the Frost Crystal Sword!

As a high-grade priestess, although she didn't have a major in materials, she was still clear about the frost crystal, the famous material for the death realm. She knew how troublesome it was to be injured by this thing!

Buzz! !

A bright light flashed in Ian's eyes. The hand holding the sword moved slightly, and he used the same trick again. The brilliant vibration force was instantly activated!

However, this time it wasn't as smooth as the last time. After knowing the strength of the opponent's weapon, Feng Doudou directly activated the vibration force before him. He used the dagger to quickly tap the blade four times like lightning. Under Feng Doudou's manipulation, the delicate vibration force pierced into the opponent's sword like a pinhole. At the same time, it cleverly avoided the rebound of the sword itself, causing the dagger to collapse...

Ian was stunned. Before he could react to the exaggerated speed of the sword, he felt four small forces that were as thin as the tip of a needle rapidly disperse the vibration force that he was about to activate!

The energy released by the opponent was not large, but it was extremely delicate. It was very tricky to pierce into the force point that he was about to activate. In an instant, the vibration force that had been broken directly came from the body of the sword, as if it was a counterattack of Qi and blood.., it made his heart sink, and his hand slipped out of his hand due to the powerful rebound force!

Feng Doudou's eyes lit up, and he directly grabbed the frost crystal sword that the opponent had slipped out of his hand.

This thing was a good thing. He was just worrying about a good weapon that could be used in front of others... ..

This scene made Ian's pupils shrink again. A living creature dared to use a weapon of the undead? Was this guy crazy?

But in the next instant, after the opponent received the weapon, the short sword actually transformed into the form of the opponent's slender long sword. Ian's eyes almost popped out!

This guy... .. Could change the form of the death realm weapon? How was that possible?

Without having time to think carefully, Ian directly retreated. Not mentioning the opponent's strange ability, just from two exchanges, he already understood that this guy's skill was far above his! He was probably one or two of the main force in their team, so they had to retreat!

In the next moment, Ian activated his illusion, turning into dozens of black shadows and retreating backward!

However, Feng Dou didn't even look. He directly picked up the newly snatched Frost Crystal Sword and slashed at one of the shadows!

Ian, who was retreating, immediately spat out a mouthful of blood. This guy, could it be that the illusion was useless against her?

If Bean Bean knew what Ian was thinking at this time, she would have curled her lips and mocked, "You call this an illusion?"?
