Chapter 1761: Moon God Device!

“What Nightmare?”

Tura, who was beside her, immediately noticed Helana’s words and quickly asked.

The scene in front of her was too strange. It would be best if someone knew something... ..

Helana was stunned, as if she had just woken up. Her face became a little confused, and then she became conflicted.

“The Nightmare You’re talking about... is it one of the night Specter’s evil spirit totems?” Arthas asked.

Helan frowned. She was obviously not very satisfied with the star Elf’s explanation of the evil spirit, but she still nodded.

Everyone suddenly thought of something. Wasn’t the newly appointed Trump card of the Night Specter team the legendary nightmare body?

Thinking of this, everyone looked at the other party with a strange expression.

It was no wonder that the other party was so conflicted. The suspect was her sister. Forget it, the one who died was still her sister’s teammate. This was a little strange... ..

“Captain... are you sure it’s a nightmare?” Tura immediately frowned. “A nightmare that can subdue the night sky... It’s at least a physical entity, right?” These words instantly made the surrounding atmosphere turn cold again...

Anyone with a little common sense would know that the physical entity of an evil spirit was at least a dragon-level! !

“Me? “While everyone was heavy-hearted, Goudan kept looking outside. Suddenly, he raised his head to look at Tura.

Tura was stunned by his gaze. This guy... ” Why is he looking at me with such a huge machete?

Before anyone could react, Bai Cai moved. No one would have thought that this flower spirit, who usually only knew how to roar and eat, could move so quickly!

It was so fast that even the trump card of Tura’s team could not react in time. In the blink of an eye, it was right in front of them!

What was going on?

Tura’s pupils constricted, and he subconsciously tightened his grip on his weapon. Although he did not sense any malice, wasn’t this speed a little too exaggerated?

Was this a flower spirit?

In his impression, flower spirits were all delicate and delicate. In theory, their paper attributes were the weakest among the elven variants (of course, they referred to the regular species, and some unorthodox species naturally did not count...)

The moment Tura gripped his weapon tightly, little cabbage had already passed by him. Tura's expression suddenly changed, and he suddenly reacted and looked back. Little Cabbage, who had been one step ahead, had already rushed ten meters away, he raised the large knife in his hand and slashed towards the darkness!

Dang! !

A spark lit up, and everyone immediately heard the sound of metal colliding. Everyone's eyes instantly widened!

It was obvious that Bai Cai was fighting with something, and the intense sparks proved this, but... .. They still couldn't see... .. They couldn't see Bai Cai fighting with something! What was going on?

Bang!

Everyone didn't understand the situation, and Bai Cai didn't have time to explain. The broadsword in his hand instantly split into two, turning into two broadswords. In the next moment, the two broadswords turned into countless blade shadows, fighting with unknown things!

Sparks and Saber Shadows filled the sky, causing everyone's scalps to go numb!

Especially the melee fighters in the team!

This saber technique...

In the team, including the strongest, Tura, who was looking at the saber shadows that filled the sky, sucked in a breath of cold air. This was because even as an ace, he basically could not see the trajectory of the saber in Bai Cai's hand.

If he were to ask himself, in the face of this kind of saber technique, he probably did not even have the chance to draw his sword!

But the most important thing was, why would this kind of saber technique appear on a flower spirit?

And the next scene, an even more exaggerated thing happened. The space where the cabbage dual sabers were brandished suddenly split apart along with the shadow of the Sabers. It gave people the feeling that the sabers didn't seem to be slashing through the air, but on glass!

Anyone with a little knowledge would understand what was going on. This was space being split apart!

"This guy!" Helana looked at the cabbage excitedly. "This is really a pleasant surprise..."

"My God... What Is This?" Emma reacted and said in a daze, "The space in the ancient lands has been torn apart?"

Everyone looked at that side in a daze, as if they were seeing an illusion!

The space in the ancient lands was so tough that even a forbidden spell-level spatial spell was unlikely to tear space apart. A physical attack? At least a tianyuan-level powerhouse, right?

Could This girl be an expert senior from the Academy in disguise? That's not right either. Even if she was at that level, she would not let the people from the night Nether Academy die outside...

"Telepathic spell?"

Arthas' pupils contracted abruptly as he stared fixedly at Bai Cai's figure!

He finally understood why the elders in the family wanted him to keep an eye on this guy... ..

A native who knew telepathy? It was an ancient inheritance. What kind of concept did a native have to have an ancient inheritance? How Pure was his bloodline?

No wonder that elder of the moon god family wanted to snatch this little guy over. If it were him, he would also be willing. If he was groomed, he would be a top-notch surgical saint. The rewards would not be ordinary... ..

But what about this skill? No matter how pure the bloodline of a flower spirit was, it should not have such a skill, right? Judging from this situation, even a level-15 knight might not have such a skill!

Everyone looked at the saber lights and Sword Shadows in a daze. They did not know what to do for a moment. They knew that they could not help with such a

battle in a hurry.

Tura and the other main players felt that they would be torn into pieces by the sabers if they went up!

"Nightingale... "Arthas looked at the equipment players in the team. "Has the equipment been activated?"

"Yes! "The Elf named Nightingale nodded quickly. She had activated the device immediately after the death incident, so it was unexpected... .. "Activate the moon god Device! "Arthas said without hesitation.

Moon god device?

Everyone was stunned at first, but then they realized that under such circumstances, the moon god device was indeed the most suitable device!

As soon as he finished speaking, a silver dawn descended from the sky onto the equipment-wielding nightingale. Nightingale's hair instantly turned snow-white!

"Captain, who's the Mark? "Nightingale asked.

"Me, Tura, and Percy! "Arles hurriedly said.

Nightingale heard him and held out her hand. Three gentle rays of dawn moonlight enveloped the three of them. In an instant, their hair turned snow-white, and their blood turned extremely pale... ..

The next second, Nightingale pointed at cabbage. A beautiful ray of dawn light shone down and instantly enveloped cabbage. Cabbage's originally jet-black hair also turned snow-white like the other three.

But the difference was that Bai Cai's Qi and blood did not weaken at all. On the contrary, under the moonlight, Bai Cai's Qi and blood soared, and her spiritual power was growing rapidly!

If a senior of a higher level was here, he would definitely be able to see that Bai Cai's life level was also rising rapidly under the moonlight. She was originally only level 10, but she quickly broke through the threshold of level 12 and level 13! And she was still growing rapidly!

What was going on?

Bai Cai was stunned. It was the first time she felt so full of physical strength and mental strength. She suddenly felt that the whole world was much brighter!

Damn, was this the legendary superimposed BUFF?

"Nightingale!" Arthas said weakly, "How's Bai Cai's energy absorption?" "This... "nightingale looked like she had seen a ghost. "It's all absorbed..." Arthas was stunned and quickly asked, "How's the increase? has the level increased?"

Nightingale swallowed her saliva and looked at the number on the device.. She said in disbelief, "Level 15! "

Chapter 1762: Nightmare (middle)

Level 15! !

This result made even the usually composed arthas widen his eyes... ..

The moon god device was one of the more unpopular devices among the various representative devices of the Star Elves!

It was a device developed using the moon god family's top-notch alchemy secret technique. It could maximize the use of the principle of equivalent exchange and strengthen the marked person's energy to the person in charge of the formation, achieving the effect of concentrating power.

However, it was actually very little practical because under normal circumstances, in a team, unless it was the case that the final trump card had to be used to determine the victor in a one V one, otherwise, it would not be used at all, after all, everyone in the team had their own role to play. Under unnecessary circumstances, they would not simply turn it into an energy supply.

But now, the others obviously could not play a role. After all, they could not even see the enemy, so what could they do?

Under such circumstances, focusing the energy of the excellent on the only person who could see the enemy's cabbage was the best choice now. It was just that they didn't expect the effect to be so good!

"Level 15... "Tura also swallowed and looked at the data with some difficulty. .

Tura was a trump card student who was about to graduate, and he was also selected as one of Tyrande's assistants. He received a large amount of resources, and his life level successfully rose to level 14 last year, which was almost the highest among all the fellowship students.

Since Young, Arthas had been a direct descendant of the Whisper family, and he was a candidate for the next elder. Since young, he had endless resources. Although he had not been selected as an assistant, he was already infinitely close to level-14... In addition, there was also the top third main force of level-13, Percy. In terms of energy volume, he could barely reach level-15...

In theory, the moon god device could focus everyone's energy on one person to achieve a perfect superposition. In theory, it seemed that it could indeed allow a person to rise to that level... However, that was only an ideal state. In fact, even though this energy had already been purified by the device, and the perfect superposition could indeed be achieved under the alchemy law, the human body's endurance was limited.

To suddenly receive such a large amount of energy, especially an energy that was several times greater than one's own body, the body might not be able to accept it!

As for the alchemy law, it did not care so much. It only cared about the conversion. As for how much the recipient could receive, sorry... ... It was not within the law!

Under normal circumstances, there was a natural difference between outstanding genes and ordinary people when it came to receiving pure energy. This was also the reason for their rapid growth. The most exaggerated one was the royal family, which could accept almost 90% of the pure energy!

Hence, the royal family's descendants had grown rapidly after coming to the ancient lands!

In their hearts, with little cabbage's physique and the inferior native genes, being able to accept 30% and become a level 13 powerhouse was already their ideal expectation. Advancing three levels in a row was already their best hope.

With her level of knife skills, coupled with the attributes of a level-3 life form, her combat strength would probably double!

However, they never expected it to reach such a level!

Even if she was a royal descendant, she shouldn't be able to accept 100% , right?

Arthas also stared blankly at the data and recalled the family's trial against Tyrande. Whisper.

Arthas was not too envious of the Crown Prince Genius of his generation, a top-notch prodigy. After all, he also knew that no matter how talented the descendants of the royal family were, even if they became the emperor of the starry sky..., with their limited lifespan, they were not worthy of the envy of direct descendants like him.

However, his family seemed to think that Tyrande could break this curse because her bloodline was pure enough. Perhaps she could replicate the glory of the ancient royal family. In Arthas' opinion, the expectations of the elders were too optimistic.

However, as Tyrande broke records time and time again, he was also somewhat shaken by the so-called curse. Especially after the birth of the water lord the last time, he even had the same thoughts as the

elders. Tyrande... .. Perhaps she could really become the unprecedented emperor in the history of the starry clan. Perhaps... . . She could really break the curse!

However, even for such a person, during the previous Test, she only received 90% of the energy of the Moon!

100% of the Moon's energy...

When Arthas came back to his senses and looked at the cabbage under the bright moon, he suddenly understood why his family asked him to spy on this girl.

After all... Even if he knew telepathy, he had already been attacked by the moon god family, so it was useless to spy on him. But now... .. Arthas figured out something interesting.

A native who could receive 100% of the energy of the Moon... .. She... .. was still a native?

Clang!

Under the moonlight, Bai Cai raised his sword, and the beautiful silver moonlight cut through the entire space. In an instant, the deep night seemed to be cut open, and the light of dawn shone through the cracks, it sprinkled on Bai Cai's silver-white hair.

It was as if the moon god had descended, and everyone was stunned.

As the trump card, Tura felt his heart thumping. For the first time, he felt as if his heart was beating for someone else... ..

"Interesting..."

In the darkness, a turbid voice came from all directions. Everyone quickly woke up from Bai Cai's stunning light, and they were on guard!

It seemed that... The monster indeed existed. .

"Telepathy... There's actually a wood elf in this world..."

The faint voice made people feel a sense of panic from their souls, but the voice became further and further away until it finally disappeared without a sound. Meanwhile, Goudan also stood where he was and became quiet. The two blades with moonlight were dripping with black blood!

"Cabbage?"

After a long time, Toula broke the silence that no one dared to break and asked carefully.

"Are you okay?"

"Uh... "cabbage turned around and chuckled. "I'm fine, Pm just a little hungry..."

Cabbage turned around. His silver hair fluttered in the wind. Under the moonlight, he was so beautiful that it was hard to breathe. Everyone was stunned again. They had never noticed this bun-shaped face before... " How could she be so beautiful?

"What about the monster?" Arthas quickly asked.

"It ran away... "Bai Cai looked around and said, "I couldn't catch up... the BUFF you gave me made my body a little heavy..."

"Quickly turn off the device! "Arthas quickly said.

Obviously, he also knew that the moon god device was very taxing on the human body. The monster was not dead, and Bai Cai was the most important main force, but it could not withstand the consumption!

"Are you sure it ran away?" Helana, who had been silent all this time, finally spoke. She was still looking around vigilantly. "Why... is the night still here?"

"I don't know..." cabbages shook his head. "It did run away, but I can also feel that it seems to be still around... It's a little strange..." These words made everyone's heart turn cold...

What do you mean it's still around?

Buzz...

A slight buzzing sound was heard. The moon god device slowly regained its calm, and the moonlight under the sky began to gradually shrink.

As the people with the mark, Arthas, Tura, and Percy sat weakly on the ground.

"I'm so tired..." in the team, the third main force, the only female knight, Percy smiled bitterly. "I didn't expect that one day it would be used as someone else's battery. I need to rest for a while to ease the fatigue of my body and mind..."

These self-deprecating words made everyone relax slightly, and they began to tease each other.

"That's enough. You can even be used as a battery. We don't even have the qualifications to be used as a battery." "That's right. We can only watch each time. If you main force members aren't strong enough, we can only watch helplessly. Every time we don't watch your performance, now it's your turn to be unable to bear it?"

"Heh... I didn't expect it!" The always mean Emin smiled as she looked at Bai Cai. "A big black horse has appeared in our team..."

The atmosphere instantly relaxed a lot. Arthas and Tura looked around and forced a smile. They forced themselves to be alert. They had indeed consumed a lot of energy just now, but they could not just faint like this.

"Percy, sleep for a while..." tura smiled and said, "Recover your strength first.

Wait for us when you wake up..."

The team had to ensure the number of main force members. Although they had a black horse like cabbage, it was necessary to ensure that enough main force members were awake.

"Mm..." Percy nodded and leaned against the iron tree. He slowly closed his already heavy eyelids.

"You can't Sleep! !"

Suddenly, a stern shout came from afar. Judging from the sound, it was at least a few thousand meters away, scaring everyone to the point of quivering.

They immediately raised their heads to look over and were stunned. Wasn't that... . A member of the Serene Night Academy?

And the one who shouted harshly just now was the captain, he Lan Zi Yue!

Zi Yue looked over, her expression incomparably solemn. She hurriedly shouted, "Quick, wake up that comrade of yours! !"

Everyone was stunned. They immediately turned around and found that even under such circumstances, Percy was still asleep. Just as they were puzzled, there was a bang!

Percy's head instantly exploded! !

Chapter 1763: Nightmare -Partpart 2)

Death... .. So she was so close...

This was Bai Cai's first thought when she saw her teammate's head explode...

The surrounding people were very flustered. They were all very excited when their teammate suddenly died mysteriously. They were flustered, alert, and questioned. Everything was in a mess.

However, in the midst of this commotion, bai cai found herself unusually calm. It was as if everyone's actions and voices had slowed down, giving her enough time to think...

But Bai Cai had not thought about it for a long time...

Because of her luck, there were many times when she really did not need to think... .

The first time she was abducted, because of the flower spirit's ability, she was regarded as a god by the Tauren tribe. All she needed to do was to provide for those elemental spirits, eat, drink, and it would be fine... ..

After that, the tribe grew larger and larger, and there were some troublesome matters. However, ever since Alice came, these troublesome matters did not belong to her anymore.

However, even if Alice did not come, she had never experienced such a situation before.

She had always thought that this was a game. Even if the Lord later admitted that it was not a game, she still had the mentality of a game to experience a

new life.

However, as the teammates who had been together day and night a few days ago had their heads exploding in front of her, she suddenly realized...

The world... Probably a lot more dangerous than 996. .

Cabbages in a trance, but the atmosphere around people is extremely tense!

“What the hell is going on?”

In the chaotic scene, Tula directly drew his sword and aimed it at the people of the night!

“Calm down... “UIs held down the excited toula, carefully watching the night academy to come.

It was very obvious that the people from the night Nether Academy had also encountered something. Their condition did not seem to be very good. Some of them even had wounds on their bodies. The leader, Nalan Ziyue, had a pale face, and her state of essence, energy, and spirit was extremely poor... ..

The captain stood out. Although Tura’s expression was unsightly, he still held back his impulse and stood beside Arthas with his sword in hand. His surrounding teammates were also looking at the people from the night Nether Academy vigilantly, ready to launch an attack at any moment!

The people from the Night Vision Academy did not have very good eyesight either. They were also furious when they saw the other party’s stance.

“What the hell? Didn’t you see that our captain was reminding you just now?

You’re courting death, and you’re even angry at us!”

“Heh... if you ask me, what’s the point of reminding this bunch of things? Let them do whatever they want to do to court death! ”

“Nana, come over here and follow us. Stay far away from this bunch of retaras! ”

These words immediately made the star elves, who had been feeling a little depressed, angry. The two sides were at daggers drawn, and they looked as if they were about to start a great battle!

“Everyone calm down... “Purple Moon, who had been silent all this while, suddenly spoke!

A powerful mental strength that exceeded one’s imagination instantly suppressed the entire scene. The powerful might caused the hearts of everyone from Star Academy to be shocked!

It felt as if an invisible mountain was pressing down on their backs. Even Tura and the others actually felt as if they could not breathe!

The newly appointed captain of the night Nether Academy was actually so terrifying!

As a level 14 senior student, Arles looked at the other party in shock and thought to himself, is this just a newcomer? This spiritual power is probably almost at the Dragon Rank, right?

Even the prideful Helan Nana looked at her sister in name in shock.

Many in the clan said that Ziyue was the hope for the future rise of the clan. On the surface, she did not care much, but in her heart, she was still a little frustrated. In her opinion, Ziyue was ahead of her because her bloodline was more suitable to be a black priestess, regardless of whether it was the clan or the imperial clan, the value of a priestess was far higher than that of a magical beast master.

But in terms of talent, she never thought that she would lose to this sister that she picked up.

But she did not expect that this guy who was only four months older than her would actually... .. ! Have such a level of spiritual power!

In the face of everyone's shock, Zi Yue only weakly took out a bottle of spiritual medicine and said in a low voice, "Everyone, calm down. The current situation is very dangerous. Please do not use your precious energy on useless internal friction..."

The words of the strong would always be heard by others, even if their positions were different... ..

Everyone subconsciously looked at her quietly, except for little cabbage, who was still in a daze...

Little Cabbage's expression of sudden realization immediately attracted the attention of He Lan Ziyue. She subconsciously glanced at that guy, and a trace of surprise flashed in the depths of her eyes.

She had such a level of spiritual power pressure, but she could actually be distracted? What was this guy's background?

"Does captain Zi Yue know something behind the scenes?" The first to calm down, Arthas, looked at the other party and asked in a faint tone. He was neither humble because of the strength displayed by the other party, nor did he pretend to be aggressive, he was extremely calm, giving off an extremely calm feeling.

Zi Yue glanced at the other party and thought to herself, 'being evaluated as the most outstanding captain in modern times, this guy's talent is not bad...

"As for what exactly happened, I'm not entirely sure right now..." Zi Yue shook her head. "But I feel that we have to huddle together now."

"What Captain Zi Yue said makes sense..." Arthas nodded. "Since we have to huddle together, let's start with the exchange of information first!"

This request was reasonable and reasonable. The other members of the Serene Night Academy looked at each other and nodded their heads.

"Let's start with us first..." Arthas said first. "We were attacked just now. The attacker is very likely to be the legendary nightmare..." as he said this, he paused for a moment and carefully looked at Purple Moon's reaction.

After all, here, Purple Moon was the legendary Nightmare's black priest! !

Seeing the other party's calm expression, Arthas continued, "I'm not sure if it's a nightmare realm or not. In any case, its characteristics are very similar to those in the legends. It can bring about the night sky, and ordinary people can't see its figure. We fought off the other party with great difficulty, but we didn't expect that something would happen..." . As he spoke, he looked at the tragic death of Percy... ..

"You guys fought off the Nightmare Realm?" A very suspicious voice came from the night vision team. Immediately, Arthas, who was narrating, frowned and looked at the person who spoke.

It was a very unfamiliar face. Night Shade Academy had changed quite a number of rookies this time. were they paving the way for the support of the royal family members in advance?

“Don’t Be Rude! “Zi Yue glared at the person who spoke!

“I’m just speaking the truth... “that person said lazily. “I really don’t believe that they have the ability...”

These words had a very strong provocative meaning!

The eyes of the members of the Starry Sky Academy instantly turned cold, tura directly sneered and replied, “Looking at your sorry state, you should have also encountered that monster, right? “But to be honest, I don’t think that the members of the Night Shade Academy have the strength to deal with that monster at all, unless...” Tura looked at Purple Moon, who was in the lead.

“This evil captain of yours is the person who controls the monster! ” !”

After saying this, Tura held his weapon tightly. It was not unusual for such a provocative statement to directly make the opponent attack. He was just looking forward to the kid who spoke just now making a move so that he could teach him a lesson!

However, in the next second, he found that the people on the opposite side looked at each other in dismay. They were actually not as furious as he had imagined.

What was going on?

The surrounding teammates were also puzzled. The opponent’s performance... . Was a little abnormal...

“Hu.. just as everyone was puzzled.., the leader, Zirai, let out a breath. She

looked at the Starry Sky Academy teammates with a bitter smile and said in a low voice, “What you said is actually correct. That Monster is the nightmare, and... it is indeed the one in my totem! !”

Everyone:” !!

Chapter 1764: it’s really terrible to the extreme!

“It’s indeed my totem’s nightmare...”

These words sounded helpless, but it made everyone from the Starry Sky Academy Freeze on the spot. If it wasn’t for the fact that they were still trying their best to suppress their remaining rationality, they might have already made their move

However, everyone also knew that there was definitely a follow-up to what the other party said, so they tried their best to suppress the impulse in their hearts and looked at the other party.

Arthas also frowned and looked at the other party. “Can you tell us the specific situation?”

Purple Moon nodded. “The first time we were attacked was half a week after we parted ways with you. The person who attacked us was very skilled. He was obviously an agility-type lifeform. As the best scout in our team was sent to monitor you, we did not have a good way to deal with him at the moment. We could only activate the shadow device to face the enemy! ”

The people from the starry sky academy were stunned when they heard this. The heavy feeling in their hearts grew stronger and stronger.

One person was actually able to force the night Nether Academy to activate the Shadow Device? What kind of skill was that?

Those who had fought with the night Nether Academy knew what level the shadow device was. If one were to compare the ranking of the devices in all the high school teams, the night Nether Academy's Shadow device was definitely at level T o, it could be compared to the molten heart of the bronze academy, the Black Blood Device of Tyree Fasson, and the star spirit device of their Starry Sky Academy. It was publicly acknowledged as one of the four strongest devices at level T o!

Devices of this level were usually used to determine the outcome of a battle. For one person to force the Night Shade Academy to use the device, the strength of the attacker was rather frightening.

This made everyone recall the assassin who died in the iron needle forest in the beginning. That was the number one scout of the Night Shade Academy. He

had died due to an obvious assassin's technique. It was probably the person whom the other party mentioned.

Arthas took a deep breath and continued to ask, "But what does this have to do with the Nightmare Lord?"

"That's the crux of the matter..." Zirai narrowed her eyes and said solemnly, "At that time, the person who attacked us was very troublesome. In order to ensure that the device was activated, I activated the nightmare Lord Totem, but..."

"But what?" Tura, who was next to Arthas, asked.

"It went out of control! !" Zirai took a breath to calm herself down. "This is the first time Pve encountered such a situation since I came into contact with the totem. The nightmare completely ignored my contract and was controlled by the person who attacked us!"

Everyone:

These words sounded very scary. Ignoring the contract and forcibly taking it? What kind of F * CKING operation was this?

"You can't get it back with the contract at all?" Arthas was both shocked and in disbelief.

Zirai sighed and directly displayed the contract. On the contract, it was obvious that on the other side of the totem, the other contestant was in a grey name state. Anyone familiar with the summoning contract would know this state. Either the thing on the contract was already dead, or it was already out of control!

A nightmare that was out of control?

This was truly a terrible piece of information!

“Didn’t you say that the one who attacked you was an agile assassin?” Tura frowned. “How did he manage to take control of the Nightmare?”

“I don’t know...” Violet Moon shook her head. “Perhaps he had an accomplice, but the situation is that the nightmare was completely controlled by the other party, and even attacked us. In our party... three people have already died!”

Everyone.

Hearing that, the pupils of Arthas narrowed. He looked across at the Night Vision Academy’s group opposite him and fell into silence. It was clear that they were in a rather low mood. He also saw that the other party’s team was indeed a few people fewer than before.

“Now, it’s meaningless to wonder why the nightmare Lord is controlled by someone else...” Purple Moon took a deep breath and said in a deep voice, “The most important thing now is... how to deal with it!”

Everyone from the Starry Sky Academy quieted down when they heard that. The other party’s tone was quite sincere, and in fact, it was also true. Now that they thought about it, there was no point in thinking about it now. The most important thing was how to deal with it. And as the former owner of the nightmare..., he had first-hand information on how to deal with that thing.

Arthas nodded. “Since that nightmare can appear, it’s probably infinitely close to the dragon-level, right?”

“It’s worse than you think...” Purple Moon said with a bitter smile, “It didn’t materialize, but it’s descending into a dream!”

These words made the people from Starry Sky Academy confused. They didn’t understand what it meant, but Arthas’ expression changed drastically. “Descending? Do you know what you’re talking about?”

“Of course I know...” Purple Moon smiled bitterly because it was even more intense. “I’ve been with it for so many years, how could I not know? It’s not a new species, but an ancient species!”

Ancient species! !

These words made the starry sky students who were initially confused look horrified!

They did not know what it was that descended before, but many people knew about the ancient species!

The descendants of the great clans in the outer regions would more or less know about it. Evil spirits were divided into new species and ancient species. The new species were evil spirits that were newly born in the outer regions, and they were also the easiest targets for the black priestess to come into contact with.

The ancient species was different. They were existences that had at least experienced a cycle of reincarnation in the outer regions. Some of them were even ancient mighty figures, and they were extremely dangerous existences. Very few black priests dared to come into contact with them!

“You Really Dare! !” Arthas looked at the other party in horror and coldness. For a moment, he did not know what to say.

Ancient species were existences that many star-level priests did not dare to touch. This newbie was really not just that bold! !

Purple Moon smiled bitterly again. Seeing this, Arthas did not continue to

mock them, because he knew that there was no point in venting his emotions. He directly continued to ask, “You are the priestess of the Nightmare King. You are very clear about its habits. Do you have any suggestions?”

“First of all, you can not sleep! ” Purple moon directly said, “Not at any time, not even if you are unconscious. Once you enter the Dreamland, you will have to face the ancient species in its full State! ” As she spoke, she pointed at Percy, whose head had exploded, and said, “It should be impossible for any of us here to face that kind of existence! ”

Everyone’s expression turned cold once again. They instantly understood why Percy had shot himself in the head. What a joke. Even a star-ranked big shot might not be able to survive a dream of encountering an ancient type of nightmare, not to mention this bunch of juniors!

“Second: you have to maintain your physical strength at all times! ” Zirai continued, “You have already seen the surrounding night scene. This isn’t a manifestation, but the powerful spiritual power of the nightmare has passed through the dream and interfered with reality. The more people die, the higher the degree of interference it can cause. The reason you were able to repel it is because it can not completely interfere with reality. The ability to attack you might only be 1/10,000 or even 1/1,000,000 of the original body. However, if enough people die, then it is hard to say. Therefore, you must preserve your physical strength and not fall asleep. You must not become tired, or else you will be easily pulled into the dream... ”

The second piece of news sent chills down everyone’s spines, but they instantly understood why they couldn’t see the nightmare that had attacked them previously.

They weren’t from the same plane, so of course they couldn’t see it!

It was really... terrible to the extreme! !

“There’s still the third piece of bad news... ” violetmoon said faintly, “The assassin that I mentioned earlier... has always been there! ”

Chapter 1765: It Seems... doesn’t believe her

The assassin who forced the night vision academy to use their strongest device and caused the death and assassination of the strongest assassin publicly acknowledged by the several years of the association was still alive?

They were all top-notch geniuses selected by the university and had high intelligence. They instantly understood the seriousness of the matter!

Facing the ancient nightmare that could descend into the dream realm, everyone could not fall asleep. In other words, they had to try their best to preserve their physical and mental strength. If that was all, the matter could still be barely dealt with.

In this place, the weakest were level nine experts. A few of the main forces had even reached level thirteen. Although the energy density here would aggravate fatigue, it was not difficult for them to last for half a month without sleeping.

Half a month's time was enough for them to gather in the city center.

However, it would be different if there was still an extremely powerful assassin that could attack at any time.

An assassin who could force the night vision academy to use their strongest equipment would pose a great threat to the team. Even if they did not attack, just the mental pressure that they had to be on guard against at all times would not be on the same level. Under such circumstances, ... There might be hope for them to maintain their best physical condition, but it would be very difficult for them to maintain their best mental condition

"That assassin... "Bai Cai, who had been silent all this while, finally spoke. She looked at Zi Yue with an expression that seemed to have just woken up from a daze. "Isn't he the same person as that Nightmare?"

She could clearly see that the person behind the assassin Ye You was the one who had attacked them from behind. If there was an assassin, then that nightmare should be the assassin.

"You can see it?" Zi Yue narrowed her eyes as she looked at the other party. She was obviously very curious.

She suddenly understood why the starry sky academy was able to repel that thing without activating the device. There was actually someone in this team who could see the dream realm.

This little fellow... .. What was his background. Zi Yue was once again puzzled.

From the intelligence reports, this fellow was a newcomer She had never seen this fellow in the videos of their previous social gatherings.

From the looks of it, he was a genius. A growth ring that was less than a hundred years old, a level 10 lifeform. It was a little exaggerated, and he was practically at the peak of the royal family.

The color of his eyes and the size of his pupils... HMM?

This guy seemed to be...

Through the deep memory, purple moon instantly confirmed: Wood Elf?

She suddenly remembered a piece of information from her family. The number one magical beast master genius in her family, Helana, met an opponent that was on par with her during the freshmen interview and stopped her first wave of demonstrations.

The person who had stopped her was also a freshman who had just entered the school. It seemed to be a wood elf...

At the thought of this, she looked at her younger sister. In her heart, she directly used the communication channel between the imperial clan of the night underworld to ask, "Is it the girl from Your Intelligence Report?"

This questioning and almost commanding question made Nana frown. It was the first time she had officially met her elder sister in such an occasion. The other party's attitude was more overbearing than she had imagined.

Her confidence was extraordinary. One had to know that in terms of bloodline, she was the pure-blooded direct descendant of the Helan clan.

Of course, it was useless to dwell on this now. The other party had indeed surpassed her to become the clan's future clan head candidate. Furthermore, in her first year of school, she had become the captain of the night Serene Academy. Even though the older generation had retired quite a number of times... However, in the night shade clan, where seniority was more important, this was still very exaggerated. She had the capital to be overbearing...

In the end, Nana was only silent for two seconds before she gave an affirmative reply. "That's right..."

"Interesting. No wonder you were able to defeat that fellow without any equipment. Someone was able to point out the direction. The difficulty level is indeed much lower than ours. This is good news..."

The corners of Nana's mouth curled up slightly, but she did not continue to reply. The other party's judgment was actually mostly reasonable. After all, no one would have thought that a flower spirit would personally pick up a machete and repel a top-tier assassin!

Of course, she did not have the intention to correct the other party. For some reason, she just did not want to expose little cabbage's ability too much in front of her so-called elder sister...

Interesting...

Ziyue did not consult Nana again. Instead, she secretly sized up that guy. Among those of the same level, even if he was a member of the royal family, there were not many who could stop Nana's Night Demon Butterfly. Moreover, he could even see the nightmare. He was afraid that he was not a simple Aborigine. He should have some secrets

"It sounds very difficult..." Arthas suddenly sighed.

Helan Zirai: "Yes..."

Arthas: "Then let's talk about the situation of our teams first. After all, we have to work together..."

Helan Zirai smiled. "Senior is right..."

Her attitude was extremely humble, especially when she addressed him as 'senior'. She gave him a lot of face. The attitude of a team leader was something that even the proud star elves couldn't find fault with.

“Ahem... “Arthas coughed lightly, he took the initiative and said, “Then let’s go first. Although our team was attacked, most of our strength was maintained. Except for the third main force member who was killed, there were almost no other losses. The main force member, Tura, and I did not consume too much. In the auxiliary hand, the equipment hand: Nightingale used the moon god device, which consumed a lot of energy, but she only needed to consume a bottle of high-level spirit potion to recover. The Psychic: Emin’s condition is complete. You all know her information. Not only is she the master of the mind in our team, but she is also the first surgeon.”

“The support priest Devin, the traditional white star priest, is proficient in all kinds of blessings, and his condition is also complete. The Arcanist, Meryl, is proficient in runic circles, is an arcanist of all departments, and is also a pharmacist in the team. His condition is complete, and the Druid, Asadi, is basically complete...” ”

“Ranger Sharon, currently disconnected...”

When he heard the Ranger Sharon, he secretly pursed his lips. He knew in his heart why the other party was disconnected. Both teams had lined up their most agile members to monitor the other party, he was afraid that the other party would obtain the crucial divine fire fragment.

However- if they were left alone. it was highly likely that they would be targeted. Even the number one scout in their team had been taken care of. That Ranger from Starry Sky Academy was most likely doomed

“The remaining two are the rookies. Helan Nana, the Genius Magical Beast Master. You know her as well. The remaining ones are our rookie cabbage...” Cabbage? Ziyue was stunned for a moment. What a strange name!

“This newbie... Don’t you want to introduce her in detail?” Ziyue said with a faint smile.

Arthas smiled. “It’s not that I don’t want to, but I don’t know much either. Cabbage is a newbie. We only know that she’s a flower spirit magical beast master with good aptitude. She helped us a lot today. If she hadn’t seen that monster, I’m afraid we wouldn’t have been able to defeat her so easily. But we really didn’t know that the little guy had such an ability...” ”

This statement was half true and half false. Everyone in the team did not know that the little guy had such an exaggerated ability before, but obviously, Arthas did not intend to completely expose the new card of cabbage.

The teammates looked at each other and did not say anything.

After all... ... Although it was said to be a cooperation, it was indeed not a wise choice to completely expose the trump card, but

Some people frowned and secretly looked at Helana. was there any meaning in captain’s concealment? Helana had seen cabbage’s performance just now. She would definitely snitch, right?

Tura was also puzzled and directly asked about Arthas through voice transmission.

“With Helana around, is there any meaning in concealing it like this?”

“Yes... “Arthas’ face was still smiling without showing any expression, however, he secretly replied through voice transmission, “Helana secretly shared the night spirit channel that she linked with with me, so I could hear her conversation with her sister. She did not expose Bai Cai! ”

This information almost made Tura scream out. He forcefully held back his impulse and asked through voice transmission, “What happened? Why did she do that?”

“How would I know?” Uls rolled his eyes in the depths of his heart, but then he said faintly, “Maybe... she doesn’t believe her sister...”

Tura. ” . . . “

Chapter 1766: Distress Signal!

No Trust?

Toula was stunned. A person born in the Night Shade Academy who did not trust his own clansmen... ” Even to the extent that they were family, he trusted captain, an outsider whom he had only known for a few months. Was His brain damaged?

Could it be...

Toula’s heart skipped a beat as he transmitted his voice, “Is there something wrong with that fellow?”

Arthas narrowed his eyes and was about to say something when a curious baby-like voice appeared in the tunnel.

“What problem?”

Arthas. ” ... ”

Toula: ” ... ”

The two of them looked at each other in shock, and then they looked strangely at the person who interrupted them. It was the little cabbage who was looking at them curiously not far away.

If I remember correctly, they used their own private channel, right. This guy• How did you get in?

“How did you get in?” Tura could not help but ask directly.

“How did you get in? “Cabbage tilted his head and reacted immediately. Then he said curiously, “You came in just like that. You were so close to me, and the fluctuation of the spiritual channel was so obvious. You adjusted the frequency and came in...”

It was as simple as eating and drinking, and the two people were stunned!

‘I don’t believe you...’

'those who can adjust the spiritual frequency should be at least dragon-level, right?? (moreover, the channel they used was created by the senior Arcanists of the family. Even if a star-level spiritual creature was next to them, they couldn't just come in so easily, right? Q

Looking at the stunned expressions of the two, little cabbage was baffled...

Was it rare?

Most of the developers in the base could do such a thing. She was the only one who could do it with her psionic power, but who asked her to be so outstanding? These two guys probably did not meet boss raindrop. That guy could even sneak into your channel from a few kilometers away. What a pervert!

"Cabbages... "Arthas took a deep breath and reluctantly accepted the reality. He asked with hope, "Then... can you hear them? I mean, those people from Night

Shade Academy... "

"Yes... "cabbages nodded. "I've been listening just now..."

"What did they say?" Toula quickly asked.

Cabbages thought for a while and randomly imitated a male voice. "Captain, are we really going to cooperate with Star Sky Academy?"

"Yeah, you've seen the situation now. We've consumed a lot of energy. If that strange assassin attacks us twice more, we probably won't even need to be dragged into the dream realm. Just our energy consumption alone will be enough to drag us to our deaths. The Starry Sky Academy's people are in good condition, and there's also an existence that can see the dream realm. They're an ideal partner..."

"Yeah... I keep feeling that these elves aren't very reliable..."

"They're just cooperating with each other. They need us too. After all, I'm more familiar with the laws of the nightmare realm. Furthermore, how could I care about personal grudges right now?" The collective disappearance of the monitors of the bronze academy must mean that something big has happened.

Students like us are currently in an extremely dangerous situation..."

"Captain is right..." but I feel that we should still take some precautions. Captain, you've seen the strength of that assassin. Even if they have a special member who can see that assassin, other than the person who died in the dream realm just now, the others didn't expend any energy at all. It's too strange ... If it wasn't for the bonus from the device, I wouldn't even have the qualifications to fight that assassin. I don't believe that Tuola, that pretty boy, can chase away that assassin without the device....."

"Mm... focus on that newbie who can see the dream. There's something wrong with her..."

Little Bai Cai was like this. One moment, she was imitating a deep male voice, and the next moment, she was imitating Ziyue's personality in a female bass voice. Hearing this, Tuola was speechless.

I didn't ask you to do a crosstalk, Hey, and... ? ... What do you mean by a pretty boy. ? Zanka that soulless said it as if he was a macho man like Titan.

As he spoke, he stared at the other party with unfriendly eyes.

Zanka was the number one veteran of the Night Shade Academy. He had fought with Tura many times, and when he suddenly saw Tura looking at him with unkind eyes, he also glared at him fiercely.

His expression was very obvious: what are you looking at your father for?

Toula choked in his heart and could not help but roll his eyes. He was wondering why this guy was always targeting him. So it turned out that he was jealous of his face. What was there to be jealous of? It was his natural advantage. who was to blame if his parents' genes were not strong?

Besides, how good could my pretty boy be? Other than his dark skin spots, what was the difference between his skeleton and his lines?

On the other hand, Arthas, who was at the side, looked at cabbage seriously and nodded to himself. Although cabbage's talent was a little exaggerated, as a teammate, he was really incomparably reliable.

With this thought in mind, Arthas looked towards the direction of the Serene Night Academy with a smile. "Your condition doesn't look good. Do you want to meditate and adjust?"

When it came to meditation, the expressions of the members of the Serene Night Academy instantly became somewhat horrified. It was clear that these words had touched upon some of their bad memories

"No... Purple Moon shook her head. "I can't meditate, and I have to stimulate my nerves at all times. This night is not as simple as a night, it has the effect of hypnosis. In a normal state, if I don't pay attention, I will be easily pulled into a dream. If I meditate and Relax, I will definitely fall asleep.

"I Go... "emin a leng: "That does not mean that at any time in consumption?"

The faces of the students from Starry Sky Academy became even more solemn. If they couldn't meditate, they wouldn't be able to recover naturally.

Furthermore, they would have to stimulate their nerves at any moment. Under such circumstances, their physical strength would be greatly depleted. Even if they were to rely on the medicine... If they were to continue being so nervous, they wouldn't be able to hold on for long.

Arthas also frowned. The situation was really not that bad...

"In that case, let's set off quickly!" Arthas said, "We can't meditate or rest, so there's no point staying here. Let's hurry to the center of the city and meet up with the other colleges!"

"HMM... "purple moon nodded. "Senior is right. The current situation is indeed the only way..."

"Apart from what you said before, is there anything else to pay attention to?" Arthas asked.

"Yes "Zirai thought for a moment. "There are many things to pay attention to. First of all, you have to pay attention to your teammate's mental state at all times. This is because the nightmare often performs long-distance hypnosis from time to time. Once you see that your teammate's mental state is not right, you have to wake him up immediately. Then, there's the issue of food supply. Such a high level of vigilance will consume a lot of physical and mental energy. It also requires a high level of sugar. However, my suggestion is to directly use high-level potions to replenish your physical strength. If you eat food directly, it will cause physical fatigue..."

Hearing this, Arthas nodded. This was common sense when going out. Sugar and energy intake would cause the brain to be deprived of oxygen, more or less, it could relax the nerves. Even the most professional warrior was no exception. Therefore, mercenaries who were out in the field... Usually used potions to maintain their physical strength

It also caused the price of alchemy potions to remain high...

“Ah? “Cabbage’s face instantly fell. What kind of joke was this? Eating medicine to fill her stomach? Could that thing fill her stomach?

Aiz, who was familiar with Bai Cai’s personality, looked at her helplessly and said dotingly, “Bear with it. After this hurdle, you can eat however you want...”

His teammate also twitched his mouth. This guy, at a time like this, he still cared about that mouth!

Bai Cai’s cheeks puffed up. Just as she was about to say something, her pupils suddenly constricted!

In her mind, a unique special mark fluctuated!

Bai Cai immediately shut her gluttonous mouth and lowered her head. Her eyes were filled with worry!

Ever since that Mark had been carved, it had never been used. That was because it was a special spiritual mark that Ysera had carved for them. It was used to seek help from their surrounding teammates in an emergency.

Everyone had the spiritual mark of the first batch of players who went out this time.. If she remembered correctly, the person who had created the fluctuation mark should be Li Goudan!

Chapter 1767: Target: hunt down the new Captain!

Tens of thousands of kilometers away in the eastern district, the undead team, who claimed to be the ninth King’s minions, now tracked the location of the border with an ugly look on their faces... ..

Windwalker’s basic ability in tracking and anti-tracking was indeed two-fold. As a result, they could only trace the traces through the pharmacist’s special drugs and arcane means to barely find the traces.

However, this method was very inefficient. Almost every few kilometers, they would have to re-use the drugs and re-use the arcane material backtracking method, which required a lot of energy. The key was that they were undead. The living world, especially this ancient land, was very resistant to their undead. They had to be corrupted before they could use spells, which led to a slower efficiency. It was very troublesome to track them down... ..

They had been chasing them for more than half a day, but... .. The other party was walking very fast, and they were walking toward the center of the city. This made the undead’s faces turn ugly...

“Feng... “the female undead in the team whispered, “If this goes on, we might have to chase them to the center of the city...”

“Yeah... “the leading undead nodded with a heavy expression.

Actually, according to their normal mission, they would have to chase these high school teams to the center of the city. They would even have to guide them to unlock the seal of the divine fire fragments.

However, the situation was different now. The Gale Academy had sent out a powerful force to directly kill their leader. The ninth King’s team’s strength had been greatly reduced, so they had to replenish their strength!

And this seriously injured Gale Walker was the best candidate to replenish their strength.

The Undead Hall was a place where the competition was extremely exaggerated. The competition among the subordinates of the ten kings had reached an even more intense stage. For them to be able to get to where they were today, enjoying a huge amount of resources, and even obtaining something that ordinary undead could not obtain., they had paid a huge price.

Hence, they had to ensure that their team would not be eliminated, because there were countless people who wanted to replace them.

Before they came, they had used a special law of the gods. This law allowed their 10 kings ‘subordinates to have the effect of having their souls reincarnated, but at the same time, it had a huge side effect. If they died in the living world, they would return to the law, they would directly become the energy of the dead world to replenish the effort they had put in!

In other words, if their group of undead died here, they would truly die. They would no longer even have the right to become undead... ..

In other words, their team leader was no longer qualified to compete. But what was worse was that there was no one in the ninth king’s team who could replace their team leader!

Out of the Ten Kings ‘dependents, the ninth king’s lineage was the latest to open. In terms of seniority, it was far inferior to the other royal lineages that had established their dependents at the very beginning. In fact, the team members could be considered to have been gathered with some difficulty. The team leader, Nicholas. It was said that his highness the king had forcefully snatched ice eye from the seventh king. It could be seen that the family members that he had gathered could not bring out a captain-level character.

Honestly speaking, the strength of Captain Ice Eye was not considered to be bad in the Ten Kings ‘team. At the very least, he was definitely not the weakest. This was also the reason why they had listened to Captain’s orders and did not go up to help even though they had seen the intense fight between the two parties... ..

However, they didn’t expect that the high-spirited captain ice eye would actually lose to the other party.

Moreover, the battle was too fast. In the split second between life and death, none of the team members could react in time. They couldn’t even help him. From this point, they could clearly see the difference between their remaining team members and their captain.

In fact, they could also see it from the back. Otherwise, there wouldn’t be so many people who were scared away by a guy who was obviously heavily injured and on the verge of death!

“Feng... “the female undead aura was a little anxious. “If we enter the city center, it’s very likely that other teams will see us! ”

As soon as she said that, the other team members ‘faces immediately tensed

The experts of the living world were also resources for the team. After all, the source of undead was the living people of the living world. Those who had outstanding talent in life would naturally not be too bad after death, so they could replenish the high-quality team members.., it was best to choose among these high school students.

That guy who killed the team leader was an excellent resource. According to the rules of the ten kings ‘team, whoever captured a living soul, that living soul would belong to their team. That windwalker was completely a team leader-level ability.., he could directly replace the ice eye captain!

But if it fell into the hands of another team, it would be troublesome!

The man called Feng was about to reply when suddenly, everyone’s expressions tensed up, because they all felt that there was a ripple coming from the outer team in the spirit channel!

“Feng! ! “The female undead looked at him nervously.

Because everyone knew that the only person who could cross teams to contact them in the spirit channel was the commander of this time’s team, the captain of the fifth King’s team, Foyego! !

“Shh...”Feng let out a soft sound and connected to the channel.

“Captain Foyego!”Feng’s tone was quite respectful.

“Ye Feng? “A gentle voice came from the other side, but it made all the undead frown. This voice really belonged to Foyego... ..

“Yes... what instructions does captain foyego have?”

“Tell me about the ice eye in detail... “said Foyego directly!

“Yes... “the man called ye Feng hurriedly said: “At that time we intercepted two people in the procession of the wind... ”

“Two people? “Foyego was stunned: “Not the whole team?”

“No... <per_0> . “Ye Feng shook his head. “I don’t know why the Zephyr squad is split up, but there are only two of them. One of them is the captain of the Zephyr Academy in the intelligence report: Dutton. Just like the intelligence report, his abilities are average, and his combat strength should still be below the fourth main force of the squad.”

“In other words, Ice Eye was defeated by another person?”

“Yes... “Ye Feng nodded. “A rookie, his skills are extremely exaggerated. Ice Eye’s captain is also an agility-type, yet he actually lost to the other party in close combat!”

“What about you guys? There were no other casualties? “Foyego hurriedly asked.

Feng's eyes flashed, he hurriedly said, "The captain didn't allow us to go forward to help. In the end, the life and death situation happened too quickly, so we weren't able to help immediately. By the time the captain met with an accident and wanted to help, it was already too late. The scouts that chased after him also died at the hands of the other party. We only dared to track him from afar, and didn't dare to approach him..."

"That person... killed ice eye and wasn't injured?" Foyego asked in disbelief.

Clearly, he was very clear about ice eye's strength. Back then, there were quite a number of people who wanted to snatch people from the Seven Kings, and he was one of them. Ice Eye's potential and strength were very objective. Even if he were to make a move., he didn't dare to say that he wasn't injured to kill the other party.

"I think he's hurt, but I'm not sure how bad... <per_0> . Feng lowered his head and said, "That person's speed is too fast. When we fought with the captain, we could hardly see clearly. We also didn't know the extent of the captain's injury to the other party. However, the other party definitely retained the ability to resist. The Scout chased after him with one move and it was gone!"

"Is there such strength?" Foyego's pupils contracted slightly, after pondering for a moment, he said, "You guys should be more careful. Just follow them from afar and don't get close. If there are people from other teams approaching, warn them to avoid..."

"Avoid?" Feng was stunned.

"Avoid!" Foyego repeated, "There's more than one such expert. We have to figure out the situation before attacking. We can't waste any more captain-level characters!"

"Understood..." Feng immediately lowered his head when he heard that. A trace of excitement flashed in his eyes!

It was a great opportunity.. It seemed that they had enough time to kill their new Captain!

Chapter 1768: "If you don't pluck a peach, it'll be a waste not to pluck it!" !

To be honest, Ye Feng had already taken a huge risk to lie to FOYEGO. Among the ten kings, this was the most capable one, especially since his own captain had already fallen, offending such a person wasn't a good thing!

However, he didn't have a choice. The ninth King was a new team, and their captain had already died on their first mission. If there wasn't a powerful figure to continue leading them and create value for the ninth king., the hot-tempered ninth king was very likely to eliminate their entire team!

Everyone knew what would happen if they were eliminated. It was the dream of every undead to have the ability to enjoy the laws of the living world. Such an opportunity would never happen again!

"Feng... "the female undead whispered, "What do we do now?"

“There’s No Way Out! “Ye Feng said in a low voice, “Our team’s competitiveness has always been weak. We must get this new team leader. We can’t let any team snatch him away. Ah Luo, activate the device and chase after him with all our might! ”

In the team, a bald undead man was stunned when he heard that. “Activate the switching device? Now?”

“If not now, do we wait for His Highness to interrogate US before activating it?” Ye Feng looked at the other party speechlessly.

“Alright! “The bald man did not waste any time and directly took out a huge hourglass-shaped object. After taking out the object, the spirits of the dead in the Nine Kings ‘team all had solemn expressions on their faces.

The conversion device was a top-notch device created by the Lord Ruler and the Lord God. It could reverse yin and yang, and in a short period of time, the spirits of the dead would become a physique that was accepted by the living world!

However, the load was very heavy. Once it was activated, the soul would be squeezed by the power of laws. Therefore, the device was hourglass-shaped. Moreover, the hourglass was clearly divided into different levels, and there was a clear time warning on it.

At each level, the load would be greater. If the hourglass went to the end, then the soul would also go to the end!

“Everyone! !”Ye Feng took a deep breath and said in a deep voice, “Let’s not talk about the situation. Everyone knows that our ninth King’s team is a new team, and our ninth king is a more impatient person. Not only did we not achieve anything in this mission, but we also lost our team leader. When we return, the probability of US being eliminated is almost 100% . You have to know that there are three teams in the reserve team that have already found a suitable team leader! ”

When everyone heard this, their faces instantly darkened. His Highness the ninth King was famous for being irritable and impatient among the ten kings. Otherwise, he wouldn’t have directly snatched people away from the Seven Kings. Back then, ice eye had been lucky to choose them. However, if they didn’t have Captain Ice Eye, their team would probably fall from heaven to Hell in an instant... .

Because they all knew that ice eye had chosen them because there was no one in their team who could threaten his position as team leader. It wasn’t because of how strong their team was. A team that was already qualified to be a team leader needed a team.., it was just a support team that was suitable for him. Everyone took what they needed. It was originally an infinite harmony.

When they had been matched with Ice Eye’s team leader, each of them had felt extremely fortunate. After all, they had never had a strong member to lead their team. In the entire nine Kings Reserve Army, they could only be considered to be at the middle or lower level. In the end, just because a team leader had descended from the sky.., they had directly become a representative team and enjoyed the resources that all reserve army members yearned for the most!

They had originally thought that a free lunch would fall from the sky, but the sudden turn of events had turned them into the center of a storm!

“Just like Feng said, we’ll most likely be eliminated when we go back. If we’re eliminated, we’ll return to the lower levels of purgatory once again. Those days would be better off disappearing completely! “One of the undead men said with a smile.

“What about you guys?” Ye Feng looked at the remaining people. “I took the initiative to hide this operation from Foyego. It’s still not too late for you guys to withdraw now. If I fail, you guys won’t be implicated even if you withdraw to me...”

“It doesn’t matter if you’re implicated or not...” the female undead shrugged. The captain had been killed. If something happened to you as well, it would be a miracle if our team wasn’t eliminated. Since none of us had a good ending, why not go all out?

Ye Feng immediately looked at his other companions. The other undead did not hesitate and agreed to go all out!

“Alright! “Ye Feng nodded and said, “The hourglass time is twenty hours, but considering our consumption, we can only last for ten hours at most. Within ten hours, we must find that wind demon and kill her. You guys have seen that fellow’s ability. We can’t give her any breathing space. Once we recover our strength, I’m afraid we’ll all die at her hands!”

“Understood!”

“What if we run into other female undead asked with a frown. “Keep an eye on the area at all times. If you see any of your companions, send out a warning immediately. Tell them that Captain Foyego said that they should stay away from dangerous people! “Ye Feng said faintly, “We must not let anyone else find this loophole. This is our last chance! ”

On the other side, Foyego frowned slightly after hanging up and walked back and forth a few steps slowly.

“Captain? “One side of the silver-haired female ghost frowned: “What is

“Ye Feng may be lying...”

“Ah? “The female ghost asked: “Which point is lying?”

She felt that the other party’s reply is very normal, there is no problem... ..

“Iceman was a very dazzling new star in the reserve forces of the Seven Kings at that time! “Foyego lowered his voice and said, “At that time, I was prepared to invite him over to be the vice-captain. Other than me, Mogo from the Three Kings ‘team and Lilith from the Four Kings ‘team also had the same intention, including the Seven Kings ‘team. However, His Highness the ninth King did not follow the rules and directly snatched the person away. In addition, Iceman himself was also proud and unwilling to live under others. If he submitted to the nine kings, he could directly become the captain, so he let this person go...” ”

The female undead nodded. Although she did not participate in the situation back then, she had heard of some of it. She heard that the ninth king had gone to the seventh King's place to cause a ruckus in order to snatch her away.

She really did not follow the rules!

But why did the captain say that?

"Ice Eye is very strong! "Foyego narrowed his eyes and said, "Moreover, he is a rare agility-type undead. He is a very good candidate for the main force. In fact, he is not suitable to be a captain. If he is willing to come to my place, I can give him the captain-level resource treatment... ". "

"What team leader means is... "the female undead narrowed her eyes and said.

"What I mean is... I don't really believe that the so-called windwalker can kill ice eye without getting hurt... "

The female undead was stunned for a moment before she instantly understood. "You're saying that Ye Feng's group hid the information... then they're trying to... "

As a master of the mind in the team, the female undead was not a fool. She immediately understood what team leader wanted to say. A living soul that could kill ice eye was not only a troublesome enemy, but also a top-notch team leader candidate!

The ninth team was a new team. After losing the team leader, they had no leader. If they wanted to retain the position of the main team, taking down this windwalker that could kill ice eye was their only chance! "Team leader... This? "The female undead gulped.

"I'll go personally!" A green light flashed in Foyego's eyes. "I'm also quite interested in being able to kill Ice Eye's windwalker. Organize the division of labor here and take two people with me!"

"Yes, Captain! !"

A hint of excitement flashed in the female undead's eyes!

The competition between the ten kings' teams was very big. Every once in a while, they would follow the example of the bio-world. The younger generation would compete with each other for resources. No team would not care about top-tier living souls.. With such a peach, it would be a waste not to pick it!

Chapter 1769: Hanging by a thread!

In the center of the underground city, a lithe figure was moving quickly and vigilantly. It was Darden, who was carrying Li Jiayi on his back... .

As the representative of the Zephyr Academy, although Darden wasn't an outstanding genius, he was absolutely outstanding in all aspects. Be it the way he hid his tracks or the efficiency of his journey... As well as his adaptability to the surrounding environment, these Rangers' most basic qualities were fully displayed by Dutton... ..

But at this moment, Dutton also felt that his stamina was gradually running out...

“Jiayi?” Leaning against a hidden corner, Dutton slowly put down the weak Li Jiayi and carefully called out, once again for a bottle of advanced stamina recovery medicine.

The wounds on Jiayi’s body were treated simply, but the situation was not optimistic!

Her wounds were hurt by the Frost Crystal Weapon. The Death Realm Frost Fire Crystal had a very strong destructive power on living things, and the infection was extremely serious. Even though Dutton had used dozens of herbs, he was still unable to clearly understand the energy infection!

If it were him, with so many frost crystal weapon wounds on his body, he would have long died from the death realm energy infection. Fortunately, this girl was able to hold on... ..

Dutton opened one of the wounds to take a look, and a grim expression immediately flashed across his face!

The wound had rotted so badly that it had almost corroded all the way to the bones. Many of the wounds had already exposed the bones, and they were gradually turning pitch-black. From the looks of it, the little lass was about to reach her limit...

What a terrible situation...

“Little Lass, come... drink some...” Dutton passed the medicine to Li Goudan’s mouth.

Li Goudan opened his eyes slightly and opened his mouth with all his might. Seeing that Li Goudan was still conscious, Dutton was delighted and quickly handed the potion over!

Goudan struggled to wiggle his swollen tongue and swallowed the cold potion. The potion slid down his throat, but in the next second, the burning energy reaction that should have appeared did not appear, instead, a feeling of wanting to vomit surged up!

Urgh! !

Almost unable to suppress it, doggie spat out all the potion that he had just drunk, along with the bitter bile!

Upon seeing this scene, Darden’s heart immediately sank to the extreme!

As an experienced ranger, Darden knew very well what this meant. The girl’s stomach... ! ... was already so weak that it was unable to adapt to the energy potion!

The potion he used was a very excellent product. The pharmacy of the Zephyr Academy could be considered to be of a high grade in the entire federation. As the representative team’s energy potion, the quality would naturally not be bad. Its adaptability was even better than warm water... ..

But even so, the girl still vomited!

It was very obvious that the Lass’s intestines and stomach had already lost its normal digestive ability and was extremely weak. This was a sign of her life force being exhausted!

The external injuries that were constantly corroding had yet to be resolved, and now even her internal organs were so weak that they were unable to replenish her energy. This Lass was... .. ! She had reached her limit!

With this thought in mind, Dutton suddenly stood up. He was no longer cautious, but expanded his spiritual power to sense his surroundings, wanting to take a chance and look for reinforcements!

However, his spiritual power expanded to the limit. It spread out for more than ten kilometers in the energy-dense plane, but he could not sense anything!

Dutton's face was Pale, and he revealed a bitter smile!

Although he was desperate, it was also within expectations. The size of the underground city was almost equivalent to the land area of a grade-7 planet. The center of the underground city covered an area of more than 50 million square kilometers. In such a large area., it's perfectly normal to have a 10-kilometer range and not be able to detect anything.

But it's bad enough that luck doesn't come when it's needed...

Before I came, I was thinking about how to avoid other strong schools in the central city. Now I am thinking about how to meet people from other schools as soon as possible.

What do we do... Now?

"Captain... is this a good idea? Leading the boys from Gale Force to the center of the city while we lurk in the East Wing..."

At this point, I'm afraid even Dutton did not think that he had been tracking Tyrifson all the way to the city center, and the real Tyrifson team, but still wandering in the east side... .

The one who asked the question was the spiritual master Lu Luo.

After the great battle, in order to avoid being tracked by windwalker, they split up into two groups, allowing Demon Star to disguise himself as a team and travel all the way to the center of the city, while his main team stayed in the Eastern District... .

"This is called avoiding the enemy temporarily... "demon star smiled, he found a good spot to lean against the metal tree and said, "Windwalker Academy has hidden a trump card that nearly wiped us out. Who knows if the other teams have hidden their trump cards as well? If we go to the center of the city a little later, we should first obtain the basic benefits of the eastern district.

Otherwise, if we were to be eliminated, we wouldn't be empty-handed, right?"

"I say... "Yao Xing, who had just returned from the center of the city, curled his lips speechlessly. "You've lost your courage after being beaten..."

"Yeah... "Yao Feng rolled his eyes at Yao Xing. "Who asked our trump card to be killed so quickly? I don't have the confidence..."

Yao Xing. "

"I'm not a trump card... "Yao Xing directly surrendered and said, "The trump card in our team has long changed hands..." as he said that, he carefully lowered his voice. "Can that guy from Gale Force Academy really fight with Little Jia?"

Yao Xing was the person in the team who knew Goudan's strength the best. To be honest, he really didn't quite believe that there was someone in the younger generation who could fight with this monster.

He was afraid that anyone who had seen the crown prince of Bronze Academy being beaten up would not believe it...

"Ha... more than that?" Lu Luo chuckled. "I almost lost..."

"Really?" Yao Xing was also stunned. After all, he did not see the next round.

"Fake! "Wang Goudan, who was eating dry food, immediately pouted. "That guy is just bluffing, bluffing! !"

As he said that, he took another bite of the jerky!

Thinking of Li Goudan's final act of acting tough, Wang Goudan felt a burst of anger in his heart. How did he not realize that this guy could act so well in the past. It seemed that he had to be more efficient next time. He couldn't let that guy have the chance to act... .

"It might not be a bluff... "Yao Feng narrowed his eyes, he thought of the unique control of the wind element at the end. To be honest, the feeling that windwalker gave him at that time was as if he had completely merged with the wind element. With that level of secret technique, this guy who only knew how to use brute force..., he might really lose!

"HMPH!" Wang Goudan suddenly felt guilty. "I won't lose anyway!"

Everyone. " ... "

Wasn't this guilty look too obvious?

Seeing everyone staring at her in a daze, Goudan couldn't hold it in any longer. Just as she was about to lose her temper, her expression suddenly froze, and then turned extremely ugly!

"Hey, Hey... "when everyone saw this expression, they immediately stood up in fright.

"It's just a joke. You Don't have to be angry, right?" Lu Luo quickly surrendered.

"Hey... Xiaojia, calm down! "Yao Feng was also shocked. He was so embarrassed that he became angry? It couldn't be that bad, right? He wasn't usually this petty, right?

"SH * t!" Wang Xiaojia ignored them, she suddenly looked into the distance In the next second, she spread her wings and left a violent pit on the ground. Then, she rushed into the sky and quickly turned into a black dot and disappeared in front of everyone!

"What's going on?" Yao Xing's first reaction was to stand up abruptly.

"Xing, follow her! "Yao Feng stood up seriously. "Don't let her cause any trouble... "

Hearing that, Yao Xing nodded and turned into a black shadow, speeding toward the place where Wang Xiaojia had flown away.

“Captain... This Is?” The surrounding team members were baffled.

“I don’t know... “Yao Feng shook his head and looked at the sky. “I keep feeling that... something is going to happen... ”

“Captain... “on the other side, a silver-haired, pale undead woman was inspecting the surrounding terrain. Behind the team, a silver-haired, green-robed undead said, “This should be the coordinates reported by the ninth King’s team...”

“Mm... “the silver-haired youth who was called captain nodded slightly. It was the captain of the fifth King’s Team: Foyego!

“Captain, the ninth King’s team clearly wanted to hide this from us, and the coordinates reported were obviously unreliable. Why did we come here?”

“There has to be a starting position, right?” Foyego smiled nonchalantly. “The coordinates are fake, but they won’t be too far off. Half-truths have a disadvantage, and that is that the truth that they want to hide is usually not far from the false information...”

“Then follow the coordinates to track the location of the ninth team first?” The undead lady asked with a frown.

Foyego smiled. Just as he was about to say something else, he suddenly looked at the sky!

“Huh?” The female undead and the two companions behind her immediately looked at the sky as well. In the next second, the few undead were all stunned.

That Was...

Everyone could feel that an extremely ferocious aura was rapidly approaching this place!

Chapter 1770: Confrontation (I)

What an exaggerated power! !

The undead looked at the sky in astonishment!

As far as their eyes could see, the thing that was flying over was at least tens of thousands of meters away, but the exaggerated aura was pressing down on the undead from tens of thousands of meters away, making them unable to raise their heads.

“What the Hell Is This?” Behind Foyego, a skinny undead that looked like an evil spirit forcefully raised its head and stared straight up. The green light in its eyes was faintly discernible, making it look even more like an Asura evil spirit... .

“Oh?” Foyego’s expression was not as ferocious as his teammates. He raised his head and clearly saw something flying over from afar.

Dragon?

Foyego was slightly stunned. Then, he seemed to have thought of something. He asked the pale female undead beside him, "Lingji, in the intelligence report, didn't Tyrifson mention a special-class combat strength?"

"Yes! "The pale female undead nodded slightly. Just like Foyego, she seemed to be relatively calm in the face of the powerful pressure coming from the sky. Her slender fingers tapped slightly, a piece of information was transmitted into the minds of the surrounding people.

Wang Xiaojia, a new student of Tyrifson Academy and the direct descendant of the young patriarch of the Templar clan, Lanaya. She had the pure black dragon bloodline. According to the intelligence report, she had once defeated the Crown Prince of the bronze clan in the Bronze Palace!

"Oh it's her! !"

The skinny undead giggled and looked at the sky with excitement. His face was full of eagerness!

He had heard this intelligence before he came. It was the intelligence provided by Mi Jia who had infiltrated the Tyree Fassen Academy. It was said that she had defeated the crown prince head-on. At that time, he had wanted to meet this guy.

However, he did not expect to be accepted by the newly promoted team of nine kings.

It was ice eye's first time leading a team on an expedition. Naturally, he wanted to be in the limelight. Without any hesitation, he led the area in charge of the East City District.

His goal was also clear. He wanted to suppress the so-called special-class combat strength that could defeat the crown prince and bring him into the ninth group!

It would be a lie to say that the other teams did not want the black dragon bloodline that could contend with the crown prince. However, Ice Eye's performance was too strong.

As a newly promoted captain, his style was a little too strong. At that time, the other teams weren't too happy with him. In order to not have a conflict with him, Foyego finally agreed to ice eye's request.

But he didn't expect ice eye to directly fall in the Eastern District...

"It looks like I can't avoid it..." Foyego looked at the sky and smiled slightly. He was originally here to pick peaches, but he didn't expect to bump into this guy directly.

Forget it, it's fine. Since Ice Eye didn't have the chance, their team will take it...

"Lingji!" Foyego called out softly. The pale woman beside him nodded and gently raised her hand. Instantly, a terrifying spiritual power condensed in the sky, it turned into a huge palm and directly grabbed at the black shadow that was charging at them!

"TSK TSK..." the skinny undead said to a bald undead next to him, "I still can't get used to it no matter how many times I see it. This spiritual power is so strong! "

The bald man smiled. The five teams were one of the first king teams to be established. They were full of talented people. Although Ling Ji was a support position for the Master of mind, her actual combat strength was at the captain level. In terms of spiritual power., only the captain of the Spider Queen's team could be compared to her. She was one of the trump cards of their team!

Boom!

In the next second, a loud sound was heard. The Black Shadow in the sky was like a falling meteor. Its power was astonishing. However, it was forcibly caught by that huge palm!

The powerful tremor caused the ground to tremble. The high-density wind pressure caused the bald man to be unable to help but use his hand to block his eyes.

A Dragon's roar soared into the sky. The person in the air was obviously furious after being blocked. He flew up and crashed into the palm formed by spiritual power again!

With a boom, another loud sound was heard. The pale female undead staggered back a few steps. The huge palm in the sky actually had spider web-like cracks!

"Che... "the female undead made a sound, and a green light flashed in her eyes!

skinny undead was stunned, and he couldn't help but say, "This is the first time Pve seen it... "

The bald undead also nodded. It was also the first time he had seen Lingji's spiritual power being forced into such a state by brute force!

Bang!

Before the two undead could continue to sigh, the huge palm formed by spiritual power in the air suddenly shattered. Lingji grunted and took a few steps back, and her already pale face became even paler!

In the sky, the black shadow of the giant shattered palm was shockingly powerful. It fell down with a loud bang and directly grabbed at Foyego, who was in the lead!

The skinny undead laughed strangely when he saw this. He suddenly turned into a green shadow and pounced toward the other party!

His originally skinny body rapidly expanded after he rushed over. Countless muscle tissues that could be seen with the naked eye piled up and turned into a huge muscular arm that shot toward the other party!

Bang!

Wang Goudan, who was trying to grab onto Foyego, was stunned. He frowned and raised his hand to block the huge arm!

However, when the two collided, the bloody and disgusting arm gave off a terrifying force. Without being able to defend himself, Goudan was sent flying!

The skinny man gave a strange laugh. He took a step forward and jumped up high. His other arm also expanded rapidly as he drove his two huge arms towards the falling king Goudan!

His power exploded instantly and fell like a cannonball. The high-quality metal floor of the underground city collapsed under the impact of the huge wall of flesh. The terrifying power caused the metal floor within several kilometers to rumble, it was like a huge drumstick hitting the steel city!

“Are you okay?”

The bald undead held Lingji and asked gently.

“I’m fine...” Lingji’s voice was still cold. She looked up and forgot about the scene. When she saw the huge wall of flesh crazily attacking the ground, she curled her lips. “Did he modify his arms again?”

“Ha...” the bald undead smiled. “He paid a lot of money for it...”

“No wonder he’s so arrogant...” Lingji sneered. “Only ghouls are willing to modify such disgusting creatures...” she paused for a while and continued, “However, disgusting as it is, there’s nothing to say about his strength...” “Yeah...” the bald man smiled and agreed.

Ghouls were also considered heretics among the undead. They were a deformed form of evolution invented by the Undead Lich. They used the high plasticity of the soul and were equipped with all kinds of biological materials. They were an extreme creature that could mutate indefinitely!

Ordinary creatures were stereotyped, but ghouls were not. According to the mutation of the soul, as long as the biological materials were good enough, they could mutate indefinitely. They were one of the most powerful biological combat machines in the Army of the dead world.

Very few ghouls chose this route. After all, after becoming a ghoul, the soul would also distort and transform. The slightest carelessness would cause it to distort into a monster that had lost its soul core. There were very few ghouls that could maintain their core.

Abruptly was one of the few ghouls that could evolve!

Even in the fifth King’s team, which had many experts, abruptly could sit firmly in the position of the fourth main force!

The long bombardment seemed to be indefatigable. The Skinny Wu Shu bombarded the ground crazily and let out a weird, abnormal laugh as if he had suppressed his desire for a long time. At this moment, he wanted nothing more than to vent it all out!

The metal ground was also completely deformed under his huge arm. The ground over a hundred meters long was caved in by the hammering. The terrifying power was astonishing!

In the distance, Yao Xing, who had followed Gou Dan over, was stunned when he saw the incomparably violent scene in the dark...

What kind of monster was this?
