Chapter 1791: Ancient Nightmare!

There were many strange and terrifying things in this world. It was not rare to see someone tearing apart space like a rag to reveal a ferocious face. Someone with some knowledge had encountered an evil god in a low-level starfield, such a thing could only be considered child's play.

However, at this moment, everyone had goosebumps all over their bodies!

The face that appeared wasn't that terrifying, but everyone could feel an uncontrollable chill surging into their hearts. It was as if the fear that was engraved in their genes had been awakened. Almost subconsciously, they... They felt their legs go weak and they wanted to give up resistance...

What... was this?

Everyone from Tyree Fassen was asking this question in their hearts, but no one dared to open their mouths, as they were afraid that they would attract that thing's attention.

At this moment, Ye Feng, who was being stared at, felt as if every single cell in his body was being frozen by the chill of fear. Having already died once, he once again felt a fear that was even more terrifying than death... ..

"Very good... very good..."

The elder flashed a strange smile. "Your faces, I... have all remembered them..."

His hoarse voice was like the sound of a fingernail scratching on a wooden board, making people feel extremely uncomfortable mentally and physically. The figure of the person slowly became blurry with the last sentence, and finally disappeared on the spot... ..

The moment that guy disappeared, almost everyone fell to the ground as if they had lost their strength, and they were panting on the ground like soft mud!

They looked at each other in fear. They could hear their own heartbeats!

"Then... What is it?" Lu Luo could not help but ask.

"Nightmare... "Ye Feng did not hide anything. He was panting heavily and directly exposed the other party's identity. Because in the following period of time, everyone had to be on guard against that terrifying guy.

"Nightmare?" Lu Luo frowned. "How is that possible? How can a nightmare be that terrifying?"

More than half of the big families in the Northern Star area had raised evil gods. As the top black priest family in the Northern Star area, the Lu Luo family had more than a hundred evil gods. A low-level evil God like nightmare.., he had seen it when he first attended the black priest ceremony. How could it be so overwhelming?

“It’s not some iteration seeds raised by your families... “the female undead next to him said coldly. Willow immediately mocked, “If it’s not an iteration seed, could it be... “when she said this, she paused and looked at everyone in shock... ..

At this moment, everyone else, including Tyree Fasson, also looked at this group of undead in shock...

“No... No Way?” Greed swallowed his saliva and said with extreme caution.

Deep in their hearts, many people subconsciously did not believe it. After all, that existence had not been heard of for a long time... ..

The Seven Great Evil Gods of the ancient times! !

“Why is it here?” Lu Luo’s face was pale. “How did that thing appear here?”

“That thing has always been here... “Ye Feng said faintly, “Have you forgotten where the last time the nightmare riot was recorded in History?”

Everyone was stunned. Suddenly, they recalled the records of this thing in the history class.

The ones who opened the evil God’s outer realm passage were the first generation of the spirit race, which was the first to rise from the spirit civilization. At that time, their spiritual power was exceptionally strong, and they had established an all-spirit civilization that could contend with the Titan civilization...

However, due to the advanced development of the elven civilization, some arcanists who studied alternate dimensions accidentally caused space chaos, causing the physical plane to intersect with the outer realm parallel world. After that, the civilization that studied the outer realm had been involved in every era, and the Moon Elves from the Elf era were the ones who developed the most. .

It was also from the time of the elves that creatures from the outer realms invaded the universe. Long before the invasion of the terrifying void, some high-level creatures from the outer realms attempted to invade this place and even developed many believers.

The seven evil gods were the representatives of that era!

The Nightmare Realm was the seventh ancient god in the records. It was the only terrifying evil god that did not have a religion. Every time it descended, it represented the most extreme massacre. The Starfield that was shrouded in darkness was the area of massacre. That Evil God., it was once the most terrifying existence!

It represented extreme massacre, chaos, and fear. Only the most extreme fanatics would try to communicate with such an existence...

Such a terrifying existence was once the most active in the era of developers!

Developers, as the most outstanding representative of the spiritual civilization, was the most ideal state of life for countless spiritual lifeforms today. In that era, outstanding mechanics and Arcane Alchemists emerged one after another, many theories of the current civilization came from that era of brilliant culture!

But the smarter the race, the more likely they were to become paranoid. There was the Church of Glory who wanted to mechanize the entire universe, and then there was the arcanist who wanted to open up the parallel world. It was also at that time.., the seven evil gods were the most summoned.

As the representative of slaughter and chaos, the nightmare ancestor naturally frequented the universe. It was said in the records that at that time, there was an extremely dark period when the dream world was torn to the extreme, it was almost merging with the real world!

At that time, there were galaxies in the universe that were shrouded in darkness every day. Every day, hundreds of millions of creatures were massacred by the nightmare!

But for some reason, during that incomparably dark period, as if they had agreed upon it, the evil gods that had been dancing in chaos suddenly disappeared without a trace!

The history of the Seven Evil Gods was limited to the era of the developers. No one knew what happened, but the ancient evil gods that had been recorded in history no longer appeared in the later eras... ..

Even in the era of the spirit race, where the black priests were the most rampant, no traces of the Seven Evil Gods had ever appeared again... ..

When they recalled this history, everyone's faces instantly turned pale, Lu Luo said carefully, "You're saying... Those Evil Gods didn't disappear inexplicably in the era of the developers, but had already been solved by some method in that era, right?"

"Yes... "Ye Feng looked at Lu Luo and nodded slightly. These college students reacted very quickly and did not need to explain too much, so he said directly:

Suppressed! "

"Repression?"

"Literally... <per_0> . "In fact, the seven evil gods did not disappear during the era of developers. Instead, they were secretly suppressed. A few top-notch forces of developers suppressed the Seven Evil Gods, and the ancient God nightmare that represented slaughter was suppressed in the glorious sect's base in the Hemlock Forest! "Ye Feng said faintly

Everyone: ' ! !

"Then... "Yao Feng swallowed his saliva, and after a long time, he carefully asked, "Then this time... the divine fire fragment..."

"It seems like you've thought of it... "Ye Feng looked at him. "Yes, the key core to suppressing the nightmare is the divine fire that the sect of glory once relied on the most, and the reason why the divine fire collapsed.... is because the seal was broken!"

Chapter 1792: If you take one more step, I'll cut you...

"This... isn't this too magical?"

Faced with this statement, Lu Luo could not help but mutter...

To be honest, everyone could sense that the monster was not simple, but they did not expect it to have such a background!

What was the concept of an ancient evil god? It was a mighty being that had invaded the material universe in ancient times, and each of them had destroyed countless civilizations. If it were today, they would at least be at the level of the ten great lords and Guardians of a race!

Were these little shrimps supposed to be able to touch such things?

“All of this... was done by you?” Yao Feng could not help but ask.

“There are some things that I can’t tell you...” Ye Feng shook his head and said,

“But this question can be answered. We did it...”

“Then what’s the point of playing?” Lu Luo said with her hands paralyzed, “Lie flat, what’s there to struggle about?”

What a joke! A group of students who hadn’t even reached the dragon level, even though they all thought that they were elite seeds, they were still seeds after all. Moreover, no matter how elite they were, none of them dared to be so arrogant as to think that they could grow to such a level!

Who knew how many elite students like them would graduate from the Federation every year? Those who could successfully advance to the star level were extremely rare. Moreover, those who could enter the Sea of life were one in a billion, the direct descendants of a large family.., no matter how carefully they were nurtured, there was a great risk of them dying. Usually, if they wanted to nurture a life sea level expert, they had to be patient. They had to look forward to it from generation to generation, and some were unlucky, even if they nurtured hundreds of generations, they probably wouldn’t be able to nurture a life sea disciple.

Not to mention a guardian-level existence that could contend against an evil god. It was similar to the Starry Sky Imperial Family: The Windwhisper family, a top large family clan. Until now, there was only the high priest alone...

What else could they, a group of children, do in the face of such an existence other than accept their fate?

Everyone’s faces were ashen, but Yao Feng stared fixedly at Ye Feng. This group of undead probably did not lie, but they did not finish their words because there were many loopholes.

“Your actions just now were clearly to save her, right?” Yao Feng took a deep breath and tried his best to calm himself down, he asked carefully, “Why? I heard from my friend that this little girl’s injuries were caused by you guys, right? You guys were clearly killing her earlier, so why are you saving her This question immediately made the others look over curiously.

Indeed, from the vicious expression of that monster just now, it was indeed the undead that had saved that little wind demon. Moreover, at the same time, it seemed to have offended that monster! !

It was very illogical...

"I can't tell you the reason..." Ye Feng narrowed his eyes and said, "But now, I really want to save her..."

These words caused Dutton, who had rushed over to protect Li Goudan, to be stunned... ..

What was the reason?

"Alright..." Yao Feng nodded. "No matter what the reason is, your current goal is to save this little girl, right?"

Ye Feng: "Yes..."

"Alright... then at least for the time being, we shouldn't be enemies, right?" Ye Feng paused for a moment before finally nodding. "Yes..."

To be honest, he didn't really think much of Riverson's group. Other than this captain who was qualified to be a substitute, the rest of these people didn't even have the qualifications to be substitutes... ..

But in the end, he still decided to cooperate. After entering the darkness, physical strength and mental strength were very precious. If it was not necessary, it could not be easily wasted. Moreover, in many cases, the other party could be used as cannon fodder...

Yao Feng took a deep breath. "Alright, then since it's a temporary cooperation, in order to get everyone out of danger, I want to ask you some information. You can answer according to the situation, and also for the survival rate of the team in the future. How about it?"

Ye Feng: "Alright..."

"Then I'll ask..." Yao Feng nodded and said, "Previously, you said that the monster was one of the Seven Evil Gods, the Nightmare's ancestor. If it was at this level, it clearly had killing intent towards all of us just now, so why didn't it directly attack?" "If my guess is correct, this so-called Nightmare's ancestor isn't complete, right?"

"You're indeed very smart..." Ye Feng said in a low voice, "What else did you

Yao Feng: "Any mighty figure who breaks the seal will have an extremely unstable energy around them. The powerful ones will even cause the entire plane to shake. Moreover, although you said that the main core item that suppressed the Nightmare's ancestor was the divine fire seed, to seal such a mighty figure, you would need to at least have a rather complicated and huge alchemy array, right?"

"If the Nightmare's ancestor really broke through the seal, the underground city wouldn't be completely destroyed. At the very least, it wouldn't be as complete as it is now. That's why I think it's not true that the Nightmare's ancestor broke through the seal. At the very least, he didn't break through completely, right?"

surrounding undead's eyes turned cold. Ye Feng looked at him thoughtfully and said, "Continue!"

Yao Feng: "Then according to my thoughts, the Nightmare Lord has yet to break through the seal. In that case, if it wants to appear outside, it can only rely on its power projection. However, what we saw just now was clearly a physical body. A projection would definitely not be able to forcefully tear space apart.

This is because a projection involves a complicated spatial problem. The thing that it doesn't dare to touch the most is space...". . .

"So I'm guessing that you're either lying, that the monster just now wasn't the Nightmare Lord, or that the nightmare Lord had found a suitable entity and could directly transfer a portion of his power to that entity without needing a projection!"

"Then what do you think it is?" Ye Feng narrowed his eyes and asked.

"I think it's the latter... ". . . Yao Feng's tone was deep as he said, "At this time, there's no need for you to lie to us. There's only one possibility. That Nightmare has an extremely suitable entity that can project power. Evil God creatures usually have various requirements for projecting power. Those who meet these requirements are known as Holy Sons or Holy Virgins in many Low-level Plane Dao religions. They are related to the nightmare, and there are some who meet the requirements for special physiques. I think of someone... ". . .

<per_0> . . ."

Everyone.

The captain's words, almost just short of a person's name to write out! Night You Academy New Ace, is also the new captain: "He Lan Zi Yue! !"

"Gee... What's This?"

At this time, the side of the cabbage, almost all the people around are extremely surprised to see the cabbage at this time of operation!

It was an extremely exquisite manual work. It used the high quality water element in the surroundings to freeze every single blood vessel at the spot where the Phoenix was decapitated. Then, it used the water element as a suture to connect every single blood vessel at the neck one by one.

Its powerful hand speed was comparable to a miniature machine!

When a few teams of medics saw this scene, their eyeballs almost popped out!

As medics, they naturally knew what this was. The water element was silk, and there was no infection from the original suture. It was the flower spirit's unique spirit silk suture technique, but that required the cooperation of a high-precision instrument. Otherwise, if it was a person.., complete the operation of suturing blood vessels or even nerves?

But the other party... was using manual labor the entire time! !

What kind of precise mental manipulation ability was this? ! It was comparable to the most advanced medical mystery instrument, and it was simply Inhuman operation!

"It really is... "in the team, a black figure walked behind Bai Cai. His eyes were filled with the same surprise as everyone else's, and he sighed, "What an amazing guy... "

Bai Cai's hand movements suddenly froze. He slowly turned around and looked over... ..

"If you take one more step, I'll cut you!"

Chapter 1793: Strange Creature

“If you take one more step, I’ll cut you...”

Bai Cai’s voice had the characteristics of a flower spirit. It was soft and gentle. At any time, one would feel a sense of familiarity. Usually, when such a flower spirit said something fierce, it would be very unimposing... ..

However, Bai Cai was different. It had the same voice and the same comfortable tone. However, these words, which carried a warning, gave people a sense of threat!

It made those who were close to stop in their tracks!

Only then did everyone react and look over in shock.

The first to react were Carmen and Ba lie. The first thing that came to their minds was an inexplicable feeling... ..

This fellow... When did he get close to him?

Although the two of them had their attention on Grandpa Lu at that time, but... ? ... It wasn’t to the extent that one of them would get close to the operating table and not feel anything, right?

And then, for some reason, it was Star Academy’s Arthas and Toula... ..

The two of them were already on guard against this Helan Ziyue. Now that they saw the other party so strangely close to them, their vigilance grew even stronger...

Facing little cabbage’s warning gaze, Helan Ziyue smiled faintly. “I’m just amazed at your technique. I’m very sorry to have disturbed you...”

Zi Yue seemed to know that she had been too abrupt. She bowed slightly and quickly retreated...

Bai Cai saw that the other party had retreated and continued to do what she was doing. At this moment, her expression had a sense of nervousness that she had never felt before...

The two doctors who were watching by the side were also very nervous...

On one hand, they really wanted to tell this flower spirit that it was useless to do this. A normal creature’s head would be considered dead the moment it was beheaded... ..

It wasn’t that there were no exceptions. Some creatures with strange body structures had a chance. For example, mollusks, living creatures, or some darkness-type creatures with extremely strong regenerative abilities... They all had a chance to maintain their life force while their heads were chopped off...

But that definitely didn’t include the Phoenix. The Phoenix’s body didn’t have that kind of regenerative ability...

Those who did not understand might say that it was a joke. The body remodeling of a Phoenix during its evolution had never been an immortal skill. Many native planes had misunderstood this process, so they had given phoenixes the title of immortal birds. However, in reality... .. Phoenixes were extremely precious and fragile living beings.

Even if a phoenix did nothing, it could mysteriously disappear from its home because of a phoenix. To A Phoenix, a phoenix would be like a snake shedding its skin. However, a snake shedding its skin would only consume energy.., on the other hand, Yan Pan burned up all of his energy to reconstruct himself. Many phoenixes had died because of Yan Pan. In fact, the very beginning was to describe phoenixes.

And now, Grandpa's body was weak and his head had been chopped off. He had almost lost his basic physiology. Under such circumstances, it was impossible to trigger Yan Pan. If it was triggered, he would die even faster!

Suturing the nerves and blood vessels seemed to have repaired the wound, but for a dead life, no matter how well it was repaired, it was useless... .

But to remind the other party at this moment, they were a little reluctant. The main reason was that this technique was too exquisite. As a physician, this was simply a shocking art. They couldn't even bear to blink their eyes. How could they bear to remind him. " . Was this useless? "There's still a chance..."

Bai Cai thought to himself, 'there's still a chance...'.

"Xiao Jia, I keep feeling that entering isn't a good choice... "Yao Xing, who was carrying Wang Goudan on his back, furrowed his brows. After entering the area of darkness, the chill couldn't stop seeping into his body, making him extremely uncomfortable.

"It's indeed not a good choice to follow you in... "Wang Goudan said weakly, "It's true that it's very dangerous in here, but Bai Cai is in here. In my current situation, only Bai Cai can save me..."

"That newcomer from the Starry Sky Academy, Hua Ling?"Yao Xing frowned. "In the information, she's a magical beast master, right? Are you sure she can save you?"

Yao Xing had learned first aid before. Even a great doctor might not be able to save Xiao Jia with such external injuries!

"Xiao Jia?"

Yao Xing was stunned for a moment. Seeing that the other party did not reply, he hurriedly said, "Xiao Jia, reply! "

At this moment, with Wang Goudan on his back, he could clearly feel that the other party's body was so cold that it did not seem like a living person. It was so cold that he suspected that the other party would die at any moment.

Therefore, when he sensed that the other party did not reply, he became extremely nervous... ..

"Shut up... "Wang Goudan said weakly and impatiently, "I don't have the strength, stop talking..."

Yao Xing. " .

This guy...

“Do you think I want to Talk? “Yao Xing rolled his eyes. “I was originally such a cold and aloof person, but why do you think I became a chatterbox here? Isn’t it because I’m afraid that you ‘ll fall asleep?”

He knew very well that Xiao Jia’s current situation couldn’t be anyone’s. Once she fell asleep, she might never wake up again... ..

“No matter how tired you are, try your best to keep your spirits up and talk... “Yao Xing suddenly paused when he said this. He suddenly felt an extremely strong chill and immediately looked forward.

This time, he saw something staring at them from about a hundred meters away, in the darkness that greatly restricted his vision...

“Who is it?”

That figure didn’t say anything, but he just looked at them quietly, which made Yao Xing’s hair stand on end!

“Who is it? If you don’t say anything, I won’t be polite anymore... “Yao Xing warned.

“Coo Coo... “that figure suddenly emitted an extremely strange and terrifying sound. Just as Yao Xing was about to give another warning, that figure, without any symptoms, suddenly appeared in front of him! ! !

It was incomparably strange. He had never encountered such a strange thing before... ..

Because that thing didn’t seem to pounce on him suddenly. Instead, the entire scene was pulled closer!

It was like a mountain in the distance. You looked majestic, but in the next second, that mountain was right in front of you!

The situation was almost the same now. It was not just that inexplicable figure that had suddenly leaned over, but also those strange-looking objects beside the figure...

The entire space had moved over!

Moreover, it was already in front of him, but Yao Xing still found that he could not see the other party clearly. His angle of view seemed to be the same as the distance of a hundred meters just now. It was close at hand, but he could still see a blurry figure... ..

Under such a strange situation, Yao Xing, who had always been bold and careful, did not dare to move at all!

He was so nervous that every cell in his body was jumping. The muscles all over his body were tensed up, and cold sweat was dripping down his back. His mood was extremely cold!

This... what was going on?

” coo... ”

The monster tilted its head and finally began to move. A palm that was obviously covered with long fingernails slowly approached. The fingernails that were as long as blades gave off a terrifying feeling

that made one's whole body feel cold. It gave Yao Xing the feeling that it was like a butcher's knife that was extended to an animal... .

It was clearly extremely dangerous, but for some reason, he was unable to move at all! !

It was unknown when it began, but his legs were trembling so much that it was difficult for him to even stand up. It was also unknown when his body began to lose control of itself.

He could not even retreat and escape!

"Gu..."the shadow made a strange gu sound again. His long nails were extremely slow as they stabbed towards Yao Xing's eyeball!

His actions were very obvious and his malice was very obvious. However, Yao Xing could not move. He could not move no matter what!

He could only watch helplessly as the long and terrifying nails stabbed towards his eyeball... ..

The indescribable terror caused Yao Xing to despair to the extreme! !

Ding! !

Suddenly, the fingernails stopped...

Yao Xing stared blankly ahead as his long and terrifying fingernails were grabbed tightly by a black dragon claw!

Chapter 1794: reinforcements arrive

Yao Xing did not know what that thing was, but he did not want to know either, because he always felt that there was an unimaginable terror in this impenetrable darkness!

When that fingernail was about to close his eyes, his entire heart stopped beating, but his body did not react at all, just like some native planets that faced the plunder of powerful magical beasts. A low-level creature that only dared to kneel on the ground and tremble, an existence that did not even dare to raise its head, even if the other party was about to eat it in the next second...

He had only encountered such a dimensional gap twice. One time was when he met Lord Lich for the first time, and the other time was when he met Queen Xi.

It's over! !

This was almost the only thought in the depths of demon star's heart that he could barely maintain... ..

It was only when that black dragon claw tightly grabbed that long and terrifying fingernail that he finally managed to snap out of his daze and stared blankly at that Dragon Claw!

He had once heard of such a small legend that Wang Xiaojia had once forcefully attacked Her Majesty when she was releasing her pressure!

Most people did not quite believe this rumor, including himself. Even if he later found out that this fellow had such a strong physique, he did not believe that she would dare to attack her majesty under her pressure... ..

After all..! ... No matter how talented you were, you were still a tiny ant when facing those big shots who were already standing at the pinnacle of the universe!

It was impossible for you to have the ability to resist, this simply didn't follow logic... ..

But at this time, Yao Xing was starting to believe...

He could clearly feel that although the guy behind him was extremely weak, that incomparably strong will to resist was hotter than any flame! !

In the darkness, that strange creature made an extremely strange sound. Its attention was quickly attracted by the creature that dared to resist. The darkness twisted slightly, but that slender fingernail was still firmly grasped!

He didn't know if it was affected by the atmosphere, but Yao Xing actually felt that he could move slightly... ..

"Go... "Wang Goudan's voice was hoarse. It was as if he had not drunk water for a long time and had dried up for a long time. It was obvious that his vitality had weakened to a certain extent. However, Yao Xing did not know why, but he felt that when faced with that incomparably terrifying monster, Goudan's aura did not drop at all... .

"Go? "It took Yao Xing a lot of effort before he managed to squeeze out this word... ..

"Go... find little cabbage... forget it, you can escape... "Xiao Jia's words carried a hint of a sigh and helplessness.

Before Yao Xing could react, he was thrown out by a huge force!

"He can't Leave... "

Yao Xing, who was flying in midair, suddenly heard an extremely strange voice. It was a language that he had never heard before, but he could understand the meaning of the other party's words. The most important thing was the syllable... With a creepy sense of rhythm... .

"Let him go, I'll play with you..."

Xiaojia's weak voice came from below...

Yao star a blank, subconscious want to struggle, but subconsciously and stODDed struggling, consciously, he did not want to abandon his teammates, but instinctively, he wanted to seize this only chance to live.

He did not know whether Wang Xiaojia can make the other side compromise, only to hear Wang Xiaojia release conditions, the monster issued a sour bone strange laughter... .

Do not know how long after, Yao Star always feel like in a dream, a face suddenly from the ground to get up.

There was no more strange twilight in the sky, and the familiar warmth around him made him shiver. It was the thrill of escaping, but the next second, an overwhelming sense of guilt welled up in his heart. ...

It was really embarrassing...

He had used a newbie as a shield, but he had run away in fear of death!

“Yo...”

Just as demon star was in a dilemma, a mocking voice suddenly came from behind him.

“I really didn’t expect that someone could run out from inside...”

The unfamiliar voice made demon star’s muscles tensed up again. A green light flashed in his hand, and a dagger appeared in his hand without any symptoms. Without any hesitation, he stabbed towards his back!

From taking out the dagger to standing up to counterattack, his movements were smooth to the extreme. As the biggest Dark Horse of the previous year’s fellowship, besides his heaven-defying ability to shuttle through the shadow plane, Demon Star’s own combat strength was not inferior to any of the trump cards of any high school!

But such a fierce counterattack in exchange for only a stone into the lake effect, set off a trace of water spray... ... And then... <per_0> . And then nothing!

A pair of slender white fingers sniffed his dagger, a small figure, similar to the black elf silver-haired man smiled at him.

Just a fight, Yao Star know, the guy in front of him is not a head-on confrontation!

Run! !

Without hesitation, Yao star will activate their own talent, using the Shadow Shuttle, escape from here!

“I advise you not to do that...”

The teasing voice came out from the handsome man’s mouth again, “I have many things to ask you. If you want to use your shadow shuttle ability to escape, I will chop off your limbs...”

Yao Xing. ” ... ”

This guy... ” !”! Not only was his skill far superior to his, he also seemed to know his information like the back of his hand!

“What do you want to ask?”Yao Xing took a deep breath and raised his head to look at the other party. Only then did he realize that the other party was not alone. Behind him, there were at least four to five undead!

They were all unfamiliar faces. It was obvious that they were not from the same batch as the ones that Xiao Jia had fought with previously!

“How did you get out?”The other party asked with a smile.

“Do you know what that Black Curtain Is?” Yao Xing’s pupils constricted as he asked.

The undead smiled slightly and flicked his finger lightly. Yao Xing immediately felt a terrifying shockwave coming from the dagger. Before he could react, an intense pain assaulted him and his entire arm was instantly blown to smithereens! !

The intense pain caused Yao Xing to suck in a breath of cold air, but he did not move. He only stared coldly at the other party!

He did not run away or fight back, because he knew... .. It was all useless!

“Not bad... this psychological quality!” The other party smiled slightly. “It seems that Mi Jia’s information is correct. You are indeed a very good candidate...”

“Mi Jia? ?” His pupils dilated abruptly. Then, he came to a sudden realization. So that was the case... ..

“On account of your quality, I won’t give you any more suffering...” the undead still had a gentle smile on his face. “Answer my question just now. How did you get out?”

“My teammate sent me out... “this time, Yao Xing chose to obey... ..

“Teammate?” The undead narrowed his eyes. “Wang Xiaojia? She still has this ability?”

Yao Xing. ” ... ”

The other party indeed knew their intelligence like the back of his hand. However, with that traitor mi JIA around, how could he not know it like the back of his hand?

Damn!

The other party knew that he was with Xiaojia, did that mean... Micah had already returned to the team?

Big Brother...

“Please don’t exhaust my patience...” the specter smiled and interrupted Yao Xing’s train of thought. “Your quality doesn’t allow me to have much patience... Pll ask you one last time, how did that Wang Xiaojia send you out?”

Facing the other party’s crescent-shaped eyes, Yao Xing couldn’t help but shiver all over... ..

Just as she was about to speak, a cold voice suddenly came from afar... .. “Wang Xiaojia? Did you say Wang Xiaojia just now?”

All the undead were stunned, including the one who had been smiling all this while. Their faces froze slightly. When they turned around, they found a red-clothed elf standing a hundred meters away with a blue short sword in her hand, she looked at all of them coldly!

What shocked all the undead was that almost all the undead recognized the sword in her hand at once: it was the Frost Crystal Sword!

Chapter 1795: Another team leader?

This person... what background does he have?

The group of undead looked at the other party with a strange expression and became vigilant. Normally, the federation students wouldn't use a weapon like the Frost Crystal Sword in the world of the undead. There was a high probability that they had snatched it from one of their comrades!

The Frost Crystal was one of the top-grade materials in the world of the undead. To be able to equip the frost crystal sword, one must at least be the main force of the team. In other words, this fellow before them was at least capable of killing the main force of Team King!

Furthermore... .. It was yet another rookie that wasn't reported in the intelligence reports...

"It's You?"

Yao Xing was slightly taken aback when he saw the other party. He knew this little fellow. Back then, in the Judgement Hall of the bronze academy, he had left a deep impression on everyone when he had thrown away the captain of the Divine Arcana Academy, Ba Lie. Everyone subconsciously remembered this rookie from the Bronze Academy. It seemed like... .. He was called Feng Doudou...

Why was this child here? Could it be that the people from the Bronze Academy had come?

Yao Xing subconsciously looked behind him, but he didn't feel anything. The sliver of luck that had just risen suddenly sank again!

This group of People's skills were terrifying. They were probably far more powerful than the trump cards of the high school team. If the entire team from the bronze academy had come over and activated their academy's equipment in advance, not only would they not be able to defeat this group of people, they would at least be able to buy some space for themselves, this was because he only needed two seconds of safe time to escape through the shadow shuttle.

But... one person...

"Hey... "on the other side, the female elf raised the beautiful frost crystal short sword in her hand and frowned. "I'm asking you a question. where is the Wang Xiaojia that you mentioned just now?"

"Captain?"

In the team, a female undead approached the captain who was in the lead and said to herself, "Do you want me to try?"

If the people from Spark Academy were here, they would definitely recognize that this female undead was the short undead who had fought Grandpa Lu with his spiritual power.

The leader of the team was the leader of the Six Kings team: Sauta!

Hearing the female undead's words, Sauta nodded slightly and said, "Be careful!"

A light flashed in the eyes of the short female undead. She raised her head and a huge invisible palm formed in the air!

Feng Doudou seemed to have sensed the invisible mental energy at the first moment. Without even lifting his eyelids, he raised his hand and swung his sword. A thin stream of sword energy accurately struck the palm that was about to form!

In an instant, the palm that was about to form was smashed into pieces!

The female undead's face turned pale. She let out a muffled groan and closed her eyes!

Everyone was stunned, and they stared at her with their eyes wide open!

"Ai, are you okay?" Auta held the female undead and asked with concern.

"I'm fine..." the undead named Ai slowly opened her eyes and looked at her in surprise.

In fact, using pure spiritual power to crush the opponent was a kind of arrogance for arcanists. Under the same level, arcanists would definitely not do that, but Ai liked it more because her spiritual power was far superior to her peers, even if she was a royal, she was confident that she could crush her opponent at the same level!

This was the first time that she had encountered such a situation where the opponent seemed to know that her spiritual power was concentrated in the core and could break it in an instant!

Feng Doudou looked at the opponent with a blank expression. In his heart, he had labeled the guy who used pure spiritual power as a retard...

In the base, most of the developers' mental strength was frighteningly high. As a result, some of the developers had tried to use pure mental strength to crush them, but in the end, they were all beaten up by the wood elves of the same generation... .

To be honest, in the current base, rainy girl didn't even dare to play like this. Back when her grandfather played like this, he was often pressed to the ground and beaten up by two dogs... .

She remembered that no one in the base had used this kind of retarded method when she was still at level four. The school had also made it clear that using pure spiritual energy to deal with non-spiritual life authors was a very retarded act.

She didn't expect that there would still be people using it outside.

Then it seemed... .. This group of people should be... .. Not very powerful... .

"Berlin, you go and try it. Be careful..." Saouta held the female undead called Little Ai, and a slender white-clothed undead next to the captain ordered.

"Alright!"

The white-robed undead responded and disappeared before everyone's eyes in the next instant!

This scene made Yao Xing's eyes almost pop out!

The disappearing footwork of the opponent was clearly an assassin's specialized footwork and was considered a stealth skill. However, stealth was usually used to detect situations that others had not noticed. Using blind spots in one's field of vision and using stealth secret techniques to carry out stealth.., the so-called secret technique was just using a special footwork and predicting the other party's field of vision to continuously enter the blind spots in the other party's field of vision.

Therefore, all stealth-type secret techniques were basically activated before the other party discovered the location. This was the so-called sneak attack. After all, how could an assassin be called an assassin in the open?

However, the brother in front of him had used a stealth-type secret technique in front of him. He had even succeeded, yet he was completely unable to discover where the other party had gone!

How was this stealth? It was clearly invisibility!

Sauta nodded his head in satisfaction. Berlin's stealth technique had become even more advanced. Even he had to expend a lot of effort in order to see the other party's trajectory... ..

However, he did not look at it at the first moment because he knew that some sensitive and intelligent warriors would judge the position of an assassin from the perspective of the people around them, therefore, powerful assassins usually used stealth to target everyone, not just one person!

Naturally, he couldn't reveal the position of his teammates...

"Eh? "Feng Doudou was also stunned. It was obvious that he had also seen the person who had suddenly turned invisible. He looked around, and a trace of curiosity flashed through his eyes.

Is this... a living person?

When Yao Xing saw this scene, he instantly lost his last hope. Not only did he not see it, but that little girl also didn't see it!

Then, Pm afraid...

Sure enough, in the next second, an extremely crafty and strange cold light suddenly appeared on the neck of the Little Elf!

Yao Xing thought to himself that he was done for. He didn't see clearly where the opponent had attacked from, and from the expression on the little guy's face, it was obvious that he didn't see it either... ..

An assassin of this level would not be able to sense the position of the assassin when he was close to him. The outcome of the battle was basically decided! Other than Yao Xing, most of his undead teammates thought the same thing!

However, Berlin, who was attacking, did not think so! !

Before he attacked, Berlin was also so confident. That was because when he sneaked up to his side, that fellow did not even notice him. It was obvious that he did not have the ability to see through his stealth secret skill!

However, at the moment when he made his move, an extremely terrifying pressure suddenly attacked him. If it was not for his strong self-control, he almost subconsciously threw the dagger in his hand out!

He forced himself to calm down. The moment he made his move, he stared at the other party. He looked at every detail of the other party's muscles. Even if there was a slight change, he would be able to capture and change his move at any time!

Thinking about it like this...

However, the moment his opponent's muscles moved, he lost his chance!

Similarly, an icy blue cold light flashed past. Without any warning, the dagger in Berlin's hand and his arm flew high into the air. Before Berlin could even feel pain, that blue light had already arrived before his eyes!

The crystal clear short sword stopped a millimeter away from his eyeballs. The pressure from the scorching frost crystal instantly penetrated through his entire soul!

What happened?

At this moment, Berlin only felt his mind go blank, completely at a loss!

Another captain level! !

In the distance, when Sauta saw this scene, his expression turned solemn!

Chapter 1796: Feng Dou VS Sauta (top) !

Another captain! !

Sauta could tell that the guy in front of him was a Captain!

Many people, including Berlin, didn't know what had happened, but he knew!

The situation was simple. The Little Elf didn't recognize Berlin's stealth skill, nor did he realize that Berlin had already sneaked up to him. It could be said that Berlin had already taken the advantage before he attacked!

But why did it end up like this? It was a very simple and crude reason, because the other party attacked faster!

Berlin's stealth skill gave him an excellent opportunity. Regardless of position or timing, he was far better than the other party. However, sometimes, it was not certain that you could win just because you had an opportunity. As long as you attacked later, he would be able to counterattack as long as he was fast enough., he would also be able to counterattack!

This was the situation in front of him. The moment the opponent attacked in Berlin, he sensed Berlin's position and attacked first. He blocked Berlin's path of attack, cut off his arm, and even held him hostage!

What he relied on... was the purest form of martial arts!

Sauta took a deep breath. This kind of person was the most troublesome. He did not have any secret techniques or special abilities. He just relied on pure martial arts to crush his opponent!

“Do you know where Wang Xiaojia went?” Feng Doudou pointed the tip of his sword at his opponent’s eyeballs and asked.

Berlin only reacted at this time. His entire body started to tremble in disbelief, but he didn’t dare to move. He knew very well that he could be beaten to such a state even when he had the upper hand. Now that he was being held hostage.., he didn’t even have the slightest chance to counterattack!

Who was this person?

In his team, he knew that he was definitely one of the best, but he didn’t even see how he had lost!

“He doesn’t know...”

Just as Berlin was at a loss, Captain Sauta’s voice slowly sounded, “I know...”

“Oh... is that so?” Feng Doudou nodded. “Then tell me. If you don’t tell me, I’ll kill your teammate...”

What a simple and direct threat...

Sauta also smiled. “If you can kill my teammate, I can also kill your teammate...” as he said this, he pointed to a place 10,000 meters away, somewhere hidden, he said, “At this distance, I believe you can kill all my teammates, but if I don’t care, you can’t Stop Me...”

As Sauta pointed, Reina and Barth, who were 10,000 meters away, suddenly had a change in expression. That killing intent was 10,000 meters away, but they felt as if a knife was placed on their necks!

It was as if as long as the other party moved, the distance of 10,000 meters was as if it was nothing!

“Who is this person?”

Barth sucked in a breath of cold air.

“I don’t know...” Reina also swallowed her saliva. That person looked at their undead. It was very dangerous, a hundred times more dangerous than the puppeteer from before!

In fact... ” ! She felt that even when she first met the crown prince, she had never felt this kind of pressure before!

“You’re very powerful...”

Feng Doudou moved the tip of her sword away from Berlin. Her attention was completely focused on Sauta. In fact, she had noticed this guy from the very beginning!

From her intuition, she could feel that this person was more dangerous than everyone around him. She rarely encountered this kind of pressure, at least... . She had never encountered this kind of pressure from her peers in the bronze academy... ..

“You’re also very powerful...”sauta smiled. “Can we discuss it? Let my teammates stay far away, and we can play alone?”

“No...” Feng Doudou directly shook his head. “A team formed like this also has a device, right?”

Before coming here, Feng Doudou had learned a lot about teams. The individual abilities of a team naturally had a strong proportion, but it wasn’t the decisive factor. The alchemy device in the team.., it represented the latest technological level of this university!

It was often the key to deciding the outcome. With the addition of the device, the strength of the main force in the team could instantly increase by several times!

Not to mention the unknown guy in front of her, even the guy who sneaked over just now. If she had the addition of the device, she wasn’t sure that she would be able to catch the other party’s knife again.

This was the reason why she chose to sneak over alone. Her original plan was to launch a surprise attack.

The reason why she didn’t act immediately was because she heard the news about Wang Xiaojia, and the other reason was because of this guy in front of her... “. She wasn’t sure!

“It seems that he isn’t a powerful but brainless guy...” Sauta said with a smile, “Can I ask your name?”

“Shouldn’t you tell me your name before asking others?” Feng Doudou said coldly.

“That’s true...”sauta nodded in agreement. “I was rude!”Then, he bowed and said, “I am the leader of the team under the sixth king of the Purgatory World: Sauta!”

“Green Copper Academy’s first group of interns: Feng Doudou...” Feng Doudou also slightly returned a sword salute... ..

However, the moment Feng Doudou lowered his head, SAUTA moved without any warning. His speed was astonishing. Almost no one who was observing the situation could see Sauta’s movements, the bewitching blue frost crystal turned into an incomparably sharp light in the other party’s hand and shot out at an extremely strange angle!

However, Feng Doudou wasn’t the only one who couldn’t see Sauta’s movements clearly!

The instant he saluted, Feng Doudou turned the short sword in his hand, and it immediately turned into a straight sword light that cut off the strange sword light that was like a stream of water!

“Good move!” Savitar praised!

“How Shameless!” Feng Doudou looked at him coldly. “Are all dead souls this unruly?”

This... was obviously a sneak attack, right?

“Ha!” Sauta laughed lightly. He turned the sword in his hand, and the blade seemed to turn into a stream of water, instantly surrounding Feng Doudou!

What kind of sword technique was this?

A strange light flashed in Feng Doudou's eyes. After joining the bronze group these days, she had seen quite a few sword techniques, but this was the first time she had seen such a strange sword technique.

It was like a stream of water that appeared out of nowhere, like a small stream of water, slowly flowing. It seemed gentle and gentle, but it was impenetrable. The entire sword technique completely enveloped Feng Doudou!

In the next instant, the short sword in Feng Doudou's hand turned into a myriad of stars, piercing into that strange stream of water like a shower of rain!

So Fast! !

Sauta's heart trembled, and he became even more careful. This guy's basic ability was above his! !

However, even though he was surprised, his hand movements weren't affected in the slightest!

Among all the captains, his basic ability wasn't considered strong, and it was even weaker than that ice eye who had already been killed. However, in terms of actual combat ability, Foyego didn't dare to say that he could definitely beat him!

This was because his sword skills were publicly acknowledged as the strongest among the six kings!

A cold glint flashed in Sauta's eyes. The power of the current suddenly changed, and the gentle stream instantly became violent. If it was just a stream just now, it was now like a Roaring River, carrying the power of a river that swept through all living things!

This caused Feng Doudou, who was surrounded in the middle, to immediately have his heart jump!

This mystical sword force was extremely dangerous. As the sword force changed, she discovered that whether it was speed or strength, both had increased by a lot compared to before. Especially the strength, after a few sword strikes., the sword in her hand was almost sent flying!

She could only rely on the way to deflect the force to barely spin around!

However, she felt that if she continued to spin around like this, the power of the current would slowly grow to the point where it could devour her!

Chapter 1797: Feng Dou Dou VS Savitar (part two)

Feng Dou Dou's premonition wasn't wrong...

Savitar's sword energy originated from an ancient mighty figure. It was like a stream, and then like a river. After that, it was like a monstrous wave that couldn't be stopped. During the crusade against the evil god, it triggered the power of the galaxy, the power of the universe!

The sword energy in Savitar's hand became smoother and smoother, but Feng Dou Dou's attacks became more and more strenuous!

Every time they collided, even if the method to deflect the force was at its limit, her meridians were still in disarray, and her qi and blood were also becoming extremely weak under the constant vibration!

Feng Doudou looked at the increasingly exaggerated sword momentum, and for the first time, a trace of anxiety appeared in his heart!

She could feel that the opponent's sword momentum seemed to have no end. If she continued to attack, just the remaining strength alone would probably shatter her arm!

"What kind of sword technique is this?" Yao Xing swallowed a mouthful of saliva and could not help but ask.

He could be considered to have some knowledge. During the last social gathering, he had seen the sword techniques of many top-tier families. He even had the honor of seeing the Red Lotus family's Red Lotus Sword Energy!

However, he felt that it was completely inferior to the sword energy before him. This sword energy seemed to be using the weak power of a living being to control the power of Heaven and earth. He could feel that the other party's strength was now strengthened by the miraculous operation of this sword energy.., he already had the power of a dragon. If they collided with each other, the little elf would probably be smashed into pieces!

"Kid... Don't be surprised... "the female undead next to him smiled and said, "This kind of secret skill is not rare in the death realm. As long as you are willing to serve us, you can also have this kind of inheritance!"

"Ha..." Yao Xing laughed when he heard that. "I can have it as soon as I join? Hearing what you said, secret skills of this level in the death realm are like wholesale!"

Facing Yao Xing's ridicule, the female undead's expression remained the same as she watched the stunning battle between the two people on the battlefield, she said calmly, "In the long flow of history, countless era's geniuses have fallen. In fact, there are only a few who can be remembered. Most of them have disappeared completely in the long river of history... ". However, the death realm was different. No historian could understand the history of the living world better than the death realm. This world, which was in harmony with the living world's yin and Yang and feared by many living beings, was actually the final destination of all living beings. and the only thing that could remember all traces of living beings was the death realm... "

As she said that, she turned to look at demon star. "Do you know? "Life and death can not be reversed. It is the universe's will that gives the living world justice. Because compared to the living world, the world of death has too many advantages. Putting everything else aside, just this inheritance is far from the same. The world of death has the essence of every civilization since the beginning of the living world. And although the living world has unlimited creativity, it has the ability to destroy civilizations infinitely. The essence of every generation can not be preserved, but the essence of every generation has been recorded by the world of death. Do you know the difference?"

Yao Xing. "

“This child is very powerful... “the female undead spirit said faintly, “In terms of skill, the captain is inferior to her, but unfortunately, in a fight of strength, in addition to her own qualities, she also has a foundation...”

Yao Xing sneered, “You make it sound so powerful. Didn’t you think that the large-scale invasion back then might be able to conquer the living world? Queen XI, a heavenly god Lord, was able to suppress the Master of Your

Undead Army. Where did she get the face to brag about her foundation?”

“Your words... <per_0> . There are two mistakes... <per_0> . “the female undead looked at her with a half-smile. “Firstly, the large-scale invasion back then was not the power of the entire race that you imagined. You Juniors who have been deceived by history have no idea that what you faced back then was only one of the kings of the undead world. If it were not for the intervention of some existences, this world of death would have been turned upside down long ago... ”

“Second, you guys have no idea what kind of background sylvanas has. You also have no idea what happened back then. She couldn’t suppress Arthas, and... She was never one of you!”

“This female elf is amazing...”

Just as demonstar was in shock, the undead assassin who had retreated said in a hoarse voice.

“Of course it’s amazing... “the teammate next to him mocked coldly, “Some people went up and took the initiative, but they couldn’t even take a single attack...”

“If it were you, you wouldn’t even be able to get close! “The undead assassin Berlin sneered.

“Alright... “the female undead birth stopped this meaningless exchange of insults, looking at the battlefield, she said, “That girl is indeed powerful. She wasn’t able to stop the captain’s sword at the first moment, which means that she doesn’t have enough knowledge. However, it’s also the first time that I’ve seen her being able to withstand the captain’s sword momentum to this extent... . this woman, in terms of skill, I’m afraid even Foyego can’t match her!

“how ironic... “Sauta’s voice came from the sea from all directions, making her position impossible to fathom. .

“Your skills, be it agility, explosive power or reaction in battle, can be said to be top-notch. Truthfully speaking, in terms of basic abilities, Foyego might not be as strong as you. However, it’s a pity that such an outstanding existence like you is unable to obtain a high-level inheritance under the rotten family system of the federation. Even the breathing technique that you used against your enemies is the basic breathing technique that the bronze academy has prepared... ..

Feng Doudou circled the area and asked with great difficulty, “Who is

Foyego

“Oh? You Don’t Know?”sauta said with a smile, “The Wang Xiaojia you mentioned was killed by Foyego...”

”

Bang!

With a clear sound, the sword in Feng Doudou's hand suddenly turned, bringing with it an ice-blue spiral force. It pierced through a weak part of the powerful ocean current, freezing it instantly, Feng Doudou directly turned into a streak of light and smashed out from the frozen spot!

Unfortunately, it wasn't the ocean current, but the force formed by countless sword forces!

After smashing out, Feng Doudou's body instantly turned into a bloody mess, instantly turning into a bloody man!

"TSK TSK..." Sauta clicked his tongue. If it wasn't for the sword force in his hand that couldn't be stopped, he would have clapped his hands and cheered. Under this sword force, his opponent really dared to smash his body! If he wasn't careful, there wouldn't even be any bones left!

"Red Lotus Sword Momentum?" Savitar smiled. "Not bad. I thought the federation was really pretending not to see a top-notch talent like you. However, this seems to be the secret technique of the Red Lotus clan's royal family, right? How did you learn it?"

"It has nothing to do with you!" The sword light in Feng Doudou's hand flashed, and a sword curtain swept over him!

Yes, the sword light was aimed at him. Without any hesitation, Feng Doudou removed all the infection from his wound!

Seeing this scene, the undead who had experienced countless cruel competitions all took a deep breath!

They couldn't help but sigh: this woman is so decisive! !

Sauta also slightly narrowed his eyes. This girl not only had outstanding skills, but her battle awareness was also frighteningly exaggerated. She was able to instantly capture the weak point of his sword force when he was talking., without hesitation, he used the Red Lotus Sword Force to freeze the weak point and charged out. He used the lightest flesh wound to increase the distance between him and her. Then, without hesitation, he cut off the flesh that was infected by the frost crystals!

This swift and decisive action... if he was in the same situation, he might not be able to do it as freely as the other party!

"That guy named Foyego killed Wang Goudan?" Feng Doudou used his muscles to tighten the wound and raised his head to ask coldly.

"Wang Goudan?" Sauta smiled. "If you're talking about that Black Dragon, yes, it is..."

"Did you say that Foyego was stronger than you?" Feng Doudou narrowed his eyes and asked.

"We'll see..." Sauta smiled as he raised the sword in his hand. The sword energy behind him was like a roaring wave that descended from the sky. It seemed like it was going to rush over and devour Feng Doudou in the next second!

"If it were me in my current state, foyego wouldn't be able to defeat me..."

"Is that so?" Feng Doudou immediately smiled. He touched the blood stain on his forehead that blocked his view. "If that Foyego is as good as you say he is, he shouldn't be able to kill Goudan!"

“Oh?” Sauta narrowed his eyes. “That Wang Xiaojia is stronger than you?”

“Not as powerful as me...” Feng Doudou shook his head. “But more powerful than you...”

Savitar: ” ... ”

“You don’t believe me?” Feng Doudou smiled as he raised his head. He gently raised the short sword in his hand. “It’s fine. You’ll believe me soon!”

Everyone froze on the spot, looking at Feng Doudou in disbelief!

It wasn’t because of Feng Doudou’s arrogant words, but because of her actions!

At the start, a stream of power formed behind him.. That sword momentum was exactly the same as Captain Sauta’s!

Chapter 1798: Reversal!

“Hey, Hey... what is she doing?”

The tallest man in the undead squad asked with his mouth agape.

All of his teammates who were also Agape looked at him in a daze, but no one could answer him!

Perhaps no one would be able to answer this question when they saw this scene, because what the other party did was something only YY novels would dare to write... ..

“This girl...” Sauta also stared at the opposite side in a daze, feeling that the scene was a little magical.

If it was anyone else who had relayed this scene to him, he would definitely think that the other party was crazy. Even if he saw it with his own eyes now, he would still feel that it was so surreal... .

However, as the authentic successor of the galaxy sword style, the owner who had practiced this sword style countless times was extremely familiar with every detail and every energy usage. Therefore, the person who would not be deceived the most would be him!

Obviously, the force that the other party used did not deceive him... .. It was the most authentic Milky Way sword force...

What a joke! !

Sauta could no longer keep that smile on his face. An inexplicable anger surged up in his heart. He turned the longsword in his hand, and the monstrous sea force that had been brewing for a long time surged toward the other party from all directions!

The powerful sword force was like a vast ocean that rose from the ground, as if it wanted to devour everything in the world. Seeing the shocking effect that the sword force had produced, Feng Doudou’s eyes flashed!

What a good thing...

Without hesitation, Feng Doudou gently turned the long sword in his hand. The water force that had just gathered turned into a tactful stream along with the long sword, facing the Roaring Ocean head-on!

Comparing the two, the visual effect was almost full. Everyone looked at Feng Doudou in surprise, not understanding why the other party really dared to face him. This feeling was like a bright spark crashing into the sun, one didn't even need to think to know the consequences!

Sauta was also slightly stunned. He thought that the other party would temporarily retreat!

After all, his sword momentum had already been formed, and the other party had just constructed it. In this kind of situation, everyone knew what the consequences would be if they encountered it, but why did she touch it so directly?

An inexplicable uneasiness rose in Sauta's heart. This uneasiness intensified the initial irritation in his heart!

"If you want to die, I'll Grant You Your Wish!"

This time, SAWTA did not hesitate at all. The surging sea force swept over, as if it wanted to mercilessly sweep the area into pieces!

After all, she did not have a puppeteer in her team, so she did not need an excellent carrier. As long as the other party was killed by her, after death, it would be considered as her team's reward.

Before becoming a teammate, she should teach the other party a little lesson. Letting the other party know the immensity of Heaven and earth was also for her own good, right?

Just like that, with an inexplicable anger, Sauta's sword momentum collided with the other party's!

Everyone's eyes widened as they stared at this scene, afraid of missing a single detail. Although everyone had expected the outcome, they were still very curious. Where did that little fellow's unhesitating confidence come from?

Boom! !

The scene that they had imagined did not appear. Everyone subconsciously imagined the scene of the little girl being crushed into pieces. However, that normal scene did not happen... .

The gentle water current in the little girl's hand rotated. The moment it collided with Savitar, it fused together... ..

Yes, just like how a normal water droplet would flow into the sea, it fused into the sea. It looked very harmonious. It was so harmonious that everyone, including Savitar, could not find anything wrong with it at the moment!

However, everyone subconsciously realized that something was wrong!

This monstrous sea force was just a force formed. In the end, it was not a real water flow, but a force formed by the heaven and earth energy caused by countless sword qi.

How could the other party merge into nature like this?

And what was the point of merging? If this continued, wouldn't she be shredded into pieces?

With such doubts, Sauta didn't know how to react for a moment... ..

Until an inexplicable force came from the sword...

It was a very unfamiliar yet somewhat familiar force, causing a trace of astonishment to flash across Sauta's face... ..

Unfamiliar because he hadn't encountered it for a long time, familiar because he had encountered this feeling before... ..

That was when he first learned this kind of sword stance. He would often be unable to control the situation due to the surging water. It was also at that time that he needed his teacher to watch from the side. Because if he was not careful, he would be sucked in... ..

But how long ago was that. How could the current him still have that kind of situation that only appeared when he was a newbie... .. Unable to control his strength?

Sauta looked over in shock, and was shocked to discover that it was not his own mistake that caused his sword aura to go out of control, but that his sword aura had been guided by a certain place!

What kind of joke was this?

Sauta's expression turned from shock to anger, and the longsword in his hand instantly started to spin. The monstrous sea aura turned into raging waves along with his anger, and the surrounding space began to change shape under the huge rolling force!

The surrounding undead quickly retreated, afraid that they would be sucked in together. It was obvious that the captain was angry!

The power of the sea swept through the space, and the surrounding space became distorted. Demon star was shocked beyond belief!

Was this the height that a non-dragon level life form could reach? Wasn't this too abnormal?

But what was even more shocking was Feng Doudou, who was at the center of the power!

Everyone realized that no matter how strong the captain's sword force became, it was unable to harm that little elf... ..

That little fellow was like a light boat in a raging sea. It was as if no matter how terrifying the waves were, it could still float on top of it.

Moreover... They didn't know if it was an illusion, but they had a feeling that although that little elf seemed to be drifting, it was actually... .. ! ... slowly guiding the entire situation! ! !

Outsiders could see this feeling, and sauta, who was inside, naturally felt it even more clearly!

He could clearly feel that the monstrous sword momentum he had constructed was slowly being lost in his hands. Step by step, he lost control, step by step... .. ! Being guided by the other party!

How was this possible? How was this possible! ! !

For the first time, while Savitar was furious, a hint of panic flashed across his eyes!

Because of this hint of panic, the sword aura in his hands became increasingly unstable. Meanwhile, the other party was becoming smoother and smoother. From a butterfly that was swept into the storm, he slowly became the center of the storm... ..

“See... I told you, you’re not as powerful as Wang Goudan...”

This time, it was Feng Doudou’s turn to speak more casually. His voice came from all directions. This time... .. It was Sauta’s turn. He was starting to lose track of the other party’s position... ..

“No... impossible...” Sauta looked at everything in front of him in a daze. He looked at the power that had been forcefully taken away from his hands, and he felt a little lost... .

How... how...

“Captain! !

Outside, the female undead suddenly shouted!

The shout with powerful mental strength made Savitar Quiver, and he suddenly woke up!

Only then did he realize that now wasn’t the time to hesitate!

However, as soon as he came back to his senses, a monstrous wave of power had already swept over!

“I’m sorry... “Feng Doudou’s voice was heard. “You’re a little troublesome, so...

I Won’t give you a chance....

Chapter 1799: Shit!

“Hu... Hu...”

A group of guests appeared in the dark night. Everyone seemed to be in a hurry.

It was as if they knew how dangerous it was...

In fact, they definitely knew...

“why... Hu... is it coming this way?”

The familiar voice had yet to calm down. It was Savitar, who had fought with Feng Doudou earlier!

“I don’t want to either, Captain...”

The one who replied was the female undead, Little Ai, who had unusually strong mental strength, she smiled bitterly and said, “The situation just now was so urgent. How could I possibly have the chance to

determine the exact coordinates? Also... just now, Captain, your sword had already distorted space. Even if you had determined the coordinates, it wouldn't be accurate..."

"Is that so..."

Sauta also smiled bitterly when he heard that. Looking at the night sky around him, he didn't know what to say for a moment...

Ai's decision was right. In the situation just now, if she didn't use the space device to teleport everyone immediately, there was a high probability that she would... "...". She would be killed by that female elf, right?

Once she died, the other party would use her sword momentum to kill all her teammates!

The magnificent six kings team was completely annihilated by one person. They probably did not even have the right to redeem their souls anymore. It was already considered lucky that they were not tortured to death by the lord out of humiliation and anger... "

"You did very well, Al..." Sauta took a deep breath and accepted reality. .

Little Ai was right. If he had continued, he wouldn't even have a 10% chance of winning... .

"Captain, how did that fellow do it? It was clearly your strength..." little Al looked at the other party. Even though he felt like he was poking his wound, he couldn't help but ask.

"How did he do it?" sauta looked at the sky and sighed faintly. "To be honest, this is the first time I've met him..."

He paused for a moment...

Actually, to be honest, this was not the first time he had encountered it. A long time ago, when his teacher had taught him this sword stance, he had done the same thing. However, it was not to deal with him. Instead, after he had integrated it into his sword stance, he had guided himself to master this increasingly terrifying power.

But what kind of person was his teacher, and what kind of person was that child? How could the two be compared?

But why... ? ... could that little girl do what only his teacher could do?

Distant Memories slowly welled up in his mind from the depths of his memory...

"Teacher... When Will I be as powerful as you, able to completely borrow my strength with just a little bit of strength?"

"Well... who knows..."

Sauta remembered that his teacher was looking at the starry sky of the death realm, he slowly explained, "According to your amazing talent, after you reach the dragon level, there is a 40% chance that you will be able to master this technique. However, the probability is that you will only be able to master this technique when you reach the great circle of the dragon level... "

“Ah... that long?”

“Long?”? It wasn’t that long. Techniques were something that tested one’s talent. Some people didn’t have that talent, even after becoming a star level life form, they still wouldn’t be able to grasp the essence of certain techniques. For you to be able to grasp techniques at the great circle of the dragon level, that was already very impressive... ..

“Ah, then if I were to grasp it at the early stage of the dragon level, wouldn’t I be an unrivalled genius?”

“Hahaha, that’s not to the extent... but I can still be considered a top genius in the universe. Of course, in this era...”

“This era? Teacher, what do you mean by that? Does it mean that the previous era wasn’t a top genius anymore?”

“The previous era? The teacher’s tone became gloomy, “The previous era...

the previous era was different, that era... there were some geniuses with talents that you couldn’t imagine...”

“What Gift?”

“They are born with a powerful talent. It is as if anything that is extremely difficult to others is as easy as eating and drinking for them. As long as they can solve it with their comprehension ability, it will never be difficult for them. It is as if the laws of this world are born for them... <per_0> . .”

“Teacher... is it that exaggerated?”

“Yes... “the old man’s gaze toward the starry sky gradually came to a realization, as if he was recalling a very distant time.

“I remember a very long time ago, and I can’t even remember which year it was. At that time, it was really starlight jade. The thing that left the deepest impression on me was a child, a very young elf child, and an alien. At such a young age, his talent was really incredible. He was still in the bone formation stage, yet he could learn my Milky Way sword stance just by watching it once.

Just by watching it once, he could borrow the stance from my sword stance...”

“Teacher... You’re bluffing. How could there be such a person?”

Bone Formation was a small division of life levels before the dragon-level. It was usually a sign that the various organisms around the body were close to the dragon-level. Bone formation was usually at level 13, also known as tempered dragon bones... ..

Level 13... ? ... borrowing power from a mighty figure like teacher... ? Even those bards who loved to brag didn’t dare to make such a story... .

“There is... “teacher slowly closed his eyes, it was as though he was recalling that moment. “A power-type secret technique is a technique that uses a small amount of power. Theoretically speaking, as long as the technique is sufficient and there isn’t the slightest mistake, no matter how small an existence is, it will be able to mobilize an unimaginable amount of power. That child...

under my sword's momentum, even the slightest mistake would result in her being crushed to pieces ...
..

"But... .. She didn't make a single mistake, not a single one ... Do you understand? You thought that she was walking on a tightrope, but to her, it was just as natural as when she was leisurely walking on the open road. It was simply an innate instinct!

"Captain? Captain?"

Suddenly, the surrounding scene blurred for a moment. When she came back to her senses, the group of teammates looked at her nervously.

"What's Wrong?" Sauta smiled when he came back to his senses.

"I thought you had fallen asleep, Captain..." the female undead let out a sigh of relief and smiled.

"Don't Worry! "Sauta flicked the female undead's forehead and stood up.

"Let's go first and find that guy. Otherwise, there might be a big problem..."

The undead hurriedly nodded when they heard that.

They all knew who their captain was talking about...

The seventh King's team, the chief captain personally chosen by Goddess LORCI. Until now, no one had ever seen a guy who looked like a real person... ..

Just like that, the undead maintained their formation and carefully followed Sauta into the depths of the night.

However, no one noticed that after they left, there was a blurry shadow shaking violently on the spot...

"Don't go, don't go! !"

If someone stayed behind and looked carefully, they would find that this blurry shadow looked exactly like Sa Wuda... ..

At this moment, sa Wuda's voice was filled with frustration, "Damn it, damn it, damn it! !"

He had only been in a daze for a moment, but he had fallen asleep! !

What should I do? What should I do?

"Yun Ji..."

Just as the blurry figure was struggling desperately, an extremely gentle male voice came from afar.

"This place makes me feel very uneasy..."

"Human?" Sauta was stunned and immediately struggled to get close to her....

Chapter 1800: The Strange Seven Kings (Part 1) !

“HMM... it’s indeed very unsettling...”

A beautiful female voice sounded, “I could feel it when I was outside. I’m afraid that there’s something very dangerous inside. However, the more I do this, the more I have to come in. The coordinates of Doggie’s last distress call was in this area... <per_o> .

Two people. Not the dead, it seems... He is a college student. .

Sauta tried very hard to look over, but space gap, it can not see clearly! But in any case, it must rely on the help of strangers to find their own teammates...

After all, he had the Black Crystal to protect him, and even if he was pulled into the dream, according to the contract, the monster couldn’t hurt him, but... . His teammate did not have the so-called black crystal... ..

The monster obviously had malicious intentions. It dragged him into the dream and took away his body... ..

Sauta struggled hard for a while, shouting desperately in that direction!

He did not know whether it was useful or not. After all, it was his first time entering the dream space. The dream space here had obviously begun to slowly merge with reality, but the two worlds were still very blurry. He could clearly feel that... The power that he could influence reality was very small... .

It was almost equivalent to a living soul that had not entered the world of death. In the living world, it could only affect a little magnetic field. People with poor spiritual perception would not be able to sense its existence at all.

Now that it was unable to move, it could only desperately try to call out, hoping that those two fellows would have some perception... ..

However, the hope should not be high, because when its teammates left just now, it had also tried its best to call out, but even little ai, who had the strongest spiritual power, did not sense it at all... ..

It was very clear that the fluctuation that it could create was very small, so small that it was almost impossible... ..

“Hey, can you hear me? Two lowly creatures?”

Sauta became anxious because he could feel that the two of them seemed to be walking further and further away...

When there was no sound at all, Sauta sat on the ground in despair...

Damn it! !

He knew that that thing did not differentiate between friend and foe. If he did not find his body quickly, his teammates might be in trouble!

“Lowly creatures?”

Just as Sauta was feeling helpless and angry, a cold female voice suddenly sounded in his ear like a ghost, scaring Sauta so much that his hair stood on end. He almost thought that a certain master of this space had returned.

After all... .. Even if he had the black crystal that could save his life, if that legendary existence came over, he would still feel a little weak... ..

“Oh? There really is something...”the female voice said with interest. “I thought I heard wrong...”

Savitar:” ...”

When did this woman get close to him?

Even if he couldn't sense the outside world, not everyone could get close to him quietly. Moreover, he couldn't recognize the school badges on the two of them?

“Yun Ji, stay away. I'm not sure what it is yet...”a gentle male voice sounded helplessly.

“I don't think it's anything dangerous...”the female voice laughed. “At least I don't feel any danger instinctively...”

Sauta:” ...”

When I come out, you'll know what danger is!

“Hey... you were able to speak just now, right?”Yunji continued, “The lowly beings aren't talking about us, right?”

Sauta: “Don't tell me... There are other lowly beings here?”

“Oh...”Yunji mu pursed her lips and said to Wang Chengbo, “He's a retard.

Ignore him, let's go by ourselves...”

“Ahem... Wait!”Sauta immediately changed his tone. “Beautiful beings, please stop and listen to my voice. You are in a very dangerous situation...” “Oh?”Yunji squatted down with interest. “Tell me, how dangerous is it?”

“You should be able to feel...”sauta said faintly, “The inexplicable pressure in this dark scene, right?”

“That's why I asked you how dangerous it is. If you continue to talk nonsense, we will really leave...”

“Ahem... why is the little girl so impatient?”

“You already said that it's dangerous, why am I still in the mood to chat with you slowly?”

Sauta was stunned. These words... .. Didn't seem to be wrong... ..

“Ahem...” There was an extremely dangerous evil god in this black curtain. From the moment you entered this place, if you couldn't find the evil God's medium and get rid of it, you wouldn't be able to leave... ‘ . . . “And as long as you continue to stay here, it will become more and more dangerous...” . “ ...”

“So...”cloud herder raised her head and looked at the Dark Curtain. “This is something like a barrier or domain, right?”

“What a clever creature...”

“Do you know how to get out?”

“Get Out?”Savotta’s eyes were slightly misty... ..

“How do we leave this place?”

At this moment, Tyrifson was also asking this question.

While the group was searching for the legendary cabbage, they were also very concerned about how they would survive in the future.

According to this undead called Ye Feng, in this darkness, the nightmare would constantly use all sorts of methods to pull you into the dream world. The worse your mental state and physical state were, the easier it would be to be pulled into the dream world!

Most importantly, even if you remained vigilant, something would happen in the end. This night... .. It was the domain!

Its function was to slowly reverse reality. In other words, as time passed, the real space within the domain would slowly fuse with the dream realm. The longer it dragged on, the more things the nightmare could do in this space., the more dangerous it was!

Therefore, after finding the person, if they could deal with the injuries on the little wind demon’s body, the most important thing was how to leave this dark space that would definitely end up in trouble!

Facing the question, Ye Feng sighed. “There are two scenarios. The first scenario is that the captain in charge of signing the contract with the Nightmare Realm let us leave on his own accord. However, there’s almost no possibility of that...”

“Then aren’t you guys the ones controlling the Nightmare Lord?”Yao Feng couldn’t help but ask. “Are you guys not going to let us go either?”

“We’re not on the same team... actually, we’re not really companions...”Ye Feng smiled bitterly. “You’ll find out later...”

‘what do I know!’!

Yao Feng secretly pursed his lips. He spoke as if he would definitely become an undead and join them. It wasn’t like he had lived long enough!

“Then since the first scenario isn’t realistic, what’s the second scenario?”

Ye Feng narrowed his eyes when he heard that. “The second scenario... find the captain of the seventh King’s team and force it to let us leave! But there’s some trouble...”

“What trouble?”Yao Feng frowned.

“Because so far...”ye feng faintly said, “No one knows the identity of the captain of the seventh King’s Team!”

“What?”Everyone was stunned. “What do you mean?”

What did he mean by not knowing his identity?

Yao Xing reacted and said, “Identity? You Mean... that captain of Team Seven Kings is a spy?”

“Sure enough, it’s easy to talk to smart people...”Ye Feng said with a smile.

“A spy is to spread the news, right?”Yao Xing frowned and said, “How can you not know his identity?”

“I’m sorry...”Ye Feng shook his head and said faintly, “The Seven Kings’undercover is not to spread the news, but for internal competition...”

“Internal competition?”Everyone... Including Yao Xing ye looked at the other party in puzzlement. ...

“The Seven Kings’team only has three members...” . Ye Feng lowered his voice and said, “No one knows what the identities of the three of them are, and no one knows who is the team leader because.. ...

“After this trial, whoever survives will be the team leader!”

Everyone:”....”
