Chapter 1811: "You don't trust me, but I can only trust you... 'h

The voice was ruthless and cold, and its strength was also extremely exaggerated. Such a slender and weak body suddenly erupted, and it actually used brute force to push Ba lie to the ground!

With a loud bang, a dent was created on the entire ground. Ba Lie's face was even deformed from the impact, and the teeth in his entire mouth were shaken off, and he spat out large mouthfuls of blood!

The terrifying momentum and power only left everyone dumbstruck!

After the black priest invited the evil God to possess him, there were actually quite a few examples of his strength increasing explosively. However, his opponent was Ba lie, the number one seed of the five veteran academies of the Divine Arcana Academy. In terms of brute force, he was ranked in the top three in the entire interstellar fellowship all year round, he was actually suppressed by such brute force without any counter-attacks. Wasn't this newcomer from the Night Shade Academy a little too exaggerated?

In the distance, Feng Doudou's pupils constricted. This strength was comparable to Pu Yunchuan's!

"Tura, Retreat! I"

Without any hesitation, Arthas hurriedly transmitted his voice to Tura, asking him to retreat quickly!

Tura also did not hesitate and immediately withdrew and retreated!

Without any judgment, he knew that this fellow was definitely not someone that he and Carmen could win against!

As Tura retreated, Carmen also retreated hurriedly. And just as these two aces retreated, the demonized purple moon turned into a black light and chased after them!

The two people's expressions tensed up. Just as they were about to defend themselves, they realized that the other party seemed to completely ignore the two of them. Instead, it turned into a black light and directly pounced toward the other person!

It was Helana, who had transferred from the Night Shade clan!

The process happened too quickly. Everyone, including Arthas, did not manage to react in time. Other than the other party's extraordinary strength and speed, no one else would have thought that the other party would take the initiative to attack their own sister!

Although the two of them looked like enemies just now, their motives were not sufficient!

Whoosh! !

Helan Nana's face was pale. As she kept retreating, at the critical moment, the only person who could react in time made a move!

A stream-like sword light suddenly appeared next to Nana and directly clashed with Zi Yue's monstrous power. The incomparably gentle sword momentum completely wrapped Zi Yue's power within, it even wrapped Zi Yue's entire body within!

Zi Yue let out a sharp cry. A powerful qi and blood burst forth and directly scattered this incomparably gentle power. Just as she was about to move, the next wave of water power quickly connected as if it was an endless stream. It only made Zi Yue lose her temper for a while!

Seeing this, Arthas and the others immediately heaved a sigh of relief!

Fortunately, they also had a super rookie, otherwise, they really didn't know what to do!

Then, they said to the equipment hand behind them, "Activate the device, be ready to support at any time!"

Several high school teams all began to activate the device as instructed!

Seeing this, Zi Yue was anxious in her heart, but she was completely entangled by Feng Dou's strange sword momentum. No matter how she burst out, she couldn't escape from the other party's control!

In the end... It wasn't her own strength!

At this moment, Feng Doudou, who was entangled with Purple Moon, was a little confused!

To be honest, it was easier than he had imagined!

Although this woman had the strength of Pu Yunchuan, her control was very average. Her ability to grasp the timing wasn't even as good as Wang Goudan, who relied on his talent the most, it felt a little like those rookies in the base who had just become Green Titan!

The sudden increase in strength made him feel extremely uncomfortable, and his ability to display his strength was extremely limited...

But that shouldn't be the case!

Regardless of whether it was the undead or the doggie behind him, the level of the fellow he had faced previously was far above that of the previous owner, especially doggie. It was as if he had been completely dug out, and his combat strength had increased by at least one fold, if he were to fight alone, he would probably die in a single exchange!

Why did it feel like..? ... He was so weak?

"I'm not one of the three spies that the undead mentioned! "Purple Moon had no choice but to send a voice transmission to Feng Doudou.

"If you say you're not one, then you're not one?" Feng Doudou didn't know why, but he also replied with a voice transmission.

To be honest, she didn't know why, but she had only met the other party once, but for some reason, she felt that the other party's words might not be fake... However, the other party was indeed very suspicious. The sudden burst of power from his body and that cold temperament were exactly the same as Wang Goudan's body from before. They were both cold and penetrating. It couldn't be wrong...

“Would you believe me if I said that everything about me is a coincidence?” Purple Moon said faintly.

“Coincidence? What do you mean?” Feng Doudou frowned.

“The nature of my power, the black priest profession, the nightmare medium profession, everything that fits the best suspect at the moment is a coincidence!”

“Huh?” Feng Doudou was stunned. “Your profession? Didn’t you choose it yourself?”

‘I didn’t...’

Purple Moon narrowed her eyes and opened her mouth, not knowing what to say.

It did sound a little strange, because her life wasn’t up to her. When she was young, her parents were gone, and she was taken over by the main family. Because of her outstanding talent, she was quickly taken over by the main family, she even jumped over the original direct descendant, Helan Nana, and became the next head of the Helan Family!

It was so dreamy that it felt like the life of a main character!

In the past, she had never felt that there was anything wrong with it. Although she had also felt that it had gone too smoothly, she had never doubted it that much...

But now, she was starting to doubt it...

There was no problem with her direction. The Helan Family’s priestess was originally the black priestess, and her totem was fine. As one of the Seven Great Evil Gods of the ancient times, the Nightmare Lord was considered an authentic evil god. Raising the nightmare Lord Totem was the choice of many black priestess families, after all, compared to those random evil gods, the foundation of the Seven Great Evil Gods was still a little more authentic.

Although it was not an absolutely authentic ancient nightmare lord...

But ever since she was affected by the black curtain and enveloped by the power of the ancient Nightmare Lord, she felt that there was something wrong!

She had indeed lied. Her totem had not been taken away, but strengthened. It seemed to be a kind of uncontrollable strengthening, but she did not dare to say that, because she had said that in this strange black curtain barrier... She would definitely be feared by the people around her... ..

But no matter how careful she was, no matter how hard she tried to hide it, the atmosphere of suspicion would always lead to her, step by step, as if she had planned it!

Zi Yue took a deep breath. There was one thing that she could not figure out. If she had planned it from the beginning, then she should have started when she had chosen the totem. But at that time, the one who had advised her to choose the nightmare totem.., was the head of the Helan family, Helan Nana’s biological father!

It shouldn’t be...

That was why she would make a move on Nana. She wanted to confirm a thought in her heart...

But now, it seemed like it would not work...

Looking at the airtight flowing water sword in the sky, Zi Yue knew that with this family in front of her, it would be impossible for her to find the truth on her own... ..

Sighing, Purple Moon stopped struggling and reached her hand into her heart, slowly taking out a black crystal!

“This is... ”

Everyone, including Feng Doudou, was stunned. This guy... .. Why did he take out his mind core?

A spirit-type lifeform, the mind core was like a warrior’s heart, it was the central system that maintained the circulation of a large amount of mental energy. By exposing it like this, was he trying to lure her to attack the core?

Wasn’t this too obvious?

“You don’t trust me... But I can only choose to trust you... ”purple moon smiled at Feng Doudou... ..

“What do you mean? ”Feng Doudou frowned. He was about to ask again, but he heard a bang.. Then, he was dumbstruck as he watched the other party his spirit core with his bare hands!

Chapter 1812: Unexpected!

“This...

Everyone was stunned for a moment. They hadn’t expected the other party to do such a thing at this crucial moment!

Even though BA lie had said that he wanted the other party to destroy his own core and how he would compensate Yun Yun, everyone knew that it wouldn’t be easy!

The core of a spirit-type lifeform was naturally formed, and it was the natural crystal that was most compatible with one’s body. Once it was damaged, no matter how one tried to repair it the day after, it would still be difficult for it to compare to what it had been before, even if it was made from top-tier materials.

The difficulty of an artificial core entering star-grade was more than twice that of an innate core. One had to know that star-grade was a huge threshold for all lifeforms. If one crossed it, one’s lifespan would be counted as an era, but if one didn’t cross it., after all, it was just a mortal body.

With Helan Ziyue’s talent, if nothing unexpected happened, she would definitely become a star-grade powerhouse. Destroying her core was equivalent to destroying her future. It was probably not any easier than taking her life.

He never thought that the other party would be so straightforward...

The key was that the other party did this without any warning. Feng Dou didn't have time to retract his sword aura. Moreover, he didn't know if the other party did it on purpose or not. He chose the moment when his sword aura was about to be triggered! !

Subconsciously, Feng Dou took the initiative and turned his left hand. The icy blue sword that the Red Lotus clan guy had lost to her earlier instantly appeared in his hand. He immediately slashed at he lan Zi Yue with a cold light!

The incomparably sharp sword light cut Helan Ziyue in half before the water current sword could reach her!

Everyone's eyes widened when they saw this. They saw Helan Ziyue, who had been cut in half, smile gratefully. Her cracked lips seemed to be mumbling something, and then with a bang, she turned into dust!

"Dead... dead?" Ba lie looked at him with a somewhat dry expression. He had no teeth, and with just one sentence, a large amount of blood and saliva flowed out!

"Why?" Alston was immediately puzzled. He rubbed his chin and looked at the dust in the sky. His brows were tightly furrowed, clearly unable to understand...

The other party clearly hadn't reached that stage...

"Perhaps... he knows that he doesn't have a chance of winning..." Carmen explained with some hesitation.

Hearing this explanation, everyone was slightly dazed. Although it sounded a little forced, it still made sense... ..

That Feng Doudou was obviously stronger than his opponent, and there were so many ace captains supporting him. Although his strength was surprising, it didn't seem like he had much of a chance of winning... ..

However, when everyone thought this way, Feng Doudou seemed to come to a sudden realization... ..

She didn't think so!

Her family knew about her family's matters. If it was in the beginning, she was indeed confident of winning, but it was different just now. Her physical strength was already almost there. That Undead's sword stance was very useful, and its weakness was also very obvious. It consumed a lot of energy.., no matter if it was physical strength or energy!

After a few more battles, Feng Doudou had used this sword stance frequently, and her physical strength had long been exhausted. If she hadn't been able to take down her opponent in the last move, she would have slowly fallen into a disadvantage, so the outcome..." In her opinion, it was at most 50-50!

But her opponent had stopped fighting. This feeling was a little..."

Something was wrong. The key was, what did she mean by that last sentence?

"Right, did she say something at the end?" Arthas walked over and asked Feng Doudou curiously.

The other party had opened her mouth just now, but it was obvious that she couldn't hear anything. Furthermore, the shape of her lips was strange, and her words were too round. It was unlike any other mainstream civilization language that Arthas knew... "...".

Feng Doudou didn't pay attention to the other party. Instead, she stared blankly at the place where the Purple Moon had disappeared. Her face was full of sudden realization, as if she had experienced something incredible.

"It seems that you don't know either..." Arthas sighed, and then shook his head... ..

"I said it..." Feng Doudou suddenly replied like a machine.

"You said it?" Arthas' expression changed, and he quickly asked, "What did you say?"

But when he asked again, he didn't reply. Feng Doudou still had that dazed look on his face, and it made him extremely anxious!

"Hey, I say, now is the critical moment. Let's not waste time in a daze, okay?" Ba lie said unhappily.

If it were any other time, he would have asked him, but this guy's strength didn't allow him to do so...

"She said..." finally, Feng Doudou opened his mouth and said, enunciating each word, Run... while you still have strength..."

These words stunned everyone, and for a moment, they were baffled!

"What does this mean?" Carmen said with a frown.

"Ha..." ba lie laughed coldly and spat out a mouthful of blood. "What else can it mean? It's a taunt, telling us to run quickly, or else we won't make it in time?"

"Is it so... Cliché?" Jian from Spark Academy couldn't help but frown. Everyone slowly came back to their senses, their faces filled with doubt.

They felt that... it was too simple...

"Cabbage?"

Just as the atmosphere was getting anxious, a female elf from the Starry Sky Academy's voice suddenly came from behind!

Everyone, including Feng Doudou, hurriedly looked over!

After all, the reason why they wanted to force purple moon to death was because they were afraid that purple moon would really be able to control the cabbage in the end...

Now That Zi Yue was dead, if his previous suspicions were correct, then...

"Bai Cai?"

At this time, Bai Cai completely stopped what he was doing and stared blankly at Grandpa Lu. Everyone held their breaths and didn't dare to move!

However, those with slightly better eyesight were pleasantly surprised to find that the originally terrifying scarlet color in Bai Cai's eyes had disappeared without them noticing. It had returned to its original color... .. That Jade Green that made people feel extremely at ease... ..

"Bai Cai?" Feng Doudou quickly walked over. "Are You Alright?"

"Bai Cai turned his head around and cried in grievance when he saw Feng Doudou. "Doudou... Grandpa is dead! ! !"

Everyone immediately heaved a sigh of relief!

Although the other party looked extremely pitiful at this moment, it made everyone feel at ease. Being able to accept reality clearly meant that the other party's current state of mind was normal!

It seemed like... ! ... their previous suspicions weren't wrong. That Helan Zirai was the controller of the evil God's Nightmare!

"Bok Choy... It's alright... "Arthas slowly approached with a gentle expression. It was obvious that he wanted Bok Choy to calm down even more... ..

The surrounding elf teammates also approached him, but the strange thing was that Feng Doudou, who was supposed to be the closest to Bok Choy, didn't approach him!

Something's wrong...

Feng Doudou looked at the Crying Bai Cai. For some reason, he didn't approach him... .

She could clearly feel an inexplicable unsettling aura from BAI CAI!

If it was just this aura, it wouldn't be like this. The most important thing was that Feng Doudou clearly remembered that Helan Zirai... .. The last thing she said to him... . .

Yes, to myself, and not to the mockery of Barry's mouth.

"Run... While you still have strength..."

That word, the word is round, Feng Doudou has not heard any similar language, this language, Pm afraid only their own or together with the players understand.

Because... .. What they finally said:.. Hey! It's Huazhong! Oh! Oh!

Chapter 1813: Resurrection?

Ysera had said that the Huazhong language on Planet D was very unique. Whether it was words or pronunciation, it gave it a very unique feeling. It had traveled through the starry universe for countless eras and seen countless civilizations... But it had never seen such a unique language...

Therefore, Ysera had once told them that if there were some difficult times when they could not transmit sound, they could consider using the Huazhong language as a means of transmitting information, that was because seer had yet to upload the Chinese language into the language database. Even the most knowledgeable philologist would not be able to recognize the words that were written!

Feng Doudou thought back to Ysera's words in a daze, constantly thinking of a reason to explain what had just happened...

Could it be a secret speech technique?

The so-called secret speech technique was a communication technique invented by high-level spiritual lifeforms. It used the spiritual force to adjust the frequency, allowing them to communicate with each other completely under the same spiritual fluctuation.

When Pu Yunchuan and his group had first followed Seer Lord to the federation and met his sister Nicole, the other party had used this technique to communicate.

However, Feng Doudou immediately shook his head. She was extremely interested in this secret speech technique after hearing it, so after coming to the bronze academy, she had already learned about this technique. She was certain that just now... " ...". It was definitely not a secret speech technique!

The secret speech technique was a secret technique that regulated the mental energy channel and allowed the two to communicate in the same channel. In reality, it relied on radio waves to communicate, not language. When the two communicated through the radio waves, one would feel that the other party was speaking the language that one was most familiar with.

If there really was a technique that allowed one to instantly learn the other party's language, the Federation wouldn't have gone through so much trouble to create a language library... ..

The situation just now was obviously different, because the other party didn't make a sound at all. Feng Doudou was judging what the other party was saying by the shape of his lips!

Or perhaps... .. I was mistaken? The other party was actually speaking another language, but perhaps the shape of his lips was more similar, so I misunderstood?

All sorts of doubts surged up in her heart, but for some reason, she began to believe the other party's words more and more.

Because as she carefully recalled, she suddenly realized that he Ian Zi Yue's appearance was also very familiar... ..

That's right, why did she feel a sense of familiarity towards that fellow from the start? Why did she subconsciously want to believe him when he said that she was innocent?

Because she had neglected it. When she saw him, that incomparably familiar feeling... ..

Yes, it was the outline! !

After all the players, especially the players from central China, changed their bloodline, although their appearance had changed greatly, the outline in their bones could be vaguely seen. Therefore, in the five big cities, many people could tell at a glance.., who was a player from central China, and who was a player from Europe and America!

Because the outline was very different!

He Lan Zi Yue... was a player from central China! ! ! !

“Sob... Grandpa...”

Just as Feng Doudou came to a sudden realization, Bai Cai’s crying interrupted her again. She looked over as if she had just woken up and looked at Bai Cai nervously!

At this moment, Bai Cai’s posture, pupils, and emotions seemed to be exactly the same as the guy she knew in the past. There was nothing wrong with him.

But what was that inexplicable sense of unease?

Helan Ziyue’s last sentence was definitely not a taunt... ” . It was a warning to him!

Why did she tell him to run? What was going on?

(“Wuwu! ”

Just as Feng Doudou was racking his brains and couldn’t figure it out, Bai Cai’s cries became louder and louder. From the weak cries at the beginning, it slowly became a little noisy... ...

“Bai Cai, don’t cry anymore... ” Arthas sighed. “Let’s tidy up first...”

“Wah, Grandpa! !” Bai Cai cried even louder!

“Hey, are you done?” Ba lie couldn’t help but glare at her. His already deformed face looked extremely ferocious when he stared at her... .

Bai Cai completely ignored her and cried even louder. The strange thing was that as she cried even louder, the surrounding elements seemed to increase!

At this moment, everyone finally realized that something was not right. They stood up one after another and looked at their surroundings. Then, they were shocked to find that there were already so many elemental spirits around them?

Looking at so many elemental spirits, everyone couldn’t help but swallow their saliva. In the ancient lands, with such a high concentration of elemental spirits, once chaos broke out, even a star-ranked big shot would have to eat a pot of good food, right?

“Bai... Cabbage? ” Arthas’ face turned pale. “Calm down! ”

“Wah! ! ” Cabbage acted as if it didn’t hear anything and cried even louder. Then, the spirits that filled the sky suddenly gathered above cabbage, forming a natural tactical array that no one understood!

“Retreat!”

Arthas quickly shouted!

Everyone quickly retreated to Feng Doudou’s position and looked at Bai Cai with vigilance!

“What is this?” carmen looked at the tactical array in the sky and asked.

(‘I don’t know...” Arthas shook his head. As a priest of a big family, his research on runes was no less than that of other arcanists of the same level, but he had never seen such a tactical array!

Feng Doudou frowned and looked at the sky with a puzzled expression.

There was an extremely uneasy aura on the side of the cabbage, but this spell didn't have it. On the contrary... " ...". This spell gave people an extremely peaceful aura!

Something is coming out! "

Someone in the team suddenly shouted!

Everyone quickly looked over, and then they saw a tall figure with a pair of black and white wings slowly flying out of the huge spell matrix!

Arthas looked at the sky in a daze. That incomparably handsome figure looked like an elf, but it didn't look like one. The main reason was that it was too pure, so pure that he couldn't tell which race it was from!

Feng Doudou could recognize that this winged elf. The white part on the left was clearly a wood elf, and the black part on the right... ! It was obviously a moon elf!

The huge image of the elf slowly descended amidst the cries of Bai Cai. Its hands held Grandpa's body as if it was holding grandpa in its transparent hands, then, an extremely pure energy shrouded grandpa with a hazy light!

Everyone fell silent for a second. They stared at the light with infatuation, unable to regain their senses for a long time!

After an unknown amount of time, Feng Doudou was the first to wake up. He quickly looked over!

The huge black and white fairy was gone, leaving Bai Cai Hugging Grandpa Lu and sobbing... ..

As Feng Doudou woke up, the others also slowly woke up. They looked over in surprise because they could clearly see that Phoenix, who was already dead, was now... " He opened his eyes!

"Don't Cry... "his grandfather looked at Bai Cai with a smile. "You're already alive, why are you still crying?"

"You scared me to death! ! ! "Bai Cai hugged his grandfather and sobbed.

"Good girl... It's okay... It's okay... "his grandfather said gently.

This scene looked extremely warm, but when Feng Doudou heard these words, he stared fixedly at Grandpa Lu, who had already come back to life!

"Eh? You really saved him?" Amanda from Spark Academy curled her lips.

"He's really lucky... "

"Shut up... "Carmen glared at him. What time was it? This guy... ..

Unable to be bothered to reprimand Amanda, Carmen looked at his grandfather with joy. "Wei, are you okay?"

Faced with Carmen's extremely concerned question, his grandfather acted as if he didn't hear it and continued to pat Bai Cai's back with his wings.

"Grandpa... I'm Sleepy..." Bai Cai said weakly.

"If you're sleepy, then go to sleep..." Grandpa patted Bai Cai's back gently.

"With me around, nothing will happen..."

"En..." Bai Cai slowly closed his eyes when he heard that, and a relaxed smile slowly appeared on his tear-stained face... ..

"You can't Sleep! ! ! "Beside him. ..! The elf closest to him suddenly reacted and tried to stop him!

"Don't go over!" Feng Doudou shouted.

However, it was too late!

A red flame shot into the sky and enveloped the female elf. The sudden change made everyone unable to react at all, and they watched in a daze. After a moment, the flame dissipated, and everyone was shocked to see.., the beautiful and elegant Elf from a moment ago had now turned into a completely dried up corpse!

"Shh..." Grandpa Lu turned his head and finally looked over. An extremely demonic smile appeared on the incomparably beautiful Phoenix's face... .. "Lower Your Voice, Don't disturb the little girl's beautiful dream...."

Chapter 1814: unique? That might not be

true!

"Emin..."

Tura stared blankly at the beautiful little girl he had been looking at since she entered school. She had been roasted into a dried corpse in front of his eyes, and her beautiful starry eyes were instantly filled with blood!

She was just about to take a step forward when she was firmly held down by a hand. When she turned around, it was the captain, Arthas. At this moment, Tura could also see that although Arthas was controlling his impulsive self, he himself had a look that seemed as if his eyes were about to burst, his bloodshot eyes made Tula's heart skip a beat!

But it was also true. Everyone knew what kind of friendship that girl, Emin, had with Arthas... ..

Unlike himself, Arthas and Emin had known each other since they were very young. It could be said that he had watched that girl grow up. She had been alive and kicking since she was young, but she had died so tragically in an instant, he must have felt worse than himself!

"Step back..." Aars took a deep breath and said these two words with all his rationality!

Tura fell silent and slowly stepped back...

"Little Wei... you..." Carmen looked at him in disbelief.

It was hard to believe that the little guy who usually liked to hide in the back of the team would become like this!

Grandpa Lu ignored him and looked at the Silent Feng Doudou with a smile...

"Aren't you happy to see me alive, Doudou?"

His voice and tone were exactly the same as Grandpa Lu's, and the expression on his face when he smiled was exactly the same. However, the malice that Grandpa Lu would never have, pricked Feng Doudou's eyes until they hurt!

She didn't really like this guy, Grandpa Lu. A guy who liked to hide in front of others but liked to show off in front of people weaker than him was very useless in her eyes.

However, when she saw that Bai Cai used all her strength to save this guy, she couldn't help but feel angry!

"How is Bai Cai?" Feng Doudou asked coldly.

"She's fine..." Grandpa smiled as he caressed Bai Cai's body. He gently wiped away the tears on Bai Cai's face. "This girl, is there a need to be so sad? Their relationship doesn't look good..."

"How do you know that grandfather and cabbage don't have a good relationship?" Feng Doudou asked coldly.

The grandfather smiled. "How do you not know? Because I am grandfather..."

"Aren't you..." Feng Doudou shook his head. "You don't even know grandfather Lu's memories. As long as you have some basic information, you wouldn't say such things..."

Grandpa: "

"Am I Wrong?" Grandpa tilted his head. "That's not right. From the emotional contact fragments, Phoenix and the Little Flower Spirit didn't have much contact. They've only known each other for a few years, and the time they spent together didn't exceed sixty hours. It should be a relatively familiar stranger..." "

"That's why I said that you didn't manage to grasp all the memories..." Feng Doudou waved the sword in his hand, the corners of his mouth curled up into a smile. "This lazy fellow, other than a few people, doesn't have much contact with anyone else. She spends 24 hours a day, 20 hours sleeping, and the remaining 4 hours stuffing things into her mouth..." "

Grandpa Lu: " ... "

"But even so, she is important to all of us. At the same time, all of us are important to her!" Feng Doudou said seriously. "In this vast universe, we are all each other's light..."

“Interesting... “Grandpa Lu stopped smiling. His scarlet eyes turned cold and gloomy. He said faintly, “So, what are you going to do for your light?”

“Live on! “Feng Dou Dou eyes a flash, suddenly toward a direction pounce over!

And what makes people surprised is that the direction of Feng Dou Pu, is not where Grandpa Lu, but next to Arthas, another Helan family child: Helan Nana there!

At the same time, far away in the Northern Star Field, in the territory of the Royal Night Hades tribe, a thin figure rolled out of a luxurious private biological capsule. He fell to the ground and was gasping for air as if he was choking on water!

From the configuration of the biological pods around him, it was obvious that this was a top-notch home. The cultivation pods were equipped with the latest model of the federation, and the surroundings were protected by extremely precise runes, even the nutrient fluid in the cultivation pod was top-notch life-nourishing liquid. If placed on the black market, a small bottle would be worth at least hundreds of millions of federation coins!

Using this top-notch nutrient fluid as a protective fluid for the biological pod could be said to be extremely extravagant. An ordinary noble would never do such a thing!

“The feeling of being reborn is really not that good... ”

The thin girl, who was panting heavily, muttered to herself with great difficulty and weakness. There was a self-deprecating tone in her voice...

If any D ball player were here, they would be able to recognize her. Her body shape, skin, and outline clearly showed that she was a Chinese!

When the girl raised her head, she saw a familiar human face. It was Helan Ziyue, who had fought Feng Doudou earlier!

After an unknown amount of time, a gentle voice slowly came from the darkness.

“Child, how much longer are you going to lie on the ground? Such a coward isn’t like you... ”

“Actually, I’ve always been like this...” Zi Yue struggled to get up. After taking a few deep breaths, she said weakly, “If I wasn’t as strict as you, elder ancestor, I would be a typical good-for-nothing waiting to die... ”

“Child’s words... “the gentle voice laughed. “What’s so good about being a good-for-nothing?”

“You can’t imagine how good being a good-for-nothing is... ”

“Put on your clothes first, child...” “...”. “I’ve set up a special enchantment for you. You can go out and breathe fresh air. You Don’t have to worry about too much energy. Your fragile body can’t bear it. When you recover your vitality, I’ll give you the best night demon gene in our family! ”

“Oh... as expected... “Zi Yue smiled. “Last time, the gene that you gave me wasn’t the best gene. That’s true. You’ve planned to let me die like this from the beginning. Naturally, you won’t let me waste the best gene... ”

“Hahaha! “The ancestor said with a smile, “Look at your childish words. Are you blaming me?”

“It’s alright... “Zi Yue said with a smile, “At least the ancestor didn’t really let me die just like that...”

“In that case, the ancestor is still blaming me...”

“It’s human nature... “Zi Yue said faintly, “After all, the ancestor still treats me as an outsider, right? From the beginning to the end, he didn’t tell me the plan and kept me in the dark...”

“There’s nothing I can do... “night demon called Elder ancestor looked at Zi Yue’s body with great infatuation and praised, “A unique child like you, if I tell you everything, Pm afraid you’ll lose control...”

Zi Yue sneered at him, “Elder ancestor really thinks highly of me...”

(‘I don’t think highly of you, I don’t think highly of you! “Elder ancestor hurriedly waved his hand and smiled, “Don’t be modest, my child. In the future, you’ll slowly understand that you’re the unique existence in this universe... ”

“One and only?” Purple Moon looked at him and revealed a smiling expression,

“That might not be the case....”

Chapter 1815: “Actually, there are quite a number of people like me...”.

Her name was he lan Zi Yue. If this name had been used in her previous world, it would definitely be ridiculed as a super stupid name, because usually, only television dramas would use this kind of name.

In fact, her real name was Zhang Xiaoyan. It was a very vulgar but very common name, and its popularity was only second to Zhang Wei, Li Na, Wang Fang, and so on...

Her life was also very ordinary. Her parents were ordinary dual-career workers, and her salary could only be considered average in the huge Shu kingdom. She worked hard for half of her life and barely managed to buy a house with three bedrooms and two halls in longquanyi district, as well as a home-made great wall, it could barely be considered a well-off home.

Her parents were ordinary, and she herself was not outstanding. From a young age, she was just a mediocre existence among her peers who were full of talents...

Her grades were average, and she barely managed to get into high school and university. With the help of her parents, she found a job in a primary school that was close to her home and began her long journey of matchmaking... .

Look, life was just like most ordinary people. There was nothing extraordinary about it.

However, it was just an ordinary person who had accidentally transmigrated to a so-called high-level planet and had actually become a world-class genius!

To be honest, sometimes he lan Zi Yue felt that her life of more than a hundred years was just a dream...

..

Sometimes she felt that when she opened her eyes one day, it would be her old mother nagging her about how picky she was on blind dates. If this didn't work, then she wouldn't want it. Was she going to marry a celebrity or something?

Even though she didn't activate her deep memory, her parents' faces were a little blurry...

Speaking of transmigration, she had to talk about her forty-ninth blind date that day. Before she left, her father had said to her in a mumbling manner, "The number of nine and nine is the extreme number, the number of seven and seven is the fixed number..." This time, she would definitely meet her ideal husband.

She rolled her eyes at that time when she heard a middle-aged man in IT mumbling about her superstitious father.

She just didn't expect her father's foul mouth to be partially effective. That day... .. It was really her destiny!

She didn't know how she transmigrated, but when she woke up, she was already in a branch house in the land of Night Lotus... ..

Her body and appearance had completely changed, and her skin had changed from the previous Macon color to the color of the night...

After many days of ignorance, he finally learned about his experience from the cheap parents who had taken him in... ..

It was because their only daughter had brought the genes that the old couple had passed down for generations to serve under a certain lord. Unfortunately, she died tragically on the battlefield and was unfortunately dragged into the void turbulence, the original genes in her body could not be recovered immediately, and she, who had transmigrated, had picked up a bargain.

At that time, he, who had been melted into a pile of rotten meat by the void rotten meat, swallowed the gene without the help of any surgery. Then, he became a standard night demon and was rescued by a passing ancestor... ..

Originally, he had planned to directly destroy himself, an outsider, and extract the gene. However, when he extracted and tested it, he found that the gene had actually fused perfectly with him. Thus, the ancestor instantly changed his mind. He chose to let that couple raise him first... ..

Thus, just like that, he became a member of night devil...

Without any foreshadowing, he started a new life!

In this new life, he was like the main character in those YY novels. He was clearly a loser in his own world, but in the other world, he was like a cheat, learning everything faster than the people around him. She ate more than the people around her, as if she had opened up the conception and governor vessels... .

Because she was too dazzling, the cheap parents died in an unexpected mission outside, and she was adopted to the main family, becoming the true successor of the direct line of descent!

Do you dare to believe it. It was so smooth that she thought she was the main character of the world, especially after understanding some of the common knowledge here, she felt even more incredulous...

...

Night Demon was one of the five great royal families in the universe, and the

He Lan family was one of the top big families of the Night Demon family. Such a family, she was an unknown outsider, but she actually became the successor of the patriarch?

The key was that she hadn't really worked hard before. She just ate and drank normally, worked hard to study, and improved every day. Everything was just like that. What was the difference between this and principal Wang and the others who were born with everything?

Although... it was pretty cool...

Ziyue... ”

Just as Ziyue was in a daze as she lamented about this illusory life, the elder ancestor's faint voice came from the front.

“This trip is also to give you a trial. After all... Your journey was too smooth previously, and your talent is indeed excellent. But you must know that an embryo that has not gone through trials and tribulations will never be able to become a peerless sword...”

Sword?

Zi Yue narrowed her eyes slightly. In her Chinese culture, the analogy of a sword was the analogy of a weapon. In the end, the other party was still using her as the best tool to nurture him... .

That's right, she wasn't his biological child after all...

Seeing Zi Yue remain silent, the old ancestor's footsteps paused slightly. He turned around and smiled, “You've seen many amazing things on this trip,

“Uh... “purple moon nodded: “Indeed unexpected, purple moon self-admitted inferior...” ”

The old ancestor smiled. “You don't need to belittle yourself. Those undead are geniuses that the entire death realm created through countless years of research. They are the crystallization of the power of the entire death realm. It's natural for them to be stronger than their peers. But even so, you definitely won't lose to those guys, because... .. You are a unique exception... .. .

“An exception?” Violetmoon narrowed her eyes as a hint of understanding flashed through her eyes... ..

So that's how it was...

The elder ancestor was in cahoots with the undead, but it was obvious that he didn't have complete control over the situation. At the very least... .. She didn't know that she wasn't unique.

In fact, when she saw those silhouettes in the Hall of judgment, she was already certain that those fellows were her fellow countrymen... . .

The reason why we don't recognize each other is that we are not sure where the other came from... . .

Well, if it happened to be someone from another time, like you, then it would be nice to know each other, you know, to get together, you know, to meet someone from another time, because, you know, in this big universe, they're... Of the people closest to me... . .

But the question is, where did they come from?

Because she could clearly see that her fellow countrymen... ! There was more than one!

So many people suddenly gathered together, and it was obvious that they knew each other. She would only believe it if they said that they had traveled together!

The probability was... .. They were probably sent by some faction... ..

She actually knew very early on that she wasn't unique. She was definitely not some so-called genius. If she was a genius, she wouldn't even fail to pass 211...

Therefore, she had been thinking for a long time that if someone smarter than her came here, would they be a genius among geniuses?

And this trip to the Hemlock Forest had verified her guess... ..

She was not a genius. She was stronger than the people around her because of her so-called unsullied bloodline. and the people who had such a bloodline were actually. ..billions! ! !

Chapter 1816: all of you... .. Where did you come from?

“How did you find out?”

In the crowd, the icy blue light was tightly grabbed by an extremely powerful mental energy, unable to advance a single inch!

Everyone was shocked to see Feng Doudou draw his sword and Helan Nana, who was smiling as she faced Feng Doudou!

At this moment... .. Helan Nana's voice and Grandpa Lu's voice from before...

It was exactly the same. Grandpa Lu, who had already been controlled, had already arrived behind Nana. He was like her magical pet, obediently standing behind her, using his terrifying mental power.., he was restraining Feng Doudou's sharp sword light!

“You overestimate me... ” Feng Doudou said coldly. (‘I didn't realize anything. If it wasn't for your so-called sister's last move and reminder, we would have been played to death by you without even knowing what happened... ”

“You're quite honest... ” Helan nana covered her mouth and laughed happily... ..

Hearing this laughter and Feng Doudou's words, everyone's expressions became extremely ugly!

Epecially Ba Lie, who had forced Helan Ziyue in the beginning. Right now, his entire body was red from frustration!

Feng Doudou was also very upset. At this time, he finally understood that strength didn't mean everything. A brilliant scheme could really defeat the strong!

From the very beginning, they had fallen into this Helan Nana's scheme!

The other party wasn't strong, at least... " ". They hadn't completely eaten up their strength, but they had created an atmosphere that could eat them up!

The so-called nightmare could only exert its strength in the dream, at least for the time being. As a result, their situation wasn't absolutely advantageous. As spiritual mediums, they relied on totems the most., being unable to exert their power in reality was a fatal weakness. It looked like they were trapped, but once they were found, they were also extremely weak!

Therefore, they chose to choose a strong individual to possess to increase their combat strength.

In fact, from this point, one could see their own weakness. Otherwise, if they were so strong, why didn't they kill all the individuals that entered the dream? How could there still be a situation where Wang Goudan was controlled?

However, even if they controlled the individuals, logically speaking, since they had already gathered several players, it shouldn't be a problem at all... ..

Feng Doudou was exhausted, but he knew that as long as he had Bai Cai's great blessing spell and his grandfather's help, it wasn't impossible to capture Wang Goudan alive... ..

Even if one of the three of them was controlled, the other two could still be subdued... ..

But... They couldn't calm down!

"What a terrifying gaze... "

Helan Nana looked at him with a smile and clicked her tongue. "What a terrifying aura... to be honest, I was shocked at first that there were so many powerful guys like little cabbage, but fortunately, none of them are very smart... "

Feng Doudou: " ... "

"Did you teach Bai Cai how to save her grandfather?" Feng Doudou looked at her coldly.

"Oh...". Nana looked at him with amusement. "Looks like you're not stupid." but I have to say that that guy is really talented. This is an ancient secret technique. I only whispered it in her ear once, but she was able to use it completely. She really saved that stupid bird. What an enviable talent "

Behind him, Arthas and the others suddenly understood. No wonder... " ...". He was also puzzled just now. Where did Bai Cai learn that kind of secret technique? He had never heard of it before. So it was the undead who taught her!

"You seem to know Bai Cai very well... " Feng Doudou said coldly. "How did you know that she would definitely risk her life for Grandpa Lu! "

“Because she is such a person...” . Nana smiled. “I’ve been pestering her for the past few months since I entered the school. It wasn’t a waste of time.

Although this guy didn’t like me very much, he was still a soft-hearted person. After a long time, we became friends. Naturally, it was easy for others to understand her personality...”

Feng Doudou immediately nodded. As expected, this guy had long set his eyes on cabbage. Otherwise, he wouldn’t have been able to pull off such a trap... ..

In fact, she should have realized that the evil God’s Whisper couldn’t control Bai Cai for a short period of time. That period of time should have been their best opportunity!

This was because they could confirm that the spirit medium was definitely nearby. As long as they found it, they could easily take care of it before the other party could control any of their combat power. Unfortunately, they had guessed the wrong target... ..

Thinking about it, it made sense. The other party dared to startle Bai Cai, so how could it be ziyue, that fellow who seemed to be full of doubts?

However, too many people, including themselves, were frightened by Bai Cai’s astonishing strength and aura. They chose to attack he Lan Ziyue, giving the fellow in front of them precious time to prepare!

If she had been able to see through all of this at the first moment, even if she could control Grandpa Lu, her side would still have the advantage.

With the strong mental strength of he lan Zi Yue and the strength of Bai Cai, originally... .. The advantage was on their side... ..

But now, because Bai Cai had exhausted her mental strength after saving the Phoenix, she had fallen asleep. She had used up a lot of her physical strength, and he lan Zi Yue had directly self-destructed her mental core and left the battlefield... ..

Feng Dou Dou understood that they had already lost. They, the group of players, had lost. Once he had exhausted his mental strength, he would also be controlled. If Bai Cai, himself, Wang Goudan, and Grandpa Lu were all under the control of the other party... The remaining Li Goudan, Yun Ji, and the others would definitely not be exempted... ..

They were all wiped out... it was right in front of their eyes! !

Feng Doudou’s entire body was trembling. Ever since he joined Galaxy and transformed, this was the first time he felt so aggrieved and powerless!

Could it be that it was like this?

She kept calculating in her mind that she could still play cards!

She definitely couldn’t count on herself anymore. She was already exhausted, and there was no way she could be a match for Grandpa Lu who was currently in full condition. Although she often looked down on this phoenix, she was very clear that Grandpa Lu i s strength was actually not weak at all. He was just a coward... ..

The undead who knew the space spell couldn't do it either. Grandpa wasn't like Wang Goudan, he was a phoenix who was proficient in Arcana. The space spell couldn't be activated right under his nose!

Then who else could it be?

Li Goudan? Cloud Herder?

Feng Doudou bit his lips tightly...

It wasn't that she didn't trust her teammates, those two guys were strong, but they weren't strong enough to turn the tables in this situation. At this time, the ones who could turn the tables were definitely not people like Li Goudan and cloud herder. If rainy girl, WUGUA, or Alice were here... ..

Wait! !

"Look at that expression... "nana smiled as she looked at the other party. "Have you thought of a way to turn the tables?"

"I'm not interested in guessing riddles... "nana smiled. "Perhaps you're counting on your other teammates?"

Feng Doudou: " ... "

This guy... can he read minds?

"I have a question for you..."

"Someone as calculative as you still have a question for me?" Feng Doudou said with a cold smile.

"What I want to ask is... "nana narrowed her eyes and said with a smile, "Are you the same type of person as your friends and my sister?"

"Your sister? "Feng Doudou pretended to be confused. "Why would you say

"Because it's very similar... "nana narrowed her eyes and sized him up. "Whether it's the familiar outline or the incredible talent, they are very similar. It's because they are too similar that I set my eyes on cabbage in school... "

"Is that so? "Feng Doudou replied coldly. He didn't admit or deny it... Nana: "So... I really want to know... Where did you guys come from?"

Feng Doudou: " .... "

Chapter 1817: Perhaps there is...

Where did this group of people come from?

Helan Nana had wanted to ask this question for a long time...

In her memory, the elder ancestor had long treated Zi Yue as the true successor of the clan and was grooming her. It was clear that he was determined to let an outsider inherit the clan while she... .. As a true direct descendant, she could only become a spy... ..

Yes... A Spy...

Everyone knew that she inherited the talent of a magical beast master and didn't have the talent of the black priest. Thus, Zi Yue replaced her and became the successor...

Was that the truth?

Of course not...

But she had to disguise herself as the old ancestor wanted, a genius magical beast master. Thus, she really had to master the secret technique of a magical beast master. In order to prevent others from suspecting her, she even became the most talented magical beast master in history... .

However, no matter how talented a magical beast master was, they were only magical beast masters. The inheritance of the family would never be handed over to a magical beast master. However, the truth was that she clearly had the excellent bloodline of the black priestess, and it was not only her mother's talent inheritance... ..

However, in order to make way for that outsider, all of her outstanding things had been frozen!

Her noble direct bloodline and excellent dual bloodline talent did not prevent her from becoming a spy because... .. He Lan Zi Yue:.. .. ! That guy who was picked up from God knows where had the talent to make way for him!

Ever since the ancestor had nurtured her, the most he had said was, "This kid is unique! "!

However, it seemed that the ancestor had made a mistake. There were many treasures that were unique in his eyes...

Moreover, they had all become his puppets!

('I also have a question for you... "Feng Doudou avoided the question and asked back, "I remember... cabbage has a very sensitive ability to recognize evil intentions. Since you have evil intentions, even if you try to curry favor with her, she shouldn't trust you... "

"Well... "nana smiled. "Of course, it's because... When I approached her, I didn't have any evil intentions... "

"Are you kidding me?"Feng Doudou sneered. "Do you really want to get close to her?"

Ysera had once said that a pure flower spirit was the best at recognizing good and evil. It didn't mean that it could recognize good and evil itself, but that it could recognize the good and evil of others. This was because the flower spirit itself was a divine medicine. In ancient times., it had to know in advance if the beasts that approached it had good intentions that wanted to grow together or if they had evil intentions that wanted to devour it!

After countless years of identification, the flower spirit had already fully developed the ability to sense people. Therefore, it could not approach the flower spirit with malicious intentions from the very beginning.. ..

This was also the reason why Bai Cai treated everyone around her very well. It was because she knew that the people around her liked her from the bottom of their hearts. That was why they were together with her... ..

“At that time, I was indeed sincere... “Nana said with a smile.

(‘I see... “Feng Doudou nodded. “Did you change your memory?”

“Oh?” Nana looked at Feng Doudou in surprise. “You actually know about this!”

Indeed, when Nana approached Bai Cai, she relied on changing her memory!

It’s common knowledge that a malevolent spirit can not be approached by a high-born flower spirit, so either drop the malevolent thought or... <per\_0> . Completely cover up, but how to cover up the sensitive consciousness of the flower spirit? Of course it is to deceive oneself first!

So, his memory changes, seven true and three false will become a, to cabbage heart yearning people... .

(‘I see... <per\_0> . “nana smiled. “Is it the experiment brother and sister? They were the only ones who could change their memories during this mission. You Didn’t fall for it. Did you rely on scheming to identify them? “As he spoke, he shook his head first. “You don’t have that kind of scheming. Those two guys have received professional training. Although they can’t be compared to a certain existence, they can be considered to be flawless. You can tell that it’s because of your bloodline, right?”

Feng Doudou: “Bloodline?”

“Don’t you know?”Nana smiled. “The memory-changing secret technique of the fairy race is useless against pure-blooded wood elves... ”

Feng Doudou: ” ... ”

“I know from your expression... “nana smiled even more happily. “As expected, I wasn’t wrong. Be it you or Bai Cai, they are all true wood elves and not some so-called natives! ”

Everyone:” !!

After hearing these words, everyone looked at Feng Doudou in shock. The ones who were most shocked were the starry elves...

Pure-blooded Wood Elves?

How could there still be pure-blooded wood elves in this world?

Is this guy crazy? What is she talking about?

Almost subconsciously, the starry elves here all thought that the other party was talking crazy.

However, only Arthas and Tura looked at each other in shock!

“So... “amidst everyone’s shock, Nana looked at the other party with a smile.

“Can you answer me? Where did you guys come from?”

“You have nothing to do with rainy! “Feng Doudou sneered and suddenly retreated!

Just as Feng Doudou retreated, everyone also retreated quickly. In an instant, the group disappeared in front of Helan Nana's eyes!

"Run?" Nana's smile disappeared, and her brows furrowed slightly. She looked at the escaping group of people with some confusion... Oh, it couldn't be said that it was the group of people, because in reality, she only had Feng Doudou in her eyes... ..

The others... Really didn't pose much of a threat... .

What was that Feng Doudou Thinking?

He didn't use his last bit of strength to fight for a wave of escape? Could he run away?

An agile lifeform didn't kill the mage when he was close, but chose to run away. Perhaps even the stupidest gnome thief wouldn't do such a thing. Everyone knew that under the same level, assassins... .. ! In the hands of an arcanist, he couldn't run away!

('I don't know... "Arthas also shook his head, but that guy called Feng Doudou was telling them to run... ..

He was just subconsciously running. He didn't really know why he was running... .

After all, this nightmare boundary clearly couldn't just run out. If they didn't get rid of the nightmare medium, they would sooner or later die inside.

Although the other party had controlled the phoenix with terrifying spiritual power, it did not mean that they had no chance at all, because most of their devices had already been activated. They did not have no chance at all to fight to the death... ..

But if they ran away, once their physical strength was exhausted, they would really have no chance at all...

"You don't know? I don't know why you ran away?" Tura could not help but Roar!

"She ran away. Do you think... without her as the vanguard, we would be qualified to fight with the device on our own?" Arthas replied coldly.

"Uh... "Tura choked for a moment when he heard that. Clearly, he also understood how big the gap was between the strength of his group and those guys. Even if they activated the device, they had to have that Feng Doudou to hold them back. .

"But... We can't run away without a purpose..."

"It's not without a purpose... "Arthas said faintly. "I asked her telepathically the moment she ran away. I asked her if she ran away because she had a card to turn the tables! "

"What did she say?" Tura's eyes immediately lit up when he heard that... .

"She said... maybe there is..."

Tura: " .... "

## Chapter 1818: Chance Encounter!

At this moment, the fifth team led by Foyego was rapidly passing through the dark curtain that had covered almost the entire city center. However, as if they had sensed something, they instantly stopped!

Seeing this, the team members instantly stopped and became alert. The wearer directly locked the device with his spiritual power, ready to activate it at any time!

frowned and asked, "What's Wrong?"

"There's news coming..." Foyego's eyes flashed with a green light. "One of the spies has been exposed!" soon as he said this, everyone's eyes lit up!

They were afraid that they wouldn't be able to find the spies here and would be trapped inside. If they found the spies, they could at least force them to let them out.

After all, any spirit medium should be able to let them out of this enchantment!

"Which one is it?" The tall black-armored warrior in the team asked.

"Helan Nana from the Starry Sky Academy!" Foyego narrowed his eyes and said.

"Ah?" Everyone was stunned. They really didn't expect this result!

The most likely one was Helan Ziyue from the Helan family. After all, there were too many suspicious points about that guy.

The identity of the black priest, the totem of the nightmare, and some inexplicable birth identity. If it wasn't too obvious, people would have suspected that he was one of them.

However, no one expected that one of the real spiritual mediums was Helan Nana?

"Smart!" Foyego narrowed his eyes and said, "Using Helan Ziyue as a perfect distraction to conceal her identity and attract the other two spiritual mediums to attack, the trap is quite perfect..."

"But captain..." Lingji frowned and said, "Helan Nana is an authentic descendant, right? How can she be planted..." "at this point, she paused, then, as if she had figured something out, her face was full of astonishment. "Could it be... the Helan family..."

"There's no need to speculate about the higher-ups..." Foyego also narrowed his eyes and said, "It's not something we can participate in..."

"Captain is right..." Lingji quickly nodded.

"Then, captain, who's The Messenger?" The bald undead asked curiously.

"Long-range spiritual transmission..." Foyego narrowed his eyes with a hint of caution. "It's probably one of the other mediums who can lock onto our position and send messages from a distance!"

“Other mediums? “Everyone was shocked. Lingji quickly asked, “Since it’s a long-range spiritual transmission, captain, have you locked onto the Source?”

“No...”

Lingji. ” ... ”

This answer made everyone’s face, including Lingji’s, Sink!

The captain was a broken knight, and the growth of his spiritual power was almost on the same level as the growth of his martial strength. In other words, Captain Foyego was also a captain-level powerhouse in terms of spiritual power.

However, since the other party had taken the initiative to transmit his spiritual power and couldn’t track him, it could only mean that the other party... ” Possessed a spiritual energy that was much stronger than the captain’s, and could instantly cut off the captain’s tracking!

“It’s... That Strong?”The bald undead’s face tensed up, the fifth King’s team was more of a mage-type. His vice-captain was also a mage-type, but in terms of spiritual energy strength, he was still a level below the captain. In other words, one of the three great mediums actually surpassed the captain in terms of spiritual energy?

One had to know... Those three... .. ! . . . were only substitutes ! ! !

“That Guy knows our position and took the initiative to expose Helana’s identity to us. What does he want?” Someone in the team sneered.

“Of course he wants to fish in troubled waters. What else can he want? “Lingji also sneered.

“Captain, are you going?”The bald undead turned his head and asked.

Foyego rubbed his chin and hesitated for at least fifteen minutes, then, he slowly said, “According to the intelligence, Helan Nana shouldn’t have been exposed. With Helan Violetmoon as the target and her identity as a direct descendant, she shouldn’t have been the first to be exposed...” . ”

“Maybe she’s stupid? “Lingji laughed.

Foyego shook his head. “If she was chosen by the Spider Queen, at least her calculations wouldn’t be too bad...”

Lingji was stunned, but she didn’t refute in the end. No one would refute this point. Everyone knew that the seventh king, Rose, paid great attention to the calculation of the team members, which was recognized by the purgatory world...”

“Then what’s the reason?”The black-armored warrior in the team couldn’t help but ask.

Foyego took a deep breath and said, “Most likely... she has a huge advantage. For this advantage, she has to expose herself! ”

“Advantage?”Lingji’s pupils constricted!

“It seems that you’ve thought of it...” Foyego said with a serious face, “Most likely, it’s those team leaders. Perhaps some of them have been controlled by

Helana, and there might be more than one!”

“This...” everybody listens to a facial expression aghast.

Foyego went on: “If not absolute advantage, with her identity advantage, probably will not be the first to be exposed.”

“Then captain... : Shall We Go?” Said Reiki, drawing in a breath.

(‘I don’t really recommend... <per\_0> . Foyego shook his head. “If we can expose Helana’s coordinates and identity, it’s highly likely that the psychic who sent the message is also nearby. This means that we might face two psychics the moment we go there, and one of them even controls more than one captain-level psychic. Unless it’s absolutely necessary, I don’t recommend touching that side... ” ...”

Hearing this, everyone nodded. It did sound a bit scary. A spirit medium who was hiding in the dark, whose spiritual power was higher than the team leader’s, and a spirit medium who might have controlled many team leader-level characters, weren’t they all crazy, they probably didn’t want to face this situation head-on.

Ling ji frowned and said, “But if we look for the third one, the target will be even smaller, and it will be very difficult to find. Moreover, the third one might also be there...”

While they were talking, a fierce dragon’s roar suddenly sounded in the distance, and everyone’s faces changed!

“Is it that guy?” Lingji’s face instantly turned pale... ..

Hearing this, everyone nodded. Lingji leaned toward Foyego with a guilty conscience. The black dragon had been too strong, so the pressure was a bit too great... .

In just a few breaths, Foyego brought everyone to the place where the dragon’s roar came from!

“Captain, that seems to be... a member of the six kings!” Lingji used her super strong spiritual power to see the scene in the dark curtain in the distance!

“Not only the six kings...” the bald undead said, “There’s also a member of Tyrifson’s team. That black dragon is attacking our teammates. It seems to be under control!”

“Captain, what should we do?”

Foyego narrowed his eyes and looked at the situation. He immediately said,

“They can’t hold on for long.. Xiu, activate the broken device and support them immediately!”

Chapter 1819: Joint Forces (Part 1)

Foyego only had a slight understanding of the situation before he chose to immediately support the remaining members of the six kings team who had been attacked... ..

First of all, he naturally knew that the little black dragon controlled by the nightmare was far more troublesome than the one he had encountered before, but he still chose to act without hesitation!

This was not an impulsive action, but the result of many considerations!

To get out of this barrier, he had to catch one of the spiritual mediums. Although the hidden spiritual mediums here controlled the black dragon and were very troublesome, compared to Helana, it was likely to be more troublesome!

Second: this black dragon's aptitude was what Foyego wanted the most. Whether it was Feng Doudou who had killed his team member or the little cabbage in the intelligence report, Foyego's deepest desire was still this black dragon who had personally fought him, he was very clear about the other party's potential. Once he was pulled into his team, it would have an extremely high nurturing value. So, since he had to go all out, he might as well go all out with what he wanted the most!

Buzz! !

Following the sound of an energy explosion, a powerful evil energy rapidly spread out from the spirit princess device, forming a spiderweb-like energy barrier, completely enveloping the fifth king's team!

Under the cover of the evil energy, everyone's battle equipment changed, emitting a faint green light. Whether it was their chain armor, leather armor, or Mage's cloth clothes, they all seemed to come alive, countless green tentacles grew out to connect their body's meridians, continuously replenishing the external evil energy into their bodies!

And under the enhancement of the evil energy, everyone's meridians had obvious physiological changes!

The muscles of the warrior-type members expanded rapidly, and their muscles and bones became thicker and stronger under the help of the evil energy. Their entire body expanded by more than one-fold!

As for the agility-type members, their meridians had expanded by several times. All the energy could be seen gathering in the heart with the naked eye, forming a crystal-like transparent solid that enveloped the entire heart, the powerful energy allowed one to directly see the crystal-like crystal in their hearts through their skin and flesh!

Meanwhile, the spirit-type players' spiritual cores were instantly infected with a green color, rapidly expanding and expanding. The light they emitted almost caused their entire heads to emit a green light... .

In an instant, Wang Goudan, who was crazily attacking Tirefarson's team's barrier, stopped in his tracks. His pair of bloodshot eyes looked towards Foyego and the others!

The astonishing aura and pressure that separated them by a few hundred meters instantly caused Foyego and the others to feel as if they had entered a gravitational space!

Roar!

In the next instant, a Roaring Dragon's roar sounded. Goudan, whose entire body was burning with flames, charged towards Foyego and the others like a cannonball!

"Big Lun!" Foyego hurriedly roared!

"Heh!" The black-armored undead in the team from before laughed excitedly. With a gust of wind, he charged towards Wang Goudan with a monstrous aura!

With a loud bang, Wang Goudan's crazy eyes froze for a moment. Apparently, he was a little surprised that the other party could block her!

"Good guy! ! "The black-armored warrior who was called Big Lun grinned and said, "I feel like my bones are almost broken. It's only a level-12 life form. With this strength, I'm afraid it's at the level of a dragon, right? It's really abnormal!"

Wang Goudan: ?

Big Lun shouted, and the veins on his thick arms bulged. Evil energy poured into his body from the enchanted black armor. Instantly, his muscles and bones became thicker, and the Qi and blood that burst out instantly overpowered Wang Goudan! He lifted her up forcefully! This scene shocked the people below who had barely reacted!

"What the hell! That Fellow... who is it?"

Yao Feng panted heavily as he looked up, his face filled with shock... .

The group of people who were hurrying along the road suddenly encountered Wang Goudan, who was being controlled. They had almost been completely wiped out. Fortunately, they had prepared the black blood device beforehand, allowing them to barely hold on until now. However, even with the black blood device's boost.., there was no one in the group who could fight that monster one-on-one, especially when it came to strength suppression!

One had to know that the black blood device was a newly developed battlefield device of the Tyree Fassen Academy. Its superior performance and powerful augmentation abilities were well-known in the federation. Although it had yet to enter the battlefield.., its valuation had already surpassed that of many top-tier frontline battle formation devices.

This representative team of theirs naturally used all sorts of refined and refined complete products. It had played a huge role in the interstellar fellowship several times, and its evaluation was even higher than that of the old molten device of the Divine Arcana Academy!

However, even so, their group was almost crushed by the black blood equipment. If it weren't for the array formation set up by the props team, they would have been eaten alive by Xiao Jia!

"It's the fifth King Team! "On the other side, the members of the sixth king team instantly recognized the opponent. The one who used his strength to suppress the black dragon was obviously the first warrior of the fifth King team, da Lun!

"Attack!"

Big Lun raised Wang Goudan and threw him to the ground. The powerful throwing power directly distorted the space around him. This huge force.., it made Goudan fall down at an exaggerated speed. The friction between the scales and the air around him made the black scales on his body turn red!

“Conjuring! “Lingji shouted, she opened her hands, and a huge black rune array was quickly formed. A terrifying amount of evil energy was continuously injected into the array. A few arcanists of the spirit department beside her also activated the runes without hesitation, several spell arrays were formed in the air in an instant, and they merged together smoothly. Layers of runes overlapped each other, forming a huge rune array in the sky!

“Dragon extermination spell? ?”

Yao Feng and the others immediately recognized the level of the array and sucked in a breath of cold air!

The so-called dragon extermination spell was a general term for a spell array that surpassed level 10. It was a powerful offensive spell that could only be performed by a dragon-level great mage. Because its destructive power could kill a true dragon, a spell array above level 10.., low-level mages were known as the dragon extermination spell!

But everyone knew that the higher the level of the spell formation, the harder it was to complete. A large spell formation that was completed by many people required an extremely professional team of warlocks. The undead in the sky were obviously operating at a higher level than them, and it was the most difficult to operate a multi-player spell formation. But judging from the extremely smooth formation of runes in the sky, the completion rate was extraordinarily high!

Yao Feng and the others had to admit that whether it was the individual or the team’s completion rate, this team of undead that suddenly appeared was far above them, Tiriverson!

Roar!

Goudan clearly felt the threat of the huge rune array in the sky. With a fierce roar, the tendons and bones in his body reversed, and under the strong inertia, he actually showed signs of breaking free!

(‘F \* ck!’Da Lun, who had just won the battle in the sky, couldn’t help but widen his eyes. At this moment, it could be seen that the muscles all over his body were visibly shrinking, as if he was gasping for air. obviously... . ! The terrifying power of the jolt just now had made him pay a huge price!

“Go! “Foyego ordered coldly.. The rest of the team members ‘bodies flashed with green light as they followed Foyego and rushed towards Wang Goudan, who was about to break free!

Chapter 1820: Teamwork -Partpart 2)

The teamwork of a team was usually best seen in a team battle. It was easy to fight individually, but when a team needed to work together to deal with an existence stronger than a single entity, it was a test of teamwork... .

However, it was clear that the teamwork of this undead team was first-rate!

Just as Wang Goudan was trying his best to twist his body to break away from the inertia, three agility-type experts, including Foyego, charged towards Wang Goudan one after the other!

The first to arrive was a masked assassin lady. The weapons in her hands were a pair of fangs-like dual blades that looked as sharp as a butcher's knife, she darted to Goudan's legs and the two blades were like meat grinders as they frantically harvested the scales on Goudan's body. Bursts of sparks lit up, and the hard scales were like the hardest armor. They did not move at all, but the lady was not in a hurry at all., she kept changing her body shape, and the two knives in her hands kept slashing at the hard scales from various angles. Her strength was getting stronger and stronger each time!

As the strength increased, the energy crystal in the core became brighter and brighter. The huge amount of evil energy was continuously supplied to the four limbs. With the meridians that had already been expanded, the energy supply was far greater than her own qi and blood, it was at least two to three times stronger. As the strength increased, the intensity of the energy supply also increased. One could even see the continuous wriggling of the meridians with the naked eye.

With the enhancement of the evil energy, the woman's strength had also reached a very exaggerated level. The key was that her superb control level did not change at all. With one slash after another, she accurately slashed at the weak spots, goudan's scales were forcefully shaved off!

As the scales were shaved off, the second black-clothed man also attacked instantly. The weapon he held was obviously a dagger with blood grooves. A sharp blade light flashed, and the sharp blood-grooved dagger instantly cut through the flesh and blood, leaving a large number of bloody wounds!

Roar! !

Wang Goudan roared angrily, and his tail directly swung towards the two of them!

The two of them dodged agilely while Foyego went up to meet the difficulty. The longsword in his hand cut off Goudan's hamstring at an extremely tricky angle!

The three of them worked together and divided their tasks smoothly. There was not a single flaw in the way they approached each other. The most important thing was that the strength they were carrying was evenly distributed. They did not suffer the side effects like the black-armored warrior from the beginning because he used too much energy... ..

Goudan's scarlet eyes bulged, and her ferocious aura seemed to want to swallow the three of them alive. However, under the strong inertia, she was unable to escape. Moreover, because the tendons of her feet were cut off, her legs were weak, and her strength was obviously weakened, she was even more powerless to break free!

Moreover, the key point was that these guys were not going to let her off. They were using the same method to try to remove her wings!

A hint of ferocity flashed in Goudan's eyes. Obviously, she knew that once the meridians of her wings were damaged and she could not use her strength, she would have no chance to break free!

In the next second, a shocking aura soared into the sky. In an instant, everyone saw a huge shadow wing appear in the sky above the night sky!

The shocking aura was like a pressure that could collapse the sky. Almost in an instant, all the undead in the sky were forcefully pressed down from the sky. With a bang, they fell to the ground. They knelt on the ground as if they were welcoming a noble, unable to move at all!

More than half of the dragon-killing technique in the air was shattered instantly!

“Damn, what is this? ?”

The people from the high school, who were far weaker than the fifth King’s team, fell to the ground under the pressure. It was as if they were pressed to the ground by a huge force. Their faces were almost deformed as they stuck to the ground. They felt extremely aggrieved!

However, the cells in their bodies seemed to have encountered some kind of great terror and completely stopped moving. The blood in their bodies seemed to have stopped flowing for a second. They were extremely weak and could not muster any strength!

“It’s that move again! “Lingji knelt on the ground with a sullen face. However, compared to before, she didn’t have that kind of fear!

“Hold On! “Foyego, who had suffered a loss once, obviously knew the opponent very well. She can’t use this secret skill skillfully. Don’t worry about being attacked. Just hold on and don’t pass out! ”

Really?

The members of the Five Kings team were half-convinced and half-doubtful. Although this was said by their captain, the pressure was simply too exaggerated. They were completely unable to move, and it seemed that as long as someone came and lightly stabbed them, none of them would be able to resist!

However, Foyego did not have any doubts in this aspect. She appeared very calm... ..

The other party’s secret skill was clearly not something that she could use at her life level. The reason why she could use it was because of her almost abnormal talent. However, under this kind of effort, the burden on her body was extremely great!

This black dragon had been injured before. Even if nightmare used some sort of healing method to recover, it would definitely not be an official healing method. It was most likely an evil energy recovery method. Although this kind of recovery method was very efficient.., however, it would damage the body’s origin. If the opponent wanted to continue using this body, it definitely could not be overly exhausted!

Moreover, this secret skill directly used high-level dragon’s might to crush everyone. This kind of thing could not differentiate between friend and foe. Since they could be suppressed to the point that they could not move, it was naturally the same for the hidden medium.., it was simply impossible for the dragon’s might to come down and attack them!

Sure enough, after a few seconds, following the Black Dragon’s roar, the pressure actually disappeared in an instant. When everyone looked up, the black dragon had already turned into a small black dot and disappeared in front of everyone’s eyes!

“Captain! “The assassin who had cut open the dog-egg scales on the side hurriedly said, “Are we going to chase after him?”

“We can’t...”Foyego shook his head. “His speed is too fast. We won’t be able to catch up in a short period of time. We can’t afford to waste our time with the device on...”

Hearing this, everyone heaved a sigh of relief. The broken device was extremely taxing on their bodies. Forcefully exhausting it would even damage their souls. They didn’t want to fight to the death with that inexplicable guy...

“Reiki, remove the device...” Foyego took a deep breath and said, “But keep it activated at all times. Don’t be afraid of the energy consumption. That guy might appear at any time...”

“Understood...” lingji nodded, she gently pressed her hand on the device at her waist. With a roar, the green broken runes in the sky began to dim. Everyone felt the evil energy in their bodies slowly disappear, the mutated body also began to return to normal after the evil energy dissipated!

However, there were also some who didn’t return to normal, such as the black-armored warrior who was fighting with Wang Goudan at the beginning!

After the demonic energy disappeared, his body shrunk even faster. A few seconds later, his entire body seemed to have deflated, like a dry, desiccated corpse. The skin on his entire body began to SAG, from a tall and mighty warrior, he had become like a frail old man!

“Big Lun, hang in there...” Foyego quickly took out a bottle of high-grade energy fluid and handed it over. “When we go back, I will apply for a new set of biological armor for You!”

“Hehe! “Big Lun’s expression relaxed and he chuckled.

The quota for bio-armor was scarce, and non-regular members were not allowed to have it. He had not had enough of this feeling of being reborn, so he naturally did not want to be given up because of this...

...

“That’s really a monster...” Big Lun took the energy fluid and drank it while panting. “I didn’t think it would consume so much!”

“Don’t be discouraged...” Ling Ji smiled and comforted him. “The captain suffered losses at her hands...”

“Oh?” Big Lun looked at foyego, and Foyego coughed and looked at Tirifson

ana tne others... ..

“Let’s get down to business.... we need to find the medium who controlled that black dragon before she recovers!”
