

## **A Bunch 1831**

Chapter 1831: uneasy...

I have no choice but to give up...

Looking at the university group that had lost at least half of its members. Feng Doudou sighed to herself.

The reason why she tried her best to cover for them was because she wanted to help Bai Cai and Grandpa Lu do something in the end. If the two of them woke up and saw their former teammates who were familiar with them die under her hands., with their kind characters, they would probably have psychological problems!

Therefore, she tried her best to protect this group of people and cover them to escape together!

At least... Even if they died, they shouldn't die at the hands of Bai Cai and Grandpa Lu!

However, it wasn't so easy to do it...

Feng Doudou looked at the wounds on his body and knew that if he tried to act tough again, he would probably die here...

He wasn't a selfless person to begin with. On the contrary, among the first batch of players, her selfishness was actually quite heavy!

Let's retreat...

Feng Doudou sighed. After blocking another attack from Bai Cai, he quickly retreated. While he was on guard against Bai Cai, he gave up on the other academies and focused on himself. At the same time, he carefully started to distance himself from the other students.

As long as he could escape to a certain extent, he would not hesitate to escape. He would find a place to recover his strength first and then gather as many people as possible!

Now, she could clearly see that if she wanted to save Bai Cai and the others, she had to find at least two more players from the first batch. Li Goudan, Wang Goudan, and Yun Muji could come either way!

Just as she was planning this, suddenly... ! Bai Cai, who was originally extremely aggressive, suddenly stopped moving. He stood there in a daze like a puppet. After a few seconds, he instantly turned around and ran in the direction he had come from!

The door behind him opened wide, and Feng Doudou was stunned for a moment. He couldn't react in time!

What does this mean?

However, before Doudou could react, with the support of the advanced wind element, Bai Cai disappeared almost instantly. He turned into a blurry darkness and disappeared in front of everyone's eyes!

This...

This obvious scene caused all the people from the high schools to be stunned. They stopped moving and looked in the direction that Bai Cai had left with some hesitation...

She left?" Student Starfire's Amanda gasped for breath.

To be honest, even though she had used the mech to help her escape and the consumption was far less than the people around her, the pressure of this life and death situation had still exhausted a lot of her mental strength and physical strength!

"It seems like... "Carmen, who was at the side, also took a deep breath and looked warily in the direction where Bai Cai had left!

"Bai Cai... seems like... She really left... "at the starry sky academy's side, Tura and the other two looked in that direction with lingering fear in their hearts!

"That's right!" At the side, a member of the Night Vision Academy was gasping for breath. His tone was strangely resentful. "Bai Cai, what a good name. She almost turned all of us into fertilizer!"

Tura looked over coldly. He recognized this person. He was the Night Shade Academy's Night Shade Warrior, the fifth main force. The reason why he was so resentful was most likely because of his own couple. That Night Shade Academy's Medical Hand had just been split into two halves...

"I thought you didn't care about your couple..." Tura's tone was filled with sarcasm. "After all... That guy didn't even turn his head back!

"What did you say! ! "The Night Nether Academy's Warrior instantly exploded upon hearing that. His entire body's battle spirit surged as he glared fiercely at

Tura!

The other members of the night Nether Academy also looked at Tura with unfriendly gazes!

Faced with this obvious hostile atmosphere, the three of them had no intention of evading at all, instead, they stared coldly at the other side. "Am I wrong? What are you guys trying to do by looking like you're looking for trouble? Are you thinking that our Starry Sky Academy owes you guys?"

Tura pointed at a few fresh corpses in the distance, amused. "The people were indeed killed by cabbages, but who was the one who caused all this? The other academies can blame us, but do you, the night Nether Academy, deserve it?"

As soon as these words were said, everyone looked at the night Nether

Academy's group with unfriendly expressions. The cold aura caused the night Nether Academy's group to instantly dissipate their anger. Even the night warrior Ye, who had been ridiculed earlier, looked around with some lack of confidence...

After all... That pretty boy from the starry sky academy was actually right. Although the person who killed was a cabbage, the mastermind behind all of this was actually the members of their night shade clan...

“Alright, all of you, calm down!” Feng Doudou’s cold voice instantly caused the entire scene to die down!

“You haven’t gotten over the crisis yet. Why? Do you want to fight amongst yourselves?” Feng Doudou looked at everyone with unfriendly expressions. “If you want to die, you should have said so earlier. Why would I need to spend so much effort to protect all of you?”

Facing the people who had been escorting them, all the students lost their confidence and put down the weapons in their hands...

Sir Feng Doudou...” Arthas walked forward and panted heavily. “Do you want to go back and take a look? Bai Cai stopped his pursuit in such a hurry. There’s a high chance that something happened to Helan. Perhaps... there are other reinforcements coming...

Feng Doudou’s eyes lit up when he heard that, however, after hesitating for two seconds, he still shook his head. “It’s too risky. If we turn back now, if it’s not a very good situation, I’m afraid we won’t even have the chance to escape. I think we should take the opportunity to escape from Grandpa’s spiritual coverage area first...

Everyone looked at each other. Most of them still agreed with Feng Doudou’s suggestion. After all... Now... It was too risky!

On the other side, the fifth King team’s attack plan was going very smoothly!

The timing that Reiki found was the key point for her grandfather to organize the next arcane attack. The perfect timing, coupled with the spiritual power of the broken device, instantly broke her grandfather’s spiritual barrier!

The plan of Foergo’s organization was immediately activated. Several arcanists immediately launched a direct spiritual attack at Helan, a powerful and sudden spiritual attack, Helan, who lost her grandfather’s protection in an instant, staggered to the ground. Purplish-black blood flowed out of her ears and eyes!

At that moment, Whitty also activated the space spell, teleporting Foergo, Yaofeng, and the others nearby!

The location was very good. Even under the interference of Grandpa’s spiritual barrier, they were still teleported to a location less than ten meters away from Helan!

This distance was no different from close proximity to Foergo and the first class agility warriors who had been blessed with the power of Destruction!

In less than 0.1 second, the three of them had organized an attack with no blind spots. Three sharp blades instantly blocked all of Helan’s escape routes from different directions!

Whitty, who was far away, even cast the space freezing spell to prevent Helan from using the space spell to escape. It might not be able to completely stop the opponent’s high-level space transfer, but Whitty was confident that it could still restrict the opponent’s time for a few seconds!

And a few seconds... For an agile warrior like Foergo who was already close to him, it was already very sufficient!

Helan was different from demon edge. She was a real living person. Even if she was exposed, she could still control the nightmare realm. It was very risky to hold her hostage because no one knew what other methods she would have!

Since Demon Edge had already agreed to take them away, there was no need for Helan to exist anymore. There was no need to take the risk to hold her hostage. Using this opportunity to completely kill her was the best plan!

At this moment, facing the three blades that completely blocked the path, Helan's eyes became extremely deep. Cabbage could not be recalled in time outside, and the Phoenix could not rebuild its spiritual defense for a few seconds. Helan was also severely injured as planned. It seemed like... He was in a desperate situation!

But for some reason, there was still a strong sense of unease in Foyego's heart!

Chapter 1832: Reversal!

Everything was going smoothly. Everything was going according to plan, but... ? what was this uneasiness?

Looking at the seven Bleeding Helana, the blade was getting closer and closer. For some reason, the uneasiness in Foyego's heart was getting heavier and heavier!

Something was wrong...

Almost at that moment, countless life -and -death experiences made Foyego stop the blade in his hand. Without hesitation, he yelled at his other two teammates, "Retreat!!"

It was too easy, so easy that even he felt that it was fake. This guy was hidden so deeply, and perhaps he was even secretly groomed by a top night demon clan. Even if he was careless., how could he act so defenseless like this?

For a moment, foyego only felt that an endless crisis was waiting for him!

The other two teammates were stunned when they heard the captain's call to retreat. This was obviously a situation where they had the absolute advantage. Why did they retreat?

However, the captain's long-term prestige had made them subconsciously obey the order. At the first moment, the three people's blades stopped and they quickly retreated!

Unfortunately... it was still too late!

The moment they retreated, three rays of light rose from the ground without any warning, enveloping the three of them and completely blocking their retreat route!

As expected! !

Foyego's pupils constricted, and he immediately gathered all the energy in his body to slash at his back. However, following a huge recoil, the longsword in Foyego's hand was directly sent flying. The palm of his hand trembled violently, and his flesh was a bloody mess, even his white bones were exposed. An intense pain was transmitted from the biological armor, causing Foyego to suck in a breath of cold air and retreat repeatedly!

It's over! !

Almost at the moment he retreated, this thought appeared in Foyego's mind!

It wasn't that he was useless, nor was it that he gave up too quickly. It was just that he was smart enough to recognize the current situation too quickly!

To be able to send the weapons in his hands flying like this, the barrier that blocked them was obviously designed to defend against the high frequency vibration space of their agile warriors breaking through the encirclement. This required the formation of a complex tactical structure, and it was definitely not a temporary arrangement!

In other words... ! that girl from the Helan family had long known that they would come, and even the direction of their attack was pre-set! ! !

There was only one possibility in this situation!

Foyego pinched his bloody right hand and looked coldly at Demon Edge who was also shrouded in the barrier!

"Ya..." seeing Foyego's cold gaze on him, demon edge immediately laughed. "As expected of the captain of the new king team who has the highest reputation, your reaction is really fast..."

Foyego.

To be able to set up such a difficult sealing barrier in advance, he naturally knew the information beforehand. Where did the information come from? Of course, it could only be a mole!

And among all of them, the one who was most likely to become a mole was naturally this new guy who had defected...

He should have actually thought of it...

Since the other party could defect to him, he could naturally defect to others. Since he couldn't get the position of captain of the seventh King's team, who would be different?

If he were to submit to Helana and become the captain of the seventh King's team, he would be able to absorb the demon blade. After all... The Demon Blade, who had already been seen through, was no longer a threat in the dark domain. There was indeed no need for him to kill all of them...

That's right...

He was a believer of the seventh king, so it wasn't impossible for him to help others. However, if he were to choose, choosing Helana was obviously more beneficial to him than choosing him!

I... Should have thought of that! !

For the first time, regret appeared in Foyego's eyes!

"Goodbye, Captain Foyego..." Helana looked at Foyego with a smile, "If the fifth king still wants to hire you!

"Wait... wait a minute!!" Foyego looked at the other party's pure killing intent and hurriedly shouted.

"No Wait!" Helana didn't give the other party a chance to speak. Three Red Lotus Flames shot up into the sky, enveloping Foyego and the other three agile warriors!

The powerful and pure Red Lotus Flames carried the most effective lethality against the undead, instantly burning the three of them into dried corpses! !

"You will definitely regret this, Helana! P'

Yao Feng raised his head slightly and looked at the black door in front of him. Only the undead could see the scene of countless pitch-black arms pulling the three powerful spirits, including Foyego, into the door., and Foyego's twisted face and monstrous hatred!

"Tsk..." Helan Nana walked to the boundary of Yao Feng and lightly tapped it.

The boundary shattered like glass. Looking at the calm-looking Yao Feng,

Helan asked with a smile, "That guy... is he scolding me?"

Obviously... ! As a living person, Helan couldn't see Foyego and the other spirits that had been brought into the world of death, nor could he see the gate of the world of death!

"I'm not scolding you..." Yao Feng smiled. "After all, you're a person of status.

How could you behave like a shrew?"

"Then you're saying something fierce..." Helan smiled. "You're definitely saying that I'll definitely regret it, right?"

"Haha..." Yao Feng instantly laughed. "It's not that bad..."

"As expected... he's also a boring person..." Nana yawned. "If you have time to hate me and say something fierce, why don't you think about how to explain to his master and save your captain's position..."

"That's true..." Yao Feng smiled. .

"Captain... .." dozens of kilometers away, using props to see what happened to the rest of the teammates, instantly cold, especially Ling Ji, the whole person could not stop trembling!

Obviously, I can't believe that the captain, who is so strong, so confident and wise, could so easily... . .

Son of a bitch is broken!! "The Spirit Ji Green double cylinder is covered with blood instantly, extremely resentful looking at the demon front!

At the thought of this, Lingji wanted to tear Yao Feng, who had betrayed them, into pieces!

“Retreat! “The bald undead grabbed lingji, who was about to flare up, and said, “Don’t mess around anymore. Leave quickly, or you’ll all die here!

Lingji’s heart trembled when she heard this, and she finally calmed down!

That’s right, since their captain had left, they couldn’t let anything happen to them again. Although a captain-level character might be given up after his creature armor was destroyed, as a captain-level character and the publicly acknowledged strongest captain of the last six kings., they still had a chance to be forgiven.

But they... If the damaged creature armor was here, there was a high probability..! there was no chance!

At the thought of this, everyone no longer hesitated. They quickly gathered their emotions and prepared to leave!

But when they turned around, they saw a shining light. At that moment, they did not even have the time to see what had happened. Their heads flew up high, and in almost an instant, they became headless bodies...

Bai Cai slowly passed through the fountain-like blood with an expressionless face.. Behind her was a black dragon and a wind fairy that was wrapped in wind elements!

Chapter 1833: What can we use to turn the tables?

“AH... it’s really perfect...

A moment later, Li Goudan descended from the sky with a cold expression.

Wrapped in wind elements, she slowly descended like a queen of wind elves. Her posture was extremely elegant, and the strange thing was that five heads were floating behind her...

They were the remaining members of the fifth King’s team, Lingji and the others!

The five heads still had a trace of confusion on their faces. It was obvious that they had yet to react to how they had lost their heads...

“I really don’t know where these guys came from...”he lan looked at Li Goudan with incomparable admiration and clicked her tongue in wonder!

A perfect body, a perfect bone statue, and that perfect affinity with the wind elements were just like a perfect work of art created by the will of the universe. Not a single flaw could be seen. She had originally thought that such an existence... Only cabbage was an exception...

She knew exactly how strong cabbage was. During the opening ceremony of the Starry Sky Academy, when everyone thought that the water elemental elves and the ancient water lord that filled the sky were triggered by Tyrande, she knew that the probability of everything... Was triggered by the flower spirit cabbage.

Although the water lord seemed to agree with Tyrande in the end, she knew that in the beginning... The place where those great water elemental elves gathered was their magical Beast Academy!

And who in the magical Beast Academy could have such a high affinity with the elements?

Who else could it be other than that monster cabbage?

But she did not expect that there was actually more than one monster like cabbage!

“TSK TSK...” Helana slowly approached, as if she was observing a piece of art that she had just collected. She looked at the other party greedily, as if she wanted to observe every detail carefully...

Yao Feng couldn't help but say, “You look so perverted...”

Nana smiled. “If you can have more of these things, then so be it...”

“Isn't it Feng raised his eyebrows and looked at Wang Xiaojia who was slowly descending along with that incredible flower spirit!

Including that Phoenix, Helan Nana already had four captain-level powerhouses in her hands. She already had an absolute advantage!

Speaking of which...” Helan looked at Yao Feng with a smile. “Why did you choose me at the last moment?”

Yao Feng's defection was naturally not from the beginning. After all, the original goal of the three psychics was to kill the other two and become the leader of the seventh King team!

After he was exposed, he immediately used the spiritual channel unique to the seventh king team to contact her!

“If I don't choose you, would I choose that guy who only knows how to hide in the Dark?” Yao Feng rolled his eyes and replied.

As for choosing foyego and the others. This was simply nonsense...

Putting aside whether they would break the contract or not, after all, there was no such convenient thing as a god contract between the undead. Even if they kept their promise and left one for him, so what?

The most important part of this mission was to collect the nightmare shards. If they were to help Foyego kill Helan, then under the circumstances where he could not control the nightmare, that person hiding in the dark would win the final victory.

However, because of his betrayal, several captain-level creatures that originally belonged to the seventh King's team would be taken away by other teams. Even if he could bring back one, the divine empress knew that there was a high probability that she would not keep him. At the very least, there wouldn't be any rewards...

And even if he was kept, the other teammates in the team would be on guard against him in the future. After all, he had set a precedent of betraying the team for the sake of benefits!

Overall, it wasn't worth it...

On the contrary, choosing Helan would maximize the benefits. If the Divine Empress knew the process, she would definitely keep him because of his choice. Although he wouldn't become a captain, it wouldn't be a problem for him to become an important training object in the team.

And by helping Helan bring these captain-level creatures into the seventh King's team to the greatest extent, with these extremely talented fellows, he would have better conditions to compete for more resources in the Purgatory competition in the future. With more resources... He would be able to achieve what he wanted faster...

Clearly, from a comprehensive point of view, choosing Helan was the best choice, even though he didn't really like this fellow...

Speaking of which..."he LAN said with a smile, "The information I got here was spread out by that rat in the dark, right? Can you guess who that rat is?" Yao Feng slightly frowned when he heard this...

From the looks of the situation, the captains of the nine kings and six kings had fallen, and the five kings had been completely wiped out. On the side of the high school, besides Feng Doudou, all the creatures with the strength of captains had been taken by them. The situation could be said to be very good!

Whether it was the group of people from the high school or the other kings, there was basically no threat to them anymore. The only obstacle was the third spiritual medium hidden in the dark!

Yao Feng was somewhat afraid of this guy...

Because in the original plan, only he and he lan, the two spiritual mediums, were competing, so the third one... He had joined last year at the last minute!

Both of them knew very well how harsh the divine empress was when it came to choosing people. Both they and he LAN had gone through many trials, at least several decades, before they were qualified. Logically speaking, if there was a third seed., it wouldn't have been notified last year.

This was clearly a last minute decision to join, and not like them, who had gone through many years of assessment and finally decided after careful consideration...

To be able to make the Divine Empress Clap Her Head, change her mind at the last minute, and join the third competitor, that meant that the fellow who had just joined last year had the capital to move the divine empress in an instant. He was definitely not a simple character!

From this point, from the fact that the other party could guess his identity without him knowing, it could be seen that that fellow was definitely very difficult to deal with!

But why... ? Up until now, that Guy didn't show any signs of making a move?

Apart from luring foyego into a trap, the previous trap was also to draw out the third spirit medium. After all, the flaw that was revealed just now was indeed very big!

But the other party didn't reveal a single trace...

Neither did they take the opportunity to kill Helan, nor did they take advantage of the chaos to snatch away the other captain-level creatures. For example, that wind demon. With that chaotic opportunity just now, it was obvious that they had a chance to take it down.

However, the other party didn't make a single move. It was so calm that it made one's heart turn cold!

"I can't guess..." Yao Feng directly shook his head.

Sigh. ...'h Hearing this, he LAN also sighed and shrugged. "I can't guess either. After controlling this Phoenix, with its spiritual power, I can see every detail within a 50 kilometer radius. It's impossible for anyone to hide within this range and observe me all the time. To be able to provide you with my first-hand information, that fellow must be not far from me. It should be hiding among that group of students... .

"But... even though I intentionally made it so obvious for Bai Cai to retreat in the end and let him know that something had happened on my side, that guy didn't take the bait and directly ran away with that group of people. I really didn't expect that there was really a way to hide...

"But I'm very curious..." he Lan narrowed her beautiful pair of night vision eyes and looked at Wang Goudan and the others. "What's the use of her hiding like this all the time? Just now, she didn't stop me, but now in this situation.... What does she have to turn the tables?"

Chapter 1834: Rendezvous and the terrible situation... ..

"Damn it, damn it, damn it! P'

At this moment, after the headless bodies of the five kings fell, all the space sealing spells that Lingji had used before instantly collapsed, and three figures ran out of a complicated space sealing barrier!

One of them was Yao Xing, the one that the five kings had used to threaten Yao Feng. Although they knew that it might not be of much use, because the undead were usually very indifferent to their relatives in the living world, and a few who had strong feelings would instead hate them because of love. They would find an opportunity to turn their relatives into the undead as well... .

The other two who ran out were the captain of the bronze academy who had not appeared for a long time: Barth and the third main force: Martial Priest

Reina!

And the one who was the most flustered and exasperated was Barth!

"These monsters... Monsters! P'

While flustered and exasperated, the majority of their emotions were actually fear...

Reina looked at her so-called leader and her eyes were filled with disappointment. In the past, she had already felt that this fellow was not very reliable. However, because his strength had always been at the top in the social gathering, some of his weaknesses in his personality had been infinitely reduced,

however, this time, when faced with a situation where there were many strong people everywhere, the weaknesses in his personality were instantly exposed!

Barr did not care about Reina's disappointment at all. He, who had always been successful, only felt extremely aggrieved at this moment. He was crazy and wanted to vent!

Although he was sealed in space with Reina along the way, he could clearly see the situation around them. Almost every one of those undead was an ace, or even more so!

Those so-called team leaders were monsters among monsters. However, such a powerful group of people had all been beheaded by the flower spirit of the star elves right in front of their eyes! !

The reversal of events caused him to be terrified. He was even glad that he had been sealed into the dimension early on. Otherwise, his existence would be no different from those cannon fodders in the fellowship party when he was faced with these monsters that were always off the charts?

Especially in the end, after the flower spirit called cabbage killed those powerful undead in an instant, it slowly walked past him and Reina, not even looking at him from the beginning to the end!

At that time, his heart was extremely complicated. He prayed that this terrifying fellow would not notice him, but after the other party really did not notice him leaving, he felt extremely humiliated and depressed!

His heart suddenly missed the status he once had in a social gathering...

Fiend Star looked at the other party. Actually, he was very clear about the annoyance in his heart, and he also had quite a lot of feelings... „

After all, he was the number one dark horse praised by many universities in the Federation last year, but he was instantly demoted to cannon fodder here. It could be said that the difference in his heart was not great. Although he did not appear as irritable as Barth,. The depression in his heart was the same...

Therefore, it was rare that he did not mock the other party. Of course, he also did not have the mood to mock others because of the fact that Fiend Peak was...

A big brother who treated him so gently all day long was actually an undead. For so many years, he had never revealed anything to him. He had even used some kind of method to change his memories...

Obviously... He didn't trust him...

Why?

Yao Xing couldn't figure it out. They had relied on each other since they were young. What could be more important than that? 'If you say it, wouldn't I accompany you?'. 'If you say it, wouldn't '...h 'would I leave you alone to become an undead? Q

'If you say it...'

"Captain?"

Just as Barth was venting his anger and the other two were silent, a voice suddenly broke the strange stalemate...

Barth's actions of destroying the surroundings instantly froze!

He was extremely familiar with this voice. It was his assistant, the second main force of the Bronze Academy, the vice-captain Matt who had abandoned him without any hesitation!

After seeing the other party, Barth, who originally had no one to vent his anger on, instantly turned red-eyed as he looked at the place with an imposing manner!

Matt was startled by that exasperated look in his eyes and hurriedly hid behind him. As a tall and sturdy bronze dwarf, he nimbly hid behind a very thin figure!

That figure was even thinner and weaker than the elves, but it calmed down the raging fire of Baars!

The reason was very simple. He, who bullied the weak and feared the strong, saw another very familiar guy, one of the monsters that he had just mentioned!

"Eh? Captain Baars, you're here too. What a coincidence!" Wang Chengbo's gentle voice sounded...

What a coincidence!

He had been unwilling to enter this strange black curtain, but unfortunately..!

He met those undead bastards, and those bastards died in a rather straightforward manner!

"Captain... "Matt looked at him in a daze and asked, "Where are the others?"

Barth:"

This question... Was quite a heart-wrenching one...

Barth's face was dark and he didn't say anything. Matt, Gunn, and Mia, the two arcanists who left with Cloud Herder, were shocked!

Looking at their captain's expression... they were afraid...

Cloud Herder didn't have the time to care about Barth's mood. She asked directly, "Is it all gone? How did they die?"

Barth:"

"Let me tell you... "in the end, Reina still took care of Barth's face and stepped forward to help him out.

"You are..." Yunji Mu narrowed her eyes slightly. Senior Reina?"

This "Senior" was very easy to say, and it also stunned Reina and the other students of the bronze academy. After all, Yunji Mu had been very domineering towards the bronze academy from the very beginning. Of course... This was also related to the fact that the bronze academy had deliberately looked down on the other party because they were from the pheasant academy...

It was just that they didn't expect that this cold and arrogant fellow would actually give Reina face and call her "Senior"?

Reina herself was stunned, but then she suddenly understood... Probably... ?? was it because of Feng Doudou's face?

Senior, you don't deserve it. You're just bluffing... "Reina smiled. "Then, I'll tell you what happened with Feng Doudou..."

Although they knew that the undead that could change their memories was very strange, they didn't expect such a huge loss. Apart from their captain, almost all of them were wiped out?

Fortunately, they were smart enough to follow Yunji's train. Otherwise... There was a high chance that they wouldn't survive. After all... They would be killed by the undead! but they would really die!

Mia and Ghosn looked at each other with lingering fear on their faces. They looked at Yunji with complicated expressions. The other party was indeed unreasonable, but if the other party hadn't taken them away... They would probably be buried in the bone city district like their companions...

"I see... "Yunji glanced at Bales. "No wonder you survived. It turns out that you met Doudou..."

Bales:"

Yunji didn't doubt Reina's words. The other party's description was very consistent with Feng Doudou's personality...

However, the other party's following words were a little scary!

Wang Xiaojia, Li Jiayi, Grandpa Lu, and even Bok Choy were all controlled. Feng

Doudou's life and death were unknown. This situation... ! It was even worse than imagined!

Chapter 1835: the final assembly and current situation!

After that, they met up very quickly. Because Monster Star had information about Feng Doudou, they had a high probability of knowing where they were running to. After they met up with Tyrifson's team, they found Feng Doudou and the others in less than two weeks...

They had gathered all the forces they could gather at the moment!

"In other words, other than the three of us, the rest have already fallen, right?"

After meeting up with Feng Doudou, a group of people surrounded him and started to discuss how to counterattack with Feng Doudou and the other two at the core...

After combining the information, Wang Chengbo really believed that Wang Goudan and the others had really fallen...

Feng Doudou was also speechless and sighed, "It's my fault. I should have tried my best to stop Bai Cai from saving Grandpa. At least, I could have saved Bai

Cai... "

Wang Chengbo nodded slightly. Among the many players, although Bok Choy seemed to be the most unreliable, his comprehensive ability was actually the strongest. He had pretty good close combat

ability, he had pretty good surgical skills, and as a flower spirit, he also had pretty good elemental affinity. He could perform elemental blessing, which was of great help to melee players like Feng Doudou and Yunji Mu.

Moreover, the other party was a magical beast master. Others might not know, but they did. The Big Yellow Dog in Bai Cai's hands wasn't weak either. Although they couldn't see through it, both Feng Doudou and Wang Chengbo knew that.., that Big Fat Dog wasn't simple.

If they had saved Bai Cai back then, the situation would have been much better. Unfortunately... There was no such thing as medicine for regret.

"You can't save her even if you tried..." Yun Mu Ji shook her head.

Feng Doudou looked at her, Yun Mu Ji explained calmly, "That he can clearly grasp Bai Cai's psychological weakness. A child like Bai Cai values the people closest to her the most. Even if she knew the consequences of saving her grandfather, she would do it without hesitation. No one could stop her..."

&lt;per\_o&gt; .

"child..." said Bean with a strange expression on her face, which she remembered. ? The cabbage in the team is not young. ? Looks like I'm turning 30. .

Look at the cloud herder Ji a sudden reaction, oh... By the way... Yunji is a cultivator, seems to be 70 or 80 years old, if it is not well maintained, estimated that they have to call a grandma...

At this point, Cheng Bo's taste was quite strong...

"Ahem..." Cheng Bo coughed lightly and interrupted their conversation. He said in a low voice, "It's already in the past. There's no point in dwelling on it. What we should be thinking about now is how to save them in two days!"

These words made everyone have different expressions. Feng Doudou and Yun Ji Mu naturally nodded in agreement, but the others didn't think so.

Unlike Feng Doudou and the others who wanted to save them, they actually wanted to try their best to avoid that group of monsters for the remaining two days!

After all, if they didn't run into them and avoided them for three days, there was a high chance that they would make it back alive. If they ran into them, their chances of winning weren't high, and there was a high chance that they would lose everything together!

In fact, most of them wanted to persuade the three of them to do so, but they didn't have the confidence because they saw that the relationship between the three of them and the new monsters that had been controlled previously wasn't simple!

Suddenly, doubts arose in his heart. These guys were all so outstanding, but they were actually together? Where did they come from?

Wang Chengbo looked around. As a quick-witted person, he immediately saw through most people's thoughts, but he could only ignore them. He was actually a safe person. Under normal circumstances, he would probably be on the side of those people...

But... Little Jia was his sister!

If his father found out that he had abandoned his own sister and ran away, he would probably break three of his legs when he returned!

Wang Chengbo said as he looked at Reina, who was helping Feng Doudou treat her wounds. "Senior Reina, how is Doudou's injury?"

"It's fine..." although Reina was a warrior priest..., she was also an assistant representative in the team. She was proficient in the treatment of priests. Naturally, her effects couldn't be compared to an elemental priest who was proficient in water elemental totems. However, in terms of healing wounds, her blessing effects weren't inferior to first-rate medical hands!

This was also the reason why Reina was able to quickly gain a foothold in the team of the Bronze Academy as a member of a non-top family. As a warrior priest, she was the first to be able to fight. Furthermore, she could also act as a healer and a blessing priest. Her abilities were very comprehensive. In fact, the higher-ups of the bronze academy had already decided on the candidate to lead the team in the future...

"The injuries on Doudou's body seem quite exaggerated, but in reality, they are all on the skin and flesh. There are basically no injuries to the muscles, bones, and internal organs. There is no need for large-scale surgery to repair them. If you are in a hurry, you can directly use the blessing method to repair them with energy... .."

After these words were said, Wang Chengbo, the other two, and Feng Doudou all let out a sigh of relief...

If they didn't need surgery, they didn't need to take the risk... After all... „ The third psychic in the intelligence report was hiding among them!

Reina was the least suspicious of all the doctors, but she was the least skilled in surgery. As for the other team's surgeons, to be honest, even the team members themselves didn't really believe it...

At this time, Feng Doudou was the one who couldn't make any mistakes. Otherwise, there would be no chance at all!

Among the three, Wang Chengbo was a support class. His major was enchantment. In the base, among the first batch of players, Wang Chengbo was the one with the worst individual combat ability.

On the other side, other than Grandpa Lu, they were all strong individuals. According to Feng Doudou's description, Grandpa Lu's combat ability wasn't weak. If Feng Doudou couldn't recover at this time..., the strength of the main force was definitely not enough!

"Using the blessing method to recover will consume physical strength, right?" Yunji asked with a frown.

She had some understanding of the priest's blessing. Compared to traditional medical treatment, although the priests' and priests' methods were efficient, they had side effects on the body. The lighter method would consume energy, Qi and blood..., the heavier method would even consume energy!

"It will consume physical strength... "...". Reina nodded. "The physical strength consumed can be recovered through high-level energy doses. Although this kind of energy dose that can forcibly restore physical strength in a short period of time will cause a burden on the kidneys and liver, in this situation...

Obviously, I can't take care of it '

Feng Doudou nodded, indicating that there was no problem. Yun Ji, on the other hand, let out a slight sigh of relief.

It was just that the burden on her internal organs could be quickly recovered after recuperating for a period of time. It wasn't a big problem.

Now, the final problem was... "...". How to save all his companions in a three versus four situation!

"Senior Carmen, senior demon star, Captain Barth..." Wang Chengbo looked at them. "Report the effects of the devices in your team. There's no point in hiding anymore at this time..."

The team leaders looked at each other and finally nodded. Apparently, they also knew that their last hope was these three guys. If they were gone, the rest of them wouldn't be able to last two days...

Therefore, they all told them the effects of the devices in their team without holding back!

Wang Chengbo and the other two listened carefully...

It was very difficult to win against his former companions in a situation where there were few people, and they were four extremely troublesome people!

Wang Goudan and Li Goudan were both experts in duels in the base. Little cabbage had the strongest comprehensive ability, and Grandpa Lu had evolved into an unknown high-level mage.. It was impossible to win this battle in a head-on fight, they could only use their equipment and use strange moves!

Chapter 1836: Plan!

The devices were quickly calculated. The ones that came were all strong teams from universities with deep foundations. Each of them was equipped with four or five devices. Wang Chengbo carefully screened them and selected the most suitable ones...

First was the Star Academy's four-element device. This device could greatly increase the upper limit of everyone's spiritual power and strengthen the spiritual core's spiritual power recovery, injecting the purest energy into the warrior's body to form an energy crystal, in a very gentle way, it continuously provided energy, the high affinity of the four elements elven blessing!

Among them, the earth element could increase the armor's defense and gravity magnetic field, and the fire element could provide pure fire element energy for the Warriors in the team to enchant, and it could also be used directly by the mages in the team. The water element could provide an extremely strong recovery ability. It could recover from external injuries, repair bones, fascia damage, and even internal organs if they were damaged by tremors...

Wind can greatly improve the mobility of the team, is a very comprehensive device, but the performance of a single force is not as good as other first-class devices... . .

And then there was the moon god device of the Starry Sky Academy, which focused a part of people's strength and mental strength on one person. This was not the first-class device of the Starry Sky Academy, but when the trump card was very powerful,. But it's a very suitable device... .

Especially now that most of the college team can not help the situation, with the moon god device to the power of Feng Doudou or cloud herder, such as the main hand, but can reflect the role!

On the side of Tyree Fasson, Wang Chengbo favored the Ace's black blood device. This device could activate the body, allowing non-regenerative life forms to enjoy the power of activation and regeneration, whether it was broken limbs or ruptured internal organs, they could recover the body through an endless stream of activated energy. It also provided a powerful lifeblood ability. Mages could also use the black blood device to activate the barrier's release, it was a very typical biological device. It was used to deal with violent players like Wang Goudan. This kind of black blood device with extremely strong recovery was very suitable for a prolonged battle!

The Bronze Academy's molten device was a simple and crude energy device. It could provide an endless stream of high-grade divine fire energy to strengthen the special body structure of the Shenao clan. The strengthening ability was very great. Originally, it was only suitable for divine craftsmen, the applicability was very small, but it was an excellent device for Wang Chengbo and Yun Mu Ji!

Finally, there was the Spark Academy's Star Energy Device. This device was somewhat similar to the Bronze Academy's device, but there were some differences. It was different from the Bronze Academy's incompatible divine fire energy, the star energy device provided by Spark Academy was the purest non-elemental energy. A large amount of non-elemental energy would form non-elemental crystals under the special equipment of Spark Academy!

These crystals could be directly converted into energy. High-level arcanists could use the surrounding elements to fuse these pure energy at any time to form powerful elemental energy. All the ratios could be distributed perfectly, the fastest time was to provide the corresponding energy for the high-intensity magic spells!

Moreover, the energy could also strengthen warriors like Carmen, enchant their equipment, and provide the purest energy for their enchanted equipment!

However, this device had a high requirement for mages. In order to utilize such pure energy to the extreme, a high-quality arcanist had to perform all kinds of spell arrangement or enchantment operations.

This device is also very suitable for Wang Chengbo, because he is most specialized in enchantment professional!

After combining all the devices, Wang Chengbo provided the general strategic guidelines...

"Senior Dutton... . is that guy still standing there?" Wang Chengbo confirmed first.

"Yes... <per\_0> . "Dutton nodded. "My migratory birds can only be within a one-kilometer radius. Once they break through, they will be instantly captured and destroyed by Li Jiayi. However, I can still clearly see that Helana is still standing in the same spot without moving..."

“Do you know why this is happening?” Wang Chengbo looked at the undead that had returned from the sixth King’s Party... .

Ye Feng touched his chin and analyzed, “Her method should be correct because she has already collected two nightmare shards and three divine fire shards, as well as four captain-level creatures. With such a huge harvest, even if she were to sit and wait for the matter to end and return, Her Highness the Divine Empress will definitely decide that she is the next captain. There is no need to take the risk to move her position...” . “.

Wang Chengbo nodded slightly. If that was the case, then it should be true. The opponent didn’t need to move when she was confident, because it was easy to fall into the trap set by others. On the contrary, if they waited in the same place... If they took the initiative to attack, they would be faced with all kinds of traps that she had carefully set up... ..

Grandpa Lu was an all-element arcanist, so he could set up a lot of things on the spot!

“How do we fight?” Yunji looked at Wang Chengbo and asked.

Wang Chengbo took a deep breath. To be honest, in such a situation, it was best not to fight. Other people had the geographical advantage and the advantage in numbers, so the odds of winning were very low...

But... he really couldn’t say that he would give up!

“Draw them out and fight!” Wang Chengbo rubbed his fingers and said, “According to the intelligence given by senior Dutton, the opponent’s arrangement should be like this... ” ...”. Wang Chengbo said and drew a map on the ground, “Li Jiayi is responsible for the outer perimeter security, Wang Xiaojia is responsible for the middle court’s support at any time, and Grandpa Lu and Bai Cai are guarding the host Helan Nana’s side!”

“There are two ways to attack. One is to bypass Li Jiayi and Wang Xiaojia and directly attack the host Helan, but this is more risky. Not to mention how many arcane traps Grandpa Lu has set up next to Helan, just bypassing Li Jiayi is very difficult! ”

Feng Doudou nodded. Li Goudan’s perceptive ability was definitely the strongest among the players. Until now, no player in the base could break through her defenses.

“So since we can’t get around it, we might as well make Li Jiayi our first target!” Wang Chengbo pointed to the outer area and said, “Li Jiayi is guarding the outer area. From the distance, she is the furthest away from the others. If we can take her down in a short time, we can directly enter a situation of balance. Even if we can’t take her down, we can still lure Wang Xiaojia and the others over. If the other party wants to leave people to protect themselves, they will definitely not send all of them over. There is a high probability that Wang Goudan will be the one supporting them...

Wang Chengbo narrowed his eyes and said, “In a two-on-two situation, try to pull the two of them as far away as possible. Don’t let them go back, and force the third one to come to support! ”

“And then?” Feng Doudou frowned. If they forced the third one to come to support, the two sides might be evenly matched, and it might even be a disadvantage. After all, Wang Chengbo was an assistant, but Bai Cai was an all-rounder, even if Grandpa Lu stayed there, the odds of winning weren’t high.

What should they do after luring them out?

“And then... “Wang Chengbo looked at the others with a smile. “If we can lure three people out, then the mission to break through Helan Nana will have to be left to the seniors...”

Everyone: ” ..

This...

The group of people immediately looked at each other, and their expressions became hesitant. Even Feng Doudou had a strange expression on his face... .

There were quite a number of players in the high school team, but...

She didn't think that they would be able to get in, regardless of whether it was grandpa Lu or cabbage....

Chapter 1837: Snipe Li Goudan!

“IS he here?”

At this moment, Helan Nana, who was sitting cross-legged in the center of the four-man team, slowly opened her eyes and looked at Grandpa Lu. According to the message that Grandpa Lu had sent just now, its spiritual coverage area had been invaded!

Helan nodded at Li Goudan, and Li Goudan instantly turned into a wisp of green smoke and disappeared on the spot...

Yao Feng, who was at the side, watched silently...

He had watched this little wind demon's movement technique countless times, and it had always amazed him. However, people with such talent still ended up in their hands. Therefore, in a team, the role of a wise man was always the most important... ..

“How many people like them do you think are left?” He Lan looked at Yao Feng and asked.

(‘I don't know... “Yao Feng shook his head and said, “But there are at least two more who dare to take the initiative to come here!” smiled and said, “That's really wonderful news...”

“We're here! !”

The Alliance Army of the university, led by several captains, approached Helan's position. They were about ten kilometers away, and a wave of pressure that came from the front made everyone stop!

The leader of the team, Arthas, raised his hand slightly and made the team stop in their tracks. He looked at the other side with great vigilance...

At this time, everyone had black veins on their bodies, and their colorful pupils had turned pitch-black. The unique energy of the black blood device flowed through their bodies!

It was Wang Chengbo's arrangement for everyone to be equipped with the black blood device. In the face of Grandpa Lu's arcane trap and Li Goudan's attack at the beginning, the black blood device was the ideal device that could protect them the most!

"It's coming!"

In front of them, Carmen's pupils suddenly shrank, and the warrior power in his whole body instantly burst out, staring straight ahead!

He vaguely saw an extremely light figure quickly approaching!

It was very direct, without any disguise, but everyone still couldn't see when she came... ..

By the time they reacted, it was already a sky full of green feathers that covered the sky and the earth!

Only then did everyone react to defend themselves. However, it was obviously too late. Li Goudan's green figure shuttled through the crowd. Countless green feathers changed their directions under her collision. In an instant, the originally straight and easy to dodge green feathers changed directions, they attacked everyone from all sorts of tricky angles!

Immediately, countless screams sounded. In an instant, blood splattered all over the team. Some had their bellies pierced, some had their limbs cut off by the sharp green feathers, and some had their throats and skulls pierced. In an instant.., the large group of students from the university actually showed signs of being completely annihilated!

However, in the next second, these students who had suffered external injuries quickly recovered under the activation function of the black blood device. Black soft mud-like living bodies appeared on the wounds of countless people, rapidly regenerating tissues and cells, in just a few seconds, they recovered to their original state!

This scene caused Li Goudan, who was in midair, to frown!

In front of him, Carmen tore off the eyeball that was pierced by the green feather. Under the black blood device, his eyes quickly recovered. He was also extremely glad!

Fortunately, he used the black blood device. Otherwise, if not all of them were wiped out, more than half of them would have died!

This monster! !

Both Carmen and Arthas were extremely fearful of this wind demon. After all, when they escaped just now, more than half of the team had died at this guy's hands!

"Looks like my prediction was right!"

In the crowd, Wang Chengbo, who had also been pierced into a hedgehog, smiled. Li Goudan's wind demon group killing ability was very outstanding, but the drawback was that she was using light weapons, and the fatal damage she caused was not at the destructive level, the black blood device was relatively effective against her!

As soon as Wang Chengbo's voice transmission arrived, two bright beams of moonlight appeared in the team with a buzz, landing directly in two inconspicuous places. Those familiar with the device knew that this was the unique moon god device of Starry Sky Academy!

In the crowd, the remaining undead of the six kings team closed their eyes and allowed the two beams of moonlight to absorb the power from their bodies.

Following that, two sword blades soared into the sky and headed straight for Li Goudan, who was in midair!

Li Goudan's pupils constricted. His first thought was to retreat. However, when he noticed it, he realized that there was no way to retreat!

Not only were the two sword blades incomparably sharp, but their positions and timing were also extremely good. They had practically sealed off all paths of retreat for him. In an instant, Li Goudan felt a sense of helplessness rising up in him!

Rangers could be close or far, but they were actually more inclined towards long-range physical classes. High-level Rangers were not weak in close combat, but they were not specialized. They were agility-type lifeforms of the same level, if Rangers were to get close to assassins, swordsmen, and other classes, they would actually be at a disadvantage!

Wind steps! !

Li Goudan subconsciously activated wind steps, but as soon as he moved, he felt an obstruction. Immediately, a trace of doubt flashed across his eyes!

The surrounding space seemed to have been sealed by something. It was a bit like a spatial seal, but the nightmare that controlled Li Goudan was very clear that it was definitely not!

Those younger dolls did indeed have warlocks that could seal space, but their abilities were simply unable to keep up with Li Goudan's speed, and it was also impossible to lock her down!

Thinking of this, Li Goudan did not believe it and used wind steps to pierce into the elemental plane. But as soon as he entered, he felt an overwhelming amount of sword light coming towards him, instantly forcing her out!

What the hell was this?

The nightmare that was controlling Li Goudan widened its eyes. The layers of sword light were like a barrier, one ring after another, extremely precise and precise. It had lived for so long and had seen countless secret techniques of this universe, but it had never seen anything like this!

In an instant, the nightmare that couldn't be broken could only control Li Goudan to quickly retreat in a sorry state. After exiting the elemental plane, the densely packed wounds all over his body didn't even have time to deal with the two sharp sword lights that came pincer attack from the front and back without any flaws!

The timing was also extremely good. As if knowing that Li Goudan would come out of the elemental plane at this time, Li Goudan was completely sealed the moment he came out!

These two brats...

Succeeded! !

Feng Dou Dou and Yun Ji Mu were extremely excited when they saw this!

It was also after that that Yunji mu realized that the secret techniques of the previous sects were not completely useless. Most of them had been modified to have the power that did not lose out to the high-level secret techniques of the Federation!

At this moment, even the nightmare Lord, who had lived for a long time, was unable to find a way to break through the sword domain that sealed off space!

The two sword glows rushed towards Li Goudan's tendons without hesitation!

As long as they could capture Li Goudan alive, they would be able to control the situation!

However, the moment the two flawless sword glows slashed towards Li Goudan, the two of them felt as though they had hit cotton wool in the air. It was light and soft, without any strength!

Then, their pupils constricted as they looked over. They saw that Li Goudan, who had no space to move, was like an invisible wind under their sharp sword intents, he actually borrowed their two sword intents to move left and right.

Their swords were close to one millimeter, but they couldn't cut through it!

"Wind King's Barrier?"

Feng Doudou's face flashed with surprise. "When did this guy learn it?"

She knew that Li Goudan was learning this move, but in her memory, it seemed like he was still trying to figure it out. After all, it was the royal inheritance of the fallen angels, so how could it be so easy to learn it... .

Yun Ji's expression changed when she saw that the two of them had missed their first attack, because she had already sensed that an extremely powerful and overbearing aura was rapidly approaching from a few kilometers away!

As expected, a heaven-shaking Dragon's roar came from afar in the next second!

Chapter 1838: about the third candidate...

There was a very special place in the Purgatory world called the Abyss Blood Pool!

It wasn't that this place was filled with blood pools and forests, but that this place was known as the place where the new undead in the purgatory world created blood. It was the gathering place of all the new undead with talent in the purgatory world!

Those who could reach this place were the best among the new undead. Not only did they have high requirements for talent, but they also had high requirements for the age of their souls. Those who were older than 200 years wouldn't be able to get close to the blood pool...

And the vast world of death was absorbing the most brilliant elites of the entire living world. Here... ... Without any family background or background, all the resources could be obtained by relying on one's own abilities. It was the cruelest yet most level playing field!

And today, the blood pool was especially lively because there was an extremely good news coming from above! !

Countless groups of young departed spirits gathered together and excitedly discussed the news that had just appeared. The entire blood pool became very lively, whether it was the cold and aloof ones or the arrogant ones., or the cultivation maniacs who were training crazily every minute, they all blended into the gossip at this moment.

Because this news was related to whether they could compete for the top spot! Everyone knew that the ultimate goal of being in this blood pool was to enter the eyes of the ten great kings, and finally enter the palace of the Kings, becoming their imperial team to fight for resources!

The blood pool reserve team and the imperial team were two different concepts. If the imperial team fought for the benefits of the king, they could directly obtain a huge amount of resources, which was several levels higher than the resources in the blood pool, after a period of training, the king would be recruited into the ace battle team and become a high-level figure in the faction army!

It was a supreme and Broad Road!

And according to the latest news, the captains of the fifth king, Sixth King, and ninth king had all fallen in this mission. As soon as the news was out, the entire blood pool was in an uproar!

"Damn, is it true? That foyego also fell? Didn't they say that he was the most outstanding captain after the Ancient King Team?"

"It's just a publicity stunt. Do you believe this thing? Moreover, as long as he falls, whether he can get up or not is one thing. What's the use of being outstanding in the past? Isn't he going to have to start all over again?"

The group of people nodded one after another when they heard that, and their faces were filled with excitement!

After becoming a member of the imperial team, they would have the latest biological armor. It was said that it could completely imitate the body of a living creature. It was one of the important reasons that countless people would rack their brains to go to the imperial team!

After all... As an elite disciple who had died at a young age, no one would say that they had lived enough. Everyone longed to experience the feeling of being a living creature once again... ...

However, there was only one king in each royal team! !

Moreover, the competition in the blood pool was not personal. The preparatory teams were organized into groups and could not be entered alone. In other words, you not only had to be strong yourself, but you also had to be strong in your team in order to be selected!

Therefore, when most of the new undead first entered the blood pool, they were looking for reliable teammates to get used to each other... ..

This made the requirements for promotion even more stringent. Perhaps your individual strength had already reached the captain level, but because there was no suitable team, you were unable to compete. Perhaps your team was very strong, and everyone's overall strength was not bad, but because there was no absolute captain level main force in the team, it also caused the competition to be neither up nor down...

Many teams... ! ... were stuck at the last step, and it just so happened that the new six kings team only recruited one imperial team for the time being!

It really was like a radish in a pit...

In the original situation, with the confirmation of several king teams, the chances of the remaining people in the blood pool had become smaller and smaller, because the resources of the imperial team were stronger than theirs. If they could not compete at the beginning, as long as nothing unexpected happened to them., in theory, they would not be able to catch up to them.

So, they could either wait for the Kings to increase the team quota again, or... !

They could only wait for the teams that had already been selected to suffer a setback outside!

It was not as if such a setback had never happened before. The nine kings 'teams had suffered two consecutive defeats in a certain mission, and almost all of them were wiped out. However, no one had expected that they would suffer so many defeats in one go this time! Moreover, the ones who lost were all the main members of the team!

When a team went out on a mission, there was a risk of losing a teammate. Usually, when a royal team encountered such a situation, they would choose to poach people from the blood pool, and poach the talents they needed from other teams!

Under normal circumstances, they would be able to poach people. After all, anyone who encountered such an opportunity to directly enter the Palace of Lords would not miss it. However, it would be different if they lost the main members of the team!

No main force of the team leader level would be willing to give up the team that they were already familiar with to join a new team that had yet to get used to each other. Moreover, if they lost the team leader's personal team, the competition for the entire team would take a sharp turn for the worse, he could totally lead his own team to fight for a spot. Why would he join the leaderless team?

"This opportunity is really rare. There are three vacancies for the personal team !

"Captain, which King should we compete for?"

"All of them are good. The competition in the dilapidated palace should be the biggest. The ninth King has a bad temper, but I heard that he is very generous with resources. We can even consider him... "

"What about the Purple King?"

The Purple King... referred to the six kings...

In the blood pool, besides the newcomers who had just arrived and didn't understand the situation, more than 90% of the people were enthusiastically discussing the vacancies. However, among these old people, two groups of people had distanced themselves from this topic, they were anxiously waiting for another result!

The two waves of people were the Spider Temple's reserve members!

Different from the other palaces, the seventh king chose the royal team in a very different way. The choice of the team leader was personally chosen by her highness, Empress God Rose, while those who wanted to become the seventh King's team had to register in advance to undergo the assessment!

After the assessment, those who did not have the qualifications to be a team leader had two choices. One was to leave the seventh King's palace and go to the blood pool to find a suitable team to enter the other palaces. The second was to stay in the seventh King's Palace and become a reserve member, however, how one could become an official member would need to test one's vision!

The reserve members of the seventh palace needed to choose one of the captain seeded candidates chosen by Empress God Rose as a loyal subject. If the chosen seeded candidate succeeded in the final competition, then congratulations, one person would attain enlightenment, and the chickens and dogs would ascend to heaven, all the reserve members who had chosen the right candidate would become official members!

And those who had chosen the wrong candidate would be directly eliminated!

According to the latest news, one of the three seeded contestants had already lost the ability to control the nightmare Lord and was eliminated as the captain, and those who had chosen the seeded contestant were all sent back to the blood pool with pale faces!

And now... . There were only two waves of people left in the entrance of the seventh seat of the King!

One wave. . . . It was a group of outstanding undead who had chosen Helana, and the other wave was a group of undead who had chosen the third spirit medium!

The expressions of the two waves of members were all different at this moment, because they... . ! They were able to see the situation of this mission through the perspective of the team leader they had chosen!

Chapter 1839: Wang Chengbo's ability!

At this moment, the situation in the seventh seat of the king was extremely strange...

Godly Queen Rose sat on the throne in the main hall with her eyes closed. She was like a beautiful statue. Outside the main hall, the two groups of team members who were not qualified to enter the main hall were staring at the situation, not daring to even breathe loudly!

The two groups of people had nervous expressions. They were also constantly observing the expressions on the other side, wanting to see something from the other side's expression...

The reason was also because the two groups of people could only see the current situation from the perspective of the seeded players they had chosen!

At this moment, the expressions of the players on Helana's side were relatively more stable. Moreover, they could faintly see that there was a faint excitement in their eyes!

Through Helana's perspective, they could clearly see that Helana currently held a huge advantage. Once she succeeded, not only would she be able to win the position of team leader, but she would also be able to bring back quite a number of team leader-level creatures!

From Helan's perspective, they could clearly see the abilities of those few captain-level creatures. Almost all of them had the strength that did not lose to foyego, and there were quite a few of them at once. If they could bring back such a lineup., the rise of the Seven Kings team was absolutely predictable. And those who chose the right members, even if they were to act as assistants in the team, would also be able to benefit from a huge amount of resources!

It could be said to be a first-class good thing!

Moreover, with the fifth King's team, the sixth King's team, and the ninth King's team leaders eliminated one after another, there were almost no more people on the scene who could obstruct he lan. The only variable was... He Lan's teammates silently looked to the other side. The other team that had been silent the entire time... ..

If there were any other variables on the scene, other than the resistance of the people from the living world, it would be the third mysterious spirit medium!

Regarding the identity of the third psychic, he LAN's team members had secretly made countless deductions, but they were still unable to accurately deduce who it was... ..

The main information that could be deduced was too little. The quota that they had suddenly joined a year ago was without any warning, and the team members who had chosen that fellow had not revealed the slightest bit of information. Even now, all of them were frighteningly silent., clearly Helan has such a big advantage, but this group of people do not seem to panic, but rather calm, occasionally a few people eyes will reveal a trace of excitement!

This scene made them feel more and more strange...

They... where did that come from?

And at this time, on the throne, has been like a statue of a certain existence, the bottom of the eyes flashed a smile...

Funny Little Guy...

At this time, the underground city, the battle is like fire tea...

That one earth-shattering dragon roar, instantly announced to take down Li Goudan blitzkrieg bankrupt, everyone braced themselves to look up at the fast approaching Guy!

Only a vague black dot could be seen, especially in the hazy night, which was becoming more and more unclear, but the overwhelming momentum seemed to annihilate them in an instant, which made it extremely difficult for a group of people to raise their heads!

Everyone knew that the terrifying black dragon had come to support them!

“It’s coming, be careful!”

Wang Chengbo quickly reminded them!

“I’ll do it! “Feng Doudou, who was working together with Yunji to deal with Li Jiayi, had a flash of excitement in his eyes. Without hesitation, he turned into a streak of red light and charged toward the astonishing aura in the air!

Actually..! ... She had long wanted to fight Wang Xiaojia with all her strength!

In the base, everyone knew that she had won against Wang Xiaojia, but no one had ever truly believed that she had won!

That was because fighting with Wang Xiaojia was restricted by the rules in the base!

The reason was very simple. Wang Xiaojia’s strength was too powerful, and she couldn’t hold back at all since she had just obtained her strength!

She had indeed won against her opponent several times, but that was according to the points system. As an agility-type expert, she had too much of an advantage in a fight where she had yet to win!

And every time she fought with Xiaojia, Ysera would forcefully end the fight when her opponent’s ferocity was aroused. She would knock the crazy dog egg unconscious and announce the end of the fight... .

But Feng Doudou knew in his heart that regardless of whether it was himself or the surrounding spectators, the one who wanted to truly fight was the Crazy Wang Xiaojia!

That astonishing aura and that terrifying aura made people fearful... ... It made people’s blood boil again!

She wanted to win once, to win once in Wang Xiaojia’s hands when he was in his full strength state!

Yunji Mu’s eyes moved, and a hint of heat flashed through her eyes. But in the end, she forcefully held it back!

In fact, she really wanted to fight Wang Xiaojia in such a state. After all... ” As a sword immortal, yun-ji Mil’s innate wariness wasn’t any less than Feng Doudou’s!

However, she held it in in the end. After all, she was Chengbo’s younger sister. She might not be able to fight with pure determination. However, against such an opponent, if she didn’t have pure determination, it was very likely that something would happen... ..

Buzz!

Feng Doudou had an extremely excited smile on her face. Without hesitation, she charged into the air. The ice-blue Longsword in her hand actually instantly turned into countless particles, finally forming a huge shield in her hand!

It was precisely her alien talent that could change the shape of her weapon!

Below, when Wang Chengbo saw this, his black pupils suddenly began to spin. Black and white interweaved, like two interacting fish. An extremely pure mental energy emerged from his body, instantly wrapping around a bronze box in front of him!

Under Wang Chengbo's mental energy, the box let out a metallic roar, and then, like a volcano erupting, powerful energy gushed out like lava, turning into countless crystal-like sparks that floated towards Feng Doudou in the air!

In the next second, these fiery red crystals turned into extremely pure energy and poured into Feng Doudou's shield. The huge ice-blue shield became even larger under the support of the pure energy, like an incomparably thick mountain.., it forcibly turned Wang Xiaojia's astonishing aura into nothingness!

Several captains of the high school team secretly looked at Wang Chengbo in shock!

At the beginning, it was the black blood device that had buffed everyone, then the moon god device that had buffed the two girls, and now, it was the star energy device of Spark Academy. This was the first time they had seen an existence that could activate three devices at once!

One had to know that the top equipment in high schools were all extremely complicated alchemy equipment. It definitely required a very outstanding equipment master to be able to control them. Moreover, they would need to spend a lot of time to familiarize themselves with them!

He was able to use the equipment so skillfully just by looking at it once. It was simply beyond their understanding!

One had to know that when most equipment masters first came into contact with the top equipment in high schools, the time to familiarize themselves with them was calculated by years!

For example, the equipment owner Simon from Tirefarson had spent a total of three years just to familiarize himself with the black-blood equipment!

There was still no guarantee that he would be able to fully apply it. At the very least, he would not be able to enchant so many people with black-blood equipment like this young man before him!

However, not only was this young man able to use it so perfectly in one go, he could actually multitask and activate three top-tier equipment in a row, causing a group of top-tier equipment owners from the university to doubt their lives... ..

Where did these guys come from. Each of them was more abnormal than the last... .

Chapter 1840: Greedy Helan!

"Star spirit! I"

In the distance, Helan Nana couldn't help but stand up when she saw Wang Chengbo opening his eyes when he activated the three devices at the same time through the two dogballs!

These guys had already given her enough shock. The flower spirit that was close to the level of a pure-blooded royal, the black dragon of an ancient species, and the elven swordsman that could rival them, each of their talents had already surpassed the ceiling in her impression. However, she did not expect that the group of humans actually had such a top-notch support

talent...

An equipment player could be said to be the class with the highest overall quality requirement in a team, and it was also the class that was the most difficult to find!

An equipment player in a team had to be proficient in all kinds of alchemy knowledge, have top-notch elemental control ability, material identification ability, and various knowledge levels that matched the equipment, it was equivalent to the standard equipment of an all-rounded leveling master, and it also had to be a top-notch equipment that was very compatible with the team!

In other words, even if you were outstanding, it didn't mean that you were suitable!

For example, Tyrelfsson's blackwater equipment required an accurate understanding of the mutation of top-notch biological energy and the fission and proliferation of cytoplasm. Only then could it activate this kind of equipment that could strengthen the vitality of human cells!

Another example was starry sky academy's Elemental Device, which required an extremely high level of changes to the four major elements!

Therefore, most of the time, high school teams were equipped with multiple equipment hands. One equipment hand corresponded to a top-tier device, and very few people could be compatible with it...

However, not only could that guy be compatible, but he could also activate multiple top-tier devices at the same time. Logically speaking, it absolutely did not exist!

The relationship between an equipment player and a top-tier device was like that of a huge machine and a screw. The equipment player who could be chosen to be part of a high school team was not necessarily the best, but the most suitable, the equipment player would always be the first to be chosen. This was not only the case in the federation's high schools, but also in the army and in the death realm!

Top-tier devices required a suitable equipment player. The role of an equipment player was similar to a screw, and a screw was usually only suitable for one type of device. It was unlikely that it could be used for multiple purposes!

Therefore, although the profession of equipment hand was popular, the upper limit was actually very low... ..

But if... .. If this screw was an all-purpose screw, then it would be different!

It was generally impossible, but it wasn't as if it had never appeared before. In history, there had been two lifeforms that were able to do such a thing!

The first was the ancient developers. This spirit system civilization that had evolved spiritual power to the limit had always been the publicly acknowledged ceiling of the spirit system civilization since countless eras, up until now, many of the equipment stored in the federation could not be operated because there were no spiritual lifeforms within the federation that could control the developers complex equipment!

The second type was the star spirits!

There were many titles for the star spirits. It was a legend that the Divine Craftsman class had always yearned for. It was a legend that could turn the complex core of a planet into a divine weapon!

However, very few people knew that they were also the only divine weapon users in the legends. The star spirits were the best equipment makers in the history of the universe. They could create the most complicated alchemy equipment, but at the same time, they could also use the most complicated alchemy equipment!

Although Helan had never been to the death realm, as a seeded player, he roughly knew the situation of the team inside. The king's Palace did not lack top alchemists. It should be said that the death realm did not lack top-notch liches who were good at alchemy!

However, there was a shortage of users. Many of the strange things made by top-notch liches were not that they were not powerful, but that ordinary people could not use them at all. As a result, many necromancy holy weapons were left outside and were used as cursed magical tools!

However, liches were not stupid. The things they made were naturally meant to provide assistance. Why would they set up curses? The reason why a large number of instruments made were called taboo and cursed instruments was because most people could not use them at all. If they were forced to use them, there would be a considerable side effect. Therefore, that kind of saying appeared. In essence..! ... It was because the user was too weak!

The best resources in the death realm were those antique-level liches and all kinds of tools left behind. Most of these things had been sealed away. The value of a good equipment hand was endless in the death realm!

He Lan took a deep breath and stared at Wang Chengbo in the distance. A hint of hesitation flashed in her eyes... .

However, this hesitation only lasted for a few seconds before it turned into determination!

“Little Phoenix...”

Nana's gentle voice slowly sounded. Her grandfather, who had originally closed his eyes, opened his eyes. A strange light flickered in his eyes...

“Take me with you...” Nana looked at him with a smile.

Her grandfather tilted his head and said in a deep voice, “Are you sure? Why are you taking such a risk?”

That voice... ! ... obviously, it didn't come from his grandpa, but from the nightmare that hosted his grandpa!

"I can't help it... "nana smiled and shrugged. "I'm a person who can't resist temptation. "

In the face of doubts, he LAN certainly knew the disadvantages of taking the initiative to go. If he waited there, he would have a huge geographical advantage. He used the powerful spiritual power and arcane means of the Phoenix to create quite a number of traps, equipped with a constantly strengthened spiritual barrier, it could be said to be as stable as Mount Tai! But once he left here, everything he had prepared just now would be in vain...

He Lan knew all this...

But there was a reason for his impulsiveness!

The guy who could control multiple devices was very smart. From the tactics and the combination of the devices he designed, it could be seen that he was not only a genius who could use multiple devices, but also a cautious and careful person, this kind of person was the hardest to kill in one go!

If he only sent one of the cabbages or phoenixes, he might be able to win in a three-on-three situation. However, it was basically impossible to take down the other party. The other party could retreat if they could not beat him, but his side did not dare to be too far away... ..

This was the disadvantage after he was exposed. The other party could use this distance to pull at him, at the very least, he could ensure that he was in an invincible position!

Actually, she could also be in an undefeatable position because her current advantage was large enough. Even if she did not find a third spirit medium, she would still be determined to be her captain when she returned... ..

But this was not perfect enough!

As the most outstanding disciple recommended by the Night Demon race, she wanted to hand over a perfect examination paper!

Satisfaction and her current results would become a flaw in her future path. She would not allow another medium to hand over the third fragment to the Divine Empress!

Whether it was that guy in the dark or that group of creatures, since they wanted her to leave, then she would leave. After all... ! ... with such a thick trump card, she did not dare to risk it. Her courage was a little too small! ! !

"Hehe, interesting little doll! "Grandpa Lu suddenly let out a sinister laugh, and then a phoenix cry sounded, and the countless traps maintained by spiritual power around instantly disappeared, directly into a flame will be Helan shrouded in!

"Coming!

Wang Chengbo, who was concentrating on controlling the device, suddenly looked into the sky. His black-and-white pupils suddenly flashed with a sharp light. He directly activated the fourth device. It was the four-element device of Starry Sky Academy!

Everyone felt excited when they felt the four elements ability added to their backs, even Ba lie, who had always been arrogant, couldn't help but look at the other party. "It's a huge loss that you didn't come to the Divine Arcana Academy. Why Don't you quit school and come to our place? I'll recommend you to my teacher. You 'll definitely become the most powerful divine craftsman! "

"Go to your place? "Carmen immediately sneered. "Will I be squeezed to death by you?"

"Bullsh \* T!" Ba lie couldn't help but Shout!

"Alright! "Yao Xing frowned and said, "What time is it? Can We make a scene later? "Then, he looked at Wang Chengbo. "Brother, are we going to stick to the original plan?"

"No... "Wang Chengbo shook his head and looked at the sky with an uncertain expression.. "Retreat! I"
